President's Message

Welcome to your personal adventure in learning at Western! Whether you're at the start of that adventure, finishing up your degree, adding a minor, exploring a new interest, or just considering whether Western is right for you, this catalog will help you chart your own course to success.

This catalog is your gateway to explore the animating ideas of the future and the past—from the latest discoveries and theories shaping the world of tomorrow, to the foundations of culture, science, mathematics, history and art that have defined the world of today. At Western you will have the chance to not only learn from outstanding faculty, but collaborate with them on research and projects that further our understanding of ourselves and our world. Beyond the classroom, Western is also a place where opportunities for service learning, community engagement, student leadership and love of the outdoors form an integral part of the learning experience.

If you need help understanding our academic offerings or planning your future, please know our dedicated faculty and staff are here to help you grow academically and personally. We want to ensure you get a phenomenal education and are committed to your success during your time at Western, and after graduation as well.

While you study here at Western, we will push you to expand your intellectual horizons, broaden your sense of community, and explore ways to put your skills to work in practical settings that put you a step ahead after graduation, and empower you to make a difference in the world.

Best wishes for your academic success this year at Western,

Sabah Randhawa
President
Western Washington University

Introduction to Western Washington University

Active Minds Changing Lives

Vision

Western Washington University will build a stronger Washington by being an international leader in active learning, critical thinking, and societal problem solving.

Mission

Western Washington University serves the people of the State of Washington, the nation, and the world by bringing together individuals of diverse backgrounds and perspectives in an inclusive, student-centered university that develops the potential of learners and the well-being of communities.

What is Western?

- Exceptional faculty and students engaged in leading edge intellectual inquiry.
- Liberal arts are the core strength of our academic programs.
- High quality academic programs are central to our mission.
- A place to build professional skills and abilities.
- Research, scholarship, and creative endeavor are fundamental to the Western experience.
- An environment that welcomes and embraces diversity
- Committed to open, passionate, and civil discourse, leading to transparent and well-informed decision-making.
- Responsible stewards of resources.
- Distinguished by a sense of place and community.
- A collaborative environment where faculty, staff, and students contribute to the mission of the University.
- Bringing the world to Washington and Washington to the world.

Character

- **Engaging** - An immersive and dynamic approach in everything we do.
- **Inviting** - Inclusive and supportive.
- **Distinctive** - An academic environment that inspires innovative learning and commitment to a purposed life.

- **Adventurous** - Thriving on new challenges, fearless pursuit of dreams.
- **Collaborative** - Interactive learning, up close and personal, with faculty and staff.

Positioning Statement

For ambitious, open-minded learners, Western is the premier undergraduate-centered university that fosters a dynamic collaborative environment at an intimate scale, where students fully engage, reveling in the freedom to develop their intellectual potential and achieve their personal goals.

Reasons to believe

- Academic excellence
- Passion for boundless learning and exploration
- Personal engagement in one's education
- Collaboration between students and faculty
- Welcoming and supportive community
- A place to develop leaders and global citizens
- Spectacular location and natural environment

Who we are

Western welcomes students at the front door of discovery. We invite you to connect, create and join in community with others who thrive on learning. Students and faculty are fully engaged here, working side-by-side to develop new ideas that challenge our understanding of ourselves and our world. We think of education as an adventure. So go ahead and immerse yourself and forge your own path to the future. You will make your mark here and go on to lead the positive change you want to see in the world.

University Academic Year and Religious Observance Calendar

The University Academic Year and Religious Observance Calendar lists the first day of classes, final examination week, commencement ceremony dates, official Western Washington University holidays, and religious observances, for fall, winter, spring and summer quarters. The calendar is subject to change. Dates appearing in Admissions or for registration take precedence

over those in the University Catalog. Some extension programs have varying start dates, check with the site or program office to verify the date classes begin.

In recognition of the diversity of our campus community and to assist with planning the academic year, religious holidays and days of observance are provided for your reference. The Registrar's Office recommends that students communicate early with their faculty if they may be absent from class in observance of a religious holiday. Flexibility with academic attendance policies is supported and encouraged. If you have any questions please contact the Registrar.

Fall 2018	
University Calendar	
Classes begin	8 a.m., Wednesday, Sept. 26
Veteran's Day	Monday, November 12

Classes begin	Tuesday, June 25
Independence Day holiday	Thursday, July 4
Commencement	Saturday, August 24
Religious Observance	
Martyrdom of the Báb	Tuesday, July 9

The University

Western Washington University is situated in Bellingham, a city of 87,574 overlooking Bellingham Bay and many of Puget Sound's 172 San Juan Islands. The University is 90 miles north of Seattle, 55 miles south of Vancouver, British Columbia, Canada, and an hour's drive from Mount Baker.

Since the first class of 88 students entered New Whatcom Normal School in 1899, the school has grown into the third largest institution of higher education in the state. The Normal School became Western Washington College of Education in 1937, Western Washington State College in 1961, and achieved university status in 1977.

Academic Programs and Degrees

Western Washington University is organized into a Graduate School and seven undergraduate colleges: the College of Business and Economics, the College of Fine and Performing Arts, Fairhaven College of Interdisciplinary Studies, the College of Humanities and Social Sciences, Huxley College of the Environment, the College of Science and Engineering, and Woodring College of Education.

To fulfill its academic objectives, Western's curriculum includes a program of broad general education; intensive studies designed to develop scholarly competence in the arts and sciences; professional programs for both public school personnel and a variety of other professionals; and graduate programs in professional education, the arts, the sciences, humanities, and business areas.

Western's undergraduate and graduate programs lead to the following degrees: Bachelor of Arts, Bachelor of Arts in Education, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science, Bachelor of Science in Nursing, Master of Arts, Master of Business Administration, Master of Education, Master of Fine Arts, Master of Music, Master in Teaching, Master of Science, and Master of Professional Accounting.

Extended Education

Extended Education at Western had its beginnings in 1912 when the first home study courses were created for country teachers. Fast forward to the 21st century where Extended Education has expanded and diversified WWU offerings in Bellingham and throughout the Puget Sound region, emphasizing community college partnerships in Seattle, Everett, Port Angeles,

Bremerton, and Poulsbo to deliver degree and learning options for all ages.

As part of Western's commitment to serve the citizens of Washington, Western collaborated with Olympic College in 2013 to establish the Western Washington University Center at Olympic College to better serve the community and businesses on the Kitsap and Olympic Peninsulas. Western on the Peninsulas strives to meet the growing demand of the community by offering degree programs from the College of Business and Economics, College of Humanities and Social Sciences, Huxley College of the Environment, the College of Science and Engineering, and Woodring College of Education.

Extended Education connects learners of all ages to the Western Experience by collaborating with colleges, departments and the community, linking university resources with educational needs and opportunities both on and off campus, including international education opportunities.

All of Western's extension programs, credits and degrees meet the same requirements as regular Western programs unless otherwise noted. Please see the Extended Education section of this catalog for detailed information on our program offerings and site locations.

Accreditation

The University is accredited by the Northwest Commission on Colleges and Universities to offer work at the bachelor's and master's degree level. The following colleges, departments and/or programs are also accredited:

- **Chemistry** — American Chemical Society, 1155 Sixteenth St. N.W., Washington, D.C. 20036;
- **College of Business and Economics** — AACSB International-The Association to Advance Collegiate Schools of Business, 777 South Harbour Boulevard, Suite 750, Tampa, FL 33602-5730;
- **Communication Sciences and Disorders** (graduate program in speech language pathology) — American Speech-Language-Hearing Association's Council on Academic Accreditation, 2200 Research Boulevard, Rockville, MD, 20850-3289; and National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023.
- **Community Health** — SOPHE/AAHE Baccalaureate Approval Committee (SABPAC), Society for

Public Health Education, 10 G Street NE, Suite 605, Washington, DC, 20002.

- **Computer Science** — Computing Accreditation Commission of ABET, 415 North Charles St., Baltimore, MD 21201, www.abet.org;
- **Electrical Engineering, Manufacturing Engineering, and Plastics and Composites Engineering** — Engineering Accreditation Commission of ABET, 415 North Charles St., Baltimore, MD 21201, www.abet.org;
- **Industrial Design** — National Association of Schools of Arts and Design, 11250 Roger Bacon Dr., Suite 21, Reston, VA 20190;
- **Music** — National Association of Schools of Music (NASM), 11250 Roger Bacon Drive #21, Reston, VA 20190;
- **Psychology** (mental health and school counseling master's degree programs) — Council for Accreditation of Counseling and Related Educational Programs, 1001 North Fairfax Street, Suite 510, Alexandria, VA 22314; National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023; and the Washington State Professional Educator Standards Board, P.O. Box 47236, Olympia, WA 98504-7236;
- **Recreation** — Council on Accreditation of Parks, Recreation, Tourism and Related Professions, National Recreation & Park Association, 22377 Belmont Ridge Rd., Ashburn, VA 20148
- **Woodring College of Education** — National Council for the Accreditation of Teacher Education (NCATE), 2010 Massachusetts Avenue N.W., Suite 500, Washington, DC 20036-1023; and program approval by the Washington State Professional Educator Standards Board, P.O. Box 47236, Olympia, WA 98504-7236 (teacher education and educational administration programs); Council on Rehabilitation in Education, 1699 Woodfield Road, Suite 300, Schaumburg, IL 60173; (rehabilitation counseling program); program approval by the Washington State Department of Health, Nursing Care Quality Assurance Commission, P.O. Box 47864, Olympia, WA 98504-7877 and Commission on Collegiate Nursing Education, One Dupont Circle NW, Suite 530, Washington, D.C., 20036-1120 (nursing RN-to-BSN program).

The University holds membership in the Council of Graduate Schools in the United States and the Western Association of Graduate Schools.

Assessment

As part of an ongoing effort to assure the quality of the education received by its students, Western Washington University conducts a comprehensive assessment program designed to monitor and continually improve student learning. This assessment program conforms with guidelines established by the state's Higher Education Coordinating Board. From time to time students may be asked to participate in outcomes assessment by completing satisfaction surveys, sitting for achievement examinations, compiling portfolios of their academic work, or evaluating their own work and the quality of instruction in their classes. The purpose of all such assessment activities is to monitor and continually improve the quality of Western's academic program.

Students are strongly encouraged to participate in these assessment efforts. Participants can be assured that assessment results are always treated with the strictest professional confidentiality.

Research

The Office of Research and Sponsored Programs (RSP) encourages, facilitates, and supports faculty and student research, creative activities, and scholarly pursuits. Through pre-award, post-award, and compliance, RSP assists faculty and students in areas vital for success in their scholarly endeavors. Pre-award supports individuals and teams during the proposal writing and submission phase, while post-award is responsible for the fiscal management of funded projects. RSP's compliance area focuses on the ethical conduct of research, includes support for human subjects and animal research, and administers university policies in these areas. RSP works closely with Contracts Administration to ensure intellectual property issues, right to publish, and areas important to scholarly pursuits and academic freedom are appropriately established for each project. RSP also provides internal funding in support of scholarly endeavors for faculty and students.

A variety of external sponsors has made awards to support faculty research, curricular development, and student research. Examples of sponsors include: the National Institutes of Health, National Endowment for the Arts, National Science Foundation, U.S. Department of Agriculture, National Oceanic and Atmospheric Administration, Department of Education, Department of

THE UNIVERSITY

Transportation, the Corporation for National and Community Service, Environmental Protection Agency, Canadian Embassy, National Endowment for the Humanities, U.S. Forest Service, American Chemical Society, National Park Service, U.S. Department of Defense, U.S. Small Business Administration, National Aeronautics and Space Administration, The Research Corporation, the Murdock Charitable Trust, the Joint Center for Aerospace Technology Education, the Department of Health and Human Services, Tetra Tech, the Stillaguamish Tribe of Indians, the John Templeton Foundation, the Nature Conservancy, C and D Zodiac, the Huntington Society of Canada, Salish Kootenai College, Evolving Earth Foundation, Batelle Pacific NW Pacific National Lab, and various other local agencies and agencies of the state of Washington.

Equal Opportunity Office

Western Washington University, in compliance with applicable laws and in furtherance of its commitment to fostering an environment that welcomes and embraces diversity, does not discriminate on the basis of race, color, creed, religion, national origin, sex (including pregnancy and parenting status), disability, age, veteran status, sexual orientation, gender identity or expression, marital status or genetic information in its programs or activities, including employment, admissions, and educational programs. Students, faculty or staff who believe they have been treated unfairly based on a legally protected characteristic may contact the Equal Opportunity Office (EOO) for advice and assistance. The EOO works to mediate discrimination concerns, if possible, and investigates and resolves formal complaints should they be filed.

The Vice Provost for Equal Opportunity serves as the campus Title IX Coordinator and ADA Coordinator. Sexual violence (including sexual assault, domestic violence, dating violence and stalking) is prohibited by Title IX and violates civil rights and criminal law. Survivors of sexual violence have the right to file a discrimination complaint and seek assistance from the EOO.

The EOO provides training to the campus community on sexual harassment prevention and a wide variety of other EO and diversity related topics. The office also works to increase access to WWU employment for people of color, women, people with disabilities, and veterans who have historically faced barriers to employment opportunities. Inquiries may be directed to the Vice Provost for Equal Opportunity & Employment Diversity, Title IX and ADA Coordinator, Equal Opportunity Office, Western Washington University, Old Main 345, MS 9021, 516 High

Street, Bellingham, WA 98225; 360-650-3307 (voice) or 711 (Washington Relay); www.wvu.edu/eoo/.

Academic Facilities

The main campus and its 91 buildings occupy 215 acres along Sehome Hill overlooking Bellingham Bay and downtown Bellingham. Other University properties, such as the marine laboratory at Shannon Point in Anacortes, support regional educational and conservancy programs.

In addition, off-campus courses and programs are held at various sites. The University has on-campus residence halls and student apartments for more than 4,000 students.

The beautiful natural setting of the main campus and its award-winning architecture make Western Washington University a stimulating place for work and study.

Western Libraries

Western Libraries and its Learning Commons partners provide vibrant physical and virtual learning opportunities for faculty, staff, and students to interact with information and with each other. The range of library support and expertise includes individual and collaborative study spaces, online learning modules, computer and digital media technology, integrated research and writing assistance, and many other programs and services designed for students pursuing coursework in Bellingham and on Western's other campuses.

The Western Libraries is committed to quality collections - over 1.5 million books, journals, government documents, maps, audio recordings, videos, and other media funded by an annual budget of just over \$2.2 million. Special collections in physical and digital formats include but are not limited to University and local history, children's and teen literature, Mongolian and Inner Asian Studies and Pacific Northwest Studies and Western student, staff and faculty scholarship. The Libraries also provides access to extensive online databases and other electronic resources, many with full-text access, available from campus or from home 24/7. Membership in the Orbis Cascade Alliance, a regional consortium of 39 academic libraries, supplements Western's collections.

Engaging human, physical, and virtual resources, the Libraries personnel contribute to the academic success and lifelong learning of Western's students, staff, and faculty by offering for-credit courses, individualized instruction sessions, expert

research and writing support, and meaningful dialog designed to advance teaching and learning.

Academic Technology & User Services (ATUS)

Upon a student's online activation of his or her Universal ID and Password, key resources become available, including the MyWestern portal, the WWU network and WWU wireless network, use of more than 20 general university computer labs and numerous departmental labs with scanners and printers, residence hall computer labs, and the Student Technology Center (STC).

General university computer labs are open 24 hours per day, 7 days per week during the academic year, and provide general use software for Windows and Macintosh users. In addition, academic departments provide computer and software resources which are specific to the needs of students in their disciplines.

The Student Technology Center offers classes in the use of software, multimedia tools, and website development, in addition to printing of specialized materials for academic coursework.

Laptop computers for use on the wireless network may be borrowed at Wilson Library, Viking Union and several other campus locations. Multimedia equipment is available for checkout at ATUS Classroom Services and the STC.

The ATUS Help Desk, Haggard Hall 123 provides computer and software support to all campus communities. The Help Desk staff can be called at 360-650-3333.

University Public Art Collection and Western Gallery

The historic precedent of establishing public art on a university campus as early as 1957 and the prominence of the artists in Western's Outdoor Sculpture Collection make this University and its specific art works widely known beyond the Northwest. Considered one of 10 acclaimed university collections in the United States, Western's sculpture collection spans the last half of the 20th century and is integrated with the terrain and campus architecture. The collection includes large-scale works by international, national and regional artists such as Magdalena Abakanowicz, Alice Aycock, Scott Burton, Anthony Caro, Nancy Holt, David Ireland, Donald Judd, Robert Morris, Bruce Nauman, Isamu Noguchi, Tom Otterness, Beverly Pepper, Richard Serra, Mark di Suvero, George Trakas and Ulrich Rückreim. Since 2012 the sculpture collection also includes interior works by such artists as Do Ho Suh and Sarah

Sze. Website information and a brochure are available to students and visitors who wish to learn about these works. The collection is administered by a curator and an advisory board.

The Western Gallery, in a wing of the Fine Arts Complex in the center of campus, has 4,500 square feet of exhibition space with sophisticated environmental controls. The gallery features temporary art exhibitions of a diverse character appropriate to our pluralistic society. As part of the educational programs of the gallery, lectures during major exhibitions are scheduled involving a variety of scholars. The contemporary art exhibitions and forums offer students the opportunity to cross reference works of art with the discourse of various disciplines.

Shannon Point Marine Center

Located on an 87-acre campus in Anacortes, Washington, the Shannon Point Marine Center (SPMC) provides facilities and programs that support the study of marine science on the part of students and faculty from throughout the University. Winner of the 2002 Presidential Award for Excellence in Science, Math and Engineering Mentoring, SPMC provides an outstanding hands-on experiential learning experience on the coast and an opportunity to engage in special programs supporting independent study and research. Undergraduate courses at the marine lab are offered primarily through the Biology and Environmental Sciences Departments, but also occasionally through other departments and colleges at Western. The Master's of Science students who participate in the Marine and Estuarine Science Program, offered through the Department of Biology and Huxley College of the Environment, take courses and engage in thesis research at the Marine Center. The National Science Foundation sponsors a summer Research Experiences for Undergraduates (REU) program, which can be applied to by Western undergraduate students and by others from around the nation.

Only an hour's drive from the main campus in Bellingham, SPMC's facilities are designed to provide the most up-to-date opportunities for study of marine science on the part of both undergraduates and graduate students. Included is a well-equipped academic vessel fleet that provides ready access to the rich marine environment in the waters surrounding SPMC and a sophisticated analytical instrumentation base that provides students distinctive opportunities for education in the principles of marine science and training in the application of modern field and laboratory investigative techniques.

The SPMC campus provides extensive marine habitat for field and laboratory study, with the

THE UNIVERSITY

Mosquito Pass Study Site on San Juan Island providing additional sites useful for comparative studies. A running seawater system brings the marine environment into the controlled conditions on the laboratory to facilitate study of marine plants and animals. There are housing and shared kitchen facilities for 24 people. The Shannon Point Marine Center of Western Washington University also provides a marine outlet for the SPMC Consortium that includes Skagit Valley College, Edmonds Community College and Everett Community College.

Enrollment and Student Services

The Division of Enrollment and Student Services advances Western's commitment to Active Minds Changing Lives by engaging and challenging prospective and current students in their pursuit of academic and personal excellence through outreach, support services, and co-curricular learning opportunities. Working collaboratively, departments in the division play a key role in bringing together an increasingly diverse and talented student body that involves its members in active learning and reflection. Division departments also create opportunities for students to display leadership, social responsibility, and effective citizenship through co-curricular programs, and are strongly committed to facilitating students' development.

Programs and services offered by the division include admissions, registration, residence hall life, academic and career development services, tutoring, financial aid, disability resources, dean of students/student assistance services, student activities, dining services, new student and family programs, counseling, health and wellness services, recreation programs, student outreach services, the bookstore, and athletics.

Office of the Vice President for Enrollment and Student Services

Old Main 445, 360-650-3839
www.wvu.edu/vpess/vpoffice.shtml

The Vice President's Office is the central administrative office for the Division of Enrollment and Student Services. The vice president and staff provide leadership to ensure that the ongoing needs of students at Western are addressed. This is accomplished by maintaining effective student-centered programs and services, working closely with academic departments to create an integrated and comprehensive student experience, and assessing students' needs and concerns. Students with general questions regarding university policies, procedures, and resources may contact the Vice President's Office for assistance.

Your Right-to-Know: Disclosure of Consumer Information

Western Washington University is committed to providing full disclosure of all consumer information required by state and federal law to all students, their family members, and members of the campus community. For more information go

Emergency Response and Evacuation Procedures

Western recognizes its responsibility to provide timely information to the campus community during emergencies. In the event of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, staff or faculty, the university will use every communication tool at its disposal to share information with the campus community as quickly as possible. These include, but are not limited to:

- The Western Washington University home page (www.wwu.edu),
- The Emergency/Storm Hotline (360-650-6500),
- The WWU Safety and Emergency Information website (emergency.wwu.edu); and/or
- The Western Alert emergency notification system.

Emergencies may be reported to University Police by dialing 3911 from a campus phone or 360-650-3911 from a non-campus phone or cell phone.

"Western Alert" Emergency Notification System

The Western Alert emergency notification system gives Western the ability to share health and safety-related emergency information with members of the campus community quickly — by desktop notification, text messages and e-mail alerts. Students, faculty and staff are automatically "opted in" to receive Western Alert text messages if cell numbers are provided. (E-mail alerts will be sent to your official university account automatically).

To update cell phone information, students, faculty, and staff can login to their myWestern account online at www.wwu.edu and click on "Web4U." Select "Personal Information," then "Cell Phone — View/Update." Update your cell phone number, and finish by pressing the "Update" button. Text messaging will only be used to communicate with you in two circumstances: during an emergency and during occasional tests of the Western Alert system.

Academic and Career Development Services

WWU's Academic and Career Development Services department is committed to helping students succeed in their academic pursuits at Western, and to achieve their personal and professional goals. Academic and Career Development Services is comprised of three units: the Academic Advising Center, the Career Services Center, and the Tutoring Center. The integrated services offered by these three units are focused on providing:

- Accurate and accessible advising to help students establish their academic goals and make effective plans to meet graduation requirements;
- Tutoring support to help students develop their critical thinking skills, work collaboratively to solve problems, and build confidence and self-efficacy in order to achieve their highest academic potential; and
- Career services to help students relate academic decisions to career goals, gain career-related experience, and transition successfully to graduate/professional education or career employment after completing their studies at Western.

Academic Advising Center

Old Main 380, 360-650-3850
www.wwu.edu/advising

The Academic Advising Center is the centralized advising resource for undergraduate students at Western. Advisors can assist with:

- Academic and course planning
- Setting academic goals and building plans
- Addressing challenges impeding academic progress
- Exploring and preparing for a major
- Identifying GUR progress and graduation requirements
- Understanding Western's academic policies

Career Services Center

Old Main 280, 360-650-3240
www.wwu.edu/careers

The Career Services Center provides a full range of services to assist students in all stages of the career development process - from self-

assessment and initial academic and career planning to the job search process.

All Western students, regardless of degree or college, are encouraged to seek and use the Career Services Center early in their university experience.

Career Planning Services

Career planning services focus on helping students select academic majors consistent with their interests, abilities, and personal goals. Individual counseling, career assessments, workshops, and resource materials are provided to assist students in:

- Assessing interests, personality characteristics, skills, and values as they relate to academic and career decision-making
- Exploring career and job market trends
- Relating career goals to educational options

Internship Services

Internships provide an opportunity for students to gain valuable career-related experience by expanding their education into the work world. Internships allow students to put classroom theory into practice, test preliminary career choices, and gain valuable experience and contacts to enhance their employment opportunities after graduation.

The Career Services Center provides online listings of internship openings and advises students seeking internship opportunities. The center's fall internship fair, quarterly career fairs, and on-campus recruiting program provide opportunities for students to connect with employers recruiting for interns.

Job Search Services

The Career Services Center offers a variety of services to assist students in identifying job opportunities and developing the skills necessary to conduct an effective job search, including:

- Individual job search counseling
- Workshops and online resources on résumé writing, job search correspondence, and interview techniques
- On-line job listings
- On-campus interviews
- Job market and salary information
- Mock interviews

Special Programs

The Career Services Center offers three career fairs each year during the fall, winter, and spring quarters. Other special programs offered annually include: the Health Professional and Graduate School Information Fair, the Community Internship and Volunteer Fair, the Law School Information Fair, the International Opportunities Fair, the Majors Fair (co-sponsored with the Academic Advising Center), the Education and Health Career Fair, the Huxley Environmental Career and Internship Fair, Educator Job Search Seminars, and the Etiquette Dinner.

Advising for Pre-Healthcare Professions

Pre-healthcare Advisors are available as early as freshman year to support students interested in pursuing careers in medicine, dentistry, optometry, pharmacy, veterinary medicine and other healthcare professions with:

- Individualized advising
- Curriculum planning and registration assistance
- Shadowing and volunteering connections
- Student club advising
- Listserv correspondence
- Professional school application support
- Mock interview service

A fall Health Professional and Graduate School Fair provides students direct interaction with admission representatives of professional programs of study.

Advising for Students Considering Post-Graduate Study

The Career Services Center provides advising for students planning to pursue graduate or professional studies. Students are assisted in weighing the value of further study, exploring options, and preparing graduate/professional school applications through individual counseling, workshops, resource materials and information fairs.

Students interested in learning more about graduate programs at Western are encouraged to contact the Graduate School, Old Main 530, at 360-650-3170, or visit its website at www.wvu.edu/depts/gradschool/.

Career Services for Western Alumni

The Career Services Center provides services to alumni seeking to change jobs or careers. Alumni can receive automatic e-mails of job openings and participate in on-campus interviewing and workshops. Alumni are eligible to receive individual

ENROLLMENT AND STUDENT SERVICES

counseling and use the reference file service. Additional information is available online at www.wvu.edu/careers/alumni.shtml.

Tutoring Center

Learning Commons: Wilson Library 2 North, 360-650-3855
www.wvu.edu/tutoring/

The Tutoring Center helps WWU undergraduates achieve their highest academic potential by providing a range of academic support services including drop-in tutoring, study skills appointments and presentations, and tutor-facilitated study groups.

Drop-in Tutoring

Peer-to-peer tutoring support is offered 60 hours per week at the Tutoring Center in WL 280. Courses supported include, but are not limited to, most math and science General University Requirement (GUR) courses. Tutors help students to identify and articulate gaps in understanding, use quantitative and scientific reasoning to frame and solve problems, and make problems relevant to the course and to students' lives.

Study Groups

Many high-demand courses are also supported by tutor-facilitated study groups. Study-group facilitators are tutors who did well in the course, and who usually have at least two quarters of drop-in tutoring experience as well as extensive training. Students participating in study groups are encouraged to work collaboratively and engage with the material.

Study Skills Assistance

The Tutoring Center also helps students develop academic skills essential to a successful college career. Peer advisors offer one-on-one appointments as well as group presentations and workshops for skills such as time management, test taking, note taking, and textbook comprehension. Study skills appointment give students the opportunity to reflect on their individual learning preferences and to develop learning strategies that build on their personal strengths and goals.

Resources

The Tutoring Center has numerous resources available to students. These include textbooks for many math and science GURs, answer keys, chemistry molecular model kits, scientific calculators, and other resources. Detailed quarterly calendars and weekly schedules are available in

the Tutoring Center and on the Tutoring Center website.

Admissions

Old Main 200, 360-650-3440
admissions.wvu.edu

See the Undergraduate Admission section of this Catalog.

Associated Students Bookstore

501 High St. 360-650-3655
bookstore.wvu.edu

Western's Associated Students Bookstore, the official Western Washington University bookstore, operates much like a student cooperative. It keeps prices lower than the industry average and partners with student groups to support campus programs and activities. The AS Bookstore provides value by offering a number of services: discount prices on course materials; a wide selection of used textbooks; a textbook rental program; digital options and eBooks; a price comparison tool; general books; school, office, and art supplies; a variety of "Western Gear" sportswear and emblematic gifts; and more. Every quarter, the bookstore's website, www.bookstore.wvu.edu, publishes the list of textbooks required for each class. You can use Bookit to place your order online, to rent your textbooks, or use Verba to compare the bookstore's new, used, eBook and rental prices with other online marketplace options. At the beginning of each quarter, our Charge-it purchasing program allows students to charge in-store and online purchases to their student account.

Shopping at your local independent Western AS Bookstore keeps dollars on campus supporting student activities at Western.

The Western AS Bookstore operates in partnership with the Associated Students of Western Washington University for the benefit of all students. It keeps prices below the industry average and teams up with student groups to support campus programs. The bookstore offers a range of valuable products and services, including:

- discount prices on course materials
- an extensive selection of used textbooks
- a textbook rental program
- eBooks and other digital options
- a convenient price comparison tool
- an excellent collection of regional, faculty, and other general books

ENROLLMENT AND STUDENT SERVICES

- beautiful school, office and art supplies
- a huge variety of stylish and spirited "Western Gear" sportswear and emblematic gifts
- and much more

Every quarter at www.bookstore.wvu.edu, students can find a list of all required and optional textbooks and other course materials, use the Bookit tool to place an order online, or use the Verba tool to compare the AS Bookstore's prices for new, used, eBook, and rentals textbooks to those of other online options. At the beginning of each quarter, the Charge-it purchasing program allows students to charge in-store and online purchases to their student accounts to ensure that all have timely access to the materials they need for academic success.

Athletics

High Street Hall 25, 360-650-3109
www.vikings.com

Intercollegiate athletics involves many students as participants and spectators. Men's sports include basketball, soccer, cross country, golf, and indoor and outdoor track and field. Women's sports include volleyball, soccer, cross country, basketball, indoor and outdoor track and field, golf, rowing, and softball. Western's athletic program is a member of the National Collegiate Athletic Association Division II, and the Great Northwest Athletic Conference. For ticket information, call 650-BLUE (2583).

Students are encouraged to join The Blue Crew, Western's student sports fan organization. There is no cost to join and free Blue Crew prizes are awarded to all Western students attending Viking athletic events. For further information, contact the Department of Athletics, Carver Gymnasium, at 360-650-3109, or visit Blue Crew on the Athletics Facebook page at www.facebook.com/wvuathletics or at www.vikings.com.

Campus Community Coalition

Old Main 240D, 360-650-6863
www.campuscommunitycoalition.com
www.wvu.edu/offcampusliving

The mission of the Campus Community Coalition (CCC) is to promote working relationships and communication between the campus and community, and to enhance shared responsibility through collaborative education and problem solving. The Coalition's philosophy is that shared problems require shared solutions. Coalition

partners include neighborhood associations, the Bellingham Police Department, the Washington State Liquor and Cannabis Board, rental property owners, City of Bellingham officials, Whatcom County Health Department, Whatcom Prevention Coalition, local bar owners, and students, faculty, and staff from Western Washington University, Whatcom Community College, Bellingham Technical College and Northwest Indian College. The Coalition has three main areas of focus:

- We work to engage and support students living off campus. The purpose of this work is to address quality-of-life issues affecting students and local residents in the neighborhoods.
- We work to promote a positive environment downtown where people are free to make safe and healthy choices. The Hospitality Resource Alliance is a partnership of community interests who meet to promote a safe and healthy nightlife in Bellingham.
- We work to increase networking opportunities and strengthen relationships among the varied partners and stakeholders of the CCC, to share relevant information and to achieve mutual goals. This includes promoting active partnerships among the four area colleges in Whatcom County.

Campus Recreation Services

Wade King Student Recreation Center SV138, 360-650-3766
www.wvu.edu/campusrec

Campus Recreation Services provides each student, faculty, and staff member the opportunity to become actively involved in organized sports and recreation programs. Services provided by Campus Recreation include intramural sports, noncredit fitness classes, faculty/staff wellness, open recreation, nutritionist, athletic trainer, and sport clubs.

Wade King Student Recreation Center

Offering a wide variety of fitness and leisure activities, the Wade King Student Recreation Center (SRC) is designed to meet the recreation needs of the campus community. The SRC offers students, alumni, faculty, and staff a dynamic and inviting place to stay fit. All undergraduate and graduate students currently enrolled in six or more credits automatically become SRC members by paying the mandatory student recreation center fee. Paid memberships are available for

ENROLLMENT AND STUDENT SERVICES

faculty/staff, spouses/dependents/partners, and alumni and affiliates. The center features a climbing wall; a three-court gym; three weight and cardio areas; an indoor jogging track; a multi-activity court for basketball, floor hockey, tennis, volleyball, and soccer; a six-lane lap/leisure pool and 32-person whirlpool; two group exercise rooms; an equipment checkout counter; and the Rock's Edge Café.

Intramural Sports

Intramural sports are competitive and recreational activities designed to encourage participation by all members of the campus community. Leagues and tournaments are offered in a wide variety of sports and are generally played on campus or at nearby facilities. Various local, regional and national organizations co-sponsor events and provide opportunities for promotional materials, special prizes, and invitational playoff berths. Intramural sports are structured for different skill levels and conducted in a safe, supervised environment.

Noncredit Fitness Classes

Noncredit fitness classes provide participants an opportunity to develop, grow, and maintain a healthy lifestyle in a fun and friendly atmosphere. Instructional classes include aerobics, Zumba, Pilates, cardio kickboxing, yoga, hip-hop dance, step aerobics, water aerobics, and more. Classes are taught by qualified student and non-student instructors, and are designed with the individual differences of the student population in mind.

Sport Clubs

WWU sport clubs are student organizations formed to promote non-varsity team sports and recreational activities. Sport clubs participate in intercollegiate and extramural competition at the local, regional, and national level while offering opportunities for instruction, skill development, and practice. Some of the sport club programs are co-recreational and allow members to be involved in scheduling and hosting events, arranging transportation and lodging, purchasing equipment and uniforms, and serving on the Sport Club Council. All WWU students, faculty, staff and alumni are eligible to become sport club members. Current WWU sport clubs include baseball, climbing, cycling, men's crew, equestrian, fencing, figure skating, ice hockey, lacrosse, rugby, sailing, tennis, ultimate disc, volleyball, water polo, wakeboarding, water skiing and wrestling. Additional information is available online at www.wvu.edu/campusrec/sportclubs.shtml.

Counseling, Health and Wellness Services

www.wvu.edu/chw

Given what it takes to be successful in higher education - and later, in life and work - students have to be ready to learn in a state of physical, psychological, emotional, intellectual, social, and spiritual well-being. Mind, brain, and body must be in shape for and open to learning experiences. How prepared students are for learning determines how much and how well they learn, and influences persistence, retention, and graduation. We want every student who starts college to graduate, and every graduate to experience all that higher education can offer - so we must pay attention to students' well-being.

The Counseling Center, Prevention and Wellness Services, and the Student Health Center are dedicated to every student experiencing all that Western has to offer care for Western. Through utilization of quality services, students can learn ways to care about their own health and to improve and maintain their overall well-being so that personal, academic, and career goals may be achieved.

Counseling Center

Old Main 540, 360-650-3164
www.wvu.edu/counseling/

Western Washington University's Counseling Center staff is available to assist you with the life problems and emotional concerns that may arise while you are a student here at Western. We are fully experienced with common psychological concerns such as depression, bipolar disorder, anxiety disorders, attention deficit disorder, and eating or body image issues.

Students also use the services of the Counseling Center to help improve their lives through healthier relationships, better communication, greater understanding of self, strategies for self-care, and in making choices that are more consistent with their educational and personal goals.

We offer group counseling, short-term individual or couples' counseling, and psycho-educational workshops and classes to help students address their concerns and gain the skills to be successful at WWU. We also assist students by referring them to other services on campus and to community resources that can offer more specialized or longer-term help with problems and concerns. The center is open 8:30 a.m. - 4:30 p.m., Monday through Friday, when classes are in session and provides same-day appointments for students

ENROLLMENT AND STUDENT SERVICES

whose concerns are urgent. An after-hours counselor may be accessed by calling 360-650-3164 and selecting Option 1.

Our counseling staff includes psychologists, mental health counselors, and doctoral level trainees who work under the supervision of our professional staff. We work closely with the Student Health Center when psychotropic medication or medical attention is needed. Western's Counseling Center is accredited by the International Association of Counseling Services.

Prevention and Wellness Services

Old Main 560, 360-650-2993
www.wvu.edu/pws

Prevention and Wellness Services (PWS) offers Western students opportunities to get involved in improving their own health and the health of their community. PWS offers numerous professional and peer-led health promotion programs that can help students achieve optimal well-being and specific services to those who may face challenges to their well-being, such as alcohol and drug concerns or sexual assault.

Some of the services available to students include:

- Alcohol and drug-risk reduction consultation (ADCAS)
- Consultation and Sexual Assault Support (CASAS) and violence prevention services
- PWS Peer Health Educator program (volunteer involvement in health promotion and risk reduction with the Western community)
- Individual Sexual Health Information sessions

Alcohol and Drug Consultation and Assessment Services (ADCAS)

Old Main 560, 360-650-6865
www.wvu.edu/adcas

ADCAS is a confidential, professional service for Western Students who want assistance or information regarding their own use or someone else's use of alcohol, tobacco, or other drugs. ADCAS services are designed to assist students in making their own informed choices about alcohol, tobacco, and other drug use and related risks (personal, physical, social, academic and legal) so they can enjoy their college experience, maximize academic success, and minimize unwanted and unintended consequences. Specific individual services available to students include: one to one discussion of personal use issues, concerns about

friends, family members, partners, or roommates, and referral to appropriate campus and community support, counseling or treatment resources.

Individual ADCAS services are provided by professional staff specializing in alcohol and drug concerns. Skilled Peer Health Educators and professional staff provide group-format services.

The use of alcohol and other drugs can have both immediate and long-term impact including increased health risks, increased risk for accidents, forced and/or regretted sex, poorer academic performance, regretted actions or social behavior, and possible legal sanctions. ADCAS services are designed to assist students in making accurately informed and thoughtful choices.

Consultation and Sexual Assault Support (CASAS) & Violence Prevention Services

Old Main 585B, - Violence Prevention Coordinator
360-650-7982
Consultation and Sexual Assault Support Services (CASAS) 360-650-3700
www.wvu.edu/casas

CASAS is a confidential resource for students who have been affected by sexual violence. CASAS professional and peer advocates work with survivors to access all available resources in an effort to ensure that students continue to be academically successful, and have the support necessary to heal from their experiences.

CASAS also provides support to partners, friends, or family members of those who have experienced sexual violence. Anyone who has experienced any kind of sexual violence is encouraged to utilize this resource, whether it occurred days or years ago.

CASAS provides support, advocacy, and information to help identify and access available campus and community resources around:

- Emotional support and counseling
- All levels of reporting options
- Medical/legal referral assistance
- Additional academic support options and resources

Anyone who has ever experienced any form of violence is strongly encouraged to utilize this service. To reach CASAS, call 360-650-3700, or send questions by e-mail to casas@wvu.edu.

Western is fully dedicated to not only supporting survivors of many forms of violence, but also to creating and sustaining a safe environment where violence does not occur. We recognize that discussing the root causes of violence is a key

ENROLLMENT AND STUDENT SERVICES

component in prevention. You will find resources of support for those who have been touched by violence, as well as resources for how to become part of the solution on our website.

Sexual Health Information Service

Viking Union 432, 360-650-7557
www.wvu.edu/pws/sexual_health_information_sessions.shtml

Sexual Health Information Services provide one-on-one confidential information sessions available to all students. These sessions cover sexually transmitted infections and prevention, and tips on how to talk with your partner, information on breast and testicular self-exams, birth control, and women's annual exams, and more. These sessions are judgment free, tailored to fit specific student needs and free for WVU students.

To schedule an individual appointment, call 360-650-7557.

Wellness Outreach Center

Viking Union 432, 360-650-4321
www.wvu.edu/pws/wellness_outreach_center.shtml

The Wellness Outreach Center is the Prevention & Wellness Services (PWS) auxiliary location for a variety of outreach programs. Please see the PWS website for the calendar of outreach programs and current hours.

Student Health Center

Campus Services Building 2nd floor, 2001 Bill McDonald Parkway, 360-650-3400
www.wvu.edu/chw/student_health

The Student Health Center provides students with a broad range of primary medical care services including, but not limited to: evaluation and treatment of illness, contraceptive services, immunizations, mental health, sports medicine, evaluation/referral for specialized conditions, men's and women's health care, monitoring and treatment of chronic illnesses, rapid lab tests (such as strep, influenza, mono and pregnancy tests), preventive medicine, sexually transmitted disease testing and treatment, travel consultation, and well-physical exams. The center is staffed by a team of physicians, nurse practitioners, and support staff.

The Student Health Center is open from 8:30 a.m. - 4:00 p.m. on Monday, Tuesday, Wednesday, and Friday and from 9:30 a.m. - 4:00 p.m. on

Thursday during the academic year when classes are in session. Please see the website for Summer Quarter hours. When the Student Health Center is closed, a telephone consulting nurse is available at no cost and students are advised to seek clinical services from available after-hour medical facilities in the Bellingham area. **NOTE:** The University assumes no financial responsibility for care dispensed at other health care facilities. Students who seek treatment at off-campus health facilities must use private funds or their health insurance policy to cover resulting charges.

Please see the website www.wvu.edu/chw/student_health/ for medical insurance plan information. The medical director strongly recommends that all students have some form of health insurance to defray the substantial costs associated with serious accidents and illness.

Measles Immunity Requirement

Western requires all students born after Jan. 1, 1957 to provide medical documentation of immunity to rubeola measles to the Student Health Center before they will be allowed to register for classes or live in on-campus housing. Acceptable options for documentation include:

- Provide the dates for two individual doses of measles vaccine (usually referred to as "MMR vaccine"). The doses must have been given: (1) after January 1, 1968, (2) at least 30 days apart, and (3) on or after 12 months of age; or
- Provide a copy of evidence of measles immunity by demonstrating high positive antibody levels from a blood test (rubeola titer). A copy of the actual test results is required.
- Request a waiver from the immunity requirement for legitimate religious, personal, or medical reasons. To request a waiver, call 360-650-4839 or visit the Health Center website at www.wvu.edu/chw/student_health/measles.shtml. The form requires verification from your current health care provider for medical requests. Please note: in the event of a measles outbreak, students with an approved waiver may be excluded from attending classes and living on campus.

Questions about the measles (rubeola) immunity requirement may be directed to the Student Health Center.

Reporting Communicable Diseases

Western is committed to the ongoing health and safety of our campus community. Individuals who know or have reason to believe that they are infected with a communicable disease have an ethical and legal obligation to conduct themselves in ways that minimize exposure in order to protect themselves and others and to inform the appropriate university administrator. Students should contact the Student Health Center or the Office of the Vice President for Enrollment and Student Services if they have been diagnosed with a communicable disease.

Communicable disease shall include, but not be limited to:

- Chickenpox (varicella)
- Hepatitis
- Influenza
- Measles
- Meningitis
- Mumps
- Norovirus (viral gastroenteritis)
- Pertussis
- Severe Acute Respiratory Syndrome (SARS)
- Tuberculosis
- Ebola infection

Any employee, student, prospective student, volunteer or visitor who knowingly arrives from a country outside the United States that has been issued a Travel Health Warning by the Centers of Disease Control must contact the Student Health Center's Medical Director for medical clearance before being allowed on campus to attend classes, work or other activities.

Individuals with communicable diseases shall be excluded from enrollment or employment or restricted in their access to university facilities, programs or services if a medically based judgment, in an individual case, establishes that exclusion or restriction is necessary to ensure the health and safety of the infected individual and/or other members of the university community.

For a complete review of this policy, visit the University's Policy and Procedures website at www.wvu.edu/policies/docs/1000%20University%20Administration/POL-U1000.12%20Reporting%20Communicable%20Diseases.pdf

disAbility Resources for Students

Old Main 120, 360-650-3083 (voice), 360-255-7175 (VP)
www.wvu.edu/depts/drs

The primary mission of the disAbility Resources for Students is to ensure equal access for students with disAbilities to all curricular and co-curricular opportunities offered by Western Washington University. disAbility Resources for students provides disability management counseling, enabling resources and referral information to enrolled students who possess a temporary or permanent disabling condition. disAbility Resources for Students (DRS) is committed to providing services and programs that foster student development at all levels: intellectual, emotional, physical, and social. Full participation in all aspects of university life is not only necessary to achieve this holistic development, but encouraged and supported by the DRS team.

- DRS provides reasonable accommodations in compliance with State and Federal laws.
- Students' records are treated with confidentiality.
- Students must complete a Needs Assessment with DRS in order to receive services.

For service eligibility, a complete diagnostic description from a qualified professional is required. Specific academic accommodations and services are determined on an individual basis and are modified to meet the unique needs of students and their academic experience. Once a student becomes eligible for accommodations through DRS, they are able to request accommodations each term through a secure web-based portal.

Services and programs offered through disAbility Resources for Students include, but are not limited to:

- disAbility management counseling
- Exam accommodations
- Interpreter services
- Alternative text
- Print enlargement
- Braille
- Academic advisement
- Academic adjustments in the classroom
- Mobility assistance
- Transcription services (Typewell, real-time captioning)
- Assistive listening devices
- Resource referral services

ENROLLMENT AND STUDENT SERVICES

Evacuation Guide

Western's Emergency Evacuation Guidelines for Persons with Disabilities is now available. Students are encouraged to obtain this publication and learn about preparing for an emergency on campus and establishing an individual written evacuation plan. The guide is available online at www.wvu.edu/ehs/emergency_preparedness/emergencypreparedness.shtml.

Veteran Services Office

Old Main 280, 360-650-3324
wp.wvu.edu/veteranservices/

The mission of the Veteran Services Office (VSO) is to provide student centered programs and services for our military connected students while they pursue their academic goals at Western. The VSO also offers education and information on being a military connected student to the greater Western Community as part of the continuing effort to cultivate an equitable and inclusive environment. Western's military connected students offer perspectives and experiences from diverse backgrounds and bring a skill set and knowledge which enhances Western's learning communities.

The VSO also offers a space for students to engage and interact with their peers, as well as a point of reference to have their questions around military service, VA educational benefits, and the Western veteran's community answered.

Services and programs offered through the Veteran Services Office include, but are not limited to:

- Certification of VA educational benefits
- Create academic plans in compliance with VA requirements
- disAbility Resource Accommodations
- Priority Registration for veterans and their spouses (link to PR statement)
- Help navigate National Guard or Reserve obligations with course requirements (link)
- Advising for military connected students on challenges impeding academic progress
- Information on tuition waivers for eligible military connected students
- Residency form for military connected students (Washington State Residency Application for Veterans and Family Members)
- Active Duty Tuition Assistance rates for extended education
- Financial Aid liaison for veterans and services members

- Services and events happening in the community surrounding Western Washington University

Financial Aid

Old Main 265, 360-650-3470
www.finaid.wvu.edu

See the Financial Aid section of this catalog.

New Student Services/Family Outreach

Old Main 300, 360-650-3846
nssfo.wvu.edu

New Student Services/Family Outreach fosters student learning and development by supporting new students and family members in their transition to the academic, personal, and social experience of Western, as well as the greater Bellingham community. Programs and services provided include:

- Coordination of new student programs, services, and orientation, including Summerstart, Transitions, Western Welcome Week, Fall Orientation, quarterly orientation, and ongoing programs. Orientation provides students an opportunity to receive academic advising and course registration assistance, become familiar with services, meet faculty, staff and current students, and complete placement tests.
- Coordination of family orientation and outreach, including summer orientation programs, Fall Family Open House, Back2Bellingham, and the Family Connection.
- Online and in-person referral to campus and community resources.
- Leadership opportunities for current students (orientation student advisors and student coordinators).

Dean of Students Unit

Viking Union 547, 360-650-3450
www.wvu.edu/depts/dos/

The Dean of Students Unit, led by the Dean of Students, supports Western Washington University's role and mission as follows:

Mission Statement: The Dean of Students Unit contributes to intentional student development by providing programs, services, and facilities that

promote leadership, community engagement, citizenship, creative expression, student well-being, and the realization of personal and academic success.

The Dean of Students oversees the Office of Student Life, Student Outreach Services, L.E.A.D.S., Ethnic Student Center and the Viking Union Organization (Student Activities/Associated Student Governance, Viking Outdoor Recreation, and Facilities & Services).

Office of Student Life

Viking Union 506, 360-650-3706
wp.wwwu.edu/officeofstudentlife/

The Office of Student Life is dedicated to supporting the learning and development of students, and creating an environment that fosters students success and graduation. Our primary purpose is to ensure the well-being and success of Western students. We work closely with students (and their family members), faculty, and staff, in support of this purpose. We also collaborate with a number of campus departments, including the Counseling Center, Registrar's Office, Student Health Center, University Police, and University Residences.

Staff members in the office are available to provide general assistance with problem solving and referrals; to support students in crisis; to advise students on university policies and procedures, including the Student Conduct Code; and to process dean's letters and letters of recommendation.

We can assist students with:

- hardship withdrawals
- leaves of absence for non-medical emergencies
- advice on university policies, procedures, and grievances
- support while experiencing a crisis
- information on university resources

Common situations the Office of Student Life can help with include: academic grievances, frustrations with the administrative workings of the institution, and emergency leaves of absence or hardship withdrawals due to illness, injury, or the death or illness of a family member.

Student Conduct

As a condition of enrollment at Western, students assume responsibility for their own actions and maintain an environment conducive to the academic success, safety, and well-being of others.

In addition, they are expected to be truthful, respect the rights of others, and abide by all university policies and procedures, as well as local, state, and federal laws and regulations. All students are responsible for understanding and complying with the responsibilities and expectations set forth in this code.

The student conduct process at Western is designed to be a learning process that promotes an understanding of students' responsibilities as members of the university community. The objectives of the student conduct system, as set forth in this code, are twofold: to ensure that students act in a manner consistent with high standards of behavior, and to maintain the safety and well-being of all members of the university community.

Alleged violations of the Code may be reported to the Assistant Dean of Students at 360-650-3706 or student.life@wwwu.edu. Copies of the Student Conduct Code can be found in Appendix C of this catalog, in the Dean of Students Office, or online at wp.wwwu.edu/officeofstudentlife/reporting-a-concern-making-a-complaint/.

Old Main 387, 360-650-7443
wp.wwwu.edu/sos/

Student Outreach Services supports the educational needs of all students, particularly first-generation, non-traditional and multicultural students. Professional academic advisors engage students in personalized academic coaching, peer mentoring and specialized programs using a global and multicultural focus to support student persistence and academic achievement. Advisors help develop educational plans and provide positive intervention for those in academic risk, including former students interested in returning to Western. Student Outreach Services also serves as a resource to the campus community on issues of diversity and student success. The office is committed to the academic success, retention, and graduation of all students.

Ethnic Student Center

Viking Union 420, 360-650-7271
as.wwwu.edu/esc/

The Ethnic Student Center serves as a cultural community hub for gathering and programming. Some of the 17 cultural clubs are: the African-Caribbean Club, Black Student Union, Blue Club, Chinese Student Association, Filipino American Student Association, Oceanic Student Association (Formerly Hui `O Hawai'i), Japanese Student

ENROLLMENT AND STUDENT SERVICES

Association, Khmer Student Association, Korean Student Association, Latino Student Union, MEChA (El Movimiento Estudiantil Chicano de Aztlan), Mixed Identity Student Organization, Native American Student Union, Queer and Trans People of Color, South Asian Student Association, and the Vietnamese Student Association.

L.E.A.D.S. (Leaders Engage in Action, Discernment, & Skills-building)

Viking Union 506, 360-4187
www.wvu.edu/leads

The mission of the program is to provide a campus environment where student leaders engage in action, discernment, and skills-building. Self-reflection, assessment, and the development of leadership skills are central. The L.E.A.D.S. program, open to all students, provides campus-wide programming:

- co-curricular leadership development support through open sessions, student government, residence life, and other campus units;
- leadership lectures, panels and events featuring alumni, parents and national/regional leaders;
- training of a cadre of peer leadership educators, LeaderCorps, who learn to teach leading to other students while deepening their own leadership knowledge and skills; and an electronic leadership portfolio process to enhance leadership of self-awareness, self-efficacy, and opportunities during college or transitioning to careers.

Additionally, the L.E.A.D.S. Program, in partnership with the Karen W. Morse Institute for Leadership, provides leadership education to a select group of incoming student leader-scholars, incorporating self-reflection, character strengths assessment, interaction with alumni, faculty, staff and administrators, leadership learning, and team-building.

Viking Union

Viking Union 547, 360-650-3450
vu.wvu.edu

Mission Statement: The Viking Union connects a dynamic and diverse campus community, providing welcoming and supportive spaces and activities that advance engagement in leadership, service, adventure, and celebration.

As the community center of the campus, the Viking Union plays an integral role in students' out-of-

class experience. The Union houses offices for the Associated Students' government, services and activities, and the Viking Union/Student Activities administrative office. Also located in the Viking Union are the Dean of Students and Student Life offices, meeting rooms, lounges, an outdoor equipment rental shop, a bicycle repair facility, several food service areas, a post office, an information center/Lost and Found, two cash machines, an art gallery, Vendors' Row, KUGS-FM, a Publicity Center, and program areas. Viking Union food service locations include the Viking Union Market, the VU Café, the Underground Coffeehouse, and Vendor's Row.

Viking Union Event Services

vu.wvu.edu/reservations/

Viking Union Event Services is the contact point for reserving space in the Viking Union, Lakewood's Bill MacDonald Lounge, and other outdoor spaces on campus. Event Services provides Associated Student-led events with support for reservations, planning, and event management throughout campus. Services include the setup, takedown, security, audio and visual event support provided by our student crews.

Student Activities/Associated Student (AS) Governance

Viking Union 547, 360-650-3460
www.as.wvu.edu

Student activities at Western are designed to provide maximum opportunities for student engagement in a wide range of co-curricular experiences. As an important part of the educational experiences offered by the University, students are encouraged to become involved in some aspect of the activity program since these activities provide leadership and social experiences that build on classroom learning.

Many student activities are initiated and coordinated by students through the Associated Students. Students who participate in the governing bodies of student-administered services, activities, and facilities gain valuable leadership experience while supporting the quality of co-curricular life. Students may also participate in the University governance system as elected officers on the AS Board of Directors or appointed members of its various councils and committees.

AS Personnel Office

Viking Union 505, 360-650-6113
as.wvu.edu/personnel

ENROLLMENT AND STUDENT SERVICES

The AS employs over 200 students in a variety of diverse and exciting jobs in all the AS offices listed below. The Personnel Office coordinates the hiring of AS employees and open positions are listed on the website. The bulk of hiring takes place at the very beginning of each spring quarter for the following academic year, and some positions are also open at the beginning of fall quarter or as there are vacancies throughout the year.

AS Productions

Viking Union 422
as.wvu.edu/asp

Associated Students Productions (ASP) provides a comprehensive program of student activities and events for all Western students and their community. There are six divisions of ASP: Pop Music, Films, Special Events, Underground Coffee House, Viking Union Gallery, and Marketing. The students that staff these offices work hard to bring top-quality events to campus, including local, regional and national music performances, films, comedians, authors, lecturers, art exhibits, and all kinds of other fun and intellectually stimulating engagements.

AS Representation and Engagement Programs (REP)

Viking Union 520, 360-650-4267
as.wvu.edu/rep

The AS Representation and Engagement Programs provide the resources, services, and support necessary to ensure student representation in decisions that impact students at the university, local, state, and federal levels. The programs also promote effective citizenship and civic engagement through services, programs, and collaboration. The REP includes a student REP Director, the AS Elections Coordinator, Legislative Liaison, Local Liason, Organizing & Outreach Coordinator, Western Votes, and a Committee Coordinator who coordinates the appointment of students to nearly 150 spots on AS and University Committees.

AS Review

Viking Union 411, 360-650-6126
as.wvu.edu/asreview

The AS Review is an alternative weekly that provides coverage of student interests such as the AS government, activities, and student life. The Review seeks to enhance the student experience by shedding light on underrepresented issues, inclusive coverage, informing readers, and

promoting dialogue. The AS Review welcomes reader submissions.

AS Clubs and Organizations & The Club Hub

Viking Union 425, 360-650-6121
as.wvu.edu/clubs/

More than 230 clubs and organizations exist within the Associated Students, providing a wide range of involvement opportunities for all students. AS clubs come in all varieties, including service, environmental, recreational, academic/departmental, social issues, religious, cultural and ethnic, arts, music and dance, political, gaming, pre-professional and honorary, and special interest areas. Some clubs have long histories at Western; others are brand new. If a student doesn't find the right club, it is easy to start a new one. Students at Western enjoy being involved in clubs for the opportunities to meet new people, develop new skills, make positive changes in the world, and just have fun. The Club Hub serves as a resource for club leadership and organizational development, as well as event planning and programming. The Club Hub is committed to ensuring that all students can become involved and engaged in their Western Community.

Environmental & Sustainability Programs (ESP)

Viking Union 424, 360-650-6129
as.wvu.edu/esp/

The purpose of the AS Environmental & Sustainability Programs (ESP) is to inform, educate, and provide resources regarding a variety of issues surrounding environmentalism and sustainable practices. The following offices comprise the ESP:

Alternative Transportation

Viking Commons 25, 360-650-7960
as.wvu.edu/transportation/

Western Student Transportation provides services funded by the Student Alternative Transportation Fee. These include a WTA Viking Xpress Bus Pass good for all WTA bus routes, a daily late night and Sunday daytime Student Shuttle, and assistance for any questions students may have concerning transportation at Western.

Environmental Center

ENROLLMENT AND STUDENT SERVICES

Viking Commons 424, 360-650-6129
as.wvu.edu/earth/

The Environmental Center presents lectures, seminars, music events and other programs to educate the campus community about environmental topics and to illustrate the interconnections between environmentalism and other social concerns. The Center maintains a library of current books, newspapers, brochures, videos and magazines and acts as a networking center for campus and community activists.

Outback Outdoor Experiential Learning Program

Viking Union 424, 360-650-2433
as.wvu.edu/outback/

The Outback, a joint program of the Associated Students and Fairhaven College, is a 5 acre farm and wetland restoration site. The purpose of the Outback OELP is to coordinate a wide range of opportunities for students to learn about, develop, and implement sustainable land use practices. These opportunities include personal and collaborative events and projects involving habitat restoration, organic gardening, green building, academic partnerships, independent study projects (ISPs), workshops, lectures and classes. The OELP also provides job-related skill building and community networking opportunities for students. These include serving on the Outback Governing Council, volunteering, and participating in work-study, AmeriCorps Students in Service, and salaried employment.

Sustainable Action Fund Fee Grant Program

Viking Commons 25, 360-650-2491
www.wvu.edu/sustain/programs/saf/

The Sustainable Action Fund (SAF) is a student-initiated, quarterly fee paid by all Western Washington University students to reduce the campus' environmental impact and engage the campus community in environmental awareness.

The SAF Grant Program provides funding to innovative, student-driven projects focused on promoting experiential learning opportunities and sustainable practices at Western Washington University. The SAF Grant

Program is managed by the Office of Sustainability and supported by the AS Environmental and Sustainability Programs. Students, staff and faculty are all eligible to apply for grant funding. Projects funded through the SAF Grant Program aim to:

- Increase Student Involvement and Education
- Reduce the University's Environmental Impact
- Create an Aware & Engaged Campus Community

KUGS Radio

Viking Union 7th Floor, 360-650-KUGS (5847)
as.wvu.edu/kugs

Operated by the Associated Students, KUGS broadcasts in stereo at 89.3 on the FM dial, online at as.wvu.edu/kugs/, and on Comcast Cable channel 980 on campus and throughout Western Washington. A general manager and student staff coordinate the efforts of 100 volunteers in all facets of station operation. With a complete range of music, news, and educational programming, KUGS offers students opportunities for participation as disc jockeys, newsreaders, producers, and managers.

Resource and Outreach Programs

Viking Union, 5th Floor
as.wvu.edu/rop

The Resource and Outreach Program's five offices – including the Disability Outreach Center, Legal Information Center, Womxn's Identity Resource, Social Issues Resource Center, and Queer Resource Center – provide information, advocacy, activities, and peer education to Western students. The ROP strives to empower and support all members of WWU's diverse community. They also present a range of events, workshops, and activities each year that provide students with engaging and empowering opportunities to build community and learn about themselves as well as our local and global community. Students can gain valuable work and life experiences through salaried student employment, work-study, and volunteer positions. The AS also has a Veteran Community Coordinator that works out of the Veteran Services Office in Old Main and is responsible for coordinating events and fostering community among student Veterans.

Viking Outdoor Recreation

Lakewood Watersports Facility

2410 Lake Whatcom Blvd, 360-650-2900
www.vu.wvu.edu/lakewood/

The Lakewood Watersports Facility – located approximately 7 miles from Western's campus at 2410 Lake Whatcom Blvd. – offers sailing, canoeing, kayaking, windsurfing, and rowing, as well as a sand volleyball court, picnic tables and BBQ's, and hiking trails. For-credit Extended Education classes and private instruction in sailing are available during the academic year and summer quarter. An informal lounge with a kitchenette and fireplace is also available.

Outdoor Center

Viking Union 150 (access available from North Garden Street adjacent to VU entrance), 360-650-3112
as.wvu.edu/outdoor

The Outdoor Center provides a variety of outdoor-related engagement opportunities and activities for all students, faculty, staff, and alumni such as: rafting, biking, hikes, camping, and climbing. Emphasis focuses on developing and refining outdoor skills and responsible environmental practices, fostering diversity, enriching the academic experience, and promoting life-long learning. Resources include a knowledgeable staff, equipment rentals, a bike shop, excursions, educational resources, and instructional clinics. Custom crafted experiences are available for your group or office. Experienced trip consultants will prepare and deliver your experience. We offer co-curricular opportunities for learning outdoor skills and leadership, youth and family programming, employment and instructional opportunities for students.

Outdoor Center Challenge Program

2410 Lake Whatcom Blvd, 360-650-3731
AS.Challenge.Admin@wvu.edu

Located at the Lakewood Watersports Facility, the Challenge Program offers teams, clubs, and groups of students, as well as faculty and staff groups, a facilitated opportunity to work on goal setting, leadership, effective communication, problem solving, trust-building, consensus-building, synergy, group roles, confidence and other valuable group and individual

skills on our high and low experience ropes course. The program offers a sequence of "Challenge by Choice" activities specifically designed to increase social and individual awareness and appreciation through safe physical and mental challenges, discussion and reflection. We strive to be inclusive of all groups and abilities.

ViQueen Lodge

Sinclair Island, 360-650-6131 (VU Reservations Office) 360-650-3731 (Management)
as.wvu.edu/viqueen

Viqueen Lodge, located on 13 acres on Sinclair Island and provided by the Associated Students, offers a unique rustic lodge that can accommodate up to 15 people in the middle of paradise. Whales, seals, and eagles are your neighbors when lodging here. The island has a wonderful feel for relaxing groups and plenty of short walks to try while you are here. The property has no traditional bathroom facilities, but has running water and a full kitchen. There is wood always available to burn in the cooking pit if you desire. Call us today to book a group lodging experience with our talented staff. Opportunities include supervised kayaking, hiking, bird watching, camping, or marine science activities. .

WOOT Program

Viking Union 150 (access available from North Garden Street adjacent to VU entrance), 360-650-3112
as.wvu.edu/outdoor/woot/

WOOT aims to ease, support and enhance the transition into Western for first-year students through outdoor adventure and experiential education. Through establishing a small community of new students in the outdoors, connecting them to Western and their new environment, students will feel more at ease with entering the university setting and will better understand their new role as a college student. Week-long outdoor experiences happen prior to the start of fall quarter.

Facilities and Services

AS Child Development Center

ENROLLMENT AND STUDENT SERVICES

Fairhaven College Stack 11/12, 360-650-3021
as.wvu.edu/cdc

The Child Development Center is provided by the Associated Students of Western Washington University and serves the children of students, faculty/staff, and alumni ranging in ages from 2-5. The center operates Monday through Friday from 7:30 a.m. - 5:30 p.m. following Western's calendar days in session. Tuition for student families is based on a sliding scale to assist parents in furthering their education at WWU.

AS Publicity Center

Viking Union 411
as.wvu.edu/publicity

The Publicity Center provides high quality and personalized promotional services, products, and support to the Associated Students organization and students at Western Washington University. They offer excellence in graphic design, print and electronic media, and distribution services while providing unique educational opportunities and leadership experience to student employees.

AS Recycle Center

as.wvu.edu/recycle

The mission of the Associated Students Recycle Center is to provide the opportunity for faculty, staff and students to recycle on campus, to educate the University community on the recycling process at Western, and to continually increase collection efforts in order to reduce Western's waste stream. The center also provides student employment opportunities and work experience, specifically in recycling and waste management.

Registrar's Office

Old Main 230, 360-650-3430
www.wvu.edu/depts/registrar

See the Registration section of this catalog for information.

University Residences

Edens Hall 100, 360-650-6565
housing.wvu.edu

See the University Residences section of this catalog.

The Hacherl Research & Writing Studio

Haggard Hall second floor, 360-650-3219
library.wvu.edu/rws

Are you looking for a vibrant and collaborative place to research, read, and write? Drop in at the Hacherl Research & Writing Studio at any time of the day to grab a table and work at your own pace—no appointments necessary! Staff are on-hand to check in and give support on everything from research papers and lab write-ups to resumes and digital media projects. You'll receive feedback and step-by-step strategies to help you overcome writer's block and develop your skills as a scholar. Uninspired? Practice creative ways to brainstorm and organize ideas.

- Lost in the Googleverse? Learn to navigate the research landscape.
- Zoned out? Discover how you can read faster and with deeper understanding.
- Wearing pajamas? You can also chat with the Studio or send in a draft online.
- Need accommodation? The Studio offers specialized assistance to match your learning needs.

Hours of operation: Mon.-Thurs. 9:00 AM to 9:00 PM, Fri. 9:00 AM to 5:00 PM, Sun. 12:00 PM to 9:00 PM.. Always open for online draft submissions during the quarter. See website for more information.

Department-Related Activities

Department-related activities provide opportunities for students to participate in a wide range of programs. Although faculty from related departments work closely with these activities, students do not need to be affiliated with the departments in order to participate. In many cases, students may receive academic credit for their involvement. The individual programs are outlined below.

Forensics Program

Communication Facility 295, 360-650-4879
chss.wvu.edu/communication-studies/debate-team

The forensics program provides opportunities for participation in local, regional, national, and international competitions, in National Parliamentary Debate Association-style debate. The program encourages achievement in tournament participation at all levels of competition, ranging from novice to championship. Western's program enjoys a strong national reputation including numerous top-20 rankings and consistent participation in the National Parliamentary Tournament of Excellence field of participants. Annual activities also include sponsoring several local events, including campus presentations, hosting tournaments, and an annual advocacy on-campus conference (CASCAID). All students are welcome to participate regardless of major or experience level.

Music Activities

Performing Arts 273, 360-650-3130
cfpa.wvu.edu/music

A wide range of vocal and instrumental groups on campus provides musical activity for students at acceptable levels of ability, and musical entertainment to satisfy listeners of all tastes. Some of the opportunities available to students include the Symphonic Band, Wind Symphony, University Choir, Concert Choir, Symphony Orchestra, Viking Pep Band, jazz ensembles, opera, Collegium Musicum, and numerous smaller ensembles. Membership in all of these ensembles is attained through either a performance audition or consent of the instructor. For more information see the Department of Music section of this catalog or contact the Department of Music, Performing Arts Center 273, at 360-650-3130.

Publications

Communications Facility 230, 360-650-3171
chss.wvu.edu/journalism/publications

Student publications include The Western Front, a weekly newspaper; Klipsun, a quarterly magazine; Jeopardy, the annual literary magazine; Occam's Razor, an annual cross-disciplinary showcase for exceptional academic writing and The Planet, a quarterly environmental journalism magazine. Student contributions of time and talent are essential to these publications, and new students at all academic levels are encouraged to join their staffs each quarter. Students may receive credit for working on these publications through the Journalism and English Departments, as well as the Huxley College of the Environment.

Theatre and Dance

Performing Arts 395, 360-650-3876
cfpa.wvu.edu/theatredance

The Theatre and Dance Department offers students a rich variety of opportunities in faculty- and student-directed productions – both on stage and off – to write, act, dance, stage manage, design, teach, produce, and choreograph. The broad range of productions during the academic year includes musicals, dramas, and comedies from a variety of periods as well as faculty- and student-choreographed events, traditional dance concert events, and collaborations between the departments within the College of Fine and Performing Arts. The Theatre and Dance Department provides ongoing concentrated applied theatre and dance experiences for both the beginner and the advanced student. Previous theatre experience is not required for participation and all auditions are open. Previous dance experience is not a requirement for placement in a technique class. The Theatre and Dance Department participates regularly in the American Association of Theatre in Higher Education (ATHE), South Eastern Theatre Conference (SETC), The American College Dance Festival (ACDF), The Kennedy Center's American College Theatre Festival (KCACTF) and the United States Institute for Theatre Technology (USITT).

Western View (Video)

Communication Facility 295, 360-650-3870

Western View offers students the opportunity to gain digital video production and editing experience. Informational and educational video instruction includes hands-on course work. Students produce videos shown in class. Advanced students working with Western Window will have their work air on WWU TV channel for off-campus audiences. Credit is available through the Department of Communication Studies.

Financial Aid

Old Main 265, 360-650-3470
www.finaid.wvu.edu

Western Washington University makes every effort to provide financial assistance to eligible applicants through grant, scholarship, work study, and loan programs. It is expected that students will meet part of their expenses through earnings from employment in the summer and academic year, and that parents (if applicable) will contribute in proportion to their financial ability.

NOTE: Students should be prepared to use some of their own money to pay for their initial expenses, even if they expect to receive financial aid.

What is Financial Aid?

Financial aid is monetary assistance to help meet educational costs, including: tuition and fees, books and educational supplies, housing and food, transportation, personal, and dependent care expenses. The total amount of aid cannot exceed the cost of attendance used to determine financial aid eligibility. Eligibility for aid is determined by state and federal formulas from the U.S. Department of Education and the Washington Student Achievement Council. Applicants complete the Free Application for Federal Student Aid (FAFSA), which is evaluated to determine each student's relative financial need, and awards are made with careful adherence to federal, state and institutional guidelines. Western Washington University students who enroll in an approved program of study abroad may be considered for funding from many, but not all, aid programs.

Applicants who submit the FAFSA form to the federal processor by the priority deadline (see How to Apply for Financial Aid section) are given priority consideration for aid based on available funding.

Grants are gift aid and do not have to be repaid. Grants are awarded on the basis of calculated need and other eligibility criteria from the applicant's FAFSA. Most grants are restricted to undergraduate students, with increased priority for students who meet the priority filing deadline. Some partial tuition and fee waivers are available to students in master's degree programs.

Scholarships are generally awarded on merit-based criteria, but some may also use financial need as a factor. Western Washington University offers merit scholarships to entering freshmen, transfer, and returning students in recognition of outstanding academic ability or talent.

Individual scholarships are available through University departments and colleges. The University's Multicultural Achievement Program Scholarship recognizes outstanding students who demonstrate a commitment to multicultural issues and activities in school or the community. Additional information is available in the Scholarship Center, Old Main 285, 360-650-3471, or online at www.finaid.wvu.edu/scholarships.

Enrollment in self-supported courses may not meet the eligibility criteria for all scholarship programs. Students enrolled in self-supported courses or applying to self-supported programs are urged to contact the Scholarship Center to determine whether they remain eligible for scholarships they have been awarded.

Loans for education feature competitive interest rates. The federal government subsidizes the interest on some loans. Repayment may be deferred in most loan programs until after the student leaves school or falls below half-time enrollment. Western Washington University participates in the Federal Direct Stafford, and PLUS loan programs. Alternative Student Loans through private lenders may be available to students who qualify.

Student Employment and Work Study offer work opportunities on campus and in the local community. Financial aid eligibility may or may not be a prerequisite for employment, depending upon the employment program. It is important to note the majority of student employment positions on Western's campus do not require Work Study eligibility. The University places a strong emphasis on providing quality work experiences for its students. Additional information is available in the Student Employment Center, Old Main 275, 360-650-3158, or online at www.finaid.wvu.edu/studentjobs.

Work Study is awarded to undergraduate and graduate students with calculated financial need. Work Study jobs have a portion of the employee's earnings subsidized by federal, state, or institutional funds.

How to Apply for Financial Aid

Students are required to file the Free Application for Federal Student Aid (FAFSA) each year to be considered for federal and state aid. The FAFSA can be completed online at www.FAFSA.ed.gov.

To receive priority consideration for financial aid from all available programs, students must complete and submit their FAFSA by the priority filing deadline of January 31 preceding that academic year. Applications submitted after the

FINANCIAL AID

priority deadline are considered for aid on a funds available basis.

Many aid applicants are required to provide additional FAFSA verification documentation so that their eligibility for aid can be determined. Examples of such documentation include but are not limited to verification worksheets, federal income tax transcripts, and W-2 forms. Students are urged to provide requested items as soon as possible to avoid delays in processing. The FAFSA and related application materials must be received in sufficient time to allow Financial Aid to finalize aid eligibility in accordance with federal requirements.

To prevent financial aid overawards that may require student repayment, aid applicants are required to immediately notify the Financial Aid Department in writing of any financial aid they are scheduled to receive or have already received from institutions or organizations other than Western Washington University. Such institutions and organizations may include, but are not limited to, other universities, colleges, educational loan lenders, and scholarship-granting organizations.

General Eligibility Requirements for Financial Aid

Students may be considered for financial assistance if they:

- Are a citizen, a permanent resident of the United States, or an eligible non-citizen
- Submit a completed Free Application for Federal Student Aid
- Submit all required information and documentation
- Are admitted through the Admissions Office or Graduate School to a degree or certificate-granting program at Western Washington University
- Do not owe a repayment on a previous grant or are not in default on a previous educational loan received at any institution of higher education
- Have registered with the Selective Service, if required to do so
- Are enrolled for the minimum credit hours required:
 - 12 credit hours for full-time undergraduates; 8 credit hours for full-time master's degree candidates
 - 9 credit hours for three-quarter-time undergraduates; 6 credit hours for three-quarter-time master's degree candidates
 - 6 credit hours for half-time undergraduates; 4 credit hours for

half-time master's degree candidates

- Some students may be eligible for limited amounts of assistance if they are enrolled less than half-time
- Maintain satisfactory academic progress and have not already exhausted eligibility under the maximum attempted credit component of Western Washington University's Satisfactory Academic Progress Policy; please refer to Appendix J in the Appendices section of this catalog for additional information regarding satisfactory academic progress.
- Loan Proration - Federal regulations require that undergraduate and post baccalaureate students who are attending less than a full academic year (e.g., one or two quarters) in their graduating year must have their federal direct student loans prorated based on the number of credits required for graduation. Annual loan eligibility is prorated based on the credits required for graduation in the student's program as determined by the Registrar's Office and reported on the Degree Evaluation.
- Have not been convicted under federal or state law for possessing or selling illegal drugs during a period of enrollment for which Federal Title IV aid was received. If you have a conviction or convictions for these offenses, call 800-433-3243 or go to www.ifap.ed.gov/drugworksheets/attachments/StudentAidEligibilityWorksheetEng1415.pdf to see how this law applies to you.

Summer Financial Aid

To be considered for summer financial aid students must have a FAFSA for the preceding academic year on file, meet the same eligibility requirements as the academic year, and submit the Summer Financial Aid Application. The Summer Financial Aid Application is generally available in Mid-April via Web4U.

Self-Supported Courses

Financial aid may be granted for self-supported courses. Contact the Financial Aid Department for eligibility requirements and aid procedures. Fee reductions and tuition waivers are not applicable to self-supported courses. Students enrolled in or applying to self-supported courses or programs should contact the Scholarship Center for specific scholarship eligibility requirements. Self-supported courses may not meet the eligibility requirements for all scholarships.

Graduate Students

Graduate students must enroll for at least 4 graduate-level credits each quarter to be eligible to borrow through the Federal Direct Unsubsidized Loan program.

Short-Term Cash-Flow Problems

The Financial Aid Department may be able to assist with short-term cash-flow problems by offering a short-term emergency loan program.

Emergency Loan

Currently enrolled students may borrow a maximum of \$350 for up to 90 days to solve minor cash-flow problems. A \$5 loan origination fee will be charged on each loan advance, and will be deducted at the time of the disbursement. Emergency loans must be paid in full by the loan's due date.

Institutional Loan

The Financial Aid Department reserves the right to refuse the short-term emergency loan program to students who do not show an ability to repay the loan, who have a poor repayment history, or where the applicant appears to be over-reliant on the emergency loan program in lieu of managing a budget.

Western Repayment Policy

Overpayment occurs when a student has received more aid than the student is eligible to receive. The most common reason for overpayment is full or partial withdrawal from classes after financial aid has disbursed. A student who fully or partially withdraws from classes after aid has been disbursed may be required to repay all or a portion of that aid. The student will be held to Satisfactory Academic Progress requirements for the quarter.

Additional information on repayment requirements is available at the Financial Aid Department and the Student Business Office (OM 110).

Students must successfully complete the minimum number of credits associated with the enrollment status that they received aid for. Otherwise, aid could be delayed, reduced, or cancelled. On the second Friday of each quarter, the enrollment status is recorded and used as the final basis for determining eligibility for the following programs: Federal Pell Grant, Federal Teach Grant, State Need Grant, College Bound Scholarship, State

Educational Opportunity Grant, Federal Supplemental Educational Opportunity Grant, Federal Work Study, State Work Study, Institutional Work Study, Federal Direct Loan, Western Grant, tuition waiver, and some scholarship programs. This recording date is commonly referred to as the quarterly enrollment status "lock" date.

Students who receive aid from the above programs at the beginning of the quarter based on a higher enrollment status than their enrollment status at the lock date, may have their aid reduced to correspond with their locked enrollment status. In such circumstances, a repayment may be owed. Students whose enrollment status increases by the lock date may be eligible for additional funding.

Lock Dates:

Fall Quarter	October 5, 2018
Winter Quarter	January 18, 2019
Spring Quarter	April 12, 2019
Summer Quarter	July 5, 2019

	Graduate	Undergraduate	Post-bac
Full time	8 or more	12 or more	12 or more
3/4 Time	6-7	9-11	9-11
1/2 Time	4-5	6-8	6-8
<1/2 Time	3 or less	5 or less	5 or less

Withdrawing from Western

If you are planning to withdraw from all of your classes, please provide official notification to the Registrar's Office of your intent to withdraw as soon as possible (even prior to totally withdrawing). Failure to officially withdraw may result in having to repay all the financial aid disbursed during the quarter. Your notification will initiate steps necessary to bring closure to any outstanding financial aid issues for the quarter and help resolve any aid eligibility concerns for future quarters.

Withdrawing prior to the start of any given quarter will require repayment of all aid disbursed for that quarter.

Withdrawing After the Lock Date (second Friday of each quarter)

If you withdraw from all classes after the lock date, you will be placed on financial aid suspension for future quarters. You may appeal for financial aid reinstatement if unusual circumstances prevented

FINANCIAL AID

you from meeting satisfactory academic progress requirements. Reinstatement is not guaranteed. For more information, please refer to the satisfactory academic progress policy (Appendix J).

If you withdraw from all classes during the first 60% of any given quarter, your eligibility for federal, state, and institutional aid will be recalculated in accordance with federal, state, and institutional requirements. Your withdrawal date will be the earliest of:

- the date you began the withdrawal process
- the date related to the circumstance leading to your withdrawal
- your actual withdrawal date
- the date that you began an official leave of absence signed by a University representative

This date is used to determine whether you will owe a repayment of aid or if you are eligible for a post-withdrawal aid disbursement.

When students withdraw after rescinding a previous official notification of withdrawal, their original withdrawal date will be used for aid recalculation purposes. Applicants who withdraw from Western must also provide requested FAFSA verification documentation no later than 30 days after their last day of enrollment or forfeit their ability to receive any aid they otherwise may be eligible to receive.

Veterans Information

Veterans and dependents of veterans enrolling at Western for the first time who plan to use VA educational benefits must either apply for educational benefits with the Veterans Administration, or if benefits have been used at another institution prior to enrolling at Western, complete a change of program form. In order to receive your payments on time, this should be done well in advance of the academic quarter you wish to attend.

All students using Veterans Benefits at Western Washington University are encouraged to apply for financial aid through the Free Application for Federal Student Aid (FAFSA).

Western Washington University's academic programs of study are approved by the Washington Student Achievement Councils' State Approving Agency for students eligible to receive educational benefits under Title 38 and Title 10 USC.

Veterans/dependents should make certain the academic objective they plan to pursue is one authorized by the Veterans Administration.

Please review additional information for Veterans/dependents attending Western Washington University at our website at wp.wvu.edu/veteranservices/.

See the Financial Aid Bulletin online at: www.finaid.wvu.edu/bulletin/ for more detailed financial aid information.

Registration

Registrar's Office, Old Main 230, 360-650-3432 www.wvu.edu/registrar/

Registration for each quarter is conducted in three phases using Web4U, www.wvu.edu/web4u:

- Phase I — A period in which continuing and returning students register by appointment for a maximum of 18 credits.
- Phase II — A period before the beginning of the quarter when students can revise registration schedules, registering for a maximum of 20 credits. Except as noted otherwise, new freshmen register at orientation on the Monday before the quarter begins.
- Phase III — A period beginning the first day of the quarter and ending at midnight on the fifth day of the quarter. Students register online during the first five (business) days of the quarter.

Complete registration instructions can be found on the Registrar's Office website at www.wvu.edu/registrar/registration/. It is crucial that students make certain after registering that they verify schedules via Web4U. Students are prohibited from attending a class without being registered.

Orientation for newly-admitted Students Fall Quarter

- Transitions, a special orientation and registration program for new fall quarter transfer students, is conducted during mid-summer preceding fall quarter. New transfer students unable to attend Transitions should plan to attend the orientation and advising program held the Monday before the beginning of fall quarter. Each transfer student who has accepted an offer of admission will be sent complete information about orientation and advising.
- Summerstart, a special orientation and registration program for new fall quarter freshmen, is conducted during mid-summer preceding fall quarter. Each freshman student who has accepted an offer of admission for fall quarter will be sent complete information about this program. New freshmen unable to attend Summerstart should plan to attend the orientation and advising program held the Monday before the beginning of fall quarter.

Student Responsibility for Registration

Students are responsible for completing their own registration each quarter. While faculty may provide permission with an override to enroll in a restricted course, the student must complete the process via Web4U. Schedule changes initiated after the first five days of the quarter and independent study registrations must be submitted in person at the Registrar's Office. Registration is done in person at the Registrar's Office beginning the sixth day of the quarter. Students must have a current override in the registration system from the instructor to add a class.

It is important for students to make certain they are not registering for a course in which they already received credit, either at Western or elsewhere. Unless the course is marked in this catalog as repeatable, it cannot be taken more than once for credit.

Registration Restrictions

For pedagogical reasons, some courses are restricted to certain levels of students, to students who are declared majors, or to those who have received special permission from the instructor. Such restrictions are listed in the online Timetable of Classes and Classfinder. The student is responsible for ensuring that they have satisfied all prerequisites before registering for a course. A student who has registered for a course without satisfying prerequisites may be required to withdraw from the course by the instructor. If a student does not comply with the request to withdraw from the instructor, the Registrar may withdraw the student from the course at the request of the instructor or academic department.

Registration Holds

A "hold" is placed on registration for students who have any outstanding obligations to the University. These obligations can include outstanding debts, failure to comply with immunization policies, failure to comply with certain admissions requirements or academic regulations, insufficient progress, and violations of conduct codes or other University rules.

Waitlisting & Registration

When a course reaches capacity during Phases I, II and III of registration, students may add themselves, via Web4U, to an automatically-generated waitlist. Before waitlisting is allowed,

however, students must meet all enforced course prerequisites and other course restrictions listed in the University Catalog, the online Timetable of Classes, and Classfinder.

When a seat becomes available in a waitlisted class, an automated email message is sent to the official WWU email address of the first student on the waitlist, notifying the student of the available seat. Students may also sign up to have waitlist notifications and other official WWU communications sent via text message. Students who receive notification of seat availability are responsible for registering via Web4U before the notification expires. During Phases I and II, notifications are active for 24 hours from the time the notification is sent, and for 12 hours during Phase III. The notification expires if the student does not register within the time allowed, and a notification is then sent to the next student on the waitlist.

Further details on waitlisting policies and how to sign up for text message notification can be found under Registration on the Registrar's Office website.

Late Registration

The deadline to register or to add a class is midnight on the fifth day of the quarter (see the Summer Session website for summer quarter registration deadlines).

Late registration (initial registration for the quarter) is permitted only with current permission from the instructor. After the first five days of a quarter, initial registration is allowed only by: 1) obtaining an override from the course instructor, and 2) paying the late-registration fee. Students adding classes to an existing schedule beginning the sixth day of the quarter must obtain an override from the course instructor, but will not be charged a late-add fee until the beginning of the third week. (See the Summer Session website for specific summer quarter deadlines.)

Extension Registration

Registration procedures for extension programs vary. Contact the appropriate program office for registration dates. See the Extended Education section in this catalog.

Students may register for Independent Learning courses (correspondence) at any time during the quarter; however, the academic quarter of record assigned to the course is determined by the Registrar's Office in consultation with Extended Education. Call Extended Education at 360-650-3650 for additional information. Enrollment in

correspondence or online courses only does not qualify as continuing enrollment for newly admitted, first-quarter WWU students. Contact the Registrar's Office for information regarding student status.

Auditing Courses

Auditors are persons who desire to attend courses without earning academic credit. Written permission from the instructor and approval from the Registrar's Office are required to register to audit a class.

Auditors may not actively participate in class and therefore certain courses may not be audited, including, but not limited to physical education activities, laboratory courses, studio courses, independent study courses, language courses, courses not taught in a group setting, and any other course the Registrar deems ineligible. Auditing a course cannot be used toward successful completion of academic credit.

Auditors are not allowed to register until the first day of the quarter, and the course must not have reached a maximum enrollment. Changes to or from audit cannot be made after the first five days of the quarter.

Students enrolled for 10 or more non-audited credits may audit a course without an additional charge. Students enrolled for less than 10 credits should refer to the Tuition and Fees section "Auditing a Class." Students approved to register for an audit are responsible for paying any course fees attached to the course. Students who choose to audit self-supporting classes through Extended Education are required to pay the full amount of tuition and fees.

Changes in Registration

Policies concerning changes in registration, such as withdrawal from a course or from the University, are described in the section titled University Academic Policies.

Student Records Security

Washington Administrative Code 516-26-070 prohibits access to or misuse of a student's educational records. Any person who inappropriately gains access to a student's records, or tampers with a student's registration or academic record, will be subject to disciplinary action.

Tuition and Fees

Student Business Office (SBO), 360-650-2865
www.wvu.edu/sbo

Tuition and Fees

Tuition and fees include tuition, service and activities fees, mandatory fees, course fees and additional fees. All fees are subject to change as the result of action by the state Legislature or the board of trustees. See the Description of Tuition and Fees section below for a detailed explanation of each fee.

By registering for classes, a student incurs a legal obligation to pay tuition and fees to Western Washington University. This debt may be canceled only if the student officially withdraws from Western before the quarterly deadline published on the Registrar's Office website at www.wvu.edu/registrar/ under Dates and Deadlines. A student is responsible for paying their account regardless as to whether or not an invoice or billing statement has been provided.

The SBO Tuition and Fee Schedule website is wp.wvu.edu/sbo/tuition-and-fee-schedule/ and includes the following:

- 2018-19 Basic Cost of Attendance for resident/undergraduate, resident/graduate, non-resident/undergraduate, and non-resident/graduate;
- 2018-19 Schedule of Tuition and Required Fees;
- Required fees (1-5 credits);
- Required fees (6+ credits); and
- 2018-19 Extension/Self-Supporting Programs Tuition & Fees.

Downloadable PDF of the 2018-19 Tuition Rates and Mandatory Student Fees: budgetoffice.wvu.edu/files/2018-2019%20Tuition%20Rates_0.pdf

For more information about Tuition and Mandatory Student Fees go to budgetoffice.wvu.edu/annual-fees-and-rates.

A tuition calculator to assist in projecting the amount of tuition and fees that will be due to the university can be found at wp.wvu.edu/sbo/2016/04/13/tuition-calculator/.

See the University Academic Policies section of the catalog for an explanation of full-time status and how that affects financial aid, athletic eligibility, and veterans' benefits.

Your Student Account

Tuition and fees are charged to a student's account at the time they register for classes. Students are responsible for reviewing their account and for paying the balance due. Western processes electronic statements and offers the option of paying student account charges online. Statement and account details are available at your student account online.

If courses are added after the statement date or after financial aid has been disbursed, it is important to check your account online or with the Student Business Office to determine if additional payment is required.

Student account information is confidential (see Appendix E - Student Records in the Appendices section of the catalog). Release of account information may be authorized by completing a [Release of Financial Information](#) form.

Currently enrolled students will be sent a notification to their assigned university e-mail account. A second notification can be sent to another e-mail address by setting up an authorized payer. No paper bills will be sent. For more information go to the SBO website or visit the SBO office.

The University uses e-mail as its official form of communication. This is intended to meet the academic and administrative needs of the campus community.

The University expects that such communication will be received and read in a timely fashion.

Students are responsible for monitoring their student e-mail account and maintaining current contact information with WWU, including current address and telephone information.

Options for Paying Your Student Account

1) E-Pay (online payment using credit card or bank information associated with your checking, savings or debit card). Available 24 hours a day with immediate update to the student's account. Payment may be made online with these credit cards: Visa, MasterCard, Discover or American Express. A 2.75 percent convenience fee will be charged for using a credit card. Payment also may be made online with an E-check (an electronic check). E-checks are not subject to convenience fees.

To pay online, log in to myWestern, then Web4U and follow the links to your Student

Account Online. Parents or other third parties who will be paying an account must be set up as an authorized user by the student in order to access student account information and make payments online. Instructions are available at wp.wvu.edu/sbo/ or by visiting the SBO office.

2) Mail checks to the Student Business Office, 516 High St., MS-9004, Bellingham, WA 98225.

Allow 7-to-10 business days for mail to reach Western. Payments are credited when received, not when mailed.

- Write your WWU ID number on the check and make it payable to WWU;
- Canadian checks must be made payable in U.S. funds;
- There is a \$25 charge for the first returned check and a \$50 charge for each subsequent returned check.

3) Pay in Person at the Student Business Office, located in Old Main 110 (9 a.m. to 4 p.m. M-F). Payment may be made with cash, check or a debit card.

Financial Aid: All aid types will be applied to current quarter charges on the student's account. Only after University charges have been paid will a refund of excess aid be given to the student. If a student incurs additional registration charges after financial aid has been applied to their account, the student is responsible for paying the additional charges by the tuition due date without notification.

Miscellaneous Charges: Miscellaneous purchases charged to a student's account, such as bookstore purchases, health center charges or athletic health fees, will not be paid by financial aid unless a student signs a form authorizing the university to use financial aid to pay these miscellaneous charges. Fill out an [Authorization to Apply Financial Aid Funds](#) form online to allow financial aid to pay these charges.

Due Dates, Late Fees and Interest

Tuition, fees, and housing charges are due on the first day of each term. Late fees and 1 percent interest will be assessed to all past due accounts after the close of business on the 15th of each month.

Tuition due dates are posted on the SBO website and the Registrar's Office website.

Nonpayment Penalty

The university may withhold admission or registration privileges for students who fail to meet financial obligations to the university. The university may also withhold the issuing of official transcripts.

Unpaid balances mean your account will be placed in collection status with the SBO. A service fee will be added to the amount you owe.

Accounts with past due unpaid balances may be forwarded to a contracted outside collection agency. Additional collection costs up to 50 percent will be assessed. This includes costs of litigation and may result in a judgment and/or wage garnishment.

Graduating or Exiting Students

Students who had a federal loan or federal teach grant disbursed while attending the university are required to complete exit counseling. The exit counseling requirement is designed to acquaint students with their rights and responsibilities regarding their student loans. Exit counseling should be completed before graduation, before withdrawing from Western, or when a student's credit load drops to less than half time. Exit counseling is a federally mandated requirement.

Course Withdrawal

Students who drop courses may be entitled to a credit for a portion of the tuition and fees for a given quarter depending on the time of the quarter course withdrawal is completed.

- Courses dropped prior to the sixth day of the quarter may be entitled to a full tuition credit;
- Courses dropped beginning on the sixth day of the quarter and within the first 30 calendar days may be entitled to one-half tuition credit and no fee credit;
- Courses dropped after the 30th calendar day will not receive a tuition or fee credit.

See a Withdrawal from a Course in the University Academic Policies section of the catalog for more information.

Official School Withdrawal from the University

To officially withdraw from Western for the quarter, a student must contact the Registrar's Office and make a written request to withdraw. A withdrawing

TUITION AND FEES

student who will be away from Western a full quarter or more, except summer quarter, must apply for readmission prior to the deadline stated in the Undergraduate Admission section of this catalog.

Students who officially withdraw from Western prior to the sixth day of the quarter may receive full credit of tuition and fees. See the sections under University Academic Policies for information on withdrawing from the university. The \$280 enrollment fee is nonrefundable.

Students who officially withdraw beginning on the sixth day of the quarter and within the first 30 calendar days may be entitled to one-half tuition credit. After the fifth day of instruction, the health services, building, technology, recreation, transportation and renewable energy and course and audit fees, multicultural center, and legislative action fee are nonrefundable.

Students who withdraw after the 30th calendar day of the term will receive no tuition and fee credit.

The deadlines for each quarter are published on the Registrar's Office website. Refer to the Summer Session website for summer quarter withdrawal policy.

A statutory pro rata return of financial aid is required for students who received financial aid.

Also refer to the following resources:

- Financial Aid Bulletin: Withdrawing section at www.finaid.wvu.edu/bulletin/
- Federal Aid Repayment: Leaving Early section at studentaid.ed.gov/sa/repay-loans/understand

Refunding

Payments made to your student account, including financial aid disbursements (Federal Direct Stafford Loans, Federal Perkins Loans, scholarships, grants and waivers) and other support are applied to tuition and fees, university housing, and miscellaneous charges (if the authorization to apply financial aid funds form has been completed). If financial aid does not pay everything the student owes, the student is responsible for paying the balance by the tuition due date. If the payments to the account results in a credit balance the excess funds will be disbursed by ACH Direct Deposit into the student's personal checking or savings account. For direct deposit refund enrollment information go to the SBO website.

Description of Tuition and Fees

Tuition rates and service and activities fees are set by the board of trustees within the parameters of the state Legislature. Tuition consists of the operations fee and the capital building fee. In addition, 4.0 percent of the operating fee, 3.5 percent of the capital building fee, and 3.5 percent of the services and activities fee collected is allocated to fund student financial aid.

The operations fee, with the state's general fund appropriation, is used to support the university's primary mission, the education of its students. This money funds instruction, library, student services, administrative and maintenance functions.

The capital building fee is used for the construction of academic facilities. It is not used for both housing and dining buildings or to support the university's operating budget.

One-Time and Miscellaneous Fees

Official Transcripts: \$11

Requests should be submitted to the Registrar's Office one week in advance of need. The university may withhold transcripts for students who fail to meet financial obligations. Unofficial faxed transcripts are \$15. There are additional fees and charges for FedEx and electronic transcript orders. Transcript ordering information and options may be found on the Registrar's Office website.

Degree Application Fee: \$45

Late fee for applying after the deadline: \$38

Departmental Academic Certificates: \$26

Parking permits: For parking and traffic regulations see Appendix I - Transportation Services. All parking rates are subject to change.

Student Health Center: An optional medical insurance plan is available to eligible students. Contact the Student Health Center for details.

Special Examination Charges (course challenge): \$100 per credit

Residency Teacher Certification: \$50 teacher certificate application fee

Residency Principal or Program Administrator Certification: \$50 administrator certificate application fee

Initial Superintendent Certification: \$50 administrator certificate application fee

Residency Educational Staff Associate

Certification: \$50 educational staff associate certificate application fee

Additional Teaching Endorsement: \$50 additional endorsement application fee

Certification and endorsement fees listed above are Western Washington University processing fees. There is an additional Washington State Office of the Superintendent of Public Instruction processing fee tied to obtaining certification that is subject to change.

Other Special Course Fees: Students registering in certain courses are charged additional fees for purchase of special laboratory and studio supplies and for special services such as music practice room rentals. These fees are listed with each course on Classfinder and Timetable of Classes.

Audit Fees: Full fee-paying students (10 or more non-audited, main-campus credits) may audit a course without an additional fee (excluding course fees). Part-time students may audit courses for \$10 per credit.

Late Registration/Late Course Adds: A fee of \$12 per credit is charged if a student registers initially after the fifth day of instruction in a quarter. A fee of \$12 per credit is charged if a student adds a class after the second week of instruction. Either action requires an override from the course instructor.

Tuition and Fees - Extended Education

The SBO Tuition and Fee Schedule website wp.wvu.edu/sbo/tuition-and-fee-schedule/ includes information for Extension/Self-Supporting Programs Tuition & Fees.

All self-supporting tuition and fees are subject to change without notice. Variable course fees apply to the professional certificate programs, workshops and special courses. Contact Extended Education and Summer Programs for current rates.

For more information on cost and registration for Summer Session go to ee.wvu.edu/summer-session/cost-registration.

the Budget Office

Undergraduate Admission

Old Main 200, 360-650-3440, admissions.wvu.edu

Every effort has been made to provide accurate information regarding admissions policies and procedures. However, these practices may change prior to catalog revision. Please consult the Office of Admissions prior to submitting an application.

The Undergraduate Office of Admissions welcomes applications for freshman, transfer and post-baccalaureate undergraduate admission as well as readmission applications for undergraduate students returning to Western. Western Washington University's admissions policies reflect the University's commitment to enroll students with diverse interests and backgrounds who demonstrate ability, creativity, and motivation.

General Admissions Information

Admission to Western is selective as the number of qualified applicants exceeds the number of available enrollment spaces. Standards may vary from quarter to quarter dependent upon space availability. Criteria considered in the review process include academic achievement, activities, intended program of study, space availability and individual circumstances.

An Undergraduate Application for Admission is required of all freshman, transfer and post-baccalaureate applicants. International applicants must complete the International Student Undergraduate Application. Former Western undergraduate or post-baccalaureate students who wish to reapply must submit the Returning Student Application. All applications must be accompanied by a nonrefundable \$60 application fee unless the applicant requests and receives approval to waive the application fee due to financial need.

Application Deadlines and Procedures

Although some applicants are notified of an admission decision prior to the application deadline, the majority of decisions are made after the application deadline. All on-time applications are given equal consideration. Applications received after the deadline will be considered on a space-available basis.

- Fall Quarter
 - Freshman (includes all Running Start applicants) Early Action - November 1; Regular Decision -January 31
 - Transfer, Post-baccalaureate — March 1

- Former Western Student — May 1
- Winter Quarter
 - Freshman, Transfer, Post-baccalaureate — September 15
 - Former Western Student — November 1
- Spring Quarter
 - Freshman, Transfer, Post-baccalaureate — January 1
 - Former Western Student — February 1
- Summer Continuing to Fall
 - Freshman applications are not accepted for summer quarter
 - Transfer, Post-baccalaureate — March 1
 - Former Western Student — May 1
 - International students are advised not to begin summer quarter

Western Extended Education programs may have additional applications, deadlines and fees that vary. Please contact the specific program/site for information. See the Extended Education and Woodring College of Education sections in this catalog or admissions.wvu.edu/extended-ed for details.

All application materials, including official transcripts and test scores, if required, must be received by the deadline to be considered on-time. To be considered official, transcripts must be sent directly from the issuing institution or be delivered in an official, sealed envelope; electronic transcripts are considered official if sent directly by the college or a third-party service (Parchment and Credentials Solutions/eScripSafe). Transcripts printed more than one year ago are not acceptable. Transcripts must be received from all institutions attended, regardless of whether or not credit is expected or desired.

Once admitted, all applicants other than post baccalaureates, extension applicants, or former students who have been readmitted, must confirm their intent to enroll by submitting a nonrefundable \$280 fee. This one-time enrollment fee funds a variety of academic support services related to new student orientation, advising, and academic success. While the fee cannot be waived, applicants with demonstrated financial need may request a deferral of the \$280 fee to their first quarter tuition bill. Enrolling students must also provide proof of measles immunization prior to course registration.

Admission to the University does not imply admission to a major or enrollment in specific courses. Many academic programs have selective admission requirements, including elevated grade point average (GPA), prerequisite course work, et

UNDERGRADUATE ADMISSION

cetera. The College sections of this catalog provide specific major declaration requirements.

The Office of Admissions sponsors a variety of campus visit options for prospective students. Specific information may be obtained by contacting the Office of Admissions at 360-650-3440 or at admissions.wvu.edu/visit.

Students with Disabilities

The University's policy regarding admission and access prohibits discrimination on the basis of disability. Western Washington University is committed to making physical facilities and instructional programs accessible to students with disabilities. After admission, students with disabilities are strongly encouraged to contact disAbility Resources for Students at 360-650-3083 or drs@wvu.edu to discuss and coordinate services and accommodations in a timely manner.

Freshman Admission

The most important criterion in the selection process is demonstrated academic achievement, including grade point average, quality and rigor of course work, grade trends, and SAT or ACT scores. Activities, leadership, special talent, multicultural experience and individual circumstances are also considered. An essay is required, and an activities list is strongly encouraged.

Applicants are encouraged to pursue academic course work and advanced study beyond the minimum course requirements listed below. Academic course work exceeding the minimum requirements, including Advanced Placement (AP), International Baccalaureate (IB), Cambridge International, Running Start or other College-in-the-High-School, honors courses and even a full load of standard academic courses can provide an excellent foundation for college success and will strengthen the application for admission.

English: Four units, at least three selected from college preparatory composition and literature courses. One unit may be satisfied by courses in drama, public speaking, debate, journalistic writing, ESL or business English.

Mathematics: Three units of mathematics are required, at the level of algebra, geometry and advanced (second-year) algebra. High school students are strongly encouraged to continue taking math during their senior year. More advanced mathematics courses are recommended such as trigonometry, mathematical analysis, elementary functions and calculus. Arithmetic, pre-algebra and business mathematics will not meet the requirement. An algebra course taken in the

eighth grade may satisfy one unit of the requirement if second-year algebra is completed in high school.

Science: Two units of college preparatory science, including one unit of an algebra-based science such as chemistry or physics, one course must include a laboratory experience. Two units of agricultural science will equal one unit of science.

Social Science: Three units of college preparatory course work, including history, government, psychology, politics, economics, geography, et cetera. Credit granted for student government, community service, or other applied or activity courses may not be used to fulfill this requirement.

World Language: Two sequential units in a single foreign language, Native American language or American Sign Language. Students entering the United States education system from non-English speaking countries at the eighth grade or later are exempt.

The Arts: One semester or one trimester in the fine, visual or performing arts, to be chosen from study in art appreciation, band, ceramics, choir, dance, dramatic performance, music, photography, et cetera. Courses in color guard, drafting, fashion design, sewing, woodworking, et cetera, are not acceptable.

Since the number of qualified applicants exceeds the number of available enrollment spaces, meeting minimum requirements is no guarantee of admission. Applicants who do not meet minimum eligibility requirements can be exempt under certain circumstances. College course work may also be used to fulfill high school requirements. See College Credit for High School Students section below.

College Credit for High School Students

High school students earning college credit will be considered freshmen for admissions purposes, as long as the applicant attempts no college-level course work after high school graduation (excluding summer). The University will accept college credit in fulfillment of high school course requirements as indicated on the high school transcripts. College-level credit will be awarded in a manner consistent with standard transfer equivalency policies. To receive credit, students are responsible for requesting college transcripts and/or score reports.

Running Start and College in the High School

Regardless of number of college credits earned, Running Start students and other high school students with college credit must follow freshman application procedures and meet freshman admission standards and deadlines. This includes completion of the high school course requirements and submission of ACT or SAT exam scores.

Advanced Placement (College Board), International Baccalaureate, and Cambridge International Exams

Western encourages applicants to take Advanced Placement, International Baccalaureate, and/or Cambridge International courses and exams where available. College-level credit, to a maximum of 45 credits, will be granted to enrolling students who have scored a 3 or above on the AP exams, a 4 or above on the higher-level IB exams, and grades A-E on Cambridge A and AS level exams. See the University Academic Policies section in this catalog for further details.

Admission Requirements for Home Schooled Applicants

All freshman applicants need to supply Western with SAT or ACT test scores along with detailed documentation that outlines the curriculum they have studied in the last four years. Typically, this documentation is in the form of a transcript. Home-schooled applicants must demonstrate academic preparation comparable to general freshman admission requirements. While not required, GED scores can be helpful in assessing the preparation of nontraditional applicants.

Transfer Admission

Western welcomes transfer applicants in all majors and from all types of colleges and universities. A transfer applicant is someone who has attempted college credit after high school graduation. Please see the section on Freshman Admission if your college credits were earned while you were also fulfilling high school requirements.

Academic achievement is the most significant factor in the application review. Clearly defined academic goals, completion of major prerequisites and related experiences, number of transfer credits, contributions to and/or experiences with multiculturalism, special talent, personal circumstances, distribution of current students and space availability are also considered. All transfer applicants are encouraged to begin taking

math/quantitative skills courses as early in their college career as possible and to complete college-level math prior to submitting their application for admission.

Minimum requirements for transfer admission include a 2.0 cumulative transferable GPA and a 2.0 in the quarters prior to application review and enrollment. Applicants with fewer than 45 completed transferable quarter credits also must meet freshman admission standards. Meeting minimum requirements is not a guarantee for admission as the number of qualified applicants exceeds the number of available enrollment spaces.

In calculating the transfer admission GPA, the Office of Admissions uses all transferable academic courses from all regionally accredited colleges the applicant has attended outside of Western.

Admission to the University does not imply admission to a major or enrollment in specific courses. Many academic programs have selective admissions requirements, including GPA, prerequisite course work, auditions, portfolio review, et cetera. The College sections of this catalog provide specific major declaration requirements.

Transfer Policies and Procedures

Western Washington University endorses the **Policy on Inter-college Transfer and Articulation among Washington Public Colleges and Universities**. Detailed transfer advising information, including course equivalency information, as well as a list of transfer student rights and responsibilities, is available on Western's website.

Transfer of Credit

In general, Western Washington University grants credit for baccalaureate-oriented courses completed at accredited institutions of higher education. Transfer of credit policies are developed by the University's Recruitment, Admissions and Support Committee and the statewide Inter-College Relations Committee and approved by the University's faculty. Authority to administer these policies is shared by the Registrar, the Director of Admissions and, where applicability of major or minor is concerned, department chairs.

Several factors govern the acceptance of transfer credit. Chief among them is accreditation. For transfer credit purposes, Western recognizes those institutions which have received accreditation by the Regional Associations of Schools and Colleges.

UNDERGRADUATE ADMISSION

Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements but additional credits will not be allowed to count toward the 180 credit requirement for graduation.

Regardless of the number of transfer credits awarded, students must earn a minimum of 45 resident credits through Western for graduation.

Lower-division transfer coursework that is deemed equivalent to an upper-division course cannot be used to satisfy WWU's 60 credit upper-division minimum requirement.

Certain credits earned at previous institutions do not transfer, regardless of that institution's accreditation, including:

- College courses numbered below 100
- Technical and vocational courses
- Developmental education or remedial courses
- English as a Second Language
- Sectarian religion courses
- Credit for life experience/travel
- Study skills courses
- CLEP examination credit
- DANTES credit by examination

Exception to the above policies may be made in accordance with inter-agency articulation agreements.

Military credit

Students may receive up to 30 credits for military service as recommended by the American Council of Education (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services and in accordance with University and State policies regarding transfer credits. Applicants may request evaluation of military credit by submitting the Joint Service Transcript (JST) to the Office of the Registrar. The JST replaces the Coast Guard Institute Transcript, Army ACE Registry Transcript (AARTS), and the Sailor/Marine ACE Registry Transcript (SMART). Air Force personnel submit Community College of the Air Force transcript.

Transfer of Associate Degrees

Direct Transfer Agreement (DTA) Associate Degree. Applicants who complete a DTA associate degree at a Washington State community college prior to initial enrollment at Western ordinarily will

satisfy all of Western's General University Requirements (GURs). To be accepted in lieu of Western's GURs, the associate degree must meet Washington State's Inter-college Relations Commission (ICRC) guidelines and include at least 90 credits. The DTA degree must include 75 credits that are directly transferable to Western. Up to 15 credits not normally transferable may transfer if used as part of this associate degree. Western will not accept any non-transferable credit earned after the DTA is awarded. The Pass/Fail grading option may only be used in the general elective area. Students should work closely with community college transfer advisors to ensure their curriculum choice follows the approved guidelines.

Associate of Science - Transfer (AS-T)

Degree. Washington State community college students intent on earning a bachelor's degree in biological sciences, chemistry, computer science, geology, or physics may be best served by completing the appropriate Associate of Science - Transfer degree prior to admission. While this degree will not fulfill Western's GURs, it is the most efficient route in preparing for upper-division study in most science and engineering majors. Students who complete this degree will enter Western with 90 credits and preparation for upper-division program study; however, it does not guarantee admission to the major. Up to 5 credits not normally transferable may transfer if used as part of this associate degree. Western will not accept any non-transferable credit earned after the AS-Transfer Degree is awarded.

Reverse Transfer Option

An approved associate degree is generally earned prior to initial enrollment at Western (on or off campus) as a transfer student. If any student wishes to complete such a degree in order to have it satisfy the GUR while enrolled at Western, it must be earned by the time the student 1) has completed 45 credits at Western, or 2) one calendar year has passed from initial enrollment, whichever comes later. A student seeking an exception to the 45 credit limit or one calendar year timeline must petition the Registrar's Office for approval.

General Education Transfer Agreement

Completion of General University Requirements will be granted to transfer students from another Washington state public baccalaureate institution whose General University Requirements were completed and certified by the sending institution.

Post-Baccalaureate Admission

Space for applicants who wish to pursue teaching certification, complete graduate school requirements or earn a second bachelor's degree is limited, and therefore admission is competitive. Proposed program of study, space availability, preparation for major, cumulative academic record, related experience, and clarity of academic and career goals are the most important factors considered in the application review. All post-baccalaureate applicants are required to submit a **statement of purpose** with their application. Many post-baccalaureate applicants will find their educational needs can be met through enrollment options offered through Extended Education or Western's program for non-matriculated students. For more information, see the Extended Education and Registration sections in this catalog.

Post-baccalaureate applicants interested in pursuing a residency teaching certificate must simultaneously apply to Woodring College of Education.

International Student Admission

In addition to meeting admission standards comparable to those required of other applicants, international applicants must demonstrate English proficiency and provide proof of full financial support for all expenses for one academic year. Students with fewer than 45 transferable quarter credits (30 semester) must also submit official secondary school transcripts.

International applicants must demonstrate English language proficiency via one of the following options:

1. Earn a transferable associate's degree from a Washington State Community College with "B" or better grades in English 101 and English 102;
2. Minimum TOEFL score of 80 (internet-based) or 550 (paper-based) or;
3. Minimum IELTS score of 6.5

Western also offers a conditional admission option for international applicants who demonstrate strong academic potential and will benefit from Western's Intensive English Program prior to gaining full admission to Western.

Conditional Admission

Conditional undergraduate admission may be granted to applicants who do not meet the university's **English language requirement** or who need more university preparation and English

language study before entering a degree program. Applicants do not need to submit a TOEFL or IELTS score to apply for conditional admission. However, before beginning to take regular university classes and moving into full admission status, students will need to demonstrate a high level of academic English ability, equivalent to Western's English language requirement, through Intensive English Program coursework. Applicants must confirm their acceptance of conditional admission by applying for and enrolling in the Intensive English Program (IEP) at Western.

Applicants must fulfill all other requirements for undergraduate admission, including having competitive grades from previous high school or post-secondary institutions. Freshman applicants need to have completed foundation coursework in English, humanities, mathematics, natural/physical sciences and social sciences. Additionally, for transfer applicants, college level English, math, and academic coursework and experiences related to one's academic area of interest will further strengthen the application.

Conditional Admission students must attend the Intensive English Program full-time for a minimum of one quarter. Before enrolling in their first credit classes, students must successfully complete IEP Level 6 Academic English courses (Academic Preparation, Research Writing, Academic Communications, Academic Reading, and Applied Language Skills).

For more information, contact the Intensive English Program office at 360-650-3308, send e-mail to iep@wwu.edu, or visit the IEP webpage at www.wwu.edu/ee/lcp/iep/.

Readmission of Former Students

Undergraduates pursuing a first bachelor's degree after an absence from campus generally are guaranteed readmission as long as they left Western in good academic standing and follow readmission application instructions. Post-baccalaureate students returning after an absence from campus must include a detailed academic plan of study, as the post-baccalaureate readmission process is selective. Former students must submit a **Returning Student Application** that includes a list of all educational institutions attended since leaving Western and meet deadlines cited under **Application Deadlines and Procedures** section whenever possible. Students applying to return after dismissal from the University must follow reinstatement procedures detailed in the University Academic Policies section of this catalog.

UNDERGRADUATE ADMISSION

Students who have been dropped for low scholarship, even if absent for five years or more, must pursue reinstatement. See **Reinstatement** section under University Academic Policies.

Former Western extension program students returning to the same Western Washington University extension program to pursue a first bachelor's degree or post-baccalaureate study must complete the appropriate Extension Program Returning Student Application and submit it with a \$60 nonrefundable application fee.

A former Western undergraduate student who returns to the University after an absence of five years or more may be given permission to start a new cumulative grade point average. See Fresh Start policy in University Academic Policies section.

Extension Program Admission Information

Western's general admissions requirements apply to all extension programs. Additional application procedures may be required. Extension program deadlines and fees may vary. The extension program sites offer informational sessions for prospective students. For specific program information, see the Extended Education and Woodring College of Education sections in this catalog.

Applicants to Western's extension programs must complete the Transfer & Post-baccalaureate Application for Extended Education Programs and submit it with a \$60 nonrefundable application fee. International applicants to Western's extension programs must also complete the Extension International Supplement. Applications are available online on the admissions website.

Former Western extension program students returning to a Western extension program must complete the Extension Program Returning Student Application and submit with a \$60 nonrefundable application fee.

Special Students and Auditors

The Registrar's Office grants course registration privileges on a space-available basis, for one term at a time, to auditors, Washington state employees, and residents over 60 years of age who are eligible for tuition reduction. Special students and auditors must submit a Special Student Enrollment Form to the Registrar's Office each quarter. The form can be found online at: www.wvu.edu/registrar/student_services/index.shtml.

Early Admission/Concurrent Enrollment While in High School

Applicants who plan to graduate from high school early should follow standard freshman admission procedures.

Applicants interested in concurrently enrolling in courses while also attending high school may apply at the Registrar's Office to take courses as non-matriculated students. This program allows eligible applicants to enroll in courses on a space available basis. Applicants who are interested in being formally admitted as matriculated students while staying in high school must demonstrate superior academic achievement, fulfill all freshman admission requirements, and demonstrate that they have exhausted all academic opportunities available through their high school and local community college.

With the exception of any scholarships specifically designated for high school students, concurrently enrolled high school students are not eligible for financial aid or WWU scholarships.

Right to Appeal

Applicants who are denied admission to Western have the right to request a reevaluation of their application. Appeals must be received in writing, clearly state the reasons for seeking reconsideration, be signed by the applicant, and be received by published deadlines. Applicants may submit additional documentation to support their request for reconsideration. After review, the appeals committee may admit the applicant, admit the applicant with conditions, or deny admission. Applicants who are admitted after a second review of a winter or spring quarter application will generally be offered admission to either summer or fall quarter, due to registration timelines. Additional information is available at admissions.wvu.edu/contact-us/appeals.

University Residences

Edens Hall, 360-650-6565
housing.wvu.edu

University Residences engages students in diverse and inclusive, healthy, safe and sustainable communities that foster academic success and personal growth. Western's residential experience is intentionally designed to help students learn about themselves, and how to live and work with others. Living on campus is completely optional, but new freshmen and transfer students who meet the housing deadlines are guaranteed housing their first year at Western; returning residents are accommodated on a space available basis. Extensive research demonstrates students living on campus earn higher grades and graduate in higher numbers than students living off campus. At WWU, about 92 percent of freshmen and 29 percent of transfer students choose to live on campus their first year. To be eligible for campus housing, residents must be enrolled in a minimum of (8) credits per quarter.

University Dining Services

Edens Hall, 360-650-2970
www.campusdish.com/

University Dining Services provides a campus-wide experience that supports active, healthy lifestyles, sustainability, social responsibility and community development. Three dining commons and a dozen cafés and markets serve the campus community with a variety of menu options that include vegan, vegetarian, gluten free and local fare. Meal plans and Viking Dollars are available to all members of the campus community. University Dining Services also offers full service, customizable catering for events of all sizes, on and off campus. University Dining Services is committed to sustainable practices in all aspects of its operations, including locally sourced food, compostable packaging, food composting, zero-waste catering and Fair Trade coffee. University Dining Services employs over 500 part-time student staff in its food service and catering operations.

University Academic Policies

Student Responsibility for Observing Policies

Students are directed to the Appendices section in this Catalog for information on university policies and administrative rules (Title 516 WAC), academic honesty, academic grievances, and other important policies. Information on university policies is also located on the university policy website: www.wvu.edu/depts/policies/. Information on WWU's administrative code rules (Title 516 WAC) is located at apps.leg.wa.gov/wac/default.aspx?cite=516.

The University attempts to make students aware of academic policies through the publication of the Catalog, the online Timetable of Classes, other materials, and in advising sessions. It is the student's responsibility to become familiar with those policies and to be aware of any policy changes that may occur.

Once application materials have been submitted, they become the property of Western Washington University.

E-Mail as Official Means of Communication

Recognizing the expanding reliance on electronic communication, WWU has determined that e-mail will be one of the University's official means of communication. See POL-U7100.02 Using E-mail Accounts for Official Correspondence with Students. E-mail correspondence will be sent to students' WWU e-mail addresses. Departments, faculty and staff may use e-mail instead of the U.S. Postal Service to provide students with information relating to official University business. U.S. Postal Service or campus mail can still be used as appropriate. This policy only applies to e-mail messages sent by the University to students that are designated as "WWU Official Communication."

Credit by Exam, Prior Learning and Advanced Placement

Advanced Placement, Prior Learning Credit and Credit by Exam is granted only to matriculated students. The maximum credit granted for any combination of Advanced Placement, Prior Learning and Credit by Examination is 45. Additional credits which exceed 45 and carry GUR

applicability may be used to satisfy the GUR. Decisions will be made on a case-by-case basis.

1. **Western Washington University Advanced Placement**

One quarter of successful performance in an advanced course in a sequence which is developmental in nature can, upon departmental recommendation, qualify a student for credit in the preceding course; admission to the advanced course is subject to permission of the department.

2. **Western Washington University Course Challenge**

Challenge examination or procedures prepared by the department concerned. The following regulations govern course challenges:

- Students desiring to challenge a course should apply to the Testing Center by the fourth week of the quarter. The time and procedure to be followed in completing the evaluative process will be announced by the Testing Center. A special fee is charged for each challenge examination. See Tuition and Fees.
- If the challenge is passed, the result of the challenge is recorded as "Satisfactory" on the student's permanent record and is not used in computing grade point averages
- The challenge application will normally be denied:
 - If the student is currently enrolled in the course
 - If the student has previously established credit for a similar course at this or another institution
 - If the student has previously failed the course
 - If the student has previously challenged the course and failed
 - If the student has previously audited the course
 - If, in the judgment of the director of the Testing Center, in consultation with the department concerned, the challenge procedure is inappropriate
 - If the student is in his/her final quarter prior to graduating and the course is part of the General University Requirements
 - If, in the judgment of the academic department, the student has not demonstrated sufficient familiarity or understanding to have a reasonable chance of passing a challenge examination

1. **Prior Learning Credit**

Western Washington University will award credit for prior learning on a case by case

basis. Students seeking prior learning credit must apply to the Registrar's Office within 6 weeks of their first term of enrollment after admission. The Registrar's Office coordinates and documents the petition review with the applicable academic department. Academic departments and affiliated faculty are considered experts and specialists in their respective disciplines and therefore the authority in evaluating prior learning experience, equivalency in credit and relationship to degree. The Registrar's Office will award prior learning credit as approved by academic departments.

2. **International Baccalaureate (IB)**
Western Washington University will grant up to 15 credits for each approved higher level International Baccalaureate subject examination passed with a score of four (4) or above according to the chart. Students who have passed higher level

exams in subjects not listed on the chart will need to consult with the Office of Admissions. Such exams will be considered on an individual basis to determine eligibility for General University Requirement (GUR) or elective credit. Students who earn an IB Diploma will be awarded 15 credits distributed evenly among the GUR areas of natural sciences, social sciences, and humanities. An additional 30 quarter credits may be awarded in the areas of the student's higher level subject exams with a score of 4 or better, subject to maximum credit limits. Please contact the Office of Admissions for details.

3. **College Board Advanced Placement Examinations in certain subjects.**
The department concerned has determined the minimum acceptable score and credit as shown in the following table.

College Board Advanced Placement Examinations			
Department	Score	Subject Examination	WWU Courses/Credit/GUR
Art and Art History	3	Art History	A/Hi Electives (4 credits) Humanities GUR
	4, 5	Art History	A/Hi 210 (3 credits) + Art electives (1 credit) Humanities GUR
	3	Studio Art: Drawing	ART Electives (4 credits)
	4, 5	Studio Art: Drawing	ART 110 (4 credits)
	3	Studio Art: 2-D or 3D Design	ART Electives (4 credits)
	4, 5	Studio Art: 2-D Design	ART 120 (4 credits)
	3	Studio Art: 3-D Design	ART Electives (4 credits)

Psychology	3, 4, 5	Psychology	PSY 101 (5 credits) Social Science GUR

4. University of Cambridge International Exams.

WWU will grant 15 credits for approved A-level examinations and 7.5 credits for approved AS-level examinations with

passing grades of A-E. Credit will not be granted for both an A-level and an AS-level exam in the same subject area. Some exams may also apply to GUR. In accordance with the previously stated university policy, a maximum of 45 credits

will be granted for any combination of Advanced Placement and Credit by Examination. Students should submit official results of the Cambridge International Exams to the Office of Admissions for determination of transfer credit. At the time of this catalog's publication, the following exams will not result in credit:

- Applied Information and Communication Technology
- Computing/Computer Studies/Computer Applications
- Design and Technology
- General Paper
- Thinking Skills
- Use of English

International Baccalaureate (IB) Credit

UNIVERSITY ACADEMIC POLICIES

Russian	4 or higher	RUSS 110 (5 credits), RUSS 120 (5 credits) and RUSS electives (5 credits) - BCOM GUR
Spanish	4 or higher	SPAN 101 (5 credits), SPAN 102 (5 credits) and SPAN 103 (5 credits) - BCOM GUR
Swahili	4 or higher	General Elective (15 credits) - BCOM GUR

Course Numbering

Courses numbered from 100 to 299 are classified as lower division; those numbered from 300-499 as upper division. Generally, the first digit of a course number indicates its intended class level:

- 100-199 — First-year (freshman) courses
- 200-299 — Second-year (sophomore) courses
- 300-399 — Third-year (junior) courses
- 400-499 — Fourth-year (senior) courses
- 500-699 — Graduate-level courses

Only courses numbered 100 or above appear on the official transcript.

Except in unusual circumstances, students are not permitted to take courses more than one year above their class standing. Any undergraduate student wishing to enroll in a course numbered 500 or higher must obtain approval (an override) from the instructor and the Graduate School. (See the Graduate School section of this catalog.)

The numbers 197, 297, 397, 497 and 597 are used for temporary courses.

The number 117 is reserved for First Year Experience (FYE) courses.

The number 699, continuous enrollment, is reserved for master's degree students in their final quarter who have registered for all their course work. Contact the Graduate School for further information.

The numbers 137, 237, 337, 437, 537 are reserved for Faculty-led Global Learning Programs. These courses are offered through the WWU International Studies program or through colleges. Contact the Education Abroad office, Miller Hall 208, for information. Repeatable with different subject matter.

The numbers 300, 400, 500 are reserved to designate Directed Independent Study (1-15), enabling students to pursue, on an individual basis, topics not covered by the curriculum.

Courses listed in this General Catalog constitute a record of the total academic program of the University.

Except for unforeseen scheduling and personnel circumstances, it is expected that each course will be offered during the period of this catalog. In some cases, a new course may be offered in the Summer Session prior to appearing in the General Catalog. Such a course would be described in the Summer Session website.

For an exact scheduling of courses at Western and details regarding titles, prerequisites, number of credits and grading for specific courses not listed in this catalog, students should consult the annual online Timetable of Classes, Classfinder or the Summer Session website for summer quarter.

Prerequisites

The student is responsible for ensuring that he or she has satisfied all prerequisites, with a grade of C- or better, before registering for a given course. Although some prerequisite enforcement is driven by the Web registration system, students should not assume they are eligible to enter a course without having taken the prerequisite just because the system allows them to register for the course. A student who has registered for a course without satisfying prerequisites or obtaining permission may be required by the instructor to withdraw from the course. If an instructor requires a student to withdraw from a course because a prerequisite is not satisfied, the student is responsible for doing so via Web4U or in person in the Registrar's Office. All tuition, fees and withdrawal related deadlines apply.

Waitlisting & Registration

When a course reaches capacity during Phases I, II and III of registration, students may add themselves, via Web4U, to an automatically-generated waitlist. Before waitlisting is allowed, students must meet all course prerequisites and other course restrictions listed in the University Catalog, the online Timetable of Classes, and Classfinder

When a seat becomes available in a waitlisted class, an automated email message is sent to the official WWU email address of the first student on the waitlist, notifying the student of the available seat. Students may also sign up to have waitlist notifications and other official WWU communications sent via text message. Students who receive notification of seat availability are responsible for registering via Web4U before the notification expires. During Phases I and II, notifications are active for 24 hours from the time the notification is sent, and for 12 hours during Phase III. The notification expires if the student does not register within the time allowed. A notification is then sent to the next student on the waitlist. All other registration policies are applicable when waitlisting services are active.

Further details on waitlisting and how to sign up for text message delivery can be found under Registration on the Registrar's Office website.

Credits and Credit Loads

Credits are assigned to a class based on the amount and type of work expected from a typical student in class. Credit is awarded for courses only in the quarter in which the student is registered for the classes and completing the work.

Classes will be assigned one credit for each hour per week of classroom discussion or lecture, and one credit for every two hours per week of laboratory or practice/rehearsal involving some preparation or reporting.

Classes using different formats for at least part of the course will be assigned credit for amounts and types of work equivalent to those described above. When such a component is proposed, the type and amount of work involved must be described in detail. In particular, the activity for which credit is assigned must be structured and occur at regular or periodic intervals throughout the course, and faculty must supervise and evaluate students' work in this activity.

Since each hour in a course requires at least two additional hours of study, and since students usually register for several courses, Western has established the following credit load policies for undergraduate students:

- The standard fulltime load per quarter for undergraduates is 15 credits. In order to graduate in four years, students must average 15 credits per quarter. **NOTE:** some majors require more than four years of study.

- During the first quarter of residence, a load must not exceed 18 credits; before registering for more than 15 credits, students should consult with their advisors
- After the first quarter of residence, the maximum allowable load is 20 credits per quarter; students are limited to 18 credits during Phase I of registration
- Employed students are advised to adjust their credit load accordingly

Correspondence Credit

Correspondence credit earned through a fully accredited college or university, including Western's Independent Learning program, may be accepted toward the bachelor's degree. Some departments limit the number of correspondence credits that may apply toward the major. Enrollment in only correspondence courses through Western's Independent Learning program does not qualify as continuing enrollment for newly-admitted, first quarter Western students. Contact the Registrar's Office for information regarding student status.

Non-Matriculated Students and Credit Limitations

A program for non-matriculated students allows community members not admitted to Western and undergraduate/certificate extension program students to enroll in Bellingham campus courses. Non-matriculated students are not eligible to register or get on waitlists until the first day of the quarter. Students who have been dismissed from Western due to low academic standing may not enroll as non-matriculants except during summer quarter.

A student must be admitted to Western to apply credit to a degree. A maximum of 45 credits earned as a non-matriculant may be accepted toward a bachelor's degree at Western. Contact the Graduate School for information on applying credit to graduate programs.

Students enrolled as non-matriculants are subject to all University academic policies as enumerated in this section of the catalog. They must maintain good academic standing according to University scholarship standards. Continued low scholarship will result in the loss of future registration privileges.

UNIVERSITY ACADEMIC POLICIES

Auditing Courses

Auditors are persons who desire to attend courses without earning credit. Written permission from the instructor and approval from the Registrar's Office are required to register to audit a class.

Auditors may not actively participate in class and therefore certain courses may not be audited, including, but not limited to physical education activities, laboratory courses, studio courses, independent study courses, language courses, courses not taught in a group setting, and any other course the Registrar deems ineligible. Auditing a course cannot be used toward successful completion of academic credit.

Auditors are not allowed to register until the first day of the quarter, and the course must not have reached maximum enrollment. Changes to or from audit cannot be made after the first five days of the quarter.

Students enrolled for 10 or more non-audited credits may audit a course without an additional charge. Students enrolled for less than 10 credits should refer to the Tuition and Fees section "Auditing a Class." Students approved to register for an audit are responsible for paying any course fees attached to the course. Students who choose to audit self-supporting classes through Extended Education are required to pay the full amount of tuition and fees.

Special Registration Privileges

The Registrar's Office grants course registration privileges on a space-available basis fall, winter and spring quarters, for one term at a time, to auditors, Washington State employees, and Washington residents 60 years of age and older who are eligible for tuition reduction. Tuition reduction for summer quarter is available to WWU employees only. Written permission from the

professor is required to audit a class. Special students and auditors must submit a Special Student Enrollment Form and/or the applicable tuition/fee waiver application to the Registrar's Office 2-3 weeks prior to the beginning of each quarter. The forms can be found online at: www.wvu.edu/registrar/student_services/index.shtml.

Class Standing

An undergraduate student is classified as a freshman when his or her total completed credits (including transferred credits) range from 0 to 44, a sophomore with credits of 45 to 89, a junior with credits of 90 to 134, and a senior with credits of 135 or more.

Full-Time Status

180 credits are the minimum number of credits required to graduate with a bachelor's degree from Western Washington University. Many majors require more than the minimum of 180 credits. In order to graduate in four years, a student should plan to enroll in an average of 15 credits each quarter. Undergraduate students must be enrolled for a minimum of 12 credits in order to be considered full-time (e.g., eligibility for financial assistance, full-time veterans' benefits, participation in intercollegiate athletics, etc.) Graduate students, officially admitted to the Graduate School must be enrolled in a minimum of 8 credits for financial aid purposes and veterans' benefits. Students are advised to check carefully to determine that they meet the definition of "full-time enrollment" for the program in which they are participating.

The following table illustrates the minimum number of credits to be considered full time, three-quarter, or half time each quarter for specific eligibility, aid and benefit related services and agencies.

	Undergraduate	Graduate
Full time (for financial aid eligibility, veteran's benefits, athletic eligibility, enrollment verification to outside agencies)	12 or more credits	8 or more credits
Three-quarter time (for financial aid eligibility, veteran's benefits, enrollment verification to outside agencies)	9, 10 or 11 credits	6 or 7 credits
Half-time (for financial aid eligibility, loan deferments, enrollment verification to outside agencies)	6, 7 or 8 credits	4 or 5 credits

Full fees are assessed to all students enrolled in 10 credits or more. Students enrolled in at least 10 credits are eligible to live in on-campus housing, hold Associated Student office and obtain on-campus student employment.

The Student Health Center is available to all students enrolled in 6 or more credits on WWU's Bellingham campus. Students registered for 3 to 5 credits have the option of paying the Health Services fee to use the services during a quarter. Former students, students on leave, dependents of students, faculty and staff of WWU, and Whatcom Community College students living on WWU's campus are not eligible for these services.

Graduate students must be enrolled in a minimum of 8 credits to be eligible for graduate teaching assistantships (TAs). If a graduate student has completed all the course work listed on the approved plan of study with the exception of the thesis (690) or research (691), the graduate student may remain eligible for the TA appointment by enrolling for as few as 2 credits (with prior approval from the Graduate School). Other graduate students who have completed all the course work listed on the approved plan of study with the exception of the thesis (690) or research (691) should consult with the Graduate School regarding the minimum credit requirements.

This table applies to fall, winter and spring quarters only. Enrollment status and requirements for summer may differ. Please consult the appropriate program office.

Adding a Course

A student may add a course to an existing schedule as late as the fifth day of the quarter. After that time, course additions are allowed only under unusual circumstances and require written permission or current override from the course instructor or department. A special late-add fee is charged when adding after the second week (see Tuition and Fees section).

Class Attendance

Students are expected to be prepared for class and to be in attendance for all class meetings unless directed otherwise by their instructor. Attending the first meeting of every class is critical to academic success and being absent from the first class meeting without discussing the absence with the instructor in advance may result in being asked to withdraw from the course.

A student absent from any exam or class activity through sickness or other cause judged by the

instructor to be excusable shall be given an opportunity to take a rescheduled exam or make up the class assignment in a timely manner agreed upon by the instructor (see Leaves of Absence). Examples of excused absences may include participation in University-sponsored activities such as debating contests, musical or theatrical performances, or intercollegiate athletic competition. Students involved in university sponsored activities who know of a scheduled event or activity they will participate in that will result in a class absence are expected to notify their instructor early in the academic term to determine alternative arrangements for missed material, assigned work or examinations.

University policy does not allow a student to attend or participate in a class without formally being registered for it. It is the student's responsibility to ensure that he or she is properly registered for each course in their schedule.

Withdrawal from a Course

Single course withdrawals that occur prior to the sixth day of the quarter are considered to be a change of initial registration and results in no entry on the permanent record (transcript). To withdraw from a course during the first five days of the quarter, a student must complete the transaction on Web4U. If withdrawing from all courses on or after the first day of the quarter, it is considered a 'school withdrawal' and it is recorded on the official transcript as a grade of SW (see Withdrawal from the University).

Course withdrawals that occur from the beginning of the sixth day of the quarter to the end of the second week will result in no entry on the permanent record (official transcript), but a mark of "XM" will appear with the withdrawn course on the unofficial record (academic history). If withdrawing from your only class during the second week, a grade of SW will appear on the permanent record. Withdrawals that occur beginning the sixth day of the quarter may affect a student's tuition charges and may result in a credit of half of applicable tuition only. Fees are not refunded after the fifth day of the quarter. There also may be implications for financial aid recipients' awards. Beginning with the sixth day of the quarter, a student must complete the withdrawal in person at the Registrar's Office in Old Main 230, during regular business hours. Beginning the third week of the quarter, a mark of "W" is posted for each withdrawn course.

Course withdrawal from the beginning of the third week to the end of the seventh week is permitted only if the student has an unused annual withdrawal privilege. Each student is granted two

UNIVERSITY ACADEMIC POLICIES

annual withdrawal privileges at the beginning of the academic year in fall quarter. The annual withdrawal privileges can be used during fall, winter, spring or summer quarter. (See Summer Session for summer course withdrawals.) Unused annual withdrawals cannot be used in subsequent years. To use an annual withdrawal privilege, a student must complete the withdrawal in person at the Registrar's Office.

After the seventh week of the quarter, course withdrawal is not permitted. Discontinued attendance without official withdrawal results in a failing grade (Z or F). Course withdrawal deadlines are published in the dates and deadlines section of the Registrar's Office website and the Summer Session website.

To withdraw from an extension course, a student must file the appropriate form through the extension office. For specific site information, see the Extended Education section in this catalog.

Students may drop an Independent Learning course by contacting the Independent Learning Office in writing. There is no refund 30 days after registration.

Withdrawal from the University

Withdrawal from the University, including self-supporting program, may be made at any time before the final two weeks of a quarter. After the first five days of the quarter, students must initiate the withdrawal process in the Registrar's Office or at their extension site. The official date of withdrawal has significant impact on determining a student's remaining balance due or refund/credit (see the Registrar's Office quarterly Important Dates and Deadlines for exact deadlines**). Students, especially students receiving financial aid, are strongly encouraged to seek information from both the Financial Aid Office and the Student Business Office prior to withdrawing from the University. A withdrawing student who will be away from Western a full quarter or more, except summer quarter, must apply for readmission prior to the deadline stated in the Undergraduate Admission section of this catalog.

The official date of withdrawal is the date of the final withdrawal transaction whether through Web4U or in the Registrar's Office. A student's intent to withdraw begins when the student makes initial contact with the Registrar's Office and initiates the Notification of Student's Intent to Withdraw from All Classes Form. The difference between the student's intent to withdraw date and the official date of withdrawal may delay the determination of a student's outstanding balance due or refund/credit. Students are encouraged to

complete the university withdrawal process in a timely manner.

Beginning the first day of classes, including withdrawal from the institution, a grade of SW (school withdrawal) is posted on the permanent record for each course for which the student was registered.

Upon registering for courses, students incur a legal debt to the University. When a student leaves the University at any time without formally withdrawing, or the student decides not to attend classes without formally withdrawing via Web4U or at the Registrar's Office, the student's account balance remains due in compliance with all deadlines. Choosing to not attend classes does not result in automatic withdrawal from classes or relief from any financial balance due the institution and will result in failing grades on the official transcript. Enrolled students who do not attend and who fail to withdraw from the institution may use the Registrar's General Petition to request an exchange of failing grades for school withdrawal notation. Formerly enrolled students who did not attend and are approved for withdrawal through the General Petition process are still responsible for any outstanding financial balance due the institution.

** Summer Session withdrawal deadlines vary depending on the length of the course. See the Summer Session website for details.

Hardship Withdrawal

A student who is unable to complete the quarter or a class due to a significant hardship may petition to withdraw from the University or a course after the stated deadline. Hardship is considered to be an incapacitating illness or injury requiring extensive recuperation or a significant personal emergency such as a death in the immediate family. **Verification of the hardship is required.**

Petitions for the withdrawal due to hardship are available in the Student Life Office and must be submitted by the deadline determined by the Student Life Office. A complete school withdrawal results in grades of SW for each course for which the student was registered. If the student qualifies for a partial withdrawal, a grade of W is posted for those courses.

Students approved for a partial or full Hardship Withdrawal are still responsible for any outstanding financial balance due the institution. Refund/credit of tuition and some fees may apply and are processed based upon the student's Last Date of Attendance. The Last Date of Attendance is reported by the student on the Hardship Withdrawal Petition and may be verified by a staff

member of the Student Life Office or staff member of the Registrar's Office. The Last Date of Attendance is the last known date when the student actively engaged or participated in learning activities, to include attending class, reading or responding to online materials or discussions, completing an exam or quiz, or discussing in-person or via email with the instructor regarding the class.

Summer withdrawal deadlines and policies are published on the Summer Session website.

Emergency Leaves of Absence

A leave of absence from classes may be granted when psychological or family emergency, illness or injury requires a student to be absent from class. Leaves of absence are issued only upon request from the student and may be granted for two days, but no more than five days during an academic quarter or summer session. If a faculty member requires official notification of student medical or emergency leaves of absence, the faculty member will inform the students in his/her courses of that fact in the course syllabus. (Non-medical leave or absence are available through the Office of Student Life, Dean of Students Office. Medical leave of absence is provided through the Student Health Center.) **All leave of absences require proper verification.**

While a leave of absence generally makes it possible for the student to make up work missed, in some instances the amount of time lost makes course completion impractical. In those cases, withdrawal or incomplete grades may be appropriate. A student absent from any exam or class activity through sickness or other cause judged by the instructor to be excusable shall be given an opportunity to take a rescheduled exam or make up the class assignment in a timely manner agreed upon by the instructor. Examples of excusable cause may include participation in university-sponsored activities such as debating contests, musical or theatrical performances, or intercollegiate athletic competition. The student should consult with the course instructors and/or the Dean of Students Office.

