Cover photo: One of the majestic mountains of the North Cascades, 9,127-foot Mount Shuksan is featured on the cover of this edition of Western's General Catalog. Within an hour's drive from Bellingham, in the Mount Baker ski area, Mount Shuksan has long been considered as one of America's "most photogenic" mountains.

NOTICE TO READERS

Every effort has been made to provide accurate information in this catalog. Policies and information contained herein may have changed subsequent to the time of publication. Readers are therefore advised to consult with the appropriate University department or office for any possible revisions.

The University reserves the right to withdraw courses, the right to withdraw programs and the right to change the regulations concerning the admission and graduation requirements. All announcements in the General Catalog are subject to change without notice and do not constitute an agreement between the University and the student.

Western Washington University emphasizes excellence in undergraduate education. The University is large enough to offer a wide range of high quality programs and small enough to focus its resources on individual students. Faculty, students, and staff work closely together in a superb setting to pursue a university education and build career skills on the sound foundation of the arts, humanities, sciences and professional studies.

The campus is a stunning blend of art and nature. It has been called “magic.” Its visual power signals the power of the educational opportunity offered to Western students. An accomplished faculty makes undergraduate education its primary mission. Western students inherit the great tradition of the arts and sciences, fostering values such as clarity of thought and expression, informed judgment, aesthetic sensibility, tolerance for ambiguity, a sensitivity to cultural differences, and a sense of historical continuity. Upon these values Western students build for the future, choosing from a wide range of professional programs which foster the knowledge and skills demanded by today’s careers.

Western Washington University reflects the high aspirations of Washington citizens for educational excellence. For students, faculty and staff Western thus embodies an opportunity and a challenge.

G. Robert Ross, tenth president of Western Washington University.
Western Washington University is located in Bellingham, a city of 46,000 in the northwestern corner of the state near the Canadian border. Its historical antecedent was the New Whatcom State Normal School, established by the legislature in 1893, which offered its first courses in the fall of 1899. From a normal school the institution evolved into a degree-granting institution in 1933, College of Education in 1937, State College in 1961, and a university in 1977.

ACADEMIC PROGRAMS AND DEGREES

Western Washington University is organized into a Graduate School, a School of Education and five semi-autonomous undergraduate colleges: College of Arts and Sciences, College of Business and Economics, College of Fine and Performing Arts, Fairhaven College, and Huxley College of Environmental Studies.

To fulfill its academic objectives, Western's curriculum includes a program of broad general education, intensive studies designed to develop scholarly competence in the arts and sciences; professional programs for both public school personnel and a variety of other professionals; and graduate programs in professional education, the arts and the sciences.

Western's undergraduate and graduate programs lead to the following degrees:

- Bachelor of Arts
- Bachelor of Arts in Education
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Science
- Bachelor of Science in Nursing
- Master of Arts
- Master of Business Administration
- Master of Education
- Master of Music
- Master of Science

ACCREDITATION

The University is fully accredited by both the Northwest Association of Schools and Colleges and the National Council for the Accreditation of Teacher Education to offer work at the bachelor's and master's degree levels. The University holds membership in the Council of Graduate Schools in the United States.

RESEARCH

At Western, faculty research and the training of students in scientific and scholarly methods and techniques have received considerable impetus through foundation and government grants. Awards have been made by a wide range of agencies and foundations, including the National Institutes of Health, National Endowment for the Arts, National Science Foundation, Department of Education, ARCO Foundation, Shell Foundation, National Oceanic and Atmospheric Administration, Canadian Embassy, Office of Naval Research, Department of Ecology, Readers' Digest, Gannett Foundation, Northwest Air Pollution Authority, National Park Service, and other agencies of the State of Washington and the federal government.

The Bureau for Faculty Research was established to encourage and coordinate faculty research and creative scholarly endeavor throughout the University. The bureau assists the faculty in obtaining funds for curricular development and research, and provides a manuscript typing service and a staff artist.

ACADEMIC FACILITIES

The main campus and its 72 buildings occupy 224 acres along Sehome Hill overlooking Bellingham Bay and downtown Bellingham. Other University properties, such as the marine laboratory at Shannon Point near Anacortes, support regional educational and conservancy programs.
The University has on-campus residence halls and student apartments for 3,600 students. The beautiful natural setting of the main campus and its award-winning architecture make Western Washington University a stimulating place for work and study.

**The Library**

The Mabel Zoe Wilson Library houses more than 900,000 items, including 400,000 volumes of catalogued books and bound periodicals, nearly 700,000 units of microtext, and large collections of curriculum materials, pamphlets and publications of the United States, Washington State and Canadian governments. The Library maintains subscriptions to more than 4,000 current periodicals and newspapers.

The Library provides open stacks for its collections, together with reading and study areas, carrels and seminar rooms. It also maintains a branch Music Library in the Performing Arts Center which includes an extensive collection of scores, recordings and books about music.

**The Computer Center**

The primary instructional computer systems of the Computer Center are two Digital Equipment Corporation VAX 11/780 computers for interactive timesharing and an IBM 4341 batch system. The Computer Center also operates a smaller VAX 11/750 and four Perkin-Elmer 3200-based interactive computers. The combined main memory in the several computers is more than sixteen million characters while the on-line disk storage totals over seven billion characters. This central facility supports more than 250 instructional timesharing terminals in clusters of up to 50, plus approximately 100 administrative terminals. There are also approximately 100 smaller computers altogether in large generally available clusters and in smaller groups within many academic departments.

**Leona M. Sundquist Marine Laboratory**

Located at Shannon Point adjacent to the Washington State Ferry terminal at Anacortes, the Sundquist Marine Laboratory provides opportunities for undergraduate and graduate students to study marine and estuarine environments. The facility includes laboratories, a lecture room, research spaces, 50 seawater tanks, boats and scientific equipment. The laboratory site includes more than half a mile of beach on Guemes Channel, 71 wooded acres and a small freshwater pond.

The Sundquist Marine Laboratory of Western Washington University provides a marine outlet for the Shannon Point Marine Center Consortium of Western, Eastern and Central Washington universities, The Evergreen State College, Skagit Valley College, and Everett and Edmonds community colleges.

**Institute for Watershed Studies**

A research and service unit called the Institute for Watershed Studies is located in Environmental Studies Building 508. It conducts and promotes research on watersheds and stream and lake systems, provides analytical services to students and faculty engaged in the study of watersheds, and coordinates activities having to do with these resources. Analytical service and instrumentation is available to students and faculty, as is a reprint collection consisting of several thousand entries. For information about the program, contact the director, David F. Brakke, (206) 676-3510.

Wilson Library has an extensive reference center.

Undergraduate Admission

GENERAL POLICY

Western Washington University makes every effort to provide educational opportunities to all qualified applicants. Candidates are accepted on the basis of criteria described below as applications are received. Should enrollment capacity be approached at any time before the closing dates for application, the University may defer an admissions decision or select the most highly qualified candidates from among remaining applicants.

Admission standards are stated below in terms of the traditional A-F grading system. Applicants whose records include either a high proportion of non-traditional grades, or a subject pattern which departs markedly from that normally associated with university study, may be asked to submit additional evidence in support of their applications (i.e., entrance examinations, interviews and letters of recommendation). Individuals may seek exceptions to any of the requirements below by petitioning the Admissions Committee.

APPLICATION PROCEDURES

The Uniform Undergraduate Application for Admission to Four-Year Colleges and Universities in the State of Washington and a $15 application fee are required of freshman and transfer candidates. The application may be obtained from any Washington high school or college, or from the Office of Admissions at Western, Old Main 200. The application fee is not required of former Western students, who may obtain an Application for Registration as a returning student from the Office of Admissions.

Application Closing Dates

To ensure consideration, applications must be received in the Office of Admissions by the following closing dates:

- Fall Quarter, September 1
- Winter Quarter, December 1
- Spring Quarter, March 1
- Summer Quarter, June 1

Applicants are encouraged to apply well in advance, since enrollment capacity may be reached before these closing dates.

Required Transcripts

It is the responsibility of each applicant for admission or re-enrollment to request official transcripts from each school or collegiate institution previously attended. (Transfer students who have earned 40 or more transferable quarter credits need not ordinarily submit a high school transcript.) To be considered official, these transcripts must be sent directly from the registrar's office of the previous school to the Office of Admissions at Western. All such documents must be received by the above closing dates to ensure consideration.

Accepting the Offer of Admission

Each admitted student must confirm his or her intention to enroll by submitting a $50 non-
refundable, non-transferable payment on tuition and fees. This payment should not be made until requested by the University when the student is notified of his or her admission.

FRESHMAN REQUIREMENTS

Western’s admissions policy allows for the individual consideration of all applicants. While previous grade point average has proved to be the best single predictor of future grades, the Admissions Committee also considers additional factors such as high school subjects completed, most recent academic performance, motivation, test scores, and recommendations.

Although Western does not require the completion of specific high school subjects for admission, the University strongly recommends a high school program which includes at least the following subjects:

Recommended Pre-University Program Grades 9-12

- English: Four years, including one composition course and one literature course in the 12th grade
- Math: Three years, including two years of algebra and one of geometry
- Science: Two years, including one course in 11th or 12th grade
- Social Studies: Two years, including one course in 11th or 12th grade
- Foreign Language: Two years
- Academic Electives: Three years, one course each in 10th, 11th, 12th grades

Graduates of accredited Washington state high schools are generally eligible for admission if their high school records indicate a cumulative grade average of at least 2.50 or a ranking in the upper half of their graduating class. (Enrollment pressures may require that a higher minimum grade average be used in a given year.) If the grade average is based on a high school subject pattern which departs markedly from the pre-university program recommended above, test scores may also be considered.

Graduates of high schools in other states are ordinarily admitted if they meet the minimum standards for resident students, provided they also submit satisfactory scores on either the Scholastic Aptitude Test of the College Board or the American College Test. Results of these tests should be sent to the Admissions Office by the College Board or ACT.

Provisional admission may be granted to a limited number of students. Students admitted under this program may be required to take a specific sequence of courses in their first year at the University and to participate in one or more of the developmental learning programs provided for students who demonstrate a need for the development of academic skills.

Graduates of non-accredited high schools will normally be expected to complete the GED (General Educational Development tests) before an admissions decision can be made.

The University may consider applications from individuals 18 years of age and older who are not enrolled in high school and who have not earned a high school diploma. Admission will be considered on an individual basis, and arrangements for tests and an interview may be made through the Admissions Office.

TRANSFER STUDENT REQUIREMENTS

Transfer applicants whose high school records meet the freshman criteria listed above, who have completed the last term prior to transfer with a grade point average of 2.00 or above, and whose overall academic record indicates satisfactory academic progress, are ordinarily admitted if they have attained a cumulative grade point average of 2.00 (C) in college-level study. (Enrollment pressures may require
that a higher minimum grade average be used in a given year. Students whose high school records do not satisfy freshman requirements may be considered for admission after earning at least 40 transferable quarter credits with at least a 2.00 grade average. (One semester credit equals one and one-half quarter credits.) The grade average used for determining admission is calculated by counting grades earned in all courses transferable to Western. Exceptions to these standards may be made when evidence (test scores, maturity, etc.) indicates that previous grades alone are inaccurate predictors of a student's chances for success at Western.

Transfer of Credit

In general, Western Washington University routinely grants credit for baccalaureate-oriented courses completed at accredited institutions of higher education. Transfer of credit policies are developed by the Committee on Admissions and Inter-College Relations. Authority to administer these policies is delegated to the Registrar, the Director of Admissions, and where applicability of transfer credit to a major or minor is concerned, to department chairpersons.

Several factors govern the acceptance of transfer credit. Chief among them is accreditation. For transfer purposes Western recognizes as fully accredited only those institutions which have received accreditation by the Regional Associations of Schools and Colleges.

The total number of credits which may be transferred from another institution may not exceed the level of accreditation granted to that institution. For example, the maximum credit transferable from two-year institutions is 90 quarter credits; that is, one half the number required for a baccalaureate degree at Western.
Regardless of the number of transfer credits awarded, the student must earn at least 45 resident credit hours through Western for graduation. (Note: Although the total transfer credit granted from two-year institutions is limited to 90, coursework that exceeds that number will be considered for its appropriateness in satisfying General University Requirements or particular subject area requirements at Western.)

Certain credits earned at previous institutions may not transfer regardless of that institution's accreditation. For example, technical and vocational courses in two-year institutions, sectarian religious courses, and credit for experiential learning, military service, or the general examinations of the College Level Examination Program (CLEP) do not generally transfer to Western. Up to 30 credits may be granted for appropriate military schooling, according to recommendations contained in "A Guide to the Evaluation of Educational Experiences in the Armed Services." Subject examinations of CLEP may be reviewed by specific academic departments for credit.

Exceptions to the transfer of credit policies described above may be made only upon petition to the Admissions Committee. Such petitions are to be filed with the Director of Admissions after enrollment.

**Transfer of Associate of Arts Degrees**

Transfer students who complete the appropriate two-year degree at a Washington community college prior to enrollment at Western will ordinarily satisfy all of Western's General University Requirements upon enrollment. To be accepted in lieu of Western's General University Requirements, the AA degree must include at least 90 credits, 75 of which must be directly transferable to Western. Transferable courses are listed in the WWU Transfer Advisers' Handbook. Since the community colleges offer several degree programs, students should consult advisers for more complete information.

**INTERNATIONAL STUDENTS**

Western welcomes qualified students from countries around the world. Because of limited support services for international students, however, admission is generally restricted to those most highly qualified for academic study at Western. Such students must have completed the University preparatory program in their own countries, give evidence of ability to succeed in university study at Western, and demonstrate competence in the use of the English language. In addition to the above, students transferring from U.S. colleges or universities must also give evidence of strong academic achievement in the United States.

The Test of English as a Foreign Language (TOEFL) is ordinarily required of candidates from other countries in which English is not the language in general use. Transfer students may also establish proficiency through completion of transferable English composition courses.

International students must also be able to pay the cost of each year they plan to study at the University. Letters from sponsors, family members, or banking officials are required to demonstrate sufficient finances, since the University has very limited financial assistance for foreign students.

Because of the wide variety of educational systems throughout the world, there are no standard admission requirements for international students. Applications are reviewed on an individual basis, and admission is determined after an evaluation of all credentials associated with the student's academic qualifications for university study.
Registration for fall quarter takes place at the beginning of the term. For winter and spring quarters, there is a period of "advance registration" for continuing students, while new students register on the first day of the quarter.

REGISTRATION AT START OF QUARTER

Registration takes place during the first three days of the fall quarter and on the first day of other quarters. (See the calendar at the front of this General Catalog.) On registration day new students and continuing students who did not advance register sign up for their courses and pay their fees. Before registration, each new student should have received additional information and instructions, including a date for his or her academic advisement and program planning conference.

ADVANCE REGISTRATION FOR WINTER AND SPRING QUARTERS

At mid-term during the fall and winter quarters, students at Western are given an opportunity to advance register for their next quarter's courses. This opportunity enables current students to select their courses early and provides Western's faculty and Registrar's Office with information about the courses for which they should attempt to schedule additional sections.

Each student who advance registers receives a bill for fees, together with payment instructions. Because advance registration reserves a student's place in a course, payment must be made by the specified date prior to the beginning of the next quarter's courses or the student's registration is cancelled.

LATE REGISTRATION

Late registration is permitted only in exceptional cases. After the first five days of instruction in any quarter, a student may register for and enter a course only (a) by obtaining written permission from the course instructor, the department chairperson and the Registrar, and (b) by paying the late registration fee.

CHANGES IN REGISTRATION

Policies concerning changes in registration, such as withdrawal from a course or from the University, are described in the section entitled "University Academic Policies."

Fisher Fountain waters soothe the feet on a warm spring day.
Tuition and Fees

Old Main 320g, (206) 676-3086

At Western the various expenses of a student who is single and a resident of the State of Washington are about $1,600 each quarter.

Approximate Quarterly Expenses, 1983-84

Auditors
Full-time students may audit a course without an additional fee. Part-time students may audit courses by paying the auditor's fee of $10 per credit.

Continuing Education
Fees for courses offered through the Center for Continuing Education vary in accordance with the nature of the course. The Quarterly Continuing Education Bulletin describes charges in detail.

1Residency — Under Washington State Law a resident student is defined as:
1. A financially independent student who has had a domicile in the State of Washington for the period of one year immediately prior to the time of commencement of the first day of the quarter for which he/she has registered and has in fact established a bona fide domicile in this state primarily for purposes other than educational, or
2. A financially dependent student, if one or both of his or her parents or legal guardians have maintained a bona fide domicile in the State of Washington for at least one year immediately prior to commencement of the quarter for which the student has registered.

Further information regarding residency classification and statutory exemptions from the requirement to pay non-resident fees may be obtained from the Office of Admissions, Old Main 220. Individuals seeking a change in residency classification must obtain a residency questionnaire from the Office of Admissions, attach the required documentation, and submit it to the Office of Admissions before the beginning of the quarter for which a residency reclassification is requested. In the absence of a completed questionnaire and supporting documentation, an individual's residency classification will remain unchanged.

*For Washington residents only*

Tuition is used for the construction of academic facilities. It is not used for either Housing and Dining System buildings or support of the university's operating budget.

The Service and Activities Fee is used to amortize, in part, residence halls, dining halls, and student activities facilities; to provide the Associated Students administration; and to support student activities (theatre, forensics, musical activities, intramural and intercollegiate activities, etc.).

The Operations Fee, with the state's general fund appropriation, is used to support the instruction, library, student services, administration and maintenance functions of the University.

MISCELLANEOUS SERVICE CHARGES

Health Services
A fee of $8 per quarter is charged to each student who registers for 6 or more credits of on-campus courses.

Parking
(For parking and traffic regulations, see Appendix I)
Quarterly Total
On-campus parking .... $20
Peripheral parking .... 5-9
Motorcycle parking .... 6

Late Registration/Late Course Adds
A fee of $10 is charged for deferring fee payment beyond the stated deadline.

A fee of $10 is charged if a student registers after the fifth day of instruction in a quarter. A fee of $5 is charged if a student adds a class after the fifth day of instruction. Either action requires written permission of the course instructor, department chairperson and Registrar.

Fees for Required Tests
Freshmen who have not submitted appropriate examination results will complete the Washington Pre-College Test at a fee of $12. Transfer students without appropriate test results will complete the School and College Abilities Test (SCAT) at a fee of $5.

Special Examination Charges
Course Challenge ...... $25 per course

Graduation Fees
Baccalaureate Degree .... $8
Master's Degree ......... 5
Placement Service fee for student with prior degree who earns teaching certificate only .... 2
Provisional Teaching Certif. .... 15
Standard Teaching Certif. .... 15

(Fees for teaching certificates are set by the State of Washington and are in addition to the graduation fees.)

Transcripts
Requests should be submitted to the Registrar's Office one week in advance of need.

Transcript Fees:
Unofficial Transcript .... $2
Official Transcript ......... 3

Other Special Fees
In certain instances the University may charge special fees for services which normal budgets may not fund, such as music practice room rentals, purchase of special laboratory and studio supplies. These fees are listed in the Class Schedule.

REFUNDS OF FEES*
In ordinary circumstances, a student who withdraws before the sixth day of instruction in a quarter receives full refund of tuition and fees, except for the initial registration deposit required of new students.

A refund of one-half of tuition and fees is made to a student who withdraws on or after the sixth day of instruction, provided such withdrawal occurs within the first 30 calendar days following the first day of instruction. After the 30th day, no refunds are granted. Failure to officially withdraw from the University will obligate the student to pay one-half of tuition and fees.

Note: The first $50 of tuition and fees paid by newly admitted students, whether paid as a separate deposit to accept an offer of admission or as a part of total fees at the beginning of a quarter, is non-refundable.

Change in Student Status
A student who has paid part-time fees and who adds courses bringing the total credits to 10 or more will pay the balance between fees already paid and the full-time fee. A full-time student who drops courses so that the remaining total of credits is nine or fewer will receive a refund of (a) the difference between the full and part-time fees if the change is made before the sixth day of instruction, or (b) one-half the difference if the change is made from...

*See the Continuing Education Bulletin and the Summer Session Catalog for the refund policy for Continuing Education and Subject-to-Enrollment courses.
the sixth day of instruction
through the thirteenth calendar
day following the first day of
instruction.

Financial Obligations
Admission to or registration
with the University, conferring
of degrees and issuance of
academic transcripts may be
withheld for failure to meet
financial obligations to the Uni-
versity. (WAC 516-60-006, filed
11/17/72.)

When a National Direct Student
Loan has been disbursed to a
student while attending the
University, failure to appear for
an exit interview before gradua-
tion or withdrawal constitutes
failure to meet a financial obli-
gation and transcripts may be
withheld.
Western Washington University makes every effort to provide financial assistance to eligible applicants through loans, work, scholarships, grants or some combination of these and other student aid programs. It is expected, however, that students will meet part of their needs through savings from summer or school year employment and that parents will contribute in proportion to their financial ability.

The limited funds available at Western for student aid programs are used to assist students whose attendance seems educationally sound and whose attendance would be impossible without such assistance.

**GRANTS**

Grants are available only to undergraduate students. They are offered as gift aid. Repayment is not required.

**Pell Grant** All undergraduate students are eligible to apply for this federal grant. It is intended to be the foundation of a financial aid package and may be combined with other forms of aid in order to meet educational costs.

**Supplemental Educational Opportunity Grant (SEOG).** These federal grants range from $200 to $2,000 per academic year and are generally offered to students with the greatest need.

**State Need Grant.** The state of Washington offers State Need Grants to needy and disadvantaged students who are residents of this state. All eligible students will be nominated for confirmation by the State Council for Postsecondary Education. To be considered for nomination, students must provide parents' income information unless they can demonstrate that they have been self-supporting or financially independent for at least three years.

**Tuition and Fee Waivers.** These are generally available to needy students who are residents of the State of Washington.

**EMPLOYMENT**

- **Work-Study Programs (state and federal).** Students may be offered part-time employment under the work-study programs. On-campus jobs are available in nearly every academic area, as well as in the student union, library, computer center, administrative offices, maintenance department and other campus agencies. Off-campus jobs in the Bellingham area are limited to positions related to students' academic career interests.

- **Part-Time Employment.** The Student Employment Office provides information and assistance to students seeking part-time employment, either on or off campus.

- **On-Campus Employment.** Many students are successful in obtaining part-time jobs in Western's academic and administrative units after they arrive on campus. Since advance employment cannot be guaranteed, Western's Student Employment Center does not accept advanced applications for on-campus jobs; the office does provide information and assistance to students after they arrive on campus.

- **Off-Campus Employment.** The Student Employment Center provides information about
jobs in developing job opportunities for students at WWU. Students should be aware, however, that opportunities for part-time employment are limited and, therefore, students should not anticipate meeting a significant portion of their college expenses with earnings from part-time employment.

- **Graduate Assistantships** in limited numbers are available to qualified graduate students. Inquiries should be addressed to the Dean of the Graduate School.

**LOANS**

- **National Direct Student Loans** are long-term, low-interest loans available to undergraduate students at WWU. The size of the loan granted depends upon the...
Financial Aid

Applicant's eligibility and the funds available at WWU.

Interest on the NDSL does not accrue and repayment does not begin until six consecutive months after a student is no longer enrolled on at least a half-time basis. The loans bear interest at the rate of five percent per year and repayment of the principal may be extended over a ten-year period (depending on the size of the loan) with a minimum payment of $30 per month.

Repayment may be deferred up to a total of three years while the borrower serves in the Armed Forces, with the Peace Corps or as a VISTA volunteer. Loans are also deferred for graduate study. Loan recipients may receive partial or full cancellation of indebtedness through subsequent service in certain teaching areas.

Guaranteed Student Loan (GSL). Graduate and undergraduate students are eligible to borrow through this federal program provided that they are enrolled at Western, or have been accepted for enrollment, at least half time. Students apply for GSLs from participating banks or credit unions. The application process takes approximately ten weeks, and application forms are available from Western's Student Financial Aid Office.

Repayment begins six months after the student leaves school and may be deferred while the borrower is in graduate school or in programs such as the Armed Forces, the Peace Corps and VISTA. Monthly payments are $50 or more. Nine percent simple interest per year is charged beginning at the time the loan is granted; however, the federal government pays the interest while the student is in school and during the six month grace period and deferred payment period.

PLUS Loans. These loans are available to parents of dependent undergraduate students as well as self-supporting students and graduate students. Applications are made through participating banks and credit unions. The application process takes approximately ten weeks, and application forms are available from Western's Financial Aid Office.

Repayment begins no later than sixty days after the loan is disbursed, but the principal may be deferred for the student borrower. Current minimum monthly payments are $50. Twelve percent interest is charged beginning at the time the loan is granted. (The rate of interest may increase to 14 percent, depending on the 91-day Treasury Bill rate.)

SCHOLARSHIPS

WWU Scholarships. Western Washington University offers academic scholarships to entering freshmen, transfer, and returning students in recognition of outstanding scholarship. University departments also offer scholarships and partial tuition and fee waivers to student majors.

A list of scholarships, with brief descriptions of eligibility requirements, is included in the Financial Aid Booklet, available from the Student Financial Aid Office.

VETERANS INFORMATION

Each veteran enrolling at Western for the first time on the G.I. Bill must either apply for education benefits with the Veterans Administration or transfer his/her authorization from the last college attended. To ensure that allowances are received on time, this should be done well in advance of the academic quarter the student wishes to attend. Assistance in making application is available in Western's Veterans Affairs Office, Old Main 380.

Veterans should also make certain that the objective they plan to pursue is the one authorized by the Veterans Administration. For instance, if the authorization is for the master's degree, the veteran must enroll in courses acceptable toward that degree. Any necessary changes in objective should be made in advance of registration.

A veteran enrolling for at least a half-time credit load may request advance payment. This request must be received by the Veterans Administration at least 30 days before the beginning of the quarter.

New transfer students may qualify for advance payment if there has been one calendar month since last attendance.

The advance check will be sent to the University for temporary care by the Controller until the veteran registers.

If a veteran does not seek advance payment or does not register through Western for benefits until the start of the quarter, payments will not begin arriving until the end of the second month of the quarter.

HOW TO APPLY FOR FINANCIAL AID

To be considered for the financial aid programs described above, the following application materials must be submitted: College Scholarship Service Financial Aid Form (FAP), Pell Grant Student Aid Report (SAR) and WWU Financial Aid Application.

To ensure first consideration for available funds, application materials must be received by the Student Financial Aid Office by April 1. Application materials received after April 1 will receive full consideration if financial aid funds are available.

SUMMER SESSION AID

Financial aid for summer quarter is contingent upon funds available. An additional application is required which is available beginning spring quarter. Only students who have completed application on file for the previous academic year will be considered for summer assistance.
Western Washington University maintains a wide variety of housing accommodations for its students. Most residence halls are co-educational; one women's hall is available. The University also has apartments for single and married students. Assignments to on-campus housing and listings of off-campus housing accommodations are made without reference to race, age, creed or national origin.

The University does not maintain regulations about where students must live. However, students are encouraged to investigate housing accommodations thoroughly to assure conditions which promote their academic welfare and personal development.

**UNIVERSITY RESIDENCE HALLS AND DINING HALLS**

With few exceptions, residence hall rooms are designed for occupancy by two persons. Each is furnished with single beds, mattresses and pads, desks, desk lamps, access to TV cable and a wardrobe or closet. The occupant furnishes pillow and case, sheets, blankets, towels, alarm clocks and other personal necessities. Because of fire danger, electric open element appliances are not permitted in student rooms.

Kitchenette and laundry facilities are provided in central areas. A recreation room, reception area, lounge, special study rooms, vending machines, extra storage space for trunks, and bike racks are provided in each hall. In addition, some halls have pool tables and other recreational facilities.

Three dining halls are located close to the residence halls. Students living in residence halls must take their meals in the dining halls, all of which are coeducational and serve three meals each day plus special dinners and banquets. No meals are served during vacation periods.

Reservations for a residence hall space are made by completing an application and sending it to the Office of University Residences, High Street Hall, Western Washington University, Bellingham, Washington 98225. An application will be accepted only if the student meets one of the following conditions:

1. The student has been admitted to the University as a new student and has paid the advance tuition prepayment.

2. The student is either currently enrolled or has been previously enrolled at Western Washington University.

Except when the reservation deposit is required earlier to guarantee a space in the housing system, no deposit is required with the application but must be made when a housing agreement is signed. Space in a particular hall is assigned according to the date of the receipt of the housing application. Actual room assignments are computer-made and based upon student responses to a roommate assignment questionnaire.

**Deposits, Cancellations and Refunds**

Students making application and later deciding they do not want accommodations must cancel their reservations by notifying the director of University Residences in writing prior to acceptance of a residence hall assignment.

In accepting an assignment to a residence hall, each student agrees to the Room and Board Agreement and makes a security deposit of $90. Deadlines for the payments are July 1 for fall quarter, or two weeks after the assignment is made. The $90 security deposit will be retained by the University as a damage and/or reservation deposit as long as the student lives in the Housing system.

Once the agreement is signed and the security deposit is made, cancellation of a reserva-

tion cannot be made without forfeiture of a part or all of the deposit. The reservation deposit may be refunded by decision of the director of University Residences if circumstances exist which are beyond the student's control.

The reservation deposit becomes a damage deposit during the term of the housing agreement. Charges for damage to or loss of residence hall property which is assigned to the student's custody, damage to other hall property or outstanding normal charges will be billed to the student. If the amount of the damage or other charges exceeds the amount of the deposit, the student will be billed for the balance. The student's account will be cleared and a refund of the deposit made only after all housing and other University charges are paid in full.

APARTMENTS FOR SINGLE AND MARRIED STUDENTS

Birnam Wood consists of 132 apartments for 532 students on a wooded seven-acre site near the campus. Each apartment has a living room, dining room, kitchen, outside deck, divided bath, storage room, and two bedrooms furnished for four students with the usual furnishings, drapes and wall-to-wall carpeting. Utilities are provided as well as television-FM cable.

Assignments to Birnam Wood apartments are made by date of application. Students are expected to occupy the apartments in groups of four and the rental rates are established on that basis. In cases where students cannot find a full complement of roommates, the Office of University Residences will assist but is not responsible to complete student contractual obligations. A $90 deposit is required from each person assigned to a particular apartment.

Buchanan Towers, located at the south end of the campus, is an eight-floor apartment building which houses 404 students in one- and two-bedroom apartments and efficiency units. Each standard unit has a living-dining-kitchen area, two large bedrooms and a bathroom. The lower floor has a recreation area and central lobby. Furnishings, utilities, television cable and extra storage space are provided at no additional cost.

The Fairhaven Complex includes apartments of three types. Each of ten towers has two two-bedroom apartments available. Several one-bedroom units are available on the ground floor of each tower. Two complete towers have been converted from residence hall rooms to one- and two-bedroom apartments.

COSTS

The following housing rates are in effect for the 1982-83 academic year.

- Double room and 21 meals per week, academic year $1,995
- Double room and 15 meals per week, academic year $1,964
- Double room and 10 meals per week, academic year $1,906

Quarterly rates and single room rates (when available) are higher. Room and board rates for 1983-84 and 1984-85 should be calculated to increase by an allowance for the current rate of inflation.

Apartment rates for the 1982-83 academic year are as follows:

In Birnam Wood academic year rent for the unit is $3,210.

In Buchanan Towers and Fairhaven apartments the unit rent is $2,846 for the academic year.

As is the case with room and board rates, apartment rents are expected to increase each year by an amount equal to an allowance for the current rate of inflation.

For the actual annual or quarterly rental rate for a given apartment unit, contact the Office of University Residences, Western Washington University, Bellingham, Washington 98225.

OFF-CAMPUS HOUSING

The Off-Campus Housing Listing Service maintains lists of available off-campus rentals. Because of constant changes in housing availability, these lists are not printed for mailing. Off-campus rentals are in great demand, and it is to the student's advantage to arrive in Bellingham prior to the start of the quarter to make living arrangements. Although the listing service does not make individual rental agreements or assume responsibility for the condition or suitability of listings, it offers helpful information on renters' insurance and contracts with landlords, as well as a guide book for renters.

Information about off-campus listings is available by writing the Off-Campus Housing Listing Service, High Street Hall, Western Washington University, Bellingham, Washington 98225.
Western Washington University is committed to helping each student benefit from the potential inherent in a university education.

The basic responsibility of the Division of Student Affairs and a central goal of the University is to provide each student every opportunity possible to evolve into a fully functioning, responsible and productive individual. To this end Western's Student Affairs professional staff offers services, assists students in developing an extensive variety of activities and programs, and emphasizes involvement of students in decision-making processes. Services include financial assistance, a health center, academic advisement, personal counseling, career planning and placement, and support services for minority, international, handicapped, veteran and older returning students. A broad range of co-curricular learning experiences — many of them initiated and administered by students — includes recreational, educational and social activities in the Viking Union, as well as in the residence halls and at off-campus sites.

**ORIENTATION**

Immediately before each fall quarter, new students may participate in orientation programs designed to introduce them to Western Washington University.

Orientation programs provide students with opportunities:
- to learn more about Western's services, facilities and academic programs;
- to complete required tests;
- to meet faculty members, staff members and other new students;
- to begin the registration process.

**DEGREE PLANNING AND PROGRESS RECORD**

— "THE BLUE BOOK"

During orientation each entering student is provided a personal cumulative record and planning book. Typically referred to as "The Blue Book," it records transfer credit, provides a convenient check list for completion of General University Requirements, and includes space for records regarding admissions test scores, completion of major requirements, procedures for declaration of major and the student advisement process. Transfer student blue books indicate the manner in which transfer credits are used to meet General University Requirements. The blue book also is used to record the student's senior evaluation, a document which provides a record of all courses completed and those needed for completion of a baccalaureate degree.

**ACADEMIC ADVISING CENTER**

The Academic Advising Center (AAC) is a place where students can get help with academic problems. Peer advisers are used extensively to clarify academic requirements and regulations or to assist students with course selection and scheduling. For students with more serious academic concerns, professional advisers staff the office daily and are available for pre-scheduled appointments.

One of the main emphases of the AAC is to help students who have not yet chosen a major to explore Western's curriculum and resources so that their eventual choice is well-planned, practical and rewarding. However, the AAC staff is also involved in other student services such as:
- Orientation advising for new students.
- Assisting students with the registration process.
- Clarifying requirements for students who return after an extended absence.
- Referring students to faculty advisers when they need specific information about a department or major.
- Advising for students who are planning to pursue a professional program at another institution.
- Helping students who have decided to withdraw from
Western before the end of the quarter.
- Working with students who have been dropped from Western because of a low grade point average and wish to petition for reinstatement.

The Academic Advising Center’s professional staff also works with students who are having difficulty clarifying their academic goals. Referrals are frequently made to other resources like the Writing Clinic and Tutorial Center for work on specific learning and study skills.

Because the various colleges, schools, and programs at Western also offer academic advising, students are encouraged to read the pertinent sections of this catalog and talk with advisors from their areas of interest.

The Academic Advising Center is located in Old Main 275 and is open daily from 8 a.m. to 4 p.m. Appointments can be made by calling 676-3850, and drop-ins are welcome.

TUTORIAL CENTER

Student tutors are the primary resource of the Tutorial Center. Top students, recommended by faculty, tutor students taking General University Requirement courses. Tutors also lead review sessions when requested by faculty members. Students work with students to discuss, practice, and sharpen learning skills. Care is taken to provide tutoring consistent with classroom methods and approaches. Tutoring is available by appointment at no cost to the student.

The Tutorial Center is also a testing and tutorial resource for students who have been diagnosed as learning disabled. Questions or concerns regarding learning disabilities should be directed to the Tutorial Center staff.

Students seeking extra help with such study skills as time management, textbook comprehension, test preparation, and note-taking can find qualified peer and professional assistance at the Tutorial Center.

The Tutorial Center is open from 9 a.m. to noon and 1 to 4 p.m. daily and is located in Old Main 285. Appointments can be made by phone at 676-3855.

CAREER PLANNING AND PLACEMENT CENTER

Western’s Career Planning and Placement Center focuses on the full continuum from career planning to placement. Major services include self-assessment, analysis of job market information, how to make career choices, how to translate these choices into educational goals, how to obtain appointments with employers and how to become employed.

All Western students — regardless of degree, school, or college — are urged to seek and use the services of the Center early in their university programs.

Career Planning Programs Available to All Students

Students are encouraged to learn more about their interests, values, skills, personal assets, and life goals as a basis for choosing and preparing for careers. Counseling is also offered to assist students to understand the realities of the work world and realistically to relate their own career interests, goals and needs to the opportunities available.

Placement Services for Graduating Seniors

Graduating seniors are encouraged to register formally with the Placement Center and to establish a file of "placement credentials" during the first quarter of the senior year. The Center provides special work-shops and seminars on job search skills and techniques necessary to be competitive in a competitive job market. These include programs in resume preparation, letter-writing skills and interviewing techniques.

When current placement credentials are on file in the Center, students are eligible to participate in on-campus interviews, to review job notifications, and to use special aids in contacting potential employers. (Placement credentials may also be used to facilitate entry into graduate schools.)

Careers Information Library

The Center maintains a comprehensive library of career and job trend information, including general career planning information, relationships of academic majors to occupational areas, and labor market trends and needs. The library is an integral part of both the career planning and the placement processes. Students are encouraged to begin using the Center’s library as a resource center no later than the sophomore year.

Service to Alumni of Western and Graduates of Other Institutions

Alumni may obtain placement services if they update and activate their placement credentials. Graduates of other institutions working toward advanced degrees and certificates at Western or who have earned 30 or more credits at Western may also use the Center’s placement services.

Western’s Career Planning and Placement Center subscribes to an open-door recruitment policy and operates under federal and state non-discrimination statutes. The Center, located in Old Main 280, is open from 9 a.m. to 4:30 p.m., Monday through Friday.
COUNSELING CENTER

The Counseling Center (Miller Hall 262, 676-3164) offers educational, vocational and personal counseling.

Personal counseling may be helpful in gaining self-understanding, increasing social and personal effectiveness and learning to manage stress associated with being a university student. Counseling is offered to couples for improving communication, resolving conflicts and enhancing relationships.

Educational and vocational counseling can be helpful in assessing interests, abilities and aptitudes, selecting an appropriate major, overcoming learning problems, managing exam anxieties, developing study skills and exploring long range vocational goals. Carefully selected standardized tests of interests, aptitude and personality characteristics are usually included as part of the counseling process. The Center's Occupational Library houses a collection of occupational and educational materials offering information useful to students in making educational, vocational and career decisions (the library is open to all students, not just those using counseling services).

Depending upon student needs and requests, the Counseling Center also offers groups and special programs on interpersonal communication and skills, assertiveness training, study skills, stress management and weight control. Consultation services are provided for individuals and campus groups on how and when to refer to the Counseling Center, training in basic counseling skills, and student adjustment and development.

Counseling Center services are for currently enrolled students. However, transitional planning is available to students who have been dropped for low scholarship or are recently withdrawn or graduated. Courtesy consultation and referral service are offered to faculty and staff who may be seeking information about psychological services.

Counselors at the Center are professionally trained and experienced in counseling/clinical psychology and social work. All information gathered during the course of counseling is confidential and released only with student consent.

The Counseling Center is open from 8 a.m. to 5 p.m., Monday through Friday.

HEALTH SERVICES

Good health is recognized as essential for students to derive the maximum benefit from their time at Western. Health care provided by the Health Service includes treatment of acute problems, preventive health measures, and general medical and health education.

Health Service is available without charge (there is a fee for some tests and supplies) to all students currently enrolled for six or more credits per quarter. Students may reside on or off campus. It is not necessary to be a member of any health care or health insurance plan to use this service.

The staff of Health Service, located at High Street Hall 25, consists of registered nurses, office assistants and student employees. The University also contracts for on-campus physician time. The Health Service is open weekdays when classes are in session from 8:30 to 11 a.m. and from 1 to 3:30 p.m. At other times between 8 a.m. and 5 p.m., urgent problems will be appropriately cared for. Any student needing medical care should go directly to the Health Service. Appointments with the doctor are made by the nurse when the student arrives at the Health Service office. No appointments are made by phone.

Care provided at the Health Service includes those problems generally treated in a physician's office. Students with more complicated conditions are evaluated and referred to appropriate care in Bellingham or in the student's home community. Services offered on campus include medical evaluation by nurses and physicians; treatment, medication and prescription as indicated; referral for laboratory, X-ray and consultation as necessary; preventive medicine or wellness conferences; antigen injections; diet/weight/nutrition appointments; free venereal disease screening and treatment; pregnancy testing with prenatal, adoption and abortion referral.

When the Health Service is closed, the 24-hour Whatcom Emergency Service at St. Luke's Hospital is available for urgent care needs. Note: the University assumes no financial responsibility for care dispensed at the hospital emergency room. Students who engage this service must plan to use private or health insurance funds to cover expenses.

An Emergency/Ilness (life threatening) and injury (insurance) policy is available to students enrolled for six or more credits per quarter through the Whatcom Medical Bureau. The cost is low. Sign-up time is only during the first three weeks of each quarter. Brochures are available at the Registration Center, Cashier's Office and Student Health Service. Payment is made at the Cashier's Office, Old Main.

All new or transfer students, including graduate students, must submit a medical inventory health form which includes:
(a) A health history completed and signed by the student;
(b) A negative tuberculin skin test or chest X-ray documented by a physician or health department.
Both of these must be on file at the Health Service before the
student receives registration privileges. While it is not mandatory, the Health service strongly encourages a complete physical examination by a physician. This confidential physical examination is required of all entering foreign students.

RESIDENCE LIFE
The staff of the Office of Residence Life provides a broad variety of educational programs for students who live in campus housing facilities. Professional staff and student staff members assist students through personal counseling, activity planning and improvement of the on-campus living experience. They also work directly with student leaders and other university personnel to provide out-of-class learning experiences in leadership, program planning and evaluation, career and life planning, and general university community involvement.

Resident students may become directly involved with the implementation of hall programs through three primary avenues: Students may serve on residence hall governing boards, campus committees, or special activity task forces. Student leadership experience through membership on the Inter-Hall Council is another avenue for contributing to a healthy on-campus living environment. Residence hall staff positions are available each year to students who demonstrate an ability to work effectively with others in activity planning and paraprofessional advising. All of these opportunities provide practical leadership experiences, as well as student involvement in the shaping of a total program of residence education.

OFFICE OF STUDENT LIFE
The Office of Student Life is the University’s information and referral center for students. Questions or concerns about academic or personal issues are welcome. Assistance is available either directly or through referral for virtually any student concern. Leaves of absence from school for personal emergencies may be arranged here. Professional staff also assist in various support services for different student populations and a wide variety of student programs.

Ethnic minority and educationally disadvantaged students are counseled and assisted in such areas as reading disability, academic tutoring, academic programming, financial aid, housing, personal and social problems — or any other problem area where there is need for support.

Disabled students may obtain readers, note-takers, and interpreters for the deaf; resource information; advisement and counseling; information regarding parking and transportation; and liaison with such state agencies as Vocational Rehabilitation and Commission for the Blind through the Office of Student Life. The study room of Western’s library contains tape recorders, record players, braille materials, and special devices for magnifying print. The Office of Student Life coordinates a reading service for the visually impaired which provides textbook taping, reader referral and testing assistance.

International students may obtain academic and personal advisement as well as immigration information from the Office of Student Life. To enable international students to become acquainted with people in the community, the Office of Student Life arranges for host families through Friendship International. Information about the University’s International Club also may be obtained in this office.

Older returning students who are attempting to balance class loads, employment demands and family responsibilities may seek information resources in the Student Life Office. Child care listings, current information about community and University services, leave of absence arrangements for family emergency and time-saving referrals when problems arise are available.

Many educational programs which address areas of special student concern are coordinated by the Office of Student Life. Leadership, personal relationships and human sexuality are among the many issues for which programs are developed. Students seeking assistance — personally or for others — regarding alcohol and drug use or abuse may find advice and information in this office.

Fun in the sun in Red Square.

STUDENT ACTIVITIES
The program of Student Activities at Western is designed to provide maximum opportunity for student participation in a wide range of co-curricular experiences. Student Activities are in no sense incidental in the plans of the University; rather they are integral and highly important parts of the total range of educational experiences offered by the University. Students are encouraged to become involved in some aspect of the activity program since these activities provide educational and social experiences supplemental to, and often unavailable in, classroom situations.

Many student activities are initiated and administered by
students themselves through the Associated Students. Students may participate in the governing bodies of student-administered services, activities, and facilities not only to help determine the quality of co-curricular life, but also to gain administrative experience. Students may also participate in the University governance system as elected or appointed members of its various councils and committees.

Opportunities to serve fellow students and to develop skills in a para-professional capacity are available in a wide variety of student-provided services. These include drug, legal, sex, and environmental information services; a volunteer center; the A.S. Community Recycling Center; Men's and Women's Centers, and a Cooperative Day Care Center.

Club Sports

Competition and/or involvement is offered through the Club Sports program in rugby, soccer, sailing, chess, lacrosse, fencing, scuba, karate, softball, ice hockey, skiing, swimming, water polo, and indoor recreational games. All of these clubs offer instruction.

Day Care Facilities

The Associated Students Co-Op Day Care Center, a student-parent cooperative operated in Western's Fairhaven College buildings, serves children of student parents from 7:30 a.m. to 5:30 p.m. on the days Western is in session. Children from two through five years of age may be enrolled. To join, members pay a membership fee; quarterly fees after joining depend on income and are established according to the Center's annual budget. In addition to these payments, each member works a required number of hours per week at the Co-op Day Care Center.

More information about day care facilities on campus and in Bellingham may be obtained from the Office of Student Life.

FM Radio

KUGS, at 89.3 on the FM dial, is Western's student-managed radio station. With a complete range of music, news, and educational programming, KUGS offers students opportunities for participation as engineers, disc jockeys, newswriters and managers.

Outdoor Activities

Taking full advantage of the beautiful and varied country of northwest Washington, the Outdoor Program functions as a catalyst and resource center for hiking, ski touring, mountaineering, snowshoeing, rock-climbing, bicycling, backpacking, river rafting, camping, sailing, canoeing, kayaking and many other activities. Included in the Outdoor Program Center are environmental, map and outdoor libraries and sign-up sheets for trips, instructional activities, and many special events for both beginners and experts. A full range of outdoor equipment, such as rafts, backpacks, cross-country skis and cycling gear, is available for rent from the Equipment Rental Shop.

Program Commission

From rock to Rembrandt, the Associated Students Program Commission coordinates and presents a large part of Western's entertainment, educational, and social activities. Weekly films, art exhibits, coffee houses, dances, symposia, festivals, and cultural events are regularly provided by the Program Commission. In addition, it presents concerts and speakers such as the Arts Ensemble of Chicago, Gordon Bok, the Go Go's, McCoy Tyner, the Manhattan Transfer, David Grisman, Dick Gregory, Ralph Nader and Ram Dass — all of whom have appeared at Western recently.

Recreational Opportunities

Recreational facilities available to the University community include Lakewood, a ten-acre site on Lake Whatcom, which is operated by the Associated Students, and offers sailing, canoeing, swimming, boating and picnicking. Conference and meeting facilities are also available. The Associated Students also operate Kulshan Cabin, located at timberline on Mt. Baker, under a permit from the U.S. Forest Service. The cabin serves as a base camp for climbing in the area, as well as a destination for day hikes in the Cascades. In addition, Viqueen Lodge, located on a 13-acre tract on Sinclair Island and operated by the University, offers overnight accommodations at the entrance to the San Juan and Gulf islands.

Special Interest Groups

Special interest organizations offer involvement in a wide range of activities. More than 75 different organizations exist within the Associated Students, including groups such as the Black Unified Society, Political Science Association, International Folk Dancers, International Club, Science Fiction and Fantasy Club, Society of Automotive Engineers, Computer Club, Sexual Minorities Center, and various departmental clubs. Many religious groups also function at Western.

Viking Union

As the community center of the campus, the Viking Union plays an integral role in the co-curricular program. The Union houses offices for the Associated Students' government, services and activities; and the Viking Union/Student Activities administrative offices. Also located in the Union are meeting rooms, lounges, a music listening room, printshop, outdoor equipment rental shop, several food service areas, an information center/smoke shop, a delicatessen, art gallery, games room, typing room and vending area.
Associated Students Cooperative Bookstore

Operated by the Associated Students on a cooperative basis, the Bookstore provides textbooks, class supplies and materials, and convenience and sundry items for the university community. Texts are offered at a 15 percent discount, while general merchandise is discounted at six percent. Also housed in the store is a post office. Gift items and specialty services, such as film processing, are available.

Departmentally Related Activities

Intramurals, athletics, forensics, theater/dance, music, performances and publications are important University programs. Faculty from appropriate departments work closely with these student activities, but students need not be affiliated with the departments to participate. Students may receive credit for participation in most of these activities. The comprehensive Intramural Program includes many individual and group sports, through which students enjoy physical exercise and develop skills for leisure-time activities.

Athletics

Intercollegiate athletics involve many students as participants and spectators. Men's sports include basketball, crew, cross-country, football and track and field; women's sports include basketball, cross-country, track and field, and volleyball. The University Men's Program is a member of, and governed by, the Evergreen Conference and the National Association of Intercollegiate Athletics. The University Women's Program is a member of the National Association for Intercollegiate Athletics.

Forensics

The Forensics Program offers opportunities for developing new interests and skills through tournaments ranging from local, low-key competitions to the National Debate Tournament. Competition is offered in individual events, national topic debate, and CEDA debate. A chapter of Pi Kappa Delta, the national forensics honorary, provides student recognition and several service projects.

Intramurals

A comprehensive intramural sports program offers students an opportunity to participate in structured and unstructured activities on campus. League play is organized for men and women, and co-recreational teams in volleyball, basketball, softball and flickerball. Tournaments for such sports as racquetball, handball and badminton are held quarterly, while special sports events are offered throughout the year. The pool, weight room, gymnasiums and playing fields are scheduled for co-recreational use daily for the individual who prefers to participate without a competitive atmosphere.

Music Activities

The presence of the Department of Music has resulted in numerous student activities of high artistic and professional quality. The wide range of vocal and instrumental groups on campus provides musical activity for students at acceptable levels of ability, and the variety of musical entertainment available is sufficient to satisfy listeners of all tastes. Some of the opportunities for participation available to students are the Symphonic Band, Wind Ensemble, University Choir, Concert Choir, Symphony Orchestra, stage bands, jazz ensembles, opera, Collegium Musicum, and numerous smaller ensembles. Membership in all of these ensembles is attained through either a performance audition or consent of the instructor. See the Department of Music section of this catalog or contact the Department of Music for further information regarding organized music ensembles and auditions for membership.

Publications

Publications include the Western Front, a twice-weekly newspaper; Kilpsun, a twice-quarterly magazine; and Jeopardy, the annual literary magazine. Student contributions of time and talent are essential to the publications, and new students at all academic levels are encouraged to join their staffs each quarter. Students may receive credit for working on these publications through the English and Communication departments.

Television

A student-produced weekly color TV news show carried on the cable system serving Bellingham provides experience in newsgathering, editing, scriptwriting, videotaping, studio production and on-camera performance. Credit is available through the Communication and Technology departments.

Theatre and Dance

The Theatre and Dance program offers a rich variety of opportunities to work both on and off stage — to write, choreograph, act, dance, direct, design, costume and tech — in faculty- and student-directed productions. These include the major bill of plays and dance concerts, the touring theatre and dance productions, the New Playwrights Theatre, informal dance concerts, graduate thesis productions, and student directing class projects. Casting for productions is normally open to the entire community.

STUDENT RIGHTS AND RESPONSIBILITIES

The complete text of the Guide to Student Rights and Responsibilities is included as Appendix C at the back of this catalog.
**ADVANCED PLACEMENT AND COURSE CHALLENGE**

A regularly enrolled full-fee paying student may apply to challenge any course (except conferences, special projects, and physical education activities courses), and if achievement commensurate with the expectations of a given course is demonstrated, the student receives credit for the course. Such achievement may be demonstrated by:

*College Board Advanced Placement Examinations in certain subjects. The department concerned determines the minimum acceptable score.

*College Board Advanced Placement Examinations may be taken for the following:

<table>

Academic Policies

One quarter of successful performance in an advanced course in a sequence which is developmental in nature can, upon departmental recommendation, qualify a student for credit in the preceding course; admission to the advanced course is subject to permission of the department.

Challenge examination or procedures prepared by the department concerned.

The following regulations govern course challenges:

1. Students desiring to challenge a course should apply to the director of the Testing Center by the fourth week of the quarter. The time and procedure to be followed in completing the evaluative process will be announced by the Director. A special fee is charged for each challenge examination (See "Finances").

2. The result of the challenge is recorded as "Satisfactory" or "Unsatisfactory" on the student's permanent record and is not used in computing grade point averages.

3. The challenge application will normally be denied:
   (a) if the student is currently enrolled in the course;
   (b) if the student has previously established credit for a similar course at this or another university;
   (c) if the student has previously failed the course;
   (d) if the student has previously challenged the course and failed;
   (e) if the student has previously audited the course;
   (f) if, in the judgment of the director of the Testing Center, in consultation with the department concerned, the challenge procedure is inappropriate;

(g) if the student is in his/her final quarter prior to graduating and the course is part of the General University Requirements.

COURSE NUMBERING

Courses numbered from 100 to 299 are classified as lower division; those numbered from 300-499 as upper division. Generally, the first digit of a course number indicates its intended class level:
- 100-199 first-year (freshman) courses
- 200-299 second year (sophomore) courses
- 300-399 third-year (junior) courses
- 400-499 fourth-year (senior) courses
- 500-699 graduate level courses

Except in unusual circumstances, students are not permitted to take courses more than one year above their class standing.

The numbers 197, 297, 397, 497, and 597 are used for courses generally offered only once.

The numbers 137, 237, 337, 437, and 537 are reserved for Study Abroad (2-15). These courses are offered through the WWU Study Abroad program or through colleges. Contact the Foreign Study Office, OM 400, for information. Repeatable with different subject matter.

The numbers 417, 517 are reserved for Senior Seminar or Special Topics (1-6). Topics vary. Repeatable with different subjects.

The numbers 445, 545 are reserved for Current Trends (1-6). Topics vary. Repeatable with different subjects.

The numbers 300, 400, 500 are reserved to designate Directed Independent Study (1-15). Individual study. To enable students to pursue on an individual basis topics not covered by the curriculum.

Details regarding titles, prerequisites, number of credits and grading for specific courses can be found in the Class Schedule, Summer Catalog or Continuing Education bulletins.

Any undergraduate student wishing to enroll in a course numbered 500 or higher must obtain the written approval of the Dean of the Graduate School. (See the Graduate section of this catalog.)

Courses listed in this General Catalog constitute a record of the total academic program of the University. Except for unforeseen scheduling and personnel circumstances, it is expected that each course will be offered during the period of this catalog. For an exact scheduling of courses at Western, students should consult the annual Class Schedule, the Summer Catalog and bulletins of the Center for Continuing Education.

INDEPENDENT ELECTIVES

In addition to courses specified in the various major programs of the University and courses specified under the General University Requirements, students also have available independent electives. Independent electives give students the opportunity to investigate those special and personal interests that engage the curious and inquiring mind. It is the academic policy of the University to encourage such (independent) exploration.

PREREQUISITES

The student is responsible for ensuring that he or she has satisfied all prerequisites before registering for a given course. A student who has registered for a course without satisfying prerequisites or obtaining permission may be required by the instructor to withdraw from the course during the add/drop period at the start of the quarter.
CREDITS AND CREDIT LOADS

An academic credit is a measure of the total time commitment required of a typical student in a particular course of study. Total time consists of three components: 1) time spent in class; 2) time spent in laboratory, studio, field work, or other scheduled activity; 3) time devoted to reading, studying, problem solving, writing, or preparation. One hour credit is assigned in the following ratio of component hours per week devoted to the course of study: 1) lecture course — one contact hour for each one hour credit (two hours outside preparation implied); 2) laboratory or studio course — at least two contact hours for each one hour credit (one hour outside preparation implied); 3) independent study — at least three hours work per week for each one hour credit.

Since each hour in a course requires two additional hours of study, and since students usually register for several courses, Western has established the following credit load policies for undergraduate students:

- The standard load per quarter for undergraduates is 15 credits; during the first quarter of residence, a load must not exceed 17 credits. Before registering for more than 15 credits, students should consult with their advisers.
- After the first quarter of residence, the maximum allowable load is 20 credits per quarter.
- An employed student is expected to reduce his or her academic program and credit load accordingly.

See the Summer Catalog for load limits during the summer session.

CORRESPONDENCE CREDIT

Correspondence credit earned through a fully accredited college or university may be accepted toward the bachelor's degree up to a maximum of 45 credits.

AUDITORS

Auditors are persons who desire to attend courses without credit. Admission as an auditor requires prior approval of the instructor and Registrar, as well as payment of required fees. Regularly enrolled full-time students do not pay an additional fee for auditing. Since auditors are not active participants, certain courses may not be audited (physical education activities, laboratory courses, studio courses, etc.).

FULL-TIME STATUS

Students who have paid full-time tuition and fees (10 credits or more) are considered "full-time" students for purposes of on-campus employment, student office and membership on University committees.

Certain programs have different definitions of full-time undergraduate status (i.e., athletic eligibility, financial aid programs, Social Security benefits, Veterans Administration etc.). Students are advised to check carefully to determine that they meet the definition of "full-time enrollment" for the program in which they are participating.

Graduate students should consult the Dean of the Graduate School for a definition of "normal progress."

WITHDRAWAL FROM A COURSE

To withdraw from (drop) a course, a student must file a Change-of-Program form, in the Registrar's Office. The form must be approved by each department from which the student is dropping a course. Discontinued attendance without official withdrawal results in a failing grade (Z).

Course withdrawal during the drop/add period at the start of each quarter is considered to be a change of initial registration and no grade of "W" results.

From the end of the drop/add period until the end of the fourth week of each quarter, course withdrawal results in a
grade of "W". (Deadline dates are published in the Class Schedule.)

After the fourth week of a quarter, the student is committed to earn a grade in each registered course unless he or she has "late withdrawal" privileges that have not been used or unless he or she withdraws from the University.

Late course withdrawal, with a grade of "W", is permitted on a limited basis from the beginning of the fifth week through the ninth week of instruction each quarter. Late withdrawals are allowed only in accordance with the following schedule:

Total Credits Earned*

<table>
<thead>
<tr>
<th>Credits Earned</th>
<th>Late &quot;W&quot; Permitted</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-44</td>
<td>3 during this 45-credit period</td>
</tr>
<tr>
<td>45-89</td>
<td>1 during this 45-credit period</td>
</tr>
<tr>
<td>90-134</td>
<td>1 during this 45-credit period</td>
</tr>
<tr>
<td>135-179</td>
<td>1 during this 45-credit period</td>
</tr>
<tr>
<td>etc.</td>
<td></td>
</tr>
</tbody>
</table>

*Includes credits transferred to Western.

Note: "Late withdrawal" during the summer quarter is allowed during weeks four and five of the six-week session and during weeks four through eight of the nine-week session.

WITHDRAWAL FROM THE UNIVERSITY

Formal withdrawal from the University may be made at any time before the final two weeks of a quarter. Students must initiate the withdrawal process in the Registrar's Office.

Students who leave the University during a quarter without formal withdrawal receive failing grades.

If a student completes the official withdrawal process prior to the deadline, no grades are issued for the quarter. A withdrawal date is posted to the permanent academic record.

FINAL EXAMINATIONS

Final examinations, given in most courses at Western, are administered according to a schedule published in the Class Schedule. The scheduled days and hours for these examinations may not be changed. The final examination is normally held where the course meets.

All final examinations are scheduled during the last week of the quarter, which is known as final examination week. No final examinations except laboratory finals — whether for a whole class or part of a class or an individual — may be given before final examination week. This means that students may not petition faculty for early final examinations and that students should plan their end-of-quarter schedules in the expectation of final examinations in all courses. In the rare cases where final examinations are not given, instructors will notify students at the beginning of the quarter.

A student who fails to take a final examination without making prior arrangements acceptable to the instructor receives a failing grade for the course. Under unusual circumstances, an instructor may allow a student who has been making satisfactory progress in the course to take a late final examination and receive a temporary incomplete ('K') grade. This privilege is available only to students who have been making satisfactory progress in the course. The incomplete grade given in this manner should be removed early during the next quarter.

If the Final Examinations Schedule causes a student to take three or more examinations in one day, any of his or her instructors may arrange an examination later during Finals Week.

GRADING SYSTEM

Grades are assigned based on mastery of subject matter and the ability to communicate that mastery in examinations, essays, demonstrations and discussions. The three grading systems are described below. (Fairhaven College is authorized to follow a different system described elsewhere in this catalog.)

A-F GRADING

Most courses at Western are graded on the traditional A-F system. The grades that may be earned under this system, and their values for GPA calculation (see "Grade Averages" below), are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (Superior)</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>

<td>0.70</td>
</tr>
<tr>
<td>F (Failure)</td>
<td>0.00</td>
</tr>
<tr>
<td>K (Incomplete)</td>
<td>N.A.</td>
</tr>
</tbody>
</table>

SATISFACTORY/ UNSATISFACTORY GRADING

Some courses are graded on the S/U system. For these courses, appropriate curricular agencies have determined that the traditional A-F system is inappropriate. If a course has been approved for S/U grading, the only grades that may be assigned are "S," "U" and "K." Neither "S" nor "U" is considered in the calculation of grade averages.

All S/U courses are identified in this catalog and in the Class Schedule.
PASS/FAIL GRADING

Students may choose the Pass/Fail grading option in certain elective courses. Regulations pertaining to Pass/Fail grading are as follows:

1. Courses required for the major and minor, supporting courses, undergraduate professional requirements, and General University Requirements may not be taken pass/fail. Courses graded P/NP may not be applied to master's degree programs.

2. At the time of registration students must designate the courses for which they wish to receive a pass/fail grade. They may change this designation by the regular change of registration procedure through the fifth day of instruction.

3. Prerequisites, work required, and credit allowed are not affected by election of the pass/fail option.

4. In computing grade averages, neither the P nor NP grade in pass/fail courses is counted.

5. Courses applying to a major (including supporting courses) or a minor must be taken on the traditional A-F grading system. Should a student change his or her major or minor, the academic departments involved are the sole judges of the acceptability of any pass/fail courses already completed in the newly chosen concentrations.

6. Once a student has earned NP grades in courses totaling 10 credits, he or she may no longer register for courses under the pass/fail option.

Note: Excessive use of the Pass/Fail grading system may negatively influence admission to some graduate or professional schools.

THE INCOMPLETE ("K") GRADE

The grade of "K" (incomplete) may be assigned under all grading systems. It may be assigned only upon request of the student and agreement of the course instructor. Normally it is given only to a student who has been in attendance and has been doing passing work until the final two weeks of the quarter. Extenuating circumstances beyond his or her control may make it impossible to complete course requirements on schedule. Extenuating circumstances do not include mere lateness in completing work, the desire of a student to do extra work to raise a poor grade, etc.

To receive a "K" grade, a student must obtain a contract form from the appropriate department and negotiate a formal agreement with the course instructor specifying the work done and the remaining work to complete the course and earn a grade. One copy is kept by the student, and one by the faculty member.

Normally, the student removes the "K" grade (completes the work agreed upon) during the next quarter. After one year, if the "K" has not been removed, it automatically reverts to a failing grade ("F"), and the student may establish credit only by registering again for the course. (Grades of "K" earned in thesis courses numbered 690 do not lapse to failure.)

GRADE AVERAGES (GPA)

To determine a grade average, points are assigned to each grade earned under the A-F grading system (A=4.00, B=3.00, etc. See above.). The point value of each grade is multiplied by the number of credits assigned to the course. Total points are then divided by total credits attempted. Thus, a student who earns a five credit "A", five credit "B" and a five credit "F" has earned a quarterly average of 2.33 (35 points divided by 15 credits attempted).

A grade average of 2.00 ("C") represents the minimum acceptable level of performance to remain in good standing at the University. Higher grade averages may be required for admission to or retention in certain major programs.

Only grades earned at Western are calculated in determining a student's quarterly or cumulative grade average.

Grades of "S," "U," "P," "NP," "K" and "W" are not included in GPA calculation.

GRADES YIELDING CREDIT

Credit is granted for courses completed with grades of "D+" or higher on the A-F grading system, and for grades of "P" and "S." The grades of "D+," "D," "D-" however, represent a level of work that is unacceptable in a student's major or minor, supporting courses for majors and minors, English 101, professional education courses, the educational psychology courses required for teacher education programs, and "Fifth Year" courses.

REPEATING A COURSE

A few courses are approved to be repeated for credit. Such approval is included with the course descriptions in this catalog. If other courses are repeated, the following will apply:

1) Credit will be awarded only once.

2) Only the last grade earned will be considered in calculation of the student's grade average (unless the last grade is "K," "W," "NP" or "U").

The student who registers to repeat a course should file with the Registrar a "Course Repeat Card." Unless this card is filed, the repeat may not be detected until the Senior Evaluation, at which time cumulative credits
Academic Policies

will be reduced. In the meantime, the student's grade average will reflect both course grades.

If a transfer student is required to register for a course that may be a repeat of a course completed elsewhere, the student may receive credit for both courses.

GRADE REPORTS

Within a few days after the end of each quarter the Registrar sends a grade report to each student. The student indicates, at the time of registration, the address to which the grade report is to be sent.

GRADE CHANGES

Once a grade has been filed with the Registrar, it is regarded as final. Except for the conversion of incomplete ("K") marks, grade changes are accepted only under the following circumstances:

1) It is discovered that the grade resulted from clerical error in transcription or recording. Requests for change to correct these errors may be made only by the course instructor and only during the quarter immediately following original issuance of the grade.

2) The Registrar may be instructed to change a grade as the result of the academic grievance procedure.

3) The Registrar may be instructed to change a grade if it is determined that the grade resulted from academic dishonesty.

FRESH START
GRADE AVERAGE

Under unusual circumstance, a former Western student who returns to the University after an absence of five years or more may be given permission to start a new cumulative grade average. Complete information regarding this policy, and the procedure for petitioning, are available from the Academic Advisement Center.

SCHOLARSHIP STANDARDS

The following scholarship standards apply to each academic division of Western Washington University, except Fairhaven College. Students should note that transfer between academic divisions is restricted in cases of low scholarship.

High Scholarship

Graduation Honors

Graduation cum laude or magna cum laude is possible from those divisions of Western Washington University which employ the A-F grading system: College of Arts and Sciences, College of Business and Economics, College of Fine and Performing Arts, School of Education and Huxley College, Fairhaven College, which employs a different grading system, may develop alternate ways to honor outstanding graduates, subject to approval of the Academic Coordinating Commission.

Within each college which awards cum laude or magna cum laude status upon graduation, the determining factor in granting such distinction shall be rank-in-class based upon cumulative grade average. Magna cum laude shall be awarded to each student whose cumulative grade average places him or her at the 97th percentile or higher among graduating seniors during the previous academic year. Cum laude shall be awarded to each student whose cumulative grade average places him or her from the 92nd through 96th percentiles among graduating seniors during the previous academic year.

In computing cumulative grade averages to determine graduation honors, the Registrar shall count only those grades earned at Western Washington University including all grades in courses subsequently repeated.

To be eligible for cum laude or magna cum laude status upon graduation, the student must have earned at least 90 credits from Western Washington University, at least 65 of which must be for courses completed under the A-F grading system.

Only students who earn a first bachelor's degree are eligible for graduation honors.

Quarterly President's List

Each undergraduate student whose quarterly grade average places him or her at the 90th percentile or higher among students of the same class (freshman, sophomore, etc.) shall be placed on the President's List. The term "honor roll" shall be affixed to the student's permanent academic record for that quarter. To be eligible for the quarterly President's List, a student must be enrolled officially in a division of Western Washington University which employs the A-F grading system and must complete at least 14 credits on that grading system.
Low Scholarship

The University has set the standards described below to ensure that students who are earning poor marks will examine their objectives carefully before continuing enrollment. In some cases, students will be dropped from the University. The standards are designed to ensure that this action is taken before a student's record deteriorates to the point that reinstatement or admission to another college or university becomes impossible. In all cases involving poor scholarship, students are encouraged to consult with their advisers, instructors, or members of the student affairs staff.

The low scholarship categories below apply to all divisions of Western Washington University except Fairhaven. (See the Fairhaven College section for that division's scholarship standards.) Students dropped from one college division may not transfer to another college division without reinstatement by the appropriate academic committee.

Academic Warning. A warning is issued to any student whose quarterly grade average is below 2.00 but whose cumulative grade average is 2.00 or higher.

Academic Probation. Any student except a first quarter freshman whose cumulative grade average falls below 2.00 is placed in academic probation. Such a student is in danger of academic dismissal and must make immediate improvement in his or her grade average (see below).

Continuing Probation. A student who begins a quarter on probation and, during that quarter, earns a grade average of 2.00 or higher without raising his or her cumulative grade average to at least 2.00 is placed on continuing probation. The student must then improve his or her cumulative grade average to at least 2.00 by the end of the next quarter of enrollment.

Academic Dismissal. A student will be dropped from the University if he or she (a) begins a quarter on probation and earns a quarterly grade average below 2.00 or (b) begins a quarter on continuing probation and, regardless of quarterly GPA, fails to raise his or her cumulative grade average to at least 2.00 at the end of the quarter.

Removal from probation occurs at the end of a quarter during which a student has improved his or her cumulative grade average to 2.00 or higher. This must be done within two quarters after being placed on probation or academic dismissal will result (see "Continuing Probation").

Reinstatement

Students who have received notice of academic dismissal may petition for reinstatement.

Responsibility for reinstatement to the University (except Fairhaven College) rests with the Scholastic Standing Committee. Petitions for reinstatement and appointments with the Scholastic Standing Committee are available in the Academic Advising Center, Old Main 275.

Factors considered in determining reinstatement may include measure of academic aptitude, lapse of time since dismissal, change of major goals, nature of academic or other experiences since dismissal or extenuating circumstances.

Students are encouraged to petition well in advance of the quarter for which they wish to be reinstated.

A student who is dropped from one of the colleges and wishes admission to another college must follow the normal admission procedures.

Certain restrictions govern students on academic probation. They may not hold an elective or appointive office in any student organization or participate in intercollegiate athletics.

Academic Grievance Policy

The text and procedures of Western's Academic Grievance Policy are contained in Appendix F in the back of this catalog.

English Proficiency

Reasonable proficiency in the use of the English language is expected of entering freshmen. Students whose entrance test scores are below the standard set by the University are required to complete English 100, Review of Syntax and Usage, before registering for English 101.

Mathematics Proficiency

Proficiency in mathematics is expected of entering students. It is prerequisite to all university-level mathematics courses. Students must meet certain minimum requirements as measured by the Washington Pre-College Test. Those who enter with a deficiency are required to remove that deficiency prior to enrollment in a fourth university quarter.

Students failing to meet minimum mathematics standards on the Washington Pre-College Test may remove their deficiency by obtaining a satisfactory score on a re-test offered once each quarter. The Tutorial Center (Old Main 285) offers assistance to students seeking help in preparing for the mathematics re-test.

Transfer students with credit in any college-level mathematics course, transfer students with 40 or more credits and students with credit for four years of college preparatory mathematics in high school are considered to have satisfied this requirement.

Student Records Policy

For the complete text of this policy, see Appendix E in the back of this catalog.
University Graduation Requirements

GENERAL REQUIREMENTS FOR BACHELOR'S DEGREES

A student should expect to matriculate and graduate according to the general requirements in the catalog current at the time he or she enrolls. Students should expect to meet the specific requirements of the departments for majors and minors in the catalog current at the time they declare major and minor to the appropriate department.

If the student interrupts enrollment for more than two consecutive quarters (summer quarter not included), he or she shall meet the demands of the catalog in force at the time of readmission.

While the University reserves the right to change the regulations concerning admission and requirements for graduation, it shall be the policy of the University to give adequate notice prior to effecting any significant changes and to make reasonable adjustments in individual cases where hardship may be occasioned.

The following requirements are common to all undergraduate divisions of Western Washington University. For requirements unique to a given university division, see sections concerning the College of Arts and Sciences, College of Business and Economics, School of Education, College of Fine and Performing Arts, Fairhaven College and Huxley College.

- Minimum of 180 quarter hours of credit. (Please note that some baccalaureate degree programs require credits in excess of 180 for completion. Also, programs that are highly sequential necessitate careful planning; the lack of which may result in extended work beyond the minimum required.)
- At least one full year of residence study (45 credits minimum), including the final quarter before issuance of a degree. Study Abroad programs are acceptable as residence credit to a maximum of 45 credits. Correspondence, credit by examination and advanced placement credit are not included in this total.
- At least 60 credits in upper-division study (courses 300 or above)
- Satisfy writing proficiency requirements
- General University Requirements (see following section). These general requirements must be satisfied by all students except those enrolled in Fairhaven College, where a separate core program is required.
- Approved academic major
- Scholarship meeting minimums prescribed by the university divisions and academic departments

WRITING PROFICIENCY REQUIREMENTS

Western Washington University believes that development of writing proficiency should be pursued systematically throughout the course of study. To that end Western has established a program of writing courses and support services beginning in the freshman year and extending to upper-level writing-intensive courses (across the curriculum) offered throughout the University.

The following requirements apply to all freshmen entering in the fall of 1983; all transfer students entering in the fall of 1984; all students returning to the University in the fall of 1984 after more than two consecutive quarters’ absence.

1) Students whose Washington Pre-College Test scores indicate a need for additional work in English composition will be notified that they are required to pass English 100, Review of Syntax and Usage, before registering for English 101.
2) All students must satisfy Block A of the GUR Communications requirement, during their freshman year, except Fairhaven College students who must take Fairhaven 101 & 118 during their freshman year.

3) All students who have completed 90 credits toward graduation must take a proficiency test in language and writing skills. This examination will advise students of the level of proficiency they have acquired at this point in their academic careers. According to the results of the examination, students will be advised to a) enroll in a writing-intensive course (see #4 below); b) enroll in a writing-intensive course and participate in auxiliary support programs; c) not enroll in a writing-intensive course until they complete further coursework or auxiliary programs under advisement.

4) All students who have completed 90 credits toward graduation and have taken the writing proficiency test will take an upper-level course designated as "writing-intensive." This course will usually but not necessarily be in the student's major.

A complete description of the writing proficiency requirements is printed in the Class Schedule or may be obtained from the Academic Advising Center.

Grades in GUR Courses
Coursed which are to apply to General University Requirements must be taken on an "A" through "F" grading scale. They may not be taken with Pass/No Pass grading.

Associate Degrees to Satisfy GUR
Approved Associate of Arts degrees from community colleges in Washington will fulfill all General University Requirements. Students at community colleges who wish to satisfy the General University Requirements by earning an Associate degree should check carefully with advisers, as only certain approved degrees will apply. To meet the GUR, an Associate degree must normally be earned prior to initial enrollment at Western as a transfer student.

Transfer students from Washington community colleges may also satisfy the GUR by taking courses listed in the Transfer Advisers Handbook which is available at each community college.

COMMUNICATIONS
Complete Both A and B
All students must satisfy Block A of the Communications section of the General University Requirements prior to completion of 45 credits.

A. ENGLISH 101, Language and Exposition (4) (Waived for students demonstrating high English competency on Washington Pre-College Test or SAT.) English 101 must be completed with a "C" or better.

B. One course from the following:
ENGLISH 201, Introduction to Fiction with Composition (4); 202, Introduction to Drama with Composition (4); 203, Introduction to Poetry with Composition (4); 301, Reading and
HUMANITIES
Course work must be distributed among at least three departments with no more than 10 credits from any one department.

Select a minimum of 20 credits from the following:

ART HISTORY 190, Art Appreciation (3); 220, Survey of Art History I (5); 230, Survey of Art History II (5); 240, Survey of Art History III (5).

CLASSICAL STUDIES 350, Greek and Roman Mythology (3); Classical Studies 350 and Liberal Studies 232 may not both be taken for GUR credit.

ENGLISH 214, Introduction to Shakespeare (5); 215, Survey of British Literature (5); 216, Survey of American Literature (5); 238, Society Through Its Fiction/Drama/Poetry (5); 281, Western World Literature: Classical and Medieval (5); 282, Western World Literature: Renaissance and Neoclassical (5); 283, Western World Literature: Romantic and Modern (5); 336, The Bible as Literature (5); English 336 and Liberal Studies 235 may not both be taken for GUR credit.

FOREIGN LANGUAGES, any foreign language course numbered 200 and above and involving actual instruction in the foreign language. (Advance placement credit may not be applied.)

HISTORY 103, Introduction to American Civilization (5); 104, Introduction to American Civilization (5); 111, Introduction to Western Civilization (Prehistory to 476) (5); 112, Introduction to Western Civilization (476-1713) (5); 118, Introduction to Western Civilization (1713 to Present) (5); 267, Christianity in History (5); 347, European Intellectual History (5).

INTERDISCIPLINARY ARTS 110 (3)

LIBERAL STUDIES 121, The Western Tradition I: Ancien (5); 122, The Western Tradition II: Medieval (5); 123, The Western Tradition III: Modern (5), 231, Introduction to the Study of Religion (4); 232, Myth and Folklore (4) (Liberal Studies 232 and Classical Studies 235 may not both be taken for GUR credit); 235, The Biblical Tradition (4) (Liberal Studies 235 and English 336 may not both be taken for GUR credit); 242, Music and the Ideas of Western Man (4) (Liberal Studies 242 and Music 190 may not both be taken for GUR credit); 332, Universal Religions: Founders and Disciples (4).

MUSIC 140, The Art of Listening to Music (3); 190, Music in the Western World (3); (Music 190 and Liberal Studies 242 may not both be taken for GUR credit); Music 240, Survey of Non-Western Musical Cultures (3).

PHILOSOPHY 111, Introduction to Philosophy: Philosophical Problems (3); 112, Introduction to Philosophy: Moral Philosophy (3); 113, Introduction to Philosophy: Philosophy of Religion (3); 330, Society, Law and Morality (3).

POLITICAL SCIENCE 360, Introduction to Political Theory (5).

THEATRE/DANCE 101, Introduction to the Art of the Theatre (3); 201, Introduction to the Cinema (3); 231, Dance and Culture (3).

SOCIAL SCIENCES
Course work must be distributed among at least three departments with no more than 10 credits from any one department.

Select a minimum of 17 credits from the following:

ANTHROPOLOGY 201, Introduction to Cultural Anthropology (5); 210, Introduction to Archaeology (5).

BUSINESS ADMINISTRATION 271, Law and Business Environment (4). (Only one of Business Administration 271, Fairhaven 211 and Political Science 311 may be taken for GUR credit.)

FAIRHAVEN 211, The American Legal System (5). (Only one of Fairhaven 211, Business Administration 271 and Political Science 311 may be taken for GUR credit.)

GEOGRAPHY 201, Human Geography (5); 207, Economic Geography (5); 210, Geography and World Affairs (2).

HISTORY 346, Technology and Society in Early European History (5).

JOURNALISM 340, The Press and Society (3).

LIBERAL STUDIES 105, Behavioral Science (5).

LINGUISTICS 201, Introduction to Linguistic Science (5).

POLITICAL SCIENCE 101, Government and Politics in the Modern World (5); 250, American Political System (5); 270, Introduction to International Politics (5); 311, Jurisprudence (5). (Only one of Political Science 311, Fairhaven 211 and Business Administration 271 may be taken for GUR credit.)

PSYCHOLOGY 201, Introduction to Psychology (5); 218, Psychology and Culture (3).

SOCIOLOGY 202, Introduction to Sociology (5); 251, Sociology of Social Problems (5); 302, History of Social Thought (5).
NON-WESTERN AND MINORITY CULTURAL STUDIES

This area focuses upon a study of East Asia, South East Asia and India, the Middle East, Sub-Saharan Africa, Latin America, the Minority Experience in America, and Cross-Cultural Studies.

Select a minimum of 8 credits from the following:

ANTHROPOLOGY 353, Sex Roles in Culture (4); 361, Indians of North America (5); 362, Peoples of Asia (5); 363, Peoples of Africa (5); 364, Peoples of the Pacific (5).

EAST ASIA 301, 302, 303, The Cultures of East Asia: The Early, Middle and Recent Periods (4 each).

ENGLISH 234, Introduction to Afro-American Literature (5); 335, Literature of the Third World (4); 336, Women and Literature (4).

ETHNIC STUDIES 201, The Afro-American Experience (3); 203, Hispanic Peoples of the United States (3); 205, Introduction to Asian American Studies (3).

GEOGRAPHY 315, East and South Asia (5); 319, Africa (5); 321, India, Pakistan and Bangladesh (3); 322, The Middle East (3).

HISTORY 261, Black History in the Americas (5); 271, Introduction to Latin American Civilization (5); 273, Latin America (5); 275, The Indian in American History (5); 280, Introduction to East Asian Civilization (5); 281, Introduction to East Asian Cultures (5) (History 280 or 281 may not both be taken for GUR credit); 285, Introduction to African Civilization (5); 286, Modern Africa (5); 287, Introduction to Islamic Civilization (5); 361, Black History in the Americas: The Slavery Era (5); 385, Precolonial Africa (5); 397, History of the Jews (5).

LIBERAL STUDIES 271, Humanities of India (4); 272, Mythology/Religion and Society in China and Japan (4); 273, Artistic Expression and Society in China and Japan (4); 274, Society and Literature in China and Japan (4); 275, Humanities of Japan (4); 276, Humanities in Africa (4); 370, Major Non-Western Traditions: The Traditional Order (4); 371, Major Non-Western Traditions: Their Modern Fate (4); 372, Individual and Society in Contemporary Non-Western Literature (4); 373, Ideology and Experience in the Contemporary Non-Western World: Conservatives, Reformers, Revolutionaries (4).

POLITICAL SCIENCE 346, Poverty, Minorities, and Government (5).

PSYCHOLOGY 219, The Psychology of Sex Roles (4).

SCIENCE

Complete both A and B of Option I or complete Option II.

A. Students are advised to complete the three courses in Section A before enrolling in the course in Section B.

1. One course from three of the four following areas (students with one year high school preparation at the level of grade 11 or 12 in Chemistry, Geology, Physics or advanced Biology may substitute this work for the 101 course in the corresponding area in up to a maximum of two areas):

   BIOLOGY 101, Principles of General Biology (4); 121, Introduction to Plant and Animal Biology (5).

   CHEMISTRY 101, Chemical Concepts (4); 115, General Chemistry (5); 121, General Chemistry I (5).

   GEOLOGY 101, General Geology (4); 211, Physical Geology (5).

   PHYSICS 101, Physics for the Liberal Arts (4); 131, Principles of Physics I (5); 132, Principles of Physics II (5); 133, Principles of Physics III (5); 241, Physics with Calculus I (5).

B. One additional course from Section A above or one course from the following list:

   ANTHROPOLOGY 215, Introduction to Biological Anthropology (5).

   ASTRONOMY 103, Astronomy for the Liberal Arts (4); 315, General Astronomy: Solar System (4); 316, General Astronomy: Stars (4).

   BIOLOGY 122, Introduction to Cellular Biology (3); 123, Introduction to Genetics (3); 202, Field Biology of
Graduation Requirements

the Northwest: Flowering Plants, Conifers and Ferns (3); 205, Field Biology of the Northwest: Marine Biology (3).

CHEMISTRY 122, General Chemistry II (5); 123, General Chemistry III (5); 251, Elementary Organic Chemistry (5).

GEOGRAPHY 203, Physical Geography (5).

GEOLOGY 102, Continental Drift (4); 212, Historical Geology (4); 214, Environmental Geology (3).

HOME ECONOMICS 250, Human Nutrition (3).

HUXLEY 201, Environmental Studies: A Scientific Approach (4).

PHYSICS 242, Physics with Calculus II (5).

II. Complete one of the following sequences:

BIOLOGY 121, 122, 123.

CHEMISTRY 121, 122, 123.

GEOLOGY 211, 212 and one of 310, 318, or 380.

PHYSICS 131, 132, 133 or 241, 242, 341 and 344.

PROCEDURES FOR APPLYING FOR BACHELOR'S DEGREE AND/OR PROVISIONAL TEACHING CERTIFICATE

Degrees and/or teaching certificates are not automatically awarded when requirements are completed. It is the responsibility of the student to make application in the Registrar's Office no later than the third week of the final quarter, and it is strongly recommended that the student appear for the evaluation and application at least two quarters in advance of completion. Complete instructions are available in the Registrar's Office.

Commencement activities are held in the spring only. All students who have graduated the fall and winter quarters immediately preceding and those who have applied for graduation for spring quarter and the subsequent summer quarter are invited to participate. An informal mailing is forwarded to all eligible students early in the spring.
All-University Programs

Western Washington University is organized into five colleges: a School of Education and a Graduate School. This organization not only accommodates Western's size and complexity, but also enables flexibility and innovation in Western's curriculum.

Some programs at Western are available through one department or college; some are interdisciplinary, involving several academic units; and some, the All-University Programs listed below, involve all or most of Western's departments, colleges and schools:

- Center for Continuing Education
- Field Experience
- Foreign Study
- Honors Program
- Professional Transfer Programs

Academic opportunities available through Western's All-University Programs are described briefly as follows.

CENTERS FOR CONTINUING EDUCATION

The Center for Continuing Education extends Western's resources and services to the state of Washington. The Center offers credit and non-credit courses and several degree programs during the evenings and weekends, on and off campus.

Through the Professional Staff Development Center in Seattle and in other locations, the Center provides Western's graduate courses and programs for school teachers and administrators.

Special workshops, conferences, seminars and institutes are designed to meet the needs of communities, business and industrial organizations, and public, private and government agencies.

The Independent Study office affords an opportunity for study by correspondence as well as special project contract study.

Adults participate in the learning opportunities to upgrade their occupational skills, to acquire new skills, and to pursue a variety of special interests.

For further information or to receive the quarterly listing of courses, contact the Center for Continuing Education.

FIELD EXPERIENCE PROGRAMS

Western Washington University recognizes the value of work experience outside the classroom as a supplement to the student's general education and major area studies. Thus the University offers opportunities for field experiences, including practical, internship and cooperative education in a variety of community businesses, organizations and governmental agencies. Students who wish to apply their theoretical classroom learning to on-the-job situations can spend several quarters (maximum of 15 credits) in one of these positions. Credit will be awarded upon a satisfactory employer/faculty evaluation and fulfillment of contractual agreements. These work experience situations are arranged beforehand to accomplish specific goals agreed upon by the student, sponsoring faculty member and employer. Students should contact the Career Planning and Placement Center for additional information.

FOREIGN STUDY

WWU offers year-round liberal arts study abroad programs in Great Britain, France, Germany, Spain and Mexico, as well as other countries during specific quarters. Designed to give students a complete foreign study experience in the host country, each program includes numerous excursions to historical and cultural sites and a wide range of activities.
which complement formal classroom work. Students register at WWU before departure, carry normal course loads for the quarter (12-15 credits) and may receive financial aid. Foreign Study courses within a department are normally assigned 137, 237, 337, or 437 numbers. Since special application and registration procedures are required for participation in foreign study programs, students should consult with the Foreign Study Office, Old Main 400, well in advance of their planned quarter abroad. As program size is limited, early application is recommended.

Students may also receive credit for foreign study through (a) specialized programs sponsored by WWU departments or colleges, (b) programs sponsored by accredited U.S. colleges or universities, (c) study at foreign universities, and (d) independent study arranged through departments and colleges by the Foreign Study Office and Continuing Education. Contact the Foreign Study Office, Old Main 400, (208) 678-3298, for further information on study, travel and work abroad.

THE HONORS PROGRAM

Western's undergraduate Honors Program provides a challenging opportunity for students of high academic ability to realize their potential more fully. Freshmen and transfer students are invited into the Honors Program on the bases of entrance exams, high school grade averages, recommendations and interviews. Students already enrolled at Western enter the program on the above bases and on the recommendation of a University instructor.

Students selected for honors work participate in much of the General University Requirements program required of all degree candidates, but are responsible to the director of the Honors Program for the precise determination of their programs. Substitutions or waivers of some required courses may be approved on the basis of individual needs. The director of the Honors Program and the student's major department have joint responsibility for upper-division course requirements.

The four-year Honors Program involves both general honors courses and more specialized work within the major department. The program also enables students to prepare alternates to the General University Requirements, to undertake more independent study and to develop contracts for graduation.

Students interested in this program are invited to consult with the director of the Honors Program, Dr. Phillip Montague, for more details.

Admission to the Program

Students admitted to Western are considered for admission to the Honors Program by any one of the following ways:

1. Scholastic aptitude test scores in the top five percent.
2. A grade point of 3.7 or above.
3. Faculty recommendation.

Quarterly Courses of Study

Seminars: Usually two or three credits; small groups of students and faculty who meet to study an area in depth. Several seminars are offered each quarter, titles of past seminars including "Socrates and Jesus," "The Common Law Tradition," "Philosophy of Science," "Geologic Hazards" and "The Russian Novel."

Independent Study: Individual work with a concentrated area of study related to the student's major or minor, not necessarily completed on campus. Past examples include working with the ACT Theatre Company in Seattle, studying medieval architecture in Europe, and studying the Russian language.

Special Majors, Course Waivers: General University Requirements may be waived in lieu of a relevant seminar. Advanced placement exams are available by arrangement with the Testing Center. Students may propose a major or major-minor concentration not listed in the catalog. Such majors are prepared in detail by the student with the help of faculty in concerned departments, and constitute a contract for graduation. The student who has developed his or her own major or who has completed alternate work for General University Requirements should check with the Honors Office prior to the Registrar's senior evaluation. Notice of work in honors will be forwarded to the Registrar.

Policies within the Honors Program, independent studies, recommendations for graduation with honors, and senior theses must be approved by the Honors Board. The Honors Board consists of the director, who chairs the board, and selected faculty and honors students.

Requirements for Graduation with Honors

In addition to (or in some cases, in lieu of) the requirements for graduation from WWU, the honors student must have completed the following:

- A minimum of 12 credits in honors (seminars or independent study); 20 credits of honors work is more typical.
- A minimum of two years in the Honors Program.
- An all-university grade point average of not less than 3.5 for the last 80 credits before graduation.
A senior thesis approved by the student's thesis adviser and department chairman. The thesis must be signed and delivered in proper form to the Honors Office three weeks prior to expected graduation. (The thesis proposal should be presented to the Honors Board three quarters prior to expected graduation.)

**Honors Courses**  
(Non-departmental)  
Specific descriptions of current offerings are available in the Honors Office.  

- 150 - 159  
  SEMINAR (2-4 ea)  
- 250 - 259  
  SEMINAR (2-4 ea)  
- 300  
  INDEPENDENT STUDY (variable credit)  
- 350 - 359  
  SEMINAR (2-4 ea)  
- 400  
  INDEPENDENT STUDY (variable credit)  
- 450 - 459  
  SEMINAR (2-4 ea)  
- 490  
  THESIS (2 credits per quarter up to a maximum of 6)  
S/U grading

**PROFESSIONAL TRANSFER PROGRAMS**

The following suggestions will assist students planning to complete a professional program at another institution. Students should seek advice from a pre-professional adviser as soon as possible. Completion of the suggested courses does not guarantee admission to a professional degree program. The institution to which the student is transferring determines admission to the program and makes decisions regarding the transferability of credit.

Catalogs from in-state institutions and assistance in clarifying transfer procedures are available in the Academic Advising Center. Programs undergo constant revision, and, as changes occur, the following program recommendations may become outdated. The student, therefore, must bear responsibility for continued contact with the transfer institution and the on-campus adviser.

**Architecture**

Western offers two years of undergraduate study which may be transferred to the University of Washington as the liberal arts component of a baccalaureate degree program in architecture. Pre-majors are required to complete a balanced distribution of courses during the first two years based on recommendations found in the University of Washington General Catalog.

Washington State University offers baccalaureate level architectural studies. Pre-major requirements include completion of the General University Requirements and specifically recommended courses listed in the Washington State University Bulletin.

Program Adviser: Dr. Fred A. Olsen, Department of Technology

**Dental Hygiene**

Associate and baccalaureate programs in dental hygiene are available in several Washington institutions of higher education. Graduates of two- or three-year certificate or associate degree programs are generally limited to dental office practice and some public health positions. Hygienists with baccalaureate degrees may work in private practice, and with office experience are eligible for beginning dental hygiene teaching or administrative public health positions.

A list of dental hygiene programs in the State of Washington and prerequisite courses for admission to these programs is available from the program adviser.

Program Adviser: Dr. John C. Whitmer, Department of Chemistry

**Dentistry**

Admission to the professional schools of dentistry is highly competitive; therefore, a pre-dental program should be planned with care. Electives should be relevant to dentistry, and every effort should be made to maintain high scholarship.

Since dental schools give valuable advice and information about admission standards and requirements, it is wise for pre-dental students to make personal contacts with a dental school early in the program. The following courses should be included in programs leading to dental school application:

- Biology 121, 122, 123, 312, 345, 469
- Chemistry 121, 122, 123, 351, 352, 353, 354, 355, 471, 472
- Physics 131, 132, 133
- Electives: Equally important is a background in the social sciences and humanities. Psychology, sociology, economics, English literature, anthropology and philosophy are excellent scientific and humanistic studies for pre-dental students. Although there are no firm requirements in these areas, it is suggested that pre-dental students take a minimum of 30 quarter credit hours divided among three or more of the above areas.

A prior degree is recommended although not necessary for admission to the University of Washington School of Dentistry. A minimum of 135 pre-dental quarter credits is required. Cur-
rently students accepted have completed an average of more than 180 quarter credits.

There is no apparent advantage in transferring to the University of Washington before applying to the Dental School, as Western students have been admitted directly into their program.

Program Adviser: Dr. John C. Whitmer, Department of Chemistry

Engineering
Schools or colleges of engineering require courses in mathematics, chemistry, physics and communications, the base upon which all engineering curricula are constructed. High school students who wish to major in any engineering field in college should include high school courses in mathematics through algebra IV and trigonometry, physics and chemistry. A fourth year in mathematics and senior-level English composition are also recommended. If the student is deficient in high school preparation he will need additional college courses, thus increasing the time needed to earn a degree. Admission to a college or school of engineering requires above-average academic performance and greater depth in introductory college mathematics and science courses than is required for a liberal arts program.

The major elements of the first one or two years of the pre-engineering program at Western are shown below. Engineering schools and colleges also require additional courses distributed in social sciences and humanities which can be selected from Western's offerings to meet the requirements of the specific engineering school to which the student intends to transfer. Note that some engineering schools specify some minimum number of credits completed and some minimum grade point average for admission to a given engineering program.

Introductory core courses:
- Chemistry 121, 122
- English 101, 301 or 302 or 401
- Mathematics 124, 125, 126
- Physics 241, 242, 271, 272, 341 and 361
- Computer Science 124, 210

Additional courses: (check with your pre-engineering adviser)
- Chemistry 123, 351, 352, 353, 354, 355 (for chemical engineering)
- Geology 211, 212 (for civil engineering)
- Mathematics 224, 331
- Physics 355, 356 (for electrical engineering), 343, 353 (for mechanical engineering)
- Technology 210, 211 or 220 or 224

Students not prepared to take Mathematics 124 (Calculus) should enroll in a preparatory sequence, under advisement.

Program Advisers: Dr. A. Rupeal and Dr. L. Barrett (Physics/Astronomy), Dr. R. Berg and Dr. H. Levin (Mathematics/Computer Science)

Forestry
Washington State University offers degrees in forest management and range management. The University of Washington offers degrees in forest management, forest engineering, outdoor recreation, pulp and paper technology, wood and fiber science, forest science and wildlife sciences. Because of the differences in the various forestry curricula, students are urged to attend the pre-forestry advising session prior to fall quarter registration or to consult with the program adviser as soon as possible. For some curricula, specific courses should be included among the electives.

Program Adviser: Dr. Hubertus E. Kohn, Department of Biology

Law
Most law schools require completion of a baccalaureate degree before the student begins professional legal education. They normally do not specify preferred undergraduate majors, but do seek students who are broadly educated. Law schools want students who have proficiency in oral and written communication, an understanding of economic, political and social institutions, and well-developed objective and critical thought processes. Western's General University Requirements are intended to aid students in realizing these goals.

Careful selection of electives may enhance performance in law school, and undergraduate course selection should reflect the interests and professional objectives of individual students. Therefore, early consultation with the program advisers on course and program decisions is recommended.

The Law School Admission Test (LSAT), normally required of applicants to American and Canadian law schools, is
offered on the Western campus several times each year. Applications and test schedule information may be obtained from the Testing Center. Students should plan to take the LSAT late in their junior year or early in their senior year.

Program Advisers: Dr. John Moore, Department of Business Administration; Dr. John Wuest, Department of Political Science.

Medical Technology
At the University of Washington, the four-year medical technology program leads to a Bachelor of Science degree in medical technology. Students at Western may complete 90 quarter credits of study, concentrating on courses which parallel the University of Washington's medical technology program, prerequisites and distribution requirements. It is important to consult with the program adviser early in the first year of the transfer program.

Washington State University also offers a baccalaureate program in medical technology. Students planning to transfer to WSU may complete two years at Western, including courses which parallel WSU's general university requirements in addition to those courses recommended by the program adviser.

Recommended freshman year curriculum:

- Biology 121, 122, 123
- Chemistry 121, 122, 123
- English 101, 301 or 302
- Mathematics 105 or higher
- General University Requirements

Program Adviser: Dr. G. F. Kraft, Department of Biology

Information regarding chiropractic and naturopathic education is also available from the program adviser.

Program Adviser: Contact Dr. G. F. Kraft, Department of Biology, for a referral to the appropriate program adviser.

Nursing
See the Department of Nursing section of this catalog.

Occupational Therapy
Admission to a school of occupational therapy is highly selective. Students wishing to earn a Bachelor of Science degree in occupational therapy may complete their prerequisite courses at Western. The Western curriculum includes courses which will prepare students for transfer into the occupational therapy programs at the University of Washington and the University of Puget Sound. Since graduation requirements vary among institutions, students should obtain specific information concerning the programs prior to their first term of enrollment.

Required courses for transfer into occupational therapy programs:

- Biology 101, 348, 349
- Chemistry 101
- Physics 131
- Psychology 201
- Sociology 202

Additional courses recommended or required (determined by the individual occupational therapy school):

- Psychology 314, 316
- Sociology 324, 333, 351
- Speech 204
- Educational Curriculum and Instruction 361, 465

Program Adviser: Dr. Evelyn E. Ames, Department of Physical Education

Optometry
Schools of optometry generally offer baccalaureate, master's and doctoral degree programs.

Pre-med students choosing majors other than biology or chemistry should also seek advising in their major department.
Western is able to provide one year of liberal arts studies as a background for more specialized training in optometry. Students are advised to transfer after their first year. Early consultation with the program adviser is recommended.

Recommended freshman year curriculum:

- Biology 101
- Chemistry 121, 122, 123
- English 101, 361 or 302
- Mathematics 124, 125, 126
- Physics 131, 132, 133, or 241, 242
- General University Requirements

Program Adviser: Dr. Lowell Eddy, Department of Chemistry

**Physical Therapy**

Admission to a school of physical therapy is highly selective. Depending upon the institution, students are admitted to the professional program at the sophomore, junior, senior or post-baccalaureate level. Students who elect to complete a baccalaureate degree prior to transfer should give serious consideration to the Bachelor of Science degree in Community Health or Bachelor of Arts degree in Physical Education (see the Department of Physical Education, Health and Recreation).

Western's curriculum includes courses which will prepare students for transfer into the physical therapy programs at the University of Washington and the University of Puget Sound. Required courses for transfer into physical therapy programs:

- Biology 345, 348, 349
- Chemistry 115 (or 121, 122), 251
- Physics 131, 132, 133
- Psychology 201 plus an additional course

Additional courses which are beneficial:

- Physical Education 301, 302
- Mathematics 240

Program Advisers: Dr. Evelyn Ames (General Physical Therapy and Community Health); Dr. Kathleen Knutzen (Physical Education)

**Social Work**

Students preparing for admission to a professional school of social work and students interested in securing social work positions that do not require professional education may satisfy their interests by completing the Bachelor of Arts degree in Sociology, including the following elective courses in the major:

- Sociology 251 and 261
- Sociology 372, 373, 375, 473, 477
- Sociology 311 (in lieu of 310)
- Sociology 333, 340, 341, 351, 360, 380

Other courses strongly recommended include Sociology 353, 354, 367 and 369. For further recommendations of specific courses in sociology or cognate areas which may strengthen the student's preparation, consult with the program adviser.

Program Adviser: Dr. Charles Gossman, Department of Sociology

**Theology**

Students who are considering enrollment in a theological seminary or in other special training for religious work should seek advisement early in their academic careers. They should determine as soon as possible which graduate institution they wish to enter and what is required for admission. Broad study in the liberal arts (literature, history, philosophy, language) is generally regarded as appropriate undergraduate preparation for seminary work, but expectations of particular institutions vary. In some cases the minor in the Study of Religion, offered through the Department of Liberal Studies, may form an appropriate part of an undergraduate pre-theology program.

Program Advisers: Dr. Joseph Bettis and Dr. William Stoeber. Contact the Department of Liberal Studies.
Veterinary Medicine

The College of Veterinary Medicine at Washington State University requires at least seven years of study leading to completion of the Doctor of Veterinary Medicine degree. Western can provide a student with either four years of pre-veterinary training through a degree in Biology or a three-year transfer program. It is not absolutely necessary to complete a baccalaureate degree; however, it is advisable to aim toward a degree in the event that a student is not admitted to a veterinary school. Admission is extremely competitive and students are strongly encouraged to consult early with the program adviser and to review the admissions requirements in the WSU catalog.

Academic requirements for WSU's professional program leading to a Bachelor of Science in Veterinary Science include 88 quarter hours in the physical and biological sciences and 45 quarter hours in electives and general university requirements. (113 total quarter hours required.)

Recommended freshman year curriculum:

- Biology 121, 122, 123
- Chemistry 121, 122, 123
- English 101, 301 or 302
- Mathematics 105
- Physics 131, 132, 133

Other Western courses which are required for admission include Chemistry 351, 352, 354, 355, and 371. Applied animal nutrition is also required. The WSU correspondence course AS 307X (or equivalent) will currently satisfy this requirement.

Program Adviser: Dr. Herb Brown, Department of Biology

Arntzen Hall on South campus.
COLLEGE OF ARTS AND SCIENCES

Dr. Peter J. Elich, Dean

The College of Arts and Sciences, Western's largest academic division, contains 21 departments offering more than 60 major programs at both bachelor's and master's degree levels. In addition to traditional majors in the humanities, social sciences and natural sciences, students may select from a variety of interdisciplinary programs or design their own majors with the help of faculty advisers.

The College offers its undergraduate students a liberal education in three parts: first, a program of education-in-breadth through General University Requirements (CUR) intended to prepare students for post-graduate life as educated persons and citizens; second, a program of education-in-depth in a disciplinary, interdisciplinary, professional, pre-professional or vocational major designed to prepare students for post-graduate careers or advanced courses of study; and third, a choice of elective courses which can help satisfy the student's curiosity about any of the multitude of subjects which the University's curriculum embraces.

The aim of such a liberal education is not only to prepare students for the special roles they will take on as baccalaureate graduates but also to help students acquire characteristics of the sort that will mark them as educated persons. Thus, the faculty of the College, as a community of teachers and scholars, hope to produce graduates who are capable of informed and critical thinking; who have learned to tolerate ambiguity; who can appreciate cultural differences; who have developed moral and aesthetic sensibilities; who have mastered some basic tools of literacy and mathematics; and who have acquired levels of information about the worlds of man and nature in the past and present sufficient for responsible citizenship and for the enjoyment of civilized society.

Admission
See the catalog section on University Admissions.

Requirements for Bachelor's Degrees

☐ 180 quarter hours of credit; no fewer than 60 credits in upper-division study

☐ Residence study: one full year (45 credits minimum) including the final quarter before issuance of a degree; Study Abroad programs are acceptable as resident credit to a maximum of 45 credits

☐ Scholarship standard: a cumulative grade average of 2.00 (C) or better, with no grades of less than C acceptable in the major, minor, supporting courses for major or minor, professional education courses, or in English composition. Admission to, and continuation in, the teacher education curriculum requires a minimum average of 2.50. Some departments have minimum grade point requirements in the major for graduation. Please check the departmental major requirements for specific information.

☐ General University Requirements: approximately 50 to 70 credits, depending upon degree of overlap with major and exemptions based on test results and previous preparation

☐ Major area emphasis as specified in departmental sections under Bachelor of Arts, Bachelor of Science and Bachelor of Arts in Education

☐ Electives as needed for the 180 quarter hours total credit

Majors and Minors
In addition to the General University Requirements and other common degree requirements listed on the preceding pages, the candidate for a Bachelor of Arts or Bachelor of Science degree must complete a major area emphasis which is usually accompanied by supporting courses. A minor is optional. A few concentrations are offered which encompass both a major and a minor. Students will confer with appropriate departmental advisers to plan study programs. Transfer students are expected to complete at least a portion of their work in the major and minor fields in this institution.

Student-Faculty Designed Majors
Students desiring concentrated study in areas not listed as majors by departments of the College of Arts and Sciences may design a major in conference with faculty members. Details of this procedure are available from the Academic Advisement Center or the chairman of the Department of Liberal Studies.

Academic Advisement
As the student completes the freshman year, which usually consists largely of courses that meet the General University Requirements, he or she is referred to the academic departments for continued personalized advisement in planning and selecting courses of study. Faculty within each department share responsibility for counseling students electing concentrations in their area. In some cases, faculty from several departments may cooperate with a student in constructing his or her own interdisciplinary major; in others, faculty members may recommend to the department chairman the waiving of certain course prerequisites (when it has been demonstrated that the student already has these competencies). Students who are undecided about a major may seek advisement through the Academic Advisement Center in Old Main.

COLLEGE OF BUSINESS AND ECONOMICS

Dr. Dennis A. Murphy, Dean

Objective of the College
It is the function of the College of Business and Economics to prepare men and women for positions of leadership and stewardship in the management and administration of complex organizations. The College develops managerial skills, analytic economic skills, and interpersonal sensitivities, as well as quantitative and accounting skills. In addition, the College prepares teachers for high schools and community colleges in the business disciplines.
The program is primarily upper-division, based upon a broad liberal-arts education in the first two years. Individual skills are developed sufficiently to achieve entry-level employment in many fields, but the College tries to motivate and orient the student for a lifelong learning experience. The College develops sensitivity to environmental aspects of business enterprise, promotes a commitment to ethical behavior, and provides a strong emphasis upon forward-looking, goal-setting behavior in the business world while encouraging an active role of leadership in the community.

The College of Business and Economics, established as a separate unit in 1976, is organized into four departments: Accounting, Business Administration, Economics, and Office Administration/Business Education. These departments are interdependent and their programs draw upon the whole College.

Joint Majors

Interdepartmental majors are given in Accounting-Computer Science, Accounting-Economics, Business Administration-

Computer Science, Economics-Mathematics and Economics-Political Science. See Departments for details.

Admissions

The College of Business and Economics is currently experiencing such severe enrollment pressure that selective admission procedures are necessary. Consequently, priority for enrollment in upper-division courses (300 and above) is given to students who have been officially admitted to the College. Early declaration as a "pre-major" in the College is advised for all interested students. Immediately after satisfying departmental requirements for acceptance as a major, the student should complete the official major declaration process to assure registration priority.

For admission, a student must have earned at least 75 quarter hours of college credit. Although work experience and individual circumstances will be considered, at the present time admission is limited to students who meet GPA limits established for each major. See departments for details. Announcements of changes in standards will be published in the Class Schedule.

Students may enroll in lower-division courses without formal admission into the College of Business and Economics.

Applications for admission may be made directly to the appropriate department of the College of Business and Economics. Academic advisement is provided by College of Business and Economics faculty.

See the Admissions section of this catalog for policies and procedures relevant to admission to Western Washington University.

Requirements for Bachelor's Degree

- 180 quarter hours of credit
- No fewer than 60 credits in upper-division study; some majors, however, may exceed 60
- Resident Study: A minimum of the final year's studies (45 hours credit)
- Scholarship standard: A cumulative grade point average which satisfies minimum GPA limits established by the University
- General University Requirements must be completed before a baccalaureate degree is granted
- Majors: major area emphasis and requirements are specified in the departmental sections
- Electives: electives may be selected as needed to ensure the required 180 quarter hours total credit, except that majors in Accounting and Business Administration must complete a minimum of 72 credits in areas other than Accounting, Business Administration and Economics
- Petitioning procedure: any student who seeks either a variation from the strict application of the rules, regulations, or requirements of the College, or a student-designed major from among the departments of the College, may petition the Dean
- Graduation and degree application: refer to the "General University Requirements" section for procedures to be followed

Minor

In addition to the majors provided by the four departments, a minor makes an excellent addition to a specialized program in other areas of the University. This gives relevant, realistic, and applicable qualities to those valuable skills developed in other more abstract and theoretic departments. The combination of a minor with a major in Speech, English, Journalism, VICOED, Home Economics, Foreign Lan-
guages, or other liberal arts majors, provides an additional strength and resource to the individual's skills and educational development. See Departments for details on minors.

Special Programs

Small Business Development Center (SBDC). The SBDC provides individual counseling to small business firms, conducts research into general small business problems, and develops and offers educational programs geared to the needs of persons operating small businesses. Any small business firm, community group or individual may request assistance. There is no charge for management and technical assistance services of SBDC counselors.

Center for Economic Education. The Center for Economic Education, coordinated by the Economics Department, is involved in providing economic knowledge, data, and teaching aids to the grade schools and high schools throughout the state. Affiliated with the Washington State Council on Economic Education, this center assists in raising the standards of economic literacy of the state.

Small Business Institute (SBI). The Small Business Institute provides free advice to small businesses. Students can become involved and earn College credit while studying actual enterprises and helping local businesses solve problems.

Internships are available through individual departments. These can provide College credit for on-the-job work experience.

SCHOOL OF EDUCATION

Dr. Marvin Klein, Acting Dean

The School of Education is responsible for developing and implementing those professional education programs which lead to teacher certification, credentialing of school administrators, and professional training of leaders in Human Resources Development. It serves as a clearinghouse for the exchange of information and as a coordinating agency for programs at both the undergraduate and graduate levels. The Dean of the School of Education is responsible for coordinating programs which involve a wide variety of departments throughout the University. The School of Education faculty is comprised of those persons who teach professional education courses.

The Department of Educational Curriculum and Instruction is one of two major components of the School of Education and is responsible for developing and implementing teacher education programs which lead to Washington State Certification. The Department of Educational Curriculum and Instruction offers both undergraduate and graduate course work in elementary, secondary and special education.

The Department of Educational Administration and Foundations is comprised of those programs which extend and complement the experiences offered in teacher education programs. This department offers programs in Educational Administration, Foundations of Education, Educational Technology and Human Resources Development.

Professional Education Programs are developed and reviewed with the assistance of the Professional Education Advisory Board with representatives from cooperating school districts and professional associations.

Dr. John F. Utendahl, Educational Administration & Foundations
Dr. Marie D. Eaton, Educational Curriculum & Instruction
FAIRHAVEN COLLEGE

Dr. Daniel M. Larner, Dean

Objectives of the College

Founded in 1966, Fairhaven College is an undergraduate division of Western Washington University. The purposes of the College include provision for the following:

☐ A small learning community designed to explore creative alternatives within higher education.
☐ Cooperation with a larger institution and, through it, affiliation with the state system of higher education.
☐ A distinctive common Core Program.
☐ Options for specialization: the Fairhaven individually Designed Major or an established WWU Departmental Major.
☐ Classes to develop skills of thought and expression toward a critical world perspective.
☐ Opportunities for independent study, directed study and field study.
☐ Learning how to learn and how to become responsible for self-generating, life-long education.

To these ends, students are encouraged to make the following connections:

☐ Between learners. Fairhaven provides a supportive atmosphere in which students, faculty and staff interrelate as a learning community. Personal attention, participative seminars and cooperative evaluation direct the learning process.
☐ Between disciplines. Students are advised to break out of conventional subject areas and to bring a variety of perspectives to bear on issues and projects.
☐ Between the past, the present and the future. Fairhaven strives to create a relationship between what is and what might be. The past gives relevance to the present and assists students to visualize alternatives for the future.

☐ Between knowledge and action. Fairhaven students seek to develop an informed social consciousness and to provide solutions to problems in the "real world."
☐ Between themselves and meaningful work. Fairhaven graduates adapt to a changing world and they realize a connection between what they like to do and what they have to do to earn a living.

Academic Programs Leading to Undergraduate Degrees

Fairhaven College in conjunction with Western Washington University offers the following undergraduate degrees: Bachelor of Arts, Bachelor of Arts in Education, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science.

Students may enroll in Fairhaven's complete degree program, or they may take classes at the College to augment other WWU programs.

Fairhaven College students complete the Fairhaven College Core Program and a major. Students transferring to Fairhaven from other WWU divisions or other colleges and universities may have some core requirements waived upon admission.

Fairhaven College graduates, as do all WWU graduates, complete 180 credits (including 60 credits at the upper-division level) and 45 credits in residence.

Admission

Students currently attending Western may transfer to Fairhaven fall, winter or spring quarter. Upon transfer, requirements of the Fairhaven College Core Program must be met for graduation.

New applicants to Fairhaven and the University complete the Uniform Undergraduate Application for Admission to Four-Year Colleges and Universities in the State of Washington. The words "Fairhaven College" should be written at the top of the form. Send the standard application and all transcripts to: Office of Admissions, Western Washington University.

The College encourages campus visitations. Given advance notice, individual appointments can be ensured with the Dean, an admissions adviser, faculty, students or other WWU staff.

University Services

Information elsewhere in this catalog related to student life, housing, tuition, financial aid, residency, admission, registration, etc., at the University pertains to Fairhaven College students.

Other Information

Requests for supplementary information about Fairhaven College should be addressed to: Office of the Dean, Fairhaven College, Western Washington University, Bellingham, Washington 98225.

COLLEGE OF FINE AND PERFORMING ARTS

Dr. William A. Gregory, Dean

The College of Fine and Performing Arts is dedicated to excellence in teaching and learning. Creativity in process and analysis form the objectives of course work: doing music, theater, dance, painting, sculpture, ceramics, fabrics, while thinking about their theory, criticism and history.

The primary supposition of the College remains that only through encouraging and promoting new ways of seeing and thinking can we hope to provide educated individuals with the tools necessary to
enjoy, and change, a world increasingly beset with the problems of modern civilization.

Academic Programs Leading to Undergraduate and Graduate Degrees

Art ............... BA, BA/Ed, BFA, M/Ed
Art History ......... BA
Dance .................. BA
Music ................ B/Mus, M/Mus, BA/Ed
Theatre ............... BA

Admission

A student is admitted to the College of Fine and Performing Arts when he or she has been admitted to Western Washington University and has officially declared and been accepted as a major in any one of the three departments of the College. Advisement is carried on through the department and through the office of the Dean of the College of Fine and Performing Arts.

Requirements for Bachelor's Degree

- 180 quarter hours of credits (Music—192 quarter hours); no fewer than 60 credits in upper-division study
- Residence study: one full year (45 credits minimum) including the final quarter before issuance of a degree; Study Abroad programs are acceptable as residence credit to a maximum of 45 credits
- Scholarship standard: a cumulative grade average of 2.00 (C), or better, with no grades of less than C acceptable in the major, minor, supporting courses for major or minor, professional education courses, or in English composition. Admission to, and continuation in, the teacher education curriculum requires a minimum average of 2.90. Some departments have minimum grade point requirements in the major for graduation. Please check the departmental major requirements for specific information.
- General University Requirements must be completed before a baccalaureate degree is granted. They may be satisfied in one or a combination of the following alternatives:
  1. Demonstrating proficiency through appropriate examinations
  2. Through challenge in the manner described under the "Academic Policies" section of this catalog (see "Advanced Placement and Course Challenge")
  3. Completion of the General University Requirements as outlined in the section on All-University Graduation Requirements or an approved associate of arts degree from certain community colleges that satisfy those requirements
- Major area emphasis as specified in departmental sections under Bachelor of Arts, Bachelor of Arts in Education, Bachelor of Fine Arts and Bachelor of Music
- Electives as needed for the 180 quarter hours total credit

Majors/Minors

In addition to the General University Requirements and other common degree requirements, a candidate for a bachelor's degree must complete a major from one of the departments within the College of Fine and Performing Arts. A minor is optional.

Student/Faculty-Designed Major

The Student/Faculty-designed major is a major for a bachelor's degree granted by the College of Fine and Performing Arts. Each major is approved by the Curriculum Committee of the College of Fine and Performing Arts. Approval should come after 45 — and before 90 — credits are completed.

Directions and contract forms will be issued to applicants by the Dean's office only after the Dean has granted preliminary approval to the applicant's concept for his or her student/faculty-designed major.

Interdisciplinary Arts Major

A nine-quarter program which leads to a Bachelor of Arts degree in Fine and Performing Arts, the program is a 108 credit major comprised of 38 credits in Interdisciplinary Arts courses, a 36 credit concentration within a department of the College and a 36 credit University concentration, taken under advisement. Courses and other details can be found in this catalog under Arts, Interdisciplinary.

Students interested in this major should consult with the Director of the Interdisciplinary Arts program or the Dean of the College of Fine and Performing Arts.

A minor in Interdisciplinary Arts is also offered.

Department Chairmen

Art: Dr. Albert Shaw
Music: Mr. Dennis Cattrell
Theatre/Dance: [Name]

HUXLEY COLLEGE OF ENVIRONMENTAL STUDIES

Dr. J. Richard Mayer, Dean

Huxley College was created in 1968 to develop programs of environmental studies that reflect the broad viewpoint of man in a physical, biological, social and cultural world. This
Interdisciplinary purpose is supported by studies in ecosystems analysis, environmental health, social assessment and policy, and environmental education. Most of Huxley's courses are at the junior and senior levels; lower division preparation may be completed at Western or at another institution, following the guidelines set forth under "background preparation" on the following page.

The primary mission of Huxley College is to educate students broadly; to articulate environmental concepts that engender environmental awareness; to teach disciplinary theory, methods, and techniques; to cultivate interdisciplinary thinking; and to encourage rational and acceptable approaches to environmental problem-solving.

Academic Programs

Undergraduate

Huxley College offers programs of study leading to a Bachelor of Science or Bachelor of Arts degree in Environmental Studies. Bachelor of Science candidates in environmental studies may choose from four concentrations in two broad program areas:

Environmental Science
- Ecosystems Analysis
- Environmental Health

Human Ecology
- Social Assessment and Policy
- Environmental Education

A student/faculty designed
concentration may also be developed.

Candidates for the Bachelor of Arts degree undertake a general program in environmental studies.

Huxley degree candidates may complete a second major and/or a minor in any other unit of the University by fulfilling that unit's specified major or minor requirements.

Huxley’s concentrations are broadly conceived and allow students to elect coursework, seminars and independent learning experiences (called “Problem Series”) in freshwater, marine, coastal and terrestrial ecology; air and water pollution; environmental chemistry; environmental toxicology; nutritional science; applied human ecology; teacher education; outdoor education and interpretation; mass communications; and environmental policy and administration.

A student whose interest lies in marine resources and problems of the marine environment, for example, may concentrate at Huxley in Ecosystems Analysis, with emphasis in such subjects as marine ecology, oceanography, marine ecosystems analysis, and coastal ecosystems management, selecting coursework from Huxley offerings and those of other units at Western.

Graduate

While Huxley’s primary mission is undergraduate education, the College is also committed to graduate studies and research. A cooperative graduate program has been established by Huxley College and the Department of Biology, College of Arts and Sciences, which leads to the M.S. degree with a specialization in Applied Biology. The program focuses on application of the principles of biology to the understanding and solution of environmental problems. Program options and requirements are listed in the Biology section of this catalog. Interested students may write to Huxley College or to the Department of Biology, addressing correspondence to the Applied Biology program. Applications should be made to the Dean of the Graduate School, Western Washington University.

Admissions

Huxley’s upper-division degree program is normally undertaken by students at Western who have junior standing (30 or more quarter hours) and by transfer students from other colleges and universities who have similar academic standing. Admission to Huxley College is accomplished by (1) being admitted to Western Washington University; (2) declaring an environmental studies major in the official Blue Book that will be provided; and (3) completing a “Declaration of Major” form in the Huxley College Office (Environmental Studies Center 539). A faculty adviser will be assigned (or a student may choose an adviser). Western students are urged to seek admission to Huxley College as soon as they become interested in Huxley’s degree programs in order to obtain advisement and to explore ways of participating in the activities of the college community.

Background Preparation

— WWU Juniors

Western students pursuing an environmental studies major at Huxley College should complete as many of the following nine background courses as possible before beginning their upper-division studies. Most of these background courses are required prerequisites to Huxley’s core courses; completion of all of them is required for graduation from Huxley.

- Biology 121 — Introduction to Plant and Animal Biology (includes lab) (5)

- At least three additional Biology credits in a course numbered above 121

- Chemistry 115 — General Chemistry (5)

- Chemistry 121 — General Chemistry I (5) Prereq: Math 103 or equivalent, or concurrent registration

- Geology 211 — Physical Geology (5) Prereq: high school or college chemistry; or Geology 214, Environmental Geology (3) Prereq: Geology 211.

- English 301 — Reading and Exposition (4) Prereq: Eng 101

- English 302 — Reading and Argumentation (4) Prereq: English 101

- Demonstration of proficiency in English composition

All of the specifically numbered courses above satisfy General University Requirements.

Background Preparation

— Transfer Students

Transfer applicants are encouraged, since Huxley's curriculum is mainly an upper-division program. The first step in being admitted to Huxley College is application and admission to Western Washington University. All transfer applicants are evaluated by Western's Office of Admissions for transfer credit and for credit toward completion of the General University Requirements. Students who intend to major in environmental studies should so indicate on the "Uniform Undergraduate Application for Admission to Four-Year Colleges and Universities, State of Washington." Huxley applicants who have completed the following requirements will be admitted directly into the College:

- General biology: two college courses offered for science students, topics covered should include
Background Preparation

— Transfers from Washington State Community Colleges

Students who have earned certain associate degrees from community colleges in Washington State are considered to have completed the General University Requirements; prospective transfers should consult their community college counselor or the WWU Office of Admissions for information on which degree or degrees offered by their community college are accepted under this agreement.

Regular Admission — Students Holding Degrees from Other Institutions

Students holding associate degrees from community colleges outside of Washington State or from colleges within Washington State for which no agreement exists will be considered as transfer students (see above). Students holding the Bachelor of Arts degree from accredited colleges and universities and working toward a second bachelor’s degree will be considered as transfers who have completed the General University Requirements.

Requirements for Bachelor’s Degrees

- 180 quarter hours of credit; no fewer than 60 credits in upper-division study, including:
  - The General University Requirements
  - The Huxley background requirements
  - A Huxley College concentration, student/faculty designed concentration, or the general environmental studies major as specified in the Huxley College section of departmental listings;
  - Electives as needed for the 180 quarter hours total credit.

The Center for Applied Human Ecology / Appropriate Technology

This Center serves faculty and students interested in the technologies appropriate to applied human ecology.

Appropriate technologies meet human needs for basic goods and services with minimal environmental disruption. They include use of sun, wind, water and biomass for energy; use of greenhouses and organic farming for food; use of cooperatives for production and distribution; and development of settlement patterns appropriate for these uses.

Applied Human Ecology is the interdisciplinary effort of refitting human activities into an environment of finite resources and of returning government and economy to human scale.

The Center exists to encourage faculty members to share their research, ideas, information, and points of view; and to help students design interdisciplinary programs of study.
The Graduate School

Dr. Sam P. Kelly, Dean
Old Main 430
Phone: (206) 676-3170

WWU is authorized by the State Legislature to award five graduate degrees:

- The Master of Arts (M.A.)
- The Master of Science (M.S.)
- The Master of Education (M.Ed.)
- The Master of Business Administration (MBA)
- The Master of Music (M.Mus.)

More than two dozen programs — from Anthropology to Technology — offer graduate study leading to one degree or another.

In 1978, WWU’s graduate programs were given continuing accreditation by the Northwest Association of Schools and Colleges and by the National Council for the Accreditation of Teacher Education. The University is a member of the Council of Graduate Schools in the United States and adheres to the general policies and criteria established by this national association.

The purpose of graduate study at WWU is to provide students with quality graduate offerings, accompanied by opportunities for research and professional development. Graduate programs are intended to prepare able students for career advancement and further study. The programs provide service to the state and its major divisions, to the business and commercial sector, and to a number of professions.

Several of WWU’s graduate programs offer courses or program elements at locations outside Bellingham, mainly in the Puget Sound region. Increasingly, it is possible to combine off-campus study with a residential term at Bellingham and thus earn a master’s degree. The summer session on WWU’s campus includes a number of special arrangements for graduate study: intensive study during a limited period of time, instructional and research seminars, professional seminars, and courses offered by visiting faculty. The University’s Summer Catalog lists these special arrangements. At present, there is no out-of-state tuition for summer quarter enrollment.

Graduate Assistantships are available in limited number in nearly all graduate programs for the academic year — fall, winter and spring terms. These Assistantships are competitive. Duties vary according to the department and program, the needs of the program faculty, and the student’s graduate plan of study. Information about Assistantships can be obtained from the Graduate School. Graduate students also are eligible for several types of financial aid; information can be obtained from the University’s Office of Student Financial Aid.

Persons who plan to enter graduate study at WWU should read the graduate section of this catalog closely before enrolling in any course intended to count toward a master’s degree or advanced certificate of study (students working toward a fifth-year teaching certificate should contact the Fifth Year Office in the School of Education). Additionally, students should consult with the appropriate program adviser and the Graduate Office.

If you have questions not answered here, write to the Dean of the Graduate School, Western Washington University, Bellingham, WA 98225.

ADMISSION

Admission is granted by the Graduate School of Western Washington University with the concurrence of the department or program unit in which the student will pursue graduate study. The Graduate Office informs applicants of the decision made on their applications. Application forms and other admission materials are available upon request to the Graduate School. An application fee is charged for each set of admission materials submitted by applicants, whether
Initial application or request to transfer into a different WWU graduate program.

General Requirements

--- Full Admission

☐ A baccalaureate degree from an accredited U.S. college or university, or an equivalent degree from a foreign university. The degree must be appropriate to the master's study intended.

☐ A 3.00 undergraduate grade point average (on a 4.00 scale). (See later section on provisional admission for certain exceptions.)

☐ Three letters of reference from professors in the applicant's undergraduate major field, or from professors of post-baccalaureate courses, or from others able to make an appropriate assessment of the applicant's academic or professional competence. (Forms available from Graduate School.)

GRE test scores: see program descriptions for exact requirements. These scores should be received by the Graduate School along with other application materials; under certain circumstances they can be provided not later than the end of the student's first quarter of graduate study. MBA applicants must provide the GMAT score at the time of application (but not the GRE).

☐ Favorable review and recommendation of applications by the graduate faculty in the program to which application is made.

NOTE: The above requirements and procedures demand lead time. Applicants are urged to submit all necessary materials as early as possible before the beginning of the term for which admission is requested. Faculty review of application materials is unlikely during periods that the University is not in session.

Special Requirements

Certain programs have additional requirements or procedures; see the following program descriptions. Most M.Ed. programs require at least a year's successful K-12 teaching; see the M.Ed. program requirements. Students who are not native speakers of English must demonstrate competence in written and spoken English. This can be done by a satisfactory score on the TOEFL examination or by other means of validation. (Write the Graduate Office for details.)

Foreign students must file with the Graduate Office a satisfactory statement of financial responsibility and of sponsorship. Current expenses for a year's residence study are at minimum $7,000 (may be higher pending an increase in tuition). Complete application materials should be received from foreign students at least three months before the term in which graduate study is expected to begin.

Provisional Admission

At times, students who do not meet all the requirements for full admission can be granted provisional admission; for example, marginal grade point average, certain undergraduate course deficiencies. For provisional admission to be granted, there must be strong reasons for waiving general admission requirements. And there must be a statement of support for provisional admission from the faculty of the applicant's intended graduate program. If provisional admission is authorized by the Graduate School, the provisions are stated in the letter that offers the student special admission to graduate study.

Residence

To earn a master's degree at WWU (except for one option under the MBA), the student must complete at least one quarter of residence on campus during which at least 10 credits are earned. WWU does not offer an off-campus or external master's degree.

Time Limits

Course work taken more than seven years before the awarding of the degree does not count toward the degree. All program requirements, including the thesis or comprehensive examinations, must be completed within this seven-year limitation.

Academic Load

For graduate students the maximum academic load is 16 credits during a single term. The typical load is considerably less. Students working full time are restricted to a maximum of 8 credits during any single term. Graduate Assistants are limited to a maximum of 14 credits in any single term.
TRANSFER, EXTENSION, CORRESPONDENCE, WORKSHOPS

Transfer credit is limited to 9 quarter hours. Such credits must meet the requirements of the student's particular program and be approved by the program adviser and the Graduate School (special form available). The courses can be taken before or after enrollment at WWU.

Only certain Continuing Education (extension) courses taken through WWU can be applied toward a master's degree. Such courses must meet the requirements that apply to courses offered on campus by regular WWU faculty. The student's graduate adviser must approve such courses before the student enrolls in them, to prevent later misunderstanding about including the courses in the degree program.

Graduate credit is not allowed for correspondence courses.

Courses offered as workshops or in a shortened time frame often do not qualify for graduate credit toward a degree, even though the offerings bear a regular course number. Students should check with the Graduate Office or the program adviser before enrolling if graduate credit is of concern.

THESIS AND COMPREHENSIVE EXAMINATIONS

All master's programs require either a thesis or a comprehensive examination; some programs require both. (Check the program descriptions that appear later in this catalog.) The Graduate Office certifies theses committees upon request of the particular graduate program or program adviser. Guidelines for writing the thesis are available from the Graduate Office. Departments that require the thesis customarily have information sheets available.

Comprehensive examinations vary among programs. The Graduate Office and the programs have information available about these examinations.

The comprehensive examination should be scheduled for the final quarter of the student's enrollment. It may be deferred until all course work has been completed upon request by the student and agreement by the graduate adviser. Comprehensive examinations, if failed, may be repeated once, but only if the graduate faculty of the particular program endorses the student's request to repeat the examination.

PLAN OF STUDY

The student and the program adviser together develop a "Plan of Study." This plan is signed by the adviser, the student, and the Graduate Dean. Then it is filed in the Graduate Office, with copies to the student and the adviser. The plan should be completed before or during the student's first quarter of study at WWU. This is very important and should be attended to with dispatch. Amendments to the plan are made upon the request of the graduate program adviser and the agreement of the Graduate Office.

GRADERS, GRADING, RETENTION

A maximum of 10 credits of "C" or lower grades toward completion of the basic program (45 or 48 credits). More than 10 credits of "C" or lower grades removes a student from the master's program. No credit is given for "D" grades. There are certain courses that must be passed with a grade of "B" or better; program descriptions note such courses. A grade of "C" or lower counts toward the 10 credit maximum, even if the course is repeated and a "B" or "A" is earned. Pass/Fail grades are not applicable toward graduate degree.

To remain a candidate for the degree, a student must maintain at least a 3.00 GPA in the core program (45 or 48 credit hours).

SPECIAL REQUIREMENTS

Program descriptions in this catalog provide information about special requirements: statistics competency, language competency, sequence of particular courses, and so on. Most graduate programs provide information sheets about such special requirements; the student should request this information from the program adviser.

DEGREE CANDIDACY — AWARDING OF THE MASTER'S DEGREE

Advancement to degree candidacy is formal recognition that the student has completed all admission requirements and has demonstrated satisfactory performance in at least 12 credits of graduate study. Advancement to candidacy is a prerequisite to earning the master's degree and should be accomplished as early as the student is eligible. Advancement is granted by the Graduate Office upon the recommendation of the student's program adviser.

The master's degree is earned at the end of the quarter in which the student completes all degree requirements. Recommendation for the degree is made to the Graduate Council by the student's adviser or thesis chairperson. Application for the degree must be made no later than the end of the second week of the quarter in which the student wishes the degree officially recorded. A student who was not enrolled for at least one course in the quarter preceding the quarter in which the degree is earned must enroll for at least three credits during the final quarter. Commencement is held each June.

## CREDENTIALS AND CERTIFICATES

The School of Education offers a fifth year of study (post-baccalaureate) for teachers who are working for the continuing certificate (details available from the Department of Educational Curriculum and Instruction) and an advanced certificate for school administrators (details available from the Department of Educational Administration and Foundations).

Certain other certificates of advanced study are available from departments or programs other than Education. Later sections of this catalog describe these certificates.

