

2014-2015 Catalog

This version of the catalog includes the most recent changes to courses and program requirements that have been approved by the Faculty Senate for academic year 2014-2015. Some programs may be placed in moratorium; details will be published in the online catalog when these decisions are finalized.

Notice to Readers

Every effort has been made to provide accurate information. Policies and information may have changed since publication. Please consult with the appropriate University department or office for possible revisions. For department information, call the University at 360-650-3000.

This catalog is available in alternate formats by calling the ADA Coordinator at 360-650-3307 or 711 (Washington Relay).

Western Washington University (WWU), in compliance with applicable laws and in furtherance of its commitment to fostering an environment that welcomes and embraces diversity, does not discriminate on the basis of race, color, creed, religion, national origin, sex (including pregnancy and parenting status), disability, age, veteran status, sexual orientation, gender identity or expression, marital status or genetic information in its programs or activities, including employment, admissions, and educational programs. Inquiries may be directed to the Vice Provost for Equal Opportunity & Employment Diversity, Title IX and ADA Coordinator, Equal Opportunity Office, Western Washington University, Old Main 345, MS 9021, 516 High Street, Bellingham, WA, 98225; 360.650.3307 (voice) or 711 (Washington Relay); eoo@wwu.edu.

Please see Appendix A - WWU Policies on Equal Opportunity/Nondiscrimination, Affirmative Action, Sexual Harassment and Reasonable Accommodation, and Appendix H - WWU Administrative Procedures A. Discrimination Complaint Procedure.

President's Message

Welcome to the start, or the continuation of, your personal adventure in learning here at Western! When I look through the sheer breadth and quality of the offerings in Western's catalog, I'm reminded of the special thrill I felt as a student eager to explore the myriad pathways in the life of the mind.

Here at Western we talk about Active Minds Changing Lives, meaning not only the potential for you to put your higher education to higher purposes in service to others, but to transform your own life through learning. This catalog is your gateway to understanding the animating ideas of the future and the past - from the latest discoveries shaping the world of tomorrow, to the foundations of culture, sciences, mathematics, history and art that have defined the world of today. At Western you not only have the chance to learn from some of the country's finest faculty, but to collaborate and contribute your new ideas to further our understanding of ourselves and the world.

Beyond the classroom, Western is recognized as a place where service learning, community engagement and love of the outdoors are an integral part of the learning experience. I encourage you to use your time at Western to discover those life-changing opportunities as well, and chart a course to making the positive difference you want to see in the world.

Above all else, as you look through this catalog, and throughout your time at Western, I hope you will take advantage of these special opportunities to be adventurous and step outside your comfort zone. We learn and grow not only by building upon what we already know, but by keeping an open mind to explore new frontiers as well.

A handwritten signature in black ink, appearing to read "Bauer". The signature is fluid and cursive.

Western Washington University

Active Minds Changing Lives

Vision

Western Washington University will build a stronger Washington by being an international leader in active learning, critical thinking, and societal problem solving.

Mission

Western Washington University serves the people of the State of Washington, the nation, and the world by bringing together individuals of diverse backgrounds and perspectives in an inclusive, student-centered university that develops the potential of learners and the well-being of communities.

What is Western?

- Exceptional faculty and students engaged in leading edge intellectual inquiry.
- Liberal arts are the core strength of our academic programs.
- High quality academic programs are central to our mission.
- A place to build professional skills and abilities.
- Research, scholarship, and creative endeavor are fundamental to the Western experience.
- An environment that welcomes and embraces diversity
- Committed to open, passionate, and civil discourse, leading to transparent and well-informed decision-making.
- Responsible stewards of resources.
- Distinguished by a sense of place and community.
- A collaborative environment where faculty, staff, and students contribute to the mission of the University.
- Bringing the world to Washington and Washington to the world.

Character

- **Engaging** - An immersive and dynamic approach in everything we do.
- **Inviting** - Inclusive and supportive.
- **Distinctive** - An academic environment that inspires innovative learning and commitment to a purposed life.
- **Adventurous** - Thriving on new challenges, fearless pursuit of dreams.
- **Collaborative** - Interactive learning, up close and personal, with faculty and staff.

Positioning Statement

For ambitious, open-minded learners, Western is the premier undergraduate-centered university that fosters a dynamic collaborative environment at an intimate scale, where students fully engage, reveling in the freedom to develop their intellectual potential and achieve their personal goals.

Reasons to believe

- Academic excellence
- Passion for boundless learning and exploration
- Personal engagement in one's education
- Collaboration between students and faculty
- Welcoming and supportive community

WESTERN WASHINGTON UNIVERSITY

- A place to develop leaders and global citizens
- Spectacular location and natural environment

Who we are

Western welcomes students at the front door of discovery. We invite you to connect, create and join in community with others who thrive on learning. Students and faculty are fully engaged here, working side-by-side to develop new ideas that challenge our understanding of ourselves and our world. We think of education as an adventure. So go ahead and immerse yourself and forge your own path to the future. You will make your mark here and go on to lead the positive change you want to see in the world.

*This calendar is subject to change. Dates appearing in admissions or registration or employee instructions take precedence over those in the University catalog.

**Some extension programs have varying start dates. Check with the site or program office to verify date classes begin.

The University

Western Washington University is situated in Bellingham, a city of 82,310 overlooking Bellingham Bay and many of Puget Sound's 172 San Juan Islands. The University is 90 miles north of Seattle, 55 miles south of Vancouver, British Columbia, Canada, and an hour's drive from Mount Baker.

Since the first class of 88 students entered New Whatcom Normal School in 1899, the school has grown into the third largest institution of higher education in the state. The Normal School became Western Washington College of Education in 1937, Western Washington State College in 1961, and achieved university status in 1977.

Academic Programs and Degrees

Western Washington University is organized into a Graduate School and seven undergraduate colleges: the College of Business and Economics, the College of Fine and Performing Arts, Fairhaven College of Interdisciplinary Studies, the College of Humanities and Social Sciences, Huxley College of the Environment, the College of Science and Engineering, and Woodring College of Education.

To fulfill its academic objectives, Western's curriculum includes a program of broad general education; intensive studies designed to develop scholarly competence in the arts and sciences; professional programs for both public school personnel and a variety of other professionals; and graduate programs in professional education, the arts, the sciences, humanities, and business areas.

Western's undergraduate and graduate programs lead to the following degrees: Bachelor of Arts, Bachelor of Arts in Education, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science, Bachelor of Science in Nursing, Master of Arts, Master of Business Administration, Master of Education, Master of Fine Arts, Master of Music, Master in Teaching, Master of Science, and Master of Professional Accounting.

Extension Programs

Extended Education at Western had its beginnings in 1912 when the first home study courses were created for country teachers. Fast forward to the 21st century where Extended Education has expanded and diversified its offerings in Bellingham and throughout the Puget Sound region to provide learning options for youth to seniors, as well as a variety of international education opportunities. All of Western's extension programs, credits and degrees meet the same requirements as regular Western programs unless otherwise noted. Please see the Extended Education section of this catalog for detailed information on our program offerings and site locations.

Accreditation

The University is accredited by the Northwest Commission on Colleges and Universities to offer work at the bachelor's and master's degree level. The following colleges, departments and/or programs are also accredited:

- **Chemistry** — American Chemical Society, 1155 Sixteenth St. N.W., Washington, D.C. 20036;
- **College of Business and Economics** — AACSB International-The Association to Advance Collegiate Schools of Business, 777 South Harbour Boulevard, Suite 750, Tampa, FL 33602-5730;
- **Communication Sciences and Disorders** (graduate program in speech language pathology) — American Speech-Language-Hearing Association's Council on Academic Accreditation, 2200 Research Boulevard, Rockville, MD, 20850-3289; and National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023.
- **Community Health** — SOPHE/AAHE Baccalaureate Approval Committee (SABPAC), Society for Public Health Education, 10 G Street NE, Suite 605, Washington, DC, 20002.
- **Computer Science** — Computing Accreditation Commission of Accreditation Board for Engineering and Technology, Inc., www.abet.org;

- **Electronics Engineering Technology, Manufacturing Engineering Technology, and Plastics Engineering Technology**— Technology Accreditation Commission of Accreditation Board for Engineering & Technology, Inc., www.abet.org;
- **Industrial Design** — National Association of Schools of Arts and Design, 11250 Roger Bacon Dr., Suite 21, Reston, VA 20190;
- **Music** — National Association of Schools of Music (NASM), 11250 Roger Bacon Drive #21, Reston, VA 20190;
- **Psychology** (mental health and school counseling master's degree programs) — Council for Accreditation of Counseling and Related Educational Programs, 1001 North Fairfax Street, Suite 510, Alexandria, VA 22314; National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023; and the Washington State Professional Educator Standards Board, P.O. Box 47236, Olympia, WA 98504-7236;
- **Recreation** — Council on Accreditation of Parks, Recreation, Tourism and Related Professions, National Recreation & Park Association, 22377 Belmont Ridge Rd., Ashburn, VA 20148
- **Woodring College of Education** — National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023; and program approval by the Washington State Professional Educator Standards Board, P.O. Box 47236, Olympia, WA 98504-7236 (teacher education and educational administration programs); Council on Rehabilitation in Education, 1699 Woodfield Road, Suite 300, Schaumburg, IL 60173; (rehabilitation counseling program); program approval by the Washington State Department of Health, Nursing Care Quality Assurance Commission, P.O. Box 47864, Olympia, WA 98504-7877 (nursing RN to BSN program).

The University holds membership in the Council of Graduate Schools in the United States and the Western Association of Graduate Schools.

Assessment

As part of an ongoing effort to assure the quality of the education received by its students, Western Washington University conducts a comprehensive assessment program designed to monitor and continually improve student learning. This assessment program conforms with guidelines established by the state's Higher Education Coordinating Board. From time to time students may be asked to participate in outcomes assessment by completing satisfaction surveys, sitting for achievement examinations, compiling portfolios of their academic work, or evaluating their own work and the quality of instruction in their classes. The purpose of all such assessment activities is to monitor and continually improve the quality of Western's academic program.

Students are strongly encouraged to participate in these assessment efforts. Participants can be assured that assessment results are always treated with the strictest professional confidentiality.

Research

The Office of Research and Sponsored Programs (RSP) encourages, facilitates, and supports faculty and student research, creative activities, and scholarly pursuits. Through pre-award, post-award, and compliance, RSP assists faculty and students in areas vital for success in their scholarly endeavors. Pre-award supports individuals and teams during the proposal writing and submission phase, while post-award is responsible for the fiscal management of funded projects. RSP's compliance area focuses on the ethical conduct of research, includes support for human subjects and animal research, and administers university policies in these areas. RSP works closely with Contracts Administration to ensure intellectual property issues, right to publish, and areas important to scholarly pursuits and academic freedom are appropriately established for each project. RSP also provides internal funding in support of scholarly endeavors for faculty and students.

A variety of external sponsors has made awards to support faculty research, curricular development, and student research. Examples of sponsors include: the National Institutes of Health, National Endowment for the Arts, National Science Foundation, U.S. Department of Agriculture, National Oceanic and Atmospheric Administration, Department of Education, Department of Transportation, the Corporation for National and Community Service, Environmental Protection Agency, Canadian Embassy, National Endowment for the

THE UNIVERSITY

Humanities, U.S. Forest Service, American Chemical Society, National Park Service, U.S. Department of Defense, U.S. Small Business Administration, National Aeronautics and Space Administration, The Research Corporation, the Murdock Charitable Trust, the Joint Center for Aerospace Technology Education, the Department of Health and Human Services, Tetra Tech, the Stillaguamish Tribe of Indians, the John Templeton Foundation, the Nature Conservancy, C and D Zodiac, the Huntington Society of Canada, Salish Kootenai College, Evolving Earth Foundation, Batelle Pacific NW Pacific National Lab, and various other local agencies and agencies of the state of Washington.

Equal Opportunity Office

Western Washington University, in compliance with applicable laws and in furtherance of its commitment to fostering an environment that welcomes and embraces diversity, does not discriminate on the basis of race, color, creed, religion, national origin, sex (including pregnancy and parenting status), disability, age, veteran status, sexual orientation, gender identity or expression, marital status or genetic information in its programs or activities, including employment, admissions, and educational programs. Students, faculty or staff who believe they have been treated unfairly based on a legally protected characteristic may contact the Equal Opportunity Office (EEO) for advice and assistance. The EEO works to mediate discrimination concerns, if possible, and investigates and resolves formal complaints should they be filed.

The Vice Provost for Equal Opportunity serves as the campus Title IX Coordinator and ADA Coordinator. Sexual violence (including sexual assault, domestic violence, dating violence and stalking) is prohibited by Title IX and violates civil rights and criminal law. Survivors of sexual violence have the right to file a discrimination complaint and seek assistance from the EEO.

The EEO provides training to the campus community on sexual harassment prevention and a wide variety of other EO and diversity related topics. The office also works to increase access to WWU employment for people of color, women, people with disabilities, and veterans who have historically faced barriers to employment opportunities. Inquiries may be directed to the Vice Provost for Equal Opportunity & Employment Diversity, Title IX and ADA Coordinator, Equal Opportunity Office, Western Washington University, Old Main 345, MS 9021, 516 High Street, Bellingham, WA 98225; 360-650-3307 (voice) or 711 (Washington Relay); eoo.wwu.edu.

Academic Facilities

The main campus and its 91 buildings occupy 215 acres along Sehome Hill overlooking Bellingham Bay and downtown Bellingham. Other University properties, such as the marine laboratory at Shannon Point in Anacortes, support regional educational and conservancy programs.

In addition, off-campus courses and programs are held at various sites. The University has on-campus residence halls and student apartments for more than 4,000 students.

The beautiful natural setting of the main campus and its award-winning architecture make Western Washington University a stimulating place for work and study.

The Libraries

Western Libraries and its Learning Commons partners provide vibrant physical and virtual learning spaces for faculty, staff, and students, offering them the opportunity to interact with information and with each other. The range of support includes individual and collaborative study spaces, online learning modules, access to technology, and research assistance, and Library staff pride themselves on delivering the same high quality materials and services to students pursuing coursework on campus as to distance learners.

This sense of pride extends to the Western Libraries collections with over 1.4 million volumes of books, periodicals, government documents, maps, sound recordings, videos, and other multi-media funded by an annual resource access budget of just over \$2 million. These collections include unique intellectual and cultural heritage materials, including the history of the University and Pacific Northwest, acquired to support the University's curricula and housed in Special Collections, University Archives, and Center for Pacific Northwest

Studies. The Libraries also provide access to extensive online periodical databases and other electronic resources, many with full-text access, available from campus or from home 24/7. Western's collections are supplemented by borrowing privileges from the Orbis Cascade Alliance, a consortium of 37 academic libraries.

Engaging human, physical, and virtual resources, the Libraries contribute to the academic success and lifelong learning of Western's students, staff, and faculty by offering for-credit courses, individualized instruction sessions, expert writing support and teaching pedagogies, the nationally acclaimed Teaching-Learning Academy, and research assistance at the point of need.

Academic Technology & User Services (ATUS)

Upon a student's online activation of his or her Universal ID and Password, key resources become available, including the MyWestern portal, the WWU network and WWU wireless network, use of more than 20 general university computer labs and numerous departmental labs with scanners and printers, residence hall computer labs, and the Student Technology Center (STC).

General university computer labs are open 24 hours per day, 7 days per week during the academic year, and provide general use software for Windows and Macintosh users. In addition, academic departments provide computer and software resources which are specific to the needs of students in their disciplines.

The Student Technology Center offers classes in the use of software, multimedia tools, and website development, in addition to printing of specialized materials for academic coursework.

Laptop computers for use on the wireless network may be borrowed at Wilson Library, Viking Union and several other campus locations. Multimedia equipment is available for checkout at ATUS Classroom Services and the STC.

The ATUS Help Desk, Haggard Hall 123 provides computer and software support to all campus communities. The Help Desk staff can be called at 360-650-3333.

University Public Art Collection and Western Gallery

The historic precedent of establishing public art on a university campus as early as 1957 and the prominence of the artists in Western's Outdoor Sculpture Collection make this University and its specific art works widely known beyond the Northwest. Considered one of 10 acclaimed university collections in the United States, Western's outdoor sculpture spans the last half of the 20th century and is integrated with the terrain and campus architecture. The collection includes large-scale works by international, national and regional artists such as Magdalena Abakanowicz, Alice Aycock, Scott Burton, Anthony Caro, Nancy Holt, David Ireland, Donald Judd, Robert Morris, Bruce Nauman, Isamu Noguchi, Tom Otterness, Beverly Pepper, Richard Serra, Mark di Suvero, George Trakas and Ulrich Rückreim. Since 2012 the sculpture collection also includes interior works by such artists as Do Ho Suh. New commissions during 2014 will focus on Rebecca Cummins & Paul DeMarinis, Claude Zervais and Cris Bruch. Website information and a brochure are available to students and visitors who wish to learn about these works. The collection is administered by a curator and an advisory board. Acquisitions are made through a thoughtful process ensuring a standard of high quality and cultural relevance while maintaining the integrity of a late 20th century and early 21st century sculpture collection of international interest.

The Western Gallery, in a wing of the Fine Arts Complex in the center of campus, has 4,500 square feet of exhibition space with sophisticated environmental controls. The gallery features temporary art exhibitions of a diverse character appropriate to our pluralistic society. As part of the educational programs of the gallery, weekly lectures during major exhibitions are scheduled involving a variety of scholars. The contemporary art exhibitions and forums offer students the opportunity to cross reference works of art with the discourse of various disciplines.

Shannon Point Marine Center

Located on an 87-acre campus in Anacortes, Washington, the Shannon Point Marine Center (SPMC) provides facilities and programs that support the study of marine science on the part of students and faculty from

THE UNIVERSITY

throughout the University. Winner of the 2002 Presidential Award for Excellence in Science, Math and Engineering Mentoring, SPMC provides to biology or environmental science undergraduate majors specializing in marine science a ready opportunity to take courses and engage in special programs supporting independent study and research. Master's of Science students who participate in the Marine and Estuarine Science Program, offered through the Department of Biology and Huxley College of the Environment, take courses and engage in thesis research at the Marine Center. Federally sponsored programs that involve both Western students and others from around the nation include the summer Research Experiences for Undergraduates, and the Multicultural Initiatives in Marine Science: Undergraduate Participation, both sponsored by the National Science Foundation.

Only an hour's drive from the main campus in Bellingham, SPMC's facilities are designed to provide the most up-to-date opportunities for study of marine science on the part of both undergraduates and graduate students. Included is a well-equipped academic vessel fleet that provides ready access to the rich marine environment in the waters surrounding SPMC and a sophisticated analytical instrumentation base that provides students distinctive opportunities for education in the principles of marine science and training in the application of modern field and laboratory investigative techniques.

The SPMC campus provides extensive marine habitat for field and laboratory study, with the Mosquito Pass Study Site on San Juan Island providing additional sites useful for comparative studies. A running seawater system brings the marine environment into the controlled conditions on the laboratory to facilitate study of marine plants and animals. There are housing and dining facilities for 24 people. The Shannon Point Marine Center of Western Washington University also provides a marine outlet for the SPMC Consortium that includes Skagit Valley College, Edmonds Community College and Everett Community College.

Enrollment and Student Services

The Division of Enrollment and Student Services advances Western's commitment to Active Minds Changing Lives by engaging and challenging students in their pursuit of academic and personal excellence through outreach, support services, and co-curricular learning opportunities. The division's mission, goals, and priorities align closely with Western's mission and goals, as set forth in the WWU Strategic Action Plan. Working collaboratively, departments in the division play a key role in bringing together an increasingly diverse and talented student body that involves its members in active learning and reflection. Division departments also create opportunities for students to display leadership, social responsibility, and effective citizenship through co-curricular programs, and are strongly committed to facilitating students' development.

Programs and services offered by the division include admissions, registration, residence hall life, academic and career development services, tutoring, financial aid, disability resources, dean of students/student assistance services, student activities, dining services, new student and parent programs, counseling, health and wellness services, recreation programs, student outreach services, bookstore, and athletics.

Office of the Vice President for Enrollment and Student Services

Old Main 445, 360-650-3839
www.wvu.edu/depts/vpsa

The Vice President's Office is the central administrative office for the Division of Enrollment and Student Services. The vice president and staff provide leadership to ensure that the ongoing needs of students at Western are addressed. This is accomplished by maintaining effective student-centered programs and services, working closely with academic departments to create an integrated and comprehensive student experience, and assessing students' needs and concerns. Students with general questions regarding university policies, procedures, and resources may contact the Vice President's Office for assistance.

Your Right-to-Know: Disclosure of Consumer Information

Western Washington University is committed to providing full disclosure of all consumer information required by state and federal law to all students, their family members, and members of the campus community. A summary of required information, and where to access it, is as follows:

Information	Where to Find It
Accredited Departments and Programs	http://catalog.wvu.edu/content.php?catoid=6&navoid=477

ENROLLMENT AND STUDENT SERVICES

Emergency Response and Evacuation Procedures

Western recognizes its responsibility to provide timely information to the campus community during emergencies. In the event of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, staff or faculty, the university will use every communication tool at its disposal to share information with the campus community as quickly as possible. These include, but are not limited to:

- The Western Washington University home page (www.wvu.edu),
- The Emergency/Storm Hotline (360-650-6500),
- The WWU Emergency Communications web site (emergency.wvu.edu); and/or
- The Western Alert emergency notification system.

Emergencies may be reported to University Police by dialing 3911 from a campus phone or 360-650-3911 from a non-campus phone or cell phone.

"Western Alert" Emergency Notification System

The Western Alert emergency notification system gives Western the ability to share health and safety-related emergency information with members of the campus community quickly — by e-mail alerts and cell phone text messages. Students, faculty and staff must "opt in" to receive Western Alert text messages (e-mail alerts will be sent to your official university account automatically).

To "opt in" to receive Western Alert text messages, students, faculty, and staff should login to their MyWestern account online at www.wvu.edu and click on "Web4U." Select "Personal Information," then "Cell Phone – View/Update." Enter your cell phone number, and finish by pressing the "Update" button. Text messaging will only be used to communicate with you in two circumstances: during an emergency and during occasional tests of the Western Alert system.

Academic and Career Development Services

WWU's Academic and Career Development Services department is committed to helping students succeed in their academic pursuits at Western, and to achieve their personal and professional goals. Academic and Career Development Services is comprised of three units: the Academic Advising Center, the Career Services Center, and the Tutoring Center. The integrated services offered by these three units are focused on providing:

- Accurate and accessible advising to help students establish their academic goals and make effective plans to meet graduation requirements;
- Tutoring support to help students develop their critical thinking skills, work collaboratively to solve problems, and build confidence and self-efficacy in order to achieve their highest academic potential; and
- Career services to help students relate academic decisions to career goals, gain career-related experience, and transition successfully to graduate/professional education or career employment after completing their studies at Western.

Academic Advising Center

Old Main 380, 360-650-3850
www.wvu.edu/advising

The Academic Advising Center focuses on supporting first year freshman and transfer students, students who are undecided about their academic goals, and students experiencing academic difficulties. The center helps students:

- Set academic goals and make academic plans
- Understand academic policies, General University Requirements (GUR), and graduation requirements
- Explore Western's curriculum

- Choose majors consistent with interests and abilities
- Select and schedule courses to make effective progress in meeting GUR's and gaining access to desired majors
- Address challenges impeding academic progress

Career Services Center

Old Main 280, 360-650-3240
www.wvu.edu/careers

The Career Services Center provides a full range of services to assist students in all stages of the career development process — from self-assessment and initial academic and career planning to the job search process.

All Western students, regardless of degree or college, are encouraged to seek and use the Career Services Center early in their university experience.

Career Planning Services

Career planning services focus on helping students select academic majors consistent with their interests, abilities, and personal goals. Individual counseling, career assessments, workshops, and resource materials are provided to assist students in:

- Assessing interests, personality characteristics, skills, and values as they relate to academic and career decision-making
- Exploring career and job market trends
- Relating career goals to educational options

Internship Services

Internships provide an opportunity for students to gain valuable career-related experience by expanding their education into the work world. Internships allow students to put classroom theory into practice, test preliminary career choices, and gain valuable experience and contacts to enhance their employment opportunities after graduation.

The Career Services Center provides online listings of internship openings and advises students seeking internship opportunities. The center's fall internship fair, quarterly career fairs, and on-campus recruiting program provide opportunities for students to connect with employers recruiting for interns.

Job Search Services

The Career Services Center offers a variety of services to assist students in identifying job opportunities and developing the skills necessary to conduct an effective job search, including:

- Individual job search counseling
- Workshops and online resources on résumé writing, job search correspondence, and interview techniques
- On-line job listings
- On-campus interviews
- Job market and salary information
- Mock interviews

Special Programs

The Career Services Center offers three career fairs each year during the fall, winter, and spring quarters. Other special programs offered annually include: the Health Professional and Graduate School Information

ENROLLMENT AND STUDENT SERVICES

Fair, the Community Internship and Volunteer Fair, the Law School Information Fair, the International Opportunities Fair, the Majors Fair (co-sponsored with the Academic Advising Center), the Communication Sciences and Disorders Special and Rehabilitation Services Career Fair, the Huxley Environmental Career and Internship Fair, Educator Job Search Seminars, and the Etiquette Dinner.

Advising for Pre-Healthcare Professions

Pre-healthcare Advisors are available as early as freshman year to support students interested in pursuing careers in medicine, dentistry, optometry, pharmacy, veterinary medicine and other healthcare professions with:

- Individualized advising
- Curriculum planning and registration assistance
- Shadowing and volunteering connections
- Student club advising
- Listserv correspondence
- Professional school application support
- Mock interview service

A fall Health Professional and Graduate School Fair provides students direct interaction with admission representatives of professional programs of study.

Advising for Students Considering Post-Graduate Study

The Career Services Center provides advising for students planning to pursue graduate or professional studies. Students are assisted in weighing the value of further study, exploring options, and preparing graduate/professional school applications through individual counseling, workshops, resource materials and information fairs.

Students interested in learning more about graduate programs at Western are encouraged to contact the Graduate School, Old Main 530, at 360-650-3170, or visit its website at www.wvu.edu/gradschool.

Career Services for Western Alumni

The Career Services Center provides services to alumni seeking to change jobs or careers. Alumni can receive automatic e-mails of job openings and participate in on-campus interviewing and workshops. Alumni are eligible to receive individual counseling and use the reference file service. Additional information is available online at www.wvu.edu/careers/alumni.shtml.

Tutoring Center

Learning Commons: Wilson Library 2 North, 360-650-3855
www.wvu.edu/depts/tutoring

The Tutoring Center helps WWU undergraduates achieve their highest academic potential by providing a range of support including drop-in tutoring, study skills appointments and presentations and study group facilitation.

Drop-in Tutoring

Peer-to-peer tutoring support is offered 60 hours per week in WL 280. Courses supported include, but are not limited to, most math and science General University Requirement (GUR) courses. Tutor helps student to identify and articulate gaps in understanding, use quantitative and scientific reasoning to frame and solve problems, and make problems relevant to the course as a whole and to the students' lives.

Study Groups

Many high-demand courses are also supported by a tutor-facilitated study group. Study group facilitators are tutors who did well in the course and usually have at least two quarters of drop-in tutoring experience, as well as extensive training. Students who participate in study groups are encouraged to work collaboratively and engage with the material.

Study Skills Assistance

The Tutoring Center also helps students develop academic skills essential to a successful college career. Peer advisors offer one-on-one appointments as well as group presentations and workshops for skills such as time management, test taking, note taking, and textbook comprehension. Study skills appointment give students the opportunity to reflect on their individual learning preferences and to develop learning strategies that build on their personal strengths and goals.

Resources

The Tutoring Center has a host of resources available to students. These include textbooks for many math and science GURs, answer keys, chemistry molecular model kits, scientific calculators, and other resources. Detailed quarterly calendar and weekly schedules are available in the Tutoring Center and on the Tutoring Center website.

Admissions

Old Main 200, 360-650-3440
admissions.wvu.edu

See the Undergraduate Admission section of this Catalog.

Associated Students Bookstore

501 High St. 360-650-3655
bookstore.wvu.edu

Western's Associated Students Bookstore, the official Western Washington University bookstore, operates much like a student cooperative. It keeps prices lower than the industry average and partners with student groups to support campus programs and activities. The AS Bookstore provides value by offering a number of services: discount prices on course materials; a wide selection of used textbooks; a textbook rental program; a price comparison tool; general books; school, office, and art supplies; a variety of "Western Gear" sportswear and emblematic gifts; and more. Every quarter, the bookstore's website, www.bookstore.wvu.edu, publishes the list of textbooks required for each class. You can use **Bookit** to place your order online, **Rent** to rent your textbooks for 30, 60 or 90 days, or use **Verba** to compare the bookstore's new, used and rental prices with other marketplace online options. At the beginning of each quarter, our **Charge-it** purchasing program allows students to charge in-store and online purchases to their student account.

Shopping at your local independent Western AS Bookstore keeps dollars on campus supporting student activities at Western.

Athletics

Carver Gym 100, 360-650-3109
www.vikings.com

Intercollegiate athletics involves many students as participants and spectators. Men's sports include basketball, soccer, cross country, golf, and indoor and outdoor track and field. Women's sports include volleyball, soccer, cross country, basketball, indoor and outdoor track and field, golf, rowing, and softball.

ENROLLMENT AND STUDENT SERVICES

Western's athletic program is a member of the National Collegiate Athletic Association Division II, and the Great Northwest Athletic Conference. For ticket information, call 650-BLUE (2583).

Students are encouraged to join The Blue Crew, Western's student sports fan organization. There is no cost to join and free Blue Crew prizes are awarded to all Western students attending Viking athletic events. For further information, contact the Department of Athletics, Carver Gymnasium, at 360-650-3109, or visit Blue Crew on the Athletics Facebook page at www.facebook.com/wwuathletics or at www.viking.com.

Campus Community Coalition

Old Main 585A, 360-650-6863
www.campuscommunitycoalition.com

The mission of the Campus Community Coalition is to promote working relationships and communication between the campus and community, and to enhance shared responsibility through collaborative education and problem solving. The Coalition's philosophy is that shared problems require shared solutions. Coalition partners include neighborhood associations, the Bellingham Police Department, the Washington State Liquor Control Board, rental property owners, City of Bellingham officials, Whatcom County Health Department, Whatcom Prevention Coalition, local bar owners, and students, faculty, and staff from Western Washington University, Whatcom Community College, Bellingham Technical College and Northwest Indian College. The Coalition has three main areas of focus:

- We work to engage and support students living off campus. The purpose of this work is to address quality-of-life issues affecting students and local residents in the neighborhoods as they relate to alcohol and other drugs (AOD) and citizenship.
- We work to maintain a positive and safe environment downtown where people are free to make healthy choices. This work involves our **Hospitality Resource Alliance workgroup**, which promotes sound business practices that influence customers to make healthy choices about their drinking and reduce problems related to AOD use in the community.
- We work to connect the four area campuses. The purpose of the **Campus Collaborative** is to create opportunities to share health promotion and educational initiatives at area campuses.

Campus Recreation Services

Wade King Student Recreation Center 138, 360-650-3766
www.wvu.edu/campusrec

Campus Recreation Services provides each student, faculty, and staff member the opportunity to become actively involved in organized sports and recreation programs. Services provided by Campus Recreation include intramural sports, noncredit fitness classes, open recreation, nutritionist, athletic trainer, and sport clubs.

Wade King Student Recreation Center

Offering a wide variety of fitness and leisure activities, the Wade King Student Recreation Center (SRC) is designed to meet the recreation needs of the campus community. The SRC offers students, alumni, faculty, and staff a dynamic and inviting place to stay fit. All undergraduate and graduate students currently enrolled in six or more credits automatically become SRC members by paying the mandatory student recreation center fee. Paid memberships are available for faculty/staff, spouses/dependents/partners, and alumni and affiliates. The center features a climbing wall; a three-court gym; three weight and cardio areas; an indoor jogging track; a multi-activity court for basketball, floor hockey, tennis, volleyball, and soccer; a six-lane lap/leisure pool and 32-person whirlpool; two group exercise rooms; an equipment checkout counter; and the Rock's Edge Café.

Intramural Sports

Intramural sports are competitive and recreational activities designed to encourage participation by all members of the campus community. Leagues and tournaments are offered in a wide variety of sports and are generally played on campus or at nearby facilities. Various local, regional and national organizations co-sponsor events and provide opportunities for promotional materials, special prizes, and invitational playoff berths. Intramural sports are structured for different skill levels and conducted in a safe, supervised environment.

Noncredit Fitness Classes

Noncredit fitness classes provide participants an opportunity to develop, grow, and maintain a healthy lifestyle in a fun and friendly atmosphere. Instructional classes include aerobics, Zumba, Pilates, cardio kickboxing, yoga, hip-hop dance, step aerobics, water aerobics, and more. Classes are taught by qualified student and non-student instructors, and are designed with the individual differences of the student population in mind.

Sport Clubs

WWU sport clubs are student organizations formed to promote non-varsity team sports and recreational activities. Sport clubs participate in intercollegiate and extramural competition at the local, regional, and national level while offering opportunities for instruction, skill development, and practice. Some of the sport club programs are co-recreational and allow members to be involved in scheduling and hosting events, arranging transportation and lodging, purchasing equipment and uniforms, and serving on the Sport Club Council. All WWU students, faculty, staff and alumni are eligible to become sport club members. Current WWU sport clubs include baseball, climbing, cycling, men's crew, equestrian, fencing, ice hockey, judo, lacrosse, rugby, sailing, swimming, tennis, ultimate disc, volleyball, water polo, and water skiing. Additional information is available online at www.wvu.edu/campusrec/sportclubs.shtml.

Counseling, Health and Wellness Services

www.wvu.edu/chw

Being a healthy college student means having the confidence and energy to live each day to its fullest. Health is achievable when people care about themselves, make decisions and practice skills to enhance their well-being, and respect one another as unique, worthwhile individuals.

The Counseling Center, Prevention and Wellness Services, and the Student Health Center are dedicated to the provision of quality physical and emotional care for Western students. Through utilization of services, students can learn ways to care about their own health and to improve and maintain their overall well-being so that personal, academic, and career goals may be achieved.

Counseling Center

Old Main 540, 360-650-3164
www.wvu.edu/counseling/

Personal problems can interfere with school and life. The Counseling Center provides professional counseling for a wide variety of concerns students may have while at Western. Students sometimes get depressed or lonely or anxious. Relationship problems may occur: couples break up, roommates argue, friends leave, parents divorce. Problems can develop with procrastination, low motivation, and/or lack of direction. Anxiety may interfere with academic success. Self-esteem can slip. Stress may erode performance. The Counseling Center's staff of professionally trained and experienced psychologists, counselors, and graduate trainees is here to help students work through these problems in a caring and confidential environment. All counseling services are voluntary, free, and confidential.

ENROLLMENT AND STUDENT SERVICES

In addition to individual counseling, the Counseling Center also provides workshops each quarter aimed at meeting the special needs of college students, such as dealing with stress, math anxiety, and enhancing interpersonal skills. Counseling groups can provide an emotionally supportive environment for addressing issues of common concern. There also are many self-help books, CDs, and other materials available in the Counseling Center.

The Counseling Center provides brief and focused individual counseling. The staff is also knowledgeable about community referrals when campus resources cannot provide the longer-term or specialized services a student desires or needs. The center is open 8:30 a.m. - 4:30 p.m. Monday through Friday when classes are in session and provides same-day appointments for students whose concerns are urgent. An after-hours counselor may be accessed by calling 360-650-3164 and selecting Option 1.

Prevention and Wellness Services

Old Main 560, 360-650-2993
www.wvu.edu/pws

Prevention and Wellness Services (PWS) offers Western students opportunities to get involved in improving their own health and the health of their community. PWS offers numerous professional and peer-led health promotion programs that can help students achieve optimal well-being and specific services to those who may face challenges to their well-being, such as alcohol and drug concerns or sexual assault.

Some of the services available to students include:

- Alcohol and drug-risk reduction consultation (ADCAS)
- Consultation and Sexual Assault Support (CASAS) and violence prevention services
- Off-campus housing registry
- PWS Peer Health Educator program (volunteer involvement in health promotion and risk reduction with the Western community)
- Quitting tobacco support
- Sexual health consultation services
- Stress reduction
- Wellness Outreach Center – resource center for health information

Alcohol and Drug Consultation and Assessment Services (ADCAS)

Old Main 560, 360-650-6865
www.wvu.edu/adcas

ADCAS is a confidential, professional service for Western Students who want assistance or information regarding their own use or someone else's use of alcohol, tobacco, or other drugs. ADCAS services are designed to assist students in making their own informed choices about alcohol, tobacco, and other drug use and related risks (personal, physical, social, academic and legal) so they can enjoy their college experience, maximize academic success, and minimize unwanted and unintended consequences. Specific individual services available to students include: one to one discussion of personal use issues, concerns about friends, family members, partners, or roommates, and referral to appropriate campus and community support, counseling or treatment resources.

Individual ADCAS services are provided by professional staff specializing in alcohol and drug concerns. Skilled Peer Health Educators and professional staff provide group-format services.

The use of alcohol and other drugs can have both immediate and long-term impact including increased health risks, increased risk for accidents, forced and/or regretted sex, poorer academic performance, regretted actions or social behavior, and possible legal sanctions. ADCAS services are designed to assist students in making accurately informed and thoughtful choices.

Consultation and Sexual Assault Support (CASAS) & Violence Prevention Services

Old Main 585B, - Violence Prevention Coordinator 360-650-7982
Consultation and Sexual Assault Support Services (CASAS) 360-650-3700
www.wwu.edu/casas

CASAS is Western's caring and compassionate resource to assist all students who have, in childhood, adolescence, or adult life, been affected by any of the following: sexual harassment, sexual assault, dating/domestic violence, or stalking.

CASAS staff works with survivors to access all available resources in an effort to ensure that students continue to be academically successful and have the support necessary to heal from the incident(s). Resources and support are also available to assist students whose partner, friend or family member has experienced an act of violence.

CASAS provides professional staff assistance to guide students through the details of identifying and accessing available campus and community services and resources, including:

- Medical/legal referral assistance
- Professional advocacy
- Academic support services
- Accompaniment to the hospital or police station
- Support group
- Information and referral

Anyone who has ever experienced any form of violence is strongly encouraged to utilize this service. To reach CASAS, call 360-650-3700, or send questions by e-mail to casas@wwu.edu.

Western is fully dedicated to not only supporting survivors of many forms of violence, but also to creating and sustaining a safe environment where violence does not occur. We recognize that discussing the root causes of violence is a key component in prevention. You will find resources of support for those who have been touched by violence, as well as resources for how to become part of the solution on our website.

Off-campus Housing Registry

<http://www.wwu.edu/chw/preventionandwellness/offcampuswwu/housing.html>

The Off-campus Housing Listing Service allows students to find local housing. There are two services for off-campus housing: Prevention and Wellness Services has a website with an off-campus registry, and there is a bulletin board on the fifth floor of the Viking Union. Bulletin board listings may be made at the VU 5th floor Administration Desk in person between 8 a.m. and 5 p.m. Monday-Friday. The website has 24-hour login capacity for eligible users.

Sexual Health Consultation Services

Viking Union 432, 360-650-7557
www.wwu.edu/chw/preventionandwellness/phe_female.shtml

www.wwu.edu/chw/preventionandwellness/phe_sti.shtml

Sexual Health Consultation Services provide one-on-one confidential information sessions available to all students. These sessions cover sexually transmitted infections and prevention, and tips on how to talk with your partner, information on breast and testicular self-exams, birth control, and women's annual exams. These sessions are judgment free, tailored to fit specific student needs and free for WWU students.

To schedule an individual appointment, call 360-650-7557.

ENROLLMENT AND STUDENT SERVICES

Wellness Outreach Center

Viking Union 432, 360-650-4321
www.wvu.edu/chw/preventionandwellness/woc.shtml

The Wellness Outreach Center is a welcoming space dedicated to helping Western students improve their quality of life. The center specializes in helping students find the tools to optimize their health and wellbeing. The center houses a resource library with books, pamphlets and videos on all aspects of health including nutrition, body image, sexual health, alcohol and other drugs, mental health, and social justice issues. The center also offers free cold-care kits that include cold/flu risk reduction tips, condoms, and a Seasonal Affective Disorder (SAD) light. Many students come to the center for a stress-break—a cup of hot tea and a comfortable couch.

The Wellness Outreach Center is open from 10:00 a.m. - 4:00 p.m., Monday through Friday during the academic year. It is located in the Viking Union Room 432.

Student Health Center

Campus Services Building 2nd floor, 2001 Bill McDonald Parkway, 360-650-3400
www.wvu.edu/chw/student_health

The Student Health Center provides students with a broad range of primary medical care services including, but not limited to: evaluation and treatment of illness, contraceptive services, immunizations, mental health, sports medicine, evaluation/referral for specialized conditions, men's and women's health care, monitoring and treatment of chronic illnesses, rapid lab tests (such as strep, influenza, mono and pregnancy tests), preventive medicine, sexually transmitted disease testing and treatment, travel consultation, and well-physical exams. The center is staffed by a team of physicians, nurse practitioners, and support staff.

The Student Health Center is open from 8:30 a.m. - 4:00 p.m. on Monday, Tuesday, Wednesday, and Friday and from 9:30 a.m. - 4:00 p.m. on Thursday during the academic year when classes are in session. Please see the website for Summer Quarter hours. When the Student Health Center is closed, a telephone consulting nurse is available at no cost and students are advised to seek clinical services from available after-hour medical facilities in the Bellingham area. **NOTE:** The University assumes no financial responsibility for care dispensed at other health care facilities. Students who seek treatment at off-campus health facilities must use private funds or their health insurance policy to cover resulting charges.

Please see the website www.wvu.edu/chw/student_health/ for medical insurance plan information. The medical director strongly recommends that all students have some form of health insurance to defray the substantial costs associated with serious accidents and illness.

Measles Immunity Requirement

Western requires all students born after January 1, 1957 to provide medical documentation of immunity to rubeola measles to the Student Health Center before they will be allowed to register for classes or live in on-campus housing. Acceptable options for documentation include:

- Provide the dates for two individual doses of measles vaccine (usually referred to as "MMR vaccine"). The doses must have been given: (1) after January 1, 1968, (2) at least 30 days apart, and (3) on or after 12 months of age; or
- Provide a copy of evidence of measles immunity by demonstrating high positive antibody levels from a blood test (rubeola titer). A copy of the actual test results is required.
- Request a waiver from the immunity requirement for legitimate religious, personal, or medical reasons. To request a waiver, call 360-650-4839 or visit the Health Center website at www.wvu.edu/chw/student_health/measles.shtml. The form requires verification from your current health care provider for medical requests. Please note: in the event of a measles outbreak, students with an approved waiver may be excluded from attending classes and living on campus.

Questions about the measles (rubeola) immunity requirement may be directed to the Student Health Center.

Reporting Communicable Diseases

Western is committed to the ongoing health and safety of our campus community. Individuals who know or have reason to believe that they are infected with a communicable disease have an ethical and legal obligation to conduct themselves in ways that minimize exposure in order to protect themselves and others and to inform the appropriate university administrator. Students should contact the Student Health Center or the Office of the Vice President for Enrollment and Student Services if they have been diagnosed with a communicable disease.

Communicable disease shall include, but not be limited to:

- Chickenpox (varicella)
- Hepatitis
- Influenza
- Measles
- Meningitis
- Mumps
- Norovirus (viral gastroenteritis)
- Pertussis
- Severe Acute Respiratory Syndrome (SARS)
- Tuberculosis

Any employee, student, prospective student, volunteer or visitor who knowingly arrives from a country outside the United States that has been issued a Travel Health Warning by the Centers of Disease Control must contact the Student Health Center's Medical Director for medical clearance before being allowed on campus to attend classes, work or other activities.

Individuals with communicable diseases shall be excluded from enrollment or employment or restricted in their access to university facilities, programs or services if a medically based judgment, in an individual case, establishes that exclusion or restriction is necessary to ensure the health and safety of the infected individual and/or other members of the university community.

For a complete review of this policy, visit the University's Policy and Procedures website at <http://www.wvu.edu/policies/docs/1000%20University%20Administration/POL-U1000.12-Reporting-Communicable-Diseases.pdf>

disAbility Resources for Students

Old Main 120, 360-650-3083 (voice), 360-255-7175 (VP)
www.wvu.edu/depts/drs

The primary mission of the disAbility Resources for Students is to ensure equal access for students with disAbilities to all curricular and co-curricular opportunities offered by Western Washington University. disAbility Resources for students provides disability management counseling, enabling resources and referral information to enrolled students who possess a temporary or permanent disabling condition. disAbility Resources for Students (DRS) is committed to providing services and programs that foster student development at all levels: intellectual, emotional, physical, and social. Full participation in all aspects of university life is not only necessary to achieve this holistic development, but encouraged and supported by the DRS team.

- DRS provides reasonable accommodations in compliance with State and Federal laws.
- Students' records are treated with confidentiality.
- Students must complete a Needs Assessment with DRS in order to receive services.

For service eligibility, a complete diagnostic description from a qualified professional is required. Specific academic accommodations and services are determined on an individual basis and are modified to meet the unique needs of students and their academic experience.

ENROLLMENT AND STUDENT SERVICES

Services and programs offered through disAbility Resources for Students include, but are not limited to:

- disAbility management counseling
- Exam accommodations
- Interpreter services
- Alternative text
- Print enlargement
- Braille
- Academic advisement
- Academic adjustments in the classroom
- Mobility assistance
- Transcription services (Typewell, real-time captioning)
- Assistive listening devices
- Resource referral services

Evacuation Guide

Western's Emergency Evacuation Guidelines for Persons with Disabilities is now available. Students are encouraged to obtain this publication and learn about preparing for an emergency on campus and establishing an individual written evacuation plan. The guide is available online at www.acadweb.wvu.edu/hr/disability/EvacGuideForPWD.pdf.

Financial Aid

Old Main 265, 360-650-3470
www.finaid.wvu.edu

See the Financial Aid section of this catalog.

New Student Services/Family Outreach

Old Main 300, 360-650-3846
nssfo.wvu.edu

New Student Services/Family Outreach fosters student learning and development by supporting new students and family members in their transition to the academic, personal, and social experience of Western, as well as the greater Bellingham community. Programs and services provided include:

- Coordination of new student programs, services, and orientation, including Summerstart, Transitions, Fall Orientation, quarterly orientation, weekly e-mails, and ongoing programs. Orientation provides students an opportunity to receive academic advising and course registration assistance, become familiar with services, meet faculty, staff and current students, and complete placement tests.
- Coordination of family orientation and outreach, including summer orientation programs, Fall Family Open House, Back2Bellingham, and the Parent Connection.
- Online and in-person referral to campus and community resources.
- Leadership opportunities for current students (orientation student advisors and student coordinators).

Dean of Students Unit

Viking Union 547, 360-650-3450
www.wvu.edu/depts/dos/

The Dean of Students Unit, led by the Dean of Students, supports Western Washington University's role and mission as follows:

Mission Statement: The Dean of Students Unit contributes to intentional student development by providing programs, services, and facilities that promote leadership, community engagement, citizenship, creative expression, student well-being, and the realization of personal and academic success.

The Dean of Students oversees the Office of Student Life, Student Outreach Services, L.E.A.D.S., Ethnic Student Center, Viking Union Facilities, Student Activities/Associated Student Governance Board Advisement.

LEADS

Viking Union 506, 360-4187
<http://www.wvu.edu/leads>

The mission of the program is to provide a campus environment where student leaders engage in action, discernment, and skills-building. Self-reflection, assessment, and the development of leadership skills are central. The L.E.A.D.S. program, open to all students, provides campus-wide programming:

- co-curricular leadership development support through open sessions, student government, residence life, and other campus units;
- leadership lectures, panels and events featuring alumni, parents and national/regional leaders;
- training of a cadre of peer leadership educators, LeaderCorps, who learn to teach leading to other students while deepening their own leadership knowledge and skills; and an electronic leadership portfolio process to enhance leadership of self-awareness, self-efficacy, and opportunities during college or transitioning to careers.

Additionally, the L.E.A.D.S. Program, in partnership with the Karen W. Morse Institute for Leadership, provides leadership education to a select group of incoming student leader-scholars, incorporating self-reflection, character strengths assessment, interaction with alumni, faculty, staff and administrators, leadership learning, and team-building.

Office of Student Life

Viking Union 506, 360-650-3706
www.wvu.edu/depts/dos/office/

The Office of Student Life is dedicated to supporting the learning and development of students, and creating an environment that fosters students success and graduation. Our primary purpose is to ensure the well-being and success of Western students. We work closely with students (and their family members), faculty, and staff, in support of this purpose. We also collaborate with a number of campus departments, including the Counseling Center, Registrar's Office, Student Health Center, University Police, and University Residences.

Staff members in the office are available to provide general assistance with problem solving and referrals; to support students in crisis; to advise students on university policies and procedures, including the Student Rights and Responsibilities Code; and to process dean's letters and letters of recommendation.

We can assist students with:

- hardship withdrawals
- leaves of absence for non-medical emergencies
- advice on university policies, procedures, and grievances
- support while experiencing a crisis
- information on university resources

Common situations the Office of Student Life can help with include: academic grievances, frustrations with the administrative workings of the institution, and emergency leaves of absence or hardship withdrawals due to illness, injury, or the death or illness of a family member.

ENROLLMENT AND STUDENT SERVICES

Student Conduct

The Student Conduct Officer is charged with administering Western's student conduct system, as set forth in the Student Rights and Responsibilities Code. As a condition of enrollment at Western, all students are expected to assume responsibility for their actions, and for maintaining an environment conducive to the academic success, safety, and well-being of all members of the university community. The student conduct process is designed to be a learning experience, and to promote growth and understanding of one's rights and responsibilities as a Western student.

Alleged violations of the Code may be reported to the Assistant Dean of Students at 360-650-3706 or student.life@wwu.edu. Copies of the Student Rights and Responsibilities Code can be found in Appendix C of this catalog, in the Dean of Students Office, or online at www.wwu.edu/dos/office/conduct/index.shtml.

Student Outreach Services

Old Main 387, 360-650-3843
www.wwu.edu/depts/sos

Student Outreach Services supports the educational needs of all students, particularly first-generation, non-traditional and multicultural students. Professional academic advisors engage students in personalized academic coaching, peer mentoring and specialized programs using a global and multicultural focus to support student persistence and academic achievement. Advisors help develop educational plans and provide positive intervention for those in academic risk, including former students interested in returning to Western. Student Outreach Services also serves as a resource to the campus community on issues of diversity and student success. The office is committed to the academic success, retention, and graduation of all students.

Viking Union Facilities

Viking Union 547, 360-650-3450
vu.wwu.edu

As the community center of the campus, the Viking Union plays an integral role in students' out-of-class experience. The Union houses offices for the Associated Students' government, services and activities, and the Viking Union/Student Activities administrative office. Also located in the Viking Union are the Dean of Students and Student Life offices, meeting rooms, lounges, an outdoor equipment rental shop, a bicycle repair facility, several food service areas, a post office, an information center/Lost and Found, two cash machines, an art gallery, KVIK-TV, Vendors' Row, KUGS-FM, a publicity center/print shop, and program areas. Viking Union food service locations include the Viking Union Market, the VU Café, the Underground Coffeehouse, and Vendor's Row.

Lakewood Watersports Facility

2410 Lake Whatcom Blvd, 360-650-2900
www.vu.wwu.edu/lakewood/

The Lakewood Watersports Facility – located approximately 7 miles from Western's campus at 2410 Lake Whatcom Blvd. – offers sailing, canoeing, kayaking, windsurfing, and rowing, as well as a sand volleyball court, picnic tables and BBQ's, and hiking trails. For-credit Extended Education classes and private instruction in sailing are available during the academic year and summer quarter. An informal lounge with a kitchenette and fireplace is also available.

AS Recycle Center

www.recycle.as.wwu.edu/

The mission of the Associated Students Recycle Center is to provide the opportunity for faculty, staff and students to recycle on campus, to educate the University community on the recycling process at Western, and to continually increase collection efforts in order to reduce Western's waste stream. The center also provides student employment opportunities and work experience, specifically in recycling and waste management.

Viking Union Student Activities

Viking Union 547, 360-650-3450
www.as.wvu.edu

Student activities at Western are designed to provide maximum opportunities for student engagement in a wide range of co-curricular experiences. As an important part of the educational experiences offered by the University, students are encouraged to become involved in some aspect of the activity program since these activities provide leadership and social experiences that build on classroom learning.

Many student activities are initiated and administered by students through the Associated Students. Students who participate in the governing bodies of student-administered services, activities, and facilities gain valuable leadership experience while supporting the quality of co-curricular life. Students may also participate in the University governance system as elected or appointed members of its various councils and committees.

Associated Students Personnel Office

Viking Union 505, 360-650-6113
as.wvu.edu/personnel

The AS employs over 200 students in a variety of diverse and exciting jobs in all the AS offices listed below. The Personnel Office coordinates the hiring of AS employees and open positions are listed on the website. The bulk of hiring takes place at the very beginning of each spring quarter for the following academic year.

Associated Students Productions

Viking Union 422
as.wvu.edu/asp

From socializing to civil dialogue, Associated Students Productions (ASP) is a student-run programming office that brings major events to campus. There are six divisions of ASP: Pop Music, Films, Special Events, Underground Coffee House, Viking Union Gallery, and Marketing. The students that staff these offices work hard to bring top-quality events to campus, including local, regional and national music performances, films, comedians, authors, lecturers, art exhibits, and all kinds of other fun and intellectually stimulating engagements.

Associated Students Representation and Engagement Programs

Viking Union 520, 360-650-4267
as.wvu.edu/rep

The AS Representation and Engagement Programs provide resources, services, and support necessary to ensure student representation in decisions that impact students at the university, local, state, and federal levels. The programs also promote effective citizenship and civic engagement through services, programs, and collaboration. For more information, contact the Information Coordinator at 360-650-3450.

Child Development Center

Fairhaven College Stack 11/12, 360-650-3021
as.wvu.edu/cdc

ENROLLMENT AND STUDENT SERVICES

The Child Development Center is provided by the Associated Students of Western Washington University and serves the children of students, faculty and staff, ranging in ages from 2-5. The center is open from 7:30 a.m. - 5:30 p.m. on the days Western is in session, as well as during winter and spring breaks. Tuition is based on a sliding-scale fee for students.

Clubs and Organizations

asclubs.wvu.edu

More than 200 clubs and organizations exist within the Associated Students, providing a wide range of involvement opportunities for all students. AS clubs come in all varieties, including service, environmental, recreational, academic/departmental, social issues, religious, cultural and ethnic, arts, music and dance, political, gaming, pre-professional and honorary, and special interest areas. Some clubs have long histories at Western; others are brand new. If a student doesn't find the right club, it is easy to start a new one. Students at Western enjoy being involved in clubs for the opportunities to meet new people, develop new skills, make positive changes in the world, and just have fun.

Environmental & Sustainability Programs (ESP)

Viking Union 424, 360-650-6129

as.wvu.edu/esp/

The purpose of the AS Environmental & Sustainability Programs (ESP) is to inform, educate, and provide resources regarding a variety of issues surrounding environmentalism and sustainable practices. The following offices comprise the ESP:

Alternative Transportation

Viking Commons 25, 360-650-7960

as.wvu.edu/transportation/

Western Student Transportation provides services funded by the Student Alternative Transportation Fee. These include a WTA Viking Xpress Bus Pass good for all WTA bus routes, a daily late night and Sunday daytime Student Shuttle, and assistance for any questions students may have concerning transportation at Western.

Environmental Center

Viking Commons 424, 360-650-6129

as.wvu.edu/earth/

The Environmental Center presents lectures, seminars, music events and other programs to educate the campus community about environmental topics and to illustrate the interconnections between environmentalism and other social concerns. The Center maintains a library of current books, newspapers, brochures, videos and magazines and acts as a networking center for campus and community activists.

Outback Outdoor Experiential Learning Program

Viking Union 424, 360-650-2433

www.as.wvu.edu/outback/

The Outback, a joint program of the Associated Students and Fairhaven College, is a 5 acre farm and wetland restoration site. The purpose of the Outback OELP is to coordinate a wide range of opportunities for students to learn about, develop, and implement sustainable land use practices. These opportunities include personal and collaborative events and projects involving habitat restoration,

organic gardening, green building, academic partnerships, independent study projects (ISPs), workshops, lectures and classes. The OELP also provides job-related skill building and community networking opportunities for students. These include serving on the Outback Governing Council, volunteering, and participating in work-study, AmeriCorps Students in Service, and salaried employment.

Green Energy Fee Grant Program

Viking Commons 25, 360-650-2491
sustain@wwu.edu

The Green Energy Fee (GEF) is a student-initiated, quarterly fee paid by all Western Washington University students to reduce the campus' environmental impact and engage the campus community in environmental awareness. The GEF purchases Renewable Energy Credits to offset all of the university's carbon emissions from electrical consumption. WWU is one of the nation's top-20 buyers of renewable energy among academic institutions as recognized by the US EPA, and was the first institution in the nation to purchase Renewable Energy Credits to offset 100% of its electrical consumption.

The GEF Grant Program provides funding to innovative, student-driven projects focused on promoting experiential learning opportunities and sustainable practices at Western Washington University. The GEF Grant Program is managed by the Office of Sustainability and supported by the AS Environmental and Sustainability Programs. Students, staff and faculty are all eligible to apply for grant funding.

Ethnic Student Center

Viking Union 420, 360-650-7271
as.wwu.edu/esc/

The Ethnic Student Center serves as a cultural community hub for gathering and programming. Some of the 16 cultural clubs are: the African-Caribbean Club, Black Student Union, Brown Pride, Chinese Student Association, Filipino American Student Association, Hui `O Hawai'i, Japanese Student Association, Khmer Student Association, Korean Student Association, Latino Student Union, MEChA (El Movimiento Estudiantil Chican@de Aztlan), Mixed Identity Student Organization, Native American Student Union, Queer People of Color, South Asian Student Association, Thai Student Association, and the Vietnamese Student Association.

KUGS Radio

Viking Union 7th Floor, 360-650-KUGS (5847)
www.kugs.org

Operated by the Associated Students, KUGS broadcasts in stereo at 89.3 on the FM dial, online at www.kugs.org, and on Comcast Cable channel 980 on campus and throughout Western Washington. A general manager and student staff coordinate the efforts of 100 volunteers in all facets of station operation. With a complete range of music, news, and educational programming, KUGS offers students opportunities for participation as disc jockeys, newsreaders, producers, and managers.

KVIK Western Television Production Organization

Viking Union 423, 360-650-2343
as.wwu.edu/kvik

Operated by the Associated Students, KVIK Television creates and maintains broadcast programs to highlight the work of Western students. KVIK provides firsthand experience for those interested in the fields of television broadcasting and video production. KVIK productions represents students' original work and serves the campus community by providing interesting, informative, and entertaining media.

ENROLLMENT AND STUDENT SERVICES

Outdoor Center

Viking Union 150 (access available from North Garden Street adjacent to VU entrance), 360-650-3112
as.wvu.edu/outdoor

The Outdoor Center provides a variety of outdoor-related opportunities and activities for all students, faculty, staff, and alumni. Emphasis is placed on developing and refining outdoor skills and responsible environmental practices, fostering diversity, enriching the academic experience, and promoting life-long learning. Resources include a knowledgeable staff, equipment rentals, a bike shop, excursions, educational resources, and instructional clinics.

Outdoor Center Challenge Program

as.wvu.edu/theedge
2410 Lake Whatcom Blvd, 360-650-3731

Located at the Lakewood Watersports Facility, the E.D.G.E. (Encouraging the Development of Groups through Experience) program offers teams, clubs, and groups of students, as well as faculty and staff groups, a facilitated opportunity to work on goal setting, leadership, effective communication, problem solving, trust-building, consensus-building, synergism, group roles, confidence and other valuable group and individual skills. The E.D.G.E. program offers a sequence of "Challenge by Choice" activities specifically designed to increase social and individual awareness and appreciation through safe physical and mental challenges, discussion and reflection.

Publicity Center

Viking Union 411
as.wvu.edu/publicity

The Publicity Center is a full-service advertising facility provided by the Associated Students for use by all students, as well as Associated Students programs and clubs. The center also publishes the AS Review.

Resource and Outreach Programs

Viking Union, 5th Floor
as.wvu.edu/rop

Resource and Outreach Program's seven offices – including the Disability Outreach Center, Legal Information Center, Veteran's Outreach Center, Women's Center, Social Issues Resource Center, Sexual Awareness Center, and Queer Resource Center – provide unbiased and confidential information and referrals to students in a safe, peer-to-peer environment. They also present a range of events, workshops, and activities each year that provide students with engaging and empowering opportunities to learn about themselves as well as our local and global community. Students can gain valuable work and life experiences through salaried student employment, work-study, and volunteer positions.

Viqueen Lodge

Sinclair Island, 360-650-6131 (VU Reservations Office)
as.wvu.edu/viqueen

Viqueen Lodge, located on 13 acres on Sinclair Island and provided by the Associated Students, offers overnight accommodations in a unique location for students, faculty, staff and alumni.

Registrar's Office

Old Main 230, 360-650-3430
www.wvu.edu/depts/registrar

See the Registration section of this catalog for information.

University Residences

Edens Hall 100, 360-650-2950
housing.wvu.edu

See the University Residences section of this catalog.

The Writing Center

Wilson Library (across from Zoe's), 360-650-3219
<http://library.wvu.edu/writingcenter>

Monday-Thursday: 10:00 a.m. - 4:00 p.m.; Friday: 10:00 a.m. - 2:00 p.m.; Evenings: Open Sun - Thurs evenings; call for hours. Always open for online draft submissions at <http://library.wvu.edu/writingcenter>.

"I know what it feels like to be stuck, and I know what happens when I can talk about my writing to an interested person."

— The Writing Center: "Get Unstuck"

A free resource for students, the Writing Center provides academic support to writers of all disciplines and abilities. The Center welcomes writers engaged in the writing process in various stages – from brainstorming topics to polishing final drafts. Writers may conference with our qualified writing assistants first to clarify ideas (thesis and organization) and then to identify patterns of error (grammar and punctuation). Services include:

- Face-to-face response on course papers, essay exams, and applications/résumés
- Oral or written response to drafts submitted online
- Resources for writing, including software, handbooks, whiteboards, and strategies for getting unstuck
- Group conferences for those with collaborative writing assignments
- Partners for writers wishing to work consistently on long-term development or complex writing projects

Department-related Activities

Department-related activities provide opportunities for students to participate in a wide range of programs. Although faculty from related departments work closely with these activities, students do not need to be affiliated with the departments in order to participate. In many cases, students may receive academic credit for their involvement. The individual programs are outlined below.

Forensics Program

Communication Facility 295, 360-650-4879
www.wvu.edu/depts/communication/debate.shtml

The forensics program provides opportunities for participation in local, regional, national, and international competitions, in National Parliamentary Debate Association-style debate. The program encourages achievement in tournament participation at all levels of competition, ranging from novice to championship. Western's program enjoys a strong national reputation including numerous top-20 rankings

ENROLLMENT AND STUDENT SERVICES

and consistent participation in the National Parliamentary Tournament of Excellence field of participants. Annual activities also include sponsoring several local events, including campus presentations, hosting tournaments, and an annual advocacy on-campus conference (CASCAID). All students are welcome to participate regardless of major or experience level.

Music Activities

Performing Arts 273, 360-650-3130
www.wvu.edu/music/shtml/areas.shtml

A wide range of vocal and instrumental groups on campus provides musical activity for students at acceptable levels of ability, and musical entertainment to satisfy listeners of all tastes. Some of the opportunities available to students include the Symphonic Band, Wind Symphony, University Choir, Concert Choir, Symphony Orchestra, Viking Pep Band, jazz ensembles, opera, Collegium Musicum, and numerous smaller ensembles. Membership in all of these ensembles is attained through either a performance audition or consent of the instructor. For more information see the Department of Music section of this catalog or contact the Department of Music, Performing Arts Center 273, at 360-650-3130.

Publications

Communications Facility 230, 360-650-3171
www.wvu.edu/depts/journalism/student%20publications.shtml

Student publications include *The Western Front*, a twice-weekly newspaper; *Klipsun*, a twice-quarterly magazine; *Jeopardy*, the annual literary magazine; and *The Planet*, a quarterly environmental journalism magazine. Student contributions of time and talent are essential to these publications, and new students at all academic levels are encouraged to join their staffs each quarter. Students may receive credit for working on these publications through the Journalism and English Departments, as well as the Huxley College of the Environment.

Theatre and Dance

Performing Arts 395, 360-650-3876
www.wvu.edu/theatredance/

The Theatre and Dance Department offers students a rich variety of opportunities in faculty- and student-directed productions – both on stage and off – to write, act, dance, stage manage, design, teach, produce, and choreograph. The broad range of productions during the academic year includes musicals, dramas, and comedies from a variety of periods as well as faculty- and student-choreographed events, traditional dance concert events, and collaborations between the departments within the College of Fine and Performing Arts. The Theatre and Dance Department provides ongoing concentrated applied theatre and dance experiences for both the beginner and the advanced student. Previous theatre experience is not required for participation and all auditions are open. Previous dance experience is not a requirement for placement in a technique class. The Theatre and Dance Department participates regularly in the American Association of Theatre in Higher Education (ATHE), South Eastern Theatre Conference (SETC), The American College Dance Festival (ACDF), The Kennedy Center's American College Theatre Festival (KCACTF) and the United States Institute for Theatre Technology (USITT).

Western View (Video)

Communication Facility 295, 360-650-3870

Western View offers students the opportunity to gain digital video production and editing experience. Informational and educational video instruction includes hands-on course work. Students produce videos shown on the campus and for special off-campus audiences. Credit is available through the Department of Communication Studies.

Financial Aid

Old Main 265, 360-650-3470
www.finaid.wvu.edu

Western Washington University makes every effort to provide financial assistance to eligible applicants through grant, scholarship, work study, and loan programs. It is expected that students will meet part of their expenses through earnings from employment in the summer and academic year, and that parents (if applicable) will contribute in proportion to their financial ability.

NOTE: Students should be prepared to use some of their own money to pay for their initial expenses, even if they expect to receive financial aid.

What is Financial Aid?

Financial aid is monetary assistance to help meet educational costs, including: tuition and fees, books and educational supplies, housing and food, transportation, personal, and dependent care expenses. The total amount of aid cannot exceed the budgeted cost of attendance used to determine financial aid eligibility. Eligibility for aid is determined by federal formulas from the U.S. Department of Education and the Washington Student Achievement Council. Applicants complete the Free Application for Federal Student Aid (FAFSA), which is evaluated to determine each student's relative financial need, and awards are made with careful adherence to federal, state and institutional guidelines. Western Washington University students who enroll in an approved program of study abroad may be considered for funding from many, but not all, aid programs.

Applicants who submit the FAFSA form to the federal processor by the priority deadline (see How to Apply for Financial Aid section) are considered for priority aid based on available funding.

Grants are gift aid and do not have to be repaid. Grants are awarded on the basis of calculated need and other eligibility criteria from the applicant's FAFSA. Most grants are restricted to undergraduate students, with greater eligibility for students who meet the priority deadline. Some partial tuition and fee waivers are available to students in master's degree programs.

Scholarships are generally awarded on merit-based criteria, but some may also use financial need as a factor. Western Washington University offers merit scholarships to entering freshmen, transfers and returning students in recognition of outstanding academic ability or talent.

Individual scholarships are available through University departments and colleges. Through the Multicultural Achievement Program Scholarship, the University recognizes outstanding students who demonstrate a commitment to multicultural issues and activities in school or the community. Additional information is available in the Scholarship Center, Old Main 275, 360-650-3471, or online at www.finaid.wvu.edu/scholarships.

Enrollment in self-supported courses may not meet the eligibility criteria for all scholarship programs. Students enrolled in self-supported courses or applying to self-supported programs are urged to contact the Scholarship Center to determine whether they remain eligible for scholarships they have been awarded.

Loans for education feature competitive interest rates. The federal government subsidizes the interest on some loans. Payments may be deferred until after the student leaves school in some programs. Western Washington University participates in the Federal Perkins, Federal Direct Stafford, and PLUS loan programs. The Federal Perkins loan is targeted to undergraduate students with exceptional financial need. Alternative Student Loans through private lenders may be available to students who qualify.

Student Employment and Work Study offer work opportunities on campus and in the local community. Financial aid eligibility may or may not be a prerequisite for employment, depending upon the employment program. It is important to note the majority of student employment positions on Western's campus do not require Work Study eligibility. The University places a strong emphasis on providing quality work experiences

FINANCIAL AID

for its students. Additional information is available in the Student Employment Center, Old Main 285, 360-650-3158, or online at www.finaid.wvu.edu/studentjobs.

Work Study is awarded to undergraduate and graduate students with calculated financial need. Work Study jobs have a portion of the employee's earnings subsidized by federal, state, or institutional funds.

How to Apply for Financial Aid

Students are required to file the Free Application for Federal Student Aid (FAFSA) each year to be considered for federal and state aid. The FAFSA can be filed online at www.FAFSA.ed.gov.

To receive priority consideration for financial aid from all available programs, students must complete and submit their FAFSA to the federal processor by the priority filing deadline of February 15 preceding that academic year. Applications submitted after the priority deadline are considered for aid on a funds available basis.

Many aid applicants are required to provide additional FAFSA verification documentation so that their eligibility for aid can be determined. Examples of such documentation include but are not limited to verification worksheets, federal income tax transcripts, and W-2 forms. Students are urged to provide requested items as soon as possible to allow processing of their file to continue. The FAFSA and related application materials must be received in sufficient time to allow Financial Aid to finalize aid eligibility in accordance with federal requirements. Applicants who have totally withdrawn from all classes must also provide requested FAFSA verification documentation within 30 days after their last day of enrollment or they will forfeit their ability to receive aid for which they would have otherwise been eligible.

To prevent financial aid overawards that may require student repayment, aid applicants are required to immediately notify the Financial Aid Department in writing of any financial aid they are scheduled to receive or have already received from institutions or organizations other than Western Washington University. Such institutions and organizations may include, but are not limited to, other universities, colleges, educational loan lenders, and scholarship-granting organizations.

General Eligibility Requirements for Financial Aid

Students may be considered for financial assistance if they:

- Are a citizen, a permanent resident of the United States, or an eligible non-citizen
- Submit a completed Free Application for Federal Student Aid
- Submit all required information and documentation
- Are admitted through the Admissions Office or Graduate School to a degree or certificate-granting program at Western Washington University
- Do not owe a repayment on a previous grant or are not in default on a previous educational loan received at any institution of higher education
- Have registered with the Selective Service, if required to do so
- Are enrolled for the minimum credit hours required:
 - 12 credit hours for full-time undergraduates; 8 credit hours for full-time master's degree candidates
 - 9 credit hours for three-quarter-time undergraduates; 6 credit hours for three-quarter-time master's degree candidates
 - 6 credit hours for half-time undergraduates; 4 credit hours for half-time master's degree candidates
 - Some students may be eligible for limited amounts of assistance if they are enrolled less than half-time
- Maintain satisfactory academic progress and have not already exhausted eligibility under the maximum attempted credit component of Western Washington University's Satisfactory Academic Progress Policy; please refer to Appendix J in the Appendices section of this catalog for additional information regarding satisfactory academic progress.

- Loan Proration - Federal regulations require that undergraduate and post baccalaureate students who are attending less than a full academic year (e.g., one or two quarters) in their graduating year must have their federal direct student loans prorated according to the number of credits required for graduation. The annual loan eligibility is prorated based on the credits required for graduation in the student's program as determined by the Registrar's Office and reported on the Degree Evaluation.
- Financial aid eligibility is suspended for students convicted under federal or state law for possessing or selling illegal drugs during a period of enrollment for which Federal Title IV aid was received. If you have a conviction or convictions for these offenses, call 800-433-3243 or go to <http://www.ifap.ed.gov/drugworksheets/attachments/StudentAidEligibilityWorksheetEng1314.pdf> to see how this law applies to you.

Summer Financial Aid

Applicants for summer financial aid must have a FAFSA for the preceding academic year on file, meet the same eligibility requirements as the academic year, and submit the Summer Financial Aid Application. The Summer Financial Aid Application is generally available in Mid-April via Web4U.

Self-Supported Courses

Financial aid may be granted for self-supported courses. Contact the Financial Aid Department for eligibility requirements and aid procedures. Fee reductions and tuition waivers are not applicable to self-supported courses. Students enrolled in or applying to self-supported courses or programs should contact the Scholarship Center for specific scholarship eligibility requirements. Self-supported courses may not meet the eligibility requirements for all scholarships offered through the Scholarship Center.

Graduate Students

Graduate students must enroll for at least 4 graduate-level credits each quarter to be eligible to borrow through the Federal Direct Unsubsidized Loan program.

Short-Term Cash-Flow Problems

The Financial Aid Department can assist with short-term cash-flow problems through two short-term loan programs.

Emergency Loan

Currently enrolled students may borrow a maximum of \$350 for up to 30 days to solve minor cash-flow problems. A \$5 loan origination fee will be charged on each loan advance, and will be deducted at the time of the disbursement. Emergency loans must be paid in full within 30 days.

Institutional Loan

Currently enrolled, matriculated students may borrow up to \$600 for a maximum of 90 days. This loan requires a co-signer. Loan proceeds will be applied to the student's account balance before a refund will be issued. A \$10 loan origination fee will be deducted at the time of the disbursement. The institutional loan must be repaid within 90 days.

The Financial Aid Department reserves the right to refuse any of the short-term loan programs to students who do not show an ability to repay the loan, who have a poor repayment history, or where the applicant appears to be over-reliant on the emergency loan program in lieu of managing a budget.

FINANCIAL AID

Western Repayment Policy

Overpayment occurs when a student has received more aid than the student is eligible to receive. The most common reason for overpayment is full or partial withdrawal from classes by the student after financial aid has disbursed. A student who fully or partially withdraws from classes after aid has been disbursed may be required to repay all or a portion of that aid. The student will be held to Satisfactory Academic Progress requirements for the quarter.

Additional information on repayment requirements is available at the Financial Aid Department and the Student Business Office (OM 110).

Students must maintain the minimum number of credits associated with the enrollment status that they received aid for. Otherwise, aid could be delayed, reduced, or cancelled. On the second Friday of each quarter, the enrollment status is recorded and used as the final basis for determining eligibility for the following programs: Federal Pell Grant, Federal Teach Grant, State Need Grant, State Educational Opportunity Grant, Federal Supplemental Educational Opportunity Grant, Federal Work Study, State Work Study, Institutional Work Study, Federal Perkins Loan, Federal Direct Loan, Western Grant, tuition waiver, and some scholarship programs. This recording date is commonly referred to as the quarterly enrollment status "lock" date.

Students who receive aid from the above programs at the beginning of the quarter, based on a higher enrollment status than their enrollment status at the lock date, may have their aid reduced to correspond to their locked enrollment status. In such circumstances, a repayment would likely be owed. Students whose enrollment status increases by the lock date may be eligible for additional funding.

Lock Dates:

Fall Quarter	October 3, 2014
Winter Quarter	January 16, 2015
Spring Quarter	April 10, 2015
Summer Quarter	July 3, 2015

	Graduate	Undergraduate	Post-bac
Full time	8 or more	12 or more	12 or more
3/4 Time	6-7	9-11	9-11
1/2 Time	4-5	6-8	6-8
<1/2 Time	3 or less	5 or less	5 or less

Withdrawing from Western

If you are planning to withdraw from all of your classes, please provide official notification to the Registrar's Office of your intent to withdraw as soon as possible (even prior to totally withdrawing). Your notification will initiate steps necessary to bring closure to any outstanding financial aid issues for the quarter and help resolve any aid eligibility concerns for future quarters.

Withdrawing prior to the start of any given quarter will require repayment of all aid disbursed for that quarter.

Withdrawing after the lock date (second Friday of each quarter)

If you withdraw from all classes after the lock date, you will be placed on financial aid suspension for future quarters. You may petition for financial aid reinstatement if unusual circumstances beyond your control prevented you from meeting satisfactory academic progress requirements. Reinstatement is not guaranteed. For more information, please refer to the satisfactory academic progress policy (Appendix J).

If you withdraw from all classes during the first 60% of any given quarter, your eligibility for federal, state, and institutional aid will be recalculated in accordance with federal, state, and institutional requirements. Your withdrawal date will be the earliest of:

- the date you began the withdrawal process
- the date related to the circumstance leading to your withdrawal
- your actual withdrawal date
- the date that you began an official leave of absence signed by a University representative

This date is used to determine whether you owe a repayment of aid or if you are eligible for a post-withdrawal aid disbursement.

When students withdraw after rescinding a previous official notification of withdrawal, their original withdrawal date will be used. Applicants who withdraw from Western must also provide requested FAFSA verification documentation no later than 30 days after their last day of enrollment or forfeit their ability to receive any aid they otherwise may be eligible to receive.

Veterans Information

Veterans and dependents of veterans enrolling at Western for the first time on the GI Bill must either apply for educational benefits with the Veterans Administration, or if benefits have been used at another institution prior to enrolling at Western, complete a change of program form. In order to receive your payments on time, this should be done well in advance of the academic quarter you wish to attend.

All students using Veterans Benefits at Western Washington University are encouraged to apply for financial aid through the Free Application for Federal Student Aid (FAFSA).

Western Washington University's academic programs of study are approved by the Washington Student Achievement Councils' State Approving Agency for students eligible to receive educational benefits under Title 38 and Title 10 USC.

Veterans/dependents should make certain the academic objective they plan to pursue is one authorized by the Veterans Administration.

Please review additional information for Veterans/dependents attending Western Washington University at our web site <http://www.wvu.edu/registrar/veterans.shtml>

See the Financial Aid Bulletin online at: www.finaid.wvu.edu/bulletin/ for more detailed financial aid information.

Registration

Registrar's Office, Old Main 230, 360-650-3432 www.wvu.edu/depts/registrar/

Registration for each quarter is conducted in three phases using Web for Student, www.wvu.edu/web4u:

- Phase I — A period of two to three weeks in which continuing and returning students register by appointment.
- Phase II — A period before the beginning of the quarter when students can change their schedules. Except as noted otherwise, new freshmen register at orientation on the Monday before the quarter begins.
- Phase III — Registration beginning the first day of the quarter and ending at 5pm on the fifth day of the quarter. Students may register online during the first five (business) days of the quarter.

Complete registration instructions can be found on the Registrar's website at <http://www.wvu.edu/registrar/registration.shtml>. It is very important that students make certain after registering that they have done so properly by checking their schedules via Web4U. Students are prohibited from attending a class without being registered.

Orientation for Newly-admitted Students Fall Quarter

- Transitions, a special orientation and registration program for new fall quarter transfer students, is conducted during mid-summer preceding fall quarter. New transfer students unable to attend Transitions should plan to attend the orientation and advising program held the Monday before the beginning of fall quarter. Each transfer student who has accepted an offer of admission will be sent complete information about orientation and advising.
- Summerstart, a special orientation and registration program for new fall quarter freshmen, is conducted during mid-summer preceding fall quarter. Each freshman student who has accepted an offer of admission for fall quarter will be sent complete information about this program. New freshmen unable to attend Summerstart should plan to attend the orientation and advising program held the Monday before the beginning of fall quarter.

Student Responsibility for Registration

Students are responsible for completing their own registration each quarter. While faculty may provide permission with an override to enroll in a restricted course, the student must complete the process via Web4U. Schedule changes initiated after the first five days of the quarter and independent study registrations must be submitted in person at the Registrar's Office. Registration is done in person at the Registrar's Office beginning the sixth day of the quarter. Students must have either a current override or written permission from the instructor to add a class.

It is important for students to make certain they are not registering for a course in which they already received credit, either at Western or elsewhere. Unless the course is marked in this catalog as repeatable, it cannot be taken more than once for credit.

Registration Restrictions

For pedagogical reasons, some courses are restricted to certain levels of students, to students who are declared majors, or to those who have received special permission from the instructor. Such restrictions are listed in the online Timetable of Classes and Classfinder. The student is responsible for ensuring that he or she has satisfied all prerequisites before registering for a course. A student who has registered for a course without satisfying prerequisites may be required to withdraw from the course by the instructor. If a student does not comply with the request to withdraw from the instructor, the Registrar may withdraw the student from the course at the request of the instructor or academic department.

Registration Holds

A "hold" is placed on registration for students who have any outstanding obligations to the university. These obligations can include outstanding debts, failure to comply with immunization policies, failure to comply with certain admissions requirements or academic regulations, insufficient progress, and violations of conduct codes or other University rules.

Waitlisting & Registration

When a course reaches capacity during Phases I, II and III of registration, students may add themselves, via Web4U, to an automatically-generated waitlist. Before waitlisting is allowed, however, students must meet all enforced course prerequisites and other course restrictions listed in the University Catalog, the online Timetable of Classes, and Classfinder.

When a seat becomes available in a waitlisted class, an automated email message is sent to the official WWU email address of the first student on the waitlist, notifying the student of the available seat. Students may also sign up to have waitlist notifications and other official WWU communications sent via text message. Students who receive notification of seat availability are responsible for registering via Web4U before the notification expires. During Phases I and II, notifications are active for 24 hours from the time the notification is sent, and for 12 hours during Phase III. The notification expires if the student does not register within the time allowed, and a notification is then sent to the next student on the waitlist.

Further details on waitlisting policies and how to sign up for text message delivery can be found under Registration on the Registrar's Office website.

Late Registration

The deadline to register or to add a class is 5pm on the fifth day of the quarter (see the Summer Session website for summer quarter registration deadlines).

Late registration (initial registration for the quarter) is permitted only with current permission from the instructor and the Registrar's Office. After the first five days of a quarter, initial registration is allowed only by: 1) obtaining an override or written permission from the course instructor, and 2) paying the late-registration fee. Students adding classes to an existing schedule beginning the sixth day of the quarter must obtain an override or written permission from the course instructor and the Registrar's Office, but will not be charged a late-add fee until the beginning of the third week. (See the Summer Session website for specific summer quarter deadlines.)

Extension Registration

Registration procedures for extension programs vary. Contact the appropriate program office for registration dates. See the Extended Education section in this catalog.

Students may register for Independent Learning courses (correspondence) at any time during the quarter; however, the academic quarter of record assigned to the course is determined by the Registrar's Office in consultation with Extended Education. Call Independent Learning at (360) 650-3650 for additional information. Enrollment in correspondence or online courses only does not qualify as continuing enrollment for newly admitted, first-quarter WWU students. Contact the Registrar's Office for information regarding student status.

Auditing Courses

Auditors are persons who desire to attend courses without earning academic credit. Written permission from the instructor and approval from the Registrar's Office are required to register to audit a class.

REGISTRATION

Auditors may not actively participate in class and therefore certain courses may not be audited, including, but not limited to physical education activities, laboratory courses, studio courses, independent study courses, language courses, courses not taught in a group setting, and any other course the Registrar deems ineligible. Auditing a course cannot be used toward successful completion of academic credit.

Auditors are not allowed to register until the first day of the quarter, and the course must not have reached a maximum enrollment. Changes to or from audit cannot be made after the first five days of the quarter.

Students enrolled for 10 or more non-audited credits may audit a course without an additional charge. Students enrolled for less than 10 credits should refer to the Tuition and Fees section "Auditing a Class." Students approved to register for an audit are responsible for paying any course fees attached to the course. Students who choose to audit self-supporting classes through Extended Education are required to pay the full amount of tuition and fees.

Changes in Registration

Policies concerning changes in registration, such as withdrawal from a course or from the University, are described in the section titled University Academic Policies.

Student Records Security

Washington Administrative Code 516-26-070 prohibits access to or misuse of a student's educational records. Any person who inappropriately gains access to a student's records, or tampers with a student's registration or academic record, will be subject to disciplinary action.

Directory Information/Confidentiality

The University publishes an annual student directory, showing your name and local phone number. You may elect to have this information omitted by completing a Request for Confidential Status of Directory Information form in the Registrar's Office, Old Main 230. If this option is chosen, NO information will be released about you, including attendance, degrees and awards earned. Please be aware, however, that information will not be released to the student or alumnus, as well, without proper identification.

Tuition and Fees

Student Business Office, 360-650-2865
www.wvu.edu/sbo

Tuition and Fees

Tuition and fees include tuition, mandatory fees, course fees and additional fees. All fees are subject to change as the result of action by the state Legislature or the board of trustees. See the **Description of Tuition and Fees** section below for a detailed explanation of each fee.

By registering for classes, a student incurs a legal obligation to pay tuition and fees to Western Washington University. This debt may be canceled only if the student officially withdraws from Western before the quarterly deadline published on the Registrar's website under Dates and Deadlines. You are responsible for paying your account regardless as to whether or not there is an account statement available.

At Western the various expenses of an undergraduate who is a resident of the state of Washington are about \$7,740.25 each quarter.

Estimated Quarterly Costs for 2014-15

Tuition and Fees	2,988.25*
Room and Board	3,347.00
Books and Supplies	366.00
Personal Expenses	611.00
Transportation	428.00
Total	\$7,740.25

*Includes for students enrolled at least 6 or more credits: \$85 health services fee, \$39 nonacademic building fee, \$35 technology fee, \$99 recreation center fee, \$26.25 transportation fee, \$1 legislative action fee, and renewable energy fee of \$0.70 per credit to a maximum of \$7 per term.

For students enrolled in less than 6 credits \$17.50 technology fee and renewable energy fee of \$0.70 per credit.

The table below shows the actual tuition rates by credit and student category. (Room and board and financial aid at Western are discussed in later sections of this catalog.)

Current 2014-15 Schedule of Tuition and Required Fees

Classification	Per credit charge**	Number of credit								
		1-2**	3**	4**	5**	6**	7**	8**	9**	10-18**
Resident ¹ , Undergraduate	270	540	810	1080	1350	1620	1890	2160	2430	2696

Resident MBA	327	3788	4115	4442	4769
Non-Resident MBA	652	7368	8020	8672	9324

**Required fees not included:

Health Service	\$ 85.00
Legislative Action Fee	\$ 1.00
Non-Academic Building Fee	\$ 39.00
Recreation Fee	\$ 99.00
Renewable Energy Fee [^]	\$ 7.00
Technology Fee	\$ 35.00
Transportation Fee	\$ 26.25
Total	\$292.25

[^]The Renewable Energy Fee will be assessed at \$0.70 per credit hour to a maximum of \$7 per quarter.

Enrollment Fee (first-time students only, non-refundable)	\$250.00
---	----------

A tuition calculator can be accessed by selecting "Student Services", "Student Business Office", "Tuition & Fees", then "Tuition Calculator" from the main WWU Website to assist in projecting the amount of tuition and fees that will be due the University.

See the University Academic Policies section of this catalog for an explanation of full-time status and how that affects financial aid, athletic eligibility, and veterans' benefits.

Your Student Account

Tuition and fees are charged to a student's account at the time they register for classes. Students are responsible for reviewing their account and for paying the balance due. Western processes electronic statements and offers the option of paying student account charges online. Statement and account details are available at your Student Account Online.

If courses are added after the statement date or after financial aid has been disbursed, it is important to check your account online or with the Student Business Office to determine if additional payment is required.

Student account information is confidential (see Appendix E in the Appendices section of this catalog). Release of account information may be authorized by completing a Release of Financial Information form online through the Student Business Office Important Forms.

Currently enrolled students will be sent an **electronic notification** to their assigned University e-mail account. A second notification can be sent to another email address by setting up an authorized payer. **No paper bills will be sent.** For more information see our webpage at www.wvu.edu/sbo or the Student Business Office in Old Main room 110.

The University uses e-mail as its official form of communication; this is intended to meet the academic and administrative needs of the campus community.

The University expects that such communication will be received and read in a timely fashion.

Students are responsible for monitoring their student e-mail account and maintaining current contact information with WWU, including current address and telephone information.

Paying your Student Account

E-Pay (online payment using credit card or bank information associated with your checking, savings or debit card). Available 24 hours a day with immediate update to the student's account. Payment may be made online with these credit cards, MasterCard, Discover or American Express. A 2.75 percent convenience fee will be charged for using a credit card. Payment also may be made online with an E-check (an electronic check). E-checks are not subject to convenience fees.

To pay online, students log in to your myWestern, then Web4U and follow the links to your Student Account Online. Parents or other third parties who will be paying an account must be set up as an Authorized User by the student in order to access student account information and make payments online. Instructions are available online at www.wvu.edu/sbo or by visiting the Student Business Office in Old Main 110.

Mail checks to the Student Business Office, 516 High St., MS-9004, Bellingham, WA 98225. Do not use campus mail for payments.

Allow seven to ten business days for mail to reach Western. Payments are credited when received, not when mailed.

Remember

- Write your WWU ID number on the check and make it payable to WWU
- Canadian checks **must** be made payable in U.S. funds
- There is a \$25 charge for the first returned check and a \$50 charge for each subsequent returned check

Pay in Person at the Student Business Office, located in Old Main 110 (9 a.m. to 4:30 p.m. M-F). Payment may be made with cash, check or a debit card.

Financial Aid - All aid types will be applied to current quarter charges on the student's account. Only after University charges have been paid will a refund of excess aid be given to the student. ***If a student incurs additional registration charges after financial aid has been applied to their account, the student is responsible for paying the additional charges by the tuition due date without notification.***

Miscellaneous Charges - Miscellaneous purchases charged to a student's account, such as bookstore purchases, health center charges or athletic health fees, ***will not be paid*** by financial aid unless a student signs a form authorizing the University to use financial aid to pay these miscellaneous charges. Fill out an Authorization for Miscellaneous Charges form online to allow financial aid to pay these charges.

Due Dates, Late Fees and Interest

Tuition, fees, and housing charges are due on the first day of each term. After the 3rd Friday of each quarter and the third Friday of each month thereafter a late fee and a 1 percent interest charge will be assessed to all past due accounts.

Late Fees and Interest are assessed at the close of business on these Fridays:

Fall — October 10, November 21, December 19

Winter — January 23, February 20, March 20

TUITION AND FEES

Spring — April 17, May 15, June 19

Summer — July 10, August 21, September 18

Tuition due dates are posted on the Student Business Office website and the Registrar's Office website.

Nonpayment Penalty

The University may withhold admission or registration privileges for students who fail to meet financial obligations to the University. The University may also withhold the issuing of official transcripts.

Unpaid balances mean your account will be placed in collection status with the Student Business Office. A service fee will be added to the amount you owe.

Accounts with past due unpaid balances may be forwarded to a contracted outside collection agency. Additional collection costs of 33.3% - 50% will be assessed. If necessary, it may include costs of litigation and may result in a judgment and/or wage garnishment.

Graduating or Exiting Students

Students who had a federal loan or federal Teach Grant disbursed while attending the University are required to complete exit counseling. The exit counseling requirement is designed to acquaint students with their rights and responsibilities regarding their student loans. Exit counseling should be completed before graduation, before withdrawing from Western, or when a student's credit load drops to less than half time. Exit counseling is a federally mandated requirement.

Course Withdrawal

Students who drop courses may be entitled to a credit for a portion of the tuition and fees for a given quarter depending on the time of the quarter the transaction is completed.

- Courses dropped prior to the sixth day of the quarter may be entitled to a full tuition credit
- Courses dropped beginning on the sixth day of the quarter and within the first 30 calendar days may be entitled to one-half tuition credit
- Courses dropped after the 30th calendar day will not receive a tuition credit

10-18 credits are considered flat rate tuition, refer to the Tuition and Fee Schedule on our webpage at www.wvu.edu/sbo. See also **Withdrawal from a Course** in the University Academic Policies section.

Official School Withdrawal from the University

To officially withdraw from Western for the quarter, a student must contact the Registrar's Office and make a written request to withdraw. To enroll in courses after an official school withdrawal a student will need to re-apply to Western and be re-admitted before registering for any courses.

Students who officially withdraw from Western **prior to the sixth day** of the quarter may receive full credit of tuition and fees. See the sections under University Academic Policies for information on withdrawing from the University. The \$250 enrollment fee is nonrefundable.

Students who officially withdraw **beginning on the sixth day** of the quarter and within the first 30 calendar days may be entitled to one-half tuition credit. After the fifth day of instruction, the health services, building, technology, recreation, transportation and renewable energy and course and audit fees are nonrefundable.

Students who withdraw after the 30th calendar day of the term will receive no credit.

The deadlines for each quarter are published on the Registrar's website.

Fall, Winter, and Spring quarters only (refer to the Summer Session website for summer quarter withdrawal policy).

A statutory pro rata return of financial aid is required for students who received Title IV federal financial aid.

<http://www/hecb.wa.gov/index.asp>

Refunding

Payments made to your student account, including financial aid disbursements (Federal Direct Stafford Loans, Federal Perkins Loans, scholarships, grants and waivers) and other support are applied to tuition and fees, University housing, and miscellaneous charges (if the Miscellaneous Charges form has been completed). If financial aid does not pay everything the student owes, the student is responsible for paying the balance by the tuition due date. If the payments to the account results in a **credit balance** the excess funds will be disbursed by **ACH Direct Deposit** into the student's personal checking or savings account. For direct deposit refund enrollment information see our website at www.wvu.edu/sbo

Description of Tuition and Fees

Tuition rates and service and activities fees are set by the board of trustees within the parameters of the state Legislature. Tuition consists of the operations fee and the capital building fee. In addition, 4.0% of the operating fee, 3.5% of the capital building fee, and 3.5% of the services and activities fee collected is allocated to fund student financial aid.

The operations fee, with the state's general fund appropriation, is used to support the University's primary mission, the education of its students. This money funds instruction, library, student services, administrative and maintenance functions.

The capital building fee is used for the construction of academic facilities. It is not used for both housing and dining buildings or to support the University's operating budget.

Other Mandatory Fees

Service and Activities Fee

The service and activities fee (**\$195 per quarter**) is used to amortize, in part, residence halls, dining halls and student activities facilities; to provide the Associated Students administration; and to support student activities such as theatre, forensics, musical activities, intramural and intercollegiate activities, et cetera.

Enrollment Fee

A one-time **\$250** enrollment fee is charged to all newly matriculated students, not including extension or graduate students, upon registration for their first quarter of attendance. This fee is nonrefundable.

Green Energy Fee

A student initiated fee assessed to all students at \$.70 per credit hour to a maximum of **\$7.00 per quarter**

TUITION AND FEES

with the goal of promoting sustainable practices at Western Washington University. The fee goes towards the purchase of Renewable Energy Certificates to offset 100% of the electrical consumption of the university as well as the Green Energy Fee Grant Program which funds innovative student-driven projects that aim to reduce the campus' environment impact.

The following fees are assessed each quarter to all students registered for 6 or more credits on the Bellingham campus and are nonrefundable after the fifth day of the quarter.

Health Service Fee

\$85 per quarter

The Health Service fee is used to establish a standard of health care for Bellingham's campus and as a contingency for emergency services. For more information contact the Student Health Center at 360-650-3400.

Student Recreation Fee

\$99 per quarter

The student recreation fee is used for the construction, operation, and maintenance of the Wade King Student Recreation Center. For more information, visit www.acadweb.wvu.edu/recreate/.

Non-Academic Building Fee

\$39 per quarter

This fee is used to fund the improvement and development of the Viking Union Complex on the Bellingham campus. For more information, visit www.as.wvu.edu.

Technology Fee

\$35 per quarter for students enrolled in 6 or more credits, \$12.50 enrolled in 1-5 credits per quarter

This fee is used to upgrade and expand the University's technology equipment, facilities, and software on the main WWU campus. For more information, visit www.wvu.edu/stf/.

Alternative Transportation Fee

\$26.25 per quarter

This fee is used to provide transportation resources, including WTA bus passes and daily late night student shuttle service. For more information, visit <http://www.wvu.edu/transportation> or contact the Sustainable Transportation Office by phone at (360) 650-7960 or email transportation@wvu.edu

Legislative Action Fee

\$1 per quarter

In 2014, the Associated Students voted in favor of this fee structure change to provide stability and support. The fee increases student representation and advocacy efforts at the campus, local, state and federal levels.

Miscellaneous Fees

Parking Permits

For parking and traffic regulations, see Appendix I. Quarterly Rates. All parking rates are subject to change. ***Rates do not include sales tax.*** www.ps.wvu.edu.

Student Health Center

An optional medical insurance plan is available to eligible students. Contact the Student Health Center for details.

Special Examination Charges

Course challenge, \$100 per credit.

Intern Substitute Teacher Certification

\$88 teacher certificate application fee.

Residency Teacher Certification

\$118 teacher certificate application fee.

Residency Principal Certification

\$118 administrator certificate application fee.

Residency Educational Staff Associate Certification

\$118 educational staff associate certificate application fee.

Residency Principal Certificate Renewal

\$93 administrator certificate renewal application fee.

Residency Educational Staff Associate Certificate Renewal

\$93 educational staff associate certificate renewal application fee.

Professional Administrator Certification

\$108 principal or program administrator certificate application fee.

Professional Educational Staff Associate Certification

\$108 educational staff associate certificate application fee.

Initial Superintendent Certification

\$118 administrator certificate application fee.

Additional Teaching Endorsement

\$98 additional endorsement application fee.

Certification fees include Washington State and WWU processing fees.

Official Transcripts

\$10

Requests should be submitted to the Registrar's Office one week in advance of need. The university may withhold transcripts for students who fail to meet financial obligations. Unofficial faxed transcripts are \$15. There are additional fees and charges for FedEx transcript orders. Transcript ordering information and options may be found on the Registrar's website.

Degree Application Fee

\$43 degree application fee

Late fee for applying after the deadline: \$35.00

Other Special Course Fees

Students registering in certain courses are charged additional fees for purchase of special laboratory and studio supplies and for special services such as music practice room rentals. These fees are listed with each course in the online Timetable of Classes.

Audit Fees

Full fee-paying students (10 or more non-audited, main-campus credits) may audit a course without an additional fee (excluding course fees). Part-time students may audit courses for **\$10 per credit**.

Late Registration/Late Course Adds

\$12 per credit

A fee of \$12 is charged if a student registers initially after the fifth day of instruction in a quarter. A fee of \$12 per credit is charged if a student adds a class after the second week of instruction. Either action requires written permission of the course instructor, department chair, and Registrar.

TUITION AND FEES

Tuition and Fees - Extended Education

Tuition/Fee Type	RATE (as of Fall 2014)
Extended Education Student Service Fee	\$9.00 per credit
Graduate Tuition (excluding Weekend MBA)	\$335.00 per credit
Graduate Tuition - Weekend MBA	\$625.00 per credit
Undergraduate Tuition (excluding Business Administration)	\$268.00 per credit
Undergraduate Tuition - Business Administration (1-9 credits or 18+ credits)	\$281.00 per credit
Undergraduate Tuition - Business Administration (10-18 credits)	\$2,810 per quarter
Undergraduate Tuition - Active Duty Military Personnel	TBD
Credit Option Tuition	\$50.00 per credit
Online: Term-Based Course Tuition	See Academic Year Self-Sustaining Rates
Online: Self-Paced Course Registration Fee	\$25.00
Online: Self-Paced Course Enrollment Renewal Fee	\$50.00
Correspondence Course Tuition	\$131.00 per credit
Video Tape Refundable Deposit Fee	\$30.00
Professional Development Non-Credit Fees	Variable
Conference Fees	Variable
Youth Program Fees	Variable
Academic Year Self-Sustaining Resident Undergraduate Tuition	\$250.00 per credit
Academic Year Self-Sustaining Non-Resident Undergraduate Tuition	\$264.00 per credit
Academic Year Self-Sustaining Resident Graduate Tuition	\$266.00 per credit
Academic Year Self-Sustaining Non-Resident Graduate Tuition	\$280.00 per credit
Intensive English Program - Application Fee	\$100.00
Intensive English Program - Quarterly Homestay Placement Fee	\$125.00
Intensive English Program - Quarterly Excursions and Events Fee	\$25.00
Intensive English Program - Quarterly Sponsored Student Fee	\$150.00
Intensive English Program - Quarterly Tuition (Full-time)	\$2,920 per quarter
Intensive English Program - Quarterly Tuition (Part-time)	\$127.00 per course hour
Mandatory Campus Fees	Vary by campus location/program

Summer Session 2014 tuition and fees as approved by the Board of Trustees on December 13, 2013.

All self-supporting tuition and fees are subject to change without notice. Variable course fees apply to the Professional Certificate programs, workshops and special courses. Contact Extended Education and Summer Programs for current rates.

Fee reductions and tuition waivers are not applicable to self-supporting extension courses.

Self-Supporting Tuition and Fees Refund Policies

A full refund of all tuition and fees paid are given if a class is canceled or a registration is not accepted. All requests for refunds must be in writing (e-mail requests are acceptable).

Credit and Online Courses

Full refund — same as regular Western policy or before the second class meeting, whichever is later.

50 percent refund — same as regular Western policy

No refund — same as regular Western policy. No refunds are given after the first 30 calendar days following the first day of Western's Bellingham campus quarter.

Independent Learning course

(including correspondence and contract courses)

No refunds are given after 30 days from the date of registration. If assignments have been submitted, a prorated service fee is deducted from the refund. The registration fee is nonrefundable.

Non-credit and Professional Development Courses

Full refund – is available until registration closes. After the 1st class and before the 2nd class, a full refund (minus registration fee and processing fee) is available.

No refund – will be given except in cases of documented personal/family, health, or unavoidable job issues after the 2nd class. Such refunds will be prorated based on attendance.

Summer Session

See Summer Session website for the refund policy for summer fees.

Undergraduate Admission

Old Main 200, 360-650-3440, admissions.wvu.edu

Every effort has been made to provide accurate information regarding admissions policies and procedures. However, these practices may change prior to catalog revision. Please consult the Office of Admissions prior to submitting an application.

The Undergraduate Office of Admissions welcomes applications for freshman, transfer and post-baccalaureate undergraduate admission as well as readmission applications for undergraduate students returning to Western. Western Washington University's admissions policies reflect the University's commitment to enroll students with diverse interests and backgrounds who demonstrate ability, creativity, and motivation.

General Admissions Information

Admission to Western is selective as the number of qualified applicants exceeds the number of available enrollment spaces. Standards may vary from quarter to quarter dependent upon space availability. Criteria considered in the review process include academic achievement, activities, intended program of study and individual circumstances.

An Undergraduate Application for Admission is required of all freshman, transfer and post-baccalaureate applicants. International students must complete the International Student Undergraduate Application. Former Western undergraduate or post-baccalaureate students who wish to reapply must submit the Returning Student Application. All applications must be accompanied by a nonrefundable \$55 application fee.

Application Deadlines and Procedures

Although some students are notified of an admission decision prior to the application deadline, the majority of decisions are made after the application deadline. All on-time applications are given equal consideration. Applications received after the deadline will be considered on a space-available basis.

- Fall Quarter
 - Freshman (includes all Running Start applicants) - January 31
 - Transfer, Post-bac, Former Western Student — March 1
- Winter Quarter — October 1
- Spring Quarter — January 15
- Summer Continuing to Fall
 - Freshman applications are not accepted for Summer Quarter
 - Transfer, Post-bac, Former Western Student — March 1

International Student Application Deadlines

- Fall Quarter - January 31 (for freshman); March 1 (for transfer/post-bacs)
- Winter Quarter - October 1
- Spring Quarter - January 15
- Summer Quarter - March 1 (transfer/post-bac), however international students are strongly discouraged from beginning Summer Quarter. Freshmen are not eligible to begin summer quarter.

Western extension program deadlines and fees may vary. Please contact the specific program for information. See the Extended Education and Woodring College of Education sections in this catalog or <http://www.acadweb.wvu.edu/eesp/contact.shtml> for details.

All application materials, including official transcripts and test scores, if required, must be postmarked by the deadline. To be considered official, transcripts must be sent directly from the issuing institution or be delivered in an official, sealed envelope. Transcripts must be received from all institutions attended, regardless of whether or not credit is desired.

All admitted students, other than post baccalaureates, extension students, or former students who have been readmitted, must confirm intent to enroll by submitting a nonrefundable \$250 fee. This one-time enrollment fee funds a variety of academic support services related to new student orientation, advising, and academic success. Enrolling students must also provide proof of measles immunization prior to course registration.

Admission to the University does not imply admission to a major or enrollment in specific courses. Many academic programs have selective admission requirements, including grade point average (GPA), prerequisite course work, et cetera. Students should refer to the College sections of this catalog for specific major declaration requirements.

The Office of Admissions sponsors a variety of campus visit options for prospective students. Specific information may be obtained by contacting the Office of Admissions at 360-650-3440 or by visiting admissions.wwu.edu.

Students of Color

In keeping with our belief that a quality education requires the exchange of ideas across cultural, social, political and religious differences, Western has a proactive commitment to diversify its student body. Students of color comprised over 22 percent of Western's fall, 2013, enrollment, compared with 13.2 percent of Western's 2000, student body.

Students with Disabilities

The University's policy regarding admission and access prohibits discrimination on the basis of disability. Western Washington University is committed to making physical facilities and instructional programs accessible to students with disabilities. After admission, students with disabilities are strongly encouraged to contact disAbility Resources for Students at 360-650-3083 or drs@wwu.edu so services and accommodations can be discussed and coordinated in a timely manner.

Freshman Admission

The most important criterion in the selection process is demonstrated academic achievement, including grade point average, quality and rigor of course work, grade trends, and SAT or ACT scores. Activities, leadership, special talent, multicultural experience and individual circumstances are also considered. An essay is required, and an activities list is strongly encouraged.

Students are encouraged to pursue academic course work and advanced study beyond the minimum course requirements listed below. Academic course work exceeding the minimum requirements, including Advanced Placement, honors, Running Start and International Baccalaureate, will strengthen the application for admission.

English: Four units, at least three selected from college preparatory composition and literature courses. One unit may be satisfied by courses in drama, public speaking, debate, journalistic writing, ESL or business English.

Mathematics: Three units of mathematics are required, at the level of algebra, geometry and advanced (second-year) algebra. Students are strongly encouraged to continue taking during their senior year. More advanced mathematics courses are recommended such as trigonometry, mathematical analysis, elementary functions and calculus. Arithmetic, pre-algebra and business mathematics will not meet the requirement. An algebra course taken in the eighth grade may satisfy one unit of the requirement if second-year algebra is completed in high school.

Science: Two units of college preparatory science, including one unit of an algebra-based chemistry or physics, one course must include a laboratory experience. Two units of agricultural science will equal one unit of science.

UNDERGRADUATE ADMISSION

Social Science: Three units of college preparatory course work, including history, government, psychology, politics, economics, geography, et cetera. Credit granted for student government, community service, or other applied or activity courses may not be used to fulfill this requirement.

World Language: Two sequential units in a single foreign language, Native American language or American Sign Language. Students entering the United States education system from non-English speaking countries at the eighth grade or later are exempt.

The Arts: One semester or one trimester in the fine, visual or performing arts, to be chosen from study in art appreciation, band, ceramics, choir, dance, dramatic performance, music, photography, et cetera. Courses in color guard, drafting, fashion design, sewing, woodworking, et cetera, are not acceptable.

Electives: One semester in any of the above areas is required.

Since the number of qualified applicants exceeds the number of available enrollment spaces, meeting minimum requirements is no guarantee of admission. Students who do not meet minimum eligibility requirements can be exempt under certain circumstances. College course work may also be used to fulfill high school requirements. See College Credit for High School Students section below.

College Credit for High School Students

High school students earning college credit will be considered freshmen for admissions purposes, as long as the student attempts no college-level course work after high school graduation (excluding summer). The University will accept college credit in fulfillment of high school course requirements as indicated on the high school transcripts. College-level credit will be awarded in a manner consistent with standard transfer equivalency policies. To receive credit, students are responsible for submitting official college transcripts and/or score reports.

Running Start and College in the High School

Regardless of number of college credits earned, Running Start students and other high school students with college credit must follow freshman application procedures and meet freshman admission standards. This includes completion of the high school course requirements and submission of ACT or SAT exam scores.

Advanced Placement (College Board), International Baccalaureate, and Cambridge International Exams

Western encourages students to take Advanced Placement, International Baccalaureate, and/or Cambridge International courses and exams where available. College-level credit, to a maximum of 45 credits, will be granted to enrolling students who have scored a 3 or above on the AP exams, a 4 or above on the higher-level IB exams, and grades A-E on Cambridge A and AS level exams. See the University Academic Policies section in this catalog for further details.

Admission Requirements for Home Schooled Students

All freshman applicants need to supply Western with SAT or ACT test scores along with detailed documentation that outlines the curriculum they have studied in the last four years. Typically, this documentation is in the form of a transcript. Home-schooled students must demonstrate academic preparation comparable to general freshman admission requirements. While not required, GED scores can be helpful in assessing the preparation of nontraditional applicants.

Transfer Admission

Western welcomes transfer students in all majors and from all types of colleges and universities. A transfer applicant is a student who has attempted college credit after high school graduation. Please see the section on Freshman Admission if your college credits were earned while you were also fulfilling high school requirements.

Academic achievement is the most significant factor in the application review. Clearly defined academic goals, completion of major prerequisites and related experiences, number of transfer credits, contributions to and/or experiences with multiculturalism, special talent, personal circumstances, and space availability are also considered. All transfer students are encouraged to begin taking math/quantitative skills courses as early in their college career as possible and to complete college-level math prior to submitting their application for admission.

Minimum requirements for transfer admission include a 2.0 cumulative transferable GPA and a 2.0 in the quarters prior to application review and enrollment. Students applying with fewer than 45 completed transferable quarter credits also must meet freshman admission standards. Meeting minimum requirements is not a guarantee for admission as the number of qualified applicants exceeds the number of available enrollment spaces.

In calculating the transfer admission GPA, the Office of Admissions uses all transferable academic courses, including repeats, from all regionally accredited colleges the student has attended.

Admission to the University does not imply admission to a major or enrollment in specific courses. Many academic programs have selective admissions requirements, including GPA, prerequisite course work, auditions, portfolio review, et cetera. Students should refer to the College sections of this catalog for specific major declaration requirements.

Transfer Policies and Procedures

Western Washington University endorses the ***Policy on Inter-college Transfer and Articulation among Washington Public Colleges and Universities***. Detailed transfer advising information, including course equivalency information, as well as a list of transfer student rights and responsibilities, is listed on the transfer admission section of Western's website.

Transfer of Credit

In general, Western Washington University grants credit for baccalaureate-oriented courses completed at accredited institutions of higher education. Transfer of credit policies are developed by the University's Recruitment, Admissions and Support Committee and the statewide Inter-College Relations Committee and approved by the University's faculty. Authority to administer these policies is shared by the Registrar, the Assistant Vice President of Enrollment and Student Services and, where applicability of major or minor is concerned, department chairs.

Several factors govern the acceptance of transfer credit. Chief among them is accreditation. For transfer credit purposes, Western recognizes those institutions which have received accreditation by the Regional Associations of Schools and Colleges.

Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements but additional credits will not be allowed to count toward the 180 credit requirement for graduation.

Regardless of the number of transfer credits awarded, the student must earn a minimum of 45 resident credits through Western for graduation.

Lower-division transfer coursework that is deemed equivalent to an upper-division course cannot be used to satisfy WWU's 60 credit upper-division minimum requirement.

Certain credits earned at previous institutions do not transfer, regardless of that institution's accreditation, including:

- College courses numbered below 100
- Technical and vocational courses
- Developmental education or remedial courses

UNDERGRADUATE ADMISSION

- English as a Second Language
- Sectarian religion courses
- Credit for life experience/travel
- Study skills courses
- CLEP examination credit
- DANTES credit by examination

Exception to the above policies may be made in accordance with inter-agency articulation agreements.

Military credit

Students may receive up to 30 credits for military service as recommended by the American Council of Education (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services and in accordance with University and State policies regarding transfer credits. Students may request evaluation of military credit by submitting the Joint Service Transcript (JST) to the Office of the Registrar. The JST replaces the Coast Guard Institute Transcript, Army ACE Registry Transcript (AARTS), and the Sailor/Marine ACE Registry Transcript (SMART). Air Force personnel submit Community College of the Air Force transcript.

Transfer of Associate Degrees

Direct Transfer Agreement (DTA) Associate Degree. Students who complete a DTA associate degree at a Washington State community college prior to initial enrollment at Western ordinarily will satisfy all of Western's General University Requirements (GURs). To be accepted in lieu of Western's GURs, the associate degree must meet Washington State's Inter-college Relations Commission (ICRC) guidelines and include at least 90 credits. The DTA degree must include 75 credits that are directly transferable to Western. Up to 15 credits not normally transferable may transfer if used as part of this associate degree. Western will not accept any non-transferable credit earned after the DTA is awarded. The Pass/Fail grading option may only be used in the general elective area. Students should work closely with community college transfer advisors to ensure their curriculum choice follows the approved guidelines.

An approved associate degree is generally earned prior to initial enrollment at Western (on or off campus) as a transfer student. If any student wishes to complete such a degree in order to have it satisfy the GUR while enrolled at Western, it must be earned by the time the student 1) has completed 45 credits at Western, or 2) one calendar year has passed from initial enrollment, whichever comes later. Exceptions to the 45 credit and/or one calendar year requirement may be requested from the Registrar's Office.

Associate of Science - Transfer (AS-T) Degree. Washington State community college students intent on earning a bachelor's degree in biological sciences, chemistry, computer science, engineering technology, geology, or physics may be best served by completing the appropriate Associate of Science - Transfer degree prior to admission. While this degree will not fulfill Western's GURs, it is the most efficient route in preparing for upper-division study in most science and engineering majors. Students who complete this degree will enter Western with 90 credits and preparation for upper-division program study; however, it does not guarantee admission to the major. Up to 5 credits not normally transferable may transfer if used as part of this associate degree. Western will not accept any non-transferable credit earned after the AS-Transfer Degree is awarded.

General Education Transfer Agreement

Completion of General University Requirements will be granted to transfer students from another Washington state public baccalaureate institution whose General University Requirements were completed and certified by the sending institution.

Post-Baccalaureate Admission

Space for students wishing to pursue teaching certification, complete graduate school requirements or earn a second bachelor's degree is limited, and therefore admission is competitive. Proposed program of study, preparation for major, cumulative academic record, related experience, space availability and clarity of

academic and career goals are the most important factors considered in the application review. All post-baccalaureate students are required to submit a **statement of purpose** with their application. Many post-baccalaureate students will find their educational needs can be met through enrollment options offered through Extended Education or Western's program for non-matriculated students. For more information, see the Extended Education and Registration sections in this catalog.

Post-baccalaureate applicants interested in pursuing a residency teaching certificate must simultaneously apply to Woodring College of Education.

International Student Admission

Western's student body includes representation from more than 35 countries. In addition to meeting admissions standards comparable to those required of other applicants, international students must demonstrate English proficiency and provide proof of full financial support for all expenses for one academic year. Taking the ACT or SAT exam is required for freshman applicants and transfer applicants with fewer than 45 credits at time of application.

International applicants must demonstrate English language proficiency via one of the following options:

1. Earn a transferable associate's degree from a Washington State Community College with "B" or better grades in English 101 and English 102;
2. Minimum TOEFL score of 80 (internet-based) or 550 (paper-based) or;
3. Minimum IELTS score of 6.5

Western also offers a conditional admission option for international students who demonstrate strong academic potential but will benefit from Western's Intensive English Program prior to gaining full admission to Western.

Due to application processing time constraints, out-of-country international student applications are not accepted for winter and spring quarters.

Conditional Admission

Conditional undergraduate admission may be granted to applicants who do not meet the university's **English language requirement** or who need more university preparation and English language study before entering a degree program. Students do not need to submit a TOEFL or IELTS score to apply for conditional admission. However, before beginning to take regular university classes and moving into full admission status, students will need to demonstrate a high level of academic English ability, equivalent to Western's English language requirement, through Intensive English Program coursework. Applicants must confirm their acceptance of conditional admission by applying for and enrolling in the Intensive English Program (IEP) at Western.

Applicants must fulfill all other requirements for undergraduate admission, including having competitive grades from previous high school or post-secondary institutions. Freshman applicants need to have completed foundation coursework in English, humanities, mathematics, natural/physical sciences and social sciences. Additionally, for transfer applicants, college level English, math, and academic coursework and experiences related to one's academic area of interest will further strengthen the application.

Conditional Admission students must attend the Intensive English Program full-time for a minimum of one quarter. Before enrolling in their first credit classes, students must successfully complete IEP Level 5 Academic English courses (Academic Preparation, Research Writing, Academic Communications, Academic Reading, and Applied Language Skills). During the first quarter of matriculation, all international students entering undergraduate programs, including conditional admission students, will enroll in the Bridge Program, which consists of university credit courses offered by English, Communication, and other Departments.

For more information, contact the Intensive English Program office at 360-650-3308, send e-mail to iep@wwu.edu, or visit the IEP webpage at www.iep.wwu.edu.

UNDERGRADUATE ADMISSION

Readmission of Former Students

Undergraduates pursuing a first bachelor's degree after an absence from campus generally are guaranteed readmission as long as they left Western in good academic standing and follow readmission application instructions. Post-baccalaureate students returning after an absence from campus must include a detailed academic plan of study, as the post-baccalaureate readmission process is selective. Former students must submit a **Returning Student Application** that includes a list of all educational institutions attended since leaving Western and meet deadlines cited under **Application Deadlines and Procedures** section whenever possible. Students applying to return after dismissal from the University must follow reinstatement procedures detailed in the University Academic Policies section of this catalog.

Students who have been dropped for low scholarship, even if absent for five years or more, must pursue reinstatement. See **Reinstatement** section under University Academic Policies.

Former Western extension program students returning to the same Western Washington University extension program to pursue a first bachelor's degree or post-baccalaureate study must complete the appropriate Extension Program Returning Student Application and submit it with a \$55 nonrefundable application fee.

A former Western undergraduate student who returns to the University after an absence of five years or more may be given permission to start a new cumulative grade point average. See Fresh Start policy in University Academic Policies section.

Extension Program Admission Information

Western's general admissions requirements apply to all extension programs. Additional application procedures may be required. Extension program deadlines and fees may vary. The extension program sites offer informational sessions for prospective students. For specific program information, see the Extended Education and Woodring College of Education sections in this catalog.

Applicants to Western's extension programs must complete the Transfer & Post-baccalaureate Application for Extended Education Programs and submit it with a \$55 nonrefundable application fee. International applicants to Western's extension programs must also complete the Extension International Supplement. Applications are available online on the admissions website.

Former Western extension program students returning to a Western extension program must complete the Extension Program Returning Student Application and submit with a \$55 nonrefundable application fee.

Special Students and Auditors

The Registrar's Office grants course registration privileges on a space-available basis, for one term at a time, to auditors, Washington state employees, and residents over 60 years of age who are eligible for tuition reduction. Special students and auditors must submit a Special Student Enrollment Form to the Registrar's Office each quarter. The form can be found online at: <http://www.wvu.edu/depts/registrar/forms.shtml>.

Early Admission/Concurrent Enrollment While in High School

Students who plan to graduate from high school early should follow standard freshman admission procedures.

Students interested in concurrently enrolling in courses while also attending high school may apply at the Registrar's Office to take courses as non-matriculated students. This program allows eligible students to enroll in courses on a space available basis. Students who are interested in being formally admitted as matriculated students while staying in high school must demonstrate superior academic achievement, fulfill all freshman admission requirements, and demonstrate that they have exhausted all academic opportunities available through their high school and local community college.

With the exception of any scholarships specifically designated for high school students, concurrently enrolled high school students are not eligible for financial aid or WWU scholarships.

University Residences

Edens Hall, 360-650-6565
housing.wvu.edu

University Residences engages students in diverse and inclusive, healthy, safe and sustainable communities that foster academic success and personal growth. Western's residential experience is intentionally designed to help students learn about themselves, and how to live and work with others. Living on campus is completely optional, but new freshmen and transfer students who meet the housing deadlines are guaranteed housing their first year at Western; returning residents are accommodated on a space available basis. Extensive research demonstrates students living on campus earn higher grades and graduate in higher numbers than students living off campus. At WWU, about 93 percent of freshmen and 28 percent of transfer students choose to live on campus their first year. To be eligible for campus housing, undergraduates must be enrolled in a minimum of (10) credits per quarter, and graduate students must be enrolled in a minimum of (8) credits per quarter.

University Dining Services

Edens Hall, 360-650-2970
dining.wvu.edu

University Dining Services provides a campus-wide experience that supports active, healthy lifestyles, sustainability, social responsibility and community development. Three dining commons and a dozen cafés and markets serve the campus community with a variety of menu options that include vegan, vegetarian, gluten free and local fare. Meal plans and Viking Dollars are available to all members of the campus community. University Dining Services also offers full service, customizable catering for events of all sizes, on and off campus. University Dining Services is committed to sustainable practices in all aspects of its operations, including locally sourced food, compostable packaging, food composting, zero-waste catering and Fair Trade coffee. University Dining Services employs over 500 part-time student staff in its food service and catering operations.

University Academic Policies

Student Responsibility for Observing Policies

Students are directed to the Appendices section in this Catalog for information on university policies and administrative rules (Title 516 WAC), academic honesty, academic grievances, and other important policies. Information on university policies is also located on the university policy website: <http://www.wwu.edu/depts/policies/>. Information on WWU's administrative code rules (Title 516 WAC) is located at <http://apps.leg.wa.gov/wac/default.aspx?cite=516>.

The University attempts to make students aware of academic policies through the publication of the Catalog, the online Timetable of Classes, other materials, and in advising sessions. It is the student's responsibility to become familiar with those policies and to be aware of any policy changes that may occur.

Once application materials have been submitted, they become the property of Western Washington University.

E-Mail as Official Means of Communication

Recognizing the expanding reliance on electronic communication, WWU has determined that e-mail will be one of the University's official means of communication. See POL-U7100.02 Using E-mail Accounts for Official Correspondence with Students. E-mail correspondence will be sent to students' WWU e-mail addresses. Departments, faculty and staff may use e-mail instead of the U.S. Postal Service to provide students with information relating to official University business. U.S. Postal Service or campus mail can still be used as appropriate. This policy only applies to e-mail messages sent by the University to students that are designated as "WWU Official Communication."

Credit by Exam, Prior Learning and Advanced Placement

Advanced Placement, Prior Learning Credit and Credit by Exam is granted only to matriculated students. The maximum credit granted for any combination of Advanced Placement, Prior Learning and Credit by Examination is 45. Additional credits which exceed 45 and carry GUR applicability may be used to satisfy the GUR. Decisions will be made on a case-by-case basis.

1. *Western Washington University Advanced Placement*
One quarter of successful performance in an advanced course in a sequence which is developmental in

nature can, upon departmental recommendation, qualify a student for credit in the preceding course; admission to the advanced course is subject to permission of the department.

2. *Western Washington University Course Challenge*

Challenge examination or procedures prepared by the department concerned.

The following regulations govern course challenges:

- Students desiring to challenge a course should apply to the Testing Center by the fourth week of the quarter. The time and procedure to be followed in completing the evaluative process will be announced by the Testing Center. A special fee is charged for each challenge examination. See Tuition and Fees.
- If the challenge is passed, the result of the challenge is recorded as "Satisfactory" on the student's permanent record and is not used in computing grade point averages
- The challenge application will normally be denied:
 - If the student is currently enrolled in the course
 - If the student has previously established credit for a similar course at this or another institution
 - If the student has previously failed the course
 - If the student has previously challenged the course and failed
 - If the student has previously audited the course
 - If, in the judgment of the director of the Testing Center, in consultation with the department concerned, the challenge procedure is inappropriate
 - If the student is in his/her final quarter prior to graduating and the course is part of the General University Requirements
 - If, in the judgment of the academic department, the student has not demonstrated sufficient familiarity or understanding to have a reasonable chance of passing a challenge examination

3. *Prior Learning Credit*

Western Washington University will award credit for prior learning on a case by case basis. Students seeking prior learning credit must apply to the Registrar's Office within 6 weeks of their first term of enrollment after admission. The Registrar's Office coordinates and documents the petition review with the applicable academic department. Academic departments and affiliated faculty are considered experts and specialists in their respective disciplines and therefore the authority in evaluating prior learning experience, equivalency in credit and relationship to degree. The Registrar's Office will award prior learning credit as approved by academic departments.

4. *International Baccalaureate (IB)*

Western Washington University will grant 15 credits for each approved higher level International Baccalaureate subject examination passed with a score of four (4) or above according to the chart. In accordance with the previously stated university policy, a maximum of 45 credits for any combination of Advanced Placement and Credit by Examination will be granted. Higher level subject exams may earn a student General University Requirement (GUR) credit or elective credit, according to the following chart. Not all subject exams earn credit. The departments of Art and Modern and Classical Languages do not grant credit for IB exams, but may use the exam results for purposes of program placement and/or course waivers. Students who have passed higher level exams in subjects not listed on the chart will need to consult with the Office of Admissions. Such exams will be considered on an individual basis to determine eligibility for elective or GUR credit.

5. *College Board Advanced Placement Examinations in certain subjects.*

The department concerned has determined the minimum acceptable score and credit as shown on previous page.

6. *University of Cambridge International Exams.*

WWU will grant 15 credits for approved A-level examinations and 7.5 credits for approved AS-level examinations with passing grades of A-E. Credit will not be granted for both an A-level and an AS-level exam in the same subject area. Some exams may also apply to GUR. In accordance with the previously stated university policy, a maximum of 45 credits will be granted for any combination of Advanced Placement and Credit by Examination. Students should submit official results of the Cambridge International Exams to the Office of Admissions for determination of transfer credit. At the time of this catalog's publication, the following exams will not result in credit:

- Applied Information and Communication Technology
- Computing/Computer Studies/Computer Applications
- Design and Technology
- General Paper

UNIVERSITY ACADEMIC POLICIES

- Thinking Skills
- Use of English

International Baccalaureate (IB) Credit		
<i>Higher Level Subject Exam</i>	<i>Score</i>	<i>WWU Equivalency, Credits and GUR status if applicable</i>

Psychology	4 or higher	PSY elective (5 credits) - Social Science GUR

Course Numbering

Courses numbered from 100 to 299 are classified as lower division; those numbered from 300-499 as upper division. Generally, the first digit of a course number indicates its intended class level:

- 100-199 — First-year (freshman) courses
- 200-299 — Second-year (sophomore) courses
- 300-399 — Third-year (junior) courses
- 400-499 — Fourth-year (senior) courses
- 500-699 — Graduate-level courses

Only courses numbered 100 or above appear on the official transcript.

Except in unusual circumstances, students are not permitted to take courses more than one year above their class standing. Any undergraduate student wishing to enroll in a course numbered 500 or higher must obtain approval (an override) from the instructor and the Graduate School. (See the Graduate School section of this catalog.)

The numbers 197, 297, 397, 497 and 597 are used for temporary courses.

The number 117 is reserved for First Year Experience (FYE) courses.

The number 699, continuous enrollment, is reserved for master's degree students in their final quarter who have registered for all their course work. Contact the Graduate School for further information.

The numbers 137, 237, 337, 437, 537 are reserved for Faculty-led Global Learning Programs. These courses are offered through the WWU International Studies program or through colleges. Contact the Office of International Programs and Exchanges, Miller Hall 208, for information. Repeatable with different subject matter.

The numbers 300, 400, 500 are reserved to designate Directed Independent Study (1-15), enabling students to pursue, on an individual basis, topics not covered by the curriculum.

Courses listed in this General Catalog constitute a record of the total academic program of the University.

Except for unforeseen scheduling and personnel circumstances, it is expected that each course will be offered during the period of this catalog. In some cases, a new course may be offered in the Summer Session prior to appearing in the General Catalog. Such a course would be described in the Summer Session website.

For an exact scheduling of courses at Western and details regarding titles, prerequisites, number of credits and grading for specific courses not listed in this catalog, students should consult the annual online Timetable of Classes, Classfinder or the Summer Session website for summer quarter.

Prerequisites

The student is responsible for ensuring that he or she has satisfied all prerequisites, with a grade of C- or better, before registering for a given course. Although some prerequisite enforcement is driven by the Web registration system, students should not assume they are eligible to enter a course without having taken the prerequisite just because the system allows them to register for the course. A student who has registered for a course without satisfying prerequisites or obtaining permission may be required by the instructor to withdraw from the course. If an instructor requires a student to withdraw from a course because a prerequisite is not satisfied, the student is responsible for doing so via Web4U or in person in the Registrar's Office. All tuition, fees and withdrawal related deadlines apply.

Waitlisting & Registration

When a course reaches capacity during Phases I, II and III of registration, students may add themselves, via Web4U, to an automatically-generated waitlist. Before waitlisting is allowed, students must meet all course prerequisites and other course restrictions listed in the University Catalog, the online *Timetable of Classes*, and Classfinder

When a seat becomes available in a waitlisted class, an automated email message is sent to the official WWU email address of the first student on the waitlist, notifying the student of the available seat. Students may also sign up to have waitlist notifications and other official WWU communications sent via text message. Students who receive notification of seat availability are responsible for registering via Web4U before the notification expires. During Phases I and II, notifications are active for 24 hours from the time the notification is sent, and for 12 hours during Phase III. The notification expires if the student does not register within the time allowed. A notification is then sent to the next student on the waitlist. All other registration policies are applicable when waitlisting services are active.

Further details on waitlisting and how to sign up for text message delivery can be found under Registration on the Registrar's Office website.

Credits and Credit Loads

Credits are assigned to a class based on the amount and type of work expected from a typical student in class. Credit is awarded for courses only in the quarter in which the student is registered for the classes and completing the work.

Classes will be assigned one credit for each hour per week of classroom discussion or lecture, and one credit for every two hours per week of laboratory or practice/rehearsal involving some preparation or reporting.

UNIVERSITY ACADEMIC POLICIES

Classes using different formats for at least part of the course will be assigned credit for amounts and types of work equivalent to those described above. When such a component is proposed, the type and amount of work involved must be described in detail. In particular, the activity for which credit is assigned must be structured and occur at regular or periodic intervals throughout the course, and faculty must supervise and evaluate students' work in this activity.

Since each hour in a course requires at least two additional hours of study, and since students usually register for several courses, Western has established the following credit load policies for undergraduate students:

- The standard fulltime load per quarter for undergraduates is 15 credits. In order to graduate in four years, students must average 15 credits per quarter. **NOTE:** some majors require more than four years of study.
- During the first quarter of residence, a load must not exceed 17 credits; before registering for more than 15 credits, students should consult with their advisors
- After the first quarter of residence, the maximum allowable load is 20 credits per quarter; students are limited to 17 credits during Phase I of registration
- Employed students are advised to adjust their credit load accordingly

Correspondence Credit

Correspondence credit earned through a fully accredited college or university, including Western's Independent Learning program, may be accepted toward the bachelor's degree. Some departments limit the number of correspondence credits that may apply toward the major. Enrollment in only correspondence courses through Western's Independent Learning program does not qualify as continuing enrollment for newly-admitted, first quarter Western students. Contact the Registrar's Office for information regarding student status.

Non-Matriculated Students and Credit Limitations

A program for non-matriculated students allows community members not admitted to Western and undergraduate/certificate extension program students to enroll in Bellingham campus courses. Non-matriculated students are not eligible to register or get on waitlists until the first day of the quarter. Students who have been dismissed from Western due to low academic standing may not enroll as non-matriculants except during summer quarter.

A student must be admitted to Western to apply credit to a degree. A maximum of 45 credits earned as a non-matriculant may be accepted toward a bachelor's degree at Western. Contact the Graduate School for information on applying credit to graduate programs.

Students enrolled as non-matriculants are subject to all University academic policies as enumerated in this section of the catalog. They must maintain good academic standing according to University scholarship standards. Continued low scholarship will result in the loss of future registration privileges.

Auditing Courses

Auditors are persons who desire to attend courses without earning credit. Written permission from the instructor and approval from the Registrar's Office are required to register to audit a class.

Auditors may not actively participate in class and therefore certain courses may not be audited, including, but not limited to physical education activities, laboratory courses, studio courses, independent study courses, language courses, courses not taught in a group setting, and any other course the Registrar deems ineligible. Auditing a course cannot be used toward successful completion of academic credit.

Auditors are not allowed to register until the first day of the quarter, and the course must not have reached maximum enrollment. Changes to or from audit cannot be made after the first five days of the quarter.

Students enrolled for 10 or more non-audited credits may audit a course without an additional charge. Students enrolled for less than 10 credits should refer to the Tuition and Fees section "Auditing a Class." Students approved to register for an audit are responsible for paying any course fees attached to the course. Students who choose to audit self-supporting classes through Extended Education are required to pay the full amount of tuition and fees.

Special Registration Privileges

The Registrar's Office grants course registration privileges on a space-available basis fall, winter and spring quarters, for one term at a time, to auditors, Washington State employees, and Washington residents 60 years of age and older who are eligible for tuition reduction. Tuition reduction for summer quarter is available to WWU employees only. Written permission from the professor is required to audit a class. Special students and auditors must submit a Special Student Enrollment Form and/or the applicable tuition/fee waiver application to the Registrar's Office 2-3 weeks prior to the beginning of each quarter. The forms can be found online at: <http://www.wvu.edu/depts/registrar/forms/shtml>.

Class Standing

An undergraduate student is classified as a freshman when his or her total completed credits (including transferred credits) range from 0 to 44, a sophomore with credits of 45 to 89, a junior with credits of 90 to 134, and a senior with credits of 135 or more.

Full-Time Status

180 credits are the minimum number of credits required to graduate with a bachelor's degree from Western Washington University. Many majors require more than the minimum of 180 credits. In order to graduate in four years, a student should plan to enroll in an average of 15 credits each quarter. Undergraduate students must be enrolled for a minimum of 12 credits in order to be considered full-time (e.g., eligibility for financial assistance, full-time veterans' benefits, participation in intercollegiate athletics, etc.) Graduate students, officially admitted to the Graduate School must be enrolled in a minimum of 8 credits for financial aid purposes and veterans' benefits. *Students are advised to check carefully to determine that they meet the definition of "full-time enrollment" for the program in which they are participating.*

The following table illustrates the minimum number of credits to be considered full time, three-quarter, or half time each quarter for specific eligibility, aid and benefit related services and agencies.

	Undergraduate	Graduate
Full time (for financial aid eligibility, veteran's benefits, athletic eligibility, enrollment verification to outside agencies)	12 or more credits	8 or more credits
Three-quarter time (for financial aid eligibility, veteran's benefits, enrollment verification to outside agencies)	9, 10 or 11 credits	6 or 7 credits
Half-time (for financial aid eligibility, loan deferments, enrollment verification to outside agencies)	6, 7 or 8 credits	4 or 5 credits

Full fees are assessed to all students enrolled in 10 credits or more. Students enrolled in at least 10 credits are eligible to live in on-campus housing, hold Associated Student office and obtain on-campus student employment.

The Student Health Center is available to all students enrolled in 6 or more credits on WWU's Bellingham campus. Students registered for 3 to 5 credits have the option of paying the Health Services fee to use the

UNIVERSITY ACADEMIC POLICIES

services during a quarter. Former students, students on leave, dependents of students, faculty and staff of WWU, and Whatcom Community College students living on WWU's campus are not eligible for these services.

Graduate students must be enrolled in a minimum of 8 credits to be eligible for graduate teaching assistantships (TAs). If a graduate student has completed all the course work listed on the approved plan of study with the exception of the thesis (690) or research (691), the graduate student may remain eligible for the TA appointment by enrolling for as few as 2 credits (with prior approval from the Graduate School). Other graduate students who have completed all the course work listed on the approved plan of study with the exception of the thesis (690) or research (691) should consult with the Graduate School regarding the minimum credit requirements.

This table applies to fall, winter and spring quarters only. Enrollment status and requirements for summer may differ. Please consult the appropriate program office.

Adding a Course

A student may add a course to an existing schedule as late as the fifth day of the quarter. After that time, course additions are allowed only under unusual circumstances and require written permission or current override from the course instructor or department. A special late-add fee is charged when adding after the second week (see Tuition and Fees section).

Class Attendance

Students are expected to be prepared for class and to be in attendance for all class meetings unless directed otherwise by their instructor. Attending the first meeting of every class is critical to academic success and being absent from the first class meeting without discussing the absence with the instructor in advance may result in being asked to withdraw from the course.

A student absent from any exam or class activity through sickness or other cause judged by the instructor to be excusable shall be given an opportunity to take a rescheduled exam or make up the class assignment in a timely manner agreed upon by the instructor (see Leaves of Absence). Examples of excused absences may include participation in University-sponsored activities such as debating contests, musical or theatrical performances, or intercollegiate athletic competition. Students involved in university sponsored activities who know of a scheduled event or activity they will participate in that will result in a class absence are expected to notify their instructor early in the academic term to determine alternative arrangements for missed material, assigned work or examinations.

University policy does not allow a student to attend or participate in a class without formally being registered for it. It is the student's responsibility to ensure that he or she is properly registered for each course in their schedule.

Withdrawal from a Course

Single course withdrawals that occur prior to the sixth day of the quarter are considered to be a change of initial registration and results in no entry on the permanent record (transcript). To withdraw from a course during the first five days of the quarter, a student must complete the transaction on Web4U. If withdrawing from all courses on or after the first day of the quarter, it is considered a 'school withdrawal' and it is recorded on the official transcript as a grade of SW (see Withdrawal from the University).

Course withdrawals that occur from the beginning of the sixth day of the quarter to the end of the second week will result in no entry on the permanent record (official transcript), but a mark of "XM" will appear with the withdrawn course on the unofficial record (academic history). If withdrawing from your only class during the second week, a grade of SW will appear on the permanent record. Withdrawals that occur beginning the sixth day of the quarter may affect a student's tuition charges and may result in a credit of half of applicable tuition only. Fees are not refunded after the fifth day of the quarter. There also may be implications for financial aid recipients' awards. Beginning with the sixth day of the quarter, a student must complete the

withdrawal in person at the Registrar's Office in Old Main 230, during regular business hours. Beginning the third week of the quarter, a mark of "W" is posted for each withdrawn course.

Course withdrawal from the beginning of the third week to the end of the seventh week is permitted only if the student has an unused annual withdrawal privilege. Each student is granted two annual withdrawal privileges at the beginning of the academic year in fall quarter. The annual withdrawal privileges can be used during fall, winter, spring or summer quarter. (See Summer Session for summer course withdrawals.) Unused annual withdrawals cannot be used in subsequent years. To use an annual withdrawal privilege, a student must complete the withdrawal in person at the Registrar's Office.

After the seventh week of the quarter, course withdrawal is not permitted. Discontinued attendance without official withdrawal results in a failing grade (Z or F). Course withdrawal deadlines are published in the dates and deadlines section of the Registrar's Office website and the Summer Session website.

To withdraw from an extension course, a student must file the appropriate form through the extension office. For specific site information, see the Extended Education section in this catalog.

Students may drop an Independent Learning course by contacting the Independent Learning Office in writing. There is no refund 30 days after registration.

Withdrawal from the University

Formal withdrawal from the University, including a self-supporting program, may be made at any time before the final two weeks of a quarter. Summer Session deadlines vary depending on the length of the course (refer to Summer Session section in this catalog). After the first five days of the quarter, students must initiate the withdrawal process in the Registrar's Office or at their extension site. Beginning the first day of classes, a grade of SW (school withdrawal) is posted on the permanent record for each course for which the student was registered.

Upon registering for courses, students incur a legal debt to the University. When a student leaves the University during a quarter without formally withdrawing, any unpaid debt is not automatically canceled.

A withdrawing student who will be away from Western a full quarter or more, except summer quarter, must apply for readmission prior to the deadline stated in the Undergraduate Admission section of this catalog.

Hardship Withdrawal

A student who is unable to complete the quarter or a class due to a significant hardship may petition to withdraw from the University or a course after the stated deadline. Hardship is considered to be an incapacitating illness or injury requiring extensive recuperation or a significant personal emergency such as a death in the immediate family. **Verification of the hardship is required.**

Petitions for the withdrawal due to hardship are available in the Student Life Office and must be submitted by the deadline determined by the Student Life Office. A complete school withdrawal results in grades of SW for each course for which the student was registered. If the student qualifies for a partial withdrawal, a grade of W is posted for those courses.

Summer withdrawal deadlines and policies are published on the Summer Session website.

Emergency Leaves of Absence

A leave of absence from classes may be granted when psychological or family emergency, illness or injury requires a student to be absent from class. Leaves of absence are issued only upon request from the student and may be granted for two days, but no more than five days during an academic quarter or summer session. If a faculty member requires official notification of student medical or emergency leaves of absence, the faculty member will inform the students in his/her courses of that fact in the course syllabus. Non-medical

UNIVERSITY ACADEMIC POLICIES

leaves of absence are available through the Dean of Students Office and medical leaves through the Student Health Center. **All leave of absences require proper verification.**

While a leave of absence generally makes it possible for the student to make up work missed, in some instances the amount of time lost makes course completion impractical. In those cases, withdrawal or incomplete grades may be appropriate. A student absent from any exam or class activity through sickness or other cause judged by the instructor to be unavoidable shall be given an opportunity to take a rescheduled exam or make up the class assignment in a timely manner agreed upon by the instructor. Examples of unavoidable cause may include participation in university-sponsored activities such as debating contests, musical or theatrical performances, or intercollegiate athletic competition. The student should consult with the course instructors and/or the Dean of Students Office.

Insufficient Progress Toward Degree and Registration Holds

The University reserves the right to deny access to classes by students who make insufficient progress toward a degree or major. Insufficient progress toward a degree is determined by the Registrar in consultation with academic and administrative officials. Insufficient progress toward major is determined by the department chair in consultation with the Registrar. Students who fail to make progress toward a degree or who repeatedly withdraw from the University after registering may have their enrollment privileges suspended. Students on probation who repeatedly register for Pass/No Pass or Satisfactory/Unsatisfactory courses may have their registration privileges suspended. Students who fail to declare a major by the time they reach 105 credits may not be permitted to register. Students who reach 210 credits without graduating or submitting a degree application or approved plan of study may not be permitted to register.

Criteria for determining Insufficient Progress

Degree-seeking students who fail to make progress toward a degree based on one or more of the following components of evaluation may have their enrollment privileges suspended or other administrative action taken (conditions that would be applied to help students succeed academically):

- Continuing students with a net completion rate of fewer than 80% of credits attempted at WWU (excludes courses dropped before the second Friday of the quarter)
- Students with repeated coursework in more than three courses or any single course more than once.
- Students who earn a quarterly grade point average below 2.0 for two or more consecutive quarters
- Students who take more than two course withdrawals of any type (late course withdrawal, hardship withdrawal, school withdrawal) within a calendar year (September 1 - August 31)

Finals Preparation Week

The week immediately preceding final examination week is known as finals preparation week and provides the following protections which enable students to complete their studies without undue hardships:

- Final examinations must be administered at the date and time specified in the final examination schedule, with the exception of laboratory-section final exams
- During finals preparation week, no examinations shall be administered; exceptions may be made if there is agreement of the instructor, the appropriate department chair and/or dean, and the entire class membership
- No graded assignments shall be introduced during finals preparation week
 - Students may consent, on an individual basis, to accept new graded assignments for purposes of extra credit and/or makeup for previous assignments
 - Instructors must have notified students in writing, by the end of the course's fifth week, of any graded assignments whose due dates fall during finals preparation week

The term "graded assignments" refers to written or oral presentations which are a required component of class performance and which are utilized in determining students' letter grades or evaluations for the quarter. Examples include essays, papers, research projects and class presentations or quizzes.

Final Examinations

Final examinations, given in most courses at Western, are administered according to a schedule published in the online Timetable of Classes. ***The scheduled days and hours for these examinations may not be changed. The final examination is normally held where the course meets.***

All final examinations are scheduled during the last week of the quarter, which is known as final examination week. No final examinations except laboratory finals — whether for a whole class or part of a class or an individual — may be given before final examination week. This means that students may not petition faculty for early final examinations and that students should plan their end-of-quarter schedules in the expectation of final examinations in all courses. In the rare cases where final examinations are not given, instructors will notify students at the beginning of the quarter.

A student who fails to take a final examination without making prior arrangements acceptable to the instructor receives a failing grade for the course. Under unusual circumstances, an instructor may allow a student who has been making satisfactory progress in the course to take a late final examination and receive a temporary incomplete (K) grade. This privilege is available only to students who have been making satisfactory progress in the course. The incomplete grade given in this manner should be removed early during the next quarter.

If the final examinations schedule causes a student to take three or more examinations in one day, any of his or her instructors may arrange an examination ***later*** during finals week.

There is no final examination week in summer session. Course requirements are determined by each instructor.

Grades and Grade Reporting

At Western, grades describe both a student's mastery of subject matter and the ability to communicate that mastery in examinations, essays, demonstrations and discussions. The three grading systems are described below. (Fairhaven College is authorized to follow a different system described in the Fairhaven College of Interdisciplinary Studies section of this catalog.)

A-F Grading

Most courses at Western are graded on the traditional A-F system. The grades that may be earned under this system, and their values for GPA calculation (see "Grade Averages" below), are as follows:

A (excellent), 4.00; A-, 3.70; B+, 3.30; B (good), 3.00; B-, 2.70; C+, 2.30; C (fair), 2.00; C-, 1.70; D+, 1.30; D (poor), 1.00; D-, 0.70; F (failure), 0.00; Z (failure due to discontinued attendance without withdrawal), 0.00; K (incomplete), X (missing grade); XM (course withdrawal during second week of quarter; mark appears on academic history, but not on official transcript); W (course withdrawal after the second week of the quarter; mark appears on both the academic history and official transcript); SW (school withdrawal; mark appears on each course when school withdrawal occurs on first day of quarter or later).

Satisfactory/Unsatisfactory Grading

Some courses are graded on the Satisfactory/Unsatisfactory system. For these courses, appropriate curricular agencies have determined that the traditional A-F system is inappropriate. If a course has been approved for S/U grading, the only grades that may be assigned are S, U and K. Neither S nor U is considered in the calculation of grade averages.

All S/U courses are identified in the course descriptions of this catalog and in the online Timetable of Classes.

UNIVERSITY ACADEMIC POLICIES

Pass/No Pass Grading

Students may choose the Pass/No Pass grading option in certain elective courses. The minimum level of performance required to receive a grade of P varies from course to course and is determined by each instructor or department. Students should not assume that performance equal to a grade of D or higher will result in a passing mark. Often performance at the level of C or higher is required. Regulations pertaining to Pass/No Pass grading are as follows:

- Courses graded Pass/No Pass may not be applied to the major and minor, supporting courses, professional education requirements, upper-division writing proficiency requirement and General University Requirements
- Graduate courses taken for the graduate degree cannot be taken Pass/No Pass
- Courses graded Satisfactory/Unsatisfactory cannot be taken Pass/No Pass
- To designate a course as Pass/No Pass students must submit a request at the Registrar's Office after registering for the course; they may change this designation by submitting the change to the Registrar's Office at any time through the fourth week of a quarter. For extension program courses or Summer Session, please see Summer Session or Independent Learning deadlines.
- Prerequisites, work required and credit allowed may be affected by election of the Pass/No Pass option
- In computing grade averages, neither the P nor NP grade in Pass/No Pass courses is counted
- Should a student change his or her major or minor, the academic departments involved are the sole judges of the acceptability of any Pass/No Pass courses already completed in the newly chosen major or minor
- Once a student has earned NP grades in courses totaling 10 credits, he or she may no longer register for courses under the Pass/No Pass option
- Math 099 is a non-credit course that does not appear on the official transcript but will appear on the academic history. A grade of YP indicates pass, a grade of YN indicates no pass, and a grade of YK indicates incomplete. These grades are not calculated into the student's grade point average or earned credits.

NOTE: Excessive use of the Pass/No Pass grading system may negatively influence admission to some graduate or professional schools.

The Incomplete (K) Grade

The grade of K (incomplete) may be assigned under all grading systems. It may be assigned only upon request of the student and agreement of the course instructor. Normally it is given only to a student who has been in attendance and has been doing passing work until the final two weeks of the quarter when extenuating circumstances beyond his or her control make it impossible to complete course requirements on schedule. (Extenuating circumstances do not include mere lateness in completing work, the desire of a student to do extra work to raise a poor grade, et cetera.)

To receive a K grade, a student must print a contract form and negotiate a formal agreement with the course instructor specifying the work done and the remaining work to complete the course and earn a grade. One copy is kept by the student and one by the faculty member.

Normally, the student completes the work agreed upon during the next quarter and a final grade is submitted by the instructor. After one year, however, if a final grade has not been submitted, the K automatically reverts to a failing grade (Z), and the student may establish credit only by registering again for the course. (Grades of K earned in thesis courses numbered 690 do not lapse to failure.) Once a final grade has been submitted, the student's record will show the K grade as well as the final grade. In no case will a final grade replacing a K affect the student's academic standing in the quarter in which the final grade is assigned.

Removing a K grade (and replacing it with a final grade) will not affect the student's faculty action (scholarship standing) for the quarter in which the K was assigned, nor will it affect the faculty action for the quarter in which the final grade is recorded if the grades and faculty action for that quarter have already been submitted. However, it will affect the cumulative grade point average as soon as the final grade is recorded.

A student who receives an incomplete in a required course the final quarter before graduating must complete the course within two weeks of the end of that quarter in order to graduate at that time. If the course is completed after two weeks, the prospective graduate is subject to resubmitting the degree application and registration in another course to satisfy the final-quarter-in-residence rule.

Grades and Academic Honesty

Grades are given for the student's work and achievement. Fair evaluation of students' work and helpful instruction are possible only when students submit work which genuinely reflects their own reading, computation, research and thoughts and is their own production, whether in writing or other format(s). Academic dishonesty can result in a failing grade and the placement of a note in the student's permanent record. For the University's policy on academic honesty, see Appendix D in the Appendices section of this catalog.

Grade Averages (GPA)

To determine a grade average, points are assigned to each grade earned under the A-F grading system (A = 4.00, B = 3.00, et cetera. See A-F Grading). The point value of each grade is multiplied by the number of credits assigned to the course. Total points are then divided by total credits attempted. Thus, a student who earns a five-credit A, five-credit B and a five-credit F has earned a quarterly average of 2.33 (35 points divided by 15 credits attempted).

A grade average of 2.00 (C) represents the minimum acceptable level of performance to remain in good standing at the University. Higher grade averages may be required for admission to or retention in certain major programs.

Only grades earned at Western are calculated in determining a student's quarterly or cumulative grade average.

Grades of S, U, P, NP, AUD, K, X, W, XM, YP, YN, YK and SW are not included in GPA calculation.

Grades Yielding Credit

Credit is granted for courses completed with grades of D- or higher on the A-F grading system and for grades of P and S. The grades of D+, D and D-, however, represent a level of work that is unacceptable in a student's major or minor, supporting courses for majors and minors, ENG 101, and the courses that satisfy a student's upper-division writing proficiency requirement. Professional education courses required for teacher education programs and courses required for state teaching endorsements must be completed with a grade of C (2.0) or better.

Repeating a Course

A few courses are approved to be repeated for credit. Such approval is included with the course descriptions in this catalog. If a course not designated as repeatable for credit is retaken, the following will apply:

- Credit will be awarded only once for a repeated course
- All grades earned for a given course will be considered in calculation of the student's cumulative grade average and all grades remain on the record; a failing grade assigned subsequent to earning a passing grade in a repeated course will nullify the credit earned initially with the passing grade
- Students wishing to repeat a class in which they already received a P, S, or C- or better grade may not register for the class until Phase III of registration. Students, in this circumstance, who register for a repeated course prior to Phase III may be required to drop the course by the academic department or Registrar's Office. The repeat registration for English composition prior to Phase III requires the written permission of the chair of the department.