Insufficient Progress Toward Degree and Registration Holds

The University reserves the right to deny access to classes by students who make insufficient progress toward a degree or major. Insufficient progress toward a degree is determined by the Registrar in consultation with academic and administrative officials. Insufficient progress toward major is determined by the department chair in consultation

with the Registrar. Students who fail to make progress toward a degree or who repeatedly withdraw from the University after registering may have their enrollment privileges suspended. Students on probation who repeatedly register for Pass/No Pass or Satisfactory/Unsatisfactory courses may have their registration privileges suspended. Students who fail to declare a major by the time they reach 105 credits may not be permitted to register. Students who reach 210 credits without graduating or submitting a degree application or approved plan of study may not be permitted to register.

Criteria for determining Insufficient Progress

Degree-seeking students who fail to make progress toward a degree based on one or more of the following components of evaluation may have their enrollment privileges suspended or other administrative action taken (conditions that would be applied to help students succeed academically):

- Continuing students with a net completion rate of fewer than 80% of credits attempted at WWU (excludes courses dropped before the second Friday of the quarter)
- Students with repeated coursework in more than three courses or any single course more than once.
- Students who earn a quarterly grade point average below 2.0 for two or more consecutive quarters
- Students who take more than two course withdrawals of any type (late course withdrawal, hardship withdrawal, school withdrawal) within a calendar year (September 1 - August 31)

Finals Preparation Week

The week immediately preceding final examination week is known as finals preparation week and provides the following protections which enable students to complete their studies without undue hardships:

- Final examinations must be administered at the date and time specified in the final examination schedule, with the exception of laboratory-section final exams
- During finals preparation week, no examinations shall be administered; exceptions may be made if there is agreement of the instructor, the

UNIVERSITY ACADEMIC POLICIES

appropriate department chair and/or dean, and the entire class membership

- No graded assignments shall be introduced during finals preparation week
 - Students may consent, on an individual basis, to accept new graded assignments for purposes of extra credit and/or makeup for previous assignments
 - Instructors must have notified students in writing, by the end of the course's fifth week, of any graded assignments whose due dates fall during finals preparation week

The term "graded assignments" refers to written or oral presentations which are a required component of class performance and which are utilized in determining students' letter grades or evaluations for the quarter. Examples include essays, papers, research projects and class presentations or quizzes.

Final Examinations

Final examinations, given in most courses at Western, are administered according to a schedule published in the online Timetable of Classes. **The scheduled days and hours for these examinations may not be changed. The final examination is normally held where the course meets.**

All final examinations are scheduled during the last week of the quarter, which is known as final examination week. No final examinations except laboratory finals — whether for a whole class or part of a class or an individual — may be given before final examination week. This means that students may not petition faculty for early final examinations and that students should plan their end-of-quarter schedules in the expectation of final examinations in all courses. In the rare cases where final examinations are not given, instructors will notify students at the beginning of the quarter.

A student who fails to take a final examination without making prior arrangements acceptable to the instructor receives a failing grade for the course. Under unusual circumstances, an instructor may allow a student who has been making satisfactory progress in the course to take a late final examination and receive a temporary incomplete (K) grade. This privilege is available only to students who have been making satisfactory progress in the course. It is recommended that the incomplete grade given in this manner should be completed early during the next quarter. See additional details noted in the section 'The Incomplete (K) Grade'.

If the final examinations schedule causes a student to take three or more examinations in one day, any of her or his instructors may arrange an examination **later** during finals week.

There is no final examination week in summer session. Course requirements are determined by each instructor.

Grades and Grade Reporting

At Western, grades describe both a student's mastery of subject matter and the ability to communicate that mastery in examinations, essays, demonstrations and discussions. The three grading systems are described below. (Fairhaven College is authorized to follow a different system described in the Fairhaven College of Interdisciplinary Studies section of this catalog.)

A-F Grading

Most courses at Western are graded on the traditional A-F system. The grades that may be earned under this system, and their values for GPA calculation (see "Grade Averages" below), are as follows:

A (excellent), 4.00; A-, 3.70; B+, 3.30; B (good), 3.00; B-, 2.70; C+, 2.30; C (fair), 2.00; C-, 1.70; D+, 1.30; D (poor), 1.00; D-, 0.70; F (failure), 0.00; Z (failure due to discontinued attendance without withdrawal), 0.00; K (incomplete), X (missing grade); XM (course withdrawal during second week of quarter; mark appears on academic history, but not on official transcript); W (course withdrawal after the second week of the quarter; mark appears on both the academic history and official transcript); SW (school withdrawal; mark appears on each course when school withdrawal occurs on first day of quarter or later).

Satisfactory/Unsatisfactory Grading

Some courses are graded on the Satisfactory/Unsatisfactory system. For these courses, appropriate curricular agencies have determined that the traditional A-F system is inappropriate. If a course has been approved for S/U grading, the only grades that may be assigned are S, U and K. Neither S nor U is considered in the calculation of grade averages.

All S/U courses are identified in the course descriptions of this catalog and in the online Timetable of Classes.

Pass/No Pass Grading

Students may choose the Pass/No Pass grading option in certain elective courses. The minimum level of performance required to receive a grade of P varies from course to course and is determined by each instructor or department. Students should not assume that performance equal to a grade of D or higher will result in a passing mark. Often performance at the level of C or higher is required. Regulations pertaining to Pass/No Pass grading are as follows:

- Courses graded Pass/No Pass may not be applied to the major and minor, supporting courses, professional education requirements, upper-division writing proficiency requirement and General University Requirements
- Graduate courses taken for the graduate degree cannot be taken Pass/No Pass
- Courses graded Satisfactory/Unsatisfactory cannot be taken Pass/No Pass
- To designate a course as Pass/No Pass students must submit a request at the Registrar's Office after registering for the course; they may change this designation by submitting the change to the Registrar's Office at any time through the fourth week of a quarter. For extension program courses or Summer Session, please see Summer Session or Independent Learning deadlines.
- Prerequisites, work required and credit allowed may be affected by election of the Pass/No Pass option
- In computing grade averages, neither the P nor NP grade in Pass/No Pass courses is counted
- Should a student change his or her major or minor, the academic departments involved are the sole judges of the acceptability of any Pass/No Pass courses already completed in the newly chosen major or minor
- Once a student has earned NP grades in courses totaling 10 credits, he or she may no longer register for courses under the Pass/No Pass option
- MATH 099 is a non-credit course that does not appear on the official transcript but will appear on the academic history. A grade of YP indicates pass, a grade of YN indicates no pass, and a grade of YK indicates incomplete. These grades are not calculated into the student's grade point average or earned credits.

NOTE: Excessive use of the Pass/No Pass grading system may negatively influence admission to some graduate or professional schools.

The Incomplete (K) Grade

The grade of K (incomplete) may be assigned under all grading systems. It may be assigned only upon request of the student and agreement of the course instructor. Normally it is given only to a student who has been in attendance and has been doing passing work until the final two weeks of the quarter when extenuating circumstances beyond his or her control make it impossible to complete course requirements on schedule. (Extenuating circumstances do not include mere lateness in completing work, the desire of a student to do extra work to raise a poor grade, et cetera.)

To receive a K grade, a student must print a contract form and negotiate a formal agreement with the course instructor specifying the work done and the remaining work to complete the course and earn a grade. One copy is kept by the student and one by the faculty member.

Normally, the student completes the work agreed upon during the next quarter and a final grade is submitted by the instructor. After one year, however, if a final grade has not been submitted, the K automatically reverts to a failing grade (Z), and the student may establish credit only by registering again for the course. (Grades of K earned in thesis courses numbered 690 do not lapse to failure.) Once a final grade has been submitted, the student's record will show the K grade as well as the final grade. In no case will a final grade replacing a K affect the student's academic standing in the quarter in which the final grade is assigned.

Completing a K grade (and recording it with a final grade) will not affect the student's faculty action (scholarship standing) for the quarter in which the K was assigned, nor will it affect the faculty action for the quarter in which the final grade is recorded if the grades and faculty action for that quarter have already been submitted. However, it will affect the cumulative grade point average as soon as the final grade is recorded.

A student who receives an incomplete in a required course the final quarter before graduating must complete the course within two weeks of the end of that quarter in order to graduate at that time. If the course is not completed after two weeks, the prospective graduate is subject to resubmitting the degree application and registration in another course to satisfy the final-quarter-in-residence rule.

Grades and Academic Honesty

Grades are given for the student's work and achievement. Fair evaluation of students' work and

UNIVERSITY ACADEMIC POLICIES

helpful instruction are possible only when students submit work which genuinely reflects their own reading, computation, research and thoughts and is their own production, whether in writing or other format(s). Academic dishonesty can result in a failing grade and the placement of a note in the student's permanent record. For the University's policy on academic honesty, see Appendix D - Academic Honesty Policy and Procedure in the Appendices section of this catalog.

Grade Averages (GPA)

To determine a grade average, points are assigned to each grade earned under the A-F grading system (A = 4.00, B = 3.00, et cetera. See A-F Grading). The point value of each grade is multiplied by the number of credits assigned to the course. Total points are then divided by total credits attempted. Thus, a student who earns a five-credit A, five-credit B and a five-credit F has earned a quarterly average of 2.33 (35 points divided by 15 credits attempted).

A grade average of 2.00 (C) represents the minimum acceptable level of performance to remain in good standing at the University. Higher grade averages may be required for admission to or retention in certain major programs.

Only grades earned at Western are calculated in determining a student's quarterly or cumulative grade average.

Grades of S, U, P, NP, AUD, K, X, W, XM, YP, YN, YK and SW are not included in GPA calculation.

Grades Yielding Credit

Credit is granted for courses completed with grades of D- or higher on the A-F grading system and for grades of P and S. The grades of D+, D and D-, however, represent a level of work that is unacceptable in a student's major or minor, supporting courses for majors and minors, ENG 101, and the courses that satisfy a student's upper-division writing proficiency requirement. Professional education courses required for teacher education programs and courses required for state teaching endorsements must be completed with a grade of C (2.0) or better.

Repeating a Course

A few courses are approved to be repeated for credit. Such approval is included with the course description in this catalog. If a course not designated as repeatable for credit is retaken, the following will apply:

- Students may not repeat any previously passed course more than once.
- Credit will be awarded only once for a repeated course.
- The last grade earned will be used in the computation of the cumulative and major grade point averages.
- All grades will remain in the student's official record.
- A course cannot be repeated to change the student's grade point average after a baccalaureate degree has been awarded.
- Students wishing to repeat a class in which they already received a P, S, or C- or better grade may not register for the class until Phase III of registration. Students, in this circumstance, who register for a repeated course prior to Phase III may be required to drop the course by the academic department or Registrar's Office. The repeat registration for English composition prior to Phase III requires the written permission of the chair of the department.

This policy applies to undergraduate students. Please note that departments may require Graduate students to repeat a course in order to attain an acceptable level of competence. Graduate students should review the Scholarship Standards under the Graduate School section of the catalog.

Final Grades

Final grades are assigned at the end of each quarter and are available to students on Web4U. An accurate representation of final grades, quarterly and cumulative grade point averages, credit completion totals and academic standing does not occur until 4-5 business days after final examination week.

Grade Changes

Once a grade has been filed with the Registrar, it is regarded as final. Except for the conversion of incomplete (K) marks, grade changes are accepted only under the following circumstances:

It is discovered that the grade resulted from clerical error in transcription or recording. Requests for change to correct these errors must be made in writing to the Registrar by the course instructor and only during the quarter immediately following original issuance of the grade.

The Registrar may be instructed to change a grade as the result of the academic grievance procedure.

The Registrar may be instructed to change a grade if it is determined that the grade resulted from academic dishonesty.

Fresh Start

A former Western undergraduate student who returns to the University after an absence of five years or more may be given permission to start a new cumulative grade average. To be eligible, the student must be returning to Western as an undergraduate and cannot have taken any Western courses (including extension, correspondence, and cyber) during the five-year absence. The absence begins from the last day of the quarter of previous enrollment.

The Fresh Start application deadline is the end of the first week of the quarter in which the student returns. **The application should be submitted to the Registrar's Office.** Students who have been dropped for low scholarship, even if absent for five years or more, must pursue reinstatement. See Reinstatement section below.

Undergraduates who might be considering applying for the master's degree at WWU should contact the Graduate School office for information about the implications of having been given an undergraduate Fresh Start.

Post-baccalaureate students and students in graduate programs are not eligible for Fresh Start. An undergraduate student can be granted only one Fresh Start.

Honors

Students at Western may be eligible to earn the following awards/distinction that are entered on their permanent academic records.

Presidential Scholar Award

In 2000 in honor of Western's Centennial, President Karen W. Morse instituted the Presidential Scholars Award to honor graduates for their exceptional scholarship and service to the university and community.

One award will be granted per college (one award per division of Humanities and Social Sciences). The deans will nominate candidates based upon recommendations from the faculty, in accordance with customary college practice. The seven graduation seniors exemplify the University's goals of academic proficiency, advancement of diversity, and service to the community.

These awards are presented annually at Western's spring commencement ceremonies.

Outstanding Graduate Award

This award was initiated in 1978 jointly by the Registrar and Director of Alumni. Recognition is based on criteria decided entirely by each academic department. Faculty members from academic departments and programs select one graduate to honor as the Outstanding Graduate of the year. Selection is a high honor based on a combined excellence in academics, leadership stewardship to the department and/or university, research and writing, service to the campus and community, and promise for the future.

Departmental Honors & Distinction

Several academic departments recognize students achieving certain levels of distinction in the departmental major. Individual department eligibility requirements are listed in the department catalog section and the respective program of study in the catalog if the particular department is recognizing this achievement.

Quarterly President's List (Honor Roll)

Each undergraduate student whose quarterly grade average places him or her at the 90th percentile or higher among students of the same class (freshman, sophomore, et cetera) shall be placed on the President's List. The term "honor roll" shall be affixed to the student's permanent academic record for that quarter. To be eligible for the quarterly President's List, a student must be enrolled officially in a division of Western Washington University which employs the A-F grading system and must complete at least 14 credits that quarter on the A-F grading system.

Graduation Honors

Graduation **cum laude or magna cum laude** is possible from those colleges of Western Washington University which employ the A-F grading system. Fairhaven College of Interdisciplinary Studies, which employs a different grading system, may develop alternate ways to honor outstanding graduates.

The Graduate School does not confer graduation honors on graduate students although some graduate programs recognize meritorious graduate students.

To be eligible for **cum laude or magna cum laude** status upon graduation, the student must have earned at least 65 graded credits (under the

UNIVERSITY ACADEMIC POLICIES

A-F grading system) while in junior or senior standing. Only students who earn a first bachelor's degree are eligible for graduation honors.

Magna cum laude shall be awarded to each student whose honors grade average places him or her at the 97th percentile or higher among graduating seniors from their college during the previous academic year. **Cum laude** shall be awarded to each student whose honors grade average places him or her from the 92nd through 96th percentiles among graduating seniors from their college during the previous academic year.

To receive honors recognition at Western's commencement exercises, it is necessary for a student to have qualified for honors by the end of the quarter prior to graduation.

Scholarship Standards

The following scholarship standards apply to each academic division of Western Washington University, except Fairhaven College. Students should note that transfer between academic divisions is restricted in cases of low scholarship.

Low- and high-scholarship standings are not changed as a result of the removal of incomplete (K) grades and late grades received in correspondence courses.

Good Academic Standing

A student is in good academic standing if he or she has a cumulative grade point average that is not below 2.00.

Low Scholarship

The University has set the standards described below to ensure that students who are earning low grades will examine their objectives carefully before continuing enrollment. In some cases, students will be dropped from the University. The standards are designed to ensure that a student will examine their objectives and seek assistance before grades deteriorate to the point that continued enrollment or admission to another college or university becomes impossible. In all cases involving low scholarship, students are encouraged to consult with the Academic Advising Center, their instructors, or major advisor.

The low scholarship categories below apply to all divisions of Western Washington University except Fairhaven College. (See the Fairhaven College section for that division's scholarship standards.) Students dropped from one college division may not transfer to another college

division without reinstatement by the Scholastic Standing Committee. These standards also apply to students enrolled in self-supporting courses.

Academic Warning

A warning is issued to a first-quarter freshman or a first-quarter transfer student (who has not previously attended Western) whose grade average is below 2.00 and to any continuing student whose quarterly grade average is below 2.00 but whose cumulative grade average is 2.00 or higher.

Academic Probation

Any student except a first-quarter freshman or first-quarter transfer student (who has not previously attended Western) whose cumulative grade average falls below a 2.00 is placed on academic probation. A student who begins the quarter on probation must earn at least a quarterly grade average of 2.00 to avoid academic dismissal (see below).

Continuing Probation

A student who begins a quarter on probation and, during that quarter, earns a grade average of 2.00 or higher without raising his or her cumulative grade average to at least 2.00 is placed on continuing probation. The student must then improve his or her cumulative grade average to at least 2.00 or attain at least a 2.30 quarterly average during the next quarter of enrollment.

Students on probation or continuing probation who repeatedly withdraw or register for Pass/No Pass or Satisfactory/Unsatisfactory courses may have their registration privileges suspended by the Registrar.

Academic dismissal

A student will be dropped from the University if he or she (a) begins a quarter on probation and earns a quarterly grade average below 2.00 and fails to raise his or her cumulative grade average to at least 2.00 or (b) begins a quarter on continuing probation and earns a quarterly grade average below 2.30 and fails to raise his or her cumulative grade average to at least a 2.00.

Under unusual circumstances involving consistent patterns of course withdrawal or course repeats, a student whose cumulative grade average is 2.00 or higher may be dismissed from the University. The provost may authorize dismissal in these unusual cases after reviewing records presented by the Registrar.

A student who has been dismissed for low scholarship should contact the Academic Advising Center in Old Main 380 for advising and the petition process. The student may enroll only in Summer Session, or independent and online courses through Western. Coursework through these programs

does not guarantee future reinstatement as a degree candidate. See also the Reinstatement section below for more details

Removal from probation occurs at the end of a quarter during which a student has improved his or her **cumulative** grade average to 2.00 or higher.

Reinstatement

Students who have been dismissed for low scholarship and want to return to Western should contact the Academic Advising Center in Old Main 380 and schedule an appointment to meet with an advisor. Students who succeed in gaining reinstatement have earned strong grades in coursework taken since dismissal, established strong study skills, overcome personal challenges that previously interfered with their studies and have clearly defined, realistic academic goals.

Students who have been dismissed for low scholarship can seek reinstatement (but not for the quarter immediately following the quarter of dismissal). For the petitioning process and additional information, go to www.wvu.edu/advising/. The Scholastic Standing Committee has the responsibility of determining reinstatement.

Academic Honesty Policy

Academic dishonesty is not tolerated at Western Washington University. A student commits an act of academic dishonesty when he or she participates in representing work of their own when in fact it is the work of another. A Western student charged with academic dishonesty may face significant repercussions such as failure of the assignment and course and possibly dismissal. All acts of academic dishonesty are on record in the Registrar's Office and the office of the Provost. Students do have the right to due process and may appeal a charge of academic dishonesty. For a full description of the academic honesty policy and procedures at Western, see Appendix D - Academic Honesty Policy and Procedure in the Appendices section of this catalog.

Academic Grievance Policy

The text and procedures of Western's Academic Grievance Policy are contained in Appendix F in the Appendices section of this catalog.

Satisfactory Academic Progress for Financial Aid

The text of Western's policy on Satisfactory Academic Progress for Financial Aid is contained in Appendix J in the Appendices section of this catalog.

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA), passed by Congress in 1974, protects the confidentiality of student records against disclosure to third parties and guarantees access to those records by the student. FERPA allows the university to release certain "directory information", which may include the student's name, local address and phone number, whether the student is enrolled, dates of attendance, degrees earned, and most recent previous institutions attended. However, Western Washington University is more restrictive, releasing to third parties only whether the student is currently enrolled, dates of attendance, and degrees awarded. For students who have requested a confidential block through the Registrar's Office, no information is disclosed, not even whether the student is enrolled.

When a student enrolls in a postsecondary institution, rights of access are transferred from the parents to the student. Thus parents who wish to have access to their students' educational information must present a written, signed and recently dated consent from their student for each request.

Western students have 24 hour computer access to their own educational record via Web4U and therefore students and parents are encouraged to dialogue about appropriate and respectful sharing of educational information within the context of their relationship and recognition of the adult standing of the student by the university.

Individuals whose work requires access, such as university faculty and staff and government officials who work to improve instruction, also are allowed by FERPA to view student records.

For more complete information about FERPA and Western's Student Records Policy, see Appendix E in the Appendices section of this catalog.

Student Records Policy

For the complete text of this policy, see Appendix E in the Appendices section of this catalog.

University Graduation Requirements

Student Responsibility for Completion of Requirements

Every effort is made by the University to notify students of degree requirements. However, it is the student's responsibility to become familiar with all requirements upon entry to the University.

WWU Graduation Requirements for Bachelor's Degrees

Effective Catalog

A student should expect to graduate according to the general requirements in the catalog current at the time of initial matriculation. However, if the student interrupts enrollment for more than two consecutive quarters (summer quarter not included), he or she shall meet the demands of the catalog in force at the time of readmission. Correspondence enrollment is defined as interrupted enrollment.

While the University reserves the right to change the regulations concerning admission and requirements for graduation, it shall be the policy of the University to give adequate notice prior to effecting any significant changes and to make reasonable adjustments in individual cases where there may be a hardship.

Declaring a Major

Students should expect to meet the specific requirements for majors and minors in the catalog current at the time they declare the major and minor to the appropriate department. Early declaration of a major is essential to graduating in a timely manner. Soon after their arrival at Western, students should contact a departmental advisor to discuss the course of study leading to a major. Students are expected to meet with the advisor of the department of their choice for individualized assessment or visit the Academic Advising or Career Services centers regarding choice of a major by the time they complete 60 credits or during the first quarter of enrollment if 60 or more credits are being transferred to Western. Students are expected to apply to the department in which they wish to declare a major no later than the quarter following the quarter in which they reach their 90th credit. Students who fail to declare a major by the time they reach 105 credits will not be permitted to register.

Students must submit a new major declaration if they interrupt enrollment for more than one year or are dropped for low scholarship.

Minors

Minors are available in most major disciplines but students are not required to complete a minor, unless a minor is required by the major. Requirements for each minor are listed in each department's section. To declare a minor, a student should contact the department. Although there is no limit on the number of minors a student may earn, it is not possible to minor in areas with more than a 50% overlap of credits applied to the minors. NOTE: Minors may only be earned by students who have completed a baccalaureate degree at Western Washington University.

Common Requirements

The following requirements are common to all undergraduate divisions of Western Washington University. For requirements unique to a given University division, see sections concerning the College of Business and Economics, Fairhaven College of Interdisciplinary Studies, the College of Fine and Performing Arts, the College of Humanities and Social Sciences, Huxley College of the Environment, the College of Science and Engineering, University Interdisciplinary Programs, and Woodring College of Education.

- **Minimum of 180 quarter credits.** Western Washington University's baccalaureate degrees require a minimum of 180 credits. Some fields require a larger number of credits, and students who major in these fields should anticipate that they may require more than four years to complete their programs. Students majoring in these fields are encouraged to seek advisement early in their academic careers. Also, programs that are highly sequential necessitate careful planning, the lack of which may result in extended work beyond the minimum required. Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements but additional credits will not be allowed to count toward the 180 credit requirement for graduation.
- **Minimum of 45 credits earned through Western Washington University courses.** Credit by examination and

advanced placement credit are not included in this total.

- **At least 60 credits in upper-division study** (courses 300-level or above at the institution where the course was taken).
- **Complete a minimum of three upper-division writing proficiency points in approved upper-division writing proficiency courses at WWU** with a minimum grade of C-.
- **General University Requirements** - These general requirements must be satisfied by all students except those enrolled in Fairhaven College of Interdisciplinary Studies, where a separate core program is required.
- **Approved academic major**
 - At least 50 percent of the credits required in a student's major must be earned at Western Washington University
 - Students must declare a major before reaching 105 credits
- **Approved academic minor**
 - A minor is optional for students at Western Washington University unless required by an approved academic major
 - At least 50 percent of the credits required for a minor must be earned at Western Washington University
- **Professional education sequence, if required by the major**
- **A grade of C- or better in a student's major or minor**, supporting courses for majors and minors, ENG 101, and courses taken to fulfill the upper-division writing proficiency requirement.
- **A grade of C (2.0) or better is required for professional education courses** required for teacher education programs and courses required for state teaching endorsements.
- **Scholarship meeting minimums** prescribed by the University divisions and academic departments, including a cumulative WWU GPA of at least 2.00 (or higher, as required by individual departments).
- **Final quarter in residence.** Must be registered for at least one Western course in the quarter in which degree is to be awarded.
- **Submit an application for the degree** following published deadlines. The degree is not granted without formal application.

Degree Works — Online Academic Planning and Degree Progress

Degree Works is a web-based academic planning and degree progress tool available to both students and advisors that evaluates coursework against degree requirements. Degree Works generates a degree audit — also known as a "worksheet" — reflecting academic progress toward the completion of a student's declared or proposed degree or certificate. The Degree Works worksheet shows how Western Washington University courses, transfer courses, and courses in progress apply toward degree or certificate requirements. You can access Degree Works to view and print your worksheet via Web4U.

Degree Works is available for students beginning with the 2016-17 catalog year. A student's catalog year is set upon admission or declaration for their degree, major, minor, or certificate. If a student is currently declared in a catalog year prior to 2016-17, they may continue to access the prior degree audit system known as CAPP (Curriculum, Advising, and Program Planning) Degree Evaluation. CAPP Degree Evaluation is available via Web4U.

Visit the Registrar's Office website for additional information on Degree Works and CAPP Online Degree Evaluation, or go to the Degree Works FAQ page.

Extension Program Time Limits

All graduation requirements for an extension program must be completed within five years of the initial quarter of registration. Students who have not completed their program after four years of study are required to file a plan for completion of the degree within the five-year limit. Otherwise it is understood that the student has decided to withdraw from the program.

Procedures for Applying for a Bachelor's Degree

Degrees are not automatically awarded when requirements are completed. It is the responsibility of the student to make application in the Registrar's Office. Students must apply for a baccalaureate degree no later than the last day of classes two quarters prior to the final quarter. Complete instructions and deadlines are available on the Registrar's Office website.

Procedures for Applying for a Residency Teacher Certificate

UNIVERSITY GRADUATION REQUIREMENTS

Teaching certificates are not automatically issued at program completion. It is the responsibility of the student to apply for the Residency Teacher Certificate through the Woodring College of Education Certification Office by the due date approximately two quarters before the start of full-time student teaching internship. Upon verification that certification requirements have been met, recommendation is made to the state Office of Superintendent of Public Instruction for issuance of the Residency Teacher Certificate.

Complete application instructions and deadlines are available at wce.wwu.edu/cert/teacher-certification or Certification Office, Woodring College of Education Student Services, Miller Hall 150, and through applicable extension program offices.

Commencement

Formal commencement exercises for degree candidates are held each quarter on the Saturday following finals week. Commencement information is available by the second week of the quarter on the Registrar's Office website. To be eligible for commencement, all candidates must apply for their degree by the appropriate deadline. University policy requires bachelor's degree candidates to be enrolled in their final quarter's requirements and master's candidates to have completed all requirements in order to participate in commencement.

Baccalaureate Degrees with Two Majors

Any undergraduate student at Western Washington University may attempt to earn a bachelor's degree with two majors. While there is no requirement that such a degree program include more than 180 credits, it may be impossible to complete within this minimum. The student's application for such a degree must indicate both majors and be approved by both departments and academic units involved. The majors involved must be distinct and may not be based on more than a 50% overlap of credits applied to both majors. A multidisciplinary studies major cannot be earned concurrently with or subsequent to another major.

After earning a bachelor's degree, a student may complete an additional major without earning a second bachelor's degree. The student must submit a major declaration card and an application for an additional major to the Registrar's Office.

Students with two majors that would result in the same type of degree (for example, a bachelor of

arts in English and a bachelor of arts in business) will receive one degree and one diploma. Since the diploma indicates the college awarding the degree, students must choose the college they prefer. In this example, the student must choose between a bachelor of arts from the College of Humanities and Social Sciences or a bachelor of arts from the College of Business and Economics. Majors are not printed on the diploma but are listed on the transcript once the student graduates.

More than One Baccalaureate Degree

A student may earn from Western only one of each type of degree offered (BA, BS, BAE, BFA, BMus, BSN).

Two Baccalaureate Degrees Concurrently

Two distinct bachelor's degrees associated with different majors may be earned at Western simultaneously. The student must follow the admission and declaration process for each degree program and satisfy all requirements of each degree program. The majors involved may not be based on more than a 50% overlap of credits applied to both majors.

Second Baccalaureate Degree from WWU

A student who has already earned a baccalaureate degree from Western Washington University may apply for readmission to earn a different type of undergraduate degree associated with a different major. Such a student must:

- Submit a major declaration card
- Meet scholarship minimums prescribed by the University divisions and academic departments, including a cumulative WWU GPA of at least 2.00 (or higher, as required by individual departments)
- Earn at least 50% of the credits for the major at Western Washington University
- A grade of C- or better must be earned in all major courses.
- Earn at least 45 WWU academic credits beyond the number earned when the first degree was granted. ** Credit by examination and advanced placement credit are not included in this total.
- Be registered for at least one Western course in the quarter in which the degree is to be awarded.
- Satisfy all requirements of the second degree program

**Exception: The BFA in art degree or the BFA in design degree may be awarded to a student who has earned fewer than 45 additional credits since completing a BA degree.

Post-Baccalaureate Degree Requirements for Transfer Students

- **GUR**
Holders of a Bachelor of Arts (BA) or Bachelor of Science (BS) degree from a United States institution accredited by the Regional Associations of Schools and Colleges will have fulfilled all General University Requirements (GUR). Holders of all other degrees earned in the United States at institutes accredited by the Regional Associations of Schools and Colleges and foreign degrees will have the degree evaluated for GUR on a course by course basis.
- **Major**
At least 50% of the credits earned for a major must be earned at Western Washington University
A grade of C- or better must be earned in all major courses. Note: A post-baccalaureate transfer student cannot earn a major at Western that is associated with any previously-earned degree.
- **Minor**
A minor is not required for the degree unless it is required by the major. At least 50% of the credits earned for a minor must be earned at Western Washington University.
A grade of C- or better must be earned in all minor courses. Note: A post-baccalaureate transfer student cannot earn a minor at Western that is associated with any previously-earned degree. A minor cannot be posted to the official transcript unless a bachelor's degree is earned from Western Washington University.
- **Writing Proficiency**
Holders of a Bachelor of Arts (BA) or Bachelor of Science (BS) degree from a United States institution accredited by the Regional Associations of Schools and Colleges will have fulfilled the writing proficiency requirement. Holders of all other degrees earned in the United States at institutes accredited by the Regional Associations of Schools and Colleges and foreign degrees will have their writing proficiency requirement evaluated on a case by case basis.
- **GPA**
Scholarship meeting minimums prescribed by the University divisions and academic departments, including a cumulative

WWU GPA of at least 2.00 (or higher, as required by individual departments).

- **Minimum of 45 credits earned through Western Washington University courses.** Credit by examination and advanced placement credit are not included in this total.
- **Final quarter in residence.** Must be registered for at least one Western course in the quarter in which degree is to be awarded.

Baccalaureate Degree After Graduate Studies at WWU

A student may not earn a baccalaureate degree from Western Washington University while enrolled in its Graduate School. A student may earn a baccalaureate degree after the completion of the master's degree program provided: 1) all requirements listed under "Post-Baccalaureate Degree Requirements for Transfer Students" are met and 2) that 45 credits are earned at Western subsequent to the previous bachelor's degree and exclusive of those credits that are a part of the master's program.

Baccalaureate Degree and Teacher Certification

The prospective teacher may earn the Bachelor of Arts in Education degree, completing one or more of the appropriate teaching majors offered within the various schools, colleges and departments of Western. Three majors delivered through the Woodring College of Education offer non-certification options for students who are preparing to work in community agencies rather than public schools. The student (usually with plans to teach at the secondary school level) who wishes to complete an appropriate Bachelor of Arts or Bachelor of Science degree program may also earn teaching credentials without earning the BAE degree. Some programs allow requirements for teacher certification to be completed at the same time the BA or BS degree is earned. Such students must be admitted officially to the professional education program of the Woodring College of Education and complete the required professional sequence.

Writing Requirements at Western Washington University

Western Washington University believes that development of writing proficiency should be pursued systematically throughout the course of study. To that end Western has established a program of writing courses and support services

UNIVERSITY GRADUATION REQUIREMENTS

beginning in the freshman year and extending to upper-division writing proficiency courses offered throughout the University.

GUR Writing Requirement

- Block A of the GUR communications requirement: to be completed, with a grade of C- or better, prior to the accumulation of 45 credits; ENG 101, Writing and Critical Inquiry, (5), (waived for students demonstrating high English competency on CEEB Advanced Placement English exams with a score of 4 or 5).
- Block B or C of the GUR communications requirement: to be completed prior to accumulation of 135 credits; see the GUR section for details.

Upper-division Writing Proficiency Requirement

- Upper-division writing proficiency requirement: complete a minimum of three writing proficiency points in designated upper-division Writing Proficiency courses at WWU with a minimum grade of C-. Students must complete Block A of the Communication GUR requirement before enrolling in a Writing Proficiency course.

All Western Writing Proficiency courses should follow these University-wide guidelines:

- students have opportunities to write multiple drafts of assigned papers
- students receive suggestions for revision, and
- instructors assign course grades based on assigned writings according to the writing proficiency points table

Upper-division writing proficiency courses emphasize research and writing. In writing proficiency courses, students learn the writing style and conventions of their disciplines, as well as the techniques for integrating evidence into scholarly papers. Writing proficiency courses are listed in the online Timetable of Classes.

Students unable to enroll in designated WP courses may be able to satisfy the requirement, with faculty endorsement, by submitting an "Alternative Writing Proficiency Course Agreement" through the Writing Instruction Support Program.

Writing Proficiency Points Fulfilling the Upper-division Writing Proficiency Requirements (Minimum 3 points required)		
	Credits of course	% of Grade Based on Writing Assignments
WP1 (1 pt)	1 Credit	75%
	2 Credits	50%
	3 Credits	25%
	4 Credits	20% (18.75%)
WP2 (2 pts)	5 Credits	15%
	2 Credits	75%
	3 Credits	50%
WP3 (3 pts)	4 Credits	40% (37.5%)
	5 Credits	30%
	3 Credits	75%
	4 Credits	55%
	5 Credits	45%

General University Requirements (GURs) at Western Washington University

The General University Requirements (GURs) embody Western's belief that a liberal arts and sciences education enables people to lead fuller and more interesting lives, to perceive and to understand more of the world around and within themselves, and to participate more intelligently and deliberately in shaping that world. This belief reflects a long tradition in American higher education. In this tradition, the bachelor's degree is comprised of an academic major and a foundational general education. This general education provides opportunities to study across many fields and to acquire the skills, experiences, and knowledge you need to thrive, to succeed in your chosen careers, and to develop a strong sense of personal and social responsibility.

The program is designed to develop academic competencies and perspectives that give students the ability to:

- Analyze and communicate ideas effectively in oral, written, and visual forms
- Analyze and interpret information from varied sources, including print and visual media
- Use quantitative and scientific reasoning to frame and solve problems
- Identify and analyze complex problems
- Apply tools of technology, with an understanding of their uses and limitations
- Explore, imagine and create
- Recognize the rights, responsibilities, and privileges of participating in, and

contributing as a citizen in, a diverse society

- Understand and evaluate assumptions, values, and beliefs in context of diverse local, national and global communities
- Work collaboratively and manage projects to effective completion
- Reflect on one's own work and on the ethical dimensions of academic pursuits
- Understand and assess the impacts of interactions among the individual, society, and the environment

The General University Requirements apply to all students in the College of Humanities and Social Sciences, the College of Business and Economics, the College of Science and Engineering, the College of Fine and Performing Arts, Woodring College of Education, and Huxley College of the Environment. Students enrolled in Fairhaven College of Interdisciplinary Studies, see the Fairhaven College section of the University catalog for requirements.

Exceptions

- Students transferring to Western with a Washington community college Direct Transfer Agreement Associate Degree.
- Students transferring to Western from another Washington state public baccalaureate institution whose General University Requirements were completed at the sending institution, provided the sending institution so certifies.

Four-Course Maximum

A maximum of four courses from any one department may be applied to the combination of Humanities; Social Sciences; and Comparative Gender and Multicultural Studies sections of the General University Requirements. (Art and Art History are considered to be one department, as are all foreign languages.)

Grades in GUR Courses

Courses which are to apply to General University Requirements must be taken on an "A" through "F" grading scale, except for courses designated S/U grading. They may not be taken with pass/no pass grading. Except for ENG 101, which requires a C- or better, the minimum passing grade for a GUR course is D-.

Attributes

Please note the use of GUR attributes in the online Timetable of Classes. Courses which qualify as General University Requirements are designated by the appropriate attribute (ACOM, BCOM, CCOM, QSR, HUM, SSC, ACGM, BCGM, LSCI, or SCI).

List of General University Requirements

The detailed list of General University Requirements for the 2018-2019 academic year is available at the General University Requirements website.

Transfer Credit to Satisfy GUR

Transfer students from Washington state community colleges may satisfy the GUR by taking courses listed on the transfer admission section of Western's website.

Approved associate degrees from community colleges in Washington State may fulfill all General University Requirements. Students at community colleges who wish to satisfy the General University Requirements by earning an associate degree should check carefully with advisors, as only certain approved degrees will apply.

To meet the GUR, an approved associate degree is normally earned prior to initial enrollment at Western (on or off campus) as a transfer student. If any student wishes to complete such a degree in order to have it satisfy the GUR at Western, it must be earned by the time the student has 1) completed 45 credits at WWU, or 2) one calendar year has passed from initial enrollment at WWU, whichever comes later. A student seeking an exception to the 45 credit limit or one calendar year timeline must petition the Registrar's Office for approval.

Western allows a maximum of 135 quarter (90 semester) credits to transfer from any combination of regionally accredited institutions, including no more than 105 quarter (70 semester) lower-division credits. Additional course work which exceeds this amount may be used to meet specific requirements, but additional credits will not be allowed to count toward the 180 credit requirement for graduation.

Completion of General University Requirements will be granted to transfer students from another Washington state public baccalaureate institution whose General University Requirements were completed and certified by the sending institution.

UNIVERSITY GRADUATION REQUIREMENTS

Students pursuing a second baccalaureate degree at Western after completing a bachelor's degree at another US regionally accredited institution will have fulfilled all General University Requirements.

NOTE: Certain programs may have admission standards which require the completion of the GUR prior to beginning study. Consult program advisors for details.

All degree-seeking students, on or off campus, must complete all other common requirements for baccalaureate degrees.

Scheduling of GUR Courses

The first year's schedule ordinarily should investigate potential majors, explore subjects in which a student has little or no experience, sample the main fields represented in the GUR (humanities, social sciences, natural sciences), and meet basic requirements in writing and mathematics. Students who are interested in a particular major should begin the basic work of that major. Concurrently, they should use the GUR and other courses to investigate areas of potential interest besides that major. Students who are unsure about what their major will be should explore fields in which they are, or may become, interested, by taking introductory courses in those fields. Some GUR courses will serve this purpose. It is perfectly permissible, in this exploration, to take non-GUR courses also.

This strategy may be pursued in the sophomore year. By the third quarter of the sophomore year (more or less), students who take this approach should be ready to proceed in one of several majors, and will have also laid the basis for a liberal arts and science education.

It is strongly recommended that students continue the GUR into their junior and senior years, taking courses from the GUR list in which they have become interested, and also taking non-GUR electives. By doing this, students benefit from the interplay of "liberal" and "specialized" components of their education throughout their time at Western. A few majors require completion of the GUR before entering the major.

Students should study carefully the requirements of their major and the course descriptions before planning courses to satisfy the General University Requirements, as some required courses in the major may also apply to General University Requirements. If questions arise, students should confer with a degree evaluator in the Registrar's Office, OM 230.

General University Requirements 2018-2019

The General University Requirements (GURs) embody Western's belief that a liberal arts and sciences education enables people to lead fuller and more interesting lives, to perceive and to understand more of the world around and within themselves, and to participate more intelligently and deliberately in shaping that world. This belief reflects a long tradition in American higher education. In this tradition, the bachelor's degree is comprised of an academic major and a foundational general education. This general education provides opportunities to study across many fields and to acquire the skills, experiences, and knowledge you need to thrive, to succeed in your chosen careers, and to develop a strong sense of personal and social responsibility.

The General University Requirements apply to all students in the College of Humanities and Social Sciences, the College of Business and Economics, the College of Science and Engineering, the College of Fine and Performing Arts, Woodring College of Education, and Huxley College of the Environment. Students enrolled in Fairhaven College of Interdisciplinary Studies, see the Fairhaven College section of the university catalog for requirements.

EXCEPTIONS:

Students transferring to Western with a Washington community college DTA (Direct Transfer Agreement) Associate Degree

Students transferring to Western from another Washington state public baccalaureate institution whose General University Requirements were complete at the sending institution, provided the sending institution so certifies

FOUR-COURSE MAXIMUM

A maximum of four courses from any one department may be applied to the combination of Humanities, Social Sciences, and Comparative, Gender and Multicultural Studies sections of the General University Requirements (Art and Art History are considered one department as are all foreign languages).

GRADES IN GUR COURSES

Courses which are to apply to General University Requirements must be taken on an A through F grading scale, except for courses designated as S/U grading. They may not be taken with Pass/No Pass grading. Except for ENG 101, which requires a C- or better, the minimum passing grade for GUR courses is D- (Math courses must be passed with a

grade of C- or higher if used as a prerequisite to another course).

ATTRIBUTES

Please note the use of GUR attributes in the online Classfinder or Timetable. Courses which qualify as General University Requirements are designated by the appropriate attribute (ACOM, BCOM, CCOM, QSR, HUM, SSC, ACGM, BCGM, LSCI, or SCI).

COMMUNICATION

Communication is the foundation of your academic education and essential for your professional and personal success. These GURs develop your ability to generate, assess, and express ideas accurately, clearly, and creatively in a range of modalities and using a variety of technologies. Through ongoing learning and practice in different contexts, good communicators acquire skilled expertise in designing information effectively in different ways for different audiences. This area includes courses in writing, speaking, and information literacies.

Complete Block A and one course from either Block B or Block C. Block A and Block C are writing courses.

Block A – (ACOM)
ENGLISH (ENG) 101, Writing your way through WWU (5). This course must be completed with a grade of C- or better. Requirement will be waived for students demonstrating high English competency on Advanced Placement (CEEB English score of 4).

Block B – (BCOM)
COMMUNICATION STUDIES (COMM)
101–Fundamentals of Speech (4)
224–Small Group Processes (4)
235–Exposition and Argumentation (4)

COMPUTER SCIENCE (CSCI)
102–Computer-Mediated Communications (3)

EDUCATION (EDUC)
309–Storytelling: Oral Narrative in History, Culture, and Society (4)

ENGLISH (ENG)
202–Writing About Literature (5)

JOURNALISM (JOUR)
207–Newswriting (4)

MODERN AND CLASSICAL LANGUAGES
Arabic (ARAB)
103–Elementary Arabic (5)
201–Intermediate Arabic (5)
Chinese (CHIN)
103–First-Year Chinese (5)

GENERAL UNIVERSITY REQUIREMENTS

201–Second-Year Chinese (5)
French (FREN)
103–Elementary French (5)
104–Review of Elementary French (5)
201–Intermediate French (5)
German (GERM)
103–Elementary German: Language, Communication & Culture (5)
104–Review of Elementary German: Language, Communication & Culture (5)
201–Intermediate German: Language, Communication & Culture (4)
Greek (GREK)
103–Elementary Greek (5)
201–Intermediate Greek (5)
202–Intermediate Greek (5)
Japanese (JAPN)
103–First-Year Japanese (5)
104–Review of Elementary Japanese (5)
201–Second-Year Japanese (4)
Latin (LAT)
103–Elementary Latin (5)
201–Intermediate Latin (5)
Russian (RUSS)
120–Elementary Russian 2 (5)
201–Intermediate Russian I (5)
Spanish (SPAN)
103–Elementary Spanish (5)
104–Review of Elementary Spanish (5)
201–Intermediate Spanish (5)
NURSING (NURS)
301–Information Literacy to Support Academic Discourse (5)

PHILOSOPHY (PHIL)
107–Critical Thinking (3)

Block C – (CCOM):
DANCE (DNC)
231–Introduction to Dance History (3)

ENGLISH (ENG)
201–Writing in Humanities (5)

LIBERAL STUDIES (LBRL)
340–Sufism: The Islamic Mystical Tradition (5)

LIBRARY (LIBR)
201–Introduction to Research Strategies (4)
205–Co-Inquiry on Learning (3)

OR—Complete Block A and one of the following sets:
HONORS (HNRS)
103–Major Cultural Traditions I (4)
104–Major Cultural Traditions II (4)
105–Major Cultural Traditions III (4)
Or
103–Major Cultural Traditions I (4)
104–Major Cultural Traditions II (4)
106–Major Cultural Traditions IV (4)

QUANTITATIVE AND SYMBOLIC REASONING (QSR)

GURs in Quantitative and Symbolic Reasoning help you improve your ability to critically evaluate and effectively communicate numerical and symbolic information. You will gain skill in understanding the logic and validity of an argument by analyzing numerical and causal relationships. As an accomplished quantitative and symbolic reasoner, you will develop a sense of the relative size of numbers, be able to read and present graphs and charts, feel confident determining whether a conclusion involving data is sound, and understand how to model situations in order to make decisions and predictions. You should note that symbolic reasoning and numerical “know how” are required skills in a range of academic disciplines, not just math, and critically important in many professions.

Complete one of the following options:

Option 1:
MATH (MATH)
107–Mathematical Reasoning and Its Applications (4) and one course from:

ANTHROPOLOGY (ANTH)
335–Quantitative Methods in Anthropology (5)

COMPUTER SCIENCE (CSCI)
103–Introduction to Computer Game Development (4)
172–Introduction to Robotics (4)

ENVIRONMENTAL STUDIES (ENVS)
201–Understanding Environmental Data and Information (3)
221–Geographic Information Science Survey (3)

FINANCE (FIN)
216–Personal Investing (4)

MANAGEMENT (MGMT)
201–Introduction to Business (4)

MATH (MATH)
112–Functions and Algebraic Methods (5)

PHILOSOPHY (PHIL)
102–Introduction to Logic (3)

SOCIOLOGY (SOC)
304–Statistics for Sociology (5)

Option 2:
MATH (MATH)
112–Functions and Algebraic Methods (5) and one course from:

ANTHROPOLOGY (ANTH)
335–Quantitative Methods in Anthropology (5)

GENERAL UNIVERSITY REQUIREMENTS

COMPUTER SCIENCE (CSCI)
103–Introduction to Computer Game Development (4)
172–Introduction to Robotics (4)

ENVIRONMENTAL STUDIES (ENVS)
201–Understanding Environmental Data and Information (3)
221–Geographic Information Science Survey (3)

FINANCE (FIN)
216–Personal Investing (4)

MANAGEMENT (MGMT)
201–Introduction to Business (4)

MATH (MATH)
107–Mathematical Reasoning and Its Applications (4)

PHILOSOPHY (PHIL)
102–Introduction to Logic (3)

SOCIOLOGY (SOC)
304–Statistics for Sociology (5)

Option 3:
One transfer course with an MPAR attribute and one course from:

ANTHROPOLOGY (ANTH)
335–Quantitative Methods in Anthropology (5)

COMPUTER SCIENCE (CSCI)
103–Introduction to Computer Game Development (4)
172–Introduction to Robotics (4)

ENVIRONMENTAL STUDIES (ENVS)
201–Understanding Environmental Data and Information (3)
221–Geographic Information Science Survey (3)

FINANCE (FIN)
216–Personal Investing (4)

MANAGEMENT (MGMT)
201–Introduction to Business (4)

MATH (MATH)
112–Functions and Algebraic Methods (5)

PHILOSOPHY (PHIL)
102–Introduction to Logic (3)

SOCIOLOGY (SOC)
304–Statistics for Sociology (5)

Option 4:
One course from:

MATH (MATH)

114–Precalculus I (5)
115–Precalculus II (5)
118–Accelerated Precalculus (5)
124–Calculus and Analytic Geometry I (5) (Only one of MATH 124 and MATH 134 may be taken for credit)
134–Calculus I Honors (5) (Only one of MATH 134 and MATH 124 may be taken for credit)
156–Algebra With Applications to Business and Economics (4)
157–Calculus With Applications to Business and Economics (4)
160–Mathematics and Art (4)
240–Introduction to Statistics (4)

COMPUTER SCIENCE (CSCI)
138–Programming Fundamentals in Visual Basic (4)
140–Programming Fundamentals in C++ (4)
141–Computer Programming I (4)
145–Computer Programming and Linear Data Structures (4)

Option 5:
One transfer course with an MSAT attribute

Option 6:
BAE-Elementary (Education students only):

MATH (MATH)
381–Teaching K-8 Mathematics I (4) and
382–Teaching K-8 Mathematics II (4)

NATURAL SCIENCES (LSCI & SCI)

How does the natural world work? Natural Sciences GURs explore the physical and living world around us. These classes focus on scientific investigation of the processes that explain the patterns we observe in systems ranging in scale from a single molecule to the individual organism, from planet earth to our solar system and beyond. This GUR introduces you to the ways in which scientific inquiry is used to describe, explain, and predict natural phenomena. You will gain an understanding of the basic concepts and theories of scientific disciplines, and will practice using scientific principles to critically evaluate conclusions drawn from observations, experimentation, and theoretical models.

Complete 3 courses. At least two of the courses must be from the LSCI list; the third course may be from either the LSCI list or SCI list.
Note: Several of the courses in this list have prerequisites.

LSCI (courses with a laboratory component)

ANTHROPOLOGY (ANTH)
215–Introductory Biological Anthropology (5)

GENERAL UNIVERSITY REQUIREMENTS

BIOLOGY (BIOL)

- 101–Introduction to Biology (4)
- 102–Biological Diversity: Evolution and Systems (4)
- 204–Introduction to Evolution, Ecology and Biodiversity (5)
- 205–Introduction to Cellular and Molecular Biology (5)
- 206–Introduction to Organismal Biology (5)

CHEMISTRY (CHEM)

- 101–Chemical Concepts (4)
- 161–General Chemistry I (5)
- 162–General Chemistry II (5)
- 163–General Chemistry III (5)
- 175–General Chemistry I, Honors (5)
- 176–General Chemistry II, Honors (5)
- 225–General Chemistry III, Honors (5)
- 251–Elementary Organic Chemistry (5)

COMMUNICATION SCIENCES AND DISORDERS (CSD)

- 253–Speech and Hearing Sciences for the Liberal Arts (4)

ENVIRONMENTAL STUDIES (ENVS)

- 203–Physical Geography (4)

GEOLOGY (GEOL)

- 101–Introduction to Geology (4) (Only one of GEOL 101 and HNRS 212 may be taken for credit)
- 211–Physical Geology (5)
- 212–Historical Geology (4)
- 252–The Earth and Its Weather (4)

HONORS (HNRS)

- 211–Colloquium in Physics (4) (Only one of HNRS 211 and PHYS 101 may be taken for credit)
- 212–Colloquium in Geology (4) (Only one of HNRS 212 and GEOL 101 may be taken for credit)
- 213–Colloquium in Biology (4)

PHYSICS (PHYS)

- 101–Physics Analysis (4) (Only one of PHYS 101 and HNRS 211 may be taken for credit)
- 104–Physics Applications (4)
- 115–Principles of Physics II (5)
- 116–Principles of Physics III (5)
- 161–Physics with Calculus I (5)
- 162–Physics with Calculus II (5)
- 163–Physics with Calculus III (5)

SCIENCE EDUCATION (SCED)

- 201–Matter and Energy in Physical Systems (4)
- 202–Matter and Energy in Earth Systems (4)
- 203–Matter and Energy in Life Systems (4)
- 204–Matter and Energy in Chemical Systems (4)
- SCI (courses without a laboratory component)

ASTRONOMY (ASTR)

- 103–Introduction to Astronomy (4)
- 113–Sun, Moon, and Planets (3)

BIOLOGY (BIOL)

- 140–The Ecology and Economics of Salmon Recovery (4) (Also taught as ECON 140)

ECONOMICS (ECON)

- 140–The Ecology and Economics of Salmon Recovery (4) (Also taught as BIOL 140)

ENERGY STUDIES (ENRG)

- 101–Energy and Society (3)

ENVIRONMENTAL SCIENCE (ESCI)

- 101–Environmental Studies: A Scientific Approach (3)
- 204–The Oceans: Topics in Marine Science (4)

GEOLOGY (GEOL)

- 204–Geology and Society (3)
- 303–Dinosaurs and Their Environment (3)
- 308–Earthquakes (3)
- 315–Minerals, Energy and Society (4)
- 340–Geological Oceanography (3)

MATERIALS SCIENCE (MSCI)

- 101–The Materials Revolution (4)

PHYSICS (PHYS)

- 102–Physics and Contemporary Issues (3)
- 114–Principles of Physics I (5)

HUMANITIES (HUM)

Whenever you tell a story, see a film or a work of art, or ponder an ethical question, you are encountering the humanities. The humanities include academic disciplines that use critical, historical, and aesthetic approaches to explore how people experience and document their lives, examine and question the values of their societies, and creatively engage with their world. Currently, our courses in the humanities address the languages, literatures, fine arts, history, philosophies, and religions of Western cultural traditions. (You will find other courses that take a humanistic approach in the ACGM and BCGM GURs).

Complete one of the following options:

Option 1:

Complete 3 courses from at least two departments; 12 credits minimum

ART (ART)

- 109–Visual Dialogue (3)

ART HISTORY (A/HI)

- 210–History of Architecture: Prehistory to Modernity (3)
- 220–Visual Culture in the Ancient World (3)
- 221–Visual Culture in Medieval Europe (3)

GENERAL UNIVERSITY REQUIREMENTS

230–Visual Culture in 15th and 16th Century Europe (3)
231–Visual Culture in 17th and 18th Century Europe (3)
240–Visual Culture in Western Europe in the 19th Century (3)
241–Visual Culture in Western Europe and America in the 20th Century (3)

CANADIAN AMERICAN STUDIES (C/AM)
277–Canada: A Historical Survey (5) (Also taught as HIST 277)

CLASSICAL STUDIES (CLST)
117–The Ancient Legacy (5)
260–Masterworks of Ancient Greek Literature (4)
270–Literature of Rome and Her Empire (4)
350–Greek Mythology (4)

COMMUNICATION STUDIES (COMM)
220–Communication Theory (5)
230–Rhetoric and Social Change (5)

DANCE (DNC)
108–Intro to the Arts (3)

DESIGN (DSGN)
111–Design View (3)
211–Foundations of Visual Communication (3)

ENGLISH (ENG)
214–Shakespeare (5)

Option 2:

Complete one of the following sets:

LIBERAL STUDIES (LBRL)

- 121-The Western Tradition I: The Ancient World (5)
- 122-The Western Tradition II: Medieval and Early Modern Europe (5)
- 123-The Western Tradition III: The Modern World (5)

HISTORY (HIST)

- 111-Introduction to Western Civilization: Prehistory to 476 (5)
- 112-Introduction to Western Civilization: 476-1713 (5)

- 113-Introduction to Western Civilization: 1713-Present (5)

SOCIAL SCIENCES (SSC)

Even when we are alone, we cannot escape the influence of others. The social sciences provide knowledge and understanding of human behavior and the ways we live our lives individually and collectively. Together, these disciplines develop and test theories based on empirical observation that help us better understand how we think and act in the world, form and maintain relationships, organize into groups and create institutions to achieve goals and interests, and relate to and interact with the physical environment.

Complete 3 courses from at least two departments; 12 credits minimum

ANTHROPOLOGY (ANTH)

- 102–Introduction to Human Origins (5)
- 201–Introduction to Cultural Anthropology (5) (Only one of ANTH 201 and HNRS 203 may be taken for credit)
- 210–Introduction to Archaeology (5)
- 247–Introduction to Linguistic Anthropology (5) (Only one of ANTH 247, HNRS 217 and LING 201 may be taken for credit)

JOURNALISM (JOUR)

190–Introduction to Mass Media (5)

LEADERSHIP STUDIES (LDST)

100–Leading Responsibly (2)

101–Introduction to Leadership Studies (5)

LINGUISTICS (LING)

201–Introduction to Language and Linguistics (5) (Only one of ANTH 247, HNRS 217 and LING 201 may be taken for credit)

204–Sociolinguistics (5)

MANAGEMENT (MGMT)

271–Law and the Business Environment (4) (Only one of PLSC 311 FAIR 311B and MGMT 271 may be taken for GUR credit)

NURSING (NURS)

412–Policy, Leadership and U.S. Healthcare (5)

POLITICAL SCIENCE (PLSC)

101–Government and Politics in the Modern World (5) (Only one of PLSC 101 and HNRS 206 may be taken for credit)

250–The American Political System (5)

271–Introduction to International Relations (5)

291–Introduction to Comparative Politics (5)

311–Introduction to Law and the Legal System (5) (Only one of PLSC 311, FAIR 311B and MGMT 271 may be taken for GUR credit)

372–International Political Economy (5)

PSYCHOLOGY (PSY)

101–Introduction to Psychology (5) (Only one of PSY 101 and HNRS 204 may be taken for credit)

116–Human Sexuality (5)

117–The Psychology of Identity (5)

341–Psychology and Culture (5)

Recreation (RECR)

210–Leisure in Contemporary Society (4)

SOCIOLOGY (SOC)

221–Introduction to Population Issues (5)

234–Special Topics in Sociology (5) (May be taken only once for GUR credit)

251–Sociology of Deviant Behavior (5)

255–Social Organization of Criminal Justice (5)

260–The Family in Society (5)

342–Sociology of Religion (5)

COMPARATIVE, GENDER, AND MULTICULTURAL STUDIES (ACGM & BCGM)

Understanding different perspectives is crucial as societies and cultures become increasingly diverse and global. ACGM/BCGM courses help you develop this understanding. Comparative courses deal with the history and culture of societies beyond the Western tradition. Courses on gender explore the social construction of gender and its consequences. Multiculturalism courses deal with the experiences and cultural expressions of minority groups. ACGM courses focus on areas outside of Europe and North America. BCGM courses focus on Europe and North America.

Complete 2 courses, one from Block A and one from Block B.

Block A — Primary emphasis outside North America and/or Europe. Provides an introduction to civilizations of Asia, Africa, the Middle East and Latin America.

ANTHROPOLOGY (ANTH)

362–Anthropological Perspectives on Asia (5)

365–Latin American Perspectives (5)

ART HISTORY (A/HI)

201–Zen and the Art of Tea (3)

250–Arts of Africa pre-1900 (3)

251–Arts of Africa after 1900 (3)

GENERAL UNIVERSITY REQUIREMENTS

270–Visual Culture in South and Southeast Asia (3)

271–Visual Culture in East Asia (3) (Also taught as East 271)

DANCE (DNC)

232–Movement and Culture (3)

EAST ASIAN STUDIES (EAST)

201–Introduction to East Asian Civilizations (5) (Also taught as HIST 280)

202–East Asian History in the Early-Modern and Modern Eras (5) (Also taught as HIST 281)

230–Modern Chinese Society and Language (3)

271–Visual Culture in East Asia (3) (Also taught as A/HI 271)

333–East Asia: Society and Environment (4) (Also taught as ENVS 333)

360–China and the Emerging World Economy: From Antiquity to the Early Modern (5) (Also taught as LBRL 360)

ENERGY STUDIES (ENRG)

340–Energy and Climate in Rural Development (4)

ENGLISH (ENG)

335–Literary and Creative Expressions Across Asia, Africa, the Middle East, and Latin America (5)

336–Scriptural Literatures (5)

ENVIRONMENTAL STUDIES (ENVS)

333–East Asia: Society and Environment (4) (Also taught as EAST 333)

Introduction

E-mail: gradschool@wwu.edu
www.wwu.edu/gradschool

Gautam Pillay, Dean, Old Main 530, 360-650-3170

WWU is authorized by the State Legislature to award nine graduate degrees:

- Master of Arts (MA)
- Master of Fine Arts (MFA)
- Master of Science (MS)
- Master of Education (MEd)
- Master of Business Administration (MBA)
- Master of Music (MMus)
- Master of Professional Accounting (MPAcc)
- Master in Teaching (MIT)
- Clinical Doctorate of Audiology (AuD)

Mission

The mission of the Graduate School is to advance, promote, and serve graduate faculty, students, and programs through advocacy, leadership, and oversight. The Graduate School supports all graduate programs and students at Western, by expanding graduate and undergraduate student access to engaging education in a supportive, inclusive environment, promoting life-long learning, enhancing scholarly activity, and developing graduates qualified to address the critical needs of the state and nation.

Vision

The Graduate School enables quality learning, research, and service that connects with and contributes to local, regional, and international communities. To this end, the Graduate School extends the Western curriculum beyond undergraduate work with rigorous, advanced courses focused on developing scholarly, creative, and professional works that emerge from in-depth disciplinary understanding. The graduate programs under the purview of this college continue to develop, evolve, and administer high-quality degrees that, based on evidence, adapt to student needs and national trends.

Accreditation

WWU's graduate programs are accredited by the Northwest Commission on Colleges and Universities. Graduate programs which result in

educator certification are also accredited by the National Council for the Accreditation of Teacher Education (NCATE). The College of Business and Economics is accredited by the AACSB International Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels. The Department of Communication Sciences and Disorders is accredited by the American Speech-Language Hearing Association's Council on Academic Accreditation in Audiology and Speech-Language Pathology (ASHA) and by the National Council for the Accreditation of Teacher Education (NCATE). The mental health and school counseling programs are accredited by Council for Accreditation of Counseling and Related Educational Programs (CACREP). The Rehabilitation Counseling program is accredited by the Council on Rehabilitation Education (CORE). The University is a member of the Council of Graduate Schools in the United States and adheres to the general policies and criteria established by this national association.

Persons who plan to enter graduate study at WWU should read this section of the General Catalog closely before applying for admission to graduate study or enrolling in any course intended to count toward a master's degree or advanced certificate of study. Students working toward a residency, continuing, or professional teaching certificate should contact the Certification Office in the Woodring College of Education. Students should consult with the appropriate graduate program advisor and the Graduate School for additional admissions or program-related questions.

Admission

Admission is granted by the Graduate School of Western Washington University with the concurrence of the department or program unit in which the student will pursue graduate study. The Graduate School informs applicants of the admissions decision. Online application submission and credit card payment is available from the Graduate School website. A nonrefundable application fee of \$100 (subject to change) is charged for each application submitted, whether initial application, or request to defer, change to another quarter of admission, or transfer into another WWU graduate program. Admission to the Graduate School is for a single program, specified on the application for admission. Concurrent admission to two programs may be considered on a case-by-case basis with approval from the Graduate School and the respective departments. Separate applications and fees are required for each program. A non-refundable confirmation deposit will be required to secure admission and enrollment eligibility. Graduate School admission deadline dates are as follows, although many

GRADUATE SCHOOL

programs have earlier specific deadline dates and do not admit for all quarters.

Initial application with all supporting materials (see below) must be received by the Graduate School by June 1 for fall, October 1 for winter, February 1 for spring and May 1 for summer unless program-specific deadlines exist (see specific program information).

NOTE: The requirements and procedures listed below demand lead time. Applicants are urged to submit all necessary materials as early as possible before the beginning of the term for which admission is requested or by the earlier, program specific deadline dates. Timeliness of complete application materials may impact graduate assistantships and other sources of funding. Faculty review of application materials is unlikely during periods that the University is not in session.

General Requirements

Full Admission to Master's Degree Study

- A four-year baccalaureate degree from a U.S. college or university that was regionally accredited at the time the degree was conferred, or an equivalent baccalaureate degree from a foreign university; the degree must be appropriate to the master's study intended. Unofficial transcripts from every higher education institution attended for academic credit are required with the application. These transcripts will be used for GPA calculation and evaluation purposes. Official transcripts will be required of candidates upon acceptance of an offer of admission.
- A 3.0 undergraduate grade point average (on a 4.0 scale) in the last 90-quarter or 60-semester hours of study. In order for post-baccalaureate credit to be included in the GPA computation, the coursework must be upper division. Post-baccalaureate coursework at community colleges will not be included in the GPA used for admission. Applicants with advanced degrees from accredited institutions are generally, at the discretion of the Graduate School, considered to have met GPA requirements.
- Three current letters of recommendation from professors in the applicant's undergraduate major field, or from professors of post-baccalaureate courses, or from others able to make an appropriate assessment of the applicant's academic or professional competence. The MBA and MPAcc programs require a résumé in lieu of references. The

Educational Administration program requires a professional recommendation.

- Graduate Record Exam (GRE) or other test scores may be required; applicants with advanced degrees from regionally accredited institutions applying to certain programs do not need to submit scores. MPAcc applicants must provide the Graduate Management Admissions Test (GMAT); MBA applicants may take either the GMAT or the GRE. Some programs accept the Miller Analogies Test (MAT). See program admission requirements for specific test information and requirements. Scores must be received in the Graduate School office by the program specific deadline date; if no program-specific deadline date, then by the Graduate School deadline date.
- All applicants must demonstrate English language proficiency. At least minimum TOEFL or IELTS test scores (see International Applications section) must be submitted unless English is the native language or the degree is from a regionally accredited U.S. institution, or from Great Britain, Australia, New Zealand or English-speaking provinces of Canada.
- Favorable review and recommendation of applications by the graduate faculty in the program to which application is made.
- **Special Requirements.** Certain programs have additional requirements or procedures; see the program descriptions. If a program requires a statement of purpose and/or writing sample(s), these must accompany the application. See specific program information for clarification.

Materials submitted in support of an application will not be returned, forwarded, or copied at the request of the applicant; materials are used only for the WWU Graduate School admissions and Teaching Assistant selection process. Incomplete or inactive applications are kept on file in the Graduate School for three years. If during this three-year period an applicant reapplies, official documents (test scores, transcripts, current letters of recommendation) may be used for a new admission application.

The MAT is offered Monday through Friday by appointment through the Western Washington University Testing Center, 360-650-3080.

See the Educational Testing Service website at www.gre.org for further information about the GRE testing program. For information about the GMAT, visit www.mba.com.

Current GRE board policy states that scores are reportable for five years. The Graduate School accepts only official test scores from admissions tests sent directly from the testing organization. Students should refer to the specific test website for information on the availability of official test scores.

Provisional Admission

Students who do not meet all the requirements for full admission may be granted provisional admission. The faculty of the applicant's intended graduate program must submit a statement of support for provisional admission to the graduate dean. If provisional admission is authorized by the Graduate School, the provisions are stated in the letter offering the student special admission to graduate study. No K (incomplete) grades are allowed until provisional status is removed. A provisionally admitted student is not eligible for a teaching assistantship or Graduate School-funded scholarships until the provisional status is removed.

Licenses/Certification

Students in some master's programs also apply for licensing or certification through professional organizations or state agencies. The certificate or license is separate from the master's degree. It is the applicant's responsibility to inquire about licensing or certification requirements prior to enrolling.

International Applicants

All applicants must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL or IELTS, taken within one year of the date of application. Minimum required TOEFL score is 86 for the Internet-based test (IBT) or 567 for the paper-based test (PBT). IELTS minimum score is 7.0. Official test scores must be on file in the Graduate School prior to receipt of the application.

Applicants must upload an unofficial transcript from each institution attended within the Graduate School application. All applicants who have earned their undergraduate degree outside the US/Canada must also provide a World Education Services (WES) degree evaluation at the time of application that demonstrates the equivalency of their undergraduate studies to a bachelor's degree from a regionally accredited US institution.

Official transcripts are only required if the applicant is admitted and chooses to attend WWU.

Note: Official transcripts are not required if an applicant has provided a WES ICAP evaluation, as this report includes a verified copy of the official documents.

To be considered official, transcripts must be in sealed envelopes prepared by the university or college; attested/certified copies prepared by the institution may be accepted if originals cannot be provided by the institution.

EXCEPTION:

Applicants attending institutions in China must request official transcripts from the Ministry-authorized verification offices listed below; transcripts directly from an institution cannot be considered official.

China Academic Degrees and Graduate Education Development Center (CDGDC)
Website: cq.v.chinadegrees.cn/

China Higher Education Student Information & Career Center (CHESICC)
Website: chsi.com.cn

International students must file a satisfactory statement of financial responsibility with the Graduate School. Current expenses are approximately \$36,000 for one academic year of study. An application for an international student cannot be processed unless accompanied by appropriate financial guarantee documentation. International students are not eligible for federal or state governmental financial aid.

International students are encouraged to complete the admission process as soon as possible to obtain a visa and make travel arrangements.

Funding and Support

Graduate Assistantships

Graduate assistantships are available in limited number in most graduate programs and are competitively awarded. Assistantships are not available in self-sustaining (non state-supported) programs. Only students with full admission, not provisional status, may be awarded the TA. To continue as a graduate assistant, the graduate student must meet or exceed all academic criteria pertaining to satisfactory progress toward the degree, and meet or exceed all departmental requirements and criteria for satisfactory service as a graduate teaching assistant. Graduate students are limited to no more than the equivalent of seven full-time quarters of service as graduate teaching assistants. Program advisors may recommend students for additional quarters

GRADUATE SCHOOL

of service, which requires approval of the Graduate Dean. Graduate assistants must meet the Graduate School definition of full-time enrollment.

Duties vary according to the department and program, the needs of the program faculty and the student's graduate plan of study. A full-time assistantship does not allow for additional salary or employment from the University. Graduate teaching assistantship applicants whose native language is not English must demonstrate English language proficiency required for classroom or laboratory instruction. Applicants to graduate programs check the TA box on the online application for consideration (go to Graduate School website).

Financial Aid

Graduate students also are eligible for several types of financial aid; information can be obtained from the University's Financial Aid Office, www.finaid.wvu.edu/.

Program Requirements

Graduate programs at WWU generally require a minimum of 45 credits with thesis and 48 credits without thesis. The minimum basic program requirement generally contains at least 24 credits of approved 500- and 600-level courses other than the thesis (690); and no fewer than 5 credits and no more than 36 credits of thesis (690). For a non-thesis program, the minimum basic program requirement must contain at least 38 credits of approved 500- and 600-level courses. A maximum of 10 credits of approved 400-level courses can be applied to either thesis or non-thesis programs. All 400-level courses must meet the same standards as regular 500-level courses with regard to grading, time frame, et cetera.

For students who have taken a significant number of graduate level accounting, mathematics or computer science courses as undergraduates at WWU, and who as undergraduates were identified for admission to the Graduate School, the graduate programs in accounting, mathematics and computer science require only 36 500- and 600-level credits. Guidelines for this option are available from the departments.

It is recommended that no more than 10 credits of directed independent study be applied toward the degree, although some programs are more restrictive. A graduate student registering for a 500 or 400 independent study course used for the degree develops a contract (online form) with the instructor, which is then reviewed and approved by the graduate program advisor, department chair and the Graduate School. Independent study credit

normally will not be given when the student is paid for engaging in the work described on the contract (e.g., internship, work-study projects, graduate assistantships).

Many programs require more than 45 or 48 credits to meet degree requirements. Also, certain undergraduate deficiencies may add additional credits to an individual student's course of study. (See Plan of Study section that follows.) These deficiencies may affect financial aid awards.

Additional Requirements

Program descriptions in this catalog provide information about special requirements: statistics competency, second language competency, sequence of particular courses, et cetera. Most graduate programs provide information about such special requirements; the student should request this information from the program advisor.

Students whose research involves human subjects or live vertebrate animals must obtain approval prior to conducting research and comply with University policies regarding these types of research. Please refer to www.wvu.edu/depts/rsp.

Graduate students in departments with a foreign language requirement may satisfy the requirement by (a) successfully completing the final course in a second-year language sequence, (b) passing a reading competency exam in the language, or (c) completing another department-approved course or course sequence. Each department sets its own minimum standard to indicate the required level of competency. Graduate students are encouraged to complete the foreign language requirement early in their program.

Academic Load

The Graduate School defines full-time enrollment as 8 or more credits per quarter. The maximum credit load for a graduate student is determined in consultation with the student's graduate program advisor, within the policies set by the Registrar.

Graduate assistants who have successfully completed all coursework on the approved Plan of Study, except for thesis (690) or research (691) work, maintain eligibility for funding if enrolled for a minimum of two credit hours of thesis, research, or continuous enrollment. See the Financial Aid section of this catalog for implications of being enrolled less than full time if the student requires financial aid.

Continuous Enrollment Policy

All enrolled students pursuing graduate degrees at Western Washington University must maintain continuous enrollment from matriculation until completion of all degree requirements. Continuous enrollment is defined as registering for a minimum of two credits in all academic quarters (excluding summer) until the degree is attained or status as a degree-seeking graduate student is terminated.

Students who have not completed all of the requirements for their degree and are not currently registered for any credits will be required to register for one credit of GRAD 699 Continuous Enrollment every quarter (excluding summers) until all degree requirements are completed. GRAD 699 meets the registration requirement for graduation.

GRAD 699 is non-graded. It may not be taken concurrently with any other course. It does not meet registration requirements for student employment or financial aid.

The Continuous Enrollment requirement will be waived for students who are granted official leave of absence. Official leaves of absence must be requested of the Graduate Dean in instances of medical emergency or other extenuating circumstances. Additional information about hardship withdrawals and non-medical emergency leaves of absence can be found in the University Academic Policies section of this catalog.

Western Washington University employees receiving state waivers in pursuit of their graduate degree are exempt from the Continuous Enrollment requirement.

Students who maintain Continuous Enrollment will be allowed to complete their degree under the policies and requirements in place at their date of matriculation. Students who fail to maintain Continuous Enrollment (i.e., take unofficial leave) must reapply for admission to the program and pay the current admission fees. Readmission is not guaranteed. Decisions for re-enrollment will happen at the department level and students may be subject to changes in the degree or additional requirements as deemed necessary by the program.

Time Limits

All requirements for the degree must be completed within five years of the initial quarter of matriculation. Active graduate students within this five-year time period maintain access to library and computer resources. Students who have not completed their program after three years of study

are required to file a plan for completion of the degree within the five-year limit. Otherwise it is understood that the student has decided to withdraw from the program, and the graduate file is inactivated. Student computer accounts which allow access to computer labs, e-mail, library privileges, and other student technology services are purged at the end of this five-year period. Files of students who are admitted and register for coursework but do not complete their programs are kept for five years after the five-year program requirement. Files of students who complete programs are archived for 35 years.

Plan of Study

During the first quarter of graduate study at WWU, the student and graduate program advisor together develop a "Plan of Study" in accordance with the requirements described in the catalog's program narrative. This plan is signed by both the student and program advisor and submitted to the Graduate School for approval. Plans of study may be amended as necessary. Failure to have an approved plan of study on file may result in loss of registration privileges.

Transfer, Correspondence and Workshop Courses

Coursework taken prior to formal admission to a WWU master's degree program, whether at Western or another accredited institution, can be considered for transfer credit if the following criteria listed below are met:

- A limit of 12 quarter credits
- Graded B, 3.0 or better
- Taken no more than three years prior to admission
- Acceptable to the granting institution for its master's degree
- Not used toward the completion of any other degree

Credit taken at another accredited institution, concurrent with graduate status in a WWU master's degree program, can also be considered for transfer credit if the same criteria are met. Such coursework should be approved in advance of registration to prevent any misunderstanding or false expectations.

Credit will not be granted for experiential learning that occurred prior to matriculation into the graduate degree program.

The request for transfer credit, including a copy of the course syllabus, is submitted by the graduate program advisor and student for approval by the

GRADUATE SCHOOL

Graduate School. If the coursework was taken while the student was enrolled in another degree program (undergraduate or graduate level), the student must provide documentation from the granting institution stating that the credits were not counted toward any degree.

At the recommendation of the graduate program advisor and the approval of the Graduate School, some course requirements may be waived, depending on a student's previous academic experience. However, the total number of credits required for the degree must still be met.

No credit is given for correspondence courses. No credit is allowed by challenge examination or performance.

Courses offered as workshops or in a shortened time frame, even under regular course numbers, do not qualify for graduate credit toward a degree, unless the department obtains prior permission for each specific instance from Graduate Council. To ensure that prior approval has been granted, students should obtain written permission from the Graduate School prior to enrolling.

Thesis and Comprehensive Examinations

Master's degree programs are thesis or non-thesis (additional coursework and, in most programs, a comprehensive exam). See specific program descriptions for information. Minimally, the thesis committee has three members. The chair and a second member must be graduate faculty members from the student's program or an affiliated program or department. See the Graduate Faculty section below for more details. Guidelines for the thesis are available online at the Graduate School Website. Joint manuscripts are not permitted. Only an individually authored manuscript will meet the thesis requirements. Departments that require the thesis customarily provide additional guidance.

Refer to the Graduate School website for current information on Graduate School requirements pertaining to thesis publication.

Prior to registration for thesis, departments and the Graduate School require that a student be advanced to candidacy and have an approved thesis topic on file in the Graduate School office. Students whose research involves human subjects or live vertebrate animals must comply with University policies regarding these types of research. Please refer to www.wvu.edu/depts/rsp. Registering for thesis credits beyond the maximum allowed for the degree may affect a student's eligibility for certain kinds of financial aid.

Comprehensive exams or assessments vary among programs. Students should consult their respective programs for information.

The comprehensive exam should be scheduled for the final quarter of the student's enrollment. It may be deferred upon request by the student and agreement by the graduate advisor until all coursework has been completed. Comprehensive exams, if failed, may be repeated, but only if the graduate faculty of the particular program approves the student's request to repeat the exam.

Scholarship Standards

To remain a candidate for the degree, a student must maintain at least a 3.0 GPA in courses listed on the plan of study. A student also must be making satisfactory progress in the graduate program to which he or she has been admitted.

A maximum of 10 credits of C grades (C+, C, C-) is allowed towards completion of a graduate program. Courses in which a D+ or lower is earned may not be applied towards completion of a graduate program. The accumulation of more than 10 credits of C+ or lower (including U and Z) grades may result in the student being withdrawn from the Graduate School.

There are certain courses that must be passed with a grade of B or better; program descriptions note such requirements. A graduate student may be required by the department to repeat a course to document attainment of a certain level of competence or knowledge.

Pass/No Pass grades are not applicable toward a graduate degree. S grades are applicable, but not computed in the GPA. An incomplete (K) grade may be assigned in accordance with the regulations outlined in the Academic Policies section of this catalog. If, after a calendar year, the course requirements have not been met, the K grade lapses to a Z. These Z grades are computed as failing grades in a student's grade point average and may affect retention in the master's program. Exceptions to the K grade rule are K grades which are received for thesis and certain research courses. In these cases, the K grades are allowed to stand until the thesis or research is completed, whereupon the grade is changed to the earned grade.

Degree Candidacy

Advancement to degree candidacy is formal recognition that the student has completed all admission requirements and has demonstrated satisfactory performance in at least 12 credits of

graduate study as listed on an approved plan of study. Advancement to candidacy is a prerequisite to earning the master's degree and should be accomplished as early as the student is eligible. Advancement is granted by the student's program upon completion of minimum requirements. A student must be advanced to candidacy before submitting the application for degree. Confer with your advisor if you have questions about your status or eligibility for advancement to candidacy.

Awarding of the Master's Degree

The master's degree is earned at the end of the quarter in which the student has completed all degree requirements and has filed the application for degree. Recommendation for the degree is made to the Graduate Council by the student's program advisor and thesis committee (if in a thesis program). Application for the degree must be made by the last day of classes of the quarter prior to the quarter the student intends to graduate. A student must be enrolled for at least two regular credits or GRAD 699 during the quarter in which the degree is awarded. Auditing a course for this purpose is not permitted. A commencement ceremony is held at the end of each quarter. Students participate in the commencement ceremony for the quarter in which degree requirements are met, including filing the application for degree and paying the diploma fee by the stated deadline.

Teacher Certification

The Woodring College of Education, not the Graduate School, administers the certification of P-12 teachers. Students interested in certification at the P-12 or secondary level, contact the Secondary Education Department, MH 400 360-650-3327. Students interested in Special Education P-12 certification, contact the Special Education Department, MH 201A, 360-650-3330. Other certification questions can be directed to the Office of Certification & Accreditation, MH, 150, 360-650-4930 or wce.wvu.edu/cert/certification-accreditation.

Undergraduate and Post-Baccalaureate Enrollment in 500/600 Level Courses

Undergraduates at WWU who are in their senior year and have at least a 3.0 grade point average can take a single graduate course during any quarter, but under certain provisions. There must not be an appropriate undergraduate course in their field that is equally available; permission must be obtained in advance from the department chair and graduate program advisor of the department offering the graduate course; and the

Graduate School must approve the enrollment. A senior who later enters a master's program at WWU may transfer up to twelve credits of coursework into the master's program. The credit must not have been used for the baccalaureate degree and must meet all criteria for transfer credit. To register, contact the Graduate School for a registration system override. Post-baccalaureate students may enroll for 500- level courses. All prerequisites must be met and permission obtained from the department.

Neither undergraduate nor post-baccalaureate students may enroll in 600-level courses.

The Graduate Council

The Graduate Council, comprised of representatives from the Graduate Faculty, colleges with graduate programs, Western Libraries, and graduate students, advocates for the interests of graduate students at Western Washington University. The Graduate Council provides recommendations to ACC regarding, but not limited to, the following:

- Advising the Dean of the Graduate School with strategic planning and assessment
- Enhancing the visibility of graduate programs and the promotion of academic accomplishments by graduate students
- Monitoring innovations and trends in Graduate Education and making recommendations as appropriate
- Conducting graduate program reviews
- Adopting regulations for admission of applicants to the Graduate School
- Adopting standards and regulations for advancement of students through graduate programs and for the awarding of all graduate degrees granted by Western Washington University
- Providing recommendations to ACC for new graduate programs and concentrations proposed by academic departments
- Approving all courses for inclusion in graduate programs
- Considering exceptions to adopted graduate school policies and standards

The Graduate Faculty

Members of the Western Washington University Graduate Faculty are those faculty members who are engaged in graduate education, are in tenured or tenure-track positions, and are active in scholarship or professional or creative activities in the disciplines in which they teach and supervise research. Graduate Faculty are responsible for the development, execution, and review of graduate

GRADUATE SCHOOL

programs, and through representation on the Graduate Council, the recommendation of policy on all graduate matters at Western.

Eligibility

Graduate Faculty members must meet the following requirements:

- Appointment in a tenured or tenure-track position at the rank of Assistant Professor or above
- Terminal degree in faculty member's particular field of study

Duties

Graduate Faculty members are approved to perform the following duties provided that they are consistent with terms and conditions of the faculty member's Letter of Offer.

- Teach graduate courses
- Serve as a mentor for a graduate degree-seeking student (e.g., thesis advisor or member of comprehensive examination committee)
- Serve as a member of a graduate thesis committee in the home or related department
- Serve as Graduate Program Advisor
- Serve on university-level graduate committees

Associate Graduate Faculty Membership

Individual graduate programs may identify associate faculty who bring a special expertise to the graduate program or a specific thesis project.

Eligibility

Associate Graduate Faculty members must meet the following requirements:

- Hold a faculty or professional position with the university, such as non-tenure track, limited term or adjunct faculty, and research associates.
- Hold a graduate degree appropriate to the field of specialization (a terminal degree is not necessarily required)

- Exhibit recent professional work, research, or creative activity in the area of specialization

Duties

Associate Graduate Faculty members are approved to perform the following duties provided that they are consistent with the terms and conditions of Associate's appointment Contract:

- Teach a specific graduate course
- Serve as member of comprehensive examination committee
- Serve as second or third member of a thesis committee, but not chair a thesis committee if the Associate Member does not have a terminal degree
- Serve as a chair of a thesis committee if the Associate Graduate Faculty Member has a terminal degree and at least two committee members are Graduate Faculty Members from affiliated departments.

Affiliate Graduate Faculty Membership

Affiliate Graduate Faculty membership may be granted to volunteers who are not members of the Western Washington University faculty. Affiliate Graduate Faculty may be appointed when no Graduate Faculty or Associate Graduate Faculty is available with the expertise to serve as third reader on a thesis committee. Emeritus faculty members in a department are eligible to apply for Affiliate status.

Eligibility

Affiliate Graduate Faculty members must meet the following requirements:

- Hold a graduate degree appropriate to the field of assignment (a terminal degree is not necessarily required)
- Be locally or regionally recognized as having exceptional expertise relating to the specific thesis project
- Meet the definition of a volunteer as described by law (RCW 52.12.035) and complying with the WWU Volunteer Registration Program.

Duties

Affiliate Graduate Faculty members are approved to perform the following duties:

- Participate as a third committee member on a thesis or graduate project

- Serve as third member of comprehensive examination committee

Faculty/Student-Designed Programs

MA, MS, MEd

At times students and faculty develop programs that are more interdisciplinary than the master's programs described in this catalog. In each instance this requires a complete Graduate School application and a proposed plan of study that has been approved by the graduate faculty and departments the student intends to work with and by the University's Graduate Council. At least two or more graduate disciplines must be involved.

Programs of this type are restricted by several factors: current offerings which can provide a basis for the individual program; availability of appropriate faculty; the applicant's academic preparation and ability; and the internal logic, or relationship of the elements of the proposed program. Each case is considered on its merits.

For candidates who are currently enrolled as graduate students no more than 15 credits of course work (completed by the end of the quarter the petition is approved) can apply toward the designated program.

Detailed information can be obtained by contacting the Graduate School. Ask for Fact Sheet: Faculty/Student-Designed Programs. Procedures for applying are contained in the Fact Sheet.

Master of Arts

Student/Faculty Designed, MA

At times students and faculty develop programs that are more interdisciplinary than the master's programs described in this catalog. In each instance this requires a complete Graduate School application and a proposed plan of study that has been approved by the graduate faculty and departments the student intends to work with and by the University's Graduate Council. At least two or more graduate disciplines must be involved.

Programs of this type are restricted by several factors: current offerings which can provide a basis for the individual program; availability of appropriate faculty; the applicant's academic preparation and ability; and the internal logic, or relationship of the elements of the proposed program. Graduate School Courses

GRAD 699 - Continuous Enrollment

Graduate Students must maintain continuous enrollment from matriculation until completion of all degree requirements. Students who have not completed all requirements for their degrees and are not currently registered for regular academic credit may satisfy the continuous enrollment policy via this course. Repeatable up to 12 credits including original course.

Credits: 1-12

College of Business and Economics

Introduction

Dr. Scott T. Young, Dean
Dr. Wing Fok, Associate Dean

Mission Statement of the College

We are a student-focused school of business and economics engaged in scholarly and professional activities that contribute to the well-being of society.

Objective of the College

The College of Business and Economics prepares men and women for positions of leadership and stewardship in the management and administration of complex organizations - from small companies to large multinational enterprises. Students develop managerial skills, analytic economic skills and interpersonal sensitivities, as well as quantitative and accounting skills. All students earning a degree in one of the programs of the college will develop significant understanding of management information systems and computing.

The curriculum is primarily upper-division based upon a broad liberal arts education. Individual skills are developed sufficiently to achieve entry-level employment in many fields, but the College seeks to motivate and orient the student toward a lifelong learning experience. The College seeks to instill sensitivity to environmental aspects of business enterprise, promotes a commitment to ethical behavior, and provide a strong emphasis on forward-looking, goal setting behavior in the business world while encouraging an active role in community leadership.

The College of Business and Economics is accredited by the AACSB International — The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Academic Programs Leading to Undergraduate and Graduate Degrees

Accounting	BA
Business Administration	BA
Business and Sustainability	BA
Economics	BA
Manufacturing and Supply Chain Management	BS
Master of Business Administration	MBA
Master of Professional Accounting	MPAcc

Requirements for the master's degrees offered in CBE are listed in the Graduate School section of the catalog.

Application Process

Students must confirm admission to Western Washington University before submitting an application to the College of Business and Economics (CBE). Students are encouraged to submit applications as soon as they meet the requirements to apply, which vary by major/concentration. Applications are submitted using an online form, located on the CBE website (cbe.wvu.edu/apply-cbe). Some major/concentration applications have quarterly deadlines, while others are processed on a continual basis. See information regarding CBE major/concentration-specific GPA requirements and application processes below. Information regarding application deadline dates is listed on the CBE application webpage.

Invited Distinguished Scholar students may apply to all CBE programs by following the instructions they receive in their invitation from CBE.

COLLEGE OF BUSINESS AND ECONOMICS

Application Requirements

Students who meet the requirements outlined below will be assured of admission to their program of choice if space is available.

Please note: No individual course grade lower than a C- will be accepted and credited toward degree requirements. Cumulative GPA requirements for College of Business and Economics degrees are listed below.

Requirements to apply for:

- Accounting, BA
- Economics/Accounting, BA

Application deadlines apply. Students with 45 or more college-level credits, a cumulative GPA of 2.50 or higher for all college-level coursework, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the eight business foundation courses will be admitted as pre-majors. Students who have completed all eight foundation courses will be admitted as full majors.

Requirements to apply for:

- Business and Sustainability, BA
- Business and Sustainability — Energy Studies Concentration BA

Application deadlines apply. Students with a cumulative GPA of 2.50 or higher for all college-level coursework, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the eight business foundation courses will be admitted as pre-majors. Students who have completed all eight foundation courses will be admitted as full majors.

Requirements to apply for:

- Business Administration, BA

Concentrations within the degree:

- Finance
- International Business
- Management
- Management Information Systems
- Marketing
- Operations Management

Application deadlines apply. Students with 45 or more college-level credits, a cumulative GPA of 2.50 or higher for all college-level coursework, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the eight business foundation courses will be admitted as pre-majors.

Please note: For the BA in Business Administration, students have several choices of concentration, but are not guaranteed full major status in any specific concentration area in the case of capacity constraints. Some concentrations within the Business Administration BA require an additional application for full major status, while other concentrations automatically accept students as full majors if they have completed all eight foundation courses with the required GPAs. See the CBE application webpage and department webpages for each concentration's full-major admissions requirements.

- General Business Administration (Poulsbo Campus only), BA

Application for the Poulsbo General Business Administration degree is available through Extended Education ee.wvu.edu/degree-programs/bachelor-arts-business-administration.

Requirements to apply for:

- Economics BA
- Economics/Environmental Studies, BA
- Economics/Mathematics, BA
- Economics/Political Science, BA
- Politics/Philosophy/Economics, BA
- Economics/Social Studies, BA
- Financial Economics, BA

There are no deadlines for application. Students with a cumulative GPA of 2.50 or higher for all college-level coursework may apply as full majors. Students applying for an Economics degree will be contacted by the department to schedule an interview.

- Manufacturing and Supply Chain Management, BS

There are no deadlines for application. Students with 45 or more college-level credits, a cumulative GPA of 2.50 or higher for all college-level coursework, and a cumulative MSCM foundation GPA of 2.80 or higher in foundation courses completed (including transfer courses) may apply as an MSCM pre-major and will be granted pre-major status if space is available. Once a student with pre-major status has completed all ten MSCM foundation courses with a cumulative foundation GPA of 3.00, the student will be admitted as a full major. MSCM applications include information instructing students to contact the department to schedule an interview.

Combined Majors

Interdepartmental majors are offered in economics/accounting, economics/environmental studies, economics/mathematics, economics/political science, economics/social studies, financial economics, politics/philosophy/economics, and business and sustainability. See department webpages for details.

Master's Degrees

Master of Business Administration

Professional Accounting, Non-Thesis, MPAcc

Minors

CBE minors complement many majors at Western. The combination of a CBE minor with a major in speech, English, journalism, foreign languages or with other liberal arts majors may provide valuable additional skills and educational development. See departments for details on minors.

- Accounting Minor - See Accounting Department for details.
- Business Administration Minor - See Management Department for details.
- Business Analytics Minor - Minor is for CBE students only. See Decision Sciences Department for details.
- Economics Minor - See Economics Department for details.
- International Business Minor - See Management Department for details.

Retention Standards

In order to remain in good standing in CBE for all programs excluding Economics, pre-majors and full majors must maintain a minimum CBE GPA of 2.30 (calculated using all courses offered by CBE, including every graded attempt).

Should a student fall below the CBE GPA retention standard, the student will receive a warning and have one quarter in which to repair the academic record. If the student's academic record remains below the CBE GPA retention standard, the student will be dropped from the college.

COLLEGE OF BUSINESS AND ECONOMICS

For Economics degrees, excluding combined degrees (Accounting/Economics and Financial Economics), the CBE GPA does not apply. Students with a Western Washington University cumulative GPA average below 2.0 will be dismissed from the economics or economics combined major until the deficiency is repaired.

All majors in the College of Business and Economics (CBE) must maintain good academic standing with the University. A student with a Western Washington University cumulative GPA average below 2.0 will be dismissed from the college immediately and not permitted to take additional courses in the College of Business and Economics until the deficiency is repaired. A transfer student with no Western GPA (no graded Western courses) at the time of CBE application must maintain good standing with the University moving forward.

Please note: No individual course grade lower than a C- will be accepted and credited toward degree requirements.

Academic Status

When a student in CBE programs with pre-major status available is enrolled in their last foundation course(s), the student will be considered a provisional major. A provisional major is allowed to register for major-restricted courses the following quarter, pending formal acceptance into the major program. A student who does not successfully complete their last foundation course(s) or does not meet all requirements for full major status (a cumulative GPA of 2.50 or higher for all college-level coursework, a cumulative 2.30 or higher CBE GPA, a cumulative 2.00 or higher Western GPA) will be reverted to pre-major status and cannot enroll in major-restricted courses until they have successfully completed their foundation courses. A student is eligible for provisional major status in CBE only once.

Note: Provisional major status is not applicable for students who major in the Department of Economics. Economics students are designated as full majors immediately.

Academic Status Glossary

Pre-major: A student who has applied and been accepted to CBE but has not completed the foundation courses required for their major/concentration. (Note: Economics does not require foundation courses. Economics students are designated as full majors immediately.)

Provisional Major: A student who is enrolled in their last foundation course(s). (Note: Economics does not have provisional major status.)

Full Major: A student who has completed all foundation courses required for their major/concentration. (Note: Economics does not require foundation courses. Economics students are designated as full majors immediately.)

Department Chairs

Dr. Audrey Taylor	Accounting
Dr. Steve Henson	Economics
Dr. Craig Tyran	Decision Sciences
Dr. Ed Love	Finance and Marketing

Pamela Whalley	Center for Economic and Financial Education
Dr. Steven Globerman	Center for International Business
Dr. Wing Fok	Center for Innovation in Education
Dr. George Zhang	Center for Operations, Research and Management Science
Dr. Mark Staton	MBA Program and MPAcc Program
Dr. Mary Sass	General Business Degree at Poulsbo

Requirements for Bachelor's Degree

Besides the general requirement for graduation from the University, explained elsewhere in this catalog, CBE has the following specific requirements:

- **At least 50 percent of the business credit hours required for the CBE majors and minors must be taken at Western Washington University**
- Electives may be selected as needed to ensure the required 180 quarter hours total credit is met, however majors in accounting and business administration must complete a minimum of 90 credits in areas other than accounting and business administration. All CBE courses are considered in the areas of accounting and business administration except DSCI 205, MATH 157, and all economics courses.
- **Communication.** All students must consult their advisor regarding writing proficiency and communications requirements; all CBE majors are required to take one Communication Focus (CF) course. Students seeking a BA in Economics must complete a CF or CF-E designated course. Communication Focus courses are designated with a CF in the timetable; Communication Focus-Economics are designated with a CF-E in the timetable. Communication Focus (CF) designated courses include a professional quality presentation supported by appropriate technology component. Presentations may be made individually or in teams. In the latter case, each student must deliver a portion of the team presentation such that individual assessment is possible. Communication Focus-Economics (CF-E) designated courses are only offered by the Economics Department and include an oral presentation component.

Students are reminded that up to 32 hours of upper-division credit are elective. This provides significant opportunity to include courses in the arts, sciences and humanities. Early discussion with a CBE faculty advisor is strongly encouraged. Students desiring to take two concentrations, two majors, or two degrees must talk with an advisor in CBE for information related to the requirements and restrictions.

Petitioning Procedure. Any student who seeks a variation from the strict application of the rules, regulations or requirements of the College, should consult the advisor listed below based on their major status for guidance on the CBE process for petitioning the Dean:

- Pre-majors should consult the CBE Pre-Major Advisor
- Majors should consult their major department

Special Programs

Center for Economic and Financial Education. The Center for Economic and Financial Education, coordinated by the economics department, is involved in providing economic knowledge, data and teaching aids to the grade schools and high schools throughout the state. Affiliated with the Washington State Council on Economic Education, this center assists in raising the standards of economic literacy of the state.

Center for Economic and Business Research. This center undertakes research activities related to developing a better understanding of the economic and business climate of the Pacific Northwest. The center is developing and maintaining an economic database for the area, has developed a regional model that will assist in forecasting certain economic variables for the region, and responds to specific research requests from local public and private entities.

Center for Innovation in Education. This center, through faculty, student and industry partner involvement, is committed to enhancing and serving as an incubator for new methods of teaching and learning in fields of business, economics, and related disciplines in the College of Business and Economics.

Center for International Business. The Center for International Business provides opportunities for faculty and students to deepen their understanding of international business management techniques and issues through a variety of activities including lectures and seminars, research projects, course curricula development and field studies.

Center for Operations Research and Management Science. The Center provides a platform for research-oriented outreach activities including the following: publishing a working paper series, conducting international symposiums and seminar series, creating new research opportunities for senior undergraduate and graduate students to get involved in faculty-guided applied research projects.

COLLEGE OF BUSINESS AND ECONOMICS

Departments, Courses and Programs

Courses listed in this catalog constitute a record of the total academic program of the University. For an exact scheduling of courses at Western, students should consult the annual online Timetable of Classes, and Extended Education bulletins.

The College of Business and Economics also offers the Business Administration Minor administered by the departments of Decision Sciences, Finance & Marketing, and Management.

Accounting

Introduction

Accounting is an important tool used by managers of economic organizations to plan, control and report financial activity. A thorough knowledge of accounting is, therefore, necessary to understand the operation and financial condition of any business, nonprofit organization or governmental agency.

The Department of Accounting offers a broad program of accounting courses that, coupled with required and elective courses in economics and business administration, provides the graduate with a sound educational foundation for an accounting career or post-graduate studies.

The accounting graduate can expect to find employment in a number of areas including private business, public accounting, not-for-profit organizations or governmental units. An accountant in private business or governmental service will typically work in such areas as cost analysis, taxation, auditing, accounting systems or cash management. Careers in public accounting typically involve work in taxation, auditing or management advisory services.

The accounting curriculum also provides a theoretical foundation for students who plan to take examinations to become a Certified Public Accountant (CPA) or a Certified Management Accountant (CMA). Students are encouraged to consider the variety and breadth of career opportunities available to the accounting graduate when they select their accounting elective courses.

For those students planning to take the CPA exam, the state of Washington requires additional education. Please see the website at www.cbe.wvu.edu/acct for details.

MARGUERITE R. HUTTON (1989) Professor. BBA, MPA, University of Texas at Arlington; PhD, University of Houston; CPA, state of Washington.

SHUO LI (2017) Assistant Professor. BSc, Shanghai University; MSc Indiana University; PhD, Hong Kong Polytechnic.

ZENGHUI LIU (2015) Assistant Professor. BS, Jilin University; PhD, Drexel University.

WILLIAM R. SINGLETON (1976) Professor. BBA, Memphis State University; MBA, University of Portland; PhD, University of Hawaii; CPA, state of Washington.

STEVEN H. SMITH (2001-2008; 2012) Assistant Professor. BBA, Iowa State University; MS, Oklahoma State University; PhD, Arizona State University.

Departmental Mission

The Department of Accounting provides high-quality, balanced accounting education to majors and other undergraduate and graduate students. Quality teaching is our most important function. We engage students in the development of communication, conceptual and technical skills. To exemplify an enthusiasm for professional activity, faculty maintain their own intellectual curiosity and community awareness. Faculty are active scholars and contribute positively to students' experience, and to the department, college, university, profession and community service.

Our objectives support the combined mission of teaching, scholarship and service.

Teaching

- Integrate a broad range of accounting skills with an appreciation of ethical, cultural and environmental issues as they relate to accounting and business law.
- Promote oral and written communication, computer, research and group skills.
- Prepare students to become productive accounting and business professionals.
- Review and modify the curriculum to meet changing societal needs.

Scholarship

- Produce, apply and disseminate knowledge in accountancy and business law and in the pedagogy of these disciplines. Faculty are encouraged to pursue scholarly projects that suit their professional talents and

ACCOUNTING

interests consistent with the mission of the College of Business and Economics.

Service

- Serve the professional and broader communities.

Declaration Process

See the College of Business and Economics admission section of this catalog for declaration of pre-major and major requirements and procedure.

Department of Accounting, College of Business and Economics

96-98 credits

Introduction

Accounting is an important tool used by managers of organizations to plan, control and report financial activity. A thorough knowledge of Accounting is necessary to understand the operation and financial condition of any business, non-profit organization or governmental agency. In addition, the Accounting curriculum provides a foundation for students who plan to take examinations to become a Certified Public Accountant (CPA) or Certified Management Accountant (CMA).

The college's expectation is that students will meet the following Learning Goals and Objectives through this degree program:

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an Accounting Major?

The Accounting major offers a broad program of accounting courses, which coupled with required and elective courses in Economics and Business Administration, provides the graduate with a sound foundation for an accounting career or post-graduate studies. The Accounting graduate can expect to find employment in a number of areas including private business, public accounting, not-for-profit organizations or governmental

units. Typical work may include areas such as cost analysis, taxation, auditing, accounting systems, taxation or cash management.

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: cbe.wwu.edu/apply-cbe.

Pre-major: Students who have not completed their foundation course work may apply to the College and be given pre-major status. Pre-major status is granted to students who are at least sophomore level, or who have been identified as top quintile students, and who, at the time of application, meet the following requirements:

- Minimum of a 2.50 cumulative college-level GPA including all previous institutions.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must have a WWU cumulative GPA of 2.00 or higher to be considered in good academic standing with the University.

Students with pre-major status may only enroll for foundation or core courses listed. Their progress will be monitored by the College and they will attain full major status upon successfully completing the foundation courses and meeting the admission criteria above.

Full major: For admission to the College of Business and Economics as a full major (except majors in economics and manufacturing and supply chain management) a student must meet the following requirements:

- Minimum of 2.50 cumulative GPA after having completed all foundation courses. The cumulative GPA is calculated on all college-level course work completed by the student, including any transfer work.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must be in good academic standing with the University.

Students who meet the requirements will be assured of admission if space is available in the department program of choice. For economics and manufacturing and supply chain management admissions requirements, see the appropriate sections of this catalog.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Accreditation

The College of Business and Economics is accredited by the AACSB International-The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Goals

The MPAcc program is a 48-credit graduate degree to be completed in three quarters. It is designed to:

- Provide opportunities for students to improve their expertise in a field that is rapidly becoming more complex.
- Provide students with an opportunity to acquire the knowledge and skills required in Washington for professional licensing as CPAs.
- Help meet the demand in Washington for well-trained professional accountants.

Admission and Prerequisites

- A bachelor's degree with an accounting emphasis from an AACSB-accredited business school is required for admission to the program.
- A minimum 3.0 GPA (on a 4.0 scale) in the last 90-quarter or 60-semester hours of study.
- A minimum 3.2 GPA (on a 4.0 scale) in upper-division accounting courses.
- Applicants must demonstrate an ability to communicate effectively and to reason analytically, logically, and creatively.
- Students must achieve an acceptable score on the Graduate Management Admissions Test (GMAT). Applicants who are not native English speakers must submit an acceptable TOEFL or IELTS score.

Application Information

- Official application form to the Graduate School
- Transcripts (from each institution attended).
- GMAT scores and, if applicable, TOEFL or IELTS scores.
- Personal statement, including background and intention.
- Résumé showing work experience.
- Review of application begins on February 15 and continues until spaces are filled.

To apply for admission, send the application and supporting documents to the Graduate School. Further information is provided in the Graduate School section of this catalog.

Program Requirements (48 credits)

ACCOUNTING

Core Curriculum

- ❑ MPAC 565 - Special Topics in Accounting **Credits: 4**
- ❑ At least 4 credits of MPAC 595 - Accounting Colloquium
- ❑ At least 20 credits from the following courses, *under advisement:
*(Course availability may vary from year to year)
 - MPAC 521 - Seminar in Accounting Information Systems **Credits: 4**
 - MPAC 531 - Accounting Communications **Credits: 4**
 - MPAC 535 - Seminar in Management Accounting **Credits: 4**
 - MPAC 541 - Seminar in Advanced Financial Accounting **Credits: 4**
 - MPAC 543 - Financial Accounting Research & Communication **Credits: 4**
 - MPAC 545 - Seminar in Accounting Theory **Credits: 4**
 - MPAC 547 - Seminar in Government and Not-For-Profit Accounting **Credits: 4**
 - MPAC 551 - Seminar in International Accounting **Credits: 4**
 - MPAC 561 - Seminar in Professional Auditing **Credits: 4**
 - MPAC 566 - Seminar in Fraud Examination & Forensic Accounting **Credits: 4**
 - MPAC 571 - Seminar in Law for Accountants **Credits: 4**
 - MPAC 575 - Seminar in Taxation **Credits: 4**
 - MPAC 577 - Tax Research, Planning, and Policy **Credits: 4**
 - MPAC 581 - Ethics and Accountability **Credits: 4**
 - MPAC 585 - Sustainability Accounting and Reporting **Credits: 4**
- Up to 4 credits of MPAC 590 - Internship in Professional Accounting **Credits: 2-12**
- ❑ At least 20 additional credits of MPAC, MBA, or other courses, chosen under advisement

Integrated 3+2 BA/MPAcc Option

This option makes it possible for exceptional undergraduate accounting majors to enter the MPAcc program at the beginning of their senior year, and complete both a B.A. in Accounting and a Master of Professional Accounting in at most 5 years of study. Students interested in this program are encouraged to consult with their advisor early in their junior year.

Eligibility & Admission

Applications are due during the first week of spring quarter, and admission decisions will be made shortly thereafter. To be eligible the student must have, at the time of application:

- Completed at least 110 undergraduate credits with an overall GPA of 3.0 or better.
- Completed at least 16 upper-division accounting credits, including ACCT 342, with a GPA of at least 3.2.
- Demonstrated an ability to communicate effectively, and to reason analytically, logically, and creatively.
- Recommendations from at least two WWU accounting faculty.

This program is highly selective; eligibility does not guarantee admission.

Requirements for the 3+2 Option:

Candidates are conditionally admitted to the MPAcc at the time of acceptance into the integrated 3+2 program. At the end of the fourth year, conversion to full graduate status is granted by the Graduate School upon the recommendation of the MPAcc committee, provided that the candidate has:

- Been awarded the undergraduate degree.
- Maintained an acceptable GPA in all courses taken.
- Obtained an acceptable score on the GMAT.
- Met all the Graduate School application requirements.

All of the requirements for the MPAcc (listed above) must be fulfilled, except that only 36 graduate credits are required beyond the baccalaureate degree.

Additional Information

Information on the MPAcc program is available in the College of Business and Economics, Accounting section of this catalog.

Minor

Accounting Minor

Department of Accounting, College of Business and Economics

24 credits

Introduction

The Department of Accounting's minor is open by special permission to students whose majors would be complemented by an accounting minor and who have completed prerequisites for the courses comprising the minor.

Why Consider an Accounting Minor?

While accounting may not be your main field of study, the principles of accounting are useful in many career paths. Accounting is widely considered the language of business, and your understanding of key concepts will equip you in the business world.

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application form via the College of Business and Economics website, cbe.wwu.edu/apply-cbe. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ACCT 240 - Financial Accounting **Credits: 4**
- ACCT 245 - Managerial Accounting **Credits: 4**
- ACCT 331 - Cost Management **Credits: 4**
- One course from:
 - ACCT 341 - Intermediate Accounting Theory and Practice I **Credits: 4**

ACCOUNTING

ACCT 375 - Income Taxation I **Credits:** 4

- 8 additional credits in accounting under advisement

Note: ACCT 490 may not be substituted for a required or elective Accounting course.

Accounting Courses

ACCT 240 - Financial Accounting

An introduction to the theory and practice of accounting and financial reporting. Topics include the accounting cycle, financial statements and accounting for assets, liabilities, equities, revenues and expenses.

Credits: 4

Grade Mode: Letter

ACCT 245 - Managerial Accounting

An introduction to the use of accounting information by managers. Topics include the use of accounting information for planning and control, performance evaluation, and decision-making.

Prerequisites & Notes: ACCT 240.

Credits: 4

Grade Mode: Letter

ACCT 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ACCT 321 - Accounting Information Systems I

An introduction to the subject of information system's role in accomplishing the objectives of financial accounting, managerial accounting, and auditing. Topics include advanced Excel use, enterprise systems, risk management, internal controls, systems analysis and documentation, and project management.

Prerequisites & Notes: Majors only. ACCT 245, MIS 220 or equivalent skills.

Credits: 4

Grade Mode: Letter

ACCT 331 - Cost Management

Procedures used for classifying, recording, summarizing and allocating current, and estimated costs for planning, controlling and reporting purposes.

Prerequisites & Notes: Majors only. ACCT 245, DSCI 205, MIS 220 or equivalent skills.

Credits: 4

Grade Mode: Letter

ACCT 341 - Intermediate Accounting Theory and Practice I

An in-depth study of accounting theory and practice for students who require more than introductory coverage. Both conceptual and application topics are studied.

Prerequisites & Notes: Majors Only. ACCT 245

Credits: 4

Grade Mode: Letter

ACCT 342 - Intermediate Accounting Theory and Practice II

A continuation of ACCT 341 covering complex topics in accounting and financial reporting.

Prerequisites & Notes: Majors Only. ACCT 341

Credits: 4

Grade Mode: Letter

ACCT 343 - Intermediate Accounting Theory and Practice III

A continuation of ACCT 342 covering complex topics in accounting and financial reporting. Special topics, existing and emerging issues in accounting.

Prerequisites & Notes: Majors Only. ACCT 342

Credits: 4

Grade Mode: Letter

ACCT 375 - Income Taxation I

Taxation of individuals and sole proprietorships. Introduction to tax planning and sources of authority of tax law.

Prerequisites & Notes: Majors Only. ACCT 240

Credits: 4

Grade Mode: Letter

ACCT 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ACCT 421 - Accounting Information Systems II

Principles and techniques of accounting analytics will be covered. Topics include sources and uses of multiple types of business data, data visualization, and reporting and analysis for decision making. A wide variety of technology tools will be used.

Prerequisites & Notes: Majors Only. ACCT 321.
Credits: 4
Grade Mode: Letter

ACCT 431 - Topics in Management Accounting
 Focuses on responsibility accounting, performance measurement and evaluation, and budgeting and control in various types of organizations. Additional topics may include quantitative methods in decision making and other current issues in management accounting.

Prerequisites & Notes: Majors Only. ACCT 331
Credits: 4
Grade Mode: Letter

ACCT 435 - Seminar in Cost Management
 Provides an in-depth study of cost management systems. Topics include activity-based management, Japanese cost management techniques, and strategic cost management.

Prerequisites & Notes: Majors Only. ACCT 331
Credits: 4
Grade Mode: Letter

ACCT 441 - Advanced Accounting Theory and Practice
 An introduction to business combinations and fund accounting. Partnerships, SEC reporting, interim reports and other topics.

Prerequisites & Notes: Majors Only. ACCT 343
Credits: 4
Grade Mode: Letter

ACCT 443 - Financial Accounting Research & Communication
 This course develops accounting research competence using the FASB Accounting Standards Codification (ASC). The ASC is the primary authority for all accounting measurement and reporting matters. Written and oral communications are emphasized to develop skills necessary for a professional career in accounting.

Prerequisites & Notes: Majors only. ACCT 343.
Credits: 4
Grade Mode: Letter

ACCT 444 - Financial Statement Presentation and Analysis
 Study of reporting issues from a management perspective. Introduction to the tools and techniques of financial statement analysis. Use of

financial statements by external and internal decision makers. Emphasis on the development of communication and computer skills.

Prerequisites & Notes: Majors only. ACCT 343.
Credits: 4
Grade Mode: Letter

ACCT 447 - Accounting in Not-For-Profit Organizations

An examination of accounting and financial reporting in governmental and not-for-profit entities and an introduction to the use of accounting information in the management of these organizations.

Prerequisites & Notes: Majors Only. ACCT 343 or concurrent.
Credits: 4
Grade Mode: Letter

ACCT 451 - International Accounting

Analysis of accounting for multinationals; area studies of accounting and financial reporting standards; and an evaluation of the international accounting harmonization effort.

Prerequisites & Notes: Majors Only. ACCT 343
Credits: 4
Grade Mode: Letter

ACCT 461 - Auditing Theory and Practice

A study of the role of auditing and auditors in corporate financial reporting, and the importance of this role to the public. Topics covered include the audit planning process, audit reports, professional standards, and the legal and ethical responsibilities of auditors to their clients, the accounting profession and to the public.

Prerequisites & Notes: Majors Only. ACCT 321, ACCT 343
Credits: 4
Grade Mode: Letter

ACCT 462 - Advanced Auditing

In-depth exposure to a variety of aspects of the theory and practice of professional auditing. Topics may include auditing theory and research, economic function of audits, professional standards and malpractice, new auditing techniques and services. Cases, readings, individual research, and discussion.

Prerequisites & Notes: Majors Only. ACCT 461
Credits: 4
Grade Mode: Letter

ACCT 466 - Seminar in Fraud Examination & Forensic Accounting

ACCOUNTING

This course examines many different aspects of fraud: what it is and the types of people more likely to commit it, how to recognize the symptoms of fraud, and how to investigate it. As such, the course will focus on topics such as internal control, financial reporting fraud, fraud detection and deterrence.

Prerequisites & Notes: Majors only. ACCT 321 and ACCT 343.

Credits: 4

Grade Mode: Letter

ACCT 470 - Law of Commercial Transactions

Legal principles underlying the law of contracts, sales, secured transactions, real property security, bankruptcy and suretyship.

Prerequisites & Notes: Majors Only. MGMT 271

Credits: 4

Grade Mode: Letter

ACCT 475 - Income Taxation II

Taxation of corporations and partnerships. Advanced topics in tax planning and compliance.

Prerequisites & Notes: Majors Only. ACCT 375

Credits: 4

Grade Mode: Letter

ACCT 477 - Tax Research and Planning

An in-depth look at tax research and tax planning. Students will gain proficiency in tax research and apply this skill to a variety of federal taxation issues and case studies.

Prerequisites & Notes: Majors Only. ACCT 375

Credits: 4

Grade Mode: Letter

ACCT 479 - Introduction to Estates and Trusts

An introduction to estates and trusts for accounting students. Course material will include: introduction to estate and trust terminology, legal aspects of wills, estates, trusts, and taxation of estates and trusts.

Prerequisites & Notes: Majors only. ACCT 375.

Credits: 4

Grade Mode: Letter

ACCT 484 - Environmental Accounting/ Sustainability Reporting

An in-depth analysis of accounting for the natural environment. Readings, discussion and case analyses cover current issues, such as financial reporting and disclosure, management decision making and evaluation techniques, taxation and the profession's role in environmental issues.

Prerequisites & Notes: Majors Only. ACCT 331,

ACCT 343, ACCT 375 or concurrent.

Credits: 4

Grade Mode: Letter

ACCT 488 - Business Valuation

An advanced course in valuation in the small business merger and acquisition field for accounting students.

Prerequisites & Notes: Majors only. FIN 341, ACCT 343.

Credits: 4

Grade Mode: Letter

ACCT 490 - Internship in Accounting

Practical application of academic curriculum beyond that contained in normal undergraduate course work. Internship may not be substituted for a required or elective accounting course.

Prerequisites & Notes: Majors Only. ACCT 341; minimum 2.75 GPA in 300/400-level accounting courses

Credits: 1-2

Grade Mode: S/U

Master of Professional Accounting Courses

MPAC 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MPAC 521 - Seminar in Accounting Information Systems

Principles and techniques of accounting analytics will be covered. Topics include sources and uses of multiple types of business data, data visualization, and reporting and analysis for decision making. A wide variety of technology tools will be used.

Prerequisites & Notes: ACCT 321 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 531 - Accounting Communications

This course will focus on developing skills for communication as a professional accountant in an organizational setting and is intended to enhance the experience of students enrolled in MPAcc 590, Internship in Professional Accounting. This is an

online course that includes student-led discussions, team tasks, reflective journaling, and a variety of other individual assignments aimed at enhancing communication skills in a professional accounting setting. Short readings will cover organizational communications research applicable to accounting firms.

Credits: 4

Grade Mode: Letter

MPAC 535 - Seminar in Management Accounting

Using cases, students will gain the analytical skills needed to both implement well designed management systems, and to evaluate the strengths and weaknesses of existing systems. Topics will include budgeting, resource allocation, performance measurement, evaluation and reward, change management, and transfer pricing.

Prerequisites & Notes: ACCT 331 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 541 - Seminar in Advanced Financial Accounting

This course develops accounting skills for business combinations, consolidated financial statements, partnerships, corporate reorganizations, segment reporting, and foreign currency financial statements. Critical thinking, teamwork, and communications skills will be emphasized along with current technology used in accounting practice.

Prerequisites & Notes: ACCT 343 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 543 - Financial Accounting Research & Communication

This course develops accounting research competence using the FASB Accounting Standards Codification (ASC). The ASC is the primary authority for all accounting measurement and reporting matters. Written and oral communications are emphasized to develop skills necessary for a professional career in accounting.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 343 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 545 - Seminar in Accounting Theory

A study of accounting theory underlying current practice. This course is designed to develop awareness of and ability to utilize knowledge including significant historical components, key stakeholders and their issues, political and

regulatory processes, and critical perspectives on accounting and its role in society.

Prerequisites & Notes: ACCT 343 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 547 - Seminar in Government and Not-For-Profit Accounting

This course introduces the basics of accounting and financial reporting for governmental and not-for-profit entities. The course also discusses the social, legal, political and regulatory environment of governmental financial reporting and how these factors have influenced nonprofit and governmental accounting.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 343 or concurrent or equivalent

Credits: 4

Grade Mode: Letter

MPAC 551 - Seminar in International Accounting

This course explores how various accounting topics and issues are addressed within an international context, including a comparative analysis of accounting measurement, disclosure and financial reporting requirements in different countries within the framework of global harmonization efforts. In addition, the impact of accounting issues on multinational business operations is discussed and students will study a 'non-home' country in depth.

Prerequisites & Notes: ACCT 343 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 561 - Seminar in Professional Auditing

Provides in-depth exposure to a variety of aspects of the theory and practice of professional auditing. Topics may include auditing philosophy, history and research; economic function of audits; professional standards and malpractice; new auditing techniques and services. Activities include cases, readings, individual research and discussion.

Prerequisites & Notes: ACCT 461 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 565 - Special Topics in Accounting

This is an advanced course in accounting that examines a broad range of issues that are of current concern to both the accounting profession and users of accounting information. The course content will vary to provide opportunities to study current issues in accounting.

ACCOUNTING

Credits: 4

Grade Mode: Letter

MPAC 566 - Seminar in Fraud Examination & Forensic Accounting

This course examines many different aspects of fraud: what it is and the types of people more likely to commit it, how to recognize the symptoms of fraud, and how to investigate it. As such, the course will focus on topics such as internal control, financial reporting fraud, fraud detection and deterrence.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 321 and ACCT 343; or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 571 - Seminar in Law for Accountants

Using cases, texts, lecture and discussion, students examine legal issues important to accountants, including: administrative law-making; agency, business organizations; negotiable instruments, bank deposits, intellectual property; aspects of real and personal property security, bankruptcy; lobbying and campaign finance regulations; and accountants' professional liability.

Prerequisites & Notes: ACCT 470 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 575 - Seminar in Taxation

Tax from a managerial perspective, with emphasis on the identification and examination of tax problems and potential tax opportunities. Students will examine the choice of different business entities for tax purposes, compensation and succession planning, and tax planning for investments.

Prerequisites & Notes: ACCT 375 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 577 - Tax Research, Planning, and Policy

An in-depth look at tax research and tax planning, including the political and social issues which affect taxation. Students will gain proficiency in tax research and apply this skill to a variety of federal taxation issues and case studies. The use of technology is a vital component of this course, as is communication.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 375 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 579 - Introduction to Estates and Trusts

An introduction to estates and trusts for accounting students. Course material will include: introduction to estate and trust terminology, legal aspects of wills, estates, trusts, and taxation of estates and trusts.

Prerequisites & Notes: Graduate (MPAC) status. ACCT 375 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 581 - Ethics and Accountability

This is a capstone course in the MPAcc program introducing ethical systems used for decision making and public reporting taken from a professional accounting perspective and integrating notions of entity social responsibility with a global business perspective.

Credits: 4

Grade Mode: Letter

MPAC 585 - Sustainability Accounting and Reporting

Through reading several books and examining some Triple Bottom Line (TBL)-related websites in detail, course participants will study the overall themes and examples of TBL offered by various authors and organizations. Our directed conversations will focus on an analysis and synthesis of these themes, the credibility the proposals and attempts, and the general applicability of the TBL concept.

Prerequisites & Notes: ACCT 343 or equivalent.

Credits: 4

Grade Mode: Letter

MPAC 588 - Business Valuation

An advanced course in valuation in the small business merger and acquisition field for accounting students.

Prerequisites & Notes: Graduate (MPAC) status. FIN 341, ACCT 343 or equivalents.

Credits: 4

Grade Mode: Letter

MPAC 590 - Internship in Professional Accounting

Practical application of academic curriculum beyond that contained in graduate coursework. A one quarter internship under supervision with an approved certified public accounting firm, business entity, not-for-profit organization, or government agency. Repeatable up to 12 credits, including original course. S/U grading.

Prerequisites & Notes: Approval of the

Internship Coordinator.

Credits: 2-12

Grade Mode: S/U

MPAC 595 - Accounting Colloquium

Seminar and discussion of various topics, focusing on issues of current concern to the accounting profession. Will include presentations by faculty, students and accounting professionals. Repeatable up to 10 credits, including original course.

Prerequisites & Notes: Graduate (MPAC) status.

Credits: 1-2

Grade Mode: Letter

Decision Sciences

Introduction

The Department of Decision Sciences (DSCI) provides the opportunity for study in two related fields of business administration: Management Information Systems (MIS) and Operations Management (OPS). Additional course work is provided in Quantitative Methods. These fields cover a variety of responsibilities in both public and private organizations. Graduates from the decision sciences department will have completed a broad business program plus a wide range of nonbusiness subjects, reflecting the department's belief that education should prepare students for satisfying achievements in life as well as business.

Program Objectives

Departmental programs have been designed to prepare students for leadership roles in business and the community. The educational objectives of the department are to:

- Offer innovative undergraduate and graduate curricula that reflect state-of-the-art knowledge in our areas of expertise
- Prepare students with the necessary skills and knowledge for professional careers
- Provide students with opportunities to improve their communication, team, and problem-solving skills to work effectively with different organizations and cultures
- Encourage students to develop critical thinking skills and an appreciation of intellectual inquiry
- Contribute to our disciplines by creating, publishing and presenting significant scholarly research in the individual fields
- Provide professional services to regional, national, and international academic institutions, businesses, professional organizations, and government agencies
- Encourage and support student professional organizations

J. CHRISTOPHER SANDVIG (2001) Professor. BS, University of Oregon; MBA, UCLA Graduate School of Management; PhD, University of Washington.

MARK C. SPRINGER (1987) Professor. BA, University of Cincinnati; MBA, PhD, Vanderbilt University.

SCOTT T. YOUNG (2016) Dean and Professor. BA, University of Georgia; MBA, Georgia College and State University; PhD, Georgia State University.

ZHE GEORGE ZHANG (2000) Professor. BS, MA, Nankai University; MBA, York University; PhD, University of Waterloo.

Senior Instructors

KRAIG K. PENCIL (1999) Senior Instructor. BA, Occidental College; MBA, Western Washington University.

LEE E. McCLAIN (1991) Senior Instructor. BA, MA, University of Missouri-Columbia; MBA, University of Pennsylvania.

BRIAN L. MORGANS (2006) Senior Instructor. BS, University of Washington; MBA, Western Washington University.

SIPING (SUE) SU (2006) Senior Instructor. BA, Nankai University, Tianjin, China; MS, University of Waterloo, Ontario, Canada.

Departmental Mission

The mission of the Department of Decision Sciences is to advance and disseminate knowledge in management information systems, manufacturing and supply chain management, and quantitative methods. The DSCI department provides high-quality educational programs, publishes theoretical and applied research, and

serves university, professional, and community organizations.

Declaration Process

See the College of Business and Economics introductory section in this catalog for declaration of pre-major and major requirements and procedures. Applicants with 45 or more college level credits must have at least a 2.5 or higher cumulative GPA in all college-level course work including previous institutions and a minimum of 2.3 cumulative GPA in all courses taken within the College of Business and Economics to apply as pre-majors. For the BA in Business Administration, students have several choices of concentration, but are not guaranteed full major status in any specific concentration area in the case of capacity constraints. Some concentrations within the Business Administration BA require an additional application for full major status, while other concentrations automatically accept students as full majors if they have completed all eight foundation courses and meet the GPA requirements. See the CBE application webpage and department webpages for each concentration's full-major admissions requirements.

Manufacturing and Supply Chain Management (MSCM) applicants must have a cumulative MSCM foundation GPA of 2.80 or higher in foundation courses completed (including transfer courses) to apply as MSCM pre-majors. Once a student with pre-major status has completed all ten MSCM foundation courses with a cumulative foundation GPA of 3.00, the student will be admitted as a full major. MSCM applications include information instructing students to contact the department to schedule an interview.

Other Departmental Information

The Curriculum

Development of the department's curriculum has been guided by the standards of the AACSB International-the Association to Advance Collegiate Schools of Business. Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and the business administration major foundation courses. Several foundation courses satisfy GURs, and careful planning can save time for additional elective course work. Electives that emphasize oral and written communication skills are particularly recommended.

The junior and senior years are devoted primarily to upper-division core requirements and elective

course work. The Department of Decision Sciences offers two degrees: a Bachelor of Arts in Business Administration and a Bachelor of Science in Manufacturing and Supply Chain Management. Within the BA in Business Administration, students may choose to concentrate their major electives in management information systems or operations management. Students who wish to complete a concentration must pay close attention to class scheduling because of prerequisites and limited offerings of some courses.

Certificate in Website Management

Students concentrating in MIS may also be interested in earning a Certificate in Website Management through WWU's Internet Studies Center. Two of the six courses required for the certificate may be used as MIS concentration elective courses. More information about the certificate can be found on the ISC website, yorktown.cbe.wvu.edu/ISC/.

Business Applications Software

The use of personal computer systems to assist in data management, analysis and reporting of results is widespread in the curriculum of the Department of Decision Sciences. Students are expected to have some proficiency in word processing, spreadsheet and database software at the time they enter upper-division decision sciences classes. This proficiency can be gained through several means, including formal class work at a university or community college, work experience, or commercially offered classes. Proficiency can also be demonstrated by passing an exam which is offered for this purpose each quarter. Students who have not otherwise gained these skills are expected to register in MIS 220 prior to their registration in DSCI 305 or MIS 320.

Communications Requirements

See the College of Business and Economics introductory section of this catalog.

Student Advising

For answers to routine questions concerning preparation and progress through the major, students should consult the **Planning Guide** for the Department of Decision Sciences, available in the Academic Advising Center (OM 380) or online through the CBE website: cbe.wvu.edu/dsci/current-students. Non-routine questions should be directed to the academic department manager. Questions concerning individual areas of study should be

DECISION SCIENCES

directed to faculty who teach in that area. After the declaration of a major, a student will be assigned a faculty adviser with whom the student must consult concerning mandatory and elective courses in the chosen major and concentration. The faculty adviser may also be a source of information concerning career objectives and opportunities.

Because of high student demand for many business administration program courses, the department must give enrollment priority to students for whom these courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

Enrollment Priorities

Bachelor of Arts

Business Administration — Management Information Systems Concentration, BA

Department of Decision Sciences, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Management Information System (MIS) Concentration in the Business Administration Major?

As technologies continue to develop, there is an ongoing demand for professionals who can develop technology-based solutions to support organizations. Management Information Systems (MIS) students are problem solvers who develop an understanding of business, people, and technology. They learn how to develop and implement systems to enhance organizational effectiveness and efficiency. Career opportunities for MIS students include business/system analysis, database development, business intelligence and analytics, network administration, and the development of web-based technologies for electronic commerce.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

How to apply: For consideration as a pre-major, provisional major or full major for the Business Administration - Management Information Systems Concentration, complete the online application form at: cbe.wwu.edu/apply-cbe.

Pre-major: Students who have not completed their foundation course work may apply to the College and be given pre-major status. Pre-major status is granted to students who are at least sophomore level, or who have been identified as top quintile students, and who, at the time of application, meet the following requirements:

- Minimum of a 2.50 cumulative college-level GPA including all previous institutions.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must have a WWU cumulative GPA of 2.00 or higher to be considered in good academic standing with the University.

Students with pre-major status may only enroll for foundation or core courses listed. Their progress will be monitored by the College. When students are in provisional full major status (during the quarter they are enrolled in their last foundation course(s)) they will be contacted via email and asked to complete an additional application for the concentration.

Full major: For admission to the Management Information Systems Concentration as a full major a student must meet the following requirements:

- Minimum of 2.50 cumulative GPA after having completed all foundation courses. The cumulative GPA is calculated on all college-level course work completed by the student, including any transfer work.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must be in good academic standing with the University.

Students will be contacted via email and asked to complete an additional application for the concentration.

A Decision Sciences faculty admission committee will review all full major and provisional full major applications that meet the above requirements. Admission to the concentration is based on:

- Space available in the concentration
- Past academic performance
 - GPA in business courses completed at WWU
 - WWU GPA
- Admission priority will be given to students with the best academic performance relative to the rest of the applicant pool.
- Academic performance will be the primary decision factor, but other factors may be considered (e.g., rationale for pursuing field of study).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

DECISION SCIENCES

Requirements

Foundation Courses

- ACCT 240 - Financial Accounting **Credits: 4**
- ACCT 245 - Managerial Accounting **Credits: 4**
- DSCI 205 - Business Statistics **Credits: 4**
- ECON 206 - Introduction to Microeconomics **Credits: 4**
- ECON 207 - Introduction to Macroeconomics **Credits: 4**
- MATH 157 - Calculus With Applications to Business and Economics **Credits: 4** (May substitute MATH 157 with MATH 124, MATH 134, MATH 138 or AP calculus exam score of 3 or better.)
- MGMT 271 - Law and the Business Environment **Credits: 4**
- MIS 220 - Introduction to Business Computer Systems **Credits: 2**

Core Courses

- DSCI 305 - Applied Business Statistics **Credits: 4**
- FIN 341 - Principles of Finance **Credits: 4**
- MGMT 311 - Introduction to Management and Organizational Behavior **Credits: 4**
- MGMT 382 - Business and Its Environment **Credits: 4**
- MIS 320 - Principles of Management Information Systems **Credits: 4**
- MKTG 380 - Principles of Marketing **Credits: 4**
- OPS 360 - Operations Management **Credits: 4**

Advanced Core Courses

- MGMT 495 - Strategic Management **Credits: 4**
Or
MGMT 491 - Small Business Entrepreneurship **Credits: 4** and
MGMT 492 - Entrepreneurial Problems **Credits: 4**
These two courses would substitute for MGMT 495 but can't be used as an MIS elective.

MIS Concentration Courses

- MIS 321 - Systems Analysis and Design **Credits: 4**
- MIS 322 - Business Applications Development **Credits: 4**
- MIS 421 - Business Database Development **Credits: 4**
- MIS 495 - Corporate Information Systems Management **Credits: 4**
- One course from:
 - MGMT 313 - Teamwork Basics **Credits: 4**
 - MIS 492 - Systems Implementation Project **Credits: 4**
 - OPS 461 - Project Management **Credits: 4**
- Select 8 credits from:
 - ACCT 421 - Accounting Information Systems II **Credits: 4**
 - DSCI 407 - Predictive Analytics for Business **Credits: 4**
 - OPS 461 - Project Management **Credits: 4**
 - Upper division MIS coursesDepartment permission is required to count MIS 300 or MIS 400 towards the 8 credits.
- Familiarity with an additional programming language highly recommended
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfil the CF and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

NOTE: All MIS students must take MIS 322 - CSCI 140 is not an acceptable substitute. Students should talk to their advisors about other CSCI courses that may be appropriate as a second programming language.
 Students who major in Business Administration with a concentration in Management Information Systems may double major in Accounting.

Business Administration — Operations Management Concentration, BA

Department of Decision Sciences, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an Operations Management (OPS) Concentration in the Business Administration Major?

It is critical for organizations to be effective and efficient with their operations. Operations managers are concerned with each step in providing a service or product from acquisition of the raw materials and component parts to delivery to the customer. They determine what equipment, labor, tools, facilities, materials, energy, and information are required, how these can best be obtained, and how they are used to satisfy the requirements of the market place.

Bachelor of Science

Manufacturing and Supply Chain Management, BS

Department of Decision Sciences, College of Business and Economics

DECISION SCIENCES

128-131 credits

Introduction

The Department of Decision Sciences' unique Manufacturing and Supply Chain Management Bachelor of Science program is the product of a cooperative effort between faculty and industry which has resulted in a curriculum that combines leadership, technology, and operations management. Students majoring in the program receive an integrated professional education. The Operations Management component develops knowledge on process design and analysis, materials planning and control systems, quality improvement, and strategic decisions. The Business component provides an understanding of business fundamentals as well as current business trends and practices. The Engineering Technology segment provides students with a solid grounding in engineering and manufacturing fundamentals, including computer-aided design with materials sciences. Finally, the work experience component provides a real-world work experience that directly relates to students' education.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Manufacturing and Supply Chain Management Major?

WWU's Bachelor of Science degree program in Manufacturing and Supply Chain Management prepares students for success in today's global manufacturing and supply chain marketplace.

Designed in partnership with industry, taught by dedicated and engaged faculty, and validated for current relevance by our advisory board, the curriculum for a B.S. degree in Manufacturing and Supply Chain Management prepares students with the tools, knowledge and experience to be productive contributors and future leaders in the global business community.

The Manufacturing and Supply Chain Management degree is unique in the blending of core business, manufacturing, supply chain and engineering

courses into a comprehensive degree program. Combined with six months of internship experience, students leave the program uniquely prepared for successful careers in industry.

How to Declare (Admission and Declaration Process):

How to apply: For consideration as a pre-major or full major, complete the online application form at: cbe.wwu.edu/apply-cbe.

Pre-major: Students who have not completed the Manufacturing and Supply Chain Management (MSCM) foundation courses may apply and be given pre-major status. Pre-major status is granted to students who are at least sophomore level (completed 45 credits or more) or who have been identified as top quintile students, and who, at the time of application, meet the following requirements:

- Completed one or more MSCM Foundation courses (either transfer equivalents or WWU courses)
- Minimum GPA of 2.80 in completed MSCM Foundation courses including all previous institutions
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics
- Minimum of 2.50 cumulative GPA in all college-level coursework
- Students must have a WWU cumulative GPA of 2.00 or higher to be considered in good academic standing within the University
- Upon submission of their MSCM application, students must contact Peter Haug at 360.650.4807 or Peter.Haug@wwu.edu to arrange for an interview

Full major: For admission to the Manufacturing and Supply Chain Management (MSCM) program as a full major a student must meet the following requirements:

- Minimum GPA of 3.0 in their MSCM foundation courses (including Chemistry and Physics)
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics
- Minimum of 2.50 cumulative GPA in all college-level coursework
- Students must have a WWU cumulative GPA of 2.00 or higher to be considered in good academic standing within the University
- Upon submission of their MSCM application, students must contact Peter Haug at 360.650.4807 or Peter.Haug@wwu.edu to arrange for an interview

Advising tips: 1) Complete MATH 157, DSCI 205, ACCT 240 and ACCT 245 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: cbe.wwu.edu/dsci/mis-220-test-out; 3) Meet with your faculty advisor (assigned following admission to the major).

- Five elective courses under advisement (19-20 credits). The elective courses must include at least 2 courses from the following list:
 - ACCT 331 - Cost Management **Credits:** 4
 - DSCI 407 - Predictive Analytics for Business **Credits:** 4
 - MGMT 313 - Teamwork Basics **Credits:** 4
 - MIS 321 - Systems Analysis and Design **Credits:** 4
 - OPS 462 - Management Science with Spreadsheets **Credits:** 4
 - OPS 465 - Quality Management **Credits:** 4
 - OPS 467 - Logistics Modeling and Analysis **Credits:** 4Other elective courses may be selected under faculty advisement in the departments of Accounting, Communications, Economics, Decision Sciences, Finance & Marketing, Management, and/or Engineering and Design.
- Two practica OPS 464 Manufacturing and Supply Chain Management Practicum (8 credits)
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Minor

Business Analytics Minor

Department of Decision Sciences, College of Business and Economics

20 credits (not including prereqs)

Introduction

This program is designed to provide students with a solid foundation in business analytics. Specifically, the program will focus on the three fundamental areas in business analytics methods: descriptive, predictive, and prescriptive analytics. In addition, students will have an opportunity to gain exposure to application areas of analytics in business and economics.

Why Consider a Business Analytics Minor?

Regardless of your business major or concentration, a minor in Business Analytics can provide you with the concepts and tools necessary to succeed in today's data-rich business world. The minor not only provides a solid foundation in basic analytics, but allows each student to choose analytics electives that are specific to that student's major or concentration. The Business Analytics minor will therefore strengthen your depth of knowledge in your major or concentration while also introducing you to a new and increasingly critical area of study. Career opportunities for students with a background in analytics include data analysis, data science, business intelligence, and quantitative analysis.

How to Declare (Admission and Declaration Process):

Application to the program is open to students who have already been accepted as a major into the College of Business and Economics and are in good academic standing as defined by the retention standards for the College of Business and Economics.

How to apply: For consideration as a minor, complete the online application form at: cbe.wwu.edu/apply-cbe. Students will be contacted via email and asked to complete an additional application for the minor. A Decision Sciences faculty admission committee will review all minor applications that meet the above requirements. Admission to the minor is based on:

- Space available in the minor
- Past academic performance
 - GPA in business courses completed at WWU
 - WWU GPA
- At the time of application, the applicant must have completed (or be in process of completing) at least two of the three minor pre-requisite courses:
 - DSCI 305/ECON 375
 - MIS 320/ACCT 321
 - OPS 360

DECISION SCIENCES

- Admission priority will be given to students with the best academic performance relative to the rest of the applicant pool.
- Academic performance will be the primary decision factor, but other factors may be considered (e.g., rationale for pursuing field of study).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Required courses (Three 4-credit courses):

The following three courses are required (12 credits in total):

- MIS 422 - Business Intelligence and Analytics **Credits:** 4
- DSCI 407 - Predictive Analytics for Business **Credits:** 4
- OPS 462 - Management Science with Spreadsheets **Credits:** 4

Elective courses (Two 4-credit courses):

Students may choose two elective courses from the following list:

- ACCT 421 - Accounting Information Systems II **Credits:** 4
- ECON 475 - Econometrics **Credits:** 4
- FIN 443 - Topics in Finance **Credits:** 4 (Only the "Finance Analytics" topic may be used as an elective)
- MIS 431 - Advanced Business Database Systems **Credits:** 4
- MIS 434 - Applied Text Analytics for Business **Credits:** 4
- MIS 435 - Managerial Analytics **Credits:** 4
- MKTG 381 - Fundamentals of Marketing Research **Credits:** 4 (co-requisite with MKTG 382)
- MKTG 476 - Digital Marketing **Credits:** 4
- MKTG 481 - Marketing Analytics **Credits:** 4
- OPS 467 - Logistics Modeling and Analysis **Credits:** 4

Decision Sciences Courses

DSCI 205 - Business Statistics

Statistical methods used in business research, analysis and decision making; preparation and presentation of data, frequency distributions, measures of central tendency and dispersion, statistical inference, regression and correlation.