## UNDERGRADUATE ENROLLMENT IN 500-LEVEL COURSES

Undergraduates at WWU who are in their senior year and have at least a 3.00 grade point average can take a single graduate course during any quarter, but under certain provisions. There must not be an appropriate undergraduate course in their field that is equally available; permission must be obtained in advance from the graduate program adviser of the department offering the graduate course; and the Graduate Office must approve the enrollment. A senior who later enters a master's program at WWU may under certain conditions count one such graduate course toward a master's program.

NCTE: Undergraduate students cannot enroll in 600-level courses.

## THE GRADUATE COUNCIL

The Graduate Council is assigned responsibility within the University for graduate policy and procedures. The Council reviews all course proposals and conducts periodic reviews of graduate programs. The Council also hears and decides on requests for exceptions from standing policies and procedures that regulate graduate study.
Anthropology

College of Arts and Sciences

GRADUATE FACULTY
Anastacio, Angelo, Ph.D., cultural anthropology, history of anthropology, intergroup relations, plateau, music and culture.
Cotton, Leslie, Ph.D., Oceania and Arctic/Subarctic ethnography, medical anthropology, sex roles, applied anthropology.
Grabert, G. F., Ph.D., new and old world archaeology, theory.
Kimball, Linca A., Ph.D., Southeast and Island Asia, anthropological linguistics, Pacific.
Stevenson, Joan, Ph.D., anthropological genetics, human osteology, medical anthropology.
Taylor, Herbert C., Jr., Ph.D., new world ethno-history, pre-history Maso-America and the American Southwest, social change.

M.A. — ANTHROPOLOGY, THESIS ONLY

Program Adviser:
Dr. Garland Grabert

Prerequisites
Undergraduate major in anthropology or equivalent in social sciences, or departmental permission; candidates with insufficient backgrounds in anthropological history, theory and methods will be expected to take undergraduate courses as deemed necessary by the departmental graduate committee.

Basic Requirements
Anth 503
Anth 504
Anth 532

At least one upper-division or graduate course in each of the four major fields of anthropology

Anth 691

NOTE: Not more than 12 credits allowable in any combination of Anth 690 and 691.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) Test.

Electives in Specialization
Courses selected under advisement from 400 or 500 level courses in anthropology; at least 35 credits from courses open only to graduate students.

Supporting Courses
Where appropriate to the student’s specialty interests, the candidate may elect up to 15 credits from courses related to discipline, under Anthropology Graduate Committee advisement.

Language Requirement
A reading or speaking knowledge in an appropriate foreign language. Foreign students for whom English is not the native tongue may be exempted. Subject to the approval of the department and the Graduate School, the candidate may substitute one of the following:
1. Computer science options.
2. A series of courses in linguistics to be determined in consultation with the graduate committee.

Advance to candidacy is granted upon successful completion of:
(a) Anth 503
(b) Anth 504
(c) Anth 532
(d) One course in each of the subfields of anthropology, which in the area of physical anthropology shall be chosen from either anthropology 417 (Primate Behavior), 423, or 511 or their equivalents.
(e) The language requirement.
(f) The Graduate Record Examination, General (Aptitude) Test
(g) Participation in the instruction of an introductory anthropology course where appropriate.

Bicycles are used extensively on campus.

59
Art
College of Fine and Performing Arts

M.Ed. — THESIS AND NON-THESIS

Program Advisor:
Dr. David E. Templeton

Prerequisites
An undergraduate major or a balanced program of at least 45 hours in art.

The Applicant is Requested to Submit:

a. A 300 to 500 word statement of purpose indicating why he or she wishes to pursue graduate work. This statement should be sent to the Graduate School.

b. A selected portfolio of art works (and/or color transparencies and color photos of his works). The portfolio should be sent to Dr. David E. Templeton, Department of Art, WWU. If the applicant plans to have art works returned by mail, he or she should be sure the size will be within the limits prescribed by the postal department.

Basic Requirements
EdAF 501, 512, 513 [I and II]
EdCl 690a or b [I:5]

Specific Test Requirements
Graduate Record Examination — General (Aptitude) Test

Requirements in Specialization
Art 582, three graduate-level studio courses, each in a different medium. [I and II:16]

Electives in Specialization
Under advisement, students will develop an area of specialization. The fields from which to choose are broad: art education, art history, studio, education, arts education, psychology and philosophy, to name a few. The area must be determined by the end of the second quarter of course work.

Biology
College of Arts and Sciences

GRADUATE FACULTY

Brakke, David F., PhD, limnology
Broad, A. Carter, PhD, invertebrate zoology
Brown, Herbert A., PhD, vertebrate zoology
Dube, Maurice A., PhD, marine algae
Ericson, John E., PhD, genetics
Flera, Charles J., EdD, marine invertebrate zoology
Fonda, Richard W., PhD, plant ecology
Kendall, Ronald J., PhD, environmental toxicology
Kohn, Hubertus, PhD, plant physiology
Kraft, Gerald F., PhD, aquatic entomology
Lindsay, David T., PhD, limnology
Nickerson, Alden L., PhD, science education
Parakh, Jai S., PhD, science education
Riffey, Melba M., PhD, entomology
Ross, John R. P., PhD, DSc, evolution and ecology of marine organisms
Schneider, David E., PhD, physiological marine ecology
Schwemmin, Donald J., PhD, microbiology
Senger, Clyde M., PhD, mammalogy
Stek, Irwin L., PhD, science education
Summers, William G., PhD, marine biology
Taylor, Ronald J., PhD, systematic botany
Weber, Herbert H., PhD, applied marine invertebrate ecology
Williams, Don C., PhD, cellular and molecular biology
Yu, Ming-Ho, PhD, environmental biotechnology

APPLICATIONS
Applications for summer or fall quarter will be acted upon during the first week of the spring quarter by the Biology Department. It would be advisable to have applications in the Graduate Office by March 15. Students applying after the first week of spring quarter may jeopardize their chances of an opening. Applications made during summer usually do not allow sufficient review time to meet fall admission deadlines.

FOREIGN LANGUAGE, STATISTICS-COMPUTER PROGRAMMING PROFICIENCY

A student must show proficiency in either one foreign language or in statistics-computer programming before he or she is advanced to candidacy. The choice must be approved by the advisory committee. Proficiency may be demonstrated by:

1. A reading knowledge of an appropriate foreign language.
2. Passing Biol 340 with a grade of "A" or "B" and Computer Science 110 or 210 with a grade of "A" or "B."

THESIS AND EXAMINATION

Degree candidates will submit a thesis based on independent research or a research problem approved by the Advisory Committee. A final oral examination will be conducted by the Advisory Committee. Degree candidates will present a seminar based on the results of the thesis research at a regular department seminar. No credit hours will be given for the seminar.

M.Ed. — NATURAL SCIENCE

Biology Specialization, Thesis and Non-Thesis
Program Advisor:
Dr. Richard W. Fonda

Prerequisites
An applicant is expected to have completed the equivalent of an undergraduate major in biology including at least one course in organic chemistry. The student must have passed either Science Ed 383 and 492 (or the equivalents). Any deficiencies in these requirements must be made up outside the credit hour requirements for the Master of
Education degree. For curriculum requirements see "Natural Science" section.

M.S. — BIOLOGY, THESIS ONLY

Program Advisor: Dr. Richard W. Fonda

Prerequisites
A bachelor's degree. Deficiencies in under-graduate courses or those subsequently revealed to the Advisory Committee must be removed. Applicants are directed to the current requirements of the B.S. degree with a major in biology for a summary of expected preparation for graduate work.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Biology

Requirements in Specialization
Thesis research [1:12]
Graduate courses in biology, selected under advisement and approved by Advisory Committee [1:11]
Electives
Courses selected under advisement and approved by Advisory Committee from 500-level courses in biology and supporting disciplines. At least 12 hours must come from 500-level courses; the remaining hours must come from 400- and 500-level courses. [1:22]

Cooperative Graduate Specialization
The Department of Biology and Huxley College of Environmental Studies have established a cooperative graduate program leading to an M.S. degree in biology, with specialization in applied biology. This program focuses on the application of principles of biology to the understanding and potential solution of environmental problems. The thesis research must be on a problem of an applied nature; the thesis committee will be chaired by a professor from Huxley College.

Business & Economics

College of Business and Economics

GRADUATE FACULTY
Benson, Earl D., Ph.D., finance.
Brown, Bruce E., M.A./CPA, managerial accounting.
Collier, Robert P., Ph.D., finance/investments.
Harder, K. Peter, Ph.D., international trade.
Kuleman, Kenneth S., Ph.D., behavioral science.
Lewis, L. Floyd, Ph.D., management information systems.
Mayer, Erwin S., Ph.D., labor economics, public policy.
Musialikow, Michael K., Ph.D., regional economics, comparative systems.
Mitchell, Howard E., Ph.D., money, financial markets.
Moore, John, Ph.D., business policy.
Murphy, Dennis R., Ph.D., managerial economics/international finance.
Nelson, David M., Ph.D., macro-economics, theory, money markets.
Owens, Eugene, Ph.D., behavioral science.
Peterson, Lois, Ed.D., business education.
Plummer, E., Leroy, DBA, business environment.
Rieck, Robin, Ph.D., business, government and society.
Rystrom, David S., Ph.D., finance.
Sawai, Farrokh, DBA, marketing/international business.
Sailors, William, MS/CPA, auditing theory.
Savoy, Ronald, MBA/CPA, accounting theory.
Singleton, Ron, ABD/CPA, taxation.
Sleeman, Allan G., Ph.D., quantitative methods.
Spich, Robert S., Ph.D., international management.
Thoreson, Hubert N., Ed.D., business education.
Ward, Bruce D., Ph.D., personnel administration.

MASTER OF BUSINESS ADMINISTRATION, NON-THESIS
Program Director: Dr. Dennis R. Murphy

Program of Study
The College of Business and Economics offers both a full-time and a part-time program of study leading to a MBA degree. The program is comprised of 15-18 four-credit courses. Students with an undergraduate record in business or economics may make application to waive certain first-year courses. The curriculum and scheduling of classes are designed to permit students interested in enhancing opportunities in their present career or in preparing for new careers to do so while remaining employed. Students coming directly from undergraduate programs or others not employed may complete their degree requirements more rapidly by pursuing a full-time course of study. All classes are offered in the evening and students attend four quarters a year. A new class is admitted for June of each year. Part-time students take two courses per quarter and require nine consecutive quarters to complete the degree. Full-time students study at a pace of four courses per quarter and will normally complete their requirements in 14 months.

Admission
Applicants must have a bachelor's degree, but that degree need not be in business or a business-related area. Applications are made to the Graduate School and must include an official application form, the results of the Graduate Management Admission Test, and official transcripts of all previous work, whether graduate or undergraduate. Applicants from non-English speaking areas must include their score on the Test of English as a Foreign Language. Letters of recommendation and a resume may be submitted or requested.

Academic Probation
The Graduate School requires that all graduate students maintain a 3.00 GPA (on a 4.0 scale) to be a candidate for a degree.
and to remain in good academic standing. Students in the MBA Program will automatically be placed on academic probation, and will be allowed a maximum of 16 quarter hours of course work to raise their cumulative GPA to 3.00 or better. If, after completing 16 additional quarter hours of credit a student has failed to achieve good standing, that student will be excluded from the program.

In no case will a student be recommended for a Master's degree without having achieved a 3.00 GPA or better.

Basic Requirements

MBA 501, 502, 503, 504, 505, 508, 511, 521, 522, 531, 541, 551, 561, 581, 591

Three to six courses of additional electives under advisement. The required comprehensive examination is given as part of MBA 591.

A complete program description is contained in the MBA bulletin, available from the Graduate School or the College of Business and Economics.

See MBA course listings in this catalog following the Business Administration Department courses.

M.Ed. — BUSINESS EDUCATION THESIS AND NON-THESIS

Graduate Faculty

Peterson, Lois, EdD, business education.
Thoreson, Hubert N., EdD, business education.

Program Adviser:
Dr. Hubert N. Thoreson

Two Master of Education degree options are available to business education majors. Option I (thesis option) requires a minimum of 45 credit hours of course work and a thesis. A comprehensive examination may be required. Option II (non-thesis option) requires a minimum of 48 credit hours of course work and successful completion of comprehensive examinations in the areas of business education and education.

Prerequisites

Completion of the undergraduate major or its equivalent. Any deficiencies will be determined by the program adviser.

Basic Requirements
EdAF 501, 512, 513 [I and II:12]

Specific Test Requirements
Graduate Record Examination — General (Aptitude) and Subject (Advanced) in Education.

Requirements in Specialization
*Bus Ed 503, 504, 571, 572, 574, 595 [I and II:15]
Bus Ed 690 [I:6]

Electives in Specialization
Bus Ed 500, 551, 573
Selected under departmental advisement

Electives in Related Areas
Selected under departmental advisement

*Select a minimum of five courses

Chemistry

College of Arts and Sciences

GRADUATE FACULTY

Crook, Joseph R., PhD, inorganic chemistry
Eddy, Lowell P., PhD, inorganic chemistry
Genhold, George A., PhD, physical education
King, Donald M., PhD, analytical chemistry
Kriz, George S., PhD, organic chemistry
Lampman, Gary M., PhD, organic chemistry
Miller, John A., PhD, science education/organic chemistry
Neuzil, Edward F., PhD, physical chemistry/analytical chemistry
Pavia, Donald L., PhD, organic chemistry

Russo, Salvatore F., PhD, biochemistry
Weyn, John A., PhD, analytical chemistry
Whitmer, John C., PhD, physical chemistry
Wicholas, Mark, PhD, inorganic chemistry
Wilson, H. William, PhD, physical chemistry

M.S. — CHEMISTRY, THESIS AND NON-THESIS

Program Adviser:
Dr. George S. Kriz

Prerequisites

A bachelor's degree and departmental approval. Deficiencies revealed by area competency examinations must be removed.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Chemistry.

Requirements in Specialization

* Thesis option: Chem 595 (2 credits), 690 (12 credits).
* Non-thesis option: Chem 595 (2 credits), 684 (6-12 credits), 501 (6 credits).

Courses selected under advisement and approved by the Chemistry Graduate Committee from chemistry and supporting disciplines, when appropriate, to total at least 31 credits (thesis option) or 34 credits (non-thesis option).

Electives in Related Areas
Selected under advisement from related fields.

Community College Internship Option for Master of Science Chemistry Students

Students interested in pursuing a career as an educator in a community college can obtain practical experience and training in their desired vocation by
participating as a community college intern in conjunction with studies leading to the M.S. degree in chemistry. This option stipulates course work over and above the 45 credits required for the M.S. degree. Two years should be allotted for the completion of degree including internship.

A student will normally spend one quarter as an intern (in residence) in a selected community college. This will usually occur in the second year of study. It is the purpose of the internship to provide not only an experience in instruction but also an exposure to the community college philosophy.

In addition to the credit requirements for the M.S. degree the following courses are required or recommended:

1) Chem 696 (9-12) Internship in Chemistry in the Community College (required)
2) Psych 371 (3) Evaluation in the Secondary School (required)
3) Sci Ed 500 (2-5) Special Projects in Science (recommended)

Candidates for the M.S. degree plus internship option should notify the Internship Program advisor as early as possible during the first year of graduate study.

**Industrial Internship Option for Master of Science Chemistry Students**

Students interested in pursuing a career in industry can obtain practical experience by participating in the industrial internship program as part of their M.S. curriculum. Normally, students choosing this option will earn a master's degree via the non-thesis option. However, in those instances where the research problem undertaken in the industrial setting can be coordinated with on-campus research, the student may exercise the thesis option, with approval of the Graduate Adviser.

A student will normally spend one or two quarters as an intern with a company which has been selected in advance. This internship will normally take place during the second year of graduate study. Students interested in an industrial internship should notify the program advisor as early as possible during the first year of graduate study. The department cannot guarantee that an internship opening will be available for all interested students.

In addition to the internship, students exercising this option will be expected to submit a comprehensive report, according to an approved format, describing the work accomplished during the internship. A seminar describing the work will also be expected. Additionally, the student will be expected to pursue a limited research problem on campus. This research problem will normally require the equivalent of one quarter's work, although it may be extended over more than one quarter.

For curriculum requirements see "Natural Science" section.

**Communication (Speech)**

**College of Arts and Sciences**

**M.A. — SPEECH, THESIS (I) AND NON-THESIS (II)**

**Program Adviser:**
Dr. John D. Rothwell

The Department of Communication offers two options leading to an M.A. degree. The thesis (I) (45 credit hour minimum) is offered for the student who wants to do research in a specialized area and who plans to enter a PhD program. The non-thesis (II) (48 credit hour minimum) is for the student who does not now plan further graduate study.

**Prerequisites**

An undergraduate major in speech or approval by committee action of other major. Additional data will be requested of those applying.

**Basic Requirements**
Speech 501 [I and II:4]
Speech 690b [II:3]
Speech 583 [II:3]
Speech 690a [I:6-9]

**Specific Test Requirements**
Graduate Record Examination General (Aptitude) Test; Diagnostic Examination (done under the supervision of the Department of Communication).

**Requirements in Specialization Speech Communication:**
Speech 595; Speech 505 or 507 or 540; and additional departmentally approved 400- and 500-level speech courses for a total of 20 credits. Additional courses to fulfill this requirement to be selected under advise-ment.

**M.Ed. — NATURAL SCIENCE**

**Chemistry Specialization, Thesis and Non-Thesis**

**Program Adviser:**
Dr. John A. Miller

**Prerequisites**

Completion of an undergraduate teacher education major in chemistry. An evaluation of the undergraduate record will determine any deficiencies which must be made up outside the credit requirements for the Master of Education program.
Electives
Electives will be selected under departmental advisement. At least half of all elective credits must be in courses numbered at the 500- and 600-level. The remainder may include only those 400 numbered courses approved under advisement. No more than six credit hours of Speech 500 (Special Problems) may be applied to the M.A. degree unless special approval is granted by the department.

Additional Requirements
Students must complete one of the following requirements:

1. Demonstrate a reading knowledge of an appropriate foreign language by passing a test to be given by the Department of Foreign Languages.

2. Where empirical research is being undertaken by the student, demonstrate competence in statistics by passing an approved course or competence examination.

3. Where knowledge of the subject matter and scholarly techniques of an allied academic discipline may prove a valuable research tool for the student, satisfactorily complete a minimum of 9-12 hours of additional class work (beyond the basic 45-48 credit hours required for the M.A. degree) in appropriate collateral courses. These courses must have approval of the student's advisory committee.

Upon demonstration of relevant specialized competence, the department may recommend waiver of the above "Additional Requirements."

Comprehensive Examination
Both written and oral examinations are required. During the final quarter of the completion of the graduate program, the student will take a written comprehensive examination covering the content of his or her graduate program. In the same quarter the student is required to take an oral examination based primarily on thesis or Option II papers and related items. Details regarding the written and oral comprehensive examinations are included in the departmental "Guide for Graduate Students."

NOTE: All students should read carefully the departmental "Guide for Graduate Students in Speech" for a more complete statement of the graduate programs in speech.

Education

School of Education
Courses in the School of Education's graduate program which are offered by either the Department of Educational Curriculum and Instruction or the Department of Educational Foundations and Administration are designated according to the program from which each originates.

Curriculum and Instruction courses are designated EDF.
Administration and Foundations courses are designated EdAF.

THESIS AND NON-THESIS, ALL PROGRAMS

All M.Ed. programs include three core courses: EdAF 501, 512, 513. EdAF 501 must be taken before either 512 or 513 and within the first 15 credits of the master's program. A grade of "B" or "A" must be earned in EdAF 501 for a student to continue in the master's program and be advanced to degree candidacy. Students receiving a "K" (incomplete) grade in EdAF 501 will not be allowed to proceed in the master's program until the incomplete is removed. If a grade of "C" or lower is earned, the course can be repeated once only with the permission of the chairperson of the Education Department and upon the advice of departmental faculty. No further credits can be counted toward the M.Ed. until the course has been repeated and a "B" or "A" has been earned.

Enrollment must be for a single M.Ed. program. Students who have earned an M.Ed. may apply for admission to another M.Ed. program but all requirements of the second program must be met (with possible allowance for some course work taken in the first program).

Human Resources
Development

M.Ed.—ADULT
EDUCATION
ADMINISTRATION
M.Ed.—STUDENT
PERSONNEL
ADMINISTRATION
IN HIGHER EDUCATION

Program Head:
Dr. John F. Utendale
Program Adviser:
Dr. F. Richard Feringer

M.Ed. — Adult Education Administration

(Contact person — Dr. F. Richard Feringer)

Program Goals
The adult education program is organized to prepare professionals for advanced levels of competency or to work in Human Services institutions which provide services both directly and indirectly to clientele. Such agencies would include, but not be limited to, continuing education departments of colleges and universities, YMCAs, libraries, museums, churches and public and private service agencies which offer direct aid to clients, wel-
fare, rehabilitation, half-way houses and the like. In addition, adult educators also work as inservice training directors in both private and public organizations.

Students have a choice of two areas of specialization, one as an administrator/planner and the other as a teacher/educator.

The curriculum is designed to examine theory within the context of field experiences. Program design allows for part-time study when students are working professionals. All students must complete a term of field internships. For working adults in human service agencies, however, their jobs may provide the field experience.

**Eligibility**

Applicants in the Adult Education Administration Program may be:

a. Salaried employees of Human Services agencies as described above; or

b. Persons who have, or can obtain, a volunteer or fellowship placement (paid by the agency) with institutions which fit the human service category and for which the specific work is relevant to the course of study; and

c. A bachelor’s degree.

Completion time for the program is a minimum of one year. Average completion time is three years.

**Specific Test Requirements**

Graduation Record Examination, General (Aptitude) and Subject (Advanced) in Education; Miller Analogies Test.

**Graduation Requirements**

1) Thesis — 48 credit hours minimum of course work.
2) Non-Thesis — 52 credit hours minimum of course work.

**Basic Requirements**

EdAF 501, 512, 513, 518a, 578, 592h, or 592k, 699a or b

**Additional Requirements in Administration/Planning Specialization**

EdAF 57f, Soc 540

**Additional Requirements in Teacher/Education Specialization**

EdAF 577 (plus 5-10 credits in advanced work in content area of teaching)

**Electives**

Electives will depend upon the students' academic backgrounds, and their needs as related to professional goals.

**M.Ed. — Student Personnel Administration in Higher Education**

(Contact person:
Dr. John F. Utendale)

**Program Goals**

This program is designed to prepare professionals for the field of Student Personnel in Higher Education Administration. The program emphasizes the development of leadership and managerial skills, as well as theories of human and organizational development.

The generic skill building, theoretical concepts, research activities and experiential opportunities provided by the program could be applied to a broad array of human services functions.

The program requires an in-depth internship and a non-thesis research project. Considerable flexibility for program completion exists.

**Prerequisites**

A bachelor's degree and experience in student personnel or related human services work are required. Admission is by committee action, and a personal interview is required. Criteria include appropriate academic background and achievement, evidence of interpersonal communication skills, and commitment to a process of self-awareness and personal-professional development.

**Specific Test Requirements**

Graduate Record Examination, General (Aptitude) Test (prior to advancement to candidacy); Miller Analogies Test (prior to admission decision).

**Basic Requirements**

(12 credits)

EdAF 501, 512, 513

**Requirements in Specialization**

Core courses — EdAF 556a, 556b, 557a, 557b, 557c, 558 (22 credits)

Research project — EdAF 559 (6 credits)

Internship — EdAF 5921 (13 credits)

Electives (variable credit) to be selected under advisement. These credits are supplemental to the student's SPA program and may or may not be counted toward Graduate School minimums.

**Education Curriculum & Instruction**

**M.Ed. — ELEMENTARY**

**Program Head:**
Dr. Stewart Van Wingerden

**Program Options Advisers**
Early Childhood Education — Dr. Roberta Bouverat
Curriculum & Instruction — Dr. Stewart Van Wingerden
Consultant/Supervisor — Dr. George Lamb

**Prerequisites**

Undergraduate preparation in
elementary education and teaching experience.

High School-Middle School Specialization

Program Advisers:
Dr. Alden Nickelson
Dr. Howard Evans

Prerequisites
Approval of application by program adviser based on academic record and recommendations. Successful teaching experience in grades 7-12 is desirable but not essential to admission. Students with a degree in a subject matter field commonly taught in secondary schools may combine M.Ed. requirements with certification requirements. For this special option, contact advisor.

Requirements
EdCI 481, 500, 522a and/or b, 523
[I and II: 12-18]

Electives in Related Areas
To be selected under advisement
[I:6, II:15]

Curriculum Consultant Specialization

Program Advisers:
Dr. Alden Nickelson
Dr. Howard Evans

Prerequisites
A minimum of two years of successful teaching at the secondary level.

Requirements
EdCI 522a, 523, EdAF 543a
[I and II:15-20]
EdCI 500 (to be used for research background)
Concentration of content electives under advisement
[I and II:10]

Electives
Under advisement
[I:6]

Computer Applications Option
Pre requisite: CS 210 or equivalent.

Requirements
EdCI 522a, b523, EdAF 543a, 544b
CS 310, 430, 391
EdCI 690b (Field Project)

M.Ed. — READING

Program Head:
Dr. Theodore A. Mark

Basic Requirements
EdAF 501, 512, 513
EdCI 690a or b
[I and II:12]

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Education; Miller Analogies Test score of 40 required for full admission.

Requirements in Specialization
EdCI 584, 586, 587, 594e, f, g or e, f, h,
[I and II:24]

Advisement is available for developing specialties in Reading Consultant and Remedial Reading Teacher options. (Admission to Reading Consultant option requires three years teaching experience.)

Electives
Electives must be approved in advance by advisor. Recommended electives: EdCI 481, 484, 581, 591, 595, 599

M.Ed. — EXCEPTIONAL CHILDREN

Program Head:
Dr. C. Max Higbee

Prerequisites
Undergraduate preparation in education: EdCI 360, 361, 461, 462, or equivalent (concurrent enrollment allowed under advisement).

Basic Requirements
EdAF 501, 512, 513
EdCI 690a or b
[I and II:12]

Specific Test Requirements
Graduate Record Examination,
M.Ed. — SCHOOL ADMINISTRATION

Elementary, Secondary, Learning Resources
Program Head (Elementary, Secondary) Dr. Paul Ford
Program Adviser: Dr. Len Savitch
Program Head (Learning Resources): Dr. Les Blackwell
Prerequisites and Specific Test Requirements
Course background appropriate to level of specialization.
Applicants must provide the following information prior to consideration for admission:
(a) Application for admission to Graduate School.
(b) Letters of recommendation from sponsoring district.
(c) Miller Analogies Test Score.
(d) Official transcript(s) showing all previous course work.
(e) Writing sample.

NOTES: (1) An interview with a program adviser may be required. (2) Requests for transferring credits earned prior to admission are submitted following the candidate's advancement to candidacy.

Basic Requirements
EdAF 501, 512, 513
EdAF 690a or b

Specific Test Requirements
Miller Analogies Test (prior to admission decision): Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Education (prior to advancement to candidacy).

Requirements in Specialization
EdAF 541a, 543a, 544a,
EdAF 542ab,c,d

Electives in Specialization
Emphasis in specialized field(s): law, negotiations, finance, personnel, systems management, administration of learning resources

Electives in Related Areas
Selections under advisement from supporting disciplines, e.g., political science, economics.

Program Options
Option I involves 45 credits of course work, including six credits of thesis. Option II involves 50 to 56 credits of course work and a comprehensive examination in School Administration. Option III involves 50 to 56 credits of course work, including six credits of field project. Both Options II and III require the General Comprehensive Examination be written.

Principal’s Initial Certificate Candidates for the Washington State Initial Principal’s Certificate must have one year of successful teaching experience, a valid Washington State teaching certificate and a master’s degree in school administration. A 9-credit internship is required in addition to the master’s degree.

Individuals who have one year of teaching experience, a valid Washington State teaching certificate, and a master’s degree in a field other than school administration may become eligible for the initial principal’s certificate by completing 32 credits of course work under advisement as well as a nine-credit internship.

Applicants for admission to this program should contact the School Administration Office.

Principal’s Standard/Continuing Certificate
For the Washington State Standard/Continuing Principal’s Certificate, 12-15 credits of course work are required. Transfer credits usually are not allowed. Course work must be done under advisement and after proper application has been made to the School Administration Office.

Certificate of Advanced Study (CAS)
A specialized post-master’s degree program at the sixth-year level is now offered to a limited number of candidates. A program description is available from the School Administration Office.

English

College of Arts and Sciences

GRADUATE FACULTY

Brown, R.D., PhD, literature and creative writing.
Cary, Meredith, PhD, literature and rhetoric.
Donker, Marjorie, PhD, literature.
Francis, Richard Lee, PhD, literature and rhetoric.
Greenstein, Susan M., PhD, literature, Innsis, Kenneth, PhD, literature and rhetoric.
3. Rhetoric/Composition (Non-Thesis)

Core Requirements
24 credits, including Eng 442, 471, 501, 510, 595 and 513 or 594. Electives: 15 credits in literature and criticism and nine credits in writing courses selected in consultation with the graduate adviser.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and writing sample (consult the director of graduate studies).

Credits
Routinely courses are taken at the 500 and 600 levels. With the permission of the graduate adviser a student may count up to a maximum of 10 credits in 400-level courses toward the degree requirements.

Language Requirement
Students must demonstrate reading competence in a foreign language acceptable to the Graduate Committee except as follows: Students in rhetoric/composition may substitute a 400-level course in linguistics. Students in creative writing may substitute an additional five credits at the 500 level in literature, criticism or rhetoric. Students choosing to fulfill the requirements for the fifth-year program leading to standard certification while completing the M.A. may substitute one year of college study of a foreign language.

Comprehensive Examination
Students must pass a written comprehensive final examination in their concentration. For details, see the Graduate Program Guidelines, a copy of which may be obtained from the director of graduate studies.

Other Requirements for admission to graduate status, advancement to candidacy, advisement and registration, course load and length of program, graduate assistantships and other financial aid, thesis areas and requirements, comprehensive examination reading lists, graduate plan of study, procedural and administrative matters pertaining to the language requirement, the comprehensive examination and graduation may be found in the Graduate Program Guidelines.

Foreign Languages

College of Arts and Sciences
Program Adviser:
Dr. Herbert L. Baird, Jr.

M.Ed. — FOREIGN LANGUAGE EDUCATION, NON-THESIS ONLY (ALL OPTIONS)

Specializations
German

Prerequisites
In addition to standard requirements for admission to graduate studies, the candidate must have an undergraduate major in German or departmental permission.

Basic Requirements
EdA* 501 (4), 512 (4), 513 (4)

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Education or German; German Comprehensive Examination.

Requirements in Specialization
German 501, 502, 503, 504a, 504b or 505, 510a, 510b, 510c, 532

Electives in Specialization
German 450, 500
Spanish

Prerequisites
In addition to the standard requirements for admission to graduate studies, the candidate must have an undergraduate major in Spanish or departmental permission.

Basic Requirements
EdAF 501 (4), 512 (4), 513 (4)

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in Education or Spanish; Spanish Comprehensive Examination.

Requirements in Specialization
Spanish 501, 502, 503, 504, 505, 510, 532

Electives in Specialization
Spanish 450, 500

Geography & Regional Planning

College of Arts and Sciences

GRADUATE FACULTY

Griswold, Howard J., PhD, applied climatology, Southwest Pacific (state climatologist).
Monahan, Robert L., PhD, resource geography, Canadian-American studies (Director, Canadian-American Studies Center).
Moookherjee, Debrah, PhD, comparative urbanization, regional development and planning.
Raney, Franklin, PhD, biogeography of the Pacific Northwest, water resource aspects of planning.
Scott, James W., PhD, historical geography of the North American West, history and bibliography of geography (Director, Center for Pacific Northwest Studies).
Smith, Richard G., PhD, high latitudes resources, landform geography.
Terrell, Thomas A., PhD, shoreline processes, urban and regional planning.

Adjunct faculty
Berg, Richard H., PhD, P.E., remote sensing, quantitative methods.

M.S. — GEOGRAPHY, THESIS & NON-THESIS

Program Adviser: Dr. James W. Scott

Basic Requirements
Geog 501, 510, 521, 531 or 535, 551, 590

Specific Test Requirements
Graduate Record Examination — General (Aptitude) Test — must be taken before admission or in first quarter of residence. A comprehensive oral examination is to be taken in the third quarter of residence and prior to advancement to candidacy.

Electives in Specialization
To be chosen under advisement

Supporting Courses
Under advisement, normally from either the social sciences or the physical sciences. A minimum of nine credits to be taken.

Other Requirements
Demonstrated competence (by course work or by specially administered test, as appropriate) in one or more of the following techniques: statistics, computer science, cartography (including computer cartography), a foreign language (normally French, German, Spanish or Russian).

Specialization in Urban and Regional Planning
Core Requirements
Geog 503, 510, 511, 535, 541, 551, 590

Specific Test Requirements
Geog 500 (Non-Thesis) or [1:27]
Geog 690 (Thesis) [1:6]

The following additional courses:
Geog 432, 454, Huxley 436

It should be noted that the specialization in Urban and Regional Planning will generally require more than the minimum credits required for the master's degree, and that a number of additional 400-level courses are required for completion of the degree.

Geology

College of Arts and Sciences

GRADUATE FACULTY

Babcock, R. S., PhD, geochemistry, petrology.
Beek, M. R., Jr., PhD, geophysics, palaeomagnetism.
Brown, E. H., PhD, metamorphic petrology, geochimistry.
Christian, R. A., PhD, mineralogy, earth science.
Easterbrook, D. J., PhD, geomorphology, glacial geology.
Ellis, R. C., PhD, mineralogy, structural geology.
Favaro, D. R., PhD, clay mineralogy, sedimentation, geochemistry.
Foss, C. A., PhD, paleontology, biostatigraphy. (On leave 1983/84).
Schwarz, M. L., PhD, coastal processes, science education.
Sučzek, C. A., PhD, stratigraphy, sedimentary petrology, tectonics.
Wodzicki, A., PhD, economic geology, geochemistry.

M.S. — GEOLOGY, THESIS ONLY

Program Adviser: Dr. E. H. Brown

Prerequisites
Applicants are expected to have completed (1) an undergraduate major in geology or earth science, or equivalent course work, including one year each of mathematics through calculus, chemistry and physics and an approved geology field course; or (2) an undergraduate major in chemistry, physics or biology plus a minimum of 26 credits from Geol 211 (5), 212 (4), 305 (3), 306 (5), 310 (5), 316 (5), 318 (5), 352 (4), 499 (1), 416 (4), 418 (4) and 420 (5); and an approved geology field course. For concentration in geophysics, applicants are expected to have completed the equivalent of the requirements for a B.S. degree in geophysics.

Basic Requirements of Specialization
Forty-five (45) credits: 35 or more credits from Geology graduate (500- and 600-level)
Prerequisites

Completion of an undergraduate major in earth science or geology. Undergraduate majors in chemistry, physics, physical science, geography, general science or biology may also be eligible provided the specific requirements below have been met.

The following courses or their equivalents must be completed:
- Geol 211 (5), 212 (4), 305 (3), 306 (5), 310 (5), 407 (4); Chem 121 (5) and 122 (5); Physics 131 (4) and 315 (3) or 219 (5); Math 121 (5); plus an additional 13 credits in chemistry, physics, math or biology. Any deficiencies in these requirements may be made up outside the credit hour requirements for the Master of Education degree.

For curriculum requirements, see “Natural Science” section.

History

College of Arts and Sciences

M.A. — HISTORY, THESIS AND NON-THESIS

Program Adviser:
Dr. Thomas C. R. Horn

NOTE: Special arrangements can be made for public school history teachers who wish to use the M.A. degree in their professional activity. Consult department program adviser for arranging program.

Prerequisites

Admission to graduate status and to graduate courses requires completion of an undergraduate major in history or the permission of the department; History 511, 512, 515, 533, 536, 537, 540, 550, 558, 563, 571, 573, 582, 583, 585 each require the appropriate upper-
division course(s) as prépara-
tion, or the equivalent.

Basic Requirements, Thesis
Hist 501, 502  [8]
Hist 880a,b,c (Thesis)  [12]
Three reading seminars  [12]
Elective courses  [13]

Basic Requirements, Non-Thesis
Hist 501, 502  [8]
Three reading seminars  [12]
Two writing seminars  [8]
Elective courses  [20]

Electives
To complete a program in either option, electives may be chosen, in consultation with the Graduate Adviser, from other seminars, readings courses, upper-division courses (maximum of 10 credits) or Hist 500 (by special permission).

Preparation of fields shall be selected during consultation with the Graduate Adviser.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) and Subject (Advanced) in History; Oral Comprehensive Examination, Thesis; Written Comprehensive Examination, Non-Thesis; Miller Analogies Test.

Language Requirement
A reading knowledge of an appropriate foreign language, to be determined by successful completion of an examination administered by the Foreign Language Department (or, with departmental permission, a demonstrated competence in mathematics, statistics, accounting and/or computer programming).

GRADUATE PROGRAM IN ARCHIVAL AND RECORDS MANAGEMENT ADMINISTRATION

The Department of History, in conjunction with a number of cooperating agencies, offers a certificate program in archival and records management administration. Students are given a wide variety of lecture material and six months of practical experience in cooperating agencies, institutions, or companies to prepare them for professional or administrative positions in archives and records management. The program requires successful completion of Hist 598a,b, and c for a total of 28 credits. Hist 598a is offered on campus, while 598b and c are taken as internships at one of the cooperating institutions.

Basic requirements for admission to the program include a minimum of 20 graduate credits in history or an M.A. in an allied field with a minimum grade point average of 3.00 and approval of the Intern Selection Committee.

Hist 598a may be counted as an elective toward the M.A. in history.

GRADUATE PROGRAM IN HISTORICAL PRESERVATION (NON-THESIS OPTION)

The Department of History offers a graduate level program leading to a specialization in historical preservation. The following courses represent the minimum requirements for the degree program. For further information, write or consult the program director, Dr. R. L. DeLorme, or Dr. S. R. Dresbeck.

Hist 591a,b  [8]
Hist 592a,b,c  [10]
Hist 501, 502  [8]
Elective courses  [20]

Huxley College
Huxley College of Environmental Studies

GRADUATE FACULTY
(Environmental Biology Program)
Brakke, David, Ph.D., limnology, freshwater invertebrate ecology.

Kendall, Ronald J., Ph.D., environmental toxicology.
Lacher, Thomas E., Ph.D., territorial ecology, behavioral ecology.
Summers, William C., Ph.D., marine ecology.
Weber, Herbert H., Ph.D., marine biology.
Yu, Ming-Ho, Ph.D., plant and nutritional biochemistry.

COOPERATIVE ENVIRONMENTAL BIOLOGY PROGRAM

The Department of Biology and Huxley College of Environmental Studies administer a cooperative graduate program in environmental biology, leading to a M.S. degree in biology. This program focuses on the application of principles of biology to the understanding and potential solution of environmental problems.

Applied Biology Program Advisers:
Dr. David Brakke, Huxley
Dr. Richard Forda, Biology

Mathematics & Computer Science

College of Arts and Sciences

GRADUATE DEGREE STATUS
(DEPARTMENTAL REQUIREMENTS)

An entering graduate student will be granted graduate status if he or she has completed the following courses or the equivalent with grades of "B" or better: Math 265, 224, 312, 331, CS 210 and two courses at the 400 level.

A student can be admitted on provisional status if he or she
Graduate School

has not met all of the above requirements; however, nine
hours of course work completed while on provisional sta-

tus is the most that can be included in a graduate degree
program.

Qualifying Examination
for Candidacy

Each student must pass a qualifi-
ying examination before being
advanced to candidacy.

Advancement
to Candidacy

Students are advanced to can-
didacy when they have demon-
strated a reasonable likelihood of completing their program. They must have completed at least 12 hours of approved
course work with a "B" average,
including at least one course
numbered 500 or above, and
have passed the qualifying examina-
tion.

Students are recommended for candidacy by the Graduate
Committee. The student is
responsible for initiating this action when he or she con-
siders the conditions met.

FURTHER
INFORMATION
AND ADVICE

We urge the student to prepare
a program of courses in consul-
tation with his or her advisor as
soon as possible after begin-
ing work toward a degree.
Deviations may be approved by
the Graduate Committee upon
request of the student's advisor.
For the student's protection,
such approval should be obtained before any deviations
are made.

A student who wishes to inc-
clude a course numbered
400, 499, 500 or 599 as part of
his or her graduate degree pro-
gram must obtain approval in
advance from the Department's
Graduate Committee. The
Graduate Committee will con-
sider approval on the basis of a
detailed written description
submitted by the student not
later than three weeks before
the date of registration. If the
course is approved for graduate
credit, the description will be
retained in the student's file.

Music

College of Fine and Performing
Arts

GRADUATE FACULTY

Ager, Philip, M.A., music education, instrumen-
tal music, theory/conducting
Frank, Barton, M.Mus., cello, double
bass, chamber music, music
appreciation
GorJett, Wayne D., Ed.D., conducting,
instrumental music, trumpet, band,
orchestra
Hill, Ford D., M.Mus., piano, keyboard
pedagogy, performance studies

MASTER OF MUSIC,
THESIS ONLY

Program Adviser:

Dr. Edward Rutschman

Basic Requirements for All
Concentrations

Music 541, 542, 543, 544
(select three) [1:12]
Music 503 [1:4]
Music 532 and 533 [1:6]
All students admitted to graduate study must register for at least one course in the area of basic requirements during each quarter of enrollment until those requirements are fulfilled.

Requirements and Electives for Each Concentration

Composition Concentration

Music 534, 535, 536 [I:12]  
Electives [I:5]  
Music 690 (Thesis-Composition) [I:6]

History and Literature Concentration

Music 443 (select two) [I:6]  
Music 444 [I:3]  
Music 540 (for three quarters) [I:8]  
Music 550 [I:3]  
Music 690 (Thesis) [I:6]

Performance Concentration

Elect one of the following courses in each of three quarters:

Music 424, 425, 426, 427, 429, 434, or 540 [I:6]  
Music 511, 512, 513, 514 or 515 [I:9]  
Music 690 (Thesis-Recital) [I:6]

Conducting Concentration

(Choral Conducting, Orchestral Conducting, Band Conducting)

Conducting Studies [I:9-17]  
Music 501, 502, 531 and approved 400-level and/or 500-level course(s)

Basic Musicianship [I:0-9]  
Courses to be selected from the following (any not selected under Basic Requirements): Music 541, 542, 543, 544, 550, 531, 534, 535, 536 and approved 400-level and/or 500-level course(s)

Applied Music [I:0-9]  
Music 511-515 and/or approved 411-418 course(s)

Ensemble [I:0-9]  
Approved 400-level and/or 500-level ensemble course(s)

Music 690 (Thesis-Conducting Practicum)

Music Education Concentration (Instrumental Music Supervision, Choral Music Supervision, Choral Conducting, Orchestral Conducting, Band Conducting)

Professional Understandings/Techinques [I:6-9]  
Music 501, 502, 521, 525 or any approved 400-level course(s)

Basic Musicianship [I:3-9]  
Courses to be selected from the following: (any not elected under Basic Requirements) Music 531, 534, 535, 536, 541, 542, 543, 544, 550, or any approved 400-level course(s)

Applied Music [I:0-9]  
Music 511-515, or approved 411-418

Ensemble [I:0-9]  
Approved 400-level or 500-level ensemble course(s)

Guided Electives in Professional Education in Departments of Education or Psychology [I:3-9]  
Music 560 [I:6]  
(Thesis), (Thesis-Composition), (Thesis-Recital), (Thesis-Conducting Practicum).

Prerequisites and Examinations

1. Prerequisite for admission to the M.Mus. program is an undergraduate major in music or its equivalent.

Students in the Composition concentration must submit at least two original compositions for evaluation and write a 24-hour composition examination.

Students in the Performance concentration must audition before a faculty committee or submit tape recorded performance for evaluation. Vocals performers must demonstrate competence in German, French and Italian diction.

Students in the History and Literature concentration must demonstrate strength in that area by interview with appropriate faculty members.

Students in the Conducting concentration must demonstrate ability and experience in conducting by interview with appropriate faculty members. In addition, they must prepare a curricular proposal for approval by an appropriate faculty committee.

Students in the Music Education concentration must prepare a curricular proposal for approval by an appropriate faculty committee, subject to final approval by the department.

2. Placement examinations in music theory and music history must be taken prior to beginning the program. Courses necessary to remove deficiencies are not credited toward the degree.

3. The Graduate Record Examination — Aptitude and Advanced in Music must be taken prior to the completion of the first quarter of study.

4. Students in history and literature concentration must pass a reading examination in French or German.

5. Candidates for this degree must successfully pass an oral examination in the area of their thesis.

Natural Science/Science Education

College of Arts and Sciences

M.Ed. — NATURAL SCIENCE/SCIENCE EDUCATION

Adviser: Science Education Coordinator with advisement in specialized areas:

Biology: Dr. R. W. Fonda  
Chemistry: Dr. J. A. Miller
Earth Science:
Dr. R. A. Christman

General Science,
Physical Science:
Dr. J. A. Miller

Elementary Science:
Dr. J. A. Miller

Basic Requirements
EdAF 501, 512, 513 [I and II:12]
Sci Ed 501, 513 [I and II:7]

Specific Test Requirements
Graduate Record Examination
— General (Aptitude) and Subject [Advanced] in Biology, Chemistry, Geology or Education, according to specialization; Miller Analogies Test.

Specializations — Secondary Programs

Biology, Thesis and Non-Thesis
Requirements in specialization
Bio 690 or Sci Ed 690 [I:6-9]
Sci Ed 598 [I:6]
Electives
Courses selected under advisement
[I:17-20, II:23]
For prerequisites, see Biology Department listing

Chemistry, Thesis and Non-Thesis
Requirements in specialization
Sci Ed 580 or 590 [I and II:2-5]
Sci Ed 690 [I:6]
Sci Ed 598 [I:6]
Electives
Courses selected under advisement
[I:15-18, II:19-21]
For prerequisites, see Chemistry Department listing

Earth Science, Thesis and Non-Thesis
Requirements in specialization
Geology field course
[I and II:5-10]
Geol 690 or Sci Ed 690 [I:6-12]
Sci Ed 598 [I:6]
Electives selected under advisement
[I:4-15, II:13-18]
For prerequisites, see Geology Department listing

General Science, Physical Science,
Thesis and Non-Thesis
Requirements in specialization
Sci Ed 580 or 590 [I and II:2-5]
Sci Ed 690 [I:6]
Electives
Courses selected under advisement from Astronomy, Biology, Chemistry, Geology, Physics and Science Education. Specialization in Physical Science will include 5-15 credits in Chemistry and 5-15 credits in Physics.
[I:15-18, II:18-21]

Specialization —
Elementary Program

Science Education, Non-Thesis Only
Option A is designed to prepare a science curriculum resource specialist, as well as increase a teacher’s competence to teach science.

Option B is designed to increase a teacher’s competence to teach science and includes more electives in Science Education, Education and Natural Sciences.

Requirements in Specialization
Courses selected under advisement from Sci Ed 430, 500, 582, 583, 584 [II:12-22]
Additional requirements for Option A
Sci Ed 511, 512 [II:6]
Electives
Courses selected under advisement from Science Education, Education, Biology, Chemistry, Geology or Physics and related fields
[II:8-16]

Prerequisites
An applicant should be a practicing elementary school teacher. Applicant should have completed two quarters of science methods courses and the natural science education sequence with grades of “B” or better. Applicants will be required to submit letters of endorsement from their principal or superintendent indicat-
Basic Requirements
EdAF 501, 512, 513 [I and II:12]
P.E. 690 [I:6]

Specific Test Requirements
Graduate Record Examination
— General (Aptitude) Test

Requirements in Specialization
Option A: K-12/Community College
P.E. 502, 504, 506, 508
[II:20]
P.E. 507, 531, 540, 541,
542, 543
[II:6]

Option B: Administration in Physical Education
P.E. 502, 503, 504, 506, 508, 509
[I and II:20]

Option C: Adult Fitness Education/Cardiac Rehabilitation
P.E. 502, 506, 510, 511, 513,
540, 592 (6 cr), 690 (6 cr)
[II:30-33]

Electives in Specialization
With the aid of the adviser, select electives from 400- and 500-level courses.
Recommended Option A: P.E. 481, 482, 584
Recommended Option B: 9-12 credits under advisement with Education Administra-
tion
Recommended Option C: Select courses under advisement from 400- and 500-level courses in physical education, business administra-
tion, biology, nutrition, psychology.

Political Science
College of Arts and Sciences

GRADUATE FACULTY
Alper, Donald K., PhD, American politics, political process.
Foisy, Maurice H., PhD, public policy and administration, policy analysis, political theory.
Fox, Charles J., PhD, political theory, public policy and administration, organization theory.
Fox, Siegrun, PhD, research techniques.
M.A. — POLITICAL SCIENCE, THESIS AND NON-THESIS

Prequisites

Completion of the requirements for a bachelor’s degree and departmental approval of admission to the graduate degree program. Any deficiencies must be made up before the candidate may enter the program.

Basic Requirements
Pol Sci 501, 502 [I and II:10]
Pol Sci 690 [I:6-9]

Specific Test Requirements
Graduate Record Examination, General (Aptitude) Test.

Electives under Thesis
Courses selected under advisement from 400- or 500-level courses in political science (a candidate must complete at least 35 hours in courses available only to graduate students). The candidate is required to take the basic course in two of the following fields of concentration:

- **Fields**
- **Basic Courses**
  - Public Policy & Administration: Pol Sci 503
  - Comparative Government: Pol Sci 505
  - Politics & Government: Pol Sci 540
  - Political Theory: Pol Sci 560

Electives under Non-Thesis

Note that public policy and administration non-thesis specialization is separate.

Courses selected under advisement from 400- to 500-level courses in political science (a candidate must complete at least 38 hours in courses available only to graduate students). A candidate is required to take the basic course in two of the following fields of concentration:

- **Fields**
- **Basic Courses**
  - Public Policy & Administration: Pol Sci 503
  - Comparative Government: Pol Sci 505
  - Politics & Government: Pol Sci 540
  - Political Theory: Pol Sci 560

Requirements in Public Policy and Administration Non-Thesis Specialization
Pol Sci 503, 510, 520, 521, 523, 540, 550 [II:27]

Electives in Public Policy and Administration Non-Thesis Specialization
Courses selected under advisement from 400- to 500-level courses in Political Science, Economics, Psychology, Sociology, Education, Business Administration, Huxley College and Ethnic Studies Program. [II:11]

Other Requirements — Thesis and Non-Thesis

The student must meet one of the following requirements:

1. Demonstrate a reading knowledge of an appropriate foreign language by passing a test to be given by the Department of Foreign Languages. Foreign students for whom English is not the native tongue shall pass an English language competency exam.

2. Demonstrate competence in computer programming and statistics by successful completion of Computer Science 110 and Math 240.

Successful Comprehensive Examination

Written and Oral in Public Policy and Administration Non-Thesis Specialization.

Psychology

College of Arts and Sciences

GRADUATE FACULTY

Blood, Don F., PhD, statistics, measurement.
Burc, William C., PhD, measurement, human learning, philosophical psychology.
Carmean, Stephen, PhD, perception, thinking, communication.
Crow, Lowell, PhD, physiological psychology, alcohol and behavior, psychopharmacology.
Cvetkovich, George, PhD, social psychology, population psychology.
Diers, Carol Jean, PhD, general, social, animal social.
Ellic, Peter J., PhD, educational, human learning, developmental.
Grote, Frederick W., Jr., PhD, social development in children, early experience, child psychology and social issues.
Jones, Elwet G., PhD, counseling psychology, school counseling.
Kintz, B. L., PhD, general, experimental, measurement and statistics.
Kleinke, Ronald A., PhD, behavior therapy, alcoholism, dental phobia.
Lippman, Louis G., PhD, learning, verbal learning.
Program Adviser:  
Dr. Elvet G. Jones

Prerequisites

Major or minor in psychology including a course in psychology of learning or background in professional education. The following specific courses or their equivalents are required: Psych 305 or EdAF 473, Psych 313, 314, 431, 471.

Admission to this program is by committee action. Since maximum enrollment for any one academic year is limited, applicants are advised to seek formal admission before making detailed plans. All prerequisites must be completed before fall quarter of year of residency. Documentation of personal suitability of applicants for counseling is required through statements of personal commitment, letters of reference, and interviews where possible.

Basic Requirements  
EdAF 501, 512, 513  
[1 and II:12]

Psych 690  
[II:6]

Specific Test Requirements  
Graduate Record Examination — General (Aptitude) and Subject (Advanced) in Psychology.

Admissions Procedures

All applicants are initially screened for admission to the M.S. program in psychology irrespective of curriculum choice. Following this initial screening, applicants are reviewed by the curriculum committee corresponding to the curriculum chosen (i.e., general psychology, counseling psychology or school psychology). In addition to the test requirements stated above, applicants for the M.S. counseling psychology or school psychology curriculum will be required to submit additional materials as requested. Admission to, and completion of, a specified curriculum will be recorded on each student's transcript. Students will be admitted to one of the specialized curricula prior to the beginning of fall quarter. Transfer from one curriculum to another may be possible in some instances as space becomes available. Such transfer is possible only by formal application to the Graduate Coordinating Committee and joint agreement of both involved curriculum committees. Absolutely no change in curriculum will be possible after fall quarter.

M.E.D. — SCHOOL COUNSELOR, THESIS AND NON-THESIS

The M.Ed. School Counselor program will not be offered during the 1983-84 academic year. Please write to Dr. Elvet G. Jones for further information.

Students planning to apply for the state certificate in school counseling will take a minimum of five additional credits in 570 or 670 beyond the master's degree requirements and will pay additional fees for the state credential. State certification requires the review of the candidate by an approved State Certification Review Board before being recommended for certification.

M.S. — PSYCHOLOGY, THESIS ONLY

Program Adviser:  
Dr. Laurence Miller

Prerequisites

General psychology, statistics

through inference, and a laboratory course in psychology. Students deficient in prerequisites must satisfy them by the end of their first quarter of study.

Specific Test Requirements

Graduate Record Examination — General (Aptitude) and Subject (Advanced) in Psychology.
specified in each of the curriculum descriptions.

Other Requirements
Each candidate should note that the department has requirements affecting retention in the M.S. program which are in addition to those general requirements of the Graduate School. Among these are the requirements that all admission prerequisites be satisfied by the end of the first quarter of study and that full, continuing enrollment in the required courses be maintained as specified for each curriculum. Grades lower than "C" are unacceptable. Any course in which an unacceptable grade is earned may be repeated only upon permission of the admission/reten tion subcommittee, following consultation with the appropriate curriculum coordinator. It is necessary to obtain at least a 3.00 ("B") grade point average for all graded coursework taken during the first year in order to be retained in the program.

Retention in the counseling psychology or school psychology curriculum is also dependent upon the development of professional competence in interaction with clients, school district personnel and other professionals. Continuous evaluation by the appropriate curriculum committees will be the basis for retention of the student in the school psychology or counseling psychology curriculum.

Electives
Psych 500, 505-507, 511, 512, 520-531 and any 400 and 500 courses in the departments of biological sciences, chemistry, education, mathematics, philosophy, physics and sociology or anthropology approved by advisement only; some 300 courses in biology, chemistry, education, mathematics, philosophy, physics, sociology or anthropology, and zoology approved by advisement only (not more than half the elective credits should be taken at the 300 level).

M.S. IN PSYCHOLOGY
— GENERAL PSYCHOLOGY CURRICULUM

Curriculum Coordinator:
Dr. Fred Grote

The graduate curriculum leading to an M.S. degree in general psychology is designed to provide basic and fundamental knowledge of the various aspects of behavior. This goal is accomplished through several required foundation courses, seminars, statistics and design, thesis work and elective courses in psychology and related areas.

Students in the general psychology curriculum must complete the course requirements for the M.S. psychology program (501a-c, 502-504, 506, and 690).

In addition to course requirements of M.S. Program (see above) students in the General Psychology Curriculum are required to choose at least two seminars, but not all from the same group, from the following three groups: 522, 525 and 528; 520, 521, 523 and 524; and 526, 527, 529 and 530. In addition they must also complete one additional seminar from the sequence 520-531. Psych 505-507, 511 and 512 are also offered as electives.

A concentration offered within the general psychology curriculum is Measurement, Evaluation and Statistical Analysis (MESA). In addition to the core program (20 credits plus seminars) students will take the following psychology courses: 505, Multivariate Analysis II (3); 506, Advanced Research and Evaluation Design and Data Analysis (3); 507, Topics in Quantitative Psychology (3-4); and 530, Seminar in Advanced Measurement Theory (3). A thesis on an appropriate topic is also required. Additionally, students will take other electives under advisement and appropriate coursework in computer science, depending on prior experience.

The student completing this concentration will gain competencies applicable to areas of employment requiring research design, data analysis, statistical evaluation and computer skills.

M.S. IN PSYCHOLOGY
— COUNSELING PSYCHOLOGY CURRICULUM

Curriculum Coordinator:
Dr. Walter J. Lonner

This two-year curriculum is designed to prepare students for psychological counseling positions in colleges, community colleges and community agencies. The emphasis is upon normal developmental problems and conflicts of individuals at various stages of life. Attention to work with families and children is included. Ethnic and cultural factors are also included with respect to contemporary psychological problems. Internships in appropriate settings will be required.

The program is consistent with basic minimum requirements leading to review by the State Board of Examiners for licensing appropriate to the level of training.

The specialized curriculum in counseling psychology is open only to students who have been admitted to the master's program in psychology on the criteria described above. Further documentation of the personal suitability of applicants for counseling is required through statements of personal commitment, letters of reference and interviews where possible.

Students in the counseling psychology curriculum must complete the course require-
ments for the M.S. psychology program (501-a-c, 502-504, 508, and 690). In addition, the following courses must be completed: Psych 553, 555, 557, 558, 561, 564, 565, 570, 670 and three seminars from 520-531.

M.S. IN PSYCHOLOGY
— SCHOOL
PSYCHOLOGY CURRICULUM

The M.S. in Psychology - School Psychology Curriculum will not be offered during the 1983-84 academic year. Please write to Dr. N. L. Pielstick for further information.

Curriculum Coordinator:
Dr. N. L. Pielstick

The graduate curriculum in school psychology is designed to provide a foundation knowledge of human behavior, assessment skills, methods of behavior change and professional practices which will prepare its graduates to facilitate the work of the schools in promoting pupil learning. A two-year school psychology curriculum serves this purpose by providing, in addition to coursework, practicum experiences and research work.

Under advisement, selected education courses, including those in the area of special education and reading, are required. This curriculum is designed to meet the standards for certification in school psychology as specified by the Certification Office of the Superintendent of Public Instruction.

The specialized curriculum in school psychology is open only to students who have been admitted to the master's program in psychology on the criteria described above. Further documentation of the personal suitability of applicants is required through statements of personal com-

Sociology

College of Arts and Sciences

GRADUATE FACULTY

Cull, Donald J., PhD, deviance, adolescence, theory.

For further information:
Contact: Dr. E. R. Mahoney, Graduate Program Adviser, Department of Sociology, Western Washington University, Bellingham, WA 98225 (206-676-3611).

M.A. — SOCIOLOGY, THESIS ONLY

Program Adviser:
Dr. E. R. Mahoney

Prerequisites

General sociology, research methods, statistics: a minimum of 20 quarter hours of upper-division sociology courses.

General Requirements
Normally students will complete requirements in the following order: (1) formal admission to the program; (2) completion of core and other graduate courses (at least 35 credit hours); (3) advancement to candidacy; (4) selection of thesis committee and problem; (5) submission of written thesis proposal; (6) oral defense of written thesis proposal; (7) submission of completed thesis.

Core Requirements

Electives
A maximum of 10 credits at the 400-level and any 500- or 600-level sociology courses. Courses from other departments must be approved by the Sociology Graduate Committee.

Specific Test Requirements
Graduate Record Examination, General (Aptitude) portion.

Candidacy
For information concerning advancement to candidacy and specific program requirements, consult the "Sociology Graduate Students Manual," available through the department.

Speech Pathology & Audiology

College of Arts and Sciences

M.A. — SPEECH PATHOLOGY AND AUDIOLOGY

(51 credits)

Options: Thesis and Non-Thesis
Graduate School

Graduate Coordinator:
   Dr. Loren L. Webb

Prerequisites

The prerequisites for entrance into the graduate program include an undergraduate major in speech pathology and audiology or approval by committee action. Additional data will be requested of those applying. All students entering the program must purchase the "WWU Handbook for Speech/Language Pathology and Audiology Majors." The department has specific entrance requirements in addition to the general entrance requirements of the Graduate School. Students must consult the departmental graduate coordinator and departmental handbook for particulars. Those students classified as "other graduates" must complete a "core" curriculum prior to advancement as a graduate major. Consult the departmental graduate coordinator.

Basic Requirements
SPA 502 4
SPA 551 3
SPA 561 3
SPA 690 (Thesis) 6-9
SPA 691 (Non-Thesis) 3

Graduate Entrance Requirements
Graduate Record Examination, General (Aptitude) Test and the Miller Analogies Test; must be taken prior to admission to graduate program in SPA. The Diagnostic Examination in Speech/Language Pathology and Audiology must be taken during the student's first quarter of graduate enrollment.

Requirements in Specialization
1. Speech/Language Pathology specialization: In addition to basic requirements, students must complete SPA 550, 552, 553, 554, 556, 558, 559, 568a, 599a,b,c.

Electives in Specialization:
SPA 455, 465, 465a, 466, 555, 557, 560, 563, 564, 567, 569, 570, 571, 572, 574, 575, 575a, 576, 577, 599c, 692, 696 and other 400- and 500-level courses selected under departmental advisement. Total — 51 credits

2. Audiology and Aural Rehabilitation Specialization:
In addition to basic requirements, complete SPA 466, 558, 562, 563, 564, 565, 566, 568a,b,c, 570, 571, 574, 599a,b.*

Electives in Specialization:
SPA 455, 465, 465a, 553, 557, 557, 568, 572, 574, 575, 575a, 577, 598a, 692, 696 and other 400- and 500-level courses selected under departmental advisement. Total — 51 credits

*Although SPA 599a, b, and c are 3 credits each, only a total of 6 (3 + 3, 599a and b, respectively) can apply toward the M.A. degree.

Clinical Competence
In addition to meeting academic requirements, students specializing in speech/language pathology must demonstrate satisfactory competence in diagnostic and clinical practicums by completing SPA 552, 558 and 559 with grades of "C" or better in each course. Speech and language pathology specialists also must complete SPA 568a successfully with a grade of "C" or better. Students specializing in audiology must complete SPA 558 with a grade of "C" or better. In addition, audiology specialists must complete SPA 568a,b,c and SPA 564 with a grade of "C" or better in each course. Students are permitted to retake a clinical practicum only once. If a satisfactory grade as specified in the preceding requirements is not achieved in the retake, students will not be permitted to continue in the practicum courses.

Comprehensive Examinations
Both written and oral examinations are required. During the quarter preceding the final quarter of the completion of the graduate program, the student will take a written comprehensive examination (six hours) covering the contents of his or her graduate program to date. A minimum of 36 graduate credits must be completed before comprehensives may be taken. In the same quarter in which he or she expects to graduate, the student is required to take an oral examination based on the thesis of non-thesis papers and related items. Details regarding the written and oral comprehensive examinations are included in the "WWU Handbook for Speech/Language Pathology and Audiology Majors."

Certification Requirements
All students seeking certification as a Communication Disorders Specialist in the public schools in the State of Washington must successfully complete a minimum of two quarters of public school externship in order to satisfy Program Unit requirements.

The American Speech-Language-Hearing Association requirements for Certification of Clinical Competence in Speech/Language Pathology or Audiology stipulate completion of 300 clock hours of practicum, 150 of which must be obtained at the graduate level. The student must have a minimum of 8 hours of coursework and 35 clock hours in his/her minor area of study (Speech/Language Pathology or Audiology). Consult the "WWU Handbook for Speech/Language Pathology and Audiology Majors" for details.

Technology

College of Arts and Sciences

GRADUATE FACULTY

Black, Joseph E., Ph.D., materials science.
Vocational Certification
Eligibility for Vocational Certification in Administrative or Supervisory positions vary within the program areas and issuing agencies. It shall be the responsibility of each M.Ed. candidate to pursue appropriate certification during the program and to receive approval of educational plans prior to enrolling. Persons receiving the M.Ed. degree in Vocational Education Administration should be eligible for the requisite certificate by the time of graduation.

Theatre/Dance

College of Fine and Performing Arts

M.A. — THEATRE

Program Adviser:
Dr. Dennis E. Catrell

The prospective student is urged to contact the adviser and request the "Guide to Graduate Study in the Department of Theatre & Dance."

Two options lead to the M.A. degree. The thesis (Option I—45 credit hour minimum) is offered for the student primarily interested in research and planning to enter a Ph.D. program or pursue other advanced academic training. It is also appropriate in some instances (e.g., directing, playwriting) as training for professional performance. Option II (48 credit hour minimum) is typical for the student pursuing a career as a professional performer, or as a teacher at the secondary level.

Prerequisites

An undergraduate major in theatre, or theatre and dance, or approval by committee. Evidence of qualifications will be requested of applicants.
Specific Test Requirements
Graduate Record Examination, General (Aptitude) Test; Diagnostic Examination (administered by the Department of Theatre & Dance).

Core Requirements
All candidates must take the following:
- Theatre/Dance 501 [I and II:4]
- Theatre/Dance 522 [I and II:4]
- Two courses from Th/D 528a,b,c,d,e [I and II:4]
- Theatre/Dance 570 [I and II:4]

Requirements in Specialty
Courses are offered in seven specialties. The first course in each specialty (italicized) is called the "Key Course" in that specialty.

Acting
- 560, 561, 690 (I) or 690 (II) and 595 (II), and one Key Course outside specialty.

Creative Education
- 550, 551, 690 (I) or 690 (II) and 595 and one Key Course outside specialty.

Dance
- 530, 531, 690 (I) or 690 (II) and 595 (II) and one Key Course outside specialty.

Design/Technical Theatre
- 511, 512, 690 (I) or 690 (II) and 595 (II), and one Key Course outside specialty.

Directing
- 571, 572, 690 (I) or 690 (II) and 595 (II), and one Key Course outside specialty.

Dramatic Literature and Criticism
- 522, three additional courses (beyond core) from 528a,b,c,d,ore, 690 (I) or 690 (II) and 595 (II), and one Key Course outside specialty.

Playwriting
- 585, 586, 690 (I) or 690 (II) and 595 (II), and one Key Course outside specialty.

Key Courses outside specialty are selected under departmental advisement.

Electives
Electives will be selected under departmental advisement. No more than 10 credits of course work at the 400 level may be applied to the M.A. degree. No more than six credits of Theatre/Dance 500 (Independent Studies) may be applied to the M.A. degree unless special departmental approval is granted in advance.

Language Requirement
Demonstrate a reading knowledge of an appropriate foreign language by passing a test to be given by the Department of Foreign Languages.

In special instances where knowledge of the subject matter and techniques of an allied discipline may prove a valuable research or performance tool for the student, the language requirement may be waived. Or the department may required, in lieu of a language, the satisfactory completion of additional course work (beyond the basic 45-48 credits required for the M.A. degree) in 400- and 500-level courses in a collateral discipline. These courses must have the approval of both the student's advisor committee and the allied department.

Comprehensive Examination
After admission to candidacy at a time agreed upon by the candidate and the graduate advisor, the student will take a comprehensive examination demonstrating a broad competence in the theatrical and dramatic disciplines, and a more detailed knowledge in the student's specialty.

Programs of this type are restricted by several factors: current offerings which can provide a basis for the individual program; availability of appropriate faculty for special assignment (conference, projects); the applicant's academic preparation and ability; and the internal logic, or relationship of the elements of the proposed program. Each case is considered on its merits.

For example, a plan of study might be developed around major aspects of environmental science and could include course work and projects undertaken in one or more science departments and Huxley College. Or a plan of study might address social trends and artistic expression. Public policy and science or interdisciplinary study of the atmosphere or quantitative methods and analysis provide other illustrations.

Only a limited number of such programs can be offered each year. Considerable lead time is required to develop each program; from the student's initial inquiry to final approval of a program usually takes several months. The nature of such programs — more than a single discipline, and special arrangements — generally calls for more credit hours than the minimum numbers for which a master's degree can be awarded by WWU. Only students eligible for unconditional admission to the Graduate School or WWU are admitted to this program.

Faculty/Student-Designed Programs

M.A., M.S., M.Ed.

At times students and faculty are able to develop special programs that are more interdisciplinary than the master's programs described in this catalog.

Detailed information can be obtained by writing the Graduate Office, WWU, Bellingham, WA 98225. Ask for "Fact Sheet: Faculty/Student-Designed Programs." Procedures for applying are contained in the "Fact Sheet."
Departments, Programs & Courses

Courses listed in this General Catalog constitute a record of the total academic program of the University. Except for unforeseen scheduling and personnel circumstances, it is expected that each course will be offered during the period of this catalog. For an exact scheduling of courses at Western, students should consult the annual class schedule, the Summer Catalog and bulletins of the Center for Continuing Education.

The following programs are listed alphabetically in the "Interdisciplinary" section of this catalog:

American Studies
Canadian American Studies
East Asian Studies
English as a Second Language
Ethnic Studies
Freshwater Studies
General Science
Industrial Design
Interdisciplinary Arts
Latin American Studies
Library Science
Linguistics
Physical Science
Science Education
Social Studies Education
Student/Faculty Designed
Interdepartmental Major
Urban Center
Viceoed
Womens Studies

Spring in Red Square, with Fisher Fountain, "Sky-Viewing Sculpture" and Miller Hall center and right, and Humanities Building and Lecture Halls on the left.
Looking past Lloyd Hamrol's outdoor sculpture "Log Ramps" in south campus, buildings are from left Arrizen Hall, a corner of the Environmental Studies Center, and Parks Hall, home of the College of Business and Economics and the Department of Speech Pathology/Audiology.

Accounting

College of Business and Economics

Accounting is an important tool of management, with economic organizations using accounting information to plan, control, and report their financial activity. A thorough knowledge of accounting is, therefore, necessary to understand the operation and financial condition of any complex business or governmental agency.

The Accounting Department offers a broad program of courses in accounting which, coupled with required and elective courses in economics, mathematics, and business administration, provides the graduate with a sound educational foundation for an accounting career or postgraduate studies.

The accounting graduate can expect to find employment in a number of areas including private business, public accounting or governmental service. An accountant in private business will typically work in such positions as cost accountant, tax accountant, treasurer, auditor, budget officer, business manager or controller. The certified public accountant offers services as a professional person to the general public for the purpose of installing accounting systems, providing tax counsel and compliance, and auditing accounting records. For this work the CPA certificate is necessary. Governmental employment also offers varied opportunities analogous to those found in the private sector.

Students are urged to consider the variety and wealth of career opportunities available to the accounting graduate when they select their accounting elective courses.

Because accountants must communicate effectively and must be proficient in mathematics, we recommend that prospective accounting stu-
students take four years of English and at least three years of mathematics in high school.

To declare a major in accounting, a student must have completed at least 75 credit hours with a minimum cumulative grade point average of 2.75. The student must also have completed with a grade of "C" or better: Accounting 241 and 242; Economics 203 and 204; and Math 155 and 156. The minimum grade standard may be adjusted each term; however, any changes in the standards will be published in the class schedule.

A student currently enrolled at Western may apply for acceptance as an Accounting or combination Accounting/Computer Science or Accounting/Economics major by obtaining forms and instructions from the departmental secretary. A student transferring from another institution will be notified prior to enrollment whether he/she has been accepted into the major or has been admitted to the University as a "pre-major."

Students currently enrolled at Western who do not yet satisfy requirements for acceptance as majors in the Department of Accounting are urged to declare as pre-majors in the College of Business and Economics. This process may be completed with the departmental secretary and assures proper advisement and registration priority.

Because of heavy demand for accounting courses, the department has found it necessary to give priority for enrollment in all of its courses to students who have not previously received a grade in the course including W or Z. The additional following priorities will be applied to all upper-division courses.

1. Students officially declared as majors in Accounting, Accounting/Computer Science, or Accounting/Economics.
2. Students who are officially declared majors in other departments in the College of Business and Economics.
3. Other students who have completed Accounting 241, 242 and 243 (or equivalent at other institutions).

ACCOUNTING FACULTY

RonalDN. SavelY (1975) Chairman. Associate Professor. BA, Western State College (Colo.); MBA, University of Denver; CPA, States of Colorado and Washington.

BRUCE E. BROWN (1982) Assistant Professor. BS, Iowa State University. MA, University of Iowa. CPA. State of California.

CODY E. BRYAN (1977) Assistant Professor. BGE, University of Nebraska (Omaha); MBA, University of Pueblo. CPA, State of Washington.

JULIA A. LOCKHART (1982) Assistant Professor. BS, MS, University of Illinois; CPA, State of Illinois.

H. NEIL. PLOUSEN (1968) Assistant Professor. BS, California State University; MBA, California State University; CPA, State of California.

JOHN A. RUDE (1961) Assistant Professor. BB and MA, Western Illinois University; ABD, Kent State University; CPA, State of Illinois.

WILLIAM M. SAILORS (1974) Associate Professor. MBA, MS Eng., University of Southern California; BSME, University of Illinois; CPA, States of Washington and California.

WILLIAM R. SINGLETON (1979) Associate Professor. BBA, Memphis State University; MBA, University of Portland; ABD, University of Hawaii; CPA, States of Oregon and Washington.

BACHELOR OF ARTS

Major 109 credits

☐ Acctg 241, 242, 243, 321, 331, 341, 342, 343, 365, 367, 441, 461
☐ 6 upper-division accounting credits under advisement
☐ Acctg 370, 371
☐ BA 255, 301, 330, 341, 360, 495
☐ Econ 203, 204, and either 308 or 311
☐ Math 155, 156, Comp Sci 117

Combined Major — Accounting/Computer Science 109 credits

☐ Acctg 241, 242, 243, 341, 342, 441, 461
☐ 9 upper-division credits from among the accounting courses and CS 470
☐ Comp Sci 210, 217, 310, 330, 352, 353, 430, 431, 471
☐ BA 271, 301, 330, 341, 360, 495
☐ Econ 203, 204
☐ Math 155, 156, 240*

*May substitute BA 265 for Math 240.

An interdepartmental major in Accounting/Economics is also offered. See "Economics" section of Catalog for details.

Minor 26 credits

☐ Acctg 241, 242, 243, 341, 342
☐ Additional credits in accounting under advisement

COURSES IN ACCOUNTING

Courses numbered X37: X97: 300, 460, 477: 445 are described on page 29 of this catalog.

241 PRINCIPLES OF FINANCIAL ACCOUNTING (4)
Introduction to the theory and practice of accounting, including financial statements.

242 PRINCIPLES OF FINANCIAL ACCOUNTING (4)
243 PRINCIPLES OF MANAGERIAL ACCOUNTING (4)
Prereq: Acctg 242, introduction to the procedures and techniques with which managers use accounting information to make decisions and to achieve control in business organizations.

321 ACCOUNTING INFORMATION SYSTEMS I (4)
Prereq: Acctg 243 and Comp Sci 117, Overview of the analysis, design and implementation of both manual and computerized information systems. A review of the current state of the art of applications, software and systems available for accounting and managerial functions.

331 MANAGERIAL COST ACCOUNTING (4)
Prereq: Acctg 243, Procedures used for classifying, recording, summarizing, and allocating current and estimated costs for planning, controlling, and reporting purposes.

332 ADMINISTRATIVE CONTROL (3)
Prereq: Acctg 243, Managerial uses of budgeting, cost accounting and other financial techniques to control operations in complex organizations.

341 INTERMEDIATE ACCOUNTING THEORY AND PRACTICE I (4)
Prereq: Acctg 243, An in-depth study of accounting theory and practice for students who require more than introductory coverage. Both conceptual and application topics are studied.

342 INTERMEDIATE ACCOUNTING THEORY AND PRACTICE II (4)
Prereq: Acctg 341, Accounting principles related to stockholders’ equity matters, investments, revenue recognition, deferred taxes, pension plans, leases, and preparation and analysis of financial statements.

343 INTERMEDIATE ACCOUNTING THEORY (4)
Prereq: Acctg 342, A study of the accounting theory underlying current practice. Existing and emerging issues in accounting are also examined.

385 INCOME TAXATION I (4)
Prereq: Acctg 242, General income tax requirements; special problems relating to individual tax returns.

357 FUND AND GOVERNMENTAL ACCOUNTING (3)
Prereq: Acctg 242, Fund and budgetary accounting as applied to municipalities, governmental units, and nonprofit organizations.

370 LAW OF COMMERCIAL TRANSACTIONS I (4)
Legal principles underlying the law of Contracts, Sales and Secured Transactions.

371 LAW OF COMMERCIAL TRANSACTIONS II (4)
Prereq: Acctg 370, Legal principles underlying the law of Agency, Commercial Paper and Documents of Title, Corporations and Partnerships.

372 LAW OF COMMERCIAL TRANSACTIONS III (4)
Prereq: Acctg 370, Legal principles underlying the remaining areas of commercial law. Subjects include accountant’s legal responsibility, antitrust, bankruptcy, employment, estates and trusts, insurance, real property and mortgages, securities regulation and suretyship.

421 ACCOUNTING INFORMATION SYSTEMS II (3)
Prereq: Acctg 321, Both current and prospective applications of computer-based information systems as applied to accounting data bases will be studied. Utilizes case studies, selected readings for group discussion and guest lecturers with specialized expertise. Will not involve conventional procedural computer programming.

431 ADVANCED MANAGERIAL ACCOUNTING (3)
Prereq: Acctg 331 or 332. Considers recent research into how organizations would use accounting information for planning and control.

441 ADVANCED ACCOUNTING THEORY AND PRACTICE (4)
Prereq: Acctg 343, Accounting for business firms organized as partnerships, and introduction to accounting for business combinations — mergers, acquisitions and consolidations.

442 ADVANCED ACCOUNTING THEORY (3)
Prereq: Acctg 343, Theory of accounting related to income measurement, assets and equities; uses and limitations of general purpose financial statements.

481 AUDITING THEORY AND PRACTICE (4)
Prereq: Acctg 343, Theory and practice related to the auditing environment, including general audit technology, programmatic applications and reporting obligations.

482 ADVANCED AUDITING (3)
Prereq: Acctg 461. For the student intending a career as a professional auditor. Readings in current issues, case simulations and presentations by professional experts.

485 INCOME TAXATION II (3)
Prereq: Acctg 385. Special problems of partnerships, corporations and trusts. Introduction to tax research.

486 ADVANCED TAXATION (3)
Prereq: Acctg 465, Advanced techniques used in tax planning. Emphasis on tax research directed toward the individual and the closely held family business; other sole proprietorship, partnership or corporation.

487 CPA EXAMINATION REVIEW (3)
Prereq: Acctg 343, 310, 461. A review of selected areas of law, auditing, accounting theory and accounting practices for students preparing to take the CPA examination. S/U grading.

See the Graduate School section in front of this catalog for a description of the MBA program.
Anthropology
College of Arts and Sciences

Anthropology is that discipline which studies humankind in the widest perspective, its physical development, development through time, and the diversity of ways of life people have created. Anthropology attempts to make generalizations about human nature, group life, and culture. To achieve these goals, the anthropologist does fieldwork and comparative cross-cultural studies in time and space.

Anthropology shares techniques and methods with other behavioral sciences as well as draws upon physical and biological sciences. Unlike other behavioral sciences, which deal primarily with the Western World, anthropology includes the broadest human context. Thus, anthropology provides theoretical and empirical bases for development of hypotheses about human behavior and for testing the limitations of such hypotheses.

Anthropology is divided into subdisciplines.

1. The archaeologist attempts to reconstruct the past through a study of material remains of extinct peoples.

2. The physical anthropologist focuses on anatomical, physiological and genetic differences in past and contemporary human populations.

3. The anthropological linguist investigates the interrelationships between human culture and language with special focus on unwritten languages, emphasizing the diversity of world languages and non-verbal human communication.

4. The cultural anthropologist does fieldwork and attempts to describe each culture in its
Anthropology

own perspective. On the basis of this experience, the study of hundreds of other field reports, and other information, he or she does cross-cultural comparisons to test generalizations about human behavior.

Utilizing ethnographic, ethnological and ethnohistorical tools as well as information supplied by these subdisciplines, the anthropologist does comparative studies of living and dead cultures and of the processes of human development.

The Anthropology Department provides training in all of these areas.

Opportunities for fieldwork and library research are available in all areas and for advanced research leading to the master's degree in all areas. Archaeological surveys and excavations are conducted most summers. The department engages in a series of funded ethnohistorical projects, providing a wide diversity of research opportunities. Library holdings include the complete Human Relations Area File for those pursuing cross-cultural and culture-area research. Linguistic specializations available include languages of South Asia, East Asia and the Northwest Coast. Ongoing applied anthropological research in Papua, New Guinea and Mexico further enriches the program.

Degrees offered are the B.A. in Arts and Sciences and the B.A. in Education (as well as minors in both programs). In addition a combined Anthropology/Biology major is offered.

Careers for graduates in anthropology exist in both the public and private sectors of the economy and are increasing. Opportunities may be found in teaching (public school, community college and college), federal and state agencies, social services, applied health settings and museums.

ANTHROPOLOGY FACULTY

ANGELO ANASTASIO (1955) Chairman. Professor, Diploma, The Juilliard School; AA, Boston University; MA, PhD, University of Chicago.
LESLIE CONTON (1980) Assistant Professor. BA, Oberlin College; MA, PhD, University of Oregon.
GARLAND F. GRABERT (1967) Professor, BA, MA, PhD, University of Washington.
HOWARD L. HARRIS (1968) Associate Professor. BA, University of Iowa; MA, University of Missouri; M.Div., Hartford Theological Seminary.
LINDA AMY KIMBALL (1975) Associate Professor. BSED, MA, PhD, Ohio State University.
JOAN C. STEVENSON (1979) Assistant Professor. BA, University of Washington; MA, PhD, University of Wisconsin-Milwaukee.
HERBERT C. TAYLOR, JR. (1981) Professor. BA, MA, University of Texas; PhD, University of Chicago.

BACHELOR OF ARTS

Major — Anthropology 60 credits

☐ Anth 201, 202, 210 or 215, 247 or 348, 301

☐ A course in statistics under departmental advisement
☐ Electives in anthropology under departmental advisement

Minor 25 credits

☐ Anth 201, 202, 210 or 215
☐ Electives under departmental advisement

Combined Major — Anthropology/Biology 71 credits including 10 in supporting courses

This major will provide interested students the opportunity to study in two disciplines related through human biology:

☐ Anth 201, 210, 215
☐ 10 credits in anthropology under advisement
☐ Biol 121, 122, 312, 348, 349, 370, 490
☐ Biol 340 or Anth 335
☐ Chem 115 (or 121, 122, 123) and 251 (or 351, 352, 353)
☐ Recommended elective courses: Biol 307, 308, 325, 465, 469, and 485; Anth 420, 429, 424, any "Peoples" courses relevant to the student's interests, and additional courses under advisement

BACHELOR OF ARTS IN EDUCATION

Major 45 credits

☐ Anth 201, 210 and 215
☐ Anth 481 strongly recommended
☐ Electives under departmental advisement

At least one course from each of the following groups:

— Cultural area courses: Anth 361, 362, 363, 364, 461, 462
— Topical cultural anthropology courses: Anth 247, 330, 341, 348, 353

Students must also complete the specific program requirements for Social Studies Education, including the Social Studies minor, as outlined in the Interdisciplinary Program section of this catalog.

Completion of this major/minor program leads to a teaching endorsement in social studies at the secondary level.

Minor 25 credits

☐ Anth 201 and either 202, 210 or 215
☐ Electives under departmental advisement
DEPARTMENTAL HONORS

In addition to the general requirements for all honors students, an anthropology major who wishes to graduate "with honors" must demonstrate a reading knowledge of a foreign language and submit a senior thesis.

GRADUATE STUDY

For a concentration leading to a Master of Arts, see the Graduate section of the catalog.

COURSES IN ANTHROPOLOGY

Courses numbered X37, X97; 300, 400, 417; 445 are described on page 26 of this catalog.

201 INTRODUCTION TO CULTURAL ANTHROPOLOGY (5)
The study of societies that contrast with Western civilization, leading to an acquaintance with the concept of culture and its importance to an understanding of human behavior. Emphasis will be placed upon understanding each culture from its own point of view rather than our own.

202 INTRODUCTION TO HUMAN ORIGINS (5)
Human origins drawn from the fossil and archaeological records. Problems of human physical diversity and prehistoric cultural diffusion explored.

210 INTRODUCTION TO ARCHAEOLOGY (5)
The nature of archaeology as seen by classicists, art historians, anthropologists and archaeologists. Methods, techniques and theories used in the different conceptions of the discipline.

215 INTRODUCTORY BIOLOGICAL ANTHROPOLOGY (5)
The biological side of anthropology; human osteology, primate paleontology, human variation, human evolution and primate behavior.

247 LANGUAGE IN CULTURE AND SOCIETY (3)
Prereq: Anth 201. Analysis of situational varieties of language level and vocabulary; social processes of language change; semantics and world-view; speech communities.

301 DEVELOPMENT OF ANTHROPOLOGY (5)
Prereq: Anth 201. The development of anthropology with emphasis on the period beginning with L.H. Morgan and E.B. Tylor.

309 CURATORIAL METHODS IN ANTHROPOLOGY (5)
Prereq: Anth 201 and 210 and permission. Practical experience in museum techniques of cataloging, preparation, storage, preservation and curatorial methods. Ethnographic, archaeological and historic materials and collections of the Whittier Museum of History and Art will be studied under the guidance of the museum staff. Students will assist the museum staff in this and other museum work and prepare a report of their activities and research.

310 THE RISE OF CIVILIZATIONS (5)
Prereq: Anth 201, and 202 or 210. Village agricultural societies as revealed by archaeology; crystallization of village farming societies into urban civilizations in the Near East, Egypt, India, China and New World parallel developments.

311 PREHISTORIC BASES OF EUROPEAN SOCIETY (5)
Prereq: Anth 201. Archaeological evidence for the introduction of agriculture, metallurgy, trade routes and complex social systems into Europe; sites and settlements beginning in the terminal Pleistocene and ending in the historical Roman period.

312 FIELD COURSE IN ARCHAEOLOGY (12)
Prereq: Anth 201, 210 or equivalent and permission of instructor. On-site training in methods and techniques of archaeological survey and analysis.

330 RELIGION AND CULTURE (5)
Prereq: Anth 201. Comparative study of religious, belief, and behavior relationships of religious experience and institutions to other aspects of culture and society.

332 SOCIAL CHANGE AND MODERNIZATION (3)
Prereq: Anth 201. A survey of the mechanisms, modes and variability of socio-cultural change and anthropological theories about change, through descriptive studies.

335 QUANTITATIVE METHODS IN ANTHROPOLOGY (5)
Prereq: Anth 201 and 10 additional credits in anthropology. Mathematics and statistics as applied to anthropological problems.

341 INTERGROUP RELATIONS (5)
Prereq: Anth 201. Adjustment of groups to the natural environment and to each other in selected areas. Mechanisms of interaction including social, political and economic factors.

348 ANTHROPOLOGICAL LINGUISTICS (3)
Prereq: Anth 201. Language and other forms of communication. Traditions of spoken and written languages. Introduction to phonology, morphology and syntax. The role of language in anthropological fieldwork.

351 FAMILY AND KINSHIP ORGANIZATION (5)
Prereq: Anth 201. Cross-cultural study of family types and the definition of social roles through kinship organization.

353 SEX ROLES IN CULTURE (4)
Prereq: Anth 201. Cross-cultural study of sex role differentiation, including background and current problems in our own culture.

381 INDIANS OF NORTH AMERICA (5)
Prereq: Anth 201. Ethnographic survey of the peoples and cultures.

362 PEOPLES OF ASIA (5)
Prereq: Anth 201. Ethnographic survey of the peoples and cultures.

363 PEOPLES OF SUB-SAHARAN AFRICA (5)
Prereq: Anth 201. Ethnographic survey of the peoples and cultures.

364 PEOPLES OF THE PACIFIC (5)
Prereq: Anth 201. Ethnographic survey of the peoples and cultures.

371 FIELDWORK METHODS IN CULTURAL ANTHROPOLOGY (5)
Prereq: 15 credits in anthropology, The anthropologist as fieldworker. An overview of the techniques and methods of ethnographic fieldwork. Students will gain fieldwork experience through small ethnographic projects.

398a,b,c HONORS TUTORIAL (S-S ea.)
Anthropology

408 ARCHAEOLOGICAL FIELD METHODS (3)
Prereq: Anth 201, 202 or 210, and permission of instructor. Site surveys and evaluation; mapping methods and recording of data; field experience in excavation techniques, preservation of artifacts. Offered every other year.

410 ARCHAEOLOGICAL ANALYSIS AND INTERPRETATION (3)
Prereq: Anth 201, 202 or 210. Archaeological laboratory methods; artifact identification, classification, measurement; map reproduction, soil and feature profiles, use of photographs and other graphic methods. Offered every other year.

411 ARCHAEOLOGY OF NORTHWESTERN NORTH AMERICA (3)
Prereq: 10 credits in anthropology including 210 or equivalent. The prehistoric archaeology of the Northwest Coast and Plateau; current explorations and interpretations in a context of paleoenvironmental and ethnohistorical evidence.

412 ARCHAEOLOGY OF THE NEW WORLD (3)
Prereq: 10 credits in anthropology including 210 or equivalent. Origins of the prehistoric New World cultures, the evidence for early settlement, and the regional development of cultures up to the historic Native Americans, particularly with regard to the Mesoamerican and Peruvian Nuclear areas.

420 FORENSIC ANTHROPOLOGY (3)
Prereq: 10 credits in anthropology or one year's experience in law enforcement and permission of instructor. The objective of this course is to learn how a physical anthropologist recovers a body, reconstructs the biological history of a skeleton (age, sex, race, disease, etc.) and aids the crime investigator.

423 HUMAN EVOLUTION (5)
Prereq: Anth 202 or 215. Detailed exploration of the fossil record leading to modern humans.

424 MEDICAL ANTHROPOLOGY (3)
Prereq: Anth 201. Comparative studies of healing practices in non-Western societies, with emphasis upon medical systems within cultural frameworks.

426 AGING: A CROSS-CULTURAL STUDY (3)
Prereq: Anth 201. A study of the aging process as a cross-cultural comparison from the great apes through hunting and gathering societies to agricultural villages to the modern world. Emphasis is upon role changes and forecast of future change.

431 SOCIAL CHANGE IN AMERICA (3)
Prereq: 10 credits in anthropology. Social change in the United States since 1900; contemporary theories of social change; problems in predicting change.

448 INTERMEDIATE ANTHROPOLOGICAL LINGUISTICS (3)
Prereq: Anth 348. Detailed examination of further topics in anthropological linguistics, including language universals, language acquisition, world language and script patterns, and ethnosystematics.

453 WOMEN OF THE WORLD: ANTHROPOLOGICAL PERSPECTIVES ON WOMEN (3)
Prereq: Anth 201 and written permission of instructor. An ethnographic survey of women's economic, social, religious, political and domestic roles; examination of the issues and theories concerning the positions of women cross-culturally.

Through the branches in Red Square.
Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate School section of this catalog.

503 HISTORY OF ANTHROPOLOGY (5)
Prereq: graduate status and permission of department. Development of principal theoretical orientations and methods in the cultural and historical sense; development of anthropology as a discipline.

504 METHODS AND THEORY OF ANTHROPOLOGY (5)
Prereq: graduate status and permission of department. Analysis of major theoretical approaches, research methods and procedures; relationship of theory and method in formulating research problems.

510 HUMAN OSTEOLOGY (3)
Prereq: graduate status or permission of instructor. Students will learn to identify human skeletal material, particularly in the fragmented condition. Introduction to osteometry and paleopathology.

511 HUMAN VARIATION (3)
Prereq: graduate status or permission of instructor. The biological adaptations of contemporary peoples to disease, altitude, cold, heat and nutritional stress are examined. The biological basis for populational differences in behavior is also explored.

522 SEMINAR: OLD WORLD PREHISTORY (3)
Prereq: Anth 503, 504 and permission of instructor. Seminar in selected topics of Old World prehistory, to cover topics from the Paleolithic to early historic civilizations. Assessments of methods, techniques and underlying theory behind the major Old World Archaeological Zones. Assumptions basic to the interpretations: economic-deterministic, cultural evolutionary and cultural ecological. Students to select their problem areas, study them and discuss in seminar sessions.

523 SEMINAR: NEW WORLD PREHISTORY (3)
Prereq: Anth 503, 504 and permission of instructor. This seminar to be structured similarly to 522. New World prehistory. Its problems and theoretical foundations. Problems of origins, distributions in the time-space of populations, the effects of changing environments, origins of agriculture, metallurgy. Problems of Old World diffusion, evidence for and against. Cultural-environmental relationships.

530 SEMINAR: VALUES (3)
Prereq: graduate status or permission of instructor. How scholars characterize cultures as wholes by reference to value configurations, themes, world views or philosophies: difficulties in characterization of value systems in self-conscious societies.

532 COMPARATIVE SOCIAL ORGANIZATION (3)
Prereq: minimum of 15 credits of anthropology under graduate courses and permission of instructor. The study of the various ways in which people group themselves; the structure of roles, the recruitment and assignment of roles and status within groups, leadership and the legitimation of authority, and the relationships among groups. The sanctions governing relationships: gossip, ridicule, isolation and formal "legalistic." 

540 ANTHROPOLOGICAL LINGUISTICS (3)
Prereq: permission of instructor. Language and ethnography; the differential relationships existing between the lexicon and the grammar of languages and their speakers' respective cultures, societies and world view.

584-589 SPECIAL PROBLEMS/INDEPENDENT STUDY IN ANTHROPOLOGY (1-3 ea.)
Prereq: admission to graduate status. Topics chosen under advisement of faculty.

584 Cultural Anthropology
585 Physical Anthropology
586 Linguistics
589 Archaeology

590 RESEARCH (3)
Prereq: formal advancement to candidacy for the M.A. in anthropology. S/U grading.

591 THESIS (3)
Prereq: formal advancement to candidacy for the M.A. in anthropology. S/U grading.
Art
College of Fine and Performing Arts

One of the earliest human activities was the production of works of art. Through the centuries one measure of human civility has been involvement in the arts. Presently, concern for the arts is very high. The Art Department at Western is meeting that concern with a highly qualified faculty teaching in the major areas of art. The faculty not only teaches but is intimately involved in art production and scholarship.

The Art Department offers a number of degree programs in studio art, art history and art education. Through a contract system students may, in conjunction with faculty of the Art Department, develop majors to meet their particular backgrounds, needs and interests. Most of the traditional areas of art are offered at Western. Through arrangement with instructors, innovative programs may be planned. Programs may also be developed involving art and other disciplines. While there are certain required courses in each of the majors, the Art Department has attempted to give the greatest possible degree of flexibility in its programs congruent with student involvement and concerted faculty advisement. Students should, early in their program at Western, seek advisement from faculty members in the department.

Enrollment Limitation Statement: Depending on the areas of specialization, enrollment may be limited through the presentation of a portfolio for examination, or grade point average where appropriate. For further information, see the department chairman.

Transfer students are required to complete in residence a minimum of 15 credits in art for the teacher education major, 11 credits in art for the
Arts and Sciences major, or 5 credits in art for a minor.

It is possible to take an Interdisciplinary Arts major with a concentration in art. See Interdisciplinary Arts in the Interdisciplinary Programs section of this catalog for full details of the major.

ART FACULTY

LAWRENCE HANSON (1963) Professor, BA, MFA, University of Minnesota.
ROBERT A. JENSEN (1955) Associate Professor, BFA, University of Washington; MFA, Washington State University.
THOMAS A. JOHNSTON (1967) Associate Professor, AA, San Diego City College; BA, San Diego State College; MFA, University of California, Santa Barbara.
DAVID F. MARSH (1957) Professor, BA, Central Washington State College; MS, University of Oregon.
PATRICK F. MCCORMICK (1989) Associate Professor, BFA, BA, University of Washington; MFA, Cranbrook Academy of Art.
MARY A. McINTYRE (1988) Associate Professor, AB, MFA, Indiana University.
THOMAS SCHLOTTERBACK (1966) Professor, BFA, MFA, University of Kansas; PhD, The State University of Iowa.
DAVID E. TEMPLETON (1969) Professor, BFA, MA, University of Illinois; PhD, University of Minnesota.
EDWARD B. THOMAS (1957) Associate Professor, BA, MFA, University of Washington.
ROBERT A. URSO (1999) Professor, AB, MA, University of Notre Dame, Ind.
GENE E. VIKE (1952) Associate Professor, BA in Ed, BA, Western Washington State College; MS, Pratt Institute.
HOMER A. WEINER (1964) Professor, BFA, Bradley University; MFA, University of Iowa.

BACHELOR OF ARTS

Studio Major 73-85 credits

- Art 101 or equivalent
- Art 301, 401
- Art History 220, 230, 240

The student will elect from courses at the 200 level a basis for all subsequent work. The student will be guided by noting the prerequisites for courses at the 300 level, and by faculty advisement.

Satisfactory completion of the studio major will be determined by contractual agreement between the student and a faculty committee. Individual advisement concerning this contract may begin whenever the student requests it. The contract must be written before the student has completed 24 credits in art. Concentrations may be developed in printmaking, painting, sculpture, ceramics, jewelry, textiles, graphic design, or in a combination of these areas as determined by the student’s contractual agreement. Courses outside the Art Department where appropriate may be applied. Revisions and amendments will be considered and may be made by the student and the faculty committee upon request.

Transfer students with more than 18 credits of previous work should seek advisement during their first quarter at WWU.

Studio Minor 25 credits

- Art 101 or equivalent
- Art History 240
- Electives under advisement

Art History Major 60 credits plus Supporting Courses

- Art History 220, 230, 240, 340, 440, 490
- Three areas from:
  - (a) Art History 310, 410
  - (b) Art History 320, 420
  - (c) Art History 330, 331
  - (d) Art History 360, 460
  - (e) Art History 370, 470
- 12 elective credits in art history
- 12 credits in studio courses
- Supporting courses: 10 credits in appropriate courses outside the area of art history selected under departmental advisement
- Reading knowledge of French or German

Art History Minor 24 credits

- Art History 220, 230, 240
- Two courses selected under advisement from each of two areas: Primitive, Ancient, Renaissance, Modern, or American; one course from any single area may be a directed studies in that area

BACHELOR OF ARTS IN EDUCATION

Major Elementary or Secondary 45 credits

- Required of all majors:
  - (a) Art 101 or equivalent, Art 270
  - (b) Art History—two courses from 220, 230, 240
  - (c) Art 280, 381, 382
- One course from each of the following: drawing, painting, sculpture, printmaking, ceramics, jewelry, textiles
- At least 8 credits in one upper division studio area
- Courses outside the department may be required as part of the major

Satisfactory completion of the major will be determined by contractual agreement between the student and a faculty committee. Upon completion of not less than 12 credits of art and not more than 18 credits, a student must write a contract with the faculty committee for comple-
tion of the major. Transfer students with more than 18 credits should do this prior to completion of their second quarter at the University. Revisions and amendments may be made by the student and the faculty committee upon request.

**Minor** 25 credits

- Art 101 or equivalent
- Art 280, 381
- Art History 240
- Electives under advisement

**Major — Art Specialist** 45 credits

- Complete the 45 credit art education major described above
- Complete the elementary education minor described in the Education Department section of this catalog
- Complete the professional studies program as outlined in the Education Department section of this catalog, including two quarters of student teaching — Elementary General Classroom and Secondary Art

Completion of this major/minor concentration leads to a teaching endorsement in K-12 art.

---

**BACHELOR OF FINE ARTS**

**Studio Major** 154 credits

The Bachelor of Fine Arts degree is the professional undergraduate art degree. It is an expanded undergraduate degree that requires each student to undertake a program of more than 180 undergraduate quarter credit hours. Students are advised that a Bachelor of Arts studio major of normal length is available. The Bachelor of Fine Arts degree requires each student to complete the following basic program:

- An 85-hour concentration in one specific studio area. The areas are: drawing, painting, printmaking, sculpture, graphic design, ceramics, fabric design and jewelry. Certain areas may be combined to create an area of concentration on consultation with faculty.
- A 30-hour secondary concentration in a studio area other than that covered in 85-hour concentration. Certain areas may be combined to create an area of concentration on consultation with faculty.
- A 24-hour art history minor.
- A minimum of 15 free elective hours outside of the Art Department in addition to general university requirements.
- Passage to BFA candidacy after completion of 59 hours of art credit.
- Passage to BFA status upon completion of contract before granting of the degree.

Each student BFA program is arranged through the Art Department's contract system. That contract must be established between the student and the major area and minor area advisers at the completion of 24 credits in art. After the completion of 50 credit hours, each student must have made arrangements through the major professor to submit work to the area faculty in consideration for admission to BFA candidacy. Each student's work is considered by each committee separately and judged in relationship to established traditional esthetic criteria in a manner designated by the department as a concours system. At the completion of all hour requirements each student must submit work in concours for BFA degree consideration. This last concours will be a public presentation in an appropriate milieu. Transfer students with more than 18 credits of previous art work should seek advisement before entering the BFA program. All incoming students contemplating the BFA degree are urged to seek departmental advisement during the first quarter at Western.

**DEPARTMENTAL HONORS**

In addition to the general requirements for all honors students, an art major who wishes to graduate "with honors" must complete Art 401, Music 342.

**MUSEUM TRAINING**

The Art Department and the Whatcom Museum of History and Art provide a museum training program for qualified students from Western Washington University. Students wishing such training will enroll in Art History 301 — Museology I, or Art History 401 — Advanced Museology. The students will receive their training with the staff of the Whatcom Museum of History and Art.

**GRADUATE STUDY**

For a concentration leading to the Master of Education degree, see the Graduate Section of the Catalog.

**COURSES IN ART**

(See also Art History section, which follows.)

Courses numbered 317, 397, 320, 406, 417, 445 are described on page 28 of this catalog.

**NOTE:** The Art Department may request samples of work produced in a studio course for exhibition purposes.

101 DRAWING (3)

Not open to students with two years of high school art. Fundamental principles and techniques.
201 DRAWING CONCEPTS & SYSTEMS (3)
Prereq: Art 101 or equivalent. A studio course committed to the study of various conventional drawing concepts and systems appropriate to various studio concentrations.

202 LIFE DRAWING I (3)
Prereq: Art 101 or equivalent.

203 REPRESENTATIONAL DRAWING (3)
Prereq: Art 101 or equivalent. Basic drawing techniques. Light and shadow, rendering shapes and form, and developing the ability to translate three-dimensional objects onto a two-dimensional surface. Required for illustration and graphic design majors.

210 PRINTMAKING I (3)
Prereq: Art 101 & 201. A lecture/lab course covering history, methods and practice of printmaking concepts. Introduction to the monotype, intaglio (etching) and planographic (lithography) printmaking processes.

220 PAINTING (3)
Prereq: Art 101 or equivalent. Introduction to contemporary painting.

230 SCULPTURE I (3)
Prereq: Art 101 or equivalent. Introduction to sculpture.

240 CERAMICS (3)

270 DESIGN AND COLOR (3)
Studies of form and structure in a variety of media; emphasis on two-dimensional design concepts, pattern and color.

271 THREE-DIMENSIONAL DESIGN (3)
Exploration of construction in space employing a variety of media.

275 BLACK AND WHITE DESIGN (3)
Prereq: Art 203 or permission of instructor. Principles of two-dimensional design: shape, form, texture, placement, rhythm, composition, as it applies to black and white drawing and design. Required for illustration and graphic design majors.

280 INTRODUCTION TO ART EDUCATION (2)
Prereq: 8 credits in art. Examination of the profession of art education, teaching skills, teaching as influencing student behavior in art, curriculum content and materials.

301 CONTEMPORARY PRACTICE (3)
Prereq: Art History 240 and 9 credits in studio. A survey of recent ideas in the visual arts. This course will incorporate a history of art since 1945 but will not be limited to historical analysis. Study of major artists and critics of this period.

302 LIFE DRAWING II (3)
Prereq: Art 202 or equivalent; repeatable to 15 credits. Drawing as a major medium.

310a,b INVENTIVE DRAWING (3.5)
Prereq: Art 201 or 222. A studio course committed to the pursuit of drawing as a major creative mode of expression. Repeatable to 15 credits. Offered alternate years.

311 PRINTMAKING — LITHOGRAPHY (3)
Prereq: Art 201, 210. Planographic processes; emphasis on lithography.

312 PRINTMAKING — INTAGLIO (3)

313a,b PRINTMAKING WORKSHOP I (3.5)
Prereq: Art 210, 311 and 312; repeatable to 15 credits.

320 THE ENHANCEMENT OF COLOR (3)
Prereq: Art 270. Exploration and identification of the issues which make for the enhancement of color in composition.

321a,b PAINTING WORKSHOP I (3.5)
Prereq: Art 220. Repeatable to 15 credits. Individual search for form and expression within a workshop environment.

322a,b CONCEPT DEVELOPMENT IN PAINTING (3.5)
Prereq: Art 321 and 301 or A.H. 240. Permission of instructor. A studio course and seminar committed to the development and articulation of delineation concepts and meaning in painting. Repeatable to 15 credits.

325a,b WATER COLOR PAINTING (3.5)
Prereq: Art 220, 301, or Art History 240 or concurrent enrollment; repeatable to 15 credits. Various water soluble media.

328a,b LIFEPainting (3,5)
Prereq: Art 202, 301, or Art History 240 or concurrent enrollment; repeatable to 15 credits. The continued development of a personal direction in painting, making use of the nude or draped model.

331a,b SCULPTURE WORKSHOP (3.5)
Prereq: Art 230, repeatable to 15 credits. Problems in three-dimensional form and expression employing a variety of media and materials.

341 CERAMICS (3 or 5)
Prereq: Art 101 or equivalent; Art 230, 240 and 271 or concurrent enrollment; repeatable to 15 credits. Introduction to the potter's wheel as a tool. Handbuilding. Glaze formulation and kiln firing.

342a,b CERAMIC WORKSHOP I (3.5)
Prereq: Art 341; repeatable to 15 credits. Clay as a medium. Pottery and/or ceramic sculpture.

350 JEWELRY I (3)
Prereq: Art 101 or equivalent, Art 271 or Tech 210 or 214. Design and construction of jewelry in various metals, with emphasis on silver, the setting of stones. Repeatable to 15 credits.

351a,b JEWELRY II (3.5)
Prereq: Art 350, Art History 240, repeatable to 15 credits. Problems in simple centrifugal casting.

360 FABRIC DESIGN I (3)
Prereq: Art 101 or equivalent, Art 270, one art history course. Design problems using linoleum block print, tie-dye and stitchery.

361a,b FABRIC DESIGN II (3.5)
Prereq: Art 360, repeatable to 15 credits. Silk-screen processes, batik, natural dyeing.

367a,b WOVEN AND CONSTRUCTED FABRICS (3.5)
370 LETTERING (3)
Prereq: Art 101 or equivalent. Anatomy of letter forms, alphabets and calligraphy; problems in pen and brush lettering.

371 GRAPHIC DESIGN I (2)
Prereq: Art 101 or equivalent. 370. Introduction to visual communication as related to graphic processes.

372 ADVERTISING DESIGN (5)
Prereq: Art 275, 370, 371 or permission of instructor; repeatable to 10 credits. The theory and design of advertising both for print and TV. Developing the concept, preparing the roughs and preparation of comprehensive.

376 CARTOONING (3)
Prereq: Art 101 or equivalent. Basic course in character development, movement and composition. Repeatable to 12 credits.

377 CALLIGRAPHY (2)
Prereq: Art 101 or equivalent or permission of instructor. A studio course committed to the pursuit and development of calligraphy as a creative and practical mode of expression. Repeatable for different alphabets to a maximum of 12 credits.

378 BLACK AND WHITE ILLUSTRATION (3)
Prereq: Art 202, 275 or permission of instructor; repeatable to 6 credits. Concepts and techniques of black and white illustration.

379 COLOR ILLUSTRATION (3)
Prereq: Art 378; repeatable to 6 credits. Concepts and techniques of color illustrations, from two-color through full-color.

380 ART IN ELEMENTARY EDUCATION (4)
Prereq: Art History 190, for non-majors. Child development in art for the elementary school; problems in design, drawing, painting and printmaking as they relate to the school.

381 THEORIES OF ART EDUCATION (3)
Prereq: Art 260. The philosophy, psychology, and procedures for art in the elementary and secondary schools.

382 ART EDUCATION STUDIO (3)
Prereq: Art 381 or concurrent registration. Problems in art and their adaptation to the elementary and secondary school.

401 SEMINAR IN ART (2)
Prereq: senior status or 9 credits in art history; 18 credits in studio courses, repeatable to a total of 8 credits. Development of criteria for mature artistic judgment. Offered alternate years.

402a Life Drawing (3.5)
Prereq: Art 101 or equivalent; 9 credits of Art 302; repeatable to 15 credits. Continuation of individually established concerns in the area of drawing.

404 BFA DRAWING WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program, to pursue their individual directions in drawing.

410 DRAWING WORKSHOP (5)
Prereq: Art 101 or equivalent, Art 202 and 302 or an aggregate of nine hours minimum. Art History 240 and consent of instructor. Classes for pursuit of individual creativity in the drawing medium under supervision.

41la,b ADVANCED PRINTMAKING WORKSHOP (3.5)
Prereq: Art 301 and 313; repeatable to 15 credits. Continuation of problems related to a refined use of the traditional printmaking processes as well as more recent technological innovations as they may be applied to traditional art.

414 BFA PRINTMAKING WORKSHOP (2-6)
Prereq: admittance to BFA program; repeatable to 20 credits. For students in the BFA program to pursue their individual directions in printmaking.

421a,b PAINTING WORKSHOP II (3.5)
Prereq: Art 101 or equivalent; Art 321, Art 301, and Art History 240; repeatable to 15 credits. Continuation of individually motivated search and research into form and expression with an emphasis on current issues within the field of painting as related to the making of art.

422 ADVANCED WORKSHOP AND SEMINAR (2-5)
Prereq: 30 credits in painting or 30 credits in drawing or combination, totaling 40 credits; Art 301 and nine credits in art history including Art History 240. Repeatable to 15 credits.

425a,b ADVANCED WATER COLOR PAINTING (3.5)
Prereq: Art 325; repeatable to total of 15 credits. Painting workshop using aqueous media.

429 ADVANCED WATERCOLOR TECHNIQUES (2)

431a,b SCULPTURE WORKSHOP (3.5)
Prereq: Art 331; repeatable to 15 credits. Advanced problems in three-dimensional form and expression employing a variety of media and materials.

432a,b DIRECT METAL SCULPTURE (3.5)
Prereq: Art 351; repeatable to total of 15 credits. Direct metal sculpture; emphasis on the welding process.

433a,b BRONZE CASTING (3.5)
Prereq: Art 230; repeatable to total of 15 credits. Bronze casting by the lost wax process, modeling in clay, wax, and plaster; mold-making; and other techniques for making cast metal sculpture.

434 BFA SCULPTURE WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program to pursue their individual directions in sculpture.

441a,b CERAMIC WORKSHOP II (3.5)
Prereq: Art 341; repeatable to 15 credits. Advanced ceramics. Self-directed problems; weekly seminars.

444 BFA CERAMICS WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program to pursue their individual directions in ceramics.

450a,b JEWELRY III (3.5)
Prereq: Art 360; repeatable to 15 credits. Advanced problems in fabrication.

451a,b JEWELRY IV (3.5)
Prereq: Art 351; repeatable to 15 credits. Advanced problems in casting.

452a,b ADVANCED JEWELRY WORKSHOP (3.5)
Prereq: Art 451; repeatable to 15 credits. Advanced problems in jewelry as an art form.
454 BFA JEWELRY DESIGN WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program to pursue their individual directions in jewelry design.

461 a, b FABRIC DESIGN III (3.5)
Prereq: Art 361; repeatable to 15 credits. Advanced study in printed and dyed textile techniques.

464 BFA FABRIC DESIGN WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program to pursue their individual directions in fabric design.

467 a, b WOVEN AND CONSTRUCTED FABRICS III (3.5)
Prereq: Art 367; repeatable to 15 credits. Advanced work- shop in tapestry, rugmaking and other media.

471 a, b GRAPHIC DESIGN II (3.5)
Prereq: An 371; repeatable to 15 credits. Advanced graphic design.

472 TYPOGRAPHY (5)
Prereq: Art 275, 370, 371, or permission of instructor; repeatable to 10 credits. Emphasis on letter forms as design and illustrative elements. Advanced work in logotype and trademark design.

474 BFA GRAPHICS WORKSHOP (2-5)
Prereq: admittance to BFA program. Repeatable to 20 credits. For students in the BFA program to pursue their individual directions in graphics.

475 ADVANCED ILLUSTRATION (5)
Prereq: Art 378, 379; repeatable to 10 credits. Advanced problems, concepts and techniques of black and white and color illustrations. Development of personal style and professional portfolio.

481 ADVANCED ART EDUCATION (5)
Prereq: previous work in art education; teaching experience. Lectures and studio work in art education as related to materials and evaluation of process, product and individual growth.

482 ART EDUCATION WORKSHOP (2-5)
Prereq: teaching experience. Explorations in art media and their adaptation to use in the school; may be repeated with different topics.

Graduate Courses

Courses numbered 500, 517, 545, 567 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of the catalog.

511 GRADUATE DRAWING AND PRINTMAKING (2-4)
Prereq: graduate status or completion of an art major or equivalent. Individual problems.

521 GRADUATE PAINTING (2-4)
Prereq: graduate status or completion of an art major or equivalent. Individual problems in painting.

Getting it together in the Viking Union Art Gallery.
531 GRADUATE SCULPTURE (2-4)
Prereq: graduate status or completion of an art major or equivalent. Individual problems in sculpture.

541 GRADUATE CERAMICS (2-4)
Individual problems in ceramics.

551 GRADUATE JEWELRY (2-4)
Individual problems in jewelry.

561 GRADUATE FABRIC DESIGN (2-4)
Individual problems in fabric design.

560 SPECIAL PROBLEMS IN ART EDUCATION (2-4)
Prereq: teaching experience and 27 credits in art. Special problems in art education as announced.

562 CURRICULUM PLANNING (4)
Prereq: teaching experience and 27 credits in art. Planning, development, implementation and evaluation of art as related to the total curriculum.

COURSES IN ART HISTORY

160 ART APPRECIATION (3)
Introduction to form and expression in the visual arts for the non-major.

210 SURVEY OF ART HISTORY I (5)
Ancient and medieval art.

210 SURVEY OF ART HISTORY II (5)
Renaissance art, 13th-16th centuries.

210 SURVEY OF ART HISTORY III (5)
Modern art in 19th, 20th centuries.

361 MUSEOLOGY I (2-5)
Prereq: background in art history, art, history, or anthropology; permission of instructor. May be repeated to 15 hours credit. Training in the methods and processes of museum work. Students work with and under the guidance of the staff of the Whatcom Museum of History and Art. Part of the training is an apprenticeship program of work directly in the museum.

360 PREHISTORIC AND PRIMITIVE ART I (3)
Prereq: Art History 220 or 230 or 240; Anth 215 or 361 prerequisite or concurrent. Art of the Paleolithic and Neolithic cultures and Western hemisphere primitive cultures.

320 ANCIENT ART I (3)
Prereq: Art History 220 and 230. Art of Ancient Egypt, Mesopotamia, Crete, Mycenaes and peripheral areas.

330 MEDIEVAL ART (3)
Prereq: Art History 420 or 220 or 230 and permission of instructor. Western art from the fall of the Roman Empire to the beginning of the Renaissance.

340 MODERN ART HISTORY I (3)
Prereq: Art History 240. The art of the 19th century Western world.

350 AMERICAN ART TO 1915 (3)
Prereq: Art History 220, or 230, or 240, or 340. Art in the United States from the Colonial period to the Spanish American War.

370 ORIENTAL ART I (3)
The art of India and Southeast Asia from the Indus Valley civilization (c. 2500 B.C.) to the end of the 18th century.

401 ADVANCED MUSEOLOGY (2-5)
Prereq: Art History 310 and permission of instructor. May be repeated to 15 credit hours. The course concentrates on preparing the student for a career in museum curatorship.

410 PREHISTORIC AND PRIMITIVE ART II (3)
Prereq: Art History 220 or 230 or 240; permission of instructor. Art of the Ancient Greek and Roman civilizations.

430 RENAISSANCE ART I (3)

431 RENAISSANCE ART II (3)
Prereq: Art History 430 or 220 or 230 and permission of instructor. Art of the Renaissance in Western Europe.

432 BAROQUE ART (3)
Prereq: Art History 230 or 430 or 431 and permission of instructor. Art of the West during the 16th, 17th and 18th centuries.

440 MODERN ART II (3)
Prereq: Art History 240 and 340. Art of the 20th century Western world.

460 AMERICAN ART, 1900 TO THE PRESENT (3)
Prereq: Art History 220, 230, 240.

470 ORIENTAL ART II (3)
The art of China and Korea from the Shang Dynasty (1525 B.C.) to the end of the 18th century.

471 ORIENTAL ART III (3)
The art of Japan from the prehistoric Archeological Age to the end of the 18th century.

490 SEMINAR IN ART HISTORY (3)
Prereq: 12 credits in art history including Art History 303, or senior standing, or permission of instructor. Each seminar deals with a separate and special art historical problem or project. Each student prepares research, oral and written presentation of materials pertinent to the course.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of the catalog.

590 DIRECTED STUDIES IN ART HISTORY (1-4)
Prereq: major or minor status, senior or graduate level; 12 credits in art history with at least one field concentration. Independent art historical research:
- Prehistoric and Primitive Art History
- American Art History
- Modern Art History
- Art Theory, Aesthetics and Art Criticism
Cumulative credit in any one area may not exceed 12 credits.
Examining specimens in Sundquist Laboratory at Shannon Point Marine Center.

**Biology**

*College of Arts and Sciences*

Biology — the study of life — includes a broad spectrum of exciting subjects. Microbiology, ecology, environmental science, systematic biology, genetics, marine biology, biometry, molecular biology, botany, entomology, zoology, science education, animal and plant physiology and anatomy are some of the specialities to be found in Western’s department. Many of our students prepare for professional careers in biology, the health sciences or for teaching in the public schools and community colleges. And a growing number of students selects a degree program in biology just because they find it a fascinating area of study even though they may not plan to pursue a career in biology. Biology is a valuable second major which enhances employment opportunities. The department offers courses, majors and minors encompassing these and other possibilities.

**MAJOR CONCENTRATIONS IN BIOLOGY**

Professional career opportunities in biology are very diverse, and many of them require education beyond the baccalaureate degree. Medicine, oceanography, environmental law, fisheries, veterinary medicine, sanitary engineering, and specialties in medical and dental technology involve additional studies after graduation from Western. Students interested in one of these professional careers normally complete one of the major concentrations (basic biology, ecology,
marine biology) leading to the Bachelor of Science degree.

In addition to a strong core of basic biology, the B.S. degree includes supporting courses in the physical sciences and mathematics and is therefore recommended for those who wish to continue post-baccalaureate studies in the biological sciences or to teach in secondary schools and community colleges.

For those who wish to become certified to teach biology, a Bachelor of Arts in Education may be the appropriate degree. Science students who wish to apply for admission to medical or dental schools should consider the Biology B.S. major and the Bachelor of Science combined Biology/Chemistry major.

The Biology/Mathematics combined major is offered for those students interested in quantitative biology, statistics, biometry, ecology and computer modeling of biological systems. The B.S. degree in Biology/Chemistry is designed for students who wish to pursue graduate study in molecular biology, biochemistry, or medicine. Finally, a combined major (B.A.) is available in Biology/Anthropology for students whose interest spans these two disciplines.

Students who are interested in biology or one of its component specialties, but not directly interested in teaching or other specific professional careers may wish to combine biology with an area such as history or political science. Combinations of this sort are particularly valuable to those interested in environmental science. Happily, there are many students who simply want to make the science of life the focus of a liberal education. These students are encouraged to consider the Bachelor of Arts degree in which the number of required courses has been kept low to permit the student to select areas of study and courses suited to his individual needs and interests. Programs one might design under this major include combinations of biology with another discipline such as art, economics, philosophy, physical education, psychology, political science or speech.

The Biology Department maintains a program of advisement; students interested in any of the major programs in biology must consult the undergraduate advisement coordinator, Dr. Jerry Flora, as early in their university careers as possible. Early advisement will ensure appropriateness and proper sequence of courses. All biology majors must declare the major, and have it signed in the bluebook by the appropriate area adviser, not later than 12 months before the bluebook is approved for senior evaluation.

BIOLOGY FACILITIES

The Biology Department is housed in Haggard Hall and shares space in the Environmental Studies Center. Our teaching and research laboratories are adequate and well-equipped. The department frequently uses the facilities of the Sundquist Marine Laboratory near Anacortes. This laboratory is an important focus of our strong program in marine biology. The Science Education Center, electron microscope laboratories, and the Computer Center also serve in support of special program areas. Learning by doing is a primary teaching mode in Western's Biology Department. Very often we find ourselves involved in open-ended laboratory or field projects. Our new cell-tissue culture lab has attracted a number of students interested in modern techniques so important in research and industry. The beautiful nearby Cascades, and rich diversity of the marine habitats at our doorstep invite frequent class and individual projects focusing on the organismal and ecological aspects of biology, and the essential intricacy of our environment.

BIOLOGY FACULTY

Associate Professor, BA, San Jose State College; MS, Washington State University; PhD, Oregon State University.

TEACHING CAREERS IN BIOLOGY

Many of Western's students are interested in careers in teaching. To be effective in teaching biology, one must also have a solid foundation in the other sciences. Thus, those interested in teaching in the secondary schools are urged to complete a B.S. (biology emphasis) including Science Education 399 and 492 as well as the professional education sequence (see Education). The professional education courses may be included as electives in the baccalaureate program or may be taken during a post-baccalaureate year, part of which may be applied to the fifth-year requirement for standard certification. Students entering this program are urged to seek departmental advisement as soon as possible.

Those who expect to teach in smaller secondary programs are advised to consider the B.A. in Education (Biology) or one of the combined major B.A. in Education programs (Biology/Physical Science or Biology/Chemistry).

Students planning to teach at the college level are advised to complete a B.S. (Biology) and graduate work leading to a master's or doctoral degree.

Students who wish to teach at the elementary or intermediate levels are advised to take the general science major (see Interdisciplinary Programs section). Note that Science Education 383 is Biological Science for the Elementary School.
Biology

Professor. BS, Idaho State College; MS, University of
Wyoming; PhD, Washington State University.

A. CARTER BROOKS (1954) Professor. BA, MA, University of
North Carolina; PhD, Duke University.

HERBERT A. BROWN (1967) Associate Professor. BA, Universi-
ty of California, Los Angeles; PhD, University of Califor-
nia, Riverside.

MAURICE A. CULBE (1963) Associate Professor. BS, Washing-
ton State University; MS, PhD, Oregon State University.

JOHN E. ERICKSON (1964) Associate Professor. BA, Universi-
ty of Cmaha, MA, Indiana University; PhD, University of
Oregon.

CHARLES J. FLOREY (1957) Professor. BS, Purdue University;
MED, EDC, University of Florida.

RICHARD W. FONDA (1966) Professor. BA, Duke University;
MS, PhD, University of Illinois.

HUBERTUS E. KOWN (1966) Associate Professor. PhD, Uni-
versity of Innsbruck, Austria.

JAL S. PAKHRAH (1966) Professor. BS, Bangladesh University;
MS, University of Florida; PhD, Cornell University.

MERIBETH M. RIPPEY (1957) Associate Professor. BS, MS,
Northwestern University; PhD, Washington State
University.

JUNE R. R. RUS (1967) Professor. BSc, PhD, DSc, University
of Sydney, Sydney, Australia.

DAVID E. SCHNEIDER (1965) Associate Professor. BS, Bates
College; PhD, Duke University.

DONALD J. SCHWERMANN (1962) Associate Professor. BS, MS,
PhD, University of Michigan.

Clyde M. SENGUR (1963) Professor. BA, Reed College; MS,
Purdue University; PhD, Utah State University.

IRWIN L. SLENSICK (1963) Professor. AB, BS, Bowling Green
State University; MS, University of Michigan; PhD, Ohio
State University.

DON C. WILLIAMS (1968) Professor. BA, Chico State College;
MA, PhD, University of California, Davis.

Research Associates

Kenneth H. Dunton
BA, University of Maine, Orono; MS, Western Western
University

Carl F. Nyblade
AB, Oberlin College; PhD, University of Washington
Frederick M. Rohades
BA, Swarthmore; MS, Oregon State University; PhD, Univer-
sity of Oregon

Bruce D. Ryan
BA, Washington State University; MS, Western Western
University

Terence R. Wahl
BA, University of Washington.

BACHELOR OF ARTS

Major 50 credits plus Supporting Courses

Basic biology emphasis

- Biol 121, 122, 123, 323 or 325
- Electives to total 50 credits in biology selected with approval of major adviser
- Chem 115 and 251, or equivalent

(C. J. Flora, adviser)

Combined Major — Biology/Anthropology: Major Concentration

71 credits including 10 in supporting courses

- Biol 121, 122, 312, 348, 349, 370, 490

BACHELOR OF ARTS IN EDUCATION

Major Concentration 88-90 credits

Biology emphasis

- Biol 121, 122, 123, 310, 311, 312, 325, 490
- One course from Biol 323, 379, or Chem 371
- One course from Biol 384, 485
- One course from Biol 345, 424, 450, 452, 454, 456, 458, 460, 461, 463, 465

Supporting Courses

- Chem 115 (or 121, 122, 123) and 251 (or 351, 352, 353)
- Math 105 and 124 (or 156)
- Physics 101 (or 131, 132, 133)
- Geol 211 and 212
- Sci Ed 399 and 492

(I. Slesnick, adviser)

Combined Major — Biology/Chemistry:
Major Concentration 103-105 credits

- Chem 121, 122, 123, 251, 333, 461, 482
- Biol 121, 122, 123, 325
- One course from Biol 471, 480, 490
- 10 credits from Biol 310 or 345, 311, 312
- Biol 485 or General Science 405
- Sci Ed 399 and 492
- Chem 371 or Biol 323
- Math 124, 125 and Physics 131, 132, 133 (or 241, 242, 341, 351)

(I. Slesnick, adviser)

NOTE: This program is specifically designed for students who wish to be recommended for teaching competence in both biology and chemistry. Students entering this curriculum are advised that this combination major contains more credits than the Bachelor of Arts in Education in either single discipline. Depending upon options chosen, the overall student program may involve more than 180 credits.

Teaching Competence

Recommendations for teaching competence with the chemistry-biology major concentration
Biology

normally require completion of the program with a grade point average of 2.50 or better in the chemistry and in the biology courses.

Combined Major — Biology/Physical Science: Major Concentration 95-97 credits
- Chem 121, 122, 123, 251
- Physics 131, 132, 133 (or 241, 242, 341, 351)
- Sci Ed 399 and 492
- Biol 121, 122, 123
- Biol 310 or 345, 311, 312, 325
- One course from Biol 471, 480, 490
- Biol 485 or General Science 405
- Chem 371 or Biol 323
- 5 credits in geology
- Math 124
(I. Slesnick, adviser)

NOTE: This program is specifically designed for students who wish to be recommended for teaching competence in both biology and physical science. Students entering this curriculum are advised that this combination major contains more credits than the Bachelor of Arts in Education in biology. Depending upon options chosen, the overall student program may involve more than 180 credits.

BACHELOR OF SCIENCE

Pre-professional program for professional biologists, students pursuing graduate work, secondary teachers and related specialties.

Major Concentration 110 credits

Basic biology emphasis
- Biol 121, 122, 123, 310, 311, 312, 323 or 379 (or Chem 471, 472 and 473 or 474), 325, 340, 345, and one course from Biol 471, 480, 490
- Chem 121, 122, 123, 251 (or 351, 352 and 353)
- Math 124
- Physics 131, 132, 133 (or 241, 242, 341, 351)
- Sci Ed 399 and 492, Geol 211 (teacher preparation only)
- Electives to be taken from biology, chemistry, computer science, geography, geology, mathematics, physics and Huxley College selected with approval of departmental adviser.
(C. J. Flora, adviser)

Ecology emphasis
- Biol 121, 122, 123, 325, 340, 490
- Two courses from Biol 310, 311, 312
- Complete the courses under one of the three concentrations listed below.
  — Plant ecology (R. Fonda, adviser): Biol 378, 404, 452
  — Aquatic ecology (G. Kraft, adviser): Biol 402, 403, 425
  (Students must register with the appropriate adviser.)
- Chem 121, 122, 123, 333 — the appropriateness of other chemistry courses should be discussed with an adviser
- Geol 211
- Math 124 — the appropriateness of the math requirement should be discussed with an adviser
- Electives: two quarters, under advisement
- Electives selected with approval of adviser.
  Some of the courses from which electives should be selected: Biol 310, 311, 312, 323, 333, 345, 402, 405, 406, 424, 425, 433, 450, 463, 465, 480, 481, 485; Chem 351, 352, 353 (or 251), 461, 462, 463; Geog 331; 423, 424; Geol 310, 340; Huxley 431, 432; Comp Sci 110, 211; Math 125, 126

Marine biology emphasis
- Biol 121, 122, 123, 310, 312, 325, 340, 403, 406, 407, 456, 490 and 460 or 461
- Chem 121, 122, 123, and 251 (or 351, 352, 353)
- Physics 131
- Math 124
- Electives selected with approval of adviser.
  Some of the courses from which electives should be selected: Biol 311, 323, 460, 461, 462, 463, 468, 480, 485; Chem 333, 471, 472, 473; Geol 211, 340; Huxley 338, 361, 417a, 438; Physics 132, 133; Comp Sci 210, 211
- Biol 462 (Ichthyology) is strongly recommended
(J. Ross and D. Schneider, advisers)

Combined Major — Biology/Chemistry Major Concentration 108 or 109 credits
- Biol 121, 122, 123, 345, 408, 471, plus 5 credits in biology under advisement.
- Chem 121, 122, 123, 333, 351, 352, 353, 354, 461, 462, 463, 471, 472, 473, 474
- Math 124, 125
- Physics 131, 132, 133 or 241, 242, 341

This program is specifically designed for students who wish to undertake graduate study in either molecular biology or biochemistry.
(D. Schwemmmin, adviser)

Combined Major — Biology/Mathematics: Major Concentration

110 credits
- Biol 121, 122, 123, 310, 311, 312, 323, 325
- One course from Biol 471, 480, 490
Course 121, 122, 123 plus a minimum of 14 additional credits in biology under advisement. Students are advised to consult their major departments for remainder of credits. At least 10 credits of biology must be taken at Western.

GRADUATE STUDY
For concentrations leading to the Master of Education or the Master of Science degrees, see the Graduate section of the catalog.

COURSES IN BIOLOGY
Courses numbered X37: X97: 300, 400, 417, 445 are described on page 28 of this catalog.

101 PRINCIPLES OF GENERAL BIOLOGY (4)
Major ideas and processes of modern biological science at molecular, cellular, organismic and community levels; stressing qualitative and quantitative dimensions of the discipline in lecture, laboratory, field and discussion settings.

121 INTRODUCTION TO PLANT AND ANIMAL BIOLOGY (5)
Survey of plant and animal life, evolutionary and ecological relationships.

122 INTRODUCTION TO CELLULAR BIOLOGY (3)
Prereq: one quarter college chemistry. An introduction to the structure, function and development of cells.

123 INTRODUCTION TO GENETICS (3)
Prereq: Biol 122. Principles of inheritance. Analysis of examples from animals, plants and humans.

201-207 FIELD BIOLOGY OF THE NORTHWEST (3 ea)
Prereq: high school biology recommended. Recognition, life history, ecological relationships and distribution, evolutionary trends of representative groups of organisms. Field biology courses are not open to students who have credit for corresponding upper division course.

201 Mushrooms, Molds and Mosses
202 Flowering Plants, Conifers and Ferns
203 Insects and other Terrestrial Arthropods
204 Algae of the Northwest
205 Marine Biology
206 Birds of the Northwest
207 Mammals of the Northwest

233 FOREIGN CHEMICALS AND NATURAL SYSTEMS (3)
Prereq: Biol 101 and Chem 101. An elementary treatment of the effect and mechanism of action of such currently encountered substances as pesticides, food additives, hallucinogenic drugs, and conventional drugs (alcohol, tobacco and coffee).

205 NATURAL HISTORY OF THE NORTHWEST (5)
Prereq: Biol 101. Kinds of plants and animals in the Northwest; their distribution and life histories; field trips to beaches, lakes and ponds, forests, mountains. Not applicable to a B.S. major in biology.

206 CORAL REEF BIOLOGY (3)
Prereq: Biol 205 or equivalent. A field study of the systematics and ecology of tropical coral reef organisms.