UNIVERSITY ACADEMIC POLICIES

Please note that Western's registration system will not prevent a student from registering for a course in which the student has already received credit therefore students are responsible for ensuring they do not repeat courses unintentionally.

Also note that departments may require Graduate students to repeat a course in order to attain an acceptable level of competence. The rules above apply to any repeated course. Graduate students should review the Scholarship Standards under the Graduate School section of the catalog.

Final Grades

Final grades are assigned at the end of each quarter and are available to students on Web4U. An accurate representation of final grades, quarterly and cumulative grade point averages, credit completion totals and academic standing does not occur until 4-5 business days after final examination week.

Grade Changes

Once a grade has been filed with the Registrar, it is regarded as final. Except for the conversion of incomplete (K) marks, grade changes are accepted only under the following circumstances:

It is discovered that the grade resulted from clerical error in transcription or recording. Requests for change to correct these errors must be made in writing to the Registrar by the course instructor and only during the quarter immediately following original issuance of the grade.

The Registrar may be instructed to change a grade as the result of the academic grievance procedure.

The Registrar may be instructed to change a grade if it is determined that the grade resulted from academic dishonesty.

Fresh Start

A former Western undergraduate student who returns to the University after an absence of five years or more may be given permission to start a new cumulative grade average. To be eligible, the student must be returning to Western as an undergraduate and cannot have taken any Western courses (including extension, correspondence, and cyber) during the five-year absence. The absence begins from the last day of the quarter of previous enrollment.

The Fresh Start application deadline is the end of the first week of the quarter in which the student returns. ***The application should be submitted to the Registrar's Office.*** Students who have been dropped for low scholarship, even if absent for five years or more, must pursue reinstatement. See Reinstatement section below.

Undergraduates who might be considering applying for the master's degree at WWU should contact the Graduate School office for information about the implications of having been given an undergraduate Fresh Start.

Post-baccalaureate students and students in graduate programs are not eligible for Fresh Start. An undergraduate student can be granted only one Fresh Start.

Scholarship Standards

The following scholarship standards apply to each academic division of Western Washington University, except Fairhaven College. Students should note that transfer between academic divisions is restricted in cases of low scholarship.

Low- and high-scholarship standings are not changed as a result of the removal of incomplete (K) grades and late grades received in correspondence courses.

Good Academic Standing

A student is in good academic standing if he or she has a cumulative grade point average that is not below 2.00.

High Scholarship

Graduation Honors

Graduation ***cum laude or magna cum laude*** is possible from those colleges of Western Washington University which employ the A-F grading system: College of Business and Economics, College of Fine and Performing Arts, College of Humanities and Social Sciences, Huxley College of the Environment, College of Science and Engineering, and Woodring College of Education, and University Interdisciplinary Programs. Fairhaven College of Interdisciplinary Studies, which employs a different grading system, may develop alternate ways to honor outstanding graduates, subject to approval of the Academic Coordinating Commission.

The Graduate School does not confer graduation honors on graduate students although some graduate programs recognize meritorious graduate students.

To be eligible for ***cum laude or magna cum laude*** status upon graduation, the student must have earned at least 90 credits from Western Washington University, at least 65 of which must be for courses completed under the A-F grading system while in junior or senior standing. Only students who earn a first bachelor's degree are eligible for graduation honors.

Within each division which awards ***cum laude or magna cum laude*** status upon graduation, the determining factor in granting such distinction shall be based on the honors grade average. The honors grade average is computed using only the grades earned at Western Washington University after the quarter in which the student attains junior standing, but excluding grades in courses subsequently repeated and excluding all grades earned prior to approval of a "fresh start" grading average.

Magna cum laude shall be awarded to each student whose honors grade average places him or her at the 97th percentile or higher among graduating seniors from their college during the previous academic year. Cum laude shall be awarded to each student whose honors grade average places him or her from the 92nd through 96th percentiles among graduating seniors from their college during the previous academic year.

To receive honors recognition at Western's commencement exercises, it is necessary for a student to have qualified for honors by the end of the quarter prior to graduation.

Quarterly President's List

Each undergraduate student whose quarterly grade average places him or her at the 90th percentile or higher among students of the same class (freshman, sophomore, et cetera) shall be placed on the President's List. The term "honor roll" shall be affixed to the student's permanent academic record for that quarter. To be eligible for the quarterly President's List, a student must be enrolled officially in a division of Western Washington University which employs the A-F grading system and must complete at least 14 credits that quarter on the A-F grading system.

Low Scholarship

The University has set the standards described below to ensure that students who are earning low grades will examine their objectives carefully before continuing enrollment. In some cases, students will be dropped from the University. The standards are designed to ensure that a student will examine their objectives and seek assistance before grades deteriorate to the point that continued enrollment or admission to another college or university becomes impossible. In all cases involving low scholarship, students are encouraged to consult with the Academic Advising Center, their instructors, or major advisor.

UNIVERSITY ACADEMIC POLICIES

The low scholarship categories below apply to all divisions of Western Washington University except Fairhaven College. (See the Fairhaven College section for that division's scholarship standards.) Students dropped from one college division may not transfer to another college division without reinstatement by the Scholastic Standing Committee. These standards also apply to students enrolled in self-supporting courses.

Academic Warning

A warning is issued to a first-quarter freshman or a first-quarter transfer student (who has not previously attended Western) whose grade average is below 2.00 and to any continuing student whose quarterly grade average is below 2.00 but whose cumulative grade average is 2.00 or higher.

Academic Probation

Any student except a first-quarter freshman or first-quarter transfer student (who has not previously attended Western) whose cumulative grade average falls below a 2.00 is placed on academic probation. A student who begins the quarter on probation must earn at least a quarterly grade average of 2.00 to avoid academic dismissal (see below).

Continuing Probation

A student who begins a quarter on probation and, during that quarter, earns a grade average of 2.00 or higher without raising his or her cumulative grade average to at least 2.00 is placed on continuing probation. The student must then improve his or her cumulative grade average to at least 2.00 or attain at least a 2.30 quarterly average during the next quarter of enrollment.

Students on probation or continuing probation who repeatedly withdraw or register for Pass/No Pass or Satisfactory/Unsatisfactory courses may have their registration privileges suspended by the Registrar.

Academic dismissal

A student will be dropped from the University if he or she (a) begins a quarter on probation and earns a quarterly grade average below 2.00 and fails to raise his or her cumulative grade average to at least 2.00 or (b) begins a quarter on continuing probation and earns a quarterly grade average below 2.30 and fails to raise his or her cumulative grade average to at least a 2.00.

Under unusual circumstances involving consistent patterns of course withdrawal or course repeats, a student whose cumulative grade average is 2.00 or higher may be dismissed from the University. The provost may authorize dismissal in these unusual cases after reviewing records presented by the Registrar.

A student who has been dismissed for low scholarship should contact the Academic Advising Center in Old Main 380 for advising and the petition process. The student may enroll only in Summer Session, or independent and online courses through Western. Coursework through these programs does not guarantee future reinstatement as a degree candidate. See also the Reinstatement section below for more details.

Removal from probation occurs at the end of a quarter during which a student has improved his or her **cumulative** grade average to 2.00 or higher.

Reinstatement

Students who have been dismissed for low scholarship and want to return to Western should contact the Academic Advising Center in Old Main 380 and schedule an appointment to meet with an advisor. Students who succeed in gaining reinstatement have earned strong grades in coursework taken since dismissal, established strong study skills, overcome personal challenges that previously interfered with their studies and have clearly defined, realistic academic goals.

Students who have been dismissed for low scholarship can seek reinstatement (but not for the quarter immediately following the quarter of dismissal). For the petitioning process and additional information, go to <http://www.wvu.edu/advising/>. The Scholastic Standing Committee has the responsibility of determining reinstatement.

Academic Honesty Policy

Academic dishonesty is not tolerated at Western Washington University. A student commits an act of academic dishonesty when he or she participates in representing work of their own when in fact it is the work of another. A Western student charged with academic dishonesty may face significant repercussions such as failure of the assignment and course and possibly dismissal. All acts of academic dishonesty are on record in the Registrar's Office and the office of the Provost. Students do have the right to due process and may appeal a charge of academic dishonesty. For a full description of the academic honesty policy and procedures at Western, see Appendix D in the Appendices section of this catalog.

Academic Grievance Policy

The text and procedures of Western's Academic Grievance Policy are contained in Appendix F in the Appendices section of this catalog.

Satisfactory Academic Progress for Financial Aid

The text of Western's policy on Satisfactory Academic Progress for Financial Aid is contained in Appendix J in the Appendices section of this catalog.

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA), passed by Congress in 1974, protects the confidentiality of student records against disclosure to third parties and guarantees access to those records by the student. FERPA allows the university to release certain "directory information", which may include the student's name, local address and phone number, whether the student is enrolled, dates of attendance, degrees earned, and most recent previous institutions attended. However, Western Washington University is more restrictive, releasing to third parties only whether the student is currently enrolled, dates of attendance, and degrees awarded. For students who have requested a confidential block through the Registrar's Office, no information is disclosed, not even whether the student is enrolled.

When a student enrolls in a postsecondary institution, rights of access are transferred from the parents to the student. Thus parents who wish to have access to their students' educational information must present a written, signed and recently dated consent from their student for each request.

Western students have 24 hour computer access to their own educational record via Web4U and therefore students and parents are encouraged to dialogue about appropriate and respectful sharing of educational information within the context of their relationship and recognition of the adult standing of the student by the university.

Individuals whose work requires access, such as university faculty and staff and government officials who work to improve instruction, also are allowed by FERPA to view student records.

For more complete information about FERPA and Western's Student Records Policy, see Appendix E in the Appendices section of this catalog.

Student Records Policy

For the complete text of this policy, see Appendix E in the Appendices section of this catalog.

University Graduation Requirements

Student Responsibility for Completion of Requirements

Every effort is made by the University to notify students of degree requirements. However, it is the student's responsibility to become familiar with all requirements upon entry to the University.

WWU Graduation Requirements for Bachelor's Degrees

Effective Catalog

A student should expect to graduate according to the general requirements in the catalog current at the time of initial matriculation. However, if the student interrupts enrollment for more than two consecutive quarters (summer quarter not included), he or she shall meet the demands of the catalog in force at the time of readmission. Correspondence enrollment is defined as interrupted enrollment.

While the University reserves the right to change the regulations concerning admission and requirements for graduation, it shall be the policy of the University to give adequate notice prior to effecting any significant changes and to make reasonable adjustments in individual cases where there may be a hardship.

Declaring a Major

Students should expect to meet the specific requirements for majors and minors in the catalog current at the time they declare the major and minor to the appropriate department. Early declaration of a major is essential to graduating in a timely manner. Soon after their arrival at Western, students should contact a departmental advisor to discuss the course of study leading to a major. Students are expected to meet with the advisor of the department of their choice for individualized assessment or visit the Academic Advising or Career Services centers regarding choice of a major by the time they complete 60 credits or during the first quarter of enrollment if 60 or more credits are being transferred to Western. Students are expected to apply to the department in which they wish to declare a major no later than the quarter following the quarter in which they reach their 90th credit. Students who fail to declare a major by the time they reach 105 credits will not be permitted to register.

Students must submit a new major declaration if they interrupt enrollment for more than one year or are dropped for low scholarship.

Minors

Minors are available in most major disciplines but students are not required to complete a minor, unless a minor is required by the major. Requirements for each minor are listed in each department's section. To declare a minor, a student should contact the department. Although there is no limit on the number of minors a student may earn, it is not possible to minor in areas with more than a 50% overlap of credits applied to the minors. NOTE: Minors may only be earned by students who have completed a baccalaureate degree at Western Washington University.

Common Requirements

The following requirements are common to all undergraduate divisions of Western Washington University. For requirements unique to a given University division, see sections concerning the College of Business and Economics, Fairhaven College of Interdisciplinary Studies, the College of Fine and Performing Arts, the College of Humanities and Social Sciences, Huxley College of the Environment, the College of Science and Engineering, University Interdisciplinary Programs, and Woodring College of Education.

- **Minimum of 180 quarter credits.** Western Washington University's baccalaureate degrees require a minimum of 180 credits. Some fields require a larger number of credits, and students who major in these fields should anticipate that they may require more than four years to complete their programs. Students majoring in these fields are encouraged to seek advisement early in their academic careers. Also, programs that are highly sequential necessitate careful planning, the lack of which may result in extended work beyond the minimum required. Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements but additional credits will not be allowed to count toward the 180 credit requirement for graduation; no more than 15 credits taken in the Extended Education (EXT) subject area can be applied toward a degree at Western Washington University.
- **Minimum of 45 credits earned through Western Washington University courses.** Credit by examination and advanced placement credit are not included in this total.
- **At least 60 credits in upper-division study** (courses 300-level or above at the institution where the course was taken).
- **Complete a minimum of three upper-division writing proficiency points in approved upper-division writing proficiency courses at WWU** with a minimum grade of C-.
- **General University Requirements** - These general requirements must be satisfied by all students except those enrolled in Fairhaven College of Interdisciplinary Studies, where a separate core program is required.
- **Approved academic major**
 - At least 50 percent of the credits required in a student's major must be earned at Western Washington University
 - Students must declare a major before reaching 105 credits
- **Approved academic minor**
 - A minor is optional for students at Western Washington University unless required by an approved academic major
 - At least 50 percent of the credits required for a minor must be earned at Western Washington University
- **Professional education sequence, if required by the major**
- **A grade of C- or better in a student's major or minor**, supporting courses for majors and minors, ENG 101, and courses taken to fulfill the upper-division writing proficiency requirement.
- **A grade of C (2.0) or better is required for professional education courses** required for teacher education programs and courses required for state teaching endorsements.
- **Scholarship meeting minimums** prescribed by the University divisions and academic departments, including a cumulative WWU GPA of at least 2.00 (or higher, as required by individual departments).
- **Final quarter in residence.** Must be registered for at least one Western course in the quarter in which degree is to be awarded.
- **Submit an application for the degree** following published deadlines. The degree is not granted without formal application.

Curriculum Advising and Program Planning (CAPP) - Online Degree Evaluation

Curriculum, Advising, and Program Planning (CAPP) Degree Evaluation is an advising tool available to both students and advisors that evaluates course work against degree requirements. CAPP produces a report reflecting academic progress toward completion of an undergraduate or graduate degree in a student's declared or proposed major. The CAPP degree evaluation report shows how Western Washington University courses, transfer courses, and courses in progress apply toward degree requirements. You can initiate a degree evaluation, view results, and print evaluation reports via Web4U.

Visit the Online Degree Evaluation website for additional information.

UNIVERSITY GRADUATION REQUIREMENTS

Extension Program Time Limits

All graduation requirements for an extension program must be completed within five years of the initial quarter of registration. Students who have not completed their program after four years of study are required to file a plan for completion of the degree within the five-year limit. Otherwise it is understood that the student has decided to withdraw from the program.

Procedures for Applying for a Bachelor's Degree

Degrees are not automatically awarded when requirements are completed. It is the responsibility of the student to make application in the Registrar's Office. Students must apply for a baccalaureate degree no later than the last day of classes two quarters prior to the final quarter. Complete instructions and deadlines are available on the Registrar's Office Website.

Procedures for Applying for a Residency Teacher Certificate

Teaching certificates are not automatically issued at program completion. It is the responsibility of the student to apply for the Residency Teacher Certificate through the Woodring College of Education Certification Office by the due date approximately two quarters before the start of full-time student teaching internship. Upon verification that certification requirements have been met, recommendation is made to the state Office of Superintendent of Public Instruction for issuance of the Residency Teacher Certificate.

Complete application instructions and deadlines are available at <http://www.wce.wvu.edu/Resources/Certification/Res/> or Certification Office, Woodring College of Education Student Services, Miller Hall 150, and through applicable extension program offices.

Commencement

Formal commencement exercises for degree candidates are held each quarter on the Saturday following finals week. Commencement information and signup forms are available by the third week of the quarter on the Registrar's Office website. To be eligible for commencement, all candidates must apply for their degree by the appropriate deadline. University policy requires bachelor's degree candidates to be enrolled in their final quarter's requirements and master's candidates to have completed all requirements in order to participate in commencement.

Baccalaureate Degrees with Two Majors

Any undergraduate student at Western Washington University may attempt to earn a bachelor's degree with two majors. While there is no requirement that such a degree program include more than 180 credits, it may be impossible to complete within this minimum. The student's application for such a degree must indicate both majors and be approved by both departments or academic units involved. The majors involved must be distinct and may not be based on more than a 50% overlap of credits applied to both majors. A general studies or multidisciplinary studies major cannot be earned concurrently with or subsequent to another major.

After earning a bachelor's degree, a student may complete an additional major without earning a second bachelor's degree. The student must submit a major declaration card and an application for an additional major to the Registrar's Office.

Students with two majors that would result in the same type of degree (for example, a bachelor of arts in English and a bachelor of arts in business) will receive one degree and one diploma. Since the diploma indicates the college awarding the degree, students must choose the college they prefer. In this example, the student must choose between a bachelor of arts from the College of Humanities and Social Sciences or a bachelor of arts from the College of Business and Economics. Majors are not printed on the diploma but are listed on the transcript once the student graduates.

More than One Baccalaureate Degree

A student may earn from Western only one of each type of degree offered (BA, BS, BAE, BFA, BMus, BSN).

Two Baccalaureate Degrees Concurrently

Two distinct bachelor's degrees associated with different majors may be earned at Western simultaneously. The student must follow the admission and declaration process for each degree program and satisfy all requirements of each degree program. The majors involved may not be based on more than a 50% overlap of credits applied to both majors.

Second Baccalaureate Degree from WWU

A student who has already earned a baccalaureate degree from Western Washington University may apply for readmission to earn a different type of undergraduate degree associated with a different major. Such a student must:

- Submit a major declaration card
- Meet scholarship minimums prescribed by the University divisions and academic departments, including a cumulative WWU GPA of at least 2.00 (or higher, as required by individual departments)
- Earn at least 50% of the credits for the major at Western Washington University
- A grade of C- or better must be earned in all major courses.
- Earn at least 45 WWU academic credits beyond the number earned when the first degree was granted.** Credit by examination and advanced placement credit are not included in this total.
- Be registered for at least one Western course in the quarter in which the degree is to be awarded.
- Satisfy all requirements of the second degree program

***Exception: The BFA in art degree or the BFA in design degree may be awarded to a student who has earned fewer than 45 additional credits since completing a BA degree.*

Post-Baccalaureate Degree Requirements for Transfer Students

- **GUR**
Holders of a bachelor's degree from a United States institution accredited by the Regional Associations of Schools and Colleges will have fulfilled all General University Requirements. Holders of foreign degrees will have the degree evaluated for GUR on a course-by-course basis.
- **Major**
At least 50% of the credits earned for a major must be earned at Western Washington University. A grade of C- or better must be earned in all major courses. Note: A post-baccalaureate transfer student cannot earn a major at Western that is associated with any previously-earned degree.
- **Minor**
A minor is not required for the degree unless it is required by the major. At least 50% of the credits earned for a minor must be earned at Western Washington University. A grade of C- or better must be earned in all minor courses. Note: A post-baccalaureate transfer student cannot earn a minor at Western that is associated with any previously-earned degree. A minor cannot be posted to the official transcript unless a bachelor's degree is earned from Western Washington University.
- **Writing Proficiency**
Holders of a bachelor's degree from a United States institution accredited by the Regional Associations of Schools and Colleges will have fulfilled the writing proficiency requirement. Holders of foreign degrees must complete a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-.
- **GPA**
Scholarship meeting minimums prescribed by the University divisions and academic departments, including a cumulative WWU GPA of at least 2.00 (or higher, as required by individual departments).

UNIVERSITY GRADUATION REQUIREMENTS

- **Minimum of 45 credits earned through Western Washington University courses.** Credit by examination and advanced placement credit are not included in this total.
- **Final quarter in residence.** Must be registered for at least one Western course in the quarter in which degree is to be awarded.

Baccalaureate Degree After Graduate Studies at WWU

A student may not earn a baccalaureate degree from Western Washington University while enrolled in its Graduate School. A student may earn a baccalaureate degree after the completion of the master's degree program provided: 1) all requirements listed under "Post-Baccalaureate Degree Requirements for Transfer Students" are met and 2) that 45 credits are earned at Western subsequent to the previous bachelor's degree and exclusive of those credits that are a part of the master's program.

Baccalaureate Degree and Teacher Certification

The prospective teacher may earn the Bachelor of Arts in Education degree, completing one or more of the appropriate teaching majors offered within the various schools, colleges and departments of Western. Three majors delivered through the Woodring College of Education offer non-certification options for students who are preparing to work in community agencies rather than public schools. The student (usually with plans to teach at the secondary school level) who wishes to complete an appropriate Bachelor of Arts or Bachelor of Science degree program may also earn teaching credentials without earning the BAE degree. Some programs allow requirements for teacher certification to be completed at the same time the BA or BS degree is earned. Such students must be admitted officially to the professional education program of the Woodring College of Education and complete the required professional sequence.

Writing Requirements at Western Washington University

Western Washington University believes that development of writing proficiency should be pursued systematically throughout the course of study. To that end Western has established a program of writing courses and support services beginning in the freshman year and extending to upper-division writing proficiency courses offered throughout the University.

GUR Writing Requirement

- Block A of the GUR communications requirement: to be completed, with a grade of C- or better, prior to the accumulation of 45 credits; ENG 101, Writing and Critical Inquiry, (5), (waived for students demonstrating high English competency on CEEB Advanced Placement English exams).
- Block B or C of the GUR communications requirement: to be completed prior to accumulation of 135 credits; see the GUR section for details.

Upper-division Writing Proficiency Requirement

- Upper-division writing proficiency requirement: complete a minimum of three writing proficiency points in designated upper-division Writing Proficiency courses at WWU with a minimum grade of C-. Students must complete Block A of the Communication GUR requirement before enrolling in a Writing Proficiency course.

All Western Writing Proficiency courses should follow these University-wide guidelines:

- students have opportunities to write multiple drafts of assigned papers
- students receive suggestions for revision, and
- instructors assign course grades based on assigned writings according to the writing proficiency points table

UNIVERSITY GRADUATION REQUIREMENTS

Upper-division writing proficiency courses emphasize research and writing. In writing proficiency courses, students learn the writing style and conventions of their disciplines, as well as the techniques for integrating evidence into scholarly papers. Writing proficiency courses are listed in the online Timetable of Classes.

Students unable to enroll in designated WP courses may be able to satisfy the requirement, with faculty endorsement, by submitting an "Alternative Writing Proficiency Course Agreement" through the Writing Instruction Support Program.

Writing Proficiency Points Fulfilling the Upper-division Writing Proficiency Requirements (Minimum 3 points required)		
	Credits of course	% of Grade Based on Writing Assignments
WP1 (1 pt)	1 Credit	75%
	2 Credits	50%
	3 Credits	25%
	4 Credits	20% (18.75%)
	5 Credits	15%
WP2 (2 pts)	2 Credits	75%
	3 Credits	50%
	4 Credits	40% (37.5%)
	5 Credits	30%
WP3 (3 pts)	3 Credits	75%
	4 Credits	55%
	5 Credits	45%

General University Requirements (GURs) at Western Washington University

The General University Requirements (GURs) embody Western's belief that liberal education - education in breadth - is as important for informed and effective participation in contemporary life as specialized education. Western believes that liberal education enables people to lead fuller and more interesting lives, to perceive and to understand more of the world around and within themselves, and to participate more intelligently, sensitively and deliberately in shaping that world. This belief reflects a long tradition in American higher education. In this tradition, the bachelor's degree includes specialized study, the major, together with study over a range of human inquiry, expression and accomplishment. Broadly, the liberal education component of a bachelor's degree deals with issues of truth and falsity, with expressions of what is possible for humans to do and be, with things that bear on choices that we make about what in life we consider important. This broader study helps people gain perspective on who they are and what they do in the world.

The program is designed to develop academic competencies and perspectives that give students the ability to:

- Analyze and communicate ideas effectively in oral, written, and visual forms
- Analyze and interpret information from varied sources, including print and visual media
- Use quantitative and scientific reasoning to frame and solve problems
- Identify and analyze complex problems
- Apply tools of technology, with an understanding of their uses and limitations
- Explore, imagine and create
- Recognize the rights, responsibilities, and privileges of participating in, and contributing as a citizen in, a diverse society
- Understand and evaluate assumptions, values, and beliefs in context of diverse local, national and global communities
- Work collaboratively and manage projects to effective completion
- Reflect on one's own work and on the ethical dimensions of academic pursuits
- Understand and assess the impacts of interactions among the individual, society, and the environment

UNIVERSITY GRADUATION REQUIREMENTS

The General University Requirements apply to all students in the College of Humanities and Social Sciences, the College of Business and Economics, the College of Science and Engineering, the College of Fine and Performing Arts, Woodring College of Education, and Huxley College of the Environment. Students enrolled in Fairhaven College of Interdisciplinary Studies, see the Fairhaven College section of the University catalog for requirements.

Exceptions

- Students transferring to Western with a Washington community college Direct Transfer Agreement Associate Degree.
- Students transferring to Western from another Washington state public baccalaureate institution whose General University Requirements were completed at the sending institution, provided the sending institution so certifies.

Four-Course Maximum

A maximum of four courses from any one department may be applied to the combination of Humanities; Social Sciences; and Comparative Gender and Multicultural Studies sections of the General University Requirements. (*Art and Art History are considered to be one department, as are all foreign languages.*)

Grades in GUR Courses

Courses which are to apply to General University Requirements must be taken on an "A" through "F" grading scale, except for courses designated S/U grading. They may not be taken with pass/no pass grading. Except for ENG 101, which requires a C- or better, the minimum passing grade for a GUR course is D-.

Attributes

Please note the use of GUR attributes in the online Timetable of Classes. Courses which qualify as General University Requirements are designated by the appropriate attribute (ACOM, BCOM, CCOM, QSR, HUM, SSC, ACGM, BCGM, LSCI, or SCI).

List of General University Requirements

The detailed document containing the full General University Requirements for the 2014-15 academic year is available in the PDF format.

Transfer Credit to Satisfy GUR

Transfer students from Washington state community colleges may satisfy the GUR by taking courses listed on the transfer admission section of Western's website.

Approved associate degrees from community colleges in Washington State may fulfill all General University Requirements. Students at community colleges who wish to satisfy the General University Requirements by earning an associate degree should check carefully with advisors, as only certain approved degrees will apply.

To meet the GUR, an approved associate degree is normally earned prior to initial enrollment at Western (on or off campus) as a transfer student. If any student wishes to complete such a degree in order to have it satisfy the GUR at Western, it must be earned by the time the student has 1) completed 45 credits at WWU, or 2) one calendar year has passed from initial enrollment at WWU, whichever comes later. A student seeking an exception to the 45 credit limit or one calendar year timeline must petition the Registrar's Office for approval.

UNIVERSITY GRADUATION REQUIREMENTS

Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements, but additional credits will not be allowed to count toward the 180 credit requirement for graduation.

Completion of General University Requirements will be granted to transfer students from another Washington state public baccalaureate institution whose General University Requirements were completed and certified by the sending institution.

Students pursuing a second baccalaureate degree at Western after completing a bachelor's degree at another US regionally accredited institution will have fulfilled all General University Requirements.

NOTE: Certain programs may have admission standards which require the completion of the GUR prior to beginning study. Consult program advisors for details.

All degree-seeking students, on or off campus, must complete all other common requirements for baccalaureate degrees.

Scheduling of GUR Courses

The first year's schedule ordinarily should investigate potential majors, explore subjects in which a student has little or no experience, sample the main fields represented in the GUR (humanities, social sciences, natural sciences), and meet basic requirements in writing and mathematics. Students who are interested in a particular major should begin the basic work of that major. Concurrently, they should use the GUR and other courses to investigate areas of potential interest besides that major. Students who are unsure about what their major will be should explore fields in which they are, or may become, interested, by taking introductory courses in those fields. Some GUR courses will serve this purpose. It is perfectly permissible, in this exploration, to take non-GUR courses also.

This strategy may be pursued in the sophomore year. By the third quarter of the sophomore year (more or less), students who take this approach should be ready to proceed in one of several majors, and will have also laid the basis for a liberal arts and science education.

It is strongly recommended that students continue the GUR into their junior and senior years, taking courses from the GUR list in which they have become interested, and also taking non-GUR electives. By doing this, students benefit from the interplay of "liberal" and "specialized" components of their education throughout their time at Western. A few majors require completion of the GUR before entering the major.

The student should study carefully the requirements of his or her major and the course descriptions before planning courses to satisfy the General University Requirements, as some required courses in the major may also apply to General University Requirements. If questions arise, the student should confer with a degree evaluator in the Registrar's Office, OM 230.

GENERAL UNIVERSITY REQUIREMENTS (GURs) 2014-2015

The General University Requirements (GURs) embody Western's belief that liberal education—education in breadth—is as important for informed and effective participation in contemporary life as specialized education. Western believes that liberal education enables people to lead fuller and more interesting lives, to perceive and to understand more of the world around and within themselves, and to participate more intelligently, sensitively and deliberately in shaping that world. This belief reflects a long tradition in American higher education. In this tradition, the bachelor's degree includes specialized study, the major, together with study over a range of human inquiry, expression and accomplishment. Broadly, the liberal education component of a bachelor's degree deals with issues of truth and falsity, with expressions of what is possible for humans to do and be, with things that bear on choices that we make about what in life we consider important. This broader study helps people gain perspective on who they are and what they do in the world.

The General University Requirements apply to all students in the College of Humanities and Social Sciences, the College of Business and Economics, the College of Science and Engineering, the College of Fine and Performing Arts, Woodring College of Education, and Huxley College of the Environment. Students enrolled in Fairhaven College of Interdisciplinary Studies, see the Fairhaven College section of the university catalog for requirements.

EXCEPTIONS:

- 1) Students transferring to Western with a Washington community college DTA (Direct Transfer Agreement) Associate Degree.
- 2) Students transferring to Western from another Washington state public baccalaureate institution whose General University Requirements were complete at the sending institution, provided the sending institution so certifies.

FOUR-COURSE MAXIMUM

A maximum of four courses from any one department may be applied to the combination of Humanities, Social Sciences, and Comparative, Gender and Multicultural Studies sections of the General University Requirements. (*Art and Art History are considered one department as are all foreign languages.*)

GRADES IN GUR COURSES

Courses which are to apply to General University Requirements must be taken on an A through F grading scale, except for courses designated as S/U grading. They may not be taken with Pass/No Pass grading. Except for Eng 101, which requires a C- or better, the minimum passing grade for GUR courses is D- (Math courses must be passed with a grade of C- or higher if used as a prerequisite to another course).

ATTRIBUTES

Please note the use of GUR attributes in the online Timetable. Courses which qualify as General University Requirements are designated by the appropriate attribute (ACOM, BCOM, CCOM, QSR, HUM, SSC, ACGM, BCGM, LSCI, or SCI).

COMMUNICATION

The Communication requirement provides an opportunity to develop the literacies and skills needed to convey ideas effectively in a variety of contexts. This area includes courses in writing, speaking and information technology literacy, and aims to foster an ability to reason critically by analyzing situations and adapting messages to particular audiences in particular contexts. The ability to express ideas clearly, creatively, and correctly is fundamental to a quality undergraduate education, and essential for active participation in a democracy.

Complete Block A and one course from either Block B or Block C. Block A and Block C are writing courses.

Block A – (ACOM) ENGLISH (ENG) 101, Writing and Critical Inquiry (5). This course must be completed with a grade of C- or better. Requirement will be waived for students demonstrating high English competency on Advanced Placement (CEEB English score of 4).

Block B – (BCOM):

◆ COMMUNICATION STUDIES (COMM)

- 101–Fundamentals of Speech (4)
- 224–Small Group Processes (4)
- 235–Exposition and Argumentation (4)

◆ COMPUTER SCIENCE (CSCI)

- 102–Computer-Mediated Communications (3)

◆ EDUCATION (EDUC)

- 309–Storytelling: Oral Narrative in History, Culture, and Society (4)

◆ ENGLISH (ENG)

- 103–Elementary Spanish (5)
- 104–Review of Elementary Spanish (5)
- 201–Intermediate Spanish (5)

◆ NURSING (NURS)

- 301–Information Literacy to Support Academic Discourse (5)

◆ PHILOSOPHY (PHIL)

- 107–Logical Thinking (3)

Block C – (CCOM):

◆ ART HISTORY (A/HI)

- 275–Introduction to Writing and Critical Thinking (5)

◆ COMMUNICATION STUDIES (COMM)

- 322–Civil Discourse as Learning Interaction (4)

◆ DANCE (DNC)

- 231–Introduction to Dance in Western Cultures (3)

◆ ENGLISH (ENG)

- 201–Writing in Humanities (5)

◆ LIBERAL STUDIES (LBRL)

- 340–Sufism: The Islamic Mystical Tradition (4)

◆ LIBRARY (LIBR)

- 201–Introduction to Research Strategies (4)

◆ WOMEN STUDIES (WMNS)

- 212–Feminist Theory and Expression (4)

OR—Complete Block A and one of the following sets:

◆ HONORS (HNRS)

- 103, 104, 105 (4 ea) or
- 103, 104, 106 (4 ea)

QUANTITATIVE AND SYMBOLIC REASONING (QSR)

Quantitative and symbolic reasoning is the ability to distinguish situations in which numerical or symbolic information is relevant, and to decide how to analyze and present numerical or symbolic information to reach valid conclusions. Specifically, a symbolic reasoner has the ability to understand the logic and validity of an argument through analyzing the relationships between/among components, connections and contingencies. An accomplished quantitative and symbolic reasoner has a sense of the relative size of numbers, is able to read and present graphs and charts, can decide whether an argument involving data is valid, understands the language of variable and relations, and understands how to model situations in order to make decisions and predictions.

Initial enrollment in beginning mathematics courses is based upon the results of the Math Placement Tests (*tests that show a student is ready to begin the study of a subject*). These tests must be taken prior to registration. Refer to the Mathematics Department for more information on academic placement and advanced standing.

GENERAL UNIVERSITY REQUIREMENTS

All students must complete the QSR Requirement by accumulation of 90 credits.

Complete one of the following options:

Option 1:

MATH 107—Mathematical Reasoning and Its Applications (4) and one course from:

- ◆ **ANTHROPOLOGY (ANTH)**
335—Quantitative Methods in Anthropology (5)
- ◆ **COMPUTER SCIENCE (CSCI)**
103—Introduction to Computer Game Development (4)
172—Introduction to Robotics (4)
- ◆ **ENVIRONMENTAL STUDIES (ENVS)**
201—Understanding Environmental Data and Information (3)
- ◆ **FINANCE (FIN)**
216—Personal Investing (4)
- ◆ **MANAGEMENT (MGMT)**
201—Introduction to Business (4)
- ◆ **MATH (MATH)**
112—Functions and Algebraic Methods (5)
- ◆ **PHILOSOPHY (PHIL)**
102—Introduction to Logic (3)
- ◆ **SOCIOLOGY (SOC)**
304—Statistics for Sociology (5)

Option 2:

MATH 112—Functions and Algebraic Methods (5) and one course from:

- ◆ **ANTHROPOLOGY (ANTH)**
335—Quantitative Methods in Anthropology (5)
- ◆ **COMPUTER SCIENCE (CSCI)**
103—Introduction to Computer Game Development (4)
172—Introduction to Robotics (4)
- ◆ **ENVIRONMENTAL STUDIES (ENVS)**
201—Understanding Environmental Data and Information (3)
- ◆ **FINANCE (FIN)**
216—Personal Investing (4)
- ◆ **MANAGEMENT (MGMT)**
201—Introduction to Business (4)
- ◆ **MATH (MATH)**
107—Mathematical Reasoning and Its Applications (4)
- ◆ **PHILOSOPHY (PHIL)**
102—Introduction to Logic (3)
- ◆ **SOCIOLOGY (SOC)**
304—Statistics for Sociology (5)

Option 3:

One transfer course with an MPAR attribute and one course from:

- ◆ **ANTHROPOLOGY (ANTH)**
335—Quantitative Methods in Anthropology (5)
- ◆ **COMPUTER SCIENCE (CSCI)**
103—Introduction to Computer Game Development (4)
172—Introduction to Robotics (4)
- ◆ **ENVIRONMENTAL STUDIES (ENVS)**
201—Understanding Environmental Data and Information (3)
- ◆ **FINANCE (FIN)**
216—Personal Investing (4)
- ◆ **MANAGEMENT (MGMT)**
201—Introduction to Business (4)
- ◆ **MATH (MATH)**
112—Functions and Algebraic Methods (5)
- ◆ **PHILOSOPHY (PHIL)**
102—Introduction to Logic (3)
- ◆ **SOCIOLOGY (SOC)**
304—Statistics for Sociology (5)

Option 4:

One course from:

- ◆ **MATH (MATH)**
114—Precalculus I (5)
115—Precalculus II (5)
118—Accelerated Precalculus (5)
124—Calculus and Analytic Geometry I (5) (*Only one of Math 124 and Math 134 may be taken for credit*)
134—Calculus I Honors (5) (*Only one of Math 134 and Math 124 may be taken for credit*)
156—Algebra With Applications to Business and Economics (4)
157—Calculus With Applications to Business and Economics (4)
240—Introduction to Statistics (4)
- ◆ **COMPUTER SCIENCE (CSCI)**
138—Programming Fundamentals in Visual Basic (4)
139—Programming Fundamentals in Python (4)
140—Programming Fundamentals in C++ (4)
141—Computer Programming I (4)
145—Computer Programming and Linear Data Structures (4)

Option 5:

One transfer course with an MSAT attribute

Option 6:

BAE-Elementary Education students only:

- ◆ **MATH (MATH)**
381—Teaching K-8 Mathematics I (4) and
382—Teaching K-8 Mathematics II (4)

HUMANITIES (HUM)

The Humanities requirement provides an introduction to the subject matter, methods of inquiry and forms of expression of academic fields that treat language, literature, fine arts, history, philosophy and religion in the Western cultural tradition. The humanities study principal themes, issues and images concerning human beings and their place in the universe, as these have been shaped and expressed since ancient times, in thought, imagination and action.

Complete one of the following options:

Option 1: Complete 3 courses from at least two departments; 12 credits minimum

- ◆ **ART (ART)**
109—Visual Dialogue (3)
- ◆ **ART HISTORY (A/HI)**
220—Visual Culture in Ancient Greece and Rome (3)
221—Visual Culture in Medieval Europe (3)
230—Visual Culture in Western Europe 1400-1550 (3)
231—Visual Culture in Western Europe 1550-1700 (3)
240—Visual Culture in Western Europe in the 19th Century (3)
241—Visual Culture in Western Europe and America in the 20th Century (3)
- ◆ **CLASSICAL STUDIES (CLST)**
117—The Ancient Legacy (5)
260—Masterworks of Ancient Greek Literature (4)
270—Literature of Rome and Her Empire (4)
350—Greek Mythology (4)
- ◆ **COMMUNICATION STUDIES (COMM)**
230—Rhetorical Theory and Criticism (5)
- ◆ **DANCE (DNC)**
108—Introduction to the Fine Arts: the Classics (3)
230—Making Movement Art (3)
- ◆ **DESIGN (DSGN)**
111—Design View (3)
211—Foundations of Visual Communication (3)
- ◆ **ENGLISH (ENG)**
214—Introduction to Shakespeare (5)
215—Introduction to British Literature (5)
216—Introduction to American Literature (5)
238—Society Through Its Literature (5) (*May be taken only once for GUR credit*)
270—Introduction to Language and Society (5)
281—Introduction to Global Literatures: Ancient (5)
282—Introduction to Global Literatures: Medieval (5)
283—Introduction to Global Literatures: Modern (5)
332—Literature and Philosophy (5)
339—Mythology and Literature (5)
- ◆ **HISTORY (HIST)**
103—Introduction to American Civilization: American History to 1865 (5)
104—Introduction to American Civilization: American History Since 1865 (5)
111—Introduction to Western Civilization: Prehistory to 476 (5)
112—Introduction to Western Civilization: 476-1713 (5)
113—Introduction to Western Civilization: 1713 to Present (5)
121—World History to 500 (5)
123—World History, 1500 to the Present (5)
131—Going to College in America (5)
151—Communities of the Ancient World (5)
152—Being Human (5)
277—Canada: A Historical Survey (5)
314—The American and European Enlightenment (5)
- ◆ **HONORS (HNRS)**
103—Major Cultural Traditions I (4)
104—Major Cultural Traditions II (4)
201—Colloquium in Philosophy (4)
205—Colloquium in History (4)
- ◆ **JOURNALISM (JOUR)**
340—History of U.S. Journalism (4)
- ◆ **LIBERAL STUDIES (LBRL)**
110—Confession and Self-Promotion: Autobiography from Augustine to the Blogosphere (5)
121—The Western Tradition I: The Ancient World (5)
122—The Western Tradition II: Medieval and Early Modern Europe (5)
123—The Western Tradition III: The Modern World (5)
232—Myth and Folklore (4)
243—Art and Ideas (4)

GENERAL UNIVERSITY REQUIREMENTS

◆ LIBERAL STUDIES (LBRL) (*continued*)

- 321–Between Renaissance and Inquisition: Censorship and Religious Conflict in Spain's Golden Age (5)
- 323–The Romantic Paradox: Love, Life and Death (4)
- 325–Surveillance, Voyeurism and the Culture of Suspicion (4)
- 332–World Religions (5)
- 333–Religion in America (5)
- 336–New Testament and Early Christianity (5)

◆ MODERN AND CLASSICAL LANGUAGES

French (FREN)

- 202–Intermediate French (5)
- 203–Intermediate French (5)
- 301–Grammar Review (4)
- 302–Written Exposition (3)

German (GERM)

- 202–Intermediate German: Language, Communication & Culture (4)
- 203–Intermediate German: Language, Communication & Culture (4)
- 301–High Intermediate German: Contexts & Culture (4)
- 302–Advanced German: Contexts & Cultures I (4)

Latin (LAT)

- 202–Intermediate Latin (5)
- 203–Intermediate Latin (5)

Portuguese (PORT)

- 304–Portuguese for Spanish Speakers (5)

Russian (RUSS)

- 202–Intermediate Russian II (5)
- 203–Intermediate Russian III (5)
- 301–Third-Year Composition (3)
- 302–Third-Year Composition (3)

Spanish (SPAN)

- 202–Intermediate Spanish (5)
- 203–Intermediate Spanish (5)
- 301–Grammar Review and Composition (4)
- 302–Grammar Review and Composition (4)

◆ MUSIC (MUS)

- 104–The Art of Listening to Music (3)
- 105–Survey of Popular and Rock Music (3)

◆ NURSING (NURS)

- 305–Social Justice and Healthcare (5)

◆ PHILOSOPHY (PHIL)

- 112–Introduction to Philosophy: Moral Issues (3)
- 113–Introduction to Philosophy: Philosophy of Religion (3)
- 114–Introduction to Philosophy: Knowledge and Reality (3)
- 115–Environmental Ethics (3)
- 340–Philosophy of Science (3)
- 350–Political Philosophy (3) (*Only one of Philosophy 350 and Political Science 261 may be taken for GUR credit*)
- 355–Aesthetics and the Philosophy of Art (3)
- 360–Society, Law and Morality (3)

◆ POLITICAL SCIENCE (PLSC)

- 261–Introduction to Political Theory (5) (*Only one of Political Science 261 and Philosophy 350 may be taken for GUR credit*)

◆ RECREATION (RECR)

- 301–Work and Leisure Through the Ages (4)

◆ THEATRE ARTS (THTR)

- 101–Introduction to the Art of the Theatre (3)
- 201–Introduction to the Cinema (3)
- 202–Film Genre (3) (*May be taken only once for GUR credit*)
- 380–Theatre History I (4)
- 381–Theatre History II (4)
- 382–Theatre History III (4)

Option 2: Complete one of the following sets

- ◆ LIBERAL STUDIES (LBRL) 121, 122, 123 (5 ea)
- ◆ HISTORY (HIST) 111, 112, 113 (5 ea)

SOCIAL SCIENCES (SSC)

The Social Sciences requirement provides an introduction to the content, methods and applications of academic fields that treat psychological, social, political and economic behavior, development and variation of human culture, and uses of geographical space. Though differing in subject and approach, the social sciences insist in common on empirical investigation and seek to discover coherent patterns in human activity.

Complete 3 courses from at least two departments; 12 credits minimum

◆ ANTHROPOLOGY (ANTH)

- 102–Introduction to Human Origins (5)
- 201–Introduction to Cultural Anthropology (5) (*Only one of Anthropology 201 and Honors 203 may be taken for credit*)
- 210–Introduction to Archaeology (5)
- 247–Introduction to Linguistic Anthropology (5)

◆ CANADIAN-AMERICAN STUDIES (C/AM)

- 200–Introduction to Canadian Studies (5)

◆ COMMUNICATION SCIENCES AND DISORDERS (CSD)

- 210–Communication and the Mind (3)

◆ COMMUNICATION STUDIES (COMM)

- 240–Media Studies (5)

◆ ECONOMICS (ECON)

- 101–Markets and Society (4)
- 206–Introduction to Microeconomics (4)
- 207–Introduction to Macroeconomics (4)

◆ EDUCATION (EDUC)

- 109–Scholarship of Teaching and Learning (4)
- 115–Introduction to Contemporary Education Issues (4)

◆ ENVIRONMENTAL STUDIES (ENVS)

- 110–Ecogastronomy: The Art and Science of Food (2)
- 202–Introduction to Environmental Studies and Sustainability (3)
- 204–Human Geography (4)
- 240–Geography and World Affairs (2)
- 342–Geography of the World Economy (4)

◆ FAIRHAVEN (FAIR)

- 311B–The American Legal System (5). (*Only one of Fairhaven 311B, Management 271, Political Science 311 may be taken for GUR credit*)
- 312F–Globalizations since 1870 (5). (*Also taught as INTL 312*)

◆ FINANCE (FIN)

- 215–Personal Finance (4)

◆ HEALTH EDUCATION (HLED)

- 201–Perspectives of Human Lifestyle and Wellness (3)
- 210–Introduction to Public Health (4)

◆ HONORS (HNRS)

- 202–Colloquium in Economics (4)
- 203–Colloquium in Anthropology (4) (*Only one of Honors 203 and Anthropology 201 may be taken for credit*)
- 204–Colloquium in Psychology (4) (*Only one of Honors 204 and Psychology 101 may be taken for credit*)
- 206–Colloquium in Political Science (4) (*Only one of Honors 206 and Political Science 101 may be taken for credit*)
- 221 Interdisciplinary Colloquium in Science and Social Science (4)
- 252–Colloquium in Sociology (4)

◆ INTERNATIONAL STUDIES (INTL)

- 312–Globalizations Since 1870 (5). (*Also taught as FAIR 312F*)

◆ JOURNALISM (JOUR)

- 190–Introduction to Mass Media (5)

◆ LEADERSHIP STUDIES (LDST)

- 100–Leading Responsibly (2)
- 101–Introduction to Leadership Studies (5)

◆ LINGUISTICS (LING)

- 201–Introduction to Language and Linguistics (5)
- 204–Sociolinguistics (4)

◆ MANAGEMENT (MGMT)

- 271–Law and the Business Environment (4) (*Only one of Political Science 311, Fairhaven 311B and Management 271 may be taken for GUR credit*)

◆ NURSING (NURS)

- 412–Policy, Leadership and U.S. Healthcare (5)

◆ POLITICAL SCIENCE (PLSC)

- 101–Government and Politics in the Modern World (5) (*Only one of Political Science 101 and Honors 206 may be taken for credit*)
- 250–The American Political System (5)
- 271–Introduction to International Relations (5)
- 291–Introduction to Comparative Politics (5)
- 311–Introduction to Law and Judicial Process (5) (*Only one of Political Science 311, Fairhaven 311B and Management 271 may be taken for GUR credit*)
- 372–International Political Economy (5).

◆ PSYCHOLOGY (PSY)

- 101–Introduction to Psychology (5) (*Only one of Psychology 101 and Honors 204 may be taken for credit*)
- 116–Human Sexuality (5)
- 117–The Psychology of Identity (5)
- 341–Psychology and Culture (5)

◆ SOCIOLOGY (SOC)

- 221–Introduction to Population Issues (5)
- 234–Special Topics in Sociology (5) (*May be taken only once for GUR credit*)
- 251–Sociology of Deviant Behavior (5)
- 255–Social Organization of Criminal Justice (5)
- 260–The Family in Society (5)
- 342–Sociology of Religion (5)

GENERAL UNIVERSITY REQUIREMENTS

COMPARATIVE, GENDER, AND MULTICULTURAL STUDIES (ACGM & BCGM)

Acquaintance with the values and viewpoints of a variety of cultures and societal roles helps overcome provincialism, aids self-understanding and is an important element in an educated outlook on the contemporary world.

Complete 2 courses, one from Block A and one from Block B.

Block A—Primary emphasis outside North America and/or Europe.

Provides an introduction to civilizations of Asia, Africa, the Middle East and Latin America.

- ◆ **ANTHROPOLOGY (ANTH)**
 - 362—Peoples of Asia (5)
 - 365—Peoples of Latin America (5)
- ◆ **ART HISTORY (A/HI)**
 - 270—Visual Culture in South and Southeast Asia (3)
 - 271—Visual Culture in East Asia (3)
- ◆ **DANCE (DNC)**
 - 232—Movement and Culture (3)
- ◆ **EAST ASIAN STUDIES (EAST)**
 - 201—Introduction to East Asian Civilizations (5) *(Also taught as HIST 280)*
 - 202—East Asian History in the Early-Modern and Modern Eras (5) *(Also taught as HIST 281)*
 - 230—Modern Chinese Society and Language (3)
- ◆ **ENGLISH (ENG)**
 - 335—Literary and Creative Expressions Across Asia, Africa, the Middle East, and Latin America (5)
 - 336—Scriptural Literatures in Asia, Africa, the Middle East and Latin America (5)
- ◆ **ENVIRONMENTAL STUDIES (ENVS)**
 - 333—East Asia: Society and Environment (3)
 - 334—South Asia: Society and Environment (3)
 - 335—The Middle East: Society and Environment (3)
- ◆ **EURASIAN STUDIES (EUS)**
 - 210—Nomads of Eurasia (5)
- ◆ **FAIRHAVEN (FAIR)**
 - 210A—World Issues (4)
 - 334H—Human Rights in Africa (5)
 - 371B—Topics in Middle East Studies (3-6)
- ◆ **HISTORY (HIST)**
 - 273—Latin America: 1492-1824 (5)
 - 274—Latin America: 1824 to the Present (5)
 - 280—Introduction to East Asian Civilizations (5) *(Also taught as EAST 201)*
 - 281—East Asian History in the Early-Modern and Modern Eras (5) *(Also taught as EAST 202)*
 - 285—African History to 1800 (5)
 - 286—African History 1800—Present (5)
 - 287—Introduction to Islamic Civilization (5)
 - 359—America and Vietnam (5)
 - 387—History of the Jews (5)
- ◆ **HONORS (HNRS)**
 - 105—Major Cultural Traditions III (4)
- ◆ **INTERNATIONAL STUDIES (INTL)**
 - 201—Introduction to Global Studies (5)
- ◆ **LIBERAL STUDIES (LBRL)**
 - 231—Introduction to the Study of Religion (5)
 - 271—Humanities of India (5)
 - 273—Art and Society in China and Japan (4)
 - 275—Humanities of Japan (5)
 - 276—Humanities of Africa (5)
 - 277—Humanities of China (5)
 - 278—Humanities of Islamic Civilization (5)
 - 281—Representations of Otherness (4)
 - 283—Religion and Globalization (5)
 - 334—Hebrew Bible and the Religion of Ancient Israel (5)
 - 338—Mysticism (5)
 - 360—China and the Emerging World Economy: From Antiquity to the Early Modern (5)
 - 362—Islam and Muslims in the Indian Ocean World (4)
 - 372—Postcolonial Novels: Art, Rhetoric and Social Context (4)
 - 378—Religion and Society in India (4)
 - 380—Religion and Society in China (5)
 - 382—Religion and Society in Japan (5)
- ◆ **MODERN AND CLASSICAL LANGUAGES**
 - Arabic (ARAB)**
 - 202—Intermediate Arabic (5)
 - 203—Intermediate Arabic (5)
 - Chinese (CHIN)**
 - 202—Second-Year Chinese (5)
 - 203—Second-Year Chinese (5)
 - 301—Third-Year Chinese (4)
 - 302—Third-Year Chinese (4)
 - 303—Third-Year Chinese (4)
 - 304—Chinese Grammar and Composition (4)

◆ MODERN AND CLASSICAL LANGUAGES *(continued)*

Japanese (JAPN)

- 202—Second-Year Japanese (4)
- 203—Second-Year Japanese (4)
- 301—Third-Year Japanese (4)
- 302—Third-Year Japanese (4)
- 303—Third-Year Japanese (4)
- 305—Japanese Conversation (3)
- 401—Advanced Japanese (4)

Modern and Classical Language (LANG)

- 430—Asian Language Pedagogy and Practice (4)

◆ MUSIC (MUS)

- 205—Survey of Non-Western Musical Cultures (3)

◆ NURSING (NURS)

- 452—Global Health Inequities and Interventions (5)

◆ POLITICAL SCIENCE (PLSC)

- 346—Politics of Inequality (5)

◆ SOCIOLOGY (SOC)

- 334—Contemporary Chinese Society (5)
- 348—Global Health (5)
- 366—Colonialism, Slavery, and Links to Contemporary Racism (5)
- 390—Globalization and Families (5)

◆ WOMEN STUDIES (WMNS)

- 314—Global Women (4)

Block B—Primary emphasis inside North America and/or Europe.

Provides an introduction to multicultural experience and to gender studies.

◆ AMERICAN CULTURAL STUDIES (AMST)

- 202—The American Indian Experience (3)
- 203—The Hispano/a-American Experience (3)
- 204—The African-American Experience (3)
- 205—The Asian-American Experience (3)
- 206—The Jewish-American Experience (3)
- 242—The Lesbian, Gay, Bisexual, Transgendered Experience (3)
- 301—Comparative Cultural Studies (4)
- 362—Asian-American History (5)

◆ ANTHROPOLOGY (ANTH)

- 104—American Mosaic: The Cultures of the United States (4)
- 353—Sex and Gender in Culture (5)
- 361—Native Peoples of North America (5)

◆ COMMUNICATION STUDIES (COMM)

- 225—Communication, Diversity and Controversy (4)
- 260—Communication, Identity and Difference (5)

◆ ENGLISH (ENG)

- 227—Introduction to Gay, Lesbian, Bisexual and Transgender Literature (5)
- 234—Introduction to African-American Literature (5)
- 235—Introduction to American Indian Literatures (5)
- 236—Introduction to Asian-American Literatures (5)
- 239—Introduction to Latina/o Literatures (5)
- 334—Literary and Creative Expression Across North America and Europe (5)
- 338—Women and Literature in North America and Europe (5)

◆ EURASIAN STUDIES (EUS)

- 201—Russian Civilization (5)

◆ HISTORY (HIST)

- 158—Race and Identity in Modern America (4)
- 262—African American History to 1865 (5)
- 263—African Americans since 1865 (5)
- 265—Lesbian, Gay, Bisexual, and Transgender Experiences in U.S. History (5)
- 268—Introduction to Asian American History (5)
- 275—The Indian in American History (5)
- 278—Multiculturalism in Canada (5)
- 353—Latinas/os in the US West (5)

◆ HONORS (HNRS)

- 106—Major Cultural Traditions IV (4)
- 218—Colloquium in Women, Gender, and Sexuality Studies (4)

◆ JOURNALISM (JOUR)

- 375—Diversity, Mass Media and Social Change (4)

◆ NURSING (NURS)

- 432—Community-Based Care for Vulnerable Populations (5)

◆ PSYCHOLOGY (PSY)

- 119—Psychology of Gender (4)

◆ SOCIOLOGY (SOC)

- 268—Gender and Society (5)
- 269—Race and Ethnic Relations (5)
- 365—Gender, Bodies, and Sports (5)
- 368—Gender and Education (5)

◆ WOMEN STUDIES (WMNS)

- 211—Introduction to Women Studies (4)
- 320—Topics in Women, Gender, and Sexuality Studies (3-5)

GENERAL UNIVERSITY REQUIREMENTS

NATURAL SCIENCES (LSCI & SCI)

The Natural Sciences requirement provides an introduction to the content and methods of the physical and biological sciences. These fields investigate natural phenomena, ranging from the origin of the universe to development of life forms to the structure of the atom. Their methods include direct and indirect observation, experimentation, and construction of theoretical models of natural systems.

Complete 3 courses. At least two of the courses must be from the LSCI list; the third course may be from either the LSCI list or SCI list.

Note: Several of the courses in this list have prerequisites.

LSCI (courses with a laboratory component)

◆ANTHROPOLOGY (ANTH)

215–Introductory Biological Anthropology (5)

◆BIOLOGY (BIOL)

101–Introduction to Biology (4)

102–Biological Diversity: Evolution and Systems (4)

204–Introduction to Evolution, Ecology and Biodiversity (4)

205–Introduction to Cellular and Molecular Biology (5)

206–Introduction to Organismal Biology (5)

◆CHEMISTRY (CHEM)

101–Chemical Concepts (4)

121–General Chemistry I (5)

122–General Chemistry II (5)

123–General Chemistry III (4)

125–General Chemistry I, Honors (5)

126–General Chemistry II, Honors (5)

225–General Chemistry III, Honors (5)

251–Elementary Organic Chemistry (5)

◆COMMUNICATION SCIENCES AND DISORDERS (CSD)

253–Speech and Hearing Sciences for the Liberal Arts (4)

◆ENVIRONMENTAL STUDIES (ENVS)

203–Physical Geography (4)

◆GEOLOGY (GEOL)

101–Introduction to Geology (4) *(Only one of Geology 101 and Honors 212 may be taken for credit)*

211–Physical Geology (5)

212–Historical Geology (4)

252–The Earth and Its Weather (4)

◆HONORS (HNRS)

211–Colloquium in Physics (4) *(Only one of Honors 211 and Physics 101 may be taken for credit)*

212–Colloquium in Geology (4) *(Only one of Honors 212 and Geology 101 may be taken for credit)*

213–Colloquium in Biology (4)

◆PHYSICS (PHYS)

101–Physics Analysis (4) *(Only one of Physics 101 and Honors 211 may be taken for credit)*

104–Physics Applications (4)

115–Principles of Physics II (5)

116–Principles of Physics III (5)

161–Physics with Calculus I (5)

162–Physics with Calculus II (5)

163–Physics with Calculus III (5)

◆SCIENCE EDUCATION (SCED)

201–Matter and Energy in Physical Systems (4)

202–Matter and Energy in Earth Systems (4)

203–Matter and Energy in Life Systems (4)

204–Matter and Energy in Chemical Systems (4)

SCI (courses without a laboratory component)

◆ASTRONOMY (ASTR)

103–Introduction to Astronomy (4)

113–Sun, Moon, and Planets (3)

◆BIOLOGY (BIOL)

140–The Ecology and Economics of Salmon Recovery (4) *(Also taught as ECON 140)*

◆ECONOMICS (ECON)

Graduate School

Introduction

E-mail: gradschool@wwu.edu
www.wwu.edu/gradschool

Kathleen Kitto, Dean, Old Main 530, 360-650-3170

WWU is authorized by the State Legislature to award eight graduate degrees:

- Master of Arts (MA)
- Master of Fine Arts (MFA)
- Master of Science (MS)
- Master of Education (MEd)
- Master of Business Administration (MBA)
- Master of Music (MMus)
- Master of Professional Accounting (MPAcc)
- Master in Teaching (MIT)

The purpose of graduate study at WWU is to provide students quality graduate education with opportunities for research and professional development. Graduate programs are intended to prepare able students for (1) teaching, (2) entering professions, (3) career advancement and (4) further advanced study.

WWU's graduate programs are accredited by the Northwest Commission on Colleges and Universities. Graduate programs which result in educator certification are also accredited by the National Council for the Accreditation of Teacher Education (NCATE). The College of Business and Economics is accredited by the AACSB International Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels. The Department of Communication Sciences and Disorders is accredited by the American Speech-Language- Hearing Association's Council on Academic Accreditation in Audiology and Speech-Language Pathology (ASHA) and by the National Council for the Accreditation of Teacher Education (NCATE). The mental health and school counseling programs are accredited by Council for Accreditation of Counseling and Related Educational Programs (CACREP). The Rehabilitation Counseling program is accredited by the Council on Rehabilitation Education (CORE). The University is a member of the Council of Graduate Schools in the United States and adheres to the general policies and criteria established by this national association.

The graduate programs provide service to the state and its major divisions, to the business and commercial sector, and to a number of professions.

Several of WWU's graduate programs offer courses or program elements at locations outside Bellingham, within the Puget Sound region and online. Refer to the University's online Summer Session Bulletin (<http://www.wwu.edu/ee/summersession/>) for programs offering summer graduate courses.

Persons who plan to enter graduate study at WWU should read this section of the General Catalog closely before applying for admission to graduate study or enrolling in any course intended to count toward a master's degree or advanced certificate of study. Students working toward a residency, continuing, or professional teaching certificate should contact the Certification Office in the Woodring College of Education. Students should consult with the appropriate graduate program advisor and the Graduate School for additional admissions or program-related questions.

Admission

Admission is granted by the Graduate School of Western Washington University with the concurrence of the department or program unit in which the student will pursue graduate study. The Graduate School informs applicants of the admissions decision. Online application submission and credit card payment is available from

GRADUATE SCHOOL

the Graduate School Website. An alternate format application may be requested if program approval is granted for a late application or an application fee waiver is approved. A nonrefundable application fee of \$100 (subject to change) is charged for each application submitted, whether initial application, or request to defer, change to another quarter of admission, or transfer into another WWU graduate program. Admission to the Graduate School is limited to a single graduate program unless two disciplines have an approved joint offering (see University Graduation Requirements section of this catalog for further discussion). A non-refundable confirmation deposit will be required to secure admission and enrollment eligibility. Graduate School admission deadline dates are as follows, although many programs have earlier specific deadline dates and do not admit for all quarters.

Initial application with all supporting materials (see below) must be received by the Graduate School by June 1 for fall, October 1 for winter, February 1 for spring and May 1 for summer unless program-specific deadlines exist (see specific program information).

NOTE: The requirements and procedures listed below demand lead time. Applicants are urged to submit all necessary materials as early as possible before the beginning of the term for which admission is requested or by the earlier, program specific deadline dates. Timeliness of complete application materials may impact graduate assistantships and other sources of funding. Faculty review of application materials is unlikely during periods that the University is not in session.

General Requirements

Full Admission to Master's Degree Study

- A four-year baccalaureate degree from a U.S. college or university that was regionally accredited at the time the degree was conferred, or an equivalent baccalaureate degree from a foreign university; the degree must be appropriate to the master's study intended. One recent, official transcript from each college or university attended (no exceptions) must accompany the application in a sealed envelope prepared by the Registrar of each institution. WWU students do not need to submit a WWU transcript or transcripts previously submitted to WWU (unless there is a later period of attendance).
- A 3.0 undergraduate grade point average (on a 4.0 scale) in the last 90-quarter or 60-semester hours of study. In order for post-baccalaureate credit to be included in the GPA computation, the coursework must be upper division. Post-baccalaureate coursework at community colleges will not be included in the GPA used for admission. Applicants with advanced degrees from accredited institutions are generally, at the discretion of the Graduate School, considered to have met GPA requirements.
- Three current letters of reference from professors in the applicant's undergraduate major field, or from professors of post-baccalaureate courses, or from others able to make an appropriate assessment of the applicant's academic or professional competence (forms available from the Graduate School website). The MBA and MPAcc programs require a résumé in lieu of references. The Educational Administration program requires a professional recommendation.
- Graduate Record Exam (GRE) or other test scores; applicants with advanced degrees from regionally accredited institutions applying to certain programs do not need to submit scores. MPAcc applicants must provide the Graduate Management Admissions Test (GMAT); MBA applicants may take either the GMAT or the GRE. Some programs accept the Miller Analogies Test (MAT). See program admission requirements for specific test information and requirements. Scores must be received in the Graduate School office by the program specific deadline date; if no program-specific deadline date, then by the Graduate School deadline date.
- All applicants must demonstrate English language proficiency. At least minimum TOEFL or IELTS test scores (see International Applications section) must be submitted unless English is the native language or the degree is from a regionally accredited U.S. institution, or from Great Britain, Australia, New Zealand or English-speaking provinces of Canada.
- Favorable review and recommendation of applications by the graduate faculty in the program to which application is made.
- **Special Requirements.** Certain programs have additional requirements or procedures; see the program descriptions. If a program requires a statement of purpose and/or writing sample(s), these must accompany the application. See specific program information for clarification.

Materials submitted in support of an application will not be returned, forwarded, or copied at the request of the applicant; materials are used only for the WWU Graduate School admissions and Teaching Assistant selection process. Incomplete or inactive applications are kept on file in the Graduate School for three years, then destroyed. If during this three-year period an applicant reapplies, official documents (test scores, transcripts, current letters of recommendation) may be used for a new admission application.

The MAT is offered Monday through Friday by appointment through the Western Washington University Testing Center, 360-650-3080.

Contact Educational Testing Service in Princeton, N.J. at 866-473-4373 or www.gre.org for further information about the GRE testing program. For information about the GMAT, visit www.mba.com/mba.

Current GRE board policy states that scores are reportable for five years. The Graduate School accepts only official test scores from admissions tests sent directly from the testing organization. Students should refer to the specific test website for information on the availability of official test scores.

Provisional Admission

Students who do not meet all the requirements for full admission may be granted provisional admission. The faculty of the applicant's intended graduate program must submit a statement of support for provisional admission to the graduate dean. If provisional admission is authorized by the Graduate School, the provisions are stated in the letter offering the student special admission to graduate study. No K (incomplete) grades are allowed until provisional status is removed. A provisionally admitted student is not eligible for a teaching assistantship or Graduate School-funded scholarships until the provisional status is removed.

Licenses/Certification

Students in some master's programs also apply for licensing or certification through professional organizations or state agencies. The certificate or license is separate from the master's degree. It is the applicant's responsibility to inquire about licensing or certification requirements prior to enrolling.

International Applicants

All applicants must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL or IELTS, taken within one year of the date of application. Minimum TOEFL score of 567 for the paper-based test; 227 for the computer-based test; 86 for the Internet-based test. IELTS minimum score is 7.0. Official test scores must be on file in the Graduate School prior to receipt of the application.

International students must submit official translations to English of all transcripts and diplomas from all post-secondary institutions attended. Documents must be issued within two years at the time of application. All international transcripts must be submitted to World Education Service (WES) for authentication and course-by-course evaluation. To be considered official, transcripts must be in sealed envelopes prepared by the university or college; attested/certified copies prepared by the institution may be accepted if originals cannot be provided by the institution.

EXCEPTION: Applicants attending institutions in China must request official transcripts from the Ministry-authorized verification offices listed below; transcripts directly from an institution cannot be considered official.

China Academic Degrees and Graduate Education Development Center (CDGDC)
Website: <http://cq.v.chinadegrees.cn/>

China Higher Education Student Information & Career Center (CHESICC)
Website: <http://chsi.com.cn>

GRADUATE SCHOOL

International students must file a satisfactory statement of financial responsibility with the Graduate School. Current expenses are approximately \$34,000 for one academic year of study. An application for an international student cannot be processed unless accompanied by appropriate financial guarantee documentation. International students are not eligible for federal or state governmental financial aid.

International students are encouraged to complete the admission process as soon as possible to obtain a visa and make travel arrangements.

Funding and Support

Graduate Assistantships

Graduate assistantships are available in limited number in most graduate programs and are competitively awarded. Assistantships are not available in self-sustaining (non state-supported) programs. Only students with full admission, not provisional status, may be awarded the TA. To continue as a graduate assistant, the graduate student must meet or exceed all academic criteria pertaining to satisfactory progress toward the degree, and meet or exceed all departmental requirements and criteria for satisfactory service as a graduate teaching assistant. Graduate students are limited to no more than the equivalent of six full-time quarters of service as graduate teaching assistants. Program advisors may recommend students for additional quarters of service, which requires approval of the Graduate Dean. Graduate assistants must meet the Graduate School definition of full-time enrollment.

Duties vary according to the department and program, the needs of the program faculty and the student's graduate plan of study. A full-time assistantship does not allow for additional salary or employment from the University. Graduate teaching assistantship applicants whose native language is not English must demonstrate English language proficiency required for classroom or laboratory instruction. Applicants to graduate programs check the TA box on the on-line application or submit the on-line graduate assistantship request for consideration (go to Graduate School website).

Financial Aid

Graduate students also are eligible for several types of financial aid; information can be obtained from the University's Financial Aid Office, www.finaid.wvu.edu/.

Program Requirements

Graduate programs at WWU generally require a minimum of 45 credits with thesis and 48 credits without thesis. The minimum basic program requirement generally contains at least 24 credits of approved 500- and 600-level courses other than the thesis (690); and no fewer than 5 credits and no more than 36 credits of thesis (690). For a non-thesis program, the minimum basic program requirement must contain at least 38 credits of approved 500- and 600-level courses. A maximum of 10 credits of approved 400-level courses can be applied to either thesis or non-thesis programs. All 400-level courses must meet the same standards as regular 500-level courses with regard to grading, time frame, et cetera.

For students who have taken a significant number of graduate level accounting, mathematics or computer science courses as undergraduates at WWU, and who as undergraduates were identified for admission to the Graduate School, the graduate programs in accounting, mathematics and computer science require only 36 500- and 600-level credits. Guidelines for this option are available from the departments.

It is recommended that no more than 10 credits of directed independent study be applied toward the degree, although some programs are more restrictive. A graduate student registering for a 500 or 400 independent study course used for the degree develops a contract (online form) with the instructor, which is then reviewed and approved by the graduate program advisor, department chair and the Graduate School. Independent study credit normally will not be given when the student is paid for engaging in the work described on the contract (e.g., internship, work-study projects, graduate assistantships).

Many programs require more than 45 or 48 credits to meet degree requirements. Also, certain undergraduate deficiencies may add additional credits to an individual student's course of study. (See *Plan of Study* section that follows.) These deficiencies may affect financial aid awards.

Additional Requirements

Program descriptions in this catalog provide information about special requirements: statistics competency, second language competency, sequence of particular courses, et cetera. Most graduate programs provide information about such special requirements; the student should request this information from the program advisor.

Students whose research involves human subjects or live vertebrate animals must obtain approval prior to conducting research and comply with University policies regarding these types of research. Please refer to www.wvu.edu/depts/rsp.

Graduate students in departments with a foreign language requirement may satisfy the requirement by (a) successfully completing the final course in a second-year language sequence, (b) passing a reading competency exam in the language, or (c) completing another department-approved course or course sequence. Each department sets its own minimum standard to indicate the required level of competency. Graduate students are encouraged to complete the foreign language requirement early in their program.

Time Limits

All requirements for the degree must be completed within five years of the initial quarter of matriculation. Active graduate students within this five-year time period maintain access to library and computer resources. Students who have not completed their program after three years of study are required to file a plan for completion of the degree within the five-year limit. Otherwise it is understood that the student has decided to withdraw from the program, and the graduate file is inactivated. Student computer accounts which allow access to computer labs, e-mail, library privileges, and other student technology services are purged at the end of this five-year period. Incomplete or inactive applications are kept on file in the Graduate Office for three years, then destroyed. Files of students who are admitted and register for coursework but do not complete their programs are kept for five years after the five-year program requirement. Files of students who complete programs are archived for 35 years.

Academic Load

The maximum credit load for a graduate student is determined in consultation with the student's graduate program advisor, within the policies set by the Registrar.

The Graduate School defines full-time enrollment as 8 or more credits per quarter. Graduate students who have successfully completed all coursework on the approved Plan of Study, except for thesis (690) or research (691) work, maintain eligibility for the teaching assistantship if enrolled for a minimum of two credit hours of continuous enrollment, thesis, or research. See the Financial Aid section for implications of being enrolled for 2 credits if the student requires financial aid.

Transfer, Correspondence, and Workshop Courses

Coursework taken prior to formal admission to a WWU master's degree program, whether at Western or another accredited institution, can be considered for transfer credit if the criteria listed below are met. Credit taken at another accredited institution, concurrent with graduate status in a WWU master's degree program, can also be considered for transfer credit if the criteria listed below are met. (Such coursework should be approved in advance of registration to prevent any misunderstanding or false expectations.) The criteria are: a limit of twelve quarter (eight semester) credits; graded with a B, 3.0, or better; taken no more than three years prior to a student's quarter of admission; be acceptable to the granting institution for its master's degree; and meet the requirements and conditions of approved courses offered by WWU. The request for

GRADUATE SCHOOL

transfer credit, including a copy of the course syllabus, is submitted by the graduate program advisor and student for approval by the Graduate School. At the recommendation of the graduate program advisor and the approval of the Graduate School, some course requirements may be waived, depending on a student's previous academic experience. However, the total number of credits required for the degree must still be met.

No credit is given for correspondence courses. No credit is allowed by challenge examination or performance.

Courses offered as workshops or in a shortened time frame, even under regular course numbers, do not qualify for graduate credit toward a degree, unless the department obtains prior permission for each specific instance from Graduate Council. To ensure that prior approval has been granted, students should obtain written permission from the Graduate School prior to enrolling.

Thesis and Comprehensive Examinations

Master's degree programs are thesis or non-thesis (additional coursework and, in most programs, a comprehensive exam). See specific program descriptions for information. Minimally, the thesis committee has three members. The chair and a second member must be regular graduate faculty members from the student's department or program. Guidelines for the thesis are available online at the Graduate School Website. Joint manuscripts are not permitted. Only an individually authored manuscript will meet the thesis requirements. Departments that require the thesis customarily provide additional guidance.

Refer to the Graduate School website for current information on Graduate School requirements pertaining to thesis publication.

Prior to registration for thesis, departments and the Graduate School require that a student be advanced to candidacy and have an approved thesis topic on file in the Graduate Office. Students whose research involves human subjects or live vertebrate animals must comply with University policies regarding these types of research. Please refer to www.wvu.edu/depts/rsp. Registering for thesis credits beyond the maximum allowed for the degree may affect a student's eligibility for certain kinds of financial aid.

Comprehensive exams or assessments vary among programs. Students should consult their respective programs for information.

The comprehensive exam should be scheduled for the final quarter of the student's enrollment. It may be deferred upon request by the student and agreement by the graduate advisor until all coursework has been completed. Comprehensive exams, if failed, may be repeated, but only if the graduate faculty of the particular program approves the student's request to repeat the exam.

Plan of Study

During the first quarter of graduate study at WWU, the student and graduate program advisor together develop a "Plan of Study" in accordance with the requirements described in the catalog's program narrative. This plan is signed by both the student and program advisor and submitted to the Graduate School for approval. Copies of the approved plan are sent to the student and advisor and the financial aid office. Plans of study may be amended as necessary, upon the request of the student and program advisor and final approval by the Graduate School. Failure to have an approved plan of study on file may result in loss of registration privileges.

Scholarship Standards

A maximum of 10 credits of C grades (C+, C, C-) is allowed towards completion of a graduate program (courses listed on the approved plan of study). Courses in which a D+ or lower is earned may not be applied towards completion of a graduate program. The accumulation of more than 10 credits of C+ or lower (including U and Z) grades will result in the student being withdrawn from the master's program. There are certain courses that must be passed with a grade of B or better; course descriptions note such requirements. All grades of C+ or lower count toward the 10-credit maximum, even if the course is retaken and a grade of B or better, or S, is earned. A graduate student may be required by the department to repeat a course to

document attainment of a certain level of competence or knowledge. Pass/No Pass grades are not applicable toward a graduate degree. S grades are applicable, but not computed in the GPA. An incomplete (K) grade may be assigned in accordance with the regulations outlined in the Academic Policies section of this catalog. If, after a calendar year, the course requirements have not been met, the K grade lapses to a Z. These Z grades are computed as failing grades in a student's grade point average and may affect retention in the master's program. Exceptions to the K grade rule are K grades which are received for thesis and certain research courses. In these cases, the K grades are allowed to stand until the thesis or research is completed, whereupon the grade is changed to the earned grade.

To remain a candidate for the degree, a student must maintain at least a 3.0 GPA in courses listed on the plan of study. The GPA is calculated on letter grades earned (on record) at the time grades are posted, i.e., K grades are not considered. A student also must be making satisfactory progress in the graduate program to which he or she has been admitted.

Degree Candidacy

Advancement to degree candidacy is formal recognition that the student has completed all admission requirements and has demonstrated satisfactory performance in at least 12 credits of graduate study as listed on an approved plan of study. Advancement to candidacy is a prerequisite to earning the master's degree and should be accomplished as early as the student is eligible. Advancement is granted by the student's program upon completion of minimum requirements as stated above. A student must be advanced to candidacy before submitting the application for degree. Confer with your advisor if you have questions about your status or eligibility for advancement to candidacy.

Awarding of the Master's Degree

The master's degree is earned at the end of the quarter in which the student has completed all degree requirements and has filed the application for degree. Recommendation for the degree is made to the Graduate Council by the student's program advisor and thesis committee (if in a thesis program). Application for the degree must be made by the last day of classes of the quarter prior to the quarter the student intends to graduate. A student must also be enrolled for at least two state-supported credits at WWU during the quarter in which the degree is awarded or during the preceding (calendar) quarter. Auditing a course for this purpose is not permitted. A commencement ceremony is held at the end of each quarter. Students participate in the commencement ceremony for the quarter in which degree requirements are met, including filing the application for degree and paying the diploma fee by the stated deadline.

Teacher Certification

The Woodring College of Education, not the Graduate School, administers the certification of P-12 teachers. Students interested in certification at the P-12 or secondary level, contact the Secondary Education Department, MH 173 360-650-3327. Students interested in Special Education P-12 certification, contact the Special Education Department, MH 161, 360-650-3330. Other certification questions can be directed to the Teacher Certification, Student Services, MH 250, 360-650-4930 or www.wce.wvu.edu/resources/certification/.

Undergraduate and Post-Baccalaureate Enrollment in 500/600 Level Courses

Undergraduates at WWU who are in their senior year and have at least a 3.0 grade point average can take a single graduate course during any quarter, but under certain provisions. There must not be an appropriate undergraduate course in their field that is equally available; permission must be obtained in advance from the department chair and graduate program advisor of the department offering the graduate course; and the Graduate School must approve the enrollment. A senior who later enters a master's program at WWU may transfer up to twelve credits of coursework into the master's program. The credit must not have been used for the baccalaureate degree and must meet all criteria for transfer credit. To register, contact the Graduate

GRADUATE SCHOOL

School for a registration system override. Post-baccalaureate students may enroll for 500- level courses. All prerequisites must be met and permission obtained from the department.

Neither undergraduate nor post-baccalaureate students may enroll in 600-level courses.

The Graduate Council

The Graduate Council, comprised of representatives from graduate faculty, colleges with graduate programs, and graduate students, is assigned responsibility within the University for graduate policy and procedures. The Council reviews all graduate course proposals and graduate program requirements and conducts periodic reviews of graduate programs. The Council also hears and decides on requests for exceptions from standing policies and procedures that regulate graduate study.

Faculty/Student-Designed Programs

MA, MS, MEd

At times students and faculty develop programs that are more interdisciplinary than the master's programs described in this catalog. In each instance this requires a complete Graduate School application and a proposed plan of study that has been approved by the graduate faculty and departments the student intends to work with and by the University's Graduate Council. At least two or more graduate disciplines must be involved.

Programs of this type are restricted by several factors: current offerings which can provide a basis for the individual program; availability of appropriate faculty; the applicant's academic preparation and ability; and the internal logic, or relationship of the elements of the proposed program. Each case is considered on its merits.

For candidates who are currently enrolled as graduate students no more than 15 credits of course work (completed by the end of the quarter the petition is approved) can apply toward the designated program.

Detailed information can be obtained by contacting the Graduate School. Ask for *Fact Sheet: Faculty/Student-Designed Programs*. Procedures for applying are contained in the Fact Sheet.

College of Business and Economics

Introduction

*Dr. Craig P. Dunn, Interim Dean
Dr. Sandra Mottner, Associate Dean*

Mission Statement of the College

The College of Business and Economics provides high-quality programs in business and economics, focusing primarily on undergraduate instruction. The College serves the needs of students from throughout the region by offering programs that provide a global perspective, a knowledge of information technology and the ability to apply economic and business principles. The College also offers graduate programs in business administration and professional accounting and provides instruction to students from other colleges within the University. As a supporting part of this educational mission, the faculty of the College engages in applied, integrative, and pedagogical scholarship and provides services to their profession, the community and the University. The College seeks continuous improvement in the quality of its pedagogy, scholarship and service to its constituents.

Objective of the College

The College of Business and Economics prepares men and women for positions of leadership and stewardship in the management and administration of complex organizations - from small companies to large multinational enterprises. Students develop managerial skills, analytic economic skills and interpersonal sensitivities, as well as quantitative and accounting skills. All students earning a degree in one of the programs of the college will develop significant understanding of management information systems and computing.

The curriculum is primarily upper-division based upon a broad liberal arts education. Individual skills are developed sufficiently to achieve entry-level employment in many fields, but the College seeks to motivate and orient the student toward a lifelong learning experience. The College seeks to instill sensitivity to environmental aspects of business enterprise, promotes a commitment to ethical behavior, and provide a strong emphasis on forward-looking, goal setting behavior in the business world while encouraging an active role in community leadership.

The College of Business and Economics is accredited by the AACSB International-The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Academic Programs Leading to Undergraduate and Graduate Degrees

Accounting	BA
Business Administration	BA
Business and Sustainability	BA
Economics	BA
Manufacturing Management	BS
Master of Business Administration	MBA
Master of Professional Accounting	MPAcc

Requirements for the master's degrees offered in CBE are listed in the Graduate School section of the catalog.

Major/Minors

Minor

In addition to the majors provided by the five departments, a minor makes an excellent addition to a specialized program in other areas of the University. This gives relevant, realistic and applicable qualities to

COLLEGE OF BUSINESS AND ECONOMICS

those valuable skills developed in other more abstract and theoretic departments. The combination of a minor with a major in speech, English, journalism, foreign languages or with other liberal arts majors provides an additional strength and resource to the individual's skills and educational development. See departments for details on minors.

Minor Declaration Process

The application process originates with the College office when the student submits an online application from via the College of Business and Economics website, <http://cbe.wvu.edu/cbe/students/application.shtml>. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Combined Majors

Interdepartmental majors are given in economics/accounting, economics/environmental studies, economics/mathematics, economics/political science, economics/social studies, financial economics, politics/philosophy/economics and business administration/sustainability. See departments for details.

College Admission and Advisement

Admissions and Major Declaration

Admission to programs in the College of Business and Economics is selective and based upon prior academic performance. All students intending to earn a degree in accounting or any area of business (except economics) must complete the foundation courses comprised of ACCT 240, 245; ECON 206, 207; MATH 157; MIS 220; DSCI 205; MGMT 271, or their approved equivalent, with a grade of C- or better. All foundation classes except MIS 220 must be taken as graded credit and cannot be taken Pass/ No Pass. Students must successfully complete the foundation courses and meet the admission criteria below before they are admitted to the College and declared a business or accounting major. Students interested in majoring in economics must consult the economics section of this catalog.

For admission to the College of Business and Economics as a full major (except majors in economics and manufacturing and supply chain management) a student must meet the following requirements:

- Minimum GPA of 2.75 in the foundation courses **or**
- Minimum of 2.50 cumulative GPA after having completed all foundation courses. The cumulative GPA is calculated on all college-level course work completed by the student, including any transfer work.
- Students must be in good academic standing with the University.

Students who meet the requirements will be assured of admission if space is available in the department program of choice. For economics and manufacturing and supply chain management admissions requirements, see the appropriate sections of this catalog.

Students who have not completed their foundation course work may apply to the College and be given pre-major status. Pre-major status is granted to students who are at least sophomore level, or who have been identified as top quintile students, and who are, at the time of application, making satisfactory progress in their course work.

Students with pre-major status may only enroll for foundation or core courses listed. Their progress will be monitored by the College and they will attain full major status upon successfully completing the foundation courses and meeting the admission criteria above. If after completing the foundation courses they do not meet the criteria for full major admission, they will be dropped from the College. They may reapply should they repair the deficiency.

Provisional full major admit status in the College is provided to students completing their last foundation course(s) and would be eligible to enroll for major restricted courses as a full major in the following quarter upon successful completion of their current course work. Students may be in provisional status only one

quarter. Failure to advance to full major status will result in cancellation of major restricted courses registration and removal from major status.

For students to be considered for pre-major, full major or provisional status the College office needs to have an application on file. See Admissions Process below.

Following admission to the College, a student is assigned an advisor and is required to consult with that advisor.

Admission Process

Students must confirm admission to Western Washington University before submitting an application to the College of Business and Economics. The application process originates with the College office when the student submits an on-line application form via the College of Business and Economics website, cbe.wvu.edu/cbe/students/application.shtml. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Students interested in either an economics major from the Department of Economics, or a BS degree in manufacturing management from the Department of Decision Sciences will submit an on-line application. Once an application is submitted, the student will be contacted by the department to schedule an interview.

Inquiries should be directed to College of Business and Economics, Western Washington University, 516 High Street, Bellingham, WA 98225-9072, or phone 360-650-3896.

Department Chairs

Other College Information

World Wide Website

Information concerning admission and application to the College of Business and Economics is available on the World Wide Web at www.cbe.wvu.edu.

Retention

All majors in the College of Business and Economics (CBE) must maintain good academic standing with the University. A student with a Western Washington University cumulative GPA average below 2.0 will be dismissed from the College and not permitted to take additional courses in the College of Business and Economics until the deficiency is repaired. Students with two successive quarters of a CBE GPA cumulative average below a 2.3 will be subject to dismissal from the College of Business and Economics.

COLLEGE OF BUSINESS AND ECONOMICS

Requirements for Bachelor's Degree

Besides the general requirement for graduation from the University, explained elsewhere in this catalog, CBE has the following specific requirements:

- **At least 50 percent of the business credit hours required for the business degree must be taken at Western Washington University**
- Electives may be selected as needed to ensure the required 180 quarter hours total credit is met, however majors in accounting and business administration must complete a minimum of 90 credits in areas other than accounting and business administration. All CBE courses are considered in the areas of accounting and business administration except DSCI 205, MATH 157, and all economics courses.
- **Communication.** All students must consult their advisor regarding writing proficiency and communications requirements; all CBE majors are required to take one Communication Focus (CF) course and complete the upper-division Writing Proficiency (WP - 3 points) requirement, both within CBE, prior to graduation

Students are reminded that up to 32 hours of upper-division credit are elective. This provides significant opportunity to include courses in the arts, sciences and humanities. Early discussion with a CBE faculty advisor is strongly encouraged. Students desiring to take two concentrations, two majors, or two degrees must talk with an advisor in CBE for information related to the requirements and restrictions.

Petitioning Procedure. Any student who seeks either a variation from the strict application of the rules, regulations or requirements of the College, or a student-designed major from among the departments of the College, may petition the dean.

Special Programs

Center for Economic and Financial Education. The Center for Economic and Financial Education, coordinated by the economics department, is involved in providing economic knowledge, data and teaching aids to the grade schools and high schools throughout the state. Affiliated with the Washington State Council on Economic Education, this center assists in raising the standards of economic literacy of the state.

Center for Economic and Business Research. This center undertakes research activities related to developing a better understanding of the economic and business climate of the Pacific Northwest. The center is developing and maintaining an economic database for the area, has developed a regional model that will assist in forecasting certain economic variables for the region, and responds to specific research requests from local public and private entities.

Center for Innovation in Education. This center, through faculty, student and industry partner involvement, is committed to enhancing and serving as an incubator for new methods of teaching and learning in fields of business, economics, and related disciplines in the College of Business and Economics.

Center for International Business. The Center for International Business provides opportunities for faculty and students to deepen their understanding of international business management techniques and issues through a variety of activities including lectures and seminars, research projects, course curricula development and field studies.

Center for Operations Research and Management Science. The Center provides a platform for research-oriented outreach activities including the following: publishing a working paper series, conducting international symposiums and seminar series, creating new research opportunities for senior undergraduate and graduate students to get involved in faculty-guided applied research projects.

Departments, Courses and Programs

Courses listed in this General Catalog constitute a record of the total academic program of the University. For an exact scheduling of courses at Western, students should consult the annual online *Timetable of Classes*, and the *Extended Education Programs Bulletin* on the Web.

The College of Business and Economics also offers the Business Administration Minor administered by the departments of Decision Sciences, Finance & Marketing, and Management.

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application from via the College of Business and Economics website, <http://cbe.wwu.edu/cbe/students/application.shtml>. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- FIN 341 - Principles of Finance
- MATH 156 - Algebra With Applications to Business and Economics
- MKTG 380 - Principles of Marketing
- MGMT 271 - Law and the Business Environment
- MGMT 311 - Introduction to Management and Organizational Behavior
- MIS 220 - Introduction to Business Computer Systems

Accounting

www.cbe.wvu.edu/acct

Introduction

Accounting is an important tool used by managers of economic organizations to plan, control and report financial activity. A thorough knowledge of accounting is, therefore, necessary to understand the operation and financial condition of any business, nonprofit organization or governmental agency.

The Department of Accounting offers a broad program of accounting courses that, coupled with required and elective courses in economics and business administration, provides the graduate with a sound educational foundation for an accounting career or post-graduate studies.

The accounting graduate can expect to find employment in a number of areas including private business, public accounting, not-for-profit organizations or governmental units. An accountant in private business or governmental service will typically work in such areas as cost analysis, taxation, auditing, accounting systems or cash management. Careers in public accounting typically involve work in taxation, auditing or management advisory services.

The accounting curriculum also provides a theoretical foundation for students who plan to take examinations to become a Certified Public Accountant (CPA) or a Certified Management Accountant (CMA). Students are urged to consider the variety and breadth of career opportunities available to the accounting graduate when they select their accounting elective courses.

For those students planning to take the CPA exam, the state of Washington requires additional education. Please see the website at www.cbe.wvu.edu/acct for details.

Faculty

GEORGE D. SANDERS (1995) Chair and Professor. BS, Louisiana State University; MBA, University of New Orleans; PhD, The University of Alabama; CPA (inactive), state of Louisiana.

BURAK DOLAR (2012) Assistant Professor. BA, Istanbul University; MBA, Troy University; PhD, University of Mississippi.

DAVID L. GILBERTSON (1998) Associate Professor. BS, University of Southern California; MBA, University of Montana; PhD, University of Utah; CPA, state of Montana; CMA.

MARGUERITE R. HUTTON (1989) Professor. BBA, MPA, University of Texas at Arlington; PhD, University of Houston; CPA, states of Texas and Washington.

STEPHEN V. SENGE (1985-2000; 2007) Professor. BA, California Western University; MPA, Denver University; MA, DBA, Kent State University; CMA.

KHIM L. SIM (2008) Associate Professor. BS, Southeast Missouri State University; MA, Virginia Polytechnic Institute and State University; PhD, Drexel University.

WILLIAM R. SINGLETON (1976) Professor. BBA, Memphis State University; MBA, University of Portland; PhD, University of Hawaii; CPA, state of Washington.

STEVEN H. SMITH (2001-2008; 2012) Assistant Professor. BBA, Iowa State University; MS, Oklahoma State University; PhD, Arizona State University; CPA states of Iowa and Washington.

AUDREY G. TAYLOR (2002) Professor. BA, Smith College; MBA, University of Tennessee; MIE, PhD, Wayne State University; CPA, state of Michigan.

DANIEL M. WARNER (1978) Professor. BA, JD, University of Washington; MA, Western Washington University.

Departmental Mission

The Department of Accounting provides high-quality, balanced accounting education to majors and other undergraduate and graduate students. Quality teaching is our most important function. We engage students in

the development of communication, conceptual and technical skills. To exemplify an enthusiasm for professional activity, faculty maintain their own intellectual curiosity and community awareness. Faculty are active scholars and contribute positively to students' experience, and to the department, college, university, profession and community service.

Our objectives support the combined mission of teaching, scholarship and service.

Teaching

- Integrate a broad range of accounting skills with an appreciation of ethical, cultural and environmental issues as they relate to accounting and business law.
- Promote oral and written communication, computer, research and group skills.
- Prepare students to become productive accounting and business professionals.
- Review and modify the curriculum to meet changing societal needs.

Scholarship

- Produce, apply and disseminate knowledge in accountancy and business law and in the pedagogy of these disciplines. Faculty are encouraged to pursue scholarly projects that suit their professional talents and interests consistent with the mission of the College of Business and Economics.

Service

- Serve the professional and broader communities.

Declaration Process

See the College of Business and Economics introductory section of this catalog for declaration of pre-major and major requirements and procedure.

Other Departmental Information

Communication Requirements

All accounting majors are required to take one communication focus (CF) course and complete the upper-division writing proficiency (WP-3 points) requirement. The CF and WP courses must be taken within CBE and can be completed as part of the required and elective courses. Consult the online Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Bachelor of Arts

Accounting, BA

Department of Accounting, College of Business and Economics

96-98 credits

Introduction

Accounting is an important tool used by managers of organizations to plan, control and report financial activity. A thorough knowledge of Accounting is necessary to understand the operation and financial condition

ACCOUNTING

of any business, non-profit organization or governmental agency. In addition, the Accounting curriculum provides a foundation for students who plan to take examinations to become a Certified Public Accountant (CPA) or Certified Management Accountant (CMA).

The college's expectation is that students will meet the following Learning Goals and Objectives through this degree program:

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an Accounting Major?

The Accounting major offers a broad program of accounting courses, which coupled with required and elective courses in Economics and Business Administration, provides the graduate with a sound foundation for an accounting career or post-graduate studies. The Accounting graduate can expect to find employment in a number of areas including private business, public accounting, not-for-profit organizations or governmental units. Typical work may include areas such as cost analysis, taxation, auditing, accounting systems, taxation or cash management.

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits and earned a GPA of 2.5 overall or 2.75 in the foundation courses they

have completed, will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and meet one of the following GPA requirements: **Either:** 1) a minimum GPA of 2.75 in the eight Foundation Courses listed below, including grades from transfer courses and Advanced Placement credit **or** 2) a cumulative GPA of at least 2.50 in all college-level course work including transfer work.
- Completion of all foundation courses with a C- or better.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: <http://cbe.wwu.edu/dsci/mis-testout.shtml>; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Foundation Courses

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- MATH 157 - Calculus With Applications to Business and Economics
- MGMT 271 - Law and the Business Environment
- MIS 220 - Introduction to Business Computer Systems (or equivalent)

Accounting Core Courses

- ACCT 341 - Intermediate Accounting Theory and Practice I
- ACCT 321 - Accounting Information Systems I
- ACCT 342 - Intermediate Accounting Theory and Practice II
- ACCT 375 - Income Taxation I
- ACCT 343 - Intermediate Accounting Theory and Practice III
- ACCT 331 - Cost Management
- ACCT 461 - Auditing Theory and Practice
- ACCT 470 - Law of Commercial Transactions

Business Core Courses

- FIN 341 - Principles of Finance

ACCOUNTING

- MGMT 311 - Introduction to Management and Organizational Behavior
- MGMT 382 - Business and Its Environment
- MKTG 380 - Principles of Marketing
- OPS 360 - Operations Management

Advanced Business Core Courses

- One course from:
 - MGMT 492 - Entrepreneurial Problems
 - MGMT 495 - Strategic Management
- 12 upper-division accounting credits under advisement
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Accreditation

The College of Business and Economics is accredited by the AACSB International-The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Goals

The MPAcc program is a 48-credit graduate degree to be completed in three quarters. It is designed to:

- Provide opportunities for students to improve their expertise in a field that is rapidly becoming more complex.
- Provide students with an opportunity to acquire the knowledge and skills required in Washington for professional licensing as CPAs.
- Help meet the demand in Washington for well-trained professional accountants.

Admission and Prerequisites

- A bachelor's degree with an accounting emphasis from an AACSB-accredited business school is required for admission to the program.
- A minimum 3.0 GPA (on a 4.0 scale) in the last 90-quarter or 60-semester hours of study.
- A minimum 3.2 GPA (on a 4.0 scale) in upper-division accounting courses.
- Applicants must demonstrate an ability to communicate effectively and to reason analytically, logically, and creatively.
- Students must achieve an acceptable score on the Graduate Management Admissions Test (GMAT). Applicants who are not native English speakers must submit an acceptable TOEFL or IELTS score.

Application Information

- Official application form to the Graduate School
- Official transcripts (1 from each institution attended, unless applicant is a WWU Student).
- GMAT scores and, if applicable, TOEFL or IELTS scores.
- Personal statement, including background and intention.
- Résumé showing work experience.
- Review of application begins on February 15 and continues until spaces are filled.

To apply for admission, send the application and supporting documents to the Graduate School. Further information is provided in the Graduate School section of this catalog.

Program Requirements (48 credits)

Core Curriculum

- MPAC 565 - Special Topics in Accounting
- At least 4 credits of MPAC 595 - Accounting Colloquium
- At least 20 credits from the following courses, *under advisement:
*(Course availability may vary from year to year)
- MPAC 521 - Seminar in Accounting Information Systems
- MPAC 531 - Accounting Communications
- MPAC 535 - Seminar in Management Accounting
- MPAC 541 - Seminar in Advanced Financial Accounting
- MPAC 543 - Financial Accounting Research & Communication
- MPAC 545 - Seminar in Accounting Theory
- MPAC 547 - Seminar in Government and Not-For-Profit Accounting
- MPAC 551 - Seminar in International Accounting

ACCOUNTING

- MPAC 561 - Seminar in Professional Auditing
 - MPAC 566 - Seminar in Fraud Examination & Forensic Accounting
 - MPAC 571 - Seminar in Law for Accountants
 - MPAC 575 - Seminar in Taxation
 - MPAC 577 - Tax Research, Planning, and Policy
 - MPAC 581 - Ethics and Accountability
 - MPAC 585 - Sustainability Accounting and Reporting
 - Up to 4 credits of MPAC 590 - Internship in Professional Accounting
- At least 20 additional credits of MPAC, MBA, or other courses, chosen under advisement

Integrated 3+2 BA/MPAcc Option

This option makes it possible for exceptional undergraduate accounting majors to enter the MPAcc program at the beginning of their senior year, and complete both a B.A. in Accounting and a Master of Professional Accounting in at most 5 years of study. Students interested in this program are encouraged to consult with their advisor early in their junior year.

Eligibility & Admission

Applications are due during the first week of spring quarter, and admission decisions will be made shortly thereafter. To be eligible the student must have, at the time of application:

- Completed at least 110 undergraduate credits with an overall GPA of 3.0 or better.
- Completed at least 16 upper-division accounting credits, including ACCT 342, with a GPA of at least 3.2.
- Demonstrated an ability to communicate effectively, and to reason analytically, logically, and creatively.
- Recommendations from at least two WWU accounting faculty.

This program is highly selective; eligibility does not guarantee admission.

Requirements for the 3+2 Option:

Candidates are conditionally admitted to the MPAcc at the time of acceptance into the integrated 3+2 program. At the end of the fourth year, conversion to full graduate status is granted by the Graduate School upon the recommendation of the MPAcc committee, provided that the candidate has:

- Been awarded the undergraduate degree.
- Maintained an acceptable GPA in all courses taken.
- Obtained an acceptable score on the GMAT.
- Met all the Graduate School application requirements.

All of the requirements for the MPAcc (listed above) must be fulfilled, except that only 36 graduate credits are required beyond the baccalaureate degree.

Additional Information

Information on the MPAcc program is available in the College of Business and Economics, Accounting section of this catalog.

Minor

Accounting Minor

Department of Accounting, College of Business and Economics

24 credits**Introduction**

The Department of Accounting's minor is open by special permission to students whose majors would be complemented by an accounting minor and who have completed prerequisites for the courses comprising the minor.

Why Consider an Accounting Minor?

While accounting may not be your main field of study, the principles of accounting are useful in many career paths. Accounting is widely considered the language of business, and your understanding of key concepts will equip you in the business world.

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application form via the College of Business and Economics website, cbe.wwu.edu/cbe/students/application.shtml. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- ACCT 331 - Cost Management
- One course from:
 - ACCT 341 - Intermediate Accounting Theory and Practice I
 - ACCT 375 - Income Taxation I
- 8 additional credits in accounting under advisement

Accounting Courses**ACCT 240 - Financial Accounting**

An introduction to the theory and practice of accounting and financial reporting. Topics include the accounting cycle, financial statements and

accounting for assets, liabilities, equities, revenues and expenses.

ACCOUNTING

Credits: 4
Grade Mode: Letter

ACCT 245 - Managerial Accounting

An introduction to the use of accounting information by managers. Topics include the use of accounting information for planning and control, performance evaluation, decision-making, and the statement of cash flows, along with financial statement analysis.

Prerequisites & Notes: ACCT 240
Credits: 4
Grade Mode: Letter

ACCT 321 - Accounting Information Systems I

An introduction to the subject of information system's role in accomplishing the objectives of financial accounting, managerial accounting, tax accounting and auditing. Systems covered include manual accounting, computerized accounting, and Internet electronic commerce applications. Additional topics include internal controls, systems analysis, systems design and systems implementation.

Prerequisites & Notes: Majors only. ACCT 245, MIS 220 or equivalent skills
Credits: 4
Grade Mode: Letter

ACCT 331 - Cost Management

Procedures used for classifying, recording, summarizing and allocating current, and estimated costs for planning, controlling and reporting purposes.

Prerequisites & Notes: Majors only. ACCT 245, DSCI 205, MIS 220 or equivalent skills.
Credits: 4
Grade Mode: Letter

ACCT 341 - Intermediate Accounting Theory and Practice I

An in-depth study of accounting theory and practice for students who require more than introductory coverage. Both conceptual and application topics are studied.

Prerequisites & Notes: Majors Only. ACCT 245
Credits: 4
Grade Mode: Letter

ACCT 342 - Intermediate Accounting Theory and Practice II

A continuation of ACCT 341 covering complex topics in accounting and financial reporting.

Prerequisites & Notes: Majors Only. ACCT 341

Credits: 4
Grade Mode: Letter

ACCT 343 - Intermediate Accounting Theory and Practice III

A continuation of ACCT 342 covering complex topics in accounting and financial reporting. Special topics, existing and emerging issues in accounting.

Prerequisites & Notes: Majors Only. ACCT 342
Credits: 4
Grade Mode: Letter

ACCT 375 - Income Taxation I

Taxation of individuals and sole proprietorships. Introduction to tax planning and sources of authority of tax law.

Prerequisites & Notes: Majors Only. ACCT 240
Credits: 4
Grade Mode: Letter

ACCT 421 - Accounting Information Systems II

Principles and techniques of database technology as applied to modern accounting information systems, uses of database technology for transaction processing and analysis. Systems documentation techniques and the auditing of computerized accounting systems. Format will be lecture, discussion, computer presentations and computer lab assignments.

Prerequisites & Notes: Majors Only. ACCT 321
Credits: 4
Grade Mode: Letter

ACCT 431 - Topics in Management Accounting

Focuses on responsibility accounting, performance measurement and evaluation, and budgeting and control in various types of organizations. Additional topics may include quantitative methods in decision making and other current issues in management accounting.

Prerequisites & Notes: Majors Only. ACCT 331
Credits: 4
Grade Mode: Letter

ACCT 435 - Seminar in Cost Management

Provides an in-depth study of cost management systems. Topics include activity-based management, Japanese cost management techniques, and strategic cost management.

Prerequisites & Notes: Majors Only. ACCT 331
Credits: 4
Grade Mode: Letter

ACCT 441 - Advanced Accounting Theory and Practice

An introduction to business combinations and fund accounting. Partnerships, SEC reporting, interim reports and other topics.

Prerequisites & Notes: Majors Only. ACCT 343
Credits: 4
Grade Mode: Letter

ACCT 443 - Financial Accounting Research & Communication

A detailed analysis of Financial Accounting Standards via the FASB Accounting Standards Codification (and proposed changes) for measuring, recording, and reporting business transactions that underlie the preparation of an enterprise's financial statements and disclosures. Emphasis will be on written and oral assignments that develop communication skills for the accounting profession.

Prerequisites & Notes: Majors only. ACCT 343.
Credits: 4
Grade Mode: Letter

ACCT 444 - Financial Statement Presentation and Analysis

Study of reporting issues from a management perspective. Introduction to the tools and techniques of financial statement analysis. Use of financial statements by external and internal decision makers. Emphasis on the development of communication and computer skills.

Prerequisites & Notes: Majors only. ACCT 343.
Credits: 4
Grade Mode: Letter

ACCT 447 - Accounting in Not-For-Profit Organizations

An examination of accounting and financial reporting in governmental and not-for-profit entities and an introduction to the use of accounting information in the management of these organizations.

Prerequisites & Notes: Majors Only. ACCT 343 or concurrent.
Credits: 4
Grade Mode: Letter

ACCT 451 - International Accounting

Analysis of accounting for multinationals; area studies of accounting and financial reporting standards; and an evaluation of the international accounting harmonization effort.

Prerequisites & Notes: Majors Only. ACCT 343

Credits: 4
Grade Mode: Letter

ACCT 461 - Auditing Theory and Practice

A study of the role of auditing and auditors in corporate financial reporting, and the importance of this role to the public. Topics covered include the audit planning process, audit reports, professional standards, and the legal and ethical responsibilities of auditors to their clients, the accounting profession and to the public.

Prerequisites & Notes: Majors Only. ACCT 321, ACCT 343
Credits: 4
Grade Mode: Letter

ACCT 462 - Advanced Auditing

In-depth exposure to a variety of aspects of the theory and practice of professional auditing. Topics may include auditing theory and research, economic function of audits, professional standards and malpractice, new auditing techniques and services. Cases, readings, individual research, and discussion.

Prerequisites & Notes: Majors Only. ACCT 461
Credits: 4
Grade Mode: Letter

ACCT 466 - Seminar in Fraud Examination & Forensic Accounting

This course examines many different aspects of fraud: what it is and the types of people more likely to commit it, how to recognize the symptoms of fraud, and how to investigate it. As such, the course will focus on topics such as internal control, financial reporting fraud, fraud detection and deterrence.

Prerequisites & Notes: Majors only. ACCT 321 and ACCT 343.
Credits: 4
Grade Mode: Letter

ACCT 470 - Law of Commercial Transactions

Legal principles underlying the law of contracts, sales, secured transactions, real property security, bankruptcy and suretyship.

Prerequisites & Notes: Majors Only. MGMT 271
Credits: 4
Grade Mode: Letter

ACCT 475 - Income Taxation II

Taxation of corporations and partnerships. Advanced topics in tax planning and compliance.

Prerequisites & Notes: Majors Only. ACCT 375

ACCOUNTING

Credits: 4
Grade Mode: Letter

ACCT 477 - Tax Research and Planning
An in-depth look at tax research and tax planning. Students will gain proficiency in tax research and apply this skill to a variety of federal taxation issues and case studies.

Prerequisites & Notes: Majors Only. ACCT 375
Credits: 4
Grade Mode: Letter

**ACCT 484 - Environmental Accounting/
Sustainability Reporting**
An in-depth analysis of accounting for the natural environment. Readings, discussion and case analyses cover current issues, such as financial reporting and disclosure, management decision making and evaluation techniques, taxation and the profession's role in environmental issues.

Prerequisites & Notes: Majors Only. ACCT 331, ACCT 343, ACCT 375 or concurrent.
Credits: 4
Grade Mode: Letter

ACCT 490 - Internship in Accounting
Practical application of academic curriculum beyond that contained in normal undergraduate course work. Internship may not be substituted for a required or elective accounting course.

Prerequisites & Notes: Majors Only. ACCT 341; minimum 2.75 GPA in 300/400-level accounting courses
Credits: 1-2
Grade Mode: S/U

Master of Professional Accounting Courses

MPAC 521 - Seminar in Accounting Information Systems
A seminar designed to study elements of accounting information systems, including technological aspects. The content includes a combination of theory and practical application. Conceptual modeling, implementation of accounting transaction processing systems, enterprise value chains, business processes, documentation, and control requirements are emphasized.

Prerequisites & Notes: ACCT 321 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 531 - Accounting Communications
This course will focus on developing skills for communication as a professional accountant in an organizational setting and is intended to enhance the experience of students enrolled in MPAcc 590, Internship in Professional Accounting. This is an online course that includes student-led discussions, team tasks, reflective journaling, and a variety of other individual assignments aimed at enhancing communication skills in a professional accounting setting. Short readings will cover organizational communications research applicable to accounting firms.

Credits: 4
Grade Mode: Letter

MPAC 535 - Seminar in Management Accounting
Using cases, students will gain the analytical skills needed to both implement well designed management systems, and to evaluate the strengths and weaknesses of existing systems. Topics will include budgeting, resource allocation, performance measurement, evaluation and reward, change management, and transfer pricing.

Prerequisites & Notes: ACCT 331 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 541 - Seminar in Advanced Financial Accounting
This course develops accounting skills for business combinations, consolidated financial statements, partnerships, corporate reorganizations, segment reporting, and foreign currency financial statements. Critical thinking, teamwork, and communications skills will be emphasized along with current technology used in accounting practice.

Prerequisites & Notes: ACCT 343 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 543 - Financial Accounting Research & Communication
A detailed analysis of Financial Accounting Standards via the FASB Accounting Standards Codification (and proposed changes) for measuring, recording, and reporting business transactions that underlie the preparation of an enterprise's financial statements and disclosures. Emphasis will be on written and oral assignments that develop communication skills for the accounting profession.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 343 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 545 - Seminar in Accounting Theory

A study of accounting theory underlying current practice. This course is designed to develop awareness of and ability to utilize knowledge including significant historical components, key stakeholders and their issues, political and regulatory processes, and critical perspectives on accounting and its role in society.

Prerequisites & Notes: ACCT 343 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 547 - Seminar in Government and Not-For-Profit Accounting

This course introduces the basics of accounting and financial reporting for governmental and not-for-profit entities. The course also discusses the social, legal, political and regulatory environment of governmental financial reporting and how these factors have influenced nonprofit and governmental accounting.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 343 or concurrent or equivalent
Credits: 4
Grade Mode: Letter

MPAC 551 - Seminar in International Accounting

This course explores how various accounting topics and issues are addressed within an international context, including a comparative analysis of accounting measurement, disclosure and financial reporting requirements in different countries within the framework of global harmonization efforts. In addition, the impact of accounting issues on multinational business operations is discussed and students will study a 'non-home' country in depth.

Prerequisites & Notes: ACCT 343 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 561 - Seminar in Professional Auditing

Provides in-depth exposure to a variety of aspects of the theory and practice of professional auditing. Topics may include auditing philosophy, history and research; economic function of audits; professional standards and malpractice; new auditing techniques and services. Activities include cases, readings, individual research and discussion.

Prerequisites & Notes: ACCT 461 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 565 - Special Topics in Accounting

This is an advanced course in accounting that examines a broad range of issues that are of current concern to both the accounting profession and users of accounting information. The course content will vary to provide opportunities to study current issues in accounting.

Credits: 4
Grade Mode: Letter

MPAC 566 - Seminar in Fraud Examination & Forensic Accounting

This course examines many different aspects of fraud: what it is and the types of people more likely to commit it, how to recognize the symptoms of fraud, and how to investigate it. As such, the course will focus on topics such as internal control, financial reporting fraud, fraud detection and deterrence.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 321 and ACCT 343; or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 571 - Seminar in Law for Accountants

Using cases, texts, lecture and discussion, students examine legal issues important to accountants, including: administrative law-making; agency, business organizations; negotiable instruments, bank deposits, intellectual property; aspects of real and personal property security, bankruptcy; lobbying and campaign finance regulations; and accountants' professional liability.

Prerequisites & Notes: ACCT 470 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 575 - Seminar in Taxation

Tax from a managerial perspective, with emphasis on the identification and examination of tax problems and potential tax opportunities. Students will examine the choice of different business entities for tax purposes, compensation and succession planning, and tax planning for investments.

Prerequisites & Notes: ACCT 375 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 577 - Tax Research, Planning, and Policy

ACCOUNTING

An in-depth look at tax research and tax planning, including the political and social issues which affect taxation. Students will gain proficiency in tax research and apply this skill to a variety of federal taxation issues and case studies. The use of technology is a vital component of this course, as is communication.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 375 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 581 - Ethics and Accountability

This is a capstone course in the MPAcc program introducing ethical systems used for decision making and public reporting taken from a professional accounting perspective and integrating notions of entity social responsibility with a global business perspective.

Credits: 4
Grade Mode: Letter

MPAC 585 - Sustainability Accounting and Reporting

Through reading several books and examining some Triple Bottom Line (TBL)-related websites in detail, course participants will study the overall themes and examples of TBL offered by various authors and organizations. Our directed conversations will focus on an analysis and synthesis of these themes, the credibility the proposals and attempts, and the general applicability of the TBL concept.

Prerequisites & Notes: ACCT 343 or equivalent.
Credits: 4
Grade Mode: Letter

MPAC 590 - Internship in Professional Accounting

Practical application of academic curriculum beyond that contained in graduate coursework. A one quarter internship under supervision with an approved certified public accounting firm, business entity, not-for-profit organization, or government agency. Repeatable up to 12 credits, including original course. S/U grading.

Prerequisites & Notes: Approval of the Internship Coordinator.
Credits: 2-12
Grade Mode: S/U

MPAC 595 - Accounting Colloquium

Seminar and discussion of various topics, focusing on issues of current concern to the accounting profession. Will include presentations by faculty,

students and accounting professionals. Repeatable up to 10 credits, including original course.

Prerequisites & Notes: Graduate (MPAC) status.
Credits: 1-2
Grade Mode: Letter

Decision Sciences

Introduction

The Department of Decision Sciences (DSCI) provides the opportunity for study in two related fields of business administration: Management Information Systems (MIS) and Operations Management (OPS). Additional course work is provided in Quantitative Methods. These fields cover a variety of responsibilities in both public and private organizations. Graduates from the decision sciences department will have completed a broad business program plus a wide range of nonbusiness subjects, reflecting the department's belief that education should prepare students for satisfying achievements in life as well as business.

Program Objectives

Departmental programs have been designed to prepare students for leadership roles in business and the community. The educational objectives of the department are to:

- Offer innovative undergraduate and graduate curricula that reflect state-of-the-art knowledge in our areas of expertise
- Prepare students with the necessary skills and knowledge for professional careers
- Provide students with opportunities to improve their communication, team, and problem-solving skills to work effectively with different organizations and cultures
- Encourage students to develop critical thinking skills and an appreciation of intellectual inquiry
- Contribute to our disciplines by creating, publishing and presenting significant scholarly research in the individual fields
- Provide professional services to regional, national, and international academic institutions, businesses, professional organizations, and government agencies
- Encourage and support student professional organizations

Faculty

CRAIG K. TYRAN (2001) Chair and Professor. BS, MS, Stanford University; MBA, UCLA Graduate School of Management; PhD, University of Arizona.

DEEPINDER S. BAJWA (1999) Professor. BE, University of Mysore; MBA, PhD, Southern Illinois University at Carbondale.

PETER HAUG (1986) Professor. BA, State University of New York at Fredonia; MA, University of Maine; MBA, College of William & Mary; MPhil, University of Edinburgh; PhD, University of Washington.

STELLA HUA (2002) Associate Professor. BS, Shanghai Jiao Tong University; MBA, Baylor University; PhD, University of Wisconsin-Madison.

ILHYUNG KIM (2004) Associate Professor. BS, MS, Seoul National University; MBA, Oregon State University; PhD, University of California, Los Angeles.

L. FLOYD LEWIS (1983) Professor. BA, California State University, Sacramento; MS, San Jose State University; PhD, University of Louisville.

J. CHRISTOPHER SANDVIG (2001) Associate Professor. BS, University of Oregon; MBA, UCLA Graduate School of Management; PhD, University of Washington.

MARK C. SPRINGER (1987) Professor. BA, University of Cincinnati; MBA, PhD, Vanderbilt University.

ZHE GEORGE ZHANG (2000) Professor. BS, MA, Nankai University; MBA, York University; PhD, University of Waterloo.

Senior Instructors

DAVID J. AUER (1994) Senior Instructor. BA, University of Washington; BA, MA & MS Western Washington University.

STEVEN H. GANZ (2001) Senior Instructor. BA, University of California Santa Barbara; MSc, University of Alberta; MBA, Western Washington University.

DECISION SCIENCES

KRAIG K. PENCIL (1999) Senior Instructor. BA, Occidental College; MBA, Western Washington University.

LEE E. McCLAIN (1991) Senior Instructor. BA, MA, University of Missouri-Columbia; MBA, University of Pennsylvania.

BRIAN L. MORGANS (2012) Senior Instructor. BS, University of Washington; MBA, Western Washington University.

SIPING (SUE) SU (2012) Senior Instructor. BA, Nankai University, Tianjin, China; MS, University of Waterloo, Ontario, Canada.

Departmental Mission

The mission of the Department of Decision Sciences is to advance and disseminate knowledge in management information systems, manufacturing and supply chain management, and quantitative methods. The DSCI department provides high-quality educational programs, publishes theoretical and applied research, and serves university, professional, and community organizations.

Declaration Process

See the College of Business and Economics introductory section in this catalog for declaration of pre-major and major requirements and procedures. Applicants who have at least a 2.5 or higher cumulative GPA in all college-level course work or at least a 2.75 or higher GPA in the equivalent of the foundation courses (except Manufacturing and Supply Chain Management majors) will be assured of admission if space is available in the department program of choice.

Other Departmental Information

The Curriculum

Development of the department's curriculum has been guided by the standards of the AACSB International—the Association to Advance Collegiate Schools of Business. Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and the business administration major foundation courses. Several foundation courses satisfy GURs, and careful planning can save time for additional elective course work. Electives that emphasize oral and written communication skills are particularly recommended.

The junior and senior years are devoted primarily to upper-division core requirements and elective course work. The Department of Decision Sciences offers two degrees: a Bachelor of Arts in Business Administration and a Bachelor of Science in Manufacturing and Supply Chain Management. Within the BA in Business Administration, students may choose to concentrate their major electives in management information systems or operations management. Students who wish to complete a concentration must pay close attention to class scheduling because of prerequisites and limited offerings of some courses.

Certificate in Website Management

Students concentrating in MIS may also be interested in earning a Certificate in Website Management through WWU's Internet Studies Center. Two of the six courses required for the certificate may be used as MIS concentration elective courses. More information about the certificate can be found on the ISC website, <http://yorktown.cbe.wvu.edu/ISC/>.

Business Applications Software

The use of personal computer systems to assist in data management, analysis and reporting of results is widespread in the curriculum of the Department of Decision Sciences. Students are expected to have some proficiency in word processing, spreadsheet and database software at the time they enter upper-division decision sciences classes. This proficiency can be gained through several means, including formal class work at a university or community college, work experience, or commercially offered classes. Proficiency can also

be demonstrated by passing an exam which is offered for this purpose each quarter. Students who have not otherwise gained these skills are expected to register in MIS 220 prior to their registration in DSCI 305 or MIS 320.

Communications Requirements

All business majors must satisfy the upper-division writing proficiency requirement of the university (see University Graduation Requirements) and complete one communications focus (CF) course prior to graduation. These requirements must be satisfied by taking courses within the College of Business and Economics. Consult the online Timetable of Classes for the specific course sections that fulfill the CF and WP requirements. The requirements normally may be met by taking designated sections of required core or concentration courses, but may be met by taking other designated CBE course as well.

Student Advising

For answers to routine questions concerning preparation and progress through the major, students should consult the **Planning Guide** for the Department of Decision Sciences, available in the Academic Advising Center (OM 380) or online through the CBE website: <http://cbe.wvu.edu/>. Non-routine questions should be directed to the academic department manager. Questions concerning individual areas of study should be directed to faculty who teach in that area. After the declaration of a major, a student will be assigned a faculty adviser with whom the student must consult concerning mandatory and elective courses in the chosen major and concentration. The faculty adviser may also be a source of information concerning career objectives and opportunities.

Enrollment Priorities

Because of high student demand for many business administration program courses, the department must give enrollment priority to students for whom these courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

Bachelor of Arts

Business Administration – Management Information Systems Concentration, BA

Department of Decision Sciences, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals

1. Understanding of business and economics

Learning objectives

Demonstrate breadth of knowledge and skills in general business and economics

Demonstrate disciplinary knowledge and skills

DECISION SCIENCES

2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Management Information System (MIS) Concentration in the Business Administration Major?

MIS majors learn how information technology can contribute to an organization and how to develop and apply information technology-based business solutions. The strength of an MIS major lies in his/her ability to combine an understanding of business with the knowledge of information systems and technology to help organization compete more successfully or streamline current operations. MIS professionals are involved in growth technologies, such as decision support, e-business, database development, client server systems, and development of web-based technologies for electronic commerce.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits and earned a GPA of 2.5 overall or 2.75 in the foundation courses they have completed will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and meet one of the following GPA requirements:
Either: 1) a minimum GPA of 2.75 in the eight Foundation Courses listed below, including grades from transfer courses and Advanced Placement credit **or** 2) a cumulative GPA of at least 2.50 in all college-level course work including transfer work.

- Completion of all foundation courses with a C- or better.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: <http://cbe.wvu.edu/dsci/mis-testout.shtml>; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Foundation Courses

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- MATH 157 - Calculus With Applications to Business and Economics
- MGMT 271 - Law and the Business Environment
- MIS 220 - Introduction to Business Computer Systems

Core Courses

- DSCI 305 - Applied Business Statistics
- FIN 341 - Principles of Finance
- MGMT 311 - Introduction to Management and Organizational Behavior
- MGMT 382 - Business and Its Environment
- MIS 320 - Principles of Management Information Systems
- MKTG 380 - Principles of Marketing
- OPS 360 - Operations Management

Advanced Core Courses

- MGMT 495 - Strategic Management

MIS Concentration Courses

- MIS 321 - Systems Analysis and Design
- MIS 322 - Business Applications Development
- MIS 421 - Business Database Development
- MIS 495 - Corporate Information Systems Management
- One course from:
 - MGMT 313 - Teamwork Basics
 - MIS 492 - Systems Implementation Project
 - OPS 461 - Project Management
- Select 8 credits from:
 - ACCT 421 - Accounting Information Systems II

DECISION SCIENCES

OPS 461 - Project Management

Upper division MIS courses

Other upper-division courses (including computer science) may be possible under advisement

- Familiarity with an additional programming language highly recommended
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfil the CF and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

NOTE: All MIS students must take MIS 322 - CSCI 140 is not an acceptable substitute. Students should talk to their advisors about other CSCI courses that may be appropriate as a second programming language.

Business Administration – Operations Management Concentration, BA

Department of Decision Sciences, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an Operations Management (OPS) Concentration in the Business Administration Major?

Operations management is the direction and control of the processes within an organization. Operations managers are concerned with each step in providing a service or product – from acquisition of the raw materials and component parts to delivery to the customer. They determine what equipment, labor, tools,

facilities, materials, energy, and information are required, how these can best be obtained, and how they are used to satisfy the requirements of the market place. Managers are also responsible for critical activities such as quality management and control, capacity planning, materials management, purchasing, and scheduling.

Bachelor of Science

Manufacturing and Supply Chain Management, BS

Department of Decision Sciences, College of Business and Economics

128-131 credits

Introduction

The Department of Decision Sciences' unique Manufacturing and Supply Chain Management Bachelor of Science program is the product of a cooperative effort between faculty and industry which has resulted in a curriculum that combines leadership, technology, and operations management. Students majoring in the program receive an integrated professional education. The Operations Management component develops knowledge on process design and analysis, materials planning and control systems, quality improvement, and strategic decisions. The Business component provides an understanding of business fundamentals as well as current business trends and practices. The Engineering Technology segment provides students with a solid grounding in engineering and manufacturing fundamentals, including computer-aided design with materials sciences. Finally, the work experience component provides a real-world work experience that directly relates to students' education.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Manufacturing and Supply Chain Management Major?

The Manufacturing and Supply Chain Management program is designed and highly influenced by the businesses that most need the services of well prepared students to meet the changing needs of the marketplace. The active involvement of regional industry through our board of advisors has resulted in nearly 100% placement of our graduates. Industries' generosity through scholarships and internships coupled with a curriculum taught by dedicated and accomplished faculty is a winning combination. Graduates find challenging and rewarding careers that are in high demand.

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application from via the College of Business and Economics website, <http://cbe.wwu.edu/cbe/students/application.shtml>. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- MGMT 311 - Introduction to Management and Organizational Behavior
- OPS 460 - Designing and Improving Lean Operations
- OPS 463 - Enterprise Resource Planning Systems
- One course from:
 - ETEC 344 - Industrial Quality Assurance
 - OPS 360 - Operations Management (including prerequisites)
- Three courses from:
 - MGMT 313 - Teamwork Basics
 - OPS 461 - Project Management
 - OPS 462 - Management Science with Spreadsheets
 - OPS 465 - Quality Management
 - OPS 466 - Supply Chain Management
 - OPS 467 - Global Operations Strategy
 - OPS 468 - Manufacturing and Supply Chain Strategy

Decision Sciences Courses

DSCI 205 - Business Statistics

Statistical methods used in business research, analysis and decision making; preparation and presentation of data, frequency distributions, measures of central tendency and dispersion, statistical inference, regression and correlation.

Prerequisites & Notes: MATH 156 or MATH 114 or MATH 115 or MATH 118 or equivalent or higher.

Credits: 4
Grade Mode: Letter

DSCI 305 - Applied Business Statistics

Applications of business statistics to research, analysis, and decision making in business. Regression, correlation, analysis of variance, and nonparametric tests, with emphasis on the use of business-oriented computer statistical packages.

Prerequisites & Notes: MATH 157 or MATH 124 or MATH 128; and DSCI 205.

Credits: 4
Grade Mode: Letter

DSCI 405 - Simulation Models for Decision Making

Introduction to building computer-based simulation models for business decision making. Data collection and input analysis, model building of both Monte Carlo and discrete event simulations, output analysis and validation, and experimental design. Development of computer models to solve complex business problems in MIS, operations, finance, or marketing.

Prerequisites & Notes: DSCI 305 or equiv; C- or better

Credits: 4

Grade Mode: Letter

Management Information Systems Courses

MIS 220 - Introduction to Business Computer Systems

Introduction to use of commercial software packages for business applications, including spreadsheet analysis, word processing, data management, and communications. S/U grading.

Prerequisites & Notes: ACCT 240, C- or better; or economics major

Credits: 2

Grade Mode: S/U

MIS 304 - Introduction to Web Site Development

Covers basic Web site design, navigation, and construction. Topics include HTML, JavaScript, page layout, site navigation, cascading style sheets, server-side includes, designing search engines, and site testing.

Prerequisites & Notes: MIS 320, C- or better

Credits: 4

Grade Mode: Letter

MIS 313 - Computer Hardware and Operating Systems

Understand the hardware components commonly found in networked PC work stations and servers and the operating systems that control them. Diagnose common hardware problems. Install or replace PC components. Install and configure PC operating systems. Diagnose and troubleshoot common OS problems. Manage system resources, including memory, directories and files. Configure network and Internet connectivity.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 314 - Fundamentals of Web Site Development and Management

Introduction to server-side programming. Topics include PHP, MySQL, reading and writing to databases, database normalization, structured query language (SQL), data management, security, maintenance management and web usability. Each student constructs an interactive, database-driven web site.

Prerequisites & Notes: CSCI 202 or equivalent.

Credits: 4

Grade Mode: Letter

MIS 320 - Principles of Management Information Systems

Describes the role of MIS in management, including current professional practices and methodologies. Includes presentation of systems theory, decision theory, organizational models, types of MIS, planning and MIS development.

Prerequisites & Notes: MIS 220 or equivalent

Credits: 4

Grade Mode: Letter

MIS 321 - Systems Analysis and Design

Use management information systems techniques to solve managerial and organizational problems of limited complexity. Includes solving formal analytic problems and implementing solutions using MIS development techniques. Includes supervised structured laboratory exercises.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 322 - Business Applications Development

Business application development using an object-oriented language. Design of user interfaces and integration with other development platforms such as spreadsheets and databases.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321; pre/coreq: MIS 321; C- or better

Credits: 4

Grade Mode: Letter

MIS 323 - Telecommunications

Analysis and design of telecommunications systems, including those on the Internet. Topics include network design and management, telecommunications concepts and management, and network and telecommunications tools.

DECISION SCIENCES

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better
Credits: 4
Grade Mode: Letter

MIS 324 - Intermediate Web Site Development and Management

Web development using ASP.NET, C#, Visual Web Developer and Sql Server Express. Topics include: data management, web services, object-oriented programming, security, reusability, scalability and reliability. Students refine their skills by constructing a database driven web site.

Prerequisites & Notes: MIS 314 or MIS 322; instructor permission
Credits: 4
Grade Mode: Letter

MIS 417 - Advanced Business Applications Development

Advanced topics in Management Information Systems: Database Systems. Designed for CBE students in majors and concentrations other than Management Information Systems. Overview of database use in modern business organizations. Alternative data models and normalization of data. Database design methodologies. Development of a database application using commercial software in microcomputer environment. Repeatable up to a maximum of 8 credits with different topics.

Prerequisites & Notes: MIS 320 or ACCT 321, or instructor permission.
Credits: 4
Grade Mode: Letter

MIS 421 - Business Database Development

Overview of database use in modern business organizations. Alternative data models and normalization of data. Database design methodologies. Development of a database application using commercial software in microcomputer environment.

Prerequisites & Notes: Majors Only. MIS 321
Credits: 4
Grade Mode: Letter

MIS 422 - Business Intelligence

Business intelligence (BI) is a broad category of applications and technologies for gathering, storing, analyzing, and providing access to data to help enterprise users make better business decisions. BI applications generally include: decision support systems, business analytics, performance management (key performance indicators, scorecards, and dashboards), data warehouses, and data mining. The course will

include both conceptual and skill components, including projects using appropriate software platforms.

Prerequisites & Notes: Majors Only. MIS 322, C- or better.
Credits: 4
Grade Mode: Letter

MIS 423 - Network Administration

Theory and principles, design, implementation, and management of local area network systems, including predominant networking products and technologies.

Prerequisites & Notes: Majors Only. MIS 321 or MIS 323, C- or better
Credits: 4
Grade Mode: Letter

MIS 424 - E-Commerce Systems Management

This course covers both the theories and tools needed to build and manage e-commerce sites. Specific topics include e-commerce business models, marketing, security, hosting options, secure-transactions, web server installation and configuration, web services and interfacing with legacy systems.

Prerequisites & Notes: MIS 324, C- or better
Credits: 4
Grade Mode: Letter

MIS 431 - Advanced Business Database Systems

Design, development, implementation and administration of server-based database management systems. Database queries from client, administrative, and Web-based systems. Instruction in both theory and practice.

Prerequisites & Notes: Majors Only. MIS 322, MIS 421, C- or better
Credits: 4
Grade Mode: Letter

MIS 432 - Expert Systems in Business

Use of artificial intelligence concepts in the development of systems for expert decision making, with application to business problems. Review and use of selected commercial expert systems software packages.

Prerequisites & Notes: Majors Only. MIS 321 or ACCT 321, C- or better
Credits: 4
Grade Mode: Letter

MIS 491 - Practicum in Management Information Systems

Information systems related to employment, research or special project experience. Emphasis on applying information systems principles and techniques in an academically guided setting. Minimum requirements include a written proposal, journal, and a comprehensive final report. Repeatable to a maximum of 12 credits, only four of which may be applied to the MIS concentration.

Prerequisites & Notes: Majors Only. MIS 321, C- or better
Credits: 4
Grade Mode: Letter

MIS 492 - Systems Implementation Project

Solve an information system problem using project management and IS methodologies. Apply project management techniques in a group project environment. Develop systems documentation, implement system, and present completed project report.

Prerequisites & Notes: Majors Only. MIS 322 or MIS 421 or MIS 422 or MIS 432, C- or better, and permission of instructor.
Credits: 4
Grade Mode: Letter

MIS 495 - Corporate Information Systems Management

Case study of the current and potential applications of information technology to enhance the competitive posture of the corporation. Uses of information technology throughout the organization; management and control of the information technology function.

Prerequisites & Notes: Majors Only. MIS 321; pre/corequisite: one 400-level MIS elective; C- or better
Credits: 4
Grade Mode: Letter

Operations Management Courses

OPS 360 - Operations Management

Examines the concepts for designing, planning and improving manufacturing and service organizations. Topics include enterprise resource planning, facility layout, forecasting, queuing models, inventory management, lean manufacturing, total quality control, and project management.

Prerequisites & Notes: DSCI 205, ACCT 245, C- or better; spreadsheet competency
Credits: 4
Grade Mode: Letter

OPS 367 - Management of Service Operations

Concepts and techniques for designing, planning and controlling service operations. Topics include service site location, service facilities design, managing capacity and demand in service operations, work force scheduling, the queuing phenomenon, and the impact of new technology on service operations.

Prerequisites & Notes: Majors Only. OPS 360, C- or better
Credits: 4
Grade Mode: Letter

OPS 417 - Managing Supply Chain, China

Concepts and techniques for designing, planning and controlling service operations. Topics include service site location, service facilities design, managing capacity and demand in service operations, work force scheduling, the queuing phenomenon, and the impact of new technology on service operations.

Prerequisites & Notes: junior or senior standing
Credits: 4
Grade Mode: Letter

OPS 460 - Designing and Improving Lean Operations

Examines the design and analysis of lean manufacturing systems. Topics include principles of lean enterprises, kaizen practices, visual management, standard work, current and future state value stream mapping, creating continuous flow, cellular manufacturing, and process and capacity analysis.

Prerequisites & Notes: OPS 360 or ETEC 344; major restricted.
Credits: 4
Grade Mode: Letter

OPS 461 - Project Management

Examines the organization, planning, and controlling of projects and provides practical knowledge on managing project scope, schedule and resources. Topics include project life cycle, work breakdown structure and Gantt charts, network diagrams, scheduling techniques, and resource allocation decisions. Concepts are applied through team projects and tutorials using project management software.

Prerequisites & Notes: OPS 360 or ETEC 344;

DECISION SCIENCES

major restricted.

Credits: 4

Grade Mode: Letter

OPS 462 - Management Science with Spreadsheets

Covers the development of optimization and simulation models using Microsoft Excel for the solution of business problems. Topics include advanced spreadsheet use; linear, integer, and non-linear programming; and the simulation of stochastic systems. Applications in operations, finance, and marketing are reviewed.

Prerequisites & Notes: OPS 360 and MIS 320.

Credits: 4

Grade Mode: Letter

OPS 463 - Enterprise Resource Planning Systems

Examines the principles and techniques for planning and managing resource usage across the business enterprise. Topics include business process integration, inventory management, master scheduling, and material and capacity planning. Concepts are applied through the use of current enterprise resource planning software.

Prerequisites & Notes: Majors only. OPS 360 or ETEC 344.

Credits: 4

Grade Mode: Letter

OPS 464 - Manufacturing Management Practicum

Manufacturing management-related employment, research or special project experience. Emphasis on applying manufacturing management principles in an academically guided setting. Minimum requirements include a written proposal, a daily journal, and a comprehensive final written report. Repeatable to a maximum of 12 credit; 8 credit of these may be applied to the manufacturing management major.

Prerequisites & Notes: OPS 360 or ETEC 325 or ETEC 327, and permission of instructor; major restricted.

Credits: 4

Grade Mode: Letter

OPS 465 - Quality Management

Examines the principles and techniques for managing and improving quality in an organization. Topics include incoming material control, statistical process control, and process

improvement.

Prerequisites & Notes: OPS 360 or ETEC 344; major restricted.

Credits: 4

Grade Mode: Letter

OPS 466 - Supply Chain Management

Examines the principles, techniques, and practices for the design and management of integrated supply chain operations. Investigates supply chain strategy, distribution, facility location decisions, purchasing, and information systems for managing supply chain activities.

Prerequisites & Notes: OPS 360 or ETEC 344; major restricted.

Credits: 4

Grade Mode: Letter

OPS 467 - Global Operations Strategy

Analysis of issues, problems, and techniques experienced in managing global operations. Topics include global supply chain management, plant location decisions, production planning, technology transfer, and foreign manufacturing systems.

Prerequisites & Notes: Majors Only. OPS 360, C- or better

Credits: 4

Grade Mode: Letter

OPS 468 - Manufacturing and Supply Chain Strategy

Reviews manufacturing and supply chain management principles and techniques and examines issues in global manufacturing operations. Topics include supply chain strategy, facility network design, logistics, forecasting, aggregate planning, lean manufacturing principles, and global operations.

Prerequisites & Notes: OPS 360 or ETEC 344; major restricted.

Credits: 4

Grade Mode: Letter

OPS 469 - Seminar in Manufacturing and Supply Chain Management

Operations management theory and concepts applied to current manufacturing and supply chain problems.

Prerequisites & Notes: Majors Only. OPS 460, OPS 463, OPS 464 and permission of instructor.

Credits: 4

Grade Mode: Letter

Economics

Introduction

In a world without scarcity, economics as a field of study would be unnecessary. The most challenging task of economics is the study of how to best use resources in the satisfaction of human wants. Today, more than ever, the problems agitating society are predominantly economic. The problems of inequality, discrimination, pollution, energy, growth and stagnation are heavily economic, as are their solutions. Whether as intelligent citizens or as professional economists, we need the perspective and analysis of economics to understand and deal with the realities of life in the 21st century.

With appropriate preparation, particularly in the areas of economic theory, statistical methods and computer-assisted data analysis, the career opportunities for economists are diverse. Economists are most typically employed at all levels of government, in banking and financial institutions, other business firms, labor organizations, and as researchers and teachers in the educational system. One of the most dynamic career areas for economists has been in business. Business economists are typically involved in planning and forecasting, production and market analysis, pricing, and government policy analysis. While various employment opportunities are available to the university graduate with a baccalaureate degree, the person who wishes to pursue a high-powered career as a professional economist should plan to do some graduate study.

Information

The department's faculty and staff invite questions about the program and career opportunities for economics majors. Interested persons are invited to visit the department office in Parks Hall 315 or to telephone 360-650-3910. Written inquiries should be directed to the Department of Economics, Western Washington University, Bellingham, WA 98225-9074. E-mail: Econ@wwu.edu. Website: <http://cbe.wwu.edu/econ/index.shtml>.

Faculty

Typically all economics faculty on ongoing appointments hold the PhD degree and are engaged in research and consulting activities at the local, state, national and international level. Faculty members have a commitment to quality teaching, personalized student contact and student advisement.

STEVEN E. HENSON (1985) Chair and Professor. BA, California State University; MS, PhD, University of Oregon.

BRANDON DUPONT (2006) Associate Professor. BA, McNeese State University; MA, University of Iowa; PhD, University of Kansas.

YVONNE DURHAM (2000). Professor. BA, University of Wyoming; MA, PhD, University of Arizona.

MOHEB A. GHALI (1993) Professor. BCom, Cairo University; MA, University of California; PhD, University of Washington.

STEVEN GLOBERMAN (1994) Kaiser Professor of International Business and Director of the Center for International Business. BA, Brooklyn College; MA, University of California-Los Angeles; PhD, New York University.

DANIEL A. HAGEN (1988) Professor. BA, MA, PhD, University of California-Berkeley.

JULIA HANSEN (1988) Professor. BA, University of Vermont; MA, PhD, University of California-Berkeley.

L. HART HODGES (2000) Associate Professor and Director of the Center for Economic and Business Research. BA, Williams College; MEM, Duke University; PhD, University of Washington.

SHAWN KNABB (2005) Associate Professor. BA, Miami University; MA, PhD, University of California-Santa Barbara.

JOHN KRIEG (2000). Professor and Director of the Office of Survey Research. BA, Northwestern University; MA, PhD, University of Oregon.

DENNIS R. MURPHY (1979) Professor. BA, MA, Western Washington University; PhD, Indiana University.

DAVID M. NELSON (1977) Professor. BA, Whitworth College; MA, PhD, University of Oregon.

MATTHEW R. ROELOFS (1997) Professor. BA, Calvin College; MS, PhD, Purdue University.

ECONOMICS

SHARON SHEWMAKE (2013) Assistant Professor. BA, Duke University; PhD, University of California-Davis.

ANCA-IOANA SIRBU (2014) Assistant Professor. BS, MS, Bucharest University of Economic Studies; MA, University of Southern California; PhD, University of California-Riverside.

PAUL A. STORER (1996) Professor. BA, MA, University of Toronto; PhD, University of Western Ontario.

OZAN SULA (2006) Associate Professor. BA, Marmara University; MA, PhD, Claremont Graduate University.

PHILIP THOMPSON (2009) Assistant Professor. BA, Kent State University; PhD, University of Arizona.

Departmental Mission

The mission of the department is to provide students with an understanding of economic concepts and the functioning of the economy, and to equip them with the ability to apply economic analysis in problem solving. The department strives to provide a major program which gives students rigorous training in both economic theory and applications. The department plays an integral role in offering courses that are a component of Western's General University Requirements and that are part of other undergraduate and graduate programs in the college and in the University. The department views the conduct of research in economics, and applied research in particular, to be an integral part of its instructional mission. In addition, the department strives to serve both the profession and the community and to help raise the level of economic awareness among the public at large.

Declaration Process

Completion of the CBE Foundation courses is not required to declare a major in economics, except for the economics-accounting combined major. In order to declare a major in economics, students must have achieved a 2.50 cumulative college GPA (including transfer work) or, for the economics-accounting major, a 2.75 GPA in the CBE Foundation courses (see Economics/Accounting, BA). Students planning to major in economics should declare their major as early as possible, preferably during their first year at Western. Early declaration is costless and in no way restricts the student's options for changing plans later, but it provides many benefits. Advantages include faculty advising, and protection against possible future catalog revisions that change degree requirements. Declared majors are also eligible for departmental scholarships and other awards. Transfer students should contact the department prior to registering to be certain that they enter the course sequence correctly with the appropriate course equivalents from other institutions.

Other Departmental Information

The Curricula

The economics program at Western provides several options under the Bachelor of Arts degree.

The economics major requires a foundation in economic theory and quantitative skills and provides opportunities for pursuing in depth a number of important areas within economics, most notably financial, environmental, and resource economics.

Combined majors

A combined major is available as an option to students whose educational or professional interests may best be furthered by an integrated curriculum from two disciplines. A combined major may be fulfilled by the completion of requirements stipulated by both the Economics Department and a department with which Economics has established arrangements. A plan of study must be approved by both departments for completion of the major. Combined majors already exist with accounting, environmental studies, mathematics, philosophy and political science, social studies, and finance. Students are encouraged to explore the possibility of combining economics with other disciplines.

Students must consult with an advisor prior to the selection of a major option or the selection of elective credits in other departments of the College of Business and Economics (CBE) to be included as part of the economics major.

Bachelor of Arts

Economics, BA

Department of Economics, College of Business and Economics

66-69 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

Why Consider an Economics Major?

A degree in Economics can be the gateway to many careers. Professional economists are employed as advisors and researchers in both business and government and as teachers and researchers in academic institutions. Employment as an Economist generally requires the completion of graduate studies beyond the bachelor's degree. Western's graduates in Economics hold a variety of jobs in business and teaching. In addition, many of Economics graduates have had a high success rate for admissions to professional schools in law and business.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to declare (Admission and Declaration Process):

Students planning to major in Economics should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare a major in economics.

Admission to programs in the College of Business and Economics (CBE) is selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a full Economics major, a student must meet the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Students apply for admission to the major by completing the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information; <http://cbe.wwu.edu/dsci/mis-testout.shtml>; 3) Meet with your faculty advisor (assigned following admission to the major).

ECONOMICS

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- DSCI 205 - Business Statistics or equivalent
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- ECON 303 - The History of Economic Thought
- ECON 306 - Intermediate Microeconomics
- ECON 307 - Intermediate Macroeconomics
- ECON 375 - Introduction to Econometrics
- One course from:
 - MATH 124 - Calculus and Analytic Geometry I
 - MATH 157 - Calculus With Applications to Business and Economics or equivalent
- One course from:
 - MIS 220 - Introduction to Business Computer Systems
 - CSCI 101 - Computers and Applications
- 32 credits of electives in CBE, under departmental advisement; at least 24 of these credits must be upper-division credits in economics; a minimum of 16 of these 24 credits must be at the 400 level
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Economics/Accounting, BA

Combined major offered by the department of Economics and the department of Accounting, College of Business and Economics.

100-103 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications. Accounting is an important tool used by managers of organizations to plan, control and report financial activity. A thorough knowledge of Accounting is necessary to understand the operation and financial condition of any business, non-profit organization or governmental agency.

Why Consider an Economics/Accounting Major?

This major is designed for students wishing to obtain a strong preparation in both Economics and Accounting and especially those who intend to go into careers in business. It is an excellent undergraduate study for the Master of Business Administration.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits, and earned a GPA of 2.5 overall or 2.75 in the foundation courses they have completed, will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and meet one of the following GPA requirements:
Either: 1) a minimum GPA of 2.75 in the eight Foundation Courses listed below, including grades from transfer courses and Advanced Placement credit **or** 2) a cumulative GPA of at least 2.50 in all college-level course work including transfer work.
- Completion of all foundation courses with C- or better.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: <http://cbe.wwu.edu/dsci/mis-testout.shtml>; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Foundation Courses

- ACCT 240 - Financial Accounting

ECONOMICS

- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- MGMT 271 - Law and the Business Environment
- MIS 220 - Introduction to Business Computer Systems (or equivalent)
- One course from:
 - MATH 124 - Calculus and Analytic Geometry I
 - MATH 157 - Calculus With Applications to Business and Economics (or equivalent)

Upper-Division Courses

- ACCT 321 - Accounting Information Systems I
- ACCT 341 - Intermediate Accounting Theory and Practice I
- ACCT 342 - Intermediate Accounting Theory and Practice II
- ACCT 343 - Intermediate Accounting Theory and Practice III
- ECON 303 - The History of Economic Thought
- ECON 306 - Intermediate Microeconomics
- ECON 307 - Intermediate Macroeconomics
- ECON 311 - Money and Banking
- FIN 341 - Principles of Finance
- MGMT 311 - Introduction to Management and Organizational Behavior
- MGMT 382 - Business and Its Environment
- MKTG 380 - Principles of Marketing
- OPS 360 - Operations Management
- One course from:
 - MGMT 492 - Entrepreneurial Problems
 - MGMT 495 - Strategic Management
- 8 additional credits in upper-division accounting courses, under departmental advisement
- 8 additional credits in upper-division economics courses, under departmental advisement
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Economics/Environmental Studies, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Environmental Studies, Huxley College of the Environment.

103-104 credits (including preparatory courses and major)

Introduction

Economics deals with how people living in a world of scarcity make choices. These choices inevitably involve costs. Questions examined in environmental economics include efficient resource use, preservation of wilderness and biological diversity, local and regional air pollution, global climate change, and treatment of toxic substances. Students learn how to use economic principles to help understand the causes of environmental problems and to identify potential remedies.

Environmental Studies draws on basic knowledge of how natural systems work and is applied to solving problems largely created by human activities. Often these problems are represented by disturbances in the

functioning of natural systems. In addition to the study of the natural environment, a study of laws and policy related to the environment provides a foundation for solving environmental problems.

Why Consider an Economics/Environmental Studies Major?

A combined major in Economics/Environmental Studies is available to students having a strong interest in the economic aspects of environmental studies and natural resources. The degree awarded is a B.A. in Economics.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Students planning to major in Economics/Environmental Studies should declare their major as early as possible, preferably their first year at Western in both the College of Business and Economics, and Huxley College of the Environment.

Admission to CBE is selective and based upon prior academic performance and other evidence of high promise. For admission as a full Economics major, a student must have completed the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Students apply for admission to the Economics portion of the major by completing the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Those pursuing joint programs offered by Environmental Studies with other Western academic units may begin as Phase I majors. Preparatory and major requirements differ from those of the other ENVS majors as outlined in this catalog. You can declare an ENVS Phase I major at any time.

Admission to Huxley College and its majors is selective and based upon the following three criteria:

1. Completion of required preparatory course work
2. A brief essay in response to a given question
3. Academic performance (GPA)

Applications should be received by the Huxley College office by April 25 for summer or fall quarter admission; October 6 for winter quarter; and January 15 for spring quarter.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

ECONOMICS

Requirements

Preparatory Courses (18-19 credits)

- One course from:
 - BIOL 101 - Introduction to Biology
 - BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
 - CHEM 121 - General Chemistry I
- One course from:
 - MATH 114 - Precalculus I
 - MATH 156 - Algebra With Applications to Business and Economics
- Additional Lab Science course in BIOL, CHEM, GEOL or PHYS

Major (85 credits)

- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- ECON 303 - The History of Economic Thought
- ECON 306 - Intermediate Microeconomics
- ECON 307 - Intermediate Macroeconomics
- ECON 383 - Environmental Economics
- ECON 384 - Energy Economics
- ECON 483 - Resource Economics
- ECON 493 - Senior Seminar: Economics, the Environment and Natural Resources
- ENVS 450 - United States Environmental Policy
- ENVS 455 - Environmental Law
- One course from:
 - DSCI 205 - Business Statistics
 - MATH 240 - Introduction to Statistics
 - MATH 341 - Probability and Statistical Inference
- One course from:
 - ENVS 340 - Developing World
 - ENVS 341 - Population and Resources
 - ENVS 342 - Geography of the World Economy
- One course from:
 - ESCI 302 - Environmental Pollution
 - ESCI 310 - Environmental Systems
 - ESCI 325 - Fundamentals of Ecology
 - ESCI 392 - Introduction to Global Change
- One course from:
 - ESCI 321 - Oceanography
 - ESCI 330 - Natural History of the Pacific Northwest
 - ESCI 333 - Introduction to Environmental Toxicology
 - ESCI 361 - Water Quality
 - ESCI 463 - Wetlands for Wastewater Treatment
- One course from:
 - ENVS 493 - Environmental Impact Assessment
 - ESCI 493 - Environmental Impact Assessment
- One course from:
 - MATH 124 - Calculus and Analytic Geometry I
 - MATH 157 - Calculus With Applications to Business and Economics
- Electives under advisement (15-18 credits)
 - ECON 300- and 400-level

ENVS 300- and 400-level

□ Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Economics/Mathematics, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Mathematics, College of Science and Engineering

95 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

"In addition to theorems and theories, Mathematics offers distinctive modes of thought which are both versatile and powerful, including modeling, abstraction, optimization, logical analysis, inference from data, and use of symbols. Experience with mathematical modes of thought builds mathematical power—a capacity of mind of increasing value in this technological age that enables one to read critically, to identify fallacies, to detect bias, to assess risk, and to suggest alternatives. Mathematics empowers us to understand better the information-laden world in which we live." From: Everybody Counts: A Report to the Nation on the Future of Mathematics Education (c) 1989 National Academy of Sciences.

Why Consider an Economics/Mathematics Major?