Prerequisites & Notes: MATH 114 or MATH 115 or MATH 118 or MATH 156 or equivalent or higher or suitable math assessment score.

Credits: 4

Grade Mode: Letter

DSCI 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed

Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

DSCI 305 - Applied Business Statistics

Applications of business statistics to research, analysis, and decision making in business. Regression, correlation, analysis of variance, and nonparametric tests, with emphasis on the use of business-oriented computer statistical packages.

Prerequisites & Notes: MATH 157 or MATH 124 or MATH 138; and DSCI 205.

Credits: 4

Grade Mode: Letter

DSCI 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies

and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

DSCI 405 - Simulation Models for Decision Making

Introduction to building computer-based simulation models for business decision making. Data collection and input analysis, model building of both Monte Carlo and discrete event simulations, output analysis and validation, and experimental design. Development of computer models to solve complex business problems in MIS, operations, finance, or marketing.

Prerequisites & Notes: DSCI 305 or equiv; C- or better

Credits: 4

Grade Mode: Letter

DSCI 407 - Predictive Analytics for Business

Predictive analytics relates to extracting patterns, associations, and trends from data (commonly known as 'data mining'). This course covers two main areas in predictive analytics: methods of regression for predicting quantitative variables and methods of classification for predicting qualitative variables. It also covers some multivariate statistical methods such as principal component analysis, cluster analysis, and association rules. This course aims to provide a theoretical and practical overview of recently-developed methods such as generalized additive models, bagging and boosting, shrinkage methods, support vector machines, and resampling methods as well as classical statistical learning methods.

Prerequisites & Notes: Majors only. DSCI 305 or ECON 375.

Credits: 4

Grade Mode: Letter

DSCI 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Management Information Systems Courses

MIS 220 - Introduction to Business Computer Systems

Introduction to use of commercial software packages for business applications, including spreadsheet analysis, word processing, and communications. S/U grading.

Prerequisites & Notes: Pre-major, major or minor in business; or pre-major or major in economics.

Credits: 2

Grade Mode: S/U

MIS 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MIS 304 - Introduction to Web Site Development

Covers basic Web site design, navigation, and construction. Topics include HTML, JavaScript, page layout, site navigation, cascading style sheets, server-side includes, designing search engines, and site testing.

Prerequisites & Notes: MIS 320, C- or better

Credits: 4

Grade Mode: Letter

MIS 313 - Computer Hardware and Operating Systems

Understand the hardware components commonly found in networked PC work stations and servers and the operating systems that control them. Diagnose common hardware problems. Install or replace PC components. Install and configure PC operating systems. Diagnose and troubleshoot common OS problems. Manage system resources, including memory, directories and files. Configure network and Internet connectivity.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 314 - Fundamentals of Web Site Development and Management

DECISION SCIENCES

Introduction to server-side programming. Topics include PHP, MySQL, reading and writing to databases, database normalization, structured query language (SQL), data management, security, maintenance management and web usability. Each student constructs an interactive, database-driven web site.

Prerequisites & Notes: CSCI 202 or CISS 247 or equivalent.

Credits: 4

Grade Mode: Letter

MIS 320 - Principles of Management Information Systems

Describes the role of MIS in management, including current professional practices and methodologies. Includes presentation of systems theory, decision theory, organizational models, types of MIS, planning and MIS development.

Prerequisites & Notes: MIS 220 or equivalent

Credits: 4

Grade Mode: Letter

MIS 321 - Systems Analysis and Design

Use management information systems techniques to solve managerial and organizational problems of limited complexity. Includes solving formal analytic problems and implementing solutions using MIS development techniques. Includes supervised structured laboratory exercises.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 322 - Business Applications Development

Business application development using an object-oriented language. Design of user interfaces and integration with other development platforms such as spreadsheets and databases.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321; pre/coreq: MIS 321; C- or better

Credits: 4

Grade Mode: Letter

MIS 323 - Telecommunications

Analysis and design of telecommunications systems, including those on the Internet. Topics include network design and management, telecommunications concepts and management, and network and telecommunications tools.

Prerequisites & Notes: Majors Only. MIS 320 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 324 - Intermediate Web Site Development and Management

Web development using ASP.NET, C#, Visual Web Developer and Sql Server Express. Topics include: data management, web services, object-oriented programming, security, reusability, scalability and reliability. Students refine their skills by constructing a database driven web site.

Prerequisites & Notes: MIS 314 or MIS 322; instructor permission

Credits: 4

Grade Mode: Letter

MIS 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MIS 417 - Advanced Business Applications Development

Advanced topics in Management Information Systems: Database Systems. Designed for CBE students in majors and concentrations other than Management Information Systems. Overview of database use in modern business organizations. Alternative data models and normalization of data. Database design methodologies. Development of a database application using commercial software in microcomputer environment. Repeatable up to a maximum of 8 credits with different topics.

Prerequisites & Notes: MIS 320 or ACCT 321, or instructor permission.

Credits: 4

Grade Mode: Letter

MIS 421 - Business Database Development

Overview of database use in modern business organizations. Alternative data models and normalization of data. Database design methodologies. Development of a database application using commercial software in microcomputer environment.

Prerequisites & Notes: Majors Only. MIS 321

Credits: 4

Grade Mode: Letter

MIS 422 - Business Intelligence and Analytics

Business intelligence and analytics is a broad category of applications and technologies for gathering, storing, analyzing, visualizing, and providing access to data to help enterprise users

make better business decisions. The course will include both conceptual and skill components related to business analytics and visualization, including projects using appropriate software platforms.

Prerequisites & Notes: Majors only. MIS 320 or ACCT 321.

Credits: 4

Grade Mode: Letter

MIS 423 - Network Administration

Theory and principles, design, implementation, and management of local area network systems, including predominant networking products and technologies.

Prerequisites & Notes: Majors Only. MIS 321 or MIS 323, C- or better

Credits: 4

Grade Mode: Letter

MIS 424 - E-Commerce Systems Management

This course covers both the theories and tools needed to build and manage e-commerce sites. Specific topics include e-commerce business models, marketing, security, hosting options, secure-transactions, web server installation and configuration, web services and interfacing with legacy systems.

Prerequisites & Notes: MIS 324, C- or better

Credits: 4

Grade Mode: Letter

MIS 431 - Advanced Business Database Systems

Design, development, implementation and administration for business applications dealing with big data. Database definition, manipulation and tuning for Web-based systems. Instruction in both theory and practice.

Prerequisites & Notes: Majors only. MIS 322, MIS 421, C- or better.

Credits: 4

Grade Mode: Letter

MIS 432 - Expert Systems in Business

Use of artificial intelligence concepts in the development of systems for expert decision making, with application to business problems. Review and use of selected commercial expert systems software packages.

Prerequisites & Notes: Majors Only. MIS 321 or ACCT 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 434 - Applied Text Analytics for Business

As the core of business analytics, mining structured and unstructured data is critical for better decision making by deriving insights from a variety of data repositories. This course introduces how text analytics techniques can be used to improve decision making in different business applications. This course covers the fundamental principles and techniques of natural language processing and text mining. It uses real-world examples and cases to place text-mining techniques in context. Students will have hands-on experience with data/text mining software and implement a comprehensive group project.

Prerequisites & Notes: Majors only. DSCI 305 or ECON 375.

Credits: 4

Grade Mode: Letter

MIS 435 - Managerial Analytics

Data is a strategic asset to any organization. Data has become too valuable to ignore. Consequently, today's business manager must be mindful of how to leverage, analyze, and discuss data so that decision making and performance can be improved. In this course students will examine a diverse set of topics on data analytics relevant to the business manager in order to recognize how to derive organizational value from analytics. Such topics include the data deluge, techniques for analyzing data, the pitfalls to avoid, and the future of analytics. These topics will be explored through several case studies, multiple hands-on activities using spreadsheet software and data visualization tools, and a group project.

Prerequisites & Notes: Majors only. MIS 320 or ACCT 321.

Credits: 4

Grade Mode: Letter

MIS 491 - Practicum in Management Information Systems

Information systems related to employment, research or special project experience. Emphasis on applying information systems principles and techniques in an academically guided setting. Minimum requirements include a written proposal, journal, and a comprehensive final report. Repeatable to a maximum of 12 credits, only four of which may be applied to the MIS concentration.

Prerequisites & Notes: Majors Only. MIS 321, C- or better

Credits: 4

Grade Mode: Letter

MIS 492 - Systems Implementation Project

Solve an information system problem using project management and IS methodologies. Apply project management techniques in a group project

DECISION SCIENCES

environment. Develop systems documentation, implement system, and present completed project report.

Prerequisites & Notes: Majors Only. MIS 322 or MIS 421 or MIS 422 or MIS 432, C- or better, and permission of instructor.

Credits: 4

Grade Mode: Letter

MIS 495 - Corporate Information Systems Management

Case study of the current and potential applications of information technology to enhance the competitive posture of the corporation. Uses of information technology throughout the organization; management and control of the information technology function.

Prerequisites & Notes: Majors Only. MIS 321; pre/corequisite: one 400-level MIS elective; C- or better

Credits: 4

Grade Mode: Letter

Operations Management Courses

OPS 360 - Operations Management

Examines the concepts for designing, planning and improving manufacturing and service organizations. Topics include enterprise resource planning, facility layout, forecasting, queuing models, inventory management, lean manufacturing, total quality control, and project management.

Prerequisites & Notes: DSCI 205, ACCT 245, C- or better; spreadsheet competency

Credits: 4

Grade Mode: Letter

OPS 367 - Management of Service Operations

Concepts and techniques for designing, planning and controlling service operations. Topics include service site location, service facilities design, managing capacity and demand in service operations, work force scheduling, the queuing phenomenon, and the impact of new technology on service operations.

Prerequisites & Notes: Majors Only. OPS 360, C- or better

Credits: 4

Grade Mode: Letter

OPS 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be

arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

OPS 417 - Managing Supply Chain, China

Concepts and techniques for designing, planning and controlling service operations. Topics include service site location, service facilities design, managing capacity and demand in service operations, work force scheduling, the queuing phenomenon, and the impact of new technology on service operations.

Prerequisites & Notes: junior or senior standing

Credits: 4

Grade Mode: Letter

OPS 460 - Designing and Improving Lean Operations

Examines the design and analysis of lean manufacturing systems. Topics include principles of lean enterprises, kaizen practices, visual management, standard work, current and future state value stream mapping, creating continuous flow, cellular manufacturing, and process and capacity analysis.

Prerequisites & Notes: OPS 360 or MFGE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 461 - Project Management

Examines the organization, planning, and controlling of projects and provides practical knowledge on managing project scope, schedule and resources. Topics include project life cycle, work breakdown structure and Gantt charts, network diagrams, scheduling techniques, and resource allocation decisions. Concepts are applied through team projects and tutorials using project management software.

Prerequisites & Notes: OPS 360 or MGFE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 462 - Management Science with Spreadsheets

Covers the development of optimization and simulation models using Microsoft Excel for the solution of business problems. Topics include advanced spreadsheet use; linear, integer, and non-linear programming; and the simulation of stochastic systems. Applications in operations,

finance, and marketing are reviewed.

Prerequisites & Notes: Majors only. OPS 360; MIS 320 or ACCT 321.

Credits: 4

Grade Mode: Letter

OPS 463 - Enterprise Resource Planning Systems

Examines the principles and techniques for planning and managing resource usage across the business enterprise. Topics include business process integration, inventory management, master scheduling, and material and capacity planning. Concepts are applied through the use of current enterprise resource planning software.

Prerequisites & Notes: OPS 360 or MFGE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 464 - Manufacturing and Supply Chain Management Practicum

Manufacturing or supply chain management-related employment, research or special project experience. Emphasis on applying manufacturing and supply chain management principles in an academically guided setting. Minimum requirements include a written proposal, a work log, and a comprehensive final written report. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: OPS 360 and permission of instructor; first-time enrollment restricted to manufacturing and supply chain management students with foundation or full major status; second-time enrollment restricted to manufacturing and supply chain management students with full major status.

Credits: 4

Grade Mode: Letter

OPS 465 - Quality Management

Examines the principles and techniques for managing and improving quality in an organization. Topics include incoming material control, statistical process control, and process improvement.

Prerequisites & Notes: OPS 360 or MFGE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 466 - Supply Chain Management and Procurement

Examines the principles, techniques, and practices for the design and management of integrated supply chain operations. Investigates supply chain strategy, distribution, facility location decisions,

purchasing, and information systems for managing supply chain activities.

Prerequisites & Notes: OPS 360 or MFGE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 467 - Logistics Modeling and Analysis

This course will cover a variety of logistics-related issues pertaining to the design and operation of supply chains, including appropriate modeling tools for their analysis. Emphasis will be on the application and development of mathematical modeling techniques for the analysis of issues such as: multi-stage network design, vehicle routing and scheduling, cycle and safety inventories, and multi-echelon inventory control. Other related topics include supply chain information technology and visualizing supply chain data and metrics.

Prerequisites & Notes: Majors only. OPS 360.

Credits: 4

Grade Mode: Letter

OPS 468 - Manufacturing and Supply Chain Strategy

Reviews manufacturing and supply chain management principles and techniques and examines issues in global manufacturing operations. Topics include supply chain strategy, facility network design, logistics, forecasting, aggregate planning, lean manufacturing principles, and global operations.

Prerequisites & Notes: OPS 360 or MFGE 341; major restricted.

Credits: 4

Grade Mode: Letter

OPS 469 - Seminar in Manufacturing and Supply Chain Management

Operations management theory and concepts applied to current manufacturing and supply chain problems.

Prerequisites & Notes: Majors Only. OPS 460, OPS 463, OPS 464 and permission of instructor.

Credits: 4

Grade Mode: Letter

Economics

Introduction

In a world without scarcity, economics as a field of study would be unnecessary. The most challenging task of economics is the study of how to best use resources in the satisfaction of human wants. Today, more than ever, the problems agitating society are predominantly economic. The problems of inequality, discrimination, pollution, energy, growth and stagnation are heavily economic, as are their solutions. Whether as intelligent citizens or as professional economists, we need the perspective and analysis of economics to understand and deal with the realities of life in the 21st century.

With appropriate preparation, particularly in the areas of economic theory, statistical methods and computer-assisted data analysis, the career opportunities for economists are diverse. Economists are most typically employed at all levels of government, in banking and financial institutions, other business firms, labor organizations, and as researchers and teachers in the educational system. One of the most dynamic career areas for economists has been in business. Business economists are typically involved in planning and forecasting, production and market analysis, pricing, and government policy analysis. While various employment opportunities are available to the university graduate with a baccalaureate degree, the person who wishes to pursue a high-powered career as a professional economist should plan to do some graduate study.

Information

The department's faculty and staff invite questions about the program and career opportunities for economics majors. Interested persons are invited to visit the department office in Parks Hall 315 or to telephone 360-650-3910. Written inquiries should be directed to the Department of Economics, Western Washington University, Bellingham, WA 98225-9074. E-mail: Econ@wwu.edu. Website: cbe.wwu.edu/econ.

Faculty

STEVEN E. HENSON (1985) Chair and Professor. BA, California State University; MS, PhD, University of Oregon.

REID DORSEY-PALMATEER (2015) Assistant Professor. BA, Pomona College; MA, PhD, University of Michigan.

BRANDON DUPONT (2006) Professor. BA, McNeese State University; MA, University of Iowa;

PhD, University of Kansas.

YVONNE DURHAM (2000). Professor. BA, University of Wyoming; MA, PhD, University of Arizona.

L. HART HODGES (2000) Associate Professor and Director of the Center for Economic and Business Research. BA, Williams College; MEM, Duke University; PhD, University of Washington.

SHAWN KNABB (2005) Associate Professor. BA, Miami University; MA, PhD, University of California-Santa Barbara.

JOHN KRIEG (2000). Professor and Director of the Office of Survey Research. BA, Northwestern University; MA, PhD, University of Oregon.

DARIUS D. MARTIN (2017) Assistant Professor. BS, Syracuse University; MA, PhD, University of California, Santa Barbara.

DAVID M. NELSON (1977) Professor. BA, Whitworth College; MA, PhD, University of Oregon.

JASON A. QUERY (2016) Assistant Professor. BA, BBA, Gonzaga University; MPA, University of Texas-Austin; MS, PhD, University of Oregon.

MATTHEW R. ROELOFS (1997) Professor. BA, Calvin College; MS, PhD, Purdue University.

SHARON SHEWMAKE (2013) Associate Professor. BA, Duke University; PhD, University of California-Davis.

ANCA-IOANA SIRBU (2014) Assistant Professor. BS, MS, Bucharest University of Economic Studies; MA, University of Southern California; PhD, University of California-Riverside.

OZAN SULA (2006) Associate Professor. BA, Marmara University; MA, PhD, Claremont Graduate University.

PHILIP THOMPSON (2009) Associate Professor. BA, Kent State University; PhD, University of Arizona.

ADAM C. WRIGHT (2016) Assistant Professor. BS, University of Richmond; MEd, Arizona State University; MA, PhD, University of California-Santa Barbara.

Departmental Mission

The mission of the department is to provide students with an understanding of economic concepts and the functioning of the economy, and to equip them with the ability to apply economic analysis in problem solving. The department strives to provide a major program which gives students rigorous training in both economic theory and applications. The department plays an integral role in offering courses that are a component of Western's General University Requirements and that are part of other undergraduate and graduate programs in the college and in the University. The department views the conduct of research in economics, and applied research in particular, to be an integral part of its instructional mission. In addition, the department strives to serve both the profession and the community and to help raise

the level of economic awareness among the public at large.

Declaration Process

Completion of the CBE Foundation courses is not required to declare a major in economics, except for the economics-accounting combined major. In order to declare a major in economics, students must have achieved a 2.50 cumulative college GPA (including transfer work). Students planning to major in economics should declare their major as early as possible, preferably during their first year at Western. Early declaration is costless and in no way restricts the student's options for changing plans later, but it provides many benefits. Advantages include faculty advising, and protection against possible future catalog revisions that change degree requirements. Declared majors are also eligible for departmental scholarships and other awards. Transfer students should contact the department prior to registering to be certain that they enter the course sequence correctly with the appropriate course equivalents from other institutions.

Retention

Students with a Western Washington University cumulative GPA average below 2.0 will be dismissed from the economics or economics combined major until the deficiency is repaired.

Other Departmental Information

The Curricula

The economics program at Western provides several options under the Bachelor of Arts degree.

The economics major requires a foundation in economic theory and quantitative skills and provides opportunities for pursuing in depth a number of important areas within economics, most notably financial, environmental, and resource economics.

Bachelor of Arts

Economics, BA

Department of Economics, College of Business and Economics

66-69 credits

Introduction

Communications Requirements

In addition to the university's Writing Proficiency requirement, all Economics/Accounting and Financial Economics majors must complete one Communications Focus (CF) course prior to graduation. All other economics majors may take either a Communication Focus – Economics (CF-E) course offered by the Economics Department, or a CF course offered by any other department within the College of Business and Economics. CF and CF-E courses are designed to help students gain proficiency in delivering a professional-quality presentation. Presentations may be done individually or in teams. In the latter case, each student must deliver a portion of the team presentation so that individual assessment is possible. Consult the online Timetable of Classes for the specific course sections that fulfill these requirements.

Combined majors

A combined major is available as an option to students whose educational or professional interests may best be furthered by an integrated curriculum from two disciplines. A combined major may be fulfilled by the completion of requirements stipulated by both the Economics Department and a department with which Economics has established arrangements. A plan of study must be approved by both departments for completion of the major. Combined majors already exist with accounting, environmental studies, mathematics, philosophy and political science, social studies, and finance. Students are encouraged to explore the possibility of combining economics with other disciplines.

Students must consult with an advisor prior to the selection of a major option or the selection of elective credits in other departments of the College of Business and Economics (CBE) to be included as part of the economics major.

ECONOMICS

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

Why Consider an Economics Major?

A degree in Economics can be the gateway to many careers. Professional economists are employed as advisors and researchers in both business and government and as teachers and researchers in academic institutions. Employment as an Economist generally requires the completion of graduate studies beyond the bachelor's degree. Western's graduates in Economics hold a variety of jobs in business and teaching. In addition, many of Economics graduates have had a high success rate for admissions to professional schools in law and business.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to declare (Admission and Declaration Process):

Students planning to major in Economics should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare a major in economics.

Admission to programs in the College of Business and Economics (CBE) is selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a full Economics major, a student must meet the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Students apply for admission to the major by completing the online application form at: cbe.wwu.edu/apply-cbe.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information; cbe.wwu.edu/mis-220-test-out; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Choose one course from:
 - DSCI 205 - Business Statistics **Credits: 4**
 - MATH 240 - Introduction to Statistics **Credits: 4**
 - MATH 341 - Probability and Statistical Inference **Credits: 4**
- ECON 206 - Introduction to Microeconomics **Credits: 4**
- ECON 207 - Introduction to Macroeconomics **Credits: 4**

- ❑ ECON 303 - The History of Economic Thought **Credits:** 4
- ❑ ECON 306 - Intermediate Microeconomics **Credits:** 4
- ❑ ECON 307 - Intermediate Macroeconomics **Credits:** 4
- ❑ ECON 375 - Introduction to Econometrics **Credits:** 4
- ❑ One course from:
 - MATH 124 - Calculus and Analytic Geometry I **Credits:** 5
 - MATH 157 - Calculus With Applications to Business and Economics **Credits:** 4
 - MATH 134 - Calculus I Honors **Credits:** 5
 - MATH 138 - Accelerated Calculus **Credits:** 5 (or AP Calculus Exam with a score of 3 or better)
- ❑ One course from:
 - MIS 220 - Introduction to Business Computer Systems **Credits:** 2
 - CSCI 101 - Computers and Applications **Credits:** 4
- ❑ 32 credits of electives in CBE, under departmental advisement; at least 24 of these credits must be upper-division credits in economics; a minimum of 16 of these 24 credits must be at the 400 level
 - ❑ Take one Communication Focus - Economics (CF-E) or a Communication Focus (CF) course within the College of Business and Economics, and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF-E/CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF-E/CF and WP requirements.
 - Note: ECON 309, ECON 445 and ECON 447 may not be counted toward this major.

Economics/Accounting, BA

Combined major offered by the department of Economics and the department of Accounting, College of Business and Economics.

100-103 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications. Accounting is an important tool used by managers of organizations to plan, control and report financial activity. A thorough knowledge of Accounting is necessary to understand the operation and financial condition of any business, non-profit organization or governmental agency.

Why Consider an Economics/Accounting Major?

This major is designed for students wishing to obtain a strong preparation in both Economics and Accounting and especially those who intend to go into careers in business. It is an excellent undergraduate study for the Master of Business Administration.

Major/Career Resourceswww.wwu.edu/careers/students_choosingamajor.shtml**How to Declare (Admission and Declaration Process):**

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: cbe.wwu.edu/apply-cbe.

Pre-major: Students, who have confirmed admission to WWU, are in good academic standing with the University, have completed 45 credits, and earned a GPA of 2.5 overall including all previous institutions, a 2.30 cumulative GPA in all courses taken within the College of Business and Economics, and a WWU cumulative GPA of 2.0 or higher will be granted pre-major status. Pre-majors automatically become full majors upon completion of the minimum requirements.

Full major: Students must have completed the following requirements:

- Confirmed admission to WWU and have 45 credits or be in the CBE Distinguished Scholars program.
- Be in good academic standing with the University and earned a cumulative GPA of at least 2.50 in all college-level course work including transfer work.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Completion of all foundation courses with C- or better.

Provisional major: Major status is granted provisionally to students who are completing their last foundation course(s) and would be eligible for full major status upon successful completion of their current course work.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: cbe.wwu.edu/mis-220-test-out; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements**Foundation Courses**

- ACCT 240 - Financial Accounting **Credits:** 4
- ACCT 245 - Managerial Accounting **Credits:** 4
- DSCI 205 - Business Statistics **Credits:** 4

- ECON 306 - Intermediate Microeconomics **Credits: 4**
- ECON 307 - Intermediate Macroeconomics **Credits: 4**
- ECON 311 - Money and Banking **Credits: 4**
- FIN 341 - Principles of Finance **Credits: 4**
- MGMT 311 - Introduction to Management and Organizational Behavior **Credits: 4**
- MGMT 382 - Business and Its Environment **Credits: 4**
- MKTG 380 - Principles of Marketing **Credits: 4**
- OPS 360 - Operations Management **Credits: 4**
- One course from:
 - MGMT 492 - Entrepreneurial Problems **Credits: 4**
 - MGMT 495 - Strategic Management **Credits: 4**
- 8 additional credits in upper-division accounting courses, under departmental advisement
- 8 additional credits in upper-division economics courses, under departmental advisement
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
 - Note: ECON 309, ECON 446 and ECON 447 may not be counted toward this major.
 - Note: ACCT 490 may not be substituted for a required or elective Accounting course.

Economics/Environmental Studies, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Environmental Studies, Huxley College of the Environment.

101-106 credits (including foundations courses and major)

Introduction

Economics deals with how people living in a world of scarcity make choices. These choices inevitably involve costs. Questions examined in environmental economics include efficient resource use, preservation of wilderness and biological diversity, local and regional air pollution, global climate change, and treatment of toxic substances. Students learn how to use economic principles to help understand the causes of environmental problems and to identify potential remedies.

Environmental Studies draws on basic knowledge of how natural systems work and is applied to solving problems largely created by human activities. Often these problems are represented by disturbances in the functioning of natural systems. In addition to the study of the natural environment, a study of laws and policy related to the environment provides a foundation for solving environmental problems.

Why Consider an Economics/Environmental Studies Major?

A combined major in Economics/Environmental Studies is available to students having a strong interest in the economic aspects of environmental studies and natural resources. The degree awarded is a B.A. in Economics.

How to Declare (Admission and Declaration Process):

Students planning to major in Economics/Environmental Studies should declare their major as early as possible, preferably their first year at Western in both the College of Business and Economics (CBE), and Huxley College of the Environment.

Admission to CBE is selective and based upon prior academic performance and other evidence of high promise. For admission as a full Economics major, a student must have completed the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Students apply for admission to the Economics portion of the major by completing the online application form at: cbe.wwu.edu/apply-cbe.

Those pursuing joint programs offered by Environmental Studies with other Western academic units may begin as Phase I majors. Preparatory and major requirements differ from those of the other ENVS majors as outlined in this catalog. You can declare an ENVS Phase I major at any time.

Admission to Huxley College and its majors is selective and based upon the following three criteria:

1. Completion of required preparatory course work
2. A brief essay in response to a given question
3. Academic performance (GPA)

Applications should be received by the Huxley College office by April 18 for summer or fall quarter admission; October 6 for winter quarter; and January 15 for spring quarter.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Economics/Environmental Studies Foundations (25-26 credits)

- ENVS 203 - Physical Geography **Credits: 4**
- ENVS 303 - Introduction to Environmental Studies I: Human Ecology and Ethics **Credits: 5**
- ENVS 305 - Introduction to Environmental Studies II: History and Policy **Credits: 5**
- One ESCI course, 200-300 level (4 credit minimum)
- One upper-division natural science course at the 300-400 level (3 credit minimum)
The one upper-division natural science course can be an ESCI course, additional approved natural science course in ENVS, or can be from any other science department. Students should be aware of prerequisites in other science departments.
- One course from:
 - MATH 114 - Precalculus I **Credits: 5**
 - MATH 156 - Algebra With Applications to Business and Economics **Credits: 4**

Economics/Environmental Studies Depth and Specialization (76-80 credits)

- ❑ ECON 206 - Introduction to Microeconomics **Credits: 4**
 - ❑ ECON 207 - Introduction to Macroeconomics **Credits: 4**
 - ❑ ECON 303 - The History of Economic Thought **Credits: 4**
 - ❑ ECON 306 - Intermediate Microeconomics **Credits: 4**
 - ❑ ECON 307 - Intermediate Macroeconomics **Credits: 4**
 - ❑ ECON 383 - Environmental Economics **Credits: 4**
 - ❑ ECON 384 - Energy Economics **Credits: 4**
 - ❑ ECON 483 - Resource Economics **Credits: 4**
 - ❑ ECON 493 - Senior Seminar: Economics, the Environment and Natural Resources **Credits: 4**
 - ❑ ENVS 355 - Environmental Law and Policy **Credits: 4**
 - ❑ ENVS 450 - Science in the Policy Process **Credits: 4**
 - ❑ One course from:
 - DSCI 205 - Business Statistics **Credits: 4**
 - MATH 240 - Introduction to Statistics **Credits: 4**
 - MATH 341 - Probability and Statistical Inference **Credits: 4**
 - ❑ One course from:
 - ENVS 340 - Developing World **Credits: 4**
 - ENVS 341 - Population and Resources **Credits: 4**
 - ENVS 342 - Geography of the World Economy **Credits: 4**
 - ❑ One course from:
 - ENVS 493 - Environmental Impact Assessment **Credits: 5**
 - ESCI 493 - Environmental Impact Assessment **Credits: 5**
 - ❑ One course from:
 - MATH 124 - Calculus and Analytic Geometry I **Credits: 5**
 - MATH 134 - Calculus I Honors **Credits: 5**
 - MATH 138 - Accelerated Calculus **Credits: 5**
 - MATH 157 - Calculus With Applications to Business and Economics **Credits: 4**
 - (Or AP Calculus exam score of 3 or better)
 - ❑ Electives under advisement (15-18 credits)
 - ECON 300- and 400-level
 - ENVS 300- and 400-level
 - ❑ Take one Communication Focus - Economics (CF-E) or a Communication Focus (CF) course within the College of Business and Economics, and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF-E/CF and WP requirements.
- Note: ECON 309, ECON 446 and ECON 447 may not be counted toward this major.

Economics/Mathematics, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Mathematics, College of Science and Engineering

95 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

"In addition to theorems and theories, Mathematics offers distinctive modes of thought which are both versatile and powerful, including modeling, abstraction, optimization, logical analysis, inference from data, and use of symbols. Experience with mathematical modes of thought builds mathematical power—a capacity of mind of increasing value in this technological age that enables one to read critically, to identify fallacies, to detect bias, to assess risk, and to suggest alternatives. Mathematics empowers us to understand better the information-laden world in which we live." From: Everybody Counts: A Report to the Nation on the Future of Mathematics Education (c) 1989 National Academy of Sciences.

ECONOMICS

Why Consider an Economics/Mathematics Major?

A degree in Economics can be the gateway to many careers. Professional economists are employed as advisors and researchers in both business and government and as teachers and researchers in academic institutions. Employment as an Economist generally requires the completion of graduate studies beyond the bachelor's degree. Western's graduates in Economics hold a variety of jobs in business and teaching. In addition, Economics graduates have a high success rate for admissions to professional schools in law and business.

Empowered with the critical thinking skills that Mathematics develops, recent Mathematics graduates from Western have obtained positions in a variety of fields including actuarial science, cancer research, computer software development, business management and the movie industry, among many others. The skills acquired in our program have prepared graduates for further academic studies in Mathematics, Computer Science, Physics, Biology, Chemistry, Oceanography and Education.

Economics/Political Science, BA

Combined major offered by the Department of Economics, College of Business and Economics and the Department of Political Science, College of Humanities and Social Sciences.

94-96 credits

Introduction

The study of Economics provides insights into decision-making, market outcomes and the functioning of the overall economy. Political Science is concerned with the structure and function of both domestic and international political systems, and engaging questions associated with American politics, international politics, public policy and political theory. The combined Economics / Political Science major provides students with

ECONOMICS

rigorous preparation in both economic theory and applications, and political processes at the national and international levels. By combining coursework in Economics and Political Science, students gain an interdisciplinary perspective important to understanding both political and economic issues. Students are trained in research methods used in Economics and Political Science, giving them interdisciplinary tools for problem solving and policy making. Students in this program will gain insight into a variety of areas including trade, monetary systems, development, and the interplay between politics and economics within the U.S. and the international system.

Why Consider an Economics/Political Science Major?

The curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in Economics/Political Science go on to law school, graduate school and into the professions. By combining coursework in both Economics and Political Science, students gain an important interdisciplinary perspective to important political and economic issues.

How to Declare (Admission and Declaration Process):

Students planning to major in Economics/Political Science should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare this combined major in economics.

Admissions: Programs in the College of Business and Economics (CBE) are selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a full Economics/Political Science major, a student must have completed the following requirements

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Complete the online application form at: cbe.wwu.edu/apply-cbe.

Students interested in Economics Major Programs, please see the Economics Department in Parks Hall 315 for information.

Political Science Department: Students are eligible to declare a political science major and any majors combined with political science if they have completed any **two** of the following core courses: PLSC 250, 261, 271, 291, or an equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Students who have no political science transfer credits: go to the Political Science department office, 415 Arntzen Hall, with an unofficial WWU transcript showing the two completed courses from the list above. Students with political science transfer credits from another institution: call 360-650-3469 to make an appointment to have credits reviewed, then visit the department office with the required documents as outlined above.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Choose one from:
 - DSCI 205 - Business Statistics **Credits: 4**
 - MATH 240 - Introduction to Statistics **Credits: 4**

 - PLSC 480 - Politics, Government and Religion **Credits: 4**
 - PLSC 493 - Issues in Political Theory **Credits: 4**
- 8-9 additional credits in upper-division political science electives, to complete the program.
- Take one Communication Focus - Economics (CF-E) or Communications Focus (CF) course within the College of Business and Economics and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF-E/CF and WP requirements.
Note: ECON 309, ECON 446 and ECON 447 may not be counted toward this major.

Economics/Social Studies, BA

Department of Economics, College of Business and Economics.

90 credits

Introduction

The study of Economics will provide an understanding of economic concepts and the functioning of the economy in addition to the ability to apply economic analysis in problem solving. The Economics Department strives to provide a program which gives students rigorous training in both economic theory and applications.

Social Studies Education is guided by the definition of social studies adopted by the National Council for Social Studies:

"Social Studies is the integrated study of the social sciences and humanities to promote civic competence. Within the school program, Social Studies provides coordinated, systematic study drawing upon such disciplines as Anthropology, Archaeology, Economics, Geography, History, Law, Philosophy, Political Science, Psychology, Religion, and Sociology, as well as appropriate content from the Humanities, Mathematics and Natural Sciences. The primary purpose of Social Studies is to help young people develop the ability to make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world."

Why Consider an Economics/Social Studies Major?

This major is open to any student who desires to study Economics and a variety of other social sciences, but it is specifically designed for students desiring to pursue a career in teaching. Secondary Education students who wish to be endorsed in Social Studies may choose this major. However, the Economics/Social Studies degree does not require that a student pursue a teaching certificate.

To receive a recommendation for state of Washington certification, students must complete the "teacher certification" program, including the content methods course SEC 426, which is offered by the Department of Secondary Education 1) as a part of the undergraduate BA degree, or 2) as a post baccalaureate program, or 3) as a part of the Master's in Teaching program. See the Secondary Education Professional Program Guide for program admission and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

- ❑ Take one Communication Focus - Economics (CF-E) or Communications Focus (CF) course within the College of Business and Economics and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The WP requirement can be met with courses from any of the combined major departments. These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF-E/CF and WP requirements.
Note: ECON 309 may not be counted toward this major.

Financial Economics, BA

Combined major offered by the department of Economics and the department of Finance and Marketing, College of Business and Economics

94-97 credits

Introduction

The study of Financial Economics will provide a combination of economic analysis and tools from accounting and finance that can be used to guide financial decisions. The Economics Department and the Department of Finance and Marketing jointly offer this major and strive to provide a program which gives students rigorous training in theory and applications of accounting, economics, and finance.

Learning goals	Learning objectives
1. Understanding of finance	Demonstrate knowledge of financial concepts
2. Understanding of economics	Demonstrate knowledge of economic concepts
3. Understanding of accounting	Demonstrate knowledge of accounting concepts
4. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
5. Quantitative skills	Analyze economic data using quantitative techniques

Why Consider a Financial Economics Major?

This major is designed for students interested in both economics and finance, and is aimed particularly at those who wish to pursue careers in corporate finance, financial analysis, insurance and real estate, and/or government agencies where special emphasis is placed on financial economic knowledge.

How to Declare (Admission and Declaration Process):

Students planning to major in Economics should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare this combined major in economics.

Admissions: Programs in the College of Business and Economics (CBE) are selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a full Economics major, a student must have completed the following requirements:

- Confirmed admission to Western Washington University
- Achieved a 2.5 cumulative college GPA (including transfer work)

Complete the online application form at: cbe.wwu.edu/apply-cbe.

Advising tips: 1) Complete MATH 157 and DSCI 205 requirements early; 2) For information regarding the MIS 220 Equivalency Exam see the Department of Decision Sciences website for test-out information: cbe.wwu.edu/mis-220-test-out; 3) Meet with your faculty advisor (assigned following admission to the major).

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ACCT 240 - Financial Accounting **Credits:** 4
- ACCT 245 - Managerial Accounting **Credits:** 4
- ACCT 341 - Intermediate Accounting Theory and Practice I **Credits:** 4
- ACCT 342 - Intermediate Accounting Theory and Practice II **Credits:** 4
- One course from:

ECONOMICS

DSCI 205 - Business Statistics **Credits:** 4

MATH 240 - Introduction to Statistics **Credits:** 4

MATH 341 - Probability and Statistical Inference **Credits:** 4
or equivalent

- ECON 206 - Introduction to Microeconomics **Credits:** 4
- ECON 207 - Introduction to Macroeconomics **Credits:** 4
- ECON 303 - The History of Economic Thought **Credits:** 4
- ECON 306 - Intermediate Microeconomics **Credits:** 4
- ECON 307 - Intermediate Macroeconomics **Credits:** 4
- ECON 375 - Introduction to Econometrics **Credits:** 4
- FIN 341 - Principles of Finance **Credits:** 4
- FIN 440 - Investments **Credits:** 4
- FIN 441 - Intermediate Financial Management **Credits:** 4
(financial economics majors only may substitute ECON 375 for DSCI 305 as the prerequisite for FIN 441)
- FIN 444 - Financial Institutions and Markets **Credits:** 4
- One course from:
 - FIN 448 - Portfolio Analysis and Management **Credits:** 4
 - FIN 449 - Cases in Financial Management **Credits:** 4
- One course from:
 - ACCT 343 - Intermediate Accounting Theory and Practice III **Credits:** 4
 - ECON 411 - Monetary Economics **Credits:** 4

 - MATH 124 - Calculus and Analytic Geometry I **Credits:** 5
 - MATH 134 - Calculus I Honors **Credits:** 5
 - MATH 138 - Accelerated Calculus **Credits:** 5
 - MATH 157 - Calculus With Applications to Business and Economics **Credits:** 4
or AP Calculus Exam with a score of 3 or better
- One course from:
 - CSCI 101 - Computers and Applications **Credits:** 4
 - MIS 220 - Introduction to Business Computer Systems **Credits:** 2
or equivalent
- 12 credits of upper-division economics electives under departmental advisement; a minimum of 8 of these credits must be at the 400 level
- 8 credits of upper-division finance electives under departmental advisement; a minimum of 4 of these credits must be at the 400 level
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
- Financial Economics majors are required to take an assessment exam prior to graduation. The test is provided at no charge. Students will be informed of the time and date of the examination. The examination requirement may be waived in the case of special circumstances by the Department Chair of Economics or Finance & Marketing or by the Dean of the College of Business and Economics.
Note: ECON 309, ECON 311, ECON 446 and ECON 447 may not be counted toward this major.

Politics/Philosophy/Economics, BA

Combined major offered by the Department of Economics, College of Business and Economics, the Department of Political Science, College of Humanities and Social Sciences and the Department of Philosophy, College of Humanities and Social Sciences

98-99 credits

Introduction

In this major, Politics, Philosophy, and Economics are combined in a multidisciplinary effort to study modern political science, questions of political philosophy, pursue social scientific research, and apply economic analysis in problem solving. The multidisciplinary trio provides a foundation in philosophy, logic, and critical thinking, political processes within the U.S. and in the international system, and the functioning of the economy with attention to economic analysis tools. Students are given preparation in the foundational materials of each of these fields, and encouraged to explore classes at the intersection of political and economic issues. Because it draws on three different research disciplines, this combined major strives to provide students with an interdisciplinary set of skills related to critical reasoning and analysis, problem solving and decision making, and social scientific research. The PPE combined major is not a triple major; rather, it strives to provide a broad exposure to these three fields.

Why Consider a Politics/Philosophy/Economics Major?

This is a multidisciplinary major designed to provide a solid foundation in disciplines critical to decision making and leadership in economic, political and social service institutions.

How to Declare (Admission and Declaration Process):

Students planning to major in Politics/Philosophy/Economics should declare their major as early as possible, preferably their first year at Western. Completion of the CBE foundation courses is not required to declare this combined major in economics.

This major must be approved by each department.

Economics Department: Students must have a 2.5 college-level GPA or better to declare an economics related major. Students can complete the online application form at: cbe.wwu.edu/apply-cbe.

Philosophy Department: In order to declare as a philosophy major or minor, one must first complete three philosophy courses (or 9 credits), with a C- or better in each of those courses. Students wishing to declare as a major or minor should contact the Academic Department Manager or the Department Chair.

Political Science Department: Students are eligible to declare the PPE major if they have completed any two of the following core courses: PLSC 250, PLSC 261, PLSC 271, PLSC 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Students who have no transfer credits for political science coursework: go to the political science department office in Arntzen Hall 415 with an unofficial WWU transcript showing the two completed courses from the list above. Students who have transfer credits for political science coursework from another institution must also bring an unofficial transcript from that institution showing the political science courses completed.

Grade Requirements

ECONOMICS

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ECON 206 - Introduction to Microeconomics **Credits: 4**
 - ECON 207 - Introduction to Macroeconomics **Credits: 4**
 - ECON 303 - The History of Economic Thought **Credits: 4**
 - One course from:
 - ECON 306 - Intermediate Microeconomics **Credits: 4**
 - ECON 307 - Intermediate Macroeconomics **Credits: 4**
 - ECON 310 - Public Finance **Credits: 4**
 - One course from:
 - MATH 124 - Calculus and Analytic Geometry I **Credits: 5**
 - MATH 134 - Calculus I Honors **Credits: 5**
 - MATH 138 - Accelerated Calculus **Credits: 5**
 - MATH 157 - Calculus With Applications to Business and Economics **Credits: 4**
(or AP Calculus Exam with score of 3 or better)
 - PHIL 102 - Introduction to Logic **Credits: 3**
 - PHIL 112 - Introduction to Philosophy: Moral Issues **Credits: 3**

How to Declare (Admission and Declaration Process):

The application process originates with the College office when the student submits an online application from via the College of Business and Economics website, cbe.wwu.edu/apply-cbe. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ECON 206 - Introduction to Microeconomics **Credits:** 4
- ECON 207 - Introduction to Macroeconomics **Credits:** 4
- Additional Economics courses selected under departmental advisement (may not include ECON 446 or ECON 447)

Economics Courses**ECON 101 - Markets and Society**

An introduction to the U.S. economy and its role in the world economy. Analysis of current economic controversies at home and abroad. Issues may include overall economic performance, problems of hunger and poverty, and the issues of economic insecurity, inequality, and sustainability. The course will examine the emergence of globalization and regionalism, and their implications for the workers and the environment.

Credits: 4**Grade Mode:** Letter**GUR Attributes:** SSC**ECON 140 - The Ecology and Economics of Salmon Recovery**

Focus on the 4 causes of salmon decline (Habitat, Hydropower, Harvest, and Hatcheries) to investigate the interactions between ecology and economics through lectures, reading and independent projects. Also offered as BIOL 140.

Prerequisites & Notes: MATH 112 or equivalent or suitable math assessment score.**Credits:** 4**Grade Mode:** Letter**GUR Attributes:** SCI**ECON 206 - Introduction to Microeconomics**

An overview of the modern market economy as a system for dealing with the problem of scarcity. Operation and decision-making of economic units; supply, demand and resource allocation; analysis of various market and industry structures; shortages, controls, social costs and benefits; international trade; comparative systems.

Prerequisites & Notes: MATH 112 or equivalent or suitable math assessment score.**Credits:** 4**Grade Mode:** Letter**GUR Attributes:** SSC**ECON 207 - Introduction to Macroeconomics**

An overview of the modern market economy as a system for dealing with the problem of scarcity. The analysis of relationships among such variables as national income, employment, inflation and the

ECONOMICS

quantity of money. The roles of government expenditure, taxation and monetary policy; international finance; economic development.

Prerequisites & Notes: ECON 101 or ECON 206 or ECON 446 or HNRS 209; MATH 112 or equivalent or suitable math assessment score.

Credits: 4

Grade Mode: Letter

GUR Attributes: SSC

ECON 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ECON 301 - Economics Issues

Applies the tools and concepts learned in introductory micro and macro economics to a variety of contemporary issues. Emphasizes verbal and written communication skills through active participation in classroom activities. Enrollment priority given to economics majors. (Communications focus course.)

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 254; or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 303 - The History of Economic Thought

Development of economic thought from the Greek philosophers to the present. Emphasis on the micro, macro and critical traditions in economics following Adam Smith.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 254; or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 306 - Intermediate Microeconomics

An analytical approach to the consumer, the firm and markets. The theory of pricing under conditions of perfect and imperfect market structures; the theory of factor markets.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202; MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 307 - Intermediate Macroeconomics

Examination of the factors that determine the level of income, employment, output and prices in an economic system. Review and analysis of recent U.S. economic policy and performance.

Prerequisites & Notes: ECON 207 or HNRS 202 or HNRS 254; MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 308 - Sports Economics

Economic analysis of the sports industry. Topics include the market for sports, the market for labor in sports, owners' goals, league structure, government involvement, and the role of the media and fans in the industry. Emphasis is on professional sports.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 309 - Managerial Economics

Application of economic principles to managerial decision making. Topics may include: Demand, costs and market structure and their relation to pricing, product choice and resource allocation. Cannot be counted towards majors in economics.

Prerequisites & Notes: ECON 206 or HNRS 202 or HNRS 209 or HNRS 254; and MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 310 - Public Finance

The efficiency, equity and stabilization impacts of public expenditure and revenue programs; emphasis on problems and institutions at the national level.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 311 - Money and Banking

The nature and functions of money and the role of depository institutions and central banks in affecting the supply of money and credit in the U.S. Considers the changing U.S. financial environment and the influence of monetary policy on interest rates, prices and the overall level of economic activity. Cannot be counted towards the Financial Economics major.

Prerequisites & Notes: ECON 206 and ECON

207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 315 - Health Economics

An introductory course in health economics. Students will learn about the supply and demand of health services as well as spending on health care. Students will gain knowledge of the health care sector and health economics in the U.S. to allow intelligent discussion/analysis of policy proposals.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 317 - European Economic History

Examines the development and industrialization process in Europe, emphasizing the main topic of what caused the industrialization process in each country. Countries to be studied include England, France, Germany and Russia.

Prerequisites & Notes: ECON 206 and 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 325 - Labor Market Economics

Economics of the labor market, including labor force participation, racial and sexual discrimination, the role of unions, collective bargaining, investments in human capital, and the structure of compensation.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 333 - Introduction to Game Theory

An analytical approach to the study of strategic interaction. Development of basic theory, including topics such as Nash equilibrium, repeated games, credibility, and mixed strategies. Applications will include markets and competition, auction design, voting, and bargaining.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 337 - Economics Study Abroad

This provides economics credit for courses taken abroad in a program approved by WWU. Students must present sufficient documentation to show

that the material was successfully completed with a letter grade and is appropriate for upper division elective credit in Economics. Repeatable to a maximum of 12 credits. S/U grading.

Prerequisites & Notes: Enrollment in a WWU-approved study abroad program.

Credits: 4

Grade Mode: S/U

ECON 340 - Economics of Regulation

This course covers broad questions regarding the benefits and costs of a wide range of regulatory policies such as: antitrust, pricing and entry regulation of public utilities, environmental regulation, and safety regulation. Included the main policy arguments concerning how and why the behavior of business should be restricted by government in its efforts to increase the well-being of the public.

Prerequisites & Notes: ECON 101 or ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 343 - Population, Environment, and World Agriculture

Utilizes economic principles to understand the interactions among population growth, food demand, agricultural development, and natural resource utilization, degradation, and conservation.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 355 - The Political Economy of Language and Culture

An examination of the economics and politics of language and language policy.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202, or admission to Fairhaven College, or instructor permission.

Credits: 2

Grade Mode: Letter

ECON 360 - Introduction to International Economics

The course will introduce students to the theory, practice, and institutions of international economics. Students will learn how the world economy works, the major benefits that it provides to people and nations, and the most serious problems that it faces.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

ECONOMICS

Credits: 4

Grade Mode: Letter

ECON 361 - Introduction to International Economics and Business

This course provides an overview of the world economy and of the role of business in international trade and investment. Students will learn about the causes of globalization and examine its consequences for individuals, nations and businesses. The focus of the course will be on examining the impact of international trade and business on economic well-being. Also offered as INTL 361.

Prerequisites & Notes: ECON 101 or ECON 206 or HNRS 209.

Credits: 4

Grade Mode: Letter

ECON 364 - Topics in Canadian Economic History

Selected issues in the development of the Canadian economy from the 17th century to the present. Examines the importance of resources, agriculture and transportation in the economic growth of Canada.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 2

Grade Mode: Letter

ECON 365 - The Canadian Economy

Examination of 20th-century Canadian economic policy. Topics focus on current economic issues in Canada.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 366 - Canadian Business Environment

This course provides an introduction to the Canadian business environment. The emphasis is on Canada-U.S. comparisons and on features of the Canadian business environment that are of greatest relevance for U.S. businesses that are considering trading with Canadian partners or investing in Canada.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207.

Credits: 4

Grade Mode: Letter

ECON 375 - Introduction to Econometrics

Use of statistical methods to estimate and test economic models. Theory and application of

multiple regression techniques, with emphasis on the problems arising in the analysis of economic data.

Prerequisites & Notes: ECON 206 and ECON 207 or HNRS 209 and ECON 207; MATH 240 or MATH 341 or DSCI 205; MATH 124 or MATH 157 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 380 - Urban Economics

Economic forces behind urban development, with emphasis on location decisions of households and firms. Economic analysis of urban problems including land use, transportation, housing and urban public finance.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 381 - American Economic History

American economic development from 17th century to present. Emphasis on resource endowment, social and economic conditions and institutions, growth and development processes, and the role of government.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 383 - Environmental Economics

Explores the economic basis of environmental issues and policies. An examination of property rights, externalities and the common-property basis of environmental problems. Alternative policies are analyzed, involving such issues as air and water pollution, solid-waste disposal, hazardous substances, wilderness preservation and the protection of endangered species.

Prerequisites & Notes: ECON 206 or HNRS 209 or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 384 - Energy Economics

The role of energy in the economy and key aspects of energy supply and demand. Topics include the interrelationships among energy use, economic growth, and the environment; conservation; solar and 'unconventional' energy sources; world oil markets; regulation of gas and electric utilities; and U.S. energy policy. Also offered as ENRG 384.

Prerequisites & Notes: ECON 206 or HNRS 209

or HNRS 254 or HNRS 202.

Credits: 4

Grade Mode: Letter

ECON 385 - Comparative Economic Systems

A comparative analysis of the major world economic systems, including a critical appraisal of underlying philosophies, economic theories, structures, and performance. Includes case studies of specific economies, and the study of reform and transformation of economic systems, especially capitalism and socialism.

Prerequisites & Notes: ECON 206 or HNRS 209; ECON 206 or ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 386 - The Economics of Electricity Markets

Electricity markets have become more complex in recent years because of new energy production and usage technologies, regulatory changes, and increased environmental concerns. This course will look at demand and supply aspects of electricity markets, including the impact of government economic and environmental regulation. Emphasis will be on the U.S. electricity market. Also offered as ENRG 386.

Prerequisites & Notes: ECON 206 or HNRS 209.

Credits: 4

Grade Mode: Letter

ECON 388 - Economics of the European Union

The European Union (EU) is the most advanced case study in multinational economic integration of our time. Topics covered include the theory of economic integration, institutions of the EU, various current policy and agenda issues, and a look at EU economic relations with the U.S. and world economies.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202; or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 389 - Economies of the Pacific Rim

The Pacific Rim treated as a distinct economic region. Topics include economic development patterns, interdependence, and economic achievements and problems. Specific emphasis on trade, development and policy relations involving the U.S., Japan and the so-called newly industrialized countries.

Prerequisites & Notes: ECON 206 and ECON 207; or HNRS 209 and ECON 207; or HNRS 202;

or HNRS 254.

Credits: 4

Grade Mode: Letter

ECON 390 - Internship in Economics

Eligibility outlined in departmental internship policy statement. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: Economics major; permission required

Credits: 2-10

Grade Mode: Letter

ECON 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ECON 406 - Topics in Microeconomics

Application of quantitative and theoretical tools in key areas of microeconomics, with emphasis on quantitative models of the consumer, cost and production analysis of the firm, and market analysis. Special topics may include choice under uncertainty, capital markets, game theory, general equilibrium theory, and the economics of information.

Prerequisites & Notes: ECON 306; ECON 375 or MATH 342 or MATH 442.

Credits: 4

Grade Mode: Letter

ECON 407 - Topics in Macroeconomics

Examination of current issues in macroeconomic theory and policy. Emphasis on recent U.S. experience, with particular attention given to inflation, unemployment, growth and the balance of payments. Includes extensive reading in current professional journals.

Prerequisites & Notes: ECON 306; ECON 307; ECON 375 or MATH 342 or MATH 442.

Credits: 4

Grade Mode: Letter

ECON 410 - Benefit-Cost Analysis

Benefit-cost analysis is an important tool for evaluating the economic impacts of public or private actions. Course provides students with a thorough understanding of the logical underpinnings of benefit-cost analysis and experience in applying benefit-cost analysis to 'real-world' problems.

ECONOMICS

Prerequisites & Notes: ECON 306 or ECON 309 or equivalent.

Credits: 4

Grade Mode: Letter

ECON 411 - Monetary Economics

Examines the theory and implementation of monetary policy. Topics may include the transmission mechanism of monetary policy, interest rate rules, the credibility of policymakers, and exchange rates. Special consideration is given to empirically measuring the impact of money on real economic variables and optimal monetary policy.

Prerequisites & Notes: ECON 307, ECON 375.

Credits: 4

Grade Mode: Letter

ECON 412 - Economics of Tax Policy

Positive and normative analysis of tax policy; topics include the taxation of savings, taxation of labor income, taxes on risk-taking and wealth, and optimal income and commodity taxation.

Prerequisites & Notes: ECON 306 and ECON 310

Credits: 4

Grade Mode: Letter

ECON 430 - Experimental Economics

This course introduces experiments as a tool in economic analysis. The course will examine experimental methodology and provide a first exposure to various experimental results. The course will stress the interaction of theory and experiment, seeking to relate questions in the theory of markets, games, and decisions to issues in experimental design and the analysis and interpretation of those results.

Prerequisites & Notes: ECON 306 or ECON 309; DSCI 205 or MATH 240 or MATH 341.

Credits: 4

Grade Mode: Letter

ECON 435 - Behavioral Economics

This course studies the role of psychological processes in economic decision making. In contrast to much of economics, behavioral economics starts with observations of actual decision making and seeks to explain how and why individuals make the choices they do. Topics may include decision heuristics, decision making under uncertainty, time inconsistency, social preferences, and neuroeconomics.

Prerequisites & Notes: ECON 306

Credits: 4

Grade Mode: Letter

ECON 442 - Industrial Organization and Public Policy

A study of firms and the markets in which they operate. Considerable emphasis placed on strategic interaction among firms. Topics include mergers, predatory pricing, advertising, patents, vertical relationships and antitrust.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECON 445 - Economics of Education

This course focuses on theoretical models exploring the quantity and quality of education. It then explores empirical evidence supporting or in opposition to these theories. Special emphasis will be placed upon models of signaling, human capital choice, externalities to education, and peer effects. The goal of this course is to provide students with enough theoretical and empirical insight to develop their own research paper in the economics of education field.

Prerequisites & Notes: ECON 306; ECON 375 or comparable statistics course

Credits: 4

Grade Mode: Letter

ECON 446 - Economics for the Teacher

Presentation of basic microeconomic concepts including the operation and decision-making of households and businesses in a market economy. Special consideration is given to the development of classroom teaching strategies involving the use of games, simulations and audiovisual aids.

Prerequisites & Notes: teaching experience or current or expected enrollment in teacher education program

Credits: 3

Grade Mode: Letter

ECON 447 - Methods for Teaching About the National Economy in the Public Schools

Forces affecting the overall levels of output, employment and prices in the U.S. economy. The economic effects of government policies involving taxes, spending and the money supply. Special consideration is given to the development of classroom teaching strategies involving the use of games, simulations and audiovisual aids.

Prerequisites & Notes: ECON 206 or HNRS 209 or ECON 446 plus teaching experience or current or expected enrollment in teacher education program.

Credits: 3

Grade Mode: Letter

ECON 448 - Methods for Teaching Personal Finance in the Public Schools

This course is designed to provide educators with the background and training that they need to successfully integrate personal finance into their classes or to develop and present a new stand alone personal finance course. The on-site portion, typically conducted in a conference setting, will be supplemented by research and a project to be completed after the classroom portion of the course.

Prerequisites & Notes: Currently certificated teacher.

Credits: 3

Grade Mode: Letter

ECON 462 - International Trade

The theory of international trade. Alternative approaches for explaining the pattern and terms of trade. An examination of the gains from trade and commercial policy. Includes issues of protectionism, economic integration and strategic trade policy.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECON 463 - International Finance

Balance of payments, adjustment mechanisms, international monetary system and international interdependence. Topics include determinants of exchange rate policy, the relationship between domestic monetary and exchange rate policies, and international policy coordination.

Prerequisites & Notes: ECON 307.

Credits: 4

Grade Mode: Letter

ECON 465 - Development Economics

This course will study the special problems faced by the less developed countries of the world and the economic mechanisms that must be taken into account in raising living standards. Topics considered may include population growth, the demographic transition, savings and capital accumulation, education and human capital, health and human capital, institutions and the development process, the role of history and multiple equilibria, the role of expectations and multiple equilibria, and economic integration.

Prerequisites & Notes: ECON 306; ECON 307; DSCI 205 or MATH 240 or MATH 341.

Credits: 4

Grade Mode: Letter

ECON 470 - Economic Fluctuations and Forecasting

Theory and techniques of forecasting economic trends at the macro, micro and regional levels. Application of regression and time-series methods using PC econometric/forecasting software.

Prerequisites & Notes: ECON 306 or ECON 307; ECON 375 or MATH 342

Credits: 4

Grade Mode: Letter

ECON 475 - Econometrics

Further topics in econometrics. Coverage may include systems of simultaneous equations, discrete-choice models, time series analysis, panel data, flexible functional forms, and nonparametric methods.

Prerequisites & Notes: ECON 306 or ECON 307; ECON 375 or MATH 342 or MATH 442

Credits: 4

Grade Mode: Letter

ECON 482 - Advanced Topics in Environmental Economics

Examines an extended set of applications in environmental economics, with a focus on deepening the student's understanding of the field. Applications involve current controversies in environmental policy and management, as well as methodological issues. Topics include climate change, solid waste management and recycling, water quality, and other issues of current interest.

Prerequisites & Notes: ECON 383 or equivalent

Credits: 4

Grade Mode: Letter

ECON 483 - Resource Economics

Principles of efficient resource allocation over time, distributional equity and cost/benefit analysis. Examines minerals and other exhaustible resources; forests, fisheries and other renewable resources; and public goods such as water and wilderness.

Prerequisites & Notes: ECON 306 or ECON 309

Credits: 4

Grade Mode: Letter

ECON 484 - Economics of Alternative Energy

Explores the economics of renewable energy and conservation. The economic history of renewable energy and the existing institutional framework are examined. Considers economic motivations for the expansion of renewable energy and conservation. Existing and prospective policies are analyzed. Examines the challenges associated with integrating renewable sources into existing energy systems. Various quantitative techniques are reviewed and practiced. Also offered as ENRG 484.

ECONOMICS

Prerequisites & Notes: ECON 384 or ENRG 384 or ECON 386 or ENRG 386.

Credits: 4

Grade Mode: Letter

ECON 491 - Issues in Political Economy

Discussion and analysis of selected issues of significant economic and political content. Also offered as PLSC 491.

Prerequisites & Notes: senior standing; economics/political science combined major, or economics major/ political science minor, or permission of instructor.

Credits: 4

Grade Mode: Letter

ECON 493 - Senior Seminar: Economics, the Environment and Natural Resources

Discussion and analysis of selected issues in the economics of the environment and natural resources.

Prerequisites & Notes: Senior standing; Economics/Environmental Studies combined major.

Credits: 4

Grade Mode: Letter

ECON 495 - Seminar in Applied Econometrics

This course involves the preparation of either an empirical research paper of publishable quality or an empirical professional consultant report, by each student. Topics vary depending on students' projects. Advanced methods in Econometrics beyond those covered in ECON 375/ECON 475 will be addressed as needed for each of the research topics.

Prerequisites & Notes: ECON 306; ECON 307; ECON 375; ECON 475.

Credits: 4

Grade Mode: Letter

ECON 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Finance & Marketing

Introduction

The Department of Finance and Marketing provides the opportunity for study of business administration relating to financial and marketing management. These fields cover a variety of responsibilities in both public and private organizations. An emphasis on breadth, general knowledge and analytical skills pervades all levels of the undergraduate curriculum. Graduates from the finance and marketing department will have completed a broad business program plus a wide range of nonbusiness subjects, reflecting the department's belief that education should prepare students for satisfying achievements in life as well as business.

Program Objectives

Departmental programs have been designed to prepare students for leadership roles in business and the community.

The educational objectives of the department are to:

- Encourage intellectual inquiry
- Provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business
- Develop student understanding of the social, economic and regulatory environment of business
- Enhance educational opportunities through research activities of faculty and students

The program is designed for students with a variety of career goals including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Faculty

EDWIN A. LOVE (2008) Chair and Professor. BA, Evergreen State College; MBA, University of Arizona; Ph.D, University of Washington.

CATHERINE ARMSTRONG SOULE (2014) Assistant Professor. BA, University of Montana; MBA, University of Montana; PhD, University of Oregon.

EARL D. BENSON (1980) Professor. BS, University of Idaho; MA, Pennsylvania State University; PhD, University of Oregon.

SOPHIE X. KONG (2006) Associate Professor. BA, Nanjing University of China; MS, PhD, Florida State University.

PAMELA L. LABORDE (1990) Associate Professor.

BS, MPA, DBA, Louisiana Tech University.

CLAIRE LENDING (2017) Assistant Professor, BS, MA, PhD. Virginia Tech.

LEE D. McCLAIN (1991) Senior Instructor. BA, MA, University of Missouri-Columbia; MBA, University of Pennsylvania

DAN PURDY (2007) Senior Instructor. BA, MBA, Western Washington University

FARROKH SAFAVI (1969) Professor. BA, BS, MBA, University of Teheran; MBA, DBA, University of Southern California.

TEJVIR SEKHON (2017), Assistant Professor. BE, University of Delhi; MBA, Indian Institute of Management; Ph.D., Marketing, Boston University Questrom School of Business.

MARK G. STATON (2012) Assistant Professor. BA, University of Virginia; MBA Boston University; MS, PhD, University of Washington.

ERIC WEHRLY (2017), BA, Gonzaga University, MBA, PhD. University of Washington.

NICHOLAS X. WONDER (2002) Associate Professor. BA, University of Washington; PhD, University of California-Berkeley.

Departmental Mission

Finance

The finance faculty provides education in finance to develop students with the goal that they will lead, manage, and positively contribute to firms and other organizations. We originate research and serve our college, university and society at large with professional expertise.

Marketing

The marketing faculty provides education in marketing. We help undergraduates and MBA's to become better learners and thinkers able to manage firms and organizations in the public interest and in a global context. We originate research and we serve our college, university and society at large with professional expertise.

Declaration Process

See the College of Business and Economics introductory section of this catalog for declaration of pre-major and major requirements and procedures.

Other Departmental Information

The Curriculum

Development of the department's curriculum has been guided by the standards of the AACSB International—The Association to Advance

FINANCE & MARKETING

Collegiate Schools of Business. Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and the business administration major foundation courses. Several foundation courses satisfy GURs, and careful planning can save time for additional elective course work. Electives that emphasize oral and written communication skills are particularly recommended.

The junior and senior years are devoted primarily to upper-division core requirements and elective course work. The department offers concentrations in finance and marketing. Students who wish to complete a concentration must pay close attention to class scheduling because of prerequisites and limited offerings of some courses. Additional specific information can be found at the department website, cbe.wvu.edu/fmkt.

Business Applications Software

The use of personal computer systems to assist in data management, analysis and reporting of results is widespread in the curriculum of the finance and marketing department. Students are expected to have some proficiency in word processing and spreadsheet software at the time they enter upper-division finance and marketing department classes. The proficiency can be gained through several means, including formal class work at a university or community college, work experience or commercially offered classes. Students who have not otherwise gained these skills are expected to test out of or register for MIS 220 prior to their registration in DSCI 305, MIS 320, and FIN 341. Additional specific information can be found at cbe.wvu.edu/fmkt.

Communications Requirements

Bachelor of Arts

Business Administration — Finance Concentration, BA

Department of Finance & Marketing, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary in making decisions and evaluating policy in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a

All business majors are required to take one communication focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-, all taken within the College of Business and Economics (CBE). Consult the online Timetable of Classes for the specific course sections that fulfill the CF and WP requirements. The requirements may normally be met by taking designated sections of concentration courses, but may be met by taking any other designated CBE course as well.

Student Advising

For answers to routine questions concerning preparation and progress through the major, students should consult the finance and marketing department and the department website. Non-routine questions should be directed to the department chair or the department's academic department manager. Questions concerning individual areas of study should be directed to faculty who teach in that area.

After the declaration of a major, a student will be assigned a faculty advisor with whom the student must consult concerning mandatory and elective courses in the chosen major and concentration. The faculty advisor may also be a source of information concerning career objectives and opportunities.

Enrollment Priorities

Because of high student demand for many business administration program courses, the department must give enrollment priority to students for whom those courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Finance Concentration in the Business Administration Major?

The field of Finance encompasses many different areas including investments, financial institutions, corporate finance and real estate. Coursework is offered in each of these areas as well as courses in options and futures, multi-national finance and insurance. A graduate with a concentration in Finance may work as a financial securities or loan officer analyst, as well as a business financial manager, portfolio manager, or financial planner stockbroker.

How to Declare (Admission and Declaration Process):

How to apply: Students who meet the requirements will be assured of admission if space is available in the department program of choice. For consideration as a pre-major, provisional major or full major, complete the online application form at: cbe.wwu.edu/apply-cbe.

Pre-major: Students who have not completed their foundation course work may apply to the College and be given pre-major status. Pre-major status is granted to students who are at least sophomore level, or who have been identified as top quintile students, and who, at the time of application, meet the following requirements:

- Minimum of a 2.50 cumulative college-level GPA including all previous institutions.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must have a WWU cumulative GPA of 2.00 or higher to be considered in good academic standing with the University.

FINANCE & MARKETING

Students with pre-major status may only enroll for foundation or core courses listed. Their progress will be monitored by the College and they will attain full major status upon successfully completing the foundation courses and meeting the admission criteria above.

Full major: For admission to the College of Business and Economics as a full major (except majors in economics and manufacturing and supply chain management) a student must meet the following requirements:

- Minimum of 2.50 cumulative GPA after having completed all foundation courses. The cumulative GPA is calculated on all college-level course work completed by the student, including any transfer work.
- Minimum of 2.30 cumulative GPA in all courses taken within the College of Business and Economics.
- Students must be in good academic standing with the University.

Students who meet the requirements will be assured of admission if space is available in the department program of choice. For economics and manufacturing and supply chain management admissions requirements, see the appropriate sections of this catalog.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Foundation Courses

- ACCT 240 - Financial Accounting **Credits:** 4
- ACCT 245 - Managerial Accounting **Credits:** 4
- DSCI 205 - Business Statistics **Credits:** 4
- ECON 206 - Introduction to Microeconomics **Credits:** 4
- ECON 207 - Introduction to Macroeconomics **Credits:** 4
- MATH 157 - Calculus With Applications to Business and Economics **Credits:** 4
- MGMT 271 - Law and the Business Environment **Credits:** 4
- MIS 220 - Introduction to Business Computer Systems **Credits:** 2 (or equivalent)

Core Courses

- DSCI 305 - Applied Business Statistics **Credits:** 4

4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a Marketing Concentration in the Business Administration Major?

Marketing includes a variety of activities relating to product and service planning, pricing, communication and distribution. Many interesting career opportunities await marketing graduates, including product and brand management, advertising, public relations, sales and sales management, marketing research, distribution/traffic management and retail management and merchandising. A strong background in behavioral sciences or computer applications will complement marketing studies.

University Graduation Requirements

Financial Economics, BA (see Economics Department)

Financial Economics, BA (see the Department of Economics)

Finance Courses

FIN 215 - Personal Finance

(Not intended for students who plan to be finance majors.) Sources of personal income, saving and consumer spending patterns. Development of techniques for planning and budgeting consumption expenditures and saving, with special emphasis on the use of saving allocations to achieve personal goals; real property, insurance, financial investment, retirement, estate and tax planning.

Credits: 4

Grade Mode: Letter

GUR Attributes: SSC

FIN 216 - Personal Investing

Introduction to stocks, bonds, and other financial assets, risk and return, and basics of trading securities. Discussion of portfolios, diversification, asset allocation, mutual funds, risk tolerance, life cycle investing, tax issues, gender issues and behavioral finance.

Credits: 4

Grade Mode: Letter

GUR Attributes: QSR

FIN 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

FIN 341 - Principles of Finance

Core principles of financial management and goal of businesses, financial institutions and markets, time value of money, capital budgeting, stock and bond valuation, capital structure, risk and return, and financial analysis and planning.

Prerequisites & Notes: Sophomore status. ACCT 245, DSCI 205, MIS 220 or equivalent.

Credits: 4

Grade Mode: Letter

FIN 345 - Real Estate

Real estate law; government regulation of real estate use; development, marketing and financing of commercial and residential real estate.

Prerequisites & Notes: Majors Only. MGMT 271, FIN 341

Credits: 4

Grade Mode: Letter

FIN 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

FIN 440 - Investments

Operation of securities markets, investment risk and return, security characteristics, portfolio selection and management, introduction to options, mutual funds, stock and bond valuation, performance evaluation.

Prerequisites & Notes: Majors Only. FIN 341

Credits: 4

Grade Mode: Letter

FIN 441 - Intermediate Financial Management

An integrated approach to financial management including study of intermediate-level financial theory and its application to financial decision making under uncertainty.

Prerequisites & Notes: Majors Only. FIN 341.

Credits: 4

Grade Mode: Letter

FIN 442 - Multinational Corporate Finance

Introduction to multinational corporate financial management. International financial operations, capital structure and investment decisions, currency risk, hedging, and related topics with consideration of institutional, ethical, regulatory, demographic, cultural and financial environment issues.

Prerequisites & Notes: Majors Only. FIN 341.

Credits: 4

Grade Mode: Letter

FIN 443 - Topics in Finance

Varying topics in finance such as financial planning, capital budgeting, working capital management and multinational corporate finance. Repeatable with various topics to a maximum of 8 cr.

Prerequisites & Notes: Majors Only. Vary by topic.

Credits: 4

Grade Mode: Letter

FIN 444 - Financial Institutions and Markets

Determination and behavior of interest rates in financial markets; measurement and management of interest rate risk; pricing of financial instruments, primarily debt securities; function and description of financial intermediaries; purpose, functions, and description of financial markets.

Prerequisites & Notes: Majors Only. FIN 341

Credits: 4

Grade Mode: Letter

FIN 446 - Derivatives Markets

Pricing of options, futures, forwards, and swaps; role of derivative contracts in hedging, speculation, and arbitrage; institutional details of derivatives markets.

Prerequisites & Notes: Majors Only. FIN 440.

Credits: 4

Grade Mode: Letter

FIN 447 - Commercial Bank Management

Management of commercial banks and similar depository institutions, emphasizing the measurement and control of risk in asset and

liability management. Issues in contemporary banking.

Prerequisites & Notes: Majors Only. FIN 444

Credits: 4

Grade Mode: Letter

FIN 448 - Portfolio Analysis and Management

Examination of issues and techniques associated with the management of investment portfolios. Topics include the development of market expectations, risk management, portfolio diversification, the inclusion of real assets and human capital in the portfolio decision, risk assessment, asset allocation, and portfolio performance measurement.

Prerequisites & Notes: Majors Only. DSCI 305 or ECON 375, FIN 440, FIN 444

Credits: 4

Grade Mode: Letter

FIN 449 - Cases in Financial Management

Case studies are utilized to develop insight and provide experience in the application of financial theory and practice to such decision-making areas as working capital management, capital budgeting, capital structure determination and dividend policy.

Prerequisites & Notes: Majors Only. FIN 441; DSCI 305 or ECON 375; knowledge of spreadsheets.

Credits: 4

Grade Mode: Letter

FIN 454 - Risk Management and Insurance

Personal and organizational risk and the means by which such risk may be minimized, transferred or otherwise managed. Employee benefits. Management and regulation of insurance companies.

Prerequisites & Notes: FIN 341

Credits: 4

Grade Mode: Letter

FIN 456 - Commercial Real Estate Investment

Investment strategy, selection, financing, appraisal of income properties such as rentals, apartments condos, office buildings, shopping centers and other secure purpose real estate.

Prerequisites & Notes: Majors Only. FIN 345

Credits: 4

Grade Mode: Letter

FIN 460 - Finance Apprenticeship

Finance-related employment, plus research and/or special project experience. Emphasis is on applying finance principles in an academically guided setting. Minimum requirements include a written

FINANCE & MARKETING

proposal, daily/weekly journals of activities, and a comprehensive final report. Personal selling and clerical activities are not acceptable. Four credits may be applied as one elective in the finance concentration, but credits may not be applied to the financial economics major. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: Majors Only. FIN 341, FIN 440. Permission of instructor.

Credits: 4

Grade Mode: Letter

FIN 466 - Option Trading Strategies

Focuses on experiential learning with each student creating and managing a portfolio of securities and options. A live paper trading platform offers real world trading experiences at real time market prices. Lectures and instructor guidance develops personal and professional knowledge and skills in using financial securities and derivatives markets.

Prerequisites & Notes: Majors only. FIN 440.

Credits: 4

Grade Mode: Letter

FIN 490 - Internship in Finance

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: Majors Only. Permission of instructor.

Credits: 1-4

Grade Mode: Letter

Marketing Courses

MKTG 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MKTG 380 - Principles of Marketing

Identification and analysis of relevant opportunities and constraints in consumer and industrial target markets. Management of the marketing mix including product planning, distribution institutions and activities, promotion and pricing.

Prerequisites & Notes: Junior status. ACCT 240; and ECON 206 or HNRS 209.

Credits: 4

Grade Mode: Letter

MKTG 381 - Fundamentals of Marketing Research

The primary tool for exploring new opportunities in the marketplace. Emphasis will be on how to: 1) specify information needs and design a research study to meet those needs; 2) collect, analyze and use marketing research data to make effective marketing decisions; 3) communicate the research findings and their implications to various publics. This course should be taken concurrently with MKTG 382.

Prerequisites & Notes: Majors Only. MKTG 380; co-requisite MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 382 - Buying Behavior and Analysis

Perception, motivation, learning, attitude structure and change, social influences and cultural forces relevant to buyer behavior and decision processes. Implications for marketing planning, analysis and management.

Prerequisites & Notes: Majors Only. MKTG 380; co-requisite MKTG 381.

Credits: 4

Grade Mode: Letter

MKTG 384 - Marketing and Sustainability

This course will provide students with the skills for developing and marketing a sustainable product. It will cover key concepts and tools related to marketing mix decisions, such as product design-for-environment, pricing based on full cost accounting, greening of the supply chain, and life cycle impact assessment. Strategies for reducing the environmental impacts of products and services will be emphasized.

Prerequisites & Notes: MKTG 380. For Declared Business and Sustainability majors only. (CBE majors take MKTG 474).

Credits: 4

Grade Mode: Letter

MKTG 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MKTG 471 - Sports Marketing

Application of marketing principles and concepts in the sports industry. Includes sponsorships, branding, promotions, public relations, licensing, and sports consumer research and behavior.

Prerequisites & Notes: Majors Only. MKTG 380.

Credits: 4

Grade Mode: Letter

MKTG 473 - Innovation

This course explores strategies for effective commercialization of innovation and key concepts in branding. Course will focus on three frameworks for innovation management, and students will discuss and apply these frameworks through several business cases.

Prerequisites & Notes: Majors only. MKTG 381 and MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 474 - Marketing Strategies for Sustainability

This course will provide students with the skills for developing and marketing a sustainable product. It will cover key concepts and tools related to marketing mix decisions, such as product design-for-environment, pricing based on full cost accounting, greening of the supply chain, and life cycle impact assessment. Strategies for reducing the environmental impacts of products and services will be emphasized.

Prerequisites & Notes: Majors only. MKTG 381 and MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 475 - Brand Management

Analysis of brand strategies and concepts such as brand identity, brand equity, and the branding process.

Prerequisites & Notes: MKTG 380, MKTG 381, MKTG 382

Credits: 4

Grade Mode: Letter

MKTG 476 - Digital Marketing

Digital Marketing addresses the various ways that today's interactive online opportunities impact marketing decisions. Topics include: marketing research through "Big Data" analytics, product co-creation, online distribution channels, dynamic pricing, as well as owned, earned and paid media, Search Engine Optimization (SEO), Pay-Per-Click (PPC) promotion, social media campaigns and others. Both strategies and implementation will be discussed.

Prerequisites & Notes: MKTG 381 and MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 477 - People and Money: Psychology and Behavior Perspective

This course explores the psychological and behavioral perspectives of consumers and their behaviors in the marketplace concerning value, money and pricing. Topics covered are basic evolutionary psychology and behavioral economics, rationality, fairness, loss aversion, reference prices, the meaning of free and pricing strategies.

Prerequisites & Notes: MKTG 381 and MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 480 - Marketing Internship

Marketing-related employment, research or special project experience. Emphasis is on applying marketing principles in an academically guided setting. Minimum requirements include a written proposal and a comprehensive final report. Cannot be used as one of the two 400-level marketing elective prerequisites for MKTG 489; however, MKTG 480 may be used as one of the four 400-level MKTG electives in the marketing concentration.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382. Permission of instructor.

Credits: 4

Grade Mode: Letter

MKTG 481 - Marketing Analytics

This course focuses on analytics as applied to the field of marketing. Although the tools used in this course are primarily Excel- and SPSS-based, modules on more specialized tools are included as well. Topics include advanced Excel functions, marketing metrics, pricing, demand forecasting, customer preference modeling, customer value, quantitative segmentation, survival analysis, attribution analysis, and data visualization. This is an applied, case-based course in which students learn a variety of tools and methods to solve marketing problems. Basic knowledge of Excel is required.

Prerequisites & Notes: Majors only. MKTG 381; MKTG 382; DSCI 305 or concurrent.

Credits: 4

Grade Mode: Letter

MKTG 482 - Personal Selling and Sales Management

FINANCE & MARKETING

Planning and implementation of personal selling activities. Management of the sales force -- objectives, recruiting, selection, training, motivation, compensation, evaluation and control. Emphasis on sustainable business-to-business selling.

Prerequisites & Notes: Majors Only. MKTG 382

Credits: 4

Grade Mode: Letter

MKTG 483 - Integrated Marketing Communications

Covers the different types of marketing communications and how to integrate them into a coherent IMC plan: advertising (media and creative strategies), sales promotion, public relations, direct marketing, event sponsorship, brand placement, internet advertising, search engine optimization, web site design, and viral communication tactics (e.g., social networks, user-generated content). Emphasis is on 'new media' and Web 2.0 strategies. Students develop a comprehensive IMC plan for an existing or invented product or service.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382

Credits: 4

Grade Mode: Letter

MKTG 484 - Retailing

Administration and strategic planning in large and small retail firms. Management of retail functions: stock planning, inventory control, markup and pricing, retail accounting, merchandising, retail promotion, human resources management, store location, design and layout, legal and ethical issues, information systems.

Prerequisites & Notes: Majors Only. MKTG 381, MKTG 382.

Credits: 4

Grade Mode: Letter

MKTG 486 - International Marketing Management

Formulation and implementation of international marketing strategies. Analysis of the contemporary global marketing environment, marketing mix issues and decisions in international markets, global competitive analysis and strategy, organizing for international marketing, current problems and practices in multinational firms.

Prerequisites & Notes: Majors Only. MKTG 380

Credits: 4

Grade Mode: Letter

MKTG 487 - Nonprofit Marketing

Marketing strategies for all types of nonprofit organizations. Includes marketing mix, as well as fund raising, volunteer management, nonprofit branding, and the use of public media.

Prerequisites & Notes: Majors Only. MKTG 381

Credits: 4

Grade Mode: Letter

MKTG 488 - Topics in Marketing

Varying topics in marketing such as distribution systems, marketing on the internet, geographic information systems in business and direct marketing. Repeatable with various topics to a maximum of 8 cr.

Prerequisites & Notes: Majors Only. Vary by topic.

Credits: 4

Grade Mode: Letter

MKTG 489 - Marketing Management and Strategy

Application of marketing management and strategic concepts in a case problem and market simulation format. Emphasis on marketing planning, implementation of the marketing mix and utilization of market research information.

Prerequisites & Notes: Majors Only. MKTG 381; MKTG 382; and two 400-level marketing courses (excluding MKTG 490).

Credits: 4

Grade Mode: Letter

MKTG 490 - Customized Internship in Marketing

Practical application of skills and theories learned in the classroom through work or special project experience in public or private organizations. Repeatable to a maximum of 12 credits. Cannot be applied to the marketing concentration.

Prerequisites & Notes: Majors Only. MKTG 381 and MKTG 382. Permission of instructor.

Credits: 1-4

Grade Mode: Letter

MKTG 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Management

Introduction

Management describes what is perhaps the most challenging and difficult of human endeavors. It is the process by which we attempt to attain goals beyond the reach of a single individual. Collective action requires that we work effectively and efficiently with and through others. Managing is not a single skill, but rather a dynamic body of knowledge with the goal of the fusion of multiple and diverse skills possessed by many into a cohesive force, the effectiveness of which exceeds the sum of its parts. Management is eclectic, drawing upon the entire fund of human knowledge and experience that is necessary to attain the goals established. Management is also almost universal in application. Any time two or more people join together in pursuit of a common goal and one leads by virtue of skill, experience, personality or authority, management has been initiated.

MEG A. WARREN (2018) Assistant Professor. BMS, University of Mumbai; MA, Alverno College; MBA, ICFAI University, India; PhD, Claremont Graduate University.

Departmental Mission

The mission of the Department of Management at Western Washington University is to advance the understanding of managerial issues in a complex environment. We do this to challenge students and faculty to achieve their professional aspirations and civic responsibilities. To accomplish this we develop an environment where students and faculty learn, integrate, and apply business principles and liberal arts.

Our values, in no particular order, are:

Higher level learning. We value learning that integrates a variety of disciplines, perspectives, and ideas. Such learning occurs on more than a rudimentary basis. We promote intellectual rigor, lifelong learning, and critical thinking. We do this both in our own research and in our teaching. We engage in service for our professional areas to promote higher level learning throughout our disciplinary communities.

Civic and community engagement. We are committed to giving our students an understanding of what it means to be a citizen of the world, community and organization. We want students to understand the importance of being engaged in the world for the sake of the organization they are a part of, but also for the benefit of the world in general, as well as for themselves. We model our commitment to civic and community engagement by serving our college and university in various roles. We also engage in service with the local community and the disciplinary communities we participate in as part of our profession.

Collegiality. By this we mean that we have respectful relationships with each other, we are open to feedback, and we communicate fully and truthfully with one another. We are interdisciplinary in our approach to research and teaching, and support each other in our own passionate pursuits. We are committed to service to our department, college and university so as to promote collegiality throughout our WWU system.

Professionalism. Professionalism is defined as presenting ourselves in a business-like manner in attire, speech, communication, and interpersonal relationships. We model professionalism and teach professionalism. We are professional with each other, our students, and community members who participate in our environment of teaching and learning. We provide our students with opportunities to practice professionalism in our

MANAGEMENT

classes and out in the community. We give feedback to our students in professional and ethical practice. We are professional in our service to the department, college, university and community.

Declaration Process

See the College of Business and Economics (CBE) introductory section of this catalog for declaration of pre-major and major requirements and procedures.

Other Departmental Information

The Curriculum

The development of the curricula in the Department of Management has been guided by the standards of the AACSB International-the Association to Advance Collegiate Schools of Business and those of the Academy of Management. These standards stress a broad education preparing students for managerial roles in business and leadership roles in society.

Curricular paths in the department are structured:

- To develop competence in analysis, decision making and evaluation in both public and private organizations
- To develop and enrich interpersonal skills
- To develop the competence to manage within the social, economic and international environment of organizations
- To provide access to the technical skills necessary in each of the major functional areas of organizations

- To enhance educational opportunity through the theoretical and applied research and business consulting activities of its faculty and students
- To encourage intellectual inquiry into the lessons and skills of the past and present so as to be able to affect the future
- To develop and promote ethical behavior and social responsibility in future managers

Students normally devote most of the freshman and sophomore years of study to completion of the General University Requirements (GURs) and foundation courses in the major. Several foundation courses also satisfy GUR. Careful planning may save time for additional elective course work. Electives which emphasize oral and written communication skills are particularly recommended. The junior and senior years are primarily devoted to core degree requirements and elective course work.

Student Advising

Students should consult this catalog and the department's Planning Guide as well as meet with the College of Business and Economics pre-major advisor. A faculty advisor will be assigned to each student upon acceptance into the major.

Enrollment Priorities

Because of high student demand for Department of Management courses, the department must give enrollment priority to students for whom those courses are requirements rather than electives. Priority is given to majors in CBE and other declared majors for whom the classes are required.

Bachelor of Arts

Business Administration — General Concentration, BA

Department of Management, College of Business and Economics

88-90 credits

The Business Administration-General Concentration is currently available to students at our Poughkeepsie campus.

Introduction

The Business Administration program is designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary to make decisions and evaluate policies in business; another is to develop student understanding of the social, economic and regulatory environments in business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider a General Concentration in Business Administration Major?

The College of Business and Economics prepares men and women for positions of leadership and stewardship in the management and administration of complex organizations — from small companies to large multinational enterprises. Students develop managerial skills, analytic economic skills and interpersonal sensitivities, as well as quantitative and accounting skills. All students earning a degree in Business Administration will develop significant understanding of management information systems and computing.

How to Declare (Admission and Declaration Process):

Admission to programs in the College of Business and Economics (CBE) is selective and based upon prior academic performance and other evidence of high promise. For admission to CBE as a Business Major with a General Concentration, students must have completed the following requirements:

General Concentration in Business Administration, BA (Poulsbo Campus only)

- Confirmed admission to Western Washington University - Apply to WWU online/Apply to WWU by Paper/Mail
- A completed Extension Transfer/Post-Baccalaureate Application
- Achieved a 2.5 cumulative college GPA (including transfer work)
- A plan that includes completion of the CBE foundation courses (if not completed before applying to WWU)

To help the Admissions Office match up your documents, we recommend that you include your full name and date of birth on all materials.

Mail all application materials to:

MANAGEMENT

Western Washington University
Office of Admissions
516 High Street
Bellingham, WA 98225

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Foundation Courses

- ACCT 240 - Financial Accounting **Credits: 4**
- ACCT 245 - Managerial Accounting **Credits: 4**
- DSCI 205 - Business Statistics **Credits: 4**
- ECON 206 - Introduction to Microeconomics **Credits: 4**
- ECON 207 - Introduction to Macroeconomics **Credits: 4**
- MATH 157 - Calculus With Applications to Business and Economics **Credits: 4**
- MGMT 271 - Law and the Business Environment **Credits: 4**
- MIS 220 - Introduction to Business Computer Systems **Credits: 2** (or equivalent)

Core Courses

- DSCI 305 - Applied Business Statistics **Credits: 4**
- FIN 341 - Principles of Finance **Credits: 4**
- MGMT 311 - Introduction to Management and Organizational Behavior **Credits: 4**
- MGMT 382 - Business and Its Environment **Credits: 4**
- MIS 320 - Principles of Management Information Systems **Credits: 4**
- MKTG 380 - Principles of Marketing **Credits: 4**
- OPS 360 - Operations Management **Credits: 4**

Advanced Core

- One course from:
 - MGMT 492 - Entrepreneurial Problems **Credits: 4**
 - MGMT 495 - Strategic Management **Credits: 4**

General Concentration Courses

- 28 credits of approved upper-division elective courses:
Students in the department may elect to work with their faculty advisor in designing a set of upper-division courses appropriate to their academic interests. The resulting course of study shall have prior approval of the advisor and include the following: HRM 322 or HRM 422, MGMT 313 and five additional upper-division CBE courses. Students interested in entrepreneurial management or human resource management should select the general option and inform the department of that interest. They will be advised of the preferred courses for students intending to embark upon entrepreneurial or human resource management careers or careers in small business.
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the CBE catalog for more information. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Business Administration — International Business Concentration, BA

Department of Management, College of Business and Economics

88-90 credits

Introduction

The Business Administration program has been designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary to make decisions and evaluate policies in business; another is to develop student understanding of the social, economic and regulatory environments in business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology
3. Ethical and legal perspective	Analyze problems using an ethical perspective Analyze the legal implications of business decisions
4. Creative problem solving and critical thinking	Critically analyze problems Generate multiple alternative solutions Defend resolutions to problems
5. Quantitative skills	Solve business problems using quantitative techniques

Why Consider an International Business Concentration in Business Administration Major?

An International Business concentration prepares a student to work with business relationships across borders in a variety of situations. Often combining some training in language and in other business areas, graduates should be able to help manage these business relationships that are central to the global environment that will define their careers. For more information, see the IBUS website.

How to Declare (Admission and Declaration Process):

Students must confirm admission to Western Washington University before submitting an application to the College of Business and Economics (CBE). Students are encouraged to submit applications as soon as they

MANAGEMENT

meet the requirements to apply, which vary by major/concentration. Applications are submitted using an online form, located on the CBE website (cbe.wvu.edu/apply-cbe). Some major/concentration applications have quarterly deadlines, while others are processed on a continual basis. Information regarding application deadline dates is listed on the CBE application webpage.

All students with a Western GPA must be in good standing with the University (cumulative Western GPA must be 2.00 or higher). Transfer students with no Western GPA at the time of CBE application must maintain good standing with the University moving forward. See information CBE major/concentration-specific regarding GPA requirements below.

Invited Distinguished Scholars may apply to all CBE programs following the requirements they receive from CBE.

Retention Standards

In order to remain in good standing in CBE for all programs excluding Economics, pre-majors and full majors must remain in good standing with the University (cumulative Western GPA must be 2.00 or higher) and must maintain a minimum CBE GPA of 2.30 (calculated using all courses given by CBE, including every graded attempt).

For Economics degrees, excluding combined degrees, student must maintain a minimum cumulative Western GPA of 2.00.

Should students fall below retention standards, they will receive a warning and have one quarter in which to repair their GPAs. If GPAs remain below CBE standards, students will be dropped from the college.

Please note: No individual course grade lower than a C- will be accepted and credited toward degree requirements.

Academic Status

When students in CBE programs with pre-major status available are enrolled in their last foundation course(s), they will be considered provisional majors and allowed to register for major-restricted courses the following quarter. Students who do not successfully complete their last foundation course(s) and meet all requirements for full major status (cumulative 2.50 or higher all-college GPA, cumulative 2.30 or higher CBE GPA, 2.00 or higher Western GPA) will be reverted to pre-majors and cannot enroll in major-restricted courses until they have successfully completed their foundation courses. Students are eligible for provisional major status in CBE only once. Provisional major status is not applicable for Economics. (Students are full majors immediately in this department.)

Requirements to apply for:

- Business Administration, BA
 - Concentrations within the degree:
 - Finance
 - International Business
 - Management
 - Management Information Systems
 - Marketing
 - Operations Management
- Business Administration General Concentration, BA (Poulsbo Campus only)

Application deadlines apply. Students with 45 or more college-level credits, an all-college GPA of 2.50 or higher, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the business foundation courses will be admitted as pre-majors. Please note: For the BA in Business Administration, students have several choices of concentration, but are not guaranteed full major status in any specific concentration area. Requirements vary for full-major status depending on the concentration. See the CBE application webpage and department webpages for each concentration's full-major admissions requirements.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

- Other 300 or 400 level course with International Content approved by advisor

Complete at least one of the following:

- An approved foreign education experience
- A second-year college-level language study
- A qualified global internship

Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements. An International Business student completing a double major may satisfy the upper-division writing proficiency requirement in either major.

Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Business Administration — Management Concentration, BA

Department of Management, College of Business and Economics

88-90 credits

Introduction

The Business Administration program is designed to prepare students for leadership roles in business and the community. One program objective is to provide students with the perceptual and analytical skills necessary to make decisions and evaluate policies in business; another is to develop student understanding of the social, economic and regulatory environment of business. The program is designed for students with a variety of career goals, including opportunities with financial institutions, manufacturing and retail firms, service industries and the public sector.

Learning goals	Learning objectives
1. Understanding of business and economics	Demonstrate breadth of knowledge and skills in general business and economics Demonstrate disciplinary knowledge and skills
2. Effective communication skills	Produce quality business documents Deliver a professional quality presentation supported by appropriate technology

- | | |
|---|--|
| 3. Ethical and legal perspective | Analyze problems using an ethical perspective
Analyze the legal implications of business decisions |
| 4. Creative problem solving and critical thinking | Critically analyze problems
Generate multiple alternative solutions
Defend resolutions to problems |
| 5. Quantitative skills | Solve business problems using quantitative techniques |

Why Consider a Management Concentration in Business Administration Major?

A management concentration prepares a student to work with people in a variety of contexts. While other business disciplines focus on business tasks, management focuses on how to motivate others to accomplish these tasks efficiently and effectively with high quality results. Students learn how to manage projects, work with teams, implement changes, and be effective leaders.

How to Declare (Admission and Declaration Process):

Students must confirm admission to Western Washington University before submitting an application to the College of Business and Economics (CBE). Students are encouraged to submit applications as soon as they meet the requirements to apply, which vary by major/concentration. Applications are submitted using an online form, located on the CBE website (cbe.wwu.edu/apply-cbe). Some major/concentration applications have quarterly deadlines, while others are processed on a continual basis. Information regarding application deadline dates is listed on the CBE application webpage.

All students with a Western GPA must be in good standing with the University (cumulative Western GPA must be 2.00 or higher). Transfer students with no Western GPA at the time of CBE application must maintain good standing with the University moving forward. See information CBE major/concentration-specific regarding GPA requirements below.

Invited Distinguished Scholars may apply to all CBE programs following the requirements they receive from CBE.

Retention Standards

In order to remain in good standing in CBE for all programs excluding Economics, pre-majors and full majors must remain in good standing with the University (cumulative Western GPA must be 2.00 or higher) and must maintain a minimum CBE GPA of 2.30 (calculated using all courses given by CBE, including every graded attempt).

For Economics degrees, excluding combined degrees, student must maintain a minimum cumulative Western GPA of 2.00.

Should students fall below retention standards, they will receive a warning and have one quarter in which to repair their GPAs. If GPAs remain below CBE standards, students will be dropped from the college.

MANAGEMENT

Please note: No individual course grade lower than a C- will be accepted and credited toward degree requirements.

Academic Status

When students in CBE programs with pre-major status available are enrolled in their last foundation course(s), they will be considered provisional majors and allowed to register for major-restricted courses the following quarter. Students who do not successfully complete their last foundation course(s) and meet all requirements for full major status (cumulative 2.50 or higher all-college GPA, cumulative 2.30 or higher CBE GPA, 2.00 or higher Western GPA) will be reverted to pre-majors and cannot enroll in major-restricted courses until they have successfully completed their foundation courses. Students are eligible for provisional major status in CBE only once. Provisional major status is not applicable for Economics. (Students are full majors immediately in this department.)

Requirements to apply for:

- Business Administration, BA
 - Concentrations within the degree:
 - Finance
 - International Business
 - Management
 - Management Information Systems
 - Marketing
 - Operations Management
- Business Administration General Concentration, BA (Poulsbo Campus only)

Application deadlines apply. Students with 45 or more college-level credits, an all-college GPA of 2.50 or higher, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the business foundation courses will be admitted as pre-majors. Please note: For the BA in Business Administration, students have several choices of concentration, but are not guaranteed full major status in any specific concentration area. Requirements vary for full-major status depending on the concentration. See the CBE application webpage and department webpages for each concentration's full-major admissions requirements.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Foundation Courses

- ACCT 240 - Financial Accounting **Credits: 4**
- ACCT 245 - Managerial Accounting **Credits: 4**
- DSCI 205 - Business Statistics **Credits: 4**
- ECON 206 - Introduction to Microeconomics **Credits: 4**

 - MGMT 437 - International Service Learning **Credits: 10**
 - MGMT 474 - Topics in Management **Credits: 4**
 - MGMT 481 - Managing Cultural Diversity **Credits: 4**
 - MGMT 490 - Internship in Business Administration **Credits: 4**
 - MGMT 491 - Small Business Entrepreneurship **Credits: 4**
 - HRM 424 - Training and Development **Credits: 4**
 - Any other 400-level HRM courses that are offered.
 - ENTR 346 - Intermediate Entrepreneurship and Innovation Experience **Credits: 4**
 - One 300- or 400-level course with written advisor approval.
- Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP) at WWU with a minimum grade of C-. The CF and WP courses must be taken within CBE and can be completed as part of the above required and elective courses, prior to graduation. Consult the Timetable of Classes for the specific course sections that fulfill the CR and WP requirements.
- Accounting and Business majors must complete a minimum of 90 credits in areas other than accounting and business administration.

Business and Sustainability — Energy Studies Concentration, BA

Combined major offered by the Department of Management, College of Business and Economics, and the Energy Studies, University Interdisciplinary Programs

111-112 credits

Introduction

The State of Washington is a leader in responding to the societal imperative regarding environmental issues. This Bachelor of Arts degree in Business and Sustainability is an action component of the state's initiatives. This degree combines three areas of study that give graduates the necessary knowledge, skills, and abilities to operate in a changing economic and social environment.

Graduates from this program will possess:

- A fundamental knowledge of economics, giving them the skills to apply economic analysis to problems in sustainable business faced by modern organizations;

MANAGEMENT

- A fundamental knowledge of environmental science and policy, giving them the ability to understand the social and political climate as well as the scientific issues involved in sustainable business;
- An extensive knowledge of business and management in the context of business sustainability giving them the basic skills needed to succeed in organizations.

Why Consider a Business and Sustainability Major?

A Business and Sustainability Major prepares a student to analyze environmental and social issues from multiple perspectives, decide on action steps to deal with those issues, and then implement those action steps successfully. Need for these actions will only grow as environmental issues, including climate change, waste, and pollution become more central in the operations of organizations. This degree compliments the state's initiative involving private enterprise, not-for-profit organizations, and government.

Energy Studies Concentration:

The transition to a more sustainable energy system is a key to reconciling our economic and environmental aspirations. WWU graduates are finding growing opportunities in the emerging energy economy in Washington and beyond. Today's diverse energy business demands knowledge of core business skills, understanding of energy policy and management, and broad exposure to the science, environmental, business and policy aspects of the energy system that drive energy-related businesses and their governing policies. The energy concentration in the Business and Sustainability major gives graduates a strong blend of analytic and communication skills, along with energy-related expertise that industry and government experts have identified as essential to workforce needs in the emerging energy economy.

How to Declare (Admission and Declaration Process):

Students planning to major in Business and Sustainability should declare their major as early as possible, preferably their first year at Western through the College of Business and Economics.

Admission Process

Students must confirm admission to Western Washington University before submitting an application to the College of Business and Economics (CBE). Students are encouraged to submit applications as soon as they meet the requirements to apply, which vary by major/concentration. Applications are submitted using an online form, located on the CBE website (cbe.wwu.edu/apply-cbe). Some major/concentration applications have quarterly deadlines, while others are processed on a continual basis. Information regarding application deadline dates is listed on the CBE application webpage.

All students with a Western GPA must be in good standing with the University (cumulative Western GPA must be 2.00 or higher). Transfer students with no Western GPA at the time of CBE application must maintain good standing with the University moving forward. See information CBE major/concentration-specific regarding GPA requirements below.

Invited Distinguished Scholars may apply to all CBE programs following the requirements they receive from CBE.

Retention Standards

In order to remain in good standing in CBE for all programs excluding Economics, pre-majors and full majors must remain in good standing with the University (cumulative Western GPA must be 2.00 or higher) and must maintain a minimum CBE GPA of 2.30 (calculated using all courses given by CBE, including every graded attempt).

For Economics degrees, excluding combined degrees, student must maintain a minimum cumulative Western GPA of 2.00.

Should students fall below retention standards, they will receive a warning and have one quarter in which to repair their GPAs. If GPAs remain below CBE standards, students will be dropped from the college.

Please note: No individual course grade lower than a C- will be accepted and credited toward degree requirements.

Academic Status

When students in CBE programs with pre-major status available are enrolled in their last foundation course(s), they will be considered provisional majors and allowed to register for major-restricted courses the following quarter. Students who do not successfully complete their last foundation course(s) and meet all requirements for full major status (cumulative 2.50 or higher all-college GPA, cumulative 2.30 or higher CBE GPA, 2.00 or higher Western GPA) will be reverted to pre-majors and cannot enroll in major-restricted courses until they have successfully completed their foundation courses. Students are eligible for provisional major status in CBE only once. Provisional major status is not applicable for Economics. (Students are full majors immediately in this department.)

Requirements to apply for:

- Business and Sustainability BA
- Business and Sustainability: Energy Studies Concentration BA

Application deadlines apply. Students with an all-college GPA of 2.50 or higher, and a cumulative CBE GPA (if any business courses have been completed at Western) of 2.30 or higher may apply regardless of how many business courses have been completed. Students who have not completed the business foundation courses will be admitted as pre-majors. Students who have completed all foundation courses will be admitted as full majors.

MANAGEMENT

☐ Take one Communication Focus (CF) course and a minimum of three writing proficiency points in approved upper-division writing proficiency courses (WP-3 points) at WWU with a minimum grade of C-. The CF course must be taken within the College of Business and Economics, while the WP requirement can be met with courses from any of the combined major colleges (College of Business and Economics, and Huxley College of the Environment). These requirements can be completed as part of the above required and elective credits. Consult the Timetable of Classes for the specific course sections that fulfill the CF and WP requirements.

Minor

International Business Minor

Department of Management, College of Business and Economics

32 credits

Introduction

This minor is designed for students who want to add an international business dimension to a major in another functional area, either in the College of Business and Economics or in one of the other majors at Western Washington University. The student who completes this minor will have a) a general introduction to the cultural, institutional and regulatory structures necessary to do international business; b) two courses that add more focused international knowledge, and c) a course on the management and strategic issues in doing business internationally. Students from outside the College of Business and Economics will also acquire a basic knowledge of the 'language' of business and economics.

Why Consider an International Business Minor?

An International Business Minor prepares a student to work with business relationships across borders in a variety of situations. Graduates should be able to help manage these business relationships that are central to the global environment that will define their careers.

How to Declare (Admission and Declaration Process):

Students not already admitted to the College of Business and Economics must have a 2.50 GPA in all WWU courses including the following CBE courses: ECON 206, ACCT 240 and (ECON 207, MGMT 311 or MGMT 271).

The application process originates with the College office when the student submits an online application form via the College of Business and Economics website, cbe.wvu.edu/apply-cbe. Applications will be reviewed against admission criteria by College staff with every effort being made to inform the student of their status in a timely manner.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ACCT 240 - Financial Accounting **Credits: 4**
- ECON 206 - Introduction to Microeconomics **Credits: 4**
- One course from:
 - ECON 207 - Introduction to Macroeconomics **Credits: 4**
 - MGMT 271 - Law and the Business Environment **Credits: 4**
 - MGMT 311 - Introduction to Management and Organizational Behavior **Credits: 4**
- Required International Business Courses:
 - IBUS 370 - Introduction to International Business **Credits: 4**
 - IBUS 470 - International Business Operations **Credits: 4**
- Choose one additional International Business (IBUS) Elective course:
 - IBUS 372 - Cross-cultural Management **Credits: 4**
 - IBUS 473 - International Trade Operations **Credits: 4**
 - IBUS 474 - Topics in International Business **Credits: 4**

Electives

- Choose a total of two courses from the following International courses:
 - ACCT 451 - International Accounting **Credits: 4**
 - FIN 442 - Multinational Corporate Finance **Credits: 4**
 - MGMT 481 - Managing Cultural Diversity **Credits: 4**
 - MKTG 486 - International Marketing Management **Credits: 4**
 - OPS 461 - Project Management **Credits: 4**
 - OPS 466 - Supply Chain Management and Procurement **Credits: 4**
 - ECON 343 - Population, Environment, and World Agriculture **Credits: 4**
 - ECON 360 - Introduction to International Economics **Credits: 4**
 - ECON 365 - The Canadian Economy **Credits: 4**
 - ECON 385 - Comparative Economic Systems **Credits: 4**
 - ECON 388 - Economics of the European Union **Credits: 4**
 - ECON 389 - Economies of the Pacific Rim **Credits: 4**
 - ECON 462 - International Trade **Credits: 4**
 - ECON 463 - International Finance **Credits: 4**
 - INTL 305 - Education Abroad **Credits: 0-30**
 - INTL 306 - Education Abroad: Direct Exchange 1 **Credits: 1-30**
 - INTL 307 - Education Abroad: Direct Exchange 2 **Credits: 1-30**
 - INTL 308 - Education Abroad: Direct Exchange 3 **Credits: 1-30**
 - INTL 405 - Education Abroad **Credits: 1-30**
 - INTL 406 - Education Abroad: Direct Exchange 1 **Credits: 1-30**
 - INTL 407 - Education Abroad: Direct Exchange 2 **Credits: 1-30**
 - INTL 408 - Education Abroad: Direct Exchange 3 **Credits: 1-30**
 - Advisor Approved Course with International Content

Human Resource Management Courses

HRM 322 - Human Resource Management

Recruitment, selection, utilization and development of human resources, with emphasis on employee-management relations and relevant behavioral research.

Prerequisites & Notes: Majors Only. MGMT 271, MGMT 311.

Credits: 4

Grade Mode: Letter

HRM 422 - Human Resource Management Practicum

Experience-based course that covers both the theories and tools needed to understand the management of human resources. Topics include career planning, staffing, training, organizational development, safety and employment law.

Prerequisites & Notes: MGMT 271 and MGMT 311

Credits: 4

Grade Mode: Letter

HRM 423 - Staffing

Recruiting and selection as related to organizational objectives. Legal requirements, selection models, validation and topical issues of importance.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 424 - Training and Development

Training as related to organizational objectives. Emphasis on training models, learning theory, evaluation methodologies, instructional techniques and topics of special interest.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 425 - Negotiations and Labor Relations

Uses cases, lectures and simulations to develop negotiation skills in a variety of management situations, including union-management relations. Issues include pre-employment discussions, collective bargaining, arbitration, mediation, agency, renegotiating contracts, and multiparty discussions.

Prerequisites & Notes: Majors Only. HRM 322 or

HRM 422.

Credits: 4

Grade Mode: Letter

HRM 426 - Current Issues in Human Resource Management

Current problems in human resource policy and practice.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 427 - Compensation Administration

Examination of theories, models and procedures required to develop compensation and reward systems in organizations. Economic, psychological and social elements of compensation.

Determination of compensation structures and differentials, forms of compensation and reward, compensation levels.

Prerequisites & Notes: Majors Only. HRM 322 or HRM 422.

Credits: 4

Grade Mode: Letter

HRM 490 - Internship in Human Resource Management

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable up to 12 credits including original course.

Prerequisites & Notes: business administration students only.

Credits: 1-4

Grade Mode: Letter

International Business Courses

IBUS 370 - Introduction to International Business

Introduction to the environment and challenges of doing business abroad. Topics include country-market differences, trade and investment patterns, the international financial environment, issues in business-government relations and strategies for international business.

Prerequisites & Notes: ECON 206 or HNRS 209.

Credits: 4

Grade Mode: Letter

IBUS 372 - Cross-cultural Management

This course is concerned with various perspectives on, and elements of, differences in national culture, the relevance of cultural differences to key management issues, and applied issues associated with management in cross-cultural contexts. This means that the course considers various disciplinary approaches to understanding national culture, and relates them to key applied management topics such as motivation, leadership, decision making, and negotiations.

Prerequisites & Notes: Open to CBE majors. IBUS 370 or MGMT 313. Students in other majors may request permission from instructor.

Credits: 4

Grade Mode: Letter

IBUS 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

IBUS 470 - International Business Operations

Strategic and operational issues that firms face when they do business abroad. Themes include the competitiveness challenge, country-market analysis and entry strategies, negotiations and diplomacy, cooperative ventures, design and control of international operations, and various functional area issues.

Prerequisites & Notes: Majors Only. IBUS 370 or another international course in the College of Business and Economics.

Credits: 4

Grade Mode: Letter

IBUS 473 - International Trade Operations

Operations of firms using exporting as a means to serve foreign markets. Focus on export operations (documentation, transport, support services, financing), practical aspects of contract negotiations, alternative methods of export business arrangements.

Prerequisites & Notes: Majors Only. IBUS 370 or MKTG 486.

Credits: 4

Grade Mode: Letter

IBUS 474 - Topics in International Business

Varying topics in international business. This could include courses on business in specific areas of the world, specific international business topics (e.g.

negotiation), or currently important topics in the international business field. May Be Repeated for Credit on a Different Topic (up to 8 credits).

Prerequisites & Notes: Majors Only. IBUS 370 or equivalent of permission of instructor.

Credits: 4

Grade Mode: Letter

IBUS 490 - Internship in International Business

Practical application of international business skills and theories learned in the classroom through work or special projects experience in private or public organizations. Repeatable up to 12 credits including original course. Also offered as MGMT 490.

Prerequisites & Notes: Majors Only. Business administration students only.

Credits: 1-4

Grade Mode: Letter

Management Courses

MGMT 201 - Introduction to Business

A survey of the field. Introduction to the major functional areas comprising business or organizations. Recommended for students not intending to major in the College of Business and Economics.

Credits: 4

Grade Mode: Letter

GUR Attributes: QSR

MGMT 202 - Perspectives on Business

An introduction to perspectives on the nature of business in society, the development of the firm and how organizations function.

Prerequisites & Notes: Enrollment in CBE Distinguished Scholars Program

Credits: 2

Grade Mode: Letter

MGMT 271 - Law and the Business Environment

Historical development of legal institutions, the judicial process, and impact of the law upon individual and business decision making.

Prerequisites & Notes: only one of MGMT 271, PLSC 311, or FAIR 311B may be taken for GUR credit.

Credits: 4

Grade Mode: Letter

GUR Attributes: SSC

MGMT 300 - Directed Independent Study

MANAGEMENT

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MGMT 311 - Introduction to Management and Organizational Behavior

Introduction to organization theory, behavior and interpersonal communication; concepts of power, authority and influence; the role of philosophy and values in organizations.

Credits: 4

Grade Mode: Letter

MGMT 313 - Teamwork Basics

An introduction to teamwork concepts and skills. Covers structural and process attributes of teams with the objective of enhancing team leader or member effectiveness.

Prerequisites & Notes: Majors Only. MGMT 311

Credits: 4

Grade Mode: Letter

MGMT 315 - Career Preparation

This course provides a framework for understanding business etiquette and professionalism. Through practical and hands-on experiences students prepare for the job search process and learn skills necessary to succeed in their future career. S/U grading.

Credits: 1

Grade Mode: S/U

MGMT 319 - Business Communications

Business writing principles applied to various types of communications and reports. Cases used; work must be submitted in acceptable business format.

Prerequisites & Notes: ENG 101 or equivalent

Credits: 4

Grade Mode: Letter

MGMT 337 - Management Study Abroad

Management elective credit for upper-division courses taken at a WWU-approved study abroad program. Students must present sufficient documentation to show the material was successfully completed with a letter grade and the content is appropriate for upper-division elective credit in management. Repeatable up to 12 credits. S/U grading.

Prerequisites & Notes: Majors only.

Credits: 4

Grade Mode: S/U grading

MGMT 359 - Greening Business Policy and Practice

This course will provide both a survey and applications of major U.S. and Washington state policies and practices supporting the greening of business. Also offered as ENVS 359.

Prerequisites & Notes: Completion of Huxley ENVS Major Phase I or ESCI Major or CBE Major or permission of instructor.

Credits: 4

Grade Mode: Letter

MGMT 365 - Industrial Purchasing

Prerequisites & Notes: MGMT 360.

Credits: 4

Grade Mode: Letter

MGMT 380 - Business History of the United States

Business history of the United States. Review and analysis of the organizational methods, performance, climate and entrepreneurship of American business from 1780 to the present.

Prerequisites & Notes: ECON 206 or HNRS 209.

Credits: 4

Grade Mode: Letter

MGMT 382 - Business and Its Environment

A study of the business decision-making process as these decisions interact with the social, technological, political/legal and economic environments. The causes and effects of the regulation of business are developed and explored.

Prerequisites & Notes: Majors only. MGMT 271.

Credits: 4

Grade Mode: Letter

MGMT 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MGMT 401 - Conflict Management and Negotiations

Examination of the theory and practice of interpersonal conflict management and

negotiations in organizations. Uses cases and simulations to develop negotiation skills. Topics include conflict resolution, distributive and integrative negotiation techniques and outcomes, mediations, and collaboration.

Prerequisites & Notes: Majors Only. MGMT 313
Credits: 4
Grade Mode: Letter

MGMT 405 - Developing High-Quality Relationships at Work

This course explores the positive potential of everyday interactions in the context of professional relationships. Emphasis is placed on the "how" of building and maintaining authentic, enlivening, fulfilling relationships. Organizational conditions that support or inhibit the cultivation of high-quality relationships are also considered. Significant attention is given to personal reflection, discussion, and skill development.

Prerequisites & Notes: MGMT 313.
Credits: 4
Grade Mode: Letter

MGMT 413 - Organizational Change Practicum

Field-based course that covers both the theories and tools needed to implement change in organizations. Topics include individual resistance to change, ethics in change management and consulting, issues in organizational change, organizational development, and change management.

Prerequisites & Notes: Majors Only. MGMT 313.
Credits: 4
Grade Mode: Letter

MGMT 414 - Leadership Practicum

A problem-based leadership course with emphasis on leading teams, leading organizational change, and self-leadership.

Prerequisites & Notes: Majors Only. OPS 461; MGMT 313.
Credits: 4
Grade Mode: Letter

MGMT 415 - Creativity, Innovation and Leadership

Creativity and innovation are the future. Leaders who can inspire creativity and innovation in others throughout their organization will be successful in any role, industry, or location. Leaders who can themselves build teams to solve problems creatively will thrive in the organizations of the future. In this class, students will have an opportunity to build skills related to inspiring creativity and innovation in both themselves and others. Upon completing this course, students will

have the skills to work with others in creative endeavors in many organizational contexts. Be prepared to get messy and creative!

Prerequisites & Notes: Major status.
Credits: 4
Grade Mode: Letter

MGMT 417 - Social Entrepreneurship

This course is about using entrepreneurial skills to craft innovative responses to social problems. Entrepreneurs are particularly good at recognizing opportunities, exploring innovative approaches, mobilizing resources, managing risks, and building viable enterprises. These skills are just as valuable in the social sector as they are in business. Social entrepreneurship applies to both profit and non-profit firms who have programs designed to create social value.

Prerequisites & Notes: MGMT 271
Credits: 4
Grade Mode: Letter

MGMT 437 - International Service Learning

This course is an interdisciplinary faculty-led study abroad and service learning experience. Students will participate in both classroom and applied learning opportunities that include: pre-trip orientation, group instruction, reading, writing and critical reflection assignments, learning from and with indigenous knowledge sources, cross-cultural service and immersion activities, post-trip reorientation, and culminating projects for positive social change. Students will be guided in their academic areas of interest by faculty, staff and Rwandan partners, and are expected to be active participants in their own learning. This course is designed to enable students to get the most out of their international experience by developing their knowledge, skills and values and their application in an intercultural context.

Prerequisites & Notes: Instructor permission.
Credits: 10
Grade Mode: Letter

MGMT 466 - Greening Business Applications

This course is an experiential capstone combining faculty and student teams from the College of Business and Economics and Huxley College of the Environment. Student groups prepare a Green Business Assessment for a community or campus organization and compile, distribute, and present a final report to the campus and the client organizations. Also offered as ENV5 466.

Prerequisites & Notes: CBE Major or Huxley Major or permission of instructor; priority given to majors in Business and Sustainability. Senior status.

MANAGEMENT

Credits: 5

Grade Mode: Letter

MGMT 474 - Topics in Management

Varying topics in Management. Courses cover current issues and trends in the management field. Repeatable with different topics up to 8 credits, including original course.

Prerequisites & Notes: Majors only; MGMT 313.

Credits: 4

Grade Mode: Letter

MGMT 481 - Managing Cultural Diversity

Management of persons from diverse countries and cultures. Culture-specific issues and issues of diversity in the workplace. Problems, cases and research assignments associated with managing in a multicultural and international work environment.

Prerequisites & Notes: Majors Only. MGMT 311

Credits: 4

Grade Mode: Letter

MGMT 483 - Ethics in Business Decisions

An investigation of ethical theories and their application to issues faced by managers. An analysis of the morality of capitalism as a social system, and the ethical issues involved in international business operations.

Prerequisites & Notes: Majors Only. MGMT 382

Credits: 4

Grade Mode: Letter

MGMT 490 - Internship in Business Administration

Practical application of skills and theories learned in the classroom through work or special project experience in private or public organizations. Repeatable to 12 credits including original course. Also offered as IBUS 490.

Prerequisites & Notes: Majors Only.

Credits: 4

Grade Mode: Letter

MGMT 491 - Small Business Entrepreneurship

Planning, marketing, financial, legal, control and human elements associated with the start up, acquisition and operation of a small business from the entrepreneurial point of view.

Prerequisites & Notes: Majors Only. MGMT 311, FIN 341, MKTG 380, OPS 360, and MIS 320 or ACCT 321.

Credits: 4

Grade Mode: Letter

MGMT 492 - Entrepreneurial Problems

Field consulting work and study under faculty supervision with small business entrepreneurs in the local business community, directed towards solving varied real-life small business problems.

Prerequisites & Notes: Majors Only. MGMT 491

Credits: 4

Grade Mode: Letter

MGMT 495 - Strategic Management

Case study of policy making and administration from a general management point of view. Emphasis on problem analysis, the decision-making process, administration and control, and development of policies and objectives.

Prerequisites & Notes: Majors Only. MGMT 311, FIN 341, MKTG 380, OPS 360, and MIS 320 or ACCT 321.

Credits: 4

Grade Mode: Letter

MGMT 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Master of Business Administration

Program Description

The Master of Business Administration (MBA) program is a rigorous, integrated, graduate business program designed to prepare students for responsible leadership positions in private, public and not-for-profit organizations, as well as in entrepreneurial ventures. The Western MBA curriculum provides a balance of theory and application essential for managerial excellence. The program is intended for the active manager and technical supervisor as well as those looking for new opportunities at the mid-management level. Regardless of undergraduate degree, candidates will find a challenging program designed to meet their specific background and needs. The program is distinguished by small classes, collegial relationships among faculty and students, and a diverse student body.

The College of Business and Economics is accredited by AACSB International-The Association to Advance Collegiate Schools of Business at both the graduate and undergraduate levels.

Program Mission

The Western MBA is a high-quality general graduate business program that develops organizational leaders who integrate strong managerial skills with a solid foundation in the core business functions within a global context.

Program Learning Goals

The typical student graduating from Western Washington University's MBA program shall:

- Validate mastery of discipline-specific business knowledge and analytical skills
- Integrate functional areas of business knowledge across disciplines
- Synthesize functional business knowledge within strategic organizational framework
- Illustrate ability to apply critical thinking and ethical decision making to complex business problems
- Exhibit competence in applying interpersonal and managerial skills within an institutional context
- Demonstrate ability to motivate others to achieve strategic outcomes
- Be conscientious in the application of business knowledge

- Create an orientation of personal responsibility, respect and professionalism
- Transform followers to leaders

Admission Prerequisites

Knowledge prerequisites: Normally an applicant to the program must have completed a college-level calculus course or otherwise demonstrate knowledge and proficiency in quantitative methods prior to entering the program. It also is expected that entering students will have proficiency in the use of microcomputers and common business software. Well-developed communications skills also are important.

Graduate Faculty

Deepinder Bajwa (1999) PhD, management information systems.

Earl D. Benson (1980) PhD, finance.

Brian K. Burton (1995) PhD, business environment.

Zhe George Zhang (2000) PhD, statistics.

Master of Business Administration

Business Administration, Accelerated, MBA (In Moratorium)

Note: The Accelerated MBA program will not be recruiting students for the 2019-20 academic year, and students are encouraged to apply to either the Evening Part-Time, Managers and Professionals or the Daytime MBA programs for June 2019.

Program Application / Admission Requirements

The Western Washington University Accelerated MBA program invites applications from students with a business-related undergraduate major. Current MBA admissions criteria include a minimum 3.00 upper-division undergraduate GPA, an acceptable GMAT or GRE score, a résumé, and a statement of purpose. International students must also submit a TOEFL score of at least 227 for the computer-based test, 567 for the paper-based test, or 86 for the Internet-based test.

To apply for admission, applicants will need to complete an application form online at the Graduate School's website which includes the submission of an application fee, transcripts, GMAT or GRE scores, a statement of purpose, and a résumé showing work experience. (Further information, including deadlines, is provided in the Graduate School section of this catalog.)

Admit Quarters: Annually in summer quarter (accelerated track).

Deadline: Final application deadline is May 1. International students are encouraged to submit applications by February 1 to ensure adequate time for admission decision and application for student visa.

Specific Test Requirements: Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores are required. Test scores may be waived if an applicant has an advanced degree - MA, MS, or PhD. Test of English as a Foreign Language (TOEFL) must be submitted by applicants who are not native speakers of English.

Supporting Materials:

- Application with \$100 fee (subject to change)
- One set of transcripts from all previous college-level work
- Personal statement of background and intention
- Résumé showing work experience

The Curriculum

The Accelerated Full-Time MBA Program serves outstanding students who have recently completed an undergraduate degree in a business-related field or who have extensive managerial experience.

Program Requirements (52 credits)

- MBA 516 - Managerial Decisions **Credits:** 16
- MBA 524 - Management and Leadership Skills **Credits:** 4
- MBA 525 - Seminar in Management **Credits:** 4
- MBA 532 - Marketing Strategy **Credits:** 4
- MBA 541 - Managerial Finance **Credits:** 4
- MBA 573 - Project Management **Credits:** 4
- MBA 591 - Strategic Management **Credits:** 4
- MBA 595 - Competing in a Global Environment **Credits:** 4
- MBA 598 - Business Consulting Capstone 1 **Credits:** 4
- MBA 599 - Business Consulting Capstone 2 **Credits:** 4

The MBA 598/MBA 599 sequence serves as a comprehensive exam.

Students are required to maintain a learning portfolio throughout their academic tenure. This portfolio is to document the achievement of MBA Program Goals and learning objectives.

Information contained in the MBA program section of the catalog is subject to change; please contact the MBA program for the most current information.

Other Requirements

Field Experience

In order to demonstrate competence in an organizational setting, students must complete 100 hours of field experience during their time in the program. Upon completion of the approved field experience, the student's project supervisor must submit a formal evaluation or a letter of recommendation, and the student must submit a 3-5 page reflective paper detailing their experience. Additional information about this requirement can be obtained from the MBA program office.

Academic Probation

The Graduate School requires that all graduate students maintain a 3.00 GPA (on a 4.0 scale) to be a candidate for a degree and to remain in good academic standing. Students in the MBA program falling below this standard will automatically be placed on academic probation and will be allowed a maximum of 16 credits of course work to raise their cumulative GPA to 3.00 or better. If, after completing 16 additional credits, a student has failed to achieve good standing, that student may only be allowed to continue MBA studies with special permission.

In no case will a student be recommended for a master's degree without having achieved a 3.00 GPA or better.

Student Advising

For answers to routine questions concerning preparation and progress through the program, students should consult this catalog and the program Website. Nonroutine questions should be directed to the program director, assistant director or program manager.

Business Administration, Daytime, MBA

Program Application / Admission Requirements

The Western Washington University Daytime MBA program invites applications from students with any undergraduate major. Current MBA admissions criteria include a minimum 3.00 upper-division undergraduate GPA, an acceptable GMAT or GRE score, a résumé, and a statement of purpose. International students must

MASTER OF BUSINESS ADMINISTRATION

also submit a TOEFL score of at least 227 for the computer-based test, 567 for the paper-based test, or 86 for the Internet-based test.

To apply for admission, applicants will need to complete an application form online at the Graduate School's website which includes the submission of an application fee, transcripts, GMAT or GRE scores, a statement of purpose, and a résumé showing work experience. (Further information, including deadlines, is provided in the Graduate School section of this catalog.)

Additional information about this requirement can be obtained from the MBA program office.

Academic Probation

The Graduate School requires that all graduate students maintain a 3.00 GPA (on a 4.0 scale) to be a candidate for a degree and to remain in good academic standing. Students in the MBA program falling below this standard will automatically be placed on academic probation and will be allowed a maximum of 16 credits of course work to raise their cumulative GPA to 3.00 or better. If, after completing 16 additional credits, a student has failed to achieve good standing, that student may only be allowed to continue MBA studies with special permission.

In no case will a student be recommended for a master's degree without having achieved a 3.00 GPA or better.

Student Advising

For answers to routine questions concerning preparation and progress through the program, students should consult this catalog and the program Website. Nonroutine questions should be directed to the program director, assistant director or program manager.

Business Administration, Evening Part-Time, MBA

Program Application / Admission Requirements

The Western Washington University Evening MBA program invites applications from students with any undergraduate major. Current MBA admissions criteria include a minimum 3.00 upper-division undergraduate GPA, an acceptable GMAT or GRE score, a résumé, and a statement of purpose. International students must also submit a TOEFL score of at least 227 for the computer-based test, 567 for the paper-based test, or 86 for the Internet-based test.

To apply for admission, applicants will need to complete an application form online at the Graduate School's website which includes the submission of an application fee, transcripts, GMAT or GRE scores, a statement of purpose, and a résumé showing work experience. (Further information, including deadlines, is provided in the Graduate School section of this catalog.)

Admit Quarters: Summer, even-numbered years (part-time track).

Deadline: Application deadline is May 1. International students are encouraged to submit applications by February 1 to ensure adequate time for admission decision and application for student visa.

Specific Test Requirements: Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores are required. Test scores may be waived if an applicant has an advanced degree - MA, MS, or PhD. Test of English as a Foreign Language (TOEFL) must be submitted by applicants who are not native speakers of English.

Supporting Materials:

- Online application and confirmation fees of \$100 each (subject to change)
- One set of transcripts from all previous college-level work
- Personal statement of background and intention
- Résumé showing work experience

The Curriculum

The Evening Part-Time MBA Program serves students who have significant managerial or professional experience, and who come from a wide range of undergraduate backgrounds, both business and non-business related.

Master of Business Administration Courses

MBA 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MBA 502 - Microeconomics

An analytic approach to the theory of the consumer, the firm and markets. Emphasis is placed on the development of managerial tools for understanding supply and demand concepts and the determination of prices in various market settings for both outputs and inputs. The problems of market efficiency, externalities and public goods are also considered from an analytical and policy perspective.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 503 - Macroeconomics

The study of the national economy and the interpretation of national economic performance. Material includes the causes and policy remedies for business cycles, unemployment, inflation and the twin deficits (government and foreign trade). Topics such as Keynesian and classical theories, monetary and fiscal policy, and international trade are studied in an analytic perspective with emphasis on the behavior of business cycles and the issues facing the national economy in an international setting.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 504 - Statistical Methods

Provides an understanding of some of the tools that enable a manager to analyze information, including data analysis, probability distributions, statistical inference and hypothesis testing, and multivariate regression analysis.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 505 - Business Finance

Objectives, tools and techniques of finance from the viewpoint of the financial manager of a manufacturing firm. Focus is on corporate financial decisions encompassing investment, financing, dividends and working capital management, including an introduction to financial instruments and markets.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 506 - Corporate Information Systems Management

Case study of the current and potential applications of information technology to enhance the competitive posture of the corporation. Uses of information technology throughout the organization; management and control of the information technology function.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 507 - Managing Organizations and People

The purpose of this course is to help students understand the complexities of organizations. It provides exposure to theories of organization, important organizational issues and processes, and a variety of strategies and tactics useful to successfully manage organizations and people.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 508 - Operations Management

Surveys the fundamentals of operations management and further develops the student's competence through case analyses. Dual emphasis on concepts and applications prepares students for all aspects of managing an operation. Detailed coverage of operations design, planning and control.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 509 - Marketing Management

Staffing, direction and coordination of organizational marketing activities. Development of new products and integration with current activities to meet evolving market needs. Includes sales and advertising in both national and international markets.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 510 - Financial Accounting and Reporting Concepts

Introduction to financial statements and the concepts, principles and theories of asset valuation and income determination underlying their preparation. Analysis and interpretation of financial statements in the perspective of the management decision-making process.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 511 - Managerial Accounting

Conceptual approach to managerial accounting's role in an organization. Emphasis on the use of accounting information for management decision making. Topics include accounting for planning and control purposes, behavioral implications associated with accounting informations, budgeting and various quantitative techniques available.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 514 - Managerial Foundations

Introduction to professional management and foundation coverage of managerial skills, microeconomics, global competition, financial reporting, and business statistics.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 16

Grade Mode: Letter

MBA 515 - Internal and External Forces Impacting the Manager

Examination of the range of internal and external forces that impact managerial decisions. Topics include global competition, the national and international economy, corporate information systems, foundation concepts in marketing, operations management, finance, people and organizations.

Prerequisites & Notes: MBA 514

Credits: 16

Grade Mode: Letter

MBA 516 - Managerial Decisions

Links managerial decisions with specific functional areas of study such as marketing, operations, accounting, finance, and organizational behavior. The focus of these modules is cross-functional decision making in the context of global competition.

Prerequisites & Notes: MBA 515 or admission to the accelerated full-time MBA program.

Credits: 16

Grade Mode: Letter

MBA 520 - Seminar in Corporate Governance

This course outlines the particular issues and mechanisms of contemporary corporate governance - the system by which companies are directed and controlled. The topic of corporate governance is elaborated from the institutional as well as organizational and managerial points of view, against the backdrop of an understanding of how corporate governance has evolved over time.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 523 - Negotiations and Labor Relations

Analysis, explanation, and evaluation of negotiation in organizations. Application of negotiations to labor relations in unionized and non-unionized workplaces. Issues include pre-employment discussions, collective bargaining, arbitration, mediation, agency, renegotiating contracts, and multiparty discussions.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 524 - Management and Leadership Skills

Interpersonal skill building in critical management areas including stress management, delegation, communication, power and influence, meetings and conflict management.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 525 - Seminar in Management

Intensive examination of selected topics in management. Repeatable with different topics and course content.

MASTER OF BUSINESS ADMINISTRATION

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 528 - Diversity in Organizations

An examination of how diversity in organizations places increasingly complex demands and creates new opportunities for organizations in managing human capital.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 529 - Influence, Power and Politics in Organizations

The analysis, explanation and evaluation of power and politics in organizations. Introduces frameworks for assessing the sources of power in organizations, the conditions that lead to its attainment, and its effective use from both a practical and an ethical perspective.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 532 - Marketing Strategy

Integration of marketing principles with overall objectives of the organization. Concepts and analytical techniques facilitating marketing analysis and the development of strategic plans. Strategy formulation in product planning and development, distribution and promotion, marketing research, and consumer behavior.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics; MBA 509 or MBA 516.

Credits: 4

Grade Mode: Letter

MBA 534 - Seminar in Marketing

Focuses on selected traditional and contemporary topics in marketing theory, planning, strategy, management and practice. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 535 - Buyer and Consumer Behavior

An overview of the theories and research that underlie the analysis of buyer and consumer behavior central to the formulation of marketing tactics and strategic plans.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 539 - Seminar in International Business

Intensive examination of selected topics in international business. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 541 - Managerial Finance

Theory and policy implications of financial decision making. Emphasis on valuation, long-term financing and investment/merger decisions.

Prerequisites & Notes: MBA 505, MBA 511; or MBA 516

Credits: 4

Grade Mode: Letter

MBA 542 - Equity Markets and Portfolio Analysis

An examination of investment risk and return, the operation of equity securities markets, equity valuation models, modern portfolio theory and portfolio management. Also includes capital market efficiency, stock options and mutual funds.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 543 - Financial Markets, Derivative Instruments and Risk Management

A mix of seminars and case discussions are used to study the application of recent innovations in financial management. Includes financial futures and options as well as interest rate caps, floors, collars and swaps. Foreign currency risk exposure and management are studied in the context of international financial management. Other topics include pension fund design and management, asset securitization and financial distress.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 544 - Seminar in Finance

Intensive examination of selected topics in finance. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate

student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 551 - Managerial Economics

Economic analysis provides the framework to consider the problems of resource allocations that confront managers in business, government and nonprofit environments. Topics include consumer choice and demand for products, production and cost functions, alternative market structures and the profit criteria for long-run planning and investment decisions.

Prerequisites & Notes: MBA 502, MBA 503, MBA 504; or MBA 516

Credits: 4

Grade Mode: Letter

MBA 555 - Seminar in Economics

Intensive examination of selected topics in economics. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 562 - Taxation

A continuation of taxation topics, with emphasis on compensation and retirement planning, estate, gift and trust taxation, and international taxation. Advanced research, planning, and tax policy are also a fundamental part of the course.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 565 - Seminar in Accounting

Intensive examination of selected topics in accounting. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 566 - Managerial Accounting and Control

Seminar/case study course. Focus on managerial accounting topics such as responsibility centers and transfer pricing; budgeting; and analysis of performance. Examines managerial accounting in international, service and not-for-profit entities.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 567 - Financial Statement Presentation and Analysis

Study of reporting issues from a management perspective. Introduction to the tools and techniques of financial statement analysis. Use of financial statements by external and internal decision makers. Emphasis on the development of communication and computer skills.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 571 - Database Systems Design and Development

Design, development, implementation, and administration of database management systems.

Prerequisites & Notes: MBA 516 or MBA 506.

Credits: 4

Grade Mode: Letter

MBA 572 - Business Intelligence

Business intelligence (BI) is a broad category of applications and technologies for gathering, sorting, analyzing, and providing access to data to help enterprise users make better business decisions. BI applications generally include: decision support systems, business analytics, performance management (key business indicators, scorecards, and dashboards), data warehouses, and data mining. The course will include both conceptual and skill components, including projects using appropriate software platforms.

Prerequisites & Notes: MBA 516

Credits: 4

Grade Mode: Letter

MBA 573 - Project Management

Explores the fundamental concepts and principles for understanding the processes found in project life cycle stages, such as starting and planning a project, running a project and delivering a project. Applies specific processes, tools and techniques to manage complexity and performance of projects in organizations.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.

Credits: 4

Grade Mode: Letter

MBA 574 - Enterprise Resource Planning

The course introduces students to the integrated business planning and execution systems currently

MASTER OF BUSINESS ADMINISTRATION

in use by most large and medium-sized organizations. Although the course is taught primarily from the vantage point of the supply chain management function, the cross-functional nature of the topic requires discussion of the marketing, accounting, and human resources components of ERP as well. Students will also gain experience with SAP R/3 and a small-market ERP package.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 575 - Seminar in Decision Sciences
Intensive examination of selected topics in decision sciences. Repeatable with different topics and course content.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 585 - Seminar in Environmental Management
This course stresses the appropriateness of assessing the impact(s) of corporate action on the natural environment. Primary consideration will be given to the organizational implications of shifting from the traditional input-process-output ('cradle-to-grave') organization model to an input-process-output-input ('cradle-to-cradle') mindset. Strategic business opportunities associated with an evolving consumer environmental consciousness will be explored.

Prerequisites & Notes: Admitted Graduate Student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 591 - Strategic Management
Study of administration and policy making from a top-management viewpoint. Integrates the marketing, financial, production and functional fields of management within a strategic management framework. Case study and simulation techniques used.

Prerequisites & Notes: MBA 516; or MBA 595 or concurrent.
Credits: 4
Grade Mode: Letter

MBA 594 - Introduction to Professional Management
Explores the responsibilities and tasks of management, the characteristics of successful managers, various contexts of management,

elements of strategic decision making at various levels of the organization, and an introduction to global business issues.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 595 - Competing in a Global Environment
Explores the effect of various aspects of globalization on markets, managers, and business strategy, with emphasis on both corporate and functional-level issues.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 598 - Business Consulting Capstone 1
This first in a sequence of two four-credit capstone courses engages students in working on real business problems with companies of their choice in a 3-4 student team. MBA students work together as a consulting team with a client and advisor to develop solutions that will be put to use by the client. Student teams develop integrative analyses and recommendations, culminating with delivery of a final report and presentation to the client senior management.

Prerequisites & Notes: Admitted graduate student within College of Business and Economics.
Credits: 4
Grade Mode: Letter

MBA 599 - Business Consulting Capstone 2
This second in a sequence of two four-credit capstone courses engages students in working on real business problems with companies of their choice in a 3-4 student team. MBA students work together as a consulting team with a client and advisor to develop solutions that will be put to use by the client. Student teams develop integrative analyses and recommendations, culminating with delivery of a final report and presentation to the client senior management.

College of Fine and Performing Arts

Introduction

Dr. Kit Spicer, Dean

The College of Fine and Performing Arts, consisting of the departments of art and art history, design, music, and theatre and dance, provides an educational environment for enhancing the creation, development, performance and teaching of the fine and performing arts and design. Through its facilities and programs, the College has a strong presence on campus. The University's Concert Hall, the Mainstage Theatre, and more intimate performance venues are housed in the College, as well as classrooms, art studios, design labs, the PAC Galleries, and the Western Gallery. The College also is responsible for public art throughout the campus in the form of the internationally recognized Public Art Collection.

The goal of the College of Fine and Performing Arts is to nurture a comprehensive understanding of the languages of dance, visual art, theatre, design and music in order to create thinking artists and artistic thinkers who will shape culture in the 21st century.

To fulfill this mission, the College of Fine and Performing Arts maintains a viable connection with the liberal arts tradition of the University; equips students with the creative and intellectual tools necessary for success in the arts; enables students to value, understand, and challenge traditional concepts; maintains an environment that supports diversity, reflection, and dedication to creative pursuits; promotes critical thinking, innovative ideas and active arts leadership; provides world class and multicultural experiences in the arts for both students and members of the community; and prepares students for a dynamic, lifelong relationship with the arts.