207 HUMAN POPULATIONS AND NATURAL RESOURCES (3)
Prereq: Biol 101. Growth of human populations; changes in natural resources resulting in growth; prospects and consequences of population increases and resource utilization.

208 HUMAN REPRODUCTION AND SEXUALITY (3)
Prereq: Biol 101 and junior standing. Anatomy, physiology and embryology of human reproduction; behavior, disease, fertility control and other topics related to human reproduction and sexuality.

310 THE BIOLOGY OF LOWER ORGANISMS (5)
Prereq: Biol 121, 122, 123. An introduction to the basic biology of bacteria, fungi, algae, lichens, protozoa and sponges with emphasis on ecological relationships of lower organisms to one another and to other organisms, their occurrence in nature, and the classification of organisms.

311 PLANT BIOLOGY (5)
Prereq: Biol 121, 122, 123. Basic physiological principles, evolutionary trends and adaptations in structural development and reproductive systems of higher plants—Bryophytes through Angiosperms.

312 ANIMAL BIOLOGY (5)
Prereq: Biol 121, 122, 123. A course that stresses the ways in which animals cope with the basic problems of survival, locomotion, nutrition and the utilization of food; integration of activities on both community and individual levels, reproduction and development.

323 CELLULAR, MOLECULAR AND DEVELOPMENTAL BIOLOGY (5)
Prereq: 14 credits in biology. Chem 251 or 351 and 352. Students planning to take both Biol 342 and 323 should take 342 first. Cell organelles, structure and function, membrane phenomena, energy utilization and production, cellular biosyntheses, control of cellular activities, developmental processes at the cellular level.

325 ECOLOGY (5)
Prereq: junior status; 14 credits in biological topics. Community energetics and organismal-environmental relationships in marine, fresh water and terrestrial habitats.

340 BIOMETRICS (5)
Prereq: junior status, 14 credits in biological topics; knowledge of college algebra. The design of biological experiments and appropriate statistical analysis of experimental data. Calculator required.

345 FUNDAMENTALS OF MICROBIOLOGY (5)
Prereq: Chem 122 and 251; 10 credits in biology. Comparative morphology, taxonomy, physiology and relationship of microorganisms: bacteria, yeasts, molds and viruses.

348, 349 HUMAN ANATOMY AND PHYSIOLOGY (5 ea)
Biology

370 HUMAN GENETICS (4)
Prereq: Biol 101; not open to students with credit in Biol 123. Basic principles of heredity, human genetic problems, radiation and mutation, chromosomal errors, eugenics.

379 PLANT PHYSIOLOGY (5)
Prereq: Biol 311; Chem 251 or 351 and Chem 352. Basic principles of physiology including cell structure and function; plant-soil-water relationships; absorption and translocation of materials; transpiration, photosynthesis, respiration, mineral nutrition, growth and development, hormonal regulation.

334 PERSONAL AND SOCIAL IMPLICATIONS OF MODERN BIOLOGY (4)
Prereq: Biol 101 or 122 and junior standing. Recent developments in biology and their impact on the individual and on society; emphasis on potential effects on individual values and social implications of selected developments in such areas as behavior control, genetic alteration and organ replacement.

396 SEMINAR IN BIOLOGY (1)
Prereq: 25 credits in biological sciences and permission of instructor. Outstanding developments, past and present, in the biological sciences. May be repeated for credit.

402 BIOLOGICAL LIMNOLOGY (5)
Prereq: Biol 325. Physical and chemical characteristics of fresh water in relation to biotic communities; field trips.

403 PHYSIOLOGICAL ECOLOGY OF ANIMALS (5)
Prereq: Biol 312 and 325. Field and laboratory studies of physiological responses of marine animals to environmental factors; methods for design and analysis of experiments.

404 PLANT ECOLOGY (3)
Prereq: Biol 325; Biol 311 recommended. Ecology of plant communities with special emphasis on analysis, description, succession, and distribution. Weekend field trips included.

405 FIELD ECOLOGY (3)
Prereq: Biol 326 and permission of instructor; Biol 452 and 404 recommended. Analysis and investigation of vegetation patterns in Arizona, California, or other regions. Field trips. May be repeated for credit.

406 GENERAL OCEANOGRAPHY (5)
Prereq: one quarter each of college physics, college chemistry and college biology. Biological, chemical, physical and geological oceanography. Limited laboratory study of oceanographic techniques.

407 MARINE ECOLOGY (5)
Prereq: Biol 326 (ecology). The interaction of physical, chemical, and biological processes in the functioning of marine ecosystems. Productivity, food webs, nutrient cycles and community ecology will be discussed. Investigative laboratory studies of local shallow-water marine and estuarine ecosystems.

Outdoor sculpture "For Handel," by Mark di Suvero, casts a lengthy shadow on the grass adjacent to the Performing Arts Center Plaza. Bellingham Bay can be seen in the background.
408  THE BIOCHEMISTRY OF DRUG ACTION (3)
Prereq: Biol 322 or (Chem 471). Chem 251. The effect and molecular mechanism of action of selected natural and synthetic chemical compounds, both naturally occurring and introduced, upon target and non-target organisms. Topics include selected drugs, pesticides, chemical mutagens and certain natural exochemicals produced by plants and animals. Normally offered in alternate years.

423  FIELD ENTOMOLOGY (1-2)
Prereq: Biol 312. Insect collecting and field identification; preparation of insect collections; intersession course of one or two weeks duration.

424  ENTOMOLOGY (3)
Prereq: Biol 312. Insects: their morphology, physiology, metamorphoses, classification and economic importance.

425  AQUATIC ENTOMOLOGY (3)
Prereq: Biol 312; 424 recommended. Classification and ecological relationships of insects in streams and lakes.

430  SCIENTIFIC WRITING FOR BIOLOGISTS (3)
Prereq: 40 credits in biology and permission of instructor. The techniques of writing a biological journal article: elements of style; line drawings, lettering and reproduction of figures; reading and reviewing biological papers.

433  WATERSHED AND LAKE MANAGEMENT (4)

449  PATHOPHYSIOLOGY (5)
Prereq: Biol 348, 349. A study of the mechanisms of disease, the responses of the body to the disease process and the effects of the pathophysiologic mechanisms on normal function.

450  PARASITOLOGY (5)
Prereq: Biol 121, 122; two quarters of college chemistry. Representative animal parasites with emphasis on structural and physiological adaptations of parasite and host.

452  SYSTEMATIC BOTANY (5)
Prereq: Biol 121 or previous course in botany. Taxonomy of higher plants with emphasis on the characteristics and phytology of flowering plant families; collection and identification of local species.

453  ALPINE ENVIRONMENT AND VEGETATION (5)
Prereq: background in ecology and plant taxonomy. Interaction of plant species and environmental factors and resulting vegetation of the Alpine Zone. Offered only during the summer.

454  MYCOLOGY (5)
Prereq: Biol 310. Taxonomy of the fungi with emphasis on morphology, phylogenetic trends, collection and identification of common species. Several weekend field trips are required.

456  ALGAE (5)
Prereq: Biol 310. Collection, culture, identification, classification, distribution and economic importance of marine and fresh-water algae.

458  BRYOPHYTES (5)

460  INVERTEBRATE ZOOLOGY (5)
Prereq: Biol 312. Classification, anatomy, physiology, development and general biology of invertebrate animals.

461  MARINE INVERTEBRATE ZOOLOGY (5)
Prereq: Biol 312. Laboratory and field study of local marine invertebrates.

462  Ichthyology (5)
Prereq: Biol 312. Form and function of fishes; life histories; behavioral adaptations; ecological relationships; distribution; evolution and classification; socio-economic value.

463  Ornithology (5)
Prereq: Biol 121 or previous course in zoology. Evolution of morphological adaptations of birds, classification, distribution; annual cycle including migration, breeding and population dynamics, laboratory study, field trips. Normally offered spring quarter of alternate years.

455  MAMMALOLOGY (5)
Prereq: Biol 312. Structural and physiological adaptations, population dynamics, distribution and classification of mammals with laboratory emphasis on local species. Normally offered in alternate years.

458  INVERTEBRATE EMBRYOLOGY (5)
Prereq: Biol 460 or 461. Development of invertebrate animals; laboratory study of local, marine invertebrates. Taught only at the Shannon Point Marine Center during the spring or summer quarters. Normally offered in alternate years.

469  COMPARATIVE VERTEBRATE ANATOMY AND EMBRYOLOGY (5)
Prereq: Biol 312. Morphological adaptations, developmental anatomy and evolution of organ systems in vertebrate animals. Laboratory study of adults and embryos of shark, frog, chick, cat and pig.

471  MOLECULAR GENETICS (5)
Prereq: Introductory genetics, Biol 348, and Biol 323 or Chem 471. A study of the structure, replication, expression and control of genetic information. Laboratory experiments on the biochemical genetics of molds, bacteria and viruses.

479  CELL AND TISSUE CULTURE (3)
Prereq: Chem 120 and 20 credits in Biology: Principles and basic techniques for in vitro culturing and manipulation of cells and tissues of plants and animals.

480  ADVANCED GENETICS (5)
Prereq: Biol 123. Genetic mechanisms and interactions; chromosome behavior; cytogenetics; mutation; crossing over; the gene.

481  PHYSIOLOGICAL ECOLOGY OF PLANTS (5)
Prereq: Biol 311 and Biol 325. Field and laboratory study of physiological responses of plants to environmental factors; methods of design and analysis of experiments. Normally offered in alternate years.

485  HISTORICAL AND PHILOSOPHICAL PERSPECTIVES OF BIOLOGY (5)
Prereq: 20 credits in science, 15 in biology. The origins and development of biology as a science viewed in historical and philosophical perspective; the interaction of biology and society.

490  PRINCIPLES OF ORGANIC EVOLUTION (4)
Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 26 of this catalog.
Admission to Graduate School or special permission required. See Graduate section of the catalog.

NOTE: Biol 563, 566, 571, 577 and 583 are broad-titled courses that deal with a variety of topics in biology. Each year there are usually several different subjects offered under these titles; each one taught by a different professor. Examples of recent course titles are: ecological methods, cave ecology, plant cell physiology, biosystematics of insects, ecology of arctic shorelines, reproductive ecology of birds, chromosomal genetics.

503 ADVANCED TOPICS IN ECOLOGY (4)
Prereq: 25 hours of biology and permission of instructor. Analysis of current literature on fundamental properties of ecosystems, communities, populations, species and characteristic environments.

506 OCEANOGRAPHY (5)
Prereq: 20 credits in biology, one year of chemistry, and one quarter of both physics and geology. Specific studies in biological, physical, chemical and geological oceanography and their interrelationships.

514 VEGETATION OF WASHINGTON (4)
Prereq: 25 hours of biology and permission of instructor (Biol 404 recommended). Consideration and discussion of the literature on the vegetation of Washington, emphasis on the pattern of vegetation in the five physiographic provinces and environmental factors controlling distribution of species.

515 PLANT GEOGRAPHY OF NORTH AMERICA (4)
Prereq: 25 hours of biology and permission of instructor (Biol 404 and 452 recommended). Vegetation zonation of North America emphasizing factors controlling distributional patterns and paleoecological history of major biomes.

520 WILDFIRE AND THE DEVELOPMENT OF PLANT COMMUNITIES (4)
Prereq: Biol 404, 515, and permission of instructor. Consideration and discussion of the literature of wildfire ecology, emphasis on the basic concepts of wildfire as a natural environmental factor, and on the role of wildfire in the vegetative formations in North America.

524 ADVANCED TOPICS IN AQUATIC ENTOMOLOGY (4)
Prereq: Biol 424, 425, and permission of instructor. Taxonomy and ecology of selected orders of aquatic insects.

552 EVOLUTIONARY SYSTEMATICS OF VASCULAR PLANTS (4)
Prereq: 15 credits in botany and permission of instructor. Evolutionary systematics of vascular plants, phylogeny and evolutionary trends.

554 MYCOLOGY (5)
Prereq: 10 credits of upper division botany and permission of instructor. Biology of fungi with emphasis on collection, culture, and laboratory identification of all major groups. Important interrelationships with other organisms and phylogenetic trends will also be covered. Students will make a detailed collection and study of one group of fungi.

556 PHYCOLOGY (5)
Prereq: Graduate status or permission of instructor. Identification, classification, and distribution of marine and freshwater algae, with emphasis on life history study through field and culture work.

559 PLANT SPECIATION (4)
Prereq: 25 hours of biology, Biol 490 recommended. Reproductive strategies and evolutionary patterns relating to formation and stabilization of discrete biological units (microspecies, species and higher categories) among higher plants.

560 EVOLUTIONARY RELATIONS OF INVERTEBRATES (5)
Prereq: Graduate status or permission of instructor. Advanced analysis of phylogeny and classification of invertebrates including recent information on morphology, physiology, development and ecology.

568 TOPICS IN DEVELOPMENTAL AND COMPARATIVE MORPHOLOGY (4)
Prereq: 25 hours of biology and permission of instructor. Structural changes, cellular interactions, and control mechanisms operating during growth and development or evolution of selected organisms.

571 ADVANCED TOPICS IN GENETICS (4)
Prereq: 25 hours of biology and permission of instructor. Inheritance and gene action in plant, animal and microbial systems; illustrative experiments with Drosophila, Aspergillus or other organisms.

577 ADVANCED TOPICS IN PHYSIOLOGY (4)
Prereq: 25 hours of biology and permission of instructor. Topics in general, microbial or comparative physiology; laboratory work illustrating processes or experimental techniques.

578 PROTEIN STRUCTURE, FUNCTION AND EVOLUTION (4)
Prereq: upper-division course in biochemistry. Detailed investigation into the molecular structure and function of such proteins as enzymes, antibodies, histones, muscle proteins, and hemoglobin. The use of proteins in establishing evolutionary relationships between organisms.

579 ENZYMOLGY LABORATORY (3)
Prereq: upper-division course in biochemistry. Techniques in isolation and characterization of various enzymes; purification techniques and determination of various kinetic parameters.

583 ADVANCED TOPICS IN BIOSYSTEMATICS (4)
Prereq: 25 hours of biology and permission of instructor. Role of morphology, cytology, biochemistry and genetics in taxonomy; systematic study of a specific group of local organisms.

584 POPULATION AND COMMUNITY BIOLOGY (4)
Prereq: upper-division course in genetics. Study of populations and communities as interacting, functioning systems, and the changes in the numbers and proportions of organisms in populations and the diversity of species in communities. Also factors influencing changes in populations and communities.

595 TEACHING PRACTICUM (1-3)
Prereq: permission of instructor. Intended for the student who wants experience in teaching a biology course of his/her choice. May be repeated for a maximum of 6 hours total credit. S/U grading.

599 SEMINAR IN BIOLOGY (2)
Prereq: 40 credits in biology. Selected problems in biology, with emphasis on current literature. May be repeated for credit.

690 THESIS RESEARCH (1-12)
Prereq: permission of thesis advisor. Research contributing to a graduate degree program. Graded "K" until thesis completed. May be repeated for credit. S/U grading.
Business Administration

College of Business and Economics

The Department of Business Administration encompasses the fields of administrative and personnel management, finance, marketing and operations management. These fields cover a variety of responsibilities in both private and public organizations. An emphasis on breadth, basic knowledge and analytical skills pervades all levels of the business administration program. The business program combined with the wide range of non-business subjects at all educational levels reflects the department's belief that education should equip students for satisfying achievements in life as well as in business.

PROGRAM OBJECTIVES

The development of the business administration program has been guided by the standards of the American Assembly of Collegiate Schools of Business. These standards stress a broad education preparing students for leadership roles in business and society. The department's educational objectives are:

1. To develop competence in making decisions and evaluating policy in business, the professions and government.
2. To create an understanding of the social, economic and civic environment within which business functions.
3. To provide the perceptual and analytical skills necessary in each of the major functional areas of business.
4. To enhance educational opportunities through the research activities of its faculty and students.
5. Above all, to encourage intellectual inquiry.
The undergraduate program is designed for students who may be planning for a variety of career opportunities. Opportunities exist in financial institutions, manufacturing, service industries and the public sector offering careers in marketing management and research, advertising, sales, management and operations supervision, personnel administration, financial planning and analysis, and information systems. For students who wish to pursue a career that requires an advanced degree, consideration should be given to obtaining a Masters of Business Administration degree.

THE CURRICULUM

Students normally devote most of the freshman and sophomore years of study to the General University Requirements. The business foundation courses should normally be completed by the end of the sophomore year. Since these foundation courses may satisfy General University Requirements, careful planning may save time for additional electives. Elective coursework that emphasizes oral and written communication skills is particularly recommended. Junior and senior years are primarily devoted to upper-division business core requirements and business elective coursework. Students are provided the option of concentrating their business electives in one of several fields of study: finance, marketing, operations management, and personnel/industrial relations. Students should refer to the departmental "Planning Guide" (available in the departmental office) for proper course sequencing. Students desiring to concentrate their electives in a single field should pay particular attention to class scheduling since some courses are offered only once each year.

STUDENT ADVISING

For answers to routine questions students should first consult the department's "Planning Guide." A departmental advising center is maintained to answer non-routine questions about the B.A. major. Information is available concerning recommended coursework, transfer credits, major declaration requirements and degree requirements.

Questions concerning concentrated study in finance, marketing, operations management, and personnel/industrial relations should be directed to the faculty who teach primarily in that field of study. Business majors who choose to concentrate their elective courses in one field of business may be assigned a faculty adviser with whom to consult concerning concentration courses and career objectives.

BUSINESS ADMINISTRATION

FACULTY

EARL D. SENSON (1968) Associate Professor. BS, University of Idaho; MA, Pennsylvania State University; PhD, University of Oregon.

KENNETH S. KELEMAN (1977) Associate Professor, BA, MS, San Diego State University; PhD, University of Utah.

MAXWELL C. KING (1978) Assistant Professor. BA, Stanford University; MBA, Harvard Graduate Business School.

L. FLOYD LEWIS (1963) Assistant Professor. BA, California State University, Sacramento; MS, San Jose State University; PhD, University of Louisville.

JOHN S. MOORE (1970) Associate Professor. BS, University of North Dakota; M.S. Bus. JDaw, University of Colorado; CPA, State of Colorado; PhD, University of Washington.

EUGENE OWENS (1975) Professor. BA, University of Arizona; MS, Purdue University; MS, George Washington University; PhD, University of California, Los Angeles.

E. LEROY PLUMLEE (1976) Associate Professor. BBA, Texas Tech University; MS, Northern Illinois University; DBA, Texas Tech University.

ROBIN E. RIECK (1981) Assistant Professor. BA, MBA, University of Washington.

DAVID S. RYSTROM (1983) Assistant Professor. BS, UCLA; MS, California State University, Northridge; PhD, University of Oregon.

FARROKH SAFAVI (1966) Professor. BA in Journalism, BS in Economics, MBA, University of Tehran; MBA, DBA, University of Southern California.

ROBERT S. SPICHL (1979) Assistant Professor. BA, Lafayette College; MBA, PhD, University of Washington.

BARBARA J. UNGER (1979) Assistant Professor. BS, College of Notre Dame; MA, University of Washington.

BRUCE D. WONDER (1981) Associate Professor. BS, University of California; MS, San Francisco State University; PhD, University of Washington.

DECLARATION OF MAJOR

To be eligible to declare a major in business administration, a student (1) must have earned at least 75 credits, and (2) must have completed the following foundation courses (or equivalent courses) with a grade point average of not less than 2.60:

- Acctg 241, 242
- BA 255, 271
- Comp Sci 177
- Econ 203, 204
- Math 155, 156
- Speech 101 or 205

*This minimum grade standard may be adjusted in any term. Any change will be published in the class schedule.

Students are encouraged to complete the above requirements and submit a major declaration application as soon as possible. Those who have not declared may not be allowed to enroll in certain 300- and 400-level classes. Major declaration applications may be submitted at the departmental office only during a limited "declaration period" each quarter as specified in the departmental "Planning Guide."

Transfer students who indicate an interest in the business administration major may be considered for admission to the major prior to enrollment at WWU.
To declare a major in business administration/computer science, students will need to check with both the B.A. and Math/Computer Science departments. Only a limited number of students may be accepted into this specialized major each quarter.

ENROLLMENT PRIORITIES

Because of high student demand for B.A. courses, the department must give enrollment priority in the 300- and 400-level courses to students whose programs require study in business administration. Priority in 300-level courses is given to majors in the College of Business and Economics (CBE) and to other declared majors in fields which require certain B.A. courses. Priority in 400-level courses is given to B.A. majors and, then, to other CBE majors.

BACHELOR OF ARTS

Major—Business Administration

97-98 credits

- Foundation Courses (38-40 credits):
  - Acctg 241, 242
  - BA 255, 271
  - Econ 203, 204
  - Math 155, 156, Comp Sci 117
  - Speech 101 or 205

- BA Core Courses (43 credits):
  - Acctg 243
  - BA 301, 303, 308, 322, 330, 341, 360, 482, 495
  - Econ 306

- Elective Courses (15 credits): A minimum of 15 hours of upper-division B.A. elective courses or these approved electives. A student may wish to concentrate these electives in one of the following areas of concentration: finance, marketing, operations management and personnel/industrial relations. Consult the department’s "Planning Guide" for information concerning these recommended concentrations

Minor 41 credits

- Acctg 241, 242
- BA 255, 271, 301, 330, 341
- Econ 203, 204
- Math 155

COURSES IN BUSINESS ADMINISTRATION

Courses numbered X37, X97; 300, 400, 417, 445 are described on page 26 of this catalog.

201 INTRODUCTION TO BUSINESS (4)

A survey of the field particularly directed to the needs of students majoring in office administration and business education. Recommended for students not intending to specialize in the fields of business economics.

215 PERSONAL FINANCE (3)

Sources of personal income, saving and consumer spending patterns. Development of techniques for planning and budgeting, consumption expenditures and saving, with special emphasis on the use of savings allocations to achieve personal goals: real property, insurance, financial investment, retirement, estate and tax planning.

216 PERSONAL INVESTMENTS (3)

Description of securities, markets and trading of stocks and bonds. Characteristics of other investments including options, convertible securities, mutual funds and tangible investments. Investment risk and portfolio management.

255 BUSINESS STATISTICS (4)

Prereq: Math 156 or equivalent. Statistical methods used in business research, analysis and decision-making, preparation and presentation of data, frequency distributions, measures of central tendency and dispersion, statistical inference, regression and correlation.

271 LAW AND THE BUSINESS ENVIRONMENT (4)

Historical development of legal institutions, the judicial process, and the impaction of the law upon individual and business decision making.

301 INTRODUCTION TO MANAGEMENT (4)

Analysis of the process of management, planning, organization, leadership, control, communication, and decision making. Concepts of power, authority and influence. The role of philosophy and values in organizations.

303 ORGANIZATIONAL BEHAVIOR I (3)

Prereq: BA 301. Individual and group behavior in organizations.

308 MANAGEMENT INFORMATION SYSTEMS (4)

Prereq: BA 301. Structure of management information systems. Application of computers to management information systems in private and public organizations.

322 PERSONNEL ADMINISTRATION (4)

Prereq: BA 271, 301. Recruitment, selection, utilization, and development of human resources, with emphasis on employment management relations and relevant behavioral research.

330 PRINCIPLES OF MARKETING (4)

Prereq: BA 271, Econ 203. Institutions, functions, problems and policies in the distribution of industrial and consumer goods; pricing, costs, and governmental regulations.
PRINCIPLES OF FINANCE (4)
Prereq: Acctg 242, BA 255. Structure and operation of financial management problems of internal financial analysis, planning and control, capital structure and investment decisions, valuation, dividend policy, mergers, acquisitions.

RISK AND INSURANCE (3)
Personal and organizational risk and the means by which such risk may be minimized, transferred or otherwise managed to avoid serious financial loss.

QUANTITATIVE METHODS (2)

OPERATIONS MANAGEMENT (4)
Prereq: BA 255, Acctg 243. Fundamentals of operations management, including tools for analyzing, designing and controlling operating systems.

INDUSTRIAL PURCHASING (4)
Prereq: BA 301, 330. The interaction of buyer and seller in the industrial environment. Problems met in purchasing by industrial organizations.

BUSINESS HISTORY OF THE UNITED STATES (4)

ORGANIZATIONAL BEHAVIOR II (4)
Prereq: BA 301, 303. Individual and group behavior in organizations. Case problems and experiential learning exercises are utilized.

SEMINAR IN ORGANIZATIONAL THEORY (4)
Prereq: BA 301. Current research in organizational effectiveness, planning, leadership patterns, and current problems.

ORGANIZATIONAL DEVELOPMENT (4)
Prereq: BA 301, 303. Current research and application to planned organizational change and internal training techniques.

INTRODUCTION TO MANAGERIAL BEHAVIOR (2)
Prereq: BA 303. Applied managerial techniques explored in a supervised environment.

ADVANCED MANAGERIAL BEHAVIOR (4)
Prereq: BA 405. Under supervision, students will be responsible for design and conduct of RA 405 sessions. Comparison, analysis and critique of relative success of techniques explored.

WOMEN IN MANAGEMENT (3)
Prereq: BA 303. or permission of instructor. Expectations and conflicts of managers regarding the changing roles of women in organizations and management.

COMPENSATION ADMINISTRATION (4)
Prereq: BA 301, 322. Examination of theories, models, and procedures required to develop compensation and reward systems in organizations. Economic, psychological and sociological elements of compensation. Determination of compensation structures and differentials, forms of compensation and reward, compensation levels.

RECRUITMENT AND SELECTION (4)
Prereq: BA 322. Recruiting and selection as related to organizational objectives. Legal requirements, selection models, validation, and topical issues of importance.

PERSONNEL TRAINING (4)
Prereq: BA 322. Training as related to organizational objectives. Training models, learning theory, evaluation methodologies, industrial instructional techniques and topics of special interest will be emphasized.

INDUSTRIAL RELATIONS ADMINISTRATION (4)
Prereq: BA 232. Cases, lectures, and collective bargaining simulation are used to develop administrative skill in dealing with union-management relations. Nature of unions, institutional forces, conditioning collective bargaining practices, and administrative practices dealing with unions.

CURRENT ISSUES IN PERSONNEL AND INDUSTRIAL RELATIONS (4)
Prereq: BA 322. Current problems in policy and practice used in personnel and industrial relations administration.

MARKETING RESEARCH (4)
Prereq: BA 330. Marketing problems posed by executive decision; techniques applicable to product selection, advertising and motivation research, research methodology, research design and decision models in marketing; individual research projects.

ADVERTISING (4)
Prereq: BA 330. Promotional objectives and strategies of the firm; organization of advertising function; media selection and evaluation; psychological aspects, new developments such as use of computer and mathematical models.

SALES MANAGEMENT (4)
Prereq: BA 330. Nature of personal selling with emphasis on industrial sales effort and management of sales personnel.

MARKETING MANAGEMENT (4)

MANAGEMENT OF DISTRIBUTION SYSTEMS (4)
Prereq: BA 330. A typology of organizational structure, operations, and management of wholesale, retail and other intermediaries in the channels of distribution.

CONSUMER BEHAVIOR (4)
Prereq: BA 330. Relevance of customer behavior in household and organizational markets for marketing management, planning and analysis: the consumer decision-making process and its implications for marketing mix variables.

INTERMEDIATE FINANCIAL MANAGEMENT (4)
Prereq: BA 341. An integrated approach to financial management including study of intermediate-level financial theory and its application to financial decision making under uncertainty.

INVESTMENTS (4)
FINANCIAL INSTITUTIONS AND MARKETS (4)
Prereq: BA 341 or Econ 311. Structure and functions of the money and capital markets; the savings investment process and financial intermediaries; supply and demand for loanable funds and the level and structure of interest rates.

INVESTMENT ANALYSIS AND MANAGEMENT (4)
Prereq: BA 442. Advanced study of recent developments in financial theory and presentation of empirical evidence relative to the determination of investment value of financial assets. Emphasis on management of investment portfolios in efficient markets. Special topics of current interest

CASES IN FINANCIAL MANAGEMENT (4)
Prereq: BA 441. Case studies are utilized to develop insight and provide experience in the application of financial theory and practice to such decision making areas as working capital management, capital budgeting, capital structure determination and dividend policy.

SMALL BUSINESS ENTREPRENEURSHIP (4)
Prereq: BA 391, 390, 341. Legal, financial, operating and marketing elements associated with creating or acquiring and operating a small business.

ENTREPRENEURIAL PROBLEMS (1-4)
Prereq: BA 330, 341, 451 and SBI director approval. Field counseling work and study under faculty supervision with small business entrepreneurs in the local business community, directed towards solving various small business problems.

PROBLEMS IN OPERATIONS MANAGEMENT (4)
Prereq: BA 360. Case study of operating problems. Emphasis upon manufacturing or service industries. May be repeated for credit with alternative course content.

SYSTEMS FOR PLANNING, SCHEDULING AND INVENTORY (4)
Prereq: BA 360. Examination of systems for planning levels of output and work force, scheduling machines and equipment, and maintaining inventories.

BUSINESS SIMULATION (4)
Prereq: BA 360. Introduction to simulation techniques as they apply to business and economics. Basic concepts, applications and problems associated with use of simulation.

FIELD STUDY IN OPERATIONS MANAGEMENT (4)
Prereq: BA 360 and permission of instructor. Field-based study of theory applied to current operating problems.

INTERNATIONAL BUSINESS (4)
Prereq: BA 330, 341. or permission of instructor. Special problems and issues which arise in the conduct of international business.

BUSINESS, GOVERNMENT AND SOCIETY (4)
Prereq: BA 271 or Accting 370 and senior standing. A study of the business decision-making process as these decisions interact with the social, technological, political/legal and economic environments. The course will develop the causes and the effects of regulation of business.

INTERNATIONAL TRADE OPERATIONS (3)
Prereq: BA 480, or permission of instructor. Operations of firms seeking to serve foreign markets from domestic sources. Emphasis on import/export activities and marketing, financial, and organizational decisions to support these activities.

REAL ESTATE (4)
Prereq: BA 271 or equivalent. Real estate law, government regulation of real estate use, development, marketing and financing of commercial and residential real estate.

COMMERCIAL REAL ESTATE INVESTMENT (4)
Prereq: BA 485. Investment strategy, selection, financing, appraisal of income properties such as rentals, apartments, condos, office buildings, shopping centers and other security purpose real estate.

INTERNSHIP IN BUSINESS ADMINISTRATION (1-4)
Prereq: business administration majors only. Practical application of skills and theories learned in the classroom through work on special project experience in private or public organizations. May be repeated for a maximum of 12 credits.

BUSINESS POLICY (4)
Prereq: BA 301, 330, 341, 360. Case study of policy making and administration from a general management point of view. Emphasis on problem analysis, the decision-making process, administration and control, and development of policies and objectives.

MASTER OF BUSINESS ADMINISTRATION
Admission to Graduate School or special permission required. See the Graduate School section in front of the catalog for a description of the MBA program.

MBA Courses

FINANCIAL ACCOUNTING AND REPORTING CONCEPTS (4)
Prereq: permission of the program director. Introduction to financial statements and the concepts, principles and theories of asset valuation and income determination underlying their preparation. Analysis and interpretation of financial statements in the perspective of the management decision-making process.

Another way to get around campus.
Business Administration

502 ECONOMIC ANALYSIS FOR BUSINESS (4)
Prereq: MBA 503. Examines the concepts of scarcity, opportunity cost, competitive market pricing, efficiency and the market system. In addition, the macroeconomic variables that constitute the environment of the firm such as the overall performance of the economy, money and the financial system, and monetary and fiscal policy operations will be discussed.

503 QUANTITATIVE METHODS I (4)
Prereq: permission of the program director. Provides students with an appreciation of the use of quantitative methods in managerial decision-making. A heuristic approach to the essentials of linear algebra, linear programming, and the determination of minima and maxima as applied to appropriate profit, cost and production functions.

504 QUANTITATIVE METHODS II (4)
Prereq: MBA 503. Provides an understanding of some of the tools that enable a manager to analyze information, including data analysis, probability distributions, statistical inference and hypothesis testing, and multivariate regression analysis.

506 BUSINESS FINANCE (4)
Prereq: MBA 501, 502 and 504. Objectives, tools and techniques of finance from the viewpoint of the financial manager of a manufacturing firm. Focus is on corporate financial decisions encompassing investment, financing, dividends and working capital management, including an introduction to financial instruments and markets.

506 COMPUTER INFORMATION SYSTEMS (4)
Prereq: MBA 504. This class will present a review of the current state of computer-based information systems as they relate to the managerial functions. The emphasis in this class will be toward the computer user and computer applications for management purposes.

511 MANAGERIAL ACCOUNTING (4)
Prereq: MBA 501, 504. Conceptual approach to managerial accounting: role in organization. Emphasis will be on the use of accounting information for management decision-making. Topics include accounting for planning and control purposes, behavioral implications associated with accounting information, budgeting and various quantitative techniques available.

513 TAXATION AND MANAGEMENT DECISIONS (4)
Prereq: MBA 501, 511. Introduction to various tax rules and regulations encountered by managers in operating a business. Cases and research problems are directed at emphasizing the importance of the role of taxation in management decisions.

521 ORGANIZATIONAL BEHAVIOR (4)
Prereq: MBA 504. Techniques for the management of individual, group and intergroup behavior in organizations. Includes concepts and techniques for change, conflict resolution and organizational development.

522 PERSONNEL AND INDUSTRIAL RELATIONS (4)
Prereq: MBA 521. The determination, acquisition, development, utilization and maintenance of human resources by employment organizations. Covers employment planning, recruitment and selection, training and development, performance evaluation, and compensation administration, while giving special emphasis to labor-management relations.

523 LABOR/MANAGEMENT RELATIONS (4)
Prereq: MBA 522. Analysis of the managerial implications in collective bargaining, government regulation, arbitration/mediation between management and labor in the organization.

531 MARKETING MANAGEMENT (4)
Prereq: MBA 502, 504. Staffing, direction and coordination of organizational marketing activities. Development of new products and integration with current activities to meet evolving market needs. Includes sales and advertising in both national and international markets.

538 INTERNATIONAL BUSINESS (4)
Prereq: MBA 502, 515, 531. Analysis of the special economic, marketing, financial and production considerations in the international marketplace.

541 MANAGERIAL FINANCE (4)

542 EQUITY MARKETS AND PORTFOLIO ANALYSIS (4)
Prereq: MBA 505. An examination of investment risk and return, the operation of equity securities markets, equity valuation models, modern portfolio theory and portfolio management. Also, capital market efficiency, stock options and mutual funds are discussed.

544 FINANCIAL MARKET RATES AND INSTITUTIONS (4)
Prereq: MBA 505. Examination of financial institutions and the markets in which they operate. Emphasis on interest rate determinants, fixed income securities and the management of financial intermediaries. Current topics including financial futures and regulatory changes.

551 MANAGERIAL ECONOMICS (4)
Prereq: MBA 502, 503, 504. Economic analysis provides the framework to consider the problems of resource allocations that confront managers in business, government and non-profit environments. Topics include consumer choice and demand for products, production and cost functions, alternative market structures and the profit criteria for long-run planning and investment decisions.

552 MACROECONOMIC THEORY AND POLICY (4)
Prereq: MBA 502. Examination of current issues in microeconomic theory and policy. Emphasis on using macroeconomic theory to explain recent U.S. economic performance and the level of income, employment, prices and output in an economic system. Particular attention given to using and interpreting economic indicators for the U.S.

561 PRODUCTION MANAGEMENT (4)
Prereq: MBA 502, 504. Management of production activities from resource procurement through defined and controlled transformation to marketable products.

581 BUSINESS ENVIRONMENT (4)
Prereq: MBA 505, 521, 531. Study of how business organizations interact with the social and political/legal environment. This course will develop the causes and effects of regulation of business and will explore the notion of "corporate social responsibility."

591 BUSINESS POLICY (4)
Study of administrative and policy making from a top management viewpoint. Integrates the marketing, financial, production and functional fields of management within a strategic management framework. Case study and simulation techniques used. (MBA program comprehensive exam. In the "bim" of an integrated case, will be a part of the course.) This course is normally taken in the last quarter of the program.
Chemistry
College of Arts and Sciences

The Department of Chemistry at Western Washington University has long enjoyed an excellent reputation for the quality and breadth of its chemistry program. American Chemical Society accreditation is available to B.S. graduates, and major graduate and professional schools have readily and unconditionally accepted chemistry majors from Western.

However, the classical definitions and boundaries of most physical sciences are rapidly disappearing and traditional programs are being continually modernized. Typically, chemistry is becoming richly interdisciplinary often encompassing, for example, such widely diverse academic areas as geochemistry, environmental sciences, astrochemistry, molecular dynamics and molecular biology.

In keeping with new roles and advances, the Department of Chemistry has added to its core of fundamental studies in physical, inorganic, organic, analytical and biochemistry a variety of courses that offer diversity in training, study and research at both the undergraduate and graduate levels. Within the department, faculty members are active in research and teaching in coordination chemistry and the molecular structures of transition metal complexes, small ring compounds, photochemistry and natural products, atmospheric and glacier chemistry, nuclear dating, blood chemistry, and new areas of computer applications. A significant portion of research in the department is supported by outside agencies.

The Department of Chemistry has been active in assembling the latest equipment necessary for
Chemistry

chemical research and teaching. A special effort has been made to acquire computer-controlled instruments. All of the instruments are available for use by students in laboratory work and in student research projects.

Every effort is made to update and modernize coursework and teaching methods. Several faculty members have authored successful texts that have found wide usage at major universities, and many are involved in interdisciplinary teaching and specialized summer institutes. Western's graduates have a long and enviable record of success in Ph.D. programs at major research-oriented universities and in a variety of medical, dental and pharmacy programs.

CHEMISTRY FACULTY

All of the members of the department hold the Ph.D. degree and most have had postdoctoral experience before coming to Western. All are encouraged and supported in research. As a result, the department has an active undergraduate research program, and it offers as a unique feature an unusual degree of personal contact between faculty and students. Furthermore, faculty members are aware of campus policies and resources, and both academic and career counseling is readily available to all chemistry students.

MARK WICHLAS (1987) Chairman;  Professor, AB, Boston University; MS, Michigan State University; PhD, University of Illinois.
JAMES P. CROOK (1970) Acting Chairman, 1963-84; Associate Professor, BS, University of Nevada; PhD, Illinois Institute of Technology.
J. W. F. EDDY (1967) Associate Professor, BS, MS, Oregon State University; PhD, Purdue University.
GEORGE A. GERHOLD (1969) Professor, BS, University of Illinois; PhD, University of Washington.
DONALD M. KING (1966) Associate Professor, BS, Washington State University; PhD, California Institute of Technology.
GEORGE S. KRIEZ (1967) Professor, BS, University of California, Berkeley; PhD, Indiana University.
GARY M. LAMPMAN (1964) Professor, BS, University of California, Los Angeles; PhD, University of Washington.
J. C. MILLER (1965) Professor, BS, Oregon State University; PhD, Iowa State University.
R. E. NELZL (1959) Professor, BS, North Dakota State College; MS, Purdue University; PhD, University of Washington.
DONALD L. PAVIA (1970) Professor, AS, Reed College; MS, PhD, Yale.
SALVATORE F. RUSSO (1968) Professor, BA, Wesleyan University; PhD, Northwestern University, Evanston.
J. C. W. H. Y. WENDH (1969) Professor, BA, College of Great Falls; MS, PhD, Washington State University.
J. C. WHITEM (1969) Professor, BS, University of Rochester; MS, PhD, University of Michigan.
H. WILLIAM WILSON (1988) Professor, BSc, University of Alberta; PhD, University of Washington.

Research Associate

James D'Argeville Clark (1984)
BSc, Cape Town; BSc, University of London; PhD, Institute of Paper Chemistry, Lawrence College.

PROGRAMS AND CAREER OPPORTUNITIES

The programs of study offered by the Chemistry Department are diverse and challenging, and provide the following benefits to the student:

- A wide variety of accredited programs, designed to meet diverse career goals.
- A faculty committed to excellence in undergraduate education.
- Close student-faculty contact and relatively small classes.
- Direct access to modern laboratory equipment and instrumentation.
- Opportunity for research work at the junior/senior level under the direction of a faculty adviser.

The Chemistry Department offers three basic degree programs: Bachelor of Science, Bachelor of Arts, and Bachelor of Arts in Education. All three programs have a common core of study:

- One year of general chemistry and one year of college-level calculus (first year)
- One year of organic chemistry, one year of college physics and one quarter of analytical chemistry (second year)
- One year of physical chemistry (third year)

This provides the foundation for elective courses in the student's area of interest. Through choice of degree programs and electives, the student can prepare for careers in industry or government, teaching at the secondary level, or further study at the graduate level.

Students planning to major in chemistry or to begin university transfer programs involving chemistry courses are advised to consult the department at the beginning of the first year to arrange for proper sequence of courses.

Students planning to transfer to Western after completing two years of college study elsewhere should complete as many of the following program requirements as possible prior to transfer in order to avoid delays in degree work completion:

- One year of general chemistry
- One quarter or one semester of analytical chemistry
- One year of organic chemistry
- One year of college-level calculus
- One year of college-level physics

The Bachelor of Arts and Bachelor of Science programs are designed for students interested in industrial or governmental careers or graduate study. The two programs are similar except that the B.S. program provides greater depth and
leads to a degree approved by the American Chemical Society. The B.A. Program, if combined with any of the following recommended minors, will prepare students for a variety of career opportunities with a science emphasis in:

- Business and Economics
- Computer Sciences
- Technical Writing (Journalism)
- Environmental Sciences

The Bachelor of Arts in Education provides several program emphases (chemistry-biology, chemistry-mathematics, and chemistry-physics) as well as normal preparation in chemistry. Although requirements within these options differ in detail, the three programs are similar enough that the prospective teacher need not choose among them until the sophomore or junior year. Successful graduates are qualified to teach in their areas of concentration at the middle school or high school level. Prospective teachers with qualifications in more than one area will have a distinct advantage in seeking such positions. Detailed descriptions of each of these degree programs and course descriptions are given below.

**BACHELOR OF ARTS DEGREE**

The Bachelor of Arts degree (major or minor) can be combined with a variety of other programs on campus. Careful program planning and early advisement is strongly suggested.

**Major** 56 credits plus Supporting Courses

- Chem 121, 122, 123, 333, 351, 352, 353, 354, 355, 461, 462, 463, 464, 465, 434 or 441, plus elective
- Supporting courses: one year college physics and Math 105, 124, 125

**Minor** 24 credits

- Chem 121, 122, 123
- A minimum of 9 credits under approval of the Chemistry Department from Chem 251, 316, 333, 351, 352, 353, 354, 371, 461, 462, 463, 482, 483

**BACHELOR OF ARTS IN EDUCATION**

**Chemistry Major — Secondary**

53 credits plus Supporting Courses

- Chem 121, 122, 123, 333
- Chem 351, 352, 353, 354, 461, 462, 463
- Sci Ed 399, 492
- Supporting courses: one year college physics and Math 105, 124, 125

**Extended Minor** 41-43 credits

- Chem 121, 122, 123, 461, 462, 463
- 6-8 credits under departmental advisement from Chem 251, 333, 351, 352, 353, 354, 441
- Sci Ed 399, 492

To obtain minor approval a minimum of four credits of those required must be taken in chemistry at Western Washington University under Chemistry Department advisement.

**Combined major — Chemistry/Mathematics — Secondary**

88-90 credits plus Supporting Courses

This major leads to recommendation for teaching endorsement in both areas.

- Chem 121, 122, 123, 461, 462, 463
- 9-11 credits in chemistry to include a minimum of five credits in organic chemistry under departmental advisement
- Sci Ed 399, 492, Math 483
- 40 credits in mathematics (excluding Math 483) under departmental advisement
- Supporting courses: one year college physics

**Combined Major — Chemistry/Physics: Major — Secondary**

78-80 credits plus Supporting Courses

This major leads to recommendation for teaching endorsement in both areas.

- Chem 121, 122, 123
- Chem 461, 462, 463
- 9-11 credits in chemistry including five credits in organic chemistry under departmental advisement
- Physics 241, 242, 341, 342, 343, 351, 352, 353
- 9 credits in physics under departmental advisement
- Sci Ed 399, 492
- Supporting courses: Math 105, 124, 125, 126

**Combined Major — Chemistry/Biology**

See Biology Department section of catalog for details.

**Teaching Competence**

Recommendation for teaching endorsement in chemistry normally requires completion of one of the above majors or the extended minor with a grade point of 2.50 or better in the chemistry courses.
Chemistry

BACHELOR OF SCIENCE DEGREE
Major Concentration 110 credits

- Chem 121, 122, 123, 333
- Chem 351, 352, 353, 354, 355
- Chem 434, 441, 461, 462, 463, 464, 465
- Supporting courses: Physics 241, 242, 341, 351, Math 124, 125, 126, 205; Comp Sci 110 or 210
- Electives under departmental advisement in chemistry, biology, geology, computer science, physics and mathematics to total 110 credits including above required courses. At least two credits must be in chemistry laboratory courses numbered 400 and above

NOTE: The Chemistry Department at Western Washington University is approved by the American Chemical Society and students who complete the Bachelor of Science in Chemistry program receive ACS certification of their degree. A typical four-year program leading to a Bachelor of Science (ACS certified) is outlined below:

First Year
Chem 121, 122, 123, Math 124*, 125, 126

Second Year
Chem 333, 351, 352, 353, 354, 355; Comp Sci 110 or 210, Physics 241, 242, 341, 351

Third Year
Chem 461, 462, 463, 464, 465; Math 205

Fourth Year
Chem 434, 441 plus electives (see above).

*Students not prepared for calculus should begin with Math 101 or 105.

Combined Major — Chemistry/Biology: Major Concentration 109 credits

- Biol 121, 122, 123, 345, 408, 471; Biol elective by approval 5 credits
- Chem 121, 122, 123, 333, 351, 352, 353, 354, 461, 462, 463, 471, 472, 473, 474
- Math 124, 125
- Physics 131, 132, 133 or 241, 242, 341, 351

This program is specifically designed for students who wish to undertake graduate study in either molecular biology or biochemistry.

DEPARTMENTAL HONORS

Students participating in the University Honors Program may also earn Departmental Honors by completing both the University Honors Program requirements and Chemistry 498.

GRADUATE STUDY

For concentrations leading to the Master of Education or the Master of Science degrees, see Graduate section of catalog.

COURSES IN CHEMISTRY

Courses numbered XIII, XIV, 390, 400, 417, 445 are described on page 28 of this catalog.

101 CHEMICAL CONCEPTS (4)
A survey course for non-science students. Fundamental topics of chemistry such as atoms and molecules, periodic table, organic and biochemistry, radioactivity. Applications to selected related topics.

115 GENERAL CHEMISTRY (5)
Principles and laws of chemistry developed from the properties, structure, and reactions of matter; an abbreviated course in general chemistry for students not requiring Chem 121, 122 in their programs.

121, 122, 123 GENERAL CHEMISTRY I, II, III (5 ea)
Prereq: Math 102 or one and one-half years of high school algebra. Each course prerequisite to the next. Stoichiometry, atomic and molecular structure, states of matter, solutions, thermodynamics, chemical equilibrium, kinetics, electrochemistry. Laboratory.

209 INDUSTRIAL CHEMISTRY (3)
Prereq: Chem 115 or 121. Industrial chemistry and chemical technology in the contemporary world.

220 INDUSTRIAL CHEMISTRY LABORATORY (2)
Prereq: Chem 206 or concurrent. Small scale experiments of industrial processes; field trips to chemical industries.

251 ELEMENTARY ORGANIC CHEMISTRY (5)
Prereq: Chem 115 or 121. Reactions, nomenclature, and uses of carbon compounds; an abbreviated course in organic chemistry primarily for persons not requiring the Chem 351-354 series.

301 CONSUMER CHEMISTRY (4)
Prereq: one quarter of college chemistry; course not recommended for science majors. Topics of current interest selected from the general areas of agricultural and food chemistry, chemistry of common household and automotive products, chemistry in health care, chemistry of energy sources, the chemical industry, and the environment. Basic chemical principles reviewed as needed in developing course topics. Normally offered summer quarter.

302 CHEMICAL LITERATURE (1)

305 GLASS WORKING (1)
Prereq: permission of instructor. One hour of demonstration and three hours of lab per week. Basic glass working and construction of simple glass apparatus. May be repeated once for credit. S/U grading.

307 AUTOMOTIVE CHEMISTRY (3)
Prereq: Chem 115. Lectures and laboratory dealing with a variety of chemical subjects pertaining to the construction and operation of motor vehicles: fuels, lubricants, exhaust emissions and batteries.
PROJECT IN CHEMISTRY (1-3)

ADVANCED TOPICS IN CHEMISTRY (3)
Prereq: Chem 461 (or concurrent) and permission, and any additional prerequisites as listed. A series of senior electives in chemistry.

INTRODUCTION TO POLYMER CHEMISTRY (3)
Prereq: Chem 115, Tech 333 or Chem 208. Types of polymers, methods of polymerization, and preparation of important commercial thermoplastic and thermosetting plastics. Addition and condensation polymers are prepared in the laboratory.

THE CHEMISTRY AND PHYSIOLOGY OF FOREIGN COMPOUNDS (4)
Prereq: Chem 251 (or 551) and Biol 101. Chemical and physiological effects of mutagens, carcinogens, food additives, antibiotics, vitamins, steroidal hormones, chemical contraceptives, and mechanism of drug action. Normally offered summer quarter.

INTRODUCTORY ANALYTICAL CHEMISTRY (5)
Prereq: one year of general chemistry. Theory and practice of gravimetric, volumetric, potentiometric and spectrophotometric methods of analysis. Selected analytical topics such as ion exchange resins, non-aqueous solvents, electrotles, extractions, chromatography.

CHEMICAL PERIODICITY (2)

ORGANIC CHEMISTRY (4, 4, 3)
Prereq: Chem 122. Each course prerequisite to the next. Chemistry of carbon compounds with emphasis on structural theory, reactions, and mechanisms.

ORGANIC CHEMISTRY LABORATORY I (2)
Prereq: Chem 352 or concurrent. Techniques of organic chemistry: reactions, separations and syntheses of organic compounds.

ORGANIC CHEMISTRY LABORATORY II (2)
Prereq: Chem 353 and 354 or concurrent. Techniques of organic chemistry: reactions, separations, syntheses and introduction to practical spectroscopy.

ELEMENTARY BIOCHEMISTRY (5)
Prereq: Chem 261. Not recommended for students with Biol 323. Outlines of structures and metabolisms of carbohydrates, lipids, proteins, and nucleic acids; biochemical functions of vitamins, hormones, and some coenzymes; basic properties of enzymes, Laboratory.

PHARMACODYNAMICS (3)

SEMINAR IN CHEMISTRY (1)
Prereq: 25 credits in chemistry. Presentation and discussion of papers in chemistry. S/U grading.

INSTRUMENTAL ANALYSIS (4)
Prereq: Chem 333: Chem 462 prerequisite or concurrent. Theory and experimental techniques of optical, electrical and other physical measurements applied to chemical analysis.

ADVANCED INORGANIC CHEMISTRY (4)

ORGANIC SPECTROSCOPY (5)
Prereq: Chem 123, 353 and 355. Identification of organic compounds by spectroscopic methods: infrared, nuclear magnetic resonance, ultraviolet, and mass spectroscopy. Laboratory work includes application of spectroscopy in identifying unknowns with confirmation by chemical methods.

PHYSICAL CHEMISTRY (4, 4, 3)
Prereq: one year of college physics. Math 125, and one year of general chemistry. Each course prerequisite to the next. Atomic and molecular structure; states of matter, solutions, chemical thermodynamics and equilibria, chemical kinetics, and electrochemistry.

PHYSICAL CHEMISTRY LABORATORY (2 ea)
Prereq: Chem 333 and 461, 462, 463; Chem 464 and 465 may be taken concurrently with Chem 462 and 463 respectively. Includes formal report writing.

INTRODUCTORY BIOCHEMISTRY (3 ea)
Prereq: Chem 123, 253 or concurrent, and Biol 121; each course prerequisite to the next. Chemistry of carbohydrates, proteins, nucleic acids, and lipids; intermediary metabolism of these substances; reaction mechanisms leading to biosynthesis of various compounds of biological importance.

INTRODUCTORY BIOCHEMISTRY LABORATORY (2)
Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 RESEARCH PROJECT IN CHEMISTRY (2-6)
Prereq: permission of instructor. Advanced individual laboratory projects under supervision. May be repeated for credit.

510 SPECIAL TOPICS (1-3)
Prereq: permission of instructor. Specialized lectures on a conference basis for a particular area of interest. May be repeated for credit.

511 ADVANCED LABORATORY METHODS (1-3)
Prereq: Chem 483. Specialized laboratory on a conference basis for a particular area of interest. May be repeated for credit.

513 SPECIAL TOPICS IN ANALYTICAL CHEMISTRY (3)
Prereq: Chem 454 and 463. Special methods of separation; acid-base; solvent; chromatography. Use of analytical methods for characterization of organic functional groups. May be repeated for credit.

511 THEORETICAL INORGANIC CHEMISTRY (3)
Prereq: Chem 441 and 463 or permission. Ligand field and molecular orbital approaches to the bonding in inorganic compounds; electronic and vibrational spectra, magnetic behavior, and stereochemistry of inorganic complexes.

512 CHEMICAL APPLICATIONS OF GROUP THEORY (3)
Prereq: rudimentary knowledge of quantum mechanics obtained from any one of the following: Chem 452 or Physics 381. The use of mathematical group theory and symmetry arguments for solving problems in chemical bonding, quantum mechanics, and molecular spectroscopy.

551 PHYSICAL ORGANIC CHEMISTRY (3)
Prereq: Chem 353 and 462, or permission of instructor. Modern concepts of physical organic chemistry and their use in the elucidation of reaction mechanisms; relation of structure to chemical reactivity.
Communication
College of Arts and Sciences

The Communication Department provides the focus for a strong liberal arts education and professional preparation. Students develop additional depth in other academic disciplines.

The department offers degree programs in Journalism, Broadcast Communication, Speech Communication and Speech Education. In addition, the department maintains its commitment to the liberal arts tradition by offering courses in support of the General University Requirements and other departments.

Four degrees are granted: the Bachelor of Arts, the Bachelor of Arts in Education, the Master of Arts, and the Master of Education. The Bachelor of Arts degree can lead to placement in industry, government, or one of the professions. The Bachelor of Education degree gives certification for elementary or secondary school teaching. A master’s degree is ordinarily the requirement for community college teaching and other professional work.

Students of journalism and broadcasting gain practical experience on Western’s prize-winning student media, and majors additionally take field internships with newspapers, broadcast stations or other professional organizations.

JOURNALISM

Journalism majors and minors pursue theoretical and practical communication studies in a liberal arts setting.
Courses emphasize the gathering, writing and ethical presentation of news. Understanding news processes and learning to report with accuracy, clarity and precision prepares graduates to communicate swiftly and lucidly in a changing world.

Students are challenged to explore a range of other disciplines and to seek depth in one or more specialized areas through concentrations, major-minor combinations or even double-majors.

Graduates find careers in newspapers, magazines, radio, television, publishing, advertising, public relations, teaching and throughout government and industry wherever communications skills, with general knowledge, are vital.

BROADCAST COMMUNICATION

A major in broadcast communication allows the student to develop specific skills which may be applied to future vocational opportunities in broadcasting and other fields which utilize mass communication media.

In radio and television classes students participate in a regular series of radio and television broadcasts. The student-operated campus station KUGS-FM offers further opportunities for the development of radio broadcasting skills.

SPEECH COMMUNICATION

Majors in speech communication at the bachelor level are useful as bases for such professions as law or the ministry, or careers in advertising, personnel, sales, the diplomatic corps, and public relations. Speech consultants are employed by labor unions, elected officials, and as communication specialists by various industries.

Undergraduates are offered a wide variety of communication opportunities including an extensive program of forensic activities in which students may participate regardless of their chosen major.

SPEECH EDUCATION

Speech graduates with the Bachelor of Arts in Education at the secondary level find that the most common assignment is one involving not only speech but English as well. An interdisciplinary major in Speech/English is offered as preparation for this type of assignment. As much of the elementary classroom activity involves communication skills, it is recommended that the prospective teacher select a speech program to accompany an elementary major or minor.

Programs leading to Master of Arts and Master of Education degrees are also available. See the Graduate section.

The Department of Communication offers broad opportunities for learning. Further information and guidance may be obtained by contacting the department chairman, College Hall.

COMMUNICATION FACULTY

LARRY S. RICHARDSON (1970) Acting Chairman 1984-85. Associate Professor, BA, Western Washington State College, MA, PhD, Washington State University, (Speech Communication, Debate/Forensics)

R. E. STANNARD JR. (1969) Acting Chairman 1983-84. Associate Professor BA, University of Washington; MA, Cornell University (Journalism).

LYLE E. HARRIS (1978) Associate Professor, BA, University of Montana; PhD, University of Missouri (Journalism).

GERSON F. MILLER (1967) Professor, BA, University of California, Berkeley; VA, Pennsylvania State University (Journalism).

MARTIN L. OLMSHEAD (1959) Associate Professor, BS in Ed., Black Hills Teachers College, MA, Washington State University; PhD, University of Washington (Speech Communication).

J. DAN ROTHWELL (1980) Assistant Professor, BA, University of Portland; MA, PhD, University of Oregon (Speech Communication).

ALDEN C. SMITH (1955) Associate Professor, BS, Florida Southern College; MS, Byrnes University; PhD, University of Illinois (Broadcast Communication).

ARTHUR L. SOLOMON (1969) Professor, BA, Antioch College; MA, University of North Carolina, PhD, Stanford University (Speech Pathology and Audiology, Interpersonal Communication).

PETE STEFFENS (1972) Professor, BA, Harvard; BA, MA, Balliol College, Oxford (Journalism).

BACHELOR OF ARTS

Major - Journalism 61 credits

- Journ 104 or 406
- Journ 160, 204, 304, 340, 350, 404, 470, 480
- Three journalism staff courses from list (a) and three additional courses from list (a) or (b):
  
(a) Journ 111, 112, 113, 114, 211, 212, 213, 214, 311, 312, 313, 314, 411, 412, 413, 414
  
(b) Journ 121, 122, 123, 221, 222, 223, 321, 322, 323, 421, 422, 423, 431, 432, 433
  
(May be waived by substitution of equivalent professional experience.)

- Journ 430
- 15 credits in other academic areas under departmental advisement.

Cumulative GPA of 2.25 or higher

Minor - Journalism 25 credits

- Journ 104 or 406
- Journ 160, 204, 304, 340, 350
- Three staff courses, or equivalent professional experience, from:
  
(a) Journ 111, 112, 113, 114, 211, 212, 213, 214, 311, 312, 313, 314, 411, 412, 413, 414

120
Major — Broadcast Communication  
73 credits

☐ One of the following: Speech 101, 302
☐ Speech 240, 304, 309 or 405, 340, 343, 449
☐ 30 credits from Speech 204, 205, 241, 244, 300, 303, 315, 319, 341, 342, 344, 373, 400, 404, 405, 407, 409, 441, 442, 443, 481, taken under departmental advisement
☐ Journ 104 and 18 credits of additional supporting courses taken outside Speech under departmental advisement

No more than 12 credits in broadcast activity courses may be counted toward this major.

Minor — Broadcast Communication  
30 credits

☐ One of the following: Speech 101, 302
☐ Speech 240, 241, 319, 340, 342, 343
☐ Journ 104
☐ Electives under departmental advisement

Major — Speech Communication  
73 credits

☐ One of the following: Speech 101, 302
☐ Speech 204, 205, 304, 309, 315, 319, 407, 490
☐ 24 credits in speech under departmental advisement
☐ 17 credits in supporting courses taken outside Speech under departmental advisement

(General Classroom for Elementary Teachers)  
25 credits

☐ One of the following: Speech 101, 302
☐ Speech 484
☐ One of the following communication skills courses taken under departmental advisement: Speech 203, 204, 304, 319
☐ Two courses from Speech 373, Speech Path/Aud 351, 354
☐ Recommend Th/D 101, 350, 450
☐ Electives under departmental advisement

Major — Speech (Secondary Teachers)  
60 credits

☐ One of the following: Speech 101, 302
☐ Speech 202, 204, 304, 319, 407, 485
☐ Completion of six courses, three from each of two of the following modules:
  —Broadcasting: Speech 240, 241, 340, 342, 343
  —Communication Theory: Speech 309, 315, 404, 405, and 409
  —Forensics: Speech 205, 206 (4 credits), 406 (4 credits), 486
  —Th/D 101, 212, 322, 360, 370
☐ Electives under departmental advisement

Minor — Speech (Secondary Teachers)  
30 credits

☐ One of the following: Speech 101, 302
☐ Speech 202, 204, 205, 304, 319, 485
☐ Recommend Th/D 212, 370
☐ Electives under departmental advisement

Interdisciplinary Speech/English Major Concentration  
90 credits
(Speech 45 credits & English 45 credits)
(Satisfies both major and minor and leads to teaching competency in both Speech and English.)

Speech  
45 credits

☐ One of the following: Speech 101, 302
☐ Speech 204, 304, 319, 407, 485, 490
☐ Completion of six courses, three from each of two of the following modules:
  —Broadcasting: Speech 240, 241, 340, 342
  —Communication Theory: Speech 309, 315, 405
  —Forensics: Speech 205, 206 (4 credits), 406
  —Theatre: Th/D 101, 212, 360, 370
Communication

Electives in speech under departmental advisement

English (see listings under English) 45 credits

GRADUATE STUDY

For concentration in speech leading to the Master of Arts degree, see Graduate section of the catalog.

COURSES IN JOURNALISM

Courses numbered 237, 297, 300, 400, 417; 445 are described on page 28 of this catalog.

104 NEWSWRITING (3)

Prereq: ability to type 25 or more words per minute. Writing for news media; news elements and values; gathering news, structure and style of news stories, covering speeches and meetings, interviewing.

111, 112, 113, 114 NEWSPAPER STAFF (2 ea)

Prereq: freshman standing. Jorn 104. Participation on the staff of the university newspaper; critiques in news reporting, writing, editing and make-up.

121, 122, 123 PERIODICAL STAFF (2 ea)

Prereq: freshman standing. Jorn 104. Workshop in periodical design, layout and production, training in the creative combination of type, headline, photographs and other illustrative material, text and caption writing; creative layout techniques; production production; participation on the university periodical.

160 CURRENT EVENTS AND THE MEDIA (3)

Discussion and interpretation of news in context of interaction with media; for potential journalists and others interested in current events.

204 COPY EDITING (3)

Prereq: Jorn 104. News copy desk operations; editing, heading writing; dummying, page make-up; editorial writing.

211, 212, 213, 214 NEWSPAPER STAFF (2 ea)

Prereq: sophomore standing. Jorn 104. Participation on the staff of the university newspaper; critiques in news reporting, writing, editing and make-up.

221, 222, 223 PERIODICAL STAFF (2 ea)

Prereq: sophomore standing. Jorn 104. Workshop in periodical design, layout and production, training in the creative combination of type, headline, photographs and other illustrative material, text and caption writing; creative layout techniques; production production; participation on the university periodical.

304 REPORTING (3)

Prereq: Jorn 104. Interviewing, news coverage, including campus sources, and standard community news sources, with emphasis on social agencies; writing for news media.

305 PHOTOJOURNALISM (3)

Prereq: Jorn 104. Basics of new photography; use of equipment; news picture planning and coverage; composing effective news pictures, essentials of processing for publication; photographic notes and files, picture editing and layout; professional ethics and the law.

310 ADVERTISING IN THE MASS MEDIA (3)

Role of mass media advertising in the economy and advertising methods, research, planning and preparation of the message, selection of media, budgets and schedules; social performance of advertisers.

311, 312, 313, 314 NEWSPAPER STAFF (2 ea)

Prereq: junior standing; Jorn 104. Participation on the staff of the university newspaper; critiques in news reporting, writing, editing and make-up.

321, 322, 323 PERIODICAL STAFF (2 ea)

Prereq: junior standing; Jorn 104. Workshop in periodical design, layout and production, training in the creative combination of type, headline, photographs and other illustrative material, text and caption writing; creative layout techniques; publication production; participation on the university periodical.

340 THE PRESS AND SOCIETY (3)

Historical backgrounds of journalism, tracing the rise of mass communications in the Western World with social, economic and political trends.

350 LAW OF THE PRESS (4)

Rights and legal restrictions on freedom of the press: constitutional guarantees, libel, contempt, privacy, other restrictions.

350 THE NEWS PROCESS (4)

Critical examination of the news process by visiting news media professionals. Repeatable to 12 credits.

404 FEATURE WRITING (3)

Prereq: Jorn 304. In-depth article writing; development of ideas, gathering of material and writing; special attention to individual interests; exploration of freelance writing markets.

405 PRINCIPLES OF PUBLIC RELATIONS (3)

Prereq: Jorn 104 or Eng 101. Methods, tools and media used in planning and developing company, community and institutional public relations programs; publicity and promotional techniques; copy preparation, news releases, publications, relations with the press.

406 JOURNALISM FOR PUBLICATION ADVISERS (3)

Teaching public school journalism: news elements, values and writing for newspapers. Not open to students who have taken Jorn 104.

411, 412, 413, 414 NEWSPAPER STAFF (2 ea)

Prereq: senior standing; Jorn 104. Participation on the staff of the university newspaper; critiques in news reporting, writing, editing and make-up.

421, 422, 423 PERIODICAL STAFF (2 ea)

Prereq: senior standing; Jorn 104. Workshop course in periodical design, layout and production, training in the creative combination of type, headline, photographs and other illustrative material, text and caption writing; creative layout techniques; publication production; participation on the university periodical.

430 FIELD INTERNSHIPS (6)

Prereq: Jorn 204, 304, 350, and newspaper staff courses. Supervised field work on newspapers, magazines, radio and TV stations, public relations and advertising agencies, or other appropriate professional situations; for journalism majors between junior and senior years; usually during summer session. S/U grading.
COURSES IN SPEECH

Courses numbered X97; X97; 300, 400, 417; 445 are described on page 29 of this catalog.

101 FUNDAMENTALS OF SPEECH (3)
Functional approach to effective communication, application of principles to practical problems in speech. Teacher education sophomores (or above) are advised to take Speech 302 unless Speech 101 is needed to satisfy their GUR requirements.

202 PARLIAMENTARY PROCEDURE (2)
Parliamentary principles and procedures. Theoretical and practical techniques of effective organizational leadership: agenda setting, developing consensus; information methods; and committee processes.

203 VOICE AND ARTICULATION IMPROVEMENT (3)
Background in the speaking process; theory and practice designed to improve articulation, projection, and vocal quality. May be repeated.

204 SMALL GROUP PROCESSES (4)
Exploration of the dynamics of human interaction in small group settings. Group tasks include the development of problem-solving skills, utilizing topics of current interest.

205 EXPOSITION AND ARGUMENTATION (4)
Theory and practice of principles of reasoned discourse as applied to public discussion of controversial issues.

206 INTERCOLLEGIATE FORENSICS (2)
Debate, extemporaneous, and impromptu speaking, and interpretative reading and other phases of forensics. A maximum of 6 credits may be earned.

207 INTRODUCTION TO INTERPERSONAL COMMUNICATION (3)
Basic theory and practice in the art of communicating in dyads and small groups with more ease, confidence and accuracy, enabling the student to overcome communication barriers, to assert ideas and feelings more readily, and to listen more actively in both academic and social settings.

240 INTRODUCTION TO BROADCASTING (3)
Theory and technique of basic broadcast procedure, use of recording and transmitting equipment, fundamentals of broadcast speech: contemporary broadcast facilities and practice.

241 BROADCAST COMMUNICATION I (3)
Prerequisite or concurrent: Speech 240 or permission. Laboratory practice in applying communication skills to broadcast media: gathering, preparation and delivery of radio news.

244 RADIO NEWS STAFF I (2)
Prerequisite: Journ 104, Speech 240 and written permission. Participation on the news staff of the university radio station KUGS. Practicum in reporting, writing, production, and announcing. A maximum of six credits may be earned.

302 SPEECH FOR THE TEACHER (3)
Prerequisite: junior standing. Intended for teacher education students who do not need Speech 101 to satisfy their GUR requirements. Communication principles and applications to assist prospective teachers in the development of their individual speech skills and to prepare them to meet the communication needs of their students.

304 PUBLIC SPEAKING (3)
Prerequisite: Speech 101 or 302. Theory and practice in the art of public discourse.

309 HUMAN COMMUNICATION I (4)
Prerequisite: junior standing. Survey of human communication by levels: interpersonal, intergroup, small groups, public, mass media and intercultural.
Communication

311 CONFLICT AND COMMUNICATION (3)
Prereq: junior standing. Verbal and nonverbal communication strategies and behaviors that promote conflict in human interactions.

315 LANGUAGE AND COMMUNICATION (5)
Prereq: junior standing. Language as an instrument of communication. The effects of language misuse and malpractice on our perception and behavior.

319 ORAL INTERPRETATION (4)
Prereq: junior standing. Art and techniques of oral interpretation as method of literary criticism and means of communicating total meaning of a literary work to an audience. Reading aloud of dramatic monologues and soliloquies; activities in Readers Theatre.

340 INTRODUCTION TO MASS COMMUNICATION MEDIA (3)
Prereq: junior standing. Development of mass media; newspapers, film, radio and television; their contemporary role in society.

341 BROADCAST COMMUNICATION II (3)
Prereq: Speech 241, 340. Laboratory practice in production of radio news and public service programs.

242 T/V PRODUCTION I (3)
Prereq: Speech 340 and written permission of the broadcast advisor. Theory and technique of basic television production. Laboratory practice utilizing instructional media facilities.

343 BROADCAST WRITING (3)
Prereq: Speech 240 and Journal 104. The preparation of news, advertising and public service copy for radio and television.

344 RADIO NEWS STAFF II (2)
Prereq: Speech 244, 343 and written permission of the professor. Participation on the news staff of the University radio station KLUS. Practicum in reporting, writing, production and announcing. A maximum of six credits may be earned. A maximum combined total of six credits from Speech 244 and Speech 344 may be applied to a major in Speech.

370 PHONETICS (3)
Prereq: junior standing. Training in recognition and production of sounds of spoken English through use of the International Phonetic Alphabet.

402 SMALL GROUP LEADERSHIP (4)
Prereq: Speech 204. Exploration of concepts of leadership of small groups in both formal and informal settings. Development of leadership skills.

405 PERSUASION (4)
Prereq: Speech 205. Study of principles that influence attitudes and opinions in persuasive situations.

406 ADVANCED FORENSICS AND DEBATE (2)
Prereq: 6 credits in Speech 205 and/or Speech 206. Emphasis on intercollegiate debate with opportunity for experience in extemporaneous speaking. A maximum of six credits may be earned in Speech 406, but the total combined total of six credits from Speech 206 and Speech 406 may be applied to a major in speech.

407 INTERPERSONAL COMMUNICATION (4)
Prereq: junior standing. Experiences and skill training in small group settings to overcome communication barriers.

407W WORKSHOP IN INTERPERSONAL COMMUNICATION (1-3)
Prereq: upper-division standing or equivalent experience. For individuals engaged in helping professions who wish to enhance their self-understanding, self-expression, and to improve communication and relationship skills relevant to all human interaction. Variable credit depending on the amount of contact hours. S/U grading.

409 HUMAN COMMUNICATION II (4)
Prereq: Speech 309. Special topics in human communication including systems theory, information theory, theories of signs, and theories of meaning and thinking.

316 ADVANCED FORENSICS: ANALYSIS OF PUBLIC POLICY ISSUES (4)
Prereq: experience debating a recent national resolution or as a high school or college debate teacher. Application of models from argumentation theory and fields pertaining to the national resolution. Presentation of research papers, seminars and public presentations involving guest faculty from appropriate disciplines.

441 PRODUCING AND DIRECTING THE BROADCAST PROGRAM (4)

442a,b,c TELEVISION NEWS PRODUCTION (2)
Prereq: Speech 342, 343, and written permission of instructor. Development of broadcast communication skills. Practice in preparation and presentation of televised news. (Concurrent enrollment in Journal 431, 432, or 433, or Tech 442a,b,c recommended.)

443 T/V PRODUCTION II (3)
Prereq: Speech 342 and written permission of the broadcast advisor. Advanced theory and techniques of television production. Laboratory experience utilizing instructional media facilities.

449 FIELD INTERNSHIP IN MASS COMMUNICATION (3-12)
Prereq: senior standing and written permission of instructor. Supervised work in mass communication for a broadcast station, educational institution, or other appropriate governmental agency or private enterprise. A paper on an approved topic related to the internship is required. S/U grading.

480 HISTORY AND CRITICISM OF AMERICAN PUBLIC ADDRESS: 1740-1890 (3)
Prereq: junior standing. Relationship of prominent speakers to American political, social and intellectual life; from Jonathan Edwards through Booker T. Washington. Normally offered in alternate years.

481 HISTORY AND CRITICISM OF AMERICAN PUBLIC ADDRESS: 1890-PRESENT (3)
Prereq: junior standing. Relationship of prominent speakers to American political, social, and intellectual life; William Jennings Bryan to contemporary speakers. Normally offered in alternate years.

484 SPEECH FOR THE ELEMENTARY TEACHER (3)
Prereq: junior standing. Methods of utilization of the speech arts in the elementary classroom. Normally offered alternate years.

485 TEACHING SPEECH IN THE SENIOR HIGH SCHOOL (3)
Prereq: 15 credits in Speech. Exploration and critique of methods and materials used in teaching public address, interpersonal and small group communication, and extra curricular speech activities. Normally offered alternate years.

124
DIRECTING THE FORENSICS PROGRAM (4)
Prereq: Speech 205 or 206 (taken for 4 credits). Conducting tournaments, criticizing debates and individual events, budgeting. Normally offered alternate years.

HIGH SCHOOL DEBATE COACH WORKSHOP (2)
Prereq: one year teaching experience or graduate student status. An intensive lecture, seminar and workshop program in pedagogy related to teaching of argumentation, debate and forensics. Purpose is improvement of instruction. (Summer only.)

BUSINESS AND ORGANIZATIONAL COMMUNICATION (3)

RHETORICAL THEORY AND PRACTICE — GREEK AND ROMAN (4)
Prereq: junior standing. Rhetorical principles and practices from the early Greek to the fall of the Roman Empire.

THE RHETORIC OF SOCIAL MOVEMENTS (4)
Prereq: junior standing. Analysis of contemporary social movements from a rhetorical perspective. Critical methodologies developed by contemporary theorists applied to persuasive activities of specific movements. The subject of each individual class will be announced in the class schedule. Repeatable to 8 credits.

FIELD INTERNSHIP IN SPEECH COMMUNICATION (3-12)
Prereq: senior standing. Supervised work in speech communication for an educational institution, public agency or private enterprise. A paper on an approved topic related to the internship is required. S/U grading.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.
Admission to Graduate School or special permission required. See Graduate section of this catalog.

INTRODUCTION TO RESEARCH IN SPEECH (4)
Interpretation and evaluation of research outcomes; purpose and design of various methods, with particular emphasis on historical and descriptive methods.

BEHAVIORAL RESEARCH IN SPEECH (4)
Introduction to empirical research; basic methodology applied to current research in communication and speech.

SEMINAR IN PERSUASION (3)
Prereq: Speech 405. Readings in persuasion, logical and psychological modes of proof.

SEMINAR IN ARGUMENTATION (3)
Study of current issues, practices and trends in the field of argumentation, including argumentation theory, educational debate, debate in real world settings and pedagogical issues in argumentation.

SEMINAR IN INTERPERSONAL COMMUNICATION (4)
Interpersonal communication in both groups and dyadic situations; communication choice, social context, channels and nonverbal interaction.

SEMINAR: LANGUAGE AND COMMUNICATION (3)
General semantics and sociolinguistics approach to the study of language as an instrument of human communication. Emphasis on effects of language misuse on perception and behavior.

SEMINAR IN MASS COMMUNICATIONS (3 ea)

SEMINAR IN COMMERCIAL MASS COMMUNICATIONS (3)
Prereq: permission of instructor. Critical issues in the development, structure and function of commercial mass communications in the United States; theories of control, governmental regulations, new technologies, consumer activism, public policy.

SEMINAR IN PUBLIC BROADCASTING SYSTEMS (3)
Prereq: permission of instructor. The development, structuring and financing of nonprofit television and radio broadcasting. Critical assessment of Carnegie Corporation models; programming issues.

SEMINAR IN FOREIGN BROADCASTING (3)
Prereq: permission of instructor. Comparative analysis of selected European and other broadcasting systems. Analysis of broadcasting needs and potentialities in under-developed countries. International cooperation in programming.

ADVANCED PHONETICS (3)
Prereq: Speech 373. The phonetic structure and symbolization of principal American and other English dialects and certain European languages.

INTERNSHIP IN THE TEACHING OF COLLEGE SPEECH (3)
Prereq: permission of instructor. Supervised teaching of the basic speech course.

HIGH SCHOOL DEBATE COACH SEMINAR (2-3)
Prereq: one year teaching experience or graduate status and permission of instructor. An intensive lecture, seminar and workshop program in pedagogy related to teaching of argumentation, debate and forensics. Purpose is improvement of instruction.

SPEECH COMMUNICATION FOR EDUCATIONAL ADMINISTRATORS (3)
Application of the principles of effective communication to educational settings. Experience in conducting meetings, interviewing, speaking in public and similar activities.

SEMINAR IN RHETORICAL STUDIES (3)
Study of rhetorical literature of three historical periods:

590a Medieval/Renaissance period (450-1600 A.D.)
590b Early modern period (1500-1900 A.D.)
590c Twentieth Century (1900-Present)

INTERNSHIP IN SPEECH COMMUNICATIONS (3)
Prereq: permission of instructor. Supervised teaching of courses and/or units within courses in the area of speech communication and, where appropriate, assistance in the co-curricular programs of the area. A field project report will be required of those taking the course to fulfill the M.A. Option II requirement.

SEMINAR IN RHETORICAL CRITICISM (4)
Prereq: graduate status and Speech 501. Literature of rhetorical criticism and the application of rhetorical theory so gleaned in the criticism of significant speeches.

THESIS (5-0)

WRITING SEMINAR: THE RESEARCH MONOGRAPH IN SPEECH (3)
Prereq: Speech 501 or 502 and written permission of instructor. Writing a scholarly article based on research and suitable in subject, content and style for a communication journal.
Economics

College of Business and Economics

In a world without scarcity, economics as a field of study would be unnecessary. The most challenging task of economics is the study of how to best use resources in the satisfaction of human wants. Today, more than ever, the problems agitating society are predominantly economic. The problems of inequality, discrimination, pollution, energy, growth and stagnation are heavily economic, as are their solutions. Whether as intelligent citizens or as professional economists, we need the perspective and analysis of economics to understand and deal with the realities of life in the late twentieth century.

With appropriate preparation, particularly in the areas of economic theory, statistical methods and computer-assisted data analysis, the career opportunities for young economists are diverse. Economists are most typically employed as researchers and teachers in the educational system, at all levels of government, in the nation’s banking and financial institutions, other business firms, and labor organizations. One of the most dynamic career areas for economists has been in business. Business economists are typically involved in planning, forecasting, production and market analysis, pricing, and government policy analysis. While various employment opportunities are available to the university graduate with a baccalaureate degree, the person who wishes to pursue a high-powered career as a professional economist should plan to do some graduate study.

The economics program at Western provides several options under the Bachelor of Arts degree.
Options I and II require a foundation in economic theory, quantitative skills and research experience. Option I also provides opportunity for additional depth in one of several designated areas of emphasis in economics. Option II requires an outside minor and is, therefore, ideally suited for individuals wishing to incorporate skills and knowledge from another department into their major. Option II is frequently pursued by students with a strong interest in the liberal arts. Both options are suitable for employment in public or private positions, as well as for possible graduate study.

In addition, the department offers combined majors in Economics/Accounting, Economics/Mathematics and Economics/Political Science.

Students must consult with an adviser prior to the selection of Option I or Option II, as well as prior to the selection of an "area of emphasis" under Option I, or the selection of elective credits in other departments of the College of Business and Economics to be included as part of the economics major.

**ECONOMICS FACULTY**

The economics faculty is distinguished by a high degree of professional dedication. All faculty on-going appointment hold the Ph.D. degree and are engaged in research and consulting activities of consequence at the local, state, national and even international level. In addition, faculty members have a high commitment to quality teaching, personalized student contact and student advisement.

Associate Professor. BA, University of Puget Sound, MA, PhD, University of Nebraska.

Robert P. Collier (1976) Professor. BA, Reed College; Ph.D, Stanford University.

Erwin S. Mayer (1953) Professor. AB, Hunter College; Ph.D, University of Washington.

Michael K. Mischaikow (1964) Professor. BA, School of Commerce and Finance, Bugara; MBA, Hochschule fur Wirtschaft, Austria; MA, PhD, Indiana University.

Howard E. Mitchell (1955) Professor. BA, Whittier College; MA, PhD, University of Washington.

Denis R. Murphy (1978) Associate Professor. BA, MA, Western Washington University; PhD, Indiana University.

David M. Nelson (1977) Associate Professor. BA, Whittier College; MA, PhD, University of Oregon.

Allan G. Sleeman (1977) Assistant Professor. BS (Econ), London School of Economics; PhD, Simon Fraser University.

Transfer students should contact the department about their major prior to registering to assure that they enter the sequence correctly and to receive departmental evaluation of coursework completed at other institutions.

**BACHELOR OF ARTS**

**Major** 90 credits

**Basic Core (required in both Options I and II)**
- Econ 203, 204, 271, 301, 302, 303, 311, 406, 407
- Acctg 241
- Math 341
- 14 credits from Econ 325, 381, 410, 462, 463, 482

**Option I**
- Basic Core
- An area of emphasis, consisting of a minimum of 12 and a maximum of 20 credits, selected under departmental advisement. At least half of these credits must be in economics
- Electives in the College of Business and Economics, under departmental advisement, to complete the required 90 credits of the major

**Option II**
- Basic Core
- A minor to be selected by the student under departmental advisement
- Electives in the College of Business and Economics, under departmental advisement, to complete the required 90 credits of the major

**Minor** 25 credits
- Econ 203, 204
- Additional courses selected under departmental advisement; at least 10 credits must be at upper-division level

**Combined Major — Economics/Mathematics** 100 credits

This concentration is for students who wish considerable depth in both areas, and is particularly suitable as preparation for graduate study in economics.
- Econ 203, 204, 301, 302, 303, 311
- 12 additional credits in upper-division courses in the College of Business and Economics, under departmental advisement
- Acctg 241, 242, 243
- Math 105, 124, 125, 126, 205, 241
- Math 341, 442; or Math 441, 442, 443
- Comp Sci 210
- 13 additional credits in upper-division mathematics or Computer Science, under advisement from the departments of Economics and Mathematics.
Combined Major — Economics/Accounting 100 credits

This concentration is designed for students wishing to combine a strong interest in economics and accounting, and who intend to go into careers in business or finance.

- Econ 203, 204, 271, 301, 302, 303, 311
- 14 additional credits in upper-division economics courses, under departmental advisement
- Acctg 241, 242, 243, 341, 342, 343
- Math 341
- 16 additional credits in upper-division accounting courses under advisement from the departments of Economics and Accounting
- 12 credits in business administration electives, under advisement from the departments of Economics and Accounting

Combined Major — Economics/Political Science 100 credits

This concentration is available for students who have a strong interest in both of these disciplines and whose career interests might be furthered by this integration, for example, in economic careers in government and the legal profession. This concentration is also available to political science students and is cross-listed in that part of this catalog devoted to the political science curriculum.

- Econ 203, 204, 301, 302, 303, 311
- Econ 271 or Math 341
- Econ 410 or 415
- Econ 442 or 485
- 10 additional credits in upper-division economics courses, under departmental advisement
- Pol Sci 250, 270 or 291, 360, 365, 427
- A minimum of one course from three of these areas: Pol Sci 330, Pol Sci 346 or 345, Pol Sci 420 or 467; Pol Sci 425 or 426; Pol Sci 462 or 465; Pol Sci 470; Pol Sci 490
- Econ/Pol Sci 491
- 8-13 additional credits in upper-division political science electives, to complete the total required 100 credits of this program

BACHELOR OF ARTS IN EDUCATION

Major 90 credits

Advisor: Dr. David M. Nelson

- Complete Option II for the economics major, described above, using the extended social studies minor (described in the Interdisciplinary Programs section of this catalog) for the outside minor
- Soc St 426 and Hist 391
- Additional electives in the College of Business and Economics, under departmental advisement

Completion of this major/minor program leads to a teaching endorsement in social sciences and economics at the secondary level.

Minor 25 credits

- Econ 203, 204; Acctg 241 or BA 201
- 12 credits in upper-division courses under departmental advisement

Completion of this minor with a minimum of 2.5 grade point leads to a supporting teaching endorsement in economics.
PREREQUISITES

Prerequisites for a particular course indicate its level of analysis and tool requirements. The exceptional student who has already acquired these skills elsewhere, or can readily acquire them, must secure special permission for enrollment from the instructor.

COURSES IN ECONOMICS

Courses numbered X27, X97, 300, 400, 417, 445 are described on page 26 of this catalog.

190 CURRENT ECONOMIC ISSUES (3)
Examination of the major economic problems of our time. Designed to introduce the general student to the most visible economic aspects of modern society, such as inflation, economic growth and recession, pollution, unemployment, etc. Not applicable to a major in the College of Business and Economics if taken subsequent to major declaration.

203 PRINCIPLES OF ECONOMICS I, INTRODUCTION TO MICRO-ECONOMICS (5)
Analysis of the operation and decision making of economic units in a market economy: various competitive conditions, supply, demand, resource allocation, shortages, controls, social costs and social benefits.

204 PRINCIPLES OF ECONOMICS II, INTRODUCTION TO MACRO-ECONOMICS (4)
Prereq: Econ 203. An overview of the modern economy as a system for dealing with the problem of scarcity, with particular emphasis on the market economy. An evaluation of successes, deficiencies and possible alternative futures.

271 QUANTITATIVE METHODS (4)
Prereq: Econ 203 and 204; Math 103 or equivalent. Introduction to selected basic mathematical techniques necessary for the study of economics. The emphasis is conceptual and applications oriented. Topics covered will include single variable and multivariate calculus, differentials and elements of matrix algebra as used in economic analysis.

301 INTERMEDIATE MACRO-ECONOMICS (4)
Prereq: Econ 204 and 311. Examination of the factors that determine the level of income, employment, output and prices in an economic system. Review and analysis of recent U.S. economic policy and performance.

302 INTERMEDIATE MICRO-ECONOMICS (4)
Prereq: Econ 203 and 271. The theory of pricing under conditions of perfect and imperfect market structure, relation of demand, production, costs and prices; functional income distribution; general equilibrium theory.

303 THE HISTORY OF ECONOMIC THOUGHT (5)
Prereq: Econ 203 and 204. Development of economic thought with emphasis on period following Adam Smith.

305 MANAGERIAL ECONOMICS (4)
Prereq: Econ 203, Acc 245, and GA 255, or Econ 271 and Math 341. Application of economic principles to the decision-making process. Demand, costs and market structure and their relation to pricing, product choice, capacity and profit level decision making.

311 MONEY AND BANKING (4)
Prereq: Econ 204. Examines the nature and functions of money and the role of commercial and central banks in affecting the supply of money and credit in the U.S. Considers the changing U.S. financial environment and the influence of monetary policy on interest rates, prices and the overall level of economic activity.

325 ECONOMICS OF LABOR (5)
Prereq: Econ 203, 204. Economics of the labor market; development and functioning of labor unions and collective bargaining.

338 ECONOMIC ANALYSIS AND INDUSTRIAL MANAGEMENT (5)
Math 102 recommended. Introduction to structure of markets, production and price theory; application to organization management and operation of business enterprises. Not applicable to a major in the College of Business and Economics.

381 AMERICAN ECONOMIC HISTORY (5)
Prereq: Econ 203 and 204. American economic development from seventeenth century to present; emphasis on resource endowment and evolving social and economic institutions; role of government in this development.

383 ENVIRONMENTAL ECONOMICS (4)

385 THE ECONOMIC HISTORY OF EUROPE: 800-1800 (4)
Prereq: Econ 200 or 204. Development of European economies and their economic institutions. Emphasis on the evolution of the major market economies and their most characteristic features.

385 COMPARATIVE INDUSTRIALIZATION: 19th CENTURY (4)
Prereq: Econ 203 or 204. Comparative industrialization in the 19th century. Analysis of the forces, patterns and repercussions of industrialization in several major Western economies.

387 THE ECONOMICS OF ENERGY (4)
Prereq: Econ 203. The role of energy in the modern economy and the key aspects of energy supply and demand. Of special interest are the areas of energy shortages, substitutes, price changes, and their implications for domestic economic policy, living standards and international trade and finance.

451 ADVANCED MACRO-ECONOMICS (4)
Prereq: Econ 301; Math 341 recommended. Examination of current issues in macro-economic theory and policy. Emphasis on recent U.S. experience, with particular attention given to inflation, unemployment and the balance of payments. Includes selective reading in current professional journals.

452 ADVANCED MICRO-ECONOMICS (4)
Prereq: Econ 302 or 306, and Econ 271 or equivalent; Math 341 and/or Econ 475 recommended. Application of quantitative and theoretical tools in key areas of applied microeconomics. Emphasis on benefit-cost analysis, demand forecasting, corporate finance, and natural resource model building. Selective reading in current professional journals.

466 ECONOMIC RESEARCH (3)
Prereq: Econ 301, 302 or 306, and Math 341; Econ 475 recommended. Research methods and methodology with emphasis on those tools needed to develop and complete research projects. S/U grading.
Economics

407 SENIOR RESEARCH SEMINAR (3)
Prereq: Econ 406. Research and presentation of an extended paper on an individually chosen topic with guidance given by instructor.

410 PUBLIC FINANCE (5)
Prereq: Econ 204. The efficiency, equity and stabilization impacts of public expenditure and revenue programs; emphasis on problems and institutions at the national level.

412 BUSINESS FLUCTUATIONS AND FORECASTING (4)
Prereq: Econ 301 and Math 341. Characteristic and major explanations of the prosperity-depression cycle in business, with major emphasis on forecasting. Offered irregularly.

415 STATE AND LOCAL PUBLIC FINANCE PROBLEMS (4)
Prereq: Econ 204 Exploration of the economic role of state and local government in a market economy and consideration of current issues in state and local government finance. Financial management techniques for state and local government are presented.

425 LABOR MOVEMENTS IN THE UNITED STATES (3)
Prereq: Econ 203 or 204. Development of labor movements in the United States from 1860.

442 INDUSTRIAL ORGANIZATION AND PUBLIC POLICY (4)
Prereq: Econ 302 or 305. The relation of market structure to performance. Particular attention paid to monopoly, oligopoly, workable competition, and public policy, including anti-trust policy and the costs and benefits of regulation. Offered irregularly.

450 ECONOMICS FOR THE TEACHER (3)

462 INTERNATIONAL TRADE (4)
Prereq: Econ 203 and 204. Theory of international trade and its implications for economic growth and development. Analysis of commercial policies between nations, involving the movement of commodities and factors of production. Included are issues of protectionism, economic integration and the proposals for a New International Economic Order.

480 URBAN ECONOMICS (4)
Prereq: Econ 203. Economic forces behind urbanization. Economic analysis of urban problems, including land use, transportation and environment. Urban public finance, welfare economics and efficient resource allocation. Listed jointly as Huxley 480.

492 REGIONAL ECONOMICS (4)
Prereq: Econ 202 or 204. Problems, resource endowment, and principal policy issues related to economic growth of a region.

493 RESOURCE ECONOMICS (4)
Prereq: Econ 203; Geog 207 recommended. Theories for the efficient allocation of natural resources over time. Benefit-cost analysis as a criterion for public choice. Effects of property rights, distributional considerations, social cost. Listed jointly as Huxley 493.

485 COMPARATIVE ECONOMIC SYSTEMS (4)
Prereq: Econ 203 or 204. A comparative analysis of the major economic systems: a critical appraisal of underlying philosophies, structures and individual performance.

486 ECONOMIC DEVELOPMENT (4)
Prereq: Econ 203 or 204. Causes and conditions characterizing the process of economic development. An evaluation of alternative approaches toward development policies.

491 ISSUES IN POLITICAL ECONOMY (4)
Prereq: senior standing in the economics/political science combined major, or an economics major and political science minor. Discussion and analysis of selected issues of significant economic and political content. Also offered as Pol Sci 491.

Graduate Courses

Courses numbered 500, 517, 545, 587 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog. These courses are offered irregularly in conjunction with the MBA Program. See the Graduate School section in front of this catalog for a description of the MBA program.

510 SEMINAR IN PUBILC ECONOMICS (4)
Prereq: written permission of instructor. An analysis of the behavior of the public sector and the incidence of its attempts to achieve allocation, distribution and stabilization goals.

511 SEMINAR IN FINANCIAL INSTITUTIONS AND MONEY (4)
Prereq: written permission of instructor. The monetary and financial system. Relation of economic theory to monetary policy and economic activity.

525 SEMINAR IN LABOR ECONOMICS (4)
Prereq: written permission of instructor. Selected topics in the economics of labor markets and the process of collective bargaining.

551 SEMINAR IN INTERNATIONAL ECONOMICS (4)
Prereq: written permission of instructor. Detailed analysis of the pure and monetary theories of international trade and their relevance to the modern world.

582 SEMINAR IN REGIONAL ECONOMICS (4)
Prereq: written permission of instructor. Case studies in regional social accounting, growth and stability, intraregional relations, concepts and criteria of regional planning.
Educational Administration & Foundations
School of Education

EDUCATIONAL ADMINISTRATION & FOUNDATIONS FACULTY

JOHN F. UTENDALE (1972) Chairman
Associate Professor, BS, University of Alberta; MED, Eastern Washington State College; EdD, Washington State University.

THOMAS BILLINGS (1964) Professor, BS, PhD, University of Oregon.

RICHARD T. BISHOP (1965) Assistant Professor, PhD, University of Chicago; MA, Michigan State University.

LESLIE BLACKWELL (1968) Associate Professor, BA, Washington State University; MED, EdD, University of Washington.

FLORA FENNIMORE (1969) Professor, BA, Mt. Angel College; MA, EdD, Washington State University.

P. RICHARD FERINGER (1952) Associate Professor of Education, BS, University of Minnesota; EdD, University of California, Los Angeles.

BURTON L. GROVER (1969) Associate Professor, BS, MA, PhD, University of Minnesota.

F. HERBERT HITE (1968) Professor, BA, MA, College of Puget Sound; EdD, Washington State University.

LORRAINE KASPRISIN (1979) Assistant Professor, BSEd, MA, The College of the City of New York; MPhil, PhD, Teachers College, Columbia University.

SAMUEL P. KELLY (1965) Professor of Education and Dean of Graduate Affairs and Research, BA, BA in Ed, MED, Western Washington State College; PhD, University of Chicago.

MORGAN LIVINGSTON (1977) Lecturer, BA, MA, University of Oregon.

G. ROBERT ROSS (1983) Professor and President of the University, BS, MS, Texas A&M, PhD, University of Denver.

LEONARD SAVITCH (1967) Associate Professor, BS, Pennsylvania State; MA, Teachers College, Columbia University; PhD, University of Washington.
OVERVIEW

The Department of Educational Administration and Foundations is comprised of those programs which extend and complement the education experiences offered to teacher education program certification students.

FOUNDATIONS OF EDUCATION

The Foundations program provides a sequence of transition courses between a student's general education at Western and the areas of professional specialization in the School of Education. Major purposes are: (1) to enhance a student's general education; (2) to synthesize and consolidate a student's general knowledge and focus it on the problems and challenges of the teaching profession; (3) to provide the necessary depth and breadth prerequisite to teaching in any of the several areas of specialization; (4) to acquaint the student with the moral, ethical and political challenges faced by the profession.

EDUCATIONAL ADMINISTRATION

The Educational Administration program is designed to prepare elementary and secondary school teachers to assume the leadership role of the principal or vice principal. Upon successful completion of the program, candidates are recommended for the master’s degree and/or principal certification. The program emphasizes curricular areas in school finance, school law, staff/community relations and collective bargaining. The requirements for principal certification include a master's degree, Washington State teaching certificate and one year of teaching experience. Candidates are directed to the Graduate section of this catalog for more information; the program area office is located in Miller Hall 204.

HUMAN RESOURCES DEVELOPMENT

This area consists of three programs: Human Services Program, Adult Education Administrations and Student Personnel Administration in higher education.

The Human Services Program (HSP) offers an undergraduate major leading to a Bachelor of Arts degree. Students interested in more information about the Human Services Program should see the Human Services Program section in this department.

The two Human Resources Development graduate programs are described in more detail in the Graduate section of this catalog.

EDUCATIONAL TECHNOLOGY

The Educational Technology program provides instruction and research to the education profession in the areas of audio-visual instruction, television, library science and computer education, including interactive computer systems, information storage and retrieval and databases and instruction design involving technology.

Educational Technology programs include: a Library Science minor; a fifth-year program for the Learning Resource Specialist, a master's degree program in Learning Resource Administration; and a Computer Education supporting endorsement (minor). The Admission and Advisement Office is located in Miller Hall 204.

EDUCATIONAL COMPUTERS MINOR

This program is designed for students in teacher preparation programs or teachers of elementary, secondary or special education students who wish to improve or develop their abilities to select, use, adapt and create learning materials incorporating microcomputers. This program will provide teachers with the background necessary to integrate computers into their lesson plans.

Minor (supporting endorsement)
24 credits

Required Courses 15-18 Credits
- EdAF 444 Computers in the Classroom (3)
- CS 391 Introduction to CAI Programming (3) or
- EdAF 457a Computer Programming Procedures (3)
- EdAF 457b Educational Uses of Microcomputers (3)
- EdAF 457d Practicum in Educational Microcomputers (3)
One course from the following:

- EdCl 422 The Elementary Curriculum (3)
- EdCl 424cd Language Arts in the Secondary Curriculum (3)
- EdCl 425cd Social Studies in the Secondary Curriculum (3)
- EdCl 462 Curriculum for the Exceptional Child (4)

Elective Courses 5-9 Credits

- EdAF 450 Introduction to Learning Resources (3)
- Music 420 Electronic Music Laboratory (2)
- Comp Sci 110 Introduction to Programming (4)
- Off Admin 243 Introduction to Data Processing (3)
- Off Admin 410 Integrated Word Processing Systems (4)
- EdAF 457c Instructional Games and Simulations (3)
- EdAF 457e Interactive Systems (3)

It is recommended that students have keyboard proficiency or take:

- Off Admin 116 Basic Typing (3)

COURSES IN EDUCATIONAL ADMINISTRATION & FOUNDATIONS

Courses numbered 337, 347, 400, 417, 445 are described on page 28 of this catalog.

310 THE TEACHER AND THE SOCIAL ORDER (3)
Prereq: sophomore status. Dominate aspects of society as they interact with schools and teaching.

340 PARAPROFESSIONAL ADVISEMENT (3)
Prereq: employment or anticipated employment in campus-based student services and permission of instructor. Course work emphasizes the nature of the helping relationship, an overview of philosophical and theoretical issues which confront paraprofessionals; and the development of specific job requirement skills.

341 PRACTICUM IN PARAPROFESSIONAL ADVISEMENT (1)
Prereq: EdAF 340 and permission of instructor. Supervised practicum for students to work in university student services programs. May be repeated with varied experiences to a total of six credits. S/U grading.

350 OPERATION OF LEARNING RESOURCE EQUIPMENT (1)
Instruction in the operation of Learning Resource equipment including: video tape recorders, 16 mm projectors, slide/filmstrip projectors, overuse and opaque projectors, microcomputers. S/U grading.

410 TEACHING THE CULTURALLY DIFFERENT CHILD (4)
Prereq: EdAF 310 or equivalent. Analysis of legal, political and cultural forces influencing instruction of the culturally different child, of his family, community and values, and of school curricula provisions for cultural identity.

411 FOUNDATIONS OF EDUCATION (4)
Prereq: admission to a professional studies program. Differing views of human nature and learning as they relate to educational aims, methods and content.

413 HISTORY OF AMERICAN EDUCATION (4)
Historical development of formal education emphasizing the impact of cultural forces on evolution of the American system of public education.

414 COMPARATIVE EDUCATION (3)
Educational systems in the major countries, including Canada, backgrounds, aims, types and present functions; comparison with the American system.

415 PERSISTENT PROBLEMS IN EDUCATION (3)
Seminars in socio-political problems relating to education; different seminars deal with different problems and related sociological and philosophical theory.

427 ADULT EDUCATION: AN EMERGING FIELD (4)
Prereq: permission of instructor. An examination of current social problems and strategies/solutions developed by adult educators.

444 COMPUTERS IN THE CLASSROOM (3)
Prereq permission of instructor. A study of computers in the classroom including Computer-Managed Instruction Systems (CMIS) and Computer-Associated Instructional Systems (CAI)

450 INTRODUCTION TO LEARNING RESOURCES (3)
Prereq: an introductory professional education course. The role and application of educational media and technology in the teaching-learning process.

451 PRACTICUM IN LEARNING RESOURCES (3)
Prereq: EdAF 450. Preparation of instructional materials for classroom utilization; selection, evaluation, utilization of major types of audiovisual materials and equipment; organization and curricular integration of educational media laboratory.

456 PRINCIPLES AND PRACTICES OF INDIVIDUALIZED INSTRUCTION AND CONTINUOUS PROGRESS EDUCATION (4)
Prereq: practicing teacher. Survey of practices related to most individualized programs and how such practices and programs relate to certain principles of learning; emphasis on types and uses of alternative learning materials found in such programs and systems for monitoring and managing learner progress.

457A COMPUTER PROGRAMMING PROCEDURES (3)
Prereq: EdAF 444 or permission of instructor. An introduction to the basic elements of computer programming. Students will learn beginning BASIC, Pilot and LOGO, and will learn to analyze problems and apply straight line programming, selection, repetition and recursion as appropriate strategies.

457B EDUCATIONAL USES OF MICROCOMPUTERS (3)
Prereq: EdAF 444 or permission of instructor. An analysis of teaching and classroom management styles as it relates to microcomputers. Microcomputer learning materials and programs will be reviewed and analyzed in terms of teaching strategies used; planning strategies for the integration of microcomputers into schools and classrooms will be introduced.

457C INSTRUCTIONAL GAMES AND SIMULATIONS (3)
Prereq: EdAF 444 or permission of instructor. Critique commercially developed games and simulation programs; programming & evaluation of instructional games and/or simulations.
Educational Administration & Foundations

457d PRACTICUM IN EDUCATIONAL MICROCOMPUTERS (3)
Prereq: EdAF 444 or permission of instructor. The designing and evaluation of microcomputer programs for teaching course objectives. Evaluation of students cognitive and affective responses to microcomputer programs.

457e INTERACTIVE SYSTEMS (3)
Prereq: EdAF 444 or permission of instructor. An introductory study of interactive systems in educational settings. Includes videotapes/microcomputer interface and database services.

458 MANAGING CONFLICT AND STRESS (3)
Prereq: Upper-division standing or permission of instructor. Examines the relationships among conflict, stress and health. Coping and managing techniques are emphasized. Self assessment methods necessary to diagnose stressors in the work setting, etc., are also included.

473 EDUCATIONAL STATISTICS (3)
Prereq: Math 240 or equivalent, or permission of instructor. Statistical analysis of school data and research in education, primarily selected analysis of variance and correlation procedures: computer applications.

519 CURRENT ISSUES IN EDUCATION (1-5)
Prereq: graduate status or permission of instructor. Examination and discussion of several current and controversial issues in higher education in any of the following areas: (a) adult education; (b) educational administration; (c) foundations; (e) learning resources/library science; (f) personnel administration; (g) community education; (h) inter program topics.

535 SEMINAR IN PUBLIC SCHOOL FINANCE (4)
Local-state fiscal arrangements; current school budgets; related educational finance procedures.

538b CASE STUDIES IN SCHOOL ADMINISTRATION
b.c.d (2-3)
Prereq: graduate status. Studies to assist students in understanding school administration. (May repeat to a maximum of 6 credits.)

539 EDUCATIONAL LEADERSHIP (4)
Prereq: teaching experience. Roles and responsibilities of persons serving as members of the leadership team in public schools.

540 POLITICS OF EDUCATION (4)
Prereq: graduate status. Political dimensions of education at local, state and national levels in USA and Canada.

541a THEORY IN EDUCATIONAL ADMINISTRATION (4)
Prereq: graduate status. Major administrative theories.

541b PUBLIC SCHOOL ORGANIZATION AND ADMINISTRATION (4)
Prereq: graduate status. Major administrative theories.

541c SCHOOL LAW (4)
Legal principles underlying statutes and court decisions related to the schools.

549c COLLECTIVE BARGAINING IN PUBLIC SCHOOLS (4)
Technical structure and protocol of collective bargaining as well as issues and practices.

542a FIELD STUDY IN EDUCATIONAL ADMINISTRATION
b.c.d (2-3)
Prereq: advancement to candidacy, permission of instructor and submission of outline indicating scope of project. Design, implementation and evaluation of a field project (6 credits minimum)

543a SUPERVISION IN THE PUBLIC SCHOOLS (4)
Supervision as educational leadership in continuous evaluation and improvement of school practice.

543b SEMINAR IN SCHOOL PERSONNEL ADMINISTRATION (4)
Prereq: permission of instructor. Professional relationships among certificated employees and other school personnel: development and implementation of policies.

543c DEVELOPING STAFF AND COMMUNITY RELATIONS (4)
Prereq: graduate status. Models for planning, implementing, and evaluating professional development and school/community relations programs.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 INTRODUCTION TO EDUCATIONAL RESEARCH (4)
Prereq: graduate status. Experimental, documentary, case study, survey and other methods of educational research.

510 CULTURAL AND LINGUISTIC DIVERSITIES IN AMERICAN EDUCATION (4)
Prereq: must be a practicing teacher. Development of the knowledge and skills necessary to understand culturally different children. A review of methods for teaching such children in school settings.

511 SEMINARS IN SOCIAL THEORIES AFFECTING EDUCATION (3)
Studies in various aspects of social theory as it relates to education. Different seminars will deal with different topics and related theory.

512 SEMINAR IN EDUCATIONAL PHILOSOPHY (4)
Prereq: EdAF 501. Differing concepts on the nature of human beings and their education: historical and philosophical development of these concepts, their basic premises, implicit assumptions and issues.

513 SEMINAR IN PSYCHOLOGY AND SOCIOLOGY OF EDUCATION (4)
Prereq: EdAF 501. Differing concepts of the nature of the individual and society: psychological and sociological development of these concepts: basic premises and implicit assumptions.

516 SEMINARS IN PHILOSOPHY OF EDUCATION (3)
Prereq: EdAF 411 or equivalent. Studies of the works of one man, a problem or a movement: implications for schooling.

134
544a SYSTEMS APPROACH AND EDUCATIONAL MANAGEMENT (4)
The systems approach as related to educational project planning and management.

544b COMPUTER TECHNOLOGY AND EDUCATION (4)
Prereq: permission of instructor. A seminar in the study of computers in education; Computer-Managed Instruction (CMI), Computer-Assisted Instruction (CAI). Data processing in schools and classroom management.

544c PLANNING FOR INSTRUCTIONAL INNOVATION (4)
Prereq: graduate status. Planning and decision-making process as related to successful adoption of educational innovations.

544a ADMINISTRATIVE RESEARCH TOPICS
b.c.d (2-3)
Prereq: graduate status. Identification, study and evaluation of research topics appropriate for building level administrators. (May repeat to a maximum of 6 credits.)

547a READINGS IN SCHOOL ADMINISTRATION
b.c.d (2-3)
Prereq: permission of instructor. Supervised study focusing on one or more selected topics. (May repeat to a maximum of 6 credits.)

548 ADMINISTRATION AND THE INTERNATIONAL SCHOOL (2-6)
Prereq: permission of instructor; graduate status. An examination of the structure, organization and principles by which Western European schools are financed, staffed and administered.

549 SEMINAR IN SCHOOL ADMINISTRATION (4)
Current and emergent education problems.

550 ORGANIZATION AND ADMINISTRATION OF EDUCATIONAL MEDIA PROGRAMS (2)
Prereq: EdAF 450 or permission of instructor. Problems and principles in establishing, staffing, financing, coordinating, housing and evaluating an audio-visual center.

551 SEMINAR IN LEARNING RESOURCES (3)
Prereq: graduate status and 35 credit hours in the program. Analysis of factors affecting communication utilizing learning resources.

554a STUDENT PERSONNEL ADMINISTRATION (4)
Prereq: admission to the program in Student Personnel Administration or permission of instructor. The services commonly included in student personnel programs of colleges and universities; emphasis on purpose, scope, function and effect of student services, their conceptual framework and relationship to faculty, other administrative offices and students.

554b THE COMMUNITY COLLEGE (3)
Prereq: admission to Student Personnel Administration Program or permission of instructor. History, objectives, organization and role of the public community college; special attention to the expanding system in the State of Washington.

554a, SEMINARS: COLLEGE STUDENT PERSONNEL
b.c ADMINISTRATION (4 ea)
Prereq: admission to Student Personnel Administration Program or permission of instructor. Intensive examination of current philosophies, theories and practices in higher education administration. Major emphasis is placed on human development and organization behavior.

558 STUDENT DEVELOPMENT COUNSELING FOR STUDENT PERSONNEL ADMINISTRATORS (3)
Prereq: admission to Student Personnel Administration Program or permission of instructor. Consideration of theories and techniques involved in student development counseling and advisement, including interviewing, interpersonal communications and crisis intervention; emphasis on skill acquisition through micro-training techniques.

559 RESEARCH IN COLLEGE STUDENT PERSONNEL ADMINISTRATION (1-3)
Prereq: admission to MED program in Student Personnel Administration and EdAF 501. An in-depth research project in the area of higher education administration or related areas of inquiry. (May be repeated to a maximum of 6 credits.)

570 COMUNITY EDUCATION (4)
Prereq: graduate status or permission of instructor. The development of the skills and understandings necessary in the organization, programming, curriculum, financing, administration and staffing of community education programs and schools.

571 SEMINAR IN COMMUNITY EDUCATION (4)
Prereq: EdAF 570 or permission of instructor. Advanced study of community education programs; critical review of current and emergent problems and theories.

575 ASSESSING EDUCATIONAL QUALITY (3)
Prereq: EdAF 501 or permission of instructor. Developing criteria and designing procedures for measuring input process and output resulting from special or innovative programs; community factors, options in administrative and instructional organization; are coordinators and research workers in the public schools.

576 ADULT EDUCATION ADMINISTRATION (4)
Prereq: upper-division course in administration theory, or equivalent; e.g., administrative experience. Planning, organizing, budgeting, staffing adult educational programs in higher educational institutions, museums, libraries and churches.
577 LEARNING PROBLEMS OF ADULTS (4)
Prereq: permission of instructor. The problems related to structuring learning and instruction for adults in most types of teaching situations are examined. Case studies utilized.

578 PROGRAM PLANNING FOR ADULT EDUCATION (4)
Prereq: graduate status and permission of instructor. Program planning for all types of institutionalized adult education settings, including both private and public organizations, in-service education, etc. Case studies utilized.

579 THE NATURE AND USE OF POWER IN BUREAUCRACIES (4)
Prereq: graduate status or permission of instructor. Examines the nature of social power in organizations, how power is created and how it flows, how it is increased through coalitions, coalition bargaining issues and patterns, conditions influencing coalition formation, conflict bargaining, theories of bargaining tactics, and uses and misuses of coercion.

590 SEMINAR IN DEMONSTRATION TEACHING AND SUPERVISION (3)
Prereq: EdCI 442 or permission of department. Advanced studies in the principles of supervision, and the utilization of instructional resources and the evaluation and improvement of teaching.

592a FIELD EXPERIENCE IN ADMINISTRATION FOR THE PRINCIPAL (2-6)

592b FIELD EXPERIENCE IN STUDENT PERSONNEL ADMINISTRATION (2-6)
Prereq: admission to Student Personnel Administration program. Supervised field experience in developing leadership and management skills and competencies in student personnel administration. Students will intern in various offices and programs of college student services or related activities. Repeatable to a maximum of 13 credits. S/U grading.

592g FIELD EXPERIENCE IN COMMUNITY EDUCATION LEADERSHIP (2-6)
Prereq: admission to candidacy and assignment by an educational agency to a role within a community education setting in the public schools, or permission of instructor. Supervised field experiences in developing leadership and management skills and competencies in community education through the public schools. Students will work with teachers, other educators, and community personnel and resources in designing, implementing and evaluating the community school concept and programs appropriate for the designated community.

592h FIELD EXPERIENCE IN ADULT EDUCATION (2-6; total 8)
Prereq: permission of instructor. Supervised field experience in developing, directing or evaluating adult education programs relating to: (h) Administration; (i) Learning problems; (k) Curriculum planning.

594 PRACTICA IN ACTION RESEARCH (3 ea)
Prereq: teaching experience and permission of instructor. Field-based studies by entire school building staffs to resolve persistent and significant school problems. Course requirements include the development of an approved proposal for action research. S/U grading. May be repeated with different content.

639 CURRENT TOPICS IN EDUCATION (1-5)
Prereq: master's degree and permission of instructor. Studies of current topics in any of the following areas: (a) adult education; (b) educational administration; (c) learning resources/library science; (f) secondary education; (g) special education; (h) personnel administration; (j) elementary education; (k) early childhood education; (n) community education; (p) interprogram topics.

642a FIELD PROJECT IN EDUCATIONAL ADMINISTRATION (2-5)
Prereq: master's degree, permission of instructor and submission of a one-page outline indicating scope of proposed project (repeatable to 8 credits).

643 ADMINISTERING THE IMPROVEMENT OF CURRICULA (3)
Prereq: M.A. or M.Ed. and EdCI 521 or 522 or equivalent. Systematic analyses of curricular offerings; development of guidelines for curriculum design and development of curricular screening devices.

644a SEMINARS IN EDUCATIONAL MANAGEMENT:
(a) ADVANCED SYSTEMS THEORY (5 ea)
644a Advanced Educational Systems Analysis
Prereq: master's degree and permission of instructor. Identification of high priority needs within a school system and application of systems theory.

644b Educational Change: Theory and Practice
Prereq: master's degree and EdAF 644a. Analysis of strategies and tactics for effecting planned change in public schools and for districts.

644c Management by Objectives: Accountability
Prereq: master's degree and EdAF 644a. Establishment of management objectives at various levels (system-process, input, output, etc., for the express purpose of evaluating people and/or programs thus affecting accountability).

647a SEMINARS FOR SCHOOL PRINCIPALS (4 ea)
Prereq: master's degree, applicant for a Washington State Principal's Credential and/or permission of instructor. Current problems and issues facing school administrators.

676 INSTRUCTIONAL SYSTEMS THEORY AND COMMUNITY COLLEGE INSTRUCTION (4-6)
Prereq: master's degree and/or permission of instructor. Instructional systems theory with application to the development of competency-based programs for community college instruction. Students will plan, write and evaluate a short competency-based program for an instructional problem in their own area of teaching.

690a THESIS (5-9)
Prereq: approval of the student's graduate committee. Research study under the direction of a faculty committee; the thesis may be done off campus between periods of residence work.

690b FIELD PROJECT (4-8)
Prereq: approval of the student's graduate committee. Field project under the direction of a faculty committee; the field project may be done off campus between periods of residence work.

692a FIELD EXPERIENCE IN ADMINISTRATION FOR THE PRINCIPAL (2-4)

136
HUMAN SERVICES

Human Services, as a field of study and practice, is concerned with both voluntary and organized efforts to aid persons in fulfilling their needs for physical and mental health, education, employment, nutrition, shelter and recreation. Human Services has become a growing employment and educational area since personal and group services are increasingly in demand both in human development and rehabilitation.

The Human Services Major

This major is an upper-division learning program within the Department of Educational Administration and Foundations leading to a BA degree. The curriculum is interdisciplinary, systems oriented and based on concepts from the social and management sciences. Curricular goals stress the continual interaction between theory and practice through purposeful integration of classroom concepts and field placement experiences.

The curriculum design uses field experience as a learning laboratory. Students must work for 16 or more hours per week in a human service organization. This work environment provides context in which students can apply and assess knowledge acquired in the classroom through reading and related workshop experiences. The field placement also provides a context in which career opportunities and interests can be clarified.
Eligibility

Applicants to the Human Services Program include:

(a) Salaried employees who work in agencies and institutions which fit the human services category.

(b) Persons who have, or can obtain, volunteer fellowships (paid by the agency) or work-study placements with agencies and institutions which fit the human services category. Students are responsible for finding their own placements subject to program approval.

Preference will be given to applicants who have completed two years of college or university study, including the General University Requirements (sciences, mathematics, communications, social sciences, humanities, non-western and minority cultural studies).

Academic Program

The academic program in Human Services is interdisciplinary in nature and focuses on both knowledge acquisition and skills development. These two aspects of learning — conceptual development and practical application — are emphasized throughout the entire curriculum. The Human Services curriculum consists of five forms of study: the CORE courses, the Seminar course, Theory Practice Integration, the Practicum Seminar course, and Independent Study. CORE, Theory Practice Integration, and Practicum Seminar are taken together as a nine-credit package each quarter for six quarters as a field-based learning sequence. Seminars, Independent Study, and additional seminars and electives from other departments, complete the student's program in additional specific topic areas. Courses are scheduled to minimize conflict with work schedules. Most classes meet in the evening, with some meetings taking place in the afternoon or on weekends. The required pattern of credits for graduation with a Human Services major is as follows:

- Core (6 quarters): 24 credits HS 301, 303, 305, 402, 404, 405
- Theory Practice Integration (6 quarters): 24 credits HS 390a,b,c; 490a,b,c
- Practicum Seminars (6 quarters): 6 credits HS 320a,b,c; 420a,b,c
- Seminars: 18 credits
- Electives (seminars, independent study, related course work in other departments): 18 credits

Total: 90 credits

Core classes serve an integrating function and emphasize system interdependence in human service delivery. The Seminar classes provide opportunities for examination of human service issues, as well as development of specific helping skills. Theory/Practice Integration and Practicum seminar courses complete the important link between the field practice and the content gained in the classroom.

Application

Students should apply for admission to the Human Services program at Miller Hall 305.

COURSES IN HUMAN SERVICES

Courses numbered X37, X97, 300, 400, 417, 445 are described on page 28 of this catalog.

301 INDIVIDUAL SYSTEMS (4)

Basic elements of systems study are introduced and the effects of interactions studied. Values, management of personal growth and change through problem solving and development of personality are emphasized.

303 INTERPERSONAL SYSTEMS (4)

The interactions of two individuals are viewed as separate but interacting sub-systems of a larger interpersonal system. First-quarter themes are examined in the context of personal interactions, with emphasis on interpersonal communications theory and skills and the management and resolution of interpersonal problems and conflicts.

305 GROUP SYSTEMS (4)

The dynamics of group interaction are examined in the context of small groups as systems. Focus is on the examination of small group behavior, including leadership, decision making, controversy, power, norms, and problem solving.

320a,b,c PRACTICUM SEMINAR—FIRST YEAR (1 ea)

Prereq: must be taken concurrently with HS 390a,b,c. Readings and discussion on the application of Human Services concepts, with emphasis on individuals and groups.

331 DEVELOPMENTAL PATTERNS: CHILDREN/ ADOLESCENTS (3)

Examination of the developmental stages and tasks of infancy, childhood and adolescence, with emphasis on the problems of services.

335 DEVELOPMENTAL PATTERNS: ADULTS/SENIORS (3)

Examination of the developmental stages and tasks of the aged. Attitudes toward aging and services for the elderly are examined.

337 DEVELOPMENTAL PATTERNS: FAMILY (3)

Study of the development of the family within the context of historical, organizational, communication and change patterns. Methods for understanding and changing family dynamics are introduced.

341 HELPING RELATIONSHIP I: INDIVIDUAL (3)

Basic concepts and skills for counseling in one-to-one settings are examined with emphasis on the basic procedures for helping clients. Opportunities provided for the practice of specific skills.

343 HELPING RELATIONSHIP II: INDIVIDUAL (3)

Issues include critique of basic skills application, analysis of alternative interventions, the limits of responsible intervention, referral resources and ethics. Opportunities provided for the practice of specific skills.
EDUCATIONAL ADMINISTRATION & FOUNDATIONS

345 HELPING RELATIONSHIP: GROUP (3)
Attention is given to stages of group development, techniques for beginning a group, analysis of members' styles, and practice with interventions appropriate for specific client groups.

347 DYNAMICS OF PERSONAL GROWTH (3)
Research and clinical findings in huministic psychology are used to assess personal potential and to explore participants' skills and potential for growth and change.

371 ISSUES AND CONCEPTS IN HUMAN SERVICES SYSTEMS (3)
Current issues and concepts are considered, with emphasis on providers, recipients of services and the cultural influences.

373 LAW AND HUMAN SERVICES (2)
Examination of legal processes and their effect on human services client populations and delivery systems. Legislative, judicial, administrative, and policy and procedural processes are examined.

377 MINORITIES AND HUMAN SERVICES (3)
Examination of culturally different groups and their interaction with human services systems. Emphasis upon comparative ethnic issues, conflicts and institutional practices.

381 PROGRAM PLANNING AND ADMINISTRATION (3)
Study and application of concepts and skills for planning, budget, fiscal management, personnel administration, public relations and management information systems.

383 MANAGEMENT AND SUPERVISION (3)
Study and application of concepts and skills for supervising others in a human services setting, including motivation, productivity, leadership and performance evaluation.

385 PROGRAM EVALUATION (3)
Study of techniques for the systematic feedback of information used to improve client services. Methods of obtaining feedback from planning stages through long-term program implementation are analyzed.

390a,b,c THEORY/PRACTICE INTEGRATION — FIRST YEAR (4)
Prereq: must be taken concurrently with HS 320a,b,c. Field experience and project course for first-year students in human services. The theory/practice integration provides the problems and issues for academic study projects relating primarily to individual and groups, both as clients and staff. Staff and agency supervision. S/U grading.

402 ORGANIZATIONAL SYSTEMS (4)
Organizational characteristics and the organization's ability to attain objectives are examined with emphasis on the systems structure, values, technology, and degree of interdependence. Applied skills include data gathering on behavior of the agency system, ability to arrange the data for analysis and to draw conclusions for alternative plans.

404 COMMUNITY SYSTEMS (4)
Community systems and the relationship of the community systems to other sub-systems within the human services (individual, interpersonal, family, group and organization) are examined. Applied skills include community analysis, problem identification and research at the community level.

406 SOCIETAL SYSTEMS (4)
Social forces, social change and their effects on the human services worker are examined. A social change system model and methods of social/cultural research are studied to provide integration and synthesis of the human services core sequence.

420a,b,c PRACTICUM SEMINAR—SECOND YEAR (1 ea)
Prereq: HS 320a,b,c. Must be taken concurrently with HS 450a,b,c. Readings and discussion on the application of Human Services concepts with emphasis on agencies and organizations.

432 CONTEMPORARY PERSONALITY THEORY (3)
Examination of contemporary theories and theorists of personality development, such as existentialism, and the emergence of humanistic psychology, including Peris, Bine and Schutz.

434 WOMEN AND MEN IN TRANSITION
Examination of changes occurring in women's/men's roles. Emphasis on personal awareness as well as social, political and economic issues of particular interest to women/men.

438 HOLISTIC HEALTH (3)
Health from a systems approach and the interplay of body/mind/spirit, with emphasis on the roles which human service delivery systems (including major health systems) play in fostering or discouraging holistic health practices.

444 SUBSTANCE ABUSE: ETIOLOGY AND TREATMENT (3)
Examination of the labeling and behavior process in substance abuse (drug, alcohol, food), and exposure to theories and treatment modalities.

474 WORK AND HUMAN SERVICES (3)
Work and career patterns in contemporary culture, with a focus on manpower needs, unemployment patterns and the place of work as a political and lifestyle issue.

476 THE FUTURE SOCIETY AND HUMAN SERVICES (3)
Theories and predictions about the future of society are examined as they impact the kinds, quality and theory of human services delivery.

480 POLITICS OF HUMAN SERVICES (3)
Examination of political forces affecting human services agencies, and the development of skills for intervention in the political process.

482 HUMAN SERVICES ACTION RESEARCH (3)
Study and application of research techniques leading to direct social action and agency intervention.

494 PROGRAM FUNDING (3)
Planning, writing, marketing and evaluating funding proposals. Elements of grant proposal preparation, including the methods of seeking grant funds, interpreting funding guidelines, designing marketing strategies and negotiating with funding agencies are covered.

486 HUMAN RESOURCES DEVELOPMENT (3)
Examination of adult learning theory and design, and skill development in the design and conduct of adult learning and training programs.

490a,b,c THEORY/PRACTICE INTEGRATION—SECOND YEAR (4)
Prereq: must be taken concurrently with HS 420a,b,c. S/U grading. Field experience and project course for second-year students in human services. The theory/practice integration provides problems and issues and academic study and for projects relating to agencies and organizations. Staff and agency supervision. S/U grading.
Students enjoying a break between classes.

EDUCATIONAL CURRICULUM & INSTRUCTION FACULTY

MARIE D. EATON (1975) Chairman
Associate Professor, BA, Pomona College; MEd, PhD, University of Washington

CHARLES M. ATKINSON (1975) Associate Professor, BA in Ed, MEd, Central Washington State College; EdD, Utah State University

HORACE O. BELDIN (1985) Professor, BS, MS, University of Oregon; PhD, Syracuse University

ROBERTA A. BOUVERAT (1970) Assistant Professor, BA, MEd, Western Washington State College; PhD, The Ohio State University

RICHARD J. L. COVINGTON (1985) Associate Professor, BA, Doane College; MEd, Whittier College; EdD, University of California, L.A.

LEE A. DALLAS (1966) Associate Professor, AB, Gettysburg College; MSed, EdD, Temple University

HELEN F. DARROW (1989) Professor, BS, Wilson Teachers College; MA, Northwestern University; MA, University of California, Los Angeles; EdD, Teachers College, Columbia University

HOWARD M. EVANS (1972) Associate Professor, BS, Eastern Oregon College; MA, EdD, University of Illinois

FLORA FENNIMORE (1963) Professor, BA, Mt. Angel College; MA, EdD, Washington State University

SHEILA FOX (1977) Lecturer, BA, Western Washington State College; MEd, PhD, University of Washington

C. MAX HIGBEE (1962) Professor, BA, Simpson College; MS, Washington State University; PhD, University of Iowa

F. HERBERT HITE (1968) Professor, BA, MA, College of Puget Sound; EdD, Washington State University

PETER J. HOVENIER (1970) Associate Professor, BA, University of California, Santa Barbara; MA, Brigham Young University; MA, PhD, Stanford University

MARVIN L. KLEIN (1971) Professor, Acting Dean, School of Education, BS, MS, Southern Illinois University; PhD, University of Wisconsin, Madison

GEORGE S. LAMB (1966) Professor, AB, Macalester College; MA, University of Washington; PhD, University of Minnesota
ROBERT A. McCracken (1953) Professor, BA, MA, PhD, Syracuse University.
THEODORE A. MORK (1971) Associate Professor, BA, MEd, Western Washington State College, PhD, Syracuse University.
ALDEN L. NICKELSON (1962) Professor of Education and Biology, BS, MA, PhD, University of Washington.
ROBERT H. PINNEY (1971) Associate Professor, BA, University of Washington, EdD, Stanford University.
MAURICE L. SCHRANTZ (1968) Professor of Geology and Education, BS, MA, PhD, Columbia University.
SY SCHRANTZ (1967) Associate Professor, BS, MS, EdD, Wayne State University.
MARIAN J. TONJES (1975) Professor, BA, MA, University of New Mexico, EdD, University of Miami.
JOHN C. TOWNER (1972) Professor, BS, MSE, Wisconsin State University, PhD, University of Minnesota.

(c) Complete additional course work approved by the Department of Educational Curriculum and Instruction in lieu of student teaching.

Application for the Bachelor of Arts in Education degree without certification should be made to the chairperson of the Department of Educational Curriculum and Instruction upon completion of the prerequisites for student teaching.

ADMISSION TO TEACHER EDUCATION

The University shares with the profession as a whole the important responsibility for the selection of potential teachers. Admission to the University does not automatically admit the student to teacher education programs.

All applicants for the Bachelor of Arts in Education degree are required to meet the General University Requirements outlined under "Requirements for Bachelor's Degrees, General University Requirements."

APPLICATION

Students should apply for admission to the elementary, secondary or special education program before taking a second professional course in the Department of Educational Curriculum and Instruction. Application is to be made at the Admissions and Advisement Office of the School of Education, Miller Hall 202.

Students with prior records involving a felony must report to the Certification Officer, Miller Hall 206, prior to registering for any course work in the School of Education (as required by WAC 180-80-200 (4): RCW 28A.70.140).

ADMISSION STANDARDS

All Educational Curriculum and Instruction students are required to meet the professional education requirements in the catalog current at the time they are admitted to a teacher education program. Students should apply for admission to the Admissions and Advisement Office, Miller Hall 202.

English Competence: Prior to admission, all applicants will be required to pass the general education course in English composition with a grade of "B" or better and to take and pass a common English competency examination administered by the Testing Center.

Speech Competence: All candidates for admission to teacher education programs are expected to demonstrate competent speaking ability. A
grade of "B" or better in Speech 101, or a "C" or better in Speech 205 or 302, will be deemed evidence of minimal competence.

Scholarship: A cumulative grade point average of 2.5 overall and in work taken at WWU is required for admission to all teacher education programs.

ADMISSION CLASSIFICATIONS

On the basis of standards listed above, students will be admitted or admitted with provisions or not admitted. Students may not continue to take professional education courses toward certification if not admitted to a teacher education program.

PROGRAM STANDARDS

Educational Curriculum and Instruction students must maintain a 2.5 GPA in work taken at Western. If a student’s grade point average falls below 2.5, that student will be dropped from the teacher education program. A student may petition the program for reinstatement, and faculty action of the program area may deny or grant reinstatement or grant reinstatement with conditions. (Check academic departments for major, minor grade point average requirements.)

In certain situations a case conference may be called by the program head with faculty acquainted with the student and/or the student’s work to determine the student’s qualification for admission or retention.

Credit is given in courses graded “A,” “B,” “C,” “D,” “S,” and “P.” However, the grade of “D” represents poor work which is not acceptable in the major, minor or professional studies courses.

COURSES COMMON TO ALL PROGRAMS

- EdAF 310 The Teacher and the Social Order
- EdCI 363 Survey of Exceptional Children, or EdCI 360 Introduction to Exceptional Children
- Psych 351 Psychology of Human Learning and Instruction

EdAF 310 should be taken early in the teacher education programs.

To this common core students will add courses in either elementary education or secondary education. Special education students will have to complete additional special education courses. Students admitted to teacher education programs in the Department of Educational Curriculum and Instruction are required to possess minimum computer literacy prior to completion of their program and prior to being recommended for certification. Students will choose either the campus-based or field-centered program to complete their student teaching requirements.

STUDENT TEACHING

Office—Miller Hall 205

All teacher education programs leading to certification require student teaching. The requirement in student teaching for the initial certificate is generally 16 credits, with the exception of special education which requires 32 credits. Student teaching will be either campus-based or field-centered.

The Campus-Based Program requires one quarter of student teaching and additional course work on campus.

The Field-Centered Program requires two consecutive quarters in a school classroom. The first quarter replaces several courses in the campus-based program. See description under Secondary Education and/or Elementary Education for more specific information.

Students are urged to make an early choice of options. Careful advanced planning is essential to the completion of teacher preparation within the normal four-year university program of study. Consult the Office of Student Teaching, Miller Hall 205, for assistance.

The student, under advisement, may seek to develop teaching competence in two fields if he has adequate academic background. He may also obtain recommendations for both secondary and elementary levels if he has an appropriate major field and the elementary teaching minor and undertakes student teaching at both levels.

PREREQUISITES FOR STUDENT TEACHING

(a) Admission and continued good standing in the elementary or secondary education program.
(b) Completion of at least 128 credits.
(c) A chest x-ray or T.B. skin test in compliance with state law.
(d) Payment of a $5 lab fee associated with the field-centered program, payable to the cashier prior to reporting to your assignment.
(e) See descriptions of secondary, elementary and special education for specific course requirements.

Application for Student Teaching

Application for student teaching must be filed in January preceding the academic year in which
the student intends to do the work. Students will indicate a first, second and third choice as to when they wish to begin their field work and as to geographic areas in which placement is acceptable. It is necessary that the students keep the Office of Student Teaching, Miller Hall 205, informed of any changes or cancellations so that openings may be made available to other students.

Students planning to enroll in student teaching fall quarter are advised that eligibility must be established by the close of spring quarter. Students intending to student teach winter quarter must have eligibility established by the close of summer quarter, and students intending to student teach spring quarter must have eligibility established by the end of fall quarter. Fall quarter student teachers are expected to begin their work with the fall opening of the public school. These students may register for EdCI 490 in addition to the 16 credit student teaching course.