A degree in Economics can be the gateway to many careers. Professional economists are employed as advisors and researchers in both business and government and as teachers and researchers in academic institutions. Employment as an Economist generally requires the completion of graduate studies beyond the bachelor's degree. Western's graduates in Economics hold a variety of jobs in business and teaching. In addition, Economics graduates have a high success rate for admissions to professional schools in law and business.

Empowered with the critical thinking skills that Mathematics develops, recent Mathematics graduates from Western have obtained positions in a variety of fields including actuarial science, cancer research, computer software development, business management and the movie industry, among many others. The skills acquired in our program have prepared graduates for further academic studies in Mathematics, Computer Science, Physics, Biology, Chemistry, Oceanography and Education.

- 16 additional credits in upper-division courses in economics, under prior departmental advisement; 8 of these 16 credits must be at the 400 level
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements

Economics/Political Science, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Political Science, College of Humanities and Social Sciences.

94-96 credits

Introduction

This major provides students rigorous training in both economic theory and applications with in depth analysis of political theory. Students will gain insight in a variety of areas including trade, monetary systems, and the interplay between politics and economics.

Political Science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern Political Science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

Why Consider an Economics/Political Science Major?

The curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in Economics/Political Science go on to law school, graduate school and into the professions. By combining coursework in both Economics and Political Science, students gain an important interdisciplinary perspective to important political and economic issues.

- ❑ One Course from:
 - ECON 491 - Issues in Political Economy
 - PLSC 491 - Issues in Political Economy
- ❑ 12 additional credits in upper-division economics courses, under departmental advisement
- ❑ 9 additional credits from the American Politics and Public Policy field
- ❑ 4 additional credits from the Political Theory field
- ❑ 8-9 additional credits in upper-division political science electives, to complete the program
- ❑ Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Economics/Social Studies, BA

Department of Economics, College of Business and Economics.

90 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

Social Studies Education is guided by the definition of social studies adopted by the National Council for Social Studies:

"Social Studies is the integrated study of the social sciences and humanities to promote civic competence. Within the school program, Social Studies provides coordinated, systematic study drawing upon such disciplines as Anthropology, Archaeology, Economics, Geography, History, Law, Philosophy, Political Science, Psychology, Religion, and Sociology, as well as appropriate content from the Humanities, Mathematics and Natural Sciences. The primary purpose of Social Studies is to help young people develop the ability to make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world."

Why Consider an Economics/Social Studies Major?

This major is open to any student who desires to study Economics and a variety of other social sciences, but it is specifically designed for students desiring to pursue a career in teaching. Secondary Education students who

ECONOMICS

wish to be endorsed in Social Studies may choose this major. However, the Economics/Social Studies degree does not require that a student pursue a teaching certificate.

To receive a recommendation for state of Washington certification, students must complete the "teacher certification" program, including the content methods course SEC 426, which is offered by the Department of Secondary Education 1) as a part of the undergraduate BA degree, or 2) as a post baccalaureate program, or 3) as a part of the Master's in Teaching program. See the Secondary Education Professional Program Guide for program admission and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
- One course from:
 - ENVS 221 - Geographic Information Systems Survey
 - ENVS 240 - Geography and World Affairs
- 16-20 credits of upper-division electives in economics under departmental advisement to complete the minimum required 90 credits for the major, at least 8 credits must be at the 400 level.
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Financial Economics, BA

Combined major offered by the department of Economics and the department of Finance and Marketing, College of Business and Economics

94-97 credits

Introduction

The study of Financial Economics will provide a combination of economic analysis and tools from accounting and finance that can be used to guide financial decisions. The Economics Department and the Department of Finance and Marketing jointly offer this major and strive to provide a program which gives students rigorous training in theory and applications of accounting, economics, and finance.

Learning goals

1. Understanding of finance
2. Understanding of economics
3. Understanding of accounting
4. Effective communication skills

Learning objectives

- Demonstrate knowledge of financial concepts
- Demonstrate knowledge of economic concepts
- Demonstrate knowledge of accounting concepts
- Produce quality business documents

Deliver a professional quality presentation supported by appropriate technology

5. Quantitative skills

Analyze economic data using quantitative techniques

Why Consider a Financial Economics Major?

This major is designed for students interested in both economics and finance, and is aimed particularly at those who wish to pursue careers in corporate finance, financial analysis, insurance and real estate, and/or government agencies where special emphasis is placed on financial economic knowledge.

The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

NOTE: ECON 311 may not be counted toward this major.

Politics/Philosophy/Economics, BA

Combined major offered by the Department of Economics, College of Business and Economics, the Department of Political Science, College of Humanities and Social Sciences and the Department of Philosophy, College of Humanities and Social Sciences

83 credits

Introduction

Providing an understanding of economic concepts and the functioning of the economy and to provide the ability to apply economic analysis in problem solving is the mission of the Economics Department. The Department strives to provide a major program which gives students rigorous training in both economic theory and applications.

The Politics/Philosophy/Economics major's broad and diverse curriculum is enhanced by the study of modern political science questions of political philosophy and the pursuit of social scientific research.

Why Consider a Politics/Philosophy/Economics Major?

This is a multidisciplinary major designed to provide a solid foundation in disciplines critical to decision making and leadership in economic, political and social service institutions.

How to Declare (Admission and Declaration Process):

Students planning to major in Politics/Philosophy/Economics should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare this combined major in economics.

This major must be approved by each department.

Economics Department: Students must have a 2.5 college-level GPA or better to declare an economics related major. Students can complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Philosophy Department: In order to declare as a philosophy major or minor, one must first complete three philosophy courses (or 9 credits), with a C- or better in each of those courses. Students wishing to declare as a major or minor should contact the Academic Department Manager or the Department Chair.

Political Science Department: Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses with an average grade of 2.7 or above: PLSC 250, 261, 271, 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Students who have no transfer credits for political science coursework: go to the political science department office in Arntzen Hall 415 with an unofficial WWU transcript showing the two completed courses from the list above. Students who have transfer credits for political science coursework from another

institution must also bring an unofficial transcript from that institution showing the political science courses completed.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- ECON 303 - The History of Economic Thought
- ECON 310 - Public Finance
- PHIL 102 - Introduction to Logic
- PHIL 112 - Introduction to Philosophy: Moral Issues
- PHIL 114 - Introduction to Philosophy: Knowledge and Reality
- PHIL 320 - Ethical Theory I
- PHIL 350 - Political Philosophy
- PHIL 360 - Society, Law and Morality
- PLSC 250 - The American Political System
- PLSC 261 - Introduction to Political Theory
 - One course from:
 - PLSC 271 - Introduction to International Relations
 - PLSC 291 - Introduction to Comparative Politics
 - 12 additional upper-division economics credits
 - 9 additional credits from the American Politics and Public Policy field
 - 4 additional credits from the Political Theory field
 - Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
 - 9 additional upper-division philosophy credits

Sample Careers

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application from via the College of Business and Economics website, <http://cbe.wwu.edu/cbe/students/application.shtml>. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
 - Additional Economics courses selected under departmental advisement (may not include ECON 446 or ECON 447)

Economics Courses

ECON 101 - Markets and Society

An introduction to the U.S. economy and its role in the world economy. Analysis of current economic controversies at home and abroad. Issues may include overall economic performance, problems of hunger and poverty, and the issues of economic insecurity, inequality, and sustainability. The course will examine the emergence of globalization and regionalism, and their implications for the workers and the environment.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

ECON 140 - The Ecology and Economics of Salmon Recovery

Focus on the 4 causes of salmon decline (Habitat, Hydropower, Harvest, and Hatcheries) to investigate the interactions between ecology and economics through lectures, reading and independent projects. Also offered as BIOL 140.

Credits: 4
Grade Mode: Letter
GUR Attributes: SCI

ECON 206 - Introduction to Microeconomics

An overview of the modern market economy as a system for dealing with the problem of scarcity. Operation and decision-making of economic units; supply, demand and resource allocation; analysis of various market and industry structures; shortages, controls, social costs and benefits; international trade; comparative systems.

Prerequisites & Notes: MATH 112 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

ECON 207 - Introduction to Macroeconomics

An overview of the modern market economy as a system for dealing with the problem of scarcity. The analysis of relationships among such variables as national income, employment, inflation and the quantity of money. The roles of government expenditure, taxation and monetary policy; international finance; economic development.

Prerequisites & Notes: ECON 206 or ECON 446 or ECON 101; MATH 112 or equivalent
Credits: 4

Grade Mode: Letter
GUR Attributes: SSC

ECON 301 - Economics Issues

Applies the tools and concepts learned in introductory micro and macro economics to a variety of contemporary issues. Emphasizes verbal and written communication skills through active participation in classroom activities. Enrollment priority given to economics majors. (Communications focus course.)

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 303 - The History of Economic Thought

Development of economic thought from the Greek philosophers to the present. Emphasis on the micro, macro and critical traditions in economics following Adam Smith.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 306 - Intermediate Microeconomics

An analytical approach to the consumer, the firm and markets. The theory of pricing under conditions of perfect and imperfect market structures; the theory of factor markets.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202; MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 307 - Intermediate Macroeconomics

Examination of the factors that determine the level of income, employment, output and prices in an economic system. Review and analysis of recent U.S. economic policy and performance.

Prerequisites & Notes: ECON 207 or HNRS 254 or HNRS 202; and MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 308 - Sports Economics

Economic analysis of the sports industry. Topics include the market for sports, the market for labor in sports, owners' goals, league structure, government involvement, and the role of the media and fans in the industry. Emphasis is on professional sports.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 309 - Managerial Economics

Application of economic principles to managerial decision making. Topics may include: Demand, costs and market structure and their relation to pricing, product choice and resource allocation. Cannot be counted towards majors in economics. Cannot be counted towards majors in economics.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202; and MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 310 - Public Finance

The efficiency, equity and stabilization impacts of public expenditure and revenue programs; emphasis on problems and institutions at the national level.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 311 - Money and Banking

The nature and functions of money and the role of depository institutions and central banks in affecting the supply of money and credit in the U.S. Considers the changing U.S. financial environment and the influence of monetary policy on interest rates, prices and the overall level of economic activity. Cannot be counted towards the Financial Economics major.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 315 - Health Economics

An introductory course in health economics. Students will learn about the supply and demand of health services as well as spending on health care. Students will gain knowledge of the health care sector and health economics in the U.S. to allow intelligent discussion/analysis of policy proposals.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202; and DSCI 205; or permission of instructor.

Credits: 4

Grade Mode: Letter

ECONOMICS

ECON 317 - European Economic History

Examines the development and industrialization process in Europe, emphasizing the main topic of what caused the industrialization process in each country. Countries to be studied include England, France, Germany and Russia.

Prerequisites & Notes: ECON 206 and 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 325 - Labor Market Economics

Economics of the labor market, including labor force participation, racial and sexual discrimination, the role of unions, collective bargaining, investments in human capital, and the structure of compensation.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 333 - Introduction to Game Theory

An analytical approach to the study of strategic interaction. Development of basic theory, including topics such as Nash equilibrium, repeated games, credibility, and mixed strategies. Applications will include markets and competition, auction design, voting, and bargaining.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 337 - Economics Study Abroad

This provides economics credit for courses taken abroad in a program approved by WWU. Students must present sufficient documentation to show that the material was successfully completed with a letter grade and is appropriate for upper division elective credit in Economics. Repeatable to a maximum of 12 credits. S/U grading.

Prerequisites & Notes: Enrollment in a WWU-approved study abroad program.

Credits: 4

Grade Mode: S/U

ECON 340 - Economics of Regulation

This course covers broad questions regarding the benefits and costs of a wide range of regulatory policies such as: antitrust, pricing and entry regulation of public utilities, environmental regulation, and safety regulation. Included the main policy arguments concerning how and why the behavior of business should be restricted by

government in its efforts to increase the well-being of the public.

Prerequisites & Notes: ECON 101 or ECON 206 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 343 - Population, Environment, and World Agriculture

Utilizes economic principles to understand the interactions among population growth, food demand, agricultural development, and natural resource utilization, degradation, and conservation.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 355 - The Political Economy of Language and Culture

An examination of the economics and politics of language and language policy.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202, or admission to Fairhaven College, or permission of instructor.

Credits: 2

Grade Mode: Letter

ECON 360 - Introduction to International Economics

The course will introduce students to the theory, practice, and institutions of international economics. Students will learn how the world economy works, the major benefits that it provides to people and nations, and the most serious problems that it faces.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 361 - Introduction to International Economics and Business

This course provides an overview of the world economy and of the role of business in international trade and investment. Students will learn about the causes of globalization and examine its consequences for individuals, nations and businesses. The focus of the course will be on examining the impact of international trade and business on economic well-being. Also offered as INTL 361.

Prerequisites & Notes: ECON 101 or ECON 206

Credits: 4
Grade Mode: Letter

ECON 364 - Topics in Canadian Economic History

Selected issues in the development of the Canadian economy from the 17th century to the present. Examines the importance of resources, agriculture and transportation in the economic growth of Canada.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.
Credits: 2
Grade Mode: Letter

ECON 365 - The Canadian Economy

Examination of 20th-century Canadian economic policy. Topics focus on current economic issues in Canada.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 366 - Canadian Business Environment

This course provides an introduction to the Canadian business environment. The emphasis is on Canada-U.S. comparisons and on features of the Canadian business environment that are of greatest relevance for U.S. businesses that are considering trading with Canadian partners or investing in Canada.

Prerequisites & Notes: ECON 206 and ECON 207
Credits: 4
Grade Mode: Letter

ECON 375 - Introduction to Econometrics

Use of statistical methods to estimate and test economic models. Theory and application of multiple regression techniques, with emphasis on the problems arising in the analysis of economic data.

Prerequisites & Notes: ECON 206 and ECON 207; MATH 240 or MATH 341 or DSCI 205; MATH 124 or MATH 157 or equivalent.
Credits: 4
Grade Mode: Letter

ECON 380 - Urban Economics

Economic forces behind urban development, with emphasis on location decisions of households and firms. Economic analysis of urban problems including land use, transportation, housing and urban public finance.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 381 - American Economic History

American economic development from 17th century to present. Emphasis on resource endowment, social and economic conditions and institutions, growth and development processes, and the role of government.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 383 - Environmental Economics

Explores the economic basis of environmental issues and policies. An examination of property rights, externalities and the common-property basis of environmental problems. Alternative policies are analyzed, involving such issues as air and water pollution, solid-waste disposal, hazardous substances, wilderness preservation and the protection of endangered species.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 384 - Energy Economics

The role of energy in the economy and key aspects of energy supply and demand. Topics include the interrelationships among energy use, economic growth, and the environment; conservation; solar and 'unconventional' energy sources; world oil markets; regulation of gas and electric utilities; and U.S. energy policy.

Prerequisites & Notes: ECON 206 or HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 385 - Comparative Economic Systems

A comparative analysis of the major world economic systems, including a critical appraisal of underlying philosophies, economic theories, structures, and performance. Includes case studies of specific economies, and the study of reform and transformation of economic systems, especially capitalism and socialism.

Prerequisites & Notes: ECON 206 or ECON 207 or HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECONOMICS

ECON 386 - The Economics of Electricity Markets

Electricity markets have become more complex in recent years because of new energy production and usage technologies, regulatory changes, and increased environmental concerns. This course will look at demand and supply aspects of electricity markets, including the impact of government economic and environmental regulation. Emphasis will be on the U.S. electricity market.

Prerequisites & Notes: ECON 206
Credits: 4
Grade Mode: Letter

ECON 388 - Economics of the European Union

The European Union (EU) is the most advanced case study in multinational economic integration of our time. Topics covered include the theory of economic integration, institutions of the EU, various current policy and agenda issues, and a look at EU economic relations with the U.S. and world economies.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 389 - Economies of the Pacific Rim

The Pacific Rim treated as a distinct economic region. Topics include economic development patterns, interdependence, and economic achievements and problems. Specific emphasis on trade, development and policy relations involving the U.S., Japan and the so-called newly industrialized countries.

Prerequisites & Notes: ECON 206 and ECON 207; OR HNRS 254 or HNRS 202.
Credits: 4
Grade Mode: Letter

ECON 390 - Internship in Economics

Eligibility outlined in departmental internship policy statement. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: Economics major; permission required

Credits: 2-10
Grade Mode: Letter

ECON 406 - Topics in Microeconomics

Application of quantitative and theoretical tools in key areas of microeconomics, with emphasis on quantitative models of the consumer, cost and production analysis of the firm, and market analysis. Special topics may include choice under

uncertainty, capital markets, game theory, general equilibrium theory, and the economics of information.

Prerequisites & Notes: ECON 306; DSCI 205 or MATH 341.
Credits: 4
Grade Mode: Letter

ECON 407 - Topics in Macroeconomics

Examination of current issues in macroeconomic theory and policy. Emphasis on recent U.S. experience, with particular attention given to inflation, unemployment, growth and the balance of payments. Includes extensive reading in current professional journals.

Prerequisites & Notes: ECON 306, ECON 307; DSCI 205 or MATH 341.
Credits: 4
Grade Mode: Letter

ECON 410 - Benefit-Cost Analysis

Benefit-cost analysis is an important tool for evaluating the economic impacts of public or private actions. Course provides students with a thorough understanding of the logical underpinnings of benefit-cost analysis and experience in applying benefit-cost analysis to 'real-world' problems.

Prerequisites & Notes: ECON 306 or ECON 309 or equivalent.
Credits: 4
Grade Mode: Letter

ECON 411 - Monetary Economics

Examines the theory and implementation of monetary policy. Topics may include the transmission mechanism of monetary policy, interest rate rules, the credibility of policymakers, and exchange rates. Special consideration is given to empirically measuring the impact of money on real economic variables and optimal monetary policy.

Prerequisites & Notes: ECON 307, ECON 375.
Credits: 4
Grade Mode: Letter

ECON 412 - Economics of Tax Policy

Positive and normative analysis of tax policy; topics include the taxation of savings, taxation of labor income, taxes on risk-taking and wealth, and optimal income and commodity taxation.

Prerequisites & Notes: ECON 306 and ECON 310
Credits: 4
Grade Mode: Letter

ECON 430 - Experimental Economics

This course introduces experiments as a tool in economic analysis. The course will examine experimental methodology and provide a first exposure to various experimental results. The course will stress the interaction of theory and experiment, seeking to relate questions in the theory of markets, games, and decisions to issues in experimental design and the analysis and interpretation of those results.

Prerequisites & Notes: ECON 306 or ECON 309; DSCI 205 or MATH 341.

Credits: 4

Grade Mode: Letter

ECON 435 - Behavioral Economics

This course studies the role of psychological processes in economic decision making. In contrast to much of economics, behavioral economics starts with observations of actual decision making and seeks to explain how and why individuals make the choices they do. Topics may include decision heuristics, decision making under uncertainty, time inconsistency, social preferences, and neuroeconomics.

Prerequisites & Notes: ECON 306

Credits: 4

Grade Mode: Letter

ECON 442 - Industrial Organization and Public Policy

A study of firms and the markets in which they operate. Considerable emphasis placed on strategic interaction among firms. Topics include mergers, predatory pricing, advertising, patents, vertical relationships and antitrust.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECON 445 - Economics of Education

This course focuses on theoretical models exploring the quantity and quality of education. It then explores empirical evidence supporting or in opposition to these theories. Special emphasis will be placed upon models of signaling, human capital choice, externalities to education, and peer effects. The goal of this course is to provide students with enough theoretical and empirical insight to develop their own research paper in the economics of education field.

Prerequisites & Notes: ECON 306; ECON 375 or comparable statistics course

Credits: 4

Grade Mode: Letter

ECON 446 - Economics for the Teacher

Presentation of basic microeconomic concepts including the operation and decision-making of households and businesses in a market economy. Special consideration is given to the development of classroom teaching strategies involving the use of games, simulations and audiovisual aids.

Prerequisites & Notes: teaching experience or current or expected enrollment in teacher education program

Credits: 3

Grade Mode: Letter

ECON 447 - Methods for Teaching About the National Economy in the Public Schools

Forces affecting the overall levels of output, employment and prices in the U.S. economy. The economic effects of government policies involving taxes, spending and the money supply. Special consideration is given to the development of classroom teaching strategies involving the use of games, simulations and audiovisual aids.

Prerequisites & Notes: ECON 206 or ECON 446 plus teaching experience or current or expected enrollment in teacher education program

Credits: 3

Grade Mode: Letter

ECON 448 - Methods for Teaching Personal Finance in the Public Schools

This course is designed to provide educators with the background and training that they need to successfully integrate personal finance into their classes or to develop and present a new stand alone personal finance course. The on-site portion, typically conducted in a conference setting, will be supplemented by research and a project to be completed after the classroom portion of the course.

Prerequisites & Notes: Currently certificated teacher.

Credits: 3

Grade Mode: Letter

ECON 462 - International Trade

The theory of international trade. Alternative approaches for explaining the pattern and terms of trade. An examination of the gains from trade and commercial policy. Includes issues of protectionism, economic integration and strategic trade policy.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECONOMICS

ECON 463 - International Finance

Balance of payments, adjustment mechanisms, international monetary system and international interdependence. Topics include determinants of exchange rate policy, the relationship between domestic monetary and exchange rate policies, and international policy coordination.

Prerequisites & Notes: ECON 307.

Credits: 4

Grade Mode: Letter

ECON 465 - Development Economics

This course will study the special problems faced by the less developed countries of the world and the economic mechanisms that must be taken into account in raising living standards. Topics considered may include population growth, the demographic transition, savings and capital accumulation, education and human capital, health and human capital, institutions and the development process, the role of history and multiple equilibria, the role of expectations and multiple equilibria, and economic integration.

Prerequisites & Notes: ECON 306, ECON 307; DSCI 205 or MATH 341.

Credits: 4

Grade Mode: Letter

ECON 470 - Economic Fluctuations and Forecasting

Theory and techniques of forecasting economic trends at the macro, micro and regional levels. Application of regression and time-series methods using PC econometric/forecasting software.

Prerequisites & Notes: ECON 306 or ECON 307; ECON 375 or MATH 342

Credits: 4

Grade Mode: Letter

ECON 475 - Econometrics

Further topics in econometrics. Coverage may include systems of simultaneous equations, discrete-choice models, time series analysis, panel data, flexible functional forms, and nonparametric methods.

Prerequisites & Notes: ECON 306 or ECON 307; ECON 375 or MATH 342 or MATH 442

Credits: 4

Grade Mode: Letter

ECON 482 - Advanced Topics in Environmental Economics

Examines an extended set of applications in environmental economics, with a focus on deepening the student's understanding of the field.

Applications involve current controversies in environmental policy and management, as well as methodological issues. Topics include climate change, solid waste management and recycling, water quality, and other issues of current interest.

Prerequisites & Notes: ECON 383 or equivalent

Credits: 4

Grade Mode: Letter

ECON 483 - Resource Economics

Principles of efficient resource allocation over time, distributional equity and cost/benefit analysis. Examines minerals and other exhaustible resources; forests, fisheries and other renewable resources; and public goods such as water and wilderness.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECON 484 - Economics of Alternative Energy

Explores the economics of renewable energy and conservation. The economic history of renewable energy and the existing institutional framework are examined. Considers economic motivations for the expansion of renewable energy and conservation. Existing and prospective policies are analyzed. Examines the challenges associated with integrating renewable sources into existing energy systems. Various quantitative techniques are reviewed and practiced.

Prerequisites & Notes: ECON 383 and ECON 384

Credits: 4

Grade Mode: Letter

ECON 491 - Issues in Political Economy

Discussion and analysis of selected issues of significant economic and political content. Also offered as PLSC 491.

Prerequisites & Notes: senior standing; economics/political science combined major, or economics major/ political science minor, or permission of instructor.

Credits: 4

Grade Mode: Letter

ECON 493 - Senior Seminar: Economics, the Environment and Natural Resources

Discussion and analysis of selected issues in the economics of the environment and natural resources.

Prerequisites & Notes: senior standing; economics/environmental studies combined major; also offered as ESTU 493

Credits: 4
Grade Mode: Letter

ECON 495 - Seminar in Applied Econometrics

This course involves the preparation of either an empirical research paper of publishable quality or an empirical professional consultant report, by each student. Topics vary depending on students' projects. Advanced methods in Econometrics beyond those covered in ECON 375/ECON 475 will be addressed as needed for each of the research topics.

Prerequisites & Notes: ECON 306; ECON 307;
ECON 375; ECON 475.
Credits: 4
Grade Mode: Letter

Finance & Marketing

Introduction

The Department of Finance and Marketing provides the opportunity for study of business administration relating to financial and marketing management. These fields cover a variety of responsibilities in both public and private organizations. An emphasis on breadth, general knowledge and analytical skills pervades all levels of the undergraduate curriculum. Graduates from the finance and marketing department will have completed a broad business program plus a wide range of nonbusiness subjects, reflecting the department's belief that education should prepare students for satisfying achievements in life as well as business.

Program Objectives

Departmental programs have been designed to prepare students for leadership roles in business and the community.

The educational objectives of the department are to:

- Encourage intellectual inquiry
- Provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business
- Develop student understanding of the social, economic and regulatory environment of business
- Enhance educational opportunities through research activities of faculty and students

The program is designed for students with a variety of career goals including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Faculty

EDWIN A. LOVE (2008) Chair and Associate Professor. BA, Evergreen State College; MBA, University of Arizona; Ph.D, University of Washington.

CATHERINE ARMSTRONG SOULE (2014) Assistant Professor. BA, University of Montana; MBA, University of Montana; PhD, University of Oregon.

EARL D. BENSON (1980) Professor. BS, University of Idaho; MA, Pennsylvania State University; PhD, University of Oregon.

DAVID R. FEWINGS (1985) Associate Professor. BSc, University of Manitoba; MBA, PhD, University of Toronto.

PAMELA L. HALL (1990) Associate Professor. BS, MPA, DBA, Louisiana Tech University.

SOPHIE X. KONG (2006) Associate Professor. BA, Nanjing University of China; MS, PhD, Florida State University.

LEE D. McCLAIN (1991) Senior Instructor. BA, MA, University of Missouri-Columbia; MBA, University of Pennsylvania

SANDRA MOTTNER (2001) Associate Dean and Professor. BA, Mary Baldwin College; MBA, The College of William and Mary; PhD, Old Dominion University.

THOMAS J. OLNEY (1986) Associate Professor. AB, Cornell University; MBA, PhD, Columbia University.

DAVID S. RYSTROM (1983) Associate Professor. BS, UCLA; MS, California State University, Northridge; PhD, University of Oregon.

FARROKH SAFAVI (1969) Professor. BA, BS, MBA, University of Teheran; MBA, DBA, University of Southern California.

MARK G. STATON (2012) Assistant Professor. BA, University of Virginia; MBA Boston University; MS, PhD, University of Washington.

WENDY J. WILHELM (1986) Professor. BA, MS, Tufts University; MBA, Cornell University; PhD, University of Washington.

NICHOLAS X. WONDER (2002) Associate Professor. BA, University of Washington; PhD, University of California-Berkeley.

Departmental Mission

Finance

The finance faculty provides education in finance to develop students with the goal that they will lead, manage, and positively contribute to firms and other organizations. We originate research and serve our college, university and society at large with professional expertise.

Marketing

The marketing faculty provides education in marketing. We help undergraduates and MBA's to become better learners and thinkers able to manage firms and organizations in the public interest and in a global context. We originate research and we serve our college, university and society at large with professional expertise.

Declaration Process

See the College of Business and Economics introductory section of this catalog for declaration of pre-major and major requirements and procedures.

Other Departmental Information

The Curriculum

Development of the department's curriculum has been guided by the standards of the AACSB International—The Association to Advance Collegiate Schools of Business. Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and the business administration major foundation courses. Several foundation courses satisfy GURs, and careful planning can save time for additional elective course work. Electives that emphasize oral and written communication skills are particularly recommended.

The junior and senior years are devoted primarily to upper-division core requirements and elective course work. The department offers concentrations in finance and marketing. Students who wish to complete a concentration must pay close attention to class scheduling because of prerequisites and limited offerings of some courses. Additional specific information can be found at the department website, www.cbe.wvu.edu/fmkt/index.shtml

Business Applications Software

The use of personal computer systems to assist in data management, analysis and reporting of results is widespread in the curriculum of the finance and marketing department. Students are expected to have some proficiency in word processing and spreadsheet software at the time they enter upper-division finance and marketing department classes. The proficiency can be gained through several means, including formal class work at a university or community college, work experience or commercially offered classes. Students who have not otherwise gained these skills are expected to test out of or register for MIS 220 prior to their registration in DSCI 305, MIS 320, and FIN 341. Additional specific information can be found at www.cbe.wvu.edu/fmkt/index.shtml

Communications Requirements

All business majors are required to take one communication focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-, all taken within the College of Business and Economics (CBE). Consult the online Timetable of Classes for the specific course sections that fulfill the CF and WP requirements. The requirements may normally be met by

FINANCE & MARKETING

taking designated sections of concentration courses, but may be met by taking any other designated CBE course as well.

Student Advising

For answers to routine questions concerning preparation and progress through the major, students should consult the finance and marketing department and the department website. Non-routine questions should be directed to the department chair or the department's academic department manager. Questions concerning individual areas of study should be directed to faculty who teach in that area.

After the declaration of a major, a student will be assigned a faculty advisor with whom the student must consult concerning mandatory and elective courses in the chosen major and concentration. The faculty advisor may also be a source of information concerning career objectives and opportunities.

Enrollment Priorities

Because of high student demand for many business administration program courses, the department must give enrollment priority to students for whom those courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

Bachelor of Arts

Business Administration – Finance Concentration, BA

Department of Finance & Marketing, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems

5. Quantitative skills

Solve business problems using quantitative techniques

Why Consider a Finance Concentration in the Business Administration Major?

The field of Finance encompasses many different areas including investments, financial institutions, corporate finance and real estate. Coursework is offered in each of these areas as well as courses in options and futures, multi-national finance and insurance. A graduate with a concentration in Finance may work as a financial securities or loan officer analyst, as well as a business financial manager, portfolio manager, or financial planner stockbroker.

<http://cbe.wwu.edu/fmkt/finance.shtml>

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits and earned a GPA of 2.5 overall or 2.75 in the foundation courses they have completed, will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and meet one of the following GPA requirements:
Either: 1) a minimum GPA of 2.75 in the eight Foundation Courses listed below, including grades from transfer courses and Advanced Placement credit **or** 2) a cumulative GPA of at least 2.50 in all college-level course work including transfer work.
- Completion of all foundation courses with C- or better.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: <http://cbe.wwu.edu/dsci/mis-testout.shtml>.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Foundation Courses

FINANCE & MARKETING

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- MATH 157 - Calculus With Applications to Business and Economics
- MGMT 271 - Law and the Business Environment
- MIS 220 - Introduction to Business Computer Systems (or equivalent)

Core Courses

- DSCI 305 - Applied Business Statistics
- FIN 341 - Principles of Finance
- MGMT 311 - Introduction to Management and Organizational Behavior
- MGMT 382 - Business and Its Environment
- MIS 320 - Principles of Management Information Systems
- MKTG 380 - Principles of Marketing
- OPS 360 - Operations Management

Advanced Core

- One course from:
 - MGMT 492 - Entrepreneurial Problems
 - MGMT 495 - Strategic Management

Finance Concentration Courses

- FIN 440 - Investments
- FIN 441 - Intermediate Financial Management
- FIN 444 - Financial Institutions and Markets
- One course from:
 - FIN 448 - Portfolio Analysis and Management
 - FIN 449 - Cases in Financial Management
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Two courses from the list below:

One of these courses must be a 400-level course. (FIN 448 or FIN 449 may be used as one of these courses if not used for the requirement above.)

- FIN 345 - Real Estate
- FIN 442 - Multinational Corporate Finance
- FIN 443 - Topics in Finance
- FIN 446 - Derivatives Markets
- FIN 447 - Commercial Bank Management
- FIN 454 - Risk Management and Insurance
- FIN 456 - Commercial Real Estate Investment

- FIN 466 - Option Trading Strategies

One course from the list below:

- FIN 460 - Finance Apprenticeship
- FIN 490 - Internship in Finance
Or any FIN course listed above (FIN 345, 442, 443, 446, 447, 454, 456, 466) except any duplication of finance courses.
- ACCT 331 - Cost Management
- ACCT 341 - Intermediate Accounting Theory and Practice I
- ACCT 375 - Income Taxation I
- ECON 306 - Intermediate Microeconomics
- ECON 307 - Intermediate Macroeconomics
- ECON 310 - Public Finance
- ECON 411 - Monetary Economics

Business Administration – Marketing Concentration, BA

Department of Finance & Marketing, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Marketing Concentration in the Business Administration Major?

Marketing includes a variety of activities relating to product and service planning, pricing, communication and distribution. Many interesting career opportunities await marketing graduates, including product and brand

FINANCE & MARKETING

management, advertising, public relations, sales and sales management, marketing research, distribution/traffic management and retail management and merchandising. A strong background in behavioral sciences or computer applications will complement marketing studies.

 - Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Financial Economics, BA (see Economics Department)

Financial Economics, BA (see the Department of Economics)

Finance Courses

FIN 215 - Personal Finance

(Not intended for students who plan to be finance majors.) Sources of personal income, saving and

consumer spending patterns. Development of techniques for planning and budgeting consumption expenditures and saving, with special emphasis on the use of saving allocations to achieve personal goals; real property, insurance,

FINANCE & MARKETING

financial investment, retirement, estate and tax planning.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

FIN 216 - Personal Investing

Introduction to stocks, bonds, and other financial assets, risk and return, and basics of trading securities. Discussion of portfolios, diversification, asset allocation, mutual funds, risk tolerance, life cycle investing, tax issues, gender issues and behavioral finance.

Credits: 4
Grade Mode: Letter
GUR Attributes: QSR

FIN 341 - Principles of Finance

Core principles of financial management and goal of businesses, financial institutions and markets, time value of money, capital budgeting, stock and bond valuation, capital structure, risk and return, and financial analysis and planning.

Prerequisites & Notes: Sophomore status. ACCT 245, DSCI 205, MIS 220 or equivalent.
Credits: 4
Grade Mode: Letter

FIN 345 - Real Estate

Real estate law; government regulation of real estate use; development, marketing and financing of commercial and residential real estate.

Prerequisites & Notes: Majors Only. MGMT 271, FIN 341
Credits: 4
Grade Mode: Letter

FIN 440 - Investments

Operation of securities markets, investment risk and return, security characteristics, portfolio selection and management, introduction to options, mutual funds, stock and bond valuation, performance evaluation.

Prerequisites & Notes: Majors Only. FIN 341
Credits: 4
Grade Mode: Letter

FIN 441 - Intermediate Financial Management

An integrated approach to financial management including study of intermediate-level financial theory and its application to financial decision making under uncertainty.

Prerequisites & Notes: Majors Only. FIN 341.
Credits: 4
Grade Mode: Letter

FIN 442 - Multinational Corporate Finance

Introduction to multinational corporate financial management. International financial operations, capital structure and investment decisions, currency risk, hedging, and related topics with consideration of institutional, ethical, regulatory, demographic, cultural and financial environment issues.

Prerequisites & Notes: Majors Only. FIN 341.
Credits: 4
Grade Mode: Letter

FIN 443 - Topics in Finance

Varying topics in finance such as financial planning, capital budgeting, working capital management and multinational corporate finance. Repeatable with various topics to a maximum of 8 cr.

Prerequisites & Notes: Majors Only. Vary by topic.
Credits: 4
Grade Mode: Letter

FIN 444 - Financial Institutions and Markets

Determination and behavior of interest rates in financial markets; measurement and management of interest rate risk; pricing of financial instruments, primarily debt securities; function and description of financial intermediaries; purpose, functions, and description of financial markets.

Prerequisites & Notes: Majors Only. FIN 341
Credits: 4
Grade Mode: Letter

FIN 446 - Derivatives Markets

Pricing of options, futures, forwards, and swaps; role of derivative contracts in hedging, speculation, and arbitrage; institutional details of derivatives markets.

Prerequisites & Notes: Majors Only. FIN 440.
Credits: 4
Grade Mode: Letter

FIN 447 - Commercial Bank Management

Management of commercial banks and similar depository institutions, emphasizing the measurement and control of risk in asset and liability management. Issues in contemporary banking.

Prerequisites & Notes: Majors Only. FIN 444

Credits: 4
Grade Mode: Letter

FIN 448 - Portfolio Analysis and Management

Examination of issues and techniques associated with the management of investment portfolios. Topics include the development of market expectations, risk management, portfolio diversification, the inclusion of real assets and human capital in the portfolio decision, risk assessment, asset allocation, and portfolio performance measurement.

Prerequisites & Notes: Majors Only. DSCI 305 or ECON 375, FIN 440, FIN 444
Credits: 4
Grade Mode: Letter

FIN 449 - Cases in Financial Management

Case studies are utilized to develop insight and provide experience in the application of financial theory and practice to such decision-making areas as working capital management, capital budgeting, capital structure determination and dividend policy.

Prerequisites & Notes: Majors Only. FIN 441; DSCI 305 or ECON 375; knowledge of spreadsheets.
Credits: 4
Grade Mode: Letter

FIN 454 - Risk Management and Insurance

Personal and organizational risk and the means by which such risk may be minimized, transferred or otherwise managed. Employee benefits. Management and regulation of insurance companies.

Prerequisites & Notes: FIN 341
Credits: 4
Grade Mode: Letter

FIN 456 - Commercial Real Estate Investment

Investment strategy, selection, financing, appraisal of income properties such as rentals, apartments condos, office buildings, shopping centers and other secure purpose real estate.

Prerequisites & Notes: Majors Only. FIN 345
Credits: 4
Grade Mode: Letter

FIN 460 - Finance Apprenticeship

Finance-related employment, plus research and/or special project experience. Emphasis is on applying finance principles in an academically guided setting. Minimum requirements include a written proposal, daily/weekly journals of activities, and a comprehensive final report. Personal selling and

clerical activities are not acceptable. Four credits may be applied as one elective in the finance concentration, but credits may not be applied to the financial economics major. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: Majors Only. FIN 341, FIN 440. Permission of instructor.
Credits: 4
Grade Mode: Letter

FIN 466 - Option Trading Strategies

Focuses on experiential learning with each student creating and managing a portfolio of securities and options. A live paper trading platform offers real world trading experiences at real time market prices. Lectures and instructor guidance develops personal and professional knowledge and skills in using financial securities and derivatives markets.

Prerequisites & Notes: Majors only. FIN 440.
Credits: 4
Grade Mode: Letter

FIN 490 - Internship in Finance

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: Majors Only. Permission of instructor.
Credits: 1-4
Grade Mode: Letter

Marketing Courses

MKTG 380 - Principles of Marketing

Identification and analysis of relevant opportunities and constraints in consumer and industrial target markets. Management of the marketing mix including product planning, distribution institutions and activities, promotion and pricing.

Prerequisites & Notes: Junior status. ACCT 240 or ETEC 216; and ECON 206.
Credits: 4
Grade Mode: Letter

MKTG 381 - Fundamentals of Marketing Research

The primary tool for exploring new opportunities in the marketplace. Emphasis will be on how to: 1) specify information needs and design a research study to meet those needs; 2) collect, analyze and use marketing research data to make effective marketing decisions; 3) communicate the research findings and their implications to various publics.

FINANCE & MARKETING

This course should be taken concurrently with MKTG 382.

Prerequisites & Notes: Majors Only. MKTG 380; co-requisite MKTG 382.
Credits: 4
Grade Mode: Letter

MKTG 382 - Buying Behavior and Analysis
Perception, motivation, learning, attitude structure and change, social influences and cultural forces relevant to buyer behavior and decision processes. Implications for marketing planning, analysis and management.

Prerequisites & Notes: Majors Only. MKTG 380; co-requisite MKTG 381.
Credits: 4
Grade Mode: Letter

MKTG 384 - Marketing and Sustainability
This course will provide students with the skills for developing and marketing a sustainable product. It will cover key concepts and tools related to marketing mix decisions, such as product design-for-environment, pricing based on full cost accounting, greening of the supply chain, and life cycle impact assessment. Strategies for reducing the environmental impacts of products and services will be emphasized.

Prerequisites & Notes: MKTG 380. For Declared Business and Sustainability majors only. (CBE majors take MKTG 474).
Credits: 4
Grade Mode: Letter

MKTG 471 - Sports Marketing
Application of marketing principles and concepts in the sports industry. Includes sponsorships, branding, promotions, public relations, licensing, and sports consumer research and behavior.

Prerequisites & Notes: Majors Only. MKTG 380.
Credits: 4
Grade Mode: Letter

MKTG 473 - Innovation
This course explores strategies for effective commercialization of innovation and key concepts in branding. Course will focus on three frameworks for innovation management, and students will discuss and apply these frameworks through several business cases.

Prerequisites & Notes: Majors only. MKTG 381 and MKTG 382.
Credits: 4
Grade Mode: Letter

MKTG 474 - Marketing Strategies for Sustainability

This course will provide students with the skills for developing and marketing a sustainable product. It will cover key concepts and tools related to marketing mix decisions, such as product design-for-environment, pricing based on full cost accounting, greening of the supply chain, and life cycle impact assessment. Strategies for reducing the environmental impacts of products and services will be emphasized.

Prerequisites & Notes: Majors only. MKTG 381 and MKTG 382.
Credits: 4
Grade Mode: Letter

MKTG 475 - Brand Management

Analysis of brand strategies and concepts such as brand identity, brand equity, and the branding process.

Prerequisites & Notes: MKTG 380, MKTG 381, MKTG 382
Credits: 4
Grade Mode: Letter

MKTG 476 - Digital Marketing

Digital Marketing addresses the various ways that today's interactive online opportunities impact marketing decisions. Topics include: marketing research through "Big Data" analytics, product co-creation, online distribution channels, dynamic pricing, as well as owned, earned and paid media, Search Engine Optimization (SEO), Pay-Per-Click (PPC) promotion, social media campaigns and others. Both strategies and implementation will be discussed.

Prerequisites & Notes: MKTG 381 and MKTG 382.
Credits: 4
Grade Mode: Letter

MKTG 480 - Marketing Internship

Marketing-related employment, research or special project experience. Emphasis is on applying marketing principles in an academically guided setting. Minimum requirements include a written proposal and a comprehensive final report. Cannot be used as one of the two 400-level marketing elective prerequisites for MKTG 489; however, MKTG 480 may be used as one of the four 400-level MKTG electives in the marketing concentration.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382. Permission of instructor.

Credits: 4
Grade Mode: Letter

MKTG 481 - Advanced Marketing Research and Analysis

Focuses on advanced questionnaire design, enhancing the validity of survey research, value of information and multivariate analysis of market research data. The course is based around a market research project completed for a real business client.

Prerequisites & Notes: Majors Only. MKTG 381; MKTG 382; DSCI 305 or concurrent.

Credits: 4
Grade Mode: Letter

MKTG 482 - Personal Selling and Sales Management

Planning and implementation of personal selling activities. Management of the sales force -- objectives, recruiting, selection, training, motivation, compensation, evaluation and control. Emphasis on sustainable business-to-business selling.

Prerequisites & Notes: Majors Only. MKTG 382

Credits: 4
Grade Mode: Letter

MKTG 483 - Integrated Marketing Communications

Covers the different types of marketing communications and how to integrate them into a coherent IMC plan: advertising (media and creative strategies), sales promotion, public relations, direct marketing, event sponsorship, brand placement, internet advertising, search engine optimization, web site design, and viral communication tactics (e.g., social networks, user-generated content). Emphasis is on 'new media' and Web 2.0 strategies. Students develop a comprehensive IMC plan for an existing or invented product or service.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382

Credits: 4
Grade Mode: Letter

MKTG 484 - Retailing

Administration and strategic planning in large and small retail firms. Management of retail functions: stock planning, inventory control, markup and pricing, retail accounting, merchandising, retail promotion, human resources management, store location, design and layout, legal and ethical issues, information systems.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382.

Credits: 4
Grade Mode: Letter

MKTG 486 - International Marketing Management

Formulation and implementation of international marketing strategies. Analysis of the contemporary global marketing environment, marketing mix issues and decisions in international markets, global competitive analysis and strategy, organizing for international marketing, current problems and practices in multinational firms.

Prerequisites & Notes: Majors Only. MKTG 380

Credits: 4
Grade Mode: Letter

MKTG 487 - Nonprofit Marketing

Marketing strategies for all types of nonprofit organizations. Includes marketing mix, as well as fund raising, volunteer management, nonprofit branding, and the use of public media.

Prerequisites & Notes: Majors Only. MKTG 381

Credits: 4
Grade Mode: Letter

MKTG 488 - Topics in Marketing

Varying topics in marketing such as distribution systems, marketing on the internet, geographic information systems in business and direct marketing. Repeatable with various topics to a maximum of 8 cr.

Prerequisites & Notes: Majors Only. Vary by topic.

Credits: 4
Grade Mode: Letter

MKTG 489 - Marketing Management and Strategy

Application of marketing management and strategic concepts in a case problem and market simulation format. Emphasis on marketing planning, implementation of the marketing mix and utilization of market research information.

Prerequisites & Notes: Majors Only. MKTG 381; MKTG 382; and two 400-level marketing courses (excluding MKTG 490).

Credits: 4
Grade Mode: Letter

MKTG 490 - Customized Internship in Marketing

Practical application of skills and theories learned in the classroom through work or special project

FINANCE & MARKETING

experience in public or private organizations.
Repeatable to a maximum of 12 credits. Cannot be applied to the marketing concentration.

Prerequisites & Notes: Majors Only. MKTG 381 and MKTG 382. Permission of instructor.
Credits: 1-4
Grade Mode: Letter

Management

Introduction

Management describes what is perhaps the most challenging and difficult of human endeavors. It is the process by which we attempt to attain goals beyond the reach of a single individual. Collective action requires that we work effectively and efficiently with and through others. Managing is not a single skill, but rather a dynamic body of knowledge with the goal of the fusion of multiple and diverse skills possessed by many into a cohesive force, the effectiveness of which exceeds the sum of its parts. Management is eclectic, drawing upon the entire fund of human knowledge and experience that is necessary to attain the goals established. Management is also almost universal in application. Any time two or more people join together in pursuit of a common goal and one leads by virtue of skill, experience, personality or authority, management has been initiated.

DANIEL M. WARNER (1978) Professor. BA, JD, University of Washington; MA, Western Washington University.

Departmental Mission

The mission of the Department of Management at Western Washington University is to advance the understanding of managerial issues in a complex environment. We do this to challenge students and faculty to achieve their professional aspirations and civic responsibilities. To accomplish this we develop an environment where students and faculty learn, integrate, and apply business principles and liberal arts.

Our values, in no particular order, are:

Higher level learning. We value learning that integrates a variety of disciplines, perspectives, and ideas. Such learning occurs on more than a rudimentary basis. We promote intellectual rigor, lifelong learning, and critical thinking. We do this both in our own research and in our teaching. We engage in service for our professional areas to promote higher level learning throughout our disciplinary communities.

MANAGEMENT

Civic and community engagement. We are committed to giving our students an understanding of what it means to be a citizen of the world, community and organization. We want students to understand the importance of being engaged in the world for the sake of the organization they are a part of, but also for the benefit of the world in general, as well as for themselves. We model our commitment to civic and community engagement by serving our college and university in various roles. We also engage in service with the local community and the disciplinary communities we participate in as part of our profession.

Collegiality. By this we mean that we have respectful relationships with each other, we are open to feedback, and we communicate fully and truthfully with one another. We are interdisciplinary in our approach to research and teaching, and support each other in our own passionate pursuits. We are committed to service to our department, college and university so as to promote collegiality throughout our WWU system.

Professionalism. Professionalism is defined as presenting ourselves in a business-like manner in attire, speech, communication, and interpersonal relationships. We model professionalism and teach professionalism. We are professional with each other, our students, and community members who participate in our environment of teaching and learning. We provide our students with opportunities to practice professionalism in our classes and out in the community. We give feedback to our students in professional and ethical practice. We are professional in our service to the department, college, university and community.

Declaration Process

See the College of Business and Economics (CBE) introductory section of this catalog for declaration of pre-major and major requirements and procedures.

Other Departmental Information

The Curriculum

The development of the curricula in the Department of Management has been guided by the standards of the AACSB International-the Association to Advance Collegiate Schools of Business and those of the Academy of Management. These standards stress a broad education preparing students for managerial roles in business and leadership roles in society.

Curricular paths in the department are structured:

- To develop competence in analysis, decision making and evaluation in both public and private organizations
- To develop and enrich interpersonal skills
- To develop the competence to manage within the social, economic and international environment of organizations
- To provide access to the technical skills necessary in each of the major functional areas of organizations
- To enhance educational opportunity through the theoretical and applied research and business consulting activities of its faculty and students
- To encourage intellectual inquiry into the lessons and skills of the past and present so as to be able to affect the future
- To develop and promote ethical behavior and social responsibility in future managers

Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and foundation courses in the major. Several foundation courses also satisfy GUR. Careful planning may save time for additional elective course work. Electives which emphasize oral and written communication skills are particularly recommended. The junior and senior years are primarily devoted to core degree requirements and elective course work.

Sigma Iota Epsilon (ΣIE)

The Department of Management sponsors a chapter of the National Management Honorary, ΣIE. Membership is by invitation to declared majors in the department and is based on scholastic achievement and will be noted on the student's transcript. An induction is held annually in the winter quarter and several special events are scheduled throughout the year.

Student Advising

For answers to routine questions, and prior to declaration, students should consult this catalog and the department's Planning Guide. For non-routine questions, inquiry should be made at the departmental office for referral to an appropriate faculty member. A faculty advisor will be assigned to each student upon acceptance into the major.

Enrollment Priorities

Because of high student demand for Department of Management courses, the department must give enrollment priority to students for whom those courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

Bachelor of Arts

Business Administration - General Concentration, BA (Management)

Department of Management, College of Business and Economics

88-90 credits

Introduction?

The Business Administration program is designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary to make decisions and evaluate policies in business; another is to develop student understanding of the social, economic and regulatory environments in business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions

MANAGEMENT

Defend resolutions to problems

5. Quantitative skills

Solve business problems using quantitative techniques

Why Consider a General Concentration in Business Administration (Management) Major?

The College of Business and Economics prepares men and women for positions of leadership and stewardship in the management and administration of complex organizations — from small companies to large multinational enterprises. Students develop managerial skills, analytic economic skills and interpersonal sensitivities, as well as quantitative and accounting skills. All students earning a degree in Business Administration will develop significant understanding of management information systems and computing.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits and earned a GPA of 2.5 overall or 2.75 in the foundation courses they have completed, will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and meet one of the following GPA requirements:
Either: 1) a minimum GPA of 2.75 in the eight Foundation Courses listed below, including grades from transfer courses and Advanced Placement credit **or** 2) a cumulative GPA of at least 2.50 in all college-level course work including transfer work.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

How to apply: For consideration as a pre-major, provisional major or full major, complete the online application form at: <http://cbe.wwu.edu/cbe/students/application.shtml>.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: <http://cbe.wwu.edu/dsci/mis-testout.shtml>.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Foundation Courses

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- MATH 157 - Calculus With Applications to Business and Economics
- MGMT 271 - Law and the Business Environment
- MIS 220 - Introduction to Business Computer Systems (or equivalent)

Core Courses

- DSCI 305 - Applied Business Statistics
- FIN 341 - Principles of Finance
- MGMT 311 - Introduction to Management and Organizational Behavior
- MGMT 382 - Business and Its Environment
- MIS 320 - Principles of Management Information Systems
- MKTG 380 - Principles of Marketing
- OPS 360 - Operations Management
- One course from:
 - MGMT 492 - Entrepreneurial Problems
 - MGMT 495 - Strategic Management

General Concentration Courses

28 credits of approved upper-division elective courses:

Students in the department may elect to work with their faculty advisor in designing a set of upper-division courses appropriate to their academic interests. The resulting course of study shall have prior approval of the advisor and include the following: HRM 322 or HRM 422, MGMT 313 and five additional upper-division CBE courses. Students interested in entrepreneurial management or human resource management should select the general option and inform the department of that interest. They will be advised of the preferred courses for students intending to embark upon entrepreneurial or human resource management careers or careers in small business.

Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Business Administration — International Business Concentration, BA

Department of Management, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary to make decisions and evaluate policies in business; another is to develop student understanding of

MANAGEMENT

the social, economic and regulatory environments in business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an International Business Concentration in Business Administration Major?

An International Business concentration prepares a student to work with business relationships across borders in a variety of situations. Often combining some training in language and in other business areas, graduates should be able to help manage these business relationships that are central to the global environment that will define their careers. For more information, see the IBUS website.

The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Management Concentration in Business Administration Major?

A management concentration prepares a student to work with people in a variety of contexts. While other business disciplines focus on business tasks, management focuses on how to motivate others to accomplish these tasks efficiently and effectively with high quality results. Students learn how to manage projects, work with teams, implement changes, and be effective leaders.

Business and Sustainability, BA

Combined major offered by the Department of Management, College of Business and Economics, and the Department of Environmental Studies, Huxley College of the Environment

104-106 credits

Introduction

The State of Washington is a leader in responding to the societal imperative regarding environmental issues. This Bachelor of Arts degree in Business and Sustainability is an action component of the state's initiatives. This degree combines three areas of study that give graduates the necessary knowledge, skills, and abilities to operate in a changing economic and social environment.

Graduates from this program will possess:

- A fundamental knowledge of economics, giving them the skills to apply economic analysis to problems in sustainable business faced by modern organizations;
- A fundamental knowledge of environmental science and policy, giving them the ability to understand the social and political climate as well as the scientific issues involved in sustainable business;
- An extensive knowledge of business and management in the context of business sustainability giving them the basic skills needed to succeed in organizations.

Why Consider a Business and Sustainability Major?

A Business and Sustainability Major prepares a student to analyze environmental and social issues from multiple perspectives, decide on action steps to deal with those issues, and then implement those action steps successfully. Need for these actions will only grow as environmental issues, including climate change, waste, and pollution become more central in the operations of organizations. This degree compliments the state's initiative involving private enterprise, not-for-profit organizations, and government.

MANAGEMENT

How to Declare (Admission and Declaration Process):

Students planning to major in Business and Sustainability should declare their major as early as possible, preferably their first year at Western in either the College of Business and Economics, or Huxley College of the Environment.

College of Business and Economics:

Admission to programs in the College of Business and Economics (CBE) is selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a Business and Sustainability Major with pre-major, provisional major, or full major status, students must have completed the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.50 cumulative college GPA (including transfer work)

Completion of the CBE foundation courses is not required to declare this combined major in management.

Complete the online application form at <http://cbe.wwu.edu/cbe/students/application.shtml>.

Environmental Studies Department:

Students may apply for admission to the Environmental Studies program at any time by going to the central Huxley College office in the Environmental Studies Building 539, and filling out a declaration card. There are several advantages to doing so during the freshman or sophomore year. Environmental Studies students are ensured access to many ENVS preparatory and core classes, are assigned a faculty advisor who can assist in choosing courses and a major concentration, and are included in all Environmental Studies and Huxley communications.

Those pursuing joint programs offered by Environmental Studies with other Western academic units may also seek admission as ENVS students, although the preparatory and major requirements differ from those of the other ENVS majors as outlined in this catalog.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Foundation Courses (40 credits)

- ACCT 240 - Financial Accounting
- ACCT 245 - Managerial Accounting
- DSCI 205 - Business Statistics
- ECON 206 - Introduction to Microeconomics
- ECON 207 - Introduction to Macroeconomics
- ENVS 202 - Introduction to Environmental Studies and Sustainability
- MATH 157 - Calculus With Applications to Business and Economics
- MGMT 271 - Law and the Business Environment
- PLSC 250 - The American Political System
- One course from:
 - BIOL 101 - Introduction to Biology
 - CHEM 101 - Chemical Concepts

- Electives: Other courses under Advisement (minimum of 7 credits). Examples include:
 - ACCT 484 - Environmental Accounting/ Sustainability Reporting
 - ECON 343 - Population, Environment, and World Agriculture
 - ECON 384 - Energy Economics
 - ENVS 303 - Human Ecology and Sustainability
 - ENVS 471 - Campus Sustainability Planning Studio
 - ENVS 474 - Planning for Sustainable Communities
 - ENVS 487 - Conservation Psychology
 - MKTG 473 - Innovation
 - MKTG 487 - Nonprofit Marketing
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major colleges (College of Business and Economics, and Huxley College of the Environment). These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Minor

International Business Minor

College of Business and Economics

32 credits

Introduction

MANAGEMENT

This minor is designed for students who want to add an international business dimension to a major in another functional area, either in the College of Business and Economics or in one of the other majors at Western Washington University. The student who completes this minor will have a) a general introduction to the cultural, institutional and regulatory structures necessary to do international business; b) two courses that add more focused international knowledge, and c) a course on the management and strategic issues in doing business internationally. Students from outside the College of Business and Economics will also acquire a basic knowledge of the 'language' of business and economics.

Why Consider an International Business Minor?

An International Business Minor prepares a student to work with business relationships across borders in a variety of situations. Graduates should be able to help manage these business relationships that are central to the global environment that will define their careers.

Human Resource Management Courses

HRM 322 - Human Resource Management

Recruitment, selection, utilization and development of human resources, with emphasis on employee-management relations and relevant behavioral research.

Prerequisites & Notes: Majors Only. MGMT 271, MGMT 311.

Credits: 4

Grade Mode: Letter

HRM 422 - Human Resource Management Practicum

Experience-based course that covers both the theories and tools needed to understand the management of human resources. Topics include career planning, staffing, training, organizational

development, safety and employment law.

Prerequisites & Notes: MGMT 271 and MGMT 311

Credits: 4

Grade Mode: Letter

HRM 423 - Staffing

Recruiting and selection as related to organizational objectives. Legal requirements, selection models, validation and topical issues of importance.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 424 - Training and Development

Training as related to organizational objectives. Emphasis on training models, learning theory, evaluation methodologies, instructional techniques

MANAGEMENT

and topics of special interest.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 425 - Negotiations and Labor Relations

Uses cases, lectures and simulations to develop negotiation skills in a variety of management situations, including union-management relations. Issues include pre-employment discussions, collective bargaining, arbitration, mediation, agency, renegotiating contracts, and multiparty discussions.

Prerequisites & Notes: Majors Only. HRM 322.

Credits: 4

Grade Mode: Letter

HRM 426 - Current Issues in Human Resource Management

Current problems in human resource policy and practice.

Prerequisites & Notes: Majors Only. HRM 322.

Credits: 4

Grade Mode: Letter

HRM 427 - Compensation Administration

Examination of theories, models and procedures required to develop compensation and reward systems in organizations. Economic, psychological and social elements of compensation. Determination of compensation structures and differentials, forms of compensation and reward, compensation levels.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 490 - Internship in Human Resource Management

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable up to 12 credits.

Prerequisites & Notes: business administration students only.

Credits: 1-4

Grade Mode: Letter

International Business Courses

IBUS 370 - Introduction to International Business

Introduction to the environment and challenges of doing business abroad. Topics include country-market differences, trade and investment patterns, the international financial environment, issues in business-government relations and strategies for international business.

Prerequisites & Notes: ECON 206.

Credits: 4

Grade Mode: Letter

IBUS 372 - Cross-cultural Management

This course is concerned with various perspectives on, and elements of, differences in national culture, the relevance of cultural differences to key management issues, and applied issues associated with management in cross-cultural contexts. This means that the course considers various disciplinary approaches to understanding national culture, and relates them to key applied management topics such as motivation, leadership, decision making, and negotiations.

Prerequisites & Notes: Open to CBE majors.

IBUS 370 or MGMT 313. Students in other majors may request permission from instructor.

Credits: 4

Grade Mode: Letter

IBUS 470 - International Business Operations

Strategic and operational issues that firms face when they do business abroad. Themes include the competitiveness challenge, country-market analysis and entry strategies, negotiations and diplomacy, cooperative ventures, design and control of international operations, and various functional area issues.

Prerequisites & Notes: Majors Only. IBUS 370 or another international course in the College of Business and Economics.

Credits: 4

Grade Mode: Letter

IBUS 473 - International Trade Operations

Operations of firms using exporting as a means to serve foreign markets. Focus on export operations (documentation, transport, support services, financing), practical aspects of contract negotiations, alternative methods of export business arrangements.

Prerequisites & Notes: Majors Only. IBUS 370 or MKTG 486.

Credits: 4
Grade Mode: Letter

IBUS 474 - Topics in International Business
Varying topics in international business. This could include courses on business in specific areas of the world, specific international business topics (e.g. negotiation), or currently important topics in the international business field. May Be Repeated for Credit on a Different Topic (up to 8 credits).

Prerequisites & Notes: Majors Only. IBUS 370 or equivalent of permission of instructor.
Credits: 4
Grade Mode: Letter

IBUS 490 - Internship in International Business

Practical application of international business skills and theories learned in the classroom through work or special projects experience in private or public organizations. Repeatable to 12 credits.

Prerequisites & Notes: Majors Only. Business administration students only.
Credits: 1-4
Grade Mode: Letter

Management Courses

MGMT 201 - Introduction to Business

A survey of the field. Introduction to the major functional areas comprising business or organizations. Recommended for students not intending to major in the College of Business and Economics.

Credits: 4
Grade Mode: Letter
GUR Attributes: QSR

MGMT 202 - Perspectives on Business

An introduction to perspectives on the nature of business in society, the development of the firm and how organizations function.

Prerequisites & Notes: Enrollment in CBE Distinguished Scholars Program
Credits: 2
Grade Mode: Letter

MGMT 271 - Law and the Business Environment

Historical development of legal institutions, the judicial process, and impact of the law upon individual and business decision making.

Prerequisites & Notes: only one of MGMT 271,

PLSC 311, or FAIR 311B may be taken for GUR credit.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

MGMT 311 - Introduction to Management and Organizational Behavior

Introduction to organization theory, behavior and interpersonal communication; concepts of power, authority and influence; the role of philosophy and values in organizations.

Credits: 4
Grade Mode: Letter

MGMT 313 - Teamwork Basics

An introduction to teamwork concepts and skills. Covers structural and process attributes of teams with the objective of enhancing team leader or member effectiveness.

Prerequisites & Notes: Majors Only. MGMT 311
Credits: 4
Grade Mode: Letter

MGMT 319 - Business Communications

Business writing principles applied to various types of communications and reports. Cases used; work must be submitted in acceptable business format.

Prerequisites & Notes: ENG 101 or equivalent
Credits: 4
Grade Mode: Letter

MGMT 337 - Management Study Abroad

Management elective credit for upper-division courses taken at a WWU-approved study abroad program. Students must present sufficient documentation to show the material was successfully completed with a letter grade and the content is appropriate for upper-division elective credit in management. Repeatable up to 12 credits. S/U grading.

Prerequisites & Notes: Majors only.
Credits: 4
Grade Mode: S/U grading

MGMT 359 - Greening Business Policy and Practice

This course will provide both a survey and applications of major U.S. and Washington state policies and practices supporting the greening of business. Also offered as ENV5 359.

Prerequisites & Notes: Completion of Huxley

MANAGEMENT

ENVS Major Phase I or ESCI Major or CBE Major or permission of instructor.

Credits: 4

Grade Mode: Letter

MGMT 365 - Industrial Purchasing

This course will provide both a survey and applications of major U.S. and Washington state policies and practices supporting the greening of business. Also offered as ENVS 359.

Prerequisites & Notes: MGMT 360

Credits: 4

Grade Mode: Letter

MGMT 380 - Business History of the United States

Business history of the United States. Review and analysis of the organizational methods, performance, climate and entrepreneurship of American business from 1780 to the present.

Prerequisites & Notes: ECON 206

Credits: 4

Grade Mode: Letter

MGMT 382 - Business and Its Environment

A study of the business decision-making process as these decisions interact with the social, technological, political/legal and economic environments. The causes and effects of the regulation of business are developed and explored.

Prerequisites & Notes: Majors only. MGMT 271.

Credits: 4

Grade Mode: Letter

MGMT 401 - Conflict Management and Negotiations

Examination of the theory and practice of interpersonal conflict management and negotiations in organizations. Uses cases and simulations to develop negotiation skills. Topics include conflict resolution, distributive and integrative negotiation techniques and outcomes, mediations, and collaboration.

Prerequisites & Notes: Majors Only. MGMT 313

Credits: 4

Grade Mode: Letter

MGMT 413 - Organizational Change Practicum

Field-based course that covers both the theories and tools needed to implement change in organizations. Topics include individual resistance to change, ethics in change management and consulting, issues in organizational change, organizational development, and change management.

Prerequisites & Notes: Majors Only. MGMT 313.

Credits: 4

Grade Mode: Letter

MGMT 414 - Leadership Practicum

A problem-based leadership course with emphasis on leading teams, leading organizational change, and self-leadership.

Prerequisites & Notes: Majors Only. OPS 461;

MGMT 313.

Credits: 4

Grade Mode: Letter

MGMT 417 - Social Entrepreneurship

This course is about using entrepreneurial skills to craft innovative responses to social problems. Entrepreneurs are particularly good at recognizing opportunities, exploring innovative approaches, mobilizing resources, managing risks, and building viable enterprises. These skills are just as valuable in the social sector as they are in business. Social entrepreneurship applies to both profit and non-profit firms who have programs designed to create social value.

Prerequisites & Notes: MGMT 271

Credits: 4

Grade Mode: Letter

MGMT 466 - Greening Business Applications

This course is an experiential capstone combining faculty and student teams from the College of Business and Economics and Huxley College of the Environment. Student groups prepare a Green Business Assessment for a community or campus organization and compile, distribute, and present a final report to the campus and the client organizations. Also offered as ENVS 466.

Prerequisites & Notes: CBE Major or Huxley Major or permission of instructor; priority given to majors in Business and Sustainability. Senior status.

Credits: 5

Grade Mode: Letter

MGMT 474 - Topics in Management

Varying topics in Management. Courses cover current issues and trends in the management field. Repeatable with different topics up to 8 credits, including original course.

Prerequisites & Notes: Majors only; MGMT 313.

Credits: 4

Grade Mode: Letter

MGMT 481 - Managing Cultural Diversity

Management of persons from diverse countries and cultures. Culture-specific issues and issues of diversity in the workplace. Problems, cases and research assignments associated with managing in a multicultural and international work environment.

Prerequisites & Notes: Majors Only. MGMT 311
Credits: 4
Grade Mode: Letter

MGMT 483 - Ethics in Business Decisions

An investigation of ethical theories and their application to issues faced by managers. An analysis of the morality of capitalism as a social system, and the ethical issues involved in international business operations.

Prerequisites & Notes: Majors Only. MGMT 382
Credits: 4
Grade Mode: Letter

MGMT 490 - Internship in Business Administration

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable to 12 credits. Also offered as IBUS 490.

Prerequisites & Notes: Majors Only.
Credits: 4
Grade Mode: Letter

MGMT 491 - Small Business Entrepreneurship

Planning, marketing, financial, legal, control and human elements associated with the start up, acquisition and operation of a small business from the entrepreneurial point of view.

Prerequisites & Notes: Majors Only. MGMT 311, FIN 341, MKTG 380, OPS 360, and MIS 320 or ACCT 321.
Credits: 4
Grade Mode: Letter

MGMT 492 - Entrepreneurial Problems

Field consulting work and study under faculty supervision with small business entrepreneurs in the local business community, directed towards solving varied real-life small business problems.

Prerequisites & Notes: Majors Only. MGMT 491
Credits: 4
Grade Mode: Letter

MGMT 495 - Strategic Management

Case study of policy making and administration from a general management point of view. Emphasis on problem analysis, the decision-

making process, administration and control, and development of policies and objectives.

Prerequisites & Notes: Majors Only. MGMT 311, FIN 341, MKTG 380, OPS 360, and MIS 320 or ACCT 321.
Credits: 4
Grade Mode: Letter

Master of Business Administration

Program Description

The Master of Business Administration (MBA) program is a rigorous, integrated graduate business program designed to prepare students for responsible leadership positions in private, public and not-for-profit organizations, as well as in entrepreneurial ventures. The Western MBA curriculum provides a balance of theory and application essential for managerial excellence. The program is intended for the active manager and technical supervisor as well as those looking for new opportunities at the mid-management level. Regardless of undergraduate degree, candidates will find a challenging program designed to meet their specific background and needs. The program is distinguished by small classes, collegial relationships among faculty and students, and a diverse student body.

The College of Business and Economics is accredited by AACSB International-The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Program Mission

The Western MBA is a high-quality general graduate business program that develops organizational leaders who integrate strong managerial skills with a solid foundation in the core business functions within a global context.

Program Learning Goals

The typical student graduating from Western Washington University's MBA program shall:

- Validate mastery of discipline-specific business knowledge and analytical skills
- Integrate functional areas of business knowledge across disciplines
- Synthesize functional business knowledge within strategic organizational framework
- Illustrate ability to apply critical thinking and ethical decision making to complex business problems
- Exhibit competence in applying interpersonal and managerial skills within an institutional context
- Demonstrate ability to motivate others to achieve strategic outcomes
- Be conscientious in the application of business knowledge
- Create an orientation of personal responsibility, respect and professionalism
- Transform followers to leaders

Admission Prerequisites

Knowledge prerequisites: Normally an applicant to the program must have completed a college-level calculus course or otherwise demonstrate knowledge and proficiency in quantitative methods prior to entering the program. It also is expected that entering students will have proficiency in the use of microcomputers and common business software such as spreadsheets. Well-developed communications skills also are important.

Graduate Faculty

Deepinder Bajwa (1999) PhD, management information systems.

Earl D. Benson (1980) PhD, finance.

Brian K. Burton (1995) PhD, business environment.

Craig Dunn (2005) PhD, business environment.

Brandon Dupont (2006) PhD, economic history, labor economics.

David R. Fewings (1985) PhD, finance.

Joseph E. Garcia (1985) PhD, organizational behavior.

David L. Gilbertson (1988) PhD, auditing/financial accounting.

Steven Globerman (1994) PhD, international business.

Daniel A. Hagen (1988) PhD, environmental/international/labor/microeconomics.
Pamela L. LaBorde (1990) PhD, finance.
Peter Haug (1986) PhD, operations management.
Steven E. Henson (1985) PhD, microeconomics, applied econometrics.
L. Hart Hodges (2005) PhD, natural resources, applied business.
Stella Hua (2002) PhD, operations management and quantitative methods.
Marguerite R. Hutton (1989) PhD, taxation.
Jason M. Kanov (2007) PhD, organizational behavior
Ilhyung Kim (2004) PhD, operations and technology management.
Jongwook Kim (2003) PhD, business policy and strategic management.
Shawn Knabb (2005) PhD, macroeconomics, public finance, growth.
John Krieg (2000) PhD, econometrics, money and banking, macroeconomics.
Floyd L. Lewis (1983) PhD, management information systems.
Edwin A. Love (2008) PhD, marketing
Marko Madunic (2009) PhD, business policy and strategic management & international business
Sandra Mottner (2001) PhD, marketing.
Dennis R. Murphy (1979) PhD, managerial decisions/international finance.
David M. Nelson (1977) PhD, macroeconomics/money markets.
Thomas J. Olney (1986) PhD, marketing.

George D. Sanders (1995) PhD, financial/governmental accounting.
J. Christopher Sandvig (2001) PhD, management information systems.
Mary Sass (2005) PhD, organizational behavior and development.
Stephen V. Senge (1985) CMA, DBA, managerial accounting
Khim L. Sim (2008) PhD, managerial accounting
William R. Singleton (1976) PhD, taxation.
Mark Springer (1987) PhD, operations management.
Paul Storer (1996) PhD, economics.
Ozan Sula (2006) PhD, international finance, macroeconomics, money and banking.
Audrey Taylor (2001) PhD, managerial accounting.
Craig Tyran (2001) PhD, management and information systems.
Kristi M. Tyran (2001) PhD, organizational behavior.
Daniel M. Warner (1978) JD, business law.
Wendy J. Bryce Wilhelm (1986) PhD, marketing.
Nicholas Wonder (2002) PhD, corporate finance.
Zhe George Zhang (2000) PhD, statistics.

Master of Business Administration

Business Administration, Accelerated, MBA

Program Application / Admission Requirements

The Western Washington University Accelerated MBA program invites applications from students with any undergraduate major. Current MBA admissions criteria include a minimum 3.00 upper-division undergraduate GPA, an acceptable GMAT or GRE score, a résumé, and a statement of purpose. International students must also submit a TOEFL score of at least 227 for the computer-based test, 567 for the paper-based test, or 86 for the Internet-based test.

To apply for admission, send a completed official application form to the Graduate School along with an application fee, official transcripts, GMAT or GRE scores, personal statement of background and intentions, and a résumé showing work experience. (Further information, including deadlines, is provided in the Graduate School section of this catalog.)

MASTER OF BUSINESS ADMINISTRATION

Admit Quarters: Summer (accelerated track).

Deadline: Application deadline is May 1. International students are encouraged to submit applications by February 1 to ensure adequate time for admission decision and application for student visa.

Specific Test Requirements: Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores are required. Test scores may be waived if an applicant has an advanced degree - MA, MS, or PhD. Test of English as a Foreign Language (TOEFL) must be submitted by applicants who are not native speakers of English.

Supporting Materials:

- Application with \$100 fee (subject to change)
- One set of official transcripts from all previous college-level work (no more than two years old)
- Personal statement of background and intention
- Résumé showing work experience

The Curriculum

The Accelerated Full-Time MBA Program serves outstanding students who have recently completed an undergraduate degree in a business-related field or who have extensive managerial experience.

Program Requirements (52 credits)

- MBA 516 - Managerial Decisions
- MBA 524 - Management and Leadership Skills
- MBA 541 - Managerial Finance
- MBA 573 - Project Management
- MBA 591 - Strategic Management
- MBA 598 - Business Consulting Capstone 1
- MBA 599 - Business Consulting Capstone 2
- Electives (12 credits)

The MBA 598/MBA 599 sequence serves as a comprehensive exam. Information contained in the MBA program section of the catalog is subject to change; please contact the MBA program for the most current information.

Other Requirements

Students must demonstrate competence through substantive experience in an organizational setting. This must be done through formal evaluation by a supervisor, and can be accomplished either before or during the student's time in the program. More details on this requirement can be obtained from the MBA program office.

Academic Probation

The Graduate School requires that all graduate students maintain a 3.00 GPA (on a 4.0 scale) to be a candidate for a degree and to remain in good academic standing. Students in the MBA program falling below this standard will automatically be placed on academic probation and will be allowed a maximum of 16 credits of course work to raise their cumulative GPA to 3.00 or better. If, after completing 16 additional credits, a student has failed to achieve good standing, that student may only be allowed to continue MBA studies with special permission.

In no case will a student be recommended for a master's degree without having achieved a 3.00 GPA or better.

Student Advising

For answers to routine questions concerning preparation and progress through the program, students should consult this catalog and the program Website. Nonroutine questions should be directed to the program director, assistant director or program manager.

Business Administration, Evening Part-Time, MBA

Program Application / Admission Requirements

The Western Washington University Evening MBA program invites applications from students with any undergraduate major. Current MBA admissions criteria include a minimum 3.00 upper-division undergraduate GPA, an acceptable GMAT or GRE score, a résumé, and a statement of purpose. International students must also submit a TOEFL score of at least 227 for the computer-based test, 567 for the paper-based test, or 86 for the Internet-based test.

To apply for admission, submit a completed official application form to the Graduate School along with an application fee, official transcripts, GMAT or GRE scores, personal statement of background and intentions, and a résumé showing work experience. (Further information, including deadlines, is provided in the Graduate School section of this catalog.)

Admit Quarters: Summer, even-numbered years (part-time track).

Deadline: Application deadline is May 1. International students are encouraged to submit applications by February 1 to ensure adequate time for admission decision and application for student visa.

Specific Test Requirements: Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores are required. Test scores may be waived if an applicant has an advanced degree - MA, MS, or PhD. Test of English as a Foreign Language (TOEFL) must be submitted by applicants who are not native speakers of English.

Supporting Materials:

Master of Business Administration Courses

MBA 502 - Microeconomics

An analytic approach to the theory of the consumer, the firm and markets. Emphasis is placed on the development of managerial tools for understanding supply and demand concepts and the determination of prices in various market settings for both outputs and inputs. The problems of market efficiency, externalities and public goods are also considered from an analytical and policy perspective.

Prerequisites & Notes: Admission to the MBA program.

Credits: 4
Grade Mode: Letter

MBA 503 - Macroeconomics

The study of the national economy and the interpretation of national economic performance. Material includes the causes and policy remedies for business cycles, unemployment, inflation and the twin deficits (government and foreign trade). Topics such as Keynesian and classical theories, monetary and fiscal policy, and international trade are studied in an analytic perspective with emphasis on the behavior of business cycles and the issues facing the national economy in an international setting.

Prerequisites & Notes: Admission to the MBA program.

MASTER OF BUSINESS ADMINISTRATION

Credits: 4
Grade Mode: Letter

MBA 504 - Statistical Methods

Provides an understanding of some of the tools that enable a manager to analyze information, including data analysis, probability distributions, statistical inference and hypothesis testing, and multivariate regression analysis.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 505 - Business Finance

Objectives, tools and techniques of finance from the viewpoint of the financial manager of a manufacturing firm. Focus is on corporate financial decisions encompassing investment, financing, dividends and working capital management, including an introduction to financial instruments and markets.

Prerequisites & Notes: Admission to MBA program; MBA 510
Credits: 4
Grade Mode: Letter

MBA 506 - Corporate Information Systems Management

Case study of the current and potential applications of information technology to enhance the competitive posture of the corporation. Uses of information technology throughout the organization; management and control of the information technology function.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 507 - Managing Organizations and People

The purpose of this course is to help students understand the complexities of organizations. It provides exposure to theories of organization, important organizational issues and processes, and a variety of strategies and tactics useful to successfully manage organizations and people.

Prerequisites & Notes: Admission to MBA program
Credits: 4
Grade Mode: Letter

MBA 508 - Operations Management

Surveys the fundamentals of operations management and further develops the student's competence through case analyses. Dual emphasis on concepts and applications prepares students for all aspects of managing an operation. Detailed coverage of operations design, planning and control.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 509 - Marketing Management

Staffing, direction and coordination of organizational marketing activities. Development of new products and integration with current activities to meet evolving market needs. Includes sales and advertising in both national and international markets.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 510 - Financial Accounting and Reporting Concepts

Introduction to financial statements and the concepts, principles and theories of asset valuation and income determination underlying their preparation. Analysis and interpretation of financial statements in the perspective of the management decision-making process.

Prerequisites & Notes: Admission to MBA program
Credits: 4
Grade Mode: Letter

MBA 511 - Managerial Accounting

Conceptual approach to managerial accounting's role in an organization. Emphasis on the use of accounting information for management decision making. Topics include accounting for planning and control purposes, behavioral implications associated with accounting informations, budgeting and various quantitative techniques available.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 514 - Managerial Foundations

Introduction to professional management and foundation coverage of managerial skills, microeconomics, global competition, financial reporting, and business statistics.

Prerequisites & Notes: Admission to MBA Program
Credits: 16
Grade Mode: Letter

MBA 515 - Internal and External Forces Impacting the Manager

Examination of the range of internal and external forces that impact managerial decisions. Topics include global competition, the national and international economy, corporate information systems, foundation concepts in marketing, operations management, finance, people and organizations.

Prerequisites & Notes: MBA 514
Credits: 16
Grade Mode: Letter

MBA 516 - Managerial Decisions

Links managerial decisions with specific functional areas of study such as marketing, operations, accounting, finance, and organizational behavior. The focus of these modules is cross-functional decision making in the context of global competition.

Prerequisites & Notes: MBA 515 or admission to the accelerated full-time MBA program.
Credits: 16
Grade Mode: Letter

MBA 520 - Seminar in Corporate Governance

This course outlines the particular issues and mechanisms of contemporary corporate governance - the system by which companies are directed and controlled. The topic of corporate governance is elaborated from the institutional as well as organizational and managerial points of view, against the backdrop of an understanding of how corporate governance has evolved over time.

Prerequisites & Notes: MBA 516 or MBA 594, or permission of instructor.
Credits: 4
Grade Mode: Letter

MBA 523 - Negotiations and Labor Relations

Analysis, explanation, and evaluation of negotiation in organizations. Application of negotiations to labor relations in unionized and non-unionized workplaces. Issues include pre-employment discussions, collective bargaining, arbitration, mediation, agency, renegotiating contracts, and multiparty discussions.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 524 - Management and Leadership Skills

Interpersonal skill building in critical management areas including stress management, delegation, communication, power and influence, meetings and conflict management.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 525 - Seminar in Management

Intensive examination of selected topics in management. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 528 - Diversity in Organizations

An examination of how diversity in organizations places increasingly complex demands and creates new opportunities for organizations in managing human capital.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 529 - Influence, Power and Politics in Organizations

The analysis, explanation and evaluation of power and politics in organizations. Introduces frameworks for assessing the sources of power in organizations, the conditions that lead to its attainment, and its effective use from both a practical and an ethical perspective.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 532 - Marketing Strategy

Integration of marketing principles with overall objectives of the organization. Concepts and analytical techniques facilitating marketing analysis and the development of strategic plans. Strategy formulation in product planning and development, distribution and promotion, marketing research, and consumer behavior.

Prerequisites & Notes: MBA 509 or MBA 516
Credits: 4
Grade Mode: Letter

MBA 534 - Seminar in Marketing

Focuses on selected traditional and contemporary topics in marketing theory, planning, strategy,

MASTER OF BUSINESS ADMINISTRATION

management and practice. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 535 - Buyer and Consumer Behavior

An overview of the theories and research that underlie the analysis of buyer and consumer behavior central to the formulation of marketing tactics and strategic plans.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 539 - Seminar in International Business

Intensive examination of selected topics in international business. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 541 - Managerial Finance

Theory and policy implications of financial decision making. Emphasis on valuation, long-term financing and investment/merger decisions.

Prerequisites & Notes: MBA 505, MBA 511; or MBA 516
Credits: 4
Grade Mode: Letter

MBA 542 - Equity Markets and Portfolio Analysis

An examination of investment risk and return, the operation of equity securities markets, equity valuation models, modern portfolio theory and portfolio management. Also includes capital market efficiency, stock options and mutual funds.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 543 - Financial Markets, Derivative Instruments and Risk Management

A mix of seminars and case discussions are used to study the application of recent innovations in financial management. Includes financial futures and options as well as interest rate caps, floors, collars and swaps. Foreign currency risk exposure and management are studied in the context of international financial management. Other topics include pension fund design and management, asset securitization and financial distress.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 544 - Seminar in Finance

Intensive examination of selected topics in finance. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 551 - Managerial Economics

Economic analysis provides the framework to consider the problems of resource allocations that confront managers in business, government and nonprofit environments. Topics include consumer choice and demand for products, production and cost functions, alternative market structures and the profit criteria for long-run planning and investment decisions.

Prerequisites & Notes: MBA 502, MBA 503, MBA 504; or MBA 516
Credits: 4
Grade Mode: Letter

MBA 555 - Seminar in Economics

Intensive examination of selected topics in economics. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516.
Credits: 4
Grade Mode: Letter

MBA 562 - Taxation

A continuation of taxation topics, with emphasis on compensation and retirement planning, estate, gift and trust taxation, and international taxation. Advanced research, planning, and tax policy are also a fundamental part of the course.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 565 - Seminar in Accounting

Intensive examination of selected topics in accounting. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 566 - Managerial Accounting and Control

Seminar/case study course. Focus on managerial accounting topics such as responsibility centers and transfer pricing; budgeting; and analysis of performance. Examines managerial accounting in international, service and not-for-profit entities.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 567 - Financial Statement Presentation and Analysis

Study of reporting issues from a management perspective. Introduction to the tools and techniques of financial statement analysis. Use of financial statements by external and internal decision makers. Emphasis on the development of communication and computer skills.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 571 - Database Systems Design and Development

Design, development, implementation, and administration of database management systems.

Prerequisites & Notes: MBA 516 or MBA 506.
Credits: 4
Grade Mode: Letter

MBA 572 - Business Intelligence

Business intelligence (BI) is a broad category of applications and technologies for gathering, sorting, analyzing, and providing access to data to help enterprise users make better business decisions. BI applications generally include: decision support systems, business analytics, performance management (key business indicators, scorecards, and dashboards), data warehouses, and data mining. The course will include both conceptual and skill components, including projects using appropriate software platforms.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 573 - Project Management

Explores the fundamental concepts and principles for understanding the processes found in project life cycle stages, such as starting and planning a project, running a project and delivering a project. Applies specific processes, tools and techniques to manage complexity and performance of projects in organizations.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 574 - Enterprise Resource Planning

The course introduces students to the integrated business planning and execution systems currently in use by most large and medium-sized organizations. Although the course is taught primarily from the vantage point of the supply chain management function, the cross-functional nature of the topic requires discussion of the marketing, accounting, and human resources components of ERP as well. Students will also gain experience with SAP R/3 and a small-market ERP package.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 575 - Seminar in Decision Sciences

Intensive examination of selected topics in decision sciences. Repeatable with different topics and course content.

Prerequisites & Notes: MBA 516
Credits: 4
Grade Mode: Letter

MBA 585 - Seminar in Environmental Management

This course stresses the appropriateness of assessing the impact(s) of corporate action on the natural environment. Primary consideration will be given to the organizational implications of shifting from the traditional input-process-output ('cradle-to-grave') organization model to an input-process-output-input ('cradle-to-cradle') mindset. Strategic business opportunities associated with an evolving consumer environmental consciousness will be explored.

Prerequisites & Notes: Admitted Graduate Student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 591 - Strategic Management

Study of administration and policy making from a top-management viewpoint. Integrates the marketing, financial, production and functional fields of management within a strategic management framework. Case study and simulation techniques used.

Prerequisites & Notes: MBA 516; or MBA 595 or concurrent.
Credits: 4
Grade Mode: Letter

MASTER OF BUSINESS ADMINISTRATION

MBA 594 - Introduction to Professional Management

Explores the responsibilities and tasks of management, the characteristics of successful managers, various contexts of management, elements of strategic decision making at various levels of the organization, and an introduction to global business issues.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 595 - Competing in a Global Environment

Explores the effect of various aspects of globalization on markets, managers, and business strategy, with emphasis on both corporate and functional-level issues.

Prerequisites & Notes: Admission to the MBA program.
Credits: 4
Grade Mode: Letter

MBA 598 - Business Consulting Capstone 1

This first in a sequence of two four-credit capstone courses engages students in working on real business problems with companies of their choice in a 3-4 student team. MBA students work together as a consulting team with a client and advisor to develop solutions that will be put to use by the client. Student teams develop integrative analyses and recommendations, culminating with delivery of a final report and presentation to the client senior management.

Prerequisites & Notes: MBA 524 and MBA 591
Credits: 4
Grade Mode: Letter

MBA 599 - Business Consulting Capstone 2

This second in a sequence of two four-credit capstone courses engages students in working on real business problems with companies of their choice in a 3-4 student team. MBA students work together as a consulting team with a client and advisor to develop solutions that will be put to use by the client. Student teams develop integrative analyses and recommendations, culminating with delivery of a final report and presentation to the client senior management.

Prerequisites & Notes: MBA 598
Credits: 4
Grade Mode: Letter

College of Fine and Performing Arts

Introduction

Dr. Kit Spicer, Dean

The College of Fine and Performing Arts, consisting of the departments of art, design, music, and theatre and dance, provides an educational environment for enhancing the creation, development, performance and teaching of the fine and performing arts and design. Through its facilities and programs, the College has a strong presence on campus. The University's Concert Hall, the Mainstage Theatre, and more intimate performance venues are housed in the College, as well as classrooms, art studios, design labs, the PAC Galleries, and the Western Gallery. The College also is responsible for public art throughout the campus in the form of the internationally recognized Outdoor Sculpture Collection.

The goal of the College of Fine and Performing Arts is to nurture a comprehensive understanding of the languages of dance, visual art, theatre, design and music in order to create thinking artists and artistic thinkers who will shape culture in the 21st century.

To fulfill this mission, the College of Fine and Performing Arts maintains a viable connection with the liberal arts tradition of the University; equips students with the creative and intellectual tools necessary for success in the arts; enables students to value, understand, and challenge traditional concepts; maintains an environment that supports diversity, reflection, and dedication to creative pursuits; promotes critical thinking, innovative ideas and active arts leadership; provides world class and multicultural experiences in the arts for both students and members of the community; and prepares students for a dynamic, lifelong relationship with the arts.

Academic Programs Leading to Undergraduate and Graduate Degrees

Art	BA, BAE, BFA
Design	BA, BFA
Music	BA, B/Mus, M/Mus
Theatre and Dance	BA, BFA

Majors/Minors

In addition to the General University Requirements and other common degree requirements, a candidate for a bachelor's degree must complete a major from one of the departments within the College of Fine and Performing Arts. Minors are also offered in art, dance, music, and theatre arts.

Student/Faculty-Designed Major

The student/faculty-designed major is a major for a bachelor's degree granted by the College of Fine and Performing Arts. Each major is approved by the Curriculum Committee of the College of Fine and Performing Arts. Approval should come after 45 — and before 90 — credits are completed.

Potential candidates for this degree should contact the College of Fine and Performing Arts Dean's Office for information.

College Admission and Advisement

Admission

A student is admitted to the College of Fine and Performing Arts when he or she has been admitted to Western Washington University and has officially declared and been accepted as a major, and who has passed

COLLEGE OF FINE AND PERFORMING ARTS

portfolio review or the audition required in the various discipline areas of the College. Advising is provided in the individual departments.

Requirements for Bachelor's Degree

Besides the general requirements for graduation from the University, explained elsewhere in this catalog, the College of Fine and Performing Arts has the following specific requirements:

The Bachelor of Music degree may require more than the usual 180 credit hours.

The Bachelor of Fine Arts degree is the professional undergraduate degree requiring study beyond the normal four years.

Departments, Courses and Programs

Courses listed in this *General Catalog* constitute a record of the total academic program of the University. For an exact scheduling of courses at Western, students should consult the annual online *Timetable of Classes*, the *Summer Bulletin* on the Web and the *Extended Education Programs'* bulletins.

Art

Introduction

The Department of Art offers programs in three interrelated areas of study: art studio, art education and art history. The programs are designed to enhance artistic and intellectual inquiry across and within disciplines. The programs, classes and workshops combine practice in visual skills with rigorous critical analyses, providing an environment that fosters lively dialog and energetic engagement. With innovative and well-established approaches to teaching, artists, art historians and art educators teach a variety of courses that include art education, art history, art theory and criticism, ceramics, drawing/painting, fibers/fabrics new media, photography, printmaking and sculpture. The faculty is dedicated to the preparation and sponsorship of students in their post-graduate careers as professional artists, curators, and art historians and educators.

The Department of Art offers Bachelor of Arts degrees in art studio, and art history. A Bachelor of Fine Arts degree in art is available in art studio. A Bachelor of Arts in Education degree is available through Woodring College of Education.

Faculty

JULIA SAPIN (2003) Chair and Associate Professor. BA, University of Texas; MA, PhD, University of Washington.

GARTH AMUNDSON (2000) Professor. BA, Central Washington University; MFA, Syracuse University.

SHARRON ANTHOLT (1996) Professor. BFA, California State University; MFA, San Francisco Art Institute.

SARAH CLARK-LANGAGER (1988). BA, Randolph-Macon Woman's College; MA, University of Washington; PhD, Graduate Center, City University of New York.

Declaration Process

Application Requirements: Studio Art and Art Education

Most classes in the Studio areas are restricted to majors only. To access classes in these areas, a formal application to the Department of Art is required. For students in art studio, or art education, application for the major is made with a portfolio of work. The portfolio will be reviewed by Department of Art faculty and

ART

evaluated on the basis of a demonstrated understanding of the elements of visual art, technical proficiency and originality. Application deadlines are October 15 and January 31. Portfolios must be received by the deadlines.

For application and information: www.wvu.edu/art.

Studio and Art Education majors must complete a plan of study with a department advisor before enrolling in any 200-level course.

Application Requirements: Art History

To apply to the art history major, students must have taken A/HI 275 and two 200-level art history surveys or pre-approved equivalent courses. Students must have a B average or higher in these classes to be considered for the art history program. Application deadlines for the art history major are October 15 and January 31 and completed forms must be received in the Department of Art by those dates.

For application and information: www.wvu.edu/art.

Other Departmental Information

Scholarships

The Department of Art offers a limited number of scholarships to recognize individual talents, promise, and meritorious achievement. The J. Ruth Kelsey Scholarship and the McIntyre Gorrell Scholarship are among other scholarships offered in the Department of Art. Please consult the scholarship brochure available through Student Financial Resources for information on other scholarships.

100-level courses

One hundred-level courses provide an introduction to contemporary issues and practices in art.

- ART 109: Required for Art Education, Art Studio
- ART 110: Required for Art Education, Art Studio
- ART 120: Required for Art Education, Art Studio
- Art History: 5 credits of 100-level courses

Western Gallery and Outdoor Sculpture Collection

The internationally known Outdoor Sculpture Collection includes works by international, national and regional artists, such as Magdalena Abakanowicz, Alice Aycock, Anthony Caro, Mark di Suvero, Nancy Holt, Donald Judd, Robert Morris, Bruce Nauman, Isamu Noguchi, Tom Otterness, Beverly Pepper, and Richard Serra.

The Western Gallery provides diverse experiences in the visual arts for its constituencies, encompassing the University community and region while providing a point of reference to the national and international art scene. Through historical, contemporary and experimental art exhibitions, through the outdoor collection of contemporary sculpture, through the publications and through interpretative interdisciplinary programs, the Western Gallery is committed to creating an environment for learning. The gallery acts as a center for discussion and exchange of ideas on critical issues in contemporary art. The Western Gallery recognizes its role in expanding its audience's awareness of the visual arts as central to the dynamic and pluralistic nature of our society. Individuals interested in supervised work in the gallery are encouraged to volunteer their services.

Bachelor of Arts

Art History, BA

Department of Art, College of Fine and Performing Arts

68 credits

Introduction

Art History examines the histories of art in cultural context, visual communication in the world today, and the impact of visual technology in the future. The Art History major gives students the opportunity to address social, cultural and transnational issues through an engagement with visual culture objects, images and ideas and to imagine critical intersections in the arts, humanities, and sciences by means of innovative course instruction. Art history classes are catalysts through which students make cross-connections between their major areas of study and the diverse perspectives found in visual forms of communication.

Why Consider an Art History Major?

Are you interested in the visual language of culture and systems of representation? In studying Art History, you will learn to interpret and analyze art and visual culture. A degree in Art History will prepare you for a future as teacher, museum educator, gallery curator, visual resource librarian, art critic, scholar, and other careers that require creative problem solving and knowledge of visual language.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

How to apply: To apply to the Art History major, students must have taken A/HI 275 and two 200-level art history surveys or pre-approved equivalent courses. Students must have a B average or higher in these classes to be considered for the art history program.

Application deadlines: Application deadlines for the Art History major are October 15 and January 31. Completed forms must be received in the Department of Art by those dates.

Advising Tips: Students are expected to follow all prerequisite requirements for courses and seek early departmental advisement. As students enter the program they will be assigned an advisor to develop an individualized course of study. This plan becomes an outline of the degree requirements but should be revised yearly in consultation with an advisor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- A/HI 275 - Introduction to Writing and Critical Thinking
- A/HI 375 - Methods in Art History

ART

- A/HI 475 - Senior Projects/Practicum
(the above courses must be taken in sequence)
- One 100-level course (5 credits) from:
 - ART 110 - Foundation Drawing I
 - ART 120 - 2-Dimensional Art
- One course (3 credits) from:
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
- One course (3 credits) from:
 - A/HI 230 - Visual Culture in Western Europe 1400-1550
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
- One course (3 credits) from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
- One course (3 credits) from:
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
- Two additional courses from:
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
 - A/HI 230 - Visual Culture in Western Europe from 1400-1500
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
- 300- or 400-level courses (30 credits, with a minimum of 10 credits at the 400 level)
- Two courses (10 credits) from: Cultural Perspective Emphasis:
 - A/HI 310 - Indigenous Arts of the Pacific Northwest
 - A/HI 313 - Art and Technology
 - A/HI 368 - Pacific Arts and Visual Culture
 - A/HI 411 - Contemporary Japanese Visual Culture
 - A/HI 413 - Space and Representation
 - A/HI 429 - Patronage and Power: The Baroque Era
 - A/HI 430 - Court Art of the Renaissance
 - A/HI 431 - Popular Culture, Tourism and Leisure
 - A/HI 438 - Art and Feminism
- Two courses (10 credits) from: History and Visual Dialogue Emphasis:
 - A/HI 301 - Modern Art and Modernism
 - A/HI 315 - Civic Identity in 15th- and 16th-Century Europe
 - A/HI 330 - Art and Texts of the Sacred
 - A/HI 358 - Postwar Art and Culture
 - A/HI 360 - Nationalism and Cultural Identity, 19th and 20th Centuries
 - A/HI 370 - Islamic Visual Cultures
 - A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan
 - A/HI 416 - Borders and Terrains
 - A/HI 420 - Building 17th and 18th Century Europe
- Two courses (10 credits) from: Theory and Practice Emphasis:
 - A/HI 308 - Visual Arts in the Community
 - A/HI 316 - Land and Landscape
 - A/HI 401 - Contemporary Issues and Post-Modern Critiques
 - A/HI 415 - Space and the Urban Environment
 - A/HI 440 - New Media and Digital Art
 - A/HI 450 - Cross-Cultural Representation

- A/HI 489 - Architecture and Museums
- A/HI 490 - Seminar: Exhibition Theory and Practice
 - Students are strongly encouraged to take courses outside of the art history area, such as computer technologies, modern and classical languages, anthropology, film, communication or other classes to complement their studies and provide better preparation for the diversity of careers that employ skills with visual language.

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Art Studio, BA

Department of Art, College of Fine and Performing Arts

67 credits

Introduction

Art Studio includes ceramics, drawing/painting, fiber/fabrics, mixed media, photography, printmaking and sculpture. The objectives of the major are to investigate the function of art and the relationships between art, culture, artist and audience. Art studio classes are designed to familiarize students with the principles that shape and inform visual literacy and expression through a variety of practices in art making. Students meet with an advisor after completing 200-level courses to write a formal plan of study and select an area of Art Studio for concentration.

Why Consider an Art Studio Major?

To learn to create, interpret, analyze, and make informed judgments about art, studio concepts, and practices.

How to Declare (Admission and Declaration Process):

Most classes in the Studio area are restricted to majors only. To access classes in this area, a formal application to the Department of Art is required. For students in art studio, art education, application for the major is made with a portfolio of work. The portfolio will be reviewed by Department of Art faculty and evaluated on the basis of a demonstrated understanding of the elements of visual art, technical proficiency and originality.

Application Requirements:

ART

All applicants of Art Studio and Art Education majors must submit a portfolio of 12 works. It is recommended that the portfolio includes only recent pieces. Artwork can be in any media and must demonstrate the following criteria:

- Understanding of formal principles
- Technical skills
- Ability to use visual language to communicate ideas
- Originality and risk taking

An accompanying list should briefly describe the rationale behind each piece. Macintosh-compatible CD-ROMs; slides and online portfolios are acceptable. Digital portfolios must be presented in an easily accessible format. It is the applicant's responsibility to ensure proper functioning of the presentation.

Send portfolio to:
Review Committee
Western Washington University
Fine Arts Complex, Room 116
516 High Street
Bellingham, WA 98225-9068

Application Deadlines: Application deadlines are October 15 and January 31. Portfolios must be received by the deadlines, not postmarked by the deadlines.

Advising Tips: Students meet with an advisor after completing 200-level courses to write a formal plan of study and select an area of Art Studio for concentration.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ART 109 - Visual Dialogue
- ART 110 - Foundation Drawing I
- ART 120 - 2-Dimensional Art
- ART 203 - Foundation Drawing II
- ART 230 - 3-Dimensional Art
- 9 credits from the following:
 - One course from:
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
 - One course from:
 - A/HI 230 - Visual Culture in Western Europe 1400-1550
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
 - One course from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
 - One course from:
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
- After completing the 200-level classes students must meet with an advisor to write a formal plan of study and declare a concentration in one area of Art Studio
- 15 credits of 300- or 400-level art studio courses in area of selected concentration
- 5 credits of 300- or 400-level art studio or design electives
- 5 credits from:

- ART 494 - Advanced Studio Seminar
- ART 495 - Professional Practices for Studio Artist
- 10 credits of 300- or 400-level art history

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Bachelor of Arts in Education

Art — Elementary, BAE

Department of Art, College of Fine and Performing Arts

48 credits

Introduction

The broad instructional concept is to integrate the components of art history, art criticism, and studio art courses, university courses, Gallery Exhibition Program and the permanent collection. The student learns to interpret, analyze and make intelligent judgments about art as well as learning the skills and concepts of the studio. A grasp of the dynamic nature of a culture and the continuing extension of its visual language is a fundamental objective.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider an Art-Elementary Major?

The B.A.Ed. in Art will prepare you to teach students at the elementary grade level. The program will introduce you to curricular design in the arts and the 4 components of Discipline Based Art Education which is an approach to the teaching of Art Education that encompasses criticism, history, aesthetics, and art studio.

Major/Career Resources	

ART

http://www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Most classes in the Studio areas are restricted to majors only. To access classes in these areas a formal application to the Department of Art is required. For students in art studio, or art education, application for the major is made with a portfolio of work. The portfolio will be reviewed by Department of Art faculty and evaluated on the basis of a demonstrated understanding of the elements of visual art, technical proficiency and originality. Application deadlines are October 15 and January 31. Portfolios must be received by the deadlines.

For application and information: <http://www.wvu.edu/art>.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

Requirements

- ART 109 - Visual Dialogue
- ART 110 - Foundation Drawing I
- ART 120 - 2-Dimensional Art
- 200-level courses (10 credits):
 - ART 203 - Foundation Drawing II
 - ART 230 - 3-Dimensional Art
- Studio courses (10 credits):
 - ART 331 - Sculpture-Wood
 - ART 340 - Ceramics I
 - ART 341 - Ceramics II
 - ART 350 - Printmaking I
 - ART 360 - Fibers and Fabrics I
 - ART 361 - Surface Design
 - ART 370 - B&W Photography I
- Art Education Requirement:
 - ART 380 - Art Educating the Child
- Art History Requirement, select 12 credits from (choose one course from each group):
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
 - AND
 - A/HI 230 - Visual Culture in Western Europe 1400-1550
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
 - AND
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
 - AND
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching
 - ELED 471 - Documenting Teaching
 - ELED 480 - Literacy: Beginning Communicators
 - ELED 481 - Literacy: Fluent Communicators
 - ELED 491 - September Experience
 - ELED 492 - Practicum: Experience in Literacy Methods
 - ELED 494 - Internship - Elementary
 - HLED 455 - Health Education Grades K-8
 - MATH 381 - Teaching K-8 Mathematics I
 - MATH 382 - Teaching K-8 Mathematics II
 - MATH 383 - Teaching K-8 Mathematics III
 - MATH 491 - Internship Seminar - Teaching K-8 Mathematics
 - PE 345 - Physical Education for Elementary School

ART

- □ SCED 480 - Science Methods and Curriculum for the Elementary School
- □ SCED 490 - Laboratory/Field Experience in Elementary Science

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Art — P-12, BAE

Department of Art, College of Fine and Performing Arts

70 credits

Introduction

The broad instructional concept is to integrate the components of art history, art criticism, and studio art courses, university courses, Gallery Exhibition Program and the permanent collection. The student learns to interpret, analyze and make intelligent judgments about art as well as learning the skills and concepts of the studio. A grasp of the dynamic nature of a culture and the continuing extension of its visual language is a fundamental objective.

This major must be accompanied by the professional preparation program in secondary education and leads to an endorsement in visual arts. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider an Art P-12 Major?

Students choose to study art in order to understand the history, traditions and conventions of art and art criticism, for herein lies the intelligible language of art and the heritage of humankind. The B.A. Ed. in Art will prepare you to teach this language and heritage to students, from pre-school to 12th grades. The program will introduce you to curricular design in the arts and the 4 components of Discipline Based Art Education which is an approach to the teaching of Art Education that encompasses criticism, history, aesthetics, and art studio.

Major/Career Resources
http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Admissions: Application for the major is made with a portfolio of 12 works.

It is recommended that the portfolio include only recent pieces. Artwork can be in any media. The portfolio will be reviewed by the Department of Art faculty and evaluated on the basis of a demonstrated understanding of the elements of visual art, technical proficiency and originality.

Application deadlines:

Application deadlines for currently enrolled Western students are October 15 and January 31. Application deadlines for new transfer students are October 15 (for students starting winter and spring quarters). Application deadline for new freshman is January 31. Portfolios must be received by the deadline, not postmarked by the deadlines.

Send portfolio to:

Review Committee, Western Washington University
Fine Arts Complex, Room 116, 516 High Street, Bellingham, WA 98225-9068

In order to graduate, students must also be admitted to the Secondary Education Professional Program.

For application and information: <http://www.wvu.edu/art>.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

Requirements

- ART 109 - Visual Dialogue
- ART 110 - Foundation Drawing I
- ART 120 - 2-Dimensional Art
- ART 381 - Theories and Teaching Strategies in Art Education
- Art History (15 credits):
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
 - A/HI 230 - Visual Culture in Western Europe 1400-1550
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
- 200 level studio courses (10 credits):
 - ART 203 - Foundation Drawing II
 - ART 230 - 3-Dimensional Art
- A selection of 5 studio courses (25 credits):
 - ART 320 - Painting I
 - ART 322 - Painting II
 - ART 324 - Figure Painting
 - ART 325 - Experimental Painting
 - ART 331 - Sculpture-Wood
 - ART 340 - Ceramics I

ART

- ART 367 - Advanced Weaving
- ART 370 - B&W Photography I
- ART 371 - B&W Photography II
- ART 372 - Color Photography
- ART 373 - Photography Alternative Processes
- Art History (3 credits, selected from the following):
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
 - A/HI 310 - Indigenous Arts of the Pacific Northwest
 - A/HI 368 - Pacific Arts and Visual Culture
 - A/HI 370 - Islamic Visual Cultures
 - A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan
 - A/HI 411 - Contemporary Japanese Visual Culture

Additional Requirements

Secondary Education Undergraduate and Post-Baccalaureate Professional Program (62 credits)

- □ SEC 301 - Educational Psychology I: Development and Individual Differences
- □ SEC 302 - Educational Psychology II: Motivation, Learning and Assessment
- □ SEC 310 - Education, Culture, and Equity
- □ SEC 410 - Dynamics of Teaching
- □ SEC 411 - Philosophical Foundations of Education
- □ SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools
- □ SEC 430 - Secondary School Methods I - Instructional Strategies, Daily Planning, and Standards
- □ SEC 431 - Secondary School Methods II-Assessment and Long Term Planning
- □ SEC 432 - Secondary School Methods III - Management, Motivation and Discipline
- □ SEC 433 - Teaching Laboratory
- □ SEC 435 - Middle Level Practicum
- □ SEC 436 - Secondary School Practicum
- □ SEC 444 - Supporting Teaching and Learning with Technology
- □ SEC 495 - Internship - Secondary
- □ SPED 363 - Secondary Students With Special Needs

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Bachelor of Fine Arts

Art Studio, BFA

Department of Art, College of Fine and Performing Arts

115 credits

Introduction

The Bachelor of Fine Arts degree is the professional undergraduate art degree. It is an expanded undergraduate degree that requires each student to undertake a program of 48 credits of coursework beyond the Art Studio, Bachelor of Arts major, and to complete a self-determined body of artwork for exhibition.

Why Consider an Art Studio Major and a Bachelor of Fine Arts Major?

To continue beyond the Art Studio, BA degree and learn to create, interpret, analyze, and make informed judgments about art, studio concepts and practices at an advanced level.

Major/Career Resources	
http://www.wwu.edu/careers/students_choosingamajor.shtml	

How to Declare (Admission and Declaration Process):

Application should be made to the Department of Art faculty for admission to the Bachelor of Fine Arts program during spring quarter of the preceding year. Students must be in the final quarter of the Bachelor of Arts study, or have completed the Bachelor of Arts to apply for the Bachelor of Fine Arts program.

Application consists of 20 labeled digital images of work, artist statement, a letter of application indicating your goals and theme of study and a preference for faculty committee members; a grade point average of 3.00 or higher, and a transcript. The BFA is a selective and competitive program. If a student is not accepted into the BFA program, the student may reapply the following year.

All students must begin their BFA studies in the fall quarter. Applications will be reviewed at the end of spring quarter and/or during the week prior to the beginning of fall quarter. (Specific dates will be announced each year.) Following acceptance to the BFA program, a committee of at least two Art faculty members will be formed to work with the student throughout the year. An additional faculty member from outside the Department may be invited by the student to serve on his or her committee. Studio faculty must approve the third committee member.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Completion of the Art, Bachelor of Arts course study
- 5 credits of ART 496 - BFA Seminar
- 9 credits of ART 492 - BFA Project
- 9 credits of ART 493 - BFA Exhibition
- 5 credits from:
 - ART 494 - Advanced Studio Seminar
 - ART 495 - Professional Practices for Studio Artist
- 5 credits of studio practice in areas of focus
- 10 credits of 300- or 400-level art history
- 5 credits of electives specific to course study

ART

- Fall and Winter faculty committee reviews
- Final exhibition and final faculty committee review

Additional Requirements:

During the BFA program students spend three quarters creating a self-determined body of artwork. Attention is given to the medium(s), method(s), and the content of the creative activity. Evaluation by the student's full committee occurs during Fall, Winter, and Spring quarters. At the culmination of the project each student is required to exhibit their completed work in a one or two-person exhibition. In addition, the student is required to submit a research-driven artist's statement that supports the individual's own intellectual and creative achievement. The student's final review with full committee will be scheduled during the period of the student's exhibition. This is an opportunity for the student to discuss and defend their work.

Failure to meet these requirements on schedule will be considered as unsatisfactory progress and may result in the student completing the Bachelor of Arts degree only.

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Minor

Art History Minor

Department of Art, College of Fine and Performing Arts

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ❑ One course from:
 - A/HI 220 - Visual Culture in Ancient Greece and Rome
 - A/HI 221 - Visual Culture in Medieval Europe
- ❑ One course from:
 - A/HI 230 - Visual Culture in Western Europe 1400-1550
 - A/HI 231 - Visual Culture in Western Europe 1550-1700
- ❑ One course from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
- ❑ One course from:
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
- ❑ Three additional art history courses (15 credits) at the 300 or 400 level. A/HI 305 and 306 may not be used for Art History minor

Art Courses

ART 101 - Glass Blowing I

Develop proficiency with glass blowing concepts and techniques through exploration of the art form and design. Repeatable to a maximum of 12 credits, including original course.

Credits: 4

Grade Mode: Letter

ART 102 - Glass Blowing II

Continued development of proficiency with glass blowing concepts and techniques through exploration of the form and design; focus on the creation of original glass work derived from research and drawing. Students' technical study will be complemented by critical discourse about glass in contemporary art. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: ART 101

Credits: 4

Grade Mode: Letter

ART 109 - Visual Dialogue

Open to all students with the exception of a number of seats reserved for art majors each quarter. Art studio pre-majors are advised to take ART 109 in their first or second quarter concurrently with ART 110. Introduction to ideas and artists in 20th century art with an emphasis on the contemporary. Examines concepts of content, meaning, and cultural interrelationships in art, and questions the nature, function, and importance of art in contemporary society.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

ART 110 - Foundation Drawing I

This course focuses on the techniques and materials of drawing. The course includes figure drawing, perspective studies and drawing from memory and the imagination. The concept of drawing as a means of conveying ideas is emphasized.

Prerequisites & Notes: Open to non-Art majors after Phase I registration.

Credits: 5

Grade Mode: Letter

ART 120 - 2-Dimensional Art

This course introduces visual problem solving by exploring the elements and principles of design and color. Traditional and digital applications are integrated throughout all aspects of the coursework.

Prerequisites & Notes: Open to non-Art majors after Phase I registration.

Credits: 5

Grade Mode: Letter

ART 203 - Foundation Drawing II

Examines the definition of drawing in the 21st century and explores contemporary approaches to drawing. Seeks to broaden the conceptual and technical basis for students' work and investigate a broad range of materials and traditions, including abstraction, observation, collage, imagination, color and mixed media on paper. Experimentation with tools and techniques and in developing an individual system for artistic expression.

Prerequisites & Notes: ART 109; ART 110; ART 120.

Credits: 5

Grade Mode: Letter

ART 230 - 3-Dimensional Art

ART

Entry-level 3D course with emphasis on introducing methods, materials and ideas pertaining to current practices in 3D art. Fundamental concepts and techniques will be explored through hands-on projects in media ranging from fibers, ceramics, wood, metal and other media associated with the making of 3D art. This course will introduce the idea of sculpture and art forms as repositories for content.

Prerequisites & Notes: ART 109; ART 110; ART 120.

Credits: 5

Grade Mode: Letter

ART 303 - Drawing Projects

Students explore theme and concept in drawing through individual development with a variety of media, tools, and techniques. Studio work is complemented by in-depth discussion of issues in historical and contemporary art and drawing. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 203; ART 230 or concurrent.

Credits: 5

Grade Mode: Letter

ART 304 - Figure Drawing and Issues of the Body

Intermediate-level investigation through two-dimensional media of the human form. Basic drawing techniques and topics such as gesture, proportion, line, color, texture, value, expression, and some basic anatomy will be covered as applied to the life model. Explores contemporary issues of the body in art through major thematic and conceptual projects. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230.

Credits: 5

Grade Mode: Letter

ART 305 - Experimental Drawing

An intermediate level course that covers a wide range of materials and procedures. Students will be pushed to expand upon their own definition of what constitutes a drawing through key issues and exploration including: chance, operation, exterior influences, the use of non-traditional drawing materials and tools, bringing drawing into a third dimension, and drawing as a means to, or part of, a larger whole. The course aims to help the student build a suitable foundation for further artistic development in a variety of media. Mature levels of invention and problem solving, and the development of critical insight that facilitates

dialogue and conceptual skills are required. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 306 - Mixed Media on Paper

An intermediate level course that emphasizes the use and combining of diverse media and surfaces. Techniques covered will include: collage, ground surface treatments, washes, gouache, working with found and recycled material, and other modes of working with contemporary sources and forms. Repeatable up to 10 credits.

Prerequisites & Notes: ART 203 and ART 230.

Credits: 5

Grade Mode: Letter

ART 320 - Painting I

An introduction to contemporary painting. Students study direct and indirect painting techniques with observational and photo-based sources. The course puts special emphasis on color theory and color mixing.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 322 - Painting II

Continued exploration of painting concepts and techniques through the development of individual content. Studio work is complemented by in-depth discussion of issues in historical and contemporary painting. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 324 - Figure Painting

Painting concepts and techniques with an emphasis on the human form and the figure in context. Studio work is complemented by in-depth discussion of issues of historical and contemporary figure painting. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 325 - Experimental Painting

An investigation of contemporary painting strategies using abstraction, mixed-media, and

installation. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 331 - Sculpture-Wood

Examines the traditions of wood sculpture in the context of utilizing a variety of woods and wood-based materials to make contemporary sculpture. Further emphasis is placed upon development of concepts in relation to forms and materials.

Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 332 - Sculpture - Metals

Focus on traditional, industrial and alternative processes in metal fabrication and casting as a means of producing contemporary sculpture. Emphasis on achieving a balance between studio practice and theory. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 333 - Sculpture - Mixed Media

Use of disparate media for contemporary object making and non-two-dimensional art forms, within an expanding field of alternative sculptural practices. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 334 - Installation Art

Explores distinctions between private and public art, traditional gallery presentation and site-specific installations. Performance and collaboration with other artists or disciplines will be offered as possible areas of work. Additional emphasis on effective documentation of temporary and site-specific work. Lecture/lab. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: Art 230

Credits: 5

Grade Mode: Letter

ART 335 - Intermedia, Mixed Media, Time-Based Art and Installation

Course will provide a more advanced and ambitious, multiple project-oriented work environment for exploring contemporary studio practices in intermedia, mixed media, time-based art and installation. This will include but not be limited to the opportunity for work in time-based media such as performance, sound and video. Traditional gallery presentation, site-specific installations, collaboration and producing effective documentation will also be covered. Students will be encouraged to consider the production of their art as creative research or a mode of personal inquiry.

Prerequisites & Notes: ART 109; ART 130; ART 230; or instructor permission.

Credits: 5

Grade Mode: Letter

ART 340 - Ceramics I

Introduction to ceramics. Pottery and sculptural forms are hand-built using coil, slab and molded techniques. Introduction to glaze formulation, kiln loading and firing. Both traditional and contemporary applications are explored.

Prerequisites & Notes: ART 203; ART 230

Credits: 5

Grade Mode: Letter

ART 341 - Ceramics II

Introduction to the potter's wheel as a tool; hand building, glaze formulation and kiln firing. Repeatable up to 15 credits including original course.

Prerequisites & Notes: ART 340

Credits: 5

Grade Mode: Letter

ART 342 - Ceramics III

Intermediate problems in clay as a medium. Development of individual directions in pottery and/or ceramic sculpture. Weekly seminars. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 340 and ART 341

Credits: 5

Grade Mode: Letter

ART 343 - Summer Intensive Ceramics

How, why, when and what to do with clay. Basic manipulation of clay; glazing and kiln firing. Attention to workable classroom problems, critiquing, safety, historical background and slide presentations. Covers a variety of hand-building techniques, how to use the potter's wheel, glazing, casting, kiln loading and firing. A variety of clays

ART

and firing techniques are used. Offered summers only. Repeatable to a maximum of 15 cr.

Credits: 5
Grade Mode: Letter

ART 350 - Printmaking I

Course covering history, methods, and practice of print concepts. Color, black and white, and digital/photographic methods discussed/explored. Introduction to monotype, relief, lithographic, and intaglio processes.

Prerequisites & Notes: ART 203 and ART 230.
Credits: 5
Grade Mode: Letter

ART 351 - Printmaking: Relief

Students explore carving and printing of linoleum and woodblock surfaces. An emphasis is placed on color printing and working in layers, as well as relief engraving. Historical and contemporary examples are explored. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 350
Credits: 5
Grade Mode: Letter

ART 352 - Printmaking: Stone Lithography

A course covering history, methods, criticism, and practice of stone lithography including color printing and registration. Historical and contemporary lithographic examples explored. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 350
Credits: 5
Grade Mode: Letter

ART 353 - Printmaking: Etching

Course covers history, methods, criticism, and practice of copper plate etching. Techniques include: hard-ground and soft-ground etching, aquatint, mezzotint, color applications, multi-plate registration, and photo-polymer gravure. Historical and contemporary examples explored. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 350.
Credits: 5
Grade Mode: Letter

ART 360 - Fibers and Fabrics I

Introduction to technical explorations of dye application, fabric manipulation, and structural process of textile production. Technical information

accompanied by presentations of contemporary fiber history and issues. Specifics include: tie dyeing, Katazome (paste resist stencil dyeing), and loom weaving. All explorations to focus on the inherent expressive/conceptual qualities of traditional fiber media and processes and their mixed media counterparts. Lecture/lab.

Prerequisites & Notes: ART 203 and ART 230 or concurrent.
Credits: 5
Grade Mode: Letter

ART 361 - Surface Design

Techniques and concepts of cloth alteration with an emphasis on surface and design. Specifics include: heat transfer dye on polyester fabric, advanced dyeing techniques on silk and screen-printing. Through traditional and contemporary fiber investigations, students will develop thematic and conceptual ideas while learning new skills and processes. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 360
Credits: 5
Grade Mode: Letter

ART 362 - Papermaking and Mixed Media

A lecture/lab course covering the history of papermaking, exploration of the traditional processes of various cultures, and contemporary applications. Two-dimensional and three-dimensional projects will be made utilizing a variety of materials. Specifics include: Japanese papermaking, watermarks, recycled paper, etc. Paper casting is the main 3D project. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230
Credits: 5
Grade Mode: Letter

ART 363 - 3-Dimensional Forms in Fiber

Focuses on three-dimensional off-loom processes in fiber and material studies. Historical and contemporary applications of sandal weaving, basket making, felt making, lace making, and soft sculpture including wearable art will be explored. Integration between 2D and 3D forms will be conceptually presented through individual skills and creative ideas. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230
Credits: 5
Grade Mode: Letter

ART 367 - Advanced Weaving

Focus on loom weaving techniques such as pattern weaving, double cloth weaving, Ikat weaving, tapestry and the AVL computer loom. Understanding woven structures and personal expression using both traditional and contemporary process as an art form will be explored. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 360

Credits: 5

Grade Mode: Letter

ART 370 - B&W Photography I

Fundamentals of black and white developing, enlarging, print finishing. This introduction course is structured to establish a solid grounding in traditional, lab-based photographic art practices and includes an introduction to basic digital applications. All photography course work puts an equal emphasis on theory, techniques, and the history of photography in a contemporary context.

Prerequisites & Notes: ART 203 and ART 230; or concurrent.

Credits: 5

Grade Mode: Letter

ART 371 - B&W Photography II

This is an intermediate level course concentrating on black and white, which offers students an opportunity to develop their knowledge, skills, and concepts through, seminars, readings, exhibitions and professional practices. It stresses the development of personal style through concentrated studies in specialized materials and processes ranging from traditional lab-based technique to digital applications. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 370

Credits: 5

Grade Mode: Letter

ART 372 - Color Photography

This course focuses on the fundamentals of color theory, techniques and the experimentation as related to the production of color images. It explores both traditional lab-based and digital investigations. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 370 and ART 371.

Credits: 5

Grade Mode: Letter

ART 373 - Photography Alternative Processes

This course explores the history and practice of alternative forms of image construction and processes. It covers numerous traditional and contemporary photo techniques, from non-silver techniques (Cyan, Van Dyke) to the construction of digital negatives. The course will address historical and contemporary applications of alternative processes. Class time consists of hands-on demonstrations, slide presentations, supervised darkroom time, individual and group discussions. Repeatable up to 10 credits, including original course.

Prerequisites & Notes: ART 371

Credits: 5

Grade Mode: Letter

ART 380 - Art Educating the Child

Not for ART majors. Strategies and techniques in production of art and critical inquiry by elementary school children.

Credits: 3

Grade Mode: Letter

ART 381 - Theories and Teaching Strategies in Art Education

The study and application of art education theory in the elementary and secondary schools. Emphasis will be placed on curricular development in art criticism, aesthetics, art history and studio production.

Prerequisites & Notes: Admission to Woodring College of Education; Art 109, ART 110, ART 120, ART 230.

Credits: 4

Grade Mode: Letter

ART 394 - Art Workshop: Italy

Intensive drawing and painting workshop in Italy. Summer only. Course will be team taught in central and northern Italy. Explores drawing and painting as well as on-site study of Italian art and culture. Lecture/lab. Repeatable.

Prerequisites & Notes: ART 110 or other beginning drawing courses

Credits: 7

Grade Mode: Letter

ART 396 - Summer Art Program in Japan

Study traditional and contemporary culture in Japan. Activities include: visiting historical sites, galleries, museums and artist studios. Experience a tea ceremony, papermaking, weaving, natural dyeing and more. Students will contribute to an exhibition following the trip. Offered summer quarter only.

ART

Prerequisites & Notes: ART 109 and ART 110.
Credits: 7
Grade Mode: Letter

ART 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as DNC 398, MUS 398 and THTR 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.
Credits: 3
Grade Mode: Letter

ART 422 - Advanced Drawing and Painting

Development of individual projects in painting and/or drawing through independent studio practice. Studio work is complemented by: discussion of pertinent topics in historical and contemporary painting and drawing, critiques, readings, field trips and guest lectures. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: 15 credits of 300 level in any of the following; ART 303, ART 304, ART 305, ART 306, ART 322, ART 324, ART 325.
Credits: 5
Grade Mode: Letter

ART 431 - Advanced Sculpture

Project-oriented advanced work. Working closely with instructor, students will concentrate on the development of their discipline and artistic production as a personal mode of creative research, in the general context of contemporary art practices. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: 15 credits of 300-level sculpture or instructor permission
Credits: 5
Grade Mode: Letter

ART 441 - Advanced Ceramic Workshop

Problems in advanced ceramics; self-directed projects and weekly seminars. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: ART 342
Credits: 5
Grade Mode: Letter

ART 460 - Advanced Fibers/Fabrics

Advanced problems in fiber/fabrics study. Emphasis on self-directed project development and

contemporary issues in fibers/fabrics. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: 5 credits of 300-level fiber courses or instructor permission
Credits: 5
Grade Mode: Letter

ART 470 - Advanced Photography Seminar

Using a small group dynamic to critique and exchange ideas based on readings, visiting artists and theoretical inquiry, this class explores contemporary concepts surrounding the production of photography. The course consists of self-directed projects, which afford students time to produce a substantial body of research-driven work which reflects their individual interests. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 370 and ART 371; or permission of instructor.
Credits: 5
Grade Mode: Letter

ART 482 - Art Education Workshop

Explorations in art media and their adaptation to use in the school. Not to be used for graduate program. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: Teaching experience
Credits: 1-5
Grade Mode: Letter

ART 492 - BFA Project

Students develop a self-directed body of work under the supervision of their faculty committee, independently researching the materials, techniques, processes, subject matter, critical issues and related artistic production that will contribute to their creative project. Repeatable to a maximum of 9 credits, including original course.

Prerequisites & Notes: Admission to BPA Program
Credits: 3
Grade Mode: Letter

ART 493 - BFA Exhibition

In consultation with their faculty committee, students prepare their work for presentation and research materials, display methods, installation formats and venues. They construct frames, pedestals and other supporting structures; document their work; and prepare and produce explanatory materials for the BFA exhibition and related promotion and publication. Repeatable up to a maximum of 9 credits, including original course.

Prerequisites & Notes: Admission to BFA Program
Credits: 3
Grade Mode: Letter

ART 494 - Advanced Studio Seminar
Critique-driven interdisciplinary course based in self-directed project development with an emphasis on contemporary issues in studio art. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: Senior status, BFA status or instructor permission.
Credits: 5
Grade Mode: Letter

ART 495 - Professional Practices for Studio Artist

For the student who anticipates graduation and completion of the Studio Art BA or BFA degree in the near future. Designed to facilitate entry into the world of professional artists, galleries, critics, and curators, with an emphasis on survival skills for the emerging artist. Includes current trends, professional issues and practices, and the preparation of a complete portfolio.

Prerequisites & Notes: Senior status, BFA status or instructor permission.
Credits: 5
Grade Mode: Letter

ART 496 - BFA Seminar
Art 496 is an advanced seminar that will address issues in studio practice for the BFA student. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: Acceptance into BFA Program.
Credits: 5
Grade Mode: Letter Courses

Art History

A/HI 201 - Chado: The Way of Tea
Chado allows a glimpse of Japanese culture from the perspective of a variety of different artistic media and a long historic tradition. The course will focus on the background of the Way of Tea, Japanese aesthetics and learning the most basic tea procedure. Through this course, students will gain insight into the many arts and crafts, architecture styles, Japanese aesthetic values, literature and the importance of the seasons associated with Chado as well as basic Japanese customs.

Credits: 3
Grade Mode: Letter

A/HI 220 - Visual Culture in Ancient Greece and Rome

Art and visual culture from prehistoric Aegean civilizations to the 7th century C.E. in Greece and Rome.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 221 - Visual Culture in Medieval Europe

Art and visual culture from the sixth to 14th centuries in Europe.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 230 - Visual Culture in Western Europe 1400-1550

Art and visual culture in Western Europe 1400-1550.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 231 - Visual Culture in Western Europe 1550-1700

Art and visual culture in Western Europe, 1550-1700.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 240 - Visual Culture in Western Europe in the 19th Century

Issues and topics in art, 19th century.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 241 - Visual Culture in Western Europe and America in the 20th Century

Issues and topics in art, 20th century.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 270 - Visual Culture in South and Southeast Asia

Issues and topics in South and Southeast Asian art and visual culture, from ancient to contemporary.

ART

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 271 - Visual Culture in East Asia

Issues and topics in Chinese, Korean, and Japanese visual culture, from ancient to contemporary.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 275 - Introduction to Writing and Critical Thinking

A preparatory course to develop skills in writing and analysis for the art historical field. Open to all Western students, but required for Art History majors. For Art History majors, A/HI 275, 375 and 475 must be taken in order because they sequentially develop visual analysis skills.

Prerequisites & Notes: ENG 101.

Credits: 5
Grade Mode: Letter
GUR Attributes: CCOM

A/HI 301 - Modern Art and Modernism

Survey and critical analysis of modernist, theory and criticism.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 305 - Gallery Workshop

Emphasis on art preparation/installation methods, and gallery/collections management. Students must commit to registering for this class for fall, winter and spring quarters. Repeatable to 9 credits. Intended as a resume building class. Credits may not be used for the Art History major or minor.

Prerequisites & Notes: 6 credits in Art or Art History; instructor permission; meet Western Gallery intern selection criteria.

Credits: 3
Grade Mode: Letter

A/HI 306 - Arts Internship

Internship at museum, educational or public arts organization under the direction of a designated art history faculty member, in consultation with a staff member of the host institution. Intended as a resume building class. Credits may not be used for the art history major or minor. Repeatable to a maximum of 9 credits, including original course.

Prerequisites & Notes: 24 credits in Art History and written permission of instructor.

Credits: 1-4
Grade Mode: Letter

A/HI 308 - Visual Arts in the Community

A hands-on class designed to give students a practical experience in promotion of visual culture in the community.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 310 - Indigenous Arts of the Pacific Northwest

Selected topics in the arts of the Pacific Northwest. Includes discussion of contemporary artists.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 313 - Art and Technology

Critical approaches to the study of artistic practices based on visual technology. Topics may include: photography, film, video, computer-generated art and electronic media.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 315 - Civic Identity in 15th- and 16th-Century Europe

Civic identity explored through ritual structures, urban society, and lay cultures.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 316 - Land and Landscape

Studies of landscape and ideology in painting and garden design; issues of environment in the production of visual culture; relationships of land and architecture.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5
Grade Mode: Letter

A/HI 330 - Art and Texts of the Sacred

The ideological basis of painting, sculpture and manuscript illumination as tools of communication. The interdependence of textual and visual traditions and their subversion or alteration.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5

Grade Mode: Letter

A/HI 358 - Postwar Art and Culture

Examines postwar American culture, from 1950 to 1970, and critically assesses the relationships between art, popular media and the social upheavals of the postwar era.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5

Grade Mode: Letter

A/HI 360 - Nationalism and Cultural Identity, 19th and 20th Centuries

Studies in the relationship between ideas of nation and the formation of cultural identity.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5

Grade Mode: Letter

A/HI 368 - Pacific Arts and Visual Culture

Art of Melanesia, Polynesia, Micronesia. Includes study of contemporary Pacific arts.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5

Grade Mode: Letter

A/HI 370 - Islamic Visual Cultures

Topics addressing historical and contemporary Islamic visual cultures in the Middle East, Africa, and Asia.

Prerequisites & Notes: A/HI majors: A/HI 275; non-majors: 3 credits A/HI.

Credits: 5

Grade Mode: Letter

A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan

Study of visual cultures in Japan from 5000 BCE to present. Analysis of cultural influx and assimilation from Asia and Europe as well as indigenous and individual visual expressions.

Prerequisites & Notes: A/HI majors: A/HI 271 and A/HI 275; Non majors: A/HI 271.

Credits: 5

Grade Mode: Letter

A/HI 375 - Methods in Art History

Methodological approaches to the study of Art History and further development of writing skills and visual analysis.

Prerequisites & Notes: A/HI 275, art history majors only.

Credits: 5

Grade Mode: Letter

A/HI 396 - Summer Art History Program in Japan

Study traditional and contemporary culture in Japan. Activities include: visiting historical sites, galleries, museums and artist studios. Experience a tea ceremony, papermaking, weaving, natural dyeing and more. Students will write a paper following the trip. Offered summer quarter only.

Prerequisites & Notes: A/HI 271 or permission of instructor.

Credits: 7

Grade Mode: Letter

A/HI 401 - Contemporary Issues and Post-Modern Critiques

Theoretical analysis of late twentieth century postmodernist art and culture, and critical discussion of the expansion of visual media during the contemporary era.

Prerequisites & Notes: A/HI major: A/HI 375; Non-major: 5 credits A/HI 300 level or instructor permission.

Credits: 5

Grade Mode: Letter

A/HI 411 - Contemporary Japanese Visual Culture

Examines Japanese artistic forms and visual culture from Post-World War II until the present. Explores connections between Japanese socioeconomic and artistic developments, as well as visual manifestations of contemporary Japanese youth culture. Topics include anime, manga, Harajuku fashion and art movements such as Gutai and Superflat.

Prerequisites & Notes: Art History Majors: A/HI 271 and A/HI 375; non-majors: A/HI 271 and 5 credits of 300-level in art history or permission of instructor.

Credits: 5

Grade Mode: Letter

A/HI 413 - Space and Representation

ART

Theoretical and cultural analysis of the history of representing space within Western art and architecture, from Gothic cathedrals and Renaissance perspective to cubist fractured surfaces and contemporary heterogeneous space.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or permission of instructor.
Credits: 5
Grade Mode: Letter

A/HI 415 - Space and the Urban Environment

Topics in urban organization, urban/rural dynamics, regionalism, spaces and social production in the built environment and the arts.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 416 - Borders and Terrains

Mapping artistic domains; implications of geographic borders; defining places and margins in cultural production.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 420 - Building 17th and 18th Century Europe

Studies of architecture, spatial organization and visual culture in 17th and 18th century Europe, including studies of colonization and contacts with Asia. Each course offering has a selected geographic focus and introduces theory for visual and spatial analysis.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 429 - Patronage and Power: The Baroque Era

The relationship of artist and public to the mechanisms of patronage and the art market.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 430 - Court Art of the Renaissance

Courtly art in the context of humanism, antiquity, and chivalric society in Renaissance Italy.

Prerequisites & Notes: A/HI majors: A/HI 375; Non-majors 5 credits 300 level A/HI or permission of Instructor.
Credits: 5
Grade Mode: Letter

A/HI 431 - Popular Culture, Tourism and Leisure

Studies in topics such as collecting, pilgrimage, touring and acquisition of the authentic.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 438 - Art and Feminism

Studies of women artists, their past and present visual practices, and how they engage with cultural representations of gender, sexuality and class.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 440 - New Media and Digital Art

Theoretical and critical approaches to the development of cyberspace and its relationship to new media, electronic art, virtual reality, videogames, and biotech art.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or permission of instructor.
Credits: 5
Grade Mode: Letter

A/HI 450 - Cross-Cultural Representation

Theoretical analysis of colonialism, neocolonialism, postcolonialism and multiculturalism, and their political, economic and cultural effects on representational practices.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history, or instructor permission.
Credits: 5
Grade Mode: Letter

A/HI 475 - Senior Projects/Practicum

Final course for art history majors. May be a research project aimed toward the pursuit of an

advanced degree or a practicum in one of several careers in arts advocacy, administration, community outreach, and other fields.

Prerequisites & Notes: A/HI 375; art history majors only.
Credits: 5
Grade Mode: Letter

A/HI 489 - Architecture and Museums

Examines museum architecture and the exhibition of architecture in museums in Europe and America from the eighteenth century to the present.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or permission of instructor.
Credits: 5
Grade Mode: Letter

A/HI 490 - Seminar: Exhibition Theory and Practice

Seminar on issues such as the display of visual experience and the configuration of public culture and community identities by artists, institutions and audiences. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: Art History majors: A/HI 375; non-majors: 5 credits of 300 level art history or permission of instructor.
Credits: 5
Grade Mode: Letter

Design

"Design" is both noun and verb, product and process. The products of design form the interface between humans and the environment. Design as a professional field of study is based on the foundations of visual communication. The study of design encompasses cultural, aesthetic, ergonomic, technical, ethical, and economic fields. Designers create communications that serve many needs—everything from warning labels to multimedia interfaces. They solve communication problems of all types and sizes. The solutions require creativity, lateral thinking, research, and excellent verbal and written communication skills.

The Department of Design prepares students to successfully communicate information and abstract concepts visually. The faculty strives to provide each student with a broad educational background and preparation in specialization area. The curriculum is designed to promote intellectual rigor, critical thinking and creativity, through a combination of courses that are both theoretical and practical. The theoretical component emphasizes creative problem solving and critical assessment. The practical component focuses on the building of aesthetic and technical skills. The development of these two components culminates in a portfolio of design work. The portfolio also provides evidence of the student's creative and analytical talents, enabling the student to apply his/her scholarship in regional, national, and global communities. Each portfolio is highly personalized allowing the students to exhibit their specific strengths and interests, thus promoting the diversity of perspectives for which our students' portfolios are known in the professional design world. The development of specialized skills in spatial organization, color, visualization, problem solving methodologies, conceptual thinking and the acquisition of digital tool skills, in combination with an excellent liberal arts foundation, provide graduates of the program with the skills necessary for seeking employment as a graphic designer or pursuing graduate studies.

Design Faculty

ELSI VASSDAL ELLIS (1977) Chair and Professor. BS, MEd, Western Washington State College; PhD, University of Washington.

PAULA S. AIRTH (2012) Assistant Professor. BA, Western Washington University; MFA, University of Utah.

CRISTINA de ALMEIDA (1997) Professor. BFA, Escola Superior de Desenho Industrial, Rio de Janeiro, Brazil; MFA, University of Massachusetts.

KACEY MORROW (2008) Associate Professor, BA, University of Iowa, School of Art and Art History; MFA, University of Illinois, School of Art and Design.

BRITTANY SCHADE (2013) Assistant Professor, BFA, Florida Atlantic University; MFA, Florida Atlantic University.

KENTON D. SMITH (1993) Professor. BFA, MA, Fort Hays State University; MFA, Kent State University.

Mission Statement

The Department of Design utilizes a curriculum that emphasizes the process of problem solving to direct students to make connections between culture and design and their role as responsible visual communicators. As a professional field of study, students learn to combine personal expression and critical thinking as they create solutions that connect industry, individuals, and institutions to specific audiences and themselves to the world. Students develop adaptive learning strategies to sustain successful communication careers in a constantly changing world.

Degrees

The Department of Design offers both Bachelor of Arts and Bachelor of Fine Arts degrees in design. The liberal arts BA degree in design provides students the opportunity to develop visual communication talents through courses in print and digital media design combined with a minor to broaden the educational experience. The BFA degree is the professional degree option providing a fully integrated professional senior year in the development of the exit portfolio. The BFA degree requirements also include a summer internship with contracted firms. Admittance to the BFA is through portfolio review during winter quarter.

Learning Outcomes for Design Majors

1. Demonstrate functional competence with principles of visual organization, visual language and theory as applied to visual communication problems.
2. Understand and apply creative and abstract thinking skills to visual communication problems.
3. Understand, embrace and use current tools, software and technology as a vehicle of effective communication (conceive, design, produce, and create visual forms to successfully communicate ideas, opinions, concepts).
4. Demonstrate facility in visual communication practice, including written and verbal communication skills

The Learning Outcomes identified for the Design Program reflect the expectations of National Association of Schools of Art & Design [NASAD] for accredited professional design programs as well as recommendations by AIGA and an external advisory board.

Formal assessment occurs in concert with strategic planning and catalog revisions. Access to an advisory board provides additional layers of informal review to stimulate positive change. The nature of lab pedagogy results in the constant observation and evaluation of student work (outcomes) by faculty and students. Students are consistently involved in assessment of their learning through reflection, class and self-critique of their work and the work of their peers.

Advisement and Plan of Study

Upon admission to the major a Plan of Study must be completed under advisement of a student's assigned advisor. Students are expected to meet with their advisors regularly. All Design BA majors are required to declare and complete a minor or the equivalent of a minor of 24 to 30 credits. A second major will also complete the minor requirement. A list of suggested minors will be available through your advisor.

Design majors must maintain a minimum 2.5 cumulative GPA.

The junior portfolio review in Design is only for students wishing to earn the BFA degree.

Declaration Process

Most classes in Design are currently restricted to majors only. To access classes, a formal application to the Department of Design is required. Application for the major is made with a portfolio of work. The portfolio will be reviewed by the Design faculty and evaluated on the basis of a demonstrated understanding of the elements and principles of design and visual communication, technical proficiency and originality.

Portfolios are reviewed twice each academic year: October 15 and January 31. Portfolios must be received on or before the deadlines, not postmarked by the deadlines. Incomplete portfolios will not be reviewed.

Design majors must complete a plan of study with a department advisor before enrolling in any 200-level course. The plan of study will also include the declaration of a minor as part of the BA degree requirements.

Application Requirements

All applicants of the Design major must submit a portfolio of 12 works. It is recommended that the portfolio include recent pieces. Work can be in any media and must demonstrate basic visual and design skills.

- Understanding of formal principles
- Technical skills
- Ability to use visual language to communicate ideas
- Originality and risk taking

An accompanying list should briefly describe the rationale behind each piece. Macintosh-compatible CD-ROMs; slides and online portfolios are acceptable. Digital portfolios must be presented in an easily accessible format. It is the applicant's responsibility to ensure proper functioning of the digital media and files.

DESIGN

Scholarships

The Department of Design offers a limited number of scholarships to recognize individual talents, promise, and meritorious achievement, such as the Babcock scholarship and the Vassdal scholarship. Please consult the scholarship brochure available through Student Financial Resources for information on other scholarships.

Bachelor of Arts

Design, BA

Department of Design, College of Fine and Performing Arts

62 credits

Introduction

The Department of Design identifies design as the visual communication of ideas. The program utilizes a curriculum that emphasizes the process of problem solving and encourages students to make connections between culture and design, and their role as visual communicators. Students learn to combine personal expression and critical thinking as they create solutions that connect industry to an audience and themselves to the world.

Why Consider a Design Major?

Career opportunities are found in all segments of industry, both in the private and public sector. Western Design graduates go on to work in advertising agencies, design firms, in-house departments, paper companies, printing firms, as well as serving as private consultants in corporate identity, environmental graphic design, packaging, publication and web design. They work as Designers, Project and Production Managers, Web and Interactive Designers and Digital Image Makers.

How to Declare (Admission and Declaration Process):

To declare a Design major, application is made with a portfolio of 12 personal works and a typographic hierarchy assignment. The portfolio will be reviewed by Design faculty and evaluated on the basis of a demonstrated understanding of the elements of visual communication, technical proficiency and originality. Application deadlines for the Design major are October 15 and January 31 for current Western students and January 31 for freshmen and transfer students planning to start in the Fall. Portfolios must be received by the deadline, not postmarked by the deadline.

Send portfolio to:

Design Review Committee
Western Washington University
Fine Arts Complex, Room 116
516 High Street
Bellingham, WA 98225-9068

Grade Requirements

Majors must maintain a 2.50 grade point average both overall and in design courses taken at Western. Students falling below the 2.50 average will be placed on probation; failure to bring the cumulative GPA up to 2.50 by the end of two subsequent quarters will result in removal from the major.

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Students must meet with an advisor before taking 200-level courses to write a formal plan of study that includes identification of a minor.

- DSGN 111 - Design View
- DSGN 211 - Foundations of Visual Communication
- DSGN 220 - Visual Communication I
- DSGN 240 - Visual Communication II
- DSGN 250 - Visual Communication III
- DSGN 260 - Visual Communication IV
- One course from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
 - DSGN 312 - Graphic Design in the 20th Century
 - DSGN 330 - Typography I
 - DSGN 340 - Graphic Design: 2D
 - DSGN 341 - Graphic Design: 3D
 - DSGN 351 - Print and Finishing
 - DSGN 360 - Digital Media Design I
 - DSGN 361 - Digital Media Design II
 - DSGN 485 - Professional Practices in Visual Communication Design

Minor (24-30 credits)

BA majors will complete an official minor comprised of 24 or more credits. Students must meet with an advisor before taking 200-level courses to write a formal plan of study that includes identification of a minor. Students may petition to substitute a self-designed minor, comprised of at least 24 credits. The petition must include a written statement prepared by the student indicating the rationale for the courses selected. Students may substitute a second major or Internet Studies certification for a minor.

Departmental Honors

In addition to the general requirements for all honors students, design major who wishes to graduate with honors must complete an honors senior project in design.

Bachelor of Fine Arts

Design, BFA

Department of Design, College of Fine and Performing Arts

115 Credits

Introduction

The Bachelor of Fine Arts in Design is the professional degree option for students admitted to the Bachelor of Arts in Design. The BFA degree option is a highly competitive degree limited to a maximum of 18 students per year. Courses in the senior year focus on the integration of graphic, production and digital media design in the solution of visual communication problems.

To earn the BFA students must submit a portfolio of selected work from 200- and 300-level classes. Application to the BFA in Design is made during winter quarter of the junior year and portfolios are reviewed by the Design faculty. All students must begin their BFA studies in the spring quarter of the junior year to prepare them for the summer-only Internship requirement. The Bachelor of Fine Arts in Design degree requires each student to complete the following program:

Why Consider a Design Major and a Bachelor of Fine Arts Degree?

Career opportunities are found in all segments of industry, both in the private and public sector. Western Design graduates go on to work in advertising agencies, design firms, in-house departments, web and interactive design firms, paper companies, printing firms, as well as serving as private consultants in corporate identity, environmental graphic design, packaging, user-interface and interactive design, publication and web design. They work as Print, Web, Motion graphics, and Interactive Designers, Design Educators, Project and Production Managers, and Digital Image Makers.

How to Declare (Admission and Declaration Process):

The BFA degree application is made with a portfolio composed of completed work and/or work in progress from DSGN 330, 340, 351, 360 and 361. The portfolio will be reviewed by Design faculty and evaluated on the basis of a demonstrated understanding of the elements of visual communication, technical proficiency, originality, problem-solving and professionalism. The BFA applications will be reviewed during winter quarter. Deadlines will be posted in the department office and announced in design classes. Portfolios must be received by the announced deadline.

Send application to:
Design BFA Review Committee
Western Washington University, Department of Design
Fine Arts Complex, Room 116

516 High Street
Bellingham, WA 98225-9068

Grade Requirements

Majors must maintain a 2.50 grade point average both overall and in design courses taken at Western. Students falling below the 2.50 average will be placed on probation; failure to bring the cumulative GPA up to 2.50 by the end of two subsequent quarters will result in removal from the major.

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- DSGN 111 - Design View
- DSGN 211 - Foundations of Visual Communication
- DSGN 220 - Visual Communication I
- DSGN 240 - Visual Communication II
- DSGN 250 - Visual Communication III
- DSGN 260 - Visual Communication IV
- DSGN 312 - Graphic Design in the 20th Century
- DSGN 330 - Typography I
- DSGN 331 - Typography II
- DSGN 340 - Graphic Design: 2D
- DSGN 341 - Graphic Design: 3D
- DSGN 351 - Print and Finishing
- DSGN 360 - Digital Media Design I
- DSGN 361 - Digital Media Design II
- DSGN 362 - Digital Media Design III
- DSGN 480 - BFA Seminar
- DSGN 481 - BFA Workshop
- DSGN 485 - Professional Practices in Visual Communication Design
- One of the following:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
- 10 credits of internship during summer quarter between junior and senior years
- Minimum of 14 credits of declared Minor

Departmental Honors

In addition to the general requirements for all honors students, a design major who wishes to graduate with honors must complete an honors senior project in design.

Minor

Design Studies Minor

Department of Design, College of Fine and Performing Arts

29 credits

DESIGN

Introduction

The Design Studies Minor is composed of 3 GUR courses (large lecture format), an upper division design history course, and four lecture/lab courses providing a foundation in drawing for design; 2D design, type and color; 3D design; and 4D design exploring time and motion graphics.

Why Consider a Design Studies Minor?

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Students will submit a portfolio consisting of work created in high school/community college/college courses, self-authored work, as well as an application project for admission to the Design Pre-Major. The faculty committee will review the portfolios based upon criteria identified in the application form. Design Pre-Majors will complete the Design Foundation sequence of Design 220, 240, 250 and 260 and submit a second portfolio consisting of work from the Design Foundation for advancement to the BA, Design major. Students not advanced into the BA major will complete and earn the Design Studies minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Students advanced to the Design BA major must maintain a cumulative 2.5 GPA.

Requirements

- DSGN 111 - Design View
- DSGN 211 - Foundations of Visual Communication
- DSGN 220 - Visual Communication I
- DSGN 240 - Visual Communication II
- DSGN 250 - Visual Communication III
- DSGN 260 - Visual Communication IV
- DSGN 312 - Graphic Design in the 20th Century
- One course from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century

User Experience (UX) Design Minor (see Engineering and Design Department)

User Experience (UX) Design Minor (see Engineering and Design Department)

Design Courses

DSGN 111 - Design View

Introduction to design thinking and how design practice affects everyday life in a diversity of cultures (graphic, industrial, architectural). Course will be a mixture of lectures with guest speakers as well as exams and assignments. Lecture format.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

DSGN 211 - Foundations of Visual Communication

Issues and topics related to the development of visual communication/graphic design with emphasis on the development of typographic and print culture.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

DSGN 220 - Visual Communication I

Introduction to and exploration of visual thinking experiences and the translation of ideas into sketches and drawings representing solutions to visual communication problems. Includes studies in graphic ideation, graphic languages, object drawing, orthographic views, perspective, the visualization process and storyboarding.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 240 - Visual Communication II

Introduction and exploration of visual literacy elements and principles. Emphasis on how these elements and principles are applied in visual communication problems pertaining to both graphic design and typography. Course will incorporate hands-on projects covering both analog and digital techniques of image and type manipulation. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 249 - Graphic Design Concepts

Introductory course in layout, design, and software with an emphasis on typography. Course incorporates hands-on projects covering both analog and digital techniques of image and type manipulation. Lecture/Lab. For non-majors only.

Credits: 4

Grade Mode: Letter

DSGN 250 - Visual Communication III

Introduction and exploration of the basic principles, processes, and materials of three-dimensional forms. Emphasis on how these elements and principles are applied in visual communication problems and the selection and use of materials with an emphasis on paper. Course will incorporate hands-on projects in 3D visualization and construction. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 260 - Visual Communication IV

Introduction and exploration of the basic principles of time-based media, integration of design principles and elements, time and sequence, and methods of storytelling. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 312 - Graphic Design in the 20th Century

History of modern graphic design and illustration.

Prerequisites & Notes: DSGN 211 and one from A/HI 240, A/HI 241, A/HI 240A or A/HI 240B.

Credits: 4

Grade Mode: Letter

DSGN 330 - Typography I

Focus on the use of type as an informative and expressive visual/verbal element in graphic design. Principles and methods of typographic layout will be introduced and expanded upon aiming the development of skills in using type creatively and effectively in specific communication scenarios. Lecture/lab.

Prerequisites & Notes: DSGN 111, DSGN 220, DSGN 240, DSGN 250, DSGN 260, major status.

Credits: 5

Grade Mode: Letter

DSGN 331 - Typography II

Advanced problems of typographic layout. Focus on the design long textual content, such as books and publications. Emphasis in the use of type as a conceptual tool for both communication and visual expression in a variety of visual/verbal genres. Lecture/lab.

Prerequisites & Notes: DSGN 330, BFA status.

DESIGN

Credits: 5
Grade Mode: Letter

DSGN 340 - Graphic Design: 2D

Advanced concepts and solutions in graphic design for visual communication problems. Project will utilize previous skills in typography, graphic materials, publications as well as time and motion in building the visual cornerstone of branding. Course will focus on graphic identities, graphical application and methodology for integrating messages and media for a comprehensive approach to visual communication as it's related to visual brands. Lecture and lab.