Academic Programs Leading to Undergraduate and Graduate Degrees

Art and Art History	BA, BAE, BFA
Design	BA, BFA
Music	BA, B/Mus, M/Mus
Theatre and Dance	BA, BFA

Majors/Minors

In addition to the General University Requirements and other common degree requirements, a candidate for a bachelor's degree must complete a major from one of the departments within the College of Fine and Performing Arts. Minors are also offered in art, design, dance, music, and theatre.

Student/Faculty-Designed Major

The student/faculty-designed major is a major for a bachelor's degree granted by the College of Fine and Performing Arts. Each major is approved by the Curriculum Committee of the College of Fine and Performing Arts. Approval should come after 45 — and before 90 — credits are completed.

Potential candidates for this degree should contact the College of Fine and Performing Arts Dean's Office for information.

College Admission and Advisement

Admission

A student is admitted to the College of Fine and Performing Arts when he or she has been admitted to Western Washington University and has officially declared and been accepted as a major, and/or who has passed portfolio review or the audition required in the various discipline areas of the College. Advising is provided in the individual departments.

Requirements for Bachelor's Degree

COLLEGE OF FINE AND PERFORMING ARTS

Besides the general requirements for graduation from the University, explained elsewhere in this catalog, the College of Fine and Performing Arts has the following specific requirements:

The Bachelor of Music degree may require more than the usual 180 credit hours.

The Bachelor of Fine Arts degree is the professional undergraduate degree requiring study beyond the normal four years.

Department Chairs

Julia Sapin	Art and Art History
Kent Smith	Design
Christopher Bianco	Music
Beth Leonard	Theatre and Dance

28 credits

Introduction

The Arts Enterprise and Cultural Innovation Minor is discipline specific to the visual and performing arts and design, with practice and critical theory incorporated from each department and creative discipline. The minor prepares students for an entry into a vocation and career that they design as creative professionals; based on their knowledge of self (person), knowledge of their practiced discipline (practice) and knowledge of the public spaces in which they will operate (public). There are seven courses, each four credits, for a total of 28 credits. At the conclusion of the minor students will integrate Person, Practice and Public into a student-generated culminating project that serves as a bridge to their post-undergraduate work. The concluding capstone has two separate tracks: a product/service track and an arts/performance track. Upon completing a major within the College of Fine and Performing Arts with a minor in Arts Enterprise and Cultural Innovation, students will possess the knowledge of their specific creative disciplines and the knowledge and abilities needed to develop and monetize their own unique creative attributes.

Why Consider an Arts Enterprise and Cultural Innovation Minor?

The Arts Enterprise and Cultural Innovation Minor is specific to the visual and performing arts and design. The minor prepares students for entry into a vocation and career that they design as creative professionals based on their knowledge of self (person), knowledge of their practiced discipline (practice) and knowledge of the public spaces in which they will operate (public). Upon completing a major within the College of Fine and Performing Arts with a minor in Arts Enterprise and Cultural Innovation, graduates will possess the knowledge and skills needed to develop and monetize their own unique creative attributes.

How to Declare (Admission and Declaration Process):

To apply to the AECE Minor, students must be declared as a major or pre-major within the CFPA. Students must be a sophomore to declare and complete the AECE application process. Application deadline for the AECE Minor is May 31, 2018, and completed forms must be received in the CFPA Dean's Office by that date. To apply online go to cfpa.wvu.edu/AECE#apply.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- AECE 301 - Person and Public **Credits:** 4
- AECE 302 - Emergent Leadership **Credits:** 4
- AECE 303 - Conducting the Enterprise **Credits:** 4
- AECE 304 - Internship **Credits:** 4
- AECE 405 - Arts Management **Credits:** 4
- AECE 406 - Disruption **Credits:** 4
- AECE 407 - Capstone Lab **Credits:** 4

Arts Enterprise and Cultural Innovation Courses

AECE 301 - Person and Public

The initial course in the Arts Enterprise and Cultural Innovation (AECE) minor sequence. This course develops the foundational tools and best practices to be used in creative self, team and project leadership, with an accomplished creative practice at the core of the enterprise. Includes overview of personality theory, research on the creative personality, and stakeholder analysis and mapping to develop effective, creative self and team leadership skills.

Prerequisites & Notes: CFPA major or departmental approval; junior status; and acceptance into the AECE minor.

Credits: 4

Grade Mode: Letter

AECE 302 - Emergent Leadership

The second course in the Arts Enterprise and Cultural Innovation (AECE) minor sequence. This

course explores emergent leadership models and builds on the previous course to develop leadership within networked and distributed organizations and groups. Frameworks of collaboration and creative conflict are explored to give function to the activity within a creative enterprise.

Prerequisites & Notes: CFPA major or departmental approval; AECE 301.

Credits: 4

Grade Mode: Letter

AECE 303 - Conducting the Enterprise

The third course in the Arts Enterprise and Cultural Innovation (AECE) minor sequence. Frameworks for arts organization formation and financing are explored. This course will enable creative leaders to measure the financial standing of an enterprise, test ideas and assumptions from a fiduciary perspective and fund and market projects and practices using contemporary frameworks and best practices.

Prerequisites & Notes: CFPA major or departmental approval; AECE 302.

Credits: 4

Grade Mode: Letter

COLLEGE OF FINE AND PERFORMING ARTS

AECI 304 - Internship

Supervised work experience wherein the student makes an embedded contribution to a recognized formal creative enterprise under the direction and supervision of qualified practitioners. Student or program facilitated, experiential, applied learning opportunity. Existing internship experiences as defined within a CFPA major are applicable (eg. design internships).

Prerequisites & Notes: CFPA major or departmental approval; AECI 303.

Credits: 4

Grade Mode: Letter

Prerequisites & Notes: CFPA major or departmental approval; AECI 406.

Credits: 4

Grade Mode: Letter

AECI 405 - Arts Management

The fourth course in the Arts Enterprise and Cultural Innovation (AECI) minor sequence. Iteration, emergent strategy, design thinking and discovery-driven growth are established as guiding frameworks for arts organizations, projects and artists. Students will understand how these frameworks operate, how to select a framework for a given situation, and how to implement the appropriate framework in ambiguous, real world circumstances.

Prerequisites & Notes: CFPA major or departmental approval; AECI 303.

Credits: 4

Grade Mode: Letter

AECI 406 - Disruption

The fifth course in the Arts Enterprise and Cultural Innovation (AECI) minor sequence. Disruption in the context of the creative enterprise is the result of a highly creative initiative that achieves a rift in the existing market patterns and results in a deep penetration and resonance with the audience. This course examines the frameworks that support creative disruption, and generate positive outcomes from disruption-initiated activity.

Prerequisites & Notes: CFPA major or departmental approval; AECI 405.

Credits: 4

Grade Mode: Letter

AECI 407 - Capstone Lab

The culminating course in the Arts Enterprise and Cultural Innovation (AECI) minor sequence. The Capstone Lab begins with a comprehensive exam covering critical frameworks from across the five content driven course prerequisites. After completing the exam, students will develop a project or practice and take it through the process of evaluating it in terms of risk and uncertainty, building a basic business model, developing an emergent strategy, and following a design thinking process to solve problems.

Art and Art History

Introduction

The Department of Art and Art History offers programs in three interrelated areas of study: art studio, art education and art history. The programs are designed to enhance artistic and intellectual inquiry across and within disciplines. The programs, classes and workshops combine practice in visual skills with rigorous critical analyses, providing an environment that fosters lively dialog and energetic engagement. With innovative and well-established approaches to teaching, artists, art historians and art educators teach a variety of courses that include art education, art history, art theory and criticism, ceramics, digital/time based media, drawing/painting, fibers/fabrics new media, photography, printmaking and sculpture. The faculty is dedicated to the preparation and sponsorship of students in their post-graduate careers as professional artists, curators, and art historians and educators.

The Department of Art and Art History offers Bachelor of Arts degrees in art studio, and art history. A Bachelor of Fine Arts degree in art is available in art studio. A Bachelor of Arts in Education degree is available through Woodring College of Education.

Faculty

Adjunct Faculty

HAFTHOR YNGVASON (2015) BA, University of Iceland; MA, University of New Mexico; MA, Boston University.

Application Requirements: Studio Art and Art Education

Most classes in the Studio area are restricted to majors only. To access classes in this area, an online application to the Department of Art and Art History is required at cfpa.wvu.edu/art/admissions. The application will include a portfolio of recent work and an unofficial transcript of any college-level courses already taken. **Application Deadlines:** Application deadlines are by midnight on October 15 and January 31. Portfolios must be received by the deadlines.

For application and information: cfpa.wvu.edu/art.

Studio and Art Education majors must complete a plan of study with a department advisor before enrolling in any 200-level course.

Application Requirements: Art History

To apply to the art history major, students must have taken A/HI 275 and two 200-level art history surveys or pre-approved equivalent courses. Students must have a B average or higher in these classes to be considered for the art history program. Application deadlines for the art history major are October 15 and January 31 and completed forms must be received in the Department of Art and Art History by those dates.

For application and information: cfpa.wvu.edu/art.

ART AND ART HISTORY

Other Departmental Information

Scholarships

The Department of Art and Art History offers a limited number of scholarships to recognize individual talents, promise, and meritorious achievement. The Bennerstrom Prize and the Sybil Sanford Scholarship are among other scholarships offered in the Department of Art and Art History. Please consult the scholarship brochure available through Student Financial Resources for information on other scholarships.

Western Gallery and Outdoor Sculpture Collection

The internationally known Outdoor Sculpture Collection includes works by international, national and regional artists, such as Magdalena Abakanowicz, Alice Aycock, Anthony Caro, Mark di

Suvero, Nancy Holt, Donald Judd, Robert Morris, Bruce Nauman, Isamu Noguchi, Tom Otterness, Beverly Pepper, and Richard Serra.

The Western Gallery provides diverse experiences in the visual arts for its constituencies, encompassing the University community and region while providing a point of reference to the national and international art scene. Through historical, contemporary and experimental art exhibitions, through the outdoor collection of contemporary sculpture, through the publications and through interpretative interdisciplinary programs, the Western Gallery is committed to creating an environment for learning. The gallery acts as a center for discussion and exchange of ideas on critical issues in contemporary art. The Western Gallery recognizes its role in expanding its audience's awareness of the visual arts as central to the dynamic and pluralistic nature of our society. Individuals interested in supervised work in the gallery are encouraged to volunteer their services.

Bachelor of Arts

Art History, BA

Department of Art and Art History, College of Fine and Performing Arts

68 credits

Introduction

Art History examines the histories of art in cultural context, visual communication in the world today, and the impact of visual technology in the future. The Art History major gives students the opportunity to address social, cultural and transnational issues through an engagement with visual culture objects, images and ideas and to imagine critical intersections in the arts, humanities, and sciences by means of innovative course instruction. Art history classes are catalysts through which students make cross-connections between their major areas of study and the diverse perspectives found in visual forms of communication.

Why Consider an Art History Major?

Are you interested in the visual language of culture and systems of representation? In studying Art History, you will learn to interpret and analyze art and visual culture. A degree in Art History will prepare you for a future as teacher, museum educator, gallery curator, visual resource librarian, art critic, scholar, and other careers that require creative problem solving and knowledge of visual language.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

How to apply: To apply to the Art History major, students must have taken A/HI 275 and two 200-level art history surveys or pre-approved equivalent courses. Students must have a B average or higher in these classes to be considered for the art history program.

Application deadlines: Application deadlines for the Art History major are October 15 and January 31. Completed forms must be received in the Department of Art and Art History by those dates.

Advising Tips: Students are expected to follow all prerequisite requirements for courses and seek early departmental advisement. As students enter the program they will be assigned an advisor to develop an individualized course of study. This plan becomes an outline of the degree requirements but should be revised yearly in consultation with an advisor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- A/HI 275 - Introduction to Writing and Critical Thinking **Credits: 5**
- A/HI 375 - Methods in Art History **Credits: 5**
- A/HI 475 - Senior Projects/Practicum **Credits: 5**
(the above courses must be taken in sequence)
- One 100-level course (5 credits) from:
 - ART 110 - Foundation Drawing I **Credits: 5**
 - ART 120 - 2-Dimensional Art **Credits: 5**
- One course (3 credits) from:
 - A/HI 210 - History of Architecture **Credits: 3**
 - A/HI 220 - Visual Culture in the Ancient World **Credits: 3**
 - A/HI 221 - Visual Culture in Medieval Europe **Credits: 3**
- One course (3 credits) from:
 - A/HI 230 - Visual Culture in 15th and 16th Century Europe **Credits: 3**
 - A/HI 231 - Visual Culture in 17th and 18th Century Europe **Credits: 3**
- One course (3 credits) from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century **Credits: 3**
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century **Credits: 3**
- One course (3 credits) from:
 - A/HI 250 - Arts of Africa pre-1900 **Credits: 3**
 - A/HI 251 - Arts of Africa after 1900 **Credits: 3**
- One course (3 credits) from:
 - A/HI 270 - Visual Culture in South and Southeast Asia **Credits: 3**
 - A/HI 271 - Visual Culture in East Asia **Credits: 3**
 - or EAST 271 - Visual Culture in East Asia **Credits: 3**
- One additional course from:
 - A/HI 210 - History of Architecture
 - A/HI 220 - Visual Culture in the Ancient World
 - A/HI 221 - Visual Culture in Medieval Europe
 - A/HI 230 - Visual Culture in 15th and 16th Century Europe
 - A/HI 231 - Visual Culture in 17th and 18th Century Europe
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century
 - A/HI 250 - Arts of Africa pre-1900
 - A/HI 251 - Arts of Africa after 1900
 - A/HI 270 - Visual Culture in South and Southeast Asia
 - A/HI 271 - Visual Culture in East Asia
 - EAST 271 - Visual Culture in East Asia

ART AND ART HISTORY

□ Choose 30 credits of 300- or 400-level art history courses from the following list of courses. A minimum of 10 credits at the 400 level is required. (A/HI 300, 302, 305 and 306 are not accepted toward the major.)

- A/HI 301 - Modern Art and Modernism **Credits: 5**
- A/HI 308 - Visual Arts in the Community **Credits: 5**
- A/HI 310 - Indigenous Arts of the Pacific Northwest **Credits: 5**
- A/HI 313 - Art and Technology **Credits: 5**
- A/HI 315 - Early Modern Civic Identity: Special Topics **Credits: 5**
- A/HI 316 - Land and Landscape **Credits: 5**
- A/HI 330 - Art and Texts of the Sacred **Credits: 5**
- A/HI 335 - Visual Arts in the Age of Contact, Exploration, and Colonization **Credits: 5**
- A/HI 336 - Visual Arts of Medieval Iberia and Early Modern Spain **Credits: 5**
- A/HI 348 - Art and Ecology **Credits: 5**
- A/HI 358 - Postwar Art and Culture **Credits: 5**
- A/HI 360 - Nationalism and Cultural Identity, 19th and 20th Centuries **Credits: 5**
- A/HI 368 - Pacific Arts and Visual Culture **Credits: 5**
- A/HI 370 - Islamic Visual Cultures **Credits: 5**
- A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan **Credits: 5**
or EAST 371 - Transforming Traditions: Art and Visual Culture in Japan **Credits: 5**
- A/HI 397
- A/HI 381 - African Art and Politics **Credits: 5**
- A/HI 383 - Contemporary Art of the African Diaspora (WWII to present) **Credits: 5**
- A/HI 401 - Contemporary Issues and Post-Modern Critiques **Credits: 5**
- A/HI 411 - Contemporary Japanese Visual Culture **Credits: 5**
or EAST 411 - Contemporary Japanese Visual Culture **Credits: 5**
- A/HI 413 - Space and Representation **Credits: 5**
- A/HI 415 - Space and the Urban Environment **Credits: 5**
- A/HI 416 - Topics in Global Borders and Contested Terrains **Credits: 5**
- A/HI 420 - Building 17th and 18th Century Europe **Credits: 5**
- A/HI 429 - Patronage and Power: The Baroque Era **Credits: 5**
- A/HI 430 - Court Art of the Renaissance **Credits: 5**
- A/HI 431 - Popular Culture, Tourism and Leisure **Credits: 5**
- A/HI 438 - Art and Feminism **Credits: 5**
- A/HI 440 - New Media and Digital Art **Credits: 5**
- A/HI 450 - Cross-Cultural Representation **Credits: 5**
- A/HI 489 - Architecture and Museums **Credits: 5**
- A/HI 490 - Seminar: Exhibition Theory and Practice **Credits: 5**
- A/HI 497

□ Students are strongly encouraged to take courses outside of the art history area, such as computer technologies, modern and classical languages, anthropology, film, communication or other classes to complement their studies and provide better preparation for the diversity of careers that employ skills with visual language.

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Art Studio, BA

Department of Art and Art History, College of Fine and Performing Arts

67 credits

Introduction

The Art Studio B.A. degree program provides a broad foundation in art practice, history, and theory that emphasizes experimentation, creative problem solving, critical thinking, and global awareness. Interaction with a faculty of practicing artists, visiting artists, professional and student exhibitions, international study, as

well as the resources of the larger university, foster informed, engaged, and creative graduates, preparing them for professional careers and graduate studies.

Art Studio B.A. students develop an individual plan of study that encourages exploration and specialization in one or more studio practices, including ceramics, drawing/painting, fiber/fabrics, mixed media, photography, printmaking, time-based art, sculpture, and courses in professional development and Art History.

Why Consider an Art Studio Major?

To learn to create, interpret, analyze, and make informed judgments about art, studio concepts, and practices.

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Bachelor of Arts in Education

Art — Elementary, BAE

Department of Art and Art History, College of Fine and Performing Arts

48 credits

Introduction

The broad instructional concept is to integrate the components of art history, art criticism, and studio art courses, university courses, Gallery Exhibition Program and the permanent collection. The student learns to interpret, analyze and make intelligent judgments about art as well as learning the skills and concepts of the studio. A grasp of the dynamic nature of a culture and the continuing extension of its visual language is a fundamental objective.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider an Art-Elementary Major?

The B.A.Ed. in Art will prepare you to teach students at the elementary grade level. The program will introduce you to curricular design in the arts and the 4 components of Discipline Based Art Education which is an approach to the teaching of Art Education that encompasses criticism, history, aesthetics, and art studio.

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Art — P-12, BAE

Department of Art and Art History, College of Fine and Performing Arts

70 credits**Introduction**

The broad instructional concept is to integrate the components of art history, art criticism, and studio art courses, university courses, Gallery Exhibition Program and the permanent collection. The student learns to interpret, analyze and make intelligent judgments about art as well as learning the skills and concepts of the studio. A grasp of the dynamic nature of a culture and the continuing extension of its visual language is a fundamental objective.

This major must be accompanied by the professional preparation program in secondary education and leads to an endorsement in visual arts. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider an Art P-12 Major?

Students choose to study art in order to understand the history, traditions and conventions of art and art criticism, for herein lies the intelligible language of art and the heritage of humankind. The B.A. Ed. in Art will prepare you to teach this language and heritage to students, from pre-school to 12th grades. The program will introduce you to curricular design in the arts and the 4 components of Discipline Based Art Education which is an approach to the teaching of Art Education that encompasses criticism, history, aesthetics, and art studio.

How to Declare (Admission and Declaration Process):

Most classes in the Studio area are restricted to majors only. To access classes in this area, an online application to the Department of Art and Art History is required at cfpa.wwu.edu/art/admissions. The application will include a portfolio of recent work and an unofficial transcript of any college-level courses already taken. **Application Deadlines:** Application deadlines are by midnight on October 15 and January 31.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

Requirements

- ART 109 - Visual Dialogue **Credits:** 3
- ART 110 - Foundation Drawing I **Credits:** 5
- ART 120 - 2-Dimensional Art **Credits:** 5
- ART 381 - Theories and Teaching Strategies in Art Education **Credits:** 4
- Art History (15 credits):

ART AND ART HISTORY

- A/HI 220 - Visual Culture in the Ancient World **Credits: 3**
- A/HI 221 - Visual Culture in Medieval Europe **Credits: 3**
- A/HI 230 - Visual Culture in 15th and 16th Century Europe **Credits: 3**
- A/HI 231 - Visual Culture in 17th and 18th Century Europe **Credits: 3**
- A/HI 240 - Visual Culture in Western Europe in the 19th Century **Credits: 3**
- 200 level studio courses (10 credits):
 - ART 203 - Foundation Drawing II **Credits: 5**
 - ART 230 - 3-Dimensional Art **Credits: 5**
- A selection of 5 studio courses (25 credits):
 - ART 320 - Painting I **Credits: 5**
 - ART 322 - Painting II **Credits: 5**
 - ART 324 - Figure Painting **Credits: 5**
 - ART 325 - Experimental Painting **Credits: 5**

 - A/HI 270 - Visual Culture in South and Southeast Asia **Credits: 3**
 - A/HI 271 - Visual Culture in East Asia **Credits: 3**
 - or EAST 271 - Visual Culture in East Asia **Credits: 3**
 - A/HI 310 - Indigenous Arts of the Pacific Northwest **Credits: 5**
 - A/HI 368 - Pacific Arts and Visual Culture **Credits: 5**
 - A/HI 370 - Islamic Visual Cultures **Credits: 5**
 - A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan **Credits: 5**
 - or EAST 371 - Transforming Traditions: Art and Visual Culture in Japan **Credits: 5**
 - A/HI 411 - Contemporary Japanese Visual Culture **Credits: 5**
 - or EAST 411 - Contemporary Japanese Visual Culture **Credits: 5**

Additional Requirements

Secondary Education Undergraduate and Post-Baccalaureate Professional Program (58 credits)

- SEC 303 - Teaching Adolescents: Development and Identity **Credits: 4**
- SEC 310 - Education, Culture, and Equity **Credits: 4**
- SEC 410 - Dynamics of Teaching **Credits: 2**
- SEC 411 - Philosophical Foundations of Education **Credits: 4**
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools **Credits: 4**
- SEC 430 - Secondary School Methods I - Instructional Strategies, Daily Planning, and Standards **Credits: 4**
- SEC 431 - Secondary School Methods II-Assessment and Long Term Planning **Credits: 4**
- SEC 432 - Secondary School Methods III - Management, Motivation and Discipline **Credits: 4**
- SEC 433 - Teaching and Learning Laboratory **Credits: 1**
- SEC 435 - Secondary Practicum I **Credits: 2**
- SEC 436 - Secondary Practicum II **Credits: 1**
- I T 444 - Classroom Use of Instructional Technology (Secondary) **Credits: 2**
- SEC 495 - Internship - Secondary **Credits: 18**
- SPED 363 - Secondary Students With Special Needs **Credits: 4**

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Bachelor of Fine Arts

Art Studio, BFA

Department of Art and Art History, College of Fine and Performing Arts

116 credits

Introduction

The Bachelor of Fine Arts degree is the professional undergraduate art degree.

It is a selective expanded program focused on a year-long development of a professional body of work, culminating in a Western Gallery exhibition and catalog.

Why Consider an Art Studio Major and a Bachelor of Fine Arts Major?

To continue beyond the Art Studio, BA degree and learn to create, interpret, analyze, and make informed judgments about art, studio concepts and practices at an advanced level.

Sample Careers

Art Educator | Exhibiting Artist | Exhibit Designer | Gallery Director | Photographer | Curator

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Application deadline will be announced and posted online during spring quarter. Most classes in the Studio area are restricted to majors only. To access classes in this area, an online application to the Department of Art and Art History is required at cfpa.wwu.edu/art/admissions. The application will include a portfolio of recent work and an unofficial transcript of any college-level courses already taken.

Following acceptance to the BFA program, a committee of at least two Art faculty members will be formed to work with the student throughout the year. An additional faculty member from outside the Department may be invited by the student to serve on his or her committee. Studio faculty must approve the third committee member. All students must begin their BFA studies in the fall quarter.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Completion of the Art, Bachelor of Arts course study

ART AND ART HISTORY

- ❑ 5 credits from:
 - ART 496A - BFA Seminar A **Credits:** 2
 - ART 496B - BFA Seminar B **Credits:** 1
- ❑ 9 credits of ART 492 - BFA Project / Exhibition **Credits:** 3
- ❑ 5 credits from:
 - ART 494 - Advanced Studio Seminar **Credits:** 5
 - ART 495 - Professional Practices for Studio Artist **Credits:** 5
- ❑ 10 credits of studio practice in areas of focus
- ❑ 10 credits of 300- or 400-level art history (A/HI 300, A/HI 302, A/HI 305 and A/HI 306 are not accepted toward the major.)
- ❑ 10 credits of electives specific to course study
- ❑ Fall, Winter, and Spring faculty committee reviews
- ❑ Spring faculty committee review and final exhibition

Additional Requirements:

During the BFA program students spend three quarters creating a self-determined body of artwork. Attention is given to the medium(s), method(s), and the content of the creative activity. Evaluation by the student's full committee occurs during Fall, Winter, and Spring quarters. At the culmination of the project each student is required to exhibit their completed work in a one or two-person exhibition. In addition, the student is required to submit a research-driven artist's statement that supports the individual's own intellectual and creative achievement. The student's final review with full committee will be scheduled during the period of the student's exhibition. This is an opportunity for the student to discuss and defend their work.

Failure to meet these requirements on schedule will be considered as unsatisfactory progress and may result in the student completing the Bachelor of Arts degree only.

Departmental Honors

In addition to the general requirements for all honors students, an art major who wishes to graduate with honors must complete an honors senior project in art.

Minor

Art History Minor

Department of Art and Art History, College of Fine and Performing Arts

27 credits

www.wwu.edu/careers/students_choosingmajor.shtml	

How to Declare (Admission and Declaration Process):

Fill out a minor declaration card in the Art and Art History Office, FI 116.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Choose one 200-level course from four of the following five categories:

- I:
 - A/HI 210 - History of Architecture **Credits: 3**
 - A/HI 220 - Visual Culture in the Ancient World **Credits: 3**
 - A/HI 221 - Visual Culture in Medieval Europe **Credits: 3**
- II:
 - A/HI 230 - Visual Culture in 15th and 16th Century Europe **Credits: 3**
 - A/HI 231 - Visual Culture in 17th and 18th Century Europe **Credits: 3**
- III:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century **Credits: 3**
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century **Credits: 3**
- IV:
 - A/HI 250 - Arts of Africa pre-1900 **Credits: 3**
- V:
 - A/HI 270 - Visual Culture in South and Southeast Asia **Credits: 3**
 - A/HI 271 - Visual Culture in East Asia **Credits: 3**
 - or EAST 271 - Visual Culture in East Asia **Credits: 3**
- Three additional art history courses (15 credits) at the 300 or 400 level. A/HI 397 and A/HI 497 courses can be counted toward the upper division credits for the minor. A/HI 300, A/HI 302, A/HI 305 and 306 may not be used for Art History minor

STEAM (Science, Technology, Engineering, Art and Mathematics) Minor

Department of Art and Art History, College of Fine and Performing Arts

23-25 credits

Introduction

The STEAM minor adds the Arts to the traditional STEM (Science, Technology, Engineering, Mathematics) framework in order to facilitate an understanding of the interrelationship between STEM fields and Art. Integrating visual experience with scientific processes can: provide students with the means to explore visual expression through technology, demonstrate the relationship between STEM concepts and the Arts and exemplify how the arts can enhance scientific understanding through processes such as visualization and creative problem solving.

Contact Information	
Department Chair Julia Sapin Fine Arts 116 360-650-3660 Julia.Sapin@wwu.edu	Art Minor Information Fine Arts 116 360-650-3660 ArtInfo@wwu.edu
Major/Career Resources	
www.wwu.edu/careers/students_choosingamajor.shtml	

How to Declare (Admission and Declaration Process):

Students submit an application outlining their reasons for completing a minor in STEAM and how the curricular content will enhance their major degree. Applications can be found at cfpa.wwu.edu/art/admissions. Minimum 2.5 GPA.

Grade Requirements

ART AND ART HISTORY

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Choose one or more of the following art classes:
 - ART 101 - Glass Blowing I **Credits: 4**
 - ART 102 - Glass Blowing II **Credits: 4**
 - ART 360 - Fibers and Fabrics I **Credits: 5**
 - ART 367 - Advanced Weaving **Credits: 5**
 - ART 370 - B&W Photography I **Credits: 5**
 - ART 371 - B&W Photography II **Credits: 5**
 - ART 372 - Color Photography **Credits: 5**
 - ART 373 - Photography Alternative Processes **Credits: 5**
 - ART 385 - Time-Based Art **Credits: 5**
 - ART 386 - Experimental Video Production: Narrative and Documentary **Credits: 5**
 - ART 397 courses can be used under advisement.
- Choose one or more of the following art history classes:
 - A/HI 210 - History of Architecture **Credits: 3**
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century **Credits: 3**
 - A/HI 313 - Art and Technology **Credits: 5**
 - A/HI 397 classes can be used under advisement.
 - A/HI 413 - Space and Representation **Credits: 5**
 - A/HI 440 - New Media and Digital Art **Credits: 5**
- Choose one or more of the following classes:
 - CSCI 103 - Introduction to Computer Game Development **Credits: 4**
 - DSGN 111 - Design View **Credits: 3**
 - MATH 160 - Mathematics and Art **Credits: 4**
- Remaining number of credits can be filled by any of the courses listed in the STEAM Minor.

Art Courses

ART 101 - Glass Blowing I

Develop proficiency with glass blowing concepts and techniques through exploration of the art form and design. Repeatable to a maximum of 12 credits, including original course.

Credits: 4

Grade Mode: Letter

ART 102 - Glass Blowing II

Continued development of proficiency with glass blowing concepts and techniques through exploration of the form and design; focus on the creation of original glass work derived from research and drawing. Students' technical study will be complemented by critical discourse about glass in contemporary art. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: ART 101

Credits: 4

Grade Mode: Letter

ART 109 - Visual Dialogue

Open to all students with the exception of a number of seats reserved for art majors each

quarter. Art studio pre-majors are advised to take ART 109 in their first or second quarter concurrently with ART 110. Introduction to ideas and artists in 20th century art with an emphasis on the contemporary. Examines concepts of content, meaning, and cultural interrelationships in art, and questions the nature, function, and importance of art in contemporary society.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

ART 110 - Foundation Drawing I

This course focuses on the techniques and materials of drawing. The course includes figure drawing, perspective studies and drawing from memory and the imagination. The concept of drawing as a means of conveying ideas is emphasized.

Prerequisites & Notes: Open to non-Art majors after Phase I registration.

Credits: 5

Grade Mode: Letter

ART 111 - Drawing for Non-Majors

This course is for all students interested in gaining a studio art experience, and who may not have

any prior background in visual art making. The course focuses on the techniques and materials of drawing. The course includes figure drawing, perspective studies and drawing from memory and the imagination. The concept of drawing as a means of conveying ideas is emphasized.

Prerequisites & Notes: If a student becomes an art major this course can fulfill the requirement for ART 110.

Credits: 5

Grade Mode: Letter

ART 120 - 2-Dimensional Art

This course introduces visual problem solving by exploring the elements and principles of design and color. Traditional and digital applications are integrated throughout all aspects of the coursework.

Prerequisites & Notes: Open to non-Art majors after Phase I registration.

Credits: 5

Grade Mode: Letter

ART 203 - Foundation Drawing II

Examines the definition of drawing in the 21st century and explores contemporary approaches to drawing. Seeks to broaden the conceptual and technical basis for students' work and investigate a broad range of materials and traditions, including abstraction, observation, collage, imagination, color and mixed media on paper. Experimentation with tools and techniques and in developing an individual system for artistic expression.

Prerequisites & Notes: ART 109; ART 110 or ID 110; ART 120 or ID 120.

Credits: 5

Grade Mode: Letter

ART 230 - 3-Dimensional Art

Entry-level 3D course with emphasis on introducing methods, materials and ideas pertaining to current practices in 3D art. Fundamental concepts and techniques will be explored through hands-on projects in media ranging from fibers, ceramics, wood, metal and other media associated with the making of 3D art. This course will introduce the idea of sculpture and art forms as bearers of content.

Prerequisites & Notes: ART 109; ART 110 or ID 110; ART 120 or ID 120.

Credits: 5

Grade Mode: Letter

ART 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and

sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ART 302 - Instructional Assistant

Assist faculty in the classroom and with activities such as lecture preparation, class website upkeep, classroom/lab maintenance, classroom discussion, research, and reviews for exams. Duties vary by course and instructor, but the time commitment will be 3-9 hours/week.

Credits: 1-3

Grade Mode: Letter

ART 303 - Drawing Projects

Students explore theme and concept in drawing through individual development with a variety of media, tools, and techniques. Studio work is complemented by in-depth discussion of issues in historical and contemporary art and drawing. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 203; ART 230 or concurrent.

Credits: 5

Grade Mode: Letter

ART 304 - Figure Drawing and Issues of the Body

Intermediate-level investigation through two-dimensional media of the human form. Basic drawing techniques and topics such as gesture, proportion, line, color, texture, value, expression, and some basic anatomy will be covered as applied to the life model. Explores contemporary issues of the body in art through major thematic and conceptual projects. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230.

Credits: 5

Grade Mode: Letter

ART 305 - Experimental Drawing

An intermediate level course that covers a wide range of materials and procedures. Students will be pushed to expand upon their own definition of what constitutes a drawing through key issues and exploration including: chance, operation, exterior influences, the use of non-traditional drawing materials and tools, bringing drawing into a third dimension, and drawing as a means to, or part of, a larger whole. The course aims to help the student build a suitable foundation for further artistic development in a variety of media. Mature

ART AND ART HISTORY

levels of invention and problem solving, and the development of critical insight that facilitates dialogue and conceptual skills are required. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 306 - Mixed Media on Paper

An intermediate level course that emphasizes the use and combining of diverse media and surfaces. Techniques covered will include: collage, ground surface treatments, washes, gouache, working with found and recycled material, and other modes of working with contemporary sources and forms. Repeatable up to 10 credits.

Prerequisites & Notes: ART 203 and ART 230.

Credits: 5

Grade Mode: Letter

ART 320 - Painting I

An introduction to contemporary painting. Students study direct and indirect painting techniques with observational and photo-based sources. The course puts special emphasis on color theory and color mixing.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 322 - Painting II

Continued exploration of painting concepts and techniques through the development of individual content. Studio work is complemented by in-depth discussion of issues in historical and contemporary painting. Lecture/lab. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 324 - Figure Painting

Painting concepts and techniques with an emphasis on the human form and the figure in context. Studio work is complemented by in-depth discussion of issues of historical and contemporary figure painting. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 325 - Experimental Painting

An investigation of contemporary painting strategies using abstraction, mixed-media, and

installation. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 320

Credits: 5

Grade Mode: Letter

ART 331 - Sculpture-Wood

Examines the traditions of wood sculpture in the context of utilizing a variety of woods and wood-based materials to make contemporary sculpture. Further emphasis is placed upon development of concepts in relation to forms and materials. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 332 - Sculpture - Metals

Focus on traditional, industrial and alternative processes in metal fabrication and casting as a means of producing contemporary sculpture. Emphasis on achieving a balance between studio practice and theory. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 333 - Sculpture - Mixed Media

Use of disparate media for contemporary object making and non-two-dimensional art forms, within an expanding field of alternative sculptural practices. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: ART 230

Credits: 5

Grade Mode: Letter

ART 334 - Installation Art

Explores distinctions between private and public art, traditional gallery presentation and site-specific installations. Performance and collaboration with other artists or disciplines will be offered as possible areas of work. Additional emphasis on effective documentation of temporary and site-specific work. Lecture/lab. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: Art 230

Credits: 5

Grade Mode: Letter

ART 335 - Intermedia, Mixed Media, Time-Based Art and Installation

Course will provide a more advanced and ambitious, multiple project-oriented work

environment for exploring contemporary studio practices in intermedia, mixed media, time-based art and installation. This will include but not be limited to the opportunity for work in time-based media such as performance, sound and video. Traditional gallery presentation, site-specific installations, collaboration and producing effective documentation will also be covered. Students will be encouraged to consider the production of their art as creative research or a mode of personal inquiry.

Prerequisites & Notes: ART 109; ART 130; ART 230; or instructor permission.

Credits: 5

Grade Mode: Letter

ART 340 - Ceramics I

Introduction to ceramics. Pottery and sculptural forms are hand-built using coil, slab and molded techniques. Introduction to glaze formulation, kiln loading and firing. Both traditional and contemporary applications are explored.

Prerequisites & Notes: ART 203; ART 230

Credits: 5

Grade Mode: Letter

ART 341 - Ceramics II

Introduction to the potter's wheel as a tool; hand building, glaze formulation and kiln firing. Repeatable up to 15 credits including original course.

Prerequisites & Notes: ART 340

Credits: 5

Grade Mode: Letter

ART 342 - Ceramics III

Intermediate problems in clay as a medium. Development of individual directions in pottery and/or ceramic sculpture. Weekly seminars. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 340 and ART 341

Credits: 5

Grade Mode: Letter

ART 343 - Summer Intensive Ceramics

How, why, when and what to do with clay. Basic manipulation of clay; glazing and kiln firing. Attention to workable classroom problems, critiquing, safety, historical background and slide presentations. Covers a variety of hand-building techniques, how to use the potter's wheel, glazing, casting, kiln loading and firing. A variety of clays and firing techniques are used. Offered summers only. Repeatable to a maximum of 15 cr.

Credits: 5

Grade Mode: Letter

ART 350 - Printmaking I

Course covering history, methods, and practice of print concepts. Color, black and white, and digital/photographic methods discussed/explored. Introduction to monotype, relief, lithographic, and intaglio processes.

Prerequisites & Notes: ART 203 and ART 230.

Credits: 5

Grade Mode: Letter

ART 351 - Printmaking: Relief

Students explore carving and printing of linoleum and woodblock surfaces. An emphasis is placed on color printing and working in layers. Historical and contemporary examples are explored. Repeatable to a maximum of 15 credits including original course.

Prerequisites & Notes: ART 350 or instructor permission.

Credits: 5

Grade Mode: Letter

ART 352 - Printmaking: Stone Lithography

A course covering history, methods, criticism, and practice of stone lithography including color printing and registration. Historical and contemporary lithographic examples explored. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 350 or instructor permission.

Credits: 5

Grade Mode: Letter

ART 353 - Printmaking: Etching

Course covers history, methods, criticism, and practice of copper plate etching. Techniques include: hard-ground and soft-ground etching, aquatint, color applications, and multi-plate registration. Historical and contemporary examples explored. Repeatable to a maximum of 15 credits including original course.

Prerequisites & Notes: ART 350 or instructor permission.

Credits: 5

Grade Mode: Letter

ART 360 - Fibers and Fabrics I

Introduction to technical explorations of dye application, fabric manipulation, and structural process of textile production. Technical information accompanied by presentations of contemporary fiber history and issues. Specifics include: tie dyeing, Katazome (paste resist stencil dyeing), and

ART AND ART HISTORY

loom weaving. All explorations to focus on the inherent expressive/conceptual qualities of traditional fiber media and processes and their mixed media counterparts. Lecture/lab.

Prerequisites & Notes: ART 203 and ART 230 or concurrent.

Credits: 5

Grade Mode: Letter

ART 361 - Surface Design

Techniques and concepts of cloth alteration with an emphasis on surface and design. Specifics include: heat transfer dye on polyester fabric, advanced dyeing techniques on silk and screen-printing. Through traditional and contemporary fiber investigations, students will develop thematic and conceptual ideas while learning new skills and processes. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 360

Credits: 5

Grade Mode: Letter

ART 362 - Papermaking and Mixed Media

A lecture/lab course covering the history of papermaking, exploration of the traditional processes of various cultures, and contemporary applications. Two-dimensional and three-dimensional projects will be made utilizing a variety of materials. Specifics include: Japanese papermaking, watermarks, recycled paper, etc. Paper casting is the main 3D project. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 363 - 3-Dimensional Forms in Fiber

Focuses on three-dimensional off-loom processes in fiber and material studies. Historical and contemporary applications of sandal weaving, basket making, felt making, lace making, and soft sculpture including wearable art will be explored. Integration between 2D and 3D forms will be conceptually presented through individual skills and creative ideas. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 203 and ART 230

Credits: 5

Grade Mode: Letter

ART 367 - Advanced Weaving

Focus on loom weaving techniques such as pattern weaving, double cloth weaving, Ikat weaving, tapestry and the AVL computer loom. Understanding woven structures and personal

expression using both traditional and contemporary process as an art form will be explored. Lecture/lab. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 360

Credits: 5

Grade Mode: Letter

ART 370 - B&W Photography I

Fundamentals of black and white developing, enlarging, print finishing. This introduction course is structured to establish a solid grounding in traditional, lab-based photographic art practices and includes an introduction to basic digital applications. All photography course work puts an equal emphasis on theory, techniques, and the history of photography in a contemporary context.

If you do not have the necessary prerequisites please contact the instructor regarding course override.

Prerequisites & Notes: ART 203 and ART 230; or concurrent. If you do not have the necessary prerequisites contact the instructor regarding course override.

Grade Mode: Letter

ART 371 - B&W Photography II

This is an intermediate level course concentrating on black and white, which offers students an opportunity to develop their knowledge, skills, and concepts through, seminars, readings, exhibitions and professional practices. It stresses the development of personal style through concentrated studies in specialized materials and processes ranging from traditional lab-based technique to digital applications. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 370

Credits: 5

Grade Mode: Letter

ART 372 - Color Photography

This course focuses on the fundamentals of color theory, techniques and the experimentation as related to the production of color images. It explores both traditional lab-based and digital investigations. Repeatable to a maximum of 15 credits, including original course.

Prerequisites & Notes: ART 370 and ART 371.

Credits: 5

Grade Mode: Letter

ART 373 - Photography Alternative Processes

This course explores the history and practice of alternative forms of image construction and

processes. It covers numerous traditional and contemporary photo techniques, from non-silver techniques (Cyan, Van Dyke) to the construction of digital negatives. The course will address historical and contemporary applications of alternative processes. Class time consists of hands-on demonstrations, slide presentations, supervised darkroom time, individual and group discussions. Repeatable up to 10 credits, including original course.

Prerequisites & Notes: ART 371

Credits: 5

Grade Mode: Letter

ART 380 - Art Educating the Child

Not for ART majors. Strategies and techniques in production of art and critical inquiry by elementary school children.

Credits: 3

Grade Mode: Letter

ART 381 - Theories and Teaching Strategies in Art Education

The study and application of art education theory in the elementary and secondary schools. Emphasis will be placed on curricular development in art criticism, aesthetics, art history and studio production.

Prerequisites & Notes: Admission to Woodring College of Education; Art 109, ART 110, ART 120, ART 230.

Credits: 4

Grade Mode: Letter

ART 385 - Time-Based Art

This course introduces major theories, artworks, tools, and techniques that are commonly associated with digital, time-based interdisciplinary art practices.

Prerequisites & Notes: ART 109, ART 110 and ART 120; ART 203 and ART 230 with concurrency.

Credits: 5

Grade Mode: Letter

ART 386 - Experimental Video Production: Narrative and Documentary

This hands-on digital video production class is designed for a range of skill levels, from beginners to more advanced video makers. During this project-based class, students will be exposed to a broad range of experimental video works, and will learn and develop production and post-production skills.

Prerequisites & Notes: ART 109, ART 110 and ART 120; ART 203 and ART 230 with concurrency.

Credits: 5

Grade Mode: Letter

ART 394 - Arts of Italy

An intensive course that takes place in Central and Northern Italy. In this class we explore Italian art and culture focusing on the arts and architecture in Rome, Florence, Tuscany, and Venice. We cover art and architecture from ancient through early modernity to contemporary, ending the trip at the Venice Biennale. Students engage in visual exploration and creative problem solving through a variety of media, tools, and techniques. The class emphasizes drawing, photography, mixed media on paper and other portable methods of art making while traveling.

Prerequisites & Notes: ART 110 or other beginning drawing courses. Other options: A/HI 337N (8 credits) or ART 337P (4 credits) and A/HI 337P (4 credits).

Credits: 8

Grade Mode: Letter

ART 396 - Summer Art Program in Japan

Study traditional and contemporary culture in Japan. Activities include: visiting historical sites, galleries, museums and artist studios. Experience a tea ceremony, papermaking, weaving, natural dyeing and more. Students will contribute to an exhibition following the trip. Offered summer quarter only.

Prerequisites & Notes: ART 109 and ART 110.

Credits: 7

Grade Mode: Letter

ART 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as DNC 398, MUS 398 and THTR 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3

Grade Mode: Letter

ART 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

ART AND ART HISTORY

Credits: 1-15

ART 422 - Advanced Drawing and Painting

Development of individual projects in painting and/or drawing through independent studio practice. Studio work is complemented by: discussion of pertinent topics in historical and contemporary painting and drawing, critiques, readings, field trips and guest lectures. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: 15 credits of 300 level in any of the following; ART 303, ART 304, ART 305, ART 306, ART 322, ART 324, ART 325.

Credits: 5

Grade Mode: Letter

ART 431 - Advanced Sculpture

Self-directed, project-oriented advanced work. Working closely with instructor, students will concentrate on the development of their discipline and artistic production as a personal mode of creative research, in the general context of contemporary art practices. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: 15 credits of 300-level sculpture or instructor permission

Credits: 5

Grade Mode: Letter

ART 441 - Advanced Ceramic Workshop

Problems in advanced ceramics; self-directed projects and weekly seminars. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: ART 342

Credits: 5

Grade Mode: Letter

ART 460 - Advanced Fibers/Fabrics

Advanced problems in fiber/fabrics study. Emphasis on self-directed project development and contemporary issues in fibers/fabrics. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: 5 credits of 300-level fiber courses or instructor permission

Credits: 5

Grade Mode: Letter

ART 470 - Advanced Photography Seminar

Using a small group dynamic to critique and exchange ideas based on readings, visiting artists and theoretical inquiry, this class explores contemporary concepts surrounding the production of photography. The course consists of self-directed projects, which afford students time to produce a substantial body of research-driven work which reflects their individual interests. Repeatable to a maximum of 15 credits, including original

course.

Prerequisites & Notes: ART 370 and ART 371; or permission of instructor.

Credits: 5

Grade Mode: Letter

ART 482 - Art Education Workshop

Explorations in art media and their adaptation to use in the school. Not to be used for graduate program. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: Teaching experience

Credits: 1-5

Grade Mode: Letter

ART 492 - BFA Project / Exhibition

BFA students will develop a self-directed body of work under the supervision of their faculty committee, independently researching the materials, techniques, processes, subject matter, critical issues and related artistic production that will contribute to their creative project. Students will be required to exhibit their works at the end of the BFA Year. They will prepare their work for presentation and will research materials, display methods, installation formats and venues. Repeatable to a maximum of 9 credits, including original course.

Prerequisites & Notes: Admission to BFA Program

Credits: 3

Grade Mode: Letter

ART 494 - Advanced Studio Seminar

Critique-driven, production-oriented interdisciplinary course based in self-directed project development with an emphasis on contemporary issues in studio art. Repeatable to a maximum of 15 cr.

Prerequisites & Notes: Senior status, BFA status or instructor permission.

Credits: 5

Grade Mode: Letter

ART 495 - Professional Practices for Studio Artist

For the student who anticipates graduation and completion of the Studio Art BA or BFA degree in the near future. Designed to facilitate entry into the world of professional artists, galleries, critics, and curators, with an emphasis on survival skills for the emerging artist. Includes current trends, professional issues and practices, and the preparation of a complete portfolio.

Prerequisites & Notes: Senior status, BFA status or instructor permission.

Credits: 5
Grade Mode: Letter

ART 496A - BFA Seminar A

Art 496A is an advanced seminar for the BFA student that addresses issues in studio practice and facilitates the development of an individual body of work. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Acceptance in BFA program.

Credits: 2
Grade Mode: Letter

ART 496B - BFA Seminar B

ART 496B is an advanced seminar for the BFA student that addresses issues in studio practice and facilitates the development of an individual body of work.

Prerequisites & Notes: Acceptance in BFA program.

Credits: 1
Grade Mode: Letter

Art History Courses

A/HI 201 - Zen and the Art of Tea

Chado allows a glimpse of Japanese culture from the perspective of a variety of different artistic media and a long historic tradition. The course will focus on the background of the Way of Tea, Zen and Japanese aesthetics and learning the most basic tea procedure. Through this course, students will gain insight into the many arts and crafts, architecture styles, Japanese aesthetic values, literature and the importance of the seasons associated with Chado as well as basic Japanese customs.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 210 - History of Architecture

History of Architecture: Prehistory to Modernity.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 220 - Visual Culture in the Ancient World

Art, archeology, and visual culture from prehistory to antiquity, c. 5000 BCE-c. 500 CE.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 221 - Visual Culture in Medieval Europe

Art and visual culture from the sixth to 14th centuries in Europe.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 230 - Visual Culture in 15th and 16th Century Europe

Art and visual culture in Western Europe 1400-1550.

Credits: 3

A/HI 241 - Visual Culture in Western Europe and America in the 20th Century

Issues and topics in art, 20th century.

Credits: 3
Grade Mode: Letter
GUR Attributes: HUM

A/HI 250 - Arts of Africa pre-1900

An introduction to key issues and themes in African art from prehistoric rock art to the implementation of colonial rule. Case studies include brasscasting, sculpture, masquerade, textiles, and photography. Specifically, the course will explore how these traditions express various aspects of human experience, and how these traditions change over the course of history.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 251 - Arts of Africa after 1900

Introduction to key issues and themes in African art from 1900 to the present, including the entire continent and its diaspora. Through these local and

ART AND ART HISTORY

global traditions, the problems of human existence are communicated and problematized before, during, and after colonialism.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 270 - Visual Culture in South and Southeast Asia

Issues and topics in South and Southeast Asian art and visual culture, from ancient to contemporary.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 271 - Visual Culture in East Asia

Issues and topics in Chinese, Korean, and Japanese visual culture, from ancient to contemporary. Also offered as EAST 271.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

A/HI 275 - Introduction to Writing and Critical Thinking

A preparatory course to develop skills in writing and analysis for the art historical field. Open to all Western students, but required for Art History majors. For Art History majors, A/HI 275, 375 and 475 must be taken in order because they sequentially develop visual analysis skills.

Prerequisites & Notes: ENG 101.
Credits: 5
Grade Mode: Letter

A/HI 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

A/HI 301 - Modern Art and Modernism

Survey and critical analysis of modernist, theory and criticism.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.
Credits: 5
Grade Mode: Letter

A/HI 302 - Instructional Assistant

Assist faculty in the classroom and with activities such as lecture preparation, class website upkeep, classroom discussion, research, and reviews for exams. Duties vary by course and instructor, but the time commitment will be 3-9 hours/week.

Credits: 1-3
Grade Mode: Letter

A/HI 305 - Gallery Workshop

Emphasis on art preparation/installation methods, and gallery/collections management. Students must commit to registering for this class for fall, winter and spring quarters. Repeatable to 9 credits. Intended as a resume building class. Credits may not be used for the Art History major or minor.

Prerequisites & Notes: 6 credits in Art or Art History; instructor permission; meet Western Gallery intern selection criteria.

Credits: 3
Grade Mode: Letter

A/HI 306 - Arts Internship

Internship at museum, educational or public arts organization under the direction of a designated art history faculty member, in consultation with a staff member of the host institution. Intended as a resume building class. Credits may not be used for the art history major or minor. Repeatable to a maximum of 9 credits, including original course.

Prerequisites & Notes: 24 credits in Art History and written permission of instructor.

Credits: 1-4
Grade Mode: Letter

A/HI 308 - Visual Arts in the Community

A hands-on class designed to give students a practical experience in promotion of visual culture in the community.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5
Grade Mode: Letter

A/HI 310 - Indigenous Arts of the Pacific Northwest

Selected topics in the arts of the Pacific Northwest. Includes discussion of contemporary artists.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5
Grade Mode: Letter

A/HI 313 - Art and Technology

Critical approaches to the study of artistic practices based on visual technology. Topics may include: photography, film, video, computer-generated art and electronic media.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 315 - Early Modern Civic Identity:

Special Topics

Civic identity explored through ritual structures, urban society, and lay cultures. Repeatable with different topics. Can be repeated once as an elective with different topics.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 316 - Land and Landscape

Studies of landscape and ideology in painting and garden design; issues of environment in the production of visual culture; relationships of land and architecture.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 330 - Art and Texts of the Sacred

The ideological basis of painting, sculpture and manuscript illumination as tools of communication. The interdependence of textual and visual traditions and their subversion or alteration.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 335 - Visual Arts in the Age of Contact, Exploration, and Colonization

This course explores artistic responses to the unprecedented clash and integration of cultures resulting from exploration and the consequent expansion of European empires throughout the world in its earliest phase, ca. 1492 to 1700.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 336 - Visual Arts of Medieval Iberia and Early Modern Spain

This upper-level lecture course explores the arts produced in the Iberian Peninsula and the domains of the Spanish Empire at large. Topics may include: Visigothic and Islamic conquests, Medieval architecture and painting, the rise and fall of the Spanish Empire in Europe and abroad during El Siglo de Oro, and the artistic impact of the Enlightenment.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 348 - Art and Ecology

This cross-disciplinary course examines how our natural environment is conceptualized in art, science and media. Through lectures, collaborative projects and experiential learning, students engage with historic debates associated with discoveries in natural science and current controversies on climate change, ecology and biodiversity.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 358 - Postwar Art and Culture

Examines postwar American culture, from 1950 to 1970, and critically assesses the relationships between art, popular media and the social upheavals of the postwar era.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 360 - Nationalism and Cultural Identity, 19th and 20th Centuries

Studies in the relationship between ideas of nation and the formation of cultural identity.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 368 - Pacific Arts and Visual Culture

Art of Melanesia, Polynesia, Micronesia. Includes study of contemporary Pacific arts.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 370 - Islamic Visual Cultures

Topics addressing historical and contemporary Islamic visual cultures in the Middle East, Africa,

ART AND ART HISTORY

and Asia.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 371 - Transforming Traditions: Art and Visual Culture in Japan

Study of visual cultures in Japan from 5000 BCE to present. Analysis of cultural influx and assimilation from Asia and Europe as well as indigenous and individual visual expressions. Also offered as EAST 371.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 372 - Topics in Asian Cinema

This course will examine film practice in one or more Asian countries with an emphasis on narrative construction and stylistic techniques. Repeatable with different topics.

Prerequisites & Notes: Any 200-level or equivalent A/HI course.

Credits: 5

Grade Mode: Letter

A/HI 375 - Methods in Art History

Methodological approaches to the study of Art History and further development of writing skills and visual analysis.

Prerequisites & Notes: A/HI 275, art history majors only.

Credits: 5

Grade Mode: Letter

A/HI 381 - African Art and Politics

This course explores the ways in which African art confirms, legitimizes, and challenges authority on a local, national, and global level.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 383 - Contemporary Art of the African Diaspora (WWII to present)

This course explores the creative practices of artists of African descent who live and work beyond the continent, from World War II to the present.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

A/HI 396 - Summer Art History Program in Japan

Study traditional and contemporary culture in Japan. Activities include: visiting historical sites, galleries, museums and artist studios. Experience a tea ceremony, papermaking, weaving, natural dyeing and more. Students will write a paper following the trip. Offered summer quarter only.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 7

Grade Mode: Letter

A/HI 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

A/HI 401 - Contemporary Issues and Post-Modern Critiques

Theoretical analysis of late twentieth century postmodernist art and culture, and critical discussion of the expansion of visual media during the contemporary era.

Prerequisites & Notes: Any A/HI or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/HI 411 - Contemporary Japanese Visual Culture

Examines Japanese artistic forms and visual culture from Post-World War II until the present. Explores connections between Japanese socioeconomic and artistic developments, as well as visual manifestations of contemporary Japanese youth culture. Topics include anime, manga, Harajuku fashion and art movements such as Gutai and Superflat. Also offered as EAST 411.

Prerequisites & Notes: Any A/HI or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/HI 413 - Space and Representation

Theoretical and cultural analysis of the history of representing space within Western art and architecture, from Gothic cathedrals and

Renaissance perspective to cubist fractured surfaces and contemporary heterogeneous space.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 415 - Space and the Urban Environment

Topics in urban organization, urban/rural dynamics, regionalism, spaces and social production in the built environment and the arts.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 416 - Topics in Global Borders and Contested Terrains

Mapping artistic domains; implications of geographic borders; defining places and margins in cultural production.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 420 - Building 17th and 18th Century Europe

Studies of architecture, spatial organization and visual culture in 17th and 18th century Europe, including studies of colonization and contacts with Asia. Each course offering has a selected geographic focus and introduces theory for visual and spatial analysis.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 429 - Patronage and Power: The Baroque Era

The relationship of artist and public to the mechanisms of patronage and the art market.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 430 - Court Art of the Renaissance

Courtly art in the context of humanism, antiquity, and chivalric society in Renaissance Italy.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 431 - Popular Culture, Tourism and Leisure

Studies in topics such as collecting, pilgrimage, touring and acquisition of the authentic.

Prerequisites & Notes: Art History majors: A/Hi 375; non-majors: 5 credits of 300 level art history or instructor permission.

Credits: 5

Grade Mode: Letter

A/Hi 438 - Art and Feminism

Studies of women artists, their past and present visual practices, and how they engage with cultural representations of gender, sexuality and class.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 440 - New Media and Digital Art

Theoretical and critical approaches to the development of cyberspace and its relationship to new media, electronic art, virtual reality, videogames, and biotech art.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 450 - Cross-Cultural Representation

Theoretical analysis of colonialism, neocolonialism, postcolonialism and multiculturalism, and their political, economic and cultural effects on representational practices.

Prerequisites & Notes: Any A/Hi or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

A/Hi 475 - Senior Projects/Practicum

Final course for art history majors. May be a research project aimed toward the pursuit of an advanced degree or a practicum in one of several careers in arts advocacy, administration, community outreach, and other fields.

Prerequisites & Notes: A/Hi 375; art history majors only.

Credits: 5

Grade Mode: Letter

A/Hi 489 - Architecture and Museums

Examines museum architecture and the exhibition of architecture in museums in Europe and America from the eighteenth century to the present.

Prerequisites & Notes: Any A/Hi or equivalent

ART AND ART HISTORY

300-level course.

Credits: 5

Grade Mode: Letter

A/HI 490 - Seminar: Exhibition Theory and Practice

Seminar on issues such as the display of visual experience and the configuration of public culture and community identities by artists, institutions and audiences. Repeatable to a maximum of 10 credits, including original course.

Prerequisites & Notes: Any A/HI or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

Design

"Design" is both noun and verb, product and process. The products of design form the interface between humans and the environment. Design as a professional field of study is based on the foundations of visual communication. The study of design encompasses cultural, aesthetic, ergonomic, technical, ethical, and economic fields. Designers create communications that serve many needs—everything from warning labels to multimedia interfaces. They solve communication problems of all types and sizes. The solutions require creativity, lateral thinking, research, and excellent verbal and written communication skills.

The Department of Design prepares students to successfully communicate information and abstract concepts visually. The faculty strives to provide each student with a broad educational background and preparation in specialization area. The curriculum is designed to promote intellectual rigor, critical thinking and creativity, through a combination of courses that are both theoretical and practical. The theoretical component emphasizes creative problem solving and critical assessment. The practical component focuses on the building of aesthetic and technical skills. The development of these two components culminates in a portfolio of design work. The portfolio also provides evidence of the student's creative and analytical talents, enabling the student to apply his/her scholarship in regional, national, and global communities. Each portfolio is highly personalized allowing the students to exhibit their specific strengths and interests, thus promoting the diversity of perspectives for which our students' portfolios are known in the professional design world. The development of specialized skills in spatial organization, color, visualization, problem solving methodologies, conceptual thinking and the acquisition of digital tool skills, in combination with an excellent liberal arts foundation, provide graduates of the program with the skills necessary for seeking employment as a graphic designer or pursuing graduate studies.

Design Faculty

KENTON D. SMITH (1993) Chair and Professor. BFA, MA, Fort Hays State University; MFA, Kent State University.

PAULA S. AIRTH (2012) Associate Professor. BA, Western Washington University; MFA, University of Utah.

CRISTINA de ALMEIDA (1997) Professor. BFA, Escola Superior de Desenho Industrial, Rio de Janeiro, Brazil; MFA, University of Massachusetts.

ALEXANDER EGNER (2017) Assistant Professor. BFA, University of Northern Texas; MFA, Virginia

Commonwealth University.

JOHN GIALANELLA (2017) Assistant Professor. BFA, Siena Heights University; MFA, University of Arizona.

KACEY MORROW (2008) Associate Professor, BA, University of Iowa, School of Art and Art History; MFA, University of Illinois, School of Art and Design.

BRITTANY SCHADE (2013) Assistant Professor, BFA, Florida Atlantic University; MFA, Florida Atlantic University.

Mission Statement

The Department of Design utilizes a curriculum that emphasizes the process of problem solving to direct students to make connections between culture and design and their role as responsible visual communicators. As a professional field of study, students learn to combine personal expression and critical thinking as they create solutions that connect industry, individuals, and institutions to specific audiences and themselves to the world. Students develop adaptive learning strategies to sustain successful communication careers in a constantly changing world.

Degrees

The Department of Design offers both Bachelor of Arts and Bachelor of Fine Arts degrees in design. The liberal arts BA degree in design provides students the opportunity to develop visual communication talents through courses in print and digital media design combined with a minor to broaden the educational experience. The BFA degree is the professional degree option providing a fully integrated professional senior year in the development of the exit portfolio. The BFA degree requirements also include a summer internship with contracted firms. Admittance to the BFA is through portfolio review during winter quarter.

Learning Outcomes for Design Majors

1. Demonstrate functional competence with principles of visual organization, visual language and theory as applied to visual communication problems.
2. Understand and apply creative and abstract thinking skills to visual communication problems.
3. Understand, embrace and use current tools, software and technology as a vehicle of effective communication (conceive, design, produce, and create visual forms to successfully communicate ideas, opinions, concepts).

DESIGN

4. Demonstrate facility in visual communication practice, including written and verbal communication skills

The Learning Outcomes identified for the Design Program reflect the expectations of National Association of Schools of Art & Design [NASAD] for accredited professional design programs as well as recommendations by AIGA and an external advisory board.

Formal assessment occurs in concert with strategic planning and catalog revisions. Access to an advisory board provides additional layers of informal review to stimulate positive change. The nature of lab pedagogy results in the constant observation and evaluation of student work (outcomes) by faculty and students. Students are consistently involved in assessment of their learning through reflection, class and self-critique of their work and the work of their peers.

Advisement and Plan of Study

Upon admission to the major a Plan of Study must be completed under advisement of a student's assigned advisor. Students are expected to meet with their advisors regularly. All Design BA majors are required to declare and complete a minor or the equivalent of a minor of 24 to 30 credits. A second major will also complete the minor requirement. A list of suggested minors will be available through your advisor.

Design majors must maintain a minimum 2.5 cumulative GPA.

The junior portfolio review in Design is only for students wishing to earn the BFA degree.

Declaration Process

Most classes in Design are currently restricted to majors only. To access classes, a formal application to the Department of Design is required. Application for the major is made with a portfolio of work. The portfolio will be reviewed by the Design faculty and evaluated on the basis of a demonstrated understanding of the elements and principles of design and visual communication, technical proficiency and originality.

Portfolios are reviewed twice each academic year: October 15 and January 31. Portfolios must be received on or before the deadlines, not postmarked by the deadlines. Incomplete portfolios will not be reviewed.

Design majors must complete a plan of study with a department advisor before enrolling in any 200-level course. The plan of study will also include the declaration of a minor as part of the BA degree requirements.

Application Requirements

All applicants of the Design major must submit a portfolio of 12 works. It is recommended that the portfolio include recent pieces. Work can be in any media and must demonstrate basic visual and design skills.

- Understanding of formal principles
- Technical skills
- Ability to use visual language to communicate ideas
- Originality and risk taking

An accompanying list should briefly describe the rationale behind each piece. Macintosh-compatible CD-ROMs; slides and online portfolios are acceptable. Digital portfolios must be presented in an easily accessible format. It is the applicant's responsibility to ensure proper functioning of the digital media and files.

Applicants are also required to complete a design assignment. This assignment is described on the major application form that may be downloaded from the department website:
www.wvu.edu/design/html/admissions.shtml.

Scholarships

The Department of Design offers a limited number of scholarships to recognize individual talents, promise, and meritorious achievement, such as the Babcock scholarship and the Vassdal scholarship. Please consult the scholarship brochure available through Student Financial Resources for information on other scholarships.

62 credits

Introduction

The Department of Design identifies design as the visual communication of ideas. The program utilizes a curriculum that emphasizes the process of problem solving and encourages students to make connections between culture and design, and their role as visual communicators. Students learn to combine personal expression and critical thinking as they create solutions that connect industry to an audience and themselves to the world.

Why Consider a Design Major?

Career opportunities are found in all segments of industry, both in the private and public sector. Western Design graduates go on to work in advertising agencies, design firms, in-house departments, as well as serving as private consultants in corporate identity, environmental graphic design, packaging, publication, UX and web design. They work as Designers, Project and Production Managers, Product Designers and Web and Interactive Designers.

Sample Careers

Graphic Designer | Web Designer | Project Manager | Art Director | Digital Image Maker | Creative Director | Interactive Designer | UX/UI

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

To declare a Design major, application is made with a candidate statement and unofficial transcripts, portfolio of 12 personal works and a typographic hierarchy assignment. The portfolio will be reviewed by Design faculty and evaluated on the basis of a demonstrated understanding of the elements of visual communication, technical proficiency and originality. Application deadlines for the Design major are October 15 and January 31 for current Western students and January 31 for freshmen and transfer students planning to start in the Fall. Portfolios must be received by the deadline, not postmarked by the deadline.

Send portfolio to:

Design Review Committee
Western Washington University
Fine Arts Complex, Room 127
516 High Street
Bellingham, WA 98225-9068

Grade Requirements

Majors must maintain a 2.50 GPA both overall and in design courses taken at Western. Students falling below the 2.50 average will be placed on probation; failure to bring the cumulative GPA up to 2.50 by the end of two subsequent quarters will result in removal from the major.

DESIGN

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

Students must meet with an advisor before taking 200-level courses to establish a formal plan of study that includes identification of a minor.

- DSGN 111 - Design View **Credits: 3**
- DSGN 211 - Foundations of Visual Communication **Credits: 3**
- DSGN 220 - Visual Communication I **Credits: 4**
- DSGN 240 - Visual Communication II **Credits: 4**
- DSGN 250 - Visual Communication III **Credits: 4**
- DSGN 260 - Visual Communication IV **Credits: 4**
- One course from:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century **Credits: 3**
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century **Credits: 3**
- DSGN 312 - Graphic Design in the 20th Century **Credits: 4**
- DSGN 330 - Typography I **Credits: 5**
- DSGN 340 - Graphic Design: 2D **Credits: 5**
- DSGN 341 - Graphic Design: 3D **Credits: 5**
- DSGN 351 - Print and Finishing **Credits: 5**
- DSGN 360 - Digital Media Design I **Credits: 5**
- DSGN 361 - Digital Media Design II **Credits: 5**
- DSGN 385 - Professional Practices in Visual Communication Design **Credits: 3**

Minor (24-30 credits)

BA majors will complete an official minor comprised of 24 or more credits. Students must meet with an advisor before taking 200-level courses to establish a formal plan of study that includes identification of a minor. Students may petition to substitute a self-designed minor, comprised of at least 24 credits. The petition must include a written statement prepared by the student indicating the rationale for the courses selected. Students may substitute a second major or Internet Studies certification for a minor.

Departmental Honors

In addition to the general requirements for all honors students, design major who wishes to graduate with honors must complete an honors senior project in design.

Bachelor of Fine Arts

Design, BFA

Department of Design, College of Fine and Performing Arts

115 Credits

Introduction

The Bachelor of Fine Arts in Design is the professional degree option for students admitted to the Bachelor of Arts in Design. The BFA degree option is a highly competitive degree limited to a maximum of 12 students per year. Courses in the senior year focus on the integration of graphic design and digital media design in the solution of visual communication problems.

To earn the BFA students must submit a portfolio of selected work from 200- and 300-level classes. Application to the BFA in Design is made during winter quarter of the junior year and portfolios are reviewed by the Design faculty. All students must begin their BFA studies in the spring quarter of the junior year to

prepare them for the summer-only Internship requirement. The Bachelor of Fine Arts in Design degree requires each student to complete the following program:

Sample Careers

Graphic Designer | Art Director | Web Designer | Project Manager | Digital Image Maker | Creative Director | Interactive Designer | UX/UI

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

The BFA degree application is made with a portfolio composed of completed work and/or work in progress from DSGN 330, 340, 351, and 360. The portfolio will be reviewed by Design faculty and evaluated on the basis of a demonstrated understanding of the elements of visual communication, technical proficiency, originality, problem-solving and professionalism. The BFA applications will be reviewed during winter quarter. Deadlines will be posted in the department office and announced in design classes. Portfolios must be received by the announced deadline.

Send application to:
Design BFA Review Committee
Western Washington University, Department of Design
Fine Arts Complex, Room 127
516 High Street
Bellingham, WA 98225-9068

Grade Requirements

Majors must maintain a 2.50 GPA both overall and in design courses taken at Western. Students falling below the 2.50 average will be placed on probation; failure to bring the cumulative GPA up to 2.50 by the end of two subsequent quarters will result in removal from the major.

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- DSGN 111 - Design View **Credits: 3**
- DSGN 211 - Foundations of Visual Communication **Credits: 3**
- DSGN 220 - Visual Communication I **Credits: 4**
- DSGN 240 - Visual Communication II **Credits: 4**
- DSGN 250 - Visual Communication III **Credits: 4**
- DSGN 260 - Visual Communication IV **Credits: 4**
- DSGN 312 - Graphic Design in the 20th Century **Credits: 4**
- DSGN 330 - Typography I **Credits: 5**
- DSGN 430 - Typography II **Credits: 5**
- DSGN 340 - Graphic Design: 2D **Credits: 5**

- DSGN 460 - Digital Media Design III **Credits: 5**
- DSGN 385 - Professional Practices in Visual Communication Design **Credits: 3**
- DSGN 480 - BFA Seminar **Credits: 5** (repeated 3 times)

DESIGN

- DSGN 481 - BFA Workshop **Credits: 2** (repeated minimum 2 times)
- DSGN 485 - Professional Practices in Visual Communication Design: BFA **Credits: 3**
- One of the following:
 - A/HI 240 - Visual Culture in Western Europe in the 19th Century **Credits: 3**
 - A/HI 241 - Visual Culture in Western Europe and America in the 20th Century **Credits: 3**
- 10 credits of internship during summer quarter between junior and senior years (DSGN 489)
- Sufficient number of credits from declared minor to bring total credits to 115

Departmental Honors

In addition to the general requirements for all honors students, a design major who wishes to graduate with honors must complete an honors senior project in design.

Minor

Design Studies Minor

Department of Design, College of Fine and Performing Arts

29 credits

Introduction

The Design Studies Minor is composed of 3 GUR courses (large lecture format), an upper division design history course, and four lecture/lab courses providing a foundation in drawing for design; 2D design, type and color; 3D design; and 4D design exploring time and motion graphics.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Students will submit a portfolio of 12 works consisting of work created in high school/community college/college courses, and self-authored work. The faculty committee will review the portfolios based upon criteria identified in the application form. The application deadline is the same as the major application of October 15 and January 31 but requires that the student indicate they are applying for minor status.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Students advanced to the Design BA major must maintain a cumulative 2.5 GPA.

Requirements

- DSGN 111 - Design View **Credits: 3**
- DSGN 211 - Foundations of Visual Communication **Credits: 3**
- DSGN 220 - Visual Communication I **Credits: 4**
- DSGN 240 - Visual Communication II **Credits: 4**

User Experience (UX) Design Minor (see Engineering and Design Department)

User Experience (UX) Design Minor (see Engineering and Design Department)

Design Courses

DSGN 111 - Design View

Introduction to design thinking and how design practice affects everyday life in a diversity of cultures (graphic, industrial, architectural). Course will be a mixture of lectures with guest speakers as well as exams and assignments. Lecture format.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

DSGN 140 - Introduction to Visual Communication

Introduction to visual communications concepts and applications incorporating type, design elements, design principles and software. S/U grading.

Credits: 1

Grade Mode: S/U

DSGN 141 - Visual Communication

Intended for high school students who are considering studying graphic design at the university level, this course will build on skills and further develop an understanding of the design process. The class will focus on typography, introduce modern branding methods, design research and design thinking. Digital design tools will be combined with other forms of image making to build on each student's individual talents. Students will produce portfolio worthy designs using a selection of production methods. S/U grading.

Prerequisites & Notes: DSGN 140 (College Quest) or other similar pre-college graphics course, high school graphics course, high school yearbook course, or graphics work experience.

Credits: 1

Grade Mode: S/U

DSGN 211 - Foundations of Visual Communication

Issues and topics related to the development of visual communication/graphic design with emphasis on the development of typographic and print culture.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

DSGN 220 - Visual Communication I

Introduction to and exploration of visual thinking experiences and the translation of ideas into sketches and drawings representing solutions to visual communication problems. Includes studies in graphic ideation, graphic languages, object drawing, orthographic views, perspective, the visualization process and storyboarding.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 240 - Visual Communication II

Introduction and exploration of visual literacy elements and principles. Emphasis on how these elements and principles are applied in visual communication problems pertaining to both graphic design and typography. Course will incorporate hands-on projects covering both analog and digital techniques of image and type manipulation. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 249 - Graphic Design Concepts

Introductory course in layout, design, and software with an emphasis on typography. Course incorporates hands-on projects covering both analog and digital techniques of image and type manipulation. Lecture/Lab. For non-majors only.

Credits: 4

Grade Mode: Letter

DSGN 250 - Visual Communication III

DESIGN

Introduction and exploration of the basic principles, processes, and materials of three-dimensional forms. Emphasis on how these elements and principles are applied in visual communication problems and the selection and use of materials with an emphasis on paper. Course will incorporate hands-on projects in 3D visualization and construction. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 260 - Visual Communication IV

Introduction and exploration of the basic principles of time-based media, integration of design principles and elements, time and sequence, and methods of storytelling. Lecture/lab.

Prerequisites & Notes: Major status.

Credits: 4

Grade Mode: Letter

DSGN 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

DSGN 312 - Graphic Design in the 20th Century

History of modern graphic design and illustration.

Prerequisites & Notes: DSGN 211 and one from A/HI 240, A/HI 241, A/HI 240A or A/HI 240B.

Credits: 4

Grade Mode: Letter

DSGN 330 - Typography I

Focus on the use of type as an informative and expressive visual/verbal element in graphic design. Principles and methods of typographic layout will be introduced and expanded upon aiming the development of skills in using type creatively and effectively in specific communication scenarios. Lecture/lab.

Prerequisites & Notes: DSGN 111; DSGN 220; DSGN 240; DSGN 250; DSGN 260; major status; concurrent enrollment in DSGN 351.

Credits: 5

Grade Mode: Letter

DSGN 340 - Graphic Design: 2D

Advanced concepts and solutions in graphic design for visual communication problems. Project will utilize previous skills in typography, graphic materials, publications as well as time and motion in building the visual cornerstone of branding. Course will focus on graphic identities, graphical application and methodology for integrating messages and media for a comprehensive approach to visual communication as it's related to visual brands. Lecture and lab.

Prerequisites & Notes: DSGN 330; DSGN 351; concurrent enrollment in DSGN 360.

Credits: 5

Grade Mode: Letter

DSGN 341 - Graphic Design: 3D

Concepts and techniques of three-dimensional design with an emphasis on packaging design. Projects will focus on choice of materials, structural forms, and graphic treatment as integrated components of the visual communication strategy. Lecture and lab.

Prerequisites & Notes: DSGN 340; DSGN 360; concurrent enrollment in DSGN 361.

Credits: 5

Grade Mode: Letter

DSGN 351 - Print and Finishing

A hands-on study of the design process for print-based materials. Emphasizes team-based approaches to problem solving in the production of a bound collaborative analog and digital print edition.

Prerequisites & Notes: DSGN 111; DSGN 220; DSGN 240; DSGN 250; DSGN 260; major status; concurrent enrollment in DSGN 330.

Credits: 5

Grade Mode: Letter

DSGN 359 - Book Arts Production

Course in the history, methods and practices of book design, structures and their application in the production of limited edition and unique formats employing letterpress, offset and digital printing techniques. Lecture/lab. Repeatable to a maximum of 15 credits.

Prerequisites & Notes: DSGN 250, major status.

Credits: 5

Grade Mode: Letter

DSGN 360 - Digital Media Design I

Methods and concepts of designing for an online experience, including a working knowledge of scripting languages, image optimization, file organization, information architecture, and usability.

Prerequisites & Notes: DSGN 330; DSGN 351; concurrent enrollment in DSGN 340.

Credits: 5

Grade Mode: Letter

DSGN 361 - Digital Media Design I I

Approaches and concepts in designing for various digital platforms, focusing on user-interface, interactivity, and user-experience.

Prerequisites & Notes: DSGN 340; DSGN 360; concurrent enrollment in DSGN 341.

Credits: 5

Grade Mode: Letter

DSGN 375 - Summer Design Abroad

Team taught. Opportunity for students to experience design on an international level. Extensive workshop/field trip format combines lectures by prominent designers, visitations to design firms and international corporations as well as opportunities to attend museums and expositions featuring design. Repeatable to a maximum of 14 cr. Offered summers only.

Credits: 7

Grade Mode: Letter

DSGN 385 - Professional Practices in Visual Communication Design

Current trends, professional issues and practices. Preparation of a professional portfolio.

Prerequisites & Notes: DSGN 340, DSGN 360, Design, BA or Design, BFA major status.

Credits: 3

Grade Mode: Letter

DSGN 389 - BA Internship

Faculty supervised fieldwork in design related activities. S/U grading. Repeatable to maximum of 10 credits, including original course.

Prerequisites & Notes: Design BA major with Junior status, and permission of instructor.

Credits: 1-10

Grade Mode: S/U

DSGN 390 - Topics in Design

Specialized topics in design. The subject of each individual course will be announced in the timetable of classes. Repeatable with different topics only.

Prerequisites & Notes: Pre-reqs vary; depend on topic offered. See Classfinder/Timetable for specific details.

Credits: 3-5

Grade Mode: Letter

DSGN 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

DSGN 430 - Typography II

Advanced problems of typographic layout. Focus on the design of long textual content, such as books and publications. Emphasis in the use of type as a conceptual tool for both communication and visual expression in a variety of visual/verbal genres. Lecture/lab.

Prerequisites & Notes: DSGN 330; Design, BFA status

Credits: 5

Grade Mode: Letter

DSGN 460 - Digital Media Design III

Advanced problems in time-based media design. Projects will be more complex and conceptual in nature. Focus is on the investigation of narrative and technical aspects of time-based media, including pre-production, production, and post-production.

Prerequisites & Notes: DSGN 361; Design, BFA status

Credits: 5

Grade Mode: Letter

DSGN 480 - BFA Seminar

Advanced problems in visual communication design (design production, graphic design, interactive/web/motion graphics). Repeatable to 15 credits including original course.

Prerequisites & Notes: BFA status.

Credits: 5

Grade Mode: Letter

DSGN 481 - BFA Workshop

Special topics in visual communication design in an intensive workshop format. Repeatable up to a maximum of 6 credits, including original course. S/U grading.

Prerequisites & Notes: BFA status.

Credits: 2

Grade Mode: S/U

DSGN 485 - Professional Practices in Visual Communication Design: BFA

DESIGN

Currents trends, professional issues and practices.

Extension of Summer Internship experience. Contemporary trends, professional issues and practices. Personal and group branding focus and projects. Development of personal portfolio, group internship publication and BFA website.

Prerequisites & Notes: BFA major status and DSGN 489

Credits: 3

Grade Mode: Letter

DSGN 489 - Internship

Supervised pragmatic work experiences under the direction and supervision of qualified professional practitioners. Taken during summer quarter between junior and senior academic years. S/U grading.

Prerequisites & Notes: DSGN 331; DSGN 362. BFA status.

Credits: 10

Grade Mode: S/U

Music

Introduction

A Music degree from Western Washington University is highly regarded in the profession. Western graduates become successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is its faculty's commitment to students and helping them achieve their goals and aspirations.

The Department of Music also encourages and promotes participation from those students whose academic interests lie outside the arts, yet who have the appropriate experience and the dedication to succeed in our department. With more than five hundred students participating in our music program, there are opportunities for performance and academic study at many levels of involvement.

Explorations in early, traditional, contemporary, jazz and electronic music exist in the various course activities and degree plans with the emphasis always on dealing directly with the musical art through performance, composition and analysis.

The Department of Music offers one general and four professional undergraduate programs leading to baccalaureate degrees in music. The general program (BA) provides a liberal arts education with music as the major subject. The four professional undergraduate programs (BMus) emphasize the development of proficiency in the major area: music education, performance, history and literature, and composition. The BMus in Music Education has three areas of emphasis: P-12 general music, P-12 instrumental music, and P-12 choral music. State certification to teach is received concurrently with the granting of the degree. Western's music education curriculum is constructed to result in a minimum of two endorsements.

A variety of large and small ensembles and music courses are open to all qualified students of the University, regardless of major. The ensembles include: University Choir, Concert Choir, Symphonic Band, Wind Symphony, University Symphony Orchestra, Jazz Ensembles, Chamber Music (in all instruments and voice), Collegium Musicum, and Opera Theatre. All music ensembles present public programs throughout the year, and several ensembles participate in annual tours. Music courses open to all students in the University include: The Art of Listening to Music, Fundamentals of Music, Pop and Rock Music Survey, Intro to Country Music, Intro to Hip-Hop, Survey of Video Game Music, Survey of World

Musical Cultures, among others. Please visit our website for more information regarding ensemble auditions. cfpa.wwu.edu/music/prospective-students

Advisement (please read carefully)

The Department of Music provides individual advisement and program planning for all students majoring and minoring in music. This takes place during the registration period. The department provides advisement by appointment. Many students prefer to spend a day on campus prior to transfer, at which time they may receive advisement, visit the various departmental performance groups and classes, and meet with instructors. Interested students should follow the guidelines set forth in the Music section of this catalog prior to contacting the department. Write or phone the Department of Music, Western Washington University, Bellingham, Washington 98225-9107, phone 360-650-4091, email LeeAnne.Frahn@wwu.edu or visit cfpa.wwu.edu/music/advising.

The department is a full member of the National Association of Schools of Music.

Faculty

CHRISTOPHER BIANCO (2006) Chair and Professor. BME, Northwestern University; MM, University of Montana; DMA, the University of Texas-Austin.

PATRICIA BOURNE (2012) Professor. BME, Murray State University; MME, University of Oklahoma; Ed. D, Arizona State University

GUSTAVO CAMACHO (2014) Assistant Professor. BME, New Mexico State University; MM and DMA, Arizona State University.

Declaration Process

Due to the sequential nature of the music curriculum, midyear applications are not

recommended. Students electing to begin in a quarter other than fall should seek advisement prior to enrollment.

Other Departmental Information

Music Performance

All students in Bachelor of Music degree programs must be members of a major performing ensemble each quarter of residence except in those quarters in which music education majors are enrolled in student teaching and those quarters in which piano majors are enrolled in accompanying. The requirement must be met through the student's major instrument or voice as follows: Symphonic Band, Wind Symphony, or Symphony Orchestra for wind/percussion players, Advanced Treble Chorale, University Treble Choir, University Tenor/Bass Choir for vocalists, and Symphony Orchestra or String Sinfonietta for string players. Pianists and guitarists may elect to participate in any of the major performing ensembles for which they are qualified.

Pianists will take a combination of Major Performance Ensemble and Piano Accompanying as follows:

- **Performance:** Three quarters of major ensemble, remaining quarters in piano accompanying.
- **Composition and History/Literature:** six quarters of major ensemble, three quarters of piano accompanying, remaining quarters either major ensemble or piano accompanying.
- **Music Education:** six quarters of major ensemble, remaining quarters piano accompanying.
- **Bachelor of Arts in Music** majors will take three quarters of major performance ensemble and three quarters of accompanying.

(Note: Incoming piano students who pass their audition but exhibit deficiencies in sight-reading may additionally be required to take MUS 098 for one or more quarters. Students must pass the sight-reading examination before they are allowed to register for MUS 276.)

Guitarists majoring in music performance may, under advisement, substitute up to 12 additional credits in chamber music for this requirement. Performance ensembles may be repeated for credit.

Applied Performance Proficiency

All entering music students will be expected to demonstrate performance proficiency before a faculty committee to determine their admissibility as music majors or minors. This qualifying audition will be held on announced dates prior to the start of fall each year. Please visit our website for priority audition dates. Students who audition after these priority dates will be considered on a space available basis. cfpa.wvu.edu/music/auditions.

Due to the sequential nature of our curriculum and studio availability, mid-year applicants are not recommended. If you are considering a mid-year application, contact the undergraduate advisor.

Freshman and transfer students with marginal qualifications may be placed on **probation** at the beginning of their first quarter of study and will be re-examined at the end of the quarter. A student who fails to have probationary status removed at the end of two consecutive quarters may be removed from the major, continued applied instruction and admissibility to restricted classes. All students receiving applied instruction must audition for placement in the appropriate major performing ensemble. Piano and guitar students should speak to their area coordinator regarding ensemble requirements. Applied music may be repeated for credit. Students must complete the audition process in order to be eligible for music advising.

Academic Progress Policy

A minimum GPA of 2.5 in music courses is required for graduation with a degree in music. Students must complete our two-year music theory sequence (MUS 122-MUS 226) with an average of C- or better to continue on to upper-division theory and history courses. Specific requirements for admission into the various BMus degree programs can be obtained from the appropriate area coordinator or the undergraduate advisor.

Music Education Academic Progress Policy

A grade of C (2.0) or better is required for courses in the secondary education professional program and all courses required for the endorsement.

Upper-division Juries

All students enrolled in private lessons (MUS 212-216, MUS 312-316, or MUS 412-416) are required to perform juries each academic year to monitor progress and technique. Quarterly jury requirements vary for each applied area. Please see the appropriate area coordinator to determine each jury schedule. Successfully performing an

upper-division jury is required to pass into 300-level and 400-level lessons from 200-level. Passing an upper-division jury is only required to pass into upper-division applied instruction; completing an upper-division jury is not required to take upper-division academic courses although pre-requisites still apply.

Advancement will be based on the student's readiness to meet the particular vocal/instrumental, musical, and academic requirements for each level as stated in each area's policy statement. BMus students who have not been advanced to upper-division status by the end of their third year at Western will be required to meet with the appropriate area coordinator and advisor regarding timely progress.

Theory, Aural Skills, and Keyboard Skills Placement Examinations - Transfers

Incoming students who meet the following criteria are eligible for our Theory, Aural Skills and Keyboarding placement exams. These exams will take place one to two days before school begins each fall. Students attempting to enroll winter or spring quarter should contact the music advisor at least a month prior to schedule placement exams.

Transfer Students

All transfer student who have completed college courses in Theory, Aural Skills or Keyboarding (Piano) may take our placement exams to test out of all or part of the core sequence. Contact the music undergraduate advisor for more information regarding these exams.

Incoming freshman

Any incoming freshman who scored a 3 or above on the AP Theory exam is eligible to take the Theory and Aural Skills placement exam. Those students with prior experience in piano, or have completed a piano class at a college or university, are eligible to take the keyboarding placement exam. Contact the music undergraduate advisor for more information regarding these exams.

Students may be required to repeat any theory, aural skills or keyboarding classes based on the results of the placement exams. All credit received in theory, aural skills and keyboarding skills previously at other institutions will be transferred in as elective credit and may be used towards the 180 minimum credits required to graduate from Western.

MUSIC

Keyboard Competency

All students in Bachelor of Music programs will successfully complete a Keyboard Proficiency Examination (KPE). Those students commencing their music theory studies at Western will complete this requirement as part of the two-year music theory and aural skills/keyboard skills sequence.

Students transferring to Western with one or more quarters of music theory, aural skills, or keyboard skills will complete the requirement either by: 1) completing the remaining quarters of the theory and aural skills/keyboard skills sequence; or 2) taking the Keyboard Proficiency Examination. The appropriate course of action will be determined by the results of the Placement Examinations.

Scholarships

The music department awards scholarships to incoming students, including non-majors or minors, based on entrance/scholarship auditions during primary audition dates. Consult the website for information regarding our auditions. cfpa.wvu.edu/music/auditions

Returning (continuing) students are eligible for scholarships based on merit, progress, and growth while a student at Western. Music scholarships for returning students are awarded at the end of spring quarter and applied the following school year.

Bachelor of Arts

Music, BA

Department of Music, College of Fine and Performing Arts

60 Credits

Introduction

The Music BA consists of a basic core of study in Music Theory and History along with private instruction and ensemble performance. The Bachelor of Arts is the liberal arts degree program in music which allows for individual preferences in intensifying studies in certain aspects of music and broadening the scope of academic pursuits.

Why Consider a Music Major?

This program is designed for the liberal arts student who may wish to complete minors or an additional major in another field in addition to completing a major in Music. Students in the Music BA program frequently complete studies in such fields as Theatre, Business, Mathematics or one of the languages.

Students are encouraged to seek additional sources of scholarships noted in the financial aid office: www.finaid.wvu.edu/scholarships/

For further information, contact the music advisor, PAC 263, at 360-650-4091 or refer to the website cfpa.wvu.edu/music/advising

Concert Attendance

All music majors are required to submit a physical program/ticket from a minimum of eight approved concerts/recitals each quarter to fulfill their concert attendance requirement. Students may attend any music department concert or recital, any CFPA musical, musical revue or student production. They may also attend any professional or community classical program, recital or musical.

Program Advisement

All undergraduate music majors are assigned to the departmental undergraduate program advisor for scheduling and program approval.

Bachelor of Music

To complete the Bachelor of Music degree requirements, it may be necessary for the student to take more than the usual 180 credit hours. Students should anticipate that these programs may require more than four years.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Freshmen and transfer students will be declared as their intended major after performing a successful audition on their main instrument or voice. Progress will be reviewed by coordinators in each applied and academic area.

Admissions: The prerequisite entrance into all Music programs is the entrance audition on the primary instrument or voice. Please visit our website for priority audition dates. Students who audition after these priority dates will be considered on a space available basis. cfpa.wwu.edu/music/auditions

Application Deadlines: The audition must be completed prior to the quarter in which the student intends to enroll. Due to the sequential nature of the music curriculum, mid-year applications are not recommended. Students electing to begin in a quarter other than fall should seek advisement before enrollment.

Advising Tips: The Department of Music provides individual advisement and program planning for all students majoring in music. This takes place during the registration period and by appointment. Many students prefer to spend a day on campus prior to transfer, at which time they may receive advisement and visit the various departmental performance groups and classes and meet with instructors. Interested students should follow the guidelines set forth in the Music section of this catalog prior to contacting the department. Write or phone the Department of Music, Western Washington University, Bellingham, Washington 98225-9107, phone 360-650-3130 or visit the website, www.wwu.edu/music/.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A minimum GPA of 2.5 in music courses is required for graduation with a degree in music.

Requirements

- Attendance of at least 8 pre-approved concerts every quarter in residence.
- MUS 121A - Aural Skills I **Credits: 1**
- MUS 121B - Keyboard Skills I **Credits: 1**
- MUS 122 - Theoretical and Analytical Skills I **Credits: 2**
- MUS 123A - Aural Skills II **Credits: 1**

 - MUS 273 - String Sinfonia **Credits: 2**
 - MUS 471 - Concert Choir **Credits: 2**
 - MUS 472 - Wind Symphony **Credits: 2**
 - MUS 473 - University Symphony Orchestra **Credits: 2**
- **Pianists will take three quarters of major performing ensemble and three quarters of MUS 276 and/or 476 (piano accompanying). Guitar students will enroll in a major performing ensemble (MUS 271 or MUS 471) every fall term while in residency and take MUS 282 (Guitar ensemble) in winter and spring.

Bachelor of Music

Music Education P-12, BMus

Department of Music, College of Fine and Performing Arts

142-144 credits minimum*

Introduction

The Music Education Degree Program is comprised of a comprehensive course of study in basic Music Theory, Music History, Conducting, and Music Education methods courses which lead to P-12 Certification as a Music Specialist.

The Music P-12 major must be accompanied by the Secondary Education Professional Program offered through Woodring College of Education.

***Includes 34 credits from the Secondary Education Program:** This major must be accompanied by courses in the professional preparation program in secondary education that are specified under Additional Requirements. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Music Education P-12 Major?

A Music degree from Western Washington University is highly regarded in the profession. Western graduates become successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is its faculty's commitment to students and helping them achieve their goals and aspirations.

- SEC 411 - Philosophical Foundations of Education **Credits:** 4
- SEC 495 - Internship - Secondary **Credits:** 18
- SPED 363 - Secondary Students With Special Needs **Credits:** 4

Music — Composition Concentration, BMus

Department of Music, College of Fine and Performing Arts

113-117 credits

Introduction

Music composition majors learn a variety of skills enabling them to express their musical ideas in an effective manner that allows for performance of their creations. Each student receives private composition instruction along with instruction in basic music theory, music history, conducting, lessons on their major instrument or voice, and ensemble performance. While composition instruction will cover all modes, genres and periods, students may elect to concentrate their creativity on one or more specific areas. Instruction will include introduction and advanced courses in the use of computer hardware and software.

Why Consider a Music Composition Concentration?

A Music degree from Western Washington University is highly regarded in the profession. Western graduates become successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is its faculty's commitment to students and helping them achieve their goals and aspirations.

 - **Piano students will take a combination of major performing ensemble and MUS 276/476 (piano accompanying) as follows: six quarters major performance ensemble, three quarters accompanying, remaining quarters in either piano accompanying or major performance ensemble. Guitar students will enroll in a major performing ensemble (MUS 271 or MUS 471) every fall term while in residency.; three quarters of Collegium (MUS 280 or 480); and Guitar Ensemble (MUS 282) every winter and spring while in residence.

Music — History and Literature Concentration, BMus

Department of Music, College of Fine and Performing Arts

116-121 credits

Introduction

In addition to core studies in Music Theory and History, students in the Music History and Literature Degree Program pursue in-depth study in a variety of topics related to the history of musical composition.

Why Consider a Concentration in Music History and Literature?

A Music degree from Western Washington University is highly regarded in the profession. Western graduates become successful teachers, performers, composers and leaders in all fields of music. The strength of Western's Department of Music is its faculty's commitment to students and helping them achieve their goals and aspirations.

How to Declare (Admission and Declaration Process):

Freshmen and transfer students will be declared as their intended major after performing a successful audition on their main instrument or voice. Progress will be reviewed by coordinators in each applied and academic area.

Admissions: The prerequisite for all Music degrees is the entrance audition on the primary instrument or voice. Please visit our website for priority audition dates. Students who audition after these priority dates will be considered on a space available basis. cfpa.wwu.edu/music/auditions

Application Deadline: The audition must be completed prior to the quarter for which the student intends to enroll. Students electing to begin in a quarter other than fall should seek advisement prior to enrollment.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A minimum GPA of 2.5 in music courses is required for graduation with a degree in music.

Upper-division juries

It is recommended that students pass an upper-division jury to advance to the upper-division instruction (300-400) level by the end of their second year in the program. Requirements for passing upper-division juries will be outlined in the instrumental and vocal areas' policy statements.

Requirements

- Attendance of at least 8 pre-approved concerts in every quarter in residence.
- MUS 121A - Aural Skills I **Credits: 1**
- MUS 121B - Keyboard Skills I **Credits: 1**
- MUS 122 - Theoretical and Analytical Skills I **Credits: 2**
- MUS 123A - Aural Skills II **Credits: 1**
- MUS 123B - Keyboard Skills II **Credits: 1**
- MUS 124 - Theoretical and Analytical Skills II **Credits: 2**
- MUS 125A - Aural Skills III **Credits: 1**

Program Advisor: Dr. Bertil Van Boer, Performing Arts Center 147, 360-650-2282.

Introduction

The Master of Music degree consists of a core of courses which serve as a common foundation and a set of more specialized courses in one of five concentrations: composition, music history and literature, performance, conducting and music education. The degree may be used as a preparation for doctoral studies in music, or it may serve as a terminal degree. Minimum credits for each concentration is 45.

The composition concentration includes course work in composition, music history, and music theory as well as a thesis (original composition). Ensembles, studio instruction, and course work in conducting are also available.

The music history and literature concentration includes seminars in music history, work in notation, courses in music theory, performance (including the Collegium Musicum), and a written thesis.

The performance concentration includes vocal or instrumental studio instruction, work with small and large ensembles, and course work in music history and music theory. Pianists may emphasize solo performance or accompanying. Studies in jazz areas are available.

The conducting concentration includes course work in conducting, music history, and music theory, and a conducting practicum to fulfill the thesis requirement. Ensembles and studio instruction are also available. The music education concentration includes courses in music education, music history and music theory courses. Courses within the Woodring College of Education are permissible, as well. Ensembles and studio instruction are also available. The thesis can be a written project, a recital or a conducting practicum.

Goals

To prepare students for professional-level work in music, as performers (singers, instrumentalists or conductors), composers, scholars, educators, or in a combination of these areas.

Prerequisites and Examinations

Prerequisite for admission to the Master of Music program is a BM or BA in Music degree. In addition, each of the special concentrations has specific requirements for acceptance into the program, as follows:

Students in the Composition concentration must submit a portfolio of at least three original recent compositions for evaluation by the composition-theory faculty.

Students in the Performance concentration must pass an audition before members of the performance faculty. If a live audition cannot be done, a live link may suffice at the discretion of the faculty. Vocal performers must demonstrate competence in German, French and Italian diction.

Students in the Piano Performance, pedagogy emphasis, will audition with a half recital (a balanced program, presenting at least two contrasting styles, 30 minutes) plus a short paper (up to 5 pages) outlining the student's philosophy of pedagogy, what they want to accomplish in a M.M. degree, etc.

Students in the History and Literature concentration must provide substantial scholarly work or term papers. Applicants should also demonstrate reading ability in French or German.

Students in the Conducting concentration must pass an audition with the appropriate faculty members. If a live audition cannot be done, a live link may suffice at the discretion of the faculty. Choral conductors should demonstrate competence in vocal pedagogy and in German, French, Italian, and Latin diction.

Students in the Music Education concentration are accepted following an interview, either in person or through an e-conference, as well as an audition indicating at least a 300 level of performance ability. This may be arranged with the appropriate studio faculty. Evidence for admission is based upon evaluation of written research in the field of music education on the undergraduate level, the completion of at least one year of successful public school music instruction, and evidence of an appropriate level of musicianship.

Placement examinations in music theory and music history must be taken prior to beginning the program. These will be sent to a proctor after admission to the program and will indicate whether there exist curricular deficiencies.

Courses necessary to remove deficiencies are not credited toward the degree.

Please note: Admission to the Master of Music program requires acceptance both of the general academic requirements of the Graduate School and by the faculty of the concentration within which the degree is to be undertaken.

Basic Requirements for All Concentrations (minimum 45 credits)

- MUS 541 - Seminar in Music History: Medieval-Renaissance **Credits: 4**
- MUS 542 - Seminar in Music History: Baroque-Classical **Credits: 4**
- MUS 543 - Seminar in Music History: Romantic-Contemporary **Credits: 4**
- MUS 503 - Introduction to Graduate Study of Music **Credits: 3**
- MUS 532 - Analytical Techniques: 20th-Century Musical Practices **Credits: 3**
- MUS 533 - Analytical Techniques: 19th-Century Musical Styles and Practices **Credits: 3**
- MUS 690 - Thesis **Credits: 1-6 (3-6)**

All students admitted to graduate study must register for at least one course in the area of basic requirements during each quarter of enrollment until those requirements are fulfilled.

Requirements and Electives for Each Concentration

Composition Concentration

- MUS 534 - Composition **Credits: 4 (12)**
- Electives (6-9)

History and Literature Concentration

- MUS 580 - Advanced Collegium Musicum **Credits: 2**
- One course from:
 - MUS 541 - Seminar in Music History: Medieval-Renaissance **Credits: 4**
 - MUS 542 - Seminar in Music History: Baroque-Classical **Credits: 4**
 - MUS 543 - Seminar in Music History: Romantic-Contemporary **Credits: 4**
- Electives (6-9)

Performance Concentration

- One course from:
 - MUS 574 - Jazz Ensembles **Credits: 2**
 - MUS 575 - Chamber Jazz Ensembles **Credits: 2**
 - MUS 578 - Opera Production **Credits: 1-2**
 - MUS 580 - Advanced Collegium Musicum **Credits: 2**
 - MUS 581 - Applied Chamber Music **Credits: 2**
 - MUS 583 - Chamber Vocal Ensembles **Credits: 2**
- or any approved 400-level or 500-level course(s)

MUSIC

- ❑ 9 credits from:
 - MUS 511 - Individual Instruction: Advanced Organ **Credits:** 3-4
 - MUS 512 - Individual Instruction: Advanced Piano **Credits:** 1-4
 - MUS 513 - Individual Instruction: Advanced Strings **Credits:** 3-4
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion **Credits:** 3-4
 - MUS 515 - Individual Instruction: Advanced Voice **Credits:** 0-4
 - MUS 518 - Individual Instruction: Applied Jazz **Credits:** 3-4
 - MUS 576 - Accompanying **Credits:** 0-3
- ❑ Piano Pedagogy Emphasis (6 credits)
 - MUS 566 - Advanced Piano Pedagogy I **Credits:** 3
 - MUS 568 - Advanced Piano Pedagogy II **Credits:** 3
- ❑ Electives (7-10)

Conducting Concentration

- ❑ Conducting Studies (9-18)
 - MUS 501 - Instrumental Conducting and Rehearsal Techniques **Credits:** 3
 - MUS 502 - Choral Conducting and Literature **Credits:** 3
 - MUS 519 - Individual Instruction - Advanced Applied Conducting **Credits:** 1-3
approved 400-level and/or 500-level course(s)
- ❑ Basic Musicianship (0-9) Courses to be selected from the following (any not selected under Basic Requirements):
 - MUS 541 - Seminar in Music History: Medieval-Renaissance **Credits:** 4
 - MUS 542 - Seminar in Music History: Baroque-Classical **Credits:** 4
 - MUS 543 - Seminar in Music History: Romantic-Contemporary **Credits:** 4
 - MUS 531 - Arranging **Credits:** 3
 - MUS 534 - Composition **Credits:** 4
and approved 400-level and/or 500-level course(s)
- ❑ Applied Music (0-9)
 - MUS 511 - Individual Instruction: Advanced Organ **Credits:** 3-4
 - MUS 512 - Individual Instruction: Advanced Piano **Credits:** 1-4
 - MUS 513 - Individual Instruction: Advanced Strings **Credits:** 3-4
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion **Credits:** 3-4
 - MUS 515 - Individual Instruction: Advanced Voice **Credits:** 0-4
 - MUS 518 - Individual Instruction: Applied Jazz **Credits:** 3-4
and/or approved 411-418 course(s)
- ❑ Ensemble (0-9)
 - Approved 400-level and/or 500-level ensemble course(s)

Music Education Concentration

- ❑ Professional Understandings/Techniques (12-15)
 - Courses to be selected from the following:
 - MUS 501 - Instrumental Conducting and Rehearsal Techniques **Credits:** 3
 - MUS 502 - Choral Conducting and Literature **Credits:** 3
 - MUS 560 - Literacy and Music **Credits:** 3
 - MUS 561 - Advanced Techniques in General Music Education **Credits:** 3
 - MUS 562 - General Music Methods **Credits:** 3
or any approved 400-level or 500-level course(s)
- ❑ Basic Musicianship (0-6)
 - Courses to be selected from the following: (any not elected under Basic Requirements)
 - MUS 531 - Arranging **Credits:** 3
 - MUS 534 - Composition **Credits:** 4
- ❑ Applied Music (0-6)
 - MUS 511 - Individual Instruction: Advanced Organ **Credits:** 3-4
 - MUS 512 - Individual Instruction: Advanced Piano **Credits:** 1-4
 - MUS 513 - Individual Instruction: Advanced Strings **Credits:** 3-4
 - MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion **Credits:** 3-4
 - MUS 515 - Individual Instruction: Advanced Voice **Credits:** 0-4
 - MUS 518 - Individual Instruction: Applied Jazz **Credits:** 3-4

- or approved 411-418
 Guided electives in music education (3-9)

Minor

Jazz Studies Minor

Department of Music, College of Fine and Performing Arts

29 credits

Introduction

The Jazz Studies Minor consists of a basic core of study in jazz theory and improvisation, jazz arranging and composition, and jazz history, along with ensemble performance and private improvisation instruction. The jazz studies minor allows for intensifying studies in jazz while completing a music major.

Why Consider a Jazz Studies Minor?

This program is designed for music majors who have an interest in a higher level of jazz education performance. The jazz studies minor is open to all BM and BA in Music students.

Department Chair Christopher Bianco Performing Arts 271 360-650-3404 Christopher.Bianco@wwu.edu	Undergraduate Academic Advisor Lee Anne Frahn Performing Arts 263 360-650-4091 LeeAnne.Frahn@wwu.edu

[Sample Careers](#)

Major/Career Resources
www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Freshmen and transfer students will be declared as a Jazz Studies Minor after meeting with the appropriate instrumental or vocal area coordinator and advisor and completing an audition.

Please visit our website for priority audition dates. Students who audition after these priority dates will be considered on a space available basis. cfpa.wwu.edu/music/auditions

Application deadlines: The audition must be completed prior to the quarter in which the student intends to enroll. Due to the sequential nature of the music curriculum, mid-year applications are not recommended. Students electing to begin in a quarter other than fall should seek advisement prior to enrollment.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- MUS 202 - History of Jazz **Credits:** 3
- MUS 334 - Jazz Theory and Improvisation I **Credits:** 3
- MUS 335 - Jazz Theory and Improvisation II **Credits:** 3
- MUS 418 - Applied Jazz Improvisation Lessons **Credits:** 3

MUSIC

- ❑ MUS 434 - Jazz Arranging and Composition I **Credits:** 3
- ❑ 14 credits from the following (7 of the 14 credits must be upper division):
 - MUS 274 - Jazz Ensembles **Credits:** 2
 - MUS 275 - Chamber Jazz Ensembles **Credits:** 2
 - MUS 474 - Jazz Ensembles **Credits:** 2
 - MUS 475 - Chamber Jazz Ensemble **Credits:** 2

Music Minor

Department of Music, College of Fine and Performing Arts

30 credits

Introduction

The Music Minor consists of a basic core of study in music theory along with ensemble performance, an introduction to music history, and optional private instruction. The minor allows for individual preferences in intensifying studies in certain aspects of music and broadening the scope of academic pursuits while focusing on a major in a different field.

Why Consider a Music Minor?

This program is designed for the liberal arts student who has an interest in a higher level of music education but may wish to complete a major in another field. Students in the Music Minor program frequently complete studies in such fields as Theatre, Business, Journalism, Mathematics or one of the languages.

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Freshmen and transfer students will be declared as a Music Minor after meeting with the appropriate instrumental or vocal area coordinator and advisor and completing an audition.

Please visit our website for priority audition dates. Students who audition after these priority dates will be considered on a space available basis. cfpa.wwu.edu/music/auditions

Application deadlines: The audition must be complete prior to the quarter in which the student intends to enroll. Due to the sequential nature of the music curriculum, midyear applications are not recommended. Students electing to begin in a quarter other than fall should seek advisement prior to enrollment.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ❑ MUS 121A - Aural Skills I **Credits:** 1

- ❑ MUS 121B - Keyboard Skills I **Credits:** 1
- ❑ MUS 122 - Theoretical and Analytical Skills I **Credits:** 2
- ❑ MUS 123A - Aural Skills II **Credits:** 1
- ❑ MUS 123B - Keyboard Skills II **Credits:** 1
- ❑ MUS 124 - Theoretical and Analytical Skills II **Credits:** 2
- ❑ MUS 125A - Aural Skills III **Credits:** 1
- ❑ MUS 125B - Keyboard Skills III **Credits:** 1
- ❑ MUS 126 - Theoretical and Analytical Skills III **Credits:** 2
- ❑ One course from:
 - MUS 104 - The Art of Listening to Music **Credits:** 3
 - MUS 105 - Survey of Popular and Rock Music **Credits:** 3
 - MUS 106 - Intro to Hip-Hop **Credits:** 3
 - MUS 107 - Introduction to Country Music **Credits:** 3
 - MUS 108 - Survey of Video Game Music **Credits:** 3
- ❑ One course from:
 - MUS 202 - History of Jazz **Credits:** 3
 - MUS 205 - Survey of World Musical Cultures **Credits:** 3
- ❑ 12 additional credits selected under advisement

Music Courses

MUS 098 - Piano sight-reading

Music majors entering with piano as their major instrument of study are expected to be proficient sight readers and to accompany instrumentalists and vocalists as part of their training. Pianists must be able to pass a sight-reading proficiency exam; if they cannot, this course is required. A student will continue to repeat this class until the sight-reading exam is passed. S/U grading.

Credits: 0

Grade Mode: S/U

MUS 100 - Marrowstone Music Festival

A combined theory, composition, and music literature class keyed to the works students will perform during the Marrowstone Music Festival. Students will gain insight into these works and have the opportunity to develop their own compositional skills. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival

Credits: 1

Grade Mode: Letter

MUS 101 - Fundamentals of Music

The study of musical construction for those unfamiliar with the fundamentals of notation (pitch and rhythm), major and minor scales, intervals, triads and keys, with particular attention to their practical application.

Credits: 2

Grade Mode: Letter

MUS 102 - Introduction to Music Theory and Ear Training

Courses designed to strengthen the prospective music major's knowledge of fundamental theoretical principles and to introduce the basic aural/reading skills needed to begin the musicianship sequence.

Prerequisites & Notes: MUS 101 or instructor permission

Credits: 3

Grade Mode: Letter

MUS 103 - Introduction to Music Theory and Ear Training

Courses designed to strengthen the prospective music major's knowledge of fundamental theoretical principles and to introduce the basic aural/reading skills needed to begin the musicianship sequence.

Prerequisites & Notes: MUS 102

Credits: 3

Grade Mode: Letter

MUS 104 - The Art of Listening to Music

Open to all students. Non-technical basis for enjoyable listening to music; performance practices relating to symphony orchestras, instrumental ensembles, opera, choral groups and solo performance.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 105 - Survey of Popular and Rock Music

Open to all students. An introduction to the genres, forms and composers of popular music within the framework of a study of its historical and cultural

MUSIC

context.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 106 - Intro to Hip-Hop

Study of the major works of Hip-Hop, including the history, culture, and influence of the art form from its onset in the 70's to its place in the popular music of the 21st century.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 107 - Introduction to Country Music

Explore the country music genre, including major performers, songwriters, songs and impact on culture from the early times on the radio to the twenty-first century.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 108 - Survey of Video Game Music

A critical overview of the history, development, and current state of music & audio in video games & interactive media and surrounding issues.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 116 - Guitar Technologies: Guitar for Beginners

This course serves as an introduction to the guitar. Techniques include both basics of plectrum and finger-style technique. Also covered are chords, strumming and finger-style applications for arpeggio playing, leading to basic accompaniment. S/U grading.

Credits: 2

Grade Mode: S/U

MUS 121A - Aural Skills I

The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major. Co-requisite: MUS 121B.

Credits: 1

Grade Mode: Letter

MUS 121B - Keyboard Skills I

The development of competence in and familiarity with the piano keyboard, reading and playing in the diatonic major and minor systems. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major. Co-requisite: MUS 121A.

Credits: 1

Grade Mode: Letter

MUS 122 - Theoretical and Analytical Skills I

Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: Music major.

Credits: 2

Grade Mode: Letter

MUS 123A - Aural Skills II

The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major; MUS 121A. Co-requisite: MUS 123B.

Credits: 1

Grade Mode: Letter

MUS 123B - Keyboard Skills II

The development of competence in and familiarity with the piano keyboard, reading and playing in the diatonic major and minor systems. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major; MUS 121B. Co-requisite: MUS 123A.

Credits: 1

Grade Mode: Letter

MUS 124 - Theoretical and Analytical Skills II

Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: MUS 122; music major.

Credits: 2

Grade Mode: Letter

MUS 125A - Aural Skills III

The development of aural competence in and visual familiarity with the sounds and symbols of the diatonic major and minor system. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major; MUS 123A.

Co-requisite: MUS 125B.

Credits: 1

Grade Mode: Letter

MUS 125B - Keyboard Skills III

The development of competence in and familiarity with the piano keyboard, reading and playing in the diatonic major and minor systems. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major; MUS 123B.

Co-requisite: MUS 125A.

Credits: 1

Grade Mode: Letter

MUS 126 - Theoretical and Analytical Skills III

Study of and practical experience in using the basic materials of musical construction including notation, melody, harmony, rhythm and form.

Prerequisites & Notes: MUS 124; music major.

Credits: 2

Grade Mode: Letter

MUS 160 - Preparatory Class Piano

Designed for students with no keyboard experience. Basic reading skills and technique.

Credits: 1

Grade Mode: Letter

MUS 163 - Class Voice

Study of basic vocal production skills and repertoire preparation.

Credits: 2

Grade Mode: Letter

MUS 166A - Introduction to Voice Studies A

This course will prepare the student for success in solo and choral voice performance at the university level. The student will be exposed to linguistic and musical resources for the preparation and performance of vocal music in various languages. Efficient practice and research techniques are also integral to the course.

Prerequisites & Notes: Admission to music program as a voice pre-major.

Credits: 2

Grade Mode: Letter

MUS 166B - Introduction to Voice Studies B

A continuation of MUS 166A with added emphasis on skills necessary for success as a vocal soloist. The student will be exposed to more in-depth linguistic and musical resources such as: recital preparation, performance anxiety, and a general

survey of the solo vocal repertoire.

Prerequisites & Notes: Admission to the music program as a voice pre-major, MUS 166A.

Credits: 2

Grade Mode: Letter

MUS 168 - Exploring the World of Teaching Music

Overview of strategies for effective teaching, rehearsal techniques and strategies, motivational tools, appropriate body language, assertive classroom management. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival

Credits: 1

Grade Mode: S/U

MUS 173 - Marrowstone Orchestra

Study, rehearsal and performance of orchestra literature appropriate to students participating in the Marrowstone Music Festival. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival

Credits: 1

Grade Mode: S/U

MUS 181 - Marrowstone Chamber Music

Study, rehearsal and performance of chamber music appropriate to students participating in the Marrowstone Music Festival. S/U grading.

Prerequisites & Notes: concurrent participation/enrollment in Marrowstone Music Festival

Credits: 1

Grade Mode: S/U

MUS 202 - History of Jazz

Open to all students. Personalities, styles and social/cultural influences on jazz from its beginning to the present day.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

MUS 205 - Survey of World Musical Cultures

Open to all students. A general introduction to the musical styles of major world cultures, including those of Africa, India, Asia, Indonesia and Eastern Europe. Focus on the role played by music in each society.

Credits: 3

Grade Mode: Letter

GUR Attributes: ACGM

MUSIC

MUS 211 - Applied Instruction: Organ

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 212 - Applied Instruction: Piano

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213 - Applied Instruction: Strings

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213A - Applied Instruction: Violin

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213B - Applied Instruction: Viola

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213C - Applied Instruction: Cello

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213D - Applied Instruction: Double Bass

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 213E - Applied Instruction: Harp

Repeatable for credit.

Prerequisites & Notes: music mjr; min applied

performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214 - Applied Instruction: Winds and Percussion

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214A - Applied Instruction: Flute

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214B - Applied Instruction: Oboe

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214C - Applied Instruction: Clarinet

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214D - Applied Instruction: Bassoon

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214E - Applied Instruction: Saxophone

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214F - Applied Instruction: French Horn

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition

Credits: 1-4

Grade Mode: Letter

MUS 214G - Applied Instruction: Trumpet

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition**Credits:** 1-4**Grade Mode:** Letter**MUS 214H - Applied Instruction: Trombone**

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition**Credits:** 1-4**Grade Mode:** Letter**MUS 214I - Applied Instruction: Euphonium**

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition**Credits:** 1-4**Grade Mode:** Letter**MUS 214J - Applied Instruction: Tuba**

Repeatable for credit.

Repeatable for credit.

Prerequisites & Notes: music major; minimum applied performance audition**Credits:** 1-4**Grade Mode:** Letter**MUS 221A - Aural Skills IV**

The development of aural competence in and visual familiarity with the sounds and symbols of

the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major; MUS 125A. Co-requisite: MUS 221B.**Credits:** 1**Grade Mode:** Letter**MUS 221B - Keyboard Skills IV**

The development of competence in and familiarity with the piano keyboard, reading and playing in the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major; MUS 125B. Co-requisite: MUS 221A.**Credits:** 1**Grade Mode:** Letter**MUS 222 - Theoretical and Analytical Skills IV**

Advanced study of and practical experience in using the materials of musical construction including extended, chromatic, and non-tertian harmonic structures and complex musical forms.

Prerequisites & Notes: MUS 126; music major.**Credits:** 2**Grade Mode:** Letter**MUS 223A - Aural Skills V**

The development of aural competence in and visual familiarity with the sounds and symbols of the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major; MUS 221A. Co-requisite: MUS 223B.**Credits:** 1**Grade Mode:** Letter**MUS 223B - Keyboard Skills V**

The development of competence in and familiarity with the piano keyboard, reading and playing in the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major; MUS 221B. Co-requisite: MUS 223A.**Credits:** 1**Grade Mode:** Letter

MUSIC

MUS 224 - Theoretical and Analytical Skills V

Advanced study of and practical experience in using the materials of musical construction including extended, chromatic, and non-tertian harmonic structures and complex musical forms.

Prerequisites & Notes: MUS 222; music major.

Credits: 2

Grade Mode: Letter

MUS 225A - Aural Skills VI

The development of aural competence in and visual familiarity with the sounds and symbols of the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation.

Prerequisites & Notes: Music major; MUS 223A. Co-requisite: MUS 225B.

Credits: 1

Grade Mode: Letter

MUS 225B - Keyboard Skills VI

The development of competence in and familiarity with the piano keyboard, reading and playing in the chromatic major and minor system; introduction to extended tertian harmony. Exercises and drill in scales, harmonization, accompaniment, prepared and sight reading.

Prerequisites & Notes: Music major; MUS 223B. Co-requisite: MUS 225A.

Credits: 1

Grade Mode: Letter

MUS 226 - Theoretical and Analytical Skills VI

Advanced study of and practical experience in using the materials of musical construction including extended, chromatic, and non-tertian harmonic structures and complex musical forms.

Prerequisites & Notes: MUS 224.

Credits: 2

Grade Mode: Letter

MUS 230 - Introduction to Electroacoustic Music

Instruction in audio processing and synthesis with computer software; history of electroacoustic music.

Credits: 2

Grade Mode: Letter

MUS 231 - Elementary Composition

Elementary craft of melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition seminars. Repeatable for credit under advisement.

Credits: 2

Grade Mode: Letter

MUS 232 - Computer Music Seminar

Instruction in musical programming with Max or CSound. Topics include sound synthesis, signal processing, and algorithmic composition.

Credits: 2

Grade Mode: Letter

MUS 260 - Remedial Class Piano

Concentration on specific areas of the Keyboard Competency Exam based on individual needs. Repeatable for credit.

Prerequisites & Notes: music major; successful completion of a minimum 4 items Keyboard Competency Exam

Credits: 1

Grade Mode: Letter

MUS 261 - Intermediate Class Piano

Intermediate piano repertoire, sight-reading skills, technique and accompanying. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: MUS 225A and MUS 225B; music major.

Credits: 1

Grade Mode: Letter

MUS 263 - Pedagogy/Lab: Voice

Vocal pedagogy and performance, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264L - Pedagogy/Lab: Woodwinds I

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264M - Pedagogy/Lab: Woodwinds II

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1

Grade Mode: Letter

MUS 264N - Pedagogy/Lab: Brass I

Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1
Grade Mode: Letter

MUS 264O - Pedagogy/Lab: Brass II
Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1
Grade Mode: Letter

MUS 264P - Pedagogy/Lab: Concert Percussion
Instruction for future music educators in performance techniques and teaching methods for standard percussion used in concert band, orchestra, and percussion ensemble.

Prerequisites & Notes: Music Education major.
Credits: 1
Grade Mode: Letter

MUS 264Q - Pedagogy/Lab: Marching Percussion
Instruction in performance techniques and teaching methods for the contemporary marching percussion ensemble. Classes will include hands-on instruction and drills on a variety of marching techniques to build both individual as well as ensemble technique. The course will also provide essential information covering: basic instrument care and maintenance, drum tuning, stick and mallet selection, instrumentation, and rehearsal strategies.

Prerequisites & Notes: Music Education major or instructor permission.
Credits: 1
Grade Mode: Letter

MUS 264R - Pedagogy/Lab: Drumset
This course provides instruction for future music educators in performance techniques and teaching methods for drumset. Students will develop stick technique on the snare drum and four-way coordination at the drumset while developing a basic understanding of drumming in a variety of musical styles including: rock, jazz/swing, and Latin grooves.

Prerequisites & Notes: Music Education major or instructor permission.
Credits: 1
Grade Mode: Letter

MUS 264W - Pedagogy/Lab: World Percussion
This course will introduce the rhythms and musical cultures of West Africa, Brazil, and Cuba through the study of instruments and techniques and audio and video recordings. Future music educators will learn basic information concerning teaching

methods and performance techniques for a broad range of hand percussion instruments.

Prerequisites & Notes: Music education major or instructor permission.
Credits: 1
Grade Mode: Letter

MUS 265C - Pedagogy/Lab: Strings I
Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1
Grade Mode: Letter

MUS 265D - Pedagogy/Lab: Strings II
Pedagogy of and performance on secondary instruments, conducting, developing teaching strategies with goals and objectives.

Credits: 1
Grade Mode: Letter

MUS 268 - Introduction to Music Education
This course is designed to introduce philosophical issues and pedagogical practices in the teaching of music in elementary and secondary schools. Through discussion, reading, presentation, and observation, students will explore the career realities of full-time public school music teaching. Students will be introduced to a variety of frameworks for effective instruction, and will examine content and strategies for organizing and presenting lessons in classroom and rehearsal settings.

Prerequisites & Notes: Music Education major; MUS 124 and MUS 125 or equivalent.
Credits: 2
Grade Mode: Letter

MUS 269 - Music Teaching Practicum I
Observation, assisting and/or micro-teaching experience in K-12 music classroom environments. Repeatable for credit.

Prerequisites & Notes: instructor permission
Credits: 2
Grade Mode: Letter

MUS 271 - University Choir
Preparation and performance of major choral works and part-songs. Open to all students having the ability to sing mixed part-songs. Repeatable for credit.

Prerequisites & Notes: instructor permission
Credits: 2
Grade Mode: Letter

MUSIC

MUS 272 - Symphonic Band

Preparation and performance of major band works. Open to all students with band experience. Repeatable for credit.

Prerequisites & Notes: instructor permission

Credits: 2

Grade Mode: Letter

MUS 273 - String Sinfonia

The study of orchestral technique through practical application and public performance of diverse repertoire for string orchestra.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: Letter

MUS 274 - Jazz Ensembles

Performance and interpretation of contemporary jazz in a large ensemble situation. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 275 - Chamber Jazz Ensembles

Supervised performances in small ensemble groups in jazz idioms stressing repertoire, improvisation, and performance of written arrangements and compositions. One public performance per quarter required. Repeatable for credit.

Prerequisites & Notes: By audition

Credits: 2

Grade Mode: Letter

MUS 276 - Piano Accompanying

Includes private accompanying instruction and weekly performance seminars. Accompanying assignments include duos, chamber ensembles and large performance ensembles. Sight-reading skills, interpretation and accompanying techniques are emphasized. Repeatable for credit.

Prerequisites & Notes: MUS 098 or instructor permission.

Credits: 2

Grade Mode: Letter

MUS 278 - Opera Workshop

Preparation of opera scenes or a major music production to include a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 280 - Collegium Musicum

Music literature studies from an analytical and performance viewpoint from early to classic music, culminating in a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 281 - Applied Chamber Music

Rehearsal, coaching, and study of the performance of works for small ensembles, culminating in a concert performance. Open to piano, string, wind, brass and percussion performers. Repeatable for credit.

Prerequisites & Notes: By audition.

Credits: 0-2

Grade Mode: Letter

MUS 282 - Guitar Ensemble

Classical guitar students participate in duos, trios, quartets and pieces written for guitar orchestra.

Prerequisites & Notes: MUS 216 or permission of instructor.

Credits: 2

Grade Mode: Letter

MUS 283 - Chamber Vocal Ensembles

Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 284 - Vocal Jazz Ensemble

Preparation and performance of vocal works by major jazz composers. Open to all University students having the ability to sing in mixed chorus. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 285 - Fundamentals of Musical Theatre

Practical application for singing, acting and movement to performance-related work from American musical theatre through solo, duet and group performance. Repeatable to a maximum of 6 cr.

Credits: 3

Grade Mode: Letter

MUS 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be

arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MUS 305 - Musics of the Pacific Rim

An investigation of specific musical styles and practices of selected Pacific Rim cultures, including Pacific Islands, West Coast Native Americans, South America, Indonesia, China and Japan. Includes class participation in actual musical situations from these areas.

Prerequisites & Notes: MUS 205

Credits: 3

Grade Mode: Letter

MUS 311 - Applied Instruction: Organ

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 312 - Applied Instruction: Piano

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 321 - Aural and Keyboard Skills III

The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 225A and MUS 226B; majors only.

Credits: 1

Grade Mode: S/U

MUS 322 - Form and Analysis: Music to 1900

Formal and stylistic analysis of works from the major historical periods up to 1900.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 323 - Aural and Keyboard Skills III

The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 321

Credits: 1

Grade Mode: S/U

MUS 324A - Modal Counterpoint

Counterpoint in species and free style. Composition and analysis of pieces in two and three parts.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 324B - Tonal Counterpoint

Counterpoint in species and free style. Composition and analysis of pieces in two and three parts.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 325 - Aural and Keyboard Skills III

The development of aural competence in and visual familiarity with the sounds and symbols of atonal, freely tonal and highly chromatic tonal systems; completion of extended tertian harmony. Exercises and drill in prepared and sight reading, dictation, error detection, accuracy of rhythm and intonation. S/U grading.

Prerequisites & Notes: MUS 323

Credits: 1

Grade Mode: S/U

MUS 326 - Orchestration/Arranging

Orchestration and arranging with special reference to the needs of the instrumental conductor and composer. Repeatable for credit.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 328 - Technology for Music Educators

Analysis, application, and interaction with current technology used for educational purposes in music. Sequencing, notation, smart board instruction, web design, and mixed media as instructional and research tools.

Prerequisites & Notes: MUS 126 with concurrency, MUS 125A with concurrency and MUS 125B with concurrency or instructor permission; music education major status.

Credits: 2

Grade Mode: Letter

MUS 331 - Composition

Intermediate-level projects in melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition seminars. Repeatable for credit under advisement.

Prerequisites & Notes: MUS 224; successful completion of upper-division competency exam in composition.

Credits: 3

Grade Mode: Letter

MUS 334 - Jazz Theory and Improvisation I

Study of basic chord changes, scales and patterns with improvisation based on these principles. Analysis of transcribed solos and study of jazz repertoire.

Prerequisites & Notes: Instructor permission.

Credits: 3

Grade Mode: Letter

MUS 335 - Jazz Theory and Improvisation II

Study of altered chords, scales and patterns with improvisation based on the principles. Analysis of transcribed solos, study of jazz repertoire and ear training.

Prerequisites & Notes: MUS 334 or instructor permission.

Credits: 3

Grade Mode: Letter

MUS 336 - Jazz Theory and Improvisation III

Study of bitonal chords, atonality and patterns with improvisation based on these principles. Analysis of transcribed solos, study of jazz repertoire and ear training.

Prerequisites & Notes: MUS 335 or instructor permission.

Credits: 3

Grade Mode: Letter

MUS 341 - History of Music to 1600

Main styles, forms, terminology and composers up to 1600. Individual research projects.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B; music major status.

Credits: 3

Grade Mode: Letter

MUS 342 - History of Music 1600-1830

Main styles, forms, terminology and composers from 1600 to 1830. Individual research projects.

Prerequisites & Notes: MUS 341; music major

Credits: 3

Grade Mode: Letter

MUS 343 - History of Music 1830-Present

Main styles, forms, terminology and composers from 1830-present. Individual research projects.

Prerequisites & Notes: MUS 342; music major

Credits: 3

Grade Mode: Letter

MUS 351 - Basic Conducting

Basic conducting techniques, score reading and interpretive analysis.

MUSIC

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B; music major status.

Credits: 2

Grade Mode: Letter

MUS 352 - Instrumental Conducting

Instrumental techniques, score reading, interpretive analysis and rehearsal techniques.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B; music major status.

Credits: 3

Grade Mode: Letter

MUS 353 - Choral Conducting

Choral techniques, score reading, interpretive analysis and rehearsal techniques.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B; music major status.

Credits: 3

Grade Mode: Letter

MUS 354A - Advanced Choral Conducting

Hands-on practical experience in developing advanced conducting skills. Ensemble conducting experience.

Prerequisites & Notes: MUS 352, MUS 353; music major

Credits: 3

Grade Mode: Letter

MUS 354B - Advanced Instrumental Conducting

Hands-on practical experience in developing advanced conducting skills. Ensemble conducting experience.

Prerequisites & Notes: MUS 352, MUS 353; music major

Credits: 3

Grade Mode: Letter

MUS 361 - Music for Elementary Teachers

For elementary teachers, not music majors. The skills of singing, reading, writing, playing and hearing music; techniques and materials used in the elementary grades.

Credits: 3

Grade Mode: Letter

MUS 362 - General Music Education

Instructional techniques, resources, curriculum design, and methodology for teaching students in non-performance based general music classes. Emphasis on P-6th Grades.

Prerequisites & Notes: MUS 124 and MUS 268;

music major status.

Credits: 3

Grade Mode: Letter

MUS 364 - Elementary String Education

Instruction in elementary-level string instrumental repertoire, teaching strategies, rehearsal techniques, curriculum design and implementation. Peer-teaching and micro-teaching assignments in conjunction with Instrumental Pedagogy Lab classes and public school programs.

Prerequisites & Notes: MUS 265A, MUS 265B; music major

Credits: 2

Grade Mode: Letter

MUS 366A - Vocal Diction: English and Italian

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: MUS 126 and MUS 125A or equivalent; must be taken concurrently with applied voice instruction; music major.

Credits: 1

Grade Mode: Letter

MUS 366B - Vocal Diction: German

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: MUS 366A; must be taken concurrently with applied voice instruction; music major.

Credits: 1

Grade Mode: Letter

MUS 366C - Vocal Diction: French

Familiarization and application of the phonetic structures of the major languages of singing and the use of the International Phonetic Alphabet as a basic tool for pronunciation.

Prerequisites & Notes: MUS 366B; must be taken concurrently with applied voice instruction; music major.

Credits: 1

Grade Mode: Letter

MUS 367 - Fretboard Harmony

Diatonic harmony applied to the fretboard. Hands-on application of scales and chords as well as basic arranging chord-melody for the guitarist.

Prerequisites & Notes: MUS 126, three quarters of MUS 216.

Credits: 2
Grade Mode: Letter

MUS 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as ART 398, DNC 398 and THTR 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3
Grade Mode: Letter

MUS 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MUS 411 - Applied Instruction: Organ

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 412 - Applied Instruction: Piano

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413 - Applied Instruction: Strings

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413A - Applied Instruction: Violin

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413B - Applied Instruction: Viola

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413C - Applied Instruction: Cello

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413D - Applied Instruction: Double Bass

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 413E - Applied Instruction: Harp

Repeatable for credit.

Prerequisites & Notes: Music major; upper-division exam.

Credits: 1-4
Grade Mode: Letter

MUS 414 - Applied Instruction: Winds and Percussion

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 414A - Applied Instruction: Flute

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 414B - Applied Instruction: Oboe

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4
Grade Mode: Letter

MUS 414C - Applied Instruction: Clarinet

Repeatable for credit.

MUSIC

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414D - Applied Instruction: Bassoon

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414E - Applied Instruction: Saxophone

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414F - Applied Instruction: French Horn

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414G - Applied Instruction: Trumpet

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414H - Applied Instruction: Trombone

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414I - Applied Instruction: Euphonium

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414J - Applied Instruction: Tuba

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 414K - Applied Instruction: Percussion

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 415 - Applied Instruction: Voice

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 416 - Applied Instruction: Classical Guitar

Repeatable for credit.

Prerequisites & Notes: music major; upper-division exam

Credits: 1-4

Grade Mode: Letter

MUS 418 - Applied Jazz Improvisation Lessons

Applied individual instruction. Jazz and commercial music styles will be explored, and the functional role of the improviser in an ensemble setting will be addressed.

Prerequisites & Notes: MUS 334 and MUS 335.

Credits: 3

Grade Mode: Letter

MUS 422 - Analytical Techniques: 20th-Century Music

Formal and stylistic analysis of representative 20th-century works.

Prerequisites & Notes: MUS 224; MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 424 - Free Counterpoint

Post-tonal counterpoint in species and free styles. Composition and analysis of contemporary works.

Prerequisites & Notes: MUS 226, MUS 225A and MUS 225B.

Credits: 3

Grade Mode: Letter

MUS 431 - Composition

Advanced projects in melody, counterpoint, harmony, instrumentation, texture, rhythm, and notation; participation in weekly composition seminars. Repeatable for credit under advisement.

Prerequisites & Notes: minimum 6 credits MUS 331

Credits: 3

Grade Mode: Letter

MUS 432 - Electroacoustic Music

Instruction in the use of computer software and analog synthesizers for creation of electroacoustic music. Discussion of music, arts technology, and aesthetics. Group instruction and studio time. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: MUS 230 and MUS 232; or instructor permission.

Credits: 2

Grade Mode: Letter

MUS 434 - Jazz Arranging and Composition I

Writing and arranging for small jazz ensembles. Analysis of small jazz ensemble styles.

Prerequisites & Notes: MUS 224 or MUS 334.

Credits: 3

Grade Mode: Letter

MUS 435 - Jazz Arranging and Composition II

Writing and arranging for a variety of instrumental combinations. Analysis of jazz ensemble styles.

Prerequisites & Notes: MUS 434.

Credits: 3

Grade Mode: Letter

MUS 436 - Jazz Arranging III

Writing and arranging for large jazz ensemble. Analysis of large jazz ensemble styles.

Prerequisites & Notes: MUS 435

Credits: 3

Grade Mode: Letter

MUS 441 - Notation

Reading and interpreting early, contemporary or other extant systems.

Prerequisites & Notes: MUS 224, MUS 341, MUS 343; permission of instructor.

Credits: 3

Grade Mode: Letter

MUS 442 - Seminar in Music History

The student, in consultation with the instructor, selects one or more given musical developments for individual research. Ongoing results of this research are shared with other members of the seminar. Focus of varies from quarter to quarter. Repeatable for credit.

Prerequisites & Notes: MUS 342, MUS 343;

music major

Credits: 4

Grade Mode: Letter

MUS 443A - History of Musical Genres: Choral Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443B - History of Musical Genres: Solo Song

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443C - History of Musical Genres: Opera

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443D - History of Musical Genres: Keyboard Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443E - History of Musical Genres: Chamber Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443F - History of Musical Genres: Symphonic Music

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443G - History of Musical Genres: Concerto

MUSIC

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443H - History of Musical Genres: Symphonic Music in the 20th Century

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443I - History of Musical Genres: Opera I

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major

Credits: 3

Grade Mode: Letter

MUS 443J - History of Musical Genres: Opera II

Development and literature of important musical genres from their origin to the present.

Prerequisites & Notes: MUS 343; music major.

Credits: 3

Grade Mode: Letter

MUS 444 - Shakespeare and Music

History and literature of musicians' responses to works of Shakespeare - music for stage and film, orchestral music, opera and song settings.

Prerequisites & Notes: MUS 343

Credits: 3

Grade Mode: Letter

MUS 451 - Conducting Practicum

Advanced conducting techniques to include direction of student ensembles under faculty supervision.

Prerequisites & Notes: MUS 351; MUS 352 or MUS 353

Credits: 1-3

Grade Mode: Letter

MUS 455 - Band Music Workshop

Offered summers only. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 456 - String Music Workshop

Offered summers only. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 460 - Literacy and Music

This course is designed to introduce processes associated with the development of comprehensive literacy (reading, writing, speaking, and listening) within the P-12 music classroom. The course considers and includes two approaches to the pursuit of teaching toward literacy: 1) the cross-over, combination, and correlation between literacy standards and music standards, and 2) the onset of guiding students toward literacy in the academic area of music, i.e., the symbolic systems and "codes" related to musical ideas, meaning, and communication.

Prerequisites & Notes: Admitted teacher candidate in Woodring College of Education or instructor permission.

Credits: 2

Grade Mode: Letter

MUS 461 - Advanced Techniques in General Music Education

Advanced teaching techniques for instructing secondary level students in non-performance based classrooms. In depth curriculum, methods, assessment strategies, long-term planning. Laboratory experience is included.

Prerequisites & Notes: Admission to Woodring College of Education and MUS 362

Credits: 3

Grade Mode: Letter

MUS 463 - Secondary Choral Music Education

Instruction in middle and high school choral repertoire, teaching strategies, rehearsal techniques, classroom management, curriculum design. Peer-teaching and micro-teaching assignments in public schools.

Prerequisites & Notes: MUS 268 and MUS 354; Music Education major.

Credits: 3

Grade Mode: Letter

MUS 465 - Secondary Instrumental Music Education

Instruction in middle and high school instrumental rehearsal techniques, repertoire selection, classroom management systems, short and long term planning, and curriculum design. Peer-teaching and on-site observation within public school secondary instrumental classes.

Prerequisites & Notes: MUS 264L; MUS 264M; MUS 264N; MUS 264O; MUS 264P; MUS 265C;

MUS 265D; MUS 268; MUS 352.

Credits: 3

Grade Mode: Letter

MUS 466 - Applied Music Pedagogy

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 1-3

Grade Mode: Letter

MUS 466A - Applied Music Pedagogy: Piano

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 2

Grade Mode: Letter

MUS 466B - Applied Music Pedagogy: Voice

A study of the basic concepts involved in instrument or voice pedagogy through a survey of the most important modern teaching methods. Repeatable for credit.

Prerequisites & Notes: upper-division applied instruction; music major

Credits: 2

Grade Mode: Letter

MUS 467 - Applied Music Literature

A stylistic and historical survey of literature for instruments or voice. Repeatable for credit.

Prerequisites & Notes: music major

Credits: 1-3

Grade Mode: Letter

MUS 467A - Applied Music Literature

A stylistic and historical survey of literature for instruments or voice. Repeatable for credit.

Prerequisites & Notes: music major

Credits: 3

Grade Mode: Letter

MUS 468A - Guitar History and Repertory

A survey of guitar literature and history from Renaissance to present.

Prerequisites & Notes: MUS 367; corequisite: MUS 216.

Credits: 2

Grade Mode: Letter

MUS 468B - Guitar History and Repertory

A survey of guitar literature and history from Renaissance to present.

Prerequisites & Notes: MUS 367; corequisite: MUS 216.

Credits: 2

Grade Mode: Letter

MUS 469 - Music Teaching Practicum II

Observation, assisting and intense field experience in music classroom environments. Repeatable for credit.

Prerequisites & Notes: admission to Woodring College of Education

Credits: 2

Grade Mode: Letter

MUS 471 - Concert Choir

Selected group experience, vocal ability, reading skill, musicianship and interest in serious choral music considered for membership. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 472 - Wind Symphony

Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 473 - University Symphony Orchestra

Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 474 - Jazz Ensembles

Advanced performance and interpretation of contemporary jazz in an ensemble situation; recent developments in the idiom; performance of student compositions and arrangements. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 475 - Chamber Jazz Ensemble

Supervised small ensemble playing in jazz idioms stressing repertoire, improvisation and

MUSIC

performance of written arrangements and compositions. One public performance per quarter required. Repeatable for credit.