Time Involvement

All work in student teaching is considered full-time and normally requires seven clock hours plus class preparation time and seminars. Students may not register for other course work during this time period. Outside work or other demanding commitments, which could affect the quality of work in teaching, must be approved by both the director of student teaching and the appropriate program area head.

Placement Locations

Field-centered and campus-based student teaching programs are available in school districts in Whatcom and Skagit counties and in the greater Seattle area.

SECONDARY EDUCATION
(Grades 7-12)
Program Office—Miller Hall 306

The Secondary Education Program offers alternative routes toward Washington State certification. The program is competency-based and students are required to demonstrate teaching competence according to established criteria.

Admission to Secondary Education

Application should be made at the School of Education Admissions and Advisement Office in Miller Hall 202.

Students holding a bachelor’s degree with a certifiable major may be admitted to the Secondary Education Program.

Program Standards

Students who have been admitted with provisions must remove any deficiencies prior to taking 400-level curriculum and instruction courses.

Students admitted must successfully complete a minimum of one professional studies course each calendar year. Those who do not meet this requirement will be dropped and must reapply to Secondary Education before continuing with professional studies courses.

Secondary Certification—Grades 7-12

Students completing the Secondary Education Program may receive a recommendation to the State of Washington that the initial teaching certificate, grades 7-12, be granted upon completion of the following:

1. The professional studies program in secondary education with a 2.5 gpa.
2. A baccalaureate degree with a certifiable major.
3. Declaration of intent to become a U.S. citizen or U.S. citizenship.
4. Demonstrating minimum computer literacy.

Teaching Major

The academic majors listed below are accepted by the State of Washington for secondary teaching (grades 7-12). Students are directed to contact the appropriate academic department for advisement. Departmental sections of the catalog describe the requirements for each major.

Art
Biology
Biology/Chemistry
Biology/Physical Science
Business Education
Chemistry
Chemistry/Mathematics
Chemistry/Physics
Earth Science
Earth Science/Physical Science
English
English/Speech
Environmental Studies
Ethnic Studies
Foreign Language
General Science
Geography
Health Education
History
Home Economics
Industrial Arts
Mathematics
Music Education
Physical Education
Physical Science
Educational Curriculum & Instruction

Physics
Physics/Mathematics
Political Science
Psychology
Sociology
Speech
Visual Communications Education

Student-designed majors may be acceptable if developed according to established policies and procedures.

A teaching minor is often desirable. Check departmental offerings for availability and requirements. (Also see English As A Second Language, and Library Science in the Interdisciplinary Programs section, and Educational Computers in the Educational Administration and Foundations section of this catalog.

Professional Studies

The professional studies program normally requires three quarters of resident study including student teaching. All students in secondary education are required to complete:

- EdAF 310, The Teacher and the Social Order (3)
- EdCI 363, Survey of Exceptional Children (1), or EdCI 360, Introduction to Exceptional Children (3)
- EdCI 398, Instruction in Secondary Schools I (2)
- Psych 351, Human Learning and Instruction (3)
- Psych 353, Adolescent Psychology (4)

Thereafter students must choose either the campus-based program or the field-centered program.

A. Campus-based program

(One quarter of student teaching)

- Psych 371, Evaluation of the Secondary Schools (3)
- EdAF 411, Foundations of Education (4)
- EdCI 420, Instruction in Secondary Schools II (4)
- EdCI 485, Student Teaching—Secondary (8-16) (One quarter of student teaching).

B. Field-centered program

(A laboratory quarter and one quarter of student teaching in the public schools supplemented by seminars)

- EdCI 492, Laboratory in Secondary Teaching (16)
- EdCI 495, Student Teaching—Secondary (8-16)

Prerequisites for Secondary Student Teaching

(a) Completion of at least 30 credits of the proposed teaching major with a grade point average of 2.5 or better in all courses taken in the teaching major.

(b) See the general description listed previously.

ELEMENTARY EDUCATION
(Grades K-8)
Program Office—Miller Hall 251

The professional concentration for the elementary teacher (elementary major) and the elementary teaching minor both lead to certification for elementary teachers.

Admission and Retention

Application shall be made at the School of Education Admissions and Advisement Office in Miller Hall 202.

No more than 15 credits of course work in professional studies and teaching methods taken prior to admission may be counted toward program requirements.

In certain situations a case conference may be called by the program head with faculty acquainted with the student and/or the student’s work to determine qualification for admission or retention.

To be fully admitted into the professional concentration in elementary education, students must meet the admission standards and, in addition, furnish: (1) evidence of at least ten days of full-time observation and participation in an elementary school classroom; (2) at least two letters of recommendation; and (3) successful completion of one quarter of EdCI 399. Application forms and initial advisement are available in the Admissions and Advisement Office, Miller Hall 202.

Professional Concentration in Elementary Education — Elementary Education Major

This 55-credit concentration fulfills all professional requirements for certification with recommendation for general classroom teaching in the elementary grades (K-8) when accompanied by a 40-credit “Academic Study in Depth.”

Professional Education Courses

Plan with an elementary adviser for 85 credits of work from the following four blocks within the specified minimum and maximum credits and for a 40-credit “Academic Study in Depth” as described at the end of this section. It is always the student’s prerogative to propose alternative ways to meet requirements.
**BLOCK A (Professional Studies Component)**

Minimum of 4 credits each of four areas from 1-5. Maximum 30 credits.

Requirements for Block A vary depending on whether the student chooses a one-quarter student teaching or a two-quarter student teaching program.

**Campus-Based Program (one quarter of student teaching)**

Area 1 Teaching as a Profession—Select from EdCl 131, 363 (or 360), 390, 399, 490*
Area 2 Human Relations—Select from EdCl 391, 399, 438; Speech 407
Area 3 Foundations of Education—Select from EdAF 310, EdCl 399, EdAF 411*
Area 4 Elementary Methods and Analysis—Select from EdCl 399, 421, 429, 432, 433, EdAF 450*
Area 5 Child Development and Learning—Select from EdCl 399; Home Econ 320; Psych 316, 351, 352, 372*

All students take EdAF 310, EdCl 363, (or 360), 399, Psych 351 and 352 as required courses. These meet the minimums from Areas 3 and 5. Additional courses must be taken to meet minimums in two of the other areas.

**Field-Centered Programs (two quarters of work in an elementary classroom in place of the one-quarter student teaching)**

Students meet all minimum requirements for Block A and Block D by completing the following:

- EdAF 310, EdCl 363 (or 360), 399, 491 (laboratory quarter)
- Psych 351, 352 (or 316)
- EdCl 494 (student teaching quarter)

**BLOCK B**

Minimum of 5 credits in each of Areas 6a-9, maximum 36 credits

Area 6a Reading—Select from EdCl 385, 484, 485, 486, 488
Area 6b Language Arts—Select from Eng 440 or EdCl 424, 439, 493el, Lib Sci 405, Eng 441*
Area 7 Social Studies Education—Select from Hist 391 or alternative; Soc St Ed 325 or EdCl 426ab*
Area 8 Mathematics Education—Select from Math 281, 481*
Area 9 Science Education—Select from Sci Ed 380, 381, or 383, or Sci Ed/Geol 384 or Sci Ed/Phys Sci 382*

**BLOCK C**

Minimum of 3 credits in each of two areas from 10-13, maximum 20 credits

- Area 10 Physical Education - PE 306*
- Area 11 Art Education - Art 380*
- Area 12 Music Education - Music 350*
- Area 13 Industrial Arts Education - Tech 350*

**BLOCK D**

Minimum of 16 credits, maximum, 32 credits

Area 14 Student Teaching (EdCl 491, 494)

*Consult adviser in Elementary Education for additional courses appropriate for application to the 85 credit total.

**Academic Study in Depth**

The student will develop an academic concentration of 40 credits by extending one area from areas 5-13 with prior approval of the elementary adviser and consultation with appropriate departments. Some overlap of courses is possible between those taken to satisfy General University Requirements or the 85-credit professional concentration and those taken to satisfy this academic requirement.

The student is expected to identify a central theme or focus for the academic study and select courses appropriate to the development of that theme. At least 20 of the 40 credits must be in courses in which the main emphasis is not teaching strategies; at least 20 credits must be taken in departments outside the School of Education.

Work in the Academic Study in Depth should be initiated early in the student's program, preferably as a sophomore, before seeking formal admittance to the professional concentration in elementary education.

**Elementary Education Minor**

(To be accompanied by an academic major)

**PROFESSIONAL STUDIES COMPONENT** (36-42 credits)

**Campus-Based Program (One quarter of student teaching)**

- EdAF 310, EdCl 363 (or 360)
- One course from EdCl 421, 433, or EdAF 450
- EdAF 411, EdCl 494 (student teaching)
- Psych 351, 352 (or 316), 372

**Field-Centered Program (Two quarters of work in an elementary classroom in place of one-quarter student teaching)**

- EdAF 310, EdCl 363 (or 360), 491 (laboratory quarter)
- EdCl 494 (practicum quarter)
- Psych 351 and 352 (or 316)
ELECTIVES (12 credits)

Twelve credits to be approved in advance by adviser. These courses may not be from the student's major. No more than one elective course may be taken from any one department. Courses most often used as electives include PE 306, Art 350, Music 350, Tech 350, Lib Sci 405. Many others are acceptable. See elementary adviser.

Academic Major

The following departments offer majors which have been approved to accompany the elementary education minor:

Art
English
Environmental Studies
General Science
Geography
Geology (Earth Science)
Home Economics (Child Development)
Mathematics
Music
Physical Education
Psychology (Human Development)
Social Studies
Speech
Speech Pathology/Audiology

Student Teaching In Elementary

The minimum requirement for elementary student teaching is a one-quarter, 16-credit student teaching course (EdCI 494). Many students choose the two-quarter field-centered program (EdCI 491-16 and EdCI 494-16).

Prerequisites for elementary student teaching:

(a) Completion of EdAF 310, EdCI 383 (or 360), 385, Psych 351, 352 and courses in four areas of the elementary curriculum including EdCI 485 and Math 481; recommendation of readiness for student teaching by the elementary adviser.

(b) See the general description previously listed.

SPECIAL EDUCATION

Program Office—Miller Hall 318

Major—Elementary Special Education

- EdCI 350, 361, 451, 462, 462a, 466
- Elementary Basic Core
  - EdCI 485 (4)
  - EdCI 424 or Eng 440 (4)
  - EdCI 426 or Soc St Ed 325
  - Math 281 (4) and 481 (4)
  - Sci Ed 380 (3)
- Electives: 7-11 credits selected under advisement from the following: EdCI 281 (1) (may be repeated for a maximum of 3 credits); Mental Retardation: EdCI 485; Emotionally Disturbed: EdCI 483; Learning Disability: EdCI 460a,b,c; Elementary Education: EdCI 439, 488, Lib Sci 405, a second course in math education and in science education.

Minor

The above major must be accompanied by an academic minor in an area approved by the adviser. Minors are offered in most of these areas; see department section of the catalog and departmental advisers for specifications.

Major — Secondary Special Education

The student will complete a teaching major from the approved list of teaching majors in secondary education.

Minor

The student will complete a Special Education minor:

- Special Education courses: EdCI 360, 361, 451, 462, 462a, 466
- Elementary Education courses: EdCI 485, plus at least one course from EdCI 424, 426, 439; Eng 440; Lib Sci 405; Math 281, 481; Soc St Ed 325; Sci Ed 380, 381

Professional Studies

- Complete the campus-based or the field-centered program for either the elementary or secondary level. Depending on level of preparations (A or B above), for endorsement in special education, add EdCI 494 or 495 as appropriate and EdCI 498, Supervised Student Teaching—Special Education
TEACHER CERTIFICATION

School of Education
Admissions and Advisement
Miller Hall 202/204

Requirements for the Initial Certificate

The Initial Certificate is awarded to candidates who hold a baccalaureate degree from an accredited college or university and who receive a recommendation for certification from the Certification Office of the School of Education. Candidates for the secondary certificate shall have completed a major from those listed under Secondary Education. Candidates for the elementary certificate shall have completed an academic major from those listed under Elementary Education or a major in Elementary Education.

The Initial Certificate is valid for four years and is endorsed for both grade level and subject matter area. The certificate may be renewed once for a three-year period provided the following criteria can be met:

1. No more than ten years have elapsed since completion of the original preparation program.
2. The candidate is formally enrolled in a planned continuing level preparation program.
3. The candidate has completed 15 or more quarter hours of course work relevant to that program.
4. The credits must have been earned in the last seven years immediately preceding the date of application for renewal, unless the individual has completed at least 30 days of teaching in any one of those seven years. (In that event, other hours may be used for renewal purposes.)

The certificate will again be endorsed for both grade level and subject matter area.

Initial Certification of Degree Holders

U.S. citizens or persons declaring citizenship intent who hold a bachelor of arts or bachelor of science degree from an accredited institution may be admitted to a program leading to the Initial Teaching Certificate. This individually prescribed program normally entails three to five quarters of residence study, including student teaching.

Persons selected for this program must have demonstrated academic ability, a broad liberal arts preparation, a major field acceptable for public school teaching and realistic career plans.

Fifth Year of Study Under the 1962 Standards

Students completing their “Fifth Year” under the 1962 Standards should consult with the Admission and Advisement Office, MH 202/204, for regulations and requirements.

Requirements for the Continuing Certificate (1978 Standards)

The Continuing Certificate is awarded to candidates who have (a) completed at least 45 quarter hours of upper-division and/or graduate study subsequent to the baccalaureate degree of which 30 quarter hours must be taken after the first year of teaching, and (b) who have completed at least three years of service in an educational setting (540 days at a minimum of five hours a day), at least two years of which shall be as a classroom teacher in grades K-12.

The Continuing Certificate is valid while the teacher is in educational service but will lapse if the holder does not serve at least 30 school days in an educational setting during one of seven consecutive school years.

A candidate who will be completing the 45 quarter hours inside the state should apply to the teacher education institution of his/her choice. Such institution shall be responsible for verifying completion of the continuing level preparation program.

A candidate who will be completing the continuing level preparation program outside the state should apply to the Office of Certification and Licensing (Old Capitol Bldg., FG-11, Olympia, WA 98504) for approval and verification of program completion.
If an applicant has not served in an educational setting or has not completed a preparation program within the seven-year period preceding application for the certificate or has not completed 15 quarter hours of course work within the seven-year period immediately preceding application for the certificate, he/she will be required to complete refresher study consisting of 15 quarter hours of course work applicable to his/her field of study in order to be eligible for continuing certification.

Requirements for Continuing Level Certification at Western

1. An approved plan of study must be filed with the School of Education, Office of Admissions and Advisement. Endorsement of the plan of study by the candidate's supervisory principal or administrator is required.

2. Continuing level course work must be approved prior to registration.

3. Course work must be post-baccalaureate and upper-division (300-400) or graduate level.

4. Correspondence study is limited to five quarter or three semester hours.

5. A minimum of one-half the program (23 quarter hours) shall be earned through Western; the remaining 22 credits may be earned under WWU advisement through other approved four-year institutions.

6. A maximum of 15 post-baccalaureate credits may be earned prior to completion of one year (180 days) of teaching experience.

7. All course work is to be taken through approved four-year institutions. Out-of-state institutions seeking to offer professional education courses within the State of Washington must have approval from the State Board of Education within the Office of the Superintendent of Public Instruction.

8. No grades below "C" are acceptable for certification purposes. If a course is taken Pass/Fail, the candidate must provide a statement from the instructor that Pass represents a "C" or better.

9. Persons interested in pursuing a master's degree and the Continuing Certificate concurrently should also contact the Graduate School for information on graduate programs available.

10. When all requirements have been met, formal application for the Continuing Certificate is made through the School of Education, Office of Admissions and Advisement, Miller Hall 202/204 (206-676-3378/88).

Within the continuing level preparation program the candidates must demonstrate knowledge and skill in five areas as specified in the State Standards. The courses (plan of study) at Western for meeting these requirements are described below:

Plan of Study for the Continuing Certificate for Teachers

A. Demonstration of Competencies — minimum of 24 credits.

State Generic Standards
(WAC 180-79-130)

(* ) Staff development and supervision.

(2) Research and evaluation

(3) Referral agencies and resource personnel.

(4) Knowledge of alternate grade level.

(5) Professional development and scholarship.

Courses Meeting Standards

☐ Minimum of 3 credits in:
— EdCl 502a or EdAF 543a

☐ Minimum of 3 credits in:
— EdAF 501 or 594j

☐ Minimum of 3 credits in:
— EdCl 502b or 566 or 594e or 594f

☐ Minimum of 3 credits in:
— EdCl 502c or 522a or 581 for elementary certificate holders
—EdCl 502c or 521 for secondary certificate holders

☐ Minimum 12 approved credits in area of concentration (e.g., major, minor, teaching specialty)

B. Electives to complete 45 required quarter hours — minimum of 21 credits.

(1) Include courses recommended by principal/supervisor.

(2) Must be approved by faculty adviser.
COURSES IN EDUCATIONAL CURRICULUM & INSTRUCTION

Courses numbered 317; 397: 300, 400, 417; 445 are described on page 28 of this catalog.

KEY TO COURSE NUMBERS: The first digit follows the University policy of numbering for the year in which the course is normally taken. The second digit signifies the following course groups:
0  Introductory
2  Curriculum and instruction
3  Child and Youth Education
6  Special Education and the Disadvantaged
9  Reading
9  Supervised Teaching or Practicums

(See Psychology section for courses in educational psychology)

109  INTRODUCTION TO EDUCATION (3)
History, sociology, philosophy and psychology of education; alternative to EdCI 310 for Fairhaven College students only.

131  INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3)
Review of the field in terms of history, philosophy, and professional opportunities; observation of young children.

221  TEACHER AIDE CONSULTATION (3)
Provides specific training and consultation in the field to teacher aides who work with Native American students. S/U grading.

222  ISSUES IN INDIAN EDUCATION FOR TEACHER AIDES (3)
Provides a perspective of various approaches and models to Indian education. Reviews educational materials and current trends in policies and regulations in Indian education at the national and state levels.

261  PRACTICUM ORIENTATION TO SPECIAL EDUCATION (1)
Guided observation and career exploration in special education; may be repeated for a maximum of 3 credits. S/U grading.

331  CREATIVE LEARNING EXPERIENCES IN EARLY CHILDHOOD EDUCATION (3)
Materials and teaching strategies designed to elicit creative responses in young children through storytelling, art, music, body movement, puppetry, creative dramatics, etc.

360  INTRODUCTION TO EXCEPTIONAL CHILDREN (3)
Prereq: sophomore status. The characteristics and treatment of handicapped and gifted children.

361  PRACTICUM IN SPECIAL EDUCATION (4)
Prereq: EdCI 390 or permission of instructor. Observations and participation in recreational and educational activities of exceptional persons.

393  SURVEY OF EXCEPTIONAL CHILDREN (1)
Introduction to the characteristics of and special education programs for exceptional children. S/U grading.

385  FOUNDATIONS OF READING INSTRUCTION (2)
Exploration of the reading process; principles underlying the teaching of reading.

390  PROFESSIONAL PRACTICUM AND SEMINAR (3)
Prereq: permission of instructor. Observation, participation and related seminars to enable each student to make a suitable professional decision. S/U grading.

391  HUMAN RELATIONS (1-4)
A study and practicum in interpersonal relationships as they affect teacher-student interaction.

398  INSTRUCTION IN SECONDARY SCHOOLS I (2)
Professional career development, observation of students, secondary curricula, planning for instruction, school law.

399  SEMINAR IN ELEMENTARY EDUCATION (1)
Prereq: permission of advisor; completion of 10 days of full-time observation and participation in an elementary school; open only to students in the Professional Concentration for the Elementary Teacher. Teaching as a profession, methods of instruction, human relations in the classroom, self-evaluation of candidates as potential teachers; observation and field experiences. Repeatable for a maximum of 5 credits. S/U grading.

401  TEACHING WORD ATTACK SKILLS IN READING (2)
Prereq: teaching experience or permission of instructor. Techniques and materials for teaching word identification and recognition.

402  AIDING SECONDARY DISABLED READERS (2)
Prereq: teaching experience or permission of instructor. Teaching techniques and materials proven to be useful in aiding disabled language disorders. Both reading in the content areas and developmental reading skills will be considered.

418  METHODS AND MATERIALS FOR TEACHING ENGLISH AS A SECOND LANGUAGE (4)
The development of basic skills in teaching English as a second language to speakers of other languages.

420  INSTRUCTION IN SECONDARY SCHOOLS II (4)
Prereq: EdCI 390 and admission to secondary education. To be taken one or two quarters prior to student teaching. Teaching methods including diagnostic techniques, models of instruction, questioning skills, discipline, time management and peer teaching.

421  INSTRUCTION IN THE ELEMENTARY SCHOOL (3-5)
Organizing learning experiences, selecting methods or processes and materials appropriate to the maturation and rate of development of children.

422  THE ELEMENTARY CURRICULUM (3)
Prereq: student teaching, teaching experience, or permission of department. Historical and analytical study of the curriculum of the elementary school.

423d  CURRICULA IN BASIC LANGUAGE ARTS SKILLS IN SECONDARY SCHOOLS (3)
Prereq: admission to a professional studies program. Designed for those who will be working in development and implementation of curricula to meet new accountability standards. Involves study of these standards and work with actual public school materials.
424a, b, c LANGUAGE ARTS IN THE ELEMENTARY CURRICULUM (4)
FUNCTIONS AND PROGRAMS OF LANGUAGE ARTS IN THE CURRICULUM INCLUDING READING, WRITING, SPEAKING, LISTENING. LETTERS INDICATE GRADE LEVEL OF EMPHASIS IN VARIOUS SECTIONS OF THE COURSE.
(a) PRIMARY
(b) INTERMEDIATE
(x) EARLY CHILDHOOD

424c, d LANGUAGE ARTS IN THE SECONDARY CURRICULUM (3)
FUNCTIONS AND PROGRAMS OF LANGUAGE ARTS IN THE SECONDARY CURRICULUM.
(c) JUNIOR HIGH - MIDDLE SCHOOL
(d) SENIOR HIGH

426a, b SOCIAL STUDIES IN THE ELEMENTARY CURRICULUM (4)
FUNCTIONS, PROGRAMS, AND MATERIALS IN THE SOCIAL STUDIES. LETTERS INDICATE GRADE LEVEL OF EMPHASIS IN VARIOUS SECTIONS OF THE COURSE.
(a) PRIMARY
(b) INTERMEDIATE

426c, d SOCIAL STUDIES IN THE SECONDARY CURRICULUM (3)
PREQ: TEACHING EXPERIENCE OR PERMISSION OF DEPARTMENT. FUNCTIONS, PROGRAMS, AND MATERIALS IN THE SOCIAL STUDIES. LETTERS INDICATE GRADE LEVEL OF EMPHASIS IN VARIOUS SECTIONS OF THE COURSE.
(c) JUNIOR HIGH - MIDDLE SCHOOL
(d) SENIOR HIGH

427 ADULT EDUCATION: AN EMERGING FIELD (4)
PREQ: PERMISSION OF INSTRUCTOR. AN EXAMINATION OF CURRENT SOCIAL PROBLEMS AND STRATEGIES/SOLUTIONS DEVELOPED BY ADULT EDUCATORS.

429 IMPROVEMENT OF WRITING SKILLS FOR CHILDREN (2-4)
APPROPRIATE SEQUENCE OF SKILLS IN COMPOSITION FOR CHILDREN; TECHNIQUES IMPLEMENTING CREATIVE WRITING AND IMPROVING FUNDAMENTAL SKILLS.

441 ANALYSIS AND STRATEGIES OF TEACHING (3-5)
PREQ: ONE COURSE FROM THE EDUCATIONAL PSYCHOLOGY OR FOUNDATIONS AREA, OR PERMISSION OF INSTRUCTOR. SYSTEMATIC STUDY OF TEACHING, OBSERVATION, ANALYSIS AND DEVELOPMENT OF TEACHING SKILLS AND STRATEGIES; INDIVIDUAL PROJECTS.

442 WORKING WITH STUDENT TEACHERS (3)
PREQ:教學 EXPERIENCE. TECHNIQUES FOR THE ORIENTATION OF STUDENT TEACHERS, MAJOR PROBLEMS WHICH CONFRONT STUDENT TEACHERS, AND CRITIQUES OF THEIR ACHIEVEMENT.

456 MANAGING CONFLICT AND STRESS (3)
PREQ: UPPER-DIVISION STANDING OR PERMISSION OF INSTRUCTOR. EXAMINES THE RELATIONSHIPS AMONG CONFLICT, STRESS AND HEALTH. COPING AND MANAGING TECHNIQUES ARE EMPHASIZED. SELF-ASSESSMENT METHODS NECESSARY TO DIAGNOSE STRESSORS IN THE WORK SETTING, ETC., ARE ALSO INCLUDED.

460a LEARNING DISABILITIES (4)
PREQ: EDSCI 360 OR PERMISSION OF INSTRUCTOR. THEORETICAL BACKGROUND, ASSESSMENT AND INSTRUCTIONAL PROCEDURES FOR THE LEARNING DISABLED STUDENT.

460b CURRICULUM AND ACTIVITIES FOR PRESCHOOL HANDICAPPED CHILDREN (4)
PREQ: EDSCI 360 OR PERMISSION OF INSTRUCTOR. CURRICULUM DEVELOPMENT AND SELECTION OF METHODS AND MATERIALS FOR THE PRESCHOOL HANDICAPPED CHILD.

460c DIAGNOSTIC TEACHING OF PRIMARY CHILDREN (4)
FORMAL AND INFORMAL TESTING PROCEDURES FOR IDENTIFYING LEARNING PROBLEMS AND SELECTING TEACHING PROCEDURES FOR EXCEPTIONAL CHILDREN.

461 PRECISION TEACHING — A METHOD FOR THE EXCEPTIONAL PERSON (5)
PREQ: EDSCI 360 OR PERMISSION OF INSTRUCTOR. BACKGROUND AND PRACTICE IN IDENTIFYING AND ASSESSING DEFICIENT CLASSROOM BEHAVIOR, SELECTING APPROPRIATE INTERVENTIONS AND DETERMINING THEIR EFFECT. ONE HOUR PER DAY AT SAME TIME REQUIRED FOR SCHOOL PRACTICUM.

462 CURRICULUM FOR THE EXCEPTIONAL CHILD (4)
PREQ: EDSCI 461 OR TEACHING EXPERIENCE AND CONCURRENT ENROLLMENT IN EDSCI 462B. CURRICULUM SELECTION AND ADAPTATION OF METHODS AND MATERIALS FOR EXCEPTIONAL CHILDREN.

468 CURRICULUM FOR THE EXCEPTIONAL CHILD: PRACTICUM (3)
PREQ: EDSCI 461 AND CONCURRENT ENROLLMENT IN EDSCI 462B. ASSESSMENT, INSTRUCTION, EVALUATION OF PROGRAM PROGRESS AND WRITING THE IEP FOR THE EXCEPTIONAL CHILD. ONE HOUR PER DAY AT SAME TIME REQUIRED FOR SCHOOL PRACTICUM. S/U GRADING.

463 EDUCATION OF BEHAVIORALLY DISORDERED CHILDREN (4)
PREQ: EDSCI 360. DEFINITION, DIAGNOSIS AND TREATMENT OF DISTURBED CHILDREN IN SCHOOL SETTINGS. AN IN-DEPTH ANALYSIS OF THE MAJOR THEORETICAL MODELS OF DISTURBANCE.

464 THE EDUCATIONALLY DISADVANTAGED (4)
PREQ: JUNIORS. METHODS FOR TEACHERS OF CHILDREN WHO ARE UNDERACHIEVING IN SCHOOL DUE TO DIFERENCES IN THEIR CULTURAL/EXPERIMENTAL BACKGROUNDS.

465 ACTIVITIES FOR THE EXCEPTIONAL CHILD (3)
PREQ: EDSCI 360 OR PERMISSION OF INSTRUCTOR. EXPERIENCES WITH INEXPENSIVE MATERIALS AND METHODS WHICH CAN BE USED IN TEACHING ARTS AND CRAFTS TO EXCEPTIONAL CHILDREN. S/U GRADING.

150
GUIDANCE FOR THE HANDICAPPED CHILD (4)
Prereq: EdCI 360 and 361. Techniques for communicating with and counseling exceptional children, their parents and others influential in satisfying their needs.

EDUCATION FOR THE GIFTED AND TALENTED (4)
Prereq: EdCI 360 or permission of instructor. Exploration of characteristics, identification and special needs of the gifted and talented. In-depth analysis of the application of major theoretical models to the development of programs and curricula for the gifted and talented.

EVALUATING PUPIL GROWTH (3)
Prereq: teaching experience or permission of instructor; for experienced teachers and research workers. Evaluative techniques related to significant or complex objectives; assessing outcomes of innovative teaching.

CONFERENCE IN READING (1-3)
Prereq: teaching experience. Repeatable with different themes.

DEVELOPMENTAL READING IN THE SECONDARY SCHOOL (4)
For pre-service and experienced classroom teachers, grades 6-12. Developmental reading skills, reading skills specific to content areas, and basic study skills. Not a course in remedial reading.

THE TEACHING OF READING IN CONTENT FIELDS (4)
Techniques of teaching reading and applying reading to studying in social sciences, mathematics, English and other content areas in upper intermediate and secondary grades.

BASIC READING INSTRUCTION (3-4)
Prereq: EdCI 385 or teaching experience. Basic reading instruction in grades K-8; methods and materials for teaching reading, reading readiness, word attack skills, word reading skills, comprehension skills; grouping; lesson planning.

PROBLEMS IN CORRECTIVE READING INSTRUCTION (4)
Prereq: permission of instructor. Analysis, correction, and prevention of reading problems; refinement of group and informal testing, supervised practicum with pupils having mild disabilities in reading.

INDIVIDUALIZED READING INSTRUCTION (4)
Principles and practices of individualized reading with emphasis on problems in organizing classroom programs for meeting individual interests and needs.

SUPERVISED LABORATORY TEACHING — Courses EdCI 490-496 and 490 offer varied opportunities for laboratory study in the classroom and for student teaching. Practice in the classroom is an integral part of professional preparation. See "Supervised Teaching" section for prerequisites, time of application, etc.

OBSERVATION AND PARTICIPATION (2-5)

LABORATORY FOR ELEMENTARY TEACHING (16)
Prereq: recommended for supervised teaching. Supervised observation and practice of elementary teaching to precede EdCI 494. A field assignment in the public schools is coordinated with seminar and conference instruction. Supervision is provided by selected public school personnel and university faculty. S/U grading.

LABORATORY FOR SECONDARY TEACHING (16)
Prereq: recommended for supervised teaching. Supervised observation and participation in teaching related roles. A field assignment in the secondary public schools is coordinated with seminar instruction in secondary education. Individual guidance and supervision are provided by public school personnel and university faculty. S/U grading.

INDIVIDUALIZED INSTRUCTION IN READING — LANGUAGE ARTS IN THE ELEMENTARY SCHOOL (6 ea)
Integration of reading, writing, speaking, listening and use of children's books as functional tools of the communication process; laboratory experience in developing individualized language activities with children in school settings. S/U grading.

STUDENT TEACHING — ELEMENTARY (8 or 16)
Prereq: permission of department. (See student teaching prerequisites above.) Supervised experience providing opportunities to develop and demonstrate teaching competence at the primary and/or intermediate grades. May be repeated with varied assignment. S/U grading.

STUDENT TEACHING — SECONDARY (8 or 16)
Prereq: permission of department. (See student teaching prerequisites above.) Supervised experience providing opportunities to develop and demonstrate teaching competence at the junior high (middle school) or senior high school level. May be repeated with varied assignment. S/U grading.

PRACTICUM IN DIAGNOSIS AND PRESCRIPTION IN TEACHING (2-3)
Prereq: teaching experience. Defining objectives behaviorally; developing sequential learning activities; analyzing pupil readiness; prescribing appropriate strategies for continuous individual progress; applications with students in classrooms. May be repeated with varied content to a total of nine credits.
Educational Curriculum & Instruction

458 STUDENT TEACHING — EXCEPTIONAL CHILDREN (6 or 16)
Prereq: EdCI 360 and 462 and student teaching or teaching experience and permission of department. Supervised teaching experience providing opportunities to develop and demonstrate teaching competence for exceptional children. S/U grading.

493 ELEMENTARY STUDY IN ENGLAND (3.6)
Practicum and theory of elementary education in England; must be taken in sequence. Offered summers in England.

499e Teaching Practicum in an English Elementary School (3)

499t Workshop in Philosophy, Curricula, Methods and Materials of English Elementary Education (6)

Graduate Courses
Courses numbered 550, 517, 545, 597 are described on page 28 of this catalog.

533a.b. COMPETENCIES FOR CONTINUING CERTIFICATION (3 ea)
Prereq: teaching experience. Demonstrations of minimum generic competencies required for Continuing Certification of teachers: (a) staff development and supervision; (b) referral agencies and resource personnel; (c) knowledge of grade level curricula as that endorsed for initial certification. (Some MEd programs include one or more of the required generic competencies. Candidates should check with advisers.) S/U grading.

511 CURRENT ISSUES IN EDUCATION (1-5)
Prereq: graduate status or permission of instructor. Examination and discussion of several current and controversial issues in higher education in any of the following areas: (a) reading; (b) secondary education; (c) special education; (d) elementary education; (e) early childhood education.

521 SEMINAR IN ELEMENTARY CURRICULUM (4)
Prereq: teaching experience or permission of instructor. Advanced study of curriculum planning and development, including design, materials and problems in curriculum change. Independent research will be expected.

522a CURRICULUM IN THE SECONDARY SCHOOLS (3)
Prereq: admission to graduate program or permission of program adviser. Historical and philosophical perspectives on school curriculum as related to modern curricula. This course is designed for candidates for M.Ed degrees in secondary school curriculum. Recommended for candidates in School Administration.

522b SEMINARS IN SECONDARY CURRICULUM (4)
Prereq: EdCI 522a or permission of program adviser. Planning and development of curriculum. Advanced study of curricular design, materials and evaluation. Emphasis on current studies and trends. Independent research.

523 TEACHING ADOLESCENTS (4)

524 SEMINAR IN SECONDARY SCHOOL LANGUAGE ARTS CURRICULUM (2-4)
Planning and developing curriculum in language, literature and composition. Advanced study in specialized curriculum design and materials.

531 SEMINAR IN EARLY CHILDHOOD EDUCATION (4)
Prereq: permission of instructor. In-depth exploration of programs, theories and significant recent research in early childhood education.

531b ADVANCED SEMINAR IN EARLY CHILDHOOD EDUCATION (3)
Prereq: EdCI 531. Specific problems will be drawn from the field and will be explored according to student need.

532 TEACHING AND LEARNING OF ELEMENTARY SCHOOL SUBJECTS (4)
Prereq: teaching experience or permission of instructor. Advanced study of research findings and theoretical developments affecting the teaching of various basic elementary school subjects.

533 SEMINAR: THE ELEMENTARY SCHOOL CHILD (4)
Prereq: teaching experience or permission of instructor. Critical review of current theories in elementary school classrooms in relation to individual differences and general growth patterns of children. Ages 5-12. Research findings in psychological impact of schooling on child growth and development as bases for examining specific educational practices and determining implications for improving classroom and school practices.

533b ADVANCED SEMINAR IN ELEMENTARY EDUCATION (4)
Prereq: advancement to candidacy. Advanced study of topics in elementary education. Serves as a program capstone seminar.

534 PLAY AND THE CHILD (4)
Prereq: graduate status or teaching experience. Examination of the nature and role of play in the cognitive, affective, physical and social development of the child. Attention is given to the educative functions of play and implications of those functions for curriculum and instruction.

555 MIDDLE SCHOOL CURRICULUM DESIGNS AND INSTRUCTIONAL STRATEGIES (2-6)
Prereq: teaching experience. Current curriculum designs in middle school programs will be surveyed and selected elements analyzed. Appropriate instructional strategies necessary to facilitate these designs will be studied. The individual class member will select the study of some special major middle school development appropriate to his school curriculum and/or program. (May be repeated to a maximum of 6 credits.)

560 SEMINARS IN SPECIAL EDUCATION (2-5)
Prereq: graduate status or permission of instructor. Specific problems and methods for serving exceptional children. Content will vary from semester to semester; hence the course may be repeated for credit.

560a SEMINAR IN EDUCATION OF LEARNING DISABLED STUDENTS (4)
Prereq: EdCI 462a or permission of instructor. Study of instructional and behavioral interventions with learning disabled students and application in the classroom. Procedures for successfully mainstreaming learning disabled students.

561 ADVANCED PROBLEMS IN SPECIAL EDUCATION (3-5)
Prereq: permission of instructor. Intensive study of problems in a selected area of special education.

562 ETIOLOGY OF MENTAL RETARDATION (3)
Prereq: teaching experience or permission of instructor. Mental retardation: major clinical types whose principle feature is retardation. Causes; on-going research into this problem.

563 CURRICULUM AND METHODS OF INSTRUCTION FOR THE MENTALLY RETARDED (3)
Prereq: EdCI 562. CLASS organization, selection of curriculum content and instructional aids for teaching children having a wide range of mental retardation.
EDUCATIONAL TECHNIQUES FOR MALADJUSTED CHILDREN (4)
Prereq: teaching experience or permission of instructor. The use of applied behavior analysis techniques with the emotionally disturbed child in the classroom.

COUNSELING AND GUIDANCE FOR THE HANDICAPPED CHILD (4)
Prereq: EdCI 380, 381. Application of techniques in guiding and counseling exceptional children and communicating their characteristics to parents and others influential in meeting their needs.

SECONDARY AND ADULT READING PROGRAMS (4)
Prereq: baccalaureate degree plus appropriate administrative and/or teaching responsibilities. For administrators, curriculum personnel and experienced teachers in secondary schools and community colleges. Examines present reading education practices, instructional needs of secondary and adult students, innovative programs, materials, staff and curriculum development, evaluation, and guidelines for establishing developmental reading programs.

READING AND CHILDREN'S LITERATURE (4)
Teaching basic reading skills through the use of children's books: selection and analysis of children's books in order to teach reading, from beginning to pre-word recognition levels through junior/senior high level.

PSYCHOLOGY OF READING (4)
Perceptual and cognitive processes in reading and their implications for reading instruction. Study and interpretation of reading research literature and the application of psychological principles to the design of reading research problems.

SEMINAR IN READING EDUCATION (3-4)
Prereq: permission of instructor. Reading education research and its application to classroom practices, to individual problems in the teaching of reading, to supervision and administration of reading programs.

SEMINAR FOR READING SPECIALISTS (4)
Prereq: advancement to candidacy or permission of instructor. Selected readings of a minimum of eight books concerned with issues in reading education.

IMPROVEMENT OF INSTRUCTION IN READING (4)
Prereq: at least one previous course in the teaching of reading or teaching experience. Teaching developmental reading methods, materials theory.

SEMINAR FOR SCHOOL PSYCHOLOGISTS AND READING SPECIALISTS (4)
Prereq: permission of instructor. Orientation to the team approach of studying educational questions and problems. Also provides school psychologists with orientation to the common instructional materials and strategies and the services offered by reading specialists.

SEMINAR IN LANGUAGE ACQUISITION AND READING DEVELOPMENT (4)
Prereq: graduate status or teaching experience. Exploration of current theories in language acquisition, linguistics, and psycholinguistics and implications for early childhood education and reading instruction.

FIELD EXPERIENCE IN ELEMENTARY SCHOOL LEADERSHIP (2-8)
Prereq: permission of instructor. Designing, field testing and evaluating innovative school programs, practices and materials for the elementary school.

PRACTICUM IN READING DIAGNOSIS AND REMEDIATION (4 ea)
Prereq: graduate status or permission of instructor; 61q, or 61h must be taken in sequence. Reading consultant candidates will have consultant opportunities approved by instructor (h).
   (e) Standard diagnostic tests in reading; supervised practice in their use.
   (f) Individual case study: diagnosis and remedial instruction of children with reading problems.
   (g) Advanced practicum in remedial reading.
   (h) Practicum in reading consultant work.

ADVANCED PRACTICUM: EARLY CHILDHOOD EDUCATION (2-6)
Prereq: graduate status or permission of instructor. Individualized practicum in early childhood programs for experienced teachers. S/U grading.

ADVANCED PRACTICUM IN TEACHING: ELEMENTARY SCHOOL (2-6)
Prereq: graduate status and 20 quarter hours of approved course work. Supervised experience for the improvement of teaching. Participants will select an area of concentration, develop plans and procedures for improvement of instruction, and submit a plan for classroom implementation and evaluation.

ADVANCED PRACTICUM: SECONDARY EDUCATION (2-6)
Prereq: graduate status and 20 quarter hours of approved course work. Supervised experience for the improvement of teaching in the secondary school. Participants will develop plans and procedures designed for the improvement of instruction and submit a plan to the course instructor and appropriate public school authority for classroom implementation and evaluation.

PRACTICUM IN SPECIAL EDUCATION (4)
Individualized experience in programs for exceptional children for students having had teaching experience with handicapped children.

FIELD STUDY OF ELEMENTARY EDUCATION IN ENGLAND (2-5)
Prereq: EdCI 499e. An in-depth study of the British primary school system with research focus on one specific aspect. Examines school, philosophy, materials, environment and application to U.S. classrooms.

CURRENT TOPICS IN EDUCATION (1-5)
Prereq: master's degree and permission of instructor. Studies of current topics in any one of the following areas: (a) adult education; (b) educational administration; (c) reading; (d) foundations; (e) learning resources/library science; (f) secondary education; (g) special education; (h) personnel administration; (i) elementary education; (j) early childhood education; (m) community education; (p) interprogram topics.

THESIS (6-9)
Prereq: approval of the student's graduate committee. Research study under the direction of a faculty committee; the thesis may be done off campus between periods of residence work.

FIELD PROJECT (5-9)
Prereq: approval of the student's graduate committee. Field project under the direction of a faculty committee; the field project may be done off campus between periods of residence work.

153
English
College of Arts and Sciences

The Department of English offers majors for the liberal arts student and for the teacher education student.

Under its major in English, the department provides students with the flexibility to construct a program that meets their own educational goals. Students may choose to emphasize the historical and critical study of literature or creative and expository writing.

The English major is one of the central liberal arts degrees. In addition to engaging students in our literary heritage, it fosters the development of sophisticated abilities in analysis, reading, effective communication and expression. These abilities provide graduates with a sound basis for pursuing careers in law, business, publishing and government.

In teacher education, the department prepares majors for teaching at the secondary and the elementary levels. Students are urged to support their major by means of auxiliary courses in drama, reading, linguistics, speech, journalism, history and computer science, or work in other subjects that are related to English language and literature.

ENGLISH FACULTY

DOUGLAS B. PARK (1979) Chairman: Associate Professor, AB, Hamilton College; PhD, Cornell University.
ROBERT D. BROWN (1965) Professor, AB, MA, PhD, Indiana University.
MEREDITH B. CARY (1964) Professor, BA, Central Missouri State College; MALS, University of Michigan; MA, Michigan State University; PhD, University of Washington.
BACHELOR OF ARTS IN EDUCATION

Major — Secondary  64 credits

- Eng 304, 370, 442, 474; Ed 481
- Four courses on the 300 or 400 level in British literature, two before 1800 and two after 1800
- Two courses from Eng 317, 318, 319
- One course from Eng 443, 444 or Ed 424c,d
- One course from Eng 301, 302, 351, 353, 354; Th/D 285
- One course from Eng 314, 321, 327, 338, 341, 422 or other appropriate courses
- Electives

The department strongly recommends that students include courses in literary theory and criticism in their electives.

Major — Elementary  45 credits

- Eng 201, 202
- Eng 304, 370, 440 or 441
- One course from among Eng 234, 321, 327, 338, 341, 422, 429, or other appropriate courses under departmental advisement
- Electives

Students should consult the undergraduate adviser or the English education faculty adviser for distribution of electives as well as the teacher certification requirement in the School of Education listing.

Interdisciplinary Major Concentration

90 credits (Speech 45 credits & English 45 credits)

English: 45 credits

- Eng 304
- Two courses from Eng 306, 307, 308
- Two courses from Eng 309, 310, 311
- Eng 317, 318, 370, 442, 474
- Eng 371
- Electives
English

Speech: (See listing under Speech) 45 credits

Teaching Competence

Recommendation for teaching endorsement normally requires completion of the major or interdisciplinary major concentration. An exception is provided through the extended minor listed below. A grade of 2.5 or better in English is required.

Minors 24 credits

A. English 24 credits
  - Eng 304
  - Electives to total 24 credits

Students may choose freely among English courses to complete the elective requirements of the minor. Those students who wish to concentrate elective credit in one area may do so; for example, elective courses might be selected with emphasis on American literature, British literature, rhetoric, or expository writing.

B. Creative Writing 24 credits
  - Eng 304
  - Four creative writing courses including work in at least two genres
  - Electives under advisement from the 300 and 400 levels

C. Women's Literature 24 credits
  - Two courses from Eng 314, 321, 341
  - Electives under advisement, to be selected from topic courses focused on the work of women authors

D. English — Secondary Education 24 credits
  - Eng 304, 370, 442, 474
  - Electives under advisement

E. English — Elementary Education 24 credits
  - Eng 304, 370, 440 or 441
  - Electives under advisement

F. Extended Minor 35 credits
  (To accompany a history major for those who desire recommendation for a teaching competence combination appropriate for junior high or middle school.)
  - Eng 304, 370, 442

- One of the following groups of courses: Eng 281, 282, 283; Eng 317, 318, 319; or three courses from Eng 306, 307, 308, 309, 310, 311
- Electives under advisement

DEPARTMENTAL HONORS

In addition to the general requirements for all honors students, an English major who wishes to graduate "with honors" must complete Eng 427, one course in criticism, and an upper-division course in philosophy or in literature read in a foreign language.

THE VERTICAL COMPOSITION PROGRAM

These courses are designed to allow the student to improve writing skills progressively throughout the four years of college. They do not constitute a minor, they are available to anyone interested. The courses consist of Eng 101, 201, 202, 203, 270, 301, 302, 354, 371, 401.

GRADUATE STUDY

For options leading to the Master of Arts degree, see Graduate section of the catalog.

COURSES IN ENGLISH

Courses numbered X57; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

General University Requirement Courses

English courses which satisfy GUR requirements are as follows:

Communications: 101, 201, 202, 203, 301, 302
Humanities: 214, 215, 216, 238, 261, 282, 283, 336
Non-Western and Minority Culture Studies: 234, 335, 338

The following entries indicate courses routinely offered by the department. The lettered subheads offer examples of some but not all of the sections of these courses that will be offered during the period of this catalog. For more information about the courses and sections to be offered this year and next, please consult the "Course Descriptions," the English Department's "Course Descriptions" and the "Guide for English Majors." The department makes every effort to offer all required courses at least once a year and all courses in the catalog at least once every two years.

100 REVIEW OF SYNTAX AND USAGE (5)

Emphasizes a basic command of standard written English such as correct usage and punctuation, sound sentence and paragraph structure, and avoidance of errors in division. S/U grading.
101 LANGUAGE AND EXPOSITION (4)
May not be taken concurrently with English 100. Practice in expository strategies such as finding information, focusing on a topic, organizing around a thesis, developing an idea, defining an audience; practice of basic expository types such as definition, comparison, classification and analysis; and the reading of models of expository prose. Students needing to satisfy Block A of the Communications section of the General University Requirements are required to do so prior to completion of 45 credits.

201 INTRODUCTION TO FICTION WITH COMPOSITION (4)
Prereq: Eng 101 or equivalent. An introduction to the nature of fiction with an emphasis upon close reading. Critical essays are required in this course.

202 INTRODUCTION TO DRAMA WITH COMPOSITION (4)
Prereq: Eng 101 or equivalent. An introduction to the nature of drama with an emphasis upon close reading. Critical essays are required in this course.

203 INTRODUCTION TO POETRY WITH COMPOSITION (4)
Prereq: Eng 101 or equivalent. An introduction to conventions of poetry with an emphasis upon close reading. Critical essays are required in this course.

214 INTRODUCTION TO SHAKESPEARE (5)
Reading and discussion of a selected number of Shakespeare's plays. Histories, comedies, tragedies and romances.

215 SURVEY OF BRITISH LITERATURE (5)
Reading and discussion of major works from each of the recognized periods of British literature with some attention to the historical context of the work.

216 SURVEY OF AMERICAN LITERATURE (5)
An overview of American literature and thought from 1620 to 1940.

231 SCIENCE FICTION AND FANTASY (4)
Critical study of types of modern fantasy literature and varieties of science fiction.

234 INTRODUCTION TO AFRO-AMERICAN LITERATURE (5)
Survey of Afro-American experience and its expression during the past hundred years. Typical writers studied are Chesnutt, Dunbar, Johnson, Toofer, McKay, Hughes, samtompaso, Larson, Hurston, Wright, Ellison, Baldwin, Baraka, McPherson and A. Walker.

238 SOCIETY THROUGH ITS FICTION/DRAMA/POETRY (5)
A thematic approach to literature. Different themes will be treated from year to year, showing with various literary forms present society and its problems. May be taken only once for GUR credit.

254 FUNDAMENTALS OF FILM AS COMMUNICATION (4)
A basic course in film studies designed to help students understand visual language and its relation to verbal expression. Recommended for students taking Eng 384; Hist 364; Pol Sci 364.

270 COMPETENCE AND CONFIDENCE IN STANDARD AMERICAN ENGLISH USAGE (3)
Lectures and readings dealing with standard American English usage (idioms, stylistics, punctuation, the nature of correctness). Not applicable as part of the English major or minor. S/U grading.

281, 282, 283 WESTERN WORLD LITERATURE (5 ea)
Reading from classical and medieval, renaissance and neo-classical, romantic and modern literature. Not open to students with credit in Lib St 121, 122, 123.

301 READING AND EXPOSITION (4)
Prereq: Eng 101 or equivalent. An advanced writing course which deals exclusively with exposition as reading and writing problems and allows for a variety of topical material.

302 READING AND ARGUMENTATION (4)
Prereq: Eng 101 or equivalent. An advanced writing course which deals exclusively with argumentation as reading and writing problems and allows for a variety of topical material.

304 CRITICAL INTRODUCTION TO POETRY (4)
Prereq: Eng 101 or equivalent. The course introduces the prospective English major to the vocabulary and grammar of technical discourse about poetry through the close reading of a variety of poetic texts and the writing of a number of expository essays.

305 THEORY OF LITERATURE (4)
The nature and judgment of literature as a form of art; principles and problems; writing of critical studies.

306 BRITISH LITERATURE: MEDIEVAL PERIOD (4)

307 BRITISH LITERATURE: RENAISSANCE (4)

308 BRITISH LITERATURE: 18TH CENTURY (4)

309 BRITISH LITERATURE: ROMANTIC PERIOD (4)

310 BRITISH LITERATURE: VICTORIAN PERIOD (4)

311 BRITISH LITERATURE: MODERN PERIOD (4)

314 MAJOR BRITISH WOMEN AUTHORS (4)
Prereq: Eng 101. Various authors or combinations of authors will be studied from quarter to quarter. Emphasis will be placed upon women's contributions to literature. See Class Schedule for specific offerings. Repeatable with different topics.

317 AMERICAN LITERATURE: COLONIAL AND ROMANTIC PERIODS (4)

318 AMERICAN LITERATURE: REALIST PERIOD (4)

319 AMERICAN LITERATURE: MODERN PERIOD (4)

320 AMERICAN PROSE AND POETRY SINCE 1945 (4)

321 MAJOR AMERICAN WOMEN AUTHORS (4)
Prereq: Eng 101. Various authors or combinations of authors will be studied from quarter to quarter. Emphasis will be placed upon women's contributions to literature. See Class Schedule for specific offerings. Repeatable with different topics.

322 AMERICAN NOVEL TO 1900 (5)

323 AMERICAN NOVEL SINCE 1900 (5)

324 AMERICAN SHORT FICTION (4)

325 MODERN AMERICAN POETRY (4)
3:7 STUDIES IN AFRO-AMERICAN LITERATURE (4)
Different periods, genres and topics such as the Harlem Renaissance or the Black novel will be treated from year to year. See the Class Schedule for specific courses. Repeatable with different topics.

3:13 CONTEMPORARY AMERICAN AND BRITISH LITERATURE (4)
Different sections of this course deal with developments in fiction, drama and poetry since 1950. See Class Schedule for offerings. Repeatable with various topics.

3:14 CANADIAN LITERATURE (4)
Reading of selected works, principally 20th century fiction from English Canada, with some attention to French writers in translation. Emphasis on the social and historical context of Canadian literature.

3:15 LITERATURE OF THE THIRD WORLD (4)
Prereq: Eng 101. A comparative study of the new literatures which have emerged in Africa, India and the West Indies since World War II. Such authors with roots in both European tradition and their own cultures as Achebe, Soyinka, Naipaul and Narayan will be read. Attention will be given to the transformation of Western literary forms in societies with a significantly different world-view.

3:16 THE BIBLE AS LITERATURE (5)
Prereq: Eng 101. Cultural backgrounds of the Old and New Testaments, together with a literary analysis of selected passages.

3:36 WOMEN AND LITERATURE (4)
Prereq: Eng 101. A study of major works by women including their treatment of intellectual and cultural issues.

3:40 FORMS OF THE NOVEL AND SHORT STORY (4)
Various forms of the novel or of short prose fiction will be examined. See Class Schedule for specific offerings. Repeatable with various topics.

3:41 HISTORY OF THE WOMEN'S NOVEL (4)
Prereq: Eng 101. Women's contribution to the history of the novel in England and America, 1660 to the present.

3:42 STUDIES IN DRAMA (4)
Prereq: Eng 101. Different dramatic periods or topics will be treated from year to year. See Class Schedule for specific courses. Repeatable with various topics.

3:51 INTRODUCTION TO FICTION WRITING (4)
Prereq: Eng 101. An introductory course open to students who have not previously taken a college course in fiction writing. Study of appropriate models. S/U grading.

3:53 INTRODUCTION TO POETRY WRITING (4)
Prereq: Eng 101. An introductory course in poetry writing. Open to students who have not previously taken a college course in poetry writing. Study of appropriate models. S/U grading.
INTRODUCTION TO THE WRITING OF NON-FICTION PROSE (4)

LITERATURE AND FILM (4)
Prereq: ENG 101. An examination of the relationship between literature and film. Students will view films based on literary works and discuss the nature of each medium. See Class Schedule for specific offerings. Students may elect more than one offering under this number.

ENGLISH GRAMMAR (4)
Study of descriptive English grammar and related topics. Designed primarily for teaching candidates.

INTRODUCTION TO RHETORIC (4)
Prereq: ENG 101: Rationale of informative and persuasive writing; classical and modern treatments of invention, arrangement, prose style. Rhetorical analysis.

TECHNICAL AND BUSINESS REPORT WRITING (3)

HISTORY OF LITERARY CRITICISM (5)
Prereq: 15 credits in literature. Reading and analysis of major documents of criticism, from Plato and Aristotle to 20th century critics.

TOPICS IN BRITISH LITERARY HISTORY (2-5)
Varying topics, such as modern Irish literature or metaphysical poetry, will be treated from year to year. See Class Schedule for offerings. Repeatable with various topics.

BRITISH NOVEL EIGHTEENTH CENTURY (5)

BRITISH NOVEL NINETEENTH CENTURY (5)

BRITISH NOVEL TWENTIETH CENTURY (5)

STUDIES IN MAJOR BRITISH AUTHORS (2-5)
Various single authors or combinations of authors will be studied from quarter to quarter. See Class Schedule for the various authors to be studied. Repeatable with various topics.

TOPICS IN AMERICAN LITERARY HISTORY (2-5)
Varying topics, such as the West in American literature, will be treated from year to year. See Class Schedule for offerings. Repeatable with various topics.

STUDIES IN MAJOR AMERICAN WRITERS (2-5)
Various single authors or combinations of authors will be studied from quarter to quarter. Repeatable with various topics.

THE AFRO-AMERICAN AND THE LITERARY IMAGINATION (5)
Prereq: ENG 101. Study of Afro writers or ways various American writers have portrayed the Afro-American's image, social role, psychology, etc. Typical writers studied are Dixon, Chesnutt, Stowe, Melville, Whittman, Twain, Dreiser, Toomer, Wright, Faulkner, Ellison.

MAIN CURRENTS IN LITERATURE (5)
Varying topics, such as classical backgrounds, will be offered from year to year. See Class Schedule for offerings. Repeatable with various topics.

MODERN AND CONTEMPORARY LITERATURE IN TRANSLATION (4)
Prereq: 15 credits in literature.

MYTH AND MODERN MAN (4)
Prereq: ENG 101. A basic study of myth from several vantages: comparative religion, psychology, anthropology and philosophy. The application of myth analysis to the work of selected writers, like James Joyce, who used mythic motifs.

LITERATURE AND PSYCHOANALYSIS (5)

ENGLISH FOR THE ELEMENTARY SCHOOL (4)
Survey of resources and methods of teaching the language arts.

WORLD LITERATURE FOR THE ELEMENTARY AND MIDDLE SCHOOL TEACHER (4)
Myth, legend, folk literature, epic, fairy tales and modern novels for children.

COMPOSITION FOR SECONDARY TEACHERS (4)
Prereq: ENG 370. Practice and instruction to improve the writing of students; emphasis on the nature of composition and skill in analyzing non-professional expository writing.

STUDIES IN LANGUAGE AND LEARNING (4)
Prereq: ENG 370. Language in thought and culture, the characteristics of oral and written discourse, and other topics, as background for the teaching of the language arts.

LITERATURE IN SECONDARY SCHOOLS (4)
Survey of resources for teaching literature in secondary schools, methods and practice in teaching literary works in classrooms.

WORKSHOP IN THE TEACHING OF ENGLISH (3-5)
Practical work in the teaching of English.

CONFERENCE ON CHILDREN'S LITERATURE (1-3)
Prereq: Junior status or experience as teachers, librarians or writers. A conference consisting of lectures, demonstrations and small group meetings.

CURRENT TRENDS IN ENGLISH EDUCATION (1-5)
Selected topics in the current developments in literature, composition and linguistics for the elementary and middle school classroom.

CREATIVE WRITING WORKSHOP: FICTION (4)
Prereq: ENG 351 or equivalent. Opportunity for disciplined expression in writing fiction. Study of appropriate models. May be repeated for a total of three times with a limit of one course per quarter.

CREATIVE WRITING WORKSHOP: POETRY (4)
Prereq: ENG 351 or equivalent. Opportunity for disciplined expression in writing poetry. Study of appropriate models. May be repeated for a total of three times with a limit of one course per quarter.

CREATIVE WRITING WORKSHOP: NON-FICTION PROSE (4)
Prereq: ENG 354 or equivalent. Opportunity for disciplined expression in a specialized genre of non-fiction prose: essay, critical review, autobiography, article, etc. Course may be repeated a total of three times with a limit of one course per quarter. Study of appropriate prose models.
English

555 CREATIVE WRITING SEMINAR (4)
   Prereq: two courses in creative writing and permission of instructor. Normally restricted to students who have had considerable writing experience; team taught; open to students working in any genre, including non-fiction prose. Such activities as group discussions, readings, performances and publication of a class magazine will be encouraged. Study of appropriate models.

556 EXAMINING AND COMPOSING POETIC FORMS (4)
   This course combines the approaches of genre study and literary expression.

557 WRITING COMMERCIAL FICTION (4)
   Prereq: English 101. Restricted to students who have a serious intention to write fiction for a popular, commercial market. Writing will be combined with a study of the market and appropriate models.

571 HISTORY OF THE ENGLISH LANGUAGE (4)
   The historical development of the English language; phonology, morphology, syntax, semantics.

574 ENGLISH USAGE (4)

493a,b,c HONORS TUTORIAL (2-5 ea)

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 THEORIES OF LITERATURE (5)
   Examination of theories of literature as they affect the practice of literary criticism and scholarship. Some attention to methods of research and documentation in English studies.

502 SEMINAR IN THE WRITING OF FICTION (5)
   Individual projects in fiction along with examination of recently published works of fiction. May be repeated under advisement.

504 SEMINAR IN THE WRITING OF POETRY (5)
   Individual projects in poetry along with examination of recently published volumes of poetry. May be repeated under advisement.

505 SEMINAR IN THE WRITING OF NON-FICTION PROSE (5)
   Individual projects in non-fiction along with examination of classic and modern models of non-fiction. May be repeated under advisement.

Note: Graduate seminars in playwriting are available from the Department of Theatre/Dance.

509 LITERARY MAGAZINE EDITING AND PRODUCTION (1-2)
   With the permission of the department, a limited number of students may receive credit while working as interns with the editors of a "little magazine." Work will include written evaluations of stories and poems on submission and a comparative study of little magazines in America. The course may be repeated up to a total of 5 credits.

510a-2 SEMINAR, TOPICS IN RHETORIC (5)
   Rhetorical theory and composition. Topics from classical tradition and modern developments. Applications for teaching of language, literature and composition.

513 SEMINAR IN TEACHING COLLEGE COMPOSITION (2)
   Prereq: appointment as a teaching assistant or permission of instructor. Elective. Offered once a year in the fall. S/U grading.

In the following literature seminars, the specific subject matter covered will vary from year to year. Sub-titles indicate subject matter most recently covered.

520 STUDIES IN FORMS OF POETRY (5)
   Offerings such as "Verse and Stanza Patterns" or "The Imagist Tradition" will examine the characteristics, history and criticism of poetic forms. Repeatable under different topics.

525 STUDIES IN FORMS OF FICTION (5)
   Offerings such as "Romance and Realism in the Novel" or "The Rhetoric of Fiction" will examine the characteristics, history and criticism of fictional forms. Repeatable under different topics.

530 STUDIES IN FORMS OF DRAMA (5)
   Offerings such as "The History Play" or "Theories of Comedy" will examine the characteristics, history and criticism of dramatic forms. Repeatable under different topics.

535 STUDIES IN FORMS OF NON-FICTION PROSE (5)
   Offerings such as "The Informal Essay" or "The Art of Polemic" will examine the characteristics, history and criticism of non-fictional prose forms. Repeatable under different topics.

540 STUDIES IN LITERARY MODES (5)
   Offerings such as "Theories of Satire" or "The Pastoral Vision" will examine modes and themes that may cut across the various forms of poetry, fiction and drama. Repeatable under different topics.

550 TOPICS IN AMERICAN LITERARY HISTORY (5)
   Offerings will examine major authors, periods or movements in American literary history. Repeatable under different topics.

560 TOPICS IN BRITISH LITERARY HISTORY (5)
   Offerings will examine major authors, periods or movements in British literary history. Repeatable under different topics.

594a,b PRACTICUM IN TEACHING WRITING (2)
   594a Writing Clinic

595 SEMINAR, RESEARCH TOPICS IN RHETORIC (5)
   Prereq: English 510 or 513. Rhetorical theory, analysis and methods of research in the teaching of writing. Connections with related fields such as cognitive psychology and reading.

598 RESEARCH IN THE TEACHING OF ENGLISH (1-3)
   Prereq: admission to M.A. Program or teaching experience. Various assigned topics in the teaching of language, literature and composition.

690 THESIS WRITING (5)
Fairhaven College

Fairhaven is a liberal arts division of Western Washington University, designed to provide the advantages of a small undergraduate college, while at the same time providing access to the resources of a diversified institution. A Fairhaven student has the best of both worlds: an integrated and distinctive degree program combined with the technical and educational facilities of a state university.

At Fairhaven, emphasis is placed on developing skills of inquiry and problem-solving. Students are challenged to bring what they learn to bear on the basic concerns and crucial problems of human existence, to experiment, to do research and to act. This style of education supports liberal studies; it seeks to develop certain values essential to a college education and to successful work: resourcefulness, discipline, flexibility, initiative, creativity and adaptability. The record of Fairhaven College graduates indicates that they obtain positions in a wide variety of fields, that they enter the professions, and that they apply to and are accepted by outstanding graduate schools within the country and abroad.

Perhaps the most important thing a student learns at Fairhaven is an attitude or habit of critical awareness, of continual question-asking, of taking responsibility, of active participation. It is a motivation to ask not just “what,” but also to discover the “why.” This attitude pushes for the recognition and study of the relations among ideas, the interaction between people and their world, and the connection between knowledge and action. It is the responsibility of faculty to cultivate this attitude in their own studies and in
their classes. It is the responsibility of students to participate in this learning process and to shape their own educational directions.

FAIRHAVEN COLLEGE FACULTY

DANIEL M. LARNER (1996) Professor and Dean of the College, AB, Harvard College; MS, PhD, University of Wisconsin, Madison.

KATHRYN ANDERSON (1972) Associate Professor, BA, MA, University of Iowa; Ph.D, University of Washington.

JOSEPH BETTIS (1975) Professor, BA, Southern Methodist; BD, Drew, MA, PhD, Princeton.

M. CHAEL J. BURNETT (1969) Associate Professor, BA, University of Illinois; MA, PhD, Claremont Graduate School.

W. GARY CLEVIDENCE (1969) Associate Professor, BA, Antioch College; MA, University of Michigan.

CONSTANCE P. FAULKNER (1965) Associate Professor, BS, PhD, University of Utah.

KENNETH FREEMAN (1971) Professor, AA, Mars Hill Jr. College; BA, Wake Forest University; MA, Emory University; PhD, Columbia University.

P. C. GLENN (1960) Associate Professor, BA, University of Washington; MA, Stanford University.

WILLIAM H. HEID (1968) Associate Professor, BA, Denison University; MS, PhD, University of Washington.

RAND F. JACO (1971) Associate Professor, AB, Princeton University; LLB, Yale University Law School.

ROBERT T. KELLER (1988) Professor, AB, University of Puget Sound; BD, MA, PhD, University of Chicago.

DAVID T. MASON (1986) Professor, BA, Reed College; MA, PhD, University of California, Davis.

JOHN C. MCCLendon (1971) Assistant Professor, BA, MA, San Francisco State College; PhD Candidate, University of California, Davis.

DONALD B. McLendon (1983) Professor, BA, Whitman College; MA, University of Montana.

REGISTRATION

The offerings available through Fairhaven are open to all students of Western Washington University, regardless of college affiliation. Quarterly registration takes place at the University Registration Center.

EVALUATION

Fairhaven College does not use the A-F grading system. Courses are taken on a “Satisfactory/Unsatisfactory” basis. Academic credits are granted after satisfactory completion of course requirements and the submission of written student self-evaluation and faculty evaluation of student progress. The official transcript, held in the University Registrar’s Office, lists all Fairhaven and WWU classes and studies completed.

ADVISEMENT

Fairhaven College schedules its own orientation activities and academic advisement sessions for students. During their first quarter, students take the core “Foundations Seminar” and are assigned a faculty adviser. The faculty and staff of the College meet with students throughout their course of study.

PORTFOLIO

In preparation for graduation, Fairhaven students are invited to review their portfolios—which may include materials such as transcripts, evaluations, major concentration documents, letters of reference—and to organize their academic accomplishments for use in employment search, application to graduate school, etc. Other University offices, such as the Career Planning and Placement Center, offer a wide range of planning and consultative services to students.

THE CORE PROGRAM: THREE CURRICULAR STAGES

The Core Program is unique to Fairhaven. Students selecting this option officially enroll at the College, take the core requirements, and complete either a University major or a Fairhaven concentration.

The purpose of the core is to develop skills in reading, writing, oral argument and critical thought through understanding of the forms, the objects and the range of knowledge.

Core courses are found within each of the three curricular stages and they are complemented by other classes designed to widen students’ exposure to areas of study and to focus on subject matters and their correlations. Additionally, independent study, field practica and courses offered by the University comprise the complete degree program.

Students who choose University majors are subject to the expectations specified by each department. Students who undertake the Fairhaven concentration arrange their own curriculum in consultation with the concentration committee.

All three stages of the program must be completed for graduation, although students transferring from other WWU divisions or other colleges and universities may have some requirements waived upon admission. Students need not complete one curricular stage before advancing to the next. Lower-division students in their first or second year take most classes at the 100 and 200 level. Upper-division students in their third or fourth year take most classes at the 300 and 400 level.
STAGE 1: EXPLORATORY STUDIES

Studies to gain basic skills of thought and expression and to develop broad perspectives of knowledge, study of the history, the people and the major concerns associated with intellectual and human activity.

Core Courses: Fair 101, 103, 105, 107, 109, 111, 113, 118, 119

STAGE 2: CONCENTRATED STUDIES

Studies to sharpen, deepen and integrate knowledge and to learn approaches to scholarship, methodological skills and research techniques; framing questions and developing ways in which to answer them.

Core Course: Fair 301, and complete one of the following options:

Option A: Fairhaven Individually Designed Major, The Interdisciplinary Concentration
- Core Course: Fair 303
- Concentration Components:
  - Proposal of Study
  - Completion of Courses
  - Senior Project
  - Student Summary and Evaluation
  - Committee Approval and Evaluation

Option B: Western Washington University Major
- Department Requirements Pertain (See University Catalog)

STAGE 3: ADVANCED STUDIES

Studies to demonstrate understanding of knowledge gained and to assimilate and synthesize what has been learned, discovering ways in which one's specialization may be generalized to other fields and applied to society.

Core Courses: Fair 401 (interdisciplinary concentration students only)
- Fair 403 (concentration and major students)

—Students supplement these core requirements with other Fairhaven or WWU classes and independent studies of their own choosing.

THE MAJOR

Option A: Fairhaven Individually Designed Major, The Interdisciplinary Concentration

The Fairhaven concentration provides a unique opportunity for developing a major. It allows a student maximum flexibility in designing a program to meet personal and career goals.

Concentrations integrate fields represented by more than one discipline. The program combines course work, independent study and field practices relevant to stated purposes. A concentration advisor and committee selected by the student is responsible for assisting in the development, completion and evaluation of the concentration.

Option B: Majors in Other University Divisions

Majors offered by other University divisions are available to Fairhaven College students who choose this option. Department majors are programs of study devised by specialists in particular disciplines.

Requirements of each of the majors available at Western are listed in this catalog. Students should seek departmental consultation and approval from designated advisers.

PROFESSIONAL EDUCATION

Western's School of Education offers a choice of majors—including certain Fairhaven concentrations—appropriate to public school teaching. This is a program for students to acquire teaching credentials. Faculty help to advise students and provide a channel of communication between the School of Education and Fairhaven College.

THE UPSIDE-DOWN DEGREE PROGRAM

The usual route to a B.A. calls for general education to take place during the first two years and for the major area to be completed during the final two years. Fairhaven's Upside-Down Program reverses this process.

Graduates of Washington State community colleges who hold the ATA, the AAS or other approved two-year technical degrees may transfer their specializations to Fairhaven as the completed major. Stages 1 and 3 of the curriculum and a minimum of 90 credits are required for graduation.

Each application for this program is reviewed on an individual basis. Students are urged to contact the College early in the admission process.
FAIRHAVEN COURSES AND STUDIES

Courses and studies offered by Fairhaven College are open to all students of Western Washington University. Credit earned at Fairhaven College by students affiliated with other WWU divisions is applied to the general 180-credit requirement for graduation. Credit earned by Fairhaven College students in courses taken in other WWU departments is applied to the general 80-credit requirement for graduation and to the major or concentration.

The courses and studies listed in this catalog will be offered during the 1983-1985 academic years. Prior to registration, students should consult the Fairhaven College Quarterly (issued three times a year) and the University Class Schedule (issued annually) for these and additional offerings, meeting times and class locations. Students should note that the most complete listing of courses and studies scheduled each term appears in the Fairhaven College Quarterly.

STAGE 1: Exploratory Studies

Studies to gain basic skills of thought and expression and to develop broad perspectives on knowledge, study of the history, people and the major concerns associated with intellectual and human activity.

111 CORE: FOUNDATIONS SEMINAR (5)
Required of Fairhaven College students the quarter of admission. An introduction to critical learning skills, aspects of educational theory, curricular structures and individualized learning. Provides an introduction to the resources of the College and the University. Emphasis on communication skills (writing, seminar discussion, listening), designing and critiquing independent study programs, discovery and use of resources, research techniques and self-evaluation.

113 CORE: SOCIAL PERSPECTIVES (5)
The nature and principles of social organization, the role of the individual in relation to social, economic, religious and political institutions, impact of ideas, values, ideologies and symbols on the social fabric.

115 CORE: HISTORICAL PERSPECTIVES (5)
Various approaches to historical methodology and ways in which information is interpreted to reveal relationships between past and present.

107 CORE: SCIENTIFIC PERSPECTIVES (5)
The nature of scientific truths, sources and manipulation of data, and the philosophical and cultural limits of science.

109 CORE: ARTISTIC PERSPECTIVES (5)
The nature of artistic expression and its relation to society. How artists/writers create and how other experience, analyze and judge the creation.

111 CORE: PERSONAL PERSPECTIVES (5)
What knowledge is possible about the unique individual? Various methodologies and resources for such investigation, exploration of ways toward personal growth.

113 CORE: CROSS-CULTURAL PERSPECTIVES (5)
The variation, function, structures of human culture, the dynamics of enculturation. A look at other cultures in part as a means to gain perspective on life in the United States.

CORE: WRITING COMPETENCY (3)
Development and demonstration of writing competency in consultation with faculty. See the Fairhaven College Community Handbook for procedure.

CORE: TRANSITION CONFERENCE (1)
Demonstration of breadth of knowledge in consultation with faculty. See the Fairhaven College Community Handbook for procedure.

STAGE 2: Concentrated Studies

Studies to sharpen, deepen and integrate knowledge and to learn approaches to scholarship, methodological skills and research techniques; training questions and developing ways in which to answer them.

200/300 INDEPENDENT STUDY (Variable)
Prep: Fairhaven College independent study permit card required for registration. By arrangement: fall, winter and spring. To enable students to study independently under faculty sponsorship. Repeatable.

301 CORE: INTERDISCIPLINARY PERSPECTIVES (5)
Required of all Fairhaven College students. Study of the methods, assumptions, limits and values of interdisciplinary approaches to knowledge. A topic will be investigated through multiple and integrated perspectives. See the Fairhaven College Quarterly for specific description.

303 CORE: INTERDISCIPLINARY CONCENTRATION SEMINAR (5)
Required of students undertaking an interdisciplinary concentration. Review of procedures and assistance in ordering one’s course of study into an effective concentration proposal. Credit awarded upon filing the proposal.

210/310 a-e: HISTORICAL, SOCIAL AND CRITICAL ANALYSIS (1-8)
Analysis of specific institutions, issues or theories with reference to their history, structure or meaning. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

211 THE AMERICAN LEGAL SYSTEM (5)
NOTE: This course may be taken in partial fulfillment of the GUR Social Sciences requirement. An introduction to the American legal system and how it affects individuals and society. The structure and evolving nature of the legal system, legal reasoning and the role of courts in government. Skill development in reading and analyzing court opinions.

212 INTRODUCTION TO POLITICAL ECONOMY (5)
A study of the American economic system from two perspectives: orthodox (Keynesian/new-Keynesian) and critical, application of both theoretical frameworks to problems in modern American society.

213 THE ORIGINS OF CULTURE (5)
An examination of the origins of human culture and humankind including the origins of society, of language, of religion, of art and of the state. Different theoretical points of view will be compared.

214 WORLD HUNGER AND ITS CAUSES (5)
A critical examination of the Third World to understand the present historical situation: overpopulation, under production, the green revolution, control of resources.
215 RAILROAD IN AMERICA (4)
Multi-disciplinary study of the history and effects of the railroad on American society and culture.

216 TELEVISION AND OTHER DISASTERS (5)
Prereq: exposure to the mass media. A critical examination of television and the television industry. Its impact and influence on American life. Comparison of television with the other mass media.

217 HISTORIAN AS DETECTIVE (5)
Introduction to the challenges of investigation. Assignments develop specific research skills and an understanding of evidence. Use of reference tools, historical fiction, essays and readings in classical historians: Herodotus, Thucydides, Tacitus, Gibbon.

218 NUCLEAR WAR (4)
Nuclear war, anti-nuke movements, nuclear ideology, nuclear power and nuclear politics.

219 CONTEMPORARY THIRD WORLD (4)
The history and dynamics of contemporary political movements in Africa, Asia, and Latin America. Use of case study approaches.

311 SYMBOLIC ANTHROPOLOGY (5)
Prereq: background in anthropology. Culture and thought are founded on language and our ability to manipulate symbols. Yet different peoples have different languages and use different symbolic systems. This class is a comparison of a number of symbolic systems and the ways they are studied.

312 SOCIAL THEORY: SEARCH FOR A METHOD (4)
Prereq: Fair 211 or equivalent. Studies in political theory or other social sciences. Views of social theorists from mid-19th century to the present, particularly as they react to the contradiction between "liberal" ideology and the reality of life in industrialized society. Emphasis on "method," i.e., how to seek answers to social questions.

313 a-b NEZ PERCE HISTORY (5 each)
Prereq: at least one college course in history, anthropology, historical or cross-cultural perspectives. The first session surveys the history and ethnography of the Nez Perce to 1877. The second session reviews tribal history since 1877, requires an extensive research paper, and concludes with a ten-day retraining of the Nez Perce retreat through Montana, Idaho, Oregon, Washington.

314 AMERICA'S GILDED AGE: 1865-1900 (4)
Multi-disciplinary study of life in the United States from the end of the Civil War to the turn of the Century.

315 MULTINATIONAL CORPORATIONS AND THE THIRD WORLD (4)

316 ENVIRONMENTAL LAW (5)
Prereq: environmental studies or law or government or economics. Survey study of major areas of environmental law with emphasis on legal and policy conflicts which have gone to court for resolution.

317 KARL MARX ON HISTORY AND SOCIETY (4)
Prereq: some background in the social sciences. Readings and discussions of Marx works dealing with historical materialism, politics, history and social relations. Each reading will be placed within the general historical and specific political milieu from which it arose.

318 THE AMERICAN LABOR MOVEMENT (4)
Prereq: some college-level background in American history, economics or political science. The American labor movement from the Knights of Labor to the Taft-Hartley Act with particular emphasis on its place in social, political, economic history.

319 THE IMPORTING OF EUROPE (4)
A study of European immigration to the U.S. with emphasis on ethnic identity, social movements, intellectual trends and scientific advances.

220/320 a-e LANGUAGE, LITERATURE AND COMMUNICATIONS (1-6)
Languages as expressions of the human experience, creativity and expression: writing; structure, technique and technology of communication; semantics. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

221 COLLEGE WRITING (3)
Directed toward the student who wishes to improve expository writing skills. Theory, practice and criticism of student work.

222 IMAGINATIVE WRITING (3)
Workshop to critique and discuss student manuscripts.

223 a-c COMMUNICATION CLINIC (2 each)
Three mini-sessions for students interested in developing or sharpening specific skills in group communication, interviewing and public speaking.

224 INTRODUCTION TO THE LITERARY HUMANITIES (4)
An introduction to the appreciation of literary values, forms and techniques through intensive reading of selected classic texts and frequent assignments in critical, expository and creative writing.

225 EXPLORING THE DICTIONARY (3)
Building vocabulary and understanding of etymology and usage through extensive analysis of words, their roots and meanings.

226 THE USES OF AUTOBIOGRAPHY: READING (4)
An introduction to autobiography as a literary form, with emphasis on the special ways in which it gives order, meaning and symbolic value to human existence. Readings will be studied to determine writers' attitudes toward such concepts as childhood, role-playing, crisis, imagination, self-knowledge and self-discovery.

227 THE CRAFT OF SCIENCE FICTION (4)
Studies in the problems, issues, assumptions and techniques involved in the writing of science fiction. Discussion of reading and practice in writing within the genre.

228 1964: VISION AND REALITY (4)
Focus on post-industrial society using Orwell's vision and other futuristic writings.

321 NONFICTION WORKSHOP (3)
Prereq: instructor permission. An advanced course for those who wish to improve their skills in writing effective prose of any kind, as well as those actively engaged in specific writing projects. Devoted to reading and analyzing student work in various stages of completion, supplemented by discussions of individual and common writing problems with emphasis on form and craftsmanship. Conversations with experienced writers in both the arts and sciences will regularly occur.
232 THE AMERICAN INDIVIDUALIST (4)
An examination, through its literature, of the American cult of individualism: its origins, its development, its values and its dangers.

233 THEATRE AS MIRROR (5)
Prereq: some background in theatre or media, literature or art, or permission of instructor. An exploration of the power of the theatre to reflect the way we live, the way we may live. Practice with the arts of reading and analysis. Examination and/or practice in acting, directing and playwriting as they bear on the reflecting capacity of the theatre.

234 HUMAN USE OF LANGUAGE (6)
A comparison of the perspectives of philosophy, linguistics, psychology, and psychiatry in the study of language acquisition and language use.

235 ESP, TELEKINESIS AND ALL THAT (4)
Examination of the latest in psychic research and the surrounding controversies as a self-conscious study of open-mindedness, closed-mindedness, critical thinking, prejudice, skepticism, gullibility, and the nature of evidence, proof, authority and faith.

231 METROPOLIS AS ORGANISM (4)
Prereq: Biol 101. The metabolism, growth and functional integration of a city viewed as an organism. The limits of the metaphor will be stretched and tested by readings, lectures and field trips through the "life blood" of Birmingham.

332 THE COPERNICAN REVOLUTION (4)
Views the Copernican Revolution which dethroned Earth and humanity from the center of the universe, challenged medieval ecclesiastical authority, and heralded the new age of science and technology, as an archetype of the general process of scientific revolution. Implications for modern times.

333 HUMANS’ CREATURES (4)
Prereq: Biol 101. Explores the lives of organisms that interact with humans: domesticates and cultivars, pests and pathogens, the engineered and the farmed. Investigates profit or loss to humans or their associates, and seeks ways to establish common values for the trade-offs we make with them.

334 REGIONAL ECOLOGIES (5)
Lectures emphasizing the ecology of a large global region: e.g. tropics, arctic/antarctic, deserts or temperate zone. Science background not assumed.

335 FRONTIERS OF PHYSICS: BEYOND EINSTEIN (4)
Prereq: Fair 107 or one college-level physics course or equivalent. Revolutionary discoveries and theories and outstanding questions of 20th century physics, especially those at the leading edge of current research. Intended for liberal arts or non-physics majors, perhaps lacking in technical skills but nevertheless seeking insight and aesthetic appreciation for the fantastic world of nature as seen by modern physicists.

240/340 e-z PATTERNS OF SCIENTIFIC THOUGHT (1-6)
Analysis of systems for understanding, describing and predicting the world of nature. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

231 INTRODUCTION TO THE HISTORY OF SCIENCE (4)
An introduction to the development of scientific investigation, methodology and theory-making. Includes the problems, limitations and powers of various approaches to knowledge that have been called "scientific." Intended for both scientists and non-scientists.

232 SCIENCE, TECHNOLOGY AND VALUES (4)
Examines the past and present and possible future impacts of science and technology on each other and on social values, and of social values upon science and technology.

233 SCIENCE AND RELIGION (4)
Following an overview of the differing perspectives and approaches of science and religion, this course addresses the interplay between the two, either in mutual support or in conflict.

234 THE LIFE OF BIRDS (4)
A field course in ornithology. Introduction to the physiology, territory, social behavior, mating patterns, flight, migration, songs and evolution of birds.

240/340 e-z SELF, GENDER AND FAMILY (1-6)
Studies in historical, social, educational, psychological and physiological components of human development, personal identity and social roles. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

243 EDUCATION IN AMERICA (3-5)
Prereq: Fairhaven College independent study permit required from instructor. A critique of the American mass educational system and its impact on the individual, including study of educational alternatives which may involve practice with younger children.

244 UNDERSTANDING HUMAN DEVELOPMENT (5)
Human development through everyday processes of family, sexuality, work, community and friendship, includes introduction to basic theories and research from psychology, anthropology, sociology and health.

245 SEXUAL MINORITIES (3)
Historical, sociological, political, psychological and cultural aspects of people who prefer other than the hetero-sexual mode of sexual expression.
DEATH AND DYING (4)
The implications of one’s death for philosophy, culture, art, literature, aging, economics, psychology, medicine and living. In addition to extensive reading, including the New Testament, Plato, Marcus Aurelius and Tolstoy, field trips and a journal are required.

AWARENESS THROUGH THE BODY (4)
The body, its internal senses and its movements. Attention is paid both to theories and experiences of the body and its immediate environment. Repeatable.

EDUCATION IN AMERICA (3-5)
Prereq: Fairhaven College Independent study permit required from instructor. A critique of the American mass educational system and its impact on the individual, including study of educational alternatives which may involve practice with younger children.

HUMAN EMOTIONS (4)
Prereq: Fair 247 or 253. Theoretical frameworks for understanding the emotional life will be introduced, along with techniques for self-observation.

THERAPY, ARTS AND THE COMMUNITY (5)
Prereq: course in human development and personality. Therapies which use music, dance and other arts in a variety of settings. The nature of social relations in therapy for various cultures. The role of professional and lay healers.

WORK (4)
An interdisciplinary study which examines the meaning, necessity and value of our basic activity. Readings drawn from philosophy, psychology, sociology, political science and literature.

PHILOSOPHY, RELIGION AND IDEOLOGY (1-4)
Exploration of systems of thought and efforts to make sense of experience. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

ORIENTAL ART AND RELIGION (4)
An introduction to oriental art and aspects of oriental religions that are related to art. The painting of the Tang and Sung periods of China; the T’ang Ching and the Tao Te Ching. The temple sculpture in India which drew its inspiration from the Tantric religion; the religious sculpture of Tantra, Hinduism and Buddhism.

THE ORACLE & THE SATYR’S DANCE: AN INTRODUCTION TO MYTH AND MYTH-MAKING (4)
In general, an introduction to the nature and function of myth; in particular, an attempt to learn something more about our separate selves—male and mutually human—as well as about our collective cultural history. Both purposes will be carried on by exploring the two powerful, curiously complementary, endlessly live myths of Apollo and Dionysus.

INTRODUCTION TO PERSONAL PHILOSOPHY (4)
Through readings, class experiences and discussions, a course to select from students their own philosophical questions. The materials tend to come from outside traditional philosophy and the class is largely experiential.

NEW RELIGIOUS MOVEMENTS (4)
An examination of the social, psychological and theological impact of new religious movements in America.

AMERICAN INDIAN RELIGION AND NATURE (5)
Prereq: previous study in anthropology, ethnic studies, environmental studies or American history. Three tribes: their religion, beliefs and attitudes toward the earth and wildlife. Indian practices are studied and compared with white myths about Indians.

FORMULAS OF EXISTENCE (4)
Prereq: upper-division standing or instructor’s permission. The study of certain theoretical propositions and working perspectives, involving significant definitions of being, identity and the self—how they were derived and formulated ("I think, therefore I am" is the classic example), as well as their contemporary relevance and limitations. Readings from: Descartes, Derrida, Nietzsche, Marx, Sartre, Simone de Beauvoir, others.
COMPARATIVE COSMOLOGY (5)
Prereq: background in anthropology. Examination and comparison of different belief systems around the world.

RELIGION IN THE MODERN WORLD (4)
Prereq: junior standing or two courses in humanities. An examination of the role of religion in modern secular culture.

THE MASKS OF GOD (4)
Prereq: junior standing or two courses in humanities. A study of the mythology of the world's religions. Each quarter a different aspect will be selected for examination.

MIND AND NATURE (4)
Prereq: junior standing. A study of selected modern theories of mind, with special reference to the philosophical implications for the natural and social sciences.

260/360 a-z ARTS, SELF-EXPRESSION AND CREATIVITY (1-4)
The creative process in theory and practice, interpreting works of art, the role of art and artists in society. Several specific offerings under this category appear below. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable with different topics.

CHORAL SINGING (2)
Open to all without audition who wish to sing mixed choral music. A wide range of choral literature will be rehearsed and performed with emphasis on individual vocal development and ensemble singing. Repeatable.

ART AND IDEOLOGY (4)
Examination of the relationship of art to its culture. Examination of the relationship of Rubens to the Council of Trent, Michaelangelo to Martin Luther, the Russian Avant-Garde to the Russian Revolution, Picasso to Einstein, the sculpture of the Age of Pericles to Pythagoras, Chinese landscape painting to Zen Buddhism, David to the French Revolution, and others.

ALL THAT JAZZ (3)
The history and music of jazz with particular emphasis on the social and cultural influences which have driven stylistic change and innovation.

MUSIC LISTENING: AN AURAL APPROACH (3)
The principles of repetition and contrast in music; the elements of melody, harmony, rhythm, texture and timbre and their organization into formal structures with primary emphasis on how to hear these elements in a broad range of musical styles including contemporary jazz.

PORTRAIT DRAWING (2)
Pencil, pen and ink wash study of the head, working from the model. Instruction and practice in layout, detail, expression, likeness and viewpoint.

MUSICAL/DRAMATIC PRODUCTION (1-5)
Prereq: permission of instructor. Rehearse, stage and perform a musical/dramatic theatre production. Repeatable.

DISCOVERY, LEAPS AND REVOLUTIONS IN THE ARTS AND SCIENCES (4)
An examination of startling discoveries and changes in the arts and sciences. Centers of interest will include the process of discovery, the historical relationship between artistic and scientific discovery, and the relationship of artists and scientists to the intellectual climate of their times.

BACKGROUND OF CONTEMPORARY ART (3)
Prereq: one course in history or art history. Exploration of the current debate on post-modern art by viewing art of the past ten years and reading the critics who are attempting a definition of post-modernism. To further the understanding of contemporary art, the class will also study significant painters of the first 50 years of this century.

VOCAL ENSEMBLE (2)
Prereq: audition and instructor permission. A select vocal chamber group; performing music for mixed voices in a variety of musical styles ranging from madrigals to the popular and jazz idioms. Repeatable.

19TH CENTURY RUSSIAN MUSIC (3)
Russian folk music, liturgical music and art music examined emphasizing their influences (one upon the other) and the identification of those elements which mark qualities as distinctly 'Russian'.

PAPER ART (4)
Traditional and modern experimental techniques of papermaking in our own and other cultures; attention given to preparing paper for watercolor, printmaking and modern mixed media. Class projects will include three-dimensional sculpture with paper and two-dimensional pictorial art.

ELECTRONIC MUSIC (3)
Electronic music as a serious contemporary musical idiom; the literature, the permutations, the hardware and techniques, the composers and performers within the context of how it has influenced society and non-electronic music.

THE ART OF IMPROVISATION (4)
Prereq: introductory dance, movement or body awareness classes. A study of modern improvisational art and artists. Combining dance, music; visual and spoken arts within a performing ensemble. Attention to individual creativity and performing skills, and the development of intuitive communication. Repeatable.

DREAMS, IMAGINATION AND CREATIVITY (4)
A study, through readings, discussion, experiences, of the content and interrelationships between dreams, imagination and creativity to enhance the intuitive dimension of daily life. Extending the range of imagination through practice: visualization techniques, artistic expression, journal writing.

275/375 a-z COOPERATIVE SPECIAL INTEREST STUDIES (1-8)
Faculty or student initiated special interest small study groups formed around particular topics, themes, issues or activities. See the University Class Schedule and the Fairhaven College Quarterly for topics. Repeatable.

PRACTICUM (VARIABLE)
Prereq: approval by two or more Fairhaven faculty members via independent study procedures. By arrangement fall, winter and spring. Fairhaven College independent study permit card required for registration. Learning through practical involvement outside the classroom in general exposure and experience. Repeatable.

237/373 a-z EXPERIMENTAL COURSES (1-15)
Courses which give flexibility to the curriculum by allowing faculty to offer unusual or timely classes. See the Fairhaven College Quarterly for topics.

Students are expected to supplement these requirements and courses with other Fairhaven or WWU classes and independent studies of their own choosing.
STAGE 3: Advanced Studies

Studies to demonstrate understanding of knowledge gained and to assimilate and synthesize what has been learned; discovering ways in which one's specialization may be generalized to other fields and applied to society.

400 INDEPENDENT STUDY (Variable)
Prereq: Fairhaven College independent study permit card required for registration. By arrangement: fall, winter and spring. To enable students to study independently under faculty sponsorship. Repeatable.

401 CORE: SENIOR PROJECT (Variable)
Independent study required of students undertaking an Interdisciplinary Concentration. See the Fairhaven College Community Handbook for guidelines.

403 CORE: ADVANCED SEMINAR (5)
Required of all Fairhaven College students. An opportunity for seniors to share their understanding of the concentration or major, to consider its place in the world, and to explore its possible uses, interactions and continuities after graduation.

410 a-z SPECIAL PROBLEMS IN INTERDISCIPLINARY STUDIES (1-16)
Investigation of problems and issues through advanced interdisciplinary study. See the University Class Schedule and the Fairhaven College Quarterly for topics.

411 FRONTIERS OF KNOWLEDGE (5)
A connected series of presentations and discussions by various Fairhaven faculty plus others, dealing in a qualitative, non-technical way with some of the most recent work—questions, patterns, trends—occurring at the leading edge of a number of different areas including social theory, historical methods, economic theory, political theory, psychology, physics, biology, mathematics, linguistics, theology and the arts.

412 CRITIQUE OF AMERICAN CAPITALISM (5)
Prereq: Econ 204, Fair 212 or equivalent plus upper-division standing. The introduction of critical social theory and its application to students from any field of study. The social problems and theoretical areas to be studied will be determined from students' academic and/or work-related backgrounds.

413 FREUD AND PSYCHOANALYSIS (4)
Prereq: basic psychology or human development course. The writings of Freud and his major followers and critics. Attention to the historical context of the writings and the relationships of psychoanalysis to critical social theory.

414 VISIONS OF OURSELVES: PENETRATING SOCIAL IMAGES IN THE POPULAR ARTS (4)
Prereq: previous work in literature or journalism or theatre or med a. or permission of instructor. Discovery of images of contemporary life in movies, television programs and commercials, popular magazines, popular music and other contemporary popular art forms. Development of techniques for recognizing these images and examining them critically.

415 MICROBIOGEOCHEMISTRY (3)
Prereq: upper-division standing in biology, geology, chemistry, geography or related sciences. Focus on small-scale interactions between living organisms and their geochemical environment. Students will be expected to prepare several case studies for presentation to the class. Relations to human affairs, pollution, mineral resources, etc., will also be stressed.

416 THE WAR IN VIETNAM: 1954-1975 (4)

417 THE CONSTITUTION AND AMERICAN SOCIETY: GOVERNMENTAL POWER (6)
Study of constitutional law and the way in which the Supreme Court construes the constitution in addressing major social and political questions. Critical reading and analysis of court opinions. Questions of power distribution and conflict among the three branches of the federal government and between the states and federal government.

418 THE CONSTITUTION AND AMERICAN SOCIETY: INDIVIDUAL RIGHTS (6)
Recommended preparation. Fair 417. Study of constitutional law and the way in which the Supreme Court construes the constitution in addressing major social and political questions. Critical reading and analysis of court opinions. Questions of individual rights in conflict with government regulation.

419 WINTER, WRITING & DOSTOEVSKY (4)
This seminar will try to make sense of this extraordinary writer as revealed primarily through the major novels Crime and Punishment, The Idiot, The Possessed and The Brothers Karamazov, together with some study of the Notebooks to these works.

420 RHETORIC OF FEMINISM (4)
Prereq: background in rhetorical theory or women studies. Models of rhetorical criticism, their usefulness for studies of female authors and feminist rhetoric. Historical survey of feminist ideas and modes of persuasion and the specific study of selected individuals, e.g., Mary Wollstonecraft, Elizabeth Cady Stanton, Charlotte Perkins Gilman and contemporary feminists.

421 AMERICAN INDIAN LAW AND HISTORY (16)
Prereq: ethnic studies or background or American history or law or work with tribal government. A full-quarter, intensive course. Legal history of the status of American Indians with emphasis on questions of Indian sovereignty and control of land and natural resources. Using Supreme Court decisions and other resources, consideration of the historical development of these issues, federal policies and the controversy which surrounds them today.

475 a-z COOPERATIVE SPECIAL INTEREST STUDIES (1-6)
Faculty or student initiated special interest small study groups formed around particular topics, themes, issues or activities. See the University Class Schedule and the Fairhaven College Quarterly for courses under 475 a-z. Repeatable.

480 INTERNSHIP (Variable)
Prereq: approval by two or more Fairhaven faculty members via independent study procedure. By arrangement: fall, winter and spring. Fairhaven College independent study permit card required for registration. Practicum in an area related to one's course of study; addresses specific roles or responsibilities. Repeatable.

497 a-z EXPERIMENTAL COURSES (1-16)
Courses which give flexibility to the curriculum by allowing faculty to offer unusual or timely classes. See the Fairhaven College Quarterly for courses under 497 a-z.

Students are expected to supplement these requirements and courses with other Fairhaven or NWU classes and independent studies of their own choosing.
Foreign Languages & Literatures

College of Arts and Sciences

The department of Foreign Languages and Literatures offers major and minor programs for both the liberal arts and the teacher education student.

For the liberal arts student, the study of foreign languages and literatures provides insight into one's own language and culture, facilitates foreign travel and study of other cultures and is increasingly valuable as preparation for work in multi-national fields and endeavors. Students are encouraged to combine foreign language study with other suitable programs, given increasing job opportunities in transnational fields, including teaching English as a second language and careers with multi-national corporations.

In teacher education, the department prepares the student to teach at the secondary level and also provides training for those who may have the opportunity to introduce foreign language study and culture at pre-school and primary levels.

ADVANCED PLACEMENT CREDIT

If you studied a foreign language in high school, you may be granted additional university credit upon completion of foreign language courses at Western. Advanced placement credit is not awarded for 100-level courses. Application for advanced placement credit is to be made to the chairman.

FOREIGN STUDY

Students can increase language proficiency through travel, work, residence and study abroad. WWU offers quarter and year-round
programs at study centers in Morelia, Mexico; Koln, West Germany; Avignon and Rennes, France; and Seville, Spain. Designed to give students a complete foreign study experience in the host country, each program includes numerous excursions to historical and cultural sites, and a wide range of activities complement formal classroom work. Students may arrange for credit through (a) specialized programs sponsored by WWU, such as the exchanges with Asia and Tsuda universities in Tokyo, Japan; (b) study at foreign universities; and (c) independent study. Special application and registration procedures are required for participation in foreign study programs, and students should consult with the Foreign Study Office, Old Main 400, well in advance of their planned quarter abroad.

The department also offers the study of English as a second language to both resident and foreign students who wish to improve their English in order to enroll in university-level courses.

GRADUATE STUDY

Students pursuing language studies at the graduate level, upon satisfactory completion of 48 credit hours, earn a Masters of Education degree in German or Spanish. Graduate courses are given each summer so that the M.Ed. candidate may earn the degree after having been enrolled on campus for at least three summers. See the Graduate section of the catalog.

FOREIGN LANGUAGES AND LITERATURES FACULTY

JESSE HIRAOKA (1972) Chairman, Professor of French and Ethnic Studies, BA, Roosevelt University; MA, University of Chicago; PhD, Northwestern University.

CARREL W. AMUNDSEN (1969) Professor of Classics, BA, Western Washington State College, MA, University of Washington; PhD, University of British Columbia.

RAUL ARELLANO (1972) Associate Professor of Ethnic Studies and Spanish, BA, Boston University; MA, University of Washington.

HERBERT L. BAIRD, JR. (1967) Associate Professor of Spanish, AA, Santa Ana Junior College; AB, Pomona College; AM, PhD, University of Chicago.

ROBERT S. BALAS (1969) Associate Professor of French, BA, Upsala College; MA, University of Nebraska; PhD, University of Wisconsin.

HENRICH BROCKHaus (1955) Associate Professor of German, BA, University of British Columbia; PhD, University of Washington.

WILLIAM H. BRYANT (1974) Associate Professor of French, BA, University of Hawaii; PhD, University of Missouri.

WILLIAM E. ELMENDORF (1958) Assistant Professor of Russian and Spanish, BS, University of Puget Sound; MA, University of Washington.

GUADALUPE GARCIA-BARRAGAN (1965) Professor of Spanish, BA, Colegio Aguiles Serdán; BEd, Instituto America; MA, Normal Superior Nueva Galicia; Doctorat d'Universite, Paris, Sorbonne II.

ARTHUR S. KIMMEL (1969) Associate Professor of French, AB, MA, University of Miami; PhD, University of California, Berkeley.

VLADIMIR MILIGIC (1957) Associate Professor of Russian and Linguistics, Certificate of Baccalaureate, Gymnasium for Boys, Belgrade; MA, University of Chicago.

KURT W. MOERSCHNER (1964) Associate Professor of German, BComm, BA, Sir George Williams University, Canada; MA (Psychology), MA (German), PhD, University of Colorado.

CHARLES PARAM (1969) Professor of Spanish, BA, Oklahoma State University; MA, PhD, University of Arizona.

DANIEL RANGEL-GUERRERO (1969) Associate Professor of Spanish, AA, Sierra College; BA, Stanford University; MA, PhD, University of Oregon.

NICOLE B. RAPOZA (1988) Associate Professor of French, AA, Long Beach City College; BA, Long Beach State College; MA, PhD, University of California, Berkeley.

WALTER L. ROBINSON (1980) Professor of German, BA, MA, PhD, University of Texas.

TORY TAKEMOTO (1976) Assistant Professor of Japanese, PhD, University of Pennsylvania.

RUDOLF WEISS (1970) Professor of German, BA, BA in Ed, Western Washington State College; MA, PhD, University of Colorado.

BACHELOR OF ARTS

Major — French, German, Spanish, Russian

65 credits: 50 credits in the language; 15 credits in supporting courses. GPA of 2.5 or above required in the major.

The Foreign Language Component

☐ 10-15 credits in the language on the 200 level
☐ 35 credits in the language on the upper-division level with at least three 400-level courses, including 401, to be taken in residence. German majors include 402 also.

Courses in literature in translation not involving instruction in the foreign language, i.e., 367 and 375, are not applicable to the major except as supporting courses.

Supporting Courses

☐ 15 credits selected under departmental advisement in other foreign languages and literatures or in other subjects complementing the student's interest in the foreign culture. Students completing a second major are exempted from the supporting course requirement. Students with minors in a second language or in other areas approved by the department are excused from the supporting course requirement.

Major — Classical Studies

A student-faculty designed major in Classical Studies may be arranged.
BACHELOR OF ARTS IN EDUCATION

Teaching Competence

Recommendation for a teaching endorsement normally requires completion of the B.A. in Education foreign language major with a GPA of 2.5 or better. Teaching endorsements are not normally issued to persons who have completed only the minimal requirements for a foreign language minor. Teacher certification requirements of the School of Education must also be met by candidates for this degree.

Major — French, German, Spanish

50-55 credits

- 10-15 credits in the language on the 200 level
- 20-25 credits in the language numbered 300 or above, to include two courses in literature, one in civilization and one in composition or grammar. German and Spanish majors include 314; French majors include 311
- 9-15 credits in the language at the 400 level, including 401. German majors include 402
- Foreign Language Education 420
- Foreign Language 410 for foreign language majors (French 411 for French majors)

Courses in literature in translation not involving instruction in the foreign language, i.e., 367 and 375, are not applicable to the major.

These minors are appropriate for both Bachelor of Arts and Bachelor of Arts in Education degrees:

Minor — A Modern Foreign Language

- 25 credits in the foreign language numbered above 200

Minor — Classical Studies

- Classical Studies 350
- 15 credits from Classical Studies 411, 421, 422, 431, 441
- 6 credits from History 411, 412, 413, 414; Philosophy 304

Minor — Greek or Latin

- 12 credits beyond the first year in college Greek or Latin

Minor — Linguistics

- Linguistics 201, 301, 302, 303
- Speech 373

- 6 credits in a foreign language selected under departmental advisement

GRADUATE STUDY

For a concentration in German or Spanish leading to the Master of Education degree, see Graduate section of catalog.

COURSES IN FOREIGN LANGUAGES

General Courses

Courses numbered X37; X97; 300, 400, 417, 445 are described on page 20 of this catalog.

FL-ESL ENGLISH AS A SECOND LANGUAGE

Prereq: pre-college English study in the country of origin or equivalent ability. Intensive English training for foreign students intending to enroll in university-level classes. Supervised audit of selected college-level classes where available. Not applicable toward graduation requirements. May be repeated.

230 ADVANCED INTENSIVE ENGLISH FOR FOREIGN STUDENTS (5)

Prereq: completion of FL 215 or equivalent. Identification and correction of grammatical and phonological problems. Written and oral presentations, idiomatic expressions, discussions on American history and culture.

410 INTRODUCTION TO APPLIED LINGUISTICS FOR FOREIGN LANGUAGE MAJORS (4)

Prereq: six credits in one modern foreign language beyond the second year. Comparison of structures (phonological, morphological and syntactic) of English and other languages.

420 METHODS AND MATERIALS FOR TEACHING MODERN FOREIGN LANGUAGES (4)

Prereq: six credits in one modern foreign language beyond the second year. To be taken prior to student teaching. Topics for the secondary or elementary teacher. Practice in teaching activities, lesson organization, text selection and micro-teaching presentations. School observations.

425 TEACHING/LEARNING PROCESS IN ESL (3 or 6)

Prereq: Linguistics 201 or FL 410; written permission of department. FL 420 recommended. Practice in course preparation, classroom and language lab procedures, materials evaluation, counseling and tutoring of ESL students. Offered for 3 credits academic year; 6 credits summer workshop may be repeated to a maximum of 6 credits. S/U grading.

For courses taught in translation, see Classical Studies: French 387; German 367, 375, Russian 367; and East Asian 367.

Chinese

101, 102, 103 ELEMENTARY CHINESE (5 ea)

Each course prerequisite to the next. Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking; formal instruction and self-instruction using cassette recorders and other materials.
201, 202, 203 INTERMEDIATE CHINESE (5 ea)
Prereq: Chinese 103 or equivalent; each course prerequisite to the next. Review of the fundamentals of the language, emphasis on acquisition of oral and written vocabulary; intensive reading and discussion in Chinese of graded materials in modern Chinese.

301, 302, 303 ADVANCED CHINESE (5 ea)
Prereq: Chinese 203, each course prerequisite to the next. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern Chinese via small tutorials and self-instruction using taped exercises keyed to written texts.

Classical Studies

(The following courses require no knowledge of Latin or Greek as prerequisites. Certain courses not offered every year.)

101 LATIN AND GREK IN CURRENT USE (2)
A workbook course applying the principles of word derivation from Latin and Greek to the practical enlargement of the student's English vocabulary.

350 GREEK AND ROMAN MYTHOLOGY (3)
Important classical myths seen in the context of classical literature, influence on Western literature.

411 GREEK AND ROMAN EPIC (3)
Prereq: Lib St 121 or Eng 281 or Classical Studies 350. Origins, development, nature of classical epic; readings from Homer, Apollonius of Rhodes, Virgil, Lucan.

421 GREEK AND ROMAN TRAGEDY (3)
Prereq: Lib St 121 or Eng 281 or Classical Studies 350. Origins and development of earliest European drama; thematic and structural principles of major dramatists; influence on later Western literature.

422 GREEK AND ROMAN COMEDY (3)
Prereq: Lib St 121 or Eng 281 or Classical Studies 350. Nature of classical comedy; readings from Aristophanes, Menander, Plautus, Terence.

431 THE CLASSICAL NOVEL (3)
Prereq: Lib St 121 or Eng 281 or Classical Studies 350. Readings from the Greek romances, Petronius "Satyricon," Apuleius "The Golden Ass," earliest extant novels in Western literature.

441 ROMAN SATIRE (3)
Prereq: Lib St 121 or Eng 281 or Classical Studies 350. Roman satire as a distinct genre in Latin literature, influence on later satiric tradition; readings from Juvenal, Horace, Seneca, Persius, Lucian.

Foreign Literatures in Translation

See French 367; German 367, 375; Russian 367; East Asian 367.

These courses are based on readings of foreign literature in English, and knowledge of foreign language is not required for enrollment.

French

101, 102, 103 ELEMENTARY FRENCH (5 ea)
To be taken in sequence. Fundamentals of speaking, reading, writing and understanding French.

104 FRENCH GRAMMAR REVIEW OF THE FIRST YEAR (5)
Recommended for students with two or more years of high school French if they do not qualify for 201. Rapid review of basic skills needed for intermediate French. Offered fall quarter only.

201, 202 INTERMEDIATE FRENCH (5 ea)
Prereq: French 103 or two years of high school French; to be taken in sequence. Continuation of skill development begun in Elementary French, with additional work in vocabulary acquisition and grammar. Reading and discussion in French of passages from modern French texts.

230 FRENCH LANGUAGE AND CULTURE (3 or 6)
Prereq: French 103 or equivalent. An intermediate course in conversation, culture study and expression. Films, oral and written presentations. Offered for 3 credits academic year; 3 or 6 credits summer quarter.

280 FRENCH FOR A READING KNOWLEDGE (4)
For students needing a reading knowledge of the language. Fulfills graduate reading requirement when completed successfully; graduate students are advised to take the course P/NP.

301 GRAMMAR REVIEW AND WRITTEN EXPOSITION (5)
Prereq: French 202 or equivalent. Course designed to give the advanced student practice in written expression and review of French grammar. Writing, study of grammar, and vocabulary building.

305 ORAL EXPOSITION (5)
Prereq: French 202 or equivalent. May be taken concurrently with French 311. Students give expository talks and discuss articles taken from current French periodicals. Vocabularies building.

311 INTRODUCTION TO LINGUISTIC STUDIES (5)
Prereq: French 202 or equivalent. Linguistics, phonetics, stylistics.

350 FRENCH CIVILIZATION (3 or 6)
Prereq: French 202 or equivalent. An advanced French course on civilization and culture. Films, written and oral presentations. Offered for 3 credits academic year; 3 or 6 credits summer quarter.

340 INTRODUCTION TO FRENCH LITERATURE I (5)
Prereq: French 301 or equivalent. An introduction to literary analysis, explication de texte involving poetry, prose and drama from the works of major authors before 1800.

341 INTRODUCTION TO FRENCH LITERATURE II (5)
Prereq: French 301 (340 recommended). An introduction to literary analysis, explication de texte involving poetry, prose and drama from works of major authors after 1800.

360 FRENCH FOR BUSINESS AND ECONOMICS (4)
Prereq: French 202 or equivalent. An introduction to the basic concepts and vocabulary of business and economics, based on texts and exercises in French.

367 FRENCH LITERATURE IN TRANSLATION (3-5)
Selected major works in French literature read and discussed in English. When topics vary, the course may be repeated.

401 ADVANCED COMPOSITION AND GRAMMAR (5)
Prereq: French 301 or 305. Advanced written and oral expression, identification and correction of phonological and grammatical problems.
Foreign Languages/Literatures

411a,b,c STUDIES IN FRENCH LANGUAGE AND LINGUISTICS (5 ea)
Prereq: 5 credits hours at 300 level. Comparison of structures (phonological, morphological, syntactic) of English and French; development of phonology, morphology and syntax from Latin to modern French; advanced problems in phonetics and stylistics. Topics: (a) History of the French Language; (b) Applied Linguistics; (c) Phonetics and Stylistics.

425 TEACHING-LEARNING PROCESSES IN ELEMENTARY FRENCH (2)
Prereq: written permission of department and two courses in upper-division French. Practice in course preparation, classroom and language laboratory procedures, materials, evaluation and counseling. May be repeated. S/U grading.

450 SEMINAR IN FRENCH LITERATURE (3-5)
Prereq: two courses in upper-division French and permission of department. Major authors and movements. Since topics vary, the course may be repeated.

451a,b,c LITERARY GENRE STUDIES (5 ea)
Prereq: 5 credits in 340-341. Topics: (a) Theory of prose and its development through the novel; (b) theory of drama and its development; (c) theory of poetry and its development.

452a,b,c LITERARY PERIOD STUDIES (5 ea)
Prereq: 5 credits in 340-341. Topics: (a) Medieval and Renaissance French literature and civilization from 1100-1600; (b) 17th and 18th Centuries; French literature and civilization from 1633-1802; (c) 19th and 20th Centuries: French literature and civilization from 1802-present.

German

101, 102, 103 ELEMENTARY GERMAN (5 ea)
Each course prerequisite to the next. Fundamentals of the language; pronunciation, grammar, aural comprehension, reading and speaking.

104 REFRESHER COURSE IN ELEMENTARY GERMAN (2)
Recommended for students with two years of high school German, or more, if they do not qualify for German 201. A rapid review of basic skills needed for intermediate German. Can be substituted for German 103.

180 GERMAN FOR A READING KNOWLEDGE I (3)
Not open to students with more than one year of college German. Mandatory course for students needing a reading knowledge of the language. See also German 280.

201, 202, 203 INTERMEDIATE GERMAN (5,5,3)
Prereq: German 103 or two years high school German or equivalent; each course prerequisite to next. Review of the fundamentals, reading and conversation.

230 GERMAN CULTURE AND CIVILIZATION STUDY TOUR (8)
A culture study tour of Germany which includes a stay in East Germany, Berlin and different parts of West Germany. Sites are carefully chosen to provide a means of contrasting differences in culture and life styles between Americans and Germans as well as between West and East Germans. Intended for beginning students of German. S/U grading. Summers only. Next offered summer 1984.

280 GERMAN FOR A READING KNOWLEDGE II (3)
Prereq: German 103 or one year college German or equivalent. For fulfillment of master's degree reading requirement.

301, 302 THIRD YEAR COMPOSITION (3 ea)
Prereq: German 203 or equivalent; German 301 prerequisite. Written and oral composition and grammar, and vocabulary building.

305 GERMAN CONVERSATION (3)
Prereq: German 301. Conversation practice involving situations of daily life; topics of contemporary Germany. Vocabulary building.

314 PHONETICS (4)
Prereq: German 201. A course designed to improve the student's pronunciation and intonation, to become familiar with phonetic transcription, and to become aware of problems involved in teaching German sounds.

330 GERMAN CULTURE AND CIVILIZATION STUDY TOUR (6)
Prereq: German 202 or equivalent. A culture study tour of Germany which includes a stay in East Germany, Berlin and different parts of West Germany. Sites are carefully chosen to provide a means of contrasting differences in culture and life styles between Americans and Germans as well as between West and East Germans. Intended for intermediate/advanced students. An opportunity for the improvement of language skills. S/U grading. Summers only. Next offered summer 1984.

331 CIVILIZATION OF GERMANY THROUGH THE NINETEENTH CENTURY (3)
Prereq: German 201, 202, 203 or equivalent. Significant elements of German civilization presented through German texts.

332 GERMAN CIVILIZATION TODAY (3)
Prereq: German 201, 202, 203 or equivalent. Significant elements of German civilization.

340 INTRODUCTION TO GERMAN LITERATURE (4)
Prereq: 10 credits of second-year German or equivalent. Selected works of major German authors, with emphasis on reading improvement and methods of textual interpretation.

341 NINETEENTH CENTURY GERMAN LITERATURE (3)
Prereq: German 340. Emphasis on either Romanticism or Realism. May be repeated when topics vary.

343 EIGHTEENTH CENTURY GERMAN LITERATURE (3)
Prereq: German 340. Classical period of German literature as reflected in the major works of Lessing, Goethe and Schiller.

387 GERMAN LITERATURE IN TRANSLATION (3)
Selected from eminent German authors read and discussed in English. When topics vary, the course may be repeated.

375 MAIN CURRENTS IN MODERN FOREIGN LITERATURE—GERMAN (6)
A survey of German literature and civilization—readings and discussion in English. Intellectual, philosophical and social ideas as reflected in the literature of Germany.

386 GERMAN FOR READING KNOWLEDGE AND RESEARCH (4)
Basic German for readings in chosen field of specialization for graduate students and others requiring access to German materials for research. Offered summer only.

385a,b,c GERMAN CULTURE AND CONVERSATION (1 ea)
Prereq: German 201. May be repeated for credit. German culture through film, talk, and song. General discussion of Germany and its culture, especially in contrast to our own. S/U grading.
401, 402 ADVANCED COMPOSITION AND GRAMMAR (3 ea.)
Prereq: German 302. Advanced written and oral expression.

425 TEACHING-LEARNING PROCESS IN ELEMENTARY GERMAN (2)
Prereq: written permission of department and six credits
upper-division German. Practicum in course preparation, class-
room and language laboratory procedures, materials, evaluation and counseling. May be repeated S/U grading.

442 GERMAN LITERATURE IN THE TWENTIETH CENTURY (3)
Prereq: 9 credits in upper-division German. Selections reflecting development of recent German literature.

450 STUDIES IN GERMAN LITERATURE (3)
Prereq: 9 credits in upper-division German or equivalent, and permission of department. Major authors and movements. Since topics vary, the course may be repeated.

501 CULTURE AND CONVERSATION (4)
Prereq: German 401 or equivalent. Oral and written composition based on topics reflecting history of German civilization up to 1850. Conversational practice and study of daily life.

502 CULTURE AND CONVERSATION (4)
Prereq: German 401 or equivalent. Oral and written composition based on topics reflecting history of German civilization from the 2nd Reich through contemporary Germany. Conversational practice on topics from daily life.

503 CULTURE AND CONVERSATION (4)
Prereq: German 401 or equivalent. Oral and written composition based on topics reflecting contemporary German civilization. Conversational practice on topics of daily life. This course is normally conducted as part of a field trip to Germany.

504 APPLIED GERMAN LINGUISTICS (4 ea.)
Prereq: graduate status or permission of department.
504a German Phonetics and Phonemics
504b German Morphology and Syntax

505 ADVANCED COMPOSITION: EXPOSITORY WRITING (4)
Prereq: German 401 or equivalent. By writing narratives, descriptions, letters and dialogues, students practice syntax and style. An awareness of the various levels of language is stressed.

510 SEMINAR IN LITERATURE (4 ea.)
Prereq: graduate status or permission of department. Three seminars required. Emphasis on teaching of literature in community colleges and high schools, research methods and evaluation. Topics announced in advance from the following:
510a The modern short narrative
510b The short drama, Hörspiel, Einakter, Liederspiel
510c Poetry, Volkslied, Ballade, moderne Lyrik

532 THE TEACHING OF GERMAN (4)
Prereq: graduate status or permission of department. Methods and materials for teaching German in the community college, secondary and elementary schools.

---

*Wilson Library, left, and the Humanities Building on the edge of Red Square.*
Greek

101, 102, 103 ELEMENTARY GREEK (5 ea)
Each course prerequisite to the next. Fundamentals of grammar designed primarily to provide an elementary reading knowledge; selected readings from Plato's simpler dialogues.

111, 112, 113 NEW TESTAMENT GREEK (3 ea)
Each course prerequisite to the next. Study of the basic grammar and vocabulary of the Koine dialect, to include New Testament and Patriotic sources, with emphasis placed on the acquiring of a reading knowledge.

201, 202, 203 INTERMEDIATE GREEK (3 ea)
Prereq: Greek 103 or equivalent; to be taken in sequence. Review of fundamentals; reading from Plato's dialogues, the orators, the Iliad or Odyssey. Introduction to Greek civilization.

550 READINGS IN GREEK LITERATURE (3)
Prereq: Greek 203 or equivalent. Readings in major genres. Since topics vary, the course may be repeated.

Russian

101, 102, 103 ELEMENTARY RUSSIAN (5 ea)
Each course prerequisite to the next. Fundamentals of the language; pronunciation, grammar, aural comprehension, reading and speaking.

201, 202, 203 INTERMEDIATE RUSSIAN (5 ea)
Prereq: Russian 103 or equivalent; to be taken in sequence. Review of fundamentals; speaking, reading, writing and understanding.

301 THIRD YEAR COMPOSITION (5)
Prereq: Russian 233 or equivalent. Written and oral expression, advanced grammar, and vocabulary-building.

330 CIVILIZATION OF RUSSIA (3)
Prereq: Russian 201, 202, 203 or equivalent. Significant elements of Russian civilization presented through Russian texts.

340 INTRODUCTION TO RUSSIAN LITERATURE (3)
Prereq: 15 credits of second-year Russian or equivalent. Selected works of major Russian authors, with emphasis on reading improvement and textual interpretation.

341 NINETEENTH CENTURY LITERATURE (3)
Prereq: Russian 340. Introduction to Pushkin, Lermontov, Gogol, Turgenev, Dostoevsky, Tolstoy or Chekhov. Emphases vary. May be repeated when topics vary.

367 RUSSIAN LITERATURE IN ENGLISH (3)
Survey of history of Russian literature. Readings and discussions in English.

Japanese

101, 102, 103 ELEMENTARY JAPANESE (5 ea)
Each course prerequisite to the next. Fundamentals of the language; pronunciation, grammar, aural comprehension, reading and speaking. Combination of formal instruction and self-instruction using cassette recorders and other materials.

201, 202, 203 INTERMEDIATE JAPANESE (5 ea)
Prereq: Japanese 103 or equivalent. Review of the fundamentals of the language; emphasis on acquisition of oral and written vocabulary; Reading and discussion in Japanese of graded materials in modern Japanese.

303 ADVANCED JAPANESE (3 ea)
Prereq: Japanese 203; each course prerequisite to the next. Intensive reading, written vocabulary acquisition and oral comprehension of materials in modern Japanese.

Spanish

101, 102, 103 ELEMENTARY SPANISH (5 ea)
To be taken in sequence. Fundamentals of speaking, reading, writing and understanding.

104 REFRESHER COURSE IN ELEMENTARY SPANISH (5)
Recommended for students with two years or more of high school Spanish if they do not qualify for Spanish 201. A rapid review of basic skills needed for intermediate Spanish. Offered in fall quarter only.

201, 202 INTERMEDIATE SPANISH (5 ea)
Prereq: Spanish 103 or equivalent; to be taken in sequence. Review of fundamentals; speaking, reading, writing and understanding.

205 INTERMEDIATE CONVERSATION (2)
Prereq: Spanish 201 or equivalent. May be taken concurrently with 202 and 301. Emphasis on speaking and vocabulary building based on daily life situations. Introduction to culture of the Hispanic world. May be repeated for credit once only.

301 ORAL EXPRESSION AND COMPOSITION (5)
Prereq: Spanish 202 or equivalent. Advanced work in oral expression, composition, grammar review and vocabulary building.

305a, b, c THIRD YEAR CONVERSATION (2 ea)
Prereq: Spanish 202 or equivalent; may be taken concurrently with Spanish 301, 314. Conversational practice involving situations of daily life; vocabulary building. May be repeated for credit.
MEXICAN AND CHICANO LITERATURE (4)
Prereq: any introductory course in Ethnic Studies or Spanish. Mexican literary and cultural influences on Chicano literature. Chicano literature as a mirror of ethnic history, social and cultural experience, and changing social status.

INTRODUCTION TO SPANISH PHONOLOGY (3)
Prereq: Spanish 301 or equivalent. Intensive study of the Spanish sound system.

MEXICAN CULTURE AND CIVILIZATION (3)
Prereq: Spanish 201, 202, or equivalent. Panoramic view of Mexican civilization and culture from pre-Columbian times to the present.

INTRODUCTION TO HISPANIC LITERATURE (3)
Prereq: Spanish 301 or equivalent. Emphasis on reading and methods of literary analysis based generally on the major works of Hispanic writers.

MAJOR WORKS IN SPANISH-AMERICAN LITERATURE (3 ea)
Prereq: Spanish 340 or equivalent. Study of genres and trends during various periods in Spanish-American literature. Specific topics to be listed. May be repeated for credit when topics vary.

MAJOR WORKS IN SPANISH LITERATURE (3 ea)
Prereq: Spanish 340 or equivalent. Study of genres and trends during various periods in Spanish peninsular literature. May be repeated for credit when topics vary.

CONTEMPORARY MEXICAN LITERATURE (3)
Prereq: Spanish 340 or equivalent. Reading and discussion of selected major documents from twentieth century Mexican literature.

AZTEC SOCIETY AND CULTURE (4)
Prereq: any introductory course in Ethnic Studies or Spanish. A study of Aztec history and culture. An investigation of Aztec social structure, war, religion, philosophy, and literature. The Aztec view of the conquest. Readings and discussion in English.

HISPANIC CULTURE AND CONVERSATION (1 ea)
Prereq: Spanish 201. Hispanic culture through film, talks, and song. General discussions of the Hispanic world and its culture, especially in contrast to our own. May be repeated for credit.

ADVANCED COMPOSITION AND GRAMMAR (5)
Prereq: Spanish 301 or equivalent. Advanced written and oral expression, identification and correction of phonological and grammatical problems.

ADVANCED CONVERSATION (2 ea)
Prereq: Spanish 301, 305; may be taken concurrently with Spanish 401. Advanced conversational practice on topics reflecting current events in the Hispanic world; students give expository talks and discuss articles taken from periodicals; vocabulary building. May be repeated for credit.

CULTURE, RACE AND CLASS IN MEXICO AND THE U.S. (4)
Prereq: any introductory course of Ethnic Studies or Spanish. An historical and contemporary view of the Indian in the Mexican social structure with respect to the factors of ethnicity, race, and class. Emphasis on modern Mexico. A comparison with ethnic-racial groups in American society. Readings and discussions in English.

TEACHING-LEARNING PROCESSES IN ELEMENTARY SPANISH (2)
Prereq: written permission of department and two courses of upper-division Spanish. Practice in course preparation, classroom and language laboratory procedures, materials, evaluation and counseling. May be repeated S/U grading.

STUDIES IN SPANISH LITERATURE (3)
Prereq: two courses in upper-division Spanish and permission of department. Majors and movements. Since topics vary, the course may be repeated.

Graduate Courses in Spanish

Courses numbered 500, 517, 546, 597 are described on page 29 of this catalog.

Admission to Graduate School or special permission required. See Graduate School section of this catalog.

CONVERSATION AND COMPOSITION (4)
Prereq: Spanish 401 or equivalent. Syntax, written and oral composition; conversation based on topics reflecting the history of Spanish civilization from the beginnings to the Renaissance.

CONVERSATION AND COMPOSITION (4)
Prereq: Spanish 401 or equivalent. Syntax, written and oral composition; conversation based on topics reflecting the history of Spanish civilization from the Golden Age to the 19th century.

CONVERSATION AND COMPOSITION (4)
Prereq: Spanish 401 or equivalent. Syntax, written and oral composition; conversation based on topics reflecting contemporary Hispanic civilization.

APPLIED LINGUISTICS (4)
Prereq: graduate status or permission of department. Studies of problems of Spanish structure related to the classroom situation.

HISTORY OF THE SPANISH LANGUAGE (4)
Prereq: graduate status or permission of department. Development of the Spanish language from Latin to the present day; study of phonology, morphology and syntax.

SEMINAR IN LITERATURE (4 ea)
Prereq: graduate status or permission of department. Three seminars required. Emphasis on teaching literature and civilization in the community college, high school and elementary school. Topics to be announced in advance from the following:

- Spanish Civilization: A study of the evolution of Spanish civilization from its earliest history to the present.
- Spanish-American Civilization: A study of Spanish-American civilization from pre-Columbian times to the present.
- Culture of the Spanish-speaking People of the World Through Literature: (Other elective special topic seminars in literature will be added as indicated by demand.)

THE TEACHING OF SPANISH (4)
Prereq: graduate status or permission of department. Methods and materials for teaching Spanish in the community college, secondary and elementary schools.
Geography & Regional Planning
College of Arts and Sciences

THE SCIENCE OF GEOGRAPHY

Defined by some as a physical science, by others as a social science, geography is pre-eminently a science of spatial relationships. It focuses attention on many aspects of man and his use of the environment.

Geography focuses attention on man and his use of the physical environment. Hence, geographers study such topics as population patterns, transportation and settlement; land use and natural resources; and such aspects of the environment as landforms, climate, soils and vegetation.

THE TWO FIELDS

Geography and regional planning are compatible fields that in many countries have enjoyed a long and fruitful association. The oft-quoted statement that “planning is the art of which geography is the science,” although not universally accepted, indicates nonetheless the close proximity of these two branches of learning.

Planners likewise are concerned with these same topics, but generally within the confines of a specific region, usually a municipality, a county or other small region. As the American experience increasingly reflects urbanization and growing pressure on space, resources and environmental quality, the challenge to understand the forces that determine urban patterns and require societal responses becomes the specific concern of the planner.
THE DEPARTMENT

Faculty

The members of the department are scholars whose special interests and training span most of the sub-fields of the two disciplines. Most have had first-hand experience in foreign countries of Europe, Africa, South and East Asia, Australasia and Latin America. Individual faculty members participate in such university programs as the Center for Pacific Northwest Studies, the Canadian-American Studies Program, and the East Asian Studies Program.

Course Offerings

The department provides more than 40 undergraduate courses and about a dozen graduate courses. These fall into three principal categories: (1) those which deal with particular regions of the world; (2) those treating major sub-fields of the two disciplines; and (3) those which provide opportunities to develop specific skills in techniques of geographic research and planning.

Programs and Degrees

The department offers undergraduate major programs in geography and in planning, as well as an extended minor in cartography and a minor in geography. B.A. and B.A. in Education degrees are granted. At the graduate level, there are concentrations in geography and in planning for which the M.S. degree is granted.

Facilities and Equipment

A major facility of the department is its well-stocked map library, which contains more than 180,000 sheet maps, atlases and air photos, as well as many reference works for cartographic and photogrammetric research. The library is an official depository for maps issued by the United States Geological Survey, the United States Defense Mapping Agency, the Canadian Department of Energy, Mines and Resources, and other governmental agencies. A permanent staff map curator is in charge of the collection. A well-equipped cartographic laboratory, the services of a permanent staff cartographer, a wide variety of equipment for field research, and an extensive wall-map collection are further aids to teaching and research. In addition, more than 120 English language and foreign geographical journals are available in Wilson Library.

EMPLOYMENT OPPORTUNITIES

Although many of Western’s graduates in geography have become teachers either at the elementary or secondary level, opportunities in other fields have increased in recent years. Urban and regional planning, business and industry, government service, insurance and transportation have provided excellent openings for many recent graduates. For those graduates who demonstrate ability in such techniques of geographic research as statistical and cartographic analysis, the employment options are much increased. Particularly useful for the acquisition of such skills is the extended minor in cartography.

In the field of urban and regional planning, employment opportunities occur mainly in a wide range of federal, state and local government agencies. Private consulting agencies and industrial firms also require the services of trained planners in such projects as real estate development or the location of commercial and industrial enterprises. Rising concern for the natural environment has greatly increased the demand for qualified planners.

GRADUATE STUDY

Although holders of the bachelor’s degree in geography and planning may find challenging positions in the field of planning, graduate study and completion of the master’s degree are becoming common requirements for professional advancement. Students in both programs are urged to consider the possibility of graduate training no later than the beginning of their senior year.

GEOGRAPHY FACULTY

DEBNATH MOOKHERJEE (1961) Chairman. Professor, BSc, MSc, University of Calcutta; PhD, University of Florida.

HOWARD J. CRITCHFIELD (1951) Professor. BA, MA, PhD, University of Washington.

ROBERT L. MONAHAN (1965) Professor. BA, University of Washington; MA, University of Michigan; PhD, McGill University.

FRANKLIN C. RANEY (1956) Associate Professor. BS, University of Chicago; MS, Washington State University; PhD, University of California, Davis.

JAMES W. SCOTT (1966) Professor. BA, MA, Cambridge University; PhD, Indiana University.

RICHARD Q. SMITH (1970) Associate Professor. BS, University of Alaska; MS, PhD, University of Wisconsin.

THOMAS A. TERING (1973) Associate Professor. BA, MA, California State University, L.A.; PhD, Oregon State University.

BACHELOR OF ARTS

The program of the undergraduate major or minor in geography should include fundamental courses in both the natural sciences and the social sciences. The department will recommend supporting courses related to the student’s career objectives. The student contemplating work toward a graduate degree is advised to acquire a reading knowledge of a foreign language and competence in statistics and/or computer science during his undergraduate years.
Students in geography should consult the undergraduate adviser, Dr. Robert Monahan, at the earliest opportunity to plan their programs. Students in urban and regional planning should consult with Dr. Debnath Mukherjee, director of the Urban and Regional Planning Program.

**Major — Geography** 68 credits

- Geog 201, 203, 207, 251, 301, 311, 351, 454, 485
- One course from Geog 310, 313, 314, 315, 318, 319, 321, 322
- One course from Geog 330, 331, 422, 423, 424, 426
- Two courses from Geog 341, 345, 370, 372, 373, 407, 409, 440, 442, 444, 445
- One course from Geog 352, 353, 451, 452, 453, 455
- Supporting course Math 240
- Electives under departmental advisement

**Minor — Geography** 25 credits

- Geography 201
- Electives under departmental advisement

**Extended Minor — Cartography** 35 credits

- Geog 201 or 251, 352, 353, 451, 452
- One course from Comp Sci 107, 110 or 210
- Tech 240
- 11 or 12 credits from Geog 454, 455, Math 240, Art 271, 371, Tech 240, 260, 340, 341, 440

*CS 107 is a three-credit course, CS 110 and 210 are four-credit courses.*

**Major — Urban and Regional Planning** 105 credits

An interdisciplinary approach, based on the strengths of six departments in the College of Arts and Sciences and Huxley College of Environmental Studies, characterizes the program. The Department of Geography and Regional Planning administers the program with support from other departments, particularly economics, political science and sociology. This multidisciplinary character of the program, drawing upon specialized resources of the various departments, offers unique opportunities for students to view the interrelationships of various components of the environmental problems and to analyze, identify and evaluate them. The academic program has been primarily designed to prepare students for employment in planning agencies as well as to provide a foundation for graduate study.