Prerequisites & Notes: DSGN 330.
Credits: 5
Grade Mode: Letter

DSGN 341 - Graphic Design: 3D

Concepts and techniques of three-dimensional design with an emphasis on packaging design. Projects will focus on choice of materials, structural forms, and graphic treatment as integrated components of the visual communication strategy. Lecture and lab.

Prerequisites & Notes: DSGN 340.
Credits: 5
Grade Mode: Letter

DSGN 351 - Print and Finishing

A hands-on study of the design process for print-based materials. Emphasizes team-based approaches to problem solving in the production of a bound collaborative analog and digital print edition.

Prerequisites & Notes: DSGN 111; DSGN 220; DSGN 240; DSGN 250; DSGN 260; major status.
Credits: 5
Grade Mode: Letter

DSGN 359 - Book Arts Production

Course in the history, methods and practices of book design, structures and their application in the production of limited edition and unique formats employing letterpress, offset and digital printing techniques. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: DSGN 250, major status.
Credits: 5
Grade Mode: Letter

DSGN 360 - Digital Media Design I

Methods and concepts of designing for an online experience, including a working knowledge of scripting languages, image optimization, file

organization, information architecture, and usability.

Prerequisites & Notes: DSGN 111, DSGN 220, DSGN 240, DSGN 250, DSGN 260, major status.
Credits: 5
Grade Mode: Letter

DSGN 361 - Digital Media Design II

Approaches and concepts in designing for various digital platforms, focusing on user-interface, interactivity, and user-experience.

Prerequisites & Notes: DSGN 360.
Credits: 5
Grade Mode: Letter

DSGN 362 - Digital Media Design III

Advanced problems in time-based media design. Projects will be more complex and conceptual in nature. Focus is on the investigation of narrative and technical aspects of time-based media, including pre-production, production, and post-production.

Prerequisites & Notes: DSGN 361, BFA status.
Credits: 5
Grade Mode: Letter

DSGN 375 - Summer Design Abroad

Team taught. Opportunity for students to experience design on an international level. Extensive workshop/field trip format combines lectures by prominent designers, visitations to design firms and international corporations as well as opportunities to attend museums and expositions featuring design. Repeatable to a maximum of 14 cr. Offered summers only.

Credits: 7
Grade Mode: Letter

DSGN 389 - BA Internship

Faculty supervised fieldwork in design related activities. S/U grading. Repeatable to maximum of 10 credits, including original course.

Prerequisites & Notes: Design BA major with Junior status, and permission of instructor.
Credits: 1-10
Grade Mode: S/U

DSGN 390 - Topics in Design

Specialized topics in design. The subject of each individual course will be announced in the timetable of classes. Repeatable with different topics only.

Prerequisites & Notes: Pre-reqs vary; depend on

topic offered. See Classfinder/Timetable for specific details.

Credits: 3-5

Grade Mode: Letter

DSGN 480 - BFA Seminar

Advanced problems in visual communication design (design production, graphic design, interactive/web/motion graphics). Repeatable to 15 credits.

Prerequisites & Notes: DSGN 331, DSGN 362, BFA status.

Credits: 5

Grade Mode: Letter

DSGN 481 - BFA Workshop

Special topics in visual communication design in an intensive workshop format. Repeatable up to a maximum of 6 credits, including original course. S/U grading.

Prerequisites & Notes: BFA status.

Credits: 2

Grade Mode: S/U

DSGN 485 - Professional Practices in Visual Communication Design

Currents trends, professional issues and practices. Preparation of a professional portfolio. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DSGN 330; DSGN 360; DSGN 350; BA or BFA major status.

Credits: 3

Grade Mode: Letter

DSGN 489 - Internship

Supervised pragmatic work experiences under the direction and supervision of qualified professional practitioners. Taken during summer quarter between junior and senior academic years. S/U grading.

Prerequisites & Notes: DSGN 331; DSGN 362. BFA status.

Credits: 10

Grade Mode: S/U

Music

Introduction

A music degree from Western is highly regarded in the profession. The music department graduates successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is its forty-member music faculty, each of whom is deeply committed to serving music majors in achieving their aspirations.

The Department of Music also encourages and promotes participation from those students whose academic interests lie outside the arts, yet who have the talent and the dedication to succeed in our department. With more than five hundred students participating in our music program, there are opportunities for performance and academic study at many levels of involvement.

Explorations in early, traditional, contemporary, jazz and electronic music exist in the various course activities and degree plans with the emphasis always on dealing directly with the musical art through performance, composition and analysis.

The Department of Music offers one general and five professional undergraduate programs leading to baccalaureate degrees in music. The general program (BA) provides a liberal arts education with music as the major subject. The four professional undergraduate programs (BMus) emphasize the development of proficiency in the major area: music education, performance, history and literature, and composition. The BMus in Music Education has three areas of emphasis: P-12 general music, P-12 instrumental music, and P-12 choral music. State certification to teach is received concurrently with the granting of the degree.

A variety of large and small ensembles and music courses are open to all qualified students of the University, regardless of major. The ensembles include: University Choir, Concert Choir, Symphonic Band, Wind Symphony, University Symphony Orchestra, Jazz Ensembles, Chamber Music (in all instruments and voice), Collegium Musicum, and Opera Theatre. All music ensembles present public programs throughout the year, and several ensembles participate in annual tours. Music courses open to all students in the University include: The Art of Listening to Music, Fundamentals of Music, Pop and Rock Music Survey, Survey of Non-Western Cultures, and the History of Jazz, among others.

Advisement (please read carefully)

The Department of Music provides individual advisement and program planning for all students majoring in music. This takes place during the registration period. The department provides advisement by appointment. Many students prefer to spend a day on campus prior to transfer, at which time they may receive advisement and visit the various departmental performance groups and classes and meet with instructors. Interested students should follow the guidelines set forth in the Music section of this catalog prior to contacting the department. Write or phone the Department of Music, Western Washington University, Bellingham, Washington 98225-9107, phone 360-650-3130 or visit the Website, www.wvu.edu/music/.

The department is a full member of the National Association of Schools of Music.

Faculty

CHRISTOPHER BIANCO (2006) Chair and Associate Professor. BME, Northwestern University; MM, University of Montana; DMA, the University of Texas-Austin.

AMBER SUDDUTH BONE (2006) Assistant Professor. BM, University of Hawaii; Ed. Cert., MM, DMA, University of Washington.

PATRICIA BOURNE (2012) Associate Professor. BME, Murray State University; MME, University of Oklahoma; Ed. D, Arizona State University

MUSIC

Declaration Process

Due to the sequential nature of the music curriculum, midyear applications are not recommended. Students seeking admission to the program other than fall quarter will be required to meet prerequisites in all course sequences (MUS 101/121 through 224/225; 341 through 343; and 351 through 354) as a condition of admission. All students must also complete the audition to be eligible for music major advising. Contact the music department undergraduate advising office at 360-650-4091 for details.

Other Departmental Information

Music Performance

All students in Bachelor of Music degree programs must be members of a major performing ensemble each quarter of residence except in those quarters in which music education majors are enrolled in student teaching and those quarters in which piano majors are enrolled in accompanying. The requirement must be met through the student's major instrument or voice as follows: Symphonic Band or Wind Symphony for wind/percussion players, University Choir or Concert Choir for vocalists, and Symphony Orchestra for string players. Pianists and guitarists may elect to participate in any of the major performing ensembles for which they are qualified. Pianists will take a combination of Major Performance Ensemble and Piano Accompanying as follows:

Performance: Three quarters of major ensemble, remaining quarters in piano accompanying. **Composition and History/Literature:** six quarters of major ensemble, three quarters of piano accompanying, remaining quarters either major ensemble or piano accompanying. **Music Education:** six quarters of major ensemble, remaining quarters piano accompanying. **Bachelor of Arts in Music** majors will take three quarters of major performance ensemble and three quarters of accompanying.

Guitarists majoring in music performance may, under advisement, substitute up to 12 additional credits in chamber music for this requirement. Performance ensembles may be repeated for credit.

Applied Performance Proficiency

All entering music students will be expected to demonstrate their performance proficiency before a faculty committee to determine their admissibility as music majors. This qualifying audition will be held on announced dates prior to the start of fall, winter and spring quarter classes and on any day school is in session by **prior appointment. Audition deadlines** are as follows:

Fall quarter — June 1
Winter quarter — December 1
Spring quarter — March 1

Freshman and transfer students with marginal qualifications may be placed on **probation** at the beginning of their first quarter of study and will be re-examined at the end of the quarter. A student who fails to have probationary status removed at the end of two consecutive quarters may be removed from pre-major status, continued applied instruction and admissibility to restricted classes. Music minors wishing to include applied instruction as part of the elective credits for the minor must perform an audition in accordance with the listed levels of proficiency. All students receiving applied instruction, with the exception of guitar and piano, must audition for placement in the appropriate major performing ensemble. Applied music may be repeated for credit. Students must complete the audition process in order to be eligible for music major advising.

Minimum applied performance proficiency levels required for entrance to private applied music study are as follows. This list of repertoire is intended to characterize acceptable standards for full admittance and entrance to pre-major status, with the permission of the appropriate area coordinator. Please contact the music department adviser at 360-650-4091 for details. However, at the entrance audition, the entering music student may play or sing musical selections other than those listed below.

Piano — Baroque, classical, Romantic and contemporary literature of the difficulty of or greater than Bach, "Short Preludes" and "Inventions;" Clementi, Haydn, Mozart and Beethoven "Sonatinas;" Bartok, "Mikrokosmos," Books 3 and 4. Three pieces of different style periods, all from memory. Sight reading required.

Violin — Scales, either three or four octaves at a moderato tempo, six to eight notes per bow. Arpeggios, three or four octaves, both études/caprices of Kreutzer, Rode, Fiorillo, Dont (Opus 35), Gavinies, Paganini, Wieniawski (Opus 10) or Ernst. One movement of any solo sonata or partita of J.S. Bach, and either a movement of any of the major concertos, Beethoven, Brahms, Mendelssohn, Saint-Saens, Tchaikovsky, et al, or a virtuoso work such as Havanaise — Introduction and Rondo —Capriccioso of Saint-Saens, Polonaise-Brilliante of Wieniawski, Zapateado of Sarasate or Tzigane by Ravel, et al.

Viola — Handel, Purcell or other sonatas; Telemann Concerto in G major or Vivaldi Concerto in E minor. Scales two octaves (major and melodic minor).

Violoncello — Major and Minor Scales 3 octaves, Popper (from High School of Cello Playing), Duport or Piatti etude, mvt of a concerto (such as Lalo, Dvorak or Shostakovich) or mvt of a sonata (such as Brahms or Prokofiev) and 2 contrasting mvt of Bach Solo Suites.

Double Bass — One étude from Edouard Nanny's "Complete Method Book for Contrabass" Book 1 or solo of candidate's choice. Two contrasting orchestral excerpts (one Mozart) of candidate's choice. Major and minor scales through half, first and second positions.

Harp — Two pieces of different style, memorized, such as Handel's Concerto in B-flat, Haydn's Theme and Variations, Pescetti's C Major Sonata, Pierre's Impromptu Caprice, Debussy's First Arabesque, selections from Suite of Eight Dances by Salzedo. Major and melodic minor scales. Sight reading.

Flute — Any Handel sonata (except the E minor Sonata) [select at least one sonata]. Any étude from Anderson Étude Method, opus 41 [select any two of the 18 studies]. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Oboe — Handel Sonata No. 1; Any progressive melodic study from Barrett or an étude from Ferling 48 Studies. Major and minor scales and arpeggios through four sharps and flats (two octaves).

Clarinet — Any two études from Thirty-two Études for Clarinet by C. Rose, or from Preliminary Studies for the Accomplished Clarinetist, Vol. I, by R. Jettel. One solo work comparable in difficulty to the Weber "Concertino" or Hindemith "Sonata." Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Bassoon — Three or four selected studies from the Weissenborn Complete Method. Any two studies from the Weissenborn Advanced studies. Mozart "Concerto in B" (second and third movements), or Galliard Sonatas I and VI or Phillips Concertpiece or Telemann Sonata in F Minor," or J. C. Bach "Concerto in B Major" and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Saxophone — Two studies from Ferling "48 Famous Studies," Rubank "Selected Studies," Klose "25 Exercises or Niehaus Jazz Studies." One solo work comparable to Glazounov "Concerto," Ibert "Concertino de Camara," Villa-Lobos "Fantasia," Bozza: "Aria" or Ibert "Aria." Major and minor scales and arpeggios through four sharps and four flats (two octaves or full range).

French Horn — Two or three études selected from "Method for French Horn" by Pottag, edited by Hovey. Mozart, Concerto No. 3 or Saint-Saens Romance. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Trumpet — One or two études from "34 Studies" by Brandt, edited by Nagel. Haydn "Concerto" (first and second movements), or Vidal "Concertino" or Thome "Fantasy in Ea" or Corelli "Sonata VIII," edited by Fitzgerald. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Trombone (Tenor and Bass Trombone) and Euphonium — Two or three studies from "Melodious Études" by Rochut, Book I (bass trombone should play one octave lower where feasible). Studies one through ten of

MUSIC

the Blashevich Clef Studies. Five selected studies from the Arban Method, Book 1. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

Tuba — Any two of the first four solos in "Solos for the Tuba Player" by Wekselblatt. First ten studies from the "Studies for BB \flat Tuba" by Tyrell. Major and minor scales through four sharps and four flats (two octaves when possible).

Percussion — On entering, percussion students should demonstrate proficiency in snare drum, timpani and keyboard percussion and have some experience and ability on drum set and accessory instruments (bass drum, cymbals, tambourine, et cetera.) Snare Drum: The 40 Percussive Arts Society snare drum rudiments, a concert and a rudimental style étude or solo. Timpani: Demonstrate the ability to tune various intervals and perform an étude or solo using four drums. Keyboard Percussion (Marimba, Vibraphone, Xylophone): Major and minor scales and arpeggios through four sharps and four flats (two octaves), an étude or solo utilizing two and/or four mallet techniques. Drum Set (optional): Demonstrate knowledge of various contemporary styles (jazz, rock, Latin) and the ability to maintain a steady pulse. In addition, sight-reading is required in each of the above categories.

Voice — Two songs of contrasting style from the classical or folk song repertoire. At least one song in a language other than English is recommended, i.e., Italian, German or French art song or aria. Accompanist provided.

Classical Guitar — Scales: two octaves, any key (i and m), major and minor; reading: easy pieces through fifth position; prepare two contrasting pieces from "Solo Guitar Playing" book 1 (second position or higher) by Noad or "100 Graded Studies" (Noad), studies numbered 5-100 or Royal Conservatory Book 3, 4 or higher.

Composition Portfolio — Students interested in pursuing a BMus in composition must schedule an interview with Dr. Roger Briggs, director of composition. Students should schedule their composition interview for the same day they schedule their entrance audition in their major instrument/voice.

Academic Progress Policy

A minimum GPA of 2.5 in music courses is required for graduation with a degree in music. Students must complete the basic music theory sequence (MUS 222, 224) with an average of B- or better to continue on to upper-division theory and history courses. Specific requirements for admission into the various BMus degree programs can be obtained from the appropriate area coordinator or the undergraduate advisor.

Aural Skills, and Keyboard Skills Placement Examinations - Transfers

All students transferring to Western who have completed at least one quarter of college theory, aural skills, or keyboard skills will take, prior to enrollment, a Theory Placement Examination, an Aural Skills Placement Examination, and a Keyboard Skills Examination. These examinations may be taken at Western, or they may be taken and examined at any college or community college (administered by professors at that college) prior to transferring to Western, upon individual request. These examinations are evaluative instruments; the results are advisory only. Students may repeat theory and/or aural skills/keyboard skills courses previously taken elsewhere. All credit received in theory, aural skills, and keyboard skills previously at other institutions will be transferred at the level for which it was earned and may apply toward fulfillment of the requirements for the major in music or in music education.

History Placement Examination - Transfers

Students with upper-division music history credit (300 level or above) must take a history placement examination to determine what history courses remain to be taken.

Keyboard Competency

All students in Bachelor of Music programs will successfully complete a Keyboard Competency Examination. Those students commencing their music theory studies at Western will complete this requirement as part of the two-year music theory and aural skills/keyboard skills sequence.

Students transferring to Western with one or more quarters of music theory, aural skills, or keyboard skills will complete the requirement either by: 1) completing the remaining quarters of the theory and aural skills/keyboard skills sequence; or 2) taking the Keyboard Competency Examination. The appropriate course of action will be determined by the results of the Placement Examinations.

Students in the BMus degree programs will be required to take the Keyboard Competency Examination by the end of the sophomore year or, in the case of transfer students, after three quarters of full-time study.

Scholarships

In addition to general University scholarships, several awards are available from off-campus music organizations through The Western Foundation. Scholarship awards to incoming music majors will be based upon quality of entrance audition. For further information, please call the music adviser, PAC 263, at 360-650-4091 or refer to www.wvu.edu/music/.

Concert Attendance

All music majors will register for MUS 99, Concert Attendance (0 credits, S/U grading) each quarter in residence. Programs or ticket stubs from a minimum of eight approved concerts/recitals must be submitted each quarter to receive a satisfactory grade. For further information please call the music adviser at 360-650-4091.

Program Advisement

All undergraduate music majors are assigned to the departmental undergraduate program advisor for scheduling and program approval.

Bachelor of Music

To complete the Bachelor of Music degree requirements, it may be necessary for the student to take more than the usual 180 credit hours. Students should anticipate that these programs may require more than four years.

Bachelor of Arts

Music, BA

Department of Music, College of Fine and Performing Arts

60 Credits

Introduction

The Music BA consists of a basic core of study in Music Theory and History along with private instruction and ensemble performance. The Bachelor of Arts is the liberal arts degree program in music which allows for individual preferences in intensifying studies in certain aspects of music and broadening the scope of academic pursuits.

MUSIC

Why Consider a Music Major?

This program is designed for the liberal arts student who may wish to complete minors or an additional major in another field in addition to completing a major in Music. Students in the Music BA program frequently complete studies in such fields as Theatre, Business, Mathematics or one of the languages.

How to Declare (Admission and Declaration Process):

Pre-major: Available. Auditioned, approved entering freshmen will be declared as Music pre-majors until such time as the appropriate area faculty members approve the intended degree program. At this time the student may formally declare the intended major.

Admissions: The prerequisite for all Music degrees is the entrance audition on the primary instrument/voice.

Application Deadlines: The audition must be complete prior to the quarter in which the student intends to enroll. The audition deadline for each fall quarter is the end of the previous May. Due to the sequential nature of the music curriculum, midyear applications are not recommended. Students seeking admission to the program other than fall quarter will be required to meet prerequisites in all course sequences (MUS 121/122 through 225/226; 341 through 343; and 351 through 354) as a condition of admission.

Advising Tips: The Department of Music provides individual advisement and program planning for all students majoring in music. This takes place during the registration period and by appointment. Many students prefer to spend a day on campus prior to transfer, at which time they may receive advisement and visit the various departmental performance groups and classes and meet with instructors. Interested students should follow the guidelines set forth in the Music section of this catalog prior to contacting the department. Write or phone the Department of Music, Western Washington University, Bellingham, Washington 98225-9107, phone 360-650-3130 or visit the website, <http://www.wwu.edu/music/>.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- MUS 099 - Concert Attendance Required for every quarter in residence. Minimum 8 concert programs or ticket stubs required.
- MUS 101 - Fundamentals of Music
- MUS 121 - Aural and Keyboard Skills I
- MUS 122 - Theoretical and Analytical Skills I
- MUS 123 - Aural and Keyboard Skills I
- MUS 124 - Theoretical and Analytical Skills I
- MUS 125 - Aural and Keyboard Skills I
- MUS 126 - Theoretical and Analytical Skills I

- MUS 221 - Aural and Keyboard Skills II
- MUS 222 - Theoretical and Analytical Skills II
- MUS 223 - Aural and Keyboard Skills II
- MUS 224 - Theoretical and Analytical Skills II

 - MUS 414 - Applied Instruction: Winds and Percussion

MUSIC

- MUS 415 - Applied Instruction: Voice
- MUS 416 - Applied Instruction: Classical Guitar
- Major Ensemble Requirement: 12 credits minimum**
- MUS 271 - University Choir
- MUS 272 - Symphonic Band
- MUS 471 - Concert Choir
- MUS 472 - Wind Symphony
- MUS 473 - University Symphony Orchestra

**Pianists will take three quarters of major performing ensemble and three quarters of Mus 276 and/or 476 (piano accompanying).

Bachelor of Music

Music - Composition Concentration, BMus

Department of Music, College of Fine and Performing Arts

118-122 credits

Introduction

Music composition majors learn a variety of skills enabling them to express their musical ideas in an effective manner that allows for performance of their creations. Each student receives private composition instruction along with instruction in basic music theory, music history, conducting, lessons on their major instrument/voice and ensemble performance. While composition instruction will cover all modes, genres and periods, students may elect to concentrate their creativity on one or more specific areas. Instruction will include introduction and advanced courses in the use of computer hardware and software.

The Bachelor of Music (BMus) degree is the professional undergraduate degree program in music. It is an expanded program which requires a student to undertake a course of study of a minimum of 192 undergraduate credits.

Why Consider a Concentration Composition in Music Major?

Do you long for the skills to creatively express your musical ideas? Do you want to learn more about the art of composition and the applications of current technology to the creating of music? If you are seriously considering a career as a composer, or if you just want to "learn how to do it right", the Bachelor of Music degree in Composition is the ideal degree for you.

Guitar students as follows: six quarters Major Performance Ensemble (MUS 271- or 471); three quarters of Collegium (MUS 280 or 480); and three quarters of Guitar Ensemble (MUS 281N or 481).

Music - History and Literature Concentration, BMus

Department of Music, College of Fine and Performing Arts

116-121 credits

Introduction

In addition to core studies in Music Theory and History, students in the Music History and Literature Degree Program pursue in-depth study in a variety of topics related to the history of musical composition.

The Bachelor of Music (BMus) degree is the professional undergraduate degree program in music. It is an expanded program which requires a student to undertake a course of study of a minimum of 192 undergraduate credits.

Why Consider a Concentration in History and Music Major?

Are you a musician with an avid interest in history? Do you wonder about the historical context in which your favorite work was composed? Do you hold career goals which include college-level teaching or historical research? If so, you may want to consider the Music History & Literature Degree Program.

 - One course from: (Each quarter in residence minimum 24 credits)**
 - MUS 271 - University Choir
 - MUS 272 - Symphonic Band
 - MUS 471 - Concert Choir
 - MUS 472 - Wind Symphony
 - MUS 473 - University Symphony Orchestra

□ Electives: 8 credits minimum selected under advisement. Piano student must take Applied Music Literature – MUS 467 (6 credits minimum). Voice students will take Voice Studies – MUS 166A & 166B (5 credits), and Vocal Diction – MUS 366A, 366B, and 366C (3 credits). Guitar students must take Fretboard Harmony – MUS 367 (minimum 1 credit), and Guitar History & Repertory – MUS 468A and 468B (4 credits minimum).

**Piano students will take a combination of major performing ensemble and MUS 276/476 (piano accompanying) as follows: three quarters major performing ensemble, remaining quarters piano accompanying. Guitar students as follows: six quarters Major Performance Ensemble (MUS 271-or 471); three quarters of Collegium (MUS 280 or 480); and three quarters of Guitar ensemble (MUS 281N or 481).

Music Education P-12, BMus

Department of Music, College of Fine and Performing Arts

146-152 credits minimum*

Introduction

The Music Education Degree Program is comprised of a comprehensive course of study in basic Music Theory, Music History, Conducting, and Music Education methods courses which lead to K-12 Certification as a Music Specialist.

The Music P-12 major must be accompanied by the Secondary Education Professional Program offered through Woodring College of Education.

Why Consider a Music Education P-12 Major?

If your goal is to direct a band, orchestra or choir, or to teach general music in a school system in the State of Washington, the Bachelor of Music in Music Education is the degree program for you.

A Music degree from Western Washington University is highly regarded in the profession. Western graduates successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is our forty-member Music faculty, each of whom is deeply committed to serving Music majors in achieving their aspirations.

MUSIC

How to Declare (Admission and Declaration Process):

Pre-major: Available. Auditioned, approved entering freshmen will be declared as Music pre-majors until such time as the appropriate area faculty members approve the intended degree program. At this time the student may formally declare the intended major.

Admissions: The prerequisite for all Music degrees is the entrance audition on the primary instrument/voice.

Application Deadlines: The audition must be complete prior to the quarter in which the student intends to enroll. The audition deadline for each fall quarter is the end of the previous May. Due to the sequential nature of the music curriculum, midyear applications are not recommended. Students seeking admission to the program other than fall quarter will be required to meet prerequisites in all course sequences (MUS 121/122 through 225/226; 341 through 343; and 351 through 354) as a condition of admission.

***Includes 44 credits from the Secondary Education Program:** This major must be accompanied by courses in the professional preparation program in secondary education that are specified under Additional Requirements. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Music education majors should consult Teacher Education Admissions, Miller Hall 150, for information concerning admission to the Secondary Education program.

Grade Requirements

A grade of C (2.0) or better is required for courses in the secondary education professional program and all courses required for the endorsement.

Requirements

- MUS 099 - Concert Attendance
Required for every quarter in residence. Minimum 8 concert programs or ticket stubs required.
- MUS 101 - Fundamentals of Music
- MUS 121 - Aural and Keyboard Skills I
- MUS 122 - Theoretical and Analytical Skills I
- MUS 123 - Aural and Keyboard Skills I
- MUS 124 - Theoretical and Analytical Skills I
- MUS 125 - Aural and Keyboard Skills I
- MUS 126 - Theoretical and Analytical Skills I
- MUS 221 - Aural and Keyboard Skills II
- MUS 222 - Theoretical and Analytical Skills II
- MUS 223 - Aural and Keyboard Skills II
- MUS 224 - Theoretical and Analytical Skills II
- MUS 225 - Aural and Keyboard Skills II
- MUS 268 - Introduction to Music Education
- MUS 328A - Technology for Music Educators
- MUS 341 - History of Music to 1600
- MUS 342 - History of Music 1600-1830
- MUS 343 - History of Music 1830-Present
- MUS 352 - Instrumental Conducting
- MUS 353 - Choral Conducting
- MUS 362 - General Music Education
- MUS 461 - Advanced Techniques in General Music Education
- MUS 469 - Music Teaching Practicum II (must be taken twice)
- One course from:

- MUS 354A - Choral Conducting
- MUS 354B - Instrumental Conducting
- One course from: (Each quarter in residence minimum 24 credits)**
 - MUS 271 - University Choir
 - MUS 272 - Symphonic Band
 - MUS 471 - Concert Choir
 - MUS 472 - Wind Symphony
 - MUS 473 - University Symphony Orchestra

**Piano students will take six quarters of major performing ensemble and six quarters of MUS 276 and/or 476 (piano accompanying). Guitar students as follows: six quarters major performance ensemble (MUS 271 or 471), three quarters of Collegium (MUS 280 or 480) and three quarters Guitar Ensemble (MUS 281N or 481).

- Applied music on major instrument or voice each quarter in residence (minimum 12 credits); including at least three credits in courses numbered 312-316 or 412-416:
 - MUS 212 - Applied Instruction: Piano
 - MUS 213 - Applied Instruction: Strings
 - MUS 214 - Applied Instruction: Winds and Percussion
 - MUS 215 - Applied Instruction: Voice
 - MUS 216 - Applied Instruction: Classical Guitar
 - MUS 312 - Applied Instruction: Piano
 - MUS 313 - Applied Instruction: Strings
 - MUS 314 - Winds and Percussion
 - MUS 315 - Applied Instruction: Voice
 - MUS 316 - Applied Instruction: Classical Guitar
 - MUS 412 - Applied Instruction: Piano
 - MUS 413 - Applied Instruction: Strings
 - MUS 414 - Applied Instruction: Winds and Percussion
 - MUS 415 - Applied Instruction: Voice
 - MUS 416 - Applied Instruction: Classical Guitar

□ One of the following Emphasis Areas:

P-12 General Music Emphasis (7 credits) This emphasis leads to an endorsement in general music.

- MUS 271 - University Choir
- MUS 263 - Vocal Pedagogy
- MUS 264P - Pedagogy/Lab: Percussion
- One course from:
 - MUS 264L - Pedagogy/lab: Woodwinds I
 - MUS 264M - Pedagogy/lab: Woodwinds II
- One course from:
 - MUS 264N - Pedagogy/Lab: Brass I
 - MUS 264O - Pedagogy/Lab: Brass II
- One course from:
 - MUS 265C - Pedagogy/Lab: Strings I
 - MUS 265D - Pedagogy/Lab: Strings II

P-12 Choral Music Emphasis (12 credits) This emphasis leads to two endorsements: choral music and general music.

- MUS 264P - Pedagogy/Lab: Percussion
- MUS 366A - Vocal Diction: Italian
- MUS 366B - Vocal Diction: German
- MUS 366C - Vocal Diction: French
- MUS 463 - Secondary Choral Music Education
- MUS 466B - Applied Music Pedagogy: Voice
- One course from:
 - MUS 264L - Pedagogy/Lab: Woodwinds I
 - MUS 264M - Pedagogy/Lab: Woodwinds II

MUSIC

One course from:

MUS 264N - Pedagogy/Lab: Brass I

MUS 264O - Pedagogy/Lab; Brass II

One course from:

MUS 265C - Pedagogy/Lab: Strings I

MUS 265D - Pedagogy/Lab: Strings II

P-12 Instrumental Music Emphasis (13 credits) This emphasis leads to two endorsements: instrumental music and general music.

MUS 271 - University Choir

MUS 263 - Pedagogy/Lab: Voice

MUS 264L - Pedagogy/Lab: Woodwinds I

MUS 264M - Pedagogy/Lab: Woodwinds II

MUS 264N - Pedagogy/Lab: Brass I

MUS 264O - Pedagogy/Lab: Brass II

MUS 264P - Pedagogy/Lab: Percussion

MUS 265C - Pedagogy/Lab: Strings I

MUS 265D - Pedagogy/Lab: Strings II

- MUS 465 - Secondary Instrumental Music Education

Additional Requirements (44 credits)

- SEC 301 - Educational Psychology I: Development and Individual Differences
- SEC 302 - Educational Psychology II: Motivation, Learning and Assessment
- SEC 310 - Education, Culture, and Equity
- SEC 410 - Dynamics of Teaching
- SEC 411 - Philosophical Foundations of Education
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools
- SEC 495 - Internship - Secondary
- SPED 363 - Secondary Students With Special Needs

Master of Music

Music, Thesis, MMus

College of Fine and Performing Arts

Graduate Faculty

Bourne, Patricia, Ed. D, music education.

Bianco, Christopher, DMA, wind, ensemble, conducting.

Briggs, Roger D., PhD, composition, orchestra.

Donnellan, Grant, MMus, violin.

Feingold, David, MMus, guitar, Chair.

Friesen, John, DMA, cello, chamber music.

Gilliam, Jeffrey, MMus, piano, piano accompanying.

Guelker-Cone, Leslie, DMA, choral music, conducting.

Hamilton, Bruce, DMus, composition, theory/analysis, electro-acoustic music.

Jelaca-Jovanovic, Milica, DMA, piano, piano literature, piano pedagogy.

Rutschman, Carla, PhD, low brass, musicology, brass pedagogy.

Schwede, Walter, MMus, violin, chamber music.

Sommer, Lesley, DM, composition, theory/analysis.

Van Boer, Bertil H., PhD, musicology.

Zoro, Eugene S., MMus, clarinet, woodwind pedagogy, chamber music.

Program Advisor: Dr. Bertil Van Boer, Performing Arts Center 147, (360) 650-2282.

Introduction

The Master of Music degree consists of a core of courses which serve as a common foundation and a set of more specialized courses in one of five concentrations: composition, music history and literature, performance, conducting and music education. The degree may be used as a preparation for doctoral studies in music, or it may serve as a terminal degree. Minimum credits for each concentration is 45.

The composition concentration includes course work in composition, music history, and music theory as well as a thesis (original composition). Ensembles, studio instruction, and course work in conducting are also available.

The music history and literature concentration includes seminars in music history, work in notation, courses in music theory, performance with the Collegium Musicum, and a written thesis.

The performance concentration includes vocal or instrumental studio instruction, work with small and large ensembles, a recital to satisfy the thesis requirement, and course work in music history and music theory. Pianists may emphasize solo performance or accompanying. Studies in jazz areas are available.

The conducting concentration includes course work in conducting, music history, and music theory, and a conducting practicum to fulfill the thesis requirement. Ensembles and studio instruction are also available.

The music education concentration includes courses in music education, music history and music theory courses in the College of Education or the Department of Psychology. Ensembles and studio instruction are also available. The thesis can be a written project, a recital or a conducting practicum.

Goals

To prepare students for professional-level work in music, as performers (singers, instrumentalists or conductors), composers, scholars, educators, or in a combination of these areas.

Prerequisites and Examinations

Prerequisite for admission to the MMus program is a BMus degree or its equivalent.

Students in the Composition concentration must submit at least three original compositions for evaluation.

Students in the Performance concentration must audition before a faculty committee or submit tape recorded performance for evaluation. Vocal performers must demonstrate competence in German, French and Italian diction.

Students in the History and Literature concentration must demonstrate strength in that area by interview with appropriate faculty members. Applicants must demonstrate reading ability in French or German.

Students in the Conducting concentration must demonstrate ability and experience in conducting by interview with appropriate faculty members. In addition, they must prepare a curricular proposal for approval by an appropriate faculty committee. Choral conductors must demonstrate competence in vocal pedagogy and in German, French, Italian, and Latin diction.

Students in the Music Education concentration must prepare a curricular proposal for approval by an appropriate faculty committee, subject to final approval by the department.

Placement examinations in music theory and music history must be taken prior to beginning the program. Courses necessary to remove deficiencies are not credited toward the degree.

The Graduate Record Examination. The General Test is required. Scores should be sent to the WWU Graduate School along with other application materials.

MUSIC

Basic Requirements for All Concentrations (minimum 45 credits)

- MUS 541 - History/Analysis: Music to 1600 (4)
- MUS 542 - History/Analysis: Music from 1600-1830 (4)
- MUS 543 - History/Analysis: Music from 1830-Present (4)
- MUS 503 - Introduction to Graduate Study of Music (4)
- MUS 532 - Analytical Techniques: 20th-Century Musical Practices (3)
- MUS 533 - Analytical Techniques: 19th-Century Musical Styles and Practices (3)
- MUS 690 - Thesis (6)

All students admitted to graduate study must register for at least one course in the area of basic requirements during each quarter of enrollment until those requirements are fulfilled.

Candidates for the Master of Music degree must successfully complete a final written exam based on course work for the M.Mus. degree.

Requirements and Electives for Each Concentration

Composition Concentration

- MUS 534 - Composition (12)
- Electives (5)

History and Literature Concentration

- MUS 538 - Notation
- MUS 539 - History of Musical Genres
- MUS 580 - Advanced Collegium Musicum
- MUS 550 - Seminar in the History of Music (3)

Performance Concentration

- One course from:
 - MUS 574 - Jazz Ensembles
 - MUS 575 - Chamber Jazz Ensembles
 - MUS 578 - Opera Production
 - MUS 580 - Advanced Collegium Musicum
 - MUS 581 - Applied Chamber Music
 - MUS 583 - Chamber Vocal Ensemblesor any approved 400-level or 500-level course(s)
- 9 credits from:
 - MUS 511 - Individual Instruction: Advanced Organ
 - MUS 512 - Individual Instruction: Advanced Piano
 - MUS 513 - Individual Instruction: Advanced Strings
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion
 - MUS 515 - Individual Instruction: Advanced Voice
 - MUS 518 - Individual Instruction: Applied Jazz
 - MUS 576 - Accompanying
- Electives (2)

Conducting Concentration (Choral Conducting, Orchestral Conducting, Band Conducting)

- Conducting Studies (9-17)
 - MUS 501 - Instrumental Conducting and Rehearsal Techniques
 - MUS 502 - Choral Conducting and Literature
 - MUS 519 - Individual Instruction - Advanced Applied Conducting approved 400-level and/or 500-level course(s)
- Basic Musicianship (0-9) Courses to be selected from the following (any not selected under Basic Requirements):
 - MUS 541 - History/Analysis: Music to 1600
 - MUS 542 - History/Analysis: Music from 1600-1830
 - MUS 543 - History/Analysis: Music from 1830-Present
 - MUS 550 - Seminar in the History of Music
 - MUS 531 - Arranging
 - MUS 534 - Composition and approved 400-level and/or 500-level course(s)
- Applied Music (0-9)
 - MUS 511 - Individual Instruction: Advanced Organ
 - MUS 512 - Individual Instruction: Advanced Piano
 - MUS 513 - Individual Instruction: Advanced Strings
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion
 - MUS 515 - Individual Instruction: Advanced Voice
 - MUS 518 - Individual Instruction: Applied Jazz and/or approved 411-418 course(s)
- Ensemble (0-9)
 - Approved 400-level and/or 500-level ensemble course(s)

Music Education Concentration (Instrumental Music Supervision, Choral Music Supervision, Choral Conducting, Orchestral Conducting, Band Conducting)

- Professional Understandings/Techniques (6-9)
 - Courses to be selected from the following:
 - MUS 501 - Instrumental Conducting and Rehearsal Techniques
 - MUS 502 - Choral Conducting and Literature
 - MUS 525 - Brass and Percussion Techniques and Materials or any approved 400-level or 500-level course(s)
- Basic Musicianship (3-9)
 - Courses to be selected from the following: (any not elected under Basic Requirements)
 - MUS 531 - Arranging
 - MUS 534 - Composition
 - MUS 541 - History/Analysis: Music to 1600
 - MUS 542 - History/Analysis: Music from 1600-1830
 - MUS 543 - History/Analysis: Music from 1830-Present
 - MUS 550 - Seminar in the History of Music or any approved 400-level or 500-level course(s)
- Applied Music (0-9)
 - MUS 511 - Individual Instruction: Advanced Organ
 - MUS 512 - Individual Instruction: Advanced Piano
 - MUS 513 - Individual Instruction: Advanced Strings
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion
 - MUS 515 - Individual Instruction: Advanced Voice
 - MUS 518 - Individual Instruction: Applied Jazz or approved 411-418
- Ensemble (0-9)
 - Approved 400-level or 500-level ensemble course(s)
- Guided electives in professional education in education or psychology (3-9)

How to Declare (Admission and Declaration Process):

Admission to Program

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- MUS 101 - Fundamentals of Music
- MUS 121 - Aural and Keyboard Skills I
- MUS 122 - Theoretical and Analytical Skills I
- MUS 123 - Aural and Keyboard Skills I
- MUS 124 - Theoretical and Analytical Skills I
- MUS 125 - Aural and Keyboard Skills I
- One course from:
 - MUS 104 - The Art of Listening to Music
 - MUS 105 - Survey of Popular and Rock Music
- One course from:
 - MUS 202 - Jazz: Genesis and Evolution
 - MUS 205 - Survey of Non-Western Musical Cultures
- 12 credits selected under advisement

Music Courses

MUS 099 - Concert Attendance

All music pre-majors and majors are required to attend a minimum of eight approved concerts and/or recitals each quarter in residence. S/U grading.

Credits: 0
Grade Mode: S/U

MUS 99 - Concert Attendance

All music pre-majors and majors are required to attend a minimum of eight approved concerts and/or recitals each quarter in residence. S/U

grading.

Credits: 0

Grade Mode: S/U

MUS 100 - Marrowstone Music Festival

A combined theory, composition, and music literature class keyed to the works students will perform during the Marrowstone Music Festival. Students will gain insight into these works and have the opportunity to develop their own compositional skills. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival

Credits: 1

Grade Mode: Letter

MUS 101 - Fundamentals of Music

Open to all students. The study of musical construction for those unfamiliar with the fundamentals of notation (pitch and rhythm), major and minor scales, intervals, triads and keys, with particular attention to their practical application.

Credits: 3

Grade Mode: Letter

MUS 102 - Introduction to Music Theory and Ear Training

Courses designed to strengthen the prospective music major's knowledge of fundamental theoretical principles and to introduce the basic aural/reading skills needed to begin the musicianship sequence.

Prerequisites & Notes: MUS 101 or instructor permission

Credits: 3

Grade Mode: Letter

MUS 103 - Introduction to Music Theory and Ear Training

Courses designed to strengthen the prospective music major's knowledge of fundamental theoretical principles and to introduce the basic aural/reading skills needed to begin the musicianship sequence.

Prerequisites & Notes: MUS 102

Credits: 3

Grade Mode: Letter

MUS 104 - The Art of Listening to Music

Open to all students. Non-technical basis for enjoyable listening to music; performance practices relating to symphony orchestras,

instrumental ensembles, opera, choral groups and solo performance.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 105 - Survey of Popular and Rock Music

Open to all students. An introduction to the genres, forms and composers of popular music within the framework of a study of its historical and cultural context.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 116 - Guitar Technologies: Guitar for Beginners

This course serves as an introduction to the guitar. Techniques include both basics of plectrum and finger-style technique. Also covered are chords, strumming and finger-style applications for arpeggio playing, leading to basic accompaniment. S/U grading.

Credits: 2

Grade Mode: S/U

MUS 121 - Aural and Keyboard Skills I

The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: Music major

Credits: 1

Grade Mode: S/U

MUS 122 - Theoretical and Analytical Skills I

Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: MUS 101 or equivalent; music major

Credits: 3

Grade Mode: Letter

MUS 123 - Aural and Keyboard Skills I

The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

MUSIC

Prerequisites & Notes: MUS 121; music major
Credits: 1
Grade Mode: S/U

MUS 124 - Theoretical and Analytical Skills I
Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: MUS 122; music major
Credits: 3
Grade Mode: Letter

MUS 125 - Aural and Keyboard Skills I
The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 123; music major
Credits: 1
Grade Mode: S/U

MUS 126 - Theoretical and Analytical Skills I
Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: MUS 124; music major
Credits: 3
Grade Mode: Letter

MUS 160 - Preparatory Class Piano
Designed for students with no keyboard experience. Basic reading skills and technique.

Credits: 1
Grade Mode: Letter

MUS 163 - Class Voice
Study of basic vocal production skills and repertoire preparation.

Credits: 2
Grade Mode: Letter

MUS 166A - Introduction to Voice Studies A
This course will prepare the student for success in solo and choral voice performance at the university level. The student will be exposed to linguistic and musical resources for the preparation and performance of vocal music in various languages. Efficient practice and research techniques are also integral to the course.

Prerequisites & Notes: Admission to music program as a voice pre-major.

Credits: 3
Grade Mode: Letter

MUS 166B - Introduction to Voice Studies B
A continuation of MUS 166A with added emphasis on skills necessary for success as a vocal soloist. The student will be exposed to more in-depth linguistic and musical resources such as: recital preparation, performance anxiety, and a general survey of the solo vocal repertoire.

Prerequisites & Notes: Admission to the music program as a voice pre-major, MUS 166A.
Credits: 2
Grade Mode: Letter

MUS 168 - Exploring the World of Teaching Music
Overview of strategies for effective teaching, rehearsal techniques and strategies, motivational tools, appropriate body language, assertive classroom management. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival
Credits: 1
Grade Mode: S/U

MUS 173 - Marrowstone Orchestra
Study, rehearsal and performance of orchestra literature appropriate to students participating in the Marrowstone Music Festival. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival
Credits: 1
Grade Mode: S/U

MUS 181 - Marrowstone Chamber Music
Study, rehearsal and performance of chamber music appropriate to students participating in the Marrowstone Music Festival. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival
Credits: 1
Grade Mode: S/U

MUS 202 - Jazz: Genesis and Evolution
Open to all students. Personalities, styles and social/cultural influences on jazz from its beginning to the present day.

Credits: 3
Grade Mode: Letter

MUS 205 - Survey of Non-Western Musical Cultures

Open to all students. A general introduction to the musical styles of major non-Western cultures, including those of Africa, India, Asia, Indonesia and Eastern Europe. Focus on the role played by music in each society.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

MUS 221 - Aural and Keyboard Skills II

The development of aural competence in and visual familiarity with the sounds and symbols of the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 125; music major
Credits: 1
Grade Mode: S/U

MUS 222 - Theoretical and Analytical Skills II

Advanced study of and practical experience in using the materials of musical construction including extended, chromatic, and non-tertian harmonic structures and complex musical forms.

Prerequisites & Notes: MUS 126; music major
Credits: 3
Grade Mode: Letter

MUS 223 - Aural and Keyboard Skills II

The development of aural competence in and visual familiarity with the sounds and symbols of the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 221; music major
Credits: 1
Grade Mode: S/U

MUS 224 - Theoretical and Analytical Skills II

Advanced study of and practical experience in using the materials of musical construction including extended, chromatic, and non-tertian harmonic structures and complex musical forms.

Prerequisites & Notes: MUS 222; music major
Credits: 3
Grade Mode: Letter

MUS 225 - Aural and Keyboard Skills II

The development of aural competence in and visual familiarity with the sounds and symbols of the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 223; music major; minimum applied performance audition

Credits: 1

Grade Mode: S/U

MUS 230 - Introduction to Electroacoustic Music

Instruction in editing and mixing audio with computer software; analog synthesis with vintage synthesizers; history of electroacoustic music.

Prerequisites & Notes: MUS 105

Credits: 2

Grade Mode: Letter

MUS 231 - Elementary Composition

Elementary craft of melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition seminars. Repeatable for credit under advisement.

Credits: 2

Grade Mode: Letter

MUS 232 - Computer Music Seminar

Instruction in musical programming with CSound or SuperCollider. Topics include sound synthesis, signal processing, and algorithmic composition.

Prerequisites & Notes: MUS 105; music major

Credits: 2

Grade Mode: Letter

MUS 260 - Remedial Class Piano

Concentration on specific areas of the Keyboard Competency Exam based on individual needs. Repeatable for credit.

Prerequisites & Notes: music major; successful completion of a minimum 4 items Keyboard Competency Exam

Credits: 1

Grade Mode: Letter

MUS 261 - Intermediate Class Piano

Intermediate piano repertoire, sight-reading skills, technique and accompanying. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: MUS 225; music major

Credits: 1

Grade Mode: Letter

MUS 263 - Vocal Pedagogy

Vocal pedagogy and performance, conducting, developing teaching strategies with goals and objectives.

Credits: 3

Grade Mode: Letter

MUS 264L - Pedagogy/lab: Woodwinds I

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264M - Pedagogy/lab: Woodwinds II

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264N - Pedagogy/Lab: Brass I

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264O - Pedagogy/Lab: Brass II

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264P - Pedagogy/Lab: Percussion

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 265C - Pedagogy/Lab: Strings I

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUSIC

MUS 265D - Pedagogy/Lab: Strings II

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 268 - Introduction to Music Education

This course is designed to introduce philosophical issues and pedagogical practices in the teaching of music in elementary and secondary schools. Through discussion, reading, presentation, and observation, students will explore the career realities of full-time public school music teaching. Students will be introduced to a variety of frameworks for effective instruction, and will examine content and strategies for organizing and presenting lessons in classroom and rehearsal settings.

Prerequisites & Notes: music major

Credits: 2

Grade Mode: Letter

MUS 269 - Music Teaching Practicum I

Observation, assisting and/or micro-teaching experience in K-12 music classroom environments. Repeatable for credit.

Prerequisites & Notes: instructor permission

Credits: 2

Grade Mode: Letter

MUS 271 - University Choir

Preparation and performance of major choral works and part-songs. Open to all students having the ability to sing mixed part-songs. Repeatable for credit.

Prerequisites & Notes: instructor permission

Credits: 2

Grade Mode: Letter

MUS 272 - Symphonic Band

Preparation and performance of major band works. Open to all students with band experience. Repeatable for credit.

Prerequisites & Notes: instructor permission

Credits: 2

Grade Mode: Letter

MUS 274 - Jazz Ensembles

Performance and interpretation of contemporary jazz in a large ensemble situation. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 275 - Chamber Jazz Ensembles

Supervised small ensemble performance in jazz idioms stressing repertoire, improvisation, and performance of written arrangements and compositions. One public performance per quarter required. Repeatable for credit.

Prerequisites & Notes: by audition; MUS 224, MUS 334 strongly recommended

Credits: 2

Grade Mode: Letter

MUS 276 - Piano Accompanying

Includes private accompanying instruction and weekly performance seminars. Accompanying assignments include duos, chamber ensembles and large performance ensembles. Sight-reading skills, interpretation and accompanying techniques are emphasized. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 278 - Opera Workshop

Preparation of opera scenes or a major music production to include a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 280 - Collegium Musicum

Music literature studies from an analytical and performance viewpoint from early to classic music, culminating in a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281A - Applied Chamber Music: Flute

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281B - Applied Chamber Music: Double Reed

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281C - Applied Chamber Music: Single Reed

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281F - Applied Chamber Music: High Brass

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281H - Applied Chamber Music: Low Brass

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281K - Applied Chamber Music: Percussion

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281L - Applied Chamber Music: Strings

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281M - Applied Chamber Music: Piano

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281N - Applied Chamber Music: Guitar

Repeatable.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 283 - Chamber Vocal Ensembles

Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 284 - Vocal Jazz Ensemble

Preparation and performance of vocal works by major jazz composers. Open to all University students having the ability to sing in mixed chorus. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 285 - Fundamentals of Musical Theatre

Practical application for singing, acting and movement to performance-related work from American musical theatre through solo, duet and group performance. Repeatable to a maximum of 6 cr.

Credits: 3

Grade Mode: Letter

MUS 305 - Musics of the Pacific Rim

An investigation of specific musical styles and practices of selected Pacific Rim cultures, including Pacific Islands, West Coast Native Americans, South America, Indonesia, China and Japan. Includes class participation in actual musical situations from these areas.

Prerequisites & Notes: MUS 205

Credits: 3

Grade Mode: Letter

MUS 311 - Applied Instruction: Organ

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 312 - Applied Instruction: Piano

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 313 - Applied Instruction: Strings

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 313A - Applied Instruction: Violin

Repeatable for credit.

MUSIC

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 313B - Applied Instruction: Viola
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 313C - Applied Instruction: Cello
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 313D - Applied Instruction: Double Bass
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 313E - Applied Instruction: Harp
Repeatable for credit.

Prerequisites & Notes: music mjr; upr-div exam
Credits: 1-4
Grade Mode: Letter

MUS 314 - Winds and Percussion
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314A - Applied Instruction: Flute
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 314B - Applied Instruction: Oboe
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314C - Applied Instruction: Clarinet
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314D - Applied Instruction: Bassoon
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314E - Applied Instruction: Saxophone
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314F - Applied Instruction: French Horn
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314G - Applied Instruction: Trumpet
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 314H - Applied Instruction: Trombone
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314I - Applied Instruction: Euphonium
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314J - Applied Instruction: Tuba
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 314K - Applied Instruction: Percussion
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 315 - Applied Instruction: Voice
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 316 - Applied Instruction: Classical Guitar
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 321 - Aural and Keyboard Skills III
The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 225; music major
Credits: 1
Grade Mode: S/U

MUS 322 - Form and Analysis: Music to 1900
Formal and stylistic analysis of works from the major historical periods up to 1900.

Prerequisites & Notes: MUS 224, MUS 225.
Credits: 3
Grade Mode: Letter

MUS 323 - Aural and Keyboard Skills III
The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 321
Credits: 1
Grade Mode: S/U

MUS 324A - Modal Counterpoint
Counterpoint in species and free style. Composition and analysis of pieces in two and three parts.

Prerequisites & Notes: MUS 224, MUS 225.
Credits: 3
Grade Mode: Letter

MUS 324B - Tonal Counterpoint
Counterpoint in species and free style. Composition and analysis of pieces in two and three parts.

Prerequisites & Notes: MUS 224, MUS 225.
Credits: 3
Grade Mode: Letter

MUS 325 - Aural and Keyboard Skills III
The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 323
Credits: 1
Grade Mode: S/U

MUS 326 - Orchestration/Arranging
Orchestration and arranging with special reference to the needs of the instrumental conductor and composer. Repeatable for credit.

Prerequisites & Notes: MUS 224, MUS 225.
Credits: 3
Grade Mode: Letter

MUS 328A - Technology for Music Educators
Analyzing, application, and interaction with current technology used for educational purposes in music. Sequencing, notation, smart board instruction, web design, and mixed media as instructional and research tools.

Prerequisites & Notes: MUS 224, MUS 225, IT 344 or portfolio of basic instructional technology skills, music education major status.
Credits: 3
Grade Mode: Letter

MUS 328B - Midi Notation and Sequencing for Composition
Computer-based notation and recording of music through MIDI keyboard systems.

MUSIC

Prerequisites & Notes: MUS 224, MUS 225.
Credits: 3
Grade Mode: Letter

MUS 331 - Composition

Intermediate-level projects in melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition seminars. Repeatable for credit under advisement.

Prerequisites & Notes: MUS 226; successful completion of upper-division competency exam in composition.
Credits: 3
Grade Mode: Letter

MUS 334 - Jazz Improvisation I

Study of basic chord changes, scales and patterns with improvisation based on these principles. Analysis of transcribed solos and study of jazz repertoire.

Prerequisites & Notes: open to all accepted jazz majors or MUS 224
Credits: 3
Grade Mode: Letter

MUS 335 - Jazz Improvisation II

Study of altered chords, scales and patterns with improvisation based on the principles. Analysis of transcribed solos, study of jazz repertoire and ear training.

Prerequisites & Notes: MUS 334
Credits: 3
Grade Mode: Letter

MUS 336 - Jazz Improvisation III

Study of bitonal chords, atonality and patterns with improvisation based on these principles. Analysis of transcribed solos, study of jazz repertoire and ear training.

Prerequisites & Notes: MUS 335
Credits: 3
Grade Mode: Letter

MUS 341 - History of Music to 1600

Main styles, forms, terminology and composers up to 1600. Individual research projects.

Prerequisites & Notes: MUS 224, MUS 225; music major status.
Credits: 3
Grade Mode: Letter

MUS 342 - History of Music 1600-1830

Main styles, forms, terminology and composers from 1600 to 1830. Individual research projects.

Prerequisites & Notes: MUS 341; music major
Credits: 3
Grade Mode: Letter

MUS 343 - History of Music 1830-Present

Main styles, forms, terminology and composers from 1830-present. Individual research projects.

Prerequisites & Notes: MUS 342; music major
Credits: 3
Grade Mode: Letter

MUS 351 - Basic Conducting

Basic conducting techniques, score reading and interpretive analysis.

Prerequisites & Notes: MUS 224, MUS 225; music major status.
Credits: 2
Grade Mode: Letter

MUS 352 - Instrumental Conducting

Instrumental techniques, score reading, interpretive analysis and rehearsal techniques.

Prerequisites & Notes: MUS 224, MUS 225; music major status.
Credits: 3
Grade Mode: Letter

MUS 353 - Choral Conducting

Choral techniques, score reading, interpretive analysis and rehearsal techniques.

Prerequisites & Notes: MUS 224, MUS 225; music major status.
Credits: 3
Grade Mode: Letter

MUS 354 - Advanced Conducting

Hands-on practical experience in developing advanced conducting skills. Ensemble conducting experience.

Prerequisites & Notes: MUS 352, MUS 353; music major
Credits: 3
Grade Mode: Letter

MUS 354A - Choral Conducting

Hands-on practical experience in developing advanced conducting skills. Ensemble conducting experience.

Prerequisites & Notes: MUS 352, MUS 353; music major

Credits: 3
Grade Mode: Letter

MUS 354B - Instrumental Conducting

Hands-on practical experience in developing advanced conducting skills. Ensemble conducting experience.

Prerequisites & Notes: MUS 352, MUS 353;
music major
Credits: 3
Grade Mode: Letter

MUS 361 - Music for Elementary Teachers

For elementary teachers, not music majors. The skills of singing, reading, writing, playing and hearing music; techniques and materials used in the elementary grades.

Credits: 3
Grade Mode: Letter

MUS 362 - General Music Education

Instructional techniques, resources, curriculum design, and methodology for teaching students in non-performance based general music classes. Emphasis on P-6th Grades.

Prerequisites & Notes: MUS 124 and MUS 268;
music major status.
Credits: 3
Grade Mode: Letter

MUS 364 - Elementary String Education

Instruction in elementary-level string instrumental repertoire, teaching strategies, rehearsal techniques, curriculum design and implementation. Peer-teaching and micro-teaching assignments in conjunction with Instrumental Pedagogy Lab classes and public school programs.

Prerequisites & Notes: MUS 265A, MUS 265B;
music major
Credits: 2
Grade Mode: Letter

MUS 366A - Vocal Diction: Italian

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: music major; must be taken concurrent with applied voice instruction
Credits: 1
Grade Mode: Letter

MUS 366B - Vocal Diction: German

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: music major; must be taken concurrent with applied voice instruction
Credits: 1
Grade Mode: Letter

MUS 366C - Vocal Diction: French

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: music major; must be taken concurrent with applied voice instruction
Credits: 1
Grade Mode: Letter

MUS 367 - Fretboard Harmony

Diatonic harmony applied to the fretboard. Hands-on application of scales and chords as well as basic arranging chord-melody for the guitarist.

Prerequisites & Notes: MUS 124, three quarters of MUS 216.
Credits: 1
Grade Mode: Letter

MUS 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as ART 398, DNC 398 and THTR 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.
Credits: 3
Grade Mode: Letter

MUS 411 - Applied Instruction: Organ

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 412 - Applied Instruction: Piano

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

MUSIC

Credits: 1-4
Grade Mode: Letter

MUS 413 - Applied Instruction: Strings
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 413A - Applied Instruction: Violin
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 413B - Applied Instruction: Viola
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 413C - Applied Instruction: Cello
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 413D - Applied Instruction: Double Bass
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 413E - Applied Instruction: Harp
Repeatable for credit.

Prerequisites & Notes: music mjr; upr-div exam
Credits: 1-4
Grade Mode: Letter

MUS 414 - Applied Instruction: Winds and Percussion
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 414A - Applied Instruction: Flute
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 414B - Applied Instruction: Oboe
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 414C - Applied Instruction: Clarinet
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 414D - Applied Instruction: Bassoon
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 414E - Applied Instruction: Saxophone
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

MUS 414F - Applied Instruction: French Horn
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 1-4
Grade Mode: Letter

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam
Credits: 0-4
Grade Mode: Letter

MUS 414H - Applied Instruction: Trombone
Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414I - Applied Instruction: Euphonium

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414J - Applied Instruction: Tuba

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414K - Applied Instruction: Percussion

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 415 - Applied Instruction: Voice

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 416 - Applied Instruction: Classical Guitar

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 0-4

Grade Mode: Letter

MUS 422 - Analytical Techniques: 20th-Century Music

Formal and stylistic analysis of representative 20th-century works.

Prerequisites & Notes: MUS 224, MUS 225.

Credits: 3

Grade Mode: Letter

MUS 431 - Composition

Advanced projects in melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition

seminars. Repeatable for credit under advisement.

Prerequisites & Notes: minimum 6 credits MUS 331

Credits: 3

Grade Mode: Letter

MUS 432 - Electroacoustic Music

Instruction in the use of synthesizers, samplers, and computer software for use in electroacoustic music. Group instruction and studio time. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: Two from: MUS 230, MUS 232, MUS 328

Credits: 2

Grade Mode: Letter

MUS 434 - Jazz Arranging I

Writing and arranging for small jazz ensembles. Analysis of small jazz ensemble styles.

Prerequisites & Notes: MUS 224 or MUS 334.

Credits: 3

Grade Mode: Letter

MUS 435 - Jazz Arranging II

Writing and arranging for a variety of instrumental combinations. Analysis of jazz ensemble styles.

Prerequisites & Notes: MUS 434

Credits: 3

Grade Mode: Letter

MUS 436 - Jazz Arranging III

Writing and arranging for large jazz ensemble. Analysis of large jazz ensemble styles.

Prerequisites & Notes: MUS 435

Credits: 3

Grade Mode: Letter

MUS 441 - Notation

Reading and interpreting early, contemporary or other extant systems.

Prerequisites & Notes: MUS 224, MUS 341, MUS 343; permission of instructor.

Credits: 3

Grade Mode: Letter

MUS 442 - Seminar in Music History

The student, in consultation with the instructor, selects one or more given musical developments for individual research. Ongoing results of this research are shared with other members of the seminar. Focus of varies from quarter to quarter. Repeatable for credit.

MUSIC

Prerequisites & Notes: MUS 342, MUS 343;
music major
Credits: 4
Grade Mode: Letter

MUS 443A - History of Musical Genres: Choral Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major
Credits: 3
Grade Mode: Letter

MUS 443B - History of Musical Genres: Solo Song

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major
Credits: 3
Grade Mode: Letter

MUS 443C - History of Musical Genres: Opera

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major
Credits: 3
Grade Mode: Letter

MUS 443D - History of Musical Genres: Keyboard Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major
Credits: 3
Grade Mode: Letter

MUS 443E - History of Musical Genres: Chamber Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major
Credits: 3
Grade Mode: Letter

Advanced conducting techniques to include direction of student ensembles under faculty supervision.

Prerequisites & Notes: MUS 351; MUS 352 or MUS 353
Credits: 1-3
Grade Mode: Letter

MUS 455 - Band Music Workshop

Offered summers only. Repeatable for credit.

Credits: 2
Grade Mode: Letter

MUS 456 - String Music Workshop

Offered summers only. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 461 - Advanced Techniques in General Music Education

Advanced teaching techniques for instructing secondary level students in non-performance based classrooms. In depth curriculum, methods, assessment strategies, long-term planning. Laboratory experience is included.

Prerequisites & Notes: Admission to Woodring College of Education and MUS 362

Credits: 3

Grade Mode: Letter

MUS 463 - Secondary Choral Music Education

Instruction in middle and high school choral repertoire, teaching strategies, rehearsal techniques, classroom management, curriculum design. Peer-teaching and micro-teaching assignments in public schools.

Prerequisites & Notes: MUS 268 and MUS 354; Music Education major.

Credits: 3

Grade Mode: Letter

MUS 465 - Secondary Instrumental Music Education

Instruction in middle and high school instrumental rehearsal techniques, repertoire selection, classroom management systems, short and long term planning, and curriculum design. Peer-teaching and on-site observation within public school secondary instrumental classes.

Prerequisites & Notes: MUS 264L; MUS 264M; MUS 264N; MUS 264O; MUS 264P; MUS 265C; MUS 265D; MUS 268; MUS 352.

Credits: 3

Grade Mode: Letter

MUS 466 - Applied Music Pedagogy

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 1-3

Grade Mode: Letter

MUS 466A - Applied Music Pedagogy: Piano

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 2

Grade Mode: Letter

MUS 466B - Applied Music Pedagogy: Voice

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 2

Grade Mode: Letter

MUS 467 - Applied Music Literature

A stylistic and historical survey of literature for instruments or voice. Repeatable for credit.

Prerequisites & Notes: music major

Credits: 1-3

Grade Mode: Letter

MUS 467A - Applied Music Literature

A stylistic and historical survey of literature for instruments or voice. Repeatable for credit.

Prerequisites & Notes: music major

Credits: 3

Grade Mode: Letter

MUS 468A - Guitar History and Repertory

A survey of guitar literature and history from Renaissance to present.

Prerequisites & Notes: MUS 367; corequisite: MUS 216.

Credits: 2

Grade Mode: Letter

MUS 468B - Guitar History and Repertory

A survey of guitar literature and history from Renaissance to present.

Prerequisites & Notes: MUS 367; corequisite: MUS 216.

Credits: 2

Grade Mode: Letter

MUS 469 - Music Teaching Practicum II

Observation, assisting and intense field experience in music classroom environments. Repeatable for credit.

MUSIC

Prerequisites & Notes: admission to Woodring College of Education
Credits: 2
Grade Mode: Letter

MUS 471 - Concert Choir

Selected group experience, vocal ability, reading skill, musicianship and interest in serious choral music considered for membership. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 472 - Wind Symphony

Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 473 - University Symphony Orchestra

Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 474 - Jazz Ensembles

Advanced performance and interpretation of contemporary jazz in an ensemble situation; recent developments in the idiom; performance of student compositions and arrangements. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 475 - Chamber Jazz Ensemble

Supervised small ensemble playing in jazz idioms stressing repertoire, improvisation and performance of written arrangements and compositions. One public performance per quarter required. Repeatable for credit.

Prerequisites & Notes: by audition; MUS 334 or MUS 434 strongly recommended
Credits: 2
Grade Mode: Letter

MUS 476 - Advanced Piano Accompanying

Advanced instruction in accompanying skills. Repeatable for credit.

Prerequisites & Notes: completion of major performance ensemble requirement

Credits: 2
Grade Mode: Letter

MUS 478 - Advanced Opera Production

Preparation of opera scenes or a major musical production to include a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 1-2
Grade Mode: Letter

MUS 480 - Advanced Collegium Musicum

Music literature studies from an analytical and performance viewpoint from early to classic music, culminating in a public performance each quarter. Repeatable for credit.

Credits: 1-2
Grade Mode: Letter

MUS 481 - Advanced Applied Chamber Music

Open to piano, string, wind, brass and percussion performers. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 483 - Advanced Chamber Vocal Ensembles

Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 2
Grade Mode: Letter

MUS 484 - Advanced Vocal Jazz Ensemble

Preparation and performance of vocal works by major jazz composers. Open to all University students having the ability to sing in mixed chorus. Repeatable for credit.

Prerequisites & Notes: by audition; MUS 101, MUS 102, MUS 103 recommended
Credits: 2
Grade Mode: Letter

MUS 485 - New Music Ensemble

Performance of 20th-century music literature. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 1-2
Grade Mode: Letter

MUS 486 - Chamber Orchestra

Rehearsal and performance of chamber orchestra literature. Repeatable for credit.

Credits: 1
Grade Mode: Letter

MUS 490 - Senior Thesis

S/U grading.

Prerequisites & Notes: admission to music history and literature program
Credits: 3
Grade Mode: S/U

MUS 499 - Senior Recital

A full-length, public recital approved by the student's Recital Committee. S/U grading.

Credits: 3
Grade Mode: S/U

MUS 501 - Instrumental Conducting and Rehearsal Techniques

Advanced work in conducting band and orchestra music; baton technique, interpretation, score preparation and rehearsal techniques. Repeatable for credit.

Credits: 3
Grade Mode: Letter

MUS 502 - Choral Conducting and Literature

Successful techniques in developing and conducting choral groups, score analysis of outstanding choral works; laboratory experience in conducting. Repeatable for credit.

Credits: 3
Grade Mode: Letter

MUS 503 - Introduction to Graduate Study of Music

Sources and availability of music, recordings and literature about music throughout its entire history. Techniques of research bibliography and formal writing about music. Students are expected to prepare and defend a formal written project.

Credits: 4
Grade Mode: Letter

MUS 511 - Individual Instruction: Advanced Organ

In addition to regularly scheduled private lessons, students are expected to participate in organ class performances and to hold a church organist position throughout their residence for the degree. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 3-4
Grade Mode: Letter

MUS 512 - Individual Instruction: Advanced Piano

In addition to regularly scheduled private lessons, a public performance is expected each quarter. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 1-4
Grade Mode: Letter

MUS 513 - Individual Instruction: Advanced Strings

In addition to regularly scheduled private lessons, a public performance of a significant work is expected. The performance will be approved and evaluated by a faculty committee. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 3-4
Grade Mode: Letter

MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion

In addition to regularly scheduled private lessons, a public performance of a significant work is expected. The performance will be approved and evaluated by a faculty committee. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 3-4
Grade Mode: Letter

MUS 515 - Individual Instruction: Advanced Voice

In addition to regularly scheduled private lessons, a public performance is expected each quarter. Repeatable for credit.

Prerequisites & Notes: by audition
Credits: 0-4
Grade Mode: Letter

MUS 518 - Individual Instruction: Applied Jazz

Individual instruction in jazz performance styles and techniques. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 3-4
Grade Mode: Letter

MUS 519 - Individual Instruction - Advanced Applied Conducting

Individual instruction in conducting techniques and repertoire.

MUSIC

Prerequisites & Notes: admission to MMus degree program; MUS 501 or MUS 502
Credits: 1-3
Grade Mode: Letter

MUS 525 - Brass and Percussion Techniques and Materials

Pedagogical and fundamental performance problems for all brass and percussion instruments; appropriate literature for beginning through advanced levels; performance problems encountered within the school band and orchestra settings.

Credits: 3
Grade Mode: Letter

MUS 531 - Arranging

Practical techniques in arranging and composing for large and small ensembles. Summer only.

Credits: 3
Grade Mode: Letter

MUS 532 - Analytical Techniques: 20th-Century Musical Practices

Analysis of works by various composers who have generated the major trends of 20th-century music.

Credits: 3
Grade Mode: Letter

MUS 533 - Analytical Techniques: 19th-Century Musical Styles and Practices

Analysis of works by various composers who generated the major trends of 19th-century music.

Credits: 3
Grade Mode: Letter

MUS 534 - Composition

Composition, rehearsal and public performance of original works. Repeatable for credit.

Prerequisites & Notes: MUS 431
Credits: 4
Grade Mode: Letter

MUS 538 - Notation

Reading, interpreting and transcribing music from early notational systems.

Credits: 3
Grade Mode: Letter

MUS 539 - History of Musical Genres

An in-depth look at a particular musical genre. Sample topics: opera, solo song, choral music, the

concerto, symphonic music. Course may be repeated once for credit, with a different topic.

Credits: 3
Grade Mode: Letter

MUS 541 - History/Analysis: Music to 1600

An in-depth study of a particular segment of music from the period with historical perspective, analysis of representative works, and bibliography and research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4
Grade Mode: Letter

MUS 542 - History/Analysis: Music from 1600-1830

An in-depth study of a particular segment of music from the period with historical perspective, analysis of representative works, and bibliography and research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4
Grade Mode: Letter

MUS 543 - History/Analysis: Music from 1830-Present

An in-depth study of a particular segment of music from the period with historical perspective, analysis of representative works, and bibliography and research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4
Grade Mode: Letter

MUS 550 - Seminar in the History of Music

Detailed study of a particular period or phase of the history of music designed to give students a first-hand acquaintance with one special area of musical literature and with musicological method.

Credits: 3
Grade Mode: Letter

MUS 555 - Advanced Band Music Workshop

Course not applicable to MMus degree. Offered summers only. Repeatable for credit.

Credits: 2
Grade Mode: Letter

MUS 556 - Advanced String Orchestra Music Workshop

Course not applicable to MMus degree. Offered summers only. Repeatable for credit.

Credits: 2
Grade Mode: Letter

MUS 571 - Concert Choir

Rehearsal and public performance of representative choral works. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 572 - Wind Symphony

Rehearsal and public performance of works for wind ensemble. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 573 - University Symphony Orchestra

Rehearsal and public performance of works for symphony orchestra. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 574 - Jazz Ensembles

Advanced performance and interpretation of contemporary jazz in an ensemble situation; recent developments in the idiom; performance of student compositions and arrangements. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 575 - Chamber Jazz Ensembles

Supervised small ensemble playing in jazz idioms stressing repertoire, improvisation and performance of written arrangements and compositions. One public performance per quarter required. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 576 - Accompanying

Graduate-level instruction in accompanying skills. Pianists will accompany singers and instrumentalists under the supervision and regular coaching of the instructor. Repeatable for credit.

Credits: 0-3
Grade Mode: Letter

MUS 578 - Opera Production

Preparation of opera scenes or a major musical production to include a public performance each quarter. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 1-2
Grade Mode: Letter

MUS 580 - Advanced Collegium Musicum

Editing, coaching and performance practice of early music (before 1800). Involves preparation and participation in public performance. (Only 6 credits applicable towards MMus degree). Repeatable up to 6 credits.

Credits: 2
Grade Mode: Letter

MUS 581 - Applied Chamber Music

Rehearsal and public performance of representative works of chamber music. Open to piano, string, wind, brass and percussion performers. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 583 - Chamber Vocal Ensembles

Rehearsal and public performance of chamber vocal works. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 585 - New Music Ensemble

Rehearsal and performance of 20th-century music literature. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 2
Grade Mode: Letter

MUS 586 - Chamber Orchestra

MUSIC

Rehearsal and performance of chamber orchestra literature. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: admission to MMus degree program
Credits: 1
Grade Mode: Letter

MUS 690 - Thesis

Students in the composition concentration of the MMus degree program may meet the thesis requirement` by submitting a major original composition; students in the performance concentration may meet the thesis requirement by presenting a full-length public recital; students in the music education concentration selecting the conducting practicum for their thesis requirement will carry out a practical and/or creative conducting project, field study or investigation, or rehearsal/conducting series culminating in a public performance. Repeatable to a maximum of 6 cr.

Credits: 1-6
Grade Mode: Letter

Theatre and Dance

Introduction

Department Mission Statement

The faculty and staff of the Theatre and Dance department are committed to a liberal arts approach to performing arts education while maintaining a balance of both academic and practical approaches to the arts of theatre and dance. We believe strongly in the value of academic rigor, which in turn supports and maintains productions and projects of the highest standards. We promote a global, diverse and collaborative view of performing arts education, and strive to train artistic leaders in their chosen disciplines who will further contribute to the craft.

Program Description: Theatre

Theatre offers a Bachelor of Arts as well as a theatre minor and an endorsement in Theatre Education in conjunction with Woodring College of Education. Each theatre arts major is grounded in generalist fundamentals and chooses one or more areas of specialization (acting, dramatic writing, educational theatre, technical theatre, design and/or management). In addition to preparing majors for careers in academic or professional theatre, the lessons acquired through this course of study are readily transferable to careers in teaching, law, business, social services and other areas where inter- and intrapersonal skills are required.

The following areas of knowledge are central to the undergraduate degree in theatre arts:

- Major works of dramatic literature representative of diverse cultures
- The history of theatrical production - its styles, conventions and social context - from the ancients to the present day
- The means by which theatrical production is realized
- The role of theatre in shaping our past, present and future

In addition, students completing a degree in theatre arts will possess the ability to:

- Analyze and interpret dramatic literature and performance from the standpoint of designer, performer, director, playwright or critic
- Safely and efficiently use the tools and equipment basic to theatrical production
- Function effectively as a member of a collaborative team in the preparation and realization of a public performance

Assessment of these competencies is accomplished through individual course performance as well as a final evaluation of each student via a senior project, which may include the presentation of a written thesis, performance project or portfolio. Projects vary by student specialization and interests.

Program Description: Dance

Dance offers a Bachelor of Arts and a Bachelor of Fine Arts as well as a Dance Minor and a Teaching Endorsement in conjunction with Woodring College of Education.

Entry into the BA/BFA is by audition. Completion of the program is dependent upon successful progress through the curriculum. The BA is a broadly-based degree, with a liberal arts orientation, and is designed for students with a general rather than career interest in performing or choreographing. BA candidates will focus on pedagogical and historic aspects of dance. The BFA degree is a highly selective program which trains exceptionally committed, disciplined, and talented students. The BFA degree also requires recommendation of faculty members.

The Dance Program expects achievement in the following competencies by graduating majors in both the BA and BFA. Our students will:

- Develop proficiency in modern dance technique

THEATRE AND DANCE

- Develop competency in ballet technique
- Become familiar with the history of dance and enhance writing skills by using this knowledge
- Gain expanded diversity awareness through the cultural dimensions of dance
- Understand alignment and anatomy as they relate to dancers
- Explore their choreographic potential in traditional and/or experimental approaches
- Learn the basic skills and operations of technical theatre related to dance production
- Have multiple performing opportunities in different venues

Assessment of these competencies is accomplished through individual course performance, completion of degree requirements, and in part by successful audition and casting in faculty directed events. BFA candidates will be expected to participate in a culminating Capstone course and presentation as choreographers and as featured dancers.

Faculty

BETH LEONARD (2013) Chair and Professor. B.S. University of Kansas; M.A. University of Central Missouri; MFA University of Missouri; ABD University of Kansas.

RICH BROWN (2006) Associate Professor. BA, MA, Central Missouri State University; PhD, University of Oregon.

DEBORAH CURRIER (2003) Associate Professor. BA, California State University; MA, PhD, University of Oregon.

NOLAN DENNETT (1989) Professor. BA, Brigham Young University; MA, Western Washington University.

DIPU GUPTA (2013) Assistant Professor. BA, University of Pennsylvania; MARCH, University of Virginia; MFA University of California, L.A.

MONICA HART (2013) Assistant Professor. BA University of Montana; MFA Wayne State.

PENNY HUTCHINSON (2005) Associate Professor. BA, Vermont College; MFA, Mills College.

MARK KUNTZ (1997) Professor. BA, University of Washington; MFA, University of Oregon.

JAMES E. LORTZ (1989) Professor. BFA, MFA, University of Montana.

DAVID SAXTON (2009) Assistant Professor. BFA, Carnegie-Mellon University

Instructors

CHER CARNELL (1996) Associate Chair and Senior Instructor, BA University of Wisconsin; MEd, Western Washington University.

MIKE BAJUK (2004) Senior Instructor. BM, Western Washington University; MS, University of Indiana-Purdue.

KAMARIE CHAPMAN (2010) Instructor, BA Western Washington University; MFA, University of New Mexico.

SUSAN HAINES (2005) Senior Instructor. BA, Radford University; MFA, University of North Carolina-Greensboro.

PAM KUNTZ (1999) Senior Instructor. BFA, University of Montana; MFA, Boston Conservatory.

RICHARD MERRILL (2005) Senior Instructor.

Affiliated Teaching Staff

RACHEL ANDERSON (2000) BA, Western Washington University; MFA, University of Montana.

MARCUS TODD (2009) BA, Eastern Washington University; MFA, Kent State University.

Application Requirements: Theatre

A student may declare a major in Theatre Arts after completion of 12 credits or more in theatre coursework, or by permission of the department chair.

Application Requirements: Dance

A student may declare a major in Dance after placement in Modern Dance I and with the permission of the departmental advisor.

Bachelor of Arts

Dance, BA

Theatre and Dance Department, College of Fine and Performing Arts

77-86 credits

Introduction

In the course of their Dance studies, students will learn to understand and evaluate contemporary thinking about dance and related arts, while nurturing a physical and intellectual understanding of the language of movement that is reflective of and insightful toward the human condition.

Why Consider a Dance Major?

The BA is a broadly based degree, with a liberal arts orientation, and is designed for students with a general interest in dance and its applications. BA candidates will focus on pedagogical and historic aspects of Dance Art as well as on the performance/generative components. They will be encouraged to demonstrate proficiency in pedagogy. Dance majors develop multiple skills that are essential in all fields, including self-discipline, collaboration, patience and problem-solving.

 - THTR 216 - Introduction to Costuming
 - THTR 313 - Beginning Lighting Design
 - THTR 314 - Stage Management

Theatre, BA

Department of Theatre and Dance, College of Fine and Performing Arts

61-67 Credits

Introduction

The Department of Theatre and Dance strives to give students a well-rounded education. In addition to a core of practical theatre courses, students focus on one or more concentrations to hone their skills within specific areas of interest. Declared students reinforce their major studies through hands-on application of their skills. With an abundance of student programs and seasonal production opportunities, theatre students rarely find

themselves without a project to do. The central goal of the degree is to provide students with a comprehensive understanding of theatre, including knowledge of its history, the means by which theatre is realized, and the role of theatre in forming the past, present and future of society.

Why Consider a Theatre Major?

The major is grounded in fundamentals and a student chooses one or more areas of specialization (Acting, Dramatic Writing, Educational Theatre, Technical Theatre, Theatre Management, Stage Management, Costume Design, Lighting Design and Scenic Design). In addition to preparing majors for careers in the academic or professional theatre, the lessons acquired through this course of study are readily transferable to careers in teaching, law, business and other areas where interpersonal and self-reliant skills are required.

 plus 3 credits under advisement

□ **Scenic Design:**

THTR 210 - Foundations in Design Communication
 THTR 213 - Stage Technology Practicum

- THTR 309 - Period Styles
 - THTR 311 - Beginning Scene Design
 - THTR 312 - Digital Drawing for Theatre Design
 - THTR 313 - Beginning Lighting Design
- THTR 321 - 3D Digital Modeling and Design
 - THTR 355 - Intermediate Theatre Technology
 - THTR 411 - Advanced Scenic Design

Bachelor of Fine Arts

Dance, BFA

Department of Theatre and Dance, College of Fine and Performing Arts

94-103 credits

Introduction

In the course of their Dance studies, students will learn to understand and evaluate contemporary thinking about dance and related arts, while nurturing a physical and intellectual understanding of the language of movement that is reflective of and insightful toward the human condition.

Why Consider a Dance Major with a Bachelor of Fine Arts Degree?

The BFA Program in Dance is a professionally oriented degree, which presumes that students are seriously interested in the process of performing or choreographing and wish to make it their career. The BFA degree is a highly selective program which trains exceptionally committed, disciplined, and talented students to the

THEATRE AND DANCE

level at which they might gain entry to a leading graduate, conservatory, or MFA Program, or directly enter one of the areas of the dancing profession.

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching

THEATRE AND DANCE

- ELED 471 - Documenting Teaching
- ELED 480 - Literacy: Beginning Communicators
- ELED 481 - Literacy: Fluent Communicators
- ELED 491 - September Experience
- ELED 492 - Practicum: Experience in Literacy Methods
- ELED 494 - Internship - Elementary
- HLED 455 - Health Education Grades K-8
- MATH 381 - Teaching K-8 Mathematics I
- MATH 382 - Teaching K-8 Mathematics II
- MATH 383 - Teaching K-8 Mathematics III
- MATH 491 - Internship Seminar - Teaching K-8 Mathematics
- PE 345 - Physical Education for Elementary School
- SCED 480 - Science Methods and Curriculum for the Elementary School
- SCED 490 - Laboratory/Field Experience in Elementary Science

Secondary Education Undergraduate and Post-Baccalaureate Professional Program (62 credits)

- SEC 301 - Educational Psychology I: Development and Individual Differences
- SEC 302 - Educational Psychology II: Motivation, Learning and Assessment

Dance Courses

DNC 100 - Mod-Hop I

Entry level technique class that is a fusion of contemporary dance styles, including hip-hop, African jazz and modern dance. Emphasis on rhythm, conditioning, isolation and individuality. Repeatable to a maximum of 6 credits. S/U grading.

Credits: 2
Grade Mode: S/U

DNC 101 - Open Ballet

No dance experience required. Basic principles of the ballet as an artistic and physical medium. Introduction to ballet terminology, basic barre

exercises, simple combinations in adagio and allegro. Repeatable to a maximum of 6 credits. S/U grading.

Credits: 2
Grade Mode: S/U

DNC 102 - Open Modern Dance

No dance experienced required. The study of the basic principles of movement: space, time and effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Open to non-minors. Repeatable to a maximum of 6 credits. S/U grading.

Credits: 2
Grade Mode: S/U

DNC 108 - Introduction to the Fine Arts: the Classics

This course focuses on those artists whose greatness has withstood the test of time, in Art, Dance, Music and Theatre. Guest lecturers, readings, discussions and reflective papers will explore connective threads of those individual artists who have made extraordinary contributions to society and culture.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

DNC 111 - Ballet I - Level 1

Introduction to the basic principles of the ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Credits: 2
Grade Mode: Letter

DNC 112 - Ballet I - Level 2

Builds on principles introduced in DNC 111, including the basic principle of the ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Permission of instructor or DNC 111
Credits: 2
Grade Mode: Letter

DNC 113 - Ballet I - Level 3

Builds on principles introduced in DNC 112, including the basic principles of the ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Permission of instructor or DNC 112.
Credits: 2
Grade Mode: Letter

DNC 121 - Modern Dance I - Level 1

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to maximum of 6 credits.

Credits: 3
Grade Mode: Letter

DNC 122 - Modern Dance I - Level 2

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: Permission of instructor or DNC 121.
Credits: 3
Grade Mode: Letter

DNC 123 - Modern Dance I - Level 3

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 122 or permission of instructor.
Credits: 3
Grade Mode: Letter

DNC 200 - Mod-Hop II

More advanced exploration of contemporary dance styles, including hip-hop, African jazz, and modern dance. Emphasis on complex rhythm, phrasing and performance. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 100 or permission of instructor.
Credits: 2
Grade Mode: Letter

DNC 203 - Jazz Dance

This course focuses on the technical and expressive aspects of jazz dance and develops awareness of line, speed, balance and strength. Attention is placed on alignment, conditioning, musicality, and synthesis of combinations.

Prerequisites & Notes: Instructor permission; by audition.
Credits: 2
Grade Mode: Letter

DNC 208 - Contact Improvisation

This course explores the fundamentals of improvising with another dancer(s), primarily employing the momentum and support derived through physical contact with one's partner. Improvisation and partnering are skills essential to a dancer's development as genuine creators and performers. Repeatable up to 4 credits.

Prerequisites & Notes: Dance major or minor, or permission of instructor.

THEATRE AND DANCE

Credits: 2
Grade Mode: S/U

DNC 211 - Ballet II - Level 1

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 111, 112 and 113 recommended.

Credits: 2
Grade Mode: Letter

DNC 212 - Ballet II - Level 2

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 211 recommended.

Credits: 2
Grade Mode: Letter

DNC 213 - Ballet II - Level 3

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 212 recommended.

Credits: 2
Grade Mode: Letter

DNC 221 - Modern Dance II - Level 1

Further development in movement principles established in Modern Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 121, 122, 123 recommended.

Credits: 3
Grade Mode: Letter

DNC 222 - Modern Dance II - Level 2

Continues with further development in movement principles established in Modern Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 221 recommended.

Credits: 3
Grade Mode: Letter

DNC 223 - Modern Dance II - Level 3

Continues with further development in movement principles established in Modern Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 222 recommended.

Credits: 3
Grade Mode: Letter

DNC 230 - Making Movement Art

First-year students only. An investigation of how dances are made. Students will be exposed to movement art through readings, lectures, videos, live performances, interviews, out of class observations, and laboratory experiences. Students will also have the opportunity to interact with several dance faculty and guest artists as well as faculty in other departments of the College of Fine and Performing Arts.

Prerequisites & Notes: First-year students.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

DNC 231 - Introduction to Dance in Western Cultures

An historical and cultural overview, from the primitive to the contemporary, of the development of dance as an art form in Western civilization.

Credits: 3
Grade Mode: Letter
GUR Attributes: CCOM

DNC 232 - Movement and Culture

An investigation of movement and dance as a vehicle for understanding culture through movement labs, readings, films and discussions.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

DNC 242 - Choreography I

Introduction to basic principles of choreography: articulating a concept, finding movement vocabulary, and developing a structure. Prepares students to handle the rehearsal process from the point of view of a choreographer. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: Concurrent enrollment in DNC 221 or instructor permission

Credits: 3
Grade Mode: Letter

DNC 243 - Dance and Technology I

Introduction to sound and video editing software and filming/framing techniques for use in the creation of Dances for Camera and other time based art. Repeatable up to a maximum of 6 credits.

Prerequisites & Notes: DNC 242.

Credits: 3

Grade Mode: Letter

DNC 257 - Performance

Direct instruction and experience in performance work. Repeatable to a maximum of 8 credits. S/U grading.

Prerequisites & Notes: being cast in a faculty-directed production

Credits: 2

Grade Mode: S/U

DNC 311 - Ballet III - Level I

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina, musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Permission of instructor; DNC 211, DNC 212, DNC 213 recommended.

Credits: 3

Grade Mode: Letter

DNC 312 - Ballet III - Level II

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina, musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Permission of instructor; DNC 311 recommended.

Credits: 3

Grade Mode: Letter

DNC 313 - Ballet III - Level III

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina, musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Permission of instructor; DNC 312 recommended.

Credits: 3

Grade Mode: Letter

DNC 321 - Modern Dance III - Level 1

Advanced studies of movement principles established in Modern Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 221, DNC 222, DNC 223 and DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 322 - Modern Dance III - Level 2

Advanced studies of movement principles established in Modern Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 321, DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 323 - Modern Dance III - Level 3

Advanced studies of movement principles established in Modern Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 322, DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 334 - Music and Movement

An interdisciplinary examination of music and movement that addresses rhythmic acuity for the dancer, accompaniment for the dance teacher and underscoring dance for the choreographer. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 221, DNC 222, DNC 223 or formal music instruction at the 100 level or permission of instructor.

Credits: 2

Grade Mode: Letter

DNC 339 - Functional Alignment

An internal exploration of functional alignment and its practical application towards movement and dancing. Experiential exercises that will enable the development and increased awareness of anatomical alignment and its relationship to range of motion, flexibility, strength, and movement potential. Introduction to proper anatomical and kinesiological terminology. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 121, DNC 122, DNC

THEATRE AND DANCE

123 or permission of instructor.

Credits: 3

Grade Mode: Letter

DNC 340 - Anatomy for Dancers

An investigation of the human body and how it works. Through lectures, readings and laboratory experiences, students will analyze skeletal systems, individual differences, common dance injuries, and proper conditioning for dancers.

Prerequisites & Notes: DNC 339 or permission of instructor.

Credits: 4

Grade Mode: Letter

DNC 342 - Choreography II

Further study of the principles of choreography. In addition to concepts, movement, vocabulary and structure this class involves experimentation with theme and development, use of music, as well as construction/deconstruction/reconstruction of choreographic forms and content. Training the thinking artist and the artistic thinker. Repeatable to a maximum of 8 cr.

Prerequisites & Notes: DNC 242.

Credits: 4

Grade Mode: Letter

DNC 343 - Dance and Technology II

Builds on skills learned in DNC 243 and applies an artistic process to the use of editing software and video equipment; combining visual design, choreographic skills and advanced filming and editing techniques to create Dances for the Camera and other time based art. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 223, DNC 243, DNC 342.

Credits: 3

Grade Mode: Letter

DNC 345 - Fundamentals of Contemporary Partnering

Students explore elements of contemporary partnering including transfer of weight, momentum/leverage, counter balancing and moving in harmony. The class is not gender specific. The warm-up includes exercises to enhance kinesthetic awareness and to facilitate ease and comfort in lifting and being lifted. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: DNC 221, DNC 222, DNC 223 or permission of instructor.

Credits: 2

Grade Mode: Letter

DNC 357 - Repertory

The process work, which leads to performance, involved in the creation and/or reconstruction of a major choreographic work. Repeatable to a maximum of 8 credits.

Credits: 2

Grade Mode: Letter

DNC 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. Also offered as ART 398, MUS 398 and THTR 398.

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3

Grade Mode: Letter

DNC 403 - Senior Seminar

This course is designed for senior Dance majors to focus on skills and knowledge important for a successful transition to graduate school or professional employment in dance.

Credits: 1

Grade Mode: Letter

DNC 404 - Capstone Preparation

This course is designed to assist BFA candidates with their rehearsal processes, as performers and as choreographers, in preparation for and presentation of their culminating Capstone performances.

Prerequisites & Notes: BFA degree candidacy, senior status.

Credits: 1

Grade Mode: Letter

DNC 421 - Modern Dance IV - Level 1

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 321, DNC 322, DNC 323 recommended.

Credits: 3

Grade Mode: Letter

DNC 422 - Modern Dance IV - Level 2

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a

maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 421 recommended.

Credits: 3

Grade Mode: Letter

DNC 423 - Modern Dance IV - Level 3

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Permission of instructor; DNC 422 recommended.

Credits: 3

Grade Mode: Letter

DNC 430 - Real Life Skills for Dancers

This course helps students to explore their personal goals, aesthetics involved in goal setting, and to develop a resume and Capstone portfolio. The course will examine emotional and physical well-being as well as graduate education and career opportunities in dance.

Prerequisites & Notes: Dance major with junior/senior status.

Credits: 2

Grade Mode: Letter

DNC 431 - History of Western Dance Since 1450

Ballet and modern dance forms of Western culture from the Renaissance into the era of contemporary movement art. Will include reviews of live performances, and study of leading dance artists and their historical significance. This course explores effective writing in the discipline of Dance through reflection, critical analysis, and historical research.

Prerequisites & Notes: DNC 231

Credits: 4

Grade Mode: Letter

DNC 433 - Creative Movement for Educators With Lab

Methodologies of teaching creative movement to children. Exploration and integration of the elements of space, time, and effort as reflective of the Essential Academic Learning Requirements in the dance arts.

Prerequisites & Notes: Permission of instructor.

Credits: 4

Grade Mode: Letter

DNC 434 - Dance Arts in Education

Materials for the methodology of teaching the formal dance techniques of modern dance and ballet for students of the dance major and additional teaching endorsement. Observations and teaching opportunities included.

Prerequisites & Notes: DNC 339, DNC 340; demonstrated competency at the advanced level of technique.

Credits: 3

Grade Mode: Letter

DNC 442 - Advanced Choreography

Practical application of choreographic process in the performance setting. Experience in collaboration with costume and lighting designers to support and realize choreographic intention by means of the unity of supporting elements. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: DNC 342 or instructor permission

Credits: 4

Grade Mode: Letter

Theatre Arts Courses

THTR 101 - Introduction to the Art of the Theatre

An introduction to the nature of the theatre, to plays and the way they work, and to the arts of the theatre and the activities of those who perform them.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

THTR 160 - Introduction to Acting

Fundamentals of acting with emphasis on basic techniques and tools used by the actor. Includes improvisation; resume writing; auditioning; and vocal, physical and emotional awareness.

Credits: 3

Grade Mode: Letter

THTR 168 - Introduction to Film: Acting and Production

Introduction to rudimentary acting and production techniques, including professional conduct, script analysis and audition process.

Prerequisites & Notes: THTR 101, THTR 160.

Credits: 3

Grade Mode: Letter

THTR 201 - Introduction to the Cinema

THEATRE AND DANCE

Training eye and ear to appreciate the work of the filmmaker. Analysis of the basic conventions of technique with an emphasis on critical exposition.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

THTR 202 - Film Genre

Exploring the development, structure, conventions, aesthetics, historical and cultural facets that comprise a specific genre in film. Examples include Film Noir, Western, Horror, etc.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

THTR 210 - Foundations in Design Communication

Introduction to theatre design concepts and principles, art techniques and theatre design critical language. Exploration of art media, drawing, painting and design presentation in relation to theatre design through dramatic analysis and design expression.

Credits: 3
Grade Mode: Letter

THTR 212 - Introduction to Stage Technology

Basic theory of planning, drafting, construction and rigging for stagecraft and lighting technology.

Credits: 4
Grade Mode: Letter

THTR 213 - Stage Technology Practicum

Practice of basic theory in stagecraft and theatre technology. 12 hours of lab required.

Prerequisites & Notes: THTR 212 or permission of instructor.

Credits: 4
Grade Mode: Letter

THTR 215 - Stage Make-Up

Theory and practice of applying makeup for the stage with emphasis on character development, facial anatomy and aging.

Credits: 2
Grade Mode: Letter

THTR 216 - Introduction to Costuming

Introduction to costume technology, design and color theory, play analysis, costume history, and drawing/rendering techniques. 8 hours of lab work required.

Prerequisites & Notes: THTR 101 recommended.
Credits: 3
Grade Mode: Letter

THTR 218 - Costume Figure Drawing

An introductory course in the theatre department focusing on costume figure drawing as a means of conveying costuming ideas. Includes studies in the principles/elements of design, basic drawing techniques that include figure/fabric drawing. Various art media are explored such as graphite, marker, and watercolor.

Prerequisites & Notes: Co-requisite: THTR 216
Credits: 3
Grade Mode: Letter

THTR 228 - Understanding Plays

Reading a playscript with an eye to theatrical production. Introduction to primary dramatic forms (tragedy, comedy). Practice in speaking and writing intelligently about plays.

Prerequisites & Notes: THTR 101 or permission of instructor
Credits: 3
Grade Mode: Letter

THTR 255 - Theatre Production: Technology

Practical hands-on experience in production: rehearsal and/or run crew with lighting, sound, costumes, scenery, makeup, etc. Repeatable up to 3 times. S/U grading.

Prerequisites & Notes: THTR 212 or permission of instructor.
Credits: 1
Grade Mode: S/U

THTR 256 - Rehearsal and Performance

For theatre majors (before 50 hours in major) and nonmajors: practical experience in rehearsal and performance. S/U grading.

Prerequisites & Notes: Permission of Instructor.
Credits: 2
Grade Mode: S/U

THTR 260 - Acting Studio I: Theory

Exploration of the theory of the physical, vocal, intellectual and emotional instrument of the individual actor in relation to character demands of a scene or play through the studio approach. Students demonstrate their knowledge of theory in both written and oral forms.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 3
Grade Mode: Letter

THTR 261 - Acting Studio I: Scene Study

Application of the actor/character theory learned in THTR 260 is presented in at least two different scenes which the instructor must approve. It is in the actor's self-interest that, while in the category of American realism, each selection should offer a different writing style.

Prerequisites & Notes: THTR 260
Credits: 3
Grade Mode: Letter

THTR 263 - Movement for Actors

An actor's introduction to the history, vocabulary and basic techniques of several styles of theatrical movement and dance. Topics may include ballet, modern, jazz, tap, hip-hop, mask, combat and period styles. The actor will also explore character development through movement and dance. Repeatable to a maximum of 6 cr.

Credits: 2
Grade Mode: Letter

THTR 264 - Movement Studio I: Grotowski

An introduction to Jerzy Grotowski's approach to acting, resulting in scenework based on emotional need discovered through movement.

Prerequisites & Notes: THTR 260
Credits: 3
Grade Mode: Letter

THTR 309 - Period Styles

This course introduces students to the social, historical and artistic forces behind period styles.

Credits: 3
Grade Mode: Letter

THTR 310 - Scene Painting

A survey of traditional scene painting with emphasis on color, technique, materials, tools and formulas.

Prerequisites & Notes: THTR 212.
Credits: 3
Grade Mode: Letter

THTR 311 - Beginning Scene Design

Investigates how stage designers create a visual world for works of drama, music and dance.

Prerequisites & Notes: THTR 210, THTR 212.
Credits: 3
Grade Mode: Letter

THTR 312 - Digital Drawing for Theatre Design

This course introduces students to digital media drawing techniques using industry standard software.

Credits: 3
Grade Mode: Letter

THTR 313 - Beginning Lighting Design

Technical and artistic study of light and color as they affect other theatre arts and contribute to artistic design; laboratory work in production.

Prerequisites & Notes: THTR 213, THTR 311.
Credits: 3
Grade Mode: Letter

THTR 314 - Stage Management

An in-depth study of the stage manager's role and responsibilities before, during and after production. Assignment to one major production.

Prerequisites & Notes: 2 credits of acting and THTR 212.
Credits: 3
Grade Mode: Letter

THTR 315 - Advanced Makeup

An advanced study of the history, technique and application of theatrical make-up. Repeatable up to 6 credits, including original course.

Prerequisites & Notes: THTR 215
Credits: 3
Grade Mode: Letter

THTR 316 - Beginning Costume Design

Theory, critical language, play analysis and studio experience for design and rendering of costumes for the stage.

Prerequisites & Notes: THTR 210, THTR 216 or instructor permission
Credits: 3
Grade Mode: Letter

THTR 318 - Puppetry

Design, construction and manipulation of puppets with focus on the history of puppets and puppet making.

Credits: 3
Grade Mode: Letter

THTR 319 - Millinery

History, design and construction of hats for the theatre.

THEATRE AND DANCE

Prerequisites & Notes: THTR 216

Credits: 2

Grade Mode: Letter

THTR 320 - Digital Drafting and Design Modeling

Practical working knowledge of drafting and design software.

Prerequisites & Notes: THTR 101; THTR 210; THTR 212; THTR 213; or permission of instructor.

Credits: 3

Grade Mode: Letter

THTR 321 - 3D Digital Modeling and Design

This course introduces concepts and methods of digital design composition appropriate for theater designers, engineers, artists and students of any field that work with physical and digital models.

Credits: 4

Grade Mode: Letter

THTR 328 - Writing for Theatre

Writing for the theatre discipline: including review and critique, technical writing and methods of research and citation.

Prerequisites & Notes: ENG 101 and THTR 228.

Credits: 3

Grade Mode: Letter

THTR 330 - Beginning Theatre Pedagogy

A teaching assistant discussion/observation course designed to provide theatre students with experience and guidance in assisting an instructor in a particular theatre course. Repeatable up to 4 credits.

Prerequisites & Notes:

instructor permission

Credits: 1-2

Grade Mode: Letter

THTR 350 - Theatre for Youth

Exploration of the history, philosophy, literature and techniques for creating theatre for young audiences.

Credits: 3

Grade Mode: Letter

THTR 351 - Creative Pedagogy

Instructional methods in theatre arts, design, analysis and practical application of theatre arts techniques and pedagogy through observation, seminar and practicum in the theatre department.

Prerequisites & Notes: Permission of instructor.

Credits: 4

Grade Mode: Letter

THTR 353 - Touring Theatre I

An intensive and comprehensive involvement in the study and practice of creating and performing theatre for youth. This is a two-quarter commitment. Repeatable once for a maximum of 6 credits.

Prerequisites & Notes: Permission of instructor.

Credits: 3

Grade Mode: Letter

THTR 354 - Touring Theatre II

Participants prepare all aspects of a touring production and accompanying educational support materials offered to elementary or secondary schools in Washington. This is a two-quarter commitment. Repeatable once for a maximum of 6 credits.

Prerequisites & Notes: THTR 353 and permission of instructor.

Credits: 3

Grade Mode: Letter

THTR 355 - Intermediate Theatre Technology

Directly supervised practice of theatre production relating to a design, management or technology concentration. Repeatable up to 6 credits, including original course.

Prerequisites & Notes: THTR 210, THTR 212, THTR 213, THTR 216 or instructor permission

Credits: 2

Grade Mode: Letter

THTR 356 - Rehearsal and Performance II

For theatre majors (after 50 hours in major) and nonmajors: practical experience in rehearsal and performance. S/U grading.

Prerequisites & Notes: THTR 256 and permission of Instructor.

Credits: 3

Grade Mode: S/U

THTR 360 - Acting Studio II: Physical Interpretation of a Role

Continuation of skills and refinement of techniques presented in earlier acting studios, but with a strong emphasis on the use of the body and physical characterization. Scene work of several periods and styles is required.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 4
Grade Mode: Letter

THTR 361 - Acting Studio II: Vocal Interpretation of a Role

Continuation of skills and refinement of techniques presented in Acting Studio I, but with strong emphasis on voice and vocal characterization. Scene work from several major periods and styles is required.

Prerequisites & Notes: Audition and permission of instructor.
Credits: 4
Grade Mode: Letter

THTR 362 - Irene Ryans and URTA Auditions

Preparation course for students selected to compete in the Kennedy Center's American College Theatre Festival's Irene Ryans acting competition and URTA graduate school auditions. Repeatable up to a maximum of three credits, including original course.

Prerequisites & Notes: Permission of instructor.
Credits: 1
Grade Mode: S/U

THTR 363 - Voice and Diction

Sequence of exercises and drills challenging improvement in resonance, breath support, articulation, relaxation, placement and vocal work ranging from good stage speech (mid-Atlantic) to dialect.

Prerequisites & Notes: Audition and permission of instructor.
Credits: 3
Grade Mode: Letter

THTR 364 - Movement Studio II: Suzuki/Viewpoints

An introductory exploration of the Suzuki and Viewpoints actor training movement systems.

Prerequisites & Notes: Audition or THTR 360.
Credits: 4
Grade Mode: Letter

THTR 366 - Musical Theatre

Practical application of singing and acting to performance-related work from American musical theatre through solo, duet and group exploration.

Prerequisites & Notes: THTR 260 or instructor permission
Credits: 3
Grade Mode: Letter

THTR 368 - Acting for the Camera

An exploration and application of techniques and approaches for actors reflected currently in the film and television industry.

Prerequisites & Notes: THTR 260, THTR 261, acceptance into THTR 360.
Credits: 3
Grade Mode: Letter

THTR 370 - Play Direction

Theory and practice of stage direction including selection of play, casting and blocking. Production of a scene for public performance is required.

Prerequisites & Notes: THTR 160; THTR 212; THTR 228; or instructor permission.
Credits: 3
Grade Mode: Letter

THTR 371 - Directing Projects

Individualized practicum in directing for the stage. Repeatable up to 6 credits.

Prerequisites & Notes: THTR 370
Credits: 1-6
Grade Mode: Letter

THTR 380 - Theatre History I

Development of theatre to the Renaissance.

Prerequisites & Notes: THTR 101, THTR 228
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

THTR 381 - Theatre History II

Development of theatre from the Renaissance to the beginning of realism.

Prerequisites & Notes: THTR 101, THTR 228; THTR 380 recommended
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

THTR 382 - Theatre History III

Development of theatre from the beginnings of realism to contemporary theatre.

Prerequisites & Notes: THTR 101, THTR 228; THTR 380, THTR 381 recommended
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

THTR 383 - Costume History

Evolution of costume from ancient Greece through present-day fashion with reference to theatrical

THEATRE AND DANCE

production.

Credits: 4
Grade Mode: Letter

THTR 384 - Introduction to Dramatic Writing

Beginning exercise in dramatic writing, with emphasis on primary forms and conventions.

Prerequisites & Notes: THTR 228 or permission of instructor.

Credits: 4
Grade Mode: Letter

THTR 385 - Topics in Intermediate Costume Technology and Construction

Course focuses on varied costume technology and construction methods. Repeatable up to 6 credits, including original course.

Prerequisites & Notes: THTR 216

Credits: 3
Grade Mode: Letter

THTR 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as ART 398, MUS 398 and DNC 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3
Grade Mode: Letter

THTR 411 - Advanced Scenic Design

Contemporary stage design practice and theory with an emphasis on artistic interpretation of dramatic literature and music as a visual design.

Prerequisites & Notes: THTR 311 or permission of instructor.

Credits: 4
Grade Mode: Letter

THTR 412 - Advanced Stagecraft

Technical analysis of scripts, special effects, computers and properties. Laboratory work on productions.

Prerequisites & Notes: THTR 212, THTR 312.

Credits: 4
Grade Mode: Letter

THTR 413 - Advanced Lighting Design

Concepts and techniques of drafting and computer-assisted drafting, text work sheets, and application programs related to lighting design.

Prerequisites & Notes: THTR 313.

Credits: 4
Grade Mode: Letter

THTR 414 - Theatre Business Practices

Examination of the theories and approaches to business management in the theatre as well as practical application of those theories discussed including budgeting, promoting and producing.

Prerequisites & Notes: THTR 314; THTR 101 recommended.

Credits: 4
Grade Mode: Letter

THTR 416 - Advanced Costume Design

Exploration and execution of complete designs of costumes for the modern theatre with emphasis on the development of the design concept and interpretation.

Prerequisites & Notes: THTR 316, THTR 382, THTR 383.

Credits: 4
Grade Mode: Letter

THTR 420 - Advanced Theatre Design and Portfolio Development

Exploration and project execution of complete design paper project including all supporting technical and research materials leading to a final presentation of designer portfolio.

Prerequisites & Notes: THTR 212; and one from THTR 411, THTR 413, THTR 416

Credits: 5
Grade Mode: Letter

THTR 428 - Major Dramatists

The in-depth exploration of an individual playwright or group of playwrights who were influential in the development of a particular style of drama. Topics include Greek and Roman, British, Continental, North American, contemporary or individual playwrights. Repeatable under separate topics.

Prerequisites & Notes: THTR 222 or THTR 228.

Credits: 3
Grade Mode: Letter

THTR 450 - Theatre for Youth II

Advanced techniques in youth theatre. Each student selects and prepares a script for performance for and/or by youth.

Prerequisites & Notes: THTR 350.

Credits: 3

Grade Mode: Letter

THTR 452 - Secondary Theatre Techniques

Exploration of techniques and curriculum for use in secondary theatre classrooms. Creation of lesson plans and projects aimed specifically for theatre students. This course has a required academic Service-Learning component.

Prerequisites & Notes: THTR 351; acting and directing courses strongly recommended.

Credits: 4

Grade Mode: Letter

THTR 455 - Advanced Production and Design

Directly supervised practice in theatre design/large group leadership. Students work as collaborators in scenic, lighting, costume, sound, makeup, property design, set dressing, technical direction or stage management. Repeatable to a maximum of 8 cr.

Prerequisites & Notes: THTR 355 and permission of Instructor.

Credits: 4

Grade Mode: Letter

THTR 460 - Acting Studio III: Style - Shakespeare

Continued refinement of skills and techniques presented in Acting Studio II, adding the physical, vocal and emotional styles of performing Shakespeare plays.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 5

Grade Mode: Letter

THTR 461 - Acting Studio III: Personal Performance

Continued refinement of skills and techniques introduced in previous studios, with special emphasis on individual acting problems.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 5

Grade Mode: Letter

THTR 462 - Advanced Acting Topics

Students study specific advanced acting techniques and styles and apply them directly through production performance. Repeatable with different topics up to a maximum of 10 credits.

Prerequisites & Notes: Audition and permission

of instructor.

Credits: 5

Grade Mode: Letter

THTR 463 - Audition Preparation

Preparation of several contrasting monologues and development of specific performance skills to best demonstrate the varied talents of the individual actor in an audition format. S/U grading.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 2

Grade Mode: S/U

THTR 464 - Movement Studio III: Advanced Suzuki/Viewpoints

An advanced exploration of the Suzuki and Viewpoints actor training movement systems.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 5

Grade Mode: Letter

THTR 465 - Summer Stock II

Offered only summer quarter. Contact director of theatre for details. Repeatable once.

Prerequisites & Notes: Written permission of director of Summer Stock. Offered only summer quarter.

Credits: 1-15

Grade Mode: Letter

THTR 470 - Play Direction II

Producing and directing a one-act play for public performance; special emphasis on working with the actor.

Prerequisites & Notes: THTR 314, THTR 370; 30 hours in the major and permission of instructor

Credits: 4

Grade Mode: Letter

THTR 471 - Advanced Directing Projects

Individualized practicum in directing for the stage. Repeatable up to 6 credits.

Prerequisites & Notes: THTR 470

Credits: 1-6

Grade Mode: Letter

THTR 480 - Devising Production

Students devise an original work for the main stage theatre season through phases of research, creation, and development. All students write, design, and perform the piece.

THEATRE AND DANCE

Prerequisites & Notes: Audition Course -
Permission of Instructor.
Credits: 5
Grade Mode: Letter

THTR 485 - Dramatic Writing Workshop
Opportunity for disciplined expression in writing for stage, film, television or other media. May be repeated under separate topics to a maximum of 12 credits.

Prerequisites & Notes: THTR 384 or permission of instructor.
Credits: 4
Grade Mode: Letter

THTR 495 - Internship
Qualified third- and fourth-year students may apply to apprentice with theatre companies, performing arts agencies or producing organizations. Repeatable to a maximum of 24 cr. S/U grading.

Prerequisites & Notes: Junior status or above and permission of Chair.
Credits: 1-12
Grade Mode: S/U

THTR 496 - Senior Project
Capstone course demonstrating accomplishment in the departmental concentration.

Credits: 1-4
Grade Mode: Letter

College of Humanities and Social Sciences

Introduction

Dr. LeaAnn Martin, Dean

The College of Humanities and Social Sciences, Western's largest academic unit, is composed of two divisions: the humanities (communication studies, English, history, journalism, liberal studies, modern and classical languages, philosophy) and the social and behavioral sciences (anthropology, communication sciences and disorders, physical education, health and recreation, political science, psychology, sociology). These 13 departments offer more than 40 bachelor's degrees and 12 master's degrees, along with four interdisciplinary degrees in East Asian studies, linguistics, women, gender, and sexuality studies, and student-faculty designed majors.

The college houses several research and service centers, including the Center for Cross-cultural Research, the Center for Performance Excellence, and two community-based professional training centers: the Speech and Hearing Clinic and the Psychology Counseling Clinic. In addition, the college has six nationally accredited professional programs: school counseling, mental health counseling, speech pathology, audiology, community health and recreation.

Mission Statement

The College serves the University by engaging students in distinctive, diverse programs in social and behavioral sciences and the humanities. Emerging from a vibrant liberal arts core, our collaborative learning environment inspires individual, social, cultural, creative, and scientific exploration. Students devise and apply innovative solutions, embrace divergent worldviews, consider the ethical implications of their actions, and communicate effectively in their professional, public, and personal lives. Together, students, faculty and staff generate knowledge, pursue research and foster life-long learning to contribute to the well-being of communities from local to global.

Objectives of College:

The College of Humanities and Social Sciences partners with the College of Sciences and Technology to provide students with a three-component liberal education: first, a program of education-in-breadth through the General University Requirements (GURs) intended to prepare students for postgraduate life as educated persons and citizens; second, a program of education-in-depth in a disciplinary or interdisciplinary major designed to prepare students for careers or graduate study; and third, a choice of elective courses which can help satisfy the student's curiosity about any of the multitude of subjects that the University curriculum embraces. With each of these components, the college intends to produce graduates who are capable of informed and critical thinking; who have learned to tolerate ambiguity; who can appreciate cultural differences; who have developed moral and aesthetic sensibilities; who have mastered the basic tools of literacy and technology and who have acquired levels of information about the natural and social worlds, past and present, sufficient for responsible citizenship and the enjoyment of a civilized society. The college places strong emphasis on student-faculty collaboration in developing these skills through active learning, including laboratory experiences, community-based faculty-directed service learning, and student involvement in faculty research programs.

Recreation	BA
School Counseling	M/Ed
Sociology	BA, BAE, BS
Sociology/Social Studies	BA
Student-Faculty Designed Major	BA, BS

Majors and Minors

In addition to the GURs and other common degree requirements of the University, the candidate for a Bachelor of Arts or Bachelor of Science degree must complete a major area emphasis which is usually accompanied by supporting courses. A minor is optional. A few concentrations are offered which encompass both a major and a minor. Students will confer with appropriate departmental advisors to plan study programs. Transfer students are expected to complete at least a portion of their work in the major and minor fields in this institution.

Student-Faculty Designed, BA or BS (College of Humanities and Social Sciences)

Students desiring concentrated study in areas not listed as majors by departments of the College of Humanities and Social Sciences may design a major in conference with faculty members. Procedures for the Student Faculty Designed majors (BA or BS) are available from the Department of Liberal Studies or at <http://www.wvu.edu/liberalstudies/basfd.shtml>.

College Admission and Advisement

Academic Advisement

As the student completes the freshman year, which consists largely of courses that meet the GURs, he or she is referred to the academic departments for continued personalized advisement in planning and selecting courses of study. Faculty within each department share responsibility for counseling students electing concentrations in their area. In some cases, faculty from several departments may cooperate with a student in constructing his or her own interdisciplinary major; in others, faculty members may recommend to the department chair the waiving of certain course prerequisites (when it has been demonstrated that the student already has these competencies). Students who are undecided about a major may seek advisement through the Academic Advising Center in Old Main.

Department Chairs

Dr. Todd Koetje	Anthropology
Dr. Michael Karlberg	Communication Studies
Dr. Barbara Mathers-Schmidt	Communication Sciences and Disorders
Dr. Bruce Goebel	English
Dr. Kevin Leonard	History
Jennifer Keller (Interim Chair)	Journalism
Dr. Scott Pearce	Liberal Studies
Dr. María Paredes Méndez	Modern & Classical Languages
Dr. Ryan Wasserman	Philosophy
Dr. Charles Sylvester	Physical Education, Health & Recreation
Dr. Amir Abedi	Political Science
Dr. Larry Symons	Psychology
Dr. Mick Cunningham	Sociology

Departments, Courses and Programs

Courses listed in this catalog constitute a record of the total academic program of the University. For an exact scheduling of courses at Western, students should consult the annual online Timetable of Classes, and Extended Education bulletins.

Student/Faculty Designed Majors

College of Humanities and Social Sciences

Introduction

The Student/Faculty-Designed Major (SFDM) is a program/major that leads to either a Bachelor of Arts or Bachelor of Science degree granted by the College of Humanities and Social Sciences. The SFDM allows students, in consultation with appropriate faculty, to design individualized programs in subject-areas or with educational objectives that are not served by existing departmental majors. Programs may have either an academic or pre-professional focus.

This program is administered by the Liberal Studies Department, whose Chair will provide guidance, information and general advisement for interested students. Particular academic and professional advisement, pertaining to the curricular content of each major, is largely the responsibility of the participating Advisory Committee faculty.

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

The primary purpose of the SFDM is to enable motivated students to make creative use of Western's curricular resources in academically sound ways. The expectations regarding academic substance and standards are not less than those of "regular" majors. Responsibility for compliance with the policies, procedures, and intent of the SFDM is shared by the student and their individually organized Advisory Committee, consisting of three to four faculty.

Students interested in pursuing a Student/Faculty Designed Major should contact the Liberal Studies Department. See www.wvu.edu/liberalstudies.

Declaration Process

A Student/Faculty Designed Major is available only through an application process:

1. Students are required to meet with the Liberal Studies Department Chair to initiate the application process after reviewing the SFDM Policies and Procedures, which are available at: www.wvu.edu/liberalstudies.
2. An SFDM proposal generally consists of two parts: an SFDM contract that includes a detailed plan of study, and a 1-2 page typed, rationale for the proposed major that includes an explanation of the specific educational goals and how the program best serves those goals.
3. Students must take the initiative to form an Advisory Committee of three to four faculty to assist in the development of a curriculum (plan of study) for their SFDM. Faculty should be chosen from academic departments that represent major areas of study within the proposed program.
4. A student must meet with her/his Advisory Committee face-to-face to discuss the proposed plan of study and rationale before the SFDM contract and all the supporting documentation can be submitted to the Liberal Studies Department.
5. Completed contracts and supporting material will be forwarded to the CHSS Curriculum Council after the contract has been approved by the Liberal Studies Department Chair. Incomplete contracts will be returned to the student.

Student/Faculty Designed, BA (College of Humanities and Social Sciences)

College of Humanities and Social Sciences

70-110 credits

Introduction

The Student/Faculty-Designed Major (SFDM) is a program/major that leads to a Bachelor of Arts degree granted by the College of Humanities and Social Sciences. The SFDM allows students, in consultation with appropriate faculty, to design individualized programs in subject-areas or with educational objectives that are not served by existing departmental majors. Programs may have either an academic or pre-professional focus. Responsibility for compliance with the policies, procedures, and intent of the SFDM is shared by the student and their individually organized Advisory Committee.

How to Declare (Admission and Declaration Process):

A Student/Faculty Designed Major is available only through an application process:

1. Students are required to meet with the Liberal Studies Department Chair to initiate the application process after reviewing the SFDM Policies and Procedures, which are available at: <http://www.wvu.edu/liberalstudies>.
2. An SFDM proposal generally consists of two parts: an SFDM contract that includes a detailed plan of study, and a 1-2 page typed, rationale for the proposed major that includes an explanation of the specific educational goals and how the program best serves those goals.
3. Students must take the initiative to form an Advisory Committee of three to four faculty to assist in the development of a curriculum (plan of study) for their SFDM. Faculty should be chosen from academic departments that represent major areas of study within the proposed program.
4. A student must meet with her/his Advisory Committee face-to-face to discuss the proposed plan of study and rationale before the SFDM contract and all the supporting documentation can be submitted to the Liberal Studies Department.
5. Completed contracts and supporting material will be forwarded to the CHSS Curriculum Council after the contract has been approved by the Liberal Studies Department Chair. Incomplete contracts will be returned to the student.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- The program must include at least 70 credit hours, but no more than 110 credit hours. At least 45 credit hours must be taken from departments within the College of Humanities and Social Sciences.
- At least half of the total number of credits in the major should come from upper-division coursework.
- No more than 50% of the credits in the program may be credits completed before the contract date. The contract date is the date in which the student reviews the initial draft contract with the Liberal Studies Chair.
- The program cannot substantially duplicate existing major programs, or be designed simply to circumvent already established major requirements. Like all programs/majors, SFDMs should exhibit breadth, focus and depth.
- Each program/major must be approved by the College of Humanities and Social Sciences Curriculum Council.

Additional Requirements

- A maximum of 30% of the total credits can be earned from Independent Study. Students are required to provide syllabi or course outlines for each proposed Independent Study course along with the draft contract.
- A plan for meeting the University's Writing Proficiency requirement must be submitted as part of the course of study.

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

□ If the program/major is to be used for teacher certification, it must also be developed in accordance with the policies and procedures for interdisciplinary majors set by the Teacher Curricula & Certification Council and approved by that Council.

□ Students who wish to include study abroad courses in their curriculum should propose and have their programs approved BEFORE the study abroad. This is especially important if completion of the study abroad program will result in more than 50% of the total credits having been taken.

A Student/Faculty Designed Major is available only through an application process:

1. Students are required to meet with the Liberal Studies Department Chair to initiate the application process after reviewing the SFDM Policies and Procedures, which are available at: <http://www.wvu.edu/liberalstudies>.
2. An SFDM proposal generally consists of two parts: an SFDM contract that includes a detailed plan of study, and a 1-2 page typed, rationale for the proposed major that includes an explanation of the specific educational goals and how the program best serves those goals.
3. Students must take the initiative to form an Advisory Committee of three to four faculty to assist in the development of a curriculum (plan of study) for their SFDM. Faculty should be chosen from academic departments that represent major areas of study within the proposed program.
4. A student must meet with her/his Advisory Committee face-to-face to discuss the proposed plan of study and rationale before the SFDM contract and all the supporting documentation can be submitted to the Liberal Studies Department.

5. Completed contracts and supporting material will be forwarded to the CHSS Curriculum Council after the contract has been approved by the Liberal Studies Department Chair. Incomplete contracts will be returned to the student.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- The program must include at least 70 credit hours, but no more than 110 credit hours. At least 45 credit hours must be taken from departments within the College of Humanities and Social Sciences.
- At least half of the total number of credits in the major should come from upper-division coursework.
- No more than 50% of the credits in the program may be credits completed before the contract date. The contract date is the date in which the student reviews the initial draft contract with the Liberal Studies Chair.
- The program cannot substantially duplicate existing major programs, or be designed simply to circumvent already established major requirements. Like all programs/majors, SFDMs should exhibit breadth, focus and depth.
- Each program/major must be approved by the College of Humanities and Social Sciences Curriculum Council.

Additional Requirements

- A maximum of 30% of the total credits can be earned from Independent Study. Students are required to provide syllabi or course outlines for each proposed Independent Study course along with the draft contract.
- A plan for meeting the University's Writing Proficiency requirement must be submitted as part of the course of study.
- If the program/major is to be used for teacher certification, it must also be developed in accordance with the policies and procedures for interdisciplinary majors set by the Teacher Curricula & Certification Council and approved by that Council.
- Students who wish to include study abroad courses in their curriculum should propose and have their programs approved BEFORE the study abroad. This is especially important if completion of the study abroad program will result in more than 50% of the total credits having been taken.

Anthropology

Introduction

The discipline of anthropology studies humans in all the cultures of the world, both past and present. This includes humanity's physical development and the wide diversity of lifestyles people have created.

Anthropology has three main goals: first, providing a deep understanding of humans, both past and present; second, analyzing and organizing the knowledge gained and making it accessible; and third, engaging in the practical application of anthropology to various areas of contemporary human behavior.

Anthropology is a social science. It shares techniques and methods with other behavioral sciences and also draws upon physical and biological sciences.

Anthropology is unique among the social and behavioral sciences. Anthropologists obtain data primarily from field research and comparative cross-cultural studies in time and space. Thus, anthropology provides theoretical and empirical bases for development of hypotheses about human behavior, and for testing the breadth and application of such hypotheses.

The anthropology department provides training in each of the four main subdisciplines of anthropology.

Cultural anthropology seeks to understand and describe each culture in its own perspective. Cultural anthropologists gather data through first-hand field study in other cultures and do cross-cultural comparative studies which provide crucial insights and understanding of the modes and patterns of human life.

Archaeology uses scientific field work and laboratory techniques to investigate past human societies and the processes and effects of cultural evolution through the study of material remains.

Physical anthropology focuses on anatomical, physiological and genetic differences in past and contemporary human populations, and analyzes their evolutionary and cultural implications.

Anthropological linguistics studies the interrelationships between human culture and language with special focus on unwritten languages, the diversity of world languages, nonverbal human communication, and contemporary cultural linguistic interactions.

Utilizing ethnographic, ethnological and ethnohistorical tools, as well as information supplied by these four subdisciplines, the anthropologist comparatively studies cultures and the processes of human development. These findings have many practical uses.

Faculty

TODD A. KOETJE (1997) Chair and Associate Professor. BA, University of Washington; MA, State University of New York, Binghamton; PhD, University of Tennessee.

DANIEL L. BOXBERGER (1983) Professor. BA, The Evergreen State College; MA, Western Washington University; PhD, University of British Columbia.

SEAN BRUNA (2013) Assistant Professor. BA, University of Chicago; MA, University of Chicago; MA, University of New Mexico; PhD, University of New Mexico.

SARAH K. CAMPBELL (1988) Professor. BA, Indiana University; MA, PhD, University of Washington.

JOYCE D. HAMMOND (1984) Professor. BA, MA, Brown University; PhD, University of Illinois.

JAMES LOUCKY (1989) Professor. BA, Haverford College; MA, PhD, University of California, Los Angeles.

ROBERT C. MARSHALL (1985) Professor. BA, Youngstown State University; PhD, University of Pittsburgh.

M.J. MOSHER (2010) Assistant Professor. BS, Metropolitan State University; MA, University of Colorado at Denver; PhD, University of Kansas

JUDITH M.S. PINE (2008) Associate Professor, BA Kansas State University, MA, PhD, University of Washington

JOAN C. STEVENSON (1979) Professor. BA, University of Washington; MA, PhD, University of Wisconsin-Milwaukee.

KATHLEEN YOUNG (1996) Associate Professor. BA, MA, Western Washington University; PhD, Simon Fraser University.

The department's faculty and staff invite questions about the program and its career potential. Persons seeking more information should visit the department in Arntzen Hall or call 360-650-3620. Written inquiries should be directed to the Department of Anthropology, Western Washington University, Bellingham, WA 98225-9083. The department website is <http://www.wwu.edu/anthropology/>.

Declaration Process

Students are eligible to declare the anthropology major if they have successfully completed any one of the following core courses: ANTH 301, 303, 335.

Students are advised to declare their major early in their academic career. Transfer students should declare after completion of one of the core courses listed above. Upper-division courses are restricted to declared majors during the first three days of registration and some courses may be available to majors only. Transfers and freshmen who are interested in the anthropology/biology major should seek advisement as soon as possible. Anthropology/biology BA or BS majors need to begin the chemistry/biology sequences required prior to declaring the major. This will assist them in shortening considerably the many quarters necessary for the anthropology/biology major.

Other Departmental Information

Resources

Opportunities for field work and library research in each of the four subfields of anthropology are available. Archaeological field school surveys are conducted alternate summers. The department engages in a series of funded projects, providing a wide diversity of research opportunities. Library holdings include resources for those pursuing cross-cultural and culture area research.

Degrees offered are the BA and the BA in Education. In addition a combined anthropology/biology BA or BS major is offered.

Careers for graduates in anthropology lie in both the public and private sectors of the economy and are increasing. Opportunities may be found in teaching (public school, community college and college), federal and state agencies, social services, applied health settings, museums and international business.

Mid-Program Checkpoint

Students seeking to complete a BA degree in anthropology within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215

Students seeking to complete a BA degree in anthropology with an archaeology concentration within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215
- and prerequisites for supporting courses in sciences.

ANTHROPOLOGY

Students seeking to complete a BA or BS degree in biology/anthropology (human biology emphasis) within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215
- BIOL 204
- BIOL 205
- BIOL 206
- One of the following sequences:
 - CHEM 121
 - CHEM 123
 - CHEM 122
 - or
 - CHEM 125
 - CHEM 126
 - CHEM 225
- Physics and calculus

Bachelor of Arts

Anthropology — Archaeology Concentration, BA

Department of Anthropology, College of Humanities and Social Sciences

80 Credits

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

Why Consider an Archaeology Concentration in Anthropology Major?

Archaeology is the "cultural anthropology" of the human past. It uses scientific field work and laboratory techniques to investigate past human societies and the processes and effects of cultural evolution through the study of material remains. The Anthropology Department has a small, but growing program in archaeology. Our program is active in regional prehistoric and historic archaeology. Both undergraduate and graduate students' participation in fieldwork is encouraged, and necessary if one is to enter the field professionally. Unlike some professions, archaeology can be entered on some levels with a B.A. degree, although M.A. and Ph.D. work offer greater opportunities.

Sample Careers

International Studies | Ethnologist | Museum Curator | Overseas Consultant | Researcher | Archaeologist

Major/Career Resources

http://www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

To declare, a student must have completed the following requirements:

- ANTH 301 or ANTH 303 or ANTH 335

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
- ANTH 301 - Anthropological Theory
- ANTH 312 - Field Course in Archaeology or equivalent field experience recommended
- ANTH 335 - Quantitative Methods in Anthropology or another basic statistics course under advisement
- ANTH 496 - Portfolio Assembly
- One course from:
 - ANTH 330 - Religion and Culture
 - ANTH 338 - Economic Anthropology
 - ANTH 350 - The Ecology of Human Variation
 - ANTH 351 - Family and Kinship Organization
 - ANTH 352 - Cross-Cultural Study of Aging
 - ANTH 353 - Sex and Gender in Culture
 - ANTH 424 - Medical Anthropology
 - ANTH 429 - Politics, Power and Inequality
 - ANTH 440 - Cyborg Anthropology
 - ANTH 453 - Women of the Global South
 - ANTH 475 - Global Migration
 - ANTH 481 - Childhood and Culture
 - ANTH 484 - Intercultural Education
- One course from:
 - ANTH 361 - Native Peoples of North America
 - ANTH 362 - Peoples of Asia
 - ANTH 365 - Peoples of Latin America
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 463 - Peoples of East and Southeast Asia
 - ANTH 465 - Peoples of Mexico and Central America
 - ANTH 476 - Borderlands

ANTHROPOLOGY

□ Two courses from:

- ANTH 308 - Hunter-Gatherer Societies in World Prehistory
- ANTH 310 - The Rise of Civilizations
- ANTH 314 - Archaeology of North America

□ Two courses from:

- ANTH 406 - Archaeological Method and Theory
- ANTH 410 - Archaeological Analysis and Interpretation
- ANTH 411 - Archaeology of Northwestern North America
- ANTH 428 - Cultural Resource Management

□ Two courses from:

- ANTH 420 - Human Osteology and Forensic Anthropology
- ANTH 422 - Nutritional Anthropology
- ANTH 470 - Museology Studies

□ 12 credits of supporting courses in sciences, history or mathematics selected under advisement.

Strongly recommended courses include:

- ENVS 220 - Map Reading and Analysis
- ENVS 321 - GIS II: Computer Cartography
- ENVS 325 - Geography of Landforms
- ENVS 422 - Advanced Spatial Analysis
- ENVS 427 - Soil Landscapes
- GEOL 310 - Geomorphology
- GEOL 316 - Research in Marine Paleontology
- GEOL 413 - Fluvial Geomorphology
- GEOL 415 - Stratigraphy and Sedimentation

□ At least one course each of the major subfields: physical anthropology, archaeology and linguistics (LING 201 or 204, ENG 370 may be substituted for an anthropological linguistics course)

□ Elective credits in anthropology

NOTE: only one 100-level course will count towards this major.

Anthropology – Biocultural Concentration, BA

Department of Anthropology, College of Humanities and Social Sciences

95-98 Credits

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

Why Consider a Biocultural Concentration in the Anthropology Major?

The Biocultural Anthropology Concentration is the most flexible of the biology anthropology combined majors and allows for students to gain a broad interdisciplinary training relevant for many of the professions confronting the challenges of modern society. Students can supplement their studies with related coursework from other departments given the requirements of specific training or post-baccalaureate programs.

How to Declare (Admission and Declaration Process):

To declare, a student must have completed any one of the following core courses:

- ANTH 301 or ANTH 303 or ANTH 335

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
- ANTH 301 - Anthropological Theory
- ANTH 303 - Qualitative Methods in Anthropology (optional)
- ANTH 335 - Quantitative Methods in Anthropology
- ANTH 350 - The Ecology of Human Variation
- ANTH 424 - Medical Anthropology
- ANTH 490 - Senior Seminar in Anthropology (optional)
- ANTH 496 - Portfolio Assembly
- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
- BIOL 205 - Introduction to Cellular and Molecular Biology
- BIOL 206 - Introduction to Organismal Biology
- BIOL 348 - Human Anatomy and Physiology
- BIOL 349 - Human Physiology
- Two courses from:
 - ANTH 361 - Native Peoples of North America
 - ANTH 362 - Peoples of Asia
 - ANTH 365 - Peoples of Latin America
 - ANTH 422 - Nutritional Anthropology
 - ANTH 423 - Human Evolution
 - ANTH 457 - The Anthropology of Death and Dying
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest

ANTHROPOLOGY

- ANTH 463 - Peoples of East and Southeast Asia
- ANTH 465 - Peoples of Mexico and Central America
- ANTH 466 - Reproductive Ecology
- ANTH 476 - Borderlands
- Choose one of the following series:
 - CHEM 121 - General Chemistry I
 - CHEM 122 - General Chemistry II
 - CHEM 123 - General Chemistry III
 - or
 - CHEM 125 - General Chemistry I, Honors
 - CHEM 126 - General Chemistry II, Honors
 - CHEM 225 - General Chemistry III, Honors
- Choose either:
 - CHEM 251 - Elementary Organic Chemistry
 - or all three of the following:
 - CHEM 351 - Organic Chemistry
 - CHEM 352 - Organic Chemistry
 - CHEM 353 - Organic Chemistry
- At least one course each of the major subfields: physical anthropology, archaeology and linguistics (LING 201 or 204, ENG 370 may be substituted for an anthropological linguistics course)

Students are encouraged to further specialize according to their interests by pursuing appropriate course sequences and/or minors outside of the anthropology department, e.g., mathematics with an emphasis on statistics if pursuing epidemiology. Please confer with your advisor to tailor your training to meet your post-baccalaureate plans.

Program advisors: Joan Stevenson and MJ Mosher

Anthropology, BA

Department of Anthropology, College of Humanities and Social Sciences

65 Credits

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

The Anthropology Department provides training in four sub-disciplines: Cultural Anthropology, Archaeology, Physical Anthropology and Anthropological Linguistics. Using ethnographic, ethnological and ethnohistorical tools and information supplied by the four sub-disciplines, the Anthropologist studies cultures and the processes of human development comparatively.

Why Consider an Anthropology Major?

Do you find human diversity and various cultures fascinating? Do you like to approach subjects from multiple perspectives? Do you prefer a holistic style of learning? Do you want to know why as well as how? Are you fascinated by human diversity? Are you enthusiastic, intelligent, and open-minded? If so, you may wish to consider a major in Anthropology. Students earning a degree in Anthropology will be able to apply their learning to a variety of jobs locally and internationally in the global economy of today's world.

 - ANTH 453 - Women of the Global South
 - ANTH 475 - Global Migration
 - ANTH 481 - Childhood and Culture
 - ANTH 484 - Intercultural Education
- Culture Region Component: At least one course from the following:

- ANTH 361 - Native Peoples of North America
 - ANTH 362 - Peoples of Asia
 - ANTH 365 - Peoples of Latin America
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 463 - Peoples of East and Southeast Asia
 - ANTH 465 - Peoples of Mexico and Central America
 - ANTH 476 - Borderlands
- At least one course each of the major subfields: physical anthropology, archaeology and linguistics (LING 201 or 204, ENG 370 may be substituted for an anthropological linguistics course)
- Electives in anthropology under departmental advisement. Student selection of a complementary minor under advisement is strongly recommended.
- Only one 100-level course will count toward major, minor or archaeology concentration

Anthropology/Biology, BA

Combined major offered by the Department of Anthropology, College of Humanities and Social Sciences and the Department of Biology, College of Science and Engineering.

89 credits

Introduction

Biological or Physical Anthropology is the study of both present and past human variation relative to local ecologies and cultures. Biological Anthropologists specialize in Human or Primate Anatomy, Genetics, Disease Ecology, Growth and Development, Forensic Anthropology and Osteology, Medical Anthropology or Primate Behavior and Primatology.

Why Consider an Anthropology/Biology Major?

The Biology/Anthropology major is a concentration on Human Biology and Behavioral Science. This major is more flexible than the Biology/Anthropology B.S. but is also excellent preparation for the applied health careers and graduate programs in Biological or Physical Anthropology. Check the course requirements for your postgraduate applied health programs to make sure you take all the appropriate prerequisites.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Declare your Anthropology/Biology major as soon as you discover you are interested. Contact the Anthropology department and Maren Brinson in the Biology Department Office, BI 315 for details. Freshmen, your first quarter is not too soon!

This degree has a two-step process for admission. Phase I students are students who have declared their intent to major in biology, and are in the process of completing the introductory biology and general chemistry series. Admission to Phase II is based on academic performance in the introductory courses. Students must have achieved an average grade of 2.9 or higher in their introductory biology and general chemistry courses before they can advance to Phase II and begin taking upper-division coursework.

Consult Department advisors in Biology and Anthropology as early as possible. Early advisement will ensure appropriateness and proper sequencing of courses. Anthropology/Biology BA majors need to begin the chemistry/biology sequences required prior to declaring the major. This will assist them in shortening considerably the many quarters necessary for the anthropology/biology major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
- ANTH 210 - Introduction to Archaeology
- ANTH 215 - Introductory Biological Anthropology
- ANTH 496 - Portfolio Assembly
- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
- BIOL 205 - Introduction to Cellular and Molecular Biology
- BIOL 206 - Introduction to Organismal Biology
- BIOL 321 - Genetics
- BIOL 348 - Human Anatomy and Physiology
- BIOL 349 - Human Physiology
- Choose one of the following series:
 - CHEM 121 - General Chemistry I
 - CHEM 122 - General Chemistry II
 - CHEM 123 - General Chemistry III
 - or
 - CHEM 125 - General Chemistry I, Honors
 - CHEM 126 - General Chemistry II, Honors
 - CHEM 225 - General Chemistry III, Honors
- Choose either:
 - CHEM 251 - Elementary Organic Chemistry
 - or all three of the following:

ANTHROPOLOGY

- CHEM 351 - Organic Chemistry
- CHEM 352 - Organic Chemistry
- CHEM 353 - Organic Chemistry
- One course from:
 - PHYS 101 - Physics Analysis

 - PHYS 115 - Principles of Physics II (recommended)
- One course from:
 - ANTH 335 - Quantitative Methods in Anthropology
 - BIOL 340 - Biometrics
 - MATH 240 - Introduction to Statistics
- 10 credits in anthropology under advisement
 - ANTH 308 - Hunter-Gatherer Societies in World Prehistory
 - ANTH 422 - Nutritional Anthropology
 - ANTH 424 - Medical Anthropology
 - ANTH 466 - Reproductive Ecology
- 8 credits of biology under advisement
 - BIOL 322 - Genetics Lab
 - BIOL 323 - Cell and Molecular Biology
 - BIOL 324 - Methods in Molecular Biology
 - BIOL 345 - Fundamentals of Microbiology
 - BIOL 410 - Animal Behavior
 - BIOL 465 - Vertebrate Zoology
 - BIOL 467 - Comparative Vertebrate Physiology

Advisors: Joann Otto, Biology, and Joan Stevenson, Anthropology.

Anthropology/Social Studies, BA

Department of Anthropology, College of Humanities and Social Sciences.

87-91 Credits

Introduction

Anthropology explores what it means to be human and encompass the scientific study of diversity as well as similarities of all cultures of the world, past as well as present. Its scope includes human physical development, adaptation to vastly different environments, and creative expressions of meaning and belonging. The cross-cultural approach of Anthropology provides an inclusive and holistic framework for understanding all facets of humanity.

The Anthropology Department provides training in four sub-disciplines: Cultural Anthropology, Archaeology, Physical Anthropology and Anthropological Linguistics. Using ethnographic, comparative and ethnohistorical methods and working in partnerships with communities and peoples worldwide, anthropologists contribute in multiple ways to addressing contemporary human problems and highlighting evidence that points to both past and potential solutions.

Why Consider an Anthropology/Social Studies Major?

Do you find human diversity and various cultures fascinating? Do you appreciate the benefits of examining topics from multiple perspectives and value a holistic approach to learning? Do you prefer a holistic style of learning? Do you want to know why as well as how? Are you fascinated by human diversity? Are you enthusiastic and open-minded? If you are also excited about transmitting that enthusiasm and understanding to others, a major in Anthropology/Social Studies may be for you. Students earning a degree in

Anthropology/Social Studies will be able to apply their knowledge and experience to a variety of careers locally and globally, particularly in settings for learning and teaching such as schools and learning across the life span.

To receive a recommendation for state of Washington certification, students must complete the teacher certification program, including the content methods course SEC 426, offered by the Department of Secondary Education, as a part of the undergraduate Bachelor of Arts degree, or as a post-baccalaureate program, or as a part of the Master's in Teaching degree. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

How to Declare (Admission and Declaration Process):

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
- ANTH 210 - Introduction to Archaeology
- ANTH 215 - Introductory Biological Anthropology
- ANTH 496 - Portfolio Assembly
- ENVS 204 - Human Geography
- HIST 103 - Introduction to American Civilization: American History to 1865
- HIST 104 - Introduction to American Civilization: American History Since 1865
- HIST 121 - World History to 500
- HIST 123 - World History, 1500 to the Present
- HIST 391 - History of the Pacific Northwest
- PLSC 250 - The American Political System

ANTHROPOLOGY

- ❑ One course from:
 - ANTH 481 - Childhood and Culture
 - ANTH 484 - Intercultural Education
- ❑ One course from:
 - ECON 206 - Introduction to Microeconomics
 - ECON 446 - Economics for the Teacher (preferred)
- ❑ One course from:
 - ECON 207 - Introduction to Macroeconomics
 - ECON 447 - Methods for Teaching About the National Economy in the Public Schools (preferred)
- ❑ One of the following:
 - ENVS 202 - Introduction to Environmental Studies and Sustainability
 - ENVS 220 - Map Reading and Analysis
 - ENVS 221 - Geographic Information Systems Survey
 - ENVS 240 - Geography and World Affairs
 - ENVS 320 - GIS I: Introduction to Geographic Information Science
 - ENVS 342 - Geography of the World Economy
 - ENVS 343 - Urbanization: Processes and Patterns
- ❑ Electives under departmental advisement — at least one course from each of the following groups:
 - Cultural area courses:
 - ANTH 361 - Native Peoples of North America
 - ANTH 362 - Peoples of Asia
 - ANTH 365 - Peoples of Latin America
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 463 - Peoples of East and Southeast Asia
 - ANTH 465 - Peoples of Mexico and Central America
 - ANTH 476 - Borderlands
 - Topical cultural anthropology courses:
 - ANTH 247 - Introduction to Linguistic Anthropology
 - ANTH 330 - Religion and Culture
 - ANTH 338 - Economic Anthropology
 - ANTH 351 - Family and Kinship Organization
 - ANTH 352 - Cross-Cultural Study of Aging
 - ANTH 353 - Sex and Gender in Culture
 - ANTH 424 - Medical Anthropology
 - ANTH 429 - Politics, Power and Inequality
 - ANTH 453 - Women of the Global South
 - ANTH 475 - Global Migration
 - ANTH 480 - Applied Anthropology

Bachelor of Arts in Education

Anthropology — Elementary, BAE

Department of Anthropology, College of Humanities and Social Sciences

45 Credits

Introduction

The Anthropology Department offers a combined major in accordance with the Woodring College of Education requirements. Anthropology is particularly valuable for teachers, because it provides a broad understanding of

human behavior. Teachers often work with students of various cultural backgrounds and an awareness of specific cultural learning influences, attitudes, motivations, and patterns of interaction is an integral part of working effectively and respectfully in diverse communities. This is the basis of the core subjects in cultural anthropology.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in Elementary Education offered through Woodring College of Education.

Why Consider an Anthropology Elementary Major?

Through the required basic courses in Anthropology, education majors will acquire an understanding of the nature of human beings, the evolution of the human species and the tremendous variation of cultural traits that are both our heritage and potential. Through faculty advisement, prospective students will be informed of advanced coursework that are beneficial combinations to complete individual academic goals. One possible emphasis is the culture of the Native American Indians--a subject that most elementary teacher cover at some point in their curriculum. Another emphasis may be cultural minority groups in the Pacific Northwest. The relationship of cultural learning to personality development and the relationship of cultural expectations to the learning process itself are other important areas covered by courses which may be taken as part of the Anthropology Education Major.

How to Declare (Admission and Declaration Process):

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

ANTHROPOLOGY

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
- ANTH 210 - Introduction to Archaeology
- ANTH 215 - Introductory Biological Anthropology
- ANTH 496 - Portfolio Assembly
- One course from:
 - ANTH 481 - Childhood and Culture
 - ANTH 484 - Intercultural Education
- Electives under departmental advisement. Select one course from each of the following groups:
 - Cultural area courses:
 - ANTH 361 - Native Peoples of North America
 - ANTH 362 - Peoples of Asia
 - ANTH 365 - Peoples of Latin America
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 463 - Peoples of East and Southeast Asia
 - ANTH 465 - Peoples of Mexico and Central America
 - ANTH 476 - Borderlands

 - ANTH 475 - Global Migration
 - ANTH 480 - Applied Anthropology

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching
 - ELED 471 - Documenting Teaching
 - ELED 480 - Literacy: Beginning Communicators
 - ELED 481 - Literacy: Fluent Communicators
 - ELED 491 - September Experience
 - ELED 492 - Practicum: Experience in Literacy Methods
 - ELED 494 - Internship - Elementary
 - HLED 455 - Health Education Grades K-8
 - MATH 381 - Teaching K-8 Mathematics I
 - MATH 382 - Teaching K-8 Mathematics II
 - MATH 383 - Teaching K-8 Mathematics III
 - MATH 491 - Internship Seminar - Teaching K-8 Mathematics
 - PE 345 - Physical Education for Elementary School
 - SCED 480 - Science Methods and Curriculum for the Elementary School
 - SCED 490 - Laboratory/Field Experience in Elementary Science

Bachelor of Science

Biology/Anthropology, BS (see Biology Department)

Biology/Anthropology, BS (see Biology Department)

Master of Arts

Anthropology, Thesis, MA

College of Humanities and Social Sciences

Graduate Faculty

Bruna, Sean, PhD, sovereignty, applied anthropology, medical anthropology, chronic disease prevention, community based participatory research (CBPR) Native North America, U.S. Southwest.

Boxberger, Daniel L., PhD, ethnohistory, method and theory, indigenous rights, Native North America, Northwest coast.

Campbell, Sarah, PhD, Pacific Northwest prehistory, archaeological method and theory, cultural resource management.

Hammond, Joyce D., PhD, visual anthropology, gender studies, expressive culture, fieldwork methods, and Pacific Asian Rim tourism.

Koetje, Todd A., PhD, archaeology, quantitative methods, spatial studies, method and theory, paleolithic Old World, paleoindian-archaic Northeast U.S.

Loucky, James, PhD, applied anthropology, socialization, immigration, cross-cultural education, Latin America.

Marshall, Robert C., PhD, political economy, symbolism, Marxist anthropology, East Asia, Japan.

M. J. Mosher, PhD, anthropological genetics, epigenetics, nutrition, adipokines, human variation and adaptation, Arctic Populations.

Pine, Judith, PhD, linguistic anthropology, literacy theory, indigenusness, globalization/borders, language maintenance/endorsement, upland peoples of SE Asia/SW China.

Stevenson, Joan, PhD, anthropological genetics and demography, osteology, AD/HD, sex differences, European immigrants.

Young, Kathleen, PhD, gender, religion, war and violence, death and dying, cross-cultural law.

Program Advisor: Dr. Sarah Campbell, Arntzen Hall 342

Goals

- Provide structured training in academic core, appropriate specialization courses, and experience conducting independent research
- Prepare students for a variety of professional careers utilizing anthropology (e.g. social services, international corporations, cultural resource management, forensics, public health)
- Prepare students for PhD programs or other advanced degrees.

Prerequisites

Undergraduate major in anthropology or related field such as human biology, linguistics, classical studies, history, women's studies, sociology and other social sciences. Applicants with insufficient background in theory, quantitative or qualitative methods relevant to their field of study may be required to take undergraduate classes before entering the program. Applicants are directed to the current course requirements in the appropriate undergraduate anthropology major for an indication of the preparation expected.

Application Information

Deadline: Please see Graduate School deadlines. Preferred consideration for admission will be given to applicants who have complete files by March 1.

TA Deadline: Preferred consideration will be given to applicants who have complete files by March 1.

Specific Entrance and Test Requirements

- A 500-word essay stating reasons for wanting to do graduate work in anthropology, and indicating major interests within anthropology
- Graduate Record Exam, General Test

Both the essay and the GRE are required for admission, but the GRE may be waived for applicants with advanced degrees.

Program Requirements

- ANTH 501 - History of Anthropology
 - ANTH 502 - Theory in Anthropological Research
 - ANTH 503 - Research Design and Method
 - At least one course from each of the following areas or another course selected under advisement:
 - Culture Region:
 - ANTH 460 - Culture and Society of Japan
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 511 - Current Archaeological Research in Northwestern North America
 - ANTH 553 - Women of the Global South
 - ANTH 563 - Peoples of East and Southeast Asia
 - ANTH 565 - Peoples of Mexico & Central America
 - ANTH 576 - Borderlands
 - Methods:
 - ANTH 470 - Museology Studies
 - ANTH 473 - Field Course in Ethnography
 - ANTH 506 - Archaeological Method and Theory
 - ANTH 510 - Applied Archaeological Analysis and Interpretation
 - ANTH 515 - Practicum in Archaeological Spatial Analysis
 - ANTH 520 - Human Osteology
 - ANTH 528 - Applied Cultural Resource Management
 - ANTH 554 - Participatory Action Research Methods
 - ANTH 571 - Field Work Methods in Cultural Anthropology
 - ANTH 572 - Visual Anthropology
 - ANTH 580 - Applied Anthropology
- [Foreign language competency may substitute for the Methods requirement with approval from the program advisor; if approved, no credit will be awarded and an additional 3-5 credits must be added to the electives portion of the graduate program]
- Topical:
 - ANTH 456 - Anthropology of War and Human Rights
 - ANTH 457 - The Anthropology of Death and Dying
 - ANTH 475 - Global Migration
 - ANTH 484 - Intercultural Education
 - ANTH 522 - Nutritional Anthropology
 - ANTH 524 - Applied Medical Anthropology
 - ANTH 525 - Primate Evolution
 - ANTH 547 - Semiotic Anthropology
 - ANTH 566 - Reproductive Ecology
 - ANTH 581 - Childhood and Culture
 - ANTH 690 - Thesis (3-12)

NOTE: Three credits of ANTH 690 are required. Not more than 12 credits of 690 will apply toward the 45-credit requirement for the degree.

Electives in Specialization: Courses selected under advisement from 400- or 500-level courses in anthropology

NOTE: No more than 10 credits of 400 level courses can be applied to the graduate degree. At least 35 credits must be from courses at the 500 or 600 (thesis) level.

ANTHROPOLOGY

Supporting Courses: Where appropriate to the student's specialty interests, the candidate may elect up to 15 credits from a related discipline, under Anthropology Graduate Committee advisement (0-15)

Advancement to candidacy is granted upon successful completion of 15 credits.