Prerequisites & Notes: by audition; MUS 334, MUS 335 or MUS 336 strongly recommended.

Credits: 2

Grade Mode: Letter

MUS 476 - Advanced Piano Accompanying

Advanced instruction in accompanying skills. Repeatable for credit.

Prerequisites & Notes: completion of major performance ensemble requirement

Credits: 2

Grade Mode: Letter

MUS 478 - Advanced Opera Production

Preparation of opera scenes or a major musical production to include a public performance each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 480 - Advanced Collegium Musicum

Music literature studies from an analytical and performance viewpoint from early to classic music, culminating in a public performance each quarter. Repeatable for credit.

Credits: 1-2

Grade Mode: Letter

MUS 481 - Advanced Applied Chamber Music

Open to piano, string, wind, brass and percussion performers. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 483 - Advanced Chamber Vocal Ensembles

Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 2

Grade Mode: Letter

MUS 484 - Advanced Vocal Jazz Ensemble

Preparation and performance of vocal works by major jazz composers. Open to all University students having the ability to sing in mixed chorus. Repeatable for credit.

Prerequisites & Notes: by audition; MUS 101, MUS 102, MUS 103 recommended

Credits: 2

Grade Mode: Letter

MUS 485 - New Music Ensemble

Performance of 20th-century music literature. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-2

Grade Mode: Letter

MUS 486 - Chamber Orchestra

Rehearsal and performance of chamber orchestra literature. Repeatable for credit.

Credits: 1

Grade Mode: Letter

MUS 490 - Senior Thesis

S/U grading.

Prerequisites & Notes: Admission to music history and literature program or music composition program.

Credits: 3

Grade Mode: S/U

MUS 499 - Senior Recital

A full-length, public recital approved by the student's Recital Committee. S/U grading.

Credits: 3

Grade Mode: S/U

MUS 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MUS 501 - Instrumental Conducting and Rehearsal Techniques

Advanced work in conducting band and orchestra music; baton technique, interpretation, score preparation and rehearsal techniques. Repeatable for credit.

Credits: 3

Grade Mode: Letter

MUS 502 - Choral Conducting and Literature

Successful techniques in developing and conducting choral groups, score analysis of outstanding choral works; laboratory experience in

conducting. Repeatable for credit.

Credits: 3

Grade Mode: Letter

MUS 503 - Introduction to Graduate Study of Music

Sources and availability of music, recordings and literature about music throughout its entire history. Techniques of research bibliography and formal writing about music. Students are expected to prepare and defend a formal written project.

Credits: 3

Grade Mode: Letter

MUS 511 - Individual Instruction: Advanced Organ

In addition to regularly scheduled private lessons, students are expected to participate in organ class performances and to hold a church organist position throughout their residence for the degree. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 3-4

Grade Mode: Letter

MUS 512 - Individual Instruction: Advanced Piano

In addition to regularly scheduled private lessons, a public performance is expected each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 1-4

Grade Mode: Letter

MUS 513 - Individual Instruction: Advanced Strings

In addition to regularly scheduled private lessons, a public performance of a significant work is expected. The performance will be approved and evaluated by a faculty committee. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 3-4

Grade Mode: Letter

MUS 514 - Individual Instruction: Advanced Orchestral Winds and Percussion

In addition to regularly scheduled private lessons, a public performance of a significant work is expected. The performance will be approved and evaluated by a faculty committee. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 3-4

Grade Mode: Letter

MUS 515 - Individual Instruction: Advanced Voice

In addition to regularly scheduled private lessons, a public performance is expected each quarter. Repeatable for credit.

Prerequisites & Notes: by audition

Credits: 0-4

Grade Mode: Letter

MUS 518 - Individual Instruction: Applied Jazz

Individual instruction in jazz performance styles and techniques. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 3-4

Grade Mode: Letter

MUS 519 - Individual Instruction - Advanced Applied Conducting

Individual instruction in conducting techniques and repertoire.

Prerequisites & Notes: admission to MMus degree program; MUS 501 or MUS 502

Credits: 1-3

Grade Mode: Letter

MUS 525 - Brass and Percussion Techniques and Materials

Pedagogical and fundamental performance problems for all brass and percussion instruments; appropriate literature for beginning through advanced levels; performance problems encountered within the school band and orchestra settings.

Credits: 3

Grade Mode: Letter

MUS 531 - Arranging

Practical techniques in arranging and composing for large and small ensembles.

Credits: 3

Grade Mode: Letter

MUS 532 - Analytical Techniques: 20th-Century Musical Practices

Analysis of works by various composers who have generated the major trends of 20th-century music.

Credits: 3

Grade Mode: Letter

MUS 533 - Analytical Techniques: 19th-Century Musical Styles and Practices

MUSIC

Analysis of works by various composers who generated the major trends of 19th-century music.

Credits: 3

Grade Mode: Letter

MUS 534 - Composition

Composition, rehearsal and public performance of original works. Repeatable for credit.

Prerequisites & Notes: MUS 431

Credits: 4

Grade Mode: Letter

MUS 538 - Notation

Reading, interpreting and transcribing music from early notational systems.

Credits: 3

Grade Mode: Letter

MUS 539 - History of Musical Genres

An in-depth look at a particular musical genre. Sample topics: opera, solo song, choral music, the concerto, symphonic music. Course may be repeated once for credit, with a different topic.

Credits: 3

Grade Mode: Letter

MUS 541 - Seminar in Music History: Medieval-Renaissance

An in-depth study of a particular segment of music chosen from the Medieval and Renaissance periods with historical perspective, analysis of representative works, and bibliography and research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4

Grade Mode: Letter

MUS 542 - Seminar in Music History: Baroque-Classical

An in-depth study of a particular segment of music chosen from the Baroque and Classical periods with historical perspective, analysis of representative works, and bibliography and research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4

Grade Mode: Letter

MUS 543 - Seminar in Music History: Romantic-Contemporary

An in-depth study of a particular segment of music chosen from the Romantic and Contemporary periods with historical perspective, analysis of representative works, and bibliography and

research techniques appropriate to the subject. Repeatable once for credit.

Credits: 4

Grade Mode: Letter

MUS 550 - Seminar in the History of Music

Detailed study of a particular period or phase of the history of music designed to give students a first-hand acquaintance with one special area of musical literature and with musicological method.

Credits: 3

Grade Mode: Letter

MUS 555 - Advanced Band Music Workshop

Course not applicable to MMus degree. Offered summers only. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 556 - Advanced String Orchestra Music Workshop

Course not applicable to MMus degree. Offered summers only. Repeatable for credit.

Credits: 2

Grade Mode: Letter

MUS 560 - Literacy and Music

This course is designed to introduce processes associated with the development of comprehensive literacy (reading, writing, speaking, and listening) within the music education classroom, P-12th grades. The course considers and includes two approaches to the pursuit of teaching toward literacy: 1) the cross-over, combination, and correlation between literacy standards and music standards, and 2) the onset of guiding students toward literacy in the academic area of music, i.e., the symbolic systems and "codes" related to musical ideas, meaning, and communication.

Credits: 3

Grade Mode: Letter

MUS 561 - Advanced Techniques in General Music Education

Advanced teaching techniques for instructing secondary level students in non-performance based classrooms. In depth curriculum, methods, assessment strategies, long-term planning. Laboratory experience is included.

Prerequisites & Notes: MUS 562.

Credits: 3

Grade Mode: Letter

MUS 562 - General Music Methods

Instructional techniques, resources, curriculum design, and methodology for teaching students in non-performance based general music classes. Emphasis on P-6th Grades.

Credits: 3

Grade Mode: Letter

MUS 566 - Advanced Piano Pedagogy I

Principles of piano teaching at the beginner through intermediate/early advanced levels; this will include in-depth discussion on teaching rhythm, sound production, hand/body position, pedaling, technique, sight reading, memorizing, musicianship, artistry, as well as psychology, child, teenager, adult, ADHD, and other special circumstances, and developmental and learning theories as related to currently available piano pedagogy materials. Repeatable up to 6 credits including original course.

Prerequisites & Notes: Admitted into MMus Performance, piano pedagogy emphasis.

Credits: 3

Grade Mode: Letter

MUS 568 - Advanced Piano Pedagogy II

The historical and international perspective of piano teaching. This will include discussions of national schools of piano playing, the relationship of technological changes in piano construction to piano technique, piano pedagogy and composition styles. Repeatable up to 6 credits including original course.

Prerequisites & Notes: Admitted into MMus in Performance, piano pedagogy emphasis.

Credits: 3

Grade Mode: Letter

MUS 571 - Concert Choir

Rehearsal and public performance of representative choral works. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 572 - Wind Symphony

Rehearsal and public performance of works for wind ensemble. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 573 - University Symphony Orchestra

Rehearsal and public performance of works for symphony orchestra. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 574 - Jazz Ensembles

Advanced performance and interpretation of contemporary jazz in an ensemble situation; recent developments in the idiom; performance of student compositions and arrangements. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 575 - Chamber Jazz Ensembles

Supervised small ensemble playing in jazz idioms stressing repertoire, improvisation and performance of written arrangements and compositions. One public performance per quarter required. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 576 - Accompanying

Graduate-level instruction in accompanying skills. Pianists will accompany singers and instrumentalists under the supervision and regular coaching of the instructor. Repeatable for credit.

Credits: 0-3

Grade Mode: Letter

MUS 578 - Opera Production

Preparation of opera scenes or a major musical production to include a public performance each quarter. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 1-2

Grade Mode: Letter

MUS 580 - Advanced Collegium Musicum

Editing, coaching and performance practice of early music (before 1800). Involves preparation and participation in public performance. (Only 6 credits applicable towards MMus degree). Repeatable up to 6 credits.

Credits: 2

Grade Mode: Letter

MUSIC

MUS 581 - Applied Chamber Music

Rehearsal and public performance of representative works of chamber music. Open to piano, string, wind, brass and percussion performers. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 583 - Chamber Vocal Ensembles

Rehearsal and public performance of chamber vocal works. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 585 - New Music Ensemble

Rehearsal and performance of 20th-century music literature. Repeatable to a maximum of 12 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 2

Grade Mode: Letter

MUS 586 - Chamber Orchestra

Rehearsal and performance of chamber orchestra literature. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: admission to MMus degree program

Credits: 1

Grade Mode: Letter

MUS 690 - Thesis

Students in the composition concentration of the MMus degree program may meet the thesis requirement` by submitting a major original composition; students in the performance concentration may meet the thesis requirement by presenting a full-length public recital; students in the music education concentration selecting the conducting practicum for their thesis requirement will carry out a practical and/or creative conducting project, field study or investigation, or rehearsal/conducting series culminating in a public performance. Repeatable to a maximum of 6 cr.

Credits: 1-6

Grade Mode: Letter

Theatre and Dance

Introduction

Department Mission Statement

The faculty and staff of the Theatre and Dance department are committed to a liberal arts approach to performing arts education while maintaining a balance of both academic and practical approaches to the arts of theatre and dance. We believe strongly in the value of academic rigor, which in turn supports and maintains productions and projects of the highest standards. We promote a global, diverse and collaborative view of performing arts education, and strive to train artistic leaders in their chosen disciplines who will further contribute to the craft.

Program Description: Theatre

Theatre offers a Bachelor of Arts as well as a theatre minor and an endorsement in Theatre Education in conjunction with Woodring College of Education. Each theatre arts major is grounded in generalist fundamentals and chooses one or more areas of specialization (acting, dramatic writing, educational theatre, technical theatre, design and/or management). In addition to preparing majors for careers in academic or professional theatre, the lessons acquired through this course of study are readily transferable to careers in teaching, law, business, social services and other areas where inter- and intrapersonal skills are required.

The following areas of knowledge are central to the undergraduate degree in theatre arts:

- Major works of dramatic literature representative of diverse cultures
- The history of theatrical production - its styles, conventions and social context - from the ancients to the present day
- The means by which theatrical production is realized
- The role of theatre in shaping our past, present and future

In addition, students completing a degree in theatre arts will possess the ability to:

- Analyze and interpret dramatic literature and performance from the standpoint of designer, performer, director, playwright or critic
- Safely and efficiently use the tools and equipment basic to theatrical production

- Function effectively as a member of a collaborative team in the preparation and realization of a public performance

Assessment of these competencies is accomplished through individual course performance as well as a final evaluation of each student via a senior project, which may include the presentation of a written thesis, performance project or portfolio. Projects vary by student specialization and interests.

Program Description: Dance

Dance offers a Bachelor of Arts and a Bachelor of Fine Arts as well as a Dance Minor and a Teaching Endorsement in conjunction with Woodring College of Education.

Entry into the BA/BFA is by audition. Completion of the program is dependent upon successful progress through the curriculum. The BA is a broadly-based degree, with a liberal arts orientation, and is designed for students with a general rather than career interest in performing or choreographing. BA candidates will focus on pedagogical and historic aspects of dance. The BFA degree is a highly selective program which trains exceptionally committed, disciplined, and talented students. The BFA degree also requires recommendation of faculty members.

The following areas of knowledge are central to both the BA and BFA undergraduate degrees in Dance:

- Knowledge of the kinesthetic and intellectual language of movement art
- Knowledge and application of critical and reflective thinking
- Knowledge of the role of dance in shaping our past, present and future
- Knowledge of the professional practices in their field

Dance program objectives:

In addition to the goals of the content knowledge areas, students completing the degree in Dance should be able to:

- Analyze and interpret the socially and culturally diverse realms of movement art
- Communicate effectively in oral, written and non-verbal methods
- Function effectively as a member of a collaborative team in the preparation and realization of a public performance
- Develop proficiency in Contemporary/Modern technique and competency in ballet technique.

THEATRE AND DANCE

Assessment of these competencies is accomplished through individual course performance, completion of degree requirements, and in part by successful audition and casting in faculty directed events. BFA candidates will be expected to participate in a culminating Capstone course and presentation as choreographers and as featured dancers.

Faculty

BETH LEONARD (2013) Chair and Professor. B.S. University of Kansas; M.A. University of Central Missouri; MFA University of Missouri; ABD University of Kansas.

RICH BROWN (2006) Professor. BA, MA, Central Missouri State University; PhD, University of Oregon.

DEBORAH CURRIER (2003) Associate Professor. BA, California State University; MA, PhD, University of Oregon.

NOLAN DENNETT (1989) Professor. BA, Brigham Young University; MA, Western Washington University.

DIPU GUPTA (2018) Assistant Professor. BA, University of Pennsylvania; MARCH, University of Virginia; MFA University of California, L.A.

PENNY HUTCHINSON (2005) Associate Professor. BA, Vermont College; MFA, Mills College.

MARK KUNTZ (1997) Professor. BA, University of Washington; MFA, University of Oregon.

JAMES E. LORTZ (1989) Professor. BFA, MFA, University of Montana.

DARREN W. MCCROOM (2015) Assistant Professor. BFA, Rockford College; MFA, University of Illinois.

DELISLE MERRILL (2018) Assistant Professor. BA, Western Washington University; MFA, Carnegie Mellon University

EVAN MUELLER (2015) Assistant Professor. BA, Duke University; MFA, Rutgers University.

Instructors

CHER CARNELL (1996) Director of Dance and Senior Instructor, BA University of Wisconsin; MEd, Western Washington University.

MIKE BAJUK (2004) Senior Instructor. BM, Western Washington University; MS, University of Indiana-Purdue.

KAMARIE CHAPMAN (2010) Senior Instructor, BA Western Washington University; MFA, University of New Mexico.

SUSAN HAINES (2005) Senior Instructor. BA, Radford University; MFA, University of North Carolina-Greensboro.

PAM KUNTZ (1999) Senior Instructor. BFA, University of Montana; MFA, Boston Conservatory.

Affiliated Teaching Staff

RACHEL ANDERSON (2000) BA, Western Washington University; MFA, University of Montana.

Application Requirements: Theatre

In order to declare a theatre major, contact the Theatre Office at Performing Arts 395 to attain a declaration of major form.

Application Requirements: Dance

A student may declare a major in Dance after placement in Modern Dance I and with the permission of the departmental advisor.

Bachelor of Arts

Dance, BA

Theatre and Dance Department, College of Fine and Performing Arts

72-82 credits

Introduction

In the course of their Dance studies, students will learn to understand and evaluate contemporary thinking about dance and related arts, while nurturing a physical and intellectual understanding of the language of movement that is reflective of and insightful toward the human condition.

Why Consider a Dance Major?

The BA is a broadly based degree, with a liberal arts orientation, and is designed for students with a general interest in dance and its applications. BA candidates will focus on pedagogical and historic aspects of Dance

Art as well as on the performance/generative components. They will be encouraged to demonstrate proficiency in pedagogy. Dance majors develop multiple skills that are essential in all fields, including self-discipline, collaboration, patience and problem-solving.

DNC 433 - Creative Movement for Educators With Lab **Credits:** 4

DNC 434 - Dance Arts in Education **Credits:** 3

Theatre, BA

Department of Theatre and Dance, College of Fine and Performing Arts

58-67 Credits

Introduction

The Department of Theatre and Dance strives to give students a well-rounded education. In addition to a core of practical theatre courses, students focus on one or more concentrations to hone their skills within specific areas of interest. Declared students reinforce their major studies through hands-on application of their skills. With an abundance of student programs and seasonal production opportunities, theatre students rarely find themselves without a project to do. The central goal of the degree is to provide students with a comprehensive understanding of theatre, including knowledge of its history, the means by which theatre is realized, and the role of theatre in forming the past, present and future of society.

Why Consider a Theatre Major?

The major is grounded in fundamentals and a student chooses one or more areas of specialization (Acting, Dramatic Writing, Educational Theatre, Technical Theatre, Musical Theatre, Stage Management, Costume Design, Lighting Design and Scenic Design). In addition to preparing majors for careers in the academic or professional theatre, the lessons acquired through this course of study are readily transferable to careers in teaching, law, business and other areas where interpersonal and self-reliant skills are required.

How to Declare (Admission and Declaration Process):

Go to the Department of Theatre and Dance Office (Performing Arts 395) to declare the major. At the time of your declaration you will be assigned a faculty advisor who will help you navigate through the Theatre major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

☐ THTR 101 - Introduction to the Art of the Theatre **Credits:** 3

☐ THTR 210 - Foundations in Design Communication **Credits:** 3

- THTR 212 - Introduction to Stage Technology **Credits: 4**
- THTR 228 - Understanding Plays **Credits: 3**
- THTR 255 - Theatre Production: Technology **Credits: 1**
- THTR 370 - Play Direction **Credits: 3**
- THTR 380 - Theatre History I **Credits: 4**
- THTR 381 - Theatre History II **Credits: 4**
- THTR 382 - Theatre History III **Credits: 4**
- THTR 384 - Introduction to Dramatic Writing **Credits: 4**
- THTR 496 - Senior Capstone Thesis **Credits: 1**
- One course from:
 - THTR 160 - Introduction to Acting **Credits: 3**
 - THTR 260 - Acting Studio I: Theory **Credits: 3**
- Two topics courses selected from:
 - THTR 428 - Topics in Theatrical Performance **Credits: 3 or 4**

Select one of the following Concentration areas:

Acting

(Acceptance in this concentration is contingent upon successful 300 level audition)

- THTR 260 - Acting Studio I: Theory **Credits: 3**
- THTR 261 - Voice Studio I: Voice and Breath **Credits: 3**
- THTR 264 - Movement Studio I: Grotowski **Credits: 3**
- THTR 360 - Acting Studio II: Interpretation of a Role **Credits: 4**
- THTR 361 - Voice Studio II: Speech and Language **Credits: 4**
- THTR 364 - Movement Studio II: Suzuki/Viewpoints **Credits: 4**

Dramatic Writing

- Three different topic courses selected from:
 - THTR 485 - Dramatic Writing Workshop **Credits: 4**
- Plus 7 credits under advisement

Directing

- THTR 314 - Stage Management **Credits: 3**
- THTR 371 - Directing Projects **Credits: 1-6**
- THTR 470 - Play Direction II **Credits: 4**
- THTR 471 - Advanced Directing Projects **Credits: 1-6**
- Plus 7 credits under advisement

Educational Theatre

- THTR 350 - Theatre for Youth **Credits: 3**
- THTR 450 - Theatre for Youth II **Credits: 3**
- THTR 452 - Secondary Theatre Techniques **Credits: 4**
- One course from the following group:
 - THTR 351 - Creative Pedagogy **Credits: 4**
 - THTR 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - DNC 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - MUS 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - ART 398 - Integrated Arts for Elementary Educators **Credits: 3**
- Plus 6 credits under advisement

Musical Theatre

THEATRE AND DANCE

- THTR 260 - Acting Studio I: Theory **Credits: 3**
- THTR 261 - Voice Studio I: Voice and Breath **Credits: 3**
- THTR 366 - Musical Theatre **Credits: 3**
- DNC 111 - Ballet I - Level 1 **Credits: 2**
- DNC 203 - Jazz Dance **Credits: 2**
- MUS 101 - Fundamentals of Music **Credits: 2**

Bachelor of Fine Arts

Dance, BFA

Department of Theatre and Dance, College of Fine and Performing Arts

89-99 credits

Introduction

In the course of their Dance studies, students will learn to understand and evaluate contemporary thinking about dance and related arts, while nurturing a physical and intellectual understanding of the language of movement that is reflective of and insightful toward the human condition.

Why Consider a Dance Major with a Bachelor of Fine Arts Degree?

The BFA Program in Dance is a professionally oriented degree, which presumes that students are seriously interested in the process of performing or choreographing and wish to make it their career. The BFA degree is a highly selective program which trains exceptionally committed, disciplined, and talented students to the level at which they might gain entry to a leading graduate, conservatory, or MFA Program, or directly enter one of the areas of the dancing profession.

Minor

Dance Minor

Department of Theatre and Dance, College of Fine and Performing Arts

32-34 credits

Introduction

In the course of their Dance studies, students will explore a physical and intellectual understanding of the language of movement. Kinesthetic and intellectual learning are combined to develop in student's self-awareness and collaborative cooperation.

Why Consider a Dance Minor?

The Dance Minor is designed to give students with a general interest in Dance a fundamental background in technique, functional alignment, and dance history. Contemporary technique is emphasized and there are diverse options for the elective choices within the Minor. Dance minors cultivate multiple skills that are essential in all fields, including self-discipline, collaboration, patience and problem-solving.

Dance Courses

DNC 100 - Mod-Hop I

Entry level technique class that is a fusion of contemporary dance styles, including hip-hop, African jazz and modern dance. Emphasis on rhythm, conditioning, isolation and individuality. Repeatable to a maximum of 6 credits. S/U grading.

Credits: 2

Grade Mode: S/U

DNC 101 - Beginning Ballet

No dance experience required. Basic principles of ballet as an artistic and physical medium. Introduction to ballet terminology, basic barre exercises, simple combinations in adagio and allegro. Repeatable up to 6 credits including original course. S/U grading.

Credits: 2

Grade Mode: S/U

DNC 102 - Beginning Contemporary Dance

No dance experienced required. The study of the basic principles of movement: space, time and effort. Emphasis on alignment and range of motion, creative movement and an appreciation of

dance as an art form. Open to non-minors. Repeatable to a maximum of 6 credits. S/U grading.

Credits: 2

Grade Mode: S/U

DNC 108 - Intro to the Arts

An introduction to the fine and performing arts. Through an exploration of art forms such as music, art, theatre and dance, students will develop a more personal relationship with the arts. Students will learn to describe and evaluate the arts and investigate ways in which they interrelate.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

DNC 111 - Ballet I - Level 1

Introduction to the basic principles of ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Audition or level placement and instructor permission.

Credits: 2

Grade Mode: Letter

THEATRE AND DANCE

DNC 112 - Ballet I - Level 2

Builds on principles introduced in DNC 111, including the basic principle of ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 111 recommended.

Credits: 2

Grade Mode: Letter

DNC 113 - Ballet I - Level 3

Builds on principles introduced in DNC 112, including the basic principles of ballet as an artistic and physical medium. Emphasis on French terminology, basic barre exercises, simple combinations in adagio and allegro. Open to non-majors. Repeatable to a maximum of 4 credits.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 111, DNC 112 recommended.

Credits: 2

Grade Mode: Letter

DNC 121 - Contemporary Dance I - Level 1

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to maximum of 6 credits.

Prerequisites & Notes: Audition or level placement and instructor permission.

Credits: 3

Grade Mode: Letter

DNC 122 - Contemporary Dance I - Level 2

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 121 recommended.

Credits: 3

Grade Mode: Letter

DNC 123 - Contemporary Dance I - Level 3

The study of the basic principles of movement: space, time, effort. Emphasis on alignment and range of motion, creative movement and an appreciation of dance as an art form. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: Audition or level

placement and instructor permission. DNC 121, DNC 122 recommended.

Credits: 3

Grade Mode: Letter

DNC 200 - Mod-Hop II

More advanced exploration of contemporary dance styles, including hip-hop, African jazz, and modern dance. Emphasis on complex rhythm, phrasing and performance. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 100 or permission of instructor.

Credits: 2

Grade Mode: Letter

DNC 203 - Jazz Dance

This course focuses on the technical and expressive aspects of jazz dance and develops awareness of line, speed, balance and strength. Attention is placed on alignment, conditioning, musicality, and synthesis of combinations.

Prerequisites & Notes: Instructor permission; by audition.

Credits: 2

Grade Mode: Letter

DNC 211 - Ballet II - Level 1

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 111, DNC 112, DNC 113 recommended.

Credits: 2

Grade Mode: Letter

DNC 212 - Ballet II - Level 2

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 211 recommended.

Credits: 2

Grade Mode: Letter

DNC 213 - Ballet II - Level 3

Further development in principles of ballet. Increased difficulty and terminology. Preparation for advanced levels. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 211,

DNC 212 recommended.

Credits: 2

Grade Mode: Letter

DNC 221 - Contemporary Dance II - Level 1

Further development in movement principles established in Contemporary Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 121, DNC 122, DNC 123 recommended.

Credits: 3

Grade Mode: Letter

DNC 222 - Contemporary Dance II - Level 2

Continues with further development in movement principles established in Contemporary Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 221 recommended.

Credits: 3

Grade Mode: Letter

DNC 223 - Contemporary Dance II - Level 3

Continues with further development in movement principles established in Contemporary Dance I. Repeatable to a maximum of 6 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 221, DNC 222 recommended.

Credits: 3

Grade Mode: Letter

DNC 231 - Introduction to Dance History

This writing course employs an historical and cultural overview, from the primitive to the contemporary, of the development of dance as an art form.

Credits: 3

Grade Mode: Letter

GUR Attributes: CCOM

DNC 232 - Movement and Culture

An investigation of movement and dance as a vehicle for understanding culture through movement labs, readings, films and discussions.

Credits: 3

Grade Mode: Letter

GUR Attributes: ACGM

DNC 240 - World Dance Experience

Provides a concentrated technique study of a specific dance style taught by experts in their tradition with a quarterly rotation. Fields of study will be focused on one unique style and may include West African Dance, Balkan Dance, Afro-Cuban Dance, Chinese Dance and others. Repeatable up to 6 credits including original course.

Credits: 2

Grade Mode: S/U

DNC 242 - Choreography I

Introduction to basic principles of choreography: articulating a concept, finding movement vocabulary, and developing a structure. Prepares students to handle the rehearsal process from the point of view of a choreographer. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: Concurrent enrollment in DNC 221 or instructor permission

Credits: 3

Grade Mode: Letter

DNC 243 - Dance and Technology I

Introduction to sound and video editing software and filming/framing techniques for use in the creation of Dances for Camera and other time based art. Repeatable up to a maximum of 6 credits.

Prerequisites & Notes: DNC 242.

Credits: 3

Grade Mode: Letter

DNC 257 - Performance

Direct instruction and experience in performance work. Repeatable to a maximum of 8 credits. S/U grading.

Prerequisites & Notes: being cast in a faculty-directed production

Credits: 2

Grade Mode: S/U

DNC 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

DNC 311 - Ballet III - Level 1

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina,

THEATRE AND DANCE

musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 211, DNC 212, DNC 213 recommended.

Credits: 3

Grade Mode: Letter

DNC 312 - Ballet III - Level 2

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina, musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 311 recommended.

Credits: 3

Grade Mode: Letter

DNC 313 - Ballet III - Level 3

Comprehensive barre and center floor work with emphasis on strength, flexibility, stamina, musicality, and performance projection in all areas of the class enchainements. Variations from classical ballet repertoire may be included. Repeatable to a maximum of 12 credits, including the original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 311, DNC 312 recommended.

Credits: 3

Grade Mode: Letter

DNC 321 - Contemporary Dance III - Level 1

Advanced studies of movement principles established in Contemporary Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 221, DNC 222, DNC 223 DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 322 - Contemporary Dance III - Level 2

Advanced studies of movement principles established in Contemporary Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level

placement and instructor permission. DNC 321, DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 323 - Contemporary Dance III - Level 3

Advanced studies of movement principles established in Contemporary Dance II. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 321, DNC 322, DNC 339 recommended.

Credits: 3

Grade Mode: Letter

DNC 339 - Functional Alignment

An internal exploration of functional alignment and its practical application towards movement and dancing. Experiential exercises that will enable the development and increased awareness of anatomical alignment and its relationship to range of motion, flexibility, strength, and movement potential. Introduction to proper anatomical and kinesiological terminology. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 121, DNC 122, DNC 123 or permission of instructor.

Credits: 3

Grade Mode: Letter

DNC 340 - Anatomy for Dancers

An investigation of the human body and how it works. Through lectures, readings and laboratory experiences, students will analyze skeletal systems, individual differences, common dance injuries, and proper conditioning for dancers.

Prerequisites & Notes: DNC 339 or permission of instructor.

Credits: 4

Grade Mode: Letter

DNC 342 - Choreography II

Further study of the principles of choreography. In addition to concepts, movement, vocabulary and structure this class involves experimentation with theme and development, use of music, as well as construction/deconstruction/reconstruction of choreographic forms and content. Training the thinking artist and the artistic thinker. Repeatable to a maximum of 8 cr.

Prerequisites & Notes: DNC 242.

Credits: 4

Grade Mode: Letter

DNC 343 - Dance and Technology II

Builds on skills learned in DNC 243 and applies an artistic process to the use of editing software and video equipment; combining visual design, choreographic skills and advanced filming and editing techniques to create Dances for the Camera and other time based art. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: DNC 223, DNC 243, DNC 342.

Credits: 3

Grade Mode: Letter

DNC 345 - Fundamentals of Contemporary Partnering

Students explore elements of contemporary partnering including transfer of weight, momentum/leverage, counter balancing and moving in harmony. The class is not gender specific. The warm-up includes exercises to enhance kinesthetic awareness and to facilitate ease and comfort in lifting and being lifted. Repeatable to a maximum of 6 cr.

Prerequisites & Notes: DNC 221, DNC 222, DNC 223 or permission of instructor.

Credits: 2

Grade Mode: Letter

DNC 357 - Repertory

The process work, which leads to performance, involved in the creation and/or reconstruction of a major choreographic work. Repeatable to a maximum of 8 credits.

Credits: 2

Grade Mode: Letter

DNC 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. Also offered as ART 398, MUS 398 and THTR 398.

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3

Grade Mode: Letter

DNC 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not

eligible for tuition waiver.

Credits: 1-15

DNC 403 - Senior Seminar

This course is designed for senior Dance majors to focus on skills and knowledge important for a successful transition to graduate school or professional employment in dance.

Credits: 1

Grade Mode: Letter

DNC 404 - Capstone Preparation

This course is designed to assist BFA candidates with their rehearsal processes, as performers and as choreographers, in preparation for and presentation of their culminating Capstone performances.

Prerequisites & Notes: BFA degree candidacy, senior status.

Credits: 1

Grade Mode: Letter

DNC 421 - Contemporary Dance IV - Level 1

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 321, DNC 322, DNC 323 recommended.

Credits: 3

Grade Mode: Letter

DNC 422 - Contemporary Dance IV - Level 2

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 421 recommended.

Credits: 3

Grade Mode: Letter

DNC 423 - Contemporary Dance IV - Level 3

A performance approach to dance techniques - phrasing, musicality and clarity of intentions are emphasized at this level. Repeatable to a maximum of 12 credits, including original course.

Prerequisites & Notes: Audition or level placement and instructor permission. DNC 421, DNC 422 recommended.

Credits: 3

Grade Mode: Letter

THEATRE AND DANCE

DNC 431 - History of Western Dance Since 1450

Ballet and modern dance forms of Western culture from the Renaissance into the era of contemporary movement art. Will include reviews of live performances, and study of leading dance artists and their historical significance. This course explores effective writing in the discipline of Dance through reflection, critical analysis, and historical research.

Prerequisites & Notes: DNC 231

Credits: 4

Grade Mode: Letter

DNC 433 - Creative Movement for Educators With Lab

Methodologies of teaching creative movement to children. Exploration and integration of the elements of space, time, and effort as reflective of the Essential Academic Learning Requirements in the dance arts.

Prerequisites & Notes: Permission of instructor.

Credits: 4

Grade Mode: Letter

DNC 434 - Dance Arts in Education

Materials for the methodology of teaching the formal dance techniques of modern dance and ballet for students of the dance major and additional teaching endorsement. Observations and teaching opportunities included.

Prerequisites & Notes: DNC 339, DNC 340; demonstrated competency at the advanced level of technique.

Credits: 3

Grade Mode: Letter

DNC 442 - Advanced Choreography

Practical application of choreographic process in the performance setting. Experience in collaboration with costume and lighting designers to support and realize choreographic intention by means of the unity of supporting elements. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: DNC 342 or instructor permission

Credits: 4

Grade Mode: Letter

Theatre Arts Courses

THTR 101 - Introduction to the Art of the Theatre

An introduction to the nature of the theatre, to plays and the way they work, and to the arts of the theatre and the activities of those who perform

them.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

THTR 160 - Introduction to Acting

Fundamentals of acting with emphasis on basic techniques and tools used by the actor. Includes improvisation; resume writing; auditioning; and vocal, physical and emotional awareness.

Credits: 3

Grade Mode: Letter

THTR 168 - Introduction to Film: Acting and Production

Introduction to rudimentary acting and production techniques, including professional conduct, script analysis and audition process.

Credits: 3

Grade Mode: Letter

THTR 184 - Writing for the Stage

This week-long intensive workshop focuses on writing for the stage – character creation, conflict and structure- resulting in the production of a working script and a staged reading. S/U grading.

Credits: 1

Grade Mode: S/U

THTR 201 - Introduction to the Cinema

Training eye and ear to appreciate the work of the filmmaker. Analysis of the basic conventions of technique with an emphasis on critical exposition.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

THTR 202 - Film Genre

Exploring the development, structure, conventions, aesthetics, historical and cultural facets that comprise a specific genre in film. Examples include Film Noir, Western, Horror, etc.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

THTR 210 - Foundations in Design Communication

Introduction to theatre design concepts and principles, art techniques and theatre design critical language. Exploration of art media, drawing, painting and design presentation in relation to theatre design through dramatic analysis and design expression.

Credits: 3
Grade Mode: Letter

THTR 212 - Introduction to Stage Technology
Basic theory of planning, drafting, construction and rigging for stagecraft and lighting technology.

Credits: 4
Grade Mode: Letter

THTR 213 - Stage Technology Practicum
Practice of basic theory in stagecraft and theatre technology. 12 hours of lab required.

Prerequisites & Notes: THTR 212 or permission of instructor.
Credits: 4
Grade Mode: Letter

THTR 215 - Stage Make-Up
Theory and practice of applying makeup for the stage with emphasis on character development, facial anatomy and aging.

Credits: 2
Grade Mode: Letter

THTR 216 - Introduction to Costuming
Introduction to costume technology, design and color theory, play analysis, costume history, and drawing/rendering techniques. 8 hours of lab work required.

Prerequisites & Notes: THTR 101 recommended.
Credits: 3
Grade Mode: Letter

THTR 218 - Costume Figure Drawing
An introductory course focusing on costume figure drawing as a means of conveying costuming ideas through traditional and digital methods.

Prerequisites & Notes: Co-requisite: THTR 216.
Credits: 3
Grade Mode: Letter

THTR 228 - Understanding Plays
Reading play scripts with an eye to theatrical production. Introduction to primary dramatic forms (tragedy, comedy). Practice in speaking and writing intelligently about plays.

Prerequisites & Notes: THTR 101 or permission of instructor
Credits: 3
Grade Mode: Letter

THTR 255 - Theatre Production: Technology
Serve as a member of the production crew for a departmental production in the areas of costumes,

scenery, lighting, sound, stage management, and general backstage crew. Repeatable up to 3 times. S/U grading.

Prerequisites & Notes: THTR 212 or permission of instructor.
Credits: 1
Grade Mode: S/U

THTR 256 - Rehearsal and Performance
For theatre majors (before 50 hours in major) and non-majors: practical experience in rehearsal and performance. S/U grading.

Prerequisites & Notes: Permission of Instructor.
Credits: 2
Grade Mode: S/U

THTR 260 - Acting Studio I: Theory
Exploration of the theory of the physical, vocal, intellectual and emotional instrument of the individual actor in relation to character demands of a scene or play through the studio approach. Students demonstrate their knowledge of theory in both written and oral forms.

Prerequisites & Notes: Audition and permission of instructor.
Credits: 3
Grade Mode: Letter

THTR 261 - Voice Studio I: Voice and Breath
The fundamentals of Voice and Speech for Actors with an emphasis on developing resonance, finding vocal variety, and communicating with clarity and efficiency. Includes work with dramatic and poetic text.

Prerequisites & Notes: THTR 260.
Credits: 3
Grade Mode: Letter

THTR 263 - Movement for Actors
An actor's introduction to the history, vocabulary and basic techniques of several styles of theatrical movement and dance. Topics may include ballet, modern, jazz, tap, hip-hop, mask, combat and period styles. The actor will also explore character development through movement and dance. Repeatable to a maximum of 6 cr.

Credits: 2
Grade Mode: Letter

THTR 264 - Movement Studio I: Grotowski
An introduction to Jerzy Grotowski's approach to acting, resulting in scene work based on emotional need discovered through movement.

Prerequisites & Notes: THTR 260

THEATRE AND DANCE

Credits: 3

Grade Mode: Letter

THTR 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

THTR 309 - Period Styles

This course introduces students to the social, historical and artistic forces behind period styles.

Credits: 3

Grade Mode: Letter

THTR 310 - Scene Painting

A survey of traditional scene painting with emphasis on color, technique, materials, tools and formulas.

Prerequisites & Notes: THTR 212.

Credits: 3

Grade Mode: Letter

THTR 311 - Beginning Scene Design

Investigates how stage designers create a visual world for works of drama, music and dance.

Prerequisites & Notes: THTR 210, THTR 212.

Credits: 3

Grade Mode: Letter

THTR 312 - Digital Drawing for Theatre Design

This course introduces students to digital media drawing techniques using industry standard software.

Credits: 3

Grade Mode: Letter

THTR 313 - Beginning Lighting Design

Technical and artistic study of light and color as they affect other theatre arts and contribute to artistic design; laboratory work in production.

Prerequisites & Notes: THTR 311

Credits: 3

Grade Mode: Letter

THTR 314 - Stage Management

An in-depth study of the stage manager's role and responsibilities before, during and after production.

Assignment to one major production.

Prerequisites & Notes: 2 credits of acting and THTR 212.

Credits: 3

Grade Mode: Letter

THTR 315 - Advanced Makeup

An advanced study of the history, technique and application of theatrical make-up. Repeatable up to 6 credits, including original course.

Prerequisites & Notes: THTR 215

Credits: 3

Grade Mode: Letter

THTR 316 - Beginning Costume Design

Theory, critical language, play analysis and studio experience for design and rendering of costumes for the stage.

Prerequisites & Notes: THTR 210, THTR 216 or instructor permission

Credits: 3

Grade Mode: Letter

THTR 318 - Puppetry

Design, construction and manipulation of puppets with focus on the history of puppets and puppet making.

Credits: 3

Grade Mode: Letter

THTR 319 - Millinery

History, design and construction of hats for the theatre.

Prerequisites & Notes: THTR 216

Credits: 2

Grade Mode: Letter

THTR 320 - Digital Drafting and Design Modeling

Practical working knowledge of drafting and design software.

Prerequisites & Notes: THTR 210; THTR 212; or instructor permission.

Credits: 3

Grade Mode: Letter

THTR 321 - 3D Digital Modeling and Design

This course introduces concepts and methods of digital design composition appropriate for theater designers, engineers, artists and students of any field that work with physical and digital models.

Credits: 4

Grade Mode: Letter

THTR 328 - Dramaturgy: Writing, Research and Critique

Dramaturgy for the theatre discipline: including review and critique, technical writing and methods of production research.

Prerequisites & Notes: ENG 101

Credits: 3

Grade Mode: Letter

THTR 330 - Beginning Theatre Pedagogy

A teaching assistant discussion/observation course designed to provide theatre students with experience and guidance in assisting an instructor in a particular theatre course. Repeatable up to 4 credits.

Prerequisites & Notes: instructor permission

Credits: 1-2

Grade Mode: Letter

THTR 350 - Theatre for Youth

Exploration of the history, philosophy, literature and techniques for creating theatre for young audiences.

Credits: 3

Grade Mode: Letter

THTR 351 - Creative Pedagogy

Instructional methods in theatre arts, design, analysis and practical application of theatre arts techniques and pedagogy through observation, seminar and practicum in the theatre department.

Prerequisites & Notes: Permission of instructor.

Credits: 4

Grade Mode: Letter

THTR 353 - Touring Theatre I

An intensive and comprehensive involvement in the study and practice of creating and performing theatre for youth. This is a two-quarter commitment, audition required. Repeatable once for a maximum of 6 credits.

Prerequisites & Notes: Permission of instructor, audition required.

Credits: 3

Grade Mode: Letter

THTR 354 - Touring Theatre II

Participants prepare all aspects of a touring production and accompanying educational support materials offered to elementary or secondary schools in Washington. This is a two-quarter commitment. Repeatable once for a maximum of 6 credits.

Prerequisites & Notes: THTR 353 and permission of instructor.

Credits: 3

Grade Mode: Letter

THTR 355 - Intermediate Theatre Technology

Practical experience as an assistant designer or other assistant technical role on a departmental production in the areas of costumes/makeup, scenery, lighting, sound, and stage management. Repeatable up to 6 credits including original course.

Prerequisites & Notes: THTR 210; THTR 212; THTR 216; or instructor permission

Credits: 2

Grade Mode: Letter

THTR 356 - Rehearsal and Performance II

Practical experience in rehearsal and performance of university productions. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 1-3

Grade Mode: S/U

THTR 360 - Acting Studio II: Interpretation of a Role

Continuation of skills and refinement of techniques presented in earlier acting studios, but with a strong emphasis on the use of the body and physical characterization. Scene work of several periods and styles is required.

Prerequisites & Notes: THTR 255; THTR 210, audition and instructor permission.

Credits: 4

Grade Mode: Letter

THTR 361 - Voice Studio II: Speech and Language

Continued refinement of skills and techniques presented in Voice Studio I, but with strong emphasis on diction and clarity of speech. Includes work with dialects and challenging dramatic text.

Prerequisites & Notes: THTR 255; THTR 210; audition and instructor permission.

Credits: 4

Grade Mode: Letter

THTR 362 - Irene Ryans and URITA Auditions

Preparation course for students selected to compete in the Kennedy Center's American College Theatre Festival's Irene Ryans acting competition and URITA graduate school auditions. Repeatable up to a maximum of three credits, including original course.

Prerequisites & Notes: Permission of instructor.

Credits: 1

Grade Mode: S/U

THEATRE AND DANCE

THTR 363 - Voice and Diction

Sequence of exercises and drills challenging improvement in resonance, breath support, articulation, relaxation, placement and vocal work ranging from good stage speech (mid-Atlantic) to dialect.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 3

Grade Mode: Letter

THTR 364 - Movement Studio II:

Suzuki/Viewpoints

An introductory exploration of the Suzuki and Viewpoints actors training movement systems intended to build an actor's awareness of their body, especially the center. The method uses exercises that are inspired by Greek theater as well as martial arts and requires great amounts of energy and concentration allowing greater awareness of natural expressiveness in order to commit more fully to the physical and emotional requirements of acting.

Prerequisites & Notes: THTR 255; THTR 210; audition and instructor permission.

Credits: 4

Grade Mode: Letter

THTR 366 - Musical Theatre

Practical application of singing and acting to performance-related work from American musical theatre through solo, duet and group exploration.

Prerequisites & Notes: THTR 260 or instructor permission

Credits: 3

Grade Mode: Letter

THTR 368 - Acting for the Camera

An exploration and application of techniques and approaches for actors reflected currently in the film and television industry.

Prerequisites & Notes: THTR 260, THTR 261, acceptance into THTR 360.

Credits: 3

Grade Mode: Letter

THTR 370 - Play Direction

Theory and practice of stage direction including selection of play, casting and blocking. Production of a scene for public performance is required.

Prerequisites & Notes: THTR 160; THTR 210; THTR 212; THTR 228; or instructor permission.

Credits: 3

Grade Mode: Letter

THTR 371 - Directing Projects

Individualized practicum in directing for the stage. Repeatable up to 6 credits.

Prerequisites & Notes: THTR 370

Credits: 1-6

Grade Mode: Letter

THTR 380 - Theatre History I

Development of theatre to the Renaissance.

Prerequisites & Notes: THTR 101 recommended, THTR 228

Credits: 4

Grade Mode: Letter

GUR Attributes: HUM

THTR 381 - Theatre History II

Development of theatre from the Renaissance to the beginning of realism.

Prerequisites & Notes: THTR 101 recommended, THTR 228; THTR 380 recommended

Credits: 4

Grade Mode: Letter

GUR Attributes: HUM

THTR 382 - Theatre History III

Development of theatre from the beginnings of realism to contemporary theatre.

Prerequisites & Notes: THTR 101 recommended, THTR 228; THTR 380, THTR 381 recommended

Credits: 4

Grade Mode: Letter

GUR Attributes: HUM

THTR 383 - Costume History

Evolution of costume from ancient Greece through present-day fashion with reference to theatrical production.

Credits: 4

Grade Mode: Letter

THTR 384 - Introduction to Dramatic Writing

Beginning exercise in dramatic writing, with emphasis on primary forms and conventions.

Prerequisites & Notes: THTR 228 or permission of instructor.

Credits: 4

Grade Mode: Letter

THTR 385 - Topics in Intermediate Costume Technology and Construction

Course focuses on varied costume technology and construction methods. Repeatable up to 6 credits, including original course.

Prerequisites & Notes: THTR 216

Credits: 3

Grade Mode: Letter

THTR 398 - Integrated Arts for Elementary Educators

This arts education course provides future teachers with a foundation in the elements and principles of Visual Art, Dance, Music and Theatre and their applicability to the elementary classroom. (Also offered as ART 398, MUS 398 and DNC 398).

Prerequisites & Notes: Admission to a teacher education program leading to an elementary endorsement.

Credits: 3

Grade Mode: Letter

THTR 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

THTR 411 - Advanced Scenic Design

Contemporary stage design practice and theory with an emphasis on artistic interpretation of dramatic literature and music as a visual design.

Prerequisites & Notes: THTR 311 or permission of instructor.

Credits: 4

Grade Mode: Letter

THTR 412 - Advanced Stagecraft

Technical analysis of scripts, special effects, computers and properties. Laboratory work on productions.

Prerequisites & Notes: THTR 212, THTR 312.

Credits: 4

Grade Mode: Letter

THTR 413 - Advanced Lighting Design

Concepts and techniques of drafting and computer-assisted drafting, text work sheets, and application programs related to lighting design.

Prerequisites & Notes: THTR 313.

Credits: 4

Grade Mode: Letter

THTR 414 - Theatre Business Practices

Examination of the theories and approaches to business management in the theatre as well as

practical application of those theories discussed including budgeting, promoting and producing.

Prerequisites & Notes: THTR 314; THTR 101 recommended.

Credits: 4

Grade Mode: Letter

THTR 416 - Advanced Costume Design

Exploration and execution of complete designs of costumes for the modern theatre with emphasis on the development of the design concept and interpretation.

Prerequisites & Notes: THTR 316, THTR 382, THTR 383.

Credits: 4

Grade Mode: Letter

THTR 420 - Advanced Theatre Design and Portfolio Development

Exploration and project execution of complete design paper project including all supporting technical and research materials leading to a final presentation of designer portfolio.

Prerequisites & Notes: THTR 212; and one from THTR 411, THTR 413, THTR 416

Credits: 5

Grade Mode: Letter

THTR 428 - Topics in Theatrical Performance

The in-depth exploration of an individual playwright or group of playwrights, or performance genre such as devising, opera, theatre and community, or theatre for social change. Courses will be taught as seminar only and/or combination seminar plus lab. Credits vary from three to four dependent on course offered. Repeatable under separate topics.

Prerequisites & Notes: THTR 222 or THTR 228.

Credits: 3 or 4

Grade Mode: Letter

THTR 450 - Theatre for Youth II

Advanced techniques in youth theatre. Each student selects and prepares a script for performance for and/or by youth.

Prerequisites & Notes: THTR 350.

Credits: 3

Grade Mode: Letter

THTR 452 - Secondary Theatre Techniques

Exploration of techniques and curriculum for use in secondary theatre classrooms. Creation of lesson plans and projects aimed specifically for theatre students. This course has a required academic Service-Learning component.

THEATRE AND DANCE

Prerequisites & Notes: THTR 351; acting and directing courses strongly recommended.

Credits: 4

Grade Mode: Letter

THTR 455 - Advanced Production and Design

Practical experience as a designer or other lead technical role on a departmental production in the areas of costumes/makeup, scenery, lighting, sound, and stage management. Repeatable to a maximum of 8 credits including original course.

Prerequisites & Notes: THTR 355 and instructor permission.

Credits: 4

Grade Mode: Letter

THTR 460 - Acting Studio III: Personal Performance

Continued refinement of skills and techniques introduced in previous studios, with special emphasis on individual acting problems.

Prerequisites & Notes: Audition and instructor permission.

Credits: 5

Grade Mode: Letter

THTR 461 - Voice Studio III: Shakespeare

Continued refinement of skills and techniques presented in Voice Studio II, with a strong emphasis on the robust use of text and language as exemplified in the plays of Shakespeare, and other plays with heightened text.

Prerequisites & Notes: Audition and instructor permission.

Credits: 5

Grade Mode: Letter

THTR 462 - Advanced Acting Topics

Students study specific advanced acting techniques and styles and apply them directly through production performance. Repeatable with different topics up to a maximum of 10 credits.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 5

Grade Mode: Letter

THTR 463 - Audition Preparation

Preparation of several contrasting monologues and development of specific performance skills to best demonstrate the varied talents of the individual actor in an audition format. S/U grading.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 2

Grade Mode: S/U

THTR 464 - Movement Studio III: Advanced Suzuki/Viewpoints

An advanced exploration of the Suzuki and Viewpoints actor training movement systems.

Prerequisites & Notes: Audition and permission of instructor.

Credits: 5

Grade Mode: Letter

THTR 465 - Summer Stock II

Offered only summer quarter. Contact director of theatre for details. Repeatable once.

Prerequisites & Notes: Written permission of director of Summer Stock. Offered only summer quarter.

Credits: 1-15

Grade Mode: Letter

THTR 470 - Play Direction II

Producing and directing a one-act play for public performance; special emphasis on working with the actor.

Prerequisites & Notes: THTR 314, THTR 370; 30 hours in the major and permission of instructor

Credits: 4

Grade Mode: Letter

THTR 471 - Advanced Directing Projects

Individualized practicum in directing for the stage. Repeatable up to 6 credits.

Prerequisites & Notes: THTR 470

Credits: 1-6

Grade Mode: Letter

THTR 480 - Devising Production

Students devise an original work for the main stage theatre season through phases of research, creation, and development. All students write, design, and perform the piece.

Prerequisites & Notes: Audition Course - Permission of Instructor.

Credits: 5

Grade Mode: Letter

THTR 485 - Dramatic Writing Workshop

Opportunity for disciplined expression in writing for stage, film, television or other media. May be repeated under separate topics to a maximum of 12 credits.

Prerequisites & Notes: THTR 384 or permission of instructor.

Credits: 4

Grade Mode: Letter

THTR 495 - Internship

Qualified third- and fourth-year students may apply to apprentice with theatre companies, performing arts agencies or producing organizations. Repeatable to a maximum of 24 cr. S/U grading.

Prerequisites & Notes: Junior status or above and permission of Chair.

Credits: 1-12

Grade Mode: S/U

THTR 496 - Senior Capstone Thesis

Capstone research or reflective thesis demonstrating deep knowledge of an area within the student's declared theatre concentration. Topics are arranged in conjunction with and approval from student's departmental advisor.

Prerequisites & Notes: Instructor permission.

Credits: 1

Grade Mode: Letter

College of Humanities and Social Sciences

Introduction

Dr. Paqui Paredes Méndez, Dean

The College of Humanities and Social Sciences, Western's largest academic unit, is composed of two divisions: the humanities (communication studies, English, history, journalism, liberal studies, modern and classical languages, philosophy) and the social and behavioral sciences (anthropology, communication sciences and disorders, health and human development, political science, psychology, sociology). These 13 departments offer more than 40 bachelor's degrees and 10 master's degrees, along with five interdisciplinary programs in East Asian studies; linguistics; multidisciplinary studies; women, gender, and sexuality studies; and student/faculty designed majors.

The college houses several research and service centers, including the Center for Cross-cultural Research, the Center for Performance Excellence, and two community-based professional training centers: the Speech-Language Hearing Clinic and the Counseling Training Clinic. In addition, the college has five nationally accredited professional programs: school counselor, mental health counseling, speech-language pathology, community health and recreation.

Mission Statement

The College serves the University by engaging students in distinctive, diverse programs in social and behavioral sciences and the humanities. Emerging from a vibrant liberal arts core, our collaborative learning environment inspires individual, social, cultural, creative and scientific exploration. Students devise and apply innovative solutions, embrace divergent worldviews, consider the ethical implications of their actions and communicate effectively in their professional, public and personal lives. Together, students, faculty and staff generate knowledge, pursue research, and foster life-long learning to contribute to the well-being of communities from local to global.

Objectives of College:

The College of Humanities and Social Sciences partners with the College of Science and Engineering to provide students with a three-component liberal education: first, a program of education-in-breadth through the General University Requirements (GURs) intended to prepare students for postgraduate life as educated persons and citizens; second, a program of education-in-depth in a disciplinary or interdisciplinary major designed to prepare students for careers or graduate study; and third, a choice of elective courses which can help satisfy the student's curiosity about any of the multitude of subjects that the University curriculum embraces. With each of these components, the college intends to produce graduates who are capable of informed and critical thinking; who have learned to tolerate ambiguity; who can appreciate cultural differences; who have developed moral and aesthetic sensibilities; who have mastered the basic tools of literacy and technology and who have acquired levels of information about the natural and social worlds, past and present, sufficient for responsible citizenship and the enjoyment of a civilized society. The college places strong emphasis on student-faculty collaboration in developing these skills through active learning, including laboratory experiences, community-based faculty-directed service learning, and student involvement in faculty research programs.

Sociology	BA, BAE, BS
Sociology/Social Studies	BA
Student/Faculty Designed Major	BA, BS
Women, Gender, and Sexuality Studies	BA

Majors and Minors

In addition to the GURs and other common degree requirements of the University, the candidate for a Bachelor of Arts or Bachelor of Science degree must complete a major area emphasis, which is usually accompanied by supporting courses. A minor is optional. A few concentrations are offered which encompass both a major and a minor. Students will confer with appropriate departmental advisors to plan study programs. Transfer students are expected to complete at least a portion of their work in the major and minor fields in this institution.

Student/Faculty Designed, BA or BS (College of Humanities and Social Sciences)

Students desiring concentrated study in areas not listed as majors by departments of the College of Humanities and Social Sciences may design a major in conference with faculty members. Procedures for the Student/Faculty Designed majors (BA or BS) are available from the Department of Liberal Studies or at chss.wvu.edu/liberal-studies/studentfaculty-designed-majors.

College Admission and Advisement

Academic Advisement

As the student completes the freshman year, which consists largely of courses that meet the GURs, he or she is referred to the academic departments for continued personalized advisement in planning and selecting courses of study. Faculty within each department share responsibility for counseling students electing concentrations in their area. In some cases, faculty from several departments may cooperate with a student in constructing his or her own interdisciplinary major; in others, faculty members may recommend to the department chair the waiving of certain course prerequisites (when it has been demonstrated that the student

COLLEGE OF HUMANITIES AND SOCIAL SCIENCES

already has these competencies). Students who are undecided about a major may seek advisement through the Academic Advising Center in Old Main.

Anthropology

Introduction

The discipline of anthropology studies humans in all the cultures of the world, both past and present. This includes humanity's physical development and the wide diversity of lifestyles people have created.

Anthropology has three main goals: first, providing a deep understanding of humans, both past and present; second, analyzing and organizing the knowledge gained and making it accessible; and third, engaging in the practical application of anthropology to various areas of contemporary human behavior.

Anthropology is a social science. It shares techniques and methods with other behavioral sciences and also draws upon physical and biological sciences.

Anthropology is unique among the social and behavioral sciences. Anthropologists obtain data primarily from field research and comparative cross-cultural studies in time and space. Thus, anthropology provides theoretical and empirical bases for development of hypotheses about human behavior, and for testing the breadth and application of such hypotheses.

The anthropology department provides training in each of the four main subdisciplines of anthropology.

Cultural anthropology seeks to understand and describe each culture in its own perspective. Cultural anthropologists gather data through first-hand field study in other cultures and do cross-cultural comparative studies which provide crucial insights and understanding of the modes and patterns of human life.

Archaeology uses scientific field work and laboratory techniques to investigate past human societies and the processes and effects of cultural evolution through the study of material remains.

Physical anthropology focuses on anatomical, physiological and genetic differences in past and contemporary human populations, and analyzes their evolutionary and cultural implications.

Anthropological linguistics studies the interrelationships between human culture and language with special focus on unwritten languages, the diversity of world languages, nonverbal human communication, and contemporary cultural linguistic interactions.

Utilizing ethnographic, ethnological and ethnohistorical tools, as well as information supplied by these four subdisciplines, the anthropologist comparatively studies cultures and the processes of human development. These findings have many practical uses.

Faculty

TODD A. KOETJE (1997) Chair and Associate Professor. BA, University of Washington; MA, State University of New York, Binghamton; PhD, University of Tennessee.

DANIEL L. BOXBERGER (1983) Professor. BA, The Evergreen State College; MA, Western Washington University; PhD, University of British Columbia.

SEAN BRUNA (2013) Assistant Professor. BA, University of Chicago; MA, University of Chicago; MA, University of New Mexico; PhD, University of New Mexico.

SARAH K. CAMPBELL (1988) Professor. BA, Indiana University; MA, PhD, University of Washington.

JOSHUA FISHER (2010) Assistant Professor. BA, Bucknell University; MA, University of Oregon; PhD, University of Oregon.

JOYCE D. HAMMOND (1984) Professor. BA, MA, Brown University; PhD, University of Illinois.

JAMES LOUCKY (1989) Professor. BA, Haverford College; MA, PhD, University of California, Los Angeles.

ROBERT C. MARSHALL (1985) Professor Emeritus. BA, Youngstown State University; PhD, University of Pittsburgh.

M.J. MOSHER (2010) Assistant Professor. BS, Metropolitan State University; MA, University of Colorado at Denver; PhD, University of Kansas

JUDITH M.S. PINE (2008) Associate Professor, BA Kansas State University, MA, PhD, University of Washington

KATHLEEN YOUNG (1996) Associate Professor. BA, MA, Western Washington University; PhD, Simon Fraser University.

YEON JUNG YU (2014) Assistant Professor. BA, Olivet College; MA, University of Southern California; PhD, Stanford University.

The department's faculty and staff invite questions about the program and its career potential. Persons seeking more information should visit the department in Arntzen Hall or call 360-650-3620. Written inquiries should be directed to the Department of Anthropology, Western Washington University, Bellingham, WA 98225-9083. The department website is chss.wvu.edu/anthropology.

ANTHROPOLOGY

Declaration Process

Students are eligible to declare the anthropology major if they have successfully completed any one of the following core courses: ANTH 201 and ANTH 301 and either ANTH 210 or ANTH 215 or ANTH 247 (ANTH 247 may be substituted with LING 201, LING 204, ENG 370 or HNRS 217).

Students are advised to declare their major early in their academic career. Transfer students should declare after completion of one of the core courses listed above. Upper-division courses are restricted to declared majors during the first three days of registration and some courses may be available to majors only. Transfers and freshmen who are interested in the anthropology/biology major should seek advisement as soon as possible. Anthropology/biology BA or BS majors need to begin the chemistry/biology sequences required prior to declaring the major. This will assist them in shortening considerably the many quarters necessary for the anthropology/biology major.

Other Departmental Information

Resources

Opportunities for field work and library research in each of the four subfields of anthropology are available. Archaeological field school surveys are conducted alternate summers. The department engages in a series of funded projects, providing a wide diversity of research opportunities. Library holdings include resources for those pursuing cross-cultural and culture area research.

Degrees offered are the BA and the BA in Education. In addition a combined anthropology/biology BA or BS major is offered.

Careers for graduates in anthropology lie in both the public and private sectors of the economy and are increasing. Opportunities may be found in teaching (public school, community college and college), federal and state agencies, social services, applied health settings, museums and international business.

Mid-Program Checkpoint

Bachelor of Arts

Anthropology — Archaeology Concentration, BA

Department of Anthropology, College of Humanities and Social Sciences

80 Credits

Students seeking to complete a BA degree in anthropology within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215

Students seeking to complete a BA degree in anthropology with an archaeology concentration within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215
- and prerequisites for supporting courses in sciences.

Students seeking to complete a BA or BS degree in biology/anthropology (human biology emphasis) within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- ANTH 201
- ANTH 210
- ANTH 215
- BIOL 204
- BIOL 205
- BIOL 206
- One of the following sequences:
 - CHEM 161
 - CHEM 162
 - CHEM 163
 - or
 - CHEM 175
 - CHEM 176
 - CHEM 225
- Physics and calculus

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

Why Consider an Archaeology Concentration in Anthropology Major?

Archaeology is the "cultural anthropology" of the human past. It uses scientific field work and laboratory techniques to investigate past human societies and the processes and effects of cultural evolution through the study of material remains. The Anthropology Department has a small, but growing program in archaeology. Our program is active in regional prehistoric and historic archaeology. Both undergraduate and graduate students' participation in fieldwork is encouraged, and necessary if one is to enter the field professionally. Unlike some professions, archaeology can be entered on some levels with a B.A. degree, although M.A. and Ph.D. work offer greater opportunities.

How to Declare (Admission and Declaration Process):

To declare, a student must have completed the following requirements:

- ANTH 201 and ANTH 301 and either ANTH 210 or ANTH 215 or ANTH 247 (ANTH 247 may be substituted with LING 201, LING 204, ENG 370 or HNRS 217).

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology **Credits:** 5
- ANTH 210 - Introduction to Archaeology **Credits:** 5
- ANTH 215 - Introductory Biological Anthropology **Credits:** 5
- ANTH 247 - Intro to Linguistic Anthropology **Credits:** 5 (LING 201 or LING 204 or ENG 370 or HNRS 217 may be substituted)
- ANTH 301 - Anthropological Theory **Credits:** 5

ANTHROPOLOGY

- ANTH 335 - Quantitative Methods in Anthropology **Credits:** 5 or another basic statistics course under advisement
 - ANTH 496 - Portfolio Assembly **Credits:** 1
 - One course from:
 - ANTH 330 - Religion and Culture **Credits:** 5
 - ANTH 338 - Economic Anthropology **Credits:** 5
 - ANTH 350 - The Ecology of Human Variation **Credits:** 5
 - ANTH 351 - Family and Kinship Organization **Credits:** 5
 - ANTH 353 - Sex and Gender in Culture **Credits:** 5
 - ANTH 424 - Medical Anthropology **Credits:** 5
 - ANTH 440 - Cyborg Anthropology **Credits:** 5
 - ANTH 453 - Women of the Global South **Credits:** 5
 - ANTH 475 - Humane Migration **Credits:** 5
 - ANTH 481 - Childhood and Culture **Credits:** 5
 - ANTH 484 - Intercultural Education **Credits:** 5
 - One course from:
 - ANTH 361 - American Indian Perspectives **Credits:** 5
 - ANTH 362 - Anthropological Perspectives on Asia **Credits:** 5
 - ANTH 365 - Latin American Perspectives **Credits:** 5
 - ANTH 462 - Native Peoples of the Northwest **Credits:** 5
 - ANTH 463 - Critical Issues in East and Southeast Asia **Credits:** 5
 - ANTH 465 - Critical Issues in Mexico and Central America **Credits:** 5
 - ANTH 476 - Borderlands **Credits:** 5
 - Two courses from:
 - ANTH 308 - Hunter-Gatherer Societies in World Prehistory **Credits:** 4
 - ANTH 310 - The Rise of Civilizations **Credits:** 4
 - ANTH 314 - Archaeology of North America **Credits:** 5
 - ANTH 316 - Aztec, Inca, and Maya Archaeology **Credits:** 5
 - Two courses from:
 - ANTH 406 - Archaeological Method and Theory **Credits:** 5
 - ANTH 410 - Archaeological Analysis and Interpretation **Credits:** 5
 - ANTH 411 - Archaeology of Northwestern North America **Credits:** 5
 - ANTH 428 - Cultural Resource Management **Credits:** 4
 - Two courses from:
 - ANTH 420 - Human Osteology and Forensic Anthropology **Credits:** 5
 - ANTH 422 - Nutritional Anthropology **Credits:** 5
 - ANTH 470 - Museology Studies **Credits:** 3-5
 - ANTH 479 - People of the Sea and Cedar Internship **Credits:** 1-6
 - 12 credits of supporting courses in sciences, history or mathematics selected under advisement.
- Strongly recommended courses include:
- ENVS 220 - Map Reading and Analysis **Credits:** 3
 - ENVS 321 - GIS II: Computer Cartography **Credits:** 3
 - ENVS 422 - Advanced Spatial Analysis **Credits:** 4
 - ENVS 427 - Soil Landscapes **Credits:** 4
 - GEOL 310 - Geomorphology **Credits:** 5
 - GEOL 316 - Paleontology **Credits:** 4
 - GEOL 413 - Fluvial Geomorphology **Credits:** 4
 - GEOL 415 - Sedimentology and Stratigraphy **Credits:** 4
- Elective credits in anthropology
 - Note: only one 100-level course will count towards this major.
 - Note: ANTH 312 Field Course in Archaeology or equivalent field experience recommended.

Anthropology — Biocultural Concentration, BA

Department of Anthropology, College of Humanities and Social Sciences

96-102 Credits

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

Why Consider a Biocultural Concentration in the Anthropology Major?

The Biocultural Anthropology Concentration is the most flexible of the biology anthropology combined majors and allows for students to gain a broad interdisciplinary training relevant for many of the professions confronting the challenges of modern society. Students can supplement their studies with related coursework from other departments given the requirements of specific training or post-baccalaureate programs.

How to Declare (Admission and Declaration Process):

To declare, a student must have completed any one of the following core courses:

- ANTH 201 and ANTH 301 and either ANTH 210 or ANTH 215 or ANTH 247 (ANTH 247 may be substituted with LING 201, LING 204, ENG 370 or HNRS 217).

Contact the Department of Anthropology at (360) 650-3620 or visit their office in Arntzen Hall 315 to declare the major and connect with a departmental advisor.

Advising Tips: Students are advised to declare their major early in their academic career. Anthropology advisors will provide information about the program, help develop a plan of study and answer any questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology **Credits:** 5
- ANTH 210 - Introduction to Archaeology **Credits:** 5
- ANTH 215 - Introductory Biological Anthropology **Credits:** 5
- ANTH 247 - Intro to Linguistic Anthropology **Credits:** 5 (LING 201 or LING 204 or ENG 370 or HNRS 217 may be substituted)
- ANTH 301 - Anthropological Theory **Credits:** 5
- ANTH 303 - Qualitative Methods in Anthropology **Credits:** 5 (optional)
- ANTH 335 - Quantitative Methods in Anthropology **Credits:** 5
- ANTH 350 - The Ecology of Human Variation **Credits:** 5

ANTHROPOLOGY

- ANTH 424 - Medical Anthropology **Credits:** 5
- ANTH 490 - Senior Seminar in Anthropology **Credits:** 5 (optional)
- ANTH 496 - Portfolio Assembly **Credits:** 1
- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity **Credits:** 5
- BIOL 205 - Introduction to Cellular and Molecular Biology **Credits:** 5
- BIOL 206 - Introduction to Organismal Biology **Credits:** 5
- BIOL 348 - Human Anatomy and Physiology **Credits:** 5
- BIOL 349 - Human Physiology **Credits:** 5
- Two courses from:
 - ANTH 361 - American Indian Perspectives **Credits:** 5
 - ANTH 362 - Anthropological Perspectives on Asia **Credits:** 5
 - ANTH 365 - Latin American Perspectives **Credits:** 5
 - ANTH 422 - Nutritional Anthropology **Credits:** 5
 - ANTH 423 - Human Evolution **Credits:** 5
 - ANTH 426 - Human Genetics and Epigenetics for the 21st Century **Credits:** 5
 - ANTH 457 - The Anthropology of Death and Dying **Credits:** 5
 - ANTH 462 - Native Peoples of the Northwest **Credits:** 5
 - ANTH 463 - Critical Issues in East and Southeast Asia **Credits:** 5
 - ANTH 465 - Critical Issues in Mexico and Central America **Credits:** 5
 - ANTH 476 - Borderlands **Credits:** 5
- Choose one of the following series:
 - CHEM 161 - General Chemistry I **Credits:** 5
 - CHEM 162 - General Chemistry II **Credits:** 5
 - CHEM 163 - General Chemistry III **Credits:** 5OR
 - CHEM 175 - General Chemistry I, Honors **Credits:** 5
 - CHEM 176 - General Chemistry II, Honors **Credits:** 5
 - CHEM 225 - General Chemistry III, Honors **Credits:** 5
- Choose either:
 - CHEM 251 - Elementary Organic Chemistry **Credits:** 5or all three of the following:
 - CHEM 351 - Organic Chemistry **Credits:** 4
 - CHEM 352 - Organic Chemistry **Credits:** 4
 - CHEM 353 - Organic Chemistry **Credits:** 3

Students are encouraged to further specialize according to their interests by pursuing appropriate course sequences and/or minors outside of the anthropology department, e.g., mathematics with an emphasis on statistics if pursuing epidemiology. Please confer with your advisor to tailor your training to meet your post-baccalaureate plans.

Program advisors: Joan Stevenson and MJ Mosher

Anthropology, BA

Department of Anthropology, College of Humanities and Social Sciences

65 Credits

Introduction

Anthropology explores what it means to be human. Anthropology is the scientific study of humankind in all the cultures of the world, past and present. This study includes humankind's physical development and creation of diverse lifestyles. The cross-cultural approach of Anthropology provides a framework for understanding all the diverse facets of what it means to be human.

The Anthropology Department provides training in four sub-disciplines: Cultural Anthropology, Archaeology, Physical Anthropology and Anthropological Linguistics. Using ethnographic, ethnological and ethnohistorical tools and information supplied by the four sub disciplines, the Anthropologist studies cultures and the processes of human development comparatively.

Why Consider an Anthropology Major?

Do you find human diversity and various cultures fascinating? Do you like to approach subjects from multiple perspectives? Do you prefer a holistic style of learning? Do you want to know why as well as how? Are you fascinated by human diversity? Are you enthusiastic, intelligent, and open-minded? If so, you may wish to consider a major in Anthropology. Students earning a degree in Anthropology will be able to apply their learning to a variety of jobs locally and internationally in the global economy of today's world.

ANTH 476 - Borderlands **Credits:** 5

- Electives in anthropology under departmental advisement. Student selection of a complementary minor under advisement is strongly recommended.

- Only one 100-level course will count toward major, minor or archaeology concentration

Anthropology/Biology, BA

Combined major offered by the Department of Anthropology, College of Humanities and Social Sciences and the Department of Biology, College of Science and Engineering.

91-99 credits

Introduction

Biological or Physical Anthropology is the study of both present and past human variation relative to local ecologies and cultures. Biological Anthropologists specialize in Human or Primate Anatomy, Genetics, Disease Ecology, Growth and Development, Forensic Anthropology and Osteology, Medical Anthropology or Primate Behavior and Primatology.

Why Consider an Anthropology/Biology Major?

The Biology/Anthropology major is a concentration on Human Biology and Behavioral Science. This major is more flexible than the Biology/Anthropology B.S. but is also excellent preparation for the applied health careers and graduate programs in Biological or Physical Anthropology. Check the course requirements for your postgraduate applied health programs to make sure you take all the appropriate prerequisites.

How to Declare (Admission and Declaration Process):

Declare your Anthropology/Biology major as soon as you discover you are interested. Contact the Anthropology department and Maren Brinson in the Biology Department Office, BI 315 for details. Freshmen, your first quarter is not too soon!

This degree has a two-step process for admission. Phase I students are students who have declared their intent to major in biology, and are in the process of completing the introductory biology and general chemistry series. Admission to Phase II is based on academic performance in the introductory courses. Students must have achieved an average grade of 2.9 or higher in their introductory biology and general chemistry courses before they can advance to Phase II and begin taking upper-division coursework.

Consult Department advisors in Biology and Anthropology as early as possible. Early advisement will ensure appropriateness and proper sequencing of courses. Anthropology/Biology BA majors need to begin the chemistry/biology sequences required prior to declaring the major. This will assist them in shortening considerably the many quarters necessary for the anthropology/biology major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology **Credits: 5**
- ANTH 210 - Introduction to Archaeology **Credits: 5**
- ANTH 215 - Introductory Biological Anthropology **Credits: 5**
- ANTH 496 - Portfolio Assembly **Credits: 1**
- BIOL 204 - Introduction to Evolution, Ecology and Biodiversity **Credits: 5**
- BIOL 205 - Introduction to Cellular and Molecular Biology **Credits: 5**
- BIOL 206 - Introduction to Organismal Biology **Credits: 5**
- BIOL 321 - Genetics **Credits: 4**
- BIOL 348 - Human Anatomy and Physiology **Credits: 5**
- BIOL 349 - Human Physiology **Credits: 5**
- Choose one of the following series:
 - CHEM 161 - General Chemistry I **Credits: 5**
 - CHEM 162 - General Chemistry II **Credits: 5**

BIOL 467 - Comparative Vertebrate Physiology **Credits:** 3

Note: BIOL 245 may not be counted toward this major.

Anthropology/Social Studies, BA

Department of Anthropology, College of Humanities and Social Sciences.

87-91 Credits

Introduction

Anthropology explores what it means to be human and encompasses the scientific study of diversity as well as similarities of all cultures of the world, past as well as present. Its scope includes human physical development, adaptation to vastly different environments, and creative expressions of meaning and belonging. The cross-cultural approach of Anthropology provides an inclusive and holistic framework for understanding all facets of humanity.

The Anthropology Department provides training in four sub-disciplines: Cultural Anthropology, Archaeology, Physical Anthropology and Anthropological Linguistics. Using ethnographic, comparative and ethnohistorical methods and working in partnerships with communities and peoples worldwide, anthropologists contribute in multiple ways to addressing contemporary human problems and highlighting evidence that points to both past and potential solutions.

Why Consider an Anthropology/Social Studies Major?

Do you find human diversity and various cultures fascinating? Do you appreciate the benefits of examining topics from multiple perspectives and value a holistic approach to learning? Do you prefer a holistic style of learning? Do you want to know why as well as how? Are you fascinated by human diversity? Are you enthusiastic and open-minded? If you are also excited about transmitting that enthusiasm and understanding to others, a major in Anthropology/Social Studies may be for you. Students earning a degree in Anthropology/Social Studies will be able to apply their knowledge and experience to a variety of careers locally and globally, particularly in settings for learning and teaching such as schools and learning across the life span.

To receive a recommendation for state of Washington certification, students must complete the teacher certification program, including the content methods course SEC 426, offered by the Department of Secondary Education, as a part of the undergraduate Bachelor of Arts degree, or as a post-baccalaureate program, or as a part of the Master's in Teaching degree. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

Bachelor of Arts in Education

Anthropology — Elementary, BAE

Department of Anthropology, College of Humanities and Social Sciences

45 Credits

Introduction

The Anthropology Department offers a combined major in accordance with the Woodring College of Education requirements. Anthropology is particularly valuable for teachers, because it provides a broad understanding of human behavior. Teachers often work with students of various cultural backgrounds and an awareness of specific cultural learning influences, attitudes, motivations, and patterns of interaction is an integral part of working effectively and respectfully in diverse communities. This is the basis of the core subjects in cultural anthropology.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in Elementary Education offered through Woodring College of Education.

Why Consider an Anthropology Elementary Major?

Through the required basic courses in Anthropology, education majors will acquire an understanding of the nature of human beings, the evolution of the human species and the tremendous variation of cultural traits that are both our heritage and potential. Through faculty advisement, prospective students will be informed of advanced coursework that are beneficial combinations to complete individual academic goals. One possible emphasis is the culture of the Native American Indians--a subject that most elementary teacher cover at some point in their curriculum. Another emphasis may be cultural minority groups in the Pacific Northwest. The relationship of cultural learning to personality development and the relationship of cultural expectations to the learning process itself are other important areas covered by courses which may be taken as part of the Anthropology Education Major.

Biology/Anthropology, BS (see Biology Department)

Master of Arts

Anthropology, Thesis, MA

College of Humanities and Social Sciences

Graduate Faculty

Bruna, Sean, PhD, sovereignty, applied anthropology, medical anthropology, chronic disease prevention, community based participatory research (CBPR) Native North America, U.S. Southwest.

Boxberger, Daniel L., PhD, ethnohistory, method and theory, indigenous rights, Native North America, Northwest coast.

Campbell, Sarah, PhD, Pacific Northwest prehistory, archaeological method and theory, cultural resource management.

Fisher, Josh, PhD, economics/environmental anthropology, critical development studies, feminist political economy, postcolonial theories/methods; Latin America, Nicaragua.

Hammond, Joyce D., PhD, visual anthropology, gender studies, expressive culture, fieldwork methods, and Pacific Asian Rim tourism.

Koetje, Todd A., PhD, archaeology, quantitative methods, spatial studies, method and theory, paleolithic Old World, paleoindian-archaic Northeast U.S.

Loucky, James, PhD, applied anthropology, socialization, immigration, cross-cultural education, Latin America.

M. J. Mosher, PhD, anthropological genetics, epigenetics, nutrition, adipokines, human variation and adaptation, Arctic Populations.

Pine, Judith, PhD, linguistic anthropology, literacy theory, indigenesness, globalization/borders, language maintenance/endorsement, upland peoples of SE Asia/SW China.

Young, Kathleen, PhD, gender, religion, war and violence, death and dying, cross-cultural law.

Yu, Yeon Jung, PhD, social networks, medical anthropology, gender, migration/immigration, mixed methods, East Asia.

Program Advisor: Dr. Sarah Campbell, Arntzen Hall 342

Goals

- Provide structured training in academic core, appropriate specialization courses, and experience conducting independent research
- Prepare students for a variety of professional careers utilizing anthropology (e.g. social services, international corporations, cultural resource management, forensics, public health)
- Prepare students for PhD programs or other advanced degrees.

Prerequisites

ANTHROPOLOGY

Undergraduate major in anthropology or related field such as human biology, linguistics, classical studies, history, women's studies, sociology and other social sciences. Applicants with insufficient background in theory, quantitative or qualitative methods relevant to their field of study may be required to take undergraduate classes before entering the program. Applicants are directed to the current course requirements in the appropriate undergraduate anthropology major for an indication of the preparation expected.

Application Information

Deadline: Please see Graduate School deadlines. Preferred consideration for admission will be given to applicants who have complete files by January 15.

TA Deadline: Preferred consideration will be given to applicants who have complete files by January 15.

Specific Entrance and Test Requirements

- A 500-word essay stating reasons for wanting to do graduate work in anthropology, and indicating major interests within anthropology
- Graduate Record Exam, General Test

Both the essay and the GRE are required for admission, but the GRE may be waived for applicants with advanced degrees.

Program Requirements (45 credits)

- One course from the following: ANTH 501, ANTH 506, ANTH 525 or ANTH 547
- ANTH 502 - Theory in Anthropological Research **Credits:** 5
- ANTH 503 - Research Design and Method **Credits:** 5
- ANTH 585 - Essentials of Graduate Study in Anthropology **Credits:** 2
- ANTH 586 - Research Mentorship **Credits:** 1 (Minimum of 3 credits)
- ANTH 690 - Thesis **Credits:** 1-12 (3-12)
- Electives in specialization: Courses selected under advisement from 400 or 500 level courses in anthropology.

Course Electives:

- ANTH 456 - Anthropology of War and Human Rights **Credits:** 4
- ANTH 457 - The Anthropology of Death and Dying **Credits:** 5
- ANTH 462 - Native Peoples of the Northwest **Credits:** 5
- ANTH 470 - Museology Studies **Credits:** 3-5
- ANTH 473 - Field Course in Ethnography **Credits:** 5-12
- ANTH 475 - Humane Migration **Credits:** 5
- ANTH 484 - Intercultural Education **Credits:** 5
- ANTH 501 - History of Anthropology **Credits:** 5
- ANTH 506 - Archaeological Method and Theory **Credits:** 5
- ANTH 510 - Applied Archaeological Analysis and Interpretation **Credits:** 5
- ANTH 511 - Current Archaeological Research in Northwestern North America **Credits:** 5
- ANTH 515 - Practicum in Archaeological Spatial Analysis **Credits:** 5
- ANTH 520 - Human Osteology **Credits:** 5
- ANTH 522 - Nutritional Anthropology **Credits:** 5
- ANTH 524 - Applied Medical Anthropology **Credits:** 5
- ANTH 525 - Primate Evolution **Credits:** 5
- ANTH 526 - Human Genetics and Epigenetics for the 21st Century **Credits:** 5
- ANTH 528 - Applied Cultural Resource Management **Credits:** 5
- ANTH 547 - Semiotic Anthropology **Credits:** 5
- ANTH 553 - Women of the Global South **Credits:** 5
- ANTH 554 - Participatory Action Research Methods **Credits:** 5
- ANTH 563 - Peoples of East and Southeast Asia **Credits:** 5
- ANTH 565 - Peoples of Mexico & Central America **Credits:** 5

ANTH 571 - Field Work Methods in Cultural Anthropology **Credits:** 7

ANTH 572 - Visual Anthropology **Credits:** 5

ANTH 576 - Borderlands **Credits:** 5

ANTH 580 - Applied Anthropology **Credits:** 5

ANTH 581 - Childhood and Culture **Credits:** 5

NOTE: Three credits of ANTH 690 are required. Not more than 12 credits of 690 will apply toward the 45-credit requirement for the degree.

NOTE: No more than 10 credits of 400 level courses can be applied to the graduate degree. At least 35 credits must be from courses at the 500 or 600 (thesis) level.

Supporting Courses: Where appropriate to the student's specialty interests, the candidate may elect up to 15 credits from a related discipline, under Anthropology Graduate Committee advisement (0-15). Advancement to candidacy is granted upon successful completion of 15 credits.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ANTH 201 - Introduction to Cultural Anthropology **Credits:** 5
 - One course from:
 - ANTH 102 - Introduction to Human Origins **Credits:** 5
 - ANTH 210 - Introduction to Archaeology **Credits:** 5
 - ANTH 215 - Introductory Biological Anthropology **Credits:** 5
 - Electives in anthropology to complete 25 credits for the minor.
- NOTE:** Only one 100-level course will count towards the Anthropology Minor.

Latin American Studies Minor (see History Department)

Latin American Studies Minor (see History Department)

Anthropology Courses

ANTH 102 - Introduction to Human Origins

Description of scientific evidence for the evolution of the human lineage from its primitive primate ancestors to the origins of civilization. Emphasis on analytical methods employed to reconstruct history from fossils, geological context and cultural remains.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 104 - American Mosaic: The Cultures of the United States

The study of the cultures of the United States from the perspectives of ethnicity, race, gender and class. Special emphasis on anthropological methods and approaches to enhance understanding of contemporary socio-cultural lifeways.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

ANTH 201 - Introduction to Cultural Anthropology

Introduction to the concepts, methods and practical application of cultural anthropology. The focus is on explanations for social and cultural variation around the world and over time and the significance of holistic and comparative understanding.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 210 - Introduction to Archaeology

The historical roots and current goals of archaeology. Principles of archaeological inference, including formation of the archaeological record, data collection and analysis, and interpretive frameworks.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 215 - Introductory Biological Anthropology

The biological side of anthropology; human osteology, primate paleontology, human variation, human evolution and primate behavior.

Credits: 5
Grade Mode: Letter
GUR Attributes: LSCI

ANTH 247 - Intro to Linguistic Anthropology

The study of language from an anthropological perspective. Includes an introduction to the structure and patterning of language, the study of language as it is used in daily life, and the role of language in human evolution.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

ANTH 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ANTH 301 - Anthropological Theory

The development of anthropological thought from the late 1800s to the present. Emphasis is placed on the major theoretical developments in the discipline.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 303 - Qualitative Methods in Anthropology

This course will familiarize students with perspectives, methods and techniques of qualitative research in anthropology. The course will cover the theoretical background of qualitative research, major research traditions, methods of data collection, analysis of textual data and the write-up of findings.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 308 - Hunter-Gatherer Societies in World Prehistory

The archaeological remains of hunting-gathering groups from early hominids to modern times interpreted in terms of evolution of adaptive strategies. Relationship to agriculture as an adaptive strategy; contributions of studies of modern hunter-gatherer groups.

Prerequisites & Notes: ANTH 210.
Credits: 4
Grade Mode: Letter

ANTH 310 - The Rise of Civilizations

Village agricultural societies as revealed by archaeology; crystallization of village farming societies into urban civilizations in the Near East, Egypt, India, China and New World parallel developments.

Prerequisites & Notes: ANTH 102 or ANTH 210.
Credits: 4
Grade Mode: Letter

ANTH 312 - Field Course in Archaeology

On-site training in methods and techniques of archaeological survey and excavation.

Prerequisites & Notes: ANTH 210 or equivalent and permission of instructor.
Credits: 12
Grade Mode: Letter

ANTH 314 - Archaeology of North America

Origins of PaleoIndians of North America, their paleoenvironments and the cultural sequences leading to the historic peoples of the New World north of Panama. Mesoamerican and Mississippian cultures, those of the Southwest and the Woodland Archaic.

Prerequisites & Notes: ANTH 210.
Credits: 5
Grade Mode: Letter

ANTH 316 - Aztec, Inca, and Maya Archaeology

This course provides an introduction to the study of the Prehispanic civilizations of the New World. The curriculum will cover pertinent archaeological, ethnohistoric, and epigraphic data from three of the best-known new world states: the Maya of southern Mesoamerica, the Aztecs of central Mexico, and the Inca of the Andes. The perspective of this course is explicitly comparative, and case studies will be examined within the framework of anthropological theories of ancient states. For each civilization, we will examine several categories of variability, including: environmental setting, origins of complexity, political organization, social organization, economy, and religion and ideology.

Prerequisites & Notes: ANTH 210 or instructor permission.
Credits: 5
Grade Mode: Letter

ANTH 330 - Religion and Culture

Comparative study of religious thought, belief and behavior; relationship of religious experience and institutions to other aspects of culture and society.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 335 - Quantitative Methods in Anthropology

Mathematics and statistics as applied to anthropological problems.

Prerequisites & Notes: ANTH 201 or HNRS 203 or ANTH 210 or ANTH 215.
Credits: 5
Grade Mode: Letter
GUR Attributes: QSR

ANTH 338 - Economic Anthropology

Examines the relationship between systems of production and culture through four theoretical approaches: formalist, substantivist, Marxist and culturalist. Emphasis on localized consequences of global economic forces. Service learning component required.

Prerequisites & Notes: ANTH 201 or HNRS 203 or instructor permission
Credits: 5
Grade Mode: Letter

ANTH 347 - The Ethnography of Communication

Familiarizes students with methods of data collection and analysis used in linguistic anthropology through an examination of both classic and current literature. Examines the complex relationship between language and culture.

Prerequisites & Notes: ANTH 247.
Credits: 5
Grade Mode: Letter

ANTH 350 - The Ecology of Human Variation

Examines global contemporary sociopolitical, health and related environmental issues with an evolutionary perspective that emphasizes changes in human physiology, development, and the genome and epigenome relative to local ecology (disease, diet, demography) and cultural adaptations.

Prerequisites & Notes: ANTH 215; One from: ANTH 201, ANTH 210, HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 351 - Family and Kinship Organization

Cross-cultural study of family types and the definition of social roles through kinship organization.

Prerequisites & Notes: ANTH 201 or HNRS 203.
Credits: 5
Grade Mode: Letter

ANTH 353 - Sex and Gender in Culture

ANTHROPOLOGY

Cross-cultural study of gender stereotypes, gender and language, gender and work roles, gender and religion.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ANTH 361 - American Indian Perspectives

Ethnographic survey of the peoples and cultures.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ANTH 362 - Anthropological Perspectives on Asia

Ethnographic survey of the region, with attention to the diversity of human experience.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ANTH 365 - Latin American Perspectives

Ethnographic survey of the region, with attention to the diversity of human experience.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ANTH 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ANTH 406 - Archaeological Method and Theory

History of theory and method in North American archaeology and the legacy of earlier goals. Current goals and the development of appropriate theory, method and empirical applications.

Prerequisites & Notes: ANTH 210 and ANTH 301.

Credits: 5

Grade Mode: Letter

ANTH 410 - Archaeological Analysis and Interpretation

Archaeological laboratory methods; artifact identification, classification, measurement; map reproduction, soil and feature profiles; use of photographs and other graphic methods.

Prerequisites & Notes: ANTH 210 and Junior or Senior status.

Credits: 5

Grade Mode: Letter

ANTH 411 - Archaeology of Northwestern North America

The prehistoric archaeology of the Northwest coast and plateaus; current explorations and interpretations in a context of paleoenvironmental and ethnohistorical evidence.

Prerequisites & Notes: ANTH 210 and one of ANTH 310 or ANTH 314 or ANTH 361.

Credits: 5

Grade Mode: Letter

ANTH 415 - Archaeological Spatial Analysis

Focuses on the application of advanced quantitative methods in spatial analysis to specific archaeological contexts and projects. Students will complete a major research project and present it to the class and as a paper.

Prerequisites & Notes: ANTH 201 and ANTH 335.

Credits: 3

Grade Mode: Letter

ANTH 420 - Human Osteology and Forensic Anthropology

After learning the human skeleton, the student will be trained in techniques for recovery of the body, reconstruction of the body's history (age, sex, race, etc.) and how to aid the crime investigator.

Prerequisites & Notes: ANTH 210 or ANTH 215 or ANTH 335 or ANTH 410 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 422 - Nutritional Anthropology

The study of human nutrition and metabolism from an anthropological perspective. Topics include the structure and function of the digestive system, the chemical composition of nutrients and the regulation by the body of nutrient stores and body composition. Focuses on using a comparative approach to elucidate a naturalistic human diet and the health consequences when this ideal is not met.

Prerequisites & Notes: ANTH 201 or HNRS 203,

and ANTH 215 and BIOL 349 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 423 - Human Evolution

First half of seminar covers theory and anatomical changes for hominin species focusing on last 6 million years (that is, Ardipithecus and Australopithecus to present) and second half considers sociocultural evolution (e.g., life history theory, mate choice, evolution of cognition, emotions, language).

Prerequisites & Notes: ANTH 102 or ANTH 210 or ANTH 215 and ANTH 301 or ANTH 308 or ANTH 310 or ANTH 350, or junior standing in Biology or Anthropology major, or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 424 - Medical Anthropology

Introduction to an area where biological and cultural anthropology interface. Includes health and disease in evolution, the relationships between disease and world view, the healer and the cultural milieu, and comparative studies of healing practices.

Prerequisites & Notes: ANTH 201 or HNRS 203, and junior standing or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 426 - Human Genetics and Epigenetics for the 21st Century

This course examines patterns of human genetic variation, characterizing the concepts of inheritance, gene expression, the relationship of genotype to phenotype and the growing role of epigenetics in human development, adaptation and evolution.

Prerequisites & Notes: ANTH 215 or ANTH 350; BIOL 348 or BIOL 321; or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 428 - Cultural Resource Management

Introduction to the field of cultural resource management including historic preservation, archaeological resource management, cultural resource management for subsistence and spiritual practices. Background on legislation and current practices, review of case studies and experience with actual projects.

Prerequisites & Notes: ANTH 210 and junior or senior status or instructor permission.

Credits: 4

Grade Mode: Letter

ANTH 440 - Cyborg Anthropology

The cyborg is a life form that is part human and part machine. This course examines the shifting conceptual and physical boundaries between humans and their techno-scientific creations through theoretical works, ethnographic accounts and popular cultural artifacts such as film.

Prerequisites & Notes: ANTH 201 or HNRS 203 or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 447 - Anthropological Semiotics

Myth, metaphor and media offer the material for this exploration of theories which offer insight into the relationship between language and mind.

Prerequisites & Notes: ANTH 347 and junior or senior status or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 453 - Women of the Global South

Explores women's economic, religious, political and familial roles through topics such as development and globalization, violence, and women's movements. Student contributions to course topics emphasized through individual papers and group panel work. Also offered as WGSS 453.

Prerequisites & Notes: ANTH 301 and ANTH 353 and junior or senior status or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 454 - Participatory Action Research Methods

Participatory Action Research is a methodology of researching, analyzing, and carrying out actions that directly benefit members (stakeholders) of a community. As a form of applied anthropology, PAR is a method that emphasizes working in collaboration with others to develop research questions, conduct research, analyze findings, present results, and create actions. In this course, students will work with identified community organizations and groups who are interested in the PAR methodology.

Prerequisites & Notes: ANTH 303 or ANTH 471 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 456 - Anthropology of War and Human Rights

The course focuses on emic and etic perspectives of war and human rights. Investigates cultural relativism and anthropology with regard to war and

ANTHROPOLOGY

violence. Cultural constructions of war and definitions of human rights are fundamental to an understanding of what it means to be human.

Prerequisites & Notes: ANTH 301 and junior or senior status.

Credits: 4

Grade Mode: Letter

ANTH 457 - The Anthropology of Death and Dying

The course considers death and dying anthropologically as cultural constructs. The course explores a wide range of cultures from a variety of interdisciplinary and interactive perspectives in order to further our understanding of what it means to be human. Studies death and dying in order to broaden our understanding of the human cultural experience. Field trips required.

Prerequisites & Notes: ANTH 301 and junior or senior status.

Credits: 5

Grade Mode: Letter

ANTH 462 - Native Peoples of the Northwest

Tribal distributions, social organization and ecological adaptation and social change with emphasis on the Native peoples of Washington state.

Prerequisites & Notes: ANTH 361

Credits: 5

Grade Mode: Letter

ANTH 463 - Critical Issues in East and Southeast Asia

An ethnographic in-depth study of the national and minority peoples of China, mainland and insular Southeast Asia. Emphasis on special topics, including ecology, prehistory and selected cultural groups. Readings focus on original monographs.

Prerequisites & Notes: ANTH 362 or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 465 - Critical Issues in Mexico and Central America

Examination of contemporary issues in the southern part of North America, with emphasis on changing cultural, political, and environmental contexts; urban, rural, and indigenous communities; migration and transcultural realities; and social and environmental movements.

Prerequisites & Notes: ANTH 365 or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 469 - Directed Internship

Application of anthropological methods and theory in an applied setting. Interns work at least 10 hours per week at the work site, in the type of work specified in the internship contract. In addition students complete several written assignments. Repeatable to a maximum of 15 credits. No more than 10 credits in internship may be counted toward the major.

Prerequisites & Notes: permission of instructor.

Credits: 5-10

Grade Mode: Letter

ANTH 470 - Museology Studies

Internship at the Whatcom Museum of History and Art or other local museums. Students may select an area of museum specialization in most cases; essay questions and a paper are also required. Repeatable to a maximum of 10 cr.

Prerequisites & Notes: ANTH 301 and junior or senior, or permission of faculty liaison.

Credits: 3-5

Grade Mode: Letter

ANTH 471 - Field Work Methods in Cultural Anthropology

The study of ethnographic field work methods through exercises in class and a major field work project in the community. Discussion of topics, including the anthropologist as field worker and the ethics of field work.

Prerequisites & Notes: ANTH 301 or ANTH 303 and junior or senior status, or permission of instructor.

Credits: 7

Grade Mode: Letter

ANTH 472 - Visual Anthropology

Examination of photographic representation of people by anthropologists, ethnographic filmmakers, indigenous people, media and other groups. Analytical skills and applications are emphasized and theoretical perspectives are explored.

Prerequisites & Notes: ANTH 301 or ANTH 303 and junior or senior status, or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 473 - Field Course in Ethnography

Course is partly classroom-based and partly field-based research through participation in on-site projects. Actual projects vary by quarter and instructor.

Prerequisites & Notes: ANTH 201 or HNRS 203

and permission of instructor.

Credits: 5-12

Grade Mode: Letter

ANTH 475 - Humane Migration

Addresses movements of people from a human rights perspective, grounded in comparative analyses of economic and political determinants, vulnerabilities accompanying environmental disruptions, and humane policies for inclusion in emerging transcultural societies.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

ANTH 476 - Borderlands

Comparative examination of simultaneous separating and integrating functions of borders, significance of border regions as vital transition zones, and transboundary policy needs associated with accelerated flows of people, goods and ideas; particular focus on U.S.-Mexico and US.-Canada borderlands.

Prerequisites & Notes: ANTH 201 or HNRS 203.

Credits: 5

Grade Mode: Letter

ANTH 479 - People of the Sea and Cedar Internship

This is an internship at the Whatcom Museum, specifically to prepare students for workshops/tours for a program titled The People of the Sea and Cedar, which focuses on Northwest Coast Native peoples. The student will conduct workshops/tours for third and fourth grade students studying Native American history and culture. Interns will also learn about broader museum topics through readings and demonstrate their understandings through weekly short essays. A self-evaluation and Summary of Learning is also required. Interns should be comfortable working with people and hold an interest in Native American culture. Interns will need to be available for certain hours and make a two consecutive quarter commitment. Repeatable up to 7 credits including original course.

Prerequisites & Notes: ANTH 301 and junior status or instructor permission. Must reach junior status by winter quarter.

Credits: 1-6

Grade Mode: Letter

ANTH 480 - Applied Anthropology

Use of anthropology to solve human problems; examines ethics, interventions and policy applications regarding contemporary social issues.

Prerequisites & Notes: ANTH 301 or ANTH 303.

Credits: 5

Grade Mode: Letter

ANTH 481 - Childhood and Culture

The process of socialization or enculturation viewed from a cross-cultural perspective.

Prerequisites & Notes: ANTH 201 or HNRS 203 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 484 - Intercultural Education

Comparative and anthropological study of educational issues. Examines learning in other cultures, home-school linkages, minority student achievement and multi-cultural curricula.

Prerequisites & Notes: ANTH 201 or HNRS 203 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 490 - Senior Seminar in Anthropology

Capstone seminar in anthropology. Topics vary, emphasis is on current research questions in anthropology. Students write a research proposal, conduct a research project and present the findings. Repeatable to a maximum of 10 credits.

Prerequisites & Notes: Senior status in anthropology.

Credits: 5

Grade Mode: Letter

ANTH 495 - Teaching-Learning Processes in Anthropology

Practicum as discussion leaders in anthropology courses. May be repeated once for departmental credit if taken from a different instructor.

Prerequisites & Notes: Permission of instructor.

Credits: 3

Grade Mode: Letter

ANTH 496 - Portfolio Assembly

Student assembles and submits portfolio contents in four areas: research, competence, data analysis, critical comprehension and synthetic comparison, under continuing direction of departmental academic adviser. S/U grading.

Prerequisites & Notes: Senior status in anthropology.

Credits: 1

Grade Mode: S/U

ANTH 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be

ANTHROPOLOGY

arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ANTH 501 - History of Anthropology

Development of principal theoretical orientations and methods in the cultural and historical setting; development of anthropology as a discipline.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 502 - Theory in Anthropological Research

Issues relating to use of theory in contemporary anthropological research; examination of major writings and their implications.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 503 - Research Design and Method

Analysis of major theoretical approaches; research methods and procedures; relationship of theory and method in formulating research problems.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 506 - Archaeological Method and Theory

History of theory and method in North American archaeology and the legacy of earlier interpretive frameworks. Current goals of the discipline and the development of appropriate theory, method and empirical applications.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 510 - Applied Archaeological Analysis and Interpretation

Advanced design and implementation of archaeological laboratory methods to a specific research project.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 511 - Current Archaeological Research in Northwestern North America

Advanced survey of current literature in Pacific Northwest archaeology in seminar format with preparation of a major research paper.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 515 - Practicum in Archaeological Spatial Analysis

Application of advanced quantitative spatial analysis techniques to specific archaeological contexts and projects. Students will complete a major research project and paper.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 520 - Human Osteology

Advanced study of human osteology. The latest methods in reconstruction of the individual.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 522 - Nutritional Anthropology

Advanced study of human nutrition and metabolism from an anthropological perspective. Topics include the structure and function of the digestive system, the chemical composition of nutrients and the regulation by the body of nutrient stores and body composition. Each student will prepare a major research paper and presentation.

Prerequisites & Notes: graduate student in good standing in anthropology and other programs with program advisor approval

Credits: 5

Grade Mode: Letter

ANTH 524 - Applied Medical Anthropology

Advanced study of the use of medical anthropological method and theory in contemporary health care systems or in the analysis of health and disease in past populations.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 525 - Primate Evolution

Advanced study of primate paleontology. Each student is expected to become expert on some aspect of the fossil record.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 526 - Human Genetics and Epigenetics for the 21st Century

Advanced study to examine patterns of human genetic variation, characterizing the concepts of inheritance, gene expression, the relationship of genotype to phenotype and the growing role epigenetics in human development, adaptation and evolution.

Prerequisites & Notes: Graduate status in the Anthropology program or instructor permission.

Credits: 5

Grade Mode: Letter

ANTH 528 - Applied Cultural Resource Management

Application of cultural resource management methods to specific management problems. Students will prepare a professional quality cultural resource management plan or nomination form.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 547 - Semiotic Anthropology

Advanced study of theoretical approaches to meaning in linguistic anthropology, including but not limited to Piercean semiotics, trope theory, and methods for theorizing context.

Prerequisites & Notes: Graduate standing.

Credits: 5

Grade Mode: Letter

ANTH 553 - Women of the Global South

Examines a variety of contemporary issues facing women of the South, such as economic realities, family responsibilities, health issues, and women's rights. Emphasis on individual and group work to examine selected topics and to gain in-depth knowledge about women in specific countries.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 554 - Participatory Action Research Methods

Participatory Action Research is a methodology of researching, analyzing, and carrying out actions that directly benefit members (stakeholders) of a community. As a form of applied anthropology, PAR is a method that emphasizes working in collaboration with others to develop research questions, conduct research, analyze findings, present results, and create actions. In this course, students will work with identified community organizations and groups who are interested in the PAR methodology.

Prerequisites & Notes: ANTH 571 or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 563 - Peoples of East and Southeast Asia

Advanced study of selected important topics regarding the peoples and cultures of China, mainland and insular Southeast Asia. Emphasis on work to gain in-depth knowledge and understanding of selected cultures and/or theoretical-analytical topics of special relevance to the region.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 565 - Peoples of Mexico & Central America

Advanced ethnological analysis of cultures and social relations in Mesoamerica, with emphasis on ecological, economic and political issues and implications for community resources for facing globalization.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 571 - Field Work Methods in Cultural Anthropology

The study of ethnographic field work methods through exercises in class and a major field work project in the community. Discussion of topics, including the anthropologist as field worker and the ethics of field work.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 7

Grade Mode: Letter

ANTH 572 - Visual Anthropology

Examination of photographic/digital image representation of people by anthropologists,

ANTHROPOLOGY

ethnographic filmmakers, indigenous people, media and other groups. Requires analytical skills and applications and explores theoretical perspectives. Requires two projects with accompanying presentations.

Prerequisites & Notes: Graduate status.

Credits: 5

Grade Mode: Letter

ANTH 576 - Borderlands

Advanced comparative examination of separating and integrating functions of borders, border regions as transition zones, and policy implications, with emphasis on U.S. borders with Mexico and Canada.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 580 - Applied Anthropology

Advanced investigation of the use of anthropology to solve human problems; ethics, interventions and policy applications regarding contemporary social issues.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 581 - Childhood and Culture

Advanced cultural analysis of the process of socialization, child welfare and policy relating to children.

Prerequisites & Notes: Graduate status in the anthropology program or permission of instructor.

Credits: 5

Grade Mode: Letter

ANTH 585 - Essentials of Graduate Study in Anthropology

This course will acquaint students with faculty interests and departmental and university resources. Topics will include choosing a thesis research topic aligned with contemporary issues in anthropology, forming a committee, and developing an appropriate plan of study.

Prerequisites & Notes: To be taken Fall Quarter of the first year. Not repeatable. S/U grading. Graduate status in the anthropology program or permission of instructor

Credits: 2

Grade Mode: S/U

ANTH 586 - Research Mentorship

A seminar style class to discuss progress and issues in thesis development at various stages: writing a thesis topic proposal, submitting grant proposals and IRB proposals, and the logistics of conducting research. Other topics will include standards for professional writing and giving professional presentations. Students will be expected to present their thesis proposal in this venue. Repeatable for a minimum of 3 and maximum of 5 credits. S/U grading.

Prerequisites & Notes: Graduate status in Anthropology or instructor permission. To be taken Winter and Spring Quarter by first year students, and at least once in the second year.

Credits: 1

Grade Mode: S/U

ANTH 690 - Thesis

Repeatable to a maximum of 12 cr. S/U grading

Prerequisites & Notes: formal advancement to candidacy for MA in Anthropology

Credits: 1-12

Grade Mode: S/U

Communication Sciences and Disorders

Introduction

The Disciplines

Speech-language pathology and audiology are disciplines that have developed out of a concern for people with communication disorders. Speech-language pathologists work in a variety of settings with children and adults to prevent, assess, diagnose, and treat speech, language, communication and swallowing disorders. Audiologists are healthcare professionals who identify, diagnose, and provide evidence-based treatment of hearing, balance, and other auditory disorders. Preparation leading to an undergraduate degree in communication sciences and disorders includes a wide range of courses and a variety of clinical practicum opportunities working with the infant through geriatric populations.

Students who intend to seek employment as a speech-language pathologist or audiologist, whether in a public school, clinic, rehabilitation center, or hospital setting, are advised that a master's degree in speech-language pathology or a clinical doctorate in audiology and certification/licensure at the state and/or national levels are required. Out-of-state students should recognize that other requirements may exist for employment in their locales.

For students who do not wish to continue with a graduate degree in speech-language pathology or audiology, an undergraduate degree in CSD provides excellent preparation for other professions and fields of study. Some students with a CSD degree go on to attend graduate programs in deaf education, early childhood or elementary education, adult and higher education, or special education. Students not wishing to seek a graduate degree can work in the schools as an educational assistant, or pursue certification as a speech-language pathology assistant, a reading specialist or reading coach, a hearing aid dispenser, or an audiology technician. Some students pursue national or international teaching and service opportunities with organizations such as Teach for America, Americorps, or the Peace Corps.

Degree Programs in Communication Sciences and Disorders

The Department of Communication Sciences and Disorders (CSD) offers a Bachelor of Arts in Communication Sciences and Disorders, a Master

of Arts in Speech-Language Pathology, and a Clinical Doctorate in Audiology. The Bachelor of Arts degree in CSD is a pre-professional degree with an emphasis on the liberal arts and sciences that prepares the student for pursuing graduate studies in either audiology or speech-language pathology. For the bachelor's degree in CSD at Western, a minor area of study is required and must be approved by the student's academic advisor. Suggested minor areas include audiology (in moratorium), linguistics, English, biology, physics, business, education, psychology, and sociology. Individually designed minors are permissible with faculty advisor approval.

The Master of Arts and Clinical Doctorate degrees are professional degrees and partially fulfill certification requirements at both the state and national levels.

A post-baccalaureate program is offered for those with an undergraduate degree in a field other than communication sciences and disorders and for those who hold a CSD degree that was completed five or more years ago. This program is designed to prepare such students for graduate-level study in speech-language pathology or audiology. The 45-50 credits four-quarter lockstep program begins fall quarter. The post-baccalaureate program is self-supporting and has a tuition rate that differs from that of regularly enrolled undergraduate students.

Students interested in the post-baccalaureate program need to complete the Extension Undergraduate Application. Extension admission and registration information is available from Extended Education, 360-650-7780.

NOTE: Enrollment in the post-baccalaureate program does not guarantee a place in the graduate program.

Accreditation

The Master of Arts degree education program in speech-language pathology at Western Washington University is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700 (TTY). The Department of Communication Sciences and Disorders is also accredited by the National Council for the Accreditation of Teacher Education. The Clinical Doctorate in Audiology (AuD) at Western Washington University is in candidacy status with the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association.

COMMUNICATION SCIENCES AND DISORDERS

Applications are being accepted for the AuD Program for the fall of 2017.

Certification/Licensure in Speech-Language Pathology/Audiology

There are three types of professional certification/licensure in the field: state licensure from the Washington State Department of Health; certification as an educational staff associate from the Washington state Office of the Superintendent of Public Instruction; and the Certificate of Clinical Competence, a national certification, from ASHA. Consult the department for additional information.

Faculty

KIMBERLY A. PETERS (2002) Chair and Professor. BA, Trinity College; MA, PhD, University of Connecticut. Undergraduate advisor; director, aural rehabilitation clinics (audiology).

RIEKO M. DARLING (1995) Professor. BS, MS, PhD, Florida State University. Undergraduate advisor; director, audiology clinics; program director, AuD (audiology).

ANNA C. DIEDESCH (2017) Assistant Professor. BA, Washington State University; AuD, Wichita State University; PhD, Vanderbilt University (audiology).

DAVID L. EVANS (2014) Assistant Professor. BA, University of Colorado-Boulder; MA, University of Maine; PhD, University of Nebraska-Lincoln; transfer advisor (speech-language pathology).

KELLI J. EVANS (2014) Assistant Professor. BA, MA, University of Maine; PhD, University of Nebraska-Lincoln; SLP graduate advisor (speech-language pathology).

MICHAEL R. FRAAS (2012) Associate Professor. BA, Bowling Green State University; MA, PhD, University of Cincinnati; undergraduate advisor (speech-language pathology).

DOUGLAS P. SLADEN (2017) Assistant Professor. BA, MA, Western Washington University; PhD, Vanderbilt University (audiology).

JENNIFER THISTLE (2017) Assistant Professor. Alfred University; MEd, Fitchburg State College; MS, Emerson College; PhD, Pennsylvania State University (speech-language pathology).

Clinical Educators

MEGAN BENNETT (2017) Internship coordinator; BS, University of Nevada, Reno; MA, Western Washington University; AuD, A.T. Still University (audiology).

KAREN-MARGRETHE BRUUN (2010) Internship coordinator; Graduate program coordinator; Post-Baccalaureate program coordinator; MA, Western Washington University (speech-language pathology).

JENNIFER GRUENERT (2008) BA, MS, University of Washington (speech-language pathology).

JILL K. HUNT-THOMPSON (1977) BA, MA, Western Washington University (speech-language pathology).

DIANA PECHTHALT (2003) BA, MA, Western Washington University (speech-language pathology).

YARROW POSPISIL (2001) BS, University of Nebraska; MA, Western Washington University (speech-language pathology).

JASMINE RUBERT (2014) BA, MA, Western Washington University (speech-language pathology).

LESLEY STEPHENS (2006) Director, BA, MA, University of Kansas. (speech-language pathology).

TONY THOMPSON (2015) BA, Ball State University; MA, University of Oregon (speech-language pathology).

JOHN YOUNG (2013) BA, MA, Western Washington University (audiology).

Declaration Process

Students wishing to declare a major in Communication Sciences and Disorders must have:

1. Completed at least 75 credits;
2. Successfully completed or be currently enrolled in CSD 251;
3. Achieved a Western GPA (based on at least 12 credits) of 2.70 or higher. A grade of at least B- (2.70) in each of the core courses (CSD 251, 352, 354, and 356) may be substituted for the overall 2.70 GPA.

As stated in the section regarding general university academic policies, "any grade below a C- is unacceptable in the student's major or minor." In the Communication Sciences and Disorders Department students also are required to complete each prerequisite course with a grade of C- or better before enrolling in the courses for which that serves as a prerequisite.

Other Departmental Information

Essential Functions/Technical Standards of Degree Programs in Communication Sciences and Disorders Admission, Retention and Graduation Standards

Introduction

The graduate degree in Communication Sciences and Disorders is recognized as a broad degree requiring the acquisition of general knowledge and basic skills in all applicable domains of speech and hearing sciences. The education of speech-

language pathologists and audiologists requires assimilation of knowledge, acquisition of skills and development of judgment through academic and clinical experience in preparation for independent and appropriate decisions required in practice. The current practices of speech-language pathology and audiology emphasizes collaboration among speech-language pathologists, audiologists, other health care and education professionals, the patient/client, and the patient/client's family.

Policy

The accredited graduate program in speech-language pathology of the Department of Communication Sciences and Disorders (CSD) at Western Washington University adheres to the standards and guidelines of the Council of Academic Accreditation in Audiology and Speech-Language Pathology. Within these guidelines, the CSD program has the freedom and ultimate responsibility for: the selection of students; the design, implementation, and evaluation of the curriculum; the evaluation of student progress; and, the determination of who should be awarded a degree. Admission and retention decisions are based not only on satisfactory academic achievement, but also on other academic factors that serve to ensure that the candidate can complete the essential functions of the program required for graduation.

The Department has a responsibility to the public that its graduates can become fully competent and caring speech-language pathologists and audiologists, capable of doing benefit and not harm. Thus, it is important that persons admitted possess the intelligence, integrity, compassion, humanitarian concern, and physical and emotional capacity necessary to practice speech-language pathology and/or audiology.

The Department of Communication Sciences and Disorders, as part of the College of Humanities and Social Sciences at Western Washington University is committed to the principle of equal opportunity. The University, College, and Department do not discriminate on the basis of race, color, creed, religion, national origin, sex, disability, age, veteran status, sexual orientation, gender identity or expression, marital status, pregnancy, parenting status or genetic information. The University, College, and Department are committed to providing access, equal opportunity, and reasonable accommodation in its services, programs, activities, education, and employment for individuals with disabilities.

When requested, the University will provide reasonable accommodation to otherwise qualified students with properly certified disabilities. Students with disabilities requesting

accommodations utilize the disAbility Resources for Students, drs@wwu.edu. More information can be found at: www.wwu.edu/disability/.

The CSD Department's faculty and professional staff have responsibility for the welfare of students in the Department. In order to fulfill this responsibility, the Department has established academic standards and minimum essential requirements that must be met with or without reasonable accommodations in order to participate in the program and graduate.

Essential Functions

In order to acquire the knowledge and skills requisite to the practice of speech-language pathology to function in a broad variety of clinical situations, and to render a wide spectrum of patient care, individuals must have skills and attributes in five areas: communication, motor, intellectual-cognitive sensory-observational, and behavioral-social. These skills enable a student to meet graduate and professional requirements as measured by state licensure and national certification. Many of these skills can be learned and developed during the course of the graduate program through coursework and clinical experience. The starred items (*), however, are skills that are more inherent and should be present when a student begins the program.

Communication

A student must possess adequate communication skills to:

- Communicate proficiently in both oral and written English language.
- (Language to be determined by program.)*
- Possess reading and writing skills sufficient to meet curricular and clinical demands.*
- Perceive and demonstrate appropriate non-verbal communication for culture and context.*
- Modify communication style to meet the communication needs of clients, caregivers, and other persons served. *
- Communicate professionally and intelligibly with patients, colleagues, other healthcare professionals, and community or professional groups.
- Communicate professionally, effectively, and legibly on patient documentation, reports, and scholarly papers required as a part of course work and professional practice.
- Convey information accurately with relevance and cultural sensitivity.

COMMUNICATION SCIENCES AND DISORDERS

Motor

A student must possess adequate motor skills to:

- Sustain necessary physical activity level in required classroom and clinical activities.*
- Respond quickly to provide a safe environment for clients in emergency situations including fire, choking, etc.*
- Access transportation to clinical and academic placements.*
- Participate in classroom and clinical activities for the defined workday.*
- Efficiently manipulate testing and treatment environment and materials without violation of testing protocol and with best therapeutic practice.
- Manipulate patient-utilized equipment (e.g. durable medical equipment to include AAC devices, hearing aids, etc.) in a safe manner.
- Access technology for clinical management (i.e. billing, charting, therapy programs, etc.)

Intellectual/Cognitive

A student must possess adequate intellectual and cognitive skills to:

- Comprehend, retain, integrate, synthesize, infer, evaluate and apply written and verbal information sufficient to meet curricular and clinical demands.*
- Identify significant findings from history, evaluation, and data to formulate a diagnosis and develop a treatment plan.
- Solve problems, reason, and make sound clinical judgments in patient assessment, diagnostic and therapeutic plan and implementation.
- Self-evaluate, identify, and communicate limits of one's own knowledge and skill to appropriate professional level and be able to identify and utilize resources in order to increase knowledge.
- Utilize detailed written and verbal instruction in order to make unique and dependent decisions.

Sensory/Observational

A student must possess adequate sensory skills of vision, hearing, tactile, and smell to:

- Visually and auditorily identify normal and disordered (fluency, articulation, voice, resonance, respiration characteristics, oral and written language in the areas of

semantics, pragmatics, syntax, morphology and phonology, hearing and balance disorders, swallowing cognition, social interaction related to communication).

- Identify the need for alternative modalities of communication.
- Visualize and identify anatomic structures.
- Visualize and discriminate imaging findings.
- Identify and discriminate findings on imaging studies.
- Discriminate text, numbers, tables, and graphs associated with diagnostic instruments and tests.
- Recognize when a client's family does or does not understand the clinician's written and or verbal communication.

Behavioral/Social

A student must possess adequate behavioral and social attributes to:

- Display mature empathetic and effective professional relationships by exhibiting compassion, integrity, and concern for others.*
- Recognize and show respect for individuals with disabilities and for individuals of different ages, genders, race, religions, sexual orientation, and cultural and socioeconomic backgrounds.*
- Conduct oneself in an ethical and legal manner, upholding the ASHA Code of Ethics and university and federal privacy policies.*
- Maintain general good physical and mental health and self-care in order not to jeopardize the health and safety of self and others in the academic and clinical setting.*
- Adapt to changing and demanding environments (which includes maintaining both professional demeanor and emotional health).
- Manage the use of time effectively to complete professional and technical tasks within realistic time constraints.
- Accept appropriate suggestions and constructive criticism and respond by modification of behaviors.
- Dress appropriately and professionally.

Writing Proficiency Guidelines

Majors in Communication Sciences and Disorders must complete a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-. Students must meet with an undergraduate advisor no later than the fourth week of winter quarter of the junior year to file a plan of study. The plan of study will include signing up for specific writing proficiency courses and labs.

Graduate Study

For a concentration leading to the Master of Arts degree or the Clinical Doctorate degree in Audiology, see the Graduate School section of this catalog.

Bachelor of Arts

Communication Sciences and Disorders, BA

Communication Sciences and Disorders, College of Humanities and Social Sciences

63 Credits

Introduction

Communication Sciences and Disorders includes two disciplines, Speech-Language Pathology and Audiology, which have developed out of a concern for people with communication disorders. The academic and clinical curriculum at the undergraduate level includes a wide range of courses and clinical practicum opportunities. Students study normal communication processes and disorders. Courses in normal processes include Language Development, Speech Acoustics, Hearing Science, and Anatomy and Physiology. Courses regarding disorders cover Language Disorders, Phonological Disorders, and Hearing Disorders, for example. The undergraduate education prepares students to pursue a graduate degree. A master's degree in Speech-Language Pathology or a clinical doctorate degree in Audiology and certification at the national level are required to engage in professional practice.

Why Consider a Communications Sciences and Disorders Major?

Many people easily talk with family, friends, and colleagues every day. Although we often take language, speech, and hearing for granted, these processes are extraordinarily complex. Furthermore, anyone at any age can be affected by illness or injury that will impair the ability to talk or hear. In fact, one out of every six Americans has a communication disorder. Each one can be helped in some way by a speech-language pathologist, audiologist, or speech, language, and hearing scientist.

Grounded in the latest scientific theories and research, CSD students learn to assess and treat persons with communication disorders — from infants to the elderly. In labs students have access to state-of-the-art equipment and analysis procedures as they study sound, speech, language, and hearing. Speech-language pathologists and audiologists make a positive contribution to people's lives. With the changing makeup of our population comes the need for speech-language-hearing professionals who are skilled in working in a complex

COMMUNICATION SCIENCES AND DISORDERS

and diverse society. For people with the proper education and flexibility, employment prospects are excellent. Opportunities and challenges await you!

How to Declare (Admission and Declaration Process):

Admissions: To declare the major, students must have completed the following requirements:

- Completed at least 75 credits
- Successfully completed or be currently enrolled in CSD 251
- Achieved a Western GPA (based on at least 12 credits) of 2.7 or higher (A grade of at least B- (2.7) in each of the core courses (CSD 251, 352 and 354) may substitute for the overall 2.7 GPA)

Application deadlines: Students must begin the lock-step major in the fall quarter (usually the junior year) in order to complete the series of required courses within two years.

Advising Tips: Enroll in CSD 251 to learn more about this major. Students must complete at least one course in Biological Sciences, Social/Behavioral Sciences, Physical Sciences, and Mathematics during undergraduate study to meet certification requirements. Contact a CSD undergraduate advisor with questions.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 251 - Introduction to Communication Disorders **Credits:** 3
- CSD 352 - Anatomy and Physiology of Speech Mechanisms **Credits:** 5
- CSD 353 - Speech Science **Credits:** 5
- CSD 354 - Speech and Language Development in Children **Credits:** 4
- CSD 356 - Phonetics and Phonology **Credits:** 4
- CSD 361 - Developmental Language Disorders **Credits:** 5
- CSD 371 - Hearing Science **Credits:** 3
- CSD 372 - Anatomy, Physiology, and Disorders of Hearing and Balance **Credits:** 4
- CSD 450 - Neuroanatomy for Speech Pathology and Audiology **Credits:** 4
- CSD 453 - Introduction to Speech Disorders **Credits:** 5
- CSD 457 - Clinical Processes **Credits:** 5
- CSD 458 - Application of Clinical Processes to CSD **Credits:** 3
- CSD 459 - Lab: Beginning Clinical Practice in Speech-Language Therapy **Credits:** 1
- CSD 462 - Audiometric Testing **Credits:** 4
- CSD 463 - Aural Rehabilitation **Credits:** 4

- ❑ CSD 470 - Acquired Disorders of Language and Cognition in Adults **Credits:** 3
- ❑ LIBR 403 - Research Tutorial **Credits:** 1-4
- ❑ CSD 401 - Writing Lab **Credits:** 2
- ❑ Electives under departmental advisement
- ❑ Required minor of 24 credit or more.

Master of Arts

Speech-Language Pathology, Non-Thesis Option, MA

Department of Communication Sciences and Disorders, College of Humanities and Social Sciences

Graduate Faculty

Evans, David L., PhD, speech-language pathology, stuttering, speech science, communication in virtual environments.

Evans, Kelli J., PhD, speech-language pathology, adult neurogenic disorders, cognitive-communication disorders.

Fraas, Michael R., PhD, speech-language pathology, adult neurogenic disorders, cognitive disorders, dysphagia.

Peters, Kimberly A., PhD, audiology, pediatric audiology, auditory physiology, aural (re)habilitation, cochlear implants, social cognition, social competence.

Thistle, Jennifer, PhD, speech-language pathology, alternative and augmentative communication, child language, autism spectrum disorders.

Graduate Program Faculty Advisor: Kelli Evans, PhD, AI 388, 360-650-6299

Graduate Program Coordinator: Karen-Margrethe Bruun, AI 380, 360-650-3197

Goals

The objectives of the program in Speech-Language Pathology are to prepare competent entry-level professionals in speech-language pathology and to prepare students for advanced study at the PhD level. The program includes an internship taken after other academic and clinical requirements have been completed.

Speech-language pathology is a discipline which has developed out of a concern for people with communication disorders. Preparation leading to a degree in communication sciences and disorders includes a wide range of course work and a variety of clinical practicum opportunities working with the infant through geriatric populations.

Students who intend to seek employment in this profession, whether in a public school, clinic, rehabilitation center or hospital setting, are advised that certification/licensure at the state and/or national levels is required. Out-of-state students should recognize that other requirements may exist for employment in different geographic locations.

Prerequisites

Students must have completed an undergraduate major in Communication Sciences and Disorders (CSD) or an equivalent professional core curriculum. The BA or BS in Communication Sciences and Disorders (Speech Pathology and Audiology) must have been completed within the past five years in order to be considered as an applicant for the graduate program in CSD. Grade point average requirements are consistent with those of the Graduate School. Students must have completed the Graduate Record Exam.

Students who are not native speakers of English must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL or IELTS, taken within one year of the date of application. A minimum composite score of 600 is required for the paper-based test; the scaled score for the computer-based test is 250; the Internet-based minimum score is 100. The TOEFL Internet-based minimum score is 100 and the IELTS is 7. The TOEFL scores must be on file in the Graduate School prior to receipt of the application for graduate study.

COMMUNICATION SCIENCES AND DISORDERS

ASHA Standards

IV-A: The applicant must demonstrate knowledge of the principles of biological sciences, physical sciences, statistics, and the social/behavioral sciences.

Implementation: The applicant must have transcript credit (which could include course work, advanced placement, CLEP, or examination of equivalency) for each of the following areas: biological sciences, physical sciences, social/behavioral sciences, and statistics. Appropriate course work may include human anatomy and physiology, neuroanatomy and neurophysiology, genetics, physics, inorganic and organic chemistry, psychology, sociology, and anthropology. The intent of this standard is to require students to have a broad liberal arts and science background. Courses in biological and physical sciences specifically related to communication sciences and disorders may not be applied for certification purposes in this category. In addition to transcript credit, applicants may be required by their graduate program to provide further evidence of meeting this requirement.

The Graduate Program Advisor will review the student's transcript during the first quarter of graduate work and if any of the above course work needs to be completed, the student will be advised to do so, as an overload, before graduation.

Application Information

Enrollment is limited to 20 new graduate students per year.

Admit Quarter: Fall quarter only. The communication sciences and disorders program is a lock-step program which offers courses in sequence once a year beginning in the fall.

Deadline: Application deadline is January 15.

TA Deadline: Application deadline is January 15.

Specific Test Requirements: Graduate Record Exam. (No test scores are required if an applicant holds an advanced degree — MA, MS, PhD.)

Supporting Materials:

- Application with \$100 fee (subject to change)
- Three recent letters of reference
- One official transcript from every school attended (no more than two years old)
- One-page statement of purpose
- One-page résumé

Program Requirements (78-79 credits)

- CSD 502 - Research Methods in Communication Sciences and Disorders **Credits:** 4
- CSD 510 - Assessment and Treatment of Resonance Disorders **Credits:** 2
- CSD 515 - Seminar: Phonology **Credits:** 4
- CSD 541 - Professional Issues in Speech-Language Pathology **Credits:** 3
- CSD 542 - Adult and Pediatric Dysphagia **Credits:** 4
- CSD 546 - Strategies for Assessment in CSD **Credits:** 1
- CSD 549 - Clinical Practicum **Credits:** 2
- CSD 550 - Voice Disorders and Therapy **Credits:** 4
- CSD 552 - Assessment Practicum in Speech-Language Pathology **Credits:** 2
- CSD 553 - Seminar: Preschool Language Development and Disorders **Credits:** 4
- CSD 554 - Stuttering **Credits:** 5
- CSD 555 - Seminar: Language Disorders in the School Age Child **Credits:** 4
- CSD 556 - Assessment and Treatment of Aphasia & Related Acquired Language Disorders **Credits:** 5
- CSD 558 - Graduate Clinical Practice in Speech-Language Pathology **Credits:** 1-3 (students must take for a total of 6 credits)

COMMUNICATION SCIENCES AND DISORDERS

- CSD 560 - Speech-Language Pathology Practicum **Credits:** 2
- CSD 564 - Advanced Clinical Practice in Aural Rehabilitation **Credits:** 2
- CSD 575 - Counseling in Communication Disorders **Credits:** 3
- CSD 576 - Cognitive Communication Disorders **Credits:** 4
- CSD 585 - Neuromotor Speech Disorders **Credits:** 4
- CSD 588 - Seminar in Augmentative and Alternative Communication **Credits:** 3
- CSD 599 - Intern Speech/Lang Path **Credits:** 8
- Select one of the following courses:
 - CSD 580 - Communication Disorders in the Public Schools **Credits:** 3 (Required for students intending to apply for Washington state CSD certificate.)
 - CSD 582 - Medical Speech Pathology **Credits:** 2
- Optional Electives:
 - CSD 559 - Speech-Language Pathology Practicum **Credits:** 2
 - CSD 592 - Seminar in Autism **Credits:** 3
 - CSD 598 - Internship in Speech-Language Pathology or Audiology **Credits:** 1-4
 - CSD 691 - Non-Thesis Option **Credits:** 3

Additional Information

Clinical Competence

In addition to meeting academic requirements, students specializing in speech-language pathology must demonstrate satisfactory competence in diagnostic and clinical practica. Refer to course description for additional information. No student in CSD may participate as a primary clinician in the clinic or an internship until cleared a criminal background check. Clearance is valid for specified time frames. Procedure and fee information are provided to students upon acceptance into the graduate program. At times, the requirements for the completion of clinical practicum courses may fall outside the regular University calendar. Contact the department for further details.

Students are permitted to retake a clinical practicum only once. If a satisfactory grade is not achieved in the retake, students will not be permitted to continue in the practicum courses.

Not everyone is suited to work with clients in the clinical fields of speech-language pathology and audiology even though the student may maintain a satisfactory academic record. The faculty and staff of the Department of Communication Sciences and Disorders thus reserve the right to counsel students with this in mind, and to recommend a change of academic focus for the student who appears to have personality traits that would prevent the student from being successful in the discipline.

Internship

An internship is required for all CSD students. This experience provides an opportunity for each student to refine and expand basic clinical skills by participating in a supervised, full-time work experience in a professional setting. The terminal objective of this training phase is to facilitate each clinician's transition from student in training to competent entry-level professional. As such, the internship is taken after other academic and clinical requirements have been completed with the exception of the research project. In addition to the required full-time internship (CSD 599), students also may choose to complete one or more part-time internships (CSD 598). Both the full-time and part-time placements require assignment to clinical settings off campus (e.g., schools, hospitals, private clinics, et cetera).

Accreditation

The graduate program in speech-language pathology at Western Washington University is accredited by the Council of Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language Hearing Association and by the National Council for the Accreditation of Teacher Education.

Professional Certification Requirements

COMMUNICATION SCIENCES AND DISORDERS

The American Speech-Language-Hearing Association (ASHA) 2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology stipulate the completion of 400 clock hours of practicum. Of these hours, at least 375 must be direct patient contact, at least 325 of which must be obtained at the graduate level. The requirement is met by taking an appropriate number of practicum credits (see application information above). Consult the department about specific requirements regarding clinical experience in the area in which the certificate is sought. Consult the ASHA Membership and Certification Handbook for details.

Speech-Language Pathology, Thesis Option, MA

Department of Communication Sciences and Disorders, College of Humanities and Social Sciences

Graduate Faculty

Darling, Rieko M., PhD, audiology, amplification, geriatrics, central auditory processing disorders, aural rehabilitation.

Evans, David L., PhD, speech-language pathology, stuttering, speech science, communication in virtual environments.

Evans, Kelli J., PhD, speech-language pathology, adult neurogenic disorders, cognitive-communication disorders.

Fraas, Michael R., PhD, speech-language pathology, adult neurogenic disorders, cognitive disorders, dysphagia

Peters, Kimberly A., PhD, audiology, pediatric audiology, auditory physiology, aural (re)habilitation, cochlear implants, social cognition, social competence.

Thistle, Jennifer, PhD, speech-language pathology, alternative and augmentative communication, child language, autism spectrum disorders.

Graduate Program Faculty Advisor: Kelli Evans, PhD, AI 388, 360-650-6299

Graduate Program Coordinator: Karen-Margrethe Bruun, AI 380, 360-650-3197

Goals

The objectives of the program in Speech-Language Pathology are to prepare competent entry-level professionals in speech-language pathology and to prepare students for advanced study at the PhD level. The program includes an internship taken after other academic and clinical requirements have been completed.

Speech-language pathology is a discipline which has developed out of a concern for people with communication disorders. Preparation leading to a degree in communication sciences and disorders includes a wide range of course work and a variety of clinical practicum opportunities working with the infant through geriatric populations.

Students who intend to seek employment in this profession, whether in a public school, clinic, rehabilitation center or hospital setting, are advised that certification/licensure at the state and/or national levels is required. Out-of-state students should recognize that other requirements may exist for employment in different geographic locations.

Prerequisites

Students must have completed an undergraduate major in Communication Sciences and Disorders (CSD) or an equivalent professional core curriculum. The BA or BS in Communication Sciences and Disorders (Speech Pathology and Audiology) must have been completed within the past five years in order to be considered as an applicant for the graduate program in CSD. Grade point average requirements are consistent with those of the Graduate School. Students must have completed the Graduate Record Exam, General Test or REVISED General Test beginning August 2011.

Students who are not native speakers of English must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL, taken within one year of the date of application. A minimum composite score of 600 is required for the paper-based test; the scaled score

COMMUNICATION SCIENCES AND DISORDERS

for the computer-based test is 250; the Internet-based minimum score is 100. The TOEFL scores must be on file in the Graduate School prior to receipt of the application for graduate study.

ASHA Standards

IV-A: The applicant must demonstrate knowledge of the principles of biological sciences, physical sciences, statistics, and the social/behavioral sciences.

Implementation: The applicant must have transcript credit (which could include course work, advanced placement, CLEP, or examination of equivalency) for each of the following areas: biological sciences, physical sciences, social/behavioral sciences, and statistics. Appropriate course work may include human anatomy and physiology, neuroanatomy and neurophysiology, genetics, physics, inorganic and organic chemistry, psychology, sociology, and anthropology. The intent of this standard is to require students to have a broad liberal arts and science background. Courses in biological and physical sciences specifically related to communication sciences and disorders may not be applied for certification purposes in this category. In addition to transcript credit, applicants may be required by their graduate program to provide further evidence of meeting this requirement.

The Graduate Program Advisor will review the student's transcript during the first quarter of graduate work and if any of the above course work needs to be completed, the student will be advised to do so, as an overload, before graduation.

Application Information

Enrollment is limited to 20 new graduate students per year.

Admit Quarter: Fall quarter only. The communication sciences and disorders program is a lock-step program which offers courses in sequence once a year beginning in the fall.

Deadline: Application deadline is January 15.

TA Deadline: Application deadline is January 15.

Specific Test Requirements: Graduate Record Exam. (No test scores are required if an applicant holds an advanced degree — MA, MS, PhD.)

Supporting Materials:

- Application with \$100 fee (subject to change)
- Three recent letters of reference
- One official transcript from every school attended (no more than two years old)
- One-page statement of purpose
- One-page résumé

Program Requirements (83-88 credits)

- CSD 502 - Research Methods in Communication Sciences and Disorders **Credits:** 4
- CSD 510 - Assessment and Treatment of Resonance Disorders **Credits:** 2
- CSD 515 - Seminar: Phonology **Credits:** 4
- CSD 541 - Professional Issues in Speech-Language Pathology **Credits:** 3
- CSD 542 - Adult and Pediatric Dysphagia **Credits:** 4
- CSD 546 - Strategies for Assessment in CSD **Credits:** 1
- CSD 549 - Clinical Practicum **Credits:** 2
- CSD 550 - Voice Disorders and Therapy **Credits:** 4
- CSD 552 - Assessment Practicum in Speech-Language Pathology **Credits:** 2
- CSD 553 - Seminar: Preschool Language Development and Disorders **Credits:** 4
- CSD 554 - Stuttering **Credits:** 5
- CSD 555 - Seminar: Language Disorders in the School Age Child **Credits:** 4

COMMUNICATION SCIENCES AND DISORDERS

- CSD 556 - Assessment and Treatment of Aphasia & Related Acquired Language Disorders **Credits:** 5
- CSD 558 - Graduate Clinical Practice in Speech-Language Pathology **Credits:** 1-3 (students must take for a total of 6 credits)
- CSD 560 - Speech-Language Pathology Practicum **Credits:** 2
- CSD 564 - Advanced Clinical Practice in Aural Rehabilitation **Credits:** 2
- CSD 575 - Counseling in Communication Disorders **Credits:** 3
- CSD 576 - Cognitive Communication Disorders **Credits:** 4
- CSD 585 - Neuromotor Speech Disorders **Credits:** 4
- CSD 588 - Seminar in Augmentative and Alternative Communication **Credits:** 3
- CSD 599 - Intern Speech/Lang Path **Credits:** 8
- CSD 690 - Thesis **Credits:** 1-9 (students must take for a total of 6-9 credits)
- Select one of the following courses:
 - CSD 580 - Communication Disorders in the Public Schools **Credits:** 3 (Required for students intending to apply for Washington state CSD certificate.)
 - CSD 582 - Medical Speech Pathology **Credits:** 2
- Optional Electives:
 - CSD 559 - Speech-Language Pathology Practicum **Credits:** 2
 - CSD 592 - Seminar in Autism **Credits:** 3
 - CSD 598 - Internship in Speech-Language Pathology or Audiology **Credits:** 1-4

Additional Information

Clinical Competence

In addition to meeting academic requirements, students specializing in speech-language pathology must demonstrate satisfactory competence in diagnostic and clinical practice. Refer to course description for additional information. No student in CSD may participate as a primary clinician in the clinic or an internship until cleared by a criminal background check. Procedure and fee information are provided to students upon acceptance into the graduate program. At times, the requirements for the completion of clinical practicum courses may fall outside the regular University calendar. Contact the department for further details.

Students are permitted to retake a clinical practicum only once. If a satisfactory grade is not achieved in the retake, students will not be permitted to continue in the practicum courses.

Not everyone is suited to work with clients in the clinical fields of speech-language pathology and audiology even though the student may maintain a satisfactory academic record. The faculty and staff of the Department of Communication Sciences and Disorders thus reserve the right to counsel students with this in mind, and to recommend a change of academic focus for the student who appears to have personality traits that would prevent the student from being successful in the discipline.

Internship

An internship is required for all CSD students. This experience provides an opportunity for each student to refine and expand basic clinical skills by participating in a supervised, full-time work experience in a professional setting. The terminal objective of this training phase is to facilitate each clinician's transition from student in training to competent entry-level professional. As such, the internship is taken after other academic and clinical requirements have been completed with the exception of the research project. In addition to the required full-time internship (CSD 599), students also may choose to complete one or more part-time internships (CSD 598). Both the full-time and part-time placements require assignment to clinical settings off campus (e.g., schools, hospitals, private clinics, et cetera).

Thesis

Students will complete a thesis project with a faculty advisor followed by an oral examination based on the student's topic. For details regarding the thesis process, timeline, and oral defense, the student should consult the Graduate Program Advisor. Any recent policy/procedure changes or exceptions will be listed in the current CSD Graduate Guide.