**NOTE:** Students who are currently enrolled in other institutions but who intend to transfer to Western to complete the urban and regional planning program should review carefully both the general education requirements of the College of Arts and Sciences and the requirements of the planning program. Those who transfer to Western at the end of their sophomore year or later, may encounter difficulties in completing all requirements within a normal four-year total period.

**Specified Requirements**

**Planning Core Areas**

- Econ 203 or 204, 482
- Geog 201, 207, 280, 341, 351, 380, 454, 480
- Huxley 436
- Math 240
- Pol Sci 250, 355
- Soc 202, 340
- Comp Sci 110 or 210

**Electives**

Either 25 or 26 credits to be selected from the following with two courses from each group:

- Geog 301, 352, 353, 432, 452, 453, 456, 457
- Geog 331, 370, 372, 373, 407, 409, 417, 422, 423, 440, 442

or 15 or 16 hours of electives from the two groups above, with at least one course from each, and 10 hours from an approved physical science or social science discipline.

**BACHELOR OF ARTS IN EDUCATION**

Some courses may be offered only on an alternative year schedule. Students should note this in planning their schedules and should consult the departmental adviser, Dr. Robert L. Monahan.

**Major — Elementary or Secondary** 45 credits

- Geog 201, 203, 207, 251, 311, 460
- Five credits from Geog 310, 313, 314, 315, 318, 319, 321, 322
- One course from Geog 330, 331, 370, 422, 423, 424, 426
- One course from Geog 341, 345, 407, 409, 440, 442, 444
- One course from Geog 301, 351, 352, 417, 453, 454, 455
- Electives

All selections to be made under departmental advisement.
NOTE: Students in secondary education must also complete the specific program requirements for social studies education, including the social studies minor, as outlined in the Interdisciplinary Programs section of this catalog. Completion of this major/minor program leads to a teaching endorsement in social science and geography at the secondary level.

Minor — Geography  25 credits

- Geog 201, 203, 311
- Electives under departmental advisement

Completion of this minor with a minimum of 2.5 grade point leads to a supporting teaching endorsement in geography.

GRADUATE STUDY

For concentration in geography leading to Master of Science degree, see Graduate section of catalog.

COURSES IN GEOGRAPHY

Courses numbered X37, X97, 300, 400, 417; 445 are described on page 28 of this catalog.

201  HUMAN GEOGRAPHY (5)

Patterns of population and settlement; spatial analysis of economic, social and political organization.
PHYSICAL GEOGRAPHY (5)
Prereq: Geog 201 or Geol 100. Physical basis of climate, world patterns of climate, applied climatology.

ECONOMIC GEOGRAPHY (5)
Prereq: Geog 201. Geographic relations of the modern city with emphasis upon the development, functions and problems of American cities.

REGIONAL HISTORICAL GEOGRAPHY (3)
Prereq: Geog 201. Analysis of geographical change through time of selected regions of the United States or Canada.

INTRODUCTION TO PLANNING (5)
Basic elements of urban, regional and resource planning; planning tools and techniques; careers in professional planning.

THE PACIFIC NORTHWEST (3)
Prereq: Geog 201 or 203 or 207. Environments, settlement, resources, and economic development of the Pacific Northwest.

THE UNITED STATES (5)
Prereq: Geog 201. Environments, resources, settlement and economic activities of the United States and its regions.

LATIN AMERICA (5)
Prereq: Geog 201. Peoples, resources, regions and economic and political development of South and Central America.

EAST AND SOUTH ASIA (5)
Prereq: Geog 201. Settlement, population, economic resources and activities of the countries and regions of East and South Asia.

AFRICA (5)
Prereq: Geog 201. Resources, peoples, regions; economic, social and political development of Africa.

INDIA, PAKISTAN AND BANGLADESH (3)
Prereq: Geog 201. Environments of India, Pakistan and Bangladesh; their resources, population and economic activities; emphasis on contemporary problems. Normally offered alternate years.

THE MIDDLE EAST (3)
Prereq: Geog 201. Environment, resources, culture and problems of Southwest Asia and North Africa.

CLIMATOLOGY (5)
Prereq: Geog 203 or Physics 101 or 131. Physical basis of climate; world patterns of climate; applied climatology.

MAP READING AND ANALYSIS (2)
Interpretation of map symbols and content at different scales; analysis of different types of maps and charts.

COMPUTER MAPPING (3)
Prereq: Geog 351 or CS 110 or 210. Conceptual exploration of existing mapping programs; interactive work with electronic digitizers and cathode ray tube displays; exploration of the capabilities and limitations of various computer-driven graphic display systems.

AERIAL PHOTO AND MAP INTERPRETATION (4)
Prereq: Geog 251 and 4 additional credits in geography. Geographic interpretation of aerial photographs and maps; remote sensing techniques and analyses.

NATURAL RESOURCES MANAGEMENT (5)
Prereq: Geog 201 or 203 or 207. Conservation as an operational philosophy and as an instrument of policy: legal and institutional options for conservation of mass and energy in the ecosystem.
426 THE URBAN ENVIRONMENT (3)
Prereq: Geog 203. Urban influences on the natural environment: applied physical geography of cities; environmental factors in urban planning.

432 PLANNING PRACTICUM (6-12)
Prereq: completion of two-thirds of major requirements and permission of instructor. Participation in aspects of community development and planning under professional and academic supervision.

440 POPULATION AND RESOURCES (3)
Prereq: Geog 201 or Soc 321. World distribution of population; patterns of population composition, fertility and mortality, inter-regional and intra-regional migrations; resources and population growth.

442 RURAL SETTLEMENT AND LAND USE (3)
Prereq: Geog 201. Geographical analysis of rural settlement and land use: origins, diffusion and patterns in selected regions.

444 THE DEVELOPING WORLD: SPATIAL PROBLEMS, STRATEGIES AND SOLUTIONS (3)
Prereq: Geog 201 or 207. Analysis of selected geographical problems of major countries and regions of Africa, Asia and Latin America; population pressure, agricultural productivity; resource appraisal and utilization; urban-industrial growth; urban and regional planning.

451 MAP REPRODUCTION AND GRAPHICS (3)
Prereq: Geog 351. Fundamentals of map reproduction and graphics through photographic and non-photographic processes.

452 CARTOGRAPHIC COMPILATION AND DESIGN (3)
Prereq: Geog 351. Advanced manual techniques; computer-aided mapping: geographic information systems.

453 FIELD METHODS IN GEOGRAPHY (3)
Prereq: Geog 351. Recording, mapping, and analysis of physical and cultural features.

454 ANALYSIS OF AERIAL DATA (4)
Prereq: Math 240. Statistical and cartographic techniques in solving geographic problems.

455 FIELD CAMP (3)
Prereq: permission of instructor. Methods of geographical field investigation.

456 REMOTE SENSING ANALYSIS AND APPLICATIONS (3)
Prereq: Geog 353 or Geol 430 or an introductory course in remote sensing. Human and computer interpretation of physical and cultural phenomena recorded by photographic/non-photographic multispectral sensing and satellite systems. Application to terrain evaluation, resource inventory, water resource and natural hazard assessment, and land cover/hand use analysis.

457 BIOPHYSICAL METHODS IN PLANNING (3)
Prereq: Geog 280. Identification, structuring and analysis of environmental data used in land-use planning from published and unpublished sources.

460 THE TEACHING OF GEOGRAPHY (3)
Prereq: Geog 201 and six additional credits in geography. Source materials and methods of geographic instruction.

480 PLANNING STUDIO (6)
Prereq: Geog 350. Analysis and synthesis of significant socio-economic, biophysical and cultural resources used in planning; preparation of a land-use or other plan for a selected region.

485 SEMINAR IN SYSTEMATIC GEOGRAPHY (5)
Prereq: Geog 301. Selected topics in cultural, economic or physical geography. May be repeated for credit.

GRADUATE COURSES

Courses numbered 500, 517, 545, 597 are described on page 20 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 HISTORY AND PHILOSOPHY OF GEOGRAPHY (3)
Prereq: graduate status. Evolution of geographic concepts, philosophy and methodology.

503 HISTORY AND THEORY OF PLANNING (3)
Prereq: graduate status. Evolution of planning theory and methods.

510 RESEARCH TECHNIQUES (3)
Prereq: Geog 484. Application of bibliographic, cartographic, field and other research techniques in geography and planning.

511 PLANNING ADMINISTRATION AND IMPLEMENTATION (3)
Prereq: Geog 503 and 510. Administration in urban and regional planning offices. Program evaluation, legal requirements, instruments of implementation.

521 SEMINAR IN SYSTEMATIC GEOGRAPHY (5)
Prereq: Geog 501 and 510. Investigation of major topics in human and physical geography.

531 ADVANCED SEMINAR IN GEOGRAPHY (5)
Prereq: Geog 521. Selected topics in human or physical geography.

535 ENVIRONMENTAL PROBLEMS IN URBAN AND REGIONAL DEVELOPMENT AND PLANNING (5)
Prereq: Geog 511 or 521. Cities and regions as complex systems of interdependent natural and human elements; key problems and approaches to their solution through planning.

541 ADVANCED PLANNING STUDIO (5)

551 RESEARCH PROBLEM (5)
Prereq: completion of all other 500-level required courses. Formulation and development of a hypothesis for a thesis. Development of the necessary methodology; preparation of bibliography and review of the literature.

550 GRADUATE COLLOQUIUM (1)
Current trends in geographic research. To be repeated each year of enrollment in program.

556 DIRECTED RESEARCH (3)
Prereq: advancement to candidacy and permission of instructor. Advanced individual projects under supervision. May be repeated for credit.

690 THESIS (6)
Prereq: advancement to candidacy for the master's degree and appointment of thesis advisor and thesis committee.
Geology

College of Arts and Sciences

The natural setting of Western Washington University adjacent to the Cascade Mountains and Puget Sound provides an ideal situation for study of a wide variety of geologic problems.

FACULTY

At the present time the department consists of 12 faculty members who have a broad range of backgrounds covering the entire field of geology. There are about 135 geology undergraduate majors and approximately 40 graduate students in the department.

FACILITIES AND EQUIPMENT

Geology is a science which studies the earth, its surfaces, interior and history and the processes which have altered it through time. It embraces investigation of the natural environment both in the field and in the laboratory. The Department of Geology occupies modern laboratories, classrooms and offices constructed in 1976 in the Environmental Studies Center. Geology laboratory facilities and equipment are available for X-ray diffraction, X-ray fluorescence, atomic absorption, sedimentation, air photo interpretation, flume and wave tank studies, paleomagnetic analysis, geochemistry, petrography, seismology and scanning electron microscopy. The Sundquist Marine Laboratory at Shannon Point near Anacortes provides facilities for studies in marine geology.
ROBERT A. CHRISTMAN (1980) Associate Professor. BS, MS, University of Michigan; PhD, Princeton University.
DON J. EASTERBROOK (1959) Professor. BS, MS, PhD, University of Washington.
ROSSL C. ELLIS (1962) Professor. BA, Occidental College; PhD, University of Washington.
DAVID R. PEVEAR (1967) Professor. BS, Allegheny College; MS, PhD, University of Montana.
CHARLES A. ROSS (1964) Professor. BA, University of Colorado; MS, PhD, Yale University.
MAURICE L. SCHWARTZ (1968) Professor of Geology and Education. BA, MS, PhD, Columbia University.
CHRISTOPHER A. SUCZEK (1977) Associate Professor. AB, University of California, Berkeley; PhD, Stanford University.
JAMES L. TALBOT (1976) Executive Vice President for Academic Affairs/Provost and Professor of Geology. BA, University of Cambridge; MA, University of California, Berkeley; PhD, University of Adelaide.
ANTONI WODZICKI (1977) Associate Professor. BE, University of Otago; MS, University of Minnesota; PhD, Stanford University.

Research Associates
Russell F. Burmester (1978)
BS, Stanford University; MA, University of Texas, Austin; PhD, Princeton University.
Frank Daines (1973)
BS, PhD, Charles' University, Prague, Czechoslovakia.
Jimmy Diehl (1977)
BA, MS, Western Washington State College; PhD, University of Wyoming.
Suzanne Baske Diehl (1977)
BA, University of Minnesota; MS, Western Washington State College; PhD, University of Wyoming.

BACHELOR OF ARTS

Major 50 credits plus Supporting Courses

- Geol 211, 212, 304 or 305, 306, 310, 316, 318, 407
- Electives under advisement from Geol 214, 300, 314, 340, 352, 360, 406, 410a, 410b, 412, 414, 416, 423, 424, 425, 430, 432, 433, 440, 444, 446, 453, 454, 455, 460, 461
- Supporting courses: Chem 121, 122; Physics 131 or 241; Math 124; 16 additional credits under advisement in physics, biology, chemistry or mathematics

Minor 25 credits

- Geol 211, 212
- Electives under departmental advisement

BACHELOR OF ARTS IN EDUCATION

The Geology Department recommends for teaching endorsement those students who have satisfactorily completed requirements for the bachelor's degree in education with an earth science major or a geology minor combined with

Professor. AB, Dartmouth College; MSC, University of Otago; PhD, University of California, Berkeley.
RANDALL S. BABCOCK (1967) Associate Professor. AB, Dartmouth College; MS, PhD, University of Washington.
MIRLE BECK, JR. (1969) Professor. BA, MS, Stanford University; PhD, University of California at Riverside.

GEOLOGY FACULTY
Geology

a major in one of the other physical or biological sciences.

Major — Earth Science Elementary
45 credits
- Geol 211, 212, 304, 306, 310 and 407
- Geog 203, 331; Physics 131; Astronomy 103
- Electives under departmental advisement from Geol 214, 314, 316, 318, 340, 352, 399, 400, 410a, 410b, 412, 414, 416, 430, 440; Geog 353; one from Geog 422 or 423; Astronomy 315, 316; Biol 406

Major — Earth Science Secondary
45 credits
- Geol 211, 212, 304 or 305, 306, 310, 407
- Geog 331, Physics 131; Astronomy 315; Sci Ed 399, 492
- Electives from Geol 214, 314, 316, 318, 340, 352, 399, 400, 410a, 410b, 412, 414, 416, 418, 420, 430, 440, 450; Geog 203, 353, one from 422 or 423; Astronomy 316

This major must be accompanied by a minor in physical science, chemistry, physics or biology; exceptions must be approved by the major department.

Combined Major — Earth Science/Physical Science Secondary
71-74 credits
- Geol 211, 212, 304 or 305, 306, 310, 407
- Geog 331
- Chem 121, 122, 123
- Physics 131, 132, 133 (or 241, 242, 341) and Astronomy 315
- Sci Ed 399, 492
- 3-5 additional credits in physics or chemistry or history of science under advisement

Minor — Geology
25 credits
- Geology 211, 212
- Electives under departmental advisement

BACHELOR OF SCIENCE

Major Concentration 110 credits
This program is recommended for students who are preparing to become professional geologists and intend to enroll in a graduate program or enter industry upon completion of degree.
- Geol 211, 212, 305, 306, 310, 316, 318, 352, 399, 410a, 410b, 416, 418, 420

- 1 credit under advisement from Geol 214, 300, 314, 340, 360, 400, 414, 423, 424, 425, 430, 432, 433, 440, 444, 446, 453, 454, 455, 460, 461
- Supporting courses to total 50 credits, including: Chem 121, 122, 123; Physics 131, 132, 133 (or 241, 242, 341, 352); Math 124, 125, Comp Sci 110 or higher, and Math 126 or 240.
- Remaining credits under advisement from chemistry, physics, math, computer science or biology to total 110 credits.

Students concentrating in biostratigraphy or paleontology may be allowed substitutions in biology under advisement.

Students preparing for graduate work are advised to complete one year of a foreign language.

Environmental Geology

Core Program (Required Courses)
- Geol 211, 212, 214, 304 or 305, 306, 407 or 418 and 420, 310, 316, 318, 352, 410a, 410b
- Chem 121, 122, 123
- Physics 131, 132, 133, or 241, 242, 341, 351
- Math 124, 125, Comp Sci 110 or higher, and Math 126 or 240
- Credits under advisement from geology, biology, chemistry, physics, geography and Huxley College to total 110; care should be taken to avoid duplications of courses among different disciplines

Geophysics Major Concentration 110 credits
- Geology 211, 212, 304, 305, 310, 352, 354, 407, 410a, 410b, 416, 454
- Math 124, 125, 126, 205, 224, 331, Comp Sci 110
- Physics 241, 242, 341, 342, 343
- Chemistry 121
- A minimum of 4 credits from: Geol 360, 453, 455; Math 332, 430; Physics 351, 352, 353, 471, 475, 485; Chem 122, 123

Geophysics Extended Minor 40 credits
Suitable only for majors in a physical science or others with a strong background in mathematics and physics. NOTE: A number of these courses have prerequisites.
- Geol 211, 212, 304, 306, 318, 352, 354, 407, 453, 454
- A minimum of three credits from the following: Geol 214, 316, 360, 410a, 410b, 416, 432, 445, 460
Combined Major —
Geology/Mathematics:
Major Concentration 110 credits

☐ Geoi 211, 212, 304 or 305, 306, 318, 352, 407, 410a, 410b
☐ Math 124, 125, 126, 205, 224, 331, 341, 342:
   Math/Comp Sci 335, 375, 435; Comp Sci 110 or 210
☐ Chem 121
☐ Physics 241, 242, 341, 351
☐ Additional credits under advisement from geology and mathematics to total 110

DEPARTMENTAL HONORS

In addition to the general requirements for all honors students, a geology major who wishes to graduate "with honors" must include Geology 399.

GRADUATE STUDY

For concentrations leading to the Master of Education or the Master of Science degrees, see Graduate section of the catalog.

COURSES IN GEOLOGY

Courses numbered X37; X97; 300, 409, 417; 445 are described on page 28 of this catalog.

101 GENERAL GEOLOGY (4)
   Introduction to geology for non-science majors. Practical applications of geology; processes that have produced the earth and its landforms. Geology majors and those having had geology in high school should take Geology 211.

102 CONTINENTAL DRIFT (4)
   Prereq: Geoi 101 or equivalent. Emergence of the theory of plate tectonics and its revolutionary impact on geologists' thinking about the history of the earth; an instance of scientific discovery. For non-science majors.

211 PHYSICAL GEOLOGY (5)
   Prereq: High school or college chemistry, open to students with credit in Geoi 101 only with permission of department. Origin, composition, and structure of earth. Identification of common rocks and minerals; the evolution of the surface features of continents, and interpretation of landforms from maps.

212 HISTORICAL GEOLOGY (4)
   Prereq: Geoi 211 (or Geoi 101 and Geoi 330 [lab]). Evolution of the major features of the earth's surface and of life; history of the ocean basins, continents and mountain belts related to the theory of plate tectonics; geologic history of North America and the Pacific Northwest.

214 ENVIRONMENTAL GEOLOGY (5)
   Prereq: Geoi 101 or 211. Role of geological processes in the natural environment. Effects of man's alteration of the earth's surface and consumption of natural resources.

CRYSTALLOGRAPHY (1)
   Prereq: Geoi 211 and high school or college chemistry. Introduction to crystallography with emphasis on crystal study fundamental to mineral identification. Not open to those with credit in Geoi 305. Can be taken concurrently with Geoi 306.

CRYSTALLOGRAPHY AND CRYSTAL CHEMISTRY (3)
   Prereq: Geoi 211 and Chem 121 or equivalent. Introduction to crystallography, crystal chemistry and chemical principles fundamental to study of minerals.

MINERALOGY (5)
   Prereq: Geoi 304 or 305. Origin, occurrence, and classification of common minerals; physical and chemical properties of minerals used in identification.

GEOMORPHOLOGY (5)
   Prereq: Geoi 211. Origin and evolution of topographic features; surface processes; analysis of glaciers, streams, wind, waves, ground water, and other agents in development of landforms.

GEOMORPHOLOGY OF WESTERN UNITED STATES (5)
   Prereq: Geoi 101 or 211. Geological forces and processes that have shaped the landscape of the West; origin of scenic geological features in the national parks.

PRINCIPLES OF PALEONTOLOGY (5)
   Prereq: Geoi 212. Life on the earth as revealed by its inhabitants, past and present.

STRUCTURAL GEOLOGY (4)
   Prereq: Geoi 211, 212; Math 105 and Physics 131 recommended. Description, classification, and interpretation of earth structures; laboratory solution of structural problems by use of geologic maps.

GEological OCEANOGRAPHY (3)
   Prereq: Geoi 211, Chem 101 or 121 or equivalent. Nature and origin of major structural features within the ocean basins and distribution of recent marine sediments.

INTRODUCTION TO GEOPHYSICS (4)
   Prereq: Geoi 211, 318, Physics 241 or 131 and Math 124. Basic elements of geophysics. Seismology. gravity, and heat flow with reference to the internal structure of the earth.

POTENTIAL FIELD METHODS IN GEOPHYSICS (3)
   Prereq: Geoi 352. Principles of gravity, magnetics, electrical and electromagnetic methods.

GEology OF FOSSIL FUELS (4)
   Prereq: Geoi 212. Origin and accumulation of fossil fuels; methods of locating fossil fuels resources.

HONORS TUTORIALS (2-3)

SEMINAR IN GEOLOGICAL LITERATURE (1)
   Prereq: 14 credits in geology. Geologic reports, papers and discussion.

PETROLOGY (4)
   Prereq: Geoi 306. Origin, occurrence and classification of igneous, sedimentary and metamorphic rocks; hand specimen identification of rocks. Not open to those with credit in Geoi 420.

FIELD THEORY (5)
   Prereq: 13 credits in geology and permission of department. Geoi 318. Methods of geological field investigations; use of field instruments. Offered August-September and spring quarter off campus. Concurrent enrollment in 410b recommended.

187
412 FIELD GEOLOGY FOR TEACHERS (2-5)
Prereq: Geol 211. The geology of Northwest Washington as observed in the field. Summer only.

414 GEOLOGY OF WASHINGTON (3-5)
Prereq: Geol 101 or 211. The significant geologic features of Washington State, field studies.

418 STRATIGRAPHY AND SEDIMENTATION (4)
Prereq: Geol 212; 599 recommended. Analysis of transportation, deposition, and consolidation of sediments; physical and biological characteristics of stratified rock sequences; principles of correlation, determination of geologic age and facies relationships.

419 OPTICAL MINERALOGY (4)
Prereq: Geol 306. Optical phenomena as related to mineralogy and identification of minerals from optical properties with the use of the polarizing microscope.

420 MINERALOGY AND PETROLOGY (5)
Prereq: Geol 352 and 418. Origin, occurrence, and classification of igneous, sedimentary, and metamorphic rocks; hand sample and thin section identification of minerals.

421 IGNEOUS PETROLOGY AND PETROLOGY (5)
Prereq: Geol 420. Origin, occurrence, and classification of igneous rocks and minerals and use of thin sections in identifying igneous minerals.

422 SEDIMENTARY PETROLOGY AND PETROLOGY (5)
Prereq: Geol 420. Origin, occurrence, and classification of sedimentary rocks and minerals, and use of thin sections in identifying sedimentary minerals. Offered in alternate years.

423 METAMORPHIC PETROLOGY AND PETROLOGY (5)
Prereq: Geol 420. Origins, occurrence, and classification of metamorphic rocks and minerals and use of thin sections in identifying metamorphic minerals.

424 MAP AND AERIAL PHOTOGRAPH INTERPRETATION (3)
Prereq: Geol 310. Identification, interpretation of geological features using topographic maps and aerial photos. Offered in alternate years.

425 ECONOMIC GEOLOGY (4)
Prereq: Geol 306. The occurrence and origin of metallic and nonmetallic ore deposits; geological and geochemical exploration techniques; prospect evaluation, sampling and mine mapping.

426 ECONOMIC GEOLOGY — ORE PETROLOGY LAB (2)
Prereq: Geol 415. Microscopic study of hydrothermally altered rocks, reflected light microscopic study of opaque ore minerals and fluid inclusion research. Concurrent enrollment in Geol 432 suggested.

430 GLACIAL GEOLOGY (4)
Prereq: Geol 310. Processes and phenomena of modern and ancient glaciers; effects of Pleistocene glaciations.

434 X-RAY DIFFRACTION (2)
Prereq: Geol 306, Chem 122, and permission of department. Basic analytical techniques with x-ray equipment.

435 CLAY MINERALOGY (4)
Prereq: Geol 444. Classification, identification, structure and genesis of clay minerals.

436 GEORECTONICS (4)
Prereq: Geol 352. Crust-mantle interactions, isostasy, continental drift, sea-floor spreading, theories of mountain building.

437 SEISMIC METHODS IN GEOPHYSICS (3)
Prereq: Geol 352, Meth 126, Comp Sci 110. Principles of applied seismology, including refraction and reflection; elements of data-processing.

438 PALEOMAGNETISM AND ROCK MAGNETISM (5)
Prereq: Geol 352. Origin and interpretation of natural magnetism of rocks; origin of geomagnetic field; application to problems in petrology, structural geology and geodynamics.

439 GEOLOGIC PHASE EQUILIBRIA (3)
Prereq: Meth 124, Chem 122, 123, Geol 305. Application of classical thermodynamics to interpretation of geologic phase equilibria.

440 ANALYTICAL GEOCHEMISTRY (2)

441 HYDROLOGY (4)
Prereq: Math 105, cal. with desirable. Study of the hydrologic cycle, with emphasis on geologic and engineering aspects.

442 GROUNDWATER HYDROLOGY (4)
Prereq: Geol 472, calculus. Principles of hydrogeology, with emphasis on groundwater resources.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

507 COASTAL GEOLOGY (4)
Prereq: Geol 310 or 340. Coastal processes and morphology, waves, tides and currents; sea-level changes, coastal sedimentation; research methods in the field.

510 FIELD PROBLEM (2-1)
Field mapping problem and report in geology.

511 ADVANCED STUDIES IN PHYSICAL GEOLOGY (3)
Prereq: Geol 420 or permission of department. Independent or class study of recent advances in physical geology.

512 ADVANCED STUDIES IN HISTORICAL GEOLOGY (3)
Prereq: Geol 316 or permission of instructor. Independent or class study of recent advances in historical geology.
514 FLUVIAL GEOMORPHOLOGY (3)
Prereq: Geol 310, calculus recommended; Fluvial hydraulics. Mechanics of sediment erosion and transport; Channel adjustments to water and sediment discharge. Offered on alternate years.

516 ADVANCED STUDIES IN BIOSTRATIGRAPHY AND PALEONTOLOGY (3)
Prereq: Geol 316 or permission of instructor. Independent or class study of recent advances in biostratigraphy, paleontology and microfossilology.

518 SEDIMENTATION AND TECTONICS (3)
Prereq: Geol 416. Analysis of the depositional framework, plate tectonic setting and evolution of sedimentary basins, both marine and non-marine, including tectonic and environmental controls on facies relationships.

519 GEOCHEMISTRY OF HYDROTHERMAL ORE DEPOSITS (4)
Prereq: Geol 422, 432, Chem 120. Investigation of composition, sources and transportation and deposition mechanisms of hydrothermal ore deposits.

523 IGNEOUS PETROLOGY AND PETROGRAPHY (5)
Prereq: Geol 420 or equivalent. Advanced classification of igneous rocks and minerals. Petrogenesis of volcanic and plutonic suites and their relation to the plate tectonic model.

524 SEDIMENTARY PETROLOGY AND PETROGRAPHY (5)
Prereq: Geol 420 or equivalent. Description, classification and interpretation of sedimentary rocks, including provenance, depositional history and diagenesis. Advanced lab stress on petrographic microscope.

525 METAMORPHIC PETROLOGY AND PETROGRAPHY (5)
Prereq: Geol 420 or equivalent. Advanced course in metamorphic petrology. Subject matter includes graphical and mathematical analysis of phase relations, field and laboratory study of metamorphic structures, and microscope study of metamorphic minerals and textures.

526 IGNEOUS AND METAMORPHIC PETROLOGY AND GEOCHEMISTRY (5)
Prereq: Geol 423 or 425 or equivalent. Petrogenesis of igneous and metamorphic rocks and minerals.

527a SPECIAL PROBLEMS IN SEDIMENTARY PETROLOGY — SEDIMENTARY GEOCHEMISTRY (3)
Prereq: Geol 420. The distribution of elements in sedimentary rocks, geochemical mass balance, carbonate solution chemistry and geochemical indicators of palaeosolinity. To be offered on alternate years with 527b.

527b SPECIAL PROBLEMS IN SEDIMENTARY PETROLOGY — CARBONATE PETROLOGY (3)
Prereq: Geol 420. The origin, occurrence, description and classification of carbonate rocks, with the techniques needed in their interpretation. To be offered on alternate years with 527a.

533 ECONOMIC GEOLOGY — ORE PETROLOGY LAB (2)
Prereq: Geol 418. Advanced microscopic study of hydrothermally altered rocks, reflected light microscopic study of opaque ore minerals and fluid inclusion research.

536 PALEOECOLOGY (4)
Prereq: Geol 316 or permission of instructor. Independent or class study in interpretation of fossil organisms from skeletal morphology and associated features; reconstruction of marine ecosystem relations from the study of assemblages of fossils.

540 GLACIAL GEOLOGY (4)
Prereq: permission of instructor. Physics of glacial movement, processes of glacial erosion and deposition, effects of Pleistocene climatic changes.

544 X-RAY DIFFRACTION AND CRYSTALLOGRAPHY (3)
Prereq: permission of instructor. Powder diffraction methods using the diffractometer and powder camera; identification of minerals and indexing of diffraction data.

547 CLAY MINERALOGY (4)
Prereq: Geol 444 or 544. The classification, structure, chemistry and X-ray diffraction identification of clays and clay minerals.

548 GEOLOGY OF CLAYS (3)
Prereq: Geol 444. Occurrence, distribution and genesis of clays, including weathering and soils, diagenesis and hydrothermal alteration.

562a,b ADVANCED STUDIES IN GEOPHYSICS (4-6)
Prereq: Geol 453 or 454 or permission of instructor. Advanced topics in geophysics.

553 GEOTECTONICS (4)
Prereq: permission of instructor. Mechanical behavior of earth materials, structure of the interior of the earth; theories of mountain building; plate tectonics.

554 SEISMIC METHODS IN GEOPHYSICS (3)
Prereq: permission of instructor. Principles of applied seismology, including refraction and reflection, elements of data processing.

555 PALEOMAGNETISM AND ROCK MAGNETISM (5)
Prereq: permission of instructor. Origin and interpretation of natural magnetism of rocks; origin of geomagnetic field; advanced application to problems of petrology, structural geology and geodynamics.

550 GEOLOGIC PHASE EQUILIBRIA (3)
Prereq: permission of instructor. Analysis of geologic phase equilibria in terms of classical thermodynamics. Review of current research literature and seminar presentations.

561 ANALYTICAL GEOCHEMISTRY (2)
Prereq: permission of instructor. Advanced techniques of chemical analysis of geologic materials.

573 GROUNDWATER HYDROLOGY (4)
Prereq: Geol 472, 1 year calculus. Occurrence, movement and characteristics of groundwater; basic principles of flow in porous media; hydraulics of wells and earth dams; groundwater exploration, development, quality and management. Emphasis will be on practical applications of geology and basic principles of groundwater hydraulics to water resource problems.

580 ADVANCED METHODS IN FIELD GEOLOGY (2)
Prereq: Geol 410a, b or equivalent field experience. Geol 252 or equivalent. Transportation fee will be charged. Field trips open only to those enrolled in course.

595 SEMINAR IN CONTEMPORARY GEOLOGY PROBLEMS (1)
Prereq: graduate standing in department. May register for a maximum of three (3) credits. Presentation of contemporary subjects in geology. S/U grading.

690 THESIS (3-12)
Thesis research.
History

College of Arts and Sciences

Without a knowledge of the past, we are, as one writer has phrased it, "like victims of collective amnesia groping in the dark for our identity." History as a discipline is rooted in that fundamental human urge, curiosity. It confronts and weighs the relative significance of chance, inevitability and choice in the passage of time. History is humanistic in its emphasis on the influence of ideas and values, its capacity to both instruct and entertain, and as interpretive literature.

In its investigation of social processes, groups and institutions, and the examination of human motivation, it is a social science. It acts as a bridge among disciplines, borrowing from all and contributing a sense of context and sequence to the perception of actions and individuals. The American historian Carl Becker, wrote: "The value of history is, indeed, not scientific but moral: by liberalizing the mind, by deepening the sympathies, by fortifying the will, it enables us to control, not society, but ourselves — a much more important thing; it prepares us to live more humanely in the present and to meet rather than to foretell the future."

HISTORY FACULTY

DON D. EKLUND (1958) Chairman.
Associate Professor, BA, University of New Mexico, MA, Colorado State College; PhD, University of Colorado.

BERNARD L. BOYLAN (1955) Professor, BA, MA, University of Washington; PhD, University of Missouri.

WILLIAM A. BULTMANN (1965) Professor, AB, PhD, University of California, Los Angeles.
ROLAND L. DE LORME (1965) Professor, AB, University of Puget Sound; MA, University of Pennsylvania; PhD, University of Colorado.

LEONARD M. HELFGOTT (1970) Associate Professor, BA, MA, PhD, University of Maryland.

HARLEY E. HILLER (1957) Professor, BA, Westmar College; MA, PhD, University of Minnesota.

JAMES H. HITCHMAN (1956) Professor, BA, Williams College; MA, PhD, University of California, Berkeley.

THOMAS C. R. HORN (1964) Assistant Professor, BA, University of Pennsylvania; MA, PhD, University of California, Berkeley.

HARRY D. JACKSON (1967) Associate Professor, BE, Wisconsin State University; Whitewater, MA, PhD, The University of Iowa.

EDWARD H. KAPLAN (1969) Associate Professor, BS, George-town University; MA, PhD, The University of Iowa.

RONALD P. LOFTUS (1977) Assistant Professor, BA, George Washington University; MA, Johns Hopkins University; PhD, Claremont Graduate School.

GEORGE ERIK MARIZ (1970) Associate Professor, BA, MA, PhD, University of Missouri.

AUGUST RADKE (1953) Professor, BA, MA, PhD, University of Washington.

HARRY R. RITTER (1969) Associate Professor, BA, University of Arizona; MA, PhD, University of Virginia.

PAUL L. ROLEY (1967) Associate Professor, BA, Illinois College; MA, Northwestern University; PhD, University of Illinois.

CARL U. SCHULER (1959) Associate Professor, BS, MA, PhD, University of Wisconsin.

HENRY G. SCHWAMZ (1969) Professor of Political Science and History, BA, MA, PhD, University of Wisconsin.

LESLIE J. THOMAS (1962) Associate Professor, BA, St. Olaf College; MS, PhD, University of Wisconsin.

LOUIS W. TRUSCHEL (1970) Associate Professor, BA, Pacific Lutheran University; MA, PhD, Northwestern University.

BACHELOR OF ARTS

At least one-half the total credits taken in fulfillment of the following programs must be taken in upper-division courses.

Major 60 credits

For this program history courses are grouped into the following fields:

- United States
- Europe
- East and South Asia
- Africa and Middle East
- Western Hemisphere (outside U.S.)

Credits to be distributed as follows:

- Four courses in one of the above fields
- Three courses in a second field
- Two courses in a third field
- History 499 (3 credits)
- Electives under advisement

The department recommends that majors take the maximum permissible number of history courses in the General University Requirements program. Up to 12 credits of these may be applied toward a major or minor in history. (See General University Requirements in the College of Arts and Sciences section.)

It is strongly recommended that majors who elect a four-course history concentration in a field where languages other than English predominate take enough language study to become proficient in an appropriate foreign language. Students planning on graduate study in history are cautioned that many graduate schools require foreign language proficiency for admission. Possession of such proficiency is a requirement for departmental honors at graduation for those who elect a four-course history concentration in a field where English is not predominant.

A minimum grade point average in history of 2.5 is required for graduation.

Minor 25 credits

For purposes of this program history courses are grouped into the following fields:

- United States
- Europe
- East and South Asia
- Africa and Middle East
- Western Hemisphere (outside U.S.)

Credits should be distributed as follows:

- Three courses in one of the above fields
- Two courses in a second field
- Electives under advisement

A minimum grade point average in history of 2.5 is required for graduation.

Minor in Foreign Cultures 25 credits

The History Department offers a minor in foreign cultures for foreign language majors and other interested students. Credits to be distributed as follows:

- Two background courses in modern European history (425, 426, 427, 428, 429)
- Two courses in one of the following areas: France and the French-speaking world (277, 386, 441, 442); Germany (430, 431); Latin America (271, 273, 473); Russia (433, 434)
- Electives under advisement

Area Studies Minor

Minor programs are available in the following fields:

- Canadian-American Studies
History

☐ East Asian Studies
☐ Latin American Studies

Courses taken for credit in these programs may not be counted toward the major. See Interdisciplinary Programs for details.

BACHELOR OF ARTS IN EDUCATION

The department recommends that students take its offerings in the General University Requirements program, up to 12 credits of which may be applied toward a major or minor in history. (See General University Requirements.)

At least one-half the total credits taken in fulfillment of the following programs must be in upper-division courses.

A minimum grade point average in history of 2.5 is required for graduation and certification for teaching competence.

Major — Junior and Senior High School

60 credits

History credits should be distributed under advisement as follows:

☐ Three courses in United States history
☐ Two courses in European history
☐ Two courses from one of the following three areas:
  - East and South Asia; or
  - Africa and Middle East; or
  - Western Hemisphere (outside U.S.)
☐ Hist 391, 499
☐ Soc St: Ed 426
☐ Electives under advisement

NOTE: Students must also complete the specific program requirements for Social Studies Education, including the Social Studies minor, as outlined in the Interdisciplinary Program section of this catalog.

Completion of this major/minor program leads to a teaching endorsement in social sciences and history at the secondary level.

Major — Elementary

45 credits

☐ Hist 103, 104
☐ Two courses from Hist 425 through Hist 449
☐ One course from Hist 410 through Hist 420
☐ Electives under advisement

A minimum grade point average in history of 2.5 is required for graduation and certification of teaching competence. Competence will be certified in history.

Minor

25 credits

☐ History 103, 104
☐ Electives under advisement

Area Studies Minor

Minor programs are available in the following fields:

☐ Canadian-American Studies
☐ East Asian Studies
☐ Latin American Studies

Courses taken for credit in these programs may not be counted toward the major. See Interdisciplinary Programs for details.

Extended Minor 35 credits

(Alternate Minor for teaching competence recommendation)

Credits should be distributed under advisement as follows:

☐ Three courses in United States history
☐ Two courses in European history
☐ Hist 391
☐ Electives under advisement

A minimum grade point average in history of 2.5 is required for graduation and certification of teaching competence.

Extended Minor 33-35 credits

For English majors desiring a combined recommendation appropriate for junior high or middle school.

☐ Hist 103, 104
☐ One modern European course from Hist 425 through Hist 449
☐ One course from Hist 271, 285, 385
☐ One upper-division U.S. history course
☐ 10 credits in electives under departmental advisement

A minimum grade point average in history of 2.5 is required for graduation and certification of teaching competence in history.

DEPARTMENTAL HONORS

A history major may petition for entrance into the History Department Honors Program after completion of 25 credits in history with a GPA of 3.5 or above, and must thereafter maintain at least a 3.5 GPA in history courses to remain a member in good standing of the program.

In addition to fulfilling successfully all regular requirements in either the Bachelor of Arts or Bachelor of Arts in Education program (including History 499), an honors student must (a) complete one of the following courses as part of his or her major: History 493, 494 or 495; and (b) complete a departmental honors essay through registration in History 402 by the winter quarter of his or her senior year. This honors essay may
also count as the senior honors thesis for those doing general university honors. It should be treated as an extension and deepening of the essay written in History 499 and should be written under the direction of the history faculty member who supervised the student's History 499 essay. Each essay must be approved by a committee of four faculty members, one of whom must be the departmental honors adviser and another of whom must be the student's 402-499 supervisor. The non-mandated members of the committee are to be nominated by the student, and one of them may be from a department other than history.

GRADUATE STUDY

For concentrations in history leading to the Master of Arts degree and for information concerning the archival training program, see Graduate section of catalog.

COURSES IN HISTORY

Courses numbered X37, X97, 300, 400, 417, 445 are described on page 28 of this catalog.

103, 104 INTRODUCTION TO AMERICAN CIVILIZATION (5 ea)
103 American History to 1865
From the European background to the end of the Civil War.
104 American History Since 1865
From the end of the Civil War to the present.

111, 112, 113 INTRODUCTION TO WESTERN CIVILIZATION (5 ea)

Course should not duplicate Lib St 121, 122, 123. Need not be taken in sequence. Human development in the Western world; emphasis upon ideas, institutions, forces and movements shaping contemporary life.

111 Prehistory to 775. Survey of the political, social and cultural history of accidential civilization from prehistory to the collapse of the Roman empire.
112 776-1713. Survey of the cultural, political, social and economic history of Europe from the early Middle Ages to the signing of the Treaty of Utrecht.
113 1713-Present. Survey of the political, social, economic and diplomatic history of Europe from the opening of the Enlightenment to the present.

199 RESEARCHING THE TERM PAPER (1)

How to use repositories of knowledge (courthouses, public and private archives, libraries) to research undergraduate papers in history and other academic disciplines. Twelve two-hour lectures keyed to an accompanying set of printed illustrative material; each lecture followed by a short practical exercise, culminating in the preparation of an annotated bibliography for an undergraduate paper. May be begun at any time up to the seventh week of any quarter.

233 SURVEY OF MODERN RUSSIAN HISTORY AND CULTURE (5)
Elements of Russian history and culture from the time of Peter the Great (1668) to the present, with particular emphasis on the autocratic and revolutionary traditions in Russian history.

261 BLACK HISTORY IN THE AMERICAS (5)
The cultures and achievements of blacks in the Americas.

267 CHRISTIANITY IN HISTORY (5)
A survey of Christian institutions and doctrines from their inception to the present, including a study of the intellectual, social and economic forces which have influenced their development.

271 INTRODUCTION TO LATIN AMERICAN CIVILIZATION (5)
A survey of various themes such as Hispanidad, Indianismo, the Church, the peasant, urbanism, the army, which together make up the Latin American experience.

273 LATIN AMERICA (5)
From the period of early Spanish and Portuguese colonization to the present.

275 THE INDIAN IN AMERICAN HISTORY (5)
Prereq: Sophomore status. Events and persons critical to history of North American Indians; review of interpretations of Indian cultures and history.

277 CANADA (5)
Canadian history from the period of French colonization to the present.

280 INTRODUCTION TO EAST ASIAN CIVILIZATION (5)
The origins and evolution of the political, economic and social aspects of East Asia civilization to the present.

281 INTRODUCTION TO EAST ASIAN CULTURES (5)
The origins and evolution of the religious, intellectual and literary aspects of the cultures of East Asia to the present.

285 INTRODUCTION TO AFRICAN CIVILIZATIONS (5)
An introduction to the history of Africa, with emphasis on the development of African societies and civilizations from antiquity to modern times.

286 MODERN AFRICA (5)
History of Africa during and after colonial rule. Emphasis is on African reactions to European rule, nationalist movements and the problems of independence.

287 INTRODUCTION TO ISLAMIC CIVILIZATION (5)
A thematic approach to religious and cultural aspects of Middle Eastern society; the development of Islam as a body of religious thought and practice; and major cultural movements in the Middle East.

321 THE SAMURAI: WARRIOR GOVERNMENT, SOCIETY AND CULTURE (4)
Prereq: Junior status. The decline of the aristocratic court and the rise of warrior class in medieval Japan; Samurai values and religious beliefs; the evolution of legal and economic practices.

336 COMPARATIVE IMPERIALISMS: SELECT CASE STUDIES (5)
Prereq: Sophomore status. An examination of several imperial powers, their controls and methods, their attitudes to race questions, their influence on the colonial peoples and economies.

348 TECHNOLOGY AND SOCIETY IN EARLY EUROPEAN HISTORY (5)
Prereq: Hist 112, Lib St 122 or equivalent. Man's efforts to control his environment; the impact of technological change from the fall of Rome to the Industrial Revolution.
347 EUROPEAN INTELLECTUAL HISTORY (5)
Prereq: Hist 111, 112 or 113, or Lib St 121, 122 or 123 or equivalent. A study of the evolution of Western thought from its Greek and Hebrew origins to modern times. Special emphasis on the development of the European mind since the seventeenth century.

360 AMERICAN ECONOMIC HISTORY (5)
Prereq: sophomore status. American economic development from colonial times to the present, with particular emphasis upon later periods.

361 BLACK HISTORY IN THE AMERICAS: THE SLAVERY ERA (5)
Prereq: an introductory level course in African, American, or Latin American history. Africans in bondage in the Americas; African heritage of blacks in the Americas, slavery in Africa and the Americas, with emphasis on the United States, the Caribbean and Brazil.

363 AMERICAN CONSTITUTIONAL HISTORY (5)
Prereq: sophomore status. The constitutional development of the United States from the Articles of Confederation to the present, emphasizing the Supreme Court's constitutional interpretation in judicial review in the context of partisan political debate.

364 FILM AS HISTORY (4)
Prereq: any introductory American or European history course or Lib St 121, 122, 123. Readings and related films on selected historical topics; subject and course content vary with instructor. Repeatable for credit once.

365 GREAT PERSONALITIES IN AMERICAN HISTORY (5)
Prereq: sophomore status. Biographical approach based on evaluation of careers of typical leaders in public affairs, the arts and ideas.

366 AMERICAN SOCIETY AND THOUGHT: ORIGINS 1520-1600 (5)
Prereq: Hist 103 or equivalent. Social and intellectual development during the colonial and early national periods.

367 AMERICAN SOCIETY AND THOUGHT: 1800-1900 (5)
Prereq: Hist 103/104 or equivalent, Transcendentalism, Romanticism, Slavery, the Utopias, intellectual impact of the Civil War, Social Darwinism as trends in American history.

368 AMERICAN SOCIETY AND THOUGHT: THE TWENTIETH CENTURY (5)

369 PRE-COLONIAL AFRICA (5)

388 SOUTHERN AFRICA (5)
Prereq: sophomore status. Development of African and European societies in South Africa and neighboring states, their relations and conflicts.

387 HISTORY OF THE JEWISH PEOPLE (5)
Prereq: one of the following—Hist 111, 112, 113, 287, or Lib St 121, 122, 123, or any upper-division European or Middle Eastern history course. An analysis of Jewish history and culture in medieval and modern Europe and in the classical and modern Middle East culminating in the development of the Jewish state in the Middle East.

389 EAST AFRICA (3)

390 TOPICS IN HISTORY (3-5)
Prereq: junior status. Specialized topics dealing with history as a social science discipline. The subject of each individual course and its prerequisites will be announced in the class schedule. Repeatable to 10 credits.

391 HISTORY AND GOVERNMENT OF WASHINGTON (3)

394 GENEALOGY AND FAMILY HISTORY (3)
Prereq: junior status. A discussion of the methods and research aids in composing a genealogy and family history. Also discussed will be the importance of this research to prosopographical and historical studies in general.

402 HISTORY DEPARTMENTAL HONORS ESSAY (2)
Prereq: open to history honors students only.

407 HISTORY OF THE FIRST WORLD WAR (3)
Prereq: junior status. Analysis of the First World War with emphasis on the strategic and tactical considerations that governed its course.

408 HISTORY OF THE SECOND WORLD WAR (4)
Prereq: junior status. Analysis of the Second World War with emphasis on the strategic and tactical considerations that governed its course.

410 ANCIENT NEAR EAST (5)
Prereq: Hist 111 or Lib St 121. Genesis of Western civilization: our cultural debt to the ancient Mesopotamians, Egyptians, Hittites, Phoenicians, Aramaeans, Hebrews, Assyrians and Persians.

411 GREECE TO 404 B.C. (5)
Prereq: Hist 111 or Lib St 121; open to sophomores with permission of instructor. The Greek world from Minoan-Mycenaean period to end of Peloponnesian War.

412 GREECE: 404 to 220 B.C. (3)
Prereq: Hist 111 or Lib St 121; open to sophomores with permission of instructor. Greece from the end of the Peloponnesian War to the intervention of Rome.

413 THE ROMAN REPUBLIC (5)
Prereq: Hist 111 or Lib St 121; open to sophomores with permission of instructor. From the foundation of Rome (753 B.C.) to the end of the Republic.

414 THE ROMAN EMPIRE (3)
Prereq: Hist 111 or Lib St 121, open to sophomores with permission of instructor. From the foundation of the Roman Empire to the death of Theodosius (395 A.D.) and the division of the Empire.

415 THE BYZANTINE EMPIRE (5)
Prereq: Hist 111 or 112, or Lib St 121; open to sophomores with permission of instructor. From the dedication of Constantinople to its fall (1453).
418 MEDIEVAL ENGLAND (5)
Prereq: Hist 112, Lib St 122, open to sophomores with permission of instructor. Political, social and constitutional history of England from the Roman conquest to the Wars of the Roses.

419 CONSTITUTIONAL, LEGAL AND ADMINISTRATIVE HISTORY OF ENGLAND (3)
Prereq: junior status. A study of the institutions, social and political forces, and ideas which contributed to the development of the British Constitution, especially during the formative period before the Glorious Revolution.

420 THE RENAISSANCE AND THE REFORMATION (5)
Prereq: Hist 112 or Lib St 121; open to sophomores with permission of instructor. Transition from the Medieval to the Modern Western Europe; from the eve of the Hundred Years War to the Treaty of Westphalia (1337-1648).

425 MODERN EUROPE: 1648-1789 (5)
Prereq: junior status. Development of the modern state system and the conflict between monarchs and the growing middle class.

426 MODERN EUROPE, 1789-1850 (5)
Prereq: junior status. Political, economic, social, and diplomatic developments between the French Revolution and mid-nineteenth century.

427 MODERN EUROPE, 1850-1914 (5)
Prereq: junior status. From the age of "Realpolitik" to First World War.

428 MODERN EUROPE, 1914-1945 (5)
Prereq: junior status. The First World War and the results of that conflict, attempts at world organization, the states of Europe between the war, the Second World War.

429 EUROPE SINCE 1945 (5)
Prereq: junior status. Major political, economic and social developments, origin of and operation of the cold war and attempts of Europe to adjust to the changing status of the continent.

430 GERMANY BEFORE 1815 (5)
Prereq: junior status. German development from the late Middle Ages to the Napoleonic era.

431 GERMANY SINCE 1815 (5)
Prereq: junior status. Since the Congress of Vienna; national unification, the German state system; role in international affairs.

433 ROOTS OF REVOLUTION: RUSSIA, 1801-1917 (3)
Prereq: junior status. A history of Russia in the 19th century with particular emphasis upon social and intellectual trends and upon the rise of the revolutionary movement.

434 THE RUSSIAN REVOLUTIONS AND THE SOVIET REGIME (5)
Prereq: junior status. An examination of the Bolshevik experience, with particular emphasis upon ideology and party history. Course addresses itself particularly to the question of why the revolution went wrong.

435 THE HABSBURG MONARCHY, 1815-1918 (5)
Prereq: Hist 113 or equivalent. A political and sociological analysis of the decline and collapse of a great empire. Offered in alternate years.

438 ENGLAND, 1485-1688 (5)
Prereq: Hist 112 or Lib St 122 or equivalent. Political, social, economic and constitutional history of England from the end of the Wars of the Roses to the Glorious Revolution.

439 ENGLAND, 1688-1832 (5)
Prereq: Hist 113 or Lib St 122 or equivalent. Political, social, economic and diplomatic history of England from the Glorious Revolution to the Reform Bill of 1832; constitutional developments of the period.

440 ENGLAND, 1832 TO THE PRESENT (5)
Prereq: Hist 113, Lib St 123 or equivalent. Political, social, economic and diplomatic history of England from the Reform Bill of 1832 to today; development of parliamentary institutions; impact of the World Wars of the twentieth century on British politics, economics and society.

441 FRANCE, 1815-1835 (5)
Prereq: Hist 112 or 113 or Lib St 122 or equivalent. Political, social, and economic development from Louis XIV through Napoleon.

442 FRANCE SINCE 1815 (5)
Prereq: Hist 113, Lib St 123 or equivalent. Political, social and economic development of France since Napoleon.

448 EAST CENTRAL EUROPE TO 1919 (5)
Prereq: junior status. The political, social and intellectual history of Poland, the Danube Basin and the Balkan Peninsula to the end of World War I.

449 TWENTIETH CENTURY EASTERN EUROPE (5)
Prereq: junior status. The place of the East European nations — Poland, Czechoslovakia, Hungary, Yugoslavia, Romania, Bulgaria, Albania — in European and world politics. Offered in alternate years.

450 AMERICAN COLONIAL HISTORY TO 1776 (5)
Prereq: junior status. The settlement of the English colonies in America and their political, economic, religious and social development to the mid-eighteenth century; colonial reaction to imperial policies in the context of internal partisan politics from 1763 to the Declaration of Independence.
451 THE ERA OF THE AMERICAN REVOLUTION, 1763-1783 (5)
Prereq: junior status. Colonial reaction to British-imperial policies and the political, economic, military and diplomatic problems of the Revolutionary Era in the context of internal partisan politics.

452 THE EARLY NATIONAL PERIOD: HAMILTONIANS VS. JEFFERSONIANS (5)
Prereq: junior status. The problems of the Confederation government, the debates and compromises in the Philadelphia Convention of 1787, and the origin of the two-party system as a result of the partisan political debates over constitutional interpretations, economic policies, and foreign policy to 1812.

453 THE MIDDLE PERIOD: 1812-1840 (5)
Prereq: junior status. The struggle between republican and democratic forces in a milieu of social, technological, economic, international and religious flux.

454 THE CIVIL WAR AND RECONSTRUCTION (6)
Prereq: junior status. Development of rival nationalisms; problems of war in North and South; efforts toward reunion; new problems in 1877.

455 THE UNITED STATES: 1917-1941 (5)
Prereq: junior status. Political, social and economic trends from the beginning of World War I to World War II.

459 THE UNITED STATES SINCE 1941 (5)
Prereq: junior status. Internal and international consequences of the rise of the United States as a world power since World War II.

461 DIPLOMATIC HISTORY OF THE UNITED STATES TO 1945 (5)
Prereq: junior status. Relationship of the United States to world politics from colonial times to 1945.

462 DIPLOMATIC HISTORY OF THE U.S. SINCE 1945 (4)
Prereq: junior status. A historical analysis of the United States in its relations to other powers in the post World War II world.

468 U.S. AND REGIONAL MARITIME HISTORY (3)
Prereq: permission of instructor. Naval and maritime development of the nation and Pacific Northwest.

473 SELECTED MAJOR LATIN AMERICAN STATES IN THE 20th CENTURY (5)
Prereq: junior status. A contemporary history of major states of current interest.

477 MODERN CANADA SINCE 1867 (3)
Prereq: junior status. A survey of Canadian political, social and economic history since Confederation. The problems confronting federalism and Quebec: the emergence of Canada in world affairs.

490 ANCIENT AND EARLY IMPERIAL CHINA (5)
The evolution of early civilization and the first stage of high civilization in China through the Han dynasty.

491 IMPERIAL CHINA FROM THE FALL OF HAN TO MING CHING (5)
Political, socio-economic and intellectual trends during the era of highest development of the imperial system.

492 CHINA FROM LATE CHING TO THE PRESENT (5)
Dissolution of the imperial system and experimentation with new political ideas and institutions, social and intellectual developments to the present.

493 ANCIENT JAPAN (5)
Prereq: one of the following or equivalent: Hist 260, 281, East Asian 301, 302, 303, Lib St 275. Origins of the Japanese people, language and culture; the rise of the aristocratic age; court life, aesthetics, literary values, religious beliefs; the masterpieces of Heian literature; the decline of the aristocracy and the rise of the warrior class.

494 EARLY MODERN JAPAN (5)
Prereq: one of the following or equivalent: Hist 260, 281, East Asian 301, 302, 303, Lib St 275. Breakdown of central authority, growth and feudalism, wars of the fifteenth century: the path of reunification; the Tokugawa settlement and the politics of the bakufu system. Tokugawa social and economic change: commercialization, urbanization, bureaucratization, Tokugawa cultural and artistic expression, philosophy and intellectual life.

495 MODERN JAPAN (5)
Prereq: one of the following or equivalent: Hist 260, 281, East Asian 301, 302, 303, Lib St 275. Japan and the West: the decline of the Tokugawa order; the Meiji Restoration and modernization; Japan's industrial revolution and the modern state; the rise of democracy and imperialism: Japan in the new world order: the rise of militarism and the coming of the Pacific War, War, occupation and post-war Japan.

497a.b THE MIDDLE EAST (5 ea)
Prereq: junior status.
497a The Traditional Middle East
From the 8th Century to 1800
497b Middle East, 1800 to the present

499 SURVEY OF COMMUNITY HISTORY (2)
Prereq: Hist 301. A survey of local history, with emphasis upon the interrelated local, regional, and national factors involved in the development of selected communities of the Pacific Northwest.

503 HISTORY OF EUROPEAN HISTORIOGRAPHY (4)
Prereq: open only to upperclassmen or fifth-year students who are majors or minors in history, with permission of the instructor. A survey of the works of the major historians of the ancient world and the Western European, their varying styles of writing and differing patterns of interpretation, reflecting changing climates of opinion.

504 HISTORY OF AMERICAN HISTORIOGRAPHY (4)
Prereq: open only to upperclassmen or fifth-year students who are majors or minors in history, with permission of the instructor. A survey of the major historians of the American past and their varying styles of writing and differing patterns of interpretation, reflecting changing climates of opinion.

505 PHILOSOPHICAL PROBLEMS OF HISTORY (5)
Prereq: open only to seniors and seniors. Selected readings in European philosophies of history and their contributions to the development of the modern historical consciousness as reflected in modern historical writings and analyses.

506 WORKSHOP IN RECORDS MANAGEMENT (2)
General principles of records management and archival programs as applicable to government and business organizations, with emphasis upon such topics as records inventoring, scheduling and retention.

509 HISTORICAL RESEARCH (3)
Prereq: one upper-division course in field of 499 topic. Research and writing of a formal paper on a topic developed by the student. The student will normally work under an instructor within the field of his choice.
Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog. Admission to Graduate School or special permission required. See Graduate section of this catalog.

NOTE: "a" designates a reading seminar, "b" a writing seminar.

501 HISTORIOGRAPHY I (4)
Selected historiographical studies — Europe.

502 HISTORIOGRAPHY II (4)
Selected historiographical studies — United States.

511a ANCIENT GREECE (4)
Prereq: Hist 411 and 412. Readings from the Minoan-Mycenaean period to about 220 B.C.

512a ROMAN HISTORY (4)
Prereq: Hist 412. Readings in Roman history up to the death of Theodosius and the division of the Empire.

515a MEDIEVAL HISTORY (4)
Prereq: Hist 418a or b, or special permission of department. Selected studies from the Fall of Rome to the Renaissance.

520a RENAISSANCE AND REFORMATION (4)
Readings in the history of Europe from 1337-1648.

533a RUSSIAN HISTORY (4)
Prereq: Hist 434 or equivalent, or permission of the department.

536a,b ENGLISH HISTORY (4)
Prereq: one undergraduate course in English history or permission of the department.

537a,b BRITISH EMPIRE AND THE COMMONWEALTH (4)
Prereq: permission of the department.

540a,b TWENTIETH CENTURY EUROPEAN DIPLOMATIC HISTORY (4)
Prereq: Hist 428 or equivalent or permission of the department.

541 SEMINAR IN EUROPEAN INTELLECTUAL HISTORY (4)
Prereq: an introductory undergraduate course in European intellectual history and graduate status.

542 EUROPEAN POLITICS AND POLITICAL THOUGHT, 1848-1914 (4)
Prereq: graduate status.

550a,b COLONIAL AMERICAN HISTORY (4)
Prereq: Hist 451 or equivalent or permission of the department.

554a,b CIVIL WAR AND RECONSTRUCTION (4)

558a,b 20th CENTURY AMERICAN HISTORY (4)
Prereq: Hist 456 or 459.

560a AMERICAN ECONOMIC AND BUSINESS HISTORY (4)

561a,b AMERICAN DIPLOMATIC HISTORY (4)

563a AMERICAN CONSTITUTIONAL HISTORY (4)
Prereq: Hist 363 or equivalent, or permission of the department.

566a,b AMERICAN SOCIETY AND THOUGHT (4)

571a,b CANADA (4)
Prereq: permission of the department.

573a LATIN AMERICA (4)
Prereq: permission of the department.

581a IMPERIAL CHINA (4)
Selected readings from the period.

582a REPUBLICAN AND COMMUNIST CHINA (4)
Prereq: Hist 482 or equivalent or permission from the department. Readings in the history of China from 1912 to the present.

583 ANCIENT JAPAN (4)
Prereq: graduate standing in history and Hist 483. Readings in Japanese historical writings up to the Meiji Restoration.

585 MODERN JAPAN (4)
Prereq: graduate standing in history and Hist 484. Readings in Japanese historical writings from the Meiji Restoration to the present.

587a SEMINAR IN MID EASTERN HISTORY (4)

588a,b AFRICA (4)
Prereq: undergraduate preparation in African history, or permission of instructor.

591a,b SEMINAR IN AMERICAN WESTERN AND REGIONAL HISTORY (4)

592a,b,c SEMINAR IN HISTORIC PRESERVATION (4, 4, 10)
Prereq: 592a—graduate standing in history; 592c, approval of the Historic Preservation Inter Selection Committee. Readings, research, and writing, and internship experience in the theory and application of the field of historic preservation.

594 SEMINAR ON THE TEACHING OF HISTORY (2)
Develops alternate teaching strategies for application at the community and college levels.

598a, b GRADUATE PROGRAM IN ARCHIVAL AND RECORDS MANAGEMENT ADMINISTRATION (8, 16, 10)
Prereq: minimum of 20 graduate credit hours of history or an M.A. in an allied field, approval of the Inter Selection Committee. A graduate level program conducted jointly by the Department of History and various cooperating agencies. The course is offered in the Fall semester. The initial quarter course of instruction covers eight credits while each quarter of the internship carries ten. 598a may be counted as an elective for the M.A. in History.

600a RESEARCH AND WRITING SEMINAR: THESIS (4)
Introduction to research, the use of primary source materials, auxiliary sciences, problems of interpretation, textual criticism and the use of bibliographical aids. A knowledge of foreign language or the use of statistics or computer programming may be required depending upon the topic of research.

600b RESEARCH AND WRITING SEMINAR: THESIS (4)
Prereq: Hist 600a. Continuation of research begun in Hist 600a.

600c RESEARCH AND WRITING SEMINAR: THESIS (4)
Prereq: Hist 600b. Emphasis upon writing the thesis.

*This course does not meet requirements for subject matter seminars.*
Home Economics
College of Arts and Sciences

HOME ECONOMICS — A DEFINITION

Home economics in the 1980s, as it did in the early 1900s, looks at the relationships between people and environments. "Home Economics is a synthesis of knowledge developed by its own workers and that developed by the physical, biological, and social sciences as well as the arts and the humanities — all of which is applicable to the improvement of family living." The role and mission of the Home Economics Department at Western is to integrate this content with an emphasis on the unique quality of a positive and preventive approach to the functioning of individuals and families.

"Home Economics is a profession because it affords a life career, involves intellectual activities and responsibilities, demands a body of specialized theoretical knowledge, skills and attitudes, has a well-defined function, exalts service above personal gain and demands continual growth."

*Home Economics: An Introduction to a Dynamic Profession 2nd edition, Macmillan Pub., p. 15

HOME ECONOMICS FACULTY

ROSALIE ROSSO KING (1983) Chairman
Associate Professor, B.S., University of Washington; M.Ed., Massachusetts State College at Framingham; PhD, University of Washington.

MARtha HERNDON NELson (1978) Assistant Professor.
BFA, MS, PhD, University of Tennessee.
ADMISSIONS REQUIREMENTS

Due to increased demand for courses in home economics programs, the department has established admissions requirements for all concentrations. A 2.50 GPA must be achieved in required home economics courses, including supporting courses, for entrance as a declared major and must be maintained to continue in the program. Certain concentrations may find it necessary to require additional admissions or GPA criteria. Any adjustment in admission or GPA criteria or registration procedures will be published in the Class Schedule. Early advisement is essential, and priority in registration for courses will be given to declared majors.

BACHELOR OF ARTS

Major Concentrations  110 credits

70 credits in home economics plus supporting courses from other disciplines.

Major Concentration: Family and Community Services

The family and community services concentration integrates concepts from natural and social sciences as they apply to problems of family and community. The student focuses on the family as a primary socializing and stabilizing agent within a rapidly changing society. A knowledge of the structure and function of community agencies is important for the student. The student will work with an advisory faculty committee in planning a program and selecting courses. Choices are available in all the areas of home economics.

This program is flexible and the student has the opportunity to design a program to fit personal and professional goals.

Graduates may find employment in a variety of areas such as community agencies, family counseling programs, day-care programs, youth programs, welfare and rehabilitation programs, volunteer aid supervision and interagency coordination.

☐ Core requirements: Home Econ 122, 175, 250, 332, 410 (14 credits)
☐ Concentration requirements: Home Econ 101, 334, 335, 370, 424, 426, 432; plus 35 credits to be selected with faculty advisement to meet student's proposed personal or career objectives
☐ Proposal: Prepared for presentation to faculty review committee. Must be approved before completion of 30-35 credits in home economics

☐ Supporting courses: Econ 203 or 204; Psych 201 and 351; Soc 202 and 340; plus 16-17 credits selected with advisement from disciplines other than home economics. A total of 18 GUR credits may be applied toward supporting course requirement.

Major Concentration: General Home Economics

The student seeking a Bachelor of Arts degree in general home economics is required to take courses in each of the five areas of home economics. Students may concentrate electives in one or two areas to meet a specific goal or career objective. In addition to the wide scope of courses in home economics, a student selects supporting courses from other departments, under departmental advisement.

Graduates with a degree in general home economics find opportunities in government, business and industry. The general background is desirable for work in consumer relations, mass media, and social, health and family services.

☐ Core requirements: Home Econ 122, 175, 250, 332, 410 (14 credits)
☐ Concentration requirements: Selected credits from each home economics area listed below with faculty advisement (9 credits minimum from each area):
- child development and family relationships
- foods and nutrition
- home management and family economics
- housing, furnishings, equipment, design
- textiles and clothing
☐ Electives: 11 credits in home economics
☐ Supporting Courses: Econ 203 or 204 plus 34-35 credits from disciplines other than home economics. A total of 12 GUR credits may be applied toward supporting course requirement

Major Concentration: Interior Design and Merchandising

This concentration is designed for the student desiring a broadly based interior design education in home economics. The focus of the program is the improvement of the quality of the human environment for the family and home, the work place and the community. Aesthetic, spatial, visual and functional problem-solving is encouraged through simulated and actual problems in residential and contract design. Important aspects of the program include: opportunity to apply design concepts to situations within the community or University; field trips relevant to current marketing and merchandising concepts of the interior furnishings field; developing awareness of historic and new furnishings design; and meeting professionals in the field.
A block of interior design classes at the senior level provides an in-depth experience. Work experience in the interior or architectural design fields is an elective part of the program. Supporting courses outside home economics may be individually planned to meet the student's career objectives.

Career opportunities in the interiors furnishing field are varied: merchandising, management, marketing, retailing, residential and contract design, furnishings product design, historic preservation, communications and education are broad categories for many possible specific careers.

Students will be accepted into the major after successful completion of home economics and supporting course requirements at the 100 and 200 levels.

- **Core requirements**: Home Econ 122, 175, 250, 332, 410 (14 credits)
- **Concentration requirements**: Home Econ 101, 184, 201, 364, 367, 370, 371, 372, 375, 376, 475, 478, 480 (43 credits)
- **Electives**: 13 credits in home economics courses (courses relating to interior design preferred)

- **Supporting courses**: Econ 203 or 204, Tech 210, 311 and 313; plus 22-23 credits selected with faculty advisement from disciplines other than home economics, e.g., art, history, art, business administration, computer science, philosophy, technology, speech or other appropriate disciplines. A total of 12 GUR credits may be applied toward supporting course requirement

**Minor**: 25 credits

Prior consultation and departmental program approval are required of students wishing to secure a minor in Home Economics.

**BACHELOR OF ARTS IN EDUCATION**

**Major**: Child Development and Family Relationships 45 credits

The major emphasis of this program is the study of the child as he or she interacts with the total environment (family, school, community agencies, etc.). The program involves the concepts of how children grow and learn, how to design and manage environments that will promote a child's maximal growth and development, and how to work with children as individuals and in groups — important facets of the learning process. In addition to regular classroom learning, the students have an opportunity to participate in a variety of community programs involving children.

Graduates of this curriculum may work in such occupations as teachers in nursery school, day care, Head Start, kindergarten and primary grades; family life educator; curriculum specialist; case worker for welfare and other social service agencies; and parenting. Job opportunities continue to expand as social and economic changes create new needs and new employment demands.

This major must be combined with elementary teaching minor. See Department of Educational Curriculum and Instruction for details of basic core and student teaching requirements and options in general classroom, early childhood, or special education.

- **Core requirements**: Home Econ 122, 175, 250, 332, 410 (14 credits)
- **Concentration requirements**: 15-18 credits from the following courses with approval of departmental advisor: Home Econ 320, 327 or 427, 420, 421, 422, 423, 424, 426
- **Electives**: 13-18 credits in home economics courses selected under faculty advisement

**Minor**: Child Development and Family Relationships 25 credits

This minor to be combined with professional concentration in elementary education or special education major.

- **Concentration requirements**: 25 credits in home economics courses selected under faculty advisement. Preliminary consultation is essential before undertaking a minor

**Major**: Secondary Vocational Home Economics 70 credits

A teaching career in home economics offers opportunity to work in a variety of subject areas: consumer education, family relationships, human development, foods and nutrition, housing and furnishings, textiles and clothing, and management. The home economics teacher is prepared to work with learners at the secondary level. The home economics teacher assumes a dynamic professional role in planning and managing classroom learning, guiding growth, and working with school personnel, families and groups in the community. Early in the program, the prospective teacher becomes involved in field experiences to observe learners in actual classrooms. The program includes experiences in micro-teaching, video taping, planning relevant units and curriculum, utilizing multi-media resources, guiding interaction and applying evaluation skills. The concepts and experiences are current and relevant. The teacher preparation culminates with student teaching in a secondary vocational home economics program.
Graduates of this comprehensive program discover a wide variety of employment options in addition to teaching. Such options include adult education, extension, consumer programs, as well as being home economists for business, industry and government.

- **Core requirements**: Home Econ 122, 175, 250, 332, 410 (14 credits)
- **Electives**: 5 credits in home economics
- **Supporting course**: Econ 203 or 204; Chem 115 is strongly recommended. A total of 12 GUR credits may be applied toward supporting course requirements

The vocational certificate is granted upon completing the requirements for the Bachelor of Arts in Education including the above major concentration and supervised teaching in home economics and compliance with WAC Code 390-28-010(6) for instruction in safety and industrial hygiene.

**Teaching Competency**
A minimum grade point average of 2.5 in home economics is required for graduation and certification for teaching competence.

**BACHELOR OF SCIENCE**

**Interdisciplinary Nutrition Program**
The interdisciplinary program in nutrition provides students with opportunities to pursue the area of nutrition at Western Washington University. The program is designed to prepare students for employment or advanced study in one of several professions and occupations including public health nutrition, nutritional science and consumer advocacy in nutrition. The nutrition program draws upon faculty and courses offered throughout the University.

A major and minor are described below. The Interdisciplinary Nutrition Program is based on minimum academic requirements for membership in the American Dietetic Association. Students interested in community nutrition, research or other special aspects of nutrition are encouraged to seek advice from any of the participating faculty members.

**Interdisciplinary Nutrition Program Faculty**

ROBERT MOFFATT, Department of Physical Education, Health and Recreation.

---

**PROFESSIONAL PROGRAMS**
For information on professional programs, see "Professional Programs" in the All-University Programs section of this catalog.

**COURSES IN HOME ECONOMICS**
Courses numbered 307, 308, 400, 417; 445 are described on page 69 of this catalog.

101 **DESIGN ORIENTATION** (3)
Prereq: written permission of department. Fundamental design principles, design concepts and techniques as studio experiences.

122 **CHILD AND FAMILY STUDIES** (3)
Developmental characteristics of children and families; emphasizing application and a preventive approach; responsibilities of caregivers, interaction of families with other social systems and integration of knowledge from areas related to home economics.

164 **TEXTILES FOR THE CONSUMER** (3)
Comparative properties of textile fibers and fabrics. Emphasis on use, care and economics of natural and synthetic textiles.

175 **PERSONAL AND ENVIRONMENTAL DESIGN** (3)
Design aspects of the individual's environment; architecture, interiors, urban planning and renewal, clothing and personal adornment. Aesthetic, cultural and ecological study.

201 **DESIGN CRITERIA FOR INTERIORS** (3)
Prereq: Home Econ 101 or equivalent; Home Econ 175: written permission of department; limited to Interior Design and Merchandising majors. Study experience in design relating to interiors and architectural problems.
251 HUMAN NUTRITION (3)
Preq: general university requirement in chemistry and Biol 101 or equivalent. Basic nutrition principles and applications; food habits and nutritive needs of people.

253 FOODS (3)
Preq: Home Econ 250, written permission of department. Basic principles of food preparation and selection; laboratory experience and demonstration.

260 CLOTHING CONSTRUCTION (3-5)
Preq: Home Econ 164, 175, written permission of department. Clothing selection; basic construction techniques as related to management of resources.

320 THE SCHOOL AGE CHILD IN THE FAMILY (3)
Preq: Home Econ 122, Lib St 105 or equivalents. Intellectual, physical, social and emotional development of the child (6-12), with emphasis upon relationship of the child in the family.

327 FIELD EXPERIENCES IN HOME ECONOMICS (2-5)
Preq: permission of department required one quarter prior to registration. Opportunity to work with community, business and government organizations and agencies utilizing home economics skills. S/U grading.

322 FAMILY RESOURCE MANAGEMENT (3)
Preq: Home Econ 122. Interaction of the family and its environment. Concepts of decision-making and resource management: time, energy, money, food, clothing, housing, furnishings, and equipment.

334 CONSUMER ISSUES (3)
Current consumer issues in the economic world; responsibilities and protections.

331 FAMILY FINANCE (3)
Preq: Econ 203 or 204. Management of family income and expenditures in the changing family cycle.

351 MATERNAL AND CHILD NUTRITION (3)
Preq: Home Econ 250. Nutritional needs for pregnancy and lactation, application of nutrition principles to growth and development of children; indices of nutritional status.

353 FAMILY MEAL MANAGEMENT (3)
Preq: Home Econ 250, 253 and written permission of department. Concepts of management applied to meal service for the family.

361 CLOTHING ANALYSIS (2)
Preq: Home Econ 260 or equivalent. Limited to home economics education majors. New techniques applied to methods of teaching clothing, special fabrics, principles of fitting.

365 TEXTILES FOR INTERIORS (3)
Preq: Home Econ 164 and 175 or 375. Decorative and functional textiles for the home.

365 ADVANCED TEXTILES (3)
Preq: Home Econ 164 or equivalent. Emphasis on special fabrics and finishes, fiber modifications and textile legislation. (Normally offered alternate years or summer.)

367 WEAVING DESIGN (3)
Preq: Home Econ 101, 164, and written permission of department. Limited to Interior Design majors. Basic fabric construction; emphasis on color, texture and design.

370 HOUSING (3)
Preq: Home Econ 101 or equivalent, Home Econ 175, and written permission of department. Housing alternatives for the family; historical, aesthetic and cultural implications.

371 SPACE PLANNING FOR LIVING ENVIRONMENTS (3)
Preq: Home Econ 201, 370, Tech 313; written permission of department; limited to Interior Design majors. Analyzing human needs, planning interior spaces.

372 HOUSEHOLD SYSTEMS (3)
Preq: Home Econ 370 recommended. Factors affecting home environment systems and energy utilization.

375 ENVIRONMENTAL INTERIORS (3)
Preq: Home Econ 101 or equivalent; Home Econ 164 and 175; written permission of department. Home Econ 364 recommended. Laboratory experiences with selection, arrangement, design of home furnishings.

376 HISTORY OF FURNITURE AND DECORATIVE ARTS (3)
Preq: Home Econ 375 or Lib St 122 or 123; written permission of department; senior interior design block take concurrently with Home Econ 475, 476, 480. Development of furniture and decorative arts from ancient to contemporary times.

410 PROFESSIONAL ISSUES IN HOME ECONOMICS (2)
Preq: Home economics major; must have completed 45 credits in required home economics courses. Current issues, public policy, research, concepts and professional development. S/U grading.

420 PRE-SCHOOL EDUCATION (3)
Preq: Home Econ 122. Curriculum materials for pre-school age children; behavior management techniques, classroom organization, teaching strategies.

421 DEVELOPMENTAL ASPECTS OF ADULTHOOD AND AGING (3)
Preq: Lib St 105 or equivalent. Physical, economic, psychological and social changes in the middle and later years. Emphasis on changes in family relationships, finances, living environment and employment. Personal, social and community resources explored.

422 LABORATORY EXPERIENCE WITH THE PRE-SCHOOL CHILD (3-5)
Preq: Home Econ 122 and 420; written permission of department; a tuberculosis test required in compliance with state law. Observation, planning, implementation and evaluation of pre-school laboratory program. S/U grading.

423 ADVANCED CHILD DEVELOPMENT (3)
Preq: 5 credits in upper-division child development courses. Critical analysis of aspects of child development; recent development of theories; supervised individual projects.

424 FAMILY RELATIONSHIPS (3)
Preq: Home Econ 122 or equivalent. Concepts of the family, current issues, family life education.

425 INFANT DEVELOPMENT (3)
Preq: 5 credits in upper-division child development courses. In-depth study of infant development including prenatal development, temperament and culture, physical growth and motor development, cognition and perception, and social and emotional development of the infant.
426 PARENT-CHILD INTERACTION (3)
Prereq: Home Econ 320 or equivalent. Emphasizes child-care practices, parent effectiveness and training.

427 FIELD EXPERIENCES IN HOME ECONOMICS (2-5)
Prereq: permission of department required one quarter prior to registration. Opportunity to work with community, business and government organizations and agencies utilizing home economics skills. S/U grading.

452 HOME MANAGEMENT (3)
Prereq: Home Econ 332. Application of concepts and principles of home management to group and home living, utilizing lab experiences.

440 CONTEMPORARY ISSUES AND TEACHING TECHNIQUES (2)
Prereq: home economics teaching experience or student teaching experience. Current issues, concepts, teaching techniques for implementation of home economics subject areas in middle school, junior and senior high schools.

441 HOME ECONOMICS VOCATIONAL EDUCATION (5)
Prereq: Psych 371, Ed 420; and 36 credits in required home economics to be taken immediately preceding student teaching. Competency-based program designed for entry level of all aspects of secondary vocational home economics teaching. Lesson, unit, course planning and department management.

442 CURRICULUM IN HOME ECONOMICS EDUCATION (3)
Prereq: student teaching and/or teaching experience. Incorporating futuristic approaches in developing courses or programs for middle school, senior high school and/or the adult classroom. (Normally offered summers.)

443 ADULT EDUCATION IN HOME ECONOMICS (5)
Prereq: written permission of department. Principles of education for adult learners, development of home economics programs for adult education: philosophies, issues and objectives. Normally offered alternate years.

444 DYNAMICS OF TEACHING HOME ECONOMICS (2)
Prereq: student teaching and/or teaching experience. Application and analysis of diversified classroom approaches for teaching home economics in middle school, high school or adult classrooms.

446 RESOURCES FOR TEACHING HOME ECONOMICS (2)
Prereq: home economics teaching experience or student teaching experience. Current resources for teaching home economics programs in middle school, junior and senior high schools. Normally offered summers.

448 EVALUATION IN HOME ECONOMICS (2)
Prereq: Psych 371, home economics major or minor. Application of current concepts in evaluation; techniques and non-test devices appropriate to each subject area of home economics.

449 SUPERVISORY TRAINING FOR HOME ECONOMICS COOPERATING TEACHERS (3)
Prereq: vocationally certified home economics secondary master teachers meeting supervisory criteria, and permission of department. In-service training to prepare cooperating teachers for assuming specific supervisory tasks (in lieu of University supervision) when working with home economics student teachers.

450 ADVANCED NUTRITION (5)
Prereq: Home Econ 250. Nutritional needs throughout the life cycle; survey and application of research studies; current issues and trends in nutrition.

452 SEMINAR IN NUTRITION AND FOODS (3)
Prereq: Home Econ 350 or 450. Current issues and problems in foods and nutrition; survey and application of research studies. (Normally offered in alternate years or summer.)

453 SOCIAL AND CULTURAL ASPECTS OF FOOD (3)
Prereq: Home Econ 355, Anth 201. Social and cultural development of people as related to the acceptance and use of food. (Normally offered summers.)

454 COMMUNITY NUTRITION (3)
Prereq: Home Econ 350 or 450. Nutrition as an applied science in the community. (Normally offered alternate years or summers.)

461 CLOTHING AND HUMAN BEHAVIOR (3)
Implications and significance of clothing in Western society, with special emphasis on clothing symbolism, social stratification, development of self-concept and fashion. (Normally offered alternate years or summers.)

475 CONTEMPORARY DESIGN FOR INTERIORS (3)
Prereq: Home Econ 175 or 375. Written permission of department; senior interior design block taken concurrently with Home Econ 376, 478, 480. American and international influences on contemporary design.

476 HISTORIC HOMES AND THEIR INTERIORS (3)
Prereq: Home Econ 370, 376 or equivalent. A research/ case study of historic homes and their interiors using community resources.

477 FIELD EXPERIENCE IN INTERIOR DESIGN AND MERCHANDISING (3-5)
Prereq: Home Econ 376, 475, 478, 489. Permission of department. Due to limited availability, student placements will be reviewed by IDM faculty committee. Supervised experience in a professional interior design studio, architectural office or retail interiors business. S/U grading.

478 INTERIOR DESIGN PLANNING (5)
Prereq: Tech 311 and 313; 50 credits from interior design and merchandising curriculum; written permission of department; concurrent registration in the IDM block. Home Econ 376, 475, 480. Planning course for interior designers. Variety of projects — residential and contract, presentations and critiques. Field trips to professional designers. S/U grading.

479 BUSINESS OF INTERIOR DESIGN (2)
Prereq: junior standing in interior design and merchandising, and written permission of department. Cost-study workshop with emphasis on ethics, contracts and building construction. Sources for the environment, consumption and fees; complaints and adjustments; installation; public relations. (Summer only.)

480 RESOURCES OF INTERIOR DESIGN (5)
Prereq: 50 credits from the interior design curriculum; written permission of department. Concurrent registration in the IDM block. Home Econ 376, 475, 478. Evaluating and utilizing workrooms, interior design studios, the Design Center, and the Furniture Mart. Participation in professional organizations. Supervised professional work experience. S/U grading.

496 SCANDINAVIAN DESIGN (3-5)
Prereq: Home Econ 175 or equivalent courses in art or design; written permission of department. Study of design, art, architecture, home furnishings, industrial design, arts and crafts of Norway, Sweden, Finland and Denmark, with emphasis on contemporary design. Offered for 3 credits academic year, 5 credits as a summer tour.
Huxley College of Environmental Studies

As we approach the beginning of the twenty-first century, it is increasingly clear that one of the important responsibilities of colleges and universities is to help meet the needs of society through education that is aware of environmental problems and issues. What is required is a new synthesis of knowledge that is global in its frame of reference, interdisciplinary in its character, experimental in its work, and holistic in its outlook.

Environmental studies at Huxley College centers on two program areas: environmental science and human ecology. Four academic concentrations leading to B.S. and B.A. degrees allow students to pursue both specialization and breadth in these areas, to acquire a synthesis of environmental knowledge, and to develop skills applicable to careers or to further advanced study.

At Huxley, faculty, staff and students alike are at work to create a teaching-learning environment that reflects the ideals and values of personal communication, independent learning, new approaches to education and a sense of community. Huxley is a gathering place and a focus for those genuinely concerned about the environmental well-being of the earth.

At Huxley there is real opportunity for students to contribute to the growth and functioning of the College. Students often attend faculty meetings, co-sponsor seminars with faculty members, and work with faculty and staff on decision-making College committees.

Huxley's courses and seminars are open to all students at Western. Descriptive Information about Huxley College, admission requirements, and programs of study are to be found in the Huxley College section of this catalog under “Schools and Colleges of Western.”
REGION AND RESOURCES

Huxley College is situated at the interface of several important environmental regions: the mountains of the North Cascades range and the shores of Puget Sound and the Pacific Ocean, the urban industrial regions of Seattle and Vancouver, B.C., and the rural agricultural regions of western Washington. Oil refining, logging in the Cascades, pulp and paper manufacture, aluminum production, fisheries, and aquaculture are key industries in the area.

Instruction and research at Huxley College are carried out in the Environmental Studies Center, a six-floor laboratory, classroom, and studio facility on the WWU campus. The center also houses the University's Institute for Watershed Studies which provides opportunity and specialized equipment for freshwater and watershed studies. Leona M. Sundquist Marine Laboratory at Shannon Point on Fidalgo Island, within easy traveling distance of the campus, provides facilities for marine studies.

About 220 students are currently enrolled in Huxley College. Huxley students are members of the WWU student body, which totals almost 10,000. They have access to all library and computer facilities, and the academic, athletic and recreational activities of Western.

HUXLEY FACULTY

J. RICHARD MAYER (1978) Professor and Dean of Huxley College. BS, Union College, MA, Columbia University; PhD (Organic Chemistry), Yale University.

JAMES R. ALBERS (1971) Professor and Vice Provost for Instruction and Planning, WWU. BS, Washington State University; MS, George Washington University; PhD (Physics), University of Washington.

DAVID BRAXKE (1982) Associate Professor and Director, Institute for Watershed Studies. BA, College of St Thomas; MS, University of North Dakota; PhD (Zoology), Indiana University.

DAVID CLARKE (1969) Associate Professor, BA, Trinity College (Cambridge); PhD (Political Science), Stanford University.

CRYSTAL DRIVER (1980) Lecturer, BS, Western Washington University; MS (Applied Biology), Western Washington University.

ERNST L. GAYDEN (1971) Associate Professor, PhD, University of Chicago; MS (City and Regional Planning), Illinois Institute of Technology.

RONALD J. KENDALL (1980) Assistant Professor, BS, University of South Carolina; Columbia; MS, Clemson University; PhD (Fisheries and Wildlife Sciences), Virginia Polytechnic Institute and State University.

THOMAS E. LACHER, JR. (1981) Assistant Professor, BS, PhD (Biological Sciences), University of Pittsburgh.

JOHN C. MILES (1963) Associate Professor, BA, Dartmouth College; MA (Recreation and Park Management), University of Oregon; PhD (Environmental Education), Union Graduate School.

LYNN A. ROBBINS (1971) Professor, BA, University of Utah; MA, PhD (Anthropology), University of Oregon.

MARTIN A. STAFANIAN (1992) Visiting Assistant Professor, BA, Ohio State University; MS, PhD (Biology), Kansas State University.

WILLIAM C. SUMMERS (1971) Associate Professor, BME, PhD (Zoology), University of Minnesota.

HERBERT H. WEBBER (1970) Associate Professor, BSc, PhD (Zoology and Marine Biology), University of British Columbia.

RUTH F. WEINER (1974) Professor, BS, MS, University of Illinois; PhD (Physical Chemistry), The Johns Hopkins University.

ROBERT C. WISEMAN (1983) Visiting Scientist, BS, University of Utah; MS, PhD (Zoology), University of Idaho.

MING-HO YU (1970) Professor, BS, National Taiwan University; MS, PhD (Plant Nutrition and Biochemistry), Utah State University.

Adjunct Faculty

LARRY W. BREWER
Wildlife Research Biologist, Washington State Department of Game.

ALAN GOLDIN

Affiliated Faculty

RANDALL S. BABCOCK, Associate Professor. Department of Geology.

A. CARTER BROAD, Professor, Department of Biology and Director, Shannon Point Marine Center.

LOWELL T. CROW, Professor, Department of Psychology.

MELVIN DAVIDSON, Professor, Department of Physics and Director, Computer Center.

CONSTANCE FAULKNER, Associate Professor, Fairhaven College.

GARLAND G. GRABERT, Professor, Department of Anthropology.

KATHLEEN J. HASELBURGER, Library.

RAND F. JACK, Associate Professor, Fairhaven College.

MAURICE L. SCHWARTZ, Professor, Department of Geology.

DON C. WILLIAMS, Professor, Department of Biology.

H. WILLIAM WILSON, Professor, Department of Chemistry.

DEGREE PROGRAMS

To achieve its purpose in undergraduate education, the College has developed an integrated set of four concentrations within two broad program areas. These concentrations lead to a B.S. in Environmental Studies.

Environmental Science

- Ecosystem Analysis
- Environmental Health

Human Ecology

- Social Assessment and Policy
- Environmental Education

In addition, the College offers interested students the opportunity to pursue a more general B.A. in environmental studies; student/faculty designed concentrations; or a minor in environmental studies.

Students interested in any of these degree programs should contact the Huxley office (Environmental Studies 539) for advice on admission to Huxley College and selection of a faculty advisor.

B.A. IN ENVIRONMENTAL STUDIES

(70 credits)

Huxley's Bachelor of Arts degree program is designed to help a student develop breadth in
environmental studies. The basic college commitment to interdisciplinary study, concern for real-world problems and awareness of environmental values are stressed. By its nature, the B.A. program allows a student wide flexibility of choice among courses, many of which may be taken in other colleges at Western.

- Huxley background requirements
- Huxley core of five courses (20 credits)
- Huxley seminars (4 credits)
- Electives, under advisement, and consisting of at least 25 Huxley credits (46 credits)

MINOR IN ENVIRONMENTAL STUDIES (24 credits)

Huxley Environmental Studies minor is open to all students at Western.

- Hux 201 and 202 (8 credits)
- Two Huxley core courses selected from Hux 330, 335, 350, 383, 470 (8 credits)
- Electives, under advisement (8 credits)

B.S. IN ENVIRONMENTAL STUDIES

Huxley students pursuing B.S. degrees will complete the Huxley background requirements, certain "common requirements" and, in addition, specific course requirements for a concentration.

Huxley Common Requirements

These requirements consist of five core courses, Huxley seminars, and Problem Series (student independent study projects):

Core Courses (20 credit hours)

The core courses provide a common background of environmental concepts, knowledge and perspectives essential for understanding the role of man within an interdependent physical, biological, social and cultural world.

- Hux 330, 335, 350, 383, 470

Seminars (4 credit hours)

Huxley seminars, which are one- or two-credit courses, serve as a meeting ground for faculty and students to work together on topics of contemporary or special interest. Typically, a seminar will be limited to 15 students to stimulate discussion and foster communication across disciplinary boundaries. Students are encouraged to initiate and, with faculty involvement, to conduct seminars. Recent seminars include:

- Ecosystems Energetics
- Theoretical Insights in Environmental Science
- Environmental Fluoride
- Alaska Public Lands Management Issues
- A History of Conservation in America: A Biographical Approach
- Educating the Public on Toxic Substances: Environmental Education Techniques

Problem Series (4-10 credit hours)

The Problem Series is comprised of one or more independent study projects designed to give students a chance to focus their energy, ideas, experience and training on a specific topic. The Problem Series, normally taken in the senior year, is a special project guided by a faculty tutor or tutors. This project may reflect a single study topic or form part of a major investigation. It may take the form of field work or laboratory, library or community research (Hux 498a), or it may be in internship experience (Hux 498b). All Problem Series work must be completed with a written, taped, filmed, or graphically portrayed document describing the process and the outcome of the investigation or internship. Two bound copies of the final report are submitted by the graduating student; one of these is kept on file in the Huxley library. The Problem Series report must be submitted in at least first-draft form by the third week of the student's last quarter of study.

Problem Series at Huxley consists of:

- Hux 498a, or Hux 498b
- Additional credits of 498a or 498b (up to six), for projects that are determined by the tutor to be complex or demanding beyond the four-credit norm, plus Huxley College electives to total 6 credits
- Electives in Huxley College, courses to be selected under advisement, 6 credits

Recent examples of Problem Series:

- Morphometric Control of Annual Heat Budgets and Thermal Structure Evolution in Two Monomictic Lakes
- A Problem in Air Quality Dispersion Modeling: ASARCO's Variance Request from PSAPCA Regulation 1, Sections 9.03(b), 9.07(b), and 9.97(a)
- Effects of Cadmium on Embryonic Development and Mortality in Bobwhite Quail (Colinus virginianus) and Japanese Quail (Coturnix coturnix japonica)
- Whatcom Altitude Survey: A Socioeconomic Study of Community Attitudes Toward Quality of Life, Growth, and Industrial Development

Recent examples of internships include work with:

- U.S. Forest Service
- U.S. Department of Agriculture
- Washington State Department of Ecology
- Washington Environmental Council
--- Washington Lung Association
--- Wastewater treatment plants
--- State Legislatures
--- Nature Centers and National Parks
--- Public schools
--- Rockwell International's Hanford Works

Specific Requirements for Huxley Concentrations

Ecosystems Analysis (90 credit hours plus supporting courses)

The concentration in Ecosystems Analysis offers study in the applied ecology of terrestrial, marine and freshwater environments. Program objectives include measurement and assessment of ecosystems structure and function; environmental sampling and monitoring; data analysis and interpretation; analysis of human impact on terrestrial, marine and freshwater ecosystems; and ecosystems management.

Career opportunities in Ecosystems Analysis include entry-level positions to carry out monitoring, impact assessments, laboratory analysis, field studies, environmental management, and conservation for federal, state, county and local agencies as well as industry and business. This concentration also prepares students to pursue graduate studies in applied biology and interdisciplinary ecology programs.

Concentration advisers: David Brakke, Thomas Lacher, Jr., Martin A. Stapanian, William Summers, Herbert Webber.

- Huxley common requirements (34 credits)
- Five required courses (23 credits): Hux 333 or 321 a,b; 338, 339, 361, 363
- One of the following (4 credits): Hux 433, 438, 439
- Concentration electives, selected under advisement (29 credits), which may include but are not limited to: Hux 352a, 358, 365, 421, 431, 432, 436, 446, 452, 455, 456, 457, 458, 462; Geol 306, 310, 340, 472; Geog 457; Biol 404, 407, 461
- Supporting courses (in addition to Huxley background requirements of Biol 121, Chem 115 or 121): Biol 122, 123; Biol 310, 311 or 312; Chem 122, 123, and 251 or 351.

Environmental Health (90 credit hours plus supporting courses)

The Environmental Health concentration deals with the understanding of those substances, forces and conditions in the surrounding environment that influence the health and well-being of humans as well as plant and animal systems. Such problems as air and water pollution, food contamination, exposure to pesticides and other toxic substances, and radiation exposure are considered. In addition, the concentration deals with the influence of an organism’s nutritional status upon its ability to withstand adverse environmental conditions. The concentration stresses the need for a healthful environment that contributes to high-quality living and seeks the tools and methods to be used for assessing environmental health-related problems.

There has been and will continue to be a need for trained people to monitor environmental quality, to conduct both field and laboratory research on environmental health related problems and to plan and manage environmental health programs. Persons completing the Environmental Health concentration are prepared to work in a variety of programs, such as food quality control, water supply, air pollution, water pollution, environmental toxicology, institutional health and community nutrition. In addition, students are prepared to work in federal agencies concerned with environmental quality, such as the Environmental Protection Agency and the Food and Drug Administration.

The Environmental Health program also provides flexibility so that qualified students interested in continuing with graduate education can plan coursework to meet graduate school admission requirements.

Areas of emphasis in the Environmental Health Concentration include: (1) environmental chemistry; (2) environmental toxicology; (3) nutritional science.

Students interested in the Environmental Health concentration can choose any one of the three areas, structuring their programs under the advisement of the appropriate faculty member.

Concentration advisers: Crystal Driver, Ronald Kendall, Ruth Weiner, Ming-Ho Yu.

- Huxley common requirements (34 credits)
- Concentration common requirements (15 credits) Hux 352a, 358, 361, 455
- Concentration electives, selected under advisement (41 credits), which may include but are not limited to: Hux 333, 338, 339, 352b, 353, 363, 365, 446, 452, 453, 454, 456, 457, 467; Biol 345, 348, 349; Chem 251, 333, 351, 352, 371
- Supporting courses (in addition to Huxley background requirements of Biol 121, Chem 115 or 121, and Math 105): Biol 122 and 123; Chem 122; Math 124 or Comp Sci 110

Social Assessment and Policy (75 credit hours)

The goal of Huxley’s concentration in Social Assessment and Policy is to provide knowledge and tools for understanding the social and humanistic dimensions of environmental problems. Studies will focus on cultural premises, perceptions, and values both historic and contempor-
ary, on social change necessary for environmental problem solving and ways to accomplish it, and on social policy and planning and its short- and long-term environmental costs and benefits.

The concentration is a general one designed to give students experience in a wide area of inquiry. It touches on cultural ecology, the dynamics of human population, environmental ethics, political action, ecosystems, pollution, and assessment of environmental impacts, among other subjects. Competent Social Assessment and Policy graduates have little difficulty in finding employment in federal agencies, local service organizations and elsewhere. The background these students acquire serves them well when facing the variety of challenges in their chosen careers.

Graduate study is a second option open to students. Several excellent graduate programs in the U.S. provide a continuation of in-depth study in human ecology and related areas of study; or the student may enter graduate programs in fields such as anthropology, sociology, geography, political science or psychology. The concentration allows many opportunities for self-development in addition to professional and career preparation.

Concentration advisers: David Clarke, Ernst Gayden, Lynn Robbins, Ruth Weiner.

This concentration is based on two general objectives. Students choose most of their coursework from among courses meeting these objectives.

Objective I: Perspectives and Understandings of:

(a) The social system and particularly the social and humanistic dimensions of environmental problems
(b) The role of the social sciences in the analysis of environmental problems
(c) The role of governmental structure and function in environmental problems and solutions

Objective II: Skills and Methods for:

(a) Participating in environmental affairs, locally and generally
(b) Socio-environmental problem-solving and conflict resolution
(c) The logical and humane resolution of social and moral dilemmas related to environmental problems

☐ Huxley Common Requirements (34 credits)
☐ Three courses meeting Objective I (10-12 credits) from the following:
  Hux 308, 377, 410, 467, 480, 491
☐ Three courses meeting Objective II (11-12 credits) from the following:
  Hux 342, 365, 371, 411, 412, 413, 415, 436
☐ Electives, under advisement, from Huxley or other WWU colleges (17-21 credits)

Recommended preparation for Social Assessment and Policy includes at least one college-level course in history and courses in introductory sociology and political science. Interested students should seek advisement early concerning their lower-division preparation.

Environmental Education

The general objective of the concentration in environmental education is to provide students interested in educational roles of various types with an opportunity to obtain a basic understanding of the qualities of the environment in general and of the environmental education process in particular. Three options have been developed within the program which will allow students with varied interests opportunities to work toward diverse career goals.

The concentration consists of several distinct parts. First, students seek to acquire a synthetic and holistic understanding of the content of environmental studies. Second, students examine the process of education from the environmental perspective; i.e., how the environmental education process differs from other processes of education, what ideas and methods are central to the process and what specific techniques are available to facilitate it. Third, students investigate ways of applying environmental education content and techniques in the professional roles which they may pursue. Fourth, students participate in internships, a field practicum, or research.

Graduates of this concentration have found positions as teachers in public and private schools, as interpreters with resource management agencies, and as staff in programs for special populations such as juvenile offenders and the handicapped, among others.

Option I — Teacher Education — Elementary/Secondary (40 credits minimum) plus Professional Studies Program.

The goal of this option is not to train a specialist in environmental studies but to assist in the training of teachers of one of the traditional subject areas. It is possible to complete this option in the normal four-year college program only if advisement begins in the freshman year.

☐ Huxley core of five required courses (20 credits)
☐ Huxley seminars (4 credits)
☐ Two environmental education courses (8 credits):
  Hux 371, 472
☐ Electives under advisement to total 40 credits
☐ Students in secondary education are required to complete an additional academic major under advisement from the School of Education
GRADUATE STUDY

While Huxley's primary mission is undergraduate education, the College is also committed to graduate studies and research. A cooperative graduate program has been established by Huxley College and the Department of Biology, College of Arts and Sciences, which leads to the M.S. degree with a specialization in Applied Biology. The program focuses on the application of the principles of biology to the understanding and solution of environmental problems. Program options and requirements are listed in the Biology section of this catalog. Interested students may make further inquiries to Huxley College or to the Department of Biology, addressing correspondence to the Applied Biology program. Applications should be made to the Dean of the Graduate School, Western Washington University.

COURSE DESCRIPTIONS

Courses numbered 337; 397; 300, 403, 417; 445 are described on page 28 of this catalog.

Huxley courses and seminars are open to all students at Western. Students enrolled in other colleges and divisions at Western may apply credits earned at Huxley to their elective programs.

201 ENVIRONMENTAL STUDIES: A SCIENTIFIC APPROACH (4)

An introduction to environmental studies which stresses a scientific approach toward understanding the nature and scope of contemporary problems in man's environment. The course reflects application of physical, chemical, biological and geologic principles to define ecological change, both natural and man-made. Term paper required.

202 ENVIRONMENTAL STUDIES: A SOCIAL SCIENCE APPROACH (4)

An overview of the environmental macro-problem with emphasis on specific cases which reveal the complexity of environmental problems. Social, political, economic, humanistic and scientific issues in their environmental context. A basic introduction to environmental studies from the perspective of the social sciences. Term paper required.

204 THE OCEANS: AN INTRODUCTION TO THE MARINE ENVIRONMENT (3)

Prereq: two quarters of college science courses. Structure, function and human use of the marine environment. The oceanic environment (resources from the sea, world fisheries, ocean circulation, oceans and weather, oceanic basins, salinity). The coastal zone (coastal zone management, law of the sea, estuaries, waves, tides).

308 ENVIRONMENTAL AND ENERGY ISSUES (3)

Prereq: one of the following courses: Hux 201, 202, 330 or 350, or permission of instructor. Presentation and analytical discussion of current, ongoing environmental issues in the United States, and particularly in the Pacific Northwest. Each issue will be examined in depth and with reference to its place in, and contribution to, the development of environmental thought and the environmental movement in the U.S.

Student/Faculty Designed Concentration

Students who wish to design their own concentrations in environmental studies should obtain information on guidelines from the Huxley College office (ES 539). The student-designed concentration should be developed with faculty advisement and must be approved by two faculty members and the Huxley College Curriculum Committee at least four quarters before the student’s anticipated graduation.

Interdisciplinary Nutrition Program

See Home Economics Department section of this catalog for details.
Huxley College

321a OCEANOGRAPHY (3)
Prereq: introductory biology and chemistry or permission of instructor. Principles of oceanography, with emphasis on a description of the marine environment as an entity. Physics, chemistry and biology of the ocean.

321b PHYSICAL OCEANOGRAPHY LABORATORY (2)
Prereq: Hux 321a or concurrent. Introductory field and laboratory experience in the measurement and description of standard, physical oceanographic phenomena, such as waves, tides, currents and mixing events. Emphasis on coastal systems, including estuaries, especially in the northeast Pacific Ocean.

325 ECOSYSTEMS ANALYSIS (4)
Prereq: two quarters of general biology. Application of concepts and methods of ecological theory to environmental problems.

325 APPLIED LIMNOLOGY (5)
Prereq: Hux 330 or Bli 325. Hux 361 recommended. Ecology and analysis of lakes and standing-water bodies, with emphasis on the physical, chemical and biological factors which determine biological productivity. Human impacts on lakes. Laboratory and field studies of natural and perturbed lake systems.

321 HUMAN ECOLOGY (4)
Prereq: Lib St 105, Soc 220 or Anth 201. A survey of the historical development of writings and concepts in human ecology. An overview of man’s views of himself as a creature interacting with the natural environment. Basic human ecology concepts are strongly emphasized.

328 MARINE ECOSYSTEMS ANALYSIS (5)
Prereq: Hux 330, organismal biology, general chemistry. A laboratory course dealing with structure and function of marine coastal ecosystems. Habitat types, dominant flora and fauna, extent of cultural modification and sensitivity to human impact. Methods of analysis of coastal ecosystems. Taught at Sundquist Laboratory, Shannon Point.

329 TERRESTRIAL ECOSYSTEMS ANALYSIS (5)
Prereq: Hux 330 or equivalent. Analysis of components of tropical ecosystems, including flora, fauna, soils and climate. Impacts of human activities on flora, fauna, and ecosystem dynamics analyzed in field and laboratory.

342 SOCIAL IMPACT ASSESSMENT (4)
Prereq general social science course. An interdisciplinary approach to the effects of technology, industry, commerce and public and private policy on the lives of human beings. Social science techniques are used to assess and evaluate problems, issues and strategies. Case studies are used to illustrate central issues. Emphasis is on environmental legislation and policy in social impact assessment.

350 PRINCIPLES OF ENVIRONMENTAL POLLUTION (4)
Prereq: Math 105, general biology, general chemistry (Chem 121 or above). An introduction to the problems of air and water pollution, pesticides, radiation, hazardous substances and noise. This course provides information on the current status of the technology of environmental quality and stresses the interaction of pollutants with human health and the environment.

352a,b INTRODUCTORY NUTRITION/INTRODUCTORY NUTRITION LABORATORY (4,2)
Prereq: general biology and one year of chemistry, or permission of instructor. Register concurrently for 352a,b. Introduction to the disciplines of food and nutrition with emphasis on relationship between nutrition and health. Laboratory involves feeding experiments on animals placed under low and high protein diets.

353 FOOD ANALYSIS LABORATORY (3)
Prereq: Chem 251 and Hux 352a, or equivalents. Basic laboratory techniques used in the analysis of various nutrients in food.

355 EVALUATING TOXIC SUBSTANCES IN THE ENVIRONMENT (4)
Prereq: general biology, general chemistry. Hux 350; or permission of instructor. Introduction to principles and methods of evaluating chemicals in the environment. Included are discussions on methods for identifying toxic substances, testing effects of these substances in non-human and human systems, techniques for analysis and monitoring of toxic substances and studies of transport of chemicals in ecosystems.

356 WATER QUALITY LABORATORY (4)
Prereq: general chemistry, Hux 330, 350. (Hux 330 and 350 may be prerequisite) Basic theory and techniques of water quality analysis in the marine and freshwater environments, including nutrient analysis, dissolved oxygen and BOD, heavy metals, total and fecal coliforms. Techniques include spectrophotometric analysis, titration, bacteriological assay, bioassay, and others.

358 STATISTICS FOR ENVIRONMENTAL STUDIES (4)
Prereq: Math 105. Introduction to probability theory, sampling distributions and hypothesis testing. Analysis of enumeration, attribute and frequency data as well as continuous data. Emphasis on computer-based analysis packages (e.g., SPSS), with some discussion of computer modeling.

365 ENERGY AND ENERGY RESOURCES (4)
Prereq: general physics or general chemistry or Hux 350; or permission of instructor. The study of the energy concept as it applies to the environment. Concepts of thermodynamics, entropy, chemical rates. Thermodynamics of evolution, energy flow in biological systems. Energy flow in primitive and industrial societies. Energy legislation, rate structures, methods of power generation.

371 ENVIRONMENTAL EDUCATION (4)
The process of environmental education is explored through reading and discussion focusing on environmental perception, attitudes and values in behavior, the educational environment, and the qualities of the environmental education curriculum. An introduction to environmental education and a review of current thinking in this dimension of education.

372 OUTDOOR EDUCATION (4)
Prereq: Hux 371 or permission of instructor. Concurrent enrollment in Hux 372, 375, and 472. Classroom and field study of outdoor education, an approach to environmental education. Traditional outdoor learning methods are reviewed. New developments and programs such as Outward Bound and adaptations thereof are reviewed. Field experience in various outdoor settings is included.

373 EXPERIMENTAL LEARNING IN ENVIRONMENTAL EDUCATION (4)
Prereq: Hux 371 or permission of instructor. Concurrent enrollment in Hux 372, 375, and 473. Potential of experiential learning for environmental education. Experiential learning theory and its application to specific settings. Simulation gaming, role playing, awareness exercises. Problems of evaluation of this type of learning are given special consideration. Fieldwork required.
375 THE WRITINGS OF AMERICAN NATURALISTS AND OUTDOORSMEN (3)
Prereq: concurrent enrollment in Hux 372, 373, and 473
There is a tradition of writing about the outdoors in American literature. This course describes and explores that tradition. The writings of Thoreau, Burroughs, Muir, Leopold, Carson, Eisley, Berndt, and others are read and discussed.

377 ALTERNATIVE FUTURES (4)
Introduction to the growing field of future studies: review of future studies literature, predictions, projections and extrapolations of alternative futures.

383 ENVIRONMENTAL ECONOMICS (4)

410 ENVIRONMENTAL PROBLEMS IN AGRICULTURE (3)
Prereq: senior standing. Environmental problems in U.S. agriculture have their roots in the technologies and governmental policies applied to agriculture as an economic enterprise. Impacts of these problems may prove serious for future U.S. and world food supplies. Consideration given to alternative techniques and policies to promote energy, soil and water conservation for a sustainable agriculture.

411 ALTERNATIVE ENERGY SOURCES AND SYSTEMS (2)
Prereq: senior standing. Energy as a means to social ends; identification of characteristics of alternative (non-conventional) energy sources and technologies and their applications for industrial, transportation, agricultural and domestic uses; alternative energy, appropriate technology and the decentralized alternative. Recommended preparation: general physics, general chemistry, Hux 363, Physics 207, 399.

412 APPLIED HUMAN ECOLOGY: SETTLEMENT DESIGN I (4)
Prereq: Hux 335 or Tech 313; or permission of instructor. Design of human settlements appropriate to post-industrial society living under conditions of energy scarcity/costliness. Orienting houses and development patterns for solar access, low-energy transportation systems, opportunities for urban agriculture and increased natural amenities.

413 APPLIED HUMAN ECOLOGY: SETTLEMENT DESIGN II (4)
Prereq: Hux 335 or Hux 377 or permission of instructor. Design of human settlements that are compatible and integral with the rural environment; design of solar-tempered dwellings and other structures, the use of alternative energy sources and waste disposal systems, agricultural potential of the land, and the social structure of the rural subsistence community.

415 ENVIRONMENTAL DESIGN: PROCESSES AND PROBLEMS (4)
Prereq: senior standing. Environmental design as a process of rational problem-solving and bringing about mutual adjustment of cultural and natural systems; design as a synthesis of conceptions of the environment and of society, the values and processes of society and the application of ethical criteria.

420 ENVIRONMENTAL ADMINISTRATION (4)
Prereq: Hux 202 or Pol Sci 250 or permission of instructor. History of administrative treatment of environmental problems. Contemporary difficulties (deregulation, incrementism, etc.) in the way of adequate environmental policy formulation and application. Recent innovations arising from new environmental law. Prospects for reform opened up by operations research, cybernetics, communication engineering, etc. Taught in alternate years.

421 FISHERIES MANAGEMENT (3)
Prereq: one year of biology; course in oceanography or limnology. Course in ecology recommended. Introduction to the management of fisheries with a view toward maximum sustained yield. Review of external dimensions of aquatic ecology, fisheries biology and the processes of human constraint relative to these resources. Commercial fisheries, sport fisheries, freshwater fisheries and aquaculture will be examined.

430 ENVIRONMENT AND POLITICS (4)
Prereq: Hux 202 or Pol Sci 250 or permission of instructor. History of environmental problems and their economic and political causes; national and international political reactions; the nature and extent of needed changes. Taught in alternate years.

431 APPLIED POPULATION ECOLOGY (3)
Prereq: Hux 330 or Biol 325 or equivalent, or permission of instructor. Taught in alternate years. Application of the theories and techniques of population ecology to the study of man-animal relationships, e.g., pest control, wildlife management.

432 STREAM ECOLOGY (4)
Prereq: Hux 330 or Biol 325; Hux 361 and Geol 472 recommended. Ecology and analysis of streams with emphasis on physical and chemical properties in relation to biotic communities. Processing of organic matter by stream invertebrates and fish communities. Perturbation by high organic loading or chemical pollutants and recovery processes. Reservoirs as hybrid systems. Field and laboratory exercises in sampling and analysis of stream ecosystems.

433 WATERSHED AND LAKE MANAGEMENT (4)
Prereq: Hux 330 or Biol 402; Hux 312 and Geol 472 recommended. Management of watershed units and interaction between land and water (stream and lake) environments. Lake management and lake restoration procedures and applications. Biomimicry as a management strategy.

434 ECOLOGY OF FRESHWATER COMMUNITIES (4)
Prereq: Hux 333. Ecology of freshwater organisms and factors that regulate structure and dynamics of populations and communities.

436 ENVIRONMENTAL IMPACT ASSESSMENT (4)
Prereq: senior standing, completion of analysis coursework within majors or concentrations, or permission of instructor. Objective evaluation and formal description of a real natural system or geographic region. Class preparation of a unified document summarizing physical, biological and social aspects of a study area. Review of pertinent laws and EIS documents.

438 COASTAL ECOSYSTEMS MANAGEMENT (4)
439 TERRESTRIAL ECOSYSTEMS MANAGEMENT (4)
Prereq: Hux 339, or Biol 404, or equivalent courses. Conflicts arising in multiple-use management of forests, parks and wildlife. Topics include park and wildlife management, management plans for renewable resource areas in a variety of socio-economic conditions.

446 AQUATIC CHEMISTRY (4)
Prereq: Chem 123. The study of aquatic systems, particularly the structure and composition of water, the chemistry of oceans, lakes and streams, chemical equilibrium: colligative properties, metal ions and ligands, aquatic complexes; trace substances in water.

452 NUTRITIONAL BIOCHEMISTRY (4)

453 PLANT MINERAL NUTRITION LABORATORY (2)
Prereq: Hux 452 or concurrent. Experimental techniques in analysis of various constituents in plants; effect of minerals on growth and metabolism of plants.

454 CONTEMPORARY NUTRITION (4)
Prereq: Hux 362a. Various current issues in nutrition: fiber and sugar in nutrition, vitamin C and vitamin E, food allergies, dental caries and diet, obesity, and nutrition and diseases.

455 POLLUTANTS AND HEALTH (4)
Prereq: Hux 390 and Chem 251 or permission of instructor. Physiological and toxicological effects of common pollutants found in man's environment. Mechanism of action of individual pollutants, including cellular damage at molecular level.

456 ENVIRONMENTAL TOXICOLOGY (3)
Prereq: Biol 123, 249, Chem 353, 371, Hux 360 and 358 or permission of instructor. The toxicity of exposure to environmental contaminants in human and non-human biological systems will be addressed at various levels of organization, including organismic, organ, tissue, cell, sub-cellular and molecular levels.

457 ENVIRONMENTAL TOXICOLOGY LABORATORY (2)
Prereq: general biology, general chemistry. Hux 350, 358, or permission of instructor. Methods of experimentation with toxic substances in various test systems. Studies will be conducted to evaluate mammalian and avian exposure to pollutants.

458 WILDLIFE TOXICOLOGY (3)
Prereq: Chem 123, Biol 123, Hux 350, or permission of instructor. Effects of toxic substances on the reproduction, health and well-being of wildlife. Taught in alternate years.

462 AIR POLLUTION (4)

466 SYSTEMS THINKING, GOVERNMENT AND ENVIRONMENT (4)
Prereq: Hux 202 or permission of instructor. Systems thinking as an emerging world-view. Origins in biology, neurology, operational research, cybernetics, ecology, etc. Applications to environmental control and political process. The promise and dangers of an "information society." Listed jointly as Pol Sci 456.

467 POLITICS, TRANSFORMATION AND ENVIRONMENT (4)
Prereq: Pol Sci 101 or 250. Incompatibility between the growth-oriented goals of contemporary political cultures and environmentally-derived "steady-state" imperatives. The politics of transformation and value change. (Also offered as Pol Sci 467.)

470 ENVIRONMENTAL ETHICS (4)
Prereq: Phil 112; Eng 301 or 302. An examination of philosophical dimensions of man-environment relations, with emphasis upon ethical problems. Several contrasting views of man are considered, and the influence of these philosophical positions upon environmental behavior examined. An attempt is made to identify an environmental ethic which might be operable in modern society.

472 THE ENVIRONMENTAL EDUCATION CURRICULUM (4)
Prereq: Hux 371. Critical review of curricula that have been developed. The need for environmental education is assessed, learning objectives are examined, and strategies for attaining these objectives studied. The qualities of the ideal environmental education curriculum are identified by each student, based on his research into the matter.

473 ENVIRONMENTAL INTERPRETATION (4)
Prereq: concurrent enrollment in Hux 372, 373 and 375. A field-oriented course in methods, techniques and design of environmental education programs. Natural, historical, and cultural systems are interpreted.

478 TOPICS IN ENVIRONMENTAL STUDIES (variable credit)
Environmental problems of northwest Washington and related topics. A survey course that may include impact assessment, local and regional planning, pollution problems, problems of the environmental classroom. This course is available only off-campus under the aegis of Continuing Education. It is not available to Husky majors. May be repeated for credit.

480 URBAN ECONOMICS (4)
Prereq: Econ 203. Economic forces behind urbanization. Urban public finance, welfare economics and efficient resource allocation. Economic analysis of urban problems, including land use, housing and poverty, education, transportation and environment. Listed jointly as Econ 480.
RESOURCE ECONOMICS (4)
Prereq: Econ 203; Geog 207 recommended. Theories for the efficient allocation of natural resources over time. Benefit-cost analysis as a criterion for public choice. Effects of property rights, distributional considerations and social cost. Listed jointly as Econ 483.

MULTINATIONAL CORPORATIONS AND GLOBAL ECOLOGY (4)
Prereq: Econ 203 or 204. The character, functions and values of multinational corporations. Assessment of the impacts of such companies on Third World economics and environments and the economy of the United States (labor force, capital flows, resource allocation). Analysis of existing and proposed systems of corporate regulation in the international marketplace.

PROBLEM SERIES (4-10)
Prereq: permission of instructor. Problem-solving experience in environmental problems. May be repeated for credit.

PROBLEM SERIES: INTERNSHIPS (4-10)
Prereq: permission of instructor. Internships in positions appropriate for the student's program. May be repeated for credit. S/U grading.

SEMINAR (1)
Student-faculty interaction on topics of general interest. May be repeated for credit. S/U grading.

SEMINAR (2)
Student-faculty interaction. May be repeated for credit. S/U grading.

SEMINAR (1)
Student-faculty interaction on topics of general interest. May be repeated for credit.

SEMINAR (2)
Student-faculty interaction. May be repeated for credit.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

The following courses are offered for graduate credit for persons enrolled in the Huxley College/Department of Biology M.S. Program or for other possible graduate programs.

GRADUATE SEMINAR IN ENVIRONMENTAL SCIENCE (3)
Prereq: graduate standing. Repeatable for credit three times. Presentation of approaches to and selected topics in environmental science.

ADVANCED TOPICS IN COMMUNITY ECOLOGY (3)
Prereq: graduate standing and 25 credits in biology/environmental science courses, including Hux 330, Hux 432 or Bio 325. Analysis of selected processes and communities that shape freshwater, marine and terrestrial environments.

ECOSYSTEM PRODUCTIVITY: PROCESSES AND MEASUREMENT (4)
Prereq: 25 hours environmental science (biology courses, including ecosystem ecology). Primary productivity of the biosphere, including global productivity patterns and method of productivity measurement. Discussion of secondary productivity in aquatic and terrestrial environments. Laboratory and field analyses of primary and secondary productivity.

SAMPLING DESIGN AND ANALYSIS (3)
Prereq: Math 341, 342 or Biol 340, at least 10 hours of ecology. Theory and principles of experimental design, quantitative sampling and data analysis. Includes random and systematic sampling, stratified random sampling, sample unit size, estimation of sample number, proportional allocation, and transformation. Also includes an introduction to numerical methods of analysis, including diversity, coefficients of association, clustering and ordination.

METHODS IN ECOSYSTEMS SAMPLING (2)
Prereq: Hux 531. Field methods in marine, freshwater and terrestrial ecological surveys. Emphasis is on methods used for population and community studies.

LAKE RESTORATION AND MANAGEMENT PRACTICUM (2)
Prereq: Hux 433 and Geol 472. Lake and reservoir classification, restoration and management. Design of monitoring programs, evaluation of restoration techniques and development of management plans.

ENVIRONMENTAL IMPACT ASSESSMENT PRACTICUM (3)
Prereq: graduate standing. Preparation of an objective assessment description of a real natural area including the season for public documentation, evaluation of coverage and specific new analyses. Coordinating role in task group data assembly and editorial review of draft project summaries. Experience directly related to professional responsibilities in the environmental field. Review of assessment utilization in the USES format and of significant legislation.

ENVIRONMENTAL BIOCHEMISTRY (2)
Prereq: Hux 300, Chem 371, or equivalent. Understanding of biological systems at a molecular level and their relation to their surroundings. Special emphasis on the transformation of carbon, nitrogen, oxygen, phosphorus, sulfur and certain trace elements in soil, water, atmosphere and biological systems: biochemical effects of environmental pollutants.

ENVIRONMENTAL BIOCHEMISTRY LABORATORY (2)
Prereq: Chem 371 or equivalent. Experimental techniques involved in the analysis of various pollutants in living systems under laboratory conditions.

ENVIRONMENTAL TOXICOLOGY (3)
Prereq: Biol 121, 122, 123, 124, 364, Chem 351, 352, 353, 371, Hux 350 and Hux 358 or permission of instructor. The toxicology of exposure to environmental contaminants in human and non-human biological systems at various levels of organization, including organic, cellular, subcellular and molecular levels.

ANALYSIS OF TOXIC SUBSTANCES (3)
Prereq: analytical chemistry or permission of instructor. One hour lecture, four hours laboratory per week. Course includes theory of commonly used instrumental analytical methods (gas chromatography, UV-visible spectrophotometry, etc.) and application of these methods to field problems. Sampling and monitoring methods included.

THESIS RESEARCH (1-12)
Prereq: permission of the thesis advisory committee. Thesis research in environmental science under faculty direction; an integral part of the environmental science M.S.
Interdisciplinary Programs

American Studies Program

College of Arts and Sciences

The American Studies Program is intended to serve those students and faculty who are interested in the study of American culture and find that important aspects of our cultural institutions, cultural artifacts or cultural values are not fully revealed by fulfilling the requirements for the major within a single department. Whenever possible, the program takes advantage of the rich curricular offerings of the various departments and colleges in the University. It supplements these with several conference courses and special topics seminars at the upper-division level.

The American Studies major is of interest to students seeking a liberal arts education of some breadth as well as some depth. It also offers suitable undergraduate background for specialized study in law, social work, business, theology or other professions, for entry into government service, and for graduate work in American Studies or other areas of liberal arts. Students can gain flexibility in career planning by putting the major together with a minor in a vocational area, or gain additional depth within a discipline by putting it together with a minor or the equivalent in one of the participating liberal arts departments.

Program records are maintained in the Liberal Studies Department. Further information is available there or from members of the Executive
Canadian-American Studies Program

College of Arts and Sciences

The Canadian-American Studies major and minor are designed to expand the knowledge of Canada and the knowledge of Canadian-American relations and problems.

The major and minor are designed to accomplish several things. The body of information and understanding of Canada and our relations with Canada is desired by firms, agencies and individuals who do business in Canada or with Canadians, and as such is a great asset when combined with another major. Examples include the combination with business administration, marketing, purchasing, transportation, geography and other specialties for employment in firms doing business in Canada or with Canadians. Political scientists, sociologists, biologists, and others in the employ of government agencies at the state, federal and local level will find the programs of substantial value, especially in the border states and counties. The major is also designed for the individual who wishes to be truly knowledgeable about Canada and things Canadian. It is a valid area of academic study with a strong interdisciplinary orientation.

Program advisement is available from R. L. Monahan, director (676-3728 or 676-3284), Canada House or AH 226.

Dr. Robert Monahan, director of the Canadian-American Studies Program, talks with a student.

BACHELOR OF ARTS

Canadian-American Studies Major

50 credits

- Core Courses: Canadian-American Studies 200, 400, 401; Eng 334; French 280, Geog 313; Hist 277; Pol Sci 405
- Select 10 credits from French 450 (French-Canadian literature); Hist 477; Pol Sci 417
- Select credits to complete the major from list above or list following: Anth 361, 411, 461, 462; EdAF 414; French 367 (French-Canadian literature); Geog 310, 345

COURSES IN AMERICAN STUDIES

Courses numbered 307, 397, 399, 400, 417; 445 are described on page 28 of this catalog.

302 INTRODUCTION TO AMERICAN STUDIES (4)
Prereq: two other courses from the general requirements for the major.

499 SPECIAL PROBLEMS (4)
Prereq: American Studies 302 and senior status. An approved 417 seminar may be substituted. A research or field project designed to demonstrate the student's competence in working with the tools of the discipline.

BACHELOR OF ARTS

Major 70 credits

General Requirements (36-38 credits)

- Hist 366, 367, or equivalent (10)
- Eng 317, 318, or equivalent (8)
- Two courses in the social sciences, selected under advisement from Anth 201 or Soc 202; Pol Sci 101 or 250; Econ 254 or Hist 380; Geog 201, 345 (6-10)
- Art History 350 or 460 (and prerequisite: one course from Art History 220, 230, 240) (6)
- American Studies 302 — Introduction to American Studies (4)

Individualized Program of Study (32-34 credits)

A program formulated by the student, a member of the American Studies faculty, and the director of the program and approved by the Executive Committee. No program may substantially duplicate an existing department program. And ordinarily final approval of the student's course of study must come before the student reaches senior status.

Possible areas of special interest that students may select to study include the American Character, Myth and Folklore, Religion in America, Science and Technology, or Regional Studies—particularly the Pacific Northwest. Students may also wish to combine the major with minors in other interdisciplinary programs such as Canadian-American Studies, Women's Studies, Linguistics, Ethnic Studies or Recreation and Parks. In planning their program, students are urged to include courses taught with comparative or interdisciplinary perspective such as those offered in Liberal Studies and other participating departments.

Committee: R. Buckland (liberal studies), L. Harris (journalism), J. Hiroaka (ethnic studies and human services), R. DeLorme (history), L. Lee (English), M. Lewis (English), W. Stoeber (liberal studies). One member of the committee is acting director of the program each year.
Interdisciplinary

(Regional Historical Geography-Canada); Hist 468, 477; Pol Sci 301

Minor 30 credits

The minor is applicable to either the Bachelor of Arts or the Bachelor of Arts in Education degree.

- Canadian-American Studies 200; Geog 313; Hist 277; Pol Sci 406
- 12 additional credits under advisement from Canadian-American Studies 400, 401; Eng 334, French 280, 450 (French-Canadian literature); Geog 345 (Regional Historical Geography-Canada); Hist 477; Pol Sci 417

COURSES IN CANADIAN-AMERICAN STUDIES

Courses numbered X27; X97; 300, 400, 417; 445 are described on page 29 of this catalog.

200 THE CANADIAN IDENTITY (5)
A basic interdisciplinary course of studies covering the major physical, historical and socio-political aspects of Canada.

401 RESEARCH AND PAPER WITH INSTRUCTOR (5)
Prereq: Canadian-American Studies 200 and 15 credits from the core courses. Directed interdisciplinary research on a problem or in an area of interest. At least two instructors from two disciplines must be involved with this course.

East Asian Studies

College of Arts and Sciences

In recognition of the increasing importance of East Asia in human affairs, Western Washington University established the Program in East Asian Studies in September of 1970. In September 1978 the program was renamed the Center for East Asian Studies. The Center stresses the interdisciplinary study of the region and is designed to attain three objectives. First, it offers students an opportunity to acquire accurate, detailed and comprehensive knowledge of a region that has traditionally been slighted in American education. Second, it prepares students who wish to teach courses on East Asia in community colleges and high schools or who are attracted by the growing job opportunities related to East Asia in business and government. Third, it provides solid undergraduate training for students who plan to enter East Asian graduate studies at Western or elsewhere. Majors have recently been accepted into graduate programs at such schools as Yale, Stanford and Berkeley.

Presently, the Center offers a minor in East Asian Studies. Students interested in majoring in East Asian Studies should consult with the Department of Liberal Studies to set up a student-faculty designed interdisciplinary major.

Such student-faculty designed majors have tended to fall into one of the following optional patterns:

Core courses: (usually taken by all students):
- East Asian 301, 302, and 303 (12 cr), or: Hist 280 or 281 and Lib St 272 or 273 or 274 (9 cr) and one year of Chinese, Japanese, or Korean language (15 cr)
- 43-46 additional credits distributed according to one of the following options:

Option I
- Second and third year of Chinese, Japanese, or Korean (up to 30 cr)
- Remainder of credits (i.e., at least 13) distributed under advisement among those courses listed below as approved by the Center. Most of these credits should be in courses dealing with the country whose language the student is learning.

Option II
- Second year of Chinese, Japanese, or Korean (15 cr)
- Remainder of credits (28-31) should be distributed under advisement among the courses listed below as approved by the Center. Most of these credits should be in courses dealing with the country whose language the student is learning.

Option III
- Courses on China, Japan, Korea, and Mongolia from the approved list distributed as follows: four courses on one country; three courses on a second country; two courses on a third and fourth country
- Electives from the approved list to bring total credits (core plus Option III) to 70 credits

Prospective majors should note that only Options I and II are recommended for those contemplating graduate work in East Asian Studies. Prospective majors should select a committee of advisers from the list of faculty members associated with the Center appended below. At least three academic disciplines should be represented on the committee, and its chairman should be in the student’s primary field of interest.

Minor 30 credits

The following minor is applicable to either the Bachelor of Arts or Bachelor of Arts in Education degree. It may be combined with a major in history or in political science for a major concentration, or may be elected as a minor by majors in other fields. For description of courses, see the sections of cooperating departments.

- At least one of the following: East Asian 301, 302, 303; Hist 280, 281; Pol Sci 307
- Remaining credits to be selected from the following list of courses in East Asian Studies and courses from other parts of the University approved by the center faculty.
COURSES IN EAST ASIAN STUDIES

Courses numbered X37, X97, 300, 400, 417; 445 are described on page 28 of this catalog.

210 INTRODUCTION TO NOMADIC CIVILIZATION (4)
An introductory survey of the art, architecture, languages, literature, music, peoples and religions of the Eurasian nomads.

301, 302, 303 THE CULTURES OF EAST ASIA: THE EARLY, MIDDLE AND RECENT PERIODS (4 ea)
Prereq: the chronologically appropriate courses from either History 111, 112, 113 or Lib 51521, 122, 123 sequences are recommended as background for comparative study of East Asia. Need not be taken in sequence. A survey of East Asian aesthetic, literary and philosophical traditions and their interaction with the evolving political, social and economic institutions of China, Korea and Mongolia.

301 Prehistory to c. 1000 B.C. The founding of high civilization in China and the early stages of its transmission to Japan, Korea and Mongolia. 1000 to 1800 A.D. The Chinese universal state at the height of its aesthetic and intellectual creativity and influence within East Asia and beyond. The feudal and early modern culture of Japan and the alternative routes to sophisticated culture in Korea and Mongolia.

303 1800 to the present. East Asia's transition to the contemporary order in the presence of Western civilization's intrusion into East Asia.

311 TRADITIONAL KOREA (4)
Prereq: Hist 250 or 261 or one of the East Asian 301-303 sequence. A general survey of Korean history before 1876.

312 CONTEMPORARY KOREA: KOREA AFTER WESTERN CONTACT (4)
Prereq: Hist 250 or 261 or one of the East Asian 301-303 sequence. A general survey of contemporary history of the Korean people since 1876.

367 THE LITERATURES OF EAST ASIA IN TRANSLATION (5)
Selected readings in Chinese, Japanese, Korean and Mongolian literary masterpieces from earliest times to early modern times.

368 THE LITERATURES OF EAST ASIA IN TRANSLATION (5)
Selected readings in Chinese, Japanese, Korean and Mongolian literary masterpieces from earliest times to the present.

Courses from other parts of the University approved by the Center for inclusion in East Asian Studies student-faculty interdisciplinary majors and minors: Anth 255, 434, 464, Art Hist 370, 470, 471, Chinese 101, 102, 103, 201, 202, 203, 300, 301, 302, 303, 304, Ethnic Studies 206, Far 251, Geog 315, Hist 280, 281, 390 (relevant topics), 485, 486, 488, 483, 484, 485, 459 (relevant topics), Japanese 101, 102, 103, 201, 202, 203, 300, 301, 302, 303, Lib 272, 273, 274, 275, 370, 371, Phil 350; Pol Sci 307, 309, 419c, 430, 431, 476.