Minor

Anthropology Minor

Department of Anthropology, College of Humanities and Social Sciences

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology
 - One course from:
 - ANTH 102 - Introduction to Human Origins
 - ANTH 210 - Introduction to Archaeology
 - ANTH 215 - Introductory Biological Anthropology
 - Electives in anthropology to complete 25 credits for the minor.
 - NOTE: Only one 100-level course will count towards the Anthropology Minor.

Latin American Studies Minor (see History Department)

Latin American Studies Minor (see History Department)

Anthropology Courses

ANTH 102 - Introduction to Human Origins

Description of scientific evidence for the evolution of the human lineage from its primitive primate ancestors to the origins of civilization. Emphasis on analytical methods employed to reconstruct history from fossils, geological context and cultural remains.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 104 - American Mosaic: The Cultures of the United States

The study of the cultures of the United States from the perspectives of ethnicity, race, gender and class. Special emphasis on anthropological methods and approaches to enhance understanding of contemporary socio-cultural lifeways.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

ANTH 201 - Introduction to Cultural Anthropology

Introduction to the concepts, methods and practical application of cultural anthropology. The focus is on explanations for social and cultural variation around the world and over time and the significance of holistic and comparative understanding.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 210 - Introduction to Archaeology

The historical roots and current goals of archaeology. Principles of archaeological inference, including formation of the archaeological record, data collection and analysis, and interpretive frameworks.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 215 - Introductory Biological Anthropology

The biological side of anthropology; human osteology, primate paleontology, human variation, human evolution and primate behavior.

Credits: 5
Grade Mode: Letter
GUR Attributes: LSCI

ANTH 247 - Introduction to Linguistic Anthropology

The study of language from an anthropological perspective. Includes an introduction to the structure and patterning of language, the study of language as it is used in daily life, and the role of language in human evolution.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 301 - Anthropological Theory

The development of anthropological thought from the late 1800s to the present. Emphasis is placed on the major theoretical developments in the discipline.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 303 - Qualitative Methods in Anthropology

This course will familiarize students with perspectives, methods and techniques of qualitative research in anthropology. The course will cover the theoretical background of qualitative research, major research traditions, methods of data collection, analysis of textual data and the write-up of findings.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 308 - Hunter-Gatherer Societies in World Prehistory

The archaeological remains of hunting-gathering groups from early hominids to modern times interpreted in terms of evolution of adaptive strategies. Relationship to agriculture as an adaptive strategy; contributions of studies of modern hunter-gatherer groups.

Prerequisites & Notes: ANTH 210.
Credits: 4
Grade Mode: Letter

ANTH 310 - The Rise of Civilizations

Village agricultural societies as revealed by archaeology; crystallization of village farming societies into urban civilizations in the Near East, Egypt, India, China and New World parallel developments.

ANTHROPOLOGY

Prerequisites & Notes: ANTH 102 or ANTH 210.
Credits: 4
Grade Mode: Letter

ANTH 312 - Field Course in Archaeology
On-site training in methods and techniques of archaeological survey and excavation.

Prerequisites & Notes: ANTH 210 or equivalent and permission of instructor.
Credits: 12
Grade Mode: Letter

ANTH 314 - Archaeology of North America
Origins of PaleoIndians of North America, their paleoenvironments and the cultural sequences leading to the historic peoples of the New World north of Panama. Mesoamerican and Mississippian cultures, those of the Southwest and the Woodland Archaic.

Prerequisites & Notes: ANTH 210.
Credits: 5
Grade Mode: Letter

ANTH 330 - Religion and Culture
Comparative study of religious thought, belief and behavior; relationship of religious experience and institutions to other aspects of culture and society.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 335 - Quantitative Methods in Anthropology
Mathematics and statistics as applied to anthropological problems.

Prerequisites & Notes: ANTH 201 or HNRS 203 or ANTH 210 or ANTH 215.
Credits: 5
Grade Mode: Letter
GUR Attributes: QSR

ANTH 338 - Economic Anthropology
Examines the relationship between systems of production and culture through four theoretical approaches: formalist, substantivist, Marxist and culturalist. Emphasis on localized consequences of global economic forces. Service learning component required.

Prerequisites & Notes: ANTH 201 or HNRS 203 or instructor permission
Credits: 5
Grade Mode: Letter

ANTH 347 - The Ethnography of Communication
Familiarizes students with methods of data collection and analysis used in linguistic anthropology through an examination of both classic and current literature. Examines the complex relationship between language and culture.

Prerequisites & Notes: ANTH 247.
Credits: 5
Grade Mode: Letter

ANTH 350 - The Ecology of Human Variation
Examines global contemporary sociopolitical, health and related environmental issues with an evolutionary perspective that emphasizes changes in human physiology, development, and the genome and epigenome relative to local ecology (disease, diet, demography) and cultural adaptations.

Prerequisites & Notes: ANTH 215; One from: ANTH 201, ANTH 210, HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 351 - Family and Kinship Organization
Cross-cultural study of family types and the definition of social roles through kinship organization.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 352 - Cross-Cultural Study of Aging
Explores aging and being old in a variety of cultures as well as our own in the context of an unprecedented worldwide population explosion of older people, examining longevity and the demography of aging, conceptualizations of the life course and late life, family and community roles of older people, gender differences and similarities of aging, status relations between and among people of different ages, health and health care.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 4
Grade Mode: Letter

ANTH 353 - Sex and Gender in Culture
Cross-cultural study of gender stereotypes, gender and language, gender and work roles, gender and religion.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5

Grade Mode: Letter
GUR Attributes: BCGM

ANTH 361 - Native Peoples of North America

Ethnographic survey of the peoples and cultures.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ANTH 362 - Peoples of Asia

Ethnographic survey of the peoples and cultures.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ANTH 365 - Peoples of Latin America

Ethnographic survey of the peoples and cultures.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ANTH 406 - Archaeological Method and Theory

History of theory and method in North American archaeology and the legacy of earlier goals. Current goals and the development of appropriate theory, method and empirical applications.

Prerequisites & Notes: ANTH 210 and ANTH 301.

Credits: 5

Grade Mode: Letter

ANTH 410 - Archaeological Analysis and Interpretation

Archaeological laboratory methods; artifact identification, classification, measurement; map reproduction, soil and feature profiles; use of photographs and other graphic methods.

Prerequisites & Notes: ANTH 210 and Junior or Senior status.

Credits: 5

Grade Mode: Letter

ANTH 411 - Archaeology of Northwestern North America

The prehistoric archaeology of the Northwest coast and plateaus; current explorations and interpretations in a context of paleoenvironmental and ethnohistorical evidence.

Prerequisites & Notes: ANTH 210 and one of

ANTH 310 or ANTH 314 or ANTH 361.

Credits: 5

Grade Mode: Letter

ANTH 415 - Archaeological Spatial Analysis

Focuses on the application of advanced quantitative methods in spatial analysis to specific archaeological contexts and projects. Students will complete a major research project and present it to the class and as a paper.

Prerequisites & Notes: ANTH 201 and ANTH 335.

Credits: 3

Grade Mode: Letter

ANTH 420 - Human Osteology and Forensic Anthropology

After learning the human skeleton, the student will be trained in techniques for recovery of the body, reconstruction of the body's history (age, sex, race, etc.) and how to aid the crime investigator.

Prerequisites & Notes: ANTH 210 or ANTH 215 or ANTH 335 or ANTH 410 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 422 - Nutritional Anthropology

The study of human nutrition and metabolism from an anthropological perspective. Topics include the structure and function of the digestive system, the chemical composition of nutrients and the regulation by the body of nutrient stores and body composition. Focuses on using a comparative approach to elucidate a naturalistic human diet and the health consequences when this ideal is not met.

Prerequisites & Notes: ANTH 201 or HNRS 203, and ANTH 215 and BIOL 349 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 423 - Human Evolution

First half of seminar covers theory and anatomical changes for hominin species focusing on last 6 million years (that is, Ardipithecus and Australopithecus to present) and second half considers sociocultural evolution (e.g., life history theory, mate choice, evolution of cognition, emotions, language).

Prerequisites & Notes: ANTH 102 or ANTH 210 or ANTH 215 and ANTH 301 or ANTH 308 or ANTH 310 or ANTH 350, or junior standing in Biology or Anthropology major, or instructor permission.

ANTHROPOLOGY

Credits: 5
Grade Mode: Letter

ANTH 424 - Medical Anthropology

Introduction to an area where biological and cultural anthropology interface. Includes health and disease in evolution, the relationships between disease and world view, the healer and the cultural milieu, and comparative studies of healing practices.

Prerequisites & Notes: ANTH 201 or HNRS 203, and junior standing or instructor permission.
Credits: 5
Grade Mode: Letter

ANTH 428 - Cultural Resource Management

Introduction to the field of cultural resource management including historic preservation, archaeological resource management, cultural resource management for subsistence and spiritual practices. Background on legislation and current practices, review of case studies and experience with actual projects.

Prerequisites & Notes: ANTH 210 and junior or senior status or instructor permission.
Credits: 4
Grade Mode: Letter

ANTH 429 - Politics, Power and Inequality

Examines how social stratification and inequality arise and become institutionalized in societies with centralized authority. Considers hierarchy and inequality in state and non-state societies, and examines the effects of inequality on popular participation in stratified, ranked and egalitarian societies.

Prerequisites & Notes: ANTH 301, and junior or senior status or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 440 - Cyborg Anthropology

The cyborg is a life form that is part human and part machine. This course examines the shifting conceptual and physical boundaries between humans and their techno-scientific creations through theoretical works, ethnographic accounts and popular cultural artifacts such as film.

Prerequisites & Notes: ANTH 201 or HNRS 203 or instructor permission.
Credits: 5
Grade Mode: Letter

ANTH 447 - Anthropological Semiotics

Myth, metaphor and media offer the material for this exploration of theories which offer insight into the relationship between language and mind.

Prerequisites & Notes: ANTH 347 and junior or senior status or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 453 - Women of the Global South

Explores women's economic, religious, political and familial roles through topics such as development and globalization, violence, and women's movements. Student contributions to course topics emphasized through individual papers and group panel work.

Prerequisites & Notes: ANTH 301 and ANTH 353 and junior or senior status or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 454 - Participatory Action Research Methods

Participatory Action Research is a methodology of researching, analyzing, and carrying out actions that directly benefit members (stakeholders) of a community. As a form of applied anthropology, PAR is a method that emphasizes working in collaboration with others to develop research questions, conduct research, analyze findings, present results, and create actions. In this course, students will work with identified community organizations and groups who are interested in the PAR methodology.

Prerequisites & Notes: ANTH 303 or ANTH 471 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 456 - Anthropology of War and Human Rights

The course focuses on emic and etic perspectives of war and human rights. Investigates cultural relativism and anthropology with regard to war and violence. Cultural constructions of war and definitions of human rights are fundamental to an understanding of what it means to be human.

Prerequisites & Notes: ANTH 301 and junior or senior status.
Credits: 4
Grade Mode: Letter

ANTH 457 - The Anthropology of Death and Dying

The course considers death and dying anthropologically as cultural constructs. The course explores a wide range of cultures from a variety of interdisciplinary and interactive perspectives in order to further our understanding of what it means to be human. Studies death and dying in order to broaden our understanding of the human cultural experience. Field trips required.

Prerequisites & Notes: ANTH 301 and junior or senior status.
Credits: 5
Grade Mode: Letter

ANTH 460 - Culture and Society of Japan

Overview of Japanese culture and society, its pre-history and historic formation, emphasizing contemporary social organization and social relations in urban and rural society. Examines Japan's solutions to the problems of modern industrial society.

Prerequisites & Notes: ANTH 362 or permission of instructor.
Credits: 4
Grade Mode: Letter

ANTH 462 - Native Peoples of the Northwest

Tribal distributions, social organization and ecological adaptation and social change with emphasis on the Native peoples of Washington state.

Prerequisites & Notes: ANTH 361
Credits: 5
Grade Mode: Letter

ANTH 463 - Peoples of East and Southeast Asia

An ethnographic in-depth study of the national and minority peoples of China, mainland and insular Southeast Asia. Emphasis on special topics, including ecology, prehistory and selected cultural groups. Readings focus on original monographs.

Prerequisites & Notes: ANTH 362 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 465 - Peoples of Mexico and Central America

Overview of cultures and social relations in Mesoamerica, with an emphasis on indigenous and rural communities, subsistence and survival issues, and factors underlying political and economic change.

Prerequisites & Notes: ANTH 365 or permission

of instructor.
Credits: 5
Grade Mode: Letter

ANTH 466 - Reproductive Ecology

Study of human reproduction from an anthropological perspective. Topics include the structure and function of the reproductive system, including hormonal control of ovarian cycling, but also culturally mediated behaviors that influence reproduction. Focus is on variation in the fertility between populations and among couples within populations.

Prerequisites & Notes: ANTH 201 or HNRS 203, and ANTH 215 and BIOL 349 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 469 - Directed Internship

Application of anthropological methods and theory in an applied setting. Interns work at least 10 hours per week at the work site, in the type of work specified in the internship contract. In addition students complete several written assignments, Repeatable to a maximum of 15 credits. No more than 10 credits in internship may be counted toward the major.

Prerequisites & Notes: permission of instructor.
Credits: 5-10
Grade Mode: Letter

ANTH 470 - Museology Studies

Internship at the Whatcom Museum of History and Art or other local museums. Students may select an area of museum specialization in most cases; essay questions and a paper are also required. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: ANTH 301 and junior or senior, or permission of faculty liaison.
Credits: 3-5
Grade Mode: Letter

ANTH 471 - Field Work Methods in Cultural Anthropology

The study of ethnographic field work methods through exercises in class and a major field work project in the community. Discussion of topics, including the anthropologist as field worker and the ethics of field work.

Prerequisites & Notes: ANTH 301 or ANTH 303 and junior or senior status, or permission of instructor.
Credits: 7
Grade Mode: Letter

ANTHROPOLOGY

ANTH 472 - Visual Anthropology

Examination of photographic representation of people by anthropologists, ethnographic filmmakers, indigenous people, media and other groups. Analytical skills and applications are emphasized and theoretical perspectives are explored.

Prerequisites & Notes: ANTH 301 or ANTH 303 and junior or senior status, or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 473 - Field Course in Ethnography

Course is partly classroom-based and partly field-based research through participation in on-site projects. Actual projects vary by quarter and instructor.

Prerequisites & Notes: ANTH 201 or HNRS 203 and permission of instructor.
Credits: 5-12
Grade Mode: Letter

ANTH 475 - Global Migration

Economic, political and human factors motivating movements of people and affecting their transitions into new societies; comparative exploration of issues, case studies and global trends, with specific focus on implications for policy and services.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 476 - Borderlands

Comparative examination of simultaneous separating and integrating functions of borders, significance of border regions as vital transition zones, and transboundary policy needs associated with accelerated flows of people, goods and ideas; particular focus on U.S.-Mexico and US.-Canada borderlands.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 480 - Applied Anthropology

Use of anthropology to solve human problems; examines ethics, interventions and policy applications regarding contemporary social issues.

Prerequisites & Notes: ANTH 301 or ANTH 303.

Credits: 5
Grade Mode: Letter

ANTH 481 - Childhood and Culture

The process of socialization or enculturation viewed from a cross-cultural perspective.

Prerequisites & Notes: ANTH 201 or HNRS 203 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 484 - Intercultural Education

Comparative and anthropological study of educational issues. Examines learning in other cultures, home-school linkages, minority student achievement and multi-cultural curricula.

Prerequisites & Notes: ANTH 201 or HNRS 203 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 490 - Senior Seminar in Anthropology

Capstone seminar in anthropology. Topics vary, emphasis is on current research questions in anthropology. Students write a research proposal, conduct a research project and present the findings. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: Senior status in anthropology.
Credits: 5
Grade Mode: Letter

ANTH 495 - Teaching-Learning Processes in Anthropology

Practicum as discussion leaders in anthropology courses. May be repeated once for departmental credit if taken from a different instructor.

Prerequisites & Notes: Permission of instructor.
Credits: 3
Grade Mode: Letter

ANTH 496 - Portfolio Assembly

Student assembles and submits portfolio contents in four areas: research, competence, data analysis, critical comprehension and synthetic comparison, under continuing direction of departmental academic adviser. S/U grading.

Prerequisites & Notes: Senior status in anthropology.
Credits: 1
Grade Mode: S/U

ANTH 501 - History of Anthropology

Development of principal theoretical orientations and methods in the cultural and historical setting; development of anthropology as a discipline.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 502 - Theory in Anthropological Research

Issues relating to use of theory in contemporary anthropological research; examination of major writings and their implications.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 503 - Research Design and Method

Analysis of major theoretical approaches; research methods and procedures; relationship of theory and method in formulating research problems.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 506 - Archaeological Method and Theory

History of theory and method in North American archaeology and the legacy of earlier interpretive frameworks. Current goals of the discipline and the development of appropriate theory, method and empirical applications.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 510 - Applied Archaeological Analysis and Interpretation

Advanced design and implementation of archaeological laboratory methods to a specific research project.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 511 - Current Archaeological Research in Northwestern North America

Advanced survey of current literature in Pacific Northwest archaeology in seminar format with preparation of a major research paper.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 515 - Practicum in Archaeological Spatial Analysis

Application of advanced quantitative spatial analysis techniques to specific archaeological contexts and projects. Students will complete a major research project and paper.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 520 - Human Osteology

Advanced study of human osteology. The latest methods in reconstruction of the individual.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 522 - Nutritional Anthropology

Advanced study of human nutrition and metabolism from an anthropological perspective. Topics include the structure and function of the digestive system, the chemical composition of nutrients and the regulation by the body of nutrient stores and body composition. Each student will prepare a major research paper and presentation.

Prerequisites & Notes: Graduate student in good standing in anthropology and other programs with program advisor approval
Credits: 5
Grade Mode: Letter

ANTH 524 - Applied Medical Anthropology

Advanced study of the use of medical anthropological method and theory in contemporary health care systems or in the analysis of health and disease in past populations.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 525 - Primate Evolution

Advanced study of primate paleontology. Each student is expected to become expert on some aspect of the fossil record.

Prerequisites & Notes: Graduate status in the

ANTHROPOLOGY

anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 528 - Applied Cultural Resource Management

Application of cultural resource management methods to specific management problems. Students will prepare a professional quality cultural resource management plan or nomination form.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 547 - Semiotic Anthropology

Advanced study of theoretical approaches to meaning in linguistic anthropology, including but not limited to Piercean semiotics, trope theory, and methods for theorizing context.

Prerequisites & Notes: Graduate standing.
Credits: 5
Grade Mode: Letter

ANTH 553 - Women of the Global South

Examines a variety of contemporary issues facing women of the South, such as economic realities, family responsibilities, health issues, and women's rights. Emphasis on individual and group work to examine selected topics and to gain in-depth knowledge about women in specific countries.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 554 - Participatory Action Research Methods

Participatory Action Research is a methodology of researching, analyzing, and carrying out actions that directly benefit members (stakeholders) of a community. As a form of applied anthropology, PAR is a method that emphasizes working in collaboration with others to develop research questions, conduct research, analyze findings, present results, and create actions. In this course, students will work with identified community organizations and groups who are interested in the PAR methodology.

Prerequisites & Notes: ANTH 571 or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 563 - Peoples of East and Southeast Asia

Advanced study of selected important topics regarding the peoples and cultures of China, mainland and insular Southeast Asia. Emphasis on work to gain in-depth knowledge and understanding of selected cultures and/or theoretical-analytical topics of special relevance to the region.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 565 - Peoples of Mexico & Central America

Advanced ethnological analysis of cultures and social relations in Mesoamerica, with emphasis on ecological, economic and political issues and implications for community resources for facing globalization.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 566 - Reproductive Ecology

Advanced study of human reproduction from an anthropological perspective in a seminar format. Will cover topics including the structure and function of the reproductive system, including hormonal control of ovarian cycling, but also culturally mediated behaviors that influence reproduction. Students will prepare a major research paper presentation.

Prerequisites & Notes: Permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 571 - Field Work Methods in Cultural Anthropology

The study of ethnographic field work methods through exercises in class and a major field work project in the community. Discussion of topics, including the anthropologist as field worker and the ethics of field work.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 7
Grade Mode: Letter

ANTH 572 - Visual Anthropology

Examination of photographic/digital image representation of people by anthropologists, ethnographic filmmakers, indigenous people,

media and other groups. Requires analytical skills and applications and explores theoretical perspectives. Requires two projects with accompanying presentations.

Prerequisites & Notes: Graduate status.
Credits: 5
Grade Mode: Letter

ANTH 576 - Borderlands

Advanced comparative examination of separating and integrating functions of borders, border regions as transition zones, and policy implications, with emphasis on U.S. borders with Mexico and Canada.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 580 - Applied Anthropology

Advanced investigation of the use of anthropology to solve human problems; ethics, interventions and policy applications regarding contemporary social issues.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 581 - Childhood and Culture

Advanced cultural analysis of the process of socialization, child welfare and policy relating to children.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.
Credits: 5
Grade Mode: Letter

ANTH 690 - Thesis

Repeatable to a maximum of 12 cr. S/U grading

Prerequisites & Notes: formal advancement to candidacy for MA in Anthropology
Credits: 1-12
Grade Mode: S/U

Canadian-American Studies

Introduction

The Canadian-American Studies major and minor are designed to expand knowledge of Canada and understanding of Canadian-American issues and problems.

The Canadian-American studies curriculum prepares students for positions in businesses, government, communications and international organizations in the U.S., Canada and other areas of the world. Canadian-American studies combines well with other majors and minors to add depth and international expertise. Examples include combining Canadian-American Studies with: environmental science and policy, international business, geography, political science, marketing, communications, history and foreign languages.

Opportunities for study in Alberta, British Columbia, Ontario, and Québec are available.

For program advisement, contact Chuck Hart, program manager, phone 360-650-3728, fax 360-650-3995, e-mail: Chuck.Hart@wwu.edu.

Participating Canadian-American Studies Faculty

DONALD ALPER, Director, Center for Canadian-American Studies. Political science. Canadian politics/government.

AMIR ABEDI, Political Science. Comparative politics, European politics.

TROY ABEL, Environmental Studies. Environmental policy and resolutions.

BIDISHA BISWAS, Political Science. Security and counterterrorism.

DANIEL BOXBERGER, Anthropology. First Nations, Native Peoples and natural resources.

PATRICK BUCKLEY, Geography. Transborder economic modeling and GIS.

SARAH CAMPBELL, Anthropology. Pre-history of the Northwest coast.

SARAH CLARK-LANGAGER, Western Gallery Director.

CECILIA DANYSK, History. Canadian history.

STEVEN GLOBERMAN, Kaiser Professor of International Business and Director of the Center for International Business. Canadian economy.

LEE GULYAS, English. Canadian Literature.

VICKI HAMBLIN, French. French literature.

CÉCILE HANANIA, French. Twentieth century French literature and literary theory and Québec culture.

MARY ANN HENDRYSON, Economics. Canadian economic history, cross border economic relations.

CAROL JANSON, Art. Art history.

T.H. KAMENA, Political Science. Canadian politics/government.

CHRISTINA KEPPIE, French. Acadian culture.

KEVIN LEONARD, History. Pacific Northwest history.

ROBERT LOPRESTI, Wilson Library. Canadian government information.

JAMES LOUCKY, Anthropology. North American borderlands.

GEORGE MARIZ, History, Honors Program Director. Britain, British Empire, European intellectual history.

JEAN MELIOUS, Environmental Studies. Canadian environmental policy and law.

ROBERT MONAHAN, Professor Emeritus, Geography. Canadian geography.

EDWARD OUSSÉLIN, French. French cultural studies and film studies.

NANCY PAGH, English. Canadian literature.

THOMAS ROEHL, Management. International business and management.

DAVID ROSSITER, Geography. Canadian geography, environmental history and natural resource management.

CHRISTOPHER SANDS, Management. Ross Distinguished Professorship of Canada/U.S. Business and Economic Relations.

SARA SINGLETON, Political Science. Public policy and environmental politics.

PAUL STORER, Economics. Canadian economic policy, macroeconomics, labor economics.

Named Professorships

Ross Distinguished Professorship of Canada/U.S. Business and Economic Relations (position is in the College of Business and Economics).

Study Abroad

The Center for Canadian-American Studies encourages students to spend one or more quarters in a study abroad program in Canada. We offer a number of exchange opportunities with universities across Canada. For more information, please contact Chuck Hart, program manager, phone 360-650-3728 or send e-mail to Chuck.Hart@wwu.edu.

Bachelor of Arts

Canadian-American Studies, BA

Canadian/American Studies, College of Humanities and Social Sciences

50 credits

Introduction

Canada and the United States are the two most interdependent countries in the world. Virtually all the Fortune 500 companies do business with Canada, as do all large government agencies. Additionally, most environmental organizations have a Canadian presence. The Canadian-American Studies major provides a comprehensive and accessible international experience focusing on Canada and Canada-US relations.

Students pursue areas of study such as Canada-US environmental policy, political and security ties between Canada and the United States, and economic relations between the two nations. The study of the Canada-US relationship also provides a lens through which critical issues facing the global community are examined.

Why Consider a Canadian-American Studies Major?

The interdisciplinary program encourages students to problem solve and think of big-picture solutions to international issues. Students gain a unique understanding of different intellectual traditions and how to bridge gaps in understanding. This training prepares graduates to take leadership roles in diverse settings that require critical thinking and societal problem solving.

Recent Western graduates have found fulfilling careers working for the Canadian Department of Foreign Affairs and International Trade, directing internet marketing for a Canada-US import/export firm, serving as a US federal government liaison to a municipality for emergency preparedness, working for Google in their map division and coordinating border and emergency management programs for the cross-border Pacific Northwest Economic Region.

Sample Careers

FBI Counter-Terrorism Agent | High School Teacher | Program Manager at a Foreign Consulate | US Navy JAG Officer | NGO Education Director | Small Business Owner | University Professor | Legislative Chief of Staff | Tourism/Marketing Officer | Law School Student | Aerospace Manager

Major/Career Resources

http://www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admissions and Declaration Process):

To declare the major, contact the Center for Canadian-American Studies undergraduate advisor, Chuck Hart.

Advising Tips: A formal program of study is initially designed by the student in consultation with the Canadian-American Studies Department undergraduate advisor, Chuck Hart.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Track 1 - Canadian-American studies with French language

- C/AM 200 - Introduction to Canadian Studies
- C/AM 401 - Research Problem Identification and Development
- C/AM 402 - Research Analysis and Writing
 - Five upper-division ENG credits under advisement
- FREN 201 - Intermediate French
- FREN 202 - Intermediate French
- FREN 203 - Intermediate French (or equivalent)
- HIST 277 - Canada: A Historical Survey
- PLSC 406 - Canadian Government and Politics
 - One course from:
 - ENVS 331 - Canada: Society and Environment
 - ENVS 430 - Borderlands
- Select additional credits from the following to complete the major:
 - ANTH 361 - Native Peoples of North America
 - ANTH 411 - Archaeology of Northwestern North America
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 476 - Borderlands
 - A/Hi 490 - Seminar: Exhibition Theory and Practice
 - C/AM 400 - Independent Study
 - C/AM 410 - Study Canada Summer Institute
 - ECON 364 - Topics in Canadian Economic History
 - ECON 365 - The Canadian Economy
 - ENVS 452 - International Environmental Policy
 - FREN 332 - Civilisation et Culture du Canada Francophone
 - FREN 401 - Elements De Stylistique
 - HIST 376 - French Colonial Canada: 1534-1763
 - HIST 499 - Historical Research (under advisement)
 - JOUR 460 - Special Reporting Project
 - PLSC 301 - The British Parliamentary System
 - SOC 390 - Globalization and Families

Track 2 (50 credits) - Canadian-American studies with area of concentration

- C/AM 200 - Introduction to Canadian Studies

- C/AM 401 - Research Problem Identification and Development
- C/AM 402 - Research Analysis and Writing
- Five upper-division ENG credits under advisement
- HIST 277 - Canada: A Historical Survey
- PLSC 406 - Canadian Government and Politics
- One course from:
 - ENVS 331 - Canada: Society and Environment
 - ENVS 430 - Borderlands
- Plus 2 upper-division courses in an area of specialization (in consultation with Canadian-American)
- Select additional credits from the following to complete the major:
 - ANTH 361 - Native Peoples of North America
 - ANTH 411 - Archaeology of Northwestern North America
 - ANTH 462 - Native Peoples of the Northwest
 - ANTH 476 - Borderlands
 - A/HI 490 - Seminar: Exhibition Theory and Practice
 - C/AM 400 - Independent Study
 - C/AM 410 - Study Canada Summer Institute
 - ECON 364 - Topics in Canadian Economic History
 - ECON 365 - The Canadian Economy
 - ENVS 452 - International Environmental Policy
 - FREN 101 - Elementary French
 - FREN 102 - Elementary French
 - FREN 103 - Elementary French
 - FREN 201 - Intermediate French
 - FREN 202 - Intermediate French
 - FREN 203 - Intermediate French
 - FREN 332 - Civilisation et Culture du Canada Francophone
 - FREN 401 - Elements De Stylistique
 - HIST 376 - French Colonial Canada: 1534-1763
 - HIST 499 - Historical Research
 - JOUR 460 - Special Reporting Project
 - PLSC 301 - The British Parliamentary System
 - SOC 390 - Globalization and Families

Minor

Canadian/American Studies Courses

C/AM 200 - Introduction to Canadian Studies

A basic interdisciplinary course of studies covering the major physical, historical and sociopolitical aspects of Canada.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

C/AM 325 - Quebec Politics and Quebec-US Relations

This course offers an introduction to Québec politics and Québec-U.S. Relations. Part I uses a historical-institutionalist approach to present the main conceptual and theoretical elements on Québec politics and offers an overview of recent evolution in Québec's political life. Part II discusses three crucial themes in contemporary Québec politics: the evolution of Québec's identity; the future of Québec's independence movement; and the road ahead for Québec's international relations. Part III shows how Québec and the United States are integrated and offers an overview of the actors and issues in Québec-U.S. relations. Also offered as PLSC 325.

Prerequisites & Notes: C/AM 200 or PLSC 101 or permission of instructor.
Credits: 4
Grade Mode: Letter

C/AM 401 - Research Problem Identification and Development

Directed research on a problem or in an area of interest.

Prerequisites & Notes: C/AM 200, 15 credits of core courses.
Credits: 3
Grade Mode: Letter

C/AM 402 - Research Analysis and Writing

Analysis and writing on the research findings in C/AM 401. A writing proficiency course.

Prerequisites & Notes: C/AM 401
Credits: 3
Grade Mode: Letter

C/AM 410 - Study Canada Summer Institute

Intensive survey course featuring expert instruction from WWU faculty and distinguished speakers from Canada and the US. Topics include: Canadian history, geography, government, culture, free trade and environmental issues, First Nations and Canada-US relations. Participants are introduced to a variety of curriculum materials, visit Canada, experience its culture, and develop a curriculum project that meets national standards and expands their personal teaching portfolios. Repeatable to a maximum of 9 credits.

Credits: 3
Grade Mode: Letter

C/AM 444 - Canadian Studies Internship

Work as research and/or management assistant with a local, state or federal government body or private organization. No more than 10 credits in internship may be counted towards the major

without permission of the chair. Repeatable up to 15 credits, including original course.

Prerequisites & Notes: Completion of 3 of six core classes: C/AM 200; HIST 277; ENVS 331 or ENVS 430; ENG 415 or PLSC 406.
Credits: 3-10
Grade Mode: Letter

C/AM 489 - Managing An International Ecosystem

A research seminar that examines how economic, environmental, social and political agendas affect the shared international ecosystem - Georgia Basin/Puget Sound. Course focuses on the interests of various stakeholders and the efforts taken to manage the cross-border environmental issues. The course involves cross-border travel and field work and thus participants require a passport. In some years, the course will involve collaborations with students and faculty from Canadian Universities. Also offered as ESTU 489 and PLSC 489.

Prerequisites & Notes: Junior Status or Permission of Instructor.
Credits: 5
Grade Mode: Letter

Communication Sciences and Disorders

Introduction

The Disciplines

Speech-language pathology and audiology are disciplines that have developed out of a concern for people with communication disorders. Preparation leading to a degree in communication sciences and disorders includes a wide range of courses and a variety of clinical practicum opportunities working with the infant through geriatric populations.

Students who intend to seek employment in this profession, whether in a public school, clinic, rehabilitation center, or hospital setting, are advised that a master's degree in speech-language pathology or a clinical doctorate in audiology and certification/licensure at the state and/or national levels are required. Out-of-state students should recognize that other requirements may exist for employment in their locales.

Degree Programs in Communication Sciences and Disorders

The Department of Communication Sciences and Disorders (CSD) offers both the Bachelor of Arts and the Master of Arts degrees. The Bachelor of Arts degree is a pre-professional degree that prepares the student for pursuing graduate studies in either audiology or speech-language pathology. For the bachelor's degree, a minor area of study is required. The minor must be approved by the student's academic advisor. Suggested areas include audiology (in moratorium), biology, business, education, psychology, or sociology. Individually designed minors are permissible with faculty advisor approval.

The Master of Arts degree is a professional degree and partially fulfills certification requirements at both the state and national levels. A student may specialize in speech-language pathology at the master's level. The MA degree program, Speech Language Pathology, is accredited by the American Speech-Language-Hearing Association (ASHA). The department does not offer a clinical doctorate program in audiology.

Due to the clinical requirements of the programs, enrollment in the undergraduate and graduate major may be limited.

A post-baccalaureate program is offered for those with an undergraduate degree in a field other than communication sciences and disorders and for those who hold a CSD degree that was completed five or more years ago. This program is designed to prepare such students for graduate-level study in speech-language pathology or audiology. The 45-50 credits four-quarter lockstep program begins fall quarter. The post-baccalaureate program is self-supporting and has a tuition rate that differs from that of regularly enrolled undergraduate students.

Students interested in the post-baccalaureate program need to complete the Extension Undergraduate Application. Extension admission and registration information is available from Extended Education, 360-650-7780.

NOTE: Enrollment in the post-baccalaureate program does not guarantee a place in the graduate program.

Accreditation

The master of arts degree education program in speech-language pathology at Western Washington University is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700 (TTY). The Department of Communication Sciences and Disorders is also accredited by the National Council for the Accreditation of Teacher Education.

Certification/Licensure in Speech-Language Pathology/Audiology

There are three types of professional certification/licensure in the field: state licensure from the Washington State Department of Health; certification as an educational staff associate from the Washington state Office of the Superintendent of Public Instruction; and the Certificate of Clinical Competence, a national certification, from ASHA. Consult the department for additional information.

Faculty

EVA BAHARAV (2003) Associate Professor. BA, MA, University of California-Berkeley; PhD, Boston University. Undergraduate advisor (speech-language pathology).

RIEKO M. DARLING (1995) Associate Professor. BS, MS, PhD, The Florida State University. Transfer advisor, undergraduate advisor; director, audiology clinics (audiology).

MICHAEL R. FRAAS (2012) Assistant Professor. BA, Bowling Green State University; MA, University of Cincinnati; PhD, University of Cincinnati (speech-language pathology).

KIMBERLY A. PETERS (2002) Associate Professor. BA, Trinity College; MA, PhD, University of Connecticut. Undergraduate advisor; director, aural rehabilitation clinics (audiology).

Clinical Educators

KAREN-MARGRETHE BRUUN (2010) Internship coordinator; Graduate program coordinator; Post-Baccalaureate program coordinator; MA, Western Washington University (speech-language pathology).

ANNA CHAMBERLIN (1998) BA, MA, Western Washington University (audiology).

JENNIFER GRUENERT (2008) BA, MS, University of Washington (speech-language pathology).

JILL K. HUNT-THOMPSON (1977) BA, MA, Western Washington University (speech-language pathology).

GEORGETTA LILLEY (1988) BS, MEd, California University of Pennsylvania (speech-language pathology).

DIANA PECHTHALT (2003) BA, MA, Western Washington University (speech-language pathology).

YARROW POSPISIL (2001) BS, University of Nebraska; MA, Western Washington University (speech-language pathology).

JASMINE RUBERT (2014) BA, MA, Western Washington University (speech-language pathology).

TERRY SACKS (2005) Director, speech-language pathology clinic. BS, MA, Northwestern University. (speech-language pathology).

LESLEY STEPHENS (2006) BA, MA, University of Kansas.

JOHN YOUNG (2013) BA, MA, Western Washington University (audiology).

Declaration Process

Students wishing to declare a major in Communication Sciences and Disorders must have:

1. completed at least 75 credits;
2. successfully completed or be currently enrolled in CSD 251;
3. achieved a Western GPA (based on at least 12 credits) of 2.70 or higher. A grade of at least B- (2.70) in each of the core courses (CSD 251, 352, 354, and 356) may be substituted for the overall 2.70 GPA.

As stated in the section regarding general university academic policies, "any grade below a C- is unacceptable in the student's major or minor." In the Communication Sciences and Disorders Department students also are required to complete each prerequisite course with a grade of C- or better before enrolling in the courses for which that serves as a prerequisite.

Other Departmental Information

Essential Functions of Candidates for Program Admission and Continuance

Introduction

The CSD department's speech-language pathology and audiology preparation programs lead to graduate degrees in speech language pathology and/or audiology. The core curriculum is designed to support student attainment of the academic and clinical competencies needed for graduation and for licensure in the state of Washington. The education of a speech-language pathologist or audiologist requires assimilation of knowledge, acquisition of skills, and development of judgment through patient care experience in preparation for independent and appropriate decision-making practices. The current practices of speech-language pathology and audiology emphasize collaboration among audiologists, speech-language pathologists, other allied health care professionals, physicians, and patients.

Policy

The accredited graduate program in the CSD program at Western adheres to the standards set by ASHA. Within ASHA standards, the CSD program has the freedom and ultimate responsibility for the selection of students; the design, implementation, and evaluation of the curriculum; the evaluation of student progress; and the determination of who should be awarded a degree.

Faculty and staff in the CSD department have a responsibility for the welfare of patients tested, treated, or otherwise affected by students enrolled in the CSD program. The department has the ultimate responsibility to the public to assure that its graduates can become fully competent professionals, capable of delivering quality care in a timely manner and preserving the well-being of the patients they serve. Thus, it is important that persons admitted, retained, and graduated possess the intelligence, integrity, compassion, humanitarian concern, and physical and emotional capacity necessary to practice in communication sciences and disorders.

No student in CSD may participate as a primary clinician in the clinic or an internship until cleared by the Washington State Office of Superintendent of Public Instruction and the Federal Bureau of Investigation background check. Clearance is valid for specified time frames. Procedure and fee information are provided to students upon acceptance into the graduate program.

The CSD department is committed to the principle of equal opportunity. The University, College, and department do not discriminate on the basis of race, color, creed, religion, national origin, gender, sexual orientation, age, marital status, disability, disabled veteran or Vietnam-era veteran status. When requested, the University will provide reasonable accommodation to otherwise qualified students in the department. To fulfill this responsibility, the department has established academic standards and minimum essential requirements that must be met with or without reasonable accommodations in order to participate in the program and graduate.

Program

The CSD department endeavors to select applicants who have the ability to become highly competent speech-language pathologists and audiologists. Admission and retention decisions are based not only on satisfactory prior and ongoing academic achievement, but also on nonacademic factors that serve to ensure that the candidate can complete the essential functions of the academic and clinical program required for graduation. Essential functions, as distinguished from academic standards, refer to those cognitive, physical, and behavioral abilities that are necessary for satisfactory completion of all aspects of the curriculum, and the development of professional attributes required by the faculty of all students at graduation. The essential functions required by the curriculum are in the following areas: motor, sensory, communication, intellectual/cognitive (conceptual, integrative, and quantitative abilities for problem solving and diagnosis), behavioral/emotional, and the professional aspects of the performance of a speech-language pathologist and/or audiologist.

- **Motor Skills.** The student should have sufficient motor function to be able to execute movements required to provide with acuity, accuracy, and facility a complete speech, language, and/or audiologic examination and provide therapeutic services to patients of all ages and both genders in all clinical situations. The student must have the ability to safely assist patients in moving, for example, from room to room, from chair to chair, on and off an examination table.
- **Sensory/Observation.** The CSD curriculum requires essential ability in information acquisition. The student must have the ability to master information presented in course work in the form of lectures, written materials, and projected images. The student must also be able to acquire the information presented through demonstrations and experiences in the clinical training portion of the program. The student must be able to observe a patient accurately, both at a distance and close at hand, and observe and appreciate nonverbal communication and manual signs when performing clinical assessments and treatment activities. The student must have the ability to take a case history and perform a visual examination of various oral and craniofacial structures (i.e., ear, throat, oral cavity, skull, et cetera). The student must have sufficient sensory capability to perform all required examination and treatment protocols using instruments and tools necessary for accurate, efficient, and timely completion of such activities.
- **Communication.** The student must be able to accurately, effectively, and sensitively communicate information on patient status with other students, faculty, staff, patients, families, and other professionals. This information must be communicated in a succinct yet comprehensive manner and in settings in which time available may be limited. These skills require the ability to assess and effectively communicate all relevant information including the significance of nonverbal responses. These skills also require the ability to immediately assess incoming information to allow for well-focused, appropriate follow-up inquiry. The student must be capable of responsive, empathetic listening to establish rapport in a way that promotes openness on issues of concern and sensitivity to potential cultural differences. Students must express ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback.
- **Cognitive.** The student must have the cognitive abilities necessary to master relevant content in basic science and clinical courses at a level deemed appropriate by the faculty and professional staff. These skills may be described as the ability to comprehend, memorize, analyze, and synthesize material. Students must be able to develop reasoning and decision-making skills appropriate to the practice of speech-language pathology and/or audiology.
- **Behavior/Emotional.** The student must possess the emotional health required for the full utilization of his or her intellectual abilities, the exercise of good judgment, and the prompt completion of all responsibilities attendant to the diagnosis and treatment of communication disorders in patients. In addition, the student must be able to maintain mature, sensitive, and effective relationships with patients, students, faculty, staff, and other professionals under all conditions, including highly stressful situations. The student must have the emotional stability to function effectively under stress and to adapt to an environment that may change rapidly without warning and/or in unpredictable ways. The student must be able to experience empathy for the situations and circumstances of others and effectively communicate that empathy. The student must know if his or her values, attitudes, beliefs, emotions, and/or experiences affect his or her perceptions and relationships with others. The student must be willing and able to examine and change his or her behavior when it interferes with productive individual or team relationships. The student must possess skills and experience necessary for effective and harmonious relationships in diverse learning and working environments.
- **Professional.** The student must possess the ability to reason judiciously and practice speech-language pathology and/or audiology in an ethical manner. Students must be willing to learn and abide by professional standards of practice. Students must possess attributes that include compassion, empathy, altruism, integrity, honesty, responsibility, and tolerance. The student must be able to engage in patient care delivery in all clinical settings and be able to deliver care to all patient populations, including but not limited to, children, adolescents, adults, developmentally disabled persons, medically compromised patients, and vulnerable adults.

COMMUNICATION SCIENCES AND DISORDERS

Writing Proficiency Guidelines

Majors in Communication Sciences and Disorders must complete a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-. Students must meet with an undergraduate advisor no later than the fourth week of winter quarter of the junior year to file a plan of study. The plan of study will include signing up for specific writing proficiency courses and labs.

Graduate Study

For a concentration leading to the Master of Arts degree, see the Graduate School section of this catalog.

Bachelor of Arts

Communication Sciences and Disorders, BA

Communication Sciences and Disorders, College of Humanities and Social Sciences

65 Credits

Introduction

Communication Sciences and Disorders includes two disciplines, Speech-Language Pathology and Audiology, which have developed out of a concern for people with communication disorders. The academic and clinical curriculum at the undergraduate level includes a wide range of courses and clinical practicum opportunities. Students study normal communication processes and disorders. Courses in normal processes include Language Development, Speech Acoustics, Hearing Science, and Anatomy and Physiology. Courses regarding disorders cover Language Disorders, Phonological Disorders, and Hearing Disorders, for example. The undergraduate education prepares students to pursue a graduate degree. A master's degree in Speech-Language Pathology or a clinical doctorate degree in Audiology and certification at the national level are required to engage in professional practice.

Why Consider a Communications Sciences and Disorders Major?

Many people easily talk with family, friends, and colleagues every day. Although we often take language, speech, and hearing for granted, these processes are extraordinarily complex. Furthermore, anyone at any age can be affected by illness or injury that will impair the ability to talk or hear. In fact, one out of every six Americans has a communication disorder. Each one can be helped in some way by a speech-language pathologist, audiologist, or speech, language, and hearing scientist.

Grounded in the latest scientific theories and research, CSD students learn to assess and treat persons with communication disorders — from infants to the elderly. In labs students have access to state-of-the-art equipment and analysis procedures as they study sound, speech, language, and hearing. Speech-language pathologists and audiologists make a positive contribution to people's lives. With the changing makeup of our population comes the need for speech-language-hearing professionals who are skilled in working in a complex and diverse society. For people with the proper education and flexibility, employment prospects are excellent. Opportunities and challenges await you!

Sample Careers

Speech-Language Pathologist | Speech-Language Scientist | Government/Industry Consultant | Audiologist | Hearing Scientist | Clinic Administrator

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Admissions: To declare the major, students must have completed the following requirements:

- Completed at least 75 credits
- Successfully completed or be currently enrolled in CSD 251
- Achieved a Western GPA (based on at least 12 credits) of 2.7 or higher (A grade of at least B- (2.7) in each of the core courses (CSD 251, 352, 354, and 356) may substitute for the overall 2.7 GPA)

Application deadlines: Students must begin the lock-step major in the fall quarter (usually the junior year) in order to complete the series of required courses within two years.

Advising Tips: Enroll in CSD 251 to learn more about this major. Students must complete at least one course in Biological Sciences, Social/Behavioral Sciences, Physical Sciences, and Mathematics during undergraduate study to meet certification requirements. Contact a CSD undergraduate advisor with questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 251 - Introduction to Communication Disorders
- CSD 352 - Anatomy and Physiology of Speech Mechanisms
- CSD 353 - Speech Science
- CSD 354 - Speech and Language Development in Children
- CSD 356 - Phonetics
- CSD 361 - Language Disorders, Birth to Five
- CSD 371 - Hearing Science
- CSD 372 - Hearing Disorders
- CSD 373 - Introduction to Phonology
- CSD 450 - Neuroanatomy for Speech Pathology and Audiology
- CSD 451 - Language Disorders II
- CSD 457 - Clinical Processes
- CSD 458 - Application of Clinical Processes to CSD
- CSD 459 - Lab: Beginning Clinical Practice in Speech-Language Therapy
- CSD 462 - Audiometric Testing
- CSD 463 - Aural Rehabilitation
- CSD 486 - Infants and Children With Hearing Loss
- CSD 488 - Hearing Loss in Adulthood

COMMUNICATION SCIENCES AND DISORDERS

- LIBR 403 - Research Tutorial
- Total of 2 credits of either:
 - CSD 301 - Writing Lab
 - CSD 401 - Writing Lab
- Electives under departmental advisement
- Required minor of 24 credit or more.

Master of Arts

Audiology-Aural Rehabilitation, Non-Thesis, MA (In Moratorium)

College of Humanities and Social Sciences

Notice: The Department of Communication Sciences and Disorders at Western Washington University admitted its last audiology master's degree students in fall 2004. The department placed a moratorium on admission until further notice. Please contact the department for more information.

This program is not currently accepting new students. For further information contact the Graduate School, Western Washington University, 516 High St., Bellingham, WA 98225-9037, 360-650-3170, gradschool@wwu.edu.

Audiology-Aural Rehabilitation, Thesis, MA (In Moratorium)

College of Humanities and Social Sciences

Notice: The Department of Communication Sciences and Disorders at Western Washington University admitted its last audiology master's degree students in fall 2004. The department placed a moratorium on admission until further notice. Please contact the department for more information.

This program is not currently accepting new students. For further information contact the Graduate School, Western Washington University, 516 High St., Bellingham, WA 98225-9037, 360-650-3170, gradschool@wwu.edu.

Speech-Language Pathology, Non-Thesis, MA

College of Humanities and Social Sciences

Graduate Faculty

Baharav, Eva, PhD, speech-language pathology, child and adolescent language, autism, typical and disordered language across the life span, school age learning disorders, telepractice.

Darling, Rieko M., PhD, audiology, amplification, geriatrics, central auditory processing disorders, aural rehabilitation.

Fraas, Michael R., PhD, speech-language pathology, adult neurogenic disorders, cognitive disorders, dysphagia

Peters, Kimberly A., PhD, audiology, pediatric audiology, auditory physiology, aural (re)habilitation, cochlear implants.

Graduate Program Coordinator: Karen-Margrethe Bruun, AI 380, 360-650-3197

Goals

The objectives of the program in Speech-Language Pathology are to prepare competent entry-level professionals in speech-language pathology and to prepare students for advanced study at the PhD level. The program includes an internship taken after other academic and clinical requirements have been completed.

Speech-language pathology is a discipline which has developed out of a concern for people with communication disorders. Preparation leading to a degree in communication sciences and disorders includes a wide range of course work and a variety of clinical practicum opportunities working with the infant through geriatric populations.

Students who intend to seek employment in this profession, whether in a public school, clinic, rehabilitation center or hospital setting, are advised that certification/licensure at the state and/or national levels is required. Out-of-state students should recognize that other requirements may exist for employment in different geographic locations.

Prerequisites

Students must have completed an undergraduate major in Communication Sciences and Disorders (CSD) or an equivalent professional core curriculum. The BA or BS in Communication Sciences and Disorders (Speech Pathology and Audiology) must have been completed within the past five years in order to be considered as an applicant for the graduate program in CSD. Grade point average requirements are consistent with those of the Graduate School. Students must have completed the Graduate Record Exam, General Test or REVISED General Test beginning August 2011.

Students who are not native speakers of English must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL, taken within one year of the date of application. A minimum composite score of 600 is required for the paper-based test; the scaled score for the computer-based test is 250; the Internet-based minimum score is 100. The TOEFL scores must be on file in the Graduate School prior to receipt of the application for graduate study.

ASHA Standards

IV-A: The applicant must demonstrate knowledge of the principles of biological sciences, physical sciences, statistics, and the social/behavioral sciences.

Implementation: The applicant must have transcript credit (which could include course work, advanced placement, CLEP, or examination of equivalency) for each of the following areas: biological sciences, physical sciences, social/behavioral sciences, and statistics. Appropriate course work may include human anatomy and physiology, neuroanatomy and neurophysiology, genetics, physics, inorganic and organic chemistry, psychology, sociology, and anthropology. The intent of this standard is to require students to have a broad liberal arts and science background. Courses in biological and physical sciences specifically related to communication sciences and disorders may not be applied for certification purposes in this category. In addition to transcript credit, applicants may be required by their graduate program to provide further evidence of meeting this requirement.

The graduate coordinator will review the student's transcript during the first quarter of graduate work and if any of the above course work needs to be completed, the student will be advised to do so, as an overload, before graduation.

Application Information

Notice: The Department of Communication Sciences and Disorders at Western Washington University admitted its last audiology master's degree students in fall 2004. The department placed a moratorium on admission until further notice. Please contact the department for more information.

COMMUNICATION SCIENCES AND DISORDERS

The above does not affect the speech-language pathology graduate program. The department will continue to offer the ASHA-accredited master's degree program in speech-language pathology.

Enrollment is limited to 20 new graduate students per year.

Admit Quarter: Fall quarter only. The communication sciences and disorders program is a lock-step program which offers courses in sequence once a year beginning in the fall.

Deadline: Application deadline is February 1.

TA Deadline: Application deadline is February 1.

Specific Test Requirements: Graduate Record Exam, General Test or REVISED General Test beginning August 2011. (No test scores are required if an applicant holds an advanced degree — MA, MS, PhD.)

Supporting Materials:

- Application with \$100 fee (subject to change)
- Three recent letters of reference
- One official transcript from every school attended (no more than two years old)
- One-page statement of purpose
- One-page résumé

Program Requirements (81 credits)

- CSD 502 - Research Methods in Communication Sciences and Disorders
- CSD 510 - Organic Disorders
- CSD 515 - Seminar: Phonology
- CSD 540 - Essential Audiology for Speech Language Pathologists
- CSD 541 - Professional Issues in Speech-Language Pathology
- CSD 542 - Adult and Pediatric Dysphagia
- CSD 546 - Strategies for Assessment in CSD
- CSD 549 - Clinical Practicum
- CSD 550 - Voice Disorders and Therapy
- CSD 552 - Assessment Practicum in Speech-Language Pathology
- CSD 553 - Seminar: Preschool Language Development and Disorders
- CSD 554 - Stuttering
- CSD 555 - Seminar: Language Disorders in the School Age Child
- CSD 556 - Aphasia
- CSD 558 - Graduate Clinical Practice in Speech-Language Pathology (students must take for a total of 6 credits)
- CSD 560 - Speech-Language Pathology Practicum
- CSD 564 - Advanced Clinical Practice in Aural Rehabilitation
- CSD 575 - Counseling in Communication Disorders
- CSD 576 - Cognitive Communication Disorders
- CSD 585 - Neuromotor Speech Disorders
- CSD 586 - Diagnosis and Treatment of Adult Language Neurogenic Disorders
- CSD 588 - Seminar in Augmentative and Alternative Communication
- CSD 589 - Library Research for CSD
- CSD 597D - Alaryngeal Speech
- CSD 599 - Intern Speech/Lang Path/Aud **
- Select one of the following courses:
 - CSD 580 - Communication Disorders in the Public Schools #
 - CSD 582 - Medical Speech Pathology

- Non-Thesis:
 - CSD 691 - Non-Thesis Option (3 credits) or Comprehensive exam
- Electives:
 - CSD 559 - Speech-Language Pathology Practicum
 - CSD 592 - Seminar in Autism
 - CSD 598 - Internship in Speech-Language Pathology or Audiology **

#Required for students intending to apply for Washington state CSD certificate.

**Although the internship courses (598; 599) are 1-4 and 8 credits each, respectively, only a total of 6 credits can apply toward the MA degree.

Additional Information

Clinical Competence

In addition to meeting academic requirements, students specializing in speech-language pathology must demonstrate satisfactory competence in diagnostic and clinical practica. Refer to course description for additional information. No student in CSD may participate as a primary clinician in the clinic or an internship until cleared by the Washington State Office of Superintendent of Public Instruction and the Federal Bureau of Investigation background check. Clearance is valid for specified time frames. Procedure and fee information are provided to students upon acceptance into the graduate program. At times, the requirements for the completion of clinical practicum courses may fall outside the regular University calendar. Contact the department for further details.

Students are permitted to retake a clinical practicum only once. If a satisfactory grade is not achieved in the retake, students will not be permitted to continue in the practicum courses.

Not everyone is suited to work with clients in the clinical fields of speech-language pathology and audiology even though the student may maintain a satisfactory academic record. The faculty and staff of the Department of Communication Sciences and Disorders thus reserve the right to counsel students with this in mind, and to recommend a change of academic focus for the student who appears to have personality traits that would prevent the student from being successful in the discipline.

Internship

An internship is required for all CSD students. This experience provides an opportunity for each student to refine and expand basic clinical skills by participating in a supervised, full-time work experience in a professional setting. The terminal objective of this training phase is to facilitate each clinician's transition from student in training to competent entry-level professional. As such, the internship is taken after other academic and clinical requirements have been completed with the exception of the research project. In addition to the required full-time internship (CSD 599), students also may choose to complete one or more part-time internships (CSD 598). Both the full-time and part-time placements require assignment to clinical settings off campus (e.g., schools, hospitals, private clinics, et cetera).

Due to the limited number of clinical credits that may be applied toward the graduate degree, students may use only 3 of the 8 CSD 599 credits toward the MA. An additional 3 credits of CSD 598 also may be applied toward the MA. Please see the graduate advisor or internship coordinator for further information.

Comprehensive Examination and Thesis/Non-Thesis Oral Defense

The student will have a choice of writing a comprehensive exam or completing either a thesis or non-thesis research project and paper. The five-hour written comprehensive exam covers the student's area(s) of specialization and graduate program up to the time of the exam. A minimum of 50 graduate credits must be completed before the comprehensive exams can be taken.

COMMUNICATION SCIENCES AND DISORDERS

Should the student choose to complete a thesis or a non-thesis research project and paper, this will be followed by an oral exam based on the student's topic. For details regarding the comprehensive exam and oral defense, the student should consult the graduate coordinator. Any recent policy/procedure changes or exceptions will be listed in the current CSD Graduate Guide.

Accreditation

The graduate programs in speech-language pathology and audiology at Western Washington University are accredited by the Council of Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language Hearing Association and by the National Council for the Accreditation of Teacher Education.

Professional Certification Requirements

The American Speech-Language-Hearing Association (ASHA) 2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology stipulate the completion of 400 clock hours of practicum. Of these hours, at least 375 must be direct patient contact, at least 325 of which must be obtained at the graduate level. The requirement is met by taking an appropriate number of practicum credits (see application information above). Consult the department about specific requirements regarding clinical experience in the area in which the certificate is sought. Consult the ASHA Membership and Certification Handbook for details.

Declaration of Major

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 381 - Physiological and Psychological Bases of Hearing
- CSD 464 - Clinical Practice in Aural Rehabilitation
- CSD 468 - Clinical Practicum in Audiology
- CSD 482 - Clinical Hearing Technology
- CSD 483 - Amplification and Sensory Systems
- CSD 485 - Children With Hearing Loss in School
- CSD 487 - Fundamentals of Hearing Conservation
- Electives from:
 - CSD 400 - Independent Study
 - CSD 491 - Senior Research Project
 - CSD 499 - Field Placement/Observation in Speech-Language Pathology or Audiology

Meeting with CSD advisor required before registering for audiology minor.

Communication Sciences and Disorders Minor

Department of Communication Sciences and Disorders, College of Humanities and Social Sciences

25 credits minimum

Introduction

Why Consider a Communication Sciences and Disorders Minor?

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 251 - Introduction to Communication Disorders
- CSD 352 - Anatomy and Physiology of Speech Mechanisms
- CSD 354 - Speech and Language Development in Children
- CSD 356 - Phonetics
- CSD 371 - Hearing Science
- Electives from:
 - CSD 253 - Speech and Hearing Sciences for the Liberal Arts
 - CSD 353 - Speech Science
 - CSD 361 - Language Disorders, Birth to Five
 - CSD 372 - Hearing Disorders
 - CSD 373 - Introduction to Phonology
 - CSD 451 - Language Disorders II
 - CSD 463 - Aural Rehabilitation

WWU (Non-Degree)

Communication Sciences and Disorders Post-Baccalaureate Preparation Program

Communication Sciences and Disorders, College of Humanities and Social Sciences

COMMUNICATION SCIENCES AND DISORDERS

52 - 55 Credits

Introduction

The Department of Communication Sciences and Disorders offers a post-baccalaureate program for students interested in pursuing a graduate degree in Speech-Language Pathology or Audiology. Such students currently hold a degree outside the discipline of speech, language, and hearing science. The program is a 4-quarter lockstep program beginning fall quarter. Courses are taken sequentially through the year, including summer quarter.

The program is administered by the Extended Education division of Western Washington University. It is important to note that acceptance into this post-baccalaureate program does not guarantee admission to the graduate program. Completion of the Western Washington University post-baccalaureate program qualifies students for consideration for admission to our master's program in Speech-Language Pathology or similar graduate programs in other universities.

Why Consider a Post-Baccalaureate in Communication Sciences and Disorders?

How to Declare (Admission and Declaration Process):

If you are interested in applying to the post-baccalaureate program, please contact Jenny Hebert, 360-650-7780, for an application packet.

Admissions and Application Requirements:

- An undergraduate degree in a major other than speech pathology/audiology
- A completed application form
[Click here for Post-Baccalaureate application requirements \(pdf\)](#)
- Resume
[Click here for résumé guidelines \(pdf\)](#)
- A copy of a sealed official transcript from each college or university attended
- Three letters of recommendation
- A one-page statement of purpose
- A non-refundable \$55 application fee made out to WWU
- Review and recommendation by the CSD faculty

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 251 - Introduction to Communication Disorders

- CSD 352 - Anatomy and Physiology of Speech Mechanisms
- CSD 353 - Speech Science
- CSD 354 - Speech and Language Development in Children
- CSD 356 - Phonetics
- CSD 361 - Language Disorders, Birth to Five
- CSD 371 - Hearing Science
- CSD 372 - Hearing Disorders
- CSD 373 - Introduction to Phonology
- CSD 450 - Neuroanatomy for Speech Pathology and Audiology
- CSD 451 - Language Disorders II
- CSD 460 - Assess & Intervention in CSD
- CSD 462 - Audiometric Testing
- CSD 463 - Aural Rehabilitation
- CSD 486 - Infants and Children With Hearing Loss
- LIBR 403 - Research Tutorial

Communication Sciences & Disorders Courses

CSD 210 - Communication and the Mind

This course provides a basic overview of our knowledge of language and what it can tell us about the nature of the mind, and vice versa. It explores theories of cognitive and language development and traces development from infancy to adolescence. It covers the structure of sentences (syntax), words (morphology), and sound shape (phonetics, phonology), and how these are typically acquired, mentally represented, and processed by humans. In addition, students learn about the relationships between social cognition (theory of mind), language, and social competence, discuss communication disorders and differences, and the social cognitive affects of communication disorders on children and adults.

Credits: 3
Grade Mode: Letter
GUR Attributes: SSC

CSD 251 - Introduction to Communication Disorders

An introduction to the disciplines of speech-language pathology and audiology; survey of speech, language and hearing processes and disorders.

Credits: 3
Grade Mode: Letter

CSD 253 - Speech and Hearing Sciences for the Liberal Arts

Basic concepts of speech production, speech acoustics, hearing and speech perception. Includes lab.

Credits: 4
Grade Mode: Letter
GUR Attributes: LSCI

CSD 301 - Writing Lab

Instruction and practice in writing; includes opportunities for multi-drafting, revision, and reflection. Repeatable up to 2 credits.

Prerequisites & Notes: ENG 101.

Credits: 1
Grade Mode: Letter

CSD 352 - Anatomy and Physiology of Speech Mechanisms

Structure and function of organs concerned with audition, respiration, phonation, resonance, articulation.

Prerequisites & Notes:

Junior or senior status, or permission of instructor.
Credits: 5
Grade Mode: Letter

CSD 353 - Speech Science

Acoustic and articulatory characteristics of the speech signal and their relation to speech production and perception. Lab required.

Prerequisites & Notes: junior standing, CSD 352, CSD 356, CSD 371

Credits: 5
Grade Mode: Letter

CSD 354 - Speech and Language Development in Children

Typical speech and language acquisition; its impact on the developing child; origins and growth of symbolic processes, developmental norms; factors influencing learning of language and speech.

COMMUNICATION SCIENCES AND DISORDERS

Prerequisites & Notes: Junior or senior status, or permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 356 - Phonetics

Training in recognition and production of sounds of spoken English through use of the International Phonetic Alphabet. Lab required.

Prerequisites & Notes: Junior or senior status, or permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 361 - Language Disorders, Birth to Five

Etiologies of language learning disabilities in children from birth to five years; diagnosis and treatment procedures.

Prerequisites & Notes: CSD 354
Credits: 4
Grade Mode: Letter

CSD 371 - Hearing Science

Introduction to the nature of sound and its measurement. The structure and function of the auditory mechanism.

Prerequisites & Notes: CSD 352
Credits: 3
Grade Mode: Letter

CSD 372 - Hearing Disorders

The nature, cause and treatment of hearing impairment.

Prerequisites & Notes: CSD 352
Credits: 3
Grade Mode: Letter

CSD 373 - Introduction to Phonology

Phonological development, symptomatology, etiology and therapy for articulation disorders.

Prerequisites & Notes: CSD 251, CSD 352, CSD 356
Credits: 3
Grade Mode: Letter

CSD 381 - Physiological and Psychological Bases of Hearing

The study of the structure and function of the auditory system. Analysis of significant theories in speech acoustics and speech perception. Examination of the effects of hearing impairment on speech perception.

Prerequisites & Notes: CSD 353, CSD 371 or

instructor permission.
Credits: 3
Grade Mode: Letter

CSD 401 - Writing Lab

Instruction and practice in writing; includes opportunities for multi-drafting, revision, and reflection. Repeatable up to 2 credits.

Prerequisites & Notes: ENG 101.
Credits: 1
Grade Mode: Letter

CSD 450 - Neuroanatomy for Speech Pathology and Audiology

Normal and abnormal structures of the human nervous system as they pertain to speech, language and hearing. Particular emphasis on sensory and motor pathways, localization and lateralization.

Prerequisites & Notes: CSD 352 or equivalent; senior/graduate standing.
Credits: 4
Grade Mode: Letter

CSD 451 - Language Disorders II

Diagnosis and treatment procedures for school-age children with language-learning impairments.

Prerequisites & Notes: CSD 354, CSD 361
Credits: 3
Grade Mode: Letter

CSD 457 - Clinical Processes

Current principles, methods and materials used in the assessment and treatment of a variety of communication disorders. Directed observation. Writing proficiency course.

Prerequisites & Notes: CSD 354, CSD 361, CSD 373, CSD 451
Credits: 5
Grade Mode: Letter

CSD 458 - Application of Clinical Processes to CSD

Application of the clinical processes to service delivery, documentation, administrative procedures, and professional writing.

Prerequisites & Notes: CSD 457, permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 459 - Lab: Beginning Clinical Practice in Speech-Language Therapy

Assistant clinician experience. Lab required. S/U grading.

Prerequisites & Notes: CSD 458; minimum 25 hours documented speech-language pathology, audiology and/or aural rehabilitation observation; CSD 458, CSD 459 concurrent with instructor permission.

Credits: 1
Grade Mode: S/U

CSD 460 - Assess & Intervention in CSD

Current principles, methods, and application of research-based theories to a dynamic clinical process which includes identification, prevention, assessment, and intervention for communication disorders. Lab required.

Prerequisites & Notes: CSD 354, CSD 361, CSD 373, CSD 451

Credits: 4
Grade Mode: Letter

CSD 462 - Audiometric Testing

Introduction to the theory and application of pure tone, immittance and speech audiometry to the assessment of hearing function; implications for rehabilitation.

Prerequisites & Notes: CSD 371

Credits: 4
Grade Mode: Letter

CSD 463 - Aural Rehabilitation

Listening training, speech reading, orientation to amplification devices, and coping skills for the aurally handicapped.

Prerequisites & Notes: CSD 371

Credits: 4
Grade Mode: Letter

CSD 464 - Clinical Practice in Aural Rehabilitation

Supervised clinical practice in the (re)habilitation of the deaf and hard of hearing. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: CSD major with minor in audiology or instructor permission; CSD 458, CSD 459, CSD 463; minimum 25 hours of speech-language pathology/audiology/aural rehabilitation observation required.

Credits: 2
Grade Mode: S/U

CSD 466 - Medical Audiology

Pathologies of the hearing mechanism and their auditory manifestations. Discussion with physicians regarding diagnosis, referrals and report writing.

Prerequisites & Notes: CSD 371, CSD 462

Credits: 3
Grade Mode: Letter

CSD 468 - Clinical Practicum in Audiology

Supervised clinical practice in audiological evaluation. Repeatable to a maximum of 6 cr. S/U grading.

Prerequisites & Notes: CSD major with a minor in audiology or instructor permission; CSD 371, CSD 462; 25 hours of documented speech-language pathology/audiology/aural rehabilitation observations.

Credits: 2
Grade Mode: S/U

CSD 482 - Clinical Hearing Technology

Study of history, development, and use of emerging technologies and special clinical instrumentation for the evaluation of hearing, auditory function, and balance.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission

Credits: 3
Grade Mode: Letter

CSD 483 - Amplification and Sensory Systems

Study of history, development, and use of amplification and other sensory devices for treatment of hearing loss and auditory processing deficits.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission

Credits: 3
Grade Mode: Letter

CSD 485 - Children With Hearing Loss in School

This course will introduce the student to the needs of the hearing impaired child in the public school environment, the public school laws affecting the placement of such children, and the types of remediation that occur in this setting.

Prerequisites & Notes: CSD 352

Credits: 3
Grade Mode: Letter

CSD 486 - Infants and Children With Hearing Loss

Developmental milestones of auditory functions, implications of childhood hearing loss, and observation of pediatric assessment utilizing current evaluation techniques.

Prerequisites & Notes: CSD 371, CSD 462, or CSD 371 and permission of the instructor.

COMMUNICATION SCIENCES AND DISORDERS

Credits: 3
Grade Mode: Letter

CSD 487 - Fundamentals of Hearing Conservation

Noise as a public health hazard. The effect of noise on hearing. Noise abatement, control and protection. Federal and state noise regulations and compensation for noise induced hearing loss (NIHL).

Prerequisites & Notes: CSD 371, CSD 462.
Credits: 3
Grade Mode: Letter

CSD 488 - Hearing Loss in Adulthood

Study of the nature and implications of hearing loss across the adult age spectrum. Anatomic and physiologic influences of aging on the auditory system and how these changes influence auditory function and communication will be highlighted.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 490 - Social, Political, Cultural Aspects of Communication Disorders

Introduction to social, political, and cultural forces impacting communication and communication disorders. Overview of theories and research tools that guide our observations of these forces. Emphasis on becoming culturally competent in providing educational and health care services to diverse client population.

Prerequisites & Notes: CSD 251, CSD 353, CSD 354, CSD 361, CSD 373, and CSD 451
Credits: 3
Grade Mode: Letter

CSD 491 - Senior Research Project

Research-based writing or field project under direction of faculty advisor. Must be taken Fall, Winter and Spring quarters of senior year for 2 credits each quarter. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: satisfactory completion of CSD major courses or advisor permission
Credits: 2
Grade Mode: Letter

CSD 499 - Field Placement/Observation in Speech-Language Pathology or Audiology

Off-campus field experience in an approved setting designed to introduce students to management of communication disorders. Subject to availability of

suitable site. Repeatable up to 6 credits. S/U grading.

Prerequisites & Notes: Completion of undergraduate major requirements and instructor permission.

Credits: 1-6
Grade Mode: S/U

CSD 502 - Research Methods in Communication Sciences and Disorders

Topics include research strategies and designs, measurement issues, evaluation criteria, treatment efficacy, and organization and analysis of data. Introduces students to group and single-subject research designs and qualitative research. Engages students in completing a research project.

Credits: 4
Grade Mode: Letter

CSD 503 - Professional Development in CSD

This course provides conference-based opportunities for practicing professionals to engage in learning about current research and treatment strategies on a variety of special education issues, including communication disorders. The courses are intended for the professional development of the conference attendee. The WWU credits may not be used as elective credits in a graduate degree program.

Prerequisites & Notes: Entry level degree in professional area of specialization.
Credits: 2
Grade Mode: S/U

CSD 510 - Organic Disorders

A review of the etiologies and nature of cleft palate and cerebral palsy; related communication disorders; diagnostic and intervention approaches.

Prerequisites & Notes: CSD 352, CSD 450, CSD 459 or equivalent, or instructor permission.
Credits: 3
Grade Mode: Letter

CSD 515 - Seminar: Phonology

Current topics and issues on typical and disordered phonology, and the phonological basis of reading and writing, with a special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 373 and graduate status.
Credits: 4
Grade Mode: Letter

CSD 540 - Essential Audiology for Speech Language Pathologists

Essential knowledge and skills required of speech-language pathologists in providing optimal clinical services to clients with hearing loss and auditory processing issues.

Prerequisites & Notes: CSD 462 and CSD 463, or permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 541 - Professional Issues in Speech-Language Pathology

Current information regarding ethical and professional issues essential for Speech-Language Pathologist (SLP) practice in today's diverse and demanding work settings.

Prerequisites & Notes: Graduate status in CSD.
Credits: 3
Grade Mode: Letter

CSD 542 - Adult and Pediatric Dysphagia

Pathophysiology and evaluation of swallowing disorders; diagnostic evaluation and management/rehabilitation in adults, infants, and children.

Prerequisites & Notes: CSD 352; CSD 450; CSD 546; CSD 585; or instructor permission
Credits: 4
Grade Mode: Letter

CSD 546 - Strategies for Assessment in CSD

Discussion of the diagnostic processes including formal and informal assessment, report writing, and strategies for optimal assessment practices. S/U grading.

Prerequisites & Notes: Graduate status. CSD 549 or concurrent.
Credits: 1
Grade Mode: S/U

CSD 549 - Clinical Practicum

Initial graduate experience in supervised clinical practicum.

Prerequisites & Notes: CSD Graduate status
Credits: 2
Grade Mode: S/U

CSD 550 - Voice Disorders and Therapy

Pathological and psychological states affecting voice production. Functional psychogenic and organic problems of pitch, quality and loudness. Experience in diagnosis and evaluation of voice disorders. Developing techniques and learning

methods for treatment and therapy. Lab required.

Prerequisites & Notes: CSD 351, CSD 352, CSD 450 or equivalent
Credits: 4
Grade Mode: Letter

CSD 552 - Assessment Practicum in Speech-Language Pathology

This class is an on-campus practicum using specialized methods, tests and instruments used in the assessment and evaluation of a variety of communication disorders.

Prerequisites & Notes: CSD 558; and instructor permission.
Credits: 2
Grade Mode: Letter

CSD 553 - Seminar: Preschool Language Development and Disorders

Current topics and issues on typical and disordered language in preschool children, as well as factors related to language development. Special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 354, CSD 361, CSD 515
Credits: 4
Grade Mode: Letter

CSD 554 - Stuttering

Analysis of current models and recent research on stuttering and cluttering disorders; chief rationale for therapy and evaluation of therapy procedures and results. Review and practice of clinical assessment and intervention.

Credits: 4
Grade Mode: Letter

CSD 555 - Seminar: Language Disorders in the School Age Child

Current topics and issues on typical and disordered language in school-age children, as well as alternate treatment approaches for older children. Special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 451, CSD 553
Credits: 4
Grade Mode: Letter

CSD 556 - Aphasia

Descriptions, classifications and theoretical issues related to multimodality language-impaired adults following neurogenic brain dysfunction. Some discussion of diagnostic methods.

COMMUNICATION SCIENCES AND DISORDERS

Prerequisites & Notes: CSD 450 or equivalent
Credits: 3
Grade Mode: Letter

CSD 558 - Graduate Clinical Practice in Speech-Language Pathology
Supervised clinical practicum. Must be completed with a grade of B- or better. Repeatable to a maximum of 9 cr.

Prerequisites & Notes: Satisfactory completion of CSD 549 and permission of instructor.
Credits: 1-3
Grade Mode: Letter

CSD 559 - Speech-Language Pathology Practicum
Must be completed with a grade of B- or better.

Prerequisites & Notes: Permission of instructor.
Credits: 2
Grade Mode: Letter

CSD 560 - Speech-Language Pathology Practicum
Supervised clinical practicum. S/U grading. Offered summer only.

Prerequisites & Notes: CSD 549, CSD 558
Credits: 2
Grade Mode: S/U

CSD 561 - Advanced Audiology I
Study of basic auditory correlates and advanced diagnostic audiometric procedures.

Prerequisites & Notes: CSD 371, CSD 462; instructor permission
Credits: 3
Grade Mode: Letter

CSD 562 - Advanced Audiology II
Theory and application of advanced diagnostic audiometric procedures.

Prerequisites & Notes: CSD 561
Credits: 3
Grade Mode: Letter

CSD 563 - Seminar: Aural Rehabilitation
Issues related to the hearing-impaired population.

Prerequisites & Notes: CSD 463 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 564 - Advanced Clinical Practice in Aural Rehabilitation

Supervised practice in rehabilitation of the hard of hearing. Must be completed with a grade of B or better. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: CSD 458; CSD 459; CSD 463; permission of instructor, and a minimum of 25 hours of documented speech-language pathology/ audiology and rehabilitation observation.

Credits: 2
Grade Mode: Letter

CSD 565 - Psychoacoustics
Application of standard psychophysical techniques and theory of signal detection to audiologic research.

Prerequisites & Notes: CSD 561 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 566 - Auditory Neurophysiology
The ear as a transducer and analyzer; electrophysiological and mechanical properties of the ear.

Prerequisites & Notes: CSD 561; instructor permission
Credits: 3
Grade Mode: Letter

CSD 567 - Seminar: Hearing Conservation
Noise as a public health hazard; the effects of noise on hearing; noise abatement, control and protection; federal and state noise regulations and compensation.

Prerequisites & Notes: CSD 562
Credits: 3
Grade Mode: Letter

CSD 568 - Advanced Clinical Practicum in Audiology
To be taken in sequence; and a minimum of 25 hours of documented speech-language pathology/audiology and rehabilitation observations. Clinical practicum designed to advance skills in audiology. Must be completed with a grade of B or better. Repeatable to a maximum of 14 cr.

Prerequisites & Notes: CSD 371, CSD 462 or permission of instructor; to be taken in sequence; and a minimum of 25 hours of documented speech-language pathology/audiology and rehabilitation observations.

Credits: 2
Grade Mode: Letter

CSD 569 - Advanced Clinical Practice in Aural Rehabilitation

Supervised clinical practicum. S/U grading. Offered summer only. Repeatable to 4 credits.

Prerequisites & Notes: Satisfactory completion of CSD 458, CSD 459, CSD 463, and permission of instructor.
Credits: 2
Grade Mode: S/U

CSD 570 - Medical Audiology

Pathologies of the hearing mechanism and their auditory manifestations. Discussion with physicians regarding diagnosis, referrals and report writing.

Prerequisites & Notes: CSD 371, CSD 462, CSD 561
Credits: 3
Grade Mode: Letter

CSD 571 - Hearing Aids I

History, development and description of hearing aids and other amplification devices. Research into the electro-acoustic characteristics of hearing aids.

Prerequisites & Notes: CSD 462 or permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 572 - Hearing Aids II

Evaluation procedures and fitting techniques for dispensing hearing aids and other amplification devices. Auditory training and counseling techniques covered as well as special instrumentation.

Prerequisites & Notes: CSD 571
Credits: 3
Grade Mode: Letter

CSD 573 - Seminar: Speech Acoustics

In-depth study of the acoustic speech signal. Analysis of significant theories in speech production/acoustics. Application of relevant acoustic principles in the evaluation and remediation of communicative disabilities.

Prerequisites & Notes: CSD 353 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 574 - Seminar: Speech Perception

Critical analysis of current issues in speech perception. Examination of the effects of communication disabilities on speech perception.

Prerequisites & Notes: CSD 353, CSD 573 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 575 - Counseling in Communication Disorders

Contemporary theories and techniques of counseling individuals with communication disorders and their families.

Prerequisites & Notes: Graduate status
Credits: 3
Grade Mode: Letter

CSD 576 - Cognitive Communication Disorders

Processes and theories of cognitive functions; assessment and management of cognitive disorders associated with acquired brain injury.

Prerequisites & Notes: CSD 450 and CSD 556; or instructor permission.
Credits: 4
Grade Mode: Letter

CSD 577 - Pediatric Audiology

Developmental milestones of auditory function, implications of childhood hearing loss and supervised testing of pediatric patients utilizing basic and advanced testing techniques.

Prerequisites & Notes: CSD 371, CSD 462, CSD 568; instructor permission
Credits: 3
Grade Mode: Letter

CSD 578 - Seminar: Electrophysiological Testing

Current topics and issues in specialized areas of averaged electro-encephalic audiometry and otoacoustic emissions; research trends and problems. Lab required.

Prerequisites & Notes: CSD 561, CSD 568 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 579 - Aging and the Ear

Anatomical and physiological influences of aging on the auditory mechanism and how these changes influence overall auditory function and communication.

Prerequisites & Notes: CSD 561, CSD 562

COMMUNICATION SCIENCES AND DISORDERS

Credits: 3
Grade Mode: Letter

CSD 580 - Communication Disorders in the Public Schools

Role of the professional in organizing and directing a speech-language therapy or audiology program in the public school setting. Required for public school certification.

Prerequisites & Notes: Second year graduate standing or instructor permission
Credits: 3
Grade Mode: Letter

CSD 582 - Medical Speech Pathology

Current topics and issues related to the practice of speech pathology in a medical/clinical setting.

Prerequisites & Notes: Second year graduate standing or instructor permission
Credits: 2
Grade Mode: Letter

CSD 585 - Neuromotor Speech Disorders

Current literature review and discussion of the nature of neurologically based speech disorders (dysarthrias and apraxia). Examination and practice of clinical intervention methods.

Prerequisites & Notes: CSD 450, CSD 556 or equivalent
Credits: 4
Grade Mode: Letter

CSD 586 - Diagnosis and Treatment of Adult Language Neurogenic Disorders

Differential diagnosis assessment tools and theories of diagnostic methods. Treatment approaches for adult neurogenic disorders.

Prerequisites & Notes: CSD 450, CSD 556 or equivalent
Credits: 3
Grade Mode: Letter

CSD 588 - Seminar in Augmentative and Alternative Communication

Focus on evaluation and intervention for children, adolescence and adults with moderate to severe congenital or acquired disorders in speech and language who require augmentative and alternative models for oral or written communication.

Prerequisites & Notes: CSD 552, CSD 553, CSD 555, CSD 558 or instructor permission
Credits: 2
Grade Mode: Letter

CSD 589 - Library Research for CSD

Instruction in finding, examining and evaluating scholarly database information. Ethical, social aspects of information, organization and techniques of research process. Use of the internet sources in obtaining and evaluating medical information. S/U grading.

Credits: 1
Grade Mode: S/U

CSD 592 - Seminar in Autism

Readings and discussion of theoretical and applied issues relating to the identification, diagnosis and treatment of Autism Spectrum Disorders. Case studies are developed and presented using a variety of clinical forums.

Prerequisites & Notes: Graduate status or instructor approval.
Credits: 3
Grade Mode: Letter

CSD 598 - Internship in Speech-Language Pathology or Audiology

Supervised, part-time experience providing opportunities to develop and demonstrate clinical competence in an approved setting. Placement is dependent on a suitable site. S/U grading. Repeatable up to 8 credits.

Prerequisites & Notes: Second-year graduate status; completion of plan of study; instructor permission; B in last clinic and a minimum of 200 clinic hours; enroll in clinic the quarter prior to internship and have all administrative and clinical records current.
Credits: 1-4
Grade Mode: S/U

CSD 599 - Intern Speech/Lang Path/Aud

Supervised, full-time, off-campus experience providing opportunities to develop and demonstrate clinical competence in an approved setting. Placement is dependent on a suitable site. S/U grading. Repeatable up to 16 credits.

Prerequisites & Notes: Second-year graduate status; completion of plan of study; instructor permission; B in last clinic and minimum of 225 clinic hours, 25 observation enroll in clinic the quarter prior to internship and have all administrative/clinical records current.
Credits: 8
Grade Mode: S/U

CSD 690 - Thesis

Credits: 1-9
Grade Mode: Letter

CSD 691 - Non-Thesis Option

Writing based on research or clinical projects. This report to be used to help satisfy the non-thesis requirement.

Credits: 3
Grade Mode: Letter

Communication Studies

Introduction

We teach communication studies that nurture inclusive civil discourse, critical thinking, and cooperative solutions in a diverse global community. We offer opportunities to develop strong communication skills within a challenging liberal arts program.

Our major program prepares students to speak and write proficiently, think critically, apply communication concepts competently, work cooperatively in small groups, and reflect on ethical dimensions of their actions. We focus on interactive learning in a high quality communication studies curriculum. We assist planning so that students effectively manage time to graduation. We emphasize carefully guided, performance-based learning characterized by a low student-to-faculty ratio in the classroom. And we offer the opportunity to participate in a nationally recognized forensics program. Faculty and staff encourage a sense of community. We engage with students to support their wellbeing and success. Through the talents, intellectual curiosity, and versatility of our diverse faculty we have established a strong intercultural and global orientation. We provide General Education Requirement courses that are crucial to the university's undergraduate communication education, and our communication theory and applications courses also instruct other majors. We are committed to community partnerships for strong service-learning and internships, and we serve the citizens of Washington in progressive communication instruction.

Communication Studies

The Department of Communication Studies offers a Bachelor of Arts in Communication Studies with courses in interpersonal and small group communication, organizational communication, mass communication, intercultural communication, communication technologies, research methods, ethics, rhetoric, persuasion, public speaking, and debate.

Communication Studies Education

Education students may choose a communication major designed for the elementary level.

Faculty

MICHAEL KARLBERG (1997) Chair and Professor. BA, University of California; MA, PhD, Simon Fraser University.

JAMES FORTNEY (2013) Assistant Professor. BA, Saint Louis University; MA, DePaul University; PhD, University of Colorado Boulder.

EE LIN LEE (2005) Associate Professor. BA, MA, Western Michigan University; PhD, University of New Mexico.

HELEN MORGAN PARMETT (2012) Assistant Professor. BA University of Vermont; MA, University of Pittsburgh; PhD, University of Minnesota.

TARA PERRY (2005) Associate Professor. BA, Western Washington University; MA, PhD, Washington State University.

KAREN ROHRBAUCK STOUT (2000) Professor. BA, University of Puget Sound; MA, University of Montana; PhD, University of Utah.

RAE LYNN SCHWARTZ-DUPRE (2006) Associate Professor. BA, University of Vermont; MA, Wake Forest University; PhD, University of Iowa.

JIANGLONG WANG (1989) Professor. BA, Fudan University; MA, PhD, Northwestern University.

STEVEN G. WOODS (2001) Associate Professor. BS, MA, Kansas State University; PhD, Florida State University.

Affiliated Faculty

CARMEN WERDER (1984). BA, MA English, Western Washington University; PhD, English, University of British Columbia.

Becoming a Communication Studies Major

Students wishing to declare a major in Communication Studies must complete the pre-requisites and then apply to become a major by submitting a portfolio to the department. Details regarding the pre-requisites and application process can be found on the Communication Studies, BA page.

Mid-Program Checkpoint

A student seeking to complete a BA degree with a Communication Studies major within a four-year time span should plan to complete the following courses by the start of his/her junior year:

- Either (a) COMM 101 and LIBR 201, or (b) COMM 235
- COMM 220
- Two or more 200 or 300-level communication courses that are open to all undergraduates: JOUR 190 (Intro to Mass Media) will also count toward a COMM major and can be taken at this stage.
- Substantial progress in General University Requirements (GURs), including courses with substantial writing components (Two collegiate writing samples are needed for the application portfolio, including at least one research paper).
- COMM 398 (Research Methods in Communication) should be taken by the student as soon as possible once the student is accepted into the department.

Bachelor of Arts

Communication Studies, BA

Department of Communication Studies, College of Humanities and Social Sciences

50 credits (plus minor)

Introduction

We teach communication studies that nurture inclusive civil discourse, critical thinking, and cooperative solutions in a diverse global community. We offer opportunities to develop strong communication skills within a challenging liberal arts program.

Why Consider a Communications Studies Major?

Communication Studies graduates qualify for a variety of careers. Strong attention to research and writing provides students with skills needed for entry-level positions in organizational training and development, public relations, marketing, electronic media and other information-oriented occupations. The entire Communication Studies field is growing rapidly with increased diversification of employment opportunities.

Most people are born with the ability to acquire communication skills, and we can help you realize your full potential. We believe the educational techniques of direct instruction, guided rehearsals and modeling provide tools for developing effective communication practices. In addition, you can learn more about developing stronger communities through ethical interaction, civil public discourse and cooperative decision-making.

Major/Career Resources

http://www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Students contemplating a major in Communication Studies are encouraged to register as pre-majors with the communication studies department in Communications Facility 203, in order to ensure that they receive appropriate advising and relevant communications from the department.

Students wishing to declare a major in Communication Studies must submit a portfolio to the department (see below) in order to be admitted through a competitive selection process.

Admission to the major will, in part, be determined by the number of applicants and their qualifications in any given quarter. Cumulative grade point average (GPA) will be one of the major criteria for admission. In most quarters, the average GPA of successful applications is above 3.0. Other factors considered by faculty when selecting communication studies majors are writing samples, work and service experiences with diverse populations, reference letters, and seniority at WWU.

Before applying to become a Communication Studies major, students must:

- Complete COMM 101 or COMM 235 with a B- or better.
- Complete COMM 220 , with a B- or better.
- Complete at least 60 credits of WWU credits or approved transfer credits with a GPA of 2.5 or above.

Once these requirements have been met, students can submit a portfolio of their work on or before Monday of the third week of fall, winter and spring quarters. The faculty will then review the portfolios and announce the names of successful applicants before the end of each quarter. Students are allowed to make a maximum of two application attempts.

The portfolio will include the following items:

- Transcripts of all college work completed to date
- A letter of intent to major in communication studies
- A résumé including course of study, work experience, recreational and a vocational activities, internships, awards and honors, and public service activities
- Two samples of the student's collegiate writing assignments including best research paper
- Three letters of recommendation from employers, teachers, or supervisors
- A proposed program of study form which includes a statement indicating a chosen minor or second major from another department. In lieu of an official minor, the department will accept a self-designed event-planning minor under faculty advisement if the appropriate paperwork is included in the portfolio. Students may also substitute a TESOL certification or Internet Studies certification for the minor.

Transfer students must include a Transcript Equivalency Report (TER) for any transfer credits that will be applied toward the major.

Once admitted, communication studies majors whose cumulative GPA falls below 2.5 risk losing their major status. They will be warned of the risk in their first quarter below 2.5 and may be dropped from the major if their cumulative GPA is not 2.5 or higher in the subsequent quarter.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- One of the following courses that emphasizes public speaking:
 - COMM 101 - Fundamentals of Speech
 - COMM 235 - Exposition and Argumentation *
- One of the following courses that emphasizes library research:
 - COMM 235 - Exposition and Argumentation *
 - LIBR 201 - Introduction to Research Strategies

*COMM 235 may be used to fulfill both the public speaking requirement and the library research requirement
- COMM 220 - Communication Theory
- COMM 398 - Research Methods in Communication
- COMM 498 - Communication Ethics
- Electives: Complete 27-31 additional credits from the categories below to reach 50 credits total for the major:
 - COMM 100-level courses
 - COMM 200-level courses
 - COMM 300-level courses
 - COMM 400-level courses
 - JOUR 190 - Introduction to Mass Media

Note regarding electives:
 Complete at least 12 credits of upper division COMM credits other than COMM 398 and COMM 498
 No more than 6 credits from COMM 236, 300, 339, 400, 436, 450, 451, 459 are allowed to count toward the major
 Complete 3 Writing Proficiency (WP) COMM courses. WP courses from other departments will not apply toward this requirement.
- Complete the minor requirement (as outlined above)

Departmental Honors

A communication major who wishes to graduate with honors in communication must achieve a cumulative GPA of 3.75 at WWU.

Bachelor of Arts in Education

Communication Studies – Elementary, BAE

Department of Communication Studies, College of Humanities and Social Sciences

50 Credits

Introduction

According to our National Communication Association, we focus on how people use messages to generate meanings. We promote effective and ethical practices across different channels, cultures, situations and media.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education.

Why Consider a Communications Studies-Elementary Major?

Communication graduates qualify for a variety of careers. Strong attention to research and writing provides students with skills needed for entry-level positions in organizational training and development, public relations, marketing, electronic media and other information-oriented occupations. The entire Communication field is growing rapidly with increased diversification of employment opportunities.

Most people are born with the ability to acquire communication skills, and we can help you realize your full potential. We believe the educational techniques of direct instruction, guided rehearsals and modeling provide tools for developing effective communication practices. In addition, you can learn more about developing stronger communities through ethical interaction, civil public discourse and cooperative decision-making.

A Communication Elementary BAE, is completed in conjunction with the Woodring College of Education's Elementary Education Professional Program, and satisfies the academic major requirement for teacher certification with an endorsement in elementary education. See Woodring's Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

How to Declare (Admission and Declaration Process):

Students wishing to declare a major in Communication Studies must have completed at least 60 credits a GPA of 2.5 or above. Students must submit a portfolio to the department (see below) in order to be admitted through a competitive selection process.

Admission to the major will, in part, be determined by the number of applicants and their qualifications in any given quarter. Cumulative grade point average (GPA) will be one of the major criteria for admission. In most quarters, the average GPA of successful applications is above 3.0. Other factors considered by faculty when selecting Communication Studies majors are writing samples, work and service experiences with diverse populations, reference letters, and seniority at WWU.

Before applying to become a Communication Studies major, students must:

- Complete COMM 101 or COMM 235 with a B- or better.
- Complete COMM 220 , with a B- or better.

Once the above courses have been completed, students can submit a portfolio of their work on or before Monday of the third week of fall, winter and spring quarters. The faculty will then review the portfolios and announce the names of successful applicants before the end of each quarter. Students are allowed to make a maximum of two application attempts.

The portfolio will include the following items:

- Transcripts of all college work completed to date
- A letter of intent to major in communication studies
- A résumé including course of study, work experience, recreational and avocational activities, internships, awards and honors, and public service activities
- Two samples of the student's collegiate writing assignments including best research paper or class project
- Three letters of recommendation from employers, teachers, or supervisors
- A proposed program of study which includes a statement indicating a chosen minor or a self-designed minor. (A self-designed minor is comprised of at least 25 credits and is acceptable only when the student has a clear educational goal that cannot be met within existing minors on campus. Requests to pursue a self-designed minor must include a written statement prepared by the student indicating the rationale for the self-designed minor and the courses selected.)

Once admitted, communication studies majors whose cumulative GPA falls below 2.5 risk losing their major status. They will be warned of the risk in their first quarter below 2.5 and may be dropped from the major if their cumulative GPA is not 2.5 or higher in the subsequent quarter.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsements.

Maintain a GPA of 2.75 for all college work

Requirements

- Satisfy departmental requirements for declaration of major:
 - Complete COMM 101 - Fundamentals of Speech
OR
 - COMM 235 - Exposition and Argumentation with a B- or better.
 - COMM 220 - Communication Theory
 - COMM 398 - Research Methods in Communication
 - COMM 498 - Communication Ethics
 - Complete a course that emphasizes library research strategies and skills. Only the following courses are approved:
 - COMM 235 - Exposition and Argumentation
 - LIBR 201 - Introduction to Research Strategies
 - Complete a total of 50 departmental credits including: COMM 101 and/or COMM 235, COMM 220, COMM 398, COMM 498. Minimum of 12 other upper division COMM credits. No more than six credits from the following may be counted toward the 50 credits total:
 - COMM 236 - Intercollegiate Forensics
 - COMM 300 - Independent Study
 - COMM 339 - Practicum in Applied Communication
 - COMM 400 - Independent Study
 - COMM 436 - Advanced Forensics and Debate
 - COMM 450 - Communication Pedagogy I
 - COMM 451 - Communication Pedagogy II
 - COMM 459 - Field Internship in Communication

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

COMMUNICATION STUDIES

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching
 - ELED 471 - Documenting Teaching
 - ELED 480 - Literacy: Beginning Communicators
 - ELED 481 - Literacy: Fluent Communicators
 - ELED 491 - September Experience
 - ELED 492 - Practicum: Experience in Literacy Methods
 - ELED 494 - Internship - Elementary
 - HLED 455 - Health Education Grades K-8
 - MATH 381 - Teaching K-8 Mathematics I
 - MATH 382 - Teaching K-8 Mathematics II
 - MATH 383 - Teaching K-8 Mathematics III
 - MATH 491 - Internship Seminar - Teaching K-8 Mathematics
 - PE 345 - Physical Education for Elementary School

- SCED 480 - Science Methods and Curriculum for the Elementary School
- SCED 490 - Laboratory/Field Experience in Elementary Science

Departmental Honors

A communication studies major who wishes to graduate with honors in communication studies must maintain a GPA of 3.5 in upper-division communication courses and successfully complete COMM 492, Senior Thesis, under the direction of a faculty advisor. In addition, the student must provide evidence of excellence and extensive participation (from 2 to 6 quarters) in research, forensics, intercultural/international, or service activities, under advisement. A detailed list of courses and activities from which a student may earn departmental honors will be available from faculty advisors.

Minor

Communication Studies Minor

Department of Communication Studies, College of Humanities and Social Sciences

25 credits (minimum)

Introduction

The field of Communication Studies prepares students to speak and write proficiently, think critically, apply communication concepts competently, work cooperatively in small groups, and reflect on ethical dimensions of their actions. We focus on interactive learning in a high quality curriculum with a lot student-to-faculty ratio in the classroom.

Why Consider a Communication Studies Minor?

A minor in Communication Studies will be a valuable complement to any major. The concepts and competencies we teach are essential for engaged citizenship and productive employment in every sector.

How to Declare (Admission and Declaration Process):

In order to declare a minor in Communication Studies, students need to go to CF295 for a brief advising session, during which they can declare their minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

COMMUNICATION STUDIES

Requirements

- ❑ One course from:
 - COMM 101 - Fundamentals of Speech
 - COMM 235 - Exposition and Argumentation
 - ❑ COMM 220 - Communication Theory
 - ❑ Plus additional courses totaling a minimum of 16 credits and including one upper-division course from the following:
 - COMM 224 - Small Group Processes
 - COMM 230 - Rhetorical Theory and Criticism
 - COMM 235 - Exposition and Argumentation
 - COMM 325 - Intercultural Communication
 - COMM 327 - Interpersonal Communication
 - COMM 331 - Advanced Public Speakingor other upper-division COMM courses when space is available
 - Only one of:
 - COMM 244 - Advocacy Through Media
 - JOUR 190 - Introduction to Mass Media
 - ❑ The minor may include no more than 3 credits from the following:
 - COMM 236 - Intercollegiate Forensics
 - COMM 300 - Independent Study
 - COMM 339 - Practicum in Applied Communication
 - COMM 400 - Independent Study
 - COMM 436 - Advanced Forensics and Debate
 - COMM 450 - Communication Pedagogy I
 - COMM 451 - Communication Pedagogy II
- Students may petition the minor advisor for an additional 3 credits from this series of courses; approval of petition is required well before the graduation evaluation deadline.

Communication Studies Courses

COMM 101 - Fundamentals of Speech

Functional approach to effective communication. Emphasizes the application of principles to practical problems in speech for persons with little or no previous public speaking experience. Students with prior public speaking experience are advised to take COMM 235 to satisfy GUR requirements or communication major application requirements.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 220 - Communication Theory

Survey of human communication focuses on communication theories, concepts and principles ranging from intrapersonal to interpersonal, group, organizational, rhetorical, intercultural, international and mass communication.

Credits: 5
Grade Mode: Letter

COMM 224 - Small Group Processes

Exploration of the dynamics of human interaction in small group settings. Group tasks include the development of problem-solving skills, utilizing topics of current interest.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 225 - Communication, Diversity and Controversy

This course is designed to foster the skills necessary for civil engagement and effective dialogue on controversial issues. Students will learn to appreciate, integrate, and effectively challenge diverse perspectives on a number of traditionally-divisive topics.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

COMM 230 - Rhetorical Theory and Criticism

Through a survey of major rhetorical scholarship from ancient Greek through the present, students are introduced to both rhetorical theories and modes of criticism that guide the field. Emphasis is placed on the important role rhetoric plays in contemporary public discourse and democratic citizenship.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

COMM 235 - Exposition and Argumentation

Theory and practice of principles of reasoned discourse as applied to public discussion of controversial issues. Students with prior background or experience in public speaking should consider COMM 235 as an alternative to COMM 101.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 236 - Intercollegiate Forensics

Debate, extemporaneous and impromptu speaking, and interpretive reading and other phases of forensics. Repeatable to a maximum of 6 cr. S/U grading.

Credits: 2
Grade Mode: S/U

COMM 240 - Media Studies

This course develops students' ability to think critically about mass media. Media messages and images are examined, as well as the social, political, and historical significance of media.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

COMM 244 - Advocacy Through Media

Introduction to nonprofit information campaigns, social issues marketing and other forms of advocacy through contemporary mass media. Students will learn basic theory and then engage in applied exercises as well as service learning assignments.

Credits: 4
Grade Mode: Letter

COMM 260 - Communication, Identity and Difference

This course introduces students to communication theories that explore the ways discourses produce,

reinforce, and challenge our understandings of identity — as well as how these identities interact with discourses of difference. By critically engaging the politics of representation, intersectionality, materialism, and power, this course questions identity and difference from hybrid perspectives rather than taking up isolated categories (such as race, gender, sexuality, disAbility, and class) as distinct particulars. The course will particularly emphasize debates within Communication Studies that problematize contemporary discourses and practices of multiculturalism. Students will be encouraged to understand how communication works to oppress certain populations while privileging others.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

COMM 308 - Communication and Fundraising

Students will learn verbal and nonverbal communication skills regarding the donor-centered approach to fundraising, fundraising program research, and fundraising budgets. Students will be required to conduct a group fundraising event during the quarter.

Prerequisites & Notes: Permission of instructor.
Credits: 5
Grade Mode: Letter

COMM 318 - Professional Communication

This course integrates business writing, public speaking, collaborative problem solving, and diversity training in a professional development context. Includes theory application and skill development. Students will be working in collaboration with organizations on or off campus.

Prerequisites & Notes: Junior status.
Credits: 5
Grade Mode: Letter

COMM 319 - Communication and Healthcare

This course is designed for healthcare professionals and others interested in communication skills for healthcare contexts. Students will be introduced to the theory and practice of effective and caring communication in the healthcare field, with a focus on strengthening and refining skills for communicating with diverse audiences.

Credits: 3
Grade Mode: Letter

COMM 322 - Civil Discourse as Learning Interaction

COMMUNICATION STUDIES

This course explores the nature of public civil discourse and provides instruction and practice in writing and speaking across differences for a range of public audiences in an effort to enhance the collective good. By focusing on the theory and practice of civil discourse as a means for accomplishing effective dialogue, students will develop concepts, attitudes, and skills - both oral and written - needed to be engaged learners and citizens in the campus community and beyond. Course requires participation in Western's Teaching-Learning Academy (TLA), which includes students, faculty, and staff who are working collectively to enhance the University learning environment.

Prerequisites & Notes: ENG 101

Credits: 4

Grade Mode: Letter

GUR Attributes: CCOM

COMM 325 - Intercultural Communication

Introduction to intercultural communication. Principles, concepts and various topics in this rapidly growing, important field. Covers the needed knowledge and skills in communicating effectively with people of diverse cultural backgrounds.

Prerequisites & Notes: 4 credits Comparative Gender/Multicultural Studies GUR or COMM 220

Credits: 5

Grade Mode: Letter

COMM 327 - Interpersonal Communication

Focuses on theory and practice in work, family, and social settings. Emphasizes observation, analysis, and skills training in relationship development. Topics include language use, listening, nonverbal behavior and conflict management.

Prerequisites & Notes: Junior status

Credits: 5

Grade Mode: Letter

COMM 331 - Advanced Public Speaking

Theory and practice in the art of public discourse.

Prerequisites & Notes: COMM 101 or COMM 235.

Credits: 3

Grade Mode: Letter

COMM 339 - Practicum in Applied Communication

Students function in a variety of directed studies and contexts in which they apply their communication skills. Covers putting theory into practice in such areas as small group

communication, interpersonal communication, organizational communication, intercultural communication and applied public information strategies. Repeatable to a maximum of 12 cr. S/U grading.

Credits: 1-3

Grade Mode: S/U

COMM 350 - Emerging Communication Technologies

Primary course objective is technological literacy - gaining skills and experience for working with emerging communication technologies. Students will engage in a range of experiential and service learning assignments using various emerging technologies. Secondary objective is technology critique and the study of theories of technology.

Credits: 5

Grade Mode: Letter

COMM 398 - Research Methods in Communication

Course should be taken as soon as possible after admission to the major as it is prerequisite for most 400-level communication courses. Survey of qualitative and quantitative research methods utilized in the field of communication.

Prerequisites & Notes: Departmental majors only

Credits: 5

Grade Mode: Letter

COMM 416 - Topics in Communication

In-depth coverage of special topics in communication, rhetoric and mass media. The subject of each individual course and its prerequisite is announced in the Timetable of Classes. Repeatable with different topics to a maximum of 12 credits.

Prerequisites & Notes: Senior status; COMM 398 or permission of instructor

Credits: 3-5

Grade Mode: Letter

COMM 420 - Issues in Communication Theory

In-depth examination of advanced theories in human communication. Emphasis on theory development.

Prerequisites & Notes: COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 425 - Issues in Intercultural Communication

Introduction to dynamic forces that enhance effective communication between persons with various cultural backgrounds. Covers topics such as differences, similarities, values, pride and prejudice, cultural barriers in communication settings, and effectiveness of intercultural communication.

Prerequisites & Notes: COMM 325 and COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 427 - Issues in Interpersonal Communication

Senior seminar that offers an in-depth examination of theories and practices in interpersonal communication.

Prerequisites & Notes: COMM 327 and COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 428 - Organizational Communication

Emphasizes the role of communication as central in human organizing. Describes the relationships among communication theories and other theories of organizational behavior. Applies theories to varied organizational settings.

Credits: 5

Grade Mode: Letter

COMM 430 - Visual Rhetoric

This course aims to interrogate the relationship between rhetoric and the image. Devoting attention to theories that explore the symbolic and performative dimensions of visual culture, this course introduces advanced students to theories of perception and visual interpretation as they relate to visual communication, media and film studies, cultural studies, art, literature, memory, and the public spectacle.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 435 - Principles of Persuasion

Study of principles that influence attitudes and opinions in persuasive situations. Normally offered alternate years.

Prerequisites & Notes: COMM 235 and junior status or permission of instructor.

Credits: 4

Grade Mode: Letter

COMM 436 - Advanced Forensics and Debate

Emphasis on intercollegiate debate with opportunity for experience in extemporaneous, impromptu and persuasive speaking. A maximum of 6 credits may be earned in COMM 436; a combined total of 6 credits from COMM 236 and COMM 436 may be applied to the major. S/U grading.

Prerequisites & Notes: 6 credits COMM 235 and/or COMM 236

Credits: 2

Grade Mode: S/U

COMM 440 - Critical Media Literacy

Examination of advanced theories in mass communication and media literacy. Examines social, political, and economic forces that shape media; influences of media on society; and issues of media policy, media advocacy, and media reform.

Prerequisites & Notes: COMM 240 or JOUR 190; COMM 398.

Credits: 5

Grade Mode: Letter

COMM 442 - Video Workshop

Production of the University's cable television show, Western View. Course includes practical application of techniques used in video production. Utilizes digital technology, graphic materials, design and staging. Students will learn the role of producer and director. Repeatable to a maximum of 6 cr. S/U grading.

Prerequisites & Notes: Recommended prior to registration: JOUR 190, COMM 350 or previous video experience; written permission of instructor.

Credits: 2

Grade Mode: S/U

COMM 450 - Communication Pedagogy I

Serve as undergraduate tutor for students taking communication courses. Learn instructional methods and gain further mastery of course content. Conduct supervised tutoring and feedback for students enrolled in communication courses. S/U grading

Prerequisites & Notes: Recommendation; written permission of instructor.

Credits: 3

Grade Mode: S/U

COMM 451 - Communication Pedagogy II

COMMUNICATION STUDIES

Help supervise teams of undergraduate tutors. Develop leadership, organizational and pedagogical skills. S/U grading.

Prerequisites & Notes: COMM 450; recommendation; written permission of instructor.
Credits: 3
Grade Mode: S/U

COMM 454 - Instructional Communication

This course is designed for prospective elementary, secondary and college teachers and communication trainers/consultants. Communication theories, principles, and skills applicable to the classroom context are addressed as they apply to teaching in general and communication specifically.

Prerequisites & Notes: COMM 398 or permission of instructor.
Credits: 5
Grade Mode: Letter

COMM 459 - Field Internship in Communication

Supervised work in communication with an educational institution, public agency, private enterprise, broadcast station or other appropriate business. Meetings, written reports and a paper related to the internship are required. For students applying for media internships, plan to complete all academic course work before the internship, as this is the usual career pattern for those in that area. Repeatable to a maximum of 12 cr. A maximum of 6 cr may be applied to the COMM major. S/U grading.

Prerequisites & Notes: Senior status; written permission of advisor; departmental majors only.
Credits: 3-12
Grade Mode: S/U

COMM 492 - Senior Thesis

Supervised independent research on an advanced topic, leading to a substantial research paper. Two quarters prior, student should seek out a supervising faculty member to begin preparation and planning. One quarter prior, student should complete a preparatory independent study (COMM 400) that includes a literature review, an outline of methods and, if needed, a Human Subjects Review form.

Prerequisites & Notes: COMM 398; departmental majors only; permission of a supervising professor.
Credits: 5
Grade Mode: Letter

COMM 498 - Communication Ethics

This capstone course examines diverse ethical theories and perspectives pertaining to communication in contexts ranging from the local to the global. Students will have opportunities to reflect on and clarify their own ethical commitments, and to understand these in relation to ethical theories and perspectives in the field of communication studies.

Prerequisites & Notes: COMM 398 or permission of instructor.
Credits: 5
Grade Mode: Letter

East Asian Studies

Introduction

East Asia, as one of the world centers of high civilization, has long been the object of cultural interest and study. Increasingly, it has become important for economic and political reasons as well. The Center for East Asian Studies provides a focal point for the University's interaction with East Asia and for academic study of the region.

The program in East Asian studies emphasizes the interdisciplinary study of the area, primarily the countries of China, Japan, Korea and Mongolia. The course of study is designed to attain three major objectives. First, it offers students an opportunity to acquire accurate, detailed and comprehensive knowledge of a region that is becoming increasingly important in world affairs. Second, it prepares students who are attracted by job opportunities related to East Asia in business and government. For those who wish to teach about East Asia, the program provides appropriate preparation. Third, it provides solid undergraduate training for students who plan to enter East Asian programs for graduate studies.

Students interested in pursuing a major in East Asian studies should consult the director of the Center for East Asian Studies, Massimiliano Tomasi, 360-650-3339, e-mail: Massimiliano.Tomasi@wwu.edu.

Faculty

MASSIMILIANO TOMASI, Director. Modern and Classical Languages. Japanese language and culture, modern Japanese rhetoric and literature.

PATRICK BUCKLEY, Geography. Geography and economics of Japan.

MASANORI DEGUCHI, Modern and Classical Languages. Japanese language and linguistics.

MARGARET FAST, Wilson Library. Methods and materials in East Asia Research.

JAMES HEARNE, Computer Science. Chinese philosophy, Chinese science, East Asian language computing.

ROBERT KIM, Education. Korean language, literature and culture.

ROBERT MARSHALL, Anthropology. Japanese business culture, economy and politics of Japan.

DEBNATH MOOKHERJEE, Geography. Cultural geography, urbanism, East and South Asian geography.

KRISTEN PARRIS, Political Science. East Asian politics.

SCOTT PEARCE, Liberal Studies. Medieval Chinese history.

JUDY PINE, Anthropology. South and East Asian languages and cultures.

TOM ROEHL, Management. International business.

WAYNE RICHTER, Wilson Library. Mongolian language.

JULIA SAPIN, Art. Asian art history, Japanese art, art of the Pacific Rim.

HENRY G. SCHWARZ, History and East Asian Studies, Emeritus. Mongolian and modern Chinese history, minorities of Northern China.

ROGER THOMPSON, History. Traditional and modern Chinese history.

EDWARD J. VAJDA, Modern and Classical Languages. Inner Asian and Siberian languages and history.

JIANGLONG WANG, Communications. Intercultural communications.

DIANA WRIGHT, History. Pre-modern Japanese history, religion in Japanese history.

JANET XING, Modern and Classical Languages. Chinese language, Chinese linguistics.

NING YU, English. Chinese and Chinese-American literatures.

MICHIKO YUSA, Modern and Classical Languages. History of religion, Japanese language and culture.

Adjunct Faculty

HO-CHIN YANG, Modern and Classical Languages. Chinese language, history of Tibet.

LILLY YANG, Modern and Classical Languages. Chinese language.

Other Departmental Information

Tutorials and Study Abroad

EAST ASIAN STUDIES

The Center for East Asian Studies also offers tutorials in advanced Chinese and Japanese. Elementary and intermediate Mongolian language may be offered through Extended Education.

Study Abroad: Students are encouraged to spend up to one year in a study abroad program, including Asia University; Tsuda College; Oberlin College, KCP in Tokyo; Inner Mongolia University, Hohhot; Seoul Women's University, Seoul; Yonsei University in Seoul; or Yunnan University, Kunming, China. Many other programs such as CET and CIEE provide opportunities for study in Beijing, Shanghai, Nanjing, Kunming and Taipei.

Bachelor of Arts

East Asian Studies, BA

East Asian Studies, College of Humanities and Social Sciences

60 credits

Introduction

The course of study is designed to attain three major objectives. First, it offers students an opportunity to acquire accurate, detailed and comprehensive knowledge of a region that is becoming increasingly important in world affairs. Second, it prepares students who are attracted by job opportunities related to East Asia in business and government. For those who wish to teach about East Asia, the Program provides appropriate preparation. Third, it provides solid undergraduate training for students who plan to enter East Asian programs in their graduate studies.

Why Consider an East Asian Studies Major?

The Program in East Asian Studies offers interdisciplinary study of the area, primarily the countries of China and Japan. Under special advisement, Korea and Mongolia are also subjects for study. The major offers students an opportunity to prepare for positions in cultural organizations, diplomatic offices, companies engaged in international business, and in educational institutions.

How to Declare (Admission and Declaration Process):

To declare the major, schedule an appointment with the Director, Massimiliano Tomasi. He will review with you the complete process for designing your major by showing you options of core courses, language courses, and electives in the area of Asian Studies that is of particular interest to you.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two years of Chinese or Japanese language (Mongolian or Korean by special arrangement) from the following. A maximum of thirty language credits may apply.
 - CHIN 101 - First-Year Chinese
 - CHIN 102 - First-Year Chinese
 - CHIN 103 - First-Year Chinese
 - CHIN 201 - Second-Year Chinese
 - CHIN 202 - Second-Year Chinese
 - CHIN 203 - Second-Year Chinese
 - CHIN 301 - Third-Year Chinese
 - CHIN 302 - Third-Year Chinese
 - CHIN 303 - Third-Year Chinese
 - OR
 - JAPN 101 - First-Year Japanese
 - JAPN 102 - First-Year Japanese
 - JAPN 103 - First-Year Japanese
 - JAPN 201 - Second-Year Japanese
 - JAPN 202 - Second-Year Japanese
 - JAPN 203 - Second-Year Japanese
 - JAPN 301 - Third-Year Japanese
 - JAPN 302 - Third-Year Japanese
 - JAPN 303 - Third-Year Japanese
 - EAST 201 - Introduction to East Asian Civilizations
 - EAST 202 - East Asian History in the Early-Modern and Modern Eras
 - EAST 302 - Methods and Materials in East Asian Studies
 - One course from:
 - EAST 367 - Chinese Literature in Translation
 - EAST 368 - Japanese Literature in Translation
 - Additional credits from courses approved by the Center for East Asian Studies as listed below: (At least 8 credits must be at the 400 level)
 - A/HI 370 - Islamic Visual Cultures
 - ANTH 362 - Peoples of Asia
 - ANTH 460 - Culture and Society of Japan
 - ANTH 463 - Peoples of East and Southeast Asia
 - CHIN 330 - Chinese Culture Through Film and Literature
 - EAST 313 - Early Inner Asia
 - EAST 314 - The Mongols
 - EAST 367 - Chinese Literature in Translation
 - EAST 368 - Japanese Literature in Translation
 - ENVS 333 - East Asia: Society and Environment
 - ENVS 431 - Pacific Rim
 - HIST 370 - Chinese History to 600 AD
 - HIST 372 - Chinese History: 1800 to Present
 - HIST 374 - Premodern Japanese History
 - HIST 375 - Modern Japanese History
 - HIST 479 - Medieval and Early-Modern Chinese History
 - HIST 480 - Modern Chinese Social History
 - HIST 481 - The Chinese Revolution

EAST ASIAN STUDIES

- HIST 483 - Early Modern Japan
- HIST 484 - Women in Japanese History
- HIST 485 - Japanese Military History: Samurai Fact and Fiction
- HIST 486 - Religion in Japanese History
- IBUS 370 - Introduction to International Business
- IBUS 474 - Topics in International Business
- JAPN 330 - Japanese Culture Through Film
- JAPN 401 - Advanced Japanese
- LBRL 375 - Buddhism
- LBRL 380 - Religion and Society in China
- LBRL 382 - Religion and Society in Japan
- PLSC 307 - East Asia
- PLSC 430 - Modern Chinese Politics

Minor

East Asian Studies Minor

East Asian Studies, College of Humanities and Social Sciences

30 Credits

Introduction

The following minor may be combined with a major in history or in political science for a major concentration, or may be elected as a minor by majors in other fields. For description of courses, see the sections of cooperating departments.

East Asian Studies Courses

EAST 201 - Introduction to East Asian Civilizations

The origins and evolution of the political, economic, cultural and social aspects of East Asian civilization in through the early-modern period. Also taught as HIST 280.

Prerequisites & Notes:
also offered as HIST 280
Credits: 5

EAST ASIAN STUDIES

Grade Mode: Letter
GUR Attributes: ACGM

EAST 202 - East Asian History in the Early-Modern and Modern Eras

Examines political, cultural and social aspects of East Asian civilizations with attention to the early-modern and modern periods. Also taught as HIST 281.

Prerequisites & Notes: also offered as HIST 281
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

EAST 230 - Modern Chinese Society and Language

A survey of the characteristics of the Chinese language. A study of the relationships among Chinese culture, contemporary society and language variation.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

EAST 302 - Methods and Materials in East Asian Studies

Research methods in East Asian studies; organization of Chinese and Japanese libraries; principal journals, reference tools and scholarly apparatus for various areas of East Asia.

Prerequisites & Notes: EAST 201, EAST 202; one year of Chinese or Japanese.
Credits: 3
Grade Mode: Letter

EAST 313 - Early Inner Asia

A detailed history of the Eurasian steppe and desert tribes from the earliest times to the rise of the Mongols under Chingiz Khan in the late 12th century. Discusses the complex cultural and political interplay among the early Indo-European, Turkic and Mongol pastoralists as well as their often cataclysmic interaction with the sedentary civilizations of the world.

Prerequisites & Notes: EAST 201 or EAST 202 or EAST 210 or HIST 280 or HIST 281 or instructor permission.
Credits: 4
Grade Mode: Letter

EAST 314 - The Mongols

Documents the history of the Eurasian steppes from the rise of Chingiz Khan to the present day. Describes the creation of the world's largest empire, its gradual disintegration and its partial

absorption by the agricultural societies on its periphery. Includes analysis of recent political events in this area of the world.

Prerequisites & Notes: EAST 201 or EAST 202 or EAST 210 or HIST 280 or HIST 281 or instructor permission.
Credits: 4
Grade Mode: Letter

EAST 367 - Chinese Literature in Translation

Selected readings in Chinese literary masterpieces from earliest to modern times.

Prerequisites & Notes: EAST 201 or EAST 202 or CHIN 103 or LBRL 277 or permission of instructor.
Credits: 5
Grade Mode: Letter

EAST 368 - Japanese Literature in Translation

Selected readings in Japanese literary masterpieces from early modern times to the present.

Prerequisites & Notes: EAST 201 or EAST 202 or LBRL 275 or permission of instructor.
Credits: 5
Grade Mode: Letter

English

Introduction

The English major engages students in reflective reading, creative inquiry, critical analysis, and effective expression. The study of literature, linguistics, writing, film, and visual media prepares graduates to pursue a variety of careers, including law, business, government, professional writing, publishing, and education. These studies also prepare students for graduate programs.

The Department of English offers three major emphases: literature, creative writing, and teacher preparation.

Two programs lead to the Bachelor of Arts in English. English: Literature Emphasis focuses on the study of literature in historical and cultural contexts and includes course work in English language and literature, literary and rhetorical theory, creative writing and composition, technical writing, film, and visual media. English: Creative Writing Emphasis focuses on writing in fiction, drama, poetry, and in nonfiction prose, and it is complemented by courses in language and literature. (For those interested in teaching English Language Arts at the secondary level, see the English Literature Emphasis major.)

The Department of English provides a dynamic intellectual environment and learning community. Faculty members introduce new genres, fields and methods of critical inquiry, and technologies to provide our students with the best possible education. The department offers small, student-centered classes, innovative pedagogy, and close faculty-student interaction. English faculty members have earned numerous awards for excellence in teaching, research, and writing; they are nationally and internationally recognized in creative and critical fields. Our students have amassed an enviable record of placement in graduate programs and professional positions.

Faculty

BRUCE GOEBEL (1996) Chair and Professor. BA, Eastern Washington University; MA, California State University, Fresno; PhD, The University of Iowa.

KAVEH ASKARI (2007) Associate Professor. BA, New College of Florida; MA, PhD, University of Chicago.

CHRISTOPHER WISE (1996) Professor. BA, Northwestern College; MA, University of Oklahoma; PhD, University of California, Riverside.

GREG YOUMANS (2014) Assistant Professor. BA, University of California, Berkeley; PhD, University of California, Santa Cruz.

NING YU (1993) Professor. BA, Beijing University of Aeronautics and Astronautics; MA, PhD, University of Connecticut.

Declaration Process

The department offers majors leading to both Bachelor of Arts and Bachelor of Arts in Education degrees. Admission to these majors is by application to the appropriate advisor. Students are strongly urged to meet with a department advisor early in their careers at Western; students must declare their major at the start of their junior year. Though we cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA degree program in English, with an emphasis in literature, creative writing, or secondary education within a four-year time span should have completed the following courses by the start of their junior year:

- ENG 101 and ENG 202

Graduate Study

For a concentration leading to the Master of Arts degree, see the Graduate School section of this catalog.

Bachelor of Arts

English — Creative Writing Emphasis, BA

Department of English, College of Humanities and Social Sciences

58-60 Credits

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers, including law, business, education, publishing and government, as well as graduate work in creative writing, language, literary and cultural studies, and writing. English engages students in diverse literary heritages as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Creative Writing Emphasis in the English Major?

The Creative Writing program focuses on writing courses: creative writing in fiction, drama, poetry, or nonfiction prose and includes coursework in literature to supplement the writing courses. Students in the upper-divisional courses are expected to interpret and analyze literature in thoughtful, organized, and clear essays that are free of mechanical errors. If you think you need help with your reading and writing, we strongly encourage you, in addition to your work in English courses, to consult the Writing Center and other University resources.

Introductory and advanced genre courses form the core of the major, giving students an opportunity to develop their craft and aesthetics through intensive writing, reading and workshops. Students must take courses in at least two different genres. Aside from the core courses, creative writing majors take 25 credits in literature (which may include literary/cultural, rhetorical, and literacy theory and film studies) at the 300- or 400-level. Special modes courses (456, 457, 458, 460) introduce advanced students to distinct forms within their major genres.

How to Declare (Admission and Declaration Process):

Meet with the English Department's Undergraduate Program Coordinator to declare this major. The prerequisites for declaring the major are 60 credits completed and ENG 202.

To declare the major, contact the Undergraduate Program Coordinator, Linda Flanagan. Though the English department cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Advising Tips: Students are strongly encouraged to meet with the Undergraduate Program Coordinator, Linda Flanagan, early in their careers at Western. Students must declare their major by the start of their junior year.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

ENGLISH

Requirements

- ❑ 25 credits in literature (which may include literary/cultural, rhetorical, and literacy theory and film studies) at the 300- or 400-level, including a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-.
- ❑ ENG 370 - Introduction to Language (Students who earn a grade of 3.0 or better in Linguistics 201 may substitute a 300 or 400-level English course under advisement for English 370.)
- ❑ Two courses from:
 - ENG 351 - Introduction to Fiction Writing
 - ENG 353 - Introduction to Poetry Writing
 - ENG 354 - Introduction to Creative Nonfiction Writing
 - THTR 384 - Introduction to Dramatic Writing
 - FAIR 354V - Scriptwriting Workshop I
- ❑ Four courses from:
 - ENG 451 - Creative Writing Seminar - Fiction *
 - ENG 453 - Creative Writing Seminar - Poetry *
 - ENG 454 - Creative Writing Seminar - Creative Nonfiction *
 - ENG 455 - Living Writers
 - ENG 456 - Special Topics in Fiction Writing
 - ENG 457 - Special Topics in Poetry Writing
 - ENG 458 - Special Topics in Creative Nonfiction Writing
 - ENG 459 - Editing and Publishing
 - ENG 460 - Special Topics In Creative Writing - Multi-Genre
 - THTR 485 - Dramatic Writing Workshop **
 - FAIR 454Y - Scriptwriting Workshop II

Creative writing courses offered by Canadian-American Studies may also be counted with approval of the English department advisor

*One of these courses is repeatable with a different instructor to a maximum of 10 credits.

** May be repeated under separate topics to a maximum of 12 credits.

English — Literature Emphasis, BA

Department of English, College of Humanities and Social Sciences

60 Credits

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers including law, business, education, publishing and government, as well as graduate work in language, literary and cultural studies, and writing. English engages students in diverse literary heritages, as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Literature Emphasis in the English Major?

The English Literature major focuses on the study of literatures in historical and cultural contexts and includes course work in English language, literary theory, and composition and rhetoric. Some students may opt to develop a writing concentration within their literature major, taking writing courses such as composition, creative writing, and professional and technical writing. There are also opportunities to pursue English Education, including endorsements. Students in the upper-division courses are expected to interpret and analyze literature in thoughtful, organized, and clear essays that are free of mechanical errors. If you think you need help with your reading and writing, we strongly encourage you, in addition to your work in English courses, to consult the Writing Center and other university resources.

The literature emphasis offers students the opportunity for both breadth and depth in the study of literature and culture. In the "Literature and Culture" courses (ENG 307-311), which are the core of the major, students gain a sense of historical scope as they explore literatures from a range of periods. In addition, majors take required courses in critical and cultural theory, writing and the history and theory of language. All of these courses provide a solid foundation for intensive study of specialized topics in the upper-level electives and in the senior seminar.

The English – Literature Emphasis, BA major leads to a baccalaureate degree without teacher certification. To receive a recommendation for state of Washington teacher certification, students must also complete the teacher certification program offered by the Department of Secondary Education as one of the following:

- A part of the undergraduate baccalaureate degree
- A post-baccalaureate program
- A part of the Master in Teaching program

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Students seeking teaching certification are advised that the careful selection of English courses within the English-Literature major and the addition of one 5-credit English course are necessary in order to meet requirements for the English Language Arts – Secondary endorsement. Students must meet with the secondary education academic advisor in the English department to complete a plan of study.

How to Declare (Admission and Declaration Process):

Meet with the English Department's Undergraduate Program Coordinator to declare this major. Prerequisites for declaring the major are 60 credits completed and ENG 202.

To declare the major, contact the Undergraduate Program Coordinator, Linda Flanagan. Though the English department cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Advising Tips: Students are strongly encouraged to meet with the Undergraduate Program Coordinator, Linda Flanagan, early in their careers at Western. Students must declare their major by the start of their junior year.

English Language Arts - Secondary Endorsement:

Students seeking teacher certification are advised that the careful selection of English courses within the English Literature major and the addition of one 5 credit English course are necessary in order to meet requirements for the English Language Arts—Secondary endorsement. Students must meet with the secondary education academic advisor in the English department, Nancy Johnson (HU 351, 360-650-3227), to complete a plan of study.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

- Four courses from:
 - ENG 307 - Literature and Culture I: Pre-16th Century
 - ENG 308 - Literature and Culture II: 16th and 17th Centuries
 - ENG 309 - Literature and Culture III: 18th and 19th Centuries
 - ENG 310 - Literature and Culture IV: 19th and 20th Centuries
 - ENG 311 - Literature and Culture V: 20th and 21st Centuries
- One course from:
 - ENG 301 - Introduction to Writing Studies
 - ENG 302 - Introduction to Technical and Professional Writing
 - ENG 350 - Introduction to Creative Writing
 - ENG 401 - Senior Seminar in Writing Studies and Rhetoric
 - ENG 313 - Introduction to Critical and Cultural Theories and Practices
 - ENG 418 - Senior Seminar
 - ENG 370 - Introduction to Language

(Students who earn a grade of 3.0 or better in Linguistics 201 may substitute a 300 or 400-level English course under advisement for English 370.)
- Electives: 20 credits. 15 credits must be at the 400 level, 5 credits at either the 300 or 400 level

Additional Endorsement

English Language Arts - Secondary, Additional Endorsement

Department of English, College of Humanities and Social Sciences

40 credits

Introduction

This additional endorsement program prepares students to teach English Language Arts at the middle and high school, and must be accompanied by a professional education program and a qualifying endorsement in another content area. See the Elementary Education and Secondary Education sections of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Secondary, Additional Endorsement in English Language Arts?

An Additional Endorsement in English Language Arts provides prospective teachers with more teaching options, allowing them to teach English language arts classes as well as classes in the primary subject area in which they have trained. Being able to teach in two areas increases the number of job openings to which one might apply.

Lobeck, Anne, PhD, linguistics, literary theory, gender studies.

Lundeen, Kathleen, PhD, British literature, critical theory, intermedial art, literature and science, prophetic literature.

Lyne, William, PhD, American literature, African-American literature, cultural studies.

Magee, Kelly, MFA, creative writing (fiction, nonfiction, multi-genre).

Mahoney, Kristin, PhD, Victorian literature and culture, economics and literature.

Metzger, Mary Janell, PhD, early modern literature, critical theory, English education, women's literature.

Miller, Brenda, PhD, creative writing (fiction and nonfiction), autobiography.

Paola, Suzanne, MFA, creative writing, nonfiction, women's studies, poetry.

Qualley, Donna, PhD, composition theory and pedagogy, literacy, rhetoric and social class.

Rivera, Lyssa, PhD, American literatures and culture, Chicana/o and African-American literature, cultural studies, critical theory.

Trueblood, Kathryn, MFA, creative writing (fiction), publishing and editing.

VanderStaay, Steven, PhD, English education, creative writing (nonfiction), and linguistics.

Vulic, Kathryn, PhD, medieval British and Continental literatures and culture, devotional literature.

Warburton, Theresa, PhD, feminist theory, women's literature, Native literature, transnational and multiethnic literature, and memoir.

Wise, Christopher, PhD, comparative literature and critical theory.

Youmans, Greg, PhD, film and media studies, LGBTQ history and historiography, queer and feminist theory.

Yu, Ning, PhD, American literatures, science and literature.

Program Advisor: Erica Dean-Crawford, Humanities 325, 360-650-3232

Goals

The MA program in English is designed for those who desire to prepare for:

- PhD and MFA programs, as well as other advanced degrees
- Teaching at two-year colleges
- Public or private teaching (elementary, middle, secondary)
- Careers in technical writing and communication
- Careers in editing and publishing
- Careers in nonprofit and other business organizations

Depending on the chosen area of concentration, students will attain the following skills:

- Preparation in national and global literatures and cultures, creative writing, critical and cultural theory, film and media, pedagogy, composition and rhetoric, technical writing, professional writing, editing and publishing, and linguistics
- Teaching experience (if awarded a teaching assistantship or internship)
- Professional editing with scholarly and creative writing journals, such as the Bellingham Review
- Professional communication, oral and written
- Competency in the use of classroom and communications technologies
- Awareness of diversity, educational equity, and social justice issues
- Awareness of ethical and reflective pedagogical practices

Prerequisites

Undergraduate major in English or departmental permission. Candidates with an insufficient background in English are normally requested to acquire 30 upper-division credits in literature and criticism with a grade of B or better in each course. The department reserves the right to approve a course of study.

Admission

Enrollment is limited to program capacity.

Application Information

Deadlines: Applications for the following academic year must be complete — all materials on file — by January 15 for priority consideration. Applications completed after that date may be considered on a space-available basis. Applications completed after June 1 will not be considered. Admission into the program is for fall quarter.

TA Deadlines: An application for a teaching assistantship should be submitted with the application for admission.

Supporting Materials:

☐ Normally the department expects a strong analytic score on the GRE, and a verbal score of at least 500 on the GRE (General) exams taken before August 2011, or a verbal score of at least 153 on GRE ("Revised" General) exams taken before August 2011. Candidates must also provide a 750-word personal statement of background and intention and a writing sample: for admission to creative writing, 10 to 15 pages of prose or 10 to 15 pages of poetry; for admission to English studies, 7 to 12 pages of written work in literary study.

English Studies, Non-Thesis (55 credits)

Core Requirements:

- ☐ ENG 501 - Literary Theories and Practices
- ☐ 25 credits in literature, criticism, rhetoric OR
- ENG 513 - Seminar in Teaching College Composition
Only five of these 25 credits may be taken in ENG 500, Independent Study.

Electives:

☐ 25 credits (literature, criticism, creative writing, rhetoric, pedagogy, English language) Occasionally electives in other departments may be chosen in consultation and with permission of the English department graduate program advisor.

Credits:

With the permission of the graduate advisor, a student may take up to 10 credits of some combination of 400-level courses, ENG 500, ENG 509, and ENG 594. No more than 5 credits of ENG 500 may be applied toward the degree.

Additional Information

Other Requirements

Students must demonstrate reading competence in a second language acceptable to the department's Graduate Studies Committee or take an additional 5-credit 400 or 500-level course focused on the study of language. Normally competence in a second language is demonstrated by successfully completing the final course in a second-year language sequence or by passing a reading competency exam in the language.

Students must also pass a written Graduate Exam in their concentration.

Additional information about these requirements, the non-thesis option and program procedures, is available from the English graduate program office.

Program Advisor: Erica Dean-Crawford, Humanities 325, 360-650-3232

Introduction

Western Washington University's English Department offers a 2-year MFA program in Creative Writing within a community that values creative development and intellectual versatility. We encourage a focus on multigenre or cross-genre writing, based on our view that creative writing graduates need to be versatile in their comprehension of genre conventions and conversant in the way diverse genres inform one another. A variety of courses we offer stress either a multigenre focus or encourage experimental works that blur genre boundaries.

Creative writing practice and literary study are synergistic in our program. Students take seminars in creative writing and literature, as well as courses in rhetorical thinking and composition, digital and technical writing, film studies, and linguistics. We offer Graduate Assistantships that provide quality teacher training, as well as opportunities to gain editorial experience with the award-winning journal *Bellingham Review*.

Goals

The MFA program in English is designed for those who desire to prepare for:

- Life as a serious author, with an understanding of the literary marketplace and publication
- PhD programs, as well as other advanced degrees in fields such as law or teaching
- Teaching at both two- and four-year colleges and universities
- Public or private teaching (elementary, middle, secondary)
- Careers in technical writing and communication
- Careers in editing and publishing
- Careers in nonprofit and other business organizations

Students will attain the following skills:

- Fluency in multigenre or cross-genre writing and comprehension of genre conventions, as well as the way diverse genres can inform one another
- Professionalism in creative writing, along with in-depth literary study in areas that might include national and global literatures and cultures, critical and cultural theory, film and media, pedagogy, composition and rhetoric, technical writing, professional writing, editing and publishing, and linguistics
- Teaching experience (if awarded a teaching assistantship or internship)
- Professional editing with scholarly and creative writing journals, such as the *Bellingham Review*
- Professional communication, oral and written
- Competency in the use of classroom and communications technologies
- Awareness of diversity, educational equity, and social justice issues
- Awareness of ethical and reflective pedagogical practices

Prerequisites

Undergraduate major in English or Creative Writing, or departmental permission. Candidates with an insufficient background in English are normally requested to acquire 30 upper-division credits in creative writing, literature, and/or criticism with a grade of B or better in each course. The department reserves the right to approve a course of study.

Application Information

Deadlines: Applications for the following academic year must be complete — all materials on file — by January 15 for priority consideration. Applications completed after that date may be considered on a space-available basis. Applications completed after June 1 will not be considered. Admission into the program is for fall quarter.

Teaching Assistantship Deadlines: An application for a Teaching Assistantship should be submitted with the application for admission.

The materials submitted for admission must include:

- A statement of purpose: this statement should explain intellectual and/or creative interests, and professional goals. If you are interested in being considered for a funded Teaching Assistantship, please include relevant experience and information that will aid the department in making funding decisions.
- Two writing samples. Creative Writing: 10 to 15 pages of prose (fiction or creative nonfiction); or 10 to 15 pages of poetry; or a combination of genres, 15 pages total; AND a Critical writing sample: 7 to 12 pages of analytical work in literary study.
- Appropriate admissions forms.
- GRE scores (General Test) with a minimum score of 500 on the verbal section, for exams taken before August 2011. For the GRE 'Revised' General Test (beginning August 2011), the expected verbal score on the new scale is at least 153.

Program Requirements

- ENG 501 - Literary Theories and Practices
 - 20 credits in creative writing courses, to be taken in at least two different genres from the following:
 - ENG 502 - Seminar in the Writing of Fiction
 - ENG 504 - Seminar in the Writing of Poetry
 - ENG 505 - Seminar in the Writing of Nonfiction
 - ENG 506 - Seminar in Creative Writing: Multigenre
 - ENG 520 - Studies in Poetry *
 - ENG 525 - Studies in Fiction *
 - ENG 535 - Studies in Nonfiction *

*These courses may be taken as either creative writing or literature credits, depending on the nature of the final project. To use them as part of the creative writing core requirement, students must take them as creative writing courses.

- 20 credits in literature, composition/rhetoric, pedagogy, or critical theory, to be taken from the following:
 - ENG 500 - Directed Independent Study
 - ENG 509 - Internship in Writing, Editing and Production
 - ENG 510 - Seminar: Topics in Rhetoric
 - ENG 513 - Seminar in Teaching College Composition (required for Graduate Teaching Assistants in the Freshman Composition program)
 - ENG 515 - Studies in Literary and Critical Theory
 - ENG 540 - Studies in Global Literatures
 - ENG 550 - Studies in American Literatures
 - ENG 560 - Studies in British Literature
 - ENG 570 - Topics in Cultural Studies
 - ENG 575 - Studies in Women's Literature
 - ENG 580 - Studies in Film
 - ENG 594 - Practicum in Teaching

- ENG 598 - Research in the Teaching of English
ENG 520, 525, and 535 (see creative writing courses) may also be used for literature credit, depending on the nature of the final project. The same course may not be used for both literature and creative writing credit.
- ENG 690 - Thesis Writing (10 credits)
NOTE: With the permission of the graduate advisor, a student may take up to 10 credits of some combination of approved 400-level courses, ENG 500, ENG 509, and ENG 594. No more than 5 credits of ENG 500 may be applied toward the degree.
Students are encouraged to fill out their two years of study with electives that stress creative writing, pedagogy, editing/publishing, literature, or rhetoric, as dictated by the student's interests and career goals.
Additional Requirements:
 1. Fulfillment of the English Graduate Program Language Requirement
 2. Successful completion of the Creative Writing Graduate Exam
 3. A successful creative thesis, with a critical preface, approved by the student's Creative Writing Thesis Committee and the Graduate School

Minor

Creative Writing Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The Creative Writing minor focuses on writing courses: creative writing in fiction, drama, poetry, or nonfiction prose.

Courses taken for credit in minor programs may not be counted toward English major programs.

Why Consider a Creative Writing Minor?

Creative writing minors develop skills in creative thought and expression through study and practice of the craft of fiction, creative nonfiction, poetry, and/or drama. Students participate in both the critical analysis and creative practice of writing, gaining widely-applicable experience in self-expression, artistic technique, and modes of communication.

How to Declare (Admission and Declaration Process):

ENGLISH

Meet with the English Department's Undergraduate Program Coordinator to declare this minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Four creative writing courses including work in at least two genres
- An elective under advisement from the 300 and 400 level courses

English Linguistics Minor

Department of English, College of Humanities and Social Sciences

23-25 Credits

Introduction

Linguistics is the scientific study of language. Students study the different components of grammar (syntax, phonology, morphology and semantics), how language changes over time, how it varies from speech community to speech community; how it is acquired by children; and how the brain is organized for language. English linguistics is the scientific study of the English language; its grammatical structure, dialects, and history. Courses in English Linguistics also address linguistic ideology and discrimination in U.S. Institutions, linguistics in K-12 education, and English as a global language.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Linguistics Minor?

Students take courses in English linguistics (the structure and history of English, etc.) as well as a selection of core courses in the Linguistics Program (syntax, phonology, etc.). Students graduate with a degree in English that also recognizes their interest and expertise in Linguistics.

- ENG 438 - Cultural History of English
- ENG 439 - Topics in Language and Linguistics *
 - Linguistics courses under advisement at the 300 and 400 level
 - * May be repeated once with a different topic.

English Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The study of English offers students the opportunity to study and work with texts that have shaped, and been shaped by, the English language. We offer a diverse spectrum of classes ranging from antiquity to the twenty-first century and covering a wide variety of topics in literature, media, composition, and language studies. English courses encompass and explore multiple cultural traditions, allowing students to cultivate skill in critical thinking, creative expression, close reading, persuasive writing, and effective speaking.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider an English Minor?

An English Minor provides you with three essential tools for success in a wide range of careers: the ability to read critically, write clearly and specifically, and understand the ideas and experiences that shape the histories of our local, national and global communities. Employers and professions of all kinds value such abilities and look for those who have them.

- 25 credits of English at the 200 level or above, with a minimum of 15 credits at the 300 or 400 level

Film Studies Minor

Department of English, College of Humanities and Social Sciences

23-25 Credits

Introduction

In the Film Studies minor students will engage major artistic, technological, commercial and social developments throughout cinema and media history. They will learn a language of analysis that will equip them to communicate about and with moving images.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Film Studies Minor?

The study of film is one of the fastest growing disciplines at American colleges and universities. While the Film Studies minor provides a solid foundation for further professional development in the fields of filmmaking, curating, or media publishing, it also fosters a broad base of abilities sought by employers in a variety of employment sectors. At Western we encourage students to combine critical writing with hands-on moving image projects because we value the multimedia communication skills that are becoming increasingly important, not only in the job market, but for all informed citizens. The film studies minor at Western also emphasizes that film is a global medium and welcomes students with interests in global studies.

- Courses under advisement at the 300 and 400 level to be selected from courses in theory, film and other visual media, including offerings in other departments, such as HIST 364, FAIR 326, FAIR 361
- *May be repeated once with a different topic.

Women's Literature Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The study of Women's Literature includes the study of literature written by women and analysis of the representation of the wide range of issues that shape their lives and work, including but not limited to the construction of gender, sexuality, age, race and class.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Women's Literature Minor?

A Women's Literature Minor provides you with essential tools for success in a wide range of careers: the ability to read critically, write clearly and specifically, and synthesize information and arguments drawn from diverse disciplines and perspectives as a means of interpreting a single text. Employers and professions of all kinds value such abilities and look for those who have them.

Writing Studies Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The Writing Studies minor is a 25 credit minor that includes courses that focus on deepening and extending your thinking and rhetorical flexibility. That is, these courses are designed to help students to develop the capacity to anticipate and appropriately respond to the particular needs of readers, and to build and examine texts, both print and digital, for widely differing contexts.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Writing Studies Minor?

Writing, in all its diverse forms, is the backbone of a university education and is also critical for most professions. Good written communication includes the ability to think deeply, reflectively, and rhetorically and develops a capacity to both foster and adapt to change. The versatility and flexibility that the Writing Studies minor offers will benefit your work in college and beyond because writing (or composing) effectively in different environments matters regardless of the life you're chasing after. Simply put, good writing, in whatever form it takes, can make lots happen - for you and for others.

Sample Careers

While some careers are focused specifically on writing expertise (professional writing, technical writing, grant writing, literary writing, feature writing, reviewing, publishing, copy-editing, etc.), employers in almost every profession desire people with rhetorical awareness and a range of writing proficiencies. For example, a Writing Studies minor will benefit project managers, user experience experts, game designers, medical professionals, even engineers. The passions that you take up will almost surely involve writing.

 - ENG 442 - Studies in Literacy
 - ENG 461 - Internship in English: Professional Identity
 - ENG 462 - Topics in Professional and Technical Writing *
 - Courses under advisement at the 300 and 400 level to be selected from courses in visual media and writing, including offerings in other departments.
- *Repeatable once.

English Courses

ENG 100 - Introduction to College Writing

A writing course that offers practice in reading complex texts, writing with fluency and using the conventions of standard written English. Regularly scheduled conferences with instructor required. S/U grading.

Credits: 5
Grade Mode: S/U

ENG 101 - Writing and Critical Inquiry

A computer-mediated composition course designed to help students, through extended inquiry in reading, writing, and discussion, develop and practice those critical and reflective habits of mind that will serve them personally, academically, and professionally. Introduces students to the processes of analysis and revision with the aim of increasing students' knowledge and control of the specific conventions writers use to clearly formulate and communicate their ideas to different audiences. Regularly scheduled conferences with instructor required. Students needing to satisfy Block A of the communications section of the General University Requirements are required to do so prior to completion of 45 credits.

Prerequisites & Notes: may not be taken concurrent with ENG 100
Credits: 5
Grade Mode: Letter
GUR Attributes: ACOM

ENG 195 - Introduction to Creative and Technical Writing

An intensive introduction to creative and technical writing for entering freshmen.

Credits: 2
Grade Mode: S/U

ENG 201 - Writing In Humanities

Advanced instruction and practice in writing using ideas, texts and questions from a specified topic in the humanities. Areas and focus vary with section.

Prerequisites & Notes: ENG 101 or 4/5 AP English Language Exam.

Credits: 5
Grade Mode: Letter
GUR Attributes: CCOM

ENG 202 - Writing About Literature

A writing course designed to help students develop the skills of close reading and careful analysis of literary texts, with particular attention to how language, style, and form contribute to a text's social or political claims. Introduces students to the challenge of situating themselves in relation to a literary text and the critical conversation about that text, and crafting multi-draft critical essays with a focused, arguable thesis supported by thoughtful sequence of claims and carefully selected textual evidence.

Prerequisites & Notes: ENG 101 and sophomore or above status
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

ENG 214 - Introduction to Shakespeare

Analysis, interpretation and discussion of a selected number of Shakespeare's plays: histories, comedies, tragedies and romances.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 215 - Introduction to British Literature

Analysis, interpretation and discussion of a range of texts in British literature with attention to cultural contexts.

Credits: 5

ENGLISH

Grade Mode: Letter
GUR Attributes: HUM

ENG 216 - Introduction to American Literature

Analysis, interpretation and discussion of a range of texts in American literature with attention to cultural contexts.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 227 - Introduction to Gay, Lesbian, Bisexual and Transgender Literature

Analysis, interpretation and discussion of a range of texts by gay, lesbian, bisexual and transgendered authors.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 234 - Introduction to African-American Literature

Analysis, interpretation and discussion of written, spoken and visual texts by African-American men and women from the 18th century to the present.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 235 - Introduction to American Indian Literatures

Analysis, interpretation and discussion of written, spoken and visual texts in English and translation by writers and storytellers of Native American descent.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 236 - Introduction to Asian-American Literatures

Analysis, interpretation and discussion of written and visual texts in English and translation by and about Asian-Americans.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 238 - Society Through Its Literature

A thematic approach to literature, with different themes exploring the relationship between literary forms and society. Repeatable once as an elective with different topics. May be taken only once for

GUR credit.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 239 - Introduction to Latina/o Literatures

Analysis, interpretation and discussion of a range of texts in English and in translation by Latina/o authors.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 270 - Introduction to Language and Society

A thematic approach to the study of language use in society, with different themes exploring the relationship between language, meaning, and the social contexts in which they occur. May be taken only once for GUR credit.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 281 - Introduction to Global Literatures: Ancient

Readings from ancient literatures throughout the world.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 282 - Introduction to Global Literatures: Medieval

Readings from medieval literatures throughout the world.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 283 - Introduction to Global Literatures: Modern

Readings from modern literatures throughout the world.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 301 - Introduction to Writing Studies

Inquiry and practice of writing in personal, public and academic contexts. Emphasis on expressive, analytical, critical, and collaborative forms of

writing as appropriate.

Prerequisites & Notes: ENG 101; junior status
Credits: 5
Grade Mode: Letter

ENG 302 - Introduction to Technical and Professional Writing

Introduction to major contemporary strategies and conventions used in written and oral communication for multiple audiences in professional settings. Covers a variety of written forms used in the preparation and design of technical and business documents, critical analyses of these forms and practices, and the ethical and social implications of a technical writer's choices.

Prerequisites & Notes: ENG 101; junior standing.
Credits: 5
Grade Mode: Letter

ENG 307 - Literature and Culture I: Pre-16th Century

Analysis, interpretation and discussion of texts in English or in translation composed before the 16th century. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 308 - Literature and Culture II: 16th and 17th Centuries

Analysis, interpretation and discussion of texts in English or in translation from the 16th- and 17th-century cultures. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 309 - Literature and Culture III: 18th and 19th Centuries

Analysis, interpretation and discussion of texts in English or in translation from the 18th- and 19th-century cultures. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 310 - Literature and Culture IV: 19th and 20th Centuries

Analysis, interpretation and discussion of texts in English or in translation from the 19th- and 20th-

century cultures. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 311 - Literature and Culture V: 20th and 21st Centuries

Analysis, interpretation and discussion of texts in English or in translation from the 20th- and 21st-century cultures. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 312 - Film and Culture

Examines various topics through film as a medium of cultural representation. Repeatable once with different topics.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 313 - Introduction to Critical and Cultural Theories and Practices

Introduction to a range of critical and cultural theories in a historical context. Emphasis on critical reading and writing in preparation for 400-level courses in literary and cultural studies.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 332 - Literature and Philosophy

Comparative study of the concepts, techniques and concerns of philosophical inquiry and literary analysis as they arise in the philosophical essay and the literary forms of poetry, drama, fiction, creative nonfiction, film and electronic art in English and translation.

Prerequisites & Notes: ENG 101
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 333 - Topics in Global Literature

Studies in world literature in English or translation and of their historical and cultural contexts.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 334 - Literary and Creative Expression Across North America and Europe

Analysis primarily of North American and European texts with engagement in issues of multiculturalism and cultural diversity. Repeatable once as an elective with different topics. May be taken only once for GUR credit.

Prerequisites & Notes: ENG 101 or equivalent.
Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 335 - Literary and Creative Expressions Across Asia, Africa, the Middle East, and Latin America

Analysis primarily of texts of Asia, Africa, the Middle East and Latin America. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 101 or equivalent.
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

ENG 336 - Scriptural Literatures in Asia, Africa, the Middle East and Latin America

Analysis of literary texts in one or more religious traditions primarily of Asia, Africa, the Middle East and Latin America; study of scriptural literature as a source of cultural paradigms.

Prerequisites & Notes: ENG 101
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

ENG 338 - Women and Literature in North America and Europe

Study of women's texts in various cultures primarily of North America and Europe, including thematic and stylistic development within cultural context.

Prerequisites & Notes: ENG 101
Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

ENG 339 - Mythology and Literature

Comparative study of the patterns, motifs and techniques in world mythologies as they recur and evolve in poetry, drama, fiction, creative nonfiction, film and electronic media in English and translation.

Prerequisites & Notes: ENG 202
Credits: 5

Grade Mode: Letter
GUR Attributes: HUM

ENG 341 - Studies in Children's Literature

Examination of the variety and diversity of literature written for children and adolescents; exploration of book format, major genres, and works by notable authors and illustrators.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 342 - Studies in Literary Genres

Studies in literature from the perspective of genre and of topics in particular literary genres.

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 347 - Studies in Young Adult Literature

Studies in literature written for and/or by young adults. May focus on literary history, genres, theme, critical approaches or specific authors. Class assignments and discussion may focus on using this literature with young adults in secondary schools and in a home setting.