Accreditation

The graduate program in speech-language pathology at Western Washington University is accredited by the Council of Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language Hearing Association and by the National Council for the Accreditation of Teacher Education.

Professional Certification Requirements

The American Speech-Language-Hearing Association (ASHA) 2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology stipulate the completion of 400 clock hours of practicum. Of these hours, at least 375 must be direct patient contact, at least 325 of which must be obtained at the graduate level. The requirement is met by taking an appropriate number of practicum credits (see application information above). Consult the department about specific requirements regarding clinical experience in the area in which the certificate is sought. Consult the ASHA Membership and Certification Handbook for details.

Minor

Audiology Minor (In Moratorium)

Department of Communication Sciences & Disorders, College of Humanities and Social Sciences

Notice: The Department of Communication Sciences and Disorders at Western Washington University admitted its last audiology minor students fall 2013. The department placed a moratorium on admission until further notice. Please contact the department for more information.

Declaration of Major

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 381 - Physiological and Psychological Bases of Hearing **Credits:** 3
- CSD 464 - Clinical Practice in Aural Rehabilitation **Credits:** 2
- CSD 468 - Clinical Practicum in Audiology **Credits:** 2
- CSD 482 - Clinical Hearing Technology **Credits:** 3
- CSD 483 - Amplification and Sensory Systems **Credits:** 3
- CSD 485 - Children With Hearing Loss in School **Credits:** 3
- CSD 487 - Fundamentals of Hearing Conservation **Credits:** 3
- Electives from:
 - CSD 400 - Directed Independent Study **Credits:** 1-15
 - CSD 491 - Senior Research Project **Credits:** 2
 - CSD 499 - Field Placement/Observation in Speech-Language Pathology or Audiology **Credits:** 1-6
 Meeting with CSD advisor required before registering for audiology minor.

COMMUNICATION SCIENCES AND DISORDERS

Communication Sciences and Disorders Minor

Department of Communication Sciences and Disorders, College of Humanities and Social Sciences

27-28 credits

Introduction

The academic and clinical curriculum at the undergraduate level includes a wide range of courses. Students study normal communication processes and disorders. Courses in normal processes include Language Development, Speech Acoustics, Hearing Science, and Anatomy and Physiology. Courses regarding disorders cover Language Disorders, Phonological Disorders, and Hearing Disorders, for example. Students start the minor program in the fall and follow the four quarter lockstep for required and elective courses for the minor.

Why Consider a Communication Sciences and Disorders Minor?

Students who are interested in learning more about typical speech, language, and hearing development, processes and disorders but who do not want to complete a major in Communication Sciences and Disorders can minor in CSD. The CSD minor supplements many other majors and programs of study, such as psychology, linguistics, and early childhood and special education.

WWU (Non-Degree)

Communication Sciences and Disorders Post-Baccalaureate Preparation Program

COMMUNICATION SCIENCES AND DISORDERS

Communication Sciences and Disorders, College of Humanities and Social Sciences

50 Credits

Introduction

The Department of Communication Sciences and Disorders offers a post-baccalaureate program for students interested in pursuing a graduate degree in Speech-Language Pathology or Audiology. Such students currently hold a degree outside the discipline of speech, language, and hearing science. The program is a 4-quarter lockstep program beginning fall quarter. Courses are taken sequentially through the year, including summer quarter.

The program is administered by the Extended Education division of Western Washington University. It is important to note that acceptance into this post-baccalaureate program does not guarantee admission to the graduate program. Completion of the Western Washington University post-baccalaureate program qualifies students for consideration for admission to our master's program in Speech-Language Pathology or similar graduate programs in other universities.

How to Declare (Admission and Declaration Process):

If you are interested in applying to the post-baccalaureate program, please contact Jenny Hebert, 360-650-7780, for an application packet.

Admissions and Application Requirements:

- An undergraduate degree in a major other than speech pathology/audiology
- A completed application form
- Resume (font size no smaller than 11 and one-inch margins for all materials)
- A copy of a sealed official transcript from each college or university attended
- Three letters of recommendation
- A one-page statement of purpose
- A non-refundable \$60 application fee made out to WWU
- Review and recommendation by the CSD faculty

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- CSD 251 - Introduction to Communication Disorders **Credits: 3**
- CSD 352 - Anatomy and Physiology of Speech Mechanisms **Credits: 5**
- CSD 353 - Speech Science **Credits: 5**
- CSD 354 - Speech and Language Development in Children **Credits: 4**
- CSD 356 - Phonetics and Phonology **Credits: 4**
- CSD 361 - Developmental Language Disorders **Credits: 5**
- CSD 371 - Hearing Science **Credits: 3**
- CSD 372 - Anatomy, Physiology, and Disorders of Hearing and Balance **Credits: 4**

CSD 460 - Assess & Intervention in CSD **Credits:** 4

CSD 462 - Audiometric Testing **Credits:** 4

CSD 463 - Aural Rehabilitation **Credits:** 4

LIBR 403 - Research Tutorial **Credits:** 1-4

Clinical Doctorate

Clinical Doctorate in Audiology, AuD

Department of Communication Sciences and Disorders, College of Humanities and Social Sciences

Please note that the Clinical Doctorate in Audiology, AuD program has been approved by Western Washington University and the Northwest Commission on Colleges and Universities: the first student cohort enrolled for the 2017-18 academic year. The Clinical Doctoral (AuD) program in Audiology at Western Washington University is a Candidate for Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association. This is a "pre-accreditation" status with the CAA, awarded to developing or emerging programs for a maximum period of five years.

Graduate Faculty

Darling, Rieko M., PhD, audiology, amplification, geriatrics, central auditory processing disorders, aural rehabilitation.

Diedesch, Anna C., AuD, PhD, audiology, amplification, binaural hearing, psychoacoustics, central auditory processing, auditory neurophysiology.

Peters, Kimberly A., PhD, audiology, pediatric audiology, auditory physiology, aural (re)habilitation, cochlear implants, social cognition, social competence.

Sladen, Douglas P., AuD, PhD, audiology, cochlear implants, speech perception, aural habilitation and rehabilitation, auditory development, auditory aging.

AuD Graduate Program Director: Rieko Darling, AI 372, 360-650-3143.

Goals

The objectives of the clinical doctorate program in Audiology at Western Washington University are to prepare competent entry-level professionals in audiology and to prepare students for advanced study at the PhD level. The program is a full-time, four-year program. During the first three years of the program, students enroll in coursework and clinical practicum experiences developed and sequenced to provide knowledge and skills in the evidence-based diagnosis and treatment of hearing and balance disorders across the lifespan. The program culminates in a fourth year externship taken after other academic and clinical requirements have been completed.

Western Washington University also offers diagnostic and rehabilitative audiological services at its campus Speech-Language-Hearing Clinic. The Clinics at Western provide a unique educational opportunity to graduate students in both Audiology and Speech-Language Pathology while providing a valuable community service. Students who intend to seek employment in this profession, whether in a public school, clinic, rehabilitation center or hospital setting, are advised that certification/licensure at the state and/or national levels is required. Out-of-state students should recognize that other requirements may exist for employment in different geographic locations.

Prerequisites

Students must have completed an undergraduate major in Communication Sciences and Disorders (CSD) or an equivalent professional core curriculum. The BA or BS in Communication Sciences and Disorders (Speech Pathology and Audiology) must have been completed within the past five years in order to be considered as an applicant for the graduate program in CSD. Grade point average requirements are consistent with those of the Graduate School.

Students must have completed the Graduate Record Exam, General Test or REVISED General Test beginning August 2011. Students who are not native speakers of English must demonstrate competence in written and spoken English. This can be done by submitting a satisfactory score on the international TOEFL, taken within one year of the date of application. A minimum composite score of 600 is required for the paper-based test; the scaled score for the computer-based test is 250; the Internet-based minimum score is 100. The TOEFL scores must be on file in the Graduate School prior to receipt of the application for graduate study.

Application Information

Enrollment is limited to 12 new graduate students per year.

Admit Quarter: Fall quarter only. The clinical doctorate in audiology is a lock-step program that offers courses in sequence once a year beginning in the fall.

Deadline: Application priority deadling is February 1, rolling admissions through June 1 until cohort is full.

TA Deadline: Application deadline is February 1.

Specific Test Requirements: Graduate Record Exam, General Test or REVISED General Test beginning August 2011. (No test scores are required if an applicant holds an advanced degree — MA, MS, PhD.)

Supporting Materials:

- Application with \$100 fee (subject to change)
- Three recent letters of reference
- One official transcript from every school attended (no more than two years old)
- One-page statement of purpose
- One-page résumé

Requirements (159 credits)

- CSD 501 - Counseling in Audiology **Credits:** 3
- CSD 504 - Audiology Grand Rounds **Credits:** 1 (students must take for a total of 10 credits)
- CSD 505 - Audiology Clinical Levels **Credits:** 2 (students must take for a total of 8 credits)
- CSD 506 - Seminar: Professional Issues and Practices **Credits:** 3 (students must take for a total of 9 credits)
- CSD 507 - Capstone Project/Research Project **Credits:** 1-3 (students must take for a total of 9 credits)
- CSD 508 - Audiology Research Methods **Credits:** 4
- CSD 561 - Advanced Audiology I **Credits:** 3
- CSD 562 - Advanced Audiology II **Credits:** 3
- CSD 563 - Seminar: Aural Rehabilitation **Credits:** 5
- CSD 564 - Advanced Clinical Practice in Aural Rehabilitation **Credits:** 2 (students must take for a total of 16 credits)
- CSD 565 - Psychoacoustics **Credits:** 3
- CSD 566 - Auditory Neurophysiology **Credits:** 3
- CSD 567 - Seminar: Hearing Conservation **Credits:** 3
- CSD 568 - Advanced Clinical Practicum in Audiology **Credits:** 2 (students must take for a total of 16 credits)
- CSD 570 - Medical Audiology **Credits:** 4

- ❑ CSD 692 - Fourth Year Externship **Credits: 5** (students must take for a total of 20 credits)

Additional Information

Clinical Competence

In addition to meeting academic requirements, students specializing in audiology must demonstrate satisfactory competence in diagnosis and treatment of hearing and balance disorders across the lifespan. Refer to course description for additional information. No student in CSD may participate as a primary clinician in the clinic or on an internship until cleared by the Washington State Office of Superintendent of Public Instruction and the Federal Bureau of Investigation via a background check. Clearance is valid for specified time frames.

Procedure and fee information are provided to students upon acceptance into the graduate program. At times, the requirements for the completion of clinical practicum courses may fall outside the regular University calendar. Contact the department for further details. Students are permitted to retake a clinical practicum (CSD 564 and CSD 568) only once. If a grade of B is not achieved in the retake, students will not be permitted to continue in the practicum courses.

Not everyone is suited to work with clients in the clinical fields of speech-language pathology and audiology even though the student may maintain a satisfactory academic record. The faculty and staff of the Department of Communication Sciences and Disorders thus reserve the right to counsel students with this in mind, and to recommend a change of academic focus for the student who appears to have personality traits that would prevent the student from being successful in the discipline.

Internship

An internship is required for all CSD students. This experience provides an opportunity for each student to refine and expand basic clinical skills by participating in a supervised, full-time work experience in a professional setting. The terminal objective of this training phase is to facilitate each clinician's transition from student in training to competent entry-level professional. As such, the internship is taken after other academic and clinical requirements have been completed with the exception of the capstone project. In addition to the required full-time externship (CSD 692), students must also complete three part-time internships (CSD 596). Both the full-time and part-time placements require assignment to clinical settings off campus (e.g., schools, hospitals, private clinics, et cetera).

Audiology Clinical Levels

All graduate students are required to pass, with a "satisfactory" grade, four audiology clinical level examinations prior to completing the clinical doctorate degree in audiology. These clinical levels are administered at the end of each quarter beginning in the winter quarter of the first year (CSD 505).

Capstone Project

All graduate students are required to complete a capstone project prior to completing their clinical doctorate in audiology. Capstone projects carry variable credit and include research-based and non-research based projects.

Communication Sciences & Disorders Courses

CSD 210 - Communication and the Mind

This course provides a basic overview of our knowledge of language and what it can tell us about the nature of the mind, and vice versa. It explores theories of cognitive and language development and traces development from infancy to adolescence. It covers the structure of sentences (syntax), words (morphology), and sound shape (phonetics, phonology), and how these are typically acquired, mentally represented, and processed by humans. In addition, students learn about the relationships between social cognition (theory of mind), language, and social competence, discuss communication disorders and differences, and the social cognitive affects of communication disorders on children and adults.

Credits: 3

Grade Mode: Letter

GUR Attributes: SSC

CSD 251 - Introduction to Communication Disorders

An introduction to communication sciences and disorders. This course provides a basic overview of our knowledge and understanding about language, speech, hearing, and cognitive processes underlying communication. The course also includes discussion about communication disorders and differences, and highlights how neurodiversity, disorders, and differences impact social and cultural interactions across the lifespan.

Credits: 3

Grade Mode: Letter

GUR Attributes: SSC

CSD 253 - Speech and Hearing Sciences for the Liberal Arts

Basic concepts of speech production, speech acoustics, hearing and speech perception. Includes lab.

Credits: 4

Grade Mode: Letter

GUR Attributes: LSCI

CSD 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CSD 301 - Writing Lab

Instruction and practice in writing; includes opportunities for multi-drafting, revision, and reflection. Repeatable up to 2 credits.

Prerequisites & Notes: ENG 101.

Credits: 1

Grade Mode: Letter

CSD 352 - Anatomy and Physiology of Speech Mechanisms

Structure and function of organs concerned with respiration, phonation, resonance, and articulation.

Prerequisites & Notes: Junior or senior status, or permission of instructor.

Credits: 5

Grade Mode: Letter

CSD 353 - Speech Science

Acoustic and articulatory characteristics of the speech signal and their relation to speech production and perception. Lab required.

Prerequisites & Notes: junior standing, CSD 352, CSD 356, CSD 371

Credits: 5

Grade Mode: Letter

CSD 354 - Speech and Language Development in Children

Typical speech and language acquisition; its impact on the developing child; origins and growth of symbolic processes, developmental norms; factors influencing learning of language and speech.

Prerequisites & Notes: Junior or senior status or instructor permission.

Credits: 4

Grade Mode: Letter

CSD 356 - Phonetics and Phonology

Training in recognition and production of sounds of spoken English through use of the International Phonetic Alphabet. Explanation of phonology and phonological processes and clinical analysis of phonological processing errors. Lab required.

Prerequisites & Notes: Junior or senior status, or instructor permission.

Credits: 4

Grade Mode: Letter

CSD 361 - Developmental Language Disorders

Etiologies of language learning disabilities in children from birth through school age; diagnosis

COMMUNICATION SCIENCES AND DISORDERS

and treatment procedures for children with language-learning impairments.

Prerequisites & Notes: CSD 354.

Credits: 5

Grade Mode: Letter

CSD 370 - Adolescence and Young Adulthood in People with Autism

This course explores adolescence and young adulthood in people with autism. It will be primarily a lecture format with contributions from current college students with autism. Too often, 'experts' in the field of autism dispense information about people with autism reflecting a neurotypical perspective focused on deficits. Although identifying deficits can be helpful initially to receive a diagnosis and early intervention services, there should be a conscious shift during later childhood that builds on areas of strength and emphasizes the gifts that people with autism bring to society. In order to understand how autism more accurately affects people, we will be reading books and articles that were either written by people with autism, have a person with autism as the narrator, or contrast the largely negative historical view of autism with a current, positive neurodiverse approach.

Prerequisites & Notes: Junior Status; CSD 251 or PSY 101 or SPED 360.

Credits: 3

Grade Mode: Letter

CSD 371 - Hearing Science

Introduction to the nature of sound and its measurement. The structure and function of the auditory mechanism.

Prerequisites & Notes: CSD 352

Credits: 3

Grade Mode: Letter

CSD 372 - Anatomy, Physiology, and Disorders of Hearing and Balance

Structure, function, and disorders of auditory and balance mechanisms.

Credits: 4

Grade Mode: Letter

CSD 380 - Peer Mentorship for College Students with Autism

Service learning project designed to teach upper level neurotypical college students how to support and coach college students with autism. Areas of mentorship may include, but are not limited to: developing interpersonal relationships, understanding and coping with feelings of anxiety and stress, prioritizing academic coursework and assignments, navigating and accessing campus

programs, support and advocacy on campus across academic, social and living environments. Mentors will generally meet once per week with mentees, as well as once per week with Director. A one-year academic commitment is required in order to develop a solid relationship with your assigned mentee and minimize transitions and disruptions to service. Repeatable up to 12 credits including original course.

Prerequisites & Notes: Junior Status; CSD 251 or PSY 101 or SPED 360; CSD 370 with concurrency.

Credits: 2

Grade Mode: Letter

CSD 381 - Physiological and Psychological Bases of Hearing

The study of the structure and function of the auditory system. Analysis of significant theories in speech acoustics and speech perception. Examination of the effects of hearing impairment on speech perception.

Prerequisites & Notes: CSD 353, CSD 371 or instructor permission.

Credits: 3

Grade Mode: Letter

CSD 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CSD 401 - Writing Lab

Instruction and practice in writing; includes opportunities for multi-drafting, revision, and reflection.

Prerequisites & Notes: ENG 101.

Credits: 2

Grade Mode: Letter

CSD 450 - Neuroanatomy for Speech Pathology and Audiology

Normal and abnormal structures of the human nervous system as they pertain to speech, language and hearing. Particular emphasis on sensory and motor pathways, localization and lateralization.

Prerequisites & Notes: CSD 352 or equivalent; senior/graduate standing.

Credits: 4
Grade Mode: Letter

CSD 453 - Introduction to Speech Disorders

An introduction to the nature, assessment, and treatment of select speech disorders.

Prerequisites & Notes: CSD 352 and CSD 457.
Credits: 3
Grade Mode: Letter

CSD 457 - Clinical Processes

Current principles, methods and materials used in the assessment and treatment of a variety of communication disorders. Directed observation. Writing proficiency course.

Prerequisites & Notes: CSD 354, CSD 361, CSD 373, CSD 451
Credits: 5
Grade Mode: Letter

CSD 458 - Application of Clinical Processes to CSD

Application of the clinical processes to service delivery, documentation, administrative procedures, and professional writing.

Prerequisites & Notes: CSD 457, permission of instructor.
Credits: 3
Grade Mode: Letter

CSD 459 - Lab: Beginning Clinical Practice in Speech-Language Therapy

Assistant clinician experience. Lab required. S/U grading.

Prerequisites & Notes: CSD 458; minimum 25 hours documented speech-language pathology, audiology and/or aural rehabilitation observation; CSD 458, CSD 459 concurrent with instructor permission.
Credits: 1
Grade Mode: S/U

CSD 460 - Assess & Intervention in CSD

Current principles, methods, and application of research-based theories to a dynamic clinical process which includes identification, prevention, assessment, and intervention for communication disorders. Lab required.

Prerequisites & Notes: CSD 354, CSD 361, CSD 373, CSD 451
Credits: 4
Grade Mode: Letter

CSD 462 - Audiometric Testing

Introduction to the theory and application of pure tone, immittance and speech audiometry to the assessment of hearing function; implications for rehabilitation.

Prerequisites & Notes: CSD 371
Credits: 4
Grade Mode: Letter

CSD 463 - Aural Rehabilitation

Listening training, speech reading, orientation to amplification devices, and coping skills for the aurally handicapped.

Prerequisites & Notes: CSD 371
Credits: 4
Grade Mode: Letter

CSD 464 - Clinical Practice in Aural Rehabilitation

Supervised clinical practice in the (re)habilitation of the deaf and hard of hearing. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: CSD major with minor in audiology or instructor permission; CSD 458, CSD 459, CSD 463; minimum 25 hours of speech-language pathology/audiology/aural rehabilitation observation required.
Credits: 2
Grade Mode: S/U

CSD 466 - Medical Audiology

Pathologies of the hearing mechanism and their auditory manifestations. Discussion with physicians regarding diagnosis, referrals and report writing.

Prerequisites & Notes: CSD 371, CSD 462
Credits: 3
Grade Mode: Letter

CSD 468 - Clinical Practicum in Audiology

Supervised clinical practice in audiological evaluation. Repeatable to a maximum of 6 cr. S/U grading.

Prerequisites & Notes: CSD major with a minor in audiology or instructor permission; CSD 371, CSD 462; 25 hours of documented speech-language pathology/audiology/aural rehabilitation observations.
Credits: 2
Grade Mode: S/U

CSD 470 - Acquired Disorders of Language and Cognition in Adults

An overview of acquired disorders of language and cognition in adult and geriatric populations. The course will introduce students to basic language and cognitive processes; etiology, characteristics, and neuropathology of aphasia, TBI, right

COMMUNICATION SCIENCES AND DISORDERS

hemisphere disorder, and dementia; and principles of evidence-based practice.

Prerequisites & Notes: CSD 352 and CSD 457.

Credits: 3

Grade Mode: Letter

CSD 482 - Clinical Hearing Technology

Study of history, development, and use of emerging technologies and special clinical instrumentation for the evaluation of hearing, auditory function, and balance.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 483 - Amplification and Sensory Systems

Study of history, development, and use of amplification and other sensory devices for treatment of hearing loss and auditory processing deficits.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 485 - Children With Hearing Loss in School

This course will introduce the student to the needs of the hearing impaired child in the public school environment, the public school laws affecting the placement of such children, and the types of remediation that occur in this setting.

Prerequisites & Notes: CSD 352

Credits: 3

Grade Mode: Letter

CSD 486 - Infants and Children With Hearing Loss

Developmental milestones of auditory functions, implications of childhood hearing loss, and observation of pediatric assessment utilizing current evaluation techniques.

Prerequisites & Notes: CSD 371, CSD 462, or CSD 371 and permission of the instructor.

Credits: 3

Grade Mode: Letter

CSD 487 - Fundamentals of Hearing Conservation

Noise as a public health hazard. The effect of noise on hearing. Noise abatement, control and protection. Federal and state noise regulations and compensation for noise induced hearing loss (NIHL).

Prerequisites & Notes: CSD 371, CSD 462.

Credits: 3

Grade Mode: Letter

CSD 488 - Hearing Loss in Adulthood

Study of the nature and implications of hearing loss across the adult age spectrum. Anatomic and physiologic influences of aging on the auditory system and how these changes influence auditory function and communication will be highlighted.

Prerequisites & Notes: satisfactory completion of CSD 462 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 490 - Social, Political, Cultural Aspects of Communication Disorders

Introduction to social, political, and cultural forces impacting communication and communication disorders. Overview of theories and research tools that guide our observations of these forces. Emphasis on becoming culturally competent in providing educational and health care services to diverse client population.

Prerequisites & Notes: CSD 251, CSD 353, CSD 354, CSD 361, CSD 373, and CSD 451

Credits: 3

Grade Mode: Letter

CSD 491 - Senior Research Project

Research-based writing or field project under direction of faculty advisor. Must be taken Fall, Winter and Spring quarters of senior year for 2 credits each quarter. Repeatable to a maximum of 6 credits.

Prerequisites & Notes: satisfactory completion of CSD major courses or advisor permission

Credits: 2

Grade Mode: Letter

CSD 499 - Field Placement/Observation in Speech-Language Pathology or Audiology

Off-campus field experience in an approved setting designed to introduce students to management of communication disorders. Subject to availability of suitable site. Repeatable up to 6 credits. S/U grading.

Prerequisites & Notes: Completion of undergraduate major requirements and instructor permission.

Credits: 1-6

Grade Mode: S/U

CSD 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and

sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CSD 501 - Counseling in Audiology

Contemporary theories and techniques for counseling individuals with auditory and balance disorders.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 3

Grade Mode: Letter

CSD 502 - Research Methods in Communication Sciences and Disorders

Topics include research strategies and designs, measurement issues, evaluation criteria, treatment efficacy, and organization and analysis of data. Introduces students to group and single-subject research designs and qualitative research. Engages students in completing a research project.

Credits: 4

Grade Mode: Letter

CSD 503 - Professional Development in CSD

This course provides conference-based opportunities for practicing professionals to engage in learning about current research and treatment strategies on a variety of special education issues, including communication disorders. The courses are intended for the professional development of the conference attendee. The WWU credits may not be used as elective credits in a graduate degree program.

Prerequisites & Notes: Entry level degree in professional area of specialization.

Credits: 2

Grade Mode: S/U

CSD 504 - Audiology Grand Rounds

Student presentations of patient cases and clinical topics in audiology. Repeatable up to 10 credits including original course. S/U grading.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 1

Grade Mode: S/U

CSD 505 - Audiology Clinical Levels

Clinical competency assessment at each of four successive clinical levels. Repeatable up to 8 credits including original course. S/U grading.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 2

Grade Mode: S/U

CSD 506 - Seminar: Professional Issues and Practices

Current and future audiology practice models and related professional issues. The course will be taught in seminar format and across multiple quarters. Different professional issues and practice patterns will be addressed each quarter. Repeatable to a maximum of 12 credits including original course.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 3

Grade Mode: Letter

CSD 507 - Capstone Project/Research Project

Research based project or non-research project (i.e. treatise on clinical procedures relative to diagnosis or remediation, informational materials relevant for community workshops, instructional videos, interactive software, etc.). Repeatable up to 9 credits including original course.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 1-3

Grade Mode: Letter

CSD 508 - Audiology Research Methods

Introduction to research in the field of Audiology.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 4

Grade Mode: Letter

CSD 509 - Audiology Research Methods II

Topics include the scientific method, research strategies and designs, data collection and analysis, and interpretation of results.

Prerequisites & Notes: CSD 508.

Credits: 3

Grade Mode: Letter

CSD 510 - Assessment and Treatment of Resonance Disorders

A review of the etiologies and nature of cleft lip and palate and communication disorders associated with cleft lip and palate; and diagnostic and intervention approaches for treating cleft and non-cleft resonance disorders.

Prerequisites & Notes: CSD 352, CSD 450, CSD 459 or equivalent, or instructor permission.

COMMUNICATION SCIENCES AND DISORDERS

Credits: 2

Grade Mode: Letter

CSD 515 - Seminar: Phonology

Current topics and issues on typical and disordered phonology, and the phonological basis of reading and writing, with a special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 373 and graduate status.

Credits: 4

Grade Mode: Letter

CSD 540 - Essential Audiology for Speech Language Pathologists

Essential knowledge and skills required of speech-language pathologists in providing optimal clinical services to clients with hearing loss and auditory processing issues.

Prerequisites & Notes: CSD 462 and CSD 463, or permission of instructor.

Credits: 3

Grade Mode: Letter

CSD 541 - Professional Issues in Speech-Language Pathology

Current information regarding ethical and professional issues essential for Speech-Language Pathologist (SLP) practice in today's diverse and demanding work settings.

Prerequisites & Notes: Graduate status in CSD.

Credits: 3

Grade Mode: Letter

CSD 542 - Adult and Pediatric Dysphagia

Pathophysiology and evaluation of swallowing disorders; diagnostic evaluation and management/rehabilitation in adults, infants, and children.

Prerequisites & Notes: CSD 352; CSD 450; CSD 546; CSD 585; or instructor permission

Credits: 4

Grade Mode: Letter

CSD 546 - Strategies for Assessment in CSD

Discussion of the diagnostic processes including formal and informal assessment, report writing, and strategies for optimal assessment practices. S/U grading.

Prerequisites & Notes: Graduate status. CSD 549 or concurrent.

Credits: 1

Grade Mode: S/U

CSD 549 - Clinical Practicum

Initial graduate experience in supervised clinical practicum.

Prerequisites & Notes: CSD Graduate status

Credits: 2

Grade Mode: S/U

CSD 550 - Voice Disorders and Therapy

Pathological and psychological states affecting voice production. Functional psychogenic and organic problems of pitch, quality and loudness. Experience in diagnosis and evaluation of voice disorders. Developing techniques and learning methods for treatment and therapy. An introduction to cancer of the larynx and post laryngectomy rehabilitation. Lab required.

Prerequisites & Notes: CSD 351, CSD 352, CSD 450 or equivalent

Credits: 4

Grade Mode: Letter

CSD 552 - Assessment Practicum in Speech-Language Pathology

This class is an on-campus practicum using specialized methods, tests and instruments used in the assessment and evaluation of a variety of communication disorders.

Prerequisites & Notes: CSD 558; and instructor permission.

Credits: 2

Grade Mode: Letter

CSD 553 - Seminar: Preschool Language Development and Disorders

Current topics and issues on typical and disordered language in preschool children, as well as factors related to language development. Special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 354, CSD 361, CSD 515

Credits: 4

Grade Mode: Letter

CSD 554 - Stuttering

Analysis of current models and recent research on stuttering and cluttering disorders; chief rationale for therapy and evaluation of therapy procedures and results. Review and practice of clinical assessment and intervention.

Credits: 5

Grade Mode: Letter

CSD 555 - Seminar: Language Disorders in the School Age Child

Current topics and issues on typical and disordered language in school-age children, as well as

alternate treatment approaches for older children. Special emphasis on clinical implications of recent research findings.

Prerequisites & Notes: CSD 451, CSD 553
Credits: 4
Grade Mode: Letter

CSD 556 - Assessment and Treatment of Aphasia & Related Acquired Language Disorders

Facilitation of student knowledge and skill with multimodal acquired language impairments, including etiology, characteristics, neuroanatomical, psychological, linguistic, and cultural correlates. Includes differential diagnosis, assessment, and treatment methods. Focus on adult populations.

Credits: 5
Grade Mode: Letter

CSD 558 - Graduate Clinical Practice in Speech-Language Pathology

Supervised clinical practicum. Must be completed with a grade of B- or better. Repeatable to a maximum of 9 cr.

Prerequisites & Notes: Satisfactory completion of CSD 549 and permission of instructor.
Credits: 1-3
Grade Mode: Letter

CSD 559 - Speech-Language Pathology Practicum

Must be completed with a grade of B- or better.

Prerequisites & Notes: Permission of instructor.
Credits: 2
Grade Mode: Letter

CSD 560 - Speech-Language Pathology Practicum

Supervised clinical practicum. S/U grading. Offered summer only.

Prerequisites & Notes: CSD 549, CSD 558
Credits: 2
Grade Mode: S/U

CSD 561 - Advanced Audiology I

Study of basic auditory correlates and advanced diagnostic audiometric procedures.

Prerequisites & Notes: CSD 371, CSD 462; instructor permission
Credits: 3
Grade Mode: Letter

CSD 562 - Advanced Audiology II

Theory and application of advanced diagnostic audiometric procedures.

Prerequisites & Notes: CSD 561
Credits: 3
Grade Mode: Letter

CSD 563 - Seminar: Aural Rehabilitation

This course provides an overview of the psychosocial impact of auditory disorders on adults and children and their families, rehabilitation available for adults and children who are deaf or hard of hearing, and the effects of technology on therapy and teaching.

Prerequisites & Notes: CSD 463 or instructor permission.
Credits: 5
Grade Mode: Letter

CSD 564 - Advanced Clinical Practice in Aural Rehabilitation

Supervised practice in rehabilitation of individuals who are deaf or hard of hearing. Must be completed with a grade of B or better. Repeatable up to 16 credits including original course.

Prerequisites & Notes: CSD 458; CSD 459; CSD 463; permission of instructor, and a minimum of 25 hours of documented speech-language pathology/ audiology and rehabilitation observation.
Credits: 2
Grade Mode: Letter

CSD 565 - Psychoacoustics

Application of standard psychophysical techniques and theory of signal detection to audiologic research.

Prerequisites & Notes: CSD 561 or instructor permission
Credits: 3
Grade Mode: Letter

CSD 566 - Auditory Neurophysiology

The ear as a transducer and analyzer; electrophysiological and mechanical properties of the ear.

Prerequisites & Notes: CSD 561; instructor permission
Credits: 3
Grade Mode: Letter

CSD 567 - Seminar: Hearing Conservation

Noise as a public health hazard; the effects of noise on hearing; noise abatement, control and protection; federal and state noise regulations and compensation.

COMMUNICATION SCIENCES AND DISORDERS

Prerequisites & Notes: CSD 562

Credits: 3

Grade Mode: Letter

CSD 568 - Advanced Clinical Practicum in Audiology

To be taken in sequence; must have a minimum of 25 hours of documented speech-language pathology/audiology and rehabilitation observations. Clinical practicum designed to advance skills in audiology. Must be completed with a grade of B or better. Repeatable up to 16 credits including original course.

Prerequisites & Notes: CSD 371, CSD 462 or permission of instructor; to be taken in sequence; and a minimum of 25 hours of documented speech-language pathology/audiology and rehabilitation observations.

Credits: 2

Grade Mode: Letter

CSD 569 - Advanced Clinical Practice in Aural Rehabilitation

Supervised clinical practicum. S/U grading. Offered summer only. Repeatable to 4 credits.

Prerequisites & Notes: Satisfactory completion of CSD 458, CSD 459, CSD 463, and permission of instructor.

Credits: 2

Grade Mode: S/U

CSD 570 - Medical Audiology

Pathologies of the hearing mechanism and their auditory manifestations. Discussion with physicians regarding diagnosis, referrals and report writing.

Prerequisites & Notes: CSD 371, CSD 462, CSD 561.

Credits: 4

Grade Mode: Letter

CSD 571 - Hearing Aids I

History, development and description of hearing aids and other amplification devices. Research into the electro-acoustic characteristics of hearing aids.

Prerequisites & Notes: CSD 462 or permission of instructor.

Credits: 3

Grade Mode: Letter

CSD 572 - Hearing Aids II

Evaluation procedures and fitting techniques for dispensing hearing aids and other amplification devices. Auditory training and counseling techniques covered as well as special instrumentation.

Prerequisites & Notes: CSD 571

Credits: 3

Grade Mode: Letter

CSD 573 - Seminar: Speech Acoustics

In-depth study of the acoustic speech signal. Analysis of significant theories in speech production/acoustics. Application of relevant acoustic principles in the evaluation and remediation of communicative disabilities.

Prerequisites & Notes: CSD 353 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 574 - Seminar: Speech Perception

Critical analysis of current issues in speech perception. Examination of the effects of communication disabilities on speech perception.

Prerequisites & Notes: CSD 353, CSD 573 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 575 - Counseling in Communication Disorders

Contemporary theories and techniques of counseling individuals with communication disorders and their families.

Prerequisites & Notes: Graduate status

Credits: 3

Grade Mode: Letter

CSD 576 - Cognitive Communication Disorders

Processes and theories of cognitive functions; assessment and management of cognitive disorders associated with acquired brain injury.

Prerequisites & Notes: CSD 450 and CSD 556; or instructor permission.

Credits: 4

Grade Mode: Letter

CSD 577 - Pediatric Audiology

Developmental milestones of auditory function, implications of childhood hearing loss and supervised testing of pediatric patients utilizing basic and advanced testing techniques.

Prerequisites & Notes: CSD 371, CSD 462, CSD 568; instructor permission

Credits: 3

Grade Mode: Letter

CSD 578 - Seminar: Electrophysiological Testing

Current topics and issues in specialized areas of averaged electro-encephalic audiometry and otoacoustic emissions; research trends and problems. Lab required.

Prerequisites & Notes: CSD 561, CSD 568 or instructor permission.

Credits: 4

Grade Mode: Letter

CSD 579 - Aging and the Ear

Anatomical and physiological influences of aging on the auditory mechanism and how these changes influence overall auditory function and communication.

Prerequisites & Notes: CSD 561, CSD 562

Credits: 3

Grade Mode: Letter

CSD 580 - Communication Disorders in the Public Schools

Role of the professional in organizing and directing a speech-language therapy or audiology program in the public school setting. Required for public school certification.

Prerequisites & Notes: Second year graduate standing or instructor permission

Credits: 3

Grade Mode: Letter

CSD 581 - Advanced Electrophysiologic Testing

Assessment of the auditory system via early, middle, late, and cognitive auditory evoked potentials.

Prerequisites & Notes: CSD 578.

Credits: 3

Grade Mode: Letter

CSD 582 - Medical Speech Pathology

Current topics and issues related to the practice of speech pathology in a medical/clinical setting.

Prerequisites & Notes: Second year graduate standing or instructor permission

Credits: 2

Grade Mode: Letter

CSD 583 - Advanced Medical Audiology

Focus on advanced level audiologic protocols for diagnosis and management of congenital and acquired disorders of the auditory and vestibular systems.

Prerequisites & Notes: CSD 570.

Credits: 3

Grade Mode: Letter

CSD 584 - Advanced Amplification

Focus on hearing assistive technologies and sensory devices for treatment of hearing loss and auditory processing deficits.

Prerequisites & Notes: CSD 572.

Credits: 3

Grade Mode: Letter

CSD 585 - Neuromotor Speech Disorders

Current literature review and discussion of the nature of neurologically based speech disorders (dysarthrias and apraxia). Examination and practice of clinical intervention methods.

Prerequisites & Notes: CSD 450, CSD 556 or equivalent

Credits: 4

Grade Mode: Letter

CSD 587 - Cochlear Implants

Focus on the cochlear implant, including technology, patient candidacy, medical process, post-implantation aural (re)habilitation, and controversial issues surrounding cochlear implantation.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 3

Grade Mode: Letter

CSD 588 - Seminar in Augmentative and Alternative Communication

Focus on evaluation and intervention for children, adolescence and adults with moderate to severe congenital or acquired disorders in speech and language who require augmentative and alternative models for oral or written communication.

Prerequisites & Notes: CSD 552, CSD 553, CSD 555, CSD 558 or instructor permission

Credits: 3

Grade Mode: Letter

CSD 589 - Auditory Processing Disorder Assessment and Management

History, definition, and the role of audiologists in assessment, diagnosis, and management of patients with (central) auditory processing disorder.

Prerequisites & Notes: CSD 562.

Credits: 3

Grade Mode: Letter

CSD 590 - Educational Audiology

This course will focus on the role of the audiologist in the school system, audiologic services, and service delivery models to assist school-aged

COMMUNICATION SCIENCES AND DISORDERS

children who are deaf or hard of hearing, and children who have auditory processing difficulties.

Prerequisites & Notes: Admission to the Clinical doctorate in Audiology (AuD) program.

Credits: 3

Grade Mode: Letter

CSD 591 - Pediatric Aural (Re)habilitation

Course will focus on the provision of auditory rehabilitation services to infants and young children who are deaf or hard of hearing.

Prerequisites & Notes: CSD 563.

Credits: 3

Grade Mode: Letter

CSD 592 - Seminar in Autism

Readings and discussion of theoretical and applied issues relating to the identification, diagnosis and treatment of Autism Spectrum Disorders. Case studies are developed and presented using a variety of clinical forums.

Prerequisites & Notes: Graduate status or instructor approval.

Credits: 3

Grade Mode: Letter

CSD 593 - Balance Disorder Assessment

Current technology and procedures involved in the clinical assessment of balance disorders.

Prerequisites & Notes: CSD 562.

Credits: 3

Grade Mode: Letter

CSD 594 - Balance Disorder Treatment

Current technology and procedures involved in the treatment of balance disorders.

Prerequisites & Notes: CSD 593.

Credits: 3

Grade Mode: Letter

CSD 595 - Tinnitus Assessment and Management

Clinical assessment and treatment of tinnitus and other sound tolerance conditions.

Prerequisites & Notes: CSD 562.

Credits: 3

Grade Mode: Letter

CSD 596 - AuD Internship

Supervised, part-time off-campus practice experience. Repeatable up to six credits including original course. S/U grading.

Prerequisites & Notes: CSD 564 and CSD 568.

Credits: 2

Grade Mode: S/U

CSD 598 - Internship in Speech-Language Pathology or Audiology

Supervised, part-time experience providing opportunities to develop and demonstrate clinical competence in an approved setting. Placement is dependent on a suitable site. S/U grading. Repeatable up to 8 credits.

Prerequisites & Notes: Second-year graduate status; completion of plan of study; instructor permission; B in last clinic and a minimum of 200 clinic hours; enroll in clinic the quarter prior to internship and have all administrative and clinical records current.

Credits: 1-4

Grade Mode: S/U

CSD 599 - Intern Speech/Lang Path

Supervised, full-time, off-campus experience providing opportunities to develop and demonstrate clinical competence in an approved setting. Placement is dependent on a suitable site. S/U grading. Repeatable up to 16 credits.

Prerequisites & Notes: Second-year graduate status; completion of plan of study; instructor permission; B in last clinic and minimum of 225 clinic hours, 25 observation enroll in clinic the quarter prior to internship and have all administrative/clinical records current.

Credits: 8

Grade Mode: S/U

CSD 690 - Thesis

Credits: 1-9

Grade Mode: Letter

CSD 691 - Non-Thesis Option

Writing based on research or clinical projects.

Credits: 3

Grade Mode: Letter

CSD 692 - Fourth Year Externship

Full time year long clinical externship placement will allow students to develop their skills as an audiologist. An externship may consist of placement at one site or simultaneous or sequential rotations at multiple sites. Repeatable up to 20 credits including original course. S/U grading.

Prerequisites & Notes: CSD 505.

Credits: 5

Grade Mode: S/U

Communication Studies

Introduction

We teach communication studies that nurture inclusive civil discourse, critical thinking, and cooperative solutions in a diverse global community. We offer opportunities to develop strong communication skills within a challenging liberal arts program.

Our major program prepares students to speak and write proficiently, think critically, apply communication concepts competently, work cooperatively in small groups, and reflect on ethical dimensions of their actions. We focus on interactive learning in a high quality communication studies curriculum. We assist planning so that students effectively manage time to graduation. We emphasize carefully guided, performance-based learning characterized by a low student-to-faculty ratio in the classroom. And we offer the opportunity to participate in a nationally recognized forensics program. Faculty and staff encourage a sense of community. We engage with students to support their wellbeing and success. Through the talents, intellectual curiosity, and versatility of our diverse faculty we have established a strong intercultural and global orientation. We provide General Education Requirement courses that are crucial to the university's undergraduate communication education, and our communication theory and applications courses also instruct other majors. We are committed to community partnerships for strong service-learning and internships, and we serve the citizens of Washington in progressive communication instruction.

Communication Studies

The Department of Communication Studies offers a Bachelor of Arts in Communication Studies with courses in interpersonal and small group

Bachelor of Arts

Communication Studies, BA

Department of Communication Studies, College of Humanities and Social Sciences

60 credits

Introduction

communication, organizational communication, mass communication, intercultural communication, communication technologies, research methods, ethics, rhetoric, persuasion, public speaking, and debate.

Faculty

STEVEN G. WOODS (2001) Chair and Professor. BS, MA, Kansas State University; PhD, Florida State University.

RITA DANIELS (2016) Assistant Professor. BAE, MPhil, University of Education, Winneba, Ghana; MA, Ohio University; PhD, West Virginia University.

MICHAEL KARLBERG (1997) Professor. BA, University of California; MA, PhD, Simon Fraser University.

EE LIN LEE (2005) Professor. BA, MA, Western Michigan University; PhD, University of New Mexico.

TARA PERRY (2005) Professor. BA, Western Washington University; MA, PhD, Washington State University.

KAREN ROHRBAUCK STOUT (2000) Professor. BA, University of Puget Sound; MA, University of Montana; PhD, University of Utah.

RAE LYNN SCHWARTZ-DUPRE (2006) Associate Professor. BA, University of Vermont; MA, Wake Forest University; PhD, University of Iowa.

JIANGLONG WANG (1989) Professor. BA, Fudan University; MA, PhD, Northwestern University.

Becoming a Communication Studies Major

Students wishing to declare a major in Communication Studies must complete the pre-requisites and then apply to become a major by submitting a portfolio to the department. Details regarding the pre-requisites and application process can be found on the Communication Studies, BA page.

COMMUNICATION STUDIES

We teach communication studies that nurture inclusive civil discourse, critical thinking, and cooperative solutions in a diverse global community. We offer opportunities to develop strong communication skills within a challenging liberal arts program.

Why Consider a Communication Studies Major?

Communication competencies are essential for active participation in democratic societies, as is the ability to think critically about the nature and purpose of communication, in all its forms, in our rapidly changing and increasingly interdependent world. In addition, employers in the private, public, and non-profit sectors place a very high value on communication competencies combined with critical thinking skills. Communication Studies graduates therefore qualify for a wide variety of careers.

In this context, the Department of Communication Studies offers students the opportunity to develop competencies in speech, analytical writing, and collaborative teamwork. In addition, the department offers opportunities for students to develop their capacity to engage in critical thinking, to apply communication concepts, to understand methods for the generation of knowledge, and to reflect on the ethical dimensions of their actions.

How to Declare (Admission and Declaration Process):

Students contemplating a major in Communication Studies are encouraged to register as pre-majors with the Communication Studies department in Communications Facility 295, to ensure that they receive appropriate advising and relevant communications from the department.

Students wishing to declare a major in Communication Studies must submit a portfolio to the department (see below) in order to be admitted through a competitive selection process.

Admission to the major will, in part, be determined by the number of applicants and their qualifications in any given quarter. Cumulative grade point average (GPA) will be one of the major criteria for admission. In most quarters, the average GPA of successful applications is above 3.0. Other factors considered by faculty when selecting communication studies majors are writing samples, work and service experiences with diverse populations, references, and seniority at WWU.

Before applying to become a Communication Studies major, students must:

- Complete any one of the following courses with a B- or better: COMM 101, COMM 224, COMM 225, COMM 230, COMM 235, COMM 240, COMM 260.
- Complete COMM 220 with a B- or better.
- Complete at least 60 credits of WWU credits or approved transfer credits with a GPA of 2.50 or above. Note that no more than 50 percent of total COMM credits can be transferred from another institution.
- Complete 12-15 credits at WWU. Once these requirements have been completed, students can submit a portfolio of their work on or before Monday of the third week of fall, winter and spring quarters. The faculty will then review the portfolios and announce the names of successful applicants before the end of each quarter. Students are allowed to make a maximum of two application attempts.

The portfolio will include the following items:

- Admission application
- Transcripts of all college work completed to date.

- Transfer students must also include at Transcript Equivalency Report (TER) for any transfer credits that will be applied toward the major.
- A letter of intent to major in communication studies.
- A résumé including course of study, work experience, recreational and a vocational activities, internships, awards and honors, and public service activities.
- Two academic work samples of the student's collegiate writing assignments including a research paper.
- Three references from employers, teachers, or supervisors. References should include name, occupation, title, phone number, and email address of each person serving as a reference.
- A proposed program of study or course planning grid.
- Academic Honor Code.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Program Requirements

- One of the following introductory COMM courses:
 - COMM 101 - Fundamentals of Speech **Credits: 4**
 - COMM 224 - Small Group Processes **Credits: 4**
 - COMM 225 - Communication, Diversity and Controversy **Credits: 4**
 - COMM 230 - Rhetorical and Social Change **Credits: 5**
 - COMM 235 - Exposition and Argumentation **Credits: 4 ***
 - COMM 240 - Media Studies **Credits: 5**
 - COMM 260 - Communication, Identity and Difference **Credits: 5**
- One of the following courses that emphasizes library research:
 - COMM 235 - Exposition and Argumentation *
 - LIBR 201 - Introduction to Research Strategies **Credits: 4**
 - *COMM 235 may be used to fulfill both the introductory COMM course and the library research requirement.
- COMM 220 - Communication Theory **Credits: 5**
- COMM 398 - Research Methods in Communication **Credits: 5**
- COMM 498 - Communication Ethics **Credits: 5**
- Electives: Complete additional credits from the categories below to reach 60 credits total for the major:
 - COMM 100-level courses
 - COMM 200-level courses
 - COMM 300-level courses
 - COMM 400-level courses
 - JOUR 190 - Introduction to Mass Media **Credits: 5**

Note regarding electives:
 Complete at least 20 credits of upper division COMM credits other than COMM 398 and COMM 498.
 No more than 6 credits from COMM 236, COMM 300, COMM 339, COMM 400, COMM 436, COMM 450, COMM 451, COMM 452, COMM 459 are allowed to count toward the major.
 Complete three (3) Writing Proficiency (WP) points in COMM courses. WP courses from other departments will not apply toward this requirement.

Departmental Honors

A communication major who wishes to graduate with honors in communication must achieve a cumulative GPA of 3.75 at WWU.

Minor

Communication Studies Minor

COMMUNICATION STUDIES

Department of Communication Studies, College of Humanities and Social Sciences

25 credits (minimum)

Introduction

The field of Communication Studies prepares students to speak and write proficiently, think critically, apply communication concepts competently, work cooperatively in small groups, and reflect on ethical dimensions of their actions. We focus on interactive learning in a high quality curriculum with a low student-to-faculty ratio in the classroom.

Why Consider a Communication Studies Minor?

A minor in Communication Studies will be a valuable complement to any major. The concepts and competencies we teach are essential for engaged citizenship and productive employment in every sector.

How to Declare (Admission and Declaration Process):

In order to declare a minor in Communication Studies, students need to go to Communication Facility 295 to fill out an Official Declaration and Change of Minor Form.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- One course from:
 - COMM 101 - Fundamentals of Speech **Credits:** 4
 - COMM 224 - Small Group Processes **Credits:** 4
 - COMM 225 - Communication, Diversity and Controversy **Credits:** 4
 - COMM 230 - Rhetorical and Social Change **Credits:** 5
 - COMM 235 - Exposition and Argumentation **Credits:** 4
 - COMM 240 - Media Studies **Credits:** 5
 - COMM 260 - Communication, Identity and Difference **Credits:** 5
- COMM 220 - Communication Theory **Credits:** 5
- Plus additional COMM courses, including at least one upper-division COMM course (other than COMM 300, COMM 339, COMM 400, COMM 436, COMM 450, COMM 451, COMM 452 and COMM 459), to reach 25 credits total for the minor. JOUR 190 can count as one of the additional COMM courses.
- This minor may include no more than 3 credits from the following:
 - COMM 236 - Intercollegiate Forensics **Credits:** 2
 - COMM 300 - Directed Independent Study **Credits:** 1-15
 - COMM 339 - Practicum in Applied Communication **Credits:** 1-3
 - COMM 400 - Directed Independent Study **Credits:** 1-15
 - COMM 436 - Advanced Forensics and Debate **Credits:** 2
 - COMM 450 - Communication Pedagogy I **Credits:** 3

COMM 451 - Communication Pedagogy II **Credits:** 3
 COMM 452 - Communication Pedagogy III **Credits:** 3
 COMM 459 - Field Internship in Communication **Credits:** 1-12

Communication Studies Courses

COMM 101 - Fundamentals of Speech

Functional approach to effective communication. Emphasizes the application of principles to practical problems in speech for persons with little or no previous public speaking experience. Students with prior public speaking experience are advised to take COMM 235 to satisfy GUR requirements or communication major application requirements.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 220 - Communication Theory

Survey of human communication focuses on communication theories, concepts and principles ranging from intrapersonal to interpersonal, group, organizational, rhetorical, intercultural, international and mass communication.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

COMM 224 - Small Group Processes

Exploration of the dynamics of human interaction in small group settings. Group tasks include the development of problem-solving skills, utilizing topics of current interest.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 225 - Communication, Diversity and Controversy

This course is designed to foster the skills necessary for civil engagement and effective dialogue on controversial issues. Students will learn to appreciate, integrate, and effectively challenge diverse perspectives on a number of traditionally-divisive topics.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

COMM 228 - Organizational Communication

Survey of research and theories in organizational communication. Introduces students to communication theories and concepts relating to workplace practices and processes.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

COMM 230 - Rhetorical and Social Change

Students are introduced to rhetorical theories and modes of criticism that inform the study and pursuit of social change. Emphasis is placed on the important role rhetoric plays in contemporary public discourse and democratic citizenship.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

COMM 235 - Exposition and Argumentation

Theory and practice of principles of reasoned discourse as applied to public discussion of controversial issues. Students with prior background or experience in public speaking should consider COMM 235 as an alternative to COMM 101.

Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

COMM 236 - Intercollegiate Forensics

Debate, extemporaneous and impromptu speaking, and interpretive reading and other phases of forensics. Repeatable to a maximum of 6 cr. S/U grading.

Credits: 2
Grade Mode: S/U

COMM 240 - Media Studies

This course develops students' ability to think critically about mass media. Media messages and images are examined, as well as the social, political, and historical significance of media.

Credits: 5
Grade Mode: Letter
GUR Attributes: SSC

COMM 244 - Advocacy Through Media

Introduction to nonprofit information campaigns, social issues marketing and other forms of advocacy through contemporary mass media. Students will learn basic theory and then engage in

COMMUNICATION STUDIES

applied exercises as well as service learning assignments.

Credits: 5

Grade Mode: Letter

COMM 260 - Communication, Identity and Difference

This course introduces students to communication theories that explore the ways discourses produce, reinforce, and challenge our understandings of identity — as well as how these identities interact with discourses of difference. By critically engaging the politics of representation, intersectionality, materialism, and power, this course questions identity and difference from hybrid perspectives rather than taking up isolated categories (such as race, gender, sexuality, disAbility, and class) as distinct particulars. The course will particularly emphasize debates within Communication Studies that problematize contemporary discourses and practices of multiculturalism. Students will be encouraged to understand how communication works to oppress certain populations while privileging others.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

COMM 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

COMM 303 - Communication and Conflict

This course examines the role of communication in conflict. Students will examine the nature and causes of conflict and will explore practical methods as well as theoretical models for dealing with conflict in diverse relational contexts.

Credits: 5

Grade Mode: Letter

COMM 306 - Conference & Event Planning

Coursework examines the skills and techniques of event planning by emphasizing communication and organizational skills and theories that contribute to developing and managing successful events. Students work primarily in groups throughout the course, planning hypothetical events as well as actual events as part of service learning based assignments.

Credits: 5

Grade Mode: Letter

COMM 308 - Communication and Fundraising

Students will learn verbal and nonverbal communication skills regarding the donor-centered approach to fundraising, fundraising program research, and fundraising budgets. Students will be required to conduct a group fundraising event during the quarter.

Prerequisites & Notes: Permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 318 - Professional Communication

This course integrates business writing, public speaking, collaborative problem solving, and diversity training in a professional development context. Includes theory application and skill development. Students will be working in collaboration with organizations on or off campus.

Prerequisites & Notes: Junior status.

Credits: 5

Grade Mode: Letter

COMM 319 - Communication and Healthcare

This course is designed for healthcare professionals and others interested in communication skills for healthcare contexts. Students will be introduced to the theory and practice of effective and caring communication in the healthcare field, with a focus on strengthening and refining skills for communicating with diverse audiences.

Credits: 3

Grade Mode: Letter

COMM 322 - Civil Discourse as Learning Interaction

This course explores the nature of public civil discourse and provides instruction and practice in writing and speaking across differences for a range of public audiences in an effort to enhance the collective good. By focusing on the theory and practice of civil discourse as a means for accomplishing effective dialogue, students will develop concepts, attitudes, and skills - both oral and written - needed to be engaged learners and citizens in the campus community and beyond. Course requires participation in Western's Teaching-Learning Academy (TLA), which includes students, faculty, and staff who are working collectively to enhance the University learning environment.

Prerequisites & Notes: ENG 101

Credits: 4

Grade Mode: Letter

COMM 325 - Intercultural Communication

Introduction to intercultural communication. Principles, concepts and various topics in this rapidly growing, important field. Covers the needed knowledge and skills in communicating effectively with people of diverse cultural backgrounds.

Prerequisites & Notes: 4 credits Comparative Gender/Multicultural Studies GUR or COMM 220

Credits: 5

Grade Mode: Letter

COMM 327 - Interpersonal Communication

Focuses on theory and practice in work, family, and social settings. Emphasizes observation, analysis, and skills training in relationship development. Topics include language use, listening, nonverbal behavior and conflict management.

Prerequisites & Notes: Junior status

Credits: 5

Grade Mode: Letter

COMM 330 - Environmental Rhetoric

This class is an exploration of the way the environment is represented rhetorically and the implications this has for public policy and personal action.

Prerequisites & Notes: Junior or senior status or instructor permission.

Credits: 5

Grade Mode: Letter

COMM 331 - Advanced Public Speaking

Theory and practice in the art of public discourse.

Prerequisites & Notes: COMM 101 or COMM 235 or instructor permission.

Credits: 3

Grade Mode: Letter

COMM 339 - Practicum in Applied Communication

Students function in a variety of directed studies and contexts in which they apply their communication skills. Covers putting theory into practice in such areas as small group communication, interpersonal communication, organizational communication, intercultural communication and applied public information strategies. Repeatable to a maximum of 6 credits including the original course. S/U grading.

Credits: 1-3

Grade Mode: S/U

COMM 350 - Emerging Communication Technologies

Primary course objective is technological literacy - gaining skills and experience for working with emerging communication technologies. Students will engage in a range of experiential and service learning assignments using various emerging technologies. Secondary objective is technology critique and the study of theories of technology.

Credits: 5

Grade Mode: Letter

COMM 360 - Communicating Masculinities

This course considers the relationships between communication practices and gender roles in the United

States, with a particular focus on how

communication constructs masculinities. The course focuses

on how media, language, and rhetorical strategies construct dominant masculinities in contrast with other

expressions of masculinity.

Credits: 5

Grade Mode: Letter

COMM 398 - Research Methods in Communication

Course should be taken as soon as possible after admission to the major as it is prerequisite for most 400-level communication courses. Survey of qualitative and quantitative research methods utilized in the field of communication.

Prerequisites & Notes: Departmental majors only

Credits: 5

Grade Mode: Letter

COMM 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

COMM 416 - Topics in Communication

In-depth coverage of special topics in communication, rhetoric and mass media. The subject of each individual course and its prerequisite is announced in the Timetable of Classes. Repeatable with different topics to a maximum of 12 credits.

Prerequisites & Notes: Senior status; COMM 398 or permission of instructor

COMMUNICATION STUDIES

Credits: 3-5

Grade Mode: Letter

COMM 420 - Issues in Communication Theory

In-depth examination of advanced theories in human communication. Emphasis on theory development.

Prerequisites & Notes: COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 425 - Issues in Intercultural Communication

Introduction to dynamic forces that enhance effective communication between persons with various cultural backgrounds. Covers topics such as differences, similarities, values, pride and prejudice, cultural barriers in communication settings, and effectiveness of intercultural communication.

Prerequisites & Notes: COMM 325 and COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 427 - Issues in Interpersonal Communication

Senior seminar that offers an in-depth examination of theories and practices in interpersonal communication.

Prerequisites & Notes: COMM 327 and COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 428 - Issues in Organizational Communication

Reviews current theory and research on topics such as communication and organizational decision making, organizational culture, gender relations, and power and control in organizations.

Prerequisites & Notes: COMM 228

Credits: 5

Grade Mode: Letter

COMM 430 - Visual Rhetoric

This course aims to interrogate the relationship between rhetoric and the image. Devoting attention to theories that explore the symbolic and performative dimensions of visual culture, this course introduces advanced students to theories of perception and visual interpretation as they relate to visual communication, media and film studies, cultural studies, art, literature, memory, and the public spectacle.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 435 - Issues in Rhetorical Studies

In-depth examination of advanced theories in rhetorical theory and criticism.

Prerequisites & Notes: COMM 230 or COMM 235 and junior status or instructor permission.

Credits: 5

Grade Mode: Letter

COMM 436 - Advanced Forensics and Debate

Emphasis on intercollegiate debate with opportunity for experience in extemporaneous, impromptu and persuasive speaking. A maximum of 6 credits may be earned in COMM 436; a combined total of 6 credits from COMM 236 and COMM 436 may be applied to the major. S/U grading.

Prerequisites & Notes: 6 credits COMM 235 and/or COMM 236

Credits: 2

Grade Mode: S/U

COMM 440 - Issues in Media Studies

Examination of advanced theories in mass communication and media literacy. Examines social, political, and economic forces that shape media; influences of media on society; and issues of media policy, media advocacy, and media reform.

Prerequisites & Notes: COMM 240 or JOUR 190; COMM 398.

Credits: 5

Grade Mode: Letter

COMM 442 - Video Workshop

Course includes practical application of techniques used in video production. Utilizes digital technology, graphic materials, design and staging. Students will learn the role of producer and director. Repeatable to a maximum of 6 credits including original course. S/U grading.

Prerequisites & Notes: Recommended prior to registration: JOUR 190, COMM 350 or previous video experience; instructor permission.

Credits: 3

Grade Mode: S/U

COMM 450 - Communication Pedagogy I

Serve as undergraduate tutor for students taking communication courses. Learn instructional methods and gain further mastery of course content. Conduct supervised tutoring and feedback for students enrolled in communication courses.

S/U grading

Prerequisites & Notes: Recommendation; written permission of instructor.

Credits: 3

Grade Mode: S/U

COMM 451 - Communication Pedagogy II

Help supervise teams of undergraduate tutors. Develop leadership, organizational and pedagogical skills. S/U grading.

Prerequisites & Notes: COMM 450; recommendation; written permission of instructor.

Credits: 3

Grade Mode: S/U

COMM 452 - Communication Pedagogy III

Students enrolled in this course are the instructor assistants (IAs) returning to the COMM 101 program for the third time. Under the program director's supervision, students will mentor the first-time IAs enrolled in COMM 450; complete workshops demonstrating leadership, organizational and pedagogical skills for all IAs enrolled in COMM 450 and COMM 451; and supervise teams of COMM 101 students. S/U grading.

Prerequisites & Notes: COMM 450 and COMM 451

Credits: 3

Grade Mode: S/U

COMM 454 - Instructional Communication

This course is designed for prospective elementary, secondary and college teachers and communication trainers/consultants.

Communication theories, principles, and skills applicable to the classroom context are addressed as they apply to teaching in general and communication specifically.

Prerequisites & Notes: COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

COMM 459 - Field Internship in Communication

Supervised work in communication with an educational institution, public agency, private enterprise, broadcast station or other appropriate business. Meetings, written reports and a paper related to the internship are required. For students applying for media internships, plan to complete all academic course work before the internship, as this is the usual career pattern for those in that area. Repeatable to a maximum of 12 credits. A maximum of 6 credits may be applied to the COMM major. S/U grading.

Prerequisites & Notes: Senior status; written permission of advisor; departmental majors only.

Credits: 1-12

Grade Mode: S/U

COMM 460 - Communication and Critical/Cultural Studies

This course examines theories and approaches in Cultural Studies as they are utilized in Communication Studies. Students will use critical cultural theory to examine the role that communication practices play in the development or transformation of social hierarchies, with an emphasis on cultural practices and relations of power, privilege, and identity.

Prerequisites & Notes: Junior status; one course from COMM 225, COMM 230, COMM 240 or COMM 260.

Credits: 5

Grade Mode: Letter

COMM 492 - Senior Thesis

Supervised independent research on an advanced topic, leading to a substantial research paper. Two quarters prior, student should seek out a supervising faculty member to begin preparation and planning. One quarter prior, student should complete a preparatory independent study (COMM 400) that includes a literature review, an outline of methods and, if needed, a Human Subjects Review form.

Prerequisites & Notes: COMM 398; departmental majors only; permission of a supervising professor.

Credits: 5

Grade Mode: Letter

COMM 498 - Communication Ethics

This capstone course examines diverse ethical theories and perspectives pertaining to communication in contexts ranging from the local to the global. Students will have opportunities to reflect on and clarify their own ethical commitments, and to understand these in relation to ethical theories and perspectives in the field of communication studies.

Prerequisites & Notes: COMM 398 or permission of instructor.

Credits: 5

Grade Mode: Letter

East Asian Studies

Introduction

East Asia, as one of the world centers of high civilization, has long been the object of cultural interest and study. Increasingly, it has become important for economic and political reasons as well. The Center for East Asian Studies provides a focal point for the University's interaction with East Asia and for academic study of the region.

The program in East Asian studies emphasizes the interdisciplinary study of the area, primarily the countries of China, Japan, Korea and Mongolia. The course of study is designed to attain three major objectives. First, it offers students an opportunity to acquire accurate, detailed and comprehensive knowledge of a region that is becoming increasingly important in world affairs. Second, it prepares students who are attracted by job opportunities related to East Asia in business and government. For those who wish to teach about East Asia, the program provides appropriate preparation. Third, it provides solid undergraduate training for students who plan to enter East Asian programs for graduate studies.

Students interested in pursuing a major in East Asian studies should consult the director of the Center for East Asian Studies, Massimiliano Tomasi, 360-650-3339, e-mail: Massimiliano.Tomasi@wwu.edu.

Faculty

MASSIMILIANO TOMASI, Director. Modern and Classical Languages. Japanese language and culture, modern Japanese rhetoric and literature.

PATRICK BUCKLEY, Geography. Geography and economics of Japan.

EMI FOULK BUSHELLE, History. Early Modern Japan, Intellectual history.

ETHAN BUSHELLE, Liberal Studies. Buddhist studies, Japanese literature, religious studies.

MASANORI DEGUCHI, Modern and Classical Languages. Japanese language and linguistics.

MARGARET FAST, Wilson Library. Methods and materials in East Asia Research.

JAMES HEARNE, Computer Science. Chinese philosophy, Chinese science, East Asian language computing.

COLLEEN A. LAIRD, Modern and Classical Languages. Japanese film and media; transnational cinema, director personas, and star texts; gendered image production and reception.

YU LEI, Modern & Classical Languages. Chinese language, Chinese linguistics.

BAOZHEN LUO, Sociology. Contemporary Chinese Society, Political Economy, and Aging Policies

KRISTEN PARRIS, Political Science. East Asian politics.

SCOTT PEARCE, Liberal Studies. Medieval Chinese history.

JUDY PINE, Anthropology. South and East Asian languages and cultures.

TOM ROEHL, Management. International business.

WAYNE RICHTER, Wilson Library. Mongolian language.

JULIA SAPIN, Art. Asian art history, Japanese art, art of the Pacific Rim.

ROGER THOMPSON, History. Traditional and modern Chinese history.

GLENN T. TSUNOKAI, Sociology. Social and personal relationships.

EDWARD J. VAJDA, Modern and Classical Languages. Inner Asian and Siberian languages and history.

JIANGLONG WANG, Communications. Intercultural communications.

LI WANG, Modern & Classical Languages. Chinese language Chinese literature, film, women's studies.

JULIAN SIYUAN WU, Modern and Classical Languages. Chinese literature, East Asian print culture and Chinese art history.

JANET XING, Modern and Classical Languages. Chinese language, Chinese linguistics.

MICHIKO YUSA, Modern and Classical Languages. History of religion, Japanese language and culture.

Other Departmental Information

Elementary and intermediate Mongolian language may be offered through Extended Education.

Study Abroad: Students are encouraged to spend up to one year in a study abroad program, including Asia University; Tsuda College; Oberlin College, KCP in Tokyo; Inner Mongolia University, Hohhot; Seoul Women's University, Seoul; Yonsei University in Seoul; or Yunnan University, Kunming, China. Many other programs such as CET and CIEE provide opportunities for study in Beijing, Shanghai, Nanjing, Kunming and Taipei.

Bachelor of Arts

East Asian Studies, BA

East Asian Studies, College of Humanities and Social Sciences

60 credits**Introduction**

The course of study is designed to attain three major objectives. First, it offers students an opportunity to acquire accurate, detailed and comprehensive knowledge of a region that is becoming increasingly important in world affairs. Second, it prepares students who are attracted by job opportunities related to East Asia in business and government. For those who wish to teach about East Asia, the Program provides appropriate preparation. Third, it provides solid undergraduate training for students who plan to enter East Asian programs in their graduate studies.

Why Consider an East Asian Studies Major?

The Program in East Asian Studies offers interdisciplinary study of the area, primarily the countries of China and Japan. Under special advisement, Korea and Mongolia are also subjects for study. The major offers students an opportunity to prepare for positions in cultural organizations, diplomatic offices, companies engaged in international business, and in educational institutions.

East Asian Studies Courses

EAST 201 - Introduction to East Asian Civilizations

The origins and evolution of the political, economic, cultural and social aspects of East Asian civilization in through the early-modern period. Also offered as HIST 280.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

EAST 202 - East Asian History in the Early-Modern and Modern Eras

Examines political, cultural and social aspects of East Asian civilizations with attention to the early-modern and modern periods. Also offered as HIST 281.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

EAST 230 - Modern Chinese Society and Language

A survey of the characteristics of the Chinese language. A study of the relationships among Chinese culture, contemporary society and language variation.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

EAST 271 - Visual Culture in East Asia

Issues and topics in Chinese, Korean, and Japanese visual culture, from ancient to contemporary. Also offered as A/HI 271.

Credits: 3
Grade Mode: Letter
GUR Attributes: ACGM

EAST 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

EAST 302 - Methods and Materials in East Asian Studies

Research methods in East Asian studies; organization of Chinese and Japanese libraries; principal journals, reference tools and scholarly apparatus for various areas of East Asia.

Prerequisites & Notes: EAST 201, EAST 202; one year of Chinese or Japanese.

Credits: 3

Grade Mode: Letter

EAST 307 - Government and Politics of East Asia

Survey course covering the domestic political systems of China, Japan, and Korea. Also offered as PLSC 307.

Prerequisites & Notes: Sophomore status or instructor permission.

Credits: 5

Grade Mode: Letter

EAST 310 - The International Security of East Asia

The issues of national and human security in the East Asian Region. Also offered as PLSC 310.

Prerequisites & Notes: Sophomore status or instructor permission.

Credits: 5

Grade Mode: Letter

EAST 313 - Early Inner Asia

A detailed history of the Eurasian steppe and desert tribes from the earliest times to the rise of the Mongols under Chingiz Khan in the late 12th century. Discusses the complex cultural and political interplay among the early Indo-European, Turkic and Mongol pastoralists as well as their often cataclysmic interaction with the sedentary civilizations of the world.

Prerequisites & Notes: EAST 201 or EAST 202 or EAST 210 or HIST 280 or HIST 281 or instructor permission.

Credits: 4

Grade Mode: Letter

EAST 314 - The Mongols

Documents the history of the Eurasian steppes from the rise of Chingiz Khan to the present day. Describes the creation of the world's largest empire, its gradual disintegration and its partial absorption by the agricultural societies on its periphery. Includes analysis of recent political events in this area of the world.

Prerequisites & Notes: EAST 201 or EAST 202 or EAST 210 or HIST 280 or HIST 281 or instructor permission.

Credits: 4

Grade Mode: Letter

EAST 333 - East Asia: Society and Environment

Survey of physical environment, sustainability, peoples, regions and resources of East Asia; problems and prospects. Also offered as ENVS 333.

Prerequisites & Notes: One from: EAST 201, EAST 202, ENVS 203, ENVS 204, ENVS 221, ENVS 240 or instructor permission.

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

EAST 360 - China and the Emerging World Economy: From Antiquity to the Early Modern

The focus of this course will be the early stages of the unfolding of globalization in Eurasia, from antiquity into the early modern period, with particular attention given to China's important role in these developments, and how it was affected in turn. Also offered as LBRL 360.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

EAST 367 - Chinese Literature in Translation

Selected readings in Chinese literary masterpieces from earliest to modern times.

Prerequisites & Notes: EAST 201 or EAST 202 or CHIN 103 or LBRL 277 or permission of instructor.

Credits: 5

Grade Mode: Letter

EAST 368 - Japanese Literature in Translation

Selected readings in Japanese literary masterpieces from early modern times to the present.

Prerequisites & Notes: EAST 201 or EAST 202 or LBRL 275 or permission of instructor.

Credits: 5

Grade Mode: Letter

EAST ASIAN STUDIES

EAST 371 - Transforming Traditions: Art and Visual Culture in Japan

Study of visual cultures in Japan from 5000 BCE to present. Analysis of cultural influx and assimilation from Asia and Europe as well as indigenous and individual visual expressions. Also offered as A/HI 371.

Prerequisites & Notes: Any A/HI or equivalent 200-level course.

Credits: 5

Grade Mode: Letter

EAST 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

EAST 411 - Contemporary Japanese Visual Culture

Examines Japanese artistic forms and visual culture from Post-World War II until the present. Explores connections between Japanese socioeconomic and artistic developments, as well as visual manifestations of contemporary Japanese youth culture. Topics include anime, manga, Harajuku fashion and art movements such as Gutai and Superflat. Also offered as A/HI 411.

Prerequisites & Notes: Any A/HI or equivalent 300-level course.

Credits: 5

Grade Mode: Letter

EAST 430 - Contemporary Japanese Society

This course provides a detailed examination of historical events, cultural practices and social developments that have shaped contemporary Japanese society. The course focuses on the post-war period and analyzes current intellectual discourse on a variety of themes, depending on the instructor. Representative topics are atomic bomb literature and the discourse of occupation, the myth of homogeneity and the shifting role of women and minorities, and the representation of gender and otherness in literature and popular culture. Repeatable up to 6 credits including original course.

Prerequisites & Notes: EAST 201 and EAST 202; or HIST 280 and HIST 281; or JAPN 203; or instructor permission.

Credits: 2-4

Grade Mode: Letter

EAST 431 - Pacific Rim: Environment, Economy, and Sustainability

Geographic investigation of the economies, environmental impacts, and issues of sustainability of Pacific Rim nations; special comparative emphasis on East Asia versus North America. Also offered as ENVS 431.

Prerequisites & Notes: One from: EAST 302, ENVS 303, ENVS 330, ENVS 331, ENVS 332, ENVS 333, ENVS 340, ENVS 341, ENVS 342; or instructor permission.

Credits: 4

Grade Mode: Letter

EAST 440 - Modern Chinese Politics

An introduction to politics and society in modern China: state structures, political culture, state-society relations, policy-making and foreign relations. Also offered as PLSC 430.

Prerequisites & Notes: PLSC 291 or equivalent.

Credits: 4

Grade Mode: Letter

English

Introduction

The English major engages students in reflective reading, creative inquiry, critical analysis, and effective expression. The study of literature, linguistics, writing, film, and visual media prepares graduates to pursue a variety of careers, including law, business, government, professional writing, publishing, and education. These studies also prepare students for graduate programs. The Department of English offers four major emphases:

- English — Literature Emphasis, BA
- English — Literature Emphasis, BA, with Teaching Endorsement Option
- English — Creative Writing Emphasis, BA
- English — Creative Writing Emphasis, BA, with Teaching Endorsement Option

All four programs lead to the Bachelor of Arts in English. English — Literature Emphasis focuses on the study of literature in historical and cultural contexts and includes course work in English language and literature, literary and rhetorical theory, creative writing and composition, technical writing, film, and visual media.

English — Literature with Endorsement Option has a similar focus but with the addition of coursework required for an English Language Arts Endorsement at the secondary level. English: Creative Writing Emphasis focuses on writing in fiction, drama, poetry, and nonfiction prose, and it is complemented by courses in language and literature. English — Creative Writing with Endorsement Option has a similar focus but with the addition of coursework required for an English Language Arts Endorsement at the secondary level. The Department of English provides a dynamic intellectual environment and learning community. Faculty members introduce new genres, fields and methods of critical inquiry, and technologies to provide our students with the best possible education. The department offers small, student-centered classes, innovative pedagogy, and close faculty-student interaction. English faculty members have earned numerous awards for excellence in teaching, research, and writing; they are nationally and internationally recognized in creative and critical fields. Our students have amassed an enviable record of placement in graduate programs and professional positions.

Faculty

KATHRYN VULIĆ (2004) Chair and Associate Professor. AB, Ohio State University; MA, PhD, University of California, Berkeley.

JEREMY CUSHMAN (2013) Associate Professor. BA, Whitworth University; MA, University of Illinois at Chicago; PhD, Purdue University.

KRISTIN DENHAM (2000) Professor. BA, Swarthmore College; MA, University of Arizona; PhD, University of Washington.

DAWN DIETRICH (1992) Associate Professor. BA, Eastern Michigan University; MA, PhD, University of Michigan.

MARC GEISLER (1992) Associate Professor and Associate Dean, College of Humanities and Social Sciences. BA, Bates College; MA, PhD, University of California, Irvine.

ALLISON GIFFEN (2001) Professor. BA, Barnard College; MA, Yale University; PhD, Columbia University.

BRUCE GOEBEL (1996) Professor. BA, Eastern Washington University; MA, California State University, Fresno; PhD, University of Iowa.

CAROL GUESS (1998) Professor. BA, Columbia University; MA, MFA, Indiana University.

NANCY J. JOHNSON (1994), Professor. BA, University of Washington; MA, PhD, Michigan State University.

KRISTIANA KAHAKAUWILA (2012) Associate Professor. BA, Princeton University; MFA, University of Michigan.

LAURA LAFFRADO (1993) Professor. AB, Vassar College; MFA, University of Montana; MA, PhD, State University of New York at Buffalo.

CHRISTOPHER LOAR (2013) Associate Professor. BA, University of Chicago; MA, University of California, Los Angeles; PhD, University of California, Los Angeles.

ANNE LOBECK (1990) Professor. BA, Whitman College; MA, PhD, University of Washington.

ANDREW LUCCHESI (2016) Assistant Professor. BA, Pacific Lutheran University; MA, King's College of London; PhD, The Graduate Center, City University of New York.

WILLIAM LYNE (1995) Professor. BA, University of California, Los Angeles; MA, PhD, University of Virginia.

KELLY MAGEE (2008) Associate Professor. BA, Auburn University; MFA, Ohio State University.

MARY JANELL METZGER (1995) Professor. BA, University of Washington; MA, PhD, University of Iowa.

BRENDA MILLER (1999) Professor. BA, Humboldt State University; MFA, University of Montana; PhD,

ENGLISH

University of Utah.

EREN ODABASI (2018) Assistant Professor. BS, Bogazici University, Turkey; MA, Bogazici University, Turkey; PhD, University of Massachusetts Amherst.

SUZANNE PAOLA (1994) Professor. BA, Oberlin College; MFA, University of Virginia.

DONNA QUALLEY (1994) Professor. BA, University of Kentucky; MST, PhD, University of New Hampshire.

ELY SHIPLEY (2017) Assistant Professor. BA, University of Redlands; MFA, Purdue University; PhD, University of Utah.

KATHRYN TRUEBLOOD (2002) Professor. BA, University of California, Berkeley; MFA, University of Washington.

STEVEN VANDERSTAAY (1996) Vice Provost for Undergraduate Education and Professor. BA, MA, University of Washington; PhD, University of Iowa.

THERESA WARBURTON (2014) Assistant Professor. BA, Trinity College; AM, University of Chicago; PhD, State University of New York at Buffalo.

CHRISTOPHER WISE (1996) Professor. BA, Northwestern College; MA, University of Oklahoma; PhD, University of California, Riverside.

JANE WONG (2017) Assistant Professor. BA, Bard College; MFA, University of Iowa; PhD, University of Washington.

GREG YOUMANS (2014) Assistant Professor. BA, University of California, Berkeley; PhD, University of California, Santa Cruz.

NING YU (1993) Professor. BA, Beijing University of Aeronautics and Astronautics; MA, PhD, University of Connecticut.

Declaration Process

The department offers majors leading to a Bachelor of Arts and/or Bachelor of Arts in Education degrees. Admission to these majors is by application to the appropriate advisor. Students are strongly urged to meet with a department advisor early in their careers at Western; students should declare their major by the start of their junior year. A minimum of 60 credits and ENG 202 are prerequisites for declaring the English major. Though we cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA degree program in an English emphasis within a four-year time span should have completed the following courses by the start of their junior year:

- ENG 101 and ENG 202

Policy on Directed Independent Study and Extended Education Self-Paced Courses

- The following policies govern the kinds of classes that can apply to an undergraduate English major:
- The number of Directed Independent Study (ENG 300 and/or ENG 400) credits is limited to a maximum of 10.
- The number of Extended Education online credits is limited to a maximum of 10.
- The total number of combined Directed Independent Study and Extended Education online credits is limited to a maximum of 15.
- Directed Independent Study courses are intended to enrich the student's major and we therefore specifically do not allow credit for Directed Independent Study in the following cases:
 - a) to replace core courses in the department's majors;
 - b) to replace courses offered during the quarter in which the independent study is taken;
 - c) to replace writing intensive courses; and
 - d) to replace workshop courses designed to encourage student responses to writing.
- Directed Independent Study requires a written contract between student and teacher that comprises two parts:
 - a) a standard cover sheet that states the department policy regarding Directed Independent Study and Extended Education self-paced courses, that requests information concerning the number of such courses the student has already taken, and that requires the signature of the student, teacher, and chair; and
 - b) a short (one or two page) outline of the proposed study to be accomplished during the Directed Independent Study, including the reading and writing assignments and the number of office meetings to be scheduled.

Graduate Study

For a concentration leading to the Master of Arts degree, see the Graduate School section of this catalog.

Bachelor of Arts

English — Creative Writing Emphasis, BA

Department of English, College of Humanities and Social Sciences

58-60 Credits

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers, including law, business, education, publishing and government, as well as graduate work in creative writing, language, literary and cultural studies, and critical writing. English engages students in diverse literary heritages as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Creative Writing Emphasis in the English Major?

The Creative Writing program focuses on writing courses: creative writing in fiction, drama, poetry, or nonfiction prose and includes coursework in literature to supplement the creative writing courses. Students in the upper-divisional courses are expected to interpret and analyze literature in thoughtful, organized, and clear essays that are free of mechanical errors. If you think you need help with your reading and writing, we strongly encourage you, in addition to your work in English courses, to consult the Writing Center and other University resources.

Introductory and advanced critical writing genre courses form the core of the major, giving students an opportunity to develop their craft and aesthetics through intensive writing, reading, and workshops. Students must take courses in at least two different genres. Aside from the core courses, creative writing majors take 25 credits in literature (which may include literary/cultural, rhetorical, and literacy theory and film studies) at the 300- or 400-level. Special modes courses (456, 457, 458, 460) introduce advanced students to distinct forms within their major genres.

How to Declare (Admission and Declaration Process):

Meet in person with the English Department's Undergraduate Program Coordinator, Jemma Everyhope-Roser, to declare this major. The prerequisites for declaring the major are 60 credits completed and ENG 202.

Though the English Department cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Advising Tips: Students are strongly encouraged to meet with the Undergraduate Program Coordinator, Jemma Everyhope-Roser, early in their careers at Western. Students should declare their major by the start of their junior year.

Grade Requirements

ENGLISH

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- 25 credits in literature (which may include literary/cultural, rhetorical, and literacy theory and film studies) at the 300- or 400-level, including a minimum of three writing proficiency points in approved upper-division writing proficiency courses at WWU with a minimum grade of C-.
- ENG 370 - Introduction to Language **Credits:** 5 (Students who earn a grade of 3.0 or better in LING 201 may substitute a 300 or 400-level English course under advisement for English 370.)
- Two courses from:
 - ENG 351 - Introduction to Fiction Writing **Credits:** 5
 - ENG 353 - Introduction to Poetry Writing **Credits:** 5
 - ENG 354 - Introduction to Creative Nonfiction Writing **Credits:** 5
 - THTR 384 - Introduction to Dramatic Writing **Credits:** 4
 - FAIR 354V - Scriptwriting Workshop I **Credits:** 4
- Four courses from:
 - ENG 451 - Creative Writing Seminar - Fiction **Credits:** 5 *
 - ENG 453 - Creative Writing Seminar - Poetry **Credits:** 5 *
 - ENG 454 - Creative Writing Seminar - Creative Nonfiction **Credits:** 5 *
 - ENG 455 - Living Writers **Credits:** 5
 - ENG 456 - Special Topics in Fiction Writing **Credits:** 5
 - ENG 457 - Special Topics in Poetry Writing **Credits:** 5
 - ENG 458 - Special Topics in Creative Nonfiction Writing **Credits:** 5
 - ENG 459 - Editing and Publishing **Credits:** 5
 - ENG 460 - Special Topics In Creative Writing - Multi-Genre **Credits:** 5
 - ENG 466 - Screenwriting **Credits:** 5
 - THTR 485 - Dramatic Writing Workshop **Credits:** 4 **
 - FAIR 454Y - Scriptwriting Workshop II **Credits:** 4

Creative writing courses offered by Canadian-American Studies may also be counted with approval of the English Department advisor.

*One of these courses is repeatable with a different instructor to a maximum of 10 credits.

** May be repeated under separate topics to a maximum of 12 credits.

English — Creative Writing Emphasis, BA, with Teaching Endorsement Option

Department of English, College of Humanities and Social Sciences

75 credits (58 additional credits for teacher certification)

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers, including law, business, education, publishing and government, as well as graduate work in creative writing, language, literary and cultural studies, and critical writing. English engages students in diverse literary heritages as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Creative Writing Emphasis with Teaching Endorsement Option in the English Major?

The English – Creative Writing Emphasis with a Teaching Endorsement Option focuses on writing courses: creative writing in fiction, drama, poetry, or nonfiction prose and includes coursework in literature, language and pedagogy to supplement the creative writing courses. Introductory and advanced creative writing genre courses form the core of the major, giving students an opportunity to develop their craft and aesthetics through intensive writing, reading, and workshops. Students must take courses in at least two different

genres. Aside from the core courses, this major requires courses in literature, linguistics, and pedagogy to meet state secondary English language arts endorsement requirements.

The English – Creative Writing Emphasis with Teaching Endorsement Option major leads to a baccalaureate degree without teacher certification. To receive a recommendation for state of Washington teacher certification with an English Language Arts endorsement, students must complete courses within the English – Literature Emphasis major as specified herein and the teacher certification program offered by the Department of Secondary Education as one of the following:

- A part of the undergraduate baccalaureate degree
- A post-baccalaureate program
- A part of the Master in Teaching program

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Regulations for teaching endorsement are subject to change. Contact the English Education advisor.

- ❑ SPED 363 - Secondary Students With Special Needs **Credits:** 4

English — Literature Emphasis, BA

Department of English, College of Humanities and Social Sciences

60 Credits

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers including law, business, education, publishing and government, as well as graduate work in language, literary and cultural studies, and critical writing. English engages students in diverse literary heritages, as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Literature Emphasis in the English Major?

The English Literature major focuses on the study of literatures in historical and cultural contexts and includes course work in English language, literary theory, and composition and rhetoric. Some students may opt to develop a writing concentration within their literature major, taking writing courses such as composition, creative writing, and professional and technical writing. There are also opportunities to pursue English Education, including endorsements. Students in the upper-division courses are expected to interpret and analyze literature in thoughtful, organized, and clear essays that are free of mechanical errors. If you think you need help with your reading and writing, we strongly encourage you, in addition to your work in English courses, to consult the Writing Center and other university resources.

The literature emphasis offers students the opportunity for both breadth and depth in the study of literature and culture. In the "Literature and Culture" courses (ENG 307-311), which are the core of the major, students gain a sense of historical scope as they explore literatures from a range of periods. In addition, majors take required courses in critical and cultural theory, writing and the history and theory of language. All of these courses provide a solid foundation for intensive study of specialized topics in the upper-level electives and in the senior seminar.

The English – Literature Emphasis major leads to a baccalaureate degree without teacher certification. To receive a recommendation for state of Washington teacher certification, students must also complete the teacher certification program offered by the Department of Secondary Education as one of the following:

- A part of the undergraduate baccalaureate degree
- A post-baccalaureate program
- A part of the Master in Teaching program

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Students seeking teaching certification are advised that the careful selection of English courses within the English - Literature major and the addition of one 5-credit English course are necessary in order to meet requirements for the English Language Arts – Secondary Endorsement. Students must meet with the secondary education academic advisor in the English Department to complete a plan of study.

How to Declare (Admission and Declaration Process):

Meet in person with the English Department's Undergraduate Program Coordinator, Jemma Everyhope-Roser, to declare this major. Prerequisites for declaring the major are 60 credits completed and ENG 202.

Though the English Department cannot guarantee immediate enrollment in the major or access to any specific class, we matriculate students into the major on a rolling basis as space is available and offer a wide variety of topics each term.

Advising Tips: Students are strongly encouraged to meet with the Undergraduate Program Coordinator, Jemma Everyhope-Roser, early in their careers at Western. Students should declare their major by the start of their junior year.

English Language Arts - Secondary Endorsement:

Students seeking teacher certification are advised that the careful selection of English courses within the English Literature major and the addition of one 5 credit English course are necessary in order to meet requirements for the English Language Arts — Secondary Endorsement. Students must meet with the secondary education academic advisor in the English Department, Bruce Goebel (HU 277, 360-650-7364), to complete a plan of study.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Four literature and culture courses consisting of two seminars and two surveys. Combined, the literature and culture courses must cover four different historical periods. Historical periods should not be repeated.

Two literature and culture seminars from:

- ENG 307 - Seminar in Literature & Culture: Medieval **Credits: 5**
- ENG 308 - Seminar in Literature & Culture: Early Modern **Credits: 5**
- ENG 309 - Seminar in Literature & Culture: The Long 18th Century **Credits: 5**
- ENG 310 - Seminar in Literature & Culture: The Long 19th Century **Credits: 5**
- ENG 311 - Seminar in Literature & Culture: The 20-21st Century **Credits: 5**

Two literature and culture surveys from:

- ENG 317 - Survey in Literature & Culture: Medieval **Credits: 5**
- ENG 318 - Survey in Literature & Culture: Early Modern **Credits: 5**
- ENG 319 - Survey in Literature & Culture: The Long 18th Century **Credits: 5**
- ENG 320 - Survey in Literature & Culture: The Long 19th Century **Credits: 5**
- ENG 321 - Survey in Literature & Culture: The 20-21st Centuries **Credits: 5**

- One course from:

- ENG 301 - Introduction to Writing Studies **Credits: 5**
- ENG 302 - Introduction to Technical and Professional Writing **Credits: 5**
- ENG 350 - Introduction to Creative Writing **Credits: 5**
- ENG 401 - Senior Seminar in Writing Studies and Rhetoric **Credits: 5**

- ENG 313 - Introduction to Critical and Cultural Theories and Practices **Credits: 5**
- ENG 418 - Senior Seminar **Credits: 5**
- ENG 370 - Introduction to Language **Credits: 5**

(Students who earn a grade of 3.0 or better in LING 201 may substitute a 300 or 400-level English course under advisement for ENG 370.)

Electives

□ 20 credits. 15 credits must be at the 400 level, 5 credits at either the 300- or 400-level; 300-level historical period courses (e.g. medieval, early modern, etc.) cannot be repeated. 15 credits must be taken from the courses listed below.

ENG 331 - Studies in Gender Theory **Credits:** 5

ENG 332 - Literature and Philosophy **Credits:** 5

ENG 333 - Topics in Global Literature **Credits:** 5

ENG 334 - Literary and Creative Expression Across North America and Europe **Credits:** 5

ENG 335 - Literary and Creative Expressions Across Asia, Africa, the Middle East, and Latin America **Credits:** 5

ENG 336 - Scriptural Literatures **Credits:** 5

ENG 338 - Women and Literature in North America and Europe **Credits:** 5

ENG 339 - Mythology and Literature **Credits:** 5

ENG 341 - Studies in Children's Literature **Credits:** 5

ENG 342 - Studies in Literary Genres **Credits:** 5

ENG 347 - Studies in Young Adult Literature **Credits:** 5

ENG 364 - Introduction to Film Studies **Credits:** 5

ENG 365 - Topics in Film History **Credits:** 5

ENG 406 - Topics in Critical and Cultural Theory **Credits:** 5

ENG 408 - Cultural Studies **Credits:** 5

ENG 410 - Studies in Literary History **Credits:** 5

ENG 415 - Special Topics in National Literatures **Credits:** 5

ENG 423 - Studies in Major Authors **Credits:** 5

ENG 427 - Queer Studies **Credits:** 5

English — Literature Emphasis, BA, with Teaching Endorsement Option

Department of English, College of Humanities and Social Sciences

65 credits (58 additional credits for teacher certification)

Introduction

English is one of the central liberal arts degrees. A background in English provides graduates with a sound basis for pursuing a variety of careers, including law, business, education, publishing and government, as well as graduate work in creative writing, language, literary and cultural studies, and critical writing. English engages students in diverse literary heritages as well as fosters the development of sophisticated abilities in critical analysis, creative inquiry, reflective reading, and effective communication and expression.

Why Consider a Literature Emphasis with Teaching Endorsement Option Major?

The English - Literature Emphasis with Teaching Endorsement Option major focuses on the study of literatures in historical and cultural contexts and includes course work in English language and linguistics, literary theory, and composition and rhetoric, and creative writing. Students in the writing studies, creative writing, and most literature courses are expected to write thoughtful, organized, and clear essays that are free of mechanical errors. If you think you need help with your reading and writing, we strongly encourage you, in addition to your work in English courses, to consult the Writing Center and other university resources.

The English - Literature Emphasis with Teaching Endorsement Option offers students the opportunity for both breadth and depth in the study of literature and culture. In the "Literature and Culture" courses (ENG 307-311; ENG 317-321), which are the core of the major, students gain a sense of historical scope as they explore literatures from a range of periods. In addition, majors take required courses in critical and cultural theory, writing and the history and theory of language. All of these courses provide a solid foundation for intensive study of specialized topics in the upper-level electives and in the senior seminar.

The English – Literature Emphasis with Teaching Endorsement Option major leads to a baccalaureate degree without teacher certification. To receive a recommendation for state of Washington teacher certification with

ENGLISH

an English Language Arts endorsement, students must complete courses within the English – Literature Emphasis with Teaching Endorsement Option major as specified herein, and the teacher certification program offered by the Department of Secondary Education as one of the following:

- A part of the undergraduate baccalaureate degree
- A post-baccalaureate program
- A part of the Master in Teaching program

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Regulations for teaching endorsement are subject to change. Contact the English Education advisor.

- SPED 363 - Secondary Students With Special Needs **Credits: 4**

Additional Endorsement

English Language Arts — Secondary, Additional Endorsement

Department of English, College of Humanities and Social Sciences

40 credits

Introduction

This additional endorsement program prepares students to teach English Language Arts at the middle and high school, and must be accompanied by a professional education program and a qualifying endorsement in another content area. See the Elementary Education and Secondary Education sections of this catalog for program admission, completion, and teacher certification requirements.

ENGLISH

Why Consider a Secondary, Additional Endorsement in English Language Arts?

An Additional Endorsement in English Language Arts provides prospective teachers with more teaching options, allowing them to teach English language arts classes as well as classes in the primary subject area in which they have trained. Being able to teach in two areas increases the number of job openings to which one might apply.

Master of Arts

English, Non-Thesis, MA

Department of English, College of Humanities and Social Sciences

Graduate Faculty

Anderson, Katherine, PhD, British literature, empire/postcolonial studies, gender and sexuality studies, critical terrorism studies.

Beasley, Bruce, PhD, creative writing (poetry), American literature.

Brown, Nicole, PhD, rhetoric and composition, technical writing, visual rhetoric, service learning and cybercultural studies.

Cushman, Jeremy, PhD, rhetoric and composition, workplace writing, public rhetorics, digital humanities and postmodern research methodologies.

Denham, Kristin, PhD, linguistics, syntax and grammar, dialect, Native American languages and literatures.

Dietrich, Dawn, PhD, cinema studies, literature and technology, cyberculture, critical theory.

Geisler, Marc, PhD, Renaissance literature and culture, literary theory, politics and literature.

Giffen, Allison, PhD, American literature, women's literature.

Goebel, Bruce, PhD, American literature, postmodern literature, English education.

Guess, Carol, MFA, creative writing (creative nonfiction, fiction, poetry), gay/lesbian/bisexual/transgender literature and theory.

Johnson, Nancy J., PhD, children's literature, English/language arts education.

Kahakauwila, Kristiana, MFA, creative writing (fiction and non-fiction), editing and publishing, Pacific Literature.

Laffrado, Laura, PhD, American literature, gender studies.

Loar, Christopher, PhD, British literature, early American literature, eighteenth-century culture, critical theory, literature and science.

Lobeck, Anne, PhD, linguistics, literary theory, gender studies.

Lucchesi, Andrew, PhD, rhetoric and composition, professional and technical writing, disability studies.

Lyne, William, PhD, American literature, African-American literature, cultural studies.

Magee, Kelly, MFA, creative writing (fiction, nonfiction, multi-genre).

Metzger, Mary Janell, PhD, early modern literature, critical theory, English education, women's literature.

Miller, Brenda, PhD, creative writing (fiction and nonfiction), autobiography.

Paola, Suzanne, MFA, creative writing (nonfiction and poetry), women's studies.

Odabasi, Eren, PhD, film studies, global cinema, screen industries, auteur theory.

Qualley, Donna, PhD, composition theory and pedagogy, literacy, rhetoric and social class.

Rivera, Lysa, PhD, American literatures and culture, Chicana/o and African-American literature, cultural studies, critical theory.

Shiple, Ely, PhD, creative writing (multi-genre, poetry).

Trueblood, Kathryn, MFA, creative writing (fiction), publishing and editing.

VanderStaay, Steven, PhD, English education, creative writing (nonfiction), and linguistics.

Vulić, Kathryn, PhD, medieval British and Continental literatures and culture, manuscript studies.

Warburton, Theresa, PhD, feminist theory, women's literature, Native literature, transnational and multiethnic literature, and memoir.

Wise, Christopher, PhD, comparative literature and critical theory.

Wong, Jane, PhD, creative writing (poetry).

Youmans, Greg, PhD, film and media studies, LGBTQ history and historiography, queer and feminist theory.

Yu, Ning, PhD, American literatures, science and literature.

Goals

The MA program in English is designed for those who desire to prepare for:

- PhD and MFA programs, as well as other advanced degrees
- Teaching at two-year colleges
- Public or private teaching (elementary, middle, secondary)
- Careers in technical writing and communication
- Careers in editing and publishing
- Careers in nonprofit and other business organizations

Depending on the chosen area of concentration, students will attain the following skills:

ENGLISH

- Preparation in national and global literatures and cultures, creative writing, critical and cultural theory, film and media, pedagogy, composition and rhetoric, technical writing, professional writing, editing and publishing, and linguistics
- Teaching experience (if awarded a teaching assistantship or internship)
- Professional editing with scholarly and creative writing journals, such as the Bellingham Review
- Professional communication, oral and written
- Competency in the use of classroom and communications technologies
- Awareness of diversity, educational equity, and social justice issues
- Awareness of ethical and reflective pedagogical practices

Prerequisites

Undergraduate major in English or departmental permission. Candidates with an insufficient background in English are normally requested to acquire 30 upper-division credits in literature and criticism with a grade of B or better in each course. The department reserves the right to approve a course of study.

Admission

Enrollment is limited to program capacity.

Application Information

Deadlines: Applications for the following academic year must be complete — all materials on file — by January 15 for priority consideration. Applications completed after that date may be considered on a space-available basis. Applications completed after June 1 will not be considered. Admission into the program is for fall quarter.

Teacher Assistantship Deadlines: Same as above.

The materials submitted for admission must include:

- A statement of purpose: this statement should explain intellectual and/or creative interests, and professional goals. If you are interested in being considered for a funded Teaching Assistantship, please include relevant experience and information that will aid the department in making funding decisions.
- Normally the department expects a strong analytic score and a verbal score of at least 153 on the GRE ("Revised" General) exam. Candidates must also provide a 750-word personal statement of background and intention and a writing sample: for admission to creative writing, 10 to 15 pages of prose or 10 to 15 pages of poetry; for admission to English, 7 to 12 pages of written work in literary study.
- Appropriate admissions forms.

English, Non-Thesis (55 credits)

Core requirements:

- ENG 501 - Literary Theories and Practices **Credits:** 5
- 25 credits in literature, composition/rhetoric, or critical theory
- Among their core credits, Teaching Assistants are required to take ENG 513 - Seminar in Teaching College Composition **Credits:** 5

Only five of these 25 credits may be taken in ENG 500 Directed Independent Study.

Electives:

- 25 credits in literature, criticism, creative writing, rhetoric, pedagogy and English language. Occasionally electives in other departments may be chosen in consultation and with permission of the English Department graduate program advisor.

Credits:

With the permission of the graduate advisor, a student may take up to 10 credits of some combination of 400-level courses, ENG 500, ENG 509, and ENG 594. No more than 5 credits of ENG 500 may be applied toward the degree.

Additional Information

Other Requirements

Students must demonstrate reading competence in a second language acceptable to the department's Graduate Studies Committee or take an additional 5-credit 400- or 500-level course focused on the study of language. (Credits taken to meet with requirement do not count towards degree). Normally competence in a second language is demonstrated by successfully completing the final course in a second-year language sequence or by passing a reading competency exam in the language.

Students must also pass a written Graduate Exam in their concentration.

Additional information about these requirements, the non-thesis option and program procedures, is available from the English graduate program office.

Prerequisites

Undergraduate major in English or departmental permission. Candidates with an insufficient background in English are normally requested to acquire 30 upper-division credits in literature and criticism with a grade of B or better in each course. The department reserves the right to approve a course of study.

Admission

Enrollment is limited to program capacity.

Application Information

Deadlines: Applications for the following academic year must be complete — all materials on file — by January 15 for priority consideration. Applications completed after that date may be considered on a space-available basis. Applications completed after June 1 will be considered for the following year. Admission into the program is for fall quarter.

Teacher Assistantship Deadlines: Same as above.

The materials submitted for admission must include:

- A statement of purpose: this statement should explain intellectual and/or creative interests, and professional goals. If you are interested in being considered for a funded Teaching Assistantship, please include relevant experience and information that will aid the department in making funding decisions.

- Normally the department expects a strong analytic score and a verbal score of at least 153 on the GRE ("Revised" General) exam. Candidates must also provide a 750-word personal statement of background and intention and a writing sample: for admission to creative writing, 10 to 15 pages of prose or 10 to 15 pages of poetry; for admission to English, 7 to 12 pages of written work in literary study.
- Appropriate admissions forms.

English, Thesis (55 credits)

Core Requirements:

- ☐ ENG 501 - Literary Theories and Practices **Credits:** 5
- ☐ 25 credits in literature, composition/rhetoric, or critical theory
- ☐ Among their core credits, Teaching Assistants are required to take ENG 513 - Seminar in Teaching College Composition **Credits:** 5

Only five of these 25 credits may be taken in ENG 500 Directed Independent Study.

Electives:

- ☐ 20 credits in literature, criticism, creative writing, rhetoric, pedagogy, or English language. Occasionally electives in other departments may be chosen in consultation and with permission of the English Department graduate program advisor.

Credits:

With the permission of the graduate advisor, a student may take up to 10 credits of some combination of 400-level courses, ENG 500, ENG 509, and ENG 594. No more than 5 credits of ENG 500 may be applied toward the degree.

Thesis:

- ☐ ENG 690 - Thesis Writing **Credits:** 2-10 (5 credits)
Thesis must be approved by the Director of Graduate Studies.

Additional Information

Other Requirements

Students must demonstrate reading competence in a second language acceptable to the department's Graduate Studies Committee or take an additional 5-credit 400- or 500-level course focused on the study of language. (Credits taken to meet with requirement do not count towards degree.) Normally competence in a second language is demonstrated by successfully completing the final course in a second-year language sequence or by passing a reading competency exam in the language.

Students must also pass a written Graduate Exam in their concentration.

Additional information about these requirements, the non-thesis option, and program procedures, is available from the English graduate program office.

Master of Fine Arts

Creative Writing, MFA

Department of English, College of Humanities and Social Sciences

55 Credits

Graduate Faculty

Anderson, Katherine, PhD, British literature, empire/postcolonial studies, gender and sexuality studies, critical terrorism studies.

Beasley, Bruce, PhD, creative writing (poetry), American literature.

Brown, Nicole, PhD, rhetoric and composition, technical writing, visual rhetoric, service learning and cybercultural studies.

Cushman, Jeremy, PhD, rhetoric and composition, workplace writing, public rhetorics, digital humanities and postmodern research methodologies.

ENGLISH

Denham, Kristin, PhD, linguistics, syntax and grammar, dialect, Native American languages and literatures.
Dietrich, Dawn, PhD, cinema studies, literature and technology, cyberculture, critical theory.

Introduction

Western Washington University's English Department offers a 2-year MFA program in Creative Writing within a community that values creative development and intellectual versatility. We encourage a focus on multigenre or cross-genre writing, based on our view that creative writing graduates need to be versatile in their comprehension of genre conventions and conversant in the way diverse genres inform one another. A variety of courses we offer stress either a multigenre focus or encourage experimental works that blur genre boundaries.

Creative writing practice and literary study are synergistic in our program. Students take seminars in creative writing and literature, as well as courses in rhetorical thinking and composition, digital and technical writing, film studies, and linguistics. We offer Graduate Assistantships that provide quality teacher training, as well as opportunities to gain editorial experience with the award-winning journal *Bellingham Review*.

Goals

The MFA program in English is designed for those who desire to prepare for:

- Life as a serious author, with an understanding of the literary marketplace and publication

- PhD programs, as well as other advanced degrees in fields such as law or teaching
- Teaching at both two- and four-year colleges and universities
- Public or private teaching (elementary, middle, secondary)
- Careers in technical writing and communication
- Careers in editing and publishing
- Careers in nonprofit and other business organizations

Students will attain the following skills:

- Fluency in multigenre or cross-genre writing and comprehension of genre conventions, as well as the way diverse genres can inform one another
- Professionalism in creative writing, along with in-depth literary study in areas that might include national and global literatures and cultures, critical and cultural theory, film and media, pedagogy, composition and rhetoric, technical writing, professional writing, editing and publishing, and linguistics
- Teaching experience (if awarded a teaching assistantship or internship)
- Professional editing with scholarly and creative writing journals, such as the Bellingham Review
- Professional communication, oral and written
- Competency in the use of classroom and communications technologies
- Awareness of diversity, educational equity, and social justice issues
- Awareness of ethical and reflective pedagogical practices

Prerequisites

Undergraduate major in English or Creative Writing, or departmental permission. Candidates with an insufficient background in English are normally requested to acquire 30 upper-division credits in creative writing, literature, and/or criticism with a grade of B or better in each course. The department reserves the right to approve a course of study.

Application Information

Deadlines: Applications for the following academic year must be complete — all materials on file — by January 15 for priority consideration. Applications completed after that date may be considered on a space-available basis. Applications completed after June 1 will be considered for the following year. Admission into the program is for fall quarter.

Teaching Assistantship Deadlines: Same as above.

The materials submitted for admission must include:

- A statement of purpose: this statement should explain intellectual and/or creative interests, and professional goals. If you are interested in being considered for a funded Teaching Assistantship, please include relevant experience and information that will aid the department in making funding decisions.
- Two writing samples. Creative Writing: 10 to 15 pages of prose (fiction or creative nonfiction); or 10 to 15 pages of poetry; or a combination of genres, 15 pages total; AND a Critical writing sample: 7 to 12 pages of analytical work in literary study.
- Appropriate admissions forms.
- The department expects a strong analytic score and a verbal score of at least 153 on the GRE ("Revised" General) exam.

Program Requirements

- ENG 501 - Literary Theories and Practices **Credits:** 5
- 20 credits in creative writing courses, to be taken in at least two different genres from the following:
 - ENG 502 - Seminar in the Writing of Fiction **Credits:** 5
 - ENG 504 - Seminar in the Writing of Poetry **Credits:** 5
 - ENG 505 - Seminar in the Writing of Nonfiction **Credits:** 5
 - ENG 506 - Seminar in Creative Writing: Multigenre **Credits:** 5

ENGLISH

- ENG 520 - Studies in Poetry **Credits:** 5 *
- ENG 525 - Studies in Fiction **Credits:** 5 *
- ENG 535 - Studies in Nonfiction **Credits:** 5 *

*These courses may be taken as either creative writing or literature credits, depending on the nature of the final project. To use them as part of the creative writing core requirement, students must take them as creative writing courses.

□ 20 credits in literature, composition/rhetoric, pedagogy, or critical theory, to be taken from the following:

- ENG 500 - Directed Independent Study **Credits:** 1-5
 - ENG 509 - Internship in Writing, Editing and Production **Credits:** 1-5
 - ENG 510 - Seminar: Topics in Rhetoric **Credits:** 5
 - ENG 513 - Seminar in Teaching College Composition **Credits:** 5 (for Teaching Assistants)
 - ENG 515 - Studies in Literary and Critical Theory **Credits:** 5
 - ENG 540 - Studies in Global Literatures **Credits:** 5
 - ENG 550 - Studies in American Literatures **Credits:** 5
 - ENG 560 - Studies in British Literature **Credits:** 5
 - ENG 570 - Topics in Cultural Studies **Credits:** 5
 - ENG 575 - Studies in Women's Literature **Credits:** 5
 - ENG 580 - Studies in Film **Credits:** 5
 - ENG 594 - Practicum in Teaching **Credits:** 2-5
 - ENG 598 - Seminar in the Teaching of English **Credits:** 5
- ENG 520, 525, and 535 (see creative writing courses) may also be used for literature credit, depending on the nature of the final project. The same course may not be used for both literature and creative writing credit.

□ ENG 690 - Thesis Writing **Credits:** 2-10 (10 credits)

NOTE: With the permission of the graduate advisor, a student may take up to 10 credits of some combination of approved 400-level courses, ENG 500, ENG 509, and ENG 594. No more than 5 credits of ENG 500 may be applied toward the degree.

Students are encouraged to fill out their two years of study with electives that stress creative writing, pedagogy, editing/publishing, literature, or rhetoric, as dictated by the student's interests and career goals.

Other Requirements

Students must demonstrate reading competence in a second language acceptable to the department's Graduate Studies Committee or take an additional 5-credit 400- or 500-level course focused on the study of language. (Credits taken to meet with requirement do not count towards degree.) Normally competence in a second language is demonstrated by successfully completing the final course in a second-year language sequence or by passing a reading competency exam in the language.

Students must also pass a written Graduate Exam in their concentration.

A successful creative thesis, with a critical preface, approved by the student's Creative Writing Thesis committee and the Graduate School.

Minor

Creative Writing Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The Creative Writing minor focuses on writing courses: creative writing in fiction, drama, poetry, or nonfiction prose. Courses taken for credit in minor programs may not be counted toward English major programs.

Why Consider a Creative Writing Minor?

Creative writing minors develop skills in creative thought and expression through study and practice of the craft of fiction, creative nonfiction, poetry, and/or drama. Students participate in both the critical analysis and creative practice of writing, gaining widely-applicable experience in self-expression, artistic technique and modes of communication.

How to Declare (Admission and Declaration Process):

Meet in person with the English Department's Undergraduate Program Coordinator, Jemma Everyhope-Roser, to declare this minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Four creative writing courses including work in at least two genres
- An elective under advisement from the 300 and 400 level courses

English Linguistics Minor

Department of English, College of Humanities and Social Sciences

23-25 Credits

Introduction

Linguistics is the scientific study of language. Students study the different components of grammar (syntax, phonology, morphology and semantics), how language changes over time, how it varies from speech community to speech community; how it is acquired by children; and how the brain is organized for language. English linguistics is the scientific study of the English language, its grammatical structure, dialects, and history. Courses in English Linguistics also address linguistic ideology and discrimination in U.S. institutions, linguistics in K-12 education, and English as a global language. Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Linguistics Minor?

Students take courses in English linguistics (the structure and history of English, etc.) as well as a selection of core courses in the Linguistics Program (syntax, phonology, etc.). Students graduate with a degree in English that also recognizes their interest and expertise in Linguistics.

- ENG 439 - Topics in Language and Linguistics **Credits: 5 ***
- Linguistics courses under advisement at the 300 and 400 level
May be repeated once with a different topic.

English Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The study of English offers students the opportunity to study and work with texts that have shaped, and been shaped by, the English language. We offer a diverse spectrum of classes ranging from antiquity to the twenty-first century and covering a wide variety of topics in literature, media, composition, and language studies. English courses encompass and explore multiple cultural traditions, allowing students to cultivate skill in critical thinking, creative expression, close reading, persuasive writing and effective speaking. Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider an English Minor?

An English minor provides you with three essential tools for success in a wide range of careers: the ability to read critically, write clearly and specifically, and understand the ideas and experiences that shape the histories of our local, national and global communities. Employers and professions of all kinds value such abilities and seek out those who have them.

Meet in person with English Department's Undergraduate Program Coordinator, Jemma Everyhope-Roser, to declare this minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- 25 credits of English at the 200 level or above, with a minimum of 15 credits at the 300 or 400 level

Film Studies Minor

Department of English, College of Humanities and Social Sciences

23-25 Credits**Introduction**

In the Film Studies minor students will engage major artistic, technological, commercial and social developments throughout cinema and media history. They will learn a language of analysis that will equip them to communicate about and with moving images. Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Film Studies Minor?

The study of film is one of the fastest growing disciplines at American colleges and universities. While the Film Studies minor provides a solid foundation for further professional development in the fields of filmmaking, curating, or media publishing, it also fosters a broad base of abilities sought by employers in a variety of employment sectors. At Western we encourage students to combine critical writing with hands-on moving image projects because we value the multimedia communication skills that are becoming increasingly important, not only in the job market, but for all informed citizens. The film studies minor at Western also emphasizes that film is a global medium and welcomes students with interests in global studies.

 - HIST 364 - Film As History **Credits: 5**

Women's Literature Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The study of Women's Literature includes the study of literature written by women and analysis of the representation of the wide range of issues that shape their lives and work, including but not limited to the construction of gender, sexuality, age, race and class.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Women's Literature Minor?

A Women's Literature minor provides you with essential tools for success in a wide range of careers: the ability to read critically, write clearly and specifically, and synthesize information and arguments drawn from diverse disciplines and perspectives as a means of interpreting a single text. Employers and professions of all kinds value such abilities and look for those who have them.

Writing Studies Minor

Department of English, College of Humanities and Social Sciences

25 Credits

Introduction

The Writing Studies minor is a 25 credit minor that includes courses that focus on deepening and extending your thinking and rhetorical flexibility. That is, these courses are designed to help students to develop the capacity to anticipate and appropriately respond to the particular needs of readers, and to build and examine texts, both print and digital, for widely differing contexts.

Courses taken for credit in minor programs may not be counted toward English majors.

Why Consider a Writing Studies Minor?

Writing, in all its diverse forms, is the backbone of a university education and is also critical for most professions. Good written communication includes the ability to think deeply, reflectively, and rhetorically and develops a capacity to both foster and adapt to change. The versatility and flexibility that the Writing Studies minor offers will benefit your work in college and beyond because writing (or composing) effectively in different environments matters regardless of the life you're chasing after. Simply put, good writing, in whatever form it takes, can make lots happen - for you and for others.

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- ❑ Two courses from:
 - ENG 301 - Introduction to Writing Studies **Credits:** 5
 - ENG 302 - Introduction to Technical and Professional Writing **Credits:** 5
 - ENG 371 - Introduction to Rhetorical Analysis **Credits:** 5
- ❑ One course from:
 - ENG 401 - Senior Seminar in Writing Studies and Rhetoric **Credits:** 5
 - ENG 402 - Advanced Technical and Professional Writing **Credits:** 5
 - ENG 442 - Studies in Literacy **Credits:** 5
 - ENG 461 - Internship in English: Professional Identity **Credits:** 5
 - ENG 462 - Topics in Professional and Technical Writing **Credits:** 5 *
- ❑ Courses under advisement at the 300 and 400 level to be selected from courses in visual media and writing, including offerings in other departments.
 - *Repeatable once.

English Courses

ENG 100 - Introduction to College Writing

A writing course that offers practice in reading complex texts, writing with fluency and using the conventions of standard written English. Regularly scheduled conferences with instructor required. S/U grading.

Credits: 5

Grade Mode: S/U

ENG 101 - Writing Your Way Through WWU

A writing course designed to prepare students for college-level creative, critical, and reflective writing. Because writing looks and works differently in different contexts, this course teaches the rhetorical competencies that students need to write across multiple disciplines. The course introduces students both to the processes of building and analyzing ideas, and to ways of communicating those ideas in context-specific genres for targeted audiences. This course has the immediate goal of preparing students to succeed in their writing at Western, but it will also serve them personally and professionally. Students needing to satisfy Block A of the communications section of the General University Requirements,

which ENG 101 does, are required to do so prior to completion of 45 credits. Students with a 4 or 5 AP score are encouraged to take this class so they can learn to adapt their test-taking skills to college coursework.

Prerequisites & Notes: May not be taken concurrently with ENG 100.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACOM

ENG 110 - Writing, Designing, Remixing with Western Reads

In this computer-mediated writing course, students respond to the Western Reads text by constructing and designing different kinds of print, visual, and oral texts. This course is recommended for freshmen.

Credits: 2

Grade Mode: Letter

ENG 195 - Introduction to Creative and Technical Writing

An intensive introduction to creative and technical writing for entering freshmen.

Credits: 2

Grade Mode: S/U

ENG 201 - Writing In Humanities

Advanced instruction and practice in writing using ideas, texts and questions from a specified topic in the humanities. Areas and focus vary with section.

Prerequisites & Notes: ENG 101 or 4/5 AP English Language Exam.

Credits: 5

Grade Mode: Letter

GUR Attributes: CCOM

ENG 202 - Writing About Literature

A writing course designed to help students develop the skills of close reading and careful analysis of literary texts, with particular attention to how language, style, and form contribute to a text's social or political claims. Introduces students to the challenge of situating themselves in relation to a literary text and the critical conversation about that text, and crafting multi-draft critical essays with a focused, arguable thesis supported by thoughtful sequence of claims and carefully selected textual evidence.

Prerequisites & Notes: ENG 101.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

ENG 214 - Shakespeare

Analysis, interpretation and discussion of a selected number of Shakespeare's plays: histories, comedies, tragedies and romances.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 215 - British Literature

Analysis, interpretation and discussion of a range of texts in British literature with attention to cultural contexts.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 216 - American Literature

Analysis, interpretation and discussion of a range of texts in American literature with attention to cultural contexts.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 227 - Queer Literature

Analysis, interpretation and discussion of a range of texts by queer authors.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 234 - African-American Literature

Analysis, interpretation and discussion of written, spoken and visual texts by African-American men and women from the 18th century to the present.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 235 - Native and Indigenous Literatures of North America

Analysis, interpretation and discussion of written, spoken and visual texts in English and translation by native and indigenous writers and storytellers of North America.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 236 - Asian-American Literatures

Analysis, interpretation and discussion of written and visual texts in English and translation by and about Asian-Americans.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 238 - Society Through Its Literature

A thematic approach to literature, with different themes exploring the relationship between literary forms and society. Repeatable once as an elective with different topics. May be taken only once for GUR credit.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 239 - Latina/o Literatures

Analysis, interpretation and discussion of a range of texts in English and in translation by Latina/o authors.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 270 - Language and Society

A thematic approach to the study of language use in society, with different themes exploring the relationship between language, meaning, and the social contexts in which they occur. May be taken only once for GUR credit.

Credits: 5

ENGLISH

Grade Mode: Letter
GUR Attributes: HUM

ENG 282 - Global Literatures

Analysis, interpretation and discussion of a range of texts in global literatures with attention to cultural contexts.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

ENG 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ENG 301 - Introduction to Writing Studies

Inquiry and practice of writing in personal, public and academic contexts. Emphasis on expressive, analytical, critical, and collaborative forms of writing as appropriate. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: ENG 101; junior status
Credits: 5
Grade Mode: Letter

ENG 302 - Introduction to Technical and Professional Writing

Introduction to major contemporary strategies and conventions used in written and oral communication for multiple audiences in professional settings. Covers a variety of written forms used in the preparation and design of technical and business documents, critical analyses of these forms and practices, and the ethical and social implications of a technical writer's choices.

Prerequisites & Notes: ENG 101; junior standing.
Credits: 5
Grade Mode: Letter

ENG 307 - Seminar in Literature & Culture: Medieval

A research and writing intensive course in the context of the literary history of the medieval period. Students will develop the skills to research and write about literary texts and participate in the critical conversations about them. (Only one of ENG 307 and ENG 317 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 308 - Seminar in Literature & Culture: Early Modern

A research and writing intensive course in the context of the literary history of the Early Modern period. Students will develop the skills to research and write about literary texts and participate in the critical conversations about them. (Only one of ENG 308 and ENG 318 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 309 - Seminar in Literature & Culture: The Long 18th Century

A research and writing intensive course in the context of the literary history of the long eighteenth century. Students will develop the skills to research and write about literary texts and participate in the critical conversations about them. (Only one of ENG 309 and ENG 319 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 310 - Seminar in Literature & Culture: The Long 19th Century

A research and writing intensive course in the context of the literary history of the long nineteenth century. Students will develop the skills to research and write about literary texts and participate in the critical conversations about them. (Only one of ENG 310 and ENG 320 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 311 - Seminar in Literature & Culture: The 20-21st Century

A research and writing intensive course in the context of the literary history of the 20-21st century. Students will develop the skills to research and write about literary texts and participate in the critical conversations about them. (Only one of ENG 311 and ENG 321 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202
Credits: 5
Grade Mode: Letter

ENG 313 - Introduction to Critical and Cultural Theories and Practices

Introduction to a range of critical and cultural theories in a historical context. Emphasis on critical reading and writing in preparation for 400-level courses in literary and cultural studies.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 317 - Survey in Literature & Culture: Medieval

Analysis, interpretation and discussion of texts in English or in translation from the medieval period with an attention to literary history. (Only one of ENG 307 and ENG 317 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 318 - Survey in Literature & Culture: Early Modern

Analysis, interpretation and discussion of texts in English or in translation from the Early Modern period with an attention to literary history. (Only one of ENG 308 and ENG 318 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 319 - Survey in Literature & Culture: The Long 18th Century

Analysis, interpretation and discussion of texts in English or in translation from the long eighteenth century with an attention to literary history. (Only one of ENG 309 and ENG 319 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 320 - Survey in Literature & Culture: The Long 19th Century

Analysis, interpretation and discussion of texts in English or in translation from the long nineteenth century with an attention to literary history. (Only one of ENG 310 and ENG 320 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 321 - Survey in Literature & Culture: The 20-21st Centuries

Analysis, interpretation and discussion of texts in English or in translation from the 20-21st centuries with an attention to literary history. (Only one of ENG 311 and ENG 321 may be taken for credit in English majors and minors.)

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 331 - Studies in Gender Theory

This course will examine gender theory, with varying emphases, including but not limited to feminist, queer, trans, intersectional and critical race theory. Repeatable with different topics up to 10 credits including original course. Also offered as WGSS 331.

Prerequisites & Notes: ENG 202 or WGSS 211

Credits: 5

Grade Mode: Letter

ENG 332 - Literature and Philosophy

Comparative study of the concepts, techniques and concerns of philosophical inquiry and literary analysis as they arise in the philosophical essay and the literary forms of poetry, drama, fiction, creative nonfiction, film and electronic art in English and translation.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 333 - Topics in Global Literature

Studies in world literature in English or translation and of their historical and cultural contexts.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 334 - Literary and Creative Expression Across North America and Europe

Analysis primarily of North American and European texts with engagement in issues of multiculturalism and cultural diversity. Repeatable once as an elective with different topics. May be taken only once for GUR credit.

Prerequisites & Notes: ENG 101 or equivalent.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 335 - Literary and Creative Expressions Across Asia, Africa, the Middle East, and Latin America

Analysis primarily of texts of Asia, Africa, the Middle East and Latin America. Repeatable once as

ENGLISH

an elective with different topics.

Prerequisites & Notes: ENG 101 or equivalent.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ENG 336 - Scriptural Literatures

Analysis of literary texts in one or more religious traditions, which originated in Asia, Africa, the Middle East and Latin America; study of scriptural literature as a source of cultural paradigms.

Prerequisites & Notes: ENG 101.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

ENG 338 - Women and Literature in North America and Europe

Study of women's texts in various cultures primarily of North America and Europe, including thematic and stylistic development within cultural context.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

ENG 339 - Mythology and Literature

Comparative study of the patterns, motifs and techniques in world mythologies as they recur and evolve in poetry, drama, fiction, creative nonfiction, film and electronic media in English and translation.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

ENG 341 - Studies in Children's Literature

Examination of the variety and diversity of literature written for children and adolescents; exploration of book format, major genres, and works by notable authors and illustrators.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 342 - Studies in Literary Genres

Studies in literature from the perspective of genre and of topics in particular literary genres.

Prerequisites & Notes: ENG 202

Credits: 5

Grade Mode: Letter

ENG 347 - Studies in Young Adult Literature

Studies in literature written for and/or by young adults. May focus on literary history, genres, theme, critical approaches or specific authors. Class assignments and discussion may focus on using this literature with young adults in secondary schools and in a home setting.

Prerequisites & Notes: ENG 202 or permission of instructor.

Credits: 5

Grade Mode: Letter

ENG 350 - Introduction to Creative Writing

Examines the fundamentals of at least two genres, such as fiction, nonfiction, playwriting, or poetry. The course will include both lectures, focused on model texts, and workshop-style discussions, focused on student work.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 351 - Introduction to Fiction Writing

Examines the fundamental tools available to writers of fiction: point of view, dialog, characterization and voice. The course introduces the terms and protocol of workshop critique.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 353 - Introduction to Poetry Writing

Introduction to the techniques of poetry writing, including craft, practice and modeling.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 354 - Introduction to Creative Nonfiction Writing

An introductory course in writing nonfiction prose, such as personal essay, memoir, autobiography, travel writing, and other forms.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 364 - Introduction to Film Studies

Overview of the conventions and techniques of narrative cinema with some readings in film theory.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 365 - Topics in Film History

Analysis, interpretation and discussion of films belonging to a particular period in film history. Repeatable with different topics up to ten credits including original course.

Prerequisites & Notes: ENG 364 or ENG 202

Credits: 5

Grade Mode: Letter

ENG 370 - Introduction to Language

Overview of language structure and use. Topics include phonology, morphology, syntax and semantics, how language is acquired, and how it changes over space and time. Emphasis on English as a global language.

Prerequisites & Notes: ENG 101

Credits: 5

Grade Mode: Letter

ENG 371 - Introduction to Rhetorical Analysis

Introduction to rhetorical theories and analysis.

Prerequisites & Notes: ENG 101 and junior status.

Credits: 5

Grade Mode: Letter

ENG 381 - Academic Writing

A course for international transfer students that focuses on multi-disciplinary, academic writing.

Prerequisites & Notes: Instructor permission

Credits: 5

Grade Mode: Letter

ENG 382 - University Culture

An academic support class for international transfer students that focuses on the knowledge and critical thinking skills needed to be successful at WWU.

Prerequisites & Notes: Instructor permission

Credits: 2

Grade Mode: Letter

ENG 385 - Sustainability Literacy II

Advanced instruction and practice in applying systems thinking to writing projects related to the topic of sustainability.

Prerequisites & Notes: ENVS 116 or ENG 201 or ENG 202.

Credits: 5

Grade Mode: Letter

ENG 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be

arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

ENG 401 - Senior Seminar in Writing Studies and Rhetoric

Senior writing seminar on the theories and practices of rhetorical genres.

Prerequisites & Notes: ENG 301 or ENG 302 or ENG 370 or ENG 371, or instructor approval; senior status.

Credits: 5

Grade Mode: Letter

ENG 402 - Advanced Technical and Professional Writing

Writing-intensive class focusing on advanced problems of technical communications and their solutions. Strategies for identifying target readers and meeting their informational needs. Special emphasis on a technical writer's responsibilities and the ethical, social and technical issues surrounding electronic publishing.

Prerequisites & Notes: ENG 302

Credits: 5

Grade Mode: Letter

ENG 406 - Topics in Critical and Cultural Theory

An advanced course that examines one or more critical or cultural theories. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: ENG 313 plus two from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 408 - Cultural Studies

An advanced course that applies semiotic and/or textual approaches to a wide range of cultural issues. Repeatable once with different topics.

Prerequisites & Notes: ENG 313 plus two from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 410 - Studies in Literary History

A wide variety of studies in literary history. Repeatable once as an elective with different topics.

ENGLISH

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371.

Credits: 5

Grade Mode: Letter

ENG 415 - Special Topics in National Literatures

Studies in a variety of topics, canons or national literatures, such as Irish, Canadian, African, Native or Asian American. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371, possible additional prerequisites relevant to topic.

Credits: 5

Grade Mode: Letter

ENG 418 - Senior Seminar

An advanced seminar offering an in-depth exploration of specialized topics. Requires students to develop scholarly projects integrating course material with their own literary, historical, and theoretical interests. This course is not repeatable.

Prerequisites & Notes: Senior status; ENG 313 and one from: ENG 307, ENG 308, ENG 309, ENG 310 or ENG 311.

Credits: 5

Grade Mode: Letter

ENG 423 - Studies in Major Authors

Studies in the texts of a writer or writers in English or in translation. Repeatable once as an elective with different authors.

Prerequisites & Notes: ENG 202 plus three from: ENG 304-347, ENG 364, ENG 370, ENG 371; possible additional prerequisites relevant to topic

Credits: 5

Grade Mode: Letter

ENG 427 - Queer Studies

Analysis, interpretation and discussion of the representation of sexuality in a range of texts with an emphasis on same-sex desire and works by Queer writers.

Prerequisites & Notes: One course from: ENG 227, ENG 313, ENG 351, ENG 353, ENG 354 or equivalent prerequisite coursework and instructor approval; and junior status.

Credits: 5

Grade Mode: Letter

ENG 436 - The Structure of English

Introduction to English sentence structure. Topics include clause structure, modification, complementation, and syntactic principles such as movement, coordinating and pronominalization.

Prerequisites & Notes: ENG 370 or instructor

permission.

Credits: 5

Grade Mode: Letter

ENG 438 - Topics in Language Change and Variation

Explores variable topics in the development of the English language over time and space.

Prerequisites & Notes: ENG 370 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 439 - Topics in Language and Linguistics

Explores topics in language and linguistics of interest to students of English literature, creative writing and English education. Repeatable once as an elective with different topics.

Prerequisites & Notes: ENG 370 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 442 - Studies in Literacy

Examines shifting definitions of literacy and literacy practices from social, cultural, historical, and technological perspectives.

Prerequisites & Notes: One course from ENG 301, ENG 302, ENG 370, ENG 371 or instructor approval.

Credits: 5

Grade Mode: Letter

ENG 443 - Teaching English Language Arts in the Secondary Schools I

Survey of theory, practice, resources and methods of assessment for the teaching of English language arts.

Prerequisites & Notes: ENG 301 or ENG 302; ENG 347; ENG 350; ENG 370; and two from ENG 307, ENG 308, ENG 309, ENG 310, and ENG 311.

Credits: 5

Grade Mode: Letter

ENG 444 - Teaching English Language Arts in the Secondary Schools II

Continuation of the survey of theory, practice, resources and methods of assessment for the teaching of English language arts. This course may include a two-week, one period a day teaching practicum in a middle or high school.

Prerequisites & Notes: ENG 443

Credits: 5

Grade Mode: Letter

ENG 451 - Creative Writing Seminar - Fiction

An advanced course in the writing of fiction. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 351

Credits: 5

Grade Mode: Letter

ENG 453 - Creative Writing Seminar - Poetry

An advanced course providing disciplined expression in a variety of modes of writing poetry. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 353

Credits: 5

Grade Mode: Letter

ENG 454 - Creative Writing Seminar - Creative Nonfiction

An advanced workshop course in the writing of nonfiction, building on skills learned in prior courses. Repeatable with different instructors to a maximum of 10 cr.

Prerequisites & Notes: ENG 354

Credits: 5

Grade Mode: Letter

ENG 455 - Living Writers

An advanced course that combines study of the craft of writing in contemporary works of poetry, fiction, and/or nonfiction and literary expression. May include oral performances and lectures by visiting writers. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: One from: ENG 351, ENG 353, ENG 354.

Credits: 5

Grade Mode: Letter

ENG 456 - Special Topics in Fiction Writing

Intensive reading, writing and workshops in one or more specific modes of fiction, such as fantasy, flash fiction, or adapting fictional works to other media. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 351

Credits: 5

Grade Mode: Letter

ENG 457 - Special Topics in Poetry Writing

Intensive study of poetic texts in traditional and experimental forms. Opportunity to compose in a variety of poetic forms. Study of appropriate models. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 353

Credits: 5

Grade Mode: Letter

ENG 458 - Special Topics in Creative Nonfiction Writing

Intensive reading, writing and workshop in one or more specific modes of nonfiction, such as memoir, travel writing, autobiography and the personal essay. Repeatable with different instructors to a maximum of 10 credits, including original course.

Prerequisites & Notes: ENG 354

Credits: 5

Grade Mode: Letter

ENG 459 - Editing and Publishing

Focuses on a variety of professional editing and publishing procedures, opportunities and venues; politics of the literary marketplace; and careers available to writers.

Prerequisites & Notes: ENG 351, ENG 353 or ENG 354

Credits: 5

Grade Mode: Letter

ENG 460 - Special Topics In Creative Writing - Multi-Genre

Intensive study of topics in creative writing that cross genre boundaries, or that critique those boundaries. Opportunities to compose experimental or hybrid works. Repeatable with different instructors to a maximum of 10 credits.

Prerequisites & Notes: ENG 351, ENG 353 or ENG 354

Credits: 5

Grade Mode: Letter

ENG 461 - Internship in English: Professional Identity

Students will intern in a local organization and participate in weekly seminar meetings designed to contribute to their internship experience and their own professional identities.

Prerequisites & Notes: Senior status (135 credits) and instructor approval.

Credits: 5

Grade Mode: Letter

ENG 462 - Topics in Professional and Technical Writing

A rhetorical examination of various specific topics confronting technical and professional writers in a rapidly changing technological world. Topics change annually. Repeatable once.

Prerequisites & Notes: One course from ENG 301, ENG 302, ENG 371; or equivalent experience

ENGLISH

and instructor approval.

Credits: 5

Grade Mode: Letter

ENG 464 - Topics in Film Studies

Examines various specific topics in film studies and theory. Repeatable once with different topics.

Prerequisites & Notes: ENG 364 or instructor permission.

Credits: 5

Grade Mode: Letter

ENG 466 - Screenwriting

This course in film studies and creative writing provides students an introduction to screenwriting. The course focuses on the writing of narrative screenplays, both short and feature length, while also introducing skills applicable to other genres, including the video essay, episodic narrative for the web, and experimental forms.

Prerequisites & Notes: ENG 364 or one from: ENG 350, ENG 351, ENG 353 and ENG 354.

Credits: 5

Grade Mode: Letter

ENG 480 - Methods for Writing Assistants

Study and practice in theories and strategies for guiding writers, one-to-one or in groups, face-to-face or online. Repeatable up to 5 credits including the original course. S/U grading.

Prerequisites & Notes: Selection as a Writing Center Assistant.

Credits: 1-3

Grade Mode: S/U

ENG 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-5

ENG 501 - Literary Theories and Practices

Examination of theories as they affect the practice of literary criticism and scholarship. Some attention to methods of research and documentation in English studies. Practicum in critical writing.

Credits: 5

Grade Mode: Letter

ENG 502 - Seminar in the Writing of Fiction

Individual projects in fiction along with examination of recently published works of fiction. May be repeated under advisement.

Credits: 5

Grade Mode: Letter

ENG 504 - Seminar in the Writing of Poetry

Individual projects in poetry along with examination of recently published volumes of poetry. May be repeated under advisement.

Credits: 5

Grade Mode: Letter

ENG 505 - Seminar in the Writing of Nonfiction

Individual projects in nonfiction along with examination of classic and modern models of nonfiction. May be repeated under advisement. NOTE: Graduate seminars in playwriting are available from the Department of Theatre Arts.

Credits: 5

Grade Mode: Letter

ENG 506 - Seminar in Creative Writing: Multigenre

Studies in the theory and practice of creative writing that can encompass more than one genre, create hybrid genres, or cross genre lines. May be repeated under advisement.

Credits: 5

Grade Mode: Letter

ENG 509 - Internship in Writing, Editing and Production

Under advisement, students may receive credit while working as interns in both on-campus and off-campus assignments appropriate to their career plans. Repeatable to 5 cr. S/U grading.

Credits: 1-5

Grade Mode: S/U

ENG 510 - Seminar: Topics in Rhetoric

Rhetorical theory and composition. Topics from classical tradition and modern developments. Applications for teaching of language, literature and composition. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 513 - Seminar in Teaching College Composition

Offered once a year in the fall.

Prerequisites & Notes: appointment as a

teaching assistant or instructor permission

Credits: 5

Grade Mode: Letter

ENG 515 - Studies in Literary and Critical Theory

Examines major theorists or movements in literary and critical theory. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 520 - Studies in Poetry

Examines the characteristics, history, uses and criticism of poetry. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 525 - Studies in Fiction

Examines the characteristics, history, uses and criticism of fiction. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 535 - Studies in Nonfiction

Examines the characteristics, history, uses and criticism of nonfiction. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 540 - Studies in Global Literatures

Examines global literatures, involving topics such as war, imperialism, post-colonialism, religion, feminism, migration, and the politics of language. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 550 - Studies in American Literatures

Examines writers, periods and topics drawn from the full diversity of literature written in America. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 560 - Studies in British Literature

Examines writers, periods and topics drawn from the full diversity of British literature. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 570 - Topics in Cultural Studies

Examines the relationship between culture and texts and applies semiotic and/or textual approaches to a wide range of issues in cultural studies. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 575 - Studies in Women's Literature

Examines writers, movements and topics in women's writing that may cut across genres and nationalities. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 580 - Studies in Film

Examines the codes and conventions of cinema with attention to critical theory. Repeatable with different topics.

Credits: 5

Grade Mode: Letter

ENG 594 - Practicum in Teaching

Supervised teaching for MA or MFA candidates, under the direction of graduate faculty. Repeatable to a maximum of 5 credits including original course.

Prerequisites & Notes: ENG 501

Credits: 2-5

Grade Mode: Letter

ENG 598 - Seminar in the Teaching of English

Various announced topics in the teaching of language, literature, composition, technical writing, and creative writing. Repeatable with different topics up to 10 credits including original course.

Credits: 5

Grade Mode: Letter

ENG 690 - Thesis Writing

Repeatable to a maximum of 10 credits, including original course.

Credits: 2-10

Grade Mode: Letter

Health and Human Development

Introduction

The Department of Health and Human Development offers degree programs for students interested in professions related to kinesiology, P-12 physical education and health, community health education, and recreation.

Faculty

KEITH C. RUSSELL (2008) Chair and Professor. BS, Lewis and Clark College; MS, PhD, University of Idaho.

JESSYCA ARTHUR-CAMESELLE (2015) Assistant Professor. BS, College of William and Mary; MEd, PhD, Boston University.

LORRAINE BRILLA (1985) Professor. BS, Pennsylvania State University; MS, Pennsylvania State University; PhD, University of Oregon.

RANDALL T. BURTZ (2003) Associate Professor. BA, MA, Washington State University; PhD, Colorado State University.

HARSH HARISH BUDDHADEV (2015) Assistant Professor. BPhy, Gujarat University; MS, University of North Texas.

GORDON CHALMERS (1996) Professor. BS, Simon Fraser University; MS, PhD, University of California-Los Angeles.

MELISSA D'ELOIA (2015) Associate Professor. BS, Ohio University; MS, PhD, University of Utah.

HILLARY FRANKS (2018) Assistant Professor, BS, MS, Central Washington University; PhD, University of Northern Colorado

JASMINE GOODNOW (2013) Associate Professor. BS, Brigham Young University; MS, University of Utah; PhD, University of Utah.

KARI JO HILGENDORF (2016) Assistant Professor. BS, Washington State University; PhD, Washington State University.

LINDA A. KEELER (2012) Assistant Professor. BA, Colgate University; MA, University of Maryland; EdD, West Virginia University.

YING LI (2006) Professor. BMed, Zhejiang Chinese Medical University; MS, Zhejiang University; MEd, University of Cincinnati; PhD, University of Florida.

BERNARDO SAN JUAN JR. (2013) Assistant Professor. BS, University of Philippines; MA, San Diego State University; PhD, University of Oregon.

DAVID N. SUPRAK (2008) Professor. BS, Eastern Washington University; MS, Western Washington University; PhD, University of Oregon.

NICK WASHBURN (2017) Assistant Professor. BS, MS, Cortland State University; PhD, University of Alabama.

Affiliated Teaching Faculty

STEVE BENNETT (2018) Instructor. BFA- Texas State University, MSPH- Tulane University, PhD- University of Minnesota.