The Center for East Asian Studies also offers tutorials in Advanced Chinese, Advanced Japanese, and Advanced Korean. Intensive Elementary Mongolian (15 credits) is taught summers at Inner Mongolia University.

East Asian Studies students may also spend up to one year at Asia University or Taide College, both in Tokyo, as exchange students.

For further information and advisement, consult the director of the Center for East Asian Studies, Dr. Edward Kaplan (Chinese history), or one of the following participating faculty: M. Fischer (liberal studies, India), H. C. Kim (education, Korea), L. Kimbali (anthropology, Southeast Asia), E. Krauss (political science, Japan), R. Lafoist (history, Japan), H. Schwarz (China/Mongolia), T. Takemoto (Japanese history and language).

English as a Second Language

School of Education

The supporting endorsement program for teaching English as a Second Language (ESL) is intended for: (a) students who wish to develop skills, methods and techniques in teaching English as a second language; (b) teachers who are finding a wider range of diversity in the cultural and linguistic backgrounds of their students; (c) those who provide, through formal or informal classes in family and community settings, instruction in the English language to newly arrived residents who need to learn English as a survival skill.

This program assumes that there will be an increasing demand for those able to teach ESL here and in other countries, that an increasing number of foreign students can be trained in English through enrollment in universities like Western which can provide courses in English for foreign students, with instruction supplemented by a corps of native speakers of English enrolled in the endorsement program in ESL. For advisement or approval of courses, students should consult Dr. Robert Kim, Department of Educational Administration and Foundations, Miller Hall 324D.

BACHELOR OF ARTS IN EDUCATION

Minor 30 credits

Required Courses: (19-22 credits)
- EdAF 410, Teaching the Culturally Different Child (4)
- EdCI 418, Methods and Materials for Teaching ESL (4)
- Eng 370, Introduction to American English (4)
- Foreign Lang 410, Introduction to Applied Linguistics for Foreign Language Majors (4)
- Foreign Lang 425, Practicum in Teaching English as a Second Language (3-6) (minimum of 3 credits required)
- Electives: (8-11 credits)
  - Anth 247, Language in Culture and Society (3)
  - EdAF 414, Comparative Education (3)
  - Eng 474, English Usage (4)
  - Ethnic Studies 301, Comparative Minority Studies (3); 434, Multi-Ethnic Literature (3)
Interdisciplinary

- Linguistics 301, Phonology (5); 302, Morphology (3); 303, Syntax (3)
- Speech 373, Phonetics (3)

Prerequisites:

Those planning to enroll in the endorsement program must have studied a second language through the second year college level, or have had the equivalent through bilingual experience. The program also requires completion of Linguistics 201 or its equivalent as a prerequisite.

Practicum arrangements will be completed prior to enrollment in Foreign Lang 425. Arrangements can be made for program enrollees to work with those learning English as a second language in a variety of settings: community, family, classroom. Supervision and discussion of problems on a regularly scheduled basis are required.

The endorsement program in ESL is available to liberal arts students and teacher education students as an area of study supporting the major field.

Attempts will be made to provide teacher education students with placements for both the primary endorsement and this supporting endorsement in ESL.

Ethnic Studies

College of Arts and Sciences

The Program in Ethnic Studies provides a major/minor concentration and individual courses for students interested in the issue of cultural diversity in American society. The American experience as it affects minority groups is the basis for the study of ethnic and ethnic groups. The boundaries of study include general topics on majority/minority conflicts, cultural pluralism, and comparative studies in community, creative expression, and education.

Courses applicable to the major-minor concentration are offered by various academic units. A program of study should be developed with the help of the Ethnic Studies advisory group.

The Ethnic Studies Program can benefit students who will be working with diverse groups, particularly in public service positions and in education.

Further information and advisement about the program is available from Ethnic Studies faculty: Raul Arellano, Jesse Hiraoka, Robert H. Kim.

BACHELOR OF ARTS

Major — Ethnic Studies 55 credits

Required Courses

- Two from ES 201, 202, 203, 205

- 12-18 hours in additional ethnic studies courses, including at least one independent study project

Related Courses

- Additional hours to complete major to be selected from Anth 361, 461, 462; EdAF 410, EdCI 464; Eng 234; Lib St 371, 372; Hist 257, 361, 397; Pol Sci 313, 346; Soc 261, 340, 367, 369; Fairhaven courses where applicable

Minor — Ethnic Studies 30 credits

Required Courses

- Two from ES 201, 202, 203, 205
- 6-12 hours in additional ethnic studies courses

Related Courses

- Additional hours to complete minor to be selected from courses listed in major related courses.

BACHELOR OF ARTS IN EDUCATION

Major — Secondary 55 credits

Adviser: Robert H. Kim

Prospective secondary teachers are advised to complete the Ethnic Studies major described above.

Students must also complete the specific program requirements for social studies education, including the social studies minor, as outlined in the Interdisciplinary Program section of this catalog. Completer of this major/minor program leads to a teaching endorsement in social science at the secondary level.

COURSES IN ETHNIC STUDIES

Courses numbered X17: X197, 302, 400, 417; 445 are described on page 26 of this catalog.

Many courses which are applicable to the major-minor concentration are offered regularly by other academic units; see above "related courses." The following courses are offered specifically through the Ethnic Studies Program:

201 AFRO-AMERICAN EXPERIENCE (3)

An introduction to the Afro-American experience: history and culture of Blacks in the USA, the unique nature of their experience and their contributions to American culture.

202 INTRODUCTION TO INDIAN STUDIES (3)

The American Indian from earliest times to the present: the origin of American Indians, stereotypes and misconceptions about the American Indian, legislation, education, health and present-day problems.

203 HISPANIC PEOPLES OF THE UNITED STATES (3)

The history, society and culture of the Hispanic peoples in the U.S. from the times of exploration and settlement; historic conflicts affecting economic and political institutions; immigration and settlement; issues in politics, economics and education; the Chicano Movement.
FRESHWATER STUDIES

College of Arts and Sciences
Fairhaven College
Huxley College

Western has had a long-standing interest in the study of water, as well it should in view of its location and tradition of environmental concern. Dozens of streams, hundreds of lakes and an abundance of ground water resources make this University a logical place to study water. The Freshwater Program is inter-college in nature and draws upon faculty and courses offered throughout the University.

More than 30 courses having directly or indirectly to do with the study of water exist in the current catalog, and a major and minor are described below.

For further information and advisement, contact Dr. David F. Brakke, (206) 676-3510.

COURSES IN FRESHWATER STUDIES

Courses having to do with freshwater are held in various parts of the university. (Note: Many have prerequisites. The interested student should study the full course descriptions in the relevant sections of the catalog.)

BACHELOR OF SCIENCE IN FRESHWATER STUDIES

Major 110 credits

- Biol 121, 122, 123
- Chem 121, 122, 123
- Geog 203 or Geol 211
- Mathematics 124
- Biol 325 or Hux 330
- Biol 402 or Hux 333

Plus Electives (under advisement) to complete 110 credits:

- Biol 204, 305, 310, 311, 312, 340, 345, 403, 425, 456, 462
- Chem 251 or 333, 351, 354
- Fair 415
- Geog 422, 423
- Geol 214, 310, 416, 473
- Hux 432, 433, 446
- Physics 131, 132, 133

Independent study courses (see individual listings)

Minor 25 credits

- Biol 325 or Hux 330
- Biol 402 or Hux 333
- Electives under advisement to total 25 credits

GENERAL SCIENCE

College of Arts and Sciences
School of Education

Recommendation for teaching endorsement in general science normally requires completion of the major in general science.

BACHELOR OF ARTS IN EDUCATION

Major — Elementary 45 credits

- Physics 131; Astron 103 and/or Geog 331
- Chem 115 or 121; Geol 211, 212
- Biol 121
- Electives under advisement*

Major Concentration 75 credits

This concentration satisfies both the major and the minor for junior high school teachers.

- Physical Science — 22 credits under advisement* including Physics 131, 132, 133, and Chem 115 or 121 or equivalent
- Biological and Earth Sciences — 22 credits in one field and 15 in the other selected under advisement, including Astron 315 or equivalent
- Sci Ed 399 and 492
- Gen Sci 405 or equivalent
- Electives under advisement*
Industrial Design

College of Arts and Sciences

The Bachelor of Science degree in industrial design provides an interdisciplinary course of studies that develops graduates for professional activities as designers, planners, managers, illustrators, or specialists in the areas of industrial production, design education or marketing.

ADVICEMENT

Early consultation with the adviser of the industrial design program, Mr. Marvin A. Southcott, director of the Western Design Center, Department of Technology, is essential.

Individualized minors in industrial design can be arranged. All minors require prior approval of the program director.

Industrial design majors must complete the usual General University Requirements (GUR). Some of the required courses for the major also satisfy this obligation.

It is possible to complete this degree in four years, but some students take longer. Majors are advised to plan carefully to meet the requirements for graduation.

To graduate, each major must fulfill the GUR, acquire 60 upper-division credits (the major includes approximately 47 upper-division credits depending on options elected) and accumulate a minimum of 180 credits.

PLAN AHEAD: Industrial design majors should aim to satisfy prerequisites pertinent to the following course options: Art 202; Math 124, 155, 240; BA 330; Soc 315; Physics 131; Tech 333.

Note: The electives recommended are for professional enrichment, identified as a guide, not required for graduation.

PROFESSIONAL SERIES CERTIFICATION

To certify, the final four quarters prior to graduation have special needs. Certification for entry into the Professional Series (Tech 315, 316, 415, 416) involves the following: (1) present an approvable portfolio of progressive accomplishment; (2) maintain a GPA of 3.0 or better, in courses required for this program (in particular); and (3) have no more than 60 credits left to complete for graduation.

Note: An approvable portfolio will display acquired drawing techniques, design competence and imaginative exploration, and knowledge of materials and production processes.

Arranged by the director of the program, a professional review board will determine certification of readiness.

During the final four quarters, 60 credits (maximum) will allow a manageable 15 credits per quarter prior to graduation and professional skill acquisition.

RECOMMENDED

Industrial design majors should take special problems (1 credit each) while attending courses in woods, metals and plastics to gain professional design techniques while learning about these materials.

BACHELOR OF SCIENCE

Major 110 credits

Basic Core: Industrial Design/Technology 40 credits

☐ Tech 210, 214, 215, 221 or 222 or 223, 224, 231 or 270 or 280
☐ Tech 309, 311, 315, 333

Professional Practice Series: 20 credits

☐ Tech 315, 316, 317, 318, 319

Supporting Courses: 50 credits

☐ BA 301, 330
☐ Psych 201 or Lib St 105
☐ Physics 131, 132
☐ Art 202, 270
☐ Any art history course except Art Hist 190 (6-10)
☐ Math 240 or Soc 315
☐ Math 124 or 155 & 156
☐ Computer Science — any programming course

Recommended: These courses are suggested for a more comprehensive foundation for professional practice.

☐ BA 271
☐ Home Econ 175, 375
☐ Art 320
Interdisciplinary Arts

College of Fine and Performing Arts

BACHELOR OF ARTS

Major

Nine-quarter Program

☐ First year — Interdisciplinary Arts 210, 211, 212 (4 credits each)
☐ Second Year — Interdisciplinary Arts 310, 311, 312 (4 credits each)
☐ Third Year — Interdisciplinary Arts 410, 411, 412 (4 credits each)

TOTAL 36 credits

☐ Concentration within a department of the College under advisement (36 credits)

☐ University concentration under advisement (36 credits)

GRAND TOTAL 108 credits

Concentrations: arts management, theory and criticism, creative interdisciplinary artistic production, others under advisement.

The director of Interdisciplinary Arts or his/her designated appointee shall have the primary responsibility for program advising and blue book approval.

The Interdisciplinary Arts major shall have, under advisement, the option of taking one quarter in the Fine and Performing Arts Abroad program.

Students who can demonstrate strong competencies within the interdisciplinary areas may confer with the head of Interdisciplinary Arts for placement within the program.

Minor

Core Program: Interdisciplinary Arts 110, 210, 211, 212, 310, 311, 312 (27 credits)

I. Option (a) — Core program plus four courses under advisement in any one of the arts (other than the student's major): up to 42 credits

II. For students with appropriate credits (approved by director of Interdisciplinary Arts) in music/art/theater/dance; Interdisciplinary Arts 300 and 400 level plus three or four courses under advisement selected from college or University courses, 33-40 credits.

COURSES IN INTERDISCIPLINARY ARTS

Courses numbered X37, X97, 300, 406, 417, 445 are described on page 28 of this catalog:

110 INTERDISCIPLINARY ARTS (3)
   An introduction to creativity and artistic expression. Students will be required to develop critical judgment.

210 HEBRAIC TRADITIONS (4)
   Prereq: IA 110 and, under advisement, at least one course from: Art 190, Music 140, Th/D 101 or 231. Examines the Old Testament from cultural and artistic perspectives.

211 GRECO-ROMAN TRADITIONS (4)
   Prereq: IA 210. Examines the arts and culture of Greece and Rome.

212 ELIZABETHAN TRADITIONS (4)
   Prereq: IA 211. Examines the arts and culture of Elizabethan England.

310 AGE OF FAITH TO INDUSTRIALIZATION (4)
   Prereq: IA 210, 211, 212. 500 AD to 1800 AD, creating a broad historical context for the study of the arts.

311 19TH AND 20TH CENTURY (4)
   Prereq: IA 310. Examines the thoughts of Freud, Marx, Darwin and Einstein as they relate to contemporary art expressions of the world.

312 CONTEMPORARY CONDITIONS (4)
   Prereq: IA 311. A research class, examining the most recent literature and examples of artistic practices.

320 ARTS MANAGEMENT (3)
   Prereq: Th/D 101, 231, Art Hist 190, Music 140 or concurrent. Study and practice in advertising, publicity, promotion, grantmanship and budgeting.

410, 411, 412 INTERDISCIPLINARY ARTS (4 ea)
   Prereq: IA 310, 311, 312. Internships and practicum; work outside of the classroom in arts management, or exhibition of creative work, and/or completion of a senior thesis in art theory and criticism.
Latin American Studies

College of Arts and Sciences

This program is offered so that students interested in the area of Latin America may be able to concentrate a portion of their academic work in this area free of the stricture of departmental programs and to make more viable the relationships among the separate courses in this area offered by the departments of this University. The following minor is applicable to either the Bachelor of Arts or the Bachelor of Arts in Education degree. A major in Latin American Area Studies is available through the student-faculty designed majors program (see Liberal Studies section of this catalog).

Minor  30 credits

☐ 15 credits in Spanish 100 and 200 level courses, or demonstration of proficiency
☐ 15 credits in courses relating to Latin America

For advisement, consult Dr. Harley E. Hiller, Department of History.

Library Science

School of Education

Library Science is a professional education program leading to a recommendation for certification as a public school librarian in the State of Washington. Certification requirements include holding an Initial Teaching Certificate as well as meeting the minimum state standards set forth in the library science minor. It should be noted that the program includes courses which emphasize traditional printed material, film, video and audio recording, and the use of micro-computers as media for storing, transmitting or retrieving information.

Minor — Library Science  Elementary

☐ 24 credits selected under advisement from the following:
   — Lib Sci 309, 401, 402, 403, 404, 405, 407, 410
   — EdCl 422, EdAF 450, 451

Minor — Library Science  Secondary

☐ 24 credits selected under advisement from the following:
   — Lib Sci 401, 402, 403, 404, 407, 410
   — EdCl 424c, d, EdAF 450, 451

Fifth-Year Program for Learning Resources Specialists

The following program is recommended for teachers preparing to become specialists in learning resources.

A. Common Core
   ☐ Lib Sci 401
   ☐ EdAF 450, 451
   ☐ Tech 240,

B. One concentration from the following
   ☐ Library Science: Lib Sci 402, 403, 404, 405, 407; EdCl 422, 424c, d, 425
   ☐ Administration: EdCl 422, 424c, d, 475, EdAF 543a, 550
   ☐ Graphics: Tech 419, 440, 449, 469, 540, 544

Students interested in the above areas should seek advisement in Miller Hall 204.

COURSES IN LIBRARY SCIENCE

Courses numbered 237, 238, 300, 400, 417, 445 are described on page 25 of this catalog.

125 LIBRARY ORIENTATION (1)
   Introduction to books and libraries and to the Wilson Library in particular, effective use of standard reference tools.

309 STORYTELLING (3)
   Selection, adaptation and presentation of stories for elementary school children.

401 THE LIBRARY IN THE SCHOOL (3)
   The organization and maintenance of effective materials-centered libraries in elementary and secondary schools.

402 ORGANIZATION OF MATERIALS (3)
   Principles of classification and cataloging; making unit cards, adapting printed cards, and organizing a shelf list and dictionary catalog.

403 BASIC INFORMATION SOURCES (3)
   Evaluation of basic information sources and practice in their use.

404 THE LIBRARY IN THE SOCIAL ORDER (3)
   Social, educational, and cultural implications of the role of the library in society.

405 BOOKS AND MATERIALS FOR ELEMENTARY SCHOOLS (4)
   Reading and evaluation of books and materials for elementary children; emphasizes wide reading, book selection, literary analysis, correlation with the curriculum, current content trends and innovative uses.
Linguistics

College of Arts and Sciences

Linguistics describes language from different structural perspectives and is useful to students preparing careers in anthropology, psychology, speech, education and language teaching. It can also be useful to those interested in the nature and implications of language.

Minors

These concentrations in general and applied linguistics may be taken by candidates for the Bachelor of Arts or the Bachelor of Arts in Education degrees. Minors are available in the departments of anthropology, English, foreign languages and speech.

Basic Courses

- Linguistics 201, 301, 302, 303
- Speech 373

Additional work according to department chosen:

- English (Arts and Sciences) — add English 370, 471
- English (Teacher Education) — see English minor with Linguistics Emphasis
- Foreign Languages (either degree) — add a minimum of six credits in a foreign language, selected under departmental advisement
- Anthropology (Arts and Sciences) — add Anth 448 and 5 additional credits selected under departmental advisement

Physical Science

College of Arts and Sciences

School of Education

BACHELOR OF ARTS IN EDUCATION

Major — Secondary 45 credits

- Gen Sci 405 or equivalent
- Chem 121, 122, 251
- Physics 241, 242, 341, 351 (or 131, 132, 133)
- Sci Ed 399, 492
- Electives selected under advisement to include at least one upper-division course

Bachelor of Arts in Education programs leading to teaching certification in earth science—physical science and in biology—physical science are available. For these programs, see the Geology Department and the Biology Department listings, respectively.

For the physical science majors, Dr. John Millor, Chemistry Department, is the adviser.
Science Education

College of Arts and Sciences
School of Education

Students planning to major in a science for elementary or junior high teaching, see majors in general science, physical science or earth science. Students planning a major in science for high school teaching should consult with appropriate science education advisers within departments. Questions relating to these courses should be directed to Irwin L. Slesnick, Department of Biology, the coordinator of Science Education.

GRADUATE STUDY

For concentration leading to a Master of Education degree, see Graduate section of catalog.

COURSES IN SCIENCE EDUCATION

Courses numbered X37; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

350 SCIENCE FOR THE ELEMENTARY SCHOOL (3)
Prereq: general education requirements in science and mathematics. Selected generalizations and processes in science adaptable to the elementary school; an introduction to theory and practice in science education.

381 SCIENCE FOR THE ELEMENTARY SCHOOL (3)
Prereq: Sci Ed 380. Classroom-laboratory study of curricula, observation and participation in public schools. Intended for students preparing to teach at the elementary level.

382 PHYSICAL SCIENCE FOR THE ELEMENTARY SCHOOL (3)
Prereq: Sci Ed 383; general education requirements in science or equivalent. Philosophy, concepts, learning experiences and materials for the physical sciences suitable to the elementary grades.

383 BIOLOGICAL SCIENCE FOR THE ELEMENTARY SCHOOL (3)
Prereq: Sci Ed 380; general education requirements in science and mathematics. Philosophy, concepts, learning experiences, and materials for the biological sciences suitable to the elementary grades.

384 EARTH SCIENCE FOR THE ELEMENTARY SCHOOL (3)
Prereq: Sci Ed 380. Concepts, experiences, and materials from the earth sciences adaptable to the elementary school with emphasis on the elementary grades.

389 SEMINAR IN SECONDARY EDUCATION FOR SCIENCE TEACHERS (1)
Prereq: admission to the Secondary Teaching Program and a major or concentration in natural science. Opportunities and responsibilities of teachers of science in junior and senior high schools. Taken one quarter preceding Sci Ed 482.

490 SPECIAL PROJECTS IN SCIENCE FOR THE ELEMENTARY GRADES (2-5)
Prereq: one course from Sci Ed 381, 382, 383 or 384, permission of instructor. Projects involving science instructional materials and curriculum. Repeatable for credit.

492 SPECIAL PROJECTS IN SCIENCE TEACHING IN THE JUNIOR AND SENIOR HIGH SCHOOL (2-5)
Prereq: Sci Ed 482 or equivalent; permission of instructor. Projects involving science instructional materials and curriculum. Repeatable for credit.

592 TEACHING SCIENCE FOR THE SECONDARY SCHOOL (3)
Prereq: Sci Ed 383 and permission of coordinator of science education. Critical study of the goals, curricula and strategies of teaching of the life, earth, physical and general sciences in junior and senior high schools. To be taken one quarter preceding student teaching.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog. Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 ADVANCED STUDIES IN SCIENCE EDUCATION (4)
Prereq: teaching experience or permission of instructor. A critical study of research and developments related to science education.

511 INTERNSHIP IN SCIENCE EDUCATION (3)
Prereq: permission of instructor. Assisting with the teaching of an on-campus science methods course for preservice elementary school teachers.

512 IN-SERVICE WORKSHOPS IN SCIENCE EDUCATION (3)
Prereq: permission of instructor. Planning and implementing a series of not less than three in-service workshops in elementary school science. May be repeated for elective credit.

513 SCIENCE CURRICULUM GRADES K-12 (3)
Prereq: teaching experience or permission of instructor. Examination of science curricula for grades K-12 with major emphasis on the elementary grades as a basis for development of a science curriculum and teacher's guide for use in local school systems.

514 SEMINAR IN ELEMENTARY SCIENCE EDUCATION (1-3)
Prereq: permission of instructor.

580 SPECIAL PROBLEMS IN SCIENCE TEACHING IN THE ELEMENTARY SCHOOL (2-3)
Prereq: teaching experience or permission of instructor. Problems related to science instruction and curriculum. Repeatable for credit.

582 SPECIAL TOPICS IN THE PHYSICAL SCIENCES FOR ELEMENTARY SCHOOL TEACHERS (4)
Prereq: Sci Ed or Phys Sci 382 or Sci Ed 380, 381 or equivalent. In-depth study of topics in the physical sciences most appropriate for instruction in the elementary school.
Social Studies Education

College of Arts and Sciences
School of Education

Social studies education is an interdisciplinary history and social science program for persons who seek elementary or secondary teaching endorsements. Social studies education courses and curriculum are directed by the Social Studies Program Committee. Questions relating to social studies classes and certification programs should be directed to Dr. Peter J. Hovenier, chairman, and to individual advisers listed below.

Secondary Education:
In order to be certified as a secondary social sciences teacher, students must complete the following:

- An approved academic degree program* in:
  - Anthropology — Adviser: Mr. Howard Harris
  - Economics — Adviser: Dr. David Nelson
  - Ethnic Studies — Adviser: Dr. Robert H. Kim
  - Geography — Adviser: Dr. Robert L. Monahan
  - History — Advisers: Dr. Harry Jackson; Dr. Harley E. Hiller
  - Political Science — Adviser: Dr. Siegrun F. Fox
  - Psychology — Adviser: Dr. Peter Eichen
  - Sociology — Adviser: Dr. John G. Richardson

- An interdisciplinary student-designed social studies major that has been approved by the Social Studies Program Committee. — Adviser: Dr. Peter J. Hovenier

*See appropriate college sections and/or advisers for approved degree programs.

- Certification requirements as required by the Educational Curriculum and Instruction Department.
- Hist 103, 104; Geog 201, 311
- Anth 201
- Pol Sci 250
- Econ 203 or 446
- 12 credits under advisement in one social science, 10 of which must be upper-division

ELEMENTARY EDUCATION
There are two options available for elementary education students. Both options are sufficient for a supporting area endorsement in social studies for K-8 level.

Option 1: Major — Social Studies

45 credits

Adviser: Dr. Peter J. Hovenier
(For Elementary Education minors only)
- Hist 103, 104; Geog 201, 311
- Anth 201
- Pol Sci 250
- Econ 203 or 446
- 12 credits under advisement in one social science, 10 of which must be upper-division
Option 2: Completion of the Extended Social Studies Minor

A minimum GPA of 2.5 is required to secure approval of the major and of the extended minor for graduation.

Extended Minor 32 credits

Adviser: Dr. Peter J. Hovenier

The extended minor is applicable to elementary and to secondary students.

Required Courses:
- Hist 103, 104
- Geog 201
- Pol Sci 250
- Econ 203 or 446
- Electives under advisement to complete total unit requirement

Elementary students will usually be required to take Hist 391.

Secondary students who major in history, economics, geography or political science may count up to 8 credits of their major toward the completion of the Extended Social Studies Minor.

Student/Faculty Designed Interdisciplinary Major

College of Arts and Sciences

Students whose educational objectives are best served by combining courses from several academic or professional areas may, in consultation with appropriate faculty members, design an individualized major. This major may include appropriate courses from any department, program or college at Western for which the student is qualified. The student/faculty-designed interdisciplinary major leads to a degree of Bachelor of Arts or Bachelor of Science in the College of Arts and Sciences. For information about this program, contact the Department of Liberal Studies or the Academic Advising Center.

Urban Center

The Urban Center, a Seattle-based program of Western Washington University, offers an interdisciplinary Bachelor of Arts degree to urban adult students. To serve the needs of its students, most of whom are employed, the Center’s classes are scheduled evenings and Saturdays.

The Center provides an academic program which builds upon the skills, competencies and knowledge which students have gained from prior study and experience. Classes are small, the setting is supportive, and individual counseling and advisement are readily available. In general, the Center is committed to developing an urban community of students who can identify and see solutions to the complex, interrelated problems of the city and modern life.

Students are required to complete 180 hours of credit, at least 60 of which are upper-division courses.

The program at the Center is primarily upper division; thus General University Requirements must be completed elsewhere. The Center offers concentrations in social services and business. In addition students may, in conjunction with a faculty committee, develop a proposal for their own interdisciplinary concentration within these areas. This proposal defines the degree area, lists the components of the degree, discusses the way in which these components are integrated, and describes the course work and field experience for competence in the concentration area. Six general foundation skills courses are prerequisites to each concentration and a final project is also required of each student. Students may also do independent study in selected topics.
Admissions criteria for Western Washington University apply to prospective Center students. In addition, a Center application form and personal interview are required. Further information regarding courses and class schedule is available from the Director, Urban Center, 1705 Broadway, Seattle, Washington 98122, phone 464-6103 (SCAN 576-6103).

URBAN CENTER FACULTY

LAURENCE P. JACOBS (1975) Acting Director, BA, Harvard; MD, State University of New York, Downstate.

INTERDISCIPLINARY BACHELOR OF ARTS DEGREE

Required of All Students

☐ General University Requirements (GUR courses are not offered at the Urban Center)
☐ General Foundation Skills Requirement: Urban Ctr 221*, 241, 255, 261, 271, 281
☐ 50-60 credits in elective courses
☐ Urban Ctr 498

*A writing placement exam is given to determine if this course is required.

Social Services Concentration 49 credits

The Social Services Concentration is designed to provide an understanding of helping and healing relationships, and of the agencies and organizations within which these relationships take place. It presents common casework situations and how to meet these, as well as the variety of cultural and community demands that are presented to workers in this area. There are electives, required courses and opportunities for independent study.

☐ Urban Ctr 303, 321, 323, 324, 334, 335, 336, 418, 438, 439, 440, 441, 442, 443
☐ 6 credits of electives and/or independent study

Business Concentration 56 credits

The Business Concentration provides a program in general business studies with emphasis on management and finance. It provides an opportunity for students to increase their understanding of the economic, social and political environment in which business operates. Class studies are related to the students' own experience, or knowledge of the business world. There are elective courses, required courses and opportunities for independent study.

☐ Urban Ctr 201, 202, 251, 252, 298, 301, 303, 310, 311, 322, 330, 360, 370

Student-Designed Concentration 45 credits

☐ Individual program to be approved by the Concentration Committee

COURSES FOR URBAN CENTER

Courses numbered X37, X97, X50, X45 are described on page 26 of this catalog.

The following courses are part of the present Center curriculum. Special seminars are added from time to time, to keep pace with changing developments in both concentrations, and these may, in time, become regular course offerings.

201 PRINCIPLES OF ECONOMICS I — INTRODUCTION TO MACRO-ECONOMICS (5)

An overview of the modern economic problems of our time. Designed to introduce the general student to the most visible economic aspects of modern society, such as inflation, economic growth and recession, pollution, unemployment, etc.

202 PRINCIPLES OF ECONOMICS II — INTRODUCTION TO MICRO-ECONOMICS (4)

Analysis of the operation and decision making of economic units in a market economy. An evaluation of successes, deficiencies and possible alternative futures.

221 WRITING IMPROVEMENT (3)

Improvement of writing ability by prescribed exercises and study of the way language functions with emphasis on composition of different forms: essays, argument, letters, etc.

241 RHETORIC (3)

Prereq: Urban Ctr 221 or placement. Writing of non-fiction prose. Informative and persuasive writing; the personal essay, biographical sketch, extended argument and other forms.

251 PRINCIPLES OF ACCOUNTING (4)

Introduction to the theory and practice of accounting, including financial statements.

252 PRINCIPLES OF ACCOUNTING (4)

255 ORAL COMMUNICATION SKILLS (3)

Focuses on the verbal and organizational skills necessary for the effective preparation and delivery of oral communications, i.e., small group discussions, impromptu situations, structured presentations. Special attention given to use of language, correctness, appropriateness and techniques of achieving self-confidence.

261 CRITICAL THINKING (3)

Introduction to the practical analysis of argument and reasoning as an aid to clear and concise writing and speaking. Development of procedures for critically assessing arguments in newspaper, advertisements, textbooks, speeches and ordinary conversations. Discussion of common fallacies.

227
311 CORPORATE FINANCE (4)
Prereq: Urban Cir 258 and 301. Structure and operation of financial management; problems of internal financial analysis, forecasting, planning and control; capital supply and budgeting; dividend policy, mergers, acquisitions.

321 SOCIAL AND HEALTH AGENCIES (3)
Nature and function of community social and health agencies; how organizations operate in the community and internally.

322 PERSONNEL ADMINISTRATION (4)
Prereq: Urban Cir 301. Recruitment, selection, utilization and development of human resources, with emphasis on employee-management relations and relevant behavioral regulations.

323 CHILD DEVELOPMENT (5)
Study of the normal development of the child or adolescent. Determination and diagnosis of abnormal development.

324 FAMILY DYNAMICS (3)
Patterns of family interactions, disturbed roles and communications within the family, scapegoating of family members, double-binds, etc., work of Sattir, Haley and others.

330 PRINCIPLES OF MARKETING (4)
Prereq: Urban Cir 310. Institutions, functions, problems and policies in the distribution of industrial and consumer goods; pricing, costs and governmental regulations.

334 OTHER CULTURES, OTHER LIVES (3)
Customs, conditioning, values, attitudes in various cultures; the caseworker may encounter the similarities and differences of other cultures. Guest lecturers from different ethnic backgrounds.

335 PSYCHOLOGICAL IMPACT OF POVERTY (3)
Prereq: Urban Cir 334. How impoverished families see themselves and the world around them and especially the agencies and workers setting out to help them. Life on welfare and difficulties in attitudes toward the legal system.

The water tower knoll and the sun: a perfect combination.
335 PSYCHOLOGICAL INSIGHTS IN LITERATURE (3)
The use of literature to illustrate in a dramatic way some fundamental concepts in psychology and, conversely, the use of psychology to develop insights into works of fiction that would be overlooked by other methods of analysis.

341 CITY VS. COUNTRY IN AMERICAN LITERATURE (3)
Two philosophies of life which divide the American experience as encountered in several works of literature.

343 UTOPIAS (3)
An examination of the writings of classical and modern authors on ideal social and political communities and of attempts to implement these ideas: the writings of Plato, Moore, Campanella, Huxley, Skinner and others: the Oneida and Amaranth communities; modern communal and utopian experiments.

350 OPERATIONS MANAGEMENT (4)
Prereq: Urban Ctr 296, 301, 303. Fundamental of operations management including tools for analyzing, designing and controlling operating systems.

370 LAW OF COMMERCIAL TRANSACTIONS (4)
Prereq: Urban Ctr 251. Legal principles underlying the law of contracts, personal property and secured transactions.

391 CONCENTRATIONS (3-5)

417 SEMINAR IN BUSINESS (3)
Prereq: permission of instructor. Selected topics in business. May be repeated for credit.

418 SEMINAR IN SOCIAL SERVICES (3)
Prereq: permission of instructor. Selected topics in social services. May be repeated for credit.

420 BUSINESS ADMINISTRATION (5)
Prereq: Urban Ctr 322. Organization and structure of the business enterprise. Management of human, financial and physical resources, interpersonal relations, communications, leadership styles, individual and group behavior, motivation of employees.

421 PERSONNEL AND INDUSTRIAL MANAGEMENT (3)
Prereq: Urban Ctr 420. Managing human resources, recruitment, personnel systems, labor relations, disciplinary procedures, compensation, performance evaluation, career development, affirmative action.

429 BUSINESS STRATEGY AND POLICY (3)
Prereq: Urban Ctr 390 and 391. Case studies of policy and administration of business, planning techniques and decision-making processes are reviewed and analyzed. Course includes games, simulation, case studies and field research assignments.

438 THEORIES OF PERSONALITY (3)
Presentation of the major theories in psychology today that attempt to explain why we think, feel and act as we do. Includes transactional analysis, gestalt therapy, psychoanalysis, radical therapy, existential-humanism, the work of B.F. Skinner and others.

439 THE HELPING RELATIONSHIP (3)
Prereq: Urban Ctr 436. Presents some ideas on how people help other people to change and grow. Includes common issues which arise in individual and family relationships, and how these can be dealt with to help others reach their goals and fulfill their potential.

440 PROBLEMS IN HELPING (3)
Prereq: Urban Ctr 439. Group supervision of the kinds of interpersonal problems that arise in the student’s work, with feedback from the instructor and the other students about what is going on between the people involved and how the relationship can be improved.

441 TECHNIQUES OF CASEWORK (3)
Approaching the family, interviewing skills, clarifying goals, etc.

442 ROLE OF THE CASEWORKER (3)
Prereq: Urban Ctr 441. Functions of caseworkers in today’s society; the jobs they do; their responsibilities.

443 CASEWORK THEORIES (3)
Prereq: Urban Ctr 442. Controversies and conflicts within the profession; aims and goals of casework.

451 FUNDAMENTALS OF SOCIAL RESEARCH (3)
Prereq: Urban Ctr 271 and 281. Introduction to concepts and methods of social research techniques as they apply to community research. Use of statistical analysis and routines such as SPSS for problem solving.

471 TECHNIQUES OF COMMUNITY NEEDS ASSESSMENT (3)
Prereq: Urban Ctr 451. Practice in community needs assessment in Seattle neighborhoods; research paper required.

498 FINAL PROJECT SEMINAR (5)

Visual Communication Education (VICOED)

College of Arts and Sciences

The Bachelor of Science degree program in VICOED is designed to prepare graduates to enter industry as production, supervisory, or management personnel in the field of visual communication, and to prepare prospective teachers in the academic background necessary for curriculum development and instruction in secondary schools which are planning on carrying forward programs in visual communication education. Early consultation with the director of VICOED, Dr. Ray A. Schwalm, is essential.

BACHELOR OF SCIENCE

VICOED Concentration 110 credits

- Art 101; Art 270 or Tech 214
- Tech 440
- Eng 201 or 202 or 301 or 302 or 401 or Journ 104
- Speech 340
- Tech 210b, 240, 260, 340, 341, 379 or 231, 444, 447, 448

229
Interdisciplinary

- Take 22 credits from two of the following areas: maximum of 10-12 from one area:
  - Industrial Graphics (technology)
  - Graphic Arts (technology)
  - Photography (technology)
  - Graphic Design (art and technology)
  - Professional Writing (English and journalism)
  - Television (speech and technology)
  - A/Visual (technology)

- Chem 208 and 209
- Acc 241, BA 330, Econ 338
- Math 124 or 240, or Comp Sci 107 or 110
- Psych 320

- Take 11 credits selected from art, economics, business administration, accounting, sociology, anthropology, mathematics, physics, chemistry, psychology, computer science or teacher certification.

See departmental sections of the catalog for descriptions of these courses.

Teacher Education Program

Students enrolling in VICOED for teacher certification must complete the requirements for the Bachelor of Science program described above, satisfy the professional education requirements, and complete Technology 391, 488, 491, 493, 496 prior to student teaching. This program might require up to two (2) extra quarters to complete.

Women Studies

College of Arts and Sciences
Fairhaven College

The Women Studies Program offers students an interdisciplinary approach to the particularly female dimensions of human experience and thought. It provides: (1) electives for those with a general interest in learning more about women, (2) preparation for those whose career choices involve working with or for women, and (3) undergraduate training for those who intend to pursue women’s issues in their graduate or professional programs.

The minor includes four core courses and 14 hours of electives to be selected according to the individual needs of each student from the other relevant courses in the various departments.

Students may design an interdisciplinary major through the College of Arts and Sciences or Fairhaven College.

Dr. Kathryn Anderson, Fairhaven College, is the adviser for this program.

Minor 30 credits

Core: 16 credits.

- WS 111: Introduction to Women Studies (4)
- Anth 353: Sex Roles in Culture (4)
- Eng 338: Women and Literature (4)
- Psych 210: Psychology of Sex Roles (4)
- Electives: 14 credits
  - Eng 314: Major British Women Authors (4)
  - Eng 321: Major American Women Authors (4)
  - Eng 341: History of the Women’s Novel (4)
  - Hist 420: Rhetoric of Feminism (4)
  - Health Ed 152: Society and Sex (2)
  - Hist 390: Topics in History (3-5)
  - Pol Sci 345: Women and Politics (3)
  - Psych 217: Psychology of Human Sexuality (3)
  - Soc 368: Sex Roles and Social Structure (5)
  - WS 311: American Women Studies (5)
  - WS 313: American Women Studies (5)
  - WS 315: Issues of the Women’s Movement (3)

COURSES IN WOMEN STUDIES

Courses numbered X37, X97: 300, 409, 417: 445 are described on page 28 of this catalog.

111 INTRODUCTION TO WOMEN STUDIES (4)
Introduction to the issues, questions, conceptual frameworks and methods basic to a study of human societies, their institutions and cultural artifacts from a perspective that comprehends women’s experience.

311 AMERICAN WOMEN STUDIES: 1620-1860 (5)
Prereq: Hist 103 or 104 or Eng 216 or another WS course. Women’s role in American society from colonial times to the mid-nineteenth century, with attention to differences of race and class. Emphasis on changing sex roles for both women and men as a result of changes in the structure of the family, immigration, urbanization, expansion of the frontier, education, religion, development of the nation, and industrialization, including a focus on white and non-white women.

313 AMERICAN WOMEN STUDIES: 1860 - Present (5)
Prereq: Hist 103 or 104 or Eng 216 or another WS course. Factors influencing the female gender role as it changed in the last century and a half from the "Cult of True Womanhood" to the "New Woman" to the "Feminine Mystique" to the "Liberated Woman." Emphasis on the impact of changing modes of American capitalism; women’s efforts for equal rights and social reform; changing patterns of fertility; women’s increased participation in the work force, changes in women’s role in the domestic sphere

315 ISSUES OF THE WOMEN’S MOVEMENT (3)
Prereq: Pol Sci 101, Soc 202 or permission of instructor. Psychological, social, political and economic issues promoted by the women’s movement; sex stereotyping in the family, education, politics and economy; past efforts to overcome sex discrimination; contemporary legal and public policy issues related to women; women’s life experiences in other countries, theories of women’s liberation.
The Department of Liberal Studies is an interdisciplinary department offering courses in humanities, comparative cultural study, social science and the academic study of religion. Traditionally, study in the "humanities" addresses major ideas about human beings and their place in the universe which have shaped Western society and culture, as these ideas are expressed in language, literature, philosophy, religion and fine arts. "Comparative cultural study," as conducted by the department, addresses these same concerns in the principal civilizations of the Orient and Africa. The "academic study of religion" brings the tools of modern scholarship to bear on the literature and institutions of the religions of mankind, understood as cultural forces. The department is "interdisciplinary" in that its faculty are trained in a variety of academic fields and bring multiple scholarly perspectives to their courses. The department's objectives, implied in its title, are those traditionally associated with "liberal education" and education in the "liberal arts."

The Department of Liberal Studies serves the Western Washington University community in the following ways:

1. The department offers interdisciplinary courses which partially fulfill the WWU General University Requirements in Humanities, Social Science, and Non-Western and Minority Cultural Studies. (See the University Graduation Requirements section of this catalog for the complete General University Requirements and options for satisfying them.)
2. The department offers a B.A. program in liberal studies. This program permits development, under direction of liberal studies faculty, or integrated courses of study across traditional disciplinary lines.

3. The department offers interdisciplinary minor programs in humanities and the study of religion, and participates with other departments in the East Asian Studies and American Studies programs.

4. The department administers the Student-Faculty-Designed Major in the College of Arts and Sciences. This program allows students, in consultation with appropriate faculty, to design a course of study in areas not available through existing departmental majors.

Additional information about all of the foregoing is available from the Liberal Studies office (Arm- zan Hall 314).

LIBERAL STUDIES FACULTY

Professor, BA, Pomona College; MDiv, Yale Divinity School; MPhil, PhD, Yale University.

MICHAEL H. FISHER (1978) Assistant Professor, BA, Trinity College; MA, PhD, University of Chicago.

WILTON H. KRIEGER (1970) Associate Professor, BA, Reed College; PhD, University of Toronto.

ULRICH MAMMITZSCH (1971) Associate Professor, BA, University of Hamburg, Germany; MA, Southern Illinois University; PhD, University of Hawaii.

RODNEY J. PAYTON (1970) Associate Professor, BA, MA, Washington State University; PhD, University of Chicago.

WILLIAM L. WALLACE (1970) Associate Professor, BS, Appalachian State University (North Carolina); MA, PhD, Ohio University.

BACHELOR OF ARTS
IN LIBERAL STUDIES

Major 60 credits

This major is intended for students whose academic needs are best served by interdisciplinary study in humanities and the liberal arts. It offers integrated study for students who wish broad study in humanities or comparative cultures, or who wish to focus their college major on an interdisciplinary academic problem. The program is appropriate for students who do not anticipate work beyond the B.A. and for students contemplating graduate study in humanities, liberal studies, certain field- or area-studies and certain of the professions. Each major student, in consultation with liberal studies faculty, develops an individual program of study, comprising courses from appropriate academic fields subject to department approval.

Required core:
- Lib St 201, 301, 499
- Electives under departmental advisement

No program may substantially duplicate an existing major. Normally, not more than 30 of the 60 credit hours required may be taken from any one department, other than Liberal Studies; normally, not more than 20 credit hours taken prior to enrollment in Lib St 301 may be applied to the major, and at least 35 credit hours applied to the major must be 300 level or above. Competence in a foreign language is recommended for all liberal studies majors and may be required in conjunction with some. A more detailed description of this major, together with examples of various concentrations, are available in the Liberal Studies office.

Minor — Humanities 31 credits

Interdisciplinary study of the traditional material of the humanities — i.e., major beliefs about and images of human beings and their place in society and the universe — in western and other cultural traditions.

- Lib St 121, 122, 123
- One course from Lib St 232 or 242
- Two courses from Lib St 271, 272, 273, 274, 275, 276
- Lib St 332

Minor — The Study of Religion 24-27 credits

A scholarly, critical, non-sectarian study of religious traditions and religious behavior; directed toward understanding of the role of religion in human experience and the complex relationship between religion and other cultural forms.

- Lib St 231
- Three courses from Lib St 235, 272, 278; Hist 267, 287; Phil 113
- Remaining credits from the following: Anth 330; Eng 336; Lib St 332, 333; Hist 387; Psych 346; Soc 363; other appropriate courses under advisement

LIBERAL STUDIES COURSES

Courses numbered X37, X97; 300, 400, 417; 445 are described on page 28 of this catalog.

105 BEHAVIORAL SCIENCE (5)

Man as a biological, psychological and social organism; the processes of perception, learning and motivation, and their social and cultural context.
121, 122, 123 HUMANITIES (5 ea)
Interdisciplinary introduction to significant cultural themes from art, music, history, philosophy, literature in the Western tradition. (These courses need not be taken in sequence.)
122 The Western Tradition II: Concepts of Man in Medieval and Modern Europe. Emphasis on emergent "modernity" and associated problems of "worldview," authority vs. reason, the individual in the universe.
123 The Western Tradition III: Man in Modern Times. Nineteenth and twentieth century ideologies; their philosophies of man; alienation and integration of the individual in society.

201 INTRODUCTION TO INTERDISCIPLINARY STUDIES (4)
Methods and principles of interdisciplinary studies through investigation of an interdisciplinary problem; consult department for current topic.

231 INTRODUCTION TO THE STUDY OF RELIGION (4)
Examination of religious phenomena from several scholarly perspectives; mysticism, corporate religion, symbolism and ritual, theories of religion.

232 MYTH AND FOLKLORE (4)
An introduction to the study of myth and folklore and its cultural impact.

235 THE BIBLICAL TRADITION (4)
Examination of selected topics in the development and textual analysis of the Hebrew and Christian scriptures; interdisciplinary perspective; attention to original languages.

242 MUSIC AND THE IDEAS OF WESTERN MAN (4)
The relation of the art of music to mathematics, cosmology, psychology and aesthetics. Not open to music majors.

271 HUMANITIES OF INDIA (4)
The Indian experience and the development of its cultural unity; the challenge of Islam and the British colonial experience; the conditions of modernization and the emerging synthesis of values.

272 MYTHOLOGY/RELIGION AND SOCIETY IN CHINA AND JAPAN (4)
Study of formal religious thought and of popular religion in traditional Chinese and Japanese cultures, the impact of Christian denominations, and the character of contemporary religious life.

273 ARTISTIC EXPRESSION AND SOCIETY IN CHINA AND JAPAN (4)
Studies of the aesthetic traditions of East Asia, courtly and popular, secular and religious; the impact of foreign ideas and the role of art in recent propaganda, architecture and industrial design as well as in traditional modes of expression.

274 SOCIETY AND LITERATURE IN CHINA AND JAPAN (4)
Study of Chinese and Japanese authors from traditional and modern times; emphasis on forms of literary expression as a guide to social attitudes and value systems.

275 HUMANITIES OF JAPAN (4)
Interdisciplinary introduction to Japanese civilization, both traditional and modern, with particular emphasis on religions, historical, artistic, literary patterns, societal and cultural ideals.

278 HUMANITIES IN AFRICA (4)
Introduction to the cultural heritage of sub-Saharan Africa, and to the contemporary civilization that draws upon it. Emphasis on the process by which Africans currently build and use coherent accounts of their heritage.

279 RELIGIONS OF INDIA (4)
Evolution of religious thought in India: Vedic religion, the Upanishads, Buddhism, Classical Hinduism, systems of meditation; devotional poetry; Sikhism, Sufism: Epic, Puranic and popular mythology; village religion.

301 SPECIAL PROBLEMS (2-5)
Prereq: Lib St 201. Directed readings; development of plan of study; preparation of bibliography, planning for a final project for liberal studies majors.

332 UNIVERSAL RELIGIONS: FOUNDER'S AND DISCIPLINES (4)
Prereq: junior status. Beliefs and practices of major world religions; traditional images of religious founders; development of religious traditions, historical and phenomenological perspective.

333 RELIGION IN AMERICA (4)
Prereq: junior standing. Religious traditions, values and institutions in American culture, focus on character and development of American Protestantism, Roman Catholicism, and Judaism; attention to contemporary issues and events, interdisciplinary perspective.

370 MAJOR NON-WESTERN TRADITIONS: THE TRADITIONAL ORDER (4)
The basic cultural assumptions, value systems and social orders of China, Japan, India and Africa, to the nineteenth century.

371 MAJOR NON-WESTERN TRADITIONS: THEIR MODERN FATE (4)
Modern challenges to the traditional orders of China, Japan, India and Africa and their responses; issues and models in reconciling traditional and modern values, indigenous and foreign forces.

372 INDIVIDUAL AND SOCIETY IN CONTEMPORARY NON-WESTERN LITERATURE (4)
Prereq: junior status. Effects of rapid change on individuals and resulting concern about the place of individuals in society, as expressed in novels, autobiography, poetry, and critical reflections on literature and culture from recent and contemporary Asia and Africa.

373 IDEOLOGY AND EXPERIENCE IN THE CONTEMPORARY NON-WESTERN WORLD: CONSERVATIVES, REFORMERS, REVOLUTIONARIES (4)
Prereq: junior status. Case studies of 20th-century Third World political leaders (e.g., Gandhi, Mao Tse-tung, Nyerere), their writings, actions, and influence upon contemporary non-Western development.

432 AMERICAN FOLKLORE (4)
Prereq: Lib St 232 or one course in American history or American literature. American folk tales, folk song and dance, proverb, superstition, nature lore, myth, and hero legend.

480 STUDIES IN HUMANISTIC EDUCATION: THE HUMANITIES APPROACH (3)
Prereq: permission of department. Foundations of humanistic education; effective curriculum design; techniques for presenting humanities materials; individual projects.

499 SPECIAL PROBLEMS (3)
Final project embodying student's interdisciplinary focus, for liberal studies majors.
The Department of Mathematics and Computer Science offers majors and minors in mathematics, applied mathematics, mathematics education and computer science. Joint majors are offered in mathematics and computer science, biology and mathematics, chemistry and mathematics, economics and mathematics, geology and mathematics, physics and mathematics, accounting and computer science, and business administration and computer science. The department also offers a Master of Science degree in applied mathematics.

The majors mentioned above will serve as components of a liberal education, but each one also prepares the recipient for a career in business, industry, government or education. Anyone planning a career in almost any field will find his/her opportunities for interesting and challenging positions enhanced by the study of mathematics and computer science. A person who develops quantitative skills increases his/her ability to attack many of the complex problems of society.

At the time of this publication, the Mathematics/Computer Science Department finalized the formation of two separate departments, a Mathematics Department and a Computer Science Department. All of the changes that have been made in curriculum are independent of the division of the Mathematics/Computer Science Department. Western Washington University will continue to offer all of the majors that were in existence during the 1982-83 academic year.
MATHEMATICS

Mathematics has developed from attempts to find simple general laws governing the behavior of the phenomena we observe around us, phenomena as diverse as the motion of the planets, the evolution of biological systems and the movement of traffic.

These attempts have been remarkably successful, although many problems remain to be solved. The concepts involved are profound and exciting; their development and use requires imagination and careful deductive reasoning.

The purpose of the mathematics and applied mathematics majors is to acquaint the student with mathematical concepts and to provide the student with the tools needed to apply the concepts in other fields and to continue to learn and develop new ideas.

A student primarily interested in the application of mathematical ideas in another field should elect the major in applied mathematics or mathematics and computer science; the latter is the better choice for those interested in the computer science aspects of such applications. A student who is interested in some branch of mathematics itself, or who is somewhat unsure about future plans, should consider the mathematics major, especially because it offers more electives.

COMPUTER SCIENCE

Computer science is a steadily growing area of human endeavor; its impact is felt in nearly every part of our society. It provides opportunities for employment in business, industry, government and teaching. It also provides a wealth of problems of intellectual interest. It is an area in which systematic habits of thought are combined with creative impulses to produce achievements aesthetically pleasing and of practical significance.

The curriculum in computer science is broad and well-balanced. In addition to the usual introductory courses, the department offers assembler language programming, advanced features of programming languages, computer organization, data structures, compiler design and implementation, operating systems, computer graphics, and simulation and modeling. There are also courses oriented toward business applications; namely, database management; business computer systems, computerware and systems analysis. Finally, there are courses oriented toward mathematical and scientific applications; namely, the numerical analysis sequence and the linear programming, operations research sequence.

The Department of Mathematics and Computer Science has a Computer Science Laboratory which provides hands-on experience for computer science majors. The equipment in the laboratory includes a DEC LSI-11/23 system with disc storage and various terminals. In addition there is a line printer and a card reader.

The Computer Center has two DEC VAX-11/780 systems, an IBM 4341 remote-job-entry system and additional equipment for interactive computing and graphics. All of this equipment is available for student use.

MATHEMATICS EDUCATION

The Bachelor of Arts in Education major may be completed with either of two concentrations; one prepares the graduate for teaching mathematics on the secondary level, the other concentrates on the elementary level. Those who intend to pursue one of these concentrations must complete at least one course in algebra and one course in geometry on the upper-division level. Secondary teachers will find that calculus, linear algebra, number theory, statistics, probability and the course in mappings and continuity are of considerable value to them. Successful completion of these courses provides a good part of the training necessary for technical expertise in the classroom.

The elementary concentration emphasizes breadth in mathematics. Breadth of experience is important so that the teacher may expose elementary students to a wide variety of mathematical topics. The specialist in mathematics on the elementary level must be particularly skilled at transforming the material mastered in college to a form suitable for the level in question.

Secondary majors learn the methods of teaching mathematics in Math 483; elementary majors learn such methods in Math 481.

ACADEMIC PLACEMENT

Students seeking advice in registering for courses in mathematics or computer science should go to the departmental office in Bond Hall 202.

Requirements for Admission to a Major

The department has established a policy for admission to the computer science, accounting/computer science, business administration/computer science and mathematics/computer science majors. The complete statement of the procedures can be obtained in Bond Hall 202 or by writing to the chairman of the Mathematics and Computer Science Department.
Enrollment Preference for Majors

The department will give enrollment preference for certain high demand courses to its majors.

Advice to Freshmen

Both calculus and linear algebra are required for most majors offered by the department. At least one of them is a prerequisite for almost every other course in mathematics. Prospective majors should normally take calculus and linear algebra in their freshman year. Students are prepared to take Math 124 if they have completed the following courses in high school:

1. one and one-half years of algebra;
2. one year of geometry;
3. one quarter of trigonometry, and
4. one additional year of work including the real number system, equations, inequalities, and functions and their graphs.

Students who are deficient in (a) should enroll in Math 102; students deficient in (c) should enroll in Math 104; Math 103 and 105 covers the topics listed in (d). These courses, if needed, should be completed before enrollment in Math 124.

Mathematics and computer science majors are urged to plan their program of studies in collaboration with their departmental adviser. Those students pursuing a joint major should have an adviser in each of the departments involved. A departmental adviser may be obtained upon request in Bond Hall 202.

Freshmen may begin study in computer science with the course CS 210 (Programming I) if they have had four years of high school mathematics including an introduction to calculus. Those without such preparation should complete Math 124 (Calculus and Analytic Geometry) before registering for CS 210. Students with fewer than three years of high school mathematics should seek advice in the department office before registering for computer science courses. It is not essential that computer science majors complete more than CS 210 in their first year of study.

Advice to Transfer Students

Mathematics majors who expect to enter Western from a two-year college should complete a sequence in calculus unless they plan to take that sequence at Western. Courses in linear algebra, differential equations, probability theory and mathematical statistics are also good preparation.

Computer science majors who expect to enter Western from a two-year college should complete as many mathematics courses and computer science courses as possible. They should, if possible, learn to program in a higher level language such as Fortran, P/L or Pascal. Those students who have followed a program of studies centered around data processing are welcome to the program. They will find, however, that a certain number of their courses will not apply toward a degree in computer science. For example, courses in BASIC, RPG and JCL and courses which require little or no programming often will not apply toward a degree in computer science.

Transfer students must complete at this institution a minimum of nine upper-division credits for a major in the department or five upper-division credits for a minor in the department.

INFORMATION

Those interested in study of computer science or mathematics are we come to write, telephone, or visit the Chairman of the Department of Mathematics and Computer Science, Western Washington University, Bellingham WA 98225. Telephone: (206) 675-3785.

MATHEMATICS AND COMPUTER SCIENCE FACULTY

Associate Professor. BS, MS, PhD, University of Washington.

Associate Professor, BA, MS, PhD, Washington State University.

DONALD R. CHALICE (1957) Associate Professor. BA, University of Wisconsin. MA, PhD, Northwestern University.

ROBIN W. CHANEY (1969) Professor. BA, PhD, Ohio State University.

KEITH CRASWELL (1986) Associate Professor. BS, MS, PhD, University of Washington.

JAMES E. DUEMMEL (1965) Associate Professor. BA, MA, PhD, Ohio State University.

SARA JEANNE GAMLEN (1957) Associate Professor. BA, Linfield College; MA, Bowling Green State University; PhD, Washington State University.

NEIL R. GRAY (1964) Associate Professor. BA, San Francisco State College; MS, PhD, University of Washington.

JOSEPH HASHISAKI (1952) Professor. BA, Montana State University; MA, PhD, University of Illinois.

FRANCIS H. HILDEBRAND (1928) Associate Professor. BS, Kent State University; MS, University of Illinois; PhD, Michigan State.

ROBERT E. JEWETT (1972) Professor. BS, California Institute of Technology; MS, PhD, University of Oregon.

JAMES LEE JOHNSON (1981) Assistant Professor. BS, University of Louisville; MA, PhD, University of Minnesota.

ROBERT M. KAUFFMAN (1967) Professor. BA, The University of the South; MS, PhD, Louisiana State University.

NORMAN P. LINDQUIST (1987) Associate Professor. BA, Linfield College; MA, Oregon State University.

RICHARD G. LEVIN (1967) Associate Professor. BS, Pennsylvania State University; PhD, University of California, Davis.

LARRY OLEAN MENNINGA (1970) Associate Professor. BA, University of Iowa; MA, PhD, University of Washington.

MARTIN L. OSBORNE (1977) Assistant Professor. BA, Hamilton College; MA, University of Oregon; PhD, Oregon State University.

THOMAS T. READ (1987) Professor. BA, Oberlin College; MA, PhD, Yale University.
BACHELOR OF ARTS IN EDUCATION

Major — Elementary 45 credits
- Math 124, 125, 240 or 341, 241, 281, 305, 360, 401, 481
- CS 210
- Electives under departmental advisement

Major — Secondary 60 credits
- Math 124, 125, 126, 205, 241, 305, 312, 341 or 441, 360, 401, 483
- CS 210
- Electives under departmental advisement

Minor 32 credits
- Math 124, 125, 241, 305, 360, 401, 483
- CS 210

Combined Major Concentration

See the Chemistry Department section for Mathematics-Chemistry major. See the Physics/Astronomy Department section for the Physics-Mathematics major.

Teaching Competence

Recommendation for teaching competence normally requires completion of the appropriate major with a minimum grade point average of 2.50.

BACHELOR OF SCIENCE

Major — Mathematics 69 credits plus Supporting Courses
- Math 124, 125, 126, 205, 224
- CS 210
- Not fewer than 20 credits in approved mathematics or mathematics-computer science courses numbered 400 or above except Math 481, 483, 494, and 495
- Electives under departmental advisement

Supporting courses: one approved sequence in an area of application. Some acceptable sequences are: Phys 241, 242, 341, 351; Econ 203, 204, 301, 302; Psych 306, 307, 311; CS 310, 320, 330; Chem 121, 122, 123

Language competency in French, German or Russian is strongly recommended for those students who may go to graduate school

Major — Applied Mathematics 88 credits plus Supporting Courses
- Math 124, 125, 126, 205, 224, 312, 331, 332, Math CS 335, 375
- CS 210 and at least one other computer science course at the 200 level or above.
- Math 341, 342 or 441-442
- One of the following concentrations:

Supporting courses
Phys 241, 242, 341, 351. Students electing the Operations Research Concentration may be able to obtain permission from their department adviser to substitute an appropriate 12 credit sequence in Economics

Students interested in this major should normally complete Math 124, 125, 126, 205 and CS 210 in the freshman year. Courses completed in the sophomore year should include Math 224, 331, 332 and 312.

Minor — Mathematics 33 credits
(Not available to computer science majors.)
- Math 124, 125, 126, 224
- Math 205
- CS 110 or 210
- Electives under departmental advisement

Major — Computer Science 77 credits plus Supporting Courses
- CS 210, 211, 216, 217, 310, 320, 330, 410, 420, 430
- Math-CS 301 and 375
- Math 124, 125, 126, 205, 241
- 14 additional credits from CS 352, 353, any CS 400-level course (except CS 470), any Math-CS course. At least 8 of the 14 credits must be at the 400-level

237
At least 12 credits in an area of application. Acceptable sequences are: Acct 241, 242, 243; Phys 241, 242, 341; Econ 203, 204, 475; Chem 121, 122, 123; Geol 211, 212, and one 300-level course; Biol 121, 122, 123; Math 306, 307, 311

Minor — Computer Science 26 credits

(Not available to mathematics majors.)

- CS 210, 211 or 217, 310 or 350
- Math 124 or 156
- At least 8 credits of upper-division courses in computer science

NOTE: During the next few years it will be very difficult to complete a computer science minor because computer science majors are admitted to upper-division computer science courses first.

Major — Mathematics-Computer Science

86 credits plus Supporting Courses

- Math 124, 125, 126, 224; 205, 312, 331; 392 or 430; 401 or 404
- Three courses from Math-CS 335, 375, 435, 475
- CS 210, 211, 310
- 20 additional credits in computer science and mathematics as advised
- Supporting courses: at least 12 credits in an area of application. Acceptable sequences are: Acctg 241, 242, 243; Phys 241, 242, 341; Econ 203, 204, 475; Chem 121, 122, 123; Geol 211, 212, and one 300-level course; Biol 121, 122, 123; Math 306, 307, 311

Combined Majors

The Mathematics and Computer Science Department cooperates with other departments in offering combined (or double) majors for students wishing to achieve considerable depth in both areas.

Biology-Mathematics: See Biology Department section for details.

Economics-Mathematics: See Economics Department section for details.

Physics—Physics-Mathematics concentration: See Physics Department section for details.

Geology-Mathematics: See Geology Department section for details.

Accounting—Computer Science: See Accounting Department section for details.

Business Administration - Computer Science: See Business Administration Department section for details.

GRADUATE STUDY

For concentration in mathematics leading to the Master of Science degree, see the Graduate section of the catalog.

COURSES IN MATHEMATICS

Courses numbered 337, 397, 300, 400, 417, 445 are described on page 29 of this catalog.

(Courses in Mathematics-Computer Science and in Computer Science are listed after the listings in Mathematics.)

102 INTERMEDIATE ALGEBRA (5)
Prereq: clearance of mathematics proficiency entrance requirement and an arithmetic skills test which will be given during the first week of the quarter. Intended for students who have had one year of high school algebra. Polynomials; first- and second-degree equations and inequalities; graphs, curvatures of polynomials, roots and radicals; an introduction to the quadratic formula; Word problems are heavily emphasized. Students who have done fairly well in one and one-half years of high school mathematics should probably take 103 or 104 or 105. Cannot be counted toward majors or minors in mathematics or computer science.

103 COLLEGE ALGEBRA I (3)
Prereq: Math 102 or equivalent. Functions and their graphs, graphs of polynomials and rational functions, exponential and logarithmic functions and their use in growth and decay problems, business and other applications. Students who have done fairly well in two and one-half years of high school mathematics (including logarithm and exponential functions) should probably take Math 104 or Math 105. Cannot be counted toward majors or minors in mathematics or computer science.

104 TRIGONOMETRY (5)
Prereq: Math 103 or equivalent. Angles and angle measurement; trigonometric functions, identities, trigonometric equations, inverse trigonometric functions. Students with a reasonably solid knowledge of trigonometry from high school should take Math 105 rather than Math 104. Cannot be counted toward majors or minors in mathematics or computer science.

105 COLLEGE ALGEBRA II (3)
Prereq: Math 103 and 104. An introduction to matrices, linear systems, and determinants in dimensions 2 and 3. Zeros of polynomials, arithmetic and geometric progressions, summation and sigma notation, the binomial theorem, complex numbers.

124 CALCULUS AND ANALYTIC GEOMETRY (5)
Prereq: knowledge of topics listed under Math 104 and 105. Derivatives, rules for computing derivatives, applications, anti-derivatives, and an introduction to definite integrals.

125 CALCULUS AND ANALYTIC GEOMETRY (5)
CALCULUS AND ANALYTIC GEOMETRY (5)
Prereq: Math 125. Conic sections, polar coordinates, curves and vectors in the plane and space, introduction to partial derivatives. Taylor's Theorem, infinite sequences and series.

INTRODUCTION TO MATHEMATICS (3)
Prereq: clearance of mathematics entrance test. Not open to students with credit in Math 105. Introduction to the methods of thought and logic in mathematics. A cultural approach to mathematics which emphasizes practical problems of the type which can be solved with a hand-held calculator. Students interested in studying a single area of mathematics in detail should consider substituting a course from Math 105, 124, 165, 205, 240, 241.

ALGEBRA, WITH APPLICATIONS TO ECONOMICS AND BUSINESS (4)
Prereq: Math 102 or qualifying examination (to be given on the first day of class). Systems of linear equations and systems of linear inequalities; matrix notation for linear systems; logarithms, geometric series, and mathematics of finance.

CALCULUS WITH APPLICATIONS TO BUSINESS AND ECONOMICS (4)
Prereq: Math 155 is the preferred prerequisite (Math 105 also suffices). Functions and limits; differential and integral calculus, including partial differentiation.

VECTORS AND MATRIX ALGEBRA (4)
Prereq: one course from Math 124 or 156. Matrices, determinants, matrix algebra, linear equations, linear transformations, characteristic roots and characteristic vectors, orthogonality.

MULTIVARIATE CALCULUS (5)
Prereq: Math 125. Partial derivatives, maxima and minima with two or three variables, multiple integrals, line integrals, Green's Theorem, the divergence theorem, and Stoke's Theorem in the plane.

INTRODUCTION TO STATISTICS (3)
Prereq: Math 102 or equivalent. This course deals with the nature of statistical reasoning, descriptive statistics, ideas of probability and measurement, sampling distributions, the binomial and normal distributions, confidence intervals, and the testing of statistical hypotheses.

INTRODUCTION TO PROBABILITY (3)
Prereq: Math 105. Introduction to probability with applications.

THEORY OF ARITHMETIC (4)
Prereq: Math 102, an algebra skills test and an arithmetic skills test. Mathematical development of arithmetic, informal geometry, problem solving and metric measurement. This course covers mathematics for the elementary school from an advanced standpoint.

NUMBER THEORY (4)
Prereq: Math 125 or 205. The properties of integers, Euclid's algorithm, Diophantine equations, congruences, continued fractions and residues.

MAPPING AND CONTINUITY (4)
Prereq: Math 126 and either 295 or 305. Open and closed sets in the line and plane; sequences; definitions and elementary properties of continuous functions, Bolzano-Weierstrass theorem and applications. The student is expected to develop some competence in proving basic theorems.

ORDINARY DIFFERENTIAL EQUATIONS (4 ea)
Prereq: Math 126; students should also have (or take concurrently) Math 205; 331 is prerequisite to 332. An introductory course in ordinary differential equations and applications, including topics selected from first order differential equations and systems, higher order differential equations, series and numerical solutions, Laplace transforms, special functions, Fourier series, Sturm-Liouville theory, comparison theorems, stability theory, and applications of these concepts to scientific problems.

STATISTICAL METHODS (4 ea)
Prereq: Math 103 or 155; 341 prerequisite to 342. Statistical methods, including use of computer packages. Emphasis on use and validity of tests. Inference and hypothesis testing, ANOVA, regression and correlation, contingency, nonparametric tests. Applications from economics, business, the sciences, education and psychology.

EUCLIDEAN AND NON-EUCLIDEAN GEOMETRY (3)
Prereq: Math 125 or 205. Metric development of Euclidean geometry and consideration of non-Euclidean geometries.

INTRODUCTION TO ABSTRACT ALGEBRA (4 ea)

LINEAR ALGEBRA (4)

ADVANCED CALCULUS (4)
Prereq: Math 224 and 312. Detailed topics of advanced calculus of basic importance in many applications, both scientific and theoretical. Topics include uniform convergence, properties of continuous functions, the theory of the derivative and the Riemann integral. Normally offered fall quarter.

PARTIAL DIFFERENTIAL EQUATIONS (4 ea)
Prereq: Math 321, 423; Math 424 prerequisite to 425. The basic theory of partial differential equations, including classification, characteristics, well posed problems, orthogonal functions, Sturm-Liouville theory, the Fourier transform, heat flow, and wave motion.

FOURIER SERIES AND PARTIAL DIFFERENTIAL EQUATIONS (4)
Prereq: Math 224 and 331. Math 430 is an introduction to the Fourier method for solving boundary value problems arising in physics and engineering. Fourier series, the wave equations, the heat equation, the Fourier transform, and related topics.

INTRODUCTION TO COMPLEX VARIABLES (4)
Prereq: Math 331 or 423. Differentiation and integration of complex-valued functions; Cauchy integral theorem; calculations of residues.

MATHEMATICAL STATISTICS (4 ea)
Prereq: Math 205 and 224; each course prerequisite to the next. Probability theory; development of distributions; generating functions; averages, moments, regression, correlation, variance, and statistical inference.

MATHEMATICS IN GRADES K THROUGH 8 (4)
Prereq: Math 281 and an arithmetic skills test. Survey of instructional modes and teaching strategies. Topics included are sequencing, evaluation, remediation, problem solving and attitudes.
483 MATHEMATICS IN GRADES 7 THROUGH 12 (4)
Prereq: at least two upper-division mathematics courses.
Topics discussed include pre-algebra, algebra, geometry, problem solving, and resource materials.

494 EXPERIENCES IN THE MATHEMATICS LABORATORY (3)
Prereq: one year of teaching experience and currently teaching mathematics. Each participant develops materials and experiences for use in the mathematics laboratory approach in his own teaching.

495 MATH ALIVE (4 ea)
Prereq: one year of teaching experience. Preparation of models and materials for teaching mathematics. Survey of teaching strategies, concept development, and problem solving.
495a Primary
495b Intermediate
495c Middle School

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501 ADVANCED ABSTRACT ALGEBRA (3)
Prereq: Math 401 or its equivalent. Special topics in algebra based on the theory of groups and the application of group theory to other fields.

507 TOPICS IN ABSTRACT ALGEBRA (3)
Prereq: Math 401 and 404. Topics such as error correcting codes, group characters, and crystallography.

504 COMBINATORICS (3)
Prereq: graduate status in mathematics. Counting techniques, generating functions, coding, coloring, relationships to probability theory.

506 APPLIED MATRIX ALGEBRA (3)
Prereq: Math 404. Linear modeling of mathematical phenomena, including phenomena from the sciences, and the application of matrix theory.

510 MATHEMATICAL MODELING (3)
Prereq: Math 404. The use of mathematics to model problems in the real world.

518 TOPOLOGY (3)

519 ALGEBRAIC TOPOLOGY (3)
Prereq: Math 402. A course designed to acquaint the student with the use of algebraic methods in topology. Details available from program adviser.

520 LEIBNIZ MEASURE AND INTEGRATION (3)

521 HILBERT SPACE THEORY AND APPLICATIONS (3)
Prereq: Math 520, Math 430 or equivalent. Bounded operators, continuous linear functionals, the Riesz theorem, projections, self-adjoint operators, semiunitary operators, completely continuous self-adjoint operators, and their eigenfunction expansions, integral operators, applications to differential equations, a brief discussion of quantum mechanics, other applications to physical problems.

522 FOURIER-LAPLACE TRANSFORM AND APPLICATIONS (3)
Prereq: Math 521, 531. Algebraic properties (including behavior of derivatives and convolution products), the inverse transform, generalized functions (and why they are necessary), solution of partial differential equations, Abel's mechanical problem and other specific scientific applications.

524, 525 PARTIAL DIFFERENTIAL EQUATIONS (4 ea)
531 THEORY OF FUNCTIONS OF A COMPLEX VARIABLE (4)

541 PROBABILITY (3)
Prereq: Math 441. Probability theory, both discrete and continuous. The Central Limit Theorem.

546 STOCHASTIC PROCESSES (3)
Prereq: Math 401 and 441. Topics from Markov and sequential decision processes, renewal theory, inventory theory, stochastic control, etc.

564 GRAPH THEORY (3)
Prereq: graduate status in mathematics. Basic properties of graphs, planar graphs, duality theory, intersection graphs, interval graphs, trees, path problems (Eulerian and Hamiltonian circuits), line graphs, max-flow-min-cut theorem, and specific applications to such areas as game theory, electrical networks, error-correcting codes and coloring problems.

570 OPTIMIZATION (3)
Prereq: Math 404 and 423. Advanced topics in optimization.

576 NUMERICAL ANALYSIS (4)
Prereq: Math-CS 475, corequisite Math 525. Topics in advanced numerical analysis.

599 MATHEMATICS SEMINAR (1-3)

690 THESIS (variable credit)

COURSES IN MATHEMATICS-COMPUTER SCIENCE

The courses listed below require background in both mathematics and computer science. The problems attacked in these courses cannot be solved without fruitful blending of knowledge from both areas. Many of the courses are available to students in either major; in some cases, courses may be double-counted for credit.

301 INTRODUCTION TO DISCRETE STRUCTURES (4)
Prereq: CS 210. Basic algebraic structures, Boolean algebra and propositional logic, elementary graph theory, applications to computer science.

304 LINEAR PROGRAMMING (4)
Prereq: Math 205 and CS 210. Linear and quadratic programming, applications to game theory and to allocation and transportation problems.

375 NUMERICAL METHODS (4)
Prereq: Math 210, Math 126 and 205. Elementary discussion of error, solution of non-linear algebraic equations, polynomial interpolation, least squares approximation, numerical quadrature, and numerical differentiation.

436 OPERATIONS RESEARCH I (4)
Prereq: Math 126 and Math-CS 335. Non-linear programming with emphasis on linear programming problems, an emphasis on applications and algorithms.

456 OPERATIONS RESEARCH II (4)
Prereq: Math-CS 435 and some knowledge of probability theory (for example, Math 241 or Math 441). Linear, non-linear, and dynamic programming problems, including statistical considerations and the use of linear programming in which statistical considerations form an essential part of the problem.

475 NUMERICAL ANALYSIS (4)

478 NUMERICAL SOLUTIONS OF PARTIAL DIFFERENTIAL EQUATIONS (4)
Prereq: Math-CS 475, corequisite or prerequisite Math 425 or Math 435. Numerical solution of partial differential equations, including the finite difference and the finite element methods.

COURSES IN COMPUTER SCIENCE

In many of the upper level computer science and mathematics courses, our majors have priority for admission.

101 PERSONAL COMPUTERS (3)
Study of home and small business computers, microcomputer organization, hardware options, software options, relationship between hardware, operating system and application software. Brief introduction to programming. Not open to students who have had CS 210 or above.

107 PROGRAMMING IN BASIC (3)
Prereq: Math 102 or equivalent. An introduction to computer programming with an emphasis on computer programming language BASIC. This course is intended primarily for students who wish to use BASIC in applications to social and physical science. Students who may wish to major or minor in mathematics or computer science should take CS 210 instead of CS 107.

110 INTRODUCTION TO PROGRAMMING (4)
Prereq: Math 102 or equivalent. Basic concepts of computer programming, using PASCAL. Design and construction of computer programs to solve problems. Emphasis on application, including data manipulation and use of prepared programs. Not open to students who have credit in CS 210. Students who intend to take upper-division Computer Science courses should take CS 210.

117 INTRODUCTION TO PROGRAMMING WITH BUSINESS APPLICATIONS (3)
Prereq: Math 155 (it is recommended that students have had Math 155 before taking CS 117). Basic concepts of computers and computer programming with an emphasis on business applications. Overview of computer history, hardware, software, business applications, trends. Structured programming, Programming assignments which involve numeric and character data, arrays, sorting and searching, file handling, and subroutines. Use of business-oriented libraries. This course cannot be used toward a major or minor in computer science. Students minoring in computer science or taking a combined major in computer science are not required to take this course. This course cannot be taken in place of CS 210.
210 PROGRAMMING I (4)
Prereq: Math 124 or 156. Intended for students who plan to take upper-division computer science courses. Design and implementation of algorithms using PASCAL; overview of machine language and operating systems. Emphasis on good programming practices which are transferable between programming languages.

211 PROGRAMMING II (4)
Prereq: CS 210. A continuation of CS 210. Specific topics include string manipulation, internal sorting and searching algorithms, pointers, stacks and queues. The student will be expected to complete on or more significantly large programming projects involving these and other concepts. Emphasis in the course is on programming techniques which contribute to reliability, legibility, efficiency, and readability of programs.

213 PROGRAMMING LANGUAGE LABORATORY (1-3)
Prereq: CS 210 or equivalent. Students who already know how to program may take this course to learn additional programming languages. May be repeated for credit in different languages. Languages will be available subject to student demand and staffing. Credit is determined on the basis of programming language studied. S/U grading.

216 FORTRAN (1)

217 COBOL (3)
Prereq: CS 210. COBOL programming with emphasis on business applications using auxiliary storage.

310 ASSEMBLER LANGUAGE PROGRAMMING (4)
Prereq: CS 210. Computer structure data representation; machine language; addressing techniques; program segmentation and linkage; macros and conditional assembly; accessing operating system services including I/O, structure of assemblers. The student will learn the machine and assembler languages of a major brand of computer.

320 COMPUTER LABORATORY (5)
Prereq: CS 310 or equivalent. Machine level programming: input/output, interrupts, device controllers, implementation system primitives: concurrency in hardware and software.

350 DATA STRUCTURES AND FILES (3)
Prereq: CS 210 and 217. Linked lists; algorithms for manipulating linked lists; trees; traversing and balancing trees; sequential files; external sorts; direct files; updating, deleting, and inserting records in files; indexed sequential files.

352 BUSINESS COMPUTER SYSTEMS (3)
Prereq: CS 330. Management of information systems, components of a business computer system, controls and feedback, analysis of business data applications in general accounting, inventory, sales and ordering. (See CS 355.)

355 BUSINESS COMPUTER SYSTEMS PROJECT (2)
Prereq: CS 355 and concurrent registration in CS 352. Programming for business computing. Projects include maintaining and modifying an existing system and coding a module for a new system.

391 INTRODUCTION TO CAI PROGRAMMING (5)
Prereq: one year of teaching experience. The rudiments of Computer-Assisted Instruction (CAI) programming including the two languages LOGO and PILOT; also the editing of CAI materials by altering existing programs. Over half the terminal time will be devoted to producing and testing instructionional computer programs in the student's field of interest. (Normally offered summers only.)

410 PROGRAMMING LANGUAGES (4)
Prereq: CS 210, 216, 217, 310. Introduction to the structure of programming languages; syntax and semantics; properties of algorithmic languages; special purpose languages.

417 SEMINAR IN SPECIAL TOPICS (3-5)
Prereq: varies (permission of instructor). Possible topics for this course include, but are not limited to, automatic theory, artificial intelligence, algorithm analysis, compiler design, computer networks and distributed processing, or special projects and advanced courses growing from other computer science courses or faculty research. The topics to be offered during a given year will appear in the Class Schedule.

420 COMPUTER ORGANIZATION (4)
Prereq: CS 320 and MATH 301. Digital logic; arithmetic logic; control unit logic; microprogramming; memory and addressing logic; input/output logic; advanced computer architectures; communications.

430 DATABASE MANAGEMENT (3)
Prereq: CS 330. Hierarchical, network, and relational data models; inverted list and multiset algorithms; data description languages; data management languages; techniques of organization and access; security, integrity, and reliability of databases.

431 APPLIED DATA BASE MANAGEMENT (2)
Prereq: CS 330. The student must register for CS 430 concurrently. Compiler programming for problems in database management.

439 COMPUTER MODELING AND SIMULATION (4)
Prereq: a college-level course in statistics; a college-level course in calculus; CS 110 or 210; and anyone of BA 330, Econ 307, Psych 317, Soc 421, or 15 upper-division credits in mathematics and/or computer science. Basic concepts of dynamic modeling and system simulation; design and methodology of simulation models; model validation, simulation languages, application to decision making.

460 OPERATING SYSTEMS (4)
Prereq: CS 330 and 421. Principles of operating systems; concurrent processes; resource management; process management; file systems; protection.

470 COMPUTER HARDWARE AND INSTALLATION MANAGEMENT (3)
Prereq: CS 332 or 436. Selection of computer and communications hardware within technical and financial constraints. Evaluation of both hardware and software. Management of a computer installation. Visits to computer installations. Computerware selection project.

471 SYSTEMS ANALYSIS, DESIGN, AND IMPLEMENTATION (3)
Prereq: CS 352. Stages in analysis and design, planning tools, cost analysis, implementation analysis and post-implementation analysis and long-range systems planning. Discussion of design and implementation emphasizes computer-aided systems.

480 COMPUTER GRAPHICS (3)
Prereq: CS 330, 420, and Math 205. Overview of the hardware, software, and techniques used in computer graphics; raster, storage and refresh display devices; input devices; display files; transformations; windowing; clipping; solid objects display; rendering; shading; image processing; animation.
Music
College of Fine and Performing Arts

At Western we believe music is doing — performing, composing, searching for new insights and sharing the joy of music with others. An education in music is the result of interaction among students and between students and faculty actively pursuing musical endeavors.

Here at Western Washington University we believe in the personalization of music education and the need for ongoing counseling for all music majors. The University takes pride in the quality of its instruction and the fact that Western offers a balanced program in choral, instrumental, private instruction and academic music aimed toward professional competency in music education, teaching, performance, conducting, composition, music history/literature and jazz studies.

Explorations in early, traditional, contemporary, avant-garde, jazz and electronic music exist in the various course activities and degree plans with the emphasis always on dealing directly with the musical art through performance, composition and analysis.

Five undergraduate professional degree programs are offered by the Department of Music. The Bachelor of Music (B.Mus.) degree with majors in music performance, music history and literature, music composition and jazz studies is offered for those who wish to continue advanced musical study in graduate school, enter private studio teaching, or launch a professional career in music. The B.Mus. with a music education major with concentrations in choral music, instrumental music or elementary classroom music is offered for those who plan to teach in the
public schools. The Bachelor of Arts in Education is offered with an elementary music major. State certification to teach is received concurrently with the granting of the degree. The Department of Music is an associate member of, and is accredited by, the National Association of Schools of Music (NASM).

Job placement in public school music teaching has remained excellent at Western in spite of the general overall decline in the availability of teaching positions. While most other professional degree holders continue in graduate programs, those who do not usually secure positions in studio teaching, church music, professional performance, and allied fields such as radio, television and the music industry.

The Department of Music provides individual advisement and program planning for all music majors. This takes place officially during the registration period at the beginning of each academic quarter. The department also provides individual advisement at any time prior to entrance by appointment. Many students prefer to spend a day on campus in the spring prior to transfer, at which time they may receive advisement and visit the various departmental performance groups and classes and meet with instructors. Write or phone for an appointment if interested (206/876-3130).

Many music courses and activities are open to non-majors as well as majors. Students may select from among University Choir, Concert Choir, Chamber Choirs, Symphonic Band, Wind Ensemble, Jazz Ensembles, University Symphony Orchestra, Chamber Music, Opera, Collegium Musicum, and numerous smaller ensembles.

MUSIC FACULTY

ALBERT C. SHAW (1976) Chairman
Professor, BME, Wheaton College, MME, Drake University, DME Indiana University.

PHILLIP R. AGER (1966) Associate Professor, BAED, Western Washington State College; MA, University of Washington.

BARTON FRANK (1966) Professor, Curtis Institute of Music; BM, MM, Tulsa University.

WAYNE D. GORDER (1980) Associate Professor, BS, University of Wisconsin, Milwaukee; MS, EdD, University of Illinois.

FORD D. HILL (1975) Associate Professor, AB, Wisconsin State University; MA, Indiana University.

EDWIN M. LATHROUN (1963) Associate Professor, AB, Yankton College; BM, MM, MusD, Indiana University.

SYDNEY H. POTTER (1981) Lecturer, BM, Boston Conservatory of Music; MA, Adelphi University.

C. BRUCE PULLAN (1976) Associate Professor, BA, MA, Cambridge; Diploma of Ed, Oxford.

CARLA J. RUTSCHMAN (1975) Associate Professor, BA, University of Northern Colorado; MM, Arizona State University; PhD, University of Washington.

EDWARD R. RUTSCHMAN (1975) Associate Professor, BM, University of Northern Colorado; MM, Arizona State University; PhD, University of Washington.

ROBERT L. SCANDRETT (1967) Professor, BA, Seattle Pacific College; MA, PhD, University of Washington.

MARY TEREY-SMITH (1967) Associate Professor, BA, Liszt Academy of Music, Budapest; MA, University of Vermont; PhD, University of Rochester.

EUGENE S. ZORO (1960) Associate Professor, BM, MM, Eastman School of Music of the University of Rochester.

Affiliate Music Faculty

Byron Akita, saxophone
Phillip Brink, trombone
Nicholas Bussard, oboe
David Feinberg, classical guitar
Karla Flygare, flute
James Fricke, jazz guitar
Ron Johnson, percussion
Susan Johnson, voice
J. Christopher Leuba, horn
Charles Metcalf, electric bass
Francis Peterson, bassoon
Sydney Potter, trumpet
Sally Walker, voice
Maranne Wettlaufer, voice
Dane Waterman, clarinet

Nancy Bussard, professional accompanist
Lucille Oster, professional accompanist

Currie DuBois, electronic music technician

MUSIC PERFORMANCE

All students majoring in music must be members of a major performing ensemble each quarter of residence except those quarters in which music education majors are enrolled in student teaching. Those ensembles designated as major performing ensembles are the Symphonic Band, Wind Ensemble, University Choir, Concert Choir and Symphony Orchestra. The participation requirement must be met through the student's major instrument or voice. Pianists, organists and guitarists may elect to participate in any of the major performing ensembles for which they are qualified. Pianists, organists and guitarists majoring in music performance may, under advisement, substitute up to 12 additional credits in chamber music for this requirement. Jazz studies majors who play piano, guitar or electric bass may substitute up to 12 credits in jazz ensembles for the major performing group requirement. Jazz studies majors who play instruments other than those listed above may substitute up to 12 credits in jazz ensembles "under strict advisement." Performance ensembles may be repeated for credit.

OFFICIAL ATTIRE

The official attire for all public performances of the University Orchestra, Wind Ensemble, Symphonic Band and Concert Choir is as follows: Women—long black dress; Men—black tuxedo. The Department of Music requires the student to have this costume available at the beginning of the academic year.
APPLIED PERFORMANCE PROFICIENCY

All entering music students will be expected to demonstrate their performance proficiency before a faculty committee to determine their admissibility as music majors. This qualifying audition will be held on announced dates prior to the start of fall, winter and spring quarter classes, on “Western Preview Day” in the spring, and on any day school is in session by prior appointment. Freshman and transfer students with marginal qualifications may be placed on probation at the beginning of their first quarter of study and will be re-examined at the end of the quarter. A student who fails to have probationary status removed at the end of two consecutive quarters may be removed from music major status, continued applied instruction and admissibility to restricted classes. All applied private music study is included in the student’s regular fees. Applied music may be repeated for credit.

Minimum applied performance proficiency levels required for entrance to private applied music study are as follows: This list of repertoire is intended to characterize acceptable standards for full admittance and entrance to music major status. However, the entering music student may play or sing musical selections other than those listed below.

ORGAN — Ability to play, at the piano, a Bach “Chorale” and a Bach “Two-Part Invention.”

PIANO — Classic, Romantic and contemporary literature of the difficulty of Bach, “Short Preludes” and “Inventions,” Clementi, Haydn, Mozart and Beethoven “Sonatinas”; Bartok, “Mikrokosmos,” Books 3 and 4. It is expected that three pieces be prepared from different style periods and that at least one be played from memory. Sight reading will also be a part of the audition.

VIOLIN — Mazas, “Special Studies,” opus 36, Book 1, edited by Hermann or Saenger; Handel, Corelli, Vivaldi; other sonatas. Solo pieces through five positions; scales two octaves (major and melodic minor).

VIOLA — Handel, Purcell or other sonatas; Telemann Concerto in G major or Vivaldi: Concerto in E minor. Scales two octaves (major and melodic minor).

VIOLONCELLO — Completion of the Lee, “Method” Book 1 or Dotzauer “Studies” Book 1 or Grutzmacher “Studies” Book 1; short pieces or a sonata of the difficulty of Vivaldi or Marcello. Scales through the fourth position.

FLUTE — Any Handel sonata (except the E minor Sonata) [select at least one sonata]. Any etude from Anderson Etude Method, opus 41 [select any two of the 18 studies]. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

OBOE — Handel Sonata No. 1; Bach “Gavotte in D Major”; Grieg “Solveig’s Song” [select any two]. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

CLARINET — Any two etudes from “Thirty-two Etudes for Clarinet” by C. Rose, or from “Preliminary Studies for the Accomplished Clarinetist,” Vol. 1, by R. Jettel. One solo work comparable in difficulty to the Weber “Concertino” or Hindemith “Sonata.” Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

BASSOON — Three or four selected studies from the Weissenborn Complete Method. Any two studies from the Weissenborn Advanced studies. Mozart “Concerto in Bb” (second and third movements), or Galliard “Sonatas I and VII,” or Phillips “Concert-piece” or Telemann “Sonata in F Minor,” or J. C. Bach “Concerto in Bb,” Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

SAXOPHONE — Two or three studies from “Twenty-five Exercises for Saxophone” by Klose. Solos selected from “Cantilena” by Benson, “Chant Corse” by Tomasi, or “Concerto” by Larsen. Major and minor scales through four sharps and four flats (two octaves when possible.).

FRENCH HORN — Two or three etudes selected from “Method for French Horn” by Pottag, edited by Hovey. Mozart “Concerto No. 3” or Saint-Saens “Romance.” Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).

TRUMPET — Any characteristic study from Arban Complete Method. Haydn “Concerto” (first and second movements), or Vidal “Concerto” or Thome “Fantasy in Eb” or Corelli “Sonata VIII,” edited by Fitzgerald. Major and minor scales through four sharps and four flats (two octaves when possible).

TROMBONE (TENOR AND BASS TROMBONE) AND EUPHONIUM — Two or three studies from “Melodious Etudes” by Rochut. Book 1 (bass trombone should play one octave lower where feasible). Studies one through ten of the Blashevich Clef Studies. Five selected studies from the Arban Method, Book 1. Major and minor scales and arpeggios through four sharps and four flats (two octaves when possible).
TUBA — Any two of the first four solos in "Solos for the Tuba Player" by Welselblatt. First ten studies from the "Studies for BBb Tuba" by Tyrell. Major and minor scales through four sharps and four flats (two octaves when possible).

PERCUSSION — On entering, percussion students should have prior training in at least one of the following five categories, and some experience and ability on the remainder: timpani; snare drum; mallet instruments; bass drum; cymbals, and miscellaneous percussion and drum set. For Timpani: tuning, stick technique, pedaling, mintonation, tone production, roll and attack. For Snare Drum: all rudiments, rhythm studies, stick technique (both matched and traditional grip), control and bounce. For Mallet Instruments: tone production, mallet technique, scales and arpeggios in all major and minor keys, and experience on xylophone, marimba, vibraphone, chimes, etc. For Bass Drum, Cymbals, and Miscellaneous Percussion: experience and technique on all. For Drums Set: basic rhythms in all styles and traditional and Latin American patterns.

VOICE — Two songs of contrasting styles demonstrating potential beauty and body of tone, innate sensitivity to pitch and rhythm.

CLASSICAL GUITAR — One piece from the classical guitar repertoire of the applicant's choice and one study from the collection "Twenty Etudes" by Fernando Sor, edited by Andres Segovia.

JAZZ GUITAR — Two or three standard jazz compositions (such as "Tune-Up," "Here's That Rainy Day," and "Straight No Chaser") with melody, chords and improvised solo. Major, dorian and mixolydian scales in all keys. Ability to sight-read sequences of major-seventh, minor-seventh and dominant-seventh chords in all inversions. Ability to sight-read jazz melodies.

ELECTRIC BASS — Two or three standard jazz compositions (such as "Tune-Up," "Footprints" and "Freedom Jazz Dance") with melody, improvised solo and appropriate bass lines. Major, dorian and mixolydian scales in all keys. Ability to improvise a bass line in different styles (Swing, Be-bop, Latin, Funk) from a given sequence of chords. Major-seventh, minor-seventh and dominant-seventh arpeggios in all keys. Ability to sight-read jazz melodies and chord symbols.

PIANO COMPETENCY

All music majors are required to pass a functional keyboard proficiency examination in order to graduate. Students who enter as freshmen must take it by the end of their sophomore years. Transfer students must take it before completing their first full year at Western. It is strongly recommended that transfer students take the examination during their first quarter at Western.

SCHOLARSHIPS

In addition to general University scholarships, several awards are available from off-campus music organizations through the Western Foundation. Scholarship awards to incoming music majors will be based upon quality of entrance audition. For further information, consult the Department of Music.

PROGRAM ADVISEMENT

All undergraduate music majors are assigned to the departmental undergraduate program adviser for scheduling and program approval.

INTERDISCIPLINARY PROGRAM

It is possible to take an Interdisciplinary Arts major with a concentration in music. See "Interdisciplinary Arts" in the Interdisciplinary Programs section of this catalog for full details of the major.

BACHELOR OF MUSIC

Music Education Major 91 credits (plus School of Education professional courses)

- Music: 203, 204, 211, 212, 213, 214, 221, 222, 231, 232, 233, 241, 242, 243
- Music History/Literature: 242, 243; Music 342, 343; Music 341 or 344
Music

- Conducting: Music 307; Music 308 or 309
- Applied Music: on major instrument or voice each quarter in residence except quarters student teaching — minimum of three credits in courses numbered 311-316 or above
- Music 351 and 451 (elementary emphasis) or Music 462 and 463 (secondary emphasis)
- Pedagogy for instrumental specialists: Music 105, 106, 301, 302, six quarters of Music 209. Pedagogy for choral and elementary specialists: Music 105, 106, 301, two quarters of 209. Vocal majors do not take Music 105, 106 and must add two credits to their music electives (see below)
- Music electives (under advisement): choral and elementary specialists are required to select five additional music credits except that those who are vocal majors must select seven additional music credits (see Pedagogy above)
- Major performing ensemble
- Successful completion of student teaching in music.

Professional Majors 125 credits

The Bachelor of Music (B.Mus.) degree is the professional undergraduate degree program in music. It is an expanded program which requires a student to undertake a course of study of 192 undergraduate credit hours.

Basic Core (required for all professional majors) 72 credits
- Music History/Literature: Music 342, 343; Music 341 or 344
- Conducting: Music 307; Music 308 or 309
- Area Majors: Performance, Composition, Music History/Literature or Jazz Studies (see major requirements)
- Chamber Music: 6 credits to be selected under advisement from Music 425, 426, 427, 434, and 440
- Major performing ensembles

Performance Major 53 credits
- Entrance by performance audition — student must expect to achieve upper-division applied instruction by sophomore year
- Applied music on major instrument or voice, 30 credits, minimum of 3 credits in courses numbered 411-416
- Music History: 4 credits additional beyond core requirement
- Chamber Music: 2 credits additional beyond core requirement
- Music electives (under advisement): 14 credits
- Successful completion of junior and senior recitals: 3 credits

Piano, organ and classical guitar performance majors may substitute up to 12 additional credits in chamber music for the major performing ensemble requirement: Pianists-Music 428; Classical Guitarists-Music 440.

Composition Major 53 credits
- Entrance by compositional accomplishment and interview — student must qualify for upper-division composition courses by junior year
- Courses in composition: 21 credits
- Applied music on major instrument or voice: 12 credits, minimum of 3 credits in courses numbered 311-316 or above
- Music 331, 333, 6 credits
- Music 420, 4 credits minimum
- Instrumental Techniques: Music 209 & 301, 3 credits
- Music electives (under advisement): 4 credits
- Successful completion of a senior recital of original compositions: 3 credits

Music History/Literature Major 53 credits
- Entrance by interview and distinguished accomplishment in musicianship
- Music 331, 332, 333, 9 credits
- Applied music on major instrument or voice: 12 credits, minimum of 3 credits in courses numbered 311-316 or above
- Music History: 4 credits additional beyond core requirement
- Chamber Music: 2 credits additional beyond core requirement (total of 4 credits required in Music 440)
- Music 444, 3 credits
- Music 443 or 446, 12 credits
- Music 490, 3 credits
- Music electives (under advisement): 8 credits

Jazz Studies Major 53 credits
- Entrance by performance audition to include: all major, dorian and mixolydian scales; all major seventh, minor seventh, and dominant seventh arpeggios; sight reading and improvisation
- Music 250, 3 credits
- Jazz improvisation: Music 326, 329, 330, 9 credits
- Jazz Arranging: Music 428, 430, 436, 9 credits
- Applied music on major instrument or voice: 14 credits, minimum of 3 credits in courses numbered 311-316 or above
- Jazz Ensembles: Music 229, 425, 429, 8 credits
- Music electives (under advisement): 7 credits

247
Music

- Successful completion of jazz recital demonstrating mastery in improvisation and writing/arranging: 3 credits

Jazz Studies majors who play piano, guitar or electric bass may substitute up to 12 additional credits in jazz ensembles (Music 229, 425, 429) for the major performing group requirement. Jazz Studies majors who play instruments other than those listed above may substitute up to 12 additional credits in jazz ensembles “under strict advisement.” Jazz Studies majors may meet the chamber music requirement in Chamber Jazz Ensemble (Music 425).

BACHELOR OF ARTS IN EDUCATION

Elementary Music Major 47 credits

- (plus Performance Requirement; the minor in Elementary Education; and the School of Education professional courses)
- Music History/Literature: Music 342, 343, 341 or 344
- Education: Music 351, 451
- Methods: Music 105, 106, 107. Those with voice as major instrument, replace Music 105, 106, 107 with equal credits in music electives under advisement
- Applied Music: major performing instrument or voice, minimum 6 quarters, with a minimum of 3 credits numbered 311-316 or above
- Major performing ensembles as stated above for all majors
- Music 233 and 243 recommended as electives as they are prerequisite to graduate study

GRADUATE STUDY

For concentrations in music leading to the Master of Music, see the Graduate section of the catalog.

COURSES IN MUSIC

Courses numbered X87; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

101, 102, 103 BEGINNING CLASS PIANO (1 ea)
- Prereq: open to music majors only; each course prerequisite to the next. Basic techniques, sight reading skills and functional application of the scale and harmonic materials learned in theory class.

105 CLASS VOICE AND PEDAGOGY (1)
- Prereq: open to music majors only. Tone production, song repertoire interpretation and pedagogy for non-voice majors.

106, 107 CLASS VOICE AND SIGHTSINGING (1 ea)
- Prereq: open to music majors only; Music 105; each course prerequisite to the next. Continuing emphasis on content of Music 105 with additional emphasis on sight singing.

128 INTRODUCTION TO MUSIC THEORY AND NOTATION (3)
- Prereq: open to all students. Basic components of music notation; major and minor scales, intervals, triads and keys.

129 INTRODUCTION TO MUSIC THEORY AND EAR-TRAINING (3)
- Prereq: open to all students; Music 128. Continuation of Music 128 with added emphasis upon ear-training and writing skills.

130 INTRODUCTION TO MUSICIANSHIP (3)
- Prereq: open to all students; Music 129. Continuation of Music 129 with expansion of harmonic vocabulary and emphasis upon practical applications.

131, 132, 133 MUSICIANSHIP (1) (2 ea)
- Prereq: open to music majors only; each course prerequisite to the next. Developmental process of dealing with the musical parameters of pitch, duration, timbre, amplitude and structural forms through performance, writing, aural and analytical skills. Major stylistic emphasis upon functional harmony of the 17th, 18th and 19th centuries with possible exploration into 20th century techniques.

140 THE ART OF LISTENING TO MUSIC (3)
- Prereq: open to all students. Non-technical basis for enjoyable listening to music; performance practices relating to symphony orchestras, instrumental ensembles, opera, choral groups, and solo performance.

141, 142, 143 AURAL SKILLS (1) (2 ea)
- Prereq: open to music majors only, each course prerequisite to the next. The development of aural competence in sight reading, dictation, error detection and accurate transcription.

190 MUSIC IN THE WESTERN WORLD (3)
- Prereq: open to all students. An introduction to the principal genres, forms and composers of Western music within the framework of a study of the historical stylistic periods.

201, 202, 203 INTERMEDIATE CLASS PIANO (1 ea)
- Prereq: open to music majors only; each course prerequisite to the next. Functional techniques for utilizing the piano as a tool for musical study and preparation for piano-competency examinations.

209 INSTRUMENTAL LAB FOR SECONDARY INSTRUMENTS (3)
- Prereq: open to music majors only. Laboratory in comprehensive musicianship and instrumental pedagogy for all instruments. Performance on major and secondary instruments, conducting, developing teaching strategies with goals and objectives. Repeatable for credit.

211-218 APPLIED INSTRUCTION (1-4)
- Prereq: open to music majors only; minimum applied performance audition.
  - 211 Organ
  - 212 Piano
  - 213 Strings
  - 214 Winds and Percussion
  - 215 Voice
  - 216 Classical Guitar
  - 217 Jazz Guitar
  - 218 Electric Bass
221 UNIVERSITY CHOIR (2)
Prereq: permission of instructor. Preparation and performance of major choral works and part-songs. Open to all students having the ability to sing mixed part-songs. Repeatable for credit.

223 SYMPHONIC BAND (2)
Prereq: permission of instructor. Preparation and performance of major band works. Open to all students with band experience. Repeatable for credit.

229 JAZZ ENSEMBLES (2)
Prereq: by audition. Performance and interpretation of contemporary jazz in an ensemble situation. Repeatable for credit.

231, 232, 233 MUSICIANSHIP II (2 ea)
Prereq: Music 133, open to music majors only; each course prerequisite to the next. Continuation and intensification of the processes developed in Music 131, 132 and 133 with expansion of stylistic considerations to cover the full musical scope of Western civilization from the Middle Ages through the 20th century.

240 SURVEY OF NON-WESTERN MUSICAL CULTURES (3)
Prereq: open to all students. A general introduction to the musical styles of major non-Western cultures, including those of Africa, India, Asia, Indonesia and Eastern Europe. Focus will be on the role played by music in each society.

241, 242, 243 AURAL SKILLS II (2 ea)
Prereq: open to music majors only; Music 143; each course prerequisite to the next. The further development of aural competence in sight reading, dictation, error detection and accurate intonation.

250 JAZZ: GENESIS AND EVOLUTION (3)
Open to all students. Personalities, styles and social/cultural influences on jazz from its beginning to the present day.

280 ELEMENTARY COMPOSITION (1-2)
Prereq: permission of instructor. Elementary craft of melodic, harmonic, rhythmical, instrumental and contrapuntal writing in traditional modes; participation in concomitant composition seminars. Repeatable for credit.
281 COMPOSITION IN POPULAR IDIOMS (1-2)
Prereq: permission of instructor, and Music 128. Creating of ballads, blues, combo charts and the making of tapes for demonstration. Repeatable for credit.

301, 302 STRING TECHNIQUE AND PEDAGOGY (1 ea)
Prereq: open to music majors only; each course prerequisite to the next. Principles and techniques of playing and teaching string instruments.

307 BASIC CONDUCTING (3)
Prereq: Music 233 and music major status. Basic conducting, conducting techniques, score reading and interpretive analysis.

308 INSTRUMENTAL CONDUCTING (3)
Prereq: Music 307 and music major status. Advanced instrumental techniques, score reading, interpretive analysis and rehearsal techniques.

309 CHORAL CONDUCTING (3)
Prereq: Music 307 and music major status. Advanced choral techniques, score reading, interpretive analysis and rehearsal techniques.

311-318 APPLIED INSTRUCTION (1-4)
Prereq: open to music majors only; upper-division examination.
311 Organ
312 Piano
313 Strings
314 Winds and Percussion
315 Voice
316 Classical Guitar
317 Jazz Guitar
318 Electric Bass

323 JAZZ IMPROVISATION I (3)
Prereq: open to all accepted jazz majors or Music 232 or permission of instructor. Study of basic chord changes, scales and patterns with improvisation based on these principles. Analysis of transcribed solos and study of jazz repertoire.

329 JAZZ IMPROVISATION II (3)
Prereq: Music 328. Study of altered chords, scales and patterns with improvisation based on these principles. Analysis of transcribed solos, study of jazz repertoire and ear-training.

330 JAZZ IMPROVISATION III (3)
Prereq: Music 325. Study of bi-tonal chords, harmony, and patterns with improvisation based on these principles. Analysis of transcribed solos, study of jazz repertoire and ear-training.

331 COUNTERPOINT (3)
Prereq: Music 131 and music major status. Modal counterpoint in the style of the 16th century. Two-voice motets, composition and analysis.

332 COUNTERPOINT (3)
Prereq: Music 331 and music major status. Modal counterpoint in the style of the 16th century. Composition and analysis in three and more voices.

333 COUNTERPOINT (3)
Prereq: Music 233 and music major status. Tonal counterpoint in the style of the 18th century. Compositions in the style of the Bach two- and three-part inventions. Introduction to the fugue.

338 STRING INSTRUMENT TECHNOLOGY (3)
History, construction, maintenance and repair of string instruments especially oriented to the needs of public school and studio teachers. Laboratory experience stressed and students must supply basic lab tools and materials. Summers only.

341 HISTORY OF MUSIC TO 1800 (4)
Prereq: Music 232 and music major status. Main styles, forms, terminology and composers up to 1800. Individual research projects.

342 HISTORY OF MUSIC 1800-1750 (4)
Prereq: Music 232 and music major status. Main styles, forms, terminology and composers from 1800-1750. Individual research projects.

343 HISTORY OF MUSIC 1750-1800 (4)
Prereq: Music 232 and music major status. Main styles, forms, terminology and composers from 1750 to 1800. Individual research projects.

344 HISTORY OF MUSIC 1900 TO PRESENT (4)
Prereq: Music 232 and music major status. Main styles, forms, terminology and composers from 1900 to present. Individual research projects.

350 MUSIC FOR ELEMENTARY TEACHERS (3)
For elementary classroom teachers, not music majors. The skills of singing, reading, writing, playing, and hearing music; techniques and materials used in the elementary grades.

351 ELEMENTARY MUSIC EDUCATION (3)
Prereq: Music 232 and music major status. Teaching techniques, materials and organization of the elementary music program, observation and laboratory experience.

380 COMPOSITION (3)
Prereq: Music 233 and successful completion of upper-division competency examination in composition. Writing pieces in part forms, variation form and sonata form for solo instruments and small ensembles; choral writing. Repeatable for credit.

405 VOCAL TECHNIQUE AND PEDAGOGY (2)
Vocal problems and their corrections; suitable collections of repertoire for young soloists.

409 CHORAL CONDUCTING PRACTICUM (1)
Prereq: Music 307 and 309, and permission of instructor. Direction of student chamber ensemble under faculty supervision. Project includes rehearsal techniques, repertoire research and public performance. May be repeated for credit. Subject to availability of small vocal ensembles.

411-418 APPLIED INSTRUCTION (1-4)
Prereq: open to music majors only; upper-division examination.
411 Organ
412 Piano
413 Strings
414 Winds and Percussion
415 Voice
416 Classical Guitar
417 Jazz Guitar
418 Electric Bass

420 ELECTRONIC MUSIC LABORATORY (3)
Instruction in the use of the ARP Synthesizer, tape recording techniques, audio generators and modifiers for use in electronic music. Equipment for teaching electronic music. Group instruction and studio time in the use of this equipment. Open to non-majors. Repeatable for credit.
421 CONCERT CHOIR (2)
Prereq: by audition. Selected group experience, vocal ability, reading skill, musicianship and interest in serious choral music considered for membership. Repeatable for credit.

422 UNIVERSITY SYMPHONY ORCHESTRA (2)
Prereq: by audition. Open to all students who qualify. Repeatable for credit.

423 WIND ENSEMBLE (2)
Prereq: by audition. Repeatable for credit.

424 OPERA PRODUCTION (1-3)
Admission by audition. Preparation of opera scenes or a major musical production to include a public performance each quarter. Repeatable for credit.

425 CHAMBER JAZZ ENSEMBLE (2)
Prereq: by audition; Music 376 or 428 strongly recommended. Supervised small ensemble playing in jazz idioms stressing repertoire, improvisation and performance of written arrangements and compositions. One public performance per quarter required. Repeatable for credit.

426 APPLIED CHAMBER MUSIC (2)
Open to string and piano performers by permission of instructor. Repeatable for credit.

427 CHAMBER VOCAL ENSEMBLES (2)
Prereq: permission of instructor. Repeatable for credit.

428 JAZZ ARRANGING I (3)
Prereq: Music 233 or 322. Writing and arranging for small jazz ensembles. Analysis of small jazz ensemble styles.

429 JAZZ ENSEMBLES (2)

430 JAZZ ARRANGING II (3)
Prereq: Music 428. Writing and arranging for a variety of instrumental combinations. Analysis of jazz ensemble styles.

431 ORCHESTRATION (3)
Orchestration, with special reference to the needs of the instrumental director. Offered irregularly.

434 APPLIED CHAMBER MUSIC - WINDS (2)
Prereq: permission of instructor. Open to brass/woodwinds and percussion performers. Repeatable for credit.

435 COMPOSITION (3)
Prereq: Music 380 for at least two quarters. Writing pieces of broad proportions for various media. Repeatable for credit.

436 JAZZ ARRANGING III (3)
Prereq: Music 430. Writing and arranging for large jazz ensemble. Analysis of large jazz ensemble styles.

440 COLLEGIUM MUSICUM (2)
Prereq: permission of instructor. Music literature studies from an analytical and performance viewpoint from early to pre-classic music culminating in a public performance each quarter. Repeatable for credit.

443 HISTORY OF MUSICAL MEDIA (3 ea)
Prereq: Music 343 and music major status. Development and literature of important musical media: from their origin to the present. Offered irregularly.

444 NOTATION (3)
Prereq: Music 233; permission of instructor. Reading and interpreting early, contemporary or other extant systems.

446 SEMINAR IN MUSIC HISTORY (4)
Prereq: Music 342. 343 and music major status. The student in consultation with the instructor will select one or more given musical developments for individual research. Ongoing results of this research will be shared with other members of the seminar. Focus of the course will vary from quarter to quarter. Repeatable for credit.

450 SEMINAR IN CHORAL DIRECTION AND LITERATURE (6-12)
Prereq: audition/permission of instructor. Techniques of choral development, tradition, style, direction, repertoire research, conducting techniques, musical manuscripts and instrument collections in England.

451 ADVANCED METHODS FOR ELEMENTARY SCHOOLS (3)
Prereq: Music 350 or 351. Introduction to Kodaly method: advanced teaching techniques, activities, materials and literature for elementary music teaching.

456 WOODWIND TECHNIQUES AND MATERIALS (2)
Prereq: prior undergraduate instrumental methods course. A review of woodwind instrument pedagogy with emphasis on current trends and recent developments in embouchure, breathing, articulation and other areas of fundamental technique for woodwind instruments. Teaching and performance materials appropriate to all levels will be examined, but emphasis will be placed on primary school music teachers' needs.

458 CHAMBER MUSIC READINGS (6)
Prereq: permission of instructor. Selected quartet and quintet music from the classic, romantic, impressionistic and modern periods with special emphasis on sight reading and style. Open to string, woodwind and brass players and pianists. Offered summers only.

459 MARCHING BAND TECHNIQUES (3)
Marching band organization, parade marching, and show routine.

462 SECONDARY SCHOOL MUSIC ADMINISTRATION (3)
Prereq: EdAF 310 and EdCI 368. To be taken one or two quarters prior to student teaching. Philosophy, curriculum development, teaching strategies, materials, evaluation and administrative problems for junior and senior high school music teachers. Designed to acquaint prospective teachers with the use of materials, teaching strategies and functional problems involved in teaching and organizing music programs on the secondary level.

463 MUSIC IN GENERAL EDUCATION (3)
Must be completed prior to student teaching. Emphasis on comprehensive musicianship and traditional methods and material peculiar to the teaching of public school music. Students will research, sing, compose, perform, improvise, conduct, instruct and react to live musical thought.

467 BIRCH BAY BAND MUSIC WORKSHOP (2)
Offered summers only. Repeatable for credit.
525 BRASS AND PERCUSSION TECHNIQUES AND MATERIALS (3)
Pedagogical and fundamental performance problems for all brass and percussion instruments; appropriate literature for beginning through advanced levels; performance problems encountered within the school band and orchestra settings.

531 ARRANGING (3)
Practical techniques in arranging and composing for large and small ensembles. Summer only.

532 ANALYTICAL TECHNIQUES: 20th CENTURY MUSICAL PRACTICES (3)
Isolated phenomenon from various composers which have generated the major trends of the 20th century.

533 ANALYTICAL TECHNIQUES: LATE 19TH CENTURY MUSICAL STYLES AND PRACTICE (3)
Techniques and practices unique to the late 19th century and their historical precedents in the works of Beethoven and Berlioz.

534 COMPOSITION (4)
Prereq: Music 435. Composition in the classic forms for solo instruments or small ensembles.

535 COMPOSITION (4)
Prereq: Music 435. Composition for solo voice accompanied by piano or small ensembles; composition of choral works both a cappella and accompanied.

536 COMPOSITION (4)
Prereq: Music 435. Composition for large instrumental groups, band, orchestra or a combination of these with chorus, voice or solo instrument.

540 ADVANCED COLLEGIATE MUSICUM (2)
(May be repeated for credit.) Editing, coaching and performance of early music (before 1600) for chamber ensembles (vocal and instrumental). Students will be expected to prepare stylistically suited performing editions, coach these works and participate in their public performance. (Only 5 credits applicable toward M.M. degree.)

541-544 HISTORY/ANALYSIS (4 ea)
An in-depth study of a particular segment of music from the period with historical perspective, analysis of representative works and bibliography and research techniques appropriate to the subject.
541 Music from 900-1000
542 Music from 1000-1200
543 Music from 1275-1600
544 Music from 1600 to present.

550 SEMINAR IN THE HISTORY OF MUSIC (3)
Prereq: permission of instructor. Detailed study of a particular period or phase of the history of music designed to give students a first-hand acquaintance with one special area of musical literature and with musicological method.

600 THESIS (1-6)
Students in the composition area of the Master of Music degree program may meet the thesis requirement by submitting a major original composition. Students selecting the performance area may meet the thesis requirement by presenting a full-length public recital; students in the music education concentration selecting the conducting practicum for their thesis requirement will carry out a practical and/or creative conducting project, field study or investigation, or rehearsal/conducting series culminating in a public performance.
NURSING
College of Arts and Sciences

The Department of Nursing shares the University’s commitment to teaching, learning, research and service.

THE DOMAIN OF NURSING

Nursing is a service to clients — healthy and sick — individuals or groups. Nursing facilitates the individual’s adaptation to a variety of factors and encourages the client to assume increasing responsibility and participation in his own health care. The purpose of nursing is to assist clients and families to maintain a steady state of health, adapt to illness and/or optimal function. Nursing recognizes the right of the client to make autonomous decisions and participate in the planning and implementation of health care. The complexity of society necessitates health care to be offered in a variety of settings. Nursing collaborates with the client to assist him in the most economical use of resources to maintain a quality state of health. These activities are applicable to: 1) the physiological factors and adaptations of all individuals regardless of health; 2) the psychological coping of all individuals; and 3) the social, cultural and economic situations encountered throughout a lifetime.

The practice of nursing is based in theory and is a predictive science. Nursing consists of interdependent and independent functions which are coordinated with the health care team and system. All of nursing’s activities require that a variety of facts, principles and concepts be synthesized for the delivery of health care in today’s society.
Nursing

THE DOMAIN OF EDUCATION

Nursing education is committed to accountable and responsible nursing care and practice. Therefore, nursing education is an organized activity, and its purpose is to facilitate the acquisition of knowledge; the application of the nursing process to client care within a variety of health care settings; proficiency in nursing skills for the delivery of health care; and, the utilization of research findings. With further academic preparation the nurse is competent to initiate and conduct independent investigations in health care.

Learning is an individual activity which is characterized by changes in behavior which occur throughout a lifetime. To be effective, learning must be learner-directed and facilitated by a teacher through the interpretation of concepts and the significance of phenomena. The responsibility for learning is mutually shared between learner and teacher in an atmosphere of respect. Each learner has individual needs, abilities and motivation.

THE DOMAIN OF RESEARCH

Research contributes to the body of knowledge of the discipline through investigations into the significance of health. Nursing studies, study applications, and the generation of questions concerning the applicability of these findings to the health care of the client are the prime focus. The practice of nursing is improved through the use of research findings in the delivery of client health care and nursing education.

THE DOMAIN OF SERVICE

The educational unit in nursing provides services including direct health care to clients, families and communities; continuing education to meet the needs of practicing nurses and consultation to service and educational agencies. The faculty members of the Department of Nursing are responsible for participation in professional, community and governmental health care organizations. Through participation in these activities the Department of Nursing is responding to the health needs of the citizens of the state of Washington.

The Department of Nursing serves two groups of students:

Pre-Nursing

Western Washington University offers a one-and two-year pre-nursing transfer program designed to assist students in meeting the requirements for admission to a nursing program at another college or university. A student may become a registered nurse by completing a nursing program in a two-year community college or a baccalaureate program in a four-year college or university and successfully completing State Board Examination for licensing.

Requirements for these programs vary; students are advised to seek individual guidance from the Department of Nursing.

Each institution selects the number of students that can be accommodated in the upper division. Therefore, no assurance can be given that all applicants admitted to WWU and successfully completing lower-division work will be admitted into the upper-division curriculum.

RN-BSN Program

The baccalaureate program at Western is an upper-division nursing major designed for individuals who possess a current "R.N." license and who wish to obtain a Bachelor of Science in Nursing. These individuals are graduates of associate degree nursing programs or diploma programs of nursing.

ACCREDITATION

The Department of Nursing is accredited by the National League for Nursing.

ADMISSION TO THE DEPARTMENT OF NURSING

Applications for admission to the Department of Nursing are welcomed from individuals with a current R.N. license who wish to continue their education toward a baccalaureate in nursing. The Department of Nursing is committed to assuring non-discrimination based on race, color, religion, national origin, sex, age, marital status or presence of any sensory, mental or physical handicap, provided the applicant meets the qualifications of the program. Admission to the program is competitive.

The applicant is encouraged to seek guidance from the faculty, Department of Nursing, prior to course selection.

Information to be provided by all candidates:

1. A completed University application form and payment of the fifteen dollar ($15) application fee.
2. A completed Department of Nursing application form.
3. An official transcript from each school, college, university attended.
4. One letter of reference from each of the following individuals: (a) dean/chairperson/director of nursing program you attended; (b) nursing supervisor (if you have not been employed as a graduate nurse, substitute a second nursing instructor); (c) peer who can evaluate your nursing practice.

5. A valid Washington state license to practice professional nursing (required of the applicant at the time of admission interview).

6. A personal interview with members of the Nursing Admissions Committee. This interview will be arranged after all of the information has been received from the candidate.
The candidate will be notified of the time and place of this interview by the Department of Nursing.

7. Evidence of current professional liability insurance must be submitted to the Department of Nursing before the beginning of nursing courses.

The candidate who is admitted to the Department of Nursing as a transfer student must have a cumulative grade point average of 2.5 (C+) or better.

Candidates who have completed college/university science courses (biology, chemistry, microbiology and anatomy or physiology) more than seven (7) years before the quarter of admission will be required to establish competency in these courses prior to admission into the nursing major. Competency may be established through self study and examination; review class and examination; or retaking the course(s).

If the candidate is a graduate of a non-accredited (NLN) associate degree nursing program, accredited or non-accredited diploma program, the candidate must obtain college credit for the nursing courses through the completion of the following examinations from the American College Testing, Proficiency Examination Program (ACT/PEP).

**NURSING FACULTY**

Professor. BSN, MSN, University of Pennsylvania; EdD, Teachers College, Columbia University.

KAREN D. MOREN (1981) Assistant Professor. BSN, University of Nevada; MPH, Tulane University.

MARY ELLEN O'KEEFE (1981) Assistant Professor. BSN, Montana State University; MN, University of Washington.

MARTHA C. THOMAS (1982) Assistant Professor. BSN, University of Oregon; MS, University of Colorado.

**BACHELOR OF SCIENCE**

Courses prerequisite to the nursing major:
- Eng 101
- Speech 101
- Psych 201, 316
- Anth 201
- Math 102
- Biol 101, 345, 348, 349
- Chem 115, 251

Major Concentration 66 credits

- Nurs 320, 330, 420, 425, 430, 440, 445, 450, 460, 481

Supporting Courses: Chem 371, 375; Anth 424; Biol 449; Home Econ 250, Math 240

Electives, selected under departmental advisement in nursing, humanities, non-Western and minority cultural studies to total 97 credits

A minimum of 180 quarter hours of credit is required for a Bachelor of Science degree in Nursing.

**SCHOLARSHIP**

A cumulative grade point average of 2.5 must be maintained throughout the course leading to a Bachelor of Science in Nursing.

**COURSES IN NURSING**

Courses numbered 337, 397, 400, 417, 445 are described on page 28 of this catalog.

320 NURSING OF ADULTS (6)
Prereq: Chem 371, 375; Anth 424. The nursing process as applied to adults and families to facilitate health; includes clinical application.

330 PARENT AND CHILD NURSING (6)
Prereq: Nurs 320, Biol 449. The nursing process as applied to parents and children to facilitate health; includes clinical application.

410 GERONTOLOGICAL NURSING (6)
Prereq: Nurs 320; Chem 371, 375; Biol 449. Application of the nursing process to older persons to facilitate health; includes clinical application.

411 ADOLESCENT HEALTH CARE (6)
Prereq: Nurs 320, 310. Application of the nursing process to facilitate and promote health in the young adolescent; includes clinical application.

430 PSYCHOSOCIAL NURSING (6)
Prereq: Nurs 320, 330, 440. The nursing process applied to families and groups having multiple, developmental and evolutionary crises; includes clinical application.

440 NURSING RESEARCH: AN INTRODUCTION (3)
Prereq: Math 240; Nurs 320, 330. Research method applied to nursing problems including use of descriptive and inferential statistics.

450 PUBLIC HEALTH NURSING (6)
Prereq: Nurs 320, 330; Math 240. Community analysis, case finding and referral of individual, groups and community; includes clinical application.

460 ANALYSIS OF A CARE SYSTEM (3)
Prereq: Nurs 320, 330, 440, 450. The action research design applied to health-care systems as they influence nursing.

481 MANAGEMENT OF A CARE SYSTEM (6)
Office Administration and Business Education

College of Business and Economics

The Department of Office Administration and Business Education is concerned with the development of programs in two major areas.

The office administration program prepares students to assume responsible supervisory and management positions in offices in business, industry, and government. A knowledge of the qualifications for/requirements of office workers, as well as a knowledge of the concepts of office organization, systems design and management, and of the changing trends in office operations are included in the coursework for this major. The Bachelor of Science degree is awarded upon successful completion of the program.

Major course requirements are designed to provide a healthy balance in the management tools and include work in office administration, business administration, accounting, economics and computer science. Elective options are available under advisement.

The business teacher education program has the responsibility for the preparation of competent business education teachers to meet the demand from secondary and post-secondary schools.

This program consists of a major in business education, with a strong emphasis on methods of teaching each of the business subjects, supported by courses from other areas in the College of Business and Economics. The Bachelor of Arts in Education degree is awarded upon successful completion of the program.
The department also offers a Master of Education degree in business education.

OFFICE ADMINISTRATION AND BUSINESS EDUCATION FACULTY

HUBERT N. THORESON (1971) Chairman. Associate Professor. BS, Valley City State College; ME, EdD, University of North Dakota.
LOIS E. PETERSEN (1974) Associate Professor. BA, Wartburg College; ME, Oregon State University; EdD, University of North Dakota.
LYNN M. YUROVCHAK (1979) Assistant Professor. BA, ME, EdD, Western Washington State College.

BACHELOR OF ARTS

Minor — Business Education 25 credits

Courses to be selected under departmental advisement

BACHELOR OF ARTS IN EDUCATION

Major — Business Education

Secondary 93 credits

☐ Off Admin 215, 222, 223, 241, 242, 243, 301, 310, 412
☐ Bus Ed 319, 421, 422, 423, 450, 490
☐ Econ 203, 204, 311 (or BA 341)
☐ BA 271, 301, 330
☐ Acclg 241, 242, 243
☐ Math 155

The Business Education major must be accompanied by the professional studies program offered by the School of Education. See the Education section of the catalog for detailed information.

BACHELOR OF SCIENCE

Major — Office Administration

103-104 credits

☐ Off Admin 215, 222, 223, 224, 241, 242, 243, 301, 310, 412
☐ Acclg 241, 242, 243
☐ BA 255, 271, 301, 303, 330, 341*
☐ Econ 203, 204, 311*
☐ Math 155, Comp Sci 110 or 117
☐ Electives: 18 credits under departmental advisement

*Elect from BA 341 or Econ 311

Minor — Office Administration

25 credits

☐ Off Admin 215, 242

☐ Additional courses selected under departmental advisement.

GRADUATE STUDY

For the program in business education leading to the Master of Education degree, see Graduate section of the catalog.

COURSES IN OFFICE ADMINISTRATION

Courses numbered X37; 497; 300, 400, 417, 445 are described on page 28 of this catalog.

116 BASIC TYPEWRITING (3)
Development of the basic techniques of keyboarding. Emphasis will be on the use of the keyboard as a communication tool.

117 INTERMEDIATE TYPEWRITING (3)
Prereq: Off Admin 116 or equivalent. Continued development of keyboarding techniques with emphasis on applications to a variety of communications activities.

120 BEGINNING SHORTHAND (6)
Prereq: Off Admin 116 or equivalent. Mastery of Gregg shorthand theory with development of reading, recording, and transcribing ability.

121 INTERMEDIATE SHORTHAND (4)
Prereq: Off Admin 120 or equivalent. Continued development of theory and reading with increased emphasis on recording and transcribing functions.

153 BASIC ACCOUNTING PROCEDURES (4)
Theory and practice of bookkeeping and accounting, with emphasis on both cash and accrual systems.

215 ADVANCED TYPEWRITING (4)
Prereq: Off Admin 117 or equivalent. Advanced keyboarding development with application to various communication tasks, such as rough drafts, tabulations, statistical reports, business and legal forms.

222 ADVANCED SHORTHAND (4)
Prereq: Off Admin 121 or equivalent. Continued emphasis on reading with increased attention to development of accurate transcription ability and development of a comprehensive business vocabulary.

223 SHORTHAND TRANSCRIPTION (4)
Prereq: Off Admin 222 or equivalent. Emphasis on transcription for increased production ability.

224 OFFICE PROCEDURES (3)
Prereq: Off Admin 117 or equivalent. Development of concepts and procedures for performing administrative support functions.

241 BUSINESS MACHINES (3)
Development of proficiency in the operation of electronic business machines, with business mathematics applications.

242 MACHINE TRANSCRIPTION (2)
Prereq: Off Admin 117 or equivalent. Development of non-transcription abilities and techniques for producing written communications from recorded media.
Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

503 Principles and Practices in Business Education (3)
Prereq: Graduate status and teaching experience. Philosophies and roles of business education at secondary and post-secondary levels will be examined, with focus on curriculum, course content and current trends.

504 Organization and Administration of Vocational Programs (3)
Prereq: Undergraduate major in vocational area or departmental permission. Principles of effective organization and administration of cooperative and other vocational programs. Philosophies, current practices, trends and research in the area will be analyzed.

505 Evaluation and Measurement in Business Education (3)
Prereq: Graduate status and/or departmental permission. A study of the principles of evaluation methods, programs and test construction for business education subjects with statistical interpretation of test results.

507 Improvement of Instruction in Typewriting (3)
Prereq: Graduate status and undergraduate major in business education and/or departmental permission. The course is designed to present methods, materials and principles underlying successful teaching of typewriting at the secondary and post-secondary levels. A study of current research, the contributions of research to teaching methodology, and needed research in the area of typewriting will be included in this course.

522 Improvement of Instruction in Bookkeeping and Accounting (3)
Prereq: Graduate status and/or departmental permission. Approaches to teaching bookkeeping, recordkeeping and accounting on the secondary and post-secondary levels with emphasis on critical evaluation of methodology, course content and materials. Research studies and areas needing investigation will be examined.

573 Improvement of Instruction in the Basic Business Subjects (3)
Prereq: Graduate status and/or departmental permission. A study of current trends and research in the methodology of teaching and in the course content of business subjects. Consumer education issues will be an integral part of the course.

574 Improvement of Instruction in Shorthand and Transcription (3)
Prereq: Graduate status and proficiency in a symbol shorthand system. Evaluation of methods of teaching shorthand and transcription with emphasis on research findings and their application to skill development.

595 Research Seminar (3)
Prereq: Admission to the graduate program

690 Thesis (6)
Prereq: Approval of student's graduate committee. Field project or a research study under the direction of a faculty committee. The field project or thesis may be done off-campus between periods of residence work.
Philosophy
College of Arts and Sciences

The Department of Philosophy offers a wide range of courses in most of the traditional areas of philosophical concern. These may be combined into programs leading to a major or minor in philosophy, and in several cases may be taken to satisfy general educational requirements of the University.

Work in philosophy also fits well into many preprofessional programs. For example, for purposes of preparation for law school it is highly desirable; indeed some law schools historically have listed it as the preferred undergraduate major. It is also a preferred major for jobs in government, business, and so on, which require a liberal arts background.

 Philosophy is among the oldest of intellectual disciplines. Many areas of study now separate from philosophy, for example, the various sciences, may be regarded as offspring of philosophy which have come of age. Nevertheless, the central philosophical questions remain as vital as ever. Moreover, recent studies show that students who major in philosophy are among the very highest groups in performance on the Graduate Record and other such qualifying examinations.

Historically, philosophy has been regarded by many as the most basic of intellectual disciplines; it is the firm conviction of the faculty of the Department of Philosophy that it is among the most relevant. Among the questions dealt with in one philosophy course or another are "What is knowledge?" "What is truth?" "Can we gain..."
knowledge?" "Can we know the truth?" "Are there such things as right and wrong?" "Does God exist?" "What is the nature of the distinction between minds and bodies?" "Are persons machines?" and the like. The department believes that consideration of these and related questions is fundamental to being educated and as such should be of interest to all students; moreover the department believes that many students are sufficiently able and mature intellectually to pursue answers to these questions at an advanced level with profit, and the faculty invite them to join in this pursuit.

PHILOSOPHY FACULTY

HUGH FLEETWOOD (1962) Chairman.
Associate Professor. AB, MA, PhD. The University of Michigan.

THOMAS E. DOWNING (1968) Assistant Professor. AB, Wayne State University; PhD. Stanford University.

PHILLIP MONTAGUE (1968) Professor. BS, Loyola University; PhD. Stanford University.

RICHARD L. PURCELL (1962) Professor. BA, MA, PhD. University of Chicago.

In addition to the regular faculty, the Department of Philosophy also has a distinguished visiting philosopher for at least one quarter each year.

BACHELOR OF ARTS

Major 50 credits

- Phil 102, 111, 112, 202, 303, 304, 306, 310, 410, 417, 420, 425
- One course from Phil 305, 307, 308
- Electives under departmental advisement

Minor 25 credits

- Phil 102, 111, 112, 310
- Electives under departmental advisement

COURSES IN PHILOSOPHY

Courses numbered X37, X97; 300, 400, 417; 445 are described on page 28 of this catalog.

102 INTRODUCTION TO LOGIC (3)

Introduction to the techniques of formal reasoning. Acceptable general education alternative to Math 151 for students with three years of high school math.
107 LOGICAL THINKING (3)
An aid to speaking and writing so as to reflect clear, critical and responsive thinking, covering definition, classification, fallacies and techniques of good argument.

The following three courses are all introductory philosophy courses. They are not sequential and none of them presupposes any of the others.

111 INTRODUCTION TO PHILOSOPHY: PHILOSOPHICAL PROBLEMS (3)
Great recurrent philosophical problems and some of the answers which have been developed; reading and discussion of selected writings.

112 INTRODUCTION TO PHILOSOPHY: MORAL PHILOSOPHY (3)
Nature of moral problems and judgments; emphasis upon meaning of such concepts as "goodness," "rightness," "evil," "duty," and "happiness."