Prerequisites & Notes: ENG 202 or permission of instructor.
Credits: 5
Grade Mode: Letter

ENG 350 - Introduction to Creative Writing

Examines the fundamentals of at least two genres, such as fiction, nonfiction, playwriting, or poetry. The course will include both lectures, focused on model texts, and workshop-style discussions, focused on student work.

Prerequisites & Notes: ENG 101
Credits: 5
Grade Mode: Letter

ENG 351 - Introduction to Fiction Writing

Examines the fundamental tools available to writers of fiction: point of view, dialog, characterization and voice. The course introduces the terms and protocol of workshop critique.

Prerequisites & Notes: ENG 101
Credits: 5
Grade Mode: Letter

ENG 353 - Introduction to Poetry Writing

Introduction to the techniques of poetry writing, including craft, practice and modeling.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 354 - Introduction to Creative Nonfiction Writing

An introductory course in writing nonfiction prose, such as personal essay, memoir, autobiography, travel writing, and other forms.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 364 - Introduction to Film Studies

Overview of the conventions and techniques of narrative cinema with some readings in film theory.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 370 - Introduction to Language

Overview of language structure and use. Topics include phonology, morphology, syntax and semantics, how language is acquired, and how it changes over space and time. Emphasis on English as a global language.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 371 - Introduction to Rhetorical Analysis

Introduction to rhetorical theories and analysis.

Prerequisites & Notes: ENG 101 and junior status.

Credits: 5

Grade Mode: Letter

ENG 401 - Senior Seminar in Writing Studies and Rhetoric

Senior writing seminar on the theories and practices of rhetorical genres.

Prerequisites & Notes: ENG 301 or ENG 302 or ENG 370 or ENG 371, or instructor approval; senior status.

Credits: 5

Grade Mode: Letter

ENG 402 - Advanced Technical and Professional Writing

Writing-intensive class focusing on advanced problems of technical communications and their solutions. Strategies for identifying target readers and meeting their informational needs. Special

emphasis on a technical writer's responsibilities and the ethical, social and technical issues surrounding electronic publishing.

Prerequisites & Notes: ENG 302

Credits: 5

Grade Mode: Letter

ENG 406 - Topics in Critical and Cultural Theory

An advanced course that examines one or more critical or cultural theories.

Prerequisites & Notes: ENG 313 plus two from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 408 - Cultural Studies

An advanced course that applies semiotic and/or textual approaches to a wide range of cultural issues. Repeatable once with different topics.

Prerequisites & Notes: ENG 313 plus two from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 410 - Studies in Literary History

A wide variety of studies in literary history. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 415 - Special Topics in National Literatures

Studies in a variety of topics, canons or national literatures, such as Irish, Canadian, African, Native or Asian American. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371, possible additional prerequisites relevant to topic.

Credits: 5

Grade Mode: Letter

ENG 418 - Senior Seminar

An advanced seminar offering an in-depth exploration of specialized topics. Requires students to develop scholarly projects integrating course material with their own literary, historical, and theoretical interests. This course is not repeatable.

Prerequisites & Notes: Senior Status; ENG 313

ENGLISH

plus two from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 423 - Studies in Major Authors

Studies in the texts of a writer or writers in English or in translation. Repeatable once as an elective with different authors.

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371;

possible additional prerequisites relevant to topic

Credits: 5

Grade Mode: Letter

ENG 436 - The Structure of English

Introduction to English sentence structure. Topics include clause structure, modification, complementation, and syntactic principles such as movement, coordinating and pronominalization.

Prerequisites & Notes: ENG 370 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 438 - Cultural History of English

Examines the cultural, linguistic and literary influences on the development of Old, Middle, Early Modern and present-day English.

Prerequisites & Notes: ENG 370 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 439 - Topics in Language and Linguistics

Explores topics in language and linguistics of interest to students of English literature, creative writing and English education. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 370 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 442 - Studies in Literacy

Examines shifting definitions of literacy and literacy practices from social, cultural, historical, and technological perspectives.

Prerequisites & Notes: One course from ENG 301, ENG 302, ENG 370, ENG 371 or instructor approval.

Credits: 5

Grade Mode: Letter

ENG 443 - Teaching English Language Arts in the Secondary Schools I

Survey of theory, practice, resources and methods of assessment for the teaching of English language arts.

Prerequisites & Notes: ENG 301 or ENG 302; ENG 347; ENG 350; ENG 370; and two from ENG 307, ENG 308, ENG 309, ENG 310, and ENG 311.

Credits: 5

Grade Mode: Letter

ENG 444 - Teaching English Language Arts in the Secondary Schools II

Continuation of the survey of theory, practice, resources and methods of assessment for the teaching of English language arts. This course may include a two-week, one period a day teaching practicum in a middle or high school.

Prerequisites & Notes: ENG 443

Credits: 5

Grade Mode: Letter

ENG 451 - Creative Writing Seminar - Fiction

An advanced course in the writing of fiction. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 351

Credits: 5

Grade Mode: Letter

ENG 453 - Creative Writing Seminar - Poetry

An advanced course providing disciplined expression in a variety of modes of writing poetry. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 353

Credits: 5

Grade Mode: Letter

ENG 454 - Creative Writing Seminar - Creative Nonfiction

An advanced workshop course in the writing of nonfiction, building on skills learned in prior courses. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 354

Credits: 5

Grade Mode: Letter

ENG 455 - Living Writers

An advanced course that combines study of the craft of writing in contemporary works of poetry, fiction, and/or nonfiction and literary expression. May include oral performances and lectures by

visiting writers. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: One from: ENG 351, ENG 353, ENG 354.

Credits: 5

Grade Mode: Letter

ENG 456 - Special Topics in Fiction Writing

Intensive reading, writing and workshops in one or more specific modes of fiction, such as fantasy, flash fiction, or adapting fictional works to other media. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 351

Credits: 5

Grade Mode: Letter

ENG 457 - Special Topics in Poetry Writing

Intensive study of poetic texts in traditional and experimental forms. Opportunity to compose in a variety of poetic forms. Study of appropriate models. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 353

Credits: 5

Grade Mode: Letter

ENG 458 - Special Topics in Creative Nonfiction Writing

Intensive reading, writing and workshop in one or more specific modes of nonfiction, such as memoir, travel writing, autobiography and the personal essay. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 354

Credits: 5

Grade Mode: Letter

ENG 459 - Editing and Publishing

Focuses on a variety of professional editing and publishing procedures, opportunities and venues; politics of the literary marketplace; and careers available to writers.

Prerequisites & Notes: ENG 351, ENG 353 or ENG 354

Credits: 5

Grade Mode: Letter

ENG 460 - Special Topics In Creative Writing - Multi-Genre

Intensive study of topics in creative writing that cross genre boundaries, or that critique those boundaries. Opportunities to compose

experimental or hybrid works. Repeatable with different instructors to a maximum of 10 credits.

Prerequisites & Notes: ENG 351, ENG 353 or ENG 354

Credits: 5

Grade Mode: Letter

ENG 461 - Internship in English: Professional Identity

Students will intern in a local organization and participate in weekly seminar meetings designed to contribute to their internship experience and their own professional identities.

Prerequisites & Notes: Senior status (135 credits) and instructor approval.

Credits: 5

Grade Mode: Letter

ENG 462 - Topics in Professional and Technical Writing

A rhetorical examination of various specific topics confronting technical and professional writers in a rapidly changing technological world. Topics change annually. Repeatable once.

Prerequisites & Notes: One course from ENG 301, ENG 302, ENG 371; or equivalent experience and instructor approval.

Credits: 5

Grade Mode: Letter

ENG 464 - Topics in Film Studies

Examines various specific topics in film studies and theory. Repeatable once with different topics.

Prerequisites & Notes: ENG 364 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 480 - Methods for Writing Assistants

Study and practice in theories and strategies for guiding writers, one-to-one or in groups, face-to-face or online. Repeatable up to 5 credits including the original course. S/U grading.

Prerequisites & Notes: Selection as a Writing Center Assistant.

Credits: 1-3

Grade Mode: S/U

ENG 501 - Literary Theories and Practices

Examination of theories as they affect the practice of literary criticism and scholarship. Some attention to methods of research and documentation in English studies. Practicum in critical writing.

ENGLISH

Credits: 5
Grade Mode: Letter

ENG 502 - Seminar in the Writing of Fiction

Individual projects in fiction along with examination of recently published works of fiction. May be repeated under advisement.

Credits: 5
Grade Mode: Letter

ENG 504 - Seminar in the Writing of Poetry

Individual projects in poetry along with examination of recently published volumes of poetry. May be repeated under advisement.

Credits: 5
Grade Mode: Letter

ENG 594 - Practicum in Teaching

Supervised teaching for MA candidates, under the direction of graduate faculty. Repeatable to a maximum of 5 credits including original course.

Prerequisites & Notes: ENG 501

Credits: 2-5
Grade Mode: Letter

ENG 598 - Research in the Teaching of English

Various announced topics in the teaching of language, literature, composition, technical writing, and creative writing. Repeatable with different topics to a maximum of 10 credits. Each topic repeatable to a maximum of 5 credits.

Prerequisites & Notes: admission to MA program or teaching experience

Credits: 1-5
Grade Mode: Letter

ENG 690 - Thesis Writing

Repeatable to a maximum of 10 credits, including original course.

History

Introduction

Without knowledge of the past, we are, as one writer has phrased it, like victims of collective amnesia groping in the dark for our identity. History as a discipline is rooted in that fundamental human urge, curiosity. It confronts and weighs the relative significance of chance, inevitability and choice in the passage of time.

History is humanistic in its emphasis on the influence of ideas and values, its capacity to both instruct and entertain, and as interpretive literature. In its investigation of social processes, groups and institutions, and the examination of human motivation, it is a social science. It acts as a bridge among disciplines, borrowing from all and contributing a sense of context and sequence to the perception of actions and individuals.

The American historian Carl Becker wrote: "The value of history is, indeed, not scientific but moral: by liberalizing the mind, by deepening the sympathies, by fortifying the will, it enables us to control, not society, but ourselves — a much more important thing; it prepares us to live more humanely in the present and to meet rather than to foretell the future."

Faculty

KEVIN A. LEONARD (1997) Chair and Professor. BA, Pomona College; MA, PhD, University of California-Davis.

ANTHONY KURTZ, University Archivist/Records Manager.

RUTH STEELE, Archivist, Center for the Pacific Northwest Studies.

MIDORI TAKAGI, Associate Professor, Fairhaven College of Interdisciplinary Studies.

Other Departmental Information

Mid-Program Checkpoint

A student seeking to complete a Bachelor of Arts degree in history within a four-year time span should have completed at least three courses from HIST 103, 104, 111, 112, 113, 121, 273, 274, 277, 278, 280, 281, 285, 286, 287 or EAST 201 or 202 by the start of the junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

Graduate Study

For concentrations leading to the Master of Arts degree and for information concerning the archival training program, see the Graduate School section of this catalog.

Bachelor of Arts

History, BA

Department of History, College of Humanities and Social Sciences

60 Credits

Introduction

Most students are required to study history in both elementary and secondary schools. At that level, students often are given the impression that the study of history simply requires memorization of names, dates, and other facts about events in the past. At the college level, however, the study of history facilitates the development of research, analytical, evaluative, and interpretive skills. History majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

Why Consider a History Major?

If you like to read, write, and learn about the experiences of people in different places and times, you should consider the history major. No other major prepares students for as many different careers. History majors' strong communication skills are valued by all employers, including businesses and government agencies. The research, analytical, and evaluative skills that history majors develop prepare them for graduate study in many humanistic disciplines, public affairs, and library science and for careers as journalists, government officials, and attorneys. A growing number of history majors have made careers in the expanding field of public history. They work in museums, archives, and historical preservation.

Major/Career Resources

http://www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring a major in History. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western. It is recommended that students who are considering a major in History take at least three introductory courses in History during their first year. These courses include HIST 103, 104, 111, 112, 113, 121, 123, 273, 274, 277, 278, 280, 281, 285, 286, 287, and EAST 201 and 202.

It is recommended that students contact a faculty advisor in the department as soon as they wish to declare a major in History.

Grade Requirements

A minimum grade point average in history courses of 2.50 is required for graduation. No course with a grade of less than C- may be counted toward this major.

Requirements

For this program history courses are grouped into the following fields:

- United States
- Europe
- East and South Asia
- Africa and Middle East
- Ancient
- Western Hemisphere (outside U.S.)

Credits to be distributed as follows:

- Three courses in one of the above fields, one of which must be an upper-division class
- Three courses in a second field, one of which must be an upper-division class
- Three courses in a third field, one of which must be an upper-division class
- HIST 499 - Historical Research (5 credits)
- Electives under advisement

At least 30 of the 60 credits must be in upper division (300-400 level) courses.

Additional Requirements

The department recommends that majors take the maximum permissible number of history courses in the General University Requirements program. Further, history majors are encouraged to enroll in HIST 401 - Methods of Research and Analysis, which offers practical training in the tools of historical research. Students planning to declare a history major should do so at the earliest possible date.

It is strongly recommended that majors who elect a concentration in a field where languages other than English predominate take enough language study to become proficient in appropriate language(s). Students planning on graduate study in history are advised that many graduate schools require foreign language proficiency for admission.

History/Social Studies, BA

Department of History, College of Humanities and Social Sciences

90 Credits

Introduction

The History/Social Studies major is designed to prepare students to teach history and social studies in secondary schools. In their history courses, History/Social Studies majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills. The required courses in economics, geography, and political science are intended to prepare students to teach these subjects in middle and high schools.

Why Consider a History/Social Studies Major?

If you want to teach history or social studies in a middle or high school, you should consider the History/Social Studies major. However, this major also prepares students for a wider range of careers. The knowledge students acquire and the skills they develop in their history courses and in courses in social sciences prepare them for law school, graduate programs in public policy and international affairs, and careers as journalists, government officials, and attorneys.

Secondary Education students who wish to be endorsed in Social Studies may choose this major. However, the History/Social Studies degree does not require that a student pursue a teaching certificate. History/Social Studies majors interested in Secondary certification must apply separately to the certification programs, such as those in Woodring College of Education. Students usually apply to Woodring in their senior year or after they graduate.

To receive certification, students must also complete an approved teacher certification program. To receive a recommendation for state of Washington certification, students must complete the teacher certification program, including SEC 426, which is offered by the Department of Secondary Education as a part of 1) the undergraduate Bachelor of Arts degree, or 2) a post-baccalaureate program, or 3) the Masters in Teaching degree. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

HISTORY

Grade Requirements

No course with a grade of less than C (2.0) may be counted in this major. Students must achieve a GPA of at least 2.5 in the courses counted in the major. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

- ENVS 204 - Human Geography
 - One course from:
 - PLSC 101 - Government and Politics in the Modern World
 - PLSC 261 - Introduction to Political Theory
 - PLSC 271 - Introduction to International Relations
 - PLSC 291 - Introduction to Comparative Politics
 - PLSC 250 - The American Political System
 - One course from:
 - ECON 206 - Introduction to Microeconomics
 - ECON 446 - Economics for the Teacher (preferred)
 - One course from:
 - ECON 207 - Introduction to Macroeconomics
 - ECON 447 - Methods for Teaching About the National Economy in the Public Schools (preferred)
 - Additional credits in any of the above disciplines or anthropology, sociology or psychology to a total of at least 30 credits
- History credits should be distributed under advisement as follows:
- 2 courses in the history of the United States. One course must focus on the period before 1865 and the other must focus on the period since 1865.
 - 2 courses with an emphasis on the 600-1450 CE period. One course must focus on Europe and the other course must focus on East Asia, South Asia, Africa, and/or the Middle East.
 - 2 courses with an emphasis on the period since 1450 CE. One course must focus on Europe, and the other course must focus on East Asia, South Asia, Africa, the Middle East, Canada, and/or Latin America.
 - 2 courses in the history of the ancient world (prior to 600 CE), covering two different continents.
- HIST 391 - History of the Pacific Northwest
 - HIST 499 - Historical Research
 - Electives under advisement

NOTE: At least 30 of the 60 history course credits must be at the upper-division level.

To assure that competency requirements have been met, students should consult the department's approved list for courses for periods and geographical regions.

Bachelor of Arts in Education

History — Elementary, BAE

Department of History, College of Humanities and Social Sciences

45 Credits

Introduction

The History-Elementary major is designed for students who plan to become elementary school teachers. In their history courses, History-Elementary majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to

develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a History-Elementary Major?

If you want to teach in an elementary school and are interested in history, you should consider the History-Elementary major.

How to Declare (Admission and Declaration Process):

It is recommended that students contact a faculty advisor the department as soon as they wish to declare a major in History-Elementary.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

A minimum grade point average in history courses of 2.50 is required for graduation. At least 15 of the credits must be in upper-division courses. No course with a grade of less than C (2.0) may be counted in this major.

Requirements

- Two courses in United States history
- Two courses in European history
- Two courses from one of the following areas: East and South Asia; or Africa and Middle East; or Western Hemisphere (outside U.S.)
- HIST 391 - History of the Pacific Northwest
- Electives under advisement

Additional Requirements

HISTORY

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching
 - ELED 471 - Documenting Teaching
 - ELED 480 - Literacy: Beginning Communicators
 - ELED 481 - Literacy: Fluent Communicators
 - ELED 491 - September Experience
 - ELED 492 - Practicum: Experience in Literacy Methods
 - ELED 494 - Internship - Elementary

- HLED 455 - Health Education Grades K-8
- MATH 381 - Teaching K-8 Mathematics I
- MATH 382 - Teaching K-8 Mathematics II
- MATH 383 - Teaching K-8 Mathematics III
- MATH 491 - Internship Seminar - Teaching K-8 Mathematics
- PE 345 - Physical Education for Elementary School
- SCED 480 - Science Methods and Curriculum for the Elementary School
- SCED 490 - Laboratory/Field Experience in Elementary Science

Program Advisor: Dr. Randall Jimerson, Bond Hall 324, 360-650-3139, Rand.Jimerson@wwu.edu

Goals

The Department of History offers a graduate program leading to the degree of Master of Arts in history with a certificate in archives and records management. The Graduate Program in Archives and Records Management (ARM) prepares students for professional careers in both archives and records management. The curriculum emphasizes the interdependence of these two disciplines, both of which are essential to the challenges of documenting and preserving essential evidence of modern organizations and individuals.

HISTORY

The program prepares students to: 1) enter a professional career as an archivist or records manager; 2) apply analytical skills to problem-solving and to evaluation of a broad range of record keeping needs within organizations; 3) enter doctoral programs or pursue other advanced academic training; and 4) assume positions as researchers, writers, teachers, or curators in a variety of public and private settings.

Grounded in the study of history, the program recognizes the value of historical knowledge and understanding as a basis for identifying and preserving records of enduring value to society. The curriculum integrates automation and electronic records with traditional methods for textual, audio, and visual records. Students examine basic principles of archives and records management, learn methods of selecting, organizing, and using recorded information, and gain practical work experience in applying these techniques through an extended internship. A required master's thesis provides opportunity for original research and writing. The purpose of this program is to prepare students for a career and to enable them to learn to think and function as professional archivists and/or records managers.

Prerequisites

A baccalaureate degree from an accredited U.S. college or university, or an equivalent degree from a foreign university, or the permission of the department. Applicants with less than 25 credits in history or historical studies will be required to demonstrate knowledge of history and an ability to conduct historical research. For further information on admission requirements and procedures, contact the program director. Applicants with an advanced degree from an accredited institution are recommended, but not required, to submit GRE scores.

Program Requirements (56 credits)

The ARM requires 56 credits and foreign language competence. Two years minimum are required to complete the program although some students may take longer.

- HIST 505 - Historical Theory and Method
- HIST 525 - History and Principles of Archives and Records Management
- HIST 530 - Arrangement and Description of Archives
 - One course from:
 - HIST 526 - Selection and Appraisal
 - HIST 532 - Records and Information Management
 - One course from:
 - HIST 528 - Reference, Access and Outreach
 - HIST 534 - Preservation of Archival Materials
 - HIST 536 - Internship in Archives and Records Management
 - HIST 538 - Advanced Seminar in Archives and Records Management
 - HIST 539 - Research and Writing Seminar: Archives and Records Management
- Two graduate courses in history
- Elective course

Additional Information

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administrated by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program. ARM master's students may demonstrate computer programming competence, in lieu of a foreign language, by completing a three course

sequence (e.g. CSCI 102, CSCI 202, MIS 314) with final course grade of B or better, or as approved by the history faculty.

Internship

Students complete a 350-hour internship (HIST 536) at a cooperating archives or records management agency. This provides supervised practical experience in professional work. Internships have been available in recent years in governmental, academic, business, and historical organizations in the Pacific Northwest and throughout the U.S. and Canada. Selection of internships is based on individual needs and interests, in consultation with the program advisor.

Electives

Electives, including courses in history, archives, records management, or another discipline related to the student's goals and interests, should be chosen in consultation with the program advisor.

Research Seminar

A Research Seminar (HIST 539) is required. Topics may relate to any aspect of archives, records management, or information studies. The Research Seminar provides a structured framework for original research, writing, and revisions, typically covering three academic terms during the second year of graduate study. The result will be an original research article suitable for submission for publication, either in print or online.

HISTORY

Affiliates

Friesen, Kitty, paper conservator, Archives.

Kurtz, Anthony, MA History with a certificate in Archives & Records Management.

Steele, Ruth, MA History with a certificate in Archives & Records Management, MA (Hons) History, University of Edinburgh.

Goals

The program prepares students to: 1) enter doctoral programs or pursue other advanced academic training in history; 2) teach at the secondary or community-college level, and 3) assume positions as researchers, writers, teachers and curators in a variety of public and private settings

Prerequisites

Admission to graduate status and to graduate courses requires completion of an undergraduate major in history or the permission of the department. Applicants must also complete the general section of the Graduate Record Examination prior to admission to the program.

Application Information

Admit Quarter: Students are generally admitted only for the academic year, not summer.

TA Deadlines: April 1 for all program specializations.

Supporting Materials:

- In addition to the Graduate School application requirements, all history applicants must submit a brief statement of purpose and goals, and a writing sample, such as a research paper or similar example of writing ability

Program Requirements

Non-Thesis: Basic Requirements 48 credits

- HIST 505 - Historical Theory and Method (4)
 - Three courses in one field and three courses in another, with no more than one 400-level course in each area (maximum 10 credits at the 400 level)
Submission of three revised graduate seminar papers to a committee of three department faculty no later than week seven of the final term of study. Proposed revisions to be arranged with that committee no later than week seven in the term prior to the final term of study
 - Completion of Language Requirement (see below)

Additional Information

Fields of Study

Fields of study fall into four broad areas:

- United States, Western Hemisphere (excluding USA), Europe, Africa and Middle East, Asia
- Ancient, Medieval, Early Modern, or Modern Periods
- Comparative History (consult with graduate advisor)
- Archives and Records Management.

Students who choose the non-thesis option are required to complete at least three courses in one field and three courses in another, with no more than one 400-level course in each as determined in consultation with the graduate advisor (maximum 10 credits at the 400 level).

Electives

To complete a program in the Non-Thesis option electives may be chosen, in consultation with the graduate advisor from other seminars, readings courses, 400-level undergraduate courses (maximum of 10 credits) or HIST 500 (in rare cases, only with permission of the graduate advisor).

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administered by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program, or, where appropriate and with departmental permission, a demonstrated competence in mathematics, statistics, or appropriate computer programs/processes, as determined by advisor.

For further information, contact departmental office, Bond Hall 364, 360-650-3429.

Program Requirements

Thesis: Basic Requirements 45 credits

- HIST 505 - Historical Theory and Method (4)
- HIST 690 - Research and Writing Seminar: Thesis (12)
 - A written thesis prospectus is a prerequisite for 690 registration
 - Three courses in a primary field and two in a secondary field
 - Elective courses to total minimum 45-credit requirement
 - Completion of Language Requirement (see below)

Additional Information

Fields of Study

Fields of study fall into four broad areas:

- United States, Western Hemisphere (excluding USA), Europe, Africa and Middle East, Asia
- Ancient, Medieval, Early Modern, or Modern Periods
- Comparative History (consult with graduate advisor)
- Archives and Records Management.

Students who choose the thesis option are required to complete at least three courses in a primary field and two courses in a secondary field, those fields to be determined in consultation with the graduate advisor and thesis committee chair.

Electives

To complete the program in the Thesis option, electives may be chosen, in consultation with the graduate advisor from other seminars, readings courses, 400-level undergraduate courses (maximum of 10 credits) or HIST 500 (in rare cases, only with permission of the graduate advisor).

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administered by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program, or, where appropriate and with departmental permission, a demonstrated competence in mathematics, statistics, or appropriate computer programs/processes, as determined by advisor.

For further information, contact departmental office, Bond Hall 364, 360-650-3429.

Minor

Foreign Cultures Minor

Department of History, College of Humanities and Social Sciences

25 credits*

Introduction

The foreign cultures minor is designed to allow students who are studying French, Spanish, or Russian to deepen their knowledge of the histories of the places where these languages are spoken.

Why Consider a Foreign Cultures Minor?

If you are studying French, Spanish, or Russian, the foreign cultures minor will allow you to gain a deeper understanding of the histories of the parts of the world in which these languages are spoken. The minor will also allow you to develop your ability to analyze historical sources and your ability to communicate effectively in writing.

Sample Careers

Foreign Service Officer | Attorney | Government Official | Journalist | Business Manager | FBI/CIA Agent

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the foreign cultures minor. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western.

HISTORY

It is recommended that students contact a faculty advisor in the department as soon as they wish to declare the foreign cultures minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two courses in one of the following areas:

France and the French-speaking world:

- HIST 277 - Canada: A Historical Survey
- HIST 286 - African History, 1800-present
- HIST 341 - France 1500-1815
- HIST 342 - France 1815-1945
- HIST 359 - America and Vietnam
- HIST 376 - French Colonial Canada: 1534-1763
- HIST 478 - History of Nationalism in French Canada

Latin America:

- HIST 273 - Latin America: 1492-1824
- HIST 274 - Latin America: 1824 to the Present
- HIST 474 - U.S. Latin American Relations

Russia:

- HIST 333 - Imperial Russia: 1689-1917
- HIST 334 - 20th Century Russia
- HIST 364 - Film As History (in appropriate topic area)

- Electives under advisement

* **Half must be in upper-division courses**

History Minor

Department of History, College of Humanities and Social Sciences

25 Credits

Introduction

Most students are required to study history in both elementary and secondary schools. At that level, students often are given the impression that the study of history simply requires memorization of names, dates, and other facts about events in the past. At the college level, however, the study of history facilitates the development of research, analytical, evaluative, and interpretive skills. History minors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

Why Consider a History Minor?

If you are not a history major but like to read, write, and learn about the experiences of people in different places and times, you should consider the history minor. In addition to the knowledge and skills they acquire in their minors, history minors develop strong analytical, evaluative, and communication skills that are valued by all employers, including businesses and government agencies.

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the history minor. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western. It is recommended that students contact a faculty advisor in the department as soon as they wish to declare the history minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A minimum grade point average in history courses of 2.50 is required for graduation.

Requirements

For this program history courses are grouped into the following fields:

- United States
- Europe
- East and South Asia
- Africa and Middle East
- Western Hemisphere (outside U.S.)
- Ancient

Credits should be distributed as follows:

- Two courses in one of the above fields
- Two courses in a second field
- Electives under advisement
- At least ten credits must be in upper-division courses

Latin American Studies Minor

Combined minor offered by the Departments of History, Anthropology and Modern and Classical Languages, College of Humanities and Social Sciences

30 Credits**Introduction**

This program is offered so that students interested in Latin America may be able to build expertise by drawing on the separate courses in this area offered by the departments of this University.

A major in Latin American Studies is available through the student-faculty designed majors program (see the Liberal Studies section of this catalog).

HISTORY

For further information and advisement, consult the Department of Modern and Classical Languages, the Department of History or the Department of Anthropology.

Why Consider a Latin American Studies Minor?

If you are interested in the literature, history, and cultures of Latin America, you should consider a Latin American Studies minor. This minor will help you to see the connections between your courses in Latin America literature, history, and anthropology. This minor is especially suitable for Spanish, anthropology, or history majors.

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two courses in Spanish above the 201 level
- 10 credits from:
 - HIST 273 - Latin America: 1492-1824
 - HIST 274 - Latin America: 1824 to the Present
 - ANTH 365 - Peoples of Latin America
- Remainder in courses relating to Latin America from any academic department, under advisement.

Public History Minor

Department of History, College of Humanities and Social Sciences

25 Credits

Introduction

Public History, also sometimes known as "applied history," includes the production and presentation of historical interpretations for the general public and for more specialized audiences. Many historical consultants, museum professionals, government historians, archivists, oral historians, cultural resource managers, curators, video and media producers, historic preservationists, policy advisors, and local historians

consider themselves public historians. Unlike history teachers, who often work as individuals to design and deliver their courses, most public historians work in cooperation with community members and professionals from other disciplinary backgrounds.

Why Consider a Public History Minor?

If you are interested in history but are not particularly interested in teaching, you should consider a public history minor. The public history minor can help to prepare you for a career as a historical consultant, museum professional, archivist, cultural resource manager, video and media producer, historic preservationist, or policy advisor.

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the Public History minor. It is recommended that students contact a faculty advisor as soon as they wish to declare the Public History minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- HIST 393 - Introduction to Public History
- HIST 494 - Public History Internship (repeatable to 10 credits)
 - 15-17 additional credits under advisement outside the department of the student's declared major (one methods course strongly recommended)

Courses taken for credit in these programs may not be counted toward the major.

WWU Certificate (Non-Degree)

Archives and Records Management Certificate Program

The department also offers a post-master's certificate in archives and records management to students who already possess an advanced degree from an accredited institution.

Application Information

Admissions: Those seeking the ARM certificate apply to the Graduate School as post-master's degree candidates. Applicants whose advanced degree is in a field other than history must take at least one history

HISTORY

course in addition to certificate requirements (see below). Graduate Record Examination scores are recommended, but not required. See other application information for the History MA program.

ARM Certificate Requirements

ARM certificate students with an advanced degree in history must complete 24 credits.

- HIST 525 - History and Principles of Archives and Records Management
 - One course from:
 - HIST 530 - Arrangement and Description of Archives
 - HIST 532 - Records and Information Management
 - HIST 536 - Internship in Archives and Records Management
 - Two of the following:
 - HIST 526 - Selection and Appraisal
 - HIST 528 - Reference, Access and Outreach
 - HIST 530 - Arrangement and Description of Archives (4)
 - HIST 532 - Records and Information Management (4)
 - HIST 534 - Preservation of Archival Materials
 - HIST 538 - Advanced Seminar in Archives and Records Management
- ARM certificate students with an advanced degree in a field other than history must complete 24 credits, plus one additional history course at the 500 level (4 credits).

History Courses

HIST 103 - Introduction to American Civilization: American History to 1865

From ancient America to the end of the Civil War.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 104 - Introduction to American Civilization: American History Since 1865

From the end of the Civil War to the present.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 111 - Introduction to Western Civilization: Prehistory to 476

Survey of the political, social and cultural history of western civilization from prehistory to the collapse of the Roman empire.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 112 - Introduction to Western Civilization: 476-1713

Human development in the Western world; emphasis upon ideas, institutions, forces and movements shaping contemporary life. Survey of the cultural, political, social and economic history

of Europe from the early Middle Ages to the signing of the Treaty of Utrecht.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

Human development in the Western world; emphasis upon ideas, institutions, forces and movements shaping contemporary life. Survey of the political, social, economic and diplomatic history of Europe from the opening of the Enlightenment to the present.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 121 - World History to 500

Survey of major topics in World History from the origins of civilization to 500 AD.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 123 - World History, 1500 to the Present

Survey of major topics in World History from 1500 to the present.

Credits: 5

Grade Mode: Letter
GUR Attributes: HUM

HIST 131 - Going to College in America

This course offers students an historical overview of the development of the American college and an exploration of current questions facing the future of college education.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 151 - Communities of the Ancient World

Examines both the development of ideas of community in ancient world, and the ways in which the writing of histories of ancient communities affects the modern construction of identity. Involves analysis of primary documents from antiquity as well as discussions of the methods used in historical studies. We will focus on the related topics of the developments of civilization in Mesopotamia and Greece, and the transmission of ideas in the ancient world.

Prerequisites & Notes: Entering Freshman.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 152 - Being Human

Introduces students to the core question of the humanities: what does it mean to be a human being? We will read a variety of authors from ancients to recent fiction. Throughout we will explore the meaning of human existence and its relation to education.

Prerequisites & Notes: First Year Students

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 158 - Race and Identity in Modern America

Explores the ways in which race and identity have been formulated in American history and investigates the practice of history and its relationship to other disciplines. Involves examinations of primary documents as well as discussions of methods used in historical analysis. Topical coverage will span the last century and a half of American history.

Prerequisites & Notes: Freshman standing

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

HIST 262 - African American History to 1865

The history of people of African descent in American and U.S. history from the beginnings of the trans-Atlantic Slave trade through the Civil War.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 263 - African Americans Since 1865

Introduces students to the experiences of African American women and men since the Civil War, with special emphasis on the Civil Rights and Black Power movements.

Prerequisites & Notes: HIST 104

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 265 - Lesbian, Gay, Bisexual, and Transgender Experiences in U.S. History

Examines the experiences of lesbians, gay men, bisexuals, and transgendered people in U.S. history from the mid-nineteenth century to the present, with emphasis on identity and community formation and civil rights and liberation movements.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 268 - Introduction to Asian American History

Contributions Asian Americans have made to the development of the United States with emphasis on immigration, adaptation, settlement and their struggle for justice and equality.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 273 - Latin America: 1492-1824

Political, economic and sociocultural trends from the Spanish conquest through the independence movements.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 274 - Latin America: 1824 to the Present

Political, economic and sociocultural trends from the post-independence period to the 1990s.

Credits: 5

HISTORY

Grade Mode: Letter
GUR Attributes: ACGM

HIST 275 - The Indian in American History

Events and persons critical to history of North American Indians; review of interpretations of Indian cultures and history.

Prerequisites & Notes: sophomore standing
Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 277 - Canada: A Historical Survey

Canadian history from aboriginal occupation to the present.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 278 - Multiculturalism in Canada

Historical development and current issues of multiculturalism in Canada through the lenses of immigration, acculturation, policies, critiques, and the lives of hosts and newcomers.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 280 - Introduction to East Asian Civilizations

The origins and evolution of the political, economic and social aspects of East Asian civilizations through the early-modern period. Also offered as EAST 201.

Prerequisites & Notes: also offered as EAST 201
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 281 - East Asian History in the Early-Modern and Modern Eras

Examines political, cultural and social aspects of East Asian civilizations in the early-modern and modern periods. Also offered as EAST 202.

Prerequisites & Notes: also offered as EAST 202
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 285 - African History to 1800

An introduction to debates and topics concerning the early history of Africa. This course will highlight the movement of people, ideas, and commodities, as well as the development of African political

economy, states, and culture from antiquity to 1800.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 286 - African History, 1800-present

This course focuses on Africa's history since 1800. The course will address the following major themes: emancipation, colonization, development, medicine, gender, tradition, nationalism, independence, neo-liberalism, poverty, and public health.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 287 - Introduction to Islamic Civilization

A thematic approach to religious and cultural aspects of Middle Eastern society; the development of Islam as a body of religious thought and practice; and major cultural movements in the Middle East.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 289 - Islam in France

Examines Islamic-French interactions from the eighth century to the present with an emphasis on colonialism, secularization, immigration, and Islamic experience in post WWII France.

Credits: 5
Grade Mode: Letter

HIST 310 - History of Ancient Mesopotamia

Introduction to the culture and history of Mesopotamia from the dawn of civilization to the end of the Roman era. Emphasis on the civilizations of the Fertile Crescent, including the Sumerians, Babylonians, Assyrians, and Hittites.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.
Credits: 5
Grade Mode: Letter

HIST 311 - History of Ancient Egypt

Introduction to the culture and history of ancient Egypt. Focus on reading and discussing both modern textbooks and translations of ancient texts to gain an understanding of the people behind the pharaohs and the pyramids.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.
Credits: 5
Grade Mode: Letter

HIST 312 - History of Ancient Greece

Introduction to the culture and history of ancient Greece, including the Bronze Age Aegean. Explores ancient Greece from the beginnings of Minoan civilization on Crete through the rise of Alexander and the Hellenistic world.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.
Credits: 5
Grade Mode: Letter

HIST 313 - History of Ancient Rome

The political and social development of Rome from village to republic to empire, including an exploration of the whole of the Roman world and its impact on the development of Mediterranean civilization.

Prerequisites & Notes: HIST 111 or HIST 121 or 151 or LBRL 121 or permission of instructor.
Credits: 5
Grade Mode: Letter

HIST 314 - The American and European Enlightenment

An intellectual and cultural exploration of the major ideas about human nature and society in the trans-Atlantic American and European Enlightenment.

Prerequisites & Notes: One of: HIST 103 or HIST 104 or HIST 111 or HIST 112 or HIST 113 or HIST 152 or HIST 363 or LBRL 123
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 315 - Europe in the Early Middle Ages: 300-1050

Western Europe from late antiquity through the feudal era; particular attention to Roman-barbarian interchanges, Christianization and the rise, apogee and decline of the Carolingian empire.

Prerequisites & Notes: HIST 112 or LBRL 122 or instructor permission
Credits: 5
Grade Mode: Letter

HIST 316 - Europe in the High Middle Ages: 1050-1450

Western Europe from c. 1050 to the end of the Middle Ages; focus on social, economic, religious and cultural developments.

Prerequisites & Notes: HIST 112 or LBRL 122 or instructor permission.
Credits: 5
Grade Mode: Letter

HIST 320 - War in the Middle Ages

War and related phenomena (crusades, Peace of God, Truce of God, laws of war, etc) in medieval Europe, with particular emphasis on the period from 1000-1450.

Prerequisites & Notes: HIST 112 or LBRL 122
Credits: 5
Grade Mode: Letter

HIST 321 - Reformation Europe and the Age of Religious Wars

Surveys the social, cultural and political changes that occurred in Europe after the Reformation shattered Western Christendom and challenged many of the fundamental beliefs and practices of medieval society.

Prerequisites & Notes: HIST 112 or LBRL 122
Credits: 5
Grade Mode: Letter

HIST 333 - Imperial Russia: 1689-1917

Survey of major political, social and economic developments of Russia from Peter the Great to the fall of the Romanov dynasty.

Prerequisites & Notes: HIST 113 or HIST 123 or LBRL 123
Credits: 5
Grade Mode: Letter

HIST 334 - 20th Century Russia

Russian history from 1900 to 2000; emphasis on continuity and change.

Prerequisites & Notes: HIST 113 or HIST 123 or LBRL 123
Credits: 5
Grade Mode: Letter

HIST 341 - France 1500-1815

Analysis of the transformation of France from a multilingual, multicultural kingdom to centralized nation-state; special attention to competing religious confessions, family organization and the state, Louis XIV's policies and the French Revolution and the Napoleonic achievement.

Prerequisites & Notes:
HIST 112 or HIST 113 or LBRL 122
Credits: 5
Grade Mode: Letter

HIST 342 - France 1815-1945

HISTORY

Surveys the political, cultural and economic developments in France from the Napoleonic regime to the end of World War II.

Prerequisites & Notes: HIST 113

Credits: 5

Grade Mode: Letter

HIST 350 - American Colonial History

The history of colonial settlements in North America from first contact to the beginnings of the imperial crisis that led to the War for American Independence.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 353 - Latinas/os in the US West

Examines Spanish colonization of the region that became the western United States, the Mexican social, political, and cultural order, the impact of U.S. conquest on Spanish-speaking people, the emergence of new ethnic and racial identities, and immigration from Mexico and Central America.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

HIST 354 - Energy in American History

An exploration of the uses and meanings of energy in American history. Topics include development of and transitions between different energy regimes; relations between energy producers and communities; energy and American foreign policy; and social, cultural, and environmental changes linked to changing patterns of energy production and consumption.

Prerequisites & Notes: Sophomore status.

Credits: 5

Grade Mode: Letter

HIST 355 - Health and Disease in American History

Explores the history of health and disease in cultural, social, and political context over three hundred years of American history. Topics include the role of epidemics in national expansion and war; the rise of public health; race and disease; social movements and medical knowledge.

Prerequisites & Notes: Sophomore standing; HIST 103 or HIST 104, or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 359 - America and Vietnam

This course will look at the relationship between the United States and Vietnam from 1945 to the present, and examine the role this relationship has played in cultural developments in both countries as well as the emergence of a transnational Vietnamese/American culture. It will provide students with an introduction to postcolonial theory, transnational history, ideas about collective memory, the history of the globalization of culture, and the history of the Vietnamese Diaspora.

Prerequisites & Notes: Instructor permission.

The study abroad co-requisite for this course, HIST 3370, requires a trip to Vietnam.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

HIST 360 - History of Religion in Early America

History of religious traditions, practices, ideas, and movements in America from colonial era to mid-nineteenth century.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 361 - History of Religion in Modern America

History of religious traditions, practices, ideas, and movements in America from mid-nineteenth century to the present day.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 363 - The American Revolution

This course will cover the causes and consequences of the American Revolution, as well as the experiences of Americans living through it.

Prerequisites & Notes: One of the following:

HIST 103 or HIST 104 or HIST 111 or HIST 112 or HIST 113 or HIST 151 or HIST 155 or HIST 158 or HIST 273 or HIST 274 or HIST 277 or HIST 280 or HIST 285 or HIST 287 or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 364 - Film As History

Readings and related films on selected historical topics; subject and course content varies with instructor. Repeatable with various topics.

Prerequisites & Notes: Established by each instructor. Consult Classfinder and/or Timetable of

Classes before registering.

Credits: 5

Grade Mode: Letter

HIST 365 - History of Sexuality in the United States

Examines the changing definitions of sexuality from Ancient America to 1990's.

Prerequisites & Notes: Junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 366 - The Early American Republic

This course will introduce students to major themes concerning the development of the American republic following the Revolution until the 1840s.

Prerequisites & Notes: HIST 103 or HIST 104 or HIST 111 or HIST 112 or HIST 113 or HIST 121 or HIST 123 or HIST 151 or HIST 155 or HIST 158 or HIST 273 or HIST 274 or HIST 277 or HIST 280 or HIST 285 or HIST 286 or HIST 287 or LBRL 122 or LBRL 123 or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 367 - US Women to 1865

A survey of the changing social, economic and political roles of women in the United States from settlement through the Civil War.

Prerequisites & Notes: HIST 103 or HIST 104

Credits: 5

Grade Mode: Letter

HIST 368 - US Women from 1865

A survey of the changing social, economic and political roles of women in the United States from the Civil War to the present.

Prerequisites & Notes: HIST 103 or HIST 104

Credits: 5

Grade Mode: Letter

HIST 369 - Women, Gender, & Sexuality in African History

This course examines women, gender, and sexuality across topics like abolition, marriage, consumption, reproduction, health, and political leadership in recent African history.

Prerequisites & Notes: Sophomore status

Credits: 4

Grade Mode: Letter

HIST 370 - Chinese History to 600 Ad

The evolution of early civilization and the first stage of high civilization in China to the Tang dynasty.

Credits: 5

Grade Mode: Letter

HIST 372 - Chinese History: 1800 to Present

China's development from the relative peace and prosperity of the late 18th century through the devastating wars and imperialist incursions of the 19th century to the struggle in the 20th century to create a modern nation-state and regain a position of wealth and power in an often hostile world.

Survey ends with the crushing of the pro-democracy movement at Tiananmen in 1989 and its consequences. Chinese materials in translation will help students explore how individuals experienced the major political, cultural, social and economic transformations of the past two centuries.

Credits: 5

Grade Mode: Letter

HIST 374 - Premodern Japanese History

A general survey tracing the development of Japan's unique civilization from its earliest beginnings through the first half of the 19th century. Japan's diverse artistic, religious and intellectual traditions will be presented in sociohistorical context. Topics include the creation/maintenance of Japan's distinct national identity in the face of cultural borrowing, the role of religion in Japanese society, a critical analysis of the Bushido Way of the Warrior ethic, and the importance of the Imperial Institution for Japanese unity.

Prerequisites & Notes: Sophomore or junior or senior status; HIST 280 or HIST 281 or EAST 201 or EAST 202 highly recommended; or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 375 - Modern Japanese History

Traces Japan's evolution into a 20th-century world power from the Meiji Restoration (1868 C.E.) to the late Showa period. Sociopolitical history is emphasized. Major topics include the nature of the Meiji Restoration itself; the forces affecting Japan's modernization; internal and external pressures upon the Japanese state (both pre- and post-war); the importance of Tennosei Emperor System; the impact of the Occupation; and Japan's role in the New World Order.

Prerequisites & Notes: Sophomore or junior or senior status; HIST 280 or HIST 281 or EAST 201 or EAST 202 highly recommended; or permission of instructor.

HISTORY

Credits: 5
Grade Mode: Letter

HIST 376 - French Colonial Canada: 1534-1763

A history of people and events making the social, cultural, political and economic structures of Canada under French colonial rule. Themes include colonialism, relationships with First Nations, religion, authority, social structures, gender, war and peace, and the nature of the Conquest.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5
Grade Mode: Letter

HIST 377 - Japanese History Through Film

Use of film to examine facets of the Japanese historical experience(s) in different periods. Lectures provide historical context for the films. The time frame extends from the Late Heian period [c. 12 century through the late 20th century].

Prerequisites & Notes: Junior or senior status

Credits: 5
Grade Mode: Letter

HIST 379 - Canadian American Relations

Examination and impacts of significant developments in the political, diplomatic, economic, social and cultural relations between Canada and the United States.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5
Grade Mode: Letter

HIST 385 - West African History

The history of West Africa from 1500 to the present.

Prerequisites & Notes: sophomore standing

Credits: 5
Grade Mode: Letter

HIST 386 - Southern Africa

Development of African and European societies in South Africa and neighboring states, their relations and conflicts.

Prerequisites & Notes: sophomore standing

Credits: 5
Grade Mode: Letter

HIST 387 - History of the Jews

An analysis of Jewish history and culture in medieval and modern Europe and in the classical and modern Middle East culminating in the development of the Jewish state in the Middle East.

Prerequisites & Notes: Any from: HIST 111, HIST 112, HIST 113, HIST 287, LBRL 121, LBRL 122, LBRL 123, or any upper-division European or Middle-East history course; junior standing.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 390 - Topics in History

Specialized topics in history. The subject of each individual course and its prerequisite will be announced in the Timetable of Classes. Repeatable with different topics.

Prerequisites & Notes: junior standing

Credits: 5
Grade Mode: Letter

HIST 391 - History of the Pacific Northwest

Examines key themes and developments in the history of the Pacific Northwest from the eighteenth century until the present, with specific emphasis on Washington State. Required for certification of secondary school social studies teachers and for Elementary Education Studies majors.

Prerequisites & Notes: sophomore standing

Credits: 5
Grade Mode: Letter

HIST 393 - Introduction to Public History

Introduction to concepts and issues inherent in public history as a preparation for understanding the uses of history beyond academe and/or the K-20 classroom.

Credits: 5
Grade Mode: Letter

HIST 401 - Methods of Research and Analysis

This course examines diverse primary and secondary sources and teaches students how to analyze them critically. Students also prepare for 499 by crafting a research proposal in their chosen field.

Prerequisites & Notes: 3 upper-division history courses.

Credits: 5
Grade Mode: Letter

HIST 405 - The Traditional Middle East

From the 6th Century to 1800.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5
Grade Mode: Letter

HIST 406 - Middle East, 1800 to the Present

From 1800 to the present.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 407 - History of the Israel/Palestinian Conflict

Emergence of Israel and Palestinian national identities and competition for control of territory and state formation.

Prerequisites & Notes: Junior status; HIST 113 or LBRL 123 or instructor permission.

Credits: 4

Grade Mode: Letter

HIST 408 - World War II: the European War

Examines the causes and conduct-political, military and economic-of World War II in Europe and North Africa, 1939-1945, the great mid-20th century conflict between the Axis and Allied powers.

Prerequisites & Notes: Junior status

Credits: 5

Grade Mode: Letter

HIST 409 - World War II: the Pacific War

This course addresses the major causes, campaigns, consequences, and historical controversies related to World War II in the Pacific.

Prerequisites & Notes: Junior Status.

Credits: 5

Grade Mode: Letter

HIST 410 - The First Cities: Urbanization in the Ancient World

Survey of the emergence and development of cities in antiquity, and of daily life in those cities, from the first urban experiences in Mesopotamia through the Greek city-states and up to the imperial city of Rome.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or HIST 310 or HIST 311 or HIST 312 or HIST 313 or LBRL 121 or junior status.

Credits: 5

Grade Mode: Letter

HIST 415 - Undergraduate Seminar in Medieval History

Focus is on selected topics in medieval European history. Repeatable to a maximum of 8 cr.

Prerequisites & Notes: upper-level medieval European history course; instructor permission

Credits: 5

Grade Mode: Letter

HIST 418 - Medieval England

A study of the social, religious and political development of England from the Anglo-Saxon migrations through the end of the War of the Roses. Charts the transformation of England from a minor, peripheral territory at the beginning of the Middle Ages to a central part of the European order at the end of the period.

Prerequisites & Notes: HIST 315 or HIST 316 or any 300-level history course

Credits: 5

Grade Mode: Letter

HIST 421 - Gender in Early Modern Europe

A thematic study of gender, gender relations and sexual identity in Europe from 1300 to 1800.

Prerequisites & Notes: HIST 112. Recommended any 300-or 400-level HIST courses. Junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 422 - History of Medieval Italy

A study of the most sophisticated and culturally influential region of medieval Europe. Primary focus on the communes of northern and central Italy in the period of 1050-1347, with some treatment also of the Lombard, Carolingian and Ottonian periods, and of the radically different patterns of development in southern Italy.

Prerequisites & Notes: HIST 112 or HIST 315 or HIST 316 or LBRL 122

Credits: 5

Grade Mode: Letter

HIST 428 - Modern Europe: 1914-1945

The First World War and the results of that conflict, attempts at world organization, the states of Europe between the wars, the Second World War.

Prerequisites & Notes: junior standing

Credits: 5

Grade Mode: Letter

HIST 432 - Germany: 1914 to the Present

The impact of World War I; the Weimar Republic, the Third Reich and the period since 1945.

Prerequisites & Notes: junior standing

Credits: 5

Grade Mode: Letter

HIST 440 - Britain: 1688 to the Present

HISTORY

Political, social, economic and intellectual history of Britain from the Glorious Revolution to the present; development of parliamentary, economic and social institutions.

Prerequisites & Notes: HIST 113 or LBRL 123 or equivalent
Credits: 5
Grade Mode: Letter

HIST 447 - History of the Sciences of Nature
Examines the historical roots and development of the sciences of nature in Europe and the United States, 1600-2000. Will combine history of science with social and cultural history. Will be most attentive to those developments that shaped the emergence of environmental sciences.

Prerequisites & Notes: HIST 103 or HIST 104 or HIST 113; junior standing
Credits: 5
Grade Mode: Letter

HIST 448 - European Intellectual History
A study of the evolution of European thought from the Middle Ages to the present with primary emphasis on the era since 1700.

Prerequisites & Notes: HIST 113 or LBRL 123
Credits: 5
Grade Mode: Letter

HIST 449 - East Central Europe and the Balkans Since 1900
The place of the East European nations, Poland, the Czech Republic, Slovakia, Hungary, the Balkan states, in European and world politics. Offered in alternate years.

Prerequisites & Notes: junior standing
Credits: 5
Grade Mode: Letter

HIST 452 - U.S. Intellectual History, 1776-1900
This class will introduce students to major thinkers that shaped the development of the United States between the American Revolution and the turn of the 20th century. The course will ask students interpret the writings of American intellectuals in relation to each other and to their historical context.

Prerequisites & Notes: Junior or senior status
Credits: 5
Grade Mode: Letter

HIST 453 - U.S. Intellectual History, 1900-Present

Introduction to major thinkers who shaped the development of the United States during the 20th century. Students will interpret the writings of American intellectuals in relation to each other and to their historical context.

Prerequisites & Notes: Junior or senior status
Credits: 5
Grade Mode: Letter

HIST 454 - The Civil War and Reconstruction
Development of sectionalism; problems of war in North and South; efforts toward reunion; the failure of Reconstruction.

Prerequisites & Notes: junior standing
Credits: 5
Grade Mode: Letter

HIST 456 - Protest and Rebellion in Early America
This is an advanced seminar course that will examine the experiences of protest and rebellion in early America.

Prerequisites & Notes: Junior or senior status.
Credits: 5
Grade Mode: Letter

HIST 457 - Crime and Punishment in Early America
This is an advanced seminar that examines the experiences of crime and punishment in early America.

Prerequisites & Notes: Junior or senior status.
Credits: 5
Grade Mode: Letter

HIST 459 - The United States Since 1941
Internal and international consequences of the rise of the United States as a world power since World War II.

Prerequisites & Notes: junior standing
Credits: 5
Grade Mode: Letter

HIST 460 - American Environmental History
History of the role and place of nature in American culture from the colonial era to the present, with some comparisons to significant and kindred human-nature interactions elsewhere. Will emphasize the history of cultural constructions of nature, on American perceptions and conceptions of nature, on the transnational character of many environmental problems and ideas, and on the environmental consequences of this.

Prerequisites & Notes: HIST 103 or HIST 104; junior standing
Credits: 5
Grade Mode: Letter

HIST 461 - US Urban History

Examines the development of cities and suburbs in the United States, primarily since the Civil War; special attention to the importance of race, ethnicity and gender in the shaping of urban cultures.

Prerequisites & Notes: HIST 104; junior standing
Credits: 5
Grade Mode: Letter

HIST 462 - Industrialization and Reform: US 1865-1920

Course examines the emergence of the US as a major industrial power in the late nineteenth century, the major cultural, political and social changes brought by industrialization. Course concludes by exploring the reform movements generated by industrialization and American participation in World War I.

Prerequisites & Notes: HIST 104 plus four additional credits in US history
Credits: 5
Grade Mode: Letter

HIST 464 - Saturday Night Live and the United States in the 1970s

Examines the social, cultural, economic, and political history of the United States in the 1970s by focusing on the iconic television program Saturday Night Live, which premiered in the fall of 1975 and quickly became a cultural institution.

Prerequisites & Notes: HIST 104
Credits: 5
Grade Mode: Letter

HIST 467 - American Cultural History: 1790-1880

Topics in American cultural history, late 18th to the late 19th century, with some attention to recent developments in methodology and scholarship in cultural history.

Prerequisites & Notes: Junior status.
Credits: 5
Grade Mode: Letter

HIST 470 - World History of Democracy, 19th and 20th Centuries

This seminar reflects upon the ways in which different historical actors have shaped the meanings and practices of democracy since the

late 18th century in a variety of geographical locations across the world.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428
Credits: 5
Grade Mode: Letter

HIST 474 - U.S. Latin American Relations

This course explores the political, economic, social and cultural repercussions of the US-Latin American relations from the mid-19th century to the present.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428 or instructor's permission.
Credits: 5
Grade Mode: Letter

HIST 475 - Topics in American Indian History

The close, careful examination of historical evidence and scholarly investigations of American Indian History since c. 1850. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: HIST 275 or instructor permission
Credits: 5
Grade Mode: Letter

HIST 476 - World Histories of the Middle Class since the 19th century

This reading seminar reflects upon the ways in which middle class people have shaped - and have been shaped by - the making of modern societies since the late 19th century in a variety of geographical locations across the world.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428 or permission of instructor
Credits: 5
Grade Mode: Letter

HIST 477 - World War I & Canadian Society

An examination and interrogation of the transformative power of Canada's first modern war upon her social, cultural, and national development, with special attention to gender, class, ethnicity, crisis in French-English relations, nationalist ideologies, cultures of war, and construction of collective memory.

Prerequisites & Notes: HIST 277 or permission of instructor and junior status.
Credits: 5
Grade Mode: Letter

HIST 478 - History of Nationalism in French Canada

HISTORY

Historical development of nationalism in French Canada from the 1837-38 Patriot Rebellion and development of the Metis nation through the 1970 FLQ terrorist crisis to the present Quebec sovereignist movement for independence.

Credits: 5
Grade Mode: Letter

HIST 479 - Medieval and Early-Modern Chinese History

A comprehensive exploration of key themes and topics in the social, cultural, economic, and political histories of medieval and early-modern China (roughly the thousand years spanning the sixth to sixteenth centuries).

Prerequisites & Notes: HIST 371 or HIST 280 or EAST 201.

Credits: 5
Grade Mode: Letter

HIST 480 - Modern Chinese Social History

A comprehensive exploration of key themes and topics in the social, cultural, economic, and political histories of late-imperial and modern China. Long-term processes such as China's interaction with the West, the demise of the imperial system and the creation of a Western-influenced structure of government, the globalization of the economy, the rise of a Western-oriented bourgeoisie, and an agrarian crisis form the backdrop to the Opium Wars, the Taiping Rebellion, the Boxer Uprising, the 1911 Revolution, the Chinese Renaissance, and the rise of the Nationalist and Communist parties.

Prerequisites & Notes: HIST 281 or HIST 372 or EAST 202.

Credits: 5
Grade Mode: Letter

HIST 481 - The Chinese Revolution

Explores key passages in China's long revolutionary struggle, beginning with Sun Yat-sen and the 1911 Revolution and ending with the pro-democracy movement and events at Tiananmen in 1989. The May 4th Movement, Chiang Kai-shek's National Revolution of 1925-27, Mao Zedong's peasant-based Communist revolution, and the Cultural Revolution are among the events to be explored from social and cultural, as well as political, perspectives. First-person accounts such as Edgar Snow's *Red Star Over China*, primary documents, classic and revisionist Western accounts, Chinese literature in translation, and films like *'Yellow Earth'* and *'Farewell, My Concubine'* will be among the materials that students will use to explore this vast and still-controversial topic.

Prerequisites & Notes: HIST 372 or HIST 281 or EAST 202.

Credits: 5
Grade Mode: Letter

HIST 483 - Early Modern Japan

This course investigates the Edo period in depth by looking at Tokugawa society. Daily life as well as legal codes, official dogma and ideologies are examined. Topics include Tokugawa religions and politics, popular culture, Western Studies, Tokugawa social structure, education, women's political involvement, Bushido, the family, art and literature, science, and the economic sphere.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375; or instructor permission.

Credits: 5
Grade Mode: Letter

HIST 484 - Women in Japanese History

Examines the diverse roles and fluctuating status of Japanese women from the beginnings of history to modern times. Possible topics: women and Japanese religions, women's political involvement, education and indoctrination, family roles, Japanese feminism, contributions to art and literature, and economic roles.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375; or instructor permission.

Credits: 5
Grade Mode: Letter

HIST 485 - Japanese Military History: Samurai Fact and Fiction

Evolution and influence of Japan's military from the beginnings of history to modern times. Dispels popular misconceptions about Japanese warriors and Japan's martial traditions, and addresses military realities as well as formal ideologies. Topics include: the evolution of the military class, important battles, translated war tales (gunki monogatari), the evolution of military skills and technology, the military's political involvement over time, the myth of Bushido, martial traditions cultural contributions and influences, and the relationship between Japan's religious and martial spheres.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375, or instructor permission.

Credits: 5
Grade Mode: Letter

HIST 486 - Religion in Japanese History

An examination of the symbiotic relationship between state and religion throughout Japanese history. Although basic doctrines will be considered, emphasis of the course will be

sociopolitical rather than metaphysical. Examples of topics: the formation of the Shinto tradition, Millenarianism, Buddhist institutions and temporal power, women and evolving religious tenets, European missionaries and Sengoku politics, Yasukunijninja and modern politics, and the religio-political nature of the Imperial institution.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375, or instructor permission.
Credits: 5
Grade Mode: Letter

HIST 488 - Modern Egypt, Libya and the Nile Valley

The emergence of modern states in Northeast Africa including Egypt, Libya, the Sudan, Ethiopia and Somalia in an age of imperialism and nationalism.

Prerequisites & Notes: junior standing
Credits: 5
Grade Mode: Letter

HIST 490 - Advanced Topics in History

In-depth reading in primary and secondary literature on a particular historical problem or topic. Topics will vary. Repeatable with different topics.

Prerequisites & Notes: Junior or senior status. Recommended: any 100, 200, 300, 400 level History courses.
Credits: 5
Grade Mode: Letter

HIST 494 - Public History Internship

Internship at an approved location such as, but not limited to, as historical society, museum, archives, library, government agency, or history or related journal or press. In certain instances could include the development of public history projects for corporations or individuals as well as fieldwork in approved areas. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: HIST 493 - Public History Seminar and/or permission of Faculty Liaison.
Credits: 3-5
Grade Mode: Letter

HIST 498 - Editing History Writings for the Profession

Introduction to participation in professional conferences and publishing through the preparation and editing of conference papers for presentation and potential publication. S/U grading.

Prerequisites & Notes: History Majors, History

Minors, or Graduate Status in History.
Credits: 2
Grade Mode: S/U

HIST 499 - Historical Research

Research and writing of a formal paper on a topic developed by the student. Students normally work under an instructor within the field of their choice. Limited to declared history majors with junior status. Also offered as EAST 302 (selected sections only). Departmental pre-registration is required and occurs each spring. Writing proficiency course.

Prerequisites & Notes: One upper-division course in field of topic.
Credits: 5
Grade Mode: Letter

HIST 505 - Historical Theory and Method

A survey of current historical practice, including quantitative methods, deconstruction, economic history, comparative history, and intellectual and cultural history. Readings in current practice and papers are expected of students.

Credits: 4
Grade Mode: Letter

HIST 512 - The Ancient World

Selected topics in ancient history and the historiography of the ancient world. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: One upper level course in ancient history or instructor permission.
Credits: 4
Grade Mode: Letter

HIST 515 - Medieval History

Selected studies from the Fall of Rome to the late Middle Ages. Repeatable.

Prerequisites & Notes: One upper level course in medieval history or instructor permission.
Credits: 4
Grade Mode: Letter

HIST 520 - Renaissance and Reformation

Readings in the history of Europe from 1337-1848. Repeatable.

Credits: 4
Grade Mode: Letter

HIST 525 - History and Principles of Archives and Records Management

An overview of the characteristics and uses of records and archival materials, and of the historical development, essential principles, and major functions of the archives and records management

HISTORY

professions.

Credits: 4

Grade Mode: Letter

HIST 526 - Selection and Appraisal

Examination of theory and methodology of archival collecting policies, selection, acquisitions, and appraisal of archival records.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 528 - Reference, Access and Outreach

Examination of theory and methodology of archival access policies, reference services, outreach, and public advocacy.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 530 - Arrangement and Description of Archives

Detailed examination of archival arrangement and description systems, including both manual and automated applications, the USMARC cataloging format, Encoded Archival Description and other access systems.

Prerequisites & Notes: HIST 525.

Credits: 4

Grade Mode: Letter

HIST 532 - Records and Information Management

Detailed examination of principles, methodology and current issues in managing records in office information systems, including requirements for managing electronic records and for developing and applying automated techniques.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 534 - Preservation of Archival Materials

Examination of issues in managing a preservation, conservation and disaster preparedness program for archives; and lectures, demonstrations and practical exercises in the conservation and repair of archival media.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 536 - Internship in Archives and Records Management

Professional internship in a cooperating agency or organization. S/U grading.

Prerequisites & Notes: HIST 530 or HIST 532.

Credits: 8

Grade Mode: S/U

HIST 538 - Advanced Seminar in Archives and Records Management

Readings in selected aspects of archives administration and the management of current records and information systems.

Prerequisites & Notes: HIST 536 or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 539 - Research and Writing Seminar: Archives and Records Management

Original research on a topic in Archives and Records Management, including use of primary sources and/or original survey research; interpretation and analysis; and writing an original essay suitable for publication, either for a print journal or online journal/web publication forum. Year-long course, 4 credits for each of 3 academic terms. Repeatable to a maximum of 12 credits including original course.

Prerequisites & Notes: Instructor permission

Credits: 4

Grade Mode: Letter

HIST 540 - Modern European History

Selected topics in European history and historiography since the sixteenth century. Repeatable with different topics.

Prerequisites & Notes: Graduate status.

Credits: 4

Grade Mode: Letter

HIST 546 - World's Fairs and Other Spectacles

An examination into the commercial, political, and cultural dimensions of mass-attended spectacles in the modern world with a special focus on the relations between developed and underdeveloped peoples, both indigenous and foreign. Readings focus on theories of material culture; selections from scholarly work on the meaning of 'spectacle' and scholarly popular studies of World's Fairs, Olympics, and other 'meta-events.' A research paper, focusing on Third World, European or American fields is required.

Credits: 4

Grade Mode: Letter

HIST 550 - Colonial American History

Selected topics in American colonial history through the mid-18th century. Repeatable to a maximum of 12 credits.

Prerequisites & Notes: Graduate status and permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 551 - Early American Republic: 1783-1840

This course will introduce students to major readings and issues in the historiography of the Early American Republic.

Prerequisites & Notes: Graduate status or permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 553 - American Environmental History

Readings seminar focusing on the literature on the history of the interaction of nature and society in America. Concentration on methods in environmental history. Also offered as ENVS 545.

Prerequisites & Notes: Graduate status in history or permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 554 - World Environmental History

The organizing theme of this seminar will be that of 'exchange' - biological and cultural - of organisms and ideas about what to do with them. By focusing on the problem of the history of 'exchanges' of organisms and ideas about the environment around the globe, the seminar will at the same time illuminate other themes in world environmental history. Also offered as ENVS 546.

Credits: 4
Grade Mode: Letter

HIST 555 - US Women's History

Selected readings in US women's history.

Credits: 4
Grade Mode: Letter

HIST 556 - Topics in Latin American History

Selected readings in Latin American history. Repeatable.

Prerequisites & Notes: Graduate status.
Credits: 4
Grade Mode: Letter

HIST 557 - The American Revolution

This course will introduce students to changing interpretations of the American Revolution. In the process, students will be exposed to broader changes in the historical profession. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: Graduate status or permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 558 - 20th-Century American History

Topics in 20th-century American history.

Prerequisites & Notes: undergraduate preparation in American history or instructor permission
Credits: 4
Grade Mode: Letter

HIST 559 - Topics in American Religious History

Selected topics in the history of religion in America from the colonial period through the 20th century. Repeatable to 12 credits.

Prerequisites & Notes: Graduate status or instructor permission
Credits: 4
Grade Mode: Letter

HIST 560 - Readings in North American Indian History

Readings on the history and historiography of Native North America.

Prerequisites & Notes: Graduate status.
Credits: 4
Grade Mode: Letter

HIST 571 - Culture and Identity in Canadian History

Examination of the constructions and meanings of various Canadian identities and their cultural origins and expressions, emphasizing their historical and historiographical significance.

Prerequisites & Notes: Graduate status.
Credits: 4
Grade Mode: Letter

HIST 582 - Topics in East Asian History

Selected topics in the history and historiography of China and/or Japan in the traditional and/or modern periods. Repeatable under advisement.

Prerequisites & Notes: Graduate status or permission of instructor.
Credits: 4
Grade Mode: Letter

HISTORY

HIST 583 - Topics in African History

This reading seminar will provide masters' students with an introduction to a variety of historical themes and debates concerning African history.

Prerequisites & Notes: Graduate student status.
Credits: 4
Grade Mode: Letter

HIST 584 - Japanese Women's History

This course examines the diverse roles and fluctuating status of Japanese women from the beginnings of history up to modern times. Topics may include: women and Japanese religions (Buddhism, Shintô, Shugendô, New Religions), women's political involvement, education and indoctrination, family roles, Japanese Feminism, contributions to art and literature, and economic sphere. This is a seminar course; students who do not possess any basic Japanese Studies background are expected to correct this knowledge deficit on their own.

Prerequisites & Notes: Graduate status or permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 585 - Japanese Military History

An examination of diverse aspects of Japanese Military History from the beginning up to modern times. Possible areas of inquiry include warriors/soldiers, individual battles, technology, religions, political involvement, myth of Bushidô and its inculcation, cultural contributions, and economic roles. This is a seminar course that builds upon a basic knowledge of a non-Western socio-historical culture; students should be prepared to correct any elementary knowledge deficit on their own. Students are expected to perform as well as those who have a background in Japanese Studies.

Prerequisites & Notes: Graduate status or permission of instructor.
Credits: 4
Grade Mode: Letter

HIST 586 - Japan's Asia-Pacific War(s)

An in-depth research seminar that examines Japan's reasons for, and the results of, its post-1868 military conflicts up through 1945. The course particularly focuses on the domestic and international impact of the Asia-Pacific War(s), which began in the 1930s.

Prerequisites & Notes: Graduate student status.
Credits: 4
Grade Mode: Letter

HIST 587 - Seminar in Middle Eastern History

Topics in Middle Eastern history.

Prerequisites & Notes: undergraduate preparation in Middle-East history or instructor permission
Credits: 4
Grade Mode: Letter

HIST 590 - Directed Historical Research

Directed research in historical topics by arrangement with the instructor. Counts as a writing seminar and may be repeated once with a different topic.

Prerequisites & Notes: Enrollment limited to non-thesis MA students
Credits: 4
Grade Mode: Letter

HIST 690 - Research and Writing Seminar: Thesis

Original research, including use of primary source materials and bibliographic aids, interpretation and/or textual criticism, and writing an original research thesis. May require a knowledge of auxiliary sciences, a foreign language, or the use of statistics or computer programming, depending on the topic of the research. Repeatable to a maximum of 12 credits.

Credits: 2-12
Grade Mode: Letter

Journalism

Introduction

The journalism department offers a degree program, the Bachelor of Arts, and also maintains a commitment to the liberal arts tradition by offering courses in support of the General University Requirements (GURs) and other departments.

Journalism majors and minors pursue theoretical and practical communication studies in a liberal arts setting. Students of journalism gain practical experience on Western's award-winning student media, and majors additionally take field internships with newspapers, magazines, broadcast stations, public relations agencies and other professional organizations.

Courses in the news-editorial sequence emphasize the gathering, writing and ethical presentation of news. Understanding news processes and learning to report with accuracy, clarity and precision prepares graduates to communicate swiftly and lucidly in a changing world.

Courses in the public relations sequence follow the news-editorial emphasis, adding communication skills important for careers in this rapidly growing field.

Courses in the visual journalism sequence prepare students in the concepts, professional practices and course work applications of visual components of news: photojournalism, information graphics, video and audio clips, mapping and typography.

A combined major, environmental studies/journalism, is currently in moratorium, and has been offered in cooperation with Huxley College of the Environment.

Students are challenged to explore a range of other disciplines and to seek depth in one or more specialized areas through concentrations, major-minor combinations or even double majors.

Graduates find careers in newspapers, magazines, radio, television, publishing, advertising, public relations, teaching, and throughout government and industry wherever communications skills, with general knowledge, are vital.

Because enrollment in the journalism department is limited, students considering a major should consult a journalism advisor before embarking on classes beyond JOUR 190 and JOUR 207.

Faculty

JENNIFER KELLER (2007) Interim Chair and Associate Professor. BA, Kenyon College; MA, Salisbury State University; MA, Syracuse University.

JOE GOSEN (2014) Assistant Professor. BA, San Jose State University; MA, University of Nevada, Reno.

JOHN M. HARRIS (1998) Associate Professor. BA, Wittenberg University; MS, University of Oregon; PhD, University of Washington.

MARIA MCLEOD (2012) Assistant Professor. BS, Eastern Michigan University; MFA, University of Pittsburgh.

CAROLYN NIELSEN (2008) Associate Professor. BS, California Polytechnic State University; MSJ Northwestern University

SHEILA WEBB (2008) Associate Professor. BA, University of Michigan; MA's, University of Wisconsin; PhD, University of Wisconsin

PEGGY WATT (2004) Associate Professor. BA, Western Washington University; MLA, Stanford University.

Declaration of Major

The Department of Journalism offers three sequences leading to a Bachelor of Arts degree: a news-editorial sequence, a public relations sequence and a visual journalism sequence.

JOURNALISM

Students seeking admission to the major should see a member of the journalism faculty for advising and obtain a copy of admission requirements. Admission to the department and to specific courses may be limited.

Students seeking admission to the major must meet the following conditions:

- Have at least 30 college credits with a cumulative 2.50 grade point average
- Pass JOUR 207 with a B- or better (transfer students must meet the same requirement for any course accepted as an equivalent of JOUR 207)
- Complete with a B- or better one journalism staff course
- Submit a letter of application

Majors must maintain a 2.50 grade point average both overall and in journalism courses. Students below that average for two consecutive quarters will be placed on probation; a third consecutive quarter will result in removal from the major.

For additional details on admission to the major, consult the department manager or any journalism faculty member.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA degree in journalism within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- JOUR 190
- JOUR 207
- ENG 101
- 100- and 200-level GURs

Bachelor of Arts

Environmental Studies/Journalism, BA (In Moratorium)

Combined major offered by the Department of Journalism, College of Humanities and Social Sciences and the Department of Environmental Studies, Huxley College of the Environment.

120-126 credits (preparatory courses and major)

This program is not currently accepting new students.

For further information contact the Department of Environmental Studies, Western Washington University, 516 High Street, Bellingham, WA 98225-9085, Phone: 360-650-3277, Email: Diane.Knutson@wwu.edu OR contact the Department of Journalism, Western Washington University, 516 High Street, Bellingham, WA 98225-9197, Phone: 360-650-4436, Email: Alexis.Tahiri@wwu.edu.

Introduction

Students wishing to complete an Environmental Studies major in four years should complete all GUR requirements in their first two years. Prospective environmental science majors are strongly advised to take additional preparatory course work that provides a strong background in chemistry, biology and mathematics. The preparatory courses listed below may be used to fulfill both Huxley College and GUR requirements.

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. All preparatory courses required for admission should be completed on a lettered or numeric grading scale, not P/NP, and must be completed with a grade of C- or better.

Requirements

Preparatory Courses (36-42 credits)

- One course from:
 - BIOL 101 - Introduction to Biology
 - BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
 - CHEM 121 - General Chemistry I
 - ECON 206 - Introduction to Microeconomics
 - ENVS 203 - Physical Geography
- One course from:
 - MATH 114 - Precalculus I or equivalent or higher
 - MATH 156 - Algebra With Applications to Business and Economics
- Any BCOM and CCOM GUR requirement course
- Any PLSC course
- Additional Lab Science course in BIOL, CHEM, GEOL or PHYS
- One Introductory Statistics course from:
 - ANTH 335 - Quantitative Methods in Anthropology
 - DSCI 205 - Business Statistics
 - FAIR 232P - User-Friendly Statistics
 - MATH 240 - Introduction to Statistics

Major (84 credits)

- ENVS 412 - Environmental Journalism
- ENVS 413 - The Planet Staff
- JOUR 190 - Introduction to Mass Media
- JOUR 207 - Newswriting completed with a grade of B- or better
- JOUR 307 - Reporting
- JOUR 309 - Editing
- JOUR 350 - Mass Media Law
- JOUR 430 - Field Internship

JOURNALISM

- JOUR 450 - Advanced Reporting
 - JOUR 480 - Senior Seminar
 - One course from:
 - ESCI 302 - Environmental Pollution
 - ESCI 310 - Environmental Systems
 - ESCI 325 - Fundamentals of Ecology
 - ESCI 392 - Introduction to Global Change
 - One course from:
 - ESCI 321 - Oceanography
 - ESCI 330 - Natural History of the Pacific Northwest
 - ESCI 333 - Introduction to Environmental Toxicology
 - ESCI 361 - Water Quality
 - ESCI 463 - Wetlands for Wastewater Treatment
 - One course from:
 - ENVS 410 - Agroecology and Sustainable Agriculture
 - ENVS 430 - Borderlands
 - ENVS 472 - Planning Studio
 - ENVS 493 - Environmental Impact Assessment
 - ENVS 496 - Environmental Stewardship
 - ESCI 470 - Ecological Restoration
 - ESCI 490 - Environmental Risk Assessment
 - ESCI 491 - Oceanography of Puget Sound
 - ESCI 493 - Environmental Impact Assessment
 - One course from:
 - JOUR 214 - Newspaper Staff
 - JOUR 314 - Newspaper Staff
 - JOUR 414 - Newspaper Staff
 - JOUR 415 - Newspaper Editorship
 - One course from:
 - JOUR 321 - Periodical Staff
 - JOUR 421 - Periodical Staff
 - JOUR 422 - Periodical Editorship
 - One course from:
 - JOUR 214 - Newspaper Staff
 - JOUR 314 - Newspaper Staff
 - JOUR 321 - Periodical Staff
 - JOUR 414 - Newspaper Staff
 - JOUR 415 - Newspaper Editorship
 - JOUR 421 - Periodical Staff
 - JOUR 422 - Periodical Editorship
 - ENVS 412 - Environmental Journalism
 - ENVS 413 - The Planet Staff
 - ENVS 414 - Editing the Planet *
- * ENVS 414 offered only to Environmental/Journalism Majors - Editor status.
- Electives under advisement (11-18 credits):
 - ECON 383 - Environmental Economics
 - ECON 384 - Energy Economics
 - ECON 483 - Resource Economics
 - ESCI 300- and 400-level
 - ENVS 300- and 400-level
 - FAIR 300- and 400-level
 - HIST 480 - Modern Chinese Social History
 - JOUR 300- and 400-level
 - PLSC 346 - Politics of Inequality
 - PLSC 347 - Race, Politics and Public Policy

- PLSC 390 - The Politics of Development
- PLSC 420 - Environmental Politics
- SOC 321 - Demography

Journalism - Public Relations, BA

Department of Journalism, College of Humanities and Social Sciences

77 Credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist may be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider the Public Relations Sequence of the Journalism Major?

Journalism majors pursue theoretical and practical communication studies in a liberal arts setting. Students of journalism gain practical experience on Western's award-winning student media, and majors additionally take field internships with newspapers, magazines, broadcast stations, public relations agencies and other professional organizations.

Courses in the public relations sequence follow the news-editorial emphasis, adding communication skills important for careers in this rapidly growing field.

Journalism, BA

Department of Journalism, College of Humanities and Social Sciences

79 Credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist may be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider a Journalism Major?

Few fields of study prepare a person for as wide a range of interesting and challenging careers. Journalists first and foremost learn to write, to accumulate and analyze information. This set of skills is in demand in a host of fields beyond traditional mass media.

The study of Journalism exposes a student to current affairs and problems, from issues of campus governance to international news and concerns. Journalism students are expected to question, to challenge sources of information and seek a variety of data and opinions on any serious issue.

Journalism students are given the daily opportunity to practice what they learn, in hands-on student publication laboratories, culminating in a professional internship. The Journalism faculty at Western are prepared both professionally and academically to help students enter this exciting career field.

Minor

Journalism Minor

Journalism, College of Humanities and Social Sciences

33 credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist can be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider a Journalism Minor?

The Journalism Minor emphasizes news/editorial studies, with a focus on writing, reporting and editing. These communication skills are useful in many fields, and journalism minors may work in some aspect of publishing or may apply their journalist expertise to another industry, such as education.

Journalism Public Relations Minor

Department of Journalism, College of Humanities and Social Sciences

31-33 credits

Introduction

Journalism majors and minors pursue theoretical and practical communication studies in a liberal arts setting. Courses in the public relations minor include writing, media studies and public relations courses to provide students with basic skills important for careers in this rapidly growing field.

Why Consider a Journalism Public Relations Minor?

The Journalism Public Relations Minor was added to provide a focus on public relations studies not covered in the Journalism Minor, which emphasizes news/editorial. Its focus on writing, editing, analysis of information and communicating to a variety of audiences using a breadth of communication platforms is of interest to many employers in today's fast-changing economy. The Journalism Public Relations Minor is an excellent complement to majors such as business, marketing and communication studies.

Journalism Courses

JOUR 106 - Writing Structure

Analysis of and skill development in sentence structure, syntax, English grammar, mechanics, usage and punctuation as applied to journalistic writing.

Credits: 2

Grade Mode: Letter

JOUR 190 - Introduction to Mass Media

Introduction to basic issues and problems facing journalists and the public as recipients of mass media messages in national and international

society; nature, theory and effects of communication; media systems, structure and support; world news flow; media controls; First Amendment rights; ethical considerations.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

JOUR 207 - Newswriting

Writing for news media; clarity in use of language, style and punctuation; sentence and paragraph structure and organization of stories; credibility of information and news judgment; basic methods of researching and writing. Weekly news discussions based on a major national newspaper as one of the texts.

Prerequisites & Notes: basic word processing skills required
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

JOUR 214 - Newspaper Staff

Participation on the staff of the university newspaper. Write articles and take photographs for the university's newspaper and online edition. Gather and edit audio and video, create multimedia packages for the newspaper's Web site. Also includes lecture.

Prerequisites & Notes: Sophomore status; JOUR 207.
Credits: 3
Grade Mode: Letter

JOUR 305 - Photojournalism

Introduction to news photography and its application in print and online; composing effective new pictures; essentials of processing for print publication and multi-media projects; picture editing and layout; professional ethics and the law.

Prerequisites & Notes: JOUR 207; basic knowledge of photography and instructor permission
Credits: 4
Grade Mode: Letter

JOUR 307 - Reporting

Interviewing, news coverage of community news sources with emphasis on public affairs reporting. Introduction to computerized database reporting and investigative techniques. Writing for news media.

Prerequisites & Notes: B- or better in JOUR 207

or instructor permission
Credits: 5
Grade Mode: Letter

JOUR 309 - Editing

News copy desk operations; editing; headline writing; dummyming; page make-up and news graphics; and computerized editing.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380.
Credits: 5
Grade Mode: Letter

JOUR 314 - Newspaper Staff

Participation on the staff of the university newspaper. Write articles and take photographs for the university's newspaper. Gather and edit audio and video, create multimedia packages for the newspaper's Web site. Also includes lecture.

Prerequisites & Notes: Junior status, JOUR 207; JOUR 307 or JOUR 380.
Credits: 3
Grade Mode: Letter

JOUR 321 - Periodical Staff

Staff writers prepare and produce the twice-quarterly university periodical and its online edition under the direction of the editor-in-chief and editorial management staff; learn and practice querying story ideas, researching, reporting, writing and then assisting with production of the written and visual elements of the magazine, including online elements for the website. Writers will manage their own time outside of class to report, write and revise manuscripts, investing time appropriate to their task and their goals and to meet deadline, and work with the editorial management team on production issues. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: JOUR 207; one newspaper staff course
Credits: 3
Grade Mode: Letter

JOUR 330 - Principles of Public Relations

Methods, tools and media used in planning and developing strategic public relations programs for all organizations. Practicing research methods, writing news releases, understanding effective communications strategies and integrated marketing communications, analyzing case studies, exploring relations with the press and developing creative public relations campaigns.

Prerequisites & Notes: JOUR 207 or ENG 101 or permission of instructor.

JOURNALISM

Credits: 4
Grade Mode: Letter

JOUR 340 - History of U.S. Journalism

An examination of how U.S. journalism has influenced U.S. history from the works that inspired the revolution to the coverage of 9/11. A poster presentation offers students the opportunity to research the role of the news media in shaping a specific event or issue in U.S. history.

Prerequisites & Notes: junior standing
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

JOUR 346 - Introduction to Visual Journalism

Critical and analytical exploration of the visual aspects of storytelling in print and online media; research on the cultural history and news media application of photography, infographics, typography, audio and video clips. Consideration of special properties, demands, and aspects of visuals as they are used to enhance and augment written news narratives. Application of these principles through projects that produce still and video photography, audio, informational graphics and typography to accompany written narrative.

Prerequisites & Notes: JOUR 207, JOUR 305, JOUR 309
Credits: 5
Grade Mode: Letter

JOUR 350 - Mass Media Law

Rights and legal restrictions on freedom of the press; constitutional guarantees as interpreted through the courts; libel, privacy, access to information, censorship, contempt, agency regulations. Issues applying to various forms of mass media, including print, broadcast and online publishing.

Prerequisites & Notes: Junior status.
Credits: 5
Grade Mode: Letter

JOUR 351 - Mass Media Ethics

Introduction to ethical theories; examination of professional codes and standards; changing roles of the media that affect moral reasoning for the journalist; responsibilities of the media in a world of instant communication and reaction; historical perspectives through case studies; use of reporting editing and advocacy methods and formation of news in print, broadcast and online media. Research paper examines ethics topic.

Prerequisites & Notes: JOUR 207

Credits: 4
Grade Mode: Letter

JOUR 360 - Study of Literary Journalism

Reading and critiquing texts that use literary techniques to enhance journalism. Studying the history of literary journalism and its impact on the field.

Prerequisites & Notes: Junior status
Credits: 3
Grade Mode: Letter

JOUR 365 - Publications - from Concept to Design

This course is designed for those who are interested in exploring magazines and who may be considering a career as a magazine writer, editor or designer. The course provides an introduction to magazine publishing, including a historical overview of the magazine industry, its evolution and its place in a consumer society. We will survey current consumer publications and will analyze what makes the best ones distinctive and valuable. The course will focus on how magazines are conceived, organized, edited, financed, produced and distributed. Based on this background, students will build a prospectus for a magazine of their own design which will answer the questions posed by backers: What is the editorial style, who is the audience, how will it be financed, who are the advertisers, what is the circulation, what is the character of its design, what makes it unique. The class also will address the growth of online publishing.

Credits: 5
Grade Mode: Letter

JOUR 370 - Digital Media in Journalism

Students will learn the basic steps to plan, produce and edit journalism that combines written components, audio, video and graphics to create compelling and engaging multimedia reports. Students will watch, analyze and provide written critiques of published multimedia projects. Students will examine the methods and techniques used by successful multimedia journalists. Students will produce, edit and review their own multimedia projects that combine written, audio and visual elements.

Prerequisites & Notes: JOUR 307, JOUR 309 and JOUR 346.
Credits: 5
Grade Mode: Letter

JOUR 375 - Diversity, Mass Media and Social Change

Uses an intersectional framework of race/ethnicity, gender, class and other demographic groups to examine how mass media cover social change and affect their audiences.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

JOUR 380 - Advanced Public Relations Writing and Techniques

Intensive focus on the processes involved in writing for an organization's diverse publics, including news releases, op-eds, broadcast material, speeches, organizational memos and proposals, employer publications, backgrounders, features and web sites. Students gain hands-on experience by applying these skills and processes through service-learning by writing for community organizations.

Prerequisites & Notes: JOUR 207 and JOUR 330.
Credits: 5
Grade Mode: Letter

JOUR 390 - The News Process

Critical examination of current news issues and decision-making processes through visiting news media professionals, readings and discussion. Repeatable to a maximum of 8 credits with various topics.

Prerequisites & Notes: Junior status
Credits: 4
Grade Mode: Letter

JOUR 404 - Feature Writing

In-depth article, column, and persuasive writing; development of ideas, gathering of materials and writing; special attention to individual interests; exploration of freelance writing markets.

Prerequisites & Notes: Major status and JOUR 307 or JOUR 380.
Credits: 4
Grade Mode: Letter

JOUR 407 - Public Relations Case Studies

A study of the functions, processes and problems in the practice of public relations, paying particular attention to media relations, public relations theory and critical thinking. Students examine various genres of public relations, as well as exploring how theory, research, strategic objectives and evaluation contribute to successful campaigns. Students learn about creating successful public relations campaigns through critically analyzing case studies of both local companies and national programs and then applying what they learned to

create a new proposal or campaign.

Prerequisites & Notes: JOUR 207; JOUR 330; JOUR 380. Major status.
Credits: 4
Grade Mode: Letter

JOUR 414 - Newspaper Staff

Participation on the staff of the university newspaper. Writing articles and taking photographs for the university's newspaper and online edition. Gathering and editing audio and video, creating multimedia packages for the newspaper's Web site. Also includes lecture. Repeatable to a maximum of 12 credits.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; JOUR 314.
Credits: 3
Grade Mode: Letter

JOUR 415 - Newspaper Editorship

Publication editing and development; assigning and editing news stories, photographs and multimedia projects; creating content for the publication's Web site; creating and implementing budget and advising on budget decisions; acting as mentor to assigned staff members; holding office hours and meeting outside scheduled class time; preparing reports and presentations for class and instructor; assisting with and taking part in workshops; office management and security; learning personnel communication skills; using advanced publication software and technology; making self-evaluation and production reports for adviser. Repeatable to a maximum of 16 credits. This course may not be taken concurrently with a staff course.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; one newspaper staff course and permission of instructor.
Credits: 4
Grade Mode: Letter

JOUR 421 - Periodical Staff

Staff writers prepare and produce the twice-quarterly university periodical and its online edition under the direction of the editor-in-chief and editorial management staff; learn and practice querying story ideas, researching, reporting, writing and then assisting with production of the written and visual elements of the magazine, including online elements for the website. Writers will manage their own time outside of class to report, write and revise manuscripts, investing time appropriate to their task and their goals and to meet deadline, and work with the editorial management team on production issues. Repeatable to a maximum of 9 credits.

JOURNALISM

Prerequisites & Notes: Senior status; JOUR 207; JOUR 307 or JOUR 380; and one newspaper staff course.

Credits: 3

Grade Mode: Letter

JOUR 422 - Periodical Editorship

Print publication and online publication editing and development; hiring and supervising an editorial management team to produce the twice-quarterly university periodical and its online edition; acting as mentor to assigned staff members; holding office hours and meetings outside scheduled class time; preparing reports and presentations for class and instructor; assisting with and taking part in workshops; managing the publication office; reviewing and staying within budget; learning personnel communication skills; using advanced publication software and technology; making self-evaluation and production reports for adviser. This course may not be taken concurrently with a periodical staff course. Repeatable to a maximum of 12 credits.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; one periodical staff course, and permission of instructor.

Credits: 4

Grade Mode: Letter

JOUR 430 - Field Internship

Supervised field work on newspapers, magazines, radio and TV stations, public relations and advertising agencies, or other appropriate professional situations. S/U grading.

Prerequisites & Notes: For the news/editorial sequence: Jour 207, JOUR 307, JOUR 309, JOUR 350, JOUR 351, two newspaper staff courses and major status. For the public relations sequence: JOUR 207, JOUR 309, JOUR 330, JOUR 350, JOUR 351, JOUR 380, one newspaper staff course and major status. For the visual journalism sequence: JOUR 207, JOUR 305, JOUR 307, JOUR 309, JOUR 346, JOUR 350, JOUR 351, one newspaper staff course and major status. For the environmental journalism sequence: JOUR 207, JOUR 307, JOUR 309, JOUR 350, one newspaper staff course and major status.

Credits: 6

Grade Mode: S/U

JOUR 440 - Public Relations Research and Campaigns

Study and practice in research methods, theory, implementation and evaluation of effective programs of communication. Students work in

teams to establish a firm theoretical and research-based approach to planning an effective public relations campaign for a community organization.

Prerequisites & Notes: JOUR 330, JOUR 380 and major status.

Credits: 5

Grade Mode: Letter

JOUR 446 - Advanced Visual Journalism

In depth exploration of concepts and practices explored in Journalism 346. Students work in teams to apply theories, conduct research, analyze data and apply design and software skills to produce visual and verbal elements for advanced projects.

Prerequisites & Notes: Major status and Jour 346 and JOUR 370.

Credits: 5

Grade Mode: Letter

JOUR 450 - Advanced Reporting

Survey and application of advanced reporting techniques, including computer-assisted reporting, and the use of the Internet, to produce news stories of depth, complexity and appeal.

Prerequisites & Notes: JOUR 307, JOUR 350 and JOUR 351; major status.

Credits: 5

Grade Mode: Letter

JOUR 460 - Special Reporting Project

Students write about and photograph people who have ethnic, national, environmental or cultural backgrounds different from the dominant society; sensitivity to other cultural traditions; advanced reporting and writing skills.

Prerequisites & Notes: JOUR 307 or JOUR 380; JOUR 350 or JOUR 351; two staff courses and major status.

Credits: 4

Grade Mode: Letter

JOUR 480 - Senior Seminar

Examines research methods in and theories of mass communication in the context of the practice of journalism and public relations in a democratic society. A research paper provides students with practice applying specific methods and theories to explore contemporary issues in journalism and public relations.

Prerequisites & Notes: JOUR 350 and JOUR 351; and major status.

Credits: 5

Grade Mode: Letter

Liberal Studies

Introduction

Liberal studies is an interdisciplinary humanities department. We give our students a broad perspective on the world by leading them in exploration of major textual traditions, drawing on all the scholarly disciplines that make up the humanities - philosophy, religion, history, literature, and the arts - to see how people in different cultures have thought about truth and the meaning of human experience, standards of moral judgment for human actions, and the nature of beauty and the cultivation of taste in the arts.

The department teaches students to ask how works of the humanities have been shaped by their historical and cultural contexts, and how they in turn have influenced readers and audiences. The department supports the study of humanities in the cultures of Europe, the Americas, China, Japan, South Asia, sub-Saharan Africa, and in predominately Islamic areas. Its courses give attention to historical development and cross-cultural interaction, both in the past and in the modern period.

The department offers the BA in Humanities with two areas of concentration: the history of culture, and the academic study of religion. Students in the BA degree programs practice what they have learned about analyzing texts, works of art and historical contexts in their own supervised research. In the degree programs and in General University Requirements courses students develop habits of mind characterized by awareness of methodological issues, analysis from more than one perspective, aesthetic appreciation, and clear communication, habits which have proved to be broadly useful to them in a variety of professional careers and in civic life.

Information

For additional information, contact the Department of Liberal Studies, Western Washington University, 516 High St., Bellingham, WA 98225-9064. The department office is located in Bond Hall 152, telephone 360-650-3031, fax 360-650-6713, e-mail: Liberal.Studies@wwu.edu. Web access: www.wwu.edu/liberalstudies.

- The department offers interdisciplinary courses which can fulfill a major part of the WWU General University Requirements in humanities and in comparative, gender and multicultural studies; see the University Graduation Requirements section of this catalog for the complete General University Requirements and options for satisfying them
- The department offers a BA in humanities with a choice of two concentrations, in history of culture and in religion and culture
- The department offers interdisciplinary minor programs in humanities and in the study of religion
- The department administers and offers courses in the minor in Arabic and Islamic studies
- The department offers courses in the East Asian Studies program
- The department administers the Student/Faculty-Designed Major in the College of Humanities and Social Sciences. This program allows students, in consultation with appropriate faculty, to design an interdisciplinary course of study in areas not available through existing departmental majors

Additional information about all of the foregoing is available from the Liberal Studies Office, Bond Hall 152.

Faculty

SCOTT PEARCE (1992) Chair and Professor. BA, Rutgers University; PhD, Princeton University.

HOLLY FOLK (2007) Associate Professor. BA, Wesleyan University; MA, Columbia University; PhD, Indiana University.

ANDREA GOGRÖF (1996) Professor. BA, MA, University of Paris, Nanterre; PhD, University of Washington.

KIMBERLY LYNN (2006) Associate Professor. BA, College of William and Mary; MA, PhD, Johns Hopkins University.

JONATHAN MIRAN (2003) Associate Professor. BA, MA, Institut National des Langues et Civilisations Orientales, Paris; PhD, Michigan State University.

SEAN E. MURPHY (2002) Associate Professor. AB, MA, PhD, Cornell University.

LIBERAL STUDIES

MICHAEL SLOUBER (2014) Assistant Professor. BA, UC Davis; MA, South & Southeast Asian Studies, UC Berkeley; MA, Kultur und Geschichte Indiens, University of Hamburg, Germany; PhD, UC Berkeley.

ROBERT F. STOOPS, JR. (1983) Professor. AB, University of North Carolina at Chapel Hill; MDiv, Harvard Divinity School; MA, PhD, Harvard University.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA in humanities degree within four years should take LBRL 121 and LBRL 122 before spring quarter of their junior year. LBRL 302 should be taken in spring quarter of the junior year. If not taken before this quarter, LBRL 123 must be taken in the same quarter as LBRL 302. By the end of their junior year students also should complete 12-15 additional credits from the courses required for the BA in Humanities degree. Transfer students should contact the department for advisement as early as possible.

Bachelor of Arts

Humanities - History of Culture Concentration, BA

Department of Liberal Studies, College of Humanities and Social Sciences

61-70 credits

Introduction

The humanities include the disciplines which study philosophy, religion, history, literature, and the arts. The B.A. in Humanities programs attracts students who want to major in more than one Humanities discipline, using interdisciplinary methods of investigation. The department supports study of religions and of cultural history in Europe and the Americas, China, Japan, South Asia, sub-Saharan Africa, and in predominantly Islamic areas. Its courses give attention to historical development and cross-cultural interaction, both in the past and in the modern period.

The small size of classes and seminars in the Humanities B.A. programs encourages close relationships between students and faculty. Students conduct independent research on topics of their own choosing. Working closely with faculty, students learn to formulate problems clearly, to consider and evaluate different methods and concepts, to do efficient and thorough research, and to write clearly, concisely and effectively.

Graduates have gone on to a variety of professional graduate schools and careers, including teaching, law, library science, archive administration, and research and administrative positions with business and non-profit organizations. Students who have done excellent work in the department have succeeded in graduate academic programs in literature, history and the study of religion.

Why Consider a History of Culture Concentration in the Humanities Major?

The History of Culture Concentration focuses on how cultures change. Students acquire a substantial knowledge of religious, philosophical, literary and aesthetic movements in the history of Western culture. Students also study works of the humanities in at least one other culture, and that culture's history. Using methods from different humanities disciplines, students learn to analyze individual works of the humanities and to relate them to social and cultural developments. Learning how to understand cultural differences and cultural change helps students exercise leadership in a more closely knit, global world.

Students acquire skills which are broadly applicable to professional careers. These skills include problem solving, critical thinking, research skills, integrative skills, and written and oral communications skills. The History of Culture Concentration has proved to be excellent preparation for professional careers in teaching,

law, library science, archive administration, and for research and administrative positions with businesses and non-profit organizations.

Students who plan a career in secondary education should contact the department for advising as soon as possible.

How to Declare (Admission and Declaration Process):

Students interested in the Humanities degree should contact the Liberal Studies Department as soon as possible.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

An average grade of B in Liberal Studies courses is required for admission to LBRL 302. (NOTE: LBRL 302 is ordinarily offered spring quarter only.) LBRL 302 is prerequisite to LBRL 421, 422, 423, 424. It is recommended that students undertake study of a foreign language concurrently with the major.

Requirements

Core 18-20 credits

One course from:

- LBRL 121 - The Western Tradition I: The Ancient World
- HNRS 103 - Major Cultural Traditions I

One course from:

- LBRL 122 - The Western Tradition II: Medieval and Early Modern Europe
- HNRS 104 - Major Cultural Traditions II
- LBRL 123 - The Western Tradition III: The Modern World
- LBRL 302 - Methods of Interdisciplinary Study

Concentration 28-35 credits

One course (4-5 credits) from:

- LBRL 231 - Introduction to the Study of Religion
- LBRL 243 - Art and Ideas
- LBRL 301 - Historical Methods in the Humanities
- LBRL 303 - Methods in the Study of Religion

Two courses (8-10 credits) from:

- LBRL 271 - Humanities of India
- LBRL 273 - Art and Society in China and Japan
- LBRL 275 - Humanities of Japan
- LBRL 276 - Humanities of Africa
- LBRL 277 - Humanities of China

LIBERAL STUDIES

- LBRL 278 - Humanities of Islamic Civilization
 - LBRL 281 - Representations of Otherness
 - LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern
 - LBRL 362 - Islam and Muslims in the Indian Ocean World
 - LBRL 372 - Postcolonial Novels: Art, Rhetoric and Social Context
 - LBRL 380 - Religion and Society in China
 - LBRL 382 - Religion and Society in Japan
 - Four courses (16-20 credits) under advisement from:
 - LBRL 321 - Between Renaissance and Inquisition: Censorship and Religious Conflict in Spain's Golden Age
 - LBRL 323 - The Romantic Paradox: Love, Life and Death
 - LBRL 325 - Surveillance, Voyeurism and the Culture of Suspicion
 - LBRL 332 - World Religions
 - LBRL 333 - Religion in America
 - LBRL 334 - Hebrew Bible and the Religion of Ancient Israel
 - LBRL 336 - New Testament and Early Christianity
 - LBRL 338 - Mysticism
 - LBRL 340 - Sufism: The Islamic Mystical Tradition
 - LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern
 - LBRL 362 - Islam and Muslims in the Indian Ocean World
 - LBRL 372 - Postcolonial Novels: Art, Rhetoric and Social Context
 - LBRL 375 - Buddhism
 - LBRL 378 - Religion and Society in India
 - LBRL 478 - Renewal and Reform in the Islamic World Since the Eighteenth Century
- Or other appropriate upper-division courses in Humanities and Social Sciences, under advisement.
LBRL 360, 362, and 372 may be counted in one group only.
- Non-Thesis Option** (15 credits)
- Three courses (15 credits) from:
 - LBRL 421 - Senior Seminar: Approaches to Cultural History
 - LBRL 422 - Senior Seminar: Literary Traditions in Western Culture
 - LBRL 423 - Senior Seminar: Self, Culture and Society
 - LBRL 424 - Senior Seminar: Social Change in Cross-Cultural Contexts

Humanities - Religion and Culture Concentration, BA

Department of Liberal Studies, College of Humanities and Social Sciences

65-70 credits

Introduction

The humanities include the disciplines which study philosophy, religion, history, literature, and the arts. The B.A. in Humanities programs attracts students who want to major in more than one Humanities discipline, using interdisciplinary methods of investigation. The department supports study of religions and of cultural history in Europe and the Americas, China, Japan, South Asia, sub-Saharan Africa, and in predominantly Islamic areas. Its courses give attention to historical development and cross-cultural interaction, both in the past and in the modern period.

The small size of classes and seminars in the Humanities B.A. programs encourages close relationships between students and faculty. Students conduct independent research on topics of their own choosing. Working closely with faculty, students learn to formulate problems clearly, to consider and evaluate different methods and concepts, to do efficient and thorough research, and to write clearly, concisely and effectively.

Graduates have gone on to a variety of professional graduate schools and careers, including teaching, law, library science, archive administration, and research and administrative positions with business and non-profit

organizations. Students who have done excellent work in the department have succeeded in graduate academic programs in literature, history and the study of religion.

Why Consider a Religion and Culture Concentration in the Humanities Major?

The Religion and Culture Concentration provides scholarly, non-sectarian study of religions. Students study religious beliefs, practices, arts, identities, and institutions and examine how religions have influenced and been influenced by historical changes in other aspects of society and culture. The concentration includes study in the origin, history and methods of the academic study of religion as it has developed in modern Europe and North America, along with a broad survey of Western culture as a context for understanding its religious traditions. Students also become familiar with religious traditions in at least one non-Western culture. Learning how to understand people of different religions helps students exercise leadership in settings of religious diversity and conflict.

Students acquire skills which are broadly applicable to professional careers. These skills include problem solving, critical thinking, research skills, integrative skills, and written and oral communications skills. The Religion and Culture concentration is particularly helpful for students who plan careers in education or the ministry, or graduate study in religion.

Humanities — History of Culture Concentration, Thesis, BA

Department of Liberal Studies, College of Humanities and Social Sciences

61-70 credits

Introduction

The two concentrations for a BA in Humanities provide interdisciplinary study of the humanities (philosophy, religion, history, literature and the arts) in Western and other civilizations. The major emphasizes critical reading, analysis and writing and culminates in a senior paper written under advisement, or in further work in rigorous senior seminars. It provides skills and habits of mind which have proved broadly useful in a variety of professional careers, in both public and private settings, and it prepares students for knowledgeable participation in civic life. The major also proved to be excellent preparation for graduate study in law, library science, history, English, comparative literature, and religion.

The History of Culture Concentration focuses on how cultures change. Students acquire a substantial knowledge of religious, philosophical, literary and aesthetic movements in Western civilization. Students also acquire some knowledge of works of the humanities in at least one other culture, and of that culture's history. Students learn to analyze individual works of the humanities and to relate them to social and cultural

developments. Students become familiar with methodological issues in the humanities and in cultural history, and learn to use methods appropriate to different kinds of problems.

Humanities — Religion and Culture Concentration, Thesis, BA

Department of Liberal Studies, College of Humanities and Social Sciences

65-70 credits

Introduction

The two concentrations for a BA in Humanities provide interdisciplinary study of the Humanities (philosophy, religion, history, literature and the arts) in Western and other civilizations. The major emphasizes critical reading, analysis and writing and culminates in a senior paper written under advisement, or in further work in rigorous senior seminars. It provides skills and habits of mind which have proved broadly useful in a variety of professional careers, in both public and private settings, and it prepares students for knowledgeable participation in civic life. The major also proved to be excellent preparation for graduate study in law, library science, history, English, comparative literature, and religion.

The Religion and Culture Concentration provides scholarly, critical, nonsectarian study of religions. Students study religious beliefs, practices, identities and organizations, and how they have influenced and been influenced by other aspects of society and culture. The concentration includes a broad survey of Western civilization as a basis for understanding its religious traditions. Students also become familiar with religious

traditions in non-Western civilizations, and with their modern interactions and changes. Students study the origin, history, and methods of the academic study of religion as it has developed in Europe and North America. They are introduced to methodological issues in the study of religion, and learn to use methods appropriate to different kinds of problems.

How to Declare (Admission and Declaration Process):**Grade Requirements**

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A GPA of 2.5 or above is required in the Arabic courses.

Requirements

- ARAB 201 - Intermediate Arabic
- ARAB 202 - Intermediate Arabic
- ARAB 203 - Intermediate Arabic
- One course from:
 - LBRL 278 - Humanities of Islamic Civilization
 - HIST 287 - Introduction to Islamic Civilization
 - Select 8-10 credits of electives from the list below, or other electives under advisement, including ANTH 490 when it is taught as Islam and Conflict in Europe:
 - EAST 314 - The Mongols
 - FAIR 371B - Topics in Middle East Studies
 - HIST 405 - The Traditional Middle East
 - HIST 406 - Middle East, 1800 to the Present
 - HIST 407 - History of the Israel/Palestinian Conflict
 - HIST 488 - Modern Egypt, Libya and the Nile Valley
 - LBRL 340 - Sufism: The Islamic Mystical Tradition
 - LBRL 362 - Islam and Muslims in the Indian Ocean World
 - LBRL 478 - Renewal and Reform in the Islamic World Since the Eighteenth Century
 - PLSC 271 - Introduction to International Relations

Humanities Minor

Department of Liberal Studies, College of Humanities and Social Sciences

28-35 credits**Introduction**

The Minor in Humanities provides interdisciplinary study of the humanities (philosophy, religion, history, literature and the arts) in Western and other civilizations.

LIBERAL STUDIES

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two courses (8-10 credits):
 - One of:
 - LBRL 121 - The Western Tradition I: The Ancient World
 - HNRS 103 - Major Cultural Traditions I
 - One of:
 - LBRL 122 - The Western Tradition II: Medieval and Early Modern Europe
 - HNRS 104 - Major Cultural Traditions II
 - One of:
 - LBRL 123 - The Western Tradition III: The Modern World
- One course (4-5 credits) from:
 - LBRL 231 - Introduction to the Study of Religion
 - LBRL 243 - Art and Ideas
 - LBRL 281 - Representations of Otherness
 - LBRL 301 - Historical Methods in the Humanities
 - LBRL 303 - Methods in the Study of Religion
- One course from (4-5 credits):
 - LBRL 232 - Myth and Folklore
 - LBRL 271 - Humanities of India
 - LBRL 273 - Art and Society in China and Japan
 - LBRL 275 - Humanities of Japan
 - LBRL 276 - Humanities of Africa
 - LBRL 277 - Humanities of China
 - LBRL 278 - Humanities of Islamic Civilization
 - LBRL 372 - Postcolonial Novels: Art, Rhetoric and Social Context
 - LBRL 375 - Buddhism
 - LBRL 378 - Religion and Society in India
 - LBRL 380 - Religion and Society in China
 - LBRL 382 - Religion and Society in Japan
- Three additional courses (12-15 credits) from:
 - LBRL 301 - Historical Methods in the Humanities
 - LBRL 302 - Methods of Interdisciplinary Study
 - LBRL 303 - Methods in Study of Religion
 - LBRL 323 - The Romantic Paradox: Love, Life and Death
 - LBRL 325 - Surveillance, Voyeurism and the Culture of Suspicion
 - LBRL 332 - World Religions
 - LBRL 334 - Hebrew Bible and the Religion of Ancient Israel
 - LBRL 336 - New Testament and Early Christianity
 - LBRL 338 - Mysticism
 - LBRL 340 - Sufism: The Islamic Mystical Tradition
 - LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern
 - LBRL 362 - Islam and Muslims in the Indian Ocean World
 - LBRL 375 - Buddhism
 - LBRL 378 - Religion and Society in India
 - LBRL 380 - Religion and Society in China
 - LBRL 382 - Religion and Society in Japan

- LBRL 478 - Renewal and Reform in the Islamic World Since the Eighteenth Century
And other appropriate courses under advisement

LBRL 375, 378, 380, and 382 may be counted in one group only

Study of Religion Minor

Department of Liberal Studies, College of Humanities and Social Sciences

27-30 credits

Introduction

The Minor in the Study of Religion provides scholarly, critical, nonsectarian study of religions. Students study religious beliefs, practices, identities and organizations, and how they have influenced and been influenced by other aspects of society and culture.

For advisement regarding the minor, contact the Liberal Studies Office.

And other appropriate courses under advisement.

Liberal Studies Courses

LBRL 110 - Confession and Self-Promotion: Autobiography from Augustine to the Blogosphere

An examination of the historical origins of autobiographical writing in the European tradition, this class considers how individuals have imagined both themselves and their relationships to society. Through visual media (such as portraiture) and various written genres (from letters to trial records to essays), this class uses an interdisciplinary approach to introduce some important themes in European cultural history.

Prerequisites & Notes: Freshman status

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 121 - The Western Tradition I: The Ancient World

This course studies the Near Eastern and Mediterranean origins of Western culture through an examination of Mesopotamian, Hebrew, Greek, and Roman sources. It considers ancient world views and conceptions of what it meant to be human. Sections explore such varied topics as debates about knowledge and ideas about justice, gender, mortality and immortality; they treat the organization of ancient societies and their production of visual arts and architecture. Readings often include selections from the Epic of Gilgamesh and the Hebrew Bible, Greek plays, the Iliad or Odyssey, Plato, and Virgil's Aeneid.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 122 - The Western Tradition II: Medieval and Early Modern Europe

This course is an introduction to the cultural history of medieval and early modern Europe (from the 4th to the 18th centuries) through an analysis of a wide variety of sources. It examines works of visual art, philosophy, rhetoric, literature, history,

and religion, and considers a range of themes, from pilgrimage and the interaction between the sacred and the profane to disputes about authority, religious conflict, and imperial expansion. Readings may include works by Augustine, Marie de France, Christine de Pizan, Erasmus, Camões, Shakespeare or Cervantes; all sections include Dante.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 123 - The Western Tradition III: The Modern World

This course explores the construction of modernity. As an introduction to modern Western culture from the 18th century to the present, it examines such modern ideologies as feminism, Romanticism, and nationalism. This course considers a spectrum of views of the individual, of progress, and of the alienation and integration of the individual in society. Many sections include study of films and other material from the visual arts. Readings often include novels, and the writings of Freud, Marx, Nietzsche, Mill, Baudelaire, and Rousseau.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 231 - Introduction to the Study of Religion

Introduction to the academic study of religion. An exploration of beliefs, practices and institutions through case studies drawn from religions around the world. Introduction to scholarly perspectives and theories of religion.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 232 - Myth and Folklore

An introduction to the study of myth and folklore and its cultural impact.

Credits: 4

Grade Mode: Letter
GUR Attributes: HUM

LBRL 243 - Art and Ideas

A study of Western humanities through the visual arts, sculpture, painting and architecture. Exploration of the values expressed through choices of style and subject matter in selected cultural periods.

Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

LBRL 271 - Humanities of India

The Indian experience and the development of its cultural unity; the challenge of Islam and the British colonial experience; the conditions of modernization and the emerging synthesis of values.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 273 - Art and Society in China and Japan

Studies of the aesthetic traditions of East Asia, courtly and popular, secular and religious; the impact of foreign ideas and the role of art in recent propaganda, architecture and industrial design as well as in traditional modes of expression.

Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 275 - Humanities of Japan

Interdisciplinary introduction to Japanese civilization, both traditional and modern, with particular emphasis on religions; historical, artistic, and literary patterns; and societal and cultural ideals.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 276 - Humanities of Africa

Introduction to the cultural heritage of sub-Saharan Africa and to the contemporary civilization that draws upon it; emphasis on the process by which Africans currently build and use coherent accounts of their heritage.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 277 - Humanities of China

Interdisciplinary introduction to Chinese civilization, traditional and modern. Emphasis on religions; intellectual, artistic and literary patterns; and societal and cultural ideals.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 278 - Humanities of Islamic Civilization

Interdisciplinary introduction to Islamic Civilizations with an emphasis on shared religious, cultural, and societal ideals and their adaptation in various historical and geographic contexts.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 281 - Representations of Otherness

Examination of images and narratives of the Other in major works of modern literature, art and film from the 19th century to the present. Themes include the roles of the unconscious, languages, gender and politics in the construction and destruction of self and others.

Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 283 - Religion and Globalization

Focus on religious responses to globalization through case studies of modern religious movements. Case studies will be chosen to explore cultural interaction and religious change in a world shaped by technological revolutions and increased communication, information, and migration.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 301 - Historical Methods in the Humanities

Methods of cultural and intellectual history. Locating texts in their historical and cultural contexts by analyzing their authors, audiences and arguments.

Prerequisites & Notes: One from: LBRL 121, LBRL 122, LBRL 123, HIST 111, HIST 112, HIST 113.

Credits: 5
Grade Mode: Letter

LBRL 302 - Methods of Interdisciplinary Study

LIBERAL STUDIES

Exploration of techniques of interdisciplinary investigation through analysis of a major literary text in its cultural and historical context; exercises in the use of the library as a research tool; preparation of a seminar paper. Ordinarily offered spring quarter only.

Prerequisites & Notes: LBRL 121, LBRL 122; average grade of B in LBRL courses and permission of instructor.
Credits: 5
Grade Mode: Letter

LBRL 303 - Methods in the Study of Religion

An examination of the academic study of religion as a problem in the interaction of theory, method, and the history of culture. Consideration of various approaches to understanding and explaining religion from the Enlightenment to the present.

Prerequisites & Notes: One course from LBRL 231, LBRL 271, LBRL 278, LBRL 380, LBRL 382 or permission of instructor.
Credits: 5
Grade Mode: Letter

LBRL 321 - Between Renaissance and Inquisition: Censorship and Religious Conflict in Spain's Golden Age

Early modern Spain has simultaneously been perceived as an artistic Golden Age (which saw a flourishing production of plays, verse, and prose) and as an era in which censorship and religious intolerance closed off Spain and its empire to the wider world. The course explores this central paradox in Spanish religious, cultural and intellectual history, through an interdisciplinary examination of various literary genres, trial records, painting and architecture. It examines the foundation of the Spanish Inquisition in a society which included Christians, Muslims, and Jews; it traces the development of Catholic laws and courts both in European contexts and in Spain's American colonies.

Prerequisites & Notes: One LBRL course or HIST 112 or HNRS 104 or instructor permission.
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LBRL 323 - The Romantic Paradox: Love, Life and Death

Study of Romanticism as a complex, international cultural movement originating in the late 18th century with continuing vitality and influence into the present. Exploration of characteristic Romantic tensions: the desire for unity, harmony, infinity and beauty vs. the experience of fragmentation,

limitation and loss. Analysis of texts and films representing various facets of the Romantic mind.

Prerequisites & Notes: Junior or senior status recommended.
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

LBRL 325 - Surveillance, Voyeurism and the Culture of Suspicion

This course will trace the concept of surveillance and its connection to voyeurism as the primordial desire to see from the 18th century to the present. Through careful reading of primary and secondary sources of literature, sociology, philosophy, history, journalism, and film studies and analysis of visual material, this course will examine the paradox within the concept of surveillance which can be understood as a means to implement security and insure peace as well as constitute a threat to private and civic rights and freedoms. Formally, the course will alternate between the analysis of visual material and printed material. Class time is divided into lecture, organized class discussion and student presentations.

Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

LBRL 332 - World Religions

Beliefs and practices of major world religions; development of religious traditions; historical and phenomenological approaches; religion in modern society.

Prerequisites & Notes: Junior or senior status recommended.
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LBRL 333 - Religion in America

Religious traditions, values and institutions in American culture; focus on pluralism; attention to contemporary issues and events; interdisciplinary perspective.

Prerequisites & Notes: Junior or senior status recommended.
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LBRL 334 - Hebrew Bible and the Religion of Ancient Israel

A survey of representative sections of the Hebrew Bible (the Old Testament for Christians) and

related literature. Biblical texts are analyzed as expressions of the ways in which groups or individuals understood themselves, their world, and God. The historical and cultural contexts in which the texts were originally written are emphasized with attention to the ways that elements of the Biblical tradition developed under changing historical circumstances.

Prerequisites & Notes: Junior status
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 336 - New Testament and Early Christianity

A survey of the New Testament and related early Christian literature. The texts are analyzed as expressions of the ways in which groups or individuals understood themselves, their world, and God. The historical and cultural contexts in which the texts were written are emphasized with attention to the variety of early Christian traditions and their development under changing historical circumstances.

Prerequisites & Notes: Junior status
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LBRL 338 - Mysticism

An interdisciplinary exploration of the nature and variety of mysticism. Theoretical debates concerning the psychological roots and cultural conditioning of mysticism. Includes an examination of important mystics in the Christian, Islamic and East Asian traditions along with their significance for their respective societies.

Prerequisites & Notes: Junior status or permission of instructor.
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 340 - Sufism: The Islamic Mystical Tradition

This course explores the Islamic mystical tradition, or Sufism. For long centuries Sufism has contributed to the development of Islamic religious thought, to the global diffusion of the faith, and to the shaping of religious experiences and practices of Muslims in the Middle East, Africa and Asia. It has also enriched the creative and aesthetic aspects of Islamic civilization, most notably music and poetry. We will examine Sufi devotional practices and rituals, teachings of some spiritual masters, and the historical development and

growth of Sufism and Sufi orders.

Prerequisites & Notes: Junior status; ENG 101 and 30 credits; and one course from: LBRL 231, LBRL 271, LBRL 278, LBRL 332, LBRL 378, or HIST 287, HIST 406; or instructor permission.

Credits: 4
Grade Mode: Letter
GUR Attributes: CCOM

LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern

The focus of this course will be early stages of the unfolding of 'globalization' in Eurasia, from antiquity into the early modern period, with particular attention given to China's important role in these developments, and how it was affected in turn.

Prerequisites & Notes: Junior status or permission of instructor.
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 362 - Islam and Muslims in the Indian Ocean World

Explores cross cultural contacts in the Indian Ocean world from East Africa, Arabia and the Persian Gulf to South and Southeast Asia, and the history and role of Islam and Muslims from the 14th century to the present. Focuses on texts by or about Muslim travelers — Sufis, pilgrims, scholars, and merchants — and their creation networks, identities, and "Muslim spaces", to show that some aspects of globalization have a long history in the Indian Ocean.

Prerequisites & Notes: Junior status or permission of instructor.
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

LBRL 372 - Postcolonial Novels: Art, Rhetoric and Social Context

Critical readings of postcolonial novels. Close attention to how they have been shaped as artistic wholes, and how they try to shape emotions and beliefs of readers. Reading beyond the novels about contexts which they assume and incompletely express: change and the absence of change in postcolonial societies.

Prerequisites & Notes: Junior status or permission of instructor.
Credits: 4

LIBERAL STUDIES

Grade Mode: Letter
GUR Attributes: ACGM

LBRL 375 - Buddhism

Beginning with a broad overview of the teachings of Buddhism and its core beliefs and practices, this course will then turn to detailed study of the doctrines and institutions of particular Buddhist traditions.

Prerequisites & Notes: One course from: LBRL 231, LBRL 271, LBRL 275, LBRL 277, LBRL 380, LBRL 382; HIST 370.

Credits: 5

Grade Mode: Letter

LBRL 378 - Religion and Society in India

Examination of major Indian religious traditions - Hindu and Islamic - as ritual systems, belief and value systems, and systems of social identification; emphasis on the relation of religion to social and gender identities, communal politics, and social change, chiefly in the modern period.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 380 - Religion and Society in China

A detailed examination of the major religious and philosophical traditions of pre-modern China: the native traditions of Confucianism, Daoism, ancestor worship and popular religion, as well as Buddhism, which came to East Asia from India. Particular attention is given to the interaction and intertwining of these traditions, and of the ways they shaped and supported the lives of individuals and communities.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 382 - Religion and Society in Japan

A detailed examination of the major religious and philosophical traditions of Japan: the agrarian religion of Shintoism, the Confucian system of ethics, imported from China, and Buddhism, which though originally from India also came to Japan through China. Particular attention is given to the interaction and intertwining of these traditions, and of the ways they shaped and supported the lives of individuals and communities.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 421 - Senior Seminar: Approaches to Cultural History

Methodologies of cultural history, by nature interdisciplinary. Students read and analyze great figures in the field, such as Burckhardt, Lovejoy, Huizinga, and Gombrich, to discover methodologies used. Topics may include the nature of evidence and arguments in cultural history, and the history of ideas, rhetoric and aesthetics in writing cultural history, roles of authorial voice, and relations of writing cultural history to intellectual, social and cultural contexts. See instructor for syllabus and specific readings and topics. Repeatable with different topics to a maximum of 10 credits.

Prerequisites & Notes: LBRL 302 and permission of instructor.

Credits: 5

Grade Mode: Letter

LBRL 422 - Senior Seminar: Literary Traditions in Western Culture

How Western culture has understood, developed and transformed its major literary monuments. Students read works of major figures, and examine how in later eras these figures and their works were read and used, and discover purposes and contexts of such use. Examples may include Greek Sophists versus Plato on Homer, Dante's use of Homer and Virgil, Biblical material in Milton. See instructor for syllabus and specific readings and topics. Repeatable with different topics to a maximum of 10 credits.

Prerequisites & Notes: LBRL 302 and permission of instructor.

Credits: 5

Grade Mode: Letter

LBRL 423 - Senior Seminar: Self, Culture and Society

Analysis of individual identity and social forms in a non-Western culture. Use of primary sources (in translation). Consideration of methodologies needed to analyze sources from non-Western cultures. Cross-cultural comparison of conceptions of the individual and his/her place in society and the universe. See instructor for syllabus and specific readings and topics. Repeatable with different topics to a maximum of 10 credits.

Prerequisites & Notes: LBRL 302 and permission of instructor.

Credits: 5

Grade Mode: Letter

LBRL 424 - Senior Seminar: Social Change in Cross-Cultural Contexts

Changes associated with European expansion in Asia and Africa and direct and indirect European colonial rule; course may include topics on Western education, religious reform movements, nationalist and postcolonial political movements, and new intellectual, literary and cultural movements. Emphasis on finding and using primary sources, application of methodologies from a variety of disciplines to understand complex patterns of social change. See instructor for syllabus and specific readings and topics. Repeatable with different topics to a maximum of 10 credits.

Prerequisites & Notes: LBRL 302 and permission of instructor.
Credits: 5
Grade Mode: Letter

LBRL 430 - The Humanities and the Contemporary Workplace

Connects liberal-arts curriculum to workplace issues. Introduces students to professional work environments through placement in local non-profit agencies. Carries service-learning credit.

Prerequisites & Notes: Permission of Instructor.
Credits: 3
Grade Mode: Letter

LBRL 478 - Renewal and Reform in the Islamic World Since the Eighteenth Century

An exploration of the ideological foundations and historical contexts of reform movements in the Middle East, Asia and Africa from the 18th century up to the various contemporary Salafi movements commonly recognized as 'fundamentalist.' Islamic responses to imperialism, colonialism, and 'modernization' through the analysis of texts written by major Muslim modernist and revivalist thinkers such as al-Afghani, Sayyid Ahmad Khan, Abduh, Mawdudi, Qutb, Khomeini and others.

Prerequisites & Notes: One from: LBRL 231, LBRL 271, LBRL 278, LBRL 332, LBRL 378, HIST 287, HIST 487B.
Credits: 5
Grade Mode: Letter

LBRL 498 - Readings for Research in Humanities

Readings in Humanities under advisement in preparation for writing senior paper. Students develop a reading schedule and meet weekly with their faculty advisor; prepare and submit a formal proposal for the senior paper, on a topic developed by the student in consultation with their faculty advisor.

Prerequisites & Notes: Senior status. LBRL 302;

and one course from: LBRL 421, LBRL 422, LBRL 423, LBRL 424 or concurrent; permission of instructor.

Credits: 2
Grade Mode: Letter

LBRL 499 - Research in Humanities

Research and writing of a formal paper on a topic developed by the student in consultation with a faculty advisor. LBRL 498, Readings for Research in Humanities (2), required in the quarter prior to LBRL 499.

Prerequisites & Notes: Senior status. One course from LBRL 421, LBRL 422, LBRL 423, LBRL 424, LBRL 498, permission of instructor.
Credits: 3
Grade Mode: Letter

Linguistics

Introduction

Linguistics, the science of language, is an interdisciplinary field that relates to the diversity of the cultures and languages of the world. It is an integral part of most serious pursuits dealing with aspects of language study and/or analysis. As the boundaries of the world change, an understanding of individual languages and cultures becomes increasingly more important. Communication in this complex society requires knowledge of the workings of languages as well as their interrelationship with their respective cultures. All linguistics majors are expected to acquire a rudimentary knowledge of the functions of language at various levels and knowledge of the techniques/methods used in language analysis. A student of linguistics will thereby significantly advance his/her appreciation of linguistic and cultural diversity.

Students interested in pursuing a major or minor in linguistics should contact Edward Vajda, Humanities 255, 360-650-4856, for advisement. Fax: 360-650-6110, e-mail edward.vajda@wwu.edu. Website: <https://chss.wwu.edu/linguistics>.

Faculty

EDWARD J. VAJDA, Director. Modern and Classical Languages. Morphology, language typology, historical-comparative linguistics.

EVA BAHARAV, Communication Sciences and Disorders. Language acquisition, language analysis, language disorders.

JORDAN BREWER, Linguistics. Semantics, phonology, phonetics.

MASANORI DEGUCHI, Modern and Classical Languages. Japanese linguistics, syntax and semantics.

KRISTIN DENHAM, English. Syntactic theory, morphology, sociolinguistics, psycholinguistics, Native American languages.

KENDRA DOUGLAS, Modern and Classical Languages. Sociolinguistics, language contact, phonology.

SHANNON DUBENION-SMITH, Modern and Classical Languages. Germanic linguistics, syntax, phonology, historical linguistics.

SHAW N. GYNAN, Modern and Classical Languages. Hispanic linguistics, sociolinguistics, second language acquisition, syntax and phonology.

TODD HASKELL, Psychology. Psychology of language, visual and auditory perception, cognition.

JAMES W. HEARNE, Computer Science. General linguistics, computational linguistics, narratology.

McNEEL JANTZEN, Psychology. Cognition, speech perception, language acquisition.

CHRISTINA KEPPIE, Modern and Classical Languages. Applied French linguistics, sociolinguistics, general linguistics.

ANNE LOBECK, English. Syntactic theory, historical linguistics, sociolinguistics.

NED MARKOSIAN, Philosophy. Philosophy of language, metaphysics.

JUDY PINE, Anthropology. Anthropological linguistics, language and society.

DWAN SHIPLEY, Linguistics. General linguistics, sociolinguistics.

TRISH SKILLMAN, TESOL. Language, teaching methodologies, sociolinguistics, second language acquisition.

KATHRYN VULIC, English. History of the English language, Old English in translation, medieval literatures and cultures.

RYAN WASSERMAN, Philosophy. Metaphysics, philosophy of language, epistemology, ethics.

JANET ZHIQUN XING, Modern and Classical Languages. Chinese linguistics, historical linguistics, discourse analysis, SLA.

Department of Linguistics, College of Humanities and Social Sciences

59 credits

Introduction

Linguistics, the science of language, is an interdisciplinary field which relates to the diversity of the cultures and languages of the world. It is an integral part of most serious pursuits dealing with aspects of language study and analysis. As the boundaries of the world change, an understanding of individual languages and cultures becomes increasingly important. Communication in this complex society requires knowledge of the workings of languages, as well as their interrelationship with their respective cultures.

Why Consider a Linguistics Major?

All Linguistics majors are expected to acquire knowledge of the functions of language at various levels and knowledge of the techniques and methods used in language analysis. A student of Linguistics will thereby significantly advance his or her appreciation of linguistic and cultural diversity. Students who major in linguistics acquire valuable intellectual skills, including analytic reasoning and argumentation, and learn how to study language scientifically. This means making insightful observations, formulating and testing clear hypotheses, making arguments and drawing conclusions, and communicating findings to a wider community. Linguistics majors are therefore well equipped for a variety of jobs and graduate-level programs.

Higher Education research and teaching: linguistics, philosophy, psychology, speech sciences, anthropology, computer science, English, modern and classical languages | K-12 Teaching (World Languages, ESL, literacy) | Computer Industry (speech recognition, natural language processing, AI) | Translating and Interpreting | Language documentation and fieldwork | Publishing (editing, writing) | Lexicography (dictionary research and editing) | Law (forensic linguistics)

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

To declare, a student must have completed the following requirements:

- LING 201 or ENGL 370 or TESL 401 with a grade of "B-" or better
- Minimum cumulative GPA of at least 2.5.

Students should contact the Linguistics Director when ready to declare the major.

LINGUISTICS

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

To declare a major in linguistics, students must have completed the introductory course (LING 201 or ENG 370 or TESL 401) with a grade of B- or better and have a minimum overall GPA of at least 2.5.

Requirements

For native speakers of Indo-European languages, one year of a non-IE language (Arabic, Chinese, Japanese, Korean, ASL, or other) or second year of an Indo-European language; alternative arrangements may be made for native speakers of non-Indo-European languages (12-15 credits)

One course from:

- LING 201 - Introduction to Language and Linguistics
- ENG 370 - Introduction to Language
- TESL 401 - Introduction to English Linguistics for TESOL

One course from:

- LING 204 - Sociolinguistics
- ENG 270 - Introduction to Language and Society
- LING 310 - Introduction to Linguistic Analysis
- LING 311 - Phonetics and Phonology
- LING 321 - Syntax

Three LING 400-level courses, at least two of which have either LING 311 or LING 321 as prerequisites (LING 425 cannot count towards the major)

Additional credit concentration with at least one additional upper division course in related department under advisement:

English option

ENG 370 (replaces LING 201)

Selected courses (may include ENG 436, 438, 439, 442) under departmental advisement

Anthropology option

- ANTH 247 - Introduction to Linguistic Anthropology
Electives under advisement to include anthropology linguistics courses
- ANTH 347 - The Ethnography of Communication
- ANTH 447 - Anthropological Semiotics
and select sections of ANTH 490

Communication Sciences and Disorders option

Selected courses under departmental advisement from:

- CSD 352 - Anatomy and Physiology of Speech Mechanisms
- CSD 353 - Speech Science
- CSD 354 - Speech and Language Development in Children
- CSD 356 - Phonetics
- CSD 361 - Language Disorders, Birth to Five
- CSD 373 - Introduction to Phonology
- CSD 451 - Language Disorders II

Computer Sciences option

Applicable courses in computational linguistics under departmental advisement

Additional work under advisement

Modern and Classical Languages option

314 course in the language (4 credits)

Additional credits under advisement; this may include a second foreign language, additional coursework in Linguistics or LANG 410-420

Philosophy option

- PHIL 102 - Introduction to Logic
- PHIL 202 - Intermediate Logic

- PHIL 403 - Philosophy of Language
- Psychology option
- PSY 101 - Introduction to Psychology
- PSY 210 - Cognition
- PSY 220 - Behavioral Neuroscience
- PSY 301 - Overview of Research Methods
- PSY 318 - Psychology of Language
- TESOL/Bilingual Education option
- Completion of the TESOL/Bilingual Education Minor coursework under advisement.

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- One course from:
 - LING 201 - Introduction to Language and Linguistics
 - ENG 370 - Introduction to Language
 - TESL 401 - Introduction to English Linguistics for TESOL
- One course from:
 - LING 204 - Sociolinguistics
 - ENG 270 - Introduction to Language and Society
 - LING 310 - Introduction to Linguistic Analysis
 - LING 311 - Phonetics and Phonology
 - LING 321 - Syntax

Linguistics Courses

LING 201 - Introduction to Language and Linguistics

Introduction to the scientific study of language and the various subfields of linguistics, including how language is acquired, how it varies across time and space, and how it is used in different social contexts.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

LING 204 - Sociolinguistics

Examines the relationship between society and language, concentrating on the following areas: address forms, variation theory, language use, sociolinguistics and education, multilingualism, language policy and language attitudes.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

LING 310 - Introduction to Linguistic Analysis

Provides students with a rigorous and focused introduction to linguistic analysis in the areas of phonetics, phonology, morphology, syntax, and semantics in preparation for the linguistics major.

Prerequisites & Notes: ANTH 247 or ENG 370 or LING 201 or LING 204
Credits: 5
Grade Mode: Letter

LING 311 - Phonetics and Phonology

Thorough exploration of phonetic units and phonological patterns using a variety of linguistic approaches, based on diverse world languages.

Prerequisites & Notes: LING 310
Credits: 5
Grade Mode: Letter

LING 321 - Syntax

Presents the motivation for the modern approach to the scientific study of language and allows for exploration of basic syntactic constructions of English and a variety of languages.

Prerequisites & Notes: LING 310 or equivalent.
Credits: 5
Grade Mode: Letter

LING 402 - Topics in Linguistics

Readings and/or directed research as determined by instructor. Variable topic. Repeatable.

Prerequisites & Notes: One from: ENG 370, LING 201, or LING 310; and instructor permission
Credits: 3-5
Grade Mode: Letter

LING 425 - Linguistics Tutoring

Student selected for tutoring must dedicate four hours per week to provide help to other students, primarily those enrolled in LING 201 or LING 204. Permission may also be given to assist with other linguistics courses completed with outstanding achievement. Students may be requested to lead group sessions or work with students individually. Expertise in phonetics/phonology or morphology/syntax is desirable. S/U grading.

Prerequisites & Notes: LING 201, LING 204 and two upper division core courses
Credits: 2
Grade Mode: S/U

Modern and Classical Languages

Introduction

The Department of Modern and Classical Languages, in fulfillment of the University's stated goals, provides to Western Washington University students the skills that are necessary to learn first-hand about world societies. To that end, the department believes that the best way to understand a culture is directly through its language(s). Therefore, the department offers students the opportunity to acquire three types of proficiencies: the language skills that make for successful communication, the cultural competencies that build global respect and responsibility, as well as the creative and interpretive aptitudes that underscore an understanding of the history and aesthetic expressions of a given culture. Ultimately, students graduate from the department with valuable skills for succeeding in the workplace and for supporting global citizenship.

Faculty

MARÍA PAREDES MÉNDEZ (2002) Chair and Associate Professor of Spanish. MA, PhD, University of Kansas.
SANDRA ALFERS (2008) Associate Professor of German. BA, MA, University of Nebraska; PhD, University of Massachusetts.
BLANCA ARANDA (2012) Assistant Professor of Spanish. BA Universidad Mayor de San Andrés; MA and PhD University of Oregon.
BRENT J. CARBAJAL (1997) Professor of Spanish and Provost. BA, Lewis and Clark College; MA, PhD, University of Washington.
MASANORI DEGUCHI (2006) Associate Professor of Japanese and Linguistics. BA, Kansai Gaidai University; MA, PhD, Indiana University.
SHANNON DUBENION-SMITH (2008) Associate Professor of German and Linguistics. BA University of Michigan-Ann Arbor; MA, PhD, University of Wisconsin-Madison.
PETRA S. FIERO (1995) Professor of German. MA, PhD, University of Nebraska, Lincoln.
HUGO GARCÍA (2006) Associate Professor of Spanish. BA, University of Havana, Cuba; MA, St. John's University; PhD, Ohio State University.
SHAW N. GYNAN (1986) Professor of Spanish and Linguistics. BS, Georgetown University; MA, University of Texas-El Paso; PhD, University of Texas-Austin.
VICKI L. HAMBLIN (1989) Professor of French and Director of the Center for International Studies. BS, Southwest Missouri State University; MA, Arizona State University; PhD, University of Arizona.
CÉCILE HANANIA (2002) Professor of French. PhD, University of Maryland; Doctorat, Université Paris; Maîtrise, Université de Provence.
JOAN M. HOFFMAN (1994) Professor of Spanish. BA, University of Washington; MA, University of North Carolina-Chapel Hill; PhD, Indiana University.
FOONG JANICE KAM (2012) Assistant Professor of Chinese; BA, Dartmouth College; PhD, Stanford University.
THOMAS KEELINE (2014) Assistant Professor of Classical Studies. BA, Tulane University; MA, Washington University; PhD, Harvard University.
CHRISTINA KEPPIE (2008) Associate Professor of French and Linguistics. BA University of New Brunswick; MA Carleton University; PhD, University of Alberta.
EDWARD OUSSÉLIN (2001) Professor of French. MBA, University of Kentucky; PhD, Ohio State University.
CORNELIUS PARTSCH (2003) Professor of German. MA, PhD, Brown University.
CHARLES PATTERSON (2012) Assistant Professor of Spanish. BA, Utah State University; MA, University of New Mexico; PhD, University of Texas at Austin.
DANIEL RANGEL GUERRERO (1969) Associate Professor of Spanish. AA, Sierra College; BA, Stanford University; MA, PhD, University of Oregon.
MASSIMILIANO TOMASI (1998) Professor of Japanese and Director of the East Asian Studies Program. Laurea (BA), University of Florence, Italy; MA, PhD, Nagoya University, Japan.
EDWARD J. VAJDA (1987) Professor of Russian and Linguistics and Director of the Linguistics Program. BA, Indiana University; MA, PhD, University of Washington.
JANET Z. XING (1999), Professor of Chinese and Linguistics. BA, Shanxi University, China; MA, Eastern Michigan University; PhD, University of Michigan-Ann Arbor.

MODERN AND CLASSICAL LANGUAGES

MICHIKO YUSA (1983) Professor of Japanese and East Asian Studies. BA, International Christian University, Tokyo; MA, C Phil, PhD, University of California-Santa Barbara.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA in French, German, Japanese or Spanish within a four-year time span should have completed the second-year sequence (e.g., 201, 202, 203) in the language by the start of their junior year. Otherwise it will be difficult or impossible to complete this degree program within two additional years.

Experienced Speakers of a Language

First-year courses in the Department of Modern and Classical Languages are designed for students with minimal or no previous exposure to the target language. Students enrolling in second-year courses should have no more than foundational knowledge, equivalent to the first year. Students having previous experience with the language, such as attending junior high school, high school, community or technical college, or university in which the language in question was the primary language of instruction, may be required to begin study at a more appropriate level, if available. The decision will be left to the discretion of the instructor and the language department.

Study Abroad

Students can increase language proficiency through travel, work and study abroad. WWU offers programs at study centers in Morelia, Mexico; Quito, Ecuador; Valdivia, Chile; Segovia, Oviedo and Cadiz, Spain; Angers and Rennes, France; Vienna, Austria; Macerata and Siena, Italy; Tokyo, Japan; and Beijing and Kunming, China. Designed to give students a complete foreign study experience in the host country, each program includes numerous excursions to historical and cultural sites and a wide range of activities which complement formal classroom work. WWU also sponsors academic-year university exchange programs (a) with Asia, Tsuda and Obirin universities in Tokyo, Japan; (b) Beijing Foreign Studies University; and (c) with ISEP at 70 universities in 32 countries. Students also may access language schools in Québec, Costa Rica, Germany and many other countries. Special application and registration procedures are required for participation in foreign study programs, and students should consult with the International Programs and Exchanges Office, Miller Hall 208, well in advance of their planned quarter abroad, as well as with the coordinator of the language section to discuss transfer credit.

Advanced Placement Credit

The student who has studied a foreign language in high school may be granted additional university credit upon completion of foreign language courses at WWU. Advanced placement credit is not awarded for 100-level courses. Request for advanced placement credit is to be made to the coordinator of the language section.

Transfer Placement

Students transferring from another university with some course work in a foreign language should consult with the language coordinator of the section about placement. Transfer students majoring in a foreign language must complete at least 9 credits in residence, including two fourth-year stylistics/composition courses (401/402).

Attendance

The learning and studying of a foreign language involves a level of student participation considerably higher than that required by some disciplines. It is the students' responsibility to ascertain the specific attendance requirements of their individual instructors.

Endorsement of Post-baccalaureate Students

Post-baccalaureate students with a degree in a foreign language are required to:

- Have a GPA of 3.00 or above in the major
- Obtain a letter of recommendation from a faculty member in reference to the candidate's potential as a teacher
- Satisfactorily pass the departmental oral proficiency exam given by appointment only
- Complete the endorsement sequence LANG 410, 420
- Complete 314 (phonetics) in language to be endorsed

Additional work in the language may also be required. Students should consult the coordinator of the language section.

Bachelor of Arts

Chinese Language and Culture, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

55-64 credits

Introduction

This major is designed to develop advanced proficiency in both Chinese language and culture with the goal of placing students in a competitive position in this increasingly globalized world. The rigorous curriculum of this major focuses on training students in the communicative skills and in cultural awareness that are essential for success in their career pursuits in business, education, public service, and technology related to China, Chinese people and Chinese language.

Why Consider a Chinese Language and Culture Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

How to Declare (Admission and Declaration Process):

Students can declare this major at any time, but must meet with a Chinese major advisor prior to declaration. For Chinese major advisor information, contact the Department of Modern and Classical Languages at 360-650-3918.

MODERN AND CLASSICAL LANGUAGES

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

At least 30 of the 55-64 credits must be in upper division (300- or 400-level) courses.

Language Courses (35 credits)

- CHIN 201 - Second-Year Chinese
- CHIN 202 - Second-Year Chinese
- CHIN 203 - Second-Year Chinese
- CHIN 301 - Third-Year Chinese
- CHIN 302 - Third-Year Chinese
- CHIN 303 - Third-Year Chinese
- CHIN 304 - Chinese Grammar and Composition
- CHIN 401 - Fourth Year Chinese

Non-Language Courses (9 credits)

- CHIN 402 - Chinese Language and Linguistics
- EAST 367 - Chinese Literature in Translation

Electives (11-20 credits)

Including minimum 1 course from either HIST, LBRL, PLSC, or SOC

- CHIN 237 - Study Abroad (Chinese Language & Culture)
- CHIN 337 - Study Abroad (Chinese Language & Culture)
- CHIN 280 - Traditional Chinese Characters and Calligraphy
- CHIN 330 - Chinese Culture Through Film and Literature
- CHIN 425 - Teaching-Learning Processes in Elementary Chinese
- EAST 230 - Modern Chinese Society and Language
- HIST 370 - Chinese History to 600 Ad
- HIST 372 - Chinese History: 1800 to Present
- HIST 479 - Medieval and Early-Modern Chinese History
- HIST 480 - Modern Chinese Social History
- HIST 481 - The Chinese Revolution
- LANG 430 - Asian Language Pedagogy and Practice
- LBRL 277 - Humanities of China
- LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern
- LBRL 380 - Religion and Society in China
- PLSC 430 - Modern Chinese Politics
- SOC 437 - Changing China

French with a Teaching Endorsement, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language skills courses, as well as a significant number of courses in Linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable high school students to begin the acquisition of foreign languages.

Why Consider a Teaching Endorsement in French Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

The BA in French leads to a BA degree without teacher certification. In order to receive a recommendation for state of Washington certification students must complete the "teacher certification" program which is offered by the Department of Secondary Education.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Make an appointment with the French advisor.
 When meeting with the advisor, you should bring:

MODERN AND CLASSICAL LANGUAGES

- An "Official Declaration of Undergraduate Major" form (available at the Department Office)
- An unofficial WWU transcript
- Documentation for courses taken at other colleges or universities
- Documentation for any study-abroad credits earned

Grade Requirements

Students must earn a grade of C (2.0) or better in the secondary education professional program and in all courses required for the endorsement.

A GPA of 3.00 is required in the language major and a GPA of 3.00 or above is required in endorsement courses.

Requirements

Complete both A and B:

A. Language Component (55 credits)

- French, BA

B. Endorsement Requirements (10 credits)

- LANG 410 - World Language Instruction: Theory and Method I
- LANG 420 - World Language Instruction: Theory and Method II
- FREN 425 - Teaching-Learning Processes in Elementary French
 - Be recommended by a faculty member in the major field
 - Pass the departmental foreign language oral proficiency exam given during spring quarter
 - Complete the professional preparation program in secondary education. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Additional Requirements

Secondary Education Undergraduate and Post-Baccalaureate Professional Program (62 credits)

- SEC 301 - Educational Psychology I: Development and Individual Differences
- SEC 302 - Educational Psychology II: Motivation, Learning and Assessment
- SEC 310 - Education, Culture, and Equity
- SEC 410 - Dynamics of Teaching
- SEC 411 - Philosophical Foundations of Education
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools
- SEC 430 - Secondary School Methods I - Instructional Strategies, Daily Planning, and Standards
- SEC 431 - Secondary School Methods II-Assessment and Long Term Planning
- SEC 432 - Secondary School Methods III - Management, Motivation and Discipline
- SEC 433 - Teaching Laboratory
- SEC 435 - Middle Level Practicum
- SEC 436 - Secondary School Practicum
- SEC 444 - Supporting Teaching and Learning with Technology
- SEC 495 - Internship - Secondary
- SPED 363 - Secondary Students With Special Needs

Department of Modern and Classical Languages, College of Humanities and Social Sciences

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language structure through a full range of language skills courses, as well as a significant number of courses in linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable high school students to begin the acquisition of foreign languages.

Why Consider a Teaching Endorsement in German Major?

The BA in German leads to a BA degree without teacher certification. In order to receive a recommendation for state of Washington certification students must complete the "teacher certification" program which is offered by the Department of Secondary Education.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Regulations for teaching endorsement are subject to change. For teaching endorsement program, contact the foreign language endorsement advisor.

How to Declare (Admission and Declaration Process):

Make an appointment with the German advisor.

When meeting with the advisor, you should bring:

MODERN AND CLASSICAL LANGUAGES

- An "Official Declaration of Undergraduate Major" form (available at the Department Office)
- An unofficial WWU transcript
- Documentation for courses taken at other colleges or universities
- Documentation for any study-abroad credits earned

Grade Requirements

Students must earn a grade of C (2.0) or better in the secondary education professional program and in all courses required for the endorsement.

A GPA of 3.00 is required in the language major and a GPA of 3.00 or above is required in endorsement courses.

Requirements

Complete both A and B:

A. Language Component (55 credits)

- German, BA

B. Endorsement Requirements (10 credits)

- LANG 410 - World Language Instruction: Theory and Method I
- LANG 420 - World Language Instruction: Theory and Method II
- GERM 425 - Teaching-Learning Process in Elementary German
 - Be recommended by a faculty member in the major field
 - Pass the departmental foreign language oral proficiency exam given during spring quarter
 - Complete the professional preparation program in secondary education. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements

Additional Requirements

Secondary Education Undergraduate and Post-Baccalaureate Professional Program (62 credits)

- SEC 301 - Educational Psychology I: Development and Individual Differences
- SEC 302 - Educational Psychology II: Motivation, Learning and Assessment
- SEC 310 - Education, Culture, and Equity
- SEC 410 - Dynamics of Teaching
- SEC 411 - Philosophical Foundations of Education
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools
- SEC 430 - Secondary School Methods I - Instructional Strategies, Daily Planning, and Standards
- SEC 431 - Secondary School Methods II-Assessment and Long Term Planning
- SEC 432 - Secondary School Methods III - Management, Motivation and Discipline
- SEC 433 - Teaching Laboratory
- SEC 435 - Middle Level Practicum
- SEC 436 - Secondary School Practicum
- SEC 444 - Supporting Teaching and Learning with Technology
- SEC 495 - Internship - Secondary
- SPED 363 - Secondary Students With Special Needs

German, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

55 credits

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language structure through a full range of language skills courses, as well as a significant number of courses in linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable high school students to begin the acquisition of foreign languages.

Why Consider a German Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

How to Declare (Admission and Declaration Process):

Make an appointment with the French advisor.

When meeting with the advisor, you should bring:

MODERN AND CLASSICAL LANGUAGES

- An "Official Declaration of Undergraduate Major" form (available at the Department Office)
- An unofficial WWU transcript
- Documentation for courses taken at other colleges or universities
- Documentation for any study-abroad credits earned

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

A GPA of 2.75 is required in major language.

Requirements

- Minimum of 21 credits must be taken in language skills courses (e.g., 201, 202, 301, 302, 401) through the fourth year
- Remaining credits are to be earned in selected courses under advisement at the 300- or 400-level in the language; up to 24 of these credits may be earned through foreign study course work in language, culture or literature (if taken in the target language)

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)

German - Elementary, BAE

Department of Modern and Classical Languages, College of Humanities and Social Sciences

45 credits

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language structure through a full range of language skills courses, as well as a significant number of courses in linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable elementary school students to begin the acquisition of foreign languages.

Why Consider a German-Elementary Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages

MODERN AND CLASSICAL LANGUAGES

offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

How to Declare (Admission and Declaration Process):

Make an appointment with the German advisor.

When meeting with the advisor, you should bring:

- An "Official Declaration of Undergraduate Major" form (available at the Department Office)
- An unofficial WWU transcript
- Documentation for courses taken at other colleges or universities
- Documentation for any study-abroad credits earned

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

A GPA of 2.75 is required in major language.

Requirements

Minimum of 21 credits must be taken in language skills courses (e.g., GERM 201, GERM 202, GERM 203, GERM 301, GERM 302, GERM 401) through the fourth year.

Remaining credits are to be earned in selected courses under advisement at the 300- or 400-level in the language; up to 24 of these credits may be earned through foreign study course work in language, culture or literature (if taken in the target language).

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)

Additional Endorsement

Designated World Languages, Additional Endorsement

44-51 Credits

Introduction

This additional endorsement program prepares students to teach designated world language (Chinese, French, German, Japanese, or Spanish) at all levels and must be accompanied by a professional education program and a qualifying endorsement in another content area. See the Elementary Education, Secondary Education, and Special Education and Education Leadership sections of this catalog for program admission, completion, and teacher certificate requirements. A passing score on the World Languages WEST-E test, and proficiency in the designated world language assessed by ACTFL oral and written tests at the Advanced-Low level, are required by the state.

Why Consider an Additional Endorsement in Designated World Languages?

GUR Attributes: ACGM

CHIN 203 - Second-Year Chinese

To be taken in sequence. Review of the fundamentals of the modern standard language (Mandarin); emphasis on acquisition of oral and written vocabulary; intensive reading and discussion in Chinese of graded materials in modern Chinese (Mandarin).

Prerequisites & Notes: CHIN 202 or equivalent
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 280 - Traditional Chinese Characters and Calligraphy

An introduction to the principles used in the formation and history of Chinese characters. The components of the characters are analyzed and compared with the new, simplified forms. Prepared texts provide practice in reading the characters. Calligraphy sessions provide opportunity to write both the traditional and simplified forms.