LINDSAY POYNTER (2010) Instructor. BA, Western Washington University; MA, Naropa University.

Facilities

For students in the kinesiology and physical education programs, exercise physiology and biomechanics laboratories in the new state-of-the-art Carver Academic Facility afford students an opportunity for in-depth study in the exercise sciences and health assessment as applied to health and sports science. Considerable practical experience using laboratory and computerized equipment enables students to develop skills in cardiorespiratory, anthropometric, strength and movement analysis, and health appraisals.

In the Community Health and Recreation Programs, our laboratories are our shared common spaces in the Carver Academic Facility, dedicated classrooms, and the communities with which we work. Through a variety of service learning opportunities, retreats, field experiences, and internships, students are provided hands-on experiences with qualified professionals and leading organizations in the recreation and allied health field to help solve real world problems and develop critical professional skills.

Major Programs

Kinesiology and Physical Education

The major programs are varied and include undergraduate student preparation for careers as professional physical and health educators, and undergraduate and graduate kinesiology options. Kinesiology degree completion prepares students for clinical or research graduate school programs or for careers as health fitness instructors in agencies, schools, industries, hospitals and health care facilities. Students are expected to perform community service in all programs. The specializations offered include the following:

- Physical Education and Health P-12, BAE
- Kinesiology — Health and Fitness Specialist Specialization, BS
- Kinesiology — Movement Studies Specialization, BS
- Kinesiology — Pre-Healthcare Professions Specialization, BS

- Kinesiology — Sport Psychology Specialization, BS

Graduate Programs

- Kinesiology, Exercise Science Option, Thesis, MS
- Kinesiology, Sport and Exercise Psychology Option, Thesis, MS

Major application and declaration policy

WWU students with at least 75 credits completed and a GPA of at least 2.5 may apply to enter one of the five specializations in the Kinesiology major. For application process or above links to specific major programs for instructions on how to apply: chss.wvu.edu/hhd/declaring-major.

Kinesiology and Physical Education Mid-Program Checkpoint

Students seeking to complete a BAE degree in teacher education P-12 physical education and health or a BS in kinesiology within a four-year time span should have completed the following courses by the start of their junior year:

- All General University Requirements (GURs)
- BIOL 101 or BIOL 205; and BIOL 348 preferred

NOTE: The teacher education P-12 option requires a 4½-year commitment, which includes a one-semester student teaching internship. Students must meet the minimum entry requirements of the Woodring College of Education before being considered for admission to the P-12 physical education and health program. Students should first declare a pre-major in this specialization in order to register for required pre-major classes and then apply for entry into the P-12 physical education and health program during the fall quarter of their junior year while they are enrolled in pre-major courses. Students who do not meet the minimum qualifications of the Woodring College of Education cannot apply to be considered for entry into the P-12 physical education and health program.

NOTE: The Kinesiology major requires careful planning if students are to complete the degree in a four-year period. If you are interested in this major consult with the Kinesiology web page for

advice on classes to take before becoming a major.

Health Education

Community Health is a discipline within Public Health with roots in the behavioral sciences of psychology, sociology, social psychology, and anthropology; the biological sciences; education; and public health. Students graduate from the program thoroughly versed and practiced as health education specialists and are prepared to succeed on the Certified Health Education Specialist qualifying exam (www.nchec.org/).

The community health major is a good fit for students who want to work in community, public, population, and global health, as well as health communication, or for governmental and non-profit agencies and organizations, in medical care settings, worksite wellness programs, and college and university student service health programs. It can also serve as a preparatory program for graduate or post-baccalaureate training in health promotion/education, public health, and related areas.

Degree Information

- Community Health, BS

There are two steps to becoming a Community Health major:

Step 1, Pre-Major Application:

Students interested in applying to the major should first pre-major in Community Health. This allows students access to entry-level courses.

Step 2, Major Application:

Pre-majors must apply for admission to the major by mid-April or October.

See Applying to the Program for more information on signing up as a pre-major and applying to the major.

Please note: As a Community Health major, you must maintain a 2.50 GPA in all major courses to enroll in the required full-time internship at the end of the program of study.

Recreation

The curriculum in Recreation offers generalist preparation for a wide range of career entry-level positions including:

- Community Recreation
- Therapeutic Recreation

HEALTH AND HUMAN DEVELOPMENT

- Outdoor Recreation
- Ecotourism

The Phase

In addition to its philosophy of professional study based in principles of liberal education, the Recreation Program features an innovative phased curriculum. "The Phase" is a four-part sequence of courses which students typically enter in the spring of their sophomore year and finish the fall of their senior year. Approximately 60 students enter and complete the four blocks of phases together as a community of learners. This arrangement has many advantages, especially:

- A supportive community of fellow students, faculty, and alumni.
- A variety of learning environments such as overnight retreats, field experiences, and professional conferences.
- Greater access to faculty and comprehensive advising.
- A growing alumni network throughout the state, region, and nation.

Bachelor of Arts

Recreation, BA

Department of Health and Human Development, College of Humanities and Social Sciences

67 credits

Introduction

The purpose of recreation and leisure is to contribute to the health and well-being of individuals and to enhance the quality of community life. As such, the study of Recreation is multidisciplinary, requiring understanding of the social, behavioral, physical, and environmental sciences as they pertain to helping people grow and develop in their leisure while conserving our vital natural resources. Knowledge of the arts and humanities is important as well, because leisure is one of the most fertile opportunities for self-expression and the development of community.

In support of healthy individuals, families, and communities, career opportunities in recreation and leisure services are numerous and diverse. The Recreation curriculum prepares students to design, implement, manage, lead, and evaluate recreation programs and services. The program is designed as four sequential 15-16 credit hour blocks of classes (phases) with students moving through the program as a cohort group. Students enter Phase I of the program during spring quarter, typically during their sophomore or junior year. The following schedule shows the sequential order of the four program phases:

-	Fall	Winter	Spring	Summer
Freshman	-	-	-	-
Sophomore	-	-	I	-
Junior	-	II	III	or III
Senior	IV	-	-	-

Degree Information

- Recreation, BA

Students seeking to complete a BA degree in Recreation within a four-year time span should have made normal progress toward the GUR requirements and should apply for admission to the program during fall quarter of their sophomore year. Students should inquire directly to the Recreation Program office in Carver 209 for current information on admission procedures, or please see Applying to the Program for more information on the Phase System and Applying to the Program.

Junior and senior level students are also welcome to apply. Interested students are encouraged to contact the Recreation Program faculty advisors as early as possible to insure timely academic progress.

The Recreation Program is nationally accredited by the Council on Accreditation of Parks, Recreation, and Tourism.

The phase system allows maximum flexibility for scheduling students' educational experience to include workshops, field experiences, conferences and seminars both on and off campus. By making use of other departments at Western, statewide recreation resources, and recreation professionals, students are provided with exposure to a wide variety of experiential and service-learning opportunities.

Why Consider a Recreation Major?

Recreation and leisure contribute to the health and well-being of individuals and their communities. Graduates of the Recreation Program are employed throughout the region, nation and world in a variety of settings, including public recreation departments, outdoor recreation programs, hospitals, and tourism agencies. Specific jobs performed by graduates include working as recreation therapists, organizing and leading outdoor adventure trips, supervising public sports programs, coordinating community cultural arts, operating eco-tourism trips, and serving as park rangers with state and federal agencies, and managing youth services such as Boys and Girls Clubs. Some graduates have found their degrees useful for work in fields such as social work, the ministry and law enforcement.

The Recreation Program emphasizes preparation in the broad areas of outdoor recreation, community recreation, therapeutic recreation, and ecotourism. Community and outdoor recreation graduates find employment in federal and state recreation and park agencies, county and community recreation departments, non-profit agencies, and commercial recreation settings. Therapeutic recreation graduates find employment in hospitals; senior centers; nursing homes; mental health agencies; community recreation departments; and federal, state, and private agencies serving persons with disabilities or other adapted recreation needs. Graduates prepared in ecotourism plan and lead trips worldwide or work in destination planning.

The Recreation Program is nationally accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT). Students should inquire directly to the Recreation Program office in Carver 209 for current information on admission procedures.

Major/Career Resources
www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

First priority is given to students who have submitted applications by the first Thursday in November during fall quarter. After this date, consideration is given to applicants on a case-by-case basis. However, the program is popular and the number of majors admitted is limited, so students are encouraged to apply by the deadline. Students interested in the program should contact the Recreation Program in Carver 209 if they have any questions about available space and the application process. Students must have completed 45 quarter unit credits, including approved transfer credits, before starting Phase I. The deadline also applies to transfer students. Transfer students are urged to contact the Recreation Program for guidance and further information. A minor in Recreation is not offered presently.

Grade Requirements

HEALTH AND HUMAN DEVELOPMENT

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

RECR 380 is required for the therapeutic recreation option and is offered fall quarter each year.

- Prerequisite:
 - RECR 201 - Foundations of Recreation and Leisure **Credits: 4**
- Phase I:
 - RECR 271 - Introduction to Community Recreation and Leisure Services **Credits: 3**
 - RECR 272 - Introduction to Outdoor Recreation **Credits: 3**
 - RECR 274 - Introduction to Therapeutic Recreation **Credits: 4**
 - RECR 275 - Professional Practicum and Seminar **Credits: 1**
 - RECR 276 - Introduction to Program Leadership **Credits: 2**
 - RECR 279 - Introduction to Tourism **Credits: 3**
- Phase II:
 - RECR 372 - Management of Recreation and Leisure Services **Credits: 5**
 - RECR 373 - Recreation Programming **Credits: 4**
 - RECR 378 - Human Relations: Effective Communication in Therapeutic and Recreation Settings **Credits: 4**
- One course from:
 - RECR 370 - Outdoor Program Development **Credits: 4**
 - RECR 376 - Therapeutic Recreation Program Design **Credits: 4**
 - RECR 377 - Community Recreation **Credits: 4**
 - RECR 379 - Foundations of Ecotourism **Credits: 4**
 - RECR 385 - Leisure and Aging **Credits: 4**
- Phase III:
 - RECR 471 - Internship I **Credits: 3**
 - and
 - RECR 472 - Internship II **Credits: 12**
 - OR
 - RECR 473 - Internship III **Credits: 15**
- Phase IV:
 - RECR 444 - Recreation Budgeting and Finance **Credits: 4**
 - RECR 450 - Recreation Program Evaluation **Credits: 4**
 - RECR 480 - Leisure and Society **Credits: 4**
- One course from:
 - RECR 421 - Therapeutic Recreation Trends and Issues **Credits: 3**
 - RECR 470 - Adventure-Based Programming **Credits: 3**
 - RECR 475 - Community Development and Leisure Services **Credits: 3**
 - RECR 479 - Ecotourism: Principles and Practices **Credits: 3**

Support Area

Recreation majors must develop a 25-credit support area. Support areas may range from traditional minors (e.g., sociology, environmental studies, business, and other fields) to interdisciplinary studies incorporating courses from a broader spectrum of University course offerings. The interdisciplinary support area is designed under the guidance of the student's faculty advisor and must have the advisor's final approval.

Bachelor of Arts in Education

Physical Education and Health P-12, BAE

Department of Health and Human Development, College of Humanities and Social Sciences

121 credits*

Introduction

The study of Physical Education and Health involves courses in Kinesiology, Behavioral and Cultural Foundations, Health Education, Physical Education pedagogy, and educational foundations. These courses prepare individuals to effectively teach pre-kindergarten through 12th grade students' motor skills and movement patterns; develop their understanding of movement concepts, skills, and strategies; and facilitate students' knowledge of health related concepts related to lifelong fitness and health.

The Physical Education and Health P-12 major must be accompanied by the Secondary Education Professional Program offered through Woodring College of Education.

*85 credits in Physical Education and Health content area; 36 credits from the Secondary Education program including the student teaching internship. This major leads to an endorsement in health and fitness for grades P-12. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a Teaching Certification in P-12 Physical Education and Health Major?

This major provides concentrated study of Physical and Health Education. Completion of requirements leads to Teacher Certification in P-12 Physical Education and Health (Health and Fitness). The program is unique in that it consists of four sequential five-credit blocks in Physical Education pedagogy with practicum experiences at the elementary, middle, high school, and college levels in diverse teaching environments, allowing students concentrated time to develop teaching strategies while working with children and adolescents in the school based setting. Ongoing analysis of teaching effectiveness is incorporated throughout the program. The health component requires a series of 17 credits of coursework and practica in a health education setting which is integrated into PE 441p. The number of students admitted into the program is limited.

How to Declare (Admission and Declaration Process):

Students desiring entry into the program should follow the process outlined below:

- Meet the minimum qualifications of the Woodring College of Education admissions process. This can be initiated and completed as early as the winter or spring quarters before applying to the physical education and health program the following fall. It is imperative that students begin this process as soon as they are interested in the program. Students who do not meet the minimum qualifications of Woodring College of Education cannot apply for entry into the P-12 physical education and health program.
- Meet with a department advisor to declare the pre-major and outline a plan of study.
- Enroll in KIN 308, PE 340 and BIOL 348 fall quarter.

NOTE: BIOL 348 may be taken prior to fall quarter.

HEALTH AND HUMAN DEVELOPMENT

- Submit a completed application packet for the P-12 physical education and health program early in October. See advisor for exact application date. Students are encouraged to submit applications as soon as they meet the minimum qualifications of Woodring College of Education. This can be done as early as spring quarter before applying to the P-12 physical education and health program the following fall (applications are available in Carver 102, the main office of the HHD department).
- Successful completion (grade C or better) of BIOL 348, KIN 308, PE 340
- Applications for the P-12 physical education and health program will be reviewed by faculty, and a limited number of candidates will be accepted into the program and notified prior to winter quarter. Criteria for acceptance are established by physical education faculty, and applications will be evaluated accordingly. Application procedures include an oral presentation and interview.

Grade Requirements

Students must earn a grade of C (2.0) or better in the secondary education professional program and in all courses required for the endorsement and the academic major.

Program of Study

- BIOL 348 - Human Anatomy and Physiology **Credits: 5**
- HLED 150 - Consumer and Environmental Health **Credits: 4**
- HLED 151 - Society and Drugs **Credits: 2**
- HLED 152 - Society and Sex **Credits: 2**
- HLED 345 - Health Promotion/Disease Prevention **Credits: 4**
- HLED 455 - Health Education Grades K-8 **Credits: 2**
- KIN 308 - Human Growth and Motor Development **Credits: 3**
- KIN 312 - Functional Anatomy **Credits: 5**
- KIN 320 - Psychology of Sport **Credits: 3**
- KIN 321 - Sociology of Sport **Credits: 3**
- KIN 410 - Motor Control and Learning **Credits: 3**
- KIN 413 - Physiology of Exercise **Credits: 5**
- KIN 416 - Strength and Conditioning Program Design **Credits: 3**
- KIN 422 - Professional Issues in Health and Exercise Settings **Credits: 3**
- PE 340 - Block I: Elementary Physical Education Methods **Credits: 5**
- PE 341 - Block II: Elementary Physical Education Methods **Credits: 5**
- PE 341P - Elementary Physical Education Practicum **Credits: 3**
- PE 440 - Block III: Middle School Physical Education Methods **Credits: 5**
- PE 440P - Middle School Physical Education Practicum **Credits: 3**
- PE 441 - Block IV: High School Physical Education Methods **Credits: 5**
- PE 441P - High School Health and Physical Education Practicum **Credits: 3**
- PE 442P - Practicum in Physical Education **Credits: 2**
- PE 443 - Adapted Physical Education Methods & Practicum **Credits: 3**
- One course from:
 - KIN 414 - Physical Activity and Nutrition **Credits: 3**
 - HLED 350 - Nutrition **Credits: 3**

Additional Requirements (36 credits)

- SEC 303 - Teaching Adolescents: Development and Identity **Credits: 4**
- SEC 310 - Education, Culture, and Equity **Credits: 4**
- SEC 410 - Dynamics of Teaching **Credits: 2**
- SEC 411 - Philosophical Foundations of Education **Credits: 4**
- SEC 425 - Developmental Reading, Writing and Learning in Secondary Schools **Credits: 4**
- SEC 495 - Internship - Secondary **Credits: 18**

Bachelor of Science

Community Health, BS

Department of Health and Human Development, College of Humanities and Social Sciences

101-102 credits

Introduction

The Community Health degree consists of two to three years of course work in Health Education and supporting areas. This includes required course work in both content and process-oriented Health Education courses, Social Sciences (Anthropology, Psychology, and Sociology), Biological and Physical Sciences (Anatomy and Physiology, Exercise Physiology, and Chemistry), Nutrition, and electives that complement a student's interests and professional needs.

Why Consider a Community Health Major?

Community Health Educators assess individual and community needs for health education; plan, implement and administer health education strategies, interventions and programs; conduct evaluation and research; serve as a health education resource; and communicate and advocate for health and health education. Effective Health Education is ecological in its approach. When planning the focus of interventions, trained Health Educators consider all factors that contribute to health and disease: individual behavior; group dynamics; environmental conditions; economics; politics, laws and policies; culture, ethnicity, and gender; and the availability, accessibility, and quality of health services.

Students who are accepted into the Community Health major explore the biological, social, environmental, and individual determinants of health. The curriculum is based on the skills and competencies to become a Certified Health Education Specialist (CHES) through the National Commission on Health Education Credentialing, Inc. The program is rigorous, and faculty members emphasize diverse classroom projects and community outreach. At the end of the program, a full-time internship (40 hours per week for 10 weeks) in a health education setting is required.

The Community Health major is appropriate for students who want to work in community, public, and global health; health communication; governmental and non-profit agencies and organizations; medical care settings; worksite wellness programs; and college and university student service health education programs. It can also serve as a preparatory program for graduate or post-baccalaureate study in Health Education, Public Health, and related areas.

For advising, please contact one of the three faculty members listed below.

How to Declare (Admission and Declaration Process):

HEALTH AND HUMAN DEVELOPMENT

Admission to the Community Health major is selective, and the number of majors is limited. Students interested in applying to the major should first pre-major in Community Health. This allows students access to entry-level courses. Students may sign up to become a pre-major as early as their freshman year; however, most students sign up during their sophomore year. Pre-majors are strongly advised to complete biology prerequisites for BIOL 348 and 349 and chemistry prerequisites for CHEM 251 or 351 by the end of their sophomore year. A 2.5 GPA is required to declare Community Health as a pre-major, and a 2.5 GPA must be maintained until graduation from the Community Health Program. When students declare Community Health as a pre-major, they are assigned a Community Health faculty advisor. See Katey Roemmele in Carver 209 to fill out the pre-major forms. Please bring her a copy of your transcripts or academic history from Web4U; unofficial transcripts are fine.

Application to the major is due in mid-October of the year prior to the senior 400-level courses (exact date will be announced on the Community Health website). The application includes an essay; current résumé; two letters of reference; and transcripts. Program faculty will provide information on application specifics. Fulfillment of the requirement does not automatically secure admission to the major. Pre-majors are notified regarding acceptance before winter quarter registration. Majors must maintain the 2.5 GPA in all major courses to enroll in the required full-time internship at the end of the program of study.

Grade Requirements

A grade of C or better is required for a student's major courses and supporting courses for majors.

Requirements

Health Education Core: 67 credits

- HLED 150 - Consumer and Environmental Health **Credits: 4**
- HLED 151 - Society and Drugs **Credits: 2**
- HLED 152 - Society and Sex **Credits: 2**
- HLED 345 - Health Promotion/Disease Prevention **Credits: 4**
- HLED 350 - Nutrition **Credits: 3**
- HLED 407 - Principles and Foundations of Health Education **Credits: 5**
- HLED 410 - Health Communication and Social Marketing **Credits: 4**
- HLED 420 - Epidemiology and Biostatistics **Credits: 5**
- HLED 432 - Organization and Administration of Community Health Programs **Credits: 4**
- HLED 447 - Community Health **Credits: 4**
- HLED 450 - Methods and Materials in Health Education **Credits: 5**
- HLED 460 - Program Planning and Implementation of Health Programs **Credits: 5**
- HLED 465 - Program Evaluation and Research Design **Credits: 5**
- HLED 471 - Professional Preparation Seminar **Credits: 3**
- HLED 472 - Internship **Credits: 12**

Supporting Required Courses: 24-25 credits

- BIOL 348 - Human Anatomy and Physiology **Credits: 5**
- BIOL 349 - Human Physiology **Credits: 5**
- CHEM 161 - General Chemistry I **Credits: 5**
- KIN 413 - Physiology of Exercise **Credits: 5**
- One course from:
 - CHEM 251 - Elementary Organic Chemistry **Credits: 5**
 - CHEM 351 - Organic Chemistry **Credits: 4**

Electives Under Advisement: 10 credits

Students interested in becoming peer health educators through the Peer Health Educator Program may include HLED 250 as one of their electives. Enrollment in HLED 250 is contingent upon acceptance into the Peer Health Educator Program by the staff of Prevention & Wellness Services.

- ANTH 353 - Sex and Gender in Culture **Credits: 5**
- ANTH 424 - Medical Anthropology **Credits: 5**
- COMM 224 - Small Group Processes **Credits: 4**
- ENG 302 - Introduction to Technical and Professional Writing **Credits: 5**
- HLED 210 - Introduction to Public Health **Credits: 4**
- HLED 250 - Health of the College Student **Credits: 4**
- KIN 415 - Physical Fitness Assessment and Exercise Prescription **Credits: 5**

PSY 220 - Behavioral Neuroscience **Credits:** 5
 PSY 230 - Lifespan Developmental Psychology **Credits:** 5
 PSY 240 - Social Psychology **Credits:** 5
 PSY 250 - Introduction to Abnormal Psychology **Credits:** 5
 PSY 274 - Psychology of Child Rearing **Credits:** 5
 SOC 260 - The Family in Society **Credits:** 5
 SOC 268 - Gender and Society **Credits:** 5
 SOC 269 - Race and Ethnic Relations **Credits:** 5
 SOC 332 - The Sociology of Human Relationships **Credits:** 5
 SOC 333 - Aging and Societies **Credits:** 5
 SOC 338 - Sociology of Sexual Behavior **Credits:** 5
 SOC 340 - Sociology of Organizations **Credits:** 5
 SOC 342 - Sociology of Religion **Credits:** 5
 SOC 345 - Contemporary American Families **Credits:** 5
 SOC 348 - Global Health **Credits:** 5
 SOC 369 - Sociology of Race and Ethnicity **Credits:** 5
 SOC 380 - Sociology of Youth **Credits:** 5
 Substitutions may be made with approval of the student's advisor.
 Exit Requirement: Standard First Aid/CPR certification

Kinesiology — Health and Fitness Specialist Specialization, BS

Department of Health and Human Development, College of Humanities and Social Sciences

86-95 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Health and Fitness Specialist Specialization in Kinesiology Major?

Health and fitness specialist professionals work in the health and fitness industry. The program prepares professionals who are skilled in evaluating health behaviors and risk factors, conducting fitness assessments, writing appropriate exercise prescriptions, and motivating individuals to modify negative health habits and maintain positive lifestyle behaviors for optimal health. Health and fitness specialists conduct these activities in the university, clinical, corporate, and commercial or community settings where their clients participate in health promotion and fitness-related activities. This specialization is also appropriate preparation for graduate study in exercise physiology and cardiac or pulmonary rehabilitation.

The Kinesiology major is in very high demand at Western. Prior to declaring the major, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the HHD department office (Carver 102), to know what classes are recommended to be taken to prepare for the major.

Major/Career Resources

www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Application and Declaration Process):

1. WWU students with at least 75 credits completed and a GPA of at least 2.5 may apply to enter one of the five specializations in the Kinesiology major:

- Applications from one student to multiple Kinesiology specializations are not permitted.
- At the time of application the 75 or more credits must be recorded in the student's WWU academic history (WWU transcript) and/or in the student's WWU transfer equivalency report.
- If the student has attended more than one institution then the student's GPA for purposes of application to the Kinesiology major is calculated as a weighted average of the GPAs obtained at each of the schools attended. (Advanced placement classes are not included in the calculation; running start classes recorded on a community college transcript are included.)
- Admission to each specialization will be determined on a space available basis after ranking candidates by GPA, from high to low. GPA admission averages for each specialization will be calculated each year based on the most current data and included in advising material that students can obtain from the Health and Human Development Department or the Kinesiology program website at www.wvu.edu/hhd/kinesiology.
- The application to the Kinesiology major is submitted via a link on the Kinesiology program website at www.wvu.edu/hhd/kinesiology.
- Deadlines for the application each year are as follows:
 - Second Friday of classes in fall quarter, for the students entering the major in the subsequent winter quarter.
 - Second Friday of classes in winter quarter, for the students entering the major in the subsequent spring quarter.
 - Second Friday of classes in spring quarter, for the students entering the major in the subsequent fall quarter.
- Transfer students attending a summer transitions program will not be able to apply to the major during the summer transitions program. Transfer students will apply in the fall, winter, or spring quarters according to the deadlines for application.

2. Student applicants are notified of the outcome of their application the soonest possible after the application deadline, well in advance of the registration phase I for the subsequent quarter.

3. Students admitted to the major are assigned to a program academic advisor and are required to meet with the advisor to make a plan of study. Conversion to major status will not be completed without a meeting with a program academic advisor.

4. If a student is denied entry into a Kinesiology major specialization, the student may apply again the next quarter to the same specialization. For example, if a student is not selected in the spring for fall quarter admission to the Pre Health Care Specialization, the student can apply again in the fall to the same Kinesiology Pre-Health Care Specialization.

5. If a student is denied entry into the Kinesiology major, the student may apply again to a different specialization after a delay of one quarter. For example, if a student is not selected in the spring for fall quarter admission to the Pre-Health Care Specialization, the student can apply in the winter to a different Kinesiology specialization. The one-quarter delay is designed to dissuade students from applying to specializations not focused in their area of interest.

6. Once admitted to a specialization, a student wishing to change to a different specialization must apply for admission to the new specialization following the deadlines for application, and can do so while continuing in the present specialization.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- BIOL 348 - Human Anatomy and Physiology **Credits: 5**

Kinesiology — Movement Studies Specialization, BS

Department of Health and Human Development, College of Humanities and Social Sciences

85-94 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/ fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Movement Studies Specialization in Kinesiology Major?

The movement studies specialization is recommended for students who wish to pursue a variety of career opportunities related to kinesiology (see sample career list). Students should seek advising to determine the appropriate set of courses leading to a specialized emphasis.

The Kinesiology major is in very high demand at Western. Prior to declaring the major, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the HHD department office (Carver 102), to know what classes are recommended to be taken to prepare for the major.

Major/Career Resources

www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Application and Declaration Process):

1. WWU students with at least 75 credits completed and a GPA of at least 2.5 may apply to enter one of the five specializations in the Kinesiology major:
 - Applications from one student to multiple Kinesiology specializations are not permitted.
 - At the time of application the 75 or more credits must be recorded in the student's WWU academic history (WWU transcript) and/or in the student's WWU transfer equivalency report.
 - If the student has attended more than one institution then the student's GPA for purposes of application to the Kinesiology major is calculated as a weighted average of the GPAs obtained at each of the schools attended. (Advanced placement classes are not included in the calculation; running start classes recorded on a community college transcript are included.)
 - Admission to each specialization will be determined on a space available basis after ranking candidates by GPA, from high to low. GPA admission averages for each specialization will be calculated each year based on the most current data and included in advising material that students can obtain from the Health and Human Development Department or the Kinesiology program website at www.wvu.edu/hhd/kinesiology.
 - The application to the Kinesiology major is submitted via a link on the Kinesiology program website at www.wvu.edu/hhd/kinesiology.
 - Deadlines for the application each year are as follows:
 - Second Friday of classes in fall quarter, for the students entering the major in the subsequent winter quarter.
 - Second Friday of classes in winter quarter, for the students entering the major in the subsequent spring quarter.
 - Second Friday of classes in spring quarter, for the students entering the major in the subsequent fall quarter.
 - Transfer students attending a summer transitions program will not be able to apply to the major during the summer transitions program. Transfer students will apply in the fall, winter, or spring quarters according to the deadlines for application.
2. Student applicants are notified of the outcome of their application the soonest possible after the application deadline, well in advance of the registration phase I for the subsequent quarter.
3. Students admitted to the major are assigned to a program academic advisor and are required to meet with the advisor to make a plan of study. Conversion to major status will not be completed without a meeting with a program academic advisor.
4. If a student is denied entry into a Kinesiology major specialization, the student may apply again the next quarter to the same specialization. For example, if a student is not selected in the spring for fall quarter admission to the Pre Health Care Specialization, the student can apply again in the fall to the same Kinesiology Pre-Health Care Specialization.
5. If a student is denied entry into the Kinesiology major, the student may apply again to a different specialization after a delay of one quarter. For example, if a student is not selected in the spring for fall quarter admission to the Pre-Health Care Specialization, the student can apply in the winter to a different Kinesiology specialization. The one-quarter delay is designed to dissuade students from applying to specializations not focused in their area of interest.
6. Once admitted to a specialization, a student wishing to change to a different specialization must apply for admission to the new specialization following the deadlines for application, and can do so while continuing in the present specialization.

Grade Requirements

Kinesiology — Pre-Healthcare Professions Specialization, BS

Department of Health and Human Development, College of Humanities and Social Sciences

103-104 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Pre-Healthcare Professions Specialization in the Kinesiology Major?

The pre-healthcare professions option is available for students who wish to pursue post-baccalaureate study in a healthcare profession such as physical therapy, occupational therapy, physician assistant, nursing, naturopathy or chiropractic. Students meet with an advisor to select a set of courses that will meet the admission requirements of their program(s) of choice. This option also can serve as a foundation for graduate study in exercise science.

The Kinesiology major is in very high demand at Western. Prior to declaring the major, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the HHD department office (Carver 102), to know what classes are recommended to be taken to prepare for the major.

Kinesiology — Sport Psychology Specialization, BS

Department of Health and Human Development, College of Humanities and Social Sciences

86-98 credits

Introduction

This major provides a concentrated study of human movement from mechanical, physiological and pathological perspectives. The program is appropriate for students who plan to work in the fitness/exercise industry or any other field such as coaching or rehabilitation, where human movement and exercise prescription are the focus. Additionally, this degree can serve as the gateway degree to the allied health professions (i.e., physical therapy, occupational therapy, physician assistant) or preparation for post-baccalaureate study in other areas such as exercise physiology, health/ fitness, biomechanics, physical therapy, sport psychology, nutrition, and human growth and motor development. Supporting courses from biology, chemistry, computer science, communications, health education and physics are included to provide more in-depth analysis of principles associated with human structure and function.

Why Consider a Sport Psychology Specialization in the Kinesiology Major?

The sport psychology option provides students with the behavioral knowledge and educational techniques to enhance performance in recreational, exercise, and athletic settings. This option provides an emphasis in psychology and exercise science that will serve as preparation for coaching and as an adequate set of prerequisites for post-baccalaureate study in sport and/or exercise psychology.

The Kinesiology major is in very high demand at Western. Prior to declaring the major, WWU students are strongly urged to obtain and utilize advising information from the Kinesiology program web page, or the HHD department office (Carver 102), to know what classes are recommended to be taken to prepare for the major.

Master of Science

Kinesiology, Exercise Science Option, Thesis, MS

Department of Health and Human Development, College of Humanities and Social Sciences

Graduate Faculty

Arthur-Cameselle, Jessyca, EdD, sport and exercise psychology.

Brilla, Lorraine, PhD, exercise physiology/nutrition.

Buddhadev, Harsh, PhD, biomechanics/motor control.

Chalmers, Gordon, PhD, motor control.

Hilgendorf, Kari Jo, PhD, exercise physiology/nutrition.

Keeler, Linda, EdD, sport and exercise psychology.

San Juan, Jun, PhD, biomechanics/athletic training.

Suprak, David, PhD, biomechanics/strength and conditioning.

Program Advisor: Lorrie Brilla, 360-650-3056, Lorrie.Brilla@wwu.edu

Program Description

Graduate study leading to a Master of Science degree in Kinesiology is offered with two options: exercise science and sport psychology.

The purpose of the exercise science option is to provide students with the technical and professional knowledge necessary for the assessment and improvement of human movement and performance. Students will be provided with information that will assist them in the design and implementation of programs that enhance human movement and performance. Through independent research and inquiry, students will solve problems associated with human movement and performance.

Goals

The educational mission of the program is to develop individuals who make informed decisions about exercise, human movement, and performance that foster health and physically active lifestyles. To this end faculty are dedicated to quality teaching, scholarship and service.

Prerequisites

Kinesiology major/minor or equivalent courses from the exercise science, behavioral and cultural and professional activity areas are required prerequisites for the graduate program. An applicant to the Exercise Science Program who does not have a Kinesiology-related major or minor must take the following equivalency courses: three courses from the exercise science area (KIN 306, 308, 309, 311, 312, 410, 413, 416), one behavioral and cultural foundations course (KIN 320, 321, 421), and two credits from the PE 100-level activity courses.

All applicants must have taken an introductory statistics course. These courses may be taken concurrently with graduate courses but must be completed before submitting a thesis proposal. Equivalent courses taken at other institutions may be applied.

Application Information

Admission: Program faculty will review application materials for notification by January 15 and will continue to review materials until the enrollment is reached or June 1, whichever comes first for fall quarter admission. Students may enter at other quarters. Because maximum student enrollment in the exercise science program is limited, all applicants are strongly encouraged to submit application materials by January 15. The exercise science area accepts students every year.

HEALTH AND HUMAN DEVELOPMENT

Specific Test Requirements: Graduate Record Exam, General Test; applicants with advanced degrees are not required to submit GRE scores.

Deadlines: Please see Graduate School deadlines.

TA Deadlines: To receive full consideration for a graduate teaching assistantship, applicants should have their application materials reviewed by January 15.

Supporting Materials:

- Students must submit a written statement of purpose outlining areas of interest, goals for graduate study and future career plans relating to the degree.
- Recommendations must include at least two from faculty who can comment on academic abilities and potential for success in graduate studies.
- Transcripts displaying GPA (can be unofficial).

Program Requirements (47-50 credits)

- Basic requirements: (13-16)
 - KIN 506 - Research Design in Human Movement and Performance **Credits:** 4
 - KIN 520 - Readings in Human Movement and Performance **Credits:** 3
 - KIN 690 - Thesis **Credits:** 1-9
- Required courses: (20)
 - KIN 510 - Laboratory Techniques in Exercise Science **Credits:** 4
 - KIN 513 - Exercise Prescription and Programming **Credits:** 4
 - KIN 540 - Applied Exercise Physiology **Credits:** 4
 - KIN 543 - Biomechanical Analysis of Human Movement **Credits:** 4
 - KIN 544 - Biomechanics of the Musculoskeletal System **Credits:** 4
- Electives: — Select 14 credits from:
 - KIN 502 - Research Topics in Human Movement and Performance **Credits:** 1-5
 - KIN 507 - Motor Control **Credits:** 3
 - KIN 511 - Physical Activity and Hypokinetic Diseases **Credits:** 3
 - KIN 516 - Advanced Conditioning Principles and Practice **Credits:** 3
 - KIN 541 - Foundations and Ethics of Sport Psychology **Credits:** 4
 - KIN 592 - Internship **Credits:** 1-6
 - 400 level courses selected under departmental advisement

Kinesiology, Sport and Exercise Psychology Option, Thesis, MS

Department of Health and Human Development, College of Humanities and Social Sciences

Graduate Faculty

Arthur-Cameselle, Jessyca, EdD, sport and exercise psychology.

Brilla, Lorraine, PhD, exercise physiology/nutrition.

Buddhadev, Harsh, PhD, biomechanics/motor control.

Chalmers, Gordon, PhD, motor control.

Hilgendorf, Kari Jo, PhD, exercise physiology/nutrition.

Keeler, Linda, EdD, sport and exercise psychology.

San Juan, Jun, PhD, biomechanics/athletic training.

Suprak, David, PhD, biomechanics/strength and conditioning.

Program Advisor: Dr. Lorrie Brilla, 360-650-3056, Lorrie.Brilla@wwu.edu

Program Description

Graduate study leading to a Master of Science degree in Kinesiology is offered with two options: exercise science and sport and exercise psychology.

This purpose of the sport and exercise psychology option is to educate students technically and professionally in the area of sport and exercise psychology. The focus is on assisting students in the design, implementation, and assessment of the psychological components of exercise, sport, and wellness programs. Through independent research and inquiry, students will solve sport and exercise psychology related problems associated with human movement and performance.

Goals

The educational mission of the program is to develop individuals who make informed decisions about exercise, human movement, and performance that foster health and physically active lifestyles. To this end faculty are dedicated to quality teaching, scholarship and service.

Prerequisites

Kinesiology major/minor or equivalent courses from the exercise science, behavioral and cultural and professional activity areas are required prerequisites for the graduate program. An applicant to the Sport and Exercise Psychology program who does not have a Kinesiology-related major or minor must take the following equivalency courses: two courses from the exercise science area (KIN 306, 308, 309, 311, 312, 410, 413, 416), two behavioral and cultural foundations courses (KIN 320, 321, 421), and two credits from the PE 100-level activity courses.

Application Information

Admission: Program faculty will review application materials for notification by January 15 and will continue to review materials until the enrollment is reached or June 1, whichever comes first for fall quarter admission in odd-numbered years.

Entry to the sport and exercise psychology graduate program is competitive based on qualifications. A cohort student group is admitted on an alternate year basis in the fall quarter of odd-numbered years and is comprised of 3-5 students.

Students from all undergraduate majors are eligible to apply to the program. A sport psychology course, a statistics course, and three additional psychology courses are preferred at the time of application. Applicants without an undergraduate sport psychology course and statistics course who are admitted to the program must complete both courses prior to enrollment. Admitted students without the additional three undergraduate psychology courses will need to satisfy any specific prerequisites prior to enrolling in any graduate psychology course electives.

After initial screening of applications, the faculty will select individuals to invite for phone interviews.

Specific Test Requirements: Graduate Record Exam, General Test; applicants with advanced degrees are not required to submit GRE scores.

Deadlines: Please see Graduate School deadlines.

TA Deadlines: To receive full consideration for a graduate teaching assistantship, applicants should have their application materials submitted by January 15.

Supporting Materials:

- Students must submit a written statement of purpose outlining areas of interest, goals for graduate study and future career plans relating to the degree.
- Recommendations must include at least two from faculty who can comment on academic abilities and potential for success in graduate studies.
- Transcripts displaying GPA (can be unofficial).
- Undergraduate degree (major).

Program Requirements (46-49 credits)

- Basic Requirements: (13-16)

HEALTH AND HUMAN DEVELOPMENT

KIN 506 - Research Design in Human Movement and Performance **Credits:** 4

KIN 520 - Readings in Human Movement and Performance **Credits:** 3

KIN 690 - Thesis **Credits:** 1-9

□ Required Courses: (18)

KIN 541 - Foundations and Ethics of Sport Psychology **Credits:** 4

KIN 542 - Seminar in Sport Sociology **Credits:** 4

KIN 551 - Applied Sport and Exercise Psychology **Credits:** 4

KIN 552 - Sport and Exercise Psychology Practicum **Credits:** 1-3 (6 credits required toward degree)

□ Electives: 15 credits (at least 10 credits required from psychology)

KIN 421 - Psychology of Exercise **Credits:** 3

KIN 502 - Research Topics in Human Movement and Performance **Credits:** 1-5

KIN 507 - Motor Control **Credits:** 3

KIN 511 - Physical Activity and Hypokinetic Diseases **Credits:** 3

KIN 513 - Exercise Prescription and Programming **Credits:** 4

KIN 540 - Applied Exercise Physiology **Credits:** 4

KIN 543 - Biomechanical Analysis of Human Movement **Credits:** 4

KIN 544 - Biomechanics of the Musculoskeletal System **Credits:** 4

PSY 502 - Adult Psychopathology **Credits:** 5

PSY 503 - Cognition **Credits:** 5

PSY 504 - Lifespan Psychological Development **Credits:** 5

PSY 505 - Social Psychology **Credits:** 5

PSY 512 - Correlation Methods and Data Analysis **Credits:** 5

400 level courses selected under departmental advisement (maximum 10 credits).

Minor

Sport Psychology Minor

Combined minor offered by the Department of Psychology and the Department of Health and Human Development, College of Humanities and Social Sciences

30 credits

Introduction

This interdisciplinary program is designed to introduce the student to the discipline of sport psychology. More specifically, it emphasizes the educational and behavioral approaches to sport psychology that can be applied in recreational, exercise, and athletic settings.

Why Consider a Sport Psychology Minor?

The sports psychology minor provides students with the behavioral knowledge and psychosocial educational techniques related to the psychosocial aspects of athletic, exercise, recreational and performance settings. This minor provides skills that will serve as preparation for incorporation of consideration and instructional techniques to enhance any human performance or health related field.

How to Declare (Admission and Declaration Process):

For Admission: There is a minimum capacity of 10 openings each year for the sport psychology minor (5 in the Fall quarter and 5 in the Winter quarter), with possible additional spots depending on major capacity (maximum 25). Students who have 75 credits completed, a 2.5 GPA, and have already declared their major (or have declared a psychology pre-major), may apply to the sport psychology minor. Should the number of applicants exceed the number of spots available, priority will be given to non-kinesiology majors in order of highest GPA, then to kinesiology majors in order of highest GPA. Students apply via the Kinesiology program website by the second Friday of classes in the Fall and Spring quarters for admission into the minor starting in the subsequent quarter. Students will be notified of acceptance before registration and will have to receive advising to develop a plan of study before registration overrides will be given.

Note: If the student has attended more than one institution then the student's GPA for purposes of application to the Kinesiology minor is calculated as a weighted average of the GPAs obtained at each of the schools attended. (Advanced placement classes are not included in the calculation; running start classes recorded on a community college transcript are included.)

For Admission Application: See the Kinesiology program website.

For Advising: Kinesiology or other non-psychology majors, contact Dr. Keeler or Dr. Arthur-Cameselle (see above). For psychology majors, contact one of the Department of Psychology Sport Psychology Minor Advisors: Dr. Kristi Lemm, 498 AIC East, 360-650-3187, Email: Kristi.Lemm@wvu.edu or Dr. Kelly Jantzen, 494 AIC East, 360-650-4046, Email: Kelly.Jantzen@wvu.edu.

Advising tips: Students may start taking psychology courses in anticipation of applying for the minor; however, that is not a guarantee that they will be admitted given the space limitations.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- KIN 320 - Psychology of Sport **Credits: 3**
- KIN 321 - Sociology of Sport **Credits: 3**
- KIN 420 - Seminar in Sport Psychology **Credits: 3**
- KIN 421 - Psychology of Exercise **Credits: 3**
- PSY 101 - Introduction to Psychology **Credits: 5**
- Select 13 elective credits under advisement from:
 - KIN 419 - Mental Health Topics in Kinesiology **Credits: 3**
 - PSY 119 - Psychology of Gender **Credits: 4**
 - PSY 210 - Cognition **Credits: 5**
 - PSY 220 - Behavioral Neuroscience **Credits: 5**
 - PSY 230 - Lifespan Developmental Psychology **Credits: 5**
 - PSY 240 - Social Psychology **Credits: 5**
 - PSY 250 - Introduction to Abnormal Psychology **Credits: 5**
 - PSY 319 - Cognitive Neuroscience **Credits: 5**
 - PSY 322 - Motivation **Credits: 5**
 - PSY 323 - Psychopharmacology **Credits: 5**
 - PSY 332 - Adolescent Development **Credits: 5**
 - PSY 341 - Psychology and Culture **Credits: 5**
 - PSY 375 - Health Psychology **Credits: 5**
 - PSY 377 - Positive Psychology **Credits: 5**

NOTE: Kinesiology majors cannot use KIN 320, KIN 321 and KIN 421 for both major and minor requirements and must select replacement courses from psychology electives (PSY 119, PSY 210, PSY 220, PSY 230, PSY 240, PSY 250, PSY 319, PSY 322, PSY 323, PSY 332, PSY 341, PSY 375, PSY 377).

HEALTH AND HUMAN DEVELOPMENT

Kinesiology and physical education majors cannot use PSY 119, 210-250 for both major and minor requirements.

NOTE: Psychology majors cannot use PSY 210-250, PSY 319, PSY 322 or PSY 323 for both major and minor requirements and should choose other courses under advisement.

Coaching Development Courses

CD 280 - Coaching Practicum - Basketball

A practical application of principles and techniques used in sport coaching, including program organization and administration, team building, teaching sports strategies, leadership principles related to sport performance, sport-related motor skill acquisition and performance principles, and the evaluation of coaching strategies and methods.

Prerequisites & Notes: Permission of instructor.

Credits: 2

Grade Mode: S/U

CD 281 - Coaching Practicum - Volleyball

A practical application of principles and techniques used in sport coaching, including program organization and administration, team building, teaching sports strategies, leadership principles related to sport performance, sport-related motor skill acquisition and performance principles, and the evaluation of coaching strategies and methods.

Prerequisites & Notes: Permission of instructor.

Credits: 2

Grade Mode: S/U

CD 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CD 343 - Sports Officiating/Track & Field

Officiating techniques for individual and team sports.

Prerequisites & Notes: Permission of instructor.

Credits: 2

Grade Mode: Letter

CD 381 - Coaching Sports: Basketball

Practical and theoretical aspects of coaching the sport with special emphasis on advanced skill

development and current methodology and resource material being utilized.

Prerequisites & Notes: Permission of instructor.

Credits: 3

Grade Mode: Letter

CD 383 - Coaching Sports: Track

Practical and theoretical aspects of coaching the sport with special emphasis on advanced skill development and current methodology and resource material being utilized.

Prerequisites & Notes: Permission of instructor.

Credits: 3

Grade Mode: Letter

CD 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CD 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Health Education Courses

HLED 150 - Consumer and Environmental Health

Analysis of media promotion of health products and services; health fraud; choosing health/medical care; investigation of environmental factors that affect human health; consumer and environmental protection agencies.

Prerequisites & Notes: open registration begins Phase II

HEALTH AND HUMAN DEVELOPMENT

Credits: 4
Grade Mode: Letter

HLED 151 - Society and Drugs

Physiological and behavioral effects of legal and illegal drugs; societal substance use and abuse; alternatives to drug use.

Credits: 2
Grade Mode: Letter

HLED 152 - Society and Sex

Sociological, psychological, and biological aspects of human sexuality.

Credits: 2
Grade Mode: Letter

HLED 201 - Perspectives of Human Lifestyle and Wellness

Overview and analysis of the role and place lifestyle and wellness play in society (past, present and future). Issues in health, fitness, and lifestyle choices.

Credits: 3
Grade Mode: Letter
GUR Attributes: SSC

HLED 210 - Introduction to Public Health

A survey of public health principles, history, philosophy, services, ethics, tools, systems, interventions, and applications to current events.

Credits: 4
Grade Mode: Letter
GUR Attributes: SSC

HLED 250 - Health of the College Student

Analysis of major health risks; personal health status assessment; strategies for reducing risk behaviors and promoting healthy lifestyles among college students. S/U grading.

Prerequisites & Notes: HLED 150, HLED 151, HLED 152 recommended
Credits: 4
Grade Mode: S/U

HLED 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

HLED 345 - Health Promotion/Disease Prevention

Investigation of chronic/degenerative diseases and infectious/communicable illnesses; intentional and unintentional injuries; relationship of lifestyle choices and personal beliefs to well-being.

Prerequisites & Notes: BIOL 101 or BIOL 205
Credits: 4
Grade Mode: Letter

HLED 350 - Nutrition

Study of functions of nutrients in the body, factors that govern nutrient requirements, and the impact of diet on health and disease.

Prerequisites & Notes: BIOL 101 or BIOL 205 or CHEM 115 or CHEM 161; junior standing.
Credits: 3
Grade Mode: Letter

HLED 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

HLED 407 - Principles and Foundations of Health Education

History, philosophy, ethics, health behavior theories and models, credentialing, occupations, professional organizations and literature, current issues, and future trends in health education practice.

Prerequisites & Notes: BIOL 348
Credits: 5
Grade Mode: Letter

HLED 410 - Health Communication and Social Marketing

Examines the key concepts and practical skills of health communication/social marketing campaigns and their application to individual, group, and community public health initiatives.

Prerequisites & Notes: HLED 407, HLED 460
Credits: 4
Grade Mode: Letter

HLED 420 - Epidemiology and Biostatistics

An introduction to biostatistics and epidemiology in community health.

Prerequisites & Notes: Math 240 or KIN 307

HEALTH AND HUMAN DEVELOPMENT

Credits: 5

Grade Mode: Letter

HLED 432 - Organization and Administration of Community Health Programs

Basic principles of organization and administration of health programs, leadership skills, and grant-writing.

Prerequisites & Notes: HLED 407, HLED 460, HLED 465

Credits: 4

Grade Mode: Letter

HLED 447 - Community Health

Concept of community health, health advocacy, and cultural competence; role of government, nonprofit and private agencies; investigation of national health goals; engagement with community agencies required.

Prerequisites & Notes: BIOL 348 or concurrent; community health major.

Credits: 4

Grade Mode: Letter

HLED 450 - Methods and Materials in Health Education

Principles and application of methodology for educating about health; learning styles; development of computer-generated materials; selection, utilization, and evaluation of resources.

Prerequisites & Notes: HLED 447

Credits: 5

Grade Mode: Letter

HLED 455 - Health Education Grades K-8

Instructional methods in health for grades K-8; selection, analysis and application of health education curricula and materials; education about prevention of child abuse, alcohol/drug abuse, and AIDS/HIV.

Prerequisites & Notes: Admission to Woodring College of Education; ELED 370 or ELED 372 or SPED 420 or PE 340.

Credits: 2

Grade Mode: Letter

HLED 460 - Program Planning and Implementation of Health Programs

Application of processes of program development in designing health education/health promotion programs.

Prerequisites & Notes: HLED 407, HLED 450

Credits: 5

Grade Mode: Letter

HLED 465 - Program Evaluation and Research Design

Basics of health education program evaluation including formative, summative, process, impact and outcome evaluation. Research design and applied methods in program evaluation.

Prerequisites & Notes: HLED 420

Credits: 5

Grade Mode: Letter

HLED 471 - Professional Preparation Seminar

Prepare students with professional skills related to securing community health-related internship and employment. S/U grading.

Prerequisites & Notes: HLED 407, HLED 420, HLED 447, HLED 450.

Credits: 3

Grade Mode: S/U

HLED 472 - Internship

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: HLED 407, HLED 410, HLED 420, HLED 432, HLED 447, HLED 450, HLED 460, HLED 465, HLED 471, and proof of malpractice insurance.

Credits: 12

Grade Mode: S/U

Kinesiology Courses

KIN 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

KIN 304 - Prevention and Care of Athletic Injuries

Overview of current information on the care and prevention, and immediate care, of common sports injuries.

Prerequisites & Notes: KIN 306, BIOL 348.

Credits: 3

Grade Mode: Letter

KIN 306 - Measurement and Evaluation in Kinesiology

Application of the theory of measurement, evaluation and appropriate statistical processes to kinesiology programs; practical experiences involving test selection, administration and evaluation and interpretation of results in health and fitness settings.

Credits: 5

Grade Mode: Letter

KIN 307 - Statistics in Exercise & Sport Science

Statistical techniques utilized in the exercise and sport science fields.

Prerequisites & Notes: KIN 306, or instructor permission.

Credits: 4

Grade Mode: Letter

KIN 308 - Human Growth and Motor Development

The study of postnatal growth, maturation, and physical activity, their interrelationship with cognitive and psychosocial development, with application to health promotion and physical activity programs for children and youth.

Credits: 3

Grade Mode: Letter

KIN 311 - Biomechanics

Application of basic mechanical principles to movement. Motion fundamentals, kinetics, kinematics, aerodynamics, hydrodynamics, equilibrium and external forces, rebound and spin, two-dimensional analysis, and the body as a machine; lab work is included.

Prerequisites & Notes: KIN 306 or concurrent; completion of Math GURs.

Credits: 5

Grade Mode: Letter

KIN 312 - Functional Anatomy

Muscles of the body that contribute to providing motion; origin, insertion, and action; principles of human movement, including the fundamental contributors to the production of muscle force and the analysis of how muscle actions contribute to achieving motion; performance analysis of basic locomotor movement, daily living activities and sports skills; lab work included.

Prerequisites & Notes: BIOL 348, junior status.

Credits: 5

Grade Mode: Letter

KIN 315 - Fitness Instruction and Leadership

Instructional strategies, general progressions, pedagogical principles, teaching methods, class

management, peer teaching, self-evaluation strategies, and supervision strategies for teaching in various health and fitness settings.

Prerequisites & Notes: KIN 308.

Credits: 2

Grade Mode: Letter

KIN 320 - Psychology of Sport

Psychological principles and states which are present in sporting activities, both at recreational and highly competitive levels.

Prerequisites & Notes: KIN 306 or PE 443, or concurrent; permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 321 - Sociology of Sport

Sociological implications of sport in contemporary American society.

Prerequisites & Notes: KIN 306 or PE 443 or concurrent; or permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

KIN 409 - Aging and Functional Assessments

This course will be a study of age-related physical and psychosocial changes which occur during the older adult years, their interrelationship with physical activity, with application to health promotion and disease prevention. Additionally, this course will examine the physical functional assessment methods commonly used with older adults, including those that are novel or in development. The research foundations and effectiveness of such assessments will be examined, and their appropriate utilization and interpretation will be practiced with community senior volunteers.

Prerequisites & Notes: KIN 306; or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 410 - Motor Control and Learning

HEALTH AND HUMAN DEVELOPMENT

Principles of motor control and skill acquisition, as it relates to human movement.

Prerequisites & Notes: KIN 306 or PE 443; and BIOL 348.

Credits: 3

Grade Mode: Letter

KIN 413 - Physiology of Exercise

Nature of muscular, metabolic, cardiovascular and respiratory adjustments to acute and chronic exercise. The effect of training on fitness and health. Includes experimental laboratory sessions.

Prerequisites & Notes: KIN, PE or Community Health major status; BIOL 348; KIN 306 recommended; or permission of instructor.

Credits: 5

Grade Mode: Letter

KIN 414 - Physical Activity and Nutrition

Current topics on exercise and nutrition; weight control, dietary supplementation and performance, fluid regulation, atherosclerosis and diabetes. Applications include metabolic balance, consumer issues such as marketing strategies, label analysis, food choices, attributes of food products such as natural, organic, fat-free, among others.

Prerequisites & Notes: KIN, PE or Community Health major status or permission of instructor; KIN 413, or concurrent.

Credits: 3

Grade Mode: Letter

KIN 415 - Physical Fitness Assessment and Exercise Prescription

Examine techniques of evaluation for physical fitness with an emphasis on aerobic capacity, flexibility, and body composition; case studies; develop appropriate exercise program and re-evaluation. Includes experimental laboratory sessions and practical laboratory skills analysis.

Prerequisites & Notes: KIN 413.

Credits: 5

Grade Mode: Letter

KIN 416 - Strength and Conditioning Program Design

Theoretical and practical knowledge necessary to design safe and effective training programs for optimization of health, fitness and performance.

Prerequisites & Notes: KIN 312 or concurrent.

Credits: 3

Grade Mode: Letter

KIN 419 - Mental Health Topics in Kinesiology

This course explores mental health concerns in sport, health, and exercise settings, including

eating disorders, depression, recreational drug abuse, performance enhancing drug use, and burnout.

Prerequisites & Notes: KIN 306 or KIN 320; or instructor permission.

Credits: 3

Grade Mode: Letter

KIN 420 - Seminar in Sport Psychology

An interdisciplinary seminar (psychology/physical education) exploring core topics of sport psychology including: evaluation of athletes, research design and strategies, personality assessment, mental and physical preparation for competition, clinical applications.

Prerequisites & Notes: KIN 320, KIN 321, KIN 421; and 10 credits in psychology or permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 421 - Psychology of Exercise

This theory and application course will examine the relationship between personal, mental, and behavioral factors with exercise (bi-directional). Major topics will include, but are not limited to, the impact of exercise on mood states, mental health and immune function, exercise motivation, interventions and adherence.

Prerequisites & Notes: KIN 320

Credits: 3

Grade Mode: Letter

KIN 422 - Professional Issues in Health and Exercise Settings

The focus of this course is on professional issues relating to human resources, philosophy, finance and legal concerns with a focus on technical and professional writing.

Prerequisites & Notes: KIN 306 or PE 443;

Senior Status.

Credits: 3

Grade Mode: Letter

KIN 435 - Worksite Health Promotion

Theoretical and practical aspects of developing and implementing worksite health promotion programs, including student team development and implementation of a community worksite based health promotion program.

Prerequisites & Notes: HLED 345; HLED 350 or KIN 414

Credits: 5

Grade Mode: Letter

KIN 471 - Internship I

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: BIOL 348 and KIN 306; First Aid/CPR certification, proof of malpractice insurance; and instructor permission.

Credits: 3

Grade Mode: S/U

KIN 472 - Internship II

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: BIOL 348 and KIN 306; First Aid/CPR certification, proof of malpractice insurance; and instructor permission.

Credits: 12

Grade Mode: S/U

KIN 491 - Field Experience I

Practical volunteer experience in agencies such as hospitals, physical therapy clinics, retirement or convalescent centers, worksite wellness programs, fitness facilitation, on-campus fitness programs and community sports organizations. S/U grading. Repeatable up to 6 credits including original course.

Prerequisites & Notes: BIOL 348 and KIN 306; First Aid/CPR certification, proof of malpractice insurance; and instructor permission.

Credits: 3

Grade Mode: S/U

KIN 492 - Field Experience II

Practical volunteer experience in agencies such as hospitals, physical therapy clinics, retirement or convalescent centers, worksite wellness programs, fitness facilitation, on-campus fitness programs and community sports organizations. S/U grading. Repeatable up to 6 credits including original course.

Prerequisites & Notes: BIOL 348 and KIN 306; First Aid/CPR certification, proof of malpractice insurance; and instructor permission.

Credits: 3

Grade Mode: S/U

KIN 493 - Exercise And Sport Science Research

Investigation of a problem conducted independently or as part of a group under faculty supervision. S/U grading.

Prerequisites & Notes: 15 credits completed in Exercise and Sport Science; permission of

instructor.

Credits: 3

Grade Mode: S/U

KIN 494 - Instructional Assistant

Assist faculty in the classroom and lab instruction. Assist faculty with activities such as lab and lecture preparation and implementation, leading classroom discussions, assisting students with class materials. Duties vary by course and instructor but the time commitment will be 8 to 10 hours per week. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: Permission of instructor; a minimum grade of B in the course for which the student will be a teaching assistant.

Credits: 3

Grade Mode: S/U

KIN 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

KIN 502 - Research Topics in Human Movement and Performance

Supervised research or study in topics related to sociology/ psychology of sport, biomechanics, exercise physiology, motor learning/control, human growth and motor development, and epidemiology of physical activity. Repeatable to a maximum of 10 credits including original course.

Prerequisites & Notes: Instructor permission.

Credits: 1-5

Grade Mode: Letter

KIN 506 - Research Design in Human Movement and Performance

Purpose and design of various research methods used in the analysis of human movement and performance problems; survey of common statistical applications; development of research proposals.

Prerequisites & Notes: Graduate status; MATH 240 or KIN 307 or equivalent.

Credits: 4

Grade Mode: Letter

KIN 507 - Motor Control

Examination of the structure and function of the human neuromuscular system, as it pertains to the

HEALTH AND HUMAN DEVELOPMENT

production of movement.

Prerequisites & Notes: KIN 410 or equivalent.

Credits: 3

Grade Mode: Letter

KIN 510 - Laboratory Techniques in Exercise Science

Common laboratory techniques utilized in exercise science are presented with emphasis on body composition analysis, circulo-respiratory testing, phlebotomy/blood analysis, muscular strength and endurance, computer usage, force platform analysis, electromyography and motion capture techniques.

Prerequisites & Notes: KIN 311 and KIN 413 or equivalent, or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 511 - Physical Activity and Hypokinetic Diseases

Survey of effects of physical activity on disease processes related to hypokinesia: cardiovascular disease, obesity, diabetes, osteoporosis, arthritis, inflammation, sarcopenia. Overview of physical activity needs of special populations.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 513 - Exercise Prescription and Programming

Design safe and effective physical activities for selected populations in rehabilitative, preventative, and competitive programs. Medico-legal aspects and administration of exercise prescription and programming. Case studies.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 516 - Advanced Conditioning Principles and Practice

This course is designed to equip students with the theoretical and practical knowledge related to the most advanced and state-of-the-art methods used to maximize fitness and athletic performance.

Prerequisites & Notes: KIN 416 or permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 520 - Readings in Human Movement and Performance

Directed readings, analysis, discussion of current literature on human movement culminating in a written paper and discussion of chosen topic.

Prerequisites & Notes: Permission of instructor.

Credits: 3

Grade Mode: Letter

KIN 540 - Applied Exercise Physiology

Selected topics in advanced exercise physiology: homeostasis, energy systems, metabolism, cardiorespiratory adjustments, hormonal control, neuromuscular physiology, nephrology, immunology, environmental responses and adaptations, by lecture and recitation.

Prerequisites & Notes: KIN 413 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 541 - Foundations and Ethics of Sport Psychology

Theoretical foundations and behavioral applications of sport psychology including: history, ethics and current status of sport psychology, individual differences in sport behavior, motivation in sport, exercise psychology, social influence and sport, and the dynamics of sport groups.

Prerequisites & Notes: KIN 320 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 542 - Seminar in Sport Sociology

The study of sport as a microcosm of society with particular emphasis on the following topical areas: economics and sport, social mobility and sport, socialization, ethnic issues and sport, gender issues and sport, education and sport, sport and politics, and current social issues and sport.

Prerequisites & Notes: KIN 321 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 543 - Biomechanical Analysis of Human Movement

Kinematic and kinetic analysis of human movement with focus on practical application of mechanical laws governing human motion; laboratory and computer applications.

Prerequisites & Notes: KIN 311, 312 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 544 - Biomechanics of the Musculoskeletal System

Selected topics relating to biomechanics of the musculoskeletal system, muscular and skeletal system characteristics, biomechanics of the hip, knee, shoulder, foot, ankle and vertebral column.

Prerequisites & Notes: KIN 311, 312 or permission of instructor.

Credits: 4

Grade Mode: Letter

KIN 551 - Applied Sport and Exercise Psychology

Provides comprehensive overview of applied educational strategies and techniques in sport and exercise psychology, including performance enhancement/intervention strategies and techniques, exercise psychology, psychosocial foundations of youth sport programs and psychology of coaching.

Prerequisites & Notes: KIN 541.

Credits: 4

Grade Mode: Letter

KIN 552 - Sport and Exercise Psychology Practicum

This is a sport and exercise psychology practicum course for graduate students enrolled in the Kinesiology master's program in Sport and Exercise Psychology. While enrolled in this course, students will complete internship experiences that are focused on the application of sport and exercise psychology interventions for individual and/or groups of athletes, exercisers, or performers. Course instructors provide supervision to the students regarding their interactions with clients as well as provide training in specific applied sport and exercise psychology skills and ethics. Repeatable up to 10 credits including original course. S/U grading.

Prerequisites & Notes: KIN 541 and KIN 551.

Credits: 1-3

Grade Mode: S/U

KIN 592 - Internship

Supervised internship in schools, hospitals, clinics or corporation/industries as appropriate to complement the student's area of interest. Repeatable to a maximum of 6 credits. S/U grading.

Prerequisites & Notes: First Aid/CPR certification, proof of malpractice insurance, and permission of instructor.

Credits: 1-6

Grade Mode: S/U

KIN 690 - Thesis

Repeatable to a maximum of 9 credits.

Prerequisites & Notes: problem approval and permission of instructor.

Credits: 1-9

Grade Mode: Letter

KIN 699 - Continuous Enrollment

S/U grading.

Credits: 2

Grade Mode: S/U

Physical Education Courses**PE 101 - Beginning Conditioning**

Through lecture and physical practice, students will gain an understanding of the quantity and quality of exercise essential for developing and maintaining cardiorespiratory fitness, muscular fitness, and flexibility for healthy adults. S/U grading.

Credits: 1

Grade Mode: S/U

PE 103 - Beginning Jogging

Through lecture and physical participation, students will learn safe jogging principles and techniques, experience improved cardiovascular fitness, and increase muscular endurance and conditioning. S/U grading.

Credits: 1

Grade Mode: S/U

PE 104 - Beginning Yoga

Through lecture and physical participation, students will learn and practice yoga correctly and safely while enhancing health and well-being. S/U grading.

Credits: 1

Grade Mode: S/U

PE 106 - Intermediate Yoga

Students will learn and demonstrate intermediate skills through safe Yoga practice including: flexibility, balance strength, mental focus, concentration, meditation, relaxation, breathing techniques, and vibrant health. S/U grading.

Prerequisites & Notes: PE 104

Credits: 1

Grade Mode: S/U

PE 107 - Beginning Swimming

HEALTH AND HUMAN DEVELOPMENT

A physical movement class designed to help the non-swimmer to novice develop pool safety skills; learn basic water skills, including floating on front and back; treading water; holding breath underwater and to learn basic crawl stroke; basic elementary backstroke; and flutter kick.

Credits: 1

Grade Mode: S/U

PE 108 - Beginning Weight Training

Through lecture and physical participation, students will learn correct lifting and spotting technique, the basic muscle groups and weight training principles, and understand types of potential injuries and injury prevention. S/U grading.

Credits: 1

Grade Mode: S/U

PE 111 - Beginning Pilates

A physical movement class designed to stretch, strengthen, and balance the body with focus on postural symmetry, breath control, abdominal strength, and muscular flexibility utilizing methods from the Pilates program. S/U grading.

Credits: 1

Grade Mode: S/U

PE 120 - Beginning Social Dance

Through lecture and physical participation, students will gain a sense of rhythm (moving in time with the music), learn basic footwork and positioning for a variety of social dances, and practice techniques for leading and following. S/U grading.

Credits: 1

Grade Mode: S/U

PE 122 - Beginning Folk and Country Dance

Introduction and practice of traveling and setting steps appropriate for a wide variety of English and Scottish Folk and Country dances. Students will learn how to put together 'figures' to form a dance. S/U grading.

Credits: 1

Grade Mode: S/U

PE 123 - Beginning Scottish Country Dancing

Introduction and practice to traveling and setting steps appropriate for Scottish Country dances in both reel and strathspey time. Students will learn about the tradition from which Scottish dances and their music have come. S/U grading.

Credits: 1

Grade Mode: S/U

PE 124 - Intermediate Scottish Country Dance

Introduction and practice of the more advanced Scottish Country Dance figures in both reel and strathspey time. A higher level of experience and concentration will be required of all students. S/U grading.

Prerequisites & Notes: PE 123

Credits: 1

Grade Mode: S/U

PE 125 - Zumba

An interval dance-fitness class that combines Latin and International rhythms with easy to follow steps that focus on cardiovascular benefits and total body toning. S/U grading.

Credits: 1

Grade Mode: S/U

PE 132 - Beginning Badminton

Introduction and practice of the basic skills of both singles and doubles court positioning and strategy, game playing rules, scoring and etiquette. Students will work toward proficiency in basic badminton strokes (forehand, backhand, overhead clear, forehand smash, and short serve). S/U grading.

Credits: 1

Grade Mode: S/U

PE 134 - Beginning Pickleball

Introduction and practice of the basic skills of both singles and doubles court positioning and strategy, game playing rules, scoring and etiquette. Students will work toward proficiency in basic pickleball strokes (forehand, backhand, lob, drop-shot, dink, deep serve, and short serve). S/U grading.

Credits: 1

Grade Mode: S/U

PE 136 - Beginning Tennis

Introduction and practice of the basic strokes (volley, serve, forehand, and backhand), rules, scoring, and court etiquette for singles and doubles tennis court positioning and playing strategy. S/U grading.

Prerequisites & Notes: Students must provide tennis racket and 3 good tennis balls. Court or cross-training shoes are required.

Credits: 1

Grade Mode: S/U

PE 139 - Beginning Racquetball

Introduction and practice of the basic shots (forehand, backhand, ceiling, back-wall, corner, and kill), rules, scoring, and court etiquette for

singles, cut-throat, and doubles court positioning and playing strategy. S/U grading.

Credits: 1
Grade Mode: S/U

PE 144 - Beginning Soccer

Introduction, practice and demonstration of the basic soccer fundamentals (passing, controls, dribbling, heading, covering, shooting, tackling/jockeying); offensive and defensive concepts; game play, including goalkeeping; and knowledge of the rules of the game. S/U grading.

Prerequisites & Notes: Soccer shoes are recommended; running shoes do not provide adequate lateral support.

Credits: 1
Grade Mode: S/U

PE 145 - Beginning Volleyball

Introduction and practice of the basic individual and game playing skills, including serving, passing, spiking, setting, blocking, digging and floor skills. Students will be able to demonstrate mastery of the basic team patterns and understand the rules of play both in a game and in written form. S/U grading.

Prerequisites & Notes: Court or cross-training shoes are required.

Credits: 1
Grade Mode: S/U

PE 149 - Beginning Ultimate Disc

Introduction and practice of the basic throwing, catching, offense and defensive skills. Students will gain an understanding of the 'spirit of the game,' and knowledge of rules and strategies (stacking, flow, cutting, forcing, and defensive set-up). S/U grading.

Credits: 1
Grade Mode: S/U

PE 152 - Beginning Kickboxing

A physical movement class designed to demonstrate punches, kicks, blocks and evasive maneuvers through a well-rounded workout. Improve strength, balance, and endurance while increasing mental awareness with focus on cardiovascular conditioning. S/U grading.

Credits: 1
Grade Mode: S/U

PE 157 - Beginning Skiing

Introduction and practice of beginning level skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U

grading.

Credits: 1
Grade Mode: S/U

PE 158 - Intermediate Skiing

Introduction and practice of intermediate level skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U grading.

Credits: 1
Grade Mode: S/U

PE 159 - Advanced Skiing

Introduction and practice of advanced skiing or snowboarding maneuvering skills and techniques. Students will be graded on effort, progress, overall participation and attitude. S/U grading.

Credits: 1
Grade Mode: S/U

PE 165 - Beginning Four-Wall Handball

Four-wall handball. S/U grading.

Credits: 1
Grade Mode: S/U

PE 166 - Intermediate Handball

Demonstration and practice designed to enhance the student's skill level and dedication to the sport of four-wall handball. Exercise structures to influence focus, style, and versatility. S/U grading.

Credits: 1
Grade Mode: S/U

PE 167 - Beginning Mountain Bicycling

S/U grading.

Prerequisites & Notes: Students must provide their own bicycle and required helmet.

Credits: 1
Grade Mode: S/U

PE 168 - Beginning Martial Arts

Introduction and practice of the foundational principles of Judo and Ju-Jitsu as martial arts, and as they relate to fitness, safe falling, throwing techniques, controlling techniques, and ground techniques. S/U grading.

Credits: 1
Grade Mode: S/U

PE 169 - Beginning Self-Defense

Introduction and practice of personal, physical and mental self-defense skills with significant focus on

HEALTH AND HUMAN DEVELOPMENT

the use of posture and demeanor to de-escalate potential risk. S/U grading.

Credits: 1

Grade Mode: S/U

PE 170 - Beginning Sailing

The purpose of the course is to teach students the basics of safe and effective sailing for life long health and enjoyment. Students will learn how to prepare for sailing and safely perform basic sailing skills. S/U grading.

Credits: 1

Grade Mode: S/U

PE 171 - Beginning Sailboat and Racing

Introduction to collegiate style sailboat racing, including: strategy, boat handling and tactics. Students will receive lectures, demonstrations and use on the water drills to develop the skills and concepts involved in racing. Emphasis on practical application, with racing on the water occurring as often as safe and practical. S/U grading.

Prerequisites & Notes: PE 170 or PE 179; or basic skippering skills.

Credits: 1

Grade Mode: S/U

PE 175 - Beginning Windsurfing

The purpose of the course is to teach students the basics of safe and effective windsurfing for life-long health and enjoyment. Students will learn how to prepare for windsurfing and safely perform basic windsurfing skills. S/U grading.

Credits: 1

Grade Mode: S/U

PE 177 - Basic Kayak Touring

Course provides an introduction to the basic skills of Kayak Touring. Including boat handling, rescues, navigation, weather, safety tactics, and tide forecasting and trip planning. Instructional emphasis on the water paddling skills. S/U grading.

Credits: 1

Grade Mode: S/U

PE 179 - Intermediate Sailing

Course provides intermediate skills through the use of multiple designs of boats. Techniques for control and efficiency are examined as students learn to sail more complex and challenging boats. With more sophisticated boats and rig adjustments a more sophisticated understanding of the hydro and aerodynamic principals can be gained. S/U grading.

Prerequisites & Notes: PE 170 or instructor permission.

Credits: 1

Grade Mode: S/U

PE 181 - Intercollegiate Basketball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 183 - Intercollegiate Track and Field

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 185 - Intercollegiate Golf

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 189 - Intercollegiate Cross Country

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.

Credits: 2

Grade Mode: S/U

PE 190 - Intercollegiate Rowing

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 192 - Intercollegiate Volleyball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 193 - Intercollegiate Soccer

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 194 - Intercollegiate Softball

This course is designed for the Varsity Athletes. Each student is required to attend regularly scheduled practices, individual meetings, team meetings, conditioning, games/events, and team activities. Repeatable up to 10 credits. S/U grading.

Prerequisites & Notes: Instructor permission.
Credits: 2
Grade Mode: S/U

PE 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

PE 340 - Block I: Elementary Physical Education Methods

Incorporates pedagogical principles and instructional techniques in physical education based on the characteristics and needs of elementary students with emphasis on rhythms and dance, fundamental movement, and gymnastics.

Prerequisites & Notes: Physical Education and Health P-12 pre-major status.
Credits: 5
Grade Mode: Letter

PE 341 - Block II: Elementary Physical Education Methods

Incorporates pedagogical principles and instructional techniques in physical education based on the characteristics and needs of elementary students with emphasis on fitness development, fundamental skills, sport-related activities and contemporary recreational activities.

Prerequisites & Notes: PE 340, P-12 PE and Health major
Credits: 5
Grade Mode: Letter

PE 341P - Elementary Physical Education Practicum

Observing/assisting/teaching in an elementary school setting. Includes weekly seminar which covers: academic learning time, student success rates, feedback, professional growth.

Prerequisites & Notes: PE 341, or concurrent.
Credits: 3
Grade Mode: Letter

PE 345 - Physical Education for Elementary School

Physical activities in fundamental skill development, fitness, creative movement, rhythms and gymnastics for elementary age. Includes methods of teaching and developmental characteristics of children.

Prerequisites & Notes: Admission to Woodring College of Education; ELED 303 or ECE 390 or SPED 301.
Credits: 3
Grade Mode: Letter

PE 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

PE 440 - Block III: Middle School Physical Education Methods

Course incorporates pedagogical principles, instructional methodology, planning and implementation of instructional programs for

HEALTH AND HUMAN DEVELOPMENT

middle school level students. Curricular emphasis will focus upon skill acquisition and lead up to activities in the following areas: team building, loco-motor/fitness, striking w/hands & feet, rhythmic movements and recreational activities.

Prerequisites & Notes: PE 341P.

Credits: 5

Grade Mode: Letter

PE 440P - Middle School Physical Education Practicum

Observing/assisting/teaching in a middle school setting. Includes weekly seminar which covers: characteristics of middle school students, research on effective teaching, developing routines, class management, skill progressions and sequencing, pre-assessment, unit planning, assessment.

Prerequisites & Notes: PE 341P; PE 440 or concurrent.

Credits: 3

Grade Mode: Letter

PE 441 - Block IV: High School Physical Education Methods

Course incorporates pedagogical principles, instructional methodology, planning and implementation of instructional programs for high school level students. Curricular emphasis will focus upon tactical games and lifetime fitness in the following areas: team building, multi-skill activities, group exercise, striking w/implements, rhythmic movements, content integration and recreational activities.

Prerequisites & Notes: PE 440P

Credits: 5

Grade Mode: Letter

PE 441P - High School Health and Physical Education Practicum

Observing/assisting/teaching health and physical education in a high school setting. Includes weekly seminar which covers characteristics of high school students, curriculum development for health and physical education, assessment and transitioning from student to student teacher.

Prerequisites & Notes: PE 440P

Credits: 3

Grade Mode: Letter

PE 442P - Practicum in Physical Education

Individualized practicum in teaching physical education activities. S/U grading.

Prerequisites & Notes: PE341P.

Credits: 2

Grade Mode: S/U

PE 443 - Adapted Physical Education Methods & Practicum

Course incorporates library research methods related to specific disabilities and APA research writing skills, pedagogical principles, instructional methods, and planning and implementation of instructional interventions for individuals with disabilities in the educational setting. Includes field based experiences working with adapted physical education/recreational settings.

Prerequisites & Notes: PE 341.

Credits: 3

Grade Mode: Letter

PE 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Recreation Courses

RECR 105 - Challenge Facilitation

Course provides an overview of the theory and application of adventure based programming. Students will be introduced to safety practices, goal setting, framing and debriefing both group and individual challenge activities. Students will practice leading others in challenge learning activities. S/U grading.

Credits: 2

Grade Mode: S/U

RECR 201 - Foundations of Recreation and Leisure

Professional course dealing with the history, philosophy, present status, future goals, and challenges of leisure and the recreation service professions.

Credits: 4

Grade Mode: Letter

RECR 210 - Leisure in Contemporary Society

This course is to enhance students' understanding of leisure in contemporary society by examining the beliefs, values, and social structures of their own leisure and comparing and contrasting them with the individual and social considerations, including race/ethnicity, sex/gender, sexuality, age, economic status, ability, religion and other socio/cultural influences.

Prerequisites & Notes: None

Credits: 4

Grade Mode: Letter

GUR Attributes: SSC

RECR 271 - Introduction to Community Recreation and Leisure Services

Community-based recreation service agencies: philosophies, functions, services, personnel and facilities. Emphasis on the diversity and inter-relatedness of community recreation service agencies.

Prerequisites & Notes: RECR 201

Credits: 3

Grade Mode: Letter

RECR 272 - Introduction to Outdoor Recreation

Introduction to the major professional components of the outdoor recreation field: interpretive services, camping, resource management, programming, private recreation and tourism. Focuses on trends, programs and related professional issues.

Prerequisites & Notes: RECR 201

Credits: 3

Grade Mode: Letter

RECR 274 - Introduction to Therapeutic Recreation

Introduction to the principles and practices of therapeutic recreation. Includes history, philosophy, and trends and issues. Also presents an overview of consumer groups associated with therapeutic recreation.

Prerequisites & Notes: RECR 201

Credits: 4

Grade Mode: Letter

RECR 275 - Professional Practicum and Seminar

Career opportunities in leisure services investigated through organized visits to recreation and leisure agencies. Includes class meetings to explore professional development. S/U grading.

Prerequisites & Notes: RECR 201

Credits: 1

Grade Mode: S/U

RECR 276 - Introduction to Program Leadership

Leading and processing recreation experiences in community, outdoor and therapeutic settings that promote individual and social well-being.

Prerequisites & Notes: RECR 201

Credits: 2

Grade Mode: Letter

RECR 279 - Introduction to Tourism

Introduction to the major professional components of tourism: tour development, guiding, visitor services, resort management, and event planning. Also examines history of travel, types of travelers, motives of travel, niche markets, and current trends.

Prerequisites & Notes: RECR 201

Credits: 3

Grade Mode: Letter

RECR 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

RECR 301 - Work and Leisure Through the Ages

A historical survey of the evolution of work and leisure from antiquity to the present, examining developments from social, cultural, political, and economic perspectives. The course also explores how work and leisure have affected societies throughout history. The central goal of the course is to use the past as a means for students to examine beliefs, values, and practices regarding work and leisure in the present and the future.

Prerequisites & Notes: any 100-level history class or PSY 101, SOC 221, SOC 251, SOC 255, SOC 260, SOC 268, SOC 269

Credits: 4

Grade Mode: Letter

GUR Attributes: HUM

RECR 370 - Outdoor Program Development

Methods and techniques in the organization, implementation and evaluation of recreation programs in outdoor settings.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 4

Grade Mode: Letter

RECR 372 - Management of Recreation and Leisure Services

Entry-level administrative skills associated with managing personnel and organizational resources within parks and recreation systems.

HEALTH AND HUMAN DEVELOPMENT

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 5

Grade Mode: Letter

RECR 373 - Recreation Programming

Systems approach to programming methods for individual and group program planning in all parks and recreation settings.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 4

Grade Mode: Letter

RECR 376 - Therapeutic Recreation Program Design

Methods and techniques in the organization, implementation and evaluation of recreation programs for special populations: needs assessment, activity modification, adaptive equipment, physical and behavioral management and intervention techniques.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 4

Grade Mode: Letter

RECR 377 - Community Recreation

An examination of the traditional and alternative models of community development and their connections to recreation programming, aimed at understanding the interrelationships and importance of social, political, and economic dimensions of community.

Prerequisites & Notes: Phase I Recreation majors or instructor permission.

Credits: 4

Grade Mode: Letter

RECR 378 - Human Relations: Effective Communication in Therapeutic and Recreation Settings

Knowledge of human relations concepts and development of basic helping skills needed by individuals working in therapeutic relationships in outdoor, community, tourism, and institutional settings. Designed to meet certification requirements for therapeutic recreation.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 4

Grade Mode: Letter

RECR 379 - Foundations of Ecotourism

Course will introduce students to the history, concepts, principles, marketing, and planning of ecotourism activities. The focus will be on tours

and activities that promote cultural and environmental awareness, community empowerment, and local economic benefits. Emphasis will be on non-western cultures.

Prerequisites & Notes: Phase I Recreation majors or permission of instructor.

Credits: 4

Grade Mode: Letter

RECR 380 - Therapeutic Recreation Principles, Practices and Techniques

Concentrated analysis of the process and practice of therapeutic recreation. Includes medical terminology, disabling conditions, adaptations, models of health care, rehabilitation techniques, and further examination of the foundations and development of therapeutic recreation. Includes one hour arranged.

Prerequisites & Notes: Phase I Recreation majors or appropriate experience; written permission.

Credits: 5

Grade Mode: Letter

RECR 385 - Leisure and Aging

An overview of aging with respect to leisure services. Examines physical, social, psychological, economic and political aspects of aging as they relate to designing recreation programs and leisure opportunities.

Prerequisites & Notes: RECR 201 or instructor permission

Credits: 4

Grade Mode: Letter

RECR 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

RECR 421 - Therapeutic Recreation Trends and Issues

Analysis of trends and issues affecting the profession of therapeutic recreation.

Prerequisites & Notes: Phase III Recreation majors or appropriate experience; written permission.

Credits: 3

Grade Mode: Letter

RECR 444 - Recreation Budgeting and Finance

Principles and techniques of obtaining, budgeting and managing financial resources in parks and recreation agencies.

Prerequisites & Notes: Phase III Recreation majors or permission of Instructor.

Credits: 4

Grade Mode: Letter

RECR 450 - Recreation Program Evaluation

Quantitative and qualitative methods of program evaluation emphasizing experiential learning, questionnaire design and survey research, interviews, observations, and consensus techniques.

Prerequisites & Notes: Phase III Recreation majors or permission of Instructor.

Credits: 4

Grade Mode: Letter

RECR 470 - Adventure-Based Programming

Methods and techniques in the assessment, design, implementation and evaluation of adventure programs in enrichment and therapeutic recreation settings.

Prerequisites & Notes: Phase III Recreation majors or permission of instructor.

Credits: 3

Grade Mode: Letter

RECR 471 - Internship I

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. S/U grading.

Prerequisites & Notes: Phase II Recreation majors.

Credits: 3

Grade Mode: S/U

RECR 472 - Internship II

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel.

Prerequisites & Notes: Phase II Recreation Majors

Credits: 12

Grade Mode: S/U

RECR 473 - Internship III

Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel.

Prerequisites & Notes: Phase II Recreation majors.

Credits: 15

Grade Mode: S/U

RECR 475 - Community Development and Leisure Services

Principles and techniques of using community-driven assets-based models to focus on how recreation and leisure services form coalitions to serve marginalized communities. Case studies are used to examine barriers to and opportunities for community development.

Prerequisites & Notes: Phase III Recreation majors or permission of instructor.

Credits: 3

Grade Mode: Letter

RECR 479 - Ecotourism: Principles and Practices

Provides an understanding of the principles and practices of ecotourism. Examines theory, practice, history, terminology and issues in ecotourism planning and management. Emphasizes sustainable practices as they relate to traveler education, tour planning, and destination development.

Prerequisites & Notes: RECR 379 or permission of instructor.

Credits: 3

Grade Mode: Letter

RECR 480 - Leisure and Society

A senior capstone course that builds on general education and foundations of professional education. Goal is to synthesize diverse strands of theory and practice into an integrated understanding of recreation and leisure in modern society, with implications for professional service.

Prerequisites & Notes: Phase III Recreation majors.

Credits: 4

Grade Mode: Letter

History

Introduction

Without knowledge of the past, we are, as one writer has phrased it, like victims of collective amnesia groping in the dark for our identity. History as a discipline is rooted in that fundamental human urge, curiosity. It confronts and weighs the relative significance of chance, inevitability and choice in the passage of time. History is humanistic in its emphasis on the influence of ideas and values, its capacity to both instruct and entertain, and as interpretive literature. In its investigation of social processes, groups and institutions, and the examination of human motivation, it is a social science. It acts as a bridge among disciplines, borrowing from all and contributing a sense of context and sequence to the perception of actions and individuals. The American historian Carl Becker wrote: "The value of history is, indeed, not scientific but moral: by liberalizing the mind, by deepening the sympathies, by fortifying the will, it enables us to control, not society, but ourselves — a much more important thing; it prepares us to live more humanely in the present and to meet rather than to foretell the future."

Other Departmental Information

Mid-Program Checkpoint

A student seeking to complete a Bachelor of Arts degree in history within a four-year time span should have completed at least three courses from HIST 103, 104, 111, 112, 113, 121, 273, 274, 277, 278, 280, 281, 285, 286, 287 or EAST 201 or 202 by the start of the junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

Graduate Study

For concentrations leading to the Master of Arts degree and for information concerning the archival

training program, see the Graduate School section of this catalog.

Bachelor of Arts

History, BA

Department of History, College of Humanities and Social Sciences

60 Credits

Introduction

Most students are required to study history in both elementary and secondary schools. At that level, students often are given the impression that the study of history simply requires memorization of names, dates, and other facts about events in the past. At the college level, however, the study of history facilitates the development of research, analytical, evaluative, and interpretive skills. History majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

Why Consider a History Major?

If you like to read, write, and learn about the experiences of people in different places and times, you should consider the history major. No other major prepares students for as many different careers. History majors' strong communication skills are valued by all employers, including businesses and government agencies. The research, analytical, and evaluative skills that history majors develop prepare them for graduate study in many humanistic disciplines, public affairs, and library science and for careers as journalists, government officials, and attorneys. A growing number of history majors have made careers in the expanding field of public history. They work in museums, archives, and historical preservation.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring a major in History. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western. It is recommended that students who are considering a major in History take at least three introductory courses in History during their first year. These courses include HIST 103, 104, 111, 112, 113, 121, 123, 273, 274, 277, 278, 280, 281, 285, 286, 287, and EAST 201 and 202.

It is recommended that students contact a faculty advisor in the department as soon as they wish to declare a major in History.

Grade Requirements

HISTORY

A minimum GPA in history courses of 2.50 is required for graduation. No course with a grade of less than C- may be counted toward this major.

Requirements

For this program history courses are grouped into the following fields:

- United States
 - Europe
 - East and South Asia
 - Africa and Middle East
 - Ancient
 - Western Hemisphere (outside U.S.)
 - Thematic (A thematic field must be approved by a department advisor and may include but is not limited to the following:)
 - Transnational/Global
 - Gender/Sexuality
 - Environmental
 - Intellectual
 - Religious
 - Military
 - Imperialism/Colonialism
- Credits to be distributed as follows:
- Three courses in one of the above fields, one of which must be an upper-division class.
 - Three courses in a second field, one of which must be an upper-division class.
 - Three courses in a third field, one of which must be an upper-division class.
 - Electives under advisement.
- HIST 499 - Historical Research **Credits:** 5 (5 credits)
At least 30 of the 60 credits must be in upper division (300-400 level) courses, including at least one 400-level course in addition to HIST 499.

Additional Requirements

The department recommends that majors take the maximum permissible number of history courses in the General University Requirements program. Further, history majors are encouraged to enroll in HIST 401 - Methods of Research and Analysis, which offers practical training in the tools of historical research. Students planning to declare a history major should do so at the earliest possible date.

It is strongly recommended that majors who elect a concentration in a field where languages other than English predominate take enough language study to become proficient in appropriate language(s). Students planning on graduate study in history are advised that many graduate schools require foreign language proficiency for admission.

History/Social Studies, BA

Department of History, College of Humanities and Social Sciences

90 Credits

Introduction

The History/Social Studies major is designed to prepare students to teach history and social studies in secondary schools. In their history courses, History/Social Studies majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills. The

required courses in economics, geography, and political science are intended to prepare students to teach these subjects in middle and high schools.

Why Consider a History/Social Studies Major?

If you want to teach history or social studies in a middle or high school, you should consider the History/Social Studies major. However, this major also prepares students for a wider range of careers. The knowledge students acquire and the skills they develop in their history courses and in courses in social sciences prepare them for law school, graduate programs in public policy and international affairs, and careers as journalists, government officials, and attorneys.

Secondary Education students who wish to be endorsed in Social Studies may choose this major. However, the History/Social Studies degree does not require that a student pursue a teaching certificate. History/Social Studies majors interested in Secondary certification must apply separately to the certification programs, such as those in Woodring College of Education. Students usually apply to Woodring in their senior year or after they graduate.

To receive certification, students must also complete an approved teacher certification program. To receive a recommendation for state of Washington certification, students must complete the teacher certification program, including SEC 426, which is offered by the Department of Secondary Education as a part of 1) the undergraduate Bachelor of Arts degree, or 2) a post-baccalaureate program, or 3) the Masters in Teaching degree. See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Completion of this combined major leads to an endorsement in social studies.

It is recommended that students contact a faculty advisor in the department as soon as they wish to declare a major in History/Social Studies.

Grade Requirements

No course with a grade of less than C (2.0) may be counted in this major. Students must achieve a GPA of at least 2.5 in the courses counted in the major. Courses required for a state teaching endorsement must be completed with a grade of C (2.0) or better.

Requirements

- ENVS 204 - Human Geography **Credits:** 4
- One course from:
 - PLSC 101 - Government and Politics in the Modern World **Credits:** 5

HISTORY

- PLSC 261 - Introduction to Political Theory **Credits: 5**
- PLSC 271 - Introduction to International Relations **Credits: 5**
- PLSC 291 - Introduction to Comparative Politics **Credits: 5**
- PLSC 250 - The American Political System **Credits: 5**
- One course from:
 - ECON 206 - Introduction to Microeconomics **Credits: 4**
 - ECON 446 - Economics for the Teacher **Credits: 3** (preferred)
- One course from:
 - ECON 207 - Introduction to Macroeconomics **Credits: 4**
 - ECON 447 - Methods for Teaching About the National Economy in the Public Schools **Credits: 3** (preferred)
- Additional credits in any of the above disciplines or anthropology, sociology or psychology to a total of at least 30 credits
 - History credits should be distributed under advisement as follows:
 - 2 courses in the history of the United States. One course must focus on the period before 1865 and the other must focus on the period since 1865.
 - 2 courses with an emphasis on the 600-1450 CE period. One course must focus on Europe and the other course must focus on East Asia, South Asia, Africa, and/or the Middle East.
 - 2 courses with an emphasis on the period since 1450 CE. One course must focus on Europe, and the other course must focus on East Asia, South Asia, Africa, the Middle East, Canada, and/or Latin America.
 - 2 courses in the history of the ancient world (prior to 600 CE), covering two different continents.
 - HIST 391 - History of the Pacific Northwest **Credits: 5**
or HIST 392 - Tribal Sovereignty and Washington History **Credits: 5**
 - HIST 499 - Historical Research **Credits: 5**
 - Electives under advisement

NOTE: At least 30 of the 60 history course credits must be at the upper-division level.

To assure that competency requirements have been met, students should consult the department's approved list for courses for periods and geographical regions.

Bachelor of Arts in Education

History — Elementary, BAE

Department of History, College of Humanities and Social Sciences

45 Credits

Introduction

The History-Elementary major is designed for students who plan to become elementary school teachers. In their history courses, History-Elementary majors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Why Consider a History-Elementary Major?

If you want to teach in an elementary school and are interested in history, you should consider the History-Elementary major.

How to Declare (Admission and Declaration Process):

It is recommended that students contact a faculty advisor the department as soon as they wish to declare a major in History-Elementary.

Grade Requirements

A grade of C (2.0) or better is required for courses in the elementary education professional program and all courses required for the endorsement.

A minimum GPA in history courses of 2.50 is required for graduation. At least 15 of the credits must be in upper-division courses. No course with a grade of less than C (2.0) may be counted in this major.

Requirements

- Two courses in United States history
- Two courses in European history
- Two courses from one of the following areas: East and South Asia; or Africa and Middle East; or Western Hemisphere (outside U.S.)
- HIST 391 - History of the Pacific Northwest **Credits: 5**
or HIST 392 - Tribal Sovereignty and Washington History **Credits: 5**
- Electives under advisement

Additional Requirements**Elementary Education Professional Program Requirements (101-104 credits)**

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

HISTORY

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Professional Studies Core (23 credits)

- ELED 303 - Educational Psychology - Development and Learning **Credits: 5**
- ELED 310 - Education, Culture, and Equity **Credits: 5**
- ELED 370 - Introduction to Teaching **Credits: 5**
- I T 344 - Foundations of Technology in Teaching and Learning **Credits: 1**
- I T 442 - Digital Decisions: Technology for Educators **Credits: 3**
- SPED 364 - Teaching Each Student **Credits: 4**

Elementary Program — Methods, Curriculum Content, and Field Experiences (78-81 credits)

- One course from:
 - ART 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - DNC 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - MUS 398 - Integrated Arts for Elementary Educators **Credits: 3**
 - THTR 398 - Integrated Arts for Elementary Educators **Credits: 3**
- One course from:
 - ART 380 - Art Educating the Child **Credits: 3**
 - DNC 433 - Creative Movement for Educators With Lab **Credits: 4**
 - MUS 361 - Music for Elementary Teachers **Credits: 3**
 - THTR 350 - Theatre for Youth **Credits: 3**
 - THTR 351 - Creative Pedagogy **Credits: 4**
- ELED 425 - Social Studies for the Elementary School **Credits: 5**
- ELED 470 - Developing Teaching **Credits: 5**
- ELED 471 - Documenting Teaching **Credits: 5**
- ELED 480 - Literacy: Beginning Communicators **Credits: 5**
- ELED 481 - Literacy: Fluent Communicators **Credits: 5**
- ELED 491 - September Experience **Credits: 2**
- ELED 492 - Practicum: Experience in Literacy Methods **Credits: 4**
- ELED 494 - Internship - Elementary **Credits: 2-16**
- HLED 455 - Health Education Grades K-8 **Credits: 2**
- MATH 381 - Teaching K-8 Mathematics I **Credits: 4**
- MATH 382 - Teaching K-8 Mathematics II **Credits: 4**
- MATH 383 - Teaching K-8 Mathematics III **Credits: 4**
- MATH 491 - Internship Seminar - Teaching K-8 Mathematics **Credits: 2**
- PE 345 - Physical Education for Elementary School **Credits: 3**
- SCED 480 - Science Methods and Curriculum for the Elementary School **Credits: 5**
- SCED 490 - Laboratory/Field Experience in Elementary Science **Credits: 3**

Program Advisor: Dr. Randall Jimerson, Bond Hall 324, 360-650-3139, Rand.Jimerson@wwu.edu

Goals

The Department of History offers a graduate program leading to the degree of Master of Arts in history with a certificate in archives and records management. The Graduate Program in Archives and Records Management (ARM) prepares students for professional careers in both archives and records management. The curriculum emphasizes the interdependence of these two disciplines, both of which are essential to the challenges of documenting and preserving essential evidence of modern organizations and individuals.

The program prepares students to: 1) enter a professional career as an archivist or records manager; 2) apply analytical skills to problem-solving and to evaluation of a broad range of record keeping needs within organizations; 3) enter doctoral programs or pursue other advanced academic training; and 4) assume positions as researchers, writers, teachers, or curators in a variety of public and private settings.

Grounded in the study of history, the program recognizes the value of historical knowledge and understanding as a basis for identifying and preserving records of enduring value to society. The curriculum integrates automation and electronic records with traditional methods for textual, audio, and visual records. Students examine basic principles of archives and records management, learn methods of selecting, organizing, and using recorded information, and gain practical work experience in applying these techniques through an extended internship. A required master's thesis provides opportunity for original research and writing. The purpose of this program is to prepare students for a career and to enable them to learn to think and function as professional archivists and/or records managers.

Prerequisites

A baccalaureate degree from an accredited U.S. college or university, or an equivalent degree from a foreign university, or the permission of the department. Applicants with less than 25 credits in history or historical studies will be required to demonstrate knowledge of history and an ability to conduct historical research. For further information on admission requirements and procedures, contact the program director. Applicants with an advanced degree from an accredited institution are recommended, but not required, to submit GRE scores.

Program Requirements (56 credits)

HISTORY

The ARM requires 56 credits and foreign language competence. Two years minimum are required to complete the program although some students may take longer.

- HIST 505 - Historical Theory and Method **Credits: 4**
- HIST 525 - History and Principles of Archives and Records Management **Credits: 4**
- HIST 530 - Arrangement and Description of Archives **Credits: 4**
- One course from:
 - HIST 526 - Selection and Appraisal **Credits: 4**
 - HIST 532 - Records and Information Management **Credits: 4**
- One course from:
 - HIST 528 - Reference, Access and Outreach **Credits: 4**
 - HIST 534 - Preservation of Archival Materials **Credits: 4**
- HIST 536 - Internship in Archives and Records Management **Credits: 8**
- HIST 538 - Advanced Seminar in Archives and Records Management **Credits: 4**
- HIST 539 - Research and Writing Seminar: Archives and Records Management **Credits: 4**
- Two graduate courses in history
- Elective course(s)

Additional Information

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administrated by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program. ARM master's students may demonstrate computer programming competence, in lieu of a foreign language, by completing a three course sequence (e.g. CSCI 102, CSCI 202, MIS 314) with final course grade of B or better, or as approved by the history faculty.

Internship

Students complete a 350-hour internship (HIST 536) at a cooperating archives or records management agency. This provides supervised practical experience in professional work. Internships have been available in recent years in governmental, academic, business, and historical organizations in the Pacific Northwest and throughout the U.S. and Canada. Selection of internships is based on individual needs and interests, in consultation with the program advisor.

Electives

Electives, including courses in history, archives, records management, or another discipline related to the student's goals and interests, should be chosen in consultation with the program advisor.

Research Seminar

A Research Seminar (HIST 539) is required. Topics may relate to any aspect of archives, records management, or information studies. The Research Seminar provides a structured framework for original research, writing, and revisions, typically covering three academic terms during the second year of graduate study. The result will be an original research article suitable for submission for publication, either in print or online.

Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program. ARM master's students may demonstrate computer programming competence, in lieu of a foreign language, by completing a three course sequence (e.g., CSCI 102, CSCI 202, MIS 314) with final course grade of B or better, or as approved by the history faculty.

Internship

Students complete a 350-hour internship (HIST 536) at a cooperating archives or records management agency. This provides supervised practical experience in professional work. Internships have been available in recent years in governmental, academic, business, and historical organizations in the Pacific Northwest and throughout the U.S. and Canada. Selection of internships is based on individual needs and interests, in consultation with the program advisor.

Electives

Electives, including courses in history, archives, records management, or another discipline related to the student's goals and interests, should be chosen in consultation with the program advisor.

Research Thesis

A research thesis (HIST 690) is required. Topics may relate to any field of history.

History, Non-Thesis, MA

Department of History, College of Humanities and Social Sciences

Graduate Faculty

Anderson, Charles W., PhD, Middle East.
Bushelle, Emi, PhD, Japan.
Cameselle, Pedro, PhD, Latin America, U.S. Latin American Relations.
Cerretti, Josh, PhD, Sexuality, Indigenous America.
Costanzo, Susan E., PhD, Russian/Soviet, Europe.
Diehl, Peter D., PhD, Medieval, Ecclesiastical, Social.
Eurich, S. Amanda, PhD, early modern Europe, France and European social history.
Friday, Christopher C., PhD, American Indian, Asian American, Pacific Northwest, Public History.
Garfinkle, Steven J., PhD, ancient Near East and Mediterranean, historical theory and methods.
Hardesty, Jared R., PhD, colonial America.
Jimerson, Randall C., PhD, archives and records management, 19th-century U.S.
Leonard, Kevin A., PhD, 20th-century U.S., U.S. West.
López, A. Ricardo, PhD, Latin America
Neem, Johann N., PhD, Early U.S. Republic.
Pihos, Peter C., PhD, post 1865 African American history.
Price, M. Hunter, PhD, 19th-century U.S., American Religion, Borderlands/Frontiers.
Seltz, Jennifer, PhD, late 19th-century and 20th-century U.S., U.S. West
Stewart, Mart A., PhD, 19th-century U.S., Civil War and Reconstruction, Environmental.
Thompson, Roger R., PhD, China.
Zarrow, Sarah E., PhD, Jewish history.
Zimmerman, Sarah, PhD, Africa

Affiliates

Friesen, Kitty, paper conservator, Archives.
Kurtz, Anthony, MA History with a certificate in Archives & Records Management.
Steele, Ruth, MA History with a certificate in Archives & Records Management, MA (Hons) History, University of Edinburgh.

Goals

The program prepares students to: 1) enter doctoral programs or pursue other advanced academic training in history; 2) teach at the secondary or community-college level, and 3) assume positions as researchers, writers, teachers and curators in a variety of public and private settings

Prerequisites

Admission to graduate status and to graduate courses requires completion of an undergraduate major in history or the permission of the department. Applicants must also complete the general section of the Graduate Record Examination prior to admission to the program.

Application Information

Admit Quarter: Students are generally admitted only for the academic year, not summer.

TA Deadlines: April 1 for all program specializations.

Supporting Materials:

- In addition to the Graduate School application requirements, all history applicants must submit a brief statement of purpose and goals, and a writing sample, such as a research paper or similar example of writing ability

Program Requirements

Non-Thesis: Basic Requirements 48 credits

HISTORY

- ❑ HIST 505 - Historical Theory and Method **Credits:** 4 (4)
- ❑ Three courses in one field and three courses in another, with no more than one 400-level course in each area (maximum 10 credits at the 400 level)
- ❑ Submission of three revised graduate seminar papers to a committee of three department faculty no later than week seven of the final term of study. Proposed revisions to be arranged with that committee no later than week seven in the term prior to the final term of study
- ❑ Completion of Language Requirement (see below)

Additional Information

Fields of Study

Fields of study fall into four broad areas:

- United States, Western Hemisphere (excluding USA), Europe, Africa and Middle East, Asia
- Ancient, Medieval, Early Modern, or Modern Periods
- Comparative History (consult with graduate advisor)
- Archives and Records Management.

Students who choose the non-thesis option are required to complete at least three courses in one field and three courses in another, with no more than one 400-level course in each as determined in consultation with the graduate advisor (maximum 10 credits at the 400 level).

Electives

To complete a program in the Non-Thesis option electives may be chosen, in consultation with the graduate advisor from other seminars, readings courses, 400-level undergraduate courses (maximum of 10 credits) or HIST 500 (in rare cases, only with permission of the graduate advisor).

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administered by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program, or, where appropriate and with departmental permission, a demonstrated competence in mathematics, statistics, or appropriate computer programs/processes, as determined by advisor. For further information, contact departmental office, Bond Hall 364, 360-650-3429.

Program Requirements

Thesis: Basic Requirements 45 credits

- HIST 505 - Historical Theory and Method **Credits:** 4 (4)
- HIST 690 - Research and Writing Seminar: Thesis **Credits:** 2-12 (12)
- A written thesis prospectus is a prerequisite for 690 registration
- Three courses in a primary field and two in a secondary field
- Elective courses to total minimum 45-credit requirement
- Completion of Language Requirement (see below)

Additional Information

Fields of Study

HISTORY

Fields of study fall into four broad areas:

- United States, Western Hemisphere (excluding USA), Europe, Africa and Middle East, Asia
- Ancient, Medieval, Early Modern, or Modern Periods
- Comparative History (consult with graduate advisor)
- Archives and Records Management.

Students who choose the thesis option are required to complete at least three courses in a primary field and two courses in a secondary field, those fields to be determined in consultation with the graduate advisor and thesis committee chair.

Electives

To complete the program in the Thesis option, electives may be chosen, in consultation with the graduate advisor from other seminars, readings courses, 400-level undergraduate courses (maximum of 10 credits) or HIST 500 (in rare cases, only with permission of the graduate advisor).

Language Requirement

The foreign language requirement may be met in one of two ways: by passing an exam approved or administered by the department; or by earning a B grade or higher in the last course of a second-year language program. Courses graded on a pass/no pass basis would not qualify for satisfying the language requirement. Tests and course work taken before entry into the graduate program may be counted if completed within five years of acceptance into the graduate program, or, where appropriate and with departmental permission, a demonstrated competence in mathematics, statistics, or appropriate computer programs/processes, as determined by advisor. For further information, contact departmental office, Bond Hall 364, 360-650-3429.

Minor

Foreign Cultures Minor

Department of History, College of Humanities and Social Sciences

25 credits*

Introduction

The foreign cultures minor is designed to allow students who are studying French, Spanish, or Russian to deepen their knowledge of the histories of the places where these languages are spoken.

Why Consider a Foreign Cultures Minor?

If you are studying French, Spanish, or Russian, the foreign cultures minor will allow you to gain a deeper understanding of the histories of the parts of the world in which these languages are spoken. The minor will also allow you to develop your ability to analyze historical sources and your ability to communicate effectively in writing.

Sample Careers

Foreign Service Officer | Attorney | Government Official | Journalist | Business Manager | FBI/CIA Agent
Major/Career Resources

www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the foreign cultures minor. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western. It is recommended that students contact a faculty advisor in the department as soon as they wish to declare the foreign cultures minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two courses in one of the following areas:
 - France and the French-speaking world:
 - HIST 277 - Canada: A Historical Survey **Credits: 5**
 - HIST 286 - African History, 1800-present **Credits: 5**
 - HIST 341 - France 1500-1815 **Credits: 5**
 - HIST 342 - France 1815-1945 **Credits: 5**
 - HIST 359 - America and Vietnam **Credits: 5**
 - HIST 376 - French Colonial Canada: 1534-1763 **Credits: 5**
 - HIST 478 - History of Nationalism in French Canada **Credits: 5**
 - Latin America:
 - HIST 273 - Latin America: 1492-1824 **Credits: 5**
 - HIST 274 - Latin America: 1824 to the Present **Credits: 5**
 - HIST 474 - U.S. Latin American Relations **Credits: 5**
 - Russia:
 - HIST 333 - Imperial Russia: 1689-1917 **Credits: 5**
 - HIST 334 - 20th Century Russia **Credits: 5**
- HIST 364 - Film As History **Credits: 5** (in appropriate topic area)
- Electives under advisement
 - *Half must be in upper-division courses

History Minor

Department of History, College of Humanities and Social Sciences

25 Credits

Introduction

Most students are required to study history in both elementary and secondary schools. At that level, students often are given the impression that the study of history simply requires memorization of names, dates, and other facts about events in the past. At the college level, however, the study of history facilitates the development of research, analytical, evaluative, and interpretive skills. History minors learn how to locate and access a wide range of sources, to analyze historical evidence, including textual and visual sources, to evaluate historical interpretations, and to develop and support their own interpretations. The quantity of writing and discussion required in history courses also helps students to develop effective communication skills.

Why Consider a History Minor?

If you are not a history major but like to read, write, and learn about the experiences of people in different places and times, you should consider the history minor. In addition to the knowledge and skills they acquire

HISTORY

in their minors, history minors develop strong analytical, evaluative, and communication skills that are valued by all employers, including businesses and government agencies.

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the history minor. Students who have earned Advanced Placement or International Baccalaureate credit in history should not take the equivalent courses at Western. It is recommended that students contact a faculty advisor in the department as soon as they wish to declare the history minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A minimum GPA in history courses of 2.50 is required for graduation.

Requirements

For this program history courses are grouped into the following fields:

- United States
- Europe
- East and South Asia
- Africa and Middle East
- Western Hemisphere (outside U.S.)
- Ancient

Credits should be distributed as follows:

- Two courses in one of the above fields
- Two courses in a second field
- Electives under advisement
- At least ten credits must be in upper-division courses

Latin American Studies Minor

Combined minor offered by the Departments of History, Anthropology and Modern and Classical Languages, College of Humanities and Social Sciences

30 Credits

Introduction

This program is offered so that students interested in Latin America may be able to build expertise by drawing on the separate courses in this area offered by the departments of this University.

A major in Latin American Studies is available through the student-faculty designed majors program (see the Liberal Studies section of this catalog).

For further information and advisement, consult the Department of Modern and Classical Languages, the Department of History or the Department of Anthropology.

Why Consider a Latin American Studies Minor?

If you are interested in the literature, history, and cultures of Latin America, you should consider a Latin American Studies minor. This minor will help you to see the connections between your courses in Latin America literature, history, and anthropology. This minor is especially suitable for Spanish, anthropology, or history majors.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- Two courses in Spanish above the 201 level
- 10 credits from:
 - HIST 273 - Latin America: 1492-1824 **Credits: 5**
 - HIST 274 - Latin America: 1824 to the Present **Credits: 5**
 - ANTH 365 - Latin American Perspectives **Credits: 5**
- Remainder in courses relating to Latin America from any academic department, under advisement.

Public History Minor

Department of History, College of Humanities and Social Sciences

25 Credits

Introduction

Public History, also sometimes known as "applied history," includes the production and presentation of historical interpretations for the general public and for more specialized audiences. Many historical consultants, museum professionals, government historians, archivists, oral historians, cultural resource managers, curators, video and media producers, historic preservationists, policy advisors, and local historians consider themselves public historians. Unlike history teachers, who often work as individuals to design and deliver their courses, most public historians work in cooperation with community members and professionals from other disciplinary backgrounds.

HISTORY

Why Consider a Public History Minor?

If you are interested in history but are not particularly interested in teaching, you should consider a public history minor. The public history minor can help to prepare you for a career as a historical consultant, museum professional, archivist, cultural resource manager, video and media producer, historic preservationist, or policy advisor.

How to Declare (Admission and Declaration Process):

There are no prerequisites for declaring the Public History minor. It is recommended that students contact a faculty advisor as soon as they wish to declare the Public History minor.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- HIST 393 - Introduction to Public History **Credits:** 5
 - HIST 494 - Public History Internship **Credits:** 3-5 (repeatable to 10 credits)
 - 15-17 additional credits under advisement outside the department of the student's declared major (one methods course strongly recommended)
- Courses taken for credit in these programs may not be counted toward the major.

WWU Certificate (Non-Degree)

Archives and Records Management Certificate Program

The department also offers a post-master's certificate in archives and records management to students who already possess an advanced degree from an accredited institution.

Application Information

Admissions: Those seeking the ARM certificate apply to the Graduate School as post-master's degree candidates. Applicants whose advanced degree is in a field other than history must take at least one history course in addition to certificate requirements (see below). Graduate Record Examination scores are recommended, but not required. See other application information for the History MA program.

Gainful Employment Disclosure

For information about program completion rates, the median debt of students who completed the program, and other important information, go to: www.wvu.edu/registrar/ge/archives_rec_mgmt.html.

ARM Certificate Requirements

ARM certificate students with an advanced degree in history must complete 24 credits.

- HIST 525 - History and Principles of Archives and Records Management **Credits:** 4
 - One course from:
 - HIST 530 - Arrangement and Description of Archives **Credits:** 4
 - HIST 532 - Records and Information Management **Credits:** 4
 - HIST 536 - Internship in Archives and Records Management **Credits:** 8
 - Two of the following:
 - HIST 526 - Selection and Appraisal **Credits:** 4
 - HIST 528 - Reference, Access and Outreach **Credits:** 4
 - HIST 530 - Arrangement and Description of Archives (4)
 - HIST 532 - Records and Information Management (4)
 - HIST 534 - Preservation of Archival Materials **Credits:** 4
 - HIST 538 - Advanced Seminar in Archives and Records Management **Credits:** 4
- ARM certificate students with an advanced degree in a field other than history must complete 24 credits, plus one additional history course at the 500 level (4 credits).

History Courses

HIST 103 - Introduction to American Civilization: American History to 1865

From ancient America to the end of the Civil War.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

This course offers students an historical overview of the development of the American college and an exploration of current questions facing the future of college education.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

HIST 141 - History of the American West

HISTORY

This course provides an introduction to the history of the place that we now know as the U.S. West. Stretching from the Great Plains to the Pacific Ocean, the West has both been characterized by its diversity and bound together by a shared regional identity and history. Beginning with the eve of European expansion in the seventeenth century, but concentrating on the nineteenth and twentieth centuries, this course will focus on the historical processes that have defined the West and its place within the United States. Debates over access to land, natural resource management, federal power, racial and ethnic diversity, and the public good are central to western history. Using films, monographs, memoirs, letters, and articles, we will explore the struggles for land, resources, identity, and power which have characterized the West and its role in the nation, as well as the relationship between the western past and the myths and stories that have secured the region's prominent place in the American imagination.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 151 - Communities of the Ancient World
Examines both the development of ideas of community in ancient world, and the ways in which the writing of histories of ancient communities affects the modern construction of identity. Involves analysis of primary documents from antiquity as well as discussions of the methods used in historical studies. We will focus on the related topics of the developments of civilization in Mesopotamia and Greece, and the transmission of ideas in the ancient world.

Prerequisites & Notes: Entering Freshman.
Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 158 - Race and Identity in Modern America
Explores the ways in which race and identity have been formulated in American history and investigates the practice of history and its relationship to other disciplines. Involves examinations of primary documents as well as discussions of methods used in historical analysis. Topical coverage will span the last century and a half of American history.
Prerequisites & Notes: freshman standing
Credits: 4
Grade Mode: Letter
GUR Attributes: BCGM

HIST 232 - History of the Jews before the Modern Era

An analysis of Jewish History and culture from biblical times up to the Jewish Enlightenment.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 233 - History of the Jews in the Modern Era

An analysis of Jewish History and culture from the Jewish Enlightenment to the present day, with a particular focus on the Jews of Europe, Jewish emancipation, and migration.

Prerequisites & Notes: none
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 262 - African American History to 1865

The history of people of African descent in American and U.S. history from the beginnings of the trans-Atlantic Slave trade through the Civil War.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 263 - African Americans Since 1865

Introduces students to the experiences of African American women and men since the Civil War, with special emphasis on the Civil Rights and Black Power movements.

Prerequisites & Notes: HIST 104
Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 265 - Lesbian, Gay, Bisexual, and Transgender Experiences in U.S. History

Examines the experiences of lesbians, gay men, bisexuals, and transgendered people in U.S. history from the mid-nineteenth century to the present, with emphasis on identity and community formation and civil rights and liberation movements.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 268 - Introduction to Asian-American History

Contributions Asian Americans have made to the development of the United States with emphasis on immigration, adaptation, settlement and their struggle for justice and equality.

Credits: 5

Grade Mode: Letter
GUR Attributes: BCGM

HIST 273 - Latin America: 1492-1824
 Political, economic and sociocultural trends from the Spanish conquest through the independence movements.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 274 - Latin America: 1824 to the Present
 Political, economic and sociocultural trends from the post-independence period to the 1990s.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 275 - The Indian in American History
 Events and persons critical to history of North American Indians; review of interpretations of Indian cultures and history.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 277 - Canada: A Historical Survey
 Canadian history from aboriginal occupation to the present. Also offered as C/AM 277.

Credits: 5
Grade Mode: Letter
GUR Attributes: HUM

HIST 278 - Multiculturalism in Canada
 Historical development and current issues of multiculturalism in Canada through the lenses of immigration, acculturation, policies, critiques, and the lives of hosts and newcomers.

Credits: 5
Grade Mode: Letter
GUR Attributes: BCGM

HIST 280 - Introduction to East Asian Civilizations
 The origins and evolution of the political, economic and social aspects of East Asian civilizations through the early-modern period. Also offered as EAST 201.

Prerequisites & Notes: also offered as EAST 201
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 281 - East Asian History in the Early-Modern and Modern Eras

Examines political, cultural and social aspects of East Asian civilizations in the early-modern and modern periods. Also offered as EAST 202.

Prerequisites & Notes: also offered as EAST 202
Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 285 - African History to 1800
 An introduction to debates and topics concerning the early history of Africa. This course will highlight the movement of people, ideas, and commodities, as well as the development of African political economy, states, and culture from antiquity to 1800.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 286 - African History, 1800-present
 This course focuses on Africa's history since 1800. The course will address the following major themes: emancipation, colonization, development, medicine, gender, tradition, nationalism, independence, neo-liberalism, poverty, and public health.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 287 - Introduction to Islamic Civilization
 A thematic approach to religious and cultural aspects of Middle Eastern society; the development of Islam as a body of religious thought and practice; and major cultural movements in the Middle East.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HIST 288 - History of the Modern Middle East
 This class introduces students to the broad contours of Middle Eastern history since the eighteenth century. It covers the late Ottoman empire; European imperialism and colonialism; regional anti-colonialism, nationalism and decolonization; the Palestinian-Israeli conflict; the impact of the Cold War; the rise of Islamism; and postwar U.S. policy in the region.

Credits: 5
Grade Mode: Letter
GUR Attributes: ACGM

HISTORY

HIST 289 - Islam in France

Examines Islamic-French interactions from the eighth century to the present with an emphasis on colonialism, secularization, immigration, and Islamic experience in post WWII France.

Credits: 5

Grade Mode: Letter

HIST 290 - The Early Modern Atlantic World

This course examines the Atlantic system in an attempt to integrate the normally national histories of European, African, and American nation states. Topics in this course include maritime explorations, imperial expansion and colonization, the establishment of an Atlantic economy and the growth of merchant capitalism, European-Native American encounters and relations, slavery and the Transatlantic Slave Trade, piracy, the maturation of Euro-American colonial societies, and the Age of Revolution.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

HIST 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

HIST 310 - History of Ancient Mesopotamia

Introduction to the culture and history of Mesopotamia from the dawn of civilization to the end of the Roman era. Emphasis on the civilizations of the Fertile Crescent, including the Sumerians, Babylonians, Assyrians, and Hittites.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 311 - History of Ancient Egypt

Introduction to the culture and history of ancient Egypt. Focus on reading and discussing both modern textbooks and translations of ancient texts to gain an understanding of the people behind the pharaohs and the pyramids.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 312 - History of Ancient Greece

Introduction to the culture and history of ancient Greece, including the Bronze Age Aegean. Explores ancient Greece from the beginnings of Minoan civilization on Crete through the rise of Alexander and the Hellenistic world.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or LBRL 121 or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 313 - History of Ancient Rome

The political and social development of Rome from village to republic to empire, including an exploration of the whole of the Roman world and its impact on the development of Mediterranean civilization.

Prerequisites & Notes: HIST 111 or HIST 121 or 151 or LBRL 121 or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 314 - The American and European Enlightenment

An intellectual and cultural exploration of the major ideas about human nature and society in the trans-Atlantic American and European Enlightenment.

Prerequisites & Notes: One of: HIST 103 or HIST 104 or HIST 111 or HIST 112 or HIST 113 or HIST 152 or HIST 363 or LBRL 123

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

HIST 315 - Europe in the Early Middle Ages: 300-1050

Western Europe from late antiquity through the feudal era; particular attention to Roman-barbarian interchanges, Christianization and the rise, apogee and decline of the Carolingian empire.

Prerequisites & Notes: HIST 112 or LBRL 122 or instructor permission

Credits: 5

Grade Mode: Letter

HIST 316 - Europe in the High Middle Ages: 1050-1450

Western Europe from c. 1050 to the end of the Middle Ages; focus on social, economic, religious and cultural developments.

Prerequisites & Notes: HIST 112 or LBRL 122 or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 318 - Medieval England

A survey of English history from the Anglo-Saxon migrations and the collapse of Roman rule in Britain to the crises of the fourteenth and fifteenth centuries.

Prerequisites & Notes: HIST 112 or LBRL 122 or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 320 - War in the Middle Ages

War and related phenomena (crusades, Peace of God, Truce of God, laws of war, etc) in medieval Europe, with particular emphasis on the period from 1000-1450.

Prerequisites & Notes: HIST 112 or LBRL 122

Credits: 5

Grade Mode: Letter

HIST 321 - Reformation Europe and the Age of Religious Wars

Surveys the social, cultural and political changes that occurred in Europe after the Reformation shattered Western Christendom and challenged many of the fundamental beliefs and practices of medieval society.

Prerequisites & Notes: HIST 112 or LBRL 122

Credits: 5

Grade Mode: Letter

HIST 330 - Germany in the 20th Century

Advanced historical survey of Germany in the 20th century. Topics will include: World War I, the Weimar Republic, the rise of Naziism, World War II, the Holocaust, the Cold War, and the reunification of Germany.

Prerequisites & Notes: HIST 113 and junior status; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 331 - History of the Holocaust

A historical survey of the origins, history, and impact of the Holocaust carried out by Nazi Germany in the 20th century.

Prerequisites & Notes: HIST 113 and junior status or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 333 - Imperial Russia: 1689-1917

Survey of major political, social and economic developments of Russia from Peter the Great to the fall of the Romanov dynasty.

Prerequisites & Notes: HIST 113 or HIST 123 or

LBRL 123

Credits: 5

Grade Mode: Letter

HIST 334 - 20th Century Russia

Russian history from 1900 to 2000; emphasis on continuity and change.

Prerequisites & Notes: HIST 113 or HIST 123 or LBRL 123

Credits: 5

Grade Mode: Letter

HIST 335 - Women and Gender in Judaism

This course examines the roles of sex and gender within Jewish law, texts, and experiences, historically and in the present. Topics include the constructions of sex and gender in Jewish texts and history, attitudes toward gender roles, and gendered experiences of religious practice and everyday life.

Prerequisites & Notes: HIST 232 or HIST 233.

Credits: 5

Grade Mode: Letter

HIST 341 - France 1500-1815

Analysis of the transformation of France from a multilingual, multicultural kingdom to centralized nation-state; special attention to competing religious confessions, family organization and the state, Louis XIV's policies and the French Revolution and the Napoleonic achievement.

Prerequisites & Notes: HIST 112 or HIST 113 or LBRL 122

Credits: 5

Grade Mode: Letter

HIST 342 - France 1815-1945

Surveys the political, cultural and economic developments in France from the Napoleonic regime to the end of World War II.

Prerequisites & Notes: HIST 113

Credits: 5

Grade Mode: Letter

HIST 350 - American Colonial History

The history of colonial settlements in North America from first contact to the beginnings of the imperial crisis that led to the War for American Independence.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HISTORY

HIST 351 - The Long Crisis: U.S. History 1865-1920

Course examines the social, political, and environmental transformations which accompanied the emergence of the US as a major industrial power in the late nineteenth century and early twentieth centuries. Course concludes by exploring the growth and consolidation of US military, economic, and diplomatic power in and beyond North America through the end of World War I.

Prerequisites & Notes: Sophomore status.

Credits: 5

Grade Mode: Letter

HIST 352 - U.S. Civil War & Reconstruction

Development of sectionalism; nationalism and the role of government; impact of war in North and South; slavery and emancipation; role of women; efforts toward reunion; the failure of Reconstruction.

Prerequisites & Notes: HIST 103 or HIST 104.

Credits: 5

Grade Mode: Letter

HIST 353 - Latinas/os in the US West

Examines Spanish colonization of the region that became the western United States, the Mexican social, political, and cultural order, the impact of U.S. conquest on Spanish-speaking people, the emergence of new ethnic and racial identities, and immigration from Mexico and Central America.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

HIST 354 - Energy in American History

An exploration of the uses and meanings of energy in American history. Topics include development of and transitions between different energy regimes; relations between energy producers and communities; energy and American foreign policy; and social, cultural, and environmental changes linked to changing patterns of energy production and consumption. Also offered as ENRG 354.

Prerequisites & Notes: Sophomore status.

Credits: 5

Grade Mode: Letter

HIST 355 - Health and Disease in American History

Explores the history of health and disease in cultural, social, and political context over three hundred years of American history. Topics include the role of epidemics in national expansion and war; the rise of public health; race and disease; social movements and medical knowledge.

Prerequisites & Notes: Sophomore standing; HIST 103 or HIST 104, or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 356 - Gender and History

This course surveys how historians approach the topic of gender and how the discipline of Gender Studies has altered the way professionals study history. Rather than focusing on a particular region or era, this course examines how notions of femininity, masculinity, and the relationships between the two have changed and endured across different temporal and spatial contexts. Students will learn about the development of gender as a category of historical analysis, the growth of interdisciplinary approaches to gender in and out of academe, and current approaches to both gendering history and historicizing gender. Also offered as WGSS 356.

Prerequisites & Notes: One 100- or 200-level course in HIST or WGSS 211.

Credits: 5

Grade Mode: Letter

HIST 357 - The United States in the Cold War

Examines the social, cultural, and political history of the United States and the role of the nation in world affairs during the Cold War (1945-1990).

Prerequisites & Notes: Sophomore status.

Credits: 5

Grade Mode: Letter

HIST 358 - Women of Color in the U.S.

This course addresses the experiences and struggles of women of color in the United States both historically and today. In order to understand people in their own terms, we will read primary documents and secondary sources authored exclusively by women of color. Our overall goal is to better acquaint ourselves with the histories of women of color in order to better apprehend where they have been and where they are going, with a special emphasis on how they have been marginalized in the disciplines of History and Gender Studies. Also offered as WGSS 358.

Prerequisites & Notes: HIST 104 or WGSS 211.

Credits: 5

Grade Mode: Letter

HIST 359 - America and Vietnam

This course will look at the relationship between the United States and Vietnam from 1945 to the present, and examine the role this relationship has played in cultural developments in both countries as well as the emergence of a transnational Vietnamese/American culture. It will provide students with an introduction to postcolonial

theory, transnational history, ideas about collective memory, the history of the globalization of culture, and the history of the Vietnamese Diaspora.

Prerequisites & Notes: Instructor permission. The study abroad co-requisite for this course, HIST 3370, requires a trip to Vietnam.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

HIST 360 - History of Religion in Early America

History of religious traditions, practices, ideas, and movements in America from colonial era to mid-nineteenth century.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 361 - History of Religion in Modern America

History of religious traditions, practices, ideas, and movements in America from mid-nineteenth century to the present day.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 363 - The American Revolution

This course will cover the causes and consequences of the American Revolution, as well as the experiences of Americans living through it.

Prerequisites & Notes: One 100- or 200-level course in HIST; or LBRL 122 or LBRL 123; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 364 - Film As History

Readings and related films on selected historical topics; subject and course content varies with instructor. Repeatable with various topics.

Prerequisites & Notes: One course from: HIST 103, HIST 104, HIST 111, HIST 112, HIST 113, LBRL 121, LBRL 122 or LBRL 123. Course is established by each instructor. Consult Classfinder and/or Timetable of Classes before registering.

Credits: 5

Grade Mode: Letter

HIST 365 - History of Sexuality in the United States

Examines the changing definitions of sexuality from Ancient America to 1990's.

Prerequisites & Notes: Junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 366 - The Early American Republic

This course will introduce students to major themes concerning the development of the American republic following the Revolution until the 1840s.

Prerequisites & Notes: One 100- or 200-level course in HIST; or LBRL 122 or LBRL 123; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 367 - US Women to 1865

A survey of the changing social, economic and political roles of women in the United States from settlement through the Civil War.

Prerequisites & Notes: HIST 103 or HIST 104

Credits: 5

Grade Mode: Letter

HIST 368 - US Women from 1865

A survey of the changing social, economic and political roles of women in the United States from the Civil War to the present.

Prerequisites & Notes: HIST 103 or HIST 104

Credits: 5

Grade Mode: Letter

HIST 369 - Women, Gender, & Sexuality in African History

This course examines women, gender, and sexuality across topics like abolition, marriage, consumption, reproduction, health, and political leadership in recent African history.

Prerequisites & Notes: Sophomore status

Credits: 4

Grade Mode: Letter

HIST 370 - Chinese History to 600 AD

The evolution of early civilization and the first stage of high civilization in China to the Tang dynasty.

Credits: 5

Grade Mode: Letter

HIST 372 - Chinese History: 1800 to Present

China's development from the relative peace and prosperity of the late 18th century through the devastating wars and imperialist incursions of the 19th century to the struggle in the 20th century to create a modern nation-state and regain a position

HISTORY

of wealth and power in an often hostile world. Survey ends with the crushing of the pro-democracy movement at Tiananmen in 1989 and its consequences. Chinese materials in translation will help students explore how individuals experienced the major political, cultural, social and economic transformations of the past two centuries.

Credits: 5

Grade Mode: Letter

HIST 374 - Premodern Japanese History

A general survey tracing the development of Japan's unique civilization from its earliest beginnings through the first half of the 19th century. Japan's diverse artistic, religious and intellectual traditions will be presented in sociohistorical context. Topics include the creation/maintenance of Japan's distinct national identity in the face of cultural borrowing, the role of religion in Japanese society, a critical analysis of the Bushido Way of the Warrior ethic, and the importance of the Imperial Institution for Japanese unity.

Prerequisites & Notes: Sophomore or junior or senior status; HIST 280 or HIST 281 or EAST 201 or EAST 202 highly recommended; or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 375 - Modern Japanese History

Traces Japan's evolution into a 20th-century world power from the Meiji Restoration (1868 C.E.) to the late Showa period. Sociopolitical history is emphasized. Major topics include the nature of the Meiji Restoration itself; the forces affecting Japan's modernization; internal and external pressures upon the Japanese state (both pre- and post-war); the importance of Tennosei Emperor System; the impact of the Occupation; and Japan's role in the New World Order.

Prerequisites & Notes: Sophomore or junior or senior status; HIST 280 or HIST 281 or EAST 201 or EAST 202 highly recommended; or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 376 - French Colonial Canada: 1534-1763

A history of people and events making the social, cultural, political and economic structures of Canada under French colonial rule. Themes include colonialism, relationships with First Nations, religion, authority, social structures, gender, war and peace, and the nature of the Conquest.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 377 - Japanese History Through Film

Use of film to examine facets of the Japanese historical experience(s) in different periods. Lectures provide historical context for the films. The time frame extends from the Late Heian period [c. 12 century through the late 20th century].

Prerequisites & Notes: Junior or senior status

Credits: 5

Grade Mode: Letter

HIST 379 - Canadian American Relations

Examination and impacts of significant developments in the political, diplomatic, economic, social and cultural relations between Canada and the United States.

Prerequisites & Notes: Sophomore or junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 380 - Food & Environment in America

One of the best windows into the values and history of a society is an examination of the food the people eat – where it comes from and how it is produced, how it is processed and marketed, and how it is prepared and consumed. This class will examine food as both the subject and the object of historical analysis, and explore the history of food in America as a way to explain larger historical forces in the American past. It will pay particular attention to the relationship of food history and environmental history, and it will introduce students to environmental history as a field of historical inquiry.

Prerequisites & Notes: Junior status and one from: HIST 103, HIST 104, HIST 113, or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 381 - Jewish Nationalisms

This course examines the Jewish national (and anti-national) movements of the 19th and 20th centuries: Territorialist, assimilationist, diaspora nationalist, and Zionist ideologies. Moving from questions of group identity—are the Jews a nation, a people, a religion?—to historical and contemporary theories of nationalism, situating Jewish nationalisms within their European historical contexts. We consider these nationalisms theoretically and through their manifestations in politics, culture, and religious life. This course emphasizes the heterogeneous and dynamic

nature of nationalist movements.

Prerequisites & Notes: HIST 232 or HIST 233.
Credits: 5
Grade Mode: Letter

HIST 382 - The U.S., Neoconservatism, and the Middle East

This class centers on postwar (1945-) relations between the U.S. and the Middle East and examines the causes and consequences of some of their troubled encounters. It surveys U.S. ties to regional dictatorships, the geopolitics of oil, and the alliance with Israel, as well as exploring the role of neoconservative intellectuals in recent U.S. policies including the 2003 Iraq war and the "global war on terror."

Prerequisites & Notes: One course from: HIST 288, HIST 383, HIST 384, HIST 406, HIST 407, HIST 408; or instructor permission.
Credits: 5
Grade Mode: Letter

HIST 383 - Modern Iraq

Iraq is a pivotal country in recent Middle Eastern history and as regards U.S. foreign relations and war-making in the region. Iraq's difficult and fascinating history has reflected some of the most enduring problems of the modern Middle East and provides ample room for their study, including problematic colonial foundations; social inequality and uneven development; oil and foreign intervention; militaristic authoritarianism; and sectarianism and national fragmentation. Moreover, since the 1980s the U.S. has become increasingly entangled with Iraq, at great cost to both parties, backing it in one war and then invading it in two others. This is critical ground both for the study of U.S. relations with the Middle East and the Muslim world and for thinking about the U.S. role in the world more generally.

Prerequisites & Notes: Any 100- or 200-level course in HIST, or instructor permission.
Credits: 5
Grade Mode: Letter

HIST 384 - Palestine, Zionism, and Israel

This course provides an extensive introduction to the primary historical events and dynamics that have shaped the development of the Israeli-Palestinian conflict, from the era prior to the beginning of Zionist settlement in Palestine in 1882 to the present.

Prerequisites & Notes: Sophomore status or instructor permission.
Credits: 5
Grade Mode: Letter

HIST 385 - West Africa and the Atlantic World

This course will introduce undergraduates to major themes and processes in West Africa and the African Atlantic World from the seventeenth through nineteenth centuries.

Prerequisites & Notes: Sophomore standing.
Credits: 5
Grade Mode: Letter

HIST 386 - Southern Africa

Development of African and European societies in South Africa and neighboring states, their relations and conflicts.

Prerequisites & Notes: sophomore standing
Credits: 5
Grade Mode: Letter

HIST 387 - Africa since the 1960s

This course offers students an introduction to African history since Ghana's independence in 1957 to today.

Prerequisites & Notes: Sophomore status.
Credits: 5
Grade Mode: Letter

HIST 390 - Topics in History

Specialized topics in history. The subject of each individual course and its prerequisite will be announced in the Timetable of Classes. Repeatable with different topics.

Prerequisites & Notes: junior standing
Credits: 5
Grade Mode: Letter

HIST 391 - History of the Pacific Northwest

Examines key themes and developments in the history of the Pacific Northwest from the eighteenth century until the present, with specific emphasis on Washington State. Required for certification of secondary school social studies teachers and for Elementary Education Studies majors.

Prerequisites & Notes: sophomore standing
Credits: 5
Grade Mode: Letter

HIST 392 - Tribal Sovereignty and Washington History

Examines multiple definitions of tribal sovereignty and the history of tribal sovereignty alongside key themes and developments in the history of the Washington from earliest times to the present. Also introduces students to the "Since Time Immemorial: Tribal Sovereignty in Washington State" curriculum. Required for certification of secondary school social studies teachers and for

HISTORY

Elementary Education Studies majors.

Prerequisites & Notes: Sophomore status.

Credits: 5

Grade Mode: Letter

HIST 393 - Introduction to Public History

Introduction to concepts and issues inherent in public history as a preparation for understanding the uses of history beyond academe and/or the K-20 classroom.

Credits: 5

Grade Mode: Letter

HIST 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

HIST 401 - Methods of Research and Analysis

This course examines diverse primary and secondary sources and teaches students how to analyze them critically. Students also prepare for 499 by crafting a research proposal in their chosen field.

Prerequisites & Notes: 3 upper-division history courses.

Credits: 5

Grade Mode: Letter

HIST 404 - Colonialism and the Middle East

This course examines the role of European colonialism in shaping the modern states and societies of the Middle East. It focuses on colonial state and institutional formation, strategies of rule, practices of imperial violence, economic and social transformations, questions of culture and identity, the role of knowledge in advancing colonial power, and the local, regional, and global legacies of the colonial era.

Prerequisites & Notes: One course from: HIST 281, HIST 286, HIST 288, HIST 369, HIST 372, HIST 375, HIST 382, HIST 383, HIST 384, HIST 385, HIST 386; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 405 - The Traditional Middle East

From the 6th Century to 1800.

Prerequisites & Notes: Junior status or

instructor permission.

Credits: 5

Grade Mode: Letter

HIST 406 - Middle East, 1800 to the Present

From 1800 to the present.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 407 - History of the Israel/Palestinian Conflict

Emergence of Israel and Palestinian national identities and competition for control of territory and state formation.

Prerequisites & Notes: Junior status; HIST 113 or LBRL 123 or instructor permission.

Credits: 4

Grade Mode: Letter

HIST 408 - World War II: the European War

Examines the causes and conduct-political, military and economic-of World War II in Europe and North Africa, 1939-1945, the great mid-20th century conflict between the Axis and Allied powers.

Prerequisites & Notes: Junior status

Credits: 5

Grade Mode: Letter

HIST 409 - World War II: the Pacific War

This course addresses the major causes, campaigns, consequences, and historical controversies related to World War II in the Pacific.

Prerequisites & Notes: Junior Status.

Credits: 5

Grade Mode: Letter

HIST 410 - The First Cities: Urbanization in the Ancient World

Survey of the emergence and development of cities in antiquity, and of daily life in those cities, from the first urban experiences in Mesopotamia through the Greek city-states and up to the imperial city of Rome.

Prerequisites & Notes: HIST 111 or HIST 121 or HIST 151 or HIST 310 or HIST 311 or HIST 312 or HIST 313 or LBRL 121 or junior status.

Credits: 5

Grade Mode: Letter

HIST 412 - Ancient Rivers and Roads

This course examines the related topics of commerce and communication in the ancient world. The first half of the course emphasizes the

relationship between the natural environment (rivers) and the development of urban civilization. The second half of the course concentrates on human efforts (roads) to bring ancient communities together. We will consider how rivers, seas, and roads facilitated trade in goods and ideas throughout antiquity.

Prerequisites & Notes: Junior status and one from: HIST 111, HIST 121, HIST 151, LBRL 121, HIST 310, HIST 311, HIST 312, HIST 313, or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 414 - The Carolingian Era

A detailed examination of the political, social, intellectual, and religious history of western Europe, focusing primarily on the Kingdom of the Franks under the rule of the Carolingian dynasty, from the 600s to the early 900s.

Prerequisites & Notes: HIST 112; one 300- or 400-level course in HIST; HIST 315 recommended; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 421 - Gender in Early Modern Europe

A thematic study of gender, gender relations and sexual identity in Europe from 1300 to 1800.

Prerequisites & Notes: HIST 112. Recommended any 300- or 400-level HIST courses. Junior or senior status.

Credits: 5

Grade Mode: Letter

HIST 447 - History of the Sciences of Nature

Examines the historical roots and development of the sciences of nature in Europe and the United States, 1600-2000. Will combine history of science with social and cultural history. Will be most attentive to those developments that shaped the emergence of environmental sciences.

Prerequisites & Notes: HIST 103 or HIST 104 or HIST 113; junior standing

Credits: 5

Grade Mode: Letter

HIST 450 - Climate and Culture in America

The course will look at significant episodes of what the historian Raymond Williams calls the 'human history' of nature and will explain that different communities and groups in American society have considered climate and weather differently at different times. These cultural articulations have reflected very real differences in relations with the physical environment, but also differences in social and political relations – some of which do more to

obscure – and certainly to complicate -- than illuminate what is actually happening with the climate and the weather. A history of the relationship between climate, ideas about climate, and larger cultural developments in American culture will provide students an opportunity to do the kind of comparative and historical analysis that will contribute to an understanding of contemporary preoccupations with climate and climate change.