113 INTRODUCTION TO PHILOSOPHY: PHILOSOPHY OF RELIGION (3)
Nature of religion, especially theism; nature and existence of God; problem of evil. Selected subjects from the following: role of faith and reason; religious experience and religious language, immortality, free will.

202 INTERMEDIATE LOGIC (4)
Prereq: Phil 102. Systems of logic and their application to philosophical problems.

207 PHILOSOPHY AND FANTASY (3)
Examination of some philosophical themes in the imaginative writings of C. S. Lewis, J.R.R. Tolkien and others.

215 INTRODUCTION TO EXISTENTIALISM (3)
Major philosophers of the existential school, philosophical problems and answers as seen by existentialism.

301 MORAL PROBLEMS IN BIOMEDICINE (3)
Prereq: one philosophy or one biology course. An investigation of moral problems that arise in connection with medical practice and research in the life sciences. Some of the more prominent of these concern genetic engineering, euthanasia, etc.

302 ADVANCED LOGIC (4)
Prereq: Phil 202. Further development of the tools and techniques of logic; applications in mathematics, science and philosophy.

303 PHILOSOPHY OF LANGUAGE (3)
Prereq: Phil 202. The nature of symbols; notions of synonymy, meaning and reference; semantics and syntactical analysis applied to natural and artificial languages. Normally offered in odd-numbered academic years.

304 HISTORY OF PHILOSOPHY: ANCIENT TO EARLY MIDDLE AGES (4)
Prereq: one course in philosophy. Great philosophical thinkers from the early Greeks to the early Middle Ages; special attention to Plato and Aristotle. Normally offered in odd-numbered academic years.

305 HISTORY OF PHILOSOPHY: MIDDLE AGES TO RENAISSANCE (4)
Prereq: one course in philosophy. Great philosophical thinkers from the 12th to the 17th centuries, including St. Thomas Aquinas, St. Bonaventure, Duns Scotus, William of Occam, Roger and Francis Bacon. Normally offered in even-numbered academic years.

309 HISTORY OF PHILOSOPHY: RENAISSANCE TO THE AGE OF REASON (4)
Prereq: one course in philosophy. Great philosophical thinkers including Descartes and the rationalists, Locke and the empiricists. Normally offered in even-numbered academic years.

307 HISTORY OF PHILOSOPHY: THE NINETEENTH AND TWENTIETH CENTURIES (4)
Prereq: one course in philosophy. Kantian and post-Kantian philosophy with some attention to other significant movements such as utilitarianism, early existentialism, and pragmatism. Normally offered in odd-numbered academic years.

308 AMERICAN PHILOSOPHY (3)
Prereq: one course in philosophy. Main currents in American philosophical thought from Jonathan Edwards to the present. Normally offered in odd-numbered academic years.

310 THEORY OF KNOWLEDGE (3)
Prereq: one course numbered above 200. The attempt to understand the possibility, nature, origins and limits of knowledge, problems and concepts.

320 SPECIAL TOPICS IN CONTEMPORARY MORAL ISSUES (3)
Prereq: upper-division standing. A detailed, critical examination of the concepts, claims, assumptions and values of some areas of great current moral importance, e.g., nuclear deterrence, abortion, distribution and use of limited national resources, cloning, etc.

330 SOCIETY, LAW AND MORALITY (3)
Prereq: one course in philosophy or upper-class standing. Concepts and principles involved in analysis and appraisal of social institutions with attention to freedom, rights, justice, and the relation between laws and morality.

350 ORIENTAL PHILOSOPHY AND RELIGION (3)
Prereq: upper-class standing. Major philosophical and religious traditions of the Orient.

405 PHILOSOPHY OF ART AND CRITICISM (3)
Prereq: upper-class standing. Philosophical study of beauty and the creation, appreciation and criticism of works of art.

410 METAPHYSICS (3)
Prereq: Phil 202 and one additional course numbered above 200, or permission of instructor. Philosophical issues surrounding such notions as particular and universal, space, time, existence, substance and attribute, views of contemporary and traditional philosophers. Normally offered in even-numbered academic years.

411 PHILOSOPHY OF SCIENCE (3)
Prereq: permission of instructor. Varying theories as to the nature, presuppositions, limitations and interrelations of the sciences.

420 ETHICAL THEORY (3)
Prereq: Phil 112. Critical analysis of writings of several major theorists in ethics — ancient, modern, and contemporary — and their treatment of ethical problems. Normally offered in even-numbered academic years.

425 PHILOSOPHY OF MIND (3)
Prereq: Phil 310. Problems relating to the mind-body distinction, knowledge of mental states and the study of mind-body identity theories. Normally offered in odd-numbered academic years.
Physical Education, Health, Recreation & Parks
College of Arts and Sciences

The department offers a variety of major/minor options for students interested in professions related to physical education, health, recreation and parks. Students may pursue career interests in public education or in industrial/commercial or governmental agencies in fitness, health maintenance programs, community health, recreation. Professional education programs lead to majors in secondary school teaching or as an elementary school specialist and in school health education. Concerns in society for health, fitness and life-time recreational skills offers new career opportunities in programs for the young adults as well as in senior centers, health and sports clubs. Sports journalism, coaching, cardiac rehabilitation, pre-physical therapy and exercise sciences are career goal possibilities.

The department has expanded the sports and exercise science laboratory facility to afford students in-depth study in exercise physiology and biomechanics as applied to health and sports medicine. Considerable practical experience using laboratory equipment enables a student to develop skills in circulorespiratory, strength and flexibility and weight/percent body fat assessments using treadmills, ergometers and a Beckman Metabolic Measurement cart.

In addition to major/minor programs, a broad selection of activities is offered for students interested in developing life-time sports skills and/or in the promotion of personal fitness and health. In addition to team and individual sports classes, courses are offered in outdoor pursuits,
including skiing, mountaineering, sailing, horse-
manship, ice skating, hiking and alpine travel.

Western students are generally highly interested in participating in sports, dance, aerobic fitness activities. Classes, intramural sports and aquatic programs sponsor popular activities throughout the year for a large number of students. Extensive intercollegiate athletic and club sports programs are available for students.

PHYSICAL EDUCATION, HEALTH
AND RECREATION FACULTY

M. CHAPPISLE ARNITT (1960) Chairperson. Professor. BS, Centrexy College; MS, Purdue University; EdD, University of Missouri.

EVELYN AMES (1984) Associate Professor. BS, University of Nevada; MS, Washington State University; PhD, University of Maryland.

ROY CLUMBER (1978) Associate Professor. BS, University of Wisconsin, LAOS; MA, San Jose State University; PhD, University of Alberta.

JILL HECKATHORN (1980) Assistant Professor. BS, MA, Michigan State University.

KATHLEEN KRUZEN (1977) Assistant Professor. BA, MA, Western Washington State College; PhD University of Oregon.

ROYCE LONG (1958) Associate Professor. BS, MA, University of New Mexico.

ROBERT MOFFATT (1981) Assistant Professor. BS, California State College; MS, University of Louisville; MFJ, University of Michigan.

JAMES E. MOORE (1977) Assistant Professor. BA, University of Oregon; MEd, PhD, Oregon State University.

RONALD O. RIGGINS (1977) Assistant Professor. BA, Lavenere College; MS Recreation, Indiana University.

RALPH A. VERNACCHIA (1973) Associate Professor. BA, Montclair State College; MS, Ohio University; PhD, The University of Utah.

JON W. WISEMAN (1962) Associate Professor. BA, Idaho State University; MS, Washington State University.

Coaching Associates

BACHELOR OF ARTS

This major provides concentrated study of the concepts and skills of human movement, exercise and sports science, socio-cultural implications of sport in society, and an elective core selected to meet the individual student's professional goals.

The major is career oriented to adult fitness in industry, government agencies, health and sport clubs, cardiac rehabilitation, pre-physical therapy, research and graduate study, sports journalism, physical recreation leadership.

Major — Physical Education

84-90 credits, selected as follows:

- PE 200
- Professional activities and skill competencies: select 12 credits from PE 100- and 200-level courses; departmental advisees is required in this selection
- Exercise and sport science: select 25 credits from PE 301, 302, 303, 307, 402, 485, 490; Biol 348 or 349
- Socio-cultural aspects of sports and physical education: 8 credits in PE 308, 309, 310, 407, 409
- PE 491 (6 credits)
- H Ed 252 or 352
- Specialization area: select 24-35 credits from one of the following specializations:
  - Journalism: complete the journalism minor; see Journalism Department section of General Catalog
  - Dance: complete dance minor
  - Recreation and Parks Option: complete the recreation and parks minor; see Recreation and Parks section of General Catalog
  - Pre-Physical Therapy: see requirements listed in the Professional Transfer Programs section of General Catalog
  - Business Administration: complete the business administration minor; see Business Administration section of General Catalog
- Exercise Science: 30 credits (students should select courses under advisement and are required to take PE 301, 302, 303, 402, 485; Biol 348 as part of the major)
  - Biol 349
  - H Ed 350, 460
  - Hux 352a, b, 454
  - Chem 115, 251, 371
  - Math 240, CS 107, 110, 210
  - Psych 326, 337

Minor — Physical Education 30 credits

- PE 200
- 8-10 credits from professional activities PE 208-256
- 8-10 credits from scientific foundations: PE 301, 302, 303, 307, 402, 485, 490
- 8-10 credits from socio-cultural aspects: PE 308, 309, 310, 407, 409
- PE 491
- H Ed 252 or 352
RECREATION AND PARKS

As our society becomes increasingly leisure oriented and responsive to needs for recreation activity, career opportunities for professionals in recreation become more numerous and diverse. The Recreation and Parks curriculum prepares students to plan, develop and administer programs and resources in community, outdoor and therapeutic recreation settings.

The curriculum adapts the quarter system of scheduling classes to a phase system. Students enter phase I of the program during spring quarter of their sophomore year. They continue through the curriculum as a group, as indicated in the schedule below.

<table>
<thead>
<tr>
<th></th>
<th>Fall</th>
<th>Winter</th>
<th>Spring</th>
<th>Summer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Sophomore</td>
<td>I</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Junior</td>
<td>II</td>
<td>III or</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Senior</td>
<td>IV</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The phase system allows maximum flexibility in scheduling workshops, field experiences, conferences and seminars both on and off campus. By making use of other departments at Western, statewide recreation resources and recreation professionals, a wide range of educational experiences is available to the student.

The Recreation and Parks program emphasizes preparation in the broad areas of outdoor recreation, community recreation, and therapeutic recreation. Community and outdoor recreation graduates have been successful in finding employment in federal and state recreation and park agencies, county and community recreation departments, commercial recreation businesses and industrial recreation settings. Therapeutic recreation graduates find employment in hospitals, senior centers, nursing homes, mental health agencies, community recreation departments, and federal, state and private agencies serving special populations.

Students interested in this program should consult Recreation and Parks for current information on admission procedures. The program is popular, and the number of major and minor students is limited.

Support Area

Recreation and Parks majors must develop a 25 credit support area. Support area prescriptions are worked out cooperatively with the student's faculty adviser and must have the adviser's final approval. They may range from traditional minors in sociology, environmental studies and other fields to interdisciplinary studies incorporating courses from a broader spectrum of University course offerings. Support areas are designed on the basis of previous experience in recreation related programs, skills and interests, and professional aspirations.

Example Support Areas: business administration, sociology, special education, communications, retail management, psychology, journalism, natural resource management, environmental planning, physical education, cultural arts, commercial recreation, biology.

Minor  34 credits

- Prerequisite: RP 171
- Complete Phases I and II

BACHELOR OF ARTS IN EDUCATION

Physical Education Majors

Physical education major programs are available for men and women students. Two options within the program prepare students for teaching physical education: option A for secondary schools (this major should be accompanied by another academic major or minor), option B for elementary schools which requires an elementary education minor. The two options have similar requirements derived from four core areas: Core A: Professional Activities - 200-level courses; Core B: Exercise and Sport Science and History; Core C: Curriculum, Methods, Practicum; Core D: Professional, Socio-cultural. Physical Education 200 is required the first quarter a major enters the program.

Students should first select an option as a major; then in each of the four core areas, the number of credits to be taken in each core is indicated. Selection of courses to be taken from each of the four areas must be under departmental advisement.

Secondary (Grades 7-12) Option A

- Physical education: 55 credits
- Supporting course: Bioi 348
Physical Education

- PE 200
- HEd 352

Core A: 20 credits required
- PE 208, 209, 232, 243, 244, 245, 250, 251, 254, 256. In addition, students must pass PE 113 or 217, or possess a current American Red Cross Intermediate Swimming Certificate

Core B: Exercise and Sport Sciences
- 17 credits: select from PE 301, 302, 303, 307, 485, 490

Core C: Pedagogy and Practicum: 10 credits
- PE 401 and 492 (PE 402 or RP 376)

Core D: Socio-Cultural: 6 credits
- Select from PE 308, 309, 310, 407, 409

Elementary School Physical Education: Option B

This major must be accompanied by an Elementary Education teaching minor; see the Educational Curriculum and Instruction Department for professional studies requirements. The student must complete an equivalent 8-16 credits in elementary school physical education.

- Physical Education courses: 48 credits
- PE 200

- Health Ed 352

Core A:
- 10 credits: PE 209, 244, 245, 250, 256

Core B: Exercise and Sport Sciences: 17 credits
- Select from PE 301, 302, 303, 307, 485, 490

Core C: Pedagogy and Practicum: 11 credits
- Select from PE 306, 326, 392, 402 or RP 376

Core D: Socio-Cultural: 3 credits
- Select from PE 308, 309, 310, 407

- Supporting course: Biol 348

Teaching Endorsement

PE 401 (secondary), PE 306 (elementary) and H Ed 352 must be taken prior to student teaching.

Recommendation for teaching endorsement for physical education normally requires a completion of a major or an augmented minor (30 credit hours) with a minimum grade average of 2.5. Participation in intramural and/or club sport activities is encouraged for all majors and minors during four quarters of the first two years.

Health Education Option

School Health Education: 65 credits

The school health education option prepares students to teach education in the school setting. School health educators seek to promote healthy lifestyles and provide students with decision-making skills that will foster positive health choices. See the Educational Curriculum and Instruction Department for requirements in the professional studies program.

Program Adviser: Dr. Evelyn Ames

- H Ed 349, 350, 352, 407, 447, 450, 460, 470 (25 credits)
- Home Econ 250
- Biol 348, 349
- Chem 115, 251
- 17 credits to be taken in the social sciences under departmental advisement

Minor — Physical Education

Secondary 27 credits
(For teaching endorsement 30 credits.)

- PE 200
- 12 credits from: the professional activity sequence
- 10-12 credits selected from PE 301, 302, 303, 407, 485
- PE 304 or H Ed 252 or 352
- PE 307

Biol 348 is recommended. Concentrated study in one sport area is recommended with additional participation in activity classes and intercollegiate teams in other sports.

Minor — Physical Education

Elementary 25 credits
(For teaching endorsement 30 credits)

- 8 credits: PE 206, 244, 250, 251, 256
- 8 credits: PE 301, 302, 303, 307, 485
- 7-9 credits: PE 306, 326, 392
- H Ed 252 or 352
- 2-4 credits under advisement

Biol 348 recommended

Minor — Athletic Coaching

(Men and Women) 30 credits

- 7-9 credits selected from PE 380-387
4 credits selected from PE 341-347
PE 208, 304
6 credits in PE 491
8 credits selected from PE 301, 302, 303, 307, 309, 310, 406, 410, 485

Biol 348 recommended. Concentrated study in one sport area is recommended with additional participation in activity classes and intercollegiate teams in other sports.

Completion of the athletic coaching minor does not meet requirements for a teaching endorsement in physical education.

Minor — Health Education 30 credits

H Ed 349, 350, 352, 447, 450, 460
Home Econ 250
Biol 348
4 credits under departmental advisement
Biol 349 recommended

Minor — Educational Dance 25 credits

PE 122, 209, 326
16 credits under departmental advisement

Minors must plan, under departmental advisement, to take additional course work to attain a teaching endorsement.

BACHELOR OF SCIENCE

Major — Community Health 85 credits

The community health education major prepares students to design and introduce educational programs to stimulate awareness, understanding and practice of behavior that will improve or maintain health. Community health educators develop the educational components of health promotion and disease prevention programs and participate in all aspects of programs that identify and address the health needs of target populations. The practice of health education occurs in various community, industry, business and medical care settings.

Program Adviser: Dr. Evelyn Ames

Psych 201
Soc 202, Speech 204
PE 303

Minor — Health Education 25 credits

H Ed 349, 350, 352, 447, 450
Home Econ 250
2 credits selected under advisement

Biol 348
Biol 349 recommended

GRADUATE STUDY

For concentrations leading to the Master of Education degree, see Graduate section of the catalog.

COURSES IN PHYSICAL EDUCATION

Courses numbered X37; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

Activities Courses

Activities courses, with the exception of varsity sports and those so noted, may not be repeated for credit.

100-level classes: Courses numbered 175 or below are S/U graded.

Beginning courses, or equivalent, are prerequisite to intermediate courses, which are in turn prerequisite to advanced courses in any given activity.

101-109 DEVELOPMENTAL (1 ea)
102 Conditioning
103 Jogging
106 Weight training

111-119 AQUATICS (1 ea)
112 Beginning Swimming (for non-swimmers)
113 Intermediate Swimming
Prereq: PE 112 or ability to swim twenty-five yards and support self in deep water
114 Advanced Swimming
Prereq: PE 113 or ability to swim 100 yards with one stroke and to use a variety of other strokes.

120-129 DANCE (1 ea)
(See Theatre/Dance Department for additional dance offerings.)
120 Social Dance
122 Folk and Square Dance

130-139 DUAL SPORTS (1 ea)
132 Beginning Badminton
133 Intermediate Badminton
134 Fencing
136 Beginning Tennis
137 Intermediate Tennis
139 Racquetball

The student furnishes equipment for PE 132, 133, 136, 137, 139

140-149 TEAM SPORTS (1 ea)
142 Basketball
144 Soccer
145 Volleyball
148 Lacrosse
149 Rugby

150-173 INDIVIDUAL SPORTS
150 Archery (1)
151 Gymnastics (1)
152 Bowling (1)
154 Golf (1)
156 Track and Field (1)
157 Beginning Skiing (1)
158 Intermediate Skiing (1)
159 Advanced Skiing (1)
160 Sailing and Canoeing (1)

Prereq: swimming test.
161 Board Sailing (1)
Prereq: student must be able to pass a swimming test. Sailing experience is helpful and advisable but is not required.
Physical Education

162 Horsemanship (1)
167 Cycling (1)
168 Karate (1)
170 Hiking and Alpine Travel (2)
171 Kayaking (2)
173 Equestrian (1)

The student enrolling in 150, 157, 158, 159, 160, 161, 162, 163, 166, 170, 171 and 173 pays the cost of transportation and individual instruction. Students in 157, 158, 159, 161 also furnish own equipment.

150-153 INTERCOLLEGIATE SPORTS (2 ea)
180m Intercollegiate Football
181 Intercollegiate Baseball
183 Intercollegiate Track and Field
165 Intercollegiate Golf
169 Intercollegiate Cross Country
190 Intercollegiate Crew
192w Intercollegiate Volleyball
193 Intercollegiate Soccer

Professional Courses

230 INTRODUCTION TO PHYSICAL EDUCATION (2)
Required for acceptance into the program. Career orientation, professional organization, research, physical fitness and skill competency testing, relationship between physical education and athletics.

236-256 PROFESSIONAL ACTIVITIES
Selectively required of majors and/or minors in physical education. Prereq: competency in skills and knowledge of the sport.
208 Strength Training for Fitness Conditioning (2)
209 Recreational Dance (2)
232 Badminton/Tennis (2)
234 Fencing (1)
243 Contemporary Recreational Activities (2)
Teaching current recreational activities such as flag football, team handball, flickerball, pickleball, racquetball, orienteering.
244 Soccer/Speed Ball/Speedway (2)
245 Volleyball/Basketball (2)
246 Educational Gymnastics (2)
247 Gymnastics (2)
248 Golf/Archery (2)
256 Track and Field Related Activities (2)

216 ADVANCED LIFESAVING AND WATER SAFETY (2)
Prereq: advanced level in swimming proficiency test. Instruction leading to qualification for the American Red Cross Lifesaving Certificate.

217 WATER SAFETY INSTRUCTORS’ COURSE (2)
Prereq: current American Red Cross Advanced Lifesaving Certificate. Stroke analysis and methods of teaching lifesaving and aquatic skills; instruction leading to qualification as an American Red Cross Water Safety Instructor.

230 SPORTS CONDITIONING (1)
A program of conditioning established in consultation with the instructor to meet specific athletic needs of the student. May not be repeated for credit.

361 BIOMECHANICS (4)
Prereq: Math 104 or 105. Application of basic mechanical principles to movement. Motion fundamentals, kinetics, kinematics, aerodynamics, hydrodynamics, equilibrium and external forces, rebound and spin, two-dimensional analysis, and the body as a machine. Laboratory work is included.

302 KINESIOLOGY (5)
Prereq: Biol 348 or equivalent. Important muscles of the body; origin, insertion and action; principles of human movement; performance analysis of basic locomotor movements, daily living activities, and sports skills; laboratory work included.

303 PHYSIOLOGY OF EXERCISE (5)

304 ATHLETIC INJURIES AND TRAINING (3)
Prereq: Biol 345. Caring and prevention of athletic injuries; procedures for building physical stamina; experience in taping procedures.

306 PHYSICAL EDUCATION FOR ELEMENTARY SCHOOL (3)
Prereq: Psych 252. Physical activities in dance, games and sports for elementary age. Methods of teaching and developmental characteristics of children.

307 MOTOR LEARNING (3)
Prereq: PE 200 and ten credits from PE 208-256. Principles of motor skills acquisition as it relates to teaching methodology and coaching techniques.

308 INTERNATIONAL PHYSICAL EDUCATION AND SPORT (3)
Prereq: PE 200. An analysis of various physical education and sport programs throughout the world, with an emphasis on socialist countries, Western European countries, and Canada.

309 PSYCHOLOGY OF SPORT (3)
Psychological principles and states which are present in sporting activities. Both at recreational and highly competitive levels.

310 SOCIOLOGY OF SPORT (3)
Sociological implications of sport in contemporary American society.

326 DANCE FOR CHILDREN (3)
Creative movement activities in dance, drama and physical activity. Suitable for classroom teachers and physical education majors.

341-347 SPORTS OFFICIATING (2-6 ea)
Officiating techniques for individual and team sports.
341 Football
342w Basketball
343 Track and Field
345 Volleyball
346 Gymnastics
347 Wrestling

350-357 COACHING SPORTS (2-3 ea)
Practical and theoretical aspects of coaching the sport with special emphasis on advanced skill development and current methodology and resource material being utilized.
350 Football (3)
361 Basketball (3)
362 Baseball (2)
363 Track (3)
384 Wrestling (2)
385 Volleyball (2)
386 Gymnastics (2)
387 Tennis (2)

268
392 PHYSICAL EDUCATION LABORATORY EXPERIENCE WITH CHILDREN (2-4)
Prereq: PE 306.

399 KEELBOAT SAILING (1)
Prereq: pass swim test. Opportunity to learn sailing skills and knowledge under expert instructor in a Sceptre "38" class boat. The boat is rigged, designed for Pacific Northwest racing and International Ocean Racing Handicapped formula. S/U grading.

401 SECONDARY SCHOOL METHODS AND PROFESSIONAL PRACTICUM (5)
Prereq: junior status and completion of 20 hours in the major program. Seminar, observation, and practical experience in teaching physical education in secondary schools.

402 CORRECTIVE PHYSICAL EDUCATION (3)
Prereq: Biol 348 or equivalent; PE 302. Implications of growth patterns, coordinations and postural deviations relating to the physical education program; conditioning techniques, corrective procedures.

406 THE ADMINISTRATION OF ATHLETICS (3)
Prereq: senior status. Organization and administration of policies and procedures for interschool athletic programs with special emphasis on management of contests, financing care and maintenance of facilities and equipment.

407 HISTORY AND PHILOSOPHY OF PHYSICAL EDUCATION (3)
Prereq: PE major or minor; senior status. Philosophical and historical considerations of physical education with emphasis on social, cultural and aesthetic aspects of sports and dance.

409 PHYSICAL EDUCATION ADMINISTRATION & MANAGEMENT (3)
Prereq: PE 202: 15 credits in the major courses. Criteria for the selection of program activities, planning and maintenance of facilities and equipment, personnel development, evaluative procedures and techniques, administrative policies.

410 INTRAMURAL AND INTERSCHOOL PROGRAMS (2)
Program content and planning for athletic events in secondary schools.

480 TEACHING PHYSICAL EDUCATION IN ELEMENTARY SCHOOL: INSTRUCTIONAL MODULES PROVIDING FOR EQUAL OPPORTUNITIES (1-4)
Prereq: PE 250 or 306 or equivalent and teaching experience. Utilizing self-instructional materials, group seminars and conferences for development of teaching competency in elementary school physical education, incorporate a wide variety of strategies and activities in providing equal opportunities for all children and provide for compliance with provision of Title IX.

481 MOVEMENT EDUCATION (3)

482 GAMES AND SPORTS; A MOVEMENT EDUCATION APPROACH FOR ELEMENTARY AND MIDDLE SCHOOLS (3)
Prereq: PE 308 or equivalent. Developing problem-solving strategies, modified games/sports, creative games in cooperative and competitive activities. Use of learning centers/station.

485 HUMAN GROWTH AND MOTOR DEVELOPMENT (3)
Growth characteristics and sequence of motor development to maturity; implications for motor performance.

490 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION (3)
Application of the theory of measurement, evaluation, and appropriate statistical processes to physical education programs, practical experiences involving test selection, administration and evaluation and interpretation of results in public school and college physical education programs.

491 FIELD EXPERIENCE IN PHYSICAL EDUCATION ACTIVITIES (3)
Prereq: senior standing and permission of department. Practical experience in local public schools and voluntary agencies in conducting activity programs. Course may be repeated once.

492 PRACTICUM IN PHYSICAL EDUCATION (2)
Prereq: upper-division status, permission of department. Individualized practicum in teaching physical education activities. The course may be repeated.

496 MOVEMENT EDUCATION FOR THE EXCEPTIONAL CHILD (3)
Prereq: permission of instructor. Use of movement experiences for child-centered education for exceptional children, methods, activities in gymnastics, games and sports, body competencies and creative movement.

Graduate Courses in Physical Education

Courses numbered 500, 517, 545, 597 are described on page 26 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

502 RESEARCH TOPICS IN PHYSICAL EDUCATION (2-5)
Prereq: graduate status. Supervised study in topics relating to sociology/psychology of sport, biomechanics, exercise physiology, history, curriculum, human growth and motor development.

503 PHYSICAL EDUCATION EQUIPMENT AND FACILITIES (3)
Functional design and planning of gymnasiums and other physical education facilities, and the purchase and care of athletic and physical education equipment.

504 CURRICULUM IN PHYSICAL EDUCATION (4)
Prereq: teaching experience. Physical education programs, based on the needs, interests, abilities of students.

505 RESEARCH DESIGN IN PHYSICAL EDUCATION (4)
Prereq: graduate status. Ed 501 or taken concurrently. Purpose and design of various methods with emphasis upon experimental, descriptive, survey methods usually incorporated in schools, agencies, colleges, computer application.

507 MOTOR LEARNING: ADVANCED (3)
Prereq: permission of instructor. Factors affecting the acquisition of skill; individual and group differences; retention, transfer of training, motivation in learning motor skills.
508 SEMINAR IN HISTORICAL PERSPECTIVES OF SPORT (3)
Pre: graduate status, PE 407 or equivalent. Understanding of research in Sport History and analysis of forces that historically have affected sport and the roles various groups, individuals and institutions have had on sport.

509 ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS, PHYSICAL ACTIVITY CENTERS (3)
Pre: Ed 541a. Phys Ed major degree, teaching experience. Administrative structures, policies and procedures for the conduct of physical education and sports programs in school, commercial and governmental agencies. Discussion will be given to budgets, legal liability, purchase and maintenance of equipment, facilities, public relations.
510
techniques and application of fitness evaluation procedures (3)
Prereq: exercise physiology. Cardiopulmonary and anthropometric evaluation of the human. Emphasis is placed on electrocardiography, exercise stress testing techniques, pulmonary function tests and body composition analysis.

511
physical activity and aging/cardiac rehabilitation (3)
Prereq: PE 510. Aging process and relationship to activity and health planning. Design a safe, effective, and enjoyable activity for older populations. Education and exercise planning for cardiac rehabilitation.

513
exercise prescription and implementation of exercise programs (3)
Prereq: PE 302, 303. Administration and implementation of fitness programs will be examined. Fitness modalities will be examined, evaluated and applied.

531
seminar: comparative physical education (3)
Prereq: PE 407. Physical education systems in major countries; background, types, aims and present function; comparison with the American system.

540
applied exercise physiology (3)
Prereq: exercise physiology. Selected topics in exercise physiology: special aids to performance, thermoregulation, altitude training, metabolism, weight control, nutrition, performance lecture and recreation.

541
seminar: sport psychology (3)
Prereq: teaching experience. Application of data from psychology to sport activity, athletics, performance and coaches.

542
seminar: sociology of sport (3)
Prereq: teaching experience. Role and nature of sport in society, effluence and sport, urban life and leisure, amateur and professional sport, politics and sport.

543
seminar: biomechanics (3)
Prereq: permission of instructor. Application of mechanical principles to analysis of motor skills and athletic events.

584
human growth and motor development (3)
Prereq: PE 485. Selected topics in biophysical aspects of development and psychosocial perspective of children's sports, developmental kinesiology.

592
field experience in adult fitness/cardiac rehabilitation (2-6)
Prereq: graduate status; PE 511 and permission of instructor. Supervised field experiences in developing, designing, managing and evaluating adult fitness/health management programs.

690
thesis or field project (3-6)
Prereq: formal advancement to candidacy for the master's degree.

150
consumer health (2)
Analysis and evaluation of health products, services, and information; selection of health care providers and programs; consumer protection agencies.

151
society and drugs (2)
Physical and psychological effects of mood altering drugs; societal use and misuse of legal and illegal drugs, including OTC drugs.

152
society and sex (2)
Sociological, psychological, and biological aspects of human sexuality.

201
introduction to health professions (2)
For students interested in health-oriented disciplines. Professional philosophies, educational requirements and occupational opportunities.

220
cancer, facts and fiction (1)
An educational series providing basic overview of cancer, its forms of development and prevention. Environmental carcinogens, methods of cancer treatment and community resources available to patients and family members will be discussed.

252
first aid and personal safety (2)
Aid for common injuries and illnesses based on the American Red Cross Standard First Aid and Personal Safety course. ARC certificate issued on completion of course requirements.

349
contemporary health issues (3)
Prereq: junior status. H Ed 150, 151, and 152 recommended. Topics covered: overweight/obesity and weight control, consumer health, human sexuality and licit and illicit drugs.

350
wellness and illness (3)
Prereq: junior status. Topics covered: stress relationship to wellness/illness; chronic/ degenerative diseases; communicable diseases, respiratory, allergies and internal disorders, high-level wellness.

351
first aid and cardio-pulmonary resuscitation (1)
First aid using a multi-media program including units on cardio-pulmonary resuscitation.

352
advanced first aid and emergency care (3)
The development of first aid skills required of persons who are responsible for providing emergency care as part of job and/or recreation. ARC certificates are issued on completion of course requirements.

407
historical perspectives of health education (3)
Prereq: H Ed 349, 350 and 447. Historical aspects of health and health education; principles and practices of health education.

447
community health (3)
Prereq: 10 credits in biology, health education, home economics, or Huxley. Analysis of health care delivery systems: community, national, and world health issues; models of health behavior; development of community health programs; direct involvement with health-related agencies.

450
methods and materials in health education (4)
Prereq: H Ed 349 and 350 or permission of instructor. Basic principles and application of the process of health education in school and community health settings. Identification, examination, development and evaluation of resource materials.

451
field experience in community health (16)
Physical Education

452 FIRST AID INSTRUCTOR’S COURSE (2)
Prereq: current ARC certificate. Instructional methods, skills, resource materials for teaching first aid.ARC certificates issued on completion of requirements.

450 HEALTH EDUCATION CURRICULUM DESIGN (3)
Prereq: senior status. Identification and application of concepts of curriculum design in school and community health education. Analysis of existing curriculum. Students will prepare, utilize and critique materials.

470 SCHOOL HEALTH PROGRAM (3)
Prereq: senior status, teaching experience, or permission of instructor. Analysis of the philosophical, organizational, and legal aspects of the school health program.

Graduate courses in Health Education

506 HEALTH AND THE CHILD (3)
Prereq: graduate status or permission of instructor. Health needs and problems of children; concepts of appraisal and referral, utilization of school/community health services; healthful school environment.

COURSES IN RECREATION AND PARKS

Courses numbered 337; 389; 390, 400, 417; 445 are described on page 28 of this catalog.

11 FOUNDATIONS OF RECREATION AND LEISURE (3)
Professional course dealing with the background, present status, future goals and challenges of leisure and the recreation service professions.

211 COMMUNITY RECREATION AND LEISURE SERVICES (4)
Prereq: RP 171. Majors and minors only. Community-based recreation service agencies; philosophies, functions, services, personnel and facilities. Emphasis on the diversity and inter-relatedness of community recreation service agencies.

272 DYNAMICS OF OUTDOOR RECREATION (4)
Prereq: RP 171. Majors and minors only. Introduction to the major professional components of the outdoor recreation field: interpretive services, camping, resource management, programming, private recreation and tourism. Focuses on trends, programs, and related professional issues.

273 CAMP COUNSELING AND ORGANIZATION (3)
Camps program components, counseling skills, types of organized camping settings; American Camping Association standards.

274 INTRODUCTION TO RECREATION AND SPECIAL POPULATIONS (4)
Prereq: RP 171. Majors and minors only. Overview of special populations, including implications and principles for recreation service providers.

275 PROFESSIONAL PRACTICUM (2)
Prereq: RP 171. Majors and minors only. Participation in a recreation and park agency in the delivery of recreation services.

278 RECREATION PROGRAMMING I (2)
Prereq: RP 171. Majors and minors only. Leading and processing recreation experiences in community, outdoor and therapeutic recreation settings: individual, group and environmental factors.

372 RECREATION AND PARK ADMINISTRATION (3)
Prereq: Phase I. Entry-level administrative skills associated with managing personnel and organizational resources within parks and recreation systems.

373 RECREATION PROGRAMMING II (3)
Prereq: Phase I. Systems approach to programming methods for individual and group program planning in all parks and recreation settings.

374 SUPERVISED FIELDWORK (3)
Prereq: Phase I. Supervised laboratory experience in the recreation service professions. S/U grading.

375 INTERPRETATION IN RECREATION SETTINGS (3)
Prereq: Phase I or appropriate experience and written permission. Philosophy, organization, content and process of interpretation in human and natural environments. Equal emphasis placed on classroom instruction and field technique.

376 ADAPTIVE PROGRAMMING IN RECREATION (3)
Prereq: Phase I or appropriate experience and written permission. Methods and techniques in the organization, implementation and evaluation of recreation programs for special populations: needs assessment, activity modification, adaptive equipment, physical and behavioral management and intervention techniques.

377 COMMERCIAL AND INDUSTRIAL RECREATION (3)
Prereq: Phase I or appropriate experience and written permission. Analysis of process of providing recreation services and/or products in business or industrial settings: planning, organization, marketing, leadership and evaluation.

421 RECREATION, AGING AND RETIREMENT (3)
Prereq: Phase III or appropriate experience and written permission. Leisure needs, concerns and potentials of older persons. Emphasis on theory, principles and techniques for provision of recreation services.

444 RECREATION BUDGETING AND FINANCE (3)
Prereq: Phase III. Principles and techniques of obtaining, budgeting and managing financial resources in parks and recreation agencies.

446 ISSUES ON RECREATION AND PARKS (3)
Prereq: Phase III. An in-depth examination of issues affecting the provision of recreation services.

450 RESEARCH DESIGNS (3)
Prereq: Phase III. Research techniques in leisure settings: questionnaire development, surveys, interviews, experimental designs, report writing, computer utilization and grant writing.

471 INTERNSHIP (15)
Prereq: Phase II. Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

474 OUTDOOR PROGRAM DEVELOPMENT (3)
Prereq: Phase III or appropriate experience and written permission. Methods and techniques in the organization, implementation and evaluation of recreation programs in outdoor settings. Emphasis on outdoor adventure programming.

475 PARK AND FACILITY DESIGN AND OPERATION (3)
Prereq: Phase III or appropriate experience and written permission. Design and operations considerations for the park and recreation administration program: development, site analysis, unit relationships, site plans, plan evaluation, master plans, functional considerations, scheduling and maintenance.

272
The undergraduate major provides a broad coverage of basic physical topics and principles and combines both lecture and laboratory work. Students may choose from one of a number of programs which allow different relative emphasis on physics, math-physics, optics or astronomy. Combined with the general educational program, students are well prepared for a varied career choice, e.g., high school teaching, graduate study and research/development work in governmental and industrial laboratories. Admission requirements are flexible enough to accommodate students who are beginning university-level work in mathematics and physics as well as those who can be granted advanced placement and credit for service-related experience or accelerated high school science and mathematics programs. Similarly, community college students with technical and academic credit in general physics and calculus can enter these programs without undue loss of credit and time.

The department has always given first priority to instruction and has acquired facilities, faculty and technical staff to support a strong curriculum including master's degree programs. Students have opportunity to participate in research projects involving nuclear, solid-state and theoretical physics, lasers, optics, acoustics or environmental pollution.

The department provides an extensive program of student employment in laboratory instruction and technical work which provides valuable experience and financial support and promotes close association of faculty and students.
PHYSICS AND ASTRONOMY

FACULTY

A. I. S. RUPAL (1964) Chairman.
Professor, BSc, MSc, Punjab University; PhD, University of British Columbia.

RICHARD D. ATNESESEN (1969) Associate Professor, BS, MS, University of Minnesota; PhD, Indiana University.

W. LOUIS BARRETT (1966) Associate Professor, BS, University of Idaho; MS, PhD, University of Washington.

W. LLANDA BROWN (1956) Associate Professor, BS, University of Washington; MAT, Washington State University; EdD, University of Florida.

MELVIN DAVIDSON (1967) Professor of Physics and Director of the Computer Center, AB, Whitman College, PhD, Rensselaer Polytechnic Institute.

WILLIAM J. DITTRICH (1961) Associate Professor, BS, MS, University of Washington.

RICHARD FEINBERG (1960) Assistant Professor, BS, State University of New York; MS, PhD, Stanford University.

RICHARD H. LINDSAY (1961) Professor, BS, University of Portland; MA, Stanford University; PhD, Washington State University.

RAYMOND R. McCORD (1961) Professor, BA, MA, University of British Columbia; PhD, Purdue University.

ROBERT J. OUGLEY (1970) Professor, BS, California Institute of Technology; MA, PhD, University of California, Riverside.

LESLIE SPANIEL (1958) Associate Professor, BS, University of Missouri, Rolla; PhD, Iowa State University, Ames.

DONALD L. SPARLING (1969) Associate Professor, BS, MS, PhD, University of Washington.

RICHARD D. VAWTER (1968) Associate Professor, BS, Texas Technological University; MS, State University of Iowa; PhD, State University of New York.

J. JOSEPH WILSON (1963) Professor, BSc, University of London; MSc, University of Birmingham; PhD, University of London.

Research Associate
Roy E. Potter (1977) BS, University of Washington, MS, University of Maryland; PhD, University of Rhode Island.

MINOR 25 credits plus supporting courses

Phys 241, 242, 341, 342, 343, 351, 352, 353
Math 124, 125, 126

BACHELOR OF SCIENCE

Major 110 credits

Core Courses (required of all BS majors)

- Physics 241, 242, 279; Math 124, 125, 126, 206; Chem 121
- Physics 341, 342, 343, 351, 352, 353, 371; Math 224, 331, 332; Comp Sci 210
- Physics 351, 352, 353, 391, 392, 393
- Physics 421, 422

It is recommended that each of the above groups be taken in the first, second, third and fourth years, respectively.

In addition every major must complete one of the following concentrations:

Physics Concentration

- Plus 6 credits of 400-level courses

Math-Physics Concentration

- Math 404, 430, 431
- Plus one 400-level course in physics or mathematics

Optics Concentration

- Physics 355, 406, 409, 411

BACHELOR OF ARTS

Major 86 credits

Core Courses (required of all BA majors)

- Physics 241, 242, 279; Math 124, 125, 126, 205
- Physics 341, 342, 343, 351, 352, 353; Math 224, 331, 332
- Physics 381, 382, 383, 391, 392, 393

It is recommended that each of the above groups be taken in the first, second and third year, respectively.

In addition every major must complete one of the following concentrations:

Physics Concentration

- 11 credits of upper-division courses

Astronomy Concentration

- Astron 315, 316, 317

Chem 121 and Computer Science 210 are recommended for both concentrations.

BACHELOR OF ARTS IN EDUCATION

Teaching Competence

Recommendation for teaching competence normally requires completion of the appropriate major with a minimum grade point average of 2.50.

Each of the major concentrations below provides competence in two related areas. Students wishing to combine physics with some other teaching major should refer to the BA minor in physics.

Major Concentration — Physics/Mathematics 70 credits

- Physics 241 and Math 124
- 20 credits in physics under departmental advisement
- 20 credits in mathematics under departmental advisement
- 20 additional credits including methods courses in one or both of these fields

274
## COURSES IN PHYSICS

Courses numbered X37; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>101</td>
<td>PHYSICS FOR THE LIBERAL ARTS (4) F,W,S</td>
<td>Basic concepts of physics. Some sections emphasize special topics such as household physics, environmental physics, light, sound, color and music, etc. For students with no previous physics background. Laboratory.</td>
</tr>
<tr>
<td>131</td>
<td>PRINCIPLES OF PHYSICS I (5) F,S</td>
<td>Prereq: high school algebra and geometry, or equivalent. Kinematics and dynamics of particles; concepts of force, momentum and energy; behavior of fluids, vibrations and waves. Recommended for students in science and preprofessional programs not requiring physics with calculus.</td>
</tr>
<tr>
<td>133</td>
<td>PRINCIPLES OF PHYSICS III (5) S</td>
<td>Prereq: Physics 132. Geometrical and wave optics; relativity, atomic and nuclear physics. Laboratory.</td>
</tr>
<tr>
<td>201</td>
<td>THE SCIENCE OF HIGH FIDELITY (3) F,S</td>
<td>High-fidelity audio components. Basic principles applied to the recording and reproduction of music. Operation and evaluation of tape recorders, turntables, phonocartridges, amplifiers, loudspeakers, etc. Laboratory.</td>
</tr>
<tr>
<td>202</td>
<td>SOUND SYSTEMS (3) S</td>
<td>Prereq: Physics 201. Electronic reinforcement and alteration of sound, room acoustics and reverberations; electronic and computer-generated music; digital computers and digital sound.</td>
</tr>
<tr>
<td>203</td>
<td>MUSICAL ACOUSTICS (3) W</td>
<td>Physical and subjective characteristics of sound; analysis of musical sounds; musical instruments; scales and room acoustics. Laboratory. Not intended for physics majors.</td>
</tr>
<tr>
<td>205</td>
<td>LASERS AND HOLOGRAPHY (3) S</td>
<td>Introduction to lasers, laser light and holography. Laboratory. Not intended for physics majors.</td>
</tr>
<tr>
<td>207</td>
<td>SOLAR ENERGY (3) F</td>
<td>Prereq: high school algebra and geometry, or completion of Astronomy 103. Practical utilization of the solar resource. Natural processes and solar motion as a function of latitude; collection of light energy; storage of thermal energy and heat transfer. Working details and performance data for passive and active solar buildings.</td>
</tr>
<tr>
<td>241</td>
<td>PHYSICS WITH CALCULUS I (5) F,W</td>
<td>Prereq: Math 124. Kinematics and dynamics of particles; work and energy; collisions and conservation of momentum. Laboratory.</td>
</tr>
<tr>
<td>242</td>
<td>PHYSICS WITH CALCULUS II (5) W,S</td>
<td>Prereq: Physics 241 and Math 125. Rotational kinematics and dynamics; oscillations, gravitation; fluid statics and dynamics; waves and sound. Laboratory.</td>
</tr>
<tr>
<td>271</td>
<td>STATICS FOR ENGINEERS (4) W</td>
<td>Prereq: Math 125. Principles of statics, basic concepts, parallelogram law, Newton’s law, results, force-couple relationships, equilibrium diagrams, equilibrium analysis, three-dimensional structures, two-dimensional frames, trusses, frictions and virtual work.</td>
</tr>
<tr>
<td>279</td>
<td>INTRODUCTION TO SPECIAL RELATIVITY (3) F</td>
<td>Prereq: Math 124 or concurrent. The relationship of space and time: the Michelson-Morley experiment; the Lorentz-Einstein transformations; time dilation and the Lorentz contraction; space-time events and the world lines, relativistic dynamics.</td>
</tr>
<tr>
<td>342</td>
<td>OPTICS (4) W</td>
<td>Prereq: Physics 242 and Math 126. Concurrent enrollment in Physics 352 required for physics majors. Reflection and refraction at plane and spheroidal surfaces; lenses and aberrations optical instruments; interference and interferometers; diffraction; polarization.</td>
</tr>
<tr>
<td>343</td>
<td>THERMAL PHYSICS (4) S</td>
<td>Prereq: Physics 242 and Math 126. Concurrent enrollment in Physics 353 required for physics majors. Thermal properties of matter; kinetic theory; laws of thermodynamics; thermodynamic potentials and Maxwell’s relations.</td>
</tr>
<tr>
<td>353</td>
<td>OPTICS LABORATORY (1) W</td>
<td>Prereq: concurrent enrollment in Physics 342.</td>
</tr>
<tr>
<td>353</td>
<td>THERMAL LABORATORY (1) S</td>
<td>Prereq: concurrent enrollment in Physics 343.</td>
</tr>
<tr>
<td>355</td>
<td>FUNDAMENTALS OF ELECTRONICS (4) F</td>
<td>Prereq: Physics 341 (or 133 with permission). Principles of CC and AC circuit theory; diodes, bipolar and FET transistors; transistor amplifiers, opto-electronic devices and waveform generators. Laboratory.</td>
</tr>
<tr>
<td>356</td>
<td>ANALOG AND DIGITAL ELECTRONICS (4) W</td>
<td>Prereq: Physics 355. Principles of operational amplifiers; Boolean algebra; TTL and CMOS logic, microprocessors and noise. Laboratory.</td>
</tr>
<tr>
<td>371</td>
<td>ELECTRIC AND MAGNETIC FIELDS (4) W</td>
<td>Prereq: Physics 341; Math 224, 331 (may be taken concurrently). Differential representation of electric and magnetic field laws; Maxwell’s equations and electromagnetic waves in free space, dielectrics and conductors, reflection and refraction at a plane boundary, guided waves, dipole radiation.</td>
</tr>
</tbody>
</table>
381 QUANTUM PHYSICS (4) F
Prereq: Physics 275, 341, 342 and Math 332. Concurrent enrollment in Physics 381 required for physics majors. Dual nature of radiation and matter; the Bohr atom; Schrödinger’s theory applied to the square well, the harmonic oscillator and one-electron atoms.

382 ATOMIC AND SOLID-STATE PHYSICS (4) W
Prereq: Physics 381. Concurrent enrollment in Physics 392 required for physics majors. Quantum physics applied to multi-electron atoms, molecules and solids; spectra, structure and properties of solids.

383 NUCLEAR AND ELEMENTARY-PARTICLE PHYSICS (4) S
Prereq: Physics 382. Concurrent enrollment in Physics 393 required for physics majors. Structure, properties and decay of atomic nuclei; detection of nuclear radiation; nuclear reactions; introduction to elementary particles.

381 QUANTUM PHYSICS LABORATORY (1) F
Prereq: concurrent enrollment in Physics 381. Selected experiments in quantum physics.

382 ATOMIC PHYSICS LABORATORY (1) W
Prereq: concurrent enrollment in Physics 382. Selected experiments in atomic, molecular and solid-state physics.

383 NUCLEAR PHYSICS LABORATORY (1) S
Prereq: concurrent enrollment in Physics 383. Selected experiments in nuclear physics, including nuclear reactions using a particle accelerator.

395 FRONTIERS IN PHYSICS AND ASTRONOMY (3)
Prereq: one college-level physics course. Important developments in physics and astronomy during the 20th century. Not intended for physics majors. (Summers only.)

399 SOLAR ENERGY PHYSICS (3) W
Prereq: Physics 101 or 131 or Astron 100. Solar, atmospheric and blackbody physics. Solar heat collection, transfer and storage with applications to solar space heating. Design criteria; solar measurements; resource studies. Research into large-scale solar systems.

401 ACOUSTICS (3) F
Prereq: Physics 341, 342 and Math 331. Generation, transmission and reception of acoustic waves. Applications to selected areas of practical acoustics.

405 LASERS (3) S

409 MODERN OPTICS (4) F
Prereq: Physics 382. Concurrent enrollment in Physics 495 is recommended. Fresnel diffraction. Fourier treatment of Fraunhofer interference with applications to optical data processing, etc. Theory of partial coherence with applications to stellar interferometry and Fourier transform spectroscopy, laboratory.

411 ELECTRO-OPTICS (3) W

415 HOLOGRAPHY (3) S
Prereq: Physics 342 and 352. Basic concepts of holography in thin and thick recording media; theory of elementary holograms (sinusoidal gratings and Gabor zone plates); major hologram types; interferometric holography, laboratory. Normally offered alternate years.

421, 422 QUANTUM MECHANICS (4 ea) F, W
Prereq: Physics 383. Review of Schrödinger’s theory; eigenfunctions and eigenvalues, operator methods; angular momentum and spin; stationary-state and time-dependent perturbations; multiparticle systems.

431 SOLID-STATE PHYSICS (4) W
Prereq: Physics 382. Phonons and lattice vibrations; free electron theory of metals, electrical conductivity, thermal properties; energy-band theory, diamagnetism and paramagnetism.

451 NUCLEAR PHYSICS (3) S
Prereq: Physics 383. Basic nuclear properties; nuclear models; interaction of radiation with matter, radioactive decay, elementary nuclear reactions.
471 ELECTRO MAGNETIC THEORY (3) S
Prereq: Physics 371. Dielectric materials; general methods for solving Laplace's and Poisson's equations for the electrostatic potential; magnetic materials; radiation from an arbitrary distribution of charges and currents; radiation from accelerated charges; relativistic electrodynamics. Normally offered alternate years; alternates with 491.

475, 476 CLASSICAL DYNAMICS (3 ea) W, S
Prereq: Physics 341 and Math 332. Lagrangian mechanics, perturbation techniques for dynamical systems; theory of oscillations, central forces and scattering theory.

479 RELATIVITY THEORY (3) S
Prereq: Physics 279 and 371. Review of special relativity. Tensor analysis and Riemannian geometry applied to the major Einstein predictions: advance of the perihelion of planetary orbits, the bending and retardation of light in a gravitational field and the Einstein red shift. Normally offered alternate years; alternates with Astronomy 416.

485 MATHEMATICAL METHODS OF PHYSICS I (3) F
Prereq: 15 credits in physics; Math 125. Fourier transforms with applications to physics and other relevant sciences.

486 MATHEMATICAL METHODS OF PHYSICS II (3) W
Prereq: 20 credits of physics; Math 331. Applications of linear vector spaces, complex variables, group theory, etc.

491 STATISTICAL PHYSICS (3) S
Prereq: Physics 382. Probabilistic interpretation of entropy; relationships between statistical mechanics and thermodynamics. Fermi-Dirac and Bose-Einstein statistics with applications. Normally offered alternate years; alternates with 471.

496 CURRICULUM DEVELOPMENT FOR PHYSICS TEACHERS (1-6)
Prereq: permission of instructor.

Graduate Courses
Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog. Admission to Graduate School or special permission required. See Graduate section of this catalog.

531, 532 SOLID STATE PHYSICS (3 ea)
Prereq: Physics 431 or equivalent. Physics 531 prerequisite to 532. Crystal structure and reciprocal lattice space; dielectric properties; ferroelectric crystals; magnetism and superconductivity.

541 HAMILTONIAN DYNAMICS (3)
Prereq: 45 credits in physics including Physics 476. Variational principles; Hamilton's equations; canonical transformation theory.

542 SPECIAL TOPICS IN MECHANICS (3)
Prereq: Physics 541.

551, 552 NUCLEAR THEORY (3 ea)
Prereq: 45 credits in physics including Physics 451 or equivalent. Physics 551 prerequisite to 552. Theory and experimental basis for the structure of the atomic nucleus and nuclear properties and reactions.

571 ELECTRODYNAMICS (3)
Prereq: 45 credits in physics including Physics 471. Electromagnetic waves, wave guides and resonant cavities, radiation.

572 SPECIAL TOPICS IN ELECTROMAGNETIC THEORY (3)
Prereq: Physics 571.

581 QUANTUM THEORY (3)
Prereq: 45 credits in physics including Physics 422 or equivalent. Interaction of radiation with matter. Approximation methods in quantum theory; scattering theory.

582 SPECIAL TOPICS IN QUANTUM THEORY (3)
Prereq: Physics 581

588 GRADUATE SEMINAR (1-3)

COURSES IN ASTRONOMY

103 ASTRONOMY FOR THE LIBERAL ARTS (4) F.W.S
A survey of astronomy including the solar system, galactic structure and cosmology. Not recommended for science, math or computer science majors.

105 COSMOLOGY (3) S
Prereq: Astron 103 or equivalent. Investigates questions such as: How did the universe begin? How is the universe evolving and how will it end? Curved space, black holes, the Big Bang, the expanding universe. Offered alternate years; alternates with Astronomy 333.

315 GENERAL ASTRONOMY: SOLAR SYSTEM (4) F
Prereq: Physics 131 or equivalent. Motions of the planets, satellites, and other bodies of the solar system. Eclipses, time systems, properties and composition of the planets and their satellites, with particular emphasis on the discoveries of the space program. Intended for science, math and computer science majors.

316 GENERAL ASTRONOMY: STARS (4) W
Prereq: Physics 131 or equivalent. Origin, structure and evolution of stars. Binary stars; magnitudes and spectra of variable stars and supernovae; neutron stars and black holes; intended for science, math and computer science majors.

317 GENERAL ASTRONOMY: GALAXIES AND BEYOND (4) S
Prereq: Astronomy 316 or Astronomy 103. The Milky Way, interstellar medium and nebulae; structure of galaxies and galaxy types; exploding galaxies; radio galaxies; Seyfert galaxies; clusters of galaxies and "superclusters". Origin and evolution of the universe (cosmology). Intended for science, math, and computer science majors.

353 SEARCH FOR LIFE IN THE UNIVERSE (3) S
Prereq: three credits of college physics or astronomy. Life in and beyond the solar system: interstellar intelligence and communication; radio search for extraterrestrial life; life detection experiments; problems of interstellar travel. Offered alternate years; alternates with Astronomy 525.

404 TELESCOPE DESIGN AND CONSTRUCTION (1-3) F.W,S
Prereq: Astron 103 and upper-division standing. Optical design and lens grinding applied to constructing a telescope.

416 ASTROPHYSICS (3) S
Prereq: Physics 383. Application of physics to stellar systems: radiation theory; atomic spectra and chemical abundances in stellar atmospheres; nuclear synthesis in and evolution of stars. Offered alternate years; alternates with Physics 479.
Politics and government affect the lives of all of us. What we do, and what we think, is affected by the decisions and actions of state, local and national governmental institutions and political leaders. The objectives and policies of foreign countries can also affect our daily lives, particularly during periods of international tension and war.

Political science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern political science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

The political science faculty is committed to the belief that understanding politics and government is essential to a well-educated person, vital to democratic citizenship, indispensable to effective public service, and critical to the maintenance and ethical progress of a free society.

The political science curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in political science go on to law school, graduate school, and into the professions; many others who are not majors take political science courses as an essential part of their liberal arts education.
THE CURRICULA

The Political Science Department offers several curricula leading to the Bachelor of Arts, the Bachelor of Arts with secondary education endorsement and the Master of Arts. These curricula are listed below, and their details are set forth following the list of the department faculty.

Bachelor of Arts

**Majors and Concentrations:** political science, public policy and administration, political science for secondary education.

**Minors:** political science, Canadian-American studies, East Asian studies.

Master of Arts in Political Science

Master of Arts in Political Science (public policy and administration)

POLITICAL SCIENCE FACULTY

RALPH E. MINER (1970) Chairman, Associate Professor, BA, San Jose State College; MA, PhD, University of Oregon.

DONALD K. ALPER (1971) Associate Professor, BA, MA, California State University, Long Beach; PhD, University of British Columbia.

DAVID E. CLARKE (1965) Associate Professor, BA, MA, Trinity (Cambridge); PhD, Stanford University.

JAMES W. DAVIS (1974) Professor, BA/Ed, Valley City State; MA, PhD, University of Minnesota.

MAURICE H. FOY (1970) Associate Professor, BA, Gonzaga University; MA, Georgetown University; PhD, University of Oregon.

CHARLES J. FOX (1977) Assistant Professor, BA, University of California, Santa Barbara; PhD, Claremont Graduate School.

SIEGFRIED FOX (1977) Assistant Professor, BA, MA, University of Technology, Munich; PhD, Claremont Graduate School.

JOHN R. HEBAL (1969) Associate Professor, PhD, University of Wisconsin; MA, University of Alabama; PhD, University of Minnesota.

EUGENE J. HOGAN (1980) Assistant Professor, BA, Gonzaga University; MA, Georgetown University; PhD, University of Oregon.

ELLIS S. KRAUSS (1970) Professor, AB, Brooklyn College of the City University of New York; MA, PhD, Stanford University.

GERARD F. RUTAN (1968) Professor, BA, MA, University of Montana; PhD, University of North Carolina at Chapel Hill.

HENRY R. SCHRIMMER (1969) Professor of Political Science and History; BA, MA, PhD, University of Wisconsin.

JON J. WUEST (1960) Professor, BS, MS, University of Southern California; PhD, University of California, Los Angeles.

DAVID W. ZIEGLER (1967) Associate Professor, BA, Oberlin College; MA, PhD, Harvard University.

The department's faculty and staff invite questions about the program and its career potential. Persons seeking more information should visit the department in Armitage Hall, or telephone (205) 676-3469. Written inquiries should be directed to the Department of Political Science, Western Washington University, Bellingham, Washington 98225.

BACHELOR OF ARTS

Major 65 credits

- Pol Sci 250
- Additional credits selected from not fewer than four of the areas listed below; at least 20 credits in one area; at least 10 credits in another area. No course may be counted in more than one area. Pol Sci 101 credits apply toward the major but do not count in any area.

- Comparative Politics: Pol Sci 291, 301, 302, 303, 304, 307, 309, 343, 365 or 366; 402, 406, 416, 418a, 418b, 418c, 418g, 430, 431, 471

- Public Policy and Administration: Pol Sci 202, 320, 345, 353, 365 or 366, 413, 415, 418f, 420, 421, 422, 423, 424, 425, 426, 427, 429, 444a, b, 454, 481

- Public Law: Pol Sci 202, 311, 313, 365 or 366, 410, 411, 413, 415, 416

- Political Theory: Pol Sci 360, 365, 366, 418e, 424, 450, 461, 462, 463, 464, 465, 467, 480, 481

- International Relations: Pol Sci 270, 305, 365 or 366, 376, 411, 416a, 418a, 418b, 470, 471, 476

Minor 25 credits

- Pol Sci 250
- Remaining credits from at least 2 areas

Minor — Canadian/American Studies 30 credits

Program Advisers: Dr. Donald Alper, Dr. Gerard Rutan

See Interdisciplinary Programs section for specification and description of Canadian/American Studies minor. A Canadian/American Studies major may be taken as a joint major with political science.

Minor — East Asian Studies 30 credits

Program Adviser: Dr. Henry Schwarz

This may be added to the major for a major concentration.

See Interdisciplinary Programs section for specifications.
Major-Minor Concentration — Public Policy and Administration

99 credits, minimum

Program Advisor: Dr. Charles J. Fox

Students majoring in political science having a particular interest in the making and implementation of government policy in the United States or Canada may choose a concentration in public policy and administration as an alternative to the 65-credit major. This option entails a major program with preparation relevant to problems and techniques of policy and administration in public agencies.

The total course requirement of 99-119 credits, depending upon course options selected, satisfies both a major and a minor in political science.

- Eng 101 (subject to waiver, see General University Requirements), and 301 or 302 or 401
- Speech 204 or 488
- Anth 201 or Soc 202
- Psych 201, and 320 or 315
- Econ 203 or 204
- Math 155 (Math 103 or qualifying exam a prerequisite)
- Acctg 241, 242, 367
- Pol Sci 250, 313 or 410, 320, 353, 365, 413 or 423, 424, 427, 465, and 466
- Plus one course from each of the following groups:
  1. BA 322 (BA 301 a prerequisite), Pol Sci 4181 or 422
  2. Pol Sci 345, 346, 420, 421, 467, Hux 430 (Pol Sci 250 or Hux 202 or permission of instructor as a prerequisite), or one course from the Ethnic Studies program
  3. Pol Sci 425, 426, Econ 410 (Econ 204 prerequisite), 442 (Econ 302 or 306 prerequisite)
  4. Pol Sci 440, 441, 443, 444a

Students choosing the public policy and administration concentration are encouraged to complete Math 156 as an elective within their total programs.

Modifications in the above program can be made through the public policy and administration adviser for those individual students having previous credit or work experience in areas covered by the listed courses.

Legislative internships are awarded on a competitive basis. See Pol Sci 443 catalog description.

Where possible, students choosing the public policy and administration concentration will serve in administrative internships in federal, state, or local government agencies. Credit toward the concentration for such internships is limited to a maximum of 10 credits with 5 of these in lieu of 5 credits from certain political science 300-400 courses. These arrangements must be made one quarter in advance on an individual basis through the public policy and administration adviser in the Political Science Department. See Pol Sci 444a,b catalog description.

Combined Major — Political Science/Economics

100 credits

Students interested in the relationships between politics and the economy and those considering government, law, or related careers may choose a combined major with Economics. This concentration is also available to Economics students and is cross-listed in that part of this catalog devoted to the Economics curriculum.

- Pol Sci 250, 270 or 291, 360, 365, 427
- A minimum of one course from three of these areas: Pol Sci 320; Pol Sci 346 or 348; Pol Sci 420 or 467; Pol Sci 425 or 426; Pol Sci 462 or 465; Pol Sci 470; Pol Sci 490
- 8-13 additional credits in upper-division political science electives, to complete the total required 100 credits of this program
- Econ 203, 204, 301, 302, 303, 311
- Econ 271 or Math 341
- Econ 410 or 415
- Econ 442 or 485
- 10 additional credits in upper-division economics courses, under departmental advisement
- Econ/Pol Sci 491

BACHELOR OF ARTS IN EDUCATION

Major 60 credits

Program Adviser: Dr. Siegrun F. Fox

In order to be certified as a teacher in secondary education, students must complete an academic degree program. For this career goal, the Political Science Department offers the following degree program.

- Pol Sci 101, 250, 270, 291, 311 or 313, 320
- 30 credits under advisement from the following courses: Pol Sci 343, 345, 346, 353, 360, 365, 376, 420, 421, 427, 440, 448, 449, 450, 462, 464, 465, 467, 470, 481
- Students must also complete the specific program requirements for social studies education, including the social studies minor, as outlined in the Interdisciplinary Program section of this catalog.

Completion of this major/minor program leads to a teaching endorsement in social sciences and political science at the secondary level.
Minor — Political Science  35 credits

- Pol Sci 101, 250, 270, 481, and/or any other 400-level course (under advisement)
- Electives under departmental advisement to total 12 credits
- Soc St Ed 426

(Completion of this minor with a minimum 2.5 grade point leads to a supporting teaching endorsement in political science.)

Minor — East Asian Studies  30 credits

See Interdisciplinary Programs section for specifications.

Minor — Canadian/American Studies  30 credits

See Interdisciplinary Programs section for specifications.

DEPARTMENTAL HONORS

A political science major who wishes to graduate with honors in Political Science must complete: Political Science 496 with the advice of the departmental honors adviser and two years of foreign language (or a satisfactory reading knowledge of a foreign language). He/she must also submit a senior thesis and have a grade average of 3.5 in upper-division political science courses.

INTERNSHIPS

Students are encouraged to obtain internships in state, local, or national government agencies, political parties, and interest groups. Credit may be obtained by prior arrangement. The academic relevance and adequacy must be determined by the department through a written evaluative report.

GRADUATE STUDY

For concentrations in political science and public policy and administration leading to the Master of Arts degree, see Graduate section of catalog.

COURSES IN POLITICAL SCIENCE

Courses numbered X37; X97; 300, 400, 417, 445 are described on page 28 of this catalog.

101 GOVERNMENT AND POLITICS IN THE MODERN WORLD (5)
Introduction to concepts of politics, types of governments, and political problems in the world today.

202 PARLIAMENTARY PROCEDURE (2)
Theory and practice of parliamentary law.

250 THE AMERICAN POLITICAL SYSTEM (3)
Consideration of the system and process of American politics and government with primary focus on the national level.

270 INTRODUCTION TO INTERNATIONAL POLITICS (5)
Interaction of states and other factors in the international system in terms of basic relationships of war and peace.

291 INTRODUCTION TO COMPARATIVE POLITICS (5)
Basic structures, functions, and socio-cultural environments of foreign political systems; methods of comparative study.

301 BRITISH MODEL PARLIAMENTARY SYSTEMS (5)
Prereq: Pol Sci 101 or 250 or 291. Introduction to parliamentary political systems; analysis of selected structures, examination and comparison of selected parliamentary systems.

302 WESTERN EUROPE (5)
Prereq: Pol Sci 101 or 291. Governments and politics of selected western European states.

303 SOVIET UNION AND EASTERN EUROPE (5)
Prereq: Pol Sci 101 or 291. The political system of the Soviet Union and other communist states in Eastern Europe.

304 LATIN AMERICA (5)

305 INTERNATIONAL POLITICS IN THE MIDDLE EAST (3)
Prereq: Pol Sci 101 or 270. The interplay of Zionism and Arab nationalism, the individual and collective responses of the Arab states to the creation of Israel.

307 EAST ASIA (5)
Prereq: Pol Sci 101 or 291. Survey course covering China, Japan, and Korea since the mid-nineteenth century.

309 SOUTHEAST ASIA (5)
Prereq: Pol Sci 101 or 291. Political development and politics in Thailand, Indonesia, Vietnam and Burma

311 JURISPRUDENCE (5)
Prereq: Pol Sci 250. Origin and development of basic concepts and practices of law with emphasis upon legal reasoning and values in contemporary societies.

313 AMERICAN CONSTITUTIONAL LAW (5)
Prereq: Pol Sci 250 and upper-division standing. Supreme Court decisions interpreting major parts of the Constitution: separation of powers, federal division of powers and individual civil rights.

320 PUBLIC ADMINISTRATION (5)
Prereq: Pol Sci 250 or one course from Psych 201, Econ 204. Organizational structure and behavior, administrative processes and procedures, and individual behavior in complex public organizations.

340 POLITICAL PARTIES (5)
Prereq: Pol Sci 250. The origin, development, structure, organization, and activities of political parties. Various party theories in the light of current political conditions and changing patterns of political participation and political leadership.
340 POLITICAL COMMUNICATION (5)
Prereq: Pol Sci 101 or 250. The relationship between mass media and politics, issues of law, regulation and bias, public officials and the press; the impact and role of media in election campaigns.

345 WOMEN AND POLITICS (3)
Prereq: Pol Sci 101 or 250. The history and ideas of the women's movement; investigation of the changing role of women in American politics including legal status, economic position and political behavior. Not offered every year.

346 POVERTY, MINORITIES, AND GOVERNMENT (5)
Prereq: Pol Sci 250. Federal, state and local programs affecting minorities and the poor especially in large city ghettos; some emphasis on Washington State.

353 STATE AND LOCAL POLITICAL SYSTEMS (5)
Prereq: Pol Sci 250. Sub-national levels of government and intergovernmental relations; developing and administering policies for problems of race, population, pollution, crime, poverty, housing, resource depletion.

363 INTRODUCTION TO POLITICAL THEORY (5)
Prereq: Pol Sci 101 or 250. Origin and evolution of major concepts of political theory.

364 POLITICS AND FILM (5)
Prereq: Pol Sci 101 or 250. Basic political concepts of authority, ideology, revolution and democracy as portrayed in film. How different images and techniques can be used to propagate types of political values and to clarify the moral choices involved in political action. Approximately seven feature films shown. Themes emphasized and films shown may vary each year.

365 POLITICAL INQUIRY (5)
Prereq: Pol Sci 101 or 250. Introduction to methods of political analysis, with emphasis upon the contribution of science and philosophy to political knowledge and political action. Techniques for identifying and defining problems for analysis.

366 RESEARCH IN POLITICS (5)
Prereq: Pol Sci 101 or 250. Fundamentals of research design, including basic methods for the collection and analysis of political data.

375 AMERICAN FOREIGN POLICY (5)
Prereq: Pol Sci 250 or 270. Background organization of American foreign policy; the conduct of diplomatic relations with other states: current issues and problems in foreign affairs.

402 REGIONAL EUROPEAN SOCIETY AND POLITICS (3)
Prereq: Pol Sci 101 or 291. Government and society in selected countries from the Scandinavian, Alpine, Benelux and Iberian European regions.

405 CANADA (5)
Prereq: Pol Sci 250 or 291. Canadian social and political systems: governmental structures and functions: social, political, economic problems and foreign relations.

410 LAW AND SOCIETY (5)

411 INTERNATIONAL LAW (5)

413 LAW AND PUBLIC ADMINISTRATION (5)
Prereq: Pol Sci 313 and 320. Law, organizational behavior, and the public administrative process; law in relation to agency mission, agency interests and strategies of program implementation. Not offered every year.

415 CRIMINAL JUSTICE SYSTEMS (3)
Prereq: permission of instructor. Criminal law, law enforcement, judicial administration; the administration of penal and correctional policy in the United States.

416 COMPARATIVE LEGAL CULTURES (3)
Prereq: Pol Sci 311 or 313. Contemporary legal cultures/systems, including the United States, Great Britain, western European states, the Soviet Union, and one or more Asian countries.

418 SPECIAL PROBLEMS (2-3)
(Not offered every year)

418a Seminar in International Politics (3)
Prereq: Pol Sci 270.

418b Contemporary Latin American Issues (3)
Prereq: Pol Sci 304.

418c Selected Problems in East Asian Politics (3)

418d Electoral Politics Workshop (2)

418e Political and Social Simulations (3)

418f Modern Bureaucratic Politics (3)
Prereq: Pol Sci 320.

418g Contemporary Canadian Politics (3)

418h Presidential Politics Workshop (2)
Prereq: Pol Sci 250 or equivalent.

420 ENVIRONMENTAL POLITICS AND ADMINISTRATION (5)
Prereq: Pol Sci 320. Problems in air and water pollution, forest policies, food supply, minerals, recreation and wilderness areas, and power. Not offered every year.

421 METROPOLITAN AREA GOVERNMENT (5)
Prereq: Pol Sci 353. Decision-making structures of central city and suburban political systems; regional interaction, federal-state-local relations; problems related to minorities, poverty, and growth.

422 STAFFING THE PUBLIC BUREAUCRACY (5)
Prereq: Pol Sci 350. Public personnel systems; general principles and specialized aspects such as recruitment, training and employee morale. Not offered every year.

423 THE AMERICAN PRESIDENCY (3)
Prereq: Pol Sci 250. The growth of presidential power; the institutionalized presidency, and styles of presidential leadership. The president as party leader, policy initiator, chief executive, commander-in-chief, and head of foreign relations.

424 THEORY OF PUBLIC ORGANIZATIONS (5)
Prereq: Pol Sci 320. Organization theory as related to public organizations and the political system.

425 THE BUDGETARY PROCESS (5)
Prereq: Pol Sci 320. Public budgeting as both a political and administrative process.

426 POLITICS AND PUBLIC FINANCE (5)
Prereq: Pol Sci 250. The American political system and the development and maintenance of the structure of taxation and the distribution of governmental benefits.
Racking them up.
THEORIES OF DEMOCRACY (3)
Prereq: Pol Sci 250. Survey and analysis of theories of democracy, from ancient to modern. Normative and empirical theories with emphasis on contemporary theory and research findings. Not offered every year.

SYSTEMS THINKING, GOVERNMENT AND ENVIRONMENT (4)
Prereq: Pol Sci 101 or 360. Systems thinking as an emerging world-view. Origins in biology, neurology, operational research, cybernetics, ecology, etc. Applications to environmental control and political process. The promise and dangers of an "information society."*

POLITICS, TRANSFORMATION AND ENVIRONMENT (4)
Prereq: Pol Sci 101 or 250. Incompatibility between the growth-oriented goals of contemporary political cultures and environmentally-derived "steady-state" imperatives. The politics of transformation and value-change (Also offered as Huskey 457.)

NATIONAL DEFENSE POLICY (5)
Prereq: Pol Sci 270. Causes of military competition: weapons and strategy, defense spending, arms control, disarmament, and other alternatives to arms races.

STATE POLICY, ESPIONAGE, AND INTELLIGENCE UTILIZATION (3)
Prereq: permission of instructor.

CHINA, JAPAN, AND THE U.S.: WAR AND PEACE IN EAST ASIA (5)
Prereq: Pol Sci 270 or 397. Cultural images, foreign policy decision making, political, military and economic issues in American-East Asian relations.

POLITICS, GOVERNMENT AND RELIGION (3)
Prereq: permission of instructor. How political activity and government structures relate to religious perceptions and organizations. Not offered every year.

POLITICAL SOCIALIZATION (5)
The role of the family, school and adult agencies in the learning of political beliefs and behavior.

SENIOR SEMINAR IN AMERICAN GOVERNMENT AND POLITICS (5)
Prereq: senior standing. Political science majors only, except with permission. Advanced analysis and evaluation of American politics and government. Emphasizes contemporary theory and approaches in the literature.

ISSUES IN POLITICAL ECONOMY (4)
Prereq: senior standing in the Pol Sci/Econ combined major or Pol Sci major and Econ minor. Discussion and analysis of selected issues of significant political and economic content. Listed jointly as Political Science/Econ 491

HONORS TUTORIAL (2-5 ea)

GRADUATE COURSES

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

POLITICAL SCIENCE AS A DISCIPLINE (5)
Study of political science as an academic field, description and critique of subfields, trends and challenges.

RESEARCH TECHNIQUES IN POLITICAL SCIENCE (5)

PUBLIC POLICY AND ADMINISTRATION (5)
Consideration of current and emerging problems facing public organizations.

SEMINAR IN COMPARATIVE GOVERNMENT AND POLITICS (5)
Principles of government and politics in existing and developing states.

ADVANCED TOPICS IN COMPARATIVE GOVERNMENT AND POLITICS (5 ea)
Prereq: permission of instructor and graduate advisor. Advanced comparative consideration of the political systems of selected nation-states.

SEMINAR IN PUBLIC LAW (5)
The tradition and emerging trends.

SEMINAR IN PUBLIC ORGANIZATIONAL THEORY (3)
Organizational theory and practice in public settings.

SEMINAR IN PUBLIC POLICY ANALYSIS (3)
Advanced problems in public policy and analysis.

SEMINAR IN POLITICS AND PUBLIC FINANCE (3)
Advanced problems in politics and public finance.

SEMINAR IN MODERN POLITICAL ECONOMY (3)
Prereq permission of instructor. Consideration of contemporary theories of political economy, the political aspects of resource allocation and the politics of the distribution of governmental benefits and burdens. Consideration is also given to various exchange theories of collective decision making in democratic systems.

SPECIAL PROBLEMS IN PUBLIC POLICY AND ADMINISTRATION (1-5)
Prereq: permission of instructor and graduate adviser. The consideration of special problems and the conduct of independent study under the guidance and supervision of a member of the faculty.

SEMINAR IN THE POLITICAL PROCESS (5)
The influence of organizations and individuals in the formation of public policy. Includes study of the role of beliefs in the political process.

PUBLIC SERVICE INTERNSHIP (5, 5)
Prereq: Pol Sci 501, 503 and permission of department. Work as research and management assistant with a local, state or federal government body (executive, legislative or judiciary), political party, interest group or private, non-profit organization. Work load: 15 hours/week for 16 credits and 30 hours/week for 40 credits. (Repeatable to a maximum of 10 credits)

STATE AND LOCAL GOVERNMENT (3)
Problems of sub-national levels, both American and other, internally and in relation to national levels.

SPECIAL PROBLEMS IN POLITICAL SCIENCE (1-5)
Prereq: permission of instructor and graduate advisor. The consideration of special problems and the conduct of independent study under the guidance and supervision of a faculty member.

THESIS/THESIS RESEARCH (6-9)
Psychology

College of Arts and Sciences

Most of the major problems facing the people of the world today — hunger, overpopulation, the continuing threat of war, prejudice, pollution, drug addiction — are people problems, people have created them and it will be people who must and will find solutions to them. Psychology, as the scientific study of behavior, will help provide the answers to many of these pressing problems.

Psychology's attempt to understand the human condition takes many approaches. Some psychologists, study brain chemistry and its relation to behavior, while others study the behavior of individuals in groups (for example, in a religious cult). Still others are engaged in providing counseling or psychotherapy to people who are mentally ill or who are having difficulty coping with the demands of life. With a faculty of over 30 men and women, all of whom hold a doctoral degree, the department is able to offer a program of study which provides a solid foundation in the general concepts and methods of psychology, as well as courses and programs for students in many of the more specialized areas of this large and exciting field.

The Department of Psychology has limited the number of credits required for a major in psychology so that students may develop minors or a second major in another department. The core program in general psychology is designed to insure that all majors will develop a sound basic background in psychology which will provide effective preparation for advanced study as well as contribute significantly to a liberal education. Since the number of required courses is relatively small, students can complete the major from a variety of course offerings under advise-
Psychology

ment. Concentrations of elective courses have been designed to guide students who wish to complete their requirements beyond the core program by following a prescribed program of studies in the following areas: awareness and reasoning, biopsychology, human development, humanistic psychology, industrial/organizational psychology, mental health, and social psychology. The requirements for the major in psychology can be completed by following one of the concentrations or by developing an individualized program of study with faculty advisement.

A very important kind of learning takes place when students become personally involved in psychological research. Students are encouraged to become active participants in their own research projects, or to cooperate with a faculty member in his or her ongoing research. It is also recommended that students seek participation in one of the off-campus field experiences which are available.

In addition to its undergraduate offerings, the department offers the M.S. degree in general psychology. There are also specialized concentrations in counseling psychology and in measurement, evaluation and statistical analysis. Complete descriptions of the master’s program are included in the Graduate section of this catalog.

PSYCHOLOGY FACULTY

RICHARD W. THOMPSON (1967) Chairman.
Professor, BA, MA, PhD, Michigan State University.

DON F. BLOOD (1951) Professor of Psychology and Director of Testing, BA in Ed. Central Washington State College; MA, PhD, State University of Iowa.

WILLIAM C. BUDD (1953) Professor, BA, Hamline University; BS, MA, PhD, University of Minnesota.

STEPHEN L. CARMEAN (1964) Professor, BA, MA, PhD, University of Illinois.

LOWELL T. CROW (1968) Professor, BS, MA, University of South Carolina; PhD, University of Illinois.

GEORGE T. CERNOCH (1963) Professor, BA, Youngstown State University; MA, Akron State University, PhD, Kansas State University.

CAROL J. DIERS (1983) Professor, BA, BA in Ed., Western Washington State College; MA, University of British Columbia; PhD, University of Washington.

PETER J. EICHR (1961) Professor, BA, University of Washington; MEd, Western Washington State College; PhD, University of Oregon.

FRANCIS W. GROTE, JR. (1970) Associate Professor, AB, Danforth College; PhD, University of North Carolina; BS, MA, PhD, University of Iowa.

R. L. KINZ (1965) Professor, AB, MA, PhD, University of Iowa.

RICHARD C. KLEINREICH (1970) Professor, BA, MS, PhD, Washington State University.

LOUIS S. LIPPMAN (1966) Professor, BA, Stanford University; MA, PhD, Michigan State University.

MARGA Z. LIPPMAN (1966) Associate Professor, BA, MA, Michigan State University; PhD, University of British Columbia.

WALTER J. LINZ (1969) Professor, BA, MA, University of Montana; PhD, University of Minnesota.

WILLIAM H. MACKAY (1962) Associate Professor, BA, Brown University; MS, University of California, Berkeley.

ROBERT D. MARX (1970) Associate Professor, AB, University of Michigan; PhD, University of Illinois.

EVELYN P. MASON (1965) Professor, BA, Mills College; MA, PhD, Washington University.

ROBERT D. MEADE (1965) Professor, BA, Indiana University; MA, PhD, University of Pennsylvania.

LAURENCE P. MILLER (1956) Associate Professor, BA, University of California; Los Angeles; MA, San Fernando Valley State College; PhD, Ohio State University.

FRANK A. NUGENT (1960) Professor, BS, New Jersey State Teachers College; MA, Columbia University; PhD, University of California, Berkeley.

DAVID M. PANEK (1963) Associate Professor, BA, Beloit College; MS, University of Wisconsin; PhD, Washington State University.

NORVAL L. PIELSTICK (1973) Associate Professor, BA, Univer.

sity of Illinois.

NORVAL L. PIELSTICK (1973) Associate Professor, BA, University of Illinois.

MERRILL R. PRIN (1958) Associate Professor, BA, University of Washington; MS, San Diego State College; PhD, Washington State University.

EARL E. REES (1970) Associate Professor, BA, Southern Illinois University; MA, PhD, Brown University.

RICHARD W. SHERIFF (1970) Associate Professor, BA, California State College; MA, PhD, University of New Mexico.

CHRISTOPHER J. TAYLOR (1960) Professor, AB, Wittenberg University; MS, PhD, Ohio University.

SAUNDRA J. TAYLOR (1962) Associate Professor, BA, DePauw University; MA, Bowling Green State University; PhD, Ohio University.

ROBERT M. THORNOIKE (1970) Professor, BA, Wesleyan University; PhD, University of Minnesota.

JOSEPH E. TRIMBLE (1975) Associate Professor, BA, Waynesburg College; MA, University of New Hampshire; PhD, University of Oklahoma.

VERNON O. TYLER, JR. (1966) Associate Professor, BS, University of Washington; MA, University of Iowa; PhD, University of Nebraska.

BACHELOR OF ARTS

Major: 80 credits

The psychology major consists of a 45-credit core and 15 elective credits in psychology.

Core required courses:
- Psych 201, 306, 307
- Two courses from Psych 311-316
- Two courses from Psych 321-326
- One course from Psych 401-403
- One course from Psych 404-406
- One course from Psych 411-412
- 15 elective credits in psychology; consult your advisor in psychology for assistance in selecting your elective courses

Elective Concentrations

The core program of required courses is designed to insure a solid background in general psychology. The requirements for the B.A. in psychology can be met by the 45 credit core program and any 15 credits in psychology. Several concentrations of elective courses have been developed to guide students in the selection of their elective credits.

General: Advisors — R. Thompson and P. Eich. Students who wish to maximize breadth of study in psychology are advised to select their electives according to the following program:
At least one course from each of the following pairs: Psych 311, 312; 313, 314; 315, 316, 321, 322; 323, 324; 325, 326

Two courses from both of the following groups: Psych 401-403; 404-406

Awareness and Reasoning: Advisers — R. Shaffer, R. Rees, L. Miller, S. Carman.
- Core program to include Psych 324 and 405
- Psych 342 and 344

Biopsychology: Advisers — R. Thompson, L. Crow and M. Prim
- Core program to include: Psych 312, 316, 325, 326, 403, 406
- Electives from Psych 321-324, 335; Biol 310, 312, 370, 424, 460, 465, 490

Human Development: Adviser - F Grote
- Core program in psychology plus 15 credits from the following courses: Psych 353, 355, 357, 456 (repeateable for credit). Psych 357 does not count toward the 15 credits in the Human Development concentration for those students who are taking the psychology major along with an elementary education minor.

Humanistic-Phenomenological Psychology: Advisers - R. Meade, E. Mason
- Core program to include: Psych 313, 314, 322, 324, 402 or 403, 404
- Psych 347, 418
- Electives from Psych 344, 346, 357 and additional credits under advisement.

Industrial/Organizational Psychology: Advisers - S. L. Kintz and C. Taylor
- Core program to include Psych 311 or 313, 315, 321, 322 or 324
- Psych 320 and 420
- Electives under advisement

Mental Health Services: Advisers - D. Panek and V. Tyler
- Core program to include: Psych 313, 314, and one course from 311, 312, 315, 316
- Psych 402, 431, 432
- Two quarters of Psych 449

Social Psychology: Adviser - G. Cvetkovich
- Core program to include Psych 315, 403
- Two of the following: Psych 335, 420, 440, 441, 449

See Sociology section for related course offerings.

Minor 24 credits

- Psych 201
- One course from Psych 311-316
- One course from Psych 321-326
- Electives under advisement (Psych 306, 307 are recommended)

BACHELOR OF ARTS IN EDUCATION

Major Elementary 60 credits

Prospective elementary teachers are advised to complete the Human Development concentration as outlined under the Bachelor of Arts curriculum.

Major Secondary 60 credits

Prospective secondary teachers are advised to complete the core program in psychology as outlined under the Bachelor of Arts curriculum, plus electives under advisement from Dr. Eich or Dr. Tyler.

Students must also complete the specific program requirements for social studies education, including the social studies minor, as outlined in the Interdisciplinary Program section of this catalog. Completion of this major/minor program leads to a teaching endorsement in social sciences and psychology at the secondary level.

Minor 20 credits

- Psych 201
- 15 credits in psychology other than the required professional educational psychology courses; recommended courses include Psych 306 and 307

DEPARTMENTAL HONORS

G. Diets, Adviser

In addition to the general requirements for all honors students, a psychology major who wishes to graduate "with honors" will develop a program of studies with the department honors adviser, complete Psychology 425 and prepare a thesis which will be defended before a faculty committee.

GRADUATE STUDY

For concentrations in psychology leading to the Master of Education or the Master of Science degrees, see Graduate section of the catalog.
COURSES IN PSYCHOLOGY

Courses numbered X37; X97: 300, 400, 417; 445 are described on page 26 of this catalog.

Courses in educational psychology include Psych 316, 351, 352, 353, 371, 372, 451. With the exception of Psych 316 and 353 these courses are not applicable to the arts and sciences major or minor. Also see Liberal Studies 195.

101 INTRODUCTION TO COLLEGE LEARNING (1)
Basic skills in effective study habits. Major topics are time management, motivation, reading improvement, classroom notetaking, studying a textbook, writing papers, using the library, studying for exams, taking exams. Emphasis on practical application. S/U grading.

201 INTRODUCTION TO PSYCHOLOGY (5)
Examination of basic psychological processes utilizing results of research investigations; participation in at least two experiments or equivalent activities.

217 PSYCHOLOGY OF HUMAN SEXUALITY (3)
Human sexual behavior, attitudes, customs, practices and relationships, from historical to present times; sex research; sexual communication and miscommunication; and treatment for sex problems will be emphasized. Reproduction and physical aspects will be considered insofar as they are basic to the psychology of sex.

213 PSYCHOLOGY OF SEX ROLES (4)
Basic concepts; foundations for sex roles; similarities and differences between the sexes; historical customs, personality theories, cultural, sub-cultural and cross-cultural perspectives.

220 HUMAN ADJUSTMENT (3)
Prereq: Psych 201. Psychological perspectives on the experiences and problems human individuals encounter in daily living, self-understanding in terms of love, work, interpersonal relations, meaning and values, stages, and content of the course of human life experience from birth to death.

306 EXPERIMENTAL PSYCHOLOGY AND STATISTICS I (5)
Prereq: Psych 201. Introduction to experimental methodology in psychology and statistical treatment of results. Lectures and laboratory.

307 EXPERIMENTAL PSYCHOLOGY AND STATISTICS II (5)
Prereq: Psych 306. Design and conduct of psychological research investigations and statistical treatment of results; individual research project: lectures and laboratory.

311 PSYCHOLOGICAL TESTS AND MEASUREMENT (5)
Prereq: Psych 201. Philosophy, history and development of psychological measurement. Reliability, validity, standardization and norms; tests of intelligence, special abilities, personality, interests and values. Students will review non-restricted instruments of various types in small groups.

312 PSYCHOLOGY OF INDIVIDUAL DIFFERENCES (5)

313 PERSONALITY (5)
Prereq: Psych 201. An examination of the major approaches to personality development, research and application.

314 ABNORMAL PSYCHOLOGY (5)
Prereq: Psych 201. Human behavior patterns culturally labeled as abnormalities, or as mental illness; their etiology, incidence, treatment, and social attitudes toward such patterns. Historical review of concepts used to explain such behavior and of the research relating to the treatment of psychoses and neuroses.

315 SOCIAL PSYCHOLOGY (5)
Prereq: Psych 201. Socialization (moral development, racial, ethnic and class differences), attitudes and attitude change, conformity, interpersonal attraction. Theories and methods of social psychology stressing application of social psychological research and knowledge to contemporary social problems.

316 DEVELOPMENTAL PSYCHOLOGY (6)
Prereq Psych 201 or Lib St 105. Basic principles of development. Topics include behavior genetics, early experience, language, cognition, personality, and social development.

318 PSYCHOLOGY AND CULTURE (3)
Prereq: Psych 201. Cultural and ecological factors and their effect on perception, thinking, language, intelligence, sexuality, and other psychological variables. An examination of the "universality" of traditional Euro-American psychological theories.

320 INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (4)
Prereq: Psych 201 or Lib St 105. Application of psychological principles to industrial problems of personnel selection and appraisal, human relations, marketing, training, and engineering psychology.

321 LEARNING (5)
Prereq: Psych 201. A survey of the major principles of learning, with specific emphasis upon the sources of evidence for, and theoretical implications of, these principles. May be substituted for Psych 351 for teacher certification.

322 MOTIVATION (5)
Prereq: Psych 201. Theoretical and empirical study of human and subhuman motivational processes. Topics covered range from basic physiological drives to achievement motivation and conformity. Emphasis on both biological and social sources of motivation.

323 SENSORY PROCESSES (5)
Prereq: Psych 201. The mechanisms by which man and lower animals process information through various sensory modalities. The adaptive significance of sensory processes.

324 PERCEPTION (5)
Prereq: Psych 201. Classical and contemporary descriptions of human perceptual behavior, specific perceptual phenomena such as perceptual constancies, perception of intersensory stimuli, creativity, and levels of awareness. Examples are drawn from music, art, verbal and nonverbal communication.

325 COMPARATIVE PSYCHOLOGY (5)
Prereq: Psych 201. Phylogenetic comparison of animal behavior, learning, motivation and sensory processes in selected species of animals.

326 PHYSIOLOGICAL PSYCHOLOGY (5)
Prereq: Psych 201. The biological foundations of behavior.
330 CONSUMER PSYCHOLOGY (3)
Prereq: Psych 201. Psychological factors useful to suppliers, and users of goods and services: perception, attitudes, emotions, motivation, decision-making and communication relevant to product design, packaging, advertising, merchandising and customer service.

335 SOCIAL BEHAVIOR IN ANIMALS (4)
Prereq: Psych 201. Comparative social behavior, aggression, altruism, variability and adaptive strategies. Normally offered alternate years.

342 THINKING AND IMAGINATION (4)
Prereq: Psych 201. Discussions and/or demonstrations of logical and intuitive thinking, creativity, symbolism and fantasy. Consideration of the relationships of patterns of thinking and brain activity and of the implications of differences in cognitive style.

344 CONSCIOUSNESS AND ITS ALTERNATE STATES (3)
Prereq: Psych 201. Research and theory concerned with various "states" of consciousness: sleeping and dreaming, hypnotic, effects of psychoactive drugs, meditation and lateralization of function in the cerebral hemispheres.

346 PSYCHOLOGY OF RELIGION (3)
Prereq: Psych 201 or Lib St 105. A study of certain major works in the psychology of religion. Works by James, Freud and Jung will be included.

347 HUMANISTIC PSYCHOLOGY (6)
Prereq: Psych 313. Course will review the personality theories, practices and research generated by the contemporary humanistic view of man. Some work of such leaders in this third force of psychology as Adler, Allport, May, Maslow, Rogers, Frankl and Fromm.

349 PSYCHOLOGY IN LITERATURE (3)
Prereq: Psych 201. Approximately ten works of contemporary Western literature with psychological content will be examined primarily through class discussion. Analysis in terms of appropriate psychological theories and concepts.

351 PSYCHOLOGY OF HUMAN LEARNING AND INSTRUCTION (3)
Prereq: Lib St 105 or Psych 201; not open to those with credit in 371. Application of psychological principles of learning to classroom teaching. Does not count for credit in psychology major or minor.

352 CHILD DEVELOPMENT AND EDUCATION (3)
Prereq: Psych 351 (may be taken concurrently). Basic principles of development, with special attention to the pre-school and elementary school age child. Does not count for credit in a psychology major or minor.

353 ADOLESCENT PSYCHOLOGY (4)
Prereq: Psych 201 or 351. Basic principles of development with special attention to the secondary school age child; implications for educational practices.

355 PSYCHOLOGY OF CHILD REARING (3)
Prereq: Psych 201. Models of early experience; bonding and attachment; day care; discipline; parental influence on social and cognitive development; child abuse; cultural variations.

357 ADULT DEVELOPMENT AND AGING (4)
Prereq: Psych 201. Development during adulthood, aging and the life-span perspective on development; biology and aging; perception, learning, and memory; intelligence and problem-solving ability; personality and aging — crisis and challenge at different life stages; careers, psychopathology; and death and dying.

371 EVALUATION IN THE SECONDARY SCHOOL (3)
Evaluation of student achievement in secondary school with particular emphasis upon teacher-made tests and application of statistical procedures to test results. Does not count for credit in a psychology major or minor.

372 EVALUATION IN THE ELEMENTARY SCHOOL (2)
Basic techniques for evaluation of student achievement, with particular emphasis on observational techniques and standardized tests appropriate to grades K-5. Does not count for credit in a psychology major or minor.

395a,b,c HONORS TUTORIAL (2-5)

401 SEMINAR IN INDIVIDUAL DIFFERENCES AND PSYCHOLOGICAL MEASUREMENT (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor), 311 or 312. Major issues and methods in the study of individual differences and measurement. Laboratory and library research.

402 SEMINAR IN PERSONALITY AND ABNORMAL PSYCHOLOGY (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor), 312 or 314. Major issues and methods in the study of personality and abnormal psychology. Laboratory and library research.

403 SEMINAR IN SOCIAL PSYCHOLOGY AND DEVELOPMENTAL PSYCHOLOGY (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor), 316 or 318. Major issues and methods in the study of social and developmental psychology. Laboratory and library research.

404 SEMINAR IN LEARNING AND MOTIVATION (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor), 321 or 322. Major issues and methods in the study of learning and motivation. Laboratory and library research.

405 SEMINAR IN SENSORY, PERCEPTUAL AND THOUGHT PROCESSES (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor) and 320, 325 or 342. Major issues and methods in the study of perception and sensation. Laboratory and library research.

406 SEMINAR IN COMPARATIVE AND PHYSIOLOGICAL PSYCHOLOGY (3)
Prereq: Psych 307 (may be taken concurrently with permission of instructor), 325 or 326. Major issues and methods in the study of comparative and physiological psychology. Laboratory and library research.

411 SEMINAR IN HISTORY AND SYSTEMS OF PSYCHOLOGY (4)
Prereq: junior standing. An historical perspective of the development of psychological systems and theories and the impact of these developments on contemporary psychology.

412 SEMINAR IN PSYCHOLOGICAL THEORY (4)
Prereq: junior standing and permission of instructor. A seminar examining the philosophical assumptions of science in general and psychology in particular.

418 SEMINAR IN HUMANISTIC PSYCHOLOGY (3)
Prereq: Psych 307 (may be taken concurrently). Psych 347. Major issues and methods in the study of existential phenomenology, ontology and hermeneutics. Laboratory and research.

289 Psychology
Psychology

420 ADVANCED INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (3)
Prereq: Psych 308 and 309. Psychological theories, methodology and findings related to the problem of business and industry, lectures, and laboratory.

425 HONORS SEMINAR (3)
Prereq: permission of instructor. Intensive examination of selected problems in psychology.

431 INTRODUCTION TO SCHOOL AND COMMUNITY COUNSELING (4)
Prereq: 15 credits in psychology, junior status. Overview of professional counseling in schools, colleges and communities. Includes counselor roles, ethics, counseling theories and techniques, training and licensing, counseling minorities, outreach, use of paraprofessionals and research.

432 INTERVIEWING THEORY AND PRACTICE (4)
Prereq: permission of instructor. Skills and underlying psychological principles which facilitate communication—particularly the helping interview. Lecture, demonstration, role playing, and videotape feedback, with special emphasis on listening skills and assessing one’s impact on others.

440 SOCIAL PSYCHOLOGY AND SOCIAL ISSUES (3)
Prereq: Psych 308, 315. Application of recent empirical and theoretical work on selected problems of social behavior. Issues studied vary with instructor. Examples are environment and population, violence and aggression, and minority mental health.

441 SEMINAR IN CROSS CULTURAL PSYCHOLOGY (3)
Prereq: Psych 308 and permission of instructor. Theoretical and methodological problems and issues relating to cross-cultural research in psychology. Normally offered alternate years.

449 FIELD EXPERIENCES IN PSYCHOLOGY (5)
Prereq: 20 credits in psychology (Psych 431, or concurrent, required for students in mental health concentration). Mental health, child development, behavior problems of adolescence, and other relevant topics. Fieldwork combined with readings and seminars. This course may be taken twice for credit only by students in the psychology mental health services concentration. All other students are limited to one quarter credit.

451 SCHOOL MOTIVATION (5)
Prereq: Psych 201 or 351. To acquaint teachers and prospective teachers with principles of human motivation as they apply to the school and learning environment. To develop skills in the teacher for promoting individual and group motivation. Does not count for credit for a psychology major or minor.

452 GUIDANCE STRATEGIES FOR TEACHERS (3)
Prereq: educators or educators in training or permission of the instructor. Principles of interpersonal behavior and development of skills needed to interact effectively with students, fellow professionals and parents. Appropriate use of psychological education materials in curriculum explored.

454 ADVANCED TOPICS IN DEVELOPMENTAL PSYCHOLOGY (5)
Prereq: Psych 306 and 316. Topics vary and include: cognitive development, personality and social development, psycholinguistics; and youth and social issues. Two of these seminars will be offered during a given academic year. Check the class schedule to determine which topic is covered in a given quarter. Repeatable for credit.

471 STANDARDIZED TESTS (3)
Prereq: Psych 311 or 371. Standardized group tests commonly used in the public schools; selection and administration of tests; interpretation of norms.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 26 of this catalog.

Note: Graduate courses in psychology (500 level and above) are open only to graduate students in psychology. Graduate students in other departments may enroll in psychology graduate courses if they obtain the permission of the instructor and department chairman.

501 PSYCHOLOGICAL FOUNDATIONS
Prereq: admission to M.S. program.
501A Perceiving, Knowing and Acting (4)
Considerations of the active organism in relation to a complex environment. Encompasses the concept of organization on several levels, such as physiological structure/ function, perceptual ordoring, and changes in behavior. Draws on both reductionistic and holistic methods, theory and data. Diverse topics will be used to develop these issues.
501B Personality, Pathology and Human Development (4)
Consideration of major models which attempt to explain the development of personality (such as psychodynamic, behavioral, and humanistic) and human maladaptation, or psychopathology. Social psychological perspectives (e.g., attribution processes, person by situation interactionism) will also be examined. Developmental considerations, such as typical challenges that one faces throughout the life span and the role of family and peers in the socialization process, will also receive attention. Included throughout will be a consideration of contemporary research done within the context of these major perspectives and theoretical frameworks.
501C Systems of Psychology (3)
Provides the student with a basic understanding of the processes of science including theory construction, scientific explanation, operationalism, etc. Second, to provide the student with an historical perspective for modern psychology by examining various systems which have preceded current views, for example Gestalt psychology, behaviorism, psychoanalytic.

502 QUANTITATIVE METHODS I (3)
Prereq: admission to M.S. Program and Psych 306 or equivalent. Introduction to statistics, measurement and research methods. Topics include logic of research, principles of scientific and statistical inference, bivariate correlation and regression, and the principles of psychological measurement.

503 QUANTITATIVE METHODS II (3)
Prereq: Psych 502. Intermediate correlational methods and introduction to the analysis of variance. Topics include fundamentals of test and questionnaire construction, correlational methods through multiple regression, non-parametric statistics, one- and two-way analysis of variance by partitioning and the general linear model.

504 QUANTITATIVE METHODS III (3)
Prereq: Psych 503. Analysis of variance designs that stress the understanding of multiple interactions. The correlated measures designs (matched, related, paired, repeated). Post-hoc procedures used in interpreting interacting effects. Analysis of covariance analogues for each of the analyses of variance models. Stressing the use of correlational concepts in the design and interpretation of covariance research.

290
505 MULTIVARIATE ANALYSIS (3)
Prereq: Psych 504. Topics in advanced multivariate analysis including canonical analysis, discriminant function analysis, cluster analysis, and factor analysis. Logical and geometric properties of multivariate techniques and interpretation of research results are stressed.

506 ADVANCED RESEARCH AND EVALUATION DESIGN AND DATA ANALYSIS (3)
Prereq: Psych 504. Multivariable designs, multiple interactions analysis, computer programs and operation. Research designs that involve several criterion measures.

507 TOPICS IN QUANTITATIVE PSYCHOLOGY (1-6)
Prereq: Psych 505 or 506 or permission of instructor. Specific content of course to be arranged by agreement of instructor and student. Examples of appropriate content would be computer applications in psychological research, mathematical models of behavior, statistical consulting. Repeatable to a maximum of 6 credits. S/U grading.

508 CONTEMPORARY PSYCHOLOGY (2)
A review of psychology as a profession, current research activities, thesis development, and related legal and ethical considerations. S/U grading.

511 INSTRUMENTATION FOR PSYCHOLOGICAL RESEARCH (2)
Typical technological solutions to problems encountered in original research; lecture and laboratory.

512 CONSTRUCTION OF PSYCHOLOGICAL MEASURING DEVICES (2)
Prereq: Psych 311 or equivalent. Course content varies with the interest of the students, but will include material on scaling, domain specification, item writing, test format and reproduction of instruments. Students, as a group, conceive, construct, and pretest some measuring device of their own choosing.

520 SEMINAR IN PERCEPTION (3)
Prereq: permission of instructor.

521 SEMINAR IN LEARNING (3)
Prereq: permission of instructor.

522 SEMINAR IN COMPARATIVE PSYCHOLOGY (3)
Prereq: permission of instructor.

523 SEMINAR IN PHYSIOLOGICAL PSYCHOLOGY (3)
Prereq: permission of instructor.

524 SEMINAR IN MOTIVATION (3)
Prereq: permission of instructor.

525 SEMINAR IN CURRENT PHILOSOPHICAL ISSUES IN PSYCHOLOGY (3)
Prereq: permission of instructor.

526 SEMINAR IN DEVELOPMENTAL PSYCHOLOGY (3)
Prereq: permission of instructor.

527 SEMINAR IN PERSONALITY (3)
Prereq: permission of instructor.

528 SEMINAR IN SOCIAL PSYCHOLOGY (3)
Prereq: permission of instructor.

529 SEMINAR IN BEHAVIOR PATHOLOGY (3)
Prereq: permission of instructor.

530 SEMINAR IN ADVANCED MEASUREMENT THEORY (3)
Prereq: permission of instructor.

531 SEMINAR IN EDUCATIONAL PSYCHOLOGY (3)
Prereq: permission of instructor.

532 STRATEGIES OF BEHAVIOR CHANGE (3)
Prereq: admission to M.S. program. Study of selected current approaches to behavior change with particular attention to application with children.

533 COUNSELING THEORIES (3)
Prereq: admission to M.S. counseling psychology or school psychology curriculum, or to M.Ed. school counseling program. Basic orientation to counseling theories and relationship of theories to counseling goals, process, methods, evaluation and research. Some consideration of consultation strategies, systemic skills and psychological education models used by psychological counselors.
Psychology

555 PSYCHOLOGY OF OCCUPATIONS (4)
Prereq: admission to M.S. counseling psychology curriculum or M.Ed. school counseling program. Psych 553 and Psych 431 or 505. Critical examination of major theories of career development and vocational counseling. Sources of occupational materials and analysis of their use and distribution in counseling practice.

556 PROBLEMS AND ISSUES IN PSYCHOLOGICAL ASSESSMENT (4)
Prereq: admission to M.S. counseling psychology or school psychology curriculum. Problems and issues related to the technical aspects of assessment, the concepts of personality and intelligence, and the use of assessment procedures in evaluating personality, intelligence and school achievement.

557 INDIVIDUAL APPRAISAL IN COUNSELING (4)
Prereq: admission to M.S. counseling psychology curriculum or M.Ed. school counseling program, and Psych 504 or Ed 473, Psych 471 or 556. Collection, evaluation, application and interpretation of case data available to the practicing counselor. Particular consideration of vocational interest, vocational aptitude and individually administered intelligence tests.

558 FAMILY COUNSELING (3)
Prereq: admission to M.S. counseling psychology curriculum or M.Ed. school counseling program plus Psych 553 and 564. A review of major theories, techniques and research in psychological counseling with families. Emphasis is on parent-child developmental problems and the role of interpersonal relationships within the total family. Students will be involved in limited supervised family counseling experiences.

559 PSYCHOLOGICAL ASSESSMENT (4)
Prereq: Psych 556 and permission of instructor. Development of skill in administering and interpreting the results of individually administered intelligence tests and in reporting results.

561 SEMINAR: PROFESSIONAL, LEGAL AND CULTURAL ISSUES (3)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Consideration of the professional, cultural, ethical and legal issues and standards in the application of psychological theories and research in educational settings, community clinics and private practice.

562 PRACTICUM IN PSYCHOLOGICAL EVALUATION (4)
Prereq: Psych 559 and permission of instructor. Development of skill in making behavioral analyses and incorporating the results with those of other assessment procedures in formulating treatment decisions and plans.

565 INDIVIDUAL COUNSELING TECHNIQUES (5)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Skill development in individual counseling, psychotherapy and behavior modification techniques using actual interviews, simulations, video tape and other laboratory procedures. Prerequisite to practicum in individual counseling and psychotherapy.

566 GROUP PROCESSES IN COUNSELING (3)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Current group counseling and psychotherapy techniques, task directed, encounter, devotional-making and communication techniques will be covered. Prerequisite to practicum in group psychotherapy and counseling.

PRACTICUM (1-10, not to exceed a total of 15 credits)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Professional practice under assigned departmental supervision. Repeatable S/U grading.

580 SEMINAR IN COLLEGE TEACHING OF PSYCHOLOGY (3)

581 PRACTICUM IN COLLEGE TEACHING OF PSYCHOLOGY (1-12)
Prereq: permission of instructor. S/U grading.

582 PRACTICUM IN RESEARCH IN PSYCHOLOGY (1-12)
Prereq: permission of instructor. S/U grading. Student initiates and conducts a project under faculty supervision. S/U grading.

585 PROFESSIONAL INTERNSHIP (1-6)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Supervision during employment in professional practice after completion of academic work for master's degree. Thesis may be taken concurrently with approval. S/U grading.

589 SEMINAR IN COUNSELOR SUPERVISION AND CONSULTATION (4)
Prereq: state certification in counseling or college certificate of completion of a graduate program in counseling. Development of supervisory competencies in counselor preparation. Planning, organizing and implementing counseling experiences for trainees in counseling in the public schools or counseling agencies. Development of effective assessment techniques of counseling competencies. S/U grading.

593 ADVANCED SEMINAR IN COUNSELING THEORY (3)
Prereq: admission to M.S. counseling psychology curriculum. M.Ed. school counseling program, initial certification in school counseling or permission of instructor. Selection of counseling theories and techniques in current use, including counseling with children and families. Evaluation of research on counseling process and counseling outcome. Take concurrently with Psych 570 or 570.

595 ADVANCED SEMINAR IN VOCATIONAL COUNSELING (4)
Prereq: admission to M.S. counseling psychology curriculum. M.Ed. school counseling program, initial certification in school counseling or permission of instructor. An advanced seminar regarding major theories, trends and research in vocational counseling and career awareness programs. For students who are in internships or for counselors with a year of practical experience.

596 ADVANCED SEMINAR IN PROFESSIONAL ISSUES IN COUNSELING PRACTICE (4)
Prereq: admission to M.S. counseling psychology curriculum. M.Ed. school counseling program, initial certification in school counseling or permission of instructor. An advanced seminar in professional, cultural, ethical and legal issues in counseling. For students who are in internships or for counselors with a year of practical experience.

670 INTERNSHIP (1-10)
Prereq: admission to M.S. counseling psychology or school psychology curriculum or M.Ed. school counseling program. Any extension of Psych 570 with increasingly independent responsibilities for practice in a professional setting. Primary supervision is by appropriate staff in the cooperating agency. S/U grading.

690 THESIS (1-6)
S/U grading.
Sociology

College of Arts and Sciences

In common with the other branches of science, sociology is not simply a point of view but rather a method for discovery and a body of information specifically about social organization and behavior. Sociology begins with the simple assumption that organization and behavior are not random events. Its fundamental purpose is to discover the patterns which underlie social events and to describe these patterns in a parsimonious and concise manner.

The programs leading to degrees in sociology at Western are designed to provide the student with a strong academic and practical training. Through formal class work and seminars, the student is introduced to the method and theory of sociological inquiry. This preparation may be extended if the student chooses to become involved in one of many research projects in the department. Working under faculty supervision, the student may choose to pursue more thoroughly such areas as demography, human ecology, social psychology, criminology, gerontology, or applied sociology. Opportunities for field experience are also provided as a part of the student's training.

The department currently houses a number of facilities for sociological research. The Demographic Research Laboratory contains complete U.S. Census Bureau data, local surveys, collections of vital statistics and census maps. The department also maintains National Survey data for student research and training. There are two social psychology laboratories for the experimental study of social behavior. The department also houses a computer laboratory, funded by the National Science Foundation; it contains
Sociology faculty

Professor, B.A., Chico State College, Ph.D., University of Oregon.

Donald J. Call (1968) Associate Professor, B.A., MA, PhD, University of Oregon.

George F. Drake (1959) Associate Professor, B.A., University of California, Berkeley, MA, University of Wisconsin.

Charles Gossman (1966) Associate Professor, B.A., University of Puget Sound, MA, PhD, University of Washington.

D. Peter Mazur (1960) Professor of Sociology and Demography, BA, Stetson University, MA, University of Colorado, PhD, University of Washington.

Ingerborg E. Paulus (1971) Associate Professor, B.A., MA, University of British Columbia, MA, Ph.D., University of London.

JoHN G. Richardson (1974) Associate Professor, B.A., University of the Pacific, Stockton, MA, PhD, University of California, Davis.

Carol H. Simpson (1978) Assistant Professor, B.A., PhD, Stanford University.

BACHELOR OF ARTS

Major 70 credits

Elective Concentrations

The following concentrations are offered to assist students in selecting an undergraduate program which meets specific needs and interests while at the same time guaranteeing sufficient breadth to avoid over-specialization. Courses listed as being taught through other departments will count toward the 70-credit major in sociology; non-departmental courses must be approved by the department in order to count toward the major.

Students are advised to select the general sociology concentration unless they have a particular concentration interest.

Students should obtain a copy of the undergraduate "Student Guide to Sociology" available in the Sociology office.

Core Program
- Soc 202, 302, 310, 315
- General Sociology: Adviser — Mahoney
- Core program
- Soc 303, 321, 330
- Additional sociology electives to total 70 credits

Applied Sociology: Adviser — Simpson
- Core Program
- 5 courses from the following: Soc 261, 311, 340, 372, 373, 374, 377, Hux 342
- Recommended: Soc 471, 473, 477
- Additional sociology electives to total 70 credits

Criminology: Advisers — Paulus, Call
- Core program
- Soc 351, 352, 353, 354, 360, 452, 454
- Additional sociology electives to total 70 credits

Demography/Ecology: Advisers — Gossman, Mazur
- Core program
- Soc 321, 322, 323, 415, 421, 422
- Math 106
- Comp Sci 110
- Geog 440
- Additional sociology or mathematics electives to total 70 credits

Gerontology: Adviser — Mahoney
- Core program
- Soc 324, 333, 334, 336
- Additional sociology electives to total 70 credits

Social Psychology: Adviser — Mahoney
- Core program
- Soc 330, 331, 430, 431, 432, 433
- Psych 403
Additional sociology, psychology or mathematics electives to total 70 credits.

Minor 25 credits
- Soc 202, 302, 321, or 330
- Electives under departmental advisement

BACHELOR OF ARTS IN EDUCATION
Major 45 credits
- Soc 202, 302, 310, 315
- Recommended elective courses to total 45 credits
- Psych 330, 351, 352, 360, 361, 363, 364, 373
Students must also complete the specific program requirements for social studies education, including the social studies minor, as outlined in the Interdisciplinary Program section of this catalog.

BACHELOR OF SCIENCE
Major 90 credits. Adviser — Stephan
- Math 105, 241, 241, 342
- Comp Sci 110, 211
- Soc 202, 302, 303, 310, 321, 330, 415, 421, 430, 492
- Additional credits under advisement in mathematics, computer science, sociology or cognate areas

DEPARTMENTAL HONORS
In addition to the general requirements for all honors students, a sociology major who wishes to graduate "with honors" must demonstrate a reading knowledge of a foreign language and submit a senior thesis.

GRADUATE STUDY
For concentration leading to a Master of Arts degree, see Graduate section of the catalog.

COURSES IN SOCIOLOGY
Courses numbered X37; X97; 300, 420, 417; 445 are described on page 28 of this catalog.

202 INTRODUCTION TO SOCIOLOGY (5)
Basic problems and concepts in the study of society: social change and organization; human behavior in the family, education, religion, cities, social classes, race, age, sex and the structure of society; sociology as science and as response to human problems.

251 SOCIOLOGY OF SOCIAL PROBLEMS (5)
Prereq: Soc 202 or equivalent. A survey of selected social problems, defined as circumstances or conditions which attract and hold public attention, which are historically or politically "controversial" and which both demand and defy solutions. The course is primarily concerned with the application of sociological concepts and techniques to the understanding of the sources of social problems and the prospects for their "solutions."

261 SOCIAL WELFARE IN AMERICA (5)
Prereq: Soc 202. The social work profession in modern society, professional and social scientific elements of social work; social work and social welfare.

302 HISTORY OF SOCIAL THOUGHT (5)
Prereq: Soc 202. The emergence of sociology, sociology as response to the Industrial Revolution and as an attempt to develop a scientific understanding of social organization, behavior and change; the development of social thought; Comte, Spencer, Marx, Durkheim and Weber.

303 CONTEMPORARY SOCIOLOGICAL THEORY (5)

310 INTRODUCTION TO RESEARCH METHODS (5)
Prereq: Soc 202. The nature of scientific theory; the development of social research: the basic methods and techniques of data gathering, processing and analysis.

311 EVALUATION RESEARCH (5)
Prereq: Soc 202, 310. Logic and methods of evaluating the effectiveness and efficiency of social service programs.

315 SOCIAL STATISTICS (5)

321 INTRODUCTION TO DEMOGRAPHY (5)
Prereq: Soc 202. Provides a systematic introduction to the study of human populations. Designed for students interested in the subject regardless of their major discipline. Examines social, economic and biological factors associated with fertility, mortality and migrations.

322 SOCIAL ECOLOGY (5)
Prereq: Soc 202. Human social organization as response to changes in population, technology and environment; development of the field of social ecology from plant and animal ecology; research methods in social ecology.

323 URBAN SOCIETY (5)
Prereq: Soc 202. The city in history, the ecology of urban areas, social classes in the city, the city lifestyle, effects of crowding on human behavior; crime in cities, and other urban social problems; urban politics and urban planning.

324 DEMOGRAPHY OF AGING (5)
Prereq: Soc 202, 333. Basic demographic analysis of distribution of the elderly population in America, distribution of income, health care availability, places of residence, migration, marital status and living arrangements, causes of death among the older population. Past patterns studied and future patterns projected.

330 INTRODUCTION TO SOCIAL PSYCHOLOGY (5)
Prereq: Soc 202. Interpersonal behavior, perception of others, attraction toward and liking of others, self evaluation, helping behavior, aggression, attitudes and their relationship to behavior; sexual behavior, types of interaction processes, childhood and adult socialization, deviance and conformity, personal space, environmental effects on behavior, sex role attitudes and behavior.
Sociology

331 EXPERIMENTAL SOCIAL PSYCHOLOGY (5)
Prereq: Soc 202, 310, 315. The application of scientific methods to the study of social behavior using experimental designs primarily derived from the analysis of variance. Lecture and laboratory.

333 AGING IN AMERICA (5)
Prereq: Soc 202. Introduction to basic concepts, theories, and issues of aging. Social history of aging; perception, status, and responsibilities of the elderly from prehistory to the present development of gerontology and social theories of aging.

334 SOCIAL PROBLEMS OF AGING (5)
Prereq: Soc 210, 333. Effects of social problems on the older population in the United States; economic, political, legal, familial, occupational, medical and social psychological factors, death and dying in America.

335 SOCIOLOGY OF MEDICINE: HEALTH AND ILLNESS (5)
Prereq: Soc 202. How health, illness and disease in American society differ by age, sex, race, social class, and ethnicity; social-psychological factors in health and illness; interpersonal relationships among patients and health personnel; health care system in the United States and modern medical technology; death and dying.

336 COMPARATIVE STUDIES IN AGING (5)
Prereq: Soc 202. 333. Social aspects of aging in different societies and periods in history; comparison of these over time and between societies; particular emphasis on factors related to longevity.

338 SOCIOLOGY OF SEXUAL BEHAVIOR (5)
Prereq: Soc 202. Human sexuality, with an emphasis on western cultures and the United States in particular, is studied from a scientific perspective. Emphasis is placed on both description and explanation of patterns and diversity in sexuality. While focusing on the social dimensions of sexuality, the historical, biological and psychological aspects of sexuality are integrated into a comprehensive overview.

343 COMMUNITY ORGANIZATION (5)
Prereq: Soc 202. Development, structure, and interrelationships of social systems that address the definition and solution of problems facing people within specified geographical areas.

341 SOCIOLOGY OF ORGANIZATIONS (5)
Prereq: Soc 202. Sociology of organization is an introduction to the study of organizational systems. The structure and function of organizations, their environments, resources and goals will be analyzed as they interact with each other in a system of interrelated variables.

351 SOCIOLOGY OF DEVIANT BEHAVIOR (5)
Prereq: Soc 202. Examination of labeling and behavior processes in deviance. Analysis of labeling by both the public and formal agencies such as the police and courts; effects of labeling and the behavioral characteristics of deviant lifestyles.

352 CRIMINOLOGY (5)
Prereq: Soc 202. The study of adult crime, defined as violation of legal norms. The course focuses on problems of measurement and attempts to explain crime as a social phenomenon and a cultural product. It includes an in-depth analysis of various forms and classes of crimes and their victims.

353 JUVENILE DELINQUENCY (5)
Prereq: Soc 202. Juvenile delinquency as a socially created phenomenon distinct from adult criminality; the juvenile court; extent and correlates of delinquency; group and gang delinquency; explanations for juvenile malbehavior.

254 TREATMENT AND CORRECTIONS (5)

360 SOCIOLOGY OF THE FAMILY (5)

361 SOCIETY AND EDUCATION (5)
Prereq: Soc 202. Analysis of the historical origins and spread of public education, schooling as a major form of socialization and status placement; political and legal bases of education; the analysis of nonformal schooling, the relation between educational traditions and national-state formation.

362 POLITICAL SOCIOLOGY (5)
Prereq: Soc 202. The social aspects of political phenomena with an emphasis on power and authority, conflict and change, political attitudes and ideologies.

363 SOCIOLOGY OF RELIGION (5)
Prereq: Soc 202. Religion in society. Religion as a force for change or stability; the social causes of religious beliefs; religion and the search for meaning. An examination of the structure and organization of religious groups and a special emphasis on recent experimentation with Eastern and charismatic religions.

364 SOCIAL CLASS IN AMERICA (5)

365 PUBLIC OPINION (5)
Prereq: Soc 202. Factors involved in the formation of public opinion; the role of mass media of communication and propaganda in a contemporary society. Offered in alternate years.

366 SOCIOLOGY OF SPORT (5)
Prereq: Soc 202. The impact of sports on American society and of American society on sports; the relationship between sports and religion, politics, education and economics; the role of sport in promoting American values; racial and sexual discrimination in sports.

367 SOCIOLOGY OF WORK AND OCCUPATIONS (5)
Prereq: Soc 202. Sociological and social-psychological significance of work; factors affecting contemporary occupational structures and associated with typical career patterns; life-cycle changes; sex, race, ethnic and social class differences; structural characteristics of selected occupational areas.

368 SEX ROLES AND SOCIAL STRUCTURE (5)
Prereq: Soc 202. Socially constructed differences between the sexes; socialization into sex roles; reactions to sexual deviation; sex role differentiation and socialization in family and social institutions; the effects of life changes on sex socialization.

369 MINORITIES IN AMERICA (5)
372 APPLIED SOCIOLOGY (5)
Prereq: Soc 202. A practical approach to the major issues and techniques in applied social research. Includes detailed critical analysis of past research and experience working on a current research project.

373 SOCIAL SERVICES PLANNING (5)

374 INDUSTRIAL SOCIETY - A COMPARATIVE LOOK AT AMERICAN-CANADIAN INDUSTRIAL ORGANIZATION (5)

375 SOCIAL SERVICES DELIVERY (5)

377 CHANGING ORGANIZATIONS (5)
Prereq: Soc 202. Theory and methods of diagnosing problems in public or private organizations. Changing organizational structure or process to increase effectiveness or efficiency.

380 SOCIOLOGY OF CHILDHOOD AND ADOLESCENCE (5)
Prereq: Soc 202. Sex and age status definitions and role-taking; historical, institutional and social process aspects of maturation, with special emphasis on Western industrial society from the 18th century to the present.

398a b c HONORS TUTORIAL (3-5 ea)

410 RESEARCH (3-5)
Prereq: permission of instructor. Investigation of a problem through field or library research.

415 ADVANCED QUANTITATIVE METHODS (3)
Prereq: Soc 315 or equivalent. Experimentation and tests of significance applied to research problems.

421 DEMOGRAPHIC ANALYSIS (3)

422 ADVANCED SOCIAL ECOLOGY (3)

430 ADVANCED SOCIAL PSYCHOLOGY (3)
Prereq: Soc 330 or Psych 315, Soc 310, 315 or Psych 306. Specific course content is determined by student's previous course work and interests in social psychology; design, methods, measurement and analysis in social psychological research.

431 THEORIES IN SOCIAL PSYCHOLOGY (3)
Prereq: Soc 310, 315, or Psych 306. Soc 330. Selected theoretical orientations in social psychology, emphasizing related research literature as it bears upon evaluation of theories. Offered in alternate years.

Students file near Anthony Caro's "India" sculpture.
Sociology

432  SOCIALIZATION (3)
    Prereq: Soc 202, 330 (or Psych 315). Factors and conditions which facilitate or retard the development of social behavior over the life cycle.

433  SMALL GROUP BEHAVIOR (3)
    Prereq: Soc 202 and 330. Theoretical and current research on small group interaction, with a focus on the structure and processes of consensus, cooperation, conflict, interdependence, leadership, and cohesion.

434  SOCIAL MOVEMENTS AND COLLECTIVE BEHAVIOR (3)
    Prereq: Soc 202 and 330. Study of processes whereby social movements are formed, their attempts to bring about major social changes; organizational structure and social psychological dynamics of social movements, the consequences of social movements for society in general and for the members themselves. Offered in alternate years.

451  ADVANCED CRIMINOLOGY (3)

452  SOCIOPATH THE CRIMINAL JUSTICE SYSTEM (3)

455  LAWS CONCERNED OF WOMEN (3)
    Prereq: Soc 202. Historical aspects of women’s drive for equality and civil rights, including women’s daily lives, women’s history and sociology of women’s studies.

47  DIRECTED INTERNSHIP (3-13)
    Prereq: Junior status; completion of Soc 302, 310, and permission of instructor. Participation in research and applications in human services agencies and organizations.

47  SOCIAL INDICATORS AND FORECASTING (3)
    Prereq: Soc 202, 315, 321. Introduction to social indicators and examination of the logical and methodological problems associated with use of social indicators to predict future social patterns, population forecasting and social implications of knowledge gained from forecasting.

47  SOCIAL WORK AND GROUPS (3)
    Prereq: Soc 202. History, development, and current use of group social work; major strategies in group social work and the assumptions and outcomes of each.

493  SENIOR THESIS (5)
    Prereq: Bachelor of Science major. Supervised independent research in partial completion of the requirements for the Bachelor of Science in Sociology degree. The student will normally undertake such research upon completion of all other courses required for the degree.

491a,b,c  HONORS TUTORIAL (3-5 ea)

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required.

See Graduate section of this catalog.

501  ADVANCED GENERAL SOCIOLOGY (2)
    Prereq: Graduate status in sociology and permission of instructor. Review of major substantive areas of sociology. Overview of fundamental concepts, research methods and findings. Introduction to research interests of faculty designed to familiarize students with examples of research and attendant problems.

502  SEMINAR: HISTORY OF SOCIAL THOUGHT (3)
    Review and evaluation of major nineteenth and early twentieth century theories of social organization and change.

503  SEMINAR: CONTEMPORARY SOCIOLOGICAL THEORY (3)
    Review and evaluation of major contemporary perspectives in sociology.

505  COMPUTER APPLICATIONS IN SOCIOLOGY (3)
    Prereq: Admission to graduate standing, concurrent enrollment in Soc 313. Emphasis on computer applications in the analysis of large-scale data sets. Training in the use of SPSS and other library statistical routines.

510  SEMINAR: METHODOLOGY (3)
    Prereq: Soc 310 and 315 or equivalent. Analysis and evaluation of the procedures, assumptions, and modes of explanation employed in sociological research.

515  SEMINAR: QUANTITATIVE TECHNIQUES (3)
    Prereq: Course in Social Stats. Regression, path analysis and related techniques as applied to sociological research.

521  SEMINAR: DEMOGRAPHY (3)
    Prereq: Soc 321 and 315 or equivalent, or permission of instructor. Critical review of demographic theory, methods and applications in the light of contemporary world population problems.

530  SEMINAR: SOCIAL PSYCHOLOGY (3)
    Theoretical approaches, research methods and findings concerning identity, communications, task, performance, deviation, sanctioning, leadership and the processes occurring in face-to-face and extended social interaction contexts.

535  SEMINAR: CURRENT SUBSTANTIVE RESEARCH (1-3)
    Prereq: Graduate status. Topics to vary. Repeatable with different subject area. Examines current research in a selected substantive field of sociology.

540  COMPLEX ORGANIZATIONS (3)
    Theory and research on structure and processes of large-scale formal organizations in Western society; industrial-commercial, governmental, religious, military, political and educational organizations.

561  SEMINAR: SOCIAL CONTROL AND DEVIANCE (3)
    Critical review of theories and concepts of deviance; analytic and philosophic problems of attempts at programmed social control.

566  SOCIOLOGY OF HIGHER EDUCATION (3)
    Prereq: Graduate status and permission of instructor. A sociological study of students in the academic community with particular reference to residential colleges and universities. Historical and contemporary determinants of student subculture and its relationship to faculty, college administration and society.

690  THESIS (3-12)
Speech Pathology & Audiology
College of Arts and Sciences

THE DISCIPLINE

Speech/language pathology and audiology are disciplines which have developed out of a concern for people with communication disorders. Preparation leading to a degree in speech/language pathology and/or audiology includes a wide range of coursework and a variety of clinical practicum opportunities working with handicapped adults and children.

Students intending to enter this profession, whether in the public schools, clinics, rehabilitation centers or hospitals, are advised that clinical certification by the American Speech-Language-Hearing Association requires the completion of the master's degree program or its equivalent. Students who plan to practice in the public schools should follow the certification program for the Communications Disorders Specialist (CDS) through Western's "Program Unit."

Those who intend to be classroom teachers at the elementary school level often find the speech/language pathology and audiology major (Bachelor of Arts in Education) or coursework in speech and language development helpful in understanding and working with children. Such a program often combines the speech/language pathology and audiology major and an elementary minor; however, it does not lead to certification as a CDS.

DEGREE PROGRAMS

The Department of Speech Pathology and Audiology offers three different academic degrees.
the Bachelor of Arts, the Bachelor of Arts in Education and the Master of Arts. The Bachelor of Arts is considered a pre-professional degree, qualifying the student for advanced preparation at the graduate or fifth-year level. The Bachelor of Arts in Education program often is combined with an elementary teaching minor, preparing the student for classroom teaching. The Master of Arts degree is considered a professional degree and facilitates certification at both the state and national level. Also, a fifth-year program is available for those not seeking the advanced degree.

Due to the clinical requirements of the program, enrollment in the undergraduate and graduate major may be limited.

CERTIFICATION IN SPEECH PATHOLOGY/AUDIOLOGY

Two types of professional certification are available: state certification, which is mandatory for public school employment in Washington State, and national certification, which is necessary for employment in hospitals and clinics. The program leading to certification as a speech/language pathologist and/or audiologist in the public schools has been formulated by a "Program Unit" consisting of Western Washington University, the Washington Speech and Hearing Association and a participating school district. For details regarding academic, clinical and externship requirements, please consult the "WWU Handbook for Speech Pathology and Audiology Majors."

The American Speech-Language-Hearing Association's recommendation for certification of speech/language pathologists or audiologists includes a minimum of 50 quarter hours of academic preparation as well as required supervised clinical hours. Such preparation would extend into the fifth-year or graduate degree program. Consult the departmental handbook for details.

SPEECH PATHOLOGY AND AUDIOLOGY FACULTY

MICHAEL T. SEILO (1970) Chairman
Associate Professor, BS, Northern Michigan University; MA, University of Arizona; Ph.D. Ohio University (Audiology/Aural Rehabilitation/Experimental Phonetics).

CAROL C. McRANDLE (1975) Associate Professor, BS, University of Minnesota, Duluth, MS, Ph.D. Purdue University (Audiology/Aural Rehabilitation/Hearing Science).

SAMUEL B. POLEN (1972) Associate Professor, BS, Kent State University; MA, PhD, Ohio University (Speech/Language Pathology/Speech Science).

ARTHUR L. SOLOMON (1969) Professor, BA, Antioch College; MA, University of North Carolina; PhD, Stanford University (Speech Communication/Speech Pathology/Interpersonal Communication).

JAMES A. SPEIRS (1978) Assistant Professor, BA, Los Angeles State College; MA, PhD, University of Southern California (Speech/Language Pathology).

LOREN L. WEBB (1969) Professor, BS, University of California, Berkeley; MA, University of Redlands; PhD, University of Washington (Audiology/Aural Rehabilitation).

Affiliated Clinic Staff

CANDACE K. GANZ (1982) Clinic Coordinator, BA, MA, University of Kansas (Speech/Language Pathology/Infant Behavior and Development).

JILL K. HUNT-THOMPSON (1977) Clinical Supervisor, BA, MA, Western Washington State College (Speech/Language Pathology).

BARBARA J. WELLS-WHOOLF (1979) Extern Coordinator, BS, MS, East Carolina University (Speech/Language Pathology).

BACHELOR OF ARTS

Major — Speech Pathology & Audiology
50 credits

☐ SPA 351, 352, 353, 354, 356, 361
☐ SPA 373, 452, 454, 457, 458, 459, 461
☐ Electives under departmental advisement

BACHELOR OF ARTS IN EDUCATION

Major — Speech Pathology & Audiology
45 credits

☐ SPA 351, 352, 353, 354, 356, 361, 454, 455, 456, 461, 463
☐ Electives under departmental advisement
☐ Minor in elementary education required.

At the time this catalog was published, the appropriateness of the major with the elementary education minor for prospective teachers was being reviewed by the State Board of Education. As a result, students are advised to consult with their adviser prior to declaring this major.

300
BACHELOR OF ARTS OR BACHELOR OF ARTS IN EDUCATION

Minor — Speech Pathology & Audiology
(A minimum of 25 credits. More than 25 are recommended.)
- SPA 351, 354, 356, 361, 461
- Electives under departmental advisement

GRADUATE STUDY

For concentrations in speech/language pathology and audiology leading to the Master of Arts degree, see Graduate section of catalog.

COURSES IN SPEECH PATHOLOGY AND AUDIOLOGY

Courses numbered X37, X97; 300, 400, 417; 446 are described on page 28 of this catalog.