Prerequisites & Notes: CHIN 101
Credits: 3
Grade Mode: Letter

CHIN 301 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 203
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 302 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 301
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 303 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 302
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 304 - Chinese Grammar and Composition

This course is designed to review and discuss all major grammatical elements in Chinese, including sentence building, analysis of grammatical elements and written composition. Students will be asked to read and compose an autobiography on various topics, such as childhood, family and friends, resume, hobbies, etc.

Prerequisites & Notes: CHIN 201
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 330 - Chinese Culture Through Film and Literature

An introduction to cultural aspects of Chinese through a study of film as oral and visual texts.

Film scripts and short stories, especially those from which films have been adapted, are used to enhance reading and discussion skills. Repeatable to a maximum of 9 cr.

Prerequisites & Notes: CHIN 203 or instructor permission
Credits: 3
Grade Mode: Letter

CHIN 401 - Fourth Year Chinese

This course is designed to serve as a capstone course for students who major in Chinese Language and Culture. It provides students with the opportunity to apply and integrate both linguistic and cultural knowledge that they have acquired from each course in their program of Chinese study at Western.

Prerequisites & Notes: CHIN 302 or equivalent, or permission of instructor.
Credits: 4
Grade Mode: Letter

CHIN 402 - Chinese Language and Linguistics

This course is designed for students to gain a comprehensive understanding of the structure and usage of Mandarin (Modern standard) Chinese. Through class discussion, reading materials, and a research project, students explore all core areas of Chinese language and linguistics: phonology, morphology, semantics, syntax, as well as dialect variations.

Prerequisites & Notes: CHIN 201 or LING 201 or instructor's permission
Credits: 4
Grade Mode: Letter

CHIN 425 - Teaching-Learning Processes in Elementary Chinese

Students selected for tutoring must dedicate four hours per week to provide help to other students primarily those enrolled in 100-200 levels of Chinese courses. Permission may also be given to assist with other Chinese courses completed with outstanding achievement. Students may be requested to lead group sessions or work with students individually. Expertise in Chinese grammar or linguistics is desirable. S/U grading.

Prerequisites & Notes: CHIN 301 and instructor permission.
Credits: 2
Grade Mode: S/U

Variable topics in Eurasian Studies, including folklore, linguistics, area studies. Repeatable for credit.

Prerequisites & Notes: EUS 201 or EUS 210 or instructor permission

Credits: 3

Grade Mode: Letter

French Courses

FREN 101 - Elementary French

To be taken in sequence. Fundamentals of speaking, reading, writing and understanding French.

Credits: 5

Grade Mode: Letter

FREN 102 - Elementary French

To be taken in sequence. Fundamentals of speaking, reading, writing and understanding French.

Prerequisites & Notes: FREN 101

Credits: 5

Grade Mode: Letter

FREN 103 - Elementary French

To be taken in sequence. Fundamentals of speaking, reading, writing and understanding French.

Prerequisites & Notes: FREN 102

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

FREN 104 - Review of Elementary French

Designed for students with two years of high school French or equivalent to prepare them for the intermediate level through review and development of basic structure and vocabulary. Also for students needing a review of the first year.

Prerequisites & Notes: FREN 103 or two years HS French or equivalent

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

FREN 201 - Intermediate French

To be taken in sequence. Continuation of skill development begun in elementary French, with additional work in vocabulary acquisition and grammar.

Prerequisites & Notes: FREN 103 or FREN 104 or equivalent

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

FREN 202 - Intermediate French

To be taken in sequence. Continuation of skill development begun in elementary French, with additional work in vocabulary acquisition and grammar.

Prerequisites & Notes: FREN 201 or equivalent

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

FREN 203 - Intermediate French

To be taken in sequence. Continuation of skill development begun in elementary French, with additional work in vocabulary acquisition and grammar.

Prerequisites & Notes: FREN 202 or equivalent
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

FREN 301 - Grammar Review

Study of language and structure, vocabulary building, use of reference tools and writing styles.

Prerequisites & Notes: FREN 203 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

FREN 302 - Written Exposition

Practice in written expression of various kinds: resumes, analyses de texte, personal and formal correspondence as well as fiction.

Prerequisites & Notes: FREN 301
Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

FREN 314 - Phonetics

Emphasizes improvement of pronunciation, contrasts English and French pronunciations and teaches phonetic transcription.

Prerequisites & Notes: FREN 203 or equivalent
Credits: 4
Grade Mode: Letter

FREN 331 - La France: société et culture

An introduction to the culture and civilization of France from historical and modern perspectives. Readings, discussions, films, oral and written assignments in French.

Prerequisites & Notes: FREN 301 or equivalent
Credits: 4
Grade Mode: Letter

FREN 332 - Civilisation et Culture du Canada Francophone

An introduction to French Canadian culture and civilization from historical, modern, and linguistic perspectives. Readings, discussions, films, oral and written assignments in French.

Prerequisites & Notes: FREN 301 or FREN 314 depending on course emphasis.
Credits: 3
Grade Mode: Letter

FREN 340 - Introduction to French Literature I

An introduction to literary analysis, explication de texte involving poetry, prose and drama from the works of major authors of the Middle Ages and Renaissance.

Prerequisites & Notes: FREN 301 or equivalent
Credits: 4
Grade Mode: Letter

FREN 341 - Introduction to French Literature II

An introduction to literary analysis, explication de texte involving poetry, prose and drama from works of major authors of the 17th and 18th centuries.

Prerequisites & Notes: FREN 301; FREN 340 recommended
Credits: 4
Grade Mode: Letter

FREN 342 - Introduction to French Literature III

Introduction to literary analysis, explication de texte involving poetry, prose and drama from works of major authors of the 19th and 20th centuries.

Prerequisites & Notes: FREN 301 or equivalent
Credits: 4
Grade Mode: Letter

FREN 385 - Culture and Conversation

French and Francophone cultures as seen in various media. Discussion of aspects of these cultures. Required for the major. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: FREN 301 or equivalent
Credits: 4
Grade Mode: Letter

FREN 401 - Elements De Stylistique

Extensive practice in writing and in analyzing grammatical, stylistic and textual forms.

Prerequisites & Notes: FREN 302, FREN 314
Credits: 3
Grade Mode: Letter

FREN 402 - French for Business

Extensive practice writing and analyzing French as used for professional purposes including business case studies, correspondence and contracts. May replace FREN 401 with permission of instructor.

Prerequisites & Notes: FREN 301 plus 2

MODERN AND CLASSICAL LANGUAGES

additional 300-level French courses
Credits: 4
Grade Mode: Letter

FREN 410 - Ecriture Feminine Francophone

Introduces students to a variety of texts written by women from the Francophone world (from Belgium to North Africa, French Antilles to Canada), and explores social, cultural and literary topics such as bi- and multiculturalism, native cultures vs. exogenous cultures, colonization, women's writing and condition, attitudes toward France and the French language, and exile and memory reconstruction.

Prerequisites & Notes: FREN 401 and one of FREN 340, FREN 341 or FREN 342.
Credits: 4
Grade Mode: Letter

FREN 420 - Histoire De La Langue Francaise

A cultural and linguistic survey of the development of the French language from its origins to the present day, with samples selected from phonetic, grammatical, lexical, and syntactical aspects of the language at various stages in its evolution.

Prerequisites & Notes: FREN 401 and one of FREN 340, FREN 341, FREN 342.
Credits: 4
Grade Mode: Letter

FREN 425 - Teaching-Learning Processes in Elementary French

Practicum in course preparation, classroom and language laboratory procedures, materials, evaluation and counseling. Repeatable. S/U grading.

Prerequisites & Notes: Written permission and two upper-division French courses.
Credits: 2
Grade Mode: S/U

FREN 440 - Etude Sociolinguistique

Discusses the current developments of French in relation to community identity in times of globalization and late modernity. Examines the sociocultural forces that cause language variation and change, as well as people's attitudes vis à vis French in the Francophone world. Also introduces students to current sociolinguistic research methods.

Prerequisites & Notes: FREN 314, FREN 401 and one of FREN 340, FREN 341 or FREN 342
Credits: 4
Grade Mode: Letter

FREN 460 - French Cinema

Part I: Historical overview of French cinema from 1895 to 1945. Part II: Historical overview of French cinema from 1945 to present.

Prerequisites & Notes: FREN 401 and one of FREN 340, FREN 341 or FREN 342.
Credits: 4
Grade Mode: Letter

German Courses

GERM 101 - Elementary German: Language, Communication & Culture

To be taken in sequence. Fundamentals of the language (speaking, listening, reading, writing), language use for communication, and introduction to the cultures of the German-speaking countries.

Credits: 5
Grade Mode: Letter

GERM 102 - Elementary German: Language, Communication & Culture

Fundamentals of the language (speaking, listening, reading, writing), language use for communication, and introduction to the cultures of the German-speaking countries.

Prerequisites & Notes: GERM 101 or equivalent
Credits: 5
Grade Mode: Letter

GERM 103 - Elementary German: Language, Communication & Culture

Fundamentals of the language (speaking, listening, reading, writing), language use for communication, and introduction to the cultures of the German-speaking countries.

Prerequisites & Notes: GERM 102 or equivalent
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

GERM 104 - Review of Elementary German: Language, Communication & Culture

Designed for students with two years of high school German or equivalent. Review of language fundamentals (speaking, listening, reading, writing), language use for communication, and introduction to the cultures of the German-speaking countries.

Prerequisites & Notes: Two years of high school German.
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

GERM 201 - Intermediate German: Language, Communication & Culture

Deepening of language and communication skills developed in Elementary German and introduction of further cultural content in the target language.

Prerequisites & Notes: GERM 103 or GERM 104 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

GERM 202 - Intermediate German: Language, Communication & Culture

Deepening of language and communication skills developed in Elementary German and introduction of further cultural content in target language.

Prerequisites & Notes: GERM 201 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

GERM 203 - Intermediate German: Language, Communication & Culture

Deepening of language and communication skills developed in Elementary German and introduction of further cultural content in the target language.

Prerequisites & Notes: GERM 202 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

GERM 301 - High Intermediate German: Contexts & Culture

To be taken in sequence. Comprehensive review of grammatical structures, further development of language skills, and discussion of authentic materials in their socio-historical contexts.

Prerequisites & Notes: GERM 203 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

GERM 302 - Advanced German: Contexts & Cultures I

Continuing review of grammatical structures, further development of language skills, and study of more complex authentic materials in their socio-historical contexts.

Prerequisites & Notes: GERM 301 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

GERM 306 - Third-Year Conversation

Development of speaking skills in communicative situations. S/U grading.

Prerequisites & Notes: GERM 302 or equivalent.
Credits: 3
Grade Mode: S/U

GERM 314 - Phonetics

A course designed to improve the student's pronunciation and intonation, to become familiar with phonetic transcription, and to become aware of problems involved in teaching German sounds.

Prerequisites & Notes: GERM 203
Credits: 4
Grade Mode: Letter

GERM 331 - Civilization of Germany Through the Nineteenth Century

Significant elements of German civilization presented through German texts.

Prerequisites & Notes: GERM 301
Credits: 4
Grade Mode: Letter

GERM 332 - German Civilization Today

Significant elements of German civilization. Repeatable to a maximum of 8 cr.

Prerequisites & Notes: GERM 301
Credits: 4
Grade Mode: Letter

GERM 340 - Introduction to German Literature

Selected works of major German authors, with emphasis on reading improvement and methods of textual interpretation.

Prerequisites & Notes: GERM 301
Credits: 4
Grade Mode: Letter

GERM 341 - Nineteenth-Century German Literature

Emphasis on either Romanticism or Realism. Repeatable with different topics.

Prerequisites & Notes: GERM 340
Credits: 4
Grade Mode: Letter

GERM 343 - Eighteenth-Century German Literature

Classical period of German literature as reflected in a major work of Lessing, Goethe and Schiller.

Prerequisites & Notes: GERM 340

MODERN AND CLASSICAL LANGUAGES

Credits: 4
Grade Mode: Letter

GERM 401 - Advanced German: Contexts & Cultures II

In-depth work with the language, including complex structures and stylistics, communication and cultural content.

Prerequisites & Notes: GERM 302 or equivalent
Credits: 4
Grade Mode: Letter

GERM 402 - Advanced German: Contexts & Cultures III

In-depth work with the language, with an emphasis on effective written communication; analysis of written texts for style, organization and purpose.

Prerequisites & Notes: GERM 302 or equivalent; recommended take GERM 401 first
Credits: 4
Grade Mode: Letter

GERM 406 - Fluency Through Dramatization

Bridges the gap between grammar-based language learning and content-based culture and/or literature courses. Students profit highly from a holistic approach involving role playing and the actualization of works of modern German drama. Emphasis is placed on pronunciation and intonation to facilitate increased fluency in German.

Prerequisites & Notes: GERM 302
Credits: 4
Grade Mode: Letter

This course explores the main features of German culture of the 20th Century through the medium of feature films rather than textbooks.

Prerequisites & Notes: GERM 302
Credits: 4
Grade Mode: Letter

GERM 425 - Teaching-Learning Process in Elementary German

Practicum in preparation, implementation and evaluation of instructional materials. Repeatable with no maximum. S/U grading.

Prerequisites & Notes: 6 credits upper-division German; written department permission.
Credits: 2
Grade Mode: S/U

GERM 432 - Contemporary German Culture

Analysis of important trends and current events in the German-speaking countries presented through various texts and media.

Prerequisites & Notes: GERM 340 and department advisement.
Credits: 4
Grade Mode: Letter

GERM 440 - Topics in Germanic Linguistics

Study of major areas in Germanic linguistics. Topics may include history of German, lexicology, phonology, morphology, syntax, dialectology. Repeatable with different topics with no maximum.

Prerequisites & Notes: GERM 401
Credits: 4
Grade Mode: Letter

GERM 450 - Studies in German Literature

Major authors and movements. Repeatable with different topics with no maximum.

Prerequisites & Notes: GERM 302, GERM 340
Credits: 4
Grade Mode: Letter

Greek Courses

GREK 101 - Elementary Greek

Fundamentals of ancient Greek grammar designed primarily to provide an elementary reading knowledge; selected readings from various Greek writers.

Credits: 5
Grade Mode: Letter

GREK 102 - Elementary Greek

Fundamentals of ancient Greek grammar designed primarily to provide an elementary reading knowledge; selected readings from various Greek writers.

Prerequisites & Notes: GREK 101
Credits: 5
Grade Mode: Letter

GREK 103 - Elementary Greek

Fundamentals of ancient Greek grammar designed primarily to provide an elementary reading knowledge; selected readings from various Greek writers.

Prerequisites & Notes: GREK 102
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

GREK 201 - Intermediate Greek I

To be taken in sequence. Review of fundamentals of ancient Greek grammar; reading from Plato's dialogues, the orators, the Iliad or Odyssey. Introduction to Greek civilization.

Prerequisites & Notes: GREK 103 or equivalent
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

GREK 202 - Intermediate Greek II

Review of fundamentals of ancient Greek grammar; reading from Plato's dialogues, the orators, the Iliad or Odyssey. Introduction to Greek civilization.

Prerequisites & Notes: GREK 201
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

GREK 350 - Advanced Readings

Selected readings from Greek authors with an emphasis on honing grammatical skills and deepening one's understanding of Greek literary and cultural achievements. Repeatable with different topics.

Prerequisites & Notes: GREK 202
Credits: 4
Grade Mode: Letter

Italian Courses

ITAL 101 - First-Year Italian

Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking. Also offered as ITAL 137A.

Credits: 5
Grade Mode: Letter

Japanese Courses

JAPN 101 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening and speaking. Audio-assisted oral practice is an integral part of the course.

Credits: 5
Grade Mode: Letter

JAPN 102 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening

and speaking. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 101
Credits: 5
Grade Mode: Letter

JAPN 103 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening and speaking. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 102
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 104 - Review of Elementary Japanese

Designed for students with two years high school Japanese or equivalent to prepare them for the intermediate level through review and development of basic structure and vocabulary. Also for students needing a review of the first year.

Prerequisites & Notes: 2 years high school Japanese; proficiency in hiragana, katakana, and 150 basic kanji
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 201 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening and speaking skills. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 103
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 202 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening and speaking skills. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 201
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 203 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening and speaking skills. Audio-assisted oral practice is an integral part of the course.

MODERN AND CLASSICAL LANGUAGES

Prerequisites & Notes: JAPN 202
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 280 - Kanji

Acquisition of 50 kanji per week by way of associative method. Not applicable to the minor. Repeatable to 10 cr. S/U grading.

Credits: 2
Grade Mode: S/U

JAPN 301 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 203
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 302 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 301
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 303 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 302
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 305 - Japanese Conversation

Development of speaking skills in communicative situations.

Prerequisites & Notes: JAPN 201
Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 314 - Japanese Phonetics

Improvement of pronunciation, familiarization with phonetic transcription, and awareness of pronunciation problems.

Prerequisites & Notes: JAPN 301 or instructor permission
Credits: 4
Grade Mode: Letter

JAPN 330 - Japanese Culture Through Film

Discussion of Japanese culture seen through Japanese films. Topics of discussion involve Japanese psychology, mentality, customs, society and history. This course is conducted in Japanese and is repeatable up to 8 credits.

Prerequisites & Notes: JAPN 203.
Credits: 4
Grade Mode: Letter

JAPN 350 - Japanese Culture, History and Society

This is a survey course that covers a broad scope of Japanese history, culture and society. It will be taught in Japanese but will include some readings and instruction in English when deemed appropriate. It is a requirement for students pursuing a major in Japanese, but other interested students may enroll with the permission of the instructor if space permits. Specific course contents vary according to instructors.

Prerequisites & Notes: JAPN 301
Credits: 4
Grade Mode: Letter

JAPN 401 - Advanced Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; targets the advanced materials.

Prerequisites & Notes: JAPN 303; required for majors.
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

JAPN 402 - Topics in Japanese Literature

This is a seminar, conducted entirely in Japanese, and is required of students majoring in Japanese. Advanced reading materials in Japanese literature are introduced according to the class discussion schedule. The topic of the seminar varies according to the instructor. Repeatable to a maximum of 8 cr. under advisement.

Prerequisites & Notes: JAPN 401
Credits: 4
Grade Mode: Letter

JAPN 403 - Topics in Japanese Thought

This is a seminar, conducted entirely in Japanese, and is required of students majoring in Japanese.

Students are introduced to advanced materials in Japanese thought according to the class discussion schedule. The topic of the seminar varies according to the instructor. This is a writing intensive course.

Prerequisites & Notes: JAPN 401 or equivalent
Credits: 4
Grade Mode: Letter

JAPN 425 - Teaching-Learning Process in Elementary Japanese

Practicum in course preparation, classroom materials, evaluation and counseling. Repeatable up to 4 credits. S/U grading.

Prerequisites & Notes: Written permission of department; JAPN 303 with B or better.
Credits: 2
Grade Mode: S/U

Latin Courses

LAT 101 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Credits: 5
Grade Mode: Letter

LAT 102 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Prerequisites & Notes: LAT 101
Credits: 5
Grade Mode: Letter

LAT 103 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Prerequisites & Notes: LAT 102
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

LAT 201 - Intermediate Latin

To be taken in sequence as the first in an intermediate language sequence. Review of fundamentals; selected readings from various Roman writers; introduction to Roman civilization.

Prerequisites & Notes: LAT 103 or two years of high school Latin
Credits: 5

Grade Mode: Letter
GUR Attributes: BCOM

LAT 202 - Intermediate Latin

To be taken in sequence as the second in an intermediate language sequence. Review of fundamentals; selected readings from various Roman writers; introduction to Roman civilization.

Prerequisites & Notes: LAT 201

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LAT 203 - Intermediate Latin

To be taken in sequence as the third in an intermediate language sequence. Review of fundamentals; selected readings from Roman writers with an emphasis on honing grammatical skills and understanding Roman literary and cultural achievements.

Prerequisites & Notes: LAT 202 or equivalent.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

LAT 340 - Classical Roman Literature

Readings in major Roman authors of the late Republican and early Imperial periods; introduction to classical literary analysis.

Prerequisites & Notes: Two years university-level Latin or equivalent.

Credits: 4
Grade Mode: Letter

Prerequisites & Notes: Two years university-level Latin or equivalent.

Credits: 4
Grade Mode: Letter

Modern and Classical Languages Courses

LANG 410 - World Language Instruction: Theory and Method I

To be taken prior to field experience. Theory of world language instruction. Topics include contrastive analysis of English with target language; comparative first and second language acquisition; cognitive, attitudinal and political dimensions.

Prerequisites & Notes: 6 credits in one world language beyond second year; Grade of B or better in LING 201 or instructor permission.
Credits: 4
Grade Mode: S/U

LANG 420 - World Language Instruction: Theory and Method II

To be taken prior to field experience. Methods of world language instruction. Demonstration of and practice with techniques appropriate to a variety of levels. Use, analysis and critique of technology, grammar and translation, audiolingual techniques, and direct methods. Professional development is discussed and analyzed.

Prerequisites & Notes: LANG 410.
Credits: 4
Grade Mode: S/U

LANG 430 - Asian Language Pedagogy and Practice

The course is designed to help students develop a better understanding of the current theories and practice of Chinese/Japanese language pedagogy and acquisition, to become acquainted with the National Standards (the five goal areas: communication, cultures, connections, comparisons, and communities and the three communicative modes: presentational, interpretive and interpersonal) and the teaching materials and methodologies in five major content areas of Chinese/Japanese language learning (i.e. the pronunciation system, characters, sentences/grammar, discourse, and culture). Students will be given opportunities to design/develop teaching materials (including both language and cultural components) for different levels of classes and to strategize and articulate their courses based on assessment guidelines. This course may also be used as Linguistics 402 for linguistics majors.

Prerequisites & Notes: CHIN 202 or JAPN 202
Credits: 4

Grade Mode: Letter
GUR Attributes: ACGM

Portuguese Courses

PORT 105 - Intensive Portuguese for Speakers of Spanish

An accelerated course designed for students with one year of college-level Spanish or equivalent to introduce them to the fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking.

Credits: 5
Grade Mode: Letter

PORT 304 - Portuguese for Spanish Speakers

An accelerated course designed for students with two years of college-level Spanish or equivalent to prepare them for the advanced level through development of skills in pronunciation, grammar, aural comprehension, reading and speaking.

Prerequisites & Notes: Two years of college-level Spanish or equivalent.
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

Russian Courses

RUSS 110 - Beginning Russian I

Introduces the Russian alphabet, basic conversation and grammar. First course in the Russian language sequence.

Credits: 5
Grade Mode: Letter

RUSS 120 - Elementary Russian 2

The second half of the introductory Russian language sequence.

Prerequisites & Notes: RUSS 110
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

RUSS 201 - Intermediate Russian I

Review of fundamentals: speaking, reading, writing and understanding.

Prerequisites & Notes: RUSS 120 or equivalent
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

RUSS 202 - Intermediate Russian II

Review of fundamentals: speaking, reading, writing and understanding.

Prerequisites & Notes: RUSS 201

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

RUSS 203 - Intermediate Russian III

Review of fundamentals: speaking, reading, writing and understanding.

Prerequisites & Notes: RUSS 202

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

RUSS 214 - Russian Phonetics

Systematic practical and theoretical introduction to the Russian sound system.

Prerequisites & Notes: RUSS 101

Credits: 2
Grade Mode: Letter

RUSS 301 - Third-Year Composition

Written and oral expression, advanced grammar, and vocabulary building.

Prerequisites & Notes: RUSS 203 or equivalent

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

RUSS 302 - Third-Year Composition

Written and oral expression, advanced grammar and vocabulary building.

Prerequisites & Notes: RUSS 301 or equivalent

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

Spanish Courses

SPAN 101 - Elementary Spanish

Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking.

Credits: 5
Grade Mode: Letter

SPAN 102 - Elementary Spanish

Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking.

Prerequisites & Notes: SPAN 101.

Credits: 5
Grade Mode: Letter

SPAN 103 - Elementary Spanish

Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking.

Prerequisites & Notes: SPAN 102.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

SPAN 104 - Review of Elementary Spanish

Designed for students with two years of high school Spanish or equivalent to prepare them for the intermediate level through review and development of basic structure and vocabulary. Also for students needing a review of the first year. Offered fall only.

Prerequisites & Notes: Two years of high school Spanish recommended.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

SPAN 201 - Intermediate Spanish

Review of fundamentals: understanding, speaking, reading and writing.

Prerequisites & Notes: SPAN 103 or SPAN 104 or equivalent.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

SPAN 202 - Intermediate Spanish

Review of fundamentals: understanding, speaking, reading and writing.

Prerequisites & Notes: SPAN 201.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

SPAN 203 - Intermediate Spanish

Review of fundamentals: understanding, speaking, reading and writing.

Prerequisites & Notes: SPAN 202.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

SPAN 301 - Grammar Review and Composition

MODERN AND CLASSICAL LANGUAGES

Language development, including written composition, vocabulary building, analysis of grammatical problems and discussion of selected Spanish texts.

Prerequisites & Notes: SPAN 203 or equivalent.
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

SPAN 302 - Grammar Review and Composition

Language development, including written composition, vocabulary building, analysis of grammatical problems and discussion of selected Spanish texts.

Prerequisites & Notes: SPAN 301.
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

SPAN 305 - Third-Year Conversation

Development of speaking skills in communicative situations. S/U grading.

Prerequisites & Notes: SPAN 203 or equivalent.
Credits: 4
Grade Mode: S/U

SPAN 310 - Writing Through Film

Writing Through Film is designed to give students the opportunity to improve, stimulate, and strengthen their writing skills. This class captures the history and culture in the selection of Hispanic films, providing students with the cultural context, vocabulary, and societal themes for written compositions.

Prerequisites & Notes: SPAN 203
Credits: 3
Grade Mode: Letter

SPAN 314 - Phonetics

Improvement of student pronunciation, familiarization with phonetic transcription and description of Spanish sounds.

Prerequisites & Notes: SPAN 301 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 331 - Culture of Spain

Survey of Spanish culture.

Prerequisites & Notes: SPAN 301 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 332 - Culture of Latin America

Survey of Latin American culture.

Prerequisites & Notes: SPAN 301 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 333 - Spanish for Business

Provides students with the practical and cultural knowledge necessary for work in the Spanish-speaking business world. Emphasis on business customs and practice, with considerable vocabulary exposure.

Prerequisites & Notes: SPAN 203
Credits: 4
Grade Mode: Letter

SPAN 340 - Introduction to Hispanic Literature

Selected works of major Hispanic authors, with emphasis on reading improvement and methods of textual interpretation.

Prerequisites & Notes: SPAN 302 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 351 - Survey of the Literature of Spain

Historical survey of ten centuries of Spanish (Peninsular) literature.

Prerequisites & Notes: SPAN 340.
Credits: 4
Grade Mode: Letter

SPAN 352 - Survey of the Literature of Latin America

Historical survey of Latin American literature from the pre-Hispanic period until the present.

Prerequisites & Notes: SPAN 340.
Credits: 4
Grade Mode: Letter

SPAN 401 - Advanced Grammar

Analysis of special problems in Spanish syntax.

Prerequisites & Notes: SPAN 302 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 402 - Advanced Composition

Composition and stylistics; analysis of textual examples of style and organization.

Prerequisites & Notes: SPAN 401 or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 405 - Fourth-Year Conversation

Advanced speaking practice in communicative situations. S/U grading.

Prerequisites & Notes: SPAN 302 or equivalent.
Credits: 3
Grade Mode: S/U

SPAN 425 - Teaching-Learning Processes in Elementary Spanish

Practicum in teaching Spanish. Repeatable. S/U grading.

Prerequisites & Notes: Permission of department and two courses in upper- division Spanish.
Credits: 2
Grade Mode: S/U

SPAN 430 - Cultures Through Film

Selected films and readings. Emphasis on film as a medium through which to achieve understanding of chosen topics in various cultures of the Spanish-speaking world. Repeatable with different topics with no maximum.

Prerequisites & Notes: SPAN 302
Credits: 4
Grade Mode: Letter

SPAN 440 - Studies in Hispanic Linguistics

Study of major areas in Hispanic linguistics. Topics may include history of the Spanish language, lexicology, phonology, morphology, syntax, dialectology or sociolinguistics. Repeatable with different topics with no maximum.

Prerequisites & Notes: SPAN 314; or SPAN 301 and LING 201; or equivalent.
Credits: 4
Grade Mode: Letter

SPAN 450 - Studies in Hispanic Literature

Major authors and movements. Repeatable with various topics with no maximum.

Prerequisites & Notes: SPAN 351 or SPAN 352.
Credits: 3-5
Grade Mode: Letter

SPAN 450A - Studies in Hispanic Literature

Major authors and movements. Repeatable with various topics with no maximum.

Prerequisites & Notes: SPAN 351 or SPAN 352.
Credits: 3-5
Grade Mode: Letter

SPAN 450B - Studies in Hispanic Literature

Major authors and movements. Repeatable with various topics with no maximum.

Prerequisites & Notes: SPAN 351 or SPAN 352.
Credits: 3-5
Grade Mode: Letter

Multidisciplinary Studies

Introduction

The Multidisciplinary Studies Major is designed for students seeking a flexible academic focus that transcends disciplinary boundaries. Students may develop a personalized plan of study utilizing resources across multiple departments. The major affords students the opportunity to prepare themselves for work in a variety of areas. In consultation with the Multidisciplinary Studies Advisor, students design their program of study under the Multidisciplinary Studies Major guidelines.

The BA in Multidisciplinary Studies is administered and awarded by the College of Humanities and Social Sciences (CHSS). In keeping with the goals, mission, and standards for all students in CHSS, the Multidisciplinary Studies Major aspires to graduate individuals who: can appreciate cultural differences and differences of opinion; have developed moral and aesthetic sensibilities; have mastered the basic tools of literacy, communication, and technology; have acquired levels of knowledge about the natural and social worlds, past and present, sufficient for responsible citizenship and the enjoyment of a civilized society, and are lifelong learners.

Students interested in pursuing the Multidisciplinary Studies Major should contact the Multidisciplinary Studies Advisor. See <http://chss.wvu.edu/multidisciplinary-studies>.

Declaration Process

A Multidisciplinary Studies Major is available only through an application process.

1. Students are required to meet with the Multidisciplinary Studies Advisor to develop a plan of study.
2. The plan of study for the proposed Multidisciplinary Studies Major must identify educational objectives and the course planning should be linked to the objectives. A program theme should be developed and designed with advisement from the Multidisciplinary Studies Advisor.
 - a. Students must meet all of the prerequisites for courses in the proposed major. No plan of study will be approved if it is apparent that the student hopes to avoid course prerequisites or sequencing.
 - b. Upper division courses in some departments may not be available due to competitive access with the departmental majors and cannot be included in the plan of study unless some prior arrangement and approval has been granted by the department.
3. Students must obtain final approval of the plan of study from the College of Humanities and Social Sciences through the Multidisciplinary Studies Advisor.
4. Major declaration cards may be picked up from the Multidisciplinary Studies Advisor or are available on the website. The original card, signed by the Multidisciplinary Studies Advisor, must be returned to the Registrar's Office.

Additional Information:

- Fairhaven students may not complete the Multidisciplinary Studies major.
- A Multidisciplinary Studies Major cannot be earned concurrently with another major.
- Any major earned after the degree is awarded may not be based on essentially the same constellation of courses as the student's Multidisciplinary Studies Major.
- Students who have earned a baccalaureate degree at Western cannot major in Multidisciplinary Studies.
- A minor in Multidisciplinary Studies is not offered.

Bachelor of Arts

Multidisciplinary Studies, BA

Program of Multidisciplinary Studies, College of Humanities and Social Sciences

60 Credits

Introduction

The Multidisciplinary Studies major curriculum will focus on upper division level courses, designed to integrate a student's academic interest and skills.

Why Consider a Multidisciplinary Studies Major?

Western's Multidisciplinary Studies major provides a solid liberal arts education to prepare students for rapidly changing career opportunities in many different fields. It is designed for students whose interests cannot be served by Western's established majors, and who want to focus their major studies across courses and departments to better meet their career goals or preparation for advanced levels of education.

How to Declare (Admission and Declaration Process):

Admission and Declaration of Major

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- 35 upper division level credits in thematic areas requiring Multidisciplinary Studies Advisor approval.
- Examples of thematic areas include:
 - Social Sciences
 - Humanities
 - Sciences
 - Business
 - Health
 - Liberal Arts
- 25 additional credits of electives at the upper division level in any area (including the thematic area)

Additional Requirements

- All courses must be approved on the Plan of Study
- 15 of the 60 credits are credits required after approval of Multidisciplinary Studies Plan of Study
- 10 credits maximum of internship or field experience may be included within the 60 credits.

MULTIDISCIPLINARY STUDIES

- ❑ Students are limited to no more than 40 upper division credits in any single academic department and students are limited to no more than 44 credits in courses taught in business (classes by the departments of accounting, decision sciences, finance and marketing, and management).
- ❑ At least 50 percent of the credits used in the Multidisciplinary Studies major must be earned at Western Washington University.

Multidisciplinary Studies Courses

MDS 410 - Writing Capstone: Framework For Your Future

Students create a reflective writing portfolio that traces individual intellectual journey and provides ground work for projecting beyond graduation. Students examine artifacts from their undergraduate career to uncover their own history of ideas. Includes both formal and informal writing with opportunities for revision based on feedback.

Prerequisites & Notes: Multidisciplinary Studies majors only.
Credits: 4
Grade Mode: Letter

MDS 471 - Internship

Supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. All students participate at the work site for at least 12 hours per week in the type of activities specified in the internship contract. S/U grading. Repeatable up to 10 credits including original course.

Prerequisites & Notes: Multidisciplinary Studies majors only; permission of instructor.
Credits: 5-10
Grade Mode: S/U

Philosophy

Introduction

Philosophy is among the oldest of intellectual disciplines. Many areas of study now distinct from philosophy — for example, the various sciences — may be regarded as offspring of philosophy which have come of age. Nevertheless, the central philosophical questions remain as vital as ever.

Historically, philosophy has been regarded by many as the most basic of intellectual disciplines; it is the firm conviction of the faculty of the Department of Philosophy that it is among the most relevant. Among the questions dealt with in one philosophy course or another are "What is knowledge?" "What is truth?" "Can we gain knowledge?" "Can we know the truth?" "Are there such things as right and wrong?" "Does God exist?" "What is the nature of the distinction between minds and bodies?" "Are persons machines?" and the like. The department believes that consideration of these and related questions is fundamental to being educated and, as such, should be of interest to all students; moreover, the department believes that many students are sufficiently able and mature intellectually to pursue answers to these questions at an advanced level with profit, and the faculty invite them to join in this pursuit.

The Department of Philosophy offers a wide range of courses in most of the traditional areas of philosophical concern: history of philosophy, ethics, philosophy of religion, metaphysics, to name only a few. A number of courses satisfy General University Requirements. Beyond this, the department offers a major and a minor program in philosophy. The major program is intentionally one of the smallest in the University to allow students maximum opportunity to explore other areas of interest.

Work in philosophy fits well into many pre-professional programs. It is highly desirable as preparation for law school; indeed, some law schools have historically listed it as the preferred undergraduate major. Emphasizing, as it does, careful, deep, critical analysis of concepts and problems, philosophy is an excellent major for students who will seek positions in business and government which require a liberal arts background.

Recent studies show that students who major in philosophy are among the very highest groups in performance on the Graduate Record and other such qualifying examinations.

How to Declare (Admission and Declaration)

In order to declare as a philosophy major or minor, one must first complete three philosophy courses (or 9 credits), with a C- or better in each of those courses.

Students wishing to declare as a major or minor should contact the Philosophy Department Chair or Academic Department Manager.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- PHIL 102 - Introduction to Logic
- PHIL 112 - Introduction to Philosophy: Moral Issues
- PHIL 114 - Introduction to Philosophy: Knowledge and Reality
- PHIL 202 - Intermediate Logic
- PHIL 310 - Theory of Knowledge
- PHIL 320 - Ethical Theory I
- PHIL 330 - Metaphysics I
- PHIL 364 - History of Philosophy: Ancient Philosophy
- PHIL 366 - History of Philosophy: the Rationalists
- PHIL 367 - History of Philosophy: the Empiricists
- PHIL 410 - Theory of Knowledge II
- PHIL 417 - Seminar in Philosophy
- PHIL 420 - Ethical Theory II
- PHIL 430 - Metaphysics II
- 15 additional philosophy credits

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- PHIL 102 - Introduction to Logic
- PHIL 112 - Introduction to Philosophy: Moral Issues
- PHIL 114 - Introduction to Philosophy: Knowledge and Reality
 - One course from:
 - PHIL 364 - History of Philosophy: Ancient Philosophy
 - PHIL 366 - History of Philosophy: the Rationalists
 - PHIL 367 - History of Philosophy: the Empiricists
 - PHIL 368 - History of Philosophy: Kant and Post-Kantian Philosophy
 - Two courses from:
 - PHIL 310 - Theory of Knowledge
 - PHIL 320 - Ethical Theory I
 - PHIL 330 - Metaphysics I
 - Electives under departmental advisement

Philosophy Courses

PHIL 102 - Introduction to Logic

The development of a formal system of propositional and predicate logic for the evaluation

of reasoning.

Credits: 3
Grade Mode: Letter
GUR Attributes: QSR

PHILOSOPHY

PHIL 107 - Logical Thinking

An aid in speaking and writing so as to reflect clear, critical and responsive thinking, covering definition, classification, fallacies and techniques of good argument. Not applicable to the philosophy major or minor.

Credits: 3
Grade Mode: Letter
GUR Attributes: BCOM

PHIL 112 - Introduction to Philosophy: Moral Issues

Introduction to philosophical thinking about moral problems. Seeks to understand central moral concepts such as good, right, duty, etc., in the context of contemporary issues.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 113 - Introduction to Philosophy: Philosophy of Religion

Special attention is given to questions about the nature and existence of God. Also examined are such topics as the problem of evil, concepts of faith, religious experience, miracles, etc.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 114 - Introduction to Philosophy: Knowledge and Reality

Emphasis is given to the nature and possibility of knowledge, to related concepts such as truth, belief and evidence, and to selected metaphysical problems.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 115 - Environmental Ethics

This course examines a broad range of environmental issues. Primary emphasis is given to how theoretical frameworks in ethics have been applied in substantive thinking about the rightful treatment of animals, biotic communities, species in danger of extinction, and the protection, conservation, and preservation of natural resources. Emphasis may also be given to how ethical thinking intersects with issues addressed in economics, conservation biology, and other academic disciplines or how ethical perspectives have influenced social movements, public debate, and law.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 202 - Intermediate Logic

The development of a formal system of logic with multiple quantifiers, identity and definite descriptions; other topics may include probability, set theory, metatheory, nonclassical logics, or extensions of classical logic.

Prerequisites & Notes: PHIL 102

Credits: 3
Grade Mode: Letter

PHIL 310 - Theory of Knowledge

The attempt to understand the possibility, nature, origins and limits of knowledge; problems and concepts.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256.

Credits: 3
Grade Mode: Letter

PHIL 320 - Ethical Theory I

An examination of traditional and contemporary views concerning the overall nature of morality (views such as cognitivism and realism), and also of specific moral theories (such as utilitarianism and contractualism). Other topics include moral rights, moral responsibility and the moral virtues.

Prerequisites & Notes: PHIL 112 or HNRS 255 or instructor permission.

Credits: 3
Grade Mode: Letter

PHIL 330 - Metaphysics I

A systematic study of the fundamental categories of reality, such as existence, substance, property, identity, space, time, change, event, causality, necessity, essence, free will and mind. The philosophical issues in which these categories play a part also will be discussed.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256.

Credits: 3
Grade Mode: Letter

PHIL 335 - Philosophy of Religion

Philosophy of religion and philosophical theology at an advanced level. Topics may include arguments for and against the existence of God, the attributes of God, religious pluralism, religion and science, religion and ethics, miracles, and the epistemology of religious belief.

Prerequisites & Notes: PHIL 102, PHIL 113
Credits: 3
Grade Mode: Letter

PHIL 340 - Philosophy of Science

An examination of the basic methods and concepts of the sciences through the study of such topics as explanation, confirmation, causality, probability, laws of nature, theories, revolution, reduction and realism.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256; or instructor permission
Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 350 - Political Philosophy

The nature of the state, and of the institutions and practices of which it is comprised; the basis and scope of political obligation, the proper role of political activity; considerations of concepts of sovereignty, legitimacy, limits of state power, representation, and the like.

Prerequisites & Notes: Any one philosophy course or HNRS 255 or HNRS 256; PHIL 350 and PLSC 360 may not both be taken for GUR credit.
Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 355 - Aesthetics and the Philosophy of Art

Examination of the concept of art and related concepts, and also of aesthetic evaluation and interpretation as they apply to nature and to human artifacts.

Prerequisites & Notes: One philosophy course
Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 360 - Society, Law and Morality

Concepts and principles involved in analysis and appraisal of social institutions with attention to freedom, rights, justice, and the relation between laws and morality.

Prerequisites & Notes: An one philosophy course or HNRS 255 or HNRS 256.
Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

PHIL 364 - History of Philosophy: Ancient Philosophy

Great philosophical thinkers from the pre-Socratic philosophers to the Hellenistic period; special attention to Plato and Aristotle.

Prerequisites & Notes: Any one philosophy course or HNRS 255 or HNRS 256.
Credits: 3
Grade Mode: Letter

PHIL 366 - History of Philosophy: the Rationalists

Great philosophical thinkers in the rationalist tradition, their problems and their methods: Descartes, Spinoza, Leibniz, et al.

Prerequisites & Notes: PHIL 114 or HNRS 256.
Credits: 3
Grade Mode: Letter

PHIL 367 - History of Philosophy: the Empiricists

Great philosophical thinkers in the empiricist tradition, their problems and their methods: Locke, Berkeley, Hume, et al.

Prerequisites & Notes: PHIL 114 or HNRS 256.
Credits: 3
Grade Mode: Letter

PHIL 368 - History of Philosophy: Kant and Post-Kantian Philosophy

Kant and post-Kantian philosophers, their problems and their methods: Kant, Fichte, Hegel, Schopenhauer, Nietzsche. Normally offered in odd-numbered academic years.

Prerequisites & Notes: PHIL 114
Credits: 3
Grade Mode: Letter

PHIL 403 - Philosophy of Language

An examination of the nature of language through the study of such topics as truth, reference, meaning, use, convention, language's differences from other forms of communication and representation, and language's relations to thought and reality. The relevance of theories on these topics to selected philosophical issues also will be discussed.

Prerequisites & Notes: PHIL 202
Credits: 3
Grade Mode: Letter

PHIL 410 - Theory of Knowledge II

An intensive examination of selected topics and methods in epistemology.

Prerequisites & Notes: PHIL 310

PHILOSOPHY

Credits: 3
Grade Mode: Letter

PHIL 417 - Seminar in Philosophy

Examination of a special topic, a particular philosophical issue or the writings of a specific philosopher. Repeatable for credit, but not as a substitute for PHIL 403 or 425.

Prerequisites & Notes: 3 upper-division PHIL courses

Credits: 3
Grade Mode: Letter

PHIL 420 - Ethical Theory II

An intensive examination of selected topics and methods in ethical theory.

Prerequisites & Notes: PHIL 320

Credits: 3
Grade Mode: Letter

PHIL 425 - Philosophy of Mind

A study of the mind through the examination of such topics as the mind-body problem, intentionality, consciousness, 'qualia,' introspection and knowledge of other minds. Philosophical theories on these topics - such as dualism, behaviorism, type physicalism, functionalism and eliminativism.

Prerequisites & Notes: PHIL 102 plus one upper-division philosophy course.

Credits: 3
Grade Mode: Letter

PHIL 430 - Metaphysics II

An intensive examination of selected topics and methods in metaphysics.

Prerequisites & Notes: PHIL 330

Credits: 3
Grade Mode: Letter

Physical Education, Health and Recreation

Introduction

The Department of Physical Education, Health, and Recreation offers degree programs for students interested in professions related to kinesiology, P-12 physical education and health, community health education, and recreation.

Faculty

The department currently consists of 15 faculty members whose backgrounds span the entire range of kinesiology and physical education, health education, and recreation. Students are provided opportunities to interact individually with faculty who are involved in community projects and research in public schools, kinesiology, health, and recreation.

Facilities

The department is housed in the Carver Academic Facility. For students in the kinesiology and physical education programs, exercise physiology and biomechanics laboratories afford students an opportunity for in-depth study in the exercise sciences and health assessment as applied to health and sports science. Considerable practical experience using laboratory and computerized equipment enables students to develop skills in cardiorespiratory, anthropometric, strength and movement analysis, and health appraisals.

Major Programs

Kinesiology and Physical Education

The major programs are varied and include undergraduate student preparation for careers as professional physical and health educators, and undergraduate and graduate kinesiology options. Kinesiology degree completion prepares students for clinical or research graduate school programs or for careers as health fitness instructors in agencies, schools, industries, hospitals and health care facilities. Students are expected to perform community service in all programs. The concentrations offered include the following:

- Teacher Education P-12 Physical Education and Health
- Kinesiology
 - Movement Studies
 - Health and Fitness Specialist
 - Pre-Healthcare Professions
 - Pre-Physical Therapy
 - Sport Psychology

Kinesiology pre-major and major declaration policy

1. Any WWU student with 75 credits completed and a GPA of at least 2.50 may declare a Kinesiology pre-major and be placed on the waitlist to declare a Kinesiology major. If the student has no WWU GPA for at least one quarter, the GPA of the most recent institution attended will be used. Initial academic advisement will be provided by PEHR staff.
2. By the end of the second week of spring quarter and by the end of the second week of fall quarter, students with a GPA of 2.5 or higher will be notified of being converted to major status if their position on the waitlist is within the group of students eligible for the fall and winter sections of KIN 301, respectively.
3. Once converted to major status, students are assigned an individual faculty advisor, and students with the appropriate prerequisites are eligible to register for KIN 301, BIOL 348, and other required/elective Kinesiology major classes.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Kinesiology and Physical Education Mid-Program Checkpoint

Students seeking to complete a BAE degree in teacher education P-12 physical education and health or a BS in kinesiology within a four-year time span should have completed the following courses by the start of their junior year:

- All General University Requirements (GURs)
- BIOL 101 or BIOL 205; and BIOL 348 preferred

Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

NOTE: The teacher education P-12 option requires a 4½-year commitment, which includes a one-semester student teaching internship. Students must meet the minimum entry requirements of the Woodring College of Education before being considered for admission to the P-12 physical education and health program. Students should first declare a pre-major in this specialization in order to register for required pre-major classes and then apply for entry into the P-12 physical education and health program during the fall quarter of their junior year while they are enrolled in pre-major courses. Students who do not meet the minimum qualifications of the Woodring College of Education cannot apply to be considered for entry into the P-12 physical education and health program.

NOTE: The pre-physical therapy specialization of the kinesiology option requires careful planning if students are to complete the degree in a four-year period. It is suggested that students who are interested in this specialization consult with Dr. Gordon Chalmers, Dr. Dave Suprak, Dr. Michelle Mielke or Dr. Jun San Juan (PEHR faculty) during their freshman or sophomore year in order to establish a reasonable plan of study for the completion of this degree.

NOTE: Development Skills/Fitness Leadership - Physical Education Activity Courses

Activity courses, with the exception of varsity sports and those so noted, may not be repeated for credit. Courses offered depend on instructor availability. All 100-level physical activity courses are S/U graded.

Course fees are variable.

Health Education

Health education is a discipline with roots in the behavioral sciences of psychology, sociology, social psychology, and anthropology; the biological sciences; education; and public health. Health educators use multidisciplinary theories and behavioral and organizational change principles to plan, implement, and evaluate interventions that enable individuals, groups, and communities to achieve personal, social, and environmental health. To this end, health educators apply many different methods and strategies to achieve goals: group process, teaching, training, mass media, communication, community organization, organization development, strategic planning, skills training, legislation, policy development, and advocacy. Health educators practice in schools, colleges, work places, medical care settings, public health settings, and community-based agencies and organizations. (Adapted from the Joint Committee on Health Education and Promotion Terminology.)

Health educators are defined by the U.S. Federal Register as individuals who promote, maintain, and improve individual and community health by assisting individuals and communities to adopt healthy behaviors. They collect and analyze data to identify community needs prior to planning, implementing, monitoring and evaluating programs designed to encourage healthy lifestyles, policies, and environments. They may also serve as a resource to assist individuals, other professionals, or the community, and may administer fiscal resources for health education programs.

Certified Health Education Specialists (CHES) are individuals who have met required health education training qualifications and successfully passed a competency-based examination administered by the National Commission for Health Education Credentialing, Inc. The WWU Community Health major prepares students to meet the eligibility requirements for becoming a Certified Health Education Specialist.

PHYSICAL EDUCATION, HEALTH AND RECREATION

NOTE: Students interested in teaching health education in P-12 schools are referred to the Physical Education and Health major to meet state requirements for teaching Health and Fitness in the state of Washington.

Health Education Mid-Program Checkpoint

Students seeking to complete a BS degree in Community Health within a four-year time span should make normal progress toward the GUR requirements and should apply for pre-major admission to the program during their freshman or sophomore year. Admission is competitive and the number of majors accepted is limited. It is suggested that students interested in Community Health consult the program coordinator (Dr. Jeanne Freeman) to establish a reasonable plan of study and be assigned an advisor. The following courses should be completed during the sophomore and junior years and prior to the start of the senior year. Major omissions from this list make it difficult or impossible to complete the degree within the four-year time span.

- HLED 150, HLED 151, HLED 152, HLED 345, HLED 350
- BIOL 348, BIOL 349
- CHEM 121; CHEM 251 or CHEM 351

Recreation

The curriculum in Recreation offers generalist preparation for a wide range of career entry-level positions including:

- Community Recreation
- Therapeutic Recreation
- Outdoor Recreation
- Ecotourism

Students seeking to complete a BA degree in Recreation within a four-year time span should have made normal progress toward the GUR requirements and should apply for admission to the program during fall quarter of their sophomore year. Junior and senior level students are also welcome to apply. Interested students are encouraged to contact the Recreation Program faculty advisors as early as possible to insure timely academic progress.

In support of healthy individuals, families, and communities, career opportunities in recreation and leisure services are numerous and diverse. The Recreation curriculum prepares students to plan, develop, and administer programs and resources in a variety of settings. The program is designed as four sequential 15-16 credit hour blocks of classes (phases) with students moving through the program as a cohort group. Students enter Phase 1 of the program during spring quarter, typically during sophomore year. The following schedule shows the sequential order of the four program phases:

-	Fall	Winter	Spring	Summer
Fresh	-	-	-	-
Soph	-	-	I	-
Junior	-	II	III	or III
Senior	IV	-	-	-

The phase system allows maximum flexibility for scheduling students' educational experience to include workshops, field experiences, conferences and seminars both on and off campus. By making use of other departments at Western, statewide recreation resources, and recreation professionals, students are provided with exposure to a wide variety of experiential and service-learning opportunities.

The Recreation Program emphasizes preparation in the broad areas of outdoor recreation, community recreation, therapeutic recreation, and ecotourism. Community and outdoor recreation graduates find employment in federal and state recreation and park agencies, county and community recreation departments, and non-profit agencies serving people from all walks of life. Therapeutic recreation graduates find employment in hospitals; senior centers; nursing homes; mental health agencies; community recreation departments; and federal, state, and private agencies serving persons with disabilities or other adapted

PHYSICAL EDUCATION, HEALTH AND RECREATION

recreation needs. Graduates prepared in ecotourism plan and lead trips worldwide or work in destination planning.

The Recreation Program is nationally accredited by the Council on Accreditation of Parks, Recreation, and Tourism. Students should inquire directly to the Recreation Program office in Old Carver 6 for current information on admission procedures.

Bachelor of Arts

Recreation, BA

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

66 credits

Introduction

The purpose of recreation and leisure is to contribute to the health and well-being of individuals and to enhance the quality of community life. As such, the study of Recreation is multidisciplinary, requiring

PHYSICAL EDUCATION, HEALTH AND RECREATION

understanding of the social, behavioral, physical, and environmental sciences as they pertain to helping people grow and develop in their leisure while conserving our vital natural resources. Knowledge of the arts and humanities is important as well, because leisure is one of the most fertile opportunities for self-expression and the development of community.

In support of healthy individuals, families, and communities, career opportunities in recreation and leisure services are numerous and diverse. The Recreation curriculum prepares students to design, implement, manage, lead, and evaluate recreation programs and services. The program is designed as four sequential 15-16 credit hour blocks of classes (phases) with students moving through the program as a cohort group. Students enter Phase 1 of the program during spring quarter, typically during their sophomore or junior year. The following schedule shows the sequential order of the four program phases:

-	Fall	Winter	Spring	Summer
Freshman	-	-	-	-
Sophomore	-	-	I	-
Junior	-	II	III	or III
Senior	IV	-	-	-

The phase system allows maximum flexibility for scheduling students' educational experience to include workshops, field experiences, conferences and seminars both on and off campus. By making use of other departments at Western, statewide recreation resources, and recreation professionals, students are provided with exposure to a wide variety of experiential and service-learning opportunities.

Why Consider a Recreation Major?

Recreation and leisure contribute to the health and well-being of individuals and their communities. Graduates of the Recreation Program are employed throughout the region, nation and world in a variety of settings, including public recreation departments, outdoor recreation programs, hospitals, and tourism agencies. Specific jobs performed by graduates include working as recreation therapists, organizing and leading outdoor adventure trips, managing youth-serving agencies, such as Boys and Girls Clubs, supervising public sports programs, coordinating community cultural arts, operating eco-tourism trips, and serving as park rangers with state and federal agencies. Some graduates have found their degrees useful for work in fields such as social work, the ministry and law enforcement.

The Recreation Program emphasizes preparation in the broad areas of outdoor recreation, community recreation, therapeutic recreation, and ecotourism. Community and outdoor recreation graduates find employment in federal and state recreation and park agencies, county and community recreation departments, non-profit agencies, and commercial recreation settings. Therapeutic recreation graduates find employment in hospitals; senior centers; nursing homes; mental health agencies; community recreation departments; and federal, state, and private agencies serving persons with disabilities or other adapted recreation needs. Graduates prepared in ecotourism plan and lead trips worldwide or work in destination planning.

The Recreation Program is nationally accredited by the Council on Accreditation of Parks, Recreation, and Tourism. Students should inquire directly to the Recreation Program office in Old Carver 6 for current information on admission procedures.

How to Declare (Admission and Declaration Process):

First priority is given to students who have submitted applications by the first Thursday in November during fall quarter. After this date, consideration is given to applicants on a case-by-case basis. However, the program is popular and the number of majors admitted is limited, so students are encouraged to apply by the deadline. Students interested in the program should contact the Recreation Program in Old Carver 6 if they have any questions about available space and the application process. Students must have completed 45 quarter unit credits, including approved transfer credits, before starting Phase I. The deadline also applies to transfer students. Transfer students are urged to contact the Recreation Program for guidance and further information. A minor in Recreation is not offered presently.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

RECR 380 is required for the therapeutic recreation option and is offered fall quarter each year.

- Prerequisite:
 - RECR 201 - Foundations of Recreation and Leisure
- Phase I:
 - RECR 271 - Introduction to Community Recreation and Leisure Services
 - RECR 272 - Introduction to Outdoor Recreation
 - RECR 274 - Introduction to Therapeutic Recreation
 - RECR 275 - Professional Practicum and Seminar
 - RECR 276 - Introduction to Program Leadership
 - RECR 279 - Introduction to Tourism
- Phase II:
 - RECR 372 - Management of Recreation and Leisure Services
 - RECR 373 - Recreation Programming
 - RECR 378 - Human Relations: Concepts and SkillsOne course from:
 - RECR 370 - Outdoor Program Development
 - RECR 376 - Therapeutic Recreation Program Design
 - RECR 379 - Foundations of Ecotourism
 - RECR 385 - Leisure and Aging
- Phase III:
 - RECR 471 - Internship I
and
 - RECR 472 - Internship II
or
 - RECR 473 - Internship III
- Phase IV:

- RECR 444 - Recreation Budgeting and Finance
- RECR 450 - Recreation Program Evaluation
- RECR 480 - Leisure and Society

One course from:

- RECR 421 - Therapeutic Recreation Trends and Issues
- RECR 470 - Adventure-Based Programming
- RECR 475 - Community Development and Leisure Services
- RECR 479 - Ecotourism: Principles and Practices

Support Area

Recreation majors must develop a 25-credit support area. Support areas may range from traditional minors (e.g., sociology, environmental studies, business, and other fields) to interdisciplinary studies incorporating courses from a broader spectrum of University course offerings. The interdisciplinary support area is designed under the guidance of the student's faculty advisor and must have the advisor's final approval.

Bachelor of Arts in Education

Physical Education and Health P-12, BAE

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

125 credits*

Introduction

The study of Physical Education and Health involves courses in Kinesiology, Behavioral and Cultural Foundations, Health Education, Physical Education pedagogy, and educational foundations. These courses prepare individuals to effectively teach pre-kindergarten through 12th grade students motor skills and movement patterns; develop their understanding of movement concepts, skills, and strategies; and facilitate students' knowledge of health related concepts related to lifelong fitness and health.

The Physical Education and Health P-12 major must be accompanied by the Secondary Education Professional Program offered through Woodring College of Education.

*84 credits in Physical Education and Health content area; 41 credits from the Secondary Education program including the student teaching internship.

This major leads to an endorsement in health and fitness for grades P-12. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Teaching Certification in P-12 Physical Education and Health Major?

This major provides concentrated study of Physical and Health Education. Completion of requirements leads to Teacher Certification in P-12 Physical Education and Health (Health and Fitness). The program is unique in that it consists of four sequential five-credit blocks in Physical Education pedagogy with practicum experiences at the elementary, middle, high school, and college levels in diverse teaching environments, allowing students concentrated time to develop teaching strategies while working with children and adolescents in the school based setting. Ongoing analysis of teaching effectiveness is incorporated throughout the program. The health component requires a series of 17 credits of coursework and practica in a health education setting which is integrated into PE 441p. The number of students admitted into the program is limited.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Students desiring entry into the program should follow the process outlined below:

- Meet the minimum qualifications of the Woodring College of Education admissions process. This can be initiated and completed as early as the winter or spring quarters before applying to the physical education and health program the following fall. It is imperative that students begin this process as soon as they are interested in the program. Students who do not meet the minimum qualifications of Woodring College of Education cannot apply for entry into the P-12 physical education and health program.
- Meet with a department advisor to declare the pre-major and outline a plan of study.
- Enroll in KIN 308, PE 340 and BIOL 348 fall quarter.

NOTE: BIOL 348 may be taken prior to fall quarter.

- Submit a completed application packet for the P-12 physical education and health program early in October. See advisor for exact application date. Students are encouraged to submit applications as soon as they meet the minimum qualifications of Woodring College of Education. This can be done as early as spring quarter before applying to the P-12 physical education and health program the following fall (applications are available in Carver 102, the main office of the PEHR department).
- Successful completion (grade C or better) of BIOL 348, KIN 308, PE 340
- Applications for the P-12 physical education and health program will be reviewed by faculty, and a limited number of candidates will be accepted into the program and notified prior to winter quarter. Criteria for acceptance are established by physical education faculty, and applications will be evaluated accordingly. Application procedures include an oral presentation and interview.

Grade Requirements

Students must earn a grade of C (2.0) or better in the secondary education professional program and in all courses required for the endorsement and the academic major.

Program of Study

- BIOL 348 - Human Anatomy and Physiology
- HLED 150 - Consumer and Environmental Health
- HLED 151 - Society and Drugs
- HLED 152 - Society and Sex
- HLED 345 - Health Promotion/Disease Prevention
- HLED 455 - Health Education Grades K-8

- KIN 308 - Human Growth and Motor Development
- KIN 312 - Functional Anatomy
- KIN 320 - Psychology of Sport
- KIN 321 - Sociology of Sport
- KIN 410 - Motor Control and Learning
- KIN 413 - Physiology of Exercise
- KIN 416 - Strength and Conditioning Program Design
- KIN 422 - Professional Issues in Health and Exercise Settings
- PE 340 - Block I: Elementary Physical Education Methods
- PE 341 - Block II: Elementary Physical Education Methods
- PE 341P - Elementary Physical Education Practicum
- PE 440 - Block III: Middle School Physical Education Methods
- PE 440P - Middle School Physical Education Practicum
- PE 441 - Block IV: High School Physical Education Methods
- PE 441P - High School Health and Physical Education Practicum
- PE 442P - Practicum in Physical Education
- PE 443 - Adapted Physical Education Methods & Practicum
- SEC 301 - Educational Psychology I: Development and Individual Differences
- SEC 302 - Educational Psychology II: Motivation, Learning and Assessment
- SEC 310 - Education, Culture, and Equity
- SEC 410 - Dynamics of Teaching
- SEC 411 - Philosophical Foundations of Education
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools
- SEC 495 - Internship - Secondary
 - One course from:
 - KIN 414 - Physical Activity and Nutrition
 - HLED 350 - Nutrition

Bachelor of Science

Community Health, BS

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

102 credits

Introduction

The Community Health degree consists of two to three years of course work in Health Education and supporting areas. This includes required course work in both content and process-oriented Health Education courses, Social Sciences (Anthropology, Psychology, and Sociology), Biological and Physical Sciences (Anatomy and Physiology, Exercise Physiology, and Chemistry), Nutrition, and electives that complement a student's interests and professional needs.

Why Consider a Community Health Major?

Community Health Educators assess individual and community needs for health education; plan, implement and administer health education strategies, interventions and programs; conduct evaluation and research; serve as a health education resource; and communicate and advocate for health and health education. Effective Health Education is ecological in its approach. When planning the focus of interventions, trained Health Educators consider all factors that contribute to health and disease: individual behavior; group

PHYSICAL EDUCATION, HEALTH AND RECREATION

dynamics; environmental conditions; economics; politics, laws and policies; culture, ethnicity, and gender; and the availability, accessibility, and quality of health services.

Students who are accepted into the Community Health major explore the biological, social, environmental, and individual determinants of health. The curriculum is based on the skills and competencies to become a Certified Health Education Specialist (CHES) through the National Commission on Health Education Credentialing, Inc. The program is rigorous and faculty members emphasize diverse classroom projects and community outreach. At the end of the program, a full-time internship (40 hours per week for 10 weeks) in a health education setting is required.

The Community Health major is appropriate for students who want to work in community, public, and global health; health communication; governmental and non-profit agencies and organizations; medical care settings; worksite wellness programs; and college and university student service health education programs. It can also serve as a preparatory program for graduate or post-baccalaureate study in Health Education, Public Health, and related areas.

Sample Careers

Community Health Educator | Tobacco Control Specialist | Sexuality Education Coordinator | HIV/AIDS Educator | Hospital-based Wellness Program Director | Public Health Director | Substance Abuse Educator | College Health Educator | Injury Prevention Specialist | Curriculum Development Specialist | Health Consultant | Health Information Specialist | Nutrition and Physical Activity Coordinator

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Admission to the Community Health major is selective and the number of majors is limited. Interested students meet with program faculty to pre-major in Community Health. This allows students access to entry-level courses. Pre-majors are strongly advised to complete biology prerequisites for BIOL 348 and 349 and chemistry prerequisites for CHEM 251 or 351 by the end of the sophomore year. A 2.5 GPA is required to pre-major.

Application to the major is due by October 15 of the year prior to the senior 400-level courses. The application includes an essay; current résumé; two letters of reference; and transcripts. Program faculty will provide information on application specifics. Fulfillment of the requirement does not automatically secure admission to the major. Pre-majors are notified regarding acceptance before winter quarter registration. Majors must maintain the 2.5 GPA in all major courses to enroll in the required full-time internship at the end of the program of study.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Health Education Core: 67 credits
 - HLED 150 - Consumer and Environmental Health
 - HLED 151 - Society and Drugs
 - HLED 152 - Society and Sex
 - HLED 345 - Health Promotion/Disease Prevention

PHYSICAL EDUCATION, HEALTH AND RECREATION

- HLED 350 - Nutrition
- HLED 407 - Principles and Foundations of Health Education
- HLED 410 - Health Communication and Social Marketing
- HLED 420 - Epidemiology and Biostatistics
- HLED 432 - Organization and Administration of Community Health Programs
- HLED 447 - Community Health
- HLED 450 - Methods and Materials in Health Education
- HLED 460 - Program Planning and Implementation of Health Programs
- HLED 465 - Program Evaluation and Research Design
- One of the following options:
 - HLED 471 - Internship I and
 - HLED 472 - Internship II
 - or
 - HLED 473 - Internship III

Supporting Required Courses: 25 credits

- BIOL 348 - Human Anatomy and Physiology
- BIOL 349 - Human Physiology
- CHEM 121 - General Chemistry I
- KIN 413 - Physiology of Exercise

One course from:

- CHEM 251 - Elementary Organic Chemistry
- CHEM 351 - Organic Chemistry

Electives Under Advisement: 10 credits

Students interested in becoming peer health educators through the Peer Health Educator Program may include HLED 250 as one of their electives. Enrollment in HLED 250 is contingent upon acceptance into the Peer Health Educator Program by the staff of Prevention & Wellness Services.

- SOC 260 - The Family in Society
- SOC 333 - Aging and Societies
- SOC 338 - Sociology of Sexual Behavior
- SOC 340 - Sociology of Organizations
- SOC 380 - Sociology of Youth
- ANTH 353 - Sex and Gender in Culture
- ANTH 424 - Medical Anthropology
- COMM 224 - Small Group Processes
- HLED 210 - Introduction to Public Health
- KIN 435 - Worksite Health Promotion
- JOUR 330 - Principles of Public Relations
- PSY 230 - Lifespan Developmental Psychology
- PSY 240 - Social Psychology
- KIN 414 - Physical Activity and Nutrition
- KIN 415 - Physical Fitness Assessment and Exercise Prescription
- ENG 302 - Introduction to Technical and Professional Writing

Substitutions may be made with approval of the student's advisor.

Exit Requirement: Standard First Aid/CPR certification

Kinesiology - Health and Fitness Specialist Specialization, BS

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

87-96 credits

PHYSICAL EDUCATION, HEALTH AND RECREATION

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/ fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Health and Fitness Specialist Specialization in Kinesiology Major?

Health and fitness specialist professionals work in the health and fitness industry. The program prepares professionals who are skilled in evaluating health behaviors and risk factors, conducting fitness assessments, writing appropriate exercise prescriptions, and motivating individuals to modify negative health habits and maintain positive lifestyle behaviors for optimal health. Health and fitness specialists conduct these activities in the university, clinical, corporate, and commercial or community settings where their clients participate in health promotion and fitness-related activities. This specialization is also appropriate preparation for graduate study in exercise physiology and cardiac or pulmonary rehabilitation.

The Kinesiology major is in very high demand at Western. See the Kinesiology pre-major and major declaration policy to learn how and when you can declare the pre-major. Prior to declaring the pre-major, and after declaring the pre-major but before being advanced to major status, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the PEHR department office (CV 102), to know what classes are recommended to be taken to prepare for the major. **It is often not until late in the junior year or at the start of the senior year that students can start the core classes required in the Kinesiology major due to its popularity.**

How to Declare (Admission and Declaration Process):

1. Any WWU student with 75 credits completed and a GPA of at least 2.50 may declare a Kinesiology pre-major and be placed on the waitlist to declare a Kinesiology major. If the student has no WWU GPA for at least one quarter, the GPA of the most recent institution attended will be used. Initial academic advisement will be provided by PEHR staff.
2. By the end of the second week of spring quarter and by the end of the second week of fall quarter, students with a GPA of 2.5 or higher will be notified of being converted to major status if their position on the waitlist is within the group of students eligible for the fall and winter sections of KIN 301, respectively.

3. Once converted to major status, students are assigned an individual faculty advisor, and students with the appropriate prerequisites are eligible to register for KIN 301, BIOL 348, and other required/elective Kinesiology major classes.

Contact Sherena Gearity in the PEHR department to declare the pre-major when you meet the above requirements listed in point #1.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- BIOL 348 - Human Anatomy and Physiology
- KIN 301 - Survey of Kinesiology, Physical Education and Health
- KIN 304 - Prevention and Care of Athletic Injuries
- KIN 306 - Measurement and Evaluation in Kinesiology
- KIN 308 - Human Growth and Motor Development

Kinesiology - Movement Studies Specialization, BS

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

86-95 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Movement Studies Specialization in Kinesiology Major?

The movement studies specialization is recommended for students who wish to pursue a variety of career opportunities related to kinesiology (see sample career list). Students should seek advising to determine the appropriate set of courses leading to a specialized emphasis.

The Kinesiology major is in very high demand at Western. See the Kinesiology pre-major and major declaration policy to learn how and when you can declare the pre-major. Prior to declaring the pre-major, and after declaring the pre-major but before being advanced to major status, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the PEHR department office (CV 102), to know what classes are recommended to be taken to prepare for the major. **It is often not until late in the junior year or at the start of the senior year that students can start the core classes required in the Kinesiology major due to its popularity.**

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

1. Any WWU student with 75 credits completed and a GPA of at least 2.50 may declare a Kinesiology pre-major and be placed on the waitlist to declare a Kinesiology major. If the student has no WWU GPA for at least one quarter, the GPA of the most recent institution attended will be used. Initial academic advisement will be provided by PEHR staff.
2. By the end of the second week of spring quarter and by the end of the second week of fall quarter, students with a GPA of 2.5 or higher will be notified of being converted to major status if their position on the waitlist is within the group of students eligible for the fall and winter sections of KIN 301, respectively.
3. Once converted to major status, students are assigned an individual faculty advisor, and students with the appropriate prerequisites are eligible to register for KIN 301, BIOL 348, and other required/elective Kinesiology major classes.

Contact Sherena Geariety in the PEHR department to declare the pre-major when you meet the above requirements listed in point #1.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Requirements

- BIOL 348 - Human Anatomy and Physiology
- KIN 301 - Survey of Kinesiology, Physical Education and Health
- KIN 306 - Measurement and Evaluation in Kinesiology
- One course from:
 - KIN 308 - Human Growth and Motor Development
 - KIN 409 - Aging and Functional Assessments
 - KIN 311 - Biomechanics
 - KIN 312 - Functional Anatomy
- 3 credits from:
 - KIN 320 - Psychology of Sport
 - KIN 321 - Sociology of Sport
 - KIN 410 - Motor Control and Learning
 - KIN 413 - Physiology of Exercise
 - KIN 416 - Strength and Conditioning Program Design
 - KIN 422 - Professional Issues in Health and Exercise Settings
- Choose one of the following options:
 - KIN 491 - Field Experience I (3 credits)
 - and KIN 492 - Field Experience II (3 credits)
 - OR
 - KIN 491 - Field Experience I (3 credits)
 - and KIN 493 - Exercise And Sport Science Research (3 credits)
 - OR
 - KIN 491 - Field Experience I (3 credits)
 - and KIN 494 - Instructional Assistant (3 credits)
 - OR
 - KIN 471 - Internship I (3 credits)
 - and KIN 472 - Internship II (12 credits)
- Select 4 credits from:
 - PE 101 - Beginning Conditioning
 - PE 102 - Beginning Group Fitness
 - PE 104 - Beginning Yoga
 - PE 108 - Beginning Weight Training
 - PE 134 - Beginning Pickleball
 - PE 144 - Beginning Soccer
 - PE 145 - Beginning Volleyball
 - PE 149 - Beginning Ultimate Disc
 - PE 168 - Beginning Martial Arts
- Select a minimum of 35 credits from:
 - BIOL 349 - Human Physiology
 - HLED 345 - Health Promotion/Disease Prevention
 - HLED 350 - Nutrition
 - KIN 304 - Prevention and Care of Athletic Injuries
 - KIN 315 - Fitness Instruction and Leadership

NOTE: KIN 308, KIN 320, KIN 321 and KIN 409 cannot be counted twice.

Kinesiology - Pre-Healthcare Professions Specialization, BS

Department of Physical Education, Health & Recreation, College of Humanities and Social Sciences

104-105 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/ fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Pre-Healthcare Professions Specialization in the Kinesiology Major?

The pre-healthcare professions option is available for students who wish to pursue post-baccalaureate study in a healthcare profession such as occupational therapy, physician assistant, nursing, naturopathy or chiropractic. Students meet with an advisor to select a set of courses that will meet the admission requirements of their program(s) of choice. This option also can serve as a foundation for graduate study in exercise science.

The Kinesiology major is in very high demand at Western. See the Kinesiology pre-major and major declaration policy to learn how and when you can declare the pre-major. Prior to declaring the pre-major, and after declaring the pre-major but before being advanced to major status, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the PEHR department office

Kinesiology - Sport Psychology Specialization, BS

Department of Physical Education, Health and Recreation, College of Humanities and Social Sciences

87-99 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/ fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Sport Psychology Specialization in the Kinesiology Major?

The sport psychology option provides students with the behavioral knowledge and educational techniques to enhance performance in recreational, exercise, and athletic settings. This option provides an emphasis in psychology and exercise science that will serve as preparation for coaching and as an adequate set of prerequisites for post-baccalaureate study in sport and/or exercise psychology.

The Kinesiology major is in very high demand at Western. See the Kinesiology pre-major and major declaration policy to learn how and when you can declare the pre-major. Prior to declaring the pre-major, and after declaring the pre-major but before being advanced to major status, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the PEHR department office (CV 102), to know what classes are recommended to be taken to prepare for the major. **It is often not until late in the junior year or at the start of the senior year that students can start the core classes required in the Kinesiology major due to its popularity.**

Master of Science

Kinesiology, Exercise Science Option, Thesis, MS

College of Humanities and Social Sciences

Graduate Faculty

Brilla, Lorraine, PhD, exercise physiology/nutrition.

Chalmers, Gordon, PhD, motor control.

Keeler, Linda, EdD, sport psychology.

Martin, LeaAnn, PhD, pedagogy/elementary physical education/curriculum.

Mielke, Michelle, PhD, exercise physiology/nutrition.

San Juan Jr., Jun, PhD, biomechanics/functional anatomy.

Suprak, David, PhD, motor development, biomechanics.

Program Advisor: Lorrie Brilla, CV 26, 360-650-3056

Program Description

Graduate study leading to a Master of Science degree in Kinesiology is offered with two options: exercise science and sport psychology.

This program's purpose is to educate students technically and professionally in the area of sport and exercise psychology. The focus is on assisting students in the design, implementation, and assessment of the psychological components of exercise, sport, and wellness programs. Through independent research and inquiry, students will solve sport and exercise psychology related problems associated with human movement and performance.

Goals

PHYSICAL EDUCATION, HEALTH AND RECREATION

The educational mission of the program is to develop individuals who make informed decisions about exercise, human movement, and performance, that foster health and physically active lifestyles. To this end faculty are dedicated to quality teaching, scholarship and service.

Prerequisites

Kinesiology major/minor or equivalent courses from the exercise science, behavioral and cultural and professional activity areas are required prerequisites for the graduate program. An applicant to the **exercise science program** who does not have a Kinesiology-related major or minor must take the following equivalency courses: three courses from the exercise science area (KIN 306, 308, 309, 311, 312, 410, 413, 416), one behavioral and cultural foundations course (KIN 320, 321, 421), and two credits from the PE 100-level activity courses.

All applicants must have taken an introductory statistics course. These courses may be taken concurrently with graduate courses but must be completed before submitting a thesis proposal. Equivalent courses taken at other institutions may be applied.

Application Information

Admission: Program faculty will review application materials for notification by February 1 and will continue to review materials until the enrollment is reached or June 1, whichever comes first for fall quarter admission. Students may enter at other quarters. Because maximum student enrollment in the exercise science program is limited, all applicants are strongly encouraged to submit application materials by February 1. The exercise science area accepts students every year.

Specific Test Requirements: Graduate Record Exam, General Test; applicants with advanced degrees are not required to submit GRE scores.

Deadlines: Please see Graduate School deadlines.

TA Deadlines: To receive full consideration for a graduate teaching assistantship, applicants should have their application materials reviewed by February 1.

Supporting Materials:

- Students must submit a written statement of purpose outlining areas of interest, goals for graduate study and future career plans relating to the degree.
- Recommendations
- GPA

Program Requirements (47-50 credits)

- ❑ Basic requirements: (13-16)
 - KIN 506 - Research Design in Human Movement and Performance
 - KIN 520 - Readings in Human Movement and Performance
 - KIN 690 - Thesis
- ❑ Required courses: (20)
 - KIN 510 - Laboratory Techniques in Exercise Science
 - KIN 513 - Exercise Prescription and Programming
 - KIN 540 - Applied Exercise Physiology
 - KIN 543 - Biomechanical Analysis of Human Movement
 - KIN 544 - Biomechanics of the Musculoskeletal System
- ❑ Electives: — Select 14 credits from:
 - KIN 502 - Research Topics in Human Movement and Performance
 - KIN 507 - Motor Control
 - KIN 511 - Physical Activity and Hypokinetic Diseases

- KIN 516 - Advanced Conditioning Principles and Practice
 - KIN 541 - Foundations and Ethics of Sport Psychology
 - KIN 592 - Internship
- 400 level courses selected under departmental advisement

Kinesiology, Sport Psychology Option, Thesis, MS

College of Humanities and Social Sciences

Graduate Faculty

Brilla, Lorraine, PhD, exercise physiology/nutrition.

Chalmers, Gordon, PhD, motor control.

Keeler, Linda, EdD, sport psychology.

Martin, LeaAnn, PhD, pedagogy/elementary physical education/curriculum.

Mielke, Michelle, PhD, exercise physiology/nutrition.

San Juan Jr., Jun, PhD, biomechanics/functional anatomy.

Suprak, David, PhD, motor development, biomechanics.

Program Advisor: Dr. Lorrie Brilla, CV 26, 360-650-3056

Program Description

Graduate study leading to a Master of Science degree in Kinesiology is offered with two options: exercise science and sport psychology.

This program's purpose is to educate students technically and professionally in the area of sport and exercise psychology. The focus is on assisting students in the design, implementation, and assessment of the psychological components of exercise, sport, and wellness programs. Through independent research and inquiry, students will solve sport and exercise psychology related problems associated with human movement and performance.

Goals

The educational mission of the program is to develop individuals who make informed decisions about exercise, human movement, and performance, that foster health and physically active lifestyles. To this end faculty are dedicated to quality teaching, scholarship and service.

Prerequisites

Kinesiology major/minor or equivalent courses from the exercise science, behavioral and cultural and professional activity areas are required prerequisites for the graduate program. An applicant to the **sport psychology** program who does not have a Kinesiology-related major or minor must take the following equivalency courses: two courses from the exercise science area (KIN 306, 308, 309, 311, 312, 410, 413, 416), two behavioral and cultural foundations courses (KIN 320, 321, 421), and two credits from the PE 100-level activity courses. Students applying to the sport psychology program must have a minimum of 15 credits in undergraduate psychology courses.

Application Information

Admission: Program faculty will review application materials for notification by February 1 and will continue to review materials until the enrollment is reached or June 1, whichever comes first for fall quarter admission in odd-numbered years.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Entry to the sport psychology graduate program is competitive based on qualifications. A cohort student group is admitted on an alternate year basis in the fall quarter of odd-numbered years and is comprised of 3-5 students.

Admission Qualification Categories in Rank Order: Students with category 1 and 2 qualifications are preferred. If these two categories do not yield the desired number of students for the entering class (no more than 5) then additional students can be selected from the categories 3, 4 and the provisional pool in order to meet the desired enrollments for an incoming cohort group.

1. Kinesiology major/minor with 15 credits of undergraduate psychology. A sport psychology undergraduate course is preferred.
 - 1a. Kinesiology major/minor without 15 credits of undergraduate psychology. A sport psychology undergraduate course is preferred.
2. Psychology major with a physical education or sport psychology minor. A sport psychology undergraduate course is preferred.
 - 2a. Psychology major without a kinesiology or sport psychology minor. A sport psychology undergraduate course is preferred.
3. Any major with a background in kinesiology and/or psychology. A sport psychology undergraduate course is preferred.
4. Applicants with no background in kinesiology and/or psychology. A sport psychology undergraduate course is preferred.

Specific Test Requirements: Graduate Record Exam, General Test; applicants with advanced degrees are not required to submit GRE scores.

Deadlines: Please see Graduate School deadlines.

TA Deadlines: To receive full consideration for a graduate teaching assistantship, applicants should have their application materials submitted by February 1.

Supporting Materials:

- Students must submit a written statement of purpose outlining areas of interest, goals for graduate study and future career plans relating to the degree.
- Recommendations
- GPA
- Undergraduate degree (major)

Program Requirements (46-49 credits)

- ❑ Basic Requirements: (13-16)
 - KIN 506 - Research Design in Human Movement and Performance
 - KIN 520 - Readings in Human Movement and Performance
 - KIN 690 - Thesis
- ❑ Required Courses: (17)
 - KIN 541 - Foundations and Ethics of Sport Psychology
 - KIN 542 - Seminar in Sport Sociology
 - KIN 551 - Applied Sport and Exercise Psychology
 - KIN 592 - Internship
- ❑ Electives: 16 credits (at least 6 credits required from psychology)
 - KIN 502 - Research Topics in Human Movement and Performance
 - KIN 507 - Motor Control
 - KIN 511 - Physical Activity and Hypokinetic Diseases

- KIN 513 - Exercise Prescription and Programming
 - KIN 540 - Applied Exercise Physiology
 - KIN 543 - Biomechanical Analysis of Human Movement
 - KIN 544 - Biomechanics of the Musculoskeletal System
 - PSY 502 - Adult Psychopathology
 - PSY 503 - Cognition
 - PSY 504 - Lifespan Psychological Development
 - PSY 505 - Social Psychology
 - PSY 512 - Correlation Methods and Data Analysis
 - PSY 543 - Seminar in Cognition
 - PSY 544 - Seminar in Developmental Psychology
 - PSY 546 - Seminar in Social Psychology
 - PSY 554 - Standardized Tests
- 400 level courses selected under departmental advisement (maximum 10 credits).

Minor

Sport Psychology Minor

Combined minor offered by the Department of Psychology, College of Humanities and Social Sciences and the Department of Physical Education, Health and Recreation

30 credits

Introduction

This interdisciplinary program is designed to introduce the student to the discipline of sport psychology. More specifically, it emphasizes the educational and behavioral approaches to sport psychology that can be applied in recreational, exercise, and athletic settings.

Why Consider a Sport Psychology Minor?

The sports psychology minor provides students with the behavioral knowledge and psychosocial educational techniques related to the psychosocial aspects of athletic, exercise, recreational and performance settings. This minor provides skills that will serve as preparation for incorporation of consideration and instructional techniques to enhance any human performance or health related field.

How to Declare (Admission and Declaration Process):

PHYSICAL EDUCATION, HEALTH AND RECREATION

For Kinesiology or other non-psychology majors, contact the PEHR departmental advisor (see above). For psychology majors, contact the Department of Psychology Sport Psychology Minor Advisor: Dr. Kristi Lemm, 498 AIC East, Phone (360) 650-3187, Email: Kristi.Lemm@wwu.edu

Advising Tips: Students are advised to declare the sport psychology minor early in order to be connected with a departmental advisor and develop a plan of study. See departmental advisor for selection of courses.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- KIN 320 - Psychology of Sport
- KIN 321 - Sociology of Sport
- KIN 420 - Seminar in Sport Psychology
- KIN 421 - Psychology of Exercise
- PSY 101 - Introduction to Psychology
- Select 13 elective credits under advisement from:
 - PSY 119 - Psychology of Gender
 - PSY 210 - Cognition
 - PSY 220 - Behavioral Neuroscience
 - PSY 230 - Lifespan Developmental Psychology
 - PSY 240 - Social Psychology
 - PSY 250 - Introduction to Abnormal Psychology
 - PSY 319 - Cognitive Neuroscience
 - PSY 322 - Motivation
 - PSY 323 - Psychopharmacology
 - PSY 332 - Adolescent Development
 - PSY 341 - Psychology and Culture
 - PSY 375 - Health Psychology
 - PSY 377 - Positive Psychology

NOTE: Kinesiology majors cannot use KIN 320 and 321 for both major and minor requirements and must select replacement courses from psychology electives (PSY 119, 210, 220, 230, 240, 250, 319, 322, 323, 332, 341, 375, 377). Kinesiology and physical education majors cannot use PSY 119, 210-250 for both major and minor requirements.

NOTE: Psychology majors cannot use PSY 210-250, 319, 322, or 323 for both major and minor requirements and should choose other courses under advisement.

Coaching Development Courses

CD 280 - Coaching Practicum - Basketball

A practical application of principles and techniques used in sport coaching, including program organization and administration, team building, teaching sports strategies, leadership principles related to sport performance, sport-related motor skill acquisition and performance principles, and the evaluation of coaching strategies and methods.

Prerequisites & Notes: Permission of instructor.
Credits: 2
Grade Mode: S/U

CD 281 - Coaching Practicum - Volleyball

A practical application of principles and techniques used in sport coaching, including program organization and administration, team building, teaching sports strategies, leadership principles related to sport performance, sport-related motor skill acquisition and performance principles, and the evaluation of coaching strategies and methods.

Prerequisites & Notes: Permission of instructor.

Credits: 2
Grade Mode: S/U

CD 343 - Sports Officiating/Track & Field

Officiating techniques for individual and team sports.

Prerequisites & Notes: Permission of instructor.
Credits: 2
Grade Mode: Letter

CD 381 - Coaching Sports: Basketball

Practical and theoretical aspects of coaching the sport with special emphasis on advanced skill development and current methodology and resource material being utilized.

Prerequisites & Notes: Permission of instructor.
Credits: 3
Grade Mode: Letter

CD 383 - Coaching Sports: Track

Practical and theoretical aspects of coaching the sport with special emphasis on advanced skill development and current methodology and resource material being utilized.

Prerequisites & Notes: Permission of instructor.
Credits: 3
Grade Mode: Letter

Health Education Courses

HLED 150 - Consumer and Environmental Health

Analysis of media promotion of health products and services; health fraud; choosing health/medical care; investigation of environmental factors that affect human health; consumer and environmental protection agencies.

Prerequisites & Notes: open registration begins Phase II
Credits: 4
Grade Mode: Letter

HLED 151 - Society and Drugs

Physiological and behavioral effects of legal and illegal drugs; societal substance use and abuse; alternatives to drug use.

Credits: 2
Grade Mode: Letter

HLED 152 - Society and Sex

Sociological, psychological, and biological aspects of human sexuality.

Credits: 2
Grade Mode: Letter

HLED 201 - Perspectives of Human Lifestyle and Wellness

Overview and analysis of the role and place lifestyle and wellness play in society (past, present and future). Issues in health, fitness, and lifestyle choices.

Credits: 3
Grade Mode: Letter
GUR Attributes: SSC

HLED 210 - Introduction to Public Health

A survey of public health principles, history, philosophy, services, ethics, tools, systems, interventions, and applications to current events.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

HLED 250 - Health of the College Student

Analysis of major health risks; personal health status assessment; strategies for reducing risk behaviors and promoting healthy lifestyles among college students. S/U grading.

Prerequisites & Notes: HLED 150, HLED 151, HLED 152 recommended
Credits: 4
Grade Mode: S/U

HLED 345 - Health Promotion/Disease Prevention

Investigation of chronic/degenerative diseases and infectious/communicable illnesses; intentional and unintentional injuries; relationship of lifestyle choices and personal beliefs to well-being.

Prerequisites & Notes: BIOL 101 or BIOL 205
Credits: 4
Grade Mode: Letter

HLED 350 - Nutrition

Study of functions of nutrients in the body, factors that govern nutrient requirements, and the impact of diet on health and disease.

Prerequisites & Notes: BIOL 101 or BIOL 205 or CHEM 115 or CHEM 121; junior standing.
Credits: 3
Grade Mode: Letter

HLED 407 - Principles and Foundations of Health Education

History, philosophy, ethics, health behavior theories and models, credentialing, occupations,

PHYSICAL EDUCATION, HEALTH AND RECREATION

professional organizations and literature, current issues, and future trends in health education practice.

Prerequisites & Notes: BIOL 348
Credits: 5
Grade Mode: Letter

HLED 410 - Health Communication and Social Marketing

Examines the key concepts and practical skills of health communication/social marketing campaigns and their application to individual, group, and community public health initiatives.

Prerequisites & Notes: HLED 407, HLED 460
Credits: 4
Grade Mode: Letter

HLED 420 - Epidemiology and Biostatistics

An introduction to biostatistics and epidemiology in community health.

Prerequisites & Notes: Math 240 or KIN 307
Credits: 5
Grade Mode: Letter

HLED 432 - Organization and Administration of Community Health Programs

Basic principles of organization and administration of health programs, leadership skills, and grant-writing.

Prerequisites & Notes: HLED 407, HLED 460, HLED 465
Credits: 4
Grade Mode: Letter

HLED 447 - Community Health

Concept of community health, health advocacy, and cultural competence; role of government, nonprofit and private agencies; investigation of national health goals; engagement with community agencies required.

Prerequisites & Notes: BIOL 348 or concurrent; community health major.
Credits: 4
Grade Mode: Letter

HLED 450 - Methods and Materials in Health Education

Principles and application of methodology for educating about health; learning styles; development of computer-generated materials; selection, utilization, and evaluation of resources.

Prerequisites & Notes: HLED 447

Credits: 5
Grade Mode: Letter

HLED 455 - Health Education Grades K-8

Instructional methods in health for grades K-8; selection, analysis and application of health education curricula and materials; education about prevention of child abuse and alcohol/drug abuse, and AIDS/HIV.

Prerequisites & Notes: Admission to Woodring College of Education; ELED 370 or ELED 372 or SPED 420 or PE 340.
Credits: 2
Grade Mode: Letter

HLED 460 - Program Planning and Implementation of Health Programs

Application of processes of program development in designing health education/health promotion programs.

Prerequisites & Notes: HLED 407, HLED 450
Credits: 5
Grade Mode: Letter

HLED 465 - Program Evaluation and Research Design

Basics of health education program evaluation including formative, summative, process, impact and outcome evaluation. Research design and applied methods in program evaluation.

Prerequisites & Notes: HLED 420
Credits: 5
Grade Mode: Letter

HLED 471 - Internship I

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: HLED 407, HLED 410, HLED 420, HLED 432, HLED 447, HLED 450, HLED 460, HLED 465, and proof of malpractice insurance.
Credits: 3
Grade Mode: S/U

HLED 472 - Internship II

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: HLED 407, HLED 410, HLED 420, HLED 432, HLED 447, HLED 450, HLED 460, HLED 465, proof of malpractice insurance.

Credits: 12
Grade Mode: S/U

HLED 473 - Internship III

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: HLED 407, HLED 410, HLED 420, HLED 432, HLED 447, HLED 450, HLED 460, HLED 465, and proof of malpractice insurance.

Credits: 15
Grade Mode: S/U

Kinesiology Courses

KIN 301 - Survey of Kinesiology, Physical Education and Health

Library research methods, and current issues in kinesiology, physical education and health.

Prerequisites & Notes: Junior status.
Credits: 3
Grade Mode: Letter

KIN 304 - Prevention and Care of Athletic Injuries

Overview of current information on the care and prevention, and immediate care, of common sports injuries.

Prerequisites & Notes: KIN 301, BIOL 348.
Credits: 3
Grade Mode: Letter

KIN 306 - Measurement and Evaluation in Kinesiology

Application of the theory of measurement, evaluation and appropriate statistical processes to kinesiology programs; practical experiences involving test selection, administration and evaluation and interpretation of results in health and fitness settings.

Prerequisites & Notes: KIN 301 or concurrent.
Credits: 3
Grade Mode: Letter

KIN 307 - Statistics in Exercise & Sport Science

Statistical techniques utilized in the exercise and sport science fields.

Prerequisites & Notes: KIN 301, KIN 306; or instructor permission.

Credits: 4
Grade Mode: Letter

KIN 308 - Human Growth and Motor Development

The study of postnatal growth, maturation, and physical activity, their interrelationship with cognitive and psychosocial development, with application to health promotion and physical activity programs for children and youth.

Credits: 3
Grade Mode: Letter

KIN 311 - Biomechanics

Application of basic mechanical principles to movement. Motion fundamentals, kinetics, kinematics, aerodynamics, hydrodynamics, equilibrium and external forces, rebound and spin, two-dimensional analysis, and the body as a machine; lab work is included.

Prerequisites & Notes: KIN 301 or concurrent; completion of Math GURs.
Credits: 5
Grade Mode: Letter

KIN 312 - Functional Anatomy

Muscles of the body that contribute to providing motion; origin, insertion, and action; principles of human movement, including the fundamental contributors to the production of muscle force and the analysis of how muscle actions contribute to achieving motion; performance analysis of basic locomotor movement, daily living activities and sports skills; lab work included.

Prerequisites & Notes: BIOL 348, junior status.
Credits: 5
Grade Mode: Letter

KIN 315 - Fitness Instruction and Leadership

Instructional strategies, general progressions, pedagogical principles, teaching methods, class management, peer teaching, self-evaluation strategies, and supervision strategies for teaching in various health and fitness settings.

Prerequisites & Notes: KIN 301, KIN 308.
Credits: 2
Grade Mode: Letter

KIN 320 - Psychology of Sport

Psychological principles and states which are present in sporting activities, both at recreational and highly competitive levels.

Prerequisites & Notes: KIN 301 or PE 443, or concurrent; permission of instructor.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Credits: 3
Grade Mode: Letter

KIN 321 - Sociology of Sport

Sociological implications of sport in contemporary American society.

Prerequisites & Notes: KIN 301 or PE 443 or concurrent; or permission of instructor.
Credits: 3
Grade Mode: Letter

KIN 409 - Aging and Functional Assessments

This course will be a study of age-related physical and psychosocial changes which occur during the older adult years, their interrelationship with physical activity, with application to health promotion and disease prevention. Additionally, this course will examine the physical functional assessment methods commonly used with older adults, including those that are novel or in development. The research foundations and effectiveness of such assessments will be examined, and their appropriate utilization and interpretation will be practiced with community senior volunteers.

Prerequisites & Notes: KIN 301; or permission of instructor.
Credits: 4
Grade Mode: Letter

KIN 410 - Motor Control and Learning

Principles of motor control and skill acquisition, as it relates to human movement.

Prerequisites & Notes: KIN 301 or PE 443; and BIOL 348.
Credits: 3
Grade Mode: Letter

KIN 413 - Physiology of Exercise

Nature of muscular, metabolic, cardiovascular and respiratory adjustments to acute and chronic exercise. The effect of training on fitness and health. Includes experimental laboratory sessions.

Prerequisites & Notes: KIN, PE or Community Health major status; BIOL 348; KIN 306 recommended; or permission of instructor.
Credits: 5
Grade Mode: Letter

KIN 414 - Physical Activity and Nutrition

Current topics on exercise and nutrition; weight control, dietary supplementation and performance, fluid regulation, atherosclerosis and diabetes. Applications include metabolic balance, consumer issues such as marketing strategies, label analysis,

food choices, attributes of food products such as natural, organic, fat-free, among others.

Prerequisites & Notes: KIN, PE or Community Health major status or permission of instructor; KIN 413, or concurrent.
Credits: 3
Grade Mode: Letter

KIN 415 - Physical Fitness Assessment and Exercise Prescription

Examine techniques of evaluation for physical fitness with an emphasis on aerobic capacity, flexibility, and body composition; case studies; develop appropriate exercise program and re-evaluation. Includes experimental laboratory sessions and practical laboratory skills analysis.

Prerequisites & Notes: KIN 413.
Credits: 5
Grade Mode: Letter

KIN 416 - Strength and Conditioning Program Design

Theoretical and practical knowledge necessary to design safe and effective training programs for optimization of health, fitness and performance.

Prerequisites & Notes: KIN 312.
Credits: 3
Grade Mode: Letter

KIN 420 - Seminar in Sport Psychology

An interdisciplinary seminar (psychology/physical education) exploring core topics of sport psychology including: evaluation of athletes, research design and strategies, personality assessment, mental and physical preparation for competition, clinical applications.

Prerequisites & Notes: KIN 320, KIN 321, KIN 410; and 10 credits in psychology or permission of instructor.
Credits: 3
Grade Mode: Letter

KIN 421 - Psychology of Exercise

This theory and application course will examine the relationship between personal, mental, and behavioral factors with exercise (bi-directional). Major topics will include, but are not limited to, the impact of exercise on mood states, mental health and immune function, exercise motivation, interventions and adherence.

Prerequisites & Notes: KIN 320
Credits: 3
Grade Mode: Letter

KIN 422 - Professional Issues in Health and Exercise Settings

The focus of this course is on professional issues relating to human resources, philosophy, finance and legal concerns with a focus on technical and professional writing.

Prerequisites & Notes: KIN 301 or PE 443; Senior Status.
Credits: 3
Grade Mode: Letter

KIN 435 - Worksite Health Promotion

Theoretical and practical aspects of developing and implementing worksite health promotion programs, including student team development and implementation of a community worksite based health promotion program.

Prerequisites & Notes: HLED 345; HLED 350 or concurrent, or KIN 414 or concurrent
Credits: 5
Grade Mode: Letter

KIN 471 - Internship I

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and permission of instructor.
Credits: 3
Grade Mode: S/U

KIN 472 - Internship II

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and permission of instructor.
Credits: 12
Grade Mode: S/U

KIN 491 - Field Experience I

Practical volunteer experience in agencies such as hospitals, physical therapy clinics, retirement or convalescent centers, worksite wellness programs, fitness facilitation, on-campus fitness programs and community sports organizations. S/U grading. Repeatable up to 6 credits including original course.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and

permission of instructor.
Credits: 3
Grade Mode: S/U

KIN 492 - Field Experience II

Practical volunteer experience in agencies such as hospitals, physical therapy clinics, retirement or convalescent centers, worksite wellness programs, fitness facilitation, on-campus fitness programs and community sports organizations. S/U grading. Repeatable up to 6 credits including original course.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and permission of instructor.
Credits: 3
Grade Mode: S/U

KIN 493 - Exercise And Sport Science Research

Investigation of a problem conducted independently or as part of a group under faculty supervision. S/U grading.

Prerequisites & Notes: 15 credits completed in Exercise and Sport Science; permission of instructor.
Credits: 3
Grade Mode: S/U

KIN 494 - Instructional Assistant

Assist faculty in the classroom and lab instruction. Assist faculty with activities such as lab and lecture preparation and implementation, leading classroom discussions, assisting students with class materials. Duties vary by course and instructor but the time commitment will be 8 to 10 hours per week. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: Permission of instructor; a minimum grade of B in the course for which the student will be a teaching assistant.
Credits: 3
Grade Mode: S/U

KIN 502 - Research Topics in Human Movement and Performance

Prereq: permission of instructor. Supervised research or study in topics related to sociology/ psychology of sport, biomechanics, exercise physiology, motor learning/control, human growth and motor development, and epidemiology of physical activity. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: Permission of instructor.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Credits: 1-5
Grade Mode: Letter

KIN 506 - Research Design in Human Movement and Performance

Purpose and design of various research methods used in the analysis of human movement and performance problems; survey of common statistical applications; development of research proposals.

Prerequisites & Notes: Graduate status; MATH 240 or KIN 307 or equivalent.

Credits: 4
Grade Mode: Letter

KIN 507 - Motor Control

Examination of the structure and function of the human neuromuscular system, as it pertains to the production of movement.

Prerequisites & Notes: KIN 410 or equivalent.

Credits: 3
Grade Mode: Letter

KIN 510 - Laboratory Techniques in Exercise Science

Common laboratory techniques utilized in exercise science are presented with emphasis on body composition analysis, circulo-respiratory testing, phlebotomy/blood analysis, muscular strength and endurance, computer usage, force platform analysis, electromyography and motion capture techniques.

Prerequisites & Notes: KIN 311 and KIN 413 or equivalent, or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 511 - Physical Activity and Hypokinetic Diseases

Survey of effects of physical activity on disease processes related to hypokinesia: cardiovascular disease, obesity, diabetes, osteoporosis, arthritis, inflammation, sarcopenia. Overview of physical activity needs of special populations.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 3
Grade Mode: Letter

KIN 513 - Exercise Prescription and Programming

Design safe and effective physical activities for selected populations in rehabilitative, preventative, and competitive programs. Medico-legal aspects and administration of exercise prescription and

programming. Case studies.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 516 - Advanced Conditioning Principles and Practice

This course is designed to equip students with the theoretical and practical knowledge related to the most advanced and state-of-the-art methods used to maximize fitness and athletic performance.

Prerequisites & Notes: KIN 416 or permission of instructor.

Credits: 3
Grade Mode: Letter

KIN 520 - Readings in Human Movement and Performance

Directed readings, analysis, discussion of current literature on human movement culminating in a written paper and discussion of chosen topic.

Prerequisites & Notes: Permission of instructor.

Credits: 3
Grade Mode: Letter

KIN 540 - Applied Exercise Physiology

Selected topics in advanced exercise physiology: homeostasis, energy systems, metabolism, cardiorespiratory adjustments, hormonal control, neuromuscular physiology, nephrology, immunology, environmental responses and adaptations, by lecture and recitation.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 541 - Foundations and Ethics of Sport Psychology

Theoretical foundations and behavioral applications of sport psychology including: history, ethics and current status of sport psychology, individual differences in sport behavior, motivation in sport, exercise psychology, social influence and sport, and the dynamics of sport groups.

Prerequisites & Notes: KIN 320 or permission of instructor.

Credits: 3
Grade Mode: Letter

KIN 542 - Seminar in Sport Sociology

The study of sport as a microcosm of society with particular emphasis on the following topical areas:

economics and sport, social mobility and sport, socialization, ethnic issues and sport, gender issues and sport, education and sport, sport and politics, and current social issues and sport.

Prerequisites & Notes: KIN 321 or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 543 - Biomechanical Analysis of Human Movement

Kinematic and kinetic analysis of human movement with focus on practical application of mechanical laws governing human motion; laboratory and computer applications.

Prerequisites & Notes: KIN 311, 312 or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 544 - Biomechanics of the Musculoskeletal System

Selected topics relating to biomechanics of the musculoskeletal system, muscular and skeletal system characteristics, biomechanics of the hip, knee, shoulder, foot, ankle and vertebral column.

Prerequisites & Notes: KIN 311, 312 or permission of instructor.

Credits: 4
Grade Mode: Letter

KIN 551 - Applied Sport and Exercise Psychology

Provides comprehensive overview of applied educational strategies and techniques in sport and exercise psychology, including performance enhancement/intervention strategies and techniques, exercise psychology, psychosocial foundations of youth sport programs and psychology of coaching.

Prerequisites & Notes: KIN 541.

Credits: 4
Grade Mode: Letter

KIN 592 - Internship

Supervised internship in schools, hospitals, clinics or corporation/industries as appropriate to complement the student's area of interest. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and permission of instructor.

Credits: 1-6
Grade Mode: S/U

KIN 690 - Thesis

Repeatable to a maximum of 9 credits.

Prerequisites & Notes: problem approval and permission of instructor.

Credits: 1-9
Grade Mode: Letter

KIN 699 - Continuous Enrollment

S/U grading.

Credits: 2
Grade Mode: S/U

Physical Education Courses

PE 101 - Beginning Conditioning

Through lecture and physical practice, students will gain an understanding of the quantity and quality of exercise essential for developing and maintaining cardiorespiratory fitness, muscular fitness, and flexibility for healthy adults. S/U grading.

Credits: 1
Grade Mode: S/U

PE 102 - Beginning Group Fitness

Students will learn about and engage in a variety of group fitness class formats and activities, and gain an understanding of the health and benefits of each. S/U grading.

Credits: 1
Grade Mode: S/U

PE 103 - Beginning Jogging

Through lecture and physical participation, students will learn safe jogging principles and techniques, experience improved cardiovascular fitness, and increase muscular endurance and conditioning. S/U grading.

Credits: 1
Grade Mode: S/U

PE 104 - Beginning Yoga

Through lecture and physical participation, students will learn and practice yoga correctly and safely while enhancing health and well-being. S/U grading.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Credits: 1
Grade Mode: S/U

PE 108 - Beginning Weight Training

Through lecture and physical participation, students will learn correct lifting and spotting technique, the basic muscle groups and weight training principles, and understand types of potential injuries and injury prevention. S/U grading.

Credits: 1
Grade Mode: S/U

PE 120 - Beginning Social Dance

Through lecture and physical participation, students will gain a sense of rhythm (moving in time with the music), learn basic footwork and positioning for a variety of social dances, and practice techniques for leading and following. S/U grading.

Credits: 1
Grade Mode: S/U

PE 122 - Beginning Folk and Country Dance

Introduction and practice of traveling and setting steps appropriate for a wide variety of English and Scottish Folk and Country dances. Students will learn how to put together 'figures' to form a dance. S/U grading.

Credits: 1
Grade Mode: S/U

PE 123 - Beginning Scottish Country Dancing

Introduction and practice to traveling and setting steps appropriate for Scottish Country dances in both reel and strathspey time. Students will learn about the tradition from which Scottish dances and their music have come. S/U grading.

Credits: 1
Grade Mode: S/U

PE 124 - Intermediate Scottish Country Dance

Introduction and practice of the more advanced Scottish Country Dance figures in both reel and strathspey time. A higher level of experience and concentration will be required of all students. S/U grading.

Prerequisites & Notes: PE 123

Credits: 1
Grade Mode: S/U

PE 125 - Zumba

An interval dance-fitness class that combines Latin and International rhythms with easy to follow steps

that focus on cardiovascular benefits and total body toning. S/U grading.

Credits: 1
Grade Mode: S/U

PE 132 - Beginning Badminton

Introduction and practice of the basic skills of both singles and doubles court positioning and strategy, game playing rules, scoring and etiquette. Students will work toward proficiency in basic badminton strokes (forehand, backhand, overhead clear, forehand smash, and short serve). S/U grading.

Credits: 1
Grade Mode: S/U

PE 134 - Beginning Pickleball

Introduction and practice of the basic skills of both singles and doubles court positioning and strategy, game playing rules, scoring and etiquette. Students will work toward proficiency in basic pickleball strokes (forehand, backhand, lob, drop-shot, dink, deep serve, and short serve). S/U grading.

Credits: 1
Grade Mode: S/U

PE 136 - Beginning Tennis

Introduction and practice of the basic strokes (volley, serve, forehand, and backhand), rules, scoring, and court etiquette for singles and doubles tennis court positioning and playing strategy. S/U grading.

Prerequisites & Notes: Students must provide tennis racket and 3 good tennis balls. Court or cross-training shoes are required.

Credits: 1
Grade Mode: S/U

PE 139 - Beginning Racquetball

Introduction and practice of the basic shots (forehand, backhand, ceiling, back-wall, corner, and kill), rules, scoring, and court etiquette for singles, cut-throat, and doubles court positioning and playing strategy. S/U grading.

Credits: 1
Grade Mode: S/U

PE 144 - Beginning Soccer

Introduction, practice and demonstration of the basic soccer fundamentals (passing, controls, dribbling, heading, covering, shooting, tackling/jockeying); offensive and defensive

concepts; game play, including goalkeeping; and knowledge of the rules of the game. S/U grading.

Prerequisites & Notes: Soccer shoes are recommended; running shoes do not provide adequate lateral support.
Credits: 1
Grade Mode: S/U

PE 145 - Beginning Volleyball

Introduction and practice of the basic individual and game playing skills, including serving, passing, spiking, setting, blocking, digging and floor skills. Students will be able to demonstrate mastery of the basic team patterns and understand the rules of play both in a game and in written form. S/U grading.

Prerequisites & Notes: Court or cross-training shoes are required.
Credits: 1
Grade Mode: S/U

PE 149 - Beginning Ultimate Disc

Introduction and practice of the basic throwing, catching, offense and defensive skills. Students will gain an understanding of the 'spirit of the game,' and knowledge of rules and strategies (stacking, flow, cutting, forcing, and defensive set-up). S/U grading.

Credits: 1
Grade Mode: S/U

PE 157 - Beginning Skiing

Introduction and practice of beginning level skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U grading.

Credits: 1
Grade Mode: S/U

PE 158 - Intermediate Skiing

Introduction and practice of intermediate level skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U grading.

Credits: 1
Grade Mode: S/U

PE 159 - Advanced Skiing

Introduction and practice of advanced skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U grading.

Credits: 1
Grade Mode: S/U

PE 165 - Beginning Handball

Four wall handball. S/U grading.
Credits: 1
Grade Mode: S/U

PE 166 - Intermediate Handball

Demonstration and practice designed to enhance the student's skill level and dedication to the sport of four-wall handball. Exercise structures to influence focus, style, and versatility. S/U grading.

Credits: 1
Grade Mode: S/U

PE 167 - Beginning Mountain Bicycling

S/U grading.

Prerequisites & Notes: Students must provide their own bicycle and required helmet.
Credits: 1
Grade Mode: S/U

PE 168 - Beginning Martial Arts

Introduction and practice of the foundational principles of Judo and Ju-Jitsu as martial arts, and as they relate to fitness, safe falling, throwing techniques, controlling techniques, and ground techniques. S/U grading.

Credits: 1
Grade Mode: S/U

PE 169 - Beginning Self-Defense

Introduction and practice of personal, physical and mental self-defense skills with significant focus on the use of posture and demeanor to de-escalate potential risk. S/U grading.

Credits: 1
Grade Mode: S/U

PE 170 - Beginning Sailing

The purpose of the course is to teach students the basics of safe and effective sailing for life long health and enjoyment. Students will learn how to prepare for sailing and safely perform basic sailing skills. S/U grading.

Credits: 1
Grade Mode: S/U

PE 171 - Beginning Sailboat and Racing

Introduction to collegiate style sailboat racing, including: strategy, boat handling and tactics. Students will receive lectures, demonstrations and use on the water drills to develop the skills and

PHYSICAL EDUCATION, HEALTH AND RECREATION

concepts involved in racing. Emphasis on practical application, with racing on the water occurring as often as safe and practical. S/U grading.

Prerequisites & Notes: PE 170 or PE 179; or basic skipping skills.

Credits: 1

Grade Mode: S/U

PE 175 - Beginning Windsurfing

The purpose of the course is to teach students the basics of safe and effective windsurfing for life-long health and enjoyment. Students will learn how to prepare for windsurfing and safely perform basic windsurfing skills. S/U grading.

Credits: 1

Grade Mode: S/U

PE 177 - Basic Kayak Touring

Course provides an introduction to the basic skills of Kayak Touring. Including boat handling, rescues, navigation, weather, safety tactics, and tide forecasting and trip planning. Instructional emphasis on the water paddling skills. S/U grading.

Credits: 1

Grade Mode: S/U

PE 179 - Intermediate Sailing

Course provides intermediate skills through the use of multiple designs of boats. Techniques for control and efficiency are examined as students learn to sail more complex and challenging boats. With more sophisticated boats and rig adjustments a more sophisticated understanding of the hydro and aerodynamic principals can be gained. S/U grading.

Prerequisites & Notes: PE 170 or instructor permission.

Credits: 1

Grade Mode: S/U

PE 181 - Intercollegiate Basketball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 183 - Intercollegiate Track and Field

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 185 - Intercollegiate Golf

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 189 - Intercollegiate Cross Country

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 190 - Intercollegiate Rowing

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 192 - Intercollegiate Volleyball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 193 - Intercollegiate Soccer

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 194 - Intercollegiate Softball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 340 - Block I: Elementary Physical Education Methods

Incorporates pedagogical principles and instructional techniques in physical education based on the characteristics and needs of elementary students with emphasis on rhythms and dance, fundamental movement, and gymnastics.

Prerequisites & Notes: Physical Education and Health P-12 pre-major status.
Credits: 5
Grade Mode: Letter

PE 341 - Block II: Elementary Physical Education Methods

Incorporates pedagogical principles and instructional techniques in physical education based on the characteristics and needs of elementary students with emphasis on fitness development, fundamental skills, sport-related activities and contemporary recreational activities.

Prerequisites & Notes: PE 340, P-12 PE and Health major
Credits: 5
Grade Mode: Letter

PE 341P - Elementary Physical Education Practicum

Observing/assisting/teaching in an elementary school setting. Includes weekly seminar which covers: academic learning time, student success rates, feedback, professional growth.

Prerequisites & Notes: PE 341, or concurrent.
Credits: 3
Grade Mode: Letter

PE 345 - Physical Education for Elementary School

Physical activities in fundamental skill development, fitness, creative movement, rhythms and gymnastics for elementary age. Includes methods of teaching and developmental characteristics of children.

Prerequisites & Notes: Admission to Woodring College of Education; EDUC 301 or ELED 301 or SPED 301.
Credits: 3
Grade Mode: Letter

PE 440 - Block III: Middle School Physical Education Methods

Course incorporates pedagogical principles, instructional methodology, planning and implementation of instructional programs for middle school level students. Curricular emphasis will focus upon skill acquisition and lead up to activities in the following areas: team building, loco-motor/fitness, striking w/hands & feet, rhythmic movements and recreational activities.

Prerequisites & Notes: PE 341P.
Credits: 5
Grade Mode: Letter

PE 440P - Middle School Physical Education Practicum

Observing/assisting/teaching in a middle school setting. Includes weekly seminar which covers: characteristics of middle school students, research on effective teaching, developing routines, class management, skill progressions and sequencing, pre-assessment, unit planning, assessment.

Prerequisites & Notes: PE 341P; PE 440 or concurrent.
Credits: 3
Grade Mode: Letter

PE 441 - Block IV: High School Physical Education Methods

Course incorporates pedagogical principles, instructional methodology, planning and implementation of instructional programs for high school level students. Curricular emphasis will focus upon tactical games and lifetime fitness in the following areas: team building, multi-skill activities, group exercise, striking w/implements, rhythmic movements, content integration and recreational activities.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Prerequisites & Notes: PE 440P
Credits: 5
Grade Mode: Letter

PE 441P - High School Health and Physical Education Practicum

Observing/assisting/teaching health and physical education in a high school setting. Includes weekly seminar which covers characteristics of high school students, curriculum development for health and physical education, assessment and transitioning from student to student teacher.

Prerequisites & Notes: PE 440P
Credits: 3
Grade Mode: Letter

PE 442P - Practicum in Physical Education

Individualized practicum in teaching physical education activities. S/U grading.

Prerequisites & Notes: PE341P
Credits: 2
Grade Mode: S/U

PE 443 - Adapted Physical Education Methods & Practicum

Course incorporates library research methods related to specific disabilities and APA research writing skills, pedagogical principles, instructional methods, and planning and implementation of instructional interventions for individuals with disabilities in the educational setting. Includes field based experiences working with adapted physical education/recreational settings.

Prerequisites & Notes: PE 341
Credits: 3
Grade Mode: Letter

Recreation Courses

RECR 105 - Challenge Facilitation I

Course provides an overview of the theory and application of adventure based programming. Students will be introduced to safety practices, goal setting, framing and debriefing both group and individual challenge activities. Students will practice leading others in challenge learning activities. S/U grading.

Credits: 2
Grade Mode: S/U

RECR 201 - Foundations of Recreation and Leisure

Professional course dealing with the history, philosophy, present status, future goals, and

challenges of leisure and the recreation service professions.

Credits: 4
Grade Mode: Letter

RECR 271 - Introduction to Community Recreation and Leisure Services

Community-based recreation service agencies: philosophies, functions, services, personnel and facilities. Emphasis on the diversity and inter-relatedness of community recreation service agencies.

Prerequisites & Notes: RECR 201
Credits: 3
Grade Mode: Letter

RECR 272 - Introduction to Outdoor Recreation

Introduction to the major professional components of the outdoor recreation field: interpretive services, camping, resource management, programming, private recreation and tourism. Focuses on trends, programs and related professional issues.

Prerequisites & Notes: RECR 201
Credits: 3
Grade Mode: Letter

RECR 274 - Introduction to Therapeutic Recreation

Introduction to the principles and practices of therapeutic recreation. Includes history, philosophy, and trends and issues. Also presents an overview of consumer groups associated with therapeutic recreation.

Prerequisites & Notes: RECR 201
Credits: 4
Grade Mode: Letter

RECR 275 - Professional Practicum and Seminar

Career opportunities in leisure services investigated through organized visits to recreation and leisure agencies. Includes class meetings to explore professional development. S/U grading.

Prerequisites & Notes: RECR 201
Credits: 1
Grade Mode: S/U

RECR 276 - Introduction to Program Leadership

Leading and processing recreation experiences in community, outdoor and therapeutic settings that promote individual and social well-being.

Prerequisites & Notes: RECR 201
Credits: 2
Grade Mode: Letter

RECR 279 - Introduction to Tourism

Introduction to the major professional components of tourism: tour development, guiding, visitor services, resort management, and event planning. Also examines history of travel, types of travelers, motives of travel, niche markets, and current trends.

Prerequisites & Notes: RECR 201
Credits: 3
Grade Mode: Letter

RECR 301 - Work and Leisure Through the Ages

A historical survey of the evolution of work and leisure from antiquity to the present, examining developments from social, cultural, political, and economic perspectives. The course also explores how work and leisure have affected societies throughout history. The central goal of the course is to use the past as a means for students to examine beliefs, values, and practices regarding work and leisure in the present and the future.

Prerequisites & Notes: any 100-level history class or PSY 101, SOC 221, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269
Credits: 4
Grade Mode: Letter
GUR Attributes: HUM

RECR 370 - Outdoor Program Development

Methods and techniques in the organization, implementation and evaluation of recreation programs in outdoor settings.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 372 - Management of Recreation and Leisure Services

Entry-level administrative skills associated with managing personnel and organizational resources within parks and recreation systems.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 373 - Recreation Programming

Systems approach to programming methods for individual and group program planning in all parks

and recreation settings.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 376 - Therapeutic Recreation Program Design

Methods and techniques in the organization, implementation and evaluation of recreation programs for special populations: needs assessment, activity modification, adaptive equipment, physical and behavioral management and intervention techniques.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 378 - Human Relations: Concepts and Skills

Knowledge of human relations concepts and development of basic helping skills needed by individuals working in therapeutic relationships in outdoor, community, tourism, and institutional settings. Designed to meet certification requirements for therapeutic recreation.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 379 - Foundations of Ecotourism

Course will introduce students to the history, concepts, principles, marketing, and planning of ecotourism activities. The focus will be on tours and activities that promote cultural and environmental awareness, community empowerment, and local economic benefits. Emphasis will be on non-western cultures.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.
Credits: 4
Grade Mode: Letter

RECR 380 - Therapeutic Recreation Principles, Practices and Techniques

Concentrated analysis of the process and practice of therapeutic recreation. Includes medical terminology, disabling conditions, adaptations, models of health care, rehabilitation techniques, and further examination of the foundations and development of therapeutic recreation. Includes one hour arranged.

PHYSICAL EDUCATION, HEALTH AND RECREATION

Prerequisites & Notes: Phase I Recreation majors or appropriate experience; written permission.

Credits: 5

Grade Mode: Letter

RECR 385 - Leisure and Aging

An overview of aging with respect to leisure services. Examines physical, social, psychological, economic and political aspects of aging as they relate to designing recreation programs and leisure opportunities.

Prerequisites & Notes: RECR 201 or instructor permission

Credits: 4

Grade Mode: Letter

RECR 421 - Therapeutic Recreation Trends and Issues

Analysis of trends and issues affecting the profession of therapeutic recreation.

Prerequisites & Notes: Phase III Recreation majors or appropriate experience; written permission.

Credits: 3

Grade Mode: Letter

RECR 444 - Recreation Budgeting and Finance

Principles and techniques of obtaining, budgeting and managing financial resources in parks and recreation agencies.

Prerequisites & Notes: Phase III Recreation majors or permission of Instructor.

Credits: 4

Grade Mode: Letter

RECR 450 - Recreation Program Evaluation

Quantitative and qualitative methods of program evaluation emphasizing experiential learning, questionnaire design and survey research, interviews, observations, and consensus techniques.

Prerequisites & Notes: Phase III Recreation majors or permission of Instructor.

Credits: 4

Grade Mode: Letter

RECR 470 - Adventure-Based Programming

Methods and techniques in the assessment, design, implementation and evaluation of adventure programs in enrichment and therapeutic recreation settings.

Prerequisites & Notes: Phase III Recreation majors or permission of instructor.

Credits: 3

Grade Mode: Letter

RECR 471 - Internship I

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: Phase II Recreation majors.

Credits: 3

Grade Mode: S/U

RECR 472 - Internship II

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel.

Prerequisites & Notes: Phase II Recreation Majors

Credits: 12

Grade Mode: S/U

RECR 473 - Internship III

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel.

Prerequisites & Notes: Phase II Recreation majors.

Credits: 15

Grade Mode: S/U

RECR 475 - Community Development and Leisure Services

An analysis of community development from the context of recreation and leisure services. Emphasis is placed on the roles and relationships among community members and recreation and leisure services for the purposes of promoting the health and well-being of communities.

Prerequisites & Notes: Phase III Recreation majors or permission of instructor.

Credits: 3

Grade Mode: Letter

RECR 479 - Ecotourism: Principles and Practices

Provides an understanding of the principles and practices of ecotourism. Examines theory, practice, history, terminology and issues in ecotourism planning and management. Emphasizes sustainable practices as they relate to traveler education, tour planning, and destination development.

Prerequisites & Notes: RECR 379 or permission

of instructor.

Credits: 3

Grade Mode: Letter

RECR 480 - Leisure and Society

A senior capstone course that builds on general education and foundations of professional education. Goal is to synthesize diverse strands of theory and practice into an integrated understanding of recreation and leisure in modern society, with implications for professional service.

Prerequisites & Notes: Phase III Recreation majors.

Credits: 4

Grade Mode: Letter

Political Science

Introduction

Politics and government affect the lives of all of us. What we do, and what we think, is affected by the decisions and actions of state, local and national governmental institutions and political leaders. The objectives and policies of foreign countries also can affect our daily lives, particularly during periods of international tension and war.

Political science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern political science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

The political science faculty is committed to the belief that understanding politics and government is essential to a well-educated person, vital to democratic citizenship, indispensable to effective public service, and critical to the maintenance and ethical progress of a free society.

The political science curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in political science go on to law school, graduate school and into the professions; many others who are not majors take political science courses as an essential part of their liberal arts education.

The department's faculty and staff invite questions about the program and its career potential. Persons seeking more information should visit the department in Arntzen Hall or call 360-650-3469. Written inquiries should be directed to the Department of Political Science, Western Washington University, Bellingham, Washington 98225-9082.

Declaration Process

Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses with an average grade of 2.7 or above: PLSC 250, 261, 271, 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Priority is given to seniors and juniors who need courses to graduate. Students who have no transfer credits for political science course work, stop by the political science department office, Arntzen Hall 415, with an unofficial Western Washington University transcript showing the three completed courses from the list above. If you have transfer credits for political science coursework from another institution, also bring an unofficial transcript from that institution showing the political science courses completed.

Other Departmental Information

The Curricula

The political science department offers several curricula leading to the Bachelor of Arts, the Master of Arts, and the Master of Arts option in political science/environmental studies. These curricula are listed below, and their details are set forth following the list of the department faculty.

- Bachelor of Arts
 - Majors: political science, political science/economics, politics/philosophy/economics, political science/social studies.
 - Minors: political science, Canadian-American studies, East Asian studies
- Master of Arts in Political Science
- Master of Arts in Political Science (Environmental Studies)

Mid-Program Checkpoint

To finish the political science major in a timely fashion, students should try, by the end of their sophomore year, to complete the core courses (and necessary prerequisites) needed for the advanced courses in the three fields within the major. The core courses for the three fields are:

- American Politics and Public Policy: PLSC 250
- Political Theory: PLSC 261
- International and Comparative Politics: PLSC 271 or PLSC 291

Internships

Students are encouraged to obtain internships in state, local or national government agencies, political parties and interest groups. Initial contact with the intern coordinator should usually be at least one quarter in advance of registration if the student is interested in a local internship. In the case of state and federal agencies, longer lead times are necessary, and contact with the intern coordinator should be at least two quarters in advance of registration. Credit may be divided over two quarters where the internship placement requires a commitment of more than 10 weeks. No more than 10 credits of internship and independent study, combined, may be counted toward the major.

To qualify for an internship, requirements are:

- Completion of the core field requirements for the political science major (PLSC 250, PLSC 261, PLSC 271 or PLSC 291)
- Completion of at least one advanced course in the field of study to which the internship most closely relates
- Acceptability to the agency

Independent Study

POLITICAL SCIENCE

Students wishing to pursue research and directed reading in areas of the discipline where they have had prior course work may apply to do independent study projects. Enrollment is with the consent of the instructor and the chair. No more than 10 credits of independent study and internship, combined, may be counted toward the major.

Graduate Study

For concentrations leading to the Master of Arts degree, see the Graduate School section of this catalog.

Bachelor of Arts

Economics/Political Science, BA (see Economics Department)

Economics/Political Science, BA (see Economics Department)

Political Science, BA

Department of Political Science, College of Humanities and Social Sciences

60 credits

Introduction

Political Science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern Political Science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

The Political Science faculty is committed to the belief that understanding politics and government is essential to a well-educated person, vital to democratic citizenship, indispensable to effective public service, and critical to the maintenance and ethical progress of a free society.

Why Consider a Political Science Major?

The Political Science curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in Political Science go on to law school, graduate school and into related professions.

How to Declare (Admission and Declaration Process):

Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses with an average grade of 2.7 or above: PLSC 250, 261, 271, 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Priority is given to seniors and juniors who need courses to graduate. Students who have no transfer credits for political science course work, stop by the political science department office, Arntzen Hall 415, with an unofficial Western Washington University transcript showing the two completed courses from the list above. If you have transfer credits for political science coursework from another institution, also bring an unofficial transcript from that institution showing the political science courses completed.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. For more information go to the

Requirements

PLSC 101, 435, 443, 444, 447, 448, and 491 credits apply toward the major but do not count in any field. No more than 10 credits of internship or independent study may be counted toward the major.

- Students select a first, second and third field of study from the three fields listed below
 - American Politics and Public Policy
 - Political Theory
 - International and Comparative Politics
- Core courses in each of the three fields are required. They are:
 - PLSC 250 for American Politics and Public Policy
 - PLSC 261 for Political Theory
 - PLSC 271 or PLSC 291 for International and Comparative Politics
- In the three fields, the students must complete:
 - 15 credits in the first field plus required core course
 - 10 credits in the second field plus required core course
 - 4 credits in the third field plus required core course
 - One course from:
 - PLSC 431, PLSC 432, PLSC 433, PLSC 434

Courses in the three fields are organized as follows:

- American Politics and Public Policy:
 - PLSC 250 - The American Political System
 - PLSC 311 - Introduction to Law and Judicial Process
 - PLSC 313 - Law and Society
 - PLSC 314 - U.S. Supreme Court
 - PLSC 345 - Women and Politics
 - PLSC 346 - Politics of Inequality
 - PLSC 347 - Race, Politics and Public Policy
 - PLSC 353 - State and Local Politics
 - PLSC 366 - Research in Politics
 - PLSC 414 - Constitutional Law I: National Powers
 - PLSC 415 - Constitutional Law II: Individual Rights
 - PLSC 420 - Environmental Politics
 - PLSC 421 - Queer/Lesbian, Gay, Bisexual, Transgender Politics
 - PLSC 423 - The American Presidency
 - PLSC 427 - Policy-Making and Policy Analysis
 - PLSC 431 - Senior Seminar in American Politics and Public Policy
 - PLSC 449 - Politics and Social Change

POLITICAL SCIENCE

- PLSC 450 - Parties, Campaigns and Elections
- PLSC 467 - Philosophical and Ethical Issues in Law
- PLSC 489 - Managing An International Ecosystem Wi
- Political Theory:
 - PLSC 261 - Introduction to Political Theory
 - PLSC 361 - Classical Political Thought
 - PLSC 362 - Political Theory: Renaissance and Modern
 - PLSC 432 - Senior Seminar - Political Theory
 - PLSC 462 - The Rise of Modern Political Economy
 - PLSC 463 - American Political Thought
 - PLSC 464 - Contemporary Political Theory
 - PLSC 469 - Feminist Political Theory
 - PLSC 480 - Politics, Government and Religion
 - PLSC 493 - Issues in Political Theory
- International and Comparative Politics:
 - PLSC 271 - Introduction to International Relations
 - PLSC 291 - Introduction to Comparative Politics
 - PLSC 301 - The British Parliamentary System
 - PLSC 302 - Western Europe
 - PLSC 307 - East Asia
 - PLSC 308 - African Political Systems
 - PLSC 310 - The International Relations of East Asia
 - PLSC 312 - International Relations of South Asia
 - PLSC 366 - Research in Politics
 - PLSC 370 - Global Issues in International Politics
 - PLSC 372 - International Political Economy
 - PLSC 376 - American Foreign Policy
 - PLSC 390 - The Politics of Development
 - PLSC 399 - The Politics of Democratization
 - PLSC 402 - Regional European Society and Politics
 - PLSC 403 - The European Union and the Process of European Integration
 - PLSC 406 - Canadian Government and Politics
 - PLSC 430 - Modern Chinese Politics
 - PLSC 433 - Senior Seminar in Comparative Politics
 - PLSC 434 - Senior Seminar in International Politics
 - PLSC 436 - Managing Environmental Commons
 - PLSC 453 - Comparative Electoral Systems

Departmental Honors

Entrance requirements

Students must satisfy the following eligibility requirements **prior** to registration for PLSC 496 Honors Tutorial. The student must:

- Be a declared political science major with senior standing
- Have a 3.50 GPA in all upper-division political science courses
- Have completed **both** of the following:
 - Core requirements for the major (PLSC 250, PLSC 261, and PLSC 271 or 291)
 - Credit requirements in the area most closely related to the thesis topic
- Have completed **one** of the following:
 - Two years of foreign language with a B (3.0) or better GPA; the Honors advisor, at his or her discretion, may choose to waive this requirement for students who demonstrate a satisfactory reading knowledge of the language

- PLSC 366 Research in Politics, or an equivalent class in social statistics under advisement, and earn a grade of B (3.0) or better
- Submit the completed Honors Contract to the political science department office with proper faculty signatures

Completion Requirements

To graduate with honors in political science the student must:

- Maintain a 3.50 grade point average in all upper-division political science courses
- Complete 4-10 credits of PLSC 496 Honors Tutorial over two quarters under the supervision of a faculty thesis advisor
- Give an oral presentation of the thesis in arrangement with the faculty thesis advisor
- Submit a copy of the honors thesis to the political science department office before the final grade is assigned

Political Science/Social Studies, BA

Department of Political Science, College of Humanities and Social Sciences

92-94 credits

Introduction

Political Science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern political science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

The Political Science faculty are committed to the belief that understanding politics and government is essential to a well-educated person, vital to democratic citizenship, indispensable to effective public service, and critical to the maintenance and ethical progress of a free society.

Why Consider a Political Science/Social Studies Major?

The Political Science curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in Political Science go on to law school, graduate school and into the professions.

Secondary Education students who wish to be endorsed in Social Studies may choose this major. However, the Political Science/Social Studies degree does not require that a student pursue a teaching certificate.

To receive a recommendation for state of Washington certification, students must complete the "teacher certification" program, including the contents method course SEC 426, which is offered by the Department of Secondary Education as 1) part of the undergraduate Bachelor of Arts degree, or 2) as a post-baccalaureate program, or 3) as a part of the Master's in Teaching degree. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Completion of this combined major leads to endorsement in social studies.

How to Declare (Admission and Declaration Process):

Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses with an average grade of 2.7 or above: PLSC 250, 261, 271, 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Priority is given to seniors and juniors who need courses to graduate. Students who have no transfer credits for political science course work, stop by the political science department office, Arntzen Hall 415, with an unofficial Western Washington University transcript showing the three completed courses from the list above. If you have transfer credits for political science coursework from another institution, also bring an unofficial transcript from that institution showing the political science courses completed.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better

Requirements

- ENVS 204 - Human Geography
- HIST 103 - Introduction to American Civilization: American History to 1865
- HIST 104 - Introduction to American Civilization: American History Since 1865
- HIST 121 - World History to 500
- HIST 123 - World History, 1500 to the Present
- HIST 391 - History of the Pacific Northwest
- PLSC 250 - The American Political System
- One course from:
 - ANTH 201 - Introduction to Cultural Anthropology
 - SOC 221 - Introduction to Population Issues
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
- One course from:
 - ECON 206 - Introduction to Microeconomics
 - ECON 446 - Economics for the Teacher (preferred)
- One course from:
 - ECON 207 - Introduction to Macroeconomics
 - ECON 447 - Methods for Teaching About the National Economy in the Public Schools (preferred)
- One course from:
 - ENVS 221 - Geographic Information Systems Surveyor two additional geography credits

□ 18 additional credits from:

- PLSC 311 - Introduction to Law and Judicial Process
- PLSC 313 - Law and Society
- PLSC 314 - U.S. Supreme Court
- PLSC 345 - Women and Politics
- PLSC 346 - Politics of Inequality
- PLSC 347 - Race, Politics and Public Policy
- PLSC 353 - State and Local Politics
- PLSC 414 - Constitutional Law I: National Powers
- PLSC 415 - Constitutional Law II: Individual Rights
- PLSC 420 - Environmental Politics
- PLSC 421 - Queer/Lesbian, Gay, Bisexual, Transgender Politics
- PLSC 423 - The American Presidency
- PLSC 427 - Policy-Making and Policy Analysis
- PLSC 431 - Senior Seminar in American Politics and Public Policy
- PLSC 449 - Politics and Social Change
- PLSC 450 - Parties, Campaigns and Elections
- PLSC 467 - Philosophical and Ethical Issues in Law
- PLSC 489 - Managing An International Ecosystem Wi

□ 8 credits from:

- PLSC 261 - Introduction to Political Theory
- PLSC 361 - Classical Political Thought
- PLSC 362 - Political Theory: Renaissance and Modern
- PLSC 432 - Senior Seminar - Political Theory
- PLSC 462 - The Rise of Modern Political Economy
- PLSC 463 - American Political Thought
- PLSC 464 - Contemporary Political Theory
- PLSC 469 - Feminist Political Theory
- PLSC 480 - Politics, Government and Religion
- PLSC 493 - Issues in Political Theory

□ 8 credits from:

- PLSC 271 - Introduction to International Relations
- PLSC 291 - Introduction to Comparative Politics
- PLSC 301 - The British Parliamentary System
- PLSC 302 - Western Europe
- PLSC 307 - East Asia
- PLSC 308 - African Political Systems
- PLSC 310 - The International Relations of East Asia
- PLSC 370 - Global Issues in International Politics
- PLSC 372 - International Political Economy

College of Humanities and Social Sciences

Graduate Faculty

Abedi, Amir, PhD, comparative politics, European politics, parties and party systems.

Biswas, Bidisha, PhD, international relations, ethnic and civic conflicts, terrorism, diaspora politics.

Chen, Paul, PhD, law, courts, politics and society, U.S. constitutional law, the Supreme Court.

Deylami, Shirin, PhD. Islamic thought, theories of globalization, religion and politics, contemporary political thought

Donovan, Todd A., PhD, American, state and local, elections and representation.

Horne, Cynthia, PhD, international political economy, comparative political economy, international relations, comparative politics, post-Soviet politics and economics.

Hsueh, Vicki, PhD, political theory, history of political thought, race and ethnicity, colonialism and post-colonialism.

Johnson, Vernon D., PhD, Politics of development, African politics, race and public policy.

Parris, Kristen D., PhD, comparative politics, East Asian politics, development.

Salazar, Debra J., PhD, environmental politics, social movements, statistics.

Singleton, Sara, PhD, American politics, environmental politics, public policy.

Weir, Sara J., PhD, American politics, public policy, gender issues.

Curriculum Coordinator: Dr. Sara Singleton, Political Science, Arntzen Hall 420.

Program Description

The political science/environmental studies curriculum is a joint offering of the Political Science Department and Huxley College of the Environment. The program emphasizes environmental policy and especially the political, economic and social factors which affect environmental policy-making processes.

Admission and prerequisites

Admission requirements and prerequisites are the same as for the MA in Political Science program with additional consideration given to applicants who have a background in environmental studies, natural science, or a related field.

Application Information

Admit Quarter: New students will be admitted to this program fall quarter only. Admission decisions normally will be made no later than March 15. Students should specify their potential thesis topics, and up to two prospective faculty advisors.

Deadlines: To ensure consideration for fall quarter, complete applications must be received by February 1.

Materials supporting graduate applications: All applicants must include a two-page statement of purpose. This statement should explain why the applicant wishes to pursue graduate work in political science. It should also indicate which track and/or field of concentration the applicant intends to pursue. Students should specify their potential thesis topics and list up to two prospective faculty advisors. Students are admitted into the program upon agreement of a faculty advisor. See Political Science Faculty research profiles at http://www.wvu.edu/depts/polsci/pdfs/Graduate_Faculty_Research_Profiles.pdf

Writing Sample. Applicants must submit a writing sample, such as a research paper, or a similar paper demonstrating writing ability.

TA deadline: Preferred consideration will be given to applications completed by February 1.

Specific Test Requirements: Graduate Record Examination, General Test. Applicants with advanced degrees are not required to submit GRE scores.

Program Requirements (45 credits)

- PLSC 501 - Political Science As a Discipline
- PLSC 502 - Research Techniques in Political Science (a graduate course in another department, as determined by the political science department, may be substituted for 502),
- PLSC 524 - Environmental Politics and Policy
 - The core course from one of the fields of concentration:
 - American Politics and Policy:
 - PLSC 503 - Public Policy and Administration
 - PLSC 540 - Seminar in the Political Process
 - Comparative Politics:
 - PLSC 505 - Seminar in Comparative Government and Politics
 - Political Theory:
 - PLSC 560 - Seminar in Political Theory
 - At least one other 500-level course in the same field of concentration
 - Interdisciplinary environmental studies field to be constructed by the student in consultation with environmental studies curriculum coordinator; must include three environmental studies courses
- PLSC 690 - Thesis/Thesis Research or ESTU 690 - Thesis Research
 - Oral defense of the thesis proposal and of the completed thesis
 - Electives: Courses selected under advisement from 400- and 500-level courses in political science and supporting disciplines; no more than 10 credits may come from 400-level courses, and no more than 10 credits of PLSC 500 (directed independent study) are allowed; all elective courses must be approved by the student's program committee.

Political Science, Thesis, MA (In Moratorium)

This program is not currently accepting new students. For more information contact Department of Political Science, Western Washington University, 516 High Street, Bellingham, WA 981225-9082, 360-650-3469; Vernon.Johnson@wwu.edu.

College of Humanities and Social Sciences

Graduate Faculty

Abedi, Amir, PhD, comparative politics, European politics, parties and party systems.

Biswas, Bidisha, PhD, international relations, ethnic and civic conflicts, terrorism, diaspora politics.

Chen, Paul, PhD, law, courts, politics and society, U.S. constitutional law, the Supreme Court.

Deylami, Shirin, PhD. Islamic thought, theories of globalization, religion and politics, contemporary political thought

Donovan, Todd A., PhD, American, state and local, elections and representation.

POLITICAL SCIENCE

Horne, Cynthia, PhD, international political economy, comparative political economy, international relations, comparative politics, post-Soviet politics and economics.

Hsueh, Vicki, PhD, political theory, history of political thought, race and ethnicity, colonialism and post-colonialism.

Johnson, Vernon D., PhD, Politics of development, African politics, race and public policy.

Parris, Kristen D., PhD, comparative politics, East Asian politics, development.

Salazar, Debra J., PhD, environmental politics, social movements, statistics.

Singleton, Sara, PhD, American politics, environmental politics, public policy.

Weir, Sara J., PhD, American politics, public policy, gender issues.

Program Advisor: Dr. Amir Abedi, Arntzen Hall 407

Goals

The program prepares students for:

- Employment in management positions in government, nonprofits and the private sector
- Admission to PhD programs in political science or other social sciences
- Positions in public policy institutes and think tanks

The Master of Arts program offers three fields of concentration: American politics and policy, comparative politics, and political theory. Students choose a major and minor field of concentration for their program.

Students also may specialize in the environmental policy program, which is jointly offered with Huxley College of the Environment. This specialization is intended for students interested in developing a cognate program involving one field of study (of the three offered) in political science and a field in environmental policy-making studies.

Admissions and Prerequisites

Students who meet the requirements of the Graduate School and who show evidence of strong academic performance and scholarly potential are invited to apply. Admission preference is given to students with course work in political science or related social sciences. Entering students should have completed undergraduate course work in American political processes, as well as course work in social science methodology equivalent to PLSC 366, Research in Politics. Any deficiencies must be satisfied during the student's first quarter if possible.

Application Information

Admit Quarter: New students will be admitted to this program fall quarter only. Admission decisions normally will be made no later than March 15. Students should specify their potential thesis topics, and up to two prospective faculty advisors.

Deadlines: To ensure consideration for fall quarter, complete applications must be received by February 1.

Materials supporting graduate applications: All applicants must include a two-page statement of purpose. This statement should explain why the applicant wishes to pursue graduate work in political science. It should also indicate which track and/or field of concentration the applicant intends to pursue. Students should specify their potential thesis topics and list up to two prospective faculty advisors. Students are admitted into the program upon agreement of a faculty advisor. Writing Sample. Applicants must submit a writing sample, such as a research paper, or a similar paper demonstrating writing ability.

TA deadline: Preferred consideration will be given to applications completed by February 1.

Specific Test Requirements: Graduate Record Examination, General Test. Applicants with advanced degrees are not required to submit GRE scores.

Program Requirements: (45 credits)

All students are required to declare a major field and a minor field of concentration and take the core course in each. The student must then complete at least two additional 500-level courses in the major field and one more 500-level course in the minor field, as outlined below:

- PLSC 501 - Political Science As a Discipline
- PLSC 502 - Research Techniques in Political Science (a graduate course in another department, as determined by the political science department, may be substituted for 502)
 - Two of the following courses, one from the major field and one from the minor field of concentration:
 - American Politics and Policy:
 - PLSC 503 - Public Policy and Administration
 - PLSC 540 - Seminar in the Political Process
 - Comparative Politics:
 - PLSC 505 - Seminar in Comparative Government and Politics
 - Political Theory
 - PLSC 560 - Seminar in Political Theory
 - At least two additional 500-level political science courses in the major field of concentration
 - At least one 500-level political science course in the minor field
- PLSC 690 - Thesis/Thesis Research (1-9 credits)
 - Oral defense of the thesis proposal and of the completed thesis
 - Electives: Courses selected under advisement from 400- and 500-level courses in political science and supporting disciplines; no more than 10 credits may come from 400-level courses, and no more than 10 credits of PLSC 500 (directed independent study) are allowed; all elective courses must be approved by the student's program committee

POLITICAL SCIENCE

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Note: PLSC 101 does not count toward minor.

- Two courses from:
 - PLSC 250 - The American Political System
 - PLSC 261 - Introduction to Political Theory
 - PLSC 271 - Introduction to International Relations
 - PLSC 291 - Introduction to Comparative Politics
- At least 10 credits of upper-division courses in political science
- No more than 12 transfer credits in political science courses will be accepted toward the minor

Political Science Courses

PLSC 101 - Government and Politics in the Modern World

Introduction to concepts of politics; types of governments and political problems in the world today.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 250 - The American Political System

Consideration of the system and process of American politics and government with primary focus on the national level.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 261 - Introduction to Political Theory

Major concepts of Western political theory - thematic or historical approach.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

PLSC 271 - Introduction to International Relations

The politics of war, peace, and international economic relations.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 291 - Introduction to Comparative Politics

Basic structures, functions and sociocultural environments of foreign political systems; methods of comparative study.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 301 - The British Parliamentary System

The British parliamentary political system: analysis of British state and political structures and functions; analysis of British political parties; examination of the British service state.

Prerequisites & Notes: PLSC 101 or PLSC 250 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 302 - Western Europe

Governments and politics of selected western European states.

Prerequisites & Notes: PLSC 101 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 307 - East Asia

Survey course covering China, Japan and Korea since the mid-19th century. Not offered every year.

Prerequisites & Notes: PLSC 101 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 308 - African Political Systems

Post-colonial political development in Africa focusing on ideologies and strategies for achieving legitimate government and improved living standards. Several country studies are included to illustrate outcomes associated with different strategies for development.

Prerequisites & Notes: PLSC 101 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 310 - The International Relations of East Asia

The issues of national and human security in the East Asian Region.

Prerequisites & Notes: PLSC 271 or PLSC 291 or PLSC 307
Credits: 5
Grade Mode: Letter

PLSC 311 - Introduction to Law and Judicial Process

Origin and development of basic concepts and practices of law with emphasis upon legal reasoning and values in contemporary societies.

Prerequisites & Notes: PLSC 250; only 1 of PLSC 311, MGMT 271 or FAIR 311B may be taken for GUR credit.
Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 312 - International Relations of South Asia

A survey of the security relations between India, Pakistan and Afghanistan. The course will also relate these countries to US foreign policy goals and interest.

Prerequisites & Notes: PLSC 271
Credits: 4
Grade Mode: Letter

PLSC 313 - Law and Society

An introduction to how law interacts with and is applied to different social and cultural contexts. Specific topics covered may change quarter to quarter. This course presumes a familiarity with basic legal concepts and a rudimentary knowledge of the legal system.

Prerequisites & Notes: PLSC 250; and PLSC 311 or FAIR 211b or MGMT 271
Credits: 5
Grade Mode: Letter

PLSC 314 - U.S. Supreme Court

Introduction to the U.S. Supreme Court as an institution within the American political system. Topics covered include: Court procedures and decision-making, constitutional history, judicial powers and doctrines, and the Court's role in American politics and society. No prior knowledge of the Supreme Court is presumed.

Prerequisites & Notes: PLSC 250; 311 recommended.
Credits: 5
Grade Mode: Letter

PLSC 315 - Why We Fight

This course explores different facets of political violence. Why do states go to war with each other? What, if anything, can the international community do to prevent or stop civil wars? Under what conditions is international humanitarian intervention justified? How have trends in conflict changed in recent years? The course has significant reading and writing components. Students are expected to be familiar with international relations theories and the study of comparative politics.

Prerequisites & Notes: PLSC 250 or PLSC 271
Credits: 4
Grade Mode: Letter

PLSC 325 - Quebec Politics and Quebec-US Relations

This course offers an introduction to Québec politics and Québec-U.S. Relations. Part I uses a historical-institutionalist approach to present the main conceptual and theoretical elements on Québec politics and offers an overview of recent evolution in Quebec's political life. Part II discusses three crucial themes in contemporary Québec politics: the evolution of Québec's identity; the future of Québec's independence movement; and the road ahead for Québec's international relations. Part III shows how Québec and the United States are integrated and offers an overview of the actors and issues in Québec-U.S. relations. Also offered as C/AM 325.

Prerequisites & Notes: PLSC 101 or C/AM 200; or permission of instructor.
Credits: 4
Grade Mode: Letter

PLSC 345 - Women and Politics

The history and ideas of the women's movement; investigation of the changing role of women in American politics including legal status, economic position and political behavior.

POLITICAL SCIENCE

Prerequisites & Notes: PLSC 101 or PLSC 250
Credits: 5
Grade Mode: Letter

PLSC 345S - Women and Politics

The history and ideas of the women's movement; investigation of the changing role of women in American politics including legal status, economic position and political behavior.

Credits: 3
Grade Mode: Letter

PLSC 346 - Politics of Inequality

Survey of the causes and consequences of inequality, particularly economic inequality, and the political, social and economic institutions and processes supporting group subordination, racism, sexism and poverty.

Prerequisites & Notes: PLSC 250
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

PLSC 347 - Race, Politics and Public Policy

The historical and political bases of contemporary racial conflict in the United States.

Prerequisites & Notes: PLSC 250 or equivalent
Credits: 5
Grade Mode: Letter

PLSC 353 - State and Local Politics

Politics of states, urban regions and suburbs. Inter-jurisdictional conflict over growth or development. Federal relations, direct democracy and state policy making.

Prerequisites & Notes: PLSC 250
Credits: 5
Grade Mode: Letter

PLSC 355 - Bureaucratic Politics

This is an introductory examination of the principles, structure, functions and the processes of federal administrative agencies of the United States Government.

Prerequisites & Notes: PLSC 250
Credits: 5
Grade Mode: Letter

PLSC 361 - Classical Political Thought

Exploration of emerging themes in classical political thought, such as Greek, Roman, Judeo-Christian, and Islamic traditions.

Prerequisites & Notes: HIST 111 or LBRL 121 or

PLSC 261 or equivalent.

Credits: 4
Grade Mode: Letter

PLSC 362 - Political Theory: Renaissance and Modern

Exploration of themes in Renaissance and Modern political thought, with particular focus on the nature of freedom, right, individuality, communal obligation, and the rise of the nation-state.

Prerequisites & Notes: HIST 112 or LBRL 121 or PLSC 261 or equivalent.

Credits: 4
Grade Mode: Letter

PLSC 366 - Research in Politics

Fundamentals of research design, including basic methods for the collection and statistical analysis of political and administrative data.

Credits: 5
Grade Mode: Letter

PLSC 370 - Global Issues in International Politics

Problems of global dimensions (population, food, resources, environment, nuclear proliferation, terrorism) and international efforts to solve them.

Prerequisites & Notes: PLSC 271

Credits: 5
Grade Mode: Letter

PLSC 372 - International Political Economy

The politics of international trade, investment, lending and economic development.

Prerequisites & Notes: PLSC 271 or PLSC 291; and any economics course

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PLSC 374 - Comparative Foreign Policy

Discussion and critical analysis of the process by which political elites formulate foreign policy with a specific emphasis on variables that influence foreign policy behavior. The course takes a comparative case study approach to highlight the importance of context in foreign policy behavior by individual states. This is an 'active learning' course which requires students to participate in simulations involving foreign policy crisis.

Prerequisites & Notes: PLSC 250 or PLSC 271.

Credits: 5
Grade Mode: Letter

PLSC 376 - American Foreign Policy

Background and organization of American foreign policy; the conduct of diplomatic relations with other states; current issues and problems in foreign affairs.

Prerequisites & Notes: PLSC 271 or PLSC 291.
Credits: 5
Grade Mode: Letter

PLSC 383 - Political Geography

Discussion and analysis of the geographical basis of power in political decision making. Topics include: territoriality and the state system; geographical bases of political power; spatial perceptions, arrangements and fragmentation and political districting and electoral systems.

Prerequisites & Notes: PLSC 101 or PLSC 250 or PLSC 271 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 390 - The Politics of Development

Political processes in developing countries, colonialism, nationalism, alternative models of political and economic development; problems of instability, military rule, population, famine, debt and other issues confronting developing nations.

Prerequisites & Notes: PLSC 271 or PLSC 291
Credits: 5
Grade Mode: Letter

PLSC 399 - The Politics of Democratization

The domestic and international challenges of democratization.

Prerequisites & Notes: PLSC 271 or PLSC 291.
Credits: 5
Grade Mode: Letter

PLSC 402 - Regional European Society and Politics

Government and society in selected countries from the Scandinavian, Alpine, Benelux and Iberian European regions.

Prerequisites & Notes: PLSC 101 or PLSC 291
Credits: 4
Grade Mode: Letter

PLSC 403 - The European Union and the Process of European Integration

Explores the process of European integration after World War II and the European Union. Topics covered include integration theories, the historical development of the EU, its institutional structure,

as well as various policy areas.

Prerequisites & Notes: None
Credits: 4
Grade Mode: Letter

PLSC 406 - Canadian Government and Politics

Canadian political institutions and process, relations with U.S., current topics including regional tensions, the environment, and First Nations.