Prerequisites & Notes: Junior status and one from: HIST 103, HIST 104, HIST 113, or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 452 - U.S. Intellectual History, 1776-1900

This class will introduce students to major thinkers that shaped the development of the United States between the American Revolution and the turn of the 20th century. The course will ask students interpret the writings of American intellectuals in relation to each other and to their historical context.

Prerequisites & Notes: Junior or senior status

Credits: 5

Grade Mode: Letter

HIST 453 - U.S. Intellectual History, 1900-Present

Introduction to major thinkers who shaped the development of the United States during the 20th century. Students will interpret the writings of American intellectuals in relation to each other and to their historical context.

Prerequisites & Notes: Junior or senior status

Credits: 5

Grade Mode: Letter

HIST 460 - American Environmental History

History of the role and place of nature in American culture from the colonial era to the present, with some comparisons to significant and kindred human-nature interactions elsewhere. Will emphasize the history of cultural constructions of nature, on American perceptions and conceptions of nature, on the transnational character of many environmental problems and ideas, and on the environmental consequences of this.

Prerequisites & Notes: HIST 103 or HIST 104; junior standing

Credits: 5

Grade Mode: Letter

HIST 461 - US Urban History

HISTORY

Examines the development of cities and suburbs in the United States, primarily since the Civil War; special attention to the importance of race, ethnicity and gender in the shaping of urban cultures.

Prerequisites & Notes: HIST 104; junior standing

Credits: 5

Grade Mode: Letter

HIST 464 - Saturday Night Live and the United States in the 1970s

Examines the social, cultural, economic, and political history of the United States in the 1970s by focusing on the iconic television program Saturday Night Live, which premiered in the fall of 1975 and quickly became a cultural institution.

Prerequisites & Notes: HIST 104

Credits: 5

Grade Mode: Letter

HIST 467 - Self and Society in 19th Century America

Topics in American cultural history, late 18th to the late 19th century, that emphasize evolving and changing definitions of the 'self' in relationship to larger social and cultural change. Focuses on first-person accounts to explore race, ethnicity, gender, class, and other areas of identity, as they intertwine with larger cultural expectations and opportunities - and in interaction with some of the most important events in U.S. history in the 19th century.

Prerequisites & Notes: Junior status; HIST 103 or HIST 104; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 469 - African Slavery in the Atlantic World, 1450-1804

This course examines African slavery in the Western Hemisphere between 1450 and 1804. Through readings, discussions, and multimedia presentations, it uses a transnational lens to compare and contrast various slave societies, while also looking at common themes.

Prerequisites & Notes: Sophomore status and one from: HIST 103, HIST 112, HIST 113 or HIST 123.

Credits: 5

Grade Mode: Letter

HIST 470 - World History of Democracy, 19th and 20th Centuries

This seminar reflects upon the ways in which different historical actors have shaped the meanings and practices of democracy since the

late 18th century in a variety of geographical locations across the world.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428

Credits: 5

Grade Mode: Letter

HIST 471 - Piracy in the Early Modern Atlantic World

This course examines piracy in the Atlantic World and beyond between the mid-sixteenth and the early-nineteenth centuries. Through readings, discussions, and multimedia, it uses transnational and chronological lenses to better understand the origins, course, and outcomes of various types and ages of piracy.

Prerequisites & Notes: One 300-level HIST course.

Credits: 5

Grade Mode: Letter

HIST 474 - U.S. Latin American Relations

This course explores the political, economic, social and cultural repercussions of the US-Latin American relations from the mid-19th century to the present.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428 or instructor's permission.

Credits: 5

Grade Mode: Letter

HIST 475 - Topics in American Indian History

The close, careful examination of historical evidence and scholarly investigations of American Indian History since c. 1850. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: One from: HIST 104, HIST 275, HIST 391, AMST 202, AMST 301, AMST 315, ANTH 361 or ANTH 462; or permission of instructor.

Credits: 5

Grade Mode: Letter

HIST 476 - World Histories of the Middle Class since the 19th century

This reading seminar reflects upon the ways in which middle class people have shaped - and have been shaped by - the making of modern societies since the late 19th century in a variety of geographical locations across the world.

Prerequisites & Notes: HIST 123 or HIST 274 or HIST 428 or permission of instructor

Credits: 5

Grade Mode: Letter

HIST 477 - World War I & Canadian Society

An examination and interrogation of the transformative power of Canada's first modern war upon its social, cultural, and national development, with special attention to gender, class, ethnicity, crisis in French-English relations, nationalist ideologies, cultures of war, and construction of collective memory.

Prerequisites & Notes: HIST 277 or permission of instructor and junior status.

Credits: 5

Grade Mode: Letter

HIST 478 - History of Nationalism in French Canada

Historical development of nationalism in French Canada from the 1837-38 Patriot Rebellion and development of the Metis nation through the 1970 FLQ terrorist crisis to the present Quebec sovereignist movement for independence.

Credits: 5

Grade Mode: Letter

HIST 479 - Medieval and Early-Modern Chinese History

A comprehensive exploration of key themes and topics in the social, cultural, economic, and political histories of medieval and early-modern China (roughly the thousand years spanning the sixth to sixteenth centuries).

Prerequisites & Notes: HIST 371 or HIST 280 or EAST 201.

Credits: 5

Grade Mode: Letter

HIST 480 - Modern Chinese Social History

A comprehensive exploration of key themes and topics in the social, cultural, economic, and political histories of late-imperial and modern China. Long-term processes such as China's interaction with the West, the demise of the imperial system and the creation of a Western-influenced structure of government, the globalization of the economy, the rise of a Western-oriented bourgeoisie, and an agrarian crisis form the backdrop to the Opium Wars, the Taiping Rebellion, the Boxer Uprising, the 1911 Revolution, the Chinese Renaissance, and the rise of the Nationalist and Communist parties.

Prerequisites & Notes: HIST 281 or HIST 372 or EAST 202.

Credits: 5

Grade Mode: Letter

HIST 481 - The Chinese Revolution

Explores key passages in China's long revolutionary struggle, beginning with Sun Yat-sen

and the 1911 Revolution and ending with the pro-democracy movement and events at Tiananmen in 1989. The May 4th Movement, Chiang Kai-shek's National Revolution of 1925-27, Mao Zedong's peasant-based Communist revolution, and the Cultural Revolution are among the events to be explored from social and cultural, as well as political, perspectives. First-person accounts such as Edgar Snow's *Red Star Over China*, primary documents, classic and revisionist Western accounts, Chinese literature in translation, and films like *'Yellow Earth'* and *'Farewell, My Concubine'* will be among the materials that students will use to explore this vast and still-controversial topic.

Prerequisites & Notes: HIST 372 or HIST 281 or EAST 202.

Credits: 5

Grade Mode: Letter

HIST 483 - Early Modern Japan

This course explores the cultural and intellectual foundations of early modern Japan (1600-1868), considering how key ideas and patterns of thought took shape and transformed in response to the decline of medieval ideologies and the formation of new social and technical realities. Topics of study include popular religion and literature, the rise of empiricism, secularization, and the emergence of a new "Japanese" cultural identity.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 484 - Women in Japanese History

Examines the diverse roles and fluctuating status of Japanese women from the beginnings of history to modern times. Possible topics: women and Japanese religions, women's political involvement, education and indoctrination, family roles, Japanese feminism, contributions to art and literature, and economic roles.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375; or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 485 - Japanese Military History: Samurai Fact and Fiction

Evolution and influence of Japan's military from the beginnings of history to modern times. Dispels popular misconceptions about Japanese warriors and Japan's martial traditions, and addresses military realities as well as formal ideologies. Topics include: the evolution of the military class, important battles, translated war tales (gunki

HISTORY

monogatari), the evolution of military skills and technology, the military's political involvement over time, the myth of Bushido, martial traditions cultural contributions and influences, and the relationship between Japan's religious and martial spheres.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375, or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 486 - Religion in Japanese History

An examination of the symbiotic relationship between state and religion throughout Japanese history. Although basic doctrines will be considered, emphasis of the course will be sociopolitical rather than metaphysical. Examples of topics: the formation of the Shinto tradition, Millenarianism, Buddhist institutions and temporal power, women and evolving religious tenets, European missionaries and Sengoku politics, Yasukunijinja and modern politics, and the religio-political nature of the Imperial institution.

Prerequisites & Notes: Junior status and HIST 374 or HIST 375, or instructor permission.

Credits: 5

Grade Mode: Letter

HIST 488 - Modern Egypt, Libya and the Nile Valley

The emergence of modern states in Northeast Africa including Egypt, Libya, the Sudan, Ethiopia and Somalia in an age of imperialism and nationalism.

Prerequisites & Notes: junior standing

Credits: 5

Grade Mode: Letter

HIST 490 - Advanced Topics in History

In-depth reading in primary and secondary literature on a particular historical problem or topic. Topics will vary. Repeatable with different topics.

Prerequisites & Notes: Junior or senior status. Recommended: any 100, 200, 300, 400 level History courses.

Credits: 5

Grade Mode: Letter

HIST 494 - Public History Internship

Internship at an approved location such as, but not limited to, as historical society, museum, archives, library, government agency, or history or related journal or press. In certain instances could include the development of public history projects for corporations or individuals as well as fieldwork in approved areas. Repeatable to a maximum of 10

credits.

Prerequisites & Notes: HIST 393 or instructor permission.

Credits: 3-5

Grade Mode: Letter

HIST 498 - Editing History Writings for the Profession

Introduction to participation in professional conferences and publishing through the preparation and editing of conference papers for presentation and potential publication. S/U grading.

Prerequisites & Notes: History Majors, History Minors, or Graduate Status in History.

Credits: 2

Grade Mode: S/U

HIST 499 - Historical Research

Research and writing of a formal paper on a topic developed by the student. Students normally work under an instructor within the field of their choice. Limited to declared history majors with junior status. Departmental pre-registration is required and occurs each spring. Writing proficiency course.

Prerequisites & Notes: One upper-division course in field of topic.

Credits: 5

Grade Mode: Letter

HIST 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

HIST 505 - Historical Theory and Method

A survey of current historical practice, including quantitative methods, deconstruction, economic history, comparative history, and intellectual and cultural history. Readings in current practice and papers are expected of students.

Credits: 4

Grade Mode: Letter

HIST 512 - The Ancient World

Selected topics in ancient history and the historiography of the ancient world. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: One upper level course in

ancient history or instructor permission.

Credits: 4

Grade Mode: Letter

HIST 515 - Medieval History

Selected studies from the Fall of Rome to the late Middle Ages. Repeatable.

Prerequisites & Notes: One upper level course in medieval history or instructor permission.

Credits: 4

Grade Mode: Letter

HIST 520 - Renaissance and Reformation

Readings in the history of Europe from 1337-1848. Repeatable.

Credits: 4

Grade Mode: Letter

HIST 525 - History and Principles of Archives and Records Management

An overview of the characteristics and uses of records and archival materials, and of the historical development, essential principles, and major functions of the archives and records management professions.

Credits: 4

Grade Mode: Letter

HIST 526 - Selection and Appraisal

Examination of theory and methodology of archival collecting policies, selection, acquisitions, and appraisal of archival records.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 528 - Reference, Access and Outreach

Examination of theory and methodology of archival access policies, reference services, outreach, and public advocacy.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 530 - Arrangement and Description of Archives

Detailed examination of archival arrangement and description systems, including both manual and automated applications, the USMARC cataloging format, Encoded Archival Description and other access systems.

Prerequisites & Notes: HIST 525.

Credits: 4

Grade Mode: Letter

HIST 532 - Records and Information Management

Detailed examination of principles, methodology and current issues in managing records in office information systems, including requirements for managing electronic records and for developing and applying automated techniques.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 534 - Preservation of Archival Materials

Examination of issues in managing a preservation, conservation and disaster preparedness program for archives; and lectures, demonstrations and practical exercises in the conservation and repair of archival media.

Prerequisites & Notes: HIST 525

Credits: 4

Grade Mode: Letter

HIST 536 - Internship in Archives and Records Management

Professional internship in a cooperating agency or organization. S/U grading.

Prerequisites & Notes: HIST 530 or HIST 532.

Credits: 8

Grade Mode: S/U

HIST 538 - Advanced Seminar in Archives and Records Management

Readings in selected aspects of archives administration and the management of current records and information systems.

Prerequisites & Notes: HIST 536 or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 539 - Research and Writing Seminar: Archives and Records Management

Original research on a topic in Archives and Records Management, including use of primary sources and/or original survey research; interpretation and analysis; and writing an original essay suitable for publication, either for a print journal or online journal/web publication forum. Year-long course, 4 credits for each of 3 academic terms. Repeatable to a maximum of 12 credits including original course.

Prerequisites & Notes: Instructor permission

Credits: 4

Grade Mode: Letter

HIST 540 - Modern European History

HISTORY

Selected topics in European history and historiography since the sixteenth century. Repeatable with different topics.

Prerequisites & Notes: Graduate status.

Credits: 4

Grade Mode: Letter

HIST 546 - World's Fairs and Other Spectacles

An examination into the commercial, political, and cultural dimensions of mass-attended spectacles in the modern world with a special focus on the relations between developed and underdeveloped peoples, both indigenous and foreign. Readings focus on theories of material culture; selections from scholarly work on the meaning of 'spectacle' and scholarly popular studies of World's Fairs, Olympics, and other 'meta-events.' A research paper, focusing on Third World, European or American fields is required.

Credits: 4

Grade Mode: Letter

HIST 550 - Colonial American History

Selected topics in American colonial history through the mid-18th century. Repeatable to a maximum of 12 credits.

Prerequisites & Notes: Graduate status and permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 551 - Early American Republic: 1783-1840

This course will introduce students to major readings and issues in the historiography of the Early American Republic.

Prerequisites & Notes: Graduate status or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 553 - American Environmental History

Readings seminar focusing on the literature on the history of the interaction of nature and society in America. Concentration on methods in environmental history. Also offered as ENVS 545.

Prerequisites & Notes: Graduate status in history or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 554 - World Environmental History

The organizing theme of this seminar will be that of 'exchange' - biological and cultural - of organisms and ideas about what to do with them.

By focusing on the problem of the history of 'exchanges' of organisms and ideas about the environment around the globe, the seminar will at the same time illuminate other themes in world environmental history. Also offered as ENVS 546.

Credits: 4

Grade Mode: Letter

HIST 555 - US Women's History

Selected readings in US women's history.

Credits: 4

Grade Mode: Letter

HIST 556 - Topics in Latin American History

Selected readings in Latin American history. Repeatable.

Prerequisites & Notes: Graduate status.

Credits: 4

Grade Mode: Letter

HIST 557 - The American Revolution

This course will introduce students to changing interpretations of the American Revolution. In the process, students will be exposed to broader changes in the historical profession. Repeatable to a maximum of 8 credits.

Prerequisites & Notes: Graduate status or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 558 - 20th-Century American History

Topics in 20th-century American history.

Prerequisites & Notes: undergraduate preparation in American history or instructor permission

Credits: 4

Grade Mode: Letter

HIST 559 - Topics in American Religious History

Selected topics in the history of religion in America from the colonial period through the 20th century. Repeatable to 12 credits.

Prerequisites & Notes: Graduate status or instructor permission

Credits: 4

Grade Mode: Letter

HIST 560 - Readings in North American Indian History

Readings on the history and historiography of Native North America.

Prerequisites & Notes: Graduate status.

Credits: 4

Grade Mode: Letter

HIST 571 - Culture and Identity in Canadian History

Examination of the constructions and meanings of various Canadian identities and their cultural origins and expressions, emphasizing their historical and historiographical significance.

Prerequisites & Notes: Graduate status.

Credits: 4

Grade Mode: Letter

HIST 582 - Topics in East Asian History

Selected topics in the history and historiography of China and/or Japan in the traditional and/or modern periods. Repeatable under advisement.

Prerequisites & Notes: Graduate status or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 583 - Topics in African History

This reading seminar will provide masters' students with an introduction to a variety of historical themes and debates concerning African history.

Prerequisites & Notes: Graduate student status.

Credits: 4

Grade Mode: Letter

HIST 584 - Japanese Women's History

This course examines the diverse roles and fluctuating status of Japanese women from the beginnings of history up to modern times. Topics may include: women and Japanese religions (Buddhism, Shintô, Shugendô, New Religions), women's political involvement, education and indoctrination, family roles, Japanese Feminism, contributions to art and literature, and economic sphere. This is a seminar course; students who do not possess any basic Japanese Studies background are expected to correct this knowledge deficit on their own.

Prerequisites & Notes: Graduate status or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 585 - Japanese Military History

An examination of diverse aspects of Japanese Military History from the beginning up to modern times. Possible areas of inquiry include warriors/soldiers, individual battles, technology, religions, political involvement, myth of Bushidô and its inculcation, cultural contributions, and economic roles. This is a seminar course that

builds upon a basic knowledge of a non-Western socio-historical culture; students should be prepared to correct any elementary knowledge deficit on their own. Students are expected to perform as well as those who have a background in Japanese Studies.

Prerequisites & Notes: Graduate status or permission of instructor.

Credits: 4

Grade Mode: Letter

HIST 586 - Japan's Asia-Pacific War(s)

An in-depth research seminar that examines Japan's reasons for, and the results of, its post-1868 military conflicts up through 1945. The course particularly focuses on the domestic and international impact of the Asia-Pacific War(s), which began in the 1930s.

Prerequisites & Notes: Graduate student status.

Credits: 4

Grade Mode: Letter

HIST 587 - Seminar in Middle Eastern History

Topics in Middle Eastern history.

Prerequisites & Notes: undergraduate preparation in Middle-East history or instructor permission

Credits: 4

Grade Mode: Letter

HIST 590 - Directed Historical Research

Directed research in historical topics by arrangement with the instructor. Counts as a writing seminar and may be repeated once with a different topic.

Prerequisites & Notes: Enrollment limited to non-thesis MA students

Credits: 4

Grade Mode: Letter

HIST 690 - Research and Writing Seminar: Thesis

Original research, including use of primary source materials and bibliographic aids, interpretation and/or textual criticism, and writing an original research thesis. May require a knowledge of auxiliary sciences, a foreign language, or the use of statistics or computer programming, depending on the topic of the research. Repeatable to a maximum of 12 credits.

Credits: 2-12

Grade Mode: Letter

Journalism

Introduction

The journalism department offers a degree program, the Bachelor of Arts, and also maintains a commitment to the liberal arts tradition by offering courses in support of the General University Requirements (GURs) and other departments.

Journalism majors and minors pursue theoretical and practical communication studies in a liberal arts setting. Students of journalism gain practical experience on Western's award-winning student media, and majors additionally take field internships with newspapers, magazines, broadcast stations, public relations agencies and other professional organizations. Courses in the news-editorial sequence emphasize the gathering, writing and ethical presentation of news. Understanding news processes and learning to report with accuracy, clarity and precision prepares graduates to communicate swiftly and lucidly in a changing world.

Courses in the public relations sequence follow the news-editorial emphasis, adding communication skills important for careers in this rapidly growing field. Courses in the visual journalism sequence prepare students in the concepts, professional practices and course work applications of visual components of news: photojournalism, information graphics, video and audio clips, mapping and typography.

A combined major, environmental studies/journalism, is currently in moratorium, and has been offered in cooperation with Huxley College of the Environment. Students are challenged to explore a range of other disciplines and to seek depth in one or more specialized areas through concentrations, major-minor combinations or even double majors.

Graduates find careers in newspapers, magazines, radio, television, publishing, advertising, public relations, teaching, and throughout government and industry wherever communications skills, with general knowledge, are vital. Because enrollment in the journalism department is limited, students considering a major should consult a journalism advisor before embarking on classes beyond JOUR 190 and JOUR 207.

Faculty

JENNIFER KELLER (2007) Chair and Associate Professor. BA, Kenyon College; MA, Salisbury State University; MA, Syracuse University.

BRIAN J. BOWE (2015) Associate Professor. BA and MS, Grand Valley State University; PhD, Michigan State University.

JOE GOSEN (2014) Assistant Professor. BA, San Jose State University; MA, University of Nevada, Reno.

JOHN M. HARRIS (1998) Associate Professor. BA, Wittenberg University; MS, University of Oregon; PhD, University of Washington.

MARIA MCLEOD (2012) Associate Professor. BS, Eastern Michigan University; MFA, University of Pittsburgh.

DEREK MOSCATO (2016) Assistant Professor. BA, University of Western Ontario; MS, University of Kansas.

CAROLYN NIELSEN (2008) Associate Professor. BS, California Polytechnic State University; MSJ Northwestern University.

BETSY O'DONOVAN (2017) Assistant Professor. BA, Wake Forest University; M.Phil, Trinity College Dublin.

PEGGY WATT (2004) Associate Professor. BA, Western Washington University; MLA, Stanford University.

SHEILA WEBB (2008) Professor. BA, University of Michigan; MA's, University of Wisconsin; PhD, University of Wisconsin.

Declaration of Major

The Department of Journalism offers three sequences leading to a Bachelor of Arts degree: a news/editorial sequence, a public relations sequence and a visual journalism sequence.

Students seeking admission to the major should see a member of the journalism faculty for advising and obtain a copy of admission requirements. Admission to the department and to specific courses may be limited.

Students seeking admission to the major must meet the following conditions:

- Have at least 30 college credits with a cumulative 2.50 grade point average
- Pass JOUR 207 with a B- or better (transfer students must meet the same requirement for any course accepted as an equivalent of JOUR 207)
- Complete with a B- or better one journalism staff course
- Submit a letter of application (in correct letter format)
 - The letter of application should demonstrate in style and grammar the student's understanding of writing and AP style. It should also include the following:
 - A discussion of what brought the student to the

journalism major, with particular emphasis on why the student chose that specific track (News-Ed, PR, VJ). What does the student hope to do with that degree upon graduation?

- An analysis of how the student's performance in journalism classes and publications demonstrates appropriate aptitude for the field.
 - A discussion of the importance of ethics in journalism and the student's specific track. Why is it important for students to understand ethics prior to beginning an internship or a job? How will the student strive to uphold the ethical code of that particular industry?
 - A detailed explanation of any areas that might stand out in review of the student's files such as failing certain journalism courses, low GPA, etc.
- The letter will be judged based on style and content, including how well the

student speaks to the above areas, particularly interest in the major, aptitude and ethics.

Majors must maintain a 2.50 grade point average both overall and in journalism courses. Students below that average for two consecutive quarters will be placed on probation; a third consecutive quarter will result in removal from the major. In addition, academic dishonesty issues in journalism courses may result in dismissal from the major, depending on severity.

For additional details on admission to the major, consult the department manager or any journalism faculty member.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA degree in journalism within a four-year time span should have completed the following courses by the start of their junior year. Major omissions from this list will make it difficult or impossible to complete this degree within two additional years.

- JOUR 190
- JOUR 207
- ENG 101
- 100- and 200-level GURs

Bachelor of Arts

Environmental Studies/Journalism, BA

Combined major offered by the Department of Journalism, College of Humanities and Social Sciences and the Department of Environmental Studies, Huxley College of the Environment.

113-117 credits

Introduction

Students wishing to complete an Environmental Studies major in four years should complete all GUR requirements in their first two years. Prospective environmental science majors are strongly advised to take additional preparatory course work that provides a strong background in chemistry, biology and mathematics. The preparatory courses listed below may be used to fulfill both Huxley College and GUR requirements.

JOURNALISM

Major/Career Resources

www.wvu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. All preparatory courses required for admission should be completed on a lettered or numeric grading scale, not P/NP, and must be completed with a grade of C- or better.

Requirements

Environmental Journalism Foundations (32 credits)

MATH 112 or suitable math placement score is necessary for some foundations courses, but higher-level math courses are recommended. Students are strongly encouraged to take chemistry, biology, and MATH 114 as part of their GUR courses to access upper division Environmental Science courses.

- ENVS 201 - Understanding Environmental Data and Information **Credits: 3**
- ENVS 203 - Physical Geography **Credits: 4**
- ENVS 303 - Introduction to Environmental Studies I: Human Ecology and Ethics **Credits: 5**
- ENVS 305 - Introduction to Environmental Studies II: History and Policy **Credits: 5**
- One ESCI course, 200-300 level (4 credit minimum)
- One upper division natural science course at the 300-400 level under advisement (3 credit minimum)
The one upper-division natural science course can be an ESCI course, additional approved natural science course in ENVS, or can be from any other science department. Students should be aware of prerequisites in other science departments.
- ECON 206 - Introduction to Microeconomics **Credits: 4**
- One course from:
 - ENVS 450 - Science in the Policy Process **Credits: 4**
 - ENVS 456 - Environmental Governance **Credits: 4**

Environmental Journalism Major Core Courses (68-70 credits)

- ENVS 412 - Environmental Journalism **Credits: 4**
- ENVS 413 - The Planet Staff **Credits: 4**
- JOUR 190 - Introduction to Mass Media **Credits: 5**
- JOUR 207 - Newswriting **Credits: 4** (Completed with a grade of B- or better)
- JOUR 307 - Reporting **Credits: 5**
- JOUR 309 - Editing **Credits: 5**
- JOUR 350 - Mass Media Law **Credits: 5**
- JOUR 351 - Mass Media Ethics **Credits: 4**

 JOUR 346 - Introduction to Visual Journalism **Credits: 5**
 JOUR 370 - Digital Media in Journalism **Credits: 5**
 JOUR 380 - Advanced Public Relations Writing and Techniques **Credits: 5**

Editing

ENVS 414 - Editing the Planet **Credits: 5**
 JOUR 415 - Newspaper Editorship **Credits: 5**
 JOUR 422 - Periodical Editorship **Credits: 5**

Environmental Journalism Depth and Specialization (minimum 10 credits)

The following courses are pre-approved. Others across campus may fulfill this requirement, under ENVS faculty advisement.

ECON 383 - Environmental Economics **Credits: 4**
 ECON 384 - Energy Economics **Credits: 4**
 ECON 483 - Resource Economics **Credits: 4**
 ENVS 300- and 400-level
 ESCI 300- and 400-level
 FAIR 300- and 400-level
 JOUR 300- and 400-level
 PLSC 346 - Politics of Inequality **Credits: 5**
 PLSC 347 - Race, Politics and Public Policy **Credits: 5**
 PLSC 390 - The Politics of Development **Credits: 5**
 PLSC 420 - Environmental Politics **Credits: 5**
 SOC 321 - Demography **Credits: 5**

Culminating Courses - Capstone and Experiential (3-5 credits)

Huxley Capstone

Students are required to take one ENVS approved course with a capstone "CPST" attribute during their senior year. A capstone class is a field or project based class that can be taken by students from both Huxley departments (ENVS/ESCI). This class is meant to be a culminating experience for the students bringing all the varied disciplines together as applied work on a real-world issue. Several capstone options are open to all Huxley College students; others have prerequisites.

Environmental Journalism majors are encouraged to select ENVS 417 as their capstone.

JOURNALISM

□ One course from:

ENVS 410 - Agroecology and Sustainable Agriculture **Credits:** 4

ENVS 417 - Science, Management and Outreach of Contaminated Sites **Credits:** 3

ENVS 429 - Pyrogeography **Credits:** 4

ENVS 430 - Borderlands: Resource Management **Credits:** 4

or C/AM 430 - Borderlands: Resource Management **Credits:** 4

ENVS 466 - Greening Business Applications **Credits:** 5

or MGMT 466 - Greening Business Applications **Credits:** 5

ENVS 474 - Planning for Sustainable Communities **Credits:** 4

ENVS 491 - Environmental Communication **Credits:** 5

ENVS 493 - Environmental Impact Assessment **Credits:** 5

ENVS 496 - Environmental Stewardship **Credits:** 5

ESCI 454 - Science, Management and Outreach of Contaminated Sites **Credits:** 4

ESCI 470 - Ecological Restoration **Credits:** 5

ESCI 490 - Environmental Risk Assessment **Credits:** 4

ESCI 491 - Oceanography of the Salish Sea **Credits:** 4

ESCI 493 - Environmental Impact Assessment **Credits:** 5

ESCI 494 - Marine Conservation **Credits:** 4

Or other ENVS or ESCI approved course with a capstone (CPST) attribute.

Journalism — News/Editorial, BA

Department of Journalism, College of Humanities and Social Sciences

79-81 Credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist may be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider a Journalism - News/Editorial Major?

Few fields of study prepare a person for as wide a range of interesting and challenging careers. Journalists first and foremost learn to write, to accumulate and analyze information. This set of skills is in demand in a host of fields beyond traditional mass media.

The study of Journalism exposes a student to current affairs and problems, from issues of campus governance to international news and concerns. Journalism students are expected to question, to challenge sources of information and seek a variety of data and opinions on any serious issue.

Journalism students are given the daily opportunity to practice what they learn, in hands-on student publication laboratories, culminating in a professional internship. The Journalism faculty at Western are prepared both professionally and academically to help students enter this exciting career field.

How to Declare (Admission and Declaration Process):

Criteria for declaring a pre-major:

To be eligible to declare as a pre-major in journalism, a student must have a minimum 2.5 cumulative GPA. Transfer students will be accepted during summer Transitions advising or during their first quarter on campus. Freshmen must complete one quarter of classes at WWU to establish a GPA before being considered as a pre-major. Current WWU students must show evidence of the required 2.5 GPA. Students are encouraged to declare as a pre-major while completing the requirements for the major. For complete details, see Steps to Becoming a Major, Declaring as a Pre-Major on the department's website.

Admissions: For admission to the major, a student must have completed the following requirements:

- Complete at least 30 college credits with a cumulative 2.50 grade point average
- Pass JOUR 207 with a B- or better
- Complete one Journalism staff course with a B- or better
- Submit a letter of application

Students meeting qualifications but not admitted because of space limitations will be listed as pre-majors and admitted as space allows.

Application deadlines: Deadlines for major declarations are posted in the Journalism Department and on the student Canvas site each quarter.

See additional details in the Journalism Department's Declaration of Major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Cumulative GPA of 2.50 or higher in major is required.

Requirements

- JOUR 190 - Introduction to Mass Media **Credits: 5**
- JOUR 207 - Newswriting **Credits: 4**

Journalism — Public Relations, BA

Department of Journalism, College of Humanities and Social Sciences

79-81 Credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist may be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider the Public Relations Sequence of the Journalism Major?

Journalism majors pursue theoretical and practical communication studies in a liberal arts setting. Students of journalism gain practical experience on Western's award-winning student media, and majors additionally take field internships with newspapers, magazines, broadcast stations, public relations agencies and other professional organizations.

Courses in the public relations sequence follow the news/editorial emphasis, adding communication skills important for careers in this rapidly growing field.

How to Declare (Admission and Declaration Process):

Criteria for declaring a pre-major:

To be eligible to declare as a pre-major in journalism, a student must have a minimum 2.5 cumulative GPA. Transfer students will be accepted during summer Transitions advising or during their first quarter on campus. Freshmen must complete one quarter of classes at WWU to establish a GPA before being considered as a pre-major. Current WWU students must show evidence of the required 2.5 GPA. Students are encouraged to declare as a pre-major while completing the requirements for the major. For complete details, see Steps to Becoming a Major, Declaring as a Pre-Major on the department's website.

Admissions: For admission to the major, a student must have completed the following requirements:

- Complete at least 30 college credits with a cumulative 2.50 grade point average
- Pass JOUR 207 with a B- or better
- Complete one Journalism staff course with a B- or better
- Submit a letter of application

Students meeting qualifications but not admitted because of space limitations will be listed as pre-majors and admitted as space allows.

Application deadlines: Deadlines for major declarations are posted in the Journalism Department and on the student Canvas site each quarter.

See additional details in the Journalism Department's Declaration of Major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. Cumulative GPA of 2.50 or higher in major is required.

Minor

Journalism News/Editorial Minor

JOURNALISM

Journalism, College of Humanities and Social Sciences

35 credits

Introduction

Journalism is the work of supplying content, primarily news, for the ever-expanding world of mass media. Journalists are responsible for gathering information, analyzing and editing it for a mass audience, and dispensing it using some form of media platform. Increasingly the methods of distribution have become more complex, but the basic mission of a journalist remains the same: to serve the public by finding, defining, writing and editing information.

Today's journalist can be found on traditional publications such as newspapers and magazines, broadcast outlets and specialized publications. He or she may utilize online delivery or other forms of electronic communication. The trained journalist may use her or his skills in the expanding field of public relations, working to serve as a bridge between those with a message to communicate and the journalist who seeks information.

Why Consider a Journalism News/Editorial Minor?

The Journalism News/Editorial Minor focuses on writing, reporting and editing. These communication skills are useful in many fields, and journalism minors may work in some aspect of publishing or may apply their journalist expertise to another industry, such as education.

Journalism Public Relations Minor

Department of Journalism, College of Humanities and Social Sciences

33-35 credits

Introduction

Journalism majors and minors pursue theoretical and practical communication studies in a liberal arts setting. Courses in the public relations minor include writing, media studies and public relations courses to provide students with basic skills important for careers in this rapidly growing field.

Why Consider a Journalism Public Relations Minor?

The Journalism Public Relations Minor was added to provide a focus on public relations studies not covered in the Journalism Minor, which emphasizes news/editorial. Its focus on writing, editing, analysis of information and communicating to a variety of audiences using a breadth of communication platforms is of interest to many employers in today's fast-changing economy. The Journalism Public Relations Minor is an excellent complement to majors such as business, marketing and communication studies.

Journalism Courses

JOUR 106 - Writing Structure

Analysis of and skill development in sentence structure, syntax, English grammar, mechanics, usage and punctuation as applied to journalistic writing.

Credits: 2

Grade Mode: Letter

JOUR 190 - Introduction to Mass Media

Introduction to basic issues and problems facing journalists and the public as recipients of mass media messages in national and international society; nature, theory and effects of communication; media systems, structure and support; world news flow; media controls; First Amendment rights; ethical considerations.

Credits: 5

Grade Mode: Letter

GUR Attributes: SSC

JOUR 207 - Newswriting

Writing for news media; clarity in use of language, style and punctuation; sentence and paragraph structure and organization of stories; credibility of information and news judgment; basic methods of researching and writing. Weekly news discussions based on a major national newspaper as one of the texts.

Prerequisites & Notes: basic word processing skills required

Credits: 4

Grade Mode: Letter

GUR Attributes: BCOM

JOUR 214 - Newspaper Staff

Participation on the staff of the university newspaper. Write articles and take photographs for the university's newspaper and online edition. Gather and edit audio and video, create multimedia packages for the newspaper's Web site. Also includes lecture.

Prerequisites & Notes: Sophomore status; JOUR 207.

Credits: 4

Grade Mode: Letter

JOUR 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

JOUR 305 - Photojournalism

Introduction to news photography and its application in print and online; composing effective new pictures; essentials of processing for print publication and multi-media projects; picture editing and layout; professional ethics and the law.

Prerequisites & Notes: JOUR 207; basic knowledge of photography and instructor permission

Credits: 4

Grade Mode: Letter

JOUR 307 - Reporting

Interviewing, news coverage of community news sources with emphasis on public affairs reporting. Introduction to computerized database reporting and investigative techniques. Writing for news media.

Prerequisites & Notes: B- or better in JOUR 207 or instructor permission

Credits: 5

Grade Mode: Letter

JOUR 309 - Editing

News copy desk operations; editing; headline writing; dummied; page make-up and news graphics; and computerized editing.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380.

Credits: 5

Grade Mode: Letter

JOUR 313 - Newspaper Visual Storytellers

Participation as a visual storyteller for the university newspaper. May take photographs for the university's newspaper, gather and edit audio and video, and/or create multimedia packages for the newspaper's Web site. Also includes lecture but not writing articles. May not be taken concurrently with a staff or editing course. Repeatable up to 12 credits including original course.

Prerequisites & Notes: JOUR 214, JOUR 314 or JOUR 414 with a B- or better; JOUR 305; and instructor permission.

Credits: 4

Grade Mode: Letter

JOUR 314 - Newspaper Staff

Participation on the staff of the university newspaper. Write articles and take photographs for the university's newspaper. Gather and edit audio and video, create multimedia packages for the newspaper's Web site. Also includes lecture.

Prerequisites & Notes: Junior status; JOUR 207; JOUR 214; JOUR 307 or JOUR 380.

Credits: 4

Grade Mode: Letter

JOUR 321 - Periodical Staff

Staff writers prepare and produce the twice-quarterly university periodical and its online edition under the direction of the editor-in-chief and editorial management staff; learn and practice querying story ideas, researching, reporting, writing and then assisting with production of the written and visual elements of the magazine, including online elements for the website. Writers will manage their own time outside of class to report, write and revise manuscripts, investing

time appropriate to their task and their goals and to meet deadline, and work with the editorial management team on production issues. Repeatable up to 8 credits including original course.

Prerequisites & Notes: JOUR 207; one newspaper staff course

Credits: 4

Grade Mode: Letter

JOUR 323 - Magazine Visual Storytelling

Magazine visual storytellers help prepare and produce the twice-quarterly university periodical and its online edition under the direction of the editor-in-chief and editorial management staff and create or assist with production of the visual elements of the magazine, including online elements for the website. Visual storytellers will manage their own time outside of class to take photographs, develop ideas for online content, create video or audio segments, and design online visual elements, investing time appropriate to their tasks and their goals and to meet deadlines, and work with the editorial management team on production issues. Students will work independently and with writers on specific stories. Repeatable to a maximum of 8 credits including original course.

Prerequisites & Notes: JOUR 321 or JOUR 421, with a grade of B- or better; JOUR 305; and instructor permission. May not be taken concurrently with a JOUR staff course.

Credits: 4

Grade Mode: Letter

JOUR 330 - Principles of Public Relations

Methods, tools and media used in planning and developing strategic public relations programs for all organizations. Practicing research methods, writing news releases, understanding effective communications strategies and integrated marketing communications, analyzing case studies, exploring relations with the press and developing creative public relations campaigns.

Prerequisites & Notes: JOUR 207 or ENG 101 or permission of instructor.

Credits: 4

Grade Mode: Letter

JOUR 340 - History of U.S. Journalism

An examination of how U.S. journalism has influenced U.S. history from the works that inspired the revolution to the coverage of 9/11. A poster presentation offers students the opportunity to research the role of the news media in shaping a specific event or issue in U.S. history.

Prerequisites & Notes: junior standing

JOURNALISM

Credits: 4

Grade Mode: Letter

GUR Attributes: HUM

JOUR 346 - Introduction to Visual Journalism

Critical and analytical exploration of the visual aspects of storytelling in print and online media; research on the cultural history and news media application of photography, infographics, typography, audio and video clips. Consideration of special properties, demands, and aspects of visuals as they are used to enhance and augment written news narratives. Application of these principles through projects that produce still and video photography, audio, informational graphics and typography to accompany written narrative.

Prerequisites & Notes: JOUR 207, JOUR 305, JOUR 309

Credits: 5

Grade Mode: Letter

JOUR 350 - Mass Media Law

Rights and legal restrictions on freedom of the press; constitutional guarantees as interpreted through the courts; libel, privacy, access to information, censorship, contempt, agency regulations. Issues applying to various forms of mass media, including print, broadcast and online publishing.

Prerequisites & Notes: Junior status.

Credits: 5

Grade Mode: Letter

JOUR 351 - Mass Media Ethics

Introduction to ethical theories; examination of professional codes and standards; changing roles of the media that affect moral reasoning for the journalist; responsibilities of the media in a world of instant communication and reaction; historical perspectives through case studies; use of reporting editing and advocacy methods and formation of news in print, broadcast and online media. Research paper examines ethics topic.

Prerequisites & Notes: JOUR 207

Credits: 4

Grade Mode: Letter

JOUR 360 - Study of Literary Journalism

Reading and critiquing texts that use literary techniques to enhance journalism. Studying the history of literary journalism and its impact on the field.

Prerequisites & Notes: Junior status

Credits: 3

Grade Mode: Letter

JOUR 365 - Publications - from Concept to Design

This course is designed for those who are interested in exploring magazines and who may be considering a career as a magazine writer, editor or designer. The course provides an introduction to magazine publishing, including a historical overview of the magazine industry, its evolution and its place in a consumer society. We will survey current consumer publications and will analyze what makes the best ones distinctive and valuable. The course will focus on how magazines are conceived, organized, edited, financed, produced and distributed. Based on this background, students will build a prospectus for a magazine of their own design which will answer the questions posed by backers: What is the editorial style, who is the audience, how will it be financed, who are the advertisers, what is the circulation, what is the character of its design, what makes it unique. The class also will address the growth of online publishing.

Credits: 5

Grade Mode: Letter

JOUR 370 - Digital Media in Journalism

Students will learn the basic steps to plan, produce and edit journalism that combines written components, audio, video and graphics to create compelling and engaging multimedia reports. Students will watch, analyze and provide written critiques of published multimedia projects. Students will examine the methods and techniques used by successful multimedia journalists. Students will produce, edit and review their own multimedia projects that combine written, audio and visual elements.

Prerequisites & Notes: JOUR 305, JOUR 307 and JOUR 309. May not be taken concurrently with JOUR 346.

Credits: 5

Grade Mode: Letter

JOUR 375 - Diversity, Mass Media and Social Change

Uses an intersectional framework of race/ethnicity, gender, class and other demographic groups to examine how mass media cover social change and affect their audiences.

Credits: 4

Grade Mode: Letter

GUR Attributes: BCGM

JOUR 380 - Advanced Public Relations Writing and Techniques

Intensive focus on the processes involved in writing for an organization's diverse publics, including news releases, op-eds, broadcast

material, speeches, organizational memos and proposals, employer publications, backgrounders, features and web sites. Students gain hands-on experience by applying these skills and processes through service-learning by writing for community organizations.

Prerequisites & Notes: JOUR 207 and JOUR 330.

Credits: 5

Grade Mode: Letter

JOUR 390 - The News Process

Critical examination of current news issues and decision-making processes through visiting news media professionals, readings and discussion. Repeatable to a maximum of 8 credits with various topics.

Prerequisites & Notes: Junior status

Credits: 4

Grade Mode: Letter

JOUR 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

JOUR 404 - Feature Writing

In-depth article, column, and persuasive writing; development of ideas, gathering of materials and writing; special attention to individual interests; exploration of freelance writing markets.

Prerequisites & Notes: Major status and JOUR 307 or JOUR 380.

Credits: 4

Grade Mode: Letter

JOUR 407 - Public Relations Case Studies

A study of the functions, processes and problems in the practice of public relations, paying particular attention to media relations, public relations theory and critical thinking. Students examine various genres of public relations, as well as exploring how theory, research, strategic objectives and evaluation contribute to successful campaigns. Students learn about creating successful public relations campaigns through critically analyzing case studies of both local companies and national programs and then applying what they learned to create a new proposal or campaign.

Prerequisites & Notes: JOUR 207; JOUR 330; JOUR 380. Major status.

Credits: 4

Grade Mode: Letter

JOUR 414 - Newspaper Staff

Participation on the staff of the university newspaper. Writing articles and taking photographs for the university's newspaper and online edition. Gathering and editing audio and video, creating multimedia packages for the newspaper's Web site. Also includes lecture. Repeatable up to 16 credits including original course.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; JOUR 314.

Credits: 4

Grade Mode: Letter

JOUR 415 - Newspaper Editorship

Publication editing and development; assigning and editing news stories, photographs and multimedia projects; creating content for the publication's Web site; creating and implementing budget and advising on budget decisions; acting as mentor to assigned staff members; holding office hours and meeting outside scheduled class time; preparing reports and presentations for class and instructor; assisting with and taking part in workshops; office management and security; learning personnel communication skills; using advanced publication software and technology; making self-evaluation and production reports for adviser. Repeatable up to 20 credits including original course. This course may not be taken concurrently with a staff course.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; one newspaper staff course and permission of instructor.

Credits: 5

Grade Mode: Letter

JOUR 421 - Periodical Staff

Staff writers prepare and produce the twice-quarterly university periodical and its online edition under the direction of the editor-in-chief and editorial management staff; learn and practice querying story ideas, researching, reporting, writing and then assisting with production of the written and visual elements of the magazine, including online elements for the website. Writers will manage their own time outside of class to report, write and revise manuscripts, investing time appropriate to their task and their goals and to meet deadline, and work with the editorial management team on production issues. Repeatable up to 12 credits including original course.

Prerequisites & Notes: Senior status; JOUR 207; JOUR 307 or JOUR 380; and one newspaper staff course.

JOURNALISM

Credits: 4

Grade Mode: Letter

JOUR 422 - Periodical Editorship

Print publication and online publication editing and development; hiring and supervising an editorial management team to produce the twice-quarterly university periodical and its online edition; acting as mentor to assigned staff members; holding office hours and meetings outside scheduled class time; preparing reports and presentations for class and instructor; assisting with and taking part in workshops; managing the publication office; reviewing and staying within budget; learning personnel communication skills; using advanced publication software and technology; making self-evaluation and production reports for adviser. This course may not be taken concurrently with a periodical staff course. Repeatable up to 15 credits including original course.

Prerequisites & Notes: JOUR 207; JOUR 307 or JOUR 380; one periodical staff course, and permission of instructor.

Credits: 5

Grade Mode: Letter

JOUR 430 - Field Internship

Supervised field work on newspapers, magazines, radio and TV stations, public relations and advertising agencies, or other appropriate professional situations. S/U grading.

Prerequisites & Notes: For the news/editorial sequence: Jour 207, JOUR 307, JOUR 309, JOUR 350, JOUR 351, two newspaper staff courses and major status. For the public relations sequence: JOUR 207, JOUR 309, JOUR 330, JOUR 350, JOUR 351, JOUR 380, one newspaper staff course and major status. For the visual journalism sequence: JOUR 207, JOUR 305, JOUR 307, JOUR 309, JOUR 346, JOUR 350, JOUR 351, one newspaper staff course and major status. For the environmental journalism sequence: JOUR 207, JOUR 307, JOUR 309, JOUR 350, one newspaper staff course and major status.

Credits: 6

Grade Mode: S/U

JOUR 440 - Public Relations Research and Campaigns

Study and practice in research methods, theory, implementation and evaluation of effective programs of communication. Students work in teams to establish a firm theoretical and research-based approach to planning an effective public relations campaign for a community organization.

Prerequisites & Notes: JOUR 330, JOUR 350, JOUR 351 and JOUR 380; major status.

Credits: 5

Grade Mode: Letter

JOUR 446 - Advanced Visual Journalism

In depth exploration of concepts and practices explored in Journalism 346. Students work in teams to apply theories, conduct research, analyze data and apply design and software skills to produce visual and verbal elements for advanced projects.

Prerequisites & Notes: JOUR 346, JOUR 350, JOUR 351 and JOUR 370; major status.

Credits: 5

Grade Mode: Letter

JOUR 450 - Advanced Reporting

Survey and application of advanced reporting techniques, including computer-assisted reporting, and the use of the Internet, to produce news stories of depth, complexity and appeal.

Prerequisites & Notes: JOUR 307, JOUR 350 and JOUR 351; major status.

Credits: 5

Grade Mode: Letter

JOUR 460 - Special Reporting Project

Students write about and photograph people who have ethnic, national, environmental or cultural backgrounds different from the dominant society; sensitivity to other cultural traditions; advanced reporting and writing skills.

Prerequisites & Notes: JOUR 307 or JOUR 380; JOUR 350 or JOUR 351; two staff courses and major status.

Credits: 4

Grade Mode: Letter

JOUR 480 - Senior Seminar

Examines research methods in and theories of mass communication in the context of the practice of journalism and public relations in a democratic society. A research paper provides students with practice applying specific methods and theories to explore contemporary issues in journalism and public relations.

Prerequisites & Notes: JOUR 350 and JOUR 351; and major status.

Credits: 5

Grade Mode: Letter

Liberal Studies

Introduction

Liberal Studies is an interdisciplinary humanities department. We give our students a broad perspective on the world by leading them in exploration of major textual traditions, drawing on all the scholarly disciplines that make up the humanities - philosophy, religion, history, literature, and the arts - to see how people in different cultures have thought about truth and the meaning of human experience, standards of moral judgment for human actions, and the nature of beauty and the cultivation of taste in the arts.

The department teaches students to ask how works of the humanities have been shaped by their historical and cultural contexts, and how they in turn have influenced readers and audiences. The department supports the study of humanities in the cultures of Europe, the Americas, China, Japan, South Asia, sub-Saharan Africa, and in predominately Islamic areas. Its courses give attention to historical development and cross-cultural interaction, both in the past and in the modern period.

The department offers the BA in Humanities with two areas of concentration: the history of culture, and the academic study of religion, both with the option of writing a senior thesis. Students in the BA degree programs practice what they have learned about analyzing texts, works of art and historical contexts in various forms of supervised research. In the degree programs and in General University Requirements courses students develop habits of mind characterized by awareness of methodological issues, analysis from more than one perspective, aesthetic appreciation, and clear communication, habits which have proved to be broadly useful to them in a variety of professional careers and in civic life.

Information

For additional information, contact the Department of Liberal Studies, Western Washington University, 516 High St., Bellingham, WA 98225-9064. The department office is located in Bond Hall 152, telephone 360-650-3030, fax 360-650-6713, e-mail: Liberal.Studies@wwu.edu. Web access: www.wwu.edu/liberalstudies.

- The department offers interdisciplinary courses which can fulfill a major part of the WWU General University Requirements in humanities and in comparative, gender and multicultural studies; see the University Graduation Requirements section of this

catalog for the complete General University Requirements and options for satisfying them

- The department offers a BA in Humanities with a choice of two concentrations, in History of Culture or in Religion and Culture
- The department offers interdisciplinary minor programs in Humanities and in the Study of Religion
- The department administers and offers courses in the minor in Arabic and Islamic studies
- The department offers courses in the East Asian Studies program
- The department administers the Student/Faculty-Designed Major in the College of Humanities and Social Sciences. This program allows students, in consultation with appropriate faculty, to design an interdisciplinary course of study in areas not available through existing departmental majors

Additional information about all of the foregoing is available from the Liberal Studies Office, Bond Hall 152.

Faculty

KIMBERLY LYNN (2006) Chair and Professor. BA, College of William and Mary; MA, PhD, Johns Hopkins University.

ETHAN BUSHELLE (2018) Assistant Professor. BA, Macalester College; AM, PhD, Harvard University.

HOLLY FOLK (2007) Associate Professor. BA, Wesleyan University; MA, Columbia University; PhD, Indiana University.

ANDREA GOGROF (1996) Professor. BA, MA, University of Paris, Nanterre; PhD, University of Washington.

JONATHAN MIRAN (2003) Professor. BA, MA, Institut National des Langues et Civilisations Orientales, Paris; PhD, Michigan State University.

SEAN E. MURPHY (2002) Associate Professor. AB, MA, PhD, Cornell University.

SCOTT PEARCE (1992) Professor. BA, Rutgers University; PhD, Princeton University.

MICHAEL SLOUBER (2014) Associate Professor. BA, UC Davis; MA, South & Southeast Asian Studies, UC Berkeley; MA, Kultur und Geschichte Indiens, University of Hamburg, Germany; PhD, UC Berkeley.

ROBERT F. STOOBS, JR. (1983) Professor. AB, University of North Carolina at Chapel Hill; MDiv, Harvard Divinity School; MA, PhD, Harvard University.

LIBERAL STUDIES

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA in Humanities degree within four years should take LBRL 121 and LBRL 122 before spring quarter of their junior year.

LBRL 302 should be taken in spring quarter of the junior year. If not taken before this quarter, LBRL 123 must be taken in the same quarter as LBRL 302. By the end of their junior year students also should complete 12-15 additional credits from the courses required for the BA in Humanities degree. Transfer students should contact the department for advisement as early as possible.

Bachelor of Arts

Humanities — History of Culture Concentration, BA

Department of Liberal Studies, College of Humanities and Social Sciences

68-70 credits

Introduction

The humanities include the disciplines which study philosophy, religion, history, literature, and the arts. The B.A. in Humanities, History of Culture Concentration, attracts students who want to major in more than one Humanities discipline, using interdisciplinary methods of investigation.

The department supports study of cultural history on a global level, including Europe and the Americas, China, Japan, South Asia, sub-Saharan Africa, and predominantly Islamic areas. Its courses give attention to historical development and cross-cultural interaction, both in the past and in the modern period. Students learn to analyze individual works of the humanities and to relate them to social and cultural developments.

The small size of classes and seminars in the Humanities B.A. programs encourages close relationships between students and faculty. Working closely with faculty, students learn to formulate problems clearly, to consider and evaluate different methods and concepts, to do efficient and thorough research, and to write clearly, concisely and effectively, culminating in work in rigorous senior seminars.

For information or advisement, contact the Liberal Studies Office.

Why Consider a History of Culture Concentration in the Humanities Major?

Students in this major acquire skills broadly applicable to professional careers. These include problem solving, critical thinking, research skills, integrative skills, and written and oral communications skills. While preparing students for knowledgeable participation in civic life, these also provide a solid foundation for careers in both public and private settings. Graduates have gone on to a variety of professional graduate schools and fields of work, including teaching, law, library science, archive administration, and research and administrative positions with business and non-profit organizations. The major has also proved to be excellent preparation for graduate academic programs in literature, history and the study of religion.

Students who plan a career in secondary education should contact the department for advising as soon as possible.

Humanities — Religion and Culture Concentration, BA

Department of Liberal Studies, College of Humanities and Social Sciences

68-70 credits

Introduction

The humanities include the disciplines which study philosophy, religion, history, literature, and the arts. The B.A. in Humanities, Religion and Culture Concentration, attracts students who want to major in more than one Humanities discipline, using interdisciplinary methods of investigation.

The Religion and Culture Concentration provides scholarly, critical, nonsectarian study of religions. Students study religious beliefs, practices, identities and organizations, and how they have influenced and been influenced by other aspects of society and culture. The concentration includes a broad survey of Western civilization as a basis for understanding its religious traditions. Students also become familiar with religious traditions in non-Western civilizations, and with their modern interactions and changes. Students study the origin, history, and methods of the academic study of religion as it has developed in Europe and North America. They are introduced to methodological issues in the study of religion, and learn to use methods appropriate to different kinds of problems.

The small size of classes and seminars in the Humanities B.A. programs encourages close relationships between students and faculty. Working closely with faculty, students learn to formulate problems clearly, to consider and evaluate different methods and concepts, to do efficient and thorough research, and to write clearly, concisely and effectively, culminating in work in rigorous senior seminars.

While preparing students for knowledgeable participation in civic life, they also provide solid foundation for careers in both public and private settings. Graduates have gone on to a variety of professional graduate schools and fields of work, including teaching, law, library science, archive administration, and research and administrative positions with business and non-profit organizations. The major has also proved to be excellent preparation for graduate academic programs in the study of religion, as well as literature and history.

Students who plan a career in secondary education should contact the department for advising as soon as possible.

Sample Careers

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

An average grade of B in Liberal Studies courses is required for admission to LBRL 302. (NOTE: LBRL 302 is ordinarily offered spring quarter only.) LBRL 302 is prerequisite to LBRL 421, LBRL 422, LBRL 423, LBRL 424 and LBRL 425. LBRL 498 (3 credits) should be taken with a Liberal Studies faculty member in the quarter prior to enrolling in LBRL 499 (3 credits), to prepare for the latter. It is recommended that students undertake study of a foreign language concurrently with the major.

Requirements

Core 18-20 credits

One course from:

LBRL 121 - The Western Tradition I: The Ancient World **Credits: 5**

HNRS 103 - Major Cultural Traditions I **Credits: 4**

One course from:

LBRL 122 - The Western Tradition II: Medieval and Early Modern Europe **Credits: 5**

HNRS 104 - Major Cultural Traditions II **Credits: 4**

LBRL 123 - The Western Tradition III: The Modern World **Credits: 5**

LBRL 302 - Methods of Interdisciplinary Study **Credits: 5**

Concentration 35 credits

LBRL 231 - Introduction to the Study of Religion **Credits: 5**

LIBERAL STUDIES

- ❑ Two courses (10 credits) from:
 - LBRL 265 - Science and Religion in American Culture **Credits: 5**
 - LBRL 271 - Humanities of India **Credits: 5**
 - LBRL 278 - Humanities of Islamic Civilization **Credits: 5**
 - LBRL 283 - Religion and Globalization **Credits: 5**
 - LBRL 340 - Sufism: The Islamic Mystical Tradition **Credits: 5**
 - LBRL 345 - Fierce Goddesses of India **Credits: 5**
 - LBRL 362 - Islam in the Indian Ocean World **Credits: 5**
 - LBRL 375 - Buddhism **Credits: 5**
 - LBRL 378 - Religion and Society in India **Credits: 5**
 - LBRL 380 - Religion and Society in China **Credits: 5**
 - LBRL 382 - Religion and Society in Japan **Credits: 5**
 - LBRL 345, LBRL 362, LBRL 375, LBRL 378, LBRL 380 and LBRL 382 may be counted in one group only.
- ❑ LBRL 303 - Methods in the Study of Religion **Credits: 5**
- ❑ Three courses (15 credits) from:
 - LBRL 301 - Historical Methods in the Humanities **Credits: 5**
 - Age **Credits: 5**
 - LBRL 321 - Between Renaissance and Inquisition: Censorship and Religious Conflict in Spain's Golden Age **Credits: 5**
 - LBRL 332 - World Religions **Credits: 5**
 - LBRL 333 - Religion in America **Credits: 5**
 - LBRL 334 - Hebrew Bible and the Religion of Ancient Israel **Credits: 5**
 - LBRL 336 - New Testament and Early Christianity **Credits: 5**
 - LBRL 338 - Mysticism **Credits: 5**
 - LBRL 345 - Fierce Goddesses of India
 - LBRL 362 - Islam in the Indian Ocean World
 - LBRL 375 - Buddhism
 - LBRL 378 - Religion and Society in India
 - LBRL 380 - Religion and Society in China
 - LBRL 382 - Religion and Society in Japan
 - Other appropriate upper-division courses in the Humanities and Social Sciences, under advisement.
 - LBRL 345, LBRL 362, LBRL 375, LBRL 378, LBRL 380 and LBRL 382 may be counted in one group only.
- Thesis Option** (16 credits)
 - ❑ Two courses (10 credits) from:
 - LBRL 421 - Traditional Indian Medicine **Credits: 5**
 - LBRL 422 - The Pursuit of Happiness: Philosophy, Literature, and the Good Life **Credits: 5**
 - LBRL 423 - Relations between Jewish and Christian Cultures in Europe, c. 1100-c. 1650 **Credits: 5**
 - LBRL 424 - Exploring Apocalypticism **Credits: 5**
 - LBRL 425 - The City and the Early Modern Iberian World **Credits: 5**
 - LBRL 428 - Revival and Reform in the Islamic World **Credits: 5**
 - ❑ LBRL 498 - Readings for Research in Humanities **Credits: 3**
 - ❑ LBRL 499 - Research in Humanities **Credits: 3**

Departmental Honors

BA Students who have completed LBRL 498 and LBRL 499, have a cumulative GPA of 3.3 in their major courses and receive a grade of 'B' or higher for their Senior Thesis meet the requirements for departmental honors.

Minor

Arabic and Islamic Studies Minor

Department of Liberal Studies, College of Humanities and Social Sciences

28-30 credits

Introduction

The Minor in Arabic and Islamic Studies provides intermediate instruction in Arabic, an introduction to the history of Islamic civilization, and upper division electives from several academic departments.

Why Consider an Arabic and Islamic Studies Minor?

This gives excellent background and linguistic skills to apply to an increasingly important part of the world community.

Liberal Studies Courses

LBRL 110 - Confession and Self-Promotion: Autobiography from Augustine to the Blogosphere

An examination of the historical origins of autobiographical writing in the European tradition, this class considers how individuals have imagined both themselves and their relationships to society. Through visual media (such as portraiture) and various written genres (from letters to trial records to essays), this class uses an interdisciplinary approach to introduce some important themes in European cultural history.

Prerequisites & Notes: Freshman status
Credits: 5

Grade Mode: Letter
GUR Attributes: HUM

LBRL 121 - The Western Tradition I: The Ancient World

This course studies the Near Eastern and Mediterranean origins of Western culture through an examination of Mesopotamian, Hebrew, Greek, and Roman sources. It considers ancient world views and conceptions of what it meant to be human. Sections explore such varied topics as debates about knowledge and ideas about justice, gender, mortality and immortality; they treat the organization of ancient societies and their production of visual arts and architecture. Readings often include selections from the Epic of Gilgamesh and the Hebrew Bible, Greek plays, the

Iliad or Odyssey, Plato, and Virgil's Aeneid.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 122 - The Western Tradition II: Medieval and Early Modern Europe

This course is an introduction to the cultural history of medieval and early modern Europe (from the 4th to the 18th centuries) through an analysis of a wide variety of sources. It examines works of visual art, philosophy, rhetoric, literature, history, and religion, and considers a range of themes, from pilgrimage and the interaction between the sacred and the profane to disputes about authority, religious conflict, and imperial expansion. Readings may include works by Augustine, Marie de France, Christine de Pizan, Erasmus, Camões, Shakespeare or Cervantes; all sections include Dante.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 123 - The Western Tradition III: The Modern World

This course explores the construction of modernity. As an introduction to modern Western culture from the 18th century to the present, it examines such modern ideologies as feminism, Romanticism, and nationalism. This course considers a spectrum of views of the individual, of progress, and of the alienation and integration of the individual in society. Many sections include study of films and other material from the visual arts. Readings often include novels, and the writings of Freud, Marx, Nietzsche, Mill, Baudelaire, and Rousseau.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 231 - Introduction to the Study of Religion

Introduction to the academic study of religion. An exploration of beliefs, practices and institutions through case studies drawn from religions around the world. Introduction to scholarly perspectives and theories of religion.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 232 - Myth and Folklore

An introduction to the study of myth and folklore and its cultural impact.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 243 - Art and Ideas

A study of Western humanities through the visual arts, sculpture, painting and architecture. Exploration of the values expressed through choices of style and subject matter in selected cultural periods.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 265 - Science and Religion in American Culture

Introduction to issues in the relationship between science and religion in American culture over the past 200 years.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 271 - Humanities of India

The development of Indian civilization through classical and modern literature, religion, art, and history.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 273 - Art and Society in China and Japan

Studies of the aesthetic traditions of East Asia, courtly and popular, secular and religious; the impact of foreign ideas and the role of art in recent propaganda, architecture and industrial design as well as in traditional modes of expression.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 275 - Humanities of Japan

Interdisciplinary introduction to Japanese civilization, both traditional and modern, with particular emphasis on religions; historical, artistic, and literary patterns; and societal and cultural ideals.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 276 - Humanities of Africa

Introduction to the cultural heritage of sub-Saharan Africa and to the contemporary civilization that draws upon it; emphasis on the process by

LIBERAL STUDIES

which Africans currently build and use coherent accounts of their heritage.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 277 - Humanities of China

Interdisciplinary introduction to Chinese civilization, traditional and modern. Emphasis on religions; intellectual, artistic and literary patterns; and societal and cultural ideals.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 278 - Humanities of Islamic Civilization

Interdisciplinary introduction to Islamic Civilizations with an emphasis on shared religious, cultural, and societal ideals and their adaptation in various historical and geographic contexts.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 281 - Representations of Otherness

Examination of images and narratives of the Other in major works of modern literature, art and film from the 19th century to the present. Themes include the roles of the unconscious, languages, gender and politics in the construction and destruction of self and others.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

LBRL 283 - Religion and Globalization

Focus on religious responses to globalization through case studies of modern religious movements. Case studies will be chosen to explore cultural interaction and religious change in a world shaped by technological revolutions and increased communication, information, and migration.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LBRL 301 - Historical Methods in the Humanities

Methods of cultural and intellectual history. Locating texts in their historical and cultural contexts by analyzing their authors, audiences and arguments.

Prerequisites & Notes: One from: LBRL 121, LBRL 122, LBRL 123, HIST 111, HIST 112, HIST 113.

Credits: 5

Grade Mode: Letter

LBRL 302 - Methods of Interdisciplinary Study

Exploration of techniques of interdisciplinary investigation through analysis of a major literary text in its cultural and historical context; exercises in the use of the library as a research tool; preparation of a seminar paper. Ordinarily offered spring quarter only.

Prerequisites & Notes: LBRL 121, LBRL 122; average grade of B in LBRL courses and permission of instructor.

Credits: 5

Grade Mode: Letter

LBRL 303 - Methods in the Study of Religion

An examination of the academic study of religion as a problem in the interaction of theory, method, and the history of culture. Consideration of various approaches to understanding and explaining religion from the Enlightenment to the present.

Prerequisites & Notes: One course from LBRL 231, LBRL 271, LBRL 278, LBRL 380, LBRL 382 or permission of instructor.

Credits: 5

Grade Mode: Letter

LBRL 321 - Between Renaissance and Inquisition: Censorship and Religious Conflict in Spain's Golden Age

Early modern Spain has simultaneously been perceived as an artistic Golden Age (which saw a flourishing production of plays, verse, and prose) and as an era in which censorship and religious intolerance closed off Spain and its empire to the wider world. The course explores this central paradox in Spanish religious, cultural and intellectual history, through an interdisciplinary examination of various literary genres, trial records, painting and architecture. It examines the foundation of the Spanish Inquisition in a society which included Christians, Muslims, and Jews; it traces the development of Catholic laws and courts both in European contexts and in Spain's American colonies.

Prerequisites & Notes: One LBRL course or HIST 112 or HNRS 104 or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 323 - The Romantic Paradox: Love, Life and Death

Study of Romanticism as a complex, international cultural movement originating in the late 18th century with continuing vitality and influence into the present. Exploration of characteristic Romantic tensions: the desire for unity, harmony, infinity and beauty vs. the experience of fragmentation, limitation and loss. Analysis of texts and films representing various facets of the Romantic mind.

Prerequisites & Notes: Junior or senior status recommended.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 325 - Surveillance, Voyeurism and the Culture of Suspicion

This course will trace the concept of surveillance and its connection to voyeurism as the primordial desire to see from the 18th century to the present. Through careful reading of primary and secondary sources of literature, sociology, philosophy, history, journalism, and film studies and analysis of visual material, this course will examine the paradox within the concept of surveillance which can be understood as a means to implement security and insure peace as well as constitute a threat to private and civic rights and freedoms. Formally, the course will alternate between the analysis of visual material and printed material. Class time is divided into lecture, organized class discussion and student presentations.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 327 - Ireland: A Cultural History

An advanced course on the cultural history of Ireland over the last 2000 years. Direct engagement with the sources of Irish history is emphasized through the analysis and interpretation of a diverse selection of material, artistic, and written texts. Archeological studies include both Iron-Age and medieval sites; written texts include poetry and political theory, autobiography and biography, chronicle and novel. Lectures are rare; discussion of the sources frequent. Requirements include informed participation, presentations, papers, and exams.

Prerequisites & Notes: Junior or senior status or permission of instructor; one LBRL course.

Credits: 5

Grade Mode: Letter

GUR Attributes: BCGM

LBRL 332 - World Religions

Beliefs and practices of major world religions; development of religious traditions; historical and phenomenological approaches; religion in modern society.

Prerequisites & Notes: Junior or senior status recommended.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 333 - Religion in America

Religious traditions, values and institutions in American culture; focus on pluralism; attention to contemporary issues and events; interdisciplinary perspective.

Prerequisites & Notes: Junior or senior status recommended.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LBRL 334 - Hebrew Bible and the Religion of Ancient Israel

A survey of representative sections of the Hebrew Bible (the Old Testament for Christians) and related literature. Biblical texts are analyzed as expressions of the ways in which groups or individuals understood themselves, their world, and God. The historical and cultural contexts in which the texts were originally written are emphasized with attention to the ways that elements of the Biblical tradition developed under changing historical circumstances.

Prerequisites & Notes: Junior status

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 336 - New Testament and Early Christianity

A survey of the New Testament and related early Christian literature. The texts are analyzed as expressions of the ways in which groups or individuals understood themselves, their world, and God. The historical and cultural contexts in which the texts were written are emphasized with attention to the variety of early Christian traditions and their development under changing historical circumstances.

Prerequisites & Notes: Junior status

Credits: 5

LIBERAL STUDIES

Grade Mode: Letter
GUR Attributes: HUM

LBRL 338 - Mysticism

An interdisciplinary exploration of the nature and variety of mysticism. Theoretical debates concerning the psychological roots and cultural conditioning of mysticism. Includes an examination of important mystics in the Christian, Islamic and East Asian traditions along with their significance for their respective societies.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 340 - Sufism: The Islamic Mystical Tradition

This course explores the Islamic mystical tradition, or Sufism. For long centuries Sufism has contributed to the development of Islamic religious thought, to the global diffusion of the faith, and to the shaping of religious experiences and practices of Muslims in the Middle East, Africa and Asia. It has also enriched the creative and aesthetic aspects of Islamic civilization, most notably music and poetry. We will examine Sufi devotional practices and rituals, teachings of some spiritual masters, and the historical development and growth of Sufism and Sufi orders.

Prerequisites & Notes: Junior status; ENG 101 and 30 credits; and one course from: LBRL 231, LBRL 271, LBRL 278, LBRL 332, LBRL 378, or HIST 287, HIST 406; or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: CCOM

LBRL 345 - Fierce Goddesses of India

An analysis of South Asian goddess traditions, with an emphasis on the frequently misunderstood 'fierce' goddesses. Students will engage with these traditions through historical sketches, analysis of art, scriptures, and devotional poetry, and ethnographic studies of contemporary goddess worship. The course is grounded with readings and lectures on feminism and the historical biases which have undercut study and representation of goddess traditions.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern

The focus of this course will be early stages of the unfolding of 'globalization' in Eurasia, from antiquity into the early modern period, with particular attention given to China's important role in these developments, and how it was affected in turn. Also offered as EAST 360.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 362 - Islam in the Indian Ocean World

Explores cross cultural contacts in the Indian Ocean world from East Africa, Arabia and the Persian Gulf to South and Southeast Asia, and the history and role of Islam and Muslims from the 14th century to the present. Focuses on texts by or about Muslim travelers — Sufis, pilgrims, scholars, and merchants — and their creation of networks, identities, and Muslim spaces, to show that some aspects of globalization have a long history in the Indian Ocean.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 372 - Postcolonial Novels: Art, Rhetoric and Social Context

Critical readings of postcolonial novels. Close attention to how they have been shaped as artistic wholes, and how they try to shape emotions and beliefs of readers. Reading beyond the novels about contexts which they assume and incompletely express: change and the absence of change in postcolonial societies.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 375 - Buddhism

Beginning with a broad overview of the teachings of Buddhism and its core beliefs and practices, this course will then turn to detailed study of the doctrines and institutions of particular Buddhist traditions.

Prerequisites & Notes: Junior status or instructor permission.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 378 - Religion and Society in India

Examination of major Indian religious traditions, including Hinduism, Islam, Buddhism, Jainism, and Sikhism. Emphasis on ritual systems, belief and value systems, and systems of social identification; emphasis on the relation of religion to social and gender identities, communal politics, and social change, in the classical and modern periods.

Prerequisites & Notes: Junior status or permission of instructor.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 380 - Religion and Society in China

A detailed examination of the major religious and philosophical traditions of pre-modern China: the native traditions of Confucianism, Daoism, ancestor worship and popular religion, as well as Buddhism, which came to East Asia from India. Particular attention is given to the interaction and intertwining of these traditions, and of the ways they shaped and supported the lives of individuals and communities.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 382 - Religion and Society in Japan

A detailed examination of the major religious and philosophical traditions of Japan: the agrarian religion of Shintoism, the Confucian system of ethics, imported from China, and Buddhism, which though originally from India also came to Japan through China. Particular attention is given to the interaction and intertwining of these traditions, and of the ways they shaped and supported the lives of individuals and communities.

Credits: 5

Grade Mode: Letter

GUR Attributes: ACGM

LBRL 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LBRL 421 - Traditional Indian Medicine

Advanced seminar on traditional medicine in South Asia. Emphasis on theories of medicine and approaches to the study of traditional medical systems from the perspective of the humanities

and social sciences. Topics may include theory and practice of Ayurveda, Siddha, Tantra, Unani, Homeopathy, and specific issues such as approaches to pregnancy, childbirth, and mental health in India and abroad, from pre-colonial India to recent times. Students conduct a research project in consultation with the instructor and apply methodologies from a variety of disciplines to evaluate complex cultural issues.

Prerequisites & Notes: LBRL 302 or instructor permission.

Credits: 5

Grade Mode: Letter

LBRL 422 - The Pursuit of Happiness: Philosophy, Literature, and the Good Life

This seminar examines the intersection and cross-fertilization of philosophy and literature in modern European and American culture. At the center of our investigation is one of the fundamental questions regarding the purpose and value of human existence: how do we define happiness and what constitutes the good life? Inquiry into this question departs from the Socratic stance, which promotes the relentless practice of critical self-awareness in our pursuit of knowledge, wisdom, virtue and happiness.

Prerequisites & Notes: LBRL 302 or instructor permission.

Credits: 5

Grade Mode: Letter

LBRL 423 - Relations between Jewish and Christian Cultures in Europe, c. 1100-c. 1650

A seminar in which we investigate some of the many ways in which Jewish and Christian cultures influenced each other - through individuals, texts, institutions, and communities - during formative periods in the history of medieval and early modern Europe. Through analysis and interpretation of select sources, we will study several aspects of Jewish-Christian interaction - some singular, some episodic, some ongoing - including legal structures regulating relations between Jews and Christians, forms of direct cultural exchange (ideas, beliefs, practices, etc.), individual cases of religious conversion, uses of polemical literature, episodes of inter-communal violence, and the manifestation of concerns with purity and exclusion.

Prerequisites & Notes: LBRL 302 or instructor permission.

Credits: 5

Grade Mode: Letter

LBRL 424 - Exploring Apocalypticism

This course seeks to understand the social phenomenon of millenarianism. Apocalyptic social

LIBERAL STUDIES

movements typically hold beliefs that stand at odds with their culture, and often material reality. Outbreaks of cosmic expectation happen at moments of cultural encounter and rapid change. As a result, millennial expectation often is associated with social radicalism and extremism, and sometimes is a factor in religious violence. This course uses case studies from new religious movements and historic events in established world religions to explore these issues. By introducing students to a broad base of theorists and methodologies, this class cultivates an interdisciplinary understanding of the humanities and social sciences. Students in LBRL 424 will both engage in historiographic debate and pursue research projects of their own.

Prerequisites & Notes: LBRL 302 or instructor permission.

Credits: 5

Grade Mode: Letter

LBRL 425 - The City and the Early Modern Iberian World

This seminar explores the interconnected histories of the cities of the Hispanic and Portuguese worlds in the early modern era. Examining the intersection of urban history and the development of the global empires of Spain and Portugal between the 15th and the 18th centuries, the course considers such topics as colonialism, migration, gender, race, religion, and political culture. The construction of civic identities will also be approached through the study of early modern architecture, painting, music, and literature.

Prerequisites & Notes: LBRL 302 or instructor permission.

Credits: 5

Grade Mode: Letter

LBRL 428 - Revival and Reform in the Islamic World

An exploration of the ideological foundations and historical contexts of reform movements in the Middle East, Asia and Africa from the 18th century up to the various contemporary Salafi movements commonly recognized as fundamentalist. Islamic responses to imperialism, colonialism, and modernization through the analysis of texts written by major Muslim modernist and revivalist thinkers such as al-Afghani, Sayyid Ahmad Khan, Abduh, Mawdudi, Qutb, Khomeini and others.

Prerequisites & Notes: One from: LBRL 231, LBRL 271, LBRL 278, LBRL 332, LBRL 378, HIST 287.

Credits: 5

Grade Mode: Letter

LBRL 430 - The Humanities and the Contemporary Workplace

Connects liberal-arts curriculum to workplace issues. Introduces students to professional work environments through placement in local non-profit agencies. Carries service-learning credit.

Prerequisites & Notes: Permission of Instructor.

Credits: 3

Grade Mode: Letter

LBRL 498 - Readings for Research in Humanities

Readings in Humanities under advisement in preparation for writing senior paper. Students develop a reading schedule and meet weekly with their faculty advisor; prepare and submit a formal proposal for the senior paper, on a topic developed by the student in consultation with their faculty advisor.

Prerequisites & Notes: Senior status. LBRL 302; and one course from: LBRL 421, LBRL 422, LBRL 423, LBRL 424 or concurrent; permission of instructor.

Credits: 3

Grade Mode: Letter

LBRL 499 - Research in Humanities

Research and writing of a formal paper on a topic developed by the student in consultation with a faculty advisor. LBRL 498, Readings for Research in Humanities (3), required in the quarter prior to LBRL 499.

Prerequisites & Notes: Senior status. One course from LBRL 421, LBRL 422, LBRL 423, LBRL 424, LBRL 498, permission of instructor.

Credits: 3

Grade Mode: Letter

Linguistics

Introduction

Linguistics, the science of language, is an interdisciplinary field that relates to the diversity of the cultures and languages of the world. It is an integral part of most serious pursuits dealing with aspects of language study and/or analysis. As the boundaries of the world change, an understanding of individual languages and cultures becomes increasingly more important. Communication in this complex society requires knowledge of the workings of languages as well as their interrelationship with their respective cultures. All linguistics majors are expected to acquire a rudimentary knowledge of the functions of language at various levels and knowledge of the techniques/methods used in language analysis. A student of linguistics will thereby significantly advance his/her appreciation of linguistic and cultural diversity.

Students interested in pursuing a major or minor in linguistics should contact Kristin Denham, Humanities 357, 360-650-3217, email kristin.denham@wwu.edu. Website: chss.wwu.edu/linguistics.

Faculty

KRISTIN DENHAM, Director. English. Syntactic theory, linguistics in education, psycholinguistics, Native American languages.

EMILY CURTIS, Linguistics. Phonology, metalinguistic awareness, linguistics pedagogy and outreach, Korean, Lushootseed.

MASANORI DEGUCHI, Modern and Classical Languages. Japanese linguistics, syntax and semantics.

SHANNON DUBENION-SMITH, Modern and Classical Languages. Germanic linguistics, variationist, linguistics, dialect and regiolect syntax, historical syntax, Pennsylvania Dutch.

JENNIFER GREEN, Director ELL Endorsement. English linguistics for educators, academic language, teaching methodologies.

TODD HASKELL, Psychology. Psychology of language, visual and auditory perception, cognition.

JAMES W. HEARNE, Computer Science. General linguistics, computational linguistics, narratology.

BRIAN HUTCHINSON, Computer Science. Speech and language processing, machine learning, optimization.

MCNEEL JANTZEN, Psychology. Cognition, speech perception, language acquisition.

CHRISTINA KEPPIE, Modern and Classical Languages. Applied French linguistics, sociolinguistics, general linguistics.

YUDONG LIU, Computer Science. Statistical natural language processing, eye-tracking applications.

ANNE LOBECK, English. Syntactic theory, language and gender, language ideology and discrimination, language and identity.

RODOLFO MATA, Modern and Classical Languages. Hispanic linguistics, morphology, morphosyntax, sociolinguistics, language contact, pedagogy, Spanish as a heritage language.

CATHY McDONALD, English. Discourse analysis, sociolinguistics, applied linguistics.

CHEIRON McMAHILL, TESOL. Language education policy, language ideology, multilingual children's education.

JUDITH M.S. PINE, Anthropology. Linguistics anthropology, semiotics, language and identity.

JORDAN SANDOVAL, Linguistics. Semantics, phonology, phonetics.

TRISH SKILLMAN, TESOL. Language, teaching methodologies, sociolinguistics, second language acquisition.

EDWARD J. VAJDA, Modern and Classical Languages. Morphology, language typology, historical-comparative linguistics.

KATHRYN VULIC, English. History of the English language, Old English in translation, medieval literatures and cultures.

RYAN WASSERMAN, Philosophy. Metaphysics, philosophy of language, epistemology, ethics.

SUZI WRIGHT, TESOL. Second language acquisition, language/education policy, First People's language revitalization, psycholinguistics, discourse analysis, functional linguistics.

JANET ZHIQUN XING, Modern and Classical Languages. Chinese linguistics, historical linguistics, discourse analysis, second language acquisition.

Introduction

Linguistics, the science of language, is an interdisciplinary field which relates to the diversity of the cultures and languages of the world. It is an integral part of most serious pursuits dealing with aspects of language study and analysis. As the boundaries of the world change, an understanding of individual languages and cultures becomes increasingly important. Communication in this complex society requires knowledge of the workings of languages, as well as their interrelationship with their respective cultures.

Why Consider a Linguistics Major?

All Linguistics majors are expected to acquire knowledge of the functions of language at various levels and knowledge of the techniques and methods used in language analysis. A student of Linguistics will thereby significantly advance his or her appreciation of linguistic and cultural diversity. Students who major in linguistics acquire valuable intellectual skills, including analytic reasoning and argumentation, and learn how to study language scientifically. This means making insightful observations, formulating and testing clear hypotheses, making arguments and drawing conclusions, and communicating findings to a wider community. Linguistics majors are therefore well equipped for a variety of jobs and graduate-level programs.

Sample Careers

Higher Education research and teaching: linguistics, philosophy, psychology, speech sciences, anthropology, computer science, English, modern and classical languages | K-12 Teaching (World Languages, ESL, literacy) | Computer Industry (speech recognition, natural language processing, AI) | Translating and Interpreting | Language documentation and fieldwork | Publishing (editing, writing) | Lexicography (dictionary research and editing) | Law (forensic linguistics)

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

To declare, a student must have completed the following requirements:

- LING 201 or ENGL 370 or TESL 401 or ANTH 247 or HNRS 217 with a grade of "B-" or better
- Minimum cumulative GPA of at least 2.5.

Students should contact the Linguistics Director when ready to declare the major.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

To declare a major in linguistics, students must have completed the introductory course (LING 201 or ENG 370 or TESL 401 or ANTH 247 or HNRS 217) with a grade of B- or better and have a minimum overall GPA of at least 2.5.

Requirements

- For native speakers of Indo-European languages, one year of a non-IE language (such as Chinese, Japanese, Arabic or others under advisement) or two years of an Indo-European language (Spanish, French, German, or others under advisement). The language requirement may be waived for native or fluent speakers/signers of non-English languages, in which case the required credits for the major will come from additional upper division linguistics classes under advisement (12-15 credits).
- One course from:
 - ANTH 247 - Intro to Linguistic Anthropology **Credits: 5**
 - ENG 370 - Introduction to Language **Credits: 5**
 - HNRS 217 - Colloquium in Linguistics **Credits: 4**
 - LING 201 - Introduction to Language and Linguistics **Credits: 5**
 - TESL 401 - Introduction to English Linguistics for TESOL **Credits: 4**
- One course from:
 - LING 204 - Sociolinguistics **Credits: 5**
 - ENG 270 - Language and Society **Credits: 5**
 - ANTH 347 - The Ethnography of Communication **Credits: 5**
- LING 310 - Introduction to Linguistic Analysis **Credits: 5**
- LING 311 - Phonetics and Phonology **Credits: 5**
- LING 321 - Syntax **Credits: 5**
- LING 331 - Semantics and Pragmatics **Credits: 5**
- A minimum of three LING 400-level courses from the following:
 - LING 402 - Topics in Linguistics **Credits: 3-5**
 - LING 411 - Topics in Phonetics and Phonology **Credits: 5**
 - LING 421 - Topics in Morphology and Syntax **Credits: 5**
 - LING 431 - Topics in Semantics and Pragmatics **Credits: 5**

Concentration

Additional credit concentration with at least one additional upper division course in related department under advisement. The following are possible area concentrations; others are possible under advisement:

Anthropology Concentration

- ANTH 347 - The Ethnography of Communication **Credits: 5**
- ANTH 447 - Anthropological Semiotics **Credits: 5**
- At least one other elective under advisement.

Communication Sciences and Disorders Concentration

- Selected courses under advisement from:
 - CSD 352 - Anatomy and Physiology of Speech Mechanisms **Credits: 5**
 - CSD 353 - Speech Science **Credits: 5**
 - CSD 354 - Speech and Language Development in Children **Credits: 4**
 - CSD 356 - Phonetics and Phonology **Credits: 4**
 - CSD 361 - Developmental Language Disorders **Credits: 5**

Computer Science Concentration

- Applicable courses in computational linguistics under departmental advisement
- Additional work under advisement

Educational Linguistics Concentration

LINGUISTICS

- Applicable courses in educational linguistics under departmental advisement
- Additional work under advisement

English Concentration

- Selected courses under advisement from:
 - ENG 436 - The Structure of English **Credits: 5**
 - ENG 438 - Topics in Language Change and Variation **Credits: 5**
 - ENG 439 - Topics in Language and Linguistics **Credits: 5**

Modern and Classical Languages Concentration options

Prerequisites: at least two years of study of one of the languages; specific requirements vary by language. Consult an advisor.

Chinese Linguistics

- CHIN 304 - Chinese Grammar and Composition **Credits: 4**
- CHIN 402 - Chinese Language and Linguistics **Credits: 4**
- At least one other course under advisement.

French Linguistics

- FREN 314 - Phonetics **Credits: 4**
- FREN 401 - Elements De Stylistique **Credits: 3**
- At least one other course under advisement.

German Linguistics

- GERM 314 - Phonetics **Credits: 4**
- GERM 401 - Advanced German: Contexts & Cultures II **Credits: 4**
- At least one other course under advisement.

Japanese Linguistics

- JAPN 401 - Advanced Japanese **Credits: 4**
- At least two other courses under advisement.

Russian Linguistics

- RUSS 214 - Russian Phonetics **Credits: 2**
- At least two other courses under advisement.

Spanish Linguistics

- SPAN 314 - Phonetics **Credits: 4**
- SPAN 401 - Advanced Grammar **Credits: 4**
- At least one other course under advisement.

World Language Instruction

- Two upper-division courses in one language (Chinese, French, German, Japanese, Russian, Spanish, Classics, others under advisement).
- LANG 410 - World Language Instruction: Theory and Method I **Credits: 4**
- LANG 420 - World Language Instruction: Theory and Method II **Credits: 4**

- At least one other course under advisement.

Neuroscience Concentration

- Applicable courses in neuroscience under departmental advisement
- Additional work under advisement

Philosophy Concentration

- PHIL 102 - Introduction to Logic **Credits: 3**
- PHIL 202 - Intermediate Logic **Credits: 3**
- PHIL 403 - Philosophy of Language **Credits: 3**

Psychology Concentration

- PSY 101 - Introduction to Psychology **Credits: 5**
- PSY 210 - Cognition **Credits: 5**
- PSY 220 - Behavioral Neuroscience **Credits: 5**
- PSY 318 - Language, Brain, and Mind **Credits: 5**

TESOL Concentration

- Selected courses in TESOL under advisement

Minor

Linguistics Minor

Linguistics Program, College of Humanities and Social Sciences

24-25 credits

LINGUISTICS

HNRS 217 - Colloquium in Linguistics **Credits:** 4

TESL 401 - Introduction to English Linguistics for TESOL **Credits:** 4

☐ One course from:

LING 204 - Sociolinguistics **Credits:** 5

ENG 270 - Language and Society **Credits:** 5

ANTH 347 - The Ethnography of Communication **Credits:** 5

☐ LING 310 - Introduction to Linguistic Analysis **Credits:** 5

☐ Two courses from:

LING 311 - Phonetics and Phonology **Credits:** 5

LING 321 - Syntax **Credits:** 5

LING 331 - Semantics and Pragmatics **Credits:** 5

Linguistics Courses

LING 201 - Introduction to Language and Linguistics

Introduction to the scientific study of language and the various subfields of linguistics, including how language is acquired, how it varies across time and space, and how it is used in different social contexts.

Credits: 5

Grade Mode: Letter

GUR Attributes: SSC

LING 204 - Sociolinguistics

Examines the relationship between society and language, concentrating on the following areas: address forms, variation theory, language use, sociolinguistics and education, multilingualism, language policy and language attitudes.

Credits: 5

Grade Mode: Letter

GUR Attributes: SSC

LING 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LING 310 - Introduction to Linguistic Analysis

Focused introduction to linguistic analysis in phonetics, phonology, morphology, syntax and semantics in English and other languages, in preparation for more in-depth courses in theory and analysis in the linguistics major.

Prerequisites & Notes: ANTH 247 or ENG 370 or LING 201 or LING 204

Credits: 5

Grade Mode: Letter

LING 311 - Phonetics and Phonology

Exploration of basic phonetic units and phonological patterns across languages and the theoretical principles proposed to explain them.

Prerequisites & Notes: LING 310

Credits: 5

Grade Mode: Letter

LING 321 - Syntax

Exploration of basic syntactic structures and operations across languages and the theoretical principles proposed to explain them.

Prerequisites & Notes: LING 310

Credits: 5

Grade Mode: Letter

LING 331 - Semantics and Pragmatics

Exploration of semantics and pragmatics across languages and the theoretical principles proposed to explain them.

Prerequisites & Notes: LING 310.

Credits: 5

Grade Mode: Letter

LING 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LING 402 - Topics in Linguistics

Readings and/or directed research as determined by instructor. Variable topic. Repeatable.

Prerequisites & Notes: LING 310; one course from: LING 204, ENG 270 or ANTH 347.

Credits: 3-5

Grade Mode: Letter

LING 411 - Topics in Phonetics and Phonology

Advanced exploration of phonetic and/or phonological phenomena across languages. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: LING 311; one course from: LING 204, ENG 270 or ANTH 347.

Credits: 5

Grade Mode: Letter

LING 421 - Topics in Morphology and Syntax

Advanced exploration of morphological and/or syntactic phenomena across languages. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: LING 321; one course from: LING 204, ENG 270 or ANTH 347.

Credits: 5

Grade Mode: Letter

LING 425 - Linguistics Tutoring and Class Support

Selected students will work with faculty members to provide assistance in LING 201 or LING 204. Permission may also be given to assist with other linguistics courses completed with a grade of B or better. Students may be requested to lead group sessions or work with students individually. Expertise in phonetics/phonology or morphology/syntax is required. S/U grading.

Prerequisites & Notes: LING 310, LING 311 and LING 321 with a grade of B or better; and instructor permission.

Credits: 2

Grade Mode: S/U

LING 431 - Topics in Semantics and Pragmatics

Advanced exploration of semantics and pragmatics across languages. Repeatable with different topics up to 10 credits including original course.

Prerequisites & Notes: LING 331; one course from: LING 204, ENG 270 or ANTH 347.

Credits: 5

Grade Mode: Letter

Modern and Classical Languages

Introduction

The Department of Modern and Classical Languages, in fulfillment of the University's stated goals, provides to Western Washington University students the skills that are necessary to learn first-hand about world societies. To that end, the department believes that the best way to understand a culture is directly through its language(s). Therefore, the department offers students the opportunity to acquire three types of proficiencies: the language skills that make for successful communication, the cultural competencies that build global respect and responsibility, as well as the creative and interpretive aptitudes that underscore an understanding of the history and aesthetic expressions of a given culture. Ultimately, students graduate from the department with valuable skills for succeeding in the workplace and for supporting global citizenship.

Faculty

SHANNON DUBENION-SMITH (2008) Chair and Associate Professor of German and Linguistics. BA University of Michigan-Ann Arbor; MA, PhD, University of Wisconsin-Madison.

SANDRA ALFERS (2008) Professor of German. BA, MA, University of Nebraska; PhD, University of Massachusetts.

BLANCA ARANDA (2012) Associate Professor of Spanish. BA Universidad Mayor de San Andrés; MA and PhD University of Oregon.

BRENT J. CARBAJAL (1997) Professor of Spanish and Provost. BA, Lewis and Clark College; MA, PhD, University of Washington.

MASANORI DEGUCHI (2006) Associate Professor of Japanese and Linguistics. BA, Kansai Gaidai University; MA, PhD, Indiana University.

EDUARDO ENGELSING (2015) Associate Professor of Classical Studies. MA, University of Kentucky; MA, University of Cádiz; PhD, University of Cádiz.

PETRA S. FIERO (1995) Professor of German. MA, PhD, University of Nebraska, Lincoln.

HUGO GARCÍA (2006) Associate Professor of Spanish. BA, University of Havana, Cuba; MA, St. John's University; PhD, Ohio State University.

VICKI L. HAMBLIN (1989) Professor of French and Director of the Institute for Global Engagement. BS, Southwest Missouri State University; MA, Arizona State University; PhD, University of Arizona.

CÉCILE HANANIA (2002) Professor of French. PhD, University of Maryland; Doctorat, Université

Paris; Maitrise, Université de Provence.

JOAN M. HOFFMAN (1994) Professor of Spanish. BA, University of Washington; MA, University of North Carolina-Chapel Hill; PhD, Indiana University.

CHRISTINA KEPPIE (2008) Associate Professor of French and Linguistics. BA University of New Brunswick; MA Carleton University; PhD, University of Alberta.

COLLEEN LAIRD (2016) Assistant Professor of Japanese. BA, Macalester College; MA, PhD, University of Oregon.

RODOLFO MATA (2017) Assistant Professor of Spanish. BA, University of Texas; MA, PhD, University of California.

PAQUI PAREDES MÉNDEZ (2002) Professor of Spanish. MA, PhD, University of Kansas.

EDWARD OUSSELIN (2001) Professor of French. MBA, University of Kentucky; PhD, Ohio State University.

CORNELIUS PARTSCH (2003) Professor of German. MA, PhD, Brown University.

CHARLES PATTERSON (2012) Associate Professor of Spanish. BA, Utah State University; MA, University of New Mexico; PhD, University of Texas at Austin.

MASSIMILIANO TOMASI (1998) Professor of Japanese and Director of the East Asian Studies Program. Laurea (BA), University of Florence, Italy; MA, PhD, Nagoya University, Japan.

EDWARD J. VAJDA (1987) Professor of Russian and Linguistics. BA, Indiana University; MA, PhD, University of Washington.

SIYUAN (JULIAN) WU (2017) Assistant Professor of Chinese. MA, Beijing Foreign Studies University, China; PhD, Arizona State University.

JANET Z. XING (1999), Professor of Chinese and Linguistics. BA, Shanxi University, China; MA, Eastern Michigan University; PhD, University of Michigan-Ann Arbor.

MICHIKO YUSA (1983) Professor of Japanese and East Asian Studies. BA, International Christian University, Tokyo; MA, C Phil, PhD, University of California-Santa Barbara.

Other Departmental Information

Mid-Program Checkpoint

Students seeking to complete a BA in Chinese, French, German, Japanese or Spanish within a four-year time span should have completed the second-year sequence (e.g., 201, 202, 203) in the language by the start of their junior year. Otherwise it will be difficult or impossible to complete this degree program within two additional years.

Experienced Speakers of a Language

First-year courses in the Department of Modern and Classical Languages are designed for students with minimal or no previous exposure to the target language. Students enrolling in second-year courses should have no more than foundational knowledge, equivalent to the first year. Students having previous experience with the language, such as attending junior high school, high school, community or technical college, or university in which the language in question was the primary language of instruction, may be required to begin study at a more appropriate level, if available. The decision will be left to the discretion of the instructor and the language department.

Study Abroad

Students can increase language proficiency through travel, work and study abroad. WWU offers programs at study centers in Morelia, Mexico; Quito, Ecuador; Valdivia, Chile; Segovia, Oviedo and Cadiz, Spain; Angers and Rennes, France; Vienna, Austria; Macerata and Siena, Italy; Tokyo, Japan; and Beijing, China. Designed to give students a complete foreign study experience in the host country, each program includes numerous excursions to historical and cultural sites and a wide range of activities which complement formal classroom work. WWU also sponsors academic-year university exchange programs (a) with Asia, Tsuda and Obirin universities in Tokyo, Japan; (b) Beijing Foreign Studies University; and (c) with ISEP at 70 universities in 32 countries. Students also may access language schools in Québec, Costa Rica, Germany and many other countries. Special application and registration procedures are required for participation in foreign study programs, and students should consult with the Education Abroad office, Miller Hall 208, well in advance of their planned quarter abroad, as well as with the coordinator of the language section to discuss transfer credit.

Bachelor of Arts

Chinese Language and Culture with Teaching Endorsement Option, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

63-72 credits (58 additional credits for teacher certification)

Introduction

Advanced Placement Credit

The student who has studied a foreign language in high school may be granted additional university credit upon completion of foreign language courses at WWU. Advanced placement credit is not awarded for 100-level courses. Request for advanced placement credit is to be made to the advisor of the language section.

Transfer Placement

Students transferring from another university with some course work in a foreign language should consult with the language coordinator of the section about placement.

Attendance

The learning and studying of a foreign language involves a level of student participation considerably higher than that required by some disciplines. It is the students' responsibility to ascertain the specific attendance requirements of their individual instructors.

Endorsement of Post-baccalaureate Students

Post-baccalaureate students with a degree in a foreign language are required to:

- Have a GPA of 3.00 or above in the major
- Obtain a letter of recommendation from a faculty member in reference to the candidate's potential as a teacher
- Satisfactorily pass the departmental oral proficiency exam given by appointment only
- Complete the endorsement sequence LANG 410, 420
- Complete 314 (phonetics) in language to be endorsed

Additional work in the language may also be required. Students should consult the coordinator of the language section.

MODERN AND CLASSICAL LANGUAGES

This major is designed to develop advanced proficiency in both Chinese language and culture with the goal of placing students in a competitive position in this increasingly globalized world. The rigorous curriculum of this major focuses on training students in the communicative skills and in cultural awareness that are essential for success in their career pursuits in business, education, public service, and technology related to China, Chinese people and Chinese language. This program also prepares students to become successful language teachers at the secondary education level.

Why Consider a Teaching Endorsement in Chinese Language and Culture Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

The BA in Chinese Language and Culture leads to a BA degree without teacher certification. In order to receive a recommendation for state of Washington certification students must complete the "teacher certification" program which is offered by the Department of Secondary Education. A passing score on the World Languages WEST-E test, and proficiency in the designated world language assessed by ACTFL oral and written tests at the Advanced-Low level, are required by the state.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Regulations for teaching endorsement are subject to change. For teaching endorsement program, contact the world languages endorsement advisor.

Chinese Language and Culture, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

55-64 credits

Introduction

This major is designed to develop advanced proficiency in both Chinese language and culture with the goal of placing students in a competitive position in this increasingly globalized world. The rigorous curriculum of this major focuses on training students in the communicative skills and in cultural awareness that are essential for success in their career pursuits in business, education, public service, and technology related to China, Chinese people and Chinese language.

Why Consider a Chinese Language and Culture Major?

MODERN AND CLASSICAL LANGUAGES

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

- HIST 479 - Medieval and Early-Modern Chinese History **Credits:** 5
- HIST 480 - Modern Chinese Social History **Credits:** 5
- HIST 481 - The Chinese Revolution **Credits:** 5
- LANG 430 - Chinese Language Pedagogy and Practice **Credits:** 4
- LBRL 277 - Humanities of China **Credits:** 5
- LBRL 360 - China and the Emerging World Economy: From Antiquity to the Early Modern **Credits:** 5
- LBRL 380 - Religion and Society in China **Credits:** 5
- PLSC 430 - Modern Chinese Politics **Credits:** 4
- SOC 437 - Changing China

French with Teaching Endorsement Option, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

63 credits (58 additional credits for teacher certification)

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language skills courses, as well as a significant number of courses in Linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable high school students to begin the acquisition of foreign languages.

Why Consider a Teaching Endorsement in French Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

The BA in French leads to a BA degree without teacher certification. In order to receive a recommendation for state of Washington certification students must complete the "teacher certification" program which is offered by the Department of Secondary Education.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements.

Major/Career Resources

www.wwu.edu/careers/students_choosingamajor.shtml

How to Declare (Admission and Declaration Process):

Make an appointment with the German and Spanish advisors.

- When meeting with the advisor, you should bring:
- An "Official Declaration of Undergraduate Major" form (available at the Department Office)
- An unofficial WWU transcript
- Documentation for courses taken at other colleges or universities
- Documentation for any study-abroad credits earned

Students seeking admission to the German/Spanish major must meet the following requirements:

- Completion of SPAN 203 with a "B" or better (transfer students must meet the same requirement for any course accepted as an equivalent to SPAN 203)
- Complete at least one Spanish course at Western
- Submit application (available from Spanish advisor or department office)
- Students meeting qualifications but not admitted because of space limitations may reapply

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors. A GPA of 2.50 or above in both languages is required.

Requirements

- 45 credits at the 200 level or above in a first language, 45 credits at the 200 level or above in a second language (90 credits total)
- Student must successfully complete the most advanced skills course in both languages (must be taken on campus) as well as at least one course per language in culture, literature, and phonetics; limit of 15 credits at 200 level per language

Japanese with Teaching Endorsement Option, BA

Department of Modern and Classical Languages, College of Humanities and Social Sciences

63 credits (58 additional credits for teacher certification)

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language structure through a full range of language skills courses, as well as a significant number of courses in linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable high school students to begin the acquisition of foreign languages.

Why Consider a Teaching Endorsement in Japanese Major?

The department provides students the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in the department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

The BA in Japanese leads to a BA degree without teacher certification. In order to receive a recommendation for state of Washington certification students must complete the "teacher certification" program which is offered by the Department of Secondary Education.

See the Secondary Education section of this catalog for program admission, completion, and teacher certification requirements. Regulations for teaching endorsement are subject to change. For teaching endorsement program, contact the foreign language endorsement advisor.

Spanish — Elementary, BAE

Department of Modern and Classical Languages, College of Humanities and Social Sciences

45 credits

Introduction

In keeping with the aim of providing the skills needed to learn about a culture in depth, the Department of Modern and Classical Languages trains in two areas: language structure and literary analysis. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by modern methods and multimedia technology, as well as study abroad opportunities. The department supports the analytical instruction of language structure through a full range of language skills courses, as well as a significant number of courses in linguistics. Literary analysis is essential to a student's understanding of the highest achievements in aesthetic expression of a culture's values.

The department provides instruction in history and culture, as well as literary theory, with an end to enabling the student to gain access to the intellectual life in the culture. The department imparts skills to future foreign language teachers so that they may similarly enable elementary school students to begin the acquisition of foreign languages.

Why Consider a Spanish-Elementary Major?

The department provides students with the skills to learn firsthand about major world societies. The department believes that the best way to understand a culture directly is through its language. The modern languages offered in this department are spoken natively by nearly two billion people. The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. It is a meeting place for true diversity.

This major satisfies the academic major requirement for teacher certification with an endorsement in elementary education and must be accompanied by the professional preparation program in elementary education. See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

How to Declare (Admission and Declaration Process):

Students seeking admission to the major must meet the following conditions:

- Complete SPAN 203 with a "B" or better (transfer students must meet the same requirement for any course accepted as an equivalent to SPAN 203)
- Submit application (available from Spanish Advisor or Department Office)
- Complete at least one Spanish course at Western

Students meeting qualifications but not admitted because of space limitations may reapply.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

A GPA of 2.75 is required in major language.

Requirements

- 17 credits from:
 - SPAN 201 - Intermediate Spanish **Credits: 5**
 - SPAN 202 - Intermediate Spanish **Credits: 5**
 - SPAN 203 - Intermediate Spanish **Credits: 5**
 - SPAN 301 - Grammar Review and Composition **Credits: 4**
 - SPAN 302 - Grammar Review and Composition **Credits: 4**
 - SPAN 401 - Advanced Grammar **Credits: 4** (must be taken on campus)
 - Electives (21 SPAN) credits from:
 - SPAN 300-level
 - SPAN 400-level
- Note: A maximum of 24 SPAN credits may be earned through foreign study course work in language, culture, or literature.

Additional Requirements

Elementary Education Professional Program Requirements (101-104 credits)

Department of Elementary Education, Woodring College of Education

Introduction

Students seeking a bachelor's degree with teacher certification and an endorsement in elementary education must complete the GURs, an approved academic major, and the professional education course work listed below.

Admission and Declaration Process

See the Elementary Education section of this catalog for program admission, completion, and teacher certification requirements.

Grade Requirements

Students must earn a grade of C (2.0) or better in the elementary education professional program and in all courses required for the endorsement.

Additional Endorsement

Designated World Languages, Additional Endorsement

39-51 Credits

Introduction

MODERN AND CLASSICAL LANGUAGES

This additional endorsement program prepares students to teach designated world language (Chinese, French, German, Japanese, or Spanish) at all levels and must be accompanied by a professional education program and a qualifying endorsement in another content area. See the Elementary Education, Secondary Education, and Special Education and Education Leadership sections of this catalog for program admission, completion, and teacher certificate requirements. A passing score on the World Languages WEST-E test, and proficiency in the designated world language assessed by ACTFL oral and written tests at the Advanced-Low level, are required by the state.

Minor

Chinese Minor

Department of Modern and Classical Languages, College of Humanities and Social Sciences

24 credits

Introduction

The study of a language minor allows students to enrich their major program with language skills and cultural understanding. The department believes that the best way to understand a culture is through its language. Language structure is taught both holistically and analytically. Holistic language learning is facilitated by

MODERN AND CLASSICAL LANGUAGES

modern methods and multimedia technology, as well as study-abroad opportunities. Language courses are complemented by courses in areas such as culture, literature, and linguistics.

Why Consider a Chinese Minor?

The multifaceted programs of the department provide an opening to the world through language, literature, culture and civilization. To be able to communicate in a second language is a fundamental asset in any profession in an increasingly globalized world, from careers in education, translating and interpreting, to those in international studies, health, business or law. Many job listings include proficiency in a world language as a desirable or necessary tool. In addition, a language minor helps students acquire other types of abilities leading to success in the job market: cultural literacy, communication skills, analytical skills, interpersonal skills, a capacity for problem solving, and the ability to learn quickly.

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CHIN 301 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 203
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 302 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 301
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 303 - Third-Year Chinese

To be taken in sequence. Intensive reading, written vocabulary acquisition (reaching the 1,400 character level by the end of the sequence) and oral comprehension of materials in modern standard Chinese (Mandarin).

Prerequisites & Notes: CHIN 302

Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 304 - Chinese Grammar and Composition

This course is designed to review and discuss all major grammatical elements in Chinese, including sentence building, analysis of grammatical elements and written composition. Students will be asked to read and compose an autobiography on various topics, such as childhood, family and friends, resume, hobbies, etc.

Prerequisites & Notes: CHIN 201
Credits: 4
Grade Mode: Letter
GUR Attributes: ACGM

CHIN 330 - Chinese Culture Through Film

This course is designed to introduce students to different aspects of Chinese culture through film. The fundamental concern of this course is how an informed understanding of China's cultural heritage can help students make better sense of China's present in the global context as well as give students some clues of where China may be headed in the future. Through class discussion, presentations and group projects, students explore major issues in contemporary Chinese culture: philosophy, religion, political power, authority, economy, customs, family bond, friendship, lifestyles, arts, literature, martial arts, etc. Repeatable to a maximum of 9 credits, including original course.

Prerequisites & Notes: CHIN 203 or instructor permission.
Credits: 3
Grade Mode: Letter

CHIN 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

CHIN 401 - Fourth Year Chinese

This course is designed to serve as a capstone course for students who major in Chinese Language and Culture. It provides students with the opportunity to apply and integrate both linguistic and cultural knowledge that they have acquired from each course in their program of Chinese study at Western.

MODERN AND CLASSICAL LANGUAGES

Prerequisites & Notes: CHIN 302 or equivalent, or permission of instructor.

Credits: 4

Grade Mode: Letter

CHIN 402 - Chinese Language and Linguistics

This course is designed for students to gain a comprehensive understanding of the structure and usage of Mandarin (Modern standard) Chinese. Through class discussion, reading materials, and a research project, students explore all core areas of Chinese language and linguistics: phonology, morphology, semantics, syntax, as well as dialect variations.

Prerequisites & Notes: CHIN 201 or LING 201 or instructor's permission

Credits: 4

Grade Mode: Letter

CHIN 403 - Modern Chinese Society and Culture

This topic course is designed for students to acquire a deeper understanding of modern Chinese society and culture. Through class discussion, textual and visual materials, presentations and group projects, students explore fundamental social and cultural issues in contemporary China, with focus on such topics as individualism and collectivism, tradition and globalization, etc.

Prerequisites & Notes: CHIN 401.

Credits: 4

Grade Mode: Letter

CHIN 425 - Teaching-Learning Processes in Elementary Chinese

Students selected for tutoring must dedicate four hours per week to provide help to other students primarily those enrolled in 100-200 levels of Chinese courses. Permission may also be given to assist with other Chinese courses completed with outstanding achievement. Students may be requested to lead group sessions or work with students individually. Expertise in Chinese grammar or linguistics is desirable. S/U grading.

Prerequisites & Notes: CHIN 301; CHIN 430; and instructor permission.

Credits: 2

Grade Mode: S/U

All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

GREK 350 - Advanced Readings

Selected readings from Greek authors with an emphasis on honing grammatical skills and deepening one's understanding of Greek literary and cultural achievements. Repeatable with different topics.

Prerequisites & Notes: GREK 202
Credits: 4
Grade Mode: Letter

GREK 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Italian Courses

ITAL 101 - First-Year Italian

Fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking. Also offered as ITAL 137A.

Credits: 5
Grade Mode: Letter

Japanese Courses

JAPN 101 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening and speaking. Audio-assisted oral practice is an integral part of the course.

Credits: 5
Grade Mode: Letter

JAPN 102 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening and speaking. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 101
Credits: 5
Grade Mode: Letter

JAPN 103 - First-Year Japanese

Fundamentals of the language: writing and reading hiragana, katakana and kanji; grammar, listening and speaking. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 102
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 104 - Review of Elementary Japanese

Designed for students with two years high school Japanese or equivalent to prepare them for the intermediate level through review and development of basic structure and vocabulary. Also for students needing a review of the first year.

Prerequisites & Notes: 2 years high school Japanese; proficiency in hiragana, katakana, and 150 basic kanji
Credits: 5
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 201 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening and speaking skills. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 103 or JAPN 104
Credits: 4
Grade Mode: Letter
GUR Attributes: BCOM

JAPN 202 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening

MODERN AND CLASSICAL LANGUAGES

and speaking skills. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 201

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 203 - Second-Year Japanese

Further fundamental grammar; review of first-year grammar; emphasis on writing, reading, listening and speaking skills. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 202

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 280 - Kanji

Acquisition of 50 kanji per week by way of associative method. Not applicable to the minor. Repeatable to 10 cr. S/U grading.

Credits: 2

Grade Mode: S/U

JAPN 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

JAPN 301 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 203

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 302 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 301

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 303 - Third-Year Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; introduction of colloquial Japanese. Audio-assisted oral practice is an integral part of the course.

Prerequisites & Notes: JAPN 302

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 305 - Japanese Conversation

Development of speaking skills in communicative situations.

Prerequisites & Notes: JAPN 201

Credits: 3

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 314 - Japanese Phonetics

Improvement of pronunciation, familiarization with phonetic transcription, and awareness of pronunciation problems.

Prerequisites & Notes: JAPN 301 or instructor permission

Credits: 4

Grade Mode: Letter

JAPN 330 - Japanese Culture Through Film

Discussion of Japanese culture seen through Japanese films. Topics of discussion involve Japanese psychology, mentality, customs, society and history. This course is conducted in Japanese and is repeatable up to 8 credits.

Prerequisites & Notes: JAPN 203.

Credits: 4

Grade Mode: Letter

JAPN 350 - Japanese Culture, History and Society

This is a survey course that covers a broad scope of Japanese history, culture and society. It will be taught in Japanese but will include some readings and instruction in English when deemed appropriate. It is a requirement for students pursuing a major in Japanese, but other interested students may enroll with the permission of the instructor if space permits. Specific course contents vary according to instructors.

Prerequisites & Notes: JAPN 303 with C+ or better.

Credits: 4

Grade Mode: Letter

JAPN 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be

MODERN AND CLASSICAL LANGUAGES

arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

JAPN 401 - Advanced Japanese

Emphasis on well-rounded development of reading, writing, listening and speaking abilities; targets the advanced materials.

Prerequisites & Notes: JAPN 303; required for majors.

Credits: 4

Grade Mode: Letter

GUR Attributes: ACGM

JAPN 402 - Topics in Japanese Literature

This is a seminar, conducted entirely in Japanese, and is required of students majoring in Japanese. Advanced reading materials in Japanese literature are introduced according to the class discussion schedule. The topic of the seminar varies according to the instructor. Repeatable to a maximum of 8 cr. under advisement.

Prerequisites & Notes: JAPN 401

Credits: 4

Grade Mode: Letter

JAPN 403 - Topics in Japanese Thought

This is a seminar, conducted entirely in Japanese, and is required of students majoring in Japanese. Students are introduced to advanced materials in Japanese thought according to the class discussion schedule. The topic of the seminar varies according to the instructor. This is a writing intensive course.

Prerequisites & Notes: JAPN 401 or equivalent

Credits: 4

Grade Mode: Letter

JAPN 425 - Teaching-Learning Process in Elementary Japanese

Practicum in course preparation, classroom materials, evaluation and counseling. Repeatable up to 4 credits. S/U grading.

Prerequisites & Notes: Written permission of department; JAPN 303 with B or better.

Credits: 2

Grade Mode: S/U

Latin Courses

LAT 101 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Credits: 5

Grade Mode: Letter

LAT 102 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Prerequisites & Notes: LAT 101

Credits: 5

Grade Mode: Letter

LAT 103 - Elementary Latin

Fundamentals of grammar to provide a reading knowledge; selected readings from various Roman writers.

Prerequisites & Notes: LAT 102

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

LAT 201 - Intermediate Latin

To be taken in sequence as the first in an intermediate language sequence. Review of fundamentals; selected readings from various Roman writers; introduction to Roman civilization.

Prerequisites & Notes: LAT 103 or two years of high school Latin

Credits: 5

Grade Mode: Letter

GUR Attributes: BCOM

LAT 202 - Intermediate Latin

To be taken in sequence as the second in an intermediate language sequence. Review of fundamentals; selected readings from various Roman writers; introduction to Roman civilization.

Prerequisites & Notes: LAT 201

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

LAT 203 - Intermediate Latin

To be taken in sequence as the third in an intermediate language sequence. Review of fundamentals; selected readings from Roman writers with an emphasis on honing grammatical skills and understanding Roman literary and cultural achievements.

Prerequisites & Notes: LAT 202 or equivalent.

Credits: 5

Grade Mode: Letter

GUR Attributes: HUM

MODERN AND CLASSICAL LANGUAGES

LAT 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LAT 340 - Classical Roman Literature

Readings in major Roman authors of the late Republican and early Imperial periods; introduction to classical literary analysis.

Prerequisites & Notes: Two years university-level Latin or equivalent.

Credits: 4

Grade Mode: Letter

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Modern and Classical Languages Courses

LANG 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LANG 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

LANG 410 - World Language Instruction: Theory and Method I

To be taken prior to field experience. Theory of world language instruction. Topics include contrastive analysis of English with target language; comparative first and second language acquisition; cognitive, attitudinal and political dimensions.

Prerequisites & Notes: 6 credits in one world language beyond second year; Grade of B or better in LING 201 or instructor permission.

Credits: 4

Grade Mode: S/U

LANG 420 - World Language Instruction: Theory and Method II

To be taken prior to field experience. Methods of world language instruction. Demonstration of and practice with techniques appropriate to a variety of levels. Use, analysis and critique of technology, grammar and translation, audiolingual techniques, and direct methods. Professional development is discussed and analyzed.

Prerequisites & Notes: LANG 410.

Credits: 4

Grade Mode: S/U

LANG 430 - Chinese Language Pedagogy and Practice

The course is designed to help students develop a better understanding of the current theories and practice of Chinese language pedagogy and acquisition, to become acquainted with the National Standards (the five goal areas: communication, cultures, connections, comparisons, and communities and the three

MODERN AND CLASSICAL LANGUAGES

communicative modes: presentational, interpretive and interpersonal) and the teaching materials and methodologies in five major content areas of Chinese language learning (i.e. the pronunciation system, characters, sentences/grammar, discourse, and culture). Students will be given opportunities to design/develop teaching materials (including both language and cultural components) for different levels of classes and to strategize and articulate their courses based on assessment guidelines. This course may also be used as Linguistics 402 for linguistics majors.

Prerequisites & Notes: CHIN 202.

Credits: 4

Grade Mode: Letter

LANG 500 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Portuguese Courses

PORT 105 - Intensive Portuguese for Speakers of Spanish

An accelerated course designed for students with one year of college-level Spanish or equivalent to introduce them to the fundamentals of the language: pronunciation, grammar, aural comprehension, reading and speaking.

Credits: 5

Grade Mode: Letter

PORT 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

Grade Mode: Letter

PORT 304 - Portuguese for Spanish Speakers

An accelerated course designed for students with two years of college-level Spanish or equivalent to prepare them for the advanced level through development of skills in pronunciation, grammar,

aural comprehension, reading and speaking.

Prerequisites & Notes: Two years of college-level Spanish or equivalent.

Credits: 5

Multidisciplinary Studies

Introduction

The Multidisciplinary Studies Major is designed for students seeking a flexible academic focus that transcends disciplinary boundaries. Students may develop a personalized plan of study utilizing resources across multiple departments. The major affords students the opportunity to prepare themselves for work in a variety of areas. In consultation with the Multidisciplinary Studies Advisor, students design their program of study under the Multidisciplinary Studies Major guidelines.

The BA in Multidisciplinary Studies is administered and awarded by the College of Humanities and Social Sciences (CHSS). In keeping with the goals, mission, and standards for all students in CHSS, the Multidisciplinary Studies Major aspires to graduate individuals who: can appreciate cultural differences and differences of opinion; have developed moral and aesthetic sensibilities; have mastered the basic tools of literacy, communication, and technology; have acquired levels of knowledge about the natural and social worlds, past and present, sufficient for responsible citizenship and the enjoyment of a civilized society; and are lifelong learners.

Students interested in pursuing the Multidisciplinary Studies Major should contact the Multidisciplinary Studies Advisor. See chss.wvu.edu/multidisciplinary-studies/multidisciplinary-studies.

Declaration Process

A Multidisciplinary Studies Major is available only through an application process.

1. Students are required to meet with the Multidisciplinary Studies Advisor to develop a plan of study.

2. The plan of study for the proposed Multidisciplinary Studies Major must identify educational objectives and the course planning should be linked to the objectives. A program theme should be developed and designed with advisement from the Multidisciplinary Studies Advisor.
 - a. Students must meet all of the prerequisites for courses in the proposed major. No plan of study will be approved if it is apparent that the student hopes to avoid course prerequisites or sequencing.
 - b. Upper division courses in some departments may not be available due to competitive access with the departmental majors and cannot be included in the plan of study unless some prior arrangement and approval has been granted by the department.
3. Students must obtain final approval of the plan of study from the College of Humanities and Social Sciences through the Multidisciplinary Studies Advisor.
4. Major declaration cards may be picked up from the Multidisciplinary Studies Advisor or are available on the website. The original card, signed by the Multidisciplinary Studies Advisor, must be returned to the Registrar's Office.

Additional Information:

- Fairhaven students may not complete the Multidisciplinary Studies major.
- A Multidisciplinary Studies Major cannot be earned concurrently with another major.
- Any major earned after the degree is awarded may not be based on essentially the same constellation of courses as the student's Multidisciplinary Studies Major.
- Students who have earned a baccalaureate degree at Western cannot major in Multidisciplinary Studies.
- A minor in Multidisciplinary Studies is not offered.

Bachelor of Arts

Multidisciplinary Studies, BA

Program of Multidisciplinary Studies, College of Humanities and Social Sciences

60 Credits

Introduction

MULTIDISCIPLINARY STUDIES

The Multidisciplinary Studies major curriculum will focus on upper division level courses, designed to integrate a student's academic interest and skills.

Why Consider a Multidisciplinary Studies Major?

Western's Multidisciplinary Studies major provides a solid liberal arts education to prepare students for rapidly changing career opportunities in many different fields. It is designed for students whose interests cannot be served by Western's established majors, and who want to focus their major studies across courses and departments to better meet their career goals or preparation for advanced levels of education.

How to Declare (Admission and Declaration Process):

Admission and Declaration of Major

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- 35 upper division level credits in thematic areas requiring Multidisciplinary Studies Advisor approval.
- Examples of thematic areas include:
 - Social Sciences
 - Humanities
 - Sciences
 - Business
 - Health
 - Liberal Arts
- 25 additional credits of electives at the upper division level in any area (including the thematic area)

Additional Requirements

- All courses must be approved on the Plan of Study
- 15 of the 60 credits are credits required after approval of Multidisciplinary Studies Plan of Study
- 10 credits maximum of internship or field experience may be included within the 60 credits.
- Students are limited to no more than 40 upper division credits in any single academic department and students are limited to no more than 44 credits in courses taught in business (classes by the departments of accounting, decision sciences, finance and marketing, and management).
- At least 50 percent of the credits used in the Multidisciplinary Studies major must be earned at Western Washington University.

Multidisciplinary Studies Courses

MDS 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MDS 310 - Work and Leisure through the Ages

From a multidisciplinary studies approach using a variety of media (e.g., literature, video, speakers, discussion, and projects), an historical exploration of work and leisure and their relevance for individuals and society today. Students will understand the historical background of work and leisure in relation to present conditions and future possibilities.

Credits: 4

Grade Mode: Letter

MDS 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

MDS 410 - The Capstone Experience: Past, Present, and Future

The purpose of this course is for students to reflect on, examine, and evaluate their Multidisciplinary Studies major in terms of their futures. Using a variety of media and methods (readings, videos, speakers), students will use a narrative approach to explore their pasts, assess themselves in the present, and imagine their futures. Assignments include homework, in-class activities and writing sessions, a written self-narrative, and a presentation.

Prerequisites & Notes: Multidisciplinary Studies majors only.

Credits: 4

Grade Mode: Letter

MDS 471 - Internship

Supervised professional experience emphasizing functional proficiency under joint sponsorship of University and agency personnel. All students participate at the work site for at least 12 hours per week in the type of activities specified in the internship contract. S/U grading. Repeatable up to 10 credits including original course.

Prerequisites & Notes: Multidisciplinary Studies majors only; permission of instructor.

Credits: 5-10

Grade Mode: S/U

Philosophy

Introduction

Philosophy is among the oldest of intellectual disciplines. Many areas of study now distinct from philosophy — for example, the various sciences — may be regarded as offspring of philosophy which have come of age. Nevertheless, the central philosophical questions remain as vital as ever.

Historically, philosophy has been regarded by many as the most basic of intellectual disciplines; it is the firm conviction of the faculty of the Department of Philosophy that it is among the most relevant. Among the questions dealt with in one philosophy course or another are "What is knowledge?" "What is truth?" "Can we gain knowledge?" "Can we know the truth?" "Are there such things as right and wrong?" "Does God exist?" "What is the nature of the distinction between minds and bodies?" "Are persons machines?" and the like. The department believes that consideration of these and related questions is fundamental to being educated and, as such, should be of interest to all students; moreover, the department believes that many students are sufficiently able and mature intellectually to pursue answers to these questions at an advanced level with profit, and the faculty invite them to join in this pursuit.

The Department of Philosophy offers a wide range of courses in most of the traditional areas of philosophical concern: history of philosophy, ethics, philosophy of religion, metaphysics, to name only a few. A number of courses satisfy General University Requirements. Beyond this, the department offers a major and a minor program in

philosophy. The major program is intentionally one of the smallest in the University to allow students maximum opportunity to explore other areas of interest.

Work in philosophy fits well into many pre-professional programs. It is highly desirable as preparation for law school; indeed, some law schools have historically listed it as the preferred undergraduate major. Emphasizing, as it does, careful, deep, critical analysis of concepts and problems, philosophy is an excellent major for students who will seek positions in business and government which require a liberal arts background.

Recent studies show that students who major in philosophy are among the very highest groups in performance on the Graduate Record and other such qualifying examinations.

DANIEL HOWARD-SNYDER (2001) Professor. BA, Seattle Pacific University; PhD, Syracuse University.

FRANCES HOWARD-SNYDER (1993) Professor. BA, MA, University of Capetown; PhD, Syracuse University.

HUD HUDSON (1992) Professor. BA, Boise State University; MA, PhD, University of Rochester.

NEAL TOGNAZZINI (2014) Associate Professor. BA, Western Washington University; MA, PhD, University of California, Riverside.

DENNIS WHITCOMB (2007) Professor. BS, Kansas State University; PhD, Rutgers University.

Bachelor of Arts

Philosophy, BA

Department of Philosophy, College of Humanities and Social Sciences

57 credits

Introduction

Philosophy is among the oldest of intellectual disciplines. Among the questions dealt with in philosophy courses are "What is knowledge?", "What is truth?", and "Does God exist?" The Philosophy Department believes that consideration of these, and related questions, is fundamental to being educated and, as such, should be of interest to all students. The Department offers a wide range of courses in most of the traditional areas of philosophical concern such as ethics, epistemology, logic, metaphysics, and the history of philosophy.

Why Consider a Philosophy Major?

Work in Philosophy fits well into many pre-professional programs, including law school. Emphasizing, as it does, careful, deep, critical analysis of concepts and problems, Philosophy is an excellent major for students who will seek positions in business and government which require a liberal arts background.

How to Declare (Admission and Declaration Process):

In order to declare as a philosophy major or minor, one must first complete three philosophy courses (or 9 credits), with a C- or better in each of those courses.

Students wishing to declare as a major or minor should contact the Philosophy Department Chair or Academic Department Manager.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

- PHIL 102 - Introduction to Logic **Credits: 3**
- PHIL 112 - Introduction to Philosophy: Moral Issues **Credits: 3**
- PHIL 114 - Introduction to Philosophy: Knowledge and Reality **Credits: 3**
- PHIL 202 - Intermediate Logic **Credits: 3**
- PHIL 310 - Theory of Knowledge **Credits: 3**
- PHIL 320 - Ethical Theory I **Credits: 3**
- PHIL 330 - Metaphysics I **Credits: 3**
- PHIL 364 - History of Philosophy: Ancient Philosophy **Credits: 3**
- PHIL 366 - History of Philosophy: the Rationalists **Credits: 3**
- PHIL 367 - History of Philosophy: the Empiricists **Credits: 3**
- PHIL 410 - Theory of Knowledge II **Credits: 3**
- PHIL 417 - Seminar in Philosophy **Credits: 3**
- PHIL 420 - Ethical Theory II **Credits: 3**
- PHIL 430 - Metaphysics II **Credits: 3**
- 15 additional philosophy credits

Philosophy Courses

PHIL 102 - Introduction to Logic

This course focuses on identifying, extracting, and assessing reasoning in everyday contexts by developing an artificial symbolic language to provide a clear representation of deductive reasoning (i.e. reasoning where the truth of the premises guarantees the truth of the conclusion).

Credits: 3

Grade Mode: Letter

GUR Attributes: QSR

PHIL 107 - Critical Thinking

This course focuses on identifying, extracting, and assessing reasoning in everyday contexts by developing the skills involved in analytical reading, effective communication, and articulating the structure of inductive reasoning (i.e. reasoning where the truth of the premises does not guarantee the truth of the conclusion).

Credits: 3

Grade Mode: Letter

GUR Attributes: BCOM

PHIL 112 - Introduction to Philosophy: Moral Issues

Introduction to philosophical thinking about moral problems. Seeks to understand central moral concepts such as good, right, duty, etc., in the context of contemporary issues.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 113 - Introduction to Philosophy: Philosophy of Religion

Special attention is given to questions about the nature and existence of God. Also examined are such topics as the problem of evil, concepts of faith, religious experience, miracles, etc.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 114 - Introduction to Philosophy: Knowledge and Reality

Emphasis is given to the nature and possibility of knowledge, to related concepts such as truth, belief and evidence, and to selected metaphysical problems.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 115 - Environmental Ethics

This course examines a broad range of environmental issues. Primary emphasis is given to how theoretical frameworks in ethics have been applied in substantive thinking about the rightful treatment of animals, biotic communities, species in danger of extinction, and the protection, conservation, and preservation of natural resources. Emphasis may also be given to how ethical thinking intersects with issues addressed in economics, conservation biology, and other academic disciplines or how ethical perspectives have influenced social movements, public debate, and law.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 202 - Intermediate Logic

This course extends the focus of PHIL 102 to include a more powerful system of natural deduction involving quantifiers, predicates, relations, and identity.

Prerequisites & Notes: PHIL 102

Credits: 3

Grade Mode: Letter

PHIL 300 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

PHIL 310 - Theory of Knowledge

The attempt to understand the possibility, nature, origins and limits of knowledge; problems and concepts.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256.

Credits: 3

Grade Mode: Letter

PHIL 320 - Ethical Theory I

An examination of traditional and contemporary views concerning the overall nature of morality (views such as cognitivism and realism), and also of specific moral theories (such as utilitarianism and contractualism). Other topics include moral rights, moral responsibility and the moral virtues.

Prerequisites & Notes: PHIL 112 or HNRS 255 or instructor permission.

PHILOSOPHY

Credits: 3

Grade Mode: Letter

PHIL 330 - Metaphysics I

A systematic study of the fundamental categories of reality, such as existence, substance, property, identity, space, time, change, event, causality, necessity, essence, free will and mind. The philosophical issues in which these categories play a part also will be discussed.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256.

Credits: 3

Grade Mode: Letter

PHIL 335 - Philosophy of Religion

Philosophy of religion and philosophical theology at an advanced level. Topics may include arguments for and against the existence of God, the attributes of God, religious pluralism, religion and science, religion and ethics, miracles, and the epistemology of religious belief.

Prerequisites & Notes: PHIL 102, PHIL 113

Credits: 3

Grade Mode: Letter

PHIL 340 - Philosophy of Science

An examination of the basic methods and concepts of the sciences through the study of such topics as explanation, confirmation, causality, probability, laws of nature, theories, revolution, reduction and realism.

Prerequisites & Notes: PHIL 102; PHIL 114 or HNRS 256; or instructor permission

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 350 - Political Philosophy

The nature of the state, and of the institutions and practices of which it is comprised; the basis and scope of political obligation, the proper role of political activity; considerations of concepts of sovereignty, legitimacy, limits of state power, representation, social justice, oppression and the like.

Prerequisites & Notes: Any one Philosophy course or HNRS 201.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 355 - Aesthetics and the Philosophy of Art

Examination of the concept of art and related concepts, and also of aesthetic evaluation and interpretation as they apply to nature and to

human artifacts.

Prerequisites & Notes: One philosophy course

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 360 - Society, Law and Morality

Concepts and principles involved in analysis and appraisal of social institutions with attention to freedom, rights, justice, and the relation between laws and morality.

Prerequisites & Notes: An one philosophy course or HNRS 255 or HNRS 256.

Credits: 3

Grade Mode: Letter

GUR Attributes: HUM

PHIL 364 - History of Philosophy: Ancient Philosophy

Great philosophical thinkers from the pre-Socratic philosophers to the Hellenistic period; special attention to Plato and Aristotle.

Prerequisites & Notes: Any one philosophy course or HNRS 255 or HNRS 256.

Credits: 3

Grade Mode: Letter

PHIL 366 - History of Philosophy: the Rationalists

Great philosophical thinkers in the rationalist tradition, their problems and their methods: Descartes, Spinoza, Leibniz, et al.

Prerequisites & Notes: PHIL 114 or HNRS 256.

Credits: 3

Grade Mode: Letter

PHIL 367 - History of Philosophy: the Empiricists

Great philosophical thinkers in the empiricist tradition, their problems and their methods: Locke, Berkeley, Hume, et al.

Prerequisites & Notes: PHIL 114 or HNRS 256.

Credits: 3

Grade Mode: Letter

PHIL 368 - History of Philosophy: Kant and Post-Kantian Philosophy

Kant and post-Kantian philosophers, their problems and their methods: Kant, Fichte, Hegel, Schopenhauer, Nietzsche. Normally offered in odd-numbered academic years.

Prerequisites & Notes: PHIL 114

Credits: 3

Grade Mode: Letter

PHIL 370 - History of Philosophy: Special Topics

An examination of selected philosophical thinkers and/or topics from the history of philosophy. Repeatable with different topics up to 9 credits including original course.

Prerequisites & Notes: One from: PHIL 102, PHIL 107, PHIL 112, PHIL 113, PHIL 114 or PHIL 115.

Credits: 3

Grade Mode: Letter

PHIL 400 - Directed Independent Study

An individualized course of study not available through or replacing existing curriculum, to be arranged between one matriculating student and sponsoring faculty member. All academic policies and registration deadlines apply. Directed Independent Study courses cannot substitute for General University Requirements and are not eligible for tuition waiver.

Credits: 1-15

PHIL 403 - Philosophy of Language

An examination of the nature of language through the study of such topics as truth, reference, meaning, use, convention, language's differences from other forms of communication and representation, and language's relations to thought and reality. The relevance of theories on these topics to selected philosophical issues also will be discussed.

Prerequisites & Notes: PHIL 202

Credits: 3

Grade Mode: Letter

PHIL 410 - Theory of Knowledge II

An intensive examination of selected topics and methods in epistemology.

Prerequisites & Notes: PHIL 310

Credits: 3

Grade Mode: Letter

PHIL 417 - Seminar in Philosophy

Examination of a special topic, a particular philosophical issue or the writings of a specific philosopher. Repeatable for credit, but not as a substitute for PHIL 403 or 425.

Prerequisites & Notes: 3 upper-division PHIL courses

Credits: 3

Grade Mode: Letter

PHIL 420 - Ethical Theory II

An intensive examination of selected topics and methods in ethical theory.

Prerequisites & Notes: PHIL 320

Credits: 3

Grade Mode: Letter

PHIL 425 - Philosophy of Mind

A study of the mind through the examination of such topics as the mind-body problem, intentionality, consciousness, 'qualia,' introspection and knowledge of other minds. Philosophical theories on these topics - such as dualism, behaviorism, type physicalism, functionalism and eliminativism.

Prerequisites & Notes: PHIL 114.

Credits: 3

Grade Mode: Letter

PHIL 430 - Metaphysics II

An intensive examination of selected topics and methods in metaphysics.

Prerequisites & Notes: PHIL 330

Credits: 3

Grade Mode: Letter

Political Science

Introduction

Politics and government affect us all. What we do, and what we think, is affected by the decisions and actions of state, local and national governmental institutions and political leaders. The objectives and policies of foreign countries also can affect our daily lives, particularly during periods of international tension and war. Political science is one of the oldest fields of academic inquiry. Social ideals and their realization through law were systematically studied in ancient Greece. In an increasingly interdependent world, the study of politics and government has flourished as the relations between persons, groups and nations have become more complex, and questions of freedom and authority have challenged every citizen. Modern political science is equally concerned with questions of political philosophy and with the pursuit of social scientific research. These concerns are reflected in a broad and diverse curriculum.

The political science faculty is committed to the belief that understanding politics and government is essential to a well-educated person, vital to democratic citizenship, indispensable to effective public service, and critical to the maintenance and ethical progress of a free society. The political science curriculum prepares students for careers in public service-related occupations in both government and business. Many students majoring in political science go on to law school, graduate school and into the professions; many others who are not majors take political science courses as an essential part of their liberal arts education.

Faculty

AMIR ABEDI (2003) Chair. Professor. BA, University of Hanover, Germany; MA, PhD, University of British Columbia.

DEBRA J. SALAZAR (1990) Professor. BS, University of California-Berkeley; MS, PhD, University of Washington.

MICHAEL J. WOLFF (2016) Assistant Professor. BA, MA, Ph.D. University of New Mexico.

The department's faculty and staff invite questions about the program and its career potential. Persons seeking more information should visit the department in Arntzen Hall or call 360-650-3469. Written inquiries should be directed to the Department of Political Science, Western Washington University, Bellingham, Washington 98225-9082.

Declaration Process

Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses: PLSC 250, PLSC 261, PLSC 271, PLSC 291, or the equivalent course(s) at another college or university. Due to high student demand and limited enrollment capacity, immediate access to specific courses cannot be guaranteed. Priority is given to seniors and juniors who need courses to graduate. Students should stop by the political science department office, Arntzen Hall 415, and an advisor will review their transcripts and assist them in completing the declaration process.

Other Departmental Information

The Curricula

The political science department offers several curricula leading to the Bachelor of Arts. These curricula are listed below, and their details are set forth following the list of the department faculty.

- Bachelor of Arts
 - Majors: political science, political science/economics, politics/philosophy/economics, political science/social studies.

- o Minors: political science, Canadian-American studies, East Asian studies

Internships

Students are encouraged to obtain internships in state, local or national government agencies, political parties and interest groups. Initial contact with the intern coordinator should usually be at least one quarter in advance of registration if the student is interested in a local internship. In the case of state and federal agencies, longer lead times are necessary, and contact with the intern coordinator should be at least two quarters in advance of registration. Credit may be divided over two quarters where the internship placement requires a commitment of more than 10 weeks. No more than 10 credits of internship and independent study, combined, may be counted toward the major.

To qualify for an internship, requirements are:

- Completion of the core field requirements for the political science major (PLSC 250, PLSC 261, PLSC 271 and PLSC 291)
- Completion of at least one advanced course in the field of study to which the internship most closely relates
- Acceptability to the agency

Independent Study

Students wishing to pursue research and directed reading in areas of the discipline where they have had prior course work may apply to do independent study projects. Enrollment is with the consent of the instructor and the chair. No more than 10 credits of independent study and internship, combined, may be counted toward the major.

Bachelor of Arts

Economics/Political Science, BA (see Economics Department)

Economics/Political Science, BA (see Economics Department)

Political Science, BA

How to Declare (Admission and Declaration Process):

Students are eligible to declare the political science major and any of the majors combined with political science if they have completed any two of the following core courses: PLSC 250, 261, 271, 291, or the equivalent course(s) at another college or university. Due to high student demand and limited capacity, immediate access to specific courses cannot be guaranteed. Priority is given to seniors and juniors who need courses to graduate. Students should stop by the political science department office, Arntzen Hall 415, and an advisor will review their transcripts and assist them in completing the declaration process.

Grade Requirements

A grade of C- or better is required for a student's major or minor courses, and supporting courses for majors and minors.

Requirements

PLSC 101, 435, 443, 444, 447 and 448 credits apply toward the major but do not count in any field. No more than 10 credits of internship or independent study may be counted toward the major.

Core courses in each of the four fields are required. They are:

PLSC 250 for American Politics and Public Policy

PLSC 261 for Political Theory

PLSC 271 for International Relations

PLSC 291 for Comparative Politics

Students must complete:

One upper division course in any two fields (no course may count for more than one field)

One course from:

PLSC 431, PLSC 432, PLSC 433, PLSC 434

Balance of required 60 credits in any Political Science courses

Courses in the four fields are organized as follows:

□ American Politics and Public Policy:

PLSC 250 - The American Political System **Credits: 5**

PLSC 311 - Introduction to Law and the Legal System **Credits: 5**

PLSC 313 - Law, Courts, Politics, Society: Non-legal Perspectives of Law **Credits: 5**

PLSC 314 - The U.S. Supreme Court: Law and Politics **Credits: 5**

PLSC 321 - Queer and Lesbian Gay Bisexual Transgender Politics **Credits: 5**

PLSC 323 - African American Politics **Credits: 4**

PLSC 327 - Urban Politics and Policy in the U.S. **Credits: 4**

PLSC 330 - American Democracy and the Politics of Education **Credits: 5**

 - PLSC 453 - Comparative Electoral Systems **Credits:** 4
 - PLSC 491 - Issues in Political Economy **Credits:** 4

POLITICAL SCIENCE

Departmental Honors

Entrance requirements

Students must satisfy the following eligibility requirements prior to registration for PLSC 496 Honors Tutorial. The student must:

- Be a declared political science major with senior standing
- Have a 3.50 GPA in all upper-division political science courses
- Have completed both of the following:
 - Core requirements for the major (PLSC 250, PLSC 261, PLSC 271 and PLSC 291)