351 INTRODUCTION TO COMMUNICATION DISORDERS (3)
Survey of speech, language and hearing disorders: an introduction to speech and language therapy as a discipline.

352 ANATOMY AND PHYSIOLOGY OF SPEECH MECHANISMS (4)
Structure and function of organs concerned with audition, conception, respiration, phonation, resonance, articulation.

353 SPEECH SCIENCE (4)
Required for speech pathology and audiology majors. Acoustic properties of the speech signal and their relation to speech production and perception.

354 SPEECH AND LANGUAGE DEVELOPMENT IN CHILDREN (3)
Normal speech and language acquisition; its impact on the developing child; origins and growth of symbolic processes, developmental norms; factors influencing learning of language and speech.

355 ARTICULATION DISORDERS AND THERAPY (3)
Prereq: SPA 351, 352. Symptomatology, etiology, and therapy for articulation disorders.

356 LANGUAGE LEARNING DISABILITIES IN CHILDREN (3)

373 PHONETICS (3)
Training in recognition and production of sounds of spoken English through use of the International Phonetic Alphabet.

452 DIAGNOSTIC METHODS IN SPEECH/LANGUAGE PATHOLOGY (4)
Prereq: SPA 351, 352, 353, 354, 356, 373 or written permission of instructor. Methods, procedures, techniques and instruments; supervised practice.

454 INTRODUCTION TO STUTTERING, THEORY AND THERAPY (3)
Prereq: SPA 351. Characteristics of stuttering behavior; current theories of etiology of stuttering; principles and practices of therapy; stuttering as a related disorder.

455 SPEECH/LANGUAGE THERAPY IN THE PUBLIC SCHOOLS (3)
Prereq: SPA 351 or permission of instructor. Role of the clinician in organizing and directing a speech therapy program in the public school setting.

456 CYANIC SPEECH/LANGUAGE DISORDERS (3)
Prereq: SPA 458. Symptomatology, etiology and therapy for cerebral palsy, deaf palate, aphasia, dysarthria and laryngectomy.

457 METHODS IN SPEECH/LANGUAGE THERAPY (5)
Prereq: SPA 355. Directed observation and evaluation of the methods, materials and techniques used in treating a variety of communication disorders.

458 BEGINNING CLINICAL PRACTICE IN SPEECH/LANGUAGE THERAPY (3)
Prereq: SPA 351, 352, 353, 354, 355, 373, 457 or written permission of instructor. Clinical observation; assistant clinician experience; procedures in therapy planning and implementation.

459, 460 CLINICAL PRACTICE IN SPEECH/LANGUAGE THERAPY (3 ea)
Prereq: written permission of instructor. Continuation of SPA 458.

461 INTRODUCTION TO AUDIOLOGY (5)
Introduction to the acoustic properties of simple and complex sounds; the structure and function of the auditory mechanism; the nature and causes of hearing impairment and a general survey of audiology as a discipline.

462 AUDIOMETRIC TESTING (4)
Prereq: SPA 461. Introduction to the theory and application of pure tone, impedance and speech audiometry to assessment of hearing function; implications for rehabilitation covered.

463 AURAL REHABILITATION (4)
Prereq: SPA 461. Auditory training, speech reading and language training for the aurally handicapped.

465 SIGN LANGUAGE OF THE DEAF (3)
Prereq: SPA 354. Theory and practice in use of the manual language methods for communication with the deaf.

465a INTERMEDIATE SIGNING (2)
Prereq: SPA 465. An introduction to the philosophy of total communication and the basic idea of American sign language used by deaf people.

466 MEDICAL AUDIOLOGY (3)
Prereq: SPA 461, 452. The medical pathologies of the hearing mechanism and their auditory manifestations. Problems of diagnosis, referral and report writing.

467a, b, c CLINICAL PRACTICE IN AURAL REHABILITATION (2 ea)
Prereq: SPA 463. Supervised practice in the rehabilitation of the hard of hearing.

468 CLINICAL PRACTICUM IN AUDIOLOGY (2)
Prereq: SPA 461, 462. Supervised clinical practice in audiological evaluation.

301
Speech Pathology/Audiology

469, 470  CLINICAL PRACTICUM IN AUDIOLOGY (2 ea)
Prereq: SPA 468. Supervised clinical practice in audiological evaluation.

499a,b  UNDERGRADUATE EXTERNSHIP IN SPEECH/ LANGUAGE PATHOLOGY AND AUDIOLOGY (6 ea)
Prereq: completion of the undergraduate major requirements and permission of department. Supervised off-campus experience providing opportunities to develop and demonstrate clinical competence in the management of children with communication disorders. S/U grading.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.

Admission to Graduate School or special permission required. See Graduate section of this catalog.

501  BEHAVIORAL RESEARCH IN SPEECH (4)
Introduction to empirical research; basic methodology applied to current research in communication and speech.

551  VOICE DISORDERS AND THERAPY (3)

551  SEMINAR IN SPEECH DISORDERS, THEORY AND THERAPY (3)
Prereq: permission of instructor. Analysis and evaluation of recent concepts, issues, techniques, and methods applicable to speech disorders.

552  ADVANCED DIAGNOSTIC METHODS IN SPEECH AND LANGUAGE PATHOLOGY (4)
Prereq: SPA 452 or written permission of instructor. Specialized methods, tests, and instruments used in diagnosis of more complex morphological and neuropsychopathological disorders; supervised practice.

553  SEMINAR: LANGUAGE DISORDERS (3)
Prereq: SPA 354, 361, or written permission of instructor. Abnormal speech and language acquisition and development with special focus on current research findings.

554  SEMINAR: STUTTERING (3)
Prereq: SPA 454 or equivalent. Critical analysis of recent research findings relating to stuttering and clustering disorders; chief rationale for therapy and evaluation of therapy procedures and results.

555  ADVANCED STUDIES IN LANGUAGE DEVELOPMENT IN CHILDREN (3)
Experimental findings and theoretical interpretations of normal speech and language acquisition with an emphasis on studies in syntax and semantics; origin and growth of symbolic processes; factors influencing learning of speech and language.

Downtown love birds.
556 SEMINAR IN APHASIA (3)
Pre req: SPA 458 or equivalent. Diagnosis and treatment of language-impaired adults with specific brain injury patterns: aphasia, apraxia, dysarthria.

557 CEREBRAL PALSY (3)
Pre req: graduate status, SPA 458 or equivalent, or permission of instructor. Survey of speech disorders: identification, classification, and the fundamentals of therapy.

558 ADVANCED CLINICAL PRACTICE IN SPEECH/LANGUAGE THERAPY (3)
Pre req: SPA 458, 459 or written permission. Supervised clinical practicum. Must be completed with a grade of "C" or better.

559, 560 ADVANCED CLINICAL PRACTICE IN SPEECH/LANGUAGE THERAPY (3)
Pre req: SPA 558 or written permission of instructor. Continuation of SPA 558. Must be completed with a grade of "C" or better.

561 SEMINAR IN AUDIOLOGY (3)
Pre req: SPA 461 or permission of instructor. Study of basic auditory correlates and audiometric procedures.

562 ADVANCED AUDIOMETRY (3)
Pre req: SPA 469. Theory and application of advanced diagnostic audiometric procedures.

563 SEMINAR IN AURAL REHABILITATION (3)
Pre req: SPA 458 or permission of instructor. Issues related to the hearing handicapped.

564 ADVANCED CLINICAL PRACTICE IN AURAL REHABILITATION (2)
Pre req: SPA 458, 463, 467 or permission of instructor. Supervised practice in rehabilitation of the hand of hearing. Must be completed with a grade of "C" or better.

565 PSYCHOACOUSTICS (3)
Pre req: SPA 561 or permission of instructor. Application of standard psycho-physical techniques and theory of signal detection to audiologic research.

566 BIOACOUSTICS (3)
Pre req: SPA 561 or permission of instructor. The ear as a transducer and analyzer: electro, physiological, and mechanical properties of the ear.

567 INDUSTRIAL AUDIOLOGY (3)
Pre req: SPA 461. Problems in noise pollution; federal and state regulations regarding noise; noise-induced hearing loss and the role of audiology in prevention and control.

568a, b, c ADVANCED CLINICAL PRACTICUM IN AUDIOLOGY (2-4 ea)
Pre req: SPA 461, 462 or permission of instructor; to be taken in sequence. Clinical practicum designed to advance skills in audiology. Must be completed with a grade of "C" or better.

570 THE HEARING-IMPAIRED CHILD IN THE CLASSROOM (3)
Pre req: permission of instructor. This course is designed to acquaint the classroom teacher with the unique problems of the hearing-impaired child being mainstreamed and to give the teacher some practical methods of dealing with the children.

571 HEARING AIDS (4)

572 SEMINAR IN ELECTROPHYSIOLOGICAL TESTING (3)
Pre req: SPA 561, 555, 568a or permission of instructor. Current topics and issues in specialized areas of averaged electroencephalographic audibility to be discussed. Major research problems and trends will be identified. Laboratory and clinical experiences will be offered.

574 EXPERIMENTAL PHONETICS (3)
Pre req: SPA 353. Study of laboratory investigations of phonetic problems; analysis and measurement of variables in speech production.

575 THE PARENT INTERVIEW (3)
A graduate seminar in interviewing parents having children with speech, hearing, and/or other behavior problems. The readings, discussions and class activities are focused on the skill, understanding and experience in establishing helping relationships.

576 CLINICAL PRACTICUM IN PARENT INTERVIEWING (2)
Pre req: SPA 575 and permission of instructor. Laboratory or supervised interviewing practice with parents whose children attend the clinic or other community agencies.

577 PEDIATRIC AUDIOLOGY (3)
Pre req: SPA 461, 462, 568a or permission of instructor. Developmental milestones of auditory function; implications of childhood hearing loss and supervised testing of pediatric patients utilizing basic and advanced testing techniques.

578 GRADUATE EXTERNSHIP IN SPEECH/LANGUAGE PATHOLOGY AND AUDIOLOGY (4-8 ea)
Pre req: completion of the undergraduate major requirements, permission of department, graduate status and demonstrated proficiency in clinical skills. Each course prerequisite to the next. Supervised experience providing opportunities to develop and demonstrate clinical competence in the management of communication disorders. (None of the credits for SPA 599c may be applied toward the M.A. degree.) Only 3-5 credits of SPA 599c, respectively, are applicable toward the M.A. degree. SP/grading.

580 THESIS (6-9)

591 WRITING SEMINAR (3)
Pre req: SPA 502 and permission of instructor. Writing based on research or clinical projects. This report to be used to help satisfy the non-thesis requirement.

602 INTERNSHIP IN ADMINISTRATION OF SPEECH AND HEARING PROGRAMS (3)
Students enrolling must be within two quarters of program termination. Analysis of program funding; administrative structures within schools, hospitals and clinics. A project report will be required in this course. This report may be used to help satisfy the non-thesis requirement.

606 INTERNSHIP IN SUPERVISION OF SPEECH/LANGUAGE PATHOLOGY AND/OR AUDIOLOGY (3)
Pre req: permission of instructor. Implementation of current practices in clinical supervision. Directing and evaluating clinicians.
Technology
College of Arts and Sciences

Many students are surprised and pleased to hear that Western offers technical education programs on its campus. Students enroll in the technology courses either because they are interested in completing one of the six major programs offered or because they are pursuing other majors or careers which are enhanced by skill and knowledge in a technical field. Some students take a limited number of technical courses because they enjoy working and learning in the shop setting and wish to include these activities in the elective portion of their university experience.

Courses can be divided, for convenience, into six major categories:

Graphic Communications Technology: These are the courses which deal in two-dimensional media and which involve the various ways by which man transmits information and thoughts through visual means. Included in this category are courses in industrial graphics and drafting, the graphic arts and photography. Actual courses included in this category are 210, 210b, 211, 240, 260, 309, 310, 311, 312, 313, 340, 341, 344, 360, 383, 413, 417r, 419, 440, 441, 442, 443, 444, 446, 447, 448, 449, 450, 456, 469, 540, 544.

Materials and Manufacturing Technology: Courses in this category deal with skill and information pertaining to the ways man copes with his physical and material environment and with which he modifies and shapes basic materials for his own use. Included in the category are courses in material science, metallurgy, material testing, wood technology (furniture design and construction, laminations), metals technology (cold forming, casting, forging, welding and
machining), and polymer science (plastics, thermoplastics and thermostets). The specific courses offered in this area include 220, 221, 222, 223, 224, 225, 231, 303, 320, 324, 325, 326, 331, 332, 333, 335, 421, 422, 423, 424, 425, 428, 429, 433, 434, 435.

Mechanical and Electrical Technology: This category includes a study of power — its generation, transmission, control and utilization, and deals with the topics of fluid power (hydraulics, fluidics, pneumatics), power generation (internal heat engines, external combustion, solar energy), instrument control systems and power measurement, electrical power (motors, generators, transformers, distribution and control), communication (radio, television, facsimile, telegraphy), and electronics. Courses in this category include 270, 271, 280, 281, 370, 371, 379, 380, 381, 382, 383, 473, 474, 475, 484, 485, 580.

Industrial Design: This is a study of the human and material factors, functional requirements and aesthetic considerations which are combined to solve the problems of product design. The courses offered in design include product design, design history, design factors and techniques. The Western Design Center is described on the pages following and relates to the design work of the Technology Department. Design courses offered include 214, 215, 311, 315, 316, 415, 416, 418.

Driver Education: In order to teach driver education in Washington schools, four courses are required, including three of the following: 480, 481, 482, 483, 485, 487.

General and Professional Courses: These are the professional courses for those who wish to teach or for those from other departments or off-campus who have specific interests. One course (391) is for those who wish to study about the relationship of man and technology. Included here are 101, 301, 302, 350, 391, 392, 394, 400, 402, 435, 450, 459, 488, 490, 490A, 491, 492, 493, 495, 496, 499, 550, 590, 591, 592, 593, 594, 595.

PROGRAMS

A variety of programs are sponsored by the Technology Department that are designed to enhance articulation of community college students, pre-service academic and research skills, and placement of graduates. A brief explanation of these programs is provided.

Direct Transfer Program

A technical "block" transfer program has been approved at WWU. The program accepts transfer of 90 credits applicable to the Bachelor of Science degree programs in the Department of Technology for students who have completed an Associate degree in technical arts or applied sciences, subject to the following conditions:

The community college degree program must include:

1. Mathematics through an introduction to calculus (to be counted toward WWU general education requirement).
2. One course in physics (to be counted toward WWU general education requirement).
3. At least 50 credits with a GPA of 2.5 in one of the following: electronics; drafting; graphic arts and visual communication; photography; power mechanics; or programs in industrial materials and processes.
4. An approved agreement between the community college and Western.

*Excluding sub-college and/or remedial courses.

Vehicle Research Institute

The Vehicle Research Institute (VRI) was formed in 1976 as an on-going program of research in vehicle design, construction and engineering. The VRI has gained international recognition in the areas of fuel economy, aerodynamic design, engine development and auto safety. The direct result of the VRI has been the design and development of the Viking automobiles. Students receive academic credit for their involvement with VRI projects.

Placement

The Department of Technology does not comprise a vocational/technical program to the extent that it seeks to guarantee placement upon graduation. However, in its history the department has enjoyed one of the highest placement records of any program at Western, and the demand for technology graduates continues to be high. Technology majors study a balanced program of both relevant technology and the liberal art which allows them to stand in an advantageous placement position regardless of the nature of current economic conditions. In short, technology does not rely upon narrow vocational goals and does not justify its effort solely upon placement possibilities. However, it is proud of its placement record and a prognosis which appears to be excellent.

The Western Design Center

The Western Design Center (WDC) is a vehicle which serves to provide students with realistic design problems which are drawn from the actual needs of the surrounding area. The WDC is in constant correspondence with various governmental, charitable and similar non-profit agencies in order to seek out design problems which
can be structured into assignments for the design students of technology. These assignments, then, become on-the-job situations and involve students in actual work with design clients.

Students interested in Design Center projects should consult the WDC personnel in technology.

MAJORS

Six undergraduate majors are administered by the department, i.e., Industrial Arts Teacher Education, Industrial Design, Industrial Technology, Manufacturing Engineering Technology, Visual Communications Education, and Vocational Industrial-Technical Teacher Education. All six of these majors lead to the Bachelor of Science degree.

Industrial Arts Teacher Education

This teacher preparation program has been offered for over 80 years and is a traditional strength at Western. The program prepares teachers of technical subjects for the junior and senior high schools and has been approved by the Office of the Superintendent of Public Instruction. Graduates also meet the academic requirements for Industrial Arts Vocationally Approved Certification.

For elementary teachers, industrial arts offers an activity approach to all subjects and ways of installing career awareness in the entire elementary program.

Industrial Design

The industrial design program is intended to provide students with a means of expressing creative ideas. It should help each individual develop the expression of attitudes, function and humanitarian aesthetics in terms of industrial tools, techniques, operations and processes.

The design program provides each graduate with a foundation for understanding creative problem solving, for appreciating interrelationships of humanitarian philosophy, technological capabilities and aesthetic expression. The course arrangement is designed to prepare professional graduates to enter our industrial culture as designers, planners, managers, illustrators, or specialists in industrial production or marketing. A complete description of the program is offered in this catalog under “Interdisciplinary Programs.”

Industrial Technology

Industrial technology prepares graduates to enter supervisory and management levels of technical industries. The major provides a general understanding of tools, materials and processes used in industry, a fundamental supporting background in business and/or economics and depth in some technical phase or specific technical industry. Positions taken by recent graduates include the following: Tool and Production Planning, Material Control, Tool Illustrator, Industrial Engineer. This program has been accredited by the National Association of Industrial Technology.

Manufacturing Engineering Technology

This major is designed for those students interested primarily in the technical aspects of the manufacturing industries. Students in this program take courses related to specific manufacturing technologies and a prescribed sequence of courses in science and mathematics. Positions taken by recent graduates include the following: Manufacturing Methods Analyst, Production Planner, Production Supervisor, Production Management. Prospective students are encouraged to include physics, chemistry and mathematics in their high school preparation.

Visual Communications Education (VICOED)

Growing out of an earlier graphic arts program, the Ford Foundation funded an innovative and interdisciplinary pilot program called visual communication education (VICOED). This program seeks to develop communicators who understand the processes of communication and who can select and use the appropriate elements (graphic arts, television, film, technical illustrations, photography, etc.). Graduates of this program have been placed in a variety of media-related positions in industry, government and education. Increasingly, schools, colleges and universities have sought VICOED graduates as media specialists in instructional technology. It should be noted that the VICOED program is carefully structured and extensive in nature; it is advantageous therefore for interested students to seek advisement and enrollment in VICOED early in their university careers. A complete description of the program is offered in this catalog under the “Interdisciplinary Programs” listing.

Vocational Industrial-Technical Teacher Education

This degree program is designed to meet the
needs of those individuals entering the field of vocational education. It is specifically designed for those individuals in the trade, industrial and technical education fields. It is the responsibility of the individual to meet the Washington State Certification requirements for trade, industrial and technical vocational education teachers. The professional vocational education courses that are a component of this degree program are set up to meet the state certification standards. It is recommended that individuals entering this degree program possess the necessary qualifications to meet the work experience component of the Washington State Vocational Education certification standards.

It is strongly recommended that students who intend to major in technology programs be prepared by attaining basic knowledge of algebra, trigonometry, chemistry and physics. This experience may be provided in high school programs or in foundation college courses. Early advisement is essential for effective planning of your curriculum.

**TECHNOLOGY FACULTY**

Associate Professor. BS, Purdue University; MS, MIT. PhD, Texas A & M.

JOSEPH E. BLACK (1967) Associate Professor. BS, Lehigh University; BME, Cooper Union. New York; MME, New York University; PhD, Lehigh University. Registered Professional Engineer. Washington and California.

ROBERT D. EMBREY (1971) Associate Professor. BA, MA, MFA. University of Oregon.

KENT A. GOTO (1979) Assistant Professor. BS, Chadron State College; MS, Kearney State College. EdD. University of Northern Colorado.

CLYDE M. HACKLER (1974) Associate Professor. BS, Eastern Kentucky University; MEd. University of Illinois; EdD. University of Maryland.

CLAUDE E. HILL (1967) Associate Professor. BA, MA. University of Washington.

FRED A. OLSEN (1951) Professor. BA, University of Washington; MS. Stout State University. EdD. The Ohio State University.

SAM R. PORTER (1952) Professor. BA, Iowa State Teachers College; MA. Teachers College. Columbia University; EdD. University of Missouri.

RAY A. SCHWALM (1945) Professor of Technology and Director, Visual Communications Education. BS, Millersville State College. MS, EdD. Oregon State University.

MARVINA. SOUTHCOULT (1959) Associate Professor. BA, University of Washington; MPA, Maryland Institute; IDSA.

JOHN L. UNDERWOOD (1980) Assistant Professor. BS, MS. Eastern Kentucky University.

ELS M. VASSDALL (1977) Assistant Professor. BS, MEd. Western Washington State College.

RICHARD F. VOGEL (1971) Associate Professor. BA, MAT. Washington State University; EdD. Texas A & M University.

**BACHELOR OF SCIENCE**

Major — Industrial Arts Education

Teacher Education

80 credits minimum (including supporting courses)

- **Breadth requirement — 36-37 credits**
  From the following: Tech 210, 213, 223 or 225, 231, 240, 271, 280, 333

- **Depth requirement — 16 credits**
  (From one or more of the following areas under advisement)
  1. Graphic Communication Technology (industrial graphics, photography, industrial design)
  2. Materials and Manufacturing Technology (woods, metals, materials science, plastics, crafts)
  3. Mechanical and Electrical Technology (electricity, electronics, power mechanics)

- **Supporting Courses — 14-17 credits**
  Tech 391, one course in each of the following under advisement — computer science, physics, chemistry

- **Professional — 14 credits**
  Tech 302, 438, 491, 493, 496, 499

These courses are to be taken concurrently during the junior or senior year. They will be scheduled on a daily basis and usually constitute a total course load for each student. A $10 lab fee is charged for printing/materials.

The courses are taught on a competency-based model, with pedagogical, technical, managerial and professional competencies listed for achievement by candidates. Through problem-solving activities in a school industrial arts laboratory setting, students demonstrate competency to an acceptable level and will not receive credit for course work until such competence is clearly shown.

**INDUSTRIAL ARTS TEACHER EDUCATION - "RETREAD PROGRAM" — SUPPORTING ENDORSEMENT**

This program is for teachers who are presently certified to teach in a subject area other than industrial arts. Because the background presented by each candidate varies greatly, each transcript and educational background is assessed separately and a "Training Agreement" is written. Upon meeting the terms of the agreement the candidate will receive a letter indicating the completion of a program "equivalent to the undergraduate major in Industrial Arts Education." A similar letter is sent to the Credentials Officer of the Superintendent of Public Instruction in Olympia. The content of each "Training Agreement" depends upon the college work completed prior to its writing.
Minor  25 credits

Courses selected under departmental advisement. Does not lead to industrial arts teacher certification.

Teaching Competence

Completion of the major with an overall GPA of 2.5 or higher leads to a teaching endorsement in industrial arts at the secondary level.

Contact Office of Admissions and Advisement in Miller Hall 202 for information concerning professional studies programs.

Major — Technology

Option I — Industrial Technology  110 credits (includes Supporting Courses)

- Technology Core — 27 credits: Tech 210, 220, 223, 231, 270, 333
- Technology Emphasis — 30-33 credits. From one or more of the following areas:
  1. Graphic Communication
  2. Materials and Manufacturing
  3. Mechanical and Electrical
- Supporting Courses — 59-60 credits: Mathematics — 11-14 credits, Math 105, 124, or Math 155, 156, any computer science programming course
  Science — 15 credits. Chem 115 or Chem 121, Physics 131, Chem 251, or Physics 132 Management — 24 credits, Acct 241, BA 271, Econ 202, BA 301, plus two courses from the following: BA 303, 322, 330, 401, 425, 432

Option II — Manufacturing Engineering Technology  104-105 credits

- Support Courses — 39 or 40 credits: Math 105, 124, 341; any computer science programming course; Chem 121, 122; Physics 131, 132; Eng 401

Careful selection of elective courses may qualify the Manufacturing Engineering Technology graduate for entry into the master's degree in business administration. Consult with adviser.

Minor — Option I or II  25 credits

Courses to be selected under departmental advisement.

Visual Communications (VISOED) Concentration

See Interdisciplinary Programs section for specifications.

Industrial Design

See Interdisciplinary Programs section for specifications.

Major — Vocational Industrial-Technical Teacher Education  110 credits

- 59 credit hours in technical courses, as follows:
  1. 45 credits for occupational competency
  2. 45 credits in selected courses in area of specialization, or
  3. Combination of (1) and (2) to total minimum 45 credits, plus
  4. 14 credit hours in area of specialization or courses that are related to or complement the area of specialization (these courses will be selected under advisement of the major adviser to provide the student with maximum depth in his particular occupational area and may well be of a scientific or technical nature)

- Tech 392, 394, 490, 490a, 493, 495, 498, plus 9 credit hours selected by advisement from Tech 215, 391, 483, 492, 496, to total 44 credits in professional vocational education

- 7 credits in psychology: Psych 351, 353

GRADUATE STUDY

For a concentration in Industrial arts leading to the degree of Master of Education, see Graduate section of the catalog.

COURSES IN TECHNOLOGY

Courses numbered X37; X97; 300, 400, 417; 445 are described on page 28 of this catalog.

101 ORIENTATION TO INDUSTRIAL ARTS AND TECHNOLOGY (2)

The areas of technology, programs of studies, and career opportunities. Recommended for freshmen and new transfer students who seek information on the area. S/U grading.

131 WOODCRAFTING (3)

Characteristics and uses of wood as a medium of design, aesthetics and creative expression. Emphasis on handcrafting, technical information and experience with wood, hand tools and finishes. Innovative and historical use of wood in folk arts, useful objects, furniture, sculpture and art.

210 INDUSTRIAL GRAPHICS (5)

Introduction to basic concepts of technical communication in industry through freehand sketching and instrument drawing of three-dimensional objects. Introduction to team dynamics through creative problem solving.
210b INDUSTRIAL GRAPHICS (3)
Prereq: enrollment limited to VICODD majors. Introduction to basic concepts of technical communication in industry through freehand sketching and instrument drawing of three-dimensional objects.

211 INDUSTRIAL GRAPHICS (4)
Prereq: Tech 210 or equivalent. Preparation of working and assembly drawings of machine parts with emphasis on individual creative problem solving through tolerances and positional dimensioning, auxiliary views, sections and use of product catalogs to select and size components.

213 DESIGN DEVELOPMENT FOR INDUSTRIAL ARTS (3)
Prereq: T.A. teacher education major, or permission of the instructor. Basic design fundamentals applied to industrial arts teaching. Development of creativity with application to school projects and design problems.

214 FUNDAMENTALS OF PRODUCT DESIGN (5)
Basic aesthetics of form, color and space in a variety of media include two- and three-dimensional designing and application of basic design principles with emphasis on hand-drawn drawings. Considered preliminary to design courses with graphic media, material sciences and industrial design.

215 EVOLUTION IN INDUSTRIAL DESIGN (3)
Interrelationship of the arts, science, and society designers, their philosophies and resultant impact on culture.

220 MATERIALS TECHNOLOGY (4)
Prereq: Physics 131, and Chem 115 or 121. The structure and properties of industrial materials: metals, ceramics, polymers, cements, glasses and composites.

221 WELDING (3)
Basic concepts in welding to include shielded metal arc welding, oxy-acetylene welding, welding symbols, heat treatment, soldering and brazing, survey of processes.

222 PATTERN MAKING AND FOUNDRY (3)
Prereq: Tech 231. Tools, materials and techniques used to produce foundry patterns and principles and practices employed in the contemporary metal-casting industry.

223 MACHINE METAL PROCESSES (5)
Prereq: Tech 210 recommended. Basic concepts and skills in machine metal processes; shaping metal by machine tools, chipless machining, automation of machine tools and cold forming processes.

224 INTRODUCTION TO STRENGTH OF MATERIALS (3)
Prereq: Physics 131, and Math 124 or 128. Elementary statics; stress, strain, and deflection of torsional members and beams.

225 GENERAL METALS FOR INDUSTRIAL ARTS (5)
A survey course in metals processes designed to prepare industrial arts teachers for instruction in the general shop format, particularly at the middle school level.

231 GENERAL WOODS (4)
Prereq: Tech 210 recommended. Introduction to basic industrial tools and machines used in processing wood materials, custom design and fabrication of wood products. Technical information related to processes.

240 VISUAL COMMUNICATION (6)
Survey of the visual communication field including visual communication theory, information design, reproduction, presentation and management. Involves the print and non-print media.

260 GENERAL PHOTOGRAPHY (4)
Fundamentals of film developing, enlarging, print finishing. Basic elements of black and white composition and visualization.

270 BASIC ELECTRICITY (4)
Principles and concepts of electricity, laboratory experiences with electrical components, circuits and measuring equipment.

271 ELECTRONICS FOR INDUSTRIAL ARTS (5)
Prereq: declared major in industrial arts. Basic principles and concepts of electricity/electronics. Techniques and projects useful in teaching electricity/electronics in the secondary schools.

290 POWER MECHANICS (5)
Design principles of major power sources; techniques of torque and power measurement. Chassis dynamometer testing and part air flow testing.

281 POWER TRANSMISSION (5)
Principles and practices of mechanical and fluid transmission of power. Theory and practice of over-running clutches and rolling drag reduction testing.

301 CRAFTS (3)
Design and construction in a variety of craft materials.

302 MAINTENANCE OF INDUSTRIAL EQUIPMENT (3)
Prereq: Tech 225, 231, 271. This course will include a survey of industrial maintenance procedures as well as dealing with specific job problems encountered by instructors in the industrial education subject. Major units of study include industrial maintenance systems or procedures, maintenance of specific stationary machines and hand tools in the following areas: industrial plastics, industrial wood processing, machine metals, automotive maintenance systems. Offered summer only.

333 FINISH PRINCIPLES AND PRACTICE (3)
Introduction to modern finishing materials and processes.

339 ENGINEERING DESCRIPTIVE GEOMETRY (4)
Prereq: Tech 210 and/or 211. A practical application of concepts and principles of engineering descriptive geometry. Application of creative problem solving through term project.

310 TECHNICAL ILLUSTRATION (3)
Prereq: Tech 210 or equivalent. Preparation of three-dimensional pictorial drawings including an introduction to rendering techniques.

311 APPLIED PERSPECTIVE AND RENDERING (4)
Prereq: Tech 210; recommended Tech 214 and 510. The techniques and skills in rendering of buildings, interiors, and products in perspective. Projects include a comprehensive study of perspective systems and shadow construction in various media. Intended to develop student's ability to sketch informally and present formally ideas pertaining to the expression of architectural subjects, interiors, and products of industrial design.

312 ADVANCED DRAFTING (3)
Prereq: Tech 211. Problems in machine drawing and layout. Visitation to observe current drafting practices in industry.

313 ARCHITECTURAL DESIGN AND HOUSE PLANNING (3)
Prereq: Tech 210. Historical development; considerations of design; analysis of needs; utilization of sites, preparation of plans.
315 INDUSTRIAL DESIGN PROCESSES (5)
Prereq: Tech 210, 214, 311 and approval of adviser. Design as a process of problem solving; problem recognition, definition, resolution, and presentation; analysis of market and motivational research techniques.

316 DIMENSIONAL ANALYSIS IN INDUSTRIAL DESIGN (5)
Prereq: Tech 315 and approval of adviser. Application of multi-view projections, pictorials, mock-ups and prototypes to the resolution of human factors design problems.

320 ADVANCED MACHINE METAL PROCESSES (4)

321 MECHANICS OF MATERIALS (3)
Prereq: Tech 224. Internal response of structural members to forces; principal stresses and strains; and combined stresses.

322 INDUSTRIAL METALLURGY (3)
Prereq: Physics 131 and Chem 121. Production of the common metals from their ores, industrial processing, heat treatments and alloying; properties of metals as related to manufacturing operations.

328 METALLOGRAPHY (2)
Prereq: Tech 325 or concurrent. Microscopic and related techniques applied to metal specimens.

331 ADVANCED WOODS (4)
Prereq: Tech 231. Skill and development in the more complex woodworking processes with related information on the woodworking industry.

332 WOOD TECHNOLOGY (4)
Prereq: Chem 116 or 121. Basic introduction to the physical and mechanical characteristics of wood. Its structure, composition and identification. New developments in the wood products field receive particular attention

333 PLASTICS (3)
Prereq: General education chemistry. Tech 231 recommended. Polymer science and analysis of basic plastics materials. Experience in product design, tooling, and processing of thermoplastic and thermosetting materials.

335 TOOLING FOR PLASTICS PROCESSING (3)
Prereq: Tech 333. Design and construction of various types of production molds that are used for processing plastics in final shape. Product design in relationship to molding techniques and various techniques and materials used to construct the molds will be the major units of study.

Dr. Michael Seal and a student tackle a problem.
Technology

340 GENERAL GRAPHIC ARTS I (3)
Preq: Tech 240. Graphic arts technology as related to reproduction of graphic design techniques.

341 GENERAL GRAPHIC ARTS II (5)
Preq: Tech 340. Techniques, processes, and products of the graphic arts industry, designing, reproducing, presenting, and managing graphic materials.

344 FILM ANIMATION (3)
Preq: Tech 249, 260 and permission of instructor. The theory and application of animation techniques in Super 8mm film or 16mm film.

350 INDUSTRIAL ARTS FOR THE ELEMENTARY TEACHER (3)
An activity approach to the study of technology — its tools, materials, products, processes and occupations and integration with the areas of the elementary school curriculum.

360 ADVANCED PHOTOGRAPHY (3)
Preq: Tech 260. Stresses photographic visualization and the development of personal style through concentrated studies of light and design, filters, the zone system, view camera, specialized materials and processes, archival processing, and historical and contemporary trends in American photography.

363 COLOR PHOTOGRAPHY (3)

370 BASIC ELECTRONIC CIRCUITS (4)
Preq: Tech 270. Theory and application of power supplies, amplifiers, oscillators and digital circuits.

371 SEMICONDUCTORS (4)

579 VISUAL COMMUNICATION ELECTRONICS (3)
Preq: Tech 341. Principles and applications of instrumentation, electronic systems and computer graphics technology in the communication industry.

380 ADVANCED POWER MECHANICS (3)
Preq: Tech 280. Efficiency determinants, power measurement, development of concepts introduced in Tech 280.

381 ADVANCED POWER TRANSMISSION (3)
Preq: Tech 281. Practical application of hydraulic and mechanical theory as applied to automatic transmissions.

382 AUTOMOTIVE ELECTRICITY (2)
Preq: Tech 270 or 260. Basic principles of electrical components and systems of the automobile and other engines.

383 HYDRAULICS AND PNEUMATICS (3)
Preq: Math 105, Physics 131. A course in the transfer, amplification and control of mechanical power in fluid systems.

381 TECHNOLOGY AND HUMAN VALUES (3)
Visits, lectures and discussion; various aspects of technology are examined for their impact upon the values of the individual and society.

392 INDUSTRIAL AND OCCUPATIONAL COURSE ORGANIZATION (3)
This course is designed to provide the student with an opportunity to apply the principles and practices involved in planning and organizing courses of study for industrial and occupational instructional purposes.

394 OCCUPATIONAL ANALYSIS (3)
Preq: professional involvement in trade, industrial, technical or health occupations; vocational education or upper division standing. Basic principles and techniques for performing analysis operations to develop course context for trade, industrial, technical or health occupations; vocational education areas of instruction; designed to meet vocational teacher education certification requirements as described in the Washington State Plan for Vocational Education.

402 COOPERATIVE WORK/STUDY (1-15)
Preq: junior standing; approval of advisor. Supervised study of technical problems associated with production and/or management in business and industry. Credit varies according to individual employment circumstances, the degree requirements of the applicant and the extent to which employment is related to major.

413 ARCHITECTURAL PROBLEMS (3)
Preq: Tech 313. Advanced residential planning, cost estimating, FHA standards, building codes, individual and group research.

415 PRODUCT SYNTHESIS IN INDUSTRIAL DESIGN (5)
Preq: Tech 316 and approval of advisor. Preparation of a portfolio of research sketches; working drawings and renderings in the creation of a mock-up or prototype of an original or modified product.

416 STRUCTURAL-AESTHETIC FACTORS IN INDUSTRIAL DESIGN (5)
Preq: Tech 415 and approval of advisor. Technological principles applied to consumer products; problems related to functional and emotional factors of environmental design involving space, structure, furniture and lighting and acoustics.

416 DESIGN CENTER RESEARCH PROJECT (1-3)
Preq: Tech 214 or Home Econ 101. Directed research in design under the auspices of the Western Design Center. May be taken three times.

419 DIRECTED RESEARCH IN DRAFTING/DESIGN (1-3)
Preq: Tech 211. Research problem in drafting or design conducted under supervision. May be taken three times.

421 COMPUTER AIDED MANUFACTURING (3)
Preq: one course in computer programming. Computer integrated manufacturing, numerical control part programming with emphasis on APT and automation.

422 MANUFACTURING ORGANIZATION AND MANAGEMENT (3)
Preq: a course in computer programming. Manufacturing organization, process planning, operations scheduling and control, facilities layout, and materials requirements.

423 INDUSTRIAL QUALITY ASSURANCE (3)
Preq: Math 124 or 156, and a course in computer programming. Quality assurance as applied to industrial manufacturing operations.

424 MANUFACTURING IMPLEMENTATION (3)
Preq: Tech 210 and 223 required; Tech 221, 222, 320 highly recommended; permission of instructor. Design, fabrication and employment of jigs, fixtures and special tools for manufacturing; experience in organizing, analyzing and modifying line production processes. A comprehensive mechanical product will be manufactured.

426 NUMERICAL CONTROL OPERATIONS (1)
Preq: Tech 223 and one course in computer programming. This course provides students with the opportunity to actually program simple parts for NC manufacture and to set up and operate NC equipment using their own programs.
Technology

428 DIRECTED RESEARCH IN MATERIAL SCIENCE (1-3)
Prereq: permission of instructor. Research under supervision in an area of material science. May be taken three times.

429 DIRECTED RESEARCH IN METALS (1-3)
Research under supervision within one of the areas of metals technology. May be taken three times.

431 WOODCARVING (3)
Prereq: art or industrial arts teaching experience.

432 WOOD SCULPTURE AND DESIGN (3)
Prereq: Tech 431.

433 ADVANCED PLASTICS (3)
Prereq: Tech 333. Concepts of polymer science; study of structure, properties and applications of plastics materials; design and development of plastics molding; analysis and experiences in thermoplastics molding and forming processes.

434 REINFORCED PLASTICS/COMPOSITES (5)
Prereq: Tech 333. Resin and reinforcement systems; material testing and strength analysis; mold design and development; theory and involvement in reinforced plastics production processes.

435 INSTRUCTIONAL RESOURCES IN PLASTICS (1-3)
Includes understanding of plastics materials and processes. Development of instructional aids, teaching devices, curricular materials and project ideas for secondary school activities. Offered during summer session or through Continuing Education.

438 DIRECTED RESEARCH IN PLASTICS (1-3)
Prereq: Tech 333, 433 or 434 or 355. Selection, development and research, under supervision, within one of the areas of plastics technology. Repeatable.

439 DIRECTED RESEARCH IN WOODS (1-3)
Prereq: Tech 231, 331. Selection, development and research, under supervision, within one of the areas of wood technology. May be taken three times.

440 GRAPHIC DESIGN (5)
Prereq: Tech 280 and 341. Principles and application of effective visual communication, design, and reproduction.

441 VISUAL COMMUNICATION SERVICES MANAGEMENT (5)
Prereq: Tech 341. Estimating and pricing, simplified cost accounting; organization and administration of visual communication services; production, quality and color control instruments and techniques. Lab fee.

442 ELECTRONIC NEWS GATHERING (2 ea)
Prereq: Speech 242 and permission of instructor. Shooting on-location news stories and mini-documentaries. Stories to be aired as part of the "Western View" television newscast. Repeatable to maximum of 6 credits.

443 MULTI-MEDIA PROGR Aiming (5)
Prereq: Tech 240, 250, 340, 341, 440. Concept development and production techniques for multi-media presentations for educational and professional purposes.

444 COMPUTER PHOTOGRAPHY (3)
Prereq: Tech 240, 340, 341 and Computer Science 110 or 107 and permission of instructor. The theory and practical applications of computer-operated photocomposition equipment.

445 ADVANCED PHOTOGRAPHY AND ITS APPLICATIONS (5)
Prereq: Computer Science 107 (or 110 or 210), Art 371 or Tech 440, 444 and permission. Current problems and advances in the typesetting industry with advanced applications of computer-operated photocomposition and typograph y.

447 PUBLICATION PRODUCTION (3)
Prereq: concurrent enrollment in Tech 448. Experiences in design, layout, and production of publications through printed media, film, television, or other means.

448 VISUAL COMMUNICATION (5)
Prereq: completion of the VICOED sequence. Synthesis of basic concepts, models, and theories, the perceptual, social, cultural, and technological determinants of visual form, style and content.

449 DIRECTED RESEARCH IN VISUAL COMMUNICATION (1-3)

450 CAREER DEVELOPMENT ACTIVITIES (1-3)
Prereq: teaching experience or senior status in teacher education. An activity approach to the relationships between occupations, the process of occupational choice, and aspects of the elementary school curriculum. Examples and applications for incorporating career concepts into the regular curriculum. Skill development in the use of constructive classroom activities.

451 INTRODUCTION TO VALIDATED PROGRAMS (1-4)
Prereq: teaching experience at appropriate level. A survey of selected educational programs which have been validated to be included in the National Diffusion Network. Programs presented vary with student populations (elementary, secondary, special interest) and are presented by the staff of the funded program.

452 INDIVIDUALIZING INSTRUCTION FOR OCCUPATIONAL VERSATILITY (3)
Prereq: teaching experience.

453 STUDENT MANAGEMENT SYSTEMS (3)
A class designed for teachers wishing to incorporate the student management and direction system of the "Occupational Versatility" program.

459 DIRECTED RESEARCH IN INDUSTRIAL ARTS FOR THE ELEMENTARY SCHOOL (1-3)
Prereq: Tech 350. Developing industrial arts content with emphasis on the relationships between industrial arts and the elementary school curriculum. May be taken three times.

450 ADVANCED SEMINAR IN PHOTOGRAPHY (3)
Prereq: Tech 360 or 365. Application of photographic theory and techniques to selected problems. May be repeated for credit.

458 PHOTOGRAPHY WORKSHOP FOR TEACHERS (1-4)
The workshop stresses the fundamentals of photography. Included are basic film developing and printing, how to see with the camera, and a familiarization with the history and application of the medium. The work of well-known photographers will be discussed. Of interest to teachers on all levels from college to elementary school who wish to incorporate photography in the classroom or simply expand their own awareness of the potentials of the medium. Skills and knowledge of photography will be developed by laboratory, lecture, fieldwork and discussion. Each student will be assigned an individual enlarger, and lab time will be unit priced. A camera is required for the course.
469 DIRECTED RESEARCH IN PHOTOGRAPHY (1-3)
Prereq: Tech 260. Research problems in photography chosen and conducted under supervision. May be taken three times.

473 DIGITAL ELECTRONICS (4)

474 PROCESS CONTROL AND INSTRUMENTATION (5)
Prereq: Tech 473. A study of measurement and control techniques and devices used in manufacturing processes. Use of the microprocessor will be emphasized. Laboratory experiences with control devices and systems will be provided.

479 DIRECTED RESEARCH IN ELECTRICITY (1-3)
Prereq: Tech 371. Advanced study in problems chosen and conducted under supervision. May be taken three times.

480 SAFETY EDUCATION (3)
The cause, incidence, and effect of home, school, recreational and vocational accidents; education programs and practices to reduce accidents. (Normally offered summers.)

481* BASIC DRIVER AND TRAFFIC SAFETY EDUCATION (3)
Knowledge, attitudes and skills needed to teach driver education in the secondary school/casroom instruction and in-the-car teaching experiences. (Normally offered summers.)

482* ADVANCED DRIVER AND TRAFFIC SAFETY EDUCATION (3)
Driver and traffic safety and methods of teaching in the secondary school/casroom and in-the-car teaching experience. (Normally offered summers.)

483* DIRECTED RESEARCH IN DRIVER AND TRAFFIC SAFETY EDUCATION (1-3)
A special problem in driver and traffic safety. (Normally offered summers.)

484 VEHICLE DESIGN (5)
Prereq: Tech 260, 360 or permission of instructor. Suspension design, chassis design, spring rates, tire design parameters, automobile aerodynamics, brake system. (Offered summer only.)

485* DRIVING SIMULATORS AND MULTIPLE-CAR DRIVING RANGES (3)
Prereq: Tech 481 and 482 or concurrent enrollment. Aims, objectives and role of laboratory programs in driver and traffic safety education. Directed experiences in both the simulator and multiple-car driving range methods of laboratory instruction. This course or Tech 487 is required for certification of high school driver education teachers. (Offered alternate summers.)

487* ORGANIZATION, ADMINISTRATION AND SUPERVISION OF TRAFFIC SAFETY EDUCATION PROGRAMS (3)
Prereq: Tech 481 and 482 or concurrent enrollment. Organizational, administrative and supervisory aspects of traffic safety education programs in the public schools. (Offered alternate summers.)

*Not applicable to undergraduate or graduate programs in technology.

488 SAFETY PRINCIPLES AND PRACTICES FOR INDUSTRIAL EDUCATION TEACHERS (2)
This is a basic course in safety practices for industrial education teachers in grades 1-12 and for vocational teachers who must meet state certification requirements.

490 DIRECTED RESEARCH IN POWER MECHANICS (1-3)
Prereq: Tech 280, 381. Advanced study in problems chosen and conducted under supervision. May be taken three times.

490a PRACTICUM IN SUPERVISED TEACHING OF INDUSTRIAL AND TECHNICAL EDUCATION PROGRAMS (16)
Prereq: open to majors in industrial and technical education during their senior year with departmental approval upon completion of Tech 392, 393, 394 and 495. Supervised experience providing opportunity to develop and demonstrate teaching competency at the secondary and post-secondary level in the area of industrial and technical education.

490a SEMINAR IN SUPERVISED VOCATIONAL TEACHING (1)
Prereq: concurrent enrollment in Tech 490. Practicum in Supervised Teaching of Industrial and Technical Educational Programs.
Technology

451 HISTORY AND PHILOSOPHY OF VOCATIONAL EDUCATION (3)
Evolving issues, objectives, programs and legislation in vocational education.

452 FACILITIES FOR INDUSTRIAL ARTS (3)
Prereq: senior standing in teacher education. Planning, development and utilization of industrial arts facilities.

453 THE TEACHING OF INDUSTRIAL ARTS (4)
Prereq: admission to teacher education. Derivation and organization of content for industrial arts; principles, procedures, and problems in the teaching of laboratory courses, prerequisite to directed teaching in industrial arts.

455 EVALUATION IN INDUSTRIAL AND OCCUPATIONAL EDUCATION (3)
Measuring student progress, preparation of measuring devices, interpretation of standardized test results, analyses of test data and the improvement of instruction.

456 COMMUNITY AND INDUSTRIAL RESOURCES (1-3)
A study of those resources available in the community and how they can be used to enhance the educational experience of students engaged in formal schooling.

457 STUDENT LEADERSHIP DEVELOPMENT (3)
Prereq: professional involvement in trade, industrial, technical or health occupations vocational education or upper-division standing. Basic principles and techniques for effecting student leadership development in their respective vocational education programs. Designed to meet vocational teacher education certification requirements as described in the Washington State Plan for Vocational Education.

499 SENIOR PROJECT (1-3)
Prereq: junior or senior standing; technology major. The demonstration of competence in the major through a culminating project which presents a written, oral, and photographic summary of work done in the major or of a comprehensive senior-level project.

Graduate Courses
Courses numbered 500, 517, 545, 597 are described on page 28 of this catalog.
Admission to Graduate School or special permission required. See Graduate section of this catalog.

540 VISUAL COMMUNICATIONS TECHNOLOGY (3)
Prereq: undergraduate concentration in the visual communication field. The technological changes in the visual communication industry and the responses.

544 SEMINAR: CURRENT VISUAL COMMUNICATIONS TOPICS (3)
Prereq: undergraduate concentration in the visual communication fields. Research and discussion concerning pertinent problems in the visual communication industry.

553 FOUNDATIONS OF VOCATIONAL EDUCATION (3)
Examination of the historical and philosophical foundations of vocational education. Major legislation, social and economic factors which have influenced the development of vocational education will be considered as well as the scope and purpose of vocational education as it relates to education in general.

580 DEVELOPMENTS IN AUTOMOTIVE EMISSION CONTROL SYSTEMS (3)
Prereq: Tech 280 and 360 or permission of instructor. Experimental research in emission control of laboratory engines. Topics center around temperature control on NOx, new methods of optimizing volumetric combustion and thermal and catalytic exhaust treatment.

590 CURRICULUM PROBLEMS IN INDUSTRIAL EDUCATION (3)
Derivation and organization of content and experience for industrial arts courses.

591 INDUSTRIAL TECHNOLOGY (3)
Development of trade, technical, industrial technology; motivating forces, philosophical concepts, issues, trends.

592 CURRICULUM DEVELOPMENT IN INDUSTRIAL ARTS (3 ea)
Prereq: public school teaching experience in the area of concern. Development of content, laboratory experiments, projects and teaching aids useful in updating specific industrial arts curriculum knots to include recent and current industrial developments in that curriculum area.

592a Electronics
592b Drafting/Design
592c Metals
592d Plastics
592e Power Mechanics
592f Woods
592g Voced
592h Photography
592j Man/Technology
592k Manufacturing
592m Construction

593 SUPERVISION OF INDUSTRIAL EDUCATION (3)
Prereq: teaching experience in industrial education. Principles and practices of supervision of industrial education at the state, district and department level. Responsibilities of district directors and department chairpersons.

594 RESEARCH IN INDUSTRIAL ARTS (2)
Readings and discussion in current research topics in industrial arts.

595 GRADUATE SEMINAR (2)
Contemporary issues in industrial arts.

596 FIELD EXPERIENCE IN VOCATIONAL EDUCATION ADMINISTRATION (2-12)
Prereq: permission of graduate adviser. Development of an on-the-job problem/project in vocational education administration under the supervision of a state-certified administrator and WWU faculty. A field project report is required.

599a-h TECHNOLOGICAL DEVELOPMENTS (1-5)
Prereq: teaching experience in the area of study. Familiarization with latest technological innovation in area of concern. Class activities will involve assigned readings, laboratory experiments, industrial visits and written reports.

599a Electronics
599b Drafting/Design
599c Metals
599d Plastics
599e Power Mechanics
599f Woods
599g Voced
599h Photography

314
Theatre/Dance

College of Fine and Performing Arts

The Department of Theatre/Dance offers academic majors and minors in both dance and theatre. The programs provide pre-professional training for those intending to pursue a career in the world of theatre and dance. The degree programs also provide a thorough background for those who wish to seek advanced degrees or, in conjunction with other specialities, to prepare for teaching careers.

THEATRE

An active production schedule involving students in all aspects of the arts and crafts of theatre makes theatre studies at Western exciting and fun. The class and studio work is related to the many productions whenever possible. The classes that lead to the Bachelor of Arts degree are set up so that students can learn how all the parts of theatre work fit together in theory as well as in practice. Every student chooses her or his own area of special studies: acting, directing, technical theatre, etc.

During the school year, a regular program of faculty directed and choreographed shows is produced. Plays range from the classics to musical comedy and recent Broadway offerings. In addition, some 30 to 40 student-generated productions are presented in connection with undergraduate and graduate theatre production course projects.

Western Theatre and Dance On Tour puts two or three productions into the public schools of Western Washington and nearby portions of British Columbia, playing to over 30,000 persons.
DANCE

Dance study leading to the Bachelor of Arts degree offers courses in dance technique (modern, ballet, jazz), choreography, history and philosophy of dance. An emphasis is placed on performance and choreographic skills with studio or main stage public performances offered every quarter and a lecture/demonstration dance tour scheduled for winter quarter. Choreographic independent study is possible with attention paid to individual problems and needs. Aside from the regular degree in dance, it is possible in conjunction with the School of Education to earn an extended teaching minor (36 credit hours) in dance.

THEATRE/DANCE FACILITIES

Theatre/dance students at Western currently "learn by doing" in a variety of special classrooms including a 1,200-seat proscenium theatre, a 200-seat modified thrust proscenium theatre, a well-equipped dance studio and related support facilities including costume, make-up, scene and paint shops. Two experimental theatre studios plus support facilities are also available for student use.

For information and guidance, contact the chairman of the department, Mr. Dennis Catrell, Performing Arts Center 385 (206) 676-3878. Graduate students should contact the chairman.

BACHELOR OF ARTS

Major — Theatre 85 credits

- Required core (49 credits):
  - Th/D 101, 160, 201, 212, 222, 231, 250, 285, 322, 370, 360, 428a or 428b or 428c, and two courses selected from 325, 327, 328, 421, 422, 423, 480
- Concentration (18 to 20 credits) selected from:
  a. Acting: Th/D 260, 360, 460 (each repeated once)
  b. Children's Theatre: Th/D 350, 351, 450, 452 and 6 credits under advisement
  d. Directing: Th/D 260, 314, 470, 471 and 3 credits under advisement
  e. Literature: Th/D 225, 237, 328, 421 or 422 or 423, 480
  f. Dramatic Writing: Th/D 385, 485, 486, 487, 488
  g. Technical Theatre: Th/D 213, 311, 312, 313, 315, 411, 415
- Electives (16 to 18 credits):
  Th/D 215, 255, 256, 257, 314, 453, 462

Minor — Theatre 30 credits

- Th/D 101, 160, 212, 222
- One of Th/D 202, 231, 250, 260, 285
- One of Th/D 314, 322, 350, 370, 385
- Electives under advisement

Major — Dance 100 credits

- Theatre: Th/D 202, 231, 233, 333, 339, 343
- Dance Technique: Th/D 235, 236, 333, 339, 429, 440
- Dance Improvisation & Composition: Th/D 241, 242, 342, 442
- Music 128, Biol 348, Int Arts 110
- Elective courses — select 4 credits from the following courses: PE 326, Th/D 139, 232, 233, 234, 332
- Proficiency in technical skill above the beginning level should be established before taking a dance major

A minor is recommended in one of the following areas: theatre, music, literature, art.
Minor — Dance 30 credits

☐ Th/D 231 — recommended to be taken as part of the GUR program
☐ 6-8 credits selected from Th/D 336, 431, 432, 433, 434
☐ 12 credits from Dance Technique, 200 level or above
☐ 5-6 credits selected from Th/D 241, 242, 342, 442
☐ 3-4 credits under advisement

Extended Minor — Dance 36 credits

☐ Dance Theory & Literature: Th/D 231 (should be included as part of the GUR requirements), Th/D 336, 431
☐ Dance Technique: Th/D 333, 339
☐ Dance Improvisation/Composition: Th/D 241, 242, 233 or 234
☐ Dance Pedagogy: Th/D 434; PE 209, 326
☐ Electives under advisement

This minor is applicable to either the Bachelor of Arts degree or the Bachelor of Arts in Education degree.

Proficiency in technical skill above the 200-level technique courses should be established before taking this minor.

A student teaching experience through the School of Education is strongly recommended.

GRADUATE STUDY

For concentration in theatre and dance leading to the Master of Arts degree, see the Graduate section of the catalog.

A NOTE ON COURSE NUMBERING

In each level of course work (100, 200, 300, 400, and 500), the following numbering system has been used:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Number Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Film</td>
<td>01-09</td>
</tr>
<tr>
<td>Technical Theatre</td>
<td>11-20</td>
</tr>
<tr>
<td>Literature</td>
<td>21-30</td>
</tr>
<tr>
<td>Dance</td>
<td>31-45</td>
</tr>
<tr>
<td>Children's Theatre</td>
<td>50-59</td>
</tr>
<tr>
<td>Acting</td>
<td>60-69</td>
</tr>
<tr>
<td>Directing</td>
<td>70-75</td>
</tr>
<tr>
<td>History</td>
<td>80-84</td>
</tr>
<tr>
<td>Playwriting</td>
<td>85-90</td>
</tr>
</tbody>
</table>

Theatre 101 (Introduction to Theatre) and 600-level courses are not a part of this system.

It is possible to take an interdisciplinary Arts major with a concentration in Theatre/Dance. See Arts. Interdisciplinary, in the Interdisciplinary Programs section of this catalog for full details of the major.

COURSES IN THEATRE AND DANCE

Courses numbered x37, x97: 300, 400, 417; 445 are described on page 29 of this catalog.

Non-majors in dance are advised to take all technique classes Pass/Fail.

All 200-level and above technique courses are by audition at the first class meeting.

101 INTRODUCTION TO THE ART OF THE THEATRE (3)

An introduction to the nature of the theatre, to plays and the way they work, and to the arts of the theatre and the activities of those who perform them.

135 BEGINNING MODERN DANCE I (2)

The study of basic principles of dance movement in terms of placement, technique, and space, time, energy concepts. Emphasis will be on dance technique, creative movement experiences and developing an appreciation of the dance as an art form. Repeatable up to a maximum of 6 credits. Open to non-majors.

138 BEGINNING BALLET I (2)

An introductory study of basic principles of the ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Repeatable up to a maximum of 6 credits. Open to non-majors.

139 MODERN JAZZ DANCE (2)

Emphasis on control and isolation of body parts, rhythm and alignment. Repeatable up to a maximum of 6 credits.

150 INTRODUCTION TO ACTING (3)

Prereq: Th/D 101. Fundamentals of acting; emphasis on basic techniques and tools used by the actor, including improvisation, resume writing, auditioning, vocal, physical and emotional awareness. Although permission of the instructor is required to enroll, this course is open to majors and non-majors.

161 ACTING WORKSHOP FOR HIGH SCHOOL STUDENTS (2)

Prereq: intended for, but not restricted to, students who have completed their junior year of high school. An intensive program to develop actor skills through daily physical, vocal and imagination training. Rehearsal and performance in a variety of theatre environments. Summer only. Recommendations required.

201 INTRODUCTION TO THE CINEMA (3)

Training eye and ear to appreciate the work of the filmmaker. Analysis of the basic conventions of filming, editing and camera usage. A nominal lab fee for cost of film.

212 INTRODUCTION TO STAGECRAFT (5)

Basic theory of planning, drafting, construction and rigging of scenery. Practical lab experiences in scenery construction, painting, handling and rigging of scenery, one production crew assignment, with one scheduled lab assignment.

213 STAGECRAFT-LIGHTING LABORATORY (3)

Prereq: Th/D 212 or permission of instructor. Practical experience in planning, handling and rigging stage lighting and special effects. Assignments on one major production.

215 STAGE MAKE-UP (2)

Theory and practice of applying make-up for the stage. S/U grading.
UNDERSTANDING PLAYS (3)
Prereq: Th/D 101 or permission of instructor. Reading a play script with an eye to theatrical production. Introduction to primary dramatic forms (tragedy, comedy). Practice in speaking and writing intelligently about plays.

DANCE AND CULTURE (3)
An historic overview of dance topics with emphasis on integrating the dance with its cultural role within various societies through the ages.

DANCE THEORY AND PRODUCTION (2-6a)
Group and individual experience in dance as a theatre art; participation in the dance concert. A maximum of six hours may be earned. S/U grading.

BEGINNING MODERN DANCE II (2-3)
Prereq: Th/D 135 and/or audition. Further development of movement principles established in Th/D 135. Repeatable up to a maximum of 6 credits. Open to non-majors.

BEGINNING BALLET II (2-3)
Prereq: Th/D 138 and/or audition. Further development of principles of ballet. Increased difficulty and terminology; preparation for advanced levels. Repeatable up to a maximum of 6 credits. Open to non-majors.

DANCE IMPROVISATION (2)
Improvisational approaches to movement exploration for the non-dancer and dancer, developing a creative sensitivity to time, space, energy, motion and body awareness.

DANCE COMPOSITION I (3)
Prereq: Th/D 236. Fundamentals of composition emphasizing theme and development; form or design; time, force and spatial aspects in solo and group studies.

INTRODUCTION TO CHILD DRAMA (3)
Children's theatre, creative dramatics, puppetry, history, value, philosophy and literature of child drama; its uses in theatre, speech therapy, education and recreation.

THEATRE THEORY AND PRODUCTION (2-6a)
Prereq: permission of instructor. Instruction and experience in all aspects of theatre organization and production. Repeatable up to a maximum of 6 credits. S/U grading.

ACTING: STUDIO I (3)
Prereq: Th/D 103 and permission of instructor. The physical, vocal, intellectual and emotional instrument of the individual actor will be explored in relation to character demands of a scene or play through the studio approach. Repeatable up to a maximum of 6 credits by permission of instructor.

INTRODUCTION TO DRAMATIC WRITING (4)
Prereq: Th/D 101 or permission of instructor. Beginning exercise in dramatic writing, with emphasis on primary forms and conventions.

STAGE DESIGN TECHNIQUES (3)
Prereq: Th/D 212 or concurrent. Theory and practical experience in communicating technical and artistic information through drafting, color-rendering and model construction techniques.

ADVANCED STAGECRAFT (3)
Prereq: Th/D 212 and 311. Technical analysis of scripts; special effects and properties; laboratory work on productions.

ADVANCED STAGE LIGHTING (3)
Prereq: Th/D 213 and 311. Technical and artistic study of light and color as they affect other theatre arts and contribute to artistic design; laboratory work in production.
351 PUPPETRY (3)
Design, construction and manipulation of puppets; their use in productions for the child audience, in speech therapy, in elementary education, and as a craft for children.

360 ACTING: STUDIO II (3)
Prereq: six hours of Th/D 250 and/or permission of instructor. Continuation of the refinement of skills and techniques presented in Acting: Studio I, concentrating on major periods and styles of theatre. Additional concentration on work with scenes and short plays. Repeatable up to a maximum of 6 credits by permission of instructor.

370 PLAY DIRECTION I (5)

380 INTRODUCTION TO HISTORY OF THE THEATRE (3)
Development of theatre arts from primitive origins to the present.

385 INTERMEDIATE DRAMATIC WRITING WORKSHOP (4)
Prereq: Th/D 285 or permission of instructor. Further practice in primary forms and conventions of drama. Longer forms, introduction to mixed forms and contemporary styles.

411 SCENIC DESIGN (3)
Prereq: Th/D 312 and 313 or permission of instructor. Design for the modern theater; emphasis on interpretation of the play through design, practical designs and techniques.

415 STAGE COSTUMING (3)
Prereq: Th/D 315. Costume design and execution: specific emphasis on basic sewing, use of patterns, materials and costume crafts, costume plots and wardrobe supervision.

421, 422, 423 DEVELOPMENT OF THE ENGLISH DRAMA
(3 ea)
Prereq: Th/D 222 and 322. Historical and critical survey of the English drama, with emphasis upon the greater writers (exclusive of Shakespeare); medieval and Elizabethan-Jacobean; 1600-1800; 20th century.

428 MAJOR DRAMATISTS (3 ea)
Prereq: Th/D 222 and 322. In-depth treatment of playwrights influential in the development of drama.
428a Greek & Roman
428b British
428c Continental
428d North American
428e Contemporary
May be repeated under advisement as a, b, c, d, or e with different subject matter.

431 WORLD HISTORY OF THE DANCE (3)
Prereq: Th/D 231. The history of dance with emphasis on the evolution of dance from primitive cultures through the Middle Ages.

432 HISTORY OF THE DANCE SINCE 1450 (2)
Prereq: Th/D 431. Significant topics of dance history from the Renaissance to the Modern Period with emphasis on the evolution of dance in Europe, Denmark and Russia during the 18th and 19th centuries.

433 LABANOTATION (3)
Prereq: Th/D 231, 235, or equivalent. An elementary course in dance notation. Reading and writing bodily movements, ballet and modern dance sequences with emphasis on directions, levels, arm and leg movements.

434 THE DANCE ARTS IN EDUCATION (3)
Prereq: permission of instructor or demonstrated competency at the intermediate level in dance technique. Materials and methods of instruction in the modern dance and ballet. Observation and teaching opportunities in a laboratory studio environment.

439 ADVANCED BALLET TECHNIQUE (3)
Prereq: Th/D 335 and/or audition/instructor approval. Intense technical ballet syllabus geared to obtain a pre-professional level. Includes advanced theory and terminology. Pointe, variation, preparatory partnering exercises. Repeatable up to a maximum of 12 credits by permission.

440 ADVANCED MODERN DANCE TECHNIQUE (3)
Prereq: Th/D 333 and audition. This course is intended for the student who wishes to obtain a pre-professional level of technical ability. Intensive work on rhythmic variation and phrasing. Repeatable to a maximum of 15 credits.

442 DANCE COMPOSITION III (3)
Prereq: Th/D 342. Principles of advanced composition: solo and group works; dance composition in relation to other art forms; advanced studies in theme and development, phrasing and movement manipulation.

450 CREATIVE DRAMATICS LEADERSHIP (3)
Prereq: Th/D 350. Advanced techniques, supervised teaching.

452 CHILDREN'S THEATRE (3)
Th/D 350 recommended. Plays for children studied for appreciation of their values for the child audience; principles of children's theatre play selection.

453 TOURING THEATRE (5)
Prereq: permission of instructor. Theory and principles of touring technique and problems; participation in college theatre touring program. SU grading.

455 ACTING STUDIO III: COMPANY (4)
Prereq: 6 hours of Th/D 360 and audition. Continuation of refinement of skills and techniques presented in Acting: Studio II. This course is devoted to advanced workshops and performance projects with directors and playwrights. Repeatable once for credit by permission of instructor.

462 ADVANCED WORKSHOP IN SUMMER STOCK (15)
Prereq: written permission of instructor required before registering. Offered only summer quarter. Contact Director of Theatre for details.

470 PLAY DIRECTION II (3)
Prereq: Th/D 370. Producing and directing a one-act play for public performance; special emphasis on working with the actor.

471 PLAY DIRECTION III (3)
Prereq: Th/D 470. Producing and directing a full-length play for public performance; emphasis on problems in high school, community and professional theatres.
Theatre/Dance

472b HIGH SCHOOL DRAMA DIRECTORS INSTITUTE
(2-4)
A workshop for those who are now engaged or who intend to become engaged in the processes of play production, from script selection, production planning, casting and rehearsal to performance. This institute utilizes the resources of the concurrent acting workshop for high school students. Repeatable with permission of instructor. (Summer only.)

480 HISTORY OF THE THEATRE II (3)

485, 486, 487 DRAMATIC WRITING WORKSHOP (4 ea)
Prereq: TH/D 365 or permission of instructor. Opportunity for disciplined expression in writing for stage, film, television or other media. May be repeated at 485, 486 or 487 to a maximum of 12 credits.

488 REVISION AND PRODUCTION SCRIPT PREPARATION (2)
Prereq: permission of the instructor required. Supervised revision and script preparation for production in any medium, and/or opportunity for extra work on full-length scripts. Normally taken concurrently with TH/D 485, 486, and/or 487 when student's work is or is about to be in actual production. May be repeated for a maximum of six credits.

496 INTERNSHIP (1-12)
Prereq: junior status or above and permission of the Chairman. Qualified third- and fourth-year students may apply to apprentice with theatre and/or dance companies, performing arts agencies or producing organizations. S/U grading. Repeatable to a maximum of 24 credits.

Graduate Courses

Courses numbered 500, 517, 545, 597 are described on page 29 of this catalog.

Admission to Graduate School or Special Permission Required. See Graduate section of this catalog.

501 INTRODUCTION TO RESEARCH IN THEATRE/DANCE (4)
Interpretation and evaluation of research outcomes, purposes, and design of various methods with particular emphasis on historical and descriptive methods.

511 SEMINAR IN SCENIC DESIGN AND STAGE LIGHTING (4)
Prereq: TH/D 313 and 411. Topics in the practice and principles of the scenic arts with individual projects in design.

512 ADVANCED SEMINAR IN SCENIC DESIGN AND STAGE LIGHTING (4)
Prereq: TH/D 511. Advanced topics in the practice and principles of the scenic arts with individual projects in design.

522 SEMINAR IN DRAMATIC THEORY AND CRITICISM (4)
Prereq: undergraduate major in theatre or permission of instructor. Dominant concepts and issues of dramaturgical thought. Principles and practices of dramatic criticism.

528 SEMINAR IN DRAMATIC LITERATURE (3)
Intensive study of major dramatists or periods.
528a Greek and Roman

529b British
529c Continental
529d North American
529e Contemporary
a,b,c,d,e may be repeated once with permission of graduate adviser.

530 HISTORY/ANALYSIS OF DANCE IN THE TWENTIETH CENTURY (4)
Prereq: TH/D 431 or equivalent, or permission of instructor. Selected topics in Western theatrical dance histories since 1900; the Diaghilev Ballets Russes, development of ballet in England and America, the forerunners, pioneers and traditionalists of the modern dance, dance of the avant-garde, and a micro-unit in musical theatre dance.

531 GRADUATE CHOREOGRAPHY & PERFORMANCE (4)
Prereq: permission of instructor only. Individual projects in problem solving, thematic development, and performance refinement at the advanced compositional level.

550 DRAMA IN EDUCATION (4)
Prereq: TH/D 450 and 452 or equivalent. Critical review of theories and research in children’s theatre and creative drama; the use of drama techniques in teaching grades K-12. Individual projects or research projects.

551 THEATRE IN EDUCATION (4)
Prereq: TH/D 550. Strategies for the implementation of the techniques for theatre production in the public schools.

560 ACTING (4)
Prereq: permission of instructor only. Intensive training for the actor with an emphasis on the historical, stage mechanics, self-awareness, character action and development, styles, and script analysis.

561 ADVANCED ACTING (4)
Prereq: TH/D 560. A continuation of 560 with emphasis on contemporary approaches and application in production.

570 PLAY ANALYSIS AND THEATRE PRODUCTION PLANNING (4)
Theories of play analysis and theatre production organization from the point of view of the play director preparing to produce a play.

571 SEMINAR IN PLAY DIRECTION (4)
Prereq: TH/D 471. Topics in the principles and practices of the art of play direction with individual student projects.

572 ADVANCED SEMINAR IN PLAY DIRECTION (4)
Prereq: TH/D 571. Advanced principles and practices of play direction with individual student projects.

585 PLAYWRITING SEMINAR (5)
Individual projects in dramatic writing will be submitted for group discussion. (Also listed as English 503a.)

586 ADVANCED PLAYWRITING SEMINAR (5)
Prereq: TH/D 585 or permission of instructor. Individual projects in playwriting. (Also listed as English 503b.)

595 INTERNSHIP IN THEATRE ARTS (1-8)
(Option II) Experimentation leading to the development of new methods and materials in the teaching and/or practice of theatre. May involve on- or off-campus projects.

590 THESIS/THESIS RESEARCH (1-9)
Option I: Thesis.
Option II: Planning and execution of a publishable scholarly paper.

Ray Varley, B.S.

Student Affairs

Academic Advising
Director Ronald W. Johnson, Ph.D.

Career Planning and Placement
Director Louis T. Lallas, M.Ed.

Counseling Center
Director Sandra Taylor, Ph.D.

Financial Aid
Director Wayne M. Sparks, M.Ed.

Health Services
Director Evelyn Schuler, R.N.

University Residences
Director Keith Guy, M.Ed.

Office of Student Life
Dean of Students, Timothy B. Douglas, M.A.

Viking Union/Student Activities
Director John J. Smith, M.A.

EMERITUS FACULTY

HENRY L. ADAMS
Professor Emeritus of Psychology. BA, MA, University of Kentucky; PhD, University of Illinois
LUCILLE E. BARRON
Associate Professor Emeritus of Home Economics. BA, Washington State University; MA, University of Washington.

GEORGE J. BECKER
Professor Emeritus of English. BA, MA, PhD, University of Washington.

WILLIAM BENDER
Professor Emeritus of Physics. BA, MS, University of Colorado; PhD, Yale University.

MARION BESSELMAN
Associate Professor Emeritus of Chemistry. BS, University of Washington; MS, Purdue University; PhD, University of Washington.

MIRAE BOOTH
Assistant Professor Emeritus of Music. BA, University of Washington; MA, Teachers College, Columbia University; University of Southern California.

ELIZABETH BOWMAN
Associate Professor Emeritus of English. AM, MA, PhD, University of Chicago.

LAURENCE W. BREWSTER
Professor Emeritus of Speech. BA, Yankton College; MA, PhD, University of Iowa.

DONALD W. BROWN
Associate Professor Emeritus of Education. BS, MA, University of Nebraska; EdD, Colorado State College.

ROSCOE L. BUCKLAND
Professor Emeritus of Liberal Studies. BA, MA, University of Idaho; PhD, State University of Iowa.

SENE R. CARLILE
Professor Emeritus of Speech. BA, BS, Fort Hays, Kansas State College; MA, Colorado State College; PhD, University of Wisconsin.

KATHERINE CARROLL
Associate Professor Emeritus of Education. BS, Salem State College; EdM, EdD, Boston University.

KATHERINE M. CASANOVA
Associate Professor Emeritus of Education. BS, MA, Teachers College, Columbia University.

MOYLE F. CEDERSTROM
Professor Emeritus of English. BA, MA, University of Minnesota; PhD, University of Washington.

EENA E. CHANNER
Associate Professor Emeritus of Technology. BA, University of Washington; MA, University of Iowa.

NITA CLOTHIER
Assistant Professor Emeritus of Liberal Studies. BA, MA, Western Washington State College.

LINDA COUNTRYMAN
Associate Professor Emeritus of Home Economics. BS, Milwaukee-Downer College; MA, Teachers College, Columbia University; University of Chicago.

STANLEY M. DAUGERT
Professor Emeritus of Philosophy. AB, MA, PhD, Columbia University.

IRENE ELLIOTT
Assistant Professor Emeritus of Education. BS, MA, Columbia University.

EUNICE D. FABER
Associate Professor Emeritus of Foreign Languages and Literatures. AB, Howard University; MA, PhD, Catholic University of America.

DONALD A. FERRIS
Professor Emeritus of Education. BA, MA, University of Washington.

IONE FOSS
Associate Professor Emeritus of Art. BS, MAA, Montana State College; MFA, University of Oregon.

HARVEY M. GELDER
Professor Emeritus of Fairhaven. BA, Colorado State College; MA, University of Missouri.

JEROME GLASS
Associate Professor Emeritus of Music. BS, New York University; MMus, University of Southern California.

BYRON E. HAGLUND
Associate Professor Emeritus of Accounting. BBA, MA, University of Minnesota; CPA, Washington, D.C.; State of Washington.

HERBERT R. HEARSEY
Associate Professor and Librarian Emeritus. BA, EdM, Tufts College; BS in LS, MS in LS, University of Illinois.

PAUL E. HERBOLD
Associate Professor Emeritus of Speech. BA in Ed., Western Washington State College; MA, University of Washington; PhD, University of Minnesota.

MILDRED HERRICK
Associate Professor and Librarian Emeritus. BA, Michigan State Normal College; BA in LS, MA in LS, University of Michigan.

ARTHUR C. HICKS
Professor Emeritus of English. BA, MA, University of Oregon; PhD, Stanford University.

JAMES L. HILDEBRAND
Associate Professor Emeritus of Mathematics/Computer Science. BA, MA, North Texas State University.

ANNIS J. HOLVE
Professor Emeritus of English. BA, MA, University of Washington.

VIVIAN H. JOHNSON
Associate Professor Emeritus of Education. BA, MA, University of Washington.

ELVET G. JONES
Professor Emeritus of Psychology. BA, MA, University of British Columbia; PhD, University of Minnesota.

HENRY W. JONES
Assistant Professor Emeritus of Education. BS, North Dakota State University; MS, University of Wisconsin; EdD, University of California, Los Angeles.
HALLDOR C. KARASON  
Associate Professor Emeritus of Education and Philosophy. BA in Ed, Western Washington State College; MA, PhD, University of Washington.

J. RUTH KELSEY  
Associate Professor Emeritus of Art. BA, Washington State University; MA, University of California, Berkeley.

ELEANOR G. KING  
Associate Professor Emeritus of Foreign Languages. BA, University of British Columbia; MA, University of Toronto; PhD, University of Wisconsin.

FRED W. KNAPMAN  
Professor Emeritus of Chemistry. BA in Ed, Western Washington State College; MA, University of Washington; EdD, Teachers College, Columbia University.

CHARLES F. LAPPENBUSCH  
Professor Emeritus of Physical Education. BS, MA, University of Washington.

EDITH B. LARRABEE  
Assistant Professor Emeritus of Home Economics. BA, East Texas State University; MA, Colorado State University.

JAMES R. LOUNSBERRY  
Associate Professor Emeritus of Physical Education. BA in Ed. Central Washington State College; MS, EdD, University of Washington.

RICHARD MCALLISTER  
Assistant Professor Emeritus of Economics. BA, MA, University of Washington; CPA, State of Washington.

C. W. McDONALD  
Vice President Emeritus of Student Affairs. BA, MS, University of Washington.

DAVID McDONALD  
Associate Professor Emeritus of Education. BA, Bethany College; MA, University of Southern California; EdD, University of Oregon.

HOWARD F. McGAW  
Professor Emeritus of Library Science. BA, Vanderbilt University; MA, BS in Library Science, George Peabody College for Teachers; EdD. Teachers College, Columbia University.

RUBY D. MCINNES  
Associate Professor Emeritus of Education. BA, University of Washington; MA, Columbia University.

STEPHEN C. MARGARITIS  
Professor Emeritus of Education. BA, University of Athens; MA, PhD, University of Southern California.

JAMES S. MARTIN  
Professor Emeritus of Biology. BS, MS, PhD, University of Washington.

MIRIAM S. MATHES  
Associate Professor Emeritus of Library Science. BA, New York College for Teachers; MA, Teachers College, Columbia University; BLS, MLS, School of Library Science, Columbia University.

ROBERT C. MEIER  
Professor Emeritus of Business Administration. BS, Indiana University; MA, PhD, University of Minnesota.

DONALD E. MOON  
Associate Professor Emeritus of Technology. BS in Ed, California State College, California, Pa.; MA, Teachers College, Columbia University; EdD, Oregon State University.

KEITH A. MURRAY  
Distinguished Service Professor Emeritus of History. BA, Whitworth College; MA, PhD, University of Washington.

J. EVELYN ODOM  
Associate Professor Emeritus of English. AB, Winthrop College; MA, Teachers College, Columbia University.

VILIS PAEGlis  
Assistant Professor Emeritus of Library Science. Mag. Phil., University of Latvia; MA in Library Science, University of Michigan.

HAROLD O. PALMER  
Professor Emeritus of Business Education. BA, College of Emporia, Kansas; EdM, University of Oregon; EdD, Oregon State University.

RUTH PLATT  
Associate Professor Emeritus of Zoology. BS, MS, University of Washington; University of California.

HAZEL JEAN PLYMPTON  
Associate Professor Emeritus of Art. PhB, University of Chicago; MA, Teachers College, Columbia University; Reed College; Portland School of Art.

LORRAINE POWERS  
Emeritus Dean of Women. BA, University of Wisconsin; MA, University of Iowa.

FRANK N. PUNCHES  
Associate Professor Emeritus of Education. BA, University of Washington; MA, Washington State University.

CHARLES RANDALL, JR.  
Associate Professor Emeritus of Physical Education. BA, Eastern Washington State College; MA, Washington State University.

BERNARD W. REGIER  
Professor Emeritus of Music. BSM, Kansas State Teachers College; MMus, University of Michigan; DMA, University of Southern California.

CHARLES M. RICE  
Associate Professor Emeritus of Industrial Arts. BFA, MA, Washington State University; University of Washington; University of Oregon; Carnegie A.T.A. Art Sessions; EdD, Oregon State University.

J. ALAN ROSS  
Professor Emeritus of Education and Psychology. BA in Ed, Western Washington State College; MA, PhD, Yale University.

MARGARET RYAN  
Professor Emeritus of English. AB, MA, University of Michigan; PhD, University of Minnesota.
ERHART A. SCHINSKE
Professor Emeritus of Speech Pathology/Audiology.
BA, Hamline University; MA, PhD, University of Minnesota.

DAVID B. SCHUB
Professor Emeritus of Music. BA, MusB, Lawrence College; MA, Harvard University; PhD, University of California, Berkeley.

BEARNICE S. SKEEN
Professor Emeritus of Education. BS, MS, University of Oregon; EdD, Washington State University.

RICHARD O. STARBIRD
Professor Emeritus of Education. BA, Heidelberg College; MA, Columbia University; EdD, Teachers College, Columbia University.

PAUL H. STONER
Associate Professor Emeritus of Music. BM, University of Kansas; MA, University of Iowa; DMA, University of Southern California.

LEONA M. SUNDQUIST
Distinguished Service Professor Emeritus of the College. BA, MS, University of Washington; Teachers College, Columbia University.

ADA SWINEFORD
Professor Emeritus of Geology. SB, SM, University of Chicago; PhD, Pennsylvania State University.

ROBERT W. TESHERA
Associate Professor Emeritus of Geography/Regional Planning. BA, MA, in Ed., Western Washington State College; PhD, University of Washington.

RALPH H. THOMPSON
Professor Emeritus of Education. BA, Dickinson College; MA, University of Delaware; EdD, University of Illinois.

COLIN E. TWEDDELL
Professor Emeritus of Anthropology and Linguistics. BA, MA, PhD, University of Washington.

MANFRED C. VERNON
Professor Emeritus of Political Science. LLB, University of Cologne, JD, University of Berlin; PhD, Stanford University.

ADA L. WALTER
Assistant Professor Emeritus of Business Education and Economics. BS, Winthrop College; MBA, University of Denver.

MARY W. WATROUS
Professor Emeritus of Education. AB, University of Nebraska; MA, Gonzaga University; EdD, University of Washington.

EVELYN M. WELLMAN
Associate Professor Emeritus of Music. BA, MA, Western Washington State College.

JAMES W. WILKINS, JR.
Associate Professor Emeritus of Psychology. AB, MA, Kent State University; PhD, Michigan State University.

PAUL WOODRING
Distinguished Service Professor Emeritus of the University, Education/Psychology. BSEd, Bowling Green State University; MA, PhD, Ohio State University. Honorary degrees: LHD, Kalamazoo College; PhD, Coe College; LittD, Ripon College; LHD, Bowling Green State University, LLD, University of Portland.

FACULTY

Ager, Phillip / Music
Aitken, Margaret H. / Physical Education
Albers, James R. / Huxley
Alexander, Marian L. / Library
Agee, Donald / Political Science
Ames, Evelyn / Physical Education
Amundson, Darrell W. / Foreign Language
Anastasio, Angelo / Anthropology
Anderson, Kathryn L. / Fairhaven
Arenzano, Paul / Ethnic Studies
Arnett, M. Chappelle / Physical Education
Atkinson, Charles M. / Educational Curriculum & Instruction
Atneosen, Richard A. / Physics/Astronomy
Babcock, Randall S. / Geology
Baird, Herbert Leroy, Jr. / Foreign Languages
Balas, Robert S. / Foreign Languages
Barrett, W. Louis / Physics
Beck, Myrl E., Jr. / Geology
Beidin, Horace O. / Educational Curriculum & Instruction
Benson, Earl D. / Business Administration
Berg, Richard H. / Arts & Sciences
Bettis, Joseph D. / Fairhaven
Billings, Thomas / Educational Administration & Foundations
Bishop, Richard T. / Educational Administration & Foundations
Black, Joseph E. / Technology
Blackwell, Leslie / Educational Administration & Foundations
Blood, Don F. / Psychology
Bouwer, Robert A. / Educational Curriculum & Instruction
Boylan, Bernard L. / History
Brakke, David / Huxley
Broad, A. Carter / Biology
Brookhaus, Henrich / Foreign Languages
Brown, Bruce E. / Accounting
Brown, Edwin H. / Geology
Brown, Herbert A. / Biology
Brown, Robert D. / English
Brown, William A. / Physics/Astronomy
Bryant, William H. / Foreign Languages
Budd, William C. / Psychology
Bultmann, William A. / History
Burnett, Michael J. / Fairhaven

Callow, Donald J. / Sociology
Carmean, Stephen L. / Psychology
Cary, Meredith B. / English
Catrell, Dennis E. / Theatre/Dance
Chalice, Donald R. / Mathematics
Chapley, Robin W. / Mathematics
Christman, Robert A. / Geology
Clarke, David E. / Political Science/Huxley
Clevidence, William Gary / Fairhaven
Clumpner, Roy A. / Physical Education
Collier, Robert P. / Economics
Conton, Leslie / Anthropology
Covington, Richard J. L. / Educational Curriculum & Instruction
Craswell, Keith / Mathematics
Critchfield, Howard J. / Geography
Crook, Joseph R. / Chemistry
Cross, Robert J. / Library
Crow, Lowell T. / Psychology
Cvetkovich, George T. / Psychology
Dallas, Lee A. / Educational Curriculum & Instruction
Darrow, Helen F. / Educational Curriculum & Instruction
Davidson, Melvin / Physics/Astronomy
Davis, James W. / Political Science
DeLomme, Roland L. / History

C. FRED WATERMAN (1967) Assistant Professor and Business Librarian, BS, MLS, University of Pittsburgh.

SUMMARY OF ENROLLMENT — INDIVIDUALS

Resident
Summer Quarter, 1982 .................................................. 3,742
Fall, Winter, Spring 1982-83 ............................................. 10,826

Continuing Education
Independent Study ........................................................... 750
Off Campus ................................................................. 1,624
Total Continuing Education Enrollment ............................. 2,374

DEGREES AND CERTIFICATES

Degrees granted from August, 1982, to June, 1983, inclusive:
Master of Education ..................................................... 117
Master of Arts .......................................................... 65
Master of Science ........................................................ 50
Master of Music .......................................................... 12
Master of Business Administration ................................. 17
Bachelor of Arts in Education ......................................... 278
Bachelor of Arts ........................................................ 1,083
Bachelor of Science ...................................................... 279
Bachelor of Fine Arts ................................................... 3
Bachelor of Music ........................................................ 49
Bachelor of Science in Nursing ....................................... 7
Total .............................................................................. 1,950

Recommended for certification to the State Superintendent for Public Instruction —
August 1982, to June, 1983, inclusive:
Provisional Teaching Certificate ........................................ 340
Standard Teaching Certificate .......................................... 199
Appendices

Appendix A
AFFIRMATIVE ACTION/EQUAL OPPORTUNITY POLICY AGAINST DISCRIMINATION

It is the policy of the Board of Trustees of Western Washington University to provide equal employment opportunity for all employees and qualified applicants for employment, and equal access to programs and services for all students and members of the community regardless of race, color, religion, national origin, sex, age, handicap, marital status or Vietnam era or disabled veteran status. The Board of Trustees pledges that every effort will be made to provide the resources necessary for implementation of this policy.

It is the responsibility of each and every member of the University community to ensure that this policy becomes a functional part of the daily activities of Western Washington University.

The University will continue to cooperate with agencies of the federal and state governments in fulfilling its obligations under the laws of the United States and the State of Washington.

The objectives of the Western Washington University Affirmative Action Program are to eliminate discrimination and to develop a work force and student body which reflect an equitable distribution of minority group members, women, veterans and handicapped individuals at all levels of employment and throughout all departments of the University.

Personnel Policies

The University recruits on the basis of qualifications without regard to race, color, religion, national origin, sex, age, handicap, marital status, or Vietnam era or disabled veteran status, except where such is a bona fide occupational qualification.

Recruitment for graduate assistants and student employees shall be publicized so all eligible persons have an opportunity to apply.

Program and Activity Policies

No qualified person shall, on the basis of race, color, religion, national origin, sex, age, handicap, marital status, or Vietnam era or disabled veteran status, be excluded from participation in, be denied the benefits of, or be subject to discrimination in any program or activity provided by the University, including the Associated Students. In addition, the University will not utilize off-campus facilities nor participate in activities or services which are operated in a discriminatory manner.

Counseling and guidance in making educational and career choices will be free of stereotyping. It is the policy of the University to encourage the elimination of stereotyping and bias in testing and other curricular material.

With limited exceptions, which shall be reviewed by the Affirmative Action Director, all classes, courses of study and other educational programs and activities offered by the University will be open to all persons.

The University will modify its academic requirements and procedures for evaluating student academic achievement as necessary to ensure that such requirements or evaluation methods do not discriminate or have the effect of discriminating on the basis of handicap against a qualified applicant or student.

All University programs are accessible to mobility impaired students. The University assists in providing auxiliary aids for students with impaired sensory, manual, or speaking skills. It is the responsibility of the student to make these modifications or aids to them in writing. Formal requests for modifications or aids should be made with the Office of Student Life. If further assistance is needed in obtaining these modifications, the Affirmative Action Office should be contacted.

A person who believes she has been discriminated against by the University because of race, color, religion, national origin, sex, age, handicap, marital status, or Vietnam era or disabled veteran status is urged to utilize the internal grievance procedure provided by the University through the Affirmative Action Office as soon as possible after the alleged act of discrimination giving rise to the grievance. (See Appendix H.)

The Affirmative Action Office is located at Old Main 400, telephone 676-3308. Mary Robinson is the Affirmative Action Director and Coordinator for EEO, Title IX, Title VII and all other affirmative action/equal opportunity laws.

Appendix B
WWU POLICY ON SEXUAL HARASSMENT OF STUDENTS

It is the policy of Western Washington University to provide an environment in which students can work and study free from sexual harassment or sexual intimidation and exploitation. All students, staff and faculty should be aware that the University is concerned and prepared to take action to prevent and to eliminate such behavior and that the individuals who engage in such behavior will be subject to sanctions, including dismissal.

Sexual harassment occurs in a context of unequal power and is a form of sexual discrimination, and, as such, is a violation of Title VII of the 1964 Civil Rights Act and Title IX of the 1972 Education Amendments.

Sexual harassment of a student will be judged to occur at Western Washington University when an individual in an institutional position of power or authority over a student uses such power, either implicitly or explicitly to promise, grant or withhold grades, evaluations or other academic, financial or supervisory rewards in order to coerce that student into a sexual relationship; or to subject the student to unwanted sexual attention or to verbal or physical conduct of a sexual nature, when such conduct creates an intimidating, hostile or offensive educational or work environment.

Students who believe they may be experiencing sexual harassment may be uncertain that specific actions constitute sexual harassment, so University policy allows for two procedural stages. The first stage provides students with advice and counsel and is strictly confidential. (Procedures, steps 1-4). The second stage involves a formal investigation, which proceeds only if the student is willing to allow the signed complaint to be given to the accused. (Procedures, steps 5-9). The University will protect students from retaliation.

The procedures for dealing with sexual harassment are as follows:

1. Students may bring questions about procedure or seek informal advice relating to sexual harassment to the Office of Student Life. If an individual desires to discuss personal thoughts and feelings, wishes to consider ways to deal individually with the incident(s), or explore procedural options, the Office of Student Life offers counseling and appropriate referral.

2. Specific complaints of sexual harassment should be made to the Dean of Students or designee. In some cases, the Dean of Students may discuss concerns with the person complained against without formal charges being filed.

3. If a student requests a formal investigation of the incident(s), a written complaint signed by the student identifying the accused individual(s) and the unwanted behavior should be submitted to the Affirmative Action Office. The Affirmative Action Officer will determine if the complaint falls under the provisions of the Sexual Harassment Policy and if the facts presented in the case warrant investigation.

4. If the Affirmative Action Officer determines that the alleged facts presented in the complaint do not warrant investigation, the student will be so informed in writing within five class days. The student may provide additional evidence with ten class days. If the complaint is concluded at that stage, no copy of the complaint is retained.

5. If the Affirmative Action Officer determines that the facts presented in the complaint warrant investigation, the Affirmative Action Officer will, with the student's consent, forward a copy of the signed complaint to the appropriate Vice President within 15 class days of the filing of the complaint. If the student declines, the investigation will not proceed and no copy of the complaint is retained.
Appendices

WAC 516-22-330 Interference with Freedom of Expression. The rights of freedom of speech, petition and assembly are fundamental to the democratic process. The University Student Government guarantees these freedoms to all members of the Western Washington University community.

The University recognizes its obligation to protect students' freedom of expression while at the same time minimizing the impact of visual pollution and physical damage to University property. The University shall provide sufficient bulletin boards and shall permit other methods for dispersed communications such as leaflets, handbills, posters and banners according to guidelines available through the Viking Union administrative office. All printed material may be subject to removal if the content is defamatory.

Any person may speak on the Western Washington University campus when invited to do so by a member of the University community. Use of University building spaces is subject to University scheduling policies and procedures. The appearance of an invited speaker does not constitute an endorsement of the speaker's views by the University's faculty, administration, or Board of Trustees. Public address or audio amplification equipment normally may be used only in the Viking Union Plaza and athletic fields subject to space and scheduling policies and procedures. Use of such equipment in other areas of the campus must be authorized by the Vice President for Student Affairs or the vice-president's designee. The essence of the right to speak is the freedom of the speaker to make his/her statement. Both the speaker and the audience are entitled to proceed without being subjected to physical interference or violence.

Students deliberately engage in acts of violence, threats of violence or in other conduct which interferes with the rights of others or which materially or substantially disrupts the exchange of ideas on campus are subject to disciplinary action or prosecution under law. Sanctions available through the University judicial structure are Disciplinary Probation, Disciplinary Suspension or Disciplinary Expulsion.

Appendix C

STUDENT RIGHTS AND RESPONSIBILITIES CODE

WAC 516-22-005 preamble. Western Washington University students enjoy the basic rights of all members of society. At the same time students have an obligation to fulfill the responsibilities incumbent upon all citizens, as well as the responsibilities of their particular roles within the academic community. The student is expected to respect University rules and federal, state and local laws. Those who are charged with a violation are assured of a fair judicial process and when found in violation are assured of appropriate discipline. This chapter advises students of their rights and responsibilities while enrolled at Western Washington University.

WAC 516-22-010 Disruptive Behavior. The educational mission of Western Washington University requires the freedom to teach, conduct research and administer the University. A student shall be subject to disciplinary action if he/she engages in any behavior which interferes with the rights of others or which materially or substantially obstructs or disrupts teaching, research or administrative functions.

Sanctions available to the University through its judicial structure are Disciplinary Probation, Disciplinary Suspension or Disciplinary Expulsion.

WAC 516-22-015 Repeated Incidents of Academic Dishonesty. Maintaining academic honesty is the joint responsibility of students and faculty. Two or more incidents of academic dishonesty reported to the Office of the Provost (ref. "Academic Dishonesty Policy") shall make the student subject to disciplinary action.

Sanctions for repeated incidents of academic dishonesty are Disciplinary Probation, Disciplinary Suspension or Disciplinary Expulsion.

WAC 516-22-025 Forgery, Alteration or Destruction of Documents. Maintaining accurate and credible records and documents is necessary for the University to fulfill its educational mission and to assure the welfare of its students. Any student who alters, forges or destroys any official University document or record shall be subject to disciplinary action.

Sanctions available to the University through its judicial structure are Disciplinary Probation, Disciplinary Suspension or Disciplinary Expulsion.

WAC 516-22-025 Fraudulent Admissions Credentials. The integrity of Western Washington University's admissions process requires receipt of full, honest documents as requested by the Admissions Office. Submission of fraudulent admissions or residency credentials shall subject a student to disciplinary action at any time such act is discovered.

A student violating this section may not be granted transfer credits earned at a former institution if at the time of application to Western Washington University he/she did not provide official transcripts of all work at such institutions. Additional sanctions available through the University judicial structure are Disciplinary Probation, Disciplinary Suspension or Disciplinary Expulsion.

WAC 516-22-100 Judicial Structure. The Vice President for Student Affairs is responsible for administration of this Code. The Vice President shall assure that the University Judicial Board appointment process is initiated annually and shall assure that allegations of Code violations and appeals are properly referred.

A Conduct Officer, who shall have authority to adjudicate complaints and sanctions for violations of this Code, shall be appointed from the Student Affairs division by the Vice President for Student Affairs.

A six-member University Judicial Board shall be appointed prior to Fall Quarter (approved by the Vice President for Academic Affairs). These stu...
Appendices

dents (appointed by the Associated Students Board) and one member of the Student Affairs staff (appointed by the Vice-President for Student Affairs). An alternate for each position shall be appointed at the same time by the same authority. All appointments shall be for one academic year. The Judicial Board shall have authority to adjudicate and administer sanctions for violations of this Code.

Should a need arise during Summer Session, an ad hoc Judicial Board shall be appointed subject to the same make-up and procedures as the academic year Judicial Board.

WAC 516-22-120 Initiation of Informal Proceedings. Any student, faculty or staff member of the University alleging a violation of this Code shall deliver to the Office of the Vice President for Student Affairs a written statement of the charges against the student. The Vice President shall ask the Conduct Officer to investigate the propriety of the charge.

If in the Conduct Officer's judgment there is sufficient basis to consider the charges, the Conduct Officer shall meet with the student and those bringing the charges and shall weigh appropriate evidence. Within ten (10) business days, the Conduct Officer shall notify the student in writing of his/her decision, including the sanction if a violation is judged to have occurred. Written notification shall include the statement of the student's right to appeal to the University Judicial Board.

WAC 516-22-124 Appeal to the Judicial Board. An accused student may appeal an adverse decision of the Conduct Officer to the University Judicial Board. The appeal must be made in writing to the Vice President for Student Affairs within ten (10) business days of receiving the Conduct Officer’s written decision. An extension of an additional ten (10) business days will automatically be granted upon the student's request. The appeal letter must state the basis for the appeal. The Vice President shall notify the Judicial Board Chairman of the appeal. No sanction may be invoked while an appeal is pending, except as provided in “Interim Suspension Permittee,” WAC 516-22-150.

WAC 516-22-120 Appeal Hearing Procedures. The Judicial Board Chairman shall schedule a hearing date and shall request that the student making the appeal appear.

(1) Notification of the hearing shall include:
(a) Time, date and location of hearing.
(b) Provision of the “Student Rights and Responsibilities Code” which the student is alleged to have violated.
(c) Nature and date of the alleged violation.
(d) Copy of the code and name(s) of University source(s) whose procedural advice can be sought.
(e) Statement of the student’s right to be accompanied by a non-lawyer advocate of his/her own choice, to call witnesses and to speak on his/her own behalf.

(2) Hearings shall be conducted in a manner which is informal and at the same time assures fundamental fairness of procedure. Hearings shall be open to the public unless the accused student requests a closed hearing.

(a) No student who is charged with an offense shall be asked to give information or to answer questions concerning an alleged violation of this Code unless the student has received notification of a hearing in accordance with the notification provision above.

(b) The student may bring witnesses, speak in his/her own behalf and may be represented by a non-lawyer advocate of his/her own choice.

(c) An accused student has the right to know who has alleged the violation of this Code, to review the written evidence, and to ask questions directly of the person(s) making the allegation and those who present testimony.

(d) The Judicial Board Chairman and the accused student may call any person to speak concerning the alleged violation. The Board Chairman may limit or exclude evidence which is irrelevant, immaterial or repetitious.

(e) Five members shall constitute a quorum of the Judicial Board. Actions by the Board require support by a majority of those members present at the time of the hearing and during presentation of the testimony.

(3) The Judicial Board Chairman shall notify the accused student in writing of the disposition of the case and of his/her right to appeal.

WAC 516-22-134 Disruption of the Judicial Process. Student rights and responsibilities contained within this Code are assured through the orderly functioning of the judicial process. The failure of a student to timely appear with a violation of this Code to appear before the Conduct Officer after receiving notice of a hearing shall make the student subject to disciplinary action. A student formally charged with a violation of this Code may not excuse himself/herself from judicial proceedings by withdrawing from the University and shall be prohibited from enrolling for subsequent quarters until such time as he/she does appear for a hearing.

WAC 516-22-138 Certain Sanctions Defined. Among those sanctions which the Conduct Officer or Judicial Board may invoke are:
(1) Disciplinary Probation — An official warning which is maintained in the student's conduct file for seven years. Should the student be found in violation of the Code again, the Disciplinary Probation status may result in a more serious sanction for the second violation.

(2) Disciplinary Suspension — Termination of a student's enrollment for a period of time or until certain specified conditions have been met.

(3) Disciplinary Expulsion — Permanent termination of a student's enrollment with no option for later re-enrollment.

WAC 516-22-142 Record of Proceedings. Records prepared by the Conduct Officer or Judicial Board shall be maintained in a conduct file in the Office of the Vice President for Student Affairs for six (6) years. All records shall be destroyed at the end of the period, which commences upon adjournment of the Conduct Hearing. If an accused student has been found not in violation of this Code, no record of either the charges or the proceedings will be entered into the conduct file.

The University shall not make the records of judicial proceedings or sanctions available to any member of the public except upon written consent of the student involved. Certificates of authorizing the release are authorized under the “Student Records Policy,” WAC 516-25.

WAC 516-22-146 Right to Formal Hearing. Included with the notification of the Judicial Board's decision shall be a statement that the student has a right to a formal hearing pursuant to RCW 28B.19.110 and WAC 516-80.

WAC 516-22-150 Interim Suspension Permitted. In order to prevent danger to individuals, substantial destruction of property or significant disruption of teaching, research or administrative functions, the Vice President for Student Affairs or his/her designee may temporarily suspend a student for stated cause subject to such limitation as the Vice President shall deem appropriate.

In all cases, the student is entitled to a hearing before the appropriate Conduct Officer or Board as soon as such hearing can be held, but not to exceed five (5) school days after the beginning date of interim suspension unless the student should request an extension. During the interim suspension period, the student shall be allowed on University property only to the extent deemed permissible by the Vice President for Student Affairs.

WAC 516-22-200. Alternative Judicial Proceedings. In cases where a clear or present danger does not exist but where repeated behavior which interferes with the rights of others or which materially or substantially obstructs or disrupts teaching, research or administrative functions

Appendix D

ACADEMIC DISHONESTY POLICY AND PROCEDURE

1. Policy

Western Washington University students have an obligation to fulfill the responsibilities of their particular roles as members of an academic community. Honesty is essential to learning. Without it, fair evaluation for all is impossible. Academic integrity is demanded, and academic dishonesty at Western Washington University is a serious infractions dealt with severely. Students shall not claim as their own the achievements, work, or thoughts of others, nor shall they be a party to such claims.

It is the responsibility of the faculty to prevent and to detect acts of academic dishonesty. It shall be the instructor's responsibility to confront a student and to take appropriate action if academic dishonesty, in the instructor's judgment, has occurred.

2. Academic Dishonesty

Academic dishonesty includes the following acts:

(a) Giving unauthorized information to another student or receiving unauthorized information from another student during any type of examination or test.

(b) Obtaining or providing without unauthorized questions or answers relating to any examination or test prior to the time of the examination or test.

(c) Using unauthorized sources for answers during any examination or test.

(d) Asking or arranging for another person to take any examination or test in one's place.

(e) Plagiarizing, that is, appropriating the literary composition of another or parts or passages of another's writing, or the ideas or language of the same, and passing them off as the product of one's own mind.

3. Procedures

(a) An instructor suspecting an act of academic dishonesty shall discuss the matter thoroughly with the student involved. Arrangements for the discussion shall be made by the instructor within ten (10) days after discovering the alleged violation. In the event the student is absent from campus, the instructor shall attempt to contact the student in writing at the most recent address available in the Office of the Registrar. If the incident occurs at the end of a quarter, the instructor within ten (10) days of the beginning of the following quarter Fairhaven College students shall be handled under the jurisdiction of the University judicial structure.

WAC 516-22-250 Fairhaven College Jurisdiction. Fairhaven College shall have jurisdiction over all violations which occur within the College classrooms. It shall establish and maintain a judicial process which shall be published annually for Fairhaven College students. Violations of University policies by Fairhaven College students while on the main campus of Western Washington University shall be handled under the jurisdiction of the University judicial structure.

Appendix E

STUDENT RECORDS POLICY

WAC 516-26-010 Purpose. The purpose of this chapter is to implement Public Law 93-380, The Family Educational Rights and Privacy Act of 1974, by establishing rules and procedures to ensure that information contained in student records is accurate and is handled in a responsible manner by the University and its employees.

WAC 516-26-020 Definitions. For purposes of this chapter, the following terms shall have the indicated meanings:

(1) "Student" shall mean any person who is or has been officially registered at and attending Western Washington University and with respect to whom the University maintains education records or personally identifiable information.

(2) "Education records" shall refer to those records, files, documents and other materials maintained by Western Washington University by a person acting for Western Washington University which contain information directly related to a student.

(b) The term "education record" does not include the following:

c. Records of institutional, supervisory, or administrative personnel and educational personnel that are in the sole possession of the maker thereof and which are not accessible or revealed to any other person except as a substitute.

(3) "Personnel of the University's Department of Public Safety do not have access to education records under WAC 516-26-010, the records and documents of the department which are kept apart from the records described in WAC 516-26-020(2)(a) are maintained solely for law enforcement purposes, and are not made available to persons other than law enforcement officials of the same jurisdiction.

(4) Records maintained by the University in the normal course of business and which relate exclusively to a person's capacity as an employee and are not available for any other purpose.

(5) Records concerning a student which are created or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting in the professional or paraprofessional capacity, and in that capacity, and which are created, maintained or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment except either (a) the student, the student's parent, or other appropriate professional of the student's choice.

(6) "Personally identifiable information" shall refer to data or information which includes either (a) the name of a student, the student's parent, or other family member; (b) the address of the student; (c) a personal identifier, such as the student's social security number or student number; (d) a list of personal characteristics which would make it possible to identify the student with reasonable certainty; or (e) other information which would make it possible to identify the student with reasonable certainty.

(7) "Vice President for Student Affairs" shall refer to the Vice President for Student Affairs or his designee.

WAC 516-26-030 Access to Records.

(1) Except as provided in WAC 516-26-036, each student at Western Washington University shall have access to his or her education records. The right of access shall include the right to inspect, review and obtain copies of education records.

(2) The Vice President for Student Affairs shall prepare a list of the types of student education records which are maintained by Western Washington University.

(3) A student wishing access to his or her education records shall submit a written request for access to the Vice President for Student Affairs. A request for access shall be acted upon by the Vice President for Student Affairs within a reasonable period of time, not to exceed 20 days.

(4) The Vice President for Student Affairs shall provide students of the University with an opportunity for reasonable access to education records, provided that the Vice President for Student Affairs shall be responsible for taking appropriate measures to safeguard and ensure the security and privacy of the institution's records while being inspected by students.

(5) The Vice President for Student Affairs will inform in writing a student who has requested access to his or her education records of the nature of any records which are being withheld from the student on the basis of the exceptions set forth in WAC 516-26-035. A student may challenge a decision by the Vice President for Student Affairs to withhold certain of the student's records by filing an appeal with the Student Rights and Responsibilities Committee.

(6) This section shall not prohibit the University Registrar from providing a student with a copy of the student's academic transcript without prior clearance of the Vice President for Student Affairs.

(1) Western Washington University shall not make available to a student the following types of materials:

(a) The financial records of the student's parents or any information contained therein.

(b) Letters or statements of recommendation, evaluation or comment which were provided to the University in confidence, either expressly or implied prior to January 1, 1975, provided that such letters or statements are not used for purposes other than those for which they were originally intended.

(c) If a student has signed a waiver of the student's right of access in accordance with subsection (2) of this section, confidential records relating to the following:

(i) Admission to any educational agency or institution;

(ii) An application for employment; or

(iii) The receipt of an honor or honorary recognition.

(2) A student, or a person applying for admission to the University, may waive his or her right of access to the type of confidential records referred to in subsection (1)(c) of this section, provided that such a waiver shall apply only if the student is, upon request, notified of the names of all persons making confidential recommendations, and such recommendations are used solely for the specific purpose for which the waiver has been granted. Such a waiver may not be required as a condition for admission to, receipt of financial aid, or receipt of other services or benefits from the University.

(3) If any material or document in the education record of a student includes information concerning more than one student, the student shall only have the right either to inspect and review that portion of the material or document which relates to the student or to be informed of the specific information contained in that portion of the material or document.

WAC 516-26-040 Right to Copy Records.

(1) The Vice President for Student Affairs shall, at the request of a student, provide the student with copies of the student's education records. The fee for providing such copies shall not exceed the actual cost to the University of providing the copies.

(2) Official copies of transcripts from other educational institutions, such as high school or other college transcripts, will not be provided to students by the University.

WAC 516-26-050 Challenges to Content of Records — To Release of Records — To Denial of Access to Records.

(1) Any student who believes that inaccurate, misleading or otherwise inappropriate data is contained within his or her education records shall be permitted to have included within the record a written explanation by the student concerning the content of the records.

(2) A student shall have the right, in accordance with the procedures set forth in WAC 516-26-055 and 516-26-060, to:

(a) Challenge the content of education records in order to ensure that the records are not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student;

(b) Have the opportunity to correct or delete inaccurate, misleading or otherwise inappropriate data contained within
education records; (c) Challenge the release of education records to specific persons as contrary to the provisions of this chapter; and (d) Challenge a decision by the University to deny access to particular types of records. (3) A student shall not be permitted under this chapter to challenge the validity of grades given in academic courses, except on the grounds that, as a result of an error, the student's records fail to accurately reflect the grades actually assigned by an instructor.

WAC 516-26-060 Challenges — Hearing Before Student Rights and Responsibilities Committee. (1) If informal proceedings fail to resolve the complaint of a student, the student may file with the Vice President for Student Affairs a written request for a hearing before the Student Rights and Responsibilities Committee of the University. (2) Within a reasonable time after submission of a request for hearing, the Student Rights and Responsibilities Committee shall conduct a hearing concerning the student's request for corrective action. (a) The student and the University shall be given a full opportunity to present relevant evidence at the hearing before the Student Rights and Responsibilities Committee. (b) If a student demonstrates that the student's education records are inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, the Student Rights and Responsibilities Committee shall have authority to order the correction or deletion of inaccurate, misleading or otherwise inappropriate data contained in the records. (c) If a student demonstrates that the release of the student's education records would be improper under this chapter, the Student Rights and Responsibilities Committee shall have authority to order that the records not be released. (d) If a student demonstrates that the student is entitled to access to particular documents under this chapter, the Student Rights and Responsibilities Committee shall have authority to order that the student be permitted access to the records. (6) The decision of the Student Rights and Responsibilities Committee shall be rendered in writing within a reasonable period of time after the conclusion of the hearing.

WAC 516-26-070 Release of Personally Identifiable Information or Education Records. Except as provided in WAC 516-26-080, 516-26-085 or 516-26-090, the University shall not permit access to or the release of a student's education records or personally identifiable information contained therein to any person without the written consent of the student. (a) University officials, including faculty members, when the information is required for a legitimate educational purpose within the scope of the recipient's official responsibilities with the University and will be used only in connection with the performance of those responsibilities; (b) Federal or state officials requiring access to education records in connection with the audit or evaluation of federally or state supported educational programs or in connection with the enforcement of federal or state legal requirements relating to such programs. In such cases, the information required shall be protected by the federal or state officials in a manner which shall not permit the personal identification of students or their parents to other than those officials, and such personally identifiable information shall be destroyed when no longer needed for the purposes for which it was provided; (c) Agencies or organizations requesting information in connection with a student's application for, or receipt of, financial aid; (d) Organizations conducting studies for or on behalf of the University for purposes of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction. If such studies are conducted in a manner which will not permit the personal identification of students by persons other than representatives of such organizations, and the information will be destroyed when no longer needed for the purposes for which it was provided; (e) Accrediting organizations in order to carry out their accrediting functions; or (f) Any person or entity authorized by judicial order or lawfully issued subpoena to receive such records or information. Upon condition that the student is notified of all such orders or subpoenas in advance of compliance therewith by the University. Any University employee charged with receiving a subpoena or judicial order for education records or personally identifiable information contained therein shall immediately notify the Assistant Attorney General representing the University; (g) Education records of a student or personally identifiable information contained therein which are released to third parties, with or without the consent of the student involved, shall be accompanied by a written statement indicating that the information cannot subsequently be released in a personally identifiable form to any other party without the written consent of the student involved; (h) The University shall maintain a record, kept with the education records of each student, indicating all parties, other than those parties specified in WAC 516-26-080(1)(a), which have requested or obtained access to the student's education records, and indicating the legitimate interest that each such party has in obtaining the records or information contained therein. This record of access shall be available only to the student, to the employees of the University responsible for maintaining the records, to the parties identified under WAC 516-26-080(1)(a) and (c).

WAC 516-26-080 Release of Personally Identifiable Information or Education Records — Exceptions to Consent Requirements. (1) The University may permit the access to or release of a student's education records or personally identifiable information contained therein without the written consent of the student to the following parties: (a) University officials, including faculty members, when the information is required for a legitimate educational purpose within the scope of the recipient's official responsibilities with the University and will be used only in connection with the performance of those responsibilities; (b) Federal or state officials requiring access to education records in connection with the audit or evaluation of federally or state supported educational programs or in connection with the enforcement of federal or state legal requirements relating to such programs. In such cases, the information required shall be protected by the federal or state officials in a manner which shall not permit the personal identification of students or their parents to other than those officials, and such personally identifiable information shall be destroyed when no longer needed for the purposes for which it was provided; (c) Agencies or organizations requesting information in connection with a student's application for, or receipt of, financial aid; (d) Organizations conducting studies for or on behalf of the University for purposes of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction. If such studies are conducted in a manner which will not permit the personal identification of students by persons other than representatives of such organizations, and the information will be destroyed when no longer needed for the purposes for which it was provided; (e) Accrediting organizations in order to carry out their accrediting functions; or (f) Any person or entity authorized by judicial order or lawfully issued subpoena to receive such records or information. Upon condition that the student is notified of all such orders or subpoenas in advance of compliance therewith by the University. Any University employee charged with receiving a subpoena or judicial order for education records or personally identifiable information contained therein shall immediately notify the Assistant Attorney General representing the University; (g) Education records of a student or personally identifiable information contained therein which are released to third parties, with or without the consent of the student involved, shall be accompanied by a written statement indicating that the information cannot subsequently be released in a personally identifiable form to any other party without the written consent of the student involved; (h) The University shall maintain a record, kept with the education records of each student, indicating all parties, other than those parties specified in WAC 516-26-080(1)(a), which have requested or obtained access to the student's education records, and indicating the legitimate interest that each such party has in obtaining the records or information contained therein. This record of access shall be available only to the student, to the employees of the University responsible for maintaining the records, to the parties identified under WAC 516-26-080(1)(a) and (c).

WAC 516-26-085 Release of Information in Emergencies. (1) The Vice President for Student Affairs or his designee may, without the consent of a student, release the student's education records or personally identifiable information contained therein to appropriate parties in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of the student or other persons. (2) The following factors should be taken into consideration in determining whether records may be released under this section: (a) The seriousness of the threat to the health or safety of the student or other persons; (b) The need for personally identifiable information concerning the student to meet the emergency; (c) Whether the parties to whom the records or information are released are in a position to deal with the emergency; and (d) The extent to which time is of the essence in dealing with the emergency. (3) If the University, pursuant to subsection (1) of this section, releases personally identifiable information concerning a student without the student's consent, the University shall notify the student as soon as possible of the identity of the parties and to whom the records or information have been released and of the reasons for the release.

WAC 516-26-090 Directory Information. (1) The University may release "directory information" concerning a student to the public unless the student requests in writing the Vice President for Student Affairs that the student's directory information not be released, except as provided in WAC 516-26-070, 516-26-075, 516-26-80 or 516-26-85. (2) The term "directory information" shall include information relating to the student's name, local and home address, telephone listing, class schedule, dates of attendance, degrees and awards received, participation in officially recognized sports, and weight and height if a member of an athletic team. 337
Appendices

WAC 516-26-035 Destruction of Student Records. Except as otherwise provided by law, the University shall not be precluded under this chapter from destroying all or any portion of a student's education records, provided that no education record to which a student has requested access shall be removed or destroyed by the University prior to providing the student with the requested access.

WAC 516-26-103 Notification of Rights Under This Chapter. The University shall provide reasonable notification to students of the rights of students under this chapter.

1. Notice will be provided to students under this section at least annually, and shall include the following:
   a. A statement of the types of education record maintained by the University;
   b. The name and position of the employee of the University responsible for the maintenance of each type of record, the records, and the purposes for which such persons have access;
   c. A copy of the rules and procedures set forth in this chapter; and
   d. A statement concerning the cost which will be charged to a student for reproducing copies of the student's record.

Appendix F

STUDENT ACADEMIC GRIEVANCE POLICY AND PROCEDURES

1. Policy

Students have protection, through orderly procedures, against arbitrary or capricious actions or decisions by their instructors, students also have protection against erroneous actions or decisions by academic units. At the same time, students are responsible for achieving and maintaining the standards of academic achievement and excellence which are established by their instructors and for complying with all relevant policies, standards, rules, and requirements which are promulgated by the University and the University's academic units. A student wishing to pursue an academic grievance must use the following grievance procedure once having received notice of the action or decision which gives rise to the grievance. The emphasis of the grievance procedures is on informal resolution of the grievance. Grievances which involve harassment of any kind the Student Academic Grievance Board should be rare.

Students who do not meet the deadlines given in the procedures shall be deemed to have waived their right to appeal. If any officer of the University or the Board fails to meet the deadlines established, the student may continue to the next level in the procedures. The deadlines are set to provide a rapid resolution of the grievance. However, unforeseen circumstances such as illness or absence from the campus may result in an extension of a deadline. Such extensions shall be recorded in writing by the unit head, dean or secretary to the Board, as applicable.

2. Academic Grievances

Academic grievances are limited to the following:

1. A claim by the student that an assigned grade is the result of arbitrary or capricious application of otherwise valid standards of academic evaluation, or
2. A claim by the student that the standards for evaluation are arbitrary or capricious, or
3. A claim by the student that the instructor has taken an arbitrary or capricious action which adversely affected the student's academic progress, or
4. A claim by the student that an academic unit has a decision not in keeping with University policy or taken an erroneous action which adversely affects the student's academic standing or academic career.

Note: Where an action is claimed to be in violation of affirmative action, a separate set of procedures are used (see Appendix H, Affirmative Action Student Grievance Procedures).

3. Procedures

A. Informal Resolution

A student with an academic grievance against an individual instructor shall notify the instructor and the faculty advisor, who shall meet with the instructor within ten (10) days of receiving written notification of the action or decision which gives rise to the grievance. The action or decision will be discussed in the presence of the student.

B. Informal Resolution

If a resolution is not achieved between the student and the instructor within five (5) days after the first meeting between the student and the instructor, the student has five (5) days to request an informal resolution involving a grade change. The grade change requires the approval of the department chairperson (or dean in the case of an academic unit head, in writing, of the existence of the grievance, the grade change, and the unit head shall arrange for consultation between the parties concerned at the earliest possible opportunity. Should the faculty member or department head be unable to resolve the grievance, the student's complaint shall be referred to the appropriate faculty advisor.

Either side may appeal a decision of the dean to the Student Academic Grievance Board. The appeal must be filed within five (5) days after the receipt of the dean's written decision.

B. Appeal to the Board

1. Composition of the Board. The Student Academic Grievance Board shall consist of six (6) members: three students and three faculty members. An administrator appointed by the Vice President for Student Affairs will serve as the executive secretary to the Board and will be responsible for the processing of meetings and the collection and maintenance of necessary documents. The Board, for any hearing, will be selected in the following manner.

(a) The pool of Board members shall consist of six (6) faculty members appointed by the Faculty Senate for three-year terms; six
Appendices

Chapter 2: Appeal Procedures

(a) Lodging an Appeal. The party appealing to the Board shall present the appeal to the executive secretary of the Board within five (5) days after the issuance of the Board's written decision. The letter of appeal shall state the basis of the appeal. The secretary will send a copy of the appeal to the second party to the grievance, who may respond in writing. All materials used at any stage of the grievance shall be made available to both parties and to the board.

(b) Mediation. A mediator may be appointed by the Vice Provost for Instruction from a list of four persons previously appointed by the Faculty Senate. The mediator has five (5) days from the time of appointment to attempt to resolve the issue to the satisfaction of both parties, otherwise the appeal proceeds to a hearing.

(c) Hearing. A hearing shall be called within fifteen (15) days of the filing of the appeal unless both parties agree to a delay, or unless the grievance is resolved through mediation.

A quorum is four (4) members of the Board. Both the student and the instructor may be represented by an advocate.

Both the student and the faculty member shall be invited to present oral arguments which shall be restricted to matters already in the record. New causes for grievance may not be raised at the hearing. Members of the Board may question either party.

No testimony may be taken by the Board unless both parties are present, or have waived their right to be present.

At the conclusion of the hearing, the Board shall, in writing:

(a) Request additional information, to be considered at a future hearing, or

(b) Find that there is insufficient cause to rule the dean's decision and recommend to the Vice President for Academic Affairs that it be upheld, or

(c) Find that there is sufficient cause to modify or overrule the dean's decision and recommend appropriate action to the Vice President for Academic Affairs.

C. Appeal to the Vice President for Academic Affairs

Either party may appeal to the Vice President for Academic Affairs from a decision by the Board. Such appeal shall be made, in writing, within fifteen (15) days after the issuance of the Board's written decision. The Board chairperson has the right to make a written response to the appeal within five (5) days of filing the appeal. The vice president may overlook or modify the decision of the Board only if that decision was arbitrary, capricious, based on insufficient information, or was beyond the scope of these procedures as defined in Section 2. The decision of the Vice President for Academic Affairs is final. Copies of the Vice President's decision will be sent to the student, faculty member, unit head, dean, chairperson and secretary of the Board.

D. Maintenance of Records

All written statements and testimony considered in the grievance process and a copy of the final written decision of the Board or Academic Vice President shall be retained on file in the Academic Vice President's office for a period of one (1) year following final disposition of the grievance.

Where a resolution or decision results in a grade change, the unit head shall inform the Registrar of the grade change.

4. Definitions

These definitions are for the purposes of these procedures only:

(1) "Academic unit" is Huxley or Fairhaven college or a department within the colleges of Arts and Sciences, Fine and Performing Arts, Business and Economics, or School of Education.

(2) "Unit head" is the department chairperson, or, in the case of Huxley and Fairhaven colleges, the chairperson of the college personnel committee.

(3) The unit head "designee" can be any faculty member or administrator from the academic unit.

(4) Reference to "days" means "school days" and includes the registration period and the week in which exams are scheduled.

Appendix G

CODE OF ETHICS FOR THE FACULTY OF WWU

This Code of Ethics was adopted by vote of the faculty of Western Washington University on April 15, 1983, and was endorsed for inclusion in the Faculty Handbook by the Board of Trustees on May 5, 1993.

Preface

Membership in the academic community and in the faculty of Western Washington University imposes upon faculty a range of obligations beyond that currently accepted by the members of the wider society. These obligations, which ensue from the faculty member's commitment to learning and to the role of teacher, include obligations to respect the dignity of others; to acknowledge the right of others to express differing opinions; to foster learning; to defend intellectual honesty, freedom of inquiry, learning and teaching; and to support freedom of expression on and off campus. An obligation to protect interests and seek correction of misuses carries with it the corollary responsibility to do so in ways which do not intentionally, persistently or significantly impede the functions of the institution.

A professional faculty, as guardian of academic values, serves as the instrument of disciplinary action against unjustified assaults upon those values by its own members. The traditional faculty role of limiting participation in disciplinary action to assurance of academic due process is inadequate to protect the conditions enumerated in the 1940 AAUP Statement on Academic Freedom. This function must be preserved and extended in ways not only by faculty assumption of responsibilities in adopting, practicing and promoting adherence to those principles of conduct essential to academic endeavor.

In recognition of this responsibility, the faculty of Western Washington University have adopted this Code of Ethics as a guide for present and future members of the University faculty.

Section 1

Western faculty members, guided by a deep conviction of the worth and dignity of their role in the advancement and dissemination of knowledge, recognize the special responsibilities placed upon them as scholars. Their primary responsibility to their respective subjects is to seek and to state the truth as they, in consequence of their academic competence, perceive it. To this end, faculty members are devoted to the development and improvement of their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending and transmitting knowledge. They practice intellectual honesty. When subsidiary interests are followed, they must ensure that these interests do not seriously compromise freedom of inquiry nor the fulfillment of academic responsibilities.

Section 2

As teachers, the Western faculty encourage the free pursuit of learning by students, and demonstrate by example the best scholarly standards of their respective disciplines. The faculty respect students as individuals and adhere to their designated role as intellectual guides and counselors, making every effort to foster honest academic conduct and to assure that evaluations of students reflect their actual performance. The faculty avoid and condemn sexual harassment, intimidation and exploitation of students. The confidential nature of the relationship between professor and student is respected, and any exploitation of students for private advantage is avoided by the faculty member who acknowledges significant assistance from them. Faculty strive to help students develop high standards of aca-
Appendices

demic competency and respect for academic freedom.

Section 3
A teacher's mastery of his or her subject and scholarship entitles the teacher to a classroom and to freedom in the presentation of a subject. Faculty thus avoid injecting into classes material which has no relation to the subject and conscientiously develop the content of a course and respond to students and as approved by the faculty in their collective responsibility for the curriculum.

Section 4
As a colleague, the Western faculty member has special obligations that derive from membership in the community of scholars. These include respect for, and defense of, the free inquiry of associates and, in the exchange of criticism and ideas, the respect for the opinions of others. Faculty members acknowledge the contribution of their colleagues and strive to be fair in professional judgment over colleagues. Each accepts his or her share of faculty responsibilities for the governance of this institution.

Section 5
As a member of this Institution, each Western faculty member seeks above all to be an effective teacher and scholar. Although all regulations of the institution that do not contravene academic freedom are observed by the faculty, the right to criticize institutional regulations and to seek their revision is maintained. The amount and character of work done outside the institution is determined by the faculty member with due regard to the paramount responsibilities within it. When considering the interruption or termination of service, the faculty member recognizes the effect of such decision upon the program of the institution and gives due notice of such intentions.

Section 6
As a member of a larger community, the Western faculty member maintains the same rights and obligations as does any other citizen. The urgency of these obligations is measured in the light of responsibilities to the discipline, to the students, to the profession, and to the institution. When speaking or acting as a private individual, each faculty member avoids creating the impression of speaking or acting for the University. As a citizen engaged in a profession that depends upon freedom for its integrity and welfare, the Western faculty member exercises a special obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

Section 7
Academic freedom has traditionally included the instructor's full freedom as a citizen. Most faculty members face no insoluble conflicts between the claims of conscience and of social and political action, on the one hand, and the claims and expectations of students, colleagues, and the institution on the other. If such conflicts become acute, and the instructor's attention to colleagues as a concerned citizen precludes the fulfillment of academic obligations, he or she should either resign his or her academic position.

Section 8
The expression of dissent and the attempt to produce change on campus and in the larger society are legitimate, but they must be carried out in ways which do not violate academic freedom. Injuries, disrupt the classes of colleagues, intrude on the individual rights of others or damage institutional facilities or private or public property. All members of the academic community and visitors to the University must be assured of the right to be heard in an atmosphere of free inquiry and in a situation devoid of violence.

Section 9
It is presumed that members of the Western faculty will find this Code of Ethics a adequate guide for the choices they must make in the fulfillment of their academic functions. If rules are to implement the principles inherent in this Code, they shall be developed by the faculty within the spirit of the Code, shall be in accordance with the 1960 AAUP Statement on Academic Freedom, and shall carry full provision for due process.

Appendix H
AFFIRMATIVE ACTION STUDENT GRIEVANCE PROCEDURE

Persons who have questions or need assistance in processing a grievance should contact Mary Robinson, Affirmative Action Director, Old Main 400/410. Phone 676-3306.

A person who believes he or she has been discriminated against by the University because of race, color, religion, national origin, sex, age, handicap, marital status or Vietnam Era disability or veteran status is urged to utilize the internal grievance procedure provided by the University through the Affirmative Action Office as soon as possible after the alleged act of discrimination giving rise to the grievance.

A. Informal Resolution
Any person may contact the Affirmative Action Office for informal discussion, advice and assistance. These contacts are kept confidential. The Affirmative Action director will act as a facilitator upon request.

B. Formal Investigative Resolution
1. Any person may file a formal grievance against any employees, department or unit of the University if he or she believes illegal discrimination has taken place by filling a written description of the alleged act of discrimination with the Affirmative Action director on the form provided by the Affirmative Action Office. Statements should be as detailed and accurate as possible.

2. The grievant will receive acknowledgment of the filing of the grievance and the respondent and the Vice President in charge of the employee, department or unit of the University will notified of the grievance within three working days.

3. The Affirmative Action director or an investigator designated by him or her must meet with the grievant within ten working days of receipt of the formal grievance. The grievant may be accompanied by an advocate or observer.

4. The Affirmative Action director (or his or her designee) will investigate the grievance, including meeting with the respondent and the respondent's advocate or observer.

5. Within 15 working days following the first meeting with the grievant, the investigator will meet with the grievant, the respondent and their advocates or observers for further information gathering. The grievant and respondent must submit the names of all witnesses they wish the investigator to interview and all documents they wish the investigator to study.

6. Following this meeting, the documentation and witnesses statements will be compiled and evaluated. The Affirmative Action director, in consultation with the President and after receiving legal advice from the Assistant Attorney General, will prepare findings of fact, conclusions, and recommend remedies. If any this report will be given to the grievant, the respondent, and the appropriate Vice President within 20 working days of the second meeting.

7. If the report of the Affirmative Action director is acceptable to the grievant, the respondent and the appropriate Vice President the President may direct implementation of the report or may modify it.

8. If the grievant, respondent or the appropriate Vice President finds the report or President's decision unacceptable and wishes to appeal, a written appeal must be submitted to the President within 10 calendar days. The appeal must specify in detail which of the findings of fact, conclusions, recommended remedies or other aspects of the report or decision to which objection is taken as well as the reasons for the exceptions.

If the individual appealing has appealed rights under WAC Chapter 516-08, the hearing procedure contained therein will be utilized. Other appeals will be heard by a three member Appeal Panel to be appointed by the President within 10 working days of the appeal.

The Appeal Panel will receive the Affirmative Action director's report, case.
file and President's decision. Unless a manifest injustice would result, the Appeal Panel will not examine documents or call witnesses not previously submitted or consider aspects of the report or decision for which specific written exception has not been taken in the appeal.

The Appeal Panel will submit a written recommendation to the President. The Appeal Panel recommendation is not binding on the President or the Board of Trustees.

9. The President may make a final decision for the University for payments of $2,000 or less to a grievant or group of grievants, however, the Board of Trustees has reserved the authority to approve affirmative action awards for amounts in excess of $2,000, and the President shall notify the Board of Trustees whenever the resolution of a complaint involves promotion, tenure, back pay or the initial appointment of an employee in order that the Board may take appropriate action consistent with the Board of Trustees Handbook.

C. Alternative Formal Resolution

The grievant may choose to utilize the formal grievance procedure of his/her group such as the faculty, student or labor agreement procedure. These alternative formal procedures are mutually exclusive. A grievant choosing Alternative C and not finding the satisfaction sought may not turn to Alternative B. It is the prerogative of the body creating the grievance procedure under Alternative C whether they will entertain a grievance which has previously been heard under Alternative B.

D. Handicap Grievance

A person denied access to a program or activity or employment because of a determination that that individual's handicap disqualifies him/her may appeal the decision to an ad hoc handicap grievance tribunal consisting of a student and an employee (faculty if the dispute concerns an academic program), one of whom is handicapped, and an expert in handicap rehabilitation to be appointed by the President.

A person who has been refused admission to Western Washington University who believes his/her handicap has affected his/her grade point, test scores, or other criteria for admission or in a way not reflective of true ability may appeal the admission decision to the University Admissions Committee. When a person appeals an admission decision on the basis of handicap, a person, usually a member of the faculty, with expertise in the rehabilitation of the handicap manifest by the applicant will sit as a voting member of the University Admissions Committee to hear the appeal.

The decision of the tribunal is final unless overturned by the President.

E. Outside Agencies

A person who believes that he/she has been the subject of discrimination may choose to see a lawyer regarding civil redress or may choose to file a discrimination grievance with the following agencies. These agencies require grievances to be filed within 180 days of the alleged act of discrimination.

Washington State Human Rights Commission

POLICY OF NON-DISCRIMINATION

Western Washington University is committed to assuring that all programs and activities are readily accessible to all eligible persons without regard to their race, color, religion, national origin, sex, age, marital status, or the presence of any physical, sensory or mental handicap. The laws under which the University operates include:

— Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color or national origin in any program or activity receiving federal financial assistance.

— Title IX of the Educational Amendments of 1972, which prohibits discrimination based on sex in all federally assisted education programs.

— Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination against qualified persons having any physical, sensory or mental handicap by recipients of federal financial assistance.

— The Washington State Law Against Discrimination RCW 49.60, which prohibits discrimination because of race, creed, color, national origin, sex, marital status, age or the presence of any sensory, mental or physical handicap.

Persons having questions regarding University policies relating to these laws should contact Mary Robinson at the Affirmative Action Office, Old Main 400 (676-3308).