Prerequisites & Notes: PLSC 250, PLSC 291 or instructor permission
Credits: 4
Grade Mode: Letter

PLSC 414 - Constitutional Law I: National Powers

Supreme Court decisions interpreting major parts of the Constitution: judicial power; separation of powers; and federalism.

Prerequisites & Notes: PLSC 250 and PLSC 314; and one of PLSC 311, FAIR 211B or MGMT 271
Credits: 5
Grade Mode: Letter

PLSC 415 - Constitutional Law II: Individual Rights

Supreme Court decisions interpreting major parts of the Constitution: Bill of Rights and Fourteenth Amendment.

Prerequisites & Notes: PLSC 250, PLSC 314; and PLSC 311 or FAIR 211B or MGMT 271
Credits: 5
Grade Mode: Letter

PLSC 420 - Environmental Politics

Examination of contending perspectives on environmental problems. Focus on how these perspectives are rooted in political philosophy, their roles in the development of environmental movements, and the implications for public policy. Also offered as ENVS 458.

Prerequisites & Notes: PLSC 101 or PLSC 250
Credits: 5
Grade Mode: Letter

PLSC 421 - Queer/Lesbian, Gay, Bisexual, Transgender Politics

Examines how queer, lesbian, gay, bisexual and transgender (LGBT) citizens have organized to achieve social change. Focuses on how Queer and LGBT movements have engaged in electoral, judicial, legislative, protest and other forms of politics.

POLITICAL SCIENCE

Prerequisites & Notes: PLSC 250 or AMST 242 or instructor permission
Credits: 5
Grade Mode: Letter

PLSC 423 - The American Presidency

The growth of presidential power; the institutionalized presidency and styles of presidential leadership. The president as party leader, policy initiator, chief executive, commander-in-chief and head of foreign relations.

Prerequisites & Notes: PLSC 250
Credits: 3
Grade Mode: Letter

PLSC 427 - Policy-Making and Policy Analysis

Organizational and societal policy-making, and the nature and consequences of policy for various groups and sectors of the polity; the possibility and problems of objective analysis conducted from within the boundaries of the subject political system.

Prerequisites & Notes: PLSC 250
Credits: 4
Grade Mode: Letter

PLSC 430 - Modern Chinese Politics

An introduction to politics and society in modern China: state structures, political culture, state-society relations, policy-making and foreign relations

Prerequisites & Notes: PLSC 291 or equivalent
Credits: 4
Grade Mode: Letter

PLSC 431 - Senior Seminar in American Politics and Public Policy

Capstone seminar in American politics and public policy. Topics vary but emphasis is on political institutions and processes and public policy. Repeatable with various topics to a maximum of 8 credits.

Prerequisites & Notes: Senior status in political science and 30 credits in political science.
Credits: 3-5
Grade Mode: Letter

PLSC 432 - Senior Seminar - Political Theory

Capstone seminar in political theory. Involves reading and research in original sources on topics of central importance to politics. Emphasis is on critical examination and discussion of ideas. Repeatable with various topics to a maximum of 8 credits.

Prerequisites & Notes: Senior status in political science and 30 credits in political science.
Credits: 3-5
Grade Mode: Letter

PLSC 433 - Senior Seminar in Comparative Politics

Capstone seminar in comparative politics. Topics vary but emphasis is on comparative issues and approaches. Repeatable with various topics to a maximum of 8 credits.

Prerequisites & Notes: Senior status in political science and 30 credits in political science.
Credits: 3-5
Grade Mode: Letter

PLSC 434 - Senior Seminar in International Politics

Capstone seminar in international relations. Topics vary but emphasis is on the interactions of state and non-state actors across international boundaries. Repeatable with various topics to a maximum of 8 credits.

Prerequisites & Notes: Senior status in political science and 30 credits in political science.
Credits: 3-5
Grade Mode: Letter

PLSC 435 - Special Topics in Environmental Politics

Analysis of current topics related to environment and politics. Topics vary. Repeatable with various topics to a maximum of 8 credits

Prerequisites & Notes: Senior status in political science and 30 credits in political science.
Credits: 3-5
Grade Mode: Letter

PLSC 436 - Managing Environmental Commons

Explores how political, economic and social institutions affect the management and sustainability of shared environments, both local and global.

Prerequisites & Notes: One upper-division course in political science or instructor permission.
Credits: 5
Grade Mode: Letter

PLSC 443 - Legislative Internship

Internship in the Washington state Legislature during winter quarter; assignment is primarily as research assistant to a legislator. Enrollment limited to the number of internships allocated by the Legislature. Open only to juniors and seniors,

competitively selected. No more than 10 credits of internship may be counted toward the major without the permission of the chair. Repeatable to a maximum of 15 credits.

Credits: 5-15
Grade Mode: Letter

PLSC 444 - Administrative Internships

Internships in administrative agencies and other public service settings. Priority given to seniors. Requests for internships should be filed with the departmental intern coordinator one quarter in advance of registration for this course. No more than 10 credits in internship may be counted toward the major without the permission of the chair. Credit may be divided over two quarters where the internship placement requires a commitment of more than 10 weeks. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: Two courses in appropriate field in discipline
Credits: 3-15
Grade Mode: Letter

PLSC 447 - Teaching Internship

Assists faculty member in conduct of political science course. No more than 10 cr in internship may be counted toward the major without the permission of the chair. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: Two from: PLSC 250, PLSC 261, PLSC 271, PLSC 291 plus 10 upper-division credits in political science.
Credits: 2-5
Grade Mode: Letter

PLSC 448 - Research Internship

Student will work closely with one faculty member, providing assistance with research. Course is structured on an apprenticeship model. Repeatable up to 10 credits.

Prerequisites & Notes: Instructor permission.
Credits: 2-5
Grade Mode: Letter

PLSC 449 - Politics and Social Change

Theories linking social change and politics. The role of ideas and ideology, mass movements, political institutions, social disruption and violence in causing and directing change.

Prerequisites & Notes: PLSC 101 or PLSC 250
Credits: 4
Grade Mode: Letter

PLSC 450 - Parties, Campaigns and Elections

Political parties, voters and voting behavior, candidate and campaign strategy, the resources of politics; workers, money, and mass media.

Prerequisites & Notes: PLSC 250
Credits: 4
Grade Mode: Letter

PLSC 453 - Comparative Electoral Systems

Examines how institutional rules affect party systems, electoral outcomes, prospects for small parties, and fairness in translating votes into seats. Survey of politics of electoral system reform in modern democracies. Not offered every year.

Prerequisites & Notes: PLSC 101, PLSC 291 or PLSC 450
Credits: 4
Grade Mode: Letter

PLSC 462 - The Rise of Modern Political Economy

An examination of the conceptual, ethical, and ideological underpinnings of political economy and the implications for contemporary public policy.

Prerequisites & Notes: PLSC 261 or HIST 113; and ECON 206 or ECON 207 or equivalent
Credits: 4
Grade Mode: Letter

PLSC 463 - American Political Thought

Major concepts in American political thought from the Colonial period to the present.

Prerequisites & Notes: PLSC 261 or HIST 103 or HIST 104 or equivalent
Credits: 4
Grade Mode: Letter

PLSC 464 - Contemporary Political Theory

Contemporary developments, with emphasis on Continental political theory. May also include other contemporary contributions, such as feminist theory and neo-pragmatism.

Prerequisites & Notes: PLSC 261 or any 400-level political theory course
Credits: 4
Grade Mode: Letter

PLSC 467 - Philosophical and Ethical Issues in Law

Philosophical and ethical inquiry into legal issues and problems. Topics covered may include the philosophical and ethical foundations of law; law in relation to justice, morality, and equality; and philosophical and ethical inquiry into specific areas

POLITICAL SCIENCE

or current topics of law (e.g. tort, criminal, property, and/or constitutional law; capital punishment, affirmative action, same-sex marriage, and abortion).

Prerequisites & Notes: PLSC 250, PLSC 311, plus one additional upper-division course in law or political theory.

Credits: 5

Grade Mode: Letter

PLSC 469 - Feminist Political Theory

Early feminists to contemporary theoretical critiques and contributions. Topics such as feminist conceptions of philosophy of science, eco-feminism and post-modernism. Not offered every year.

Prerequisites & Notes: PLSC 261 or any 400-level political theory course

Credits: 4

Grade Mode: Letter

PLSC 480 - Politics, Government and Religion

How political activity and government structures relate to religious perceptions and organizations. Not offered every year.

Prerequisites & Notes: instructor permission

Credits: 4

Grade Mode: Letter

PLSC 489 - Managing An International Ecosystem Wi

A research seminar that examines how economic, environmental, social and political agendas affect the shared international ecosystem - Georgia Basin/Puget Sound. Course focuses on the interests of various stakeholders and the efforts taken to manage the cross-border environmental issues. The course involves cross-border travel and field work and thus participants require a passport. In some years, the course will involve collaborations with students and faculty from Canadian Universities. Also offered as C/AM 489 and ESTU 489.

Prerequisites & Notes: Junior or Senior status.

Credits: 5

Grade Mode: Letter

PLSC 491 - Issues in Political Economy

Discussion and analysis of selected issues of significant political and economic content. Also offered as ECON 491. Not offered every year.

Prerequisites & Notes: senior standing political science/economics combined major or political science major/economics minor

Credits: 4

Grade Mode: Letter

PLSC 493 - Issues in Political Theory

Discussion and analysis of specialized and timely issues in political theory. Possible topics include, but are not limited to: comparative political theory; Islamic political thought; toleration; cosmopolitanism; humanitarian intervention; race, gender, and sexuality; aesthetics and rhetoric. Repeatable up to 8 credits.

Prerequisites & Notes: PLSC 261 or any 400-level political theory course.

Credits: 4

Grade Mode: Letter

PLSC 496 - Honors Tutorial

Repeatable to a maximum of 10 cr.

Credits: 2-5

Grade Mode: Letter

PLSC 496A - Honors Tutorial

Repeatable to a maximum of 10 cr.

Credits: 2-5

Grade Mode: Letter

PLSC 496B - Honors Tutorial

Repeatable to a maximum of 10 cr.

Credits: 2-5

Grade Mode: Letter

PLSC 496C - Honors Tutorial

Repeatable to a maximum of 10 cr.

Credits: 2-5

Grade Mode: Letter

PLSC 501 - Political Science As a Discipline

Study of political science as an academic field; description and critique of subfields trends and challenges.

Credits: 5

Grade Mode: Letter

PLSC 502 - Research Techniques in Political Science

Prerequisites & Notes: PLSC 366 or equivalent

Credits: 5

Grade Mode: Letter

PLSC 503 - Public Policy and Administration

Consideration of current and emerging problems facing public organizations.

Credits: 5
Grade Mode: Letter

PLSC 505 - Seminar in Comparative Government and Politics

Principles of government and politics in existing and developing states.

Credits: 5
Grade Mode: Letter

PLSC 506 - Advanced Topics: Comparative Government and Politics

Advanced comparative consideration of the political systems of selected nation-states. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: instructor and graduate advisor permission

Credits: 5
Grade Mode: Letter

PLSC 521 - Seminar in Public Policy Analysis

Advanced problems in public policy and analysis.

Credits: 3
Grade Mode: Letter

PLSC 524 - Environmental Politics and Policy

Survey of the field of environmental politics and policy. Examination of how political scientists have addressed environmental issues by focusing on questions raised, methods used and conclusions reached. Approach is comparative in examining research on different countries. Also offered as ESTU 524.

Credits: 5
Grade Mode: Letter

PLSC 540 - Seminar in the Political Process

The influence of organizations and individuals in the formation of public policy. Includes study of the role of beliefs in the political process.

Credits: 5
Grade Mode: Letter

PLSC 542 - Public Service Internship

Work as research and management assistant with a local, state or federal government body (executive, legislative or judiciary), political party, interest group or private nonprofit organization. Work-load: 3 hours/week per credit. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: PLSC 501, PLSC 503

Credits: 1-10
Grade Mode: Letter

PLSC 560 - Seminar in Political Theory

Function and history of political theory; the crisis in traditional theory; emerging trends. Repeatable to a maximum of 10 credits.

Credits: 5
Grade Mode: Letter

PLSC 570 - Special Problems in Political Science

The consideration of special problems and the conduct of independent study under the guidance and supervision of a faculty member. Repeatable to a maximum of 15 cr.

Credits: 1-5
Grade Mode: Letter

PLSC 690 - Thesis/Thesis Research

Repeatable to a maximum of 9 cr.

Credits: 1-9
Grade Mode: Letter

Psychology

Introduction

Most of the major problems facing the people of the world today — hunger, overpopulation, the continuing threat of war, prejudice, pollution, drug addiction — are people problems; people have created them, and it will be people who must and will find solutions to them. Psychology, as the scientific study of mind and behavior, will help provide the answers to many of these pressing problems.

Psychology's attempt to understand the human condition takes many approaches. Some psychologists study brain chemistry and its relation to behavior, while others study the behavior of individuals in groups (for example, in a religious cult). Still others are engaged in providing counseling or psychotherapy to people who are mentally ill or who are having difficulty in coping with the demands of life. With a faculty of 28 men and women, all of whom hold doctoral degrees, the department is able to offer a program of study which provides a solid foundation in the general concepts and methods of psychology, as well as courses and programs for students in many of the more specialized areas of this large and exciting field.

The Department of Psychology has limited the number of credits required for a major in psychology so that students may develop minors or a second major in another department. The core program in general psychology is designed to ensure that all majors will develop a sound basic background in psychology which will provide effective preparation for advanced study as well as contribute significantly to a liberal education.

A very important kind of learning takes place when students become personally involved in psychological research. Students are encouraged to become active participants in their own research projects or to cooperate with a faculty member in his or her ongoing research. It also is recommended that students seek participation in one of the off-campus field experiences which are available.

In addition to its undergraduate offerings, the department also offers three graduate programs, an MS in experimental psychology with an optional specialization in measurement, evaluation, and statistical analysis (MESA); an MS in mental health counseling; and an MEd in school counseling. Complete descriptions of these programs may be found in the Graduate School section of this catalog.

Faculty

LAWRENCE A. SYMONS (2000) Chair and Associate Professor. BA, MA, University of British Columbia; PhD, University of Western Ontario.

ROBINDER P. BEDI (2008) Associate Professor BA, MA, Simon Fraser University, PhD, University of British Columbia

CHRISTINA A. BYRNE (1997) Associate Professor. BS, Virginia Commonwealth University; MS, PhD, University of Georgia.

JEFFREY B. CARROLL (2012) Assistant Professor. BS, PhD, University of British Columbia.

ANNA C. CIAO (2014) Assistant Professor. BA, Trinity University; MA, PhD, University of Hawaii-Mānoa.

ALEXANDER M. CZOPP (2008) Associate Professor BA, St. Mary's College of Maryland, MS, PhD, University of Kentucky

JENNIFER DEVENPORT (2003) Associate Professor. BA, Boise State University; MS, PhD, Florida International University; MLS, University of Nebraska.

DALE L. DINNELL (1986) Professor. BS, MAT, MA, PhD, University of Nebraska.

JANET M. FINLAY (1999) Associate Professor. BS, University of Victoria; PhD, University of British Columbia.

DEBORAH K. FORGAYS (1994) Professor. BA, MEd, PhD, University of Vermont.

JAMES GRAHAM (2006) Associate Professor. BA, Purdue University; MA, Pepperdine University; PhD, Texas A&M University.

REBECCA GOODVIN (2007) Associate Professor. BA, Gonzaga University; MA, PhD, University of Nebraska.

JEFFREY W. GRIMM (2001) Professor. BA, Whitman College; MS, PhD, Washington State University.

DIANA GRUMAN (2003) Associate Professor. BA, Whitman College; MEd, Western Washington University; PhD, University of Washington.

TODD HASKELL (2006) Associate Professor. BA, Dartmouth College; PhD, University of Southern California.

IRA E. HYMAN, JR. (1991) Professor. BA, Duke University; MA, PhD, Emory University.

KELLY J. JANTZEN (2007) Associate Professor. BA, PhD, Simon Fraser University.

MCNEEL GORDON JANTZEN (2009) Assistant Professor. BA, MA, PhD, Florida Atlantic University.

JEFF KING (2007) Professor. BA, University of Oklahoma; MS, PhD, Pennsylvania State University.

BARBARA J. LEHMAN (2005) Associate Professor. BA, Drew University; MA, PhD, Claremont Graduate University.

KRISTI M. LEMM (2000) Associate Professor. BA, Columbia University; MS, PhD, Yale University.

LUCY D. LEWIS (2013) Assistant Professor. BA, MS, Ed S, PhD, University of North Carolina.

MICHAEL J. MANA (1999) Associate Professor. BS, Washington State University; MA, PhD, University of British Columbia.

ADRIANA M. MANAGO (2012) Assistant Professor. BS, West Virginia University; MA, San Jose State University; PhD, University of California, Los Angeles.

KATE C. McLEAN (2007) Associate Professor. BA, Mills College; PhD, University of California-Santa Cruz.

CATHERINE A. RIORDAN (2009) Professor. BS, Eastern Michigan University; PhD, State University of New York at Albany.

JACQUELINE ROSE (2008) Assistant Professor. BS, University of Calgary; MA, Queen's University; PhD, University of British Columbia.

TINA DU ROCHER SCHUDLICH (2006) Assistant Professor. BA, University of Michigan; MA, PhD, University of Notre Dame.

CRISTINA SAMPAIO (2006) Associate Professor. PhD, University of Illinois at Urbana-Champaign.

DAVID N. SATTLER (2000) Professor. BA, San Diego State University; MA, PhD, Michigan State University.

JOSEPH E. TRIMBLE (1978) Professor. BA, Waynesburg College; MA, University of New Hampshire; PhD, University of Oklahoma; RF, Radcliffe Institute, Harvard University.

Declaration Process

Students wishing to declare a major in psychology must have:

1. completed at least 75 credits;
2. successfully completed or be currently enrolled in Psy 301;
3. achieved a Western GPA (based on at least 12 credits) of 2.70 or higher. A GPA of 3.0 in all psychology courses taken at Western, including PSY 301, may substitute for the overall 2.70 GPA.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA in psychology within four years should have completed an introductory psychology class (e.g., PSY 101 or a comparable course at another school) and 15 other credits in psychology by the start of their junior year.

Graduate Study

For concentrations leading to the Master of Education or the Master of Science degrees, see the Graduate School section of this catalog.

Bachelor of Arts

Behavioral Neuroscience, BA

Combined major offered by the Department of Psychology, College of Humanities and Social Sciences and the Department of Biology, College of Science and Engineering.

106-109 credits

Introduction

Behavioral neuroscience explores the role of the nervous system in normal and abnormal behavior, thought and emotion. For example, Behavioral Neuroscientists study the biological basis of normal learning and memory as well as psychiatric illnesses such as depression, schizophrenia and drug abuse.

Why Consider a Behavioral Neuroscience Major?

This interdisciplinary program provides students with the specialized preparation and technological sophistication critical for success in a variety of graduate-training programs, including neuroscience, psychology, pharmacology, mental health, and neurobiology; and in health care, including medicine and dentistry. For those students who do not anticipate pursuing post-graduate education, the degree program provides an excellent platform for entry-level positions in such areas as biomedical research and the pharmaceutical industry.

Sample Careers

Neuroscientist | Biomedical Researcher | Psychiatrist | Medical Doctor | Dentist | Pharmacist | Veterinarian | Physician Assistant | Pharmaceutical Sales

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major courses.

Requirements

Basic Requirements:

- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
- BIOL 205 - Introduction to Cellular and Molecular Biology
- BIOL 206 - Introduction to Organismal Biology
- BIOL 321 - Genetics
- BIOL 323 - Cell and Molecular Biology
- BIOL 432 - Evolutionary Biology
- CHEM 121 - General Chemistry I
- CHEM 122 - General Chemistry II
- CHEM 123 - General Chemistry III
- CHEM 251 - Elementary Organic Chemistry or equivalent
- MATH 114 - Precalculus I
- PSY 101 - Introduction to Psychology

- PSY 220 - Behavioral Neuroscience
- PSY 301 - Overview of Research Methods
- PSY 303 - Research Methods and Statistical Analysis: Experimental Approaches
- PSY 319 - Cognitive Neuroscience
- PSY 320 - Topics in Behavioral Neuroscience
- PSY 323 - Psychopharmacology
- PSY 328 - Techniques in Behavioral Neuroscience
- One course from:
 - BIOL 410 - Animal Behavior
- PSY 321 - Learning
- PSY 324 - Comparative Psychology
- Seminar Requirements (3-5 credits)**
 - BIOL 410 - Animal Behavior (can be applied to Basic OR Seminar requirement, not both)
 - BIOL 476 - The Structural Basis of Membrane Transport Proteins
 - BIOL 486 - Topics in Molecular Mechanisms of Neurodevelopment
 - PSY 410 - Seminar in Cognitive Neuroscience
 - PSY 420 - Seminar in Behavioral Neuroscience
 - PSY 421 - Seminar in Learning
 - PSY 422 - Seminar in Motivation
 - PSY 424 - Seminar in Comparative Psychology
- Electives under advisement (10 credits)**
 - BIOL 322 - Genetics Lab
 - BIOL 324 - Methods in Molecular Biology
 - BIOL 325 - Ecology
 - BIOL 410 - Animal Behavior
 - BIOL 467 - Comparative Vertebrate Physiology
 - BIOL 468 - Comparative Vertebrate Physiology Laboratory
 - BIOL 476 - The Structural Basis of Membrane Transport Proteins
 - BIOL 482 - Developmental Biology of Animals
 - BIOL 484 - Cell Biology Laboratory
 - BIOL 486 - Topics in Molecular Mechanisms of Neurodevelopment
 - BIOL 497
 - CHEM 375 - Elements of Biochemistry
 - CHEM 471 - Biochemistry I
 - CHEM 472 - Biochemistry II
 - PSY 210 - Cognition
 - PSY 302 - Research Methods and Statistical Analysis: Correlational Approaches
 - PSY 310 - Sensation and Perception
 - PSY 322 - Motivation
 - PSY 327 - Cognitive Neuroscience Lab
 - PSY 410 - Seminar in Cognitive Neuroscience
 - PSY 420 - Seminar in Behavioral Neuroscience
 - PSY 421 - Seminar in Learning
 - PSY 422 - Seminar in Motivation
 - PSY 424 - Seminar in Comparative Psychology
 - PSY 428 - Advanced Techniques in Behavioral Neuroscience
- One course from:
 - BIOL 300
- BIOL 395 - Biology Research Participation
- BIOL 400
- BIOL 494 - Biology Research
- BIOL 495 - Research Communication
- One course from:
 - PSY 300
 - PSY 400

PSYCHOLOGY

Additional Information

A maximum combined total of 10 credits in PSY 300, 400 or BIOL 300, 395, 400, 494, 495 can be applied to the major.

Faculty Advisors: Biology: Roger Anderson; Psychology: Jeff Carroll, Janet Finlay, Jeffrey Grimm, Kelly Jantzen, McNeel Jantzen, Mike Mana, Jacqueline Rose

Bachelor of Arts in Education

Psychology: Human Development – Elementary, BAE

Department of Psychology, College of Humanities and Social Sciences

59-60 credits

Introduction

Psychology's attempt to understand the human condition takes many approaches. Some psychologists study brain chemistry and its relation to behavior, while others study the behavior of individuals in groups. Still others are engaged in providing counseling or psychotherapy to people who are mentally ill or who are having difficulty in coping with the demands of life. With a faculty of over 30 women and men, all of whom hold a doctoral degree; the Department offers a program of study which provides a solid foundation in the general concepts and methods of Psychology, as well as courses and programs for students in many of the more specialized areas.

The program in Psychology: Human Development is designed to provide students in the Elementary Education program with an in-depth understanding of theory, research, and application in developmental psychology, and a sound background in general psychology. The program is designed to allow students flexibility in selecting psychology courses with the assistance of their advisor.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Psychology: Human Development - Elementary Major?

Many of the major issues facing children and schools today – school readiness, achievement motivation, testing, classroom behavior, stereotyping, bullying, family and neighborhood stressors – are issues of human psychology. Psychology, as the scientific study of mind and behavior, will help provide answers to these problems, as well as contribute to the scientific understanding of how children best think and learn.

How to Declare (Admission and Declaration Process):

Pre-Major: To be eligible, students must have completed 15 credits in Psychology with a minimum of 5 credits at Western.

Admissions:

Contact the department to declare the major once you have completed the following requirements:

- Completed a total of at least 75 credits
- Successfully completed or be currently enrolled in PSY 301
- Achieved a Western Cumulative GPA (based on at least 12 credits) of 2.70 or higher
- A GPA of 3.0 in all Psychology courses taken at Western, including PSY 301, may substitute for the cumulative GPA

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

Requirements

- PSY 101 - Introduction to Psychology
- Three courses from:
 - PSY 210 - Cognition
 - PSY 220 - Behavioral Neuroscience
 - PSY 240 - Social Psychology
 - PSY 250 - Introduction to Abnormal Psychology
- PSY 230 - Lifespan Developmental Psychology
- PSY 301 - Overview of Research Methods
- Three upper division courses from the list below:
 - PSY 302 - Research Methods and Statistical Analysis: Correlational Approaches
 - PSY 303 - Research Methods and Statistical Analysis: Experimental Approaches
 - PSY 310 - Sensation and Perception
 - PSY 311 - Human Memory
 - PSY 318 - Psychology of Language
 - PSY 319 - Cognitive Neuroscience
 - PSY 320 - Topics in Behavioral Neuroscience
 - PSY 322 - Motivation
 - PSY 323 - Psychopharmacology
 - PSY 324 - Comparative Psychology
 - PSY 331 - Adult Development and Aging
 - PSY 340 - Environmental Psychology
 - PSY 341 - Psychology and Culture
 - PSY 342 - Social Cognition
 - PSY 343 - Social Processes
 - PSY 344 - Psychology and the Law

PSYCHOLOGY

- PSY 345 - Evolutionary Psychology
- PSY 346 - Stereotyping, Prejudice, & Discrimination
- PSY 351 - Abnormal Psychology and Interventions
- PSY 359 - Introduction to School and Mental Health Counseling
- PSY 375 - Health Psychology
- PSY 376 - Psychology of Romantic Relationships
- PSY 377 - Positive Psychology
- PSY 378 - Personality Psychology
- Three courses from:
 - PSY 274 - Psychology of Child Rearing
 - PSY 330 - Child Development
 - PSY 332 - Adolescent Development
 - PSY 333 - Infant Development

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- □ ELED 303 - Educational Psychology - Development and Learning
- □ ELED 310 - Education, Culture, and Equity
- □ ELED 370 - Introduction to Teaching
- □ I T 344 - Basic Instructional Technology Skills
- □ I T 442 - Classroom Use of Instructional Technology (Elementary)
- □ SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators

- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - □ ELED 425 - Social Studies for the Elementary School
 - □ ELED 470 - Developing Teaching
 - □ ELED 471 - Documenting Teaching
 - □ ELED 480 - Literacy: Beginning Communicators
 - □ ELED 481 - Literacy: Fluent Communicators
 - □ ELED 491 - September Experience
 - □ ELED 492 - Practicum: Experience in Literacy Methods
 - □ ELED 494 - Internship - Elementary
 - □ HLED 455 - Health Education Grades K-8
 - □ MATH 381 - Teaching K-8 Mathematics I
 - □ MATH 382 - Teaching K-8 Mathematics II
 - □ MATH 383 - Teaching K-8 Mathematics III
 - □ MATH 491 - Internship Seminar - Teaching K-8 Mathematics
 - □ PE 345 - Physical Education for Elementary School
 - □ SCED 480 - Science Methods and Curriculum for the Elementary School
 - □ SCED 490 - Laboratory/Field Experience in Elementary Science

Bachelor of Science

Psychology, BS

Department of Psychology, College of Humanities and Social Sciences

74 credits

Introduction

Psychology's attempt to understand the human condition takes many approaches. Some psychologists study brain chemistry and its relation to behavior, while others study the behavior of individuals in groups. Still others are engaged in providing counseling or psychotherapy to people who are mentally ill or who are having difficulty in coping with the demands of life. With a faculty of more than 30 people, the department offers a program of study which provides a solid foundation in the general concepts and methods of Psychology, as well as courses and programs for students in many of the more specialized areas.

The core program in general psychology is designed to ensure that all students majoring psychology will develop a sound basic preparation for advanced study, have a solid grounding in psychological research and the real world applications of research findings in the field. The program is designed to allow students flexibility in selecting courses with the assistance of their advisor. However, the design of the major ensures that each Psychology major has direct experience with research methodology, from the theoretical underpinnings through research design, implementation and data analysis, and finally to a manuscript of the entire research project.

Why Consider a Psychology Major?

Most of the major issues facing the people of the world today - hunger, overpopulation, the continuing threat of war, prejudice, pollution, drug addiction - are people problems; people have created them, and it will be

PSYCHOLOGY

people who must and will find solutions to them. Psychology, as the scientific study of mind and behavior, will help provide the answers to many of these pressing problems.

Undergraduate Advising: Upon major declaration, students are assigned a faculty advisor who works the student to develop a plan of study that meets the student's academic and career goals.

Major/Career Resources

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

To declare a major in psychology, a student must have the following:

1. Completed at least 75 credits;
2. Successfully completed or be currently enrolled in Psychology 301;
3. Achieved a Western GPA (based on at least 12 credits) of 2.70 or higher. A GPA of 3.0 or higher in Western Psychology courses, including Psychology 301, may substitute for the overall 2.70 GPA.

Beginning of the third week of each quarter, an email is sent to students currently taking PSY 301 with instructions on how to declare the major. Professors teaching PSY 301 also make an announcement in their class. Student should declare the major prior to the Phase I date of registration for the following quarter.

In special cases, it may be possible to declare the major at other times as well (for example, you may not have the required GPA at the normal time for declaring, but you do achieve that GPA at the end of the quarter. You will then be able to declare at that time).

If you have met the requirements for declaring the major (see the section above), visit the Psychology Department office (Academic Instruction Center 434) and fill out the application for the major form.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- PSY 101 - Introduction to Psychology
- PSY 210 - Cognition
- PSY 220 - Behavioral Neuroscience
- PSY 230 - Lifespan Developmental Psychology
- PSY 240 - Social Psychology
- PSY 250 - Introduction to Abnormal Psychology
- PSY 301 - Overview of Research Methods
- PSY 302 - Research Methods and Statistical Analysis: Correlational Approaches
- PSY 303 - Research Methods and Statistical Analysis: Experimental Approaches
- One course from:

- PSY 310 - Sensation and Perception
- PSY 311 - Human Memory
- PSY 318 - Psychology of Language
- PSY 319 - Cognitive Neuroscience
- PSY 320 - Topics in Behavioral Neuroscience
- PSY 321 - Learning
- PSY 322 - Motivation
- PSY 323 - Psychopharmacology
- PSY 324 - Comparative Psychology
- One course from:
 - PSY 330 - Child Development
 - PSY 331 - Adult Development and Aging
 - PSY 332 - Adolescent Development
 - PSY 333 - Infant Development
 - PSY 340 - Environmental Psychology
 - PSY 341 - Psychology and Culture
 - PSY 342 - Social Cognition
 - PSY 343 - Social Processes
 - PSY 344 - Psychology and the Law
 - PSY 345 - Evolutionary Psychology
 - PSY 346 - Stereotyping, Prejudice, & Discrimination
 - PSY 351 - Abnormal Psychology and Interventions
- One 300-level course (in addition to the two 300-level courses above) from:
 - PSY 310 - Sensation and Perception
 - PSY 311 - Human Memory
 - PSY 318 - Psychology of Language
 - PSY 319 - Cognitive Neuroscience
 - PSY 320 - Topics in Behavioral Neuroscience
 - PSY 321 - Learning
 - PSY 322 - Motivation
 - PSY 323 - Psychopharmacology
 - PSY 324 - Comparative Psychology
 - PSY 330 - Child Development
 - PSY 331 - Adult Development and Aging
 - PSY 332 - Adolescent Development
 - PSY 333 - Infant Development
 - PSY 340 - Environmental Psychology
 - PSY 341 - Psychology and Culture
 - PSY 342 - Social Cognition
 - PSY 343 - Social Processes
 - PSY 344 - Psychology and the Law
 - PSY 345 - Evolutionary Psychology
 - PSY 346 - Stereotyping, Prejudice, & Discrimination
 - PSY 351 - Abnormal Psychology
 - PSY 375 - Health Psychology
 - PSY 376 - Psychology of Romantic Relationships
 - PSY 377 - Positive Psychology
 - PSY 378 - Personality
- One course each from two of the following five content seminars:
 (Students must complete the Research Methods/Statistics series [PSY 301-303] BEFORE taking the 400 level Content Seminars (Cognitive, Behavioral, Neuroscience, Developmental, Social, Abnormal). PSY 481 or 482 may be taken concurrently with PSY 303. Students complete research projects in every content seminar).
 - Cognitive:**
 - PSY 410 - Seminar in Cognitive Neuroscience
 - PSY 411 - Seminar in Cognition

PSYCHOLOGY

Behavioral Neuroscience:

- PSY 420 - Seminar in Behavioral Neuroscience
- PSY 421 - Seminar in Learning
- PSY 422 - Seminar in Motivation
- PSY 424 - Seminar in Comparative Psychology

Development:

- PSY 430 - Seminar in Developmental Psychology
- PSY 431 - Seminar in Adult Development and Aging

Social:

- PSY 440 - Seminar in Environmental Psychology
- PSY 441 - Seminar in Cross-Cultural Psychology
- PSY 442 - Seminar in Social Psychology

Abnormal:

- PSY 451 - Seminar in Abnormal Psychology
- One course from:
 - PSY 481 - Seminar in History and Systems of Psychology
 - PSY 482 - Seminar in Psychological Theory

Master of Education

School Counselor, Non-Thesis, MEd

College of Humanities and Social Sciences

Graduate Faculty

Bedi, Robinder P., PhD, counseling relationships/process/outcomes, substance abuse and dependence, depression.

Byrne, Christina, PhD, psychological trauma and intimate partner violence.

Carroll, Jeffrey B., PhD, behavioral neuroscience, molecular basis of metabolic dysfunction in Huntington's Disease.

Ciao, Anna C., PhD, risk factors for developing eating and weight concerns, eating disorder and obesity prevention and early intervention, barriers to seeking psychological treatments, dissemination of evidence-based interventions.

Czopp, Alexander M., PhD, negative implications for intergroup relations of "positive" stereotypes of groups, prejudice reduction through interpersonal confrontation.

Devenport, Jennifer, PhD, legal psychology, jury decision-making, factors influencing erroneous eyewitness identifications.

Dinnel, Dale L., PhD, school and home environment and achievement motivation, personality correlates of happiness and well-being.

Du Rocher Schudlich, Tina, PhD, developmental psychopathology, marital conflict and children, parent-child emotion regulation.

Finlay, Janet M., PhD, behavioral neuroscience, biological basis of psychiatric illness.

Forgays, Deborah K., PhD, adolescent development, women's health issues, women and anger across development.

Goodvin, Rebecca, PhD, early socioemotional development, self-concept, parent-child attachment and communication.

Graham, James, PhD, adaptive processes in romantic relationships, romantic love, measurement, multivariate statistics.

Grimm, Jeffrey W., PhD, animal models of drug taking and drug seeking, neurobiology of drug taking and drug seeking.

Gruman, Diana, PhD, school counseling, child and adolescent development, educational psychology.

Haskell, Todd, PhD, language, visual and auditory perception, cognition.

Hyman, Ira, PhD, memory, cognitive psychology, social cognition.

Jantzen, Kelly J., PhD, behavioral and cognitive neuroscience, human environment interactions.

Jantzen, McNeel Gordon, PhD, speech perception, speech production, phonological learning, neural reorganization of language.

King, Jeff, PhD, cross-cultural psychology, healing processes, ethnic identity.

Lehman, Barbara, PhD, childhood family environment and social/psychological health, research methods and statistics.

Lemm, Kristi, PhD, implicit attitudes.

Lewis, Lucy, PhD, school counseling, social media influences on school adjustment, ethnic identity development and refugee youth.

Mana, Michael, PhD, behavioral neuroscience, electrophysiological activity in the locus coeruleus, effects of chronic stress on the central nervous system, development of tolerance to drugs.

Manago, Adriana, PhD, adolescent and emerging adult development in the context of culture change and the Digital Age, Latino youth in the U.S. and indigenous Maya youth in Mexico, peer relations, gender and sexual development

McLean, Kate, PhD, adolescent identity development.

Riordan, Catherine A., PhD, social and organizational psychology, with particular focus on leadership and change in organizations.

Rose, Jacqueline K., PhD, molecular mechanisms of learning, memory, and plasticity.

Sampaio, Cristina, PhD, mechanisms and processes of memory, representations, memory errors, metacognition.

Sattler, David, PhD, natural disasters, social dilemmas, small group research.

Symons, Lawrence, PhD, perception.

Trimble, Joseph E., PhD, social, cross-cultural.

Program Advisor: Dr. Diana Gruman, Academic Instructional Center 596

Program Description

The MEd school counseling program prepares professional counselors for employment in educational settings and is designed for those students intending to apply for the state educational staff associate certificate endorsed in school counseling at the elementary and secondary levels. Certification as a public school teacher is not required for admission to the program. The school counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), and the National Council for Accreditation of Teacher Education (NCATE).

The program contains a thesis option for those students interested in pursuing a research project related to the degree program.

Goals

The program prepares knowledgeable, skilled, culturally sensitive, and ethical professional counselors who meet the relevant licensing or credentialing standards for practice in mental health and public and private educational settings in the State of Washington.

Prerequisites

The following specific courses are required for those who do not have a degree in psychology: introductory psychology, statistics, abnormal psychology, and child/adolescent development. Deficiencies in prerequisites may be completed after program admission, but must be completed prior to first enrollment.

Application Information

Deadlines: Program faculty will begin reviewing application materials after February 1 and will continue to review materials until the enrollment limit is reached or June 1, whichever comes first. Because maximum student enrollment in the program is limited, all applicants are strongly encouraged to submit application materials by February 1. All prerequisites must be completed prior to fall quarter enrollment. Documentation

PSYCHOLOGY

of personal suitability of applicants for counseling is required through a statement of purpose with specific questions, letters of reference and interviews where possible.

TA Deadline: To be considered for a graduate teaching assistantship, applicants must have their application materials submitted by February 1.

Specific Test Requirements: Graduate Record Exam, General Test required; subject in psychology recommended; test scores are not required if an applicant holds an advanced degree

Program Requirements (83 credit minimum)

All students in the school counseling program must complete the following courses:

- PSY 502 - Adult Psychopathology
- PSY 504 - Lifespan Psychological Development
- PSY 532 - Cross-Cultural Counseling
- PSY 542 - Developmental Psychopathology
- PSY 550 - Research Methods in Counseling
- PSY 551 - Developmental School Counseling
- PSY 553 - Theories of Counseling and Psychotherapy
- PSY 554 - Standardized Tests
- PSY 555 - Occupations and Career Development
- PSY 556 - The Role of the School Counselor
- PSY 557 - Testing and Appraisal in Counseling
- PSY 558 - Family and Couple Counseling
- PSY 560 - Family Counseling Lab
- PSY 561 - Seminar: Professional, Legal and Cultural Issues
- PSY 564 - Individual Counseling Techniques
- PSY 565 - Group Processes in Counseling
- PSY 570 - Practicum (4-15 credits)
- PSY 670 - Internship (18-30 credits)
- Electives: 4 elective credits from 400- and 500-level courses in psychology and/or education, to be selected with permission of advisor and instructor
- Written Examinations: Each student is required to satisfactorily write an area comprehensive exam; for information contact the program advisor.

Additional Information

Retention

The department has requirements affecting retention in the School Counseling Program which are in addition to the Graduate School scholarship standards. Full, continuing enrollment in the required courses must be maintained. Grades lower than C- are unacceptable. More than 10 credits of C+ or lower grades removes a student from the master's program. Any course in which an unacceptable grade is earned may be re-taken only with permission of the admission/retention subcommittee, following consultation with the program advisor. It is necessary to maintain at least a 3.00 (B) grade point average for all graded work in order to be retained in the program. Retention in the school counseling program is also dependent upon the development of professional competence in interaction with clients and other professionals. Development of professional counseling competencies is monitored and evaluated on a quarterly basis by the Counseling Program Committee of the Department of Psychology.

Program Advisor: Dr. Christina Byrne, Academic Instructional Center 474

Program Description

The MS Mental Health Counseling program prepares students for careers in the field of mental health and is accredited by CACREP. The program provides a general foundation in theoretical and applied perspectives which are used by mental health professionals. Special emphasis is placed on skill development, supervised practica with adults, children, and families, and on-site internships in various community and mental health clinics. Exposure to crosscultural counseling strategies is an important component of the curriculum.

Goals

The program prepares knowledgeable, skilled, culturally sensitive, and ethical professional counselors who meet the relevant licensing or credentialing standards for practice in mental health and public and private educational settings in the State of Washington.

Prerequisites

Courses in introductory psychology and statistics and research design are required. The following courses are strongly recommended: one course in abnormal or personality; one course in social or developmental; two courses from learning, sensation, perception, motivation and physiological/behavioral neuroscience; a course in the history and systems of psychology or in philosophy of science.

Application Information

Deadlines: Program faculty will begin reviewing application materials after February 1 and will continue to review materials until the enrollment limit is reached or June 1, whichever comes first. Because maximum student enrollment in the program is limited, all applicants are strongly encouraged to submit application materials by February 1. Documentation of personal suitability of applications for counseling is required through a statement of purpose with specific questions and letters of reference. Top-ranked applicants will be invited to interview.

TA Deadline: To be considered for a graduate teaching assistantship, applicants must submit their application materials by February 1.

Specific Test Requirements: Graduate Record Examination, General required; subject in psychology recommended; no test scores are required if an applicant holds an advanced degree.

Program Requirements (91 credits)

□ Required Courses:

- PSY 502 - Adult Psychopathology
- PSY 504 - Lifespan Psychological Development
- PSY 512 - Correlation Methods and Data Analysis
- PSY 532 - Cross-Cultural Counseling
- PSY 542 - Developmental Psychopathology
- PSY 550 - Research Methods in Counseling (3 credits)
- PSY 553 - Theories of Counseling and Psychotherapy
- PSY 554 - Standardized Tests
- PSY 555 - Occupations and Career Development
- PSY 557 - Testing and Appraisal in Counseling
- PSY 558 - Family and Couple Counseling
- PSY 560 - Family Counseling Lab (3 credits)
- PSY 561 - Seminar: Professional, Legal and Cultural Issues
- PSY 564 - Individual Counseling Techniques
- PSY 565 - Group Processes in Counseling
- PSY 567 - Professional Practice of Counseling
- PSY 570 - Practicum (4-15 credits)
- PSY 670 - Internship (24-30 credits)

□ All students must complete either:

- PSY 503 - Cognition or
- PSY 505 - Social Psychology

Written Examination: Each student choosing the non-thesis option is required to satisfactorily write an area comprehensive exam. For information, contact the program advisor.

Retention Requirements

The department has requirements affecting retention in the Mental Health Counseling Program which are in addition to the Graduate School scholarship standards. Full, continuing enrollment in the required courses must be maintained. Grades lower than C- are unacceptable. More than 10 credits of C+ or lower grades removes a student from the master's program. Any course in which an unacceptable grade is earned may be retaken only with permission of the admission/retention subcommittee, following consultation with the program advisor. It is necessary to maintain at least a 3.00 (B) grade point average for all graded work in order to be retained in the program. Retention in the mental health counseling curriculum is also dependent upon the development of professional competence in interaction with clients and other professionals. Development of professional counseling competencies is monitored and evaluated on a quarterly basis by the Counseling Program Committee of the Department of Psychology.

College of Humanities and Social Sciences

Graduate Faculty

Bedi, Robinder P., PhD, counseling relationships/process/outcomes, substance abuse and dependence, depression.

Byrne, Christina, PhD, psychological trauma and intimate partner violence.

Carroll, Jeffrey B., PhD, behavioral neuroscience, molecular basis of metabolic dysfunction in Huntington's Disease.

Ciao, Anna C., PhD, risk factors for developing eating and weight concerns, eating disorder and obesity prevention and early intervention, barriers to seeking psychological treatments, dissemination of evidence-based interventions.

Czopp, Alexander M., PhD, negative implications for intergroup relations of "positive" stereotypes of groups, prejudice reduction through interpersonal confrontation.

Devenport, Jennifer, PhD, legal psychology, jury decision-making, factors influencing erroneous eyewitness identifications.

Dinnel, Dale L., PhD, school and home environment and achievement motivation, personality correlates of happiness and well-being.

Du Rocher Schudlich, Tina, PhD, developmental psychopathology, marital conflict and children, parent-child emotion regulation.

Finlay, Janet M., PhD, behavioral neuroscience, biological basis of psychiatric illness.

Forgays, Deborah K., PhD, adolescent development, women's health issues, women and anger across development.

Goodvin, Rebecca, PhD, early socioemotional development, self-concept, parent-child attachment and communication.

Graham, James, PhD, adaptive processes in romantic relationships, romantic love, measurement, multivariate statistics.

Grimm, Jeffrey W., PhD, animal models of drug taking and drug seeking, neurobiology of drug taking and drug seeking.

Gruman, Diana, PhD, school counseling, child and adolescent development, educational psychology.

Haskell, Todd, PhD, language, visual and auditory perception, cognition.

Hyman, Ira, PhD, memory, cognitive psychology, social cognition.

Jantzen, Kelly J., PhD, behavioral and cognitive neuroscience, human environment interactions.

Jantzen, McNeel Gordon, PhD, speech perception, speech production, phonological learning, neural reorganization of language.

King, Jeff, PhD, cross-cultural psychology, healing processes, ethnic identity.

Lehman, Barbara, PhD, childhood family environment and social/psychological health, research methods and statistics.

Lemm, Kristi, PhD, implicit attitudes.

Lewis, Lucy, PhD, school counseling, social media influences on school adjustment, ethnic identity development and refugee youth.

Mana, Michael, PhD, behavioral neuroscience, electrophysiological activity in the locus coeruleus, effects of chronic stress on the central nervous system, development of tolerance to drugs.

Manago, Adriana, PhD, adolescent and emerging adult development in the context of culture change and the Digital Age, Latino youth in the U.S. and indigenous Maya youth in Mexico, peer relations, gender and sexual development

McLean, Kate, PhD, adolescent identity development.

Riordan, Catherine A., PhD, social and organizational psychology, with particular focus on leadership and change in organizations.

Rose, Jacqueline K., PhD, molecular mechanisms of learning, memory, and plasticity.

Sampaio, Cristina, PhD, mechanisms and processes of memory, representations, memory errors, metacognition.

Sattler, David, PhD, natural disasters, social dilemmas, small group research.

Symons, Lawrence, PhD, perception

Trimble, Joseph, E., PhD, social cross-cultural

Program Advisor: Dr. Christina Byrne, Academic Instructional Center 474

Program Description

The MS Mental Health Counseling program prepares students for careers in the field of mental health and is accredited by CACREP. The program provides a general foundation in theoretical and applied perspectives which are used by mental health professionals. Special emphasis is placed on skill development, supervised practica with adults, children, and families, and on-site internships in various community and mental health clinics. Exposure to crosscultural counseling strategies is an important component of the curriculum.

Goals

The program prepares knowledgeable, skilled, culturally sensitive, and ethical professional counselors who meet the relevant licensing or credentialing standards for practice in mental health and public and private educational settings in the State of Washington.

Prerequisites

Courses in introductory psychology and statistics and research design are required. The following courses are strongly recommended: one course in abnormal or personality; one course in social or developmental; two courses from learning, sensation, perception, motivation and physiological/behavioral neuroscience; a course in the history and systems of psychology or in philosophy of science.

Application Information

Deadlines: Program faculty will begin reviewing application materials after February 1 and will continue to review materials until the enrollment limit is reached or June 1, whichever comes first. Because maximum student enrollment in the program is limited, all applicants are strongly encouraged to submit application materials by February 1. Documentation of personal suitability of applications for counseling is required through a statement of purpose with specific questions and letters of reference. Top-ranked applicants will be invited to interview.

TA Deadline: To be considered for a graduate teaching assistantship, applicants must submit their application materials by February 1.

Specific Test Requirements: Graduate Record Examination, General required; subject in psychology recommended; no test scores are required if an applicant holds an advanced degree.

Program Requirements (97 credits)

□ Required Courses:

- PSY 502 - Adult Psychopathology
- PSY 504 - Lifespan Psychological Development
- PSY 512 - Correlation Methods and Data Analysis
- PSY 532 - Cross-Cultural Counseling
- PSY 542 - Developmental Psychopathology
- PSY 550 - Research Methods in Counseling (3 credits)
- PSY 553 - Theories of Counseling and Psychotherapy
- PSY 554 - Standardized Tests
- PSY 555 - Occupations and Career Development
- PSY 557 - Testing and Appraisal in Counseling
- PSY 558 - Family and Couple Counseling
- PSY 560 - Family Counseling Lab (3 credits)
- PSY 561 - Seminar: Professional, Legal and Cultural Issues

PSYCHOLOGY

- PSY 564 - Individual Counseling Techniques
- PSY 565 - Group Processes in Counseling
- PSY 567 - Professional Practice of Counseling
- PSY 570 - Practicum (4-15 credits)
- PSY 670 - Internship (24-30 credits)
- All students must complete either:
 - PSY 503 - Cognition
 - or
 - PSY 505 - Social Psychology
- Thesis students must complete 690 (minimum 6 credits).

Retention Requirements

The department has requirements affecting retention in the Mental Health Counseling Program which are in addition to the Graduate School scholarship standards. Full, continuing enrollment in the required courses must be maintained. Grades lower than C- are unacceptable. More than 10 credits of C+ or lower grades removes a student from the master's program. Any course in which an unacceptable grade is earned may be retaken only with permission of the admission/retention subcommittee, following consultation with the program advisor. It is necessary to maintain at least a 3.00 (B) grade point average for all graded work in order to be retained in the program. Retention in the mental health counseling curriculum is also dependent upon the development of professional competence in interaction with clients and other professionals. Development of professional counseling competencies is monitored and evaluated on a quarterly basis by the Counseling Program Committee of the Department of Psychology.

Symons, Lawrence, PhD, perception.

Trimble, Joseph E., PhD, social, cross-cultural.

Program Advisor: Dr. Alex Czopp, Academic Instructional Center 180.

Program Description

The Experimental Psychology program provides an excellent preparation and foundation for students wishing to enter a psychology Ph.D. program. Our graduate program is based on a mentorship model in which each incoming student is paired with a faculty member with similar scholarly interests who will advise and mentor the student on his/her academic progress and scholarly activities. Graduates will have a solid background in research design, quantitative methods, and expertise in a specific research area.

Goals

The experimental psychology graduate curriculum provides in-depth research experience within specific domains of psychology; cognitive, social, developmental, and neuroscience. This goal is accomplished through a combination of coursework and research experience.

Prerequisites

Applicants for the experimental psychology M.S. program must have completed classes in introductory psychology, statistics, research methods, and a minimum of one course in three of the following concentration areas: cognitive, social, developmental, and physiological/behavioral neuroscience. In addition, the following criteria are not required but are preferred: depth of coursework (e.g., multiple courses within a domain, upper-level courses) in at least one of the above areas, and research experience.

Application Information

Application Deadlines: Faculty will begin reviewing application materials on February 1 and will continue to review materials until the enrollment limit is reached or March 15, whichever comes first. Because student enrollment in the program is limited, all applicants are strongly encouraged to submit application materials by February 1.

PSYCHOLOGY

Teaching Assistant Deadline: To be considered for a graduate teaching assistantship, applicants must submit their application materials by February 1.

Specific Test Requirements: Applicants should submit test scores for the General Graduate Record Examination; no Graduate Record Examination scores are required if an applicant holds an advanced degree.

Program Requirements: (46 credit minimum)

- PSY 501 - Behavioral Neuroscience
- PSY 503 - Cognition
- PSY 504 - Lifespan Psychological Development
- PSY 505 - Social Psychology
- PSY 512 - Correlation Methods and Data Analysis
- PSY 513 - Experimental Methods and Data Analysis
- PSY 584 - Research Design
- PSY 585 - Scholarship & Communication 1: Presenting Research
- PSY 586 - Scholarship & Communication 2: Writing Research
- PSY 690 - Thesis
- 5 credits of electives from any of the following combination:
 - PSY 517 - Advanced Multivariate Modeling
 - PSY 582 - Practicum in Research in Psychology
- Courses under advisement
- A minimum of one research presentation (e.g. at a professional conference/Psychfest) or a public colloquium as part of the thesis defense is required.

An optional concentration offered to all experimental psychology graduate students is Measurement, Evaluation and Statistical Analysis (MESA). In addition to the above requirements, students take the following: PSY 517 and PSY 554.

Retention Requirements

The department has requirements affecting retention in the MS Experimental Psychology Program which are in addition to the Graduate School scholarship standards. Students in the Experimental Psychology program must be making satisfactory progress in their research to remain in the program. Satisfactory progress in research is defined as being actively engaged in research activities that are moving the student closer to completing his or her thesis and is determined by the student's advisor and the Experimental Psychology program advisor (or the Experimental Psychology program advisor and the general graduate program advisor, if the student does not have an advisor). One quarter of unsatisfactory progress will result in the student being notified as to what he or she needs to do to bring his or her research progress up to satisfactory standards. Two quarters of unsatisfactory progress in research are grounds for dismissal from the Experimental Psychology program. Students may appeal any decision through the formal appeal process outlined in the WWU Catalog (Appendix F).

24 credits

Introduction

Why Consider a Psychology Minor?

Contact Information**Department Chair**

Dr. Larry Symons
 Academic Instruction Center 440
 360-650-4019
 Larry.Symons@wwu.edu

Sample Careers**Major/Career Resources**

http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

The Minor in Psychology can be declared at any time. Students must go to the Psychology Department Office in the Academic Instruction Center (AIC) 434 to obtain the forms for declaration.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- PSY 101 - Introduction to Psychology
 - One course from:
 - PSY 210 - Cognition
 - PSY 220 - Behavioral Neuroscience
 - One course from:
 - PSY 230 - Lifespan Developmental Psychology
 - PSY 240 - Social Psychology
 - PSY 250 - Introduction to Abnormal Psychology
 - Electives under advisement

Sport Psychology Minor (see Physical Education, Health & Recreation Department)

Sport Psychology Minor (see Physical Education, Health & Recreation Department)

User Experience (UX) Design Minor (see Engineering and Design Department)

User Experience (UX) Design Minor (see Engineering and Design Department)

Psychology Courses

Grade Mode: Letter
 GUR Attributes: SSC

PSY 101 - Introduction to Psychology

Examination of basic psychological processes utilizing results of research investigations: participation in at least two experiments or equivalent activities is expected.

Credits: 5

PSY 116 - Human Sexuality

This course examines human sexual behavior from biological, psychological, social, and cultural perspectives. Course content includes issues pertaining to sexual anatomy, the sexual response cycle, sexual orientation, sexuality across the lifespan, the reproductive process, variations in sexual behavior, sexual health, romantic

PSYCHOLOGY

relationship processes, and sexual violence.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PSY 117 - The Psychology of Identity

This course examines the development of identity throughout the lifespan with consideration of gender, social class, ethnicity, culture, autobiographical memory, social roles, and self-presentation.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PSY 118 - The Psychology of Happiness and Well-Being

In this course, students will address the question of what comprises happiness and a sense of well-being in life. In particular, students will be exposed to the scientific literature on happiness and well-being within the framework of philosophical perspectives on life. Students will compare and contrast the findings on happiness and well-being in the scientific literature with advice provided in the various popular sources of information (e.g. self-help books, self-help websites, magazines, popular self-help television programs).

Credits: 5
Grade Mode: Letter

PSY 119 - Psychology of Gender

Basic concepts, foundations for sex roles; similarities and differences between the sexes; historical customs, personality theories, cultural, subcultural and cross-cultural perspectives

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

PSY 194 - Experience in Behavioral Neuroscience

A course for College Quest students only. Emphasizes the relationship between brain structure/function and behavior through lecture and lab. S/U grading.

Credits: 1
Grade Mode: S/U

PSY 195 - Foundations of Behavioral Neuroscience

An introduction to the role of the nervous system in normal and abnormal behavior, thought, and emotion. S/U grading.

Credits: 2
Grade Mode: S/U

PSY 210 - Cognition

Provides an overview of the theories, methods and practical applications of cognitive psychology. The higher mental processes, particularly the ways in which knowledge is acquired, stored and used, will be emphasized. The course also examines how theories and findings from cognitive psychology can help us to understand mental activities in everyday life.

Prerequisites & Notes: PSY 101
Credits: 5
Grade Mode: Letter

PSY 220 - Behavioral Neuroscience

An overview of the biological bases of behavior. Basic concepts in neuroanatomy, neurophysiology, and neurochemistry will be used to understand the neural bases of normal and abnormal behavior.

Prerequisites & Notes: PSY 101
Credits: 5
Grade Mode: Letter

PSY 230 - Lifespan Developmental Psychology

This class covers biological, cognitive, and psychosocial changes that occur across different periods of life, as well as contexts of development (e.g., culture, school, families, peers). Topics include basic developmental tasks from infancy to old age and theories of development.

Prerequisites & Notes: PSY 101
Credits: 5
Grade Mode: Letter

PSY 240 - Social Psychology

Socialization (moral development, racial, ethnic and class differences), attitudes and attitude change, conformity, interpersonal attraction. Theories and methods of social psychology stressing applicability of social psychological research and knowledge to contemporary social problems.

Prerequisites & Notes: PSY 101
Credits: 5
Grade Mode: Letter

PSY 250 - Introduction to Abnormal Psychology

An overview of the research on individuals within social contexts. Topics include description of disorders, stress and coping, social influence on behavior, the relationship between psychological

and physical health and development adjustment issues.

Prerequisites & Notes: PSY 101

Credits: 5

Grade Mode: Letter

PSY 274 - Psychology of Child Rearing

Discipline at different developmental stages; parental influences on social and cognitive development; influences on parenting; a systems approach to understanding families; the changing American family.

Prerequisites & Notes: PSY 101

Credits: 5

Grade Mode: Letter

PSY 301 - Overview of Research Methods

Introduction to research psychology. A variety of research methodologies will be explored. Students will also learn basic description of research data and how to write psychology papers.

Prerequisites & Notes: 15 credits in psychology with a minimum of 5 credits at Western and declared pre-major status.

Credits: 5

Grade Mode: Letter

PSY 302 - Research Methods and Statistical Analysis: Correlational Approaches

Introduction to correlational research methods in psychology and associated statistics. Review of correlational research methods, design of correlational studies, and development of research instruments such as questionnaires and behavioral observation forms. Methods of data analysis include graphs, bivariate and multivariate descriptive correlational statistics, sampling distributions of statistical inference regarding correlations, and introduction to the t and F tests. Nonparametric statistics such as chi square also will be discussed.

Prerequisites & Notes: PSY 301 with a C- or better and declared Psychology Major or declared Behavioral Neuroscience Major.

Credits: 5

Grade Mode: Letter

PSY 303 - Research Methods and Statistical Analysis: Experimental Approaches

Continuation of statistical inferencing introduced in PSY 302 as it applies to the special cases of the general linear model. Two sample t-tests and ANOVA models will be introduced at the conceptual and computational level. Appropriate follow-up

tests also will be covered. Computer data analysis will be utilized for problem sets and the individual project.

Prerequisites & Notes: PSY 302 with a C- or better and declared Psychology Major and PSY 210, 220, 230, 240, 250, each with C- or better; or PSY 301 with a C- or better and declared Behavioral Neuroscience Major.

Credits: 5

Grade Mode: Letter

PSY 310 - Sensation and Perception

The basic principles involved in seeing, hearing, touch, taste and smell will be presented. Ecological constraints on perceptual processes will be discussed in the context of illusions and other perceptual demonstrations as well as underlying physiological mechanisms.

Prerequisites & Notes: PSY 210; PSY 220; and PSY 301 or declared Behavioral Neuroscience Major and PSY 301.

Credits: 5

Grade Mode: Letter

PSY 311 - Human Memory

Reviews memory theories, empirical findings, and applications. Topics include encoding, storage, and retrieval from short- and long-term memory; implicit and explicit memory; autobiographical memory; eyewitness memory.

Prerequisites & Notes: PSY 210, PSY 301

Credits: 5

Grade Mode: Letter

PSY 318 - Psychology of Language

An overview of the psychological study of language. Topics include language comprehension, language acquisition, speech errors, bilingualism, dyslexia, language and the brain, and animal communication systems.

Prerequisites & Notes: PSY 210 and PSY 220 and PSY 301.

Credits: 5

Grade Mode: Letter

PSY 319 - Cognitive Neuroscience

Discussion of the brain systems underlying human cognition, with a focus on how inferences about brain systems are drawn from neuropathological, neuroimaging, and behavioral studies.

Prerequisites & Notes: PSY 210, PSY 220, and PSY 301 or declared Behavioral Neuroscience and PSY 301. Available to Sport Psychology students with instructor permission.

PSYCHOLOGY

Credits: 5
Grade Mode: Letter

PSY 320 - Topics in Behavioral Neuroscience
Detailed examination of key areas of physiological psychology, emphasizing the anatomical, physiological and neurochemical bases of behavior.

Prerequisites & Notes: PSY 220; PSY 301 or comparable research course; instructor permission
Credits: 5
Grade Mode: Letter

PSY 321 - Learning
A survey of conditioning and learning.

Prerequisites & Notes: PSY 220 and PSY 301
Credits: 5
Grade Mode: Letter

PSY 322 - Motivation
Theoretical and empirical study of human and subhuman motivational process. Topics covered range from basic physiological drives to achievement motivation and conformity. Emphasis on both biological and social sources of motivation.

Prerequisites & Notes: PSY 220 and PSY 301.
Available to Sport Psychology students with instructor permission.
Credits: 5
Grade Mode: Letter

PSY 323 - Psychopharmacology
Introduction to behavioral pharmacology and the effects of therapeutic and recreational drugs on the function of the nervous system and behavior.

Prerequisites & Notes: PSY 220; PSY 301 or comparable research course and instructor permission. Available to Sport Psychology students with instructor permission.
Credits: 5
Grade Mode: Letter

PSY 324 - Comparative Psychology
A phylogenetic comparison of animal behavior, focusing on learning, motivation and sensory processes in selected species of animals.

Prerequisites & Notes: PSY 210 or PSY 220; and PSY 301
Credits: 5
Grade Mode: Letter

PSY 327 - Cognitive Neuroscience Lab
Introduction to laboratory methods and techniques used in cognitive neuroscience. Concentration will be on large scale brain imaging of cognition using

EEG. Students will collect and analyze data from participants undergoing a broad range of cognitive paradigms.

Prerequisites & Notes: PSY 220 and one of PSY 310, PSY 311, PSY 319, or PSY 320.
Credits: 4
Grade Mode: Letter

PSY 328 - Techniques in Behavioral Neuroscience
Introduction to laboratory methods and techniques used in behavioral neuroscience. Two hours lecture and four hours lab each week; students will be introduced to basic techniques in histology, neurophysiology, neurochemistry, molecular biology, or behavioral analyses. May require live animal research. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: PSY 320 or PSY 323 or instructor permission.
Credits: 4
Grade Mode: Letter

PSY 330 - Child Development
In-depth coverage of social and cognitive development in children and adolescents. Emphasis on the implications and practical applications of research findings in these areas.

Prerequisites & Notes: PSY 230 and PSY 301
Credits: 5
Grade Mode: Letter

PSY 331 - Adult Development and Aging
Examines developmental processes that occur in later life, with a focus on theory, research and practical issues. Topics include a) theoretical and methodological issues, b) biological changes and health issues, c) changes in memory and intelligence, d) personality across adulthood and e) death and dying.

Prerequisites & Notes: PSY 230, PSY 301
Credits: 5
Grade Mode: Letter

PSY 332 - Adolescent Development
Examines adolescent cognitive, social, physiological and intrapsychic development from a variety of theoretical perspectives. Emphasis on current research findings in this area. Students cannot get credit for both PSY 332 and 373.

Prerequisites & Notes: PSY 230 and PSY 301.
Available to Sport Psychology students with permission of instructor.

Credits: 5
Grade Mode: Letter

PSY 333 - Infant Development

Examines social, emotional, cognitive, and physical development of infants and toddlers from diverse theoretical perspectives and methodological approaches. Emphasis on current research findings, application of research findings, and considering infant development in socio-cultural context.

Prerequisites & Notes: PSY 230 and PSY 301.
Credits: 5
Grade Mode: Letter

PSY 340 - Environmental Psychology

Theoretical, methodological and empirical problems and issues relating to behavior in constructed and natural environments.

Prerequisites & Notes: PSY 301 plus one from PSY 210-250
Credits: 5
Grade Mode: Letter

PSY 341 - Psychology and Culture

Cultural and ecological factors and their effect on perception, thinking, language, intelligence, sexuality and other psychological variables. An examination of the 'universality' of traditional Euro-American psychological theories.

Prerequisites & Notes: PSY 240 and PSY 301.
Available to Sport Psychology students with instructor permission.
Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

PSY 342 - Social Cognition

Survey of theory and research investigating the cognitive processes that underlie social judgment and behavior.

Prerequisites & Notes: PSY 210, PSY 240, PSY 301
Credits: 5
Grade Mode: Letter

PSY 343 - Social Processes

Examination of selected topics related to formation and functioning of groups, as well as intergroup relations.

Prerequisites & Notes: PSY 240, PSY 301
Credits: 5
Grade Mode: Letter

PSY 344 - Psychology and the Law

An examination of current issues in psychology and the law with an emphasis on the application of social psychological theories and research to the understanding of human behavior in a legal context.

Prerequisites & Notes: PSY 240, PSY 301
Credits: 5
Grade Mode: Letter

PSY 345 - Evolutionary Psychology

The application of evolutionary theory to understanding the characteristics of human functioning including emotion, thinking, and action.

Prerequisites & Notes: One course from PSY 210 to PSY 240; C- or better in PSY 301.
Credits: 5
Grade Mode: Letter

PSY 346 - Stereotyping, Prejudice, & Discrimination

This course will examine issues of and related to stereotyping, prejudice, and discrimination from a social psychological perspective with an emphasis on racism and sexism.

Prerequisites & Notes: PSY 240, PSY 301
Credits: 5
Grade Mode: Letter

PSY 351 - Abnormal Psychology and Interventions

Human behavior patterns culturally labeled as abnormalities, or as mental illness; their etiology, incidence, treatment and social attitudes toward such patterns. Historical review of the concepts used to explain such behavior and the research relating to the treatment of mental disorders.

Prerequisites & Notes: PSY 250, PSY 301
Credits: 5
Grade Mode: Letter

PSY 359 - Introduction to School and Mental Health Counseling

Overview of professional counseling in schools, colleges and communities. Includes counselor roles, ethics, counseling theories and techniques, training and licensing, counseling minorities, outreach, use of paraprofessionals and research.

Prerequisites & Notes: PSY 250, PSY 301; major
Credits: 4
Grade Mode: Letter

PSY 370 - Psychology and the Arts

PSYCHOLOGY

Concepts from a wide variety of areas in psychology are used to analyze issues in art. Specific works of art - which may include literature, music and visual arts - are considered through class discussion and written essay.

Prerequisites & Notes: PSY 101

Credits: 3

Grade Mode: Letter

PSY 375 - Health Psychology

The course examines health psychology with a focus on theory, research, and practical issues. Topics include (a) health behavior and prevention, (b) stress and coping, (c) the treatment setting, and (d) management of chronic and terminal illness.

Prerequisites & Notes: PSY 101 and PSY 301.

Available to Sport Psychology students with instructor permission.

Credits: 5

Grade Mode: Letter

PSY 376 - Psychology of Romantic Relationships

An overview of the psychology of romantic relationships. Topics bridge social and abnormal psychology and include attraction, relationship formation, maintenance, and dissolution, and theoretical approaches to the clinical treatment of couples' issues.

Prerequisites & Notes: PSY 240, PSY 250 and PSY 301.

Credits: 5

Grade Mode: Letter

PSY 377 - Positive Psychology

This course is a survey of the science of positive psychology which explores the study of human strengths and virtues. The focus of the course is on the unique characteristics of the human experience that contribute to the physical/psychological health and well-being.

Prerequisites & Notes: PSY 301. Available to Sport Psychology students with instructor permission.

Credits: 5

Grade Mode: Letter

PSY 378 - Personality Psychology

This course examines the fundamental issues and questions addressed by the field of personality psychology, considering evidence from several major theoretical approaches to personality (e.g., trait, social-cognitive, motivational, developmental, narrative), and situating personality within

biological, social, and cultural contexts.

Prerequisites & Notes: PSY 230; PSY 240; PSY 301 or permission of instructor.

Credits: 5

Grade Mode: Letter

PSY 410 - Seminar in Cognitive Neuroscience

In-depth coverage of major issues and methods in the study of cognitive neuroscience. Library and laboratory or field research.

Prerequisites & Notes: For PSY majors: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, and one of PSY 310, PSY 311, PSY 319 or PSY 320, all with a C- or better. For Behavioral Neuroscience majors: permission of instructor and one of PSY 310, PSY 311, PSY 319 or PSY 320, all with a C- or better.

Credits: 5

Grade Mode: Letter

PSY 411 - Seminar in Cognition

In-depth coverage of selected topics in memory, cognition, and higher order cognitive processing. Library and laboratory or field research.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303; and one of PSY 310, PSY 311, PSY 318, PSY 319 or PSY 320, all with a C- or better.

Credits: 5

Grade Mode: Letter

PSY 420 - Seminar in Behavioral Neuroscience

A detailed examination of brain-behavior relations and the neural bases of behavior, based upon review and discussion of current literature in a variety of areas. Library and/or laboratory work.

Prerequisites & Notes: For PSY majors: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303; one of PSY 310, PSY 319, PSY 320, PSY 321, PSY 322, PSY 323, or PSY 324 all with C- or better. For Behavioral Science majors: permission of instructor and one of PSY 310, PSY 319, PSY 320, PSY 321, PSY 322, PSY 323, or PSY 324, all with a C- or better.

Credits: 5

Grade Mode: Letter

PSY 421 - Seminar in Learning

In-depth study of major theoretical and methodological approaches to the study of learning. Laboratory and field research exercises.

Prerequisites & Notes: For PSY majors: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY

303, PSY 321, all with a C- or better. For Behavioral Neuroscience majors: permission of instructor and PSY 303, PSY 321, all with a C- or better. For Behavioral

Credits: 5
Grade Mode: Letter

PSY 422 - Seminar in Motivation

In-depth coverage of determinants of behavior in humans and other animals. Students will examine primary research and will conduct research. Activities will also include class discussion, presentations, and a major integration paper.

Prerequisites & Notes: For PSY majors: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, and PSY 322, all with a C- or better. For Behavioral Neuroscience majors: permission of instructor and PSY 303, and PSY 322, all with a C- or better.

Credits: 5
Grade Mode: Letter

PSY 424 - Seminar in Comparative Psychology

In-depth study of animal behavior where different species in different ecological niches is a major variable. Emphasis on the genetic determinants of behavior differences. Students will examine primary research and will conduct research. Activities will also include class discussion, presentations, and a major integration paper.

Prerequisites & Notes: For PSY majors: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, PSY 324, all with a C- or better. For Behavioral Neuroscience majors: permission of instructor and PSY 303, PSY 324, all with a C- or better.

Credits: 5
Grade Mode: Letter

PSY 428 - Advanced Techniques in Behavioral Neuroscience

Laboratory based study of integrated neural systems underlying behavior, based on advanced techniques in histology, neurophysiology, neurochemistry, molecular biology, or behavioral analyses. Two hours lecture and four hours lab each week; may require live animal research. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: PSY 303 and PSY 328 or instructor permission.

Credits: 4
Grade Mode: Letter

PSY 430 - Seminar in Developmental Psychology

In-depth study of central themes of human development. Contemporary research questions addressed in professional literature and field investigations.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303; PSY 330 or PSY 331 or PSY 332 or PSY 333, all with C- or better.

Credits: 5
Grade Mode: Letter

PSY 431 - Seminar in Adult Development and Aging

In-depth study of central themes of adult development and aging. Contemporary research questions addressed in professional literature and field investigations.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, PSY 331, all with a C- or better.

Credits: 5
Grade Mode: Letter

PSY 440 - Seminar in Environmental Psychology

In-depth study of major issues and methods in the study of psychosocial adaptations to and of the physical environment. Library and laboratory or field research.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, PSY 340, all with a C- or better.

Credits: 5
Grade Mode: Letter

PSY 441 - Seminar in Cross-Cultural Psychology

In-depth study of contemporary issues, perspectives, and methods used in the study of how cultural and ethnic factors affect psychological processes. A basic examination of current topics that are receiving significant attention. Library and/or laboratory and field research.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303; and one of PSY 341, PSY 342, PSY 343, PSY 344, PSY 345, or PSY 346, all with C- or better.

Credits: 5
Grade Mode: Letter

PSY 442 - Seminar in Social Psychology

In-depth study of social psychological theory and research to explain patterns of thought and behavior.

PSYCHOLOGY

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303; and one of PSY 341, PSY 342, PSY 343, PSY 344, or PSY 345, PSY 346, all with C- or better.

Credits: 5

Grade Mode: Letter

PSY 451 - Seminar in Abnormal Psychology

Advanced study in major issues and research methods in abnormal psychology. Focus on research design and protocols with clinical populations.

Prerequisites & Notes: PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 303, PSY 351, all with a C- or better.

Credits: 5

Grade Mode: Letter

PSY 470 - Psychological Issues in Substance Abuse and Dependence

This class provides advanced information about psychological issues in substance abuse and dependence. In addition to surveying the most common substances of abuse and their effects, this course also addresses etiological theories, assessment and diagnosis, treatment, issues pertinent to diverse groups of individuals, and current controversies in the field.

Prerequisites & Notes: PSY 250 and PSY 351, or current enrollment in the graduate Mental Health or School Counseling Programs.

Credits: 3

Grade Mode: Letter

PSY 471 - Honors Thesis Seminar

In-depth investigation of a selected topic in psychology culminating in an honors thesis. Should be taken the quarter before the thesis is begun and while it is in progress. Repeatable to a maximum of 6 cr. S/U grading.

Prerequisites & Notes: instructor permission

Credits: 2

Grade Mode: S/U

PSY 478 - Understanding Healing Processes across Cultures

The course will overview systems of healing as they are utilized globally, identify common and uncommon elements of healing and relate these to psychotherapeutic processes.

Prerequisites & Notes: PSY 301 or equivalent; junior status.

Credits: 3

Grade Mode: Letter

PSY 481 - Seminar in History and Systems of Psychology

An historical perspective of the development of psychological systems and theories and their impact on contemporary psychology.

Prerequisites & Notes: C- or better in: PSY 210-250, PSY 302 plus completion of 45 credits in psychology.

Credits: 4

Grade Mode: Letter

PSY 482 - Seminar in Psychological Theory

A seminar examining the philosophical assumptions of science in general and psychology in particular.

Prerequisites & Notes: C- or better in: PSY 210-250, PSY 302 plus completion of 45 credits in psychology.

Credits: 4

Grade Mode: Letter

PSY 501 - Behavioral Neuroscience

Examines the basic anatomy, physiology and chemistry of the vertebrate nervous system within the context of both abnormal and normal behaviors. Topics vary but include sensory and motor systems, reward pathways, substance abuse, neural correlates of major mental illness, and regeneration/recovery of function in the central nervous system.

Prerequisites & Notes: Admission to MS or MED program in psychology or permission of instructor.

Credits: 5

Grade Mode: Letter

PSY 502 - Adult Psychopathology

Consideration of theories relevant for understanding adult psychopathology. Current research into classification, etiology, description, diagnosis and treatment of behavioral and mental disorders. Overall orientation is to seek integration of cultural, social, psychological and physiological processes into resultant patterns of personal, social and behavioral maladaptations. Course content selected on basis of greatest utility for preparation of Master's level counselors in training.

Prerequisites & Notes: admission to MS or MED program in psychology or instructor permission

Credits: 5

Grade Mode: Letter

PSY 503 - Cognition

Provides an overview of theories, research and applications of cognitive psychology. Topics covered range from basic perception through

higher mental processes.

Prerequisites & Notes: Admission to MS or MEd program in psychology or permission of instructor.
Credits: 5
Grade Mode: Letter

PSY 504 - Lifespan Psychological Development

An overview of the major theories and principles in developmental psychology. Theories, issues and principles are highlighted through an analysis of various topics across the lifespan and as they affect the psychological development of the individual.

Prerequisites & Notes: Admission to MS or MEd program in psychology or permission of instructor.
Credits: 5
Grade Mode: Letter

PSY 505 - Social Psychology

Designed to provide a thorough background in social psychology and to motivate a continuing exploration of theoretical problems and issues in the field. Students will be exposed to historical and contemporary theories and methods in social psychology.

Prerequisites & Notes: Admission to MS or MEd program in psychology or permission of instructor.
Credits: 5
Grade Mode: Letter

PSY 509 - Proseminar

Introduction to professional oral presentation, through a range of designs/methodologies. Individual faculty will present ongoing research. Each student will be required to make at least one oral presentation outlining their current research focus. S/U grading.

Prerequisites & Notes: admission to MS program in psychology (Experimental) or instructor permission
Credits: 2
Grade Mode: S/U

PSY 512 - Correlation Methods and Data Analysis

Covers topics in bivariate and multivariate correlation and regression. Students learn to design correlation studies and to analyze correlational data involving one dependent variable and one or more independent variables. Topics covered include scale development and classical test theory, descriptive statistics, hypothesis testing, bivariate regression and correlation, multiple regression and correlation, dummy

coding, moderation and mediation. Use of computer-based statistical software packages for data analysis and interpretation is stressed.

Prerequisites & Notes: Admission to MS program in psychology or permission of instructor.
Credits: 5
Grade Mode: Letter

PSY 513 - Experimental Methods and Data Analysis

Introduces ANOVA models as special cases of the General Linear Model using a model building approach. The equivalence of regression and ANOVA are emphasized. Course addresses basic topics in experimental research design and data analysis, highlighting theoretical and mathematical issues of most importance in published research. Topics include within and between subjects oneway and factorial designs, post hoc and a priori comparisons among multiple group means, contrasts and effect sizes, best practices in handling missing data, examining assumptions, and reporting results. Use of computer-based statistical software packages for data analysis and interpretation is stressed.

Prerequisites & Notes: PSY 512
Credits: 5
Grade Mode: Letter

PSY 515 - Multivariate Analysis

Topics in advanced multivariate analysis including canonical analysis, discriminant functions analysis, cluster analysis and factor analysis. Logical and geometric properties of multivariate techniques and interpretation on research results are stressed.

Prerequisites & Notes: PSY 513
Credits: 3
Grade Mode: Letter

PSY 516 - Structural Equation Modeling

Topics in restricted latent variable analysis including path analysis and structural equation modeling. Course will cover theoretical bases and computations of these procedures as well as the use of statistical software packages, with emphasis on interpreting and reporting results.

Prerequisites & Notes: PSY 515 or instructor permission
Credits: 3
Grade Mode: Letter

PSY 517 - Advanced Multivariate Modeling

Topics in advanced multivariate modeling, including advanced multiple regression techniques, path analysis, factor analysis, multilevel modeling,

PSYCHOLOGY

and structural equation modeling. Course will cover theoretical bases and computations of these procedures as well as the use of statistical software packages, with emphasis on interpreting and reporting results.

Prerequisites & Notes: PSY 512 and PSY 513.
Credits: 5
Grade Mode: Letter

PSY 532 - Cross-Cultural Counseling

This seminar is a basic introduction to the cross-cultural perspective in psychology. History of the modern cross-cultural movement will be covered along with a selection of a number of conceptual and methodological issues and problems. Topics include perception, cognition and emotion, developmental topics, social psychological variables, testing and measurement, personality and psychopathology, and virtually all areas of psychology mediated by culture and ethnicity. Some emphasis given to professional applications such as counseling.

Prerequisites & Notes: admission to MS or MEd program in psychology
Credits: 3
Grade Mode: Letter

PSY 541 - Seminar in Behavioral Neuroscience

A detailed examination of brain-behavior relations and the neural bases of behavior. Review and discussion of current literature in a variety of areas.

Prerequisites & Notes: Admission to MS experimental program; PSY 501 and permission of instructor.
Credits: 3
Grade Mode: Letter

PSY 542 - Developmental Psychopathology

Overall working model of mental disorders diathesis-stress model. Presentation of diverse theories (e.g., attachment, family systems, genetic/physiological, individual difference, social cognition). Review of current research literature on assessment, diagnosis and treatment of childhood mental disorders within a developmental framework. Ethical considerations in clinical research and therapy with children highlighted.

Prerequisites & Notes: Admission to MS or MEd program in Psychology and PSY 502 or permission of instructor.
Credits: 5
Grade Mode: Letter

PSY 543 - Seminar in Cognition

In-depth coverage of selected topics in perception, memory, cognition, and higher order cognitive processing. Repeatable up to 9 credits.

Prerequisites & Notes: Admission to MS experimental psychology program and PSY 503; or permission of instructor.
Credits: 3
Grade Mode: Letter

PSY 544 - Seminar in Developmental Psychology

In-depth study of central themes of human development. Contemporary research questions addressed in professional literature and field investigations. Repeatable up to 9 credits.

Prerequisites & Notes: Admission to MS experimental psychology program and PSY 504; or permission of instructor.
Credits: 3
Grade Mode: Letter

PSY 546 - Seminar in Social Psychology

In-depth study of social psychological theory and research to explain patterns of thought and behavior. Repeatable up to 9 credits.

Prerequisites & Notes: Admission to MS experimental psychology program and PSY 505; or permission of instructor.
Credits: 3
Grade Mode: Letter

PSY 550 - Research Methods in Counseling

Covers content and research methods relevant to psychological processes in psychotherapy.

Prerequisites & Notes: Admission to mental health counseling curriculum or MEd school counseling program PSY 512.
Credits: 1-3
Grade Mode: Letter

PSY 551 - Developmental School Counseling

A comprehensive overview of professional school counseling with particular emphasis upon recent advances in counseling program development, organization, evaluation and service delivery models.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program; general psychology program students with instructor permission
Credits: 4
Grade Mode: Letter

PSY 553 - Theories of Counseling and Psychotherapy

Basic orientation to counseling theories including the history and development of theories of counseling; comparison of the theories in terms of goals, process, methods; and evaluation and research in counseling. Some consideration of consultation strategies, systemic skills and psychological education models used by psychological counselors and psychotherapists.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program; general curriculum students with instructor permission.

Credits: 3

Grade Mode: Letter

PSY 554 - Standardized Tests

Standardized group tests commonly used in the public schools; selection and administration of tests; interpretation of norms.

Prerequisites & Notes: Admission to MEd school counseling, MS mental health counseling, MS experimental psychology, or instructor permission.

Credits: 4

Grade Mode: Letter

PSY 555 - Occupations and Career Development

Critical examination of major theories of career development and vocational counseling. Sources of occupational materials and analysis of their use and distribution in counseling practice.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program; PSY 553

Credits: 3

Grade Mode: Letter

PSY 556 - The Role of the School Counselor

An advanced seminar in school counseling focusing on the professional roles and responsibilities of the counselor in elementary, middle/junior and high school settings. Particular emphasis placed upon a systems orientation to consultation services within the context of a developmental school counseling program.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program; PSY 531, PSY 555

Credits: 2

Grade Mode: Letter

PSY 557 - Testing and Appraisal in Counseling

The evaluation and use of various psychological tests, scales and inventories in the assessment of intelligence, personality, interests and other human dimensions. Some consideration of other modes of assessment (e.g., behavioral, projective and neurological). Emphasis is on the practical application of psychological assessment in counseling. Collection, evaluation, application and interpretation of case data.

Prerequisites & Notes: admission to MS mental health counseling curriculum and PSY 511, or MEd in school counseling program and PSY 554

Credits: 3

Grade Mode: Letter

PSY 558 - Family and Couple Counseling

A review of major theories, techniques and research in psychological counseling with families. Emphasis is on parent-child developmental problems and the role of interpersonal relationships within the total family. Students are involved in limited supervised family counseling experiences.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program and PSY 553, PSY 564

Credits: 3

Grade Mode: Letter

PSY 560 - Family Counseling Lab

Students observe and conduct family counseling sessions through the psychology department clinic under the supervision of an appropriate faculty member. Repeatable to a maximum of 6 cr. S/U grading.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program

Credits: 1-6

Grade Mode: S/U

PSY 561 - Seminar: Professional, Legal and Cultural Issues

Consideration of the professional, cultural, ethical and legal issues and special problems in the application of psychological theories and research in educational settings, community clinics and private practice.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program

Credits: 3

Grade Mode: Letter

PSY 564 - Individual Counseling Techniques

PSYCHOLOGY

Skill development in individual counseling, psychotherapy and behavior modification techniques using actual interviews, simulations, videotape and other laboratory procedures. Prerequisite to practicum in individual counseling and psychotherapy.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program
Credits: 5
Grade Mode: Letter

PSY 565 - Group Processes in Counseling

Current group counseling and psychotherapy techniques. Covers task-directed, encounter, decision-making and communication techniques.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program
Credits: 4
Grade Mode: Letter

PSY 567 - Professional Practice of Counseling

A comprehensive overview of the history, philosophy, credentialing, and the development of the professional organizations in counseling. Professional roles and topics for counselors such as consultation, outreach, prevention, advocacy, program evaluation, medications, and economic considerations such as funding, managed care, and private practice will also be addressed.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program
Credits: 2
Grade Mode: Letter

PSY 570 - Practicum

Professional practice under assigned departmental supervision. Repeatable to a maximum of 15 cr. S/U grading.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program
Credits: 1-10
Grade Mode: S/U

PSY 581 - Practicum in College Teaching of Psychology

Repeatable to a maximum of 12 cr. S/U grading.

Prerequisites & Notes: instructor permission

Credits: 1-12
Grade Mode: S/U

PSY 582 - Practicum in Research in Psychology

Student initiates and conducts a project under faculty supervision. Repeatable to a maximum of 12 cr. S/U grading.

Prerequisites & Notes: instructor permission
Credits: 1-12
Grade Mode: S/U

PSY 584 - Research Design

This course focuses on psychological research methods and the logic of research design.

Prerequisites & Notes: Admission to MS or MEd program in psychology or permission of instructor.
Credits: 3
Grade Mode: Letter

PSY 585 - Scholarship & Communication 1: Presenting Research

This course focuses on verbal communication of student research, including organization, preparation, and delivery of scholarship for varying contexts.

Prerequisites & Notes: PSY 584
Credits: 3
Grade Mode: Letter

PSY 586 - Scholarship & Communication 2: Writing Research

This course emphasizes written communication of research by focusing on the discipline and style of scientific writing.

Prerequisites & Notes: PSY 585
Credits: 3
Grade Mode: Letter

PSY 661 - Advanced Seminar in Professional Issues in Counseling Practice

An advanced seminar in professional, cultural, ethical and legal issues in counseling. For MS or MEd counseling students or counselors who are seeking advanced certification in Washington State. Repeatable for credit with different topics with no maximum. S/U grading.

Prerequisites & Notes: Admission to MS mental health counseling program, MEd school counseling, certification in school counseling or instructor permission.
Credits: 1-4
Grade Mode: S/U

PSY 670 - Internship

An extension of PSY 570 with increasingly independent responsibilities for practice in a

professional setting. Primary supervision is by appropriate staff in the cooperating agency. Repeatable to a maximum of 30 cr. S/U grading.

Prerequisites & Notes: admission to MS mental health counseling curriculum or MEd school counseling program
Credits: 1-12
Grade Mode: S/U

PSY 690 - Thesis
S/U grading.

Prerequisites & Notes: advancement to candidacy
Credits: 1-12
Grade Mode: S/U

Sociology

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others. Sociologists utilize a variety of information sources in their work, including census data, historical documents, transcripts from interviews, survey results, and observations of group behavior.

The Department of Sociology at Western has designed a program of course work that provides our majors with multiple opportunities to gain 1) understanding of theoretical perspectives within sociology, 2) mastery of the methods of data collection and analysis, and 3) in-depth knowledge of particular subareas. The subareas include law, crime, and deviance; families; population studies; social psychology; and social inequality. Regardless of the particular set of courses that is chosen, sociology students will develop an aptitude for critical thinking, the ability to write effectively for a social scientific audience, and competence with statistical computing that will enhance their future career options. We also offer faculty-led study abroad programs and encourage our students to experience immersion in cultures outside the United States. Recent sociology graduates have obtained positions in a variety of fields, including criminal justice, corrections, education, social services, business management, and marriage and family counseling, among many others. Graduates have found the skills acquired in our program have prepared them for further academic studies in sociology, demography, law, social work, business and education.

The Sociology Department offers four distinct bachelor's degrees as well as a Sociology Minor. The department maintains a number of facilities and resources that undergraduate students may use to enhance their educational experience. The Center for Social Science Instruction contains U.S. Census Bureau publications and data, a collection of census maps for the local area, and a computer lab. The director of the center is also available to assist students in accessing and analyzing large survey and census databases. The department also has its own 30-station computer laboratory for student use. Faculty are engaged in a variety of research activities, and frequently involve undergraduate students in their work.

Students who are interested in pursuing a sociology degree should carefully read the section labeled 'Admission to Sociology Major' and are encouraged to meet with the departmental program coordinator to establish a study plan as soon as possible.

Faculty

MICK CUNNINGHAM (2000) Chair and Professor. BA, Pacific Lutheran University; MA, PhD, University of Michigan.

KRISTIN ANDERSON (2001) Professor. BA, University of Northern Iowa; PhD, University of Texas-Austin.

KAREN BRADLEY (1992) Professor. BA, Providence College; MA, Boston College, Stanford University; PhD, Stanford University.

RICHARD BULCROFT (1999) Associate Professor. BA, University of New Hampshire; PhD, University of Minnesota.

SETH FEINBERG (2005) Associate Professor. BA, Tufts University; PhD, Ohio State University.

RONALD HELMS (2000) Professor. BA, California State University-Chico; PhD, University of Oregon.

JAMES INVERARITY (1985) Professor. BA, University of Michigan; PhD, Stanford University.

JENNIFER LOIS (2000) Professor. BA, Dartmouth College; PhD, University of Colorado.

BAOZHEN LUO (2010) Assistant Professor. BA, Nanjing University, China; MA, PhD, Georgia State University

LIZ MOGFORD (2007) Associate Professor. BA, St. John's College; MA, MPH, PhD, University of Washington.

JAY D. TEACHMAN (1998) Professor. BA, Western Washington University; MA, PhD, University of Chicago.

GLENN TSUNOKAI (2003) Professor. BA, PhD, University of California-Riverside.

Admission to Sociology Major

The number of students admitted to the major is limited as a result of the structure of the sociology curriculum and departmental staffing capabilities.

All students wishing to become Sociology majors should meet the following criteria:

- Completion of at least 45 college-level credits
- Completion of at least 5 credits in Sociology with a grade of C- or better

If the preceding criteria are met, students should complete the Sociology Major Admission form. There are two paths to becoming a Sociology major.

Path 1 (Immediate Declaration): Students with a cumulative GPA of 2.85 or higher may submit their admission form at any time to the Sociology Department Program Coordinator for approval and admission to the major.

Path 2 (Application Review): Students with a cumulative GPA lower than 2.85 should submit their admission form to the Sociology Program Coordinator on or before Friday of the 2nd week of fall, winter, spring, or summer quarter. These applications will be reviewed and admission to the major will be based on a combination of overall GPA, Sociology GPA, and space available in the program. Students will receive notification regarding their admission status during the third week of classes.

Other Departmental Information

Minors

Access to courses for minors is limited as a result of space constraints. See registration policy for additional information.

Bachelor of Arts

Sociology, BA

Department of Sociology, College of Humanities and Social Sciences

65 credits

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others.

Why Consider a Sociology Major?

Sociology students develop an aptitude for critical thinking, improve their writing ability, and gain competence with statistical computing that will enhance their future career options. Sociology students also have the opportunity to participate in faculty-led study abroad programs. Many Sociology graduates enter professions such as law, education, social services and criminal justice work.

How to Declare (Admission and Declaration Process):

The number of students admitted to the major is limited as a result of the structure of the sociology curriculum and departmental staffing capabilities.

All students wishing to become Sociology majors should meet the following criteria:

- Completion of at least 45 college-level credits
- Completion of at least 5 credits in Sociology with a grade of C- or better
- If the preceding criteria are met, students should complete the Sociology Major Admission form. There are two paths to becoming a Sociology major.
- Path 1 (Immediate Declaration): Students with a cumulative GPA of 2.85 or higher may submit their admission form at any time to the Sociology Program Coordinator for approval and admission to the major.
- Path 2 (Application Review): Students with a cumulative GPA lower than 2.85 should submit their admission form to the Sociology Program Coordinator on or before Friday of the 2nd week of fall, winter, spring, or summer quarter. These applications will be reviewed and admission to the major will be based on a combination of overall GPA, Sociology GPA, and space available in the program. Students will receive notification regarding their admission status during the third week of classes.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Any ONE of the following introductory courses:
 - SOC 221 - Introduction to Population Issues
 - SOC 234 - Special Topics in Sociology
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
 - SOC 269 - Race and Ethnic Relations
- Core requirements:
 - SOC 302 - Classical Sociological Theory
 - SOC 304 - Statistics for Sociology
 - SOC 306 - Sociological Research Methods
- One course from the following list of capstone seminars:
 - SOC 426 - Advanced Topics in Demography
 - SOC 430 - Field Research Methods

- SOC 435 - Population Health Advocacy
- SOC 440 - Globalization
- SOC 450 - Sociology of Law
- SOC 452 - Advanced Criminology
- SOC 456 - Seminar in Policing
- SOC 460 - Advanced Topics in Family
- SOC 461 - Advanced Sociology of Education
- SOC 469 - Advanced Topics in Race and Ethnicity
- SOC 492 - Senior Thesis

□ Electives under departmental advisement to bring the total to a minimum of 65 credits; select from any 200-level introductory course or from any 300/400-level courses in sociology.

A maximum of 10 credits of 100-level or 200-level sociology coursework may be applied to the major. A maximum of 10 credits combined from SOC 371, SOC 400, SOC 481 may be applied to the 65 credits required for the major.

Note: SOC 480 (TA) may not be applied toward the major; however SOC 480 applies as a university elective toward the total 180 credits required for graduation.

Sociology/Social Studies, BA

Department of Sociology, College of Humanities and Social Sciences

81-85 credits

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others.

Completion of the BA Sociology/Social Studies leads to an endorsement in social studies. To receive a recommendation for state of Washington certification for secondary education, students must complete the teacher certification program, including the content methods course SEC 426, which is offered by the Department of Secondary Education as 1) a part of the undergraduate BA degree, or 2) as a post-baccalaureate program, or 3) as part of the Master's in Education degree.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Sociology/Social Studies Major?

Sociology students develop an aptitude for critical thinking, improve their writing ability, and gain competence with statistical computing that will enhance their future career options. Sociology students also have the opportunity to participate in faculty-led study abroad programs.

A specialization in Sociology/Social Studies provides an excellent base of knowledge for individuals interested in becoming secondary-level social studies teachers.

- Path 2 (Application Review): Students with a cumulative GPA lower than 2.85 should submit their admission form to the Sociology Program Coordinator on or before Friday of the 2nd week of fall, winter, spring, or summer quarter. These applications will be reviewed and admission to the major will be based on a combination of overall GPA, Sociology GPA, and space available in the program. Students will receive notification regarding their admission status during the third week of classes.

Grade Requirements

Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

Sociology Course Requirements (40 credits)

- Any ONE of the following introductory courses:
 - SOC 221 - Introduction to Population Issues
 - SOC 234 - Special Topics in Sociology
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
 - SOC 269 - Race and Ethnic Relations
- Core Requirements:
 - SOC 302 - Classical Sociological Theory
 - SOC 304 - Statistics for Sociology
 - SOC 306 - Sociological Research Methods
 - Three courses from:
 - SOC 326 - American Family and Household Demography
 - SOC 330 - The Self, Emotions, and Society
 - SOC 332 - The Sociology of Human Relationships
 - SOC 333 - Aging and Societies

- SOC 338 - Sociology of Sexual Behavior
- SOC 340 - Sociology of Organizations
- SOC 345 - Contemporary American Families
- SOC 348 - Global Health
- SOC 352 - Criminology
- SOC 355 - Criminal Justice System
- SOC 360 - Marital and Family Interaction
- SOC 361 - Sociology of Education
- SOC 363 - Law and Social Stratification
- SOC 364 - Social Stratification
- SOC 367 - Sociology of Work and Occupations
- SOC 368 - Gender and Education
- SOC 369 - Sociology of Race and Ethnicity
- SOC 380 - Sociology of Youth
- SOC 390 - Globalization and Families
- One course from:
 - SOC 461 - Advanced Sociology of Education (preferred)
 - SOC 492 - Senior Thesis
 - Other 400-level capstone seminar

Social Studies Course Requirements (41-45 credits)

- □ ENVS 204 - Human Geography
- □ HIST 103 - Introduction to American Civilization: American History to 1865
- □ HIST 104 - Introduction to American Civilization: American History Since 1865
- □ HIST 121 - World History to 500
- □ HIST 123 - World History, 1500 to the Present
- □ HIST 391 - History of the Pacific Northwest
- □ PLSC 250 - The American Political System
- One course from:
 - ECON 206 - Introduction to Microeconomics
 - ECON 446 - Economics for the Teacher (preferred)
- One course from:
 - ECON 207 - Introduction to Macroeconomics
 - ECON 447 - Methods for Teaching About the National Economy in the Public Schools (preferred)
- One course from:
 - ENVS 202 - Introduction to Environmental Studies and Sustainability
 - ENVS 220 - Map Reading and Analysis
 - ENVS 221 - Geographic Information Systems Survey
 - ENVS 240 - Geography and World Affairs
 - ENVS 320 - GIS I: Introduction to Geographic Information Science
 - ENVS 342 - Geography of the World Economy
 - ENVS 343 - Urbanization: Processes and Patterns

Bachelor of Arts in Education

Sociology — Elementary, BAE

Department of Sociology, College of Humanities and Social Sciences

50 credits

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Sociology-Elementary Major?

Sociology students develop an aptitude for critical thinking, improve their writing ability, and gain competence with statistical computing that will enhance their future career options. Sociology students also have the opportunity to participate in faculty-led study abroad programs.

A specialization in Sociology-Elementary major provides an excellent base of knowledge for individuals interested in becoming elementary level educators.

How to Declare (Admission and Declaration Process):

The number of students admitted to the major is limited as a result of the structure of the sociology curriculum and departmental staffing capabilities.

All students wishing to become Sociology majors should meet the following criteria:

- Completion of at least 45 college-level credits
- Completion of at least 5 credits in Sociology with a grade of C- or better
- If the preceding criteria are met, students should complete the Sociology Major Admission form. There are two paths to becoming a Sociology major.
- Path 1 (Immediate Declaration): Students with a cumulative GPA of 2.85 or higher may submit their admission form at any time to the Sociology Program Coordinator for approval and admission to the major.

- Path 2 (Application Review): Students with a cumulative GPA lower than 2.85 should submit their admission form to the Sociology Program Coordinator on or before Friday of the 2nd week of fall, winter, spring, or summer quarter. These applications will be reviewed and admission to the major will be based on a combination of overall GPA, Sociology GPA, and space available in the program. Students will receive notification regarding their admission status during the third week of classes.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

Requirements

Sociology Course Requirements (50 credits)

- Any ONE of the following introductory courses:
 - SOC 221 - Introduction to Population Issues
 - SOC 234 - Special Topics in Sociology
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
 - SOC 269 - Race and Ethnic Relations
- Core Requirements:
 - SOC 302 - Classical Sociological Theory
 - SOC 304 - Statistics for Sociology
 - SOC 306 - Sociological Research Methods
- Three courses from:
 - SOC 326 - American Family and Household Demography
 - SOC 330 - The Self, Emotions, and Society

 - SOC 364 - Social Stratification
 - SOC 367 - Sociology of Work and Occupations
 - SOC 368 - Gender and Education
 - SOC 369 - Sociology of Race and Ethnicity
 - SOC 380 - Sociology of Youth
 - SOC 390 - Globalization and Families
- One course from:
 - SOC 461 - Advanced Sociology of Education
 - SOC 492 - Senior Thesis
 - Other 400-level capstone seminar
- Two additional courses: Electives under departmental advisement to bring the total to a minimum of 50 credits in Sociology.
A maximum of 10 credits of 100-level or 200-level sociology coursework may be applied to the major.

SOCIOLOGY

Additional Requirements

Elementary Education Professional Program Requirements (100-101 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (22 credits)

- ELED 303 - Educational Psychology - Development and Learning
- ELED 310 - Education, Culture, and Equity
- ELED 370 - Introduction to Teaching
- I T 344 - Basic Instructional Technology Skills
- I T 442 - Classroom Use of Instructional Technology (Elementary)
- SPED 364 - Teaching Each Student

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-79 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators
 - DNC 398 - Integrated Arts for Elementary Educators
 - MUS 398 - Integrated Arts for Elementary Educators
 - THTR 398 - Integrated Arts for Elementary Educators
- One course from:
 - ART 380 - Art Educating the Child
 - DNC 433 - Creative Movement for Educators With Lab
 - MUS 361 - Music for Elementary Teachers
 - THTR 350 - Theatre for Youth
 - THTR 351 - Creative Pedagogy
 - ELED 425 - Social Studies for the Elementary School
 - ELED 470 - Developing Teaching
 - ELED 471 - Documenting Teaching
 - ELED 480 - Literacy: Beginning Communicators
 - ELED 481 - Literacy: Fluent Communicators
 - ELED 491 - September Experience
 - ELED 492 - Practicum: Experience in Literacy Methods
 - ELED 494 - Internship - Elementary

- HLED 455 - Health Education Grades K-8
- MATH 381 - Teaching K-8 Mathematics I
- MATH 382 - Teaching K-8 Mathematics II
- MATH 383 - Teaching K-8 Mathematics III
- MATH 491 - Internship Seminar - Teaching K-8 Mathematics
- PE 345 - Physical Education for Elementary School
- SCED 480 - Science Methods and Curriculum for the Elementary School
- SCED 490 - Laboratory/Field Experience in Elementary Science

Bachelor of Science

Sociology, BS

Sociology, College of Humanities and Social Sciences

69 credits

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others.

Why Consider a Sociology Major?

Students pursuing the B.S. in Sociology are required to complete a math-intensive course of study. They will also develop an aptitude for critical thinking and improve their writing ability. Students will obtain substantial experience with statistical computing, including programming and data analysis. Majors with a B.S. degree are well positioned to enter graduate school, to become government data analysts, or to conduct market research.

All students wishing to become Sociology majors should meet the following criteria:

- Completion of at least 45 college-level credits
- Completion of at least 5 credits in Sociology with a grade of C- or better

SOCIOLOGY

- If the preceding criteria are met, students should complete the Sociology Major Admission form. There are two paths to becoming a Sociology major.
- Path 1 (Immediate Declaration): Students with a cumulative GPA of 2.85 or higher may submit their admission form at any time to the Sociology Program Coordinator for approval and admission to the major.
- Path 2 (Application Review): Students with a cumulative GPA lower than 2.85 should submit their admission form to the Sociology Program Coordinator on or before Friday of the 2nd week of fall, winter, spring, or summer quarter. These applications will be reviewed and admission to the major will be based on a combination of overall GPA, Sociology GPA, and space available in the program. Students will receive notification regarding their admission status during the third week of classes.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Any ONE of the following introductory courses:
 - SOC 221 - Introduction to Population Issues
 - SOC 234 - Special Topics in Sociology
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
 - SOC 269 - Race and Ethnic Relations
 - Core requirements:
 - SOC 302 - Classical Sociological Theory
 - SOC 304 - Statistics for Sociology
 - SOC 306 - Sociological Research Methods
 - MATH 124 - Calculus and Analytic Geometry I
 - MATH 125 - Calculus and Analytic Geometry II
 - MATH 204 - Elementary Linear Algebra
 - SOC 320 - Computer Applications for Social Science Data
 - SOC 400 - Independent Study
 - SOC 426 - Advanced Topics in Demography
 - SOC 492 - Senior Thesis
 - At least 15 credits of elective courses under departmental advisement
- A maximum of 10 credits of 100-level or 200-level sociology coursework may be applied to the major. A maximum of 10 credits combined from SOC 371, SOC 400, SOC 481 may be applied to the 69 credits required for the major.
- Note:** SOC 480 (TA) may not be applied toward the major; however SOC 480 applies as a university elective toward the total 180 credits required for graduation.

Minor

Sociology Minor

Department of Sociology, College of Humanities and Social Sciences

25 credits

Introduction

Sociologists examine topics encompassing a vast array of human behavior: crime and punishment, the formation and dissolution of families, bureaucracy in organizations, conflicts between classes, and global inequalities. Sociology is distinctive in its focus on the way individuals' lives are embedded within multiple social contexts that facilitate and constrain the range of possible actions. These contexts include generation, occupation, gender, religion, sexual orientation, family, health, nation, race and ethnicity, and many others.

Why Consider a Sociology Minor?

A Minor in Sociology is likely to benefit students across a wide range of majors. Students entering professions such as education, business, journalism, law enforcement, and human services are likely to gain skills and knowledge that will allow them to better understand clients, co-workers, and work-related processes.

Major/Career Resources
http://www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

A Minor Declaration Card is available from the Sociology Program Coordinator.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- One or two from:
 - SOC 221 - Introduction to Population Issues
 - SOC 234 - Special Topics in Sociology
 - SOC 251 - Sociology of Deviant Behavior
 - SOC 255 - Social Organization of Criminal Justice
 - SOC 260 - The Family in Society
 - SOC 268 - Gender and Society
 - SOC 269 - Race and Ethnic Relations
- Electives under departmental advisement (from 300- or 400-level sociology courses with prerequisites completed; not to include SOC 400, SOC 471, SOC 480 or SOC 492)

Sociology Courses

SOC 221 - Introduction to Population Issues
 Processes determining population growth - fertility, mortality and migration - and their influence on economic development in the more- and less-developed countries of the world; population

policies in various countries and their implications for population growth and future development.

Credits: 5
 Grade Mode: Letter
 GUR Attributes: SSC

SOC 234 - Special Topics in Sociology

SOCIOLOGY

This course investigates a range of sociological issues by focusing on a specific topic over the course of one term. Topics may be offered A) based on unique areas of faculty expertise and/or B) in order to address emerging social issues in a timely fashion that are not covered by courses in the current catalog. Students' learning will include exposure to theoretical perspectives in the discipline, discussion of various methodological approaches to social inquiry, and the opportunity to apply key concepts. Repeatable with different topics to a maximum of 10 credits, including original course. May be taken only once for GUR credit.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

SOC 251 - Sociology of Deviant Behavior

A broad overview of concepts, issues and research findings in the sociological study of deviant behavior; how deviance is defined, reacted to and punished in American society. Emphasis on contemporary theoretical perspectives, along with current issues in deviance.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

SOC 255 - Social Organization of Criminal Justice

A survey of basic concepts, problems and issues in the sociological study of social organizations applied to the criminal justice system.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

SOC 260 - The Family in Society

Introduction to the study of family as a social institution in society. Overview of social theories on the family and methodological underpinnings of the field of family study. Emphasis on the family as agent of stratification in society, changing roles of men and women in the context of the American family, contemporary issues relating to family social policy today, and the interplay between family and society across time and cultures.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

SOC 268 - Gender and Society

Introduction to major concepts, issues and research findings regarding the relationship

between gender and social structures. Aspects of society examined include education, work, family, law, government and the media. Discussion includes interrelationship between gender, race, class and age. Focus on the U.S., with some cross-national material.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

SOC 269 - Race and Ethnic Relations

Introduces students to the sociology of race and ethnic relations in the United States. Surveys racial and ethnic minority groups and provides a historical context for their relative positions in the United States by considering the dynamics of the political and economic climate, racial/ethnic attitudes, interminority relations, and social policy.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

SOC 302 - Classical Sociological Theory

The emergence of sociology: sociology as response to the Industrial Revolution and as an attempt to develop a scientific understanding of social organization, behavior and change; the development of social thought; Comte, Spencer, Marx, Durkheim and Weber.

Prerequisites & Notes: Any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269.

Credits: 5
Grade Mode: Letter

SOC 304 - Statistics for Sociology

An applied statistics course that introduces students to two important aspects of statistics: (1) graphical and numerical procedures for describing and summarizing data; and (2) quantitative analysis of data to make decisions and predictions and draw inferences. This course also involves the use of computers for statistical analysis and introduces students to the most common statistics used by sociologists.

Prerequisites & Notes: MATH 107 or MATH 112 or equivalent; And any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269. Major restricted.

Credits: 5
Grade Mode: Letter
GUR Attributes: QSR

SOC 306 - Sociological Research Methods

Focuses on applying research methods used by sociologists. Examines the principles of research design, the nature of empirical observations, sampling and measurement techniques, and applied narrative and statistical analysis. Engages students in the steps of the research process and examines effective social science writing techniques.

Prerequisites & Notes: Any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269.
Credits: 5
Grade Mode: Letter

SOC 320 - Computer Applications for Social Science Data

Designed to integrate fundamental statistical knowledge with direct computer applications for the organization and analysis of data sets encountered in social science research. Training in the use of library statistical routines (e.g., SPSS) central to research in the social sciences is emphasized.

Prerequisites & Notes: SOC 304 or equivalent; and any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269.
Credits: 5
Grade Mode: Letter

SOC 321 - Demography

Systematic introduction to the study of human populations. Designed for students interested in the subject regardless of their major discipline. Examines social, economic and biological factors associated with fertility, mortality and migrations.

Prerequisites & Notes: SOC 304 or equivalent; and any one course from SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 326 - American Family and Household Demography

Description and explanation of trends in family behavior and family policy, with an emphasis on the influence of demographic factors. Topics include childhood, independent living, cohabitation, marriage, divorce, work and family, household structure, and aging.

Prerequisites & Notes: Any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269.
Credits: 5
Grade Mode: Letter

SOC 330 - The Self, Emotions, and Society

Examines the relationship between the self and society, including topics such as the nature of the self, the development of self-concept, the social construction of emotions and their impact on sense of self, and the social organization of identity. Emphasizes the theoretical perspective of symbolic interaction and its relationship to qualitative research.

Prerequisites & Notes: Any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 332 - The Sociology of Human Relationships

A social psychological examination of liking, loving and relating. Emphasis on dyadic relationships such as marriage, friendship and parent-child relationships. Topics include socialization into romance and love, historical linkages between industrialization and the 'feminization' of love, sociological perspectives on liking and loving, and research methods used in the study of dyadic relationships.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 333 - Aging and Societies

Basic theories, methods and concepts in the field of social gerontology highlighting demographic trends in aging locally, nationally, and globally, the effects of population aging in developing and developed countries, individual accommodations to the aging process in different societies, the social construction of old age across cultures, and social policy in relation to the stratification of the aged and an increasingly elderly population from a comparative perspective.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 334 - Contemporary Chinese Society

This course provides an overview of various aspects of contemporary Chinese society since the establishment of the People's Republic of China in 1949. Students will gain basic literacy in the historical, social, cultural, and political domains within contemporary China. In particular, the

SOCIOLOGY

course will focus on on-going social changes in Reform-era China (1978 - present) related to the party-state regime, civil society, population growth and urbanization, environmental issues, family, kinship, marriage, sexuality, and related topics.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, or SOC 269.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

SOC 338 - Sociology of Sexual Behavior

Human sexuality, with an emphasis on Western cultures and the United States in particular, is studied from a scientific perspective. Emphasis on both description and explanation of patterns and diversity in sexuality. While focusing on the social dimensions of sexuality, the historical, biological and psychological aspects of sexuality are integrated into a comprehensive overview.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 340 - Sociology of Organizations

Introduction to major theoretical perspectives and research on public and private organizations, such as corporations, schools and health-care facilities. Formal and informal structures, the relationship between organizations and their environments, leadership, decision-making and labor markets.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 341 - Sociology of Social Movements

This class will explore sociological understandings of social movements, starting with the collective behavior theories of the 1950s and continuing to contemporary, constructivist understandings. Over the course of the class, students will learn how sociologists understand collective action undertaken to bring about social change, examine various theories and models, explore some of the history of social movements in our country, and simulate social movement participation.

Prerequisites & Notes: One course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268, or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 342 - Sociology of Religion

Explores the sociological perspective on religion. Focuses on religion's persistent relevance to societies and to smaller groups and the effects of secularization. Assesses the social patterns of religious participation, by race, class, immigrant status, age, gender. Investigates the connections between religion and other social institutions such as the economic, educational and political systems.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

GUR Attributes: SSC

SOC 345 - Contemporary American Families

Applies a sociological perspective to the study of contemporary families. Investigates current patterns of sexuality, relationship formation, parenting, the gendered division of labor, migration, and other key dimensions of family life. Focuses on understanding sources of difference in family forms across important social divisions such as race, class, and age.

Prerequisites & Notes: One course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 348 - Global Health

Introduces students to the main concepts of global health, with a particular emphasis on sociological determinants of health. Focuses on the demographic and epidemiological transitions, gender and reproductive health, human rights, and the global burden of disease. Evaluates the role of international institutions, such as the World Bank and non-governmental organizations, in the organization and delivery of health services in underdeveloped countries. Understanding the root causes of health disparities and strategies for the achievement of health equity is central to the course. Please note: this course includes an engaging group project that requires students to hold several out-of-class meetings. Please take this into consideration before you enroll.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter
GUR Attributes: ACGM

SOC 352 - Criminology

The study of adult crime, defined as violation of legal norms. Focuses on problems of measurement and attempts to explain crime as a social phenomenon and a cultural product. Includes in-depth analysis of various forms and classes of crimes and their victims.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 354 - Domestic Violence and the Criminal Justice System

A survey of sociological research on domestic violence and the criminal justice system. Examines the historical and cultural changes that contributed to the classification of domestic violence as a crime, the characteristics of domestic assault, and the variety of criminal justice interventions into domestic violence.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 355 - Criminal Justice System

Overview of the social organization of the criminal justice system in the United States. Examination of the organizations that create and enforce the criminal law as well as major issues currently confronting this system (plea bargaining, discrimination, limitations on due process).

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, 268, or SOC 269. SOC 255 preferred.

Credits: 5

Grade Mode: Letter

SOC 356 - Law Enforcement and Society

Review of research on the organization of law enforcement. Topics include impact of legal and organizational controls on police behavior, police use of deadly force, minorities and policing, and community policing.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 360 - Marital and Family Interaction

Examines systems and interactional perspectives on marriage and family dynamics. The focus of this course is on family adaptation as a function of system processes and interactional patterns.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 361 - Sociology of Education

Analysis of the historical origins and spread of public education, the internal organization of schools and classrooms and the social impact of education. Schooling as a major form of socialization and status placement; political and legal bases of education; non-formal schooling; education and nation-state formation.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 363 - Law and Social Stratification

Examination of current sociological research on the ways in which the creation and application of law are conditioned by class, racial, gender, and ethnic inequalities in society. Applies several general sociological theories of stratification to a range of cases in both civil and criminal law.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 364 - Social Stratification

Social causes and consequences of inequality in America. Social distribution of wealth, power and status; emphasis on poverty and racial social inequality.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 365 - Gender, Bodies, and Sports

Applies sociological perspectives to study the relationship between gender, bodies, and sports in the U.S. society. Focuses on contemporary sociological theories of gender and bodies and their application to sport as a social institution.

SOCIOLOGY

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

SOC 366 - Colonialism, Slavery, and Links to Contemporary Racism

A seminar course to analyze the precursors of contemporary racism using a sociological perspective of racial inequality in the United States and in western, eastern, and southern Africa.

There is a specific examination of the historical record of colonialism, slavery, and interethnic rivalry with a particular emphasis on the lasting effects of slavery for people of color in many parts of Africa and the United States.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

SOC 367 - Sociology of Work and Occupations

Sociological and social-psychological significance of work; factors affecting contemporary career patterns/life cycle changes; sex, race, ethnic and social class differences; structural characteristics of selected occupational areas.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 368 - Gender and Education

Examines the relationship between gender and education within the U.S. context and internationally. We will consider girls and boys, women and men, in various levels of schooling. The ways in which race and class interact with gender in educational attainment and achievement also will be examined.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269; SOC 268 preferred or course with equivalent gender content.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

SOC 369 - Sociology of Race and Ethnicity

Provides a review of historical, theoretical and empirical work in the sociology of race and

ethnicity. Emphasis on primary material in the areas of ethnic assimilation, racial attitudes, and racial and ethnic inequality in the United States.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269; SOC 269 or minority relations course preferred.

Credits: 5

Grade Mode: Letter

SOC 371 - Directed Internship

Application of sociological concepts and methods to better understand social issues and problems while engaged in on-site work experiences in approved settings. All interns work at least 10 hours per week at the internship site, in the type of work specified in the contract. In addition, students complete several written assignments, including a research paper. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: SOC 302 and SOC 306

Credits: 5

Grade Mode: Letter

SOC 376 - Research and Policy in Criminal Justice Organizations

Examines the sociological studies of criminal justice policy formation and change. Outlines connections between criminal justice policy planning, program design, organizational structure and process considerations, and various methods used to assess change processes and to evaluate program outcomes.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 378 - Military Sociology

This course draws on philosophical works as well as theoretical and applied research to assess the current status of the U.S. military and its relations with civilian government and society since the Vietnam war and cold war experiences. Emphasis is placed on emerging threats to U.S. national security and the military's national defense mission under the changing conditions associated with the era of globalism.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.

Credits: 5

Grade Mode: Letter

SOC 380 - Sociology of Youth

Sex and age status definitions and role-taking; historical, institutional and social process aspects of maturation, with special emphasis on Western industrial society from the 18th century to the present.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 388 - Sociology of Jails

This course emphasizes sociological analysis of local jail operations, including populations, funding, management, legal, and regulatory aspects and roles of various professions operating in the jail environment.

Prerequisites & Notes: Any one course from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter

SOC 390 - Globalization and Families

An examination of the phenomenon of globalization and a review of the literature on how globalization is affecting families around the world. Included is a consideration of impacts on relationship formation, marriage, parenting, childhood and later life families.

Prerequisites & Notes: Any one from: SOC 221, SOC 234, SOC 251, SOC 255, SOC 260, SOC 268 or SOC 269.
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

SOC 426 - Advanced Topics in Demography

Analysis of fertility or mortality issues in both developed and developing countries; proximate determinants of fertility; birth-spacing and family limitation practices; infant and child mortality; life expectancy.

Prerequisites & Notes: SOC 302; SOC 304 or PSY 302 or SOC 215; SOC 306 or PSY 301 or SOC 210; and SOC 320.
Credits: 5
Grade Mode: Letter

SOC 430 - Field Research Methods

Presents skills to conduct qualitative sociological research. Emphasizes ethnographic techniques such as direct observation, participant observation, intensive interviewing, data analysis, literature

review, and report writing. Each student conducts original sociological research by entering a specific social setting, collecting and analyzing data within that setting, and producing a comprehensive paper on the findings.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210; SOC 330 highly recommended.
Credits: 5
Grade Mode: Letter

SOC 435 - Population Health Advocacy

The goals of this capstone course are to understand population health dynamics and health equity through research-based advocacy. In addition to studying the literature and theories of population health, the social determinants of health, and health promotion, you will complete a community-based research project. Each year the research topic varies, depending on the needs of the community partner organization or on the particular research objectives. Typically, the research will be conducted as a team, so students will gain leadership and management skills and be required to collaborate closely with other classmates. Depending on the specific project, quantitative or qualitative methods may be used.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210; and SOC 348.
Credits: 5
Grade Mode: Letter

SOC 440 - Globalization

Examines the economic, cultural and political components of globalization. Special topics include the new forms of inequality that have emerged with global interdependence and debates concerning the benefits and dangers associated with globalization.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210.
Credits: 5
Grade Mode: Letter

SOC 450 - Sociology of Law

A capstone research seminar in which students develop an individual project, write a review of previous research, and conduct an analysis using secondary data sources to study the effects of laws on society (e.g., consequences of no-fault divorce laws) and the social bases of legal change (e.g., factors influencing state adoption of sentencing guidelines).

SOCIOLOGY

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210.

Credits: 5

Grade Mode: Letter

SOC 452 - Advanced Criminology

An in-depth examination of selected areas in sociological criminology.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210; and SOC 352.

Credits: 5

Grade Mode: Letter

SOC 456 - Seminar in Policing

An in-depth review of research on the organization of law enforcement. Advanced topics include impact of legal and organizational controls on police behavior, police use of deadly force, minorities and policing, and community policing.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210.

Credits: 5

Grade Mode: Letter

SOC 460 - Advanced Topics in Family

Focus varies, depending on instructor. Emphasis on current research in family sociology. Topics may include family violence, demographic analysis of family structures, family life course development, family and the economy, parent-child interaction, family and social policy, and others.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210.

Credits: 5

Grade Mode: Letter

SOC 461 - Advanced Sociology of Education

Focus varies, depending on instructor. Topics may include the organization of educational systems within the United States and cross-nationally, school/classroom organization and their effects on student learning and educational attainment; examination of special topics on-site in specific school settings.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210.

Credits: 5

Grade Mode: Letter

SOC 469 - Advanced Topics in Race and Ethnicity

An in-depth examination on current issues surrounding race and ethnic relations (e.g., interracial dating, prejudice and discrimination, and hate group involvement).

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210; and SOC 369 or permission of instructor.

Credits: 5

Grade Mode: Letter

SOC 480 - Learning and Teaching Sociology

The teaching assistantship is intended to provide students with practical experience in the teaching of sociology at the undergraduate level. To that end, students will get hands-on experience in the various activities associated with teaching a particular course in the department. TA duties may include leading discussion groups, assisting the instructor in preparing lecture material, and assisting students in the class with understanding course material. A more detailed list of sample activities may be obtained from the academic advisor. Actual duties will vary by course and instructor. Credit is determined by the instructor depending on the actual duties of the teaching assistant. Repeatable to a maximum of 5 credits. S/U grading.

Prerequisites & Notes: Permission of instructor.

Credits: 2-5

Grade Mode: S/U

SOC 481 - Research Assistantship

Course is structured consistent with the apprenticeship model. Students will work closely with one faculty member, assisting in sociological research. Actual activities will vary depending upon the nature and stage of the research project. Responsibilities may include data set construction and/or analysis, interviewing and interview transcription, and library searches. Students are required to submit a report or project journal to the supervising instructor in a format to be mutually agreed upon at the start of the assistantship. Repeatable to a maximum of 10 cr.

Credits: 2-5

Grade Mode: Letter

SOC 492 - Senior Thesis

The student is required to complete the senior thesis contract in consultation with his/her senior thesis faculty advisor prior to taking the SOC 400/492 sequence.

Prerequisites & Notes: SOC 302; and SOC 304 or PSY 302 or SOC 215; and SOC 306 or PSY 301 or SOC 210. 5 credits of SOC 400 taken with student's senior thesis faculty advisor before and in preparation for senior thesis.

Credits: 5

Grade Mode: Letter

Women, Gender, and Sexuality Studies

<https://chss.wvu.edu/wgss>

The Women, Gender, and Sexuality Studies program offers students an interdisciplinary approach to the study of the formation of sex, gender, and sexuality as they intersect with structures of power including, but not limited to, race, class, ethnicity, nationality, religion, age, and ability. Courses in the program address three basic areas: women, gender, and sexuality in history and politics; women, gender, and sexuality in science and society; and women, gender, and sexuality in language and the arts.

The minor includes core courses and additional electives for a total of 30 credits. Students are required to earn at least a C+ in courses counting toward the minor.

Students may design a student/faculty-designed major through the College of Humanities and Social Sciences. Procedures are available from the Department of Liberal Studies at <http://www.wvu.edu/liberalstudies/basfd.shtml>. Close advisement is recommended, as new courses may apply to this minor.

Students who wish to declare a minor in Women, Gender, and Sexuality Studies are required to register with the Director or Program Manager. For program advisement, contact Professor Hsueh, Arntzen Hall 405 (Mail Stop 9082), 360-650-2649, or Carrie Thurman, Program Manager, Environmental Studies 603, (Mail Stop 9099), 360-650-3763.

Minor

Women, Gender, and Sexuality Studies Minor

Department of Women, Gender, and Sexuality Studies, College of Humanities and Social Sciences

30 credits

Introduction

Western Washington University's Women, Gender, and Sexuality Studies program draws on interdisciplinary research and teaching to analyze the formation of sex, gender, and sexuality as they intersect with structures of power including, but not limited to, race, class, ethnicity, nationality, religion, age, and ability.

Women, Gender, and Sexuality Studies is committed to the project of social justice. We examine and challenge systems of oppression, inequality, and privilege from a variety of perspectives. Our program encourages theory and praxis that critically considers global and local communities in efforts to revise, re-envision, and reimagine social change.

The curriculum provides students with skills to critically and actively engage with the world around them. Many of our courses connect academia to the material world by investigating the relationship between theory and practice - a central commitment of much feminist, gender, and queer scholarship. Our courses are characterized by rigorous and sustained critical thinking, inquiry, and analysis: skills central to the task of enhancing equality, dignity, and empowerment.

Why Consider a Women, Gender, and Sexuality Studies Minor?

Drawing on the rich pool of academic expertise at Western, the program emphasizes theories and practices derived from feminist, queer, postcolonial, multiracial, and multicultural contexts. Our curriculum emphasizes scholarly engagement with a wide range of disciplines, including: history, fine and performing art, literature, creative writing, political science, communication studies, anthropology, sociology, psychology, environmental studies, visual culture, journalism, education, and science.

Students enjoy small class sizes and close faculty interaction. Our community is intellectually challenging, supportive, and creative. Our diverse faculty encourages scholarship that is interdisciplinary and intersectional. Individual concentrations and senior projects evolve along with students' intellectual and experiential growth and academic expertise.

Sample Careers

The Women, Gender, and Sexuality Studies program prepares students with a solid foundation to pursue careers in fields such as law, social service, counseling, public policy, health care, teaching, and the arts. We also give students a strong foundation for pursuing graduate work in women and gender studies, as well as in such disciplines as political science, communication studies, literature, journalism, history, cultural studies, law, education, policy, and social welfare.

Major/Career Resources

How to Declare (Admission and Declaration Process):

Students who wish to declare a minor in Women, Gender, and Sexuality Studies are required to register with the Women, Gender, and Sexuality Studies office. For program advisement, contact Professor Hsueh, Arntzen Hall 405, 360-650-2649, Vicki.Hsueh@wwu.edu or Program Manager, Carrie Thurman, Environmental Studies 603, 360-650-3377, Carrie.Thurman@wwu.edu.

Grade Requirements

Students are required to earn at least a C+ in courses counting towards the minor.

Core Requirements (8-10 credits)

- WMNS 211 - Introduction to Women Studies
- WMNS 411 - Senior Project

One Course From Each of the Following Areas (20-22 credits)

Women, Gender, and Sexuality in History and Politics:

- FAIR 311C - Alternatives in Education
- FAIR 312E - Transgender Identities and Histories
- FAIR 313E - Queer Issues in Education **
- FAIR 362F - We're Not for Sale: History of Asian Women in America
- FAIR 363B - Suzie Wong to Miss Saigon: Asian Presence in Hollywood
- HIST 265 - Lesbian, Gay, Bisexual, and Transgender Experiences in U.S. History
- HIST 365 - History of Sexuality in the United States
- HIST 367 - US Women to 1865
- HIST 368 - US Women from 1865
- HIST 369 - Women, Gender, & Sexuality in African History
- HIST 421 - Gender in Early Modern Europe
- HIST 484 - Women in Japanese History
- PLSC 345 - Women and Politics
- PLSC 421 - Queer/Lesbian, Gay, Bisexual, Transgender Politics
- PLSC 469 - Feminist Political Theory
- PLSC 493 - Issues in Political Theory *
- WMNS 311 - American Women Studies: 1620-1850
- WMNS 313 - American Women Studies: 1850-Present

Women, Gender, and Sexuality in Science and Society:

- AMST 203 - The Hispano/a-American Experience
- AMST 204 - The African-American Experience
- AMST 205 - The Asian-American Experience
- AMST 242 - The Lesbian, Gay, Bisexual, Transgendered Experience
- AMST 301 - Comparative Cultural Studies
- AMST 314 - Contemporary Latino/A Issues
- AMST 315 - Contemporary American Indian Issues
- AMST 316 - Contemporary African American Issues
- ANTH 353 - Sex and Gender in Culture
- ANTH 424 - Medical Anthropology
- ANTH 453 - Women of the Global South
- ANTH 490 - Senior Seminar in Anthropology
- FAIR 313E - Queer Issues in Education **
- FAIR 314E - Critical Pedagogy
- FAIR 338P - Cultural and Biological Perspectives on Pregnancy and Childbirth

WOMEN, GENDER, AND SEXUALITY STUDIES

- FAIR 341T - Awareness Through the Body II
- FAIR 342U - The Body Speaks: Culture and Eating Disorders
- FAIR 448T - Risk and Resilience in Adolescent Girls: Development, Culture and Identity
- FAIR 451X - Resistance Art of the Indigena
- PSY 116 - Human Sexuality
- PSY 119 - Psychology of Gender
- SOC 268 - Gender and Society
- SOC 338 - Sociology of Sexual Behavior
- SOC 354 - Domestic Violence and the Criminal Justice System
- SOC 360 - Marital and Family Interaction
- SOC 365 - Gender, Bodies, and Sports
- SOC 368 - Gender and Education
- WMNS 314 - Global Women

□ **Women, Gender, and Sexuality in Language and the Arts:**

- A/HI 438 - Art and Feminism
- COMM 416 - Topics in Communication *
- ENG 227 - Introduction to Gay, Lesbian, Bisexual and Transgender Literature
- ENG 309 - Literature and Culture III: 18th and 19th Centuries *
- ENG 310 - Literature and Culture IV: 19th and 20th Centuries *
- ENG 311 - Literature and Culture V: 20th and 21st Centuries *
- ENG 338 - Women and Literature in North America and Europe
- ENG 408 - Cultural Studies *

(Additional English courses in literature and theory with a primary focus on women and/or gender may be used as an elective. Please consult with program advisor.)

- FREN 410 - Ecriture Feminine Francophone
- JOUR 375 - Diversity, Mass Media and Social Change
- THTR 428 - Major Dramatists *
- WMNS 212 - Feminist Theory and Expression

□ **Electives: 4 or more credits from any of the above areas**

* Topics in these courses are subject to change and may not in certain quarters be applicable to the Women, Gender, and Sexuality Studies minor. Please consult with the program director for advisement.

** FAIR 313E may only meet the requirement in one area.

Additional information

Each academic year the women studies office compiles a list of all courses with a women, gender, and sexuality studies focus. Detailed descriptions of the above courses can be found in their respective department listings.

Women Studies Courses

WMNS 211 - Introduction to Women Studies

Introduction to the issues, questions, conceptual frameworks and methods basic to a study of human societies, their institutions and cultural artifacts from a perspective that comprehends women's experience.

Credits: 4

Grade Mode: Letter

GUR Attributes: BCGM

WMNS 212 - Feminist Theory and Expression

This course will engage students in critical thinking, reading and writing about multicultural and global perspectives that women have developed from a feminist consciousness. Class material may include oral, written, and visual texts.

Prerequisites & Notes: ENG 101; 30 credits.

Credits: 4

Grade Mode: Letter

GUR Attributes: CCOM

WMNS 311 - American Women Studies: 1620-1850

Women's role in American society from colonial times to the mid-19th century, with attention to

differences of race and class. Emphasis on changing sex roles for both women and men as a result of changes in the structure of the family, immigration, urbanization, expansion of the frontier, education, religion, development of the nation and industrialization.

Prerequisites & Notes: HIST 103 or 104 or ENG 216 or other WMNS course.
Credits: 5
Grade Mode: Letter

WMNS 313 - American Women Studies: 1850-Present

Factors influencing the female gender role as it changed in the last century and a half from the 'Cult of True Womanhood' to the 'New Woman' to the 'Feminine Mystique' to the 'Liberated Woman.' Emphasis on the impact of changing modes of American capitalism; women's efforts for equal rights and social reform; changing patterns of fertility; women's increased participation in the work force; changes in women's role in the domestic sphere.

Prerequisites & Notes: HIST 103 or 104 or ENG 216 or other WMNS course.
Credits: 5
Grade Mode: Letter

WMNS 314 - Global Women

Introduces the concepts of transnational feminism. Examines the experiences of women in a global economy, explores the strategies women develop to resist global patriarchal structures, and to organize and mobilize globally.

Prerequisites & Notes: WMNS 211 or four credits of 300-level Women Studies.
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

WMNS 315 - Issues of Women's Movement

Prerequisites & Notes: PLSC 101, SOC 101 or permission of instructor.
Credits: 3
Grade Mode: Letter

WMNS 320 - Topics in Women, Gender, and Sexuality Studies

Focus on special topics in women, gender, and sexuality studies. Readings and/or topic area to be determined by instructor. Repeatable up to 10 credits with different topics, including original course. May be taken only once for GUR credit.

Prerequisites & Notes: WMNS 211 or instructor

permission
Credits: 3-5
Grade Mode: Letter
GUR Attributes: BCGM

WMNS 411 - Senior Project

Projects serve as a capstone experience for minors and majors in which students demonstrate their ability to apply knowledge of subject matter and methodology. Students are encouraged to develop interdisciplinary research or field projects that gives them opportunity to put into practice the theories and skills they have been learning during the course of their study. Students are encouraged to develop project internships with women's community organizations. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: Completion of Women Studies core.
Credits: 1-6
Grade Mode: Letter

WMNS 453 - Women of the Global South

Explores women's economic, religious, political and familial roles through topics such as development and globalization, violence, and women's movements. Student contributions to course topics emphasized through individual papers and group panel work. Also offered as ANTH 453.

Prerequisites & Notes: Fifteen credits of 300-level Anthropology or related discipline; WMNS 211; ANTH 353 highly recommended; or permission of instructor.
Credits: 5
Grade Mode: Letter

College of Science and Engineering

Introduction

Dr. Catherine D. Clark, Dean

The College of Science and Engineering consists of seven academic departments: biology, chemistry, computer science, engineering technology, geology, mathematics, and physics/astronomy. In addition to the academic departments, the college is home to Western's Science, Mathematics, and Technology Education (SMATE) program and the Advanced Materials Science and Engineering Center (AMSEC). SMATE is dedicated to the enrichment and education of K-12 pre-service teachers and education reform. AMSEC's mission is to educate students and promote interdisciplinary research in materials science and to assist regional companies solve their materials related challenges. The college is committed to excellence in teaching, fostering interdisciplinary research and study opportunities, enhancing diversity, enhancing the quality of science, mathematics and technology K-12 teaching, and the development of critical thinking. Western has extensively invested in new facilities for the sciences in recent years (biology, chemistry, engineering technology, and SMATE). Additionally, the communications facility opened in the spring of 2004 and houses both the computer science department and the physics/astronomy department. Thus, students in the college are engaged in high-quality classroom experiences that, when combined with laboratory experiences, foster a basic understanding of the scientific method and research methodologies. Students in the college are encouraged to participate in individual or team research projects with faculty members.

All the departments within the college are dedicated to providing a high-quality education for students by incorporating undergraduate research and practical laboratory-based experiences to stimulate intellectual curiosity, critical thinking abilities and application of the scientific method. Graduates from the college pursue graduate degrees, a wide variety of jobs in industry or governmental organizations, or become teachers. All of the graduates are expected to be excellent communicators and be vigorous throughout their lives in the active pursuit of knowledge.

Within the college, students will find a wide variety of majors and minors from which to choose, including many interdisciplinary majors or minors. Both bachelor's and master's degrees are offered. Graduates from many majors also seek certification in education. The College of Science and Engineering partners with the College of Humanities and Social Sciences to provide students with a liberal education. Graduates from the College of Science and Engineering are uniquely positioned, therefore, to contribute leading roles in their scientific, professional and technical lives in our increasingly complex world.

Academic Programs Leading to Undergraduate and Graduate Degrees

Applied Mathematics	BS
Behavioral Neuroscience	BA*
Biology	BA, BS, MS
Biology/Anthropology	BS

Natural Science/Science Education	MEd
Physics	BS
Physics/Mathematics	BAE
Plastics and Composites Engineering	BS
Plastics Engineering Technology	BS

*Interdisciplinary between the College of Humanities and Social Sciences and the College of Science and Engineering.

Majors and Minors

In addition to the General University Requirements (GURs) and other common degree requirements of the University, the candidate for a Bachelor of Arts or Bachelor of Science degree must complete a major area emphasis which is usually accompanied by supporting courses. A minor is optional. A few concentrations are offered which encompass both a major and a minor. Students will confer with appropriate departmental advisors to plan study programs. Transfer students are expected to complete at least a portion of their work in the major and minor fields in this institution.

College Admission and Advisement

As the student completes the freshman year, which usually consists largely of courses that also meet the GURs, he or she is referred to the academic departments for continued personalized advisement in planning and selecting courses of study. Faculty within each department share responsibility for counseling students electing concentrations in their area. Faculty members may recommend to the department chair the waiving of certain course prerequisites (when it has been demonstrated that the student already has these competencies). Students who are undecided about a major may seek advisement through the Academic Advising Center in Old Main.

Department Chairs

Dr. Joann Otto, Biology
 Dr. James Vyvyan, Chemistry
 Dr. Perry Fizzano, Computer Science
 Dr. Jeffrey Newcomer, Engineering and Design
 Dr. Bernard Housen, Geology
 Dr. Tjalling Ypma, Mathematics
 Dr. Brad Johnson, Physics/Astronomy

Other College Information

Departments, Courses and Programs

Courses listed in this catalog constitute a record of the total academic program of the University. For an exact scheduling of courses at Western, students should consult the online *Timetable of Classes* and Extended Education bulletins.

COLLEGE OF SCIENCE AND ENGINEERING

Interdisciplinary Sciences, Technology and Mathematics (ISTM)

Courses containing scientific, technological and/or mathematical topics without focusing on a particular discipline are offered under the Interdisciplinary Science(s), Technology and Mathematics designation. Courses are designed for both science and non-science students. Faculty will come from across the College of Science and Engineering, and will offer a wide range of perspectives on the institutions, tools and practice of science, technology and mathematics. A new course on scientific literacy is an example of the type of course that will be offered with this new designation.

Biology

Introduction

<http://www.biol.wvu.edu/biology/>

Biology is the study of living organisms and is one of the broadest fields in science. It ranges in scale from the molecular and cellular to ecosystems and evolutionary biology. Biology at Western Washington University gives students the opportunity to explore this breadth in all degree programs, as well as to specialize.

Faculty

JOANN OTTO (2004) Chair and Professor. AB, AM, Mount Holyoke College; PhD, University of California-Irvine.

ALEJANDRO ACEVEDO-GUTIÉRREZ (2002) Professor. BSc, Universidad Autonoma de Baja California Sur, Mexico; PhD, Texas A&M University.

ROGER A. ANDERSON (1994) Professor. BS, University of Minnesota; MA, University of California-Riverside; PhD, University of California-Los Angeles.

MARION BRODHAGEN (2006) Associate Professor. BS, University of Wisconsin; MS, PhD, Oregon State University.

CAROLINE DAHLBERG (2014) Assistant Professor. BS, Haverford College; PhD, University of Washington.

ERIC DECHAIINE (2006) Associate Professor. BA, University of California-San Diego; MS, University of Hawaii-Manoa; PhD, University of Colorado-Boulder.

DEBORAH A. DONOVAN (1998) Professor. BSc, MSc, University of California-Davis; PhD, University of British Columbia.

DAVID U. HOOPER (1998) Professor. BA, Middlebury College; PhD, Stanford University.

ROBIN KODNER (2012) Assistant Professor. BS, University of Wisconsin; PhD, Harvard University

DAVID S. LEAF (1991) Professor. BS, University of Washington; PhD, Indiana University.

SUZANNE LEE (2015) Assistant Professor. BA, Wellesley College; PhD, University of California Berkeley.

BENJAMIN MINER (2006) Associate Professor. BA, University of Florida; PhD, University of California-Santa Cruz.

CRAIG L. MOYER (1997) Professor. BS, MS, Oregon State University; PhD, University of Hawaii.

MERRILL A. PETERSON (1997) Professor. BS, University of Washington; PhD, Cornell University.

LYNN J. PILLITTERI (2008) Assistant Professor. BS, State University of New York at Binghamton; MS, PhD, University of California, Riverside.

DANIEL POLLARD (2015) Assistant Professor. BA, Bowdoin College; PhD, University of California Berkeley.

SANDRA SCHULZE (2006) Associate Professor. BS, University of British Columbia; PhD, Simon Fraser University.

DIETMAR SCHWARZ (2008) Assistant Professor. Diplom Biology, Christian-Albrechts Universität, Kiel, Germany; PhD Pennsylvania State University.

ANU SINGH-CUNDY (1996) Associate Professor. BSc, MSc, Delhi University, Delhi, India; PhD, Cornell University.

CAROL TRENT (1989) Professor. BS, Indiana University; PhD, Massachusetts Institute of Technology.

JEFF C. YOUNG (1999) Professor. BA, PhD, Ohio State University.

Affiliated Teaching Faculty

GEORGIANNE CONNELL (2004) Senior Instructor. BA, Seattle Pacific University; MS, Western Washington University.

JANICE LAPSANSKY (1985) Senior Instructor. BS, Seattle University; MS, Western Washington University.

CARRIE SCHWARZ (2008) Senior Instructor. BS, University of Maryland; MS, PhD, Pennsylvania State University.

JOSÉ SERRANO-MORENO (2007) Senior Instructor. BS, Universidad Central de Venezuela; MS, Venezuelan Institute of Scientific Research; PhD, Case Western Reserve University.

BIOLOGY

Research Associates

DAVID L. ALLES BS, University of Colorado; MS, Western Washington University.

GEORGE H. CZERLINSKI BS, University of Hamburg; MS, Northwestern University; PhD, University of Göttingen.

MELISSA MINER BS, University Of California-Santa Cruz; MS, University of California, Moss Landing Marine Lab.

FREDERICK M. RHOADES BA, Swarthmore; MS, Oregon State University; PhD, University of Oregon.

Adjunct Faculty

JOHN BOWER BS, PhD, Cornell University.

JENNIFER PURCELL BS, MS, Stanford University; PhD, University of California-Santa Barbara.

SUZANNE STROM BA, Middlebury College; MA, Harvard University; PhD, University of Washington.

KATHRYN L. VAN ALSTYNE BS, University of Rhode Island; PhD, University of Washington

Departmental Mission

In support of the mission of Western Washington University and the College of Sciences and Technology, the mission of the Biology Department is to provide an outstanding learning environment that integrates education, scholarship, and service in order to actively engage students in the biological sciences and foster their development as lifelong learners. Successful graduates of our Department will understand fundamental biological principles in depth, will have laboratory and field skills to address biological questions, will have enhanced critical thinking and quantitative skills, will be able to communicate precisely and analytically in written and oral forms, and will be able to engage independently and collaboratively to be thoughtful and productive contributors to society.

We accomplish this mission by:

- Offering a broad-based, rigorous, and integrative curriculum
- Providing diverse upper-division courses that foster critical thinking and quantitative reasoning skills
- Offering opportunities for undergraduate research and writing
- Providing for timely completion of degree

Other Departmental Information

Facilities and Resources

The Biology building includes well-equipped teaching and research labs, and two multimedia lecture halls and two on-campus greenhouse facilities that support teaching and research. The Shannon Point Marine Center in Anacortes supports research and teaching in marine science. Western's geographic location offers fascinating learning opportunities for students in biology. The variety of plant communities and climatic patterns of the Cascade and Olympic Mountains and nearby lowlands, the numerous ponds and lakes, streams and rivers and the many marine habitats provide a rich diversity of organisms for students to encounter and study.

Undergraduate Programs

Our programs are designed for students with broad or specialized interests in the biological sciences. They are intended to (1) prepare undergraduates for graduate studies in diverse areas of biology; (2) prepare students for advanced study in the health professions [e.g., medicine, veterinary medicine, dentistry]; (3) provide a broad exposure to biology for students who want a general science education as biologists and teachers; and (4) provide students with a foundation in biology that is combined with another discipline.

- BA Biology - flexible, student-advisor designed program
- BS Biology - General Emphasis - flexible, student-advisor designed program

- BS Biology - Ecology, Evolution and Organismal Biology Emphasis - focuses on the structure, function, ecology & evolution of organisms
- BS Biology - Marine Emphasis - focuses on the structure and function of marine organisms and their relationship with the environment
- BS Biology - Molecular and Cell Emphasis - focuses on biochemistry, cell biology, molecular genetics and genomics of prokaryotic and eukaryotic model organisms
- BS Biology - Secondary Teaching Emphasis - prepares students for a state teaching endorsement in biology
- BS Biology/Anthropology - focuses on human biology and behavioral science
- BS Biology/Mathematics - brings biology together with linear algebra, advanced calculus and methods of computer programming and mathematical modeling
- BA Behavioral Neuroscience - emphasizes neurobiology and the psychology of normal and abnormal behavior at the molecular and organismal level
- BAE Chemistry/Biology - Secondary - a combined study of biology and chemistry courses for teaching endorsements

Declaration Process

The Biology Department has a two-step process for admission into our degree programs. Phase I students are those who have declared their intent to major in biology, and are in the process of completing the introductory courses. Admission to Phase II is based on academic performance in the introductory courses (CHEM 121, 122, 123 and BIOL 204, 205, 206). Students must achieve an average grade of 2.9 or higher in their introductory biology and general chemistry courses before they can advance to Phase II and begin taking upper-division coursework.

Mid-Program Checkpoint

Students seeking to complete a BS degree in biology within a four-year time span should have completed these courses prior to their junior year: MATH 124; CHEM 121, CHEM 123, CHEM 122; BIOL 204, BIOL 206, BIOL 205; CHEM 351, CHEM 352; ENG 101; plus 18 credits from the non-science/math GUR sections. Major omissions from this list will make it difficult to complete this degree within two additional years.

Teaching Careers in Biology

Students wishing to teach at the high school-level in the Washington State public schools need to seek advisement prior to or at the beginning of their third year of college. A Biology Endorsement is earned by completion of the courses in the Biology BS-Secondary Teaching Emphasis and the certification program in Woodring College of Education (www.wce.wvu.edu/Resources/Certification/).

A Science Endorsement may be completed by taking the additional courses of GEOL 211, GEOL 212; and ASTR 315. All courses for the state teaching endorsement must be completed with a C (2.0) or higher. Students who wish to teach at the college-level complete a Biology BS or BA degree and continue graduate work leading to a master's or doctoral degree.

Transfer Students

Transfer students will be well prepared for admission and able to complete a biology major in two more years if they have completed MATH 124 and an introductory biology, an introductory chemistry and an introductory physics series intended for biology majors; have earned excellent grades in each of these courses; and state in the personal letter for admission their educational goals and that they can no longer progress toward these goals at their present institution.

Access to Biology Classes

Because of high student demand for many upper-division biology courses, the Biology Department must give enrollment priority to students for whom these courses are required for their major over students who want to

BIOLOGY

take them as electives. Registration details for biology courses are listed on the Biology Department Registration webpage at: <http://www.biol.wvu.edu/biology/registration.shtml>.

Graduate Study

For concentrations leading to the Master of Education or the Master of Science degrees, see the Graduate School section of this catalog.

Behavioral Neuroscience, BA (see Psychology Department)

Behavioral Neuroscience, BA (see Psychology Department)

Biology, BA

Department of Biology, College of Science and Engineering

74-76 credits

Introduction

Biology, as the study of living things, is an academic endeavor with a basic research focus on seeking answers to questions rather than on applying biological knowledge to solve problems. As scientists, biologists have two prime motivations: (1) intellectual curiosity about biological systems, and (2) the philosophy that creating and disseminating reliable knowledge has intrinsic worth.

The B.A. in Biology is designed for students who want to make biology the focus of a liberal arts education and are not directly interested in post-graduate study or professional careers in biology or teaching. The number of required courses in the B.A. Biology degree has been kept low to permit you to add other areas of study and courses suited to your needs and interests.

If you would like to pursue a Bachelor of Arts degree, you may wish to combine your interest in Biology with a focus of course work in areas such as History or Political Science. Other disciplines such as Art, English, Journalism, Sociology, Economics, Philosophy, Business, Physical Education, Psychology or Speech are also beneficial to you if pursuing a Bachelor of Arts in Biology.).

Why Consider a Biology Major?

Are you interested in Biology but do not want a career in biology? Do you want a liberal arts education with a focus on Biology? Do you want to know all about the life that you see, hear, touch, taste and smell and how this affects us? Do you have interests in other scholastic areas as well? Consider a Bachelors of Arts in Biology!

How to Declare (Admission and Declaration Process):

The Biology Department has a two-step process for admission into our degree programs. Phase I students are students who have declared their intent to major in biology and are in the process of completing the introductory biology (BIOL 204, 205, 206) and general chemistry (CHEM 121, 122, 123) series. Admission to Phase II is based on academic performance in the introductory courses. Students must achieve an average grade of 2.9 or higher in their introductory biology and general chemistry courses before they can advance to Phase II and begin taking upper-division coursework.

Major requirements include 56-58 credits of foundational courses in biology, chemistry, physics and math and 18 credits of upper-division depth and elective courses. Biology Phase II status required for admission into 300- and 400-level biology courses for biology majors.

Grade Requirements

A grade of C- or better is required for a student's major courses.

Requirements

- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity
- BIOL 205 - Introduction to Cellular and Molecular Biology
- BIOL 206 - Introduction to Organismal Biology
- BIOL 321 - Genetics
- BIOL 323 - Cell and Molecular Biology
- BIOL 325 - Ecology
- BIOL 432 - Evolutionary Biology
- Choose one of the following series:
 - CHEM 121 - General Chemistry I
 - CHEM 122 - General Chemistry II
 - CHEM 123 - General Chemistry III
 - or
 - CHEM 125 - General Chemistry I, Honors
 - CHEM 126 - General Chemistry II, Honors
 - CHEM 225 - General Chemistry III, Honors
- CHEM 251 - Elementary Organic Chemistry
- MATH 240 - Introduction to Statistics or equivalent
- One course from:
 - PHYS 101 - Physics Analysis
 - OR
 - PHYS 114 - Principles of Physics I
- 18 credits of upper-division biology courses approved by faculty advisor.

Bachelor of Arts in Education

Chemistry/Biology - Secondary, BAE (see Chemistry Department)

BIOLOGY

Chemistry/Biology - Secondary, BAE (see Chemistry Department)

Bachelor of Science

Biology - Ecology, Evolution, and Organismal Biology (EEO) Emphasis, BS

Department of Biology, College of Science and Engineering

95-96 credits

Introduction

Biology is the study of living things, an academic endeavor with a basic research focus on seeking answers to questions rather than on applying biological knowledge to solve problems. As scientists, biologists have two prime motivations: (1) intellectual curiosity about biological systems, and (2) the philosophy that creating and disseminating reliable knowledge has intrinsic worth. Thus, we intend for our intensive academic program to stimulate our students' curiosity and appetite for life-long learning about biology.
